

MERGED

PODCAST

1
00:00:04,670 --> 00:00:03,230
hi my name is Ryan Graves and I used to

2
00:00:07,430 --> 00:00:04,680
fly one of the world's most advanced

3
00:00:10,370 --> 00:00:07,440
fighter jets the F-18 Super Hornet

4
00:00:13,190 --> 00:00:10,380
in 2014 our sensors regularly detected

5
00:00:15,289 --> 00:00:13,200
unidentified Aerospace phenomenon or UAP

6
00:00:17,510 --> 00:00:15,299
in our working areas off the coast of

7
00:00:18,890 --> 00:00:17,520
Virginia Beach there were so many out

8
00:00:21,529 --> 00:00:18,900
there that we even had to cancel our

9
00:00:25,009 --> 00:00:21,539
training missions and by 2021 there were

10
00:00:26,929 --> 00:00:25,019
11 documented near misses with UAP since

11
00:00:29,269 --> 00:00:26,939
our sightings I've kept asking about our

12
00:00:32,089 --> 00:00:29,279
experiences to continue the conversation

13
00:00:33,350 --> 00:00:32,099

I've created merged a podcast exploring

14

00:00:35,810 --> 00:00:33,360

the phenomenon through the lens of

15

00:00:38,030 --> 00:00:35,820

Pilots scientists and innovators to

16

00:00:40,010 --> 00:00:38,040

enable rational science first yet

17

00:00:42,049 --> 00:00:40,020

radically open-minded exploration of the

18

00:00:44,209 --> 00:00:42,059

phenomena and the efforts underway to

19

00:00:46,430 --> 00:00:44,219

understand it this is an engineering

20

00:00:48,529 --> 00:00:46,440

problem not sci-fi more than just a

21

00:00:50,450 --> 00:00:48,539

podcast merges for people ready to make

22

00:00:52,549 --> 00:00:50,460

a difference on the UAP topic we're

23

00:00:54,189 --> 00:00:52,559

creating a platform for Pilots past and

24

00:00:57,049 --> 00:00:54,199

present to share their experiences
