Cuz people often need
outside validation, not

1
00:00:04,850 --> 00:00:02,869
this is an existential change in how it

2
00:00:06,590 --> 00:00:04,860
is that Humanity sees itself and so

3
00:00:08,870 --> 00:00:06,600
whether or not you're religious or

4
00:00:10,730 --> 00:00:08,880
whether you're a religious changing

5
00:00:13,070 --> 00:00:10,740
where you are in the hierarchy of things

6
00:00:14,509 --> 00:00:13,080
is an important change in your

7
00:00:17,150 --> 00:00:14,519
psychological structure so there's

8
00:00:19,490 --> 00:00:17,160
always going to be pushback on that

9
00:00:22,310 --> 00:00:19,500
mentally but also there's the crowd

10
00:00:23,990 --> 00:00:22,320
effect that happens individually I can

11
00:00:25,490 --> 00:00:24,000
talk to a scientist and they're all open

12
00:00:27,170 --> 00:00:25,500
on the idea and they want to know

13
00:00:28,730 --> 00:00:27,180

everything about it but in the crowd

14
00:00:29,870 --> 00:00:28,740
they become another person and so I

15
00:00:32,210 --> 00:00:29,880
think there's a little bit of that kind

16
00:00:36,110 --> 00:00:32,220
of psychology going on because people

17
00:00:38,209 --> 00:00:36,120
often need outside validation not just

18
00:00:40,310 --> 00:00:38,219
on these ideas but for themselves and so

19
00:00:42,290 --> 00:00:40,320
the more we start to see other

20
00:00:43,790 --> 00:00:42,300
individuals outside in the community at

21
00:00:46,069 --> 00:00:43,800
large who are saying this is okay to

22
00:00:47,690 --> 00:00:46,079
talk about the further than those who

23
00:00:50,150 --> 00:00:47,700
are on the inside will feel comfortable
