

A man with a bald head, wearing a blue and white plaid button-down shirt, is speaking into a professional microphone. The background is heavily blurred, showing a green plant and a light-colored wall. The scene is lit with soft, indoor lighting. The man's expression is neutral as he speaks.

And I didn't see anything.

1
00:00:04,730 --> 00:00:03,110
so we're at 47 000 feet so we're above

2
00:00:07,430 --> 00:00:04,740
everybody nobody's going to go that high

3
00:00:09,410 --> 00:00:07,440
nobody does what did you see

4
00:00:11,990 --> 00:00:09,420
so I just happened to look out and I saw

5
00:00:13,310 --> 00:00:12,000
a light circling and I thought it's got

6
00:00:14,690 --> 00:00:13,320
to be another aircraft and then I saw

7
00:00:16,910 --> 00:00:14,700
another one coming behind it and it was

8
00:00:18,470 --> 00:00:16,920
almost two lights doing a 180 there were

9
00:00:20,750 --> 00:00:18,480
probably eight or ten thousand feet

10
00:00:22,250 --> 00:00:20,760
above us I mean they were pretty high so

11
00:00:23,269 --> 00:00:22,260
the first thing I did when I saw it as I

12
00:00:24,650 --> 00:00:23,279
looked down a traffic collision

13
00:00:26,390 --> 00:00:24,660

avoidance system and I looked down to

14

00:00:27,470 --> 00:00:26,400

see if anybody was above us and I didn't

15

00:00:28,970 --> 00:00:27,480

see anything then all of a sudden there

16

00:00:31,009 --> 00:00:28,980

were three lights so I called air

17

00:00:32,870 --> 00:00:31,019

traffic control and I just asked hey

18

00:00:34,130 --> 00:00:32,880

what's going on and air traffic control

19

00:00:35,990 --> 00:00:34,140

came back and said no no we have nothing

20

00:00:37,190 --> 00:00:36,000

on the radar this is where it gets a

21

00:00:39,110 --> 00:00:37,200

little weird I thought it was a shooting

22

00:00:40,850 --> 00:00:39,120

star it actually stopped and joined the

23

00:00:42,770 --> 00:00:40,860

formation and that that's the one that

24

00:00:45,410 --> 00:00:42,780

real I was like what the heck they were

25

00:00:47,450 --> 00:00:45,420

orbiting following us so if they were

26

00:00:50,630 --> 00:00:47,460

following us they had to be whatever the

27

00:00:51,770 --> 00:00:50,640

maneuvering speed was for the track I
