

**I was using the radar  
and I was able to pick**

**M E R G E D**  
PODCAST

**I wa**

**radar**

1  
00:00:03,710 --> 00:00:02,149  
I got an email from a variety of

2  
00:00:05,690 --> 00:00:03,720  
different people in different fighter

3  
00:00:07,970 --> 00:00:05,700  
squadrons on base and they were saying

4  
00:00:09,950 --> 00:00:07,980  
that they were spotting these craft out

5  
00:00:12,110 --> 00:00:09,960  
in the working areas and very shortly

6  
00:00:14,390 --> 00:00:12,120  
thereafter I classed up and started

7  
00:00:16,070 --> 00:00:14,400  
retraining the F-18 and I was in the

8  
00:00:17,990 --> 00:00:16,080  
wingman position flying out to the area

9  
00:00:19,970 --> 00:00:18,000  
and as we got out to the area my flight

10  
00:00:21,529 --> 00:00:19,980  
lead was picking up all these contacts

11  
00:00:23,269 --> 00:00:21,539  
all around the airspace that we were

12  
00:00:24,830 --> 00:00:23,279  
supposed to have to us that day I was

13  
00:00:26,870 --> 00:00:24,840

using the radar and I was able to pick

14

00:00:28,849 --> 00:00:26,880

one of these up take an acquisition and

15

00:00:30,230 --> 00:00:28,859

then I trained my Flier to it it was

16

00:00:32,630 --> 00:00:30,240

fairly far away I don't remember the

17

00:00:34,670 --> 00:00:32,640

exact range but it looked just like a

18

00:00:37,069 --> 00:00:34,680

sphere and we ended up having to cancel

19

00:00:38,510 --> 00:00:37,079

that event because there were so many of

20

00:00:40,369 --> 00:00:38,520

these out throughout the working areas

21

00:00:42,350 --> 00:00:40,379

and when we got back filled out a form

22

00:00:44,389 --> 00:00:42,360

with that largely saying congratulations

23

00:00:46,549 --> 00:00:44,399

to our adversaries for discovering a way

24

00:00:47,869 --> 00:00:46,559

to disrupt Naval Aviation training a lot

25

00:00:49,310 --> 00:00:47,879

of other people were seeing these out
