ed.

1
00:00:05,150 --> 00:00:02,629
with astronomy there is like dark matter

2
00:00:07,490 --> 00:00:05,160
and dark energy this has been shown to

3
00:00:09,410 --> 00:00:07,500
make up a vast majority of our universe

4
00:00:11,030 --> 00:00:09,420
but scientists really don't know what's

5
00:00:12,830 --> 00:00:11,040
going on with it there's a whole study

6
00:00:16,010 --> 00:00:12,840
about trying to figure out what exactly

7
00:00:18,109 --> 00:00:16,020
that is and for some reason that is fine

8
00:00:19,730 --> 00:00:18,119
to do when we don't understand something

9
00:00:21,769 --> 00:00:19,740
okay let's look into it but when it

10
00:00:23,630 --> 00:00:21,779
comes to UAP that same logic isn't

11
00:00:26,269 --> 00:00:23,640
applied and I think this kind of has to

12
00:00:28,189 --> 00:00:26,279
play into what I might foresee as a

13
00:00:29,810 --> 00:00:28,199

paradigm shift occurring in the future

14

00:00:33,170 --> 00:00:29,820

if we would make more progress a

15

00:00:35,569 --> 00:00:33,180

paradigm is basically a belief system or

16

00:00:37,069 --> 00:00:35,579

theory that provides like a unifying

17

00:00:39,470 --> 00:00:37,079

explanation for a set of phenomena

18

00:00:41,630 --> 00:00:39,480

paradigms are upheld in numerous ways

19

00:00:43,369 --> 00:00:41,640

one being the power of authority we also

20

00:00:46,369 --> 00:00:43,379

have the Human Experience we are

21

00:00:48,470 --> 00:00:46,379

emotionally attached to certain ideas we

22

00:00:51,049 --> 00:00:48,480

also have denialism when it comes with

23

00:00:53,930 --> 00:00:51,059

coping with cognitive dissonance we also

24

00:00:55,250 --> 00:00:53,940

have this taboo stigma and ridicule that
