

A promotional image for the 'MERGED' podcast. It features two men, one with dark hair and a beard on the left, and one who is bald on the right. Both are smiling and looking towards each other. They are positioned in front of two professional microphones. The background is a dark, textured blue-green. The main text 'EXPAND YOUR VIEW ON REALITY' is centered in a large, gold, serif font.

PODCAST

1  
00:00:04,130 --> 00:00:02,330  
the Publix is extremely interested in

2  
00:00:06,769 --> 00:00:04,140  
the subject yet there's little use

3  
00:00:08,509 --> 00:00:06,779  
coverage we governments has been silent

4  
00:00:10,549 --> 00:00:08,519  
but also contradictory on this topic

5  
00:00:12,110 --> 00:00:10,559  
this UAP phenomenal that appears to some

6  
00:00:14,089 --> 00:00:12,120  
people and not others so their

7  
00:00:15,470 --> 00:00:14,099  
contributions but that's why one of the

8  
00:00:17,810 --> 00:00:15,480  
reasons that I'm super interested in

9  
00:00:20,090 --> 00:00:17,820  
size 2.0 happy justice as I call it and

10  
00:00:22,370 --> 00:00:20,100  
try to resolve paradoxes to see what's

11  
00:00:30,710 --> 00:00:22,380  
underneath paradoxes that's a place that

12  
00:00:36,410 --> 00:00:33,650  
welcome to merge I'm Ryan Graves today

13  
00:00:37,790 --> 00:00:36,420

we're joined by Kurt and jamungo Kurt is

14

00:00:39,290 --> 00:00:37,800

a filmmaker with a background in

15

00:00:41,030 --> 00:00:39,300

mathematical physics from the University

16

00:00:42,590 --> 00:00:41,040

of Toronto

17

00:00:45,170 --> 00:00:42,600

as the host of theories of everything

18

00:00:47,569 --> 00:00:45,180

podcast Kurt dissects topics on

19

00:00:49,130 --> 00:00:47,579

theoretical physics Consciousness God

20

00:00:51,229 --> 00:00:49,140

free will

21

00:00:53,330 --> 00:00:51,239

all the profound questions we tend to

22

00:00:54,590 --> 00:00:53,340

outwardly ignore but inwardly wrestle

23

00:00:56,330 --> 00:00:54,600

with

24

00:00:58,670 --> 00:00:56,340

today we explore how theories of

25

00:01:01,549 --> 00:00:58,680

everything consciousness

26

00:01:04,369 --> 00:01:01,559

and UAP three of Kurt's areas of

27

00:01:05,509 --> 00:01:04,379

Interest relate or don't relate to each

28

00:01:07,730 --> 00:01:05,519

other

29

00:01:09,230 --> 00:01:07,740

I hope you enjoy this episode of the

30

00:01:13,010 --> 00:01:09,240

merge podcast

31

00:01:18,590 --> 00:01:15,230

sadly a large majority of this interview

32

00:01:20,330 --> 00:01:18,600

is lost to a technical issue however due

33

00:01:22,010 --> 00:01:20,340

to the magic of modern AI we've been

34

00:01:24,050 --> 00:01:22,020

able to recover large portions of the

35

00:01:26,210 --> 00:01:24,060

audio although it is far below our

36

00:01:28,490 --> 00:01:26,220

personal standards we elected to still

37

00:01:31,070 --> 00:01:28,500

air this episode imperfections included

38

00:01:32,630 --> 00:01:31,080

as the tools improve we're hoping to be

39

00:01:34,910 --> 00:01:32,640

able to upload an improved version over

40

00:01:36,469 --> 00:01:34,920

time thanks for bearing with us I hope

41

00:01:37,910 --> 00:01:36,479

you enjoyed this episode of the merge

c-o-e-u-s dot Institute well Kurt thank

59  
00:02:16,190 --> 00:02:14,760  
you for joining me here today you can

60  
00:02:18,350 --> 00:02:16,200  
have your own podcasts would you

61  
00:02:20,869 --> 00:02:18,360  
introduce us to to what that podcast is

62  
00:02:22,250 --> 00:02:20,879  
and what you study sure so thanks

63  
00:02:23,449 --> 00:02:22,260

firstly right it's great to meet you

64

00:02:25,369 --> 00:02:23,459

McPherson

65

00:02:27,050 --> 00:02:25,379

the podcast is called theories of

66

00:02:28,850 --> 00:02:27,060

everything and it's about physics and

67

00:02:30,470 --> 00:02:28,860

math and Consciousness but his theories

68

00:02:32,030 --> 00:02:30,480

of everything from a theoretical physics

69

00:02:34,250 --> 00:02:32,040

perspective but then also other

70

00:02:35,809 --> 00:02:34,260

understanding or trying to asserting

71

00:02:37,729 --> 00:02:35,819

what the fundamental laws are what does

72

00:02:40,130 --> 00:02:37,739

fundamental be we interview several

73

00:02:43,070 --> 00:02:40,140

scientists spread merely professors and

74

00:02:45,830 --> 00:02:43,080

then I became intrigued by the UFO topic

75

00:02:48,949 --> 00:02:45,840

or uat topic by the way what do you call

76

00:02:51,949 --> 00:02:48,959

it you falling maybe UAV uh that's the

77

00:02:53,570 --> 00:02:51,959

nomenclature I use and the definition as

78

00:02:56,390 --> 00:02:53,580

of recently has been updated to

79

00:02:58,369 --> 00:02:56,400

unidentified a novel as phenomenon so

80

00:03:00,350 --> 00:02:58,379

the acronym Remains the Same although

81

00:03:02,509 --> 00:03:00,360

the definition is slightly more uh

82

00:03:05,150 --> 00:03:02,519

domain agnostic and good setting right

83

00:03:07,670 --> 00:03:05,160

around and we've updated uh within the

84

00:03:11,149 --> 00:03:07,680

uh AIA UAP immigration Outreach

85

00:03:13,369 --> 00:03:11,159

committee we utilize anomalous as our

86

00:03:15,350 --> 00:03:13,379

definition of UAP as well so that's our

87

00:03:16,790 --> 00:03:15,360

work and definition so it includes

88

00:03:20,089 --> 00:03:16,800

submerged

89

00:03:22,490 --> 00:03:20,099

is Dominion agnostic

90

00:03:25,790 --> 00:03:22,500

and knowledge anywhere so very good so

91

00:03:27,530 --> 00:03:25,800

you're looking really at kind of uh our

92

00:03:29,690 --> 00:03:27,540

the unknown of Science and where the

93

00:03:31,490 --> 00:03:29,700

direction we can take our understanding

94

00:03:34,430 --> 00:03:31,500

to kind of combine all our district

95

00:03:37,070 --> 00:03:34,440

theories such as uh you know uh general

96

00:03:39,290 --> 00:03:37,080

relativity with perhaps the quantum

97

00:03:41,210 --> 00:03:39,300

world and all these other areas so

98

00:03:42,710 --> 00:03:41,220

what's what's your educational or

99

00:03:44,330 --> 00:03:42,720

professional background that led you on

100

00:03:46,910 --> 00:03:44,340

to that topic

101  
00:03:49,670 --> 00:03:46,920  
I have a background in math and physics

102  
00:03:50,750 --> 00:03:49,680  
mathematical physics so I've always been

103  
00:03:52,369 --> 00:03:50,760  
interested in theories of everything

104  
00:03:54,830 --> 00:03:52,379  
since I was a kid

105  
00:03:57,110 --> 00:03:54,840  
then when I left University I went into

106  
00:03:58,789 --> 00:03:57,120  
filmmaking but at the sink but I've

107  
00:04:00,830 --> 00:03:58,799  
always

108  
00:04:02,089 --> 00:04:00,840  
extremely interested in told theories of

109  
00:04:04,729 --> 00:04:02,099  
everything great because I use the

110  
00:04:06,770 --> 00:04:04,739  
attacker needs

111  
00:04:09,050 --> 00:04:06,780  
so then

112  
00:04:10,429 --> 00:04:09,060  
even in my films there was elements of

113  
00:04:12,649 --> 00:04:10,439

math and physics that are certain

114

00:04:14,449 --> 00:04:12,659

analytical mindset The Logical basis

115

00:04:16,189 --> 00:04:14,459

that underlies mathematism into

116

00:04:17,750 --> 00:04:16,199

something creative then during the

117

00:04:20,569 --> 00:04:17,760

pandemic I thought I saw several

118

00:04:21,830 --> 00:04:20,579

interviews of Donald Hoffman well not so

119

00:04:23,030 --> 00:04:21,840

I saw some introduced with Donald

120

00:04:25,370 --> 00:04:23,040

Hoffman

121

00:04:28,010 --> 00:04:25,380

and he makes claims about Consciousness

122

00:04:29,710 --> 00:04:28,020

and how it relates to physics and people

123

00:04:32,270 --> 00:04:29,720

were asking him questions at a fairly

124

00:04:34,670 --> 00:04:32,280

superficial level I found and I thought

125

00:04:36,530 --> 00:04:34,680

well hey if he's talking about if he's

126

00:04:38,930 --> 00:04:36,540

saying that this is based in papers the

127

00:04:41,030 --> 00:04:38,940

math and physics I can read those papers

128

00:04:42,950 --> 00:04:41,040

and asking those questions specifically

129

00:04:45,170 --> 00:04:42,960

about the equations

130

00:04:46,850 --> 00:04:45,180

so I did that and that became successful

131

00:04:48,890 --> 00:04:46,860

and I thought okay well this is like

132

00:04:51,710 --> 00:04:48,900

bang all my cylinders my filmmaking

133

00:04:54,650 --> 00:04:51,720

skills my analytical mindset

134

00:04:56,330 --> 00:04:54,660

my interest my heavy follows my

135

00:04:57,770 --> 00:04:56,340

obsessive interest up to towels into

136

00:05:01,189 --> 00:04:57,780

theories of everything

137

00:05:02,570 --> 00:05:01,199

so it's just a a blessing that it's

138

00:05:04,730 --> 00:05:02,580

taken off

139

00:05:06,110 --> 00:05:04,740

do you see you know these three kind of

140

00:05:08,570 --> 00:05:06,120

regimes that you talk about theories of

141

00:05:10,790 --> 00:05:08,580

everything Consciousness and now UAP to

142

00:05:12,530 --> 00:05:10,800

some degree uh at least on the first two

143

00:05:14,210 --> 00:05:12,540

uh do you feel that they're directly

144

00:05:16,610 --> 00:05:14,220

related you can have one without the

145

00:05:18,230 --> 00:05:16,620

other or two typically cautious as part

146

00:05:20,150 --> 00:05:18,240

of Theory of Everything as we would

147

00:05:23,330 --> 00:05:20,160

understand it

148

00:05:25,070 --> 00:05:23,340

treacherous question so okay so what

149

00:05:26,570 --> 00:05:25,080

you're saying is there's the physics

150

00:05:28,129 --> 00:05:26,580

theories of everything quantum mechanics

151

00:05:29,930 --> 00:05:28,139

General relatively how to put those two

152

00:05:31,909 --> 00:05:29,940

together which by the way that's the way

153

00:05:33,950 --> 00:05:31,919

that is explained to the public but

154

00:05:35,570 --> 00:05:33,960

that's not always the way it could be

155

00:05:37,490 --> 00:05:35,580

driven to put fret out unless you put it

156

00:05:39,350 --> 00:05:37,500

as that step and then you say okay does

157

00:05:41,390 --> 00:05:39,360

Consciousness fit in and then if so does

158

00:05:43,610 --> 00:05:41,400

u18 spit in is that the question well we

159

00:05:45,469 --> 00:05:43,620

get to Europe's later but uh these are

160

00:05:47,570 --> 00:05:45,479

these areas that you've been interfacing

161

00:05:49,310 --> 00:05:47,580

with on your podcast so you know how do

162

00:05:52,129 --> 00:05:49,320

you tie them together for your storyline

163

00:05:54,650 --> 00:05:52,139

the question is like what is a theory of

164

00:05:56,570 --> 00:05:54,660

everything so physicist reason as what

165

00:05:58,370 --> 00:05:56,580

are the fundamental laws such as that

166

00:06:01,189 --> 00:05:58,380

every other phenomenon is some large

167

00:06:02,749 --> 00:06:01,199

scale limit of those laws and hopefully

168

00:06:05,930 --> 00:06:02,759

you can be falsified the theory can be

169

00:06:08,629 --> 00:06:05,940

falsified and provides

170

00:06:10,969 --> 00:06:08,639

new predictions

171

00:06:12,830 --> 00:06:10,979

dead

172

00:06:14,210 --> 00:06:12,840

from a more philosophical's perspective

173

00:06:16,490 --> 00:06:14,220

you're wondering well what is everything

174

00:06:18,950 --> 00:06:16,500

does that include Consciousness does

175

00:06:20,749 --> 00:06:18,960

that include fault everything what I'm

176

00:06:22,490 --> 00:06:20,759

interested in what is a thing as well

177

00:06:24,050 --> 00:06:22,500

what the heck is a thing forget about

178

00:06:25,730 --> 00:06:24,060

everything what is the thing so as Carl

179

00:06:29,270 --> 00:06:25,740

first and Jacques valet also talks about

180

00:06:33,650 --> 00:06:31,070

and then also what's the opposite of a

181

00:06:35,510 --> 00:06:33,660

thing what is nothing what is nothing

182

00:06:37,790 --> 00:06:35,520

it's a song

183

00:06:39,770 --> 00:06:37,800

in South a bit Easter but the Easter

184

00:06:40,670 --> 00:06:39,780

concept of nothingness point quote it's

185

00:06:44,029 --> 00:06:40,680

not

186

00:06:45,350 --> 00:06:44,039

of lack of so it's it's extremely tricky

187

00:06:47,510 --> 00:06:45,360

yo

188

00:06:49,610 --> 00:06:47,520

I'm investigating from several

189

00:06:51,590 --> 00:06:49,620

perspectives and I feel like we think

190

00:06:53,749 --> 00:06:51,600

that it's this it's explained to the

191

00:06:55,610 --> 00:06:53,759

public like there's Quantum field Theory

192

00:06:57,409 --> 00:06:55,620

or the standard model and it's like a

193

00:06:59,390 --> 00:06:57,419

jigsaw puzzle and there's gender Federal

194

00:07:00,230 --> 00:06:59,400

and so we're trying here nope doesn't

195

00:07:02,090 --> 00:07:00,240

fit

196

00:07:04,309 --> 00:07:02,100

so we're trying over here no because of

197

00:07:05,749 --> 00:07:04,319

it so maybe it fits from some other

198

00:07:08,689 --> 00:07:05,759

angle that we have a dried or maybe it's

199

00:07:10,969 --> 00:07:08,699

a multi-dimensional objects

200

00:07:12,469 --> 00:07:10,979

but then I'm also thinking the more that

201  
00:07:14,090 --> 00:07:12,479  
I investigate this the more I see that's

202  
00:07:16,249 --> 00:07:14,100  
fight perhaps it's not like this this

203  
00:07:18,770 --> 00:07:16,259  
they're adjacent perhaps in order

204  
00:07:20,390 --> 00:07:18,780  
perhaps this this piece this quantum

205  
00:07:21,830 --> 00:07:20,400  
mechanics piece fits in with this hot

206  
00:07:24,350 --> 00:07:21,840  
which gets into that but which fits into

207  
00:07:25,850 --> 00:07:24,360  
General today as we think we're just one

208  
00:07:27,650 --> 00:07:25,860  
step removed and perhaps we're at three

209  
00:07:29,629 --> 00:07:27,660  
four five steps

210  
00:07:30,950 --> 00:07:29,639  
maybe Consciousness fits into one of

211  
00:07:33,170 --> 00:07:30,960  
those that's that's an extremely

212  
00:07:34,790 --> 00:07:33,180  
controversial state but maybe it does

213  
00:07:37,309 --> 00:07:34,800

I'm not discounting that

214

00:07:39,529 --> 00:07:37,319

I did well

215

00:07:40,730 --> 00:07:39,539

you know actually there's maybe perhaps

216

00:07:43,370 --> 00:07:40,740

not obviously I shouldn't use that word

217

00:07:44,990 --> 00:07:43,380

but uh there's been indications of you

218

00:07:47,210 --> 00:07:45,000

know Consciousness ever being

219

00:07:48,770 --> 00:07:47,220

fundamental to our date of quantum

220

00:07:51,529 --> 00:07:48,780

physics and how we interact with the

221

00:07:53,809 --> 00:07:51,539

universe and now we're getting to a bit

222

00:07:55,730 --> 00:07:53,819

deeper understanding of perhaps uh the

223

00:07:57,950 --> 00:07:55,740

non-fundamental nature of space-time

224

00:07:59,689 --> 00:07:57,960

itself and therefore the non-fundamental

225

00:08:01,969 --> 00:07:59,699

nature of the particles things of that

226

00:08:04,249 --> 00:08:01,979

dude you're in it uh if you think about

227

00:08:06,650 --> 00:08:04,259

it from that perspective is there room

228

00:08:08,990 --> 00:08:06,660

for for all right

229

00:08:10,850 --> 00:08:09,000

qualia type definition of Consciousness

230

00:08:13,850 --> 00:08:10,860

to be part of that equation or do you

231

00:08:16,790 --> 00:08:13,860

think that's purely still a uh

232

00:08:18,409 --> 00:08:16,800

eight intelligence kind of based is uh

233

00:08:19,790 --> 00:08:18,419

understanding of where we are and he

234

00:08:21,290 --> 00:08:19,800

reverse

235

00:08:23,710 --> 00:08:21,300

it might have thought a little way away

236

00:08:26,450 --> 00:08:23,720

from it on the end of that question but

237

00:08:27,529 --> 00:08:26,460

there there are Nobel prize winning

238

00:08:28,790 --> 00:08:27,539

physicist Super League that

239

00:08:30,430 --> 00:08:28,800

Consciousness has something to do with

240

00:08:33,230 --> 00:08:30,440

fun and that's a law so that Henderson

241

00:08:35,690 --> 00:08:33,240

has something to do with the collapse of

242

00:08:38,029 --> 00:08:35,700

the quantity refunction that's

243

00:08:40,130 --> 00:08:38,039

not just have those but there's a role

244

00:08:42,829 --> 00:08:40,140

in physicists then there's the majority

245

00:08:44,750 --> 00:08:42,839

existence I think would say note but

246

00:08:46,790 --> 00:08:44,760

that's about too much knowledge and

247

00:08:48,829 --> 00:08:46,800

majority at least

248

00:08:50,990 --> 00:08:48,839

So my answer is

249

00:08:52,630 --> 00:08:51,000

yes well if I understood the question

250

00:08:56,090 --> 00:08:52,640

correctly can you restate the question

251  
00:08:58,550 --> 00:08:56,100  
so uh

252  
00:09:00,410 --> 00:08:58,560  
as we as we have a firmer understanding

253  
00:09:02,570 --> 00:09:00,420  
of the kind of non-local or not real

254  
00:09:04,670 --> 00:09:02,580  
nature of space-time as we kind of

255  
00:09:06,769 --> 00:09:04,680  
further understand that

256  
00:09:08,230 --> 00:09:06,779  
space-time and the components of it may

257  
00:09:11,750 --> 00:09:08,240  
be uh

258  
00:09:14,269 --> 00:09:11,760  
non-fundamental uh is there is there is

259  
00:09:16,370 --> 00:09:14,279  
that an opening for uh qualitative

260  
00:09:18,410 --> 00:09:16,380  
experience

261  
00:09:20,269 --> 00:09:18,420  
uh be part of

262  
00:09:22,790 --> 00:09:20,279  
uh

263  
00:09:24,590 --> 00:09:22,800

I tell you what yeah yeah yeah it's just

264

00:09:28,250 --> 00:09:24,600

it's extremely tricky because in order

265

00:09:29,509 --> 00:09:28,260

to make some inference from equality or

266

00:09:31,550 --> 00:09:29,519

something equality which is not

267

00:09:33,889 --> 00:09:31,560

quantitative if we're contrasting those

268

00:09:35,630 --> 00:09:33,899

two two something quantitative I don't

269

00:09:36,530 --> 00:09:35,640

know how to make that lead I don't know

270

00:09:38,810 --> 00:09:36,540

how to make the leap for something

271

00:09:40,550 --> 00:09:38,820

quantitative to qualitative either it's

272

00:09:41,690 --> 00:09:40,560

almost like there is an ought you've

273

00:09:44,570 --> 00:09:41,700

heard of that

274

00:09:45,590 --> 00:09:44,580

and never I don't know yeah it's just

275

00:09:47,210 --> 00:09:45,600

learning where you know where where

276

00:09:48,470 --> 00:09:47,220

could they potentially fit because I

277

00:09:50,449 --> 00:09:48,480

agree with you if there is a theory of

278

00:09:52,250 --> 00:09:50,459

every you know everything Consciousness

279

00:09:54,050 --> 00:09:52,260

is you know almost by definition has to

280

00:09:55,130 --> 00:09:54,060

be in there unless our definition of

281

00:09:58,070 --> 00:09:55,140

everything is limited to our

282

00:10:00,050 --> 00:09:58,080

understanding of space time uh or you

283

00:10:01,550 --> 00:10:00,060

know or those is statements of those

284

00:10:03,769 --> 00:10:01,560

technical statements so how do we how do

285

00:10:04,910 --> 00:10:03,779

we build that bridge is where speaking

286

00:10:06,710 --> 00:10:04,920

of the

287

00:10:08,150 --> 00:10:06,720

and have you seen any of those potential

288

00:10:09,530 --> 00:10:08,160

Bridges through your understanding of

289

00:10:11,630 --> 00:10:09,540

you know your conversations that you've

290

00:10:14,090 --> 00:10:11,640

had with people about Consciousness or

291

00:10:16,310 --> 00:10:14,100

people about theories of everything I've

292

00:10:18,350 --> 00:10:16,320

been intimated several of those purchase

293

00:10:20,810 --> 00:10:18,360

whether or not it's explicit they can't

294

00:10:23,389 --> 00:10:20,820

say it feel what I intuited

295

00:10:28,009 --> 00:10:23,399

so

296

00:10:30,650 --> 00:10:28,019

nanza

297

00:10:32,810 --> 00:10:30,660

the end of the year 2022. what happened

298

00:10:35,329 --> 00:10:32,820

was we have Matt O'Dowd so someone from

299

00:10:37,490 --> 00:10:35,339

PBS space-time and then Richard Dolan

300

00:10:41,690 --> 00:10:37,500

and joffer veggie cognitive scientist

301  
00:10:43,670 --> 00:10:41,700  
along with Grant Cabra that and several

302  
00:10:46,130 --> 00:10:43,680  
other people who would never take a

303  
00:10:48,889 --> 00:10:46,140  
Motley Crew it's like a Gollum off read

304  
00:10:50,630 --> 00:10:48,899  
but never see these people together

305  
00:10:52,790 --> 00:10:50,640  
and then I was thinking well this is

306  
00:10:55,670 --> 00:10:52,800  
like this event that happens once a year

307  
00:10:57,050 --> 00:10:55,680  
for eight hours

308  
00:10:58,850 --> 00:10:57,060  
but then I realized you know if this

309  
00:11:01,670 --> 00:10:58,860  
happens

310  
00:11:03,110 --> 00:11:01,680  
every day hit my head because I speak to

311  
00:11:04,490 --> 00:11:03,120  
these people and I'm constantly relating

312  
00:11:06,889 --> 00:11:04,500  
what would this person say to this and I

313  
00:11:08,870 --> 00:11:06,899

have emulations simulations and I throw

314

00:11:10,430 --> 00:11:08,880

back and forth and a bunch of it happens

315

00:11:13,190 --> 00:11:10,440

at a conceptual level it's difficult for

316

00:11:16,130 --> 00:11:13,200

me to say specifically sorry explicitly

317

00:11:18,230 --> 00:11:16,140

to disambiguate way disambiguous

318

00:11:19,790 --> 00:11:18,240

and I see these I see connections so one

319

00:11:22,550 --> 00:11:19,800

sometimes people ask us like hey what's

320

00:11:25,069 --> 00:11:22,560

your what what's your favorite toll

321

00:11:27,949 --> 00:11:25,079

and that's it's asked as if there are

322

00:11:30,230 --> 00:11:27,959

several different toes whereas the way

323

00:11:31,910 --> 00:11:30,240

that I'm saying it more and more is that

324

00:11:33,590 --> 00:11:31,920

almost each of these tolls are

325

00:11:36,290 --> 00:11:33,600

reflections of something underline it's

326

00:11:37,910 --> 00:11:36,300

deeper and it of course the

327

00:11:39,530 --> 00:11:37,920

analogy is like you know if you touch

328

00:11:40,850 --> 00:11:39,540

one person's touching the trunk and the

329

00:11:44,090 --> 00:11:40,860

other person's touching the tail of the

330

00:11:46,130 --> 00:11:44,100

leg they think they're different objects

331

00:11:48,350 --> 00:11:46,140

well I think it's I think it's more like

332

00:11:50,449 --> 00:11:48,360

much of the tilts that I'd

333

00:11:53,329 --> 00:11:50,459

read about and investigate they're

334

00:11:56,930 --> 00:11:53,339

getting complete so let's go

335

00:11:59,150 --> 00:11:56,940

the touch of the Tuscan solution

336

00:12:00,949 --> 00:11:59,160

but they're also

337

00:12:02,509 --> 00:12:00,959

defiled in some way so it's not a

338

00:12:04,190 --> 00:12:02,519

complete touching of the Tusk it's like

339

00:12:06,769 --> 00:12:04,200

someone's touching a toss but a window

340

00:12:08,569 --> 00:12:06,779

wiper at the same time and so like you

341

00:12:10,790 --> 00:12:08,579

need to remove all of my headsets it's

342

00:12:13,250 --> 00:12:10,800

like there's salt on the car and the

343

00:12:15,590 --> 00:12:13,260

windows need to be cleaned first so it's

344

00:12:17,389 --> 00:12:15,600

such a tricky topic I also don't think

345

00:12:19,610 --> 00:12:17,399

it's just touching I think that someone

346

00:12:22,310 --> 00:12:19,620

is experiencing rain and someone also

347

00:12:24,350 --> 00:12:22,320

smells a garden but it's all like the

348

00:12:26,990 --> 00:12:24,360

The Raid is the elephant shooting out

349

00:12:28,730 --> 00:12:27,000

water from its Tusk guitarist truck yeah

350

00:12:29,750 --> 00:12:28,740

and it seems like it's completely

351

00:12:32,389 --> 00:12:29,760

different

352

00:12:34,130 --> 00:12:32,399

that has nothing to do with feeling a

353

00:12:37,310 --> 00:12:34,140

wrong option

354

00:12:39,889 --> 00:12:37,320

for the upon one month once they get

355

00:12:43,190 --> 00:12:39,899

and it's called it's I see I didn't to

356

00:12:44,389 --> 00:12:43,200

make different relations I also see the

357

00:12:59,389 --> 00:12:44,399

the

358

00:13:01,850 --> 00:12:59,399

uh

359

00:13:04,129 --> 00:13:01,860

what's you know I imagine there's a

360

00:13:07,069 --> 00:13:04,139

spectrum of uh confidence you have and

361

00:13:08,150 --> 00:13:07,079

some of some of these to some degree

362

00:13:10,730 --> 00:13:08,160

um

363

00:13:12,290 --> 00:13:10,740

are there some that you are more likely

364

00:13:14,030 --> 00:13:12,300

to throw away that perhaps don't fit

365

00:13:16,850 --> 00:13:14,040

onto that map of the elephant quite yet

366

00:13:19,009 --> 00:13:16,860

uh that are more dollars would you say

367

00:13:21,410 --> 00:13:19,019

uh or whatever reason or they are

368

00:13:22,430 --> 00:13:21,420

somewhat circled around the same like up

369

00:13:25,009 --> 00:13:22,440

discount

370

00:13:26,629 --> 00:13:25,019

it's difficult for me to derive a

371

00:13:28,790 --> 00:13:26,639

subject even if I read it and I feel

372

00:13:29,990 --> 00:13:28,800

like okay this is clearly foolish I've

373

00:13:32,449 --> 00:13:30,000

been so

374

00:13:35,269 --> 00:13:32,459

bird in my past by me thinking that I

375

00:13:37,069 --> 00:13:35,279

knew what was right and wrong

376

00:13:40,129 --> 00:13:37,079

morally first to hinder but also

377

00:13:41,690 --> 00:13:40,139

cognitively like model wise

378

00:13:43,490 --> 00:13:41,700

and then having that Swept Away

379

00:13:46,430 --> 00:13:43,500

underneath me

380

00:13:49,310 --> 00:13:46,440

that it's difficult for me to say well

381

00:13:52,550 --> 00:13:49,320

that's complete BS

382

00:13:55,430 --> 00:13:52,560

yeah I don't scorn

383

00:13:57,230 --> 00:13:55,440

my mind is just

384

00:13:59,389 --> 00:13:57,240

I think temperamentally on the

385

00:14:00,710 --> 00:13:59,399

judgmental type who dismisses and

386

00:14:04,490 --> 00:14:00,720

derides

387

00:14:05,629 --> 00:14:04,500

and I train myself or we're

388

00:14:09,230 --> 00:14:05,639

from

389

00:14:13,910 --> 00:14:09,240

personal pain I've come to be much more

390

00:14:16,129 --> 00:14:13,920

slow with my judgments and withholding

391

00:14:18,590 --> 00:14:16,139

it's less about judgment whether you

392

00:14:20,090 --> 00:14:18,600

believe it's a ballot Theory or not but

393

00:14:21,889 --> 00:14:20,100

you suggested that a lot of these

394

00:14:25,129 --> 00:14:21,899

theories seem to be

395

00:14:27,470 --> 00:14:25,139

uh you know located around a mean or

396

00:14:28,670 --> 00:14:27,480

essentially around a centralized theme

397

00:14:31,069 --> 00:14:28,680

an elephant that you're touching

398

00:14:33,230 --> 00:14:31,079

different parts of right so that was

399

00:14:34,910 --> 00:14:33,240

suggest perhaps there are some that are

400

00:14:38,389 --> 00:14:34,920

a nautilus to that elephant they're

401  
00:14:40,730 --> 00:14:38,399  
outside of of that you know that median

402  
00:14:41,990 --> 00:14:40,740  
uh problem said that the those theories

403  
00:14:43,430 --> 00:14:42,000  
of everything I'm working on there's

404  
00:14:45,170 --> 00:14:43,440  
some that are completely out the lunch

405  
00:14:47,810 --> 00:14:45,180  
as far as

406  
00:14:49,850 --> 00:14:47,820  
conceptually or to our standard half

407  
00:14:51,829 --> 00:14:49,860  
physics right now that our novelist in a

408  
00:14:53,210 --> 00:14:51,839  
sense that it's not that law to throw it

409  
00:14:54,949 --> 00:14:53,220  
away it's just outside of our

410  
00:14:57,470 --> 00:14:54,959  
expectations to a higher degree than the

411  
00:15:00,410 --> 00:14:57,480  
others yeah there are some there's some

412  
00:15:01,850 --> 00:15:00,420  
that ain't tag if I feel like well one I

413  
00:15:04,129 --> 00:15:01,860

need some prerequisite to understand

414

00:15:07,610 --> 00:15:04,139

this like mathematical prerequisite or

415

00:15:10,850 --> 00:15:09,290

like you mentioned both confidence and

416

00:15:13,370 --> 00:15:10,860

then I don't like to think of it like

417

00:15:14,930 --> 00:15:13,380

other let's just save FN up then I tag

418

00:15:17,509 --> 00:15:14,940

it to read later

419

00:15:18,889 --> 00:15:17,519

so I don't say no I just say

420

00:15:22,370 --> 00:15:18,899

question marks a little more question

421

00:15:24,410 --> 00:15:22,380

marks on it yeah we're good out what

422

00:15:26,090 --> 00:15:24,420

about that the individuals you've spoken

423

00:15:29,210 --> 00:15:26,100

to on The Theory of Everything podcast

424

00:15:32,090 --> 00:15:29,220

on on the T on the toe uh theme as well

425

00:15:33,590 --> 00:15:32,100

so uh do you have any kind of favorites

426

00:15:34,850 --> 00:15:33,600

or any anything that really stuck out to

427

00:15:36,710 --> 00:15:34,860

you beating some of these individuals

428

00:15:38,750 --> 00:15:36,720

because you've met some extremely high

429

00:15:41,569 --> 00:15:38,760

caliber you know theoretical physicists

430

00:15:45,410 --> 00:15:41,579

is that a mathematician is it you know

431

00:15:47,210 --> 00:15:45,420

go down the whole list this is

432

00:15:49,550 --> 00:15:47,220

not politically correct for me to say

433

00:15:52,009 --> 00:15:49,560

but it's it's not as if I have favorite

434

00:15:55,490 --> 00:15:52,019

swirl like I have just a few not

435

00:15:58,550 --> 00:15:55,500

favorites shoot so I'm repressed by 99

436

00:16:05,569 --> 00:16:03,889

mate 99 by the majority of guests uh

437

00:16:07,550 --> 00:16:05,579

I guess you know similar question

438

00:16:10,490 --> 00:16:07,560

applies on the Consciousness side were

439

00:16:13,370 --> 00:16:10,500

there any theories that were you know or

440

00:16:16,610 --> 00:16:13,380

outside of the spectrum of what you were

441

00:16:18,949 --> 00:16:16,620

expecting or initially Bernardo Castro's

442

00:16:20,509 --> 00:16:18,959

idealism which states that

443

00:16:22,009 --> 00:16:20,519

rather that the material is

444

00:16:23,389 --> 00:16:22,019

fundamentally you think of Consciousness

445

00:16:25,250 --> 00:16:23,399

is fundamental or percept it's

446

00:16:27,170 --> 00:16:25,260

fundamental or qualius fundamental or

447

00:16:29,030 --> 00:16:27,180

mind or for mental mentalities with

448

00:16:30,590 --> 00:16:29,040

mental but he has analytic idealism

449

00:16:32,930 --> 00:16:30,600

which is like a subset of idealism

450

00:16:35,210 --> 00:16:32,940

because I much like material is in his

451  
00:16:37,249 --> 00:16:35,220  
masses I deal up I think it's Fargo and

452  
00:16:39,530 --> 00:16:37,259  
that's the complexity doesn't give it

453  
00:16:42,290 --> 00:16:39,540  
any more reality to myself it's just

454  
00:16:44,389 --> 00:16:42,300  
some says or massed for when so but I

455  
00:16:45,949 --> 00:16:44,399  
could just be because I'm so trained as

456  
00:16:49,189 --> 00:16:45,959  
the material is front

457  
00:16:50,389 --> 00:16:49,199  
quite diversity that's just

458  
00:16:52,670 --> 00:16:50,399  
it's

459  
00:16:55,249 --> 00:16:52,680  
some Theory that's material Oracle is

460  
00:17:00,410 --> 00:16:55,259  
much more easy for any of us in the west

461  
00:17:04,610 --> 00:17:02,269  
yeah so I would say that

462  
00:17:06,530 --> 00:17:04,620  
are there any episodes that you think

463  
00:17:08,449 --> 00:17:06,540

are kind of your

464

00:17:10,970 --> 00:17:08,459

best work or highlighted work on the

465

00:17:12,890 --> 00:17:10,980

conscious side that he'd like to share

466

00:17:14,630 --> 00:17:12,900

right now or you can Leonardo Castro's

467

00:17:16,850 --> 00:17:14,640

Donald Hoffman's and Ian McGill Chris

468

00:17:18,890 --> 00:17:16,860

those are especially the McGill first I

469

00:17:22,390 --> 00:17:18,900

mean Carl first again the conference in

470

00:17:27,049 --> 00:17:25,669

versus materialism he gives us a

471

00:17:29,630 --> 00:17:27,059

framework this is more of a framework

472

00:17:31,310 --> 00:17:29,640

okay Quantum deal the use of quantum

473

00:17:32,750 --> 00:17:31,320

field theory is a framework then the

474

00:17:36,110 --> 00:17:32,760

standard model is a specific quantity

475

00:17:39,169 --> 00:17:36,120

it's like that okay got it uh we'll put

476

00:17:41,029 --> 00:17:39,179

up the Gunners sure sure good were there

477

00:17:44,750 --> 00:17:41,039

any if you happen to watch any of the

478

00:17:47,210 --> 00:17:44,760

non-ufo or sorry you 18 so do you if you

479

00:17:49,490 --> 00:17:47,220

have watched any of the non-vee episode

480

00:17:51,950 --> 00:17:49,500

was there one that stuck out to you I

481

00:17:55,070 --> 00:17:51,960

really enjoy uh Donald software to work

482

00:17:58,430 --> 00:17:55,080

uh it's always interesting listening to

483

00:18:00,110 --> 00:17:58,440

his you know his take on uh

484

00:18:02,930 --> 00:18:00,120

to bot

485

00:18:05,630 --> 00:18:02,940

our inability to objectively of the

486

00:18:07,370 --> 00:18:05,640

reality uh because whenever I hear a

487

00:18:09,650 --> 00:18:07,380

talk on that topic it just gives me lots

488

00:18:11,210 --> 00:18:09,660

of interesting ideas you know there's

489

00:18:16,430 --> 00:18:11,220

just kind of lots of rabbit holes you go

490

00:18:17,630 --> 00:18:16,440

down so I think that's a great way of uh

491

00:18:20,270 --> 00:18:17,640

oops

492

00:18:22,669 --> 00:18:20,280

yeah exploring our own biases in a way

493

00:18:24,110 --> 00:18:22,679

that we may not be necessarily aware and

494

00:18:25,549 --> 00:18:24,120

of course we're all we're prone to so

495

00:18:27,830 --> 00:18:25,559

many biases but this is almost like a

496

00:18:30,470 --> 00:18:27,840

fundamental bias to you know a little

497

00:18:33,169 --> 00:18:30,480

biological level or you know uh

498

00:18:34,669 --> 00:18:33,179

a a mathematical level you know for the

499

00:18:36,409 --> 00:18:34,679

file the mathematics that run our

500

00:18:40,850 --> 00:18:36,419

biology unit revolution in a sentences

501  
00:18:42,770 --> 00:18:40,860  
so uh it's interesting that the realist

502  
00:18:44,990 --> 00:18:42,780  
perspective that

503  
00:18:48,770 --> 00:18:45,000  
the common sense realist perspective I'm

504  
00:18:51,590 --> 00:18:48,780  
not up to to meet up

505  
00:18:53,390 --> 00:18:51,600  
folk psychology realist perspectives the

506  
00:18:55,370 --> 00:18:53,400  
controversial one and now it's just

507  
00:18:59,390 --> 00:18:55,380  
accepted that

508  
00:19:02,690 --> 00:19:00,950  
if your theory doesn't incorporate

509  
00:19:05,750 --> 00:19:02,700  
somehow that your experience is an

510  
00:19:07,490 --> 00:19:05,760  
illusion of a sense that it's

511  
00:19:10,909 --> 00:19:07,500  
then it's a controversial Theory whereas

512  
00:19:12,950 --> 00:19:10,919  
prior now yeah it has been a switch well

513  
00:19:14,450 --> 00:19:12,960

what do you think the primary push for

514

00:19:17,270 --> 00:19:14,460

that

515

00:19:23,390 --> 00:19:17,280

I think we suffer a flat date

516

00:19:27,830 --> 00:19:26,510

we hope to escape our suffering

517

00:19:30,710 --> 00:19:27,840

and

518

00:19:32,810 --> 00:19:30,720

one route to doing so is by sin that the

519

00:19:35,990 --> 00:19:32,820

suffering itself is an evolution

520

00:19:37,490 --> 00:19:36,000

that we despise suffering so much that

521

00:19:39,470 --> 00:19:37,500

we're willing to give up other assets

522

00:19:40,370 --> 00:19:39,480

that we love in order to escape from the

523

00:19:42,590 --> 00:19:40,380

suffering

524

00:19:44,270 --> 00:19:42,600

so this compulsory aspect and also

525

00:19:47,210 --> 00:19:44,280

writes the psychedelics result of the

526

00:19:50,210 --> 00:19:47,220

evolutionary ad but that mean selfie

527

00:19:52,850 --> 00:19:50,220

precipitated by

528

00:19:55,070 --> 00:19:52,860

a loss of meaning and culture across the

529

00:19:56,330 --> 00:19:55,080

decades a loss of transcendence of a

530

00:20:02,690 --> 00:19:56,340

feeling of being connected to something

531

00:20:07,130 --> 00:20:05,090

and also self-loading

532

00:20:09,950 --> 00:20:07,140

what I mean by that is that

533

00:20:11,870 --> 00:20:09,960

since the 50s or so

534

00:20:13,430 --> 00:20:11,880

we start to walk the yeast or at least

535

00:20:15,110 --> 00:20:13,440

what we think of as the East which is

536

00:20:16,730 --> 00:20:15,120

often a bastardization but at least it's

537

00:20:18,470 --> 00:20:16,740

not the West

538

00:20:21,710 --> 00:20:18,480

we start to think of the west as just

539

00:20:24,470 --> 00:20:21,720

wrong the number narsal Falls

540

00:20:26,750 --> 00:20:24,480

it's like a cultural self-moting

541

00:20:27,950 --> 00:20:26,760

I don't think the East sits around and

542

00:20:29,870 --> 00:20:27,960

thinks how Are We Wrong let's

543

00:20:31,850 --> 00:20:29,880

incorporate more of the west but we of

544

00:20:34,010 --> 00:20:31,860

the West there's this

545

00:20:35,810 --> 00:20:34,020

it's become it's Politically Incorrect

546

00:20:39,169 --> 00:20:35,820

to say almost any

547

00:20:41,450 --> 00:20:39,179

to give Credence to any metaphysical

548

00:20:43,130 --> 00:20:41,460

idea of the West we think of the East as

549

00:20:46,430 --> 00:20:43,140

much more

550

00:20:48,830 --> 00:20:46,440

by multiplication and complex and more

551  
00:20:51,289 --> 00:20:48,840  
and thus more real and that we're much

552  
00:20:52,850 --> 00:20:51,299  
more simple but it also could be related

553  
00:20:54,529 --> 00:20:52,860  
to that we just grew up in the west of

554  
00:20:55,909 --> 00:20:54,539  
what we think of as simple is just

555  
00:20:59,150 --> 00:20:55,919  
because we grew up with it much like

556  
00:21:01,190 --> 00:20:59,160  
English but fate it's a comprehend these

557  
00:21:03,169 --> 00:21:01,200  
sentences to imagine people you know

558  
00:21:05,450 --> 00:21:03,179  
living in various countries in Asia

559  
00:21:07,549 --> 00:21:05,460  
their culture is not overly complex to

560  
00:21:08,990 --> 00:21:07,559  
them it's just greatly natural and the

561  
00:21:12,169 --> 00:21:09,000  
less seeds you know chaotic increase

562  
00:21:13,250 --> 00:21:12,179  
except except now well for the past 1

563  
00:21:16,490 --> 00:21:13,260

000 years or so there's the West

564

00:21:18,710 --> 00:21:16,500

influence element East so

565

00:21:21,169 --> 00:21:18,720

they made me able to grasp the West much

566

00:21:23,150 --> 00:21:21,179

more readily than were able to rest the

567

00:21:24,770 --> 00:21:23,160

Beast

568

00:21:27,230 --> 00:21:24,780

do you think that that's a purely

569

00:21:30,409 --> 00:21:27,240

organic perception that we have or do

570

00:21:32,510 --> 00:21:30,419

you think that is influenced by you know

571

00:21:34,909 --> 00:21:32,520

international relations and interactions

572

00:21:36,649 --> 00:21:34,919

and you know social media attacks and

573

00:21:38,149 --> 00:21:36,659

all the other influences that you know

574

00:21:41,149 --> 00:21:38,159

affect our culture do you think that's

575

00:21:44,750 --> 00:21:41,159

mostly an organic state of mind that we

576  
00:21:46,490 --> 00:21:44,760  
have for the East Coast was expected

577  
00:21:50,690 --> 00:21:46,500  
I think there's something new organic

578  
00:21:55,010 --> 00:21:52,490  
see there's this word Supernatural link

579  
00:21:56,930 --> 00:21:55,020  
God is Supernatural and religious belief

580  
00:21:59,149 --> 00:21:56,940  
is about the supernatural

581  
00:22:03,830 --> 00:21:59,159  
and I used to believe that too

582  
00:22:08,570 --> 00:22:06,350  
the H well not ancients though say thank

583  
00:22:11,570 --> 00:22:08,580  
you for writings is that God is the most

584  
00:22:14,029 --> 00:22:11,580  
Centro you can't say God is Supernatural

585  
00:22:16,310 --> 00:22:14,039  
God is the most stand from

586  
00:22:19,850 --> 00:22:16,320  
if anything were the defiled versions or

587  
00:22:22,970 --> 00:22:21,710  
so maybe there's something inorganic

588  
00:22:25,250 --> 00:22:22,980

about it

589

00:22:26,510 --> 00:22:25,260

and that when we're on a correct path we

590

00:22:27,590 --> 00:22:26,520

feel that suffering we feel more

591

00:22:29,450 --> 00:22:27,600

connected

592

00:22:31,070 --> 00:22:29,460

and also by the way I don't think it's

593

00:22:32,630 --> 00:22:31,080

all just about connection I think

594

00:22:34,310 --> 00:22:32,640

there's a level of disconnectedness that

595

00:22:36,110 --> 00:22:34,320

has to occur as well

596

00:22:38,210 --> 00:22:36,120

and there's some mallets that were

597

00:22:41,390 --> 00:22:38,220

swaying that's like there's these

598

00:22:44,090 --> 00:22:41,400

cultural engines that sway

599

00:22:46,370 --> 00:22:44,100

Oneness swung

600

00:22:48,289 --> 00:22:46,380

toward the side of connectedness

601  
00:22:49,909 --> 00:22:48,299  
private

602  
00:22:51,289 --> 00:22:49,919  
because we're so disconnected or we

603  
00:22:52,250 --> 00:22:51,299  
could be up this perception at this

604  
00:22:54,649 --> 00:22:52,260  
stage

605  
00:22:58,010 --> 00:22:54,659  
are we connected are we disconnected I

606  
00:23:03,890 --> 00:23:00,470  
I think we must be both but this is my

607  
00:23:05,690 --> 00:23:03,900  
present deliberation so my thoughts on

608  
00:23:08,029 --> 00:23:05,700  
this much like on a virtually any other

609  
00:23:10,789 --> 00:23:08,039  
subject change week by week right now

610  
00:23:12,110 --> 00:23:10,799  
and first certain but certainly month by

611  
00:23:14,330 --> 00:23:12,120  
month

612  
00:23:16,789 --> 00:23:14,340  
I remember when we spoke

613  
00:23:20,950 --> 00:23:16,799

I said that I

614

00:23:24,230 --> 00:23:20,960

I'm so averse to being interviewed

615

00:23:27,890 --> 00:23:24,240

but first a casting don't need Senate

616

00:23:29,750 --> 00:23:27,900

it's and second well the reason is that

617

00:23:31,190 --> 00:23:29,760

almost all my thoughts are well this is

618

00:23:36,230 --> 00:23:31,200

my first deliberation

619

00:23:38,870 --> 00:23:36,240

and then my second one is intense to

620

00:23:41,210 --> 00:23:38,880

thought and then that just escapes but I

621

00:23:43,010 --> 00:23:41,220

I don't identify with that but just say

622

00:23:47,029 --> 00:23:43,020

he here's a possible

623

00:23:50,450 --> 00:23:48,250

how

624

00:23:52,430 --> 00:23:50,460

important do you fight

625

00:23:57,049 --> 00:23:52,440

the study of consciousness

626

00:23:58,789 --> 00:23:57,059

extremely important uh yeah it is it is

627

00:24:00,850 --> 00:23:58,799

whether we

628

00:24:04,430 --> 00:24:00,860

Miss fundamental to the universe or not

629

00:24:05,930 --> 00:24:04,440

fundamental to our experience of it so

630

00:24:07,909 --> 00:24:05,940

it's I think that's incredibly important

631

00:24:09,529 --> 00:24:07,919

and it's it's something that we really

632

00:24:13,490 --> 00:24:09,539

don't have a clean understanding you

633

00:24:15,289 --> 00:24:13,500

have what it is never mind uh what the

634

00:24:17,570 --> 00:24:15,299

implications would be better knowing it

635

00:24:19,070 --> 00:24:17,580

would be right I think that's you know

636

00:24:21,470 --> 00:24:19,080

something we never even think about as

637

00:24:23,090 --> 00:24:21,480

well what what what derives from us

638

00:24:25,789 --> 00:24:23,100

better understanding of Consciousness is

639

00:24:27,890 --> 00:24:25,799

though is it cleaner better mind is it a

640

00:24:30,770 --> 00:24:27,900

better uh way of interacting with the

641

00:24:33,049 --> 00:24:30,780

universe is it uh is it up you know

642

00:24:35,029 --> 00:24:33,059

being able to manage four thoughts or

643

00:24:36,470 --> 00:24:35,039

more flexible I don't know what the

644

00:24:37,909 --> 00:24:36,480

implications of a better understanding

645

00:24:39,289 --> 00:24:37,919

costs us off but whenever we do

646

00:24:40,450 --> 00:24:39,299

understand something we tweak it and

647

00:24:43,070 --> 00:24:40,460

make it better

648

00:24:47,210 --> 00:24:43,080

so that's one thing like that which

649

00:24:51,350 --> 00:24:48,710

I'm curious

650

00:24:57,649 --> 00:24:54,950

if this untrammelled investigation into

651  
00:25:00,529 --> 00:24:57,659  
Consciousness or if this is or any

652  
00:25:02,870 --> 00:25:00,539  
endeavored scientifically

653  
00:25:04,909 --> 00:25:02,880  
will lead us to a positive place

654  
00:25:07,310 --> 00:25:04,919  
I think there's just this assumption

655  
00:25:09,289 --> 00:25:07,320  
that the more that we investigate that

656  
00:25:11,390 --> 00:25:09,299  
the better it will be and it's like a

657  
00:25:12,649 --> 00:25:11,400  
commitment that truth is positive in

658  
00:25:14,510 --> 00:25:12,659  
some way

659  
00:25:17,690 --> 00:25:14,520  
or scientific truth is possible I don't

660  
00:25:21,950 --> 00:25:20,570  
year Rift irrefutable

661  
00:25:24,110 --> 00:25:21,960  
and so

662  
00:25:27,110 --> 00:25:24,120  
for instance we developed the atomic

663  
00:25:33,350 --> 00:25:29,210

analyzing through the scientific method

664

00:25:37,250 --> 00:25:33,360

I don't think that was terribly wise

665

00:25:40,370 --> 00:25:37,260

same with certain chemicals

666

00:25:42,409 --> 00:25:40,380

chemicals is it virulence chemicals or

667

00:25:45,590 --> 00:25:42,419

harsh

668

00:25:48,610 --> 00:25:45,600

or but we do it anyways right the March

669

00:25:51,409 --> 00:25:48,620

continues formed so uh whether on

670

00:25:54,710 --> 00:25:51,419

individual analysis there

671

00:25:57,350 --> 00:25:54,720

uh that's for our development we do have

672

00:26:00,049 --> 00:25:57,360

that drive to continue to create to do

673

00:26:01,610 --> 00:26:00,059

to do that so now

674

00:26:03,230 --> 00:26:01,620

that seems to be another thing that

675

00:26:05,590 --> 00:26:03,240

we're almost out of control in a sense

676

00:26:07,970 --> 00:26:05,600

where our technological development

677

00:26:10,190 --> 00:26:07,980

often or almost always and should say

678

00:26:12,950 --> 00:26:10,200

progresses much faster than any type of

679

00:26:15,049 --> 00:26:12,960

cultural development not bad we need to

680

00:26:18,169 --> 00:26:15,059

follow it in a sense yeah

681

00:26:20,090 --> 00:26:18,179

um one of the things I've thought about

682

00:26:21,590 --> 00:26:20,100

personally is whether you know that

683

00:26:23,630 --> 00:26:21,600

would be the definition of advanced

684

00:26:25,490 --> 00:26:23,640

Society the culture would be that their

685

00:26:27,890 --> 00:26:25,500

culture moves as fast as in technology

686

00:26:30,529 --> 00:26:27,900

or at least the technology waits for the

687

00:26:32,269 --> 00:26:30,539

culture to to need it to adapt so it's

688

00:26:34,070 --> 00:26:32,279

being mature enough forward that's an

689

00:26:35,690 --> 00:26:34,080

interesting point do you think that and

690

00:26:37,970 --> 00:26:35,700

when you say culture advancing see the

691

00:26:40,610 --> 00:26:37,980

way I'd say that is is wisdom those are

692

00:26:42,649 --> 00:26:40,620

wisdom match your technology you see

693

00:26:45,710 --> 00:26:42,659

ourselves in the past as being more wise

694

00:26:47,990 --> 00:26:45,720

than the present net uh I do not see you

695

00:26:49,430 --> 00:26:48,000

speak not yet right so I think we're too

696

00:26:51,110 --> 00:26:49,440

small of a Delta at this point we're

697

00:26:53,330 --> 00:26:51,120

still you know in the in the mix and the

698

00:26:56,090 --> 00:26:53,340

fury of invention moving technological

699

00:26:58,010 --> 00:26:56,100

problems for uh with little

700

00:26:59,810 --> 00:26:58,020

consideration from the societal cultural

701  
00:27:01,850 --> 00:26:59,820  
impacts of that technology that's just

702  
00:27:03,529 --> 00:27:01,860  
where we are now and that you know

703  
00:27:04,909 --> 00:27:03,539  
that's progressing faster and faster in

704  
00:27:06,110 --> 00:27:04,919  
a set so

705  
00:27:09,169 --> 00:27:06,120  
I don't know how that pendulum

706  
00:27:12,169 --> 00:27:09,179  
supposedly correction

707  
00:27:13,789 --> 00:27:12,179  
you know it's so fair I think about well

708  
00:27:15,310 --> 00:27:13,799  
how do you classify with some for the

709  
00:27:20,029 --> 00:27:15,320  
number audit like uh

710  
00:27:24,590 --> 00:27:22,549  
several rabbit holes I don't know if

711  
00:27:26,990 --> 00:27:24,600  
words

712  
00:27:28,730 --> 00:27:27,000  
I hope to have a wise

713  
00:27:30,710 --> 00:27:28,740

I hope that we

714

00:27:33,110 --> 00:27:30,720

people like Java baking an

715

00:27:34,909 --> 00:27:33,120

evidence-based Wizzle are extremely

716

00:27:37,370 --> 00:27:34,919

important to people like Dr Van dessert

717

00:27:39,289 --> 00:27:37,380

so people like them it's existed third

718

00:27:41,210 --> 00:27:39,299

person's concept

719

00:27:42,950 --> 00:27:41,220

don't well that concept and driver make

720

00:27:44,990 --> 00:27:42,960

his work he and the Gilbert's work is

721

00:27:47,450 --> 00:27:45,000

Extreme reports

722

00:27:48,830 --> 00:27:47,460

this puts forward

723

00:27:50,990 --> 00:27:48,840

something that we don't like to talk

724

00:27:53,210 --> 00:27:51,000

about which is morality if any and

725

00:27:54,830 --> 00:27:53,220

physicist body we despise talking about

726  
00:27:57,289 --> 00:27:54,840  
her talking about anything philosophical

727  
00:27:58,789 --> 00:27:57,299  
same with mathematicians I was up this

728  
00:28:01,789 --> 00:27:58,799  
dinner with

729  
00:28:03,649 --> 00:28:01,799  
a couple mathematicians one of them went

730  
00:28:05,690 --> 00:28:03,659  
to Washington and then this she was

731  
00:28:08,510 --> 00:28:05,700  
tired it's like Jack Norway asked

732  
00:28:10,850 --> 00:28:08,520  
another rapid shlon so third man that's

733  
00:28:12,409 --> 00:28:10,860  
right up by it about this Consciousness

734  
00:28:14,029 --> 00:28:12,419  
something like Consciousness and then

735  
00:28:16,010 --> 00:28:14,039  
she said

736  
00:28:18,649 --> 00:28:16,020  
yeah there's nothing I can't Define it

737  
00:28:19,549 --> 00:28:18,659  
ex specifically so I'm just that's I I

738  
00:28:21,289 --> 00:28:19,559

don't think there's anything to

739

00:28:22,909 --> 00:28:21,299

contribute there but then I was like

740

00:28:24,289 --> 00:28:22,919

chat that's how Mac British is think

741

00:28:25,850 --> 00:28:24,299

isn't it and this is a gym that's what

742

00:28:27,590 --> 00:28:25,860

it colliders then the other threat came

743

00:28:28,789 --> 00:28:27,600

back from the washer and then he asked

744

00:28:30,010 --> 00:28:28,799

them he's like what so what do you make

745

00:28:32,510 --> 00:28:30,020

Consciousness the hard problem

746

00:28:35,330 --> 00:28:32,520

Consciousness he said to leave things

747

00:28:37,490 --> 00:28:35,340

and after like 10 seconds he says no

748

00:28:39,470 --> 00:28:37,500

I can't Define apocaly so it's just not

749

00:28:41,870 --> 00:28:39,480

interesting problem I don't really like

750

00:28:44,149 --> 00:28:41,880

that's exactly what almost every

751  
00:28:45,890 --> 00:28:44,159  
mathematician thinks if it's not defied

752  
00:28:48,169 --> 00:28:45,900  
if it's still divide let's forget about

753  
00:28:50,450 --> 00:28:48,179  
it however all of our ill-defied words

754  
00:28:51,710 --> 00:28:50,460  
firstly almost every day every single

755  
00:28:56,330 --> 00:28:51,720  
thing that's important to us is

756  
00:28:58,250 --> 00:28:56,340  
ill-defined so wow for a spouse

757  
00:29:00,289 --> 00:28:58,260  
quality of conscious and theories

758  
00:29:03,169 --> 00:29:00,299  
objective experience as virtually every

759  
00:29:04,430 --> 00:29:03,179  
single thing is guilt defined and the

760  
00:29:06,110 --> 00:29:04,440  
more that it matters the more that it

761  
00:29:08,090 --> 00:29:06,120  
seems it will Define

762  
00:29:10,789 --> 00:29:08,100  
and Mathematics is the domain of this

763  
00:29:13,130 --> 00:29:10,799

specifically defined treatment

764

00:29:15,710 --> 00:29:13,140

so there's there's there's a great

765

00:29:19,250 --> 00:29:15,720

reason why those who are who have a

766

00:29:21,289 --> 00:29:19,260

proclivity to go toward the defied

767

00:29:22,610 --> 00:29:21,299

dislike the heel defined though there

768

00:29:23,990 --> 00:29:22,620

are philosophers and Mathematics that

769

00:29:25,909 --> 00:29:24,000

I'm super interested in how the heck did

770

00:29:28,370 --> 00:29:25,919

they come up with that personality could

771

00:29:31,130 --> 00:29:28,380

ceased involved well and

772

00:29:33,169 --> 00:29:31,140

so okay that's very interesting and I

773

00:29:35,810 --> 00:29:33,179

would wonder if that relates to the UAP

774

00:29:39,889 --> 00:29:35,820

Topic at all uh at the least of some

775

00:29:42,889 --> 00:29:39,899

degree uh often experiences in that area

776

00:29:45,470 --> 00:29:42,899

are subjective that's how

777

00:29:48,049 --> 00:29:45,480

Everyone is always looking for more

778

00:29:50,570 --> 00:29:48,059

objective data that we can utilize for

779

00:29:52,789 --> 00:29:50,580

study and things of that nature uh

780

00:29:56,590 --> 00:29:52,799

you've had a number of people on your

781

00:29:58,970 --> 00:29:56,600

podcast until uh that were

782

00:30:00,590 --> 00:29:58,980

non-physicists things that nature you

783

00:30:02,210 --> 00:30:00,600

went strictly into the UAP topic so

784

00:30:03,230 --> 00:30:02,220

first off you know how did you make that

785

00:30:05,930 --> 00:30:03,240

transition

786

00:30:08,630 --> 00:30:05,940

uh maybe we can just stop there sure I

787

00:30:11,049 --> 00:30:08,640

wouldn't say one strictly oh no no yeah

788

00:30:14,269 --> 00:30:11,059

but yeah

789

00:30:15,649 --> 00:30:14,279

you were told you're dope you got it but

790

00:30:18,230 --> 00:30:15,659

you were you were writing guests on that

791

00:30:21,350 --> 00:30:18,240

were specific to the UAP topic first

792

00:30:23,210 --> 00:30:21,360

introducing the UAP topic to your you

793

00:30:23,990 --> 00:30:23,220

know your physicist yes and think of

794

00:30:25,250 --> 00:30:24,000

that

795

00:30:26,990 --> 00:30:25,260

yeah

796

00:30:28,549 --> 00:30:27,000

we know there's this idea that there's a

797

00:30:30,950 --> 00:30:28,559

stigma and this is something that I

798

00:30:34,970 --> 00:30:32,630

quite frequently

799

00:30:38,870 --> 00:30:34,980

I don't think there is a stick one

800

00:30:41,210 --> 00:30:40,010

there's something called a collective

801  
00:30:44,090 --> 00:30:41,220  
illusion and hurry of collective

802  
00:30:46,250 --> 00:30:44,100  
Illusions to fight it for us this is an

803  
00:30:48,590 --> 00:30:46,260  
extremely important topic I think more

804  
00:30:50,990 --> 00:30:48,600  
abortion of Bones

805  
00:30:52,970 --> 00:30:51,000  
it's it's a bit difficult to explain so

806  
00:30:55,250 --> 00:30:52,980  
let's say that you have a privately held

807  
00:30:56,930 --> 00:30:55,260  
belief and then you act in contradiction

808  
00:30:58,909 --> 00:30:56,940  
with that belief

809  
00:31:01,010 --> 00:30:58,919  
in a manner that Comforts with how other

810  
00:31:04,010 --> 00:31:01,020  
people act but they so they share that

811  
00:31:06,169 --> 00:31:04,020  
contradictive public belief man but they

812  
00:31:09,710 --> 00:31:06,179  
also prior to be all the same belief in

813  
00:31:11,630 --> 00:31:09,720

it so explain in other ways

814

00:31:13,730 --> 00:31:11,640

you go along with the view that you

815

00:31:15,409 --> 00:31:13,740

believe other people share though they

816

00:31:17,570 --> 00:31:15,419

don't share but they if you share

817

00:31:19,490 --> 00:31:17,580

something along with it it's almost like

818

00:31:21,110 --> 00:31:19,500

an emperor has no Clause except in that

819

00:31:23,750 --> 00:31:21,120

one that's the primary aspect is top

820

00:31:25,310 --> 00:31:23,760

down like or whereas this one is bottom

821

00:31:26,810 --> 00:31:25,320

up

822

00:31:28,490 --> 00:31:26,820

for instance

823

00:31:31,190 --> 00:31:28,500

some examples help

824

00:31:32,570 --> 00:31:31,200

in the 1960s the majority of people

825

00:31:35,750 --> 00:31:32,580

worked

826

00:31:37,430 --> 00:31:35,760

against segregation however publicly

827

00:31:39,710 --> 00:31:37,440

they pretended that they were for it

828

00:31:41,330 --> 00:31:39,720

because they believe their neighbors did

829

00:31:43,669 --> 00:31:41,340

okay so it's

830

00:31:46,130 --> 00:31:43,679

it's dangerous in a in a sense for the

831

00:31:48,529 --> 00:31:46,140

present Collective Illusions they also

832

00:31:49,730 --> 00:31:48,539

so another Collective illusion is that

833

00:31:54,169 --> 00:31:49,740

we

834

00:31:56,149 --> 00:31:54,179

what matters to the most people is

835

00:31:59,090 --> 00:31:56,159

wealth and status

836

00:32:00,590 --> 00:31:59,100

however in surveys actually what matters

837

00:32:02,690 --> 00:32:00,600

to us and also if you look at the way

838

00:32:04,190 --> 00:32:02,700

people spend in times with the family it

839

00:32:05,810 --> 00:32:04,200

prioritize family what they say they

840

00:32:08,029 --> 00:32:05,820

care about family and they spend for

841

00:32:09,889 --> 00:32:08,039

that and Simple Pleasures involved like

842

00:32:11,389 --> 00:32:09,899

eating at restaurants is so they don't

843

00:32:13,789 --> 00:32:11,399

actually care too much about someone's

844

00:32:15,470 --> 00:32:13,799

wealth and status

845

00:32:17,810 --> 00:32:15,480

now the danger is that the collective

846

00:32:20,450 --> 00:32:17,820

illusions of Our Generation

847

00:32:22,010 --> 00:32:20,460

become the reality of the next of the

848

00:32:24,710 --> 00:32:22,020

Next Generation

849

00:32:26,990 --> 00:32:24,720

so that is kids

850

00:32:28,850 --> 00:32:27,000

here oh what matters most is weapon stat

851  
00:32:30,470 --> 00:32:28,860  
and Status so then they're on Instagram

852  
00:32:32,389 --> 00:32:30,480  
and then these deal horrible and then

853  
00:32:34,730 --> 00:32:32,399  
and then that's what they chases the

854  
00:32:36,769 --> 00:32:34,740  
likes and the followers and subscribers

855  
00:32:39,409 --> 00:32:36,779  
to sing

856  
00:32:41,990 --> 00:32:39,419  
I think stigma the stigma of UFOs is

857  
00:32:44,570 --> 00:32:42,000  
like a collective illusion

858  
00:32:48,350 --> 00:32:44,580  
and the reason I say that is that

859  
00:32:50,269 --> 00:32:48,360  
I can't say people's names

860  
00:32:52,370 --> 00:32:50,279  
because they talk to me off air but

861  
00:32:54,110 --> 00:32:52,380  
several of the professors that I spoken

862  
00:32:57,409 --> 00:32:54,120  
to on the general professors Fields

863  
00:33:01,190 --> 00:32:59,389

award-winning professors don't say that

864

00:33:02,990 --> 00:33:01,200

in mathematics would come to me

865

00:33:05,210 --> 00:33:03,000

afterward to say okay that's great now

866

00:33:07,730 --> 00:33:05,220

that we talked about the algebraths of

867

00:33:09,409 --> 00:33:07,740

solid the monster group and so on

868

00:33:10,610 --> 00:33:09,419

what the heck is coinless should we be

869

00:33:12,529 --> 00:33:10,620

talk but you know how come more people

870

00:33:14,029 --> 00:33:12,539

are talking about it and then they asked

871

00:33:15,470 --> 00:33:14,039

me like prior to lean like hey so what

872

00:33:16,970 --> 00:33:15,480

copies do you put that stop being

873

00:33:18,950 --> 00:33:16,980

extraordinary so in or I'd say

874

00:33:21,710 --> 00:33:18,960

extraordinary well made present The

875

00:33:23,450 --> 00:33:21,720

Liberation is like 70 but I'm included

876

00:33:25,430 --> 00:33:23,460

with that something that the government

877

00:33:26,930 --> 00:33:25,440

develops is extraordinary I still think

878

00:33:29,149 --> 00:33:26,940

if I ended the government and said that

879

00:33:30,230 --> 00:33:29,159

that's absolutely fascinating so I'm not

880

00:33:31,490 --> 00:33:30,240

saying that's your crystals of all

881

00:33:33,110 --> 00:33:31,500

future

882

00:33:36,830 --> 00:33:33,120

and then they went maintenance oh I'm

883

00:33:40,610 --> 00:33:38,630

this is where I think that

884

00:33:42,950 --> 00:33:40,620

programs like yours

885

00:33:45,889 --> 00:33:42,960

told to some degree other people's

886

00:33:48,710 --> 00:33:45,899

podcasts and

887

00:33:52,610 --> 00:33:48,720

and even New York Times 2017.

888

00:33:56,330 --> 00:33:52,620

our importance because they

889

00:33:57,769 --> 00:33:56,340

have people who are reputable and I

890

00:33:59,870 --> 00:33:57,779

don't even like that tournament like

891

00:34:00,889 --> 00:33:59,880

some versus more legitimate than another

892

00:34:02,870 --> 00:34:00,899

person

893

00:34:05,509 --> 00:34:02,880

we can talk about them after it

894

00:34:07,549 --> 00:34:05,519

regardless colloquially these are more

895

00:34:11,270 --> 00:34:07,559

reputable quote-unquote

896

00:34:13,790 --> 00:34:11,280

talking about the UFO subject

897

00:34:15,169 --> 00:34:13,800

and

898

00:34:17,510 --> 00:34:15,179

see I don't think we have a stigma

899

00:34:19,250 --> 00:34:17,520

problem I think we have a cowardice from

900

00:34:20,990 --> 00:34:19,260

I think scientists are at the root of

901  
00:34:22,790 --> 00:34:21,000  
them

902  
00:34:25,129 --> 00:34:22,800  
as soon as the study just makes the

903  
00:34:27,950 --> 00:34:25,139  
subject legitimate by talking about it

904  
00:34:29,690 --> 00:34:27,960  
then the public sees the public sees

905  
00:34:31,310 --> 00:34:29,700  
them as the as the people who ordain

906  
00:34:34,070 --> 00:34:31,320  
what is worthy of being spoken about

907  
00:34:36,409 --> 00:34:34,080  
with a legitimate in a

908  
00:34:39,730 --> 00:34:36,419  
in a non-anti-scientific way in a

909  
00:34:42,829 --> 00:34:41,990  
with this with what you're doing that's

910  
00:34:47,030 --> 00:34:42,839  
great

911  
00:34:50,270 --> 00:34:47,040  
like if you're watching this

912  
00:34:52,369 --> 00:34:50,280  
sometimes and I get this like maybe you

913  
00:34:56,030 --> 00:34:52,379

get this too we're watching shows like

914

00:34:58,849 --> 00:34:56,040

with the heads of the UFO topic who else

915

00:35:01,730 --> 00:34:58,859

Gary Nolan and

916

00:35:04,070 --> 00:35:01,740

and career and

917

00:35:05,570 --> 00:35:04,080

minimal town and so on and we're just

918

00:35:07,370 --> 00:35:05,580

watching we're like I apply new

919

00:35:09,230 --> 00:35:07,380

information where is the new information

920

00:35:11,030 --> 00:35:09,240

and then you're hoping maybe they still

921

00:35:12,410 --> 00:35:11,040

about maybe they say something that you

922

00:35:14,150 --> 00:35:12,420

could read between the lines where they

923

00:35:17,450 --> 00:35:14,160

explicitly say some new Spooks and then

924

00:35:19,370 --> 00:35:17,460

just the pop chapter left it in simply

925

00:35:21,470 --> 00:35:19,380

but then you're just disappointed

926  
00:35:23,750 --> 00:35:21,480  
constantly they're like oh oh my gosh

927  
00:35:25,190 --> 00:35:23,760  
why am I watching this

928  
00:35:28,490 --> 00:35:25,200  
however

929  
00:35:31,609 --> 00:35:28,500  
I think that simply by watching

930  
00:35:34,250 --> 00:35:31,619  
the views and the the normalization of

931  
00:35:36,290 --> 00:35:34,260  
this topic itself counts so even by

932  
00:35:38,030 --> 00:35:36,300  
watching this is like the nurse Kronk

933  
00:35:40,490 --> 00:35:38,040  
this is like a necessary precondition

934  
00:35:42,470 --> 00:35:40,500  
for disclosure to occur

935  
00:35:44,390 --> 00:35:42,480  
okay so I think it goes like this and

936  
00:35:46,490 --> 00:35:44,400  
the word reverse prop is important it's

937  
00:35:48,349 --> 00:35:46,500  
another fourth quarter it is

938  
00:35:50,089 --> 00:35:48,359

Daniel Dennis said that Christianity was

939

00:35:52,790 --> 00:35:50,099

the nurse crop of Science and that's

940

00:35:54,950 --> 00:35:52,800

cops purchasing he said on anything what

941

00:35:57,170 --> 00:35:54,960

it means is that why did sides develop

942

00:36:00,410 --> 00:35:57,180

in the west well firstly to think about

943

00:36:03,829 --> 00:36:00,420

the West developing science is a bit of

944

00:36:07,730 --> 00:36:05,990

but that's in Broad stroke say that that

945

00:36:09,950 --> 00:36:07,740

occurred why well there is something

946

00:36:12,050 --> 00:36:09,960

about Christianity and and found him in

947

00:36:14,150 --> 00:36:12,060

the sacred is seen structure behind

948

00:36:16,730 --> 00:36:14,160

reality and that the church funding

949

00:36:18,589 --> 00:36:16,740

investigation into Natural Science

950

00:36:21,349 --> 00:36:18,599

before it was a consign letter plus

951  
00:36:22,730 --> 00:36:21,359  
speak to him and so he said while he

952  
00:36:23,930 --> 00:36:22,740  
dislikes Christianity because he

953  
00:36:26,810 --> 00:36:23,940  
dislikes all religion he's a

954  
00:36:29,930 --> 00:36:26,820  
Christianity he seems to be a nurse crop

955  
00:36:36,950 --> 00:36:32,569  
I think that in scientists is talking

956  
00:36:38,870 --> 00:36:36,960  
about UFOs or sorry or uads either the

957  
00:36:42,490 --> 00:36:38,880  
fact that I have to say sorry because

958  
00:36:45,230 --> 00:36:42,500  
that word is so scorned and so

959  
00:36:47,870 --> 00:36:45,240  
disparaged even Matt is like that so

960  
00:36:50,510 --> 00:36:47,880  
that's an issue regardless scientists

961  
00:36:52,790 --> 00:36:50,520  
talking about uaps

962  
00:36:54,470 --> 00:36:52,800  
I think

963  
00:36:56,750 --> 00:36:54,480

those in the steps this is

964

00:36:59,450 --> 00:36:56,760

mathematicians

965

00:37:00,650 --> 00:36:59,460

they they have such a responsibility and

966

00:37:02,569 --> 00:37:00,660

they didn't they don't they didn't know

967

00:37:04,849 --> 00:37:02,579

they didn't come into this knowing that

968

00:37:06,470 --> 00:37:04,859

they have a vital position to play in

969

00:37:09,109 --> 00:37:06,480

society which came into it because they

970

00:37:11,450 --> 00:37:09,119

they like positive because I am

971

00:37:13,430 --> 00:37:11,460

but now they have a role a huge role to

972

00:37:15,230 --> 00:37:13,440

play I think they're the nurse I think

973

00:37:17,030 --> 00:37:15,240

it starts with that and it becomes

974

00:37:18,890 --> 00:37:17,040

legitimate and then the government will

975

00:37:20,870 --> 00:37:18,900

talk about it more further

976

00:37:24,290 --> 00:37:20,880

we think of the government as this big

977

00:37:26,930 --> 00:37:24,300

daddy as this big brother or big mother

978

00:37:28,670 --> 00:37:26,940

and us as children need to go to said

979

00:37:29,990 --> 00:37:28,680

father Lord

980

00:37:31,609 --> 00:37:30,000

or mother

981

00:37:34,010 --> 00:37:31,619

but I think we're not children I think

982

00:37:36,050 --> 00:37:34,020

we're teens that are so close to it

983

00:37:38,030 --> 00:37:36,060

drinking age so close so close to

984

00:37:40,790 --> 00:37:38,040

driving it's hopefully not being blocked

985

00:37:45,050 --> 00:37:43,010

good what what Egypt we're the one even

986

00:37:46,790 --> 00:37:45,060

if the government discloses what the

987

00:37:48,410 --> 00:37:46,800

heck does disclosure mean they talk

988

00:37:50,150 --> 00:37:48,420

about that too even if the government

989

00:37:51,890 --> 00:37:50,160

dissolves it it's not like will to be

990

00:37:53,450 --> 00:37:51,900

for the government we want to verify

991

00:37:55,310 --> 00:37:53,460

what the government says whether they

992

00:37:57,410 --> 00:37:55,320

say we have no bodies we have no craft

993

00:37:59,569 --> 00:37:57,420

they're like yeah I prove it we have to

994

00:38:01,069 --> 00:37:59,579

yeah prove it so no matter what if I

995

00:38:03,410 --> 00:38:01,079

have to go down to the scientific body

996

00:38:04,490 --> 00:38:03,420

at some point and then from there to an

997

00:38:07,130 --> 00:38:04,500

open mic

998

00:38:08,150 --> 00:38:07,140

yep I I agree with you you know one of

999

00:38:09,950 --> 00:38:08,160

the things I've been seeing through the

1000

00:38:11,510 --> 00:38:09,960

work that I've been doing is I've been

1001  
00:38:13,130 --> 00:38:11,520  
using a slightly different term here's

1002  
00:38:15,349 --> 00:38:13,140  
just I'm sure much more accurate but

1003  
00:38:16,849 --> 00:38:15,359  
just kind of a latent interest in this

1004  
00:38:19,250 --> 00:38:16,859  
topic like you said people are

1005  
00:38:22,310 --> 00:38:19,260  
interested in this at a personal level

1006  
00:38:24,170 --> 00:38:22,320  
but just as you describe uh there's uh

1007  
00:38:25,430 --> 00:38:24,180  
there's that wall that social wall where

1008  
00:38:28,790 --> 00:38:25,440  
people don't seem to want to engage

1009  
00:38:30,890 --> 00:38:28,800  
because the expectation is uh you know

1010  
00:38:32,810 --> 00:38:30,900  
embarrassment or ridicule or something

1011  
00:38:35,510 --> 00:38:32,820  
of that nature I I Loosely just call

1012  
00:38:37,550 --> 00:38:35,520  
that stigma but uh when I've been seeing

1013  
00:38:39,589 --> 00:38:37,560

are people reaching out and engaging on

1014

00:38:41,569 --> 00:38:39,599

this topic much like you know you spoke

1015

00:38:44,270 --> 00:38:41,579

to uh you know once the mic's off people

1016

00:38:47,089 --> 00:38:44,280

want to engage on this topic I've been

1017

00:38:49,430 --> 00:38:47,099

seeing that happen more and more and uh

1018

00:38:51,170 --> 00:38:49,440

at the American history of Aeronautics

1019

00:38:53,390 --> 00:38:51,180

and astronautic uh we've been getting

1020

00:38:56,450 --> 00:38:53,400

some of the long-time career scientists

1021

00:38:58,310 --> 00:38:56,460

engineers within the Aerospace industry

1022

00:39:00,349 --> 00:38:58,320

and elsewhere that are kind of over that

1023

00:39:01,730 --> 00:39:00,359

home you can say and are kind of putting

1024

00:39:04,010 --> 00:39:01,740

their name on the line and understanding

1025

00:39:06,530 --> 00:39:04,020

up that he'll figure this out the proof

1026  
00:39:07,609 --> 00:39:06,540  
errors a safety to do himself and so you

1027  
00:39:09,710 --> 00:39:07,619  
know I don't think it's evenly

1028  
00:39:11,329 --> 00:39:09,720  
distributed but I think we are seeing a

1029  
00:39:13,069 --> 00:39:11,339  
very positive trend where people are

1030  
00:39:14,870 --> 00:39:13,079  
willing to kind of step out onto that

1031  
00:39:17,030 --> 00:39:14,880  
onto that ledge if you will and say Hey

1032  
00:39:18,770 --> 00:39:17,040  
you know we're just gonna do objective

1033  
00:39:20,750 --> 00:39:18,780  
science on this and all let's see you

1034  
00:39:21,589 --> 00:39:20,760  
know it's another that we have in front

1035  
00:39:24,170 --> 00:39:21,599  
of us

1036  
00:39:27,170 --> 00:39:24,180  
what I'm super interested in it's not

1037  
00:39:29,690 --> 00:39:27,180  
just investigating uaps but what the

1038  
00:39:32,270 --> 00:39:29,700

heck could that mean for science

1039

00:39:35,030 --> 00:39:32,280

at the methodology size so I talk about

1040

00:39:38,030 --> 00:39:35,040

size 2.0 or average losses which I be

1041

00:39:39,710 --> 00:39:38,040

just select the Eastern wave the Eastern

1042

00:39:54,230 --> 00:39:39,720

mold knowing it that narcissist of

1043

00:40:00,770 --> 00:39:55,730

different religious beasts are already

1044

00:40:00,780 --> 00:40:05,630

if you have non-repeatable events

1045

00:40:09,589 --> 00:40:08,089

that you can't falsify as you have to

1046

00:40:12,170 --> 00:40:09,599

incorporate someone that's anecdote too

1047

00:40:15,170 --> 00:40:12,180

how the heck do you make that comport

1048

00:40:17,030 --> 00:40:15,180

with science correctly in Kent science

1049

00:40:20,150 --> 00:40:17,040

requires repeatability and false by

1050

00:40:25,310 --> 00:40:22,790

but science this is why I think that the

1051  
00:40:27,650 --> 00:40:25,320  
disadvantage that we see in uabs such as

1052  
00:40:29,870 --> 00:40:27,660  
these anomalous events is our

1053  
00:40:32,329 --> 00:40:29,880  
opportunity

1054  
00:40:34,970 --> 00:40:32,339  
so the quantum mechanics

1055  
00:40:37,490 --> 00:40:34,980  
okay we see this the we can't directly

1056  
00:40:40,609 --> 00:40:37,500  
observe these two APS

1057  
00:40:43,190 --> 00:40:40,619  
relied they will call all

1058  
00:40:44,630 --> 00:40:43,200  
except nice old cases

1059  
00:40:46,010 --> 00:40:44,640  
in quantum mechanics there's something

1060  
00:40:47,450 --> 00:40:46,020  
called weak measurements that was

1061  
00:40:48,890 --> 00:40:47,460  
invented in order to get some

1062  
00:40:51,050 --> 00:40:48,900  
information about the wave function

1063  
00:40:53,270 --> 00:40:51,060

without collapsing technically without

1064

00:40:55,430 --> 00:40:53,280

Deco hearing it

1065

00:40:57,349 --> 00:40:55,440

and and that was developed because

1066

00:40:58,910 --> 00:40:57,359

there's that weakness in one of again so

1067

00:41:01,130 --> 00:40:58,920

he can't observe without changing or

1068

00:41:02,750 --> 00:41:01,140

clocks into Airport

1069

00:41:04,310 --> 00:41:02,760

so what we thought of as a weakness

1070

00:41:07,730 --> 00:41:04,320

ended up becoming a technological

1071

00:41:10,069 --> 00:41:07,740

Revolution well I well has had heavy

1072

00:41:13,069 --> 00:41:10,079

implications of fought in Computing and

1073

00:41:16,550 --> 00:41:13,079

Quantum information Theory

1074

00:41:18,530 --> 00:41:16,560

and even dark matter he kept directly

1075

00:41:20,810 --> 00:41:18,540

observed Dark Matter again as

1076

00:41:22,730 --> 00:41:20,820

we may alter a fundamental loss to

1077

00:41:24,950 --> 00:41:22,740

incorporate them

1078

00:41:27,109 --> 00:41:24,960

or discovering embargo or or see

1079

00:41:30,470 --> 00:41:27,119

indirectly as influence I think we have

1080

00:41:32,329 --> 00:41:30,480

an opportunity here to I don't know what

1081

00:41:34,430 --> 00:41:32,339

the heck this looks like I think that

1082

00:41:36,890 --> 00:41:34,440

science right now is like a precise like

1083

00:41:38,569 --> 00:41:36,900

a previous Aristotelian sites it's at

1084

00:41:41,089 --> 00:41:38,579

that stage and it's going to develop

1085

00:41:42,950 --> 00:41:41,099

into something else

1086

00:41:45,710 --> 00:41:42,960

but what we're doing right now is we're

1087

00:41:47,750 --> 00:41:45,720

well we're laying some Relic

1088

00:41:49,849 --> 00:41:47,760

super interesting what the heck is size

1089

00:41:51,589 --> 00:41:49,859

2.0 given science has developed to what

1090

00:41:53,950 --> 00:41:51,599

it is now it didn't just encourage from

1091

00:41:56,930 --> 00:41:53,960

a wobble there's a history of science

1092

00:41:59,270 --> 00:41:56,940

textbooks takes chapters takes

1093

00:42:01,609 --> 00:41:59,280

often bookshelves

1094

00:42:03,770 --> 00:42:01,619

have any potential problems in our world

1095

00:42:05,270 --> 00:42:03,780

right now that you think would be

1096

00:42:08,750 --> 00:42:05,280

problems that would be solved about this

1097

00:42:11,150 --> 00:42:08,760

type of 2.0 signs you know so obviously

1098

00:42:13,250 --> 00:42:11,160

the one to buy it is uabs you don't do

1099

00:42:15,349 --> 00:42:13,260

what keys are mystery to us and again

1100

00:42:17,510 --> 00:42:15,359

they're Anonymous phenomenal which is a

1101

00:42:19,250 --> 00:42:17,520

assign you know a scientific term of

1102

00:42:21,170 --> 00:42:19,260

anomalous data things of that nature are

1103

00:42:24,530 --> 00:42:21,180

our opportunities for Discovery and for

1104

00:42:26,089 --> 00:42:24,540

moving things forward uh and people may

1105

00:42:28,730 --> 00:42:26,099

hear a novelist and Allah think of that

1106

00:42:30,589 --> 00:42:28,740

purely from a kind of sci-fi-ish angle

1107

00:42:31,670 --> 00:42:30,599

or something of that nature but perhaps

1108

00:42:33,349 --> 00:42:31,680

you could talk for a minute to what

1109

00:42:35,210 --> 00:42:33,359

would you hear a novelist phenomena from

1110

00:42:37,790 --> 00:42:35,220

a scientific perspective why is that

1111

00:42:40,310 --> 00:42:37,800

important information

1112

00:42:42,650 --> 00:42:40,320

whose scientific perspective

1113

00:42:44,030 --> 00:42:42,660

it's not

1114

00:42:46,010 --> 00:42:44,040

from

1115

00:42:48,230 --> 00:42:46,020

a scientists perspective which is

1116

00:42:50,510 --> 00:42:48,240

different by the way excited scientific

1117

00:42:53,150 --> 00:42:50,520

respect is just the methodology or the

1118

00:42:54,109 --> 00:42:53,160

scientific method with the scientist has

1119

00:43:26,450 --> 00:42:54,119

a

1120

00:43:28,670 --> 00:43:26,460

I don't remember one ferment title

1121

00:43:30,650 --> 00:43:28,680

though some conscience or eight to that

1122

00:43:34,609 --> 00:43:30,660

is

1123

00:43:40,670 --> 00:43:38,390

it's a difficult prong and so it should

1124

00:43:42,770 --> 00:43:40,680

we well everyone has their own very

1125

00:43:45,470 --> 00:43:42,780

latches but it

1126

00:43:47,089 --> 00:43:45,480

for myself I'm just super interested in

1127

00:43:49,430 --> 00:43:47,099

it it's like this huge path I've always

1128

00:43:51,470 --> 00:43:49,440

been interested in Puzzles so as a kid I

1129

00:43:53,329 --> 00:43:51,480

just buff like Rubik's Cubes I like

1130

00:43:55,430 --> 00:43:53,339

Putnam problems and mad like playing

1131

00:43:56,809 --> 00:43:55,440

around with like logic puzzles and

1132

00:43:58,370 --> 00:43:56,819

paradoxes

1133

00:44:00,050 --> 00:43:58,380

I also think there's something to do

1134

00:44:02,510 --> 00:44:00,060

with Paradox it's your mind awake which

1135

00:44:04,250 --> 00:44:02,520

we can talk about it by flight I knew

1136

00:44:06,530 --> 00:44:04,260

either heroes or at some other point

1137

00:44:08,930 --> 00:44:06,540

Paradox is super interesting there's

1138

00:44:10,970 --> 00:44:08,940

something paradoxical Happening Here by

1139

00:44:13,309 --> 00:44:10,980

the way the way Mac was is that you

1140

00:44:14,990 --> 00:44:13,319

allow would construct math in such a way

1141

00:44:16,670 --> 00:44:15,000

that there's no contradiction it's a

1142

00:44:19,190 --> 00:44:16,680

little body and then take logic as the

1143

00:44:21,650 --> 00:44:19,200

base but you allow that what develops

1144

00:44:23,150 --> 00:44:21,660

from epicontron into common sense so that

1145

00:44:25,790 --> 00:44:23,160

is you take the logical basis more

1146

00:44:27,650 --> 00:44:25,800

fundamental

1147

00:44:29,750 --> 00:44:27,660

however there are the art clinical

1148

00:44:31,849 --> 00:44:29,760

logical paradoxes so then what's more

1149

00:44:33,890 --> 00:44:31,859

fundamental than logic There's A

1150

00:44:35,630 --> 00:44:33,900

Treatise on bright right now just so I

1151

00:44:37,130 --> 00:44:35,640

can understand it better if it common

1152

00:44:38,569 --> 00:44:37,140

sense in a book form I don't know but

1153

00:44:39,770 --> 00:44:38,579

it's like a disposition a personal

1154

00:44:42,730 --> 00:44:39,780

disposition

1155

00:44:46,849 --> 00:44:42,740

on paradoxes interpretations

1156

00:44:49,609 --> 00:44:46,859

yeah so a big book yeah oh man

1157

00:44:51,770 --> 00:44:49,619

well okay so that kind of I can see how

1158

00:44:54,710 --> 00:44:51,780

you would be motivated to look into the

1159

00:44:58,190 --> 00:44:54,720

UAP topic then you know say it is a

1160

00:44:59,750 --> 00:44:58,200

puzzle and it's difficult so

1161

00:45:02,690 --> 00:44:59,760

you know have you we talked about

1162

00:45:05,809 --> 00:45:02,700

bridges between Consciousness and and

1163

00:45:09,190 --> 00:45:05,819

Toes uh have you seen any purges between

1164

00:45:11,569 --> 00:45:09,200

UAP and Consciousness or or toes as well

1165

00:45:15,589 --> 00:45:11,579

I hear that

1166

00:45:17,030 --> 00:45:15,599

uaps and Consciousness and as far as I

1167

00:45:19,730 --> 00:45:17,040

can tell it means that if you perform

1168

00:45:21,170 --> 00:45:19,740

something like ce5 when you get in

1169

00:45:23,750 --> 00:45:21,180

contact with

1170

00:45:26,390 --> 00:45:23,760

suppose for assets looking cut the

1171

00:45:27,890 --> 00:45:26,400

aliens on extraterrestrials and ce5 is a

1172

00:45:29,870 --> 00:45:27,900

meditating technique or devolves

1173

00:45:31,730 --> 00:45:29,880

meditation or Falls Shinto whatever it

1174

00:45:33,589 --> 00:45:31,740

may be something Consciousness related

1175

00:45:34,670 --> 00:45:33,599

so that's one of Graces where also

1176  
00:45:36,290 --> 00:45:34,680  
because some people could take

1177  
00:45:38,450 --> 00:45:36,300  
psychedelics and they believed capturing

1178  
00:45:41,210 --> 00:45:38,460  
what is akin to something

1179  
00:45:43,130 --> 00:45:41,220  
extraterrestrials so

1180  
00:45:45,650 --> 00:45:43,140  
that's as far as the connection between

1181  
00:45:47,329 --> 00:45:45,660  
uaps and Consciousness and then also be

1182  
00:45:49,970 --> 00:45:47,339  
making association between what they've

1183  
00:45:52,910 --> 00:45:49,980  
encountered in what's behind

1184  
00:45:56,450 --> 00:45:52,920  
what's seeing on great art

1185  
00:46:01,010 --> 00:45:58,609  
and first of us

1186  
00:46:02,990 --> 00:46:01,020  
so that's though as far as I could tell

1187  
00:46:04,670 --> 00:46:03,000  
that's the connection you're good

1188  
00:46:06,349 --> 00:46:04,680

does it go further than that isn't

1189

00:46:08,870 --> 00:46:06,359

explicated like

1190

00:46:10,490 --> 00:46:08,880

Donald Hoffman's Theory which is their

1191

00:46:13,790 --> 00:46:10,500

paper on it that makes a connection

1192

00:46:15,349 --> 00:46:13,800

between you like these and consciousness

1193

00:46:18,050 --> 00:46:15,359

there may be so there's some people

1194

00:46:20,329 --> 00:46:18,060

there's Jack sarfati because uh

1195

00:46:21,109 --> 00:46:20,339

a physicist or a piece of fun at this

1196

00:46:22,370 --> 00:46:21,119

assistant

1197

00:46:24,710 --> 00:46:22,380

at least

1198

00:46:25,790 --> 00:46:24,720

and then there's Hal put off and Herod

1199

00:46:29,870 --> 00:46:25,800

Davis

1200

00:46:31,670 --> 00:46:29,880

Salvatore Pius and Gene Pierre Petit and

1201

00:46:35,630 --> 00:46:31,680

they have their own theories

1202

00:46:37,069 --> 00:46:35,640

and so maybe and in the future

1203

00:46:39,710 --> 00:46:37,079

something I'd like to work on the seat

1204

00:46:41,450 --> 00:46:39,720

screen their theories together groups

1205

00:46:44,089 --> 00:46:41,460

The Churchill

1206

00:46:46,609 --> 00:46:44,099

because what and like

1207

00:46:50,510 --> 00:46:46,619

Ryan would you must feel as you do is

1208

00:46:54,050 --> 00:46:50,520

solve for solver for both so lucky

1209

00:46:54,060 --> 00:46:58,490

almost whoever we want almost

1210

00:47:03,770 --> 00:47:01,370

I just and sit with them for hours so I

1211

00:47:06,550 --> 00:47:03,780

have so someone like Eric Davis or Jack

1212

00:47:08,990 --> 00:47:06,560

Jack sarfati or

1213

00:47:11,329 --> 00:47:09,000

they may not be able to speak to Penrose

1214

00:47:12,950 --> 00:47:11,339

but I may be able to speak to animals of

1215

00:47:14,990 --> 00:47:12,960

them soon so I can look at their

1216

00:47:17,210 --> 00:47:15,000

equations and I can pose it to him and

1217

00:47:18,950 --> 00:47:17,220

hear what he thinks and thus have a Tom

1218

00:47:21,349 --> 00:47:18,960

Manza in my head between these people

1219

00:47:23,390 --> 00:47:21,359

it's just it's such a

1220

00:47:25,309 --> 00:47:23,400

it's such a privilege right have you

1221

00:47:26,809 --> 00:47:25,319

considered mixing that up to a greater

1222

00:47:29,089 --> 00:47:26,819

degree

1223

00:47:31,250 --> 00:47:29,099

as far as those those communities set up

1224

00:47:34,250 --> 00:47:31,260

and then yes did do it after the Bonanza

1225

00:47:35,569 --> 00:47:34,260

but you know even more so perhaps I I

1226

00:47:37,250 --> 00:47:35,579

think that's happening I think it's

1227

00:47:39,050 --> 00:47:37,260

happening slow I think what you're doing

1228

00:47:43,490 --> 00:47:39,060

is like

1229

00:47:43,500 --> 00:47:48,470

on a on a dry seal

1230

00:47:52,550 --> 00:47:51,470

and they for some reason I don't like

1231

00:47:54,470 --> 00:47:52,560

the word normalization or

1232

00:47:59,390 --> 00:47:54,480

destigmatization but those only words I

1233

00:48:02,809 --> 00:48:01,010

because it's the frequency at which

1234

00:48:04,250 --> 00:48:02,819

these conversations are put out in such

1235

00:48:06,050 --> 00:48:04,260

a way that isn't

1236

00:48:08,210 --> 00:48:06,060

what the History Channel portrays as

1237

00:48:10,130 --> 00:48:08,220

Ancient Aliens which is what we think of

1238

00:48:12,290 --> 00:48:10,140

as that's anti-sides that's a

1239

00:48:14,270 --> 00:48:12,300

distraction that's Sensational that's

1240

00:48:17,390 --> 00:48:14,280

illegitimate

1241

00:48:19,730 --> 00:48:17,400

that is mass delusion and hallucinations

1242

00:48:21,829 --> 00:48:19,740

or whatever it may be but public or the

1243

00:48:23,870 --> 00:48:21,839

general pubic

1244

00:48:26,030 --> 00:48:23,880

well this is steaming people I'll beat

1245

00:48:29,630 --> 00:48:26,040

your presence after install it

1246

00:48:34,130 --> 00:48:32,210

conversations podcast interviews

1247

00:48:35,630 --> 00:48:34,140

even by watching them showing that

1248

00:48:37,910 --> 00:48:35,640

there's interest in it that's why I'm

1249

00:48:40,010 --> 00:48:37,920

saying that it's not just me and you or

1250

00:48:42,530 --> 00:48:40,020

or people who are on the screens people

1251

00:48:44,870 --> 00:48:42,540

who are watching who are listening if

1252

00:48:46,430 --> 00:48:44,880

they this would be nothing without that

1253

00:48:48,230 --> 00:48:46,440

so when they were watching they've

1254

00:48:49,609 --> 00:48:48,240

disappointed much like iron all the time

1255

00:48:53,089 --> 00:48:49,619

by

1256

00:48:56,329 --> 00:48:53,099

from the lack of disclosure disclosure

1257

00:48:59,750 --> 00:48:57,890

in some sense this is on the Earth's

1258

00:49:01,430 --> 00:48:59,760

chronic

1259

00:49:03,589 --> 00:49:01,440

the reason I cook disclosure in

1260

00:49:05,210 --> 00:49:03,599

quotations is because we think of the

1261

00:49:07,309 --> 00:49:05,220

government as disposing but the more

1262

00:49:08,930 --> 00:49:07,319

that I investigate this the more that I

1263

00:49:11,150 --> 00:49:08,940

see the government's fractionate into

1264

00:49:12,829 --> 00:49:11,160

their actions and so it's like a game of

1265

00:49:14,390 --> 00:49:12,839

broken telephone where you don't even

1266

00:49:17,390 --> 00:49:14,400

have access to the original message to

1267

00:49:19,370 --> 00:49:17,400

compare and laugh and plus their their

1268

00:49:20,690 --> 00:49:19,380

competing factions some don't want

1269

00:49:22,490 --> 00:49:20,700

information to come out some want

1270

00:49:24,890 --> 00:49:22,500

altered information to come out some

1271

00:49:27,109 --> 00:49:24,900

want more money we say yeah it's in a

1272

00:49:28,490 --> 00:49:27,119

black budget it's in the black budget b

1273

00:49:29,809 --> 00:49:28,500

black budget as if there's just one

1274

00:49:32,510 --> 00:49:29,819

black budget Department of the

1275

00:49:35,690 --> 00:49:33,890

so it's

1276

00:49:38,390 --> 00:49:35,700

I'm so

1277

00:49:40,849 --> 00:49:38,400

not surprised that these reports are

1278

00:49:43,430 --> 00:49:40,859

think that they give

1279

00:49:45,109 --> 00:49:43,440

little way other than saying that there

1280

00:49:46,069 --> 00:49:45,119

are anomalous objects and that seems to

1281

00:49:48,349 --> 00:49:46,079

be from us

1282

00:49:49,609 --> 00:49:48,359

and and I like the work of John

1283

00:49:53,930 --> 00:49:49,619

Greenwald

1284

00:49:56,450 --> 00:49:53,940

requests Voya puts in Voya requests

1285

00:49:58,910 --> 00:49:56,460

I enjoy I enjoy all the perspectives and

1286

00:50:00,829 --> 00:49:58,920

enjoy the Skeptics I like big West I

1287

00:50:03,530 --> 00:50:00,839

like Stephen

1288

00:50:05,630 --> 00:50:03,540

green streets and

1289

00:50:08,630 --> 00:50:05,640

I just I just like to hear every

1290

00:50:13,550 --> 00:50:11,030

it's just it I it's almost like a like

1291

00:50:15,170 --> 00:50:13,560

Sherlock Holmes Sherlock Holmes he

1292

00:50:16,910 --> 00:50:15,180

doesn't say I'm gonna discount that

1293

00:50:19,430 --> 00:50:16,920

testimonial I'm gonna discount that

1294

00:50:20,930 --> 00:50:19,440

almost nothing is discounted he rarely

1295

00:50:22,550 --> 00:50:20,940

says he doesn't even think of data voice

1296

00:50:24,670 --> 00:50:22,560

thanks for in terms of Clues so that's

1297

00:50:27,230 --> 00:50:24,680

the way that I see this third clones

1298

00:50:29,089 --> 00:50:27,240

it's like I'm a Sherlock Holmes of

1299

00:50:30,589 --> 00:50:29,099

physics primarily I can't sing different

1300

00:50:32,630 --> 00:50:30,599

Clues try to put them together to come

1301

00:50:34,730 --> 00:50:32,640

up with a singular solution but then as

1302

00:50:36,650 --> 00:50:34,740

I start to investigate this just trying

1303

00:50:39,050 --> 00:50:36,660

to see is

1304

00:50:40,790 --> 00:50:39,060

you start off with a very most

1305

00:50:42,410 --> 00:50:40,800

conjectural treat and then you Whittle

1306

00:50:44,329 --> 00:50:42,420

it down

1307

00:50:45,650 --> 00:50:44,339

at certain evidence certain absence of

1308

00:50:48,109 --> 00:50:45,660

evidence skinless

1309

00:50:50,030 --> 00:50:48,119

Nova the dog and giraffe owns The

1310

00:50:52,670 --> 00:50:50,040

Barking Dog you remember that yep yeah

1311

00:50:56,150 --> 00:50:52,680

so okay so servings doesn't know about

1312

00:50:57,530 --> 00:50:56,160

it there was I forgot the story and just

1313

00:50:59,089 --> 00:50:57,540

remember the punchline which is that

1314

00:51:00,950 --> 00:50:59,099

there was a dog some have wounded dog

1315

00:51:04,130 --> 00:51:00,960

and I guess someone broke in or there's

1316

00:51:06,470 --> 00:51:04,140

some transgression property

1317

00:51:08,390 --> 00:51:06,480

but the dog didn't bark and then most

1318

00:51:10,910 --> 00:51:08,400

people just ignored that Sherlock Holmes

1319

00:51:13,190 --> 00:51:10,920

but fixed and all that said the Duncan

1320

00:51:15,589 --> 00:51:13,200

bark why because dogs don't bark at

1321

00:51:17,450 --> 00:51:15,599

people that they know so therefore this

1322

00:51:20,270 --> 00:51:17,460

must be someone that is familiar with

1323

00:51:23,450 --> 00:51:20,280

the dot where dogs familiar with

1324

00:51:25,609 --> 00:51:23,460

that'll all that's like a bicep inside

1325

00:51:28,910 --> 00:51:25,619

you talk to a lot of people both in the

1326

00:51:31,010 --> 00:51:28,920

the toe World cautious world and uh the

1327

00:51:33,589 --> 00:51:31,020

UAP slash UFO world

1328

00:51:35,630 --> 00:51:33,599

uh and you're you know you're Gathering

1329

00:51:37,730 --> 00:51:35,640

a lot of information from a lot of a lot

1330

00:51:39,290 --> 00:51:37,740

of Minds a lot of stories

1331

00:51:40,790 --> 00:51:39,300

you know what what are you putting

1332

00:51:44,870 --> 00:51:40,800

together from now I think we have a p

1333

00:51:47,990 --> 00:51:46,670

it's a great question

1334

00:51:49,549 --> 00:51:48,000

you're a great interview of the

1335

00:51:51,049 --> 00:51:49,559

interviewer by the way thank you I

1336

00:51:52,910 --> 00:51:51,059

appreciate that I'm just having a

1337

00:51:55,730 --> 00:51:52,920

conversation just trying to be thought

1338

00:51:57,829 --> 00:51:55,740

okay here great

1339

00:52:00,230 --> 00:51:57,839

person in a discussion very good all

1340

00:52:05,690 --> 00:52:00,240

right thank you you are as well

1341

00:52:11,870 --> 00:52:08,329

I see contradictions so firstly I see

1342

00:52:13,730 --> 00:52:11,880

Contra reaches 28 places like one I the

1343

00:52:16,130 --> 00:52:13,740

population is extremely interested in

1344

00:52:18,410 --> 00:52:16,140

the subject yet there's little Hughes

1345

00:52:20,450 --> 00:52:18,420

coverage

1346

00:52:21,829 --> 00:52:20,460

we governments

1347

00:52:25,010 --> 00:52:21,839

has been

1348

00:52:28,809 --> 00:52:25,020

well silent but also contradictory

1349

00:52:33,829 --> 00:52:31,609

this you this UAP phenomenal that

1350

00:52:36,770 --> 00:52:33,839

appears to some people and not others

1351

00:52:39,710 --> 00:52:36,780

apparently it's widespread yet

1352

00:52:42,049 --> 00:52:39,720

with photos that are accessible by the

1353

00:52:43,849 --> 00:52:42,059

public there's few that are

1354

00:52:46,490 --> 00:52:43,859

that you can look at to say wow okay

1355

00:52:47,690 --> 00:52:46,500

that's great that's something

1356

00:52:49,910 --> 00:52:47,700

there's always something I wanted to

1357

00:52:55,430 --> 00:52:49,920

breathe to itself but if you did though

1358

00:53:00,770 --> 00:52:58,190

so there are contradictions

1359

00:53:02,750 --> 00:53:00,780

whether they're

1360

00:53:05,750 --> 00:53:02,760

true contradictions and ends in a b

1361

00:53:09,049 --> 00:53:05,760

sense like logical contradictions

1362

00:53:11,690 --> 00:53:10,549

doesn't seem like these two should

1363

00:53:13,430 --> 00:53:11,700

comport

1364

00:53:15,109 --> 00:53:13,440

I don't know I need to think about that

1365

00:53:16,849 --> 00:53:15,119

some more but that's why one of the

1366

00:53:19,130 --> 00:53:16,859

reasons that I'm super interested in

1367

00:53:24,049 --> 00:53:19,140

size 2.0 happy justice as I call it and

1368

00:53:29,930 --> 00:53:27,589

and try to resolve Paradox or see what's

1369

00:53:33,049 --> 00:53:29,940

underneath paradoxes

1370

00:53:35,990 --> 00:53:33,059

I think or at least I'm betting my time

1371

00:53:39,829 --> 00:53:36,000

my heterogene that

1372

00:53:41,930 --> 00:53:39,839

that's a place that'll move the deal for

1373

00:53:44,329 --> 00:53:41,940

that's my present deliberation other

1374

00:53:45,290 --> 00:53:44,339

specific paradoxes in the UAP grown a

1375

00:53:47,390 --> 00:53:45,300

little different than contradictions

1376

00:53:49,130 --> 00:53:47,400

perhaps but are there for specific

1377

00:53:52,250 --> 00:53:49,140

paradoxes that you think you've

1378

00:53:53,690 --> 00:53:52,260

identified duap marks I mean you just

1379

00:53:55,910 --> 00:53:53,700

name something yeah I don't know if

1380

00:53:57,770 --> 00:53:55,920

there's you went through some that are

1381

00:53:59,510 --> 00:53:57,780

you know kind of other edges of the

1382

00:54:01,370 --> 00:53:59,520

spectrum but not necessarily Peridot

1383

00:54:03,770 --> 00:54:01,380

because I think there's you know there's

1384

00:54:04,490 --> 00:54:03,780

a logical Pathway to explain that

1385

00:54:06,650 --> 00:54:04,500

um

1386

00:54:08,809 --> 00:54:06,660

see Frank I'm not quite sure what the

1387

00:54:11,270 --> 00:54:08,819

exact definition of the two the Delta

1388

00:54:13,910 --> 00:54:11,280

between the two would be uh but anyways

1389

00:54:16,790 --> 00:54:13,920

maybe you could smoke

1390

00:54:19,370 --> 00:54:16,800

the paradoxes

1391

00:54:21,410 --> 00:54:19,380

a few UFOs

1392

00:54:23,450 --> 00:54:21,420

as they relate to

1393

00:54:25,430 --> 00:54:23,460

consciousness

1394

00:54:31,309 --> 00:54:25,440

it's one that I can spiritually say

1395

00:54:34,730 --> 00:54:33,410

it's difficult for me to get out

1396

00:54:38,510 --> 00:54:34,740

wait it's

1397

00:54:41,390 --> 00:54:38,520

just some amount of Terror okay

1398

00:54:45,230 --> 00:54:41,400

this topic is not a fun topic like in

1399

00:54:46,970 --> 00:54:45,240

some ways it's fun but it's not a

1400

00:54:48,170 --> 00:54:46,980

it's fun in the way that a roller

1401

00:54:49,490 --> 00:54:48,180

coaster is fun so if there's some

1402

00:54:51,470 --> 00:54:49,500

acceleration to it but there's also

1403

00:54:53,030 --> 00:54:51,480

Terror the roller coaster has much more

1404

00:54:55,609 --> 00:54:53,040

acceleration

1405

00:54:56,630 --> 00:54:55,619

playfulness to it wait imagine you're on

1406

00:54:57,950 --> 00:54:56,640

a roll call so you didn't know this is

1407

00:54:59,750 --> 00:54:57,960

made by coffee no if there's safety

1408

00:55:01,790 --> 00:54:59,760

checks they're gonna be able to freaked

1409

00:55:04,370 --> 00:55:01,800

the heck out yeah that's a very good way

1410

00:55:06,230 --> 00:55:04,380

to put it weird on

1411

00:55:08,870 --> 00:55:06,240

that's what it's like and that's

1412

00:55:10,849 --> 00:55:08,880

something else that I think

1413

00:55:14,510 --> 00:55:10,859

May

1414

00:55:15,890 --> 00:55:14,520

be I don't know fullness back is still a

1415

00:55:19,010 --> 00:55:15,900

great way of thinking about it but it's

1416

00:55:22,309 --> 00:55:19,020

something that's not considered enough

1417

00:55:25,549 --> 00:55:22,319

if you can't think of a way in which

1418

00:55:28,309 --> 00:55:25,559

study this topic or study any topic

1419

00:55:30,589 --> 00:55:28,319

can lead to a place where you would beg

1420

00:55:33,950 --> 00:55:30,599

to not have known to answer it

1421

00:55:35,809 --> 00:55:33,960

so bag and sleep for something to rewind

1422

00:55:37,730 --> 00:55:35,819

tide

1423

00:55:40,309 --> 00:55:37,740

then you're not thinking seriously

1424

00:55:42,349 --> 00:55:40,319

enough about the topic these people in

1425

00:55:44,030 --> 00:55:42,359

the GI are not doing that enough people

1426  
00:55:45,470 --> 00:55:44,040  
they should be more ethics than in the

1427  
00:55:46,849 --> 00:55:45,480  
eye I think they're going to burn their

1428  
00:55:48,650 --> 00:55:46,859  
hands much like Einstein said I'm gonna

1429  
00:55:50,089 --> 00:55:48,660  
burn I wish I'd burn what has before

1430  
00:55:51,770 --> 00:55:50,099  
inventing

1431  
00:55:55,069 --> 00:55:51,780  
E equals and this word or signing off

1432  
00:55:56,809 --> 00:55:55,079  
that they should invest in until God

1433  
00:55:59,750 --> 00:55:56,819  
yeah if you can't do that thought

1434  
00:56:01,790 --> 00:55:59,760  
experiment to find the bounce then

1435  
00:56:05,809 --> 00:56:01,800  
I don't think

1436  
00:56:10,270 --> 00:56:07,670  
do you think that there's a wall out

1437  
00:56:13,250 --> 00:56:10,280  
there on the UAP topic that is either

1438  
00:56:15,470 --> 00:56:13,260

psychological or social that you know

1439

00:56:17,150 --> 00:56:15,480

requires us to be ready for particular

1440

00:56:19,670 --> 00:56:17,160

information so and that is easier to get

1441

00:56:22,670 --> 00:56:19,680

over celebration destined

1442

00:56:24,890 --> 00:56:22,680

so that we can investigate it properly

1443

00:56:26,809 --> 00:56:24,900

and consider what the heck are we doing

1444

00:56:28,549 --> 00:56:26,819

what does it mean to investigate then

1445

00:56:29,930 --> 00:56:28,559

how should we be investigating compared

1446

00:56:31,750 --> 00:56:29,940

to the Dark Forest

1447

00:56:34,370 --> 00:56:31,760

yes

1448

00:56:37,250 --> 00:56:34,380

so do you would you like to explain it

1449

00:56:38,930 --> 00:56:37,260

over here too so

1450

00:56:42,049 --> 00:56:38,940

I'll give up

1451

00:56:43,609 --> 00:56:42,059

form into the site on the story

1452

00:56:45,170 --> 00:56:43,619

there's this set of books by a Chinese

1453

00:56:48,470 --> 00:56:45,180

author called the remembrance bread

1454

00:56:49,670 --> 00:56:48,480

that's passively and it's a so at least

1455

00:56:51,230 --> 00:56:49,680

a three-part series I think there's a

1456

00:56:52,130 --> 00:56:51,240

fourth but it was Wednesday market for

1457

00:56:54,470 --> 00:56:52,140

gardens

1458

00:56:59,630 --> 00:56:54,480

the

1459

00:57:02,450 --> 00:56:59,640

2100 something like that I'm going to

1460

00:57:04,910 --> 00:57:02,460

clock together several pieces of

1461

00:57:08,569 --> 00:57:04,920

of the story and make four people one

1462

00:57:12,950 --> 00:57:09,829

there's this

1463

00:57:14,690 --> 00:57:12,960

scientist who finds a way to communicate

1464

00:57:18,109 --> 00:57:14,700

to

1465

00:57:20,150 --> 00:57:18,119

universe

1466

00:57:21,829 --> 00:57:20,160

she does so the way that she does this

1467

00:57:24,530 --> 00:57:21,839

she shoots some Ray to the sun and it

1468

00:57:27,349 --> 00:57:24,540

spans and she says hey come help us

1469

00:57:30,530 --> 00:57:27,359

we're here we're at we're on Earth

1470

00:57:32,930 --> 00:57:30,540

she gets a message back by the way this

1471

00:57:34,609 --> 00:57:32,940

is this whole story is about one way of

1472

00:57:36,470 --> 00:57:34,619

interpreting it is one is an

1473

00:57:37,849 --> 00:57:36,480

explanationist to the Furby Paradox that

1474

00:57:39,950 --> 00:57:37,859

is why I don't see more intelligence

1475

00:57:42,349 --> 00:57:39,960

place out of it here's

1476  
00:57:44,690 --> 00:57:42,359  
something to say she gets a message back

1477  
00:57:47,089 --> 00:57:44,700  
and it says

1478  
00:57:50,210 --> 00:57:47,099  
if you know what's good for you

1479  
00:57:53,930 --> 00:57:50,220  
don't send me any more messages

1480  
00:57:55,370 --> 00:57:53,940  
I am benevolent but this place is not

1481  
00:57:57,049 --> 00:57:55,380  
be careful

1482  
00:57:58,790 --> 00:57:57,059  
she sits and thinks with it for a while

1483  
00:58:01,250 --> 00:57:58,800  
and she says

1484  
00:58:04,549 --> 00:58:01,260  
you know what Ping she said is not the

1485  
00:58:08,569 --> 00:58:04,559  
best Earth is so barbaric and truculent

1486  
00:58:10,910 --> 00:58:08,579  
Savage we need saving this is there's

1487  
00:58:13,250 --> 00:58:10,920  
too much fighting the humans humans are

1488  
00:58:15,170 --> 00:58:13,260

are not great people and governments are

1489

00:58:17,990 --> 00:58:15,180

not great

1490

00:58:19,609 --> 00:58:18,000

okay that person who sent the message

1491

00:58:21,290 --> 00:58:19,619

that said like be careful don't don't

1492

00:58:23,569 --> 00:58:21,300

send me more messages at first it was

1493

00:58:26,089 --> 00:58:23,579

like a rogue scientist from this other

1494

00:58:28,010 --> 00:58:26,099

civilization that person gets executed

1495

00:58:29,630 --> 00:58:28,020

because they were they were also been

1496

00:58:31,190 --> 00:58:29,640

notifying everyone else they hate the

1497

00:58:33,290 --> 00:58:31,200

book before the nest

1498

00:58:35,450 --> 00:58:33,300

it turns out and

1499

00:58:37,789 --> 00:58:35,460

this civilization speed helium

1500

00:58:40,250 --> 00:58:37,799

civilization called the Tris alarms it

1501

00:58:42,349 --> 00:58:40,260

turns out that the Earth

1502

00:58:44,510 --> 00:58:42,359

that the universe is an extremely

1503

00:58:46,730 --> 00:58:44,520

chaotic place it's called the three body

1504

00:58:49,010 --> 00:58:46,740

worded the book is the first time three

1505

00:58:52,069 --> 00:58:49,020

body problem race because a three-body

1506

00:58:54,650 --> 00:58:52,079

orbit is unstable Batman unlike a two

1507

00:58:56,450 --> 00:58:54,660

bodyboard in the Innocence so

1508

00:58:59,150 --> 00:58:56,460

into this

1509

00:59:01,250 --> 00:58:59,160

and we have a resource here on Earth and

1510

00:59:03,950 --> 00:59:01,260

that resource isn't isn't grass it's not

1511

00:59:06,950 --> 00:59:03,960

water it's stability it's the fact that

1512

00:59:09,349 --> 00:59:06,960

we can even observe walks and make

1513

00:59:11,150 --> 00:59:09,359

regularities

1514

00:59:13,069 --> 00:59:11,160

Wolfram to integrate some of the towels

1515

00:59:14,750 --> 00:59:13,079

Wolfram many call this a pocket of

1516

00:59:16,789 --> 00:59:14,760

reducibility we're in a pocket of

1517

00:59:18,890 --> 00:59:16,799

Buddhist spill I thought that's a

1518

00:59:20,750 --> 00:59:18,900

resource in and of itself and the other

1519

00:59:23,089 --> 00:59:20,760

places they don't have this one of the

1520

00:59:24,950 --> 00:59:23,099

reasons why we see it well there's very

1521

00:59:26,690 --> 00:59:24,960

any Symmetry and then we don't have the

1522

00:59:28,490 --> 00:59:26,700

Hubble tension and so on we think these

1523

00:59:30,049 --> 00:59:28,500

are problems with our laws but it's the

1524

00:59:31,609 --> 00:59:30,059

problem with conceptualize the walls in

1525

00:59:33,230 --> 00:59:31,619

the first place we're not taking into a

1526  
00:59:34,430 --> 00:59:33,240  
capital but Universe could be chaot and

1527  
00:59:37,190 --> 00:59:34,440  
constable

1528  
00:59:39,589 --> 00:59:37,200  
we think a universal here no

1529  
00:59:42,170 --> 00:59:39,599  
so then the tricer is like oh my gosh

1530  
00:59:43,849 --> 00:59:42,180  
there's a place where we can go we're

1531  
00:59:45,589 --> 00:59:43,859  
about to die we're just by the way a

1532  
00:59:47,930 --> 00:59:45,599  
couple many decades or a few hundred

1533  
00:59:49,390 --> 00:59:47,940  
years were civilized of the civilizer

1534  
00:59:52,250 --> 00:59:49,400  
more technologically advanced than the

1535  
00:59:55,789 --> 00:59:52,260  
humanities with us let's go there right

1536  
00:59:58,609 --> 00:59:55,799  
then so then they start heading to Earth

1537  
01:00:01,549 --> 01:00:00,470  
somehow they're communicating with the

1538  
01:00:03,530 --> 01:00:01,559

## Earthlings

1539

01:00:05,930 --> 01:00:03,540

and just like now and hear the same

1540

01:00:07,670 --> 01:00:05,940

rhetoric half of the earth and I'm again

1541

01:00:09,770 --> 01:00:07,680

generalized half of the earth excuse me

1542

01:00:11,750 --> 01:00:09,780

missing they're the seniors they're the

1543

01:00:14,510 --> 01:00:11,760

Gods coming to save us but other half

1544

01:00:16,370 --> 01:00:14,520

says no no no d f and careful then like

1545

01:00:18,710 --> 01:00:16,380

there is something demonic about this or

1546

01:00:20,510 --> 01:00:18,720

at least that this is not in our best

1547

01:00:23,329 --> 01:00:20,520

interest then there's fighting there's

1548

01:00:25,789 --> 01:00:23,339

Wars Earth's subtly not some Earth over

1549

01:00:28,210 --> 01:00:25,799

the course of decades comes together and

1550

01:00:31,069 --> 01:00:28,220

says okay we need to mount to defense

1551

01:00:33,109 --> 01:00:31,079

the most amount energy resources and

1552

01:00:34,609 --> 01:00:33,119

time go into mounting the defense

1553

01:00:36,650 --> 01:00:34,619

against this because they're considering

1554

01:00:39,170 --> 01:00:36,660

both of the worst case scenario

1555

01:00:40,970 --> 01:00:39,180

and they make these cleats and

1556

01:00:42,710 --> 01:00:40,980

they make these fleets so that they can

1557

01:00:44,690 --> 01:00:42,720

protect themselves and they're observing

1558

01:00:46,609 --> 01:00:44,700

the solar system saying like Okay this

1559

01:00:48,170 --> 01:00:46,619

now hundreds of years later they're

1560

01:00:50,510 --> 01:00:48,180

coming they're coming in decades or

1561

01:00:53,450 --> 01:00:50,520

maybe even in 10 years let's

1562

01:00:57,170 --> 01:00:55,910

be careful about the dreading and what

1563

01:00:58,670 --> 01:00:57,180

we think of is all the effort that went

1564

01:01:00,170 --> 01:00:58,680

into the nuclear evolve and into the

1565

01:01:02,450 --> 01:01:00,180

pyramids and so on this like that turns

1566

01:01:03,470 --> 01:01:02,460

a thousand all of Earth is on this and

1567

01:01:06,109 --> 01:01:03,480

then

1568

01:01:07,849 --> 01:01:06,119

there they observe that hey that okay

1569

01:01:08,870 --> 01:01:07,859

we're looking for it irregularities

1570

01:01:13,390 --> 01:01:08,880

we're looking for something out of place

1571

01:01:18,770 --> 01:01:15,589

so they're like let's see what that is

1572

01:01:20,690 --> 01:01:18,780

they go to grab it and like Magneto from

1573

01:01:22,309 --> 01:01:20,700

X-Men I don't know if you saw first

1574

01:01:23,990 --> 01:01:22,319

episode word

1575

01:01:26,750 --> 01:01:24,000

there's one speaker that quickly

1576

01:01:30,109 --> 01:01:26,760

destroys everything and then this one

1577

01:01:31,789 --> 01:01:30,119

droplet quickly destroys Earth's entire

1578

01:01:33,530 --> 01:01:31,799

fleet

1579

01:01:35,809 --> 01:01:33,540

over the course of just seconds and

1580

01:01:37,430 --> 01:01:35,819

they're different first second third the

1581

01:01:39,289 --> 01:01:37,440

first three is destroyed like that and

1582

01:01:41,150 --> 01:01:39,299

the second one barely Copperhead it's

1583

01:01:42,530 --> 01:01:41,160

like they have the eye of Sci and even

1584

01:01:44,030 --> 01:01:42,540

the AI catch you know like what the heck

1585

01:01:45,710 --> 01:01:44,040

just happened and then they get

1586

01:01:48,170 --> 01:01:45,720

distorted then the third gets destroyed

1587

01:01:50,510 --> 01:01:48,180

and now Earth is in this dark cage under

1588

01:01:52,970 --> 01:01:50,520

how lies it would be to use artificial

1589

01:01:54,829 --> 01:01:52,980

intelligence to create military strategy

1590

01:01:57,710 --> 01:01:54,839

it's something that you have zero status

1591

01:02:02,809 --> 01:01:59,870

yeah the way that AI was occurred in as

1592

01:02:04,430 --> 01:02:02,819

a bee inside plenty plenty of data but I

1593

01:02:08,030 --> 01:02:04,440

can't even just give the IPI which

1594

01:02:10,730 --> 01:02:08,040

England I get one later yeah but so so

1595

01:02:12,770 --> 01:02:10,740

you know the Dark Forest you know at

1596

01:02:15,890 --> 01:02:12,780

least philosophy according to

1597

01:02:18,589 --> 01:02:15,900

um that book series is that uh the Furby

1598

01:02:20,750 --> 01:02:18,599

Paradox is uh

1599

01:02:22,309 --> 01:02:20,760

is resolved by the fact that there are

1600

01:02:23,870 --> 01:02:22,319

things out there we just can't see them

1601  
01:02:25,970 --> 01:02:23,880  
because they're specifically hiding due

1602  
01:02:28,609 --> 01:02:25,980  
to the political and War and nature of

1603  
01:02:31,390 --> 01:02:28,619  
uh the large universe and that's based

1604  
01:02:34,549 --> 01:02:31,400  
on the Assumption of limited resources

1605  
01:02:36,230 --> 01:02:34,559  
uh as well as uh the fact that

1606  
01:02:38,270 --> 01:02:36,240  
technological progression happens over

1607  
01:02:39,410 --> 01:02:38,280  
such short periods of time which are all

1608  
01:02:41,390 --> 01:02:39,420  
things that we observe with our own

1609  
01:02:44,089 --> 01:02:41,400  
civilization of course we don't have the

1610  
01:02:45,829 --> 01:02:44,099  
data sets uh from elsewhere as well as

1611  
01:02:48,410 --> 01:02:45,839  
self-interest we are self-interest in

1612  
01:02:50,569 --> 01:02:48,420  
every other species we know is willing

1613  
01:02:53,510 --> 01:02:50,579

to kill another species to say they're

1614

01:02:58,609 --> 01:02:56,210

why wouldn't we think that

1615

01:02:59,630 --> 01:02:58,619

that Universal Property would it be

1616

01:03:02,030 --> 01:02:59,640

Universal

1617

01:03:04,309 --> 01:03:02,040

or at least extremely likely

1618

01:03:06,410 --> 01:03:04,319

one thing I I like to think about in

1619

01:03:10,069 --> 01:03:06,420

that book series as well is you know

1620

01:03:12,289 --> 01:03:10,079

maybe we're the trials right maybe maybe

1621

01:03:14,930 --> 01:03:12,299

you know did every child solar know that

1622

01:03:18,049 --> 01:03:14,940

they went in and in between areas of

1623

01:03:19,490 --> 01:03:18,059

upheaval innocent right so I've always

1624

01:03:21,170 --> 01:03:19,500

kind of thought of it you know I've

1625

01:03:22,549 --> 01:03:21,180

placed myself in that their shoes and

1626

01:03:25,010 --> 01:03:22,559

said you know prep we're just in the

1627

01:03:27,349 --> 01:03:25,020

midst of a pecan period in a sense

1628

01:03:29,150 --> 01:03:27,359

symptoms of fuels elsewhere uh we don't

1629

01:03:31,069 --> 01:03:29,160

know what what stability is and what the

1630

01:03:33,109 --> 01:03:31,079

time frames are for

1631

01:03:35,450 --> 01:03:33,119

um certain biological process that

1632

01:03:38,450 --> 01:03:35,460

evolutionary time period to get from you

1633

01:03:41,150 --> 01:03:38,460

know a to G might be a certain time

1634

01:03:44,089 --> 01:03:41,160

period but for uh different different

1635

01:03:46,789 --> 01:03:44,099

points in that evolutionary process uh

1636

01:03:48,349 --> 01:03:46,799

there might be well it goes It goes into

1637

01:03:50,450 --> 01:03:48,359

what you're saying about wisdom versus

1638

01:03:54,349 --> 01:03:50,460

technology

1639

01:03:56,390 --> 01:03:54,359

we are so unwise that we don't even like

1640

01:03:57,650 --> 01:03:56,400

the concept of wisdom or objective

1641

01:04:01,990 --> 01:03:57,660

morality if we're going to study it it's

1642

01:04:05,450 --> 01:04:04,130

if they're going to make a comment at

1643

01:04:07,069 --> 01:04:05,460

all about it

1644

01:04:08,569 --> 01:04:07,079

they move in the world with it defined

1645

01:04:10,190 --> 01:04:08,579

they're going to make a big give a

1646

01:04:12,349 --> 01:04:10,200

sentence say the madness is just like

1647

01:04:14,030 --> 01:04:12,359

the opposite of a politician could be a

1648

01:04:15,170 --> 01:04:14,040

bad sense that politician wants to read

1649

01:04:16,849 --> 01:04:15,180

anything into the state that Saturday

1650

01:04:18,530 --> 01:04:16,859

that are made messages saying okay

1651  
01:04:19,849 --> 01:04:18,540  
here's exactly what I need so they don't

1652  
01:04:21,829 --> 01:04:19,859  
like where Ali

1653  
01:04:24,650 --> 01:04:21,839  
a mate 12.

1654  
01:04:29,329 --> 01:04:26,930  
Carmen June by the way

1655  
01:04:31,670 --> 01:04:29,339  
have a whole book on UFOs he was saying

1656  
01:04:33,470 --> 01:04:31,680  
that psychological projection of the

1657  
01:04:36,950 --> 01:04:33,480  
collective unconscious

1658  
01:04:41,329 --> 01:04:38,990  
a representation of a man's search for

1659  
01:04:43,250 --> 01:04:41,339  
meaning and Transcendence

1660  
01:04:45,230 --> 01:04:43,260  
okay if that's the case so at least if

1661  
01:04:47,390 --> 01:04:45,240  
that's partially the case

1662  
01:04:50,510 --> 01:04:47,400  
then

1663  
01:04:56,870 --> 01:04:50,520

the reason for the increased anxieties

1664

01:05:03,410 --> 01:05:00,650

maybe because our culture

1665

01:05:04,309 --> 01:05:03,420

is so lacking we're so you constantly

1666

01:05:06,829 --> 01:05:04,319

hear this I'm not religious about

1667

01:05:08,750 --> 01:05:06,839

spiritual like capist longing for

1668

01:05:11,870 --> 01:05:08,760

spiritual growth and then there's this

1669

01:05:14,270 --> 01:05:11,880

loss of the church and so we've erected

1670

01:05:18,710 --> 01:05:14,280

in place of the church technology we

1671

01:05:22,609 --> 01:05:20,930

maybe because well

1672

01:05:24,890 --> 01:05:22,619

Colleen was right about plenty because

1673

01:05:26,089 --> 01:05:24,900

the whole field of psychoanalysis is

1674

01:05:27,950 --> 01:05:26,099

based

1675

01:05:30,170 --> 01:05:27,960

like it's partially on Chrome legion's

1676

01:05:30,180 --> 01:05:36,170

maybe there's something to do with

1677

01:05:40,970 --> 01:05:38,510

with a longing

1678

01:05:43,010 --> 01:05:40,980

but then then it's like well

1679

01:05:45,049 --> 01:05:43,020

when people encounter it is because they

1680

01:05:46,910 --> 01:05:45,059

it's is it the more spiritually ended

1681

01:05:48,710 --> 01:05:46,920

people the people who aren't longing are

1682

01:05:50,210 --> 01:05:48,720

people who are trying to grow I don't

1683

01:05:52,789 --> 01:05:50,220

think that's always the case so is it

1684

01:05:54,170 --> 01:05:52,799

the people who are lacking well is it

1685

01:05:55,549 --> 01:05:54,180

just both ends is it the people who are

1686

01:05:56,870 --> 01:05:55,559

in the middle the ones that are like

1687

01:06:01,250 --> 01:05:56,880

yeah I'm actually fine

1688

01:06:05,390 --> 01:06:03,410

it would give him exclamation as to why

1689

01:06:08,390 --> 01:06:05,400

the Skeptics and the Heart knows and the

1690

01:06:10,130 --> 01:06:08,400

somewhat proud Skeptics

1691

01:06:11,690 --> 01:06:10,140

don't see them much

1692

01:06:14,210 --> 01:06:11,700

they don't feel as if they lacking

1693

01:06:19,670 --> 01:06:14,220

they're extremely organized look down

1694

01:06:22,430 --> 01:06:21,109

so they don't search for it we don't

1695

01:06:24,109 --> 01:06:22,440

care about search I'll leave anything

1696

01:06:26,210 --> 01:06:24,119

the most dignity would be meditating

1697

01:06:28,069 --> 01:06:26,220

anyways to look good

1698

01:06:31,430 --> 01:06:28,079

look how rational I am

1699

01:06:33,109 --> 01:06:31,440

just this uh this embroiled mind like

1700

01:06:35,450 --> 01:06:33,119

meditation for my spirituality and my

1701

01:06:37,670 --> 01:06:35,460

religious and so on

1702

01:06:41,510 --> 01:06:37,680

his meditation of pure spiritual

1703

01:06:44,450 --> 01:06:41,520

practice I think I think it is you do

1704

01:06:46,549 --> 01:06:44,460

yeah it wasn't yeah I think that

1705

01:06:48,289 --> 01:06:46,559

there's this

1706

01:06:50,089 --> 01:06:48,299

I've owned this the first deliberation

1707

01:06:52,010 --> 01:06:50,099

remember

1708

01:06:55,789 --> 01:06:52,020

there's actually metaphysical

1709

01:06:57,589 --> 01:06:55,799

assumptions embedded into meditation so

1710

01:06:59,270 --> 01:06:57,599

they'll say just observe your thoughts

1711

01:07:00,470 --> 01:06:59,280

you are not your thoughts and so on and

1712

01:07:03,770 --> 01:07:00,480

so on

1713

01:07:05,650 --> 01:07:03,780

they're actually you're retold a certain

1714

01:07:08,870 --> 01:07:05,660

framework that you are not your thoughts

1715

01:07:11,150 --> 01:07:08,880

observe these as the winds and the waves

1716

01:07:12,829 --> 01:07:11,160

and so on it's not simply do this

1717

01:07:14,569 --> 01:07:12,839

practice you can't just do this practice

1718

01:07:16,430 --> 01:07:14,579

you have to be told instructed on how to

1719

01:07:18,230 --> 01:07:16,440

do it

1720

01:07:19,549 --> 01:07:18,240

we take those as instructions as

1721

01:07:21,230 --> 01:07:19,559

agnostic but I don't think they are

1722

01:07:23,569 --> 01:07:21,240

metaphysically

1723

01:07:25,130 --> 01:07:23,579

I uh disagree a little bit only because

1724

01:07:26,930 --> 01:07:25,140

I think I learned

1725

01:07:29,450 --> 01:07:26,940

when I started meditating at the adult

1726

01:07:31,970 --> 01:07:29,460

that I used to do as a child I just did

1727

01:07:32,930 --> 01:07:31,980

it without knowing what I was doing I

1728

01:07:35,210 --> 01:07:32,940

used to

1729

01:07:36,049 --> 01:07:35,220

but you know six seven years old I used

1730

01:07:38,089 --> 01:07:36,059

to

1731

01:07:40,190 --> 01:07:38,099

hold my breath in the pool

1732

01:07:42,289 --> 01:07:40,200

and slowly blow the air out and sink to

1733

01:07:44,809 --> 01:07:42,299

the bottom so it's weightless for as

1734

01:07:46,390 --> 01:07:44,819

long as possible and pull that breath as

1735

01:07:50,450 --> 01:07:46,400

long as I could you know just

1736

01:07:51,589 --> 01:07:50,460

concentrate my my focus on either the my

1737

01:07:53,990 --> 01:07:51,599

heartbeat because I could feel it

1738

01:07:55,910 --> 01:07:54,000

through the water and just try to meet

1739

01:07:57,650 --> 01:07:55,920

in that state of mind as possible and I

1740

01:07:59,450 --> 01:07:57,660

would do that for and then while I ran

1741

01:08:01,250 --> 01:07:59,460

up breath I would come back up take a

1742

01:08:03,049 --> 01:08:01,260

single breath as much as I could and

1743

01:08:05,270 --> 01:08:03,059

then flip back down do that same process

1744

01:08:07,910 --> 01:08:05,280

I don't do that for like 45 minutes to

1745

01:08:09,829 --> 01:08:07,920

an hour you know and I just thought it

1746

01:08:11,750 --> 01:08:09,839

was a relaxing thing to do I didn't have

1747

01:08:14,390 --> 01:08:11,760

a word for it and then later I realized

1748

01:08:16,249 --> 01:08:14,400

it was pretty much the same process you

1749

01:08:18,110 --> 01:08:16,259

know mentally as What Choosing to

1750

01:08:19,669 --> 01:08:18,120

meditate and to control the focus and

1751

01:08:21,110 --> 01:08:19,679

things of that nature which is again

1752

01:08:22,910 --> 01:08:21,120

very similar to

1753

01:08:24,470 --> 01:08:22,920

really when you're kind of in the groove

1754

01:08:25,970 --> 01:08:24,480

run development with your flying a

1755

01:08:27,829 --> 01:08:25,980

tactical aircraft

1756

01:08:29,570 --> 01:08:27,839

we call it the scan that we just think

1757

01:08:31,610 --> 01:08:29,580

of it as really moving our eye vowels

1758

01:08:34,249 --> 01:08:31,620

eyeballs around to see information but

1759

01:08:35,809 --> 01:08:34,259

really what we're doing is channeling

1760

01:08:38,090 --> 01:08:35,819

our Focus you know in one particular

1761

01:08:39,769 --> 01:08:38,100

number one particular data point one

1762

01:08:41,749 --> 01:08:39,779

particular problem that we need to solve

1763

01:08:43,669 --> 01:08:41,759

and we do that for a particular period

1764

01:08:45,110 --> 01:08:43,679

of time let me move on to that piece of

1765

01:08:46,789 --> 01:08:45,120

data the next piece of data would do

1766

01:08:48,950 --> 01:08:46,799

that the repeating pattern all right

1767

01:08:50,930 --> 01:08:48,960

we're not multitasking necessarily but

1768

01:08:52,370 --> 01:08:50,940

we have that scan going on and that's

1769

01:08:54,050 --> 01:08:52,380

just control Focus across the

1770

01:08:56,329 --> 01:08:54,060

instruments you know or to keep

1771

01:08:58,610 --> 01:08:56,339

ourselves doing what we need to do

1772

01:09:00,349 --> 01:08:58,620

and so I feel like I kind of you know I

1773

01:09:01,550 --> 01:09:00,359

feel like that was the same process no

1774

01:09:03,229 --> 01:09:01,560

one taught me how to do at the very

1775

01:09:04,849 --> 01:09:03,239

beginning I didn't really know what it

1776

01:09:06,289 --> 01:09:04,859

was or haven't worked for until I you

1777

01:09:09,070 --> 01:09:06,299

know posed in my 30s essentially

1778

01:09:11,030 --> 01:09:09,080

suppressed firstly you're an authors

1779

01:09:13,269 --> 01:09:11,040

it's like I've heard them you're in good

1780

01:09:15,950 --> 01:09:13,279

company because Carl Hume also had some

1781

01:09:17,630 --> 01:09:15,960

experiences that

1782

01:09:19,430 --> 01:09:17,640

you would think would only be cleaned if

1783

01:09:22,189 --> 01:09:19,440

you were to be taught mindfulness

1784

01:09:23,630 --> 01:09:22,199

meditation but as a yoke child and

1785

01:09:24,890 --> 01:09:23,640

thirdly there are different kinds of

1786

01:09:26,450 --> 01:09:24,900

meditation so what you're referencing

1787

01:09:31,870 --> 01:09:26,460

isn't

1788

01:09:35,329 --> 01:09:31,880

it's like say the government

1789

01:09:37,610 --> 01:09:35,339

meditation that's why it was

1790

01:09:39,470 --> 01:09:37,620

I don't know the niche the others

1791

01:09:40,910 --> 01:09:39,480

20 others

1792

01:09:42,289 --> 01:09:40,920

interesting

1793

01:09:43,849 --> 01:09:42,299

very good

1794

01:09:45,229 --> 01:09:43,859

so

1795

01:09:46,910 --> 01:09:45,239

they kind of want to come back to the

1796

01:09:48,349 --> 01:09:46,920

coolies that you may have with you if

1797

01:09:50,209 --> 01:09:48,359

you were you know one thing that you

1798

01:09:51,289 --> 01:09:50,219

mentioned and then we kind of fell off

1799

01:09:53,390 --> 01:09:51,299

the topic was

1800

01:09:55,370 --> 01:09:53,400

what what about absence of data what

1801

01:09:57,410 --> 01:09:55,380

does that say to you on the uip topic

1802

01:10:00,169 --> 01:09:57,420

are there any examples there

1803

01:10:01,729 --> 01:10:00,179

such a quiet dog and there's there's the

1804

01:10:05,450 --> 01:10:01,739

Furby Paradox as well that's like an

1805

01:10:07,010 --> 01:10:05,460

absence what does that indicate

1806

01:10:08,450 --> 01:10:07,020

I don't know honestly you can think

1807

01:10:10,610 --> 01:10:08,460

about this for quite some time but you

1808

01:10:12,770 --> 01:10:10,620

can just

1809

01:10:14,090 --> 01:10:12,780

it's so it's extremely tricky because

1810

01:10:16,189 --> 01:10:14,100

you also don't want to pick up on

1811

01:10:18,650 --> 01:10:16,199

patterns everywhere that's the same as

1812

01:10:20,570 --> 01:10:18,660

paranoid and schizophrenia is an example

1813

01:10:23,090 --> 01:10:20,580

of too much meaning so you have to be

1814

01:10:25,850 --> 01:10:23,100

extremely careful of seeing meaning in

1815

01:10:27,830 --> 01:10:25,860

every place or

1816

01:10:32,570 --> 01:10:27,840

Traditions as the word Alice is yeah

1817

01:10:39,770 --> 01:10:34,610

my mind works

1818

01:10:45,350 --> 01:10:42,950

and So my answer is I don't know

1819

01:10:48,970 --> 01:10:45,360

however am I using the fact that there's

1820

01:10:51,649 --> 01:10:48,980

a lack of data and some other

1821

01:10:55,430 --> 01:10:51,659

stuck in some other decision tree I

1822

01:10:59,870 --> 01:10:56,990

I was walking though

1823

01:11:01,130 --> 01:10:59,880

and trough and by

1824

01:11:03,050 --> 01:11:01,140

and then I said to my wife you know

1825

01:11:05,630 --> 01:11:03,060

Alfred Hitchcock she's like yeah and

1826  
01:11:07,070 --> 01:11:05,640  
then so he said here's what suspense is

1827  
01:11:09,290 --> 01:11:07,080  
and this is the difference between shock

1828  
01:11:10,910 --> 01:11:09,300  
and say okay it's two people having

1829  
01:11:12,169 --> 01:11:10,920  
conversation behind this later if

1830  
01:11:14,209 --> 01:11:12,179  
there's a ball or the table that pulls

1831  
01:11:15,590 --> 01:11:14,219  
out that's shock and Alfred Hitchcock

1832  
01:11:16,970 --> 01:11:15,600  
was he inventor of the sentence that

1833  
01:11:19,189 --> 01:11:16,980  
fill and it's like here's I'm being that

1834  
01:11:21,410 --> 01:11:19,199  
suspenseful stay in the situation just

1835  
01:11:22,729 --> 01:11:21,420  
in the beginning you show the bomb and

1836  
01:11:25,250 --> 01:11:22,739  
then you show talking

1837  
01:11:26,330 --> 01:11:25,260  
save conversation and then you think he

1838  
01:11:27,890 --> 01:11:26,340

has an audience like oh my gosh that's

1839

01:11:29,750 --> 01:11:27,900

gonna Vlog everything what are you doing

1840

01:11:31,130 --> 01:11:29,760

you don't know but that's there

1841

01:11:32,630 --> 01:11:31,140

and it's just like why did you say that

1842

01:11:35,330 --> 01:11:32,640

right now then I'm like why did I say

1843

01:11:36,770 --> 01:11:35,340

that oh because like two seconds ago

1844

01:11:38,990 --> 01:11:36,780

there was this

1845

01:11:40,250 --> 01:11:39,000

a few moments ago there's this guy I

1846

01:11:41,330 --> 01:11:40,260

thought was he going to pick up like he

1847

01:11:42,830 --> 01:11:41,340

just had this spot like it's gonna pick

1848

01:11:44,390 --> 01:11:42,840

out to be then I thought about this

1849

01:11:45,830 --> 01:11:44,400

other movie called the tape where there

1850

01:11:48,110 --> 01:11:45,840

was a this pickpocket and then I thought

1851

01:11:50,390 --> 01:11:48,120

yeah well Eric Idris elbus had this

1852

01:11:52,910 --> 01:11:50,400

Idris Elvis I don't know how to say that

1853

01:11:53,990 --> 01:11:52,920

the the actor in his he was depressed by

1854

01:11:55,310 --> 01:11:54,000

the skin and I was thinking like you

1855

01:11:56,810 --> 01:11:55,320

could read all these emotions he's

1856

01:11:59,090 --> 01:11:56,820

impressed by him thinking what he's

1857

01:12:00,350 --> 01:11:59,100

telling truth what else can he do all

1858

01:12:02,149 --> 01:12:00,360

these emotions were going through Idris

1859

01:12:03,950 --> 01:12:02,159

head and did you see that in his eyes

1860

01:12:05,330 --> 01:12:03,960

then I was thinking if I was a direct

1861

01:12:07,070 --> 01:12:05,340

that scene what would I say and I was

1862

01:12:08,270 --> 01:12:07,080

like okay as the Director no I wouldn't

1863

01:12:09,830 --> 01:12:08,280

give him that much destruction all

1864

01:12:12,649 --> 01:12:09,840

there's actually plenty of a stretch I'm

1865

01:12:14,149 --> 01:12:12,659

not sleeping cake about Alfred Hitchcock

1866

01:12:18,470 --> 01:12:14,159

what would he say then I thought of that

1867

01:12:20,390 --> 01:12:18,480

like babe how exhausting is it

1868

01:12:21,350 --> 01:12:20,400

so what I'm saying is that you're asking

1869

01:12:23,510 --> 01:12:21,360

me about

1870

01:12:26,030 --> 01:12:23,520

um like consciously using the fact that

1871

01:12:27,229 --> 01:12:26,040

there's a lack of data no but I don't

1872

01:12:29,030 --> 01:12:27,239

know if it's one of those steps much

1873

01:12:30,470 --> 01:12:29,040

like it took me quite some time to be

1874

01:12:31,910 --> 01:12:30,480

like why did I think of Alfred each

1875

01:12:34,490 --> 01:12:31,920

other you know because this this is

1876  
01:12:35,330 --> 01:12:34,500  
doses but you could adopter apps said

1877  
01:12:37,490 --> 01:12:35,340  
you had mentioned that you had

1878  
01:12:39,770 --> 01:12:37,500  
highlighted something already

1879  
01:12:41,450 --> 01:12:39,780  
what do you see you know other than just

1880  
01:12:43,669 --> 01:12:41,460  
talking about it like you know I'm

1881  
01:12:44,870 --> 01:12:43,679  
attempting to do with this podcast uh

1882  
01:12:47,510 --> 01:12:44,880  
what else do you think needs to be done

1883  
01:12:48,950 --> 01:12:47,520  
move this conversation forward uh we've

1884  
01:12:50,510 --> 01:12:48,960  
talked a little bit about you know

1885  
01:12:53,209 --> 01:12:50,520  
introducing the wider industry and

1886  
01:12:55,070 --> 01:12:53,219  
Academia to this topic obviously you

1887  
01:12:56,689 --> 01:12:55,080  
know I'm gonna take it from you now so

1888  
01:12:58,310 --> 01:12:56,699

you don't use this but obviously more

1889

01:13:01,850 --> 01:12:58,320

data and being able to distribute that

1890

01:13:04,070 --> 01:13:01,860

data to a wider uh cohort for analysis

1891

01:13:05,689 --> 01:13:04,080

things of that nature would be a wish

1892

01:13:07,850 --> 01:13:05,699

list but what do you think are pragmatic

1893

01:13:10,310 --> 01:13:07,860

steps perhaps to continue this movie

1894

01:13:12,950 --> 01:13:10,320

this conversation for

1895

01:13:14,870 --> 01:13:12,960

like I mentioned the government I don't

1896

01:13:16,850 --> 01:13:14,880

know if whatever the government says

1897

01:13:18,169 --> 01:13:16,860

whether they have something or not what

1898

01:13:19,910 --> 01:13:18,179

is this something I don't know if that's

1899

01:13:23,570 --> 01:13:19,920

enough I don't think that would satisfy

1900

01:13:25,490 --> 01:13:23,580

you nor me nor big West

1901

01:13:27,649 --> 01:13:25,500

it would be okay well what do you mean

1902

01:13:30,530 --> 01:13:27,659

can see it so at some point you would

1903

01:13:32,990 --> 01:13:30,540

have to get to the psychists

1904

01:13:34,669 --> 01:13:33,000

and then here's something I wonder does

1905

01:13:37,250 --> 01:13:34,679

Private Enterprise have more information

1906

01:13:39,229 --> 01:13:37,260

on the phenomenon

1907

01:13:42,290 --> 01:13:39,239

let me ask you that mental and splash

1908

01:13:44,570 --> 01:13:42,300

it's here what that's that okay so what

1909

01:13:47,090 --> 01:13:44,580

do you think that certain private

1910

01:13:49,010 --> 01:13:47,100

Enterprises have more access or more

1911

01:13:50,209 --> 01:13:49,020

knowledge about what's going on what the

1912

01:13:53,090 --> 01:13:50,219

heck has happened

1913

01:13:54,830 --> 01:13:53,100

then pick up I don't have enough

1914

01:13:57,169 --> 01:13:54,840

information to say you know why

1915

01:13:59,209 --> 01:13:57,179

fortunately right so you know we hear a

1916

01:14:01,669 --> 01:13:59,219

lot about how you know potentially the

1917

01:14:05,270 --> 01:14:01,679

moving materials or technology to the

1918

01:14:06,470 --> 01:14:05,280

Private Industry such that it's not you

1919

01:14:11,630 --> 01:14:06,480

know

1920

01:14:13,250 --> 01:14:11,640

elected official or a foia request or

1921

01:14:15,590 --> 01:14:13,260

something of that nature but I have no

1922

01:14:17,510 --> 01:14:15,600

direct knowledge about being a strategy

1923

01:14:19,130 --> 01:14:17,520

that was independent do you have any

1924

01:14:21,709 --> 01:14:19,140

children

1925

01:14:23,209 --> 01:14:21,719

if you did would you would you talk to

1926

01:14:26,030 --> 01:14:23,219

them about uip

1927

01:14:29,209 --> 01:14:26,040

course

1928

01:14:33,229 --> 01:14:29,219

I think that's a deepest question

1929

01:14:36,110 --> 01:14:33,239

now what point at some point yes

1930

01:14:38,270 --> 01:14:36,120

I would imagine like I would but I can't

1931

01:14:40,370 --> 01:14:38,280

know until in that situation of far from

1932

01:14:42,649 --> 01:14:40,380

such a situation review

1933

01:14:46,790 --> 01:14:42,659

how about yourself do you have kids I do

1934

01:14:48,350 --> 01:14:46,800

I have a daughter and spies I hurt uh

1935

01:14:50,270 --> 01:14:48,360

let's talk about a little bit I mean

1936

01:14:53,990 --> 01:14:50,280

there's only so much we can talk to at a

1937

01:14:56,870 --> 01:14:54,000

500 but uh I don't

1938

01:14:57,890 --> 01:14:56,880

I introduce her to the concept of there

1939

01:15:00,410 --> 01:14:57,900

being

1940

01:15:01,850 --> 01:15:00,420

other consciousness

1941

01:15:05,630 --> 01:15:01,860

else pick

1942

01:15:08,689 --> 01:15:05,640

uh in the universe a Galaxy and

1943

01:15:11,450 --> 01:15:08,699

also plants and like things that are

1944

01:15:13,850 --> 01:15:11,460

potentially not conscious I draw a

1945

01:15:15,050 --> 01:15:13,860

distinction there uh maybe not

1946

01:15:18,649 --> 01:15:15,060

philosophically but at least in this

1947

01:15:21,290 --> 01:15:18,659

conversation uh and so yeah I want her

1948

01:15:23,570 --> 01:15:21,300

to understand that you know what we have

1949

01:15:25,010 --> 01:15:23,580

going on this little blue dot here isn't

1950

01:15:27,350 --> 01:15:25,020

necessarily the center of the YouTubers

1951

01:15:29,689 --> 01:15:27,360

I think that is an extremely important

1952

01:15:32,630 --> 01:15:29,699

perspective for her to grow up happening

1953

01:15:35,870 --> 01:15:32,640

because I think it'll just increase her

1954

01:15:37,669 --> 01:15:35,880

optionality and Imagination and you know

1955

01:15:39,890 --> 01:15:37,679

everything we have in the world

1956

01:15:42,770 --> 01:15:39,900

that we've created has started in our

1957

01:15:44,990 --> 01:15:42,780

head as an idea so you know as a general

1958

01:15:46,910 --> 01:15:45,000

philosophy I try to encourage her

1959

01:15:50,930 --> 01:15:46,920

thinking that expands you know her

1960

01:15:52,970 --> 01:15:50,940

mindset her osher uh and you know her

1961

01:15:55,610 --> 01:15:52,980

ability to try new things

1962

01:15:57,950 --> 01:15:55,620

at all and I think without being inside

1963

01:15:59,750 --> 01:15:57,960

our universe is you know the first step

1964

01:16:02,570 --> 01:15:59,760

of that sense

1965

01:16:04,550 --> 01:16:02,580

okay I think about is that we

1966

01:16:05,990 --> 01:16:04,560

think of the primary assets of this

1967

01:16:07,310 --> 01:16:06,000

world is either Consciousness or

1968

01:16:08,689 --> 01:16:07,320

material

1969

01:16:11,270 --> 01:16:08,699

and perhaps to duel to one another

1970

01:16:13,790 --> 01:16:11,280

breast once derived from one another

1971

01:16:15,590 --> 01:16:13,800

I often wonder well what about a third

1972

01:16:17,870 --> 01:16:15,600

element what about a triality what about

1973

01:16:21,950 --> 01:16:17,880

a quadrality or a 12 validity something

1974

01:16:23,570 --> 01:16:21,960

in like the club 157. what about a 157

1975

01:16:25,250 --> 01:16:23,580

LED

1976

01:16:27,830 --> 01:16:25,260

and what if these questions that we

1977

01:16:30,709 --> 01:16:27,840

think are so

1978

01:16:32,570 --> 01:16:30,719

ineffable in these State bus like

1979

01:16:34,370 --> 01:16:32,580

why are we here what is consciousness

1980

01:16:37,669 --> 01:16:34,380

how am I alive but so on what is our

1981

01:16:40,430 --> 01:16:37,679

place what if they're those questions

1982

01:16:42,530 --> 01:16:40,440

there's so we can't access from our from

1983

01:16:43,790 --> 01:16:42,540

within a certain circle So within the

1984

01:16:45,950 --> 01:16:43,800

Consciousness Circle

1985

01:16:47,930 --> 01:16:45,960

we just kept much like girls like

1986

01:16:49,370 --> 01:16:47,940

between us there with this so girdles to

1987

01:16:51,110 --> 01:16:49,380

complete theorem says there's certain

1988

01:16:52,850 --> 01:16:51,120

medical students so she cannot be true

1989

01:16:55,370 --> 01:16:52,860

or sorry and you can't prove water

1990

01:16:56,930 --> 01:16:55,380

within the system was within but there's

1991

01:16:59,689 --> 01:16:56,940

a place

1992

01:17:01,430 --> 01:16:59,699

I'll believe that since if they're doing

1993

01:17:02,930 --> 01:17:01,440

that right

1994

01:17:07,189 --> 01:17:02,940

and what if

1995

01:17:09,229 --> 01:17:07,199

much like a child may ask well how does

1996

01:17:11,030 --> 01:17:09,239

it how does a baby form and where do I

1997

01:17:13,490 --> 01:17:11,040

get my pants from and what is money and

1998

01:17:15,050 --> 01:17:13,500

you're just like just relaxed like there

1999

01:17:16,669 --> 01:17:15,060

aren't these answers are first thing

2000

01:17:18,470 --> 01:17:16,679

fairly trivial

2001

01:17:19,790 --> 01:17:18,480

there's an explanation at 30 that's not

2002

01:17:22,370 --> 01:17:19,800

even the most important question right

2003

01:17:24,050 --> 01:17:22,380

now just just relax yourself I wonder if

2004

01:17:26,390 --> 01:17:24,060

like these existential questions that

2005

01:17:30,169 --> 01:17:26,400

plague us that the religious stories are

2006

01:17:32,090 --> 01:17:30,179

corrected met just trust just relax just

2007

01:17:34,370 --> 01:17:32,100

go along Trust

2008

01:17:36,649 --> 01:17:34,380

you can't make sense of it you're not

2009

01:17:39,410 --> 01:17:36,659

meant to make sense of it it also not

2010

01:17:42,770 --> 01:17:39,420

that it doesn't matter Lin it may be

2011

01:17:44,090 --> 01:17:42,780

few Thailand and counterproduced in

2012

01:17:46,610 --> 01:17:44,100

many ways to capture productive because

2013

01:17:48,110 --> 01:17:46,620

you can just try too bad there you can

2014

01:17:50,450 --> 01:17:48,120

get mad

2015

01:17:52,970 --> 01:17:50,460

down against this

2016

01:17:55,850 --> 01:17:52,980

much in the same way you study a tiger

2017

01:17:57,410 --> 01:17:55,860

leaping across the Sahara uh to an

2018

01:18:00,890 --> 01:17:57,420

infinite degree but you truly don't

2019

01:18:02,990 --> 01:18:00,900

understand uh the mechanics of of hydro

2020

01:18:05,030 --> 01:18:03,000

seeing the lion or the photons coming at

2021

01:18:07,490 --> 01:18:05,040

and not really observe reality beyond

2022

01:18:08,810 --> 01:18:07,500

that yeah even if is that even the

2023

01:18:10,850 --> 01:18:08,820

reality so let's hear something else

2024

01:18:13,189 --> 01:18:10,860

it's like we're so ingrained and

2025

01:18:15,890 --> 01:18:13,199

scientifically to think that the science

2026

01:18:18,290 --> 01:18:15,900

is primary and then our perceptions are

2027

01:18:21,530 --> 01:18:18,300

secondary and something I like about

2028

01:18:23,510 --> 01:18:21,540

Bernardo Castro I like uh I just like

2029

01:18:25,010 --> 01:18:23,520

ideas that make me think he's saying new

2030

01:18:26,630 --> 01:18:25,020

level you start with your perception and

2031

01:18:29,030 --> 01:18:26,640

then you derive the side Circle the

2032

01:18:31,310 --> 01:18:29,040

other way around and so it can feel the

2033

01:18:32,810 --> 01:18:31,320

solidity of an object you know then go

2034

01:18:34,370 --> 01:18:32,820

scientifically and say well the spaces

2035

01:18:37,850 --> 01:18:34,380

between the atoms and the orbitals it's

2036

01:18:39,830 --> 01:18:37,860

on so large that this the the grip that

2037

01:18:42,050 --> 01:18:39,840

you have is an illusion no the grip is

2038

01:18:45,470 --> 01:18:42,060

real somehow your phenomenal reality is

2039

01:18:47,030 --> 01:18:45,480

real it takes pregnancy and there's a

2040

01:18:49,490 --> 01:18:47,040

whole field called phenomenology it's

2041

01:18:52,310 --> 01:18:49,500

like phenomenologist philosophy that

2042

01:18:54,890 --> 01:18:52,320

says that your phenomenon is real you

2043

01:18:56,390 --> 01:18:54,900

take that as your being is real

2044

01:18:57,830 --> 01:18:56,400

you don't then go to something else to

2045

01:19:00,229 --> 01:18:57,840

disprove that you start from bad and

2046

01:19:02,870 --> 01:19:00,239

drive upward it's either derivation is

2047

01:19:05,810 --> 01:19:02,880

the proper way of going about it

2048

01:19:07,810 --> 01:19:05,820

presume something like reductionism

2049

01:19:10,310 --> 01:19:07,820

and it's difficult for me to not think

2050

01:19:13,669 --> 01:19:10,320

reductionistically like what it's even

2051

01:19:15,229 --> 01:19:13,679

in sometimes to you and myself and

2052

01:19:17,090 --> 01:19:15,239

people asking what explains

2053

01:19:19,250 --> 01:19:17,100

Consciousness explains that what counts

2054

01:19:21,649 --> 01:19:19,260

as an explanation like something is more

2055

01:19:23,209 --> 01:19:21,659

it's more real and then that gives rise

2056

01:19:25,310 --> 01:19:23,219

what does it mean to give rise it

2057

01:19:26,870 --> 01:19:25,320

doesn't presume reductions what else

2058

01:19:28,790 --> 01:19:26,880

what are the Alternatives I think you

2059

01:19:30,910 --> 01:19:28,800

would think not a reductionist holism

2060

01:19:33,350 --> 01:19:30,920

sure

2061

01:19:34,850 --> 01:19:33,360

make my mind think well you know to say

2062

01:19:36,590 --> 01:19:34,860

the experience of Consciousness isn't

2063

01:19:38,930 --> 01:19:36,600

the ultimate understanding

2064

01:19:41,090 --> 01:19:38,940

versus all a mathematical equation that

2065

01:19:42,890 --> 01:19:41,100

would describe consciousness is that

2066

01:19:45,950 --> 01:19:42,900

what you're getting at knowing really

2067

01:19:47,930 --> 01:19:45,960

how to find or believe to understand

2068

01:19:50,090 --> 01:19:47,940

um also I apologize if earlier I did the

2069

01:19:51,649 --> 01:19:50,100

indication that I see some lack of

2070

01:19:53,630 --> 01:19:51,659

evidence and some evidence like Sherlock

2071

01:19:56,390 --> 01:19:53,640

holmstead I'm saying that I don't

2072

01:19:58,370 --> 01:19:56,400

discount and so if I see that there's a

2073

01:20:01,689 --> 01:19:58,380

lack or something it may be indicative

2074

01:20:04,490 --> 01:20:01,699

of something very good and

2075

01:20:06,830 --> 01:20:04,500

very good so I think you might have had

2076

01:20:08,930 --> 01:20:06,840

some questions for me

2077

01:20:12,530 --> 01:20:08,940

do commercial airliners sorry commercial

2078

01:20:14,510 --> 01:20:12,540

commercial pilots encounter these yes

2079

01:20:16,430 --> 01:20:14,520

and are they I would imagine that they'd

2080

01:20:19,189 --> 01:20:16,440

be more forthcoming to sleep well let's

2081

01:20:20,870 --> 01:20:19,199

let's define it first what what are the

2082

01:20:22,910 --> 01:20:20,880

what is the thing that you're asking me

2083

01:20:24,470 --> 01:20:22,920

about

2084

01:20:25,970 --> 01:20:24,480

that they see

2085

01:20:29,209 --> 01:20:25,980

it's hard for me to describe without

2086

01:20:32,570 --> 01:20:29,219

then did some version of it but say the

2087

01:20:34,550 --> 01:20:32,580

Tic Tacs the Spears with cutes in them

2088

01:20:36,169 --> 01:20:34,560

these objects that hurt planes I've

2089

01:20:38,630 --> 01:20:36,179

heard from our military as far as we

2090

01:20:41,030 --> 01:20:38,640

know that operate

2091

01:20:43,250 --> 01:20:41,040

in such a way that we have no clue that

2092

01:20:46,310 --> 01:20:43,260

and seems like it's some projection

2093

01:20:48,229 --> 01:20:46,320

because it breaks conservation of

2094

01:20:49,790 --> 01:20:48,239

momentum stay still

2095

01:20:52,010 --> 01:20:49,800

disappears

2096

01:20:53,689 --> 01:20:52,020

so

2097

01:20:56,090 --> 01:20:53,699

you defined at the end there as

2098

01:20:59,149 --> 01:20:56,100

something that portrays exceptional or

2099

01:21:00,830 --> 01:20:59,159

unexplainable flight characteristics

2100

01:21:04,130 --> 01:21:00,840

that is observed but that's not

2101  
01:21:05,510 --> 01:21:04,140  
necessarily the average observation

2102  
01:21:06,649 --> 01:21:05,520  
right you know look out see and that

2103  
01:21:08,450 --> 01:21:06,659  
Darts Away

2104  
01:21:11,270 --> 01:21:08,460  
a lot of times what people are seeing

2105  
01:21:12,490 --> 01:21:11,280  
Pilots are seeing right now are objects

2106  
01:21:15,530 --> 01:21:12,500  
that are

2107  
01:21:17,149 --> 01:21:15,540  
flying in non-symmetrical patterns right

2108  
01:21:20,209 --> 01:21:17,159  
so not just flying in a straight line

2109  
01:21:22,070 --> 01:21:20,219  
but forming turned books or seemingly

2110  
01:21:24,530 --> 01:21:22,080  
descending from one out to two to

2111  
01:21:27,010 --> 01:21:24,540  
another to perform some type of patter

2112  
01:21:30,050 --> 01:21:27,020  
whether it's holding a knot

2113  
01:21:32,630 --> 01:21:30,060

and these are aircraft that are located

2114

01:21:34,729 --> 01:21:32,640

at uh basically the top of commercial

2115

01:21:37,729 --> 01:21:34,739

air traffic altitudes and they're seeing

2116

01:21:40,430 --> 01:21:37,739

these objects 10 and 15 000 feet you're

2117

01:21:42,169 --> 01:21:40,440

just estimating above them so we don't

2118

01:21:43,910 --> 01:21:42,179

know if they're Tic Tacs or warped or

2119

01:21:45,950 --> 01:21:43,920

this that the other thing but the what

2120

01:21:47,750 --> 01:21:45,960

has been seen at least on a regular

2121

01:21:49,970 --> 01:21:47,760

basis happening right now are

2122

01:21:53,450 --> 01:21:49,980

essentially lights that are up these

2123

01:21:54,950 --> 01:21:53,460

aircraft and whole executing I'm gonna

2124

01:21:57,830 --> 01:21:54,960

just call it a holding pattern but you

2125

01:22:01,330 --> 01:21:57,840

know circular patterns or uh are flying

2126

01:22:04,310 --> 01:22:01,340

in kind of J books or or

2127

01:22:06,169 --> 01:22:04,320

non-symmetrical patterns at altitudes

2128

01:22:09,169 --> 01:22:06,179

that wouldn't expect aircraft to be at

2129

01:22:11,330 --> 01:22:09,179

it uh we would also expect aircraft to

2130

01:22:14,330 --> 01:22:11,340

not perform that well so to have like

2131

01:22:16,189 --> 01:22:14,340

tight turns and call it 70 000 feet air

2132

01:22:18,350 --> 01:22:16,199

is very thin there so you know you take

2133

01:22:20,689 --> 01:22:18,360

a even if a fighter jet is up at those

2134

01:22:22,729 --> 01:22:20,699

altitudes it's it's gonna be taking very

2135

01:22:24,350 --> 01:22:22,739

you know long terms things of that big

2136

01:22:25,790 --> 01:22:24,360

gender uh those are flight

2137

01:22:27,770 --> 01:22:25,800

characteristics that form really just

2138

01:22:30,530 --> 01:22:27,780

not sure what they are but the pilots

2139

01:22:32,510 --> 01:22:30,540

don't know either uh a lot you know

2140

01:22:34,490 --> 01:22:32,520

they're reaching out to me and I'll be

2141

01:22:35,689 --> 01:22:34,500

airing more on this podcast all right

2142

01:22:37,130 --> 01:22:35,699

that's up we interview

2143

01:22:38,149 --> 01:22:37,140

there's no shortage of them because

2144

01:22:39,770 --> 01:22:38,159

they're all seeing stuff up there

2145

01:22:41,510 --> 01:22:39,780

rushing down this is you know at least

2146

01:22:44,149 --> 01:22:41,520

this has been communicated to me there

2147

01:22:46,490 --> 01:22:44,159

you go there's a lot of talk and the

2148

01:22:47,870 --> 01:22:46,500

cockpits across the country on this on

2149

01:22:49,430 --> 01:22:47,880

this area that a lot of them see it

2150

01:22:52,490 --> 01:22:49,440

sending pictures and things of that

2151  
01:22:54,590 --> 01:22:52,500  
nature of course uh you know lights

2152  
01:22:55,910 --> 01:22:54,600  
against the black drop only tell you so

2153  
01:22:57,770 --> 01:22:55,920  
much but

2154  
01:23:00,890 --> 01:22:57,780  
um it's very clear from the videos that

2155  
01:23:02,750 --> 01:23:00,900  
I am seeing that their crew you know are

2156  
01:23:04,370 --> 01:23:02,760  
confused of what they're seeing these

2157  
01:23:07,130 --> 01:23:04,380  
are you know professional aviators that

2158  
01:23:08,750 --> 01:23:07,140  
are flying around you know 737s your

2159  
01:23:11,570 --> 01:23:08,760  
other you know large aircraft commercial

2160  
01:23:13,430 --> 01:23:11,580  
aircraft you can hear they're these

2161  
01:23:15,590 --> 01:23:13,440  
things are you know sticking out to them

2162  
01:23:17,570 --> 01:23:15,600  
they they let's see satellites and

2163  
01:23:19,910 --> 01:23:17,580

shooting stars you know every time they

2164

01:23:21,890 --> 01:23:19,920

go to work essentially at night and so

2165

01:23:25,070 --> 01:23:21,900

they are seeing this thick chains and

2166

01:23:27,350 --> 01:23:25,080

the behaviors they're seeing at uh this

2167

01:23:29,270 --> 01:23:27,360

is this is why I've been speaking out

2168

01:23:31,550 --> 01:23:29,280

about our need to have better recording

2169

01:23:32,930 --> 01:23:31,560

in this area because these Pilots don't

2170

01:23:35,510 --> 01:23:32,940

even still don't feel comfortable

2171

01:23:37,790 --> 01:23:35,520

talking about this and um

2172

01:23:40,850 --> 01:23:37,800

on this podcast we spoke with pilots who

2173

01:23:42,530 --> 01:23:40,860

have said how they uh specifically have

2174

01:23:44,270 --> 01:23:42,540

talked to pilots who have seen the same

2175

01:23:46,550 --> 01:23:44,280

thing they have Airborne but those

2176

01:23:48,709 --> 01:23:46,560

Pilots specifically did not reach out to

2177

01:23:50,330 --> 01:23:48,719

the fa controller over the radar to

2178

01:23:52,490 --> 01:23:50,340

confirm those sightings because they

2179

01:23:54,649 --> 01:23:52,500

didn't want that to be reported they

2180

01:23:56,689 --> 01:23:54,659

they were too fearful to have their call

2181

01:23:59,149 --> 01:23:56,699

sign and their voice on seeing something

2182

01:24:01,310 --> 01:23:59,159

like that uh so I'll push back on your

2183

01:24:02,930 --> 01:24:01,320

statement earlier where you know whether

2184

01:24:04,510 --> 01:24:02,940

you call a stigma or something else at

2185

01:24:07,550 --> 01:24:04,520

least something that are in particular

2186

01:24:10,310 --> 01:24:07,560

professionals they they do experience a

2187

01:24:12,530 --> 01:24:10,320

stigma because there are there can be uh

2188

01:24:15,169 --> 01:24:12,540

professional repercussions uh for

2189

01:24:17,270 --> 01:24:15,179

engaging on the topic

2190

01:24:18,290 --> 01:24:17,280

and so another thing too so you know I

2191

01:24:19,910 --> 01:24:18,300

haven't been hearing at least what's

2192

01:24:22,010 --> 01:24:19,920

been happening right now descriptions of

2193

01:24:24,050 --> 01:24:22,020

tic tacs things of that nature get they

2194

01:24:26,689 --> 01:24:24,060

look like lights or or sources of Lights

2195

01:24:28,910 --> 01:24:26,699

uh without that much uh

2196

01:24:31,189 --> 01:24:28,920

three-dimensionality to it at least at

2197

01:24:33,590 --> 01:24:31,199

high altitudes uh

2198

01:24:34,729 --> 01:24:33,600

there have been other cases outside of

2199

01:24:36,050 --> 01:24:34,739

Pilots where people are doing

2200

01:24:38,689 --> 01:24:36,060

independent research where they're

2201

01:24:41,149 --> 01:24:38,699

seeing things at much lower altitudes uh

2202

01:24:43,610 --> 01:24:41,159

to various beans uh you know over the

2203

01:24:46,130 --> 01:24:43,620

market type uh detection capabilities

2204

01:24:47,689 --> 01:24:46,140

active Radars over the market or

2205

01:24:49,790 --> 01:24:47,699

over-the-counter type you know

2206

01:24:51,830 --> 01:24:49,800

Technologies thought military grade but

2207

01:24:53,510 --> 01:24:51,840

just like you know uh stuff that you

2208

01:24:55,850 --> 01:24:53,520

could buy and experiment with on your

2209

01:24:58,130 --> 01:24:55,860

own you know I had a few reports about

2210

01:24:59,570 --> 01:24:58,140

it being seen you know sub 2 000 feet

2211

01:25:02,090 --> 01:24:59,580

that do have a bit more

2212

01:25:04,490 --> 01:25:02,100

three-dimensionality to them uh we can

2213

01:25:06,649 --> 01:25:04,500

kind of make up warmer shape uh we'll be

2214

01:25:08,689 --> 01:25:06,659

recording on that out in wanting

2215

01:25:10,370 --> 01:25:08,699

disorder for it sure sure if they happen

2216

01:25:12,470 --> 01:25:10,380

in conversation sure on this podcast

2217

01:25:13,490 --> 01:25:12,480

about some of those data sets as well in

2218

01:25:15,410 --> 01:25:13,500

the near future

2219

01:25:17,330 --> 01:25:15,420

uh and we're see we're hearing those

2220

01:25:19,310 --> 01:25:17,340

reports at least the High Altitude ones

2221

01:25:22,910 --> 01:25:19,320

from Pilots that work all across the

2222

01:25:25,010 --> 01:25:22,920

globe in the front Europe uh Eastern

2223

01:25:27,890 --> 01:25:25,020

Asia and of course the United States as

2224

01:25:30,229 --> 01:25:27,900

well by east coast and Wells

2225

01:25:33,770 --> 01:25:30,239

is there a difference in the

2226

01:25:36,290 --> 01:25:33,780

between the commercial and the military

2227

01:25:37,850 --> 01:25:36,300

in terms of what they witness Pilots are

2228

01:25:39,649 --> 01:25:37,860

in terms of what they witnessed in terms

2229

01:25:42,169 --> 01:25:39,659

of their reporting procedure and in

2230

01:25:43,669 --> 01:25:42,179

terms of their willingness to come

2231

01:25:46,370 --> 01:25:43,679

forward was there a difference between

2232

01:25:47,689 --> 01:25:46,380

those two yes uh I'll probably have you

2233

01:25:51,290 --> 01:25:47,699

take me through each one I'll just say

2234

01:25:54,350 --> 01:25:51,300

of the the reporting willingness uh I

2235

01:25:56,450 --> 01:25:54,360

think that now today there is a greater

2236

01:25:59,030 --> 01:25:56,460

degree of reporting within certain

2237

01:26:01,729 --> 01:25:59,040

military service such as the Navy I

2238

01:26:03,770 --> 01:26:01,739

can't say whether the Air Force has uh

2239

01:26:06,169 --> 01:26:03,780

complied with the reporting to the same

2240

01:26:07,729 --> 01:26:06,179

degree that the baby has we just don't

2241

01:26:11,090 --> 01:26:07,739

have that at all in the commercial room

2242

01:26:13,970 --> 01:26:11,100

so within the regulations for commercial

2243

01:26:15,770 --> 01:26:13,980

Aviation there is a just a very small

2244

01:26:19,129 --> 01:26:15,780

couple sentences that essentially State

2245

01:26:21,290 --> 01:26:19,139

uh if you if you would like to report a

2246

01:26:22,729 --> 01:26:21,300

UFO you can report it to one of these

2247

01:26:27,050 --> 01:26:22,739

several

2248

01:26:28,610 --> 01:26:27,060

public Source kind of data sets so they

2249

01:26:30,830 --> 01:26:28,620

kind of scatter the data to multiple

2250

01:26:32,870 --> 01:26:30,840

non-government agencies so really

2251

01:26:34,090 --> 01:26:32,880

there's no reforming or tracking that's

2252

01:26:36,169 --> 01:26:34,100

required

2253

01:26:38,689 --> 01:26:36,179

and we're seeing that now in the Navy

2254

01:26:42,050 --> 01:26:38,699

and the military but again zero in the

2255

01:26:44,709 --> 01:26:42,060

car show world uh that's you know what

2256

01:26:48,530 --> 01:26:44,719

are the efforts that we have at the uh

2257

01:26:50,629 --> 01:26:48,540

aidaa in order to uh specify different

2258

01:26:53,149 --> 01:26:50,639

reporting procedures recommend them to

2259

01:26:55,490 --> 01:26:53,159

the proper authorities of that Pilots do

2260

01:26:58,729 --> 01:26:55,500

have need to safely means to safely

2261

01:27:01,010 --> 01:26:58,739

record uh these incidents without fear

2262

01:27:03,530 --> 01:27:01,020

for repercussion or a problem with their

2263

01:27:05,149 --> 01:27:03,540

next yearly physical or anything of that

2264

01:27:07,790 --> 01:27:05,159

nature and their systems and plays to do

2265

01:27:09,229 --> 01:27:07,800

that that's just the NASA asrs and other

2266

01:27:10,970 --> 01:27:09,239

systems and pilots and Trust for

2267

01:27:12,350 --> 01:27:10,980

reporting safety issues we've already

2268

01:27:14,689 --> 01:27:12,360

learned that lesson then if you just

2269

01:27:16,070 --> 01:27:14,699

ignore issues with analyze pilot for

2270

01:27:18,050 --> 01:27:16,080

talking about something well that's what

2271

01:27:20,629 --> 01:27:18,060

happens all right and I'll talk about it

2272

01:27:21,890 --> 01:27:20,639

and anytime it's a safety related issue

2273

01:27:23,390 --> 01:27:21,900

you have to talk about it get that

2274

01:27:25,850 --> 01:27:23,400

information out there to ensure if it's

2275

01:27:28,790 --> 01:27:25,860

not in this hole did anything happen to

2276

01:27:29,990 --> 01:27:28,800

you after you King forward on Rogan and

2277

01:27:33,229 --> 01:27:30,000

Lex

2278

01:27:35,990 --> 01:27:33,239

we need where you talk to say hey please

2279

01:27:39,410 --> 01:27:36,000

stop talking about this or avoid to

2280

01:27:41,330 --> 01:27:39,420

reprimand you in some way nope no I

2281

01:27:43,310 --> 01:27:41,340

don't know who would do that

2282

01:27:44,330 --> 01:27:43,320

you know but there's no shadowy group

2283

01:27:47,209 --> 01:27:44,340

that

2284

01:27:50,030 --> 01:27:47,219

have Warren be or otherwise influences

2285

01:27:52,010 --> 01:27:50,040

like communication anymore

2286

01:27:54,110 --> 01:27:52,020

when there was the sphere and then the

2287

01:28:00,890 --> 01:27:54,120

cube inside the sphere

2288

01:28:06,290 --> 01:28:01,970

did

2289

01:28:08,030 --> 01:28:06,300

you see it with your eyes or your

2290

01:28:09,430 --> 01:28:08,040

teammates in the squad I don't know what

2291

01:28:12,649 --> 01:28:09,440

it's called Squad

2292

01:28:16,129 --> 01:28:12,659

SWAT Squadron right yep SWAT drop

2293

01:28:19,490 --> 01:28:16,139

Squadron yes Squadron yeah okay

2294

01:28:21,169 --> 01:28:19,500

listen they're not called SWAT no

2295

01:28:23,090 --> 01:28:21,179

but while they're been calling it a

2296

01:28:27,250 --> 01:28:23,100

spawn ever since I joined the David all

2297

01:28:32,570 --> 01:28:29,930

all right great

2298

01:28:34,310 --> 01:28:32,580

did they did you see it or did they see

2299

01:28:36,410 --> 01:28:34,320

it I with your eyes yeah I never

2300

01:28:38,629 --> 01:28:36,420

physically saw it found an eyeballs uh

2301

01:28:41,330 --> 01:28:38,639

we would see it on our sensors uh we

2302

01:28:43,790 --> 01:28:41,340

would see it on uh the flear and I just

2303

01:28:45,350 --> 01:28:43,800

interviewed another uh pilot from BFA 11

2304

01:28:47,209 --> 01:28:45,360

that was out there saying tile was me

2305

01:28:48,290 --> 01:28:47,219

and uh that'll probably air just before

2306

01:28:50,090 --> 01:28:48,300

this

2307

01:28:51,350 --> 01:28:50,100

we had the same issue you know you would

2308

01:28:52,729 --> 01:28:51,360

see on the sensors and the Fleer but

2309

01:28:54,050 --> 01:28:52,739

couldn't see it with his eyeballs what

2310

01:28:56,390 --> 01:28:54,060

do you make of it

2311

01:28:58,129 --> 01:28:56,400

uh you know

2312

01:28:59,990 --> 01:28:58,139

I hear people say well it's cloaking

2313

01:29:04,610 --> 01:29:00,000

right you know I'm not willing to jump

2314

01:29:07,610 --> 01:29:06,110

there are reasons I have reasons to

2315

01:29:09,350 --> 01:29:07,620

believe that there's still something

2316

01:29:11,330 --> 01:29:09,360

physical there whether to see it or not

2317

01:29:13,310 --> 01:29:11,340

based off the IR energy that would be

2318

01:29:15,470 --> 01:29:13,320

picked up at that very specific location

2319

01:29:17,209 --> 01:29:15,480

as well as the radar returns and after

2320

01:29:19,970 --> 01:29:17,219

we turn around you know we'll still be

2321

01:29:21,950 --> 01:29:19,980

there uh but I don't know what the make

2322

01:29:23,629 --> 01:29:21,960

of it necessarily for the fact that we

2323

01:29:25,310 --> 01:29:23,639

couldn't see it we would still have to

2324

01:29:28,790 --> 01:29:25,320

respect them as physical objects having

2325

01:29:30,410 --> 01:29:28,800

them on the Fleeer uh yeah that was a big

2326

01:29:32,810 --> 01:29:30,420

one a lot of people were like that they

2327

01:29:35,030 --> 01:29:32,820

would you know when I asked her out have

2328

01:29:37,310 --> 01:29:35,040

you physically seen one most people were

2329

01:29:39,229 --> 01:29:37,320

like well no I kind of you know I'd see

2330

01:29:41,629 --> 01:29:39,239

it everywhere and come to the merge I

2331

01:29:43,129 --> 01:29:41,639

couldn't see it for the reason but some

2332

01:29:46,970 --> 01:29:43,139

people did

2333

01:29:51,290 --> 01:29:46,980

an indication as to the distance between

2334

01:29:56,330 --> 01:29:53,570

a pilot coming in and I was going out

2335

01:29:58,370 --> 01:29:56,340

and it appeared that they saw or these

2336

01:30:00,530 --> 01:29:58,380

one of them with their eyes what was the

2337

01:30:01,910 --> 01:30:00,540

distance between two ships yeah so the

2338

01:30:03,950 --> 01:30:01,920

two ships were actually going the same

2339

01:30:06,110 --> 01:30:03,960

direction uh they weren't going in and

2340

01:30:08,270 --> 01:30:06,120

out uh they were going their fault going

2341

01:30:10,010 --> 01:30:08,280

in at the in altitude for the air hits

2342

01:30:12,110 --> 01:30:10,020

and about thousand feet below that's

2343

01:30:14,149 --> 01:30:12,120

kind of like exit altitude right so you

2344

01:30:16,070 --> 01:30:14,159

hit that piece of the sky at a certain

2345

01:30:18,410 --> 01:30:16,080

altitude okay all right and that's

2346

01:30:19,910 --> 01:30:18,420

entrance to the areas and the exits are

2347

01:30:21,290 --> 01:30:19,920

below right so they were both going in

2348

01:30:25,129 --> 01:30:21,300

at the entrance so they were about 100

2349

01:30:28,610 --> 01:30:25,139

feet apart or so uh at that point as

2350

01:30:30,770 --> 01:30:28,620

they enter up and the object

2351

01:30:31,910 --> 01:30:30,780

I will was stationary I also get like

2352

01:30:33,470 --> 01:30:31,920

Zip between them I think it was

2353

01:30:35,629 --> 01:30:33,480

stationary at that point and they flew

2354

01:30:37,729 --> 01:30:35,639

in between and so the aircrafts were

2355

01:30:39,530 --> 01:30:37,739

moving and that that object was more or

2356

01:30:41,930 --> 01:30:39,540

less stationary at that point

2357

01:30:44,030 --> 01:30:41,940

uh the lead aircraft you know the lead

2358

01:30:45,530 --> 01:30:44,040

aircraft pilot who is really the only

2359

01:30:47,810 --> 01:30:45,540

one with any agency to like look around

2360

01:30:50,149 --> 01:30:47,820

because the the dash 2 the wingman's

2361

01:30:52,550 --> 01:30:50,159

staring directly at uh the lead aircraft

2362

01:30:54,229 --> 01:30:52,560

the fly formation off of him uh so he

2363

01:30:56,570 --> 01:30:54,239

can't like look around he's focused and

2364

01:30:58,129 --> 01:30:56,580

super tight uh but the leader have with

2365

01:31:01,010 --> 01:30:58,139

the round the lead aircraft pilot saw

2366

01:31:04,490 --> 01:31:01,020

that opted go down his right wing line

2367

01:31:06,470 --> 01:31:04,500

in between his wingmen and himself a bit

2368

01:31:08,810 --> 01:31:06,480

closer to him than his wing map Swig man

2369

01:31:11,450 --> 01:31:08,820

was on the right correct

2370

01:31:13,310 --> 01:31:11,460

oh it's not another 100 that he was on

2371

01:31:14,629 --> 01:31:13,320

the right but in this story wasn't right

2372

01:31:16,750 --> 01:31:14,639

it sure it doesn't really matter but

2373

01:31:19,729 --> 01:31:16,760

yeah I don't have that he's perfect

2374

01:31:21,830 --> 01:31:19,739

so but anyways so in the story The

2375

01:31:24,110 --> 01:31:21,840

weakness on the right and when man we

2376

01:31:27,470 --> 01:31:24,120

and object goes between them slightly

2377

01:31:29,450 --> 01:31:27,480

closer to the lead than Dash two and

2378

01:31:32,689 --> 01:31:29,460

that's one of the rare times that

2379

01:31:35,750 --> 01:31:32,699

there's like a reference to estimate a

2380

01:31:37,310 --> 01:31:35,760

size with object and so you know he

2381

01:31:40,250 --> 01:31:37,320

Loosely estimated to somewhere around

2382

01:31:42,169 --> 01:31:40,260

five to fifty feet diameter you booty

2383

01:31:44,270 --> 01:31:42,179

sorry that's he described it as the cube

2384

01:31:47,030 --> 01:31:44,280

in the sound a fierce spear

2385

01:31:49,669 --> 01:31:47,040

the Heat or anyone else who's seen a

2386

01:31:53,270 --> 01:31:49,679

similar object that you know describe if

2387

01:31:56,450 --> 01:31:53,280

the cube inside the spear was moving

2388

01:31:58,310 --> 01:31:56,460

no haven't heard anything about salt

2389

01:32:00,470 --> 01:31:58,320

as far as I understand

2390

01:32:02,870 --> 01:32:00,480

you have this upgraded system

2391

01:32:04,430 --> 01:32:02,880

prior to end you may I heard that you

2392

01:32:06,470 --> 01:32:04,440

can switch after it upgrade that's an

2393

01:32:08,330 --> 01:32:06,480

old system on the whole system you

2394

01:32:10,129 --> 01:32:08,340

wouldn't see these objects

2395

01:32:11,090 --> 01:32:10,139

but on the new system you were track

2396

01:32:12,470 --> 01:32:11,100

right

2397

01:32:14,750 --> 01:32:12,480

yes

2398

01:32:16,610 --> 01:32:14,760

they'll hired you

2399

01:32:18,290 --> 01:32:16,620

your intuition obviously can't give a

2400

01:32:20,330 --> 01:32:18,300

definitive answer but is there a tuition

2401  
01:32:23,090 --> 01:32:20,340  
that perhaps they were there this entire

2402  
01:32:25,310 --> 01:32:23,100  
time or at least for

2403  
01:32:27,169 --> 01:32:25,320  
brief look before you harassment okay

2404  
01:32:28,850 --> 01:32:27,179  
it's just that we were we didn't have

2405  
01:32:29,810 --> 01:32:28,860  
the capabilities to pick them up or do

2406  
01:32:31,129 --> 01:32:29,820  
you think that for some reason it

2407  
01:32:33,470 --> 01:32:31,139  
correlated with as soon as we wrap the

2408  
01:32:36,350 --> 01:32:33,480  
new one there it's yeah my assumption is

2409  
01:32:37,910 --> 01:32:36,360  
that they were there before and that the

2410  
01:32:39,530 --> 01:32:37,920  
Creator capability of the radar made

2411  
01:32:42,770 --> 01:32:39,540  
them more apparent and there's some

2412  
01:32:46,070 --> 01:32:42,780  
anecdotal data on that topic whereas

2413  
01:32:47,570 --> 01:32:46,080

some people I've spoken to have

2414

01:32:49,189 --> 01:32:47,580

you know on this podcast I've had

2415

01:32:50,750 --> 01:32:49,199

experience at East Coast they were

2416

01:32:52,669 --> 01:32:50,760

having them before that rate I'll do

2417

01:32:54,530 --> 01:32:52,679

Veil and they weren't able to see the

2418

01:32:56,270 --> 01:32:54,540

objects but they were called out by the

2419

01:32:57,950 --> 01:32:56,280

controllers to happen go check it out

2420

01:32:59,570 --> 01:32:57,960

and the controllers have a different set

2421

01:33:01,970 --> 01:32:59,580

of instruments they had like a

2422

01:33:04,970 --> 01:33:01,980

ground-based radar that has different uh

2423

01:33:06,950 --> 01:33:04,980

tramples I'll say uh and our Airborne

2424

01:33:09,290 --> 01:33:06,960

ones he didn't see the objects he was

2425

01:33:11,169 --> 01:33:09,300

told to go intercepts and uh you can

2426  
01:33:14,570 --> 01:33:11,179  
listen to the interview with Mark Halsey

2427  
01:33:16,430 --> 01:33:14,580  
uh it was our our second interview uh

2428  
01:33:19,310 --> 01:33:16,440  
but we'll put something up on the page

2429  
01:33:20,750 --> 01:33:19,320  
that people can check it out uh but he

2430  
01:33:22,550 --> 01:33:20,760  
he didn't see anything as radar he was

2431  
01:33:25,010 --> 01:33:22,560  
and this is a common procedure

2432  
01:33:27,050 --> 01:33:25,020  
especially for The Radars where he

2433  
01:33:29,450 --> 01:33:27,060  
essentially had to zoom the radar in on

2434  
01:33:32,149 --> 01:33:29,460  
a piece of Sky more or less and that

2435  
01:33:34,669 --> 01:33:32,159  
allowed him to see the object where he

2436  
01:33:37,490 --> 01:33:34,679  
didn't have any radar contact before

2437  
01:33:39,229 --> 01:33:37,500  
and so that's an indication our example

2438  
01:33:41,629 --> 01:33:39,239

of a time where although we didn't have

2439

01:33:44,209 --> 01:33:41,639

greater uh situational awareness to it

2440

01:33:45,649 --> 01:33:44,219

uh he was able to kind of zoom in and

2441

01:33:46,910 --> 01:33:45,659

then find the object so that kind of

2442

01:33:49,070 --> 01:33:46,920

leads us to believe that we're all there

2443

01:33:51,110 --> 01:33:49,080

for long enough

2444

01:33:53,390 --> 01:33:51,120

or before we bought our Red Roof right

2445

01:33:55,910 --> 01:33:53,400

forgive me I don't know the name of the

2446

01:33:58,010 --> 01:33:55,920

systems that you use to detect but I

2447

01:34:01,010 --> 01:33:58,020

think you used super clear

2448

01:34:03,649 --> 01:34:01,020

do they have a refresh rate is it like

2449

01:34:07,129 --> 01:34:03,659

Arc so the flear is like a camera so

2450

01:34:10,550 --> 01:34:07,139

camera system is IR infrared uh heat

2451

01:34:12,830 --> 01:34:10,560

energy uh Optical system and it can be

2452

01:34:16,370 --> 01:34:12,840

switched to like a pure camera mode like

2453

01:34:18,229 --> 01:34:16,380

visible wavelength upper camo uh and so

2454

01:34:19,850 --> 01:34:18,239

for that it's like any other camera I'm

2455

01:34:21,229 --> 01:34:19,860

sure there's a refresh rate

2456

01:34:23,390 --> 01:34:21,239

Delta too but not eight that's

2457

01:34:26,570 --> 01:34:23,400

noticeable in his heads maybe you're

2458

01:34:28,550 --> 01:34:26,580

thinking of the radar uh so on the 73

2459

01:34:30,470 --> 01:34:28,560

there is kind of what's called like a b

2460

01:34:32,930 --> 01:34:30,480

Suite it's a mechanically scanner right

2461

01:34:35,209 --> 01:34:32,940

so there's a sweeping with that Acer

2462

01:34:38,209 --> 01:34:35,219

Radars operate digitally or differently

2463

01:34:39,830 --> 01:34:38,219

they're usually scanned array radar uh

2464

01:34:42,890 --> 01:34:39,840

but it's not going to go into here but

2465

01:34:44,629 --> 01:34:42,900

uh essentially uh the refresh rate is

2466

01:34:46,790 --> 01:34:44,639

much better

2467

01:34:49,430 --> 01:34:46,800

oh on the on the sweeping the refresh

2468

01:34:52,189 --> 01:34:49,440

rate is okay okay so when you see the

2469

01:34:56,090 --> 01:34:52,199

object and it's making a

2470

01:34:58,790 --> 01:34:56,100

shambling pattern as a golfer

2471

01:35:01,070 --> 01:34:58,800

are you see that much like it's been

2472

01:35:04,310 --> 01:35:01,080

here then here no your action tenure

2473

01:35:06,530 --> 01:35:04,320

strain continuous smooth analog yeah

2474

01:35:08,629 --> 01:35:06,540

it's not skipping out of the radar

2475

01:35:10,910 --> 01:35:08,639

what is skipping is the target aspect of

2476  
01:35:12,350 --> 01:35:10,920  
the Creator which if our radar contact

2477  
01:35:14,510 --> 01:35:12,360  
just looks like a circle that's really

2478  
01:35:15,770 --> 01:35:14,520  
moving that Target aspect is an arrow

2479  
01:35:17,930 --> 01:35:15,780  
that points in the direction he's moving

2480  
01:35:20,270 --> 01:35:17,940  
to show where he's going more clearly

2481  
01:35:22,310 --> 01:35:20,280  
like an arrow and that will kind of like

2482  
01:35:25,010 --> 01:35:22,320  
skip around or so normally that's smooth

2483  
01:35:27,770 --> 01:35:25,020  
so if it's an aircraft that Arrow kind

2484  
01:35:29,390 --> 01:35:27,780  
of just moves smoothly but for this that

2485  
01:35:31,010 --> 01:35:29,400  
Arrow will kind of Dart around we didn't

2486  
01:35:33,110 --> 01:35:31,020  
necessarily represent the direction it

2487  
01:35:34,910 --> 01:35:33,120  
was going to see like it seemed the

2488  
01:35:37,850 --> 01:35:34,920

radar seem to have a hard time picking

2489

01:35:39,110 --> 01:35:37,860

up the directionality of the object they

2490

01:35:41,270 --> 01:35:39,120

see a seat

2491

01:35:43,250 --> 01:35:41,280

even though it was actually showing it

2492

01:35:46,010 --> 01:35:43,260

moving it's that you know that

2493

01:35:48,410 --> 01:35:46,020

particular subject I struggle and that's

2494

01:35:49,610 --> 01:35:48,420

how I identified on the radar just

2495

01:35:50,870 --> 01:35:49,620

looking out and seeing them because they

2496

01:35:52,310 --> 01:35:50,880

would kind of have that scattered

2497

01:35:54,410 --> 01:35:52,320

appears to it where everything else is

2498

01:35:56,090 --> 01:35:54,420

very smooth so I had a higher confidence

2499

01:35:58,129 --> 01:35:56,100

so that was one of those objects that

2500

01:36:00,649 --> 01:35:58,139

just normal air travel are you seeing

2501  
01:36:02,270 --> 01:36:00,659  
them as blips or you see it seeing an

2502  
01:36:05,030 --> 01:36:02,280  
actual shade

2503  
01:36:06,410 --> 01:36:05,040  
uh it's on the radar with everything is

2504  
01:36:08,570 --> 01:36:06,420  
just a graphical display that doesn't

2505  
01:36:11,390 --> 01:36:08,580  
represent reality and you know it's on

2506  
01:36:13,310 --> 01:36:11,400  
icon you know versus like yeah yeah

2507  
01:36:15,649 --> 01:36:13,320  
exactly uh

2508  
01:36:18,169 --> 01:36:15,659  
on the flear

2509  
01:36:20,570 --> 01:36:18,179  
we would see I would see you know the IR

2510  
01:36:23,450 --> 01:36:20,580  
Source look like I got someone's sharing

2511  
01:36:26,870 --> 01:36:23,460  
a flashlight at the Fleer so one scene

2512  
01:36:30,169 --> 01:36:26,880  
like a three-dimensional object uh

2513  
01:36:31,790 --> 01:36:30,179

that makes sense yo like this is a

2514

01:36:33,890 --> 01:36:31,800

common experience this isn't just yours

2515

01:36:35,689 --> 01:36:33,900

like other people similarly see it as

2516

01:36:37,070 --> 01:36:35,699

the as if it's questioned to them even

2517

01:36:40,850 --> 01:36:37,080

if they're in a different area not

2518

01:36:43,070 --> 01:36:40,860

flashing but like yes

2519

01:36:45,050 --> 01:36:43,080

uh I I don't know right anecdotically

2520

01:36:47,090 --> 01:36:45,060

yes these are his questions warning

2521

01:36:49,430 --> 01:36:47,100

considering at the time you know like

2522

01:36:51,830 --> 01:36:49,440

getting into this much detail on it uh

2523

01:36:53,570 --> 01:36:51,840

but I I just couple anecdote cases yes

2524

01:36:54,530 --> 01:36:53,580

that's how it's been described in the

2525

01:36:56,330 --> 01:36:54,540

other field

2526

01:36:58,790 --> 01:36:56,340

for your podcaster and getting people

2527

01:37:02,149 --> 01:36:58,800

from on your spot your squadron to come

2528

01:37:04,070 --> 01:37:02,159

on yep uh I don't want to do any names

2529

01:37:06,470 --> 01:37:04,080

right now but we do have some Pilots

2530

01:37:08,450 --> 01:37:06,480

that were no subscriber mates of mine at

2531

01:37:10,189 --> 01:37:08,460

the time uh that will be talking about

2532

01:37:11,810 --> 01:37:10,199

their experiences with these objects for

2533

01:37:14,030 --> 01:37:11,820

the first time publicly

2534

01:37:17,270 --> 01:37:14,040

when you experience then do you tell

2535

01:37:19,550 --> 01:37:17,280

your higher ups about them

2536

01:37:20,990 --> 01:37:19,560

our son you're up at the Squadron it is

2537

01:37:23,270 --> 01:37:21,000

essentially our commanding officer who

2538

01:37:24,649 --> 01:37:23,280

you know more or less the the mom or dad

2539

01:37:26,030 --> 01:37:24,659

of the Squadron essentially so they're

2540

01:37:27,590 --> 01:37:26,040

kind of involved at the day-to-day

2541

01:37:29,570 --> 01:37:27,600

conversation so they're very well aware

2542

01:37:31,189 --> 01:37:29,580

of it now what they communicate out of

2543

01:37:32,870 --> 01:37:31,199

the sponsor you know his unit command is

2544

01:37:34,610 --> 01:37:32,880

really where you know I don't

2545

01:37:35,930 --> 01:37:34,620

necessarily have visibility to that but

2546

01:37:37,490 --> 01:37:35,940

that would be the more important

2547

01:37:40,070 --> 01:37:37,500

communication that you're referring to

2548

01:37:41,990 --> 01:37:40,080

and up to chain and I know it did get

2549

01:37:43,910 --> 01:37:42,000

passed up the chain to a certain degree

2550

01:37:45,410 --> 01:37:43,920

but then it just kind of went nowhere it

2551

01:37:47,689 --> 01:37:45,420

reserves nowhere for it to go

2552

01:37:49,189 --> 01:37:47,699

essentially are you sure what nowhere or

2553

01:37:50,570 --> 01:37:49,199

well I'm not sure that's an assumption

2554

01:37:52,729 --> 01:37:50,580

right from our perspective in the

2555

01:37:54,350 --> 01:37:52,739

Squadron you know we set we we passed it

2556

01:37:55,970 --> 01:37:54,360

up and that was that but where it

2557

01:37:58,070 --> 01:37:55,980

actually ended up from our perspective

2558

01:38:00,169 --> 01:37:58,080

meaning that nothing changed you weren't

2559

01:38:01,850 --> 01:38:00,179

followed out with correct and So

2560

01:38:03,229 --> 01:38:01,860

eventually we almost had a deer of

2561

01:38:06,530 --> 01:38:03,239

mid-air with one of these objects which

2562

01:38:09,950 --> 01:38:06,540

required a safety report to be filed uh

2563

01:38:11,570 --> 01:38:09,960

and so we filed a hazard report uh on

2564

01:38:13,490 --> 01:38:11,580

that near midair and that's you know

2565

01:38:17,629 --> 01:38:13,500

from the incident where described as a

2566

01:38:20,450 --> 01:38:17,639

sphered q or excuse me Cube inch view uh

2567

01:38:21,770 --> 01:38:20,460

and that was that was another way it was

2568

01:38:23,090 --> 01:38:21,780

passed up the chain in the scent

2569

01:38:23,930 --> 01:38:23,100

although those reports aren't really

2570

01:38:30,950 --> 01:38:23,940

like

2571

01:38:34,070 --> 01:38:30,960

than a proactive safety you know

2572

01:38:35,990 --> 01:38:34,080

prevention mechanism uh but you know

2573

01:38:37,550 --> 01:38:36,000

boltons do go out so people are getting

2574

01:38:38,930 --> 01:38:37,560

some general awareness so it's better

2575

01:38:40,790 --> 01:38:38,940

than nothing

2576

01:38:44,330 --> 01:38:40,800

so I'm just imagining I'm the commanding

2577

01:38:47,390 --> 01:38:44,340

officer if I hear my people are

2578

01:38:49,790 --> 01:38:47,400

encountering some objects I would think

2579

01:38:52,250 --> 01:38:49,800

perhaps that's some debris but also it

2580

01:38:54,410 --> 01:38:52,260

could be an adversary we need to pro

2581

01:38:56,750 --> 01:38:54,420

pack did we go and check that out once

2582

01:38:58,370 --> 01:38:56,760

in order to work the place more does

2583

01:39:01,310 --> 01:38:58,380

that happen

2584

01:39:03,709 --> 01:39:01,320

are they are there missions specifically

2585

01:39:05,750 --> 01:39:03,719

tied to the fight and suffix no but

2586

01:39:08,390 --> 01:39:05,760

there are opportunities to do so I would

2587

01:39:09,830 --> 01:39:08,400

say uh well I'll say this in our during

2588

01:39:11,510 --> 01:39:09,840

the time period off the east coast there

2589

01:39:13,189 --> 01:39:11,520

was that's the only time period I can

2590

01:39:15,169 --> 01:39:13,199

really speak to

2591

01:39:16,610 --> 01:39:15,179

um and we were not watching on any type

2592

01:39:17,689 --> 01:39:16,620

of Mission to go investigate these we

2593

01:39:19,370 --> 01:39:17,699

were just trying to stay away from them

2594

01:39:21,470 --> 01:39:19,380

as much as possible essentially so we

2595

01:39:23,450 --> 01:39:21,480

could get our job done and what that

2596

01:39:25,910 --> 01:39:23,460

looked like sometimes was us having to

2597

01:39:28,310 --> 01:39:25,920

cancel an event or to remove an event

2598

01:39:30,950 --> 01:39:28,320

because that area had objects in it and

2599

01:39:32,689 --> 01:39:30,960

it would interfere with our training uh

2600

01:39:34,669 --> 01:39:32,699

or even halfway through our training the

2601  
01:39:36,050 --> 01:39:34,679  
objects that would come into our area

2602  
01:39:38,090 --> 01:39:36,060  
and so we'd have to knock off the

2603  
01:39:39,770 --> 01:39:38,100  
training somewhere else did you find it

2604  
01:39:41,689 --> 01:39:39,780  
odd that you weren't or that other

2605  
01:39:44,810 --> 01:39:41,699  
people weren't sent to go and look at

2606  
01:39:48,890 --> 01:39:46,729  
they didn't see odd to us that there

2607  
01:39:51,709 --> 01:39:48,900  
wasn't someone for that I think maybe it

2608  
01:39:54,350 --> 01:39:51,719  
was would have been nice but

2609  
01:39:55,970 --> 01:39:54,360  
yeah and we we were just so caught with

2610  
01:39:58,669 --> 01:39:55,980  
trying to do what we needed to do in

2611  
01:40:00,890 --> 01:39:58,679  
such a busy time that

2612  
01:40:03,550 --> 01:40:00,900  
we didn't really put any

2613  
01:40:06,649 --> 01:40:03,560

you know real thinking into

2614

01:40:08,030 --> 01:40:06,659

pragmatic or proactive Solutions you

2615

01:40:10,310 --> 01:40:08,040

know it was just hey we're going to do a

2616

01:40:12,649 --> 01:40:10,320

flight and if this is a debris point for

2617

01:40:14,270 --> 01:40:12,659

us to talk about that's where it ended

2618

01:40:15,950 --> 01:40:14,280

not to say that's the best answer but

2619

01:40:17,930 --> 01:40:15,960

that's what it was like yeah yeah

2620

01:40:20,930 --> 01:40:17,940

remember how we talked about the absence

2621

01:40:22,910 --> 01:40:20,940

of evidence to me this is one of the why

2622

01:40:27,470 --> 01:40:22,920

again if I was but I don't know anything

2623

01:40:29,629 --> 01:40:27,480

about us we're the podcaster

2624

01:40:31,430 --> 01:40:29,639

so if I was a

2625

01:40:33,410 --> 01:40:31,440

commanding officer of this hail King

2626

01:40:35,510 --> 01:40:33,420

look these people we encountered this at

2627

01:40:37,669 --> 01:40:35,520

least twice a given that the second the

2628

01:40:38,870 --> 01:40:37,679

first time most likely goes certainly

2629

01:40:43,310 --> 01:40:38,880

the same

2630

01:40:43,320 --> 01:40:46,790

isn't some protocol

2631

01:40:50,390 --> 01:40:48,410

or maybe the commanding officer as

2632

01:40:52,970 --> 01:40:50,400

leeway doesn't require the protocol why

2633

01:40:55,490 --> 01:40:52,980

do you think it is that

2634

01:40:57,110 --> 01:40:55,500

in your case as far as you know unless

2635

01:40:58,430 --> 01:40:57,120

you know about if she's really actively

2636

01:41:00,290 --> 01:40:58,440

set out to be able to investigate

2637

01:41:03,350 --> 01:41:00,300

whether it's like why doesn't happen

2638

01:41:04,790 --> 01:41:03,360

world especially if it's recurring like

2639

01:41:08,570 --> 01:41:04,800

and you have to cancel something because

2640

01:41:11,090 --> 01:41:08,580

of it in here tell me it's Siri well uh

2641

01:41:13,129 --> 01:41:11,100

I think part of it is that I don't think

2642

01:41:14,450 --> 01:41:13,139

we really have the tools perhaps in a

2643

01:41:16,490 --> 01:41:14,460

lot of cases

2644

01:41:18,830 --> 01:41:16,500

um so I know people have kind of half

2645

01:41:20,510 --> 01:41:18,840

jokely said hey if you can't go do our

2646

01:41:23,030 --> 01:41:20,520

bet we'll go try to check out one of

2647

01:41:24,950 --> 01:41:23,040

these UAP things and have done it and

2648

01:41:26,510 --> 01:41:24,960

have seen it as a cube in a sphere you

2649

01:41:31,850 --> 01:41:26,520

know uh

2650

01:41:33,770 --> 01:41:31,860

but the actual jet is not a good tool to

2651  
01:41:35,570 --> 01:41:33,780  
scientifically determine what these are

2652  
01:41:37,550 --> 01:41:35,580  
or tools are made for very specific

2653  
01:41:39,410 --> 01:41:37,560  
tasks so other than just like physically

2654  
01:41:40,910 --> 01:41:39,420  
trying to slow down we can't even slow

2655  
01:41:44,510 --> 01:41:40,920  
it out so much right so at best we're

2656  
01:41:46,910 --> 01:41:44,520  
getting like 100 120 knot pass on this

2657  
01:41:48,830 --> 01:41:46,920  
object that's potentially stationary

2658  
01:41:50,990 --> 01:41:48,840  
did you buy it for a you know Split

2659  
01:41:52,790 --> 01:41:51,000  
Second and that's our data Gathering we

2660  
01:41:55,310 --> 01:41:52,800  
could lock it up with a radar from dude

2661  
01:41:57,169 --> 01:41:55,320  
you know almost the way The Radars work

2662  
01:41:59,450 --> 01:41:57,179  
you know you don't have to explain it at

2663  
01:42:01,189 --> 01:41:59,460

something per se so you know these

2664

01:42:04,430 --> 01:42:01,199

things are likely eating Pink by Radars

2665

01:42:06,770 --> 01:42:04,440

all the time so you need you know your

2666

01:42:08,090 --> 01:42:06,780

own tool set you need to you know

2667

01:42:11,870 --> 01:42:08,100

understand exactly what you're looking

2668

01:42:14,930 --> 01:42:11,880

for tap perhaps modify current sensors

2669

01:42:16,790 --> 01:42:14,940

to be able to uh you know look for the

2670

01:42:19,910 --> 01:42:16,800

signal that he's been putting out

2671

01:42:22,189 --> 01:42:19,920

uh and you get anybody to do that you

2672

01:42:24,290 --> 01:42:22,199

need a team and you need equipment to

2673

01:42:25,609 --> 01:42:24,300

carry Those sensors up there these are

2674

01:42:28,609 --> 01:42:25,619

all things I think that are very

2675

01:42:30,950 --> 01:42:28,619

cheapable uh Solutions but we just

2676

01:42:33,410 --> 01:42:30,960

haven't been looking at this problem

2677

01:42:35,030 --> 01:42:33,420

but we haven't taken very seriously and

2678

01:42:37,550 --> 01:42:35,040

it's taking a lot of work to even get

2679

01:42:39,470 --> 01:42:37,560

where we are today but where we are

2680

01:42:41,870 --> 01:42:39,480

today is with the all-time online

2681

01:42:44,570 --> 01:42:41,880

resolution office with NASA's

2682

01:42:48,050 --> 01:42:44,580

independent study team with the Aiwa

2683

01:42:49,970 --> 01:42:48,060

pioc group uh we see these organizations

2684

01:42:52,430 --> 01:42:49,980

standing up that can bring that kind of

2685

01:42:54,050 --> 01:42:52,440

a investigatory power to this it's just

2686

01:42:56,209 --> 01:42:54,060

taking longer I think that we all would

2687

01:42:57,709 --> 01:42:56,219

have lot liked but we're seeing that

2688

01:43:00,290 --> 01:42:57,719

kind of pull the government approach now

2689

01:43:02,629 --> 01:43:00,300

I think start to stand out

2690

01:43:04,189 --> 01:43:02,639

the absence of a protocol for what to do

2691

01:43:05,930 --> 01:43:04,199

when you encounter one of these or at

2692

01:43:07,609 --> 01:43:05,940

least the current absence of what does

2693

01:43:09,830 --> 01:43:07,619

that indicate anything to you there's

2694

01:43:11,990 --> 01:43:09,840

not a car absence right now there is a

2695

01:43:14,689 --> 01:43:12,000

standardized reporting procedure in the

2696

01:43:17,510 --> 01:43:14,699

Navy right now then Air Force has spoken

2697

01:43:18,770 --> 01:43:17,520

about a standardized procedure uh in the

2698

01:43:21,410 --> 01:43:18,780

past although they're not very public

2699

01:43:22,729 --> 01:43:21,420

with what they're executing on today

2700

01:43:29,510 --> 01:43:22,739

uh

2701

01:43:31,609 --> 01:43:29,520

gap at them a little bit I see you know

2702

01:43:33,229 --> 01:43:31,619

the whole previous you know generation

2703

01:43:34,970 --> 01:43:33,239

of conversation around this as a

2704

01:43:36,890 --> 01:43:34,980

potential Gap but you know at least

2705

01:43:38,510 --> 01:43:36,900

starting with the UAP task force report

2706

01:43:42,050 --> 01:43:38,520

and the reported from the Navy and well

2707

01:43:44,629 --> 01:43:42,060

144 cases so we are starting to uh go

2708

01:43:46,550 --> 01:43:44,639

down that uh so I agree with you before

2709

01:43:48,530 --> 01:43:46,560

that but now we seem to be in a slightly

2710

01:43:49,250 --> 01:43:48,540

different Paradigm or I won't even say

2711

01:43:50,870 --> 01:43:49,260

slightly just a different

2712

01:43:52,970 --> 01:43:50,880

paranormalities openness and

2713

01:43:55,189 --> 01:43:52,980

communication on this topic ever since

2714

01:43:56,930 --> 01:43:55,199

what year of what year was that the oh

2715

01:43:58,729 --> 01:43:56,940

well we had our first we had the UAP

2716

01:44:01,910 --> 01:43:58,739

task force report

2717

01:44:02,990 --> 01:44:01,920

and what they did was they reported uh

2718

01:44:13,729 --> 01:44:03,000

the

2719

01:44:18,169 --> 01:44:13,739

period for for that was 2004 to I think

2720

01:44:20,629 --> 01:44:18,179

2020 or 2019 but about 80 percent of

2721

01:44:22,669 --> 01:44:20,639

those cases if not more were from the

2722

01:44:25,310 --> 01:44:22,679

very recent past since the Navy started

2723

01:44:28,550 --> 01:44:25,320

recording these objects so you have you

2724

01:44:30,770 --> 01:44:28,560

know about 2018 to 2020

2725

01:44:33,830 --> 01:44:30,780

and then you have a probably a case in

2726

01:44:35,870 --> 01:44:33,840

2004 most likely the Tic Tac

2727

01:44:37,550 --> 01:44:35,880

if there's cases in between that

2728

01:44:38,990 --> 01:44:37,560

reporting start and the Tic Tac I don't

2729

01:44:42,649 --> 01:44:39,000

know wherever they're part of the report

2730

01:44:44,689 --> 01:44:42,659

and so you see you know uh a number call

2731

01:44:47,689 --> 01:44:44,699

it 100 perhaps or just in the past

2732

01:44:51,169 --> 01:44:47,699

couple years uh on Instagram WAP from

2733

01:44:57,649 --> 01:44:54,410

why all sudden do they have this task

2734

01:44:59,270 --> 01:44:57,659

force I think it's you know I think it's

2735

01:45:01,250 --> 01:44:59,280

a lot of what it looks like from outside

2736

01:45:03,050 --> 01:45:01,260

which is you know there's been enough

2737

01:45:04,729 --> 01:45:03,060

screaming decline yelling from the

2738

01:45:06,410 --> 01:45:04,739

people of jets to say hey this is a

2739

01:45:08,330 --> 01:45:06,420

safety problem and that someone needs to

2740

01:45:10,729 --> 01:45:08,340

pay attention not only is it a safety

2741

01:45:12,410 --> 01:45:10,739

problem but you know you zoom out and we

2742

01:45:14,930 --> 01:45:12,420

see very clearly that this could be a

2743

01:45:17,990 --> 01:45:14,940

national security concern as well not

2744

01:45:19,729 --> 01:45:18,000

just from uh what we call uh Elite or

2745

01:45:22,189 --> 01:45:19,739

electronic intelligence things of that

2746

01:45:24,290 --> 01:45:22,199

nature where people could be observing

2747

01:45:26,450 --> 01:45:24,300

our tactics and our admissions for the

2748

01:45:28,189 --> 01:45:26,460

Jets on this Coast but even what this

2749

01:45:29,870 --> 01:45:28,199

you know Chinese balloon that's you know

2750

01:45:31,669 --> 01:45:29,880

meandered across the country recently

2751  
01:45:33,470 --> 01:45:31,679  
and we see you know how susceptible we

2752  
01:45:36,050 --> 01:45:33,480  
could be to be saying so why we can't

2753  
01:45:38,390 --> 01:45:36,060  
just have uncertainty in our airspace so

2754  
01:45:40,550 --> 01:45:38,400  
it's very simple if this is a you know

2755  
01:45:41,689 --> 01:45:40,560  
if we think this is a foreign drone do

2756  
01:45:43,669 --> 01:45:41,699  
we need to treat this as national

2757  
01:45:45,350 --> 01:45:43,679  
security threat at least something we

2758  
01:45:47,629 --> 01:45:45,360  
need to look into from that perspective

2759  
01:45:49,430 --> 01:45:47,639  
and if it's anything else that we just

2760  
01:45:51,350 --> 01:45:49,440  
need to treat this as a scientific issue

2761  
01:45:53,030 --> 01:45:51,360  
and be curious about it

2762  
01:45:55,070 --> 01:45:53,040  
in other words it was bound to happen at

2763  
01:45:57,109 --> 01:45:55,080

some point it's just it just happened to

2764

01:45:59,330 --> 01:45:57,119

happen at 2020. we're getting receiving

2765

01:46:02,090 --> 01:45:59,340

more we have better data we had date and

2766

01:46:03,770 --> 01:46:02,100

data links and so gather data in a sense

2767

01:46:05,209 --> 01:46:03,780

now is almost trivial we're always

2768

01:46:06,950 --> 01:46:05,219

Gathering dude and so you know

2769

01:46:08,510 --> 01:46:06,960

eventually it's just hard more of the

2770

01:46:11,750 --> 01:46:08,520

issue

2771

01:46:13,850 --> 01:46:11,760

and so are we seeing them okay are the

2772

01:46:15,590 --> 01:46:13,860

pilots reporting up more

2773

01:46:18,890 --> 01:46:15,600

now whatever increasing frequency

2774

01:46:20,629 --> 01:46:18,900

because they have increased radar or

2775

01:46:22,790 --> 01:46:20,639

or do

2776  
01:46:24,050 --> 01:46:22,800  
you surmise or you have some reason to

2777  
01:46:26,810 --> 01:46:24,060  
believe

2778  
01:46:29,390 --> 01:46:26,820  
by the conjecture that

2779  
01:46:32,090 --> 01:46:29,400  
they're appearing more recently

2780  
01:46:34,729 --> 01:46:32,100  
I have and again anecdotal indications

2781  
01:46:36,470 --> 01:46:34,739  
that it does seem to be increasing

2782  
01:46:38,810 --> 01:46:36,480  
it's not just that we're able to pick up

2783  
01:46:40,430 --> 01:46:38,820  
on the more Europe here I think it both

2784  
01:46:44,750 --> 01:46:40,440  
probably I mean I'm intuiting that's

2785  
01:46:47,689 --> 01:46:44,760  
both but now I do think that uh I do 100

2786  
01:46:50,570 --> 01:46:47,699  
confident it's due to more reporting and

2787  
01:46:51,950 --> 01:46:50,580  
better sensors but I think there is an

2788  
01:46:53,810 --> 01:46:51,960

aspect where it seems to be happening

2789

01:46:55,609 --> 01:46:53,820

more I don't know it you know maybe

2790

01:46:57,470 --> 01:46:55,619

that's five percent of the overall maybe

2791

01:46:59,629 --> 01:46:57,480

it's 30 maybe it's five but it does seem

2792

01:47:02,750 --> 01:46:59,639

to a small part but at least that's how

2793

01:47:07,550 --> 01:47:02,760

I Intuit it that's it

2794

01:47:13,129 --> 01:47:11,510

I was this whole topic make you feel

2795

01:47:16,729 --> 01:47:13,139

well you know it can be an exhausting

2796

01:47:17,570 --> 01:47:16,739

topic uh as I'm sure you're aware with

2797

01:47:21,830 --> 01:47:17,580

the

2798

01:47:23,270 --> 01:47:21,840

you deal with now this is very much you

2799

01:47:24,830 --> 01:47:23,280

know like you said ride on a roller

2800

01:47:27,050 --> 01:47:24,840

coaster sometimes you're not sure how

2801

01:47:29,930 --> 01:47:27,060

how secure the tracks are bailed down in

2802

01:47:32,330 --> 01:47:29,940

a sense uh but it's like anything else

2803

01:47:34,910 --> 01:47:32,340

that I've done in my life it's just an

2804

01:47:36,770 --> 01:47:34,920

execution of discipline you know and I

2805

01:47:39,350 --> 01:47:36,780

think anyone can really explore this

2806

01:47:41,330 --> 01:47:39,360

topic without fear of embarrassment or

2807

01:47:42,950 --> 01:47:41,340

you know the laughter if they just be

2808

01:47:44,689 --> 01:47:42,960

disciplined in their thoughts and they

2809

01:47:46,609 --> 01:47:44,699

just treat it as you know a thought

2810

01:47:48,350 --> 01:47:46,619

experiment to consider what that would

2811

01:47:50,149 --> 01:47:48,360

be to accept an assumption for a little

2812

01:47:52,550 --> 01:47:50,159

while and explore what that world looks

2813

01:47:54,530 --> 01:47:52,560

like when events a lot of times we don't

2814

01:47:56,090 --> 01:47:54,540

the scene seem to have the courage to

2815

01:47:57,770 --> 01:47:56,100

make those kind of small leaps because

2816

01:48:00,709 --> 01:47:57,780

they're too far outside of the median

2817

01:48:02,689 --> 01:48:00,719

and our social culture

2818

01:48:03,410 --> 01:48:02,699

but I think we're making progress you

2819

01:48:05,149 --> 01:48:03,420

know

2820

01:48:07,609 --> 01:48:05,159

there's been a latent interest in this

2821

01:48:09,169 --> 01:48:07,619

topic and more we talk about it and the

2822

01:48:10,490 --> 01:48:09,179

more people see that we cheat in a

2823

01:48:13,129 --> 01:48:10,500

serious manner the more people are going

2824

01:48:15,169 --> 01:48:13,139

to want to join that conversation

2825

01:48:17,149 --> 01:48:15,179

do you know anyone who clients don't end

2826

01:48:19,550 --> 01:48:17,159

up ducked you know

2827

01:48:21,890 --> 01:48:19,560

but apparently in the giggle video after

2828

01:48:25,250 --> 01:48:21,900

the video cuts off the gimbal or the

2829

01:48:27,050 --> 01:48:25,260

object in the video did I hear myself

2830

01:48:30,290 --> 01:48:27,060

did something

2831

01:48:33,050 --> 01:48:30,300

do you know about that what did it do uh

2832

01:48:35,990 --> 01:48:33,060

I'll just say that the uh the rocking

2833

01:48:39,050 --> 01:48:36,000

Behavior received intensified

2834

01:48:41,450 --> 01:48:39,060

um we see you know some movement uh at

2835

01:48:45,530 --> 01:48:41,460

least yeah there was continued unstable

2836

01:48:47,629 --> 01:48:45,540

kind of rocking movement in a sense uh

2837

01:48:48,590 --> 01:48:47,639

that's that's all it's saying that in

2838

01:48:50,450 --> 01:48:48,600

front

2839

01:48:52,370 --> 01:48:50,460

that's all you'll say because it's all

2840

01:48:55,010 --> 01:48:52,380

you can sing or that's all legally

2841

01:48:57,530 --> 01:48:55,020

inside no legal I have no legal

2842

01:49:00,410 --> 01:48:57,540

constraints so I've never sign an Nea

2843

01:49:01,790 --> 01:49:00,420

this was never a classified topics or

2844

01:49:04,850 --> 01:49:01,800

anything like that you know these will

2845

01:49:06,590 --> 01:49:04,860

just been my experiences but uh I think

2846

01:49:07,550 --> 01:49:06,600

we should wait till the air crew

2847

01:49:09,109 --> 01:49:07,560

themselves have the opportunity to

2848

01:49:10,430 --> 01:49:09,119

explain what they saw so I don't speak

2849

01:49:12,050 --> 01:49:10,440

for them

2850

01:49:14,810 --> 01:49:12,060

have you experienced any other

2851

01:49:16,790 --> 01:49:14,820

phenomenons in society when I say citing

2852

01:49:19,729 --> 01:49:16,800

read quotations because he buys and see

2853

01:49:22,310 --> 01:49:19,739

it with a radar sure oh

2854

01:49:24,530 --> 01:49:22,320

I don't think so

2855

01:49:28,010 --> 01:49:24,540

um not like you know I don't like see

2856

01:49:31,129 --> 01:49:28,020

you you UFO or WIP on any that regular

2857

01:49:32,570 --> 01:49:31,139

basis or anything like that or uh or

2858

01:49:34,790 --> 01:49:32,580

something hitchhiker effect that you've

2859

01:49:37,010 --> 01:49:34,800

heard yeah you know I'm Loosely familiar

2860

01:49:39,109 --> 01:49:37,020

with that concept uh

2861

01:49:43,129 --> 01:49:39,119

I'll say I have no quantitative data to

2862

01:49:45,590 --> 01:49:43,139

say that I've had those experiences

2863

01:49:50,689 --> 01:49:45,600

but pointy David seems to be lacking in

2864

01:49:55,910 --> 01:49:52,850

so up the fellow Pilots especially those

2865

01:49:57,290 --> 01:49:55,920

that need proximity to it do you find

2866

01:49:59,030 --> 01:49:57,300

that they have experienced something

2867

01:50:01,490 --> 01:49:59,040

afterward whether it's an increase in

2868

01:50:02,870 --> 01:50:01,500

the frequency of the sightings of it or

2869

01:50:05,510 --> 01:50:02,880

something that has

2870

01:50:10,850 --> 01:50:05,520

Fallen available answer the question uh

2871

01:50:16,129 --> 01:50:13,070

do you remember this is

2872

01:50:18,290 --> 01:50:16,139

still the stigmatized topic and there's

2873

01:50:21,050 --> 01:50:18,300

still a threat of you know

2874

01:50:22,189 --> 01:50:21,060

professional risk and and things of that

2875

01:50:24,590 --> 01:50:22,199

nature

2876

01:50:26,090 --> 01:50:24,600

even losing a medical license things of

2877

01:50:28,129 --> 01:50:26,100

that nature so people are still very

2878

01:50:29,930 --> 01:50:28,139

much not comfortable about talking about

2879

01:50:31,250 --> 01:50:29,940

this and a lot of the planets I have

2880

01:50:33,109 --> 01:50:31,260

been speaking to are either close to

2881

01:50:37,010 --> 01:50:33,119

retirement or have got out of the

2882

01:50:38,570 --> 01:50:37,020

military uh so

2883

01:50:40,550 --> 01:50:38,580

triple that for you know medical

2884

01:50:42,290 --> 01:50:40,560

substitutions thinking that nature

2885

01:50:44,930 --> 01:50:42,300

highlights are the last group that

2886

01:50:46,250 --> 01:50:44,940

lovely talks about you know and uh

2887

01:50:47,870 --> 01:50:46,260

health problems they have because

2888

01:50:50,330 --> 01:50:47,880

everyone's terrified of losing their

2889

01:50:52,250 --> 01:50:50,340

source of income and their job for you

2890

01:50:54,770 --> 01:50:52,260

know aging or what have you

2891

01:50:56,450 --> 01:50:54,780

what's your opinion on Bob and Sir

2892

01:50:58,129 --> 01:50:56,460

um

2893

01:50:59,450 --> 01:50:58,139

I've just you know I've said before I

2894

01:51:01,850 --> 01:50:59,460

would like to believe what you had to

2895

01:51:05,209 --> 01:51:01,860

say in their son you know some

2896

01:51:07,189 --> 01:51:05,219

interesting parts of his story that uh

2897

01:51:09,169 --> 01:51:07,199

I think require validation hopefully we

2898

01:51:12,229 --> 01:51:09,179

could do that one day but this is a

2899

01:51:16,070 --> 01:51:12,239

topic that has so much like cultural

2900

01:51:18,350 --> 01:51:16,080

baggage and history to it that uh

2901  
01:51:20,450 --> 01:51:18,360  
I don't really trust anyone in a sense

2902  
01:51:22,970 --> 01:51:20,460  
right I'm eager for the opportunity to

2903  
01:51:25,430 --> 01:51:22,980  
validate people's experiences I look

2904  
01:51:27,950 --> 01:51:25,440  
forward to opportunities to do so

2905  
01:51:29,390 --> 01:51:27,960  
what's the most compelling UFO sighting

2906  
01:51:31,550 --> 01:51:29,400  
story that you would call

2907  
01:51:34,609 --> 01:51:31,560  
all right that I've been told that I'd

2908  
01:51:37,310 --> 01:51:34,619  
have to say it Forever's how about Alan

2909  
01:51:38,689 --> 01:51:37,320  
to chew the propelling uh and I think

2910  
01:51:41,149 --> 01:51:38,699  
most people listen to this are going to

2911  
01:51:42,530 --> 01:51:41,159  
be familiar with that one and be with

2912  
01:51:44,510 --> 01:51:42,540  
free restore which is very detailed

2913  
01:51:46,430 --> 01:51:44,520

involved multiple sensors or the force

2914

01:51:48,709 --> 01:51:46,440

of multiple things uh militant

2915

01:51:51,649 --> 01:51:48,719

integrated equipment into that nature

2916

01:51:53,450 --> 01:51:51,659

so that's very compelling to me

2917

01:51:55,609 --> 01:51:53,460

um and but I have a special place by

2918

01:51:59,090 --> 01:51:55,619

heart received for these stories that

2919

01:52:01,370 --> 01:51:59,100

evolve children in schools you know if

2920

01:52:03,590 --> 01:52:01,380

there's a case in Zimbabwe

2921

01:52:04,790 --> 01:52:03,600

and these are these are you know

2922

01:52:06,830 --> 01:52:04,800

obviously on the other end of the

2923

01:52:09,350 --> 01:52:06,840

spectrum right there's no military grade

2924

01:52:10,850 --> 01:52:09,360

sensors or putting in or Dana lakes or

2925

01:52:12,410 --> 01:52:10,860

evidence but

2926

01:52:14,510 --> 01:52:12,420

the house

2927

01:52:16,510 --> 01:52:14,520

children like that telling the story in

2928

01:52:18,890 --> 01:52:16,520

such a manner all in the same place

2929

01:52:21,530 --> 01:52:18,900

incredibly been telling to powerful I

2930

01:52:23,510 --> 01:52:21,540

think and you know

2931

01:52:26,270 --> 01:52:23,520

again purely subjected but I think those

2932

01:52:28,090 --> 01:52:26,280

are just social calling

2933

01:52:30,169 --> 01:52:28,100

it was great speaking with you man

2934

01:52:32,149 --> 01:52:30,179

fantastic speaking without wild Clark

2935

01:52:33,709 --> 01:52:32,159

something by the way please

2936

01:52:35,270 --> 01:52:33,719

well there's several of them want to be

2937

01:52:37,430 --> 01:52:35,280

deployed that so I'll put something

2938

01:52:41,030 --> 01:52:37,440

that's not mine remember we spoke about

2939

01:52:42,169 --> 01:52:41,040

how Carl Zumi how how Carl you abuse you

2940

01:52:43,850 --> 01:52:42,179

of follows that it has to do with

2941

01:52:46,310 --> 01:52:43,860

Transcendence meeting spiritual broke

2942

01:52:48,109 --> 01:52:46,320

and so on so the work of Diana pasoka

2943

01:52:50,870 --> 01:52:48,119

this is why her work is so important

2944

01:52:53,030 --> 01:52:50,880

because she sees the UFO phenomen where

2945

01:52:56,570 --> 01:52:53,040

the studies that do religious lens

2946

01:52:58,970 --> 01:52:56,580

not to say that UFOs are

2947

01:53:00,470 --> 01:52:58,980

not to stay not to say that the study of

2948

01:53:02,570 --> 01:53:00,480

UFOs is like

2949

01:53:05,209 --> 01:53:02,580

or religion of Assortment it's more

2950

01:53:07,490 --> 01:53:05,219

nuanced than that

2951

01:53:09,830 --> 01:53:07,500

so

2952

01:53:11,810 --> 01:53:09,840

I just wanted to pluck her work

2953

01:53:13,669 --> 01:53:11,820

I think you should speak with her I've

2954

01:53:16,790 --> 01:53:13,679

spoken with her on the on I've spoken

2955

01:53:19,070 --> 01:53:16,800

with her on the tow podcast it's all

2956

01:53:20,510 --> 01:53:19,080

in the club again around sometime and I

2957

01:53:22,310 --> 01:53:20,520

appreciate you taking a trip up here in

2958

01:53:24,590 --> 01:53:22,320

New England to be on this uh I know your

2959

01:53:26,209 --> 01:53:24,600

podcast you do from your house or from

2960

01:53:28,729 --> 01:53:26,219

your home office but

2961

01:53:29,990 --> 01:53:28,739

um you can't have no kitchen well thanks

2962

01:53:32,689 --> 01:53:30,000

for making the trip out to New Hampshire

2963

01:53:34,790 --> 01:53:32,699

yeah well your set is fantastic people

2964

01:53:36,350 --> 01:53:34,800

can't see behind but it's it's wonderful

2965

01:53:37,729 --> 01:53:36,360

thank you

2966

01:53:39,950 --> 01:53:37,739

all right

2967

01:53:41,510 --> 01:53:39,960

anything else oh I think that's it

2968

01:53:43,189 --> 01:53:41,520

thanks thanks for coming on up we're not

2969

01:53:44,689 --> 01:53:43,199

I'm not sure where this Theory this part

2970

01:53:47,270 --> 01:53:44,699

but thanks for coming on the tow podcast

2971

01:53:48,950 --> 01:53:47,280

and if not there that thank you for

2972

01:53:51,410 --> 01:53:48,960

allowing me to thank you for inviting me

2973

01:53:52,970 --> 01:53:51,420

out to the Birch podcast you're good uh

2974

01:53:54,770 --> 01:53:52,980

for those watching thank you for
