

Butane
Butano

1
00:00:04,430 --> 00:00:02,780
so yeah I've got three different devices

2
00:00:05,990 --> 00:00:04,440
which burn beauty and this is just a

3
00:00:09,440 --> 00:00:06,000
cheap light and which has very little

4
00:00:13,450 --> 00:00:09,450
oxygen flow you can see it so it's very

5
00:00:15,650 --> 00:00:13,460
gentle in this setting that this is a

6
00:00:16,880 --> 00:00:15,660
lighter which has something or else you

7
00:00:18,980 --> 00:00:16,890
can poke because he has these holes

8
00:00:20,720 --> 00:00:18,990
around the end but it's still a pretty

9
00:00:23,630 --> 00:00:20,730
dirty spending thing you can see it's

10
00:00:25,640 --> 00:00:23,640
got a orange flame this actually so it's

11
00:00:29,810 --> 00:00:25,650
a little more than the other one this is

12
00:00:32,089 --> 00:00:29,820
a blowtorch and it has a very clean

13
00:00:36,440 --> 00:00:32,099

burning flame because it has oxygen

14

00:00:40,069 --> 00:00:36,450

piped in with the gas you know that it's

15

00:00:43,940 --> 00:00:40,079

not going to do anything terms of

16

00:00:47,000 --> 00:00:43,950

sitting separate with us however we can

17

00:00:52,369 --> 00:00:47,010

make it dirtier and then that is going
