1
00:00:04,070 --> 00:00:02,540
hi my name is Mick west of Medibank at

2
00:00:06,829 --> 00:00:04,080
org and today we're going to have a look

3
00:00:09,860 --> 00:00:06,839
at orgonite this is orgonite orgonite is

4
00:00:12,860 --> 00:00:09,870
a mixture of resin and some metal

5
00:00:15,470 --> 00:00:12,870
shavings and some little various other

6
00:00:19,570 --> 00:00:15,480
things crush crystals it's a copper

7
00:00:23,420 --> 00:00:19,580
things like that orgonite is supposed to

8
00:00:26,420 --> 00:00:23,430
generate or gather orgone energy which

9
00:00:28,970 --> 00:00:26,430
is a kind of theoretical fundamental

10
00:00:33,590 --> 00:00:28,980
life force of the universe like the the

11
00:00:36,319 --> 00:00:33,600
ancient concepts of ki or prana so it's

12
00:00:39,860 --> 00:00:36,329
a kind of a modern crystal type thing

13
00:00:44,840 --> 00:00:39,870

you can focus this mystical energy with

14

00:00:47,060 --> 00:00:44,850

it this one here is a organ tower buster

15

00:00:50,840 --> 00:00:47,070

it's supposed to be used for nullifying

16

00:00:52,549 --> 00:00:50,850

the effects of radiation from cellphone

17

00:00:54,080 --> 00:00:52,559

towers you would take one of these and

18

00:00:57,470 --> 00:00:54,090

put it at the base of a cell phone tower

19

00:01:02,029 --> 00:00:57,480

and it would help the negative vibes and

20

00:01:04,549 --> 00:01:02,039

it specifically lists EMF waves here as

21

00:01:06,320 --> 00:01:04,559

being something it can transmute and

22

00:01:08,420 --> 00:01:06,330

protect you again so you see a lot of

23

00:01:11,770 --> 00:01:08,430

videos on the internet of people using a

24

00:01:15,590 --> 00:01:11,780

meter like this one and seeing if this

25

00:01:19,550 --> 00:01:15,600

orgonite will block the radiation so let

26

00:01:22,880 --> 00:01:19,560

me turn this on here now I've got this

27

00:01:24,590 --> 00:01:22,890

pointing at my Wi-Fi router here and so

28

00:01:26,630 --> 00:01:24,600

the question is if I put this orgonite

29

00:01:30,679 --> 00:01:26,640

in between the meter and the router will

30

00:01:33,800 --> 00:01:30,689

the orgonite block it yes it does goes

31

00:01:35,300 --> 00:01:33,810

down to zero now if we're going to be

32

00:01:37,670 --> 00:01:35,310

scientific about this we need to do

33

00:01:39,380 --> 00:01:37,680

multiple tests we also need to test it

34

00:01:41,270 --> 00:01:39,390

against something else to make sure it's

35

00:01:42,620 --> 00:01:41,280

not just something that anything will do

36

00:01:44,359 --> 00:01:42,630

and we also want to test it against

37

00:01:47,539 --> 00:01:44,369

nothing to make sure that if you do

38

00:01:51,200 --> 00:01:47,549

nothing the same thing we're going to

39

00:01:53,420 --> 00:01:51,210

happen now multiple tests very easy to

40

00:01:56,300 --> 00:01:53,430

do obviously every time you do it you

41

00:01:58,789 --> 00:01:56,310

stick the organite in there and it

42

00:02:00,590 --> 00:01:58,799

blocks whatever this meter is reading

43

00:02:03,020 --> 00:02:00,600

which supposedly is electromagnetic

44

00:02:04,639 --> 00:02:03,030

radiation so we test against something

45

00:02:06,440 --> 00:02:04,649

else I'm going to take four different

46

00:02:10,639 --> 00:02:06,450

things I'm going to take this tape

47

00:02:12,619 --> 00:02:10,649

measure stick that in there did pretty

48

00:02:13,820 --> 00:02:12,629

much the same thing down to one I'm

49

00:02:16,820 --> 00:02:13,830

going to take these

50

00:02:21,320 --> 00:02:16,830

doggy bags made a plastic stick that in

51
00:02:24,700 --> 00:02:21,330
there down to zero I guess it is very

52
00:02:27,950 --> 00:02:24,710
large piece of metal stick that in there

53
00:02:32,600 --> 00:02:27,960
down to zero I'm going to take this

54
00:02:34,310 --> 00:02:32,610
piece of wood stick that in there mmm

55
00:02:36,550 --> 00:02:34,320
quite as good as the metal but pretty

56
00:02:40,130 --> 00:02:36,560
much down to zero zero zero three there

57
00:02:43,700 --> 00:02:40,140
okay so what's going on here well I said

58
00:02:45,260 --> 00:02:43,710
we go test against something else and I

59
00:02:47,690 --> 00:02:45,270
tested against things like this tape

60
00:02:49,430 --> 00:02:47,700
measure and the tape measure did the

61
00:02:53,330 --> 00:02:49,440
same thing as the orgonite went down to

62
00:02:54,800 --> 00:02:53,340
zero but I also test against nothing

63
00:02:57,400 --> 00:02:54,810

what does that mean like if I'm testing

64

00:03:00,140 --> 00:02:57,410

here here's something here's nothing

65

00:03:01,640 --> 00:03:00,150

there's something there's nothing well

66

00:03:03,290 --> 00:03:01,650

it's not because what I'm doing here is

67

00:03:05,240 --> 00:03:03,300

I'm moving my hand in with the organite

68

00:03:07,070 --> 00:03:05,250

and if I were to do nothing any to test

69

00:03:11,120 --> 00:03:07,080

against the nothingness so I need to put

70

00:03:13,190 --> 00:03:11,130

my hand in and you see exactly the same

71

00:03:14,510 --> 00:03:13,200

thing happened you went down to zero in

72

00:03:17,000 --> 00:03:14,520

fact I just need to stick my thumb in

73

00:03:19,010 --> 00:03:17,010

there and it's down to zero so what

74

00:03:26,180 --> 00:03:19,020

happens if I put the organite in without

75

00:03:28,100 --> 00:03:26,190

my hand stick it there let it go it

76

00:03:34,670 --> 00:03:28,110

seems to be doing nothing in fact the

77

00:03:37,100 --> 00:03:34,680

reading here 600 580 is a bit higher

78

00:03:38,479 --> 00:03:37,110

there it is without the orgonite so if

79

00:03:40,160 --> 00:03:38,489

anything the orgonite is making it worse

80

00:03:42,470 --> 00:03:40,170

let me try that with the tape measure

81

00:03:46,820 --> 00:03:42,480

see we've got around 500 and something

82

00:03:49,130 --> 00:03:46,830

there 5 540 and 520 stick this in goes

83

00:03:49,850 --> 00:03:49,140

down to 0 because my hands in there take

84

00:03:53,390 --> 00:03:49,860

this away

85

00:03:55,600 --> 00:03:53,400

it's about 575 which is about 440th

86

00:03:59,479 --> 00:03:55,610

fourths but 60 higher than it was before

87

00:04:01,280 --> 00:03:59,489

so sticking things in between the Wi-Fi

88

00:04:03,740 --> 00:04:01,290

router and the detector is actually

89

00:04:08,090 --> 00:04:03,750

making it worse if I tried that with the

90

00:04:09,380 --> 00:04:08,100

wood let's settle down 520 stick it in

91

00:04:14,630 --> 00:04:09,390

because my thumb's in there it's gone

92

00:04:15,979 --> 00:04:14,640

right down remove that and then we took

93

00:04:18,920 --> 00:04:15,989

a little bit but not as much as the

94

00:04:21,349 --> 00:04:18,930

other thing so it seems like whatever

95

00:04:23,540 --> 00:04:21,359

you stick in there it's if it's your

96

00:04:26,480 --> 00:04:23,550

hand who's going to make is going to

97

00:04:27,560 --> 00:04:26,490

block it if it's just an object by

98

00:04:29,960 --> 00:04:27,570

yourself

99

00:04:32,420 --> 00:04:29,970

now there's going to happen so what's

100

00:04:38,630 --> 00:04:32,430

going on here well best demonstrated

101
00:04:40,340 --> 00:04:38,640
with this big chunk of metal that is not

102
00:04:43,760 --> 00:04:40,350
blocking anything obviously but if I

103
00:04:46,430 --> 00:04:43,770
touch it goes down to zero what's

104
00:04:50,360 --> 00:04:46,440
happening I'm just grounding it and the

105
00:04:52,610 --> 00:04:50,370
grounded object with my you know my body

106
00:04:57,580 --> 00:04:52,620
being a large essentially a large sink

107
00:05:00,500 --> 00:04:57,590
for electromagnetic radiation it is just

108
00:05:05,720 --> 00:05:00,510
it is blocking it but only when it's

109
00:05:06,680 --> 00:05:05,730
grounded and the same thing happens it's

110
00:05:08,000 --> 00:05:06,690
just actually happen with this because

111
00:05:12,020 --> 00:05:08,010
this isn't really a very good conductor

112
00:05:13,910 --> 00:05:12,030
if I touch it makes a little bit

113
00:05:16,220 --> 00:05:13,920

difference but very very not very much

114

00:05:21,080 --> 00:05:16,230

at all really works a lot better with

115

00:05:22,400 --> 00:05:21,090

the metal so so this demonstrates that

116

00:05:24,320 --> 00:05:22,410

the organite is not blocking
