

1
00:00:05,300 --> 00:00:02,780
hi this is my quest medibang org and I'm

2
00:00:08,299 --> 00:00:05,310
going to demonstrate the p900 rippling

3
00:00:10,580 --> 00:00:08,309
orb effect which is this when you zoom

4
00:00:13,430 --> 00:00:10,590
in on something with an icon p900 you

5
00:00:15,350 --> 00:00:13,440
get this out of focus or if it's a point

6
00:00:17,000 --> 00:00:15,360
light source and this rippling comes

7
00:00:20,779 --> 00:00:17,010
from the atmosphere but this one is

8
00:00:23,540 --> 00:00:20,789
actually in my garage it's a point light

9
00:00:25,310 --> 00:00:23,550
source a hole in a piece of cardboard

10
00:00:27,349 --> 00:00:25,320
with some light behind it and the

11
00:00:29,390 --> 00:00:27,359
rippling is coming from this small t

12
00:00:31,759 --> 00:00:29,400
light which is just a heat source

13
00:00:34,340 --> 00:00:31,769

creating the ripples in the air if i

14

00:00:37,940 --> 00:00:34,350

zoom in again and hold the T light

15

00:00:40,760 --> 00:00:37,950

underneath the camera you'll see the

16

00:00:42,830 --> 00:00:40,770

same effect and this is essentially what

17

00:00:45,470 --> 00:00:42,840

you see if you zoom in on Venus with

18

00:00:48,110 --> 00:00:45,480

camera like the P 900 that doesn't focus

19

00:00:50,450 --> 00:00:48,120

very well the light source is out of

20

00:00:52,430 --> 00:00:50,460

focus and you're just seeing the effect
