RARE PINK DIAMOND GOES UP FOR AUCTION NEXT WK... SOTHEBY'S S

1
00:00:07,520 --> 00:00:05,280
right it has been days since a

2
00:00:09,840 --> 00:00:07,530
mysterious missile like vapor trail was

3
00:00:11,700 --> 00:00:09,850
recorded off California's coast and the

4
00:00:14,459 --> 00:00:11,710
federal government still can't provide a

5
00:00:16,410 --> 00:00:14,469
concrete answer as to what it is now the

6
00:00:18,030 --> 00:00:16,420
Pentagon says that they are satisfied it

7
00:00:20,490 --> 00:00:18,040
was quote likely caused by an aircraft

8
00:00:22,439 --> 00:00:20,500
and while we wait for the truth the

9
00:00:24,630 --> 00:00:22,449
number of other theories are making the

10
00:00:26,720 --> 00:00:24,640
rounds and here to submit just a few are

11
00:00:28,919 --> 00:00:26,730
retired US Air Force Lieutenant General

12
00:00:30,689 --> 00:00:28,929
Tom McInerney is with US national

13
00:00:32,519 --> 00:00:30,699

security more correspondents for the

14

00:00:34,049 --> 00:00:32,529

Washington Examiner Sarah Carter an

15

00:00:37,789 --> 00:00:34,059

investigative journalist Richard

16

00:00:40,469 --> 00:00:37,799

miniature right in conventional wisdom

17

00:00:44,340 --> 00:00:40,479

general McInerney is that right this is

18

00:00:46,049 --> 00:00:44,350

an airplane I am willing to listen to

19

00:00:47,880 --> 00:00:46,059

that but don't we need to know what

20

00:00:50,820 --> 00:00:47,890

aircraft it was where it was flying

21

00:00:52,289 --> 00:00:50,830

where it took off one time why can't we

22

00:00:54,840 --> 00:00:52,299

get a definitive answer and you agree

23

00:00:56,850 --> 00:00:54,850

with that assertion well first of all I

24

00:00:58,829 --> 00:00:56,860

do not agree with the assertion Sean and

25

00:01:00,630 --> 00:00:58,839

your question is we should get a

26

00:01:03,240 --> 00:01:00,640

definitive answer you're absolutely

27

00:01:05,789 --> 00:01:03,250

correct look this is not an airplane

28

00:01:08,940 --> 00:01:05,799

because of the plume and the way you see

29

00:01:11,670 --> 00:01:08,950

that plume airplanes do not con at sea

30

00:01:14,760 --> 00:01:11,680

level or 5,000 feet like that I spent 35

31

00:01:17,850 --> 00:01:14,770

years flying fighters and I never saw an

32

00:01:20,520 --> 00:01:17,860

airplane con like that that is a missile

33

00:01:22,200 --> 00:01:20,530

it's launched from a submarine and that

34

00:01:23,730 --> 00:01:22,210

you can see it go through a correction

35

00:01:25,740 --> 00:01:23,740

course and then it gets a very smooth

36

00:01:27,660 --> 00:01:25,750

trajectory meaning that the guidance

37

00:01:30,150 --> 00:01:27,670

system is now kicked in it's going at

38

00:01:32,180 --> 00:01:30,160

about a 45 degrees away from you that's

39

00:01:34,410 --> 00:01:32,190

why you're not seeing a lot of vertical

40

00:01:39,090 --> 00:01:34,420

velocity general are you a hundred

41

00:01:42,120 --> 00:01:39,100

percent certain Sean I've watched that

42

00:01:45,570 --> 00:01:42,130

film ten times I've watched 15 other

43

00:01:50,360 --> 00:01:45,580

Trident films sm-3 serve standard

44

00:01:53,520 --> 00:01:50,370

missile-3 s and T Land launches I am

45

00:01:56,399 --> 00:01:53,530

absolutely certain that that is not an

46

00:01:59,310 --> 00:01:56,409

aircraft Sara we're told this is an

47

00:02:00,660 --> 00:01:59,320

optical illusion that it's you really

48

00:02:02,430 --> 00:02:00,670

got to see it in its context that

49

00:02:04,289 --> 00:02:02,440

everyone seemed to buy into the

50

00:02:06,690 --> 00:02:04,299

conventional wisdom now I listen to

51
00:02:08,190 --> 00:02:06,700
general McInerney was a tremendous

52
00:02:10,020 --> 00:02:08,200
amount of background and experience he

53
00:02:14,160 --> 00:02:10,030
says something very different your

54
00:02:15,449 --> 00:02:14,170
reaction well you know I'll haven't just

55
00:02:16,620 --> 00:02:15,459
heard it from the general I've been

56
00:02:18,720 --> 00:02:16,630
hearing this from others

57
00:02:20,970 --> 00:02:18,730
horses as well and and I'm also hearing

58
00:02:22,980 --> 00:02:20,980
the other side I'm not an expert here on

59
00:02:25,350 --> 00:02:22,990
aircraft and trajectories I think the

60
00:02:27,480 --> 00:02:25,360
general is much more an expert than I

61
00:02:29,310 --> 00:02:27,490
he's an aviator and and he understands

62
00:02:29,910 --> 00:02:29,320
aircraft and he understands missile

63
00:02:32,370 --> 00:02:29,920

systems

64

00:02:34,380 --> 00:02:32,380

I contacted NORAD today I spoke with

65

00:02:36,090 --> 00:02:34,390

officials at NORAD and the one thing

66

00:02:38,160 --> 00:02:36,100

they did tell me is that it was not a

67

00:02:41,040 --> 00:02:38,170

missile but they did not give any other

68

00:02:43,560 --> 00:02:41,050

explanation as to what this could be and

69

00:02:45,270 --> 00:02:43,570

so it leaves it leaves me to wonder if

70

00:02:47,940 --> 00:02:45,280

our Defense Department and our and our

71

00:02:50,120 --> 00:02:47,950

folks at NORAD have no idea for the last

72

00:02:53,250 --> 00:02:50,130

day and a half what this is so a

73

00:02:55,080 --> 00:02:53,260

speculation is out there mr. Medin was

74

00:02:57,210 --> 00:02:55,090

very clear that it was not of a foreign

75

00:03:00,270 --> 00:02:57,220

launched product that they had been not

76

00:03:03,360 --> 00:03:00,280

been observing any launches from any

77

00:03:05,040 --> 00:03:03,370

universe an airplane Richard you know I

78

00:03:06,570 --> 00:03:05,050

don't know it's but could possibly be an

79

00:03:07,800 --> 00:03:06,580

airplane it could be a toy rocket

80

00:03:09,630 --> 00:03:07,810

launched as a test

81

00:03:11,820 --> 00:03:09,640

I mean we're gonna throw it that looks

82

00:03:13,110 --> 00:03:11,830

like a toy rocket to you well we don't

83

00:03:17,210 --> 00:03:13,120

have anything to look at the scale and

84

00:03:19,500 --> 00:03:17,220

if you do if you look at a terror cell

85

00:03:21,390 --> 00:03:19,510

well some of those toys are pretty

86

00:03:24,420 --> 00:03:21,400

sophisticated Sean but if you were a

87

00:03:26,520 --> 00:03:24,430

terror cell you want Christmas but that

88

00:03:28,500 --> 00:03:26,530

is no toy rocket I mean it's either an

89

00:03:31,710 --> 00:03:28,510

airplane or it's a missile too in my

90

00:03:35,790 --> 00:03:31,720

mind and the IR I got to be honest this

91

00:03:37,710 --> 00:03:35,800

there's something look I'm willing to

92

00:03:39,690 --> 00:03:37,720

accept that there are optical illusions

93

00:03:41,130 --> 00:03:39,700

I'm willing to accept that this might be

94

00:03:43,620 --> 00:03:41,140

something else this might have been an

95

00:03:46,560 --> 00:03:43,630

aircraft I'm not a conspiracy theorist

96

00:03:49,949 --> 00:03:46,570

well in general makanan airy here with

97

00:03:52,470 --> 00:03:49,959

with his background his expertise him

98

00:03:55,170 --> 00:03:52,480

being a pilot and his definitive answer

99

00:03:56,640 --> 00:03:55,180

that this is a missile I'm I'm kind of

100

00:04:00,390 --> 00:03:56,650

nervous that maybe my government is

101
00:04:02,430 --> 00:04:00,400
covering something up here look I can't

102
00:04:04,440 --> 00:04:02,440
imagine that this is a foreign submarine

103
00:04:05,760 --> 00:04:04,450
launching a missile off the coast of the

104
00:04:09,300 --> 00:04:05,770
United States that look like an airplane

105
00:04:11,430 --> 00:04:09,310
to you well it could be an airplane but

106
00:04:13,260 --> 00:04:11,440
I mean it also could be could be an

107
00:04:15,449 --> 00:04:13,270
airplane I totally agree a bunch of kids

108
00:04:17,940 --> 00:04:15,459
on a boat with a you know pranking

109
00:04:21,000 --> 00:04:17,950
launching something richer or it could

110
00:04:24,570 --> 00:04:21,010
be an experimental this is not a roman

111
00:04:27,150 --> 00:04:24,580
candle for crying out this is not a

112
00:04:30,440 --> 00:04:27,160
silver jet this this thing is what did

113
00:04:33,960 --> 00:04:30,450

you see just just six months ago

114

00:04:37,340 --> 00:04:33,970

in orbit well jet no here's the date

115

00:04:40,110 --> 00:04:37,350

here's the if in fact this is a missile
