

1  
00:00:04,610 --> 00:00:03,080  
this video of a mysterious glowing orb

2  
00:00:06,590 --> 00:00:04,620  
was caught by Chris Miller on his

3  
00:00:10,520 --> 00:00:06,600  
infrared security camera in West New

4  
00:00:12,320 --> 00:00:10,530  
York State on July 21st 2018 one theory

5  
00:00:14,060 --> 00:00:12,330  
is that is the sky lantern or Chinese

6  
00:00:14,570 --> 00:00:14,070  
lantern that randomly blew across his

7  
00:00:16,070 --> 00:00:14,580  
yard

8  
00:00:17,630 --> 00:00:16,080  
he didn't trigger the motion sensor

9  
00:00:20,150 --> 00:00:17,640  
until it got quite close so it kind of

10  
00:00:22,700 --> 00:00:20,160  
looks like it started there but why is

11  
00:00:24,980 --> 00:00:22,710  
it so bright a sky lantern uses a flame

12  
00:00:26,929 --> 00:00:24,990  
polite but does it really glow like that

13  
00:00:29,720 --> 00:00:26,939

what is the sky lantern look like on an

14

00:00:31,189 --> 00:00:29,730

infrared security camera scary lanterns

15

00:00:33,049 --> 00:00:31,199

are illegal in California so I made a

16

00:00:35,150 --> 00:00:33,059

simple model using a gas lighter and a

17

00:00:36,530 --> 00:00:35,160

white plastic bin now this flame is a

18

00:00:39,319 --> 00:00:36,540

lot smaller than the flame of a sky

19

00:00:41,000 --> 00:00:39,329

lantern but let's take a look in normal

20

00:00:44,180 --> 00:00:41,010

video is not that impressive although it

21

00:00:45,440 --> 00:00:44,190

does glow in the dark but if we switch

22

00:00:47,840 --> 00:00:45,450

to infrared you can see it glows very

23

00:00:49,490 --> 00:00:47,850

brightly not only that word is it

24

00:00:52,130 --> 00:00:49,500

illuminates the surroundings and casts

25

00:00:53,750 --> 00:00:52,140

shadows just like in the orb video so

26

00:00:55,520 --> 00:00:53,760

given that an actual sky lantern would
