

CONTEXT
IS KEY!

1
00:00:03,949 --> 00:00:02,240
what is that thing I was out in the yard

2
00:00:04,670 --> 00:00:03,959
when I saw something weird just above

3
00:00:06,200 --> 00:00:04,680
the trees

4
00:00:08,419 --> 00:00:06,210
I grabbed my infrared camera and it

5
00:00:11,570 --> 00:00:08,429
zoomed in it looked like two white Hawks

6
00:00:13,400 --> 00:00:11,580
as I watched it flew silently to the

7
00:00:16,120 --> 00:00:13,410
right and out of sight what was it was

8
00:00:18,800 --> 00:00:16,130
it some kind of UFO a meteor or a rocket

9
00:00:20,779 --> 00:00:18,810
let's back up a little I actually saw it

10
00:00:22,849 --> 00:00:20,789
earlier when you looked like this two

11
00:00:24,920 --> 00:00:22,859
arcs kind of falling out of the sky what

12
00:00:26,599 --> 00:00:24,930
the heck a zoomed in kind of looks like

13
00:00:30,109 --> 00:00:26,609

a plane but you know why is it flying

14

00:00:32,670 --> 00:00:30,119

straight down is it crashing let's back

15

00:00:35,310 --> 00:00:32,680

up a little more

16

00:00:37,770 --> 00:00:35,320

what I actually saw first was this a

17

00:00:39,300 --> 00:00:37,780

long con trail from a plane it had just

18

00:00:41,070 --> 00:00:39,310

flown over my house so it was actually

19

00:00:43,200 --> 00:00:41,080

flying directly away from me it looks

20

00:00:45,210 --> 00:00:43,210

like it's flying down down towards the

21

00:00:47,130 --> 00:00:45,220

horizon but it's really just flying away

22

00:00:49,350 --> 00:00:47,140

so getting closer to the horizon it

23

00:00:50,730 --> 00:00:49,360

looks like it's flying down it's easier

24

00:00:52,470 --> 00:00:50,740

to see this when you have this wider

25

00:00:55,560 --> 00:00:52,480

context and you can actually zoom in and

26

00:00:57,870 --> 00:00:55,570

see that it's a plane so I started this

27

00:00:59,040 --> 00:00:57,880

video with two shots out of context

28

00:01:01,530 --> 00:00:59,050

because it's something we see all the

29

00:01:03,740 --> 00:01:01,540

time we see it in UFO research but we

30

00:01:06,240 --> 00:01:03,750

also see it in most conspiracy theories

31

00:01:08,520 --> 00:01:06,250

something is presented with very little

32

00:01:10,800 --> 00:01:08,530

surrounding context like I could make

33

00:01:14,400 --> 00:01:10,810

this photo up distant contrails but

34

00:01:16,050 --> 00:01:14,410

blurry and dark or a sunset so it looks

35

00:01:17,910 --> 00:01:16,060

strange and because you can't tell what

36

00:01:19,890 --> 00:01:17,920

it is it makes it much easier to accept

37

00:01:25,710 --> 00:01:19,900

highly speculative explanations like

38

00:01:27,480 --> 00:01:25,720

missiles meteors or even aliens a good

39

00:01:29,219 --> 00:01:27,490

example of something out of context is

40

00:01:32,160 --> 00:01:29,229

these white flashes on the side of the

41

00:01:34,320 --> 00:01:32,170

World Trade Center as it collapses the

42

00:01:36,240 --> 00:01:34,330

flashes are on the dark side of the

43

00:01:38,640 --> 00:01:36,250

building so the simple explanation of

44

00:01:41,880 --> 00:01:38,650

falling glass reflecting sunlight simply

45

00:01:44,070 --> 00:01:41,890

doesn't occur to people like in context

46

00:01:46,340 --> 00:01:44,080

like in the bigger picture they readily

47

00:01:48,960 --> 00:01:46,350

accept the idea that can only be from

48

00:01:51,720 --> 00:01:48,970

explosive demolition charges or whatever

49

00:01:53,280 --> 00:01:51,730

it suggested but when you point out the

50

00:01:54,630 --> 00:01:53,290

bigger picture when you describe the

51
00:01:57,060 --> 00:01:54,640
bigger picture when you describe that

52
00:01:58,710 --> 00:01:57,070
similar flashes happen in midair the

53
00:02:01,980 --> 00:01:58,720
different cameras record the flashes at

54
00:02:03,870 --> 00:02:01,990
different times that the Sun flashing

55
00:02:06,600 --> 00:02:03,880
off glass can be seen for very very long

56
00:02:08,969 --> 00:02:06,610
distances and the angle of the Sun at

57
00:02:11,250 --> 00:02:08,979
that precise time on that day was almost

58
00:02:14,370 --> 00:02:11,260
parallel with the dark side of the

59
00:02:17,240 --> 00:02:14,380
building suddenly falling glass flashing

60
00:02:19,340 --> 00:02:17,250
in the Sun makes a lot more sense

61
00:02:22,259 --> 00:02:19,350
context is everything

62
00:02:25,259 --> 00:02:22,269
often though we don't have context so I

63
00:02:27,990 --> 00:02:25,269

all suggest two things firstly don't

64

00:02:30,030 --> 00:02:28,000

rush to judgment make a list of possible

65

00:02:31,920 --> 00:02:30,040

explanations but don't strike anything

66

00:02:34,380 --> 00:02:31,930

off a list don't think don't eliminate

67

00:02:36,360 --> 00:02:34,390

anything if there's a possibility of you

68

00:02:39,360 --> 00:02:36,370

getting more information that might put

69

00:02:42,960 --> 00:02:39,370

that thing back on the list secondly

70

00:02:44,280 --> 00:02:42,970

seek out context is often out there try

71

00:02:46,510 --> 00:02:44,290

doing things like adding the word

72

00:02:49,600 --> 00:02:46,520

debunked or explain to your

73

00:02:51,760 --> 00:02:49,610

Google searches see what crops up don't

74

00:02:53,890 --> 00:02:51,770

trust it but see if it checks out verify

75

00:02:56,470 --> 00:02:53,900

it then revise your list with as much
