

PARADIGM

SHIFT

1
00:00:07,909 --> 00:00:04,820
details from the ramen home

2
00:00:09,740 --> 00:00:07,919
I'm your host Midwest I guess today

3
00:00:13,520 --> 00:00:09,750
wants to remain anonymous he goes by the

4
00:00:14,990 --> 00:00:13,530
name paradigm shift on meta bunk and we

5
00:00:17,180 --> 00:00:15,000
talk a lot on meta bunk about at nine

6
00:00:21,650 --> 00:00:17,190
eleven and eleven conspiracy theories

7
00:00:23,810 --> 00:00:21,660
and paradigm shift is a proponent of the

8
00:00:25,370 --> 00:00:23,820
controlled demolition conspiracy theory

9
00:00:27,259 --> 00:00:25,380
or at least he has a lot of questions

10
00:00:30,259 --> 00:00:27,269
which they didn't think that is quite a

11
00:00:31,790 --> 00:00:30,269
plausible reality that the world trade

12
00:00:34,190 --> 00:00:31,800
centers would have been destroyed by

13
00:00:36,560 --> 00:00:34,200

explosives and not just by the planes

14

00:00:38,569 --> 00:00:36,570

flying into them we've butted heads on

15

00:00:40,700 --> 00:00:38,579

meta bunk a few times and I thought it'd

16

00:00:42,590 --> 00:00:40,710

be good to have a one-on-one discussion

17

00:00:43,930 --> 00:00:42,600

so we can kind of understand better

18

00:00:46,940 --> 00:00:43,940

where the earth person is coming from

19

00:00:48,290 --> 00:00:46,950

this is one of my longer podcasts at an

20

00:00:49,459 --> 00:00:48,300

hour and a half but it's very

21

00:00:51,860 --> 00:00:49,469

interesting if you want to try to

22

00:00:53,990 --> 00:00:51,870

understand why somebody believes in a

23

00:00:56,150 --> 00:00:54,000

conspiracy theories like the 911

24

00:00:57,680 --> 00:00:56,160

controlled demolition conspiracy theory

25

00:01:01,299 --> 00:00:57,690

or if you're just interested in the

26

00:01:05,630 --> 00:01:01,309

various 9/11 conspiracies so here he is

27

00:01:08,480 --> 00:01:05,640

paradigm shift alright so welcome to the

28

00:01:10,179 --> 00:01:08,490

show paradigm shift and thank you very

29

00:01:14,090 --> 00:01:10,189

much for being here

30

00:01:16,249 --> 00:01:14,100

thank you very much it's actually a time

31

00:01:20,030 --> 00:01:16,259

on a podcast like this I'm actually kind

32

00:01:21,469 --> 00:01:20,040

of excited to engage so the reason I

33

00:01:25,070 --> 00:01:21,479

wanted to talk to you is that we've been

34

00:01:27,289 --> 00:01:25,080

talking on meta bunk and and we've been

35

00:01:29,330 --> 00:01:27,299

having a variety of disagreements about

36

00:01:32,450 --> 00:01:29,340

different things and specifically you're

37

00:01:38,450 --> 00:01:32,460

very interested in talking about 9/11

38

00:01:40,609 --> 00:01:38,460

related topics and so you know we've

39

00:01:44,630 --> 00:01:40,619

kind of butted heads on meta bunk a bit

40

00:01:47,749 --> 00:01:44,640

and I think it's good just talk to

41

00:01:49,130 --> 00:01:47,759

someone directly and you know you get

42

00:01:50,870 --> 00:01:49,140

much better communication when you're

43

00:01:53,090 --> 00:01:50,880

actually just talking by a voice rather

44

00:01:54,410 --> 00:01:53,100

than typing stuff out so I think it's a

45

00:01:56,149 --> 00:01:54,420

good opportunity for me to explain

46

00:02:00,139 --> 00:01:56,159

myself to you and for you to explain

47

00:02:02,149 --> 00:02:00,149

yourself to me so I'd like to just talk

48

00:02:06,950 --> 00:02:02,159

about the topics in general I saw sound

49

00:02:10,040 --> 00:02:06,960

sound alright so basically you want to

50

00:02:11,630 --> 00:02:10,050

talk about like because when we were

51
00:02:13,250 --> 00:02:11,640
discussing actually saw in the podcast

52
00:02:13,809 --> 00:02:13,260
you were interested that I said I used

53
00:02:16,239 --> 00:02:13,819
to believe the

54
00:02:18,309 --> 00:02:16,249
officials or and that I actually changed

55
00:02:19,720 --> 00:02:18,319
my mind about it yeah so so basically

56
00:02:21,520 --> 00:02:19,730
some background about me I'm actually

57
00:02:24,809 --> 00:02:21,530
just the University student my final

58
00:02:28,330 --> 00:02:24,819
year I study politics and journalism and

59
00:02:30,190 --> 00:02:28,340
so incidentally actually my best subject

60
00:02:32,259 --> 00:02:30,200
in high school was physics so I have a

61
00:02:34,240 --> 00:02:32,269
slight background I would say I'm an ex

62
00:02:35,800 --> 00:02:34,250
for anything but I happen to know some

63
00:02:38,440 --> 00:02:35,810

of the basics involved when it comes to

64

00:02:40,869 --> 00:02:38,450

some of the terms of people mention like

65

00:02:42,729 --> 00:02:40,879

you know freefall and all that stuff so

66

00:02:44,319 --> 00:02:42,739

I kind of understand some of the science

67

00:02:46,599 --> 00:02:44,329

that goes behind that although I

68

00:02:48,339 --> 00:02:46,609

wouldn't say I'm expert and I'm still

69

00:02:51,009 --> 00:02:48,349

trying to understand it a bit better and

70

00:02:53,199 --> 00:02:51,019

I'd say that from what I would have

71

00:02:55,720 --> 00:02:53,209

noticed from from your site is that

72

00:02:58,089 --> 00:02:55,730

actually enough try to make this point

73

00:02:59,530 --> 00:02:58,099

actually that you do do a good job with

74

00:03:02,349 --> 00:02:59,540

the bonking a lot of things that are

75

00:03:05,319 --> 00:03:02,359

false and I think that is it that needs

76

00:03:08,679 --> 00:03:05,329

to be clarified that I don't necessarily

77

00:03:11,349 --> 00:03:08,689

think that you know anyone who disagrees

78

00:03:14,020 --> 00:03:11,359

with what I'm saying or what is contrary

79

00:03:16,839 --> 00:03:14,030

to popular belief is all wrong there are

80

00:03:19,030 --> 00:03:16,849

good sides the points on on both sides

81

00:03:21,159 --> 00:03:19,040

and bad sides on both points and that's

82

00:03:22,809 --> 00:03:21,169

kind of my perspective on it so I'll

83

00:03:26,020 --> 00:03:22,819

just get it a little bit deep into that

84

00:03:27,939 --> 00:03:26,030

so basically I I grew up with kind of

85

00:03:29,710 --> 00:03:27,949

neutral it's and I'm loving like I'm

86

00:03:30,999 --> 00:03:29,720

just essentially you could say it let's

87

00:03:33,309 --> 00:03:31,009

just keep that that I'm a I'm a

88

00:03:36,610 --> 00:03:33,319

foreigner basically so I don't have any

89

00:03:39,460 --> 00:03:36,620

direct ties to the US or to al-qaeda

90

00:03:41,259 --> 00:03:39,470

whoever was supposed to be involved I'm

91

00:03:44,140 --> 00:03:41,269

just a neutral third party so I was

92

00:03:47,439 --> 00:03:44,150

pretty much as exposed to 9/11 as a

93

00:03:50,469 --> 00:03:47,449

child through the media word of mouth

94

00:03:52,629 --> 00:03:50,479

you know movies articles whatever people

95

00:03:55,240 --> 00:03:52,639

would say so I never really gave it much

96

00:03:57,189 --> 00:03:55,250

of a second thought I kind of just went

97

00:03:59,530 --> 00:03:57,199

with the official narrative as it was

98

00:04:00,969 --> 00:03:59,540

and then you know as I started getting a

99

00:04:02,080 --> 00:04:00,979

little bit older especially in school

100

00:04:04,629 --> 00:04:02,090

you know started to become a little bit

101
00:04:06,999 --> 00:04:04,639
more of a topic to talk about you know

102
00:04:08,949 --> 00:04:07,009
classes having a little debates with

103
00:04:12,189 --> 00:04:08,959
your friends just talking about things

104
00:04:13,360 --> 00:04:12,199
that are of concern and you hear you can

105
00:04:15,819 --> 00:04:13,370
actually start to find out a little bit

106
00:04:17,409 --> 00:04:15,829
more that you maybe didn't know so I was

107
00:04:19,920 --> 00:04:17,419
still under the impression for a while

108
00:04:24,100 --> 00:04:19,930
that you know everything's fine the

109
00:04:26,920 --> 00:04:24,110
official story that we live we live kind

110
00:04:29,499 --> 00:04:26,930
of in a and I think you don't you

111
00:04:31,870 --> 00:04:29,509
probably agree with this to that most

112
00:04:33,850 --> 00:04:31,880
people are pretty ignorant of some of

113
00:04:37,120 --> 00:04:33,860

the realities of the world in terms of

114

00:04:39,249 --> 00:04:37,130

political economic statuses I just want

115

00:04:42,460 --> 00:04:39,259

to know if you would agree of that at

116

00:04:45,430 --> 00:04:42,470

least on a very vague level yeah I'd say

117

00:04:46,840 --> 00:04:45,440

so because I think most people are you

118

00:04:49,150 --> 00:04:46,850

know they don't really follow follow

119

00:04:50,529 --> 00:04:49,160

Foreign Affairs very much then the most

120

00:04:52,719 --> 00:04:50,539

people generally just interested in the

121

00:04:54,580 --> 00:04:52,729

things around them and a lot of people

122

00:04:56,469 --> 00:04:54,590

don't even watch the news so yeah

123

00:04:58,360 --> 00:04:56,479

certainly I would say most people are

124

00:05:00,790 --> 00:04:58,370

ignorant of world affairs and I wouldn't

125

00:05:02,950 --> 00:05:00,800

like to call use the term ignorant in a

126
00:05:04,540 --> 00:05:02,960
you know that pejorative way though it's

127
00:05:09,310 --> 00:05:04,550
kind of like just don't follow it I'm

128
00:05:10,719 --> 00:05:09,320
not interested I would like to make the

129
00:05:12,999 --> 00:05:10,729
distinction that it's not willful

130
00:05:14,830 --> 00:05:13,009
ignorance it's more just the world is

131
00:05:17,650 --> 00:05:14,840
just so overly saturated with so many

132
00:05:19,749 --> 00:05:17,660
different topics that it isn't

133
00:05:21,520 --> 00:05:19,759
I wouldn't expect every single person to

134
00:05:23,320 --> 00:05:21,530
focus on just one thing you know like

135
00:05:25,089 --> 00:05:23,330
obviously there's going to be a few

136
00:05:27,129 --> 00:05:25,099
people to focus on a few things like you

137
00:05:28,810 --> 00:05:27,139
and me here and all the people who focus

138
00:05:31,540 --> 00:05:28,820

on other things that are probably more

139

00:05:34,480 --> 00:05:31,550

important to them and for the field feel

140

00:05:36,670 --> 00:05:34,490

that they're in oh he just so happens

141

00:05:38,710 --> 00:05:36,680

that you know because I'm involved in

142

00:05:41,140 --> 00:05:38,720

politics and journalism it happens to be

143

00:05:43,089 --> 00:05:41,150

such a big political event right

144

00:05:46,210 --> 00:05:43,099

something that spurred things like the

145

00:05:47,409 --> 00:05:46,220

Patriot Act the countless wars that have

146

00:05:50,050 --> 00:05:47,419

been going on in the Middle East and all

147

00:05:53,170 --> 00:05:50,060

that stuff so to me it does signify a

148

00:05:54,760 --> 00:05:53,180

big historical event that perhaps

149

00:05:58,960 --> 00:05:54,770

requires some clarification because

150

00:06:00,760 --> 00:05:58,970

there is my point of view and I would I

151

00:06:03,129 --> 00:06:00,770

would think this off a lot of people as

152

00:06:06,399 --> 00:06:03,139

well although I'm not gonna speak for

153

00:06:08,350 --> 00:06:06,409

anyone else just myself that there there

154

00:06:10,600 --> 00:06:08,360

is some clarification so neither not

155

00:06:12,550 --> 00:06:10,610

about 9/11 there is still some mystery

156

00:06:14,920 --> 00:06:12,560

and some some things that haven't been

157

00:06:19,659 --> 00:06:14,930

answered on it and mistakes were made

158

00:06:21,399 --> 00:06:19,669

yes but it's a matter of I think

159

00:06:23,770 --> 00:06:21,409

essentially that we don't have the

160

00:06:27,129 --> 00:06:23,780

complete story and that's pretty much my

161

00:06:28,120 --> 00:06:27,139

stance ya know and that's fair enough I

162

00:06:32,529 --> 00:06:28,130

mean how other people would argue

163

00:06:34,270 --> 00:06:32,539

there's those questions regarding like

164

00:06:37,060 --> 00:06:34,280

even just at the very simplest level

165

00:06:39,070 --> 00:06:37,070

something I talk about is like was there

166

00:06:39,330 --> 00:06:39,080

incompetence that was covered up during

167

00:06:42,840 --> 00:06:39,340

the

168

00:06:45,180 --> 00:06:42,850

conventional official story you know

169

00:06:47,490 --> 00:06:45,190

those things like you know Jets been

170

00:06:48,900 --> 00:06:47,500

sent in the wrong direction things like

171

00:06:52,890 --> 00:06:48,910

that yet that there are obviously

172

00:06:55,800 --> 00:06:52,900

questions about you know 911 that remain

173

00:06:59,010 --> 00:06:55,810

unanswered to this day like we don't

174

00:07:00,689 --> 00:06:59,020

know exactly who who paid for the

175

00:07:02,159 --> 00:07:00,699

hijackers for example if you know just

176

00:07:03,330 --> 00:07:02,169

assuming the official story is correct

177

00:07:05,730 --> 00:07:03,340

or even if it isn't you know obviously

178

00:07:08,100 --> 00:07:05,740

some people got on those planes what

179

00:07:09,750 --> 00:07:08,110

exactly did they do we don't know you

180

00:07:11,129 --> 00:07:09,760

know exactly what happened and we don't

181

00:07:14,370 --> 00:07:11,139

know exactly what happened in the planes

182

00:07:15,719 --> 00:07:14,380

and there's obviously things from like

183

00:07:18,090 --> 00:07:15,729

you know physics points of view that we

184

00:07:19,650 --> 00:07:18,100

don't know we don't know exactly what

185

00:07:22,320 --> 00:07:19,660

happened inside each of the buildings

186

00:07:23,909 --> 00:07:22,330

because you know they were on fire and

187

00:07:24,510 --> 00:07:23,919

there was a lot of smoke and you

188

00:07:28,490 --> 00:07:24,520

couldn't see

189

00:07:31,409 --> 00:07:28,500

so there's uncertainties and unknowns

190

00:07:34,050 --> 00:07:31,419

about 9/11 I think there always will be

191

00:07:36,600 --> 00:07:34,060

inter but you're focusing on one do you

192

00:07:42,180 --> 00:07:36,610

think that there we could actually get

193

00:07:44,610 --> 00:07:42,190

answers to I think that's a it's a

194

00:07:47,040 --> 00:07:44,620

reasonable statement not necessarily

195

00:07:49,890 --> 00:07:47,050

that we could get answers to but perhaps

196

00:07:53,820 --> 00:07:49,900

some some answers that we might have

197

00:07:56,700 --> 00:07:53,830

even been misled on and possibly not

198

00:08:00,210 --> 00:07:56,710

answers that not questions that we could

199

00:08:01,860 --> 00:08:00,220

answer but perhaps clarified if you

200

00:08:03,810 --> 00:08:01,870

understand what I mean at least shed

201
00:08:06,990 --> 00:08:03,820
more light on if not completely answer

202
00:08:09,060 --> 00:08:07,000
all right well it's just like lay our

203
00:08:11,940 --> 00:08:09,070
cards on the table here like would you

204
00:08:14,610 --> 00:08:11,950
say describe yourself as someone who you

205
00:08:17,310 --> 00:08:14,620
think though it was like a controlled

206
00:08:19,409 --> 00:08:17,320
demolition or you suspect he might be a

207
00:08:21,510 --> 00:08:19,419
controlled demolition like see the

208
00:08:25,430 --> 00:08:21,520
collapses of willing scientists have no

209
00:08:28,620 --> 00:08:25,440
suspect so yeah basically my stance is

210
00:08:30,480 --> 00:08:28,630
not that I suspect it was a controlled

211
00:08:32,610 --> 00:08:30,490
demolition necessarily it's just that

212
00:08:35,190 --> 00:08:32,620
some of the evidence and even looking at

213
00:08:37,890 --> 00:08:35,200

the buildings might indicate that for me

214

00:08:38,339 --> 00:08:37,900

do one of our main contentions was

215

00:08:41,190 --> 00:08:38,349

missed

216

00:08:44,219 --> 00:08:41,200

refusing to test for the possibility of

217

00:08:46,079 --> 00:08:44,229

control demolition refusing to test for

218

00:08:48,870 --> 00:08:46,089

explosives when there were multiple

219

00:08:51,700 --> 00:08:48,880

eyewitnesses who saw explosives

220

00:08:53,380 --> 00:08:51,710

including first responders

221

00:08:56,380 --> 00:08:53,390

witnesses were both in the building's a

222

00:08:59,170 --> 00:08:56,390

prior to the impact and after before the

223

00:09:01,620 --> 00:08:59,180

onset of collapse and policemen

224

00:09:03,760 --> 00:09:01,630

reporters have been recorded on camera

225

00:09:05,800 --> 00:09:03,770

people the way people describe the

226

00:09:08,710 --> 00:09:05,810

explosions you know they they heard big

227

00:09:11,770 --> 00:09:08,720

booms or they heard a series of

228

00:09:13,570 --> 00:09:11,780

explosions and it's like it's just in a

229

00:09:16,840 --> 00:09:13,580

terrorist attack it just seems odd to me

230

00:09:19,450 --> 00:09:16,850

that explosives wouldn't be tested for I

231

00:09:22,120 --> 00:09:19,460

mean forget even in the controlled

232

00:09:24,040 --> 00:09:22,130

demolition scenario it doesn't

233

00:09:26,410 --> 00:09:24,050

necessarily mean inside job it could

234

00:09:28,120 --> 00:09:26,420

still have been a pre-planned job by

235

00:09:30,730 --> 00:09:28,130

supposed terrorists who are at the

236

00:09:32,380 --> 00:09:30,740

suspects and even in that scenario I

237

00:09:34,810 --> 00:09:32,390

would think that it deserves to be

238

00:09:37,090 --> 00:09:34,820

tested for because that could indicate a

239

00:09:39,400 --> 00:09:37,100

much possibly larger plan that they were

240

00:09:41,860 --> 00:09:39,410

involved with with because ultimately

241

00:09:44,260 --> 00:09:41,870

9/11 was a successful conspiracy by

242

00:09:46,420 --> 00:09:44,270

al-qaeda and see those facts I'm not

243

00:09:48,940 --> 00:09:46,430

disputing for me just how the buildings

244

00:09:52,990 --> 00:09:48,950

came down mainly the science behind this

245

00:09:55,450 --> 00:09:53,000

report means a lot of it is just it's

246

00:09:57,040 --> 00:09:55,460

just questionable yeah you know I've

247

00:10:00,580 --> 00:09:57,050

heard that that a lot

248

00:10:02,440 --> 00:10:00,590

I read the NIST report quite extensively

249

00:10:05,080 --> 00:10:02,450

and looked at the science and from from

250

00:10:06,730 --> 00:10:05,090

my perspective it seems okay and I think

251
00:10:08,320 --> 00:10:06,740
that really gets me about you know this

252
00:10:10,390 --> 00:10:08,330
idea that there might be explosives and

253
00:10:12,580 --> 00:10:10,400
I think that most people who aren't

254
00:10:15,700 --> 00:10:12,590
really familiar with the topic that yet

255
00:10:18,210 --> 00:10:15,710
the the fact is the a plane flew into

256
00:10:21,550 --> 00:10:18,220
the building into each building and

257
00:10:23,560 --> 00:10:21,560
created this giant hole in it and then

258
00:10:24,970 --> 00:10:23,570
they were had this raging fire for like

259
00:10:27,240 --> 00:10:24,980
you know 50 minutes like a hour and a

260
00:10:33,660 --> 00:10:27,250
half or whatever it was for each one and

261
00:10:36,040 --> 00:10:33,670
it seems unnecessary to have any other

262
00:10:39,280 --> 00:10:36,050
mechanism there it was seen just that

263
00:10:40,620 --> 00:10:39,290

just the fact that the planes the the

264

00:10:44,560 --> 00:10:40,630

planes flew into the building themselves

265

00:10:48,210 --> 00:10:44,570

why isn't that enough in your opinion to

266

00:10:51,130 --> 00:10:48,220

explain the collapse of the buildings

267

00:10:54,370 --> 00:10:51,140

well firstly it was the fact of eight

268

00:10:56,560 --> 00:10:54,380

asymmetric damage causing symmetric

269

00:10:58,390 --> 00:10:56,570

collapse but not just that the Empire

270

00:11:00,670 --> 00:10:58,400

State Building another building in New

271

00:11:04,360 --> 00:11:00,680

York had previously been hit by a plane

272

00:11:05,500 --> 00:11:04,370

a b-52 bomber sometime in the 60s I

273

00:11:07,990 --> 00:11:05,510

believe arguably

274

00:11:08,740 --> 00:11:08,000

yes I know that it isn't the same size

275

00:11:11,110 --> 00:11:08,750

of a plane

276

00:11:12,580 --> 00:11:11,120

it wasn't traveling at the same speed it

277

00:11:16,210 --> 00:11:12,590

wasn't carrying as much fuel I

278

00:11:18,190 --> 00:11:16,220

understand all of that however I do not

279

00:11:20,260 --> 00:11:18,200

think that an impactful plane that

280

00:11:22,510 --> 00:11:20,270

causes asymmetric damage would

281

00:11:24,760 --> 00:11:22,520

necessarily cause significant damage to

282

00:11:27,520 --> 00:11:24,770

make the building collapse the way that

283

00:11:29,950 --> 00:11:27,530

it did in near freefall speeds when the

284

00:11:32,980 --> 00:11:29,960

Empire State sustained minimal fire fire

285

00:11:35,170 --> 00:11:32,990

damage and practically known the floors

286

00:11:38,650 --> 00:11:35,180

had collapsed or given way structurally

287

00:11:41,290 --> 00:11:38,660

and that's still that's still a large

288

00:11:45,490 --> 00:11:41,300

object colliding with the building high

289

00:11:46,810 --> 00:11:45,500

up on its a structural point I must say

290

00:11:48,730 --> 00:11:46,820

I'm kind of surprised you bring up that

291

00:11:51,730 --> 00:11:48,740

as an example because you know most

292

00:11:53,830 --> 00:11:51,740

people it seems like a overly simplistic

293

00:11:56,710 --> 00:11:53,840

example because the Empire State

294

00:11:57,850 --> 00:11:56,720

Building is such a different building to

295

00:12:03,880 --> 00:11:57,860

the previous which of the World Trade

296

00:12:07,330 --> 00:12:03,890

Center just from like you say from a

297

00:12:08,980 --> 00:12:07,340

simplistic comparison it is just it is

298

00:12:11,770 --> 00:12:08,990

you know it is odd especially when you

299

00:12:13,660 --> 00:12:11,780

look and you see okay a building has

300

00:12:15,880 --> 00:12:13,670

been hit with a plane before it hasn't

301
00:12:18,460 --> 00:12:15,890
come down yeah and then you see the ODE

302
00:12:21,550 --> 00:12:18,470
nest didn't test for explosives despite

303
00:12:24,250 --> 00:12:21,560
a good reason for them to have tested

304
00:12:26,320 --> 00:12:24,260
for them in a terrorist attack and then

305
00:12:28,840 --> 00:12:26,330
you also see that it is the first time

306
00:12:33,220 --> 00:12:28,850
that fires have brought down skyscrapers

307
00:12:35,500 --> 00:12:33,230
three times in one day and the and this

308
00:12:37,660 --> 00:12:35,510
came up with a whole new type of fire

309
00:12:39,790 --> 00:12:37,670
induce progressive collapse news ahead

310
00:12:41,050 --> 00:12:39,800
claps I think that's that's kind a bit

311
00:12:45,190 --> 00:12:41,060
of a misleading thing saying that it

312
00:12:48,010 --> 00:12:45,200
came out came up with a new thing it was

313
00:12:51,610 --> 00:12:48,020

up you know not that they came up with

314

00:12:54,040 --> 00:12:51,620

one that they said they had shown for

315

00:12:56,590 --> 00:12:54,050

the first time and I think I'm almost

316

00:12:58,540 --> 00:12:56,600

directly quoting Shyam sunder here he

317

00:13:00,640 --> 00:12:58,550

said that they have shown successful

318

00:13:03,220 --> 00:13:00,650

youth for the first time that fire can

319

00:13:05,110 --> 00:13:03,230

induce a progressive collapse so it was

320

00:13:06,340 --> 00:13:05,120

it was the first time that they had seen

321

00:13:08,770 --> 00:13:06,350

that that that type of progressive

322

00:13:10,450 --> 00:13:08,780

collapse successfully happened in the

323

00:13:12,640 --> 00:13:10,460

building and that the first time they

324

00:13:15,940 --> 00:13:12,650

were able to record and prove it through

325

00:13:17,680 --> 00:13:15,950

their science so to me it just odd that

326

00:13:18,940 --> 00:13:17,690

they would find a new type of collapse

327

00:13:21,910 --> 00:13:18,950

rather than

328

00:13:23,830 --> 00:13:21,920

look at alternatives for search for that

329

00:13:28,390 --> 00:13:23,840

kind of collapse of a building that is

330

00:13:31,840 --> 00:13:28,400

already known mission the game with the

331

00:13:34,390 --> 00:13:31,850

building seven you know there were very

332

00:13:37,170 --> 00:13:34,400

dramatic and unique circumstances there

333

00:13:40,630 --> 00:13:37,180

already like World Trade Center one

334

00:13:46,030 --> 00:13:40,640

collapsed you know right next building

335

00:13:48,610 --> 00:13:46,040

seven and created significant damage and

336

00:13:50,710 --> 00:13:48,620

lots of fires in in World Trade Center

337

00:13:52,300 --> 00:13:50,720

seven and then they weren't able to

338

00:13:54,580 --> 00:13:52,310

fight the fire because you know they

339

00:13:55,900 --> 00:13:54,590

yeah I think first of all they had

340

00:13:58,150 --> 00:13:55,910

problems with water then they got water

341

00:13:59,290 --> 00:13:58,160

and then eventually it was just decided

342

00:14:00,880 --> 00:13:59,300

it was too dangerous for the

343

00:14:02,800 --> 00:14:00,890

firefighters to stay in the building so

344

00:14:04,030 --> 00:14:02,810

they just kind of let it burnt and of

345

00:14:06,310 --> 00:14:04,040

course they had lots of other things to

346

00:14:08,670 --> 00:14:06,320

do that day because it was you know this

347

00:14:11,530 --> 00:14:08,680

huge disaster area so it doesn't seem

348

00:14:12,910 --> 00:14:11,540

it's not like just an ordinary you know

349

00:14:14,460 --> 00:14:12,920

building catching fire and then

350

00:14:15,820 --> 00:14:14,470

collapsing it was the extraordinary

351

00:14:17,680 --> 00:14:15,830

circumstances

352

00:14:20,170 --> 00:14:17,690

so the fact that there was an

353

00:14:22,450 --> 00:14:20,180

extraordinary outcome to me doesn't seem

354

00:14:24,070 --> 00:14:22,460

you know that unexpected you expect

355

00:14:29,500 --> 00:14:24,080

weird things to happen like when you fly

356

00:14:33,160 --> 00:14:29,510

a 767 into a hundred and thirteen storey

357

00:14:35,140 --> 00:14:33,170

building you you you don't know what's

358

00:14:38,800 --> 00:14:35,150

going to happen because it's not you

359

00:14:40,450 --> 00:14:38,810

know despite the the Empire State

360

00:14:41,350 --> 00:14:40,460

Building thing this really hasn't

361

00:14:43,120 --> 00:14:41,360

happened before

362

00:14:45,570 --> 00:14:43,130

the World Trade Center was a unique

363

00:14:48,790 --> 00:14:45,580

construction very very different so

364

00:14:50,500 --> 00:14:48,800

you've got something that's not happened

365

00:14:51,720 --> 00:14:50,510

before and then something happens and

366

00:14:54,220 --> 00:14:51,730

you say oh that's never happened before

367

00:14:56,020 --> 00:14:54,230

you expect things that haven't happened

368

00:15:00,730 --> 00:14:56,030

before to happen on that day because it

369

00:15:02,760 --> 00:15:00,740

was an extraordinary day and I agreed

370

00:15:04,300 --> 00:15:02,770

that it was an extraordinary day

371

00:15:06,970 --> 00:15:04,310

extraordinary said if there are

372

00:15:08,620 --> 00:15:06,980

circumstances as you said the with the

373

00:15:10,630 --> 00:15:08,630

water situation actually I'm aware that

374

00:15:13,270 --> 00:15:10,640

the the water mains were burst

375

00:15:15,250 --> 00:15:13,280

underneath the buildings from from what

376

00:15:16,990 --> 00:15:15,260

I understand can you correct me from

377

00:15:19,360 --> 00:15:17,000

Roland yeah I think there was some

378

00:15:23,020 --> 00:15:19,370

damage when World Trade Center one

379

00:15:24,190 --> 00:15:23,030

collapsed which that was you know the

380

00:15:26,800 --> 00:15:24,200

second buildings it collapse and there

381

00:15:28,540 --> 00:15:26,810

was it was right next to building seven

382

00:15:31,370 --> 00:15:28,550

he was those one building separating

383

00:15:34,880 --> 00:15:31,380

them but it was essentially you know

384

00:15:36,800 --> 00:15:34,890

it rips like gouges in the south face of

385

00:15:38,540 --> 00:15:36,810

bullying 7 but I think they did set up

386

00:15:40,070 --> 00:15:38,550

water later I'm not sure I understand

387

00:15:42,710 --> 00:15:40,080

for some dispute about exactly the

388

00:15:45,670 --> 00:15:42,720

availability of water on that day but

389

00:15:47,450 --> 00:15:45,680

you know at some point eventually they

390

00:15:49,340 --> 00:15:47,460

abandoned the building and they weren't

391

00:15:52,670 --> 00:15:49,350

fighting the fires there's a video that

392

00:15:54,320 --> 00:15:52,680

was shot briefly before the collapse

393

00:15:56,120 --> 00:15:54,330

like about 20-30 minutes before they

394

00:15:57,710 --> 00:15:56,130

collapse and you see the fires raging

395

00:16:00,800 --> 00:15:57,720

all the way around the building and thus

396

00:16:02,750 --> 00:16:00,810

there's no no firefighters near it so

397

00:16:04,370 --> 00:16:02,760

they definitely just basically let it go

398

00:16:05,600 --> 00:16:04,380

now of course the unit they said that

399

00:16:07,310 --> 00:16:05,610

they did that youth this interview is

400

00:16:08,360 --> 00:16:07,320

with firefighters who said that they

401
00:16:11,480 --> 00:16:08,370
thought the building was going to

402
00:16:14,590 --> 00:16:11,490
collapse and so they they moved out and

403
00:16:16,370 --> 00:16:14,600
then there's the the famous quote from

404
00:16:17,510 --> 00:16:16,380
what's-his-name the owner of the birth

405
00:16:23,060 --> 00:16:17,520
of the building I can't remember his

406
00:16:24,860 --> 00:16:23,070
name now Larry's yeah yeah he he said

407
00:16:26,510 --> 00:16:24,870
that you know the fireman said that it

408
00:16:29,000 --> 00:16:26,520
was too dangerous and so they were gonna

409
00:16:30,920 --> 00:16:29,010
pull it and people yeah say that pull it

410
00:16:32,570 --> 00:16:30,930
meant demolish it but really it just

411
00:16:36,190 --> 00:16:32,580
meant he's gonna pull the firefighters

412
00:16:39,020 --> 00:16:36,200
out pull the operation yeah cancel it

413
00:16:41,180 --> 00:16:39,030

I've seen that I don't to see that that

414

00:16:44,000 --> 00:16:41,190

to me is and convincing evidence in

415

00:16:47,180 --> 00:16:44,010

support of my argument because that's

416

00:16:49,310 --> 00:16:47,190

just semantics essentially and you can

417

00:16:51,140 --> 00:16:49,320

you can speculate on what they meant

418

00:16:53,210 --> 00:16:51,150

with that term however it's not hard

419

00:16:55,610 --> 00:16:53,220

evidence is not hard scientific evidence

420

00:16:57,650 --> 00:16:55,620

and I'd rather not focus on speculation

421

00:17:00,320 --> 00:16:57,660

like that with what people said in

422

00:17:00,980 --> 00:17:00,330

certain situations and I understand that

423

00:17:06,220 --> 00:17:00,990

I understand that

424

00:17:08,210 --> 00:17:06,230

at the pool it was a bad day they were

425

00:17:09,740 --> 00:17:08,220

concerned that conditions in the

426
00:17:13,010 --> 00:17:09,750
building were not safe for them to enter

427
00:17:16,760 --> 00:17:13,020
I'm aware of that however I'm just for

428
00:17:19,550 --> 00:17:16,770
me with one of the problems with one of

429
00:17:21,679 --> 00:17:19,560
the problems with fires in World Trade

430
00:17:24,250 --> 00:17:21,689
Center seven is that it's not evident to

431
00:17:29,660 --> 00:17:24,260
me that the fires were really as as

432
00:17:31,550 --> 00:17:29,670
raging as they claim to be finest and by

433
00:17:34,340 --> 00:17:31,560
people who say that the buildings came

434
00:17:36,500 --> 00:17:34,350
down by fire because as I've watched

435
00:17:39,800 --> 00:17:36,510
videos of the fires and did not look as

436
00:17:43,060 --> 00:17:39,810
intense as as far as say buildings that

437
00:17:45,010 --> 00:17:43,070
you know basic video if you look up like

438
00:17:47,740 --> 00:17:45,020

World Trade Center seven versus other

439

00:17:49,230 --> 00:17:47,750

skies people fire buildings and you'll

440

00:17:52,810 --> 00:17:49,240

see that there's been much worse

441

00:17:56,050 --> 00:17:52,820

building fires and those structures are

442

00:17:57,940 --> 00:17:56,060

still light if not completely standing

443

00:18:00,730 --> 00:17:57,950

at least mainly standing in terms of the

444

00:18:04,000 --> 00:18:00,740

structure not completely reduced to the

445

00:18:05,160 --> 00:18:04,010

rubble in their own footprint and and

446

00:18:08,080 --> 00:18:05,170

back to what you said about

447

00:18:11,410 --> 00:18:08,090

extraordinary circumstances an

448

00:18:14,410 --> 00:18:11,420

extraordinary day I mean that that is a

449

00:18:18,430 --> 00:18:14,420

bit of a loose generalization in my

450

00:18:19,900 --> 00:18:18,440

opinion because extraordinary events

451

00:18:22,390 --> 00:18:19,910

that occur out of extraordinary

452

00:18:26,560 --> 00:18:22,400

circumstances could be a range of things

453

00:18:30,130 --> 00:18:26,570

and I've to me just extremely it

454

00:18:32,710 --> 00:18:30,140

it's much too extraordinary borderline

455

00:18:34,900 --> 00:18:32,720

miraculous for the three buildings that

456

00:18:39,520 --> 00:18:34,910

date off all collapsed in a similar

457

00:18:41,200 --> 00:18:39,530

fashion of asymmetrical damage and so

458

00:18:44,230 --> 00:18:41,210

all of them collapse in similar manner

459

00:18:46,540 --> 00:18:44,240

due to that despite the fact that the

460

00:18:49,360 --> 00:18:46,550

damage to these buildings was different

461

00:18:50,530 --> 00:18:49,370

each case how are you saying though how

462

00:18:52,690 --> 00:18:50,540

are you saying that they're similar

463

00:18:54,820 --> 00:18:52,700

though like the World Trade Center tower

464

00:18:57,700 --> 00:18:54,830

collapses was nothing at all like the

465

00:19:00,010 --> 00:18:57,710

building 7 collapse will Trade Center

466

00:19:01,300 --> 00:19:00,020

towers like I have a model of the World

467

00:19:04,270 --> 00:19:01,310

Trade Center here they started

468

00:19:06,370 --> 00:19:04,280

collapsing from the top and if this this

469

00:19:08,830 --> 00:19:06,380

light this chunk of the top of the

470

00:19:09,220 --> 00:19:08,840

building kind of crushed the bottom of

471

00:19:11,050 --> 00:19:09,230

the building

472

00:19:14,470 --> 00:19:11,060

i crush exactly but it course

473

00:19:16,390 --> 00:19:14,480

disintegrates and this building well

474

00:19:19,360 --> 00:19:16,400

that just went straight and that's an

475

00:19:22,780 --> 00:19:19,370

issue with with with Newton's laws

476
00:19:25,110 --> 00:19:22,790
motion actually the fact that the top of

477
00:19:27,970 --> 00:19:25,120
the building can crush the bottom and

478
00:19:29,050 --> 00:19:27,980
essentially disintegrated because as we

479
00:19:31,150 --> 00:19:29,060
know from Newton's third law of motion

480
00:19:33,520 --> 00:19:31,160
every force creates an opposite and

481
00:19:36,100 --> 00:19:33,530
equal reaction if the top parts of the

482
00:19:39,340 --> 00:19:36,110
building are falling they they will

483
00:19:40,660 --> 00:19:39,350
equally saw as each floor crushes the

484
00:19:43,300 --> 00:19:40,670
floor that it comes into contact with

485
00:19:47,170 --> 00:19:43,310
they will both equally destroy each

486
00:19:49,750 --> 00:19:47,180
other for the same amount of energy so

487
00:19:52,720 --> 00:19:49,760
say say at the top you have those 15

488
00:19:54,880 --> 00:19:52,730

floors they will and given for gravity

489

00:19:56,320 --> 00:19:54,890

and the additional kinetic energy

490

00:19:56,899 --> 00:19:56,330

gravitational potential energy that they

491

00:19:58,849 --> 00:19:56,909

receive

492

00:20:01,099 --> 00:19:58,859

falling you'll probably take out more

493

00:20:02,539 --> 00:20:01,109

than 15 floors that can't be exact here

494

00:20:04,609 --> 00:20:02,549

because I don't have the right numbers

495

00:20:06,169 --> 00:20:04,619

and all that with me but I'm just going

496

00:20:10,279 --> 00:20:06,179

to ask to me and say it'll take out 15

497

00:20:11,599 --> 00:20:10,289

plus so only be able to take out 15 plus

498

00:20:14,779 --> 00:20:11,609

the amount of energy that is stored

499

00:20:18,229 --> 00:20:14,789

within those top 15 floors and only take

500

00:20:20,450 --> 00:20:18,239

out 15 us below it before the before the

501
00:20:22,219 --> 00:20:20,460
your machine comes to a halt because

502
00:20:24,289 --> 00:20:22,229
that's just the laws of conservation of

503
00:20:26,629 --> 00:20:24,299
momentum oh yeah what if it was as

504
00:20:28,820 --> 00:20:26,639
simple as that but have you ever heard

505
00:20:31,489 --> 00:20:28,830
like the explanation that I give for how

506
00:20:36,310 --> 00:20:31,499
the building's collapse however the

507
00:20:39,680 --> 00:20:36,320
World Trade Center towers collapse so

508
00:20:41,599 --> 00:20:39,690
you familiar with the way you know the

509
00:20:43,279 --> 00:20:41,609
World Trade Center towers say let's just

510
00:20:46,219 --> 00:20:43,289
go with that what did we see - for

511
00:20:49,779 --> 00:20:46,229
example there are tube in a tube design

512
00:20:52,430 --> 00:20:49,789
you're familiar with that description

513
00:20:54,979 --> 00:20:52,440

and though they have a core the tube in

514

00:21:00,019 --> 00:20:54,989

the tube so you have the the vertical

515

00:21:02,299 --> 00:21:00,029

tube attached to a yeah it refers to

516

00:21:05,960 --> 00:21:02,309

like the outside of the building is say

517

00:21:07,580 --> 00:21:05,970

one tube and then the core of the

518

00:21:10,629 --> 00:21:07,590

building where all the elevators and the

519

00:21:14,450 --> 00:21:10,639

steps are and the another mechanical

520

00:21:17,389 --> 00:21:14,460

rooms are that is another tube it's like

521

00:21:21,139 --> 00:21:17,399

it's more like almost like a central

522

00:21:25,249 --> 00:21:21,149

core and then the building is around

523

00:21:26,359 --> 00:21:25,259

that central core so that's the

524

00:21:28,609 --> 00:21:26,369

structure of the building is actually

525

00:21:30,589 --> 00:21:28,619

very very different to conventional

526

00:21:32,509 --> 00:21:30,599

buildings like the Empire State Building

527

00:21:34,669 --> 00:21:32,519

for example which is much older building

528

00:21:37,450 --> 00:21:34,679

because it has these very very long

529

00:21:40,129 --> 00:21:37,460

floors very opens lots of open space

530

00:21:43,369 --> 00:21:40,139

because there's no columns anywhere

531

00:21:46,369 --> 00:21:43,379

between the core of the building and the

532

00:21:50,149 --> 00:21:46,379

outside so you've got this wide open

533

00:21:51,469 --> 00:21:50,159

wide open floors which is a very

534

00:21:52,940 --> 00:21:51,479

distinctive feature of the building when

535

00:21:54,499 --> 00:21:52,950

it was built everyone remarked upon it

536

00:21:55,489 --> 00:21:54,509

how kind of unique it wasn't you know

537

00:21:58,789 --> 00:21:55,499

the buildings have done similar things

538

00:22:01,609 --> 00:21:58,799

since but this is a understanding this

539

00:22:03,139 --> 00:22:01,619

layout is vital to understanding why it

540

00:22:05,119 --> 00:22:03,149

collapsed the way it did and why it

541

00:22:09,649 --> 00:22:05,129

isn't actually violating Newton's laws

542

00:22:10,580 --> 00:22:09,659

of motion now the floors are made up of

543

00:22:14,390 --> 00:22:10,590

these

544

00:22:16,430 --> 00:22:14,400

basically trusses metal trusses with

545

00:22:18,410 --> 00:22:16,440

corrugated metal on top of them and then

546

00:22:21,200 --> 00:22:18,420

I think a layer of like three or six

547

00:22:24,080 --> 00:22:21,210

inches of concrete lightweight concrete

548

00:22:26,270 --> 00:22:24,090

on top of that and so that's that goes

549

00:22:29,270 --> 00:22:26,280

from the core of the building to the

550

00:22:31,700 --> 00:22:29,280

outside of the building now the outside

551

00:22:34,160 --> 00:22:31,710

of the building is only attached to the

552

00:22:37,760 --> 00:22:34,170

core via these trusses via these floor

553

00:22:39,080 --> 00:22:37,770

panels and some beams at the corners

554

00:22:42,680 --> 00:22:39,090

which are just basically on the edges of

555

00:22:45,460 --> 00:22:42,690

these trusses so if something fell from

556

00:22:47,930 --> 00:22:45,470

above and stripped away the floors

557

00:22:50,510 --> 00:22:47,940

brought them between the core and the

558

00:22:52,400 --> 00:22:50,520

outside wall then the outside wall is no

559

00:22:56,000 --> 00:22:52,410

longer supported it's no longer held in

560

00:22:59,060 --> 00:22:56,010

it goes from being a column that is

561

00:23:02,090 --> 00:22:59,070

supported at every 13 feet or whatever

562

00:23:04,010 --> 00:23:02,100

to being a slender column which isn't

563

00:23:06,920 --> 00:23:04,020

supported at all it just becomes this

564

00:23:08,240 --> 00:23:06,930

this floppy skin and even if there was

565

00:23:10,760 --> 00:23:08,250

nothing else going on it wouldn't be

566

00:23:12,440 --> 00:23:10,770

able to stand by itself because it's not

567

00:23:14,240 --> 00:23:12,450

supported from the inside so it would

568

00:23:16,310 --> 00:23:14,250

just it would collapse but it's also got

569

00:23:20,420 --> 00:23:16,320

this this huge amount of mass falling

570

00:23:22,040 --> 00:23:20,430

down on it now you talk about the top of

571

00:23:24,050 --> 00:23:22,050

the building kind of being balanced by

572

00:23:26,300 --> 00:23:24,060

the damage it does to the bottom of the

573

00:23:28,700 --> 00:23:26,310

building well you got to think of it in

574

00:23:30,920 --> 00:23:28,710

terms of two things there's the columns

575

00:23:32,720 --> 00:23:30,930

and then there's the floors which are

576

00:23:34,870 --> 00:23:32,730

the floor panels so the weight of the

577

00:23:37,010 --> 00:23:34,880

building is held by the columns

578

00:23:38,900 --> 00:23:37,020

specifically the core columns but also

579

00:23:40,070 --> 00:23:38,910

the the perimeter columns as well that

580

00:23:42,290 --> 00:23:40,080

there's what that's what's holding the

581

00:23:45,650 --> 00:23:42,300

building up the floors themselves the

582

00:23:49,100 --> 00:23:45,660

floor panels are just kind of attached

583

00:23:52,040 --> 00:23:49,110

to the core and the outside wall so they

584

00:23:53,180 --> 00:23:52,050

the floor that you walk around when

585

00:23:54,410 --> 00:23:53,190

you're inside the building that's not

586

00:23:55,820 --> 00:23:54,420

holding up the building that's just

587

00:23:58,250 --> 00:23:55,830

something that's being held up by the

588

00:24:01,040 --> 00:23:58,260

columns and is also bracing the

589

00:24:02,420 --> 00:24:01,050

connecting the columns one to another so

590

00:24:05,240 --> 00:24:02,430

if something were to fall and strip away

591

00:24:06,350 --> 00:24:05,250

that floor it wouldn't have to damage

592

00:24:08,060 --> 00:24:06,360

the columns at all

593

00:24:09,140 --> 00:24:08,070

it will just go through that floor and

594

00:24:10,340 --> 00:24:09,150

that would fall down and it was stripped

595

00:24:11,900 --> 00:24:10,350

away the next floor and it's just where

596

00:24:14,300 --> 00:24:11,910

the next floor and when is it stripped

597

00:24:16,610 --> 00:24:14,310

away enough floors you would see the

598

00:24:18,590 --> 00:24:16,620

remaining columns wouldn't have any

599

00:24:21,500 --> 00:24:18,600

lateral support so a combination of that

600

00:24:23,370 --> 00:24:21,510

lack of lateral support and all the sium

601
00:24:26,580 --> 00:24:23,380
debris falling everything

602
00:24:28,110 --> 00:24:26,590
would cause it to collapse and this is

603
00:24:32,279 --> 00:24:28,120
something you can actually see in the

604
00:24:34,409 --> 00:24:32,289
collapse pictures is that in after the

605
00:24:36,060 --> 00:24:34,419
building's after the collapse wave has

606
00:24:37,830 --> 00:24:36,070
reached the ground about half of the

607
00:24:40,080 --> 00:24:37,840
core is actually still standing for a

608
00:24:41,490 --> 00:24:40,090
few seconds because the floors have been

609
00:24:43,980 --> 00:24:41,500
stripped away and you can see the weight

610
00:24:46,169 --> 00:24:43,990
peels away from the outside the outside

611
00:24:49,080 --> 00:24:46,179
perimeter it's not that it's destroying

612
00:24:51,630 --> 00:24:49,090
the core it's not like crushing these

613
00:24:53,370 --> 00:24:51,640

these core columns it's the huge mess of

614

00:24:55,710 --> 00:24:53,380

the building on top which is stripping

615

00:24:57,060 --> 00:24:55,720

the floors away from the core and

616

00:24:58,980 --> 00:24:57,070

stripping them away from the outside

617

00:25:01,529 --> 00:24:58,990

walls and that's what actually causes

618

00:25:03,180 --> 00:25:01,539

the collapse and I thought it made sense

619

00:25:05,820 --> 00:25:03,190

to you because it was about rambling on

620

00:25:08,720 --> 00:25:05,830

a bit but that's that's how I explained

621

00:25:12,659 --> 00:25:08,730

why it doesn't break the laws of physics

622

00:25:14,460 --> 00:25:12,669

okay I understand that now thank you for

623

00:25:17,250 --> 00:25:14,470

refreshing me because I actually had

624

00:25:19,560 --> 00:25:17,260

seen this this explanation and it's good

625

00:25:25,620 --> 00:25:19,570

to know exactly what it is I'm up

626
00:25:27,990 --> 00:25:25,630
against basically so it even then as you

627
00:25:29,760 --> 00:25:28,000
say these floors are falling the the

628
00:25:32,640 --> 00:25:29,770
building's still fell with a new

629
00:25:35,640 --> 00:25:32,650
freefall acceleration which has even

630
00:25:38,450 --> 00:25:35,650
Shyam sunder stated for freefall to

631
00:25:41,580 --> 00:25:38,460
occur you'd have to tell me in those no

632
00:25:42,810 --> 00:25:41,590
objects below the falling object that

633
00:25:45,570 --> 00:25:42,820
means there's no resistance underneath

634
00:25:48,390 --> 00:25:45,580
it and the building did fall through the

635
00:25:50,190 --> 00:25:48,400
path of it did not fall through the path

636
00:25:54,029 --> 00:25:50,200
of least resistance it fell into itself

637
00:25:57,450 --> 00:25:54,039
into its own internal mass and as each

638
00:26:00,450 --> 00:25:57,460

floor coupled on to the next floor there

639

00:26:03,029 --> 00:26:00,460

was no observable deceleration as you

640

00:26:05,909 --> 00:26:03,039

would observe when two objects collide

641

00:26:11,090 --> 00:26:05,919

and impact it was almost as if each

642

00:26:13,850 --> 00:26:11,100

successive floor was already weakened or

643

00:26:16,560 --> 00:26:13,860

taken out or however you want to put it

644

00:26:18,450 --> 00:26:16,570

before the previous floor had made

645

00:26:22,649 --> 00:26:18,460

contact with it they all just fell

646

00:26:24,840 --> 00:26:22,659

synchronously let's all notice some more

647

00:26:27,690 --> 00:26:24,850

deceleration which and that is also

648

00:26:29,760 --> 00:26:27,700

pardon second law which is force equals

649

00:26:31,490 --> 00:26:29,770

mass times acceleration which is where

650

00:26:35,430 --> 00:26:31,500

when you when you have the mass

651
00:26:36,539 --> 00:26:35,440
accelerating and and they these opposing

652
00:26:39,089 --> 00:26:36,549
forces

653
00:26:40,709 --> 00:26:39,099
we'll knock now enact Newton's third law

654
00:26:45,479 --> 00:26:40,719
which is that they destroy each other

655
00:26:47,339 --> 00:26:45,489
because of mass and acceleration see not

656
00:26:49,499 --> 00:26:47,349
only what not only would the floors

657
00:26:51,959 --> 00:26:49,509
destroy each other upon contact you

658
00:26:54,719 --> 00:26:51,969
would also notice a visible deceleration

659
00:26:57,269 --> 00:26:54,729
which would not which which would not

660
00:27:00,389 --> 00:26:57,279
translate into a near freefall class per

661
00:27:01,889 --> 00:27:00,399
building because that near freefall

662
00:27:05,190 --> 00:27:01,899
collapse at least from what I've seen

663
00:27:07,320 --> 00:27:05,200

has only been demonstrated Lee done it's

664

00:27:09,749 --> 00:27:07,330

through control demolition which is why

665

00:27:11,669 --> 00:27:09,759

it is a good hypotheses I'm not saying

666

00:27:13,229 --> 00:27:11,679

that it's for sure I understand it's a

667

00:27:15,989 --> 00:27:13,239

hypotheses they should have not ruled

668

00:27:17,879 --> 00:27:15,999

out so easily well you know that if you

669

00:27:19,769 --> 00:27:17,889

think it's similar to controlled

670

00:27:21,479 --> 00:27:19,779

demolition surely an argument would also

671

00:27:23,069 --> 00:27:21,489

be that it looks nothing at all like a

672

00:27:24,779 --> 00:27:23,079

controlled demolition like controlled

673

00:27:26,129 --> 00:27:24,789

demolitions they blow away the columns

674

00:27:27,930 --> 00:27:26,139

at the bottom of the building and they

675

00:27:31,079 --> 00:27:27,940

use the weight of the building to

676

00:27:33,269 --> 00:27:31,089

destroy itself they don't plan

677

00:27:36,389 --> 00:27:33,279

explosives when a person looks just like

678

00:27:39,359 --> 00:27:36,399

he does yeah but then then you are you

679

00:27:42,199 --> 00:27:39,369

arguing that WTC 7 is a controlled

680

00:27:44,369 --> 00:27:42,209

demolition that the other ones are not

681

00:27:45,659 --> 00:27:44,379

and you have different types of

682

00:27:47,609 --> 00:27:45,669

controlled demolitions I mean you have

683

00:27:48,989 --> 00:27:47,619

gravity driven controlled demolitions

684

00:27:50,549 --> 00:27:48,999

where they split the building from half

685

00:27:51,779 --> 00:27:50,559

to see what it looks like when you half

686

00:27:54,269 --> 00:27:51,789

the building falling until the other

687

00:27:55,739 --> 00:27:54,279

half to demonstrate use the laws of

688

00:27:57,930 --> 00:27:55,749

motion how you have equal masses

689

00:27:59,729 --> 00:27:57,940

cancelling out each other and destroying

690

00:28:01,560 --> 00:27:59,739

each other equally so you have different

691

00:28:03,989 --> 00:28:01,570

types of gravity off for control

692

00:28:06,359 --> 00:28:03,999

demolitions I'm not saying that they

693

00:28:07,259 --> 00:28:06,369

could have I mean if they were like how

694

00:28:08,909 --> 00:28:07,269

do you know they couldn't have been

695

00:28:11,129 --> 00:28:08,919

different types of control demolitions

696

00:28:12,029 --> 00:28:11,139

perhaps different actually used that's

697

00:28:14,339 --> 00:28:12,039

what I'm saying like different

698

00:28:16,739 --> 00:28:14,349

hypotheses that that I passed you

699

00:28:18,779 --> 00:28:16,749

shouldn't have been so easily excluded

700

00:28:20,609 --> 00:28:18,789

when there are still ad hoc alternatives

701

00:28:22,229 --> 00:28:20,619

you could come up to just the one all

702

00:28:24,209 --> 00:28:22,239

that malicious scenario I think you need

703

00:28:25,769 --> 00:28:24,219

to be honest it they didn't do it

704

00:28:27,569 --> 00:28:25,779

because it seemed like such a ridiculous

705

00:28:29,669 --> 00:28:27,579

idea because it was it was fairly

706

00:28:31,229 --> 00:28:29,679

obvious that the planes have flown into

707

00:28:33,869 --> 00:28:31,239

the buildings and there was a big fire

708

00:28:35,969 --> 00:28:33,879

and that once the collapse had started

709

00:28:38,879 --> 00:28:35,979

there was no way of stopping it and I

710

00:28:41,099 --> 00:28:38,889

think that's part of the problem is they

711

00:28:42,899 --> 00:28:41,109

didn't actually model the full collapse

712

00:28:44,399 --> 00:28:42,909

progression because they didn't think it

713

00:28:46,259 --> 00:28:44,409

was necessary because obviously was

714

00:28:48,209 --> 00:28:46,269
going to fall so you don't get the

715

00:28:49,640 --> 00:28:48,219
detail of why it was so fast you know

716

00:28:51,470 --> 00:28:49,650
what I was just talking about there

717

00:28:53,630 --> 00:28:51,480
things falling through the floors rather

718

00:28:56,060 --> 00:28:53,640
than falling through the columns is the

719

00:29:00,110 --> 00:28:56,070
reason why it fell at I think you know

720

00:29:01,190 --> 00:29:00,120
like about what is 80% of gravity or

721

00:29:03,170 --> 00:29:01,200
something like that something that

722

00:29:07,220 --> 00:29:03,180
something fairly close to freefall but

723

00:29:09,650 --> 00:29:07,230
not actually freefall it wasn't exactly

724

00:29:12,050 --> 00:29:09,660
fall there was some resistance but it

725

00:29:14,540 --> 00:29:12,060
was negligible enough to be within a

726

00:29:16,370 --> 00:29:14,550

good parameter of freefall that is not

727

00:29:18,680 --> 00:29:16,380

consistent with with the natural

728

00:29:20,690 --> 00:29:18,690

collapse of buildings due to fire or any

729

00:29:22,460 --> 00:29:20,700

other kind of natural structural

730

00:29:23,780 --> 00:29:22,470

weaking I think that you know when

731

00:29:25,010 --> 00:29:23,790

people say that it's you know not

732

00:29:26,860 --> 00:29:25,020

consistent with it they're kind of

733

00:29:29,080 --> 00:29:26,870

thinking about this this

734

00:29:31,370 --> 00:29:29,090

oversimplification of it that is just

735

00:29:34,190 --> 00:29:31,380

there's a top part there's a bottom part

736

00:29:36,410 --> 00:29:34,200

and the top part crushes the bottom part

737

00:29:38,630 --> 00:29:36,420

equally that's not what happening it's

738

00:29:40,490 --> 00:29:38,640

almost almost like the building is and

739

00:29:42,080 --> 00:29:40,500

this is gonna sound silly like a giant

740

00:29:43,400 --> 00:29:42,090

zipper and you're pulling down the

741

00:29:44,450 --> 00:29:43,410

zipper it takes a little bit of force to

742

00:29:46,280 --> 00:29:44,460

pull the zipper down and then the

743

00:29:48,350 --> 00:29:46,290

building falls apart because you've got

744

00:29:50,330 --> 00:29:48,360

the outside of the building connect you

745

00:29:52,700 --> 00:29:50,340

to the inside of the building via these

746

00:29:55,250 --> 00:29:52,710

floors and the floors themselves are

747

00:29:56,810 --> 00:29:55,260

really weak structurally they're not

748

00:29:59,090 --> 00:29:56,820

designed to carry a structural load

749

00:30:00,680 --> 00:29:59,100

they're designed to carry people in an

750

00:30:03,320 --> 00:30:00,690

office so they carried their own weight

751

00:30:05,600 --> 00:30:03,330

and then they carry the the live load

752

00:30:07,670 --> 00:30:05,610

which is the people moving around and if

753

00:30:11,600 --> 00:30:07,680

any equipments on it and they basically

754

00:30:13,610 --> 00:30:11,610

they have excuse me they have like a

755

00:30:18,820 --> 00:30:13,620

safety margin I think of six times their

756

00:30:21,230 --> 00:30:18,830

own weight being just laid on top of it

757

00:30:24,400 --> 00:30:21,240

so if you have something that can only

758

00:30:26,750 --> 00:30:24,410

just support six times its own weight on

759

00:30:31,010 --> 00:30:26,760

top of it but then you drop something

760

00:30:32,690 --> 00:30:31,020

from 12 feet above it then he doesn't

761

00:30:35,090 --> 00:30:32,700

seem at all surprising that that floor

762

00:30:37,070 --> 00:30:35,100

would give way the columns don't give

763

00:30:38,510 --> 00:30:37,080

way the floor just gets stripped away

764

00:30:39,830 --> 00:30:38,520

from the columns and now you've got two

765

00:30:42,050 --> 00:30:39,840

floors falling down and they strip away

766

00:30:43,940 --> 00:30:42,060

other floors and they're not gonna be

767

00:30:45,620 --> 00:30:43,950

floors they're not going to be like you

768

00:30:47,060 --> 00:30:45,630

know these neat slabs falling down but

769

00:30:48,470 --> 00:30:47,070

it's gonna break up it's gonna be this

770

00:30:51,470 --> 00:30:48,480

huge amount of debris is to be like

771

00:30:54,260 --> 00:30:51,480

dumping a bag of rocks they say somebody

772

00:30:56,000 --> 00:30:54,270

took her no it's like yeah it's somebody

773

00:30:57,680 --> 00:30:56,010

dropped an avalanche on your house you

774

00:31:00,080 --> 00:30:57,690

wouldn't be surprised if your house got

775

00:31:01,410 --> 00:31:00,090

destroyed even though it's only a bunch

776

00:31:02,550 --> 00:31:01,420

of snowflakes

777

00:31:04,950 --> 00:31:02,560

it doesn't have to be a solid object

778

00:31:08,670 --> 00:31:04,960

hitting something to actually do a lot

779

00:31:10,350 --> 00:31:08,680

of damage so if you think jaw-dropping a

780

00:31:11,850 --> 00:31:10,360

huge bag of rocks on top of the World

781

00:31:13,860 --> 00:31:11,860

Trade Center would do this thing it

782

00:31:15,660 --> 00:31:13,870

would strip away these floors the floors

783

00:31:25,170 --> 00:31:15,670

will be stripped from the walls and then

784

00:31:28,260 --> 00:31:25,180

the walls would collapse I mean that is

785

00:31:31,350 --> 00:31:28,270

a fairly simplistic or simplistic

786

00:31:33,420 --> 00:31:31,360

explanation of itself and just one thing

787

00:31:35,700 --> 00:31:33,430

that I have to point out is that you do

788

00:31:38,100 --> 00:31:35,710

keep avoiding the the fact that NIST

789

00:31:40,620 --> 00:31:38,110

hasn't tested or refused to test for

790

00:31:43,500 --> 00:31:40,630

explosives and there's no I mean the

791

00:31:45,260 --> 00:31:43,510

most youth responds to that is literally

792

00:31:48,090 --> 00:31:45,270

just say that it's a ridiculous

793

00:31:49,050 --> 00:31:48,100

hypotheses and I said they would think

794

00:31:51,300 --> 00:31:49,060

is ridiculous

795

00:31:56,880 --> 00:31:51,310

because they understand why the building

796

00:31:57,930 --> 00:31:56,890

collapsed and witnessed like I'm

797

00:32:00,450 --> 00:31:57,940

surprised I haven't bought this up

798

00:32:01,860 --> 00:32:00,460

witness one of the things that just

799

00:32:06,000 --> 00:32:01,870

sticks out to me is that this is a

800

00:32:07,980 --> 00:32:06,010

government agency why would they tasked

801
00:32:10,380 --> 00:32:07,990
to investigate the collapse of the

802
00:32:12,630 --> 00:32:10,390
buildings when there was so they had

803
00:32:14,040 --> 00:32:12,640
releases reports can you remind me when

804
00:32:14,760 --> 00:32:14,050
exactly they released their report and

805
00:32:19,410 --> 00:32:14,770
when they were commissioned to

806
00:32:22,140 --> 00:32:19,420
investigate I think it was 2008 so it's

807
00:32:23,970 --> 00:32:22,150
the start of 2006 and they finished 2008

808
00:32:32,190 --> 00:32:23,980
I'm just doing off the top of my head

809
00:32:34,740 --> 00:32:32,200
here let me just check real quick but it

810
00:32:41,120 --> 00:32:34,750
was around that ballpark so let's just

811
00:32:45,090 --> 00:32:43,620
it doesn't take away from the main point

812
00:32:48,660 --> 00:32:45,100
that I'm making is that but by that time

813
00:32:52,340 --> 00:32:48,670

that was already enough kind of doubt

814

00:32:55,440 --> 00:32:52,350

within the American public by around

815

00:32:57,950 --> 00:32:55,450

2005-2006 that perhaps all the questions

816

00:33:00,210 --> 00:32:57,960

weren't being answered by 9/11 because

817

00:33:02,580 --> 00:33:00,220

World Trade Center 7 hadn't been

818

00:33:04,680 --> 00:33:02,590

mentioned the Commission report because

819

00:33:07,380 --> 00:33:04,690

the Commission report was as we know by

820

00:33:09,330 --> 00:33:07,390

year the chairs of the Commission

821

00:33:11,640 --> 00:33:09,340

themselves went on to write a book about

822

00:33:15,330 --> 00:33:11,650

it that it was set up to fail on the

823

00:33:17,700 --> 00:33:15,340

funded conflict of interest or that

824

00:33:19,950 --> 00:33:17,710

I wasn't NIST that was the 9/11

825

00:33:23,100 --> 00:33:19,960

Commission report the 9/11 Commission

826

00:33:25,769 --> 00:33:23,110

yes but so so then so you had the 9/11

827

00:33:30,210 --> 00:33:25,779

Commission of mentioning WTC 7 so NIST

828

00:33:33,239 --> 00:33:30,220

was a response to the outcry off of the

829

00:33:35,039 --> 00:33:33,249

TC 7 not being looked into and so at a

830

00:33:38,149 --> 00:33:35,049

time when the government was already

831

00:33:40,830 --> 00:33:38,159

kind of held in question by the public

832

00:33:43,889 --> 00:33:40,840

it's surprising that the government

833

00:33:46,230 --> 00:33:43,899

would kind of hire themselves to

834

00:33:48,269 --> 00:33:46,240

investigate themselves it's like if

835

00:33:50,009 --> 00:33:48,279

someone is a suspect in a crime you

836

00:33:51,600 --> 00:33:50,019

don't get the same Department to

837

00:33:54,180 --> 00:33:51,610

investigate themselves which is just

838

00:33:57,389 --> 00:33:54,190

that to me is a conflict of interest but

839

00:33:59,279 --> 00:33:57,399

I do think they were thinking if it in

840

00:34:00,749 --> 00:33:59,289

terms of investigating themselves they

841

00:34:04,289 --> 00:34:00,759

were just thinking of figuring out why

842

00:34:06,659 --> 00:34:04,299

the building collapsed yes yeah it is a

843

00:34:08,700 --> 00:34:06,669

government agency who is funded directly

844

00:34:10,940 --> 00:34:08,710

by the government right know this make

845

00:34:13,139 --> 00:34:10,950

like if a study like say you study

846

00:34:15,329 --> 00:34:13,149

innocent and you know this with the

847

00:34:17,849 --> 00:34:15,339

tobacco industry against Sarah Juana and

848

00:34:19,589 --> 00:34:17,859

alcohol how they funded studies against

849

00:34:21,359 --> 00:34:19,599

their competitors so it's just the same

850

00:34:23,250 --> 00:34:21,369

way with this if they're being funded by

851
00:34:25,680 --> 00:34:23,260
the government what inclination do they

852
00:34:28,290 --> 00:34:25,690
have to pursue hypotheses that might

853
00:34:28,589 --> 00:34:28,300
implicate the government yeah that's

854
00:34:32,579 --> 00:34:28,599
true

855
00:34:35,819 --> 00:34:32,589
that NIST did investigate the

856
00:34:37,980 --> 00:34:35,829
possibility of an explosion this was a

857
00:34:40,290 --> 00:34:37,990
section in the building where they tried

858
00:34:41,940 --> 00:34:40,300
to figure out like could the building

859
00:34:43,680 --> 00:34:41,950
have been brought down by explosives and

860
00:34:46,829 --> 00:34:43,690
they yeah I think they even did a

861
00:34:48,419 --> 00:34:46,839
simulation with it this said in a press

862
00:34:50,280 --> 00:34:48,429
conference that they did not test for

863
00:34:52,500 --> 00:34:50,290

explosives didn't didn't toss very

864

00:34:54,450 --> 00:34:52,510

explosive yeah they didn't test for

865

00:34:58,559 --> 00:34:54,460

explosive residue but they did they did

866

00:34:59,670 --> 00:34:58,569

test basically the the sound levels that

867

00:35:01,650 --> 00:34:59,680

would have been created by the

868

00:35:07,109 --> 00:35:01,660

explosives and since there was no

869

00:35:10,559 --> 00:35:07,119

audible explosions then they could you

870

00:35:12,510 --> 00:35:10,569

explain to me what their methodology for

871

00:35:14,730 --> 00:35:12,520

going about assessing the sound of

872

00:35:16,200 --> 00:35:14,740

explosives on 9/11 was so not entirely

873

00:35:19,589 --> 00:35:16,210

familiar with that yeah they they

874

00:35:21,150 --> 00:35:19,599

basically they they said that if there

875

00:35:22,530 --> 00:35:21,160

were explosives they would have to

876

00:35:23,849 --> 00:35:22,540

brought down this column because they

877

00:35:25,289 --> 00:35:23,859

didn't really up the order at which the

878

00:35:26,700 --> 00:35:25,299

building collapsed so they save column

879

00:35:29,130 --> 00:35:26,710

79

880

00:35:31,530 --> 00:35:29,140

would have had explosives at the bottom

881

00:35:33,930 --> 00:35:31,540

and so they said like what would it take

882

00:35:36,900 --> 00:35:33,940

to cut column 29 in a way that it would

883

00:35:38,430 --> 00:35:36,910

fail like suddenly along the way it did

884

00:35:40,680 --> 00:35:38,440

and they came up with a certain amount

885

00:35:44,420 --> 00:35:40,690

of cutter charges and then they figured

886

00:35:46,830 --> 00:35:44,430

out what the the decibel level would be

887

00:35:50,820 --> 00:35:46,840

like half a mile away from the building

888

00:35:57,120 --> 00:35:50,830

where there were lots of people and was

889

00:35:58,860 --> 00:35:57,130

just yeah they did no no obviously like

890

00:36:01,050 --> 00:35:58,870

there that the the excuse around that is

891

00:36:04,370 --> 00:36:01,060

the yeah they use quieter explosives or

892

00:36:06,510 --> 00:36:04,380

something like that but sir yeah they're

893

00:36:10,380 --> 00:36:06,520

you know to be honest I think that they

894

00:36:12,270 --> 00:36:10,390

were just giving it yeah I think they

895

00:36:15,020 --> 00:36:12,280

did more than I would have expected them

896

00:36:18,060 --> 00:36:15,030

to do by even giving people the the

897

00:36:21,630 --> 00:36:18,070

benefits of looking into explosives cos

898

00:36:24,570 --> 00:36:21,640

I think in with will Trade Center seven

899

00:36:26,190 --> 00:36:24,580

it does look like a controlled

900

00:36:28,200 --> 00:36:26,200

demolition in terms of the visuals of

901
00:36:30,180 --> 00:36:28,210
the building coming down it really

902
00:36:31,590 --> 00:36:30,190
doesn't sound like one though so it

903
00:36:37,470 --> 00:36:31,600
seems very very different to your

904
00:36:40,250 --> 00:36:37,480
conventional controlled demolition well

905
00:36:42,660 --> 00:36:40,260
about going back to your point about

906
00:36:46,020 --> 00:36:42,670
that you think that they did more than

907
00:36:48,930 --> 00:36:46,030
they needed to I think that is an unfair

908
00:36:50,430 --> 00:36:48,940
statement to say considering that we did

909
00:36:52,950 --> 00:36:50,440
just say that they did not test for

910
00:36:54,330 --> 00:36:52,960
explosive residue that they claimed that

911
00:36:56,460 --> 00:36:54,340
there was no reason to test for

912
00:37:00,360 --> 00:36:56,470
explosives because they had no evidence

913
00:37:02,640 --> 00:37:00,370

that explosives were used they based on

914

00:37:05,040 --> 00:37:02,650

more preconceived notion that they would

915

00:37:06,900 --> 00:37:05,050

not find any well no it's based on the

916

00:37:09,690 --> 00:37:06,910

fact that World Trade Center one I like

917

00:37:11,370 --> 00:37:09,700

very very tall skyscraper basically fell

918

00:37:14,430 --> 00:37:11,380

against the south side of the building

919

00:37:16,710 --> 00:37:14,440

and set it on fire so now you positing

920

00:37:17,820 --> 00:37:16,720

that there's also explosives when you've

921

00:37:19,380 --> 00:37:17,830

got this perfectly reasonable

922

00:37:22,380 --> 00:37:19,390

explanation for why it fell in the first

923

00:37:23,790 --> 00:37:22,390

place you don't when the investigator

924

00:37:25,710 --> 00:37:23,800

did they didn't know exactly the

925

00:37:26,880 --> 00:37:25,720

sequence of events and they still

926
00:37:29,220 --> 00:37:26,890
probably don't know exactly what the

927
00:37:31,260 --> 00:37:29,230
sequence of events was but the NuWave

928
00:37:33,240 --> 00:37:31,270
fell they knew that a building fell on

929
00:37:35,190 --> 00:37:33,250
top of it and that it was badly damaged

930
00:37:38,010 --> 00:37:35,200
and then it caught fire and then five

931
00:37:39,600 --> 00:37:38,020
hours later it collapsed you know they

932
00:37:41,340 --> 00:37:39,610
didn't know the exact details and that's

933
00:37:43,460 --> 00:37:41,350
what the investigation was for so I

934
00:37:46,770 --> 00:37:43,470
think from their perspective

935
00:37:49,980 --> 00:37:46,780
testing one kind of specific explosive

936
00:37:52,050 --> 00:37:49,990
on a specific column in a specific

937
00:37:53,910 --> 00:37:52,060
control manner that could obviously give

938
00:37:57,360 --> 00:37:53,920

the result that would show that it

939

00:38:00,060 --> 00:37:57,370

wasn't explosives is that's not a that's

940

00:38:03,960 --> 00:38:00,070

not a good test that they barely tested

941

00:38:07,290 --> 00:38:03,970

it it is eliminated under one type of

942

00:38:10,950 --> 00:38:07,300

demolition like conventional controlled

943

00:38:13,980 --> 00:38:10,960

demolitions one off of several which is

944

00:38:15,180 --> 00:38:13,990

not a accurate or scientific that test

945

00:38:17,850 --> 00:38:15,190

at all in fact it's quite a non

946

00:38:20,940 --> 00:38:17,860

scientific method to tell when you test

947

00:38:25,080 --> 00:38:20,950

for hypotheses - if I were to go in the

948

00:38:27,990 --> 00:38:25,090

ocean and take a cup take a scoop of

949

00:38:30,750 --> 00:38:28,000

water look at it and say huh there must

950

00:38:32,270 --> 00:38:30,760

be no whales in the ocean because I've

951
00:38:34,950 --> 00:38:32,280
looked at that cup of water in my hand

952
00:38:36,690 --> 00:38:34,960
that's not that's not scientific testing

953
00:38:38,360 --> 00:38:36,700
doesn't really seem like the same type

954
00:38:42,030 --> 00:38:38,370
of thing that anyway you're testing

955
00:38:43,950 --> 00:38:42,040
you're not it sort of is if you're only

956
00:38:46,560 --> 00:38:43,960
testing for one type of explosive in a

957
00:38:49,290 --> 00:38:46,570
specific kind of environment you tested

958
00:38:51,330 --> 00:38:49,300
it for column seven - that I'm in the

959
00:38:53,220 --> 00:38:51,340
World Trade Center seven or the World

960
00:38:55,790 --> 00:38:53,230
Trade Center one or two I don't think

961
00:38:58,500 --> 00:38:55,800
that they were saying that there's zero

962
00:39:02,760 --> 00:38:58,510
possibility that explosives were used I

963
00:39:04,260 --> 00:39:02,770

think there's a clearly what Shyam

964

00:39:06,320 --> 00:39:04,270

sunder site you said clearly that

965

00:39:08,730 --> 00:39:06,330

there's no possibility for evidence of

966

00:39:10,590 --> 00:39:08,740

explosives having been used and there's

967

00:39:11,850 --> 00:39:10,600

no need to test for them well I think

968

00:39:12,960 --> 00:39:11,860

he's saying that there's a lack of

969

00:39:17,670 --> 00:39:12,970

evidence for it

970

00:39:19,710 --> 00:39:17,680

it isn't saying that there's a lack of

971

00:39:23,370 --> 00:39:19,720

evidence it's willful ignorance of the

972

00:39:25,770 --> 00:39:23,380

evidence that you should but you you

973

00:39:28,170 --> 00:39:25,780

personally would you say are you already

974

00:39:30,230 --> 00:39:28,180

convinced that there were explosions in

975

00:39:34,050 --> 00:39:30,240

World Trade Center seven even without

976

00:39:36,480 --> 00:39:34,060

tests for residue no no I I just think

977

00:39:38,760 --> 00:39:36,490

that it's ridiculous to say that there

978

00:39:40,470 --> 00:39:38,770

isn't when you haven't even tested for

979

00:39:42,660 --> 00:39:40,480

them I think that there's a possibility

980

00:39:45,000 --> 00:39:42,670

of it for sure I'm not I'm not entirely

981

00:39:46,410 --> 00:39:45,010

convinced but I just think that it's

982

00:39:48,240 --> 00:39:46,420

it's not scientific and it's so

983

00:39:50,160 --> 00:39:48,250

objective to be able to say it

984

00:39:53,370 --> 00:39:50,170

definitely wasn't that when you haven't

985

00:39:55,830 --> 00:39:53,380

even tested for it or is it a surety I

986

00:39:57,660 --> 00:39:55,840

just try something like a while

987

00:40:01,710 --> 00:39:57,670

you said like you didn't think the fires

988

00:40:03,780 --> 00:40:01,720

were very intense I've got a youtube

989

00:40:04,980 --> 00:40:03,790

video I don't know if you've seen but I

990

00:40:06,960 --> 00:40:04,990

wonder if you could just look at it now

991

00:40:10,860 --> 00:40:06,970

or just pause the recording or like

992

00:40:13,920 --> 00:40:10,870

waltz do the I'll edit it out and I

993

00:40:17,390 --> 00:40:13,930

could send this to year so I'm just

994

00:40:20,490 --> 00:40:17,400

going to send you the link and Skype

995

00:40:22,380 --> 00:40:20,500

it's only it's like two minutes long you

996

00:40:25,740 --> 00:40:22,390

could you could just look at it and see

997

00:40:34,500 --> 00:40:25,750

just watch it real quick and see if it

998

00:40:47,970 --> 00:40:34,510

changes your opinion on hit play at the

999

00:41:39,150 --> 00:40:47,980

same time twelve seconds okay I'm seeing

1000

00:41:41,550 --> 00:41:39,160

windows with swirling smoke on the well

1001

00:41:43,770 --> 00:41:41,560

it's four floors by the looks of it in

1002

00:41:46,200 --> 00:41:43,780

terms of you know this is this is

1003

00:41:47,400 --> 00:41:46,210

actually quite late in the process what

1004

00:41:48,960 --> 00:41:47,410

we're seeing there's a wider shot you

1005

00:41:51,390 --> 00:41:48,970

can see there's four floors worth of

1006

00:41:53,430 --> 00:41:51,400

windows destroyed but there are two

1007

00:41:55,350 --> 00:41:53,440

floors are currently on fire now it's

1008

00:41:57,060 --> 00:41:55,360

zooming and you can see like the ceiling

1009

00:41:58,740 --> 00:41:57,070

is a second down that's probably just

1010

00:42:03,510 --> 00:41:58,750

the you know the false ceiling the

1011

00:42:06,510 --> 00:42:03,520

panels and stuff just just share one one

1012

00:42:07,880 --> 00:42:06,520

minute 15 actually is around

1013

00:42:10,490 --> 00:42:07,890

I believe I

1014

00:42:13,519 --> 00:42:10,500

be wrong about this but I believe right

1015

00:42:16,549 --> 00:42:13,529

there one minute 15 seconds is one of

1016

00:42:18,230 --> 00:42:16,559

this at the time or just before the

1017

00:42:20,930 --> 00:42:18,240

onset of collapse I believe perhaps

1018

00:42:22,609 --> 00:42:20,940

within 10 to 15 minutes maybe I could be

1019

00:42:25,039 --> 00:42:22,619

wrong but apparently this was one of the

1020

00:42:28,549 --> 00:42:25,049

pieces of evidence that NIST uses as a

1021

00:42:30,380 --> 00:42:28,559

still to point out that fires are

1022

00:42:32,390 --> 00:42:30,390

burning on certain floors where they

1023

00:42:35,450 --> 00:42:32,400

weren't they add mark that fires are

1024

00:42:39,289 --> 00:42:35,460

burning on floors seven through nine

1025

00:42:40,099 --> 00:42:39,299

when clearly only two of said floors are

1026

00:42:42,769 --> 00:42:40,109

actually burning

1027

00:42:44,870 --> 00:42:42,779

yeah it doesn't see visibly the witness

1028

00:42:49,190 --> 00:42:44,880

not show at that point yeah something

1029

00:42:51,079 --> 00:42:49,200

fell down all right and you know I'm

1030

00:42:53,420 --> 00:42:51,089

looking at the fires they seem very

1031

00:42:54,890 --> 00:42:53,430

wind-driven are very very strong to me

1032

00:42:55,970 --> 00:42:54,900

like this you know it zoomed in right

1033

00:43:01,849 --> 00:42:55,980

now I don't if you're just watching the

1034

00:43:03,950 --> 00:43:01,859

same bet I'm at like 225 there's you

1035

00:43:06,440 --> 00:43:03,960

know very very strong high snow we're

1036

00:43:09,559 --> 00:43:06,450

nearly at the end now but you know that

1037

00:43:10,759 --> 00:43:09,569

obviously it's a big building so even

1038

00:43:13,130 --> 00:43:10,769

though the fires are going on a few

1039

00:43:20,259 --> 00:43:13,140

floors that still you know quite a bit

1040

00:43:31,130 --> 00:43:23,299

it's definitely like that's that's a bad

1041

00:43:32,930 --> 00:43:31,140

fire by all means although you see the

1042

00:43:36,259 --> 00:43:32,940

fire sub-regional on those buildings you

1043

00:43:38,180 --> 00:43:36,269

would see a considerably noticeable

1044

00:43:40,819 --> 00:43:38,190

difference yeah well that's the first

1045

00:43:44,749 --> 00:43:40,829

interesting in the first one that's done

1046

00:43:46,910 --> 00:43:44,759

is the Windsor Tower in Madrid you

1047

00:43:48,200 --> 00:43:46,920

familiar with that one is the first the

1048

00:43:52,009 --> 00:43:48,210

first thing that they show in the video

1049

00:43:53,450 --> 00:43:52,019

you just sent to me and that's actually

1050

00:43:56,720 --> 00:43:53,460

one of my favorite examples for a

1051
00:43:57,700 --> 00:43:56,730
building that nearly collapsed due to

1052
00:44:02,420 --> 00:43:57,710
fire

1053
00:44:07,700 --> 00:44:02,430
it's the the is the top half of the

1054
00:44:09,620 --> 00:44:07,710
building collapsed around the core it

1055
00:44:11,779 --> 00:44:09,630
was stopped I think by a mechanical

1056
00:44:14,509 --> 00:44:11,789
floor there was like halfway down the

1057
00:44:16,370 --> 00:44:14,519
building but it did actually Chloe you

1058
00:44:18,170 --> 00:44:16,380
see it all falling down there that's

1059
00:44:19,990 --> 00:44:18,180
quite dramatic so you've not watching

1060
00:44:23,740 --> 00:44:20,000
the same thing but

1061
00:44:27,680 --> 00:44:23,750
how intense the fires are or it's

1062
00:44:29,450 --> 00:44:27,690
significantly more intense well it's a

1063
00:44:31,970 --> 00:44:29,460

night which I think makes it

1064

00:44:34,490 --> 00:44:31,980

misleadingly more yes agree the night

1065

00:44:36,770 --> 00:44:34,500

can enhance the contrast but you can't

1066

00:44:41,390 --> 00:44:36,780

deny the size of the flames I'm sorry

1067

00:44:48,020 --> 00:44:41,400

yes yeah yeah but you only need one

1068

00:44:49,130 --> 00:44:48,030

floor to failure surface year of the

1069

00:44:51,380 --> 00:44:49,140

building that's ignorant

1070

00:44:54,170 --> 00:44:51,390

it looks like the building is much more

1071

00:44:56,210 --> 00:44:54,180

encapsulated in fire in Madrid than

1072

00:44:58,370 --> 00:44:56,220

World Trade Center servant well in

1073

00:45:02,750 --> 00:44:58,380

workers under 700 honestly I can only

1074

00:45:03,349 --> 00:45:02,760

see at max like 7 to 7 to 10 floors

1075

00:45:05,780 --> 00:45:03,359

burning

1076
00:45:07,910 --> 00:45:05,790
whereas with Madrid almost the entire

1077
00:45:09,349 --> 00:45:07,920
building is burning yeah well if you

1078
00:45:10,880 --> 00:45:09,359
look at the south side you see a lot of

1079
00:45:12,440 --> 00:45:10,890
smoke and you'd every know what's going

1080
00:45:14,270 --> 00:45:12,450
on behind that smoke but it seems to be

1081
00:45:17,780 --> 00:45:14,280
smoke coming from every single floor on

1082
00:45:19,640 --> 00:45:17,790
the south side yeah I think you know we

1083
00:45:21,890 --> 00:45:19,650
these are arguments that people have

1084
00:45:23,930 --> 00:45:21,900
been having for many many years and

1085
00:45:27,770 --> 00:45:23,940
maybe we can like kind of discuss it in

1086
00:45:30,109 --> 00:45:27,780
a little more more of a meta sense why

1087
00:45:34,309 --> 00:45:30,119
do you think like no progress ever gets

1088
00:45:35,539 --> 00:45:34,319

made you know if you you're relatively

1089

00:45:43,099 --> 00:45:35,549

young or you're in your twenties you're

1090

00:45:45,410 --> 00:45:43,109

a student is that correct yeah ok so you

1091

00:45:47,270 --> 00:45:45,420

would have been just a kid when 9/11

1092

00:45:49,220 --> 00:45:47,280

happened and you're just you just grew

1093

00:45:50,630 --> 00:45:49,230

up with it and eventually you you know

1094

00:45:53,359 --> 00:45:50,640

you learn more about it and became

1095

00:45:56,510 --> 00:45:53,369

suspicious and got interested in in the

1096

00:46:00,950 --> 00:45:56,520

topic but you know it's it's nearly 20

1097

00:46:05,109 --> 00:46:00,960

years now 18 years and nothing's really

1098

00:46:08,950 --> 00:46:05,119

changed in the 9/11 truth movement in

1099

00:46:12,020 --> 00:46:08,960

probably the last 12 years or so since

1100

00:46:14,210 --> 00:46:12,030

that's our pupil I mean architects

1101
00:46:16,370 --> 00:46:14,220
engineers from like from 9/11 crews has

1102
00:46:20,780 --> 00:46:16,380
grown from like 1,000 members when it

1103
00:46:23,780 --> 00:46:20,790
started to 3,000 plus now right now dr.

1104
00:46:27,079 --> 00:46:23,790
Leroy Halsey is working on his project

1105
00:46:30,230 --> 00:46:27,089
on why WTC 7 fell of the university of

1106
00:46:33,470 --> 00:46:30,240
fairbanks alaska or university alaska

1107
00:46:35,359 --> 00:46:33,480
fairbanks however the order of that is

1108
00:46:36,980 --> 00:46:35,369
you have the lawyers Committee for 911

1109
00:46:41,270 --> 00:46:36,990
crews pushing forward their grand

1110
00:46:43,789 --> 00:46:41,280
position jury the grand jury petition

1111
00:46:45,920 --> 00:46:43,799
hearing or hearing for Andrew however

1112
00:46:47,420 --> 00:46:45,930
it's called so you have a lot of

1113
00:46:51,349 --> 00:46:47,430

movements that are actually making a bit

1114

00:46:54,260 --> 00:46:51,359

more for you could stay in progress at

1115

00:46:56,299 --> 00:46:54,270

least a push maybe awareness but I would

1116

00:47:00,500 --> 00:46:56,309

agree with you generally in that even

1117

00:47:01,700 --> 00:47:00,510

though that that's a problem though it

1118

00:47:05,599 --> 00:47:01,710

isn't I would agree with you that

1119

00:47:07,579 --> 00:47:05,609

overall despite those minor minor

1120

00:47:09,230 --> 00:47:07,589

achievements they haven't made much

1121

00:47:11,089 --> 00:47:09,240

progress although that's not really

1122

00:47:13,400 --> 00:47:11,099

indicative of whether their information

1123

00:47:16,160 --> 00:47:13,410

is credible or criminal there are tons

1124

00:47:17,690 --> 00:47:16,170

of people who have plenty of credible

1125

00:47:20,180 --> 00:47:17,700

ideas that are really worthwhile please

1126
00:47:22,400 --> 00:47:20,190
never get heard and that's just the case

1127
00:47:25,160 --> 00:47:22,410
for something that well when 9/11

1128
00:47:27,319 --> 00:47:25,170
specifically well conspiracy theory is

1129
00:47:28,819 --> 00:47:27,329
seen as a pejorative seen as it to blue

1130
00:47:30,530 --> 00:47:28,829
seen as one of those topics that people

1131
00:47:32,750 --> 00:47:30,540
don't like to discuss because it's

1132
00:47:35,420 --> 00:47:32,760
either too controversial

1133
00:47:38,299 --> 00:47:35,430
the defense people brings our past

1134
00:47:39,940 --> 00:47:38,309
traumas some people just don't want to

1135
00:47:42,289 --> 00:47:39,950
talk about politics so unfortunately

1136
00:47:44,329 --> 00:47:42,299
9/11 happens to fall into that category

1137
00:47:46,640 --> 00:47:44,339
of people just wanna don't talk about

1138
00:47:47,960 --> 00:47:46,650

politics forget conspiracy theories it

1139

00:47:48,589 --> 00:47:47,970

just politics people don't Michael all

1140

00:47:51,260 --> 00:47:48,599

the times

1141

00:47:52,970 --> 00:47:51,270

so there's thus one part of it the other

1142

00:47:55,220 --> 00:47:52,980

part is that well that's the media

1143

00:47:57,380 --> 00:47:55,230

that's a very powerful institution when

1144

00:47:59,990 --> 00:47:57,390

they hammer home how 9/11 happened and

1145

00:48:03,380 --> 00:48:00,000

media theory says that the first story

1146

00:48:05,450 --> 00:48:03,390

is what six people the most when I'm in

1147

00:48:07,940 --> 00:48:05,460

love and did break it was the mainstream

1148

00:48:10,760 --> 00:48:07,950

media who reported it exactly as the

1149

00:48:12,829 --> 00:48:10,770

u.s. wanted them to how was it that the

1150

00:48:14,539 --> 00:48:12,839

mainstream media whom the day of 9/11

1151
00:48:17,299 --> 00:48:14,549
was already telling everyone it was al

1152
00:48:19,579 --> 00:48:17,309
Qaeda and Osama bin Laden without any

1153
00:48:20,839 --> 00:48:19,589
sort of investigation well I think they

1154
00:48:22,970 --> 00:48:20,849
probably based it on the previous

1155
00:48:25,220 --> 00:48:22,980
attacks on the World Trade Center towers

1156
00:48:28,069 --> 00:48:25,230
and the threats that have been an

1157
00:48:30,799 --> 00:48:28,079
assumption yes an assumption and

1158
00:48:33,079 --> 00:48:30,809
speculation which we could agree is

1159
00:48:36,980 --> 00:48:33,089
widespread conspiracy theory

1160
00:48:39,410 --> 00:48:36,990
fear-mongering I wouldn't say I'd call

1161
00:48:41,329 --> 00:48:39,420
it that I would say it's a they made an

1162
00:48:43,069 --> 00:48:41,339
assumption that's the most likely

1163
00:48:45,260 --> 00:48:43,079

candidate for it would have been you

1164

00:48:46,730 --> 00:48:45,270

know some kind of jihadist terrorists

1165

00:48:49,840 --> 00:48:46,740

because of the the

1166

00:48:55,700 --> 00:48:49,850

his attack and yeah the threat to

1167

00:48:57,109 --> 00:48:55,710

essential work to go yeah now obviously

1168

00:49:00,070 --> 00:48:57,119

like you could you can make the case

1169

00:49:02,810 --> 00:49:00,080

obviously that it was a convenient

1170

00:49:05,300 --> 00:49:02,820

excuse to go to war and therefore you

1171

00:49:06,530 --> 00:49:05,310

know there may be someone did it because

1172

00:49:07,850 --> 00:49:06,540

they wanted to go to war but then you

1173

00:49:09,920 --> 00:49:07,860

could also just make the case that they

1174

00:49:11,390 --> 00:49:09,930

simply exploited the event they were

1175

00:49:13,910 --> 00:49:11,400

glad that it happened later than they

1176

00:49:17,390 --> 00:49:13,920

they made it happen but like just

1177

00:49:21,320 --> 00:49:17,400

getting back to the case it's it's an

1178

00:49:24,050 --> 00:49:21,330

either case it's it's indicative of some

1179

00:49:28,340 --> 00:49:24,060

kind of you know it is indicative some

1180

00:49:30,950 --> 00:49:28,350

kind of mischievous machine is miss well

1181

00:49:32,510 --> 00:49:30,960

yeah they're exploiting the event after

1182

00:49:35,330 --> 00:49:32,520

it happened doesn't necessarily mean

1183

00:49:38,240 --> 00:49:35,340

that they caused the event it just means

1184

00:49:40,070 --> 00:49:38,250

that something happened that's just

1185

00:49:42,130 --> 00:49:40,080

something even if you take advantage of

1186

00:49:45,200 --> 00:49:42,140

something without the consent or

1187

00:49:49,480 --> 00:49:45,210

complete and for information to public

1188

00:49:51,980 --> 00:49:49,490

that is still a conspiracy they're not

1189

00:49:56,180 --> 00:49:51,990

exploiting an event for political

1190

00:49:57,950 --> 00:49:56,190

benefit and it's a secret hold events

1191

00:50:00,620 --> 00:49:57,960

get exploited every single event that

1192

00:50:03,080 --> 00:50:00,630

gets that happens people try to exploit

1193

00:50:06,170 --> 00:50:03,090

like if there's a mass shooting that

1194

00:50:08,630 --> 00:50:06,180

people are anti-gun you know exploit it

1195

00:50:10,430 --> 00:50:08,640

for to provide their message and the

1196

00:50:11,960 --> 00:50:10,440

people who are pro-gun will you know try

1197

00:50:16,940 --> 00:50:11,970

to spin it a different way so that's

1198

00:50:18,800 --> 00:50:16,950

just what politicians do so like let's

1199

00:50:21,740 --> 00:50:18,810

say let's take the gun control example

1200

00:50:25,820 --> 00:50:21,750

for the gun control example say I am

1201

00:50:28,880 --> 00:50:25,830

what is the gun the antigone the NRA so

1202

00:50:31,790 --> 00:50:28,890

the NRA in the US say I'm on the board

1203

00:50:34,160 --> 00:50:31,800

of executives at the NRA a mass shooting

1204

00:50:36,230 --> 00:50:34,170

has just happened I collaborate with my

1205

00:50:38,359 --> 00:50:36,240

team of PR agents and media publicist

1206

00:50:41,540 --> 00:50:38,369

that gonna take advantage of the

1207

00:50:43,760 --> 00:50:41,550

situation in order to get people to

1208

00:50:47,750 --> 00:50:43,770

actually support gun rights more now say

1209

00:50:50,210 --> 00:50:47,760

that that somehow inverted Li leads to

1210

00:50:53,930 --> 00:50:50,220

people buying guns and one other mass

1211

00:50:56,090 --> 00:50:53,940

shooting happening now hasn't a not the

1212

00:50:59,030 --> 00:50:56,100

NRA technically committed a conspiracy

1213

00:51:00,500 --> 00:50:59,040

because they did in secret decides to

1214

00:51:02,930 --> 00:51:00,510

take advance or situation

1215

00:51:05,150 --> 00:51:02,940

turned out to have harmful outcomes to

1216

00:51:07,070 --> 00:51:05,160

people as a definition of a conspiracy

1217

00:51:10,580 --> 00:51:07,080

when people get together a secret to

1218

00:51:12,530 --> 00:51:10,590

plan a harmful or illegal acts that's

1219

00:51:15,170 --> 00:51:12,540

all it is it's the precursor to almost

1220

00:51:17,090 --> 00:51:15,180

every crime that we have if someone if

1221

00:51:18,800 --> 00:51:17,100

two people make a crime to steal and

1222

00:51:20,750 --> 00:51:18,810

they planned it you also get charged

1223

00:51:23,270 --> 00:51:20,760

with conspiracy to steal murder

1224

00:51:25,310 --> 00:51:23,280

conspiracy to murder any time it's two

1225

00:51:26,840 --> 00:51:25,320

to more people involved in a crime so

1226

00:51:28,790 --> 00:51:26,850

they need illegal or harmful act

1227

00:51:31,640 --> 00:51:28,800

it's already labeled as conspiracy so

1228

00:51:33,349 --> 00:51:31,650

it's it's a more common some more common

1229

00:51:35,780 --> 00:51:33,359

thing than people think it is and it's

1230

00:51:38,570 --> 00:51:35,790

become such a misnomer and uses a

1231

00:51:40,730 --> 00:51:38,580

majority so I'm gonna show your point is

1232

00:51:42,890 --> 00:51:40,740

here because everyone knows that

1233

00:51:45,950 --> 00:51:42,900

conspiracies happen all the time like in

1234

00:51:47,540 --> 00:51:45,960

my book escaping the rabbit hole the

1235

00:51:49,580 --> 00:51:47,550

first words in the introduction are

1236

00:51:51,680 --> 00:51:49,590

conspiracies are very real of course and

1237

00:51:53,390 --> 00:51:51,690

I had list a bunch of actual

1238

00:51:55,520 --> 00:51:53,400

conspiracies and everybody knows that

1239

00:52:00,170 --> 00:51:55,530

people come to town everybody knows that

1240

00:52:03,500 --> 00:52:00,180

the politicians honest that the

1241

00:52:06,290 --> 00:52:03,510

assumption that that people make were it

1242

00:52:09,410 --> 00:52:06,300

like I've personally like I watched your

1243

00:52:13,040 --> 00:52:09,420

or your debate with the Tonys Ambala T

1244

00:52:16,220 --> 00:52:13,050

from 8911 and you made the one point

1245

00:52:19,580 --> 00:52:16,230

where you said he said he was implying

1246

00:52:22,099 --> 00:52:19,590

that this cheated on their data when

1247

00:52:24,440 --> 00:52:22,109

they when they didn't they were not not

1248

00:52:28,790 --> 00:52:24,450

revealing the data for the collapse of

1249

00:52:31,130 --> 00:52:28,800

WTC 7 model and to which you said that

1250

00:52:34,160 --> 00:52:31,140

you're implying conspiracy here when

1251
00:52:36,170 --> 00:52:34,170
incompetence is the better is the better

1252
00:52:39,680 --> 00:52:36,180
explanation and I don't see why that is

1253
00:52:41,000 --> 00:52:39,690
why is incompetence automatically the

1254
00:52:45,349 --> 00:52:41,010
better explanation without any

1255
00:52:48,530 --> 00:52:45,359
justification because incompetence is a

1256
00:52:50,720 --> 00:52:48,540
lot easier for people to do a conspiracy

1257
00:52:52,040 --> 00:52:50,730
especially a very complex conspiracy

1258
00:52:54,290 --> 00:52:52,050
involving a lot of people is a very very

1259
00:52:58,970 --> 00:52:54,300
difficult thing because it just mess up

1260
00:53:00,980 --> 00:52:58,980
or to be you know just doing something

1261
00:53:03,650 --> 00:53:00,990
cause you can't be bothered to do it or

1262
00:53:05,810 --> 00:53:03,660
some supermost some other reason is

1263
00:53:06,980 --> 00:53:05,820

there's a lot simpler who's just all

1264

00:53:08,450 --> 00:53:06,990

they did was they did nothing they

1265

00:53:09,859 --> 00:53:08,460

didn't release the data and then when

1266

00:53:11,720 --> 00:53:09,869

they were asked to release the data they

1267

00:53:13,970 --> 00:53:11,730

said like we don't release the data cuz

1268

00:53:16,730 --> 00:53:13,980

it's you know if people might use it

1269

00:53:20,000 --> 00:53:16,740

destroy the buildings and maybe they

1270

00:53:26,750 --> 00:53:20,010

could have released it yeah but having a

1271

00:53:30,290 --> 00:53:26,760

conspiracy but you just would prefer to

1272

00:53:33,650 --> 00:53:30,300

lay to go with the easier solution that

1273

00:53:38,660 --> 00:53:33,660

makes more sense to you subjectively no

1274

00:53:41,240 --> 00:53:38,670

Occam's razor actually blowing well but

1275

00:53:42,859 --> 00:53:41,250

both alternatives okay especially when

1276

00:53:45,140 --> 00:53:42,869

it comes to a political act like this

1277

00:53:47,240 --> 00:53:45,150

when like you said conspiracies are

1278

00:53:48,680 --> 00:53:47,250

known to happen and they do happen

1279

00:53:51,080 --> 00:53:48,690

within political within the political

1280

00:53:53,510 --> 00:53:51,090

atmosphere the economic atmosphere

1281

00:53:55,490 --> 00:53:53,520

oh we you know they happen so why should

1282

00:53:57,560 --> 00:53:55,500

we just automatically dismiss when

1283

00:53:59,599 --> 00:53:57,570

consider the possibility of conspiracy

1284

00:54:01,070 --> 00:53:59,609

and see that it has to be since I

1285

00:54:03,349 --> 00:54:01,080

wouldn't dismiss it I would I would just

1286

00:54:05,720 --> 00:54:03,359

rank it appropriately I would say the

1287

00:54:06,530 --> 00:54:05,730

most the more likely explanation is is

1288

00:54:08,120 --> 00:54:06,540

incompetence

1289

00:54:10,400 --> 00:54:08,130

now you know I mentioned Occam's razor

1290

00:54:11,900 --> 00:54:10,410

which is psychological tool and people

1291

00:54:14,330 --> 00:54:11,910

often think that Occam's razor means the

1292

00:54:15,800 --> 00:54:14,340

simplest explanation is the best but

1293

00:54:17,390 --> 00:54:15,810

it's not it's slightly more complicated

1294

00:54:19,580 --> 00:54:17,400

than that Occam's razor says you

1295

00:54:21,530 --> 00:54:19,590

shouldn't you shouldn't have to add

1296

00:54:25,700 --> 00:54:21,540

things to an explanation do not multiply

1297

00:54:29,690 --> 00:54:25,710

the entities required more than this

1298

00:54:31,070 --> 00:54:29,700

necessary so you do if you if you find

1299

00:54:32,990 --> 00:54:31,080

that you have to add something to an

1300

00:54:34,400 --> 00:54:33,000

explanation then the explanation that

1301

00:54:36,710 --> 00:54:34,410

doesn't require things adding two is

1302

00:54:37,220 --> 00:54:36,720

usually the one that's more likely to be

1303

00:54:40,250 --> 00:54:37,230

correct

1304

00:54:42,800 --> 00:54:40,260

it's not always the case but like with

1305

00:54:45,950 --> 00:54:42,810

with releasing the data NIST didn't

1306

00:54:48,200 --> 00:54:45,960

release the data behind the global

1307

00:54:51,230 --> 00:54:48,210

models for the collapse of World Trade

1308

00:54:55,220 --> 00:54:51,240

Center seven and now on one hand you

1309

00:54:56,720 --> 00:54:55,230

know the suggestion is just that and

1310

00:54:57,950 --> 00:54:56,730

also incompetence is a good thing there

1311

00:54:59,599 --> 00:54:57,960

but they just they just didn't want to

1312

00:55:02,480 --> 00:54:59,609

release it because they thought that it

1313

00:55:03,590 --> 00:55:02,490

was dangerous on the other hand you're

1314

00:55:05,930 --> 00:55:03,600

saying that they didn't release it

1315

00:55:07,250 --> 00:55:05,940

because this there's a huge conspiracy

1316

00:55:10,730 --> 00:55:07,260

and that the buildings were actually

1317

00:55:14,830 --> 00:55:10,740

destroyed by controlled demolition so

1318

00:55:18,410 --> 00:55:14,840

you had this I think assumption

1319

00:55:20,570 --> 00:55:18,420

exaggeration of my position not that

1320

00:55:22,760 --> 00:55:20,580

it's not that it's not that just that

1321

00:55:25,010 --> 00:55:22,770

one point is indicative of a huge

1322

00:55:27,470 --> 00:55:25,020

conspiracy it's just to me it's

1323

00:55:30,020 --> 00:55:27,480

suspicious yes that they would

1324

00:55:31,900 --> 00:55:30,030

to hide their data and claim it as

1325

00:55:35,270 --> 00:55:31,910

matters of national security which is

1326

00:55:38,030 --> 00:55:35,280

actually not as far as reasons for

1327

00:55:39,770 --> 00:55:38,040

keeping stuff classified goes is not a

1328

00:55:41,750 --> 00:55:39,780

bad reason I understand the reasoning

1329

00:55:43,970 --> 00:55:41,760

for it that perhaps future terrorists

1330

00:55:46,070 --> 00:55:43,980

may get all that and use it as a way to

1331

00:55:50,830 --> 00:55:46,080

expose weaknesses in all the buildings

1332

00:55:53,450 --> 00:55:50,840

uh but in my counter to that argument is

1333

00:55:54,800 --> 00:55:53,460

why don't they release it so engineers

1334

00:55:56,270 --> 00:55:54,810

know how to build the head though that

1335

00:55:58,460 --> 00:55:56,280

buildings differently the safeguard

1336

00:56:00,950 --> 00:55:58,470

against attacks like that that's kind of

1337

00:56:03,140 --> 00:56:00,960

if they're able to reveal the weaknesses

1338

00:56:05,630 --> 00:56:03,150

in the building with that with the data

1339

00:56:07,820 --> 00:56:05,640

couldn't they just alter how they design

1340

00:56:09,830 --> 00:56:07,830

buildings I think okay all the way they

1341

00:56:12,290 --> 00:56:09,840

did they could but I think the problem

1342

00:56:14,660 --> 00:56:12,300

there is like it's similar with computer

1343

00:56:18,410 --> 00:56:14,670

programming if there's a thing called a

1344

00:56:20,540 --> 00:56:18,420

zero day exploit where if someone finds

1345

00:56:23,470 --> 00:56:20,550

a bug in some software and then they

1346

00:56:25,970 --> 00:56:23,480

release the information about the bug

1347

00:56:28,790 --> 00:56:25,980

hackers will get that information and on

1348

00:56:30,590 --> 00:56:28,800

the first day the zero day they will be

1349

00:56:32,030 --> 00:56:30,600

able to create an exploit and hack into

1350

00:56:35,660 --> 00:56:32,040

everybody's systems because it takes a

1351

00:56:37,609 --> 00:56:35,670

long time for people to patch all their

1352

00:56:39,020 --> 00:56:37,619

systems when they're all different you

1353

00:56:40,220 --> 00:56:39,030

know it's a lot quicker than creating

1354

00:56:42,560 --> 00:56:40,230

new buildings or retrofitting buildings

1355

00:56:44,480 --> 00:56:42,570

but you can't just say oh yeah we've

1356

00:56:46,849 --> 00:56:44,490

discovered that if you just plant one

1357

00:56:48,590 --> 00:56:46,859

explosive at a certain column that it

1358

00:56:50,930 --> 00:56:48,600

will destroy pretty much like any

1359

00:56:52,460 --> 00:56:50,940

building of this type and just tell

1360

00:56:54,620 --> 00:56:52,470

everybody that and then say well you all

1361

00:56:57,290 --> 00:56:54,630

got to go and go and fix this there now

1362

00:56:59,510 --> 00:56:57,300

you wouldn't do that publicly if it was

1363

00:57:01,190 --> 00:56:59,520

such an issue then you would went into a

1364

00:57:03,109 --> 00:57:01,200

very privately and don't get it to get

1365

00:57:04,940 --> 00:57:03,119

taken care of I personally don't think

1366

00:57:06,890 --> 00:57:04,950

that they really had a very good case

1367

00:57:10,700 --> 00:57:06,900

for keeping the data private I think it

1368

00:57:11,870 --> 00:57:10,710

was just basically they they just chose

1369

00:57:13,430 --> 00:57:11,880

the default option from their

1370

00:57:16,099 --> 00:57:13,440

perspective that someone said well maybe

1371

00:57:17,210 --> 00:57:16,109

there is some kind of problem with with

1372

00:57:18,710 --> 00:57:17,220

this maybe there's some national

1373

00:57:21,020 --> 00:57:18,720

security issue so we shouldn't release

1374

00:57:23,450 --> 00:57:21,030

it and once once that thing became

1375

00:57:25,000 --> 00:57:23,460

obsessed then they just didn't there

1376

00:57:31,310 --> 00:57:25,010

was no way it was going to change

1377

00:57:33,410 --> 00:57:31,320

because there's no incentive that could

1378

00:57:35,270 --> 00:57:33,420

have been a case of just bureaucracy and

1379

00:57:37,609 --> 00:57:35,280

incompetence over there and all greedy

1380

00:57:39,530 --> 00:57:37,619

that that could have been you and which

1381

00:57:41,089 --> 00:57:39,540

and that's the thing though with a lot

1382

00:57:45,089 --> 00:57:41,099

of these things when it comes to

1383

00:57:46,740 --> 00:57:45,099

regarding incompetency versus conspiracy

1384

00:57:48,750 --> 00:57:46,750

I mean either way we talk about it's

1385

00:57:53,700 --> 00:57:48,760

just speculation from your stance or my

1386

00:57:54,359 --> 00:57:53,710

stance so yeah I agree with that looking

1387

00:57:56,370 --> 00:57:54,369

at the facts

1388

00:57:57,510 --> 00:57:56,380

but going back to our saying earlier

1389

00:57:59,579 --> 00:57:57,520

people have been looking at the facts

1390

00:58:01,589 --> 00:57:59,589

for 18 years now you made a point

1391

00:58:03,000 --> 00:58:01,599

earlier you feel that you the collapse

1392

00:58:05,790 --> 00:58:03,010

of the building breaks the laws of

1393

00:58:07,079 --> 00:58:05,800

physics if the official explanation is

1394

00:58:09,329 --> 00:58:07,089

correct - you think it breaks the laws

1395

00:58:11,760 --> 00:58:09,339

of physics because of the Newton's laws

1396

00:58:13,829 --> 00:58:11,770

of motion and path of least resistance

1397

00:58:15,270 --> 00:58:13,839

and things like that and they seem

1398

00:58:18,000 --> 00:58:15,280

fairly straightforward to you you've got

1399

00:58:21,720 --> 00:58:18,010

like you know school education in

1400

00:58:23,130 --> 00:58:21,730

physics but if it's been 18 years and

1401

00:58:25,290 --> 00:58:23,140

we've all been looking at the same

1402

00:58:29,190 --> 00:58:25,300

videos and things of the the collapses

1403

00:58:30,990 --> 00:58:29,200

of the buildings why hasn't that become

1404

00:58:34,530 --> 00:58:31,000

accepted truth I mean there's there's

1405

00:58:37,140 --> 00:58:34,540

literally millions tens of millions of

1406

00:58:39,450 --> 00:58:37,150

people who have your level of

1407

00:58:40,829 --> 00:58:39,460

understanding of physics or better yeah

1408

00:58:42,359 --> 00:58:40,839

there's probably right now like a

1409

00:58:44,370 --> 00:58:42,369

hundred thousand students around the

1410

00:58:45,960 --> 00:58:44,380

world who are studying physics and who

1411

00:58:48,030 --> 00:58:45,970

know physics better than you and I do

1412

00:58:49,740 --> 00:58:48,040

and they should be able to figure this

1413

00:58:51,599 --> 00:58:49,750

out hundreds of thousands of people

1414

00:58:53,819 --> 00:58:51,609

millions of people in the professional

1415

00:58:56,809 --> 00:58:53,829

sphere tens of millions of people not

1416

00:59:00,540 --> 00:58:56,819

just in this country in other countries

1417

00:59:01,770 --> 00:59:00,550

like like I said it's just mainly most

1418

00:59:03,540 --> 00:59:01,780

people just don't have the interest to

1419

00:59:06,329 --> 00:59:03,550

look in the subject or they they don't

1420

00:59:07,920 --> 00:59:06,339

have the second thought did think to

1421

00:59:09,990 --> 00:59:07,930

look into it and that's that's just it I

1422

00:59:12,089 --> 00:59:10,000

don't think there's some joint like

1423

00:59:15,660 --> 00:59:12,099

there is at some point like when it

1424

00:59:17,099 --> 00:59:15,670

comes to propaganda and PR and psyops

1425

00:59:19,920 --> 00:59:17,109

like there is some kind of an effort

1426

00:59:22,650 --> 00:59:19,930

well no and I'm not talking about no I

1427

00:59:26,640 --> 00:59:22,660

love and talk about any any kind of

1428

00:59:29,099 --> 00:59:26,650

world event we know that from Chomsky's

1429

00:59:31,410 --> 00:59:29,109

propaganda model how the news worlds the

1430

00:59:34,470 --> 00:59:31,420

five propaganda filters through flack

1431

00:59:36,839 --> 00:59:34,480

advertisers and all that baha media at

1432

00:59:40,290 --> 00:59:36,849

least corporate media is on through

1433

00:59:43,020 --> 00:59:40,300

their shareholders advertisers there's

1434

00:59:44,520 --> 00:59:43,030

all wealth companies like say the whole

1435

00:59:45,780 --> 00:59:44,530

world is brain brainwash like all the

1436

00:59:47,700 --> 00:59:45,790

people in China are being brainwashed

1437

00:59:52,589 --> 00:59:47,710

all the people other than

1438

00:59:54,359 --> 00:59:52,599

Japan Korea Africa South America that's

1439

00:59:56,670 --> 00:59:54,369

that's actually a good point because

1440

00:59:58,680 --> 00:59:56,680

Japan well there was a congressman a few

1441

01:00:00,329 --> 00:59:58,690

years ago who brought it up in Japanese

1442

01:00:01,670 --> 01:00:00,339

Parliament that they need to look into

1443

01:00:04,050 --> 01:00:01,680

the same thing happened in Amsterdam

1444

01:00:06,060 --> 01:00:04,060

people have over the world looked into

1445

01:00:08,970 --> 01:00:06,070

it just that sometimes this news isn't

1446

01:00:11,940 --> 01:00:08,980

top paid front page stuff top of the

1447

01:00:12,329 --> 01:00:11,950

YouTube buzz suggested feed if you get

1448

01:00:15,420 --> 01:00:12,339

what I mean

1449

01:00:17,250 --> 01:00:15,430

but love these things just aren't just

1450

01:00:19,859 --> 01:00:17,260

aren't that accessible so you're a

1451
01:00:22,079 --> 01:00:19,869
specific example though of the the laws

1452
01:00:23,849 --> 01:00:22,089
of physics type saying yeah you're

1453
01:00:27,390 --> 01:00:23,859
sticking by there's as being actual

1454
01:00:28,589 --> 01:00:27,400
evidence and yeah yeah you like I said

1455
01:00:29,849 --> 01:00:28,599
there's tens of millions of people and

1456
01:00:32,250 --> 01:00:29,859
you think they've all just somehow been

1457
01:00:35,640 --> 01:00:32,260
brainwashed into not caring about it and

1458
01:00:37,140 --> 01:00:35,650
so they don't see if I can figure that

1459
01:00:38,579 --> 01:00:37,150
out if I could figure that out that

1460
01:00:41,010 --> 01:00:38,589
would be the most amazing thing ever I

1461
01:00:43,020 --> 01:00:41,020
would tell everybody about it that's a

1462
01:00:45,180 --> 01:00:43,030
strong argument I'm not saying that

1463
01:00:47,250 --> 01:00:45,190

tons of millions of millions people been

1464

01:00:49,710 --> 01:00:47,260

brainwashed to believe that the wrong

1465

01:00:51,000 --> 01:00:49,720

laws of physics have taken place I'm

1466

01:00:53,880 --> 01:00:51,010

saying tens of tens of billions people

1467

01:00:55,740 --> 01:00:53,890

haven't even had thought of whether it

1468

01:00:58,079 --> 01:00:55,750

has or not they haven't decided whether

1469

01:00:59,780 --> 01:00:58,089

whether it falls laws of physics law

1470

01:01:02,849 --> 01:00:59,790

they just haven't looked into it just

1471

01:01:04,589 --> 01:01:02,859

like I said it's it's it's it's it's

1472

01:01:07,920 --> 01:01:04,599

ignorance but it's not willful ignorance

1473

01:01:12,240 --> 01:01:07,930

it's just okay I like for example do you

1474

01:01:15,480 --> 01:01:12,250

know how to cure how to cure a cool

1475

01:01:19,859 --> 01:01:15,490

cobra bite venom poison do you ever look

1476

01:01:21,810 --> 01:01:19,869

it up no exactly

1477

01:01:23,130 --> 01:01:21,820

so white eat there's tens of millions of

1478

01:01:25,260 --> 01:01:23,140

people in the world who could

1479

01:01:28,109 --> 01:01:25,270

potentially get bitten by Cobras that

1480

01:01:29,550 --> 01:01:28,119

they don't know how to cure it is a very

1481

01:01:32,760 --> 01:01:29,560

different system looked into it because

1482

01:01:35,250 --> 01:01:32,770

the oh yes it is it is a different thing

1483

01:01:38,070 --> 01:01:35,260

but like on this on the topic of

1484

01:01:39,900 --> 01:01:38,080

subjects not everyone is interested in

1485

01:01:41,550 --> 01:01:39,910

the same in the same topics and that's

1486

01:01:43,410 --> 01:01:41,560

okay to me that everyone in the world

1487

01:01:46,109 --> 01:01:43,420

isn't concerned I love this it's not

1488

01:01:49,380 --> 01:01:46,119

about how many people are on to a topic

1489

01:01:51,060 --> 01:01:49,390

it make it's it's BA the actual content

1490

01:01:52,800 --> 01:01:51,070

of the it isn't about a popularity

1491

01:01:54,960 --> 01:01:52,810

constants about oh so many people don't

1492

01:01:56,940 --> 01:01:54,970

know this is happening that must mean it

1493

01:01:59,950 --> 01:01:56,950

isn't true that isn't true was it when

1494

01:02:01,990 --> 01:01:59,960

back when whatever

1495

01:02:04,210 --> 01:02:02,000

his assistant was that suggested that

1496

01:02:06,000 --> 01:02:04,220

light actually bounces into eyes he was

1497

01:02:08,140 --> 01:02:06,010

considered crazy for so long for

1498

01:02:10,180 --> 01:02:08,150

suggesting that light actually bounced

1499

01:02:11,529 --> 01:02:10,190

into our eyes from other objects when

1500

01:02:13,870 --> 01:02:11,539

everyone was thinking that oh like a

1501
01:02:16,059 --> 01:02:13,880
shot out from our eyes and that floor

1502
01:02:18,250 --> 01:02:16,069
despite the fact that it's only people

1503
01:02:20,170 --> 01:02:18,260
who could potentially learn the physics

1504
01:02:22,359 --> 01:02:20,180
that he learned in order to figure it

1505
01:02:24,519 --> 01:02:22,369
out they didn't because either they

1506
01:02:26,319 --> 01:02:24,529
didn't have the information they didn't

1507
01:02:27,670 --> 01:02:26,329
have the NOC they didn't have the access

1508
01:02:29,470 --> 01:02:27,680
information or they just weren't

1509
01:02:31,930 --> 01:02:29,480
interested find it out because you never

1510
01:02:33,220 --> 01:02:31,940
thought you and that is an indicative of

1511
01:02:35,890 --> 01:02:33,230
brainwashing or anything that's just

1512
01:02:38,620 --> 01:02:35,900
basic human ignorance and that's not

1513
01:02:40,539 --> 01:02:38,630

their fault that you are talking about

1514

01:02:42,309 --> 01:02:40,549

the stuff you're talking about isn't

1515

01:02:46,329 --> 01:02:42,319

really like you know a paradigm shift to

1516

01:02:47,890 --> 01:02:46,339

use a phrase like it's not you're saying

1517

01:02:49,779 --> 01:02:47,900

it's very basic physics that we're

1518

01:02:51,490 --> 01:02:49,789

talking about here like is simply

1519

01:02:53,170 --> 01:02:51,500

Newton's laws of the ocean that prove

1520

01:02:55,059 --> 01:02:53,180

that the building could not have

1521

01:02:58,569 --> 01:02:55,069

collapsed the way it did without

1522

01:03:01,720 --> 01:02:58,579

explosives and surely someone put out

1523

01:03:09,039 --> 01:03:01,730

like does that prove that it was

1524

01:03:12,279 --> 01:03:09,049

controlled demolition it just all it

1525

01:03:14,170 --> 01:03:12,289

does it says that the official in this

1526

01:03:15,789 --> 01:03:14,180
report has inconsistencies and

1527

01:03:18,609 --> 01:03:15,799
contradictions in it that merits to

1528

01:03:22,089 --> 01:03:18,619
reopening off an investigation that's a

1529

01:03:23,349 --> 01:03:22,099
neutral private third party that isn't

1530

01:03:25,930 --> 01:03:23,359
funded by the government

1531

01:03:27,400 --> 01:03:25,940
how potential conflicts of interest so

1532

01:03:28,930 --> 01:03:27,410
do you think that there's a way the

1533

01:03:31,359 --> 01:03:28,940
building's could have collapsed without

1534

01:03:36,430 --> 01:03:31,369
explosives that you're just not aware of

1535

01:03:38,559 --> 01:03:36,440
I mean it's possible but you think it's

1536

01:03:39,940 --> 01:03:38,569
it's also possible the bullets could

1537

01:03:41,650 --> 01:03:39,950
have come down due to control

1538

01:03:43,720 --> 01:03:41,660

demolitions despite missed having not

1539

01:03:45,880 --> 01:03:43,730

testable in so you don't you don't think

1540

01:03:47,529 --> 01:03:45,890

you have proof of controlled demolition

1541

01:03:51,970 --> 01:03:47,539

you just think whether there's

1542

01:03:54,039 --> 01:03:51,980

indications or questions look like

1543

01:03:57,010 --> 01:03:54,049

that's that I think it's firstly

1544

01:04:01,210 --> 01:03:57,020

likeness hadn't tested for explosives

1545

01:04:03,789 --> 01:04:01,220

which say t2 and there is someone else

1546

01:04:06,339 --> 01:04:03,799

it's just that that control demolition

1547

01:04:07,390 --> 01:04:06,349

should have been tested for and that's

1548

01:04:09,880 --> 01:04:07,400

all I'm saying I'm not saying that

1549

01:04:11,589 --> 01:04:09,890

there's definitive proof that it was

1550

01:04:12,970 --> 01:04:11,599

control demolition I'm not an

1551
01:04:14,740 --> 01:04:12,980
investigator

1552
01:04:16,900 --> 01:04:14,750
not going to speculate as to what

1553
01:04:19,750 --> 01:04:16,910
actually happened or I'm just asking

1554
01:04:21,820 --> 01:04:19,760
questions and these are my doubts and I

1555
01:04:24,040 --> 01:04:21,830
think another investigation needs to be

1556
01:04:26,349 --> 01:04:24,050
done I can't say exactly what happened

1557
01:04:29,109 --> 01:04:26,359
I'm not commissioned I don't know all

1558
01:04:30,640 --> 01:04:29,119
the answers do you think another

1559
01:04:35,650 --> 01:04:30,650
investigation will be done

1560
01:04:38,140 --> 01:04:35,660
I honestly I'm doubtful of that I think

1561
01:04:40,900 --> 01:04:38,150
unless there is a concerted effort

1562
01:04:42,940 --> 01:04:40,910
worldwide to actually get another

1563
01:04:47,470 --> 01:04:42,950

investigation I don't think that will be

1564

01:04:51,280 --> 01:04:47,480

you know and I do agree that like I said

1565

01:04:53,500 --> 01:04:51,290

the 9/11 truth movement hasn't made many

1566

01:04:56,700 --> 01:04:53,510

great strides and that's partially due

1567

01:05:00,460 --> 01:04:56,710

just due to the tribute the topic mainly

1568

01:05:01,900 --> 01:05:00,470

and that's not some of it is some of its

1569

01:05:04,630 --> 01:05:01,910

intentional some of it is just human

1570

01:05:07,630 --> 01:05:04,640

nature so if it is just ignorance and

1571

01:05:10,120 --> 01:05:07,640

like I said that isn't a fault

1572

01:05:13,270 --> 01:05:10,130

and there's just a lot a lot of stories

1573

01:05:16,000 --> 01:05:13,280

that just don't get big despite actually

1574

01:05:17,680 --> 01:05:16,010

being of value to certain people that

1575

01:05:19,930 --> 01:05:17,690

just happens that's how the media is

1576

01:05:22,060 --> 01:05:19,940

some people of different interests and

1577

01:05:24,310 --> 01:05:22,070

can always satisfy everyone I mean I'm

1578

01:05:26,710 --> 01:05:24,320

18 years isn't even that long I mean

1579

01:05:29,830 --> 01:05:26,720

look at proven conspiracies in history

1580

01:05:31,240 --> 01:05:29,840

that I've been Declassified such as

1581

01:05:34,030 --> 01:05:31,250

operation northwards of the Tuskegee

1582

01:05:36,820 --> 01:05:34,040

syphilis experiment or operation

1583

01:05:38,650 --> 01:05:36,830

Mockingbird or Operation Paperclip like

1584

01:05:40,570 --> 01:05:38,660

some of those took 40 years to come out

1585

01:05:41,680 --> 01:05:40,580

people have been speculating that Nazis

1586

01:05:43,960 --> 01:05:41,690

had come into the country under

1587

01:05:45,460 --> 01:05:43,970

Operation Paperclip for a while they

1588

01:05:48,099 --> 01:05:45,470

will consider loony and everyone's like

1589

01:05:50,170 --> 01:05:48,109

oh how comes no proof for that turns out

1590

01:05:52,270 --> 01:05:50,180

well like later for 40 50 years after

1591

01:05:56,050 --> 01:05:52,280

they did you finally declassify the

1592

01:06:00,220 --> 01:05:56,060

documents and then I gets reveal the

1593

01:06:01,330 --> 01:06:00,230

truth so 18 is in that kind of field

1594

01:06:03,400 --> 01:06:01,340

especially when it comes to the

1595

01:06:05,800 --> 01:06:03,410

classification of official conspiracies

1596

01:06:08,530 --> 01:06:05,810

18 years isn't that long half the time

1597

01:06:09,670 --> 01:06:08,540

at all mm-hmm but here like it's kind of

1598

01:06:11,710 --> 01:06:09,680

a different situation because we have

1599

01:06:13,150 --> 01:06:11,720

all the evidence more or less out in in

1600

01:06:15,310 --> 01:06:13,160

plain sight like especially with the

1601

01:06:16,510 --> 01:06:15,320

physics of things like you would say

1602

01:06:17,890 --> 01:06:16,520

like you can look at the building's

1603

01:06:19,810 --> 01:06:17,900

themselves you have all these architects

1604

01:06:21,280 --> 01:06:19,820

and engineers and they have these these

1605

01:06:23,200 --> 01:06:21,290

mission statements wrong position

1606

01:06:24,640 --> 01:06:23,210

statements where they say why they

1607

01:06:26,240 --> 01:06:24,650

believe and they say oh it was obvious

1608

01:06:28,450 --> 01:06:26,250

to me from day one that

1609

01:06:30,380 --> 01:06:28,460

buildings could not have collapsed and

1610

01:06:32,950 --> 01:06:30,390

so it's not really the same type of

1611

01:06:34,700 --> 01:06:32,960

thing is like people suspecting that

1612

01:06:36,410 --> 01:06:34,710

German scientists were brought over

1613

01:06:39,830 --> 01:06:36,420

after the war which obviously would have

1614

01:06:41,720 --> 01:06:39,840

been a secret operation and some of the

1615

01:06:43,280 --> 01:06:41,730

other stuff you mentioned yeah there was

1616

01:06:44,690 --> 01:06:43,290

conspiracy as Marissa there are

1617

01:06:46,010 --> 01:06:44,700

conspiracies and they got revealed later

1618

01:06:47,600 --> 01:06:46,020

but they weren't really conspiracy

1619

01:06:51,530 --> 01:06:47,610

theories in the same way that people

1620

01:06:54,260 --> 01:06:51,540

were speculating that you know Operation

1621

01:06:56,150 --> 01:06:54,270

Northwoods was a thing you know until it

1622

01:06:57,650 --> 01:06:56,160

actually came out I think in a FOIA

1623

01:07:00,920 --> 01:06:57,660

request Freedom of Information Act

1624

01:07:02,630 --> 01:07:00,930

request at some point so yeah I think

1625

01:07:04,280 --> 01:07:02,640

you know what an operation

1626

01:07:05,810 --> 01:07:04,290

mocking operation Mockingbird is

1627

01:07:07,840 --> 01:07:05,820

actually a good example of something

1628

01:07:09,680 --> 01:07:07,850

that was speculated for a long time

1629

01:07:11,960 --> 01:07:09,690

operation Mockingbird was the

1630

01:07:15,100 --> 01:07:11,970

infiltration of the CIA into various

1631

01:07:20,450 --> 01:07:15,110

media organizations during the nineteen

1632

01:07:21,980 --> 01:07:20,460

I either start of the 1920s or 1940s can

1633

01:07:24,680 --> 01:07:21,990

remember which which one of those years

1634

01:07:26,960 --> 01:07:24,690

but one of them and that went on for a

1635

01:07:28,850 --> 01:07:26,970

long time on up until it was revealed in

1636

01:07:32,000 --> 01:07:28,860

the Church Committee congressional

1637

01:07:33,650 --> 01:07:32,010

hearings where Allen Dulles the head of

1638

01:07:36,590 --> 01:07:33,660

the CIA at the time had to reveal things

1639

01:07:39,890 --> 01:07:36,600

about yeah they did have turned out that

1640

01:07:41,860 --> 01:07:39,900

they had what agents in about forty of

1641

01:07:44,960 --> 01:07:41,870

the biggest newspapers in America and

1642

01:07:46,730 --> 01:07:44,970

including the affiliates such as radio

1643

01:07:49,370 --> 01:07:46,740

station something like 2,000 radio

1644

01:07:51,200 --> 01:07:49,380

stations and all that and that was that

1645

01:07:53,150 --> 01:07:51,210

one thump like 30 to 40 years with the

1646

01:07:55,910 --> 01:07:53,160

whole McCarthyism rats here and so we

1647

01:07:58,820 --> 01:07:55,920

let us have that propaganda is a big

1648

01:08:00,230 --> 01:07:58,830

thing yeah you know that was something

1649

01:08:02,360 --> 01:08:00,240

I've actually got revealed though and

1650

01:08:03,680 --> 01:08:02,370

was you declared to be illegal and like

1651

01:08:08,660 --> 01:08:03,690

they say they don't do it anymore

1652

01:08:10,820 --> 01:08:08,670

yeah doing it there was the Tuskegee

1653

01:08:12,860 --> 01:08:10,830

syphilis experiment where all these

1654

01:08:14,450 --> 01:08:12,870

African Americans were getting sick with

1655

01:08:16,519 --> 01:08:14,460

syphilis obviously it was going to be

1656

01:08:17,870 --> 01:08:16,529

some speculation that or the

1657

01:08:19,940 --> 01:08:17,880

government's making us sick obviously

1658

01:08:21,140 --> 01:08:19,950

people are gonna make that conspiracy

1659

01:08:22,910 --> 01:08:21,150

theory up right because that's a

1660

01:08:25,099 --> 01:08:22,920

conspiracy theories go people think of

1661

01:08:26,809 --> 01:08:25,109

all things so there must've been someone

1662

01:08:30,309 --> 01:08:26,819

in the Tuskegee syphilis experiment who

1663

01:08:33,349 --> 01:08:30,319

are speculative they're making us sick

1664

01:08:35,090 --> 01:08:33,359

now yeah I see I see what you're saying

1665

01:08:37,039 --> 01:08:35,100

is that you'd see no reason to trust the

1666

01:08:38,740 --> 01:08:37,049

government people in power because they

1667

01:08:42,580 --> 01:08:38,750

have done things in the past

1668

01:08:44,440 --> 01:08:42,590

that were bad I'm singing I'm saying

1669

01:08:45,790 --> 01:08:44,450

that's good reason to be wary of them

1670

01:08:47,200 --> 01:08:45,800

I'm not saying not to cross them I

1671

01:08:49,330 --> 01:08:47,210

actually trust the government with a lot

1672

01:08:51,370 --> 01:08:49,340

of things funnily enough for a friend of

1673

01:08:53,980 --> 01:08:51,380

mine is very anti-government kind of

1674

01:08:56,500 --> 01:08:53,990

anarchist I'm like we kind of need the

1675

01:08:58,330 --> 01:08:56,510

government like I see it as a vital part

1676

01:09:00,190 --> 01:08:58,340

of civil discourse and democracy like

1677

01:09:01,630 --> 01:09:00,200

government isn't always bad I trust a

1678

01:09:03,910 --> 01:09:01,640

lot of government officials I actually

1679

01:09:06,220 --> 01:09:03,920

would like to vote I just think that

1680

01:09:08,950 --> 01:09:06,230

there are dishonest people ya know are

1681

01:09:10,270 --> 01:09:08,960

certain stories honest and just like

1682

01:09:12,310 --> 01:09:10,280

just like anything I don't think the old

1683

01:09:14,260 --> 01:09:12,320

thing is like one giant big conspiracy

1684

01:09:16,390 --> 01:09:14,270

like that's that's the one thing that I

1685

01:09:20,020 --> 01:09:16,400

don't appreciate is about a lot of

1686

01:09:23,050 --> 01:09:20,030

people who painted the Banco claim to be

1687

01:09:25,600 --> 01:09:23,060

skeptical is that they kind of strawman

1688

01:09:28,180 --> 01:09:25,610

it and twisted as or just this big giant

1689

01:09:31,090 --> 01:09:28,190

conspiracy one no conspiracies do happen

1690

01:09:32,560 --> 01:09:31,100

small ones do happen and sometimes they

1691

01:09:34,360 --> 01:09:32,570

can be a little bit more tightly tightly

1692

01:09:35,500 --> 01:09:34,370

knit and you could imagine especially

1693

01:09:38,050 --> 01:09:35,510

like say if this was a military

1694

01:09:39,910 --> 01:09:38,060

operation you're gonna have people with

1695

01:09:41,140 --> 01:09:39,920

the highest class security clearances

1696

01:09:43,420 --> 01:09:41,150

people the highest levels of

1697

01:09:45,040 --> 01:09:43,430

confidentiality it's really not that

1698

01:09:49,600 --> 01:09:45,050

hard to imagine that it could be kept a

1699

01:09:51,520 --> 01:09:49,610

secret when you have literal procedures

1700

01:09:52,140 --> 01:09:51,530

or a standard operating operating

1701

01:09:56,110 --> 01:09:52,150

procedure

1702

01:09:57,100 --> 01:09:56,120

keep secrets yeah now this is obviously

1703

01:09:58,630 --> 01:09:57,110

these are arguments that have been made

1704

01:10:00,580 --> 01:09:58,640

before that you know it could be

1705

01:10:03,220 --> 01:10:00,590

compartmentalized but you know then you

1706

01:10:06,400 --> 01:10:03,230

look at what would be involved in doing

1707

01:10:08,650 --> 01:10:06,410

that yeah the people the FBI basically

1708

01:10:12,190 --> 01:10:08,660

put at least half of their personnel

1709

01:10:14,140 --> 01:10:12,200

into investigating 9/11 so there was

1710

01:10:16,510 --> 01:10:14,150

somehow to have to prevent you know the

1711

01:10:19,510 --> 01:10:16,520

entire FBI machine over several years

1712

01:10:23,260 --> 01:10:19,520

from dis growing every any evidence they

1713

01:10:25,450 --> 01:10:23,270

have ironworkers and firemen on site for

1714

01:10:27,040 --> 01:10:25,460

a like a year sifting through the

1715

01:10:28,780 --> 01:10:27,050

evidence looking for remains of people

1716

01:10:31,540 --> 01:10:28,790

so they'd have to make sure that the no

1717

01:10:32,950 --> 01:10:31,550

firemen ever found any evidence and if

1718

01:10:35,230 --> 01:10:32,960

he did find some evidence he would be

1719

01:10:37,960 --> 01:10:35,240

have to be dealt with it's not quite as

1720

01:10:40,630 --> 01:10:37,970

easy as I think it's you might think it

1721

01:10:42,490 --> 01:10:40,640

is to cover-up controlled demolition

1722

01:10:45,630 --> 01:10:42,500

yeah sure you could say that they

1723

01:10:49,210 --> 01:10:45,640

arranged for the plane supply yeah

1724

01:10:50,830 --> 01:10:49,220

that's uh you just made a very bad

1725

01:10:53,500 --> 01:10:50,840

hypothetical

1726

01:10:55,480 --> 01:10:53,510

scenario there were an FBI agent without

1727

01:10:58,020 --> 01:10:55,490

the silence of a firefighter at ground

1728

01:11:00,310 --> 01:10:58,030

zero for evidence that they found

1729

01:11:02,250 --> 01:11:00,320

firefighters roll all over and it was

1730

01:11:06,340 --> 01:11:02,260

like as you say it was a hectic

1731

01:11:08,650 --> 01:11:06,350

extraordinary day I I can't imagine that

1732

01:11:10,120 --> 01:11:08,660

the firefighters would be busy like

1733

01:11:11,770 --> 01:11:10,130

their main priority that day would be

1734

01:11:14,370 --> 01:11:11,780

saying no no that's not that day Oh

1735

01:11:22,150 --> 01:11:14,380

over the next over the next year

1736

01:11:32,230 --> 01:11:22,160

firefighters were on site every day my

1737

01:11:33,970 --> 01:11:32,240

mistake we do know a lot of the evidence

1738

01:11:36,990 --> 01:11:33,980

from Ground Zero was shipped off to

1739

01:11:39,280 --> 01:11:37,000

China almost immediately and destroyed

1740

01:11:41,650 --> 01:11:39,290

well I think almost immediately is a bit

1741

01:11:45,370 --> 01:11:41,660

of a misnomer because it wasn't because

1742

01:11:48,580 --> 01:11:45,380

the the last column in World Trade

1743

01:11:50,650 --> 01:11:48,590

Center was standing like a camera it was

1744

01:11:52,030 --> 01:11:50,660

like at least six months later and so

1745

01:11:55,300 --> 01:11:52,040

you basically had hundreds of firemen

1746

01:12:01,630 --> 01:11:55,310

hundreds of workers sifting through the

1747

01:12:03,220 --> 01:12:01,640

wreckage do you expect firefighters to

1748

01:12:05,920 --> 01:12:03,230

see with the naked eye that would be

1749

01:12:09,160 --> 01:12:05,930

that incriminating as I said they did

1750

01:12:11,770 --> 01:12:09,170

see molten metal they did claim to hear

1751

01:12:13,630 --> 01:12:11,780

explosions so we do know that these

1752

01:12:15,880 --> 01:12:13,640

people who have any testimonies are

1753

01:12:20,140 --> 01:12:15,890

making testimonies there's a lot of them

1754

01:12:21,280 --> 01:12:20,150

they never found anything so so the case

1755

01:12:23,440 --> 01:12:21,290

that you make that they would all be

1756

01:12:25,120 --> 01:12:23,450

silent somewhat not like that's not the

1757

01:12:27,340 --> 01:12:25,130

case because the not being stylists you

1758

01:12:29,590 --> 01:12:27,350

have whistleblowers in all fuels by that

1759

01:12:31,120 --> 01:12:29,600

logic if everyone was to be silenced we

1760

01:12:33,520 --> 01:12:31,130

wouldn't have any whistleblowers but

1761

01:12:34,900 --> 01:12:33,530

nobody found anything in the debris

1762

01:12:35,530 --> 01:12:34,910

there was indicative of a controlled

1763

01:12:38,080 --> 01:12:35,540

demolition

1764

01:12:39,520 --> 01:12:38,090

no snow firemen came forward no FBI

1765

01:12:45,160 --> 01:12:39,530

agent like sifting through the wreckage

1766

01:12:48,010 --> 01:12:45,170

Fresh Kills came forward what would be

1767

01:12:49,390 --> 01:12:48,020

able to see with the naked eye well you

1768

01:12:52,390 --> 01:12:49,400

think that everything was just turned to

1769

01:12:54,610 --> 01:12:52,400

dust that was all every single chart

1770

01:12:56,500 --> 01:12:54,620

everything explosive charge went off it

1771

01:12:58,960 --> 01:12:56,510

would obviously it can it didn't go off

1772

01:13:00,160 --> 01:12:58,970

if if NIST they're not necessarily a 911

1773

01:13:03,310 --> 01:13:00,170

it's to believe because they say there's

1774

01:13:04,600 --> 01:13:03,320

this red dust throughout all the dust

1775

01:13:07,910 --> 01:13:04,610

which is indicative of

1776

01:13:15,080 --> 01:13:07,920

unreactive thermite so some significant

1777

01:13:16,940 --> 01:13:15,090

portion of the thermite I don't wanna

1778

01:13:18,740 --> 01:13:16,950

get to that because that's a topic I'm

1779

01:13:22,880 --> 01:13:18,750

not too sure about so I only want to

1780

01:13:29,210 --> 01:13:22,890

talk about things I do know so well

1781

01:13:31,550 --> 01:13:29,220

definitely understand what would be see

1782

01:13:33,380 --> 01:13:31,560

at Ground Zero with the naked eye that

1783

01:13:34,760 --> 01:13:33,390

would be indicative that would that

1784

01:13:42,610 --> 01:13:34,770

could look any different from a regular

1785

01:13:49,010 --> 01:13:45,740

he would see cut columns cons that had

1786

01:13:51,320 --> 01:13:49,020

been deliberately cut and if you read

1787

01:13:54,350 --> 01:13:51,330

the route it was a good book I can't

1788

01:13:57,050 --> 01:13:54,360

risk all right now but it's get called

1789

01:13:59,390 --> 01:13:57,060

vicious I think and he talks about how

1790

01:14:01,550 --> 01:13:59,400

he looked at all the columns on 9/11 and

1791

01:14:02,960 --> 01:14:01,560

he saw that they came apart of the welds

1792

01:14:05,930 --> 01:14:02,970

they snapped up the world's basically

1793

01:14:07,040 --> 01:14:05,940

they weren't cut by explosives there was

1794

01:14:09,110 --> 01:14:07,050

nothing to indicate that they're being

1795

01:14:10,520 --> 01:14:09,120

cut by explosives and you can see this

1796

01:14:12,320 --> 01:14:10,530

in the photos yourself you can look at

1797

01:14:14,840 --> 01:14:12,330

the photos you know from you know the

1798

01:14:16,160 --> 01:14:14,850

day even the in the next few days you

1799

01:14:18,530 --> 01:14:16,170

can see the ends of the columns they're

1800

01:14:21,080 --> 01:14:18,540

just they're just snapped apart there

1801

01:14:23,450 --> 01:14:21,090

wasn't there a need for explosives so

1802

01:14:25,390 --> 01:14:23,460

you respect to see if explosives were

1803

01:14:28,780 --> 01:14:25,400

used they don't just push things around

1804

01:14:31,130 --> 01:14:28,790

they break things in a certain way and

1805

01:14:33,020 --> 01:14:31,140

you would be able to see that damage and

1806

01:14:35,330 --> 01:14:33,030

there was lots of iron workers there who

1807

01:14:36,950 --> 01:14:35,340

would understand how iron works there

1808

01:14:40,100 --> 01:14:36,960

are people there who were like cutting

1809

01:14:42,020 --> 01:14:40,110

up the columns and pulling them out of

1810

01:14:56,350 --> 01:14:42,030

the ground loading them onto trucks they

1811

01:15:02,810 --> 01:15:00,020

now there I'd be happy to see it tested

1812

01:15:06,680 --> 01:15:02,820

me from iron workers because what I've

1813

01:15:08,660 --> 01:15:06,690

seen is yeah obviously on the day like

1814

01:15:10,970 --> 01:15:08,670

there was loud bangs because there was a

1815

01:15:15,140 --> 01:15:10,980

large building falling down most

1816

01:15:18,169 --> 01:15:15,150

collapsing there's videos of fine

1817

01:15:20,689 --> 01:15:18,179

workers with steel columns from mainland

1818

01:15:23,169 --> 01:15:20,699

bent in a perfect horror horseshoe shape

1819

01:15:26,449 --> 01:15:23,179

with the cut columns that you described

1820

01:15:28,129 --> 01:15:26,459

and now by the way I have seen that

1821

01:15:29,600 --> 01:15:28,139

people have tried to pass off some of

1822

01:15:31,669 --> 01:15:29,610

the columns as being cut but they're

1823

01:15:34,219 --> 01:15:31,679

actually done after the welders that

1824

01:15:35,540 --> 01:15:34,229

[h__h] them in orders clearly did three so

1825

01:15:37,790 --> 01:15:35,550

I do know that and that's why I like to

1826

01:15:40,819 --> 01:15:37,800

point out work on your site that does

1827

01:15:44,679 --> 01:15:40,829

debunk things that are actually bunk

1828

01:15:47,299 --> 01:15:44,689

yeah so Miss Kitty so things like that

1829

01:15:49,129 --> 01:15:47,309

things like that do make sense and all

1830

01:15:51,350 --> 01:15:49,139

I'm saying is that there or there are

1831

01:15:57,709 --> 01:15:51,360

some sources like I said so yeah that

1832

01:15:59,149 --> 01:15:57,719

there are these away no I'm saying is

1833

01:16:05,540 --> 01:15:59,159

that they probably just weren't heard

1834

01:16:08,390 --> 01:16:05,550

about do you know about a think about me

1835

01:16:10,339 --> 01:16:08,400

but basically doc do you know every

1836

01:16:12,319 --> 01:16:10,349

whistleblower there is to know yeah I

1837

01:16:17,149 --> 01:16:12,329

know actually I don't really follow the

1838

01:16:19,759 --> 01:16:17,159

Bissell bros that much yeah there so

1839

01:16:21,410 --> 01:16:19,769

yeah well I would say that following

1840

01:16:25,429 --> 01:16:21,420

whistleblowers is something you should

1841

01:16:27,109 --> 01:16:25,439

consider doing in your noting is that

1842

01:16:29,109 --> 01:16:27,119

when I look into one of them they don't

1843

01:16:31,609 --> 01:16:29,119

generally seem to be that credible and

1844

01:16:33,259 --> 01:16:31,619

their explanations are confusing they

1845

01:16:36,020 --> 01:16:33,269

don't really fit the timeline there was

1846

01:16:37,160 --> 01:16:36,030

like the the guy who thought there was

1847

01:16:40,120 --> 01:16:37,170

bombs in the basement

1848

01:16:43,779 --> 01:16:40,130

he was the caretaker guy last minute and

1849

01:16:48,109 --> 01:16:43,789

then there was the african-american guy

1850

01:16:50,569 --> 01:16:48,119

who was in World Trade Center seven and

1851

01:16:52,819 --> 01:16:50,579

but yeah they that that guy he gives an

1852

01:16:54,709 --> 01:16:52,829

account of coming down into the the

1853

01:16:57,140 --> 01:16:54,719

lobby and stepping over bodies in the

1854

01:17:00,080 --> 01:16:57,150

lobby and the weren't any bodies in the

1855

01:17:02,000 --> 01:17:00,090

lobby and yet he's being lauded as being

1856

01:17:03,500 --> 01:17:02,010

this this whistleblower this guy who

1857

01:17:06,199 --> 01:17:03,510

explains that there were explosions

1858

01:17:08,270 --> 01:17:06,209

before World Trade Center two collapsed

1859

01:17:09,949 --> 01:17:08,280

and people point to him and say look

1860

01:17:12,770 --> 01:17:09,959

this is this is evidence but you know he

1861

01:17:15,350 --> 01:17:12,780

got it wrong but people still point to

1862

01:17:16,310 --> 01:17:15,360

him and the other guy they it's a

1863

01:17:18,739 --> 01:17:16,320

similar type of thing there were

1864

01:17:20,330 --> 01:17:18,749

explosions in the lobby he says they

1865

01:17:21,739 --> 01:17:20,340

were before the planes hit like

1866

01:17:25,069 --> 01:17:21,749

everybody else says that they were after

1867

01:17:26,299 --> 01:17:25,079

the planes hit and so it doesn't make

1868

01:17:28,250 --> 01:17:26,309

any sense that there would be explosions

1869

01:17:31,640 --> 01:17:28,260

in the lobby before the planes hit

1870

01:17:32,060 --> 01:17:31,650

anyway and it would be very very obvious

1871

01:17:33,410 --> 01:17:32,070

it

1872

01:17:43,140 --> 01:17:33,420

have actually happened and lots of

1873

01:17:43,150 --> 01:17:46,419

[Music]

1874

01:17:56,959 --> 01:17:53,149

with noir blowers like William Binney

1875

01:18:01,220 --> 01:17:56,969

former NSA technical director he is also

1876

01:18:03,109 --> 01:18:01,230

a mathematician and he basically is in

1877

01:18:07,010 --> 01:18:03,119

disagreement with this finding of the

1878

01:18:09,350 --> 01:18:07,020

collapse of the buildings yeah and you

1879

01:18:12,290 --> 01:18:09,360

can always find somebody who will take a

1880

01:18:13,370 --> 01:18:12,300

certain position but you know unless

1881

01:18:16,939 --> 01:18:13,380

they can actually come up with some

1882

01:18:18,050 --> 01:18:16,949

different evidence or a good analysis of

1883

01:18:19,970 --> 01:18:18,060

that evidence they're really just

1884

01:18:22,669 --> 01:18:19,980

working the same with the same set of

1885

01:18:24,109 --> 01:18:22,679

data as we are like the architects and

1886

01:18:25,430 --> 01:18:24,119

engineers if you read what they say in

1887

01:18:26,990 --> 01:18:25,440

their position statements they're really

1888

01:18:30,470 --> 01:18:27,000

no different just your average person

1889

01:18:32,930 --> 01:18:30,480

who's you know watched a few videos and

1890

01:18:39,709 --> 01:18:32,940

just come to the conclusion is that they

1891

01:18:41,810 --> 01:18:39,719

happen to be the architects no it's it's

1892

01:18:43,100 --> 01:18:41,820

I've read a lot of these position

1893

01:18:45,500 --> 01:18:43,110

statements and I don't encourage other

1894

01:18:47,120 --> 01:18:45,510

people to do it too and they are all

1895

01:18:48,950 --> 01:18:47,130

very similar they're all just like oh I

1896

01:18:51,620 --> 01:18:48,960

saw it and I immediately knew that it

1897

01:18:54,140 --> 01:18:51,630

was impossible it's like they have very

1898

01:18:56,030 --> 01:18:54,150

little data or they say they later

1899

01:18:57,260 --> 01:18:56,040

source on a video like they saw a loose

1900

01:18:58,939 --> 01:18:57,270

change and then they were convinced

1901

01:19:00,290 --> 01:18:58,949

because they watch a loose change they

1902

01:19:04,310 --> 01:19:00,300

the architects and engineers seem to

1903

01:19:06,830 --> 01:19:04,320

have very similar routes into root into

1904

01:19:09,800 --> 01:19:06,840

belief that regular people have like

1905

01:19:11,330 --> 01:19:09,810

they will watch a video or they had an

1906

01:19:12,560 --> 01:19:11,340

immediate response when they saw the

1907

01:19:14,359 --> 01:19:12,570

Towers fall that they couldn't believe

1908

01:19:16,060 --> 01:19:14,369

that you know it was happening it looked

1909

01:19:18,800 --> 01:19:16,070

really weird the explosions were strange

1910

01:19:29,350 --> 01:19:18,810

the way the tower was exploded outwards

1911

01:19:42,819 --> 01:19:32,629

no no he was a leader he's done a lot of

1912

01:19:47,070 --> 01:19:44,970

watched our worst

1913

01:19:49,710 --> 01:19:47,080

eight with you and Herman it didn't seem

1914

01:19:52,140 --> 01:19:49,720

like he just watched a movie and came to

1915

01:19:54,600 --> 01:19:52,150

a decision about 9/11 that watched a

1916

01:19:56,030 --> 01:19:54,610

bunch testimony on a 9/11 a lot of them

1917

01:19:58,830 --> 01:19:56,040

are pretty knowledgeable like those

1918

01:20:01,080 --> 01:19:58,840

demolition technical order those

1919

01:20:03,479 --> 01:20:01,090

chemical engineers people who do all

1920

01:20:05,880 --> 01:20:03,489

sorts of things and we know love is not

1921

01:20:10,500 --> 01:20:05,890

just architects engineers as chemical

1922

01:20:15,620 --> 01:20:10,510

engineers as demolitions experts you

1923

01:20:17,310 --> 01:20:15,630

know what we did I did a paper I

1924

01:20:22,440 --> 01:20:17,320

collaborated on the paper about

1925

01:20:24,120 --> 01:20:22,450

chemtrails a few years ago and we asked

1926

01:20:26,070 --> 01:20:24,130

a bunch of scientists you know whether

1927

01:20:27,720 --> 01:20:26,080

they thought there was evidence for a

1928

01:20:30,060 --> 01:20:27,730

secret spraying program like chemtrails

1929

01:20:34,560 --> 01:20:30,070

and we expected everyone to say no I

1930

01:20:37,100 --> 01:20:34,570

think we asked 77 people and actually

1931

01:20:40,830 --> 01:20:37,110

one guy said yes he said that there was

1932

01:20:42,330 --> 01:20:40,840

possibly evidence of chemtrails and he

1933

01:20:44,250 --> 01:20:42,340

wasn't convinced otherwise and there are

1934

01:20:46,920 --> 01:20:44,260

people with PhDs who think that

1935

01:20:48,600 --> 01:20:46,930

chemtrails are real and I don't know

1936

01:20:50,490 --> 01:20:48,610

what your opinion is about the chemtrail

1937

01:21:01,560 --> 01:20:50,500

conspiracy theory but you can always

1938

01:21:03,960 --> 01:21:01,570

find someone who will believe for the

1939

01:21:05,940 --> 01:21:03,970

belief in religious duty I bet you a lot

1940

01:21:10,260 --> 01:21:05,950

more people would claim that than they

1941

01:21:17,940 --> 01:21:10,270

would yeah yeah if 5% of people think

1942

01:21:21,270 --> 01:21:17,950

that 9/11 was other things people

1943

01:21:24,090 --> 01:21:21,280

believe in we're talking about great so

1944

01:21:25,670 --> 01:21:24,100

my point is always find somebody to

1945

01:21:27,660 --> 01:21:25,680

believe in whatever your theory is

1946

01:21:30,440 --> 01:21:27,670

there'll always be a percentage of

1947

01:21:32,460 --> 01:21:30,450

people who believe that you know a

1948

01:21:35,010 --> 01:21:32,470

theory is correct especially if it's

1949

01:21:43,020 --> 01:21:35,020

presented in a compelling way like if

1950

01:21:45,750 --> 01:21:43,030

this yep good videos the official

1951

01:21:49,080 --> 01:21:45,760

version of the story in this version

1952

01:21:54,350 --> 01:21:49,090

they're all also theories they are just

1953

01:21:58,979 --> 01:21:57,920

yeah sure what you mean by that

1954

01:22:00,629 --> 01:21:58,989

the

1955

01:22:02,370 --> 01:22:00,639

official story is a essentially a

1956

01:22:08,729 --> 01:22:02,380

conspiracy theory because it posits a

1957

01:22:10,339 --> 01:22:08,739

conspiracy amongst the terrorists of how

1958

01:22:12,870 --> 01:22:10,349

they did it because like you said this

1959

01:22:14,009 --> 01:22:12,880

questions they don't know everything so

1960

01:22:16,109 --> 01:22:14,019

therefore since you don't know

1961

01:22:17,759 --> 01:22:16,119

everything it is just a theory based on

1962

01:22:18,689 --> 01:22:17,769

their based on their understanding of

1963

01:22:21,060 --> 01:22:18,699

how it happened

1964

01:22:24,259 --> 01:22:21,070

of a conspiracy so it is the

1965

01:22:35,370 --> 01:22:24,269

government-sponsored conspiracy theory

1966

01:22:37,859 --> 01:22:35,380

this this has been what you say

1967

01:22:39,479 --> 01:22:37,869

government-sponsored conspiracy theory I

1968

01:22:44,520 --> 01:22:39,489

mean like Donald Trump just part of the

1969

01:22:45,770 --> 01:22:44,530

government he's not sponsoring it part

1970

01:22:48,509 --> 01:22:45,780

of the government why you could say

1971

01:22:50,729 --> 01:22:48,519

bipartisan sponsored conspiracy theory I

1972

01:22:52,589 --> 01:22:50,739

mean from the Democrats then you have it

1973

01:22:55,109 --> 01:22:52,599

from yeah then you have it from the

1974

01:22:57,870 --> 01:22:55,119

mainstream media who are purchasing with

1975

01:22:59,520 --> 01:22:57,880

two people people like on shows like NBC

1976

01:23:01,799 --> 01:22:59,530

and whatnot so they were pushing the

1977

01:23:05,339 --> 01:23:01,809

whole was so what essentially was was

1978

01:23:07,529 --> 01:23:05,349

Russia and from but together conspired

1979

01:23:10,580 --> 01:23:07,539

that they were going to affect the

1980

01:23:12,959 --> 01:23:10,590

elections which is illegal in secret

1981

01:23:14,160 --> 01:23:12,969

which is a conspiracy theory and they

1982

01:23:15,989 --> 01:23:14,170

have been pushing this narrative for a

1983

01:23:19,470 --> 01:23:15,999

long time a lot of people believed in it

1984

01:23:21,509 --> 01:23:19,480

and so my question to you like just like

1985

01:23:23,879 --> 01:23:21,519

you asked me if the 9/11 thing is true

1986

01:23:25,649 --> 01:23:23,889

how come so many people don't believe it

1987

01:23:27,629 --> 01:23:25,659

my question to you is not Russian are we

1988

01:23:30,089 --> 01:23:27,639

no Russia gave us false even reporters

1989

01:23:31,770 --> 01:23:30,099

come out how did so many believe people

1990

01:23:33,839 --> 01:23:31,780

humbly how did so many people believe

1991

01:23:35,339 --> 01:23:33,849

something so untrue I think it seemed

1992

01:23:37,470 --> 01:23:35,349

very plausible all the time because we

1993

01:23:38,759 --> 01:23:37,480

know that Russia did interfere in the

1994

01:23:42,720 --> 01:23:38,769

elections and we know the things

1995

01:23:44,910 --> 01:23:42,730

happened like you know they had meetings

1996

01:23:47,160 --> 01:23:44,920

with with Russian people not necessarily

1997

01:23:49,350 --> 01:23:47,170

discuss that and we know the mother

1998

01:23:50,879 --> 01:23:49,360

report didn't exonerate Trump from

1999

01:23:52,649 --> 01:23:50,889

collusion they just said that collusion

2000

01:23:54,509 --> 01:23:52,659

was not proven he didn't say it didn't

2001

01:23:56,640 --> 01:23:54,519

happen he's just saying there isn't like

2002

01:23:57,709 --> 01:23:56,650

you know enough evidence for him to

2003

01:23:59,339 --> 01:23:57,719

bring a prosecution

2004

01:24:01,169 --> 01:23:59,349

it's probably something we should

2005

01:24:02,549 --> 01:24:01,179

continue to look at and we know you know

2006

01:24:05,250 --> 01:24:02,559

like I said that the Russians did

2007

01:24:11,429 --> 01:24:05,260

actually do a significant amount of work

2008

01:24:16,979 --> 01:24:14,790

- because what all that we've known as I

2009

01:24:18,659 --> 01:24:16,989

didn't test for it completely so there

2010

01:24:21,600 --> 01:24:18,669

is no way to say that then completely

2011

01:24:23,250 --> 01:24:21,610

happen we could axioms we can say that

2012

01:24:25,159 --> 01:24:23,260

it wasn't necessary for the buildings to

2013

01:24:27,810 --> 01:24:25,169

collapse based on our analysis of the

2014

01:24:29,729 --> 01:24:27,820

structures of the buildings the fire

2015

01:24:31,080 --> 01:24:29,739

would actually cause this type of

2016

01:24:35,129 --> 01:24:31,090

collapse and this is what it would look

2017

01:24:37,409 --> 01:24:35,139

like and this that's really know from my

2018

01:24:39,120 --> 01:24:37,419

perspective and from most of the the

2019

01:24:43,709 --> 01:24:39,130

scientists that I've talked to about it

2020

01:24:47,429 --> 01:24:43,719

and obviously NIST the the fire induced

2021

01:24:49,439 --> 01:24:47,439

collapse explains what we saw and you're

2022

01:24:50,069 --> 01:24:49,449

saying that it doesn't explain what we

2023

01:24:52,500 --> 01:24:50,079

saw

2024

01:25:17,520 --> 01:24:52,510

or at least they're not fully in your

2025

01:25:25,319 --> 01:25:17,530

mind it's hypothesis that is that would

2026

01:25:27,299 --> 01:25:25,329

benefit well I'm gonna have to it's very

2027

01:25:29,189 --> 01:25:27,309

very interesting talking to you and I do

2028

01:25:31,020 --> 01:25:29,199

have to like cut it off at some point

2029

01:25:32,640 --> 01:25:31,030

and or I could an hour and a half now

2030

01:25:40,140 --> 01:25:32,650

which is a bit longer than my normal

2031

01:25:43,049 --> 01:25:40,150

podcasts and I do have to go yeah it's

2032

01:25:45,629 --> 01:25:43,059

always very interesting talking to

2033

01:25:47,219 --> 01:25:45,639

people like you you you don't you don't

2034

01:25:48,449 --> 01:25:47,229

realize how long you can talk about

2035

01:25:49,439 --> 01:25:48,459

these things but there's so much you

2036

01:25:51,509 --> 01:25:49,449

know there's so many different topics

2037

01:25:52,759 --> 01:25:51,519

but goes back to what I was saying

2038

01:25:55,350 --> 01:25:52,769

earlier

2039

01:25:57,120 --> 01:25:55,360

we're regurgitating stuff here

2040

01:25:59,669 --> 01:25:57,130

we're going over arguments that have

2041

01:26:02,669 --> 01:25:59,679

been gone over before many many times

2042

01:26:05,069 --> 01:26:02,679

and some extent you know maybe you're

2043

01:26:07,020 --> 01:26:05,079

educating me about you know things I'm

2044

01:26:08,250 --> 01:26:07,030

missing and maybe I'm trying to educate

2045

01:26:09,959 --> 01:26:08,260

you about the things that I think you're

2046

01:26:12,120 --> 01:26:09,969

missing but these are things that have

2047

01:26:13,949 --> 01:26:12,130

been going on and on for for years like

2048

01:26:16,080 --> 01:26:13,959

in for ever since the start people have

2049

01:26:17,279 --> 01:26:16,090

been having these discussions and I

2050

01:26:18,959 --> 01:26:17,289

don't really know how it's going to

2051

01:26:22,080 --> 01:26:18,969

change because I don't think there's

2052

01:26:23,399 --> 01:26:22,090

going to be a new investigation and I

2053

01:26:24,990 --> 01:26:23,409

don't think you know when Professor

2054

01:26:27,630 --> 01:26:25,000

holsters report comes out

2055

01:26:28,710 --> 01:26:27,640

on September the 3rd I don't think

2056

01:26:31,320 --> 01:26:28,720

that's really going to change anything

2057

01:26:33,000 --> 01:26:31,330

people just nitpick it and point out

2058

01:26:35,610 --> 01:26:33,010

problems with it

2059

01:26:37,170 --> 01:26:35,620

so what what do you what's your feeling

2060

01:26:40,440 --> 01:26:37,180

about what you personally are going to

2061

01:26:42,780 --> 01:26:40,450

do regarding 911 in the future are you

2062

01:26:45,510 --> 01:26:42,790

going to keep some kind of activism

2063

01:26:49,200 --> 01:26:45,520

going or just posting online what's

2064

01:26:51,450 --> 01:26:49,210

what's your plan yeah that's a good

2065

01:26:53,910 --> 01:26:51,460

question I'd say but yeah again I want

2066

01:26:56,250 --> 01:26:53,920

to say make like despite our differences

2067

01:26:57,720 --> 01:26:56,260

has been actually good it's been a great

2068

01:26:59,070 --> 01:26:57,730

experience to be on here and I once

2069

01:27:01,230 --> 01:26:59,080

again wanna thank you for inviting me on

2070

01:27:04,140 --> 01:27:01,240

it's been good to talk to you been good

2071

01:27:06,510 --> 01:27:04,150

clear some of the some of the thoughts

2072

01:27:08,670 --> 01:27:06,520

we have some disagreements we have it's

2073

01:27:10,680 --> 01:27:08,680

how it's helped me and as you said it's

2074

01:27:13,260 --> 01:27:10,690

actually been educational to me in that

2075

01:27:15,270 --> 01:27:13,270

maybe there's some things that I might

2076

01:27:18,540 --> 01:27:15,280

need to about reevaluate or look into

2077

01:27:19,950 --> 01:27:18,550

further and perhaps I hope that you also

2078

01:27:21,510 --> 01:27:19,960

have the same experience and maybe

2079

01:27:23,490 --> 01:27:21,520

there's some things that you might need

2080

01:27:27,480 --> 01:27:23,500

to reconsider look into further as well

2081

01:27:30,240 --> 01:27:27,490

and yeah so in the future like basically

2082

01:27:32,790 --> 01:27:30,250

yeah I would hope that I don't do any

2083

01:27:35,610 --> 01:27:32,800

sort of formal activism let's say

2084

01:27:37,020 --> 01:27:35,620

nothing for more professional or

2085

01:27:40,080 --> 01:27:37,030

semi-professional or anything like that

2086

01:27:42,720 --> 01:27:40,090

I would mainly just cuz I'd run my own

2087

01:27:46,350 --> 01:27:42,730

personal blog and I think I would mainly

2088

01:27:51,450 --> 01:27:46,360

just keep it to that maybe just if

2089

01:27:53,190 --> 01:27:51,460

anyone in my friends work or if I do get

2090

01:27:57,900 --> 01:27:53,200

a little bit more exposure people read

2091

01:28:00,450 --> 01:27:57,910

it maybe they do but no actually I mean

2092

01:28:02,010 --> 01:28:00,460

it really depends it depends on the

2093

01:28:04,560 --> 01:28:02,020

circumstances it depends on what's at

2094

01:28:07,050 --> 01:28:04,570

stake like safe if there actually is

2095

01:28:07,890 --> 01:28:07,060

some some movement to start a new

2096

01:28:09,780 --> 01:28:07,900

investigation

2097

01:28:11,490 --> 01:28:09,790

sure out support it I'd sign up for it

2098

01:28:14,970 --> 01:28:11,500

I'd do a petition for a new

2099

01:28:17,700 --> 01:28:14,980

investigation to be reopened right yeah

2100

01:28:19,350 --> 01:28:17,710

well maybe I wouldn't mind that being a

2101
01:28:21,900 --> 01:28:19,360
new investigation to be honest because I

2102
01:28:23,250 --> 01:28:21,910
think it would clarify things I really

2103
01:28:26,340 --> 01:28:23,260
don't think it's gonna happen though I

2104
01:28:28,590 --> 01:28:26,350
don't think that houses investigation is

2105
01:28:30,900 --> 01:28:28,600
going to provide any real impetus I

2106
01:28:33,660 --> 01:28:30,910
think a 911 is going to continue doing

2107
01:28:35,310 --> 01:28:33,670
what they do like promoting the cause

2108
01:28:38,220 --> 01:28:35,320
and raising money and trying to

2109
01:28:39,870 --> 01:28:38,230
read the word but I don't think I think

2110
01:28:43,189 --> 01:28:39,880
is really going to change but you know

2111
01:28:45,540 --> 01:28:43,199
we'll see maybe it will and and I think

2112
01:28:48,030 --> 01:28:45,550
what I try to do is just basically try

2113
01:28:50,040 --> 01:28:48,040

to look at individual things that are

2114

01:28:51,899 --> 01:28:50,050

false and try to clarify them and I

2115

01:28:53,669 --> 01:28:51,909

think that moves everybody closer to the

2116

01:28:54,780 --> 01:28:53,679

truth you know I don't think there was a

2117

01:28:56,790 --> 01:28:54,790

controlled demolition but if they're

2118

01:29:00,120 --> 01:28:56,800

walls then by removing things that are

2119

01:29:03,120 --> 01:29:00,130

false it should you know make it more

2120

01:29:03,510 --> 01:29:03,130

clear what actually happened so I try

2121

01:29:06,419 --> 01:29:03,520

and do

2122

01:29:09,530 --> 01:29:06,429

yeah that's exactly that's exactly why I

2123

01:29:13,080 --> 01:29:09,540

like I said I I do I do think there is

2124

01:29:16,020 --> 01:29:13,090

value in there obviously is about how

2125

01:29:19,140 --> 01:29:16,030

you in turning falsities in any in any

2126
01:29:21,959 --> 01:29:19,150
kind of argument or reports or or study

2127
01:29:24,930 --> 01:29:21,969
but it's just it's just the problem of

2128
01:29:26,280 --> 01:29:24,940
while there are people who do see

2129
01:29:28,740 --> 01:29:26,290
conspiracies everywhere and I would say

2130
01:29:31,020 --> 01:29:28,750
like honestly it's really only 9/11

2131
01:29:33,510 --> 01:29:31,030
mainly that I'm not obviously when it

2132
01:29:34,979 --> 01:29:33,520
comes to media propaganda and so but

2133
01:29:36,629 --> 01:29:34,989
those things are actually documented

2134
01:29:38,310 --> 01:29:36,639
like this myth Matt Smith month

2135
01:29:40,740 --> 01:29:38,320
Modernization Act like those aren't

2136
01:29:43,500 --> 01:29:40,750
conspiracy theories those actually like

2137
01:29:48,930 --> 01:29:43,510
proper media facts that we have in the

2138
01:29:50,490 --> 01:29:48,940

political landscape that's a 911 yeah

2139

01:29:50,910 --> 01:29:50,500

because I think we can talk about that

2140

01:29:54,030 --> 01:29:50,920

type of thing

2141

01:29:55,950 --> 01:29:54,040

some other time because I like like

2142

01:29:58,859 --> 01:29:55,960

broadening out into other other topics

2143

01:29:59,729 --> 01:29:58,869

besides a 911 right anyway I want to

2144

01:30:00,870 --> 01:29:59,739

thank you very much

2145

01:30:03,470 --> 01:30:00,880

is there anything you want to finish you

2146

01:30:06,390 --> 01:30:03,480

off saying before we before the end oh

2147

01:30:09,149 --> 01:30:06,400

yeah yeah I was just trying to finish

2148

01:30:12,060 --> 01:30:09,159

off basically while there are people for

2149

01:30:13,919 --> 01:30:12,070

seeker see conspiracies I do think that

2150

01:30:17,310 --> 01:30:13,929

they're also people who just dismiss

2151
01:30:19,319 --> 01:30:17,320
everything out of hand and I think that

2152
01:30:21,270 --> 01:30:19,329
we just need to be careful of being

2153
01:30:22,620 --> 01:30:21,280
critical especially when it comes to the

2154
01:30:24,720 --> 01:30:22,630
when it comes to things that a

2155
01:30:27,270 --> 01:30:24,730
conspiracy related I mean if you just

2156
01:30:29,310 --> 01:30:27,280
dismiss everything because it happens to

2157
01:30:31,649 --> 01:30:29,320
be a conspiratorial nature then people

2158
01:30:34,560 --> 01:30:31,659
who do can you do conspire well and have

2159
01:30:36,600 --> 01:30:34,570
they get away with them much easier yeah

2160
01:30:39,330 --> 01:30:36,610
absolutely encourage people to be

2161
01:30:40,979 --> 01:30:39,340
vigilant of of their own governments

2162
01:30:43,169 --> 01:30:40,989
because you know people have been shown

2163
01:30:45,600 --> 01:30:43,179
