00:00:06,170 --> 00:00:03,880

[Music]

2
00:00:09,169 --> 00:00:06,180

welcome to tales from the rabbit hole

3
00:00:13,640 --> 00:00:09,179

I'm your host Mick West today's guest is

4
00:00:16,880 --> 00:00:13,650

JM talbo who runs the website 911

5
00:00:19,670 --> 00:00:16,890

debunkers dot blog spot.com which is

6
00:00:23,660 --> 00:00:19,680

devoted to debunking the claim of the

7
00:00:26,269 --> 00:00:23,670

debunkers of the 9/11 truth movement I

8
00:00:26,630 --> 00:00:26,279

guess welcome welcome to tell us in the

9
00:00:31,279 --> 00:00:26,640

rabbit-hole

10
00:00:33,190 --> 00:00:31,289

jam hey thanks for having me sir I was

11
00:00:36,049 --> 00:00:33,200

really fascinated to look at your your

12
00:00:37,549 --> 00:00:36,059

your blog in your extensive list of

13
00:00:39,590 --> 00:00:37,559

websites you had rather a lot of

14

00:00:42,709 --> 00:00:39,600

websites if you click on your profile

15

00:00:44,240 --> 00:00:42,719

link yeah his my 30 websites at all

16

00:00:46,400 --> 00:00:44,250

kinds of different topics like you got a

17

00:00:48,830 --> 00:00:46,410

bunch of analytical ones and you got

18

00:00:51,560 --> 00:00:48,840

some on the supernatural and you got

19

00:00:53,330 --> 00:00:51,570

some on on you know obviously the 9/11

20

00:00:55,670 --> 00:00:53,340

one is the one we more interested in

21

00:01:00,290 --> 00:00:55,680

talking about today can you tell me how

22

00:01:03,380 --> 00:01:00,300

you kind of got started like a in 9/11

23

00:01:06,080 --> 00:01:03,390

truth movement and B in doing blogging

24

00:01:09,500 --> 00:01:06,090

about it and getting so so involved in

25

00:01:11,649 --> 00:01:09,510

the employment yeah it was around 2004 I

26

00:01:13,609 --> 00:01:11,659

saw a film called American Empire

27

00:01:16,870 --> 00:01:13,619

something I don't know it was kind of a

28

00:01:19,490 --> 00:01:16,880

leftist type of film pretty much against

29

00:01:21,530 --> 00:01:19,500

the Bush administration in trying to tie

30

00:01:24,859 --> 00:01:21,540

them into 9/11 whatnot but that got me

31

00:01:26,960 --> 00:01:24,869

asking questions and then I saw Michael

32

00:01:27,920 --> 00:01:26,970

Moore's film Fahrenheit 9/11 so I kind

33

00:01:30,080 --> 00:01:27,930

of had a slow burn

34

00:01:33,410 --> 00:01:30,090

it wasn't like straight into loose

35

00:01:35,749 --> 00:01:33,420

change or anything like that so I got

36

00:01:38,300 --> 00:01:35,759

into all that and it was about 2008

37

00:01:39,289 --> 00:01:38,310

right after the district court on World

38

00:01:41,480 --> 00:01:39,299

Trade Center seven that I actually

39

00:01:43,910 --> 00:01:41,490
started blogging on on the topic I'd

40

00:01:46,670 --> 00:01:43,920
been an activist for like four years

41

00:01:49,100 --> 00:01:46,680
to some extent before that but I never

42

00:01:50,990 --> 00:01:49,110
went public with it so so that's

43

00:01:53,359 --> 00:01:51,000
basically how it happened for me um I

44

00:01:54,800 --> 00:01:53,369
just won one day I just decided I wanted

45

00:01:57,100 --> 00:01:54,810
to talk about it publicly it took a long

46

00:01:59,929 --> 00:01:57,110
time for me to actually would to do that

47

00:02:01,940 --> 00:01:59,939
so you said you were like in it for a

48

00:02:05,090 --> 00:02:01,950
couple of years before that was anything

49

00:02:06,889 --> 00:02:05,100
basically you do research or was it

50

00:02:11,420 --> 00:02:06,899
grant were you interacting with other

51
00:02:12,920 --> 00:02:11,430
people movie I interacted with some

52
00:02:13,460 --> 00:02:12,930
activists there I put out some fliers

53
00:02:17,120 --> 00:02:13,470
for

54
00:02:20,000 --> 00:02:17,130
things like that but uh but the most

55
00:02:22,460 --> 00:02:20,010
part I was doing research I remember

56
00:02:24,710 --> 00:02:22,470
sitting down and listening to Alex Jones

57
00:02:26,690 --> 00:02:24,720
and he mentioned that he had a archive

58
00:02:28,250 --> 00:02:26,700
of information on 9/11 and it was all

59
00:02:30,830 --> 00:02:28,260
mainstream sources and to check it out

60
00:02:32,630 --> 00:02:30,840
for yourself so I sat down one Saturday

61
00:02:34,130 --> 00:02:32,640
and I went through the entire list and

62
00:02:35,750 --> 00:02:34,140
looked at all the articles and I started

63
00:02:37,340 --> 00:02:35,760

to realize because when I first heard

64

00:02:39,020 --> 00:02:37,350

him I thought he was absolutely nuts I

65

00:02:41,960 --> 00:02:39,030

said this guy can't be right there must

66

00:02:43,400 --> 00:02:41,970

be nothing to this and I wasn't a fan of

67

00:02:44,930 --> 00:02:43,410

the Bush administration but I didn't

68

00:02:46,730 --> 00:02:44,940

think they would have anything to do

69

00:02:49,430 --> 00:02:46,740

with 9/11 or that there could possibly

70

00:02:50,690 --> 00:02:49,440

be any government involvement but the

71

00:02:54,170 --> 00:02:50,700

more I looked at things I found things

72

00:02:55,820 --> 00:02:54,180

some of it quite compelling and a lot of

73

00:02:57,980 --> 00:02:55,830

it I found compelling at the time that I

74

00:03:00,620 --> 00:02:57,990

don't find compelling now you had

75

00:03:02,390 --> 00:03:00,630

mentioned that my blog debunked the

76
00:03:04,430 --> 00:03:02,400
debunkers that was the original intent

77
00:03:07,460 --> 00:03:04,440
but I don't know if you noticed there's

78
00:03:09,199 --> 00:03:07,470
a little sub headline on the on the site

79
00:03:10,970 --> 00:03:09,209
now that says refuting the hollow

80
00:03:15,830 --> 00:03:10,980
arguments of the so called the bunkers

81
00:03:17,210 --> 00:03:15,840
and nine and truthers I don't think the

82
00:03:18,410 --> 00:03:17,220
bunkers are always as much of a

83
00:03:19,880 --> 00:03:18,420
debunkers they like to think they are

84
00:03:21,380 --> 00:03:19,890
and I don't think truthers are as much

85
00:03:23,000 --> 00:03:21,390
truthers as I like to think they are I

86
00:03:25,460 --> 00:03:23,010
would hope we were all just after the

87
00:03:27,979 --> 00:03:25,470
truth in the end yeah that's what I

88
00:03:30,470 --> 00:03:27,989

think yeah that is reading a blog that

89

00:03:32,270 --> 00:03:30,480

yeah you're not like a party-line type

90

00:03:33,860 --> 00:03:32,280

person you're not just doing you know

91

00:03:37,220 --> 00:03:33,870

whatever the truth movement does like

92

00:03:42,140 --> 00:03:37,230

you critique some of David wait David

93

00:03:44,360 --> 00:03:42,150

Ray Griffin stuff and you know you point

94

00:03:46,960 --> 00:03:44,370

out flaws in his arguments and I'm sure

95

00:03:49,850 --> 00:03:46,970

like let's say just this is a kind of a

96

00:03:51,680 --> 00:03:49,860

a pivot point for a lot of debunkers is

97

00:03:53,390 --> 00:03:51,690

the the Pentagon and whether a plane hit

98

00:03:56,000 --> 00:03:53,400

the Pentagon and what do you feel about

99

00:03:58,490 --> 00:03:56,010

that whole that issue a plane definitely

100

00:04:01,340 --> 00:03:58,500

hit the Pentagon I used to not think so

101
00:04:02,810 --> 00:04:01,350
for a while but as more information came

102
00:04:04,840 --> 00:04:02,820
about and I looked at different

103
00:04:07,310 --> 00:04:04,850
researchers some from the truth movement

104
00:04:08,570 --> 00:04:07,320
AG Adam Taylor was on your show he's a

105
00:04:11,060 --> 00:04:08,580
friend of mine he had mentioned Jim

106
00:04:14,360 --> 00:04:11,070
Hoffman Jim Othman has always been very

107
00:04:15,949 --> 00:04:14,370
good at this subject so yeah I

108
00:04:17,479 --> 00:04:15,959
definitely stood on his shoulders was

109
00:04:18,770 --> 00:04:17,489
learning about a lot of this but but I

110
00:04:20,240 --> 00:04:18,780
wouldn't say that a lot of the truth

111
00:04:22,670 --> 00:04:20,250
movement picked up on his way of

112
00:04:24,710 --> 00:04:22,680
thinking it's went the other way quite a

113
00:04:25,940 --> 00:04:24,720

bit but yeah I think it's quite clear

114

00:04:27,320 --> 00:04:25,950

that a plane hit the Pentagon

115

00:04:29,570 --> 00:04:27,330

there's plane wreckage everywhere

116

00:04:31,820 --> 00:04:29,580

to think that somebody went and planted

117

00:04:34,820 --> 00:04:31,830

plane wreckage I mean it goes against

118

00:04:36,290 --> 00:04:34,830

Occam's razor makes no sense you're

119

00:04:37,520 --> 00:04:36,300

carrying out a conspiracy just run the

120

00:04:39,320 --> 00:04:37,530

plane into the building and there's you

121

00:04:40,939 --> 00:04:39,330

can maybe maybe you can remote control

122

00:04:43,719 --> 00:04:40,949

it maybe that's possibility I could

123

00:04:45,589 --> 00:04:43,729

maybe go there but but as far as it not

124

00:04:47,719 --> 00:04:45,599

hitting the building and then there's

125

00:04:50,059 --> 00:04:47,729

even the crazier theories that it flew

126
00:04:52,309 --> 00:04:50,069
over anybody who's been at the Pentagon

127
00:04:53,749 --> 00:04:52,319
I took a trip out there there's no way

128
00:04:57,020 --> 00:04:53,759
there's nothing but open fields and open

129
00:04:59,870 --> 00:04:57,030
sky and I would see it then you got

130
00:05:02,719 --> 00:04:59,880
saying that the phone calls were faked

131
00:05:04,850 --> 00:05:02,729
that's just you know I I know voice

132
00:05:07,969 --> 00:05:04,860
morphing technology exists but again

133
00:05:09,200 --> 00:05:07,979
it's unnecessary it's it's and it's also

134
00:05:10,939 --> 00:05:09,210
one of these things even if there was

135
00:05:12,950 --> 00:05:10,949
truth to it why would you lead with that

136
00:05:14,930 --> 00:05:12,960
why would you talk about it I feel like

137
00:05:17,300 --> 00:05:14,940
if there is any kind of conspiracy for

138
00:05:19,700 --> 00:05:17,310

9/11 pick a few good points and go with

139

00:05:21,709 --> 00:05:19,710

it I don't know why people get into

140

00:05:24,260 --> 00:05:21,719

these uh you know things that are

141

00:05:26,899 --> 00:05:24,270

offensive to people and and it's likely

142

00:05:28,129 --> 00:05:26,909

not true a lot of evidence against it

143

00:05:30,409 --> 00:05:28,139

there's been a lot of there's been

144

00:05:33,379 --> 00:05:30,419

material written refuting a rate Griffin

145

00:05:33,709 --> 00:05:33,389

and his phone call material Wow what

146

00:05:36,170 --> 00:05:33,719

else

147

00:05:38,360 --> 00:05:36,180

I don't think Judy woods theories have

148

00:05:42,499 --> 00:05:38,370

any you know there's no credence to

149

00:05:44,689 --> 00:05:42,509

those at all charlie extreme or it's

150

00:05:46,370 --> 00:05:44,699

quite a bit more yeah I mean Julia woods

151

00:05:49,189 --> 00:05:46,380

I think she has this theory that the

152

00:05:51,050 --> 00:05:49,199

they were yeah energy beams destroyed

153

00:05:53,269 --> 00:05:51,060

the buildings which is yeah I don't

154

00:05:54,980 --> 00:05:53,279

think really something that's a large

155

00:05:56,719 --> 00:05:54,990

number of people in the truth movement

156

00:05:58,939 --> 00:05:56,729

really believe I'm sure it's probably

157

00:06:00,290 --> 00:05:58,949

less than five percent are sober it's

158

00:06:02,390 --> 00:06:00,300

one of those things that people pick up

159

00:06:04,010 --> 00:06:02,400

on but the Pentagon thing I think is

160

00:06:06,409 --> 00:06:04,020

actually I would say more than half

161

00:06:09,350 --> 00:06:06,419

people other people that you talk to on

162

00:06:10,999 --> 00:06:09,360

especially the online groups believe

163

00:06:14,110 --> 00:06:11,009

that we check it must be kind of

164

00:06:16,100 --> 00:06:14,120

frustrating the you know so many people

165

00:06:18,680 --> 00:06:16,110

believe something you think is so

166

00:06:20,809 --> 00:06:18,690

obviously false yeah when I went to

167

00:06:21,800 --> 00:06:20,819

Ground Zero I was debating people around

168

00:06:23,570 --> 00:06:21,810

Ground Zero I'm just having

169

00:06:24,980 --> 00:06:23,580

conversations with people even if you

170

00:06:27,860 --> 00:06:24,990

debate somebody out there people are

171

00:06:29,120 --> 00:06:27,870

filming it but I remember he was talking

172

00:06:30,320 --> 00:06:29,130

about the Pentagon stuff and you know

173

00:06:31,670 --> 00:06:30,330

what happened I'm saying hey look back

174

00:06:33,499 --> 00:06:31,680

up I don't even believe that he goes

175

00:06:35,029 --> 00:06:33,509

well you're different than 90% of the

176

00:06:36,980 --> 00:06:35,039

people out here then I said yeah you're

177

00:06:39,019 --> 00:06:36,990

right I am I'm sorry I'm a free thinkers

178

00:06:41,090 --> 00:06:39,029

there's a lot of group thing when it

179

00:06:43,850 --> 00:06:41,100

comes to 9/11 truth as well so

180

00:06:48,260 --> 00:06:43,860

yeah so now now obviously you're still a

181

00:06:49,490 --> 00:06:48,270

9/11 truther and you still mean you

182

00:06:51,110 --> 00:06:49,500

still believe that there's you know

183

00:06:54,200 --> 00:06:51,120

something happened what would you say is

184

00:06:56,420 --> 00:06:54,210

like you know how would you characterize

185

00:06:58,460 --> 00:06:56,430

your position about what you thought I

186

00:07:00,710 --> 00:06:58,470

think happens and what you think are the

187

00:07:05,270 --> 00:07:00,720

primary problems and questions around

188

00:07:06,980 --> 00:07:05,280

9/11 well like on the blog I stayed and

189

00:07:08,260 --> 00:07:06,990

I have it here as well just read but I

190

00:07:10,190 --> 00:07:08,270

wrote it I said many people

191

00:07:11,690 --> 00:07:10,200

subconsciously make the mistake of only

192

00:07:13,610 --> 00:07:11,700

seeing the issues in black and white as

193

00:07:15,380 --> 00:07:13,620

opposed to shades of grey so this is

194

00:07:17,900 --> 00:07:15,390

known as the black or white fallacy and

195

00:07:20,360 --> 00:07:17,910

in this case the false dilemma is it's

196

00:07:23,300 --> 00:07:20,370

either al-qaeda carried out 9/11 or it

197

00:07:25,580 --> 00:07:23,310

was an inside job I don't see it as a

198

00:07:27,680 --> 00:07:25,590

one or the other thing I believe that

199

00:07:29,660 --> 00:07:27,690

al-qaeda hijackers and bin Laden were

200

00:07:31,250 --> 00:07:29,670

definitely involved I just think they

201
00:07:33,260 --> 00:07:31,260
had assistance for people with inside

202
00:07:36,620 --> 00:07:33,270
the country I would say there's evidence

203
00:07:39,050 --> 00:07:36,630
that points towards rogue elements of

204
00:07:41,470 --> 00:07:39,060
intelligence apparatus both here in a

205
00:07:43,550 --> 00:07:41,480
couple other countries and and rogue

206
00:07:46,430 --> 00:07:43,560
members of the US government but I

207
00:07:48,530 --> 00:07:46,440
wouldn't put the number of people it's

208
00:07:50,750 --> 00:07:48,540
under a hundred I would think maybe much

209
00:07:52,280 --> 00:07:50,760
much less under a hundred so I don't

210
00:07:54,320 --> 00:07:52,290
think it I don't think it would require

211
00:07:56,870 --> 00:07:54,330
thousands of people being involved as

212
00:07:58,570 --> 00:07:56,880
some people say and things like that but

213
00:08:01,370 --> 00:07:58,580

I think there is very interesting

214

00:08:03,800 --> 00:08:01,380

whistleblower claims regarding prior

215

00:08:06,110 --> 00:08:03,810

knowledge you could take patty Casas oh

216

00:08:09,140 --> 00:08:06,120

she's 9/11 family members she says that

217

00:08:10,910 --> 00:08:09,150

other were members of the FBI I believe

218

00:08:12,980 --> 00:08:10,920

it was and by the way I'm gonna include

219

00:08:16,130 --> 00:08:12,990

at least on my blog I can send you a

220

00:08:17,630 --> 00:08:16,140

list but anything I mentioned I'll try

221

00:08:19,370 --> 00:08:17,640

to make a list of links that not

222

00:08:20,630 --> 00:08:19,380

necessarily back up what I say but just

223

00:08:24,100 --> 00:08:20,640

give people the sources for what I'm

224

00:08:26,870 --> 00:08:24,110

talking about so they know I'm not yeah

225

00:08:29,240 --> 00:08:26,880

but she had said that she was told that

226

00:08:32,810 --> 00:08:29,250

you know there there were people that

227

00:08:34,520 --> 00:08:32,820

knew the exact day the exact targets and

228

00:08:35,959 --> 00:08:34,530

that this was completely ignored you get

229

00:08:38,540 --> 00:08:35,969

a lot of information like that there's

230

00:08:42,230 --> 00:08:38,550

David shippers who was uh he helped

231

00:08:44,450 --> 00:08:42,240

prosecute Clinton Bill Clinton back in

232

00:08:46,580 --> 00:08:44,460

the day and he basically said the same

233

00:08:49,850 --> 00:08:46,590

thing to nafeez Ahmed who wrote the book

234

00:08:50,990 --> 00:08:49,860

the war on a little more on freedom he

235

00:08:52,220 --> 00:08:51,000

wrote another one I can't remember what

236

00:08:54,350 --> 00:08:52,230

the second one was called but basically

237

00:08:56,389 --> 00:08:54,360

that the exact day and the exact are

238

00:08:58,519 --> 00:08:56,399

we're known so you find some cooperating

239

00:09:00,439 --> 00:08:58,529

information like that which is obviously

240

00:09:03,019 --> 00:09:00,449

very interesting those whistleblowers

241

00:09:04,999 --> 00:09:03,029

weren't really spoken to by the 9/11

242

00:09:06,710 --> 00:09:05,009

Commission even though patty Kasasa was

243

00:09:09,049 --> 00:09:06,720

promised that they all would be spoken

244

00:09:10,689 --> 00:09:09,059

to so that's something that that I find

245

00:09:13,189 --> 00:09:10,699

very interesting

246

00:09:15,139 --> 00:09:13,199

NORAD's response on that day I find very

247

00:09:17,269 --> 00:09:15,149

interesting I've done a lot of research

248

00:09:20,569 --> 00:09:17,279

into NORAD and at the end of the day I

249

00:09:23,299 --> 00:09:20,579

had to debunk her ask me well what do

250

00:09:25,220 --> 00:09:23,309

you think you can prove that uh NORAD

251
00:09:27,379 --> 00:09:25,230
was involved and an inside job

252
00:09:29,689 --> 00:09:27,389
and I said no I don't think I can prove

253
00:09:31,340 --> 00:09:29,699
that I think what could be proven if

254
00:09:34,069 --> 00:09:31,350
somebody wanted to do it is criminal

255
00:09:36,939 --> 00:09:34,079
negligence at the very least and it's

256
00:09:40,369 --> 00:09:36,949
interesting that the 9/11 Commission did

257
00:09:41,749 --> 00:09:40,379
consider referring members of NORAD to

258
00:09:44,449 --> 00:09:41,759
the Justice Department because they had

259
00:09:45,559 --> 00:09:44,459
lied so bad so and they said it's one of

260
00:09:47,979 --> 00:09:45,569
those loose ends that was never really

261
00:09:50,960 --> 00:09:47,989
tied up yeah yeah kind of a great way

262
00:09:53,119 --> 00:09:50,970
demolition I agree with you on that the

263
00:09:55,879 --> 00:09:53,129

Nora thing to a degree like I think this

264

00:09:58,819 --> 00:09:55,889

this probably definitely some like yeah

265

00:10:00,769 --> 00:09:58,829

cover your ass type stuff going on and I

266

00:10:03,259 --> 00:10:00,779

think you know when people say the the

267

00:10:04,879 --> 00:10:03,269

Commission was set up to fail I think

268

00:10:07,309 --> 00:10:04,889

part of that was just that they didn't

269

00:10:09,559 --> 00:10:07,319

want fingers pointed at people who

270

00:10:11,600 --> 00:10:09,569

failed and whether there's something

271

00:10:13,249 --> 00:10:11,610

more than that I don't really think

272

00:10:15,859 --> 00:10:13,259

there's there's you know personally I

273

00:10:17,960 --> 00:10:15,869

don't think there's strong evidence for

274

00:10:19,759 --> 00:10:17,970

and they say you can't really prove it

275

00:10:24,169 --> 00:10:19,769

but you're gonna get on to kind of

276

00:10:25,909 --> 00:10:24,179

controlled demolition yeah I mean I'm

277

00:10:27,319 --> 00:10:25,919

not an architect or an engineer I've

278

00:10:28,549 --> 00:10:27,329

written a little bit for their site but

279

00:10:29,919 --> 00:10:28,559

they always review anything I've ever

280

00:10:32,960 --> 00:10:29,929

helped with um

281

00:10:35,150 --> 00:10:32,970

but I just think in and of itself that

282

00:10:36,710 --> 00:10:35,160

there that there are so many

283

00:10:37,939 --> 00:10:36,720

professionals that are speaking out just

284

00:10:39,650 --> 00:10:37,949

it's just stepping back it's like a

285

00:10:42,109 --> 00:10:39,660

juror maybe looking at things I think

286

00:10:43,669 --> 00:10:42,119

it's it's interesting I remember I was

287

00:10:47,030 --> 00:10:43,679

watching your interview with Joe Rogan

288

00:10:48,889 --> 00:10:47,040

he mentioned you know how many

289

00:10:50,239 --> 00:10:48,899

architects and engineers are on the

290

00:10:52,129 --> 00:10:50,249

other side they just don't come out and

291

00:10:53,900 --> 00:10:52,139

speak about it publicly well we don't

292

00:10:55,609 --> 00:10:53,910

know because they really haven't outside

293

00:10:57,829 --> 00:10:55,619

of like the official reports and whatnot

294

00:11:00,049 --> 00:10:57,839

yeah but but when you look at like

295

00:11:01,639 --> 00:11:00,059

surveys of how many New Yorkers even

296

00:11:03,439 --> 00:11:01,649

knew about building seven and what I

297

00:11:05,150 --> 00:11:03,449

would say I would argue that it's

298

00:11:07,760 --> 00:11:05,160

probably pretty low the amount that even

299

00:11:12,950 --> 00:11:07,770

are up on these issues in any real sense

300

00:11:15,170 --> 00:11:12,960

well yeah I think I I talked to some

301
00:11:19,070 --> 00:11:15,180
architects engineers that are not 911

302
00:11:21,470 --> 00:11:19,080
truthers and the problem I found is that

303
00:11:23,690 --> 00:11:21,480
though they basically think it's a silly

304
00:11:27,170 --> 00:11:23,700
theory and they don't want to talk about

305
00:11:29,150 --> 00:11:27,180
it okay that I'm the guy I'm

306
00:11:33,680 --> 00:11:29,160
interviewing next after years an

307
00:11:36,020 --> 00:11:33,690
engineer who works at Ground Zero for I

308
00:11:38,150 --> 00:11:36,030
think at least six months after the

309
00:11:39,680 --> 00:11:38,160
attacks he saw the the initial attacks

310
00:11:44,030 --> 00:11:39,690
and he was worked for a big engineering

311
00:11:45,830 --> 00:11:44,040
firm there and he said to me like what I

312
00:11:47,570 --> 00:11:45,840
told him like you know I talked to 911

313
00:11:50,180 --> 00:11:47,580

truthers he said oh you must have a lot

314

00:11:52,670 --> 00:11:50,190

more patience than I do and you know

315

00:11:55,130 --> 00:11:52,680

basically they're scientists and

316

00:11:56,660 --> 00:11:55,140

engineers that I talked to were on guess

317

00:11:58,820 --> 00:11:56,670

the skeptical side but it's more like

318

00:12:00,530 --> 00:11:58,830

the a pathetic sight they just don't

319

00:12:02,330 --> 00:12:00,540

look into it because they don't find it

320

00:12:06,170 --> 00:12:02,340

interesting and I think that gets viewed

321

00:12:08,600 --> 00:12:06,180

by truthers as them being afraid of

322

00:12:09,800 --> 00:12:08,610

looking into it or the either they know

323

00:12:11,720 --> 00:12:09,810

that there's something there but they

324

00:12:13,100 --> 00:12:11,730

don't want to touch it but from my

325

00:12:14,420 --> 00:12:13,110

perspective it seems like they just

326

00:12:17,270 --> 00:12:14,430

think it's silly in the same way you

327

00:12:19,310 --> 00:12:17,280

think that Judy woods theory is silly

328

00:12:21,320 --> 00:12:19,320

they think the idea of a controlled

329

00:12:24,650 --> 00:12:21,330

demolition is silly and so they won't

330

00:12:27,260 --> 00:12:24,660

even look into it very much and that

331

00:12:29,000 --> 00:12:27,270

could be but then the question could be

332

00:12:30,740 --> 00:12:29,010

asked why they think it still isn't

333

00:12:34,100 --> 00:12:30,750

really silly on its face or has there

334

00:12:35,270 --> 00:12:34,110

been so much material bad material for

335

00:12:36,860 --> 00:12:35,280

instance like we talked about bad

336

00:12:40,190 --> 00:12:36,870

theories that makes the whole thing look

337

00:12:42,710 --> 00:12:40,200

silly or that material it's just waited

338

00:12:44,570 --> 00:12:42,720

then from it I don't know i would i

339

00:12:45,980 --> 00:12:44,580

would also say if the government would

340

00:12:47,900 --> 00:12:45,990

have just done some simple things like

341

00:12:49,220 --> 00:12:47,910

test for explosives if miss would have

342

00:12:51,110 --> 00:12:49,230

tested for exposes this would have

343

00:12:53,600 --> 00:12:51,120

perhaps helped you'll obviously people

344

00:12:55,640 --> 00:12:53,610

argue that truthers wouldn't accept it

345

00:12:57,800 --> 00:12:55,650

either way i don't happen to be one of

346

00:12:59,540 --> 00:12:57,810

them i would definitely have liked to

347

00:13:01,580 --> 00:12:59,550

have seen it happen i think you have a

348

00:13:05,000 --> 00:13:01,590

couple problems one and i could be wrong

349

00:13:07,640 --> 00:13:05,010

but i've heard from people more up on

350

00:13:09,470 --> 00:13:07,650

these things than me scientists that it

351

00:13:10,820 --> 00:13:09,480

like for conventional explosives for

352

00:13:13,130 --> 00:13:10,830

instance they would test for nitrates

353

00:13:14,600 --> 00:13:13,140

and those dissipate by now and you even

354

00:13:17,780 --> 00:13:14,610

if you had the dust you couldn't do it

355

00:13:19,220 --> 00:13:17,790

now I had I'll just say I can't say the

356

00:13:21,260 --> 00:13:19,230

name but I had a friend of Larry

357

00:13:21,600 --> 00:13:21,270

Silverstein you know who silverstein is

358

00:13:24,389 --> 00:13:21,610

I'm

359

00:13:26,910 --> 00:13:24,399

doing he told me that New York Labs did

360

00:13:28,290 --> 00:13:26,920

test for explosives I asked him to give

361

00:13:30,030 --> 00:13:28,300

me any evidence of this it was never

362

00:13:32,730 --> 00:13:30,040

provided to me if that actually happened

363

00:13:34,829 --> 00:13:32,740

I don't know I never saw any proof that

364

00:13:36,930 --> 00:13:34,839

it did but yeah I think that's that kind

365

00:13:38,340 --> 00:13:36,940

of testing should have happened yeah I

366

00:13:40,410 --> 00:13:38,350

know there was a lot of testing of the

367

00:13:42,180 --> 00:13:40,420

dust in the early days because they were

368

00:13:44,190 --> 00:13:42,190

concerned you're right from the start I

369

00:13:45,300 --> 00:13:44,200

think uh you know the effects of

370

00:13:48,509 --> 00:13:45,310

breathing in the dust

371

00:13:50,759 --> 00:13:48,519

they were like elemental analysis I

372

00:13:54,180 --> 00:13:50,769

don't know if you can you can actually

373

00:13:55,800 --> 00:13:54,190

get much from just the basic elemental

374

00:13:57,660 --> 00:13:55,810

compositions in terms of testing for

375

00:13:59,699 --> 00:13:57,670

explosives but yeah I think again here

376

00:14:02,670 --> 00:13:59,709

we could run up against the same problem

377

00:14:04,050 --> 00:14:02,680

of a perspective like you know on the

378

00:14:06,300 --> 00:14:04,060

truth Society say why didn't you test

379

00:14:08,069 --> 00:14:06,310

for explosives and on the other side to

380

00:14:09,840 --> 00:14:08,079

say well because planes flew into the

381

00:14:12,090 --> 00:14:09,850

buildings and they burned for hours and

382

00:14:13,949 --> 00:14:12,100

then class because of that it just seems

383

00:14:15,780 --> 00:14:13,959

like why would we test for explosives

384

00:14:19,470 --> 00:14:15,790

and there was no real you know from

385

00:14:21,569 --> 00:14:19,480

their mind they see the collapse of the

386

00:14:24,240 --> 00:14:21,579

towers especially as being very

387

00:14:25,949 --> 00:14:24,250

obviously from from the the planes

388

00:14:28,740 --> 00:14:25,959

because the collapse starts so the fire

389

00:14:30,300 --> 00:14:28,750

floors that were on fire now with

390

00:14:32,490 --> 00:14:30,310

building seven obviously as a bit is a

391

00:14:34,139 --> 00:14:32,500

bit less clear and people who don't know

392

00:14:36,689 --> 00:14:34,149

about building seven they will sometimes

393

00:14:38,880 --> 00:14:36,699

need to look at the video and if you

394

00:14:40,380 --> 00:14:38,890

don't know anything at all it looks like

395

00:14:45,030 --> 00:14:40,390

it's a controlled demolition so I think

396

00:14:46,319 --> 00:14:45,040

it's gonna be easier there but again the

397

00:14:48,360 --> 00:14:46,329

people who are on the ground of the day

398

00:14:49,710 --> 00:14:48,370

yeah from what I know is like you know

399

00:14:52,470 --> 00:14:49,720

the plot of them knew it was going to

400

00:14:54,420 --> 00:14:52,480

collapse because they could see the big

401
00:14:57,900 --> 00:14:54,430
hole in the side on the southwest corner

402
00:15:00,210 --> 00:14:57,910
and that it was leaning a bit and it was

403
00:15:01,380 --> 00:15:00,220
making lots of noises with laws falling

404
00:15:03,240 --> 00:15:01,390
and things and it was all these fires

405
00:15:05,400 --> 00:15:03,250
and so it wasn't a huge surprise went

406
00:15:07,500 --> 00:15:05,410
when he fell you know it was on fire

407
00:15:09,480 --> 00:15:07,510
after all and it was hit by World Trade

408
00:15:11,009 --> 00:15:09,490
Center seven so they think why would we

409
00:15:14,400 --> 00:15:11,019
test for explosives there's obvious why

410
00:15:15,960 --> 00:15:14,410
it fell so it's a problem you can never

411
00:15:16,949 --> 00:15:15,970
really get past though I think because

412
00:15:18,840 --> 00:15:16,959
if you've got people who are suspicious

413
00:15:23,370 --> 00:15:18,850

they're always gonna think that this is

414

00:15:25,889 --> 00:15:23,380

evidence of a conspiracy I mean a couple

415

00:15:27,990 --> 00:15:25,899

points but that's when you really have

416

00:15:30,720 --> 00:15:28,000

to dig in and see if things on their

417

00:15:31,800 --> 00:15:30,730

face make sense like these are priori

418

00:15:33,689 --> 00:15:31,810

assumptions or if there's really

419

00:15:34,800 --> 00:15:33,699

something more to it Adam and I for

420

00:15:36,630 --> 00:15:34,810

instance we did

421

00:15:40,260 --> 00:15:36,640

an article together where we did look at

422

00:15:43,220 --> 00:15:40,270

the building's ability to withstand jet

423

00:15:45,660 --> 00:15:43,230

liner and backs and when we did that

424

00:15:46,650 --> 00:15:45,670

what we showed is that really a lot of

425

00:15:48,900 --> 00:15:46,660

the statements that were made from

426

00:15:52,080 --> 00:15:48,910

debunkers or even Leslie Neil Leslie

427

00:15:55,350 --> 00:15:52,090

Nielsen what that's the actor that's a

428

00:15:59,130 --> 00:15:55,360

yes letter all the soffits you know he

429

00:16:01,200 --> 00:15:59,140

said he didn't see a molten metal at

430

00:16:04,470 --> 00:16:01,210

Ground Zero then videos came out that he

431

00:16:06,090 --> 00:16:04,480

did but you know it's like the debunking

432

00:16:08,000 --> 00:16:06,100

side of it seemed to argue that they

433

00:16:11,700 --> 00:16:08,010

were only designed for a slow-moving

434

00:16:15,090 --> 00:16:11,710

impact not loaded with fuel like those

435

00:16:17,430 --> 00:16:15,100

word that a 707 and a 747 are comparable

436

00:16:20,460 --> 00:16:17,440

and we showed a lot of that to not be

437

00:16:23,610 --> 00:16:20,470

correct and that what I do understand

438

00:16:25,350 --> 00:16:23,620

you know people would look at if you

439

00:16:27,510 --> 00:16:25,360

want to respond good no that's that with

440

00:16:29,430 --> 00:16:27,520

a they say it was designed to withstand

441

00:16:30,870 --> 00:16:29,440

the impact of a plane and the thing is

442

00:16:33,270 --> 00:16:30,880

he did we certain the impact of the

443

00:16:34,770 --> 00:16:33,280

plane at the they could have you know

444

00:16:37,170 --> 00:16:34,780

planes could have hit the building like

445

00:16:38,880 --> 00:16:37,180

that in three different spots and it

446

00:16:40,920 --> 00:16:38,890

would have been fine

447

00:16:42,870 --> 00:16:40,930

we wouldn't be fine if we wouldn't have

448

00:16:45,270 --> 00:16:42,880

fallen I mean he fell because of the

449

00:16:46,740 --> 00:16:45,280

fire and because of the the fireproofing

450

00:16:48,990 --> 00:16:46,750

being stripped off by the impact which

451
00:16:51,570 --> 00:16:49,000
wasn't something that really he had done

452
00:16:52,800 --> 00:16:51,580
a detailed analysis off they said

453
00:16:54,570 --> 00:16:52,810
lightly and the biggest problem would be

454
00:16:56,340 --> 00:16:54,580
the fire but I don't think they ever did

455
00:16:57,600 --> 00:16:56,350
like yeah this was back in the sixties

456
00:16:59,370 --> 00:16:57,610
when they when they designed the

457
00:17:02,220 --> 00:16:59,380
building they didn't really have the

458
00:17:05,610 --> 00:17:02,230
same you know bio simulation software

459
00:17:07,290 --> 00:17:05,620
and finite element analysis of that yeah

460
00:17:09,120 --> 00:17:07,300
detail that they were needed to be able

461
00:17:12,740 --> 00:17:09,130
to tell if it could withstand a

462
00:17:17,010 --> 00:17:12,750
sustained fire so yeah it was designed

463
00:17:19,740 --> 00:17:17,020

to withstand a jet impact and it did so

464

00:17:23,400 --> 00:17:19,750

you know I don't really I always think

465

00:17:25,020 --> 00:17:23,410

that arguments a little bit specious but

466

00:17:26,429 --> 00:17:25,030

I mean it's funny that one argument

467

00:17:28,050 --> 00:17:26,439

brings up another though then you get

468

00:17:29,670 --> 00:17:28,060

some fire [h__h] it's like also the

469

00:17:31,050 --> 00:17:29,680

Hartford fire proofing was required to

470

00:17:35,190 --> 00:17:31,060

be knocked off and then there's

471

00:17:37,980 --> 00:17:35,200

rebuttals of that and you know I mean

472

00:17:40,260 --> 00:17:37,990

you think that it was only designed to

473

00:17:42,150 --> 00:17:40,270

take the plane impact and then it was

474

00:17:45,120 --> 00:17:42,160

supposed to collapse in the 15 seconds

475

00:17:48,120 --> 00:17:45,130

like like it did I mean well it was

476

00:17:49,740 --> 00:17:48,130

designed to house I don't smell this

477

00:17:52,020 --> 00:17:49,750

the one the one you know he said that it

478

00:17:54,450 --> 00:17:52,030

would it would fly through it like a

479

00:17:57,000 --> 00:17:54,460

mosquito netting it withstands several

480

00:17:58,380 --> 00:17:57,010

impacts and I think said Stan and he

481

00:18:00,240 --> 00:17:58,390

meant with sting and like they would put

482

00:18:05,310 --> 00:18:00,250

the fires out then and then it would be

483

00:18:06,600 --> 00:18:05,320

there to be repaired and but in and one

484

00:18:07,770 --> 00:18:06,610

thing I like with the I know we're kind

485

00:18:11,310 --> 00:18:07,780

of getting into the weeds here a little

486

00:18:14,280 --> 00:18:11,320

bit but you just brought up the the

487

00:18:17,790 --> 00:18:14,290

insulation being knocked off and if you

488

00:18:20,850 --> 00:18:17,800

look at the steel in the pile afterwards

489

00:18:21,750 --> 00:18:20,860

it almost invariably has no insulation

490

00:18:24,900 --> 00:18:21,760

left on it

491

00:18:31,020 --> 00:18:24,910

from the collapse basically so if the

492

00:18:33,270 --> 00:18:31,030

collapse no silver bonds no the entire

493

00:18:35,430 --> 00:18:33,280

building lie everywhere on it like you

494

00:18:37,110 --> 00:18:35,440

couldn't see any any insulation anywhere

495

00:18:38,520 --> 00:18:37,120

like from this crops which only reached

496

00:18:40,230 --> 00:18:38,530

like a hundred miles an hour and then

497

00:18:41,970 --> 00:18:40,240

you've got a plane going it at 500 miles

498

00:18:46,110 --> 00:18:41,980

an hour you bound to get some insulation

499

00:18:48,900 --> 00:18:46,120

stripped off the beams and whatnot yeah

500

00:18:50,490 --> 00:18:48,910

there was the big explosion as well no

501
00:18:54,690 --> 00:18:50,500
think about anyways we're getting into

502
00:18:56,280 --> 00:18:54,700
details bigger problem is who's done

503
00:18:57,870 --> 00:18:56,290
this in detail there are better people

504
00:19:00,450 --> 00:18:57,880
when it comes to the demolition stuff I

505
00:19:02,400 --> 00:19:00,460
don't i I've done a lot more research

506
00:19:04,170 --> 00:19:02,410
more detailed research into NORAD in

507
00:19:05,460 --> 00:19:04,180
prior knowledge to be quite honest but

508
00:19:07,920 --> 00:19:05,470
Kevin Ryan's wanted to look too and then

509
00:19:10,080 --> 00:19:07,930
Adam Taylor Adam has tackled like he did

510
00:19:12,350 --> 00:19:10,090
a whole series for 9/11 truth debunking

511
00:19:15,030 --> 00:19:12,360
the real 9/11 mess where it's gone down

512
00:19:17,130 --> 00:19:15,040
Popular Mechanics and I'm pretty sure

513
00:19:18,330 --> 00:19:17,140

that in that series he does address the

514

00:19:20,430 --> 00:19:18,340

fire installation and gets into the

515

00:19:22,830 --> 00:19:20,440

weeds on it so it's one of those things

516

00:19:24,360 --> 00:19:22,840

I forget there was one other point I

517

00:19:27,150 --> 00:19:24,370

wanted to respond you'd said something

518

00:19:28,880 --> 00:19:27,160

about just something about the whole

519

00:19:32,010 --> 00:19:28,890

issue I don't know if you can remember

520

00:19:34,860 --> 00:19:32,020

of why or why engineers and architects

521

00:19:35,970 --> 00:19:34,870

don't get into it about it seeming silly

522

00:19:38,760 --> 00:19:35,980

there was something else you had said

523

00:19:40,290 --> 00:19:38,770

you said the whole idea that they knew

524

00:19:42,180 --> 00:19:40,300

all day it was gonna fall down I don't

525

00:19:44,070 --> 00:19:42,190

know if you wear a McQueen he has a

526

00:19:46,860 --> 00:19:44,080

paper for the Journal of 9/11 studies

527

00:19:49,440 --> 00:19:46,870

called waiting for seven he analyzes all

528

00:19:51,090 --> 00:19:49,450

that testimony from firefighters saying

529

00:19:53,580 --> 00:19:51,100

that it was going to fall that day and

530

00:19:55,890 --> 00:19:53,590

he really digs into whether most of them

531

00:19:58,260 --> 00:19:55,900

had direct observation or if just a few

532

00:20:00,930 --> 00:19:58,270

people made that call and it kind of

533

00:20:01,680 --> 00:20:00,940

filtered down through the ranks so so

534

00:20:02,820 --> 00:20:01,690

that's an

535

00:20:05,669 --> 00:20:02,830

interesting thing to look at is called

536

00:20:08,549 --> 00:20:05,679

waiting for 7:00 my professor grandma

537

00:20:10,619 --> 00:20:08,559

Queen and then the question is like we

538

00:20:11,789 --> 00:20:10,629

know that there was southwest corner

539

00:20:13,350 --> 00:20:11,799

damage and I think that's why the

540

00:20:15,029 --> 00:20:13,360

building slumps a lot of people in the

541

00:20:16,710 --> 00:20:15,039

truth mood don't even want to admit that

542

00:20:19,470 --> 00:20:16,720

they just came straight down and that

543

00:20:20,820 --> 00:20:19,480

said they mean to the south as long as

544

00:20:23,129 --> 00:20:20,830

it came down there was a hole in the

545

00:20:25,830 --> 00:20:23,139

building but like Craig partners from

546

00:20:26,999 --> 00:20:25,840

the fire department he said yeah I saw a

547

00:20:28,019 --> 00:20:27,009

hole in the building I didn't see a hole

548

00:20:30,389 --> 00:20:28,029

big enough to bring down a building

549

00:20:32,190 --> 00:20:30,399

though so you get difference of opinion

550

00:20:33,600 --> 00:20:32,200

within the ranks that too and obviously

551
00:20:35,700 --> 00:20:33,610
there have been firefighters come

552
00:20:38,700 --> 00:20:35,710
forward from that day I wouldn't say

553
00:20:40,409 --> 00:20:38,710
it's a tremendous amount like like with

554
00:20:43,080 --> 00:20:40,419
the architects and engineers but there

555
00:20:44,940 --> 00:20:43,090
are quite a stye knew maybe a hundred

556
00:20:47,249 --> 00:20:44,950
there might be more in a little there

557
00:20:48,899 --> 00:20:47,259
was there was their husband and FDNY

558
00:20:51,990 --> 00:20:48,909
come forward that thinks things are

559
00:20:57,769 --> 00:20:52,000
strange as well so it's not just crazy

560
00:20:59,430 --> 00:20:57,779
ones I neither yeah I think within any

561
00:21:01,139 --> 00:20:59,440
profession like obviously those

562
00:21:02,909 --> 00:21:01,149
firefighters and the steel workers the

563
00:21:04,519 --> 00:21:02,919

euro is gonna find people who have like

564

00:21:06,629 --> 00:21:04,529

differing opinions and different

565

00:21:10,320 --> 00:21:06,639

experiences you know a lot of people

566

00:21:12,379 --> 00:21:10,330

there on the day they heard things that

567

00:21:15,419 --> 00:21:12,389

they interpreted as being explosions

568

00:21:16,830 --> 00:21:15,429

some some of them before the towers

569

00:21:18,990 --> 00:21:16,840

collapsed and some of them while the

570

00:21:21,119 --> 00:21:19,000

towers were collapsing and some people

571

00:21:23,279 --> 00:21:21,129

even claim that they heard explosions

572

00:21:25,769 --> 00:21:23,289

before the planes hit the building which

573

00:21:27,799 --> 00:21:25,779

is an interesting one but sure right I

574

00:21:31,889 --> 00:21:27,809

think it's kind of a difficult one to

575

00:21:34,259 --> 00:21:31,899

substantiate but there's the one

576

00:21:37,919 --> 00:21:34,269

explosion where the person the fire

577

00:21:39,990 --> 00:21:37,929

department person says we got to get

578

00:21:41,730 --> 00:21:40,000

back some people think he says sevens

579

00:21:42,960 --> 00:21:41,740

exploding some people think he says the

580

00:21:45,539 --> 00:21:42,970

building's exploding but they're

581

00:21:47,970 --> 00:21:45,549

definitely by World Trade Center seven

582

00:21:50,009 --> 00:21:47,980

when you listen to that explosion and

583

00:21:51,899 --> 00:21:50,019

compare it to a shape charge they sound

584

00:21:54,330 --> 00:21:51,909

very similar the thing is that's taking

585

00:21:56,249 --> 00:21:54,340

place much earlier in the day if

586

00:21:58,529 --> 00:21:56,259

building 7 was blown up people have

587

00:22:01,289 --> 00:21:58,539

proposed the idea that they that it was

588

00:22:02,999 --> 00:22:01,299

either a dud and didn't go off all at

589

00:22:04,499 --> 00:22:03,009

one time or that they had purpose like

590

00:22:06,269 --> 00:22:04,509

pre weakening throughout the day

591

00:22:08,190 --> 00:22:06,279

Barry Jennings talks about hearing

592

00:22:10,109 --> 00:22:08,200

explosions throughout the day he talks

593

00:22:11,850 --> 00:22:10,119

about stepping over bodies in the World

594

00:22:14,250 --> 00:22:11,860

Trade Center 7 which there aren't

595

00:22:17,100 --> 00:22:14,260

supposed to be any bodies yes

596

00:22:19,020 --> 00:22:17,110

for how do you guys know letting

597

00:22:21,150 --> 00:22:19,030

testament is from one guy but you can

598

00:22:24,420 --> 00:22:21,160

say this bit is correct it's like what's

599

00:22:26,430 --> 00:22:24,430

the gist name danny jowenko the the

600

00:22:28,110 --> 00:22:26,440

dutch demolition expert he said that

601
00:22:30,840 --> 00:22:28,120
building 7 was a it looked like a

602
00:22:33,180 --> 00:22:30,850
controlled demolition right but he also

603
00:22:35,730 --> 00:22:33,190
said that buildings 1 & 2 did not look

604
00:22:37,070 --> 00:22:35,740
like controlled demolition right which

605
00:22:40,440 --> 00:22:37,080
they don't they don't look like they

606
00:22:42,060 --> 00:22:40,450
exploded hands could have laid he didn't

607
00:22:44,910 --> 00:22:42,070
just say it didn't look like it is that

608
00:22:46,290 --> 00:22:44,920
there was no way that they they would do

609
00:22:48,740 --> 00:22:46,300
a demolition like that because it was

610
00:22:50,790 --> 00:22:48,750
just ridiculous

611
00:22:52,830 --> 00:22:50,800
yeah it's gonna say something else I'm

612
00:22:55,370 --> 00:22:52,840
cold then you have partner on your side

613
00:22:57,540 --> 00:22:55,380

you have Janey Janey Vinko but the

614

00:23:00,030 --> 00:22:57,550

markle's oh the head of controlled

615

00:23:01,530 --> 00:23:00,040

demolition incorporate they don't think

616

00:23:03,450 --> 00:23:01,540

it was controlled demolitions they are

617

00:23:05,130 --> 00:23:03,460

demolition experts but there's also

618

00:23:06,900 --> 00:23:05,140

there's also demolition experts within

619

00:23:08,580 --> 00:23:06,910

the ranks of a mile of troops who maybe

620

00:23:10,080 --> 00:23:08,590

not to the extent of those individuals

621

00:23:11,760 --> 00:23:10,090

but they did demolitions for the

622

00:23:14,880 --> 00:23:11,770

military for instance things like that

623

00:23:16,320 --> 00:23:14,890

so yeah you get it on both sides but

624

00:23:18,480 --> 00:23:16,330

that's the thing there is a debate it's

625

00:23:21,390 --> 00:23:18,490

a legitimate debate enough I mean I

626
00:23:23,130 --> 00:23:21,400
would think just though though the whole

627
00:23:24,870 --> 00:23:23,140
Z study makes this a legitimate debate

628
00:23:26,400 --> 00:23:24,880
as far as World Trade Center 7 I know

629
00:23:29,070 --> 00:23:26,410
you're not particularly impressed with

630
00:23:31,170 --> 00:23:29,080
what you see there's or it's funny

631
00:23:32,760 --> 00:23:31,180
because I look at the same models that

632
00:23:34,890 --> 00:23:32,770
you look at and I see something

633
00:23:37,550 --> 00:23:34,900
different reality is not the same for

634
00:23:39,930 --> 00:23:37,560
everybody the way they view it like well

635
00:23:41,460 --> 00:23:39,940
the wood Lots on that the whole see

636
00:23:42,750 --> 00:23:41,470
bought the whole city study this is like

637
00:23:46,110 --> 00:23:42,760
a study that architects and engineers

638
00:23:47,610 --> 00:23:46,120

for 9/11 truth paid I don't know how it

639

00:23:49,230 --> 00:23:47,620

works but they paid the University of

640

00:23:52,140 --> 00:23:49,240

Alaska three hundred and sixteen

641

00:23:56,460 --> 00:23:52,150

thousand dollars to do a study like the

642

00:23:58,080 --> 00:23:56,470

finance to study and professor hull see

643

00:24:00,450 --> 00:23:58,090

there was a guy leading it and he had

644

00:24:03,000 --> 00:24:00,460

two graduate students working on it one

645

00:24:05,700 --> 00:24:03,010

of whom left's half way through and they

646

00:24:08,040 --> 00:24:05,710

built some models of the World Trade

647

00:24:11,280 --> 00:24:08,050

Center the investigated a variety of

648

00:24:13,230 --> 00:24:11,290

things like you know whether this

649

00:24:16,590 --> 00:24:13,240

certain connection would have failed the

650

00:24:19,080 --> 00:24:16,600

the connection between a 2001 the girder

651
00:24:21,210 --> 00:24:19,090
and column 79 and then they did these

652
00:24:22,770 --> 00:24:21,220
these full-scale models which is the

653
00:24:25,200 --> 00:24:22,780
main thing that I critiqued though they

654
00:24:27,390 --> 00:24:25,210
had these models of World Trade Center 7

655
00:24:30,900 --> 00:24:27,400
they have a small paper model of

656
00:24:34,250 --> 00:24:30,910
World Trade Center seven here but the

657
00:24:37,110 --> 00:24:34,260
thing that looks so strange to me about

658
00:24:39,210 --> 00:24:37,120
their models is that they claim that

659
00:24:41,310 --> 00:24:39,220
they did what's called dynamic analysis

660
00:24:43,920 --> 00:24:41,320
of the model which is where you simulate

661
00:24:47,910 --> 00:24:43,930
the movement response of the building

662
00:24:49,500 --> 00:24:47,920
and you know if a gooda bends and then

663
00:24:52,200 --> 00:24:49,510

fails it will fall and hit will hit all

664

00:24:53,760 --> 00:24:52,210

the girders it accounts for the actual

665

00:24:55,290 --> 00:24:53,770

movement of the building as a whole its

666

00:24:56,460 --> 00:24:55,300

momentum and they have this one

667

00:24:58,650 --> 00:24:56,470

animation that they say as a dynamic

668

00:25:00,870 --> 00:24:58,660

response it just basically consists of

669

00:25:02,669 --> 00:25:00,880

the building just tilting over perfectly

670

00:25:04,410 --> 00:25:02,679

straightly to the site and I kind of

671

00:25:07,919 --> 00:25:04,420

like at an angle actually more like like

672

00:25:09,900 --> 00:25:07,929

this over the bottom half and the bottom

673

00:25:11,610 --> 00:25:09,910

one the bottom third and the bottom

674

00:25:13,350 --> 00:25:11,620

third isn't connected to the top and

675

00:25:15,240 --> 00:25:13,360

there's no collision between the two and

676

00:25:17,730 --> 00:25:15,250

it just looks like all they did was take

677

00:25:20,070 --> 00:25:17,740

a 3d model and then just add it like a

678

00:25:21,210 --> 00:25:20,080

rotation translation transform to move

679

00:25:25,880 --> 00:25:21,220

the top half of it

680

00:25:30,240 --> 00:25:25,890

he doesn't actually look like a dynamic

681

00:25:31,620 --> 00:25:30,250

analysis I'm not an expert on these

682

00:25:33,390 --> 00:25:31,630

things I know there's the three

683

00:25:35,610 --> 00:25:33,400

animations they have I wondered about

684

00:25:38,220 --> 00:25:35,620

those other two myself I think the one

685

00:25:39,840 --> 00:25:38,230

is where they have all the columns they

686

00:25:41,549 --> 00:25:39,850

you know they kind of show them kind of

687

00:25:42,780 --> 00:25:41,559

go like this and then it has a global

688

00:25:44,520 --> 00:25:42,790

collapse instead of a progressive

689

00:25:46,200 --> 00:25:44,530

collapse I didn't know if the other two

690

00:25:47,700 --> 00:25:46,210

were like steps and then learning

691

00:25:49,830 --> 00:25:47,710

something else and I really got to dig

692

00:25:52,470 --> 00:25:49,840

into this more but I get what you're

693

00:25:54,270 --> 00:25:52,480

saying it it looks odd a lot of this

694

00:25:56,220 --> 00:25:54,280

computer modeling stuff looks odd I will

695

00:25:57,690 --> 00:25:56,230

say I think he's working with better

696

00:26:00,840 --> 00:25:57,700

software than they were working with

697

00:26:03,870 --> 00:26:00,850

back then about eight years eight years

698

00:26:05,760 --> 00:26:03,880

prior or ten years prior it was in 2008

699

00:26:07,530 --> 00:26:05,770

what do you think is you think his

700

00:26:08,700 --> 00:26:07,540

renderings would look better of him if

701
00:26:10,049 --> 00:26:08,710
you look at them you competitiveness

702
00:26:12,120 --> 00:26:10,059
they've got this incredibly detailed

703
00:26:14,070 --> 00:26:12,130
model and it has things falling off all

704
00:26:15,570 --> 00:26:14,080
over the place columns collapsing that's

705
00:26:17,730 --> 00:26:15,580
defamation of all kinds of things

706
00:26:21,660 --> 00:26:17,740
whereas if you look at his model even

707
00:26:23,570 --> 00:26:21,670
the the money shot version that you see

708
00:26:27,320 --> 00:26:23,580
on the cover you see this weird kind of

709
00:26:29,790 --> 00:26:27,330
egg breaking butterflying hinged

710
00:26:31,230 --> 00:26:29,800
penthouse that just kind of sways open

711
00:26:32,490 --> 00:26:31,240
and then lowers itself down into the

712
00:26:34,230 --> 00:26:32,500
building and then the other penthouse

713
00:26:36,090 --> 00:26:34,240

slows itself down into the building and

714

00:26:38,610 --> 00:26:36,100

then the building can have falls down he

715

00:26:40,509 --> 00:26:38,620

doesn't even show the columns being

716

00:26:43,239 --> 00:26:40,519

removed like what comms did he actually

717

00:26:45,729 --> 00:26:43,249

or any defamation whatsoever it's all

718

00:26:47,699 --> 00:26:45,739

very strange and you know if I've made a

719

00:26:49,719 --> 00:26:47,709

little video explaining what my

720

00:26:52,690 --> 00:26:49,729

objections are and I sent it to

721

00:26:54,940 --> 00:26:52,700

Professor hull see this morning yeah

722

00:26:56,799 --> 00:26:54,950

because you know I wouldn't I'd like to

723

00:26:59,979 --> 00:26:56,809

get a response but I'd be melting before

724

00:27:05,349 --> 00:26:59,989

a few times and never got any response

725

00:27:07,869 --> 00:27:05,359

but I think I could see if maybe I could

726

00:27:09,489 --> 00:27:07,879

get somebody to listen to me yeah I'd

727

00:27:11,169 --> 00:27:09,499

like them to if they can improve what

728

00:27:12,459 --> 00:27:11,179

they've done through suggestions right

729

00:27:16,659 --> 00:27:12,469

now that's what they're supposed to do

730

00:27:18,699 --> 00:27:16,669

yeah but I do like good NIST they admit

731

00:27:20,819 --> 00:27:18,709

it the stiffeners the shear starts the

732

00:27:22,749 --> 00:27:20,829

steel plates he put all that into his

733

00:27:24,549 --> 00:27:22,759

analysis and I think that has to be

734

00:27:26,589 --> 00:27:24,559

something that's that's better would you

735

00:27:28,509 --> 00:27:26,599

not agree with that well it's better to

736

00:27:29,649 --> 00:27:28,519

have things in the note but you know you

737

00:27:31,959 --> 00:27:29,659

still got to come back to the end

738

00:27:33,759 --> 00:27:31,969

results it doesn't look like it's an

739

00:27:35,919 --> 00:27:33,769

actual analysis it looks like it's an

740

00:27:38,499 --> 00:27:35,929

animation so a little confused as to

741

00:27:40,299 --> 00:27:38,509

what what's going on there and yeah this

742

00:27:43,089 --> 00:27:40,309

is kind of technical but he does like a

743

00:27:45,459 --> 00:27:43,099

static analysis stuff deke analysis and

744

00:27:48,399 --> 00:27:45,469

the dynamic analysis and the static

745

00:27:50,379 --> 00:27:48,409

analysis is meant to be like working out

746

00:27:52,329 --> 00:27:50,389

what the forces and deformations are of

747

00:27:54,099 --> 00:27:52,339

a building it's not really meant to

748

00:27:55,930 --> 00:27:54,109

simulate a building while it is

749

00:27:58,569 --> 00:27:55,940

collapsing you use it to see if a

750

00:28:00,069 --> 00:27:58,579

building will collapse but he simulates

751
00:28:02,649 --> 00:28:00,079
it all the way until the building is

752
00:28:04,329 --> 00:28:02,659
like at 45 degrees and he has the

753
00:28:06,249 --> 00:28:04,339
columns at the back of the building all

754
00:28:09,759 --> 00:28:06,259
stretched out to three times the natural

755
00:28:11,349 --> 00:28:09,769
length which which it'd be an impossible

756
00:28:13,149 --> 00:28:11,359
thing to do in the simulation those

757
00:28:14,440 --> 00:28:13,159
columns would have would have failed but

758
00:28:17,829 --> 00:28:14,450
you know in his thing they're still

759
00:28:20,289 --> 00:28:17,839
providing support so it's it seems I

760
00:28:22,389 --> 00:28:20,299
don't know it just seems like it's it's

761
00:28:24,190 --> 00:28:22,399
inexplicable how he actually got the

762
00:28:26,379 --> 00:28:24,200
results that he did you know he claims

763
00:28:29,589 --> 00:28:26,389

that you did but I think my feeling with

764

00:28:31,930 --> 00:28:29,599

that this is kind of speculative is the

765

00:28:34,899 --> 00:28:31,940

his graduate students build these models

766

00:28:38,769 --> 00:28:34,909

he didn't build the models and they did

767

00:28:40,539 --> 00:28:38,779

yes yeah I'm sure he'll I had some input

768

00:28:43,449 --> 00:28:40,549

on it but you know I don't think he he

769

00:28:46,269 --> 00:28:43,459

did the work himself and I think he told

770

00:28:49,149 --> 00:28:46,279

them to do tests they did them they gave

771

00:28:50,979 --> 00:28:49,159

some animations back to him and then he

772

00:28:52,149 --> 00:28:50,989

just said oh well this looks like this

773

00:28:52,780 --> 00:28:52,159

and let's try something else and they

774

00:28:54,490 --> 00:28:52,790

went back on for

775

00:28:57,580 --> 00:28:54,500

often did a bunch of things and this is

776

00:29:00,400 --> 00:28:57,590

what they ended up with and I don't I

777

00:29:02,080 --> 00:29:00,410

don't really understand how a dynamic

778

00:29:04,270 --> 00:29:02,090

simulation could have ended up with this

779

00:29:05,290 --> 00:29:04,280

result anyway this is probably boring to

780

00:29:06,670 --> 00:29:05,300

most people because it's a bit too

781

00:29:08,050 --> 00:29:06,680

technical but this is something that's

782

00:29:10,720 --> 00:29:08,060

playing out in the 9/11 truth movement

783

00:29:13,000 --> 00:29:10,730

right now is the architects and

784

00:29:15,790 --> 00:29:13,010

engineers for 9/11 truth are really

785

00:29:17,620 --> 00:29:15,800

pushing this this thing this the study

786

00:29:21,070 --> 00:29:17,630

by Professor Halsey on the University of

787

00:29:22,840 --> 00:29:21,080

Alaska and it's kind of like they're at

788

00:29:25,530 --> 00:29:22,850

another last-gasp in a way it's like

789

00:29:27,490 --> 00:29:25,540

they lost a great white hope of

790

00:29:29,200 --> 00:29:27,500

architects and engineers for 9/11 truth

791

00:29:31,810 --> 00:29:29,210

in that they they think this is the

792

00:29:36,190 --> 00:29:31,820

thing that's going to prove once and for

793

00:29:37,660 --> 00:29:36,200

all that I don't think you can prove

794

00:29:39,040 --> 00:29:37,670

anything at the end of the day even if

795

00:29:40,450 --> 00:29:39,050

you like one of these studies more than

796

00:29:42,070 --> 00:29:40,460

the other I mean they're computer

797

00:29:44,890 --> 00:29:42,080

modeling they're not forensics it's not

798

00:29:47,080 --> 00:29:44,900

chemical analysis it's not suspects it's

799

00:29:50,140 --> 00:29:47,090

not good lead to something else but will

800

00:29:53,710 --> 00:29:50,150

it I would say probably not I have some

801
00:29:55,810 --> 00:29:53,720
hope but it's we're a long way away from

802
00:29:58,480 --> 00:29:55,820
this thing at this point that's a

803
00:29:59,950 --> 00:29:58,490
problem I just I do what I think is the

804
00:30:02,170 --> 00:29:59,960
right thing to do whether I think it'll

805
00:30:04,840 --> 00:30:02,180
succeed sometimes they're not

806
00:30:07,360 --> 00:30:04,850
again I think NIST admitted a lot that

807
00:30:09,720 --> 00:30:07,370
he tried to include I don't know all the

808
00:30:12,910 --> 00:30:09,730
technical digging into this whole thing

809
00:30:14,920 --> 00:30:12,920
it's still comments right now I missed

810
00:30:16,900 --> 00:30:14,930
again we can't check there's not that I

811
00:30:18,910 --> 00:30:16,910
would be able to anyway but they they're

812
00:30:21,010 --> 00:30:18,920
they didn't release their their modeling

813
00:30:22,810 --> 00:30:21,020

to be able like with what they did they

814

00:30:24,430 --> 00:30:22,820

withheld it from the public as far as I

815

00:30:26,380 --> 00:30:24,440

know is is going to be open to the

816

00:30:30,070 --> 00:30:26,390

public to test these things for people

817

00:30:32,170 --> 00:30:30,080

to do it themselves so I think that's a

818

00:30:34,090 --> 00:30:32,180

good thing as well yeah yeah well

819

00:30:36,190 --> 00:30:34,100

hopefully someone will look into it the

820

00:30:38,200 --> 00:30:36,200

problem is of course the the software

821

00:30:40,090 --> 00:30:38,210

they use sap2000 I think it costs about

822

00:30:42,360 --> 00:30:40,100

three thousand dollars so it's a bit

823

00:30:45,760 --> 00:30:42,370

beyond my budget it may be a

824

00:30:49,960 --> 00:30:45,770

crowdsourcing thing but they use to

825

00:30:52,090 --> 00:30:49,970

programs yeah yeah reference and they're

826

00:30:55,210 --> 00:30:52,100

probably both that pricing right they

827

00:30:57,520 --> 00:30:55,220

use abacus and sap2000 the two software

828

00:30:58,960 --> 00:30:57,530

programs abacus they use for the more

829

00:31:01,630 --> 00:30:58,970

detailed analysis where they were

830

00:31:03,460 --> 00:31:01,640

studying the behavior of joints easily

831

00:31:05,090 --> 00:31:03,470

and what their response would be for an

832

00:31:07,999 --> 00:31:05,100

individual connection for

833

00:31:10,399 --> 00:31:08,009

good at a column connection and then

834

00:31:13,700 --> 00:31:10,409

they use that to formulate spring models

835

00:31:15,139 --> 00:31:13,710

for the connections but what they use

836

00:31:17,210 --> 00:31:15,149

for the global collapse models the

837

00:31:19,399 --> 00:31:17,220

dynamic ones which are the kind of the

838

00:31:24,190 --> 00:31:19,409

blue and red models that you see that

839

00:31:27,710 --> 00:31:24,200

were sap2000 which is a fairly standard

840

00:31:30,200 --> 00:31:27,720

software for that type of thing NIST use

841

00:31:32,269 --> 00:31:30,210

a thing called they use abacus as well I

842

00:31:34,490 --> 00:31:32,279

know that wasn't abacus it was what it

843

00:31:36,769 --> 00:31:34,500

was now was it obvious I think that used

844

00:31:38,869 --> 00:31:36,779

advocates for the first one still yes

845

00:31:40,909 --> 00:31:38,879

they did they use Erica's for the

846

00:31:44,690 --> 00:31:40,919

similar detailed thing but then the user

847

00:31:46,220 --> 00:31:44,700

thing called LS diner for the the global

848

00:31:49,700 --> 00:31:46,230

collapse models and that's they use the

849

00:31:51,529 --> 00:31:49,710

natural dynamic analysis who think and

850

00:31:54,009 --> 00:31:51,539

done linear dynamic analysis which again

851
00:31:58,879 --> 00:31:54,019
is another more technical distinction

852
00:32:01,240 --> 00:31:58,889
but you said you you've worked with

853
00:32:03,830 --> 00:32:01,250
architects and engineers for 9/11 truth

854
00:32:06,259 --> 00:32:03,840
written for them I've done some

855
00:32:07,789 --> 00:32:06,269
conference calls and whatnot I was on

856
00:32:10,220 --> 00:32:07,799
the writing team for a little while so

857
00:32:12,950 --> 00:32:10,230
yeah so you said you you wrote some of

858
00:32:14,119 --> 00:32:12,960
the the facts the frequently asked

859
00:32:15,529 --> 00:32:14,129
questions on architects and engineers

860
00:32:17,600 --> 00:32:15,539
for 9/11 truth how did that come about

861
00:32:20,869 --> 00:32:17,610
is this like your specific area of

862
00:32:22,159 --> 00:32:20,879
expertise I mean it's stuff like the

863
00:32:24,200 --> 00:32:22,169

ones that I covered like the one was

864

00:32:26,029 --> 00:32:24,210

about squibs that's something that the

865

00:32:27,590 --> 00:32:26,039

debunkers blog we've talked about a lot

866

00:32:31,009 --> 00:32:27,600

about I mean so it wasn't really hard

867

00:32:32,629 --> 00:32:31,019

the way I approached it was well I think

868

00:32:34,279 --> 00:32:32,639

a lot of people would ask a lot of the

869

00:32:36,560 --> 00:32:34,289

kind of questions that debunkers bring

870

00:32:38,240 --> 00:32:36,570

up they kind of there was people to push

871

00:32:39,799 --> 00:32:38,250

back on that I was like I don't think so

872

00:32:42,440 --> 00:32:39,809

so much I think a lot of the things that

873

00:32:44,480 --> 00:32:42,450

debunkers bring up as our common sense

874

00:32:47,299 --> 00:32:44,490

questions that just the general public

875

00:32:49,159 --> 00:32:47,309

has sometimes so that's how I got those

876

00:32:50,690 --> 00:32:49,169

to go through and that way the one was

877

00:32:52,249 --> 00:32:50,700

about sounds of explosions and whether

878

00:32:53,690 --> 00:32:52,259

they're consistent I talked about a

879

00:32:56,419 --> 00:32:53,700

little bit of what I include there just

880

00:32:59,539 --> 00:32:56,429

earlier and then the squib issue whether

881

00:33:01,070 --> 00:32:59,549

whether there's a building popping out

882

00:33:03,019 --> 00:33:01,080

because it's falling down or because

883

00:33:07,580 --> 00:33:03,029

there's pre-planned explosives ahead of

884

00:33:09,590 --> 00:33:07,590

the demolition and collapse and then the

885

00:33:12,980 --> 00:33:09,600

other one wasn't technical at all it was

886

00:33:15,289 --> 00:33:12,990

why it was just why did a you know and

887

00:33:17,990 --> 00:33:15,299

why does a Nylund truth represent so few

888

00:33:19,940 --> 00:33:18,000

architects and engineers of the total

889

00:33:21,470 --> 00:33:19,950

so kind of touched on those things a

890

00:33:22,910 --> 00:33:21,480

little bit with the squib issue I mean

891

00:33:26,720 --> 00:33:22,920

the biggest thing is some of them were

892

00:33:28,490 --> 00:33:26,730

like 40 to 60 stories down so you can

893

00:33:32,000 --> 00:33:28,500

say this escaping air if you want I

894

00:33:34,730 --> 00:33:32,010

don't know it seems odd to me but yeah I

895

00:33:37,880 --> 00:33:34,740

can see how it what seemed odd but yeah

896

00:33:39,890 --> 00:33:37,890

another thing that you know I don't

897

00:33:41,660 --> 00:33:39,900

again too much detail there but you know

898

00:33:44,660 --> 00:33:41,670

we're talking about is the the puffs of

899

00:33:46,700 --> 00:33:44,670

smoke and dust and debris in some

900

00:33:47,630 --> 00:33:46,710

instances that shoot out of the sides of

901
00:33:49,910 --> 00:33:47,640
the building

902
00:33:52,490 --> 00:33:49,920
World Trade Center like lower than the

903
00:33:55,670 --> 00:33:52,500
actual kind of collapse wave so it looks

904
00:33:58,760 --> 00:33:55,680
like it could be some kind of explosion

905
00:34:00,800 --> 00:33:58,770
but it also looks like a jet of stuff

906
00:34:02,360 --> 00:34:00,810
shooting out you know rather than an

907
00:34:04,220 --> 00:34:02,370
explosion but you know I guess some

908
00:34:07,580 --> 00:34:04,230
explosions do kind of look like that but

909
00:34:10,060 --> 00:34:07,590
they're rather large the the

910
00:34:12,740 --> 00:34:10,070
conventional theory is that this is

911
00:34:15,020 --> 00:34:12,750
overpressure which is basically very

912
00:34:18,200 --> 00:34:15,030
high pressure has blown the windows out

913
00:34:20,750 --> 00:34:18,210

and the objection like you just said

914

00:34:23,480 --> 00:34:20,760

there is that it's too far ahead of the

915

00:34:25,280 --> 00:34:23,490

collapse wave so far ahead too too

916

00:34:27,860 --> 00:34:25,290

powerful too fast and that it's actually

917

00:34:29,960 --> 00:34:27,870

crushed building components that it's it

918

00:34:31,880 --> 00:34:29,970

looks like it's blown up materials and

919

00:34:35,120 --> 00:34:31,890

not just puffs of dust or puffs of air

920

00:34:36,980 --> 00:34:35,130

so I won't put it that's the argument

921

00:34:40,520 --> 00:34:36,990

shell I mean it gets a little more

922

00:34:41,690 --> 00:34:40,530

intensive but I mean I do see these and

923

00:34:44,150 --> 00:34:41,700

controlled demolitions that's the other

924

00:34:45,500 --> 00:34:44,160

thing so it would be consistent but then

925

00:34:47,990 --> 00:34:45,510

you have like David Chandler he thinks

926

00:34:49,190 --> 00:34:48,000

he sees them every single spot as the

927

00:34:50,810 --> 00:34:49,200

buildings coming down I couldn't imagine

928

00:34:52,580 --> 00:34:50,820

there'd be that many explosives in the

929

00:34:54,050 --> 00:34:52,590

towers if it was I mean if there were

930

00:34:56,180 --> 00:34:54,060

explosions in the towers I would imagine

931

00:34:58,520 --> 00:34:56,190

that they're not as many as some truth

932

00:34:59,960 --> 00:34:58,530

or to think I think gravity has to be

933

00:35:01,760 --> 00:34:59,970

tuned a lot of work and there happen

934

00:35:04,250 --> 00:35:01,770

o'problem was something crushing down to

935

00:35:06,080 --> 00:35:04,260

some extent I mean but those are those

936

00:35:07,940 --> 00:35:06,090

were tall buildings coming down and I'm

937

00:35:10,700 --> 00:35:07,950

sure they grab some of that work you

938

00:35:13,100 --> 00:35:10,710

know so I don't think there had to be

939

00:35:15,110 --> 00:35:13,110

like tons of explosives on every single

940

00:35:18,200 --> 00:35:15,120

floor for instance you could do some pre

941

00:35:20,750 --> 00:35:18,210

weakening and explosions every so many

942

00:35:23,480 --> 00:35:20,760

floors just to bring it down and grab

943

00:35:26,540 --> 00:35:23,490

yes I was looking at some of the history

944

00:35:27,860 --> 00:35:26,550

of 9/11 truth and DNA to the history of

945

00:35:31,099 --> 00:35:27,870

architects and engineers for 9/11 truth

946

00:35:32,719 --> 00:35:31,109

and some of the blog's that existed

947

00:35:34,130 --> 00:35:32,729

kind of as precursors I think we still

948

00:35:36,349 --> 00:35:34,140

exist right now which ones they are now

949

00:35:40,489 --> 00:35:36,359

one of them had this theory about the

950

00:35:42,019 --> 00:35:40,499

ceiling tiles or being explosives and it

951

00:35:43,849 --> 00:35:42,029

was literally or all of the ceiling

952

00:35:46,359 --> 00:35:43,859

tiles in the entire building had been

953

00:35:49,009 --> 00:35:46,369

replaced with explosive ceiling tiles

954

00:35:51,289 --> 00:35:49,019

and you know is this a ridiculous thing

955

00:35:53,209 --> 00:35:51,299

but yeah at the time people people

956

00:35:54,890 --> 00:35:53,219

believe to somebody some people they

957

00:35:57,949 --> 00:35:54,900

believe oh that's that's actually Jim

958

00:35:59,420 --> 00:35:57,959

Hoffman maybe that's it it's I think

959

00:36:02,239 --> 00:35:59,430

that he got criticized a lot for that

960

00:36:04,190 --> 00:36:02,249

but he was he was tasked with come up

961

00:36:07,099 --> 00:36:04,200

with something hype at the end maybe and

962

00:36:09,109 --> 00:36:07,109

I don't think he had to go to that place

963

00:36:10,579 --> 00:36:09,119

though I mean like I said you know you

964

00:36:12,319 --> 00:36:10,589

have some strategically placed

965

00:36:14,660 --> 00:36:12,329

explosives gravity does some of the work

966

00:36:16,130 --> 00:36:14,670

some incendiaries maybe place throughout

967

00:36:18,009 --> 00:36:16,140

the building I don't know how I don't

968

00:36:22,099 --> 00:36:18,019

know what the minimum would be required

969

00:36:23,779 --> 00:36:22,109

but I mean I just think that perhaps

970

00:36:27,170 --> 00:36:23,789

it's not as much as some people would

971

00:36:29,359 --> 00:36:27,180

like to you know yeah you can see more

972

00:36:32,749 --> 00:36:29,369

in a boat but are better for our case

973

00:36:36,529 --> 00:36:32,759

that blesses warm that kind of thing cuz

974

00:36:38,660 --> 00:36:36,539

it would be easier yeah and I don't know

975

00:36:39,979 --> 00:36:38,670

what minimum requirement would be but I

976

00:36:41,839 --> 00:36:39,989

just it just seems to me that maybe

977

00:36:43,309 --> 00:36:41,849

people overestimate a little bit and how

978

00:36:46,339 --> 00:36:43,319

about this this is interesting

979

00:36:48,559 --> 00:36:46,349

Rocky Creek is a 9/11 truther guy he

980

00:36:50,059 --> 00:36:48,569

didn't discount the possibility that he

981

00:36:51,829 --> 00:36:50,069

was asked could foreign terrorists at

982

00:36:54,529 --> 00:36:51,839

play with this and he said it's possible

983

00:36:56,299 --> 00:36:54,539

maybe you had Muhammad auda looking

984

00:36:58,249 --> 00:36:56,309

around the building's apparently was it

985

00:37:01,130 --> 00:36:58,259

was one of my caramel rough ham Willy

986

00:37:03,380 --> 00:37:01,140

Rodriguez the janitor said he saw one of

987

00:37:05,390 --> 00:37:03,390

the what he recognized later to be one

988

00:37:07,819 --> 00:37:05,400

of the hijackers probably wasn't hata

989

00:37:10,609 --> 00:37:07,829

actually but you can look us up and he

990

00:37:11,870 --> 00:37:10,619

said the person had asked him what you

991

00:37:14,150 --> 00:37:11,880

know where how many bathrooms are on

992

00:37:16,789 --> 00:37:14,160

this floor things like that so there's

993

00:37:19,359 --> 00:37:16,799

an interesting thing I mean hoodie seems

994

00:37:22,279 --> 00:37:19,369

highly implausible to me that they were

995

00:37:26,449 --> 00:37:22,289

plant explosives has like months ahead

996

00:37:27,859 --> 00:37:26,459

of time and then fly the planes in a

997

00:37:30,319 --> 00:37:27,869

specific day and then trigger the

998

00:37:31,910 --> 00:37:30,329

explosions correctly I just I don't know

999

00:37:33,410 --> 00:37:31,920

that seems even more even more

1000

00:37:35,569 --> 00:37:33,420

outlandish than the idea of the US

1001
00:37:37,519 --> 00:37:35,579
government doing it today just why

1002
00:37:39,229 --> 00:37:37,529
wouldn't they yeah they they before

1003
00:37:42,170 --> 00:37:39,239
they're they just had one truck bomb

1004
00:37:43,960 --> 00:37:42,180
though they years in the 1993 World

1005
00:37:46,720 --> 00:37:43,970
Trade Center attacks

1006
00:37:47,920 --> 00:37:46,730
and I didn't work so they would you know

1007
00:37:49,090 --> 00:37:47,930
like I could certainly imagine them

1008
00:37:52,690 --> 00:37:49,100
trying to blow up the World Trade Center

1009
00:37:54,880 --> 00:37:52,700
again that it just seemed so did the FBI

1010
00:37:57,010 --> 00:37:54,890
give that bomb to that today have you

1011
00:37:59,590 --> 00:37:57,020
looked into that claim yeah I mean the

1012
00:38:03,040 --> 00:37:59,600
guy says some guys say something about

1013
00:38:06,790 --> 00:38:03,050

her but you know it's did he not get

1014

00:38:09,310 --> 00:38:06,800

someone on tape yeah I think that the

1015

00:38:13,000 --> 00:38:09,320

guy the the 93 bomber I'm not sure who

1016

00:38:15,270 --> 00:38:13,010

it was exactly I says he has some

1017

00:38:19,210 --> 00:38:15,280

contact with the FBI

1018

00:38:21,400 --> 00:38:19,220

and they hear FBI handler I can't

1019

00:38:22,660 --> 00:38:21,410

remember the details of it but I guess

1020

00:38:25,660 --> 00:38:22,670

people come lucky shot but there's

1021

00:38:31,480 --> 00:38:25,670

certainly a theory around that well the

1022

00:38:33,250 --> 00:38:31,490

New York Times yeah but uh let me ask

1023

00:38:36,070 --> 00:38:33,260

you this Co cuz I saw you on Rogan one

1024

00:38:38,370 --> 00:38:36,080

of the one of the criticisms I saw

1025

00:38:40,600 --> 00:38:38,380

people in the comments making was yes

1026
00:38:42,580 --> 00:38:40,610
conspiracy theories there's too many

1027
00:38:45,280 --> 00:38:42,590
there they're overblown this kind of

1028
00:38:46,930 --> 00:38:45,290
thing but do you believe what you

1029
00:38:47,590 --> 00:38:46,940
believe criminal conspiracies happen

1030
00:38:49,980 --> 00:38:47,600
correct

1031
00:38:51,760 --> 00:38:49,990
oh yeah don't believe any major

1032
00:38:55,180 --> 00:38:51,770
conspiracy theories is there any that

1033
00:38:58,180 --> 00:38:55,190
you give credence to well you know the

1034
00:39:00,370 --> 00:38:58,190
conspiracy theories I believe are to a

1035
00:39:03,100 --> 00:39:00,380
large extent the ones that most people

1036
00:39:05,980 --> 00:39:03,110
would just accept a fairly obvious there

1037
00:39:08,230 --> 00:39:05,990
is a lot of essentially corruption and

1038
00:39:14,110 --> 00:39:08,240

graft in the government and in industry

1039

00:39:16,870 --> 00:39:14,120

and in amongst the rich people in the

1040

00:39:19,000 --> 00:39:16,880

country that's you know people are doing

1041

00:39:21,370 --> 00:39:19,010

things for their own self interests and

1042

00:39:24,550 --> 00:39:21,380

not really the interests of the people

1043

00:39:27,070 --> 00:39:24,560

at large so you get corruption in terms

1044

00:39:28,930 --> 00:39:27,080

of people trying to influence

1045

00:39:31,960 --> 00:39:28,940

politicians like you'll get the prison

1046

00:39:34,410 --> 00:39:31,970

lobby trying to influence politicians to

1047

00:39:37,000 --> 00:39:34,420

increase mandatory minimum sentences

1048

00:39:39,160 --> 00:39:37,010

where and they do this in a variety of

1049

00:39:40,990 --> 00:39:39,170

ways and some of them can a verge on

1050

00:39:43,840 --> 00:39:41,000

bribery and we know also that

1051
00:39:45,010 --> 00:39:43,850
politicians accept bribes because it's

1052
00:39:47,200 --> 00:39:45,020
happened in the past and people are

1053
00:39:48,580 --> 00:39:47,210
being prosecuted for it so we know for

1054
00:39:50,800 --> 00:39:48,590
like a bunch of politicians of being

1055
00:39:52,090 --> 00:39:50,810
caught for accepting bribes there must

1056
00:39:55,120 --> 00:39:52,100
be a bunch of politicians who are

1057
00:39:57,640 --> 00:39:55,130
essentially you know getting getting

1058
00:39:59,230 --> 00:39:57,650
bribes engaging getting money for

1059
00:40:01,480 --> 00:39:59,240
their position Prather for information

1060
00:40:02,890 --> 00:40:01,490
or for influencing legislation so I

1061
00:40:05,200 --> 00:40:02,900
think that type of thing happens you

1062
00:40:10,420 --> 00:40:05,210
know I think this this in within

1063
00:40:14,999 --> 00:40:10,430

industry there's deception of what's

1064

00:40:18,220 --> 00:40:15,009

going on in industry like Big Pharma

1065

00:40:20,829 --> 00:40:18,230

probably pumps up the value you know Big

1066

00:40:23,559 --> 00:40:20,839

Pharma wants the FDA to approve its

1067

00:40:25,630 --> 00:40:23,569

drugs it's possible that there's some

1068

00:40:27,489 --> 00:40:25,640

fudging of results going on here and

1069

00:40:29,680 --> 00:40:27,499

there I don't know if there's I don't

1070

00:40:30,910 --> 00:40:29,690

really have any good evidence so that

1071

00:40:33,099 --> 00:40:30,920

but it's quite possible you know this

1072

00:40:35,680 --> 00:40:33,109

destroy really really strong profit

1073

00:40:37,089 --> 00:40:35,690

motive and there's may be executives

1074

00:40:38,890 --> 00:40:37,099

who've got all their money in stock

1075

00:40:41,470 --> 00:40:38,900

options and they know that if this Doug

1076

00:40:42,880 --> 00:40:41,480

drug doesn't get pushed through then you

1077

00:40:44,950 --> 00:40:42,890

know they're gonna lose like twenty

1078

00:40:46,210 --> 00:40:44,960

million dollars personally so they

1079

00:40:49,390 --> 00:40:46,220

personally have a very strong incentive

1080

00:40:52,269 --> 00:40:49,400

to do some little fudging do some little

1081

00:40:53,799 --> 00:40:52,279

pushing to do something to get this this

1082

00:40:55,720 --> 00:40:53,809

this drug pass I don't know if it

1083

00:40:57,220 --> 00:40:55,730

actually happens but you know there's

1084

00:40:59,259 --> 00:40:57,230

certainly a very strong incentive for

1085

00:41:01,480 --> 00:40:59,269

that that to happen and we know there's

1086

00:41:04,329 --> 00:41:01,490

loads of it they want to then cover up a

1087

00:41:05,920 --> 00:41:04,339

cure or or not do research into herbal

1088

00:41:07,720 --> 00:41:05,930

medicines because it would cut their

1089

00:41:10,690 --> 00:41:07,730

profit motive deal would you go that for

1090

00:41:14,140 --> 00:41:10,700

no I I wouldn't really go that far

1091

00:41:16,569 --> 00:41:14,150

because yeah if herbal medicines could

1092

00:41:19,239 --> 00:41:16,579

be a cure for something you know they

1093

00:41:21,609 --> 00:41:19,249

would sell them drug companies sell lots

1094

00:41:22,989 --> 00:41:21,619

of very cheap stuff and drugs go generic

1095

00:41:25,479 --> 00:41:22,999

after well wouldn't they try to take an

1096

00:41:26,620 --> 00:41:25,489

extract from it synthesize it and make

1097

00:41:28,059 --> 00:41:26,630

it their own though they wouldn't sell

1098

00:41:31,359 --> 00:41:28,069

it there's no money to remain on a

1099

00:41:33,519 --> 00:41:31,369

cheaper yeah well herbs are problematic

1100

00:41:35,289 --> 00:41:33,529

as a medicine because the the amount the

1101
00:41:37,930 --> 00:41:35,299
dosage amounts that you get in a nervous

1102
00:41:39,880 --> 00:41:37,940
is very variable if you if you if you

1103
00:41:42,039 --> 00:41:39,890
look at nutritional supplements which

1104
00:41:44,700 --> 00:41:42,049
are sold kind of like you know not

1105
00:41:47,920 --> 00:41:44,710
evaluated by the FDA but they really are

1106
00:41:49,539 --> 00:41:47,930
saying this will cure your cancer the

1107
00:41:51,759 --> 00:41:49,549
actual amount of the active ingredient

1108
00:41:54,640 --> 00:41:51,769
is very variable in those so yeah and

1109
00:41:55,690 --> 00:41:54,650
you know the broader topic there this is

1110
00:41:57,970 --> 00:41:55,700
something I talked about in a recent

1111
00:42:03,400 --> 00:41:57,980
podcast was that if there was a cure for

1112
00:42:05,229 --> 00:42:03,410
cancer you know would people really be

1113
00:42:06,789 --> 00:42:05,239

that evil that they would cover up a

1114

00:42:09,549 --> 00:42:06,799

cure for cancer just to make a bit more

1115

00:42:11,630 --> 00:42:09,559

money when they're already making tens

1116

00:42:15,620 --> 00:42:11,640

of millions of dollars the person

1117

00:42:16,760 --> 00:42:15,630

I think cancers pretty it's a

1118

00:42:18,620 --> 00:42:16,770

complicated thing though because there's

1119

00:42:20,450 --> 00:42:18,630

so many different types of cancers and

1120

00:42:23,810 --> 00:42:20,460

they each can be treated so much

1121

00:42:25,520 --> 00:42:23,820

differently that's not like say breast

1122

00:42:27,470 --> 00:42:25,530

cancer you know if there's a cure for

1123

00:42:29,500 --> 00:42:27,480

breast cancer which kills like hundreds

1124

00:42:33,560 --> 00:42:29,510

of thousands of women every year and

1125

00:42:36,260 --> 00:42:33,570

including the wives and mothers of and

1126
00:42:38,180 --> 00:42:36,270
the actual CEOs and people who work in

1127
00:42:40,460 --> 00:42:38,190
industry it's this thing that affects

1128
00:42:42,980 --> 00:42:40,470
everybody you know everybody knows

1129
00:42:44,690 --> 00:42:42,990
someone who's being affected by you

1130
00:42:46,940 --> 00:42:44,700
one of the more common forms of cancer

1131
00:42:52,720 --> 00:42:46,950
it's got the berrera ones it just seems

1132
00:42:55,130 --> 00:42:52,730
that that isn't really a good motive

1133
00:42:56,960 --> 00:42:55,140
well it doesn't it doesn't have to be a

1134
00:42:58,280 --> 00:42:56,970
conspiracy that's evil in that case

1135
00:43:01,190 --> 00:42:58,290
though either could just be like if you

1136
00:43:02,450 --> 00:43:01,200
look at the history of medical history

1137
00:43:03,800 --> 00:43:02,460
there's a lot of things we've learned

1138
00:43:06,290 --> 00:43:03,810

over time where we were doing things

1139

00:43:07,520 --> 00:43:06,300

completely wrong that could be there

1140

00:43:09,500 --> 00:43:07,530

could be better ways that we could be

1141

00:43:11,120 --> 00:43:09,510

doing things yeah I would had to scan

1142

00:43:13,300 --> 00:43:11,130

other countries medical bills they do

1143

00:43:16,580 --> 00:43:13,310

take different approaches than they do

1144

00:43:18,500 --> 00:43:16,590

so think cuz there is that there's that

1145

00:43:20,060 --> 00:43:18,510

documentary it's called cancer curable

1146

00:43:21,950 --> 00:43:20,070

now but if you look at it it doesn't say

1147

00:43:23,450 --> 00:43:21,960

oh here's a pill that cures cancer it's

1148

00:43:25,700 --> 00:43:23,460

just here's some different ways

1149

00:43:29,660 --> 00:43:25,710

different physicians are going in the

1150

00:43:31,460 --> 00:43:29,670

world has this can be cured there's some

1151

00:43:33,800 --> 00:43:31,470

that are quite treatable and you know

1152

00:43:36,230 --> 00:43:33,810

some that respond very well to various

1153

00:43:38,300 --> 00:43:36,240

therapists like chemotherapy so it's not

1154

00:43:39,650 --> 00:43:38,310

you know cancer itself like you say is a

1155

00:43:42,260 --> 00:43:39,660

very complicated thing it's essentially

1156

00:43:44,270 --> 00:43:42,270

lots of different diseases and each

1157

00:43:47,390 --> 00:43:44,280

individual one it's gonna have like a

1158

00:43:49,400 --> 00:43:47,400

different different treatment is this

1159

00:43:51,200 --> 00:43:49,410

something you blog about this time yeah

1160

00:43:54,650 --> 00:43:51,210

yeah I blog about alternative health

1161

00:43:56,630 --> 00:43:54,660

things yeah my ex-wife was a nurse and I

1162

00:43:58,850 --> 00:43:56,640

took a lot of took a lot of interest in

1163

00:44:01,760 --> 00:43:58,860

that so I bounced things back and forth

1164

00:44:03,680 --> 00:44:01,770

with her interesting yeah no I don't

1165

00:44:05,900 --> 00:44:03,690

have any problem with people that I mean

1166

00:44:07,580 --> 00:44:05,910

for instance Western medicine you can't

1167

00:44:09,380 --> 00:44:07,590

there's it's the only way you're gonna

1168

00:44:12,140 --> 00:44:09,390

get diagnosed with anything whatever you

1169

00:44:15,200 --> 00:44:12,150

want to do it's second to none when it

1170

00:44:17,240 --> 00:44:15,210

comes finding how it's wrong and even

1171

00:44:19,160 --> 00:44:17,250

now when it comes to alternative

1172

00:44:21,380 --> 00:44:19,170

treatments Western medicine is more and

1173

00:44:22,700 --> 00:44:21,390

more accepting of trying anything you

1174

00:44:24,800 --> 00:44:22,710

want to try as long it doesn't because

1175

00:44:25,550 --> 00:44:24,810

it doesn't conflict with what they'd

1176

00:44:26,840 --> 00:44:25,560

like to do

1177

00:44:29,450 --> 00:44:26,850

everybody makes their own decisions yeah

1178

00:44:30,950 --> 00:44:29,460

it's something I talk about I'm not so

1179

00:44:32,570 --> 00:44:30,960

sure we see exactly eye-to-eye but I

1180

00:44:35,090 --> 00:44:32,580

give it I get where you're coming from I

1181

00:44:37,040 --> 00:44:35,100

try to find middle ground with as many

1182

00:44:40,100 --> 00:44:37,050

things as I can something you mentioned

1183

00:44:42,590 --> 00:44:40,110

is that you do understand that you know

1184

00:44:44,660 --> 00:44:42,600

power breeds corruption and that's that

1185

00:44:46,340 --> 00:44:44,670

is an mo of the world that's kind of why

1186

00:44:48,110 --> 00:44:46,350

I say that there's an intellectual case

1187

00:44:50,750 --> 00:44:48,120

for conspiracism if somebody wants to

1188

00:44:52,940 --> 00:44:50,760

think that conspiracies are the norm and

1189

00:44:54,470 --> 00:44:52,950

not an aberration I think there's a case

1190

00:44:56,900 --> 00:44:54,480

that can be made for that because I I

1191

00:44:59,210 --> 00:44:56,910

just think that's how power operates it

1192

00:45:01,430 --> 00:44:59,220

I you know you can find studies where

1193

00:45:03,110 --> 00:45:01,440

those it'll show you that people that

1194

00:45:04,580 --> 00:45:03,120

get into positions of power that seek

1195

00:45:06,800 --> 00:45:04,590

those positions they tend to be like

1196

00:45:09,110 --> 00:45:06,810

sociopathic narcissistic kind of people

1197

00:45:10,910 --> 00:45:09,120

and so yeah will they get together with

1198

00:45:13,370 --> 00:45:10,920

other people that are like that and make

1199

00:45:16,970 --> 00:45:13,380

plans in secret to do bad things yeah a

1200

00:45:18,200 --> 00:45:16,980

lot of times I get caught but and then

1201
00:45:19,790 --> 00:45:18,210
there's things you can look at like

1202
00:45:21,050 --> 00:45:19,800
there's there's an article called 33

1203
00:45:23,720 --> 00:45:21,060
conspiracy theories that turned out to

1204
00:45:26,600 --> 00:45:23,730
be true there's another one called 42

1205
00:45:27,740 --> 00:45:26,610
admitted false flags and one of those is

1206
00:45:29,470 --> 00:45:27,750
very interesting I don't know if you

1207
00:45:32,180 --> 00:45:29,480
ever heard of Operation Gladio

1208
00:45:34,630 --> 00:45:32,190
but Gladio it was a false flag terror

1209
00:45:38,060 --> 00:45:34,640
program set up by the CIA and NATO and

1210
00:45:39,860 --> 00:45:38,070
it was eventually exposed but it wasn't

1211
00:45:42,140 --> 00:45:39,870
just a single event it was an ongoing

1212
00:45:44,420 --> 00:45:42,150
operation where it for decades it was

1213
00:45:45,830 --> 00:45:44,430

and they there was hundreds of innocent

1214

00:45:47,570 --> 00:45:45,840

people killed in bombings and whatnot

1215

00:45:49,250 --> 00:45:47,580

and they blamed it on other groups so

1216

00:45:50,990 --> 00:45:49,260

they were literal false flags and it's

1217

00:45:52,010 --> 00:45:51,000

pretty it's not disputed as far as I

1218

00:45:54,200 --> 00:45:52,020

know I don't know what anybody that's

1219

00:45:56,030 --> 00:45:54,210

trying to dispute it at this point so

1220

00:45:58,850 --> 00:45:56,040

it's things like that like I just

1221

00:46:00,650 --> 00:45:58,860

interviewed Larry Pinckney use of one of

1222

00:46:03,590 --> 00:46:00,660

the original Black Panthers back in the

1223

00:46:05,090 --> 00:46:03,600

60s like yeah he doesn't like them now

1224

00:46:07,010 --> 00:46:05,100

but he said so when somebody wants to

1225

00:46:07,280 --> 00:46:07,020

question Sandy Hook or whatever it may

1226

00:46:11,630 --> 00:46:07,290

be

1227

00:46:13,550 --> 00:46:11,640

of what they do but they don't just have

1228

00:46:15,260 --> 00:46:13,560

the right to do that they they have an

1229

00:46:18,110 --> 00:46:15,270

obligation to look at anything and say

1230

00:46:19,490 --> 00:46:18,120

is something wrong here and I thought

1231

00:46:21,620 --> 00:46:19,500

that'd be something you might want to

1232

00:46:23,030 --> 00:46:21,630

talk about with that like an I agree

1233

00:46:25,580 --> 00:46:23,040

every time there's a shooting right

1234

00:46:27,230 --> 00:46:25,590

false flag people come out of the

1235

00:46:29,150 --> 00:46:27,240

woodwork and say false flag even when

1236

00:46:32,300 --> 00:46:29,160

there's no evidence of it sometimes

1237

00:46:33,740 --> 00:46:32,310

though I like with parkland I think it

1238

00:46:35,090 --> 00:46:33,750

was there were reports some people

1239

00:46:36,500 --> 00:46:35,100

saying there were three shooters and

1240

00:46:37,700 --> 00:46:36,510

things like that I was talking to a

1241

00:46:39,200 --> 00:46:37,710

friend of mine the other day and we were

1242

00:46:39,470 --> 00:46:39,210

trying to figure out why is that if it's

1243

00:46:40,849 --> 00:46:39,480

not

1244

00:46:43,400 --> 00:46:40,859

false-flag why don't we get reports like

1245

00:46:46,010 --> 00:46:43,410

that I said could it be people saw the

1246

00:46:47,390 --> 00:46:46,020

police come in and they're in black and

1247

00:46:49,790 --> 00:46:47,400

they're actually going after the shooter

1248

00:46:51,770 --> 00:46:49,800

and so people some people misconstrue

1249

00:46:54,890 --> 00:46:51,780

that and think there's multiple shooters

1250

00:46:56,359 --> 00:46:54,900

could be yeah I've thought about yeah

1251

00:46:58,010 --> 00:46:56,369

that particular question quite a bit

1252

00:46:59,420 --> 00:46:58,020

actually because it's something that

1253

00:47:01,400 --> 00:46:59,430

always happened you always get these

1254

00:47:03,680 --> 00:47:01,410

reports and multiple shooters you

1255

00:47:05,120 --> 00:47:03,690

remember Sandy Hook they were looking

1256

00:47:07,460 --> 00:47:05,130

for other shooters like there was like a

1257

00:47:10,340 --> 00:47:07,470

man in the water and turned out to be

1258

00:47:12,260 --> 00:47:10,350

just yeah there's no follow-up that's

1259

00:47:14,060 --> 00:47:12,270

the problem yeah love that yeah well

1260

00:47:15,320 --> 00:47:14,070

they identified the guy and let him go

1261

00:47:16,700 --> 00:47:15,330

because he was like I think one was a

1262

00:47:18,380 --> 00:47:16,710

cop was coming through the woods but

1263

00:47:20,990 --> 00:47:18,390

anyway like I think these things always

1264

00:47:22,700 --> 00:47:21,000

happen by every single mass shooting

1265

00:47:26,000 --> 00:47:22,710

yeah regardless of what you think about

1266

00:47:28,310 --> 00:47:26,010

it they they starts out with possible

1267

00:47:30,170 --> 00:47:28,320

multiple shooters and he never pens out

1268

00:47:32,950 --> 00:47:30,180

is or was just one shooter and I think

1269

00:47:35,480 --> 00:47:32,960

the reason for that is kind of an

1270

00:47:38,120 --> 00:47:35,490

abundance of caution on the police's

1271

00:47:39,980 --> 00:47:38,130

part the police will always assume that

1272

00:47:41,930 --> 00:47:39,990

a crime scene is going to be active even

1273

00:47:45,109 --> 00:47:41,940

though the shot and killed you know or

1274

00:47:46,849 --> 00:47:45,119

arrested somebody they don't know you

1275

00:47:48,530 --> 00:47:46,859

know for a start is this the actual guy

1276

00:47:50,450 --> 00:47:48,540

who did all this shooting earlier and

1277

00:47:51,859 --> 00:47:50,460

they don't know like if there is

1278

00:47:53,270 --> 00:47:51,869

somebody else so they're gonna be saying

1279

00:47:55,190 --> 00:47:53,280

you know what they're looking to see if

1280

00:47:58,670 --> 00:47:55,200

there's another shooter and I think it's

1281

00:48:00,020 --> 00:47:58,680

very very easily for that situation that

1282

00:48:02,150 --> 00:48:00,030

the police are looking for another

1283

00:48:05,020 --> 00:48:02,160

shooter to get interpreted as being

1284

00:48:07,910 --> 00:48:05,030

there is another shooter and then people

1285

00:48:09,470 --> 00:48:07,920

yes a chaotic situation people are

1286

00:48:11,390 --> 00:48:09,480

running every every direction the

1287

00:48:14,120 --> 00:48:11,400

hearing gunshots gunshots are echoing

1288

00:48:15,770 --> 00:48:14,130

from different places and it can sound

1289

00:48:17,420 --> 00:48:15,780

like there's multiple people shooting

1290

00:48:18,590 --> 00:48:17,430

and they could run one way and they

1291

00:48:20,120 --> 00:48:18,600

could hear from somewhere else and they

1292

00:48:21,440 --> 00:48:20,130

say like how I heard it over here and

1293

00:48:23,540 --> 00:48:21,450

then I heard it over here

1294

00:48:25,310 --> 00:48:23,550

yeah there's multiple shooters but they

1295

00:48:27,650 --> 00:48:25,320

never pan out and the fact that they

1296

00:48:30,560 --> 00:48:27,660

never pan out I think just indicates how

1297

00:48:31,640 --> 00:48:30,570

easy it is for people to falsely make

1298

00:48:35,359 --> 00:48:31,650

that assumption that there's multiple

1299

00:48:36,920 --> 00:48:35,369

shooters even in the Las Vegas shooting

1300

00:48:40,359 --> 00:48:36,930

you know where the guy was shooting from

1301
00:48:43,880 --> 00:48:40,369
the top of I was there one of the hotels

1302
00:48:47,330 --> 00:48:43,890
the cameras cool now anyway through

1303
00:48:50,210 --> 00:48:47,340
there via Mandalay Bay yeah he was

1304
00:48:51,350 --> 00:48:50,220
shooting from he had two hotel rooms and

1305
00:48:53,360 --> 00:48:51,360
he was shooting from

1306
00:48:55,880 --> 00:48:53,370
and if you listen to the audio of that

1307
00:48:58,280 --> 00:48:55,890
like you hear it's bang bang bang and

1308
00:48:59,900 --> 00:48:58,290
here that's boo boo boo boo and he

1309
00:49:01,550 --> 00:48:59,910
sounds like there's two different sets

1310
00:49:03,440 --> 00:49:01,560
of gunshots coming from from different

1311
00:49:05,060 --> 00:49:03,450
places and that's very compelling to

1312
00:49:06,680 --> 00:49:05,070
people but when you look at the actual

1313
00:49:07,820 --> 00:49:06,690

timeline what was happening he was like

1314

00:49:10,550 --> 00:49:07,830

first of all he was shooting at the

1315

00:49:12,410 --> 00:49:10,560

crowd and then later he was like he was

1316

00:49:15,440 --> 00:49:12,420

shooting at the security guard I think

1317

00:49:18,020 --> 00:49:15,450

it was outside his door so you've got

1318

00:49:19,850 --> 00:49:18,030

this two very very different audio

1319

00:49:21,860 --> 00:49:19,860

things cuz one is out of a window always

1320

00:49:24,830 --> 00:49:21,870

kind of like you know almost down the

1321

00:49:26,510 --> 00:49:24,840

hallway a little bit but because yeah

1322

00:49:28,960 --> 00:49:26,520

things like that happen you get these

1323

00:49:31,220 --> 00:49:28,970

these different different types of audio

1324

00:49:32,810 --> 00:49:31,230

it's very very easy for people to think

1325

00:49:34,760 --> 00:49:32,820

there's multiple shooters you get things

1326

00:49:36,350 --> 00:49:34,770

like you can see flashes coming from

1327

00:49:38,300 --> 00:49:36,360

other places and people say oh it's

1328

00:49:39,500 --> 00:49:38,310

coming from over there yeah they're

1329

00:49:41,330 --> 00:49:39,510

running for their lives they've got no

1330

00:49:42,560 --> 00:49:41,340

idea like what's actually going on they

1331

00:49:44,810 --> 00:49:42,570

don't have time to sit there and

1332

00:49:46,280 --> 00:49:44,820

carefully analyze where where the shots

1333

00:49:47,630 --> 00:49:46,290

are coming from they just think they

1334

00:49:48,560 --> 00:49:47,640

they sort of see something and they

1335

00:49:52,490 --> 00:49:48,570

think that's the shooter

1336

00:49:54,980 --> 00:49:52,500

so I think it's very very easy before it

1337

00:49:59,810 --> 00:49:54,990

to appear to be multiple shooters and

1338

00:50:01,460 --> 00:49:59,820

you can go back to JFK you know the kind

1339

00:50:05,300 --> 00:50:01,470

of mother of all conspiracy theories in

1340

00:50:07,660 --> 00:50:05,310

America and people think that if you

1341

00:50:11,930 --> 00:50:07,670

have it in the canvas the eyewitnesses

1342

00:50:14,420 --> 00:50:11,940

in Dealey Plaza and I think it was like

1343

00:50:17,060 --> 00:50:14,430

a certain percentage think that there

1344

00:50:18,800 --> 00:50:17,070

was three shots cinema centuries think

1345

00:50:20,090 --> 00:50:18,810

there was more than three shots some of

1346

00:50:21,890 --> 00:50:20,100

them think it was less than three shots

1347

00:50:23,000 --> 00:50:21,900

and some of them think it came from over

1348

00:50:25,490 --> 00:50:23,010

here some of them think it came from

1349

00:50:27,290 --> 00:50:25,500

over there so you know even even way

1350

00:50:29,770 --> 00:50:27,300

back then you got the exact same thing

1351

00:50:32,420 --> 00:50:29,780

going on you have a single shooter

1352

00:50:34,370 --> 00:50:32,430

presumably but you've got lots of people

1353

00:50:38,210 --> 00:50:34,380

thinking there are multiple shooters so

1354

00:50:39,380 --> 00:50:38,220

it's gonna happen like that I I agree

1355

00:50:42,590 --> 00:50:39,390

with you generally well you're saying I

1356

00:50:44,600 --> 00:50:42,600

think it's overblown but that doesn't

1357

00:50:46,310 --> 00:50:44,610

mean that that I don't think that some

1358

00:50:47,780 --> 00:50:46,320

of them are still very interesting I do

1359

00:50:49,610 --> 00:50:47,790

i i've never heard the explanation you

1360

00:50:52,000 --> 00:50:49,620

just brought up for Vegas I know Mike

1361

00:50:56,030 --> 00:50:52,010

Adams from natural news he said he did a

1362

00:50:57,560 --> 00:50:56,040

audio analysis you know I don't know did

1363

00:51:00,740 --> 00:50:57,570

you look at what he had said I did it

1364

00:51:02,980 --> 00:51:00,750

was it was Mike I remember exactly but

1365

00:51:05,740 --> 00:51:02,990

it was

1366

00:51:07,090 --> 00:51:05,750

yeah okay it's interesting there was

1367

00:51:09,040 --> 00:51:07,100

there was one of the guys was involved

1368

00:51:11,530 --> 00:51:09,050

he was involved in the second House

1369

00:51:13,570 --> 00:51:11,540

Select Committee thing where that where

1370

00:51:15,130 --> 00:51:13,580

they said there was an audio you know

1371

00:51:18,690 --> 00:51:15,140

they looked at the audience so there but

1372

00:51:21,640 --> 00:51:18,700

that yeah he he actually said he saw

1373

00:51:23,800 --> 00:51:21,650

autopsy doctoring that he saw this

1374

00:51:25,990 --> 00:51:23,810

firsthand they had covered up a bigger

1375

00:51:27,130 --> 00:51:26,000

hole in his head and whatnot and he

1376

00:51:29,260 --> 00:51:27,140

wrote a whole book on it

1377

00:51:32,170 --> 00:51:29,270

again it's what's I think it's right

1378

00:51:33,820 --> 00:51:32,180

here the books called inside the

1379

00:51:35,950 --> 00:51:33,830

assassination records review board

1380

00:51:37,510 --> 00:51:35,960

inside the government's final attempt to

1381

00:51:40,420 --> 00:51:37,520

reconcile the conflicting medical

1382

00:51:41,950 --> 00:51:40,430

evidence Douglas P Horne yeah he says

1383

00:51:44,530 --> 00:51:41,960

you've actually seen doctored evidence

1384

00:51:46,300 --> 00:51:44,540

of doctor an autopsy stuff and it was

1385

00:51:47,740 --> 00:51:46,310

one of the best Gators that's an

1386

00:51:49,630 --> 00:51:47,750

interesting case because there no matter

1387

00:51:52,420 --> 00:51:49,640

what you think in a second was a second

1388

00:51:56,170 --> 00:51:52,430

investigation yes and they said that

1389

00:52:00,850 --> 00:51:56,180

there was a conspiracy yeah and actually

1390

00:52:02,640 --> 00:52:00,860

kind of you know it's JFK was in a way

1391

00:52:04,690 --> 00:52:02,650

that the start of the interest and

1392

00:52:07,120 --> 00:52:04,700

conspiracy theories and the the term

1393

00:52:08,920 --> 00:52:07,130

conspiracy theories started to come into

1394

00:52:11,530 --> 00:52:08,930

popularity around then you know some

1395

00:52:13,390 --> 00:52:11,540

people think that the CIA invented it

1396

00:52:15,700 --> 00:52:13,400

but he actually kind of slowly seemed to

1397

00:52:17,440 --> 00:52:15,710

know from that document well yeah I

1398

00:52:19,480 --> 00:52:17,450

write about that in my book and I

1399

00:52:21,190 --> 00:52:19,490

investigated that a lot and if you read

1400

00:52:22,840 --> 00:52:21,200

the document they never actually tell

1401

00:52:24,490 --> 00:52:22,850

you to use the word conspiracy theory

1402

00:52:25,960 --> 00:52:24,500

they just simply used it themselves and

1403

00:52:27,400 --> 00:52:25,970

they say what you should do with

1404

00:52:29,590 --> 00:52:27,410

conspiracy theories is you should attack

1405

00:52:31,300 --> 00:52:29,600

their arguments and try to discredit

1406

00:52:33,550 --> 00:52:31,310

them by showing that they are wrong they

1407

00:52:36,160 --> 00:52:33,560

don't actually say call them conspiracy

1408

00:52:37,660 --> 00:52:36,170

theorists they just they just use the

1409

00:52:40,630 --> 00:52:37,670

term in the same way that other people

1410

00:52:42,310 --> 00:52:40,640

actually use the term at the time you

1411

00:52:44,990 --> 00:52:42,320

know it started if you look at a graph

1412

00:52:47,070 --> 00:52:45,000

of the usage of the term in newspapers

1413

00:52:50,110 --> 00:52:47,080

[Music]

1414

00:52:54,640 --> 00:52:50,120

had suggested it to for use of their

1415

00:52:56,170 --> 00:52:54,650

assets in the media now the media though

1416

00:52:58,420 --> 00:52:56,180

that came out in the recent JFK yeah

1417

00:53:00,790 --> 00:52:58,430

yeah yeah they did what any journalists

1418

00:53:02,830 --> 00:53:00,800

that were working fairly directly for

1419

00:53:05,560 --> 00:53:02,840

yeah yeah it's interesting thing like

1420

00:53:07,510 --> 00:53:05,570

you know the propaganda arm of the

1421

00:53:09,820 --> 00:53:07,520

government essentially way to what

1422

00:53:13,510 --> 00:53:09,830

extent does that exists you know I used

1423

00:53:15,860 --> 00:53:13,520

to be a game programmer and I know

1424

00:53:17,630 --> 00:53:15,870

people that do video games that are army

1425

00:53:22,370 --> 00:53:17,640

based video games they kind of work with

1426

00:53:23,690 --> 00:53:22,380

the army in some cases to you make the

1427

00:53:25,760 --> 00:53:23,700

games more realistic but they're also

1428

00:53:27,680 --> 00:53:25,770

leading with the army and it's like is

1429

00:53:30,050 --> 00:53:27,690

this a little bit of propaganda coming

1430

00:53:32,900 --> 00:53:30,060

through in video games you know to what

1431

00:53:34,130 --> 00:53:32,910

extent is that everything going on I'm

1432

00:53:36,590 --> 00:53:34,140

kind of suspicious of anything that's

1433

00:53:38,120 --> 00:53:36,600

involving the military in terms of you

1434

00:53:41,270 --> 00:53:38,130

know their motivations for what they are

1435

00:53:42,980 --> 00:53:41,280

doing but you know that's kind of

1436

00:53:43,550 --> 00:53:42,990

getting into a broader topic so I really

1437

00:53:45,110 --> 00:53:43,560

quickly

1438

00:53:51,770 --> 00:53:45,120

something you mentioned earlier was

1439

00:53:55,220 --> 00:53:51,780

sound analysis and that remind me of you

1440

00:53:57,400 --> 00:53:55,230

know Tony's Ambati it is a guy

1441

00:53:59,600 --> 00:53:57,410

architects engineers for 9/11 truth and

1442

00:54:02,600 --> 00:53:59,610

we were having a big discussion with him

1443

00:54:06,110 --> 00:54:02,610

on Medibank where he had done some sound

1444

00:54:09,770 --> 00:54:06,120

analysis of the plas go building

1445

00:54:11,390 --> 00:54:09,780

collapse in iran this was this building

1446

00:54:13,490 --> 00:54:11,400

it was seen about half the height of the

1447

00:54:15,320 --> 00:54:13,500

building seven I think if that it was

1448

00:54:18,170 --> 00:54:15,330

only like 15 years because it was

1449

00:54:20,390 --> 00:54:18,180

collapsed from fire and Tony thought

1450

00:54:22,130 --> 00:54:20,400

that he did this this sound analysis

1451

00:54:25,310 --> 00:54:22,140

that proved that there were explosions

1452

00:54:27,500 --> 00:54:25,320

going on the yeah we looked into that in

1453

00:54:30,770 --> 00:54:27,510

a lot of detail and they turned out his

1454

00:54:32,990 --> 00:54:30,780

his analysis was completely bogus but

1455

00:54:34,820 --> 00:54:33,000

you know what's what's your opinion of

1456

00:54:36,830 --> 00:54:34,830

the the whole PLAs go things this but

1457

00:54:39,050 --> 00:54:36,840

this building in Aram this an was an old

1458

00:54:40,550 --> 00:54:39,060

building it have you know bunch of

1459

00:54:42,650 --> 00:54:40,560

people living it or you know having

1460

00:54:44,870 --> 00:54:42,660

shops in it and there was a fire and

1461

00:54:47,300 --> 00:54:44,880

it's somebody collapsed and something's

1462

00:54:48,950 --> 00:54:47,310

about it looks very similar to both

1463

00:54:52,130 --> 00:54:48,960

World Trade Center seven and the tower

1464

00:54:54,260 --> 00:54:52,140

collapses so when you think about it I

1465

00:54:55,970 --> 00:54:54,270

know what the truth movements view is on

1466

00:54:59,240 --> 00:54:55,980

it I've put that out there for people to

1467

00:55:01,430 --> 00:54:59,250

look at I and I mean generally speaking

1468

00:55:02,630 --> 00:55:01,440

with the viewers but I don't I think

1469

00:55:05,180 --> 00:55:02,640

there's evidence that that building

1470

00:55:06,860 --> 00:55:05,190

wasn't built very well which is probably

1471

00:55:08,690 --> 00:55:06,870

and it might it might a lack shear studs

1472

00:55:10,070 --> 00:55:08,700

as they thought World Trade Center seven

1473

00:55:12,620 --> 00:55:10,080

did or set it to it even though I don't

1474

00:55:14,930 --> 00:55:12,630

think there's evidence of that so it can

1475

00:55:15,950 --> 00:55:14,940

very well just be a natural collapse but

1476

00:55:18,440 --> 00:55:15,960

I would think it's because of poor

1477

00:55:19,910 --> 00:55:18,450

design and that's probably something

1478

00:55:23,210 --> 00:55:19,920

that might be quite prevalent in Iran

1479

00:55:25,870 --> 00:55:23,220

might guess I don't know yes yeah I

1480

00:55:27,940 --> 00:55:25,880

think it was pre-revolution Iran which

1481

00:55:29,890 --> 00:55:27,950

perhaps better building codes but it's

1482

00:55:33,070 --> 00:55:29,900

uh well build better building codes but

1483

00:55:34,630 --> 00:55:33,080

it fallen into disrepair I think Truman

1484

00:55:36,040 --> 00:55:34,640

wasn't yeah I think there was some

1485

00:55:38,050 --> 00:55:36,050

reports about that and then other people

1486

00:55:39,760 --> 00:55:38,060

have I I'm pretty sure I saw somebody

1487

00:55:41,530 --> 00:55:39,770

say that there was reason to think that

1488

00:55:44,380 --> 00:55:41,540

it probably didn't have good shear studs

1489

00:55:46,090 --> 00:55:44,390

and there was reports from officials

1490

00:55:49,840 --> 00:55:46,100

there that wasn't that great of shape

1491

00:55:51,850 --> 00:55:49,850

yeah all that it didn't fall that fast I

1492

00:55:53,980 --> 00:55:51,860

don't think it particularly particularly

1493

00:55:56,650 --> 00:55:53,990

for help for house small the building it

1494

00:55:58,210 --> 00:55:56,660

was on yeah there was molten metal

1495

00:56:01,690 --> 00:55:58,220

apparently and yeah there are things

1496

00:56:03,550 --> 00:56:01,700

that look like squibs so that said this

1497

00:56:05,200 --> 00:56:03,560

creates a lot of problems in a way if it

1498

00:56:08,740 --> 00:56:05,210

was actually a natural collapse because

1499

00:56:10,720 --> 00:56:08,750

it's then if this evidence like a molten

1500

00:56:12,340 --> 00:56:10,730

metal molten looking what looks like

1501
00:56:14,620 --> 00:56:12,350
molten metal we don't know much about

1502
00:56:16,060 --> 00:56:14,630
what's there no I mean we know a whole

1503
00:56:17,830 --> 00:56:16,070
lot more about what was found at World

1504
00:56:20,290 --> 00:56:17,840
Trade Center at the World Trade Center

1505
00:56:22,480 --> 00:56:20,300
and the conditions and everything so I

1506
00:56:25,890 --> 00:56:22,490
mean the the fires at Ground Zero burned

1507
00:56:27,910 --> 00:56:25,900
for a hundred days I don't you know a

1508
00:56:30,040 --> 00:56:27,920
lot of people think that's odd that they

1509
00:56:32,110 --> 00:56:30,050
burned that long but even burning out

1510
00:56:33,940 --> 00:56:32,120
you would understand why that could

1511
00:56:35,350 --> 00:56:33,950
create more molten metal but yeah why

1512
00:56:38,020 --> 00:56:35,360
why would it happen that quickly there

1513
00:56:40,360 --> 00:56:38,030

but what kind of metal is it and what's

1514

00:56:43,270 --> 00:56:40,370

a metal I mean we've got this crappy low

1515

00:56:45,790 --> 00:56:43,280

resolution video of like a excavator

1516

00:56:49,180 --> 00:56:45,800

taking something out that's glowing do

1517

00:56:52,000 --> 00:56:49,190

you you mean it in Iran or in Iran yeah

1518

00:56:54,340 --> 00:56:52,010

yeah so is do you think there wasn't

1519

00:56:58,060 --> 00:56:54,350

then perhaps or no I don't think this

1520

00:57:00,490 --> 00:56:58,070

molten steel okay in either case cuz

1521

00:57:02,170 --> 00:57:00,500

fire either case yeah neither case I

1522

00:57:05,320 --> 00:57:02,180

don't think the fire burns hard enough

1523

00:57:09,220 --> 00:57:05,330

to burn steel to melt melt steel into a

1524

00:57:11,350 --> 00:57:09,230

liquid form and you know if it did like

1525

00:57:17,830 --> 00:57:11,360

it's not gonna be there let's assume

1526

00:57:20,890 --> 00:57:17,840

let's just fire yeah exactly yeah that's

1527

00:57:22,660 --> 00:57:20,900

that's I don't really buy this molten

1528

00:57:26,470 --> 00:57:22,670

concrete idea either because conve

1529

00:57:30,490 --> 00:57:26,480

that's yeah they say to but concrete

1530

00:57:32,350 --> 00:57:30,500

encased a gun people use the term melted

1531

00:57:32,980 --> 00:57:32,360

and molten to refer to a whole bunch of

1532

00:57:36,460 --> 00:57:32,990

things

1533

00:57:39,370 --> 00:57:36,470

the end it's well I won't dig in the

1534

00:57:41,410 --> 00:57:39,380

weeds with you god no no thank you

1535

00:57:43,390 --> 00:57:41,420

go on for hours discussing this type of

1536

00:57:45,190 --> 00:57:43,400

thing countering the criticism of the

1537

00:57:47,289 --> 00:57:45,200

Warren Report they do say employing

1538

00:57:48,490 --> 00:57:47,299

property assets dancer refute the

1539

00:57:50,980 --> 00:57:48,500

attacks of critics so they don't just

1540

00:57:55,120 --> 00:57:50,990

say take on these conspiracy theories

1541

00:57:57,370 --> 00:57:55,130

they say propaganda assets should do

1542

00:58:00,519 --> 00:57:57,380

this but they don't say call them

1543

00:58:02,289 --> 00:58:00,529

conspiracy theorists so I'll concede

1544

00:58:03,700 --> 00:58:02,299

that I don't see that in my notes here

1545

00:58:05,099 --> 00:58:03,710

when I talked about it before I guess

1546

00:58:07,480 --> 00:58:05,109

that's just something I've kind of

1547

00:58:14,680 --> 00:58:07,490

latched on to assuming over the years or

1548

00:58:17,620 --> 00:58:14,690

perhaps look about it where it's cold

1549

00:58:21,069 --> 00:58:17,630

maybe conspiracy theory but the guy

1550

00:58:23,019 --> 00:58:21,079

basically makes the claim that they do

1551

00:58:25,930 --> 00:58:23,029

tell you to use the word conspiracy

1552

00:58:28,660 --> 00:58:25,940

theory but because they knew this this

1553

00:58:31,870 --> 00:58:28,670

this memo would come out eventually they

1554

00:58:34,150 --> 00:58:31,880

kind of did it in code well so this

1555

00:58:38,559 --> 00:58:34,160

question it was that term used before

1556

00:58:40,390 --> 00:58:38,569

then or yeah yeah yeah may I race in

1557

00:58:42,160 --> 00:58:40,400

spirity Terrace do people refer to

1558

00:58:44,400 --> 00:58:42,170

things like that before or was there

1559

00:58:47,950 --> 00:58:44,410

even an idea about this before the JFK

1560

00:58:50,529 --> 00:58:47,960

yeah they it was the term conspiracy

1561

00:58:53,380 --> 00:58:50,539

theory was actually synonymous with

1562

00:58:57,150 --> 00:58:53,390

another term called the the devil theory

1563

00:59:01,150 --> 00:58:57,160

and if you look at devil theory and

1564

00:59:05,430 --> 00:59:01,160

Goldwater Barry Goldwater you will see

1565

00:59:09,009 --> 00:59:05,440

people referring to Barry Goldwater's

1566

00:59:12,099 --> 00:59:09,019

response to not getting elected as a

1567

00:59:15,009 --> 00:59:12,109

devil theory and as a conspiracy theory

1568

00:59:16,569 --> 00:59:15,019

so it's kind of like a changeover in

1569

00:59:18,999 --> 00:59:16,579

devil theory wasn't super popular back

1570

00:59:21,370 --> 00:59:19,009

then the conspiracy theory was used to

1571

00:59:24,339 --> 00:59:21,380

refer to people usually on the radical

1572

00:59:25,839 --> 00:59:24,349

right in America there's a little bit of

1573

00:59:27,130 --> 00:59:25,849

research on it I discussed this in my

1574

00:59:28,839 --> 00:59:27,140

book I'm not trying to get you to buy my

1575

00:59:30,279 --> 00:59:28,849

book or anything but I do have a whole

1576

00:59:31,870 --> 00:59:30,289

chapter the first chapter is called the

1577

00:59:33,670 --> 00:59:31,880

conspiracy theory conspiracy theory

1578

00:59:37,569 --> 00:59:33,680

where I look at the history of the term

1579

00:59:39,759 --> 00:59:37,579

and yeah it was it wasn't very common

1580

00:59:41,999 --> 00:59:39,769

and I think it really was the the death

1581

00:59:44,920 --> 00:59:42,009

of JFK and all the theories around that

1582

00:59:47,589 --> 00:59:44,930

that popularized the term because he

1583

00:59:49,240 --> 00:59:47,599

wasn't just that the media was in the

1584

00:59:50,589 --> 00:59:49,250

media wasn't trying to discredit people

1585

00:59:52,240 --> 00:59:50,599

the media was describing what was

1586

00:59:53,109 --> 00:59:52,250

happening and what was happening at that

1587

00:59:56,049 --> 00:59:53,119

time was their world

1588

00:59:57,940 --> 00:59:56,059

lots of theories about a conspiracy so

1589

01:00:00,640 --> 00:59:57,950

you got a you know kept refer to these

1590

01:00:02,289 --> 01:00:00,650

these theories in some way you know what

1591

01:00:05,039 --> 01:00:02,299

so what the me just going to do there's

1592

01:00:07,210 --> 01:00:05,049

lots of theories of conspiracy around

1593

01:00:09,190 --> 01:00:07,220

jet the JFK death there's lots of

1594

01:00:10,420 --> 01:00:09,200

conspiracy theories around the JFK death

1595

01:00:12,940 --> 01:00:10,430

and then naturally it's conspiracy

1596

01:00:13,299 --> 01:00:12,950

theorists but yeah he did really start

1597

01:00:18,430 --> 01:00:13,309

there

1598

01:00:20,589 --> 01:00:18,440

it peaked a bit I think after the the

1599

01:00:23,019 --> 01:00:20,599

second report came out there was another

1600

01:00:26,019 --> 01:00:23,029

fairly big peak around there was a small

1601

01:00:29,039 --> 01:00:26,029

peak around Robert Kennedy's death then

1602

01:00:32,019 --> 01:00:29,049

there was a big peak around Watergate

1603

01:00:33,430 --> 01:00:32,029

because the term was used there because

1604

01:00:34,989 --> 01:00:33,440

there was lots of speculation about what

1605

01:00:36,730 --> 01:00:34,999

actually happened and I think people

1606

01:00:38,829 --> 01:00:36,740

were those it's all conspiracy or

1607

01:00:40,930 --> 01:00:38,839

conspiracy theory especially theory yeah

1608

01:00:43,359 --> 01:00:40,940

one great but it does have derogatory

1609

01:00:45,009 --> 01:00:43,369

connotation it is not ledo's any

1610

01:00:46,870 --> 01:00:45,019

definite maybe it's wearing off a little

1611

01:00:48,489 --> 01:00:46,880

bit though I mean I got a thank you like

1612

01:00:50,049 --> 01:00:48,499

the mainstream media is barely even

1613

01:00:52,210 --> 01:00:50,059

talked about the hills II report I think

1614

01:00:53,890 --> 01:00:52,220

it's worthy to be talked about and I say

1615

01:00:57,640 --> 01:00:53,900

look at least Nicolas is talking about

1616

01:00:59,710 --> 01:00:57,650

you know most of them there was a CBS

1617

01:01:00,970 --> 01:00:59,720

affiliate that just picked it up and I

1618

01:01:02,680 --> 01:01:00,980

think some of this has taken a little

1619

01:01:05,049 --> 01:01:02,690

while even Infowars took two days to

1620

01:01:07,239 --> 01:01:05,059

pick it up and part of that might be

1621

01:01:09,759 --> 01:01:07,249

confusion that they they kind of

1622

01:01:11,890 --> 01:01:09,769

released this before like in 2017 but

1623

01:01:13,299 --> 01:01:11,900

not all of it is no confused I was

1624

01:01:16,089 --> 01:01:13,309

looking on YouTube and I thought I'm

1625

01:01:17,380 --> 01:01:16,099

most looking at the the currents like

1626
01:01:20,470 --> 01:01:17,390
presentation I was actually looking at

1627
01:01:24,009 --> 01:01:20,480
the one from 2017 yeah they look so

1628
01:01:25,749 --> 01:01:24,019
similar but ya know I think I think it

1629
01:01:27,970 --> 01:01:25,759
will get more publicity but simply

1630
01:01:29,529 --> 01:01:27,980
because it's being pushed by architects

1631
01:01:32,229 --> 01:01:29,539
engineers for 9/11 truth as being this

1632
01:01:35,470 --> 01:01:32,239
this holy grail type thing and and

1633
01:01:38,079 --> 01:01:35,480
everyone's who's you know a good you

1634
01:01:39,489 --> 01:01:38,089
know who's really into 9/11 truth it's

1635
01:01:41,529 --> 01:01:39,499
gonna be saying oh look a university

1636
01:01:42,849 --> 01:01:41,539
professor has proved that fire could not

1637
01:01:45,640 --> 01:01:42,859
of course the collapse and I'll just

1638
01:01:47,799 --> 01:01:45,650

point to which you're just we out we're

1639

01:01:49,120 --> 01:01:47,809

looking at the details I think but I

1640

01:01:50,739 --> 01:01:49,130

think I have identified a few problems

1641

01:01:53,499 --> 01:01:50,749

with this which which will probably play

1642

01:01:55,630 --> 01:01:53,509

out over the next weeks and months and

1643

01:01:59,079 --> 01:01:55,640

maybe we'll come out with a revised

1644

01:02:00,999 --> 01:01:59,089

report but we'll see I'll keep an eye on

1645

01:02:04,839 --> 01:02:01,009

you a lot of people are giving you a lot

1646

01:02:09,460 --> 01:02:06,460

you got your debunker debunkers trying

1647

01:02:11,469 --> 01:02:09,470

hard at you there at YouTube now like

1648

01:02:14,259 --> 01:02:11,479

like Adam told you I've got 100% that

1649

01:02:16,660 --> 01:02:14,269

the towers were and controlled

1650

01:02:19,539 --> 01:02:16,670

demolitions especially not more so I

1651
01:02:21,670 --> 01:02:19,549
believe with building seven even with

1652
01:02:23,289 --> 01:02:21,680
that who knows what the truth could be

1653
01:02:24,700 --> 01:02:23,299
it could be people to add prior

1654
01:02:26,469 --> 01:02:24,710
knowledge and them insurance scam I

1655
01:02:28,450 --> 01:02:26,479
don't know I don't know the truth wonder

1656
01:02:31,660 --> 01:02:28,460
percent I just want to find it I do look

1657
01:02:33,160 --> 01:02:31,670
at 9/11 as a cumulative case of is there

1658
01:02:35,019 --> 01:02:33,170
something more is there something wrong

1659
01:02:37,630 --> 01:02:35,029
and that's why I do I do focus attention

1660
01:02:40,329 --> 01:02:37,640
on NORAD and the for knowledge and

1661
01:02:42,190 --> 01:02:40,339
whistleblowers and you know the family

1662
01:02:43,809 --> 01:02:42,200
members having seven seventy percent of

1663
01:02:45,549 --> 01:02:43,819

their questions not adequately answer at

1664

01:02:48,609 --> 01:02:45,559

least to what they thought would be

1665

01:02:51,279 --> 01:02:48,619

adequate by the Commission I've always

1666

01:02:53,499 --> 01:02:51,289

found to not be you know that's not

1667

01:02:55,299 --> 01:02:53,509

satisfactory to me and then you can look

1668

01:02:58,180 --> 01:02:55,309

at Bill Doyle he went on the Alex Jones

1669

01:03:00,789 --> 01:02:58,190

Show in 2006 he has a 9/11 victims

1670

01:03:03,279 --> 01:03:00,799

family network of 7,000 people he said

1671

01:03:05,140 --> 01:03:03,289

he talked to most if not all of them and

1672

01:03:07,029 --> 01:03:05,150

he would estimate that half of them at

1673

01:03:09,670 --> 01:03:07,039

least believe there was some kind of

1674

01:03:11,920 --> 01:03:09,680

inside job elements 9/11 so if that's

1675

01:03:15,009 --> 01:03:11,930

true you're talking as many people that

1676

01:03:17,200 --> 01:03:15,019

died that day as you know there are that

1677

01:03:19,569 --> 01:03:17,210

many family members are more that that

1678

01:03:22,989 --> 01:03:19,579

have user at least somewhat in line with

1679

01:03:24,700 --> 01:03:22,999

mine so yeah well it says a lot of

1680

01:03:27,459 --> 01:03:24,710

people believe that something suspicious

1681

01:03:30,849 --> 01:03:27,469

happened on 9/11 to one degree or

1682

01:03:33,579 --> 01:03:30,859

another and the questions are gonna

1683

01:03:35,170 --> 01:03:33,589

persist for a very very long time yeah

1684

01:03:36,640 --> 01:03:35,180

and we were getting like I said we're

1685

01:03:38,079 --> 01:03:36,650

gonna long ways away from this like you

1686

01:03:40,690 --> 01:03:38,089

said it didn't read some life into it

1687

01:03:42,059 --> 01:03:40,700

with with this new report but you're

1688

01:03:44,950 --> 01:03:42,069

still gonna continue on with

1689

01:03:46,719 --> 01:03:44,960

everything's a false flag and and I got

1690

01:03:48,729 --> 01:03:46,729

your points perfectly that you made

1691

01:03:50,440 --> 01:03:48,739

about the shootings I wish people would

1692

01:03:52,239 --> 01:03:50,450

take that to heart that you have to be

1693

01:03:55,269 --> 01:03:52,249

careful everybody should not careful as

1694

01:03:58,839 --> 01:03:55,279

can be but there's things you know even

1695

01:04:00,430 --> 01:03:58,849

like I there are times when there are

1696

01:04:01,930 --> 01:04:00,440

reports of multiple shooters where the

1697

01:04:03,700 --> 01:04:01,940

people say they actually saw these

1698

01:04:05,739 --> 01:04:03,710

shooters yeah that's when I wonder did

1699

01:04:08,920 --> 01:04:05,749

they see police and get pain used or

1700

01:04:10,390 --> 01:04:08,930

something there's no right angle well

1701
01:04:14,200 --> 01:04:10,400
like the one girl she said she was with

1702
01:04:15,789 --> 01:04:14,210
the shooter I think I think was Nick

1703
01:04:16,959 --> 01:04:15,799
Nicholas Cruz one of these guys I don't

1704
01:04:18,190 --> 01:04:16,969
care what their names are me shouldn't

1705
01:04:19,540 --> 01:04:18,200
even say them she

1706
01:04:21,579 --> 01:04:19,550
said she was with him when she heard

1707
01:04:23,170 --> 01:04:21,589
shots from somewhere else I don't know

1708
01:04:25,690 --> 01:04:23,180
though why would she say that what she

1709
01:04:28,630 --> 01:04:25,700
lied to protect him or you know yeah I'm

1710
01:04:30,609 --> 01:04:28,640
not familiar with it that she said she

1711
01:04:33,370 --> 01:04:30,619
was walking down the hallway with him

1712
01:04:35,680 --> 01:04:33,380
when shots came from the other end of

1713
01:04:38,980 --> 01:04:35,690

the school so I mean it's hard to

1714

01:04:42,280 --> 01:04:38,990

mistake what she's saying but but if you

1715

01:04:46,510 --> 01:04:42,290

know it's testimony yeah because I

1716

01:04:49,150 --> 01:04:46,520

thought someone's wrong who knows what

1717

01:04:51,400 --> 01:04:49,160

what what's going through her mind you

1718

01:04:53,530 --> 01:04:51,410

know what she actually saw and why she

1719

01:04:55,120 --> 01:04:53,540

she either she's obviously either lying

1720

01:04:56,829 --> 01:04:55,130

she was mistaken no she's telling the

1721

01:04:58,540 --> 01:04:56,839

truth so you got those three

1722

01:04:59,589 --> 01:04:58,550

possibilities and you could like Rankin

1723

01:05:03,660 --> 01:04:59,599

what's the most likely thing that

1724

01:05:05,650 --> 01:05:03,670

happened that start like being I guess

1725

01:05:07,839 --> 01:05:05,660

charitable and say that she was mistaken

1726

01:05:09,520 --> 01:05:07,849

and she was confused after the fact

1727

01:05:12,400 --> 01:05:09,530

because she was so traumatic and she was

1728

01:05:13,900 --> 01:05:12,410

mistaking things and then maybe she was

1729

01:05:16,150 --> 01:05:13,910

like you said making it up to cover for

1730

01:05:17,829 --> 01:05:16,160

him and then a much less likely

1731

01:05:19,839 --> 01:05:17,839

possibility but yeah I never liked to

1732

01:05:21,190 --> 01:05:19,849

take things off the list as that she's

1733

01:05:24,069 --> 01:05:21,200

telling the truth and that was this this

1734

01:05:26,680 --> 01:05:24,079

big there was something else going on in

1735

01:05:28,300 --> 01:05:26,690

addition oh yeah maybe there was just

1736

01:05:29,589 --> 01:05:28,310

some my generic car backfiring or

1737

01:05:31,359 --> 01:05:29,599

something

1738

01:05:33,520 --> 01:05:31,369

so hey I guess you're gonna keep doing

1739

01:05:35,470 --> 01:05:33,530

this type of 9/11 truth you're still

1740

01:05:37,500 --> 01:05:35,480

he's still active or you're feeling a

1741

01:05:41,680 --> 01:05:37,510

feeling of it a debunk it fatigue or

1742

01:05:43,510 --> 01:05:41,690

truth Appetit guys I look down and look

1743

01:05:45,010 --> 01:05:43,520

a u.s. atom dislike would you recommend

1744

01:05:46,839 --> 01:05:45,020

this to other people I wanted to answer

1745

01:05:48,690 --> 01:05:46,849

that myself too because the answer is

1746

01:05:50,920 --> 01:05:48,700

not necessarily

1747

01:05:52,630 --> 01:05:50,930

you could call you could call going

1748

01:05:54,910 --> 01:05:52,640

after government corruption and things

1749

01:05:58,349 --> 01:05:54,920

courageous you could also understand

1750

01:06:01,089 --> 01:05:58,359

that being you know having uh having a

1751

01:06:02,470 --> 01:06:01,099

basically uh being fearless and being

1752

01:06:05,339 --> 01:06:02,480

courageous they're very similar to being

1753

01:06:06,760 --> 01:06:05,349

stupid if you're gonna do these things

1754

01:06:09,160 --> 01:06:06,770

take it easy

1755

01:06:12,430 --> 01:06:09,170

do it in bits and pieces don't obsess on

1756

01:06:13,660 --> 01:06:12,440

it don't make it your life look if you

1757

01:06:15,640 --> 01:06:13,670

think there's government corruption and

1758

01:06:18,339 --> 01:06:15,650

you want to fight it you could take the

1759

01:06:19,839 --> 01:06:18,349

that's a that's a way to go about it but

1760

01:06:21,099 --> 01:06:19,849

you could also go but I but what's the

1761

01:06:22,510 --> 01:06:21,109

point why would I do that because I want

1762

01:06:23,680 --> 01:06:22,520

to bring I want to make the world a

1763

01:06:25,390 --> 01:06:23,690

better place for instance that's why I

1764

01:06:26,920 --> 01:06:25,400

do what I do well you could also you

1765

01:06:28,630 --> 01:06:26,930

could focus on the negative and try to

1766

01:06:29,829 --> 01:06:28,640

fight it or you could go well there's

1767

01:06:31,410 --> 01:06:29,839

this politician that I like and he's

1768

01:06:33,270 --> 01:06:31,420

trying to bring people jobs I think that

1769

01:06:35,160 --> 01:06:33,280

good thing so I'm gonna focus on him and

1770

01:06:36,660 --> 01:06:35,170

I'm gonna focus on voting that instead

1771

01:06:38,549 --> 01:06:36,670

of fighting the bad I'll promote the

1772

01:06:40,530 --> 01:06:38,559

good and it's healthier for you to do

1773

01:06:41,819 --> 01:06:40,540

that really I'm not saying don't do it

1774

01:06:43,410 --> 01:06:41,829

what I'm saying be smart about how you

1775

01:06:45,750 --> 01:06:43,420

do it can't have a psychological effect

1776

01:06:48,120 --> 01:06:45,760

even architects and engineers for 9/11

1777

01:06:50,160 --> 01:06:48,130

truth they have a whole psychology you

1778

01:06:51,630 --> 01:06:50,170

know wing that has warned people against

1779

01:06:53,099 --> 01:06:51,640

this very thing or at least acknowledge

1780

01:06:55,530 --> 01:06:53,109

that that's why a lot of people stay

1781

01:06:57,690 --> 01:06:55,540

away from them and and accept I'm sure

1782

01:06:59,960 --> 01:06:57,700

they do for that reason you know so

1783

01:07:03,000 --> 01:06:59,970

that's my advice if you're gonna do it

1784

01:07:04,829 --> 01:07:03,010

do it sparingly take R&R don't obsess on

1785

01:07:06,569 --> 01:07:04,839

it don't make it alive so will I

1786

01:07:08,760 --> 01:07:06,579

continue when there's things to report

1787

01:07:10,410 --> 01:07:08,770

sometimes I blog out it just had it I'm

1788

01:07:12,660 --> 01:07:10,420

just so used to doing it talking about

1789

01:07:15,120 --> 01:07:12,670

this but yeah like you said I have like

1790

01:07:16,349 --> 01:07:15,130

30 websites right varying topics and

1791

01:07:18,569 --> 01:07:16,359

that's that's how people should try to

1792

01:07:20,609 --> 01:07:18,579

be you know don't don't spread yourself

1793

01:07:23,970 --> 01:07:20,619

too thin life's too short to focus on

1794

01:07:27,539 --> 01:07:23,980

one thing or one area all the time and

1795

01:07:29,849 --> 01:07:27,549

trying to wheel yeah that's yes

1796

01:07:31,260 --> 01:07:29,859

that's a very good advice I think you

1797

01:07:33,809 --> 01:07:31,270

know it sure like if you think there

1798

01:07:35,910 --> 01:07:33,819

things are important then look into them

1799

01:07:39,299 --> 01:07:35,920

you know where you can actually make a

1800

01:07:40,980 --> 01:07:39,309

change in a way yeah your life can be

1801

01:07:42,960 --> 01:07:40,990

improved personally it's like things

1802

01:07:44,309 --> 01:07:42,970

that I think people should focus on but

1803

01:07:45,630 --> 01:07:44,319

I you know because I'm a debunking

1804

01:07:47,549 --> 01:07:45,640

people go I'm gonna be saying I'm trying

1805

01:07:48,630 --> 01:07:47,559

to persuade people not to look in 9/11

1806

01:07:51,450 --> 01:07:48,640

truth but you know if that's your thing

1807

01:07:53,700 --> 01:07:51,460

don't go for it I look into it but you

1808

01:07:54,930 --> 01:07:53,710

know have a life to know I don't you

1809

01:07:56,670 --> 01:07:54,940

know I don't see you as turn to dissuade

1810

01:07:59,069 --> 01:07:56,680

anybody if any always thought that

1811

01:08:01,410 --> 01:07:59,079

markers help to refine the case for what

1812

01:08:03,450 --> 01:08:01,420

we were making like I said you're you're

1813

01:08:05,400 --> 01:08:03,460

bringing it up when a lot of mainstream

1814

01:08:08,359 --> 01:08:05,410

news isn't but you're trying to get

1815

01:08:10,740 --> 01:08:08,369

people to think critically and you know

1816

01:08:13,740 --> 01:08:10,750

so even if somebody doesn't agree with

1817

01:08:15,180 --> 01:08:13,750

you if it makes them not buy into all

1818

01:08:16,800 --> 01:08:15,190

the [h__\h] that's out there that's

1819

01:08:19,229 --> 01:08:16,810

better sorry because studies show there

1820

01:08:21,329 --> 01:08:19,239

but yeah so no I think what you're doing

1821

01:08:23,340 --> 01:08:21,339

is positive I do thanks yeah I

1822

01:08:25,229 --> 01:08:23,350

appreciate your approach as well like

1823

01:08:26,640 --> 01:08:25,239

you know you're not just you know

1824

01:08:27,930 --> 01:08:26,650

pushing one point of view you're trying

1825

01:08:30,030 --> 01:08:27,940

to actually find the truth you know

1826

01:08:31,499 --> 01:08:30,040

we're disagreements on various points

1827

01:08:35,240 --> 01:08:31,509

but we also have agreements with various

1828

01:08:37,709 --> 01:08:35,250

points so yeah that's good

1829

01:08:42,090 --> 01:08:37,719

and you're not a Pentagon missile

1830

01:08:44,070 --> 01:08:42,100

missile guy or a Judy stratospheric

1831

01:08:44,669 --> 01:08:44,080

aerosol injections not a big Kentrell

1832

01:08:46,349 --> 01:08:44,679

guy

1833

01:08:48,660 --> 01:08:46,359

one page where I've talked about a page

1834

01:08:50,700 --> 01:08:48,670

it's on your metabolic site yeah John

1835

01:08:53,280 --> 01:08:50,710

Brennan when he talked about that I do

1836

01:08:54,689 --> 01:08:53,290

think it's interesting you your whole

1837

01:08:56,939 --> 01:08:54,699

point was that he wasn't talking about

1838

01:08:58,680 --> 01:08:56,949

something's going on now yeah look there

1839

01:08:59,910 --> 01:08:58,690

there were people that said well why

1840

01:09:03,380 --> 01:08:59,920

could we trust the government on whether

1841

01:09:06,479 --> 01:09:03,390

it's a now I think that's fair enough

1842

01:09:08,789 --> 01:09:06,489

there Jim Marrs is a research researcher

1843

01:09:12,840 --> 01:09:08,799

he said sometimes that contrails will

1844

01:09:14,789 --> 01:09:12,850

appear at in weather conditions or at

1845

01:09:17,070 --> 01:09:14,799

altitudes where they shouldn't you would

1846

01:09:18,809 --> 01:09:17,080

say that's not true at all I would say

1847

01:09:20,999 --> 01:09:18,819

that they might appear to be there's

1848

01:09:22,740 --> 01:09:21,009

actually a real quick there's a couple

1849

01:09:24,840 --> 01:09:22,750

of types of contrails there's the the

1850

01:09:27,149 --> 01:09:24,850

exhaust contrails and then there's the

1851
01:09:28,950 --> 01:09:27,159
aerodynamic contrails the aerodynamic

1852
01:09:30,689 --> 01:09:28,960
contrails are the ones that most often I

1853
01:09:33,979 --> 01:09:30,699
think get misinterpreted as being

1854
01:09:36,180 --> 01:09:33,989
chemtrails if you look at the videos on

1855
01:09:38,309 --> 01:09:36,190
geoengineering watch.org which is the

1856
01:09:41,930 --> 01:09:38,319
main chemtrails site they share these

1857
01:09:44,280 --> 01:09:41,940
videos of undeniable spraying and

1858
01:09:46,200 --> 01:09:44,290
they're actually just these videos of

1859
01:09:48,090 --> 01:09:46,210
aerodynamic contrails which is where the

1860
01:09:49,260 --> 01:09:48,100
contour forms over the wing it's not

1861
01:09:51,530 --> 01:09:49,270
actually coming out of the engines it

1862
01:09:53,789 --> 01:09:51,540
forms over the wing and these contrails

1863
01:09:56,220 --> 01:09:53,799

actually occur in different weather

1864

01:10:00,060 --> 01:09:56,230

conditions to engine exhaust contrails

1865

01:10:03,660 --> 01:10:00,070

they can occur at much lower altitudes

1866

01:10:04,560 --> 01:10:03,670

so they can they can occur in locations

1867

01:10:06,209 --> 01:10:04,570

where you quite often don't see

1868

01:10:08,070 --> 01:10:06,219

contrails on flight paths where you

1869

01:10:09,419 --> 01:10:08,080

don't see contrails because the planes

1870

01:10:11,939 --> 01:10:09,429

are normally too low because they're

1871

01:10:13,740 --> 01:10:11,949

coming out of an airport like I will see

1872

01:10:15,899 --> 01:10:13,750

them occasionally on planes leaving

1873

01:10:19,800 --> 01:10:15,909

Sacramento because I'm hoping the hills

1874

01:10:22,860 --> 01:10:19,810

near Sacramento here sit and the thing

1875

01:10:24,360 --> 01:10:22,870

about the weather conditions usually

1876

01:10:26,669 --> 01:10:24,370

what's happening there is that basing

1877

01:10:29,160 --> 01:10:26,679

the weather conditions on what's called

1878

01:10:31,140 --> 01:10:29,170

a sounding like a weather balloon

1879

01:10:33,030 --> 01:10:31,150

basically in weather balloons they

1880

01:10:34,350 --> 01:10:33,040

release them to go up in the air and

1881

01:10:36,990 --> 01:10:34,360

they measure the temperature and

1882

01:10:39,000 --> 01:10:37,000

humidity various points but the problem

1883

01:10:42,270 --> 01:10:39,010

with weather balloons is that they only

1884

01:10:43,919 --> 01:10:42,280

do one every 12 hours usually in most

1885

01:10:47,310 --> 01:10:43,929

sites and that the weather balloon

1886

01:10:50,700 --> 01:10:47,320

stations are separated by at least 200

1887

01:10:53,370 --> 01:10:50,710

miles each so it's almost impossible

1888

01:10:55,110 --> 01:10:53,380

that the precise temperature and

1889

01:10:57,580 --> 01:10:55,120

humidity a weather balloon is measuring

1890

01:11:01,300 --> 01:10:57,590

is really correlated with the

1891

01:11:03,520 --> 01:11:01,310

whether we're that contrail is so it's

1892

01:11:05,740 --> 01:11:03,530

very easy to say yeah this is the

1893

01:11:07,300 --> 01:11:05,750

humidity look at this this sounding and

1894

01:11:10,270 --> 01:11:07,310

this is the plane and it doesn't

1895

01:11:12,550 --> 01:11:10,280

actually work but if you're seeing a

1896

01:11:14,890 --> 01:11:12,560

contrail at the back of the plane that

1897

01:11:16,360 --> 01:11:14,900

means that's actually the best indicator

1898

01:11:18,970 --> 01:11:16,370

of the weather conditions that you can

1899

01:11:20,380 --> 01:11:18,980

have it's almost like a little little

1900

01:11:23,680 --> 01:11:20,390

backwards problem because you know it's

1901

01:11:25,830 --> 01:11:23,690

like the plane itself is demonstrating

1902

01:11:28,210 --> 01:11:25,840

that the conditions are right that

1903

01:11:30,400 --> 01:11:28,220

people will say because of their very

1904

01:11:33,100 --> 01:11:30,410

inaccurate forecasting of the conditions

1905

01:11:34,180 --> 01:11:33,110

that it's not right but then essentially

1906

01:11:36,630 --> 01:11:34,190

there's nothing there but it's a

1907

01:11:38,680 --> 01:11:36,640

difficult thing to explain to people

1908

01:11:41,920 --> 01:11:38,690

there's some good points I get that um

1909

01:11:43,870 --> 01:11:41,930

so you're saying to when people point to

1910

01:11:46,090 --> 01:11:43,880

like they're coming off the entire wing

1911

01:11:47,830 --> 01:11:46,100

they'll point to that being proved that

1912

01:11:49,120 --> 01:11:47,840

it's it's not coming from the engine so

1913

01:11:51,550 --> 01:11:49,130

therefore but you're saying there's that

1914

01:11:54,610 --> 01:11:51,560

there's an explanation for that yeah

1915

01:11:57,700 --> 01:11:54,620

yeah if you look up like aerodynamic and

1916

01:11:59,590 --> 01:11:57,710

rainbow contrails there's there's some

1917

01:12:01,120 --> 01:11:59,600

bring some plastic photographs of them

1918

01:12:03,520 --> 01:12:01,130

but if you just look up doing google

1919

01:12:05,110 --> 01:12:03,530

image search for aerodynamic contrails

1920

01:12:06,640 --> 01:12:05,120

there's a couple of types of aerodynamic

1921

01:12:08,380 --> 01:12:06,650

controls this ones you see when you a

1922

01:12:10,150 --> 01:12:08,390

plane's landing which are the kind of

1923

01:12:12,310 --> 01:12:10,160

the vortexes that come off the wings and

1924

01:12:13,840 --> 01:12:12,320

there's a high altitude ones which are

1925

01:12:15,970 --> 01:12:13,850

actually formed persistent contrails

1926

01:12:18,730 --> 01:12:15,980

which come off the entire wing and is

1927

01:12:20,230 --> 01:12:18,740

like a sheet and then it kind of gets

1928

01:12:22,450 --> 01:12:20,240

killed up in the vortices so it looks a

1929

01:12:24,040 --> 01:12:22,460

bit like a regular contrail further back

1930

01:12:27,490 --> 01:12:24,050

but it starts out looking kind of like a

1931

01:12:29,470 --> 01:12:27,500

ribbon like a thin flat ribbon earlier

1932

01:12:31,570 --> 01:12:29,480

on sometimes it has color in it because

1933

01:12:34,390 --> 01:12:31,580

of the the way it hits the Sun and the

1934

01:12:35,740 --> 01:12:34,400

way the the water droplets grow which is

1935

01:12:37,270 --> 01:12:35,750

very different to the engine exhaust

1936

01:12:40,300 --> 01:12:37,280

people see these colors and they think

1937

01:12:43,110 --> 01:12:40,310

oh that means chemicals those yeah it's

1938

01:12:45,520 --> 01:12:43,120

it's it's fairly obvious once you

1939

01:12:47,050 --> 01:12:45,530

understand the mechanism of an

1940

01:12:49,420 --> 01:12:47,060

aerodynamic contrail and you look at

1941

01:12:51,820 --> 01:12:49,430

other examples of aerodynamic contrails

1942

01:12:55,240 --> 01:12:51,830

what's going on there's a famous video

1943

01:12:55,810 --> 01:12:55,250

of a kc-10 I think leading aerodynamic

1944

01:12:58,840 --> 01:12:55,820

contrails

1945

01:13:00,400 --> 01:12:58,850

and there's this audio that goes with

1946

01:13:02,530 --> 01:13:00,410

the video which is actually the pilots

1947

01:13:04,300 --> 01:13:02,540

and the engineer in the cockpit and

1948

01:13:05,920 --> 01:13:04,310

they're saying things like you know look

1949

01:13:07,300 --> 01:13:05,930

at that plate in spring chemtrails good

1950

01:13:07,840 --> 01:13:07,310

job we're above it we'd be dead right

1951

01:13:10,520 --> 01:13:07,850

now

1952

01:13:12,680 --> 01:13:10,530

and it's fairly obvious that they're

1953

01:13:15,350 --> 01:13:12,690

joking right

1954

01:13:18,260 --> 01:13:15,360

there was an Italian blogger called

1955

01:13:19,910 --> 01:13:18,270

tanka enemy and I think he didn't really

1956

01:13:21,950 --> 01:13:19,920

understand that they were joking because

1957

01:13:25,160 --> 01:13:21,960

he's English isn't his first language

1958

01:13:30,470 --> 01:13:25,170

and so he presented this as being proof

1959

01:13:31,910 --> 01:13:30,480

that they were discussing chemtrails but

1960

01:13:34,550 --> 01:13:31,920

if you look at the actual video now like

1961

01:13:37,310 --> 01:13:34,560

the guy who put it up as putting more

1962

01:13:39,440 --> 01:13:37,320

videos off of him being his actual kc-10

1963

01:13:41,180 --> 01:13:39,450

engineer and he said this was just a

1964

01:13:43,070 --> 01:13:41,190

hoax and here's some other videos and

1965

01:13:44,390 --> 01:13:43,080

his photos proving me doing this and so

1966

01:13:46,580 --> 01:13:44,400

yes obviously it was just these

1967

01:13:48,470 --> 01:13:46,590

aerodynamic contrails but the chemtrail

1968

01:13:51,020 --> 01:13:48,480

people just cling onto this thing

1969

01:13:52,730 --> 01:13:51,030

because it's such a nice video of these

1970

01:13:56,570 --> 01:13:52,740

trails coming off essentially it looks

1971

01:13:59,000 --> 01:13:56,580

like the entire wing is spraying but

1972

01:14:00,500 --> 01:13:59,010

it's really just forming this this

1973

01:14:03,110 --> 01:14:00,510

control sheet because of the pressure

1974

01:14:04,580 --> 01:14:03,120

drop over the wing right like I said

1975

01:14:06,800 --> 01:14:04,590

it's not really one of my big issues I

1976

01:14:08,390 --> 01:14:06,810

have a page about it I'll actually edit

1977

01:14:09,770 --> 01:14:08,400

it a little bit based on some of the

1978

01:14:11,930 --> 01:14:09,780

things we just talked about but it

1979

01:14:13,250 --> 01:14:11,940

basically focuses around John Brennan

1980

01:14:15,530 --> 01:14:13,260

which I do think it's interesting that

1981

01:14:18,230 --> 01:14:15,540

he brought up stratospheric aerosol

1982

01:14:19,430 --> 01:14:18,240

injections being used to combat climate

1983

01:14:21,080 --> 01:14:19,440

change and things like that because that

1984

01:14:22,700 --> 01:14:21,090

is something that some fear is simply

1985

01:14:25,010 --> 01:14:22,710

been bringing in for a while that that's

1986

01:14:26,750 --> 01:14:25,020

what they're doing well it'll have you

1987

01:14:30,740 --> 01:14:26,760

heard at it when he heard and David

1988

01:14:32,450 --> 01:14:30,750

Keith do you know he's perhaps one of

1989

01:14:35,030 --> 01:14:32,460

the most famous geoengineering

1990

01:14:36,710 --> 01:14:35,040

researchers out there and he was written

1991

01:14:39,340 --> 01:14:36,720

a book called the case for climate

1992

01:14:43,250 --> 01:14:39,350

engineering he was on The Colbert Report

1993

01:14:46,790 --> 01:14:43,260

years ago and I actually just had him on

1994

01:14:49,100 --> 01:14:46,800

my podcast I think by five episodes back

1995

01:14:51,610 --> 01:14:49,110

and we discussed like basically the

1996

01:14:54,110 --> 01:14:51,620

current state of climate of

1997

01:14:56,690 --> 01:14:54,120

geoengineering research and what's being

1998

01:14:59,960 --> 01:14:56,700

done and he says basically nothing has

1999

01:15:01,670 --> 01:14:59,970

ever been sprayed out of a plane in in

2000

01:15:03,980 --> 01:15:01,680

pursuit of climate so in climate

2001

01:15:06,110 --> 01:15:03,990

modification climate engineering or

2002

01:15:07,280 --> 01:15:06,120

geoengineering so there's really you

2003

01:15:08,420 --> 01:15:07,290

know from his perspective there's

2004

01:15:09,590 --> 01:15:08,430

there's nothing that's going on you

2005

01:15:10,910 --> 01:15:09,600

should you should listen if you're

2006

01:15:13,340 --> 01:15:10,920

interested in that topic like I

2007

01:15:15,830 --> 01:15:13,350

recommend listening to that interview I

2008

01:15:18,890 --> 01:15:15,840

did with him tell us on the rabbit hole

2009

01:15:20,910 --> 01:15:18,900

I think he said it's a 15 maybe I just

2010

01:15:24,420 --> 01:15:20,920

check that real quick

2011

01:15:27,900 --> 01:15:24,430

you can get to tfttr acecomm or it's just

2012

01:15:30,780 --> 01:15:27,910

you know anywhere I see episode 13 it's

2013

01:15:35,250 --> 01:15:30,790

sandwiched in between having flat earth

2014

01:15:36,990 --> 01:15:35,260
and Planet X which is a strange company

2015

01:15:39,660 --> 01:15:37,000
for professor Keith but yeah it's

2016

01:15:41,610 --> 01:15:39,670
basically there's this the research

2017

01:15:43,980 --> 01:15:41,620
isn't there they don't know how to do it

2018

01:15:46,080 --> 01:15:43,990
so they couldn't really have been doing

2019

01:15:48,990 --> 01:15:46,090
it 20 years ago because they still don't

2020

01:15:52,230 --> 01:15:49,000
know now how to do it so it's an

2021

01:15:53,820 --> 01:15:52,240
interesting topic there my humors way I

2022

01:15:55,470 --> 01:15:53,830
put on here but they're not real they're

2023

01:15:57,330 --> 01:15:55,480
not real you're crazy I mean they are

2024

01:16:00,150 --> 01:15:57,340
real but but they're good and we haven't

2025

01:16:01,920 --> 01:16:00,160
use we certainly haven't used them and

2026

01:16:03,870 --> 01:16:01,930

they wouldn't look like what people are

2027

01:16:05,850 --> 01:16:03,880

putting into as contrails they would you

2028

01:16:07,530 --> 01:16:05,860

wouldn't actually leave trails like that

2029

01:16:09,120 --> 01:16:07,540

it would be kind of like they would do a

2030

01:16:10,590 --> 01:16:09,130

haze and it did much higher up in the

2031

01:16:13,020 --> 01:16:10,600

stratosphere most planes don't actually

2032

01:16:14,280 --> 01:16:13,030

fly in a stratosphere yeah I saw that

2033

01:16:16,200 --> 01:16:14,290

conversation some people were saying

2034

01:16:18,180 --> 01:16:16,210

well well some of them might be visible

2035

01:16:19,860 --> 01:16:18,190

and though the stratosphere the lower

2036

01:16:21,720 --> 01:16:19,870

stratosphere and things like that so I

2037

01:16:24,630 --> 01:16:21,730

was looking it was on your site I was

2038

01:16:26,670 --> 01:16:24,640

reading it hey yeah there was a there

2039

01:16:30,240 --> 01:16:26,680

was a big discussion about that but does

2040

01:16:33,840 --> 01:16:30,250

the what's called I think that's not the

2041

01:16:35,040 --> 01:16:33,850

stratopause attachment it's and the

2042

01:16:38,540 --> 01:16:35,050

boundary between the troposphere and the

2043

01:16:43,320 --> 01:16:41,340

yeah yeah I remember wearing that

2044

01:16:44,280 --> 01:16:43,330

discussion like years ago do planes fly

2045

01:16:45,660 --> 01:16:44,290

in the stratosphere

2046

01:16:47,370 --> 01:16:45,670

well there's one guy who thought that

2047

01:16:49,080 --> 01:16:47,380

all contrails formed in the stratosphere

2048

01:16:50,820 --> 01:16:49,090

and we were saying no most of them are

2049

01:16:52,620 --> 01:16:50,830

in the troposphere so anyway it's just a

2050

01:16:54,930 --> 01:16:52,630

big a big kind of technical discussion

2051

01:16:56,580 --> 01:16:54,940

that's gonna move really well we kind of

2052

01:16:57,360 --> 01:16:56,590

like gone over well over an hour here

2053

01:16:59,280 --> 01:16:57,370

she's been a very interesting

2054

01:17:01,010 --> 01:16:59,290

conversation is anything you want to

2055

01:17:03,630 --> 01:17:01,020

like close out with you know like

2056

01:17:06,060 --> 01:17:03,640

mention your website I'm sure final

2057

01:17:07,710 --> 01:17:06,070

words if people want to go on the

2058

01:17:09,930 --> 01:17:07,720

positive side I'm on the supporter of

2059

01:17:12,600 --> 01:17:09,940

President Trump so 2020 elections coming

2060

01:17:14,970 --> 01:17:12,610

up Trump is right blog spot.com I also

2061

01:17:18,390 --> 01:17:14,980

have a huge page called Trump is right

2062

01:17:21,600 --> 01:17:18,400

Trump is wrong and a mixed bag so I'm

2063

01:17:22,980 --> 01:17:21,610

pragmatic supporter I tried to criticize

2064

01:17:25,110 --> 01:17:22,990

him where I think he needs criticizing

2065

01:17:26,190 --> 01:17:25,120

but but I think he's a better choice

2066

01:17:29,490 --> 01:17:26,200

than probably what will get on the other

2067

01:17:31,710 --> 01:17:29,500

side and I'm not a partisan person I may

2068

01:17:33,270 --> 01:17:31,720

be lean a little bit right politically

2069

01:17:33,890 --> 01:17:33,280

but I'm moderate on a lot of things I've

2070

01:17:35,360 --> 01:17:33,900

definitely vote

2071

01:17:37,820 --> 01:17:35,370

you're Democrats I voted for Obama twice

2072

01:17:40,610 --> 01:17:37,830

I'm not happy with those votes but I did

2073

01:17:42,260 --> 01:17:40,620

do it so so yeah I'm not like a hyper

2074

01:17:45,080 --> 01:17:42,270

partisan person so there's that there's

2075

01:17:47,479 --> 01:17:45,090

9/11 debunkers blogspot.com and i'll try

2076

01:17:49,250 --> 01:17:47,489

to make some show notes so for this show

2077

01:17:50,870 --> 01:17:49,260

too even if I don't even if you don't

2078

01:17:52,520 --> 01:17:50,880

include them people can go to 9/11

2079

01:17:54,800 --> 01:17:52,530

debunkers and I'll put this interview up

2080

01:17:57,050 --> 01:17:54,810

and so anything I talked about at least

2081

01:17:59,030 --> 01:17:57,060

I'll try to you know put some of the

2082

01:18:01,280 --> 01:17:59,040

material we're on yeah reference cool Oh

2083

01:18:02,899 --> 01:18:01,290

anything you do I'll put on the on the

2084

01:18:05,000 --> 01:18:02,909

YouTube thing if I okay look you're

2085

01:18:06,080 --> 01:18:05,010

sorry till you can send it to me okay

2086

01:18:09,020 --> 01:18:06,090

yeah that'd be great

2087

01:18:10,910 --> 01:18:09,030

okay well thank you very much very very

2088

01:18:12,200 --> 01:18:10,920

interesting again and you know we said

2089

01:18:14,120 --> 01:18:12,210

there's lots to talk about we could just

2090

01:18:15,290 --> 01:18:14,130

go on in four hours like nitpicking

2091

01:18:17,360 --> 01:18:15,300

these little things

2092

01:18:18,979 --> 01:18:17,370

yeah and it's good because I think like

2093

01:18:20,030 --> 01:18:18,989

you know I tell you things that you

2094

01:18:22,160 --> 01:18:20,040

might not know and you tell me things

2095

01:18:23,479 --> 01:18:22,170

that I might not know and together we

2096

01:18:25,030 --> 01:18:23,489

kind of synthesize something that's a

2097

01:18:27,110 --> 01:18:25,040

bit closer to the truth

2098

01:18:29,840 --> 01:18:27,120

sounds good yeah thanks for having me on
