UFO VIDEOS

COVER-UPS

&

ALIEN VISITORS

1
00:00:07,909 --> 00:00:05,300
welcome to tales from the rabbit hole

2
00:00:11,540 --> 00:00:07,919
I'm your host Nick West my guest today

3
00:00:14,539 --> 00:00:11,550
is Ian who goes by the name theory QED

4
00:00:17,960 --> 00:00:14,549
on meta bunk and on YouTube

5
00:00:22,400 --> 00:00:17,970
Ian is very interested in the UFO

6
00:00:24,230 --> 00:00:22,410
phenomenon and we've discussed it on on

7
00:00:26,420 --> 00:00:24,240
meta bunk in the variety of threads I

8
00:00:28,519 --> 00:00:26,430
think Ian would say that he and I have

9
00:00:32,030 --> 00:00:28,529
somewhat differing opinions about what

10
00:00:34,100 --> 00:00:32,040
ufos likely are and about a variety of

11
00:00:36,500 --> 00:00:34,110
the different incidents so we're going

12
00:00:39,020 --> 00:00:36,510
to discuss our differences and things

13
00:00:40,940 --> 00:00:39,030

that we agree on so Ian welcome welcome

14

00:00:42,560 --> 00:00:40,950

to tales from the rabbit hole yes thanks

15

00:00:45,590 --> 00:00:42,570

for having me well thank you very much

16

00:00:47,000 --> 00:00:45,600

for being here all right so uh it's

17

00:00:50,660 --> 00:00:47,010

gonna get into it like how would you

18

00:00:52,850 --> 00:00:50,670

define a UFO that's a great question so

19

00:00:55,310 --> 00:00:52,860

I saw recently you posted on Twitter a

20

00:00:57,799 --> 00:00:55,320

real UFO that you had taken which is

21

00:01:00,139 --> 00:00:57,809

just a blurry far away picture huh and

22

00:01:03,529 --> 00:01:00,149

that's a good point that anything

23

00:01:05,780 --> 00:01:03,539

unidentified is a real UFO but in my

24

00:01:08,870 --> 00:01:05,790

opinion when people that are interested

25

00:01:12,140 --> 00:01:08,880

in UFOs say the word real UFO or genuine

26
00:01:14,300 --> 00:01:12,150
real genuine UFO what we usually mean is

27
00:01:17,090 --> 00:01:14,310
something that has been verified so it's

28
00:01:19,370 --> 00:01:17,100
not just one person with a with a blurry

29
00:01:20,899 --> 00:01:19,380
camera image that we can't verify but

30
00:01:23,300 --> 00:01:20,909
instead it would be something with

31
00:01:24,770 --> 00:01:23,310
outstanding evidence like what we have

32
00:01:27,950 --> 00:01:24,780
with the Navy where we have radar

33
00:01:31,340 --> 00:01:27,960
corroboration multiple witnesses and it

34
00:01:35,240 --> 00:01:31,350
can be verified with tangible data now

35
00:01:35,899 --> 00:01:35,250
do you remember the the Chilean UFO from

36
00:01:38,420 --> 00:01:35,909
her I do

37
00:01:42,550 --> 00:01:38,430
years ago that was that was described as

38
00:01:45,560 --> 00:01:42,560

a verified UFO but turned out it wasn't

39

00:01:48,499 --> 00:01:45,570

will you say it was a verified UFO at

40

00:01:52,100 --> 00:01:48,509

the time or it was a mistakenly verified

41

00:01:54,410 --> 00:01:52,110

UFO that's a great point too because it

42

00:01:56,330 --> 00:01:54,420

is somewhat subjective depending on what

43

00:01:58,340 --> 00:01:56,340

your opinion is obviously you think that

44

00:01:59,959 --> 00:01:58,350

it's not a UFO but the Chilean

45

00:02:02,389 --> 00:01:59,969

government does think that it's UFO

46

00:02:04,160 --> 00:02:02,399

correct I don't think that showing

47

00:02:05,450 --> 00:02:04,170

government as such does no I'm pretty

48

00:02:07,370 --> 00:02:05,460

sure actually they would accept the

49

00:02:09,529 --> 00:02:07,380

explanation now seeing as it is it was a

50

00:02:12,190 --> 00:02:09,539

perfect match for this particular radar

51
00:02:13,880 --> 00:02:12,200
track he was in the exact point in space

52
00:02:15,620 --> 00:02:13,890
okay

53
00:02:18,170 --> 00:02:15,630
just for people who aren't familiar with

54
00:02:21,380 --> 00:02:18,180
this this was a kind of a distant

55
00:02:23,390 --> 00:02:21,390
looking UFO that was taken by a Chilean

56
00:02:24,680 --> 00:02:23,400
Navy helicopter using their infrared

57
00:02:27,200 --> 00:02:24,690
thing they were looking for like

58
00:02:30,440 --> 00:02:27,210
smugglers and whatnot and they saw this

59
00:02:32,030 --> 00:02:30,450
thing and it they couldn't figure out

60
00:02:34,730 --> 00:02:32,040
what it was it wasn't on the radar it

61
00:02:37,850 --> 00:02:34,740
wasn't responding to radio and so they

62
00:02:42,199 --> 00:02:37,860
they gave it to this Chilean Air Force

63
00:02:45,110 --> 00:02:42,209

body that was set up to investigate UFOs

64

00:02:46,580 --> 00:02:45,120

or enormous aerial phenomena and they

65

00:02:48,199 --> 00:02:46,590

couldn't figure out what it was after a

66

00:02:49,640 --> 00:02:48,209

couple of years even though this he had

67

00:02:51,110 --> 00:02:49,650

a few theories but it might be a flame

68

00:02:53,120 --> 00:02:51,120

and said no it can't be a plane because

69

00:02:55,490 --> 00:02:53,130

of this and that and then they

70

00:02:57,050 --> 00:02:55,500

eventually released it and then people

71

00:02:59,380 --> 00:02:57,060

on the internet like pointed out that

72

00:03:02,780 --> 00:02:59,390

there was a plane in that exact spot

73

00:03:04,699 --> 00:03:02,790

visually that was departing the airport

74

00:03:06,820 --> 00:03:04,709

at that time and if you do a 3d

75

00:03:09,290 --> 00:03:06,830

recreation it matches perfectly

76

00:03:11,300 --> 00:03:09,300

that's a great explanation but I think

77

00:03:13,910 --> 00:03:11,310

it still doesn't completely explain why

78

00:03:16,010 --> 00:03:13,920

it wouldn't respond to radar calls and I

79

00:03:18,470 --> 00:03:16,020

agree with you that your explanation is

80

00:03:20,630 --> 00:03:18,480

definitely plausible if not even likely

81

00:03:23,750 --> 00:03:20,640

I I like your explanation for that case

82

00:03:26,539 --> 00:03:23,760

and but I do think that it's still being

83

00:03:28,340 --> 00:03:26,549

portrayed as a real UFO because it was

84

00:03:32,090 --> 00:03:28,350

on contact recently where they said that

85

00:03:33,500 --> 00:03:32,100

the temperature was 700 degrees and and

86

00:03:35,690 --> 00:03:33,510

you had a great point that you can't

87

00:03:37,729 --> 00:03:35,700

know that temperature just by looking at

88

00:03:40,310 --> 00:03:37,739

the footage it's only relativistic you

89

00:03:42,350 --> 00:03:40,320

can't determine an exact temperature but

90

00:03:45,770 --> 00:03:42,360

that brings us to the five observables

91

00:03:47,870 --> 00:03:45,780

so if that video had shown one of the

92

00:03:50,000 --> 00:03:47,880

five observables or more than one of the

93

00:03:51,560 --> 00:03:50,010

five observables where it's doing

94

00:03:54,380 --> 00:03:51,570

hypersonic speeds or something like that

95

00:03:55,850 --> 00:03:54,390

then we can rule out the passenger plane

96

00:03:58,460 --> 00:03:55,860

explanation and then it would be even

97

00:04:00,020 --> 00:03:58,470

more of the genuine UFO so the five

98

00:04:02,270 --> 00:04:00,030

observables this is something someone

99

00:04:05,330 --> 00:04:02,280

has suggested that like was it one of

100

00:04:07,490 --> 00:04:05,340

them needs to be there to be a UFO I

101

00:04:09,259 --> 00:04:07,500

think this comes from a tip and yes I

102

00:04:11,840 --> 00:04:09,269

think it is at least one and we have

103

00:04:14,090 --> 00:04:11,850

anti-gravity lift which is a bit

104

00:04:16,159 --> 00:04:14,100

subjective because it could be a lighter

105

00:04:18,500 --> 00:04:16,169

than aircraft obviously it could be some

106

00:04:20,900 --> 00:04:18,510

kind of blimp sudden and instantaneous

107

00:04:23,390 --> 00:04:20,910

acceleration hypersonic velocities

108

00:04:26,270 --> 00:04:23,400

without signatures so no visible exhaust

109

00:04:27,379 --> 00:04:26,280

plumes low observability or cloaking

110

00:04:30,140 --> 00:04:27,389

both visually

111

00:04:32,480 --> 00:04:30,150

or on radar and also trans medium travel

112

00:04:34,159 --> 00:04:32,490

so going into water coming out of water

113

00:04:35,480 --> 00:04:34,169

going into space flying through the air

114

00:04:37,879 --> 00:04:35,490

that sort of thing

115

00:04:40,339 --> 00:04:37,889

yeah and I guess like the Chilean one

116

00:04:40,820 --> 00:04:40,349

wouldn't really yeah so I agree with you

117

00:04:43,939 --> 00:04:40,830

there

118

00:04:46,129 --> 00:04:43,949

but it's not such a strong case because

119

00:04:47,839 --> 00:04:46,139

your explanation makes sense yeah and

120

00:04:50,209 --> 00:04:47,849

also you asked you said why didn't they

121

00:04:52,760 --> 00:04:50,219

show up on radar and the reason was that

122

00:04:53,989 --> 00:04:52,770

they were looking like 50 miles ahead of

123

00:04:56,089 --> 00:04:53,999

them when it should have been looking a

124

00:04:57,110 --> 00:04:56,099

hundred miles ahead of them they did and

125

00:04:59,179 --> 00:04:57,120

that's understandable

126

00:05:01,580 --> 00:04:59,189

yeah didn't they try to contact it with

127

00:05:03,800 --> 00:05:01,590

the radio control tower yeah they say no

128

00:05:06,529 --> 00:05:03,810

they didn't they they just held it on

129

00:05:08,179 --> 00:05:06,539

the hailing frequency which is like you

130

00:05:09,980 --> 00:05:08,189

know when you're in the plane people

131

00:05:11,869 --> 00:05:09,990

think that you can just like radio a

132

00:05:13,369 --> 00:05:11,879

plane like a jet flies up in the radio

133

00:05:14,899 --> 00:05:13,379

as a plane but it has to be on the

134

00:05:16,790 --> 00:05:14,909

correct frequency so you need to know

135

00:05:19,969 --> 00:05:16,800

what frequency they are listening to and

136

00:05:22,879 --> 00:05:19,979

when a plane is departing an airport it

137

00:05:25,159 --> 00:05:22,889

will be on either the tower frequency as

138

00:05:27,140 --> 00:05:25,169

it's taking off Oriol beyond the

139

00:05:29,089 --> 00:05:27,150

departure frequency which is the the

140

00:05:31,010 --> 00:05:29,099

people who organize the planes leaving

141

00:05:33,200 --> 00:05:31,020

the area and it's the separate

142

00:05:35,029 --> 00:05:33,210

frequencies for arrivals and there's

143

00:05:38,390 --> 00:05:35,039

another one for the ground and when

144

00:05:39,860 --> 00:05:38,400

planes just flying around it's on it's

145

00:05:42,529 --> 00:05:39,870

the the common frequency which i think

146

00:05:43,790 --> 00:05:42,539

is 120 one point zero as I remember it's

147

00:05:46,309 --> 00:05:43,800

been a while since I actually flew a

148

00:05:47,689 --> 00:05:46,319

plane but they would have hailed it on

149

00:05:49,429 --> 00:05:47,699

that frequency they would have assumed

150

00:05:50,629 --> 00:05:49,439

that it's just a plane flying around so

151
00:05:54,559 --> 00:05:50,639
they would have they would have held it

152
00:05:56,629 --> 00:05:54,569
on on one 21.0 they would have assumed

153
00:05:58,639 --> 00:05:56,639
it wasn't a plane departing the airport

154
00:05:59,779 --> 00:05:58,649
if it only was a plane departing the

155
00:06:01,519 --> 00:05:59,789
airport they would have been looking in

156
00:06:02,929 --> 00:06:01,529
a completely different place so they

157
00:06:06,260 --> 00:06:02,939
wouldn't know to go to the departure

158
00:06:08,959 --> 00:06:06,270
frequency for for that plane so that's

159
00:06:11,179 --> 00:06:08,969
why I didn't respond radio calls because

160
00:06:13,519 --> 00:06:11,189
they were just using the the one to one

161
00:06:15,649 --> 00:06:13,529
thing and not the departure thing and

162
00:06:17,089 --> 00:06:15,659
the same thing with radar they would

163
00:06:18,709 --> 00:06:17,099

have looked on their radar which was

164

00:06:21,980 --> 00:06:18,719

shared them things that were nearby them

165

00:06:23,600 --> 00:06:21,990

like within whatever 4050 miles when the

166

00:06:24,889 --> 00:06:23,610

airport was actually I think 80 miles to

167

00:06:26,629 --> 00:06:24,899

the north of them and the plane was

168

00:06:29,450 --> 00:06:26,639

already turning and going north of the

169

00:06:31,850 --> 00:06:29,460

airport at that point so yeah you know

170

00:06:33,709 --> 00:06:31,860

you know I've heard you know objections

171

00:06:37,040 --> 00:06:33,719

like that before and they've all been

172

00:06:38,089 --> 00:06:37,050

explained and as far as I can tell it's

173

00:06:40,860 --> 00:06:38,099

like a hundred percent on that

174

00:06:43,140 --> 00:06:40,870

particular case I don't really think

175

00:06:45,960 --> 00:06:43,150

so if you actually check all the boxes

176

00:06:47,460 --> 00:06:45,970

that you can actually really argue that

177

00:06:49,200 --> 00:06:47,470

now this isn't something we could say

178

00:06:52,110 --> 00:06:49,210

for the the other cases which were going

179

00:06:53,280 --> 00:06:52,120

to discuss in right but you know what

180

00:06:55,920 --> 00:06:53,290

kind of getting ahead of ourselves here

181

00:06:59,760 --> 00:06:55,930

like yeah so you we were talking about

182

00:07:01,260 --> 00:06:59,770

what is a UFO and you know you you you

183

00:07:04,080 --> 00:07:01,270

saying like it has to be kind of

184

00:07:06,090 --> 00:07:04,090

verified but we when you say verified

185

00:07:07,670 --> 00:07:06,100

does that mean more than one person has

186

00:07:11,129 --> 00:07:07,680

to see it

187

00:07:13,250 --> 00:07:11,139

yes personally I think it should be more

188

00:07:16,159 --> 00:07:13,260

than one person that has seen it and

189

00:07:18,540 --> 00:07:16,169

ideally you would also have some sort of

190

00:07:20,820 --> 00:07:18,550

testable evidence that you have along

191

00:07:24,680 --> 00:07:20,830

with that witness so you would have

192

00:07:26,969 --> 00:07:24,690

either video or radar or some sort of

193

00:07:28,800 --> 00:07:26,979

electromagnetic disturbance or something

194

00:07:30,840 --> 00:07:28,810

that you can test to say that something

195

00:07:31,830 --> 00:07:30,850

physical was there that's that's just my

196

00:07:35,159 --> 00:07:31,840

personal opinion

197

00:07:36,810 --> 00:07:35,169

yeah I know people you know say we

198

00:07:39,540 --> 00:07:36,820

shouldn't discount eyewitness testimony

199

00:07:41,939 --> 00:07:39,550

but it's obviously vastly better if you

200

00:07:43,800 --> 00:07:41,949

can corroborate eyewitnesses with video

201
00:07:45,330 --> 00:07:43,810
and put them side by side and said the

202
00:07:46,740 --> 00:07:45,340
guy says I saw this and you show a video

203
00:07:48,659 --> 00:07:46,750
that shows the same thing that would be

204
00:07:52,200 --> 00:07:48,669
great

205
00:07:56,760 --> 00:07:52,210
have you you ever seen a UFO I actually

206
00:07:59,670 --> 00:07:56,770
did very recently i s it 8 to call it a

207
00:08:02,129 --> 00:07:59,680
UFO because I have only my witness

208
00:08:05,909 --> 00:08:02,139
account and then I have a decent picture

209
00:08:07,260 --> 00:08:05,919
and a terrible video of this UFO and the

210
00:08:09,870 --> 00:08:07,270
best way I can describe it would be a

211
00:08:11,790 --> 00:08:09,880
Chinese lantern it was a orange ball of

212
00:08:13,830 --> 00:08:11,800
light and it's it's going up into the

213
00:08:15,659 --> 00:08:13,840

sky I don't think that they would have

214

00:08:18,270 --> 00:08:15,669

released a Chinese lantern where I live

215

00:08:20,969 --> 00:08:18,280

in Boulder Colorado but if that's what

216

00:08:23,580 --> 00:08:20,979

it was it was moving quite quickly it

217

00:08:24,390 --> 00:08:23,590

was very large very bright and it

218

00:08:26,670 --> 00:08:24,400

disappeared

219

00:08:28,710 --> 00:08:26,680

pretty pretty fast in an upward

220

00:08:30,480 --> 00:08:28,720

direction so I've already got plans to

221

00:08:32,940 --> 00:08:30,490

go to a lantern festival and see if

222

00:08:34,469 --> 00:08:32,950

that's what I said yeah that's it's good

223

00:08:36,930 --> 00:08:34,479

to try to replicate these things like

224

00:08:38,940 --> 00:08:36,940

because you know it was it at night a

225

00:08:41,000 --> 00:08:38,950

fairly dark yeah it was yes

226

00:08:44,970 --> 00:08:41,010

it's very hard to see where things are

227

00:08:46,880 --> 00:08:44,980

no yeah it's used very close yeah you

228

00:08:49,380 --> 00:08:46,890

see sometimes people will look at

229

00:08:51,840 --> 00:08:49,390

landing lights of planes which are quite

230

00:08:53,000 --> 00:08:51,850

a distance away like say like about 40

231

00:08:54,379 --> 00:08:53,010

miles away

232

00:08:55,550 --> 00:08:54,389

and because the lights are pointing

233

00:08:57,290 --> 00:08:55,560

straight at them the planes coming

234

00:09:01,129 --> 00:08:57,300

strict towards them it looks like it's a

235

00:09:02,449 --> 00:09:01,139

light that's rising up in the sky when

236

00:09:03,829 --> 00:09:02,459

actually it's kind of coming towards

237

00:09:07,519 --> 00:09:03,839

that I'm just very very slowly and just

238

00:09:09,920 --> 00:09:07,529

going overhead and so it's it's yes it's

239

00:09:12,769 --> 00:09:09,930

very very difficult to corroborate these

240

00:09:16,519 --> 00:09:12,779

things so you've had a UFO sighting I I

241

00:09:20,000 --> 00:09:16,529

I you know I guess I always say I see

242

00:09:21,860 --> 00:09:20,010

UFOs every day because I go I live under

243

00:09:24,889 --> 00:09:21,870

the flight path for departures from both

244

00:09:27,259 --> 00:09:24,899

Sacramento and San Francisco so I see

245

00:09:29,060 --> 00:09:27,269

the the higher planes from San Francisco

246

00:09:30,829 --> 00:09:29,070

and the lower planes from from

247

00:09:32,180 --> 00:09:30,839

Sacramento and they quite often do that

248

00:09:34,879 --> 00:09:32,190

thing where they come straight towards

249

00:09:35,449 --> 00:09:34,889

me and for a while they looked like like

250

00:09:38,300 --> 00:09:35,459

UFOs

251
00:09:39,710 --> 00:09:38,310
I remember when when I was looking at it

252
00:09:41,509 --> 00:09:39,720
through my camera and because I'm

253
00:09:43,370 --> 00:09:41,519
getting old now my eyesight is going and

254
00:09:45,579 --> 00:09:43,380
when I looked at it on the back of the

255
00:09:48,680 --> 00:09:45,589
camera it looked like this really weird

256
00:09:50,120 --> 00:09:48,690
star-shaped thing coming towards me but

257
00:09:52,069 --> 00:09:50,130
then every I reviewed the footage later

258
00:09:53,449 --> 00:09:52,079
and he was just he was just not

259
00:09:55,400 --> 00:09:53,459
star-shaped it normally was just my bad

260
00:09:57,860 --> 00:09:55,410
eyesight so that's something that comes

261
00:10:00,199 --> 00:09:57,870
into play as well say a viewer you've

262
00:10:02,809 --> 00:10:00,209
been interested in in UFOs for a long

263
00:10:04,400 --> 00:10:02,819

time I have ever since I was in

264

00:10:06,139 --> 00:10:04,410

elementary school I would read the books

265

00:10:09,050 --> 00:10:06,149

in the library and that's how I first

266

00:10:10,850 --> 00:10:09,060

got into it yeah me too I was I was

267

00:10:13,970 --> 00:10:10,860

almost very into UFOs I used to read

268

00:10:16,910 --> 00:10:13,980

magazines that have cases and had a

269

00:10:18,860 --> 00:10:16,920

bunch of books on UFOs because yeah big

270

00:10:20,090 --> 00:10:18,870

in science fiction as well I imagine if

271

00:10:23,059 --> 00:10:20,100

you're a UFO person you like science

272

00:10:24,800 --> 00:10:23,069

fiction it seems to be a common a common

273

00:10:26,720 --> 00:10:24,810

trait I read a lot of science fiction

274

00:10:29,720 --> 00:10:26,730

and there's like classics like arthur c

275

00:10:31,519 --> 00:10:29,730

clarke that's gonna get into the the

276

00:10:33,530 --> 00:10:31,529

three videos that people have been

277

00:10:34,879 --> 00:10:33,540

talking about recently there's these

278

00:10:36,740 --> 00:10:34,889

three videos they've been around for a

279

00:10:38,629 --> 00:10:36,750

while there's the one from the nimitz

280

00:10:41,930 --> 00:10:38,639

encounter has been around for like since

281

00:10:45,110 --> 00:10:41,940

2007 I think rare and the incident I

282

00:10:47,650 --> 00:10:45,120

think was or 2004 was it yes yeah so he

283

00:10:50,240 --> 00:10:47,660

came out like three years after that

284

00:10:52,670 --> 00:10:50,250

ones I think in many ways that's the

285

00:10:54,350 --> 00:10:52,680

most interesting one in terms of the

286

00:10:57,050 --> 00:10:54,360

incident the overall incident because

287

00:10:58,850 --> 00:10:57,060

there's so many people who said

288

00:11:01,009 --> 00:10:58,860

something happened you know it seemed

289

00:11:03,439 --> 00:11:01,019

like something something happened that

290

00:11:04,490 --> 00:11:03,449

day was not entirely sure what happened

291

00:11:06,770 --> 00:11:04,500

but you know there's all these different

292

00:11:10,100 --> 00:11:06,780

people so this was in 2000

293

00:11:14,390 --> 00:11:10,110

or the Nimitz battlecruiser was ahead of

294

00:11:16,580 --> 00:11:14,400

like a fleet of ships and they were

295

00:11:20,090 --> 00:11:16,590

getting these radar returns that seemed

296

00:11:22,190 --> 00:11:20,100

like that they were you know something

297

00:11:24,740 --> 00:11:22,200

flying around and then they sent out a

298

00:11:26,900 --> 00:11:24,750

plane at one point and then the guy like

299

00:11:30,020 --> 00:11:26,910

saw what he thought was a tic-tac shaped

300

00:11:33,440 --> 00:11:30,030

object zipping around and it flew off at

301
00:11:35,930 --> 00:11:33,450
high speed and then another plane took a

302
00:11:38,660 --> 00:11:35,940
video and you got this latest video new

303
00:11:40,910 --> 00:11:38,670
planes two planes started initially yeah

304
00:11:46,910 --> 00:11:40,920
total of four people right yeah that was

305
00:11:48,350 --> 00:11:46,920
commander flavor and his is WS oh I got

306
00:11:50,780 --> 00:11:48,360
us yes

307
00:11:54,320 --> 00:11:50,790
weapons systems operator and then there

308
00:11:58,490 --> 00:11:54,330
was a female pilot a younger female

309
00:12:01,010 --> 00:11:58,500
pilot who was doing high-level support

310
00:12:04,790 --> 00:12:01,020
for him and she saw what happened from

311
00:12:06,710 --> 00:12:04,800
above yes yes yes that's quite

312
00:12:08,030 --> 00:12:06,720
compelling really you got like at least

313
00:12:09,650 --> 00:12:08,040

two people giving their direct

314

00:12:12,320 --> 00:12:09,660

accountant if the other two have

315

00:12:15,530 --> 00:12:12,330

actually given interviews Jim slate the

316

00:12:17,270 --> 00:12:15,540

wso from commander flavors plane he did

317

00:12:17,840 --> 00:12:17,280

one interview but that's all he's done

318

00:12:21,530 --> 00:12:17,850

so far

319

00:12:24,770 --> 00:12:21,540

did he basically corroborate yes exactly

320

00:12:26,660 --> 00:12:24,780

what he's ever said yes they were

321

00:12:30,560 --> 00:12:26,670

actually on together was that on one of

322

00:12:32,780 --> 00:12:30,570

the that the shows like the the disco it

323

00:12:34,340 --> 00:12:32,790

is actually mainstream media I I don't

324

00:12:36,290 --> 00:12:34,350

remember the channel I talked to my head

325

00:12:37,520 --> 00:12:36,300

yeah it was on the news yeah back when

326

00:12:41,090 --> 00:12:37,530

there was a bit of a flurry of interest

327

00:12:43,550 --> 00:12:41,100

around probably at times thing came out

328

00:12:45,500 --> 00:12:43,560

yeah that's very interesting like what

329

00:12:48,920 --> 00:12:45,510

could he have seen and all these people

330

00:12:51,800 --> 00:12:48,930

co-operators yeah it's it's a bit of a

331

00:12:54,220 --> 00:12:51,810

puzzle like he he says he saw like he

332

00:12:57,140 --> 00:12:54,230

was looking down and saw churning water

333

00:13:01,280 --> 00:12:57,150

what are your thoughts on that whole

334

00:13:03,440 --> 00:13:01,290

incident well first of all I think it's

335

00:13:06,230 --> 00:13:03,450

not a good idea to focus on only the

336

00:13:07,970 --> 00:13:06,240

video I think that's a problem that your

337

00:13:10,280 --> 00:13:07,980

website has with all three of these

338

00:13:12,200 --> 00:13:10,290

videos or at least two of them I think

339

00:13:14,540 --> 00:13:12,210

that we should take into account what

340

00:13:17,270 --> 00:13:14,550

the witnesses saw because as you said we

341

00:13:18,980 --> 00:13:17,280

have three public aviators that have

342

00:13:20,150 --> 00:13:18,990

seen the same thing and then we also

343

00:13:21,980 --> 00:13:20,160

have multiple

344

00:13:23,869 --> 00:13:21,990

witnesses from both the Nimitz in the

345

00:13:25,970 --> 00:13:23,879

Princeton who corroborate the exact same

346

00:13:28,720 --> 00:13:25,980

story different aspects of the same

347

00:13:31,069 --> 00:13:28,730

story but they all tell the same tale

348

00:13:34,069 --> 00:13:31,079

along the same lines of each other and

349

00:13:37,189 --> 00:13:34,079

then if you have radar and visual

350

00:13:38,990 --> 00:13:37,199

contact to me that's a genuine UFO even

351
00:13:40,639 --> 00:13:39,000
even though we didn't have the video of

352
00:13:42,590 --> 00:13:40,649
the initial contact of the merge plot

353
00:13:45,350 --> 00:13:42,600
point where three people three public

354
00:13:48,079 --> 00:13:45,360
witnesses saw it we still have the radar

355
00:13:50,749 --> 00:13:48,089
in the same spot and yes it is possible

356
00:13:53,480 --> 00:13:50,759
that it's different objects but I think

357
00:13:54,920 --> 00:13:53,490
it's very likely that the tic-tock was

358
00:13:56,389 --> 00:13:54,930
the object that they saw on radar

359
00:13:59,499 --> 00:13:56,399
because it's in the same place and they

360
00:14:04,970 --> 00:13:59,509
saw it visually they didn't see the

361
00:14:07,879 --> 00:14:04,980
tic-tac craft depart the the area like

362
00:14:10,910 --> 00:14:07,889
flava says he flew away but no one says

363
00:14:14,119 --> 00:14:10,920

they saw it fly away on the radar I'm

364

00:14:16,340 --> 00:14:14,129

not really 100% sure on this I've asked

365

00:14:19,160 --> 00:14:16,350

Kevin day and he hasn't responded to my

366

00:14:22,550 --> 00:14:19,170

most recent question but definitely they

367

00:14:24,350 --> 00:14:22,560

saw on radar the object zoom from the

368

00:14:26,059 --> 00:14:24,360

merge plot point which is where

369

00:14:29,059 --> 00:14:26,069

commander flavor first encountered it

370

00:14:31,040 --> 00:14:29,069

and then from there in under two seconds

371

00:14:33,559 --> 00:14:31,050

it's over the horizon so hypersonic

372

00:14:36,079 --> 00:14:33,569

speeds we have there observe and also

373

00:14:37,790 --> 00:14:36,089

commit or Kevin days said that we saw

374

00:14:39,980 --> 00:14:37,800

that on radar and that the tic-tock

375

00:14:41,809 --> 00:14:39,990

object went directly to the cap point

376

00:14:44,150 --> 00:14:41,819

which is the combat air patrol point

377

00:14:46,550 --> 00:14:44,160

they were using for training so somehow

378

00:14:48,470 --> 00:14:46,560

this object knew the precise location of

379

00:14:50,990 --> 00:14:48,480

that training coordinate and then it

380

00:14:53,509 --> 00:14:51,000

zoomed there from their encounter yeah

381

00:14:55,370 --> 00:14:53,519

doesn't described it as zoom that if

382

00:14:58,970 --> 00:14:55,380

they just said it's now actual cap point

383

00:15:01,370 --> 00:14:58,980

they didn't show it moving right but

384

00:15:03,530 --> 00:15:01,380

commander favor described it as zooming

385

00:15:06,049 --> 00:15:03,540

across his tail and this was seen by the

386

00:15:08,660 --> 00:15:06,059

20,000 foot high cover which is the

387

00:15:11,059 --> 00:15:08,670

terminal pile yeah it zoomed somewhere

388

00:15:12,910 --> 00:15:11,069

the big problem you know it's like you

389

00:15:15,460 --> 00:15:12,920

get these eyewitness accounts of

390

00:15:19,519 --> 00:15:15,470

movement and then you get these

391

00:15:21,319 --> 00:15:19,529

recollections of radar art movement but

392

00:15:23,240 --> 00:15:21,329

they they don't they don't share the

393

00:15:25,819 --> 00:15:23,250

same thing like you you see the radar

394

00:15:28,639 --> 00:15:25,829

says you know Kevin day you talked about

395

00:15:30,019 --> 00:15:28,649

he was the guy who was I guess operating

396

00:15:33,300 --> 00:15:30,029

the it wouldn't read you call just the

397

00:15:38,069 --> 00:15:33,310

radar the whole system the CIS thing

398

00:15:39,780 --> 00:15:38,079

the CEC CEC yes yeah yeah that's kind of

399

00:15:41,939 --> 00:15:39,790

already called for combating engagement

400

00:15:43,769 --> 00:15:41,949

center or something something like that

401

00:15:46,800 --> 00:15:43,779

it's a cooperative radar system right

402

00:15:48,509 --> 00:15:46,810

yeah so it synthesizes puts together all

403

00:15:51,480 --> 00:15:48,519

the data from different systems so you

404

00:15:53,009 --> 00:15:51,490

can see it on one screen and should be

405

00:15:56,730 --> 00:15:53,019

really good obviously because you've got

406

00:16:00,660 --> 00:15:56,740

all these inputs but so he says that he

407

00:16:02,670 --> 00:16:00,670

saw it dropping from 80,000 feet 20,000

408

00:16:04,710 --> 00:16:02,680

feet and then dropping from I don't know

409

00:16:06,629 --> 00:16:04,720

where it's 28,000 feet 50 feet or

410

00:16:08,999 --> 00:16:06,639

something like that so you've got these

411

00:16:11,100 --> 00:16:09,009

recollections of this radar data showing

412

00:16:14,489 --> 00:16:11,110

one thing but then you don't have the

413

00:16:16,679 --> 00:16:14,499

eyewitnesses showing it dropping you

414

00:16:19,439 --> 00:16:16,689

have them showing it like it's exacting

415

00:16:21,660 --> 00:16:19,449

around where they are you know being at

416

00:16:23,939 --> 00:16:21,670

the ocean surface and then you have them

417

00:16:27,389 --> 00:16:23,949

going away so you don't get this this

418

00:16:31,530 --> 00:16:27,399

this exact match between video and

419

00:16:33,449 --> 00:16:31,540

eyewitness and radar and the video is

420

00:16:35,970 --> 00:16:33,459

completely different again like the

421

00:16:37,410 --> 00:16:35,980

video just shows like a distant thing

422

00:16:39,629 --> 00:16:37,420

that you know it looks like it's just

423

00:16:43,110 --> 00:16:39,639

flying away it doesn't really move other

424

00:16:47,490 --> 00:16:43,120

than getting a bit smaller hmm so I mean

425

00:16:51,360 --> 00:16:47,500

like would you consider this really to

426
00:16:53,460 --> 00:16:51,370
be the same thing I can't say with 100%

427
00:16:55,980 --> 00:16:53,470
certainty that all of these objects are

428
00:16:57,600 --> 00:16:55,990
the same but I can say that in my

429
00:16:59,970 --> 00:16:57,610
opinion I think that they're definitely

430
00:17:01,710 --> 00:16:59,980
related so I don't know if you're

431
00:17:04,049 --> 00:17:01,720
familiar with all of the witnesses but

432
00:17:06,419 --> 00:17:04,059
there's a person on board the Nimitz

433
00:17:09,210 --> 00:17:06,429
called PJ Hughes and he's in charge of

434
00:17:10,679 --> 00:17:09,220
the e-2 Hawkeye radar tapes so that's a

435
00:17:13,020 --> 00:17:10,689
radar plane that was flying around at

436
00:17:14,549 --> 00:17:13,030
the time and commander favor has said

437
00:17:16,679 --> 00:17:14,559
that this plane could see the tic-tock

438
00:17:19,380 --> 00:17:16,689

objects on radar there's a bit of a

439

00:17:20,579 --> 00:17:19,390

discrepancy with that because Dave BD

440

00:17:22,829 --> 00:17:20,589

who made the Nimitz encounter

441

00:17:24,720 --> 00:17:22,839

documentary he told me that at least at

442

00:17:26,669 --> 00:17:24,730

one point the windows were open and the

443

00:17:27,990 --> 00:17:26,679

radar was off on this plane but if it

444

00:17:30,659 --> 00:17:28,000

did make radar contact

445

00:17:33,510 --> 00:17:30,669

that's another plane in the sky that was

446

00:17:34,980 --> 00:17:33,520

seeing all of these things basically the

447

00:17:37,740 --> 00:17:34,990

entire time that it was airborne and

448

00:17:39,779 --> 00:17:37,750

those tapes were confiscated by Air

449

00:17:42,419 --> 00:17:39,789

Force officials according to PJ Hughes

450

00:17:44,159 --> 00:17:42,429

so that's a bit anomalous why is the Air

451
00:17:45,240 --> 00:17:44,169
Force coming onboard the Nimitz but so

452
00:17:47,080 --> 00:17:45,250
yeah that's very interesting

453
00:17:50,409 --> 00:17:47,090
okay the men in black type things

454
00:17:53,560 --> 00:17:50,419
the riot house it and I think the other

455
00:17:55,269 --> 00:17:53,570
guy a opj here is Patrick Hughes yeah I

456
00:17:58,690 --> 00:17:55,279
talked to him on Facebook and I asked

457
00:18:00,190 --> 00:17:58,700
him if the radar showed the departing

458
00:18:02,830 --> 00:18:00,200
and and he said I should talk to Kevin

459
00:18:05,259 --> 00:18:02,840
day and can I talk to Kevin day and he

460
00:18:07,450 --> 00:18:05,269
did right yeah say it did sir

461
00:18:09,580 --> 00:18:07,460
so PJ Hughes I don't think he's actually

462
00:18:11,440 --> 00:18:09,590
seen the radar data I think he was just

463
00:18:13,570 --> 00:18:11,450

in charge of holding the tape some safe

464

00:18:15,580 --> 00:18:13,580

and but he says that his friend Roger

465

00:18:17,080 --> 00:18:15,590

who was on board that e 2 plane he said

466

00:18:19,029 --> 00:18:17,090

he could look out the window and see a

467

00:18:21,129 --> 00:18:19,039

tic-tac right next to his plane so

468

00:18:22,899 --> 00:18:21,139

because we have multiple objects being

469

00:18:25,629 --> 00:18:22,909

tracked on radar by the by the Princeton

470

00:18:27,820 --> 00:18:25,639

over that two-week period and because we

471

00:18:29,739 --> 00:18:27,830

have multiple objects apparently being

472

00:18:31,480 --> 00:18:29,749

seen by multiple different planes at the

473

00:18:33,850 --> 00:18:31,490

same time or around the same time I

474

00:18:36,369 --> 00:18:33,860

think even if the objects aren't the

475

00:18:39,220 --> 00:18:36,379

same from the video the radar and the

476

00:18:41,259 --> 00:18:39,230

visual sighting or sightings I think

477

00:18:44,590 --> 00:18:41,269

that they are probably related in some

478

00:18:48,820 --> 00:18:44,600

way well they're all in the same space

479

00:18:53,710 --> 00:18:48,830

and time exact and they yeah the other

480

00:18:57,340 --> 00:18:53,720

guy Gary Voorhis and he he was a and I

481

00:18:59,590 --> 00:18:57,350

witness to it and he said that what was

482

00:19:02,710 --> 00:18:59,600

his name Roger could see it out of the

483

00:19:04,450 --> 00:19:02,720

window of the plane carry of or he said

484

00:19:06,700 --> 00:19:04,460

that you could see it from from the deck

485

00:19:09,340 --> 00:19:06,710

of the Nimitz using binoculars they have

486

00:19:13,119 --> 00:19:09,350

these big 20x binoculars called big eyes

487

00:19:14,379 --> 00:19:13,129

that mounted on on these platforms above

488

00:19:15,460 --> 00:19:14,389

the deck and you can see him through

489

00:19:16,869 --> 00:19:15,470

that he said he could even see it

490

00:19:19,029 --> 00:19:16,879

through their own personal binoculars

491

00:19:21,879 --> 00:19:19,039

and he says that you could see them for

492

00:19:23,590 --> 00:19:21,889

days I think he said that they looked

493

00:19:26,619 --> 00:19:23,600

like little points of light which is why

494

00:19:29,440 --> 00:19:26,629

we call them tic tacs and I could be

495

00:19:31,960 --> 00:19:29,450

slightly misquoting him there but you

496

00:19:34,330 --> 00:19:31,970

know flavor describes this tic-tac as

497

00:19:36,789 --> 00:19:34,340

being this this oblong there's not

498

00:19:42,009 --> 00:19:36,799

belong this this you know something

499

00:19:43,779 --> 00:19:42,019

shaped a bit like this a capsule I think

500

00:19:48,609 --> 00:19:43,789

it's a technical term it's a cylinder

501
00:19:50,680 --> 00:19:48,619
with two domes on the end but you can

502
00:19:52,359 --> 00:19:50,690
you've got Gary Voorhis saying we saw

503
00:19:55,269 --> 00:19:52,369
these points of light and we call them

504
00:19:57,609 --> 00:19:55,279
tic tacs yeah I don't think that kind of

505
00:19:59,619 --> 00:19:57,619
rings true in terms of why they call

506
00:20:00,850 --> 00:19:59,629
them tic tacs I think you might be kind

507
00:20:03,970 --> 00:20:00,860
of forcing the back excellent

508
00:20:06,460 --> 00:20:03,980
on to that but a lot of what they

509
00:20:08,140 --> 00:20:06,470
described is just points of light so

510
00:20:10,240 --> 00:20:08,150
when people say they're seeing the same

511
00:20:11,560 --> 00:20:10,250
thing over and over again if they're

512
00:20:13,030 --> 00:20:11,570
just seeing like a white speck in the

513
00:20:17,020 --> 00:20:13,040

distance some how do you know it's not a

514

00:20:19,060 --> 00:20:17,030

seagull well I would say that the

515

00:20:21,850 --> 00:20:19,070

hypersonic radar tracking would prove

516

00:20:23,140 --> 00:20:21,860

that it's not a seagull yeah yeah and

517

00:20:25,570 --> 00:20:23,150

that the tracking you know obviously

518

00:20:28,060 --> 00:20:25,580

like the obvious can debunk your

519

00:20:29,740 --> 00:20:28,070

explanation for for radar is that it's

520

00:20:32,140 --> 00:20:29,750

just a glitch there's some some kind of

521

00:20:34,270 --> 00:20:32,150

problem with the system and we know that

522

00:20:36,370 --> 00:20:34,280

the were problems with with the system

523

00:20:37,870 --> 00:20:36,380

because they they said that we've got

524

00:20:39,310 --> 00:20:37,880

all this clutter we're gonna reboot the

525

00:20:41,470 --> 00:20:39,320

system take it down and bring it back up

526

00:20:42,940 --> 00:20:41,480

again and recalibrate it and that should

527

00:20:45,549 --> 00:20:42,950

fix it and then they did that and then

528

00:20:47,289 --> 00:20:45,559

they didn't go away so they they assumed

529

00:20:48,820 --> 00:20:47,299

yeah that they were real at that point

530

00:20:50,980 --> 00:20:48,830

or some people assumed they were real I

531

00:20:52,510 --> 00:20:50,990

think that it doesn't show that there

532

00:20:54,340 --> 00:20:52,520

was a problem with the system I think

533

00:20:56,320 --> 00:20:54,350

that they were just testing to make sure

534

00:20:58,360 --> 00:20:56,330

that these were in fact real tracks and

535

00:21:00,310 --> 00:20:58,370

not ghost tracks but as you said when

536

00:21:03,159 --> 00:21:00,320

they reinstalled the system it just got

537

00:21:05,460 --> 00:21:03,169

clear no it was definitely real yeah but

538

00:21:07,990 --> 00:21:05,470

it shows that they expect there to be

539

00:21:09,760 --> 00:21:08,000

problems from time to time it means that

540

00:21:11,590 --> 00:21:09,770

it's not an unexpected event and

541

00:21:13,450 --> 00:21:11,600

obviously we hear about false radar

542

00:21:15,549 --> 00:21:13,460

tracks all the time and even like the

543

00:21:17,080 --> 00:21:15,559

pilots say there's accounts of pilots

544

00:21:19,419 --> 00:21:17,090

saying like there was false tracks off

545

00:21:20,740 --> 00:21:19,429

my wing and things like that though so

546

00:21:22,390 --> 00:21:20,750

it does actually happen these these

547

00:21:25,030 --> 00:21:22,400

false tracks and there's up a variety of

548

00:21:29,080 --> 00:21:25,040

physical reasons for it like inversion

549

00:21:31,960 --> 00:21:29,090

layers and reflections off of big waves

550

00:21:33,549 --> 00:21:31,970

and things like that so they do happen

551
00:21:36,940 --> 00:21:33,559
but we don't know what happened in this

552
00:21:37,900 --> 00:21:36,950
case obviously but it kind of raises the

553
00:21:40,659 --> 00:21:37,910
question though what do you why do you

554
00:21:42,909 --> 00:21:40,669
think that the the Navy was so

555
00:21:46,299 --> 00:21:42,919
unconcerned about this large fleet of

556
00:21:49,659 --> 00:21:46,309
flying objects next to the next to the

557
00:21:52,780 --> 00:21:49,669
Carrier Strike Group I don't know I mean

558
00:21:54,700 --> 00:21:52,790
maybe they had seen it before and they

559
00:21:56,890 --> 00:21:54,710
already knew kind of what they were

560
00:21:59,020 --> 00:21:56,900
dealing with because on the East Coast

561
00:22:02,020 --> 00:21:59,030
those those pilots have said that they

562
00:22:03,970 --> 00:22:02,030
saw them nearly every day so it could be

563
00:22:05,740 --> 00:22:03,980

that this wasn't the the high command's

564

00:22:09,190 --> 00:22:05,750

first encounters with these sorts of

565

00:22:11,380 --> 00:22:09,200

objects and it was just kind of a

566

00:22:13,570 --> 00:22:11,390

curious thing for the newer people but

567

00:22:14,680 --> 00:22:13,580

commander favor was already a pilot for

568

00:22:16,210 --> 00:22:14,690

at least over a deck

569

00:22:18,970 --> 00:22:16,220

at the time and that was his first

570

00:22:21,280 --> 00:22:18,980

encounter with it yes but like I mean

571

00:22:23,680 --> 00:22:21,290

you didn't think that the Navy is just

572

00:22:25,390 --> 00:22:23,690

used to seeing alien crafts flying

573

00:22:27,370 --> 00:22:25,400

around or advanced technology and they

574

00:22:30,400 --> 00:22:27,380

have been for decades and they just no

575

00:22:33,430 --> 00:22:30,410

one's mentioned it before I don't know I

576

00:22:36,730 --> 00:22:33,440

mean into the cover up later with the

577

00:22:38,320 --> 00:22:36,740

whole conspiracy thing but as I said on

578

00:22:39,850 --> 00:22:38,330

the East Coast they saw those objects

579

00:22:41,920 --> 00:22:39,860

almost every day both on radar and

580

00:22:43,210 --> 00:22:41,930

visually and then those objects also

581

00:22:45,580 --> 00:22:43,220

followed them to the Middle East to

582

00:22:46,960 --> 00:22:45,590

their deployment in a war zone so that

583

00:22:49,420 --> 00:22:46,970

shows that these objects are either

584

00:22:52,780 --> 00:22:49,430

following the carrier battle groups or

585

00:22:54,310 --> 00:22:52,790

it's truly a global phenomenon and if

586

00:22:56,710 --> 00:22:54,320

anybody would know that it would be the

587

00:22:58,990 --> 00:22:56,720

Navy because they're in every ocean at

588

00:23:01,120 --> 00:22:59,000

all times well you know back in World

589

00:23:04,390 --> 00:23:01,130

War two they had a thing called a Foo

590

00:23:06,700 --> 00:23:04,400

Fighter which was a write a you know

591

00:23:09,370 --> 00:23:06,710

essentially a UFO like they had various

592

00:23:12,880 --> 00:23:09,380

theories about what they were you know

593

00:23:16,030 --> 00:23:12,890

all pilots see things in this guy at

594

00:23:18,970 --> 00:23:16,040

some point or another and you know I

595

00:23:20,740 --> 00:23:18,980

think again in there the stuff that they

596

00:23:23,710 --> 00:23:20,750

described in the Gulf a lot of that was

597

00:23:26,200 --> 00:23:23,720

described as being points of light and

598

00:23:27,550 --> 00:23:26,210

you know not not solid objects there's a

599

00:23:29,800 --> 00:23:27,560

few different versions of the solid

600

00:23:31,540 --> 00:23:29,810

objects mmm

601
00:23:34,960 --> 00:23:31,550
you know talk briefly about the other

602
00:23:36,400 --> 00:23:34,970
videos sure you credit for the go-fast

603
00:23:38,140 --> 00:23:36,410
analysis I thought you did a great job

604
00:23:40,090 --> 00:23:38,150
with that like you're doing all the math

605
00:23:41,830 --> 00:23:40,100
and proving the out stood in the speech

606
00:23:44,380 --> 00:23:41,840
yeah it wasn't to complicate it I think

607
00:23:47,140 --> 00:23:44,390
a bunch of other people don't - it is

608
00:23:49,300 --> 00:23:47,150
very simple trick and I meant to ask you

609
00:23:51,160 --> 00:23:49,310
if we know the field of view for the

610
00:23:53,410 --> 00:23:51,170
tic-tac which I think we do so we know

611
00:23:55,210 --> 00:23:53,420
how wide the field of view is and if we

612
00:23:57,880 --> 00:23:55,220
can estimate the size of the object

613
00:24:00,100 --> 00:23:57,890

whether it's a passenger plane as you

614

00:24:01,330 --> 00:24:00,110

have suggested or 40 feet long as

615

00:24:01,840 --> 00:24:01,340

commander favor has described the

616

00:24:04,090 --> 00:24:01,850

tic-tac

617

00:24:07,150 --> 00:24:04,100

if we know the size and the field of

618

00:24:10,020 --> 00:24:07,160

view can we not determine speed and

619

00:24:11,380 --> 00:24:10,030

distance from those two things well yeah

620

00:24:14,140 --> 00:24:11,390

to a degree

621

00:24:16,630 --> 00:24:14,150

yeah you just estimated it no yeah you

622

00:24:18,970 --> 00:24:16,640

you can say if it's this size then it

623

00:24:20,440 --> 00:24:18,980

must be yeah this far travel assuming

624

00:24:22,840 --> 00:24:20,450

that the field of it's not entirely

625

00:24:26,290 --> 00:24:22,850

clear what the field of view is because

626
00:24:27,460 --> 00:24:26,300
it changes no no that it describes what

627
00:24:27,960 --> 00:24:27,470
it is in the corner of the screen

628
00:24:35,610 --> 00:24:27,970
there's a

629
00:24:37,290 --> 00:24:35,620
field of view but from the specific we

630
00:24:40,040 --> 00:24:37,300
don't know the exact specifications of

631
00:24:42,810 --> 00:24:40,050
the the the appFolio system and

632
00:24:46,230 --> 00:24:42,820
apparently it varies between like 0.75

633
00:24:48,030 --> 00:24:46,240
or 1 degrees or 1.5 degrees so it's not

634
00:24:51,000 --> 00:24:48,040
exact so we can get a good ballpark of

635
00:24:52,740 --> 00:24:51,010
thing do you do you admit that the

636
00:24:55,140 --> 00:24:52,750
object is moving from right to left in

637
00:24:57,300 --> 00:24:55,150
that video yes

638
00:24:59,310 --> 00:24:57,310

okay yeah so then I just wanted to let

639

00:25:01,110 --> 00:24:59,320

you know that you the way you have the

640

00:25:02,940 --> 00:25:01,120

plot the tail of the plane on the left

641

00:25:06,000 --> 00:25:02,950

the plane would be there lying backwards

642

00:25:08,730 --> 00:25:06,010

yeah I know yeah I I mentioned I did

643

00:25:10,380 --> 00:25:08,740

that yeah no I did that someone pointed

644

00:25:12,510 --> 00:25:10,390

that out obsessed over straight away and

645

00:25:15,360 --> 00:25:12,520

I updated it but yeah that was just the

646

00:25:16,710 --> 00:25:15,370

first first plane I I picked and it was

647

00:25:18,870 --> 00:25:16,720

probably a mistake to try to read too

648

00:25:20,910 --> 00:25:18,880

much into this little bit that appears

649

00:25:23,460 --> 00:25:20,920

to be sticking up on one side because

650

00:25:26,370 --> 00:25:23,470

you can if you take a plane and you know

651
00:25:27,810 --> 00:25:26,380
it's it could be any type of plane and

652
00:25:30,180 --> 00:25:27,820
passenger planes have a fairly

653
00:25:31,980 --> 00:25:30,190
distinctive shape along but the military

654
00:25:34,320 --> 00:25:31,990
planes have a variety of shapes like it

655
00:25:35,640 --> 00:25:34,330
could be you know a Hawkeye plane as a

656
00:25:39,060 --> 00:25:35,650
very different shape because it's got

657
00:25:41,130 --> 00:25:39,070
that big radar on top and jets are tend

658
00:25:44,460 --> 00:25:41,140
to be chunkier and have their fins and

659
00:25:45,960 --> 00:25:44,470
rather different configurations so last

660
00:25:48,000 --> 00:25:45,970
question about that do you think that

661
00:25:50,430 --> 00:25:48,010
there was in fact a radar jamming during

662
00:25:51,960 --> 00:25:50,440
the time that that video was taken or do

663
00:25:53,430 --> 00:25:51,970

you think there was no radar Jimmy well

664

00:25:55,200 --> 00:25:53,440

I don't know I mean if they have

665

00:25:56,760 --> 00:25:55,210

something a radar jamming detector that

666

00:25:59,490 --> 00:25:56,770

tells them the radar is being jammed

667

00:26:00,990 --> 00:25:59,500

does that only ever go off when the

668

00:26:02,340 --> 00:26:01,000

radio is being jammed and did it

669

00:26:03,480 --> 00:26:02,350

actually go off I think I think they

670

00:26:07,350 --> 00:26:03,490

said yeah I don't know it was being

671

00:26:09,210 --> 00:26:07,360

being jammed I think I suspect it was

672

00:26:12,420 --> 00:26:09,220

more like the Chilean case where they

673

00:26:13,530 --> 00:26:12,430

thought it was you know 30 miles in

674

00:26:15,030 --> 00:26:13,540

front of them and it was actually a

675

00:26:18,600 --> 00:26:15,040

sixty miles in front of them because it

676
00:26:20,820 --> 00:26:18,610
was a bigger bigger jet well commander

677
00:26:22,680 --> 00:26:20,830
flavor has said that there was radar

678
00:26:24,240 --> 00:26:22,690
jamming and jamming cues and he said

679
00:26:26,040 --> 00:26:24,250
that under what has told him that and he

680
00:26:28,110 --> 00:26:26,050
says that it's visible on the tape the

681
00:26:31,020 --> 00:26:28,120
radar tape not the not the tape that

682
00:26:32,550 --> 00:26:31,030
we've seen but in the official incident

683
00:26:34,140 --> 00:26:32,560
report it says that Chad Underwood who

684
00:26:36,480 --> 00:26:34,150
was the pilot of the jet that took the

685
00:26:38,430 --> 00:26:36,490
video it says that in that report there

686
00:26:40,020 --> 00:26:38,440
was no official jamming cues so

687
00:26:41,180 --> 00:26:40,030
hopefully when commander braver goes on

688
00:26:42,890 --> 00:26:41,190

to Joe Rogan

689

00:26:45,710 --> 00:26:42,900

I think in November hopefully you'll try

690

00:26:48,890 --> 00:26:45,720

to clear that up a bit for us hmm and

691

00:26:54,620 --> 00:26:48,900

we'll be interesting yeah I should send

692

00:26:56,660 --> 00:26:54,630

some questions and yes yeah the official

693

00:26:59,300 --> 00:26:56,670

incident report for the the Nimitz thing

694

00:27:03,080 --> 00:26:59,310

that I think they say the plane did not

695

00:27:05,450 --> 00:27:03,090

appear to move like he just receded so

696

00:27:08,450 --> 00:27:05,460

my guy who yeah I'm not sure how

697

00:27:10,070 --> 00:27:08,460

official that is that report commander

698

00:27:11,750 --> 00:27:10,080

favor has said it's the unofficial

699

00:27:13,400 --> 00:27:11,760

official report so he says it's

700

00:27:15,170 --> 00:27:13,410

legitimate but I don't know if it's

701
00:27:17,120 --> 00:27:15,180
technically official so you would

702
00:27:20,000 --> 00:27:17,130
consider it confirmed the guy who took

703
00:27:22,190 --> 00:27:20,010
the video made this report about taking

704
00:27:24,440 --> 00:27:22,200
the video well I think there are a lot

705
00:27:27,080 --> 00:27:24,450
of inconsistencies between the witness

706
00:27:28,550 --> 00:27:27,090
testimony what we can see and also what

707
00:27:30,200 --> 00:27:28,560
appears in that incident report so I

708
00:27:32,180 --> 00:27:30,210
think there are a lot of variables that

709
00:27:33,980 --> 00:27:32,190
we still need to clear up what actually

710
00:27:36,680 --> 00:27:33,990
happened but I think it's clear that the

711
00:27:39,320 --> 00:27:36,690
object is moving from right to left yeah

712
00:27:41,390 --> 00:27:39,330
I know you can tell that from just the

713
00:27:46,580 --> 00:27:41,400

angle that's displayed on the screen

714

00:27:48,770 --> 00:27:46,590

yeah yeah all right so so go fast you're

715

00:27:50,240 --> 00:27:48,780

okay with that being something that's

716

00:27:51,050 --> 00:27:50,250

not moving that fast and it's in fact

717

00:27:54,530 --> 00:27:51,060

yeah

718

00:27:58,040 --> 00:27:54,540

1,300 feet do you think it makes any

719

00:28:00,920 --> 00:27:58,050

sense that it's a balloon no and I'll

720

00:28:02,720 --> 00:28:00,930

tell you why I think if you look at only

721

00:28:05,300 --> 00:28:02,730

go-fast alone I think it could be a

722

00:28:06,560 --> 00:28:05,310

balloon but the fact now I don't know if

723

00:28:08,420 --> 00:28:06,570

you've seen it but now we know that

724

00:28:10,790 --> 00:28:08,430

gimbal and go-fast were taken on the

725

00:28:12,920 --> 00:28:10,800

same day some people suggest as little

726

00:28:14,900 --> 00:28:12,930

as 20 minutes apart it's definitely the

727

00:28:17,660 --> 00:28:14,910

same flight crew the same people in both

728

00:28:19,820 --> 00:28:17,670

videos so I think that there's a very

729

00:28:21,890 --> 00:28:19,830

high likelihood not certainty but

730

00:28:24,290 --> 00:28:21,900

likelihood that the object we see in

731

00:28:26,300 --> 00:28:24,300

go-fast might be related to the objects

732

00:28:27,950 --> 00:28:26,310

that are supposedly seen in the longer

733

00:28:30,290 --> 00:28:27,960

version of the gimbal video which are

734

00:28:32,660 --> 00:28:30,300

flying in formation and if those objects

735

00:28:34,550 --> 00:28:32,670

are flying against the wind then I don't

736

00:28:36,500 --> 00:28:34,560

think it could be a balloon assuming

737

00:28:40,580 --> 00:28:36,510

it's the same on the same object in both

738

00:28:41,930 --> 00:28:40,590

videos yeah although it could be that

739

00:28:45,200 --> 00:28:41,940

you know if they thought that it was

740

00:28:47,180 --> 00:28:45,210

moving at a different altitude like it

741

00:28:49,490 --> 00:28:47,190

looks like it's down by sea level and

742

00:28:51,320 --> 00:28:49,500

the wind direction of sea level can be

743

00:28:52,890 --> 00:28:51,330

very different to the wind direction at

744

00:28:54,570 --> 00:28:52,900

13,000 feet

745

00:28:57,180 --> 00:28:54,580

and you actually be completely different

746

00:29:00,420 --> 00:28:57,190

directions sea level winds are usually

747

00:29:02,640 --> 00:29:00,430

quite slow and and you know they would

748

00:29:03,780 --> 00:29:02,650

know that I don't know like what they

749

00:29:05,730 --> 00:29:03,790

would do but they would probably think

750

00:29:08,490 --> 00:29:05,740

that they were I would think they would

751

00:29:10,350 --> 00:29:08,500

be going by the wind direction of their

752

00:29:12,180 --> 00:29:10,360

altitude which was twenty five thousand

753

00:29:14,790 --> 00:29:12,190

feet go fast

754

00:29:17,460 --> 00:29:14,800

correct so I was mostly talking about

755

00:29:19,500 --> 00:29:17,470

the gimbal footage okay we can you're on

756

00:29:21,210 --> 00:29:19,510

the audio there that they're saying look

757

00:29:23,310 --> 00:29:21,220

on the SA the situational awareness

758

00:29:25,260 --> 00:29:23,320

radar display there's a whole fleet of

759

00:29:27,030 --> 00:29:25,270

them and they're flying against the wind

760

00:29:28,919 --> 00:29:27,040

and the wind is a hundred and twenty

761

00:29:31,799 --> 00:29:28,929

knots to the west or out of the West

762

00:29:33,210 --> 00:29:31,809

so that's hurricane-force winds that

763

00:29:35,850 --> 00:29:33,220

these objects are flying in formation

764

00:29:37,790 --> 00:29:35,860

and against the wind in that storm of

765

00:29:40,410 --> 00:29:37,800

wind so I think that it basically

766

00:29:43,320 --> 00:29:40,420

completely rules out birds flying in

767

00:29:44,460 --> 00:29:43,330

formation or any type of balloons even

768

00:29:45,750 --> 00:29:44,470

if it has thrusters

769

00:29:47,400 --> 00:29:45,760

I don't think balloons are going to be

770

00:29:49,620 --> 00:29:47,410

able to fly against that that's strong

771

00:29:51,270 --> 00:29:49,630

of a wind well yeah I don't think the

772

00:29:54,090 --> 00:29:51,280

gimbal video there's the gimbal videos

773

00:29:55,320 --> 00:29:54,100

the one with the rotating shape on it I

774

00:29:56,970 --> 00:29:55,330

don't think that's a balloon at all I

775

00:30:00,030 --> 00:29:56,980

mean but I think anyone's ever suggested

776

00:30:02,400 --> 00:30:00,040

that would be able to because it's got a

777

00:30:05,070 --> 00:30:02,410

very hot heat source so it's certainly

778

00:30:06,720 --> 00:30:05,080

as a jet engine of some sort to clarify

779

00:30:08,460 --> 00:30:06,730

I'm just talking about the smaller

780

00:30:10,650 --> 00:30:08,470

objects in formation that have been

781

00:30:12,120 --> 00:30:10,660

described by lieutenant Ryan graves yeah

782

00:30:14,250 --> 00:30:12,130

and I know that you think that his

783

00:30:16,770 --> 00:30:14,260

witness testimony isn't necessarily

784

00:30:18,090 --> 00:30:16,780

reliable but he was on the ship with the

785

00:30:20,280 --> 00:30:18,100

flight crew he talked to them right

786

00:30:22,650 --> 00:30:20,290

after it happened he said that these

787

00:30:24,120 --> 00:30:22,660

these objects these objects information

788

00:30:26,910 --> 00:30:24,130

were visible on the longer version of

789

00:30:28,740 --> 00:30:26,920

the gimbal video so if that video ever

790

00:30:30,780 --> 00:30:28,750

comes to light I think that those

791

00:30:34,890 --> 00:30:30,790

objects are a hundred percent not

792

00:30:36,810 --> 00:30:34,900

balloons or Birds yeah well I guess we

793

00:30:39,000 --> 00:30:36,820

probably won't see unfortunately because

794

00:30:41,160 --> 00:30:39,010

yeah you know the Navy is in their

795

00:30:43,200 --> 00:30:41,170

recent statements have said that they're

796

00:30:45,210 --> 00:30:43,210

going to investigate it but the

797

00:30:47,400 --> 00:30:45,220

investigation will include classified

798

00:30:50,730 --> 00:30:47,410

materials so they probably will not tell

799

00:30:53,310 --> 00:30:50,740

us the results yes which is great for

800

00:30:55,520 --> 00:30:53,320

the UFO speculation industry we can just

801
00:30:58,290 --> 00:30:55,530
continue to argue about it for years but

802
00:31:00,270 --> 00:30:58,300
it's rather frustrating that we won't

803
00:31:01,380 --> 00:31:00,280
actually know what these things are

804
00:31:02,820 --> 00:31:01,390
maybe they will say that they've

805
00:31:06,660 --> 00:31:02,830
determined that they were not

806
00:31:09,270 --> 00:31:06,670
interesting at some point what about a

807
00:31:13,140 --> 00:31:09,280
I have this explanation of the rotation

808
00:31:16,080 --> 00:31:13,150
of a gimbal like I saying that it's a

809
00:31:18,660 --> 00:31:16,090
glare from you know an infrared thing

810
00:31:20,160 --> 00:31:18,670
and like you know something big yeah

811
00:31:24,419 --> 00:31:20,170
bright light gives a glare that's bigger

812
00:31:26,039 --> 00:31:24,429
than the object itself so and when the

813
00:31:28,980 --> 00:31:26,049

camera rotates it makes the glow rotate

814

00:31:31,380 --> 00:31:28,990

and the horizon is d rotate it so what

815

00:31:33,030 --> 00:31:31,390

do you think of that explanation I think

816

00:31:34,890 --> 00:31:33,040

it's totally plausible and I think you

817

00:31:36,990 --> 00:31:34,900

did a great job of trying to prove it

818

00:31:38,669 --> 00:31:37,000

with showing the lines that you can see

819

00:31:40,650 --> 00:31:38,679

in the video and you did your own

820

00:31:43,500 --> 00:31:40,660

experiments to to show that it actually

821

00:31:45,390 --> 00:31:43,510

does happen so I think that's great that

822

00:31:47,940 --> 00:31:45,400

you're trying to prove your theory there

823

00:31:50,039 --> 00:31:47,950

and I think it's a likely theory but the

824

00:31:52,080 --> 00:31:50,049

problem I have with with all that is in

825

00:31:55,350 --> 00:31:52,090

your video you said that Dave felch

826

00:31:57,299 --> 00:31:55,360

is an expert in FLIR cameras who has

827

00:31:58,770 --> 00:31:57,309

been working on this for a while and he

828

00:32:01,020 --> 00:31:58,780

recently gave you this footage that

829

00:32:03,780 --> 00:32:01,030

proves that it is just an out-of-focus

830

00:32:06,330 --> 00:32:03,790

jet exhaust and it's rotating because of

831

00:32:07,830 --> 00:32:06,340

the camera but Dave foutch does not

832

00:32:09,570 --> 00:32:07,840

agree with any of the statements he

833

00:32:11,220 --> 00:32:09,580

doesn't think it's a jet exhaust he

834

00:32:13,950 --> 00:32:11,230

doesn't think it's out of focus and he

835

00:32:15,990 --> 00:32:13,960

doesn't think that the rotation is just

836

00:32:17,850 --> 00:32:16,000

caused by the camera you know what I

837

00:32:21,390 --> 00:32:17,860

wanted to say is I don't think that he

838

00:32:24,390 --> 00:32:21,400

can be an expert on the the gimbal

839

00:32:26,610 --> 00:32:24,400

camera equipment and in analyzing the

840

00:32:28,799 --> 00:32:26,620

video when he supposedly agrees with you

841

00:32:30,600 --> 00:32:28,809

and then discounted as a novice with

842

00:32:32,460 --> 00:32:30,610

fundamentally different equipment when

843

00:32:34,380 --> 00:32:32,470

he doesn't agree with you because you

844

00:32:35,940 --> 00:32:34,390

you asked me to reach out to him for a

845

00:32:38,100 --> 00:32:35,950

direct comment and he did and he made it

846

00:32:39,900 --> 00:32:38,110

very clear what he thinks yeah well and

847

00:32:43,770 --> 00:32:39,910

I obviously disagree with them and I'm

848

00:32:45,510 --> 00:32:43,780

not basing my analysis on what he says

849

00:32:48,690 --> 00:32:45,520

I'm basing it on the evidence that he

850

00:32:50,700 --> 00:32:48,700

created he provided I mean he he I

851
00:32:52,799 --> 00:32:50,710
wouldn't say he's an expert but you know

852
00:32:55,320 --> 00:32:52,809
he would be the kind of a technician who

853
00:32:57,630 --> 00:32:55,330
works with these cameras in the factory

854
00:33:01,500 --> 00:32:57,640
and he tests them out in the parking lot

855
00:33:04,799 --> 00:33:01,510
behind the factory and he takes takes

856
00:33:07,520 --> 00:33:04,809
video of planes and you know I just

857
00:33:09,870 --> 00:33:07,530
chatted with him for a while and we we

858
00:33:12,030 --> 00:33:09,880
there was two things I wanted him to

859
00:33:13,860 --> 00:33:12,040
test one of it is panning left to right

860
00:33:15,570 --> 00:33:13,870
showing that the camera has to rotate

861
00:33:19,500 --> 00:33:15,580
and he did that and he show that the

862
00:33:20,430 --> 00:33:19,510
camera does rotate and the other one was

863
00:33:23,040 --> 00:33:20,440

like getting a

864

00:33:24,840 --> 00:33:23,050

a distant jet with with a heat source

865

00:33:28,200 --> 00:33:24,850

and he got that and it showed it that it

866

00:33:31,650 --> 00:33:28,210

did actually look somewhat like the the

867

00:33:33,090 --> 00:33:31,660

video that we we see and if you combine

868

00:33:37,050 --> 00:33:33,100

those two things the rotation of the

869

00:33:39,720 --> 00:33:37,060

camera when in the panning and this this

870

00:33:42,110 --> 00:33:39,730

glare then you get what we see in the

871

00:33:46,410 --> 00:33:42,120

videos and I think you don't need his

872

00:33:48,690 --> 00:33:46,420

professional opinion about it you just

873

00:33:50,610 --> 00:33:48,700

need to look at the evidence that he is

874

00:33:52,380 --> 00:33:50,620

he has created it he's created like

875

00:33:54,900 --> 00:33:52,390

these nice little videos that actually

876
00:33:57,360 --> 00:33:54,910
demonstrated I think so I can understand

877
00:33:58,650 --> 00:33:57,370
that but I still disagree um first of

878
00:34:01,980 --> 00:33:58,660
all did you tell him to do it

879
00:34:05,190 --> 00:34:01,990
intentionally out of focus no no okay so

880
00:34:07,140 --> 00:34:05,200
it's just happenstance well because he

881
00:34:08,790 --> 00:34:07,150
uses these FLIR cameras every day and

882
00:34:10,530 --> 00:34:08,800
admittedly he's not an expert on the

883
00:34:12,720 --> 00:34:10,540
military grade so there might be a

884
00:34:14,820 --> 00:34:12,730
difference in clarity or he might not be

885
00:34:17,940 --> 00:34:14,830
an expert on the rotating system as much

886
00:34:19,350 --> 00:34:17,950
as just the camera but even as not a

887
00:34:21,300 --> 00:34:19,360
photography expert I'm not a

888
00:34:23,760 --> 00:34:21,310

professional photographer I can tell

889

00:34:25,200 --> 00:34:23,770

when a DSLR is out of focus and I can

890

00:34:27,510 --> 00:34:25,210

tell when my iphone camera is out of

891

00:34:29,250 --> 00:34:27,520

focus so because he uses these cameras

892

00:34:31,080 --> 00:34:29,260

every day I think he's at least

893

00:34:33,030 --> 00:34:31,090

qualified to say that the object we're

894

00:34:35,670 --> 00:34:33,040

looking at is completely out of focus

895

00:34:38,100 --> 00:34:35,680

and skewed the image is skewed because

896

00:34:40,230 --> 00:34:38,110

it's blurry and not in focus or he can

897

00:34:42,210 --> 00:34:40,240

say that it is in focus and the edges

898

00:34:44,370 --> 00:34:42,220

are crisp and clear and well-defined

899

00:34:46,530 --> 00:34:44,380

which is what he says for the gimbal

900

00:34:50,520 --> 00:34:46,540

option yeah unfortunately there wasn't

901
00:34:52,110 --> 00:34:50,530
really you know anything in the

902
00:34:54,420 --> 00:34:52,120
background that you could use to see if

903
00:34:57,960 --> 00:34:54,430
the infrared footage that he created was

904
00:34:59,310 --> 00:34:57,970
really in focus right the the clouds and

905
00:35:01,590 --> 00:34:59,320
the gimbal footage I don't think are

906
00:35:03,210 --> 00:35:01,600
really in in focus it's hard to say if a

907
00:35:04,470 --> 00:35:03,220
cloud is in focus especially in a low

908
00:35:06,750 --> 00:35:04,480
resolution video because they're

909
00:35:08,460 --> 00:35:06,760
naturally blurry anyway so if you make

910
00:35:09,960 --> 00:35:08,470
him a little bit more blurry I don't

911
00:35:11,550 --> 00:35:09,970
think the focus issue is really a big

912
00:35:14,100 --> 00:35:11,560
thing like one of these other objections

913
00:35:16,740 --> 00:35:14,110

was you couldn't see the wings of the

914

00:35:17,940 --> 00:35:16,750

plane okay and that you could see it in

915

00:35:19,800 --> 00:35:17,950

his but I actually talked to him about

916

00:35:21,330 --> 00:35:19,810

that and I showed him some video and he

917

00:35:23,190 --> 00:35:21,340

kind of agreed with me afterwards that

918

00:35:25,620 --> 00:35:23,200

maybe you wouldn't be here to see the

919

00:35:29,580 --> 00:35:25,630

wings of the plane in that initially in

920

00:35:31,320 --> 00:35:29,590

case ya not Chilean case you the glare

921

00:35:33,990 --> 00:35:31,330

is so big that it covers the entire

922

00:35:37,140 --> 00:35:34,000

plane and that's in a 340 which is a big

923

00:35:38,820 --> 00:35:37,150

engine plane yeah and I've seen the

924

00:35:41,370 --> 00:35:38,830

longer version the 10-minute version of

925

00:35:44,430 --> 00:35:41,380

that video and you can't even see the

926
00:35:47,910 --> 00:35:44,440
plane even in TV mode so it's very far

927
00:35:49,140 --> 00:35:47,920
off the Chile my way in yeah yeah yeah

928
00:35:50,700 --> 00:35:49,150
you can I think you can just make it out

929
00:35:53,670 --> 00:35:50,710
as a little faint speck right at the

930
00:35:55,830 --> 00:35:53,680
start in the visible mode in the gimbal

931
00:35:58,140 --> 00:35:55,840
he says that there's no heat spiking or

932
00:36:00,060 --> 00:35:58,150
variation in the jet exhaust so he says

933
00:36:01,500 --> 00:36:00,070
it's not a jet exhaust yeah I think

934
00:36:06,060 --> 00:36:01,510
that's just down to differences in the

935
00:36:08,250 --> 00:36:06,070
optics if you notice when that moves

936
00:36:09,630 --> 00:36:08,260
over like things like trees and phone

937
00:36:11,609 --> 00:36:09,640
lines and stuff like that you get

938
00:36:14,280 --> 00:36:11,619

spiking as the spikes are from

939

00:36:15,720 --> 00:36:14,290

diffraction which is basically like

940

00:36:17,160 --> 00:36:15,730

going around corners and the different

941

00:36:20,670 --> 00:36:17,170

shapes of the corners it goes around and

942

00:36:22,920 --> 00:36:20,680

makes these spikes and so the light path

943

00:36:24,870 --> 00:36:22,930

of the camera itself has all these these

944

00:36:26,580 --> 00:36:24,880

edges in it like the aperture and at the

945

00:36:28,830 --> 00:36:26,590

edges of the camera system and those

946

00:36:30,480 --> 00:36:28,840

those create spikes are different

947

00:36:34,530 --> 00:36:30,490

cameras have different amounts of

948

00:36:35,880 --> 00:36:34,540

spiking and different brightnesses of of

949

00:36:37,290 --> 00:36:35,890

glare will have different amount of

950

00:36:39,420 --> 00:36:37,300

spiking so I don't I don't really see

951
00:36:40,859 --> 00:36:39,430
that as being a huge issue I think

952
00:36:43,710 --> 00:36:40,869
that's just more down to differences in

953
00:36:49,890 --> 00:36:43,720
the situation of what he's videoing and

954
00:36:51,690 --> 00:36:49,900
the camera itself okay just one more

955
00:36:54,750 --> 00:36:51,700
thing on that if you don't mind no no in

956
00:36:56,910 --> 00:36:54,760
your video gimbal object their gimbal

957
00:36:58,230 --> 00:36:56,920
UFO need not be moving I noticed that

958
00:37:01,440 --> 00:36:58,240
you have the gimbal object I was

959
00:37:02,790 --> 00:37:01,450
completely stationary it's it was really

960
00:37:04,050 --> 00:37:02,800
just an extreme example just to show

961
00:37:05,960 --> 00:37:04,060
that it didn't teach me I mean it's

962
00:37:09,870 --> 00:37:05,970
almost certainly moving away from them

963
00:37:11,280 --> 00:37:09,880

okay well two things on that lieutenant

964

00:37:13,230 --> 00:37:11,290

Ryan Graves has said that the larger

965

00:37:15,120 --> 00:37:13,240

object was in fact stationary he

966

00:37:19,200 --> 00:37:15,130

mentioned that in unidentified Episode

967

00:37:21,329 --> 00:37:19,210

four so I would like to see if you do

968

00:37:23,130 --> 00:37:21,339

think that it is a plane or a drone with

969

00:37:25,800 --> 00:37:23,140

a jet exhaust that's moving away from

970

00:37:28,410 --> 00:37:25,810

the camera I would like to see you

971

00:37:31,560 --> 00:37:28,420

update that need not be moving Jif or

972

00:37:33,690 --> 00:37:31,570

gif and the video as well just so that

973

00:37:35,609 --> 00:37:33,700

you can see the object moving on the

974

00:37:38,250 --> 00:37:35,619

graph because I think as the plane

975

00:37:41,070 --> 00:37:38,260

reaches the apex of its turn it have a

976
00:37:43,620 --> 00:37:41,080
horizontal view of the object moving so

977
00:37:45,599 --> 00:37:43,630
we should be able to see some movement

978
00:37:47,400 --> 00:37:45,609
in the camera if the object is moving

979
00:37:50,010 --> 00:37:47,410
well I think it's moving

980
00:37:51,780 --> 00:37:50,020
almost directly away from the plane so

981
00:37:53,910 --> 00:37:51,790
he's gonna I understand that but the

982
00:37:56,220 --> 00:37:53,920
plane was behind it and then it moves

983
00:37:58,500 --> 00:37:56,230
off to the side at the apex of its turn

984
00:38:00,180 --> 00:37:58,510
so I think at one point we should be

985
00:38:03,600 --> 00:38:00,190
able to see some horizontal movement

986
00:38:05,820 --> 00:38:03,610
yeah I'm not sure I mean obviously we do

987
00:38:09,060 --> 00:38:05,830
see what looks like horizontal movement

988
00:38:11,540 --> 00:38:09,070

with the gimbal video I mean it looks

989

00:38:13,740 --> 00:38:11,550

like it's moving relative to the clouds

990

00:38:17,010 --> 00:38:13,750

but it's interesting so that's that

991

00:38:21,210 --> 00:38:17,020

other pilot said that it was not moving

992

00:38:23,970 --> 00:38:21,220

at all he did he wasn't very explicit

993

00:38:25,800 --> 00:38:23,980

about it but he definitely said I can

994

00:38:27,270 --> 00:38:25,810

send you the video he said this larger

995

00:38:28,800 --> 00:38:27,280

object that was significantly larger

996

00:38:30,720 --> 00:38:28,810

than those smaller objects was

997

00:38:33,060 --> 00:38:30,730

stationary and he gave this account

998

00:38:34,860 --> 00:38:33,070

where he said there was a large object

999

00:38:37,350 --> 00:38:34,870

that looked like a like a gyroscope and

1000

00:38:40,260 --> 00:38:37,360

then there was these five smaller

1001
00:38:41,550 --> 00:38:40,270
objects following it in a v-shape right

1002
00:38:43,680 --> 00:38:41,560
and he said the smaller objects were

1003
00:38:45,240 --> 00:38:43,690
moving and we can hear in the audio to

1004
00:38:47,520 --> 00:38:45,250
the gimbal video that they're moving

1005
00:38:49,380 --> 00:38:47,530
against the wind but in Episode four of

1006
00:38:51,240 --> 00:38:49,390
unidentified lieutenant Ryan graves said

1007
00:38:53,520 --> 00:38:51,250
that the larger object was stationary

1008
00:38:54,960 --> 00:38:53,530
and he definitely said that he just

1009
00:38:58,890 --> 00:38:54,970
didn't make a big deal out of it yeah

1010
00:39:01,380 --> 00:38:58,900
that would be interesting yeah well

1011
00:39:05,880 --> 00:39:01,390
let's move on to you're going to talk

1012
00:39:07,680 --> 00:39:05,890
about the UFO conspiracy yes like this

1013
00:39:10,590 --> 00:39:07,690

is like you know this that the blog here

1014

00:39:13,170 --> 00:39:10,600

is my my podcast is about conspiracy

1015

00:39:14,940 --> 00:39:13,180

theories and UFOs I think a really

1016

00:39:17,130 --> 00:39:14,950

interesting as a conspiracy theory

1017

00:39:18,900 --> 00:39:17,140

because once one hand is this almost

1018

00:39:20,960 --> 00:39:18,910

banal conspiracy theory that the

1019

00:39:22,920 --> 00:39:20,970

government is covering up something

1020

00:39:24,870 --> 00:39:22,930

they're not telling us everything they

1021

00:39:26,550 --> 00:39:24,880

know about something yeah it seems very

1022

00:39:28,620 --> 00:39:26,560

straightforward we're on the other hand

1023

00:39:31,050 --> 00:39:28,630

you know they're covering up aliens from

1024

00:39:32,970 --> 00:39:31,060

one another another planet which is that

1025

00:39:35,130 --> 00:39:32,980

just an amazing thing ever so you've got

1026
00:39:36,900 --> 00:39:35,140
kind of two extremes of the conspiracy

1027
00:39:39,150 --> 00:39:36,910
spectrum in one thing what's your

1028
00:39:43,680 --> 00:39:39,160
thought on the the government covering

1029
00:39:45,240 --> 00:39:43,690
up UFOs in some way well this is gonna

1030
00:39:48,240 --> 00:39:45,250
take a while but first of all I'd like

1031
00:39:50,190 --> 00:39:48,250
to correct a statement that Seth Shostak

1032
00:39:51,930 --> 00:39:50,200
made in your last show he said that

1033
00:39:52,830 --> 00:39:51,940
around 30 percent of Americans believe

1034
00:39:55,320 --> 00:39:52,840
in UFOs

1035
00:39:57,270 --> 00:39:55,330
I believe that's what he said and that's

1036
00:40:00,000 --> 00:39:57,280
not actually correct 33 percent of

1037
00:40:01,170 --> 00:40:00,010
Americans believe that extraterrestrial

1038
00:40:03,480 --> 00:40:01,180

visitation is

1039

00:40:05,069 --> 00:40:03,490

the explanation for v4u of those but

1040

00:40:07,559 --> 00:40:05,079

it's a much higher percentage of people

1041

00:40:08,819 --> 00:40:07,569

that believe in UFOs and believe that

1042

00:40:10,890 --> 00:40:08,829

the government is withholding

1043

00:40:13,319 --> 00:40:10,900

information from us I looked it up on

1044

00:40:15,180 --> 00:40:13,329

Gallup in 2019 and it's 68 percent of

1045

00:40:17,520 --> 00:40:15,190

Americans believe that the government is

1046

00:40:19,290 --> 00:40:17,530

withholding information about UFOs so

1047

00:40:22,200 --> 00:40:19,300

another thing I'd like to say is that

1048

00:40:24,809 --> 00:40:22,210

not all conspiracy theories are the same

1049

00:40:26,339 --> 00:40:24,819

they were not all created equal not all

1050

00:40:28,950 --> 00:40:26,349

conspiracy theorists are crazy

1051
00:40:30,450 --> 00:40:28,960
so Flat Earth might be on one end of the

1052
00:40:31,799 --> 00:40:30,460
spectrum and then you might have other

1053
00:40:35,010 --> 00:40:31,809
conspiracies on the other end of the

1054
00:40:37,680 --> 00:40:35,020
spectrum and I don't even see UFOs as a

1055
00:40:39,329 --> 00:40:37,690
conspiracy I see it as something that's

1056
00:40:40,920 --> 00:40:39,339
been officially acknowledged by our

1057
00:40:43,410 --> 00:40:40,930
government the president has been

1058
00:40:45,720 --> 00:40:43,420
briefed on UFOs Congress has has

1059
00:40:47,849 --> 00:40:45,730
classified briefings on UFOs so I think

1060
00:40:50,309 --> 00:40:47,859
it's very clear that UFOs are real and

1061
00:40:52,200 --> 00:40:50,319
we shouldn't keep asking people do you

1062
00:40:54,450 --> 00:40:52,210
believe in UFOs that's what you ask

1063
00:40:56,160 --> 00:40:54,460

someone about ghosts or Bigfoot but I

1064

00:40:57,809 --> 00:40:56,170

think UFOs are now officially

1065

00:41:00,750 --> 00:40:57,819

established and this goes into what

1066

00:41:02,150 --> 00:41:00,760

meteo Kaku dr. Michio Kaku was talking

1067

00:41:04,020 --> 00:41:02,160

about with the burden of proof and

1068

00:41:05,819 --> 00:41:04,030

sufficient evidence to prove their

1069

00:41:07,890 --> 00:41:05,829

existence but I think that it's no

1070

00:41:09,539 --> 00:41:07,900

longer just a fringe conspiracy theory

1071

00:41:11,220 --> 00:41:09,549

that UFOs are real and that the

1072

00:41:12,930 --> 00:41:11,230

government's withholding information I

1073

00:41:14,880 --> 00:41:12,940

think both of those are very clear that

1074

00:41:16,530 --> 00:41:14,890

it is real and that the government at

1075

00:41:18,420 --> 00:41:16,540

least knows more than they're telling us

1076

00:41:22,789 --> 00:41:18,430

what you know by real though we keep

1077

00:41:27,630 --> 00:41:22,799

saying it is real what does that mean um

1078

00:41:29,819 --> 00:41:27,640

verifiable we can check instruments to

1079

00:41:32,940 --> 00:41:29,829

show that they're actually there it's

1080

00:41:35,730 --> 00:41:32,950

not just a Bigfoot sighting that has no

1081

00:41:37,500 --> 00:41:35,740

video and no radar data it's the Navy

1082

00:41:39,829 --> 00:41:37,510

saying that we don't know what these

1083

00:41:43,020 --> 00:41:39,839

things are we see them on a nearly daily

1084

00:41:45,240 --> 00:41:43,030

basis that seems real to me it's not

1085

00:41:47,520 --> 00:41:45,250

fairies or ghosts or anything like that

1086

00:41:51,359 --> 00:41:47,530

like a Bigfoot sighting would be an

1087

00:41:55,620 --> 00:41:51,369

actual giant ape where UFOs are let

1088

00:41:58,020 --> 00:41:55,630

blips on radar so well just just the

1089

00:41:59,490 --> 00:41:58,030

blips on radar are real at least right

1090

00:42:03,210 --> 00:41:59,500

yeah definitely then they're real they

1091

00:42:05,099 --> 00:42:03,220

need to be explained yeah yeah so if you

1092

00:42:08,370 --> 00:42:05,109

don't mind I'd like to go over a brief

1093

00:42:10,620 --> 00:42:08,380

history of the conspiracy so 1947 we

1094

00:42:12,870 --> 00:42:10,630

have the Roswell crash initially it was

1095

00:42:14,670 --> 00:42:12,880

reported in the newspapers sighting an

1096

00:42:17,460 --> 00:42:14,680

army official that there was a

1097

00:42:19,770 --> 00:42:17,470

Treves flying saucer and then there's

1098

00:42:21,030 --> 00:42:19,780

also allegedly bodies so I'm sure you

1099

00:42:23,300 --> 00:42:21,040

already know about this but this is

1100

00:42:26,670 --> 00:42:23,310

basically the start of the modern

1101
00:42:28,410 --> 00:42:26,680
conspiracy about the cover-up so 1947

1102
00:42:30,510 --> 00:42:28,420
same year we have the twining memo

1103
00:42:32,280 --> 00:42:30,520
written by General Nathan twining who

1104
00:42:34,200 --> 00:42:32,290
later got a fourth star and became the

1105
00:42:37,290 --> 00:42:34,210
USAF chief of staff and then the

1106
00:42:39,750 --> 00:42:37,300
chairman of chief of staff and he says

1107
00:42:42,540 --> 00:42:39,760
flat-out the phenomenon is something

1108
00:42:44,370 --> 00:42:42,550
real and not visionary or fictitious so

1109
00:42:46,140 --> 00:42:44,380
when I say it's real I mean that it's

1110
00:42:47,700 --> 00:42:46,150
real to the Navy and I mean it's real to

1111
00:42:49,550 --> 00:42:47,710
the Air Force it's not something that

1112
00:42:52,470 --> 00:42:49,560
crazy people on the internet are

1113
00:42:54,090 --> 00:42:52,480

imagining or just making up it's

1114

00:42:57,150 --> 00:42:54,100

something that is verifiable by the

1115

00:42:59,100 --> 00:42:57,160

military and then B he says there are

1116

00:43:00,750 --> 00:42:59,110

objects probably approximating the shape

1117

00:43:02,520 --> 00:43:00,760

of a disk so he's talking about flying

1118

00:43:03,600 --> 00:43:02,530

saucers and then he goes into the

1119

00:43:06,860 --> 00:43:03,610

description of these flying saucers

1120

00:43:09,810 --> 00:43:06,870

metallic light reflecting no tail

1121

00:43:11,880 --> 00:43:09,820

circular or elliptical and shape so he's

1122

00:43:14,280 --> 00:43:11,890

describing flying saucers in this memo

1123

00:43:17,280 --> 00:43:14,290

very clearly and then two years later we

1124

00:43:20,190 --> 00:43:17,290

have 1949 FBI document sent to FBI

1125

00:43:22,200 --> 00:43:20,200

director J Edgar Hoover also sent to the

1126

00:43:24,480 --> 00:43:22,210

Army's g2 the Office of Naval

1127

00:43:27,150 --> 00:43:24,490

Intelligence in the Air Force Office of

1128

00:43:28,710 --> 00:43:27,160

Special Investigations and it says that

1129

00:43:31,080 --> 00:43:28,720

they had meetings in between all these

1130

00:43:32,610 --> 00:43:31,090

groups discussing UFOs and it also says

1131

00:43:35,040 --> 00:43:32,620

that the Army Intelligence has recently

1132

00:43:36,540 --> 00:43:35,050

said that the matter of unidentified

1133

00:43:39,090 --> 00:43:36,550

aircraft or the British term

1134

00:43:41,130 --> 00:43:39,100

unidentified aerial phenomenon otherwise

1135

00:43:43,440 --> 00:43:41,140

known as flying discs flying saucers

1136

00:43:45,600 --> 00:43:43,450

balls of fire is considered top-secret

1137

00:43:47,220 --> 00:43:45,610

by intelligence officers of both the

1138

00:43:49,440 --> 00:43:47,230

Army and the Air Force so they were

1139

00:43:51,420 --> 00:43:49,450

taking this phenomenon seriously all the

1140

00:43:53,220 --> 00:43:51,430

way back in 1947 1949

1141

00:43:57,210 --> 00:43:53,230

and if you don't mind I'd like to keep

1142

00:44:01,110 --> 00:43:57,220

going Sheriff so 1952 we have the

1143

00:44:03,420 --> 00:44:01,120

Washington DC flap so two sightings of

1144

00:44:04,860 --> 00:44:03,430

UFOs two weekends in a row and I'd like

1145

00:44:07,740 --> 00:44:04,870

to ask you do you know about this case

1146

00:44:09,060 --> 00:44:07,750

what do you think about this event was

1147

00:44:11,520 --> 00:44:09,070

that the likes that was seen over the

1148

00:44:12,870 --> 00:44:11,530

White House exactly in the Capitol

1149

00:44:14,310 --> 00:44:12,880

building yeah there's a famous photo of

1150

00:44:17,300 --> 00:44:14,320

that but it was shown to be just

1151

00:44:19,410 --> 00:44:17,310

reflections of the street lights

1152

00:44:23,010 --> 00:44:19,420

reflections with street lights and also

1153

00:44:24,420 --> 00:44:23,020

BBC recreation yeah I don't really know

1154

00:44:26,160 --> 00:44:24,430

very much about the actual eyewitness

1155

00:44:28,440 --> 00:44:26,170

account but we have like all kinds of

1156

00:44:30,390 --> 00:44:28,450

yeah events that happen where

1157

00:44:33,030 --> 00:44:30,400

people start looking up at the sky was

1158

00:44:35,400 --> 00:44:33,040

like the battle for Los Angeles which I

1159

00:44:36,780 --> 00:44:35,410

think right in World War two where

1160

00:44:39,089 --> 00:44:36,790

people thought that they saw things

1161

00:44:42,359 --> 00:44:39,099

flying over Los Angeles and they even

1162

00:44:43,980 --> 00:44:42,369

had like satellites focusing on these

1163

00:44:47,099 --> 00:44:43,990

things but they didn't really turn out

1164

00:44:49,740 --> 00:44:47,109

to be anything substantial I think you

1165

00:44:52,650 --> 00:44:49,750

know in cases where you see lots of

1166

00:44:55,770 --> 00:44:52,660

people pointing out things it's really

1167

00:44:58,589 --> 00:44:55,780

surprising that nothing really comes at

1168

00:45:00,180 --> 00:44:58,599

them it almost seems like it's it's it's

1169

00:45:01,560 --> 00:45:00,190

been where people start pointing at the

1170

00:45:02,940 --> 00:45:01,570

sky and saying do you see that and then

1171

00:45:04,710 --> 00:45:02,950

oh I don't see anything and then okay

1172

00:45:06,319 --> 00:45:04,720

look over there oh yeah I see something

1173

00:45:08,640 --> 00:45:06,329

and then everyone gets all excited and

1174

00:45:09,780 --> 00:45:08,650

they not they start pointing at things

1175

00:45:12,240 --> 00:45:09,790

especially if there's something there

1176

00:45:14,099 --> 00:45:12,250

like some flares or something or a plane

1177

00:45:16,920 --> 00:45:14,109

plane well that's what that's why I

1178

00:45:19,680 --> 00:45:16,930

think this 1950 suit 1952 siding over

1179

00:45:21,480 --> 00:45:19,690

Washington DC is a real UFO because it

1180

00:45:23,460 --> 00:45:21,490

happened two weekends in a row we had

1181

00:45:25,980 --> 00:45:23,470

military jets in the sky chasing these

1182

00:45:27,510 --> 00:45:25,990

things a united flight both the pilots

1183

00:45:29,550 --> 00:45:27,520

and the crew members they saw these

1184

00:45:31,710 --> 00:45:29,560

objects ground observers saw these

1185

00:45:33,420 --> 00:45:31,720

objects and they were seen on three

1186

00:45:36,180 --> 00:45:33,430

different radars both civilian and

1187

00:45:38,069 --> 00:45:36,190

military calculated at 7,000 miles per

1188

00:45:39,450 --> 00:45:38,079

hour so that's not just some people

1189

00:45:41,430 --> 00:45:39,460

seeing lights in the sky

1190

00:45:42,750 --> 00:45:41,440

that's Jets chasing something that's in

1191

00:45:44,609 --> 00:45:42,760

the sky with the physical radar

1192

00:45:48,059 --> 00:45:44,619

signature that's moving three times

1193

00:45:50,040 --> 00:45:48,069

faster than in the sr-71 s top speed so

1194

00:45:51,780 --> 00:45:50,050

that's very anomalous to me and

1195

00:45:53,520 --> 00:45:51,790

something that is verifiable and

1196

00:45:55,170 --> 00:45:53,530

something that we need to try to explain

1197

00:45:56,940 --> 00:45:55,180

because the official explanation was

1198

00:45:58,109 --> 00:45:56,950

just temperature inversion but everyone

1199

00:46:00,180 --> 00:45:58,119

involved does not think it was a

1200

00:46:04,950 --> 00:46:00,190

temperature inversion interesting like

1201

00:46:08,210 --> 00:46:04,960

three times as fast as the sr-71 it's

1202

00:46:11,700 --> 00:46:08,220

very fast faster than the speed of sound

1203

00:46:13,440 --> 00:46:11,710

wouldn't that be a sonic boom there

1204

00:46:15,240 --> 00:46:13,450

should be but wouldn't there be a sonic

1205

00:46:16,890 --> 00:46:15,250

boom in the tic-tock case these are

1206

00:46:18,480 --> 00:46:16,900

going hypersonic several times the speed

1207

00:46:20,040 --> 00:46:18,490

of sound and no sonic booms recorded

1208

00:46:23,579 --> 00:46:20,050

exactly so there's something that we

1209

00:46:27,020 --> 00:46:23,589

don't know either it wasn't going faster

1210

00:46:30,809 --> 00:46:27,030

than the speed of sound or there's

1211

00:46:33,770 --> 00:46:30,819

incredible reality altering physics

1212

00:46:37,410 --> 00:46:33,780

going on to move the air out of the way

1213

00:46:39,599 --> 00:46:37,420

is it good you could manipulate

1214

00:46:41,010 --> 00:46:39,609

space-time and move through the air with

1215

00:46:42,360 --> 00:46:41,020

the bubble and then you wouldn't have

1216

00:46:44,610 --> 00:46:42,370

sonic booms

1217

00:46:46,410 --> 00:46:44,620

or you'd be a non-physical craft some

1218

00:46:48,960 --> 00:46:46,420

sort of plasma you know the the

1219

00:46:50,730 --> 00:46:48,970

Alcubierre drive come around how to

1220

00:46:52,530 --> 00:46:50,740

pronounce it there's this space warping

1221

00:46:55,260 --> 00:46:52,540

driveway at warp space in front of you

1222

00:46:57,570 --> 00:46:55,270

you know if you actually do that in an

1223

00:47:00,480 --> 00:46:57,580

atmosphere and apparently if you do the

1224

00:47:02,670 --> 00:47:00,490

maths of what would happen in that all

1225

00:47:04,200 --> 00:47:02,680

the energy from the space warp still

1226
00:47:07,080 --> 00:47:04,210
actually has to go somewhere he still

1227
00:47:09,690 --> 00:47:07,090
actually ends up creating this

1228
00:47:12,300 --> 00:47:09,700
incredible basically a big explosion of

1229
00:47:13,890 --> 00:47:12,310
the air and just the very idea of

1230
00:47:16,020 --> 00:47:13,900
something moving something from one

1231
00:47:17,580 --> 00:47:16,030
point to another you know it's at Point

1232
00:47:19,140 --> 00:47:17,590
a it needs to get to point B and it gets

1233
00:47:20,870 --> 00:47:19,150
there in tenth of a second and it's

1234
00:47:23,400 --> 00:47:20,880
moving like ten times the speed of sound

1235
00:47:25,920 --> 00:47:23,410
it has to go through the air that's in

1236
00:47:31,080 --> 00:47:25,930
between so either you can have positing

1237
00:47:33,240 --> 00:47:31,090
some kind of teleportation or perhaps it

1238
00:47:36,600 --> 00:47:33,250

didn't actually do that and for me this

1239

00:47:39,120 --> 00:47:36,610

is a very big point strike against these

1240

00:47:42,450 --> 00:47:39,130

things that there were not any sonic

1241

00:47:44,580 --> 00:47:42,460

booms and there really isn't any

1242

00:47:47,550 --> 00:47:44,590

plausible physical mechanism for

1243

00:47:52,020 --> 00:47:47,560

avoiding them well then what would

1244

00:47:55,170 --> 00:47:52,030

explain the radar signatures I would

1245

00:47:56,640 --> 00:47:55,180

have to go with radar glitches yes as at

1246

00:47:59,310 --> 00:47:56,650

the same time that people are seeing

1247

00:48:01,430 --> 00:47:59,320

them no you know as we discussed earlier

1248

00:48:04,620 --> 00:48:01,440

we don't get any correlation between

1249

00:48:06,960 --> 00:48:04,630

eyewitness video and radar at the same

1250

00:48:10,830 --> 00:48:06,970

time we don't see it so no one saw it

1251
00:48:14,430 --> 00:48:10,840
come down in the no greater the two case

1252
00:48:16,230 --> 00:48:14,440
that they did have witnesses there there

1253
00:48:18,660 --> 00:48:16,240
was a jet in the sky and he said I'm

1254
00:48:21,000 --> 00:48:18,670
surrounded what do I do and they had all

1255
00:48:24,150 --> 00:48:21,010
this transpiring on radar but then this

1256
00:48:26,030 --> 00:48:24,160
this did this jet pilot measure their

1257
00:48:28,950 --> 00:48:26,040
departure speed visually

1258
00:48:31,400 --> 00:48:28,960
no it's it's that night so I mean it's

1259
00:48:34,140 --> 00:48:31,410
so they just it disappeared or flew away

1260
00:48:36,240 --> 00:48:34,150
you know depending on how close it was

1261
00:48:39,720 --> 00:48:36,250
it could look like like anything so you

1262
00:48:41,280 --> 00:48:39,730
don't have the pilot corroborating this

1263
00:48:43,170 --> 00:48:41,290

three times the speed of sound thing

1264

00:48:45,900 --> 00:48:43,180

that the radar did I mean you still have

1265

00:48:47,760 --> 00:48:45,910

you have something in a region then you

1266

00:48:48,990 --> 00:48:47,770

have a pilot going there and he sees

1267

00:48:50,520 --> 00:48:49,000

something in the region and people

1268

00:48:53,310 --> 00:48:50,530

assume that the same there's the same

1269

00:48:55,460 --> 00:48:53,320

thing but I don't think it necessarily

1270

00:48:56,990 --> 00:48:55,470

means they are the same thing

1271

00:48:59,030 --> 00:48:57,000

and really I got to keep going back to

1272

00:49:01,820 --> 00:48:59,040

this this site boom thing if you think

1273

00:49:03,740 --> 00:49:01,830

about the air between two objects it's

1274

00:49:05,870 --> 00:49:03,750

you know it's there you have to go

1275

00:49:08,599 --> 00:49:05,880

through that air which means either the

1276

00:49:10,370 --> 00:49:08,609

air has to be I didn't know vaporize or

1277

00:49:11,599 --> 00:49:10,380

it needs to be pushed out of the way and

1278

00:49:13,580 --> 00:49:11,609

if it's pushed it out of the way and

1279

00:49:15,640 --> 00:49:13,590

then it snaps back again Mir boom sonic

1280

00:49:19,490 --> 00:49:15,650

boom that's where you get a sonic boom

1281

00:49:21,020 --> 00:49:19,500

the way if you have a warp drive if you

1282

00:49:23,000 --> 00:49:21,030

have a warp drive are you sure that you

1283

00:49:25,160 --> 00:49:23,010

need to displace that air are you I mean

1284

00:49:28,220 --> 00:49:25,170

I the way I understand it is that you're

1285

00:49:30,290 --> 00:49:28,230

pulling space-time around the craft so

1286

00:49:32,420 --> 00:49:30,300

you're just pulling the air around you

1287

00:49:35,270 --> 00:49:32,430

and not necessarily displacing any air

1288

00:49:37,520 --> 00:49:35,280

you still topologically you still have

1289

00:49:39,620 --> 00:49:37,530

to go through the air because even if

1290

00:49:42,349 --> 00:49:39,630

you're warping the space to be smaller

1291

00:49:44,540 --> 00:49:42,359

you're still going through space it's

1292

00:49:45,800 --> 00:49:44,550

just all compressed together so you're

1293

00:49:47,900 --> 00:49:45,810

still going through that air but now

1294

00:49:49,490 --> 00:49:47,910

this air is all in one space so you use

1295

00:49:51,230 --> 00:49:49,500

even easily for worse in a way they

1296

00:49:53,930 --> 00:49:51,240

means you very very rapidly going

1297

00:49:57,320 --> 00:49:53,940

through a very dense region of air and

1298

00:49:58,910 --> 00:49:57,330

that's this Alcubierre drive this space

1299

00:50:01,730 --> 00:49:58,920

drive that people keep talking about the

1300

00:50:04,870 --> 00:50:01,740

warp space doesn't work inside planets

1301
00:50:08,480 --> 00:50:04,880
atmospheres for that reason that's why

1302
00:50:11,170 --> 00:50:08,490
and you know don't jump to Star Trek but

1303
00:50:14,810 --> 00:50:11,180
if in Star Trek you can't go to warp

1304
00:50:16,520 --> 00:50:14,820
whilst you're close to a planet you

1305
00:50:18,020 --> 00:50:16,530
you can't warp space when you're like

1306
00:50:20,030 --> 00:50:18,030
you know I guess in a gravity well but

1307
00:50:21,200 --> 00:50:20,040
also in an atmosphere because you get

1308
00:50:24,589 --> 00:50:21,210
all this the atmosphere would heat up

1309
00:50:26,750 --> 00:50:24,599
and explode basically so the warp drives

1310
00:50:29,570 --> 00:50:26,760
from what we know would only work out

1311
00:50:32,540 --> 00:50:29,580
you know it away from our planet hasn't

1312
00:50:34,310 --> 00:50:32,550
NASA accelerated a laser beam slightly

1313
00:50:36,680 --> 00:50:34,320

faster than the speed of light using

1314

00:50:38,480 --> 00:50:36,690

similar technology to warp drives

1315

00:50:42,560 --> 00:50:38,490

I'm gonna go with no on that because

1316

00:50:44,060 --> 00:50:42,570

that we're getting news before people

1317

00:50:47,120 --> 00:50:44,070

often talk about you know things very

1318

00:50:49,880 --> 00:50:47,130

fast in the speed of light but they're

1319

00:50:51,410 --> 00:50:49,890

not really going actually going faster I

1320

00:50:56,120 --> 00:50:51,420

think it might be something to do with

1321

00:50:58,010 --> 00:50:56,130

the superposition of waves and the

1322

00:50:59,480 --> 00:50:58,020

information is going faster than the

1323

00:51:00,770 --> 00:50:59,490

speed of light in a medium but you can't

1324

00:51:02,599 --> 00:51:00,780

go faster than the speed of information

1325

00:51:04,970 --> 00:51:02,609

cannot travel faster than the speed of

1326

00:51:07,550 --> 00:51:04,980

light in a vacuum that's going to be

1327

00:51:08,640 --> 00:51:07,560

like a hard physical thing in the

1328

00:51:11,700 --> 00:51:08,650

universe

1329

00:51:13,140 --> 00:51:11,710

as far as we know obviously aliens might

1330

00:51:17,670 --> 00:51:13,150

have figured it out and that's something

1331

00:51:19,050 --> 00:51:17,680

that Kaku talks about that's that was an

1332

00:51:23,250 --> 00:51:19,060

interesting thing Kaku said actually

1333

00:51:24,900 --> 00:51:23,260

Michio Kaku he says you know where we

1334

00:51:27,990 --> 00:51:24,910

made the mistake of assuming the aliens

1335

00:51:30,690 --> 00:51:28,000

are like us but they might be a hundred

1336

00:51:33,680 --> 00:51:30,700

thousand years ahead of us in which case

1337

00:51:35,850 --> 00:51:33,690

the laws of physics will have changed

1338

00:51:39,150 --> 00:51:35,860

which I thought coming from a physicist

1339

00:51:40,680 --> 00:51:39,160

was a pretty outrageous claim because

1340

00:51:42,060 --> 00:51:40,690

the laws of physics themselves aren't

1341

00:51:44,850 --> 00:51:42,070

going to claim we might discover some

1342

00:51:46,710 --> 00:51:44,860

some more refinements to the VOSA fix it

1343

00:51:48,000 --> 00:51:46,720

or maybe there's a new laws of physics

1344

00:51:49,410 --> 00:51:48,010

but it doesn't mean just if we wait a

1345

00:51:52,050 --> 00:51:49,420

hundred thousand years the laws of

1346

00:51:53,250 --> 00:51:52,060

physics are going to change and that

1347

00:51:55,290 --> 00:51:53,260

will automatically be able to have

1348

00:51:57,200 --> 00:51:55,300

faster than light traveling maybe we

1349

00:51:59,670 --> 00:51:57,210

never have flashed the light travel I

1350

00:52:01,470 --> 00:51:59,680

think he just meant that maybe our

1351
00:52:03,510 --> 00:52:01,480
understanding the laws of physics will

1352
00:52:05,520 --> 00:52:03,520
change oh yeah but I'd also like to talk

1353
00:52:07,320 --> 00:52:05,530
about the burden of proof things so he

1354
00:52:09,060 --> 00:52:07,330
said initially that it was up to the

1355
00:52:10,950 --> 00:52:09,070
government to prove that they're not et

1356
00:52:12,930 --> 00:52:10,960
and then he's walked back that statement

1357
00:52:14,460 --> 00:52:12,940
a little bit to say it's up to the

1358
00:52:17,160 --> 00:52:14,470
government to prove that UFOs are not

1359
00:52:19,500 --> 00:52:17,170
real and I think what this gets at is

1360
00:52:21,660 --> 00:52:19,510
the Carl Sagan quote extraordinary

1361
00:52:24,140 --> 00:52:21,670
claims require extraordinary evidence so

1362
00:52:28,920 --> 00:52:24,150
I was searching your Medibank site for

1363
00:52:31,140 --> 00:52:28,930

explanations for the jl 1628 case of the

1364

00:52:33,990 --> 00:52:31,150

japanese airline the cargo airline that

1365

00:52:36,150 --> 00:52:34,000

saw a massive UFO and the only

1366

00:52:37,950 --> 00:52:36,160

explanation you haven't heard of it I

1367

00:52:39,810 --> 00:52:37,960

don't remember it okay

1368

00:52:42,300 --> 00:52:39,820

well the only explanation that I saw on

1369

00:52:44,070 --> 00:52:42,310

your site is that it's a squadron of b-2

1370

00:52:47,370 --> 00:52:44,080

bombers and that makes absolutely no

1371

00:52:49,380 --> 00:52:47,380

sense to me because a craft that's four

1372

00:52:52,640 --> 00:52:49,390

times the size of a 747 was seen

1373

00:52:55,110 --> 00:52:52,650

visually and on radar by the FAA and a

1374

00:52:57,240 --> 00:52:55,120

b-2 bomber would have a tiny radar

1375

00:52:58,950 --> 00:52:57,250

signature the size of a bird so it's

1376

00:53:00,780 --> 00:52:58,960

obviously not that and the craft is

1377

00:53:02,910 --> 00:53:00,790

moving around at hypersonic speeds and

1378

00:53:04,500 --> 00:53:02,920

b-2 bombers are not even hypersonic

1379

00:53:05,250 --> 00:53:04,510

they're not even supersonic they're

1380

00:53:07,260 --> 00:53:05,260

subsonic

1381

00:53:09,900 --> 00:53:07,270

so there's almost no chance that that's

1382

00:53:11,340 --> 00:53:09,910

what it was and in my mind what he's

1383

00:53:13,860 --> 00:53:11,350

saying is that if you want to come up

1384

00:53:15,840 --> 00:53:13,870

with these extreme debunking theories by

1385

00:53:17,220 --> 00:53:15,850

the government or just average citizens

1386

00:53:18,900 --> 00:53:17,230

if you want to say that it's not

1387

00:53:21,150 --> 00:53:18,910

something outside of our understanding

1388

00:53:22,260 --> 00:53:21,160

you need to explain how a b-2 bomber

1389

00:53:25,590 --> 00:53:22,270

could possibly explode

1390

00:53:26,970 --> 00:53:25,600

well a scenario he I think when he made

1391

00:53:28,170 --> 00:53:26,980

that statement he said that the burden

1392

00:53:30,510 --> 00:53:28,180

of proof has shifted

1393

00:53:34,050 --> 00:53:30,520

he was very specifically referring to

1394

00:53:37,200 --> 00:53:34,060

these three videos from an a he was and

1395

00:53:38,970 --> 00:53:37,210

he was saying that he talked before that

1396

00:53:41,850 --> 00:53:38,980

about different types of evidence we

1397

00:53:43,110 --> 00:53:41,860

talked about uh I guess science like he

1398

00:53:45,300 --> 00:53:43,120

says well in science you want things

1399

00:53:49,620 --> 00:53:45,310

that are testable I can repeat a ball

1400

00:53:52,140 --> 00:53:49,630

and also quantifiable yeah and he says

1401
00:53:54,450 --> 00:53:52,150
that we now have that with these three

1402
00:53:55,860 --> 00:53:54,460
videos and because we have these three

1403
00:53:57,870 --> 00:53:55,870
videos and then he said that they showed

1404
00:53:59,940 --> 00:53:57,880
like impossible accelerations and things

1405
00:54:02,910 --> 00:53:59,950
like that then the burden of proof is

1406
00:54:04,320 --> 00:54:02,920
shifted and that's what I'm saying

1407
00:54:06,000 --> 00:54:04,330
is wrong if you just looking at these

1408
00:54:08,010 --> 00:54:06,010
three videos now you're saying that

1409
00:54:10,470 --> 00:54:08,020
there's all these other examples of

1410
00:54:13,020 --> 00:54:10,480
evidence as well that you know get the

1411
00:54:15,360 --> 00:54:13,030
same argument but is this stuff that

1412
00:54:16,770 --> 00:54:15,370
Kaku was not aware of before is this

1413
00:54:19,260 --> 00:54:16,780

does he really think that this is the

1414

00:54:21,120 --> 00:54:19,270

first time that there's evidence of this

1415

00:54:24,360 --> 00:54:21,130

quality or is there something special

1416

00:54:25,950 --> 00:54:24,370

about these videos well for that case in

1417

00:54:28,200 --> 00:54:25,960

particular the CIA and the FBI

1418

00:54:30,360 --> 00:54:28,210

confiscated the radar data so that goes

1419

00:54:34,590 --> 00:54:30,370

back to the cover-up and then in Blue

1420

00:54:37,920 --> 00:54:34,600

Book you had a deliberate intention to

1421

00:54:39,840 --> 00:54:37,930

debunk UFOs so all of the UFO cases that

1422

00:54:41,580 --> 00:54:39,850

pertains to national security didn't

1423

00:54:44,070 --> 00:54:41,590

even make it into Blue Book so you only

1424

00:54:46,580 --> 00:54:44,080

have sort of the lesser UFO cases in

1425

00:54:50,040 --> 00:54:46,590

this in this project and then you're

1426

00:54:51,450 --> 00:54:50,050

explicitly televising giving publicity

1427

00:54:53,340 --> 00:54:51,460

to all of the cases that you can

1428

00:54:55,230 --> 00:54:53,350

successfully debunk and then you're

1429

00:54:56,460 --> 00:54:55,240

hiding the ones that you can't debunk it

1430

00:54:58,620 --> 00:54:56,470

was very clear that that was their

1431

00:55:00,420 --> 00:54:58,630

intention and the civilian scientist J

1432

00:55:03,330 --> 00:55:00,430

Allen Hynek he's criticized them

1433

00:55:04,920 --> 00:55:03,340

repeatedly for doing this and also the

1434

00:55:06,750 --> 00:55:04,930

public was criticizing them at the time

1435

00:55:09,450 --> 00:55:06,760

for doing this so he wrote a letter to

1436

00:55:12,000 --> 00:55:09,460

the Air Force and other agencies later

1437

00:55:13,530 --> 00:55:12,010

to get a reexamination of Project Blue

1438

00:55:15,000 --> 00:55:13,540

Book and that's how we got the Condon

1439

00:55:17,580 --> 00:55:15,010

committee at the University of Colorado

1440

00:55:19,950 --> 00:55:17,590

where I went to school and that whole

1441

00:55:21,330 --> 00:55:19,960

scientific report was also rigged just

1442

00:55:23,220 --> 00:55:21,340

in the same way Project Blue Book was

1443

00:55:25,770 --> 00:55:23,230

and it's still used by the government

1444

00:55:27,750 --> 00:55:25,780

and mainstream academics to say that

1445

00:55:29,400 --> 00:55:27,760

there's nothing to UFOs but that's a bit

1446

00:55:31,260 --> 00:55:29,410

of a contradiction because in this

1447

00:55:33,630 --> 00:55:31,270

report it says a scientist with a

1448

00:55:36,030 --> 00:55:33,640

well-thought-out plan to study UFOs and

1449

00:55:37,200 --> 00:55:36,040

proper credentials should be supported

1450

00:55:39,330 --> 00:55:37,210

even though we didn't find any evidence

1451

00:55:41,430 --> 00:55:39,340

and it's very clear that they weren't

1452

00:55:43,590 --> 00:55:41,440

looking for any evidence because United

1453

00:55:44,970 --> 00:55:43,600

States Marine Corps Maj Donald Kehoe he

1454

00:55:47,760 --> 00:55:44,980

said that the United States Air Force

1455

00:55:50,430 --> 00:55:47,770

had a letter that said that the UFO

1456

00:55:52,650 --> 00:55:50,440

phenomenon is extraterrestrial he was

1457

00:55:53,940 --> 00:55:52,660

cut off the air by CBS when he was

1458

00:55:56,280 --> 00:55:53,950

talking about a Senate committee

1459

00:55:57,780 --> 00:55:56,290

investigating this sort of thing he says

1460

00:55:59,940 --> 00:55:57,790

the Air Force cut him off the off the

1461

00:56:02,760 --> 00:55:59,950

radio while he was talking and then he

1462

00:56:04,560 --> 00:56:02,770

briefs this condom committee and a short

1463

00:56:06,150 --> 00:56:04,570

while after that Edward Condon who's the

1464

00:56:08,820 --> 00:56:06,160

head of this committee he replies

1465

00:56:11,040 --> 00:56:08,830

there's there's nothing to this UFO

1466

00:56:13,230 --> 00:56:11,050

phenomenon is complete nonsense and then

1467

00:56:14,910 --> 00:56:13,240

he pauses and adds but I'm not supposed

1468

00:56:17,190 --> 00:56:14,920

to reached I'm not supposed to reach

1469

00:56:19,340 --> 00:56:17,200

that conclusion for another year so this

1470

00:56:21,480 --> 00:56:19,350

whole committee already had a

1471

00:56:23,340 --> 00:56:21,490

predetermined conclusion before they

1472

00:56:24,870 --> 00:56:23,350

even examined the data and that's why

1473

00:56:26,460 --> 00:56:24,880

you had half of the committee leave

1474

00:56:27,960 --> 00:56:26,470

halfway through because they had a

1475

00:56:30,540 --> 00:56:27,970

mutiny they didn't agree with the

1476

00:56:32,160 --> 00:56:30,550

scientific methodology so it's very

1477

00:56:34,140 --> 00:56:32,170

clear that all of these reports are

1478

00:56:35,700 --> 00:56:34,150

coverup and as you said the Navy has

1479

00:56:38,010 --> 00:56:35,710

said that all of this will be classified

1480

00:56:40,520 --> 00:56:38,020

going forward so it really is covered up

1481

00:56:44,070 --> 00:56:40,530

from the public and from academia so

1482

00:56:46,410 --> 00:56:44,080

recently like harry reid got a program

1483

00:56:48,990 --> 00:56:46,420

funded not recently it was like seven or

1484

00:56:52,590 --> 00:56:49,000

eight years ago which I believe was

1485

00:56:55,230 --> 00:56:52,600

called a a tip advanced aerospace threat

1486

00:56:57,570 --> 00:56:55,240

identification program and that was

1487

00:57:00,350 --> 00:56:57,580

funded so but you know like twenty two

1488

00:57:01,980 --> 00:57:00,360

million dollars over five years and

1489

00:57:06,500 --> 00:57:01,990

obviously their money got spent

1490

00:57:09,000 --> 00:57:06,510

somewhere was that part of the cover-up

1491

00:57:13,140 --> 00:57:09,010

this is going to be almost all

1492

00:57:16,170 --> 00:57:13,150

speculation but it could be part of as

1493

00:57:18,090 --> 00:57:16,180

many have suggested a drift disclosure I

1494

00:57:21,090 --> 00:57:18,100

don't agree with that I actually agree

1495

00:57:23,460 --> 00:57:21,100

with what sets Seth Shostak had said on

1496

00:57:25,650 --> 00:57:23,470

your last episode where it's almost

1497

00:57:27,660 --> 00:57:25,660

naive to expect a disclosure from the

1498

00:57:29,430 --> 00:57:27,670

government we can only pressure elected

1499

00:57:32,190 --> 00:57:29,440

officials and if they're not privy to

1500

00:57:34,380 --> 00:57:32,200

this sort of deep secret classified

1501
00:57:36,210 --> 00:57:34,390
information by black projects black

1502
00:57:37,860 --> 00:57:36,220
budgets if they don't even have the

1503
00:57:41,010 --> 00:57:37,870
access to this information they can't

1504
00:57:44,400 --> 00:57:41,020
possibly disclose it so I think it's

1505
00:57:46,080 --> 00:57:44,410
possible that what Bigelow did because

1506
00:57:48,960 --> 00:57:46,090
he was an integral part of creating this

1507
00:57:49,710 --> 00:57:48,970
a tip with Harry Reid he created a tip

1508
00:57:51,210 --> 00:57:49,720
they

1509
00:57:53,010 --> 00:57:51,220
spent this money have you seen the list

1510
00:57:56,070 --> 00:57:53,020
of experiments on the John McCain letter

1511
00:57:58,410 --> 00:57:56,080
yes I have already experiments or such

1512
00:58:02,790 --> 00:57:58,420
then what kind of like ethos and stuff

1513
00:58:04,430 --> 00:58:02,800

right warp drives so they spent the

1514

00:58:06,930 --> 00:58:04,440

money on that possibly also

1515

00:58:10,800 --> 00:58:06,940

investigating some you ApS trying to

1516

00:58:12,599 --> 00:58:10,810

identify them and after this funding

1517

00:58:13,920 --> 00:58:12,609

dries up he's gonna want to continue

1518

00:58:16,530 --> 00:58:13,930

that research right he's a private

1519

00:58:18,270 --> 00:58:16,540

citizen he's very interested in UFOs he

1520

00:58:19,859 --> 00:58:18,280

became a billionaire for the express

1521

00:58:21,450 --> 00:58:19,869

purpose of studying UFOs

1522

00:58:22,620 --> 00:58:21,460

so once his funding dries up he's gonna

1523

00:58:24,990 --> 00:58:22,630

want to keep going with the same

1524

00:58:27,839 --> 00:58:25,000

research that he had already going and

1525

00:58:30,570 --> 00:58:27,849

so he might have created ttsi secretly

1526

00:58:33,240 --> 00:58:30,580

which is evidenced by a selfie with him

1527

00:58:34,950 --> 00:58:33,250

lewis Elizondo tom delonge altogether

1528

00:58:36,750 --> 00:58:34,960

around the same time of that formation

1529

00:58:38,490 --> 00:58:36,760

and then TTS a would be a continuation

1530

00:58:41,880 --> 00:58:38,500

of a tip because it has many of the same

1531

00:58:44,670 --> 00:58:41,890

scientists Erik Davis who is doing the

1532

00:58:46,620 --> 00:58:44,680

meta materials analysis currently at how

1533

00:58:48,300 --> 00:58:46,630

put offs company which is called earth

1534

00:58:49,530 --> 00:58:48,310

tech who was also both of these

1535

00:58:51,690 --> 00:58:49,540

scientists were working on those

1536

00:58:54,810 --> 00:58:51,700

theoretical papers Lewis Elizondo is a

1537

00:58:56,970 --> 00:58:54,820

carryover Colm Kelleher is from the

1538

00:58:58,560 --> 00:58:56,980

needs NIDS investigation of the

1539

00:59:00,900 --> 00:58:58,570

paranormal activities at skinwalker

1540

00:59:02,160 --> 00:59:00,910

ranch also funded by Bigelow so Bigelow

1541

00:59:04,290 --> 00:59:02,170

is kind of using all of these same

1542

00:59:05,940 --> 00:59:04,300

people in a new organization that's much

1543

00:59:07,410 --> 00:59:05,950

more public and he also has the

1544

00:59:09,390 --> 00:59:07,420

advantage of having these three videos

1545

00:59:11,099 --> 00:59:09,400

that he might have paid Elizondo to

1546

00:59:13,200 --> 00:59:11,109

release or that the government

1547

00:59:15,480 --> 00:59:13,210

authorized for release and then he has

1548

00:59:17,460 --> 00:59:15,490

the legitimacy of the 8 a program to

1549

00:59:25,349 --> 00:59:17,470

back up his new public company which is

1550

00:59:26,760 --> 00:59:25,359

TCS a so I wonder do you think you feel

1551
00:59:31,560 --> 00:59:26,770
you feel things have changed in the last

1552
00:59:33,560 --> 00:59:31,570
5 years in terms of how UFOs are viewed

1553
00:59:37,339 --> 00:59:33,570
and how what information we have that

1554
00:59:40,589 --> 00:59:37,349
verifies that UFOs are you know real

1555
00:59:43,380 --> 00:59:40,599
it's a very tricky question on the

1556
00:59:45,630 --> 00:59:43,390
surface yes so we've never really had an

1557
00:59:47,160 --> 00:59:45,640
admission I mean you could say the Air

1558
00:59:49,560 --> 00:59:47,170
Force of the army back in the 40s and

1559
00:59:51,690 --> 00:59:49,570
50s admitted some things but we've never

1560
00:59:53,790 --> 00:59:51,700
had a direct admission in recent times

1561
00:59:55,950 --> 00:59:53,800
by the military that there are craft

1562
00:59:57,510 --> 00:59:55,960
flying around in our battle spaces above

1563
00:59:59,880 --> 00:59:57,520

our aircraft carriers that we can't

1564

01:00:02,310 --> 00:59:59,890

identify so that alone saying that these

1565

01:00:03,450 --> 01:00:02,320

are real verified you ApS that is a

1566

01:00:04,980 --> 01:00:03,460

change in the dialogue

1567

01:00:07,079 --> 01:00:04,990

and and the more interesting change in

1568

01:00:09,720 --> 01:00:07,089

the in the discord or the discourse is

1569

01:00:12,930 --> 01:00:09,730

the mainstream media all of the sudden

1570

01:00:14,640 --> 01:00:12,940

it went from 5060 years of being

1571

01:00:16,380 --> 01:00:14,650

ridicule and not being taken seriously

1572

01:00:17,940 --> 01:00:16,390

intentionally not being taken seriously

1573

01:00:20,819 --> 01:00:17,950

because that was part of the cover-up

1574

01:00:23,520 --> 01:00:20,829

you can hide it if it's ridiculed but

1575

01:00:25,710 --> 01:00:23,530

now the the Navy pilots are on the

1576

01:00:28,290 --> 01:00:25,720

mainstream media we have Louis Elizondo

1577

01:00:30,540 --> 01:00:28,300

public from a tip and all of these

1578

01:00:32,280 --> 01:00:30,550

channels in the New York Times they're

1579

01:00:33,690 --> 01:00:32,290

all taking it very very seriously and

1580

01:00:35,460 --> 01:00:33,700

they're saying it's real we don't know

1581

01:00:37,680 --> 01:00:35,470

what it is so that is the most

1582

01:00:40,440 --> 01:00:37,690

interesting public relations change that

1583

01:00:42,089 --> 01:00:40,450

I can see but as far as me personally I

1584

01:00:45,510 --> 01:00:42,099

don't think that we're headed towards

1585

01:00:47,700 --> 01:00:45,520

disclosure just yet but you you feel

1586

01:00:49,890 --> 01:00:47,710

that this change in the media thing is a

1587

01:00:52,319 --> 01:00:49,900

deliberate thing like the mini the

1588

01:00:57,690 --> 01:00:52,329

meteor is being directed to do this

1589

01:01:00,000 --> 01:00:57,700

somehow it's likely it's also possible

1590

01:01:03,180 --> 01:01:00,010

that they just realized that they can

1591

01:01:05,640 --> 01:01:03,190

make more money by playing up the threat

1592

01:01:07,829 --> 01:01:05,650

factor which is an unknown threat but

1593

01:01:09,839 --> 01:01:07,839

they can make more money by legitimizing

1594

01:01:12,839 --> 01:01:09,849

UFOs than they can by ridiculing it so

1595

01:01:14,520 --> 01:01:12,849

it was relegated to only tabloids and

1596

01:01:16,349 --> 01:01:14,530

now they've realized after the New York

1597

01:01:19,799 --> 01:01:16,359

Times article which in fact was written

1598

01:01:22,380 --> 01:01:19,809

by a UFO author Leslie Kean or Kane I'm

1599

01:01:24,539 --> 01:01:22,390

sorry and now they've realized that they

1600

01:01:26,039 --> 01:01:24,549

can make more ad revenue by publishing

1601

01:01:28,319 --> 01:01:26,049

these serious stories that a lot of

1602

01:01:30,030 --> 01:01:28,329

people read so it could be deliberate or

1603

01:01:33,930 --> 01:01:30,040

it could just be as everything else is

1604

01:01:36,180 --> 01:01:33,940

just money yeah I guess no so you don't

1605

01:01:41,390 --> 01:01:36,190

feel like disclosures around the corner

1606

01:01:44,670 --> 01:01:41,400

I don't and I also wanted to say that

1607

01:01:47,609 --> 01:01:44,680

Laurance Rockefeller had a meeting with

1608

01:01:50,010 --> 01:01:47,619

Steven Greer Robert Bigelow Linda

1609

01:01:53,520 --> 01:01:50,020

Moulton Howe all of these big names in

1610

01:01:55,230 --> 01:01:53,530

ufology and he also wrote a letter to

1611

01:01:57,329 --> 01:01:55,240

the Clintons to say that they should

1612

01:01:58,920 --> 01:01:57,339

press the government to do disclosure

1613

01:02:01,710 --> 01:01:58,930

and that's why I think both of the

1614

01:02:03,720 --> 01:02:01,720

Clintons in their presidential campaigns

1615

01:02:05,640 --> 01:02:03,730

made a move towards disclosure but

1616

01:02:07,260 --> 01:02:05,650

obviously that wasn't successful so

1617

01:02:08,849 --> 01:02:07,270

there might be something above the

1618

01:02:10,890 --> 01:02:08,859

presidency that controls this

1619

01:02:13,049 --> 01:02:10,900

information and we just can't get it

1620

01:02:16,950 --> 01:02:13,059

from our elected officials interesting

1621

01:02:19,320 --> 01:02:16,960

theory I have to say I personally

1622

01:02:20,550 --> 01:02:19,330

not agree with that I I feel like

1623

01:02:23,370 --> 01:02:20,560

there's really nothing there other than

1624

01:02:25,620 --> 01:02:23,380

that sometimes we get unidentified craft

1625

01:02:29,099 --> 01:02:25,630

in military airspace just because people

1626
01:02:31,680 --> 01:02:29,109
fly drones into there sometimes aircraft

1627
01:02:34,349 --> 01:02:31,690
go in there and sometimes enemy nations

1628
01:02:37,140 --> 01:02:34,359
go in there so that's kind of my my take

1629
01:02:38,910 --> 01:02:37,150
on on what's going on and I and my I

1630
01:02:40,859 --> 01:02:38,920
also feel that it's inevitable that you

1631
01:02:43,320 --> 01:02:40,869
will have some kind of unidentified

1632
01:02:45,359 --> 01:02:43,330
craft in every arena

1633
01:02:48,960 --> 01:02:45,369
I'm sure airline pilots see them all the

1634
01:02:50,609 --> 01:02:48,970
time you know I see my little white dots

1635
01:02:56,250 --> 01:02:50,619
in them in the backyard which I assume

1636
01:02:58,109 --> 01:02:56,260
are planes or Bert but but yeah I don't

1637
01:03:00,599 --> 01:02:58,119
really think personally though there is

1638
01:03:03,780 --> 01:03:00,609

this big cover-up going on it but it

1639

01:03:04,920 --> 01:03:03,790

would be great if if there was something

1640

01:03:08,520 --> 01:03:04,930

interesting going and that's something I

1641

01:03:11,160 --> 01:03:08,530

think Seth Shostak said that if if there

1642

01:03:15,510 --> 01:03:11,170

was a good chance a good indication that

1643

01:03:16,920 --> 01:03:15,520

there was a lien craft then he would he

1644

01:03:19,200 --> 01:03:16,930

would be studying it but he doesn't

1645

01:03:20,490 --> 01:03:19,210

really think that there is hopefully

1646

01:03:22,800 --> 01:03:20,500

we'll find out what's what's kind of

1647

01:03:24,120 --> 01:03:22,810

coming down the line by what what is

1648

01:03:27,359 --> 01:03:24,130

this stuff like there's supposed to

1649

01:03:30,300 --> 01:03:27,369

happen soon like well Bob Bigelow

1650

01:03:31,800 --> 01:03:30,310

definitely believes in UFOs and you just

1651

01:03:34,260 --> 01:03:31,810

mentioned the commercial airline pilots

1652

01:03:35,910 --> 01:03:34,270

actually they were instructed in the FAA

1653

01:03:37,980 --> 01:03:35,920

manuals to report all of their UFO

1654

01:03:39,870 --> 01:03:37,990

sightings to Bob Bigelow and so there

1655

01:03:42,990 --> 01:03:39,880

might be something going on with him

1656

01:03:45,300 --> 01:03:43,000

doing a private cover-up almost because

1657

01:03:47,130 --> 01:03:45,310

he has bought the records of MUFON and

1658

01:03:49,230 --> 01:03:47,140

he's also bought metamaterials with

1659

01:03:51,030 --> 01:03:49,240

taxpayer money and now those are being

1660

01:03:52,680 --> 01:03:51,040

analyzed by not an independent

1661

01:03:54,390 --> 01:03:52,690

laboratory but as I said earth Tech

1662

01:03:56,880 --> 01:03:54,400

International which is how put offs

1663

01:03:59,640 --> 01:03:56,890

company as part of TTS a so I think that

1664

01:04:01,710 --> 01:03:59,650

there's a need for more transparency

1665

01:04:04,710 --> 01:04:01,720

both in the government and in companies

1666

01:04:06,089 --> 01:04:04,720

like T TSA but T TSA as you said what's

1667

01:04:07,620 --> 01:04:06,099

coming down the line they said they're

1668

01:04:09,030 --> 01:04:07,630

gonna make a big announcement soon so

1669

01:04:11,670 --> 01:04:09,040

fingers crossed that that's actually

1670

01:04:13,829 --> 01:04:11,680

important and it's real analysis of

1671

01:04:16,680 --> 01:04:13,839

metamaterials I think they said it'll be

1672

01:04:18,960 --> 01:04:16,690

this week which is just finished so yeah

1673

01:04:22,440 --> 01:04:18,970

who's gonna be last week where is it

1674

01:04:26,210 --> 01:04:22,450

yeah so I will say yeah the the Bigelow

1675

01:04:29,390 --> 01:04:26,220

UFO reporting I have a friend who

1676

01:04:31,370 --> 01:04:29,400

is an air traffic controller and he says

1677

01:04:33,200 --> 01:04:31,380

they're pretty happy about that because

1678

01:04:35,599 --> 01:04:33,210

now they don't have to deal with with

1679

01:04:37,820 --> 01:04:35,609

UFO reports from people because they

1680

01:04:40,040 --> 01:04:37,830

would get not on toilets so much they

1681

01:04:41,810 --> 01:04:40,050

don't mind that they would get people

1682

01:04:43,250 --> 01:04:41,820

calling in the general public you know

1683

01:04:44,599 --> 01:04:43,260

saying I saw a light in the sky what is

1684

01:04:46,730 --> 01:04:44,609

that and then say well just call this

1685

01:04:50,570 --> 01:04:46,740

number now so they Bigelow has to deal

1686

01:04:52,970 --> 01:04:50,580

with it all all right so any you know

1687

01:04:54,980 --> 01:04:52,980

kind of gone over our hour here any kind

1688

01:04:56,750 --> 01:04:54,990

of final thoughts about what you

1689

01:04:59,839 --> 01:04:56,760

personally going to do with your

1690

01:05:02,089 --> 01:04:59,849

interest in UFOs well I'm just trying to

1691

01:05:04,880 --> 01:05:02,099

legitimize UFOs coming on your channel

1692

01:05:06,470 --> 01:05:04,890

trying to take it seriously prove that

1693

01:05:08,930 --> 01:05:06,480

there is a cover-up and also on my

1694

01:05:11,240 --> 01:05:08,940

youtube channel in theory QED I'm trying

1695

01:05:14,390 --> 01:05:11,250

to analyze UFOs in a critical thinking

1696

01:05:16,130 --> 01:05:14,400

sort of way to not debunk everything not

1697

01:05:18,320 --> 01:05:16,140

believe everything but try to look at

1698

01:05:19,940 --> 01:05:18,330

the data and see what is debunk able and

1699

01:05:22,400 --> 01:05:19,950

what is anomalous that we should pay

1700

01:05:25,370 --> 01:05:22,410

attention to but I have a few questions

1701

01:05:27,349 --> 01:05:25,380

for you if you don't mind so do you

1702

01:05:29,960 --> 01:05:27,359

think it's possible that et could visit

1703

01:05:31,550 --> 01:05:29,970

earth or are you just completely

1704

01:05:32,690 --> 01:05:31,560

discounting that as a possibility

1705

01:05:34,460 --> 01:05:32,700

because of the time and distance

1706

01:05:37,099 --> 01:05:34,470

involved well no I certainly think it's

1707

01:05:39,380 --> 01:05:37,109

possible but I think it would be just an

1708

01:05:41,300 --> 01:05:39,390

incredible coincidence that it would

1709

01:05:42,620 --> 01:05:41,310

happen at this time just because we know

1710

01:05:46,480 --> 01:05:42,630

for one thing we can't see any evidence

1711

01:05:49,390 --> 01:05:46,490

of alien life nearby in the universe and

1712

01:05:51,829 --> 01:05:49,400

it doesn't seem incredibly likely that's

1713

01:05:54,640 --> 01:05:51,839

civilizations would last a very very

1714

01:05:56,359 --> 01:05:54,650

long time you know we've been in this

1715

01:05:58,460 --> 01:05:56,369

civilization on earth has only been

1716

01:06:00,290 --> 01:05:58,470

around 10,000 years and technological

1717

01:06:03,740 --> 01:06:00,300

civilization has only been around

1718

01:06:06,230 --> 01:06:03,750

basically like a hundred years so the

1719

01:06:07,760 --> 01:06:06,240

idea that some alien civilization will

1720

01:06:10,880 --> 01:06:07,770

be in sync with us and just come to

1721

01:06:12,620 --> 01:06:10,890

visit us yes sure it's possible is it is

1722

01:06:15,050 --> 01:06:12,630

it a probable thing based on what we

1723

01:06:17,060 --> 01:06:15,060

know about the universe and the little

1724

01:06:20,390 --> 01:06:17,070

we know about how civilizations develop

1725

01:06:24,170 --> 01:06:20,400

I think that if there was alien life

1726

01:06:26,660 --> 01:06:24,180

nearby in the galaxy in the nearby stars

1727

01:06:29,150 --> 01:06:26,670

we would we would see evidence of it in

1728

01:06:32,660 --> 01:06:29,160

space and it wouldn't just be nothing in

1729

01:06:34,520 --> 01:06:32,670

space and some some aliens on earth but

1730

01:06:35,750 --> 01:06:34,530

if our detection capabilities increased

1731

01:06:38,450 --> 01:06:35,760

both with satellites and other

1732

01:06:39,870 --> 01:06:38,460

technologies and we did find life we

1733

01:06:42,690 --> 01:06:39,880

would certainly send a probe

1734

01:06:44,279 --> 01:06:42,700

right so I think it's it makes sense to

1735

01:06:47,420 --> 01:06:44,289

assume that aliens would do the same I

1736

01:06:50,430 --> 01:06:47,430

don't think we would send a probe the

1737

01:06:55,079 --> 01:06:50,440

not for a few years

1738

01:06:56,490 --> 01:06:55,089

okay you at firsts the problem we start

1739

01:06:57,720 --> 01:06:56,500

sending a probe it depends how far away

1740

01:06:59,910 --> 01:06:57,730

it is you know this is the big problem

1741

01:07:01,440 --> 01:06:59,920

with space travel is that it takes

1742

01:07:03,839 --> 01:07:01,450

hundreds of years to get anywhere unless

1743

01:07:05,460 --> 01:07:03,849

it just happens to be on the star even

1744

01:07:07,920 --> 01:07:05,470

if it was on one of the nearby stars I

1745

01:07:08,970 --> 01:07:07,930

give it as on the start the closest

1746

01:07:11,759 --> 01:07:08,980

start for like two or three light-years

1747

01:07:13,799 --> 01:07:11,769

away you could send a radio signal there

1748

01:07:15,509 --> 01:07:13,809

and get a response back so you first of

1749

01:07:19,470 --> 01:07:15,519

all you tried to do that but you know

1750

01:07:21,180 --> 01:07:19,480

most of the stars you know thousands of

1751

01:07:22,380 --> 01:07:21,190

stars within a hundred light-years but

1752

01:07:26,720 --> 01:07:22,390

that's going to take a thousand years

1753

01:07:31,249 --> 01:07:26,730

for a probe to get there yeah it's it's

1754

01:07:33,809 --> 01:07:31,259

yeah maybe we would but we would we send

1755

01:07:36,990 --> 01:07:33,819

crafted capable of flying around and

1756

01:07:38,400 --> 01:07:37,000

shadowing the the limits fleet or

1757

01:07:41,220 --> 01:07:38,410

something like that no we probably sent

1758

01:07:43,289 --> 01:07:41,230

something that was more like a static

1759

01:07:45,059 --> 01:07:43,299

craft that would do a little

1760

01:07:47,279 --> 01:07:45,069

gravitational slingshot around the star

1761

01:07:49,319 --> 01:07:47,289

or something like that just it just

1762

01:07:52,490 --> 01:07:49,329

doesn't seem you know obviously we'd

1763

01:07:54,420 --> 01:07:52,500

want to go there sounds great mm-hmm

1764

01:07:56,700 --> 01:07:54,430

what's the odds of it actually happening

1765

01:07:59,249 --> 01:07:56,710

in terms of yeah synchronizing

1766

01:08:00,779 --> 01:07:59,259

technological development I think the

1767

01:08:02,160 --> 01:08:00,789

greatest likelihood of getting around

1768

01:08:03,809 --> 01:08:02,170

that great filter that you're talking

1769

01:08:06,660 --> 01:08:03,819

about with the synchronization of

1770

01:08:08,849 --> 01:08:06,670

civilizations is if we become either

1771

01:08:12,299 --> 01:08:08,859

through transhumanism or just through

1772

01:08:15,299 --> 01:08:12,309

the creation of an AI or an AGI super

1773

01:08:17,879 --> 01:08:15,309

intelligence of machine learning machine

1774

01:08:19,919 --> 01:08:17,889

intelligence if that intelligence can

1775

01:08:22,140 --> 01:08:19,929

make self-replicating probes it could

1776

01:08:24,720 --> 01:08:22,150

search the galaxy relatively quickly and

1777

01:08:26,999 --> 01:08:24,730

then also have insane technologies that

1778

01:08:28,200 --> 01:08:27,009

we can't even dream of yet yeah I would

1779

01:08:30,720 --> 01:08:28,210

agree with that and that's something I

1780

01:08:33,360 --> 01:08:30,730

brought up with with Seth but he can

1781

01:08:34,800 --> 01:08:33,370

appeared it a bit but I think I think

1782

01:08:37,470 --> 01:08:34,810

it's a pretty solid idea of it there

1783

01:08:39,599 --> 01:08:37,480

would be the robots going throughout the

1784

01:08:41,220 --> 01:08:39,609

galaxy and the future unfortunately

1785

01:08:44,459 --> 01:08:41,230

probably with robots rather than with

1786

01:08:46,320 --> 01:08:44,469

with humans so so that's my last

1787

01:08:48,990 --> 01:08:46,330

question at the time is why do you think

1788

01:08:51,090 --> 01:08:49,000

these these academic sorry I'm going

1789

01:08:53,459 --> 01:08:51,100

over but why do you think Neil deGrasse

1790

01:08:55,799 --> 01:08:53,469

Tyson and

1791

01:08:57,239 --> 01:08:55,809

saw stack and also Bill Nye the Science

1792

01:08:59,579 --> 01:08:57,249

Guy why do you think they're so

1793

01:09:01,499 --> 01:08:59,589

adamantly opposed to the idea of

1794

01:09:04,819 --> 01:09:01,509

extraterrestrial visitation they don't

1795

01:09:07,200 --> 01:09:04,829

even entertain the idea whatsoever I

1796

01:09:08,549 --> 01:09:07,210

don't think that adamantly opposed to it

1797

01:09:11,939 --> 01:09:08,559

but they adamantly feel that the

1798

01:09:14,279 --> 01:09:11,949

evidence is pointing against it in terms

1799

01:09:16,979 --> 01:09:14,289

of not being able to detect alien life

1800

01:09:19,279 --> 01:09:16,989

and you know I think perhaps perhaps

1801

01:09:23,969 --> 01:09:19,289

they're a little bit stuck in their ways

1802

01:09:26,910 --> 01:09:23,979

but they probably know a lot more about

1803

01:09:29,759 --> 01:09:26,920

astrophysics than we do so maybe their

1804

01:09:32,009 --> 01:09:29,769

perspective on astrophysics actually

1805

01:09:34,109 --> 01:09:32,019

gives them insight into the likelihood

1806

01:09:35,879 --> 01:09:34,119

of things like they understand how far

1807

01:09:38,189 --> 01:09:35,889

away these stars are and they understand

1808

01:09:41,549 --> 01:09:38,199

how many of the nearby stars might have

1809

01:09:43,859 --> 01:09:41,559

habitable planets and they've no doubt

1810

01:09:46,499 --> 01:09:43,869

given some thought to the developments

1811

01:09:49,349 --> 01:09:46,509

of civilizations and what the actual

1812

01:09:51,989 --> 01:09:49,359

numbers are in terms of you know will

1813

01:09:54,959 --> 01:09:51,999

there be something nearby so yeah maybe

1814

01:09:59,910 --> 01:09:54,969

like you know TV scientists they're not

1815

01:10:02,759 --> 01:09:59,920

over I don't think mishio Kaku is really

1816

01:10:05,149 --> 01:10:02,769

have a good point at all and yeah Neil

1817

01:10:09,029 --> 01:10:05,159

deGrasse Tyson often say stupid things

1818

01:10:12,390 --> 01:10:09,039

and I'm still Bill Nye and whoever the

1819

01:10:16,169 --> 01:10:12,400

other guy was chef maybe they also get

1820

01:10:17,879 --> 01:10:16,179

things wrong from time to time but if if

1821

01:10:20,879 --> 01:10:17,889

all things are being equal I kind of

1822

01:10:24,419 --> 01:10:20,889

would defer to a an astrophysicist over

1823

01:10:26,069 --> 01:10:24,429

my own personal opinion well thanks for

1824

01:10:27,450 --> 01:10:26,079

having me on it was really fun and I

1825

01:10:29,129 --> 01:10:27,460

think we found some middle ground here

1826

01:10:30,509 --> 01:10:29,139

so that was great yeah no it's great

1827

01:10:31,979 --> 01:10:30,519

thank you for being on and it's always

1828

01:10:36,830 --> 01:10:31,989

great to talk to someone about these

1829

01:10:40,709 --> 01:10:38,879

they'll be interesting he's got a kind

1830

01:10:42,469 --> 01:10:40,719

of a different personality to you I

1831

01:10:43,950 --> 01:10:42,479

think and it will be interesting to see

1832

01:10:46,109 --> 01:10:43,960

what he does

1833

01:10:48,149 --> 01:10:46,119

I might even talk to Nick Pope as well

1834

01:10:50,520 --> 01:10:48,159

I'm going I'm doing like UFO month I

1835

01:10:52,229 --> 01:10:50,530

think this month then I might have to go

1836

01:10:53,689 --> 01:10:52,239

back to something great more

1837

01:10:58,920 --> 01:10:53,699

entertaining like Flat Earth after that

1838

01:11:02,850 --> 01:10:58,930

we shall see all right well thanks a lot
