**GEOFF**

**EVERYTHING  
IS A HOAX**

1  
00:00:09,290 --> 00:00:05,869  
welcome details from the rabbit hole

2  
00:00:12,440 --> 00:00:09,300  
I'm your host Midwest my guest today is

3  
00:00:14,539 --> 00:00:12,450  
Jeff Jeff is someone who I met just

4  
00:00:17,019 --> 00:00:14,549  
yesterday on Twitter I don't know very

5  
00:00:20,120 --> 00:00:17,029  
much about him other than that he was

6  
00:00:22,279 --> 00:00:20,130  
talking about flat earth and we

7  
00:00:24,380 --> 00:00:22,289  
exchanged a few tweets and then I asked

8  
00:00:26,330 --> 00:00:24,390  
him if he would be on my podcast I

9  
00:00:28,700 --> 00:00:26,340  
basically wanted to just figure out you

10  
00:00:30,650 --> 00:00:28,710  
know why he was doing what he was doing

11  
00:00:32,299 --> 00:00:30,660  
why was he tweeting about Flat Earth why

12  
00:00:35,090 --> 00:00:32,309  
was he getting into these arguments with

13  
00:00:37,700 --> 00:00:35,100

people online about the Flat Earth

14

00:00:40,819 --> 00:00:37,710

theory he was basically promoting Flat

15

00:00:44,150 --> 00:00:40,829

Earth so here he is on my podcast we

16

00:00:46,610 --> 00:00:44,160

start out having a long discussion about

17

00:00:49,819 --> 00:00:46,620

the Boston Marathon bombing and we get

18

00:00:52,430 --> 00:00:49,829

into a variety of other topics Jeff

19

00:00:53,779 --> 00:00:52,440

seems to be a nice guy but I disagree

20

00:00:56,600 --> 00:00:53,789

with pretty much everything he has to

21

00:00:58,090 --> 00:00:56,610

say I think it's interesting there that

22

00:01:00,260 --> 00:00:58,100

we can still have a civil conversation

23

00:01:02,299 --> 00:01:00,270

even though we have these very

24

00:01:05,590 --> 00:01:02,309

fundamental disagreements about the way

25

00:01:11,990 --> 00:01:10,850

Jeff so I cannot wait to talk to you

26  
00:01:15,620 --> 00:01:12,000  
because like we had a brief interaction

27  
00:01:17,270 --> 00:01:15,630  
on Twitter and you were kind of talking

28  
00:01:20,390 --> 00:01:17,280  
with someone else I guess about Flat

29  
00:01:22,910 --> 00:01:20,400  
Earth stuff and someone mentioned me

30  
00:01:25,090 --> 00:01:22,920  
like in reference to something and I

31  
00:01:28,010 --> 00:01:25,100  
kind of got drawn into the conversation

32  
00:01:30,590 --> 00:01:28,020  
can you kind of you guys just it's just

33  
00:01:33,140 --> 00:01:30,600  
I just might be a very fascinating why

34  
00:01:35,090 --> 00:01:33,150  
people get into conversations like that

35  
00:01:36,530 --> 00:01:35,100  
can you tell me like a little bit about

36  
00:01:37,580 --> 00:01:36,540  
and kind of the background of why you

37  
00:01:41,410 --> 00:01:37,590  
were talking about flutter

38  
00:01:44,600 --> 00:01:41,420

in the first place on Twitter sure

39

00:01:46,819 --> 00:01:44,610

should I go back to the initial starting

40

00:01:49,010 --> 00:01:46,829

point that yeah let's go back I feel

41

00:01:51,980 --> 00:01:49,020

like it's a personal you know I've had a

42

00:01:55,039 --> 00:01:51,990

personal experience and write this

43

00:01:58,760 --> 00:01:55,049

conspiracy theory so I lived in Boston

44

00:02:01,850 --> 00:01:58,770

area for almost 20 years of course I was

45

00:02:04,370 --> 00:02:01,860

in Watertown in 2013 when they had the

46

00:02:07,940 --> 00:02:04,380

Boston Marathon bombing but the

47

00:02:10,910 --> 00:02:07,950

aftermath where the shooting took took

48

00:02:13,190 --> 00:02:10,920

place with the tornado

49

00:02:13,820 --> 00:02:13,200

yeah the boat right yeah so that

50

00:02:15,710 --> 00:02:13,830

occurred

51  
00:02:18,890 --> 00:02:15,720  
watertown which is right now Anchorage

52  
00:02:22,130 --> 00:02:18,900  
and so I'm my apartment right off the

53  
00:02:25,520 --> 00:02:22,140  
main street that takes Watertown to

54  
00:02:27,740 --> 00:02:25,530  
Cambridge so I was watching TV and I

55  
00:02:31,040 --> 00:02:27,750  
heard the breaking news that the MIT

56  
00:02:34,070 --> 00:02:31,050  
police officer was shot and that they're

57  
00:02:36,260 --> 00:02:34,080  
on the run and I heard sirens you know

58  
00:02:39,530 --> 00:02:36,270  
coming from every direction this was

59  
00:02:43,730 --> 00:02:39,540  
around 11:00 at night so I so I went

60  
00:02:46,250 --> 00:02:43,740  
outside to people gathered and I've

61  
00:02:49,940 --> 00:02:46,260  
asked all police cars from neighboring

62  
00:02:51,410 --> 00:02:49,950  
cities like three four cities over so I

63  
00:02:54,199 --> 00:02:51,420

knew you know this was pretty serious

64

00:02:56,750 --> 00:02:54,209

and there was an individual who came up

65

00:02:59,840 --> 00:02:56,760

to me asked me if I was familiar with

66

00:03:03,890 --> 00:02:59,850

the area he was a reporter for the local

67

00:03:06,290 --> 00:03:03,900

PBS affiliate in Boston and so he had

68

00:03:07,970 --> 00:03:06,300

heard from his producer where this what

69

00:03:10,340 --> 00:03:07,980

street this was taking place at and he

70

00:03:11,780 --> 00:03:10,350

asked if I knew where it was I told him

71

00:03:15,740 --> 00:03:11,790

I did and he asked if I could get in his

72

00:03:19,430 --> 00:03:15,750

car and show him oh sure why not no

73

00:03:21,620 --> 00:03:19,440

we're driving down there and you know

74

00:03:24,080 --> 00:03:21,630

you could hear it was there's commotion

75

00:03:26,240 --> 00:03:24,090

everywhere no you know nothing was organ

76

00:03:28,520 --> 00:03:26,250

Oh barricade set up at that time or

77

00:03:30,740 --> 00:03:28,530

anything and so we got out of the car

78

00:03:32,930 --> 00:03:30,750

and you see the police running around

79

00:03:34,699 --> 00:03:32,940

yelling at people to stay in their house

80

00:03:36,940 --> 00:03:34,709

is you know we didn't hear any gunshots

81

00:03:40,640 --> 00:03:36,950

or anything like that that that happened

82

00:03:43,910 --> 00:03:40,650

previous to our arrival so we're driving

83

00:03:45,830 --> 00:03:43,920

around and there's barricades set up at

84

00:03:47,570 --> 00:03:45,840

this point so the police stopped us and

85

00:03:49,940 --> 00:03:47,580

he showed him his press credentials and

86

00:03:53,090 --> 00:03:49,950

they told us it was in the staging area

87

00:03:55,960 --> 00:03:53,100

was at the Watertown mall so we went

88

00:03:58,370 --> 00:03:55,970

there and this is around midnight and

89

00:04:00,350 --> 00:03:58,380

people still media started showing up

90

00:04:03,800 --> 00:04:00,360

and so we're kind of in the dark at that

91

00:04:04,370 --> 00:04:03,810

point so about an hour later they gave

92

00:04:07,270 --> 00:04:04,380

an update

93

00:04:10,460 --> 00:04:07,280

they said the Boston Police Commissioner

94

00:04:11,990 --> 00:04:10,470

would be giving a press conference to

95

00:04:15,350 --> 00:04:12,000

make a long story short I was there

96

00:04:21,170 --> 00:04:15,360

until 3:00 p.m. the following day Wow

97

00:04:25,250 --> 00:04:21,180

that Friday and around probably noon I

98

00:04:27,830 --> 00:04:25,260

see a Apache helicopter come land right

99

00:04:31,580 --> 00:04:27,840

on the Best Buy rooftop

100

00:04:33,950 --> 00:04:31,590

now this isn't just a state helicopter

101  
00:04:36,470 --> 00:04:33,960  
that you know patrols surveilling the

102  
00:04:39,050 --> 00:04:36,480  
you know the ground this is military

103  
00:04:41,720 --> 00:04:39,060  
helicopter and I couldn't figure out why

104  
00:04:45,640 --> 00:04:41,730  
on earth it would be there let alone

105  
00:04:50,600 --> 00:04:45,650  
landing on top of a building meantime I

106  
00:04:52,400 --> 00:04:50,610  
saw probably 150 police vehicles from as

107  
00:04:56,510 --> 00:04:52,410  
far south as the New York Port Authority

108  
00:04:58,220 --> 00:04:56,520  
as far north as Maine and you know this

109  
00:05:00,350 --> 00:04:58,230  
is early morning so they must be leaving

110  
00:05:03,290 --> 00:05:00,360  
you know these are like for our drives

111  
00:05:05,480 --> 00:05:03,300  
three four-hour drives so I couldn't

112  
00:05:06,680 --> 00:05:05,490  
figure out you know how they you know

113  
00:05:09,170 --> 00:05:06,690

why they need all these people in

114

00:05:12,230 --> 00:05:09,180

advance if it's just one you know one

115

00:05:15,740 --> 00:05:12,240

teenager in essence who's based on

116

00:05:17,510 --> 00:05:15,750

reports didn't have a gun so it just it

117

00:05:19,640 --> 00:05:17,520

what I thought at the time was there

118

00:05:21,409 --> 00:05:19,650

must be like an undercover there must be

119

00:05:25,370 --> 00:05:21,419

like a cell or something that they know

120

00:05:27,409 --> 00:05:25,380

about and shits about to go down that's

121

00:05:29,330 --> 00:05:27,419

my you know that was my impression at

122

00:05:31,310 --> 00:05:29,340

the time so at the time you weren't

123

00:05:35,300 --> 00:05:31,320

really having like a conspiracy type

124

00:05:37,430 --> 00:05:35,310

thoughts about well no she just thought

125

00:05:41,570 --> 00:05:37,440

there was a reasonable explanation over

126

00:05:44,930 --> 00:05:41,580

time exactly and I'm no I was I was as

127

00:05:46,640 --> 00:05:44,940

normal as everyone else and then even

128

00:05:49,790 --> 00:05:46,650

that after that it was still a few years

129

00:05:53,210 --> 00:05:49,800

before you know I realized and I saw

130

00:05:56,900 --> 00:05:53,220

these videos that this Australian put

131

00:05:59,659 --> 00:05:56,910

out I don't know if you know PK truth

132

00:06:02,150 --> 00:05:59,669

there he's an Australian guy and he does

133

00:06:05,060 --> 00:06:02,160

a lot of work and he's not a flat

134

00:06:08,529 --> 00:06:05,070

earther but he you know he does a lot of

135

00:06:10,960 --> 00:06:08,539

like you know the you know Sandy Hook

136

00:06:15,260 --> 00:06:10,970

911 things of that nature

137

00:06:17,690 --> 00:06:15,270

so so finally at the at 3 o'clock in the

138

00:06:20,600 --> 00:06:17,700

afternoon they called off the shelter in

139

00:06:26,360 --> 00:06:20,610

place so when I got home I was expecting

140

00:06:28,850 --> 00:06:26,370

a my apartment door to be busted through

141

00:06:30,680 --> 00:06:28,860

because I wasn't there to answer and if

142

00:06:33,620 --> 00:06:30,690

there really is this guy who they're

143

00:06:36,320 --> 00:06:33,630

pulling you know fifty thousand a

144

00:06:39,680 --> 00:06:36,330

hundred thousand troops police you know

145

00:06:41,720 --> 00:06:39,690

all authority then they weren't messing

146

00:06:44,930 --> 00:06:41,730

around and I got there and not

147

00:06:47,930 --> 00:06:44,940

and I asked all my neighbors no no

148

00:06:50,240 --> 00:06:47,940

nobody came to the door now the other

149

00:06:52,220 --> 00:06:50,250

thing that I didn't understand was we

150

00:06:57,680 --> 00:06:52,230

were told that all the reporters have to

151  
00:06:59,720 --> 00:06:57,690  
be complying to this area and I saw the

152  
00:07:02,690 --> 00:06:59,730  
news reports and I saw Anderson Cooper

153  
00:07:04,970 --> 00:07:02,700  
live you know shooting footage of you

154  
00:07:07,670 --> 00:07:04,980  
know the police going and you know going

155  
00:07:09,830 --> 00:07:07,680  
door-to-door and I didn't think it I'm

156  
00:07:13,580 --> 00:07:09,840  
like well how come he gets to go you

157  
00:07:16,420 --> 00:07:13,590  
know I CNN you know so special alert but

158  
00:07:20,870 --> 00:07:16,430  
you know CNN Anderson Cooper former CIA

159  
00:07:21,920 --> 00:07:20,880  
operation Mockingbird you know so that

160  
00:07:23,660 --> 00:07:21,930  
was something that at the time you

161  
00:07:24,980 --> 00:07:23,670  
thought was very suspicious or was it

162  
00:07:27,020 --> 00:07:24,990  
something that you you later thought

163  
00:07:29,180 --> 00:07:27,030

because yeah in hindsight why delicious

164

00:07:31,940 --> 00:07:29,190

right well at the Fred when I saw the

165

00:07:34,460 --> 00:07:31,950

reports that evening and the live

166

00:07:36,980 --> 00:07:34,470

footage I just couldn't figure out okay

167

00:07:39,110 --> 00:07:36,990

well maybe they allow a few you know

168

00:07:40,880 --> 00:07:39,120

Ruby on the scene because it's you know

169

00:07:43,040 --> 00:07:40,890

dangerous if they're going door to door

170

00:07:46,330 --> 00:07:43,050

you know are they for their security but

171

00:07:51,440 --> 00:07:46,340

then we were instructed not to take any

172

00:07:53,870 --> 00:07:51,450

video or any pictures of the police now

173

00:07:55,850 --> 00:07:53,880

is that shouldn't the press have freedom

174

00:07:58,100 --> 00:07:55,860

to do that I mean I understand security

175

00:07:59,930 --> 00:07:58,110

but if you're looking for just one you

176

00:08:02,270 --> 00:07:59,940

know and at the time I thought the only

177

00:08:04,160 --> 00:08:02,280

possible explanation is he you ran into

178

00:08:07,010 --> 00:08:04,170

a house that was unlocked and you know

179

00:08:09,890 --> 00:08:07,020

he has someone hostage yeah there's

180

00:08:11,870 --> 00:08:09,900

nothing like that especially if you know

181

00:08:13,430 --> 00:08:11,880

if if he's still on the loose and you're

182

00:08:15,140 --> 00:08:13,440

taking photographs I'm posting them on

183

00:08:16,850 --> 00:08:15,150

social media he could be following like

184

00:08:18,530 --> 00:08:16,860

the hash tags and he could see what the

185

00:08:21,110 --> 00:08:18,540

police are doing from the outside

186

00:08:24,410 --> 00:08:21,120

it's kind of like how they don't they

187

00:08:26,690 --> 00:08:24,420

don't like then use people reporting on

188

00:08:28,250 --> 00:08:26,700

hostage situations because it gives the

189

00:08:30,770 --> 00:08:28,260

person inside the building a view from

190

00:08:32,180 --> 00:08:30,780

outside I don't know maybe that's I can

191

00:08:35,000 --> 00:08:32,190

understand that but they had no idea

192

00:08:36,110 --> 00:08:35,010

where he was I mean yeah yeah he didn't

193

00:08:38,150 --> 00:08:36,120

know where the police are either so

194

00:08:41,780 --> 00:08:38,160

anyway I just please never go together

195

00:08:44,660 --> 00:08:41,790

so the boat so so it's interesting about

196

00:08:47,510 --> 00:08:44,670

the boat right now I'm I believe this

197

00:08:50,210 --> 00:08:47,520

was all a hoax you know looking back on

198

00:08:52,550 --> 00:08:50,220

it now and just looking at some of the

199

00:08:56,239 --> 00:08:52,560

video footage and just you know all the

200

00:09:02,809 --> 00:09:00,199

you know at the time you know I had no

201  
00:09:04,879 --> 00:09:02,819  
idea I just thought you know okay well

202  
00:09:06,949 --> 00:09:04,889  
maybe it was a practice in martial law

203  
00:09:08,900 --> 00:09:06,959  
it was an excuse for them to practice

204  
00:09:12,499 --> 00:09:08,910  
this you know I didn't think anything

205  
00:09:14,689 --> 00:09:12,509  
nefarious at the time you know and then

206  
00:09:18,530 --> 00:09:14,699  
you look at the you know the story

207  
00:09:20,720 --> 00:09:18,540  
behind these guys and it just didn't add

208  
00:09:23,929 --> 00:09:20,730  
up why would they wait to the end of the

209  
00:09:29,379 --> 00:09:23,939  
race to plant their bombs for maximum

210  
00:09:30,619 --> 00:09:29,389  
effort you're gonna get maximum exposure

211  
00:09:33,110 --> 00:09:30,629  
sorry

212  
00:09:34,970 --> 00:09:33,120  
maximum exposure would be when the

213  
00:09:37,639 --> 00:09:34,980

cameras are rolling you know I don't

214

00:09:40,220 --> 00:09:37,649

know marathon but anyone can run it so

215

00:09:42,670 --> 00:09:40,230

they have the professionals come at the

216

00:09:45,379 --> 00:09:42,680

start of the race and then you know the

217

00:09:47,749 --> 00:09:45,389

marathon you know the rest was still uh

218

00:09:49,220 --> 00:09:47,759

it was still pretty dramatic event you

219

00:09:53,540 --> 00:09:49,230

know even if it wasn't at the start I

220

00:09:56,540 --> 00:09:53,550

mean it was still alive on TV oh I don't

221

00:10:00,619 --> 00:09:56,550

think it was no I remember the time

222

00:10:02,900 --> 00:10:00,629

because I raced it I don't know because

223

00:10:07,790 --> 00:10:02,910

my my father-in-law was running the race

224

00:10:10,129 --> 00:10:07,800

and he's like an older guy and hit so he

225

00:10:12,069 --> 00:10:10,139

was kind of in the back of the pack and

226

00:10:15,590 --> 00:10:12,079

he was about about ten minutes behind

227

00:10:18,079 --> 00:10:15,600

the finish line when it happened

228

00:10:20,929 --> 00:10:18,089

so I think someone in my family was

229

00:10:24,710 --> 00:10:20,939

still watching some some feed at least

230

00:10:25,879 --> 00:10:24,720

of it waiting for him to come through if

231

00:10:28,340 --> 00:10:25,889

they saw it or not but you know

232

00:10:30,949 --> 00:10:28,350

obviously like as soon as he went off

233

00:10:32,420 --> 00:10:30,959

people were replaying that thing over

234

00:10:35,629 --> 00:10:32,430

and over again and we didn't know if he

235

00:10:37,189 --> 00:10:35,639

was anywhere near the Bonhams when it

236

00:10:40,069 --> 00:10:37,199

went off it turned out he was about five

237

00:10:41,240 --> 00:10:40,079

minutes back it was about five min okay

238

00:10:42,860 --> 00:10:41,250

because they stabbed people

239

00:10:45,679 --> 00:10:42,870

yeah they snapped every brand they

240

00:10:47,689 --> 00:10:45,689

corralled everybody off into like a big

241

00:10:50,150 --> 00:10:47,699

area before they let everybody go

242

00:10:52,309 --> 00:10:50,160

anywhere so you took him a while for him

243

00:10:54,439 --> 00:10:52,319

to like yeah find someone with a phone

244

00:10:55,850 --> 00:10:54,449

and and callers so it was quite a while

245

00:10:59,749 --> 00:10:55,860

before we got to hear from him it was

246

00:11:03,619 --> 00:10:59,759

kind of a scary to him mm-hmm

247

00:11:06,259 --> 00:11:03,629

but yeah I mean you know let your phone

248

00:11:08,389 --> 00:11:06,269

loss so I can't you know I can't refute

249

00:11:09,470 --> 00:11:08,399

anything you're saying about that I just

250

00:11:12,260 --> 00:11:09,480

know that

251

00:11:15,590 --> 00:11:12,270

just a lot of you know with the flags

252

00:11:17,600 --> 00:11:15,600

there they got the videos recording and

253

00:11:19,880 --> 00:11:17,610

you can see everyone kind of gathering

254

00:11:22,790 --> 00:11:19,890

and you see everything that's just not

255

00:11:25,190 --> 00:11:22,800

right so you think that do you think

256

00:11:28,220 --> 00:11:25,200

that the window bombs that went off is

257

00:11:30,080 --> 00:11:28,230

this so I think you have a life you I

258

00:11:32,150 --> 00:11:30,090

don't believe it was a bomb I mean the

259

00:11:35,390 --> 00:11:32,160

joke is it's the Boston firecracker I

260

00:11:38,570 --> 00:11:35,400

mean it didn't really you know also the

261

00:11:41,120 --> 00:11:38,580

glass right behind it blew in I blew out

262

00:11:43,430 --> 00:11:41,130

instead of blowing in the bomb blast

263

00:11:46,250 --> 00:11:43,440

should have blown the store window in

264

00:11:50,480 --> 00:11:46,260

words instead of outwards yeah I don't

265

00:11:53,390 --> 00:11:50,490

know about that but yeah I looked at the

266

00:11:55,210 --> 00:11:53,400

I looked at the video quite a lot of you

267

00:11:57,920 --> 00:11:55,220

know what happened and you see people

268

00:11:59,390 --> 00:11:57,930

with you know what looks like in their

269

00:12:01,430 --> 00:11:59,400

arms and legs blown off all the likes

270

00:12:03,260 --> 00:12:01,440

basically of their arms and lots of

271

00:12:05,240 --> 00:12:03,270

blood and things and you think you think

272

00:12:09,440 --> 00:12:05,250

that was all staged

273

00:12:12,140 --> 00:12:09,450

ah yes yeah I think they had they had

274

00:12:17,230 --> 00:12:12,150

people who were pre amputees I guess you

275

00:12:20,390 --> 00:12:17,240

would call them now you say out of need

276

00:12:21,470 --> 00:12:20,400

I'm sorry did we post amputees I guess

277

00:12:23,930 --> 00:12:21,480

it what you're saying the people who

278

00:12:28,040 --> 00:12:23,940

have already had that yeah I cut off

279

00:12:30,050 --> 00:12:28,050

anything that they they they faked it

280

00:12:32,510 --> 00:12:30,060

like they had they had like fake legs

281

00:12:34,790 --> 00:12:32,520

and then they took the fake legs off and

282

00:12:36,700 --> 00:12:34,800

put them in their backpacks well you

283

00:12:39,490 --> 00:12:36,710

won't even see there's no video of them

284

00:12:42,140 --> 00:12:39,500

standing before you won't find any video

285

00:12:44,840 --> 00:12:42,150

so to say they took them off I know

286

00:12:48,590 --> 00:12:44,850

pinatas for the man this is said a

287

00:12:50,930 --> 00:12:48,600

photos where you can see them standing

288

00:12:52,550 --> 00:12:50,940

there there was a guy down the street it

289

00:12:55,070 --> 00:12:52,560

took quite a lot of photographs at the

290

00:12:59,390 --> 00:12:55,080

time and you can identify a few of the

291

00:13:03,350 --> 00:12:59,400

people who were there afterwards but so

292

00:13:06,320 --> 00:13:03,360

you you see the explosion go off on the

293

00:13:07,760 --> 00:13:06,330

TV from the finish line camera where you

294

00:13:09,830 --> 00:13:07,770

see the thing off to the right hand side

295

00:13:12,500 --> 00:13:09,840

and you see the explosion go off and

296

00:13:14,030 --> 00:13:12,510

then people start running around and

297

00:13:15,920 --> 00:13:14,040

then it I think it's a it's fairly

298

00:13:19,070 --> 00:13:15,930

continuous you can kind of match that up

299

00:13:21,830 --> 00:13:19,080

with the video later and so it's all one

300

00:13:23,270 --> 00:13:21,840

you know one real event just like it'd

301  
00:13:25,580 --> 00:13:23,280  
be very difficult so

302  
00:13:28,010 --> 00:13:25,590  
cool there's something you know there

303  
00:13:30,530 --> 00:13:28,020  
yeah I mean I'm not saying that they

304  
00:13:33,950 --> 00:13:30,540  
haven't spent years practicing this I

305  
00:13:35,660 --> 00:13:33,960  
mean yeah so you think that the actors

306  
00:13:38,090 --> 00:13:35,670  
will be rehearsing it for years to get

307  
00:13:39,470 --> 00:13:38,100  
it right maybe not year that the actors

308  
00:13:41,090 --> 00:13:39,480  
rehearsing it but the standing the

309  
00:13:42,830 --> 00:13:41,100  
planning stages would have had to have

310  
00:13:46,580 --> 00:13:42,840  
been they'd have to have rehearsals

311  
00:13:50,180 --> 00:13:46,590  
though right yeah so somebody would have

312  
00:13:52,430 --> 00:13:50,190  
had to be any kind of setup that matched

313  
00:13:55,250 --> 00:13:52,440

the finish line and like a built in a

314

00:13:57,800 --> 00:13:55,260

hangar or something and just seemed to

315

00:14:01,400 --> 00:13:57,810

have a lot of work for for what was the

316

00:14:04,880 --> 00:14:01,410

actual end result of it well a lot of

317

00:14:08,000 --> 00:14:04,890

people will say that you know it's like

318

00:14:11,060 --> 00:14:08,010

with Sandy Hook you know they even

319

00:14:13,670 --> 00:14:11,070

though it didn't involve guns you know I

320

00:14:14,780 --> 00:14:13,680

think the note the military and police

321

00:14:18,980 --> 00:14:14,790

presence

322

00:14:20,860 --> 00:14:18,990

it was so overarching that I think there

323

00:14:24,250 --> 00:14:20,870

was this you know element to it that

324

00:14:26,810 --> 00:14:24,260

maybe they wanted to practice militant

325

00:14:29,120 --> 00:14:26,820

martial law an exercise in martial law

326

00:14:32,860 --> 00:14:29,130

maybe that was the end guys so you think

327

00:14:38,180 --> 00:14:32,870

it's kind of like parts of a larger

328

00:14:44,000 --> 00:14:38,190

endgame thing event well there's a few

329

00:14:46,400 --> 00:14:44,010

ways I look at it one is I think keeping

330

00:14:49,579 --> 00:14:46,410

people in constant fear is one of the

331

00:14:52,670 --> 00:14:49,589

motivations as well so if you look at a

332

00:14:55,010 --> 00:14:52,680

lot of these these mass shootings even

333

00:14:56,150 --> 00:14:55,020

going back to serial killers from the

334

00:14:57,920 --> 00:14:56,160

60s and 70s

335

00:14:59,900 --> 00:14:57,930

all these serial killers who would make

336

00:15:03,260 --> 00:14:59,910

it in the media we're given all these

337

00:15:07,250 --> 00:15:03,270

names you know like Sena Sam yeah Son of

338

00:15:09,440 --> 00:15:07,260

Sam the nice in ocala where now they

339

00:15:11,960 --> 00:15:09,450

just disappeared you know they're caught

340

00:15:14,240 --> 00:15:11,970

I think sort of sounds in jail

341

00:15:17,540 --> 00:15:14,250

oh yeah killer was never caught there

342

00:15:19,340 --> 00:15:17,550

I'm not talking about the Sirico I mean

343

00:15:21,710 --> 00:15:19,350

if I'm meaning I'm referring to the

344

00:15:23,660 --> 00:15:21,720

whole idea of Sara killers in general oh

345

00:15:26,840 --> 00:15:23,670

I don't have new how come there aren't

346

00:15:28,820 --> 00:15:26,850

like you know son assailant today you

347

00:15:31,070 --> 00:15:28,830

know and and you know the media has got

348

00:15:34,310 --> 00:15:31,080

to be must be complicit in all of this

349

00:15:36,079 --> 00:15:34,320

so when you look at like Son of Sam have

350

00:15:37,160 --> 00:15:36,089

in the Zodiac killer they had this

351

00:15:39,530 --> 00:15:37,170

narrative

352

00:15:43,429 --> 00:15:39,540

like reporters hey you know it's just

353

00:15:45,979 --> 00:15:43,439

just like it's kind of do you think it's

354

00:15:48,169 --> 00:15:45,989

don't you think it's possible that some

355

00:15:50,419 --> 00:15:48,179

people could be serial killers I mean

356

00:15:53,210 --> 00:15:50,429

have Charles the old fake or is just

357

00:15:57,289 --> 00:15:53,220

some fake no no I think the ones that

358

00:15:59,329 --> 00:15:57,299

are high-profile out there in the media

359

00:16:01,699 --> 00:15:59,339

you know what's a what's a normal news

360

00:16:03,559 --> 00:16:01,709

cycle right two or three days now of

361

00:16:05,299 --> 00:16:03,569

course if it's serial killer that's

362

00:16:07,729 --> 00:16:05,309

gonna be extended because they haven't

363

00:16:10,159 --> 00:16:07,739

thought but even you know you look at

364

00:16:11,419 --> 00:16:10,169

like the Washington the DC snipers

365

00:16:14,479 --> 00:16:11,429

yeah I was just thinking that is one of

366

00:16:17,659 --> 00:16:14,489

the one that's more recent ones right

367

00:16:20,799 --> 00:16:17,669

and your city and Fiat type thing right

368

00:16:25,239 --> 00:16:20,809

right now is it easier to control

369

00:16:27,949 --> 00:16:25,249

population through fear based methods

370

00:16:29,509 --> 00:16:27,959

what does it what does it do to them

371

00:16:31,729 --> 00:16:29,519

they're like you say you're controlling

372

00:16:33,650 --> 00:16:31,739

them with fear but what would they be

373

00:16:35,179 --> 00:16:33,660

doing if they didn't have this fear what

374

00:16:39,259 --> 00:16:35,189

is it preventing them doing or was it

375

00:16:41,150 --> 00:16:39,269

steering them towards doing uh you mean

376

00:16:42,229 --> 00:16:41,160

the perpetrators know that the public

377

00:16:45,409 --> 00:16:42,239

like you know they this you're saying

378

00:16:46,879 --> 00:16:45,419

though you know the conspiracy or

379

00:16:51,340 --> 00:16:46,889

whoever the people in power are trying

380

00:16:54,350 --> 00:16:51,350

to trying to control people with fear

381

00:16:57,799 --> 00:16:54,360

okay so what are they trying to control

382

00:17:00,199 --> 00:16:57,809

them to do to embrace the government to

383

00:17:01,699 --> 00:17:00,209

look to the government for the users so

384

00:17:05,710 --> 00:17:01,709

they make it the government is the

385

00:17:08,689 --> 00:17:05,720

protector and then yeah

386

00:17:11,059 --> 00:17:08,699

but then with the Boston Marathon

387

00:17:13,189 --> 00:17:11,069

bombing thing you say it's kind of like

388

00:17:16,009 --> 00:17:13,199

they wanted to practice imposition of

389

00:17:18,289 --> 00:17:16,019

martial law so that's kind of like

390

00:17:22,159 --> 00:17:18,299

exactly the next day like they you think

391

00:17:23,929 --> 00:17:22,169

that well it's also it's also same

392

00:17:26,809 --> 00:17:23,939

constant fear based you can't even go to

393

00:17:30,889 --> 00:17:26,819

a race without worrying about you know

394

00:17:33,259 --> 00:17:30,899

some terrorists blowing up you know what

395

00:17:34,970 --> 00:17:33,269

things often you know the other thing

396

00:17:36,769 --> 00:17:34,980

about that is if you look at a pressure

397

00:17:38,750 --> 00:17:36,779

cooker bomb and you probably know about

398

00:17:42,350 --> 00:17:38,760

this this is your area you know physics

399

00:17:46,190 --> 00:17:42,360

and math doesn't it exert an upward

400

00:17:50,180 --> 00:17:46,200

force for sure just legs why why not

401  
00:17:50,900 --> 00:17:50,190  
arms why not capitation why not you know

402  
00:17:53,030 --> 00:17:50,910  
I don't

403  
00:17:55,100 --> 00:17:53,040  
a pressure cookers are specifically

404  
00:17:56,560 --> 00:17:55,110  
designed so the top doesn't come off if

405  
00:18:00,230 --> 00:17:56,570  
you look at them they're interlocks with

406  
00:18:01,700 --> 00:18:00,240  
those flanges so it's it's not

407  
00:18:05,330 --> 00:18:01,710  
necessarily going to blow the top off

408  
00:18:08,540 --> 00:18:05,340  
and even if it does blow the pressure

409  
00:18:10,160 --> 00:18:08,550  
way I think like they yeah obviously I'm

410  
00:18:12,410 --> 00:18:10,170  
know built a pressure cooker bong myself

411  
00:18:13,880 --> 00:18:12,420  
but I could tell it like exploding out

412  
00:18:16,790 --> 00:18:13,890  
sideways because the whole thing is

413  
00:18:20,360 --> 00:18:16,800

going to shatter it doesn't just like

414

00:18:23,960 --> 00:18:20,370

you know pop the top off I will all the

415

00:18:25,340 --> 00:18:23,970

betel yeah all the metal shatters I need

416

00:18:26,360 --> 00:18:25,350

to shoots things in all kinds of

417

00:18:28,790 --> 00:18:26,370

different directions because you've got

418

00:18:31,070 --> 00:18:28,800

the sudden incredibly high pressure in

419

00:18:33,200 --> 00:18:31,080

the middle and it's pressing outwards in

420

00:18:35,930 --> 00:18:33,210

every direction and I don't think it's

421

00:18:37,430 --> 00:18:35,940

gonna just go off the top but I don't

422

00:18:41,180 --> 00:18:37,440

know maybe that would be interesting I

423

00:18:44,270 --> 00:18:41,190

mean it's an experiment to try to debunk

424

00:18:46,100 --> 00:18:44,280

this idea I'm not sure how how the

425

00:18:47,360 --> 00:18:46,110

neighbors would take to me building a

426

00:18:50,150 --> 00:18:47,370

pressure cooker bomb though maybe I

427

00:18:53,930 --> 00:18:50,160

could do it small as I didn't even buy

428

00:18:55,370 --> 00:18:53,940

pressure cookers anymore without America

429

00:18:58,160 --> 00:18:55,380

SECAM it's actually they're very popular

430

00:19:00,680 --> 00:18:58,170

nowadays there's the the Esther pot is a

431

00:19:02,870 --> 00:19:00,690

pressure cooker everyone's in there

432

00:19:04,640 --> 00:19:02,880

insta pot stir to cook things and you

433

00:19:07,430 --> 00:19:04,650

can find pressure cookers anywhere it's

434

00:19:09,230 --> 00:19:07,440

not like a you know it's and they didn't

435

00:19:12,290 --> 00:19:09,240

use anything special that use fireworks

436

00:19:15,920 --> 00:19:12,300

which you can still buy so I mean if you

437

00:19:18,760 --> 00:19:15,930

wanted to duplicate it it sure is very

438

00:19:21,170 --> 00:19:18,770

easy to build the pressure cooker bomb

439

00:19:22,670 --> 00:19:21,180

sad that it's definitely easily so it's

440

00:19:23,990 --> 00:19:22,680

good someplace it's almost surprising

441

00:19:26,300 --> 00:19:24,000

you don't see more of these things

442

00:19:30,350 --> 00:19:26,310

because of how easy it is to do to make

443

00:19:33,680 --> 00:19:30,360

simple IEDs eventually but anyway I'm

444

00:19:35,510 --> 00:19:33,690

kind of drifting off topic so you you

445

00:19:37,220 --> 00:19:35,520

were like this was like your kind of I

446

00:19:43,790 --> 00:19:37,230

guess your awakening into this type of

447

00:19:47,630 --> 00:19:43,800

thing there you go yeah so so then where

448

00:19:50,570 --> 00:19:47,640

I we're truly hit me was the Orlando

449

00:19:53,390 --> 00:19:50,580

pulse shooting okay the night AB the

450

00:19:56,450 --> 00:19:53,400

other night where they show up where

451  
00:19:59,510 --> 00:19:56,460  
they showed the the victims being

452  
00:20:01,220 --> 00:19:59,520  
brought towards the bar at the club as

453  
00:20:03,440 --> 00:20:01,230  
opposed to away from it now if there's

454  
00:20:04,700 --> 00:20:03,450  
gunfire raging and then there's a video

455  
00:20:07,130 --> 00:20:04,710  
you see they're holding up

456  
00:20:09,080 --> 00:20:07,140  
a guy and right in front of the camera

457  
00:20:11,570 --> 00:20:09,090  
and they think the cameras not looking

458  
00:20:15,500 --> 00:20:11,580  
anymore but it is and they let him go

459  
00:20:18,980 --> 00:20:15,510  
when he's just walking away now I mean

460  
00:20:21,590 --> 00:20:18,990  
so anyways that was I don't either going

461  
00:20:23,900 --> 00:20:21,600  
to Albany that's he's interesting there

462  
00:20:26,390 --> 00:20:23,910  
Blake when you saw these things there's

463  
00:20:28,340 --> 00:20:26,400

you know suspicious bits of video were

464

00:20:29,660 --> 00:20:28,350

they things that you saw yourself was

465

00:20:31,100 --> 00:20:29,670

watching TV and you thought oh that's

466

00:20:32,960 --> 00:20:31,110

suspicious or were there things that you

467

00:20:34,610 --> 00:20:32,970

saw later on YouTube where someone else

468

00:20:39,440 --> 00:20:34,620

pointed out that they were suspicious

469

00:20:42,400 --> 00:20:39,450

now one I saw on YouTube an axe actually

470

00:20:47,360 --> 00:20:42,410

by the same guy pique

471

00:20:49,160 --> 00:20:47,370

yeah he did the yeah actually I don't

472

00:20:51,620 --> 00:20:49,170

know who knows what you can believe but

473

00:20:55,460 --> 00:20:51,630

supposedly the Melbourne police came and

474

00:20:58,730 --> 00:20:55,470

arrested him and as he was exposing this

475

00:21:02,900 --> 00:20:58,740

Melbourne shooting or not a shooting but

476

00:21:04,280 --> 00:21:02,910

a car car running over people like a

477

00:21:07,400 --> 00:21:04,290

truck attack type thing

478

00:21:09,830 --> 00:21:07,410

oh yeah well it was our talk just a car

479

00:21:12,230 --> 00:21:09,840

yeah this but there are a lot of things

480

00:21:14,600 --> 00:21:12,240

I see myself now I think what you do is

481

00:21:16,940 --> 00:21:14,610

once you create this foundation you know

482

00:21:19,400 --> 00:21:16,950

what to look for all the signs all the

483

00:21:21,470 --> 00:21:19,410

symbols they keep popping up all the

484

00:21:24,500 --> 00:21:21,480

same things and I think a lot of it is

485

00:21:27,170 --> 00:21:24,510

based on the concept of duality like the

486

00:21:29,780 --> 00:21:27,180

Freemasons are obviously in my opinion a

487

00:21:32,060 --> 00:21:29,790

big part of it and so what they do is

488

00:21:34,610 --> 00:21:32,070

basically opposites right so when he was

489

00:21:36,380 --> 00:21:34,620

found on a boat let's see go back to his

490

00:21:39,710 --> 00:21:36,390

are Nayef he was found on a quote

491

00:21:41,810 --> 00:21:39,720

inshore on shore you know hmm

492

00:21:44,930 --> 00:21:41,820

so that you think that's like they did

493

00:21:48,470 --> 00:21:44,940

that deliberately uh yeah yeah I think a

494

00:21:51,770 --> 00:21:48,480

lot of this like Robbie Parker that that

495

00:21:54,230 --> 00:21:51,780

wouldn't be he was told to do that he

496

00:21:57,080 --> 00:21:54,240

just does laughing and then just thread

497

00:21:58,340 --> 00:21:57,090

the rubbery parka thing is like the

498

00:22:01,520 --> 00:21:58,350

father of one of the kids who have

499

00:22:03,650 --> 00:22:01,530

killed at Sandy Hook and at the memorial

500

00:22:06,020 --> 00:22:03,660

service he was seeing like kind of

501  
00:22:07,550 --> 00:22:06,030  
joking before he went on camera and then

502  
00:22:11,840 --> 00:22:07,560  
when he came up and talked to the press

503  
00:22:13,730 --> 00:22:11,850  
then he was kind of you know much more

504  
00:22:17,450 --> 00:22:13,740  
emotional and people thought this was

505  
00:22:18,259 --> 00:22:17,460  
very incongruous and you know it wasn't

506  
00:22:20,690 --> 00:22:18,269  
during them

507  
00:22:23,570 --> 00:22:20,700  
Oriol it was either that same night or

508  
00:22:25,459 --> 00:22:23,580  
the following night I camera one of the

509  
00:22:26,859 --> 00:22:25,469  
two it was at the press conference that

510  
00:22:29,329 --> 00:22:26,869  
wasn't it that was a press conference

511  
00:22:31,849 --> 00:22:29,339  
came out of the building he's laughing

512  
00:22:33,709 --> 00:22:31,859  
you smile and I didn't he was this the

513  
00:22:36,109 --> 00:22:33,719

same manage I'll have to check that so

514

00:22:39,680 --> 00:22:36,119

why did at the at the latest it was the

515

00:22:42,469 --> 00:22:39,690

night after which is still I mean my

516

00:22:44,149 --> 00:22:42,479

brother's son committed suicide in

517

00:22:46,609 --> 00:22:44,159

February and I don't think I've seen him

518

00:22:48,560 --> 00:22:46,619

smile since then you know and of course

519

00:22:52,039 --> 00:22:48,570

people react differently say that that's

520

00:22:54,529 --> 00:22:52,049

the justification but I I just I don't

521

00:22:59,389 --> 00:22:54,539

know and then you see all the doctored

522

00:23:01,159 --> 00:22:59,399

photos of his of his children and I've

523

00:23:02,959 --> 00:23:01,169

looked to it you know things that people

524

00:23:04,639 --> 00:23:02,969

claim to be doctored photos because

525

00:23:08,299 --> 00:23:04,649

asking one of the things I do on on my

526

00:23:09,859 --> 00:23:08,309

site is I look at photos people claim to

527

00:23:11,719 --> 00:23:09,869

be things like ghosts and things like

528

00:23:13,549 --> 00:23:11,729

that and so I I do a lot of image

529

00:23:16,999 --> 00:23:13,559

analysis and I haven't really found

530

00:23:19,249 --> 00:23:17,009

anything really suspicious in the photos

531

00:23:20,989 --> 00:23:19,259

of the Sandy Hook children I actually

532

00:23:24,249 --> 00:23:20,999

got banned on one of your meta bunk

533

00:23:25,430 --> 00:23:24,259

threads oh really about the the Roy

534

00:23:32,419 --> 00:23:25,440

bathroom

535

00:23:34,969 --> 00:23:32,429

with the 15 children all right no I do

536

00:23:36,859 --> 00:23:34,979

remember that yeah yeah one of the or

537

00:23:39,529 --> 00:23:36,869

the moderators the other moderators that

538

00:23:41,199 --> 00:23:39,539

Deirdre she's more of an expert in the

539

00:23:47,419 --> 00:23:41,209

Sandy Hook stuff so I usually let her

540

00:23:50,209 --> 00:23:47,429

handle that but yeah I think so

541

00:23:51,919 --> 00:23:50,219

yeah what were you talking about the oh

542

00:23:55,549 --> 00:23:51,929

yeah Robbie Parker I thought like I

543

00:23:58,009 --> 00:23:55,559

searched your Twitter handle and your

544

00:23:59,869 --> 00:23:58,019

previous Twitter name was something like

545

00:24:02,839 --> 00:23:59,879

Robbie Parker or something like that

546

00:24:05,239 --> 00:24:02,849

what Robbie the crisis actor oh yeah

547

00:24:07,430 --> 00:24:05,249

yeah yeah yeah I don't know that one

548

00:24:10,399 --> 00:24:07,440

well you know how does a Twitter right

549

00:24:11,959 --> 00:24:10,409

they ban you for you don't doesn't take

550

00:24:13,789 --> 00:24:11,969

much when you're going back and forth

551

00:24:16,699 --> 00:24:13,799

yeah yeah and they started clamping down

552

00:24:19,099 --> 00:24:16,709

lower on things like right I never I

553

00:24:22,759 --> 00:24:19,109

never use multiple twit I have a backup

554

00:24:24,859 --> 00:24:22,769

Twitter account so I never used to at

555

00:24:28,609 --> 00:24:24,869

the same time but I think what you're

556

00:24:30,379 --> 00:24:28,619

referring to might be is my current same

557

00:24:31,409 --> 00:24:30,389

accounts but you changed the name like

558

00:24:34,049 --> 00:24:31,419

the user than I am

559

00:24:36,979 --> 00:24:34,059

okay cuz you know you know the lol guy

560

00:24:41,039 --> 00:24:36,989

now yeah you know for that guy is right

561

00:24:43,519 --> 00:24:41,049

no I'm not a meme he was no he was from

562

00:24:46,049 --> 00:24:43,529

that he was that that pulse shooting oh

563

00:24:49,859 --> 00:24:46,059

he was in the background just laughing

564

00:24:54,539 --> 00:24:49,869

the entire time if you google I'll check

565

00:24:56,489 --> 00:24:54,549

it out yeah so I was interested that it

566

00:24:59,310 --> 00:24:56,499

really just didn't know this this idea

567

00:25:01,889 --> 00:24:59,320

of the duality in a way it seems like a

568

00:25:03,359 --> 00:25:01,899

bit of a strange leap for me and - I

569

00:25:06,989 --> 00:25:03,369

don't almost like the occult or

570

00:25:09,449 --> 00:25:06,999

something is it it's something that what

571

00:25:12,569 --> 00:25:09,459

does it mean this duality and why is why

572

00:25:15,359 --> 00:25:12,579

are the perpetrators putting out this

573

00:25:17,369 --> 00:25:15,369

like you know opposites is there a

574

00:25:20,159 --> 00:25:17,379

purpose to it was there just symbolic so

575

00:25:24,060 --> 00:25:20,169

I think I think a large part is if is

576

00:25:27,719 --> 00:25:24,070

they want to create opposition to God's

577

00:25:30,869 --> 00:25:27,729

Word so if you look at like evolution

578

00:25:32,819 --> 00:25:30,879

and if you look at and you'll admit the

579

00:25:37,049 --> 00:25:32,829

Freemasons were involved in

580

00:25:40,399 --> 00:25:37,059

heliocentrism and evolution in am a mean

581

00:25:43,859 --> 00:25:40,409

you know the Royal Royal Society

582

00:25:48,659 --> 00:25:43,869

so so what I believe is that they they

583

00:25:50,849 --> 00:25:48,669

believe in achieving a balance right so

584

00:25:54,239 --> 00:25:50,859

in order to have the rich you need to

585

00:25:57,779 --> 00:25:54,249

have the poor in order to have you know

586

00:26:00,060 --> 00:25:57,789

in order to have happiness there needs

587

00:26:03,209 --> 00:26:00,070

to be misery and they think this creates

588

00:26:05,549 --> 00:26:03,219

a balance in that you know how the how

589

00:26:08,369 --> 00:26:05,559

the world should is in the horrific harm

590

00:26:10,829 --> 00:26:08,379

against in opposition balancing thing

591

00:26:13,049 --> 00:26:10,839

right now it's and that's and so you

592

00:26:14,549 --> 00:26:13,059

look do you personally now look for

593

00:26:17,269 --> 00:26:14,559

things like that on TV when you're

594

00:26:21,449 --> 00:26:17,279

watching the events and you try to spots

595

00:26:22,859 --> 00:26:21,459

that type of thing yeah yeah

596

00:26:25,709 --> 00:26:22,869

in fact that's really the only reason I

597

00:26:28,339 --> 00:26:25,719

watch TV anymore isn't it try to see if

598

00:26:32,940 --> 00:26:28,349

I can uncover you know any

599

00:26:35,279 --> 00:26:32,950

suspiciousness wha it's uh you know it's

600

00:26:37,229 --> 00:26:35,289

like and it's like with the you know

601  
00:26:40,019 --> 00:26:37,239  
back to the duality with the poles you

602  
00:26:42,089 --> 00:26:40,029  
know they're taking them to the club as

603  
00:26:43,680 --> 00:26:42,099  
opposed to taking the injured away from

604  
00:26:44,630 --> 00:26:43,690  
the crowd so you don't think that was

605  
00:26:45,740 --> 00:26:44,640  
just

606  
00:26:47,300 --> 00:26:45,750  
I don't know though I think that was the

607  
00:26:49,390 --> 00:26:47,310  
crisis actors getting things wrong you

608  
00:26:52,850 --> 00:26:49,400  
think they did it not deliberately

609  
00:26:55,610 --> 00:26:52,860  
literally deliberately yeah I think that

610  
00:26:58,040 --> 00:26:55,620  
because i think i think that they maybe

611  
00:27:00,440 --> 00:26:58,050  
feel like okay we have to give some

612  
00:27:04,550 --> 00:27:00,450  
truth in plain sight you know we have to

613  
00:27:07,840 --> 00:27:04,560

show in order in order to you know make

614

00:27:11,390 --> 00:27:07,850

just have them justify their actions i

615

00:27:13,460 --> 00:27:11,400

think you know it's some weird like

616

00:27:16,130 --> 00:27:13,470

honor code even though they're deceptive

617

00:27:17,930 --> 00:27:16,140

it's just so you did yak I've kind of

618

00:27:20,930 --> 00:27:17,940

heard before like people say that the

619

00:27:23,870 --> 00:27:20,940

illuminati who ever have to include

620

00:27:25,430 --> 00:27:23,880

clues when they're doing things almost

621

00:27:27,620 --> 00:27:25,440

like they're laughing in your face or

622

00:27:30,440 --> 00:27:27,630

just some kind of you know they have to

623

00:27:33,410 --> 00:27:30,450

yeah I have some truth in there I think

624

00:27:35,570 --> 00:27:33,420

it's a combination of mockery and having

625

00:27:37,220 --> 00:27:35,580

to I mean that is their model tooth

626

00:27:40,760 --> 00:27:37,230

hidden in plain sight right I mean

627

00:27:43,190 --> 00:27:40,770

that's a I don't know it sounds pretty

628

00:27:46,250 --> 00:27:43,200

weird to me but back to the Illuminati

629

00:27:48,590 --> 00:27:46,260

yeah you know who you know who started

630

00:27:54,080 --> 00:27:48,600

that that was a free man uh Vice bout

631

00:27:57,650 --> 00:27:54,090

something right yeah yeah yes yeah so he

632

00:27:59,660 --> 00:27:57,660

was a freemason and he started this the

633

00:28:01,760 --> 00:27:59,670

Illuminati but he was still of herbaria

634

00:28:04,370 --> 00:28:01,770

this is like in the 1700s wasn't it in

635

00:28:07,580 --> 00:28:04,380

the area late right around the time of

636

00:28:09,560 --> 00:28:07,590

the American Revolution because a lot of

637

00:28:12,410 --> 00:28:09,570

people suspect that you know that was a

638

00:28:14,090 --> 00:28:12,420

prelude to the revolution and the

639

00:28:18,140 --> 00:28:14,100

American Revolution since they both

640

00:28:20,630 --> 00:28:18,150

happened within that time span but so

641

00:28:23,830 --> 00:28:20,640

what I think is that is all you hear in

642

00:28:25,940 --> 00:28:23,840

the Illuminati right in the main stream

643

00:28:29,120 --> 00:28:25,950

rappers always talk about the Illuminati

644

00:28:31,700 --> 00:28:29,130

in their in their lyrics yeah I kind of

645

00:28:33,500 --> 00:28:31,710

think that now is you know my personal

646

00:28:35,540 --> 00:28:33,510

view on that is that I think it's it's

647

00:28:38,030 --> 00:28:35,550

kind of like a joke in a way it's like

648

00:28:39,590 --> 00:28:38,040

you know people joking about aliens and

649

00:28:41,720 --> 00:28:39,600

then people joke about the ear mulata

650

00:28:44,270 --> 00:28:41,730

any ideas a little you know a little

651

00:28:46,190 --> 00:28:44,280

triangle signs and stuff but it's why

652

00:28:49,430 --> 00:28:46,200

it's like you know like rockers use the

653

00:28:51,470 --> 00:28:49,440

like here that the the horn sign yeah

654

00:28:53,810 --> 00:28:51,480

people think that's the horns but the

655

00:28:55,490 --> 00:28:53,820

devil doesn't have horns yeah I mean

656

00:28:57,600 --> 00:28:55,500

it's just like people going yeah yeah

657

00:29:00,270 --> 00:28:57,610

right heavy metal or whatever

658

00:29:02,700 --> 00:29:00,280

basically it's like the 666 with Trump

659

00:29:05,970 --> 00:29:02,710

now everybody does it everybody does

660

00:29:07,140 --> 00:29:05,980

that's hand supposed to be white power

661

00:29:09,330 --> 00:29:07,150

or something isn't it

662

00:29:12,360 --> 00:29:09,340

no they probably they probably

663

00:29:16,620 --> 00:29:12,370

manipulated it too to think that but W

664

00:29:18,240 --> 00:29:16,630

in E and yeah that's I don't believe

665

00:29:22,410 --> 00:29:18,250

that I just it doesn't make sense

666

00:29:24,210 --> 00:29:22,420

because Y if that was the case then why

667

00:29:25,980 --> 00:29:24,220

is everyone using it right why is you

668

00:29:27,120 --> 00:29:25,990

doing using a weight if you say they

669

00:29:29,910 --> 00:29:27,130

they're ignorant and they don't

670

00:29:32,070 --> 00:29:29,920

understand well there's no what the

671

00:29:35,550 --> 00:29:32,080

media school well Frank you think it's

672

00:29:38,220 --> 00:29:35,560

like a sign language thing it means it

673

00:29:39,660 --> 00:29:38,230

means like right it means I think it's

674

00:29:41,160 --> 00:29:39,670

like I love you with one hand I think

675

00:29:45,420 --> 00:29:41,170

like it's because it combines all the

676

00:29:47,160 --> 00:29:45,430

letters higher i io l.o.v.e into one one

677

00:29:49,050 --> 00:29:47,170

sign but then if you made me do it the

678

00:29:50,550 --> 00:29:49,060

other way i don't know i can't remember

679

00:29:52,770 --> 00:29:50,560

all the other things but like there was

680

00:29:53,880 --> 00:29:52,780

obviously there was there's a big thing

681

00:29:55,530 --> 00:29:53,890

in the media where they said that the

682

00:29:58,170 --> 00:29:55,540

police were flashing white power signs

683

00:30:01,080 --> 00:29:58,180

and stuff and so you think this what did

684

00:30:04,980 --> 00:30:01,090

you say this was like wall - the

685

00:30:06,780 --> 00:30:04,990

representation of 666 so you see - yeah

686

00:30:09,440 --> 00:30:06,790

yeah I see what you're saying like a six

687

00:30:11,850 --> 00:30:09,450

and then the two tails

688

00:30:15,180 --> 00:30:11,860

Nannan heard that one yeah if you look

689

00:30:18,750 --> 00:30:15,190

at the gold Google logo you it's it's

690

00:30:20,940 --> 00:30:18,760

very similar has 666 in the circle and

691

00:30:23,100 --> 00:30:20,950

then some people speculate it has the

692

00:30:26,310 --> 00:30:23,110

flat earth map in the middle because it

693

00:30:29,970 --> 00:30:26,320

has the white the white border with the

694

00:30:31,260 --> 00:30:29,980

blue water inside all right so you think

695

00:30:34,860 --> 00:30:31,270

like you know this this is obviously

696

00:30:38,970 --> 00:30:34,870

some kind of satanic symbolism do you

697

00:30:43,530 --> 00:30:38,980

think this these people the other manasa

698

00:30:45,570 --> 00:30:43,540

I are Satanists well if you see I don't

699

00:30:49,020 --> 00:30:45,580

even think the Illuminati is legitimate

700

00:30:50,670 --> 00:30:49,030

I think it was a created it was a it was

701  
00:30:51,420 --> 00:30:50,680  
created to provide cover for the

702  
00:30:56,760 --> 00:30:51,430  
Freemasons

703  
00:30:59,370 --> 00:30:56,770  
who the ultimate power is in the world

704  
00:31:03,540 --> 00:30:59,380  
you you say it's like a secret order of

705  
00:31:05,280 --> 00:31:03,550  
pre Masons I'd say it's Jesuits Vatican

706  
00:31:07,890 --> 00:31:05,290  
is Freemason somewhere in there

707  
00:31:09,330 --> 00:31:07,900  
somewhere those three if you look at

708  
00:31:10,770 --> 00:31:09,340  
this if you look at all the symbols if

709  
00:31:11,250 --> 00:31:10,780  
you look at the Vatican they have the

710  
00:31:14,790 --> 00:31:11,260  
black and

711  
00:31:17,280 --> 00:31:14,800  
white floorboard checkerboard floor

712  
00:31:19,530 --> 00:31:17,290  
throughout the mat just like they have

713  
00:31:24,620 --> 00:31:19,540

in the lodges just like they have in the

714

00:31:27,270 --> 00:31:24,630

Catholic cathedrals notre dam st. Paul's

715

00:31:28,890 --> 00:31:27,280

so that's the other thing is you can

716

00:31:31,920 --> 00:31:28,900

identify these symbols and you keep

717

00:31:34,140 --> 00:31:31,930

seeing them recur and you know like okay

718

00:31:36,030 --> 00:31:34,150

well is there no other design these

719

00:31:38,150 --> 00:31:36,040

people can come up with are they do they

720

00:31:41,040 --> 00:31:38,160

don't do they not have originality

721

00:31:42,990 --> 00:31:41,050

so I guess checkerboard floors are a

722

00:31:45,510 --> 00:31:43,000

kind of a common designer checkerboard

723

00:31:47,040 --> 00:31:45,520

flaws in hang cathedrals I think to a

724

00:31:48,960 --> 00:31:47,050

lot of cathedrals so I have been to like

725

00:31:51,180 --> 00:31:48,970

not your Dam and st. Paul's and places

726

00:31:53,490 --> 00:31:51,190

like that hey I I can't say I remember

727

00:31:57,750 --> 00:31:53,500

the floors as I remember they were

728

00:31:59,610 --> 00:31:57,760

mostly kind of stone slabs maybe like at

729

00:32:02,930 --> 00:31:59,620

the front of the Cathedral there might

730

00:32:04,670 --> 00:32:02,940

have been the technically parquetry or

731

00:32:07,080 --> 00:32:04,680

marquetry

732

00:32:09,570 --> 00:32:07,090

patterns on the floor anyway but so you

733

00:32:12,350 --> 00:32:09,580

think there's this this thread tying

734

00:32:16,860 --> 00:32:12,360

together Jesuits the Vatican and

735

00:32:18,660 --> 00:32:16,870

Freemasons yes the Jesuits who are the

736

00:32:21,750 --> 00:32:18,670

Jesuits is that that the like just a

737

00:32:23,940 --> 00:32:21,760

religious order or the bloke there well

738

00:32:30,360 --> 00:32:23,950

the Jesuits founded Washington DC carry

739

00:32:34,140 --> 00:32:30,370

you know John Carroll okay so okay so

740

00:32:35,610 --> 00:32:34,150

oh yeah American history 25 years I know

741

00:32:38,340 --> 00:32:35,620

but I didn't ask you that on the

742

00:32:41,280 --> 00:32:38,350

citizenship test sir well you've heard

743

00:32:42,030 --> 00:32:41,290

about the triumvirate of power the three

744

00:32:44,640 --> 00:32:42,040

city-states

745

00:32:46,410 --> 00:32:44,650

Vatican City of London and Washington DC

746

00:32:50,430 --> 00:32:46,420

yeah yeah I think I've heard that yeah

747

00:32:52,290 --> 00:32:50,440

yeah so those were all I mean they all

748

00:32:56,700 --> 00:32:52,300

have the same they have the obelisk in

749

00:32:59,100 --> 00:32:56,710

front of the dome building you know the

750

00:33:00,990 --> 00:32:59,110

Queen has to ask permission to enter the

751  
00:33:03,540 --> 00:33:01,000  
City of London so who has the power

752  
00:33:05,750 --> 00:33:03,550  
there you know City of London's all

753  
00:33:08,100 --> 00:33:05,760  
banks it's it's you know there's more

754  
00:33:10,880 --> 00:33:08,110  
American banks the City of London then

755  
00:33:14,720 --> 00:33:10,890  
there are Wall Street I believe I heard

756  
00:33:18,560 --> 00:33:14,730  
so you know you got the Rothschild and I

757  
00:33:21,120 --> 00:33:18,570  
mean Rothschilds to go back to 1700 and

758  
00:33:22,740 --> 00:33:21,130  
say you've got like you know you you

759  
00:33:24,430 --> 00:33:22,750  
kind of seemed like you've got this

760  
00:33:26,770 --> 00:33:24,440  
fairly good idea in your head

761  
00:33:28,660 --> 00:33:26,780  
of you know how the world works or at

762  
00:33:31,540 --> 00:33:28,670  
least how the power structure works is

763  
00:33:34,330 --> 00:33:31,550

this something that you came from

764

00:33:37,470 --> 00:33:34,340

specific like books that you read or of

765

00:33:39,850 --> 00:33:37,480

specific people like like the PK guy oh

766

00:33:42,480 --> 00:33:39,860

yeah you know who was very instrumental

767

00:33:45,760 --> 00:33:42,490

was Russian vids

768

00:33:49,410 --> 00:33:45,770

I have seen Russian bids I didn't

769

00:33:53,740 --> 00:33:49,420

realize a lot but yes does the

770

00:33:58,420 --> 00:33:53,750

freemasons yeah did you ever see the

771

00:34:00,250 --> 00:33:58,430

zeitgeist movie no I didn't curse - yeah

772

00:34:02,230 --> 00:34:00,260

it's just he's gonna have an old 9/11

773

00:34:05,770 --> 00:34:02,240

truth video but it also contains lice

774

00:34:09,030 --> 00:34:05,780

and stuff like Bank of America the

775

00:34:11,320 --> 00:34:09,040

Federal Reserve type stuff and some

776

00:34:13,060 --> 00:34:11,330

religious symbolism sighs the only if

777

00:34:22,240 --> 00:34:13,070

that might be influential in your

778

00:34:24,280 --> 00:34:22,250

thinking Russian bins no the no I I mean

779

00:34:26,320 --> 00:34:24,290

i what I and since I've learned is what

780

00:34:30,700 --> 00:34:26,330

I like to do is research and I go back

781

00:34:35,440 --> 00:34:30,710

to I actually revert ooh Flat Earth just

782

00:34:37,720 --> 00:34:35,450

briefly I you know I kept hearing nights

783

00:34:39,610 --> 00:34:37,730

that Columbus everyone says well I

784

00:34:41,980 --> 00:34:39,620

remember being taught that Columbus

785

00:34:45,820 --> 00:34:41,990

discovered that the earth was round now

786

00:34:48,220 --> 00:34:45,830

I went to a Catholic a flick I went to

787

00:34:50,380 --> 00:34:48,230

Catholic school for most of my life

788

00:34:54,820 --> 00:34:50,390

except for college I went to public

789

00:34:57,370 --> 00:34:54,830

university and you know we were taught

790

00:34:59,140 --> 00:34:57,380

Columbus discovered America the longest

791

00:35:01,630 --> 00:34:59,150

discovered the world around you can look

792

00:35:03,940 --> 00:35:01,640

up cartoons from the 60s and 70s where

793

00:35:05,110 --> 00:35:03,950

everyone says Columbus's nuts for

794

00:35:07,750 --> 00:35:05,120

thinking the world is round

795

00:35:09,940 --> 00:35:07,760

hmm so you know and then they tell us

796

00:35:12,220 --> 00:35:09,950

well we go back 1,500 years and it was

797

00:35:15,460 --> 00:35:12,230

proven it was around 1500 years before

798

00:35:18,130 --> 00:35:15,470

this time now that's a long time now if

799

00:35:21,730 --> 00:35:18,140

it was common knowledge that the earth

800

00:35:24,130 --> 00:35:21,740

was round then why is there this so much

801

00:35:26,140 --> 00:35:24,140

I don't know if it's misinformation it's

802

00:35:29,200 --> 00:35:26,150

probably this is the it's an interesting

803

00:35:31,600 --> 00:35:29,210

this interesting story behind that the

804

00:35:35,710 --> 00:35:31,610

whole Columbus thinking the earth was

805

00:35:37,350 --> 00:35:35,720

flat story comes down to like one guy I

806

00:35:39,480 --> 00:35:37,360

think

807

00:35:41,130 --> 00:35:39,490

if the guy who wrote Sleepy Hollow I

808

00:35:43,890 --> 00:35:41,140

mean just look at her be quick sir

809

00:35:45,960 --> 00:35:43,900

Irving oh yeah Irving Washington Irving

810

00:35:48,260 --> 00:35:45,970

why should you nervous yeah yeah okay so

811

00:35:51,720 --> 00:35:48,270

he wrote he wrote like a history of

812

00:35:53,190 --> 00:35:51,730

Columbus in which he said that Columbus

813

00:35:55,550 --> 00:35:53,200

thought the earth was flat and this was

814

00:35:58,560 --> 00:35:55,560

kind of like the first anybody had ever

815

00:35:59,520 --> 00:35:58,570

you know written about this and somehow

816

00:36:01,680 --> 00:35:59,530

it kind of caught the popular

817

00:36:04,740 --> 00:36:01,690

imagination and it was this very popular

818

00:36:07,170 --> 00:36:04,750

work that he he wrote and all the

819

00:36:09,390 --> 00:36:07,180

misconceptions that go to the current

820

00:36:11,790 --> 00:36:09,400

day all day back to just this one book

821

00:36:13,020 --> 00:36:11,800

by Washington Irving but before that no

822

00:36:14,460 --> 00:36:13,030

one ever thought that you know he

823

00:36:16,790 --> 00:36:14,470

thought the world was flat and at the

824

00:36:20,730 --> 00:36:16,800

time you know the contemporary accounts

825

00:36:22,410 --> 00:36:20,740

thought basically he he thought the

826

00:36:25,110 --> 00:36:22,420

earth was round and the reason he was

827

00:36:27,000 --> 00:36:25,120

going to the West was he thought it

828

00:36:30,450 --> 00:36:27,010

would be a quicker way of getting to

829

00:36:31,740 --> 00:36:30,460

India or to the Middle East so he could

830

00:36:34,140 --> 00:36:31,750

go around the other side of the world

831

00:36:36,440 --> 00:36:34,150

but he just miscalculated the size of

832

00:36:39,420 --> 00:36:36,450

the world he thought it was smaller but

833

00:36:42,630 --> 00:36:39,430

wasn't this wasn't the circumference

834

00:36:45,510 --> 00:36:42,640

proven by Aristophanes back in for 4th

835

00:36:46,530 --> 00:36:45,520

century BC 15th century he well I

836

00:36:47,880 --> 00:36:46,540

wouldn't say was proven where it was

837

00:36:49,590 --> 00:36:47,890

calculated but yeah I think it was that

838

00:36:51,900 --> 00:36:49,600

the navigation like he didn't know where

839

00:36:53,850 --> 00:36:51,910

things were exactly so he didn't know

840

00:36:56,430 --> 00:36:53,860

how far away China was in that direction

841

00:36:58,740 --> 00:36:56,440

and how far things were in that way and

842

00:37:01,440 --> 00:36:58,750

where you can go up on art so he he

843

00:37:04,920 --> 00:37:01,450

miscalculated how far it would be to get

844

00:37:06,060 --> 00:37:04,930

to the India that's why the West Indies

845

00:37:09,020 --> 00:37:06,070

are called the West Indies because they

846

00:37:14,070 --> 00:37:09,030

thought it was India they were ending up

847

00:37:16,530 --> 00:37:14,080

yeah I heard voices for yeah it was they

848

00:37:17,850 --> 00:37:16,540

never thought I was flat and they uses

849

00:37:19,770 --> 00:37:17,860

getting less steel navigation which

850

00:37:23,400 --> 00:37:19,780

requires the earth to be round for it to

851  
00:37:25,440 --> 00:37:23,410  
actually work okay so then what about

852  
00:37:27,360 --> 00:37:25,450  
the Phoenicians before they knew the

853  
00:37:29,510 --> 00:37:27,370  
earth was round how did they sail all

854  
00:37:34,800 --> 00:37:29,520  
the way up through the Horn of Africa

855  
00:37:36,540 --> 00:37:34,810  
over to I think the Atlantic another

856  
00:37:38,370 --> 00:37:36,550  
thing well if you're sailing around the

857  
00:37:41,100 --> 00:37:38,380  
coast it's fairly easy you just keep the

858  
00:37:43,350 --> 00:37:41,110  
coast in sight that's the thing okay

859  
00:37:44,670 --> 00:37:43,360  
navigation by boat it's fairly

860  
00:37:47,520 --> 00:37:44,680  
straightforward if you can always see

861  
00:37:50,580 --> 00:37:47,530  
the land so okay trade routes that would

862  
00:37:51,840 --> 00:37:50,590  
follow the coastlines and

863  
00:37:53,370 --> 00:37:51,850

took a lot longer before you could

864

00:37:55,200 --> 00:37:53,380

actually we're not longer but like he

865

00:37:58,380 --> 00:37:55,210

was he was harder to lose sight of the

866

00:38:00,420 --> 00:37:58,390

shore okay as well like that what people

867

00:38:02,160 --> 00:38:00,430

saying yeah could have had the courage

868

00:38:03,090 --> 00:38:02,170

to lose sight of the shore because it's

869

00:38:05,670 --> 00:38:03,100

so difficult because then you have to

870

00:38:08,310 --> 00:38:05,680

trust these celestial navigation and

871

00:38:10,620 --> 00:38:08,320

your compass and things like that okay

872

00:38:12,300 --> 00:38:10,630

but didn't Aristotle was one of his

873

00:38:15,180 --> 00:38:12,310

proofs for determining the earth was

874

00:38:18,570 --> 00:38:15,190

round was seeing say a sail ship sail

875

00:38:20,460 --> 00:38:18,580

boats sail over the horizon yeah yeah

876

00:38:22,500 --> 00:38:20,470

they can't land from there no I guess

877

00:38:24,150 --> 00:38:22,510

that mean they do they do sail and I

878

00:38:25,350 --> 00:38:24,160

think like in the Mediterranean you

879

00:38:28,650 --> 00:38:25,360

can't see one side of the Mediterranean

880

00:38:30,180 --> 00:38:28,660

from the other side so boats would you

881

00:38:31,380 --> 00:38:30,190

know travel from places like Italy to

882

00:38:33,600 --> 00:38:31,390

Africa I'm not sure if you could see it

883

00:38:35,040 --> 00:38:33,610

from Italy maybe the south of Italy but

884

00:38:36,870 --> 00:38:35,050

we're kind of like getting into the

885

00:38:40,530 --> 00:38:36,880

details of Flat Earth I'm interested in

886

00:38:42,180 --> 00:38:40,540

like how you personally kind of discover

887

00:38:43,770 --> 00:38:42,190

the whole flat earth movement and how

888

00:38:45,510 --> 00:38:43,780

you got into it what did you first think

889

00:38:48,090 --> 00:38:45,520

when you heard people saying the earth

890

00:38:51,990 --> 00:38:48,100

was flat hey well I bet you know my

891

00:38:55,440 --> 00:38:52,000

answer that already well I think the

892

00:38:57,450 --> 00:38:55,450

same thing when you hear it talking

893

00:39:00,090 --> 00:38:57,460

about I mean that's what I thought

894

00:39:03,000 --> 00:39:00,100

because at the time I was I was looking

895

00:39:04,560 --> 00:39:03,010

into you know the conspiracy videos of

896

00:39:06,780 --> 00:39:04,570

you know the shootings and things like

897

00:39:10,170 --> 00:39:06,790

that and I'd keep coming across flat

898

00:39:11,820 --> 00:39:10,180

earth and I just would dismiss I mean I

899

00:39:14,070 --> 00:39:11,830

never even looked into it I just and

900

00:39:16,530 --> 00:39:14,080

then you think well there's this stigma

901  
00:39:18,750 --> 00:39:16,540  
attached to it right why and I remember

902  
00:39:21,930 --> 00:39:18,760  
growing up thinking you know in school

903  
00:39:23,970 --> 00:39:21,940  
like what's so funny about people

904  
00:39:26,910 --> 00:39:23,980  
thinking the earth was flat back you

905  
00:39:29,010 --> 00:39:26,920  
know back then I mean all your senses

906  
00:39:31,740 --> 00:39:29,020  
perceive it to be flat what you know I

907  
00:39:34,050 --> 00:39:31,750  
just seems like they're trying to you

908  
00:39:37,650 --> 00:39:34,060  
know implement some type of mind

909  
00:39:40,940 --> 00:39:37,660  
manipulation and I see a lot with like

910  
00:39:43,140 --> 00:39:40,950  
now if I ask you can you name the

911  
00:39:48,330 --> 00:39:43,150  
celebrities who came out as flat

912  
00:39:52,560 --> 00:39:48,340  
earthers I remember be a be some other

913  
00:39:56,730 --> 00:39:52,570

basketball player yeah so I remember oh

914

00:39:58,290 --> 00:39:56,740

well maybe I see Tia tequila okay and

915

00:40:00,380 --> 00:39:58,300

what what are those three people have in

916

00:40:06,780 --> 00:40:02,040

the

917

00:40:08,930 --> 00:40:06,790

all black yes correct now you wanted to

918

00:40:10,920 --> 00:40:08,940

make some interesting stupid I'm not

919

00:40:12,900 --> 00:40:10,930

pleased don't get me wrong here I'm not

920

00:40:14,730 --> 00:40:12,910

implied I'm not racist of course I'm

921

00:40:17,840 --> 00:40:14,740

going little see they're not racist but

922

00:40:20,280 --> 00:40:17,850

I understand the psyche that they that I

923

00:40:22,530 --> 00:40:20,290

think I can imagine the psyche where

924

00:40:25,200 --> 00:40:22,540

they say well what weather what better

925

00:40:27,870 --> 00:40:25,210

way to squash this and to think that

926

00:40:30,480 --> 00:40:27,880

some idiot like Tila Tequila knows more

927

00:40:31,440 --> 00:40:30,490

than physics you know and she does these

928

00:40:33,210 --> 00:40:31,450

people aren't flattered

929

00:40:34,740 --> 00:40:33,220

there's the they're puppets the you know

930

00:40:37,050 --> 00:40:34,750

they get out they're told what to do

931

00:40:41,400 --> 00:40:37,060

they're totally using you think they

932

00:40:44,280 --> 00:40:41,410

chose people like tear tequila to make

933

00:40:48,660 --> 00:40:44,290

it look like I mean she's a it wasn't

934

00:40:51,120 --> 00:40:48,670

sensible yeah alright that black so that

935

00:40:52,800 --> 00:40:51,130

it's to appeal to white people who think

936

00:40:57,920 --> 00:40:52,810

that black people are stupid and they

937

00:41:04,620 --> 00:40:57,930

see black people correct saying that

938

00:41:06,690 --> 00:41:04,630

let's say it just sound rather racist is

939

00:41:11,640 --> 00:41:06,700

it an understanding of how these people

940

00:41:13,590 --> 00:41:11,650

operate I mean in if you you know if you

941

00:41:18,060 --> 00:41:13,600

want to analyze something and get to the

942

00:41:19,320 --> 00:41:18,070

truth you have to you know basically

943

00:41:21,960 --> 00:41:19,330

have to accept that you're gonna be

944

00:41:23,640 --> 00:41:21,970

called all sorts of names I mean if you

945

00:41:26,480 --> 00:41:23,650

if you questioned the Holocaust you're

946

00:41:28,620 --> 00:41:26,490

immediately an anti summit right I mean

947

00:41:32,220 --> 00:41:28,630

that's the way yeah

948

00:41:34,770 --> 00:41:32,230

this isn't such like killing one who

949

00:41:36,750 --> 00:41:34,780

came out saying it was flat I think he

950

00:41:38,790 --> 00:41:36,760

was just joking there Shaquille O'Neal

951  
00:41:40,470 --> 00:41:38,800  
well he's a freemason so was he joking

952  
00:41:43,050 --> 00:41:40,480  
or is he giving some truth in plain

953  
00:41:45,380 --> 00:41:43,060  
sight that's not to say so everything

954  
00:41:48,480 --> 00:41:45,390  
must be rather suspicious if you're a

955  
00:41:51,780 --> 00:41:48,490  
suspicious mind so so like see they

956  
00:41:54,150 --> 00:41:51,790  
started out being sis like you thought

957  
00:41:54,900 --> 00:41:54,160  
he was stupid the flutter thing and then

958  
00:41:59,640 --> 00:41:54,910  
you thought there's some kind of

959  
00:42:01,410 --> 00:41:59,650  
mind-control thing going no no okay

960  
00:42:02,040 --> 00:42:01,420  
first before I looked into it I thought

961  
00:42:05,280 --> 00:42:02,050  
it was stupid

962  
00:42:08,310 --> 00:42:05,290  
can anyone question that you know and I

963  
00:42:10,350 --> 00:42:08,320

don't have a science background you know

964

00:42:11,910 --> 00:42:10,360

I mean I have a Bachelor of Science but

965

00:42:13,970 --> 00:42:11,920

it's not it's in international relations

966

00:42:15,510 --> 00:42:13,980

so I don't have a hard science

967

00:42:17,820 --> 00:42:15,520

background

968

00:42:20,610 --> 00:42:17,830

learn more about physics studying Flat

969

00:42:24,750 --> 00:42:20,620

Earth than I ever did and it's quite

970

00:42:25,170 --> 00:42:24,760

educational right and so that's the

971

00:42:27,420 --> 00:42:25,180

other thing

972

00:42:29,790 --> 00:42:27,430

how many people do you think who aren't

973

00:42:32,120 --> 00:42:29,800

science who don't have a background in

974

00:42:35,400 --> 00:42:32,130

science would understand all these

975

00:42:37,680 --> 00:42:35,410

concepts I mean like you know they'll be

976

00:42:39,630 --> 00:42:37,690

the first to say oh you're an idiot you

977

00:42:41,790 --> 00:42:39,640

believe in Flat Earth and I asked them

978

00:43:23,610 --> 00:42:41,800

okay how many planets are estimated in

979

00:43:25,230 --> 00:43:23,620

the universe 24 sep 10 2014 9 to think

980

00:43:27,750 --> 00:43:25,240

you know you were like this controlled

981

00:43:28,710 --> 00:43:27,760

opposition and you know you going over I

982

00:43:31,590 --> 00:43:28,720

get that a lot

983

00:43:31,950 --> 00:43:31,600

and and I'm like nobody he's such a nice

984

00:43:35,190 --> 00:43:31,960

guy

985

00:43:38,880 --> 00:43:35,200

maybe that's angle you know there's a

986

00:43:40,440 --> 00:43:38,890

plan I know it's like Alex Jones on one

987

00:43:43,260 --> 00:43:40,450

day and who's the belligerent

988

00:43:45,090 --> 00:43:43,270

you know in your face making conspiracy

989

00:43:48,480 --> 00:43:45,100

theorists look idiot and then you know

990

00:43:50,340 --> 00:43:48,490

it's just they have every every section

991

00:43:52,740 --> 00:43:50,350

covered you know I don't think it's

992

00:43:54,150 --> 00:43:52,750

nothing I'll ever happen I don't even if

993

00:43:57,180 --> 00:43:54,160

it's true might not be true who knows

994

00:44:00,510 --> 00:43:57,190

you know but I just think that you know

995

00:44:03,510 --> 00:44:00,520

this it's you know the matrix has been

996

00:44:07,110 --> 00:44:03,520

so established over time in place and

997

00:44:08,370 --> 00:44:07,120

program of television it's just it's so

998

00:44:11,070 --> 00:44:08,380

there's nothing people think Flat Earth

999

00:44:13,320 --> 00:44:11,080

is gonna you know is gonna eventually

1000

00:44:15,750 --> 00:44:13,330

become mainstream it's not it's not I

1001

00:44:19,980 --> 00:44:15,760

think it is well and the other thing I

1002

00:44:22,350 --> 00:44:19,990

don't I don't flap so that's not even my

1003

00:44:24,270 --> 00:44:22,360

you know to be honest I wouldn't to be

1004

00:44:27,330 --> 00:44:24,280

technically correct I'm not a flat

1005

00:44:29,430 --> 00:44:27,340

earther I just reject the baller theory

1006

00:44:31,830 --> 00:44:29,440

and here's why I can kind of see like

1007

00:44:35,870 --> 00:44:31,840

it's like you're more about questioning

1008

00:44:37,020 --> 00:44:35,880

stuff then pushing a needle pointing you

1009

00:44:38,370 --> 00:44:37,030

right

1010

00:44:40,800 --> 00:44:38,380

I mean out for all intensive purposes

1011

00:44:43,020 --> 00:44:40,810

I'll be known as a flat earther and

1012

00:44:45,150 --> 00:44:43,030

table just because it's kind of the same

1013

00:44:48,420 --> 00:44:45,160

thing I don't believe space I I don't

1014

00:44:49,830 --> 00:44:48,430

believe space has been proven to you

1015

00:44:51,660 --> 00:44:49,840

know how many people have been in space

1016

00:44:56,510 --> 00:44:51,670

in the world Oh point one one point zero

1017

00:45:01,010 --> 00:44:56,520

zero zero zero those population I mean

1018

00:45:09,510 --> 00:45:04,740

well buzz yeah what I think that that

1019

00:45:11,220 --> 00:45:09,520

was actually all I almost would think

1020

00:45:13,530 --> 00:45:11,230

everything it stays what do you think is

1021

00:45:15,810 --> 00:45:13,540

how would he get access to all these

1022

00:45:17,460 --> 00:45:15,820

wouldn't the first guy who encountered

1023

00:45:19,860 --> 00:45:17,470

him tell everyone else oh watch out for

1024

00:45:22,890 --> 00:45:19,870

this guy don't you know don't I think he

1025

00:45:27,090 --> 00:45:22,900

was punked I think he was his name yeah

1026

00:45:28,650 --> 00:45:27,100

that guy who dollars BIOS yeah who got

1027

00:45:30,060 --> 00:45:28,660

punch but yeah he read they did a

1028

00:45:31,680 --> 00:45:30,070

documentary called a funny thing

1029

00:45:32,490 --> 00:45:31,690

happened on the way to the moon yes

1030

00:45:36,090 --> 00:45:32,500

exactly

1031

00:45:37,740 --> 00:45:36,100

yeah I think that I think the the

1032

00:45:40,560 --> 00:45:37,750

astronauts didn't know about this I

1033

00:45:42,420 --> 00:45:40,570

think it was a joke play down by where

1034

00:45:44,400 --> 00:45:42,430

they send them and kasam it looks

1035

00:45:47,250 --> 00:45:44,410

authentic from these astronauts they're

1036

00:45:50,100 --> 00:45:47,260

really angry right now why would you be

1037

00:45:51,960 --> 00:45:50,110

angry like okay so some one person

1038

00:45:53,730 --> 00:45:51,970

doesn't believe you I mean how many

1039

00:45:56,370 --> 00:45:53,740

people today don't believe them right

1040

00:45:59,160 --> 00:45:56,380

Wow yes well if you watch the full type

1041

00:46:00,840 --> 00:45:59,170

with guys in cancer with Buzz he had

1042

00:46:02,220 --> 00:46:00,850

both just ahh so just ignoring him but I

1043

00:46:04,620 --> 00:46:02,230

think he just like bugged him so much

1044

00:46:06,300 --> 00:46:04,630

and then you had the guy Siebel or if

1045

00:46:13,500 --> 00:46:06,310

his name is was like in his face and

1046

00:46:16,140 --> 00:46:13,510

calling him a liar so but yeah so bart

1047

00:46:17,730 --> 00:46:16,150

parts about cibebe sibrel and then he

1048

00:46:20,670 --> 00:46:17,740

goes on all these he gets interviewed

1049

00:46:22,950 --> 00:46:20,680

you know by all these news you know he

1050

00:46:25,380 --> 00:46:22,960

does these live interviews and why would

1051  
00:46:27,000 --> 00:46:25,390  
they you know - if this guy is such a

1052  
00:46:28,320 --> 00:46:27,010  
jerk you know treating the astronauts

1053  
00:46:31,470 --> 00:46:28,330  
this way could why are they giving him a

1054  
00:46:33,320 --> 00:46:31,480  
platform yeah I guess that's the news

1055  
00:46:35,850 --> 00:46:33,330  
they like they like talking to people

1056  
00:46:38,550 --> 00:46:35,860  
that's interesting stuff

1057  
00:46:39,570 --> 00:46:38,560  
well like getting back to it's a flat

1058  
00:46:42,790 --> 00:46:39,580  
earth like you say you're not

1059  
00:46:46,680 --> 00:46:42,800  
technically a flat earth person

1060  
00:46:49,470 --> 00:46:46,690  
oh here's my here's my number one

1061  
00:46:52,570 --> 00:46:49,480  
anti-spark of Earth true

1062  
00:46:59,170 --> 00:46:52,580  
I think we touched on it yesterday on

1063  
00:47:00,820 --> 00:46:59,180

Twitter so Aristotle proof that he worth

1064

00:47:02,500 --> 00:47:00,830

around one of them anyways was that

1065

00:47:04,350 --> 00:47:02,510

ships were sailing past the horizon

1066

00:47:11,050 --> 00:47:04,360

right that's nuts

1067

00:47:15,760 --> 00:47:11,060

okay so now today we have you know highs

1068

00:47:19,240 --> 00:47:15,770

high zoom lens highs incapable cameras

1069

00:47:22,270 --> 00:47:19,250

telescopes how the unaided eye when it

1070

00:47:24,520 --> 00:47:22,280

sees a ship disappear is that

1071

00:47:27,430 --> 00:47:24,530

necessarily assume it's going over the

1072

00:47:30,760 --> 00:47:27,440

horizon or is it just that our eyes have

1073

00:47:33,070 --> 00:47:30,770

a limited capacity see an object small

1074

00:47:36,130 --> 00:47:33,080

now hey I hear this argument a lot like

1075

00:47:37,840 --> 00:47:36,140

it's true like a ship sails away far

1076

00:47:39,580 --> 00:47:37,850

enough it will disappear because it's

1077

00:47:41,230 --> 00:47:39,590

just simply so small you can't see it

1078

00:47:43,630 --> 00:47:41,240

and okay

1079

00:47:45,610 --> 00:47:43,640

sometimes when you zoom in on things you

1080

00:47:48,160 --> 00:47:45,620

can then see them again because they are

1081

00:47:50,050 --> 00:47:48,170

now large enough to see but the

1082

00:47:52,650 --> 00:47:50,060

situations were shipped like a large

1083

00:47:55,030 --> 00:47:52,660

ship has gone beyond the horizon and

1084

00:47:57,220 --> 00:47:55,040

half of it is below the horizon and a

1085

00:47:59,650 --> 00:47:57,230

half of it is above the horizon and no

1086

00:48:01,450 --> 00:47:59,660

matter how much you zoom in you can't

1087

00:48:04,360 --> 00:48:01,460

actually bring that bottom half back

1088

00:48:06,190 --> 00:48:04,370

interview so there's like two two

1089

00:48:08,140 --> 00:48:06,200

separate things going on here there's

1090

00:48:09,700 --> 00:48:08,150

the fact that you know things are very

1091

00:48:11,740 --> 00:48:09,710

very small in the distance and so

1092

00:48:13,870 --> 00:48:11,750

they're hard to see and then when you

1093

00:48:15,280 --> 00:48:13,880

zoom in them it's easier to see them and

1094

00:48:17,200 --> 00:48:15,290

then there's things that are actually

1095

00:48:19,840 --> 00:48:17,210

hidden like something is half hidden

1096

00:48:22,720 --> 00:48:19,850

behind something you can't you know if i

1097

00:48:24,160 --> 00:48:22,730

zoom you zoom in on my hand like move my

1098

00:48:26,530 --> 00:48:24,170

hand closer to the camera it doesn't

1099

00:48:32,890 --> 00:48:26,540

actually make the bit of the hand that

1100

00:48:34,480 --> 00:48:32,900

is hidden visible is there and see what

1101

00:48:36,760 --> 00:48:34,490

you did there may I know I know it's

1102

00:48:38,590 --> 00:48:36,770

gonna be careful what I do I bet I bet I

1103

00:48:42,070 --> 00:48:38,600

put one hand over one eye or something

1104

00:48:45,190 --> 00:48:42,080

like that okay I get that okay but this

1105

00:48:47,830 --> 00:48:45,200

is my main point here this is a proof

1106

00:48:49,930 --> 00:48:47,840

right that the earth Aristotle the earth

1107

00:48:52,060 --> 00:48:49,940

was a trap yeah he's a proof that the

1108

00:48:53,770 --> 00:48:52,070

ocean is curved at least nearby which

1109

00:48:55,480 --> 00:48:53,780

you know if you take into the general

1110

00:48:56,520 --> 00:48:55,490

case it's curved everywhere which means

1111

00:49:00,160 --> 00:48:56,530

that the earth is

1112

00:49:01,960 --> 00:49:00,170

but today we know that it could have

1113

00:49:04,840 --> 00:49:01,970

just been that he didn't see it go over

1114

00:49:06,970 --> 00:49:04,850

the curve he just ran out of Isis you

1115

00:49:08,980 --> 00:49:06,980

know he could but we can now go out and

1116

00:49:10,690 --> 00:49:08,990

have a look and we can see boats go over

1117

00:49:12,520 --> 00:49:10,700

the curve like I've done it myself I've

1118

00:49:14,710 --> 00:49:12,530

seen like oil tankers where the bottom

1119

00:49:16,450 --> 00:49:14,720

half of the oil tanker is missing and

1120

00:49:22,000 --> 00:49:16,460

I've got I've got a p900 I've got like

1121

00:49:25,150 --> 00:49:22,010

yeah yeah nine hundred which is the the

1122

00:49:27,810 --> 00:49:25,160

flat earther camera and it's a so I'm

1123

00:49:30,310 --> 00:49:27,820

saying like an incredibly large amount

1124

00:49:33,370 --> 00:49:30,320

so I can zoom in on these boats and I

1125

00:49:35,710 --> 00:49:33,380

can see that the bottom of the boat

1126

00:49:37,840 --> 00:49:35,720

stays behind the horizon so we don't

1127

00:49:41,410 --> 00:49:37,850

have to like you know go back and think

1128

00:49:45,640 --> 00:49:41,420

what Aristotle saw I did not see that be

1129

00:49:47,800 --> 00:49:45,650

due to the not the atmosphere but you

1130

00:49:50,560 --> 00:49:47,810

know the water you know and all the

1131

00:49:52,600 --> 00:49:50,570

distortion from you know because you can

1132

00:49:54,280 --> 00:49:52,610

see a fairly clear cutoff point

1133

00:49:55,960 --> 00:49:54,290

yeah especially when you're down on the

1134

00:49:59,260 --> 00:49:55,970

beach you'd be down on the beach the the

1135

00:50:01,450 --> 00:49:59,270

ocean is The Horizon is fairly close

1136

00:50:03,010 --> 00:50:01,460

because the lower down you get the

1137

00:50:06,250 --> 00:50:03,020

closer the horizon is because you can't

1138

00:50:09,790 --> 00:50:06,260

see us well and so the actual line of

1139

00:50:12,760 --> 00:50:09,800

the horizon becomes very very clear okay

1140

00:50:16,260 --> 00:50:12,770

and you can see that it's just basically

1141

00:50:18,370 --> 00:50:16,270

the boat is beaten behind this horizon

1142

00:50:21,310 --> 00:50:18,380

and that that's another thing that's

1143

00:50:24,070 --> 00:50:21,320

very suspicious is you have this way it

1144

00:50:27,040 --> 00:50:24,080

just cuts off it's just it's you know

1145

00:50:29,530 --> 00:50:27,050

it's it's I don't want say flat I mean

1146

00:50:30,820 --> 00:50:29,540

it is it is splits it is what that's the

1147

00:50:35,050 --> 00:50:30,830

thing that kind of uses because I think

1148

00:50:37,480 --> 00:50:35,060

at the horizon it's the boat sticking to

1149

00:50:39,790 --> 00:50:37,490

the water that's already curved outward

1150

00:50:41,650 --> 00:50:39,800

why isn't it inverted you know I know

1151  
00:50:44,260 --> 00:50:41,660  
about that the degree is such a small

1152  
00:50:46,510 --> 00:50:44,270  
degree you wouldn't notice it but some

1153  
00:50:49,270 --> 00:50:46,520  
of these it's just how is it straight up

1154  
00:50:52,150 --> 00:50:49,280  
when the base is basically on the side

1155  
00:50:53,650 --> 00:50:52,160  
here it just it's illogical to me yeah I

1156  
00:50:54,880 --> 00:50:53,660  
think you have to draw me a diagram out

1157  
00:50:57,100 --> 00:50:54,890  
of that guy like you're thinking like a

1158  
00:50:59,380 --> 00:50:57,110  
boat should be tilted over if it goes

1159  
00:51:01,990 --> 00:50:59,390  
further away well if you're saying this

1160  
00:51:04,330 --> 00:51:02,000  
the horizon is that's the cutoff right

1161  
00:51:06,010 --> 00:51:04,340  
that's everything I'm there we can't see

1162  
00:51:08,530 --> 00:51:06,020  
because the earth is completely dipped

1163  
00:51:09,520 --> 00:51:08,540

away which natality is it's very very

1164

00:51:12,880 --> 00:51:09,530

gradually drift

1165

00:51:15,310 --> 00:51:12,890

way so yeah and but where it actually

1166

00:51:16,660 --> 00:51:15,320

becomes no longer visible that's not

1167

00:51:18,040 --> 00:51:16,670

like a hard line or anything though

1168

00:51:20,230 --> 00:51:18,050

that's just the edge they didn't see

1169

00:51:23,170 --> 00:51:20,240

looking at it okay well we're looking at

1170

00:51:30,520 --> 00:51:23,180

the fries and we always see sharp hard

1171

00:51:31,930 --> 00:51:30,530

line right got a globe you can kind of

1172

00:51:33,700 --> 00:51:31,940

like do this yourself if you have a

1173

00:51:35,350 --> 00:51:33,710

globe like you close one eye and move

1174

00:51:36,850 --> 00:51:35,360

your eye really really close to the

1175

00:51:38,590 --> 00:51:36,860

globe which I'm doing right now let's

1176

00:51:41,400 --> 00:51:38,600

give a silly and you can kind of see

1177

00:51:43,840 --> 00:51:41,410

that the horizon kind of flattens out

1178

00:51:45,910 --> 00:51:43,850

and you know you can't obviously get

1179

00:51:47,050 --> 00:51:45,920

your eye down to the level that he would

1180

00:51:48,760 --> 00:51:47,060

have to be you have to be actually

1181

00:51:52,090 --> 00:51:48,770

touching the surface of the globe to be

1182

00:51:54,100 --> 00:51:52,100

just to scale but you can kind of like

1183

00:51:55,210 --> 00:51:54,110

see that what you're seeing isn't as you

1184

00:51:57,790 --> 00:51:55,220

get closer you're not seeing the whole

1185

00:52:00,880 --> 00:51:57,800

globe be just seeing basically something

1186

00:52:03,370 --> 00:52:00,890

that's limited to a circle around around

1187

00:52:06,250 --> 00:52:03,380

the globe so if I'm like say you know a

1188

00:52:08,950 --> 00:52:06,260

thousand feet up in the air when I look

1189

00:52:11,170 --> 00:52:08,960

out there's going to be a point beyond

1190

00:52:12,910 --> 00:52:11,180

which I can't see on the globe and

1191

00:52:14,170 --> 00:52:12,920

that's the horizon this is in this

1192

00:52:17,020 --> 00:52:14,180

essentially it's a circle it's a flat

1193

00:52:19,450 --> 00:52:17,030

circle like however far away it is for a

1194

00:52:23,130 --> 00:52:19,460

thousand feet I don't know like like 10

1195

00:52:24,760 --> 00:52:23,140

miles or something let's say there's one

1196

00:52:26,020 --> 00:52:24,770

photography you can't see anything

1197

00:52:28,450 --> 00:52:26,030

beyond that you can see anything that

1198

00:52:31,030 --> 00:52:28,460

was tall enough to poke over the horizon

1199

00:52:32,530 --> 00:52:31,040

which is why you can see ships the

1200

00:52:34,540 --> 00:52:32,540

bottom of the ship is hidden beyond the

1201

00:52:36,280 --> 00:52:34,550

horizon the top of the ship is visible

1202

00:52:38,470 --> 00:52:36,290

and no matter how much you zoom in that

1203

00:52:41,200 --> 00:52:38,480

doesn't actually change there's lots of

1204

00:52:42,970 --> 00:52:41,210

complications with it with like the

1205

00:52:44,680 --> 00:52:42,980

weather and refraction and stuff like

1206

00:52:47,110 --> 00:52:44,690

that but right there is there's some

1207

00:52:50,530 --> 00:52:47,120

very very clear-cut examples where you

1208

00:52:53,310 --> 00:52:50,540

see islands like wait were you based

1209

00:52:56,530 --> 00:52:53,320

roughly oh you're in you're in Boston so

1210

00:53:00,160 --> 00:52:56,540

yeah I moved to Michigan okay from me so

1211

00:53:01,570 --> 00:53:00,170

like you've probably got like access one

1212

00:53:04,600 --> 00:53:01,580

of the lakes that kind of which like

1213

00:53:07,480 --> 00:53:04,610

you'd be close to eight legs yeah about

1214

00:53:09,550 --> 00:53:07,490

Lake Erie's the closest in fact actually

1215

00:53:12,640 --> 00:53:09,560

I was going to do an experiment because

1216

00:53:14,800 --> 00:53:12,650

there are some there's some wind

1217

00:53:17,170 --> 00:53:14,810

turbines in Canada well if you know like

1218

00:53:18,790 --> 00:53:17,180

Detroit borders Canada so they're going

1219

00:53:22,780 --> 00:53:18,800

to go along the Detroit River which

1220

00:53:23,380 --> 00:53:22,790

leads into Lake Erie Lake Sinclair as

1221

00:53:26,049 --> 00:53:23,390

you're going

1222

00:53:28,000 --> 00:53:26,059

long at Grosse Pointe Michigan and one

1223

00:53:31,480 --> 00:53:28,010

of the very probably the most affluent

1224

00:53:34,960 --> 00:53:31,490

city in Michigan and it sits right on

1225

00:53:37,630 --> 00:53:34,970

the Detroit River and I should not be

1226

00:53:40,359 --> 00:53:37,640

able to see I mean I could see the mom

1227

00:53:44,950 --> 00:53:40,369

often their entirety and so I came to

1228

00:53:47,109 --> 00:53:44,960

Google the Google Maps and but anyway so

1229

00:53:51,339 --> 00:53:47,119

yeah I recommend people do experiments

1230

00:53:53,319 --> 00:53:51,349

like that it's it's it's sometimes

1231

00:53:55,089 --> 00:53:53,329

difficult to get the right situation

1232

00:53:57,160 --> 00:53:55,099

because sometimes they're not far enough

1233

00:53:58,329 --> 00:53:57,170

for it to make a real difference or

1234

00:53:59,920 --> 00:53:58,339

sometimes the weather doesn't cooperate

1235

00:54:01,960 --> 00:53:59,930

and you have to go back a couple of

1236

00:54:03,279 --> 00:54:01,970

times but I do recommend things like

1237

00:54:04,539 --> 00:54:03,289

that and wind turbines are pretty good

1238

00:54:06,910 --> 00:54:04,549

because they're often they're spaced out

1239

00:54:08,829 --> 00:54:06,920

so you see one nearby a wind turbine

1240

00:54:10,420 --> 00:54:08,839

that's already got a bit obscure then

1241

00:54:13,240 --> 00:54:10,430

there's a further away one which is over

1242

00:54:15,000 --> 00:54:13,250

further down the slope of the earth yeah

1243

00:54:17,920 --> 00:54:15,010

so give it a go sir

1244

00:54:21,759 --> 00:54:17,930

okay finish I didn't finish

1245

00:54:23,349 --> 00:54:21,769

giving you my okay yeah and it was part

1246

00:54:25,329 --> 00:54:23,359

way there and it has to do with with the

1247

00:54:27,130 --> 00:54:25,339

ship over the horizon right all right so

1248

00:54:28,900 --> 00:54:27,140

now okay so the ship goes over her

1249

00:54:30,490 --> 00:54:28,910

horizon you're out you're looking east

1250

00:54:32,349 --> 00:54:30,500

right you're looking let's say you're on

1251  
00:54:36,039 --> 00:54:32,359  
the East Coast and and you're looking

1252  
00:54:37,150 --> 00:54:36,049  
east but you know it's okay now and you

1253  
00:54:38,680 --> 00:54:37,160  
see it go over the horizon it's

1254  
00:54:41,980 --> 00:54:38,690  
traveling directly away from you so it's

1255  
00:54:45,609 --> 00:54:41,990  
traveling east right yeah yeah okay so

1256  
00:54:47,230 --> 00:54:45,619  
now goes completely over it's basically

1257  
00:54:50,499 --> 00:54:47,240  
like a hill right I know it's not a hill

1258  
00:54:52,690 --> 00:54:50,509  
its elevation it's just for all intents

1259  
00:54:55,539 --> 00:54:52,700  
and purposes it's you know it's it's

1260  
00:54:59,319 --> 00:54:55,549  
curved right this curve has a curve down

1261  
00:55:03,819 --> 00:54:59,329  
and curves up right mm-hm so now if that

1262  
00:55:07,990 --> 00:55:03,829  
boat did a 180 and came back to shore

1263  
00:55:12,120 --> 00:55:08,000

how is it not going up instead of

1264

00:55:12,660 --> 00:55:12,130

continually down like the model state

1265

00:55:17,099 --> 00:55:12,670

[Music]

1266

00:55:23,230 --> 00:55:20,259

yeah well you know if you let's say you

1267

00:55:25,720 --> 00:55:23,240

take a video of that boat sailing over

1268

00:55:28,059 --> 00:55:25,730

and disappearing and then you play that

1269

00:55:29,519 --> 00:55:28,069

video in Reverse that's going to be

1270

00:55:31,630 --> 00:55:29,529

exactly the same thing that's happening

1271

00:55:34,599 --> 00:55:31,640

so I don't really see the problem you

1272

00:55:37,080 --> 00:55:34,609

think he's going uphill coming back yeah

1273

00:55:39,750 --> 00:55:37,090

course it I mean you see this curve

1274

00:55:43,110 --> 00:55:39,760

it's going down right it's not curving

1275

00:55:46,320 --> 00:55:43,120

down because there isn't down on the

1276

00:55:48,450 --> 00:55:46,330

globe down these always towards the

1277

00:55:49,830 --> 00:55:48,460

center of the globe so over here the top

1278

00:55:52,110 --> 00:55:49,840

of the globe it's down you know and the

1279

00:55:54,510 --> 00:55:52,120

equator down is like that on the bottom

1280

00:55:56,430 --> 00:55:54,520

down is like that so when a boat is

1281

00:55:58,650 --> 00:55:56,440

sailing on the surface is essentially

1282

00:56:01,770 --> 00:55:58,660

sailing on what seems to it to be a flat

1283

00:56:03,570 --> 00:56:01,780

surface because as it sails along what

1284

00:56:05,670 --> 00:56:03,580

is down is changing as it gets further

1285

00:56:06,810 --> 00:56:05,680

and further now what you're talking

1286

00:56:08,880 --> 00:56:06,820

about you're talking about the tiny

1287

00:56:10,470 --> 00:56:08,890

little bits of it which will look almost

1288

00:56:12,930 --> 00:56:10,480

essentially flat he won't really look

1289

00:56:16,050 --> 00:56:12,940

like where it's a point down from the

1290

00:56:18,420 --> 00:56:16,060

boats perspective so when it both sails

1291

00:56:18,690 --> 00:56:18,430

in any direction it's not going up or

1292

00:56:21,570 --> 00:56:18,700

down

1293

00:56:25,020 --> 00:56:21,580

it's staying at the same altitude but

1294

00:56:26,490 --> 00:56:25,030

altitude on the globe is relative to the

1295

00:56:27,840 --> 00:56:26,500

center of the earth essentially to the

1296

00:56:30,510 --> 00:56:27,850

surface of the earth but really to the

1297

00:56:32,970 --> 00:56:30,520

center and so it's always staying at the

1298

00:56:34,980 --> 00:56:32,980

same height the ocean isn't going up or

1299

00:56:37,200 --> 00:56:34,990

down it's not there's no Hill on the

1300

00:56:39,870 --> 00:56:37,210

ocean so it's just basically sails out

1301  
00:56:42,600 --> 00:56:39,880  
flatten it sails back flat there's no

1302  
00:56:46,320 --> 00:56:42,610  
house if you asked ten people ten random

1303  
00:56:48,420 --> 00:56:46,330  
people off the street you know that's it

1304  
00:56:51,570 --> 00:56:48,430  
go to a college go to you know somewhere

1305  
00:56:53,940 --> 00:56:51,580  
educated people are but not a science

1306  
00:56:56,430 --> 00:56:53,950  
background right you explain that to

1307  
00:56:58,200 --> 00:56:56,440  
them you say okay this boat is sailing

1308  
00:57:01,950 --> 00:56:58,210  
over the horizon it gets lower and lower

1309  
00:57:04,050 --> 00:57:01,960  
and plying it's going downward and say

1310  
00:57:07,440 --> 00:57:04,060  
Down Goes Down is there B so it's

1311  
00:57:09,390 --> 00:57:07,450  
downward acceptable no it's the else

1312  
00:57:10,860 --> 00:57:09,400  
it's that's the thing is that you're

1313  
00:57:12,630 --> 00:57:10,870

using the word down you're saying going

1314

00:57:16,500 --> 00:57:12,640

down over the curb but it didn't it

1315

00:57:18,150 --> 00:57:16,510

isn't really down it's I think that just

1316

00:57:21,360 --> 00:57:18,160

isn't the use of language it confuses it

1317

00:57:23,850 --> 00:57:21,370

is sailing east but he's not going

1318

00:57:26,550 --> 00:57:23,860

higher or lower or much better on a flat

1319

00:57:30,000 --> 00:57:26,560

earth it's a lot simpler on the flutter

1320

00:57:32,040 --> 00:57:30,010

that's why we use Flat Earth math in in

1321

00:57:34,740 --> 00:57:32,050

video games because it's a lot simpler

1322

00:57:37,890 --> 00:57:34,750

it's just you know why is the same

1323

00:57:41,370 --> 00:57:37,900

rather than why goes around X or Z

1324

00:57:42,900 --> 00:57:41,380

whichever axis you use up okay but now

1325

00:57:45,540 --> 00:57:42,910

now there's a way to measure it though

1326  
00:57:48,660 --> 00:57:45,550  
right to measure what's the curvature of

1327  
00:57:50,640 --> 00:57:48,670  
the earth as through the to measure what

1328  
00:57:54,900 --> 00:57:50,650  
the elevate what the

1329  
00:57:56,130 --> 00:57:54,910  
elevation of the oceans watery well the

1330  
00:57:59,130 --> 00:57:56,140  
thing is like Eevee

1331  
00:58:01,650 --> 00:57:59,140  
yeah the measurements it generally

1332  
00:58:03,720 --> 00:58:01,660  
didn't relate it to sea level

1333  
00:58:05,039 --> 00:58:03,730  
so you're saying how high things are

1334  
00:58:06,690 --> 00:58:05,049  
relative to sea level so if you're on

1335  
00:58:08,700 --> 00:58:06,700  
the sea you just a sea level you're at

1336  
00:58:11,370 --> 00:58:08,710  
zero feet you no matter where you are

1337  
00:58:14,160 --> 00:58:11,380  
there are some variations to do with

1338  
00:58:15,660 --> 00:58:14,170

like the composition of the earth

1339

00:58:17,430 --> 00:58:15,670

that's the gravity it was like you know

1340

00:58:19,019 --> 00:58:17,440

very dense areas of the earth and slight

1341

00:58:20,849 --> 00:58:19,029

lessons but it doesn't account for very

1342

00:58:23,099 --> 00:58:20,859

much now basically when you're on the

1343

00:58:25,739 --> 00:58:23,109

ocean you're at sea level doesn't matter

1344

00:58:27,660 --> 00:58:25,749

which direction you go you're always at

1345

00:58:29,279 --> 00:58:27,670

zero feet heroes at sea level you're not

1346

00:58:31,380 --> 00:58:29,289

going up a hilly not going down a hill

1347

00:58:34,950 --> 00:58:31,390

you're just going around a surface which

1348

00:58:36,720 --> 00:58:34,960

is curved okay how about a lake a lake

1349

00:58:38,779 --> 00:58:36,730

in its act exactly the same it's just as

1350

00:58:42,329 --> 00:58:38,789

a bit of a higher altitude so the

1351

00:58:44,249 --> 00:58:42,339

curvature is slight very very slightly

1352

00:58:47,789 --> 00:58:44,259

less because it's a bit higher up so

1353

00:58:50,039 --> 00:58:47,799

it's a bit so you know the angle of that

1354

00:58:51,599 --> 00:58:50,049

the amount of curvature per foot is very

1355

00:58:53,489 --> 00:58:51,609

very slightly less but and not not

1356

00:58:55,079 --> 00:58:53,499

something you could actually measure but

1357

00:58:56,970 --> 00:58:55,089

essentially the same thing that's right

1358

00:58:58,229 --> 00:58:56,980

okay so you don't think it can be

1359

00:59:00,779 --> 00:58:58,239

measured right

1360

00:59:03,720 --> 00:59:00,789

well the difference in the curvature of

1361

00:59:09,390 --> 00:59:03,730

a lake first is the curvature of the sea

1362

00:59:12,269 --> 00:59:09,400

probably not because it's very very

1363

00:59:16,339 --> 00:59:12,279

different yeah it's not it's not very

1364

00:59:21,539 --> 00:59:16,349

much no I'm saying measure on a lake how

1365

00:59:24,630 --> 00:59:21,549

how many feet or inches the boat in her

1366

00:59:26,670 --> 00:59:24,640

way right so you take you right you can

1367

00:59:29,130 --> 00:59:26,680

you can actually do the laser if you do

1368

00:59:31,950 --> 00:59:29,140

a laser you take a laser yeah you stick

1369

00:59:36,120 --> 00:59:31,960

it on the beach of a lake and then you

1370

00:59:39,239 --> 00:59:36,130

send a boat out and the laser is gonna

1371

00:59:40,859 --> 00:59:39,249

hit the top of a boat yeah right that's

1372

00:59:42,749 --> 00:59:40,869

not it's not a very good test on another

1373

00:59:46,319 --> 00:59:42,759

test you're referring to and it was one

1374

00:59:49,349 --> 00:59:46,329

done by horses named Stephen Hawking's

1375

00:59:51,239 --> 00:59:49,359

TV show and it's not a very good test

1376

00:59:53,400 --> 00:59:51,249

because lasers that go close to the

1377

00:59:54,960 --> 00:59:53,410

surface of the ocean tend to get

1378

00:59:57,150 --> 00:59:54,970

refracted because of the temperature

1379

00:59:59,009 --> 00:59:57,160

differences so it's not very accurate

1380

01:00:00,539 --> 00:59:59,019

you can kind of demonstrate the

1381

01:00:02,069 --> 01:00:00,549

principle but it's not very accurate a

1382

01:00:04,680 --> 01:00:02,079

better thing to do is to use something

1383

01:00:06,599 --> 01:00:04,690

that's very very large like this

1384

01:00:08,819 --> 01:00:06,609

Sears Tower the Willis Tower for example

1385

01:00:10,589 --> 01:00:08,829

look at that from far enough away from a

1386

01:00:12,780 --> 01:00:10,599

certain altitude if you know what your

1387

01:00:15,750 --> 01:00:12,790

altitude is you know how big the Sears

1388

01:00:17,880 --> 01:00:15,760

Tower is you see where the horizon cuts

1389

01:00:21,839 --> 01:00:17,890

it off and you can get from that a

1390

01:00:24,480 --> 01:00:21,849

reasonable estimate of the curvature of

1391

01:00:26,880 --> 01:00:24,490

that lake and even better is to use

1392

01:00:29,359 --> 01:00:26,890

mountains my favorite one is Catalina

1393

01:00:32,460 --> 01:00:29,369

Island off the coast of of Los Angeles

1394

01:00:34,470 --> 01:00:32,470

says like 35 miles away Mountain is

1395

01:00:37,140 --> 01:00:34,480

about I think it's like 1,800 feet high

1396

01:00:38,819 --> 01:00:37,150

1,600 feet high and you look at it in

1397

01:00:40,980 --> 01:00:38,829

about half of it is missing from 35

1398

01:00:42,599 --> 01:00:40,990

miles away and you can you can do the

1399

01:00:44,960 --> 01:00:42,609

math backwards and calculate what the

1400

01:00:46,829 --> 01:00:44,970

radius of the earth is based on that

1401

01:00:48,780 --> 01:00:46,839

it's tricky to do with things like

1402

01:00:50,190 --> 01:00:48,790

lasers and boats it's because of

1403

01:00:53,400 --> 01:00:50,200

refraction okay so you say it's not

1404

01:00:54,210 --> 01:00:53,410

accurate but it's me it I don't see it

1405

01:00:56,940 --> 01:00:54,220

doesn't have to be a hundred percent

1406

01:01:00,240 --> 01:00:56,950

accurate let's say it's allow sometimes

1407

01:01:02,309 --> 01:01:00,250

it's 100% wrong unfortunately okay

1408

01:01:06,450 --> 01:01:02,319

because you've seen like you know a

1409

01:01:08,040 --> 01:01:06,460

mirage on a hot road sometimes you look

1410

01:01:12,180 --> 01:01:08,050

you're looking down at the road and

1411

01:01:14,220 --> 01:01:12,190

you're seeing the sky that's how wrong a

1412

01:01:16,890 --> 01:01:14,230

laser test can be you could be looking

1413

01:01:18,809 --> 01:01:16,900

down at a road and seeing the sky same

1414

01:01:21,210 --> 01:01:18,819

thing a lake you could be looking down

1415

01:01:22,380 --> 01:01:21,220

to the lake and seeing something in the

1416

01:01:23,819 --> 01:01:22,390

sky or you keep it looking straight

1417

01:01:25,050 --> 01:01:23,829

ahead and seeing something that's down

1418

01:01:27,359 --> 01:01:25,060

or straight ahead and seeing something

1419

01:01:29,099 --> 01:01:27,369

that's up so you need to kind of get

1420

01:01:31,260 --> 01:01:29,109

above the areas where you have all these

1421

01:01:33,359 --> 01:01:31,270

problems with refraction is it's quite

1422

01:01:34,770 --> 01:01:33,369

doable as well it's not like it's not

1423

01:01:36,540 --> 01:01:34,780

like we're cheating here we're using

1424

01:01:39,059 --> 01:01:36,550

much bigger and more accurate

1425

01:01:42,750 --> 01:01:39,069

measurements that are less fiddly to

1426

01:01:44,520 --> 01:01:42,760

demonstrate things so it's certainly

1427

01:01:46,890 --> 01:01:44,530

something that's doable and if you can

1428

01:01:49,109 --> 01:01:46,900

find large objects on the other side of

1429

01:01:53,220 --> 01:01:49,119

your lake you said like like Lake Erie

1430

01:01:55,200 --> 01:01:53,230

here at it Kari yeah that's great like

1431

01:01:58,349 --> 01:01:55,210

Lake st. Clair is a large lake which is

1432

01:02:00,420 --> 01:01:58,359

a little closer but yeah ideally like

1433

01:02:03,690 --> 01:02:00,430

you wants a big lake that's got like

1434

01:02:05,430 --> 01:02:03,700

like 30 or 40 miles and if it has a

1435

01:02:06,089 --> 01:02:05,440

mountain on the other side that is that

1436

01:02:09,540 --> 01:02:06,099

is perfect

1437

01:02:11,400 --> 01:02:09,550

oh yeah the bigger things and the longer

1438

01:02:13,800 --> 01:02:11,410

distance that you can do the better and

1439

01:02:14,910 --> 01:02:13,810

don't be too close to the water yourself

1440

01:02:17,099 --> 01:02:14,920

because then you get the refraction

1441

01:02:17,880 --> 01:02:17,109

effects like start like 20 feet up or

1442

01:02:20,069 --> 01:02:17,890

something like that

1443

01:02:23,130 --> 01:02:20,079

give it okay I'll be interested to see

1444

01:02:27,779 --> 01:02:23,140

see what results you came up with that

1445

01:02:31,920 --> 01:02:27,789

bar yeah look that you can find cheap

1446

01:02:34,259 --> 01:02:31,930

one on ebay nowadays but back to back to

1447

01:02:37,799 --> 01:02:34,269

this experiment because even though you

1448

01:02:39,749 --> 01:02:37,809

say it's not accurate okay well okay but

1449

01:02:42,839 --> 01:02:39,759

for my purposes it doesn't need to be

1450

01:02:45,719 --> 01:02:42,849

accurate so they said that the laser was

1451  
01:02:48,799 --> 01:02:45,729  
set up three feet above the surface of

1452  
01:02:52,430 --> 01:02:48,809  
the water right and it hit the boat at

1453  
01:02:56,370 --> 01:02:52,440  
six feet above the surface of the water

1454  
01:02:58,709 --> 01:02:56,380  
yes so now you say that's not accurate

1455  
01:03:02,910 --> 01:02:58,719  
now would it be accurate with I allowed

1456  
01:03:05,190 --> 01:03:02,920  
for you know all I think you know I

1457  
01:03:07,259 --> 01:03:05,200  
think that the the results they got were

1458  
01:03:09,809 --> 01:03:07,269  
actually the results that would be

1459  
01:03:12,660 --> 01:03:09,819  
predictors but I don't I think that's

1460  
01:03:14,999 --> 01:03:12,670  
either by luck or they kind of fetched

1461  
01:03:18,329 --> 01:03:15,009  
the results to make it to make it work

1462  
01:03:22,289 --> 01:03:18,339  
because it's very difficult to get a

1463  
01:03:25,019 --> 01:03:22,299

laser one to be level at that distance

1464

01:03:28,019 --> 01:03:25,029

and two to not be affected by refraction

1465

01:03:30,120 --> 01:03:28,029

so you know I wouldn't put much Sarah

1466

01:03:32,999 --> 01:03:30,130

isn't there an accepted allowance for

1467

01:03:35,069 --> 01:03:33,009

refraction like a proposed there is like

1468

01:03:38,189 --> 01:03:35,079

a general rule of thumb that you can use

1469

01:03:42,569 --> 01:03:38,199

is that with the calculations you add

1470

01:03:46,459 --> 01:03:42,579

like basically fifteen percent to the

1471

01:03:48,599 --> 01:03:46,469

amount that the height of something

1472

01:03:52,079 --> 01:03:48,609

because things get raised up by

1473

01:03:53,069 --> 01:03:52,089

refraction make it visually raised let's

1474

01:03:54,839 --> 01:03:53,079

say 20 percent

1475

01:03:56,459 --> 01:03:54,849

okay that's that that changes a lot

1476

01:03:58,859 --> 01:03:56,469

sometimes it could be negative fifteen

1477

01:04:02,370 --> 01:03:58,869

percent or sometimes it could be forty

1478

01:04:04,140 --> 01:04:02,380

percent so you see this huge range of

1479

01:04:06,269 --> 01:04:04,150

things that are very very close to the

1480

01:04:09,209 --> 01:04:06,279

water then it makes it very very

1481

01:04:13,319 --> 01:04:09,219

difficult to do actually get anywhere

1482

01:04:15,420 --> 01:04:13,329

with it but you'll admit a laser is

1483

01:04:19,349 --> 01:04:15,430

level right I mean even though it might

1484

01:04:21,900 --> 01:04:19,359

not know I unfortunately this position

1485

01:04:23,819 --> 01:04:21,910

if it's positioned correctly yeah no I

1486

01:04:26,339 --> 01:04:23,829

got a few position if you leave it there

1487

01:04:30,689 --> 01:04:26,349

if they're actually tilted down as I'm a

1488

01:04:31,800 --> 01:04:30,699

some rock so that it but anyways in

1489

01:04:34,710 --> 01:04:31,810

theory I think either

1490

01:04:37,710 --> 01:04:34,720

the thing it makes sense but in reality

1491

01:04:40,410 --> 01:04:37,720

the practical problems with lasers are

1492

01:04:41,940 --> 01:04:40,420

they get bent by the atmosphere and if

1493

01:04:44,070 --> 01:04:41,950

you're doing it over water which is the

1494

01:04:47,610 --> 01:04:44,080

only way to get like accurate readings

1495

01:04:50,100 --> 01:04:47,620

like relative to some altitude you're

1496

01:04:51,600 --> 01:04:50,110

gonna get the laser going up and down

1497

01:04:54,840 --> 01:04:51,610

because of the temperature difference so

1498

01:04:57,030 --> 01:04:54,850

so like I said you shouldn't really you

1499

01:04:58,380 --> 01:04:57,040

should do laser test if you want but

1500

01:05:00,210 --> 01:04:58,390

you're not gonna get anything good out

1501

01:05:02,940 --> 01:05:00,220

of them you're much better off using

1502

01:05:07,400 --> 01:05:02,950

mountains because they demonstrate the

1503

01:05:10,610 --> 01:05:07,410

effect a lot more clearly okay so now

1504

01:05:13,830 --> 01:05:10,620

let's assume but this just assume for

1505

01:05:16,410 --> 01:05:13,840

argument's sake that ass laser is is

1506

01:05:19,590 --> 01:05:16,420

level okay and it's hitting the boat now

1507

01:05:21,330 --> 01:05:19,600

it's at the boat it's but it's six feet

1508

01:05:24,960 --> 01:05:21,340

above the surface of the water and

1509

01:05:27,830 --> 01:05:24,970

shorts so that implies that it's surface

1510

01:05:30,420 --> 01:05:27,840

of the earth is curving down right yeah

1511

01:05:34,680 --> 01:05:30,430

okay so now what with the measurements

1512

01:05:36,630 --> 01:05:34,690

be from the boat to the shore do be the

1513

01:05:40,830 --> 01:05:36,640

same thing if you could do such a sense

1514

01:05:43,170 --> 01:05:40,840

get the level level okay on the boat so

1515

01:05:44,580 --> 01:05:43,180

the same thing so that shows that from

1516

01:05:46,740 --> 01:05:44,590

the point of view of the people on the

1517

01:05:49,050 --> 01:05:46,750

boat earth kerbin in its opposite

1518

01:05:51,510 --> 01:05:49,060

direction well you could you could argue

1519

01:05:53,880 --> 01:05:51,520

that's about anything like if your honor

1520

01:05:55,110 --> 01:05:53,890

if you're on a ball if he goes this way

1521

01:05:56,490 --> 01:05:55,120

then if you're over here then it goes

1522

01:05:59,490 --> 01:05:56,500

this way it's the opposite direction

1523

01:06:02,670 --> 01:05:59,500

it's the same thing right you're right

1524

01:06:03,840 --> 01:06:02,680

because it feels flat no matter which

1525

01:06:07,920 --> 01:06:03,850

way you're going it doesn't make any

1526

01:06:11,100 --> 01:06:07,930

difference what you just said on a boat

1527

01:06:13,920 --> 01:06:11,110

and and water it's like seesaw level so

1528

01:06:16,140 --> 01:06:13,930

you have the level level this is gonna

1529

01:06:19,620 --> 01:06:16,150

be a misconception people have is that

1530

01:06:23,670 --> 01:06:19,630

level doesn't doesn't mean completely

1531

01:06:25,260 --> 01:06:23,680

flat level means relative to the surface

1532

01:06:30,620 --> 01:06:25,270

of the water the surface of the ocean

1533

01:06:33,330 --> 01:06:30,630

right right but so sea level is a curve

1534

01:06:36,030 --> 01:06:33,340

it's not a flat surface sea level is a

1535

01:06:38,040 --> 01:06:36,040

curve which I know it sounds bad and

1536

01:06:39,900 --> 01:06:38,050

people are like Oh level can't be a

1537

01:06:43,850 --> 01:06:39,910

curve it's level level means flat very

1538

01:06:45,720 --> 01:06:43,860

doesn't like level in surveying means

1539

01:06:49,620 --> 01:06:45,730

basically sea level

1540

01:06:52,680 --> 01:06:49,630

the the surface of the ocean bro because

1541

01:06:54,300 --> 01:06:52,690

everything is level when you're on the

1542

01:06:56,130 --> 01:06:54,310

ocean it doesn't matter which way you go

1543

01:06:58,350 --> 01:06:56,140

there's no open there's no down you're

1544

01:06:59,700 --> 01:06:58,360

just going along the level and it feels

1545

01:07:02,610 --> 01:06:59,710

like you're going along a flat surface

1546

01:07:04,830 --> 01:07:02,620

you kind of think like say you're in you

1547

01:07:06,950 --> 01:07:04,840

know you've seen like space films say

1548

01:07:10,280 --> 01:07:06,960

you've got like a really small asteroid

1549

01:07:12,990 --> 01:07:10,290

like that's perfectly spherical and

1550

01:07:14,640 --> 01:07:13,000

gravity is pulling you in or some so

1551  
01:07:17,010 --> 01:07:14,650  
magical force is pulling you in towards

1552  
01:07:18,840 --> 01:07:17,020  
the middle of this this this this ball

1553  
01:07:21,390 --> 01:07:18,850  
and you're walking on the surface of

1554  
01:07:22,770 --> 01:07:21,400  
this ball it will feel like from where

1555  
01:07:25,380 --> 01:07:22,780  
you're standing you're on the top of a

1556  
01:07:26,700 --> 01:07:25,390  
ball and everything looks like it's down

1557  
01:07:28,440 --> 01:07:26,710  
but when you walk he doesn't make any

1558  
01:07:30,360 --> 01:07:28,450  
difference which way you walk when you

1559  
01:07:31,470 --> 01:07:30,370  
get to a new position you still feel

1560  
01:07:33,090 --> 01:07:31,480  
like you're on the top of the ball and

1561  
01:07:35,190 --> 01:07:33,100  
everywhere you walk you just walk in

1562  
01:07:37,560 --> 01:07:35,200  
that direction it doesn't there's no up

1563  
01:07:40,170 --> 01:07:37,570

or down on the surface of the earth on

1564

01:07:41,340 --> 01:07:40,180

the surface of the ocean so you can't

1565

01:07:42,930 --> 01:07:41,350

say you're going one that way you're

1566

01:07:44,040 --> 01:07:42,940

going down over the server so the next

1567

01:07:46,530 --> 01:07:44,050

way you're coming back up

1568

01:07:49,560 --> 01:07:46,540

everything looks down from every

1569

01:07:51,510 --> 01:07:49,570

position on a ball that's what I'm

1570

01:07:53,670 --> 01:07:51,520

saying if everything looks down and we

1571

01:07:55,470 --> 01:07:53,680

just determine these measurements we're

1572

01:07:57,270 --> 01:07:55,480

at the boat it's six feet above the

1573

01:07:58,980 --> 01:07:57,280

surface of the water at shore it's only

1574

01:08:01,140 --> 01:07:58,990

three feet that's not down there not

1575

01:08:03,620 --> 01:08:01,150

looking down it is it but then you've

1576

01:08:05,580 --> 01:08:03,630

got your your star position is different

1577

01:08:09,150 --> 01:08:05,590

where the end of the line is where the

1578

01:08:12,480 --> 01:08:09,160

laser hits the boat the water that line

1579

01:08:14,520 --> 01:08:12,490

is looking down so if you if you did to

1580

01:08:15,900 --> 01:08:14,530

two things that are symmetrical you get

1581

01:08:17,640 --> 01:08:15,910

two lasers what are the boats and what

1582

01:08:19,800 --> 01:08:17,650

on the shore for them both at three feet

1583

01:08:21,810 --> 01:08:19,810

and you point one of the boat and one

1584

01:08:27,660 --> 01:08:21,820

back of the shore and they're both level

1585

01:08:29,070 --> 01:08:27,670

relative that's what well because you

1586

01:08:34,680 --> 01:08:29,080

can't put a laser on a moving boat

1587

01:08:36,810 --> 01:08:34,690

here's the reason they didn't do it well

1588

01:08:40,230 --> 01:08:36,820

I mean you can do it over you can do

1589

01:08:42,180 --> 01:08:40,240

over land you could do it over loan but

1590

01:08:43,500 --> 01:08:42,190

again like you know you it wouldn't tell

1591

01:08:45,720 --> 01:08:43,510

you very much because the refraction but

1592

01:08:47,940 --> 01:08:45,730

you can do these scope this is a

1593

01:08:49,290 --> 01:08:47,950

reciprocal things what they call and

1594

01:08:51,720 --> 01:08:49,300

there's something you could look up

1595

01:08:54,450 --> 01:08:51,730

later there's a thing called reciprocal

1596

01:08:57,420 --> 01:08:54,460

leveling which does essentially what

1597

01:08:58,980 --> 01:08:57,430

you're talking about here leveling is

1598

01:09:01,200 --> 01:08:58,990

making sure everything is

1599

01:09:03,410 --> 01:09:01,210

all meaning it's the same you know if

1600

01:09:05,910 --> 01:09:03,420

you're on a road there's 100 miles long

1601

01:09:09,180 --> 01:09:05,920

it needs to be level which isn't flat

1602

01:09:10,380 --> 01:09:09,190

it's slightly curved but they they take

1603

01:09:12,180 --> 01:09:10,390

all these measurements to make the road

1604

01:09:14,640 --> 01:09:12,190

be level so there's no there's no steep

1605

01:09:17,220 --> 01:09:14,650

ups or downs in the road and the user

1606

01:09:19,200 --> 01:09:17,230

thing called reciprocal leveling where

1607

01:09:21,210 --> 01:09:19,210

they they take a site in one direction

1608

01:09:24,030 --> 01:09:21,220

and then they take a site in the other

1609

01:09:26,550 --> 01:09:24,040

direction and then that actually cancels

1610

01:09:28,680 --> 01:09:26,560

out the curvature of the earth because

1611

01:09:30,450 --> 01:09:28,690

they can use that plus that not sure if

1612

01:09:32,100 --> 01:09:30,460

the exactly the math hops off my head

1613

01:09:33,450 --> 01:09:32,110

but they do actually do what you're

1614

01:09:35,760 --> 01:09:33,460

talking about they're looking in both

1615

01:09:37,890 --> 01:09:35,770

directions and then they can find where

1616

01:09:39,720 --> 01:09:37,900

the actual level is based on that it

1617

01:09:43,080 --> 01:09:39,730

corrects automatically for the curvature

1618

01:09:44,640 --> 01:09:43,090

of the earth and for refraction so we're

1619

01:09:45,960 --> 01:09:44,650

kind of getting it's a very obscure

1620

01:09:49,380 --> 01:09:45,970

details here and we have been talking

1621

01:09:51,000 --> 01:09:49,390

for over an hour so does anything that

1622

01:09:53,460 --> 01:09:51,010

you'd really want to talk about that so

1623

01:09:55,560 --> 01:09:53,470

we haven't really covered yet yeah I

1624

01:09:57,510 --> 01:09:55,570

have this one I have one video on my

1625

01:10:00,450 --> 01:09:57,520

youtube channel and I took it right

1626  
01:10:03,750 --> 01:10:00,460  
outside of my office here hmm and it's

1627  
01:10:06,570 --> 01:10:03,760  
this it looks like a rocket took off and

1628  
01:10:08,940 --> 01:10:06,580  
there's no way that's contrails and the

1629  
01:10:11,340 --> 01:10:08,950  
aint fact what's great about this video

1630  
01:10:13,740 --> 01:10:11,350  
is that you can see another plane just

1631  
01:10:17,670 --> 01:10:13,750  
above that just the tiniest tiniest

1632  
01:10:18,870 --> 01:10:17,680  
trick so real Ajith emit one and there's

1633  
01:10:20,730 --> 01:10:18,880  
no reason I don't think they're

1634  
01:10:23,220 --> 01:10:20,740  
poisoning people I don't think you know

1635  
01:10:26,310 --> 01:10:23,230  
barium aluminium all this stuff because

1636  
01:10:28,830 --> 01:10:26,320  
for that to be true then the elite would

1637  
01:10:32,430 --> 01:10:28,840  
be affected as well so I think it's more

1638  
01:10:35,220 --> 01:10:32,440

about geoengineering of the weather and

1639

01:10:37,140 --> 01:10:35,230

I've seen some days here where you just

1640

01:10:39,600 --> 01:10:37,150

you look up in the skies you see all the

1641

01:10:42,000 --> 01:10:39,610

contrails and then you just see these

1642

01:10:44,520 --> 01:10:42,010

weird clouds one and then when you don't

1643

01:10:46,820 --> 01:10:44,530

see any contrails you won't see any you

1644

01:10:49,410 --> 01:10:46,830

know it's just it's just something

1645

01:10:51,420 --> 01:10:49,420

unless you really you know I think most

1646

01:10:54,630 --> 01:10:51,430

people don't bother to look up at the

1647

01:10:56,840 --> 01:10:54,640

sky and and notice these things so the

1648

01:10:59,070 --> 01:10:56,850

one you said that looked like a rocket

1649

01:11:00,900 --> 01:10:59,080

yeah you said you saw some that look

1650

01:11:02,640 --> 01:11:00,910

like this yeah you so want to look like

1651

01:11:07,940 --> 01:11:02,650

a rocket it was going straight up or

1652

01:11:10,350 --> 01:11:07,950

straight down okay but like a tracer

1653

01:11:12,270 --> 01:11:10,360

elevation started at a very low

1654

01:11:13,879 --> 01:11:12,280

elevation like very so close to the

1655

01:11:16,979 --> 01:11:13,889

horizon

1656

01:11:19,709 --> 01:11:16,989

well no it was just I mean it was really

1657

01:11:22,410 --> 01:11:19,719

literally right out I'll DM it to you

1658

01:11:24,029 --> 01:11:22,420

right now let's see but you know like

1659

01:11:25,729 --> 01:11:24,039

consider that what it might have been

1660

01:11:29,819 --> 01:11:25,739

it's just a plane that was flying

1661

01:11:32,729 --> 01:11:29,829

directly to watch you so if a plane is

1662

01:11:35,209 --> 01:11:32,739

flying towards you the trail is gonna

1663

01:11:38,189 --> 01:11:35,219

look like it's going straight up just

1664

01:11:40,620 --> 01:11:38,199

like it wouldn't be flying towards me

1665

01:11:43,500 --> 01:11:40,630

because it would be well it's six miles

1666

01:11:44,759 --> 01:11:43,510

above you your planes are about six

1667

01:11:46,379 --> 01:11:44,769

miles and one to six or seven miles

1668

01:11:49,049 --> 01:11:46,389

above you so you're looking up at

1669

01:11:51,120 --> 01:11:49,059

something there's like six miles up and

1670

01:11:54,029 --> 01:11:51,130

maybe say twenty or thirty miles away

1671

01:11:56,549 --> 01:11:54,039

and it's flying you know a path that

1672

01:11:57,629 --> 01:11:56,559

would take it roughly over your head you

1673

01:12:00,859 --> 01:11:57,639

got to think about what that would look

1674

01:12:03,479 --> 01:12:00,869

like and a like like if you look at sir

1675

01:12:06,270 --> 01:12:03,489

well it's good example is the the

1676

01:12:07,640 --> 01:12:06,280

ceiling tiles above you the ceiling

1677

01:12:10,080 --> 01:12:07,650

tiles that go left to right

1678

01:12:11,370 --> 01:12:10,090

they look like they're horizontal but in

1679

01:12:13,709 --> 01:12:11,380

the image that I'm looking at you right

1680

01:12:14,910 --> 01:12:13,719

now I see a ceiling tile and it looks

1681

01:12:18,029 --> 01:12:14,920

like it's coming out of the top of your

1682

01:12:19,529 --> 01:12:18,039

head and going straight up right yeah

1683

01:12:21,330 --> 01:12:19,539

and that's essentially what you're

1684

01:12:22,979 --> 01:12:21,340

seeing with is these contrails you said

1685

01:12:24,810 --> 01:12:22,989

they're a lot further away so you get

1686

01:12:27,029 --> 01:12:24,820

even less kind of perspective Q yeah

1687

01:12:28,979 --> 01:12:27,039

you'll have to see this one this I will

1688

01:12:32,399 --> 01:12:28,989

I will certainly I will look at it and

1689

01:12:34,379 --> 01:12:32,409

we're totally it's clearly at a lower

1690

01:12:37,259 --> 01:12:34,389

elevation because you can in the same

1691

01:12:39,390 --> 01:12:37,269

video you can see another much higher

1692

01:12:42,239 --> 01:12:39,400

elevation well now maybe I'm wrong but

1693

01:12:44,669 --> 01:12:42,249

isn't be higher colder and that's it is

1694

01:12:46,169 --> 01:12:44,679

it is burst I think people often make

1695

01:12:48,899 --> 01:12:46,179

the mistake of thinking if something is

1696

01:12:52,279 --> 01:12:48,909

closer to the horizon that means that it

1697

01:12:56,989 --> 01:12:54,600

it's higher but if you look at you know

1698

01:13:00,000 --> 01:12:56,999

what I'm pointing at right now I've got

1699

01:13:02,370 --> 01:13:00,010

this pen can you see that pen in the

1700

01:13:06,449 --> 01:13:02,380

video and behind it I've got a map of

1701

01:13:07,830 --> 01:13:06,459

the water map of the world and in the

1702

01:13:09,359 --> 01:13:07,840

image you're looking at now I'm holding

1703

01:13:10,500 --> 01:13:09,369

the pen up and it's a lot closer to the

1704

01:13:13,080 --> 01:13:10,510

camera than the map of the world and the

1705

01:13:14,640 --> 01:13:13,090

pen is above the map of the world so you

1706

01:13:18,810 --> 01:13:14,650

would think that that map of the world

1707

01:13:22,390 --> 01:13:18,820

is actually lower than this pen but it

1708

01:13:28,170 --> 01:13:22,400

isn't because if I go across the room

1709

01:13:30,280 --> 01:13:28,180

all right he's actually here yes

1710

01:13:31,570 --> 01:13:30,290

perspective makes it look like it's

1711

01:13:33,850 --> 01:13:31,580

higher when it's actually a lot lower

1712

01:13:35,170 --> 01:13:33,860

and if you get right here it looks like

1713

01:13:38,230 --> 01:13:35,180

it's like higher than everything in the

1714

01:13:39,580 --> 01:13:38,240

room when it's actually lower so just as

1715

01:13:43,630 --> 01:13:39,590

close to the horizon doesn't mean it's

1716

01:13:45,370 --> 01:13:43,640

actually lower right I get that but but

1717

01:13:48,550 --> 01:13:45,380

you have the indicator of the trails

1718

01:13:50,500 --> 01:13:48,560

that whatever contrail yeah I guess I'll

1719

01:13:55,930 --> 01:13:50,510

have to look at your other leg of video

1720

01:13:58,510 --> 01:13:55,940

and figure out what's going on all right

1721

01:14:01,090 --> 01:13:58,520

yes I don't I don't believe in you know

1722

01:14:02,460 --> 01:14:01,100

people get poisoning you think it's new

1723

01:14:05,290 --> 01:14:02,470

engineering now it's a common belief

1724

01:14:07,420 --> 01:14:05,300

that people have I I don't think I think

1725

01:14:09,040 --> 01:14:07,430

it's contrails I don't think the

1726

01:14:12,550 --> 01:14:09,050

geoengineering is happening Eisley talk

1727

01:14:15,130 --> 01:14:12,560

to David Keith you know he's a famous

1728

01:14:16,840 --> 01:14:15,140

geoengineering researcher and I had him

1729

01:14:19,180 --> 01:14:16,850

on my podcast like a couple of months

1730

01:14:21,930 --> 01:14:19,190

ago and we discussed it and he basically

1731

01:14:23,890 --> 01:14:21,940

says that he doesn't know of any any

1732

01:14:25,630 --> 01:14:23,900

geoengineering research that has

1733

01:14:27,820 --> 01:14:25,640

proceeded even to the practical

1734

01:14:30,700 --> 01:14:27,830

experiment stage they just don't know

1735

01:14:33,010 --> 01:14:30,710

how to do it and they don't worry

1736

01:14:34,840 --> 01:14:33,020

there's uh I mean it's Disney but

1737

01:14:36,930 --> 01:14:34,850

there's old Disney documentaries you

1738

01:14:39,910 --> 01:14:36,940

know from 60s where they talk about

1739

01:14:43,930 --> 01:14:39,920

geoengineering the weather sure yeah I

1740

01:14:45,880 --> 01:14:43,940

mean they talk about they talk about

1741

01:14:47,890 --> 01:14:45,890

playing to other galaxies as well we're

1742

01:14:49,060 --> 01:14:47,900

not doing that either this is probably

1743

01:14:51,010 --> 01:14:49,070

something that will happen in the future

1744

01:14:52,980 --> 01:14:51,020

there will the world be geoengineering

1745

01:14:55,810 --> 01:14:52,990

at some point in the next you know

1746

01:14:59,530 --> 01:14:55,820

hundreds of years if society manages to

1747

01:15:01,840 --> 01:14:59,540

survive but right now I've talked to the

1748

01:15:03,610 --> 01:15:01,850

top geoengineering researcher and he's

1749

01:15:06,630 --> 01:15:03,620

and he's not aware because he could be

1750

01:15:13,390 --> 01:15:06,640

lying he could be influenced by the

1751

01:15:16,030 --> 01:15:13,400

whoever the translator that's so that's

1752

01:15:18,550 --> 01:15:16,040

why I ask you something like what what

1753

01:15:22,600 --> 01:15:18,560

do you think of people like me who

1754

01:15:25,960 --> 01:15:22,610

debunk conspiracy theories

1755

01:15:29,380 --> 01:15:25,970

well you specifically you know you're a

1756

01:15:30,970 --> 01:15:29,390

good guy so if you didn't have people

1757

01:15:34,450 --> 01:15:30,980

like us you wouldn't have a livelihood

1758

01:15:35,490 --> 01:15:34,460

right now being programmers you got

1759

01:15:37,959 --> 01:15:35,500

overtime

1760

01:15:39,970 --> 01:15:37,969

so you know I think there's a balance

1761

01:15:41,859 --> 01:15:39,980

between people who you know you got it

1762

01:15:44,350 --> 01:15:41,869

you can't insult them too much because

1763

01:15:47,979 --> 01:15:44,360

without you know can't bite the hand

1764

01:15:52,120 --> 01:15:47,989

that feeds you so to speak nobody are

1765

01:15:53,439 --> 01:15:52,130

you feeding me anyway yeah I see we're

1766

01:15:55,870 --> 01:15:53,449

saying like it sir

1767

01:15:57,760 --> 01:15:55,880

but like do you think the water is a lot

1768

01:15:59,740 --> 01:15:57,770

of people like the bait they that's all

1769

01:16:01,780 --> 01:15:59,750

they say I'm you're an idiot you know as

1770

01:16:03,879 --> 01:16:01,790

they're spelling words wrong yeah no I

1771

01:16:07,689 --> 01:16:03,889

saw you like on Twitter there was some

1772

01:16:09,040 --> 01:16:07,699

guy who is having a problem with you you

1773

01:16:12,790 --> 01:16:09,050

know cuz you and I like we completely

1774

01:16:15,310 --> 01:16:12,800

disagree um yeah a vast number of topics

1775

01:16:16,810 --> 01:16:15,320

and I'm sure that if we got into more

1776

01:16:18,820 --> 01:16:16,820

details of things we will probably

1777

01:16:19,720 --> 01:16:18,830

disagree on on other things I'm sure we

1778

01:16:26,250 --> 01:16:19,730

disagree on

1779

01:16:30,700 --> 01:16:28,540

you know we I think I think it's still

1780

01:16:32,740 --> 01:16:30,710

valuable to have a conversation with

1781

01:16:34,540 --> 01:16:32,750

people even if you completely disagree

1782

01:16:36,640 --> 01:16:34,550

with them he doesn't I'm not trying to

1783

01:16:39,250 --> 01:16:36,650

validate your positions because I think

1784

01:16:42,399 --> 01:16:39,260

I think they're wrong but I think it's

1785

01:16:44,439 --> 01:16:42,409

important to understand why you believe

1786

01:16:47,770 --> 01:16:44,449

what you do and for me to kind of

1787

01:16:50,979 --> 01:16:47,780

explain to you why I do what I do and

1788

01:16:54,129 --> 01:16:50,989

you know try to get past this

1789

01:16:55,390 --> 01:16:54,139

name-calling thing and try to have some

1790

01:16:58,270 --> 01:16:55,400

kind of resolution rather than just

1791

01:17:00,490 --> 01:16:58,280

fighting well you know that's the other

1792

01:17:02,439 --> 01:17:00,500

thing I see about society is that it's

1793

01:17:05,260 --> 01:17:02,449

all faced that you know it's all

1794

01:17:07,689 --> 01:17:05,270

engineered to be competition might again

1795

01:17:11,350 --> 01:17:07,699

I mean what does competition do other

1796

01:17:13,840 --> 01:17:11,360

than breed contempt right I mean they

1797

01:17:16,419 --> 01:17:13,850

let me need to that first Republicans

1798

01:17:20,140 --> 01:17:16,429

you know in Miami that's where we should

1799

01:17:20,979 --> 01:17:20,150

be fighting against this division and

1800

01:17:23,439 --> 01:17:20,989

Society

1801  
01:17:26,620 --> 01:17:23,449  
yeah obviously very kind of problem now

1802  
01:17:30,870 --> 01:17:26,630  
with the with politics right good a

1803  
01:17:35,080 --> 01:17:30,880  
people I mean open Trump's mad IMDb

1804  
01:17:36,729 --> 01:17:35,090  
he's spending hundreds of TV shows and

1805  
01:17:39,550 --> 01:17:36,739  
I'm not talking about The Apprentice you

1806  
01:17:41,859 --> 01:17:39,560  
know right hobby Lister how does a real

1807  
01:17:43,750 --> 01:17:41,869  
estate developer all of a sudden become

1808  
01:17:46,510 --> 01:17:43,760  
this celebrity and you know it's just

1809  
01:17:48,020 --> 01:17:46,520  
any look as the program he was like

1810  
01:17:50,300 --> 01:17:48,030  
groomed

1811  
01:17:51,770 --> 01:17:50,310  
oh yeah thought yeah top there's an

1812  
01:17:54,530 --> 01:17:51,780  
article I saw and I don't want to get

1813  
01:17:57,410 --> 01:17:54,540

too much into this because not I think

1814

01:17:58,910 --> 01:17:57,420

people are special II conspiracy

1815

01:18:02,360 --> 01:17:58,920

theorists quote-unquote are quick to

1816

01:18:05,870 --> 01:18:02,370

blame the Jews and I think they're the

1817

01:18:07,820 --> 01:18:05,880

base of this I think that Jesuits okay

1818

01:18:10,100 --> 01:18:07,830

they like money and they put them in

1819

01:18:11,600 --> 01:18:10,110

these power where they look like you

1820

01:18:14,990 --> 01:18:11,610

know the other ones at fault so the real

1821

01:18:18,350 --> 01:18:15,000

culprits are you say the Jews of the

1822

01:18:22,790 --> 01:18:18,360

paksas set up by the Jesuits well in

1823

01:18:25,670 --> 01:18:22,800

patsies you know yeah he was eight years

1824

01:18:27,530 --> 01:18:25,680

an article by Jewish insider eighteen of

1825

01:18:29,150 --> 01:18:27,540

the top 20 Manhattan real estate

1826

01:18:32,120 --> 01:18:29,160

developers are Jewish

1827

01:18:35,960 --> 01:18:32,130

now there's it aren't Trump some other

1828

01:18:37,910 --> 01:18:35,970

guy Trump's number four in wealth you

1829

01:18:40,340 --> 01:18:37,920

know hot as soon as six dollars Hawk

1830

01:18:42,320 --> 01:18:40,350

steak and wine that makes no sense to me

1831

01:18:42,620 --> 01:18:42,330

so I don't believe he has that kind of

1832

01:18:47,780 --> 01:18:42,630

wealth

1833

01:18:51,140 --> 01:18:47,790

Regan with but so so he's in he's put in

1834

01:18:52,730 --> 01:18:51,150

here you have that lockdown doesn't

1835

01:18:54,350 --> 01:18:52,740

matter what do it could be Christians it

1836

01:18:56,600 --> 01:18:54,360

could be you know it could be any race

1837

01:19:00,200 --> 01:18:56,610

there's gonna be an inherent bias when

1838

01:19:02,240 --> 01:19:00,210

you have that much control of it well

1839

01:19:04,670 --> 01:19:02,250

that's a very interesting perspective

1840

01:19:07,070 --> 01:19:04,680

and I think I'm gonna I'm gonna end it

1841

01:19:08,570 --> 01:19:07,080

there because it's you know we could we

1842

01:19:09,770 --> 01:19:08,580

keep on talking for hours because

1843

01:19:12,410 --> 01:19:09,780

there's so many different topics we

1844

01:19:14,540 --> 01:19:12,420

could talk about yeah may do you know

1845

01:19:16,070 --> 01:19:14,550

and like I said I do disagree with what

1846

01:19:18,530 --> 01:19:16,080

you're saying but you know you're still

1847

01:19:19,670 --> 01:19:18,540

it's still a person and I think it's

1848

01:19:22,340 --> 01:19:19,680

good to be able to make a connection

1849

01:19:23,540 --> 01:19:22,350

with people because you know you can

1850

01:19:25,640 --> 01:19:23,550

always find some common ground with

1851

01:19:28,010 --> 01:19:25,650

people so yeah thank you thank you very

1852

01:19:31,040 --> 01:19:28,020

much for coming on you are inviting me

1853

01:19:32,590 --> 01:19:31,050

to come on your show I appreciate it
