Johnny Orbital

Former

Flat Earther

1
00:00:06,950 --> 00:00:04,430
welcome to tales from the rabbit hole

2
00:00:10,940 --> 00:00:06,960
I'm your host Nick West my guest today

3
00:00:13,280 --> 00:00:10,950
is Johnny and Johnny I just met very not

4
00:00:15,919 --> 00:00:13,290
very long ago on Facebook and one of the

5
00:00:17,990 --> 00:00:15,929
flat earth groups and he actually a very

6
00:00:20,689 --> 00:00:18,000
interesting post about here how he used

7
00:00:22,849 --> 00:00:20,699
to be a flat earth believer and now he

8
00:00:25,370 --> 00:00:22,859
isn't and now he's spending some time

9
00:00:26,960 --> 00:00:25,380
like trying to help people who were

10
00:00:30,679 --> 00:00:26,970
still kind of stuck earthy stuck in the

11
00:00:34,450 --> 00:00:30,689
flat earth way of thinking so Johnny

12
00:00:37,100 --> 00:00:34,460
welcome to tales from the rabbit hole

13
00:00:39,080 --> 00:00:37,110

that's great great to have you here and

14

00:00:40,819 --> 00:00:39,090

you're in the UK so probably get

15

00:00:42,860 --> 00:00:40,829

beginning a little little delay between

16

00:00:47,619 --> 00:00:42,870

our questions just so people don't think

17

00:00:50,630 --> 00:00:47,629

there's anything wrong but yeah but so

18

00:00:53,240 --> 00:00:50,640

let's just kind of start with like what

19

00:00:56,420 --> 00:00:53,250

you talked about in your your post on

20

00:00:59,029 --> 00:00:56,430

Facebook how how you actually got

21

00:01:03,529 --> 00:00:59,039

interface into flat earth and cast aside

22

00:01:06,289 --> 00:01:03,539

for you with like 9/11 well in a sense

23

00:01:08,330 --> 00:01:06,299

yeah I mean I saw you speaking to

24

00:01:10,700 --> 00:01:08,340

another flight affair and you mentioned

25

00:01:13,130 --> 00:01:10,710

you kind of brushed over the movie Z

26
00:01:15,649 --> 00:01:13,140
ghost the guy at the scene yeah kind of

27
00:01:18,140 --> 00:01:15,659
wait wait that's what kind of Drew me

28
00:01:21,200 --> 00:01:18,150
into a lot of a lot of conspiracy that

29
00:01:23,090 --> 00:01:21,210
movie alone and I just got got onto a

30
00:01:26,539 --> 00:01:23,100
boyfriend so obviously the 9/11 stuff in

31
00:01:29,480 --> 00:01:26,549
there it see when he's pot to you in a

32
00:01:31,190 --> 00:01:29,490
certain way you believe it so you follow

33
00:01:33,740 --> 00:01:31,200
that train of thought and you search

34
00:01:35,450 --> 00:01:33,750
those certain things where is when you

35
00:01:37,730 --> 00:01:35,460
when you look at the bigger picture of

36
00:01:41,840 --> 00:01:37,740
anything like that things start clear

37
00:01:44,560 --> 00:01:41,850
not now we're 9/11 the pretty much the

38
00:01:48,350 --> 00:01:44,570

only thing that grips to me now is the

39

00:01:49,760 --> 00:01:48,360

the BBC News where the lady said sour

40

00:01:53,450 --> 00:01:49,770

settings just following but it was

41

00:01:56,480 --> 00:01:53,460

behind during the behind the window the

42

00:01:59,630 --> 00:01:56,490

rest of its kind of explainable and has

43

00:02:01,429 --> 00:01:59,640

been explained and he had his hundreds

44

00:02:03,230 --> 00:02:01,439

of videos talking about how it's not

45

00:02:05,569 --> 00:02:03,240

right and hundreds of videos so you know

46

00:02:06,770 --> 00:02:05,579

Israel so that I just kind of give it a

47

00:02:10,570 --> 00:02:06,780

bit of a buy in a minute it's not

48

00:02:13,420 --> 00:02:10,580

something that kind of draws me in

49

00:02:16,010 --> 00:02:13,430

but again obviously you've done a lot on

50

00:02:17,690 --> 00:02:16,020

911 so I'm sure you know about that

51
00:02:20,540 --> 00:02:17,700
Table seven thing it's not something

52
00:02:23,510 --> 00:02:20,550
I've ever chased down and tried to find

53
00:02:25,100 --> 00:02:23,520
the proper transfer because even today

54
00:02:27,440 --> 00:02:25,110
it's done a lot of people died it's not

55
00:02:29,750 --> 00:02:27,450
really I feel a bit bad kind of saying

56
00:02:31,970 --> 00:02:29,760
there's something going on so I kind of

57
00:02:36,050 --> 00:02:31,980
drew back from 9/11 it's not something

58
00:02:38,870 --> 00:02:36,060
that can dig laughter if you mean but I

59
00:02:40,850 --> 00:02:38,880
guess when you when you go into the say

60
00:02:43,340 --> 00:02:40,860
stuff like the flat earth stuff you

61
00:02:48,500 --> 00:02:43,350
would have been a fairly had hardcore

62
00:02:50,360 --> 00:02:48,510
9/11 believer at the time and to an

63
00:02:52,360 --> 00:02:50,370

extent it's like you had all the stuff

64

00:02:57,140 --> 00:02:52,370

about this is it Theo I

65

00:02:58,160 --> 00:02:57,150

Theodore my oh my yeah things like that

66

00:03:00,920 --> 00:02:58,170

you see a lot of him

67

00:03:02,390 --> 00:03:00,930

people say that that's evidence and it

68

00:03:04,430 --> 00:03:02,400

was something I wouldn't be able to

69

00:03:07,100 --> 00:03:04,440

understand for a start so I wouldn't be

70

00:03:09,170 --> 00:03:07,110

able to know that I mean not in a

71

00:03:13,640 --> 00:03:09,180

position to be able to have a decision

72

00:03:16,729 --> 00:03:13,650

either way so again it denial anything

73

00:03:19,759 --> 00:03:16,739

yeah I felt like the commission that was

74

00:03:22,640 --> 00:03:19,769

released does have a few holes in there

75

00:03:26,810 --> 00:03:22,650

but again only going off pretty much the

76

00:03:31,280 --> 00:03:26,820

ziggo smoother and sort of sold Zika is

77

00:03:34,430 --> 00:03:31,290

true me in senang a legend so how do you

78

00:03:38,440 --> 00:03:34,440

get from there and to suspect in the

79

00:03:40,250 --> 00:03:38,450

earth might be flat well it was

80

00:03:42,410 --> 00:03:40,260

following a load of different ones I

81

00:03:44,570 --> 00:03:42,420

ended up looking into Nibiru you know

82

00:03:49,729 --> 00:03:44,580

the planet sure you know that one and

83

00:03:51,320 --> 00:03:49,739

but it was Antarctica he was I just felt

84

00:03:52,789 --> 00:03:51,330

like there was some mysteries regarding

85

00:03:55,820 --> 00:03:52,799

on SATs because there's some things that

86

00:03:57,590 --> 00:03:55,830

may have been mysterious about it I

87

00:04:00,110 --> 00:03:57,600

found out one of the ice shelves there

88

00:04:02,539 --> 00:04:00,120

was called the Rockefeller Plateau and

89

00:04:05,030 --> 00:04:02,549

obviously the name Rockefeller sends

90

00:04:07,160 --> 00:04:05,040

alarm bells everywhere so I started

91

00:04:09,020 --> 00:04:07,170

looking into an Ithaca now it wasn't

92

00:04:10,640 --> 00:04:09,030

very long after looking in Sunset it's

93

00:04:11,990 --> 00:04:10,650

good that you hear a lot of the flatter

94

00:04:14,449 --> 00:04:12,000

stuff because obviously that's their

95

00:04:18,229 --> 00:04:14,459

their ice wall keeps all the watering

96

00:04:20,020 --> 00:04:18,239

yeah so that's what drew me to supply so

97

00:04:24,850 --> 00:04:20,030

I started looking into that

98

00:04:26,170 --> 00:04:24,860

now the thing with the flyer videos is

99

00:04:28,510 --> 00:04:26,180

for somebody who's not very

100

00:04:30,670 --> 00:04:28,520

scientifically literate they do sound

101
00:04:32,770 --> 00:04:30,680
better convince him with what they the

102
00:04:34,240 --> 00:04:32,780
way the poor cross that's what drew me

103
00:04:36,520 --> 00:04:34,250
in so all these proofs that they give

104
00:04:38,080 --> 00:04:36,530
you I you know you've got to be fair

105
00:04:41,650 --> 00:04:38,090
there was three main ones that had me

106
00:04:43,150 --> 00:04:41,660
there was the fake photos of Earth and

107
00:04:46,300 --> 00:04:43,160
there was there was one of them where

108
00:04:49,240 --> 00:04:46,310
these the double cloud pattern so that

109
00:04:50,590 --> 00:04:49,250
was a lots of that I thought well Oldham

110
00:04:52,150 --> 00:04:50,600
is definitely something there because

111
00:04:54,880 --> 00:04:52,160
those clouds have definitely been

112
00:04:57,430 --> 00:04:54,890
duplicated so there's clearly something

113
00:05:01,750 --> 00:04:57,440

wrong with that photo so widely seen

114

00:05:04,060 --> 00:05:01,760

fake photos so the photo that's the one

115

00:05:06,250 --> 00:05:04,070

the photo of Earth is used it was used

116

00:05:10,060 --> 00:05:06,260

on the original iPhone as like the

117

00:05:11,409 --> 00:05:10,070

wallpaper on the original iPhone yeah is

118

00:05:13,720 --> 00:05:11,419

it the one that's actually known as Blue

119

00:05:15,100 --> 00:05:13,730

Marble it's one of the blue marbles yeah

120

00:05:16,990 --> 00:05:15,110

there's a few different Blue Marble

121

00:05:19,390 --> 00:05:17,000

images and all the Blue Marble images

122

00:05:24,190 --> 00:05:19,400

none of them are actually real images of

123

00:05:24,610 --> 00:05:24,200

the earth just these basically flat flat

124

00:05:25,960 --> 00:05:24,620

maps

125

00:05:28,510 --> 00:05:25,970

yeah the earth like you know I guess

126

00:05:30,250 --> 00:05:28,520

it's an equi rectangular projection of

127

00:05:31,600 --> 00:05:30,260

the earth is where it is and it's

128

00:05:33,130 --> 00:05:31,610

something they can use to make a 3d

129

00:05:36,370 --> 00:05:33,140

model of the earth and they make it by

130

00:05:37,780 --> 00:05:36,380

having a satellite go around here's the

131

00:05:40,240 --> 00:05:37,790

same satellite that's always been going

132

00:05:42,250 --> 00:05:40,250

around and they take all these strips

133

00:05:45,600 --> 00:05:42,260

and they make the composit image but

134

00:05:48,490 --> 00:05:45,610

yeah it's the one that was used for the

135

00:05:50,590 --> 00:05:48,500

the iPhone wallpaper so became kind of

136

00:05:53,860 --> 00:05:50,600

famous and it's got these things on the

137

00:05:55,000 --> 00:05:53,870

said which is this areas of the cloud in

138

00:05:56,980 --> 00:05:55,010

it which you can see have been

139

00:05:59,080 --> 00:05:56,990

duplicated they've had it like copy and

140

00:06:00,760 --> 00:05:59,090

paste a bit of a cloud so it's obviously

141

00:06:02,890 --> 00:06:00,770

been edited and that makes people to be

142

00:06:07,270 --> 00:06:02,900

very suspicious and imagine it made you

143

00:06:09,159 --> 00:06:07,280

sufficiently and I've seen so many flat

144

00:06:10,870 --> 00:06:09,169

earth posts showing well to be fair not

145

00:06:12,880 --> 00:06:10,880

so much anymore but years ago he saw

146

00:06:15,010 --> 00:06:12,890

quite a lot of them pointing out those

147

00:06:16,960 --> 00:06:15,020

double cloud patterns so that was

148

00:06:20,620 --> 00:06:16,970

something that gripped me and there was

149

00:06:22,210 --> 00:06:20,630

one about fly paths that I mean I also

150

00:06:24,310 --> 00:06:22,220

understand these things now it's just

151

00:06:27,040 --> 00:06:24,320

these were the things that drew me in

152

00:06:28,990 --> 00:06:27,050

them well then the other one was Chicago

153

00:06:31,600 --> 00:06:29,000

over Lake Michigan right now that was a

154

00:06:33,350 --> 00:06:31,610

big one for me because it's a matter of

155

00:06:35,089 --> 00:06:33,360

well yeah it's too

156

00:06:39,830 --> 00:06:35,099

far away you shouldn't be able to see it

157

00:06:41,450 --> 00:06:39,840

so end up being drawn into it started

158

00:06:44,330 --> 00:06:41,460

looking at all these other proofs all

159

00:06:47,110 --> 00:06:44,340

these videos and obviously again to an

160

00:06:50,629 --> 00:06:47,120

untrained mind the are very convincing

161

00:06:52,219 --> 00:06:50,639

and so that was when it was host kind of

162

00:06:54,740 --> 00:06:52,229

hope so I was telling my friends and you

163

00:06:56,240 --> 00:06:54,750

know look at look at this you know why

164

00:06:58,309 --> 00:06:56,250

is this happening why these flight paths

165

00:06:59,839 --> 00:06:58,319

like this look at this follow of Earth

166

00:07:01,999 --> 00:06:59,849

or the obvious is something going on

167

00:07:04,700 --> 00:07:02,009

that's not true that would be into all

168

00:07:07,129 --> 00:07:04,710

these true so that was what gripped me

169

00:07:09,080 --> 00:07:07,139

with regards to the Flat Earth and those

170

00:07:10,760 --> 00:07:09,090

three main things drew me in and then

171

00:07:12,439 --> 00:07:10,770

all the other things it was kind of

172

00:07:13,610 --> 00:07:12,449

bonus starts with the Flat Earth if you

173

00:07:15,019 --> 00:07:13,620

know I mean it's like well yeah that's

174

00:07:16,879 --> 00:07:15,029

that's right as well and that's right as

175

00:07:19,219 --> 00:07:16,889

well because in all fairness the way the

176

00:07:21,140 --> 00:07:19,229

videos are put across as much as they

177

00:07:23,209 --> 00:07:21,150

like to use the tagline research Flat

178

00:07:24,230 --> 00:07:23,219

Earth they telling you that these things

179

00:07:26,209 --> 00:07:24,240

are true

180

00:07:28,550 --> 00:07:26,219

that's bear for complain you don't need

181

00:07:30,529 --> 00:07:28,560

to research and that was that was the

182

00:07:33,019 --> 00:07:30,539

impression I've gotten at the time when

183

00:07:35,779 --> 00:07:33,029

you're in it you don't realize every

184

00:07:38,480 --> 00:07:35,789

time you you want to research you start

185

00:07:40,430 --> 00:07:38,490

your search with the term Flat Earth so

186

00:07:41,719 --> 00:07:40,440

somebody says sunsets you search

187

00:07:43,939 --> 00:07:41,729

flattery with sunsets

188

00:07:46,159 --> 00:07:43,949

somebody says eclipses you searched Flat

189

00:07:49,189 --> 00:07:46,169

Earth eclipses and you find the answer

190

00:07:51,920 --> 00:07:49,199

that Flat Earth Gibbs and you give that

191

00:07:53,869 --> 00:07:51,930

answer so when you're then questioned on

192

00:07:55,430 --> 00:07:53,879

your answer you like well here's the

193

00:07:57,890 --> 00:07:55,440

video have a look here's where I've got

194

00:08:00,110 --> 00:07:57,900

me an answer from so you do have a hell

195

00:08:03,679 --> 00:08:00,120

of a lot of backup from a flat earth

196

00:08:06,499 --> 00:08:03,689

nice when I was when I was deep in it in

197

00:08:08,899 --> 00:08:06,509

all fairness less than six months I felt

198

00:08:10,760 --> 00:08:08,909

like I was convinced I won't say I

199

00:08:12,019 --> 00:08:10,770

believe I was convinced there was

200

00:08:14,059 --> 00:08:12,029

definitely something wrong with the

201

00:08:15,829 --> 00:08:14,069

globe model at first I'm thinking well

202

00:08:17,379 --> 00:08:15,839

Chicago over Lake Michigan maybe the

203

00:08:19,939 --> 00:08:17,389

Earth's just much larger than we thought

204

00:08:21,469 --> 00:08:19,949

then you know because we can clearly see

205

00:08:24,679 --> 00:08:21,479

sheikah it's clearly there and it should

206

00:08:27,260 --> 00:08:24,689

be behind a curve or we're given

207

00:08:28,459 --> 00:08:27,270

dimensions that don't match I mean like

208

00:08:30,490 --> 00:08:28,469

I said I do understand that all this now

209

00:08:34,250 --> 00:08:30,500

I can you know I know it's the shoe

210

00:08:38,060 --> 00:08:34,260

cabinet Lake Michigan is one of my main

211

00:08:40,339 --> 00:08:38,070

ways of proving curvature as a non flat

212

00:08:43,850 --> 00:08:40,349

earther no specialist on beings at

213

00:08:45,600 --> 00:08:43,860

office can easily prove curvature with

214

00:08:49,770 --> 00:08:45,610

that

215

00:08:52,650 --> 00:08:49,780

deep into it so when when you were deep

216

00:08:54,870 --> 00:08:52,660

into it and yeah yeah you told your

217

00:08:56,370 --> 00:08:54,880

friends like you know look at this hey

218

00:09:02,400 --> 00:08:56,380

what kind of reaction did you get and

219

00:09:04,230 --> 00:09:02,410

did they try to pull you out of it well

220

00:09:07,650 --> 00:09:04,240

I mean a lot of them just dismissed it

221

00:09:09,930 --> 00:09:07,660

and a lot of them low you know smiling

222

00:09:13,320 --> 00:09:09,940

not as she do just never leave me to it

223

00:09:15,540 --> 00:09:13,330

cuz you know the average Joe it's a

224

00:09:16,830 --> 00:09:15,550

matter of well yeah in a matter of time

225

00:09:20,640 --> 00:09:16,840

you'll probably work out that you long

226

00:09:22,860 --> 00:09:20,650

and our last bit again conspiracies and

227

00:09:25,110 --> 00:09:22,870

what fumer mates are into conspiracy

228

00:09:28,280 --> 00:09:25,120

theories anyway i mean doctor i'm not

229

00:09:30,660 --> 00:09:28,290

saying a disbelieve all conspiracies

230

00:09:32,760 --> 00:09:30,670

alliance of feel as old as a bit mystery

231

00:09:35,070 --> 00:09:32,770

in the world that's pretty much the main

232

00:09:36,930 --> 00:09:35,080

thing that draws me into conspiracy the

233

00:09:38,310 --> 00:09:36,940

hope of mystery is like the internet's

234

00:09:40,740 --> 00:09:38,320

ruined all that for us because now we

235

00:09:44,790 --> 00:09:40,750

know everything so now the mysteries out

236

00:09:47,150 --> 00:09:44,800

there in space so it's when when you get

237

00:09:49,350 --> 00:09:47,160

a feeling that nasa's lines here and

238

00:09:53,010 --> 00:09:49,360

that everything that you've been sold is

239

00:09:55,020 --> 00:09:53,020

wrong it is a big downer and to be fair

240

00:09:57,540 --> 00:09:55,030

that it was very miserable you i'm

241

00:09:58,590 --> 00:09:57,550

watching things on TV oh i mean i don't

242

00:10:00,390 --> 00:09:58,600

watch much star wars but you watch

243

00:10:02,370 --> 00:10:00,400

things like Star Wars and Star Trek and

244

00:10:04,290 --> 00:10:02,380

stuff like and you just feel like well

245

00:10:05,730 --> 00:10:04,300

hold on a minute this is all all a big

246

00:10:08,130 --> 00:10:05,740

lie and it's never going to happen and

247

00:10:10,110 --> 00:10:08,140

it's all I mean of Star Wars and Star

248

00:10:11,610 --> 00:10:10,120

Trek and real anyway but you watch

249

00:10:14,490 --> 00:10:11,620

anything about space and you think well

250

00:10:16,740 --> 00:10:14,500

if something doesn't add up and and you

251
00:10:18,480 --> 00:10:16,750
start questioning everything that's been

252
00:10:20,790 --> 00:10:18,490
kind of interesting though in a way like

253
00:10:23,550 --> 00:10:20,800
yes because you you've got this idea

254
00:10:24,900 --> 00:10:23,560
that you're part of this and I'm like

255
00:10:27,150 --> 00:10:24,910
The Truman Show type thing and

256
00:10:29,370 --> 00:10:27,160
everything's fake isn't that in itself

257
00:10:30,960 --> 00:10:29,380
like just like an amazing mystery like

258
00:10:33,660 --> 00:10:30,970
and you've kind of discovered some of

259
00:10:35,520 --> 00:10:33,670
the secrets to it well yeah again that's

260
00:10:37,140 --> 00:10:35,530
what me so with with having a feeling

261
00:10:38,130 --> 00:10:37,150
like there's no mystery left in the

262
00:10:41,130 --> 00:10:38,140
world when something like this comes

263
00:10:43,020 --> 00:10:41,140

along you grip it and it is like a

264

00:10:44,970 --> 00:10:43,030

source of mystery for you so you do hold

265

00:10:47,850 --> 00:10:44,980

on anything that well you want it to be

266

00:10:49,530 --> 00:10:47,860

true you know you want to know that you

267

00:10:51,750 --> 00:10:49,540

know things that other people don't and

268

00:10:55,800 --> 00:10:51,760

you're one of the first to understand it

269

00:10:59,340 --> 00:10:55,810

and it is it's a somebody mentioned it

270

00:11:03,940 --> 00:10:59,350

the other day a sense of bit long

271

00:11:06,400 --> 00:11:03,950

our community maybe belong to a small

272

00:11:08,440 --> 00:11:06,410

group of people who who have the

273

00:11:12,880 --> 00:11:08,450

knowledge Neal is gonna set everyone

274

00:11:14,769 --> 00:11:12,890

free and it was a bit of air it's fair

275

00:11:16,600 --> 00:11:14,779

to be brutally honest it was a very

276
00:11:19,540 --> 00:11:16,610
miserable time as much as you think the

277
00:11:21,400 --> 00:11:19,550
mystery opens oh it's miserable because

278
00:11:23,200 --> 00:11:21,410
you think well all this space of wonder

279
00:11:25,660 --> 00:11:23,210
that you've loved and enjoyed and

280
00:11:30,090 --> 00:11:25,670
wandered up all the Sun has just gone

281
00:11:32,620 --> 00:11:30,100
and you're left with this just the earth

282
00:11:35,260 --> 00:11:32,630
never locked into the dome watch it

283
00:11:36,850 --> 00:11:35,270
wasn't something that I didn't quite get

284
00:11:39,160 --> 00:11:36,860
that advanced in the Flat Earth thing

285
00:11:41,440 --> 00:11:39,170
before I started realizing that there

286
00:11:44,350 --> 00:11:41,450
was issues I was hearing from Fort Worth

287
00:11:47,560 --> 00:11:44,360
did you know he said like there's a

288
00:11:48,970 --> 00:11:47,570

sense of community did you did you meet

289

00:11:54,100 --> 00:11:48,980

it with other Flat Earth I was in real

290

00:11:57,820 --> 00:11:54,110

life none no I'd say there's on a few

291

00:11:59,980 --> 00:11:57,830

Facebook groups and at first it wasn't

292

00:12:01,570 --> 00:11:59,990

quite as abusive as it is now and I

293

00:12:04,960 --> 00:12:01,580

ended up joining the Flat Earth Society

294

00:12:08,670 --> 00:12:04,970

website which now a lot of flattered

295

00:12:12,760 --> 00:12:08,680

with his Karl is controlled opposition I

296

00:12:14,800 --> 00:12:12,770

was on there some affair there was a lot

297

00:12:17,560 --> 00:12:14,810

of people on there that were both sides

298

00:12:19,960 --> 00:12:17,570

and everyone was quite nice he wasn't

299

00:12:22,480 --> 00:12:19,970

really much animosity in there because

300

00:12:23,740 --> 00:12:22,490

it was a very moderated website and so

301
00:12:25,600 --> 00:12:23,750
they didn't want to be taken down so

302
00:12:28,990 --> 00:12:25,610
they kept the abuse down to the minimum

303
00:12:31,510 --> 00:12:29,000
and was a lot of kind of patronizing and

304
00:12:35,620 --> 00:12:31,520
they did ridicule in only a light hide

305
00:12:39,820 --> 00:12:35,630
way well nothing like he ruthlessness of

306
00:12:42,340 --> 00:12:39,830
Facebook yeah well what's your feeling

307
00:12:45,550 --> 00:12:42,350
about like with Facebook in the

308
00:12:48,180 --> 00:12:45,560
community like what percentage of people

309
00:12:50,890 --> 00:12:48,190
who say they believe in the Flat Earth

310
00:12:52,960 --> 00:12:50,900
actually believe or actually have

311
00:12:58,810 --> 00:12:52,970
genuine suspicions this is how many are

312
00:13:01,050 --> 00:12:58,820
just drawing I had to say quite a

313
00:13:05,199 --> 00:13:01,060

largest following maybe not

314

00:13:07,930 --> 00:13:05,209

intentionally or is a matter of saving

315

00:13:10,390 --> 00:13:07,940

face as I see I think these three types

316

00:13:12,140 --> 00:13:10,400

I think there's also just trolling very

317

00:13:15,500 --> 00:13:12,150

few that genuinely believe

318

00:13:18,650 --> 00:13:15,510

and those are exactly like I was curious

319

00:13:21,170 --> 00:13:18,660

in asking questions because they see

320

00:13:23,600 --> 00:13:21,180

things that aren't by but with Facebook

321

00:13:25,880 --> 00:13:23,610

the problem is it turns aggressive way

322

00:13:28,160 --> 00:13:25,890

too quick so the people who are just

323

00:13:30,050 --> 00:13:28,170

genuinely curious they have to back

324

00:13:33,410 --> 00:13:30,060

themselves up quick so they get

325

00:13:34,790 --> 00:13:33,420

aggressive back so that's why we're if

326

00:13:37,160 --> 00:13:34,800

you ever see me on there you'll never

327

00:13:39,500 --> 00:13:37,170

see me giving abuse receive a hell of a

328

00:13:42,500 --> 00:13:39,510

lot I mean the furthest I go I'd

329

00:13:46,130 --> 00:13:42,510

probably say I'm politely patronizing at

330

00:13:48,440 --> 00:13:46,140

times but I'll always try and imagine it

331

00:13:50,960 --> 00:13:48,450

the flyer that I'm talking to is in the

332

00:13:53,360 --> 00:13:50,970

same position I am because if somebody

333

00:13:55,340 --> 00:13:53,370

is like me it have come to me when I was

334

00:13:59,630 --> 00:13:55,350

in that state at a public come out of it

335

00:14:01,970 --> 00:13:59,640

a lot quicker mmm so a lot of them the

336

00:14:04,520 --> 00:14:01,980

way I the way I spot a genuine one is

337

00:14:06,470 --> 00:14:04,530

the one that will have the discussion

338

00:14:08,720 --> 00:14:06,480

with you and have a back and forth and

339

00:14:10,940 --> 00:14:08,730

when you put a point to them they'll

340

00:14:12,710 --> 00:14:10,950

address that point instead of instantly

341

00:14:14,510 --> 00:14:12,720

divert into another one and when you

342

00:14:16,850 --> 00:14:14,520

give an answer they'll reply to your

343

00:14:19,040 --> 00:14:16,860

answer and they'll listen to what you've

344

00:14:21,110 --> 00:14:19,050

said and you can reply back some you say

345

00:14:25,100 --> 00:14:21,120

well what about this and they'll reply

346

00:14:26,900 --> 00:14:25,110

with well we believe this so yes so the

347

00:14:28,310 --> 00:14:26,910

ones that I feel will genuine genuinely

348

00:14:30,320 --> 00:14:28,320

believe the ones that love the

349

00:14:32,270 --> 00:14:30,330

back-and-forth with you you know they'll

350

00:14:34,160 --> 00:14:32,280

address your points and allow you to

351

00:14:36,500 --> 00:14:34,170

address their points the ones that

352

00:14:38,120 --> 00:14:36,510

instantly cut you off and just try

353

00:14:41,270 --> 00:14:38,130

divert you know I'll just give you abuse

354

00:14:42,830 --> 00:14:41,280

and they might fully believe it which is

355

00:14:44,530 --> 00:14:42,840

why they're doing that but when they're

356

00:14:47,300 --> 00:14:44,540

trying to convince you that

357

00:14:48,650 --> 00:14:47,310

transid tell everyone the truth and

358

00:14:51,260 --> 00:14:48,660

they're trying to let everybody know the

359

00:14:54,350 --> 00:14:51,270

truth they wouldn't shut you down you'd

360

00:14:57,350 --> 00:14:54,360

happily stick around and discuss where

361

00:14:58,250 --> 00:14:57,360

they feel you're mistaken so when they

362

00:15:00,410 --> 00:14:58,260

give you in evidence

363

00:15:02,300 --> 00:15:00,420

say for instance why don't we fly off

364

00:15:04,580 --> 00:15:02,310

the face of the earth with the spin and

365

00:15:06,350 --> 00:15:04,590

you say well there's no reason to

366

00:15:07,460 --> 00:15:06,360

because we're within the atmosphere

367

00:15:09,890 --> 00:15:07,470

we're encased within the atmosphere

368

00:15:11,870 --> 00:15:09,900

treat the atmosphere is the outside of a

369

00:15:13,340 --> 00:15:11,880

train for instance you know everything

370

00:15:15,560 --> 00:15:13,350

within the Train you know we smoke a

371

00:15:17,780 --> 00:15:15,570

cigarette in a chain smoker stray up a

372

00:15:19,940 --> 00:15:17,790

volcano erupts on the earth smoke a

373

00:15:23,210 --> 00:15:19,950

stray up you within the train you within

374

00:15:25,010 --> 00:15:23,220

the atmosphere so at that point I'll say

375

00:15:26,040 --> 00:15:25,020

to him so you you find me where science

376

00:15:28,769 --> 00:15:26,050

as the role

377

00:15:31,530 --> 00:15:28,779

stops at the Earth's crust and then

378

00:15:33,629 --> 00:15:31,540

you'll have a point what science doesn't

379

00:15:36,269 --> 00:15:33,639

state that science says rotation is up

380

00:15:38,939 --> 00:15:36,279

to the atmosphere and everything within

381

00:15:41,519 --> 00:15:38,949

the atmosphere rotates if a flyer that

382

00:15:43,319 --> 00:15:41,529

will take that on then I feel like

383

00:15:44,939 --> 00:15:43,329

you've got a genuine flier what if a

384

00:15:46,949 --> 00:15:44,949

fire is just saying well you just you

385

00:15:49,369 --> 00:15:46,959

just indoctrinated and you believed

386

00:15:52,229 --> 00:15:49,379

everything you told on the news then I

387

00:15:54,960 --> 00:15:52,239

don't feel like they're true Flat Earth

388

00:15:57,389 --> 00:15:54,970

is the flyer the true fighters will help

389

00:15:59,910 --> 00:15:57,399

you try and understand where they feel

390

00:16:01,939 --> 00:15:59,920

you are wrong and you don't see more

391

00:16:04,949 --> 00:16:01,949

chocolate though you think they're like

392

00:16:06,780 --> 00:16:04,959

say someone's new general genuinely open

393

00:16:08,999 --> 00:16:06,790

to discussion like they're like and they

394

00:16:10,979 --> 00:16:09,009

would you accept like their the

395

00:16:13,289 --> 00:16:10,989

atmosphere orbits with the earth and

396

00:16:15,210 --> 00:16:13,299

things like that yeah what why is it

397

00:16:17,609 --> 00:16:15,220

that they haven't just googled that and

398

00:16:19,530 --> 00:16:17,619

looked it up I mean you can explain it

399

00:16:21,449 --> 00:16:19,540

to them but they should be able to you

400

00:16:23,210 --> 00:16:21,459

know if you type in like Weider's on the

401
00:16:27,989 --> 00:16:23,220
atmosphere fly off into space

402
00:16:31,439 --> 00:16:27,999
you'll get pages explaining it I think

403
00:16:35,069 --> 00:16:31,449
is because they have a lot of distrust

404
00:16:36,840 --> 00:16:35,079
in everything I was on the only other

405
00:16:39,179 --> 00:16:36,850
podcast I've been on with flat earthers

406
00:16:41,519 --> 00:16:39,189
I was on one let's say about three years

407
00:16:44,220 --> 00:16:41,529
ago now there is quite a few of them in

408
00:16:47,639 --> 00:16:44,230
then I was pretty much fighting my own

409
00:16:49,949 --> 00:16:47,649
corner against a lot yeah well with it

410
00:16:52,169 --> 00:16:49,959
will down to two the main guy was

411
00:16:54,299 --> 00:16:52,179
hosting the podcast and another one now

412
00:16:55,919 --> 00:16:54,309
the main guy was hosting was a was a

413
00:16:57,480 --> 00:16:55,929

die-hard flat earther but he was he was

414

00:17:00,539 --> 00:16:57,490

kind of doing pretty well as a referee

415

00:17:02,489 --> 00:17:00,549

now the other guy was saying so I mean

416

00:17:05,010 --> 00:17:02,499

this is a point liberal so why we taught

417

00:17:07,260 --> 00:17:05,020

in schools while retiring schools that

418

00:17:09,000 --> 00:17:07,270

the moon's phases are caused by the

419

00:17:10,760 --> 00:17:09,010

Earth's shadow I mean we'd have a bit of

420

00:17:13,829 --> 00:17:10,770

a discussion before that

421

00:17:16,649 --> 00:17:13,839

he's like why why did we get a half moon

422

00:17:18,299 --> 00:17:16,659

if the Earth's fair because it's not the

423

00:17:20,250 --> 00:17:18,309

Earth's shadow it's its own shadow

424

00:17:23,819 --> 00:17:20,260

well that's not what will be taught in

425

00:17:25,620 --> 00:17:23,829

school I was like well it is what you

426

00:17:27,389 --> 00:17:25,630

were taught in school it is the moon

427

00:17:29,580 --> 00:17:27,399

phases and nothing to do with you he

428

00:17:30,990 --> 00:17:29,590

said oh and he's like no it's not that's

429

00:17:33,269 --> 00:17:31,000

not what was tiring school and it was

430

00:17:37,019 --> 00:17:33,279

only when the other Flat Earth has said

431

00:17:38,700 --> 00:17:37,029

to him look here on gone that poem

432

00:17:40,260 --> 00:17:38,710

you're not tired in school that it's the

433

00:17:42,630 --> 00:17:40,270

Earth's shadow an inch

434

00:17:45,120 --> 00:17:42,640

guys I'm alright okay I must be wrong

435

00:17:50,160 --> 00:17:45,130

about that it seems the longer take

436

00:17:51,420 --> 00:17:50,170

answers from other flat earthers don't

437

00:17:54,000 --> 00:17:51,430

want to generalize all of them about

438

00:17:56,670 --> 00:17:54,010

Apple they say most of them are under

439

00:17:59,910 --> 00:17:56,680

that same umbrella it's a very big dish

440

00:18:02,190 --> 00:17:59,920

costing things like you know Google you

441

00:18:04,830 --> 00:18:02,200

say to someone google it mm-hmm well

442

00:18:07,230 --> 00:18:04,840

Google's not trustworthy look on weaker

443

00:18:08,310 --> 00:18:07,240

wikis definitely not trustworthy it's

444

00:18:10,800 --> 00:18:08,320

like well where'd you want the

445

00:18:11,850 --> 00:18:10,810

information from you tell me where to

446

00:18:15,720 --> 00:18:11,860

get you the information from and I'll

447

00:18:16,890 --> 00:18:15,730

get you from there yeah it's like the

448

00:18:21,720 --> 00:18:16,900

other guy he was speaking to he said

449

00:18:23,340 --> 00:18:21,730

Google the symbols are 666 and it's it

450

00:18:26,130 --> 00:18:23,350

gets to a certain point where these no

451

00:18:28,350 --> 00:18:26,140

coming back from things like that so if

452

00:18:31,170 --> 00:18:28,360

you're gonna look at the word Google and

453

00:18:33,840 --> 00:18:31,180

see something like that where do you

454

00:18:35,370 --> 00:18:33,850

want the information from yeah how are

455

00:18:37,170 --> 00:18:35,380

they gonna have a house so how do you

456

00:18:38,760 --> 00:18:37,180

get them to trust you then there's it

457

00:18:41,630 --> 00:18:38,770

does it help that you used to be a

458

00:18:44,400 --> 00:18:41,640

believer in the firth you tell them that

459

00:18:45,690 --> 00:18:44,410

well no what I'll normally do because I

460

00:18:48,540 --> 00:18:45,700

normally follow a certain pattern now

461

00:18:50,820 --> 00:18:48,550

and I'll say it's right do you know how

462

00:18:52,290 --> 00:18:50,830

humans are we as a species first

463

00:18:54,420 --> 00:18:52,300

determined that the earth was a globe

464

00:18:56,640 --> 00:18:54,430

there's obviously lots of evidence that

465

00:18:58,680 --> 00:18:56,650

proves the globe what you've got to do

466

00:19:01,980 --> 00:18:58,690

is address that evidence have you

467

00:19:03,600 --> 00:19:01,990

addressed the evidence and the vast

468

00:19:06,720 --> 00:19:03,610

majority of them don't even know what

469

00:19:08,520 --> 00:19:06,730

that evidence is hmm it's like another

470

00:19:10,350 --> 00:19:08,530

flyer that I saw you speaking to he was

471

00:19:12,750 --> 00:19:10,360

saying it was to do with bolts over the

472

00:19:14,790 --> 00:19:12,760

horizon well no that was that was

473

00:19:16,010 --> 00:19:14,800

verifying him what the initial one was

474

00:19:20,520 --> 00:19:16,020

the lunar eclipse

475

00:19:23,010 --> 00:19:20,530

Pythagoras 500 BC and now restyle 350 BC

476
00:19:24,960 --> 00:19:23,020
they they determined through the lunar

477
00:19:27,960 --> 00:19:24,970
eclipse that the shadows always circular

478
00:19:29,600 --> 00:19:27,970
and therefore the earth is circular and

479
00:19:32,270 --> 00:19:29,610
then it's like a bolt over the horizon

480
00:19:34,740 --> 00:19:32,280
solidified that and then you got

481
00:19:38,010 --> 00:19:34,750
everything I can't say that guy's name

482
00:19:40,830 --> 00:19:38,020
and I think Harris dust2 means I'll

483
00:19:43,830 --> 00:19:40,840
still never be able to say though and he

484
00:19:47,700 --> 00:19:43,840
came and measured the circumference

485
00:19:50,400 --> 00:19:47,710
sticks so he got the district conference

486
00:19:52,800 --> 00:19:50,410
now I do understand the Flat Earth is

487
00:19:54,310 --> 00:19:52,810
explanation with that guys and the

488
00:19:59,200 --> 00:19:54,320

stakes because they say well if the

489

00:20:02,500 --> 00:19:59,210

Sony's local and smaller than that those

490

00:20:05,140 --> 00:20:02,510

sticks experiment would be the same both

491

00:20:07,270 --> 00:20:05,150

have enough if if see I will take on

492

00:20:09,580 --> 00:20:07,280

board their model and things that work

493

00:20:12,310 --> 00:20:09,590

on their model according to their model

494

00:20:13,690 --> 00:20:12,320

then finally perhaps let's discuss

495

00:20:16,270 --> 00:20:13,700

something else that doesn't work on

496

00:20:18,070 --> 00:20:16,280

their model and like the lunar eclipse

497

00:20:22,020 --> 00:20:18,080

which in our fairest have not had a

498

00:20:24,790 --> 00:20:22,030

single answer for well about a couple

499

00:20:27,640 --> 00:20:24,800

they say the moon's self-illuminating

500

00:20:29,770 --> 00:20:27,650

and obviously shadows in the craters

501
00:20:33,310 --> 00:20:29,780
pretty much diminish that straight away

502
00:20:34,810 --> 00:20:33,320
and then they've got the Black Sun have

503
00:20:37,480 --> 00:20:34,820
you heard the black sunrise

504
00:20:39,190 --> 00:20:37,490
yeah is that like so there's a like a

505
00:20:42,970 --> 00:20:39,200
dark Sun that passes in front of the

506
00:20:45,580 --> 00:20:42,980
moon yes they say there's a the car

507
00:20:47,680 --> 00:20:45,590
takes the same value in KATU there are

508
00:20:50,590 --> 00:20:47,690
the names of these two extra celestial

509
00:20:52,540 --> 00:20:50,600
objects around the earth to use as an

510
00:20:57,210 --> 00:20:52,550
excuse for the lunar eclipse now I did

511
00:21:00,730 --> 00:20:57,220
look into Rahu and it's an ancient Hindu

512
00:21:03,130 --> 00:21:00,740
astrological metaphor know anything to

513
00:21:07,210 --> 00:21:03,140

do with astronomy is to do with

514

00:21:10,180 --> 00:21:07,220

astrology and it's Hinduism now with a

515

00:21:12,820 --> 00:21:10,190

lot of these being die hard um believers

516

00:21:14,920 --> 00:21:12,830

of God that's when all Christians

517

00:21:17,710 --> 00:21:14,930

lassiter with the Hindu religion yeah

518

00:21:18,220 --> 00:21:17,720

and it's to do with astrology not

519

00:21:21,280 --> 00:21:18,230

astronomy

520

00:21:23,200 --> 00:21:21,290

it's like saying yes you know Cancer the

521

00:21:25,150 --> 00:21:23,210

crab up there go on in front of it so

522

00:21:28,480 --> 00:21:25,160

that's another one I'll come to so what

523

00:21:31,360 --> 00:21:28,490

they do instead is they try to find

524

00:21:33,780 --> 00:21:31,370

flaws in the globe model version of the

525

00:21:36,100 --> 00:21:33,790

lunar eclipse so then they bring got the

526

00:21:37,810 --> 00:21:36,110

daytime lunar eclipse you know the

527

00:21:40,090 --> 00:21:37,820

Eclipse the where they see thee their

528

00:21:42,760 --> 00:21:40,100

own so it's where the Sun is on the

529

00:21:44,260 --> 00:21:42,770

horizon on one side and the moons on the

530

00:21:46,060 --> 00:21:44,270

other side and you can just see both of

531

00:21:49,930 --> 00:21:46,070

them at the same time but you're getting

532

00:21:52,150 --> 00:21:49,940

an eclipse yeah an ellipse there's a

533

00:21:55,210 --> 00:21:52,160

video there's a video on YouTube the

534

00:21:57,760 --> 00:21:55,220

data and lunar eclipses debunk the globe

535

00:21:59,380 --> 00:21:57,770

model they go further in same a lot the

536

00:22:02,080 --> 00:21:59,390

shadows the wrong way round as well on

537

00:22:04,390 --> 00:22:02,090

the moon there's the shadow coming from

538

00:22:07,360 --> 00:22:04,400

a both if it's going down in this one

539

00:22:09,430 --> 00:22:07,370

and the earth below then you know

540

00:22:10,990 --> 00:22:09,440

it's poor cross in a certain way where

541

00:22:12,340 --> 00:22:11,000

you look at anything wrong you know

542

00:22:13,750 --> 00:22:12,350

they've got a pine they've got the

543

00:22:14,800 --> 00:22:13,760

shadows upside down and they're both

544

00:22:16,450 --> 00:22:14,810

above the horizon

545

00:22:18,790 --> 00:22:16,460

well is it difficult to understand isn't

546

00:22:21,490 --> 00:22:18,800

it if you just yeah you're trying to

547

00:22:23,470 --> 00:22:21,500

wrap your mind around how the an eclipse

548

00:22:25,270 --> 00:22:23,480

actually works with the earth and the

549

00:22:29,890 --> 00:22:25,280

Sun and the moon he's not it's not an

550

00:22:32,620 --> 00:22:29,900

easy thing to understand but then you

551
00:22:34,810 --> 00:22:32,630
got the way flat-earthers work sometimes

552
00:22:35,410 --> 00:22:34,820
they'll understand refraction sometimes

553
00:22:37,360 --> 00:22:35,420
the wrong

554
00:22:41,320 --> 00:22:37,370
it depends what argument the revs all

555
00:22:42,610 --> 00:22:41,330
right so if you say to him well Chicago

556
00:22:45,370 --> 00:22:42,620
over Lake Michigan they'll say well why

557
00:22:48,010 --> 00:22:45,380
isn't he a upside down superior mirages

558
00:22:51,070 --> 00:22:48,020
caused by atmospheric refraction are

559
00:22:53,230 --> 00:22:51,080
inverted is that well yeah they are

560
00:22:55,210 --> 00:22:53,240
sometimes it depends on the weather

561
00:22:58,750 --> 00:22:55,220
depends on the heat and zhan the you

562
00:23:00,640 --> 00:22:58,760
know the moisture in the air and it is

563
00:23:02,290 --> 00:23:00,650

I'll I'll dependent on the weather so

564

00:23:04,960 --> 00:23:02,300

Chicago over Lake Michigan for instance

565

00:23:06,270 --> 00:23:04,970

certain days you don't I'm Claire Condes

566

00:23:08,260 --> 00:23:06,280

you don't see Chicago

567

00:23:10,000 --> 00:23:08,270

depending on the weather you'll see a

568

00:23:12,490 --> 00:23:10,010

small amount of it you'll see a bit more

569

00:23:14,410 --> 00:23:12,500

of it some channels you see well I'll

570

00:23:16,870 --> 00:23:14,420

explain to him and the one time you saw

571

00:23:19,330 --> 00:23:16,880

the whole of Chicago it's such a rare

572

00:23:21,340 --> 00:23:19,340

sight it made the news because they

573

00:23:22,750 --> 00:23:21,350

shouldn't explain to you well the news

574

00:23:25,930 --> 00:23:22,760

guy said it was a mirage which is

575

00:23:28,570 --> 00:23:25,940

obviously yes and your ankle it is a

576

00:23:30,610 --> 00:23:28,580

mirage you know about the floating

577

00:23:32,140 --> 00:23:30,620

cities in China I'm sure you don't

578

00:23:35,170 --> 00:23:32,150

believe there's actual floating cities

579

00:23:36,970 --> 00:23:35,180

in China and they weren't upside down so

580

00:23:38,500 --> 00:23:36,980

it's not that super superhuman ologies

581

00:23:40,630 --> 00:23:38,510

always upside down which depending on

582

00:23:43,210 --> 00:23:40,640

the weather so then you go back to the

583

00:23:44,890 --> 00:23:43,220

lunar eclipse you say well it is

584

00:23:47,050 --> 00:23:44,900

refraction in the same well it's not

585

00:23:47,530 --> 00:23:47,060

refraction look at this shape the shadow

586

00:23:50,530 --> 00:23:47,540

on the moon

587

00:23:52,150 --> 00:23:50,540

well it's inverted like you look like

588

00:23:57,550 --> 00:23:52,160

you've already explained you understand

589

00:24:00,430 --> 00:23:57,560

with refraction so the again the the

590

00:24:02,770 --> 00:24:00,440

main to see Flat Earth is using is

591

00:24:05,770 --> 00:24:02,780

pretending science doesn't have an

592

00:24:07,660 --> 00:24:05,780

answer all right yeah science does

593

00:24:10,180 --> 00:24:07,670

answer and what they need to start doing

594

00:24:12,370 --> 00:24:10,190

is challenging that answer so I'll tell

595

00:24:14,950 --> 00:24:12,380

them all to do is cross examine what you

596

00:24:16,870 --> 00:24:14,960

hear in flight videos don't take my word

597

00:24:19,510 --> 00:24:16,880

for it don't say the fly earth is word

598

00:24:21,250 --> 00:24:19,520

for it cross examine it and find the

599

00:24:23,500 --> 00:24:21,260

answer if you find

600

00:24:25,060 --> 00:24:23,510

in the answer come back to me and

601
00:24:27,490 --> 00:24:25,070
present them I'm more than happy to

602
00:24:30,580 --> 00:24:27,500
discuss where you finding flaws in the

603
00:24:35,440 --> 00:24:30,590
explanation science Gibbs very rarely it

604
00:24:38,590 --> 00:24:35,450
gets to that point but yeah it was

605
00:24:40,600 --> 00:24:38,600
Chicago itself that drew me out fit all

606
00:24:43,270 --> 00:24:40,610
right yeah cuz when you finally figure

607
00:24:45,190 --> 00:24:43,280
out how he can work I give you know you

608
00:24:47,140 --> 00:24:45,200
figure out how you can see Chicago over

609
00:24:49,150 --> 00:24:47,150
Lake Michigan I further than you should

610
00:24:51,400 --> 00:24:49,160
and you can figure out like how the

611
00:24:53,590 --> 00:24:51,410
eclipse would actually work with

612
00:24:55,000 --> 00:24:53,600
everything getting spheres when you

613
00:24:57,730 --> 00:24:55,010

figure it out or then it's like all

614

00:25:00,820 --> 00:24:57,740

right and then you know if that actually

615

00:25:02,920 --> 00:25:00,830

works in the global model and you can

616

00:25:04,300 --> 00:25:02,930

you can understand there then you can I

617

00:25:09,160 --> 00:25:04,310

guess he opens your minds to other

618

00:25:11,920 --> 00:25:09,170

things yes all the other proofs that

619

00:25:19,420 --> 00:25:11,930

they give the chicago on again there is

620

00:25:21,550 --> 00:25:19,430

a video by rob Skiba i'm sure things

621

00:25:22,840 --> 00:25:21,560

like yes or you took about over he's

622

00:25:23,500 --> 00:25:22,850

like well it's stayed in view at all

623

00:25:25,210 --> 00:25:23,510

times

624

00:25:28,150 --> 00:25:25,220

therefore it's clearly not sweep a

625

00:25:29,710 --> 00:25:28,160

demonologist gobble everything if it was

626

00:25:31,840 --> 00:25:29,720

a superman guys what are you expecting

627

00:25:33,460 --> 00:25:31,850

here to do that a few expects it's a dip

628

00:25:35,620 --> 00:25:33,470

below the horizon and come back up

629

00:25:37,630 --> 00:25:35,630

yes better to lift it what are you

630

00:25:39,760 --> 00:25:37,640

expecting what you know where's your

631

00:25:41,350 --> 00:25:39,770

where's you falsified that one question

632

00:25:42,850 --> 00:25:41,360

you just said that what would you expect

633

00:25:45,610 --> 00:25:42,860

it to do i think is like one of the most

634

00:25:47,110 --> 00:25:45,620

important questions you can ask any flat

635

00:25:49,450 --> 00:25:47,120

earther when they give an objection like

636

00:25:51,220 --> 00:25:49,460

someone says like you know if a mountain

637

00:25:52,720 --> 00:25:51,230

is beyond the curve shouldn't it be

638

00:25:55,150 --> 00:25:52,730

tilting away from your shouldn't build

639

00:25:56,920 --> 00:25:55,160

buildings be tilting away from you you

640

00:25:58,570 --> 00:25:56,930

asked them what how much should there be

641

00:26:01,780 --> 00:25:58,580

what would you expect it to look like

642

00:26:04,990 --> 00:26:01,790

and focus on that try to get them to

643

00:26:07,660 --> 00:26:05,000

focus on their and then another video

644

00:26:10,750 --> 00:26:07,670

rob Skiba did on the same thing i think

645

00:26:14,230 --> 00:26:10,760

it was called looming magnification not

646

00:26:16,330 --> 00:26:14,240

refraction hmm and it's around about a

647

00:26:20,590 --> 00:26:16,340

thinks about a 10 minute video just a

648

00:26:22,360 --> 00:26:20,600

short version but he says and on about 3

649

00:26:24,210 --> 00:26:22,370

quarts through he says the words and

650

00:26:26,650 --> 00:26:24,220

chicago he's never seen inverted

651

00:26:29,650 --> 00:26:26,660

therefore it is not it cannot possibly

652

00:26:32,560 --> 00:26:29,660

be a superior mirages are worse to that

653

00:26:34,060 --> 00:26:32,570

effect but then literally within 20

654

00:26:34,960 --> 00:26:34,070

seconds of him saying that the video is

655

00:26:38,409 --> 00:26:34,970

shoals

656

00:26:40,750 --> 00:26:38,419

Schull Chicago clearly inverting he uses

657

00:26:43,500 --> 00:26:40,760

the video from Joshua no wiki which is

658

00:26:46,570 --> 00:26:43,510

the one that made the news mmm and

659

00:26:50,580 --> 00:26:46,580

that's like a a one-minute time lapse

660

00:26:54,190 --> 00:26:50,590

video and from like 55 seconds onwards

661

00:26:56,440 --> 00:26:54,200

Chicago completely inverts and you see

662

00:26:59,260 --> 00:26:56,450

the inversion in example there's your

663

00:27:00,520 --> 00:26:59,270

evidence that it's a superior menage so

664

00:27:02,620 --> 00:27:00,530

then what you got to try and get them to

665

00:27:06,220 --> 00:27:02,630

do is look into what causes superior

666

00:27:07,630 --> 00:27:06,230

mirages and what is needed because it's

667

00:27:09,490 --> 00:27:07,640

like there's a famous mean they've got a

668

00:27:11,919 --> 00:27:09,500

picture of a ship that's kind of

669

00:27:13,659 --> 00:27:11,929

inverted and it says this is a superior

670

00:27:15,700 --> 00:27:13,669

Mirage and then it's got a picture of

671

00:27:17,950 --> 00:27:15,710

Chicago at the bottom saying this is

672

00:27:20,730 --> 00:27:17,960

proof of a flat earth it's like well if

673

00:27:23,440 --> 00:27:20,740

you have Maine superior mirages exist

674

00:27:26,200 --> 00:27:23,450

what you need to realize that for them

675

00:27:28,779 --> 00:27:26,210

to exist over those distances you needs

676

00:27:31,330 --> 00:27:28,789

curvature because it's bending my

677

00:27:33,520 --> 00:27:31,340

upwards in fairly bends like downwards

678

00:27:35,409 --> 00:27:33,530

like obviously you say the the sky in

679

00:27:37,779 --> 00:27:35,419

the road I'm sweeping analogies been

680

00:27:40,470 --> 00:27:37,789

like upwards so where's it bent in the

681

00:27:43,360 --> 00:27:40,480

light of Chicago from in the water

682

00:27:45,370 --> 00:27:43,370

obviously not so the light is being bent

683

00:27:47,500 --> 00:27:45,380

upwards you need the curvature far the

684

00:27:49,899 --> 00:27:47,510

lights a bit bent upwards to sit on the

685

00:27:55,480 --> 00:27:49,909

horizon like you see him well the light

686

00:27:57,580 --> 00:27:55,490

so you know the the mirages of Chicago

687

00:27:59,169 --> 00:27:57,590

like over a distance the light isn't I

688

00:28:00,760 --> 00:27:59,179

said bending upwards exactly bending

689

00:28:05,880 --> 00:28:00,770

downwards but it's pending over the

690

00:28:07,750 --> 00:28:05,890

curve right but the the image of Chicago

691

00:28:11,590 --> 00:28:07,760

will be being behind the curve

692

00:28:13,690 --> 00:28:11,600

originally must be being upwards you

693

00:28:15,430 --> 00:28:13,700

know that the image of Chicago is being

694

00:28:16,659 --> 00:28:15,440

lifted upwards to be on the horizon the

695

00:28:18,610 --> 00:28:16,669

images being so I've seen but it

696

00:28:21,330 --> 00:28:18,620

actually to lift it image upwards you

697

00:28:22,870 --> 00:28:21,340

have to bend the lights downwards oh

698

00:28:29,039 --> 00:28:22,880

well there you go there's my

699

00:28:31,990 --> 00:28:29,049

misunderstanding how the no it's not

700

00:28:35,140 --> 00:28:32,000

this is that it's not very intuitive at

701

00:28:37,149 --> 00:28:35,150

all like yeah I talked to a lot of us a

702

00:28:39,549 --> 00:28:37,159

lot and this is something that you know

703

00:28:41,950 --> 00:28:39,559

even you regular people get wrong yeah

704

00:28:44,260 --> 00:28:41,960

because it's like when you if you're

705

00:28:46,120 --> 00:28:44,270

looking up at something and it's

706

00:28:47,590 --> 00:28:46,130

actually lower down you think like you

707

00:28:48,799 --> 00:28:47,600

know the lights being bent bent up to

708

00:28:52,639 --> 00:28:48,809

make the light so

709

00:28:54,889 --> 00:28:52,649

hire the few to be looking up at

710

00:28:56,360 --> 00:28:54,899

something and he actually being down

711

00:28:58,700 --> 00:28:56,370

here you actually to liked has to bend

712

00:29:00,350 --> 00:28:58,710

down to actually hit the thing so it had

713

00:29:03,440 --> 00:29:00,360

that the light path has to go from your

714

00:29:05,720 --> 00:29:03,450

eye Bend round the curve right there so

715

00:29:07,129 --> 00:29:05,730

it's it's it's it's not it's not

716

00:29:11,330 --> 00:29:07,139

intuitively obvious what's actually

717

00:29:14,029 --> 00:29:11,340

going on it's just the image of Chicago

718

00:29:18,169 --> 00:29:14,039

is being lifted because the image is

719

00:29:20,899 --> 00:29:18,179

being lifted yeah and it it doesn't

720

00:29:24,379 --> 00:29:20,909

really need a curve such to do that it

721

00:29:25,850 --> 00:29:24,389

needs a refractive index gradient which

722

00:29:27,859 --> 00:29:25,860

is another thing which is very difficult

723

00:29:29,779 --> 00:29:27,869

to understand I didn't understand it

724

00:29:32,090 --> 00:29:29,789

myself when I started looking into it I

725

00:29:34,039 --> 00:29:32,100

thought how could this possibly be you

726

00:29:35,869 --> 00:29:34,049

know if you're looking along something

727

00:29:39,019 --> 00:29:35,879

and the refractive index doesn't change

728

00:29:42,169 --> 00:29:39,029

along that light path then how does it

729

00:29:44,840 --> 00:29:42,179

bend but him but he does and it's it's

730

00:29:47,619 --> 00:29:44,850

very intuitive it was myself looking

731

00:29:49,789 --> 00:29:47,629

into superior mirages are locked into

732

00:29:51,830 --> 00:29:49,799

obviously a lot song wiki and then got

733

00:29:54,710 --> 00:29:51,840

where wiki was various sources from and

734

00:29:56,090 --> 00:29:54,720

it did say I do remember you're saying

735

00:29:59,659 --> 00:29:56,100

quite though because he was summer grips

736

00:30:01,519 --> 00:29:59,669

onto as helped towards explaining to

737

00:30:03,169 --> 00:30:01,529

others and it did say that over those

738

00:30:05,299 --> 00:30:03,179

distances if there was no curvature of

739

00:30:08,139 --> 00:30:05,309

the earth superior mirages wouldn't

740

00:30:11,749 --> 00:30:08,149

happen over those distances refraction

741

00:30:14,239 --> 00:30:11,759

fair dues but the sufi mirage element

742

00:30:16,850 --> 00:30:14,249

ordinary slow yeah you can get superior

743

00:30:20,509 --> 00:30:16,860

mirages in a glass with a straw well you

744

00:30:22,999 --> 00:30:20,519

can get refraction swimming and it's

745

00:30:25,519 --> 00:30:23,009

interesting you talk about like them

746

00:30:26,960 --> 00:30:25,529

them saying like superior mirages or

747

00:30:29,330 --> 00:30:26,970

inverted height what is it where did

748

00:30:30,889 --> 00:30:29,340

they get that idea from yes I'm gonna do

749

00:30:33,230 --> 00:30:30,899

a real time fat check here I'm gonna

750

00:30:34,869 --> 00:30:33,240

look up superior mirages in Wikipedia

751

00:30:38,960 --> 00:30:34,879

and see what it says

752

00:30:42,409 --> 00:30:38,970

sound effect of typing actually typing

753

00:30:45,080 --> 00:30:42,419

all right superior Mirage so it says

754

00:30:46,609 --> 00:30:45,090

here that superior Mirage occurs when

755

00:30:48,950 --> 00:30:46,619

the air below the line of sight is

756

00:30:51,350 --> 00:30:48,960

colder than the air above it the light

757

00:30:54,049 --> 00:30:51,360

rays are bent down so the image appears

758

00:30:57,320 --> 00:30:54,059

of both the true object hence the name

759

00:30:59,330 --> 00:30:57,330

superior so superior Mirage

760

00:31:00,950 --> 00:30:59,340

this there's nothing implicit in a

761

00:31:01,900 --> 00:31:00,960

superior Mirage that says he has to be

762

00:31:05,230 --> 00:31:01,910

inverted

763

00:31:07,600 --> 00:31:05,240

sir no absolutely yeah anybody is like

764

00:31:09,340 --> 00:31:07,610

giving their argument it's like you ask

765

00:31:11,680 --> 00:31:09,350

them where where do you get that idea

766

00:31:13,750 --> 00:31:11,690

from where why do you think that because

767

00:31:14,830 --> 00:31:13,760

it has to be inverted while he's doing

768

00:31:17,200 --> 00:31:14,840

it

769

00:31:20,130 --> 00:31:17,210

yeah a lot of time when they do make

770

00:31:23,530 --> 00:31:20,140

that claim are showing videos of

771

00:31:26,860 --> 00:31:23,540

superior Chicago completely inverted

772

00:31:28,750 --> 00:31:26,870

there is a video on youtube of somebody

773

00:31:30,550 --> 00:31:28,760

taking it over the Volga Lake Michigan

774

00:31:33,340 --> 00:31:30,560

and it is just completely upside-down

775

00:31:34,990 --> 00:31:33,350

sits it's early early dusk or something

776

00:31:36,100 --> 00:31:35,000

like that and it's you know the

777

00:31:39,670 --> 00:31:36,110

weather's all over the place so it's

778

00:31:41,290 --> 00:31:39,680

it's completely inverted a lot of time

779

00:31:42,790 --> 00:31:41,300

I'll kind of bait him in a bit I'll show

780

00:31:45,330 --> 00:31:42,800

him a photo of it wait for them to say

781

00:31:47,920 --> 00:31:45,340

it's fake then give him the video of it

782

00:31:49,480 --> 00:31:47,930

but a lot of time I'll just say some say

783

00:31:51,370 --> 00:31:49,490

look if you do have questions feel free

784

00:31:53,980 --> 00:31:51,380

or inbox me if you want to avoid all the

785

00:31:55,150 --> 00:31:53,990

ego that there is on Facebook because

786

00:31:57,940 --> 00:31:55,160

you try having a conversation with

787

00:31:59,710 --> 00:31:57,950

sometimes someone will be happily

788

00:32:01,570 --> 00:31:59,720

talking's here well then you'll get

789

00:32:03,280 --> 00:32:01,580

other people I mean don't get me wrong

790

00:32:04,590 --> 00:32:03,290

there's enough abuse from both sides on

791

00:32:07,360 --> 00:32:04,600

Facebook I'm not saying it's more

792

00:32:10,180 --> 00:32:07,370

fighters than Global's I'm not saying

793

00:32:12,310 --> 00:32:10,190

it's more global than flowers there is

794

00:32:15,340 --> 00:32:12,320

an equal amount of abuse given so which

795

00:32:16,180 --> 00:32:15,350

is why I stay polite and respectful as

796

00:32:18,700 --> 00:32:16,190

much as I come

797

00:32:20,560 --> 00:32:18,710

yeah that's great another reason for

798

00:32:23,710 --> 00:32:20,570

that is because I find the flutter this'

799

00:32:25,540 --> 00:32:23,720

look for excuses so leave the debate so

800

00:32:26,170 --> 00:32:25,550

I try and give them as as few of them as

801

00:32:29,530 --> 00:32:26,180

possible

802

00:32:31,960 --> 00:32:29,540

yeah well yeah I stick to the lunar

803

00:32:33,370 --> 00:32:31,970

eclipse I'll stick to Chicago but the

804

00:32:36,010 --> 00:32:33,380

one thing I'll be sticking to lately is

805

00:32:38,140 --> 00:32:36,020

the horizon itself because a fire earth

806

00:32:40,690 --> 00:32:38,150

wouldn't have one so I explained to him

807

00:32:43,300 --> 00:32:40,700

why the question I ask is why does this

808

00:32:46,390 --> 00:32:43,310

why does a flat earth have a horizon so

809

00:32:48,760 --> 00:32:46,400

close so we can see around about 12

810

00:32:51,640 --> 00:32:48,770

miles before the atmosphere becomes an

811

00:32:53,290 --> 00:32:51,650

issue because obviously if you ask him

812

00:32:53,860 --> 00:32:53,300

why can't see the Eiffel Tower from New

813

00:32:55,300 --> 00:32:53,870

York

814

00:32:57,280 --> 00:32:55,310

we'll say because you can't see forever

815

00:32:59,170 --> 00:32:57,290

through the atmosphere which is correct

816

00:33:01,660 --> 00:32:59,180

it's around about 12 miles and then

817

00:33:03,460 --> 00:33:01,670

everything starts becoming upskilled and

818

00:33:05,920 --> 00:33:03,470

what the horizon

819

00:33:07,180 --> 00:33:05,930

you know there's millions of sources

820

00:33:12,490 --> 00:33:07,190

showing their it's around about three

821

00:33:15,200 --> 00:33:12,500

miles from the average eye hi yeah so I

822

00:33:18,260 --> 00:33:15,210

just asked so what is the horizon

823

00:33:20,690 --> 00:33:18,270

on a flat earth what is the horizon how

824

00:33:23,600 --> 00:33:20,700

do you explain a horizon especially one

825

00:33:25,550 --> 00:33:23,610

so close so you get the usual answers

826

00:33:26,900 --> 00:33:25,560

well it's just the viewing distance it's

827

00:33:28,940 --> 00:33:26,910

like well this niqab the viewing

828

00:33:31,040 --> 00:33:28,950

distance because you can see that we see

829

00:33:33,470 --> 00:33:31,050

around 12 miles and I'll give them links

830

00:33:35,990 --> 00:33:33,480

because there are scientific websites

831

00:33:38,110 --> 00:33:36,000

that also explain this so whether they

832

00:33:41,210 --> 00:33:38,120

believe it or not there's the evidence

833

00:33:42,680 --> 00:33:41,220

find flaws in the evidence if you find

834

00:33:44,870 --> 00:33:42,690

flaws and the other tuners come back to

835

00:33:46,310 --> 00:33:44,880

me because a lot of them don't do that

836

00:33:49,490 --> 00:33:46,320

a lot of them just say well you're wrong

837

00:33:51,830 --> 00:33:49,500

because of this it's not well okay well

838

00:33:55,040 --> 00:33:51,840

what you're giving me is your example

839

00:33:59,000 --> 00:33:55,050

has been answered by science and has not

840

00:34:00,800 --> 00:33:59,010

been addressed so it's just all I try

841

00:34:03,140 --> 00:34:00,810

and do more than anything is just get

842

00:34:07,010 --> 00:34:03,150

people to cross examine what they're

843

00:34:09,770 --> 00:34:07,020

here whether it's from either side so so

844

00:34:12,050 --> 00:34:09,780

when you when you were in the flat earth

845

00:34:16,340 --> 00:34:12,060

like a questioning mode like originally

846

00:34:17,780 --> 00:34:16,350

if someone had asked you how do you

847

00:34:18,980 --> 00:34:17,790

explain the horizon what do you think

848

00:34:23,320 --> 00:34:18,990

you would have said to them back then

849

00:34:24,740 --> 00:34:23,330

and another claim to be fed probably go

850

00:34:28,820 --> 00:34:24,750

what I'd have done

851

00:34:31,490 --> 00:34:28,830

typed into YouTube Flat Earth

852

00:34:35,090 --> 00:34:31,500

what is the horizon Flat Earth horizon

853

00:34:37,340 --> 00:34:35,100

because when you when you're that side

854

00:34:39,680 --> 00:34:37,350

of the argument that's how you research

855

00:34:41,960 --> 00:34:39,690

you find the answers that Flat Earth is

856

00:34:43,390 --> 00:34:41,970

good because you feel that everything

857

00:34:46,310 --> 00:34:43,400

else is a lie

858

00:34:47,900 --> 00:34:46,320

Saurus it's not about finding faults in

859

00:34:50,510 --> 00:34:47,910

the answers it's about finding the

860

00:34:52,100 --> 00:34:50,520

answers that work I'm going to try it

861

00:34:54,110 --> 00:34:52,110

right now I'm going to type in flutter

862

00:34:56,000 --> 00:34:54,120

horizon because there YouTube changed

863

00:34:59,540 --> 00:34:56,010

recently like you don't get as many

864

00:35:03,700 --> 00:34:59,550

results when you type in a flat earth

865

00:35:08,410 --> 00:35:03,710

stuff so I need a flat earth yeah

866

00:35:10,280 --> 00:35:08,420

horizon see if we get any results now

867

00:35:15,350 --> 00:35:10,290

you know we're getting a bunch of

868

00:35:16,760 --> 00:35:15,360

debunking stuff here so it's I guess I

869

00:35:19,010 --> 00:35:16,770

mean you would have got out of the whole

870

00:35:21,950 --> 00:35:19,020

flutter thing before they changed

871

00:35:24,170 --> 00:35:21,960

YouTube so what when you when you were a

872

00:35:25,400 --> 00:35:24,180

fighter believer or someone who was you

873

00:35:27,830 --> 00:35:25,410

know thought that the problems with a

874

00:35:28,850 --> 00:35:27,840

globe model you were like going into

875

00:35:30,440 --> 00:35:28,860

YouTube

876

00:35:32,330 --> 00:35:30,450

and you just find an answer like

877

00:35:33,620 --> 00:35:32,340

straightaway to whatever the question

878

00:35:35,240 --> 00:35:33,630

was and then you bear to say look at

879

00:35:37,880 --> 00:35:35,250

this like you know there's a the horizon

880

00:35:40,940 --> 00:35:37,890

is due to like perspective or it's due

881

00:35:42,470 --> 00:35:40,950

to you know things being too small and

882

00:35:44,510 --> 00:35:42,480

things like that and things get smaller

883

00:35:47,420 --> 00:35:44,520

at the bottom more than they get smaller

884

00:35:51,500 --> 00:35:47,430

at the top so yes I mean the amount size

885

00:35:53,750 --> 00:35:51,510

of it the SAO its perspective it's not

886

00:35:55,870 --> 00:35:53,760

all perspectives just a word the only

887

00:35:57,950 --> 00:35:55,880

perspective involved is the viewing hi

888

00:35:59,810 --> 00:35:57,960

you know that's that's the perspective

889

00:36:02,360 --> 00:35:59,820

involved in that example the viewing

890

00:36:04,190 --> 00:36:02,370

height is you know the average eye high

891

00:36:05,870 --> 00:36:04,200

so there's your perspective and they'll

892

00:36:07,790 --> 00:36:05,880

say well it's convergence what public

893

00:36:09,280 --> 00:36:07,800

clamor convergence because if the

894

00:36:11,840 --> 00:36:09,290

horizon was due to convergence

895

00:36:14,390 --> 00:36:11,850

everything would disappear to a point on

896

00:36:16,820 --> 00:36:14,400

the horizon because everything converges

897

00:36:19,400 --> 00:36:16,830

to that point but it's not because you

898

00:36:21,560 --> 00:36:19,410

see ships going down another point I

899

00:36:23,060 --> 00:36:21,570

will say when sorry speaking to another

900

00:36:25,550 --> 00:36:23,070

guy they say well you look through a

901
00:36:28,730 --> 00:36:25,560
telescope and you can bring it back over

902
00:36:30,110 --> 00:36:28,740
the horizon so you what I'll do a lot of

903
00:36:31,640 --> 00:36:30,120
times I'll go with that I'll say well

904
00:36:33,500 --> 00:36:31,650
okay how about when you're looking

905
00:36:36,680 --> 00:36:33,510
through your telescope and then it goes

906
00:36:38,960 --> 00:36:36,690
below the horizon and then they've got

907
00:36:40,910 --> 00:36:38,970
no answer mm-hmm it's like all the

908
00:36:43,490 --> 00:36:40,920
telescope does is it magnifies an image

909
00:36:45,530 --> 00:36:43,500
it doesn't it's not a magical telescope

910
00:36:47,750 --> 00:36:45,540
that bends around corners it just

911
00:36:50,870 --> 00:36:47,760
magnifies an image so it makes what you

912
00:36:52,310 --> 00:36:50,880
can see larger but why you was

913
00:36:57,440 --> 00:36:52,320

explaining this is a guy you still see

914

00:36:59,990 --> 00:36:57,450

half the ball missing so it's it half

915

00:37:04,010 --> 00:37:00,000

the time that disproven themselves just

916

00:37:06,500 --> 00:37:04,020

be a lack of a lack of research it's not

917

00:37:07,850 --> 00:37:06,510

that complicated really to look into

918

00:37:09,800 --> 00:37:07,860

things like that you think that they

919

00:37:12,980 --> 00:37:09,810

would you actually check these things

920

00:37:15,860 --> 00:37:12,990

out but you still get the same arguments

921

00:37:17,870 --> 00:37:15,870

year after year I why it's why can't we

922

00:37:20,270 --> 00:37:17,880

like just have like one good debunk or

923

00:37:23,240 --> 00:37:20,280

something explaining it and happier yeah

924

00:37:26,090 --> 00:37:23,250

and people can look that up I believe

925

00:37:28,730 --> 00:37:26,100

that it's mainly down to why I used to

926

00:37:32,320 --> 00:37:28,740

think was the definition of cognitive

927

00:37:34,610 --> 00:37:32,330

dissonance now where there's actually

928

00:37:37,730 --> 00:37:34,620

confirmation bias it's the correct term

929

00:37:41,360 --> 00:37:37,740

for it they dismissed evidence that goes

930

00:37:42,760 --> 00:37:41,370

against their beliefs just the like you

931

00:37:45,250 --> 00:37:42,770

hear a lot of time

932

00:37:46,600 --> 00:37:45,260

because back to freemasons whenever you

933

00:37:48,040 --> 00:37:46,610

get to a point where they've got no

934

00:37:50,650 --> 00:37:48,050

answers left well

935

00:37:52,270 --> 00:37:50,660

Pythagoras was a freemason it gets the

936

00:37:54,580 --> 00:37:52,280

point where you they leave you with no

937

00:37:56,290 --> 00:37:54,590

comeback is that well I don't care

938

00:37:58,750 --> 00:37:56,300

whether he was an eight-legged unicorn

939

00:38:01,510 --> 00:37:58,760

who lived in the sea it's his evidence

940

00:38:03,040 --> 00:38:01,520

that Mars it doesn't matter who's giving

941

00:38:04,960 --> 00:38:03,050

it it's not like you going off

942

00:38:10,690 --> 00:38:04,970

Pythagoras's word when you you need

943

00:38:12,370 --> 00:38:10,700

figuring out whether a triangle like it

944

00:38:14,740 --> 00:38:12,380

actually does these things you can check

945

00:38:17,650 --> 00:38:14,750

that for yourself it's not when they go

946

00:38:20,080 --> 00:38:17,660

on about NASA if they do about NASA and

947

00:38:22,600 --> 00:38:20,090

gravity a hell of a lot and I say to him

948

00:38:24,940 --> 00:38:22,610

say look humans have known the airship

949

00:38:27,490 --> 00:38:24,950

globe for around 2,500 years that's

950

00:38:30,910 --> 00:38:27,500

around 2400 years before NASA was even

951
00:38:32,740 --> 00:38:30,920
created NASA completely irrelevant you

952
00:38:34,990 --> 00:38:32,750
wondered you were gonna disbelieve

953
00:38:36,610 --> 00:38:35,000
everything NASA say find it fair enough

954
00:38:38,620 --> 00:38:36,620
so don't bring them into the argument

955
00:38:40,800 --> 00:38:38,630
don't try and use proving them as fake

956
00:38:43,810 --> 00:38:40,810
as proving the earth is flat

957
00:38:45,340 --> 00:38:43,820
because you could if you somehow managed

958
00:38:47,800 --> 00:38:45,350
to disprove everything NASA have ever

959
00:38:49,570 --> 00:38:47,810
done the evidence of the globe is still

960
00:38:51,160 --> 00:38:49,580
going to be there waiting for you even

961
00:38:53,830 --> 00:38:51,170
if you somehow managed to completely

962
00:38:55,540 --> 00:38:53,840
discredit gravity the evidence which

963
00:38:57,280 --> 00:38:55,550

proves the globe will still be a

964

00:38:58,930 --> 00:38:57,290

weighing for you it's just a lot of

965

00:39:01,660 --> 00:38:58,940

around the houses for him you've got to

966

00:39:03,580 --> 00:39:01,670

draw them away from it's just trying to

967

00:39:05,590 --> 00:39:03,590

get a flat earther to follow that lead

968

00:39:07,870 --> 00:39:05,600

and gold down there and naturally

969

00:39:09,430 --> 00:39:07,880

cross-examine what they're Saints here

970

00:39:11,020 --> 00:39:09,440

because they bother to convince

971

00:39:13,120 --> 00:39:11,030

themselves that that's that's correct

972

00:39:15,820 --> 00:39:13,130

and true sois

973

00:39:18,340 --> 00:39:15,830

is an almost impossible mountain to

974

00:39:20,620 --> 00:39:18,350

climb to get him to cross examine what

975

00:39:23,140 --> 00:39:20,630

they're using as proof it is it's very

976

00:39:24,910 --> 00:39:23,150

difficult and I think it's great that

977

00:39:28,270 --> 00:39:24,920

you actually go out there and do it

978

00:39:30,960 --> 00:39:28,280

I but what why are you doing it why are

979

00:39:35,410 --> 00:39:30,970

you actually engaging Flat Earth people

980

00:39:37,300 --> 00:39:35,420

what your last five guy said was exactly

981

00:39:39,160 --> 00:39:37,310

the same the one one credit will give

982

00:39:41,710 --> 00:39:39,170

him was he said he's learned a hell of a

983

00:39:44,710 --> 00:39:41,720

lot about physics and science looking

984

00:39:46,390 --> 00:39:44,720

into it and I'm exactly the same at the

985

00:39:48,940 --> 00:39:46,400

amount of science I've learned through

986

00:39:52,150 --> 00:39:48,950

debate in Flat Earth has been immense

987

00:39:54,100 --> 00:39:52,160

far more than I've learned in the

988

00:39:56,380 --> 00:39:54,110

previous god knows how many years in my

989

00:39:59,380 --> 00:39:56,390

life it's

990

00:40:02,109 --> 00:39:59,390

is this he's like um it's like mental

991

00:40:04,269 --> 00:40:02,119

exercise right yeah yeah I I asked for

992

00:40:06,009 --> 00:40:04,279

no give me some evidence and just see

993

00:40:07,960 --> 00:40:06,019

what they come up with next and okay

994

00:40:10,239 --> 00:40:07,970

well is the answer to that how'd you

995

00:40:12,160 --> 00:40:10,249

how'd you challenge that and you get

996

00:40:13,299 --> 00:40:12,170

past all the abuse and stuff cuz I love

997

00:40:14,890 --> 00:40:13,309

and I'll give you a lot of abuse but

998

00:40:16,690 --> 00:40:14,900

then they'll be quite nice afterwards

999

00:40:18,940 --> 00:40:16,700

because they realize you're just not one

1000

00:40:21,190 --> 00:40:18,950

of those who's gonna or you know you

1001

00:40:22,450 --> 00:40:21,200

know either flat head and all the rest

1002

00:40:24,220 --> 00:40:22,460

and whatever they want to Karl I mean

1003

00:40:25,989 --> 00:40:24,230

it's just once you get down to a

1004

00:40:27,999 --> 00:40:25,999

sensible conversation there are some

1005

00:40:31,029 --> 00:40:28,009

really nice and respectful people there

1006

00:40:33,970 --> 00:40:31,039

that just seem a bit misguided and in

1007

00:40:35,529 --> 00:40:33,980

some affair purposely manipulated by

1008

00:40:36,999 --> 00:40:35,539

these videos I'm obviously a lot of

1009

00:40:38,620 --> 00:40:37,009

these youtubers that in if it clicks

1010

00:40:40,509 --> 00:40:38,630

they making money off the YouTube videos

1011

00:40:42,609 --> 00:40:40,519

so of course they're going to keep the

1012

00:40:46,829 --> 00:40:42,619

answers coming and course they're going

1013

00:40:49,390 --> 00:40:46,839

to keep giving their evidence that works

1014

00:40:51,309 --> 00:40:49,400

because the game looks like Nathan

1015

00:40:53,049 --> 00:40:51,319

Thompson for instance he's probably

1016

00:40:54,999 --> 00:40:53,059

earning a hell of a lot of money Eric to

1017

00:40:56,710 --> 00:40:55,009

buy whether he's still relevant I don't

1018

00:40:58,630 --> 00:40:56,720

know he's published still earning a lot

1019

00:41:01,029 --> 00:40:58,640

of money off his videos I still see

1020

00:41:02,950 --> 00:41:01,039

people calling that 200 proofs birth is

1021

00:41:04,900 --> 00:41:02,960

not a goal you know I think years ago I

1022

00:41:06,160 --> 00:41:04,910

did a full write-up on that I mean to be

1023

00:41:10,870 --> 00:41:06,170

fair after them are probably wrong

1024

00:41:13,650 --> 00:41:10,880

because of where I was at with the

1025

00:41:15,910 --> 00:41:13,660

scientific knowledge at the time yeah

1026

00:41:18,309 --> 00:41:15,920

yeah the tune of proofs that mean that

1027

00:41:20,920 --> 00:41:18,319

goes back to like the original flat

1028

00:41:23,259 --> 00:41:20,930

earther popularised was his name Samuel

1029

00:41:24,640 --> 00:41:23,269

Rowbotham because he like yeah Eric

1030

00:41:26,950 --> 00:41:24,650

Dubay you know he's like the modern-day

1031

00:41:29,589 --> 00:41:26,960

equivalent and Samuel Rowbotham did make

1032

00:41:31,269 --> 00:41:29,599

a living from from flatter I don't know

1033

00:41:33,069 --> 00:41:31,279

if the might if the modern people do

1034

00:41:36,789 --> 00:41:33,079

especially now that YouTube's kind of

1035

00:41:39,130 --> 00:41:36,799

cut off the the spigot of of clicks yeah

1036

00:41:40,870 --> 00:41:39,140

I mean that's probably why you see them

1037

00:41:42,579 --> 00:41:40,880

do it if it's like Nathan Thompson was

1038

00:41:45,120 --> 00:41:42,589

arrested yeah a couple of days ago was

1039

00:41:49,180 --> 00:41:45,130

he for school but he's getting publicity

1040

00:41:51,970 --> 00:41:49,190

yes he was outside schools give him

1041

00:41:54,670 --> 00:41:51,980

leaflets to kids he he goes resting hmmm

1042

00:41:56,380 --> 00:41:54,680

yeah he was it was shouting my research

1043

00:41:57,940 --> 00:41:56,390

flat earth to like you know that

1044

00:41:59,559 --> 00:41:57,950

ten-year-old school kids or something

1045

00:42:02,470 --> 00:41:59,569

and they called the police and had him

1046

00:42:03,549 --> 00:42:02,480

arrested I mean quite rightly so I mean

1047

00:42:05,380 --> 00:42:03,559

there is that about

1048

00:42:06,700 --> 00:42:05,390

whether he believes it fully or not

1049

00:42:09,960 --> 00:42:06,710

there's better ways to go about it

1050

00:42:13,290 --> 00:42:09,970

harassing school kids yeah

1051

00:42:15,720 --> 00:42:13,300

yeah this it's like him and some other

1052

00:42:18,330 --> 00:42:15,730

guy Canterbury's name what they've done

1053

00:42:22,320 --> 00:42:18,340

I think it's got angel in his name

1054

00:42:25,980 --> 00:42:22,330

somewhere they've piled like a thousand

1055

00:42:28,260 --> 00:42:25,990

dollar challenge for anyone who can show

1056

00:42:33,300 --> 00:42:28,270

evidence of water sticking to a spinning

1057

00:42:34,920 --> 00:42:33,310

bowl dummies thing saying well you find

1058

00:42:38,250 --> 00:42:34,930

me a place that is unaffected by the

1059

00:42:40,080 --> 00:42:38,260

Earth's gravity and I'll show you you

1060

00:42:41,370 --> 00:42:40,090

know these videos of the astronauts in

1061

00:42:43,920 --> 00:42:41,380

space putting water on a washcloth

1062

00:42:46,440 --> 00:42:43,930

wringing it out and the water conforms

1063

00:42:48,660 --> 00:42:46,450

to the exterior of the object you know

1064

00:42:50,880 --> 00:42:48,670

you can't do it while both the ball and

1065

00:42:53,070 --> 00:42:50,890

the water are affected by the Earth's

1066

00:42:56,359 --> 00:42:53,080

gravity now I find it hard to believe

1067

00:42:59,940 --> 00:42:56,369

they're not aware of this yeah is just

1068

00:43:01,770 --> 00:42:59,950

manipulation yeah I think I think to a

1069

00:43:04,109 --> 00:43:01,780

large degree like yet people have been

1070

00:43:08,450 --> 00:43:04,119

doing it a long time they've heard all

1071

00:43:11,670 --> 00:43:08,460

of the objections and they basically

1072

00:43:13,680 --> 00:43:11,680

ignoring them and so that they know what

1073

00:43:16,770 --> 00:43:13,690

you're gonna say when you you you know

1074

00:43:18,450 --> 00:43:16,780

if if you say if they say like well why

1075

00:43:20,460 --> 00:43:18,460

doesn't the atmosphere fly off into

1076
00:43:23,400 --> 00:43:20,470
space and you can't have like you know

1077
00:43:25,349 --> 00:43:23,410
grab a vacuum on one side without

1078
00:43:27,300 --> 00:43:25,359
without a container and then you say

1079
00:43:30,060 --> 00:43:27,310
it's because there's a pressure gradient

1080
00:43:31,980 --> 00:43:30,070
going from air pressure at the bottom to

1081
00:43:33,329 --> 00:43:31,990
vacuum in the space and as you go up and

1082
00:43:35,910 --> 00:43:33,339
mount in the air pressure gets less and

1083
00:43:38,010 --> 00:43:35,920
why is that then they know you're gonna

1084
00:43:40,560 --> 00:43:38,020
give that argument because I've heard it

1085
00:43:42,740 --> 00:43:40,570
before and they'll just cite is it

1086
00:43:46,290 --> 00:43:42,750
because they can't touch the addresses

1087
00:43:48,690 --> 00:43:46,300
exactly so it all I'll say cuz obviously

1088
00:43:50,400 --> 00:43:48,700

if you start speaking in those terms to

1089

00:43:51,930 --> 00:43:50,410

a flat earther then all of a sudden D

1090

00:43:53,970 --> 00:43:51,940

they don't understand science at all

1091

00:43:56,130 --> 00:43:53,980

you're talking nonsense that's all or

1092

00:43:58,230 --> 00:43:56,140

what the Freemason said years ago and

1093

00:43:58,890 --> 00:43:58,240

you just taken in that's kind of their

1094

00:44:00,750 --> 00:43:58,900

response

1095

00:44:02,460 --> 00:44:00,760

so what I'll say is you're under the

1096

00:44:04,710 --> 00:44:02,470

impression that the vacuum of space is

1097

00:44:06,960 --> 00:44:04,720

somehow sucking yeah and it's not

1098

00:44:08,240 --> 00:44:06,970

there's no suction to the vacuum of

1099

00:44:10,859 --> 00:44:08,250

space

1100

00:44:12,660 --> 00:44:10,869

we don't know long I'm I'm no scientist

1101

00:44:14,190 --> 00:44:12,670

I'm not very scientific I don't

1102

00:44:16,560 --> 00:44:14,200

understand the ins and outs of space

1103

00:44:20,760 --> 00:44:16,570

that the vacuum is but if somebody asked

1104

00:44:22,520 --> 00:44:20,770

me how does the atmosphere not get

1105

00:44:24,560 --> 00:44:22,530

sucked off into space I wouldn't be able

1106

00:44:26,990 --> 00:44:24,570

to give them a scientific answer most

1107

00:44:29,000 --> 00:44:27,000

people know us nobody would even like

1108

00:44:31,310 --> 00:44:29,010

lots of scientists because they don't

1109

00:44:33,800 --> 00:44:31,320

think about it it's not like a problem

1110

00:44:35,830 --> 00:44:33,810

that they need to address so you could

1111

00:44:38,240 --> 00:44:35,840

you go to like everybody in the street

1112

00:44:39,980 --> 00:44:38,250

you can ask a hundred people and you

1113

00:44:41,390 --> 00:44:39,990

probably wouldn't get the answer from a

1114

00:44:44,330 --> 00:44:41,400

hundred people who are strange but it's

1115

00:44:48,410 --> 00:44:44,340

not something people think about so a

1116

00:44:51,140 --> 00:44:48,420

lot of the time there are people in the

1117

00:44:52,760 --> 00:44:51,150

Flat Earth groups on the globe side that

1118

00:44:54,140 --> 00:44:52,770

do fully explain these things I mean

1119

00:44:57,020 --> 00:44:54,150

whether they're just copy and pasting

1120

00:44:59,930 --> 00:44:57,030

from websites I don't know I'm gonna

1121

00:45:02,330 --> 00:44:59,940

just teaches you now whether these and

1122

00:45:04,190 --> 00:45:02,340

if the fly earth is that I call fake

1123

00:45:06,320 --> 00:45:04,200

Flat Earth is the ultra Star gyu for

1124

00:45:08,690 --> 00:45:06,330

argument's sake no matter what you tell

1125

00:45:10,850 --> 00:45:08,700

them if they're taking on board the

1126
00:45:13,520 --> 00:45:10,860
answers that they're being given whether

1127
00:45:15,440 --> 00:45:13,530
that it making it or not and hey people

1128
00:45:17,360 --> 00:45:15,450
are learning science you know and when

1129
00:45:18,920 --> 00:45:17,370
they know because obviously the majority

1130
00:45:21,170 --> 00:45:18,930
of people who stop being flat earthers

1131
00:45:23,390 --> 00:45:21,180
just stop being flat earthers dancer and

1132
00:45:25,310 --> 00:45:23,400
I'm saying okay now I know I'm wrong

1133
00:45:28,970 --> 00:45:25,320
does not see it making you wrong isn't

1134
00:45:32,030 --> 00:45:28,980
the most enjoyable thing to do in a flat

1135
00:45:35,360 --> 00:45:32,040
earth group on Facebook because you just

1136
00:45:36,980 --> 00:45:35,370
get jumps on bag both sides then so a

1137
00:45:39,140 --> 00:45:36,990
lot of them just back out and don't

1138
00:45:40,460 --> 00:45:39,150

bother with anymore but for me it was a

1139

00:45:44,600 --> 00:45:40,470

matter if if I'd have had somebody

1140

00:45:46,040 --> 00:45:44,610

like me if I'd have listened support

1141

00:45:48,530 --> 00:45:46,050

about if I had to listen to somebody

1142

00:45:49,730 --> 00:45:48,540

like me when I was on that side I'd

1143

00:45:53,380 --> 00:45:49,740

probably come out of it a lot quicker

1144

00:45:56,090 --> 00:45:53,390

and probably a lot smarter as well yeah

1145

00:45:58,220 --> 00:45:56,100

just like say there are answers they

1146

00:46:00,140 --> 00:45:58,230

just not being addressed and yes that's

1147

00:46:02,300 --> 00:46:00,150

the main problem is that the main

1148

00:46:03,920 --> 00:46:02,310

problem with Flat Earth there's these

1149

00:46:05,720 --> 00:46:03,930

little interesting stuff as well I think

1150

00:46:08,990 --> 00:46:05,730

that's something you can do is they try

1151
00:46:10,970 --> 00:46:09,000
to you know show them how interesting

1152
00:46:11,960 --> 00:46:10,980
the actual physics is I'm trying to

1153
00:46:14,150 --> 00:46:11,970
teach some stuff about it being

1154
00:46:17,630 --> 00:46:14,160
interesting like without them fighting

1155
00:46:19,010 --> 00:46:17,640
back do you how much how much success of

1156
00:46:21,110 --> 00:46:19,020
your head have you had people that have

1157
00:46:23,780 --> 00:46:21,120
actually like you know got out of it

1158
00:46:28,130 --> 00:46:23,790
because of what you've said to them I've

1159
00:46:30,620 --> 00:46:28,140
only had two messages um I PM's on

1160
00:46:34,030 --> 00:46:30,630
Facebook has someone to say look thanks

1161
00:46:36,049 --> 00:46:34,040
a lot you vote me as a but then

1162
00:46:37,670 --> 00:46:36,059
sometimes you could spot the one

1163
00:46:40,309 --> 00:46:37,680

they're actually asking questions and

1164

00:46:44,150 --> 00:46:40,319

they're actually just curious and not

1165

00:46:45,829 --> 00:46:44,160

just on the offensive so I enjoy

1166

00:46:47,660 --> 00:46:45,839

speaking to them and I'll say you know

1167

00:46:49,759 --> 00:46:47,670

I'll invite them to inbox me because

1168

00:46:51,410 --> 00:46:49,769

I'll be having a nice conversation with

1169

00:46:53,859 --> 00:46:51,420

someone and then another global or come

1170

00:46:56,209 --> 00:46:53,869

in and start giving them a load of crap

1171

00:46:58,130 --> 00:46:56,219

it's unnecessary you can do it in a

1172

00:47:00,079 --> 00:46:58,140

better way you know it can be done in a

1173

00:47:02,959 --> 00:47:00,089

better way just be respectful and if

1174

00:47:06,199 --> 00:47:02,969

they take it on board let's just don't

1175

00:47:07,819 --> 00:47:06,209

give them any reason to run off they'd

1176
00:47:10,279 --> 00:47:07,829
like a dam in a headlight you've got to

1177
00:47:12,199 --> 00:47:10,289
be you've gotta be careful how you

1178
00:47:13,339 --> 00:47:12,209
approach them you don't want to scare

1179
00:47:15,499 --> 00:47:13,349
them off and just leave them to the old

1180
00:47:17,420 --> 00:47:15,509
well you just being brainwashed and you

1181
00:47:19,249 --> 00:47:17,430
being indoctrinated I think I think fly

1182
00:47:21,170 --> 00:47:19,259
earth is accusing us of being

1183
00:47:24,439 --> 00:47:21,180
indoctrinated is the most hypocritical

1184
00:47:26,959 --> 00:47:24,449
thing in Flat Earth because they're

1185
00:47:30,890 --> 00:47:26,969
getting their evidence from YouTube

1186
00:47:31,969 --> 00:47:30,900
which is offering no evidence it's like

1187
00:47:34,910 --> 00:47:31,979
what what's the evidence well the

1188
00:47:35,959 --> 00:47:34,920

horizons flat of course is you know what

1189

00:47:39,170 --> 00:47:35,969

are you expecting you're thinking that

1190

00:47:40,130 --> 00:47:39,180

as you turn it's gonna go down what

1191

00:47:41,749 --> 00:47:40,140

happens if you turn all the way around

1192

00:47:43,519 --> 00:47:41,759

are you gonna be upset you know

1193

00:47:46,160 --> 00:47:43,529

obviously like I tell them it's like

1194

00:47:48,529 --> 00:47:46,170

second a pump the panoramic photo it's

1195

00:47:50,809 --> 00:47:48,539

gonna be flour all around that is what

1196

00:47:52,689 --> 00:47:50,819

should be expected yeah that's not

1197

00:47:55,219 --> 00:47:52,699

another one of those ratios of things

1198

00:47:57,109 --> 00:47:55,229

it's hard to figure out but but you can

1199

00:47:58,880 --> 00:47:57,119

also if you get if you get higher up you

1200

00:48:00,679 --> 00:47:58,890

can take a photo of the horizon it is

1201
00:48:02,839 --> 00:48:00,689
curved and then they say like well why

1202
00:48:04,939 --> 00:48:02,849
didn't you keep curving so it's it's

1203
00:48:07,939 --> 00:48:04,949
kind of a confusing thing to think about

1204
00:48:10,669 --> 00:48:07,949
and it's easy to just see yeah dismiss

1205
00:48:15,229 --> 00:48:10,679
it fall sort of curvature they won't

1206
00:48:17,509 --> 00:48:15,239
accept because obviously on a on a

1207
00:48:18,049 --> 00:48:17,519
passenger plane you know on a commercial

1208
00:48:20,660 --> 00:48:18,059
flight

1209
00:48:23,059 --> 00:48:20,670
you don't really get high enough to see

1210
00:48:24,589 --> 00:48:23,069
curvature out of your small window you

1211
00:48:26,150 --> 00:48:24,599
may be the pilot because he's got like a

1212
00:48:28,009 --> 00:48:26,160
180 view

1213
00:48:29,569 --> 00:48:28,019

he'll be able to detect a slight

1214

00:48:33,109 --> 00:48:29,579

curvature at like thirty thirty five

1215

00:48:35,539 --> 00:48:33,119

thousand but then you've got the u-2 spy

1216

00:48:37,459 --> 00:48:35,549

planes that got videos about seventy

1217

00:48:40,009 --> 00:48:37,469

thousand which show play and curvature

1218

00:48:42,199 --> 00:48:40,019

you take us still of it and the wing is

1219

00:48:44,329 --> 00:48:42,209

in the picture and the wing is

1220

00:48:44,900 --> 00:48:44,339

completely unaffected by any fisheye

1221

00:48:49,500 --> 00:48:44,910

lens

1222

00:48:52,020 --> 00:48:49,510

plane then

1223

00:48:54,690 --> 00:48:52,030

the far the curvature of the earth to be

1224

00:48:57,180 --> 00:48:54,700

caused by the fisheye lens would cause

1225

00:48:59,370 --> 00:48:57,190

the wing of the plane to arsal also be

1226
00:49:02,010 --> 00:48:59,380
very distorted you look at the redbull

1227
00:49:04,260 --> 00:49:02,020
Djem I mean that's clearly very very

1228
00:49:06,510 --> 00:49:04,270
fisheye because all the captial they

1229
00:49:08,339 --> 00:49:06,520
jumped are all the straight lines of any

1230
00:49:11,099 --> 00:49:08,349
curves yeah and obviously the Earth's

1231
00:49:12,660 --> 00:49:11,109
extra curve so it's not something I'd

1232
00:49:15,450 --> 00:49:12,670
use as evidence myself because it's a

1233
00:49:16,349 --> 00:49:15,460
clear fisheye lens and they want to take

1234
00:49:18,960 --> 00:49:16,359
it but even if you put it through

1235
00:49:20,430 --> 00:49:18,970
correction they'd still be curved it is

1236
00:49:23,390 --> 00:49:20,440
I did actually do that because they had

1237
00:49:25,710 --> 00:49:23,400
some of the raw images of that jump

1238
00:49:26,970 --> 00:49:25,720

where he jumped from the capture like it

1239

00:49:29,910 --> 00:49:26,980

was like a hundred thousand feet or

1240

00:49:31,859 --> 00:49:29,920

something like that and it had the lens

1241

00:49:33,690 --> 00:49:31,869

profile embedded in it so I could get

1242

00:49:35,849 --> 00:49:33,700

put into Photoshop and do the actual

1243

00:49:38,670 --> 00:49:35,859

correction for him it comes out and you

1244

00:49:39,960 --> 00:49:38,680

can see see the actual curve because you

1245

00:49:41,760 --> 00:49:39,970

know what's gonna accept that because

1246

00:49:43,500 --> 00:49:41,770

they'll think it's just you know meet me

1247

00:49:45,930 --> 00:49:43,510

faking it or whatever or it's the

1248

00:49:47,460 --> 00:49:45,940

Photoshop faking it but did you know

1249

00:49:49,680 --> 00:49:47,470

that you can actually see the curve from

1250

00:49:52,319 --> 00:49:49,690

like about a thousand feet like five

1251
00:49:54,780 --> 00:49:52,329
hundred to a thousand feet if you take a

1252
00:49:56,550 --> 00:49:54,790
photograph of the horizon from my

1253
00:50:00,120 --> 00:49:56,560
standing up on a cliff at about a

1254
00:50:02,339 --> 00:50:00,130
thousand feet it looks very flat because

1255
00:50:04,440 --> 00:50:02,349
you know you're very low down so there's

1256
00:50:06,480 --> 00:50:04,450
hardly any curve visible but if you take

1257
00:50:09,180 --> 00:50:06,490
the photo and you're squeezing the sides

1258
00:50:11,220 --> 00:50:09,190
and kind of pull out the the top you can

1259
00:50:14,640 --> 00:50:11,230
actually magnify the curve enough so you

1260
00:50:16,260 --> 00:50:14,650
can actually see it and then you can go

1261
00:50:19,140 --> 00:50:16,270
out and like take an actual straight

1262
00:50:20,490 --> 00:50:19,150
edge like an actual like a like a spirit

1263
00:50:22,559 --> 00:50:20,500

level or something like a carpenter's

1264

00:50:24,329 --> 00:50:22,569

level and put that just under the

1265

00:50:26,940 --> 00:50:24,339

horizon or just above the horizon or

1266

00:50:29,640 --> 00:50:26,950

preferably both and take that photograph

1267

00:50:32,069 --> 00:50:29,650

and then you compress it and stretch it

1268

00:50:38,599 --> 00:50:32,079

and you will actually see the actual

1269

00:50:43,559 --> 00:50:42,000

obviously you start and if you start

1270

00:50:45,569 --> 00:50:43,569

messing with Falls you know obviously

1271

00:50:47,880 --> 00:50:45,579

the instant instant reaction your gaze

1272

00:50:49,770 --> 00:50:47,890

while you're messing you know you doctor

1273

00:50:51,240 --> 00:50:49,780

gonna fall so it's a very simple thing

1274

00:50:53,420 --> 00:50:51,250

though it's just stretching it

1275

00:50:56,609 --> 00:50:53,430

vertically and I understand the logic

1276
00:50:58,079 --> 00:50:56,619
yes and that will argue they will say oh

1277
00:51:01,380 --> 00:50:58,089
yeah you're stretching it so you're

1278
00:51:03,000 --> 00:51:01,390
making the curve but you can I

1279
00:51:04,500 --> 00:51:03,010
I mean you can actually show them that

1280
00:51:06,720 --> 00:51:04,510
if you start out with an actual straight

1281
00:51:08,370 --> 00:51:06,730
line and you stretch that straight line

1282
00:51:10,500 --> 00:51:08,380
it just becomes a thicker line it

1283
00:51:11,580 --> 00:51:10,510
doesn't become a curved line you have to

1284
00:51:15,990 --> 00:51:11,590
actually have something that's very

1285
00:51:18,030 --> 00:51:16,000
slightly curved in order to to make you

1286
00:51:19,050 --> 00:51:18,040
know the curve be magnified and this is

1287
00:51:20,880 --> 00:51:19,060
something that's one of those things

1288
00:51:23,370 --> 00:51:20,890

that they're either going to have to

1289

00:51:25,500 --> 00:51:23,380

ignore or they've actually going to

1290

00:51:28,140 --> 00:51:25,510

actually going to have to address it no

1291

00:51:29,250 --> 00:51:28,150

absolutely I mean I always try and do is

1292

00:51:32,220 --> 00:51:29,260

play by their rules

1293

00:51:34,020 --> 00:51:32,230

yeah I'll never try and just say well

1294

00:51:38,130 --> 00:51:34,030

the air is a follow from NASA he has to

1295

00:51:39,930 --> 00:51:38,140

go right yeah yeah yeah it's not CGI

1296

00:51:42,390 --> 00:51:39,940

yeah pretty much head before you take

1297

00:51:44,730 --> 00:51:42,400

nowadays a CGI because every camera

1298

00:51:47,580 --> 00:51:44,740

takes you three three shots issue in red

1299

00:51:49,560 --> 00:51:47,590

green and you red green blue whether it

1300

00:51:51,450 --> 00:51:49,570

is and the Khmer come into one picture

1301

00:51:54,500 --> 00:51:51,460

so does that mean that every fault

1302

00:51:56,970 --> 00:51:54,510

always faked it doesn't you know it's um

1303

00:51:58,830 --> 00:51:56,980

it's just a very dishonest way of going

1304

00:52:00,900 --> 00:51:58,840

about it they know that what the sayings

1305

00:52:02,700 --> 00:52:00,910

wrong what they have to cling to it

1306

00:52:04,860 --> 00:52:02,710

because there's no other reason to

1307

00:52:07,350 --> 00:52:04,870

dismiss the photos of Earth that prove

1308

00:52:08,970 --> 00:52:07,360

the globe so I just don't really

1309

00:52:10,830 --> 00:52:08,980

entertain if they bring up NASA Lyle

1310

00:52:13,170 --> 00:52:10,840

saying that's all irrelevant yeah yeah

1311

00:52:15,180 --> 00:52:13,180

try gonna focus on some real evidence so

1312

00:52:17,940 --> 00:52:15,190

like I've been asked you hey you're

1313

00:52:19,290 --> 00:52:17,950

talking earlier about you know you take

1314

00:52:20,970 --> 00:52:19,300

people out of Facebook and you try to

1315

00:52:21,840 --> 00:52:20,980

talk on one-on-one and be polite to them

1316

00:52:24,090 --> 00:52:21,850

uh stuff like that

1317

00:52:27,210 --> 00:52:24,100

what do you think about the the Flat

1318

00:52:28,950 --> 00:52:27,220

Earth debunkers who basically just go on

1319

00:52:31,020 --> 00:52:28,960

and call people stupid like I'm thinking

1320

00:52:34,380 --> 00:52:31,030

particularly of like the guy flight the

1321

00:52:38,270 --> 00:52:34,390

fat flight the fat earth-like the fights

1322

00:52:40,140 --> 00:52:38,280

the Flat Earth little tongue twister

1323

00:52:41,910 --> 00:52:40,150

that's a stupidest thing I've ever heard

1324

00:52:43,680 --> 00:52:41,920

and like you're an idiot and things like

1325

00:52:49,010 --> 00:52:43,690

that so it's it's don't seem very

1326
00:52:50,760 --> 00:52:49,020
predictive to me it's it's not a very

1327
00:52:53,490 --> 00:52:50,770
constructive way of doing it

1328
00:52:54,890 --> 00:52:53,500
it depends what your incentive is I mean

1329
00:52:57,780 --> 00:52:54,900
a lot of the fly earthers do the same

1330
00:53:01,350 --> 00:52:57,790
you know an equal amount of globo's are

1331
00:53:02,790 --> 00:53:01,360
the same it's Facebook you can say what

1332
00:53:05,540 --> 00:53:02,800
you want and get away with it so a lot

1333
00:53:08,250 --> 00:53:05,550
of people do it just for that and

1334
00:53:11,670 --> 00:53:08,260
somebody will say say somebody puts a

1335
00:53:13,110 --> 00:53:11,680
Polston you know and why are you in a

1336
00:53:14,670 --> 00:53:13,120
flat earth group if you don't believe in

1337
00:53:16,980 --> 00:53:14,680
Flat Earth it's like

1338
00:53:19,590 --> 00:53:16,990

because if the if you can just help one

1339

00:53:20,820 --> 00:53:19,600

or two people it's worth it yeah you

1340

00:53:22,740 --> 00:53:20,830

know if you can help somebody realized

1341

00:53:24,900 --> 00:53:22,750

that they're being duped they're being

1342

00:53:28,380 --> 00:53:24,910

completely and purposely misled and

1343

00:53:30,840 --> 00:53:28,390

manipulated especially when one of me

1344

00:53:32,630 --> 00:53:30,850

mainly men remain tangled is when people

1345

00:53:34,860 --> 00:53:32,640

are using people's faith against him

1346

00:53:36,540 --> 00:53:34,870

he's like it says it in the Bible of the

1347

00:53:38,730 --> 00:53:36,550

Earth's flat well it doesn't say in the

1348

00:53:41,460 --> 00:53:38,740

Bible of the Earth's flat and he says

1349

00:53:45,180 --> 00:53:41,470

these four corners well even a desk

1350

00:53:47,580 --> 00:53:45,190

doesn't have four corners it's new these

1351

00:53:49,440 --> 00:53:47,590

I don't appreciate people using other

1352

00:53:51,360 --> 00:53:49,450

people's faith against him I believe

1353

00:53:52,800 --> 00:53:51,370

that everyone's welcome to believe in

1354

00:53:54,630 --> 00:53:52,810

whatever religion they like that's

1355

00:53:56,580 --> 00:53:54,640

absolutely fine I'm not very I'm not

1356

00:53:58,860 --> 00:53:56,590

religious in those aisles bravo catholic

1357

00:53:59,940 --> 00:53:58,870

christian book it's not something i've

1358

00:54:07,200 --> 00:53:59,950

kind of gone through with in all

1359

00:54:11,040 --> 00:54:07,210

fairness to show you al qaeda not CNN

1360

00:54:14,010 --> 00:54:11,050

legible is it's like i believe that all

1361

00:54:16,620 --> 00:54:14,020

religions are written records of alien

1362

00:54:18,870 --> 00:54:16,630

contact no you know it's like I feel

1363

00:54:21,570 --> 00:54:18,880

like we're we're traveling through space

1364

00:54:23,820 --> 00:54:21,580

as a species imagine us in 50 years a

1365

00:54:25,290 --> 00:54:23,830

hundred years a thousand years we might

1366

00:54:27,480 --> 00:54:25,300

be able to visit a planet that's got

1367

00:54:29,190 --> 00:54:27,490

primitive life if we went down there and

1368

00:54:31,380 --> 00:54:29,200

saw the amounts of farm domesticate

1369

00:54:33,690 --> 00:54:31,390

animals and be civilized buildings

1370

00:54:36,180 --> 00:54:33,700

educate they'd probably buy a house for

1371

00:54:36,960 --> 00:54:36,190

thousands of years if we told them we'd

1372

00:54:38,370 --> 00:54:36,970

come back one day

1373

00:54:40,380 --> 00:54:38,380

you know something they'd probably

1374

00:54:43,110 --> 00:54:40,390

futons yourself you know I have got a

1375

00:54:45,930 --> 00:54:43,120

bit of a crazy conspiracy side to me as

1376
00:54:48,180 --> 00:54:45,940
well well it makes sense even even see

1377
00:54:51,180 --> 00:54:48,190
now there's the the cargo cults right

1378
00:54:52,980 --> 00:54:51,190
from the Second World War where the

1379
00:54:55,920 --> 00:54:52,990
American servicemen went over to some

1380
00:54:58,110 --> 00:54:55,930
Pacific Islands and they left them some

1381
00:54:59,460 --> 00:54:58,120
food and stuff and they they thought

1382
00:55:00,720 --> 00:54:59,470
that they were gods and they studied

1383
00:55:01,980 --> 00:55:00,730
these religions about trying to make

1384
00:55:04,410 --> 00:55:01,990
them come back and give them more food

1385
00:55:07,950 --> 00:55:04,420
so there's always something that would

1386
00:55:11,430 --> 00:55:07,960
happen yeah I mean logically but you

1387
00:55:12,780 --> 00:55:11,440
know it's hard to say you know he

1388
00:55:14,490 --> 00:55:12,790

obviously is something that I would

1389

00:55:16,320 --> 00:55:14,500

never say is a fact I've never tried

1390

00:55:19,470 --> 00:55:16,330

telling to yet religion is actually

1391

00:55:21,630 --> 00:55:19,480

aliens it's just my opinion in something

1392

00:55:22,800 --> 00:55:21,640

that I think could possibly be true or

1393

00:55:23,400 --> 00:55:22,810

possibly not meet you I could be

1394

00:55:27,870 --> 00:55:23,410

completely wrong

1395

00:55:28,320 --> 00:55:27,880

everything who knows but the way I saw

1396

00:55:30,630 --> 00:55:28,330

is

1397

00:55:32,550 --> 00:55:30,640

some sometimes they'll ask what happens

1398

00:55:34,620 --> 00:55:32,560

if NASA turn around and say that the

1399

00:55:35,880 --> 00:55:34,630

earth is flat what would you do I'd say

1400

00:55:38,010 --> 00:55:35,890

well the first thing I'd do is I'd

1401
00:55:40,470 --> 00:55:38,020
expect explanations for all the evidence

1402
00:55:44,400 --> 00:55:40,480
it's a globe you know because that would

1403
00:55:46,380 --> 00:55:44,410
then need addressing service and yeah

1404
00:55:48,890 --> 00:55:46,390
it's cuz you're not basing your your

1405
00:55:52,320 --> 00:55:48,900
belief on you know NASA being some

1406
00:55:54,390 --> 00:55:52,330
all-powerful always right thing you're

1407
00:55:56,130 --> 00:55:54,400
basing your belief um you know

1408
00:56:00,120 --> 00:55:56,140
observations and experiments that you

1409
00:56:01,710 --> 00:56:00,130
personally have done and presented yeah

1410
00:56:04,530 --> 00:56:01,720
and the weight of all of human history

1411
00:56:07,560 --> 00:56:04,540
and science on top of that as well

1412
00:56:10,340 --> 00:56:07,570
so just NASA saying the earth is flat

1413
00:56:12,270 --> 00:56:10,350

that would be a rather surprising and

1414

00:56:14,370 --> 00:56:12,280

dissonant thing that you would have to

1415

00:56:16,280 --> 00:56:14,380

actually have some evidence rather than

1416

00:56:18,660 --> 00:56:16,290

just some guy from NASA saying something

1417

00:56:19,680 --> 00:56:18,670

no absolutely and then obviously I just

1418

00:56:23,400 --> 00:56:19,690

asked and that's it well why is the

1419

00:56:24,720 --> 00:56:23,410

horizon three miles away yeah and

1420

00:56:26,610 --> 00:56:24,730

obviously at that point they would be

1421

00:56:28,440 --> 00:56:26,620

given some kind of explanation as to why

1422

00:56:29,880 --> 00:56:28,450

that would happen and yeah if the earth

1423

00:56:32,910 --> 00:56:29,890

was flat there would be an explanation

1424

00:56:34,530 --> 00:56:32,920

for it yeah there's no explanation for

1425

00:56:36,870 --> 00:56:34,540

it and it's it is proof

1426

00:56:39,450 --> 00:56:36,880

I mean Donal me wrong the horizon isn't

1427

00:56:41,670 --> 00:56:39,460

proof of a globe the horizon is proof of

1428

00:56:43,110 --> 00:56:41,680

curvature I'll never turn down to a flat

1429

00:56:45,480 --> 00:56:43,120

earther and say look there's a horizon

1430

00:56:47,700 --> 00:56:45,490

there for the Earth's a globe okay look

1431

00:56:48,930 --> 00:56:47,710

the horizon proves curvature I'm not

1432

00:56:51,210 --> 00:56:48,940

trying to get you admit of the earth

1433

00:56:52,530 --> 00:56:51,220

globe and I've had quite a few of them

1434

00:56:54,240 --> 00:56:52,540

saying well maybe the earth is much

1435

00:56:55,290 --> 00:56:54,250

bigger than we expect it had a few of

1436

00:56:58,110 --> 00:56:55,300

them get to the point where I've ER

1437

00:57:00,090 --> 00:56:58,120

where I was up and that's when I know

1438

00:57:01,440 --> 00:57:00,100

that people are thinking about it have a

1439

00:57:02,940 --> 00:57:01,450

few of them say well maybe the earth

1440

00:57:04,650 --> 00:57:02,950

looks from much larger and we've got the

1441

00:57:06,630 --> 00:57:04,660

dimensions wrong I've had that as well

1442

00:57:08,970 --> 00:57:06,640

I've got to that point in their

1443

00:57:12,660 --> 00:57:08,980

reasoning you say there must be

1444

00:57:14,460 --> 00:57:12,670

curvature but we're seeing too much of a

1445

00:57:18,120 --> 00:57:14,470

you know Chicago or whatever and so

1446

00:57:19,500 --> 00:57:18,130

maybe it's not doing that much yeah and

1447

00:57:21,000 --> 00:57:19,510

then it's just understanding refraction

1448

00:57:24,180 --> 00:57:21,010

and what refraction doesn't yeah it's a

1449

00:57:27,180 --> 00:57:24,190

good STEMI and like the other guy said

1450

00:57:28,470 --> 00:57:27,190

to hear about the you know why when when

1451
00:57:30,090 --> 00:57:28,480
he gets past when something gets past

1452
00:57:33,450 --> 00:57:30,100
the horizon why doesn't it disappear

1453
00:57:35,760 --> 00:57:33,460
cuz it is a very gradual a very gradual

1454
00:57:37,680 --> 00:57:35,770
curve it's like them that other guy said

1455
00:57:40,170 --> 00:57:37,690
to you as well if a bolt does a 360 and

1456
00:57:41,910 --> 00:57:40,180
does it start coming back uphill from

1457
00:57:44,819 --> 00:57:41,920
there yeah if you

1458
00:57:47,329 --> 00:57:44,829
on the boat no you still going you know

1459
00:57:49,680 --> 00:57:47,339
straightforward is it's just a basic

1460
00:57:51,780 --> 00:57:49,690
it's a lot of misunderstanding of the

1461
00:57:54,480 --> 00:57:51,790
yeah but I was fascinating to me like

1462
00:57:56,520 --> 00:57:54,490
when he said that like he was he was

1463
00:57:58,680 --> 00:57:56,530

saying that like everything is downhill

1464

00:57:59,819 --> 00:57:58,690

on the the globe model yeah you're

1465

00:58:01,349 --> 00:57:59,829

standing on the top of the globe and

1466

00:58:04,380 --> 00:58:01,359

everything's downhill so the boat would

1467

00:58:06,829 --> 00:58:04,390

have a sail uphill somehow was just you

1468

00:58:09,780 --> 00:58:06,839

know he doesn't understand it at all

1469

00:58:11,640 --> 00:58:09,790

what's actually going on and it's it's

1470

00:58:14,579 --> 00:58:11,650

just it's just like an aha moment for me

1471

00:58:16,829 --> 00:58:14,589

sometimes when I hear somebody say that

1472

00:58:18,660 --> 00:58:16,839

and I kind of understand a little bit

1473

00:58:21,150 --> 00:58:18,670

better what there must misunderstanding

1474

00:58:23,270 --> 00:58:21,160

is and then it's just like another child

1475

00:58:25,920 --> 00:58:23,280

was trying to explain that one thing

1476

00:58:29,789 --> 00:58:25,930

yeah I mean there was a few things that

1477

00:58:33,839 --> 00:58:29,799

he said that were obviously just clear

1478

00:58:37,410 --> 00:58:33,849

and easy mistakes to me and you can what

1479

00:58:39,089 --> 00:58:37,420

the problem is it's not his fault no

1480

00:58:41,609 --> 00:58:39,099

it's the way he's been presented by the

1481

00:58:44,670 --> 00:58:41,619

by the flat earth community the way they

1482

00:58:46,589 --> 00:58:44,680

presented is that there are no answers

1483

00:58:49,589 --> 00:58:46,599

and that when they're saying things like

1484

00:58:51,450 --> 00:58:49,599

the nail runs uphill it's like to say

1485

00:58:53,670 --> 00:58:51,460

that the River Nile runs uphill because

1486

00:58:54,870 --> 00:58:53,680

it goes from south to north yeah well if

1487

00:58:57,349 --> 00:58:54,880

you actually lock into it there's

1488

00:59:00,420 --> 00:58:57,359

actually a down or gradient of thank you

1489

00:59:02,460 --> 00:59:00,430

and I can't remember exactly I don't

1490

00:59:03,839 --> 00:59:02,470

want to kind of miss global you look you

1491

00:59:08,309 --> 00:59:03,849

actually cross-reference what you're

1492

00:59:10,740 --> 00:59:08,319

here and you find the answers you know -

1493

00:59:12,270 --> 00:59:10,750

laughs doesn't mean uphill yeah and

1494

00:59:14,760 --> 00:59:12,280

there are answers like you said there's

1495

00:59:16,140 --> 00:59:14,770

the there are explanations or scientific

1496

00:59:19,200 --> 00:59:16,150

explanations for all these things all

1497

00:59:20,940 --> 00:59:19,210

these questions have like actual exact

1498

00:59:23,099 --> 00:59:20,950

answers and we know these rivers have

1499

00:59:26,640 --> 00:59:23,109

all been surveyed and we know exactly

1500

00:59:28,410 --> 00:59:26,650

like how high the drop is over so many

1501
00:59:29,940 --> 00:59:28,420
miles like you know it goes down to for

1502
00:59:32,970 --> 00:59:29,950
each every mile or something like that

1503
00:59:36,210 --> 00:59:32,980
so you know we know exactly what happens

1504
00:59:37,799 --> 00:59:36,220
with these but they they ignore these

1505
00:59:41,039 --> 00:59:37,809
these explanations something I always

1506
00:59:43,380 --> 00:59:41,049
try to do is I always ask them to be

1507
00:59:45,180 --> 00:59:43,390
more open-minded which I think sometimes

1508
00:59:46,829 --> 00:59:45,190
the xscape a bit of a surprise to them

1509
00:59:48,180 --> 00:59:46,839
because they think that because they

1510
00:59:51,599 --> 00:59:48,190
have all these alternative beliefs

1511
00:59:53,710 --> 00:59:51,609
they're super open-minded but I just say

1512
00:59:56,080 --> 00:59:53,720
like try to be a bit more open-minded

1513
00:59:59,500 --> 00:59:56,090

and look at this side of the argument

1514

01:00:01,270 --> 00:59:59,510

and always presenting the conventional

1515

01:00:02,950 --> 01:00:01,280

side of the argument as being the

1516

01:00:04,120 --> 01:00:02,960

alternative that they need to consider

1517

01:00:07,060 --> 01:00:04,130

because they've gone so far the other

1518

01:00:08,710 --> 01:00:07,070

way that for them they've been best

1519

01:00:11,410 --> 01:00:08,720

they're stuck in this thing but they

1520

01:00:14,080 --> 01:00:11,420

still think they're being open-minded by

1521

01:00:15,700 --> 01:00:14,090

only believing the Flat Earth one of my

1522

01:00:16,510 --> 01:00:15,710

main lines to him is questions on

1523

01:00:18,339 --> 01:00:16,520

evidence

1524

01:00:20,200 --> 01:00:18,349

you know because they'll say well why

1525

01:00:22,900 --> 01:00:20,210

does this happen

1526

01:00:25,300 --> 01:00:22,910

why are you asking me you know your your

1527

01:00:27,490 --> 01:00:25,310

what you're not here to disprove random

1528

01:00:28,180 --> 01:00:27,500

people on Facebook you here to disprove

1529

01:00:30,730 --> 01:00:28,190

the science

1530

01:00:33,550 --> 01:00:30,740

so look at the scientific answer to your

1531

01:00:35,890 --> 01:00:33,560

question find flaws in it and present

1532

01:00:37,839 --> 01:00:35,900

those flowers you know if you can find

1533

01:00:40,690 --> 01:00:37,849

flaws in the explanation for the lunar

1534

01:00:42,520 --> 01:00:40,700

eclipse and explain it so I mean that's

1535

01:00:44,200 --> 01:00:42,530

when you get called names all you get

1536

01:00:47,710 --> 01:00:44,210

told that Pythagoras was a freemason

1537

01:00:49,950 --> 01:00:47,720

right so they do have the the Gaucho

1538

01:00:51,970 --> 01:00:49,960

jail free cards if you will

1539

01:00:52,960 --> 01:00:51,980

yeah but not all of them though and

1540

01:00:54,640 --> 01:00:52,970

that's that's the thing that's saying

1541

01:00:56,200 --> 01:00:54,650

that's the the promising thing is that

1542

01:00:57,790 --> 01:00:56,210

you know you do actually get people who

1543

01:00:59,050 --> 01:00:57,800

were listening to you and that you do

1544

01:01:01,870 --> 01:00:59,060

get people well who will actually

1545

01:01:03,760 --> 01:01:01,880

honestly engage you in conversation and

1546

01:01:05,530 --> 01:01:03,770

I think that's that's great and it's

1547

01:01:09,849 --> 01:01:05,540

great that you've been doing it and yeah

1548

01:01:12,970 --> 01:01:09,859

yeah lately and Sasha

1549

01:01:17,050 --> 01:01:12,980

she's really really open to listening to

1550

01:01:20,530 --> 01:01:17,060

oh yeah she did she seemed like she was

1551

01:01:22,810 --> 01:01:20,540

very open-minded but she she never

1552

01:01:24,760 --> 01:01:22,820

wanted to really accept anything from

1553

01:01:26,200 --> 01:01:24,770

the conventional science because she

1554

01:01:29,349 --> 01:01:26,210

always wanted to remain open-minded

1555

01:01:30,880 --> 01:01:29,359

enough that it that it would be wrong so

1556

01:01:34,359 --> 01:01:30,890

even though she said oh that sounds

1557

01:01:36,640 --> 01:01:34,369

right but you know she I don't think she

1558

01:01:38,440 --> 01:01:36,650

was actually very good in in terms of

1559

01:01:40,150 --> 01:01:38,450

her scientific understanding of the

1560

01:01:43,810 --> 01:01:40,160

arguments but she was very good in terms

1561

01:01:46,300 --> 01:01:43,820

of being open-minded which didn't didn't

1562

01:01:47,800 --> 01:01:46,310

work out really yeah I should get it

1563

01:01:48,810 --> 01:01:47,810

back on I think I should see see where

1564

01:01:52,420 --> 01:01:48,820

she is now

1565

01:01:54,160 --> 01:01:52,430

people yeah after a year or so it's been

1566

01:01:57,070 --> 01:01:54,170

a while it's been at least nine months

1567

01:01:59,530 --> 01:01:57,080

inside Iran so you see a lot of people

1568

01:02:00,670 --> 01:01:59,540

did they do the-- if they kind of come

1569

01:02:01,990 --> 01:02:00,680

to the understanding and start

1570

01:02:04,390 --> 01:02:02,000

questioning their own beliefs they'll

1571

01:02:07,000 --> 01:02:04,400

just stop posting they'll start stop

1572

01:02:08,950 --> 01:02:07,010

talking about indulge a for me yeah

1573

01:02:10,780 --> 01:02:08,960

c14 means it drew me away from a lot of

1574

01:02:12,730 --> 01:02:10,790

conspiracies you know I was looking like

1575

01:02:15,810 --> 01:02:12,740

I was looking into Nibiru looking into

1576

01:02:18,580 --> 01:02:15,820

9/11 at the time and then realizing how

1577

01:02:21,400 --> 01:02:18,590

manipulative the evidence presented by

1578

01:02:23,670 --> 01:02:21,410

fly earth is made me very suspicious of

1579

01:02:26,380 --> 01:02:23,680

all the other conspiracy theories you

1580

01:02:28,720 --> 01:02:26,390

know slightly sorts a program with Jesse

1581

01:02:31,570 --> 01:02:28,730

Ventura you know his foe's affair with

1582

01:02:33,190 --> 01:02:31,580

him and it's interesting you know it's

1583

01:02:37,060 --> 01:02:33,200

interesting to look at anything you know

1584

01:02:40,540 --> 01:02:37,070

it's it's a fun thing to watch and then

1585

01:02:42,370 --> 01:02:40,550

you start disliking the debunkers

1586

01:02:51,250 --> 01:02:42,380

because the ruin in the mystery failure

1587

01:02:53,950 --> 01:02:51,260

you know I mean oh yeah but a lot of

1588

01:02:57,190 --> 01:02:53,960

people instead of just realizing oh yeah

1589

01:02:58,930 --> 01:02:57,200

I've been duped a bit they'll take it to

1590

01:03:00,250 --> 01:02:58,940

heart looks like it personally and I

1591

01:03:02,680 --> 01:03:00,260

think well that's just somebody else

1592

01:03:04,840 --> 01:03:02,690

who's lying to me mm-hmm you know the

1593

01:03:08,350 --> 01:03:04,850

the mass that the maths that they're

1594

01:03:09,820 --> 01:03:08,360

using the origin of it is from

1595

01:03:11,530 --> 01:03:09,830

Freemasons therefore it's a lie

1596

01:03:14,470 --> 01:03:11,540

therefore everything is a lie therefore

1597

01:03:16,720 --> 01:03:14,480

all the scientists are lying but the

1598

01:03:19,120 --> 01:03:16,730

information they're working with must be

1599

01:03:21,340 --> 01:03:19,130

a lie because the earth is flat so they

1600

01:03:23,170 --> 01:03:21,350

start with the conclusion and then work

1601

01:03:26,020 --> 01:03:23,180

backwards from it yes

1602

01:03:27,670 --> 01:03:26,030

what's that was the result like yes

1603

01:03:32,110 --> 01:03:27,680

there's one one of the guys I talked to

1604

01:03:35,050 --> 01:03:32,120

from my book was I think he said that he

1605

01:03:37,090 --> 01:03:35,060

realized at some point that this stuff

1606

01:03:38,860 --> 01:03:37,100

was all wrong but he kind of continued

1607

01:03:40,420 --> 01:03:38,870

arguing anyway because he wanted it to

1608

01:03:42,100 --> 01:03:40,430

be to be right and he felt like it

1609

01:03:43,900 --> 01:03:42,110

should be right even though he knew that

1610

01:03:44,860 --> 01:03:43,910

there were their arguments against it he

1611

01:03:48,040 --> 01:03:44,870

still carried on

1612

01:03:49,690 --> 01:03:48,050

was there any period for you where he

1613

01:03:50,890 --> 01:03:49,700

was that where you you can have realized

1614

01:03:53,800 --> 01:03:50,900

it was wrong but you still kind of

1615

01:03:54,930 --> 01:03:53,810

carried on trying to argue that it might

1616

01:03:59,650 --> 01:03:54,940

be right

1617

01:04:03,490 --> 01:03:59,660

no because um I so very very definite no

1618

01:04:06,190 --> 01:04:03,500

because all time I was interested in the

1619

01:04:09,490 --> 01:04:06,200

truth yeah and when I thought Flat Earth

1620

01:04:12,130 --> 01:04:09,500

was the truth I was on board when a

1621

01:04:14,890 --> 01:04:12,140

static question in it I'm right right

1622

01:04:17,680 --> 01:04:14,900

well I want the truth and he was never a

1623

01:04:19,230 --> 01:04:17,690

motive well I'd rather it be true so I'm

1624

01:04:21,270 --> 01:04:19,240

going to sway this side

1625

01:04:23,250 --> 01:04:21,280

it's just simple and that's why I want

1626
01:04:25,710 --> 01:04:23,260
to cross-examine it because it was cross

1627
01:04:28,470 --> 01:04:25,720
examining all the evidence which got me

1628
01:04:30,330 --> 01:04:28,480
out there he cross-examined me made the

1629
01:04:32,940 --> 01:04:30,340
main three fingers likewise in a curved

1630
01:04:35,460 --> 01:04:32,950
flight paths because a straight flight

1631
01:04:37,710 --> 01:04:35,470
path is through the earth to get from

1632
01:04:39,630 --> 01:04:37,720
point A to point B on a on a globe in a

1633
01:04:44,070 --> 01:04:39,640
straight line going through the earth

1634
01:04:45,720 --> 01:04:44,080
its efficacy is good absolutely yeah so

1635
01:04:48,180 --> 01:04:45,730
the way the reason it shows has curved

1636
01:04:49,710 --> 01:04:48,190
on on a map is because that's the

1637
01:04:53,280 --> 01:04:49,720
distance it's going it's going around

1638
01:04:55,320 --> 01:04:53,290

the curve the dots had fall tours of the

1639

01:04:56,640 --> 01:04:55,330

earth so you've got the because if you

1640

01:04:59,910 --> 01:04:56,650

remember the three main parts of Senator

1641

01:05:02,370 --> 01:04:59,920

Chicago the state fault fake photo of

1642

01:05:05,580 --> 01:05:02,380

Earth and the flight path so the flight

1643

01:05:07,800 --> 01:05:05,590

paths I understood one because you can't

1644

01:05:09,600 --> 01:05:07,810

fly over massive oceans because you need

1645

01:05:13,250 --> 01:05:09,610

to be a certain I think it's amount

1646

01:05:18,000 --> 01:05:13,260

about to our distance away from Lund

1647

01:05:20,720 --> 01:05:18,010

services yeah yeah I remember reading

1648

01:05:23,540 --> 01:05:20,730

about the FAA saying you need obviously

1649

01:05:26,040 --> 01:05:23,550

commercial passenger planes needs to be

1650

01:05:27,570 --> 01:05:26,050

savable it's one of the reason you don't

1651

01:05:28,650 --> 01:05:27,580

go to Antarctica bees and the treat is

1652

01:05:30,660 --> 01:05:28,660

there because it's one of the most

1653

01:05:32,880 --> 01:05:30,670

dangerous places on earth if you go

1654

01:05:36,180 --> 01:05:32,890

there and you end up in trouble in help

1655

01:05:38,310 --> 01:05:36,190

is going to be a big problem but the

1656

01:05:40,740 --> 01:05:38,320

photos of Earth the interview with

1657

01:05:42,750 --> 01:05:40,750

Robert Simmons the guys love to call

1658

01:05:44,120 --> 01:05:42,760

it's false a shop where it has to be

1659

01:05:46,740 --> 01:05:44,130

mm-hm

1660

01:05:48,270 --> 01:05:46,750

so you're looking to that in fact well

1661

01:05:50,730 --> 01:05:48,280

that explains a double cloud poem

1662

01:05:52,349 --> 01:05:50,740

because it's a composite photo so ever

1663

01:05:53,730 --> 01:05:52,359

they've added the clouds on afterwards

1664

01:05:55,109 --> 01:05:53,740

because its composite are whether

1665

01:05:57,870 --> 01:05:55,119

they've just overlapped because it's

1666

01:06:00,359 --> 01:05:57,880

composite he sat down in his explained

1667

01:06:02,790 --> 01:06:00,369

that and then quilting him explaining

1668

01:06:05,250 --> 01:06:02,800

why they use composites he's a bit

1669

01:06:07,349 --> 01:06:05,260

dishonest again so it's like well

1670

01:06:08,970 --> 01:06:07,359

where's the stars it's like well look

1671

01:06:11,099 --> 01:06:08,980

you think they're smart enough to fill

1672

01:06:14,609 --> 01:06:11,109

the whole world but they just happened

1673

01:06:16,170 --> 01:06:14,619

to forget support stars in the photo so

1674

01:06:19,140 --> 01:06:16,180

I was in Northumberland

1675

01:06:22,430 --> 01:06:19,150

in England it's one of the darkest

1676
01:06:25,470 --> 01:06:22,440
places for stargazing this did come so

1677
01:06:27,180 --> 01:06:25,480
now I've never seen the sky like it I

1678
01:06:29,070 --> 01:06:27,190
mean I live in rather than city centre

1679
01:06:31,740 --> 01:06:29,080
Manchester and you know see few stars

1680
01:06:32,910 --> 01:06:31,750
but never seen a sky like in my life so

1681
01:06:34,760 --> 01:06:32,920
dot me

1682
01:06:39,180 --> 01:06:34,770
phone out took a picture of the sky

1683
01:06:41,910 --> 01:06:39,190
absolutely no stars whatsoever now I

1684
01:06:44,070 --> 01:06:41,920
pinpointed where Jupiter was on one of

1685
01:06:46,380 --> 01:06:44,080
these little sky map apps on my phone

1686
01:06:49,380 --> 01:06:46,390
Sokka thought of all these stars with

1687
01:06:51,810 --> 01:06:49,390
Jupiter among them and I got some

1688
01:06:55,350 --> 01:06:51,820

Jupiter in my photo only one standing

1689

01:06:57,150 --> 01:06:55,360

miss also so it's clearly exposure you

1690

01:06:59,310 --> 01:06:57,160

know they say well why is it all stars

1691

01:07:02,910 --> 01:06:59,320

and photos of Earth because to get earth

1692

01:07:04,770 --> 01:07:02,920

in the photo the stars are under xposed

1693

01:07:07,440 --> 01:07:04,780

if you want to get stars in the photo

1694

01:07:11,370 --> 01:07:07,450

the earth would be overexposed in which

1695

01:07:13,380 --> 01:07:11,380

case it'd be a pointless photo so the

1696

01:07:15,660 --> 01:07:13,390

way I explained it to him is you can

1697

01:07:17,910 --> 01:07:15,670

prove that it's exposure by going

1698

01:07:19,890 --> 01:07:17,920

outside take a photo of this guy when

1699

01:07:22,710 --> 01:07:19,900

you can see lots of stars you will get

1700

01:07:26,400 --> 01:07:22,720

no stars in your photo whereas if you

1701

01:07:28,830 --> 01:07:26,410

use a map up to find where at one of the

1702

01:07:30,360 --> 01:07:28,840

planets in our solar system is and you

1703

01:07:34,640 --> 01:07:30,370

take a fall in that direction

1704

01:07:37,860 --> 01:07:34,650

voila you've got a star in your photo

1705

01:07:40,560 --> 01:07:37,870

and it just shows it's I mean at first I

1706

01:07:42,900 --> 01:07:40,570

I believe that was down to distance you

1707

01:07:45,600 --> 01:07:42,910

know Jupiter's much closer that's why

1708

01:07:47,730 --> 01:07:45,610

you can get it in a picture it's not it

1709

01:07:50,190 --> 01:07:47,740

because it's brighter and it's in

1710

01:07:53,040 --> 01:07:50,200

sunlight essentially it is like it's

1711

01:07:55,950 --> 01:07:53,050

like a tiny bit of sunlight in the in

1712

01:07:56,850 --> 01:07:55,960

the sky like Jupiter or the moon you

1713

01:07:58,380 --> 01:07:56,860

know the moon is actually really

1714

01:08:01,470 --> 01:07:58,390

incredibly bright because it's actually

1715

01:08:02,850 --> 01:08:01,480

in sunlight but it's not very big which

1716

01:08:04,620 --> 01:08:02,860

is why when you take a picture of it a

1717

01:08:05,730 --> 01:08:04,630

night with you and with you cellphone it

1718

01:08:07,650 --> 01:08:05,740

just comes out as this really bright

1719

01:08:10,260 --> 01:08:07,660

blob and you have to kind of really done

1720

01:08:12,450 --> 01:08:10,270

dial back the exposure to to get it in

1721

01:08:15,090 --> 01:08:12,460

there so you know a couple of questions

1722

01:08:17,220 --> 01:08:15,100

flieth as I've asked me the dad did have

1723

01:08:19,560 --> 01:08:17,230

to go on because nine times out of ten

1724

01:08:21,870 --> 01:08:19,570

the things fire they've asked you you

1725

01:08:25,200 --> 01:08:21,880

can just you can back away with logic

1726

01:08:26,700 --> 01:08:25,210

and you really can but there's been a

1727

01:08:28,470 --> 01:08:26,710

couple of times where I've had to where

1728

01:08:28,920 --> 01:08:28,480

I said to him you know I appreciate that

1729

01:08:30,960 --> 01:08:28,930

question

1730

01:08:33,240 --> 01:08:30,970

I've been research it before have you an

1731

01:08:36,300 --> 01:08:33,250

answer one of them was why the fault

1732

01:08:40,560 --> 01:08:36,310

holes on the moon why does the earth

1733

01:08:43,110 --> 01:08:40,570

look so small and that was one that got

1734

01:08:44,760 --> 01:08:43,120

me and it very simply now it's just a my

1735

01:08:45,919 --> 01:08:44,770

ovett will go outside take a fall of the

1736

01:08:49,189 --> 01:08:45,929

moon yourself yeah

1737

01:08:50,059 --> 01:08:49,199

much smaller in your photo then it does

1738

01:08:52,789 --> 01:08:50,069

with your eyes

1739

01:08:54,950 --> 01:08:52,799

that's just how cameras work so he's

1740

01:08:56,269 --> 01:08:54,960

that one but one of the the main

1741

01:08:57,709 --> 01:08:56,279

question I mean it wasn't really related

1742

01:09:00,140 --> 01:08:57,719

to the shape of the earth but it was

1743

01:09:01,700 --> 01:09:00,150

just more relation to they think that

1744

01:09:05,660 --> 01:09:01,710

they're being lied to about space was

1745

01:09:08,720 --> 01:09:05,670

why are the craters on the earth siding

1746

01:09:12,740 --> 01:09:08,730

earth facing side of the Moon larger

1747

01:09:14,030 --> 01:09:12,750

than on the dark side of the moon and

1748

01:09:15,769 --> 01:09:14,040

that was a question that they asked me

1749

01:09:17,559 --> 01:09:15,779

and I was like you know what that's one

1750

01:09:20,329 --> 01:09:17,569

of the best questions I've been asked

1751

01:09:22,280 --> 01:09:20,339

and it had to go away and I had to

1752

01:09:24,950 --> 01:09:22,290

research it what would you give for that

1753

01:09:27,649 --> 01:09:24,960

I don't know I didn't didn't know though

1754

01:09:31,519 --> 01:09:27,659

the HD were larger on the earth facing

1755

01:09:32,539 --> 01:09:31,529

side hmm I mean they're not you had the

1756

01:09:33,890 --> 01:09:32,549

earth in the moon are very very far

1757

01:09:36,530 --> 01:09:33,900

apart when you think about where they

1758

01:09:38,990 --> 01:09:36,540

actually are you know the asteroids are

1759

01:09:42,950 --> 01:09:39,000

coming in from mouths going around that

1760

01:09:44,660 --> 01:09:42,960

way makes a lot of false holes at the

1761

01:09:47,110 --> 01:09:44,670

back side of the moon and there's no

1762

01:09:50,180 --> 01:09:47,120

craters the size that we can see from

1763

01:09:53,260 --> 01:09:50,190

you know filmers must be something big

1764

01:09:55,550 --> 01:09:53,270

the craters on the back of the moon say

1765

01:09:57,410 --> 01:09:55,560

really good question I was quite

1766

01:10:00,680 --> 01:09:57,420

impressed with it in you know I gave him

1767

01:10:02,209 --> 01:10:00,690

credit where it was due so I did look

1768

01:10:08,360 --> 01:10:02,219

into it and obviously I found the answer

1769

01:10:10,490 --> 01:10:08,370

was while the while both planets were

1770

01:10:14,300 --> 01:10:10,500

being formed well the earth in the moon

1771

01:10:19,370 --> 01:10:14,310

the Earth's earth-facing side of the

1772

01:10:21,590 --> 01:10:19,380

Moon is warmer than the backside so well

1773

01:10:25,300 --> 01:10:21,600

the far side so it's like the difference

1774

01:10:29,000 --> 01:10:25,310

between dropping a golf ball into sand

1775

01:10:31,640 --> 01:10:29,010

then a golf ball into flour it will

1776

01:10:35,479 --> 01:10:31,650

create a bigger a bigger impact crater

1777

01:10:39,140 --> 01:10:35,489

yeah it's interesting is looking photos

1778

01:10:41,390 --> 01:10:39,150

here so then I had questions that they

1779

01:10:43,250 --> 01:10:41,400

asked that you know may not be related

1780

01:10:45,770 --> 01:10:43,260

directly to the shape of the earth for

1781

01:10:49,010 --> 01:10:45,780

the teacher you know I'm like I'll say

1782

01:10:50,600 --> 01:10:49,020

Adam just as much as they are wrong

1783

01:10:53,510 --> 01:10:50,610

about the shape of the earth it's

1784

01:10:55,340 --> 01:10:53,520

interesting what about science yeah it's

1785

01:10:56,840 --> 01:10:55,350

interesting that idea they will ask you

1786

01:10:58,910 --> 01:10:56,850

questions about the far side of the Moon

1787

01:10:59,720 --> 01:10:58,920

but that kind of presupposes the far

1788

01:11:01,820 --> 01:10:59,730

side of the Moon

1789

01:11:04,490 --> 01:11:01,830

exists which I wish you wouldn't do on

1790

01:11:06,110 --> 01:11:04,500

on the older days so I guess some of

1791

01:11:07,580 --> 01:11:06,120

them will think that the the movie is

1792

01:11:09,080 --> 01:11:07,590

actually a big ball and that they've

1793

01:11:10,400 --> 01:11:09,090

sent a plane up to look on the other

1794

01:11:11,150 --> 01:11:10,410

side of it and which doesn't really make

1795

01:11:12,950 --> 01:11:11,160

any sense

1796

01:11:14,270 --> 01:11:12,960

yeah that's an interesting thing I

1797

01:11:16,760 --> 01:11:14,280

didn't didn't know that there was such a

1798

01:11:18,440 --> 01:11:16,770

start well I probably seen it like years

1799

01:11:20,360 --> 01:11:18,450

ago but you know I was kind of thinking

1800

01:11:22,370 --> 01:11:20,370

of the regular craters but it's really

1801
01:11:26,150 --> 01:11:22,380
these these large ones that have these

1802
01:11:27,050 --> 01:11:26,160
rays going everywhere on the the near

1803
01:11:29,750 --> 01:11:27,060
side of the moon they look very

1804
01:11:31,460 --> 01:11:29,760
different the first time fascinating

1805
01:11:32,840 --> 01:11:31,470
learn something new every day and that's

1806
01:11:35,930 --> 01:11:32,850
yeah one of the great things about like

1807
01:11:37,010 --> 01:11:35,940
looking into Flat Earth is that you get

1808
01:11:40,970 --> 01:11:37,020
to learn all kinds of interesting

1809
01:11:41,990 --> 01:11:40,980
science and stuff and marks Arjun I

1810
01:11:43,940 --> 01:11:42,000
don't know if you know of him but he was

1811
01:11:46,250 --> 01:11:43,950
over there this morning and with Phil

1812
01:11:50,560 --> 01:11:46,260
Schofield and Holly Willoughby was on

1813
01:11:52,720 --> 01:11:50,570

with them the other day and when you

1814

01:11:55,100 --> 01:11:52,730

when you understand the logic behind

1815

01:11:58,100 --> 01:11:55,110

behind the floweth and opposite the

1816

01:11:59,660 --> 01:11:58,110

globe you realize that the the Pisces

1817

01:12:02,660 --> 01:11:59,670

give it as soon as he gave because he

1818

01:12:05,870 --> 01:12:02,670

gave them five is five most important

1819

01:12:07,130 --> 01:12:05,880

points and these are like the old points

1820

01:12:08,840 --> 01:12:07,140

that flat earth has don't even make

1821

01:12:11,270 --> 01:12:08,850

anymore and he was at that point when

1822

01:12:12,979 --> 01:12:11,280

you realized someone like him it's just

1823

01:12:17,210 --> 01:12:12,989

a matter of no publicity is bad

1824

01:12:19,220 --> 01:12:17,220

publicity yeah and it's all about it's

1825

01:12:20,990 --> 01:12:19,230

all about the clicks and that's what a

1826

01:12:22,880 --> 01:12:21,000

lot of it is where they're getting the

1827

01:12:24,890 --> 01:12:22,890

information from the reason they so many

1828

01:12:26,600 --> 01:12:24,900

people still invested in flyers is

1829

01:12:30,590 --> 01:12:26,610

because there's so many people still

1830

01:12:33,160 --> 01:12:30,600

invested in making money you know I was

1831

01:12:35,870 --> 01:12:33,170

tempted myself smash a few bottles or

1832

01:12:39,170 --> 01:12:35,880

segments you know because you know the

1833

01:12:44,210 --> 01:12:39,180

people will believe anything so yeah

1834

01:12:46,130 --> 01:12:44,220

well I left if they are making money I

1835

01:12:47,990 --> 01:12:46,140

would like to see how much money you can

1836

01:12:49,760 --> 01:12:48,000

actually make from from doing the flat

1837

01:12:51,470 --> 01:12:49,770

earth I suppose like if you're mark

1838

01:12:53,420 --> 01:12:51,480

Sargent is one of the most famous people

1839

01:12:55,520 --> 01:12:53,430

as he was on that documentary and

1840

01:12:57,080 --> 01:12:55,530

there's been unlike YouTube a lot then

1841

01:12:58,700 --> 01:12:57,090

you're gonna get more traffic right

1842

01:13:00,979 --> 01:12:58,710

these are the people I'm just not sure

1843

01:13:02,810 --> 01:13:00,989

that they're actually making any money I

1844

01:13:04,250 --> 01:13:02,820

think Nathan Thompson you know the kind

1845

01:13:07,430 --> 01:13:04,260

of homeless guy who was shouting at the

1846

01:13:10,830 --> 01:13:07,440

school kids he he's not actually making

1847

01:13:14,710 --> 01:13:10,840

money as far as I know but sir

1848

01:13:16,330 --> 01:13:14,720

yeah invested in some way well people

1849

01:13:17,710 --> 01:13:16,340

say it about like the the chemtrail

1850

01:13:18,850 --> 01:13:17,720

people as well they say the chemtrail

1851

01:13:20,680 --> 01:13:18,860

people just promote it because they're

1852

01:13:24,460 --> 01:13:20,690

making money I think that's true for

1853

01:13:26,020 --> 01:13:24,470

like Alex Jones and yeah further people

1854

01:13:27,670 --> 01:13:26,030

like that but I have a lot of the

1855

01:13:29,980 --> 01:13:27,680

chemtrail people actually genuinely

1856

01:13:31,990 --> 01:13:29,990

believe it and all of the 9/11 people

1857

01:13:33,940 --> 01:13:32,000

generally believe it as well but he had

1858

01:13:36,250 --> 01:13:33,950

the flat earth people and how can you

1859

01:13:38,410 --> 01:13:36,260

continue believing it after so long

1860

01:13:40,390 --> 01:13:38,420

after you've seen all the the evidence

1861

01:13:42,070 --> 01:13:40,400

that's what I mean the only ones I feel

1862

01:13:43,360 --> 01:13:42,080

genuinely believe the ones that will

1863

01:13:45,370 --> 01:13:43,370

stick around and everything back and

1864

01:13:52,180 --> 01:13:45,380

forth today with you which is very rare

1865

01:13:54,450 --> 01:13:52,190

yeah I'll say at the the guy who had on

1866

01:13:56,770 --> 01:13:54,460

Jeff when he was mention about the the

1867

01:13:57,880 --> 01:13:56,780

contrail chemtrail herbal tea when he

1868

01:13:59,950 --> 01:13:57,890

was talking about that video

1869

01:14:01,990 --> 01:13:59,960

I think the point was making was there

1870

01:14:04,330 --> 01:14:02,000

was two planes of appeared to be at the

1871

01:14:07,150 --> 01:14:04,340

same home one was given a trail one

1872

01:14:08,500 --> 01:14:07,160

wasn't now I look at planes up in the

1873

01:14:10,360 --> 01:14:08,510

sky and I think they look around about

1874

01:14:11,950 --> 01:14:10,370

the same height you know the same size

1875

01:14:13,690 --> 01:14:11,960

in this guy one of them will give a

1876

01:14:15,610 --> 01:14:13,700

trail one of them doesn't I've never

1877

01:14:17,740 --> 01:14:15,620

really looked into contrails chemtrails

1878

01:14:19,690 --> 01:14:17,750

but it is something that you ever wonder

1879

01:14:21,520 --> 01:14:19,700

why is one given a trail and one isn't

1880

01:14:26,080 --> 01:14:21,530

it's good question it's a good question

1881

01:14:27,520 --> 01:14:26,090

with with the answer is really that it

1882

01:14:30,640 --> 01:14:27,530

doesn't take very much difference in

1883

01:14:32,800 --> 01:14:30,650

altitude to be in a cloud forming layer

1884

01:14:34,480 --> 01:14:32,810

or not in a cloud forming layer you

1885

01:14:36,460 --> 01:14:34,490

thinking about like clouds like you

1886

01:14:37,170 --> 01:14:36,470

think about it it's like clouds a cloud

1887

01:14:42,550 --> 01:14:37,180

layer

1888

01:14:44,680 --> 01:14:42,560

it's in it bit 500 feet below that thing

1889

01:14:46,300 --> 01:14:44,690

it's not in it so you're either in the

1890

01:14:48,220 --> 01:14:46,310

cloud layer or not in that so it can be

1891

01:14:51,330 --> 01:14:48,230

just a few hundred feet to be in a layer

1892

01:14:53,380 --> 01:14:51,340

or not in a layer now with contrails

1893

01:14:55,090 --> 01:14:53,390

what you're in you're in you're in a

1894

01:14:57,580 --> 01:14:55,100

cloud forming layer that doesn't have

1895

01:14:59,680 --> 01:14:57,590

any clouds formed yet because this is

1896

01:15:02,050 --> 01:14:59,690

just below the amount of humidity needed

1897

01:15:05,140 --> 01:15:02,060

to form clouds and the plane comes along

1898

01:15:08,380 --> 01:15:05,150

it spews some you know some hot moist

1899

01:15:12,310 --> 01:15:08,390

exhaust out of its back and a cloud

1900

01:15:14,770 --> 01:15:12,320

forms but 500 feet below that it's not

1901

01:15:16,330 --> 01:15:14,780

moist enough exactly the same way as you

1902

01:15:18,640 --> 01:15:16,340

get like clouds or no clouds you get

1903

01:15:20,860 --> 01:15:18,650

cloud forming this is not cloud forming

1904

01:15:23,300 --> 01:15:20,870

and it's just like a few hundred feet so

1905

01:15:25,280 --> 01:15:23,310

our plane can be just a few hundred feet

1906

01:15:27,950 --> 01:15:25,290

below another one and it could not

1907

01:15:29,600 --> 01:15:27,960

making it or even above it and if you

1908

01:15:32,450 --> 01:15:29,610

with a distance like you think like so

1909

01:15:34,310 --> 01:15:32,460

am I looking at this video here my hands

1910

01:15:38,290 --> 01:15:34,320

are the same size approximately my right

1911

01:15:42,620 --> 01:15:38,300

hand slightly bigger but if they are say

1912

01:15:45,080 --> 01:15:42,630

the equivalents of 30,000 feet away way

1913

01:15:49,010 --> 01:15:45,090

back over here so let's say that's

1914

01:15:51,410 --> 01:15:49,020

30,000 feet and I move one to 29,000

1915

01:15:54,260 --> 01:15:51,420

feet moving a little bit closer it's not

1916

01:15:56,420 --> 01:15:54,270

moving very much the same and if you got

1917

01:16:00,650 --> 01:15:56,430

planes that are actually different

1918

01:16:02,510 --> 01:16:00,660

planes like you've got a 747 and a 737

1919

01:16:03,920 --> 01:16:02,520

from a distance you can't tell which is

1920

01:16:05,570 --> 01:16:03,930

which there just looks like like little

1921

01:16:07,460 --> 01:16:05,580

wine things with wings in the distance

1922

01:16:09,800 --> 01:16:07,470

but one is like more than twice the size

1923

01:16:11,930 --> 01:16:09,810

of the other one so there's no way you

1924

01:16:13,400 --> 01:16:11,940

can tell whether one is higher or lower

1925

01:16:15,170 --> 01:16:13,410

it's actually quite rare to get two

1926

01:16:17,660 --> 01:16:15,180

planes next to each other in the sky

1927

01:16:20,180 --> 01:16:17,670

that are actually the same plane most

1928

01:16:22,550 --> 01:16:20,190

likely thing is you're gonna get 737

1929

01:16:27,050 --> 01:16:22,560

even 737s they come in all different

1930

01:16:28,460 --> 01:16:27,060

sizes a 737 9 300 400 500 800 they're

1931

01:16:36,860 --> 01:16:28,470

all different sizes you have different

1932

01:16:38,990 --> 01:16:36,870

wing spans dispense yeah yeah base one

1933

01:16:40,340 --> 01:16:39,000

that comes up all the time it's funny

1934

01:16:42,290 --> 01:16:40,350

because it does actually happen all the

1935

01:16:44,270 --> 01:16:42,300

time people say I saw two planes in the

1936

01:16:46,730 --> 01:16:44,280

sky one left a trail one didn't leave

1937

01:16:47,960 --> 01:16:46,740

Israel why is that in the night you know

1938

01:16:50,690 --> 01:16:47,970

I give them that explanation I've

1939

01:16:53,900 --> 01:16:50,700

written it down logical question you

1940

01:16:56,270 --> 01:16:53,910

know it's somebody saying I saw two suns

1941

01:16:59,870 --> 01:16:56,280

in the sky why did happen that's a

1942

01:17:00,950 --> 01:16:59,880

logical that's that is that can be a

1943

01:17:02,180 --> 01:17:00,960

logical question because you can

1944

01:17:03,740 --> 01:17:02,190

actually take photographs where it looks

1945

01:17:06,380 --> 01:17:03,750

like there's two suns maybe you get like

1946

01:17:07,760 --> 01:17:06,390

the lights right and sometimes you get

1947

01:17:12,080 --> 01:17:07,770

these Sun dogs which look a bit like

1948

01:17:17,660 --> 01:17:12,090

Suns or you get clouds evidence of a

1949

01:17:19,820 --> 01:17:17,670

dorm dog yeah I think like any time

1950

01:17:21,830 --> 01:17:19,830

someone can show you something and say

1951

01:17:28,220 --> 01:17:21,840

why is this happening that's the valid

1952

01:17:29,510 --> 01:17:28,230

question I yeah yeah like so it's long

1953

01:17:32,120 --> 01:17:29,520

as they're not saying like you know this

1954

01:17:34,550 --> 01:17:32,130

this this proves that there's a dorm you

1955

01:17:37,169 --> 01:17:34,560

know if if if if the earth was a globe

1956

01:17:41,910 --> 01:17:37,179

then rainbows would be spherical

1957

01:17:43,200 --> 01:17:41,920

but yeah there is yeah it's Wendy saying

1958

01:17:45,689 --> 01:17:43,210

something when they make a claim I'll

1959

01:17:47,220 --> 01:17:45,699

say look a claim requires evidence no

1960

01:17:49,320 --> 01:17:47,230

chance I could be playing with evidence

1961

01:17:51,510 --> 01:17:49,330

or address the evidence their answers

1962

01:17:53,399 --> 01:17:51,520

your question mmm you can't you can't

1963

01:17:55,380 --> 01:17:53,409

just make flood you know fly out claims

1964

01:17:58,439 --> 01:17:55,390

like you know some bug proves the dome

1965

01:18:00,540 --> 01:17:58,449

right okay no look out science explains

1966

01:18:04,320 --> 01:18:00,550

some dogs in and found the problems with

1967

01:18:06,800 --> 01:18:04,330

that yeah examination there's lots of

1968

01:18:08,850 --> 01:18:06,810

fun expert well not fun explanations fun

1969

01:18:10,620 --> 01:18:08,860

interesting websites that explain these

1970

01:18:12,149 --> 01:18:10,630

things for you and yeah things that you

1971

01:18:14,070 --> 01:18:12,159

can go check yourself you can check

1972

01:18:15,510 --> 01:18:14,080

refraction you can get some crystals and

1973

01:18:18,689 --> 01:18:15,520

you can you can do things with them and

1974

01:18:20,640 --> 01:18:18,699

see what happens well this is it has

1975

01:18:22,320 --> 01:18:20,650

been like you know we've been doing like

1976

01:18:23,760 --> 01:18:22,330

an hour and a half I think now is there

1977

01:18:28,260 --> 01:18:23,770

anything that you want to talk about

1978

01:18:32,070 --> 01:18:28,270

that we haven't covered yet then I don't

1979

01:18:34,080 --> 01:18:32,080

think so I have to say are the only

1980

01:18:35,520 --> 01:18:34,090

advice I can give to any kind of life is

1981

01:18:37,260 --> 01:18:35,530

watching is just cross examine what

1982

01:18:39,209 --> 01:18:37,270

you're here yeah cross examine

1983

01:18:40,979 --> 01:18:39,219

everything whether it's the explanation

1984

01:18:43,399 --> 01:18:40,989

given by the globe of the proofs given

1985

01:18:46,680 --> 01:18:43,409

by Flat Earth just cross examine just

1986

01:18:48,680 --> 01:18:46,690

that's the only way to get to for the

1987

01:18:50,880 --> 01:18:48,690

answers research gives you answers

1988

01:18:53,360 --> 01:18:50,890

researchers far down as you need to

1989

01:18:57,890 --> 01:18:53,370

answer you don't find any more floors

1990

01:19:02,100 --> 01:18:57,900

thinks about it and keep it open mind

1991

01:19:04,979 --> 01:19:02,110

yeah all right Johnny uh thank you very

1992

01:19:06,600 --> 01:19:04,989

much and I'll probably you to thank me

1993

01:19:07,330 --> 01:19:06,610

on yeah
