

THE ~~SECRET~~ OWNER OF SKINWALKER RANCH

MICK WEST

BRANDON FUGAL

1
00:00:08,600 --> 00:00:06,050
welcome to tails in the rabbit hole I'm

2
00:00:09,950 --> 00:00:08,610
your host Mick West my guest today is

3
00:00:11,930 --> 00:00:09,960
Brandon Fogle

4
00:00:14,209 --> 00:00:11,940
a prominent business leader based in

5
00:00:16,880 --> 00:00:14,219
Utah and the current owner of the

6
00:00:18,800 --> 00:00:16,890
mysterious skinwalker ranch which is the

7
00:00:21,140 --> 00:00:18,810
focus of a wide variety of reported

8
00:00:24,040 --> 00:00:21,150
strange phenomena from Supernatural

9
00:00:26,269 --> 00:00:24,050
visitors to cattle mutilations and UFOs

10
00:00:28,040 --> 00:00:26,279
the ranch is now the subject of a

11
00:00:29,839 --> 00:00:28,050
History Channel show the secret of

12
00:00:32,990 --> 00:00:29,849
skinwalker ranch the finale for which

13
00:00:34,729 --> 00:00:33,000

airs on Tuesday June the 2nd this coming

14

00:00:37,069 --> 00:00:34,739

Tuesday so Brandon thank you very much

15

00:00:39,950 --> 00:00:37,079

for being here it's a pleasure to be

16

00:00:42,520 --> 00:00:39,960

with you and what a wonderful way to end

17

00:00:45,290 --> 00:00:42,530

our week on a beautiful Friday afternoon

18

00:00:50,630 --> 00:00:45,300

well thank you guys it should be an

19

00:00:52,670 --> 00:00:50,640

interesting show I think so tell me tell

20

00:00:56,930 --> 00:00:52,680

me how you first heard about skinwalker

21

00:01:00,529 --> 00:00:56,940

ranch good question you know I first

22

00:01:04,219 --> 00:01:00,539

heard about skinwalker ranch oh gosh I

23

00:01:07,700 --> 00:01:04,229

think it was probably over a decade ago

24

00:01:11,390 --> 00:01:07,710

and I was at Barnes & Noble of all

25

00:01:13,690 --> 00:01:11,400

places in Salt Lake City and happened

26

00:01:16,730 --> 00:01:13,700

upon a book hunt for the skinwalker by

27

00:01:20,270 --> 00:01:16,740

dr. calm Kelleher and George Knapp that

28

00:01:23,480 --> 00:01:20,280

introduced the entire you know history

29

00:01:25,760 --> 00:01:23,490

at least up until you know 2005 the

30

00:01:28,249 --> 00:01:25,770

ranch and the mysterious events

31

00:01:31,550 --> 00:01:28,259

surrounding kind of their investigation

32

00:01:33,410 --> 00:01:31,560

and bought that book reddit thought it

33

00:01:35,569 --> 00:01:33,420

was quite interesting I read quite a bit

34

00:01:41,289 --> 00:01:35,579

so I read several books a week at least

35

00:01:45,679 --> 00:01:41,299

and and I thought it was intriguing

36

00:01:49,039 --> 00:01:45,689

mostly because it it really involved a

37

00:01:50,710 --> 00:01:49,049

piece of property in Utah and I thought

38

00:01:54,740 --> 00:01:50,720

it you know it was an interesting

39

00:01:57,380 --> 00:01:54,750

footnote in Utah history and and then I

40

00:02:00,319 --> 00:01:57,390

put it up on my shelf and really didn't

41

00:02:07,310 --> 00:02:00,329

think anything more about the ranch

42

00:02:09,020 --> 00:02:07,320

until called 2015 so I you know bought

43

00:02:14,450 --> 00:02:09,030

the book at Barnes & Noble just like

44

00:02:18,930 --> 00:02:14,460

anyone else and and was then later

45

00:02:23,130 --> 00:02:18,940

introduced to the ranch and mr. Bigalow

46

00:02:25,080 --> 00:02:23,140

in 2015 which ultimately led to my

47

00:02:28,880 --> 00:02:25,090

acquisition of the property the first

48

00:02:31,430 --> 00:02:28,890

week in April 2016 over four years ago

49

00:02:33,900 --> 00:02:31,440

so I guess when you first read the book

50

00:02:37,440 --> 00:02:33,910

you have probably somewhat skeptical of

51
00:02:39,860 --> 00:02:37,450
the events that were described within it

52
00:02:42,330 --> 00:02:39,870
would that be accurate at that time

53
00:02:44,930 --> 00:02:42,340
absolutely skeptical I found the book

54
00:02:47,990 --> 00:02:44,940
very entertaining I thought it is

55
00:02:52,290 --> 00:02:48,000
intriguing I thought it was entertaining

56
00:02:53,820 --> 00:02:52,300
you know it was it was a fun read and I

57
00:02:55,320 --> 00:02:53,830
really didn't look at it as anything

58
00:02:59,670 --> 00:02:55,330
more than that I didn't really consider

59
00:03:02,850 --> 00:02:59,680
the book a scientific kimura career or

60
00:03:06,090 --> 00:03:02,860
investigation you know I had you know

61
00:03:08,700 --> 00:03:06,100
had never met George Knapp or Colin

62
00:03:12,240 --> 00:03:08,710
Kelleher mr. Bigelow for that matter and

63
00:03:14,070 --> 00:03:12,250

I just found it to be probably most

64

00:03:16,680 --> 00:03:14,080

interesting because of its of its

65

00:03:18,510 --> 00:03:16,690

location but other than that approached

66

00:03:23,420 --> 00:03:18,520

it with a high degree of skepticism and

67

00:03:26,880 --> 00:03:23,430

I I hit I have up until really getting

68

00:03:30,690 --> 00:03:26,890

getting more into our investigation I I

69

00:03:35,100 --> 00:03:30,700

had always had it more of a healthy but

70

00:03:38,270 --> 00:03:35,110

skeptical look at the not only you know

71

00:03:42,090 --> 00:03:38,280

topics like the ranch but also the UFO

72

00:03:44,100 --> 00:03:42,100

phenomena you know ghosts orbs you name

73

00:03:48,540 --> 00:03:44,110

it all all of the high strangeness that

74

00:03:50,400 --> 00:03:48,550

people claim occurs in the world what

75

00:03:52,140 --> 00:03:50,410

was the the tipping point for you then

76
00:03:54,330 --> 00:03:52,150
when you kind of flipped over from being

77
00:03:55,440 --> 00:03:54,340
skeptical about all these phenomena to

78
00:03:57,420 --> 00:03:55,450
actually thinking that there might be

79
00:03:59,970 --> 00:03:57,430
something to them or at least something

80
00:04:03,150 --> 00:03:59,980
to what's going on in the ranch yeah

81
00:04:07,080 --> 00:04:03,160
good question you know I you know I flew

82
00:04:09,810 --> 00:04:07,090
down to Las Vegas in 2015 and spent many

83
00:04:12,449 --> 00:04:09,820
hours with Robert Bigelow the previous

84
00:04:15,900 --> 00:04:12,459
owner at his Bigelow Aerospace compound

85
00:04:17,820 --> 00:04:15,910
which was quite impressive I I not only

86
00:04:19,920 --> 00:04:17,830
found him to be a kindred spirit in

87
00:04:21,840 --> 00:04:19,930
terms of some of his background in real

88
00:04:25,200 --> 00:04:21,850

estate development and whatnot but I

89

00:04:27,920 --> 00:04:25,210

found his interest in some of these more

90

00:04:30,950 --> 00:04:27,930

controversial topics quite

91

00:04:34,580 --> 00:04:30,960

quite intriguing and I was introduced to

92

00:04:36,860 --> 00:04:34,590

comme Kelleher and a few others during

93

00:04:39,230 --> 00:04:36,870

that exchange and you know sitting

94

00:04:43,700 --> 00:04:39,240

across from them and tearing their very

95

00:04:45,290 --> 00:04:43,710

sober accounts and explanation of events

96

00:04:48,700 --> 00:04:45,300

and what occurred on the ranch

97

00:04:51,620 --> 00:04:48,710

during their you know roughly 20 year

98

00:04:53,930 --> 00:04:51,630

ownership and investigation

99

00:04:57,830 --> 00:04:53,940

you know caused me to pause these seems

100

00:05:02,210 --> 00:04:57,840

like very credible people to me and in a

101

00:05:05,300 --> 00:05:02,220

lot of respects and I I would say that's

102

00:05:08,240 --> 00:05:05,310

when my my interest perked up yeah I

103

00:05:10,189 --> 00:05:08,250

didn't become a believer if you will or

104

00:05:11,540 --> 00:05:10,199

I you know I still you know approached

105

00:05:15,320 --> 00:05:11,550

the topic with a high degree of

106

00:05:19,520 --> 00:05:15,330

skepticism but I I tried to keep an open

107

00:05:22,790 --> 00:05:19,530

mind in approaching the the property and

108

00:05:25,400 --> 00:05:22,800

really carrying forward my own

109

00:05:27,860 --> 00:05:25,410

investigation you know there really

110

00:05:30,469 --> 00:05:27,870

wasn't much of an information exchange

111

00:05:34,010 --> 00:05:30,479

that occurred relative to the

112

00:05:35,600 --> 00:05:34,020

acquisition of the property you know mr.

113

00:05:37,700 --> 00:05:35,610

Bigelow was very clear about the fact

114

00:05:42,080 --> 00:05:37,710

that he he was selling the property as

115

00:05:44,930 --> 00:05:42,090

is I think he saw me is not only a also

116

00:05:48,050 --> 00:05:44,940

a fill of kindred spirit but but you

117

00:05:50,180 --> 00:05:48,060

know a rightful successor to hopefully

118

00:05:52,120 --> 00:05:50,190

what he had created and that I I told

119

00:05:54,740 --> 00:05:52,130

him that if you know if I had the

120

00:05:58,760 --> 00:05:54,750

opportunity to acquire the property it

121

00:06:03,649 --> 00:05:58,770

would be my intention to bring in my own

122

00:06:07,700 --> 00:06:03,659

team of experts of scientists in order

123

00:06:09,529 --> 00:06:07,710

to to document you know the events and

124

00:06:12,680 --> 00:06:09,539

really the nature of what had been

125

00:06:15,620 --> 00:06:12,690

reported there but yeah to be candid I I

126

00:06:19,279 --> 00:06:15,630

fully expected that there was a 95%

127

00:06:21,680 --> 00:06:19,289

probability or greater that's you know

128

00:06:24,189 --> 00:06:21,690

that there was going to be a natural you

129

00:06:27,740 --> 00:06:24,199

know more prosaic explanation behind

130

00:06:30,050 --> 00:06:27,750

what what had been reported and you know

131

00:06:32,870 --> 00:06:30,060

I kind of looked at the ranch and the

132

00:06:34,550 --> 00:06:32,880

the accounts as being probably most

133

00:06:37,339 --> 00:06:34,560

likely nothing more than an adult

134

00:06:39,800 --> 00:06:37,349

scientific snipe hunt of sorts I don't

135

00:06:41,660 --> 00:06:39,810

know if you you know growing up I was in

136

00:06:44,720 --> 00:06:41,670

the Boy Scouts I was an eagle

137

00:06:47,450 --> 00:06:44,730

thousands you know one of the one of the

138

00:06:50,360 --> 00:06:47,460

activities that we were involved in in

139

00:06:52,550 --> 00:06:50,370

scouting it was kind of a a rite of

140

00:06:55,280 --> 00:06:52,560

passage with the younger Scouts where we

141

00:06:57,380 --> 00:06:55,290

would initiate them through convincing

142

00:06:59,780 --> 00:06:57,390

them that they were they were tracking

143

00:07:02,120 --> 00:06:59,790

or hunting you know this this elusive

144

00:07:04,910 --> 00:07:02,130

creature up in the forests this snipe

145

00:07:08,270 --> 00:07:04,920

and you know and by the if you're

146

00:07:10,160 --> 00:07:08,280

familiar with with this with this sort

147

00:07:11,900 --> 00:07:10,170

of thing you know by the end of the

148

00:07:15,170 --> 00:07:11,910

evening all the young Scouts are

149

00:07:17,780 --> 00:07:15,180

absolutely 100 100 percent convinced

150

00:07:19,880 --> 00:07:17,790

they are absolutely certain that there

151
00:07:21,610 --> 00:07:19,890
is a snipe that there is truly something

152
00:07:24,710 --> 00:07:21,620
that they're hearing out in the brush

153
00:07:28,670 --> 00:07:24,720
that that they're either hunting or that

154
00:07:32,330 --> 00:07:28,680
is hunting them and I you know again no

155
00:07:35,810 --> 00:07:32,340
offense to to any of the people who had

156
00:07:37,460 --> 00:07:35,820
worked on the ranch previously at all

157
00:07:39,890 --> 00:07:37,470
but I I thought the most likely

158
00:07:42,770 --> 00:07:39,900
explanation for a lot of what had been

159
00:07:45,740 --> 00:07:42,780
reported was that that it was nothing

160
00:07:47,510 --> 00:07:45,750
more than the result of groupthink you

161
00:07:51,020 --> 00:07:47,520
know a lot of front-loaded groupthink

162
00:07:53,000 --> 00:07:51,030
and and the people had stirred

163
00:07:56,450 --> 00:07:53,010

themselves up into believing that they

164

00:07:58,790 --> 00:07:56,460

were seeing something unusual that most

165

00:08:01,910 --> 00:07:58,800

likely didn't have any anything

166

00:08:04,490 --> 00:08:01,920

extraordinary to do with so what what

167

00:08:05,150 --> 00:08:04,500

what was your goal then if you believe

168

00:08:09,530 --> 00:08:05,160

that

169

00:08:11,360 --> 00:08:09,540

majority of the sightings or just about

170

00:08:12,560 --> 00:08:11,370

all of those the things that went on no

171

00:08:14,390 --> 00:08:12,570

I don't think there was there was a

172

00:08:17,480 --> 00:08:14,400

fraction of them that have something

173

00:08:20,540 --> 00:08:17,490

that was worth investigating no I I

174

00:08:23,540 --> 00:08:20,550

really kept an open mind and I I didn't

175

00:08:26,660 --> 00:08:23,550

make any assumptions in fact I I didn't

176

00:08:31,130 --> 00:08:26,670

I didn't assume that any of the events

177

00:08:33,770 --> 00:08:31,140

were were true I also didn't didn't go

178

00:08:38,150 --> 00:08:33,780

so far as to discredit or say that they

179

00:08:40,219 --> 00:08:38,160

weren't true I I thought well you know

180

00:08:43,850 --> 00:08:40,229

what has come before what has been

181

00:08:47,300 --> 00:08:43,860

reported before you know it yeah most of

182

00:08:49,880 --> 00:08:47,310

which has been anecdotal in nature was

183

00:08:51,470 --> 00:08:49,890

not really easily proved and you know

184

00:08:54,230 --> 00:08:51,480

the only way to get to the bottom of

185

00:08:55,190 --> 00:08:54,240

whether there was any any reality to

186

00:08:58,480 --> 00:08:55,200

what had been claimed

187

00:09:01,880 --> 00:08:58,490

was to employ you know you know

188

00:09:06,320 --> 00:09:01,890

scientific tools and resources in

189

00:09:08,930 --> 00:09:06,330

service to to really studying the the

190

00:09:11,810 --> 00:09:08,940

ranch and to truly see if there was a

191

00:09:13,940 --> 00:09:11,820

phenomena work yeah people get talking

192

00:09:16,010 --> 00:09:13,950

about the phenomena and I think it's

193

00:09:18,080 --> 00:09:16,020

interesting that it's very difficult to

194

00:09:20,570 --> 00:09:18,090

pin down what this phenomena is that

195

00:09:23,300 --> 00:09:20,580

you're studying I Bigelow said once that

196

00:09:25,940 --> 00:09:23,310

they couldn't study it scientifically

197

00:09:27,260 --> 00:09:25,950

because he never repeated itself it was

198

00:09:28,910 --> 00:09:27,270

always something different so you

199

00:09:31,010 --> 00:09:28,920

couldn't you know set up an experiment

200

00:09:34,460 --> 00:09:31,020

to do the same thing and there's these

201

00:09:37,040 --> 00:09:34,470

various different things that happen is

202

00:09:40,040 --> 00:09:37,050

there a way of characterizing what this

203

00:09:41,780 --> 00:09:40,050

phenomena actually is or so-called some

204

00:09:43,310 --> 00:09:41,790

characterization of a phenomena just

205

00:09:46,070 --> 00:09:43,320

being other than just being a really

206

00:09:49,340 --> 00:09:46,080

strange place where things happen yeah

207

00:09:51,170 --> 00:09:49,350

good question you know I you you have to

208

00:09:53,870 --> 00:09:51,180

have something that is repeatable in

209

00:09:56,900 --> 00:09:53,880

order to thoroughly test the hypothesis

210

00:09:59,960 --> 00:09:56,910

as you know you really have to to be

211

00:10:02,500 --> 00:09:59,970

able to find repeatable results and to

212

00:10:06,410 --> 00:10:02,510

be able to properly characterize it and

213

00:10:08,480 --> 00:10:06,420

you're right you know in in approaching

214

00:10:14,540 --> 00:10:08,490

the claims associated with the ranch

215

00:10:16,430 --> 00:10:14,550

historically the the nature of what was

216

00:10:19,370 --> 00:10:16,440

being claimed was not only elusive but

217

00:10:24,620 --> 00:10:19,380

rather ambiguous and him and you know I

218

00:10:27,920 --> 00:10:24,630

I again I I came into this having never

219

00:10:30,920 --> 00:10:27,930

seen a UFO having never claimed to have

220

00:10:35,740 --> 00:10:30,930

seen a ghost or an orb or anything of a

221

00:10:38,690 --> 00:10:35,750

supernatural nature and I I honestly

222

00:10:41,810 --> 00:10:38,700

thought that the the likely result would

223

00:10:44,240 --> 00:10:41,820

would probably be you know finding some

224

00:10:46,970 --> 00:10:44,250

type of natural explanation for what was

225

00:10:50,870 --> 00:10:46,980

a Korean and frankly you know the first

226

00:10:54,260 --> 00:10:50,880

six months for half a year of owning it

227

00:10:58,010 --> 00:10:54,270

in all of my visits down to the ranch I

228

00:11:00,740 --> 00:10:58,020

I didn't experience it or or witness

229

00:11:03,410 --> 00:11:00,750

anything that I would say was unusual it

230

00:11:05,960 --> 00:11:03,420

just seemed like a very beautiful scenic

231

00:11:08,710 --> 00:11:05,970

backdrop in fact it's right out of John

232

00:11:12,749 --> 00:11:08,720

Wayne western movie

233

00:11:15,699 --> 00:11:12,759

or Westworld is probably a more relevant

234

00:11:19,509 --> 00:11:15,709

present point of reference I mean that

235

00:11:22,929 --> 00:11:19,519

the backdrop of skinwalker ranch is very

236

00:11:24,819 --> 00:11:22,939

reminiscent of what you'd see in yo

237

00:11:28,030 --> 00:11:24,829

season one or two of Westworld

238

00:11:30,789 --> 00:11:28,040

and and and I think that was probably

239

00:11:33,429 --> 00:11:30,799

the first surprise that I had upon

240

00:11:35,859 --> 00:11:33,439

inspecting the property was how how

241

00:11:37,840 --> 00:11:35,869

beautifully striking the landscape was

242

00:11:41,139 --> 00:11:37,850

and how diverse I mean you have

243

00:11:44,289 --> 00:11:41,149

everything from a Red Rock Mesa that

244

00:11:47,979 --> 00:11:44,299

spans the entire property to cave

245

00:11:49,929 --> 00:11:47,989

systems you have a number of old pioneer

246

00:11:53,100 --> 00:11:49,939

homesteads that are over a hundred years

247

00:11:55,150 --> 00:11:53,110

old that that are still standing barely

248

00:11:57,960 --> 00:11:55,160

you have you know some interesting

249

00:12:01,809 --> 00:11:57,970

waterways that traverse the property and

250

00:12:05,470 --> 00:12:01,819

and it you know that that was something

251
00:12:10,419 --> 00:12:05,480
that was completely unexpected you it's

252
00:12:13,119 --> 00:12:10,429
difficult to to really picture what the

253
00:12:16,960 --> 00:12:13,129
ranch lands gave looks like simply based

254
00:12:19,419 --> 00:12:16,970
on the description in George Knapp and

255
00:12:24,159 --> 00:12:19,429
calm Kelleher's book and when I came

256
00:12:27,460 --> 00:12:24,169
into to actually to inspect the property

257
00:12:33,009 --> 00:12:27,470
the week I closed on it I flew in via

258
00:12:35,350 --> 00:12:33,019
helicopter and I I was shocked at how

259
00:12:40,119 --> 00:12:35,360
beautiful the place was I was expecting

260
00:12:44,079 --> 00:12:40,129
probably more flat topography or desert

261
00:12:49,090 --> 00:12:44,089
Prairie type of type of landscape and I

262
00:12:50,829 --> 00:12:49,100
was wholly unprepared for vanity it is

263
00:12:53,109 --> 00:12:50,839

very very striking looking there's lots

264

00:12:54,429 --> 00:12:53,119

of nice drone shots in the TV show and

265

00:12:56,139 --> 00:12:54,439

you got the Mesa there with all the

266

00:12:57,909 --> 00:12:56,149

rocks tumbling down it and giant

267

00:12:59,859 --> 00:12:57,919

boulders and then the flat land and the

268

00:13:02,409 --> 00:12:59,869

river it's very interesting looking so

269

00:13:03,970 --> 00:13:02,419

you didn't he said for the first six

270

00:13:06,729 --> 00:13:03,980

months you didn't have any experiences

271

00:13:09,460 --> 00:13:06,739

have you personally had some kind of you

272

00:13:13,090 --> 00:13:09,470

know supernatural UFO type experience

273

00:13:15,460 --> 00:13:13,100

yes in snaps oh absolutely yeah that

274

00:13:17,889 --> 00:13:15,470

that you know what was recorded during

275

00:13:21,639 --> 00:13:17,899

the first six months before I really

276

00:13:24,280 --> 00:13:21,649

witnessed anything myself personally was

277

00:13:27,400 --> 00:13:24,290

was interesting I mean I you know one of

278

00:13:30,759 --> 00:13:27,410

the first things that I did with the

279

00:13:33,910 --> 00:13:30,769

property upon purchasing the ranch was I

280

00:13:37,689 --> 00:13:33,920

employed a drone aerial surveyor that

281

00:13:39,460 --> 00:13:37,699

the conducted numerous drone surveys of

282

00:13:41,410 --> 00:13:39,470

the property in the surrounding area in

283

00:13:43,359 --> 00:13:41,420

order to really document every inch of

284

00:13:45,249 --> 00:13:43,369

the property I wanted to start

285

00:13:48,309 --> 00:13:45,259

establishing a historical record that

286

00:13:50,079 --> 00:13:48,319

would track the landscape any changes in

287

00:13:52,090 --> 00:13:50,089

the landscape you know anything that

288

00:13:55,540 --> 00:13:52,100

would be interesting so we would have a

289

00:13:59,290 --> 00:13:55,550

baseline to continue measuring against

290

00:14:01,239 --> 00:13:59,300

as as we really let our investigation

291

00:14:04,359 --> 00:14:01,249

unfold you know the first several years

292

00:14:06,429 --> 00:14:04,369

of my ownership of the property you know

293

00:14:08,439 --> 00:14:06,439

I probably say the first three years was

294

00:14:11,799 --> 00:14:08,449

really characterized best as an

295

00:14:13,679 --> 00:14:11,809

observational science exercise it wasn't

296

00:14:15,609 --> 00:14:13,689

a lot of really aggressive

297

00:14:18,280 --> 00:14:15,619

experimentation like you see on the

298

00:14:21,509 --> 00:14:18,290

television program yeah a lot of it was

299

00:14:26,410 --> 00:14:21,519

was really carefully and methodically

300

00:14:29,110 --> 00:14:26,420

establishing the the surveillance you

301
00:14:31,989 --> 00:14:29,120
know monitoring and in some of the other

302
00:14:33,639 --> 00:14:31,999
instrumentation in order to to truly

303
00:14:36,449 --> 00:14:33,649
document what was happening on the

304
00:14:40,210 --> 00:14:36,459
property but to answer your question yet

305
00:14:42,720 --> 00:14:40,220
before I had my own experience you know

306
00:14:45,129 --> 00:14:42,730
we we had captured a number of

307
00:14:46,929 --> 00:14:45,139
interesting images and I think you

308
00:14:50,819 --> 00:14:46,939
picked out a couple of those images from

309
00:14:54,009 --> 00:14:50,829
that were you know seen briefly in

310
00:14:56,559 --> 00:14:54,019
Jeremy corbels documentary hunt for the

311
00:14:58,179 --> 00:14:56,569
skinwalker which was I don't know when

312
00:15:01,980 --> 00:14:58,189
that was released two years ago year and

313
00:15:05,110 --> 00:15:01,990

a half ago yeah I think so you know and

314

00:15:06,579 --> 00:15:05,120

you know to be clear I you know I

315

00:15:09,179 --> 00:15:06,589

thought they were very interesting

316

00:15:13,660 --> 00:15:09,189

images I mean we captured a few daylight

317

00:15:16,239 --> 00:15:13,670

images of unidentified flying objects

318

00:15:18,460 --> 00:15:16,249

you know I yeah I thought it was

319

00:15:20,889 --> 00:15:18,470

intriguing in that wouldn't we check you

320

00:15:24,369 --> 00:15:20,899

know the you know flight data you know

321

00:15:27,850 --> 00:15:24,379

the database history you know tracking

322

00:15:30,730 --> 00:15:27,860

you know the the commercial the private

323

00:15:32,769 --> 00:15:30,740

air traffic in the base and during the

324

00:15:35,590 --> 00:15:32,779

period of time that those images were

325

00:15:38,470 --> 00:15:35,600

taken by my drone aerial

326

00:15:40,450 --> 00:15:38,480

surveyor you know there were there

327

00:15:43,210 --> 00:15:40,460

wasn't anything recorded there was no

328

00:15:45,910 --> 00:15:43,220

there was no known traffic you know and

329

00:15:47,850 --> 00:15:45,920

I know I know very well that there are

330

00:15:51,580 --> 00:15:47,860

those that don't you know have the

331

00:15:55,600 --> 00:15:51,590

appropriate equipment and you have from

332

00:15:58,570 --> 00:15:55,610

time to time you know you know some some

333

00:16:01,330 --> 00:15:58,580

aerial activity that that doesn't show

334

00:16:03,460 --> 00:16:01,340

up on some answer but I thought it was

335

00:16:06,370 --> 00:16:03,470

interesting I thought to have multiple

336

00:16:08,350 --> 00:16:06,380

events that that were witnessed there

337

00:16:13,900 --> 00:16:08,360

were that had multiple witnesses with

338

00:16:17,100 --> 00:16:13,910

them of what what appeared to be unusual

339

00:16:21,550 --> 00:16:17,110

craft on or around the property or

340

00:16:24,100 --> 00:16:21,560

objects I found to be intriguing and

341

00:16:25,990 --> 00:16:24,110

that's that's probably when my interest

342

00:16:29,260 --> 00:16:26,000

started cooking up that was in June of

343

00:16:32,230 --> 00:16:29,270

2016 we had we had a number of events

344

00:16:36,370 --> 00:16:32,240

that that occurred that were recorded

345

00:16:37,990 --> 00:16:36,380

you know images captured and and you

346

00:16:41,800 --> 00:16:38,000

know what it did more than anything is

347

00:16:42,880 --> 00:16:41,810

it inspired me to improve our systems on

348

00:16:45,130 --> 00:16:42,890

the property

349

00:16:48,370 --> 00:16:45,140

you know our data collection you know

350

00:16:51,820 --> 00:16:48,380

and you know our camera surveillance

351
00:16:54,150 --> 00:16:51,830
system so we can better monitor and and

352
00:16:57,520 --> 00:16:54,160
record that which was occurring

353
00:17:01,060 --> 00:16:57,530
yeah that's those three photos that were

354
00:17:02,830 --> 00:17:01,070
your reference there I looked at those

355
00:17:04,810 --> 00:17:02,840
and I noticed that you had the metadata

356
00:17:09,340 --> 00:17:04,820
in the corner there they were taken with

357
00:17:12,819 --> 00:17:09,350
an iPhone 6s plus isn't a particularly

358
00:17:15,939 --> 00:17:12,829
you know good camera for taking photos

359
00:17:18,280 --> 00:17:15,949
of planes that are a long way away yeah

360
00:17:20,189 --> 00:17:18,290
I mean I get to me what you showed in

361
00:17:23,500 --> 00:17:20,199
those photos was very consistent with

362
00:17:25,120 --> 00:17:23,510
just you know in one case the black dot

363
00:17:27,550 --> 00:17:25,130

like you know some kind of fly or a bird

364

00:17:29,410 --> 00:17:27,560

and the other two can I look like planes

365

00:17:31,930 --> 00:17:29,420

to me you get the white cigar shape

366

00:17:33,250 --> 00:17:31,940

which is typical of a a plane scene at

367

00:17:36,160 --> 00:17:33,260

some distance and then there's another

368

00:17:37,540 --> 00:17:36,170

one looked like a plane higher up like

369

00:17:39,820 --> 00:17:37,550

something like you know something with

370

00:17:42,580 --> 00:17:39,830

the coloration like different livery red

371

00:17:44,710 --> 00:17:42,590

red wings or a red body but they didn't

372

00:17:47,680 --> 00:17:44,720

look too to me they didn't look too

373

00:17:49,450 --> 00:17:47,690

inconsistent with planes and you talked

374

00:17:52,360 --> 00:17:49,460

about the ad SB data

375

00:17:55,360 --> 00:17:52,370

which is the flight tracking data there

376

00:18:00,040 --> 00:17:55,370

aren't really any receivers in that area

377

00:18:02,830 --> 00:18:00,050

you you quite often see dropouts in that

378

00:18:05,200 --> 00:18:02,840

area because there's very few it's not

379

00:18:07,690 --> 00:18:05,210

very very populated I believe you have

380

00:18:10,480 --> 00:18:07,700

your own receiver on the ranch I don't

381

00:18:13,210 --> 00:18:10,490

if that was operating at that time yeah

382

00:18:16,240 --> 00:18:13,220

what you do see reliably is you do see

383

00:18:19,590 --> 00:18:16,250

the the air traffic that surrounds the

384

00:18:23,830 --> 00:18:19,600

basin and you can I mean you you can

385

00:18:26,590 --> 00:18:23,840

write it fairly reliably track you know

386

00:18:29,680 --> 00:18:26,600

conventional aircraft that are in and

387

00:18:31,510 --> 00:18:29,690

out I I will say the the the image that

388

00:18:35,200 --> 00:18:31,520

you're referencing relative to the black

389

00:18:38,260 --> 00:18:35,210

dot that was kind of over the shoulder

390

00:18:40,480 --> 00:18:38,270

of a gentleman that was not taken with

391

00:18:44,170 --> 00:18:40,490

an iPhone 6s with that was actually

392

00:18:46,120 --> 00:18:44,180

taken by another individual it was

393

00:18:50,640 --> 00:18:46,130

actually taken by a visitor to the ranch

394

00:18:55,000 --> 00:18:50,650

on on the day of he was October 16th

395

00:18:59,920 --> 00:18:55,010

2016 and it was an icon it's actually a

396

00:19:01,480 --> 00:18:59,930

high quality nikon camera that that

397

00:19:07,000 --> 00:19:01,490

captured a number of really interesting

398

00:19:09,010 --> 00:19:07,010

images and it was a Nikon d5000 camera

399

00:19:11,380 --> 00:19:09,020

whatever that is so for what it's worth

400

00:19:13,900 --> 00:19:11,390

we have a number of images that were

401
00:19:17,380 --> 00:19:13,910
captured in June that were that were

402
00:19:20,050 --> 00:19:17,390
really randomly I mean not it it there

403
00:19:23,470 --> 00:19:20,060
was no expectation that that they were

404
00:19:26,080 --> 00:19:23,480
going to go out and capture photographic

405
00:19:30,270 --> 00:19:26,090
images of UFOs it's just you know it

406
00:19:32,740 --> 00:19:30,280
happened randomly and and those were the

407
00:19:35,560 --> 00:19:32,750
daylight images that you see depicted

408
00:19:38,080 --> 00:19:35,570
one was over the Mesa we often refer to

409
00:19:39,910 --> 00:19:38,090
we refer to it playfully as the

410
00:19:41,590 --> 00:19:39,920
Millennium Falcon image because it kind

411
00:19:42,280 --> 00:19:41,600
of looks like a Millennium Falcon from

412
00:19:44,260 --> 00:19:42,290
Star Wars

413
00:19:47,220 --> 00:19:44,270

because if we're gonna come with white

414

00:19:49,950 --> 00:19:47,230

lines and that view from the side yeah

415

00:19:55,420 --> 00:19:49,960

yeah it's it's a little bit similar to

416

00:19:57,640 --> 00:19:55,430

the tic-tac video in a moment you know

417

00:19:59,050 --> 00:19:57,650

that was taken you know the first part

418

00:20:02,680 --> 00:19:59,060

of June and then the other image that

419

00:20:03,350 --> 00:20:02,690

that that we that that same individual

420

00:20:04,940 --> 00:20:03,360

took on

421

00:20:08,140 --> 00:20:04,950

I phone that you know you see the

422

00:20:13,310 --> 00:20:08,150

metadata displayed for was actually

423

00:20:15,919 --> 00:20:13,320

above the their homestead one or above

424

00:20:17,480 --> 00:20:15,929

the main pasture right outside of the

425

00:20:19,970 --> 00:20:17,490

homestead and it was a it was an

426
00:20:22,100 --> 00:20:19,980
interesting object that was glowing that

427
00:20:24,710 --> 00:20:22,110
actually appeared right above the

428
00:20:27,440 --> 00:20:24,720
pasture and just stood there it was just

429
00:20:28,789 --> 00:20:27,450
stationary and then it zipped off and

430
00:20:31,970 --> 00:20:28,799
while it was sitting there for probably

431
00:20:34,730 --> 00:20:31,980
I don't know a minute or two without

432
00:20:38,180 --> 00:20:34,740
moving he was able to capture that image

433
00:20:40,549 --> 00:20:38,190
on his iPhone and then it then then

434
00:20:44,180 --> 00:20:40,559
whatever it was quickly departed but it

435
00:20:47,090 --> 00:20:44,190
definitely wasn't an airplane it just

436
00:20:49,159 --> 00:20:47,100
sat there stationary if there was a

437
00:20:52,730 --> 00:20:49,169
conventional explanation for it it would

438
00:20:56,360 --> 00:20:52,740

be a drone for example but it didn't

439

00:20:58,490 --> 00:20:56,370

seem to operate like any drone that the

440

00:21:01,250 --> 00:20:58,500

at least were familiar with or could

441

00:21:03,799 --> 00:21:01,260

actually match up with that imagery yes

442

00:21:05,030 --> 00:21:03,809

the Shamy didn't didn't take video of it

443

00:21:07,789 --> 00:21:05,040

which should have it yeah

444

00:21:09,230 --> 00:21:07,799

at least still photos have big problems

445

00:21:11,150 --> 00:21:09,240

because it's very difficult to get a

446

00:21:12,820 --> 00:21:11,160

sense of how fast things are moving or

447

00:21:16,190 --> 00:21:12,830

if they're moving at a constant rate

448

00:21:19,430 --> 00:21:16,200

very judging judging distance is very

449

00:21:22,700 --> 00:21:19,440

hard as well at the described one as

450

00:21:24,080 --> 00:21:22,710

being over the Mesa and and you know he

451
00:21:26,480 --> 00:21:24,090
looks like he said what this white thing

452
00:21:28,220 --> 00:21:26,490
that's over the Mesa but it was over the

453
00:21:30,140 --> 00:21:28,230
Mesa it would essentially be like had an

454
00:21:32,180 --> 00:21:30,150
air like a an aluminum rod or something

455
00:21:34,880 --> 00:21:32,190
because it's not not very yeah not very

456
00:21:36,260 --> 00:21:34,890
far to the Mesa from that spot like

457
00:21:38,840 --> 00:21:36,270
about half a mile or so

458
00:21:44,539 --> 00:21:38,850
Oh correct no it's quite off in the

459
00:21:47,440 --> 00:21:44,549
distance I mean but the visually you

460
00:21:50,450 --> 00:21:47,450
know the the object obviously wasn't

461
00:21:52,760 --> 00:21:50,460
stationary literally above the Mesa it

462
00:21:55,789 --> 00:21:52,770
was it was literally looking to the

463
00:21:58,610 --> 00:21:55,799

north of Homestead one or the main ranch

464

00:22:01,419 --> 00:21:58,620

house over the Mesa out into the

465

00:22:03,770 --> 00:22:01,429

distance so it was probably more clearly

466

00:22:07,070 --> 00:22:03,780

oriented somewhere around bottle hollow

467

00:22:09,860 --> 00:22:07,080

or up in that vicinity I mean it's you

468

00:22:11,510 --> 00:22:09,870

know with that without other angles you

469

00:22:14,540 --> 00:22:11,520

know to allow for the other spatial

470

00:22:17,270 --> 00:22:14,550

awareness it's it's impossible to be

471

00:22:20,120 --> 00:22:17,280

able to identify the exact size

472

00:22:22,430 --> 00:22:20,130

and scale and location yeah I think

473

00:22:24,620 --> 00:22:22,440

without knowing any context of Italy is

474

00:22:27,800 --> 00:22:24,630

just looking at that from I do a lot of

475

00:22:30,320 --> 00:22:27,810

like playing analyzing data from that

476

00:22:32,390 --> 00:22:30,330

type of thing and it could well be a a

477

00:22:34,640 --> 00:22:32,400

plane at high altitude of 30,000 feet

478

00:22:36,020 --> 00:22:34,650

this is about 20 miles away I think a

479

00:22:38,270 --> 00:22:36,030

lot of people don't realize how far away

480

00:22:41,000 --> 00:22:38,280

planes are when you're looking kind of

481

00:22:42,890 --> 00:22:41,010

you know over there rather than over 45

482

00:22:44,120 --> 00:22:42,900

degrees it's a fairly low angle

483

00:22:48,140 --> 00:22:44,130

essentially when you're just looking up

484

00:22:50,390 --> 00:22:48,150

over the Mesa yeah I see it appeared to

485

00:22:53,090 --> 00:22:50,400

be it appeared to be close right I guess

486

00:22:56,230 --> 00:22:53,100

you know what I found most intriguing

487

00:22:59,690 --> 00:22:56,240

was the fact that there wasn't any

488

00:23:03,260 --> 00:22:59,700

flight data showing anything coming or

489

00:23:05,330 --> 00:23:03,270

going from the vicinity or the basin in

490

00:23:09,260 --> 00:23:05,340

that area that would a lot that would

491

00:23:12,980 --> 00:23:09,270

align with that photo image I might I

492

00:23:15,860 --> 00:23:12,990

had the same the same suspicion when he

493

00:23:17,630 --> 00:23:15,870

when my drone surveyor brought brought

494

00:23:21,590 --> 00:23:17,640

me the image in fact he called and said

495

00:23:23,240 --> 00:23:21,600

I got this image on my iPhone I want to

496

00:23:25,610 --> 00:23:23,250

show it to you and I said I want you to

497

00:23:28,790 --> 00:23:25,620

stop any everything I said drop

498

00:23:31,070 --> 00:23:28,800

everything I want you to drive straight

499

00:23:32,960 --> 00:23:31,080

from the ranch drive two and a half

500

00:23:34,940 --> 00:23:32,970

hours to my office and I want you to

501
00:23:37,790 --> 00:23:34,950
plug your phone right into my graphics

502
00:23:39,770 --> 00:23:37,800
directors computer because I I don't

503
00:23:41,360 --> 00:23:39,780
want anyone else touching your phone if

504
00:23:43,610 --> 00:23:41,370
there's something legitimate that you

505
00:23:46,160 --> 00:23:43,620
believe you captured if you if there's

506
00:23:49,370 --> 00:23:46,170
something truly anomalous I don't want

507
00:23:51,500 --> 00:23:49,380
anything anything compromising either

508
00:23:54,560 --> 00:23:51,510
the metadata or the the integrity of

509
00:23:56,720 --> 00:23:54,570
that image and so when he brought it to

510
00:24:00,200 --> 00:23:56,730
me it was it was interesting following

511
00:24:02,150 --> 00:24:00,210
kind of the the initial analysis of the

512
00:24:04,700 --> 00:24:02,160
photo I mean the first place we turned

513
00:24:07,760 --> 00:24:04,710

you know was was really the flight data

514

00:24:09,260 --> 00:24:07,770

and that's when I I scratched my head

515

00:24:12,320 --> 00:24:09,270

that's when I thought you know that's

516

00:24:13,610 --> 00:24:12,330

interesting that we we couldn't we

517

00:24:18,890 --> 00:24:13,620

couldn't line it up with anything

518

00:24:21,560 --> 00:24:18,900

conventional yeah yeah yeah well I yeah

519

00:24:23,030 --> 00:24:21,570

I believe that that's what happened but

520

00:24:24,950 --> 00:24:23,040

I've had a lot of experience of people

521

00:24:26,990 --> 00:24:24,960

saying that they couldn't line things up

522

00:24:29,600 --> 00:24:27,000

with with the flight a so when you know

523

00:24:31,010 --> 00:24:29,610

I do a lot of the chemtrails conspiracy

524

00:24:31,280 --> 00:24:31,020

theory is one of the things that I look

525

00:24:32,930 --> 00:24:31,290

into

526

00:24:35,510 --> 00:24:32,940

a lot and so a lot of people say I saw

527

00:24:37,700 --> 00:24:35,520

this plane spraying and I couldn't find

528

00:24:39,410 --> 00:24:37,710

it on the on flight route at 24 and then

529

00:24:41,510 --> 00:24:39,420

they send me a photo and then I look at

530

00:24:43,010 --> 00:24:41,520

the data and I see it's actually a bit

531

00:24:45,680 --> 00:24:43,020

further away or a bit to the left or

532

00:24:48,560 --> 00:24:45,690

something like that so it's unless

533

00:24:52,370 --> 00:24:48,570

you're had a lot of experience looking

534

00:24:54,020 --> 00:24:52,380

at photos and flight radar it is it is

535

00:24:55,490 --> 00:24:54,030

possible that's you know you can you can

536

00:24:57,350 --> 00:24:55,500

actually misidentified so of course it

537

00:24:58,250 --> 00:24:57,360

could be possible that it wasn't it

538

00:24:59,780 --> 00:24:58,260

wasn't on the radar

539

00:25:02,090 --> 00:24:59,790

honey could have costly possible that it

540

00:25:03,980 --> 00:25:02,100

was some kind of weird unusual flying

541

00:25:07,910 --> 00:25:03,990

object or a drone or something and sir

542

00:25:10,040 --> 00:25:07,920

it's obviously not conclusive I mean

543

00:25:12,770 --> 00:25:10,050

I've been very careful not to claim that

544

00:25:14,900 --> 00:25:12,780

it's a you know that it's a an alien

545

00:25:17,180 --> 00:25:14,910

craft or anything of that nature only

546

00:25:19,970 --> 00:25:17,190

that we find that's the the

547

00:25:23,030 --> 00:25:19,980

circumstances surrounding you know the

548

00:25:27,110 --> 00:25:23,040

the photography yet that image and and

549

00:25:30,550 --> 00:25:27,120

the lack of the lack of evidence of

550

00:25:34,100 --> 00:25:30,560

anything conventional yeah I think bears

551
00:25:36,140 --> 00:25:34,110
some further investigation and at the

552
00:25:39,770 --> 00:25:36,150
very least what it did is it inspired me

553
00:25:42,530 --> 00:25:39,780
to try to carefully improve our data

554
00:25:44,570 --> 00:25:42,540
logging and surveillance efforts out at

555
00:25:46,880 --> 00:25:44,580
the ranch I mean it has been a process

556
00:25:49,160 --> 00:25:46,890
not an event you know we see that

557
00:25:51,140 --> 00:25:49,170
evidence with the television program as

558
00:25:53,710 --> 00:25:51,150
well it's you know we're learning a lot

559
00:25:57,230 --> 00:25:53,720
in were making incremental improvements

560
00:25:59,870 --> 00:25:57,240
so you said these these three images and

561
00:26:02,150 --> 00:25:59,880
other things around like 2016 work and

562
00:26:03,320 --> 00:26:02,160
what triggered your your your interest

563
00:26:05,480 --> 00:26:03,330

and your feeling that there was

564

00:26:08,510 --> 00:26:05,490

something really worth investigating or

565

00:26:10,550 --> 00:26:08,520

you know I accelerated that process but

566

00:26:14,780 --> 00:26:10,560

have you personally seen anything with

567

00:26:17,630 --> 00:26:14,790

your own eyes that is unusual yeah in

568

00:26:20,360 --> 00:26:17,640

fact you know we we had we had a

569

00:26:23,120 --> 00:26:20,370

circumstance in October 2016 where we

570

00:26:25,670 --> 00:26:23,130

were entertaining some prominent

571

00:26:27,890 --> 00:26:25,680

visitors that flew in for the day

572

00:26:31,460 --> 00:26:27,900

in fact the the senior member of that

573

00:26:33,800 --> 00:26:31,470

group you know heads had had wanted to

574

00:26:36,430 --> 00:26:33,810

visit the ranch for many years had

575

00:26:39,860 --> 00:26:36,440

apparently approached the the Bigelow

576
00:26:43,400 --> 00:26:39,870
people in order to get get permission

577
00:26:46,640 --> 00:26:43,410
and was not granted access and and when

578
00:26:50,070 --> 00:26:46,650
when he reached out to me

579
00:26:52,170 --> 00:26:50,080
you know some science advisors I I was

580
00:26:53,970 --> 00:26:52,180
open and I said look as long as you sign

581
00:26:55,800 --> 00:26:53,980
a liability waiver and a confidentiality

582
00:26:58,440 --> 00:26:55,810
agreement I don't have any problem

583
00:27:00,930 --> 00:26:58,450
hosting you and your team for the day

584
00:27:03,360 --> 00:27:00,940
and so we welcomed them out to the ranch

585
00:27:06,030 --> 00:27:03,370
I had already owned the property for six

586
00:27:07,830 --> 00:27:06,040
months and had been visiting you know

587
00:27:09,480 --> 00:27:07,840
the property every month in order to

588
00:27:12,390 --> 00:27:09,490

kind of address what needed to be done

589

00:27:14,610 --> 00:27:12,400

in order to improve the the facilities

590

00:27:17,430 --> 00:27:14,620

there and also really wrap my mind

591

00:27:19,320 --> 00:27:17,440

around what you know what the

592

00:27:23,220 --> 00:27:19,330

investigation needed to look like moving

593

00:27:25,710 --> 00:27:23,230

forward well we we we ended up going out

594

00:27:27,660 --> 00:27:25,720

to the property with this group and it

595

00:27:30,240 --> 00:27:27,670

seemed almost immediately upon our

596

00:27:34,380 --> 00:27:30,250

arrival we had some frustrating things

597

00:27:36,630 --> 00:27:34,390

occur we had some cellphone anomalies my

598

00:27:40,740 --> 00:27:36,640

principal investigator that you see on

599

00:27:42,960 --> 00:27:40,750

the show was was very surprised to see

600

00:27:45,210 --> 00:27:42,970

that his his iPhone started

601
00:27:49,290 --> 00:27:45,220
malfunctioning for no apparent reason

602
00:27:51,750 --> 00:27:49,300
right up on the Mesa in fact you know it

603
00:27:55,620 --> 00:27:51,760
started it started wiggling out and

604
00:27:57,900 --> 00:27:55,630
turning a magenta color and ting he was

605
00:27:59,520 --> 00:27:57,910
he was pretty surprised he was alarmed

606
00:28:00,810 --> 00:27:59,530
by what he was seeing and you know

607
00:28:04,680 --> 00:28:00,820
called me up to the Mesa

608
00:28:07,500 --> 00:28:04,690
I quickly hiked up you know the face of

609
00:28:09,990 --> 00:28:07,510
it and and by the time I got up there

610
00:28:13,140 --> 00:28:10,000
you know the foam wasn't malfunctioning

611
00:28:15,330 --> 00:28:13,150
and I just chuckled I said ah but that's

612
00:28:16,590 --> 00:28:15,340
funny and he he scratched his head his

613
00:28:20,280 --> 00:28:16,600

wife says you know I wish you could have

614

00:28:21,690 --> 00:28:20,290

seen this and so we proceeded and ended

615

00:28:25,140 --> 00:28:21,700

up taking this group out to the old

616

00:28:28,050 --> 00:28:25,150

homestead area homestead to and as we

617

00:28:30,750 --> 00:28:28,060

piled out of the UTV and the other

618

00:28:32,970 --> 00:28:30,760

vehicles that that were transporting

619

00:28:35,360 --> 00:28:32,980

these visitors and we made our way

620

00:28:38,370 --> 00:28:35,370

around to the front of the the old

621

00:28:42,120 --> 00:28:38,380

homesteads there you know the group

622

00:28:44,670 --> 00:28:42,130

collectively started exclaiming that

623

00:28:48,720 --> 00:28:44,680

they were feeling some vertigo in fact I

624

00:28:51,360 --> 00:28:48,730

was I was probably about I don't know 30

625

00:28:53,760 --> 00:28:51,370

40 feet away from the main group that

626

00:28:56,040 --> 00:28:53,770

had assembled right in front of those

627

00:28:57,780 --> 00:28:56,050

old homesteads and they were all I heard

628

00:28:58,290 --> 00:28:57,790

them all say wow are you feeling what

629

00:29:00,290 --> 00:28:58,300

I'm

630

00:29:03,690 --> 00:29:00,300

and you know they were all you know

631

00:29:07,680 --> 00:29:03,700

expressing some concern that they felt

632

00:29:10,530 --> 00:29:07,690

some some vertigo and so I quickly run

633

00:29:14,610 --> 00:29:10,540

over to the group and I don't feel

634

00:29:17,250 --> 00:29:14,620

anything but Eric Bard who's sitting

635

00:29:20,360 --> 00:29:17,260

there with that same smartphone that had

636

00:29:23,190 --> 00:29:20,370

apparently been experiencing some

637

00:29:24,660 --> 00:29:23,200

difficulty earlier he said he he says

638

00:29:27,480 --> 00:29:24,670

look at my phone look at what is

639

00:29:30,420 --> 00:29:27,490

happening and sure enough right there

640

00:29:32,700 --> 00:29:30,430

the phone was turning magenta was was

641

00:29:36,300 --> 00:29:32,710

malfunctioning and he was able to screen

642

00:29:38,850 --> 00:29:36,310

capture the that change on the phone

643

00:29:41,190 --> 00:29:38,860

yeah and so we which was great he was

644

00:29:43,170 --> 00:29:41,200

able did he had enough presence of mind

645

00:29:46,230 --> 00:29:43,180

and that's that's one of the problems as

646

00:29:48,030 --> 00:29:46,240

you've you've seen in in addressing

647

00:29:50,160 --> 00:29:48,040

these topics from a skeptical point of

648

00:29:51,630 --> 00:29:50,170

view over the years you know it's you

649

00:29:53,370 --> 00:29:51,640

know people don't have the presence of

650

00:29:55,650 --> 00:29:53,380

mind when they're in the moment to

651
00:29:59,880 --> 00:29:55,660
really properly document or record what

652
00:30:01,590 --> 00:29:59,890
they're witnessing and and he did he

653
00:30:04,320 --> 00:30:01,600
actually ended up doing a screen capture

654
00:30:06,480 --> 00:30:04,330
we thought that was intriguing and as we

655
00:30:08,340 --> 00:30:06,490
were all sitting there kind of comparing

656
00:30:10,350 --> 00:30:08,350
notes and everyone was saying gosh that

657
00:30:12,390 --> 00:30:10,360
was that was a funny sensation that was

658
00:30:15,180 --> 00:30:12,400
felt for a number of was probably about

659
00:30:17,130 --> 00:30:15,190
I don't know 10 20 seconds that the

660
00:30:19,440 --> 00:30:17,140
group was experiencing that collectively

661
00:30:22,080 --> 00:30:19,450
and this is a diverse group these aren't

662
00:30:24,810 --> 00:30:22,090
friends these aren't people that's that

663
00:30:28,440 --> 00:30:24,820

had met previously we'd brought together

664

00:30:31,470 --> 00:30:28,450

a diversity of participants for that day

665

00:30:32,430 --> 00:30:31,480

and and so it was interesting to see all

666

00:30:34,260 --> 00:30:32,440

of these people from different

667

00:30:36,330 --> 00:30:34,270

backgrounds experiencing this and then

668

00:30:42,630 --> 00:30:36,340

you know while we're standing there I

669

00:30:45,140 --> 00:30:42,640

noticed that the the main security yeah

670

00:30:47,190 --> 00:30:45,150

the gentleman who had accompanied our

671

00:30:49,980 --> 00:30:47,200

principal guest for the day

672

00:30:52,650 --> 00:30:49,990

that that had introduced himself as

673

00:30:55,260 --> 00:30:52,660

private security for this gentleman was

674

00:30:56,040 --> 00:30:55,270

absent and I thought welcome where's

675

00:31:05,610 --> 00:30:56,050

George

676

00:31:09,270 --> 00:31:05,620

minutes had elapsed as we had you know

677

00:31:12,060 --> 00:31:09,280

been comparing notes and I walked around

678

00:31:15,180 --> 00:31:12,070

the back end of the homestead to

679

00:31:17,129 --> 00:31:15,190

to try to see it where where this this

680

00:31:19,889 --> 00:31:17,139

gentleman was and as I was walking

681

00:31:21,960 --> 00:31:19,899

around to the back of the old homesteads

682

00:31:25,680 --> 00:31:21,970

it was like I entered an anechoic

683

00:31:27,269 --> 00:31:25,690

chamber a soundproof room and there were

684

00:31:29,849 --> 00:31:27,279

these audits it was there was an

685

00:31:32,549 --> 00:31:29,859

auditory sensation it was almost like my

686

00:31:36,239 --> 00:31:32,559

ears were boxed and all of the ambient

687

00:31:39,210 --> 00:31:36,249

noise to a degree was was completely

688

00:31:42,210 --> 00:31:39,220

muted and right there in the distance

689

00:31:46,830 --> 00:31:42,220

where we had parked the Ranger the

690

00:31:51,119 --> 00:31:46,840

Polaris Ranger UTV standing upright in

691

00:31:54,749 --> 00:31:51,129

the back of the Ranger was this huge me

692

00:31:58,859 --> 00:31:54,759

about six foot five built like a tank

693

00:32:02,580 --> 00:31:58,869

gentlemen and and so I continued to walk

694

00:32:05,099 --> 00:32:02,590

toward the UTV having this sensation and

695

00:32:08,070 --> 00:32:05,109

as I as I made my way and grew closer

696

00:32:10,109 --> 00:32:08,080

the ambient noise came back and and was

697

00:32:12,299 --> 00:32:10,119

restored which I thought was was

698

00:32:15,749 --> 00:32:12,309

interesting and I I yelled to him and I

699

00:32:17,489 --> 00:32:15,759

said George and this it it was clear

700

00:32:20,190 --> 00:32:17,499

that his eyes were closed

701

00:32:23,909 --> 00:32:20,200

he was standing fully upright in the

702

00:32:25,649 --> 00:32:23,919

back the back of this UTV and by the

703

00:32:27,839 --> 00:32:25,659

time I got up there his eyes fluttered

704

00:32:31,379 --> 00:32:27,849

open I said what what are you doing why

705

00:32:32,789 --> 00:32:31,389

is something wrong and he he looked down

706

00:32:39,180 --> 00:32:32,799

at me and he says well that was strange

707

00:32:40,889 --> 00:32:39,190

and I said so what's happening and he he

708

00:32:43,889 --> 00:32:40,899

said well as soon as all of you piled

709

00:32:45,659 --> 00:32:43,899

out of the UTV to make your way around

710

00:32:51,389 --> 00:32:45,669

to the front of the homestead I was

711

00:32:53,249 --> 00:32:51,399

paralyzed and blacked out and he says

712

00:32:55,799 --> 00:32:53,259

how long have I how long have I been

713

00:32:58,200 --> 00:32:55,809

back here and I said well it's probably

714

00:32:58,889 --> 00:32:58,210

been about ten minutes and he just shook

715

00:33:01,739 --> 00:32:58,899

his head

716

00:33:04,139 --> 00:33:01,749

and he said I that was the strangest

717

00:33:05,759 --> 00:33:04,149

thing I I don't know what happened I

718

00:33:08,039 --> 00:33:05,769

said have you ever had this occur in

719

00:33:10,589 --> 00:33:08,049

your life have you ever had something

720

00:33:13,200 --> 00:33:10,599

like this happen he said no his pretty

721

00:33:14,729 --> 00:33:13,210

stoic very serious sober man it was

722

00:33:17,789 --> 00:33:14,739

interesting that morning when I first

723

00:33:20,460 --> 00:33:17,799

met him I kind of chuckled and was

724

00:33:22,799 --> 00:33:20,470

joking about all of the UFO claims and

725

00:33:24,539 --> 00:33:22,809

the high strangeness and everything

726

00:33:25,590 --> 00:33:24,549

surrounding the property when we were

727

00:33:27,299 --> 00:33:25,600

getting them to sign the

728

00:33:30,299 --> 00:33:27,309

confidentiality and the liability

729

00:33:34,710 --> 00:33:30,309

waivers and and ice and I asked them

730

00:33:38,010 --> 00:33:34,720

point blank so do you believe in in UFOs

731

00:33:41,580 --> 00:33:38,020

do you believe in in the phenomenon and

732

00:33:45,600 --> 00:33:41,590

this this gentleman in particular said

733

00:33:49,409 --> 00:33:45,610

absolutely not I'm just here as security

734

00:33:53,159 --> 00:33:49,419

to accompany my friend for the day's

735

00:33:55,620 --> 00:33:53,169

events and he was he was very sober very

736

00:33:57,090 --> 00:33:55,630

serious in his statement that he didn't

737

00:34:00,510 --> 00:33:57,100

believe it but anyways I found that

738

00:34:02,990 --> 00:34:00,520

interesting and about that time as he

739

00:34:05,760 --> 00:34:03,000

got out and we walked around the front I

740

00:34:10,349 --> 00:34:05,770

looked down I wanted to take some group

741

00:34:14,750 --> 00:34:10,359

photos of everyone and lo and behold my

742

00:34:17,070 --> 00:34:14,760

phone was dead it was completely dead

743

00:34:19,740 --> 00:34:17,080

the battery been completely drained it

744

00:34:21,300 --> 00:34:19,750

was interesting I'll tell you we got out

745

00:34:26,310 --> 00:34:21,310

there and I had at least 80 percent

746

00:34:29,129 --> 00:34:26,320

charge on my on my iPhone and he was

747

00:34:30,570 --> 00:34:29,139

very frustrating simply because I you

748

00:34:32,849 --> 00:34:30,580

know that's that's what we've come to

749

00:34:35,490 --> 00:34:32,859

rely on for our cameras you know to

750

00:34:37,590 --> 00:34:35,500

record you know momentous occasions and

751
00:34:41,310 --> 00:34:37,600
whatnot and and as I walked around the

752
00:34:42,869 --> 00:34:41,320
the front I said Jesus my phone's gone

753
00:34:45,180 --> 00:34:42,879
dad it's completely drained

754
00:34:49,080 --> 00:34:45,190
well guess guess what the other's phones

755
00:34:51,389 --> 00:34:49,090
were drained as well and and so I said

756
00:34:53,159 --> 00:34:51,399
well we have phone chargers back at the

757
00:34:55,440 --> 00:34:53,169
command center back at the security

758
00:34:57,359 --> 00:34:55,450
trailer why don't we all you know why

759
00:35:00,120 --> 00:34:57,369
don't we all hop back in and we'll take

760
00:35:02,820 --> 00:35:00,130
our phones back and you know I I need to

761
00:35:05,280 --> 00:35:02,830
have access to my text messaging you

762
00:35:06,900 --> 00:35:05,290
know to my email me because I you know

763
00:35:10,320 --> 00:35:06,910

this is in the middle of the day middle

764

00:35:12,810 --> 00:35:10,330

of the week and I I stay connected 24/7

765

00:35:16,740 --> 00:35:12,820

to my office to my to my business I said

766

00:35:20,460 --> 00:35:16,750

I I can't just not have connectivity and

767

00:35:23,280 --> 00:35:20,470

so we we ended up taking the phones back

768

00:35:25,440 --> 00:35:23,290

plugging them in and decided to go back

769

00:35:27,870 --> 00:35:25,450

out to not only the homestead's but also

770

00:35:30,320 --> 00:35:27,880

to look at the what I call the

771

00:35:33,990 --> 00:35:30,330

observation towers or what is infamously

772

00:35:37,650 --> 00:35:34,000

referred to as the bait pens and I'm

773

00:35:39,390 --> 00:35:37,660

learning quickly not to refer to them as

774

00:35:42,299 --> 00:35:39,400

the bait pen

775

00:35:44,789 --> 00:35:42,309

which was a carryover from the Bigelow

776

00:35:47,880 --> 00:35:44,799

era that's that's really what they were

777

00:35:50,460 --> 00:35:47,890

referred to and you know that reference

778

00:35:52,620 --> 00:35:50,470

of course unfortunately carried on you

779

00:35:55,710 --> 00:35:52,630

know through the last several years as

780

00:35:57,359 --> 00:35:55,720

we have managed the property but I'm

781

00:36:00,779 --> 00:35:57,369

getting to the punchline here I'm

782

00:36:03,539 --> 00:36:00,789

getting to the to the event as we went

783

00:36:05,279 --> 00:36:03,549

back out and we looked at the the

784

00:36:08,069 --> 00:36:05,289

observation towers which are pretty

785

00:36:11,880 --> 00:36:08,079

ominous you see them on the show quite a

786

00:36:14,009 --> 00:36:11,890

bit literally know exactly you know they

787

00:36:18,089 --> 00:36:14,019

you know they're all you know enclosed

788

00:36:20,910 --> 00:36:18,099

with barbed wire fence and and they had

789

00:36:23,430 --> 00:36:20,920

their purpose back during the the

790

00:36:25,410 --> 00:36:23,440

Bigelow investigation and ownership it

791

00:36:28,140 --> 00:36:25,420

was it was interesting as we were making

792

00:36:31,319 --> 00:36:28,150

our way later in the afternoon back from

793

00:36:34,620 --> 00:36:31,329

the old homesteads towards the security

794

00:36:37,380 --> 00:36:34,630

trailer to to retrieve our devices to

795

00:36:40,230 --> 00:36:37,390

get our phones back all of a sudden

796

00:36:42,539 --> 00:36:40,240

behind me in this open air Polaris

797

00:36:44,430 --> 00:36:42,549

Ranger you know one of the individuals

798

00:36:49,079 --> 00:36:44,440

shouted and said hey stop the vehicle

799

00:36:51,329 --> 00:36:49,089

and I was driving and so I I tried to

800

00:36:53,700 --> 00:36:51,339

bring it to it to a stop and I said what

801
00:36:55,499 --> 00:36:53,710
what's going on I look over my shoulder

802
00:36:57,870 --> 00:36:55,509
at him and he's pointing up toward the

803
00:36:59,789 --> 00:36:57,880
Mesa which is on the left it's to my

804
00:37:02,130 --> 00:36:59,799
left or basically the north side of the

805
00:37:06,839 --> 00:37:02,140
property he says look at that what is

806
00:37:12,180 --> 00:37:06,849
that and lo and behold right above the

807
00:37:14,700 --> 00:37:12,190
the Mesa was a silver grayish disc like

808
00:37:17,549 --> 00:37:14,710
object and it was just sitting there

809
00:37:20,099 --> 00:37:17,559
stationary and what was interesting

810
00:37:22,170 --> 00:37:20,109
there were a number of Hawks that that

811
00:37:23,430 --> 00:37:22,180
had been flying that we'd been observing

812
00:37:25,349 --> 00:37:23,440
in the day and they were still there

813
00:37:27,870 --> 00:37:25,359

were some birds flying around but right

814

00:37:34,140 --> 00:37:27,880

beyond the Hawks above the the Mesa was

815

00:37:37,799 --> 00:37:34,150

this this object that you know was

816

00:37:40,589 --> 00:37:37,809

probably I mean just trying to spatially

817

00:37:45,380 --> 00:37:40,599

identify how big it was was probably 40

818

00:37:48,059 --> 00:37:45,390

to 50 feet long and in the three of us

819

00:37:50,759 --> 00:37:48,069

that were pointing up at it said what

820

00:37:52,349 --> 00:37:50,769

you that's what is that and then all of

821

00:37:53,309 --> 00:37:52,359

a sudden within about three to four

822

00:37:55,920 --> 00:37:53,319

seconds

823

00:38:00,420 --> 00:37:55,930

it changed position and it didn't it

824

00:38:02,489 --> 00:38:00,430

didn't float it didn't move in a in a

825

00:38:05,519 --> 00:38:02,499

conventional way it literally changed

826

00:38:08,400 --> 00:38:05,529

position roughly fifty feet in the blink

827

00:38:11,339 --> 00:38:08,410

of an eye almost like a video almost

828

00:38:13,380 --> 00:38:11,349

like a video game and it it shifted

829

00:38:15,749 --> 00:38:13,390

position to the north or to the left by

830

00:38:17,910 --> 00:38:15,759

50 feet and we all exclaimed we were

831

00:38:20,519 --> 00:38:17,920

like wow how did it just do that and

832

00:38:24,779 --> 00:38:20,529

then and then about three four seconds

833

00:38:26,549 --> 00:38:24,789

later it dropped to a to a position kind

834

00:38:29,309 --> 00:38:26,559

of a hover position right above the Mesa

835

00:38:32,459 --> 00:38:29,319

dropped about 50 feet again

836

00:38:36,599 --> 00:38:32,469

instantaneously a few seconds later it

837

00:38:39,749 --> 00:38:36,609

shifted again to the right and and then

838

00:38:41,640 --> 00:38:39,759

in the blink of an eye it was gone it

839

00:38:45,449 --> 00:38:41,650

literally it was almost like it was

840

00:38:49,499 --> 00:38:45,459

reduced to a dot and and and was gone

841

00:38:51,839 --> 00:38:49,509

the entire event that was witnessed by

842

00:38:56,099 --> 00:38:51,849

the three of us was about a twenty

843

00:38:59,489 --> 00:38:56,109

second event I was very frustrated

844

00:39:02,789 --> 00:38:59,499

because again we are our phones had been

845

00:39:06,989 --> 00:39:02,799

dead and you know it all happens so

846

00:39:12,329 --> 00:39:06,999

quickly but it it left us all very

847

00:39:14,759 --> 00:39:12,339

surprised and yeah it was so big this

848

00:39:19,339 --> 00:39:14,769

was not just some dot in the sky or some

849

00:39:22,969 --> 00:39:19,349

silver white or like looking you know

850

00:39:27,449 --> 00:39:22,979

object it was literally a silk rush gray

851
00:39:29,939 --> 00:39:27,459
disc in the fashion of what people have

852
00:39:31,920 --> 00:39:29,949
described for decades as being you know

853
00:39:36,390 --> 00:39:31,930
kind of your traditional flying saucer

854
00:39:38,609 --> 00:39:36,400
type of object and yep to this day you

855
00:39:40,499 --> 00:39:38,619
know what one thing that happened

856
00:39:42,120 --> 00:39:40,509
following that event when we all went

857
00:39:45,839 --> 00:39:42,130
back and we concluded our day and

858
00:39:48,259 --> 00:39:45,849
everyone departed my principal

859
00:39:51,779 --> 00:39:48,269
investigator Eric bard who by the way

860
00:39:54,749 --> 00:39:51,789
very skeptical he entered this with the

861
00:39:56,339 --> 00:39:54,759
same really mindset that I had which was

862
00:39:58,589 --> 00:39:56,349
you know there there was really a

863
00:40:03,660 --> 00:39:58,599

natural explanation for all of what had

864

00:40:04,829 --> 00:40:03,670

been recorded or at least claimed to

865

00:40:08,540 --> 00:40:04,839

have occurred on the ranch

866

00:40:11,280 --> 00:40:08,550

well Eric quickly

867

00:40:14,670 --> 00:40:11,290

you know after that day ended up

868

00:40:18,030 --> 00:40:14,680

separately interviewing the other two

869

00:40:20,730 --> 00:40:18,040

gentlemen and myself in order to you

870

00:40:25,050 --> 00:40:20,740

know independently you know take down

871

00:40:26,940 --> 00:40:25,060

their account of the incident in order

872

00:40:29,940 --> 00:40:26,950

to see if there were some consistencies

873

00:40:32,840 --> 00:40:29,950

or inconsistencies and I think he was

874

00:40:35,550 --> 00:40:32,850

very surprised in that our accounts were

875

00:40:38,220 --> 00:40:35,560

virtually identical we all viewed the

876

00:40:41,640 --> 00:40:38,230

same event we all essentially had the

877

00:40:46,110 --> 00:40:41,650

same the same the same experience and

878

00:40:48,420 --> 00:40:46,120

most interesting the the big guy George

879

00:40:51,600 --> 00:40:48,430

that I that had been there as security

880

00:40:54,240 --> 00:40:51,610

that that hit that had been read

881

00:40:58,530 --> 00:40:54,250

rendered catatonic in the back of that

882

00:41:03,240 --> 00:40:58,540

UTB during that earlier experience the

883

00:41:07,890 --> 00:41:03,250

next day ended up in the hospital and

884

00:41:10,560 --> 00:41:07,900

was nil for three weeks ended up

885

00:41:13,950 --> 00:41:10,570

reporting that for three weeks he had a

886

00:41:18,030 --> 00:41:13,960

he was he was very very sick and the

887

00:41:21,750 --> 00:41:18,040

doctors apparently I couldn't diagnose

888

00:41:23,670 --> 00:41:21,760

what what he was sick with it was

889

00:41:28,700 --> 00:41:23,680

flu-like it was almost a flu-like

890

00:41:31,230 --> 00:41:28,710

illness that that rendered him really

891

00:41:33,570 --> 00:41:31,240

kind of flat on his back he was

892

00:41:35,700 --> 00:41:33,580

bedridden for for a number of weeks and

893

00:41:38,520 --> 00:41:35,710

this is this guy's got to be one of the

894

00:41:40,950 --> 00:41:38,530

biggest most strong people that I've

895

00:41:44,130 --> 00:41:40,960

ever been around heard in my life and so

896

00:41:46,950 --> 00:41:44,140

so I I hope you don't mind the the

897

00:41:51,390 --> 00:41:46,960

lengthy account magic share but more

898

00:41:54,540 --> 00:41:51,400

details it it changed that day changed

899

00:41:57,450 --> 00:41:54,550

my perspective right yeah did I did I

900

00:42:01,950 --> 00:41:57,460

suddenly believe in aliens visiting from

901
00:42:05,040 --> 00:42:01,960
Mars or outer space no but did I did I

902
00:42:07,830 --> 00:42:05,050
have a more open mind you know you can't

903
00:42:09,720 --> 00:42:07,840
unsee something like that mm-hm you know

904
00:42:12,690 --> 00:42:09,730
and I think it what it did is it

905
00:42:16,830 --> 00:42:12,700
inspired me to use a bit more diligence

906
00:42:19,800 --> 00:42:16,840
and to to hopefully invest the resources

907
00:42:20,400 --> 00:42:19,810
needed in order to fully understand what

908
00:42:24,210 --> 00:42:20,410
was happening

909
00:42:26,579 --> 00:42:24,220
on and around that property remains

910
00:42:30,359 --> 00:42:26,589
remains in truth interesting that was

911
00:42:32,970 --> 00:42:30,369
that was the day I guess yeah yeah so

912
00:42:35,819 --> 00:42:32,980
this you know you all saw this this

913
00:42:39,079 --> 00:42:35,829

silver disc type thing like over the

914

00:42:42,599 --> 00:42:39,089

Mesa you know some just to the north

915

00:42:44,460 --> 00:42:42,609

did you afterwards when you you give

916

00:42:45,630 --> 00:42:44,470

your accounts did you draw diagrams or

917

00:42:47,670 --> 00:42:45,640

what it look like and where it was

918

00:42:48,059 --> 00:42:47,680

spatially and the size of other things

919

00:42:51,029 --> 00:42:48,069

like that

920

00:42:55,069 --> 00:42:51,039

yeah I'm like you that the the the

921

00:42:57,650 --> 00:42:55,079

motion path perhaps yes in fact that I

922

00:43:02,269 --> 00:42:57,660

immediately I went home and I tried to

923

00:43:05,609 --> 00:43:02,279

photoshop hey can it right very good

924

00:43:08,880 --> 00:43:05,619

Eric Bard Eric bards he wanted not only

925

00:43:12,690 --> 00:43:08,890

me to put it in writing he wanted me to

926

00:43:15,089 --> 00:43:12,700

carefully document my my you know

927

00:43:17,460 --> 00:43:15,099

testimony of what had happened but he

928

00:43:19,769 --> 00:43:17,470

wanted me to visually provide him with a

929

00:43:22,880 --> 00:43:19,779

with the reference or a diagram and so

930

00:43:26,700 --> 00:43:22,890

you know we we identified a photo image

931

00:43:30,569 --> 00:43:26,710

that had been taken earlier of really

932

00:43:33,630 --> 00:43:30,579

that portion of the Mesa and roughly you

933

00:43:36,089 --> 00:43:33,640

know within it within a pretty reliable

934

00:43:38,849 --> 00:43:36,099

distance I mean probably within I don't

935

00:43:42,299 --> 00:43:38,859

know a hundred feet of where we were

936

00:43:44,970 --> 00:43:42,309

part and witnessed that incident we kind

937

00:43:46,710 --> 00:43:44,980

of identified it a comparable image that

938

00:43:49,289 --> 00:43:46,720

we could use as a reference point and

939

00:43:51,569 --> 00:43:49,299

use that as kind of an illustrative

940

00:43:54,089 --> 00:43:51,579

example of what had happened that is

941

00:43:58,380 --> 00:43:54,099

good that's the way to do it yeah so

942

00:43:59,640 --> 00:43:58,390

very interesting yeah so you know you

943

00:44:00,870 --> 00:43:59,650

obviously you have lots of cameras on

944

00:44:03,660 --> 00:44:00,880

the ranch now and you've had these

945

00:44:06,299 --> 00:44:03,670

cameras set up for quite a while have

946

00:44:13,019 --> 00:44:06,309

have they captured anything of that

947

00:44:15,839 --> 00:44:13,029

magnitude of interest yes we've had a

948

00:44:18,749 --> 00:44:15,849

few we've we've had actually a handful

949

00:44:20,789 --> 00:44:18,759

of other incidents that have been

950

00:44:27,410 --> 00:44:20,799

recorded in fact both daytime and

951

00:44:30,359 --> 00:44:27,420

nighttime we've had a number of of I

952

00:44:32,450 --> 00:44:30,369

guess what you call UFO sightings at

953

00:44:35,480 --> 00:44:32,460

night over the ranch

954

00:44:39,680 --> 00:44:35,490

that that we have not been able to

955

00:44:41,930 --> 00:44:39,690

assign a conventional explanation to you

956

00:44:44,150 --> 00:44:41,940

know we're still analyzing some of that

957

00:44:44,630 --> 00:44:44,160

and you know I might say the sky type

958

00:44:50,360 --> 00:44:44,640

thing

959

00:44:51,890 --> 00:44:50,370

yeah lights in the sky and you know we

960

00:44:53,750 --> 00:44:51,900

kind of alluded to this in the first

961

00:44:56,360 --> 00:44:53,760

episode of the television program you

962

00:44:58,520 --> 00:44:56,370

know luminous phenomena you know on the

963

00:45:00,380 --> 00:44:58,530

Mesa that has been recorded and

964

00:45:02,900 --> 00:45:00,390

witnessed by people I mean we've had

965

00:45:05,690 --> 00:45:02,910

numerous witnesses coupled with the

966

00:45:08,900 --> 00:45:05,700

video imagery you know we've had you

967

00:45:11,540 --> 00:45:08,910

know night-vision footage you know that

968

00:45:14,630 --> 00:45:11,550

has captured some of this what appears

969

00:45:16,850 --> 00:45:14,640

to be anomalous activity and and along

970

00:45:20,090 --> 00:45:16,860

with that we've seen you know we've seen

971

00:45:22,070 --> 00:45:20,100

lights in the sky that have that have

972

00:45:24,680 --> 00:45:22,080

been very interesting in the way that

973

00:45:27,920 --> 00:45:24,690

they've behaved some of the behavior is

974

00:45:30,350 --> 00:45:27,930

not conventional UFO behavior it's not

975

00:45:32,780 --> 00:45:30,360

like a spaceship or some object just

976
00:45:35,120 --> 00:45:32,790
hovering it's you know we have one video

977
00:45:38,720 --> 00:45:35,130
where where we captured an object that

978
00:45:40,460 --> 00:45:38,730
is moving so erratically in its you know

979
00:45:43,310 --> 00:45:40,470
it's during a period of time in fact I

980
00:45:47,120 --> 00:45:43,320
think it was during December I think it

981
00:45:49,310 --> 00:45:47,130
was a couple of years ago right before

982
00:45:54,530 --> 00:45:49,320
Christmas I think it was December 23rd

983
00:45:58,210 --> 00:45:54,540
and the object was moving so erratically

984
00:46:02,710 --> 00:45:58,220
in so many different different ways that

985
00:46:05,810 --> 00:46:02,720
it it it was it was quite unusual and

986
00:46:07,490 --> 00:46:05,820
and coupled with that imagery we saw a

987
00:46:11,030 --> 00:46:07,500
reaction on the mace that we saw

988
00:46:15,410 --> 00:46:11,040

luminous phenomena that that seemed to

989

00:46:18,260 --> 00:46:15,420

correlate with the unidentified flying

990

00:46:20,690 --> 00:46:18,270

object or whatever you'd call it or

991

00:46:22,730 --> 00:46:20,700

characterize it as you know I you know

992

00:46:25,280 --> 00:46:22,740

one thing I continue to be reminded up

993

00:46:28,280 --> 00:46:25,290

on a week-to-week basis in fact I've

994

00:46:30,830 --> 00:46:28,290

heard this mantra probably now a

995

00:46:32,720 --> 00:46:30,840

thousand times during my ownership of

996

00:46:36,340 --> 00:46:32,730

the ranch and that has come from Eric

997

00:46:42,140 --> 00:46:36,350

bard who continues to say Brandon

998

00:46:44,000 --> 00:46:42,150

correlation is not causation he I mean I

999

00:46:46,300 --> 00:46:44,010

don't think there's been a week that has

1000

00:46:49,070 --> 00:46:46,310

gone by in the last four years

1001
00:46:50,510 --> 00:46:49,080
since bringing him on board and

1002
00:46:52,520 --> 00:46:50,520
acquiring the property and really

1003
00:46:55,130 --> 00:46:52,530
launching our investigation that I have

1004
00:46:58,280 --> 00:46:55,140
not been reminded of that that just

1005
00:47:00,770 --> 00:46:58,290
because you're seeing events that defy

1006
00:47:02,450 --> 00:47:00,780
explanation or seem to be unusual it

1007
00:47:05,060 --> 00:47:02,460
doesn't mean that the correlation of

1008
00:47:07,130 --> 00:47:05,070
certain events you know points to some

1009
00:47:12,170 --> 00:47:07,140
type of unusual cause you have to have

1010
00:47:14,630 --> 00:47:12,180
other data to support your claim so oh

1011
00:47:15,770 --> 00:47:14,640
this this is footage you've got and

1012
00:47:16,970 --> 00:47:15,780
you've got a variety of ones that are

1013
00:47:18,770 --> 00:47:16,980

interesting and you've got some where

1014

00:47:20,120 --> 00:47:18,780

you've got like a possible correlation

1015

00:47:21,859 --> 00:47:20,130

between things

1016

00:47:24,620 --> 00:47:21,869

if you obviously get all this like a

1017

00:47:26,660 --> 00:47:24,630

bunch of hard drive somewhere why don't

1018

00:47:29,030 --> 00:47:26,670

you release all of this footage and let

1019

00:47:32,750 --> 00:47:29,040

people have a look at it ah we're going

1020

00:47:35,510 --> 00:47:32,760

to you know I part of it is to be candid

1021

00:47:40,730 --> 00:47:35,520

time this is this is such a small part

1022

00:47:42,500 --> 00:47:40,740

of my life you know I I I'm you know I

1023

00:47:45,980 --> 00:47:42,510

work 18 to 20 hours a day

1024

00:47:48,050 --> 00:47:45,990

I represent several hundred prominent

1025

00:47:51,760 --> 00:47:48,060

commercial real estate projects you know

1026

00:47:54,680 --> 00:47:51,770

buildings you know right now I have gosh

1027

00:47:56,380 --> 00:47:54,690

well over a million probably at 1.4

1028

00:47:58,220 --> 00:47:56,390

million square feet of office

1029

00:48:00,859 --> 00:47:58,230

developments under construction right

1030

00:48:03,710 --> 00:48:00,869

now that I have responsibility for and

1031

00:48:07,780 --> 00:48:03,720

and that that has been the case you know

1032

00:48:09,800 --> 00:48:07,790

for the last 20 years of my career and

1033

00:48:11,840 --> 00:48:09,810

couldn't you just let tell one of your

1034

00:48:16,250 --> 00:48:11,850

investigators like put all the good

1035

00:48:17,810 --> 00:48:16,260

footage on a Dropbox and yeah yeah we're

1036

00:48:20,900 --> 00:48:17,820

working on it so one thing that we're

1037

00:48:23,410 --> 00:48:20,910

looking to release in the next gosh I

1038

00:48:27,530 --> 00:48:23,420

don't know my hope is by the time the

1039

00:48:29,599 --> 00:48:27,540

series finale occurs next Tuesday we we

1040

00:48:31,700 --> 00:48:29,609

hope to launch a web portal that I've

1041

00:48:34,310 --> 00:48:31,710

been investing in that will actually

1042

00:48:35,870 --> 00:48:34,320

allow for more peer review and the

1043

00:48:38,330 --> 00:48:35,880

release of some of these other videos

1044

00:48:40,940 --> 00:48:38,340

and anomalies you know they you know the

1045

00:48:44,030 --> 00:48:40,950

analysis that has been conducted you

1046

00:48:46,550 --> 00:48:44,040

know I I really want to take a very

1047

00:48:50,540 --> 00:48:46,560

collaborative transparent approach to

1048

00:48:54,230 --> 00:48:50,550

what we are experiencing on the property

1049

00:48:58,250 --> 00:48:54,240

what we are recording and and I think

1050

00:49:00,049 --> 00:48:58,260

having a more inclusive collaborative

1051
00:49:01,759 --> 00:49:00,059
approach with the community we'll hope

1052
00:49:03,799 --> 00:49:01,769
we help us get to the bottom of what

1053
00:49:07,130 --> 00:49:03,809
really is at work that skinwalker ranch

1054
00:49:09,529 --> 00:49:07,140
I think you will at the very least be

1055
00:49:11,599 --> 00:49:09,539
able to exclude some things because

1056
00:49:14,479 --> 00:49:11,609
we'll be able to identify some things as

1057
00:49:17,329 --> 00:49:14,489
aircraft or whatever this is something

1058
00:49:20,469 --> 00:49:17,339
that you know I think it's happened

1059
00:49:23,120 --> 00:49:20,479
before with various other UFO

1060
00:49:25,489 --> 00:49:23,130
investigations where people have kept

1061
00:49:26,779 --> 00:49:25,499
the data you know for themselves and

1062
00:49:28,849 --> 00:49:26,789
analyzed it and then when it's

1063
00:49:31,999 --> 00:49:28,859

eventually released to the broader

1064

00:49:33,620 --> 00:49:32,009

audience it's it's it can be like

1065

00:49:34,849 --> 00:49:33,630

analyzed and people actually do figure

1066

00:49:36,140 --> 00:49:34,859

out what it was even though the

1067

00:49:37,640 --> 00:49:36,150

investigators couldn't figure it out

1068

00:49:39,890 --> 00:49:37,650

just because they happen to have some

1069

00:49:41,719 --> 00:49:39,900

drilling specific knowledge like in a

1070

00:49:45,259 --> 00:49:41,729

very narrow domain that you know the

1071

00:49:46,969 --> 00:49:45,269

investigators might not have yeah the

1072

00:49:49,939 --> 00:49:46,979

great challenge with this that with this

1073

00:49:53,029 --> 00:49:49,949

effort is is being able to separate the

1074

00:49:57,949 --> 00:49:53,039

signal from the noise and you know I

1075

00:50:03,049 --> 00:49:57,959

think having more eyes more more experts

1076
00:50:05,120 --> 00:50:03,059
more you know more opinions frankly that

1077
00:50:08,839 --> 00:50:05,130
can weigh in and bring different

1078
00:50:10,249 --> 00:50:08,849
perspectives and skill sets to the table

1079
00:50:12,859 --> 00:50:10,259
will hopefully help us yield better

1080
00:50:14,509 --> 00:50:12,869
results I I've always believed in in

1081
00:50:18,709 --> 00:50:14,519
really employing a multidisciplinary

1082
00:50:20,329 --> 00:50:18,719
approach to the problem set at the ranch

1083
00:50:22,910 --> 00:50:20,339
you know I don't think you can just

1084
00:50:25,669 --> 00:50:22,920
simply bring on an astrophysicist or a

1085
00:50:28,400 --> 00:50:25,679
plasma physicist if you will to to be

1086
00:50:29,959 --> 00:50:28,410
able to render an opinion relative to

1087
00:50:33,289 --> 00:50:29,969
what is being seen I think you need to

1088
00:50:34,669 --> 00:50:33,299

bring people from from I think a number

1089

00:50:39,650 --> 00:50:34,679

of various disciplines and I think

1090

00:50:43,429 --> 00:50:39,660

having having some non scientists as

1091

00:50:48,199 --> 00:50:43,439

well having some some fresh eyes that

1092

00:50:51,469 --> 00:50:48,209

that may not employ the same approach

1093

00:50:54,079 --> 00:50:51,479

can help probably answer some of the

1094

00:50:56,870 --> 00:50:54,089

questions or at least open discussions

1095

00:50:58,489 --> 00:50:56,880

that will lead to truly understanding

1096

00:51:01,630 --> 00:50:58,499

what is happening but I've really wanted

1097

00:51:05,539 --> 00:51:01,640

to get to the bottom of the truth I I

1098

00:51:07,579 --> 00:51:05,549

and I I'm hopeful that's what we're what

1099

00:51:11,239 --> 00:51:07,589

we're doing right now will help us bring

1100

00:51:13,250 --> 00:51:11,249

that forward and yeah you mentioned

1101
00:51:14,930 --> 00:51:13,260
early about you know getting your

1102
00:51:16,670 --> 00:51:14,940
the investigator to bring his phone to

1103
00:51:20,690 --> 00:51:16,680
you so you get the the raw footage with

1104
00:51:22,730 --> 00:51:20,700
the metadata and if you do release data

1105
00:51:24,500 --> 00:51:22,740
I think it's really important to make

1106
00:51:26,630 --> 00:51:24,510
sure you release like all of the

1107
00:51:29,569 --> 00:51:26,640
contextual data around that and the

1108
00:51:32,089 --> 00:51:29,579
original footage and the original raw

1109
00:51:34,309 --> 00:51:32,099
files if possible and at the yeah kind

1110
00:51:38,750 --> 00:51:34,319
of big but you know data spaces is cheap

1111
00:51:40,730 --> 00:51:38,760
nowadays you know I would download a one

1112
00:51:42,140 --> 00:51:40,740
gigabyte video file if it meant I would

1113
00:51:44,839 --> 00:51:42,150

get a better version of that first so I

1114

00:51:46,370 --> 00:51:44,849

could analyze it a bit better so yeah

1115

00:51:48,440 --> 00:51:46,380

please sure if you're gonna upload that

1116

00:51:51,380 --> 00:51:48,450

there's a bunch of people like on meta

1117

00:51:53,000 --> 00:51:51,390

bunk my my website who just like doing

1118

00:51:54,890 --> 00:51:53,010

this type of thing we like looking at

1119

00:51:58,460 --> 00:51:54,900

videos and photos and trying to figure

1120

00:52:00,559 --> 00:51:58,470

out what's actually on on the on the on

1121

00:52:02,990 --> 00:52:00,569

the video or photo see is it a plane is

1122

00:52:05,089 --> 00:52:03,000

it a bird is it a a lien spaceship it's

1123

00:52:06,829 --> 00:52:05,099

it a army have secret drone you know

1124

00:52:08,809 --> 00:52:06,839

whatever it is you wanna find out what

1125

00:52:11,059 --> 00:52:08,819

it is and of course like a lot of the

1126

00:52:13,190 --> 00:52:11,069

time it ends up being a fairly mundane

1127

00:52:16,700 --> 00:52:13,200

but sometimes we can't figure out what

1128

00:52:19,160 --> 00:52:16,710

it is so yeah yeah it would be good to

1129

00:52:21,470 --> 00:52:19,170

use that resource not just meta bunk but

1130

00:52:23,450 --> 00:52:21,480

you know everybody on Twitter and and

1131

00:52:25,690 --> 00:52:23,460

Facebook and read it who are interested

1132

00:52:29,349 --> 00:52:25,700

in that type of thing as well yeah I

1133

00:52:34,069 --> 00:52:29,359

wanted to bring kind of a whole new

1134

00:52:37,309 --> 00:52:34,079

approach to this these topics you know

1135

00:52:39,500 --> 00:52:37,319

I've and you see this I mean I I've

1136

00:52:44,569 --> 00:52:39,510

really worked hard to be as transparent

1137

00:52:46,099 --> 00:52:44,579

as candid as I can relative to the

1138

00:52:50,480 --> 00:52:46,109

nature of our investigation or

1139

00:52:52,549 --> 00:52:50,490

motivations and and really what we're

1140

00:52:55,280 --> 00:52:52,559

what we're trying to accomplish here at

1141

00:52:57,760 --> 00:52:55,290

skinwalker ranch yeah you know I believe

1142

00:53:00,380 --> 00:52:57,770

that that this could very well be a

1143

00:53:03,890 --> 00:53:00,390

living laboratory of sorts it sure

1144

00:53:06,950 --> 00:53:03,900

appears to be that way based on the

1145

00:53:09,170 --> 00:53:06,960

diversity of phenomena that continues to

1146

00:53:11,859 --> 00:53:09,180

be recorded on the property I mean when

1147

00:53:15,770 --> 00:53:11,869

you when you when you bring together

1148

00:53:18,950 --> 00:53:15,780

data that confirms everything from the

1149

00:53:21,220 --> 00:53:18,960

electromagnetic anomalies to the acute

1150

00:53:24,970 --> 00:53:21,230

medical episodes that seem to accompany

1151
00:53:27,230 --> 00:53:24,980
these you know electromagnetic events

1152
00:53:29,810 --> 00:53:27,240
and and then you have

1153
00:53:33,109 --> 00:53:29,820
photographic or video graphic evidence

1154
00:53:36,350 --> 00:53:33,119
that also can accompany that coupled

1155
00:53:38,210 --> 00:53:36,360
with witness testimony you know multiple

1156
00:53:40,670 --> 00:53:38,220
witnesses so you're not just taking one

1157
00:53:43,070 --> 00:53:40,680
person's word for it you have multiple

1158
00:53:46,010 --> 00:53:43,080
parties that are attesting to the you

1159
00:53:47,750 --> 00:53:46,020
know to what is being observed I think

1160
00:53:51,770 --> 00:53:47,760
it gets interesting and that's what I

1161
00:53:53,840 --> 00:53:51,780
did not expect relative to the ranch as

1162
00:53:56,120 --> 00:53:53,850
I didn't expect that we would see so

1163
00:54:00,980 --> 00:53:56,130

much that we would see such a diversity

1164

00:54:03,080 --> 00:54:00,990

of activity and events and and you know

1165

00:54:04,910 --> 00:54:03,090

you talk about you know repeating

1166

00:54:06,740 --> 00:54:04,920

results you know being able to properly

1167

00:54:08,380 --> 00:54:06,750

characterize what is happening if you're

1168

00:54:10,790 --> 00:54:08,390

really going to have a scientific

1169

00:54:14,710 --> 00:54:10,800

investigation if you're really going to

1170

00:54:17,660 --> 00:54:14,720

use scientific rigor and and principles

1171

00:54:20,420 --> 00:54:17,670

you have to you have to build boundary

1172

00:54:24,320 --> 00:54:20,430

conditions around your investigation and

1173

00:54:26,690 --> 00:54:24,330

be able to to repeat and your your

1174

00:54:29,630 --> 00:54:26,700

experiments and at least be able to show

1175

00:54:31,880 --> 00:54:29,640

that there's that there's there's truly

1176
00:54:34,849 --> 00:54:31,890
something at work other than you know

1177
00:54:35,990 --> 00:54:34,859
you know something that it's just as

1178
00:54:37,580 --> 00:54:36,000
anomalous that you have to take

1179
00:54:39,560 --> 00:54:37,590
someone's word for it and and one thing

1180
00:54:42,410 --> 00:54:39,570
that we've seen that it's consistent is

1181
00:54:45,140 --> 00:54:42,420
the electromagnetic you know you the

1182
00:54:49,160 --> 00:54:45,150
cellphone anomalies you know Eric bard

1183
00:54:56,180 --> 00:54:49,170
his is conducted quite have been

1184
00:54:59,870 --> 00:54:56,190
research into what type of acute medical

1185
00:55:03,590 --> 00:54:59,880
episodes can accompany extreme

1186
00:55:06,740 --> 00:55:03,600
electromagnetic you know interference or

1187
00:55:08,990 --> 00:55:06,750
events you know you know what what you

1188
00:55:11,030 --> 00:55:09,000

know even the auditory phenomena that I

1189

00:55:13,310 --> 00:55:11,040

did I experienced you know I related to

1190

00:55:15,710 --> 00:55:13,320

you my experience of walking around the

1191

00:55:18,530 --> 00:55:15,720

back at the the old homestead and having

1192

00:55:20,510 --> 00:55:18,540

you know having this auditory sensation

1193

00:55:23,750 --> 00:55:20,520

where all the ambient noise was

1194

00:55:25,310 --> 00:55:23,760

essentially muted and it it truly felt

1195

00:55:29,480 --> 00:55:25,320

like I stepped into a soundproof chamber

1196

00:55:31,670 --> 00:55:29,490

of sorts and and you know it's

1197

00:55:35,390 --> 00:55:31,680

interesting you know electromagnetic

1198

00:55:39,460 --> 00:55:35,400

phenomena at times and you know that

1199

00:55:40,600 --> 00:55:39,470

kind of interference can actually create

1200

00:55:48,340 --> 00:55:40,610

those

1201
00:55:51,160 --> 00:55:48,350
Japan let's let's talk about the the

1202
00:55:53,260 --> 00:55:51,170
show the History Channel show it some of

1203
00:55:57,070 --> 00:55:53,270
what you said is stuff that was shown on

1204
00:56:00,460 --> 00:55:57,080
that show how did that I did that come

1205
00:56:01,600 --> 00:56:00,470
about did they approach you yes so a

1206
00:56:04,300 --> 00:56:01,610
good question

1207
00:56:07,090 --> 00:56:04,310
you know I was you know within months of

1208
00:56:10,780 --> 00:56:07,100
acquiring the property we we were

1209
00:56:14,980 --> 00:56:10,790
assaulted by numerous requests you know

1210
00:56:17,830 --> 00:56:14,990
I kept my identity completely private

1211
00:56:19,840 --> 00:56:17,840
in fact you you'd be hard-pressed if I

1212
00:56:21,580 --> 00:56:19,850
wouldn't have gone public there really

1213
00:56:24,150 --> 00:56:21,590

isn't anything on the title or in the

1214

00:56:27,880 --> 00:56:24,160

public domain that would actually tie my

1215

00:56:30,160 --> 00:56:27,890

my identity to the the entity to

1216

00:56:31,660 --> 00:56:30,170

adamantium real estate LLC which is a

1217

00:56:36,490 --> 00:56:31,670

special-purpose entity that I

1218

00:56:41,770 --> 00:56:36,500

established for owning and operating the

1219

00:56:43,630 --> 00:56:41,780

ranch and I really had no interest in in

1220

00:56:47,830 --> 00:56:43,640

opening the property up for a television

1221

00:56:49,810 --> 00:56:47,840

effort you know I was I was hit up for

1222

00:56:53,130 --> 00:56:49,820

about a year it was probably a solid

1223

00:56:55,330 --> 00:56:53,140

year where I was I was approached by

1224

00:56:58,030 --> 00:56:55,340

individuals involved with the History

1225

00:57:00,760 --> 00:56:58,040

Channel and a any network that wanted to

1226
00:57:03,610 --> 00:57:00,770
to pitch me on an investigative series

1227
00:57:06,730 --> 00:57:03,620
of sorts and after about a year I

1228
00:57:09,970 --> 00:57:06,740
finally I finally acquiesced to at least

1229
00:57:12,790 --> 00:57:09,980
take a meeting and hear what what you

1230
00:57:15,640 --> 00:57:12,800
know what they had in mind and and at

1231
00:57:17,590 --> 00:57:15,650
least be able to to close that door

1232
00:57:20,740 --> 00:57:17,600
closed that chapter in a respectful

1233
00:57:22,660 --> 00:57:20,750
manner and when we when we ended up

1234
00:57:27,460 --> 00:57:22,670
having those discussions initially which

1235
00:57:33,730 --> 00:57:27,470
was gosh I don't know October November

1236
00:57:38,670 --> 00:57:33,740
of hang all my years are running

1237
00:57:47,230 --> 00:57:41,470
2018

1238
00:57:51,250 --> 00:57:47,240

I was I was intrigued you know but it

1239

00:57:54,220 --> 00:57:51,260

wasn't until I actually met with Kevin

1240

00:57:57,520 --> 00:57:54,230

burns of prometheus entertain

1241

00:57:59,349 --> 00:57:57,530

who who's kind of the go-to guy I guess

1242

00:58:00,250 --> 00:57:59,359

for these type of programs on the

1243

00:58:02,410 --> 00:58:00,260

History Channel

1244

00:58:04,599 --> 00:58:02,420

you know when Kevin Burns flew out with

1245

00:58:08,650 --> 00:58:04,609

his team to meet with me after again

1246

00:58:11,530 --> 00:58:08,660

after a year of people bugging the hell

1247

00:58:14,290 --> 00:58:11,540

out of me through my managers and

1248

00:58:15,970 --> 00:58:14,300

through intermediaries I finally said

1249

00:58:17,950 --> 00:58:15,980

you know I'm willing to take a meeting

1250

00:58:21,780 --> 00:58:17,960

I'm willing to have a discussion and

1251
00:58:24,970 --> 00:58:21,790
when I sat down with with the group

1252
00:58:27,010 --> 00:58:24,980
representing the History Channel and in

1253
00:58:29,530 --> 00:58:27,020
pitching me on this

1254
00:58:33,160 --> 00:58:29,540
I shared my motivation my story but I

1255
00:58:37,150 --> 00:58:33,170
said look I'm not interested in any type

1256
00:58:42,510 --> 00:58:37,160
of effort that would that would involve

1257
00:58:46,420 --> 00:58:42,520
fabricating or you know faking you know

1258
00:58:48,880 --> 00:58:46,430
you know anything that would be

1259
00:58:52,840 --> 00:58:48,890
contrived I I've seen enough of these

1260
00:58:54,370 --> 00:58:52,850
stupid programs people tripping over

1261
00:58:56,620 --> 00:58:54,380
themselves in the dark with night-vision

1262
00:58:58,810 --> 00:58:56,630
goggles and I didn't want this effort

1263
00:59:01,050 --> 00:58:58,820

and really the nature of our

1264

00:59:04,960 --> 00:59:01,060

investigation reduced to that type of

1265

00:59:07,060 --> 00:59:04,970

program and I told them I said look if

1266

00:59:09,280 --> 00:59:07,070

we were to engage I have a number of

1267

00:59:11,740 --> 00:59:09,290

conditions number one it has to be

1268

00:59:13,960 --> 00:59:11,750

absolute truth everything that you

1269

00:59:17,230 --> 00:59:13,970

record everything that is displayed has

1270

00:59:21,580 --> 00:59:17,240

to be 100% true you can't fabricate

1271

00:59:23,800 --> 00:59:21,590

anything number two you're gonna have to

1272

00:59:26,560 --> 00:59:23,810

use my team I'm not interested in

1273

00:59:29,260 --> 00:59:26,570

casting people bringing in people from

1274

00:59:32,380 --> 00:59:29,270

the outside that may be front-loaded or

1275

00:59:34,780 --> 00:59:32,390

maybe you may have another agenda that

1276
00:59:36,790 --> 00:59:34,790
may run contrary that could undermine

1277
00:59:40,180 --> 00:59:36,800
the integrity of what we're doing and

1278
00:59:42,370 --> 00:59:40,190
you know I introduced my team which

1279
00:59:44,859 --> 00:59:42,380
which which includes people that I've

1280
00:59:47,470 --> 00:59:44,869
known my whole life at least since I was

1281
00:59:49,690 --> 00:59:47,480
18 years old and I said look you're

1282
00:59:52,720 --> 00:59:49,700
gonna have to you're going to have to

1283
00:59:54,880 --> 00:59:52,730
work with my team in order to preserve

1284
00:59:57,790 --> 00:59:54,890
the integrity in the authenticity of

1285
00:59:59,800 --> 00:59:57,800
what we are what we're doing out there

1286
01:00:04,090 --> 00:59:59,810
and in the base and that skinwalker

1287
01:00:07,510 --> 01:00:04,100
ranch number three I asked that my

1288
01:00:08,130 --> 01:00:07,520

identity identity be kept confidential I

1289

01:00:16,800 --> 01:00:08,140

did

1290

01:00:21,240 --> 01:00:16,810

want to come out and and have any of my

1291

01:00:24,990 --> 01:00:21,250

professional endeavors be compromised or

1292

01:00:27,540 --> 01:00:25,000

potentially distracted as a result of my

1293

01:00:31,650 --> 01:00:27,550

involvement with with this ranch and

1294

01:00:33,870 --> 01:00:31,660

with these efforts and as we met and we

1295

01:00:36,360 --> 01:00:33,880

visited you know they had no problem

1296

01:00:39,030 --> 01:00:36,370

granting me my my first two conditions

1297

01:00:42,230 --> 01:00:39,040

but they they they came back and said

1298

01:00:46,020 --> 01:00:42,240

look we we did not believe that we can

1299

01:00:50,010 --> 01:00:46,030

appropriately address the topic of the

1300

01:00:55,260 --> 01:00:50,020

ranch and really the team and and create

1301
01:00:57,240 --> 01:00:55,270
a credible investigative series without

1302
01:00:59,870 --> 01:00:57,250
your involvement without you

1303
01:01:04,020 --> 01:00:59,880
in essence coming out of the closet and

1304
01:01:07,620 --> 01:01:04,030
and being being brave enough to reveal

1305
01:01:09,900 --> 01:01:07,630
your identity and they said it you know

1306
01:01:13,890 --> 01:01:09,910
we really believe that that's essential

1307
01:01:17,280 --> 01:01:13,900
to to really preserving the integrity of

1308
01:01:20,520 --> 01:01:17,290
what what you're trying to to establish

1309
01:01:22,310 --> 01:01:20,530
here and and so I I had to give it a lot

1310
01:01:25,100 --> 01:01:22,320
of thought and I ultimately and

1311
01:01:27,720 --> 01:01:25,110
reluctantly agreed to participate

1312
01:01:30,030 --> 01:01:27,730
because I think they they had a point I

1313
01:01:32,250 --> 01:01:30,040

agreed I said look you know there's a

1314

01:01:35,760 --> 01:01:32,260

lot of people out there that have either

1315

01:01:37,560 --> 01:01:35,770

kept their identities secret or they

1316

01:01:39,870 --> 01:01:37,570

have not engaged with the community they

1317

01:01:44,250 --> 01:01:39,880

have not been forthcoming or transparent

1318

01:01:47,010 --> 01:01:44,260

they have they've sequestered themselves

1319

01:01:50,070 --> 01:01:47,020

away from the community and and frankly

1320

01:01:53,400 --> 01:01:50,080

have not been willing to come forward in

1321

01:01:55,950 --> 01:01:53,410

in in a collaborative way and and I

1322

01:01:58,830 --> 01:01:55,960

don't blame them I mean I I can

1323

01:02:03,090 --> 01:01:58,840

completely understand especially now why

1324

01:02:08,910 --> 01:02:03,100

so many credible people that are

1325

01:02:12,270 --> 01:02:08,920

interested in these topics avoid going

1326

01:02:14,070 --> 01:02:12,280

public with their interest or really

1327

01:02:15,630 --> 01:02:14,080

engaging with the public relative to

1328

01:02:18,390 --> 01:02:15,640

their interests even those with with

1329

01:02:18,900 --> 01:02:18,400

resources and honey does some kind of

1330

01:02:21,380 --> 01:02:18,910

blowback

1331

01:02:24,320 --> 01:02:21,390

from from your occurrences

1332

01:02:27,890 --> 01:02:24,330

your business dealings at all nah not

1333

01:02:30,920 --> 01:02:27,900

yet so thankfully you know I haven't

1334

01:02:33,740 --> 01:02:30,930

at least that I'm aware of I haven't I

1335

01:02:37,100 --> 01:02:33,750

haven't had any negative blowback but it

1336

01:02:39,470 --> 01:02:37,110

has been interesting you know to see all

1337

01:02:44,510 --> 01:02:39,480

of the the cast of characters involved

1338

01:02:46,730 --> 01:02:44,520

with with the community with ufology all

1339

01:02:49,550 --> 01:02:46,740

of the enthusiasts and you know I I have

1340

01:02:52,490 --> 01:02:49,560

to tell you I I think it's fun to engage

1341

01:02:54,530 --> 01:02:52,500

with people that that share similar

1342

01:02:56,900 --> 01:02:54,540

interests that that are that are really

1343

01:02:58,910 --> 01:02:56,910

approaching this sincerely that are

1344

01:03:00,920 --> 01:02:58,920

trying to get to the bottom of you know

1345

01:03:04,430 --> 01:03:00,930

what does it work with the UFO

1346

01:03:05,930 --> 01:03:04,440

phenomenon and other related claims but

1347

01:03:11,180 --> 01:03:05,940

I think there are a lot of people who

1348

01:03:13,130 --> 01:03:11,190

also have their own agendas and and you

1349

01:03:15,410 --> 01:03:13,140

know I think that historically speaking

1350

01:03:17,900 --> 01:03:15,420

there are a lot of bad actors I think

1351

01:03:20,630 --> 01:03:17,910

there are a lot of charlatans there are

1352

01:03:22,340 --> 01:03:20,640

a lot of there are a lot of

1353

01:03:26,030 --> 01:03:22,350

artists I don't know how else to put it

1354

01:03:29,090 --> 01:03:26,040

but I I think there I think being able

1355

01:03:31,820 --> 01:03:29,100

to separate fact from fiction and being

1356

01:03:34,730 --> 01:03:31,830

able to separate those who have egos or

1357

01:03:37,850 --> 01:03:34,740

trying to monetize their interest in

1358

01:03:41,540 --> 01:03:37,860

this from those that are truly sincerely

1359

01:03:43,520 --> 01:03:41,550

engaged in and really analyzing these

1360

01:03:45,470 --> 01:03:43,530

topics and really addressing them I mean

1361

01:03:47,720 --> 01:03:45,480

it's it's a difficult task I

1362

01:03:50,060 --> 01:03:47,730

mentioned earlier you know this process

1363

01:03:52,850 --> 01:03:50,070

is is largely a process of trying to

1364

01:03:54,740 --> 01:03:52,860

separate the signal from the noise and I

1365

01:03:56,510 --> 01:03:54,750

think unfortunately the majority of what

1366

01:03:57,080 --> 01:03:56,520

you see out there right now is a lot of

1367

01:03:59,600 --> 01:03:57,090

noise

1368

01:04:01,550 --> 01:03:59,610

and it's difficult to be able to to

1369

01:04:06,530 --> 01:04:01,560

reach in and to be able to pierce that

1370

01:04:10,970 --> 01:04:06,540

into to extract the the real meaningful

1371

01:04:13,790 --> 01:04:10,980

data and an accounting that that are

1372

01:04:16,580 --> 01:04:13,800

legit yeah I says there's lots of noise

1373

01:04:17,780 --> 01:04:16,590

out there and you you specified in your

1374

01:04:20,330 --> 01:04:17,790

agreement that you wanted between

1375

01:04:22,190 --> 01:04:20,340

nothing fabricated in the show you know

1376

01:04:24,620 --> 01:04:22,200

let's say there are a few things that

1377

01:04:27,890 --> 01:04:24,630

we've discussed on Twitter that kind of

1378

01:04:32,690 --> 01:04:27,900

seem to verge on fabrication like for

1379

01:04:33,980 --> 01:04:32,700

example as episode for the high

1380

01:04:35,030 --> 01:04:33,990

strangeness this is the one with the

1381

01:04:37,370 --> 01:04:35,040

rocket launch

1382

01:04:39,830 --> 01:04:37,380

and the rain foam appearances there's a

1383

01:04:41,390 --> 01:04:39,840

scene there where they see this UFO in

1384

01:04:44,300 --> 01:04:41,400

the distance and they're all standing on

1385

01:04:46,700 --> 01:04:44,310

on the deck outside outside the ranch

1386

01:04:50,600 --> 01:04:46,710

house and right they're all looking up

1387

01:04:51,920 --> 01:04:50,610

at this this UFO and the weird thing is

1388

01:04:56,720 --> 01:04:51,930

that none of them have any binoculars

1389

01:04:58,640 --> 01:04:56,730

and they go on to say that then you know

1390

01:05:00,350 --> 01:04:58,650

this is they couldn't identify it and

1391

01:05:03,530 --> 01:05:00,360

they don't know what it is and it was

1392

01:05:05,180 --> 01:05:03,540

like weirdly glowing object but it seems

1393

01:05:07,010 --> 01:05:05,190

like if they had binoculars they would

1394

01:05:10,940 --> 01:05:07,020

have been to look at it and see that it

1395

01:05:13,550 --> 01:05:10,950

was you know probably just a plane seems

1396

01:05:15,800 --> 01:05:13,560

like that they don't seem like they're

1397

01:05:17,840 --> 01:05:15,810

part of a genuine investigation like if

1398

01:05:20,000 --> 01:05:17,850

people are there you know thinking that

1399

01:05:21,290 --> 01:05:20,010

they might see UFOs surely they would

1400

01:05:24,860 --> 01:05:21,300

have binoculars and it's especially

1401
01:05:27,710 --> 01:05:24,870
strange those lately in in episode 7 you

1402
01:05:29,750 --> 01:05:27,720
have another scene where a UFO or

1403
01:05:31,580 --> 01:05:29,760
something is spotted and there is a

1404
01:05:33,310 --> 01:05:31,590
helicopter the helicopter scene and

1405
01:05:34,820 --> 01:05:33,320
everybody is there with binoculars

1406
01:05:36,320 --> 01:05:34,830
that's right

1407
01:05:39,130 --> 01:05:36,330
there's this thing for different sets of

1408
01:05:43,250 --> 01:05:39,140
inoculation one guy with a long a long

1409
01:05:45,080 --> 01:05:43,260
telescope type saying yeah I I would say

1410
01:05:46,940 --> 01:05:45,090
the fact that when they were doing the

1411
01:05:48,170 --> 01:05:46,950
you know they're conducting the rocket

1412
01:05:51,980 --> 01:05:48,180
test the fact that they didn't have

1413
01:05:56,030 --> 01:05:51,990

binocular binoculars there frankly I

1414

01:05:57,680 --> 01:05:56,040

think proves that there wasn't something

1415

01:05:59,390 --> 01:05:57,690

contrived do they weren't all at the

1416

01:06:01,040 --> 01:05:59,400

ready I don't believe that anyone was

1417

01:06:05,330 --> 01:06:01,050

expecting that they're going to see some

1418

01:06:07,430 --> 01:06:05,340

silver discs in the sky yeah I actually

1419

01:06:12,290 --> 01:06:07,440

think that they were genuinely surprised

1420

01:06:14,660 --> 01:06:12,300

by that so I disagree a bit in that I

1421

01:06:16,790 --> 01:06:14,670

think that if they really were trying to

1422

01:06:22,700 --> 01:06:16,800

you know they were trying to anticipate

1423

01:06:26,120 --> 01:06:22,710

or believe that they were going to - to

1424

01:06:28,400 --> 01:06:26,130

take something that that that was

1425

01:06:32,030 --> 01:06:28,410

occurring in the the atmosphere and try

1426

01:06:34,010 --> 01:06:32,040

to try to I don't know conjurer I

1427

01:06:36,260 --> 01:06:34,020

wouldn't say it's fabricated as such but

1428

01:06:37,790 --> 01:06:36,270

it just seems rather odd that you know

1429

01:06:39,620 --> 01:06:37,800

if this is the type of thing they were

1430

01:06:41,150 --> 01:06:39,630

looking out for and they're gonna launch

1431

01:06:43,610 --> 01:06:41,160

a rocket you think they wouldn't

1432

01:06:45,890 --> 01:06:43,620

binoculars and their investigators yeah

1433

01:06:49,010 --> 01:06:45,900

from what I understand that the point of

1434

01:06:53,300 --> 01:06:49,020

the rocket test was not to stimulate

1435

01:06:55,340 --> 01:06:53,310

UFO activity was what it was to test you

1436

01:06:57,230 --> 01:06:55,350

know our outings I'm to the LM you know

1437

01:07:00,530 --> 01:06:57,240

it was it you know is equipped with

1438

01:07:01,850 --> 01:07:00,540

sensors and a bunch in order to to do

1439

01:07:04,910 --> 01:07:01,860

that I don't think there was an

1440

01:07:07,700 --> 01:07:04,920

expectation that it would trigger or act

1441

01:07:11,020 --> 01:07:07,710

as a catalyst for for revealing some

1442

01:07:14,300 --> 01:07:11,030

type of anomalous UFO activity and so I

1443

01:07:18,230 --> 01:07:14,310

actually think that that what you saw

1444

01:07:20,180 --> 01:07:18,240

captures there is so typical of so many

1445

01:07:22,400 --> 01:07:20,190

other UFO sightings where people are

1446

01:07:24,770 --> 01:07:22,410

like and Danish they're not it they're

1447

01:07:27,440 --> 01:07:24,780

not expecting it not I will say that

1448

01:07:31,730 --> 01:07:27,450

most of the crew that were there that

1449

01:07:35,030 --> 01:07:31,740

witnessed it were very skeptical did not

1450

01:07:36,680 --> 01:07:35,040

believe in the you know the the reality

1451

01:07:38,870 --> 01:07:36,690

of the UFO phenomena they were just

1452

01:07:40,580 --> 01:07:38,880

there to do a job and I think you know

1453

01:07:42,260 --> 01:07:40,590

all of those people and I think they

1454

01:07:44,180 --> 01:07:42,270

were probably about a dozen people that

1455

01:07:48,620 --> 01:07:44,190

witnessed those events that occurred

1456

01:07:51,109 --> 01:07:48,630

over those minutes of filming the the

1457

01:07:53,300 --> 01:07:51,119

rocket exercise I think you know they

1458

01:07:56,359 --> 01:07:53,310

all came away quite surprised by what

1459

01:07:59,390 --> 01:07:56,369

they saw and so it's it is interesting

1460

01:08:02,510 --> 01:07:59,400

though on the helicopter incident I have

1461

01:08:04,430 --> 01:08:02,520

to give you really huge credit in fact I

1462

01:08:06,170 --> 01:08:04,440

appreciate your investigative efforts

1463

01:08:09,380 --> 01:08:06,180

and your due diligence and reaching out

1464

01:08:12,290 --> 01:08:09,390

and and frankly you know verifying that

1465

01:08:15,230 --> 01:08:12,300

there probably is a a conventional

1466

01:08:17,749 --> 01:08:15,240

explanation for that helicopter you know

1467

01:08:20,720 --> 01:08:17,759

they the helicopter probably did deviate

1468

01:08:22,130 --> 01:08:20,730

from its course you know to come you

1469

01:08:25,430 --> 01:08:22,140

know look over the ranch but that

1470

01:08:27,740 --> 01:08:25,440

doesn't necessarily signify you know

1471

01:08:30,950 --> 01:08:27,750

some covert surveillance of the property

1472

01:08:34,010 --> 01:08:30,960

and I really appreciated your diligence

1473

01:08:37,220 --> 01:08:34,020

and and really tracking that down and I

1474

01:08:39,680 --> 01:08:37,230

think that that yeah I think more of

1475

01:08:42,470 --> 01:08:39,690

that I think if we see more people like

1476

01:08:45,170 --> 01:08:42,480

you helping us to be able to identify

1477

01:08:48,019 --> 01:08:45,180

what what may have a conventional

1478

01:08:50,599 --> 01:08:48,029

explanation versus something that could

1479

01:08:52,940 --> 01:08:50,609

be you know unexplained will will help

1480

01:08:54,710 --> 01:08:52,950

advance the topic yeah that was quite a

1481

01:08:56,900 --> 01:08:54,720

tricky investigation actually because

1482

01:08:58,670 --> 01:08:56,910

there wasn't any ad SB data there there

1483

01:09:00,349 --> 01:08:58,680

was a big gap in the helicopter flying

1484

01:09:02,420 --> 01:09:00,359

from one side to the other so I couldn't

1485

01:09:03,830 --> 01:09:02,430

find it I had to do a bunch of

1486

01:09:06,370 --> 01:09:03,840

searching to trying to find out what

1487

01:09:09,230 --> 01:09:06,380

helicopter it was but I think you know I

1488

01:09:10,700 --> 01:09:09,240

appreciate that but I still feel like

1489

01:09:13,520 --> 01:09:10,710

there's there's some kind of unanswered

1490

01:09:16,660 --> 01:09:13,530

questions about what are how that was

1491

01:09:19,220 --> 01:09:16,670

betrayed on that episode in particular

1492

01:09:22,280 --> 01:09:19,230

you did have everybody looking up with

1493

01:09:26,600 --> 01:09:22,290

binoculars sure one guy with a gun scope

1494

01:09:28,190 --> 01:09:26,610

quite large long one and he should have

1495

01:09:30,110 --> 01:09:28,200

been able to see the number on the side

1496

01:09:33,500 --> 01:09:30,120

of the helicopter it was it was almost

1497

01:09:38,360 --> 01:09:33,510

visible in the 1080p video that you

1498

01:09:40,700 --> 01:09:38,370

write so yet and I wasn't there but I

1499

01:09:43,640 --> 01:09:40,710

from what I understand from all of the

1500

01:09:45,410 --> 01:09:43,650

participants they wet whether it be the

1501

01:09:49,100 --> 01:09:45,420

angle the helicopter whatever they

1502

01:09:51,980 --> 01:09:49,110

couldn't make out the numbers and you

1503

01:09:55,730 --> 01:09:51,990

know for what it's worth it's you know

1504

01:09:59,050 --> 01:09:55,740

it they made it into a more dramatic

1505

01:10:01,310 --> 01:09:59,060

event than it probably was I mean I I

1506

01:10:04,070 --> 01:10:01,320

that's one of the challenges with

1507

01:10:07,730 --> 01:10:04,080

television is and with this particular

1508

01:10:11,090 --> 01:10:07,740

medium is you know there is a bit of

1509

01:10:14,960 --> 01:10:11,100

drama you have the music you have the

1510

01:10:20,030 --> 01:10:14,970

way that the the content is edited that

1511

01:10:24,710 --> 01:10:20,040

can sometimes detract from you know the

1512

01:10:28,550 --> 01:10:24,720

credibility of the events or or to some

1513

01:10:31,190 --> 01:10:28,560

degree I think you know be be crafted in

1514

01:10:32,780 --> 01:10:31,200

such a way to elicit a response but what

1515

01:10:34,490 --> 01:10:32,790

we've endeavored to do it we're not

1516

01:10:37,580 --> 01:10:34,500

showing by for instance we're not

1517

01:10:39,980 --> 01:10:37,590

fabricating a helicopter yeah out of

1518

01:10:43,220 --> 01:10:39,990

thin air we're not trying to for

1519

01:10:46,990 --> 01:10:43,230

instance the also the UFO sighting that

1520

01:10:49,730 --> 01:10:47,000

the the people had their you know

1521

01:10:53,540 --> 01:10:49,740

simultaneous with the rocket experiment

1522

01:10:57,170 --> 01:10:53,550

I mean we we captured what was truly a

1523

01:11:00,080 --> 01:10:57,180

genuine authentic reaction from the cast

1524

01:11:02,570 --> 01:11:00,090

and crew associated with that with that

1525

01:11:04,670 --> 01:11:02,580

event and with the experimentation that

1526

01:11:09,020 --> 01:11:04,680

was happening same thing holds true you

1527

01:11:12,710 --> 01:11:09,030

probably recall the the balloon where

1528

01:11:14,360 --> 01:11:12,720

they balloon into them I mean the

1529

01:11:16,250 --> 01:11:14,370

gentleman I can't remember his name but

1530

01:11:19,310 --> 01:11:16,260

the the gentleman

1531

01:11:22,370 --> 01:11:19,320

who they brought out that that that

1532

01:11:26,690 --> 01:11:22,380

deployed the the balloon and the

1533

01:11:30,620 --> 01:11:26,700

instrumentation was and I think still is

1534

01:11:33,380 --> 01:11:30,630

truly baffled by the loss of the balloon

1535

01:11:36,470 --> 01:11:33,390

by what was recorded what he observed

1536

01:11:38,600 --> 01:11:36,480

and that's what we have tried to do with

1537

01:11:41,470 --> 01:11:38,610

probably varying levels of success is

1538

01:11:44,630 --> 01:11:41,480

we've tried to bring in third-party

1539

01:11:46,160 --> 01:11:44,640

engineers and experts whether we're

1540

01:11:48,470 --> 01:11:46,170

approaching it you know the ground

1541

01:11:50,840 --> 01:11:48,480

penetrating radar studies or the drone

1542

01:11:53,690 --> 01:11:50,850

thermography imaging relative to the

1543

01:11:55,130 --> 01:11:53,700

site you know we're you know we're

1544

01:11:58,250 --> 01:11:55,140

looking into deep ground-penetrating

1545

01:11:59,990 --> 01:11:58,260

measurement technologies and and you

1546

01:12:03,800 --> 01:12:00,000

know some of these other experiments in

1547

01:12:06,050 --> 01:12:03,810

order to in order to understand you know

1548

01:12:08,360 --> 01:12:06,060

what is at work here over the ranch and

1549

01:12:10,730 --> 01:12:08,370

you know so you don't have to take our

1550

01:12:13,850 --> 01:12:10,740

team's word for it I think we we've

1551
01:12:16,400 --> 01:12:13,860
tried to under the guidance of kind of

1552
01:12:18,710 --> 01:12:16,410
the production team and whatnot bring in

1553
01:12:22,520 --> 01:12:18,720
other third parties that can hopefully

1554
01:12:26,170 --> 01:12:22,530
help us advance the discussion yeah so

1555
01:12:29,360 --> 01:12:26,180
another thing that seems a little

1556
01:12:32,150 --> 01:12:29,370
perhaps since I sensationalized front of

1557
01:12:34,730 --> 01:12:32,160
a better word is the the the

1558
01:12:39,200 --> 01:12:34,740
electromagnetic radiation readings

1559
01:12:43,640 --> 01:12:39,210
thank you have Travis Taylor the the

1560
01:12:45,680 --> 01:12:43,650
scientists doing a lot of looking at his

1561
01:12:49,760 --> 01:12:45,690
Trifield meter and I have a Trifield

1562
01:12:51,410 --> 01:12:49,770
meter which I to go there are fun little

1563
01:12:53,330 --> 01:12:51,420

devices I mean they're essentially the

1564

01:12:56,120 --> 01:12:53,340

devices that are sold to people are kind

1565

01:12:58,700 --> 01:12:56,130

of a bit paranoid about EMF radiation in

1566

01:13:00,920 --> 01:12:58,710

their homes right and it works fairly

1567

01:13:02,330 --> 01:13:00,930

well he only goes up to 20 so it's

1568

01:13:05,390 --> 01:13:02,340

pretty low level and he goes for 20

1569

01:13:09,320 --> 01:13:05,400

milli watts per meter squared I'm gonna

1570

01:13:11,810 --> 01:13:09,330

turn it on see what I'm at now and it's

1571

01:13:13,580 --> 01:13:11,820

it's like the the types of the types of

1572

01:13:14,870 --> 01:13:13,590

numbers that you get on these these

1573

01:13:16,970 --> 01:13:14,880

track field meters they can I go all

1574

01:13:19,610 --> 01:13:16,980

over the place you know how close they

1575

01:13:22,910 --> 01:13:19,620

are to electrical equipment or to cell

1576

01:13:26,000 --> 01:13:22,920

phones and things like that and they can

1577

01:13:27,680 --> 01:13:26,010

very easily pay out just in a normal

1578

01:13:28,950 --> 01:13:27,690

situation like in my room here now

1579

01:13:29,940 --> 01:13:28,960

obviously you wouldn't expect that

1580

01:13:31,350 --> 01:13:29,950

you're out in the middle of the field

1581

01:13:34,050 --> 01:13:31,360

I've taken this out into the middle of

1582

01:13:35,640 --> 01:13:34,060

my field out back I also live on an old

1583

01:13:37,650 --> 01:13:35,650

ranch essentially as a housing

1584

01:13:42,450 --> 01:13:37,660

development that was once a ranch and it

1585

01:13:45,750 --> 01:13:42,460

is zero built on a graveyard

1586

01:13:47,310 --> 01:13:45,760

quite possibly quite possibly but only a

1587

01:13:49,800 --> 01:13:47,320

great deal of dead cows

1588

01:13:52,620 --> 01:13:49,810

this is the Trifield meter you know it

1589

01:13:55,350 --> 01:13:52,630

works you move it close to my Wi-Fi

1590

01:13:58,709 --> 01:13:55,360

router and it will it will go to a up to

1591

01:14:00,240 --> 01:13:58,719

20 it meets the maximum is that right

1592

01:14:04,110 --> 01:14:00,250

next to the microwave it will go up to

1593

01:14:06,330 --> 01:14:04,120

20 but when you see it in the show you

1594

01:14:08,130 --> 01:14:06,340

basically don't see that much difference

1595

01:14:10,110 --> 01:14:08,140

to do what I'm showing you here like it

1596

01:14:12,380 --> 01:14:10,120

pops up around to the low the load

1597

01:14:16,740 --> 01:14:12,390

numbers like 5 to 10 something like that

1598

01:14:19,590 --> 01:14:16,750

and it's it oscillates a lot and

1599

01:14:22,860 --> 01:14:19,600

especially if it's near a phone and in

1600

01:14:24,780 --> 01:14:22,870

all of the situations that you show

1601
01:14:25,890 --> 01:14:24,790
Travis getting excited and you waving it

1602
01:14:27,300 --> 01:14:25,900
around I think it's coming from here

1603
01:14:29,070 --> 01:14:27,310
it's coming from there and it's going

1604
01:14:30,750 --> 01:14:29,080
crazy and it's making the little beeping

1605
01:14:33,630 --> 01:14:30,760
noises the numbers don't really seem

1606
01:14:34,709 --> 01:14:33,640
that unusual to me especially given the

1607
01:14:36,900 --> 01:14:34,719
fact that there's a group of people

1608
01:14:37,979 --> 01:14:36,910
around some of them have their cell

1609
01:14:39,600 --> 01:14:37,989
phones and some of them are not on it

1610
01:14:42,390 --> 01:14:39,610
airplane mode you can actually see that

1611
01:14:44,670 --> 01:14:42,400
and some of the shots and most of them

1612
01:14:46,979 --> 01:14:44,680
are wearing wireless microphone packs

1613
01:14:49,140 --> 01:14:46,989

that are attached to the director back

1614

01:14:52,970 --> 01:14:49,150

and then some of them could be fairly

1615

01:14:57,570 --> 01:14:52,980

high power and I think 250 milli watt

1616

01:15:00,420 --> 01:14:57,580

power of transmission so what you're

1617

01:15:03,930 --> 01:15:00,430

seeing in the show doesn't look like

1618

01:15:05,940 --> 01:15:03,940

unusual levels of RF and would you agree

1619

01:15:08,459 --> 01:15:05,950

with that or what what do you think they

1620

01:15:11,010 --> 01:15:08,469

was unusual or was there like other sets

1621

01:15:14,670 --> 01:15:11,020

of readings and other equipments that

1622

01:15:17,610 --> 01:15:14,680

yes good good question good question

1623

01:15:20,430 --> 01:15:17,620

good observation I I'd say let me make a

1624

01:15:24,150 --> 01:15:20,440

blanket statement and that's in in both

1625

01:15:25,620 --> 01:15:24,160

dr. Taylor and dr. sigalas defense you

1626

01:15:28,229 --> 01:15:25,630

know you know what we're seeing

1627

01:15:31,260 --> 01:15:28,239

translated on the television program is

1628

01:15:34,410 --> 01:15:31,270

is a you know a number of quick edits

1629

01:15:37,260 --> 01:15:34,420

coupled with audio you know in the video

1630

01:15:39,120 --> 01:15:37,270

capturing their reactions and the events

1631

01:15:42,000 --> 01:15:39,130

that were unfolding and so I mean

1632

01:15:42,840 --> 01:15:42,010

they're there there are times when you

1633

01:15:46,440 --> 01:15:42,850

know whatever

1634

01:15:49,050 --> 01:15:46,450

whatever the cameramen are recording on

1635

01:15:50,940 --> 01:15:49,060

the handheld devices may not directly

1636

01:15:53,550 --> 01:15:50,950

correlate with with some of the

1637

01:15:56,790 --> 01:15:53,560

statements in the moment that are being

1638

01:16:00,330 --> 01:15:56,800

made by by the scientists and so you

1639

01:16:01,710 --> 01:16:00,340

know to a degree I think there there is

1640

01:16:03,780 --> 01:16:01,720

a little bit of a challenge with the

1641

01:16:06,060 --> 01:16:03,790

editing process again when you're trying

1642

01:16:09,600 --> 01:16:06,070

to approach an endeavor like this and to

1643

01:16:11,130 --> 01:16:09,610

present a cohesive narrative that that

1644

01:16:13,590 --> 01:16:11,140

that really accounts for what is

1645

01:16:17,960 --> 01:16:13,600

happening all that said is kind of a

1646

01:16:23,040 --> 01:16:17,970

preface to my next statement I mean I I

1647

01:16:27,180 --> 01:16:23,050

I'm not as familiar I mean I I don't

1648

01:16:32,370 --> 01:16:27,190

present myself as an expert on on these

1649

01:16:35,700 --> 01:16:32,380

devices and I'm probably not qualified

1650

01:16:38,370 --> 01:16:35,710

to really unfortunately speak to some of

1651
01:16:40,020 --> 01:16:38,380
your concerns the only thing I can say

1652
01:16:41,970 --> 01:16:40,030
and this will sound like such a cop-out

1653
01:16:43,770 --> 01:16:41,980
I know you're gonna chuckle is it you

1654
01:16:45,840 --> 01:16:43,780
know all I can say is I have three

1655
01:16:48,600 --> 01:16:45,850
scientists standing there especially

1656
01:16:52,560 --> 01:16:48,610
here I have two - I have two gentlemen

1657
01:16:54,300 --> 01:16:52,570
you know with PhDs in physics that have

1658
01:16:56,580 --> 01:16:54,310
worked with all sorts of electronics

1659
01:16:59,580 --> 01:16:56,590
that are very well acquainted with what

1660
01:17:01,140 --> 01:16:59,590
could be affecting the sensors at

1661
01:17:03,780 --> 01:17:01,150
different times that that is

1662
01:17:05,700 --> 01:17:03,790
conventional and when I when I have two

1663
01:17:07,920 --> 01:17:05,710

individuals you know one who has two

1664

01:17:10,710 --> 01:17:07,930

PhDs and three master's degrees and then

1665

01:17:14,190 --> 01:17:10,720

I have another one who has you know as a

1666

01:17:17,700 --> 01:17:14,200

PhD in masters as well in topics that

1667

01:17:19,740 --> 01:17:17,710

frankly approach you know you know the

1668

01:17:24,080 --> 01:17:19,750

the instrumentation and the physics

1669

01:17:27,330 --> 01:17:24,090

underpinning how these work you know I I

1670

01:17:30,900 --> 01:17:27,340

have to defer to them and whether their

1671

01:17:35,790 --> 01:17:30,910

assessment is in the moment and and I I

1672

01:17:38,730 --> 01:17:35,800

don't believe I I met dr. Taylor in

1673

01:17:40,530 --> 01:17:38,740

conjunction with engaging with with the

1674

01:17:44,160 --> 01:17:40,540

History Channel you know he was the one

1675

01:17:47,340 --> 01:17:44,170

he was the one party that they requested

1676

01:17:49,290 --> 01:17:47,350

would be you know potential scientists

1677

01:17:52,140 --> 01:17:49,300

to bring on to challenge the team and to

1678

01:17:55,800 --> 01:17:52,150

bring another set of eyes and I was I

1679

01:17:56,730 --> 01:17:55,810

was excited to bring him into into the

1680

01:17:59,820 --> 01:17:56,740

family

1681

01:18:01,590 --> 01:17:59,830

you will but you know dr. Sagawa I've

1682

01:18:03,900 --> 01:18:01,600

had old you know I've had years of

1683

01:18:07,320 --> 01:18:03,910

interaction with him and he has always

1684

01:18:10,700 --> 01:18:07,330

struck me as someone who employs the

1685

01:18:13,500 --> 01:18:10,710

scientific method and is is quite

1686

01:18:16,110 --> 01:18:13,510

measured and sober and his approach -

1687

01:18:18,210 --> 01:18:16,120

mm-hmm - really analyzing the data so

1688

01:18:20,900 --> 01:18:18,220

that's a really long-winded way of me

1689

01:18:24,450 --> 01:18:20,910

saying I don't really know how to

1690

01:18:26,460 --> 01:18:24,460

address specific questions you may have

1691

01:18:29,190 --> 01:18:26,470

relative to images flashing on the

1692

01:18:31,520 --> 01:18:29,200

screen and you know what what is being

1693

01:18:35,000 --> 01:18:31,530

observed and being able to again parse

1694

01:18:39,060 --> 01:18:35,010

that which may be associated with

1695

01:18:40,650 --> 01:18:39,070

interference as a result of the wireless

1696

01:18:42,750 --> 01:18:40,660

devices that are employed in the

1697

01:18:45,360 --> 01:18:42,760

recording and that which is not and

1698

01:18:47,400 --> 01:18:45,370

again I don't mean to sound like like

1699

01:18:51,060 --> 01:18:47,410

I'm trying to take the easy way out or

1700

01:18:52,980 --> 01:18:51,070

trying to kick the can down the road if

1701

01:18:55,410 --> 01:18:52,990

you will are trying to pass it off to

1702

01:18:57,420 --> 01:18:55,420

someone else but I I think that's

1703

01:18:59,550 --> 01:18:57,430

something that we need to look into look

1704

01:19:01,500 --> 01:18:59,560

more closely and frankly I think we're

1705

01:19:04,050 --> 01:19:01,510

going to be able to address that topic I

1706

01:19:07,620 --> 01:19:04,060

think a little bit more effectively in a

1707

01:19:10,200 --> 01:19:07,630

season two in further treatments yeah

1708

01:19:12,180 --> 01:19:10,210

one thing that that that I'm encouraged

1709

01:19:14,540 --> 01:19:12,190

by is it appears that we're going to

1710

01:19:19,230 --> 01:19:14,550

begin filming in short order

1711

01:19:22,440 --> 01:19:19,240

you know another you know 10 episodes

1712

01:19:25,440 --> 01:19:22,450

and in really launching into a season

1713

01:19:27,690 --> 01:19:25,450

two that will hopefully be able to

1714

01:19:31,680 --> 01:19:27,700

address some of these topics with a

1715

01:19:35,190 --> 01:19:31,690

little bit more diligence and and and

1716

01:19:37,320 --> 01:19:35,200

hopefully I think resolve some of the

1717

01:19:41,580 --> 01:19:37,330

concerns that have been man been brought

1718

01:19:43,890 --> 01:19:41,590

forward yeah no good yeah they and I

1719

01:19:45,810 --> 01:19:43,900

don't want to you know hop on the the

1720

01:19:47,600 --> 01:19:45,820

Trifield meter too much but it does

1721

01:19:50,880 --> 01:19:47,610

feature very strongly in the show and

1722

01:19:52,620 --> 01:19:50,890

and like you say like your scientists

1723

01:19:56,730 --> 01:19:52,630

aren't generally the ones where news

1724

01:19:58,770 --> 01:19:56,740

around is usually dr. Taylor and it's

1725

01:20:01,380 --> 01:19:58,780

not just him showing its near flashing

1726

01:20:03,150 --> 01:20:01,390

some numbers and and say and then being

1727

01:20:04,560 --> 01:20:03,160

suspicious he does actually talk about

1728

01:20:06,450 --> 01:20:04,570

those numbers as well I think in the

1729

01:20:09,810 --> 01:20:06,460

last episode of perhaps the previous one

1730

01:20:10,590 --> 01:20:09,820

he says like you know this is this is

1731

01:20:12,420 --> 01:20:10,600

like you know 40

1732

01:20:13,950 --> 01:20:12,430

or something like that and he says like

1733

01:20:16,440 --> 01:20:13,960

if I like held this outside of a

1734

01:20:19,160 --> 01:20:16,450

microwave it would be around 2 or 3 and

1735

01:20:21,780 --> 01:20:19,170

so 14 is like being inside the microwave

1736

01:20:24,960 --> 01:20:21,790

which is you know perhaps the most

1737

01:20:26,640 --> 01:20:24,970

nonsensical description of the levels

1738

01:20:28,200 --> 01:20:26,650

you could possibly imagine really for a

1739

01:20:29,790 --> 01:20:28,210

start if I hold this outside my

1740

01:20:32,400 --> 01:20:29,800

microwave it actually it actually will

1741

01:20:34,650 --> 01:20:32,410

peg out at 20 if you move it a bit

1742

01:20:36,210 --> 01:20:34,660

further away it will go down to 40 and

1743

01:20:39,140 --> 01:20:36,220

so suggesting that it's like the inside

1744

01:20:42,000 --> 01:20:39,150

of a microwave where the levels

1745

01:20:45,240 --> 01:20:42,010

literally let me top of my head like 50

1746

01:20:47,580 --> 01:20:45,250

thousand times higher for a thousand

1747

01:20:49,470 --> 01:20:47,590

watt microwave 50 thousand times higher

1748

01:20:52,320 --> 01:20:49,480

home perhaps 550 thousand times higher

1749

01:20:53,730 --> 01:20:52,330

than what he was suggesting as being the

1750

01:20:56,160 --> 01:20:53,740

inside of a microwave just doesn't make

1751

01:20:59,460 --> 01:20:56,170

any sense and it's it just it just

1752

01:21:02,460 --> 01:20:59,470

strikes me as being something being

1753

01:21:13,710 --> 01:21:02,470

played for drama rather than actual

1754

01:21:17,190 --> 01:21:13,720

science yeah and I all I can say is dr.

1755

01:21:19,800 --> 01:21:17,200

Taylor's credentials speak for

1756

01:21:22,280 --> 01:21:19,810

themselves dr. sagall his background his

1757

01:21:25,950 --> 01:21:22,290

credentials and whether they were

1758

01:21:28,950 --> 01:21:25,960

whether some of the edits had some of

1759

01:21:35,580 --> 01:21:28,960

the data lost in translation I'm not

1760

01:21:37,980 --> 01:21:35,590

sure I appreciate your your criticism

1761

01:21:40,440 --> 01:21:37,990

and your concern relative to to what is

1762

01:21:44,100 --> 01:21:40,450

shown in some of the the claims and what

1763

01:21:46,080 --> 01:21:44,110

was what was depicted and I I don't

1764

01:21:47,700 --> 01:21:46,090

really have a satisfactory answer for

1765

01:21:49,890 --> 01:21:47,710

you other than to say that I think we

1766

01:21:53,100 --> 01:21:49,900

had some highly competent people there

1767

01:21:57,240 --> 01:21:53,110

him making statements and I would be

1768

01:22:01,340 --> 01:21:57,250

very surprised if they were just making

1769

01:22:05,730 --> 01:22:01,350

stuff up or that they would go on camera

1770

01:22:10,130 --> 01:22:05,740

misrepresenting the nature of the data

1771

01:22:12,960 --> 01:22:10,140

or the readings just for the sake of

1772

01:22:14,730 --> 01:22:12,970

television yeah I think he approached

1773

01:22:16,710 --> 01:22:14,740

charities pleaded is just being a bit

1774

01:22:18,650 --> 01:22:16,720

overexcited about things and saying well

1775

01:22:20,910 --> 01:22:18,660

that came off the top of his head

1776

01:22:24,000 --> 01:22:20,920

because you know obviously he is a

1777

01:22:25,920 --> 01:22:24,010

scientist and he would know that he

1778

01:22:28,430 --> 01:22:25,930

wasn't inside a microwave at that point

1779

01:22:31,530 --> 01:22:28,440

so he was just going through a dramatic

1780

01:22:34,320 --> 01:22:31,540

interpretation of what was going on yeah

1781

01:22:37,800 --> 01:22:34,330

I don't have it I don't have specific

1782

01:22:40,950 --> 01:22:37,810

training in in these areas I I don't

1783

01:22:45,570 --> 01:22:40,960

have a PhD let alone multiple PhDs

1784

01:22:48,900 --> 01:22:45,580

addressing you know you know scientific

1785

01:22:52,050 --> 01:22:48,910

stock topics and instrumentation and I I

1786

01:22:54,420 --> 01:22:52,060

have to rely on people mm-hmm to to

1787

01:22:58,080 --> 01:22:54,430

hopefully give me proper analysis and

1788

01:23:01,080 --> 01:22:58,090

advise me appropriately and if anything

1789

01:23:06,420 --> 01:23:01,090

I think what this this television effort

1790

01:23:12,120 --> 01:23:06,430

has taught me is is to be more prepared

1791

01:23:14,520 --> 01:23:12,130

for questions I I I will admit I mean

1792

01:23:17,010 --> 01:23:14,530

let me confess I was not I was not

1793

01:23:20,640 --> 01:23:17,020

prepared for a lot of the questions that

1794

01:23:23,850 --> 01:23:20,650

would come forward right just simply

1795

01:23:26,090 --> 01:23:23,860

because a I'm dizzy I've got a lot of uh

1796

01:23:28,680 --> 01:23:26,100

this television show and this ranch

1797

01:23:31,950 --> 01:23:28,690

really constitutes a very very very

1798

01:23:34,800 --> 01:23:31,960

small part of my life and is not a part

1799

01:23:38,310 --> 01:23:34,810

of my day-to-day conventional activities

1800

01:23:40,490 --> 01:23:38,320

that have consumed my my my life and

1801
01:23:43,260 --> 01:23:40,500
career over the course the last 25 years

1802
01:23:47,970 --> 01:23:43,270
but also I'm going through a learning

1803
01:23:50,400 --> 01:23:47,980
experience as well and and you know it

1804
01:23:53,880 --> 01:23:50,410
I'd mentioned earlier at the the

1805
01:24:00,090 --> 01:23:53,890
beginning of our podcast you know this

1806
01:24:02,430 --> 01:24:00,100
is really a it's an evolution of really

1807
01:24:05,850 --> 01:24:02,440
bringing online the instrumentation

1808
01:24:08,370 --> 01:24:05,860
bringing the type of experts it's it's a

1809
01:24:10,740 --> 01:24:08,380
process not an event you know we haven't

1810
01:24:12,990 --> 01:24:10,750
had some seminal event where all of a

1811
01:24:16,250 --> 01:24:13,000
sudden we flip a switch and then all of

1812
01:24:20,160 --> 01:24:16,260
a sudden we have you know perfect data

1813
01:24:22,140 --> 01:24:20,170

that that that is you know critical

1814

01:24:25,980 --> 01:24:22,150

clear the right type of instrumentation

1815

01:24:29,130 --> 01:24:25,990

I hope to get there so my intention my

1816

01:24:32,510 --> 01:24:29,140

intention is to to to hopefully make

1817

01:24:35,610 --> 01:24:32,520

those improvements as we progress and

1818

01:24:37,920 --> 01:24:35,620

serve us to to really understanding what

1819

01:24:40,470 --> 01:24:37,930

we're seeing and and frankly to be

1820

01:24:45,120 --> 01:24:40,480

to give people like you an opportunity

1821

01:24:47,790 --> 01:24:45,130

to collaborate and to weigh in on what

1822

01:24:51,510 --> 01:24:47,800

we have recorded I I actually love that

1823

01:24:53,910 --> 01:24:51,520

you you took the time to even identify

1824

01:24:56,430 --> 01:24:53,920

that we with some of those images that

1825

01:24:58,920 --> 01:24:56,440

we flashed on the documentary for

1826
01:25:01,590 --> 01:24:58,930
example that we did have metadata that

1827
01:25:04,350 --> 01:25:01,600
accompanied those pictures I mean I I've

1828
01:25:07,830 --> 01:25:04,360
tried to to make sure that we're you

1829
01:25:10,800 --> 01:25:07,840
know that were that were credible that

1830
01:25:13,710 --> 01:25:10,810
we are that were that we're having

1831
01:25:16,530 --> 01:25:13,720
integrity with certainly appreciate an

1832
01:25:20,430 --> 01:25:16,540
investigation yeah so one last little

1833
01:25:25,730 --> 01:25:20,440
quibble I have with the the show is the

1834
01:25:29,400 --> 01:25:25,740
the fly the dark UFO over the dead cow

1835
01:25:31,860 --> 01:25:29,410
do you know from from my looking at it

1836
01:25:33,900 --> 01:25:31,870
he looks just like other videos of flies

1837
01:25:35,820 --> 01:25:33,910
flying by because it's in two rows and

1838
01:25:37,260 --> 01:25:35,830

it's a dark black blurry thing and it's

1839

01:25:39,600 --> 01:25:37,270

in about the right spot at the right

1840

01:25:42,240 --> 01:25:39,610

time and the right is a size and speed

1841

01:25:43,620 --> 01:25:42,250

and everything so that feature fairly

1842

01:25:45,330 --> 01:25:43,630

heavily and it seems like it might

1843

01:25:48,960 --> 01:25:45,340

feature in the next episode is there

1844

01:25:53,460 --> 01:25:48,970

more chatter you know all I can say is

1845

01:25:56,850 --> 01:25:53,470

there are many people that that that

1846

01:25:58,620 --> 01:25:56,860

have differing opinions again those that

1847

01:26:01,950 --> 01:25:58,630

were there the scientists that have

1848

01:26:04,170 --> 01:26:01,960

analyzed the footage you know all of the

1849

01:26:06,000 --> 01:26:04,180

events and again going back to you know

1850

01:26:09,540 --> 01:26:06,010

correlation does not necessarily mean

1851
01:26:13,560 --> 01:26:09,550
causation but it does make for some very

1852
01:26:14,910 --> 01:26:13,570
interesting some interesting discussion

1853
01:26:18,210 --> 01:26:14,920
and and frankly it

1854
01:26:19,920 --> 01:26:18,220
it helps us I think focus a lot of our

1855
01:26:23,550 --> 01:26:19,930
efforts a little bit better when we see

1856
01:26:26,220 --> 01:26:23,560
correlating events I think you know when

1857
01:26:29,310 --> 01:26:26,230
it comes to to your analysis I I haven't

1858
01:26:31,920 --> 01:26:29,320
to be honest I haven't had a chance to

1859
01:26:35,130 --> 01:26:31,930
even sit down with the team to review

1860
01:26:37,890 --> 01:26:35,140
the footage in a in a disciplined manner

1861
01:26:39,810 --> 01:26:37,900
in order to to ask you know how did we

1862
01:26:43,110 --> 01:26:39,820
come to these conclusions nine months

1863
01:26:46,350 --> 01:26:43,120

ago now me that's what what is somewhat

1864

01:26:49,680 --> 01:26:46,360

lost in in translation with a program

1865

01:26:52,010 --> 01:26:49,690

like this is you know these incidents

1866

01:26:56,120 --> 01:26:52,020

were recorded last summer

1867

01:26:58,130 --> 01:26:56,130

and a lot of the data the footage you

1868

01:27:00,530 --> 01:26:58,140

know a lot of the analysis that you see

1869

01:27:02,090 --> 01:27:00,540

projected on-screen

1870

01:27:05,090 --> 01:27:02,100

you know those conclusions were reached

1871

01:27:07,640 --> 01:27:05,100

quite a while ago and we haven't frankly

1872

01:27:10,520 --> 01:27:07,650

gone back and revisited these things and

1873

01:27:13,940 --> 01:27:10,530

and you know we up until now we haven't

1874

01:27:17,510 --> 01:27:13,950

really established a portal or a forum

1875

01:27:20,180 --> 01:27:17,520

to be able to engage peer review into to

1876

01:27:23,210 --> 01:27:20,190

I think provide some further analysis

1877

01:27:25,580 --> 01:27:23,220

and that that delves into some of these

1878

01:27:28,120 --> 01:27:25,590

claims and these events and I think

1879

01:27:32,630 --> 01:27:28,130

that's what we hope to hope to achieve

1880

01:27:35,270 --> 01:27:32,640

you know in in it's coincidental but you

1881

01:27:40,040 --> 01:27:35,280

know I would think that the period of

1882

01:27:42,230 --> 01:27:40,050

time in between season ones finale and a

1883

01:27:44,840 --> 01:27:42,240

season to air date you know hopefully

1884

01:27:49,160 --> 01:27:44,850

not only will we have our web portal and

1885

01:27:51,140 --> 01:27:49,170

our website that will will go live to

1886

01:27:52,910 --> 01:27:51,150

allow for some of these discussions to

1887

01:27:56,870 --> 01:27:52,920

continue but hopefully you know we may

1888

01:27:58,970 --> 01:27:56,880

be able to to further discuss and unwrap

1889

01:28:02,270 --> 01:27:58,980

the mystery involved with some of these

1890

01:28:04,160 --> 01:28:02,280

claims before the next episodes there I

1891

01:28:07,490 --> 01:28:04,170

will say that the team is mobilized

1892

01:28:10,040 --> 01:28:07,500

right now out in the basin I mean you

1893

01:28:13,220 --> 01:28:10,050

know just this morning I was receiving

1894

01:28:16,190 --> 01:28:13,230

updates from Eric bard from Thomas

1895

01:28:18,350 --> 01:28:16,200

Winterton from the command center where

1896

01:28:22,190 --> 01:28:18,360

they're installing new instrumentation

1897

01:28:25,520 --> 01:28:22,200

we have a we have a new up significantly

1898

01:28:28,100 --> 01:28:25,530

updated computer system that where we've

1899

01:28:31,850 --> 01:28:28,110

been putting into place that will that

1900

01:28:33,980 --> 01:28:31,860

will assist as well as a better backup

1901

01:28:37,220 --> 01:28:33,990

battery system I mean one of the things

1902

01:28:40,430 --> 01:28:37,230

that continues to frustrate me and the

1903

01:28:43,780 --> 01:28:40,440

team is is really how the equipment the

1904

01:28:45,170 --> 01:28:43,790

equipment just continues to have

1905

01:28:48,320 --> 01:28:45,180

challenges

1906

01:28:51,800 --> 01:28:48,330

I mean equipment equipment malfunctions

1907

01:28:53,300 --> 01:28:51,810

have been normal feasible thing there

1908

01:28:54,680 --> 01:28:53,310

there isn't it you you looking for

1909

01:28:57,050 --> 01:28:54,690

something that's repeatable and you've

1910

01:29:00,110 --> 01:28:57,060

got cell phones going wrong all the time

1911

01:29:02,720 --> 01:29:00,120

maybe she would I like a hundred iPhones

1912

01:29:05,470 --> 01:29:02,730

and you know arranged them in a grid

1913

01:29:07,840 --> 01:29:05,480

somewhere and and study what let's go

1914

01:29:09,880 --> 01:29:07,850

with these iPhones I would love to do

1915

01:29:11,650 --> 01:29:09,890

that in fact I think you know having a

1916

01:29:14,080 --> 01:29:11,660

daisy-chain of computers out at

1917

01:29:15,550 --> 01:29:14,090

homestead to and you know having them

1918

01:29:18,220 --> 01:29:15,560

put together and see if there's some

1919

01:29:21,010 --> 01:29:18,230

type of reaction or some type of

1920

01:29:22,780 --> 01:29:21,020

anomalous activity that can be recorded

1921

01:29:27,670 --> 01:29:22,790

associated with that effort would be

1922

01:29:29,470 --> 01:29:27,680

interesting in you know there is there

1923

01:29:30,850 --> 01:29:29,480

is repeatability when it comes to the

1924

01:29:32,950 --> 01:29:30,860

equipment malfunctions you know and a

1925

01:29:34,270 --> 01:29:32,960

number of people online have asked a

1926

01:29:36,070 --> 01:29:34,280

very good question they've said well if

1927

01:29:37,540 --> 01:29:36,080

your equipment is malfunctioning so

1928

01:29:39,880 --> 01:29:37,550

often if you're seeing battery

1929

01:29:41,410 --> 01:29:39,890

you know battery depletion and all of

1930

01:29:43,780 --> 01:29:41,420

these things how are you able to capture

1931

01:29:46,630 --> 01:29:43,790

these beautiful sweeping drone aerial

1932

01:29:48,880 --> 01:29:46,640

shots and you know your email record

1933

01:29:50,830 --> 01:29:48,890

these events in action and I think it's

1934

01:29:53,530 --> 01:29:50,840

important to note that a lot of the a

1935

01:29:56,200 --> 01:29:53,540

lot of the drone footage and whatnot you

1936

01:29:58,750 --> 01:29:56,210

know it may be recorded 15 minutes

1937

01:30:00,700 --> 01:29:58,760

before or after again through the

1938

01:30:04,990 --> 01:30:00,710

editing process they're trying to splice

1939

01:30:07,690 --> 01:30:05,000

together a cohesive narrative that that

1940

01:30:12,340 --> 01:30:07,700

will hopefully you know depict what is

1941

01:30:14,620 --> 01:30:12,350

happening in a in a inning I think in a

1942

01:30:16,990 --> 01:30:14,630

good manner that the the audience can

1943

01:30:19,360 --> 01:30:17,000

follow to it agreement I you know a lot

1944

01:30:22,780 --> 01:30:19,370

of those things I mean we've had so many

1945

01:30:25,479 --> 01:30:22,790

drones go down we've had so many cameras

1946

01:30:29,320 --> 01:30:25,489

that have ended up malfunctioning I mean

1947

01:30:31,510 --> 01:30:29,330

we had a whole we had a whole sequence

1948

01:30:33,910 --> 01:30:31,520

where where we had ground penetrating

1949

01:30:37,330 --> 01:30:33,920

radar studies conducted up on the Mesa

1950

01:30:41,350 --> 01:30:37,340

and all of the footage associated with

1951

01:30:45,820 --> 01:30:41,360

that study ended up disappearing off of

1952

01:30:49,920 --> 01:30:45,830

the digital drives I'm not trying to

1953

01:30:54,280 --> 01:30:49,930

assign some alien cause to it

1954

01:30:57,450 --> 01:30:54,290

but it is interesting and and again it

1955

01:31:01,810 --> 01:30:57,460

what it what it does is it it drives us

1956

01:31:04,330 --> 01:31:01,820

to further investigate that you know go

1957

01:31:07,030 --> 01:31:04,340

back and try to repeat that study and

1958

01:31:09,790 --> 01:31:07,040

and to try to get to the bottom of what

1959

01:31:12,160 --> 01:31:09,800

really is at work well I'm looking

1960

01:31:16,000 --> 01:31:12,170

forward to the final episode next week

1961

01:31:17,850 --> 01:31:16,010

and you know the the the next season

1962

01:31:20,220 --> 01:31:17,860

next year I guess it would come out

1963

01:31:22,530 --> 01:31:20,230

yeah I'd be it should be interesting

1964

01:31:24,180 --> 01:31:22,540

it'll be it will be interesting I really

1965

01:31:27,960 --> 01:31:24,190

appreciate your interest in this topic

1966

01:31:31,770 --> 01:31:27,970

and I appreciate all those online that

1967

01:31:35,970 --> 01:31:31,780

that have added their enthusiasm it's

1968

01:31:38,310 --> 01:31:35,980

it's fun to see discussion erupt around

1969

01:31:43,020 --> 01:31:38,320

these topics and I I think that's one of

1970

01:31:45,180 --> 01:31:43,030

the reasons why I why I agreed to to

1971

01:31:46,950 --> 01:31:45,190

this investigative series in this

1972

01:31:50,070 --> 01:31:46,960

television program is I felt like this

1973

01:31:54,930 --> 01:31:50,080

was an opportunity to give people the

1974

01:31:57,690 --> 01:31:54,940

chance to to see the property to to

1975

01:31:59,820 --> 01:31:57,700

actually accompany the team and and I

1976

01:32:02,670 --> 01:31:59,830

think we're missing that in this field

1977

01:32:04,200 --> 01:32:02,680

of inquiry I mean you how long have you

1978

01:32:06,510 --> 01:32:04,210

been at this how long have you been

1979

01:32:11,760 --> 01:32:06,520

investigating claims of this nature no

1980

01:32:18,120 --> 01:32:11,770

okay over 16 years now I think okay so

1981

01:32:22,710 --> 01:32:18,130

in all of your years I mean have you a l

1982

01:32:25,140 --> 01:32:22,720

mean it have you had have you seen

1983

01:32:28,290 --> 01:32:25,150

anything of this ft anything of this

1984

01:32:28,830 --> 01:32:28,300

magnitude brought forward in a public

1985

01:32:32,610 --> 01:32:28,840

fashion

1986

01:32:35,460 --> 01:32:32,620

yes transparently no I mean it's it's

1987

01:32:37,170 --> 01:32:35,470

certainly in terms of like supernatural

1988

01:32:41,010 --> 01:32:37,180

type things I suppose anything go to

1989

01:32:42,660 --> 01:32:41,020

compare it to is the recent UFO video

1990

01:32:45,480 --> 01:32:42,670

releases which got a lot of attention

1991

01:32:48,300 --> 01:32:45,490

but there you didn't really have the

1992

01:32:49,890 --> 01:32:48,310

degree of openness that you have you

1993

01:32:52,860 --> 01:32:49,900

know what you have here is kind of a

1994

01:32:54,540 --> 01:32:52,870

strange blend you have on the one hand

1995

01:32:55,860 --> 01:32:54,550

you're very accessible and that you you

1996

01:32:58,280 --> 01:32:55,870

talk to people and you're talking to me

1997

01:33:00,540 --> 01:32:58,290

now but on the other hand we've got

1998

01:33:03,000 --> 01:33:00,550

we're seeing things through the lens of

1999

01:33:05,460 --> 01:33:03,010

this show which does appear to be very

2000

01:33:07,890 --> 01:33:05,470

sensational license and sometimes you

2001
01:33:10,200 --> 01:33:07,900
know kind of formulating a narrative at

2002
01:33:13,680 --> 01:33:10,210
the expense of the actual you know what

2003
01:33:16,740 --> 01:33:13,690
actually went on so so yeah it's great

2004
01:33:18,630 --> 01:33:16,750
to have always openness but it's also in

2005
01:33:21,300 --> 01:33:18,640
double edged sword that because you're

2006
01:33:23,610 --> 01:33:21,310
presenting a lot of stuff which makes me

2007
01:33:25,710 --> 01:33:23,620
more skeptical rather than my skeptical

2008
01:33:28,590 --> 01:33:25,720
yeah it's a little bit of a no-win

2009
01:33:31,740 --> 01:33:28,600
situation though yeah it you know how

2010
01:33:34,950 --> 01:33:31,750
you know what is the perfect medium for

2011
01:33:36,930 --> 01:33:34,960
really engaging Public Interest stimuli

2012
01:33:39,120 --> 01:33:36,940
would be it would be Dropbox you could

2013
01:33:41,610 --> 01:33:39,130

just stick to terabytes of data on

2014

01:33:42,540 --> 01:33:41,620

Dropbox and I would point went to meet

2015

01:33:44,850 --> 01:33:42,550

the ones that you think of the most

2016

01:33:48,990 --> 01:33:44,860

interesting and yeah

2017

01:33:51,570 --> 01:33:49,000

for you yes and you're the anomaly I

2018

01:33:53,430 --> 01:33:51,580

think as far as the general public is

2019

01:33:56,940 --> 01:33:53,440

concerned and whatnot and trying to and

2020

01:34:00,570 --> 01:33:56,950

again trying to trying to establish the

2021

01:34:02,670 --> 01:34:00,580

right type of vehicle for disseminating

2022

01:34:05,760 --> 01:34:02,680

information relative to these topics of

2023

01:34:08,010 --> 01:34:05,770

the ranch it's it's a challenge and I'll

2024

01:34:09,960 --> 01:34:08,020

you know I've admitted that online I

2025

01:34:11,910 --> 01:34:09,970

mean it's it that has been part of the

2026

01:34:14,070 --> 01:34:11,920

learning process that I've been going

2027

01:34:17,100 --> 01:34:14,080

through over the course of the last year

2028

01:34:20,190 --> 01:34:17,110

especially the last two months as this

2029

01:34:23,360 --> 01:34:20,200

as this program has aired is that you

2030

01:34:27,060 --> 01:34:23,370

know it's very challenging when you're

2031

01:34:30,330 --> 01:34:27,070

on one hand you're trying to convince

2032

01:34:34,530 --> 01:34:30,340

people like you that that are looking at

2033

01:34:37,800 --> 01:34:34,540

it from a a a skeptical you know purely

2034

01:34:40,440 --> 01:34:37,810

data driven and scientific driven

2035

01:34:42,900 --> 01:34:40,450

perspective you know trying to make sure

2036

01:34:46,920 --> 01:34:42,910

that we appropriately address your

2037

01:34:51,180 --> 01:34:46,930

concerns and that that frankly that that

2038

01:34:55,310 --> 01:34:51,190

which is presented is supported by the

2039

01:34:59,700 --> 01:34:55,320

right type of data and media that would

2040

01:35:04,290 --> 01:34:59,710

that would pass muster with it that

2041

01:35:07,710 --> 01:35:04,300

would frankly I think to resolve your

2042

01:35:09,420 --> 01:35:07,720

concerns yet still be balanced with the

2043

01:35:14,850 --> 01:35:09,430

I guess what you would call the

2044

01:35:17,730 --> 01:35:14,860

entertainment value or the the the the

2045

01:35:21,330 --> 01:35:17,740

other functions that we're trying to be

2046

01:35:23,270 --> 01:35:21,340

in a channel yesterday channel needs to

2047

01:35:25,340 --> 01:35:23,280

make some money out of that show so they

2048

01:35:28,020 --> 01:35:25,350

they need a certain degree of

2049

01:35:29,370 --> 01:35:28,030

entertainment effective sure and you

2050

01:35:33,690 --> 01:35:29,380

know what I would I would probably

2051
01:35:36,060 --> 01:35:33,700
encourage I'd encourage you to keep this

2052
01:35:38,580 --> 01:35:36,070
in mind and others that are true are

2053
01:35:41,730 --> 01:35:38,590
tuning into this podcast you know have

2054
01:35:44,250 --> 01:35:41,740
fun with it you know it at times you

2055
01:35:45,719 --> 01:35:44,260
know you we can take ourselves too

2056
01:35:48,359 --> 01:35:45,729
seriously sometimes

2057
01:35:51,569 --> 01:35:48,369
I'm not saying that we should ever be

2058
01:35:54,390 --> 01:35:51,579
cavalier when we're addressing such bold

2059
01:35:58,410 --> 01:35:54,400
claims and topics but I think yeah I

2060
01:36:00,989 --> 01:35:58,420
think at times you know people need to

2061
01:36:04,259 --> 01:36:00,999
people need to have fun with it and

2062
01:36:05,790 --> 01:36:04,269
understand that this is it's not perfect

2063
01:36:10,819 --> 01:36:05,800

especially when you're dealing with

2064

01:36:13,080 --> 01:36:10,829

television oh my goodness it it is not a

2065

01:36:14,149 --> 01:36:13,090

starting my battery was going dead there

2066

01:36:17,069 --> 01:36:14,159

for a minute

2067

01:36:20,819 --> 01:36:17,079

it's it's not necessarily a perfect

2068

01:36:23,609 --> 01:36:20,829

medium for introducing scientific topics

2069

01:36:27,359 --> 01:36:23,619

to the public and in Carlson Carl Sagan

2070

01:36:30,330 --> 01:36:27,369

did a masterful job with cosmos yeah and

2071

01:36:33,989 --> 01:36:30,340

I'll be the first to admit that this

2072

01:36:37,620 --> 01:36:33,999

ain't cosmos this is a this is an

2073

01:36:38,399 --> 01:36:37,630

adventure and hey and uh yeah I want it

2074

01:36:42,589 --> 01:36:38,409

to be fun

2075

01:36:45,689 --> 01:36:42,599

you know of course I want this to be

2076

01:36:48,989 --> 01:36:45,699

this to be interesting and we hope that

2077

01:36:54,330 --> 01:36:48,999

people follow our journey and and

2078

01:36:57,000 --> 01:36:54,340

they're similarly inspired and and that

2079

01:36:58,560 --> 01:36:57,010

their that their imaginations and that

2080

01:37:02,459 --> 01:36:58,570

their interest is captured through all

2081

01:37:04,140 --> 01:37:02,469

of this I I'm looking forward to

2082

01:37:06,629 --> 01:37:04,150

continuing the journey with everyone

2083

01:37:08,660 --> 01:37:06,639

this is my journey so you know I started

2084

01:37:12,149 --> 01:37:08,670

off on this path over four years ago

2085

01:37:14,489 --> 01:37:12,159

truly as a skeptic you've seen I wasn't

2086

01:37:16,979 --> 01:37:14,499

someone who is in the domain I wasn't

2087

01:37:21,149 --> 01:37:16,989

participating in the UFO community in

2088

01:37:26,549 --> 01:37:21,159

any way and wasn't engaging people

2089

01:37:28,709 --> 01:37:26,559

relative to these topics and I I you

2090

01:37:31,830 --> 01:37:28,719

know I I surprised me ended up being

2091

01:37:35,850 --> 01:37:31,840

swept up in this in this effort as a

2092

01:37:38,430 --> 01:37:35,860

result of my own my own experience with

2093

01:37:41,009 --> 01:37:38,440

other witnesses and if I wouldn't have

2094

01:37:43,890 --> 01:37:41,019

had multiple witnesses with me on that

2095

01:37:45,270 --> 01:37:43,900

fateful day and those events you know

2096

01:37:47,419 --> 01:37:45,280

that fateful day of events that I

2097

01:37:49,979 --> 01:37:47,429

related to you earlier on this podcast

2098

01:37:52,199 --> 01:37:49,989

if I wouldn't have had those witnesses

2099

01:37:58,160 --> 01:37:52,209

with me coupled with all of the other

2100

01:38:05,600 --> 01:38:01,400

I don't know that you know in retrospect

2101

01:38:06,980 --> 01:38:05,610

it would be very easy to dismiss you

2102

01:38:09,800 --> 01:38:06,990

know those things as well admit maybe

2103

01:38:11,600 --> 01:38:09,810

that you know maybe I'd somehow tricked

2104

01:38:14,450 --> 01:38:11,610

myself into thinking that I was seeing

2105

01:38:18,380 --> 01:38:14,460

something but it's very difficult to

2106

01:38:20,450 --> 01:38:18,390

trick for a whole host of witnesses from

2107

01:38:26,030 --> 01:38:20,460

different backgrounds that are not part

2108

01:38:27,830 --> 01:38:26,040

of the same fraternity if you will to

2109

01:38:29,720 --> 01:38:27,840

all weigh in on it and have the exact

2110

01:38:32,900 --> 01:38:29,730

same experience and those to be coupled

2111

01:38:36,170 --> 01:38:32,910

with with all of these other events so I

2112

01:38:39,710 --> 01:38:36,180

really appreciate your your invitation

2113

01:38:42,140 --> 01:38:39,720

to come on I'll restate my invitation

2114

01:38:46,340 --> 01:38:42,150

that you're welcome to come out to the

2115

01:38:48,490 --> 01:38:46,350

ranch and accompany dragon on his patrol

2116

01:38:51,590 --> 01:38:48,500

of the ranch if you wish in the future

2117

01:38:53,450 --> 01:38:51,600

you know I I probably should say this

2118

01:38:55,460 --> 01:38:53,460

since this is in a public forum and

2119

01:38:59,030 --> 01:38:55,470

you're going to be publishing this which

2120

01:39:01,540 --> 01:38:59,040

is the idea you know because this is an

2121

01:39:05,060 --> 01:39:01,550

active scientific investigation and

2122

01:39:08,480 --> 01:39:05,070

we're trying to to maintain certain

2123

01:39:11,570 --> 01:39:08,490

protocols and security and maintain the

2124

01:39:13,910 --> 01:39:11,580

integrity that investigation which is

2125

01:39:16,100 --> 01:39:13,920

ongoing we really don't have the ability

2126
01:39:19,280 --> 01:39:16,110
to open this up to the public I do not

2127
01:39:21,860 --> 01:39:19,290
have any intention I have zero intention

2128
01:39:25,490 --> 01:39:21,870
of ever opening this up to the public

2129
01:39:30,050 --> 01:39:25,500
for tours you know making some type of

2130
01:39:32,600 --> 01:39:30,060
tourist attraction out of it I for one I

2131
01:39:34,640 --> 01:39:32,610
truly believe that there's danger you

2132
01:39:37,130 --> 01:39:34,650
know people have been hurt we've had a

2133
01:39:38,920 --> 01:39:37,140
number of people that have unfortunately

2134
01:39:41,600 --> 01:39:38,930
ended up in the hospital with

2135
01:39:43,580 --> 01:39:41,610
unexplained illnesses I believe as a

2136
01:39:45,740 --> 01:39:43,590
result of some of the activities and

2137
01:39:47,930 --> 01:39:45,750
their engagement on the ranch and we

2138
01:39:49,430 --> 01:39:47,940

take that very seriously and that's a

2139

01:39:52,940 --> 01:39:49,440

part of our investigation we're trying

2140

01:39:55,310 --> 01:39:52,950

to get to the bottom of what is really

2141

01:39:59,330 --> 01:39:55,320

at work to answer some of those

2142

01:40:02,510 --> 01:39:59,340

questions so anyhow yeah thank you thank

2143

01:40:04,070 --> 01:40:02,520

you very much for sharing your story and

2144

01:40:05,870 --> 01:40:04,080

your experiences and your what you're

2145

01:40:09,800 --> 01:40:05,880

going to do in the future and they look

2146

01:40:11,750 --> 01:40:09,810

forward to to see what happens in the

2147

01:40:13,430 --> 01:40:11,760

future so thank you very much

2148

01:40:15,980 --> 01:40:13,440

here you're welcome and thank you for

2149

01:40:17,210 --> 01:40:15,990

the dialog it's great okay and you have

2150

01:40:20,690 --> 01:40:17,220

a have a good weekend

2151

01:40:22,790 --> 01:40:20,700

hey you two enjoy and stay in touch feel

2152

01:40:25,160 --> 01:40:22,800

free I look forward to continuing our

2153

01:40:26,210 --> 01:40:25,170

dialogue in the future and did okay

2154

01:40:27,400 --> 01:40:26,220

thank you a lot to you
