

1
00:00:03,270 --> 00:00:01,829
the video on the right supposedly shows

2
00:00:06,070 --> 00:00:03,280
a man with strange

3
00:00:07,269 --> 00:00:06,080
double lidded reptilian eyelids you can

4
00:00:10,870 --> 00:00:07,279
see it when he blinks

5
00:00:12,709 --> 00:00:10,880
here as you can see from the video on

6
00:00:14,549 --> 00:00:12,719
the left the original video

7
00:00:16,470 --> 00:00:14,559
he doesn't have strange reptilian

8
00:00:17,430 --> 00:00:16,480
eyelids at all he has perfectly normal

9
00:00:19,990 --> 00:00:17,440
eyelids

10
00:00:20,470 --> 00:00:20,000
what we're seeing here is an artifact of

11
00:00:22,870 --> 00:00:20,480
motion

12
00:00:24,310 --> 00:00:22,880
compression the compression algorithm is

13
00:00:27,029 --> 00:00:24,320

trying to save space

14

00:00:29,429 --> 00:00:27,039

so it moves its face all as one thing

15

00:00:31,429 --> 00:00:29,439

because the eyelids change very rapidly

16

00:00:34,549 --> 00:00:31,439

the compression algorithm

17

00:00:36,709 --> 00:00:34,559

has difficulty keeping up and so you get
