

1
00:00:03,350 --> 00:00:01,910
so something funny happened to me the

2
00:00:03,990 --> 00:00:03,360
other day when i was recording this

3
00:00:09,030 --> 00:00:04,000
interview

4
00:00:12,310 --> 00:00:09,040
was talking to alex and all of a sudden

5
00:00:14,070 --> 00:00:12,320
i heard this loud noise and uh

6
00:00:14,290 --> 00:00:14,080
i was startled just fell uh off the

7
00:00:15,829 --> 00:00:14,300
chair

8
00:00:17,990 --> 00:00:15,839
[Music]

9
00:00:19,590 --> 00:00:18,000
off the shelf and what happens so right

10
00:00:22,230 --> 00:00:19,600
up here there's a bag

11
00:00:23,830 --> 00:00:22,240
on the top shelf here it's a camera bag

12
00:00:27,109 --> 00:00:23,840
and i've moved it the other day

13
00:00:28,550 --> 00:00:27,119

to this side over here and i stick it

14

00:00:30,470 --> 00:00:28,560

back here and there's a couple of like

15

00:00:31,349 --> 00:00:30,480

souvenir wine bottles i have and i must

16

00:00:33,910 --> 00:00:31,359

have just

17

00:00:34,790 --> 00:00:33,920

stuck it back in the corner there and

18

00:00:36,310 --> 00:00:34,800

it's very

19

00:00:39,190 --> 00:00:36,320

much just right on the edge it's kind of

20

00:00:41,750 --> 00:00:39,200

waited a little bit and it just

21

00:00:43,430 --> 00:00:41,760

just fell by itself just after shifting

22

00:00:44,869 --> 00:00:43,440

weight after a while and uh

23

00:00:46,310 --> 00:00:44,879

i actually tried this a few times and

24

00:00:47,910 --> 00:00:46,320

you can just leave it there and it

25

00:00:48,869 --> 00:00:47,920

actually eventually falls i think it's

26

00:00:51,270 --> 00:00:48,879

just

27

00:00:52,549 --> 00:00:51,280

the weight shifting uh let's see oh
