

Stars Not Drones

1
00:00:05,030 --> 00:00:02,710
about a year ago a video was leaked that

2
00:00:06,389 --> 00:00:05,040
supposedly showed flying pyramids above

3
00:00:08,150 --> 00:00:06,399
a navy ship

4
00:00:10,470 --> 00:00:08,160
it was quickly pointed out that the

5
00:00:12,549 --> 00:00:10,480
triangle shapes were just an artifact of

6
00:00:14,230 --> 00:00:12,559
the camera something later confirmed in

7
00:00:16,790 --> 00:00:14,240
congressional committee

8
00:00:18,710 --> 00:00:16,800
it is simply that that light source uh

9
00:00:20,790 --> 00:00:18,720
resolves itself through

10
00:00:23,509 --> 00:00:20,800
the um through the night vision goggles

11
00:00:25,429 --> 00:00:23,519
onto the slr camera as a triangle after

12
00:00:28,150 --> 00:00:25,439
that hearing a longer version of the

13
00:00:30,310 --> 00:00:28,160

video was released now i'd already

14

00:00:32,790 --> 00:00:30,320

identified several stars in the shorter

15

00:00:34,870 --> 00:00:32,800

one but this was better quality and it

16

00:00:38,709 --> 00:00:34,880

let us see that at the end there were

17

00:00:40,630 --> 00:00:38,719

eight new stars that could be identified

18

00:00:43,270 --> 00:00:40,640

the flashing moving light here is the

19

00:00:44,709 --> 00:00:43,280

ufo i think it's probably a plane but it

20

00:00:49,670 --> 00:00:44,719

might be a drone

21

00:00:54,310 --> 00:00:52,470

in the top right there's five stars

22

00:00:56,229 --> 00:00:54,320

four of them are the main stars in the

23

00:00:59,670 --> 00:00:56,239

quite recognizable sagittae

24

00:01:01,910 --> 00:00:59,680

constellation a kind of skinny fork

25

00:01:03,750 --> 00:01:01,920

in the bottom right there's altair a

26

00:01:07,190 --> 00:01:03,760

quite bright star and two others from

27

00:01:09,429 --> 00:01:07,200

the akili constellation

28

00:01:11,510 --> 00:01:09,439

this can't be drones randomly aligning

29

00:01:13,350 --> 00:01:11,520

even the magnitudes match

30

00:01:16,550 --> 00:01:13,360

this is a hundred percent these

31

00:01:19,510 --> 00:01:16,560

constellations these eight stars not

32

00:01:23,910 --> 00:01:21,749

this becomes even more significant when

33

00:01:26,390 --> 00:01:23,920

we look at the next video recently

34

00:01:27,830 --> 00:01:26,400

acquired by the drive which has audio

35

00:01:28,950 --> 00:01:27,840

describing what they think they are

36

00:01:30,469 --> 00:01:28,960

looking at

37

00:01:32,030 --> 00:01:30,479

this is the snoopy team leader on board

38

00:01:34,030 --> 00:01:32,040

uss russell in

39

00:01:37,510 --> 00:01:34,040

3217 north

40

00:01:40,950 --> 00:01:37,520

11957 west operating in social opera the

41

00:01:43,830 --> 00:01:40,960

course 270 true speeds live night

42

00:01:46,630 --> 00:01:43,840

at time zero four two four zulu we have

43

00:01:47,590 --> 00:01:46,640

visual four profitable unidentified

44

00:01:49,830 --> 00:01:47,600

drones

45

00:01:52,870 --> 00:01:49,840

we have visual four profitable

46

00:01:55,109 --> 00:01:52,880

unidentified drones

47

00:01:57,350 --> 00:01:55,119

so the snoopy team leader is filming

48

00:01:58,870 --> 00:01:57,360

these four lights and describing them as

49

00:02:00,469 --> 00:01:58,880

drones

50

00:02:03,429 --> 00:02:00,479

the account given to the congressional

51
00:02:05,270 --> 00:02:03,439
committee also said they were drones

52
00:02:08,389 --> 00:02:05,280
but you might recognize by now what they

53
00:02:10,309 --> 00:02:08,399
are is the same four stars seen in the

54
00:02:11,589 --> 00:02:10,319
bottom right at the end of the longer

55
00:02:14,470 --> 00:02:11,599
video

56
00:02:16,949 --> 00:02:14,480
he's focusing on altair but we clearly

57
00:02:18,949 --> 00:02:16,959
see terazed above it then faintly

58
00:02:21,350 --> 00:02:18,959
there's al shayne below and gamma

59
00:02:24,869 --> 00:02:21,360
sagittae briefly comes into view

60
00:02:27,510 --> 00:02:24,879
the angles and magnitudes all match

61
00:02:31,750 --> 00:02:27,520
these four lights are not triangles not

62
00:02:35,990 --> 00:02:33,990
so what is going on here

63
00:02:38,150 --> 00:02:36,000

did the navy really spend years

64

00:02:40,390 --> 00:02:38,160

investigating these stars thinking they

65

00:02:42,869 --> 00:02:40,400

were ufos before declaring them to be

66

00:02:44,869 --> 00:02:42,879

drones

67

00:02:50,070 --> 00:02:44,879

clearly the snoopy team leader thinks

68

00:02:54,869 --> 00:02:51,830

bray seems to tell congress they are

69

00:02:57,589 --> 00:02:54,879

drones some type of uh of drone uh some

70

00:02:59,670 --> 00:02:57,599

type of unmanned aerial system but they
