

HUNTER'S  
UFO

SPIIDER'S  
WEB

1  
00:00:05,030 --> 00:00:02,389  
this video looks almost too good to be

2  
00:00:07,190 --> 00:00:05,040  
true it's a hovering Flying Saucer with

3  
00:00:09,169 --> 00:00:07,200  
no visible means of propulsion invisible

4  
00:00:11,089 --> 00:00:09,179  
to the naked eye and with weird moving

5  
00:00:13,910 --> 00:00:11,099  
bands of light

6  
00:00:16,010 --> 00:00:13,920  
the video was taken by Igor the

7  
00:00:18,230 --> 00:00:16,020  
Slovenian Hunter through an infrared

8  
00:00:20,570 --> 00:00:18,240  
night vision scope I was sent the

9  
00:00:23,269 --> 00:00:20,580  
original video file and this quickly led

10  
00:00:26,210 --> 00:00:23,279  
me to a likely candidate

11  
00:00:28,550 --> 00:00:26,220  
99 of UFO research is just recognizing

12  
00:00:30,589 --> 00:00:28,560  
things that you've seen before and this

13  
00:00:32,870 --> 00:00:30,599

one immediately reminded me of a curious

14

00:00:34,310 --> 00:00:32,880

artifact I captured when investigating a

15

00:00:36,830 --> 00:00:34,320

different case

16

00:00:38,750 --> 00:00:36,840

spider silk often has highlights on it

17

00:00:40,310 --> 00:00:38,760

when the sun reflects or refracts at

18

00:00:42,229 --> 00:00:40,320

just the right angle

19

00:00:44,209 --> 00:00:42,239

normally these highlights are in the

20

00:00:46,250 --> 00:00:44,219

same direction as the silk

21

00:00:48,290 --> 00:00:46,260

but if the camera position and focus are

22

00:00:50,569 --> 00:00:48,300

just right they turn into these odd

23

00:00:54,350 --> 00:00:50,579

looking short rod-like shapes that are

24

00:00:59,750 --> 00:00:56,990

we see a lot of similarities here

25

00:01:02,209 --> 00:00:59,760

there's a slight curve of the shape a

26

00:01:04,910 --> 00:01:02,219

similar aspect ratio the moving

27

00:01:06,590 --> 00:01:04,920

horizontal lines and this smearing of

28

00:01:08,570 --> 00:01:06,600

the light in the other direction along

29

00:01:10,490 --> 00:01:08,580

the silk

30

00:01:12,530 --> 00:01:10,500

so I think it's pretty likely that this

31

00:01:15,230 --> 00:01:12,540

was just a bit of spider silk not too

32

00:01:17,390 --> 00:01:15,240

far away illuminated by the IR light on
