

**CLYDE LEWIS**

**TIMOTHY GREEN BECKLEY**

1  
00:00:45,630 --> 00:00:37,750  
hello

2  
00:00:48,950 --> 00:00:45,640  
United States

3  
00:00:55,630 --> 00:00:52,369  
this is behind you it this is not

4  
00:00:59,330 --> 00:00:55,640  
present line how did you get through

5  
00:01:04,390 --> 00:00:59,340  
everywhere all the time receiving every

6  
00:01:09,599 --> 00:01:04,400  
day behind you there is nothing behind

7  
00:01:19,749 --> 00:01:16,120  
does it matter that my face please you

8  
00:01:31,220 --> 00:01:19,759  
must look behind you you later there are

9  
00:01:39,160 --> 00:01:32,870  
allow speakers

10  
00:01:39,170 --> 00:02:17,670  
right way

11  
00:02:17,680 --> 00:02:25,120  
i'm craig Lewis and this is ground zero

12  
00:02:32,540 --> 00:02:27,480  
numbers to call and I triple eight 673

13  
00:02:34,490 --> 00:02:32,550

3700 that's dribble 867 three 3700

14

00:02:37,190 --> 00:02:34,500

he ever wondered of all the plans in the

15

00:02:39,110 --> 00:02:37,200

world were like a week late for all of

16

00:02:40,640 --> 00:02:39,120

those who said that the 23rd was going

17

00:02:45,200 --> 00:02:40,650

to be the day for reckoning and

18

00:02:47,060 --> 00:02:45,210

craziness they moved in 28 here we are

19

00:02:50,090 --> 00:02:47,070

the 30th we're already going into serio

20

00:02:51,770 --> 00:02:50,100

actually Russia's going to Syria I made

21

00:02:53,780 --> 00:02:51,780

the announcement about possible life on

22

00:02:56,540 --> 00:02:53,790

Mars the Pope came the New World Order

23

00:02:58,820 --> 00:02:56,550

is on the is right there on the counter

24

00:03:01,670 --> 00:02:58,830

ready to reach for every damn country

25

00:03:03,910 --> 00:03:01,680

must be part of this world love party

26  
00:03:06,170 --> 00:03:03,920  
that they want to I don't know what yeah

27  
00:03:07,760 --> 00:03:06,180  
see you know that doesn't think the

28  
00:03:09,770 --> 00:03:07,770  
recent announcements from NASA and other

29  
00:03:11,300 --> 00:03:09,780  
scientific publications are pushing the

30  
00:03:14,630 --> 00:03:11,310  
limits of our understanding of the solar

31  
00:03:17,360 --> 00:03:14,640  
system and our universe and these events

32  
00:03:20,810 --> 00:03:17,370  
are unfolding as if well they're on cue

33  
00:03:23,870 --> 00:03:20,820  
a little late but still on cue because

34  
00:03:25,610 --> 00:03:23,880  
these events are called Black Swan

35  
00:03:27,200 --> 00:03:25,620  
events they're here changing our minds

36  
00:03:28,850 --> 00:03:27,210  
about how we see things they change the

37  
00:03:32,420 --> 00:03:28,860  
way we view ourselves and the condition

38  
00:03:34,750 --> 00:03:32,430

for our well-being nearly 10 months into

39

00:03:39,080 --> 00:03:34,760

the new year we see that the fall and

40

00:03:42,020 --> 00:03:39,090

even as we go into winter our minds will

41

00:03:43,940 --> 00:03:42,030

be focused on the frontier provided by

42

00:03:46,370 --> 00:03:43,950

space and the overall discord we're

43

00:03:50,270 --> 00:03:46,380

seeing play out here in places like

44

00:03:52,850 --> 00:03:50,280

Syria and Europe and even though that

45

00:03:54,830 --> 00:03:52,860

many times this year we have come to the

46

00:03:56,960 --> 00:03:54,840

precipice of war it becomes apparent

47

00:03:58,670 --> 00:03:56,970

that an announcement of life on Mars and

48

00:04:02,900 --> 00:03:58,680

elsewhere will have to be the very thing

49

00:04:04,729 --> 00:04:02,910

that unites us as planned our

50

00:04:06,110 --> 00:04:04,739

differences worldwide would vanish if we

51  
00:04:10,310 --> 00:04:06,120  
were facing an alien threat from outside

52  
00:04:12,080 --> 00:04:10,320  
this world Ronald Reagan UN if

53  
00:04:14,060 --> 00:04:12,090  
experiments of the Large Hadron Collider

54  
00:04:15,560 --> 00:04:14,070  
at CERN are successful we may also be

55  
00:04:17,150 --> 00:04:15,570  
able to open a wormhole that would be

56  
00:04:19,340 --> 00:04:17,160  
convenient to facilitate a straight

57  
00:04:22,790 --> 00:04:19,350  
conduit to planets like Jupiter Saturn

58  
00:04:24,650 --> 00:04:22,800  
and Mars that me one way to beat the

59  
00:04:26,210 --> 00:04:24,660  
space travel problem is to be able to

60  
00:04:28,400 --> 00:04:26,220  
have a conduit or some sort of a

61  
00:04:30,770 --> 00:04:28,410  
wormhole constructed so that we can go

62  
00:04:32,600 --> 00:04:30,780  
into it and come out on Mars or come out

63  
00:04:34,970 --> 00:04:32,610

to Jupiter Saturn or wherever we want to

64

00:04:36,350 --> 00:04:34,980

explore see if there is life on any of

65

00:04:38,510 --> 00:04:36,360

the moons of Saturn in the moons of

66

00:04:40,100 --> 00:04:38,520

Jupiter but also find out there's life

67

00:04:41,930 --> 00:04:40,110

on Mars which we now say is a high

68

00:04:44,070 --> 00:04:41,940

probability and it appears that some

69

00:04:46,350 --> 00:04:44,080

areas of science already knew

70

00:04:48,420 --> 00:04:46,360

the announcement about probable life

71

00:04:50,670 --> 00:04:48,430

would have to be made and that the study

72

00:04:52,950 --> 00:04:50,680

of the first moments the first second

73

00:04:55,260 --> 00:04:52,960

that our universe was born was crucial

74

00:04:57,719 --> 00:04:55,270

to understanding how life evolved and

75

00:04:59,279 --> 00:04:57,729

not only is on its way or that not only

76

00:05:01,230 --> 00:04:59,289

it's on this planet bits on several

77

00:05:05,249 --> 00:05:01,240

planets all over the galaxy science

78

00:05:06,990 --> 00:05:05,259

tells us that we have now peered into

79

00:05:09,240 --> 00:05:07,000

the birth of creation and depending on

80

00:05:12,209 --> 00:05:09,250

who you listen to you will also hear the

81

00:05:14,159 --> 00:05:12,219

universe is teeming with life I had a

82

00:05:16,320 --> 00:05:14,169

friend of mine who was an astronomer in

83

00:05:17,640 --> 00:05:16,330

Utah he used to always tell me you know

84

00:05:19,050 --> 00:05:17,650

you're on your show talking about life

85

00:05:21,270 --> 00:05:19,060

out in space and people think you're

86

00:05:24,089 --> 00:05:21,280

crazy but the universe is teeming with

87

00:05:27,029 --> 00:05:24,099

eNOS a teeming with life and that's and

88

00:05:29,490 --> 00:05:27,039

then Evans the universe is teeming with

89

00:05:31,740 --> 00:05:29,500

life and I'm like thinking yeah okay

90

00:05:33,740 --> 00:05:31,750

great I missed that I wish you can say

91

00:05:37,050 --> 00:05:33,750

the universe is teeming with life

92

00:05:38,760 --> 00:05:37,060

because it is now we at least we we

93

00:05:40,290 --> 00:05:38,770

speculated it's teeming with life it's

94

00:05:42,179 --> 00:05:40,300

also interesting to note that as crazy

95

00:05:47,010 --> 00:05:42,189

as it may sound something as simple as

96

00:05:49,260 --> 00:05:47,020

TV static or the snow effect on analog

97

00:05:50,820 --> 00:05:49,270

TV signals provide the sound and one

98

00:05:53,580 --> 00:05:50,830

percent of the light that existed during

99

00:05:55,200 --> 00:05:53,590

the Big Bang you learn something new

100

00:05:56,850 --> 00:05:55,210

every day I read about that today and it

101  
00:06:00,480 --> 00:05:56,860  
fascinated because I really didn't know

102  
00:06:02,100 --> 00:06:00,490  
that when you back in the day we had

103  
00:06:06,869 --> 00:06:02,110  
analog signals on television you see

104  
00:06:09,329 --> 00:06:06,879  
that hear the static and you see the the

105  
00:06:10,890 --> 00:06:09,339  
snow what that is is giving off one

106  
00:06:12,719 --> 00:06:10,900  
percent of the light of the Big Bang and

107  
00:06:17,550 --> 00:06:12,729  
you hear that that white noise and

108  
00:06:19,529 --> 00:06:17,560  
that's part of it as well go figure it

109  
00:06:22,079 --> 00:06:19,539  
was an open channel it really what it

110  
00:06:24,959 --> 00:06:22,089  
was an open channel literally to the

111  
00:06:25,740 --> 00:06:24,969  
universe that's what you were hearing

112  
00:06:27,180 --> 00:06:25,750  
that's what you're seeing with that

113  
00:06:30,390 --> 00:06:27,190

light when you're watching snow you're

114

00:06:32,339 --> 00:06:30,400

watching the remnants 1% just one that's

115

00:06:35,850 --> 00:06:32,349

really tiny isn't it I'd say it's that

116

00:06:38,700 --> 00:06:35,860

one percent of the Big Bang was seen on

117

00:06:40,680 --> 00:06:38,710

the analog team we don't see that

118

00:06:42,749 --> 00:06:40,690

anymore we don't see the static anymore

119

00:06:45,240 --> 00:06:42,759

on televisions don't you have an old TV

120

00:06:47,010 --> 00:06:45,250

and you're still you know you don't have

121

00:06:48,659 --> 00:06:47,020

a flat screen or you don't have HD or

122

00:06:51,209 --> 00:06:48,669

you don't have analog and you don't have

123

00:06:52,439 --> 00:06:51,219

them sorry digital then you know but if

124

00:06:53,550 --> 00:06:52,449

you have analog still um analog

125

00:06:55,350 --> 00:06:53,560

television you turn on see the white

126  
00:06:55,710 --> 00:06:55,360  
noise and that is one percent of the Big

127  
00:06:57,210 --> 00:06:55,720  
Bang

128  
00:07:00,690 --> 00:06:57,220  
with the hum and everything else with it

129  
00:07:02,130 --> 00:07:00,700  
and this may explain also why analog

130  
00:07:05,250 --> 00:07:02,140  
signals were replaced with digital

131  
00:07:08,190 --> 00:07:05,260  
signals I mean think about we discussed

132  
00:07:11,160 --> 00:07:08,200  
that buried is electromagnetic noise may

133  
00:07:12,570 --> 00:07:11,170  
be the key to encrypted messages that

134  
00:07:16,170 --> 00:07:12,580  
have been broadcast by alien

135  
00:07:18,510 --> 00:07:16,180  
intelligences for a long time then on

136  
00:07:20,820 --> 00:07:18,520  
jun 12 2009 the Federal Communications

137  
00:07:22,920 --> 00:07:20,830  
Commission mandated that all us-based

138  
00:07:26,490 --> 00:07:22,930

television signals must be transmitted

139

00:07:28,380 --> 00:07:26,500

digitally that would have thought but

140

00:07:30,810 --> 00:07:28,390

the random pattern superimposed on the

141

00:07:33,750 --> 00:07:30,820

TV screen is a random flicker of dots or

142

00:07:35,910 --> 00:07:33,760

snow was the result of electronic noise

143

00:07:38,400 --> 00:07:35,920

and radiated electromagnetic noise from

144

00:07:41,010 --> 00:07:38,410

outer space echoing from the past into

145

00:07:42,450 --> 00:07:41,020

our president make sure what are you an

146

00:07:44,340 --> 00:07:42,460

analog TV just to watch this a guess

147

00:07:45,810 --> 00:07:44,350

what i'm watching I'm watching the

148

00:07:50,520 --> 00:07:45,820

beginning of the universe at least one

149

00:07:52,020 --> 00:07:50,530

percent of it it's crazy but it's true I

150

00:07:53,640 --> 00:07:52,030

mean if you think I'd like you look it

151

00:07:55,380 --> 00:07:53,650

up I was just blown away with it I was

152

00:07:56,640 --> 00:07:55,390

doing some research today so did you

153

00:08:00,840 --> 00:07:56,650

know that the static on the television

154

00:08:04,620 --> 00:08:00,850

is one percent it one percent of the Big

155

00:08:06,060 --> 00:08:04,630

Bang it's crazy but there are crazier

156

00:08:08,280 --> 00:08:06,070

things I've said but seriously look it

157

00:08:10,620 --> 00:08:08,290

up and so you know this makes me think

158

00:08:12,900 --> 00:08:10,630

it makes me wonder out loud this well

159

00:08:16,800 --> 00:08:12,910

okay so now we have digital signals on

160

00:08:19,020 --> 00:08:16,810

every television all the old TVs you

161

00:08:21,930 --> 00:08:19,030

know grandpa watches or that man I'm

162

00:08:23,310 --> 00:08:21,940

talking man I remembered analog TVs i

163

00:08:25,080 --> 00:08:23,320

guess grandpa would watch an analog TV

164

00:08:28,860 --> 00:08:25,090

if I'm grandpa I'm not a grandpa yet

165

00:08:31,650 --> 00:08:28,870

still watching the old analog yeah we

166

00:08:34,860 --> 00:08:31,660

got the older wet analog in the hey old

167

00:08:36,810 --> 00:08:34,870

crystal listen on the crystal the

168

00:08:37,829 --> 00:08:36,820

crystal set radio set for those of you

169

00:08:39,750 --> 00:08:37,839

that are too young to know what a

170

00:08:42,089 --> 00:08:39,760

crystal said it they'll is it on the

171

00:08:43,850 --> 00:08:42,099

crystal and watch the old analog and we

172

00:08:47,490 --> 00:08:43,860

get to watch one percent of the Big Bang

173

00:08:52,130 --> 00:08:47,500

boom and Static dude I'm thinking was

174

00:08:54,540 --> 00:08:52,140

the idea of removing the analog signal

175

00:08:57,210 --> 00:08:54,550

having all broadcast being digital and

176

00:08:59,250 --> 00:08:57,220

was that a clandestine way of blocking

177

00:09:03,090 --> 00:08:59,260

any signal that may have slipped through

178

00:09:04,650 --> 00:09:03,100

the static from aliens think about they

179

00:09:07,590 --> 00:09:04,660

changed it and now with all this

180

00:09:09,540 --> 00:09:07,600

activity and everybody having all these

181

00:09:11,550 --> 00:09:09,550

wild claims of a alien transmission

182

00:09:14,250 --> 00:09:11,560

from balloons some 22 miles in the sky

183

00:09:16,320 --> 00:09:14,260

and you know and City going all we need

184

00:09:19,230 --> 00:09:16,330

more money for alien contact in la la la

185

00:09:20,759 --> 00:09:19,240

la la do you think it's kind of you know

186

00:09:22,860 --> 00:09:20,769

advantageous for them to get rid of the

187

00:09:24,810 --> 00:09:22,870

analog signal if that analog signal

188

00:09:29,100 --> 00:09:24,820

could somewhat I mean no one's gonna sit

189

00:09:31,199 --> 00:09:29,110

down and watch hours and hours of snow

190

00:09:33,900 --> 00:09:31,209

on their screen hoping some alien will

191

00:09:35,490 --> 00:09:33,910

knock on the glass and say hello I mean

192

00:09:37,800 --> 00:09:35,500

this explains why little Caroline was

193

00:09:40,710 --> 00:09:37,810

going here here when she was up next to

194

00:09:43,560 --> 00:09:40,720

the television the white noise send

195

00:09:45,810 --> 00:09:43,570

signals that the whole that's and that

196

00:09:47,100 --> 00:09:45,820

makes me now I think these things I

197

00:09:51,780 --> 00:09:47,110

don't have to be stoned to think these

198

00:09:53,519 --> 00:09:51,790

things I wonder about the snow on your

199

00:09:55,079 --> 00:09:53,529

screen that was on analog screens and

200

00:09:56,610 --> 00:09:55,089

whether or not if you watched it long

201  
00:09:59,790 --> 00:09:56,620  
enough maybe it's the aliens coming out

202  
00:10:01,889 --> 00:09:59,800  
of the screen edge no science I could

203  
00:10:03,300 --> 00:10:01,899  
have very well been aware of the

204  
00:10:05,810 --> 00:10:03,310  
transmissions that could slip through

205  
00:10:08,100 --> 00:10:05,820  
the cracks after all for some years

206  
00:10:09,840 --> 00:10:08,110  
places like said 'i have been using

207  
00:10:12,030 --> 00:10:09,850  
their radio telescopes for years just

208  
00:10:13,769 --> 00:10:12,040  
bagging that we get a message just like

209  
00:10:16,769 --> 00:10:13,779  
the elephant Horton and dr. Seuss's but

210  
00:10:20,430 --> 00:10:16,779  
court hears a who you know a little uh

211  
00:10:21,810 --> 00:10:20,440  
what is it that little dust speck they

212  
00:10:23,010 --> 00:10:21,820  
said well we won't destroy this world if

213  
00:10:28,740 --> 00:10:23,020

it gives us a signal that it's there

214

00:10:30,510 --> 00:10:28,750

yeah yeah yeah so yeah Horton years ago

215

00:10:34,380 --> 00:10:30,520

as I always saw that Horton years of you

216

00:10:35,340 --> 00:10:34,390

who was a metaphor for alien contact so

217

00:10:36,449 --> 00:10:35,350

important is running around with this

218

00:10:37,800 --> 00:10:36,459

little dust bag saying hey there's a

219

00:10:40,350 --> 00:10:37,810

world of the suspect they want to talk

220

00:10:42,150 --> 00:10:40,360

to us and sure we're gonna boil it bezel

221

00:10:44,340 --> 00:10:42,160

nut oil and we're gonna take heart and

222

00:10:48,630 --> 00:10:44,350

we're gonna turn him into glue or an

223

00:10:51,660 --> 00:10:48,640

ivory something ivory I don't know but

224

00:10:53,610 --> 00:10:51,670

see that's the thing is that it is a

225

00:10:55,680 --> 00:10:53,620

metaphor for life i believe on other

226

00:10:57,930 --> 00:10:55,690

planets or on some of the world that we

227

00:11:00,840 --> 00:10:57,940

are on a small world a small tiny world

228

00:11:04,410 --> 00:11:00,850

and other worlds out there we need to

229

00:11:06,269 --> 00:11:04,420

explore many many worlds out there when

230

00:11:08,160 --> 00:11:06,279

you to explore even renowned physicist

231

00:11:10,889 --> 00:11:08,170

Stephen Hawking has weighed in on the

232

00:11:13,410 --> 00:11:10,899

alien questioning he says it well he

233

00:11:15,420 --> 00:11:13,420

most definitely believes that aliens are

234

00:11:17,930 --> 00:11:15,430

out there and he has stated quote if the

235

00:11:20,579 --> 00:11:17,940

aliens visit us the outcome the outcome

236

00:11:22,319 --> 00:11:20,589

could be much like when Columbus landed

237

00:11:22,830 --> 00:11:22,329

in America which didn't turn out well

238

00:11:26,520 --> 00:11:22,840

for the

239

00:11:28,770 --> 00:11:26,530

of America such advanced aliens would

240

00:11:30,870 --> 00:11:28,780

perhaps become nomads looking to conquer

241

00:11:35,730 --> 00:11:30,880

and colonize whatever planets they can

242

00:11:38,040 --> 00:11:35,740

reach while Hawking is giving us

243

00:11:40,050 --> 00:11:38,050

worrying about first contact he also has

244

00:11:42,660 --> 00:11:40,060

engaged in a bit of doublethink i'ma

245

00:11:46,260 --> 00:11:42,670

tell you about that coming up double

246

00:11:47,940 --> 00:11:46,270

think it's just and once again he said

247

00:11:50,130 --> 00:11:47,950

and people said well he said this once

248

00:11:53,670 --> 00:11:50,140

before he did he came back and said once

249

00:11:55,800 --> 00:11:53,680

again but be aware of the Martian

250

00:11:57,410 --> 00:11:55,810

announcement because aliens could crush

251

00:12:05,020 --> 00:11:57,420

us

252

00:12:08,960 --> 00:12:05,030

take that say it's with more force

253

00:12:15,900 --> 00:12:08,970

crushes treble eight 673 3700 Chevrolet

254

00:12:20,280 --> 00:12:18,060

let's get back to Stephen Hawking yet

255

00:12:22,260 --> 00:12:20,290

Stephen Hawking has said that he's

256

00:12:24,630 --> 00:12:22,270

worried that the aliens will crush us if

257

00:12:26,430 --> 00:12:24,640

we keep you know picking at this and

258

00:12:30,690 --> 00:12:26,440

wanting to come he said that it's gonna

259

00:12:32,190 --> 00:12:30,700

be probably like when Columbus found the

260

00:12:33,810 --> 00:12:32,200

Native Americans they did do 20 for the

261

00:12:35,820 --> 00:12:33,820

Native Americans that a lot of people

262

00:12:38,160 --> 00:12:35,830

have been expressing their anger over

263

00:12:39,690 --> 00:12:38,170

the statement because they're saying

264

00:12:41,010 --> 00:12:39,700

things like well it's totally arrogant

265

00:12:43,740 --> 00:12:41,020

to think the aliens are gonna come here

266

00:12:45,060 --> 00:12:43,750

and and actually you know chula treat a

267

00:12:47,040 --> 00:12:45,070

lot of bubblegum and kick ass they're

268

00:12:49,260 --> 00:12:47,050

all out of bubblegum type scenario but

269

00:12:54,020 --> 00:12:49,270

no that's not that's not the point the

270

00:12:56,610 --> 00:12:54,030

point is is when when Columbus came here

271

00:12:58,560 --> 00:12:56,620

he brought with him all the diseases

272

00:13:02,100 --> 00:12:58,570

that the Native Americans did not have

273

00:13:04,050 --> 00:13:02,110

you see you see we think that well they

274

00:13:05,790 --> 00:13:04,060

came here and basically you know they

275

00:13:07,680 --> 00:13:05,800

they took out their swords and started

276

00:13:10,620 --> 00:13:07,690

stabbing them cutting off their heads

277

00:13:12,000 --> 00:13:10,630

and stuff yeah maybe they did that you

278

00:13:13,500 --> 00:13:12,010

know all the other guys that pretended

279

00:13:15,510 --> 00:13:13,510

to be the white guy with a beard to like

280

00:13:17,460 --> 00:13:15,520

Cortez and cook and all these people

281

00:13:22,470 --> 00:13:17,470

yeah they came in and they made their

282

00:13:24,900 --> 00:13:22,480

conquests but the truth is it wasn't for

283

00:13:27,210 --> 00:13:24,910

those that weren't killed or shot at or

284

00:13:31,710 --> 00:13:27,220

whatever they were contracting diseases

285

00:13:33,210 --> 00:13:31,720

or being brought over from Europe and so

286

00:13:36,630 --> 00:13:33,220

what Stephen Hawking talks about that I

287

00:13:38,340 --> 00:13:36,640

think he's also referring to that I mean

288

00:13:40,680 --> 00:13:38,350

he's giving he has been giving us

289

00:13:42,810 --> 00:13:40,690

warnings about first contact but he also

290

00:13:44,820 --> 00:13:42,820

has engaged in a bit of doublethink by

291

00:13:46,770 --> 00:13:44,830

putting up the money necessary to

292

00:13:48,720 --> 00:13:46,780

finance the ongoing quest to communicate

293

00:13:51,030 --> 00:13:48,730

or otherwise intercept messages from

294

00:13:54,030 --> 00:13:51,040

extraterrestrials now if you remember

295

00:13:56,520 --> 00:13:54,040

last July we talked about Hawking and

296

00:13:58,110 --> 00:13:56,530

Russian tycoon Yuri Milner they held a

297

00:13:59,870 --> 00:13:58,120

news conference in London to announce

298

00:14:02,430 --> 00:13:59,880

their new project which would include

299

00:14:04,740 --> 00:14:02,440

injecting 100 million dollars and a

300

00:14:06,630 --> 00:14:04,750

whole lot of brainpower into the search

301  
00:14:11,670 --> 00:14:06,640  
for intelligent extraterrestrial life it

302  
00:14:14,190 --> 00:14:11,680  
was called breakthrough listen and what

303  
00:14:15,900 --> 00:14:14,200  
I see here is a dubious paradox or a

304  
00:14:18,180 --> 00:14:15,910  
contradictory stance doublethink on

305  
00:14:20,730 --> 00:14:18,190  
whether we should or should not bait the

306  
00:14:23,670 --> 00:14:20,740  
aliens into coming into our contemporary

307  
00:14:25,980 --> 00:14:23,680  
world with that NASA announcement about

308  
00:14:28,230 --> 00:14:25,990  
Mars we may find that alien life can be

309  
00:14:29,759 --> 00:14:28,240  
found in our solar neighborhood and for

310  
00:14:31,169 --> 00:14:29,769  
the majority of sci

311  
00:14:32,999 --> 00:14:31,179  
test the theory of intelligent life

312  
00:14:35,639 --> 00:14:33,009  
existing attic space has been called a

313  
00:14:36,989 --> 00:14:35,649

pipe dream for so long I don't think

314

00:14:40,650 --> 00:14:36,999

people really have had it set in on them

315

00:14:44,069 --> 00:14:40,660

but yes the probability of life is way

316

00:14:45,600 --> 00:14:44,079

high now it's like saying life is on

317

00:14:50,669 --> 00:14:45,610

Mars but they didn't really say it is it

318

00:14:52,739 --> 00:14:50,679

water on Mars salty water on Mars and so

319

00:14:54,509 --> 00:14:52,749

it's high probability time it's not

320

00:14:56,549 --> 00:14:54,519

really necessarily proof but it's high

321

00:14:58,319 --> 00:14:56,559

probability x so much but see here's the

322

00:14:59,699 --> 00:14:58,329

deal when Hawking said what he said

323

00:15:02,850 --> 00:14:59,709

about Columbus he was talking about

324

00:15:05,910 --> 00:15:02,860

diseases right let's take let's take a

325

00:15:08,639 --> 00:15:05,920

little bit of let's see some logic here

326

00:15:10,139 --> 00:15:08,649

are some reverse logic here while a

327

00:15:12,210 --> 00:15:10,149

majority decided to say finding

328

00:15:16,259 --> 00:15:12,220

intelligent life on Mars would be you

329

00:15:17,549 --> 00:15:16,269

know slim okay I'm just kidding I'm just

330

00:15:19,319 --> 00:15:17,559

gonna play devil's advocate here with

331

00:15:20,939 --> 00:15:19,329

the alien thing so they're saying that

332

00:15:24,769 --> 00:15:20,949

hey you know finding intelligent life on

333

00:15:28,379 --> 00:15:24,779

Mars would be slim but but but but

334

00:15:30,809 --> 00:15:28,389

microbial life and space bacteria have

335

00:15:34,109 --> 00:15:30,819

always been something that science has

336

00:15:37,559 --> 00:15:34,119

said will be the first discovery on any

337

00:15:41,579 --> 00:15:37,569

planet or any moon that they discover or

338

00:15:43,889 --> 00:15:41,589

that they attempt to discover believe it

339

00:15:45,389 --> 00:15:43,899

or not and you can look this up to this

340

00:15:47,879 --> 00:15:45,399

is up there with the television screens

341

00:15:51,389 --> 00:15:47,889

and and and the in the Big Bang believe

342

00:15:54,119 --> 00:15:51,399

it or not nASA has always kept in its

343

00:16:01,410 --> 00:15:54,129

files something called the NASA policy

344

00:16:07,829 --> 00:16:01,420

directive 80 20 7 g dot look it up it's

345

00:16:10,889 --> 00:16:07,839

the NASA policy directive 8020 dot 7 g

346

00:16:13,470 --> 00:16:10,899

dot the office of NASA's science Mission

347

00:16:15,629 --> 00:16:13,480

Directorate has issued a policy on

348

00:16:18,769 --> 00:16:15,639

planetary protection requirements for

349

00:16:22,019 --> 00:16:18,779

human extra-terrestrial missions and

350

00:16:25,220 --> 00:16:22,029

that is how they worded it is planetary

351

00:16:27,960 --> 00:16:25,230

protection requirements for human

352

00:16:30,509 --> 00:16:27,970

extra-terrestrial missions the policy

353

00:16:31,799 --> 00:16:30,519

states quote the conduct of scientific

354

00:16:33,569 --> 00:16:31,809

investigations of possible

355

00:16:36,389 --> 00:16:33,579

extraterrestrial life-forms precursors

356

00:16:37,799 --> 00:16:36,399

and remnants must not be jeopardized in

357

00:16:39,419 --> 00:16:37,809

addition the earth must be protected

358

00:16:41,189 --> 00:16:39,429

from the potential hazard posed by

359

00:16:43,049 --> 00:16:41,199

extraterrestrial matter carried by a

360

00:16:45,089 --> 00:16:43,059

spacecraft returning from another planet

361

00:16:47,339 --> 00:16:45,099

or other extraterrestrial sources

362

00:16:49,409 --> 00:16:47,349

therefore for certain space missions

363

00:16:51,419 --> 00:16:49,419

target planet combinations controls on

364

00:16:54,089 --> 00:16:51,429

organic and biological contamination

365

00:16:55,939 --> 00:16:54,099

carried by spacecraft shall be imposed

366

00:16:59,939 --> 00:16:55,949

in accordance with directives

367

00:17:01,799 --> 00:16:59,949

implementing this policy the provisions

368

00:17:04,049 --> 00:17:01,809

of this directive cover all spaceflight

369

00:17:06,210 --> 00:17:04,059

missions robotic and human which may

370

00:17:08,159 --> 00:17:06,220

intentionally or unintentionally carry

371

00:17:10,470 --> 00:17:08,169

earth organisms and organic constituents

372

00:17:12,720 --> 00:17:10,480

to the planets or other solar system

373

00:17:14,879 --> 00:17:12,730

bodies and any mission employing

374

00:17:17,189 --> 00:17:14,889

spacecraft which are intended to return

375

00:17:19,669 --> 00:17:17,199

to Earth and or its biosphere from

376

00:17:23,970 --> 00:17:19,679

extraterrestrial targets of exploration

377

00:17:26,249 --> 00:17:23,980

this is an actual document a document

378

00:17:29,909 --> 00:17:26,259

was prepared long before we found out

379

00:17:32,369 --> 00:17:29,919

the probability of life on Mars and this

380

00:17:35,460 --> 00:17:32,379

policy functions is a clear indication

381

00:17:36,899 --> 00:17:35,470

that NASA is already aware of biological

382

00:17:38,820 --> 00:17:36,909

contaminants leaving Earth and

383

00:17:41,159 --> 00:17:38,830

contaminating other planets and the

384

00:17:42,539 --> 00:17:41,169

reverse where XO biological life could

385

00:17:45,119 --> 00:17:42,549

be brought back and destroy the

386

00:17:47,430 --> 00:17:45,129

biosphere so as Stephen Hawking says hey

387

00:17:49,980 --> 00:17:47,440

this is going to be like Christopher

388

00:17:52,379 --> 00:17:49,990

Columbus invading our area or maybe

389

00:17:54,899 --> 00:17:52,389

killing the Native Americans it doesn't

390

00:17:56,759 --> 00:17:54,909

mean that Columbus and aliens are going

391

00:17:59,279 --> 00:17:56,769

to kill us it means that they bring

392

00:18:01,350 --> 00:17:59,289

diseases with them that most certainly

393

00:18:04,259 --> 00:18:01,360

could wipe us out and create an

394

00:18:07,259 --> 00:18:04,269

extinction-level of it triple 8 673

395

00:18:10,720 --> 00:18:07,269

3,700 that's triple 8 673 3,700 we'll be

396

00:18:14,750 --> 00:18:13,430

Tim beckley mr. UFO you're on ground

397

00:18:17,210 --> 00:18:14,760

zero thank you for being here tonight

398

00:18:20,030 --> 00:18:17,220

well welcome i'm happy to be on the

399

00:18:23,030 --> 00:18:20,040

clyde how you doing i'm doing okay so

400

00:18:24,320 --> 00:18:23,040

the announcement about Mars what was

401

00:18:26,510 --> 00:18:24,330

your first reaction when you heard it

402

00:18:30,320 --> 00:18:26,520

well you know I've been thinking about

403

00:18:34,490 --> 00:18:30,330

life on Mars since I was a kid you know

404

00:18:37,010 --> 00:18:34,500

I was born in the late 1940s and Along

405

00:18:40,700 --> 00:18:37,020

Came all these science fiction movies

406

00:18:43,490 --> 00:18:40,710

and of course they're the the life forms

407

00:18:48,100 --> 00:18:43,500

outside of maybe The Day the Earth Stood

408

00:18:52,970 --> 00:18:48,110

Still they were often very scary very

409

00:18:54,770 --> 00:18:52,980

monstrous in a lot of cases but I don't

410

00:18:56,540 --> 00:18:54,780

think we were so well I think it was one

411

00:18:59,510 --> 00:18:56,550

or two movies that talked about you know

412

00:19:02,540 --> 00:18:59,520

a contamination and and bringing

413

00:19:06,320 --> 00:19:02,550

bringing possible germs with them

414

00:19:07,910 --> 00:19:06,330

because even then the scientists who met

415

00:19:12,170 --> 00:19:07,920

up with the aliens always see that has

416

00:19:15,050 --> 00:19:12,180

some sort of protection suit on so i

417

00:19:17,480 --> 00:19:15,060

guess it was it was more probably in the

418

00:19:20,510 --> 00:19:17,490

back of our mind in those days where it

419

00:19:22,580 --> 00:19:20,520

is you know right out in in front but

420

00:19:25,100 --> 00:19:22,590

you know it's interesting that here on

421

00:19:27,730 --> 00:19:25,110

one hand nasa and the government says oh

422

00:19:29,990 --> 00:19:27,740

no there are no aliens there are no

423

00:19:33,640 --> 00:19:30,000

extraterrestrials here on earth and yet

424

00:19:36,950 --> 00:19:33,650

on the other hand they have a law that

425

00:19:39,650 --> 00:19:36,960

the extra-terrestrial exposure law which

426

00:19:42,920 --> 00:19:39,660

prevents anyone from actually coming in

427

00:19:45,050 --> 00:19:42,930

contact with either a ship or a being so

428

00:19:49,720 --> 00:19:45,060

i guess if you see something the land

429

00:19:52,280 --> 00:19:49,730

you got to keep your your distance and

430

00:19:54,620 --> 00:19:52,290

and and you know i don't know you know I

431

00:19:56,330 --> 00:19:54,630

just think again it's kind of a double

432

00:19:58,400 --> 00:19:56,340

less standard you know we're told one

433

00:20:00,380 --> 00:19:58,410

thing on one hand but yet everybody

434

00:20:02,120 --> 00:20:00,390

wants to meet or at least a lot of

435

00:20:03,890 --> 00:20:02,130

people do want to meet extraterrestrial

436

00:20:07,010 --> 00:20:03,900

life we're hoping that they're not all

437

00:20:08,360 --> 00:20:07,020

you know the size of me but or something

438

00:20:10,760 --> 00:20:08,370

but I guess you've got to start

439

00:20:12,830 --> 00:20:10,770

somewhere well and NASA seems you know

440

00:20:14,630 --> 00:20:12,840

in ever since but I pointed this out

441

00:20:16,760 --> 00:20:14,640

many times ever since we've gotten even

442

00:20:19,100 --> 00:20:16,770

closer to disclosure what feels like

443

00:20:21,140 --> 00:20:19,110

disclosure nASA has always done double

444

00:20:22,490 --> 00:20:21,150

think on us saying yeah it looks like

445

00:20:23,450 --> 00:20:22,500

live oh it's not like don't get your

446

00:20:25,130 --> 00:20:23,460

hopes up all

447

00:20:26,810 --> 00:20:25,140

it looks like this all but isn't it and

448

00:20:28,940 --> 00:20:26,820

they do this double standard this double

449

00:20:30,500 --> 00:20:28,950

think thing and of course down Stephen

450

00:20:32,360 --> 00:20:30,510

Hawking is doing the double thing thing

451  
00:20:34,130 --> 00:20:32,370  
by saying well aliens are going to crush

452  
00:20:35,510 --> 00:20:34,140  
shows they they they they probably going

453  
00:20:37,460 --> 00:20:35,520  
to come down here and they're going to

454  
00:20:40,010 --> 00:20:37,470  
value was like we value bacteria and

455  
00:20:41,269 --> 00:20:40,020  
stomp us you know into a pulp and then

456  
00:20:42,560 --> 00:20:41,279  
he turns around he spends a hundred

457  
00:20:45,889 --> 00:20:42,570  
million dollars along with another

458  
00:20:49,870 --> 00:20:45,899  
Russian guy to fund SETI so they can

459  
00:20:51,590 --> 00:20:49,880  
find extraterrestrials well you know

460  
00:20:55,700 --> 00:20:51,600  
everybody's looking for a little

461  
00:20:58,490 --> 00:20:55,710  
attention I think and NASA because of

462  
00:21:00,649 --> 00:20:58,500  
its needing you know money constantly to

463  
00:21:03,289 --> 00:21:00,659

keep the space program going is always

464

00:21:05,539 --> 00:21:03,299

kind kind of pushing you know something

465

00:21:08,360 --> 00:21:05,549

they kind of give us the teaser every

466

00:21:11,210 --> 00:21:08,370

maybe twice a year when you say I mean

467

00:21:14,000 --> 00:21:11,220

how many times if we heard that nASA has

468

00:21:16,490 --> 00:21:14,010

discovered a planet that's almost

469

00:21:19,010 --> 00:21:16,500

identical to earth it's like they re

470

00:21:21,110 --> 00:21:19,020

release the same press I would agree the

471

00:21:23,240 --> 00:21:21,120

kepler planet stories mean absolutely

472

00:21:25,279 --> 00:21:23,250

nothing to me but but now as we're

473

00:21:26,840 --> 00:21:25,289

dealing with our new ad are close

474

00:21:28,820 --> 00:21:26,850

neighbor Mars and they're telling us the

475

00:21:30,889 --> 00:21:28,830

water may be up there I'm beginning to

476

00:21:35,180 --> 00:21:30,899

wonder if all this crying wolf has made

477

00:21:37,010 --> 00:21:35,190

everybody you know less aware or even

478

00:21:40,399 --> 00:21:37,020

not caring anymore about what's up there

479

00:21:46,340 --> 00:21:40,409

triple eight 673 3710 beckley with acid

480

00:22:09,630 --> 00:21:50,940

FM news 101 k XL more with Clyde Lewis

481

00:22:11,250 --> 00:22:09,640

and ground zero on FM news 10 1 i'm

482

00:22:13,770 --> 00:22:11,260

quite lewis and this is ground zero

483

00:22:15,840 --> 00:22:13,780

typically is with us tonight mr. UFO

484

00:22:19,530 --> 00:22:15,850

survive on the program and discussing

485

00:22:21,210 --> 00:22:19,540

the recent announcements the nasa has

486

00:22:24,570 --> 00:22:21,220

given us about Mars the probability of

487

00:22:27,660 --> 00:22:24,580

life and now extraterrestrial exposure

488

00:22:30,300 --> 00:22:27,670

laws and also laws and mandates to state

489

00:22:34,550 --> 00:22:30,310

actually the directives to state that we

490

00:22:37,230 --> 00:22:34,560

have to be more careful and

491

00:22:39,330 --> 00:22:37,240

decontaminate robot spacecraft and what

492

00:22:40,680 --> 00:22:39,340

have you coming down from any

493

00:22:43,320 --> 00:22:40,690

extraterrestrial source would be the

494

00:22:45,930 --> 00:22:43,330

Moon or Mars and I was reading that

495

00:22:48,380 --> 00:22:45,940

today and I'm thinking this is amazing I

496

00:22:52,860 --> 00:22:48,390

don't think a lot of people out there

497

00:22:54,360 --> 00:22:52,870

even understand or know that nASA has

498

00:22:56,280 --> 00:22:54,370

these documents and they've been

499

00:22:57,960 --> 00:22:56,290

preparing for this all along and that if

500

00:23:00,990 --> 00:22:57,970

you read through their documents they're

501  
00:23:06,170 --> 00:23:01,000  
already acting as though that life is on

502  
00:23:08,790 --> 00:23:06,180  
Mars when you say well yes you know our

503  
00:23:11,670 --> 00:23:08,800  
fascination with Mars though I mean goes

504  
00:23:15,260 --> 00:23:11,680  
way back and talk of water and canals on

505  
00:23:18,540 --> 00:23:15,270  
Mars about a couple of hundred years old

506  
00:23:21,900 --> 00:23:18,550  
Percival Lowell right he wrote up a book

507  
00:23:24,480 --> 00:23:21,910  
as like in 1905 called Mars and the

508  
00:23:27,210 --> 00:23:24,490  
canals now he was discredited the course

509  
00:23:30,120 --> 00:23:27,220  
they said really that the canals were

510  
00:23:32,850 --> 00:23:30,130  
nothing more than obstacle optical

511  
00:23:36,240 --> 00:23:32,860  
illusions but maybe they weren't I mean

512  
00:23:38,040 --> 00:23:36,250  
it so it's always been there I was going

513  
00:23:40,860 --> 00:23:38,050

to say under the service surface but no

514

00:23:43,760 --> 00:23:40,870

pun intended it's it's always been it's

515

00:23:47,100 --> 00:23:43,770

always been in the back of our mind that

516

00:23:49,500 --> 00:23:47,110

Mars might have life on it of all the

517

00:23:52,080 --> 00:23:49,510

planets in the solar system that's

518

00:23:54,270 --> 00:23:52,090

probably at least people feel that's our

519

00:23:56,659 --> 00:23:54,280

best bet I mean even going back to the

520

00:23:59,570 --> 00:23:56,669

greek and roman

521

00:24:03,979 --> 00:23:59,580

what was it Mars was the god of war

522

00:24:06,080 --> 00:24:03,989

during the 1940s in the 1950s the

523

00:24:09,729 --> 00:24:06,090

contactees like George Adamski and

524

00:24:12,440 --> 00:24:09,739

George Van Tassel they talked of meeting

525

00:24:15,729 --> 00:24:12,450

beings from the planet Mars and going

526

00:24:18,080 --> 00:24:15,739

for rides inside of their spaceship so

527

00:24:20,060 --> 00:24:18,090

Mars has always been in our

528

00:24:22,549 --> 00:24:20,070

consciousness I remember when I first

529

00:24:25,700 --> 00:24:22,559

met David Bowie for the first time he

530

00:24:28,369 --> 00:24:25,710

was dressed like a Martian at least a

531

00:24:29,989 --> 00:24:28,379

good-looking Martian he wasn't yet a

532

00:24:32,570 --> 00:24:29,999

monstrous or anything at all that was

533

00:24:34,279 --> 00:24:32,580

Ziggy Stardust of course and a lot

534

00:24:36,379 --> 00:24:34,289

of his music a lot of music of other

535

00:24:38,210 --> 00:24:36,389

groups have centered around the idea of

536

00:24:40,999 --> 00:24:38,220

Mars or intelligent life in outer space

537

00:24:44,210 --> 00:24:41,009

so it's been a long time coming but

538

00:24:46,879 --> 00:24:44,220

eventually it's going to be here one way

539

00:24:48,529 --> 00:24:46,889

or the other hopefully it won't be back

540

00:24:51,169 --> 00:24:48,539

you know it won't be bacteria and it

541

00:24:53,359 --> 00:24:51,179

won't spread as a germ but you know we

542

00:24:55,340 --> 00:24:53,369

got I think myself we've got to take a

543

00:24:57,619 --> 00:24:55,350

chance I mean why should we take a

544

00:25:00,529 --> 00:24:57,629

backseat to just discovery because we're

545

00:25:02,779 --> 00:25:00,539

worried about something I mean they're

546

00:25:04,099 --> 00:25:02,789

worried worried about that we may have a

547

00:25:05,930 --> 00:25:04,109

hostile beings coming here from

548

00:25:07,609 --> 00:25:05,940

somewhere else but we also might have

549

00:25:10,249 --> 00:25:07,619

been official beings coming here from

550

00:25:14,570 --> 00:25:10,259

other planets are we supposed to hide

551  
00:25:16,460 --> 00:25:14,580  
under no under a rock absolutely not we

552  
00:25:17,690 --> 00:25:16,470  
can profile the aliens speaking of which

553  
00:25:19,909 --> 00:25:17,700  
I mean you mentioned David Bowie Ziggy

554  
00:25:21,409 --> 00:25:19,919  
Stardust and I've always wondered if we

555  
00:25:24,229 --> 00:25:21,419  
were gonna have full disclosure on David

556  
00:25:26,239 --> 00:25:24,239  
Bowie I would say this it's always been

557  
00:25:28,340 --> 00:25:26,249  
my fantasy they have david bowie call a

558  
00:25:29,720 --> 00:25:28,350  
news conference and all the microphones

559  
00:25:32,019 --> 00:25:29,730  
are on him and all the pictures are

560  
00:25:34,909 --> 00:25:32,029  
being sent and he's there with Iman and

561  
00:25:37,340 --> 00:25:34,919  
you know his his wife and he's standing

562  
00:25:40,159 --> 00:25:37,350  
there with her and and he says I got to

563  
00:25:42,139 --> 00:25:40,169

tell you all I brilliant alien my name

564

00:25:44,659 --> 00:25:42,149

is really Ziggy Stardust I fell to earth

565

00:25:46,609 --> 00:25:44,669

and this is my alien companion I and

566

00:25:49,940 --> 00:25:46,619

everybody would believe it I think well

567

00:25:52,249 --> 00:25:49,950

you know David was even as a teenager

568

00:25:53,690 --> 00:25:52,259

growing up I did a course of done a

569

00:25:56,570 --> 00:25:53,700

couple of books on celebrities that have

570

00:25:59,029 --> 00:25:56,580

had flying saucer experiences and he's

571

00:26:02,119 --> 00:25:59,039

been at one point he was deeply immersed

572

00:26:04,129 --> 00:26:02,129

in the occult and UFOs not necessarily

573

00:26:06,080 --> 00:26:04,139

the good aspect of it he had some hard

574

00:26:09,019 --> 00:26:06,090

times with some possession and exorcism

575

00:26:10,169 --> 00:26:09,029

and and and so forth but as a teenager

576

00:26:13,019 --> 00:26:10,179

living in England

577

00:26:16,139 --> 00:26:13,029

he actually edited a UFO magazine a

578

00:26:19,289 --> 00:26:16,149

newsletter you know and as I understand

579

00:26:22,799 --> 00:26:19,299

he had at least three UFO sightings and

580

00:26:26,190 --> 00:26:22,809

he's also was curious about a UFO crash

581

00:26:28,980 --> 00:26:26,200

that took place in the the desert he was

582

00:26:30,629 --> 00:26:28,990

in a hotel room in in Michigan right and

583

00:26:32,639 --> 00:26:30,639

apparently there was an announcement on

584

00:26:34,619 --> 00:26:32,649

TV about something that had landed and

585

00:26:36,749 --> 00:26:34,629

he spoke to everybody in the room about

586

00:26:38,999 --> 00:26:36,759

his fascination with the subject and

587

00:26:40,830 --> 00:26:39,009

about this particular landing now we're

588

00:26:43,409 --> 00:26:40,840

not sure whether it was Roswell door

589

00:26:46,769 --> 00:26:43,419

Kingman or Aztec but he has shown a

590

00:26:49,080 --> 00:26:46,779

lively interest in the in the subject in

591

00:26:52,350 --> 00:26:49,090

fact I think you've probably had a grant

592

00:26:54,539 --> 00:26:52,360

Cameron on the program yet yes and of

593

00:26:56,399 --> 00:26:54,549

course he's convinced that the these

594

00:26:59,129 --> 00:26:56,409

extraterrestrials are these aliens are

595

00:27:00,989 --> 00:26:59,139

really using celebrities like David

596

00:27:03,810 --> 00:27:00,999

Bowie and other musicians to get their

597

00:27:05,549 --> 00:27:03,820

message across well and I was reading a

598

00:27:10,279 --> 00:27:05,559

while back an interview with the

599

00:27:13,200 --> 00:27:10,289

MacTaggart he also has a fascination for

600

00:27:15,450 --> 00:27:13,210

extraterrestrials and UFOs there are a

601  
00:27:17,940 --> 00:27:15,460  
lot I mean we were just discussing Ron

602  
00:27:20,759 --> 00:27:17,950  
patent my producer and I Billy Corgan

603  
00:27:23,009 --> 00:27:20,769  
and his fascination with these types of

604  
00:27:24,899 --> 00:27:23,019  
things and also Prince is expressed his

605  
00:27:27,210 --> 00:27:24,909  
interest in this type of phenomenon and

606  
00:27:28,980 --> 00:27:27,220  
so there are a lot of well-known

607  
00:27:31,379 --> 00:27:28,990  
celebrities and rock stars at the band

608  
00:27:33,509 --> 00:27:31,389  
blink-182 of course they written a song

609  
00:27:36,299 --> 00:27:33,519  
about extraterrestrials and aliens and

610  
00:27:38,789 --> 00:27:36,309  
uh you know crosby Stills and Nash did

611  
00:27:40,739 --> 00:27:38,799  
mr. spaceman I mean everybody seems to

612  
00:27:43,169 --> 00:27:40,749  
have it's all been a part of the Lord's

613  
00:27:45,600 --> 00:27:43,179

all been apart has absolutely amaro my

614

00:27:48,509 --> 00:27:45,610

favorite story actually is about Jimi

615

00:27:50,399 --> 00:27:48,519

Hendrix in fact you know the US Postal

616

00:27:52,470 --> 00:27:50,409

the department released the

617

00:27:55,169 --> 00:27:52,480

commemorative stamp with the Jimi

618

00:27:58,470 --> 00:27:55,179

Hendrix on it and right over the top of

619

00:28:02,190 --> 00:27:58,480

his head as a UFO beaming down on him

620

00:28:04,739 --> 00:28:02,200

now a member one of the members of his

621

00:28:06,749 --> 00:28:04,749

early group of the Squires was a fella

622

00:28:09,359 --> 00:28:06,759

by the name of Curtis Knight in fact he

623

00:28:11,489 --> 00:28:09,369

wrote some of the songs that Jimmy had

624

00:28:15,289 --> 00:28:11,499

performed this would be back in the I

625

00:28:18,930 --> 00:28:15,299

guess early mid 60s now according to

626  
00:28:20,730 --> 00:28:18,940  
Curtis who had many conversations with

627  
00:28:22,259 --> 00:28:20,740  
they were on their way back from

628  
00:28:24,180 --> 00:28:22,269  
Woodstock

629  
00:28:26,339 --> 00:28:24,190  
night now yeah this wasn't during the

630  
00:28:28,859 --> 00:28:26,349  
big festival but they were caught in the

631  
00:28:31,589 --> 00:28:28,869  
middle of a blizzard and they were in a

632  
00:28:33,239 --> 00:28:31,599  
van there were I guess running what time

633  
00:28:34,979 --> 00:28:33,249  
wires him we're running out of time and

634  
00:28:37,619 --> 00:28:34,989  
say 29 we're almost outta time we gotta

635  
00:28:39,029 --> 00:28:37,629  
go to the the the break 4 News but I

636  
00:28:41,219 --> 00:28:39,039  
want to hear this story when you back ok

637  
00:28:43,499 --> 00:28:41,229  
ok I thank you Tim beckley where the Sun

638  
00:28:46,919 --> 00:28:43,509

Ground Zero triple-eight 673 3700 will

639

00:28:50,060 --> 00:28:46,929

be back you're listening to ground zero

640

00:28:51,770 --> 00:28:50,070

tonight mr. UFO himself

641

00:28:54,920 --> 00:28:51,780

this is Jim beckley on the program

642

00:28:57,170 --> 00:28:54,930

tonight discussing a number of things

643

00:28:59,390 --> 00:28:57,180

first off

644

00:29:01,490 --> 00:28:59,400

the NASA announcement about water and

645

00:29:04,790 --> 00:29:01,500

probable life on Mars the follow-up to

646

00:29:07,970 --> 00:29:04,800

that possibility of microbial life being

647

00:29:12,010 --> 00:29:07,980

discovered extraterrestrial exposure

648

00:29:14,410 --> 00:29:12,020

laws that nASA has and documents

649

00:29:16,120 --> 00:29:14,420

that mandate the decontamination be a

650

00:29:19,480 --> 00:29:16,130

very serious thing was now they're

651  
00:29:21,790 --> 00:29:19,490  
beginning to reconsider that microbial

652  
00:29:24,100 --> 00:29:21,800  
life could come here and create a

653  
00:29:25,750 --> 00:29:24,110  
problem and that's that's something

654  
00:29:27,820 --> 00:29:25,760  
that's a most definitely concern here

655  
00:29:30,130 --> 00:29:27,830  
and also we were talking about rock

656  
00:29:32,800 --> 00:29:30,140  
stars and their connections to aliens

657  
00:29:34,690 --> 00:29:32,810  
and of course I just played that after

658  
00:29:37,260 --> 00:29:34,700  
the gold rush song made famous by Neil

659  
00:29:40,330 --> 00:29:37,270  
Young and redid by Dolly Parton and

660  
00:29:41,710 --> 00:29:40,340  
Linda Ronstadt and Emmylou Harris I I

661  
00:29:43,930 --> 00:29:41,720  
think that versions is beautiful and

662  
00:29:45,670 --> 00:29:43,940  
it's why I decided play tonight you were

663  
00:29:47,380 --> 00:29:45,680

saying there was you were talking about

664

00:29:50,140 --> 00:29:47,390

a story before we had to go to the break

665

00:29:53,560 --> 00:29:50,150

about some rock stars that you knew of

666

00:29:56,410 --> 00:29:53,570

the word there in a snowstorm oh yes

667

00:29:58,960 --> 00:29:56,420

well now in my book Shirley MacLaine

668

00:30:01,630 --> 00:29:58,970

meets the Palladian sigh I talk about

669

00:30:04,960 --> 00:30:01,640

them the experience that Jimi Hendrix

670

00:30:07,600 --> 00:30:04,970

had it was related to me by his original

671

00:30:10,000 --> 00:30:07,610

bass player phila by name of Curtis

672

00:30:11,710 --> 00:30:10,010

Knight in fact I'm solely in touch with

673

00:30:14,980 --> 00:30:11,720

the curtises of wife he passed away

674

00:30:16,750 --> 00:30:14,990

about ten years ago but she still you

675

00:30:19,240 --> 00:30:16,760

know it maintains if the story is true

676

00:30:21,070 --> 00:30:19,250

and he related it not only to me but to

677

00:30:22,840 --> 00:30:21,080

her as well apparently they were

678

00:30:24,700 --> 00:30:22,850

returning from Woodstock as I mentioned

679

00:30:26,170 --> 00:30:24,710

and it was in the middle of a winter has

680

00:30:28,300 --> 00:30:26,180

had nothing to do with the festival that

681

00:30:30,910 --> 00:30:28,310

was a couple years later and they were

682

00:30:33,760 --> 00:30:30,920

stuck in a blizzard I mean it was the

683

00:30:36,970 --> 00:30:33,770

snow was really coming down and their

684

00:30:39,160 --> 00:30:36,980

van got stuck and they got to the point

685

00:30:40,750 --> 00:30:39,170

where the van wouldn't move and they

686

00:30:42,940 --> 00:30:40,760

were afraid to keep their the heater on

687

00:30:45,640 --> 00:30:42,950

because they might get you know carbon

688

00:30:47,530 --> 00:30:45,650

monoxide in their system and pass out

689

00:30:50,050 --> 00:30:47,540

and goodness knows what might happen to

690

00:30:54,820 --> 00:30:50,060

him well now according to Curtis at this

691

00:30:57,910 --> 00:30:54,830

point a rocket shaped object ship landed

692

00:31:01,870 --> 00:30:57,920

near the van that they were in and a

693

00:31:05,530 --> 00:31:01,880

door opened and a ramp came down and on

694

00:31:07,510 --> 00:31:05,540

the the ramp was this being angelic

695

00:31:10,150 --> 00:31:07,520

looking being well at least he said it

696

00:31:12,460 --> 00:31:10,160

had it had wings at an island jelica it

697

00:31:14,770 --> 00:31:12,470

was but they were not doing drugs or

698

00:31:16,690 --> 00:31:14,780

anything like that according to Curtis

699

00:31:20,380 --> 00:31:16,700

in fact he didn't do smoke a little pot

700

00:31:22,720 --> 00:31:20,390

maybe but he was not a drug user and the

701  
00:31:24,910 --> 00:31:22,730  
beam came out and circled the craft a

702  
00:31:26,860 --> 00:31:24,920  
circle divan that they were in

703  
00:31:28,870 --> 00:31:26,870  
the snow melted all around him and in a

704  
00:31:32,620 --> 00:31:28,880  
few minutes time they were able to start

705  
00:31:36,580 --> 00:31:32,630  
the van and drive back to a Manhattan

706  
00:31:39,700 --> 00:31:36,590  
without any further incident now UFOs

707  
00:31:42,460 --> 00:31:39,710  
did play a important role in Jimmy's

708  
00:31:46,270 --> 00:31:42,470  
life and in his career in fact there is

709  
00:31:50,500 --> 00:31:46,280  
a rare video out there that was shot in

710  
00:31:53,950 --> 00:31:50,510  
the mail way he was giving a concert the

711  
00:31:55,810 --> 00:31:53,960  
the video is called rainbow bridge and

712  
00:31:58,450 --> 00:31:55,820  
you can find it on youtube its many many

713  
00:32:01,870 --> 00:31:58,460

years old of course and after the

714

00:32:03,460 --> 00:32:01,880

concert he goes into a sweat lodge I

715

00:32:06,280 --> 00:32:03,470

think there's some kind of TP that they

716

00:32:08,200 --> 00:32:06,290

have there and he sets a yoga style you

717

00:32:09,910 --> 00:32:08,210

know on the ground and he surrounded by

718

00:32:13,360 --> 00:32:09,920

fans and of course these were pretty

719

00:32:15,010 --> 00:32:13,370

much hippies and in those days and he

720

00:32:18,040 --> 00:32:15,020

starts rapping about the space brothers

721

00:32:20,140 --> 00:32:18,050

and UFOs and reincarnation and he

722

00:32:22,300 --> 00:32:20,150

believed in the quite a few of these

723

00:32:24,460 --> 00:32:22,310

other musicians thought that they were

724

00:32:27,340 --> 00:32:24,470

actually star children that they had

725

00:32:31,110 --> 00:32:27,350

been placed here on earth during a very

726

00:32:34,630 --> 00:32:31,120

critical and important period in our

727

00:32:36,040 --> 00:32:34,640

spiritual and physical look gross now I

728

00:32:38,260 --> 00:32:36,050

don't know collide I mean it's an

729

00:32:41,190 --> 00:32:38,270

interesting story and it's certainly a

730

00:32:44,800 --> 00:32:41,200

fascinating coming from someone like

731

00:32:48,490 --> 00:32:44,810

Jimi Hendrix but it's not that unusual

732

00:32:50,680 --> 00:32:48,500

you know at least back in those days we

733

00:32:53,410 --> 00:32:50,690

had what we could would call the flying

734

00:32:56,320 --> 00:32:53,420

saucer or UFO culture it was very

735

00:32:59,920 --> 00:32:56,330

predominant now it appears it's maybe a

736

00:33:02,740 --> 00:32:59,930

little bit more low-key we've gone from

737

00:33:05,890 --> 00:33:02,750

beautiful space beings the Nordic types

738

00:33:07,180 --> 00:33:05,900

of supposedly extraterrestrials i call

739

00:33:09,040 --> 00:33:07,190

them altered terrestrials because i

740

00:33:11,140 --> 00:33:09,050

don't know where they they come from but

741

00:33:14,140 --> 00:33:11,150

i am convinced that something is going

742

00:33:16,170 --> 00:33:14,150

on and that there is a strange phenomena

743

00:33:18,700 --> 00:33:16,180

here that is worthy of some

744

00:33:20,800 --> 00:33:18,710

investigation in fact I'm more prone of

745

00:33:22,990 --> 00:33:20,810

course to be interested in that instead

746

00:33:24,250 --> 00:33:23,000

of spending how many millions of dollars

747

00:33:26,440 --> 00:33:24,260

did you say we're spending sending

748

00:33:29,320 --> 00:33:26,450

signals into space sending why don't

749

00:33:31,570 --> 00:33:29,330

know well Stephen Hawking and this

750

00:33:34,909 --> 00:33:31,580

Russian millionaire was in spin hundred

751

00:33:35,930 --> 00:33:34,919

million or billion million

752

00:33:37,669 --> 00:33:35,940

they were going to put in a hundred

753

00:33:41,149 --> 00:33:37,679

million and Jack 100 million into

754

00:33:43,549 --> 00:33:41,159

contacting aliens from space and another

755

00:33:45,769 --> 00:33:43,559

thing too I was corrected from Jay Dylan

756

00:33:47,359 --> 00:33:45,779

tonight I said something about the TV

757

00:33:50,029 --> 00:33:47,369

screen and one percent of the light on

758

00:33:51,859 --> 00:33:50,039

the TV screen is the Big Bang it's it's

759

00:33:53,840 --> 00:33:51,869

kind of incorrect here I was I was just

760

00:33:56,029 --> 00:33:53,850

laughing and I'll be like what it is is

761

00:33:58,999 --> 00:33:56,039

that one percent of the static on the

762

00:34:00,470 --> 00:33:59,009

screen is from the Big Bang so it means

763

00:34:01,999 --> 00:34:00,480

a lot different so thank you Jay for

764

00:34:03,710 --> 00:34:02,009

correcting me i was just like i said i

765

00:34:05,509 --> 00:34:03,720

was so laughs i was laughing so hard so

766

00:34:07,249 --> 00:34:05,519

embarrassed by not knowing that that i

767

00:34:10,010 --> 00:34:07,259

wanted to share it with everybody and I

768

00:34:11,930 --> 00:34:10,020

kind of shared it wrong so I'm not one

769

00:34:13,730 --> 00:34:11,940

not to correct myself on the air now

770

00:34:15,440 --> 00:34:13,740

instead no I don't know I don't know if

771

00:34:16,750 --> 00:34:15,450

this size internet but you know there

772

00:34:21,079 --> 00:34:16,760

have been a couple of cases where

773

00:34:23,809 --> 00:34:21,089

apparently signals TV signals have

774

00:34:25,819 --> 00:34:23,819

bounced back a decade or two decades

775

00:34:27,289 --> 00:34:25,829

later after they had gone out uh-huh

776

00:34:29,359 --> 00:34:27,299

I've seen that before I've read that

777

00:34:32,089 --> 00:34:29,369

where people have called television

778

00:34:33,760 --> 00:34:32,099

stations that aren't real or they've

779

00:34:35,899 --> 00:34:33,770

heard broadcast that never happened

780

00:34:38,720 --> 00:34:35,909

these are ghosts broadcasts in fact it

781

00:34:39,980 --> 00:34:38,730

was the inspiration for cult radio which

782

00:34:43,520 --> 00:34:39,990

is the name of ground zero before it

783

00:34:45,740 --> 00:34:43,530

changed its name the idea of a country

784

00:34:47,389 --> 00:34:45,750

DJ following asleep or doing a late

785

00:34:50,990 --> 00:34:47,399

night show and hearing alien signals

786

00:34:53,270 --> 00:34:51,000

come over his headphones and he realized

787

00:34:55,940 --> 00:34:53,280

that if he was to have turned off or at

788

00:34:57,170 --> 00:34:55,950

least with dead air there was an it was

789

00:34:59,839 --> 00:34:57,180

a segment of the dead air where you can

790

00:35:01,730 --> 00:34:59,849

hear alien voices and he wanted so badly

791

00:35:02,960 --> 00:35:01,740

for the whole world to hear these alien

792

00:35:06,319 --> 00:35:02,970

voices that he came up with a theory

793

00:35:09,049 --> 00:35:06,329

that if every radio station and every TV

794

00:35:11,450 --> 00:35:09,059

station every ham radio and CB radio or

795

00:35:13,190 --> 00:35:11,460

to turn off for five minutes we would

796

00:35:15,859 --> 00:35:13,200

probably hear the aliens or see them

797

00:35:17,599 --> 00:35:15,869

come because we are such a noisy planet

798

00:35:19,430 --> 00:35:17,609

that intelligent life would wonder why

799

00:35:23,240 --> 00:35:19,440

did everything shut off on that planet

800

00:35:25,160 --> 00:35:23,250

what you know wor which is at your onda

801  
00:35:29,569 --> 00:35:25,170  
Bo are here in New York actually yeah um

802  
00:35:31,730 --> 00:35:29,579  
okay a back in the 1930s actually a shut

803  
00:35:34,460 --> 00:35:31,740  
door transmitter off for a minute or two

804  
00:35:36,559 --> 00:35:34,470  
there to try an experiment to see if

805  
00:35:40,270 --> 00:35:36,569  
they could pick up some sort of signal

806  
00:35:42,710 --> 00:35:40,280  
intelligent or otherwise from Mars now I

807  
00:35:44,660 --> 00:35:42,720  
don't know how successful the actual

808  
00:35:48,680 --> 00:35:44,670  
picking up the signals were but I have

809  
00:35:50,660 --> 00:35:48,690  
seen a print out of

810  
00:35:53,809 --> 00:35:50,670  
some sort of diagram that looked like a

811  
00:35:56,450 --> 00:35:53,819  
face that was somehow it transmitted and

812  
00:35:59,450 --> 00:35:56,460  
received on a ticker tape and I can't

813  
00:36:02,390 --> 00:35:59,460

say that it looks like the face on Mars

814

00:36:04,400 --> 00:36:02,400

exactly but it was a face right and and

815

00:36:08,569 --> 00:36:04,410

so experiments have been tried along

816

00:36:11,990 --> 00:36:08,579

this line also back in the 1970s I said

817

00:36:14,690 --> 00:36:12,000

I spent three days at NASA in Washington

818

00:36:16,970 --> 00:36:14,700

DC now I had gone there I was on

819

00:36:19,309 --> 00:36:16,980

assignment for a saga magazine to do an

820

00:36:22,069 --> 00:36:19,319

article on UFO sightings that the

821

00:36:23,900 --> 00:36:22,079

astronauts and I must say you know NASA

822

00:36:26,030 --> 00:36:23,910

was fairly open to me they showed me

823

00:36:28,220 --> 00:36:26,040

they gave me the transcripts you know it

824

00:36:31,280 --> 00:36:28,230

was pound and pound in page after page

825

00:36:33,710 --> 00:36:31,290

of manuscript in those days and my

826

00:36:36,410 --> 00:36:33,720

associate Harold soulful and I we we SAT

827

00:36:39,500 --> 00:36:36,420

there and went through this and we spent

828

00:36:40,940 --> 00:36:39,510

a sentence found some phenomenal you

829

00:36:43,069 --> 00:36:40,950

know sightings that they had or at least

830

00:36:45,290 --> 00:36:43,079

things that were could be classified as

831

00:36:47,990 --> 00:36:45,300

UFOs and one of the things that was

832

00:36:52,430 --> 00:36:48,000

happening that on several occasions a

833

00:36:56,000 --> 00:36:52,440

strange unintelligible language was

834

00:37:00,200 --> 00:36:56,010

being heard and in one case of the song

835

00:37:02,000 --> 00:37:00,210

I think where angels fear to tread it

836

00:37:03,890 --> 00:37:02,010

was being transmitted and they picked it

837

00:37:06,079 --> 00:37:03,900

up on their on their he get on the

838

00:37:08,960 --> 00:37:06,089

capsule and of course this is on on

839

00:37:10,730 --> 00:37:08,970

closed closed channels which nobody is

840

00:37:12,290 --> 00:37:10,740

supposed to have access to so well are

841

00:37:14,030 --> 00:37:12,300

you aware of he had snowed Neil deGrasse

842

00:37:16,370 --> 00:37:14,040

Tyson debate that they had on a podcast

843

00:37:18,609 --> 00:37:16,380

a couple days ago about how Neil

844

00:37:22,040 --> 00:37:18,619

deGrasse Tyson asked Snowden whose

845

00:37:24,380 --> 00:37:22,050

encryption specialist about aliens and

846

00:37:28,400 --> 00:37:24,390

one and he brought it up and stoughton

847

00:37:30,319 --> 00:37:28,410

said that perhaps we have ignored the

848

00:37:32,390 --> 00:37:30,329

signals of assent to us through static

849

00:37:34,190 --> 00:37:32,400

that in between the dead spaces of the

850

00:37:35,480 --> 00:37:34,200

static which is back to that whole idea

851  
00:37:36,920 --> 00:37:35,490  
of watching the one percent of the

852  
00:37:39,500 --> 00:37:36,930  
static in the screen to see the Big Bang

853  
00:37:41,210 --> 00:37:39,510  
he said would you ever wonder what is in

854  
00:37:44,240 --> 00:37:41,220  
that dead space have you ever cranked it

855  
00:37:48,760 --> 00:37:44,250  
to the gills to hear what may be there

856  
00:37:52,099 --> 00:37:48,770  
and so i did that i found a recording of

857  
00:37:54,050 --> 00:37:52,109  
a broadcast that was off of an infrared

858  
00:37:56,030 --> 00:37:54,060  
recording system that was on a balloon

859  
00:37:58,220 --> 00:37:56,040  
that went 22 miles up into the sky and

860  
00:38:00,829 --> 00:37:58,230  
they thought they were recording ocean

861  
00:38:02,299 --> 00:38:00,839  
waves or what have you but this guy from

862  
00:38:03,380 --> 00:38:02,309  
nasa had said this

863  
00:38:05,719 --> 00:38:03,390

sounded like it was something from the

864

00:38:08,509 --> 00:38:05,729

x-files that when I listen to it at

865

00:38:10,549 --> 00:38:08,519

regular speed it was down in the 20

866

00:38:12,650 --> 00:38:10,559

Hertz 22 hurts area but I wouldn't

867

00:38:14,870 --> 00:38:12,660

listen to a regular speed I heard things

868

00:38:16,249 --> 00:38:14,880

in the dead space of the static that I

869

00:38:19,910 --> 00:38:16,259

wanted to turn up so I grabbed the

870

00:38:22,609 --> 00:38:19,920

volume I cranked it up and I heard and I

871

00:38:25,759 --> 00:38:22,619

swear I heard what sounded like a

872

00:38:27,559 --> 00:38:25,769

rudimentary or communication now it

873

00:38:29,359 --> 00:38:27,569

wasn't in English but it certainly

874

00:38:31,809 --> 00:38:29,369

sounded like communication that was

875

00:38:34,249 --> 00:38:31,819

going back and forth from something and

876

00:38:35,420 --> 00:38:34,259

it really fascinated me that I heard

877

00:38:37,099 --> 00:38:35,430

that I was playing it for people people

878

00:38:38,539 --> 00:38:37,109

thought I was crazy but that I played it

879

00:38:40,519 --> 00:38:38,549

on the air the other night and people

880

00:38:43,160 --> 00:38:40,529

were beginning to hear this conversation

881

00:38:45,109 --> 00:38:43,170

and then comes the NASA announcement and

882

00:38:47,150 --> 00:38:45,119

I'm thinking wow this is all being timed

883

00:38:48,949 --> 00:38:47,160

out in such a way where we may have

884

00:38:50,839 --> 00:38:48,959

found communication Snowden deGrasse

885

00:38:53,059 --> 00:38:50,849

Tyson talked about this we have the

886

00:38:54,589 --> 00:38:53,069

announcement and now we're talking about

887

00:38:56,329 --> 00:38:54,599

microbial life and how it may be

888

00:38:58,519 --> 00:38:56,339

dangerous with these new documents that

889

00:39:01,039 --> 00:38:58,529

NASA is issued it just seems to me this

890

00:39:04,099 --> 00:39:01,049

is all going according to plan what you

891

00:39:06,559 --> 00:39:04,109

don't ham operators for four years for

892

00:39:10,099 --> 00:39:06,569

decades had been receiving all sorts of

893

00:39:12,859 --> 00:39:10,109

signals and voices on their receivers

894

00:39:14,839 --> 00:39:12,869

right in fact Barry Goldwater who of

895

00:39:18,259 --> 00:39:14,849

course was a believer in UFOs and wanted

896

00:39:20,749 --> 00:39:18,269

to find out what was inside hangar 18

897

00:39:22,400 --> 00:39:20,759

and they inside the blue room and they

898

00:39:24,890 --> 00:39:22,410

told them you know if he ever mentioned

899

00:39:28,429 --> 00:39:24,900

it again he'd be in serious trouble he

900

00:39:30,910 --> 00:39:28,439

was a ham ham radio operator she was a

901  
00:39:33,859 --> 00:39:30,920  
ham radio operator and he was picking up

902  
00:39:36,439 --> 00:39:33,869  
mysterious signals on a certain

903  
00:39:39,529 --> 00:39:36,449  
bandwidth for for many many months now

904  
00:39:40,669 --> 00:39:39,539  
also up Peter we'd go to it we got to go

905  
00:39:43,069 --> 00:39:40,679  
to break right now and we'll be right

906  
00:39:44,900 --> 00:39:43,079  
back we'll be right back it will Tim

907  
00:39:47,359 --> 00:39:44,910  
Beck way keep it here on Ground Zero FM

908  
00:39:50,789 --> 00:39:47,369  
news 101

909  
00:39:53,160 --> 00:39:50,799  
the conversation is now he headed in the

910  
00:39:58,140 --> 00:39:53,170  
direction of alien transmissions or the

911  
00:40:01,220 --> 00:39:58,150  
idea of alien ham radios and all this

912  
00:40:04,079 --> 00:40:01,230  
and I wanted to play for you Tim that

913  
00:40:06,569 --> 00:40:04,089

that sequence I was telling about about

914

00:40:08,400 --> 00:40:06,579

the balloon suddenly that some 22 miles

915

00:40:12,710 --> 00:40:08,410

up now I want you to listen carefully

916

00:40:14,849 --> 00:40:12,720

because what I did is I took a simple

917

00:40:17,970 --> 00:40:14,859

recording that was from this NASA

918

00:40:19,230 --> 00:40:17,980

experiment and at first it was like just

919

00:40:22,410 --> 00:40:19,240

hearing the static you'll hear the

920

00:40:24,329 --> 00:40:22,420

static but between the static bursts I

921

00:40:27,059 --> 00:40:24,339

managed to take the dead space and I

922

00:40:28,890 --> 00:40:27,069

cranked it as loud as I could so you can

923

00:40:32,400 --> 00:40:28,900

hear what was between the burst and what

924

00:40:34,650 --> 00:40:32,410

you'll hear in my opinion sounds like

925

00:41:16,099 --> 00:40:34,660

alien transmission now listen to this

926  
00:41:23,700 --> 00:41:20,700  
so do you ma'am spooky I I would say

927  
00:41:25,020 --> 00:41:23,710  
just downright spooky now okay you have

928  
00:41:26,790 --> 00:41:25,030  
an example there it's about what a

929  
00:41:29,670 --> 00:41:26,800  
little bit less than a minute long how

930  
00:41:32,069 --> 00:41:29,680  
long were you trying to capture the

931  
00:41:34,859 --> 00:41:32,079  
sound well I captured there was the

932  
00:41:36,750 --> 00:41:34,869  
segment itself was about a minute or so

933  
00:41:38,760 --> 00:41:36,760  
they only provided about a minute or so

934  
00:41:39,990 --> 00:41:38,770  
so I took the first segment I couldn't

935  
00:41:42,660 --> 00:41:40,000  
find the first ever the first segment

936  
00:41:45,030 --> 00:41:42,670  
when I played it I cranked up the the

937  
00:41:47,819 --> 00:41:45,040  
middle volume on it I heard what sounded

938  
00:41:50,579 --> 00:41:47,829

like this really wavy kind of siren

939

00:41:53,400 --> 00:41:50,589

sound as if it was like a warnings kind

940

00:41:56,220 --> 00:41:53,410

of like how we do the the emergency

941

00:41:58,170 --> 00:41:56,230

alert alert system where the we do the

942

00:41:59,640 --> 00:41:58,180

EAS tone it sound like it wasn't any

943

00:42:02,490 --> 00:41:59,650

asked home but it was like a clearing

944

00:42:04,710 --> 00:42:02,500

tone where you hear it was kind of a

945

00:42:06,390 --> 00:42:04,720

wide and then lower and then it got a

946

00:42:09,300 --> 00:42:06,400

little wider and it got a little louder

947

00:42:10,829 --> 00:42:09,310

and then I thought well you know I don't

948

00:42:13,050 --> 00:42:10,839

hear any communication there but what I

949

00:42:14,430 --> 00:42:13,060

do here is this ability or this this

950

00:42:17,609 --> 00:42:14,440

moment I think where they were clearing

951  
00:42:19,550 --> 00:42:17,619  
the channel and then I I then went and I

952  
00:42:22,290 --> 00:42:19,560  
found the other static piece and I upped

953  
00:42:25,530 --> 00:42:22,300  
the the segments in between the clicks

954  
00:42:28,589 --> 00:42:25,540  
and the Pops and I heard what sounded

955  
00:42:32,010 --> 00:42:28,599  
like attempts at bringing down some

956  
00:42:34,380 --> 00:42:32,020  
strange data and loop or data feed or

957  
00:42:35,550 --> 00:42:34,390  
something and it sounded intelligent to

958  
00:42:37,260 --> 00:42:35,560  
me it sounded like that there was

959  
00:42:39,930 --> 00:42:37,270  
something in between the static as

960  
00:42:41,849 --> 00:42:39,940  
Snowden said and Neil deGrasse Tyson

961  
00:42:43,530 --> 00:42:41,859  
said if you listen closely you may be

962  
00:42:46,050 --> 00:42:43,540  
able to pick up on what could be

963  
00:42:48,780 --> 00:42:46,060

encrypted alien language and it's buried

964

00:42:50,940 --> 00:42:48,790

in the static well there's there was

965

00:42:52,620 --> 00:42:50,950

seemed like there was actually one word

966

00:42:55,140 --> 00:42:52,630

I mean I don't know how you would I

967

00:42:56,520 --> 00:42:55,150

isolate it but at one point there was

968

00:42:59,490 --> 00:42:56,530

something that seemed a little bit

969

00:43:03,839 --> 00:42:59,500

beyond what else you know there were the

970

00:43:05,520 --> 00:43:03,849

rest of the information right was being

971

00:43:09,420 --> 00:43:05,530

transmitted but you know of course this

972

00:43:11,730 --> 00:43:09,430

is kind of reminiscent of the EVP the

973

00:43:14,069 --> 00:43:11,740

electronic voice phenomena which people

974

00:43:17,190 --> 00:43:14,079

of course think that or at least the

975

00:43:19,140 --> 00:43:17,200

going them a theory is that these are

976  
00:43:20,850 --> 00:43:19,150  
the voices from people on the other side

977  
00:43:22,980 --> 00:43:20,860  
we have no way of proving that real they

978  
00:43:24,600 --> 00:43:22,990  
could be voices from other planets that

979  
00:43:28,140 --> 00:43:24,610  
could be voices from other dimension

980  
00:43:31,680 --> 00:43:28,150  
they could be voices from the the future

981  
00:43:33,900 --> 00:43:31,690  
or they could be generated by the earth

982  
00:43:36,540 --> 00:43:33,910  
itself and I actually let a study Tim

983  
00:43:39,150 --> 00:43:36,550  
that no matter where you are no matter

984  
00:43:42,000 --> 00:43:39,160  
where you go you will always if you have

985  
00:43:44,010 --> 00:43:42,010  
a recorder will pick up EVP so you don't

986  
00:43:45,750 --> 00:43:44,020  
have to be in a haunted place it'll

987  
00:43:47,850 --> 00:43:45,760  
doubt those voices and that's what once

988  
00:43:50,400 --> 00:43:47,860

again throws a lot of the paranormal

989

00:43:52,740 --> 00:43:50,410

investigations into a quandary what am i

990

00:43:54,720 --> 00:43:52,750

listening to if I'm doing EVP if this is

991

00:43:56,940 --> 00:43:54,730

not void if these are not voices from

992

00:43:58,980 --> 00:43:56,950

the other side that are they voices from

993

00:44:02,730 --> 00:43:58,990

another dimension or are they voices

994

00:44:04,920 --> 00:44:02,740

from space and this is a very good point

995

00:44:06,360 --> 00:44:04,930

Tim and we got to go to break but yeah I

996

00:44:08,310 --> 00:44:06,370

mean you're listening to that and you're

997

00:44:10,380 --> 00:44:08,320

hearing this kind of static and

998

00:44:12,390 --> 00:44:10,390

conversation you don't know exactly

999

00:44:14,820 --> 00:44:12,400

what's happening because we've never had

1000

00:44:16,740 --> 00:44:14,830

anything to compare it to no aliens to

1001  
00:44:18,900 --> 00:44:16,750  
compare it to nothing else because we

1002  
00:44:21,060 --> 00:44:18,910  
haven't been able to get access to that

1003  
00:44:23,580 --> 00:44:21,070  
data in soon with the announcement that

1004  
00:44:26,010 --> 00:44:23,590  
nASA has made we may find ourselves in a

1005  
00:44:28,170 --> 00:44:26,020  
situation where we can recognize these

1006  
00:44:29,640 --> 00:44:28,180  
things a whole lot more and understand

1007  
00:44:35,080 --> 00:44:29,650  
these directives that they're proposing

1008  
00:44:44,180 --> 00:44:40,280  
as president from zero is indeed

1009  
00:44:57,050 --> 00:44:44,190  
essential the radio is essential to the

1010  
00:44:57,060 --> 00:45:03,749  
Peter spoke up and said wish

1011  
00:45:37,800 --> 00:45:05,680  
allowed fingers

1012  
00:45:37,810 --> 00:45:44,849  
I'm quite Lewis and this is ground zero

1013  
00:45:49,970 --> 00:45:47,489

tonight Tim beckley is with us mr. UFO

1014

00:45:53,430 --> 00:45:49,980

we're talking about a number of things

1015

00:45:57,089 --> 00:45:53,440

the consecutive pattern we've seeing in

1016

00:46:00,390 --> 00:45:57,099

you know the Pope the aliens then from

1017

00:46:02,220 --> 00:46:00,400

the Pope and aliens to messages being

1018

00:46:03,839 --> 00:46:02,230

discussed with neil degrasse tyson and

1019

00:46:07,620 --> 00:46:03,849

had snowden from that to the NASA

1020

00:46:08,970 --> 00:46:07,630

announcement and Stephen Hawking again

1021

00:46:12,870 --> 00:46:08,980

coming forward and saying what he said

1022

00:46:14,099 --> 00:46:12,880

about aliens would crush us and yet he's

1023

00:46:15,470 --> 00:46:14,109

giving one hundred million dollars for

1024

00:46:17,579 --> 00:46:15,480

something called breakthrough listen

1025

00:46:19,829 --> 00:46:17,589

which I say is some sort of dubious

1026  
00:46:23,579 --> 00:46:19,839  
paradox here I don't know how to take

1027  
00:46:28,229 --> 00:46:23,589  
this but then NASA another this is in

1028  
00:46:33,210 --> 00:46:28,239  
the sequence nASA has this file it's

1029  
00:46:34,589 --> 00:46:33,220  
NASA policy directive 8020 dot 7g it's

1030  
00:46:37,170 --> 00:46:34,599  
the office of NASA's science Mission

1031  
00:46:38,910 --> 00:46:37,180  
Directorate it's issued a policy on

1032  
00:46:41,759 --> 00:46:38,920  
planetary protection requirements for

1033  
00:46:45,089 --> 00:46:41,769  
humanistic rest real missions I'm going

1034  
00:46:47,460 --> 00:46:45,099  
to read the policy again and I want to

1035  
00:46:51,210 --> 00:46:47,470  
make it clear that this indicates to me

1036  
00:46:54,870 --> 00:46:51,220  
that this functions as I think proof

1037  
00:46:56,700 --> 00:46:54,880  
that they are already leaning towards

1038  
00:46:58,799 --> 00:46:56,710

the probability of life the conduct of

1039

00:47:01,170 --> 00:46:58,809

scientific investigations of possible

1040

00:47:04,229 --> 00:47:01,180

extraterrestrial life-forms precursors

1041

00:47:06,059 --> 00:47:04,239

and remnants must not be jeopardized in

1042

00:47:07,859 --> 00:47:06,069

addition the earth must be protected

1043

00:47:10,289 --> 00:47:07,869

from the potential hazard posed by

1044

00:47:12,450 --> 00:47:10,299

extraterrestrial matter carried by

1045

00:47:14,009 --> 00:47:12,460

spacecraft returning from another planet

1046

00:47:16,259 --> 00:47:14,019

or other extraterrestrial sources

1047

00:47:18,870 --> 00:47:16,269

therefore for certain space mission

1048

00:47:20,489 --> 00:47:18,880

target planet combinations controls on

1049

00:47:23,039 --> 00:47:20,499

organic and biological contamination

1050

00:47:24,930 --> 00:47:23,049

carried by spacecraft shall be imposed

1051  
00:47:27,180 --> 00:47:24,940  
in accordance with directives

1052  
00:47:29,640 --> 00:47:27,190  
implementing this policy the provisions

1053  
00:47:32,009 --> 00:47:29,650  
of this directive cover all spaceflight

1054  
00:47:33,569 --> 00:47:32,019  
missions robotic and human which may

1055  
00:47:35,249 --> 00:47:33,579  
intentionally or unintentionally carry

1056  
00:47:37,950 --> 00:47:35,259  
earth organisms and organic constituents

1057  
00:47:40,319 --> 00:47:37,960  
to the planets or other solar system

1058  
00:47:42,210 --> 00:47:40,329  
bodies and any mission employing

1059  
00:47:46,650 --> 00:47:42,220  
spacecraft which are intended to return

1060  
00:47:48,680 --> 00:47:46,660  
to Earth and or its biosphere from

1061  
00:47:52,019 --> 00:47:48,690  
extraterrestrial targets of exploration

1062  
00:47:55,999 --> 00:47:52,029  
which once again I tell you they are

1063  
00:47:58,020 --> 00:47:56,009

already preparing for life more

1064

00:48:00,000 --> 00:47:58,030

microbial life

1065

00:48:01,080 --> 00:48:00,010

and there was always a concern and I

1066

00:48:02,220 --> 00:48:01,090

think I was the concern of Stephen

1067

00:48:04,200 --> 00:48:02,230

Hawking when he made a statement about

1068

00:48:05,100 --> 00:48:04,210

the aliens but there's also a group

1069

00:48:07,050 --> 00:48:05,110

called the International Committee

1070

00:48:10,110 --> 00:48:07,060

Against Mars sample return right camps

1071

00:48:11,580 --> 00:48:10,120

are very DiGregorio is the president of

1072

00:48:13,710 --> 00:48:11,590

this group they're an advocacy group of

1073

00:48:15,480 --> 00:48:13,720

science of actually scientists who

1074

00:48:18,060 --> 00:48:15,490

campaigns against Mars sample return

1075

00:48:19,650 --> 00:48:18,070

the committee was found in the year 2000

1076

00:48:21,420 --> 00:48:19,660

they have been quoted in the news

1077

00:48:24,060 --> 00:48:21,430

stories and books discussing these types

1078

00:48:26,730 --> 00:48:24,070

of missions the I kamzor Charter states

1079

00:48:28,830 --> 00:48:26,740

that their main goal is that samples

1080

00:48:31,020 --> 00:48:28,840

should be certified safe in space first

1081

00:48:33,420 --> 00:48:31,030

before they return to Earth basically

1082

00:48:35,070 --> 00:48:33,430

setting up a lab either on Mars on the

1083

00:48:39,540 --> 00:48:35,080

moon or on the International Space

1084

00:48:41,460 --> 00:48:39,550

Station so that they can test this life

1085

00:48:43,920 --> 00:48:41,470

or whatever may be and not bring us into

1086

00:48:46,920 --> 00:48:43,930

peril with a biological contamination

1087

00:48:48,540 --> 00:48:46,930

that make it may harm the biosphere so

1088

00:48:50,360 --> 00:48:48,550

the question I have is if you were a

1089

00:48:52,710 --> 00:48:50,370

scientist would you take the chance

1090

00:48:54,660 --> 00:48:52,720

having the entire Earth infected with a

1091

00:48:57,390 --> 00:48:54,670

microbial life form would you require

1092

00:48:59,490 --> 00:48:57,400

that a lab be constructed to actually in

1093

00:49:00,930 --> 00:48:59,500

space to analyze this life or would you

1094

00:49:02,940 --> 00:49:00,940

take the chance of bringing the micro

1095

00:49:04,530 --> 00:49:02,950

back and having a died in transit which

1096

00:49:05,790 --> 00:49:04,540

would once again probably negate the

1097

00:49:07,800 --> 00:49:05,800

whole thing any way of proving there's

1098

00:49:09,540 --> 00:49:07,810

life out there Tim what do you think you

1099

00:49:13,470 --> 00:49:09,550

do in this case what do you think it

1100

00:49:17,490 --> 00:49:13,480

should be wise to maybe build a lab in

1101  
00:49:19,320 --> 00:49:17,500  
space or at least install a more I guess

1102  
00:49:22,470 --> 00:49:19,330  
in improved lab on the eye on the

1103  
00:49:24,870 --> 00:49:22,480  
International Space Station well you

1104  
00:49:27,240 --> 00:49:24,880  
know how long is it going to be before

1105  
00:49:29,550 --> 00:49:27,250  
you we have the capability to do

1106  
00:49:32,060 --> 00:49:29,560  
something like that I mean we're talking

1107  
00:49:37,250 --> 00:49:32,070  
about landing on Mars with a you know

1108  
00:49:40,530 --> 00:49:37,260  
earthly occupants and what 20 30 20 40

1109  
00:49:43,590 --> 00:49:40,540  
it just seems like an awful long time

1110  
00:49:46,710 --> 00:49:43,600  
now you know there have been incidences

1111  
00:49:49,560 --> 00:49:46,720  
throughout a history of bacteria and

1112  
00:49:53,100 --> 00:49:49,570  
germs that killed the large numbers of

1113  
00:49:55,890 --> 00:49:53,110

people in fact I think in the 13 the the

1114

00:49:57,900 --> 00:49:55,900

1300s there was the black plague that

1115

00:50:00,090 --> 00:49:57,910

killed was 40 million people in Europe

1116

00:50:02,190 --> 00:50:00,100

and there are some people who associated

1117

00:50:04,260 --> 00:50:02,200

with mysterious lights in the skies and

1118

00:50:09,180 --> 00:50:04,270

figures on the ground with sickles and

1119

00:50:10,150 --> 00:50:09,190

and so forth but you know our ability to

1120

00:50:14,380 --> 00:50:10,160

handle

1121

00:50:17,230 --> 00:50:14,390

germs and bacteria has certainly come a

1122

00:50:21,100 --> 00:50:17,240

long way since then I mean obviously we

1123

00:50:23,650 --> 00:50:21,110

quarantine people with Ebola and and and

1124

00:50:26,170 --> 00:50:23,660

so forth so I don't know you know take a

1125

00:50:28,840 --> 00:50:26,180

chance what's the chances that it could

1126

00:50:31,590 --> 00:50:28,850

contaminate earth i would say myself i

1127

00:50:34,210 --> 00:50:31,600

would feel that it would be a small

1128

00:50:37,060 --> 00:50:34,220

possibility worth the chance yeah if we

1129

00:50:38,680 --> 00:50:37,070

took the necessary precautions but i

1130

00:50:40,510 --> 00:50:38,690

mean when it when is this going to

1131

00:50:42,850 --> 00:50:40,520

happen i probably i won't be around to

1132

00:50:45,700 --> 00:50:42,860

to see you that you won't be around but

1133

00:50:48,420 --> 00:50:45,710

i might be and see this is the thing I I

1134

00:50:50,890 --> 00:50:48,430

would say this we don't know and

1135

00:50:53,790 --> 00:50:50,900

somebody made the comment i can lean

1136

00:50:56,620 --> 00:50:53,800

towards this comment that may be me the

1137

00:50:59,280 --> 00:50:56,630

life up there may be a lot like our life

1138

00:51:02,830 --> 00:50:59,290

up there but the truth is life time here

1139

00:51:04,720 --> 00:51:02,840

bacterial life but there are certain

1140

00:51:07,450 --> 00:51:04,730

forms of bacteria and microbial life

1141

00:51:10,210 --> 00:51:07,460

that exists in chile that are in brine

1142

00:51:12,190 --> 00:51:10,220

water in in in a desert area very arid

1143

00:51:13,720 --> 00:51:12,200

area and they are extreme of files and

1144

00:51:16,630 --> 00:51:13,730

they can live under these extreme

1145

00:51:18,700 --> 00:51:16,640

conditions and they're not dangerous but

1146

00:51:21,160 --> 00:51:18,710

are we seeing the same type of thing up

1147

00:51:22,990 --> 00:51:21,170

there do we worry about contaminating i

1148

00:51:25,690 --> 00:51:23,000

mean they must really have a worry of

1149

00:51:27,880 --> 00:51:25,700

contamination of either Mars or our

1150

00:51:31,300 --> 00:51:27,890

planet due to the fact I mean you

1151  
00:51:33,970 --> 00:51:31,310  
remember that the pneumonia virus lived

1152  
00:51:35,380 --> 00:51:33,980  
on the limb on the moon for quite some

1153  
00:51:38,620 --> 00:51:35,390  
time because one of the assets has

1154  
00:51:40,450 --> 00:51:38,630  
happened to have a cough and it remained

1155  
00:51:41,950 --> 00:51:40,460  
in the lamp for a long time but one of

1156  
00:51:44,430 --> 00:51:41,960  
it was one of the astronauts have

1157  
00:51:48,490 --> 00:51:44,440  
detected the virus when they returned

1158  
00:51:51,130 --> 00:51:48,500  
you know we have also here in recent

1159  
00:51:54,250 --> 00:51:51,140  
weeks in the New York area a rien

1160  
00:51:55,660 --> 00:51:54,260  
surgeons of the Legionnaires disease and

1161  
00:51:57,580 --> 00:51:55,670  
you know originally they were saying it

1162  
00:51:59,920 --> 00:51:57,590  
was part of the contamination the water

1163  
00:52:01,930 --> 00:51:59,930

towers and stuff like this but they sent

1164

00:52:04,270 --> 00:52:01,940

inspectors out to every building with a

1165

00:52:06,580 --> 00:52:04,280

water tower and examine it all and it's

1166

00:52:09,160 --> 00:52:06,590

still cropping up so you know there are

1167

00:52:11,020 --> 00:52:09,170

plenty of diseases here to worry about

1168

00:52:12,760 --> 00:52:11,030

now what's the possibility that

1169

00:52:15,160 --> 00:52:12,770

something like that could be analyzed

1170

00:52:17,440 --> 00:52:15,170

were why it were while it was actually

1171

00:52:20,290 --> 00:52:17,450

still on Mars do we necessarily have to

1172

00:52:21,760 --> 00:52:20,300

bring it back do we have the capability

1173

00:52:23,650 --> 00:52:21,770

of study it right there on the ground

1174

00:52:25,750 --> 00:52:23,660

right I

1175

00:52:28,299 --> 00:52:25,760

I think maybe we should if not having a

1176  
00:52:29,770 --> 00:52:28,309  
robot do it so nobody's in danger well

1177  
00:52:31,809 --> 00:52:29,780  
absolutely that would be the first step

1178  
00:52:35,289 --> 00:52:31,819  
because they're they're not likely to

1179  
00:52:36,880 --> 00:52:35,299  
bring it back anytime soon right yeah I

1180  
00:52:38,319 --> 00:52:36,890  
mean see these are some things I'm sure

1181  
00:52:39,609 --> 00:52:38,329  
NASA's already thought of especially

1182  
00:52:41,289 --> 00:52:39,619  
with these new directorates I was

1183  
00:52:42,940 --> 00:52:41,299  
reading about earlier let's go to Robert

1184  
00:52:46,900 --> 00:52:42,950  
and Virginia hi Robert you're on with

1185  
00:52:50,170 --> 00:52:46,910  
Tim Beck we go ahead hi are you doing

1186  
00:52:55,799 --> 00:52:50,180  
good you're on the air all right yeah I

1187  
00:52:58,960 --> 00:52:55,809  
just you know I mama Cherokee Indian and

1188  
00:53:02,940 --> 00:52:58,970

disease is what killed our people off

1189

00:53:06,099 --> 00:53:02,950

but when Europeans came across pond yes

1190

00:53:08,440 --> 00:53:06,109

it wasn't their technology it wasn't it

1191

00:53:11,920 --> 00:53:08,450

wasn't nothing else it was busies sure

1192

00:53:14,829 --> 00:53:11,930

so Mike I sir my concern is a you know

1193

00:53:18,069 --> 00:53:14,839

we contact alien so we go to Mars we go

1194

00:53:20,970 --> 00:53:18,079

to wherever that's that is a big concern

1195

00:53:26,680 --> 00:53:20,980

how many lives are we willing sacrifice

1196

00:53:29,049 --> 00:53:26,690

to learn a lesson you know 1971 the

1197

00:53:32,010 --> 00:53:29,059

Mariner project showed the same thing as

1198

00:53:36,460 --> 00:53:32,020

their show on today exactly life of ours

1199

00:53:39,400 --> 00:53:36,470

yes why is it taking 43 years for them

1200

00:53:41,859 --> 00:53:39,410

to say okay hey there's a possibility to

1201

00:53:46,029 --> 00:53:41,869

let this you know let's society know

1202

00:53:49,720 --> 00:53:46,039

that you know 43 years later we had the

1203

00:53:51,609 --> 00:53:49,730

technology in 1974 to be in Mars I agree

1204

00:53:53,230 --> 00:53:51,619

with you and I'm out there yeah well and

1205

00:53:55,450 --> 00:53:53,240

another thing too is when Gilbert Levin

1206

00:53:57,700 --> 00:53:55,460

said that there was life on Mars they

1207

00:54:00,760 --> 00:53:57,710

basically dismissed him and he had proof

1208

00:54:02,910 --> 00:54:00,770

and of course the the one discovery

1209

00:54:05,529 --> 00:54:02,920

where they found that fossilized life on

1210

00:54:07,809 --> 00:54:05,539

Martian rocks and even President Clinton

1211

00:54:09,460 --> 00:54:07,819

said this is an amazing fine in the NASA

1212

00:54:11,829 --> 00:54:09,470

dismissed it and see that's another

1213

00:54:13,839 --> 00:54:11,839

thing too we asked about the timing

1214

00:54:16,569 --> 00:54:13,849

Robert and you're so right about this

1215

00:54:21,579 --> 00:54:16,579

the timing seems a little peculiar don't

1216

00:54:24,069 --> 00:54:21,589

you think yes it does and you know I'm

1217

00:54:28,029 --> 00:54:24,079

on the firm believer and a lot of things

1218

00:54:33,940 --> 00:54:28,039

but I hold on to my native american to

1219

00:54:36,640 --> 00:54:33,950

neo beliefs you know word that word

1220

00:54:37,720 --> 00:54:36,650

we're in the 6th reign of man the fifth

1221

00:54:41,590 --> 00:54:37,730

brain handed

1222

00:54:45,970 --> 00:54:41,600

only 12 and so now we're in the serious

1223

00:54:48,900 --> 00:54:45,980

it is a 6-3 in of man going to be on

1224

00:54:52,810 --> 00:54:48,910

Mars you know the Sun has a soul cycle

1225

00:54:54,760 --> 00:54:52,820

the Sun is a living being and it's

1226

00:54:57,640 --> 00:54:54,770

living and dying just like the rest of

1227

00:55:00,910 --> 00:54:57,650

us yeah this started out started out

1228

00:55:03,010 --> 00:55:00,920

cold it's getting hotter yes so all we

1229

00:55:05,740 --> 00:55:03,020

like oh we like jumping from rock to

1230

00:55:07,630 --> 00:55:05,750

rock now well I mean we might have to

1231

00:55:09,730 --> 00:55:07,640

but that's the whole point we may have

1232

00:55:11,260 --> 00:55:09,740

to I mean you know with all the climate

1233

00:55:12,490 --> 00:55:11,270

scares they've been giving us with all

1234

00:55:16,000 --> 00:55:12,500

the things they've been telling us a

1235

00:55:19,060 --> 00:55:16,010

breakaway civilization has always been

1236

00:55:21,490 --> 00:55:19,070

in the cards and it'll be the elite that

1237

00:55:22,990 --> 00:55:21,500

will have the money and the ability to

1238

00:55:25,510 --> 00:55:23,000

go into these space rockets that are

1239

00:55:29,260 --> 00:55:25,520

pretty much buses that they can take to

1240

00:55:32,380 --> 00:55:29,270

either the Moon or Mars and so the time

1241

00:55:35,530 --> 00:55:32,390

is short of the time to think about

1242

00:55:37,930 --> 00:55:35,540

getting off the rock and probably saving

1243

00:55:39,730 --> 00:55:37,940

oneself is far more intriguing now than

1244

00:55:42,130 --> 00:55:39,740

it's ever been and I think that we need

1245

00:55:44,020 --> 00:55:42,140

to be aware that this one once again be

1246

00:55:45,220 --> 00:55:44,030

an option for those of us who don't want

1247

00:55:48,280 --> 00:55:45,230

to stay on the planet you do want to

1248

00:55:51,510 --> 00:55:48,290

endure a possible cataclysm or something

1249

00:55:54,570 --> 00:55:51,520

that has been in the works for some time

1250

00:55:56,790 --> 00:55:54,580

I i agree with you a hundred percent and

1251  
00:55:59,660 --> 00:55:56,800  
you know i never believed that to see

1252  
00:56:02,850 --> 00:55:59,670  
this in my life signs we made er uh I

1253  
00:56:05,700 --> 00:56:02,860  
have it either and uh and I and I think

1254  
00:56:07,290 --> 00:56:05,710  
it once again I I just I'm amazed that

1255  
00:56:10,170 --> 00:56:07,300  
we're even talking about the subject uh

1256  
00:56:11,310 --> 00:56:10,180  
you know Tim and myself you know we've

1257  
00:56:12,570 --> 00:56:11,320  
been talking about this for years and as

1258  
00:56:16,110 --> 00:56:12,580  
he said the beginning the program I've

1259  
00:56:18,360 --> 00:56:16,120  
always known that Mars has probably had

1260  
00:56:19,710 --> 00:56:18,370  
life on it we've been told this water or

1261  
00:56:22,680 --> 00:56:19,720  
whatever for some time we've been

1262  
00:56:25,170 --> 00:56:22,690  
intrigued by it triple eight 673 3700

1263  
00:56:26,700 --> 00:56:25,180

that's triple eight 603 3700 Tim

1264

00:56:29,100 --> 00:56:26,710

Beckley's with us to that on ground zero

1265

00:56:41,420 --> 00:56:29,110

I need your phone calls shriveling 673

1266

00:57:00,839 --> 00:56:44,010

you're listening to ground zero with

1267

00:57:02,700 --> 00:57:00,849

Clyde Lewis on FM news 101 I'm Todd

1268

00:57:04,980 --> 00:57:02,710

Lewis this is ground zero Tim beckley

1269

00:57:07,770 --> 00:57:04,990

with us mr. UFO on the program and we're

1270

00:57:09,690 --> 00:57:07,780

going to go to TJ and Rhode Island I TJ

1271

00:57:11,849 --> 00:57:09,700

you're on ground zero What's in back oh

1272

00:57:14,280 --> 00:57:11,859

hi Clyde I love the show but this is a

1273

00:57:16,470 --> 00:57:14,290

variation very much of your Ebola show

1274

00:57:19,319 --> 00:57:16,480

if you remember can be there you will

1275

00:57:22,500 --> 00:57:19,329

wondering about if about bringing people

1276  
00:57:24,150 --> 00:57:22,510  
here because again killer bees Clyde you

1277  
00:57:27,120 --> 00:57:24,160  
cannot bring something that is not

1278  
00:57:29,370 --> 00:57:27,130  
indigenous to another location and as

1279  
00:57:31,049 --> 00:57:29,380  
far as I'm concerned anybody who leaves

1280  
00:57:33,030 --> 00:57:31,059  
the planet should kiss it goodbye

1281  
00:57:36,059 --> 00:57:33,040  
because they're not even taking into

1282  
00:57:39,359 --> 00:57:36,069  
account things like mutations within

1283  
00:57:43,140 --> 00:57:39,369  
earth originated viruses earth

1284  
00:57:45,630 --> 00:57:43,150  
originated microbes yees uh bacteria

1285  
00:57:48,030 --> 00:57:45,640  
whether or not they end up mutating by

1286  
00:57:50,220 --> 00:57:48,040  
combining with the the the

1287  
00:57:52,200 --> 00:57:50,230  
extra-terrestrial type right and you

1288  
00:57:54,210 --> 00:57:52,210

know anyway the third one and then

1289

00:57:56,839 --> 00:57:54,220

jumping species should oppose you bring

1290

00:57:59,190 --> 00:57:56,849

something back that is not necessarily

1291

00:58:00,839 --> 00:57:59,200

lethal to you but then you give it to

1292

00:58:02,819 --> 00:58:00,849

your dog and your dog gives it to your

1293

00:58:04,920 --> 00:58:02,829

cat your attack is it to the Burdick try

1294

00:58:06,539 --> 00:58:04,930

to catch outside right now four days

1295

00:58:09,030 --> 00:58:06,549

later you're gonna end up with no snakes

1296

00:58:10,680 --> 00:58:09,040

on the planet or no you you know and

1297

00:58:14,609 --> 00:58:10,690

that's it that's an excellent excellent

1298

00:58:17,670 --> 00:58:14,619

a thing you talking about because I see

1299

00:58:19,710 --> 00:58:17,680

this and Tim remember hg wells War the

1300

00:58:22,950 --> 00:58:19,720

world story and how the aliens were

1301  
00:58:24,690 --> 00:58:22,960  
killed yeah they were killed by our own

1302  
00:58:26,099 --> 00:58:24,700  
bacteria was our it was it was the

1303  
00:58:28,530 --> 00:58:26,109  
little things that God had made

1304  
00:58:32,370 --> 00:58:28,540  
according to wells they'd killed the

1305  
00:58:34,980 --> 00:58:32,380  
aliens and and I go it go ahead rate up

1306  
00:58:36,359 --> 00:58:34,990  
bacteria that's directly lethal to them

1307  
00:58:38,940 --> 00:58:36,369  
now I'm talking about things that take

1308  
00:58:41,549 --> 00:58:38,950  
three species to mutate before they

1309  
00:58:43,530 --> 00:58:41,559  
become lethal to you write and edit or

1310  
00:58:46,020 --> 00:58:43,540  
something that has to mate or be

1311  
00:58:49,319 --> 00:58:46,030  
infected say uh bacteria by an alien

1312  
00:58:52,410 --> 00:58:49,329  
virus then you even go three species

1313  
00:58:55,010 --> 00:58:52,420

away before it becomes lethal to you

1314

00:58:56,820 --> 00:58:55,020

you know once you forget I was gonna say

1315

00:58:59,040 --> 00:58:56,830

intimidated you know I don't know how

1316

00:59:01,620 --> 00:58:59,050

you feel on this but you know doesn't

1317

00:59:03,030 --> 00:59:01,630

this take away the romanticism of aliens

1318

00:59:06,210 --> 00:59:03,040

I mean we have to be practical my

1319

00:59:08,580 --> 00:59:06,220

correct me yes and no because if

1320

00:59:11,280 --> 00:59:08,590

somebody is able to leave their planet

1321

00:59:13,530 --> 00:59:11,290

how many millions or hundreds of

1322

00:59:16,110 --> 00:59:13,540

millions of light-years you and I are

1323

00:59:19,500 --> 00:59:16,120

incapable of understanding what level of

1324

00:59:21,150 --> 00:59:19,510

technology they have for one and two we

1325

00:59:24,090 --> 00:59:21,160

also don't know what their immune system

1326  
00:59:27,720 --> 00:59:24,100  
is like for example you remember Star

1327  
00:59:30,350 --> 00:59:27,730  
Trek Voyager with species 8472 the one

1328  
00:59:33,090 --> 00:59:30,360  
that the board couldn't co-opt right

1329  
00:59:36,150 --> 00:59:33,100  
well they might be a species like that

1330  
00:59:37,860 --> 00:59:36,160  
where they can travel around but we

1331  
00:59:40,350 --> 00:59:37,870  
would not be in the same enviable

1332  
00:59:42,480 --> 00:59:40,360  
position or what about the aliens from

1333  
00:59:44,880 --> 00:59:42,490  
alien acid blood we end up you know

1334  
00:59:46,710 --> 00:59:44,890  
melting ourselves we try to kill it or

1335  
00:59:48,870 --> 00:59:46,720  
dissected I mean see that's the thing is

1336  
00:59:50,010 --> 00:59:48,880  
that you know there's a lot of there's a

1337  
00:59:51,960 --> 00:59:50,020  
lot of things have been covered in

1338  
00:59:53,970 --> 00:59:51,970

science fiction that we haven't taken

1339

00:59:56,430 --> 00:59:53,980

into consideration but I don't really

1340

01:00:00,120 --> 00:59:56,440

feel that we have explored the idea of

1341

01:00:01,470 --> 01:00:00,130

microbial alien life maybe the x-files

1342

01:00:03,570 --> 01:00:01,480

fight the future did when they talked

1343

01:00:04,950 --> 01:00:03,580

about the black oil and they said it was

1344

01:00:06,780 --> 01:00:04,960

a virus that mutated in the

1345

01:00:08,520 --> 01:00:06,790

well-manicured man set Mulder down and

1346

01:00:10,980 --> 01:00:08,530

said you're extraterrestrials

1347

01:00:12,840 --> 01:00:10,990

extraterrestrials Mulder has been a

1348

01:00:15,390 --> 01:00:12,850

virus has been around since the caveman

1349

01:00:17,370 --> 01:00:15,400

walked the planet yeah but now even

1350

01:00:20,880 --> 01:00:17,380

thinks of those or something similar to

1351

01:00:22,950 --> 01:00:20,890

that that ends up being uh the type that

1352

01:00:25,020 --> 01:00:22,960

is utilized by plants and ends up in the

1353

01:00:27,960 --> 01:00:25,030

food supply because it's not airborne

1354

01:00:30,720 --> 01:00:27,970

it's not necessarily waterborne but it's

1355

01:00:32,610 --> 01:00:30,730

it exists within the mineral content and

1356

01:00:35,220 --> 01:00:32,620

has taken up and then it affects you

1357

01:00:36,840 --> 01:00:35,230

well there's always been that fear and

1358

01:00:38,460 --> 01:00:36,850

and TJ I think maybe you would be aware

1359

01:00:40,470 --> 01:00:38,470

this as well there's always been that

1360

01:00:44,040 --> 01:00:40,480

fear that contact with aliens or even

1361

01:00:46,320 --> 01:00:44,050

alien life-forms microbial life uh if it

1362

01:00:48,090 --> 01:00:46,330

was on a grander scale could easily

1363

01:00:50,490 --> 01:00:48,100

bring about an extinction-level event

1364

01:00:52,440 --> 01:00:50,500

and more legally and we don't even know

1365

01:00:53,850 --> 01:00:52,450

if the extinction level event has

1366

01:00:56,160 --> 01:00:53,860

happened when we have the abduction

1367

01:00:59,400 --> 01:00:56,170

cases because ever since the abduction

1368

01:01:02,850 --> 01:00:59,410

cases we've had strange diseases befall

1369

01:01:05,270 --> 01:01:02,860

us anything from AIDS HIV to bovine

1370

01:01:08,240 --> 01:01:05,280

spongiform encephalopathy to

1371

01:01:10,040 --> 01:01:08,250

you know mad cow disease to Morgellons

1372

01:01:11,990 --> 01:01:10,050

disease I mean all these things that

1373

01:01:14,120 --> 01:01:12,000

happened after the so-called alien

1374

01:01:16,340 --> 01:01:14,130

abduction phenomena and and and that

1375

01:01:18,350 --> 01:01:16,350

would say to me that perhaps we've

1376

01:01:20,480 --> 01:01:18,360

already come in contact with some alien

1377

01:01:22,160 --> 01:01:20,490

diseases and these alien diseases are

1378

01:01:24,080 --> 01:01:22,170

now with us we're trying to cure them

1379

01:01:27,080 --> 01:01:24,090

and we're trying to remedy the problem

1380

01:01:28,790 --> 01:01:27,090

as best we can yeah 9am i agree with you

1381

01:01:30,680 --> 01:01:28,800

one hundred percent because every time I

1382

01:01:34,460 --> 01:01:30,690

look up and I see a contrail all i can

1383

01:01:37,640 --> 01:01:34,470

think of it those are spics exactly TJ

1384

01:01:39,800 --> 01:01:37,650

any comments before we go to break um no

1385

01:01:42,740 --> 01:01:39,810

that was all yeah one other one is he's

1386

01:01:45,710 --> 01:01:42,750

not a hypocrite because dr. Hawke uh the

1387

01:01:48,740 --> 01:01:45,720

hawkins hawkins could actually be more

1388

01:01:51,500 --> 01:01:48,750

honestly say by saying i am listening i

1389

01:01:55,280 --> 01:01:51,510

am not trying to contact on these but

1390

01:01:57,320 --> 01:01:55,290

it's semantics man it's also me oh no no

1391

01:01:58,640 --> 01:01:57,330

because it says listen he doesn't want

1392

01:02:00,020 --> 01:01:58,650

to speak to them he just wants to know

1393

01:02:04,670 --> 01:02:00,030

where they are so he can walk the other

1394

01:02:06,320 --> 01:02:04,680

way or roll the other way you know I've

1395

01:02:09,470 --> 01:02:06,330

never heard explained in such a way that

1396

01:02:11,600 --> 01:02:09,480

makes me smile PJ I really thank you for

1397

01:02:13,040 --> 01:02:11,610

coming on the program tonight alright

1398

01:02:14,690 --> 01:02:13,050

will you keep that in mind and remember

1399

01:02:16,670 --> 01:02:14,700

like I would say to everybody i

1400

01:02:18,770 --> 01:02:16,680

genuinely like i hope the good gets

1401

01:02:20,840 --> 01:02:18,780

better in the bag gets law ah that's

1402

01:02:23,210 --> 01:02:20,850

very good DJ thank you for the call very

1403

01:02:24,920 --> 01:02:23,220

good call from TJ you know Timmy maybe

1404

01:02:26,780 --> 01:02:24,930

that's true i mean i've been saying that

1405

01:02:29,000 --> 01:02:26,790

the whole time and Stephen Hawking has

1406

01:02:31,340 --> 01:02:29,010

created this dubious paradox but it's

1407

01:02:33,320 --> 01:02:31,350

true maybe he is trying to contact them

1408

01:02:35,000 --> 01:02:33,330

so it gets the idea to get the hell out

1409

01:02:37,040 --> 01:02:35,010

of dodge by rolling away somewhere in

1410

01:02:40,480 --> 01:02:37,050

hiding so the aliens don't come and eat

1411

01:02:43,370 --> 01:02:40,490

him well you know somehow I cannot take

1412

01:02:45,320 --> 01:02:43,380

such a negative view here I mean if we

1413

01:02:48,050 --> 01:02:45,330

had that attitude towards everything

1414

01:02:51,740 --> 01:02:48,060

we'd never explore even our own planet

1415

01:02:55,490 --> 01:02:51,750

right we'd be afraid to you know get off

1416

01:02:58,850 --> 01:02:55,500

the the the rowboat or the canoe I don't

1417

01:03:02,570 --> 01:02:58,860

know I just don't see it you know like I

1418

01:03:06,650 --> 01:03:02,580

say this is a 2015 we have more

1419

01:03:09,110 --> 01:03:06,660

precautions available then we certainly

1420

01:03:12,980 --> 01:03:09,120

did you know with twenty five fifty or a

1421

01:03:16,550 --> 01:03:12,990

hundred years ago and by time this

1422

01:03:19,109 --> 01:03:16,560

happens on a theoretical basis probably

1423

01:03:21,870 --> 01:03:19,119

will even have more precautions in

1424

01:03:25,529 --> 01:03:21,880

play but ok let's do it on Mars if

1425

01:03:26,640 --> 01:03:25,539

somehow we could take these right well

1426

01:03:29,039 --> 01:03:26,650

first of all we don't know if they're

1427

01:03:30,420 --> 01:03:29,049

there that we know that there's now

1428

01:03:31,890 --> 01:03:30,430

they're saying there's water even though

1429

01:03:36,059 --> 01:03:31,900

we suspected that it might have been

1430

01:03:38,249 --> 01:03:36,069

there but the gates at all right right

1431

01:03:40,079 --> 01:03:38,259

one but they're taking the precautions

1432

01:03:41,730 --> 01:03:40,089

yeah just in case and I think they're

1433

01:03:44,940 --> 01:03:41,740

leaning more towards the idea that life

1434

01:03:46,980 --> 01:03:44,950

is there it would seem plausible that's

1435

01:03:48,690 --> 01:03:46,990

the case and to follow up with what I

1436

01:03:50,430 --> 01:03:48,700

talked about on Monday these new

1437

01:03:52,079 --> 01:03:50,440

directorates and all this other stuff I

1438

01:03:53,819 --> 01:03:52,089

think are the formalities even the

1439

01:03:55,410 --> 01:03:53,829

United Nations has their own protocols

1440

01:03:57,749 --> 01:03:55,420

for welcoming alien life or even

1441

01:03:59,249 --> 01:03:57,759

welcoming the possibility of microbial

1442

01:04:03,089 --> 01:03:59,259

life but this was done many years ago

1443

01:04:06,089 --> 01:04:03,099

when they assigned the outer space the

1444

01:04:08,609 --> 01:04:06,099

outer space consider that with a consult

1445

01:04:11,519 --> 01:04:08,619

that was there at NASA at the United

1446

01:04:14,549 --> 01:04:11,529

Nations triple-eight 673 3,700 a triple

1447

01:04:17,039 --> 01:04:14,559

eight 673 3710 beckley was on Ground

1448

01:04:21,720 --> 01:04:17,049

Zero will be back contamination process

1449

01:04:24,120 --> 01:04:21,730

complete a nice day I'm quite Louise and

1450

01:04:26,099 --> 01:04:24,130

this is ground zero a little science

1451

01:04:28,890 --> 01:04:26,109

fiction predictive programming for you

1452

01:04:32,759 --> 01:04:28,900

all Prometheus about aliens you want to

1453

01:04:35,160 --> 01:04:32,769

kill us with biological weapons bacteria

1454

01:04:36,100 --> 01:04:35,170

from space bacteria that evolves into

1455

01:04:39,160 --> 01:04:36,110

those

1456

01:04:40,810 --> 01:04:39,170

acid bloody aliens and of course

1457

01:04:43,450 --> 01:04:40,820

Andromeda Strain Michael Crichton's

1458

01:04:45,010 --> 01:04:43,460

thriller about bringing back some

1459

01:04:46,630 --> 01:04:45,020

contaminant and I was reminded by

1460

01:04:47,920 --> 01:04:46,640

Christopher tonight an email remember

1461

01:04:50,080 --> 01:04:47,930

the third planet of the apes will be

1462

01:04:52,660 --> 01:04:50,090

Ricardo Montalban was showing Roddy

1463

01:04:55,120 --> 01:04:52,670

McDowall 8 character the memorial statue

1464

01:04:58,810 --> 01:04:55,130  
to all the dogs and cats who were

1465

01:05:00,730 --> 01:04:58,820  
extinct due to bacteria brought back by

1466

01:05:02,320 --> 01:05:00,740  
the astronauts it has been in our

1467

01:05:04,240 --> 01:05:02,330  
mythologies has been our movies it's

1468

01:05:06,400 --> 01:05:04,250  
been part of scripts the idea that

1469

01:05:08,230 --> 01:05:06,410  
perhaps we could be contaminated by this

1470

01:05:10,330 --> 01:05:08,240  
life that we've discovered or that may

1471

01:05:12,370 --> 01:05:10,340  
be discovered on Mars it's go to Glenn

1472

01:05:16,330 --> 01:05:12,380  
in Texas I Glenn you're on with Timothy

1473

01:05:20,200 --> 01:05:16,340  
blackley go ahead hello Tim how y'all

1474

01:05:24,220 --> 01:05:20,210  
did great what if I say I think we

1475

01:05:28,540 --> 01:05:24,230  
always project ourselves into an alien

1476

01:05:33,670 --> 01:05:28,550

scenario our human use ilysm it's like

1477

01:05:37,410 --> 01:05:33,680

it's like listening to a disney wildlife

1478

01:05:45,690 --> 01:05:37,420

show it's it's not really accurate I

1479

01:05:49,600 --> 01:05:45,700

think unfortunately we could be facing

1480

01:05:52,570 --> 01:05:49,610

creatures with no emotion whatsoever sir

1481

01:05:58,060 --> 01:05:52,580

do you realize that ants and termites

1482

01:06:01,570 --> 01:05:58,070

they have metrology they have limbo

1483

01:06:03,850 --> 01:06:01,580

ology they have agriculture they have

1484

01:06:09,940 --> 01:06:03,860

chemistry they even have animal

1485

01:06:13,930 --> 01:06:09,950

husbandry and we wouldn't call them in

1486

01:06:17,770 --> 01:06:13,940

any way shape or form intelligent but

1487

01:06:21,070 --> 01:06:17,780

that may be one scenario there may be an

1488

01:06:24,160 --> 01:06:21,080

intelligence to the creatures but they

1489

01:06:29,380 --> 01:06:24,170

wouldn't be interested in subjugation or

1490

01:06:31,870 --> 01:06:29,390

power or or or any kind of emotionalism

1491

01:06:33,700 --> 01:06:31,880

as we know it right and that's really

1492

01:06:35,170 --> 01:06:33,710

frightening that's really frightened you

1493

01:06:37,990 --> 01:06:35,180

bring up an interesting point Glenn and

1494

01:06:40,150 --> 01:06:38,000

that is the the psychoanalysis of the

1495

01:06:41,590 --> 01:06:40,160

aliens of the psychoanalysis of life if

1496

01:06:44,350 --> 01:06:41,600

we find it in your right the answer

1497

01:06:45,970 --> 01:06:44,360

primores yeah me and from Orphic with

1498

01:06:48,329 --> 01:06:45,980

the aliens is also something that may be

1499

01:06:50,459 --> 01:06:48,339

a mistake but it's true though

1500

01:06:53,670 --> 01:06:50,469

and Tim I I think you may know this too

1501

01:06:56,370 --> 01:06:53,680

is Tim still with us I'm here ok there

1502

01:06:58,559 --> 01:06:56,380

you are it isn't interesting though that

1503

01:07:01,079 --> 01:06:58,569

if you're watching a movie about

1504

01:07:02,430 --> 01:07:01,089

extraterrestrials we don't care about

1505

01:07:04,289 --> 01:07:02,440

the extraterrestrials that don't look

1506

01:07:06,180 --> 01:07:04,299

anthropomorphic we care more about them

1507

01:07:08,479 --> 01:07:06,190

they see more human-like and that I

1508

01:07:11,969 --> 01:07:08,489

think is dangerous as well don't you

1509

01:07:13,709 --> 01:07:11,979

well you know again there's so many

1510

01:07:15,539 --> 01:07:13,719

different scenarios that you could you

1511

01:07:18,829 --> 01:07:15,549

could pick here you know I was thinking

1512

01:07:22,849 --> 01:07:18,839

before okay suppose we we come across a

1513

01:07:24,809 --> 01:07:22,859

an evil a negative a group of

1514

01:07:27,180 --> 01:07:24,819

extraterrestrials they aliens somewhere

1515

01:07:28,739 --> 01:07:27,190

in space booze not to say in fact this

1516

01:07:30,599 --> 01:07:28,749

is one of the things that the contactees

1517

01:07:32,130 --> 01:07:30,609

have always said for years that we are

1518

01:07:35,190 --> 01:07:32,140

actually protected that there are other

1519

01:07:38,009 --> 01:07:35,200

groups that kind of keep an eye on our

1520

01:07:41,430 --> 01:07:38,019

atmosphere to make sure that some of

1521

01:07:43,259 --> 01:07:41,440

these negative groups don't come here

1522

01:07:44,779 --> 01:07:43,269

and and harass us of course it seems

1523

01:07:46,859 --> 01:07:44,789

like you're getting through on some

1524

01:07:48,599 --> 01:07:46,869

occasions but we don't know what we're

1525

01:07:50,519 --> 01:07:48,609

dealing with a we have all these cases

1526

01:07:52,950 --> 01:07:50,529

of different types of altered

1527

01:07:55,380 --> 01:07:52,960

terrestrials from all over the world so

1528

01:07:58,170 --> 01:07:55,390

it would seem that some sort of a

1529

01:08:01,499 --> 01:07:58,180

contact with something has already taken

1530

01:08:03,839 --> 01:08:01,509

place so I kind of like to bump it up a

1531

01:08:06,959 --> 01:08:03,849

level beyond the you know the

1532

01:08:08,940 --> 01:08:06,969

microscopic tight right Glenn thank you

1533

01:08:10,650 --> 01:08:08,950

a call that's a great call let's go down

1534

01:08:13,049 --> 01:08:10,660

to Terrance in South Carolina hi

1535

01:08:14,910 --> 01:08:13,059

Terrance from ground zero hey I

1536

01:08:16,499 --> 01:08:14,920

appreciate you taking my call Opie

1537

01:08:20,010 --> 01:08:16,509

gentlemen are doing well tonight we are

1538

01:08:21,749 --> 01:08:20,020

going head all right I was listening to

1539

01:08:23,910 --> 01:08:21,759

yourselves and I've been listening to it

1540

01:08:26,430 --> 01:08:23,920

now strongly for about two years and I

1541

01:08:29,939 --> 01:08:26,440

am in South Carolina I only get an hour

1542

01:08:33,030 --> 01:08:29,949

of your broadcast sorry i'm new too I'm

1543

01:08:35,579 --> 01:08:33,040

yeah I know right I'm new to this the

1544

01:08:39,329 --> 01:08:35,589

whole conspiracy theory thing Mars and

1545

01:08:41,370 --> 01:08:39,339

what have you and I'm curious to know do

1546

01:08:45,269 --> 01:08:41,380

you believe that it could possibly be up

1547

01:08:48,329 --> 01:08:45,279

and where these elite the ones who

1548

01:08:50,160 --> 01:08:48,339

control us or rule over us could it be a

1549

01:08:52,559 --> 01:08:50,170

possibility that they want to find out

1550

01:08:54,450 --> 01:08:52,569

if life can be supported on Mars so that

1551

01:08:57,990 --> 01:08:54,460

they can leave this planet because they

1552

01:08:59,829 --> 01:08:58,000

know of an impending destruction to this

1553

01:09:02,379 --> 01:08:59,839

planet I mean most shows that

1554

01:09:04,510 --> 01:09:02,389

I've seen such as the walking dead and

1555

01:09:08,970 --> 01:09:04,520

the x-files they deal with these

1556

01:09:12,129 --> 01:09:08,980

situations where they speak on um the

1557

01:09:14,140 --> 01:09:12,139

elite trying to find a way to get out of

1558

01:09:15,519 --> 01:09:14,150

here leave everybody look on Terrence

1559

01:09:17,260 --> 01:09:15,529

Terrence is called the breakaway

1560

01:09:18,910 --> 01:09:17,270

civilization Tim do you have any

1561

01:09:21,430 --> 01:09:18,920

thoughts on the breakaway civilizations

1562

01:09:22,959 --> 01:09:21,440

I know many people have talked about

1563

01:09:25,149 --> 01:09:22,969

this and the idea that there is some

1564

01:09:27,339 --> 01:09:25,159

catastrophe looming and that's why they

1565

01:09:32,220 --> 01:09:27,349

are rushing towards such states is 20 30

1566

01:09:34,720 --> 01:09:32,230

maybe even 2050 well you know for sure

1567

01:09:37,689 --> 01:09:34,730

only the rich are going to get off the

1568

01:09:39,579 --> 01:09:37,699

the planet I mean even if we go to one

1569

01:09:41,589 --> 01:09:39,589

of these like Bob Bigelow who's got a

1570

01:09:43,839 --> 01:09:41,599

you know his own space program you know

1571

01:09:45,669 --> 01:09:43,849

private the Commerce how much is it

1572

01:09:49,959 --> 01:09:45,679

going to cost you to take a seat there

1573

01:09:52,479 --> 01:09:49,969

on his ship probably more than you and I

1574

01:09:55,180 --> 01:09:52,489

even if we pulled our pennies would be

1575

01:09:58,300 --> 01:09:55,190

able what would be able to get a seat

1576

01:10:01,390 --> 01:09:58,310

there you know and yes I I think that

1577

01:10:05,140 --> 01:10:01,400

this a breakaway civilization the secret

1578

01:10:08,290 --> 01:10:05,150

space program is as we call it exists

1579

01:10:10,000 --> 01:10:08,300

and some of these people may be the

1580

01:10:11,379 --> 01:10:10,010

ultra-rich maybe some other in the New

1581

01:10:12,609 --> 01:10:11,389

World Order a little bit naughty I don't

1582

01:10:16,479 --> 01:10:12,619

know what you want to call them have

1583

01:10:19,959 --> 01:10:16,489

actually been taking a part in in space

1584

01:10:22,660 --> 01:10:19,969

travel for many years you know without

1585

01:10:24,939 --> 01:10:22,670

us being aware of it in fact even going

1586

01:10:27,700 --> 01:10:24,949

back to 1897 you know the UFO flap that

1587

01:10:29,979 --> 01:10:27,710

took a place in the United States and in

1588

01:10:31,720 --> 01:10:29,989

several other countries as well many of

1589

01:10:33,850 --> 01:10:31,730

these ships are actually landed and they

1590

01:10:37,780 --> 01:10:33,860

conversed with the farmers and ranchers

1591

01:10:40,169 --> 01:10:37,790

in ordinary people in several cities and

1592

01:10:44,320 --> 01:10:40,179

what did they do they looked human and

1593

01:10:49,030 --> 01:10:44,330

they spoke English and they always

1594

01:10:51,520 --> 01:10:49,040

concocted some totally absurd story as

1595

01:10:52,990 --> 01:10:51,530

to you know where they have originated

1596

01:10:56,470 --> 01:10:53,000

from they were from Cuba they were from

1597

01:10:58,990 --> 01:10:56,480

Holland they were from Argentina now

1598

01:11:01,419 --> 01:10:59,000

they tell you they're from Mars or Venus

1599

01:11:03,399 --> 01:11:01,429

so we really don't know but yeah there

1600

01:11:06,100 --> 01:11:03,409

has been this breakaway civilization or

1601  
01:11:08,320 --> 01:11:06,110  
space secret space program that's been

1602  
01:11:09,669 --> 01:11:08,330  
going on behind our backs I I would

1603  
01:11:12,580 --> 01:11:09,679  
suspect I mean we've talked about that

1604  
01:11:13,570 --> 01:11:12,590  
on the on the air before how perhaps

1605  
01:11:17,470 --> 01:11:13,580  
even the the

1606  
01:11:19,780 --> 01:11:17,480  
Germans as far back as the 1920s had

1607  
01:11:21,970 --> 01:11:19,790  
channeled information from some outside

1608  
01:11:23,890 --> 01:11:21,980  
this source and had gone off on their

1609  
01:11:26,710 --> 01:11:23,900  
own to develop their own space program

1610  
01:11:27,910 --> 01:11:26,720  
and as part of project paper clip we

1611  
01:11:30,970 --> 01:11:27,920  
brought them over here to the United

1612  
01:11:33,460 --> 01:11:30,980  
States a lot of these up devout not

1613  
01:11:37,620 --> 01:11:33,470

seasoned Germans and scientists and in

1614

01:11:40,390 --> 01:11:37,630

put them to work and they probably were

1615

01:11:42,190 --> 01:11:40,400

working on this their own old method of

1616

01:11:45,580 --> 01:11:42,200

getting into space and that information

1617

01:11:48,040 --> 01:11:45,590

i do believe is being kept from us and

1618

01:11:50,260 --> 01:11:48,050

maybe even NASA doesn't know about it

1619

01:11:52,600 --> 01:11:50,270

well and we know from last night showed

1620

01:11:55,000 --> 01:11:52,610

up actually in two nights ago das Mars

1621

01:11:56,830 --> 01:11:55,010

project was something that Verner von

1622

01:12:00,250 --> 01:11:56,840

Braun had thought up and was eventually

1623

01:12:01,930 --> 01:12:00,260

part of a Disney presentation and yes so

1624

01:12:03,580 --> 01:12:01,940

he was put into the public as a

1625

01:12:04,450 --> 01:12:03,590

possibility of going to Mars long before

1626

01:12:06,220 --> 01:12:04,460

they even thought about going to the

1627

01:12:08,890 --> 01:12:06,230

moon let's go to mark in Texas you're on

1628

01:12:12,490 --> 01:12:08,900

with Tim beckley go ahead hey how you

1629

01:12:14,380 --> 01:12:12,500

doing what doing great all right so as

1630

01:12:17,020 --> 01:12:14,390

I'm listening I'm hearing more and more

1631

01:12:20,680 --> 01:12:17,030

people talk about you know like space

1632

01:12:22,630 --> 01:12:20,690

outer space you know travel above our

1633

01:12:25,180 --> 01:12:22,640

earth's surface and stuff like that and

1634

01:12:28,030 --> 01:12:25,190

what I'm here to ask you today is do you

1635

01:12:29,890 --> 01:12:28,040

think this is the only way we'd ever

1636

01:12:34,450 --> 01:12:29,900

come in contact with extraterrestrial

1637

01:12:39,460 --> 01:12:34,460

life-forms is traveling above our planet

1638

01:12:42,220 --> 01:12:39,470

no absolutely not no not at all it's not

1639

01:12:44,680 --> 01:12:42,230

the other way I would I was learning

1640

01:12:47,380 --> 01:12:44,690

about the the Large Hadron Collider not

1641

01:12:49,120 --> 01:12:47,390

too long ago and how about the Large

1642

01:12:51,490 --> 01:12:49,130

Hadron Collider was used to find the

1643

01:12:53,740 --> 01:12:51,500

Higgs boson and I guess it got shut down

1644

01:12:55,690 --> 01:12:53,750

for a while and now it is being ended

1645

01:13:00,010 --> 01:12:55,700

put independently funded in Switzerland

1646

01:13:02,560 --> 01:13:00,020

and what they are doing now is it's

1647

01:13:04,480 --> 01:13:02,570

pretty it's pretty crazy and as I was

1648

01:13:06,370 --> 01:13:04,490

listening to you talked earlier about a

1649

01:13:07,660 --> 01:13:06,380

bunch of warnings I've been happening

1650

01:13:10,600 --> 01:13:07,670

you know I've heard just heard a lot of

1651

01:13:12,730 --> 01:13:10,610

hoopla here and they are about the Blood

1652

01:13:14,020 --> 01:13:12,740

Moon you know and if something has to do

1653

01:13:15,100 --> 01:13:14,030

with the Jews and everybody getting

1654

01:13:16,450 --> 01:13:15,110

together and and there's all these

1655

01:13:18,490 --> 01:13:16,460

warning signs if they do start to make

1656

01:13:22,150 --> 01:13:18,500

sense and as I'm and as I was watching

1657

01:13:25,060 --> 01:13:22,160

this I guess documentary type deal about

1658

01:13:27,339 --> 01:13:25,070

about how firm is using the Large Hadron

1659

01:13:30,099 --> 01:13:27,349

Collider to to do something great

1660

01:13:33,310 --> 01:13:30,109

Peter and it was relating a lot of the

1661

01:13:35,229 --> 01:13:33,320

things to the Christian Bible and it was

1662

01:13:36,639 --> 01:13:35,239

it would be that they coincided pretty

1663

01:13:39,520 --> 01:13:36,649

good you know although I'm not I'm

1664

01:13:41,739 --> 01:13:39,530

although I'm an agnostic I do believe

1665

01:13:44,409 --> 01:13:41,749

that a lot of things in the Bible are

1666

01:13:47,290 --> 01:13:44,419

you know I mean we can we can fit a

1667

01:13:49,060 --> 01:13:47,300

contact we can fit any prophecy into

1668

01:13:52,389 --> 01:13:49,070

what is happening now many people have

1669

01:13:53,619 --> 01:13:52,399

fit prophecy uh you know Anthony patch

1670

01:13:55,509 --> 01:13:53,629

has been on the program talk about

1671

01:13:57,099 --> 01:13:55,519

certain fitting that in the prophecy but

1672

01:13:58,899 --> 01:13:57,109

the bottom line is is they told us that

1673

01:14:01,149 --> 01:13:58,909

it was time to find the Higgs boson they

1674

01:14:03,549 --> 01:14:01,159

allegedly found the Higgs boson and then

1675

01:14:05,319 --> 01:14:03,559

from there the idea was to open a rosin

1676

01:14:07,060 --> 01:14:05,329

bridge wide enough and long enough to

1677

01:14:08,500 --> 01:14:07,070

send something through or have something

1678

01:14:10,179 --> 01:14:08,510

come back and if you believe what

1679

01:14:13,239 --> 01:14:10,189

Anthony patch has been saying the whole

1680

01:14:15,219 --> 01:14:13,249

idea is to make a conduit wormhole to

1681

01:14:17,349 --> 01:14:15,229

places like Saturn and Jupiter and other

1682

01:14:19,959 --> 01:14:17,359

and other planets they could also

1683

01:14:21,879 --> 01:14:19,969

construct a wormhole that could take us

1684

01:14:23,859 --> 01:14:21,889

directly to Mars in a short amount of

1685

01:14:26,139 --> 01:14:23,869

time rather than long-term space travel

1686

01:14:27,639 --> 01:14:26,149

all we have to do is just walk through

1687

01:14:29,290 --> 01:14:27,649

the wormhole to the other side or walk

1688

01:14:30,520 --> 01:14:29,300

through the stable wormhole they create

1689

01:14:33,099 --> 01:14:30,530

and walk to the other side I know that

1690

01:14:35,469 --> 01:14:33,109

sounds so science fiction but science

1691

01:14:38,259 --> 01:14:35,479

fiction is becoming more science fact as

1692

01:14:39,639 --> 01:14:38,269

we progress in what is called the future

1693

01:14:41,439 --> 01:14:39,649

the future that they talked about in

1694

01:14:44,709 --> 01:14:41,449

comic books in the Jetsons it's really

1695

01:14:47,560 --> 01:14:44,719

amazing I definitely agree with you and

1696

01:14:50,229 --> 01:14:47,570

then I can't disagree on that one and

1697

01:14:52,919 --> 01:14:50,239

and yet it is good to me you mentioned

1698

01:14:55,060 --> 01:14:52,929

how it's a wormhole to get us somewhere

1699

01:14:57,159 --> 01:14:55,070

somewhere in our in our physical world

1700

01:14:58,719 --> 01:14:57,169

what what I was thinking and what has

1701

01:15:02,139 --> 01:14:58,729

been an idea in my mind it was something

1702

01:15:03,339 --> 01:15:02,149

like dimensional travel of course that

1703

01:15:04,659 --> 01:15:03,349

pop yeah that's exactly what we're

1704

01:15:06,399 --> 01:15:04,669

talking about using the dimensional

1705

01:15:08,799 --> 01:15:06,409

doorway is open on i will say you know

1706

01:15:11,669 --> 01:15:08,809

even even psychics even psychics going

1707

01:15:15,009 --> 01:15:11,679

back 100 to 200 years there was a medium

1708

01:15:17,310 --> 01:15:15,019

who wrote a book i think was probably in

1709

01:15:21,459 --> 01:15:17,320

around eighteen seventy years old called

1710

01:15:22,810 --> 01:15:21,469

from india to the planet mars and a lot

1711

01:15:25,149 --> 01:15:22,820

of people that were involved in

1712

01:15:26,739 --> 01:15:25,159

paranormal research at that time we're

1713

01:15:28,330 --> 01:15:26,749

taking out of body trips and claiming

1714

01:15:30,369 --> 01:15:28,340

that they were going to other planets

1715

01:15:33,339 --> 01:15:30,379

and and meeting it you know of

1716

01:15:35,679 --> 01:15:33,349

intelligent beings there now who's to

1717

01:15:38,080 --> 01:15:35,689

say we're looking for microscopic beings

1718

01:15:40,300 --> 01:15:38,090

and and so forth who's to say that there

1719

01:15:42,280 --> 01:15:40,310

aren't beings that live

1720

01:15:44,500 --> 01:15:42,290

in a parallel universe or another

1721

01:15:46,540 --> 01:15:44,510

dimension that are invisible to us oh

1722

01:15:48,340 --> 01:15:46,550

yeah under under normal conditions will

1723

01:15:49,930 --> 01:15:48,350

you we've discussed that before you've

1724

01:15:52,870 --> 01:15:49,940

had other guest on the program Clyde

1725

01:15:55,210 --> 01:15:52,880

that brought up their own experiences or

1726

01:15:57,700 --> 01:15:55,220

experiences along the sideline we were

1727

01:16:00,190 --> 01:15:57,710

talking when we talk about CERN there

1728

01:16:02,560 --> 01:16:00,200

are alien beings that can be just pure

1729

01:16:04,420 --> 01:16:02,570

light or alien beings that are not seen

1730

01:16:06,760 --> 01:16:04,430

and yet you feel their presence and the

1731

01:16:08,470 --> 01:16:06,770

idea that many of them wish to incarnate

1732

01:16:10,060 --> 01:16:08,480

and how are they going to do so that if

1733

01:16:12,220 --> 01:16:10,070

they don't create artificial

1734

01:16:13,600 --> 01:16:12,230

intelligence or at least containers for

1735

01:16:16,270 --> 01:16:13,610

these beings that they could have

1736

01:16:17,980 --> 01:16:16,280

carne and become literally walking and

1737

01:16:21,070 --> 01:16:17,990

talking physical beings on this planet

1738

01:16:23,800 --> 01:16:21,080

and that to me you know sounds

1739

01:16:25,300 --> 01:16:23,810

outrageous but anymore nothing so

1740

01:16:27,850 --> 01:16:25,310

outrageous is to listen to what they're

1741

01:16:29,530 --> 01:16:27,860

planning for us by mapping the brain and

1742

01:16:31,360 --> 01:16:29,540

moving things and trying to collect the

1743

01:16:34,420 --> 01:16:31,370

soul and then going to Mars and finding

1744

01:16:36,190 --> 01:16:34,430

life all these things sound peculiar and

1745

01:16:37,840 --> 01:16:36,200

somebody wants somebody emailed me today

1746

01:16:39,220 --> 01:16:37,850

and said I really love it when you talk

1747

01:16:41,290 --> 01:16:39,230

about world events rather than all this

1748

01:16:43,210 --> 01:16:41,300

alien stuff and I wrote her back I says

1749

01:16:45,550 --> 01:16:43,220

what are you talking about this is world

1750

01:16:47,440 --> 01:16:45,560

events they haven't announced this as

1751

01:16:49,810 --> 01:16:47,450

usual aliens aren't real they're demons

1752

01:16:51,760 --> 01:16:49,820

I said you know wake up I mean this has

1753

01:16:54,070 --> 01:16:51,770

been happening for some time now they

1754

01:16:55,180 --> 01:16:54,080

finally have told us a little bit of the

1755

01:16:57,010 --> 01:16:55,190

puzzle not the hope they haven't given

1756

01:16:59,260 --> 01:16:57,020

us the whole puzzle yet but I'm just

1757

01:17:00,970 --> 01:16:59,270

thinking you know this is a world of

1758

01:17:03,250 --> 01:17:00,980

it's the longer paranormal this is part

1759

01:17:05,350 --> 01:17:03,260

of normalcy now our normalcy bias has

1760

01:17:06,700 --> 01:17:05,360

been stepped on with regard to the

1761

01:17:08,770 --> 01:17:06,710

aliens and now we have to figure out

1762

01:17:10,570 --> 01:17:08,780

what's the next phase the next step for

1763

01:17:12,070 --> 01:17:10,580

NASA to report mark thanks for the call

1764

01:17:13,300 --> 01:17:12,080

Tim beckley whether it stood on the

1765

01:17:25,569 --> 01:17:13,310

ground zero we'll be back with more to

1766

01:17:29,020 --> 01:17:27,189

I'm like Lewis and this is ground zero

1767

01:17:31,779 --> 01:17:29,030

Timothy Bickley with Aston on the ground

1768

01:17:35,529 --> 01:17:31,789

zero mr. UFO I wanted to ask something

1769

01:17:38,919 --> 01:17:35,539

before we go to another call Tim and I'm

1770

01:17:40,359 --> 01:17:38,929

very surprised and how this was all

1771

01:17:44,020 --> 01:17:40,369

accepted how this has all been taken the

1772

01:17:45,750 --> 01:17:44,030

announcement was made and there was as

1773

01:17:49,149 --> 01:17:45,760

much excitement as I had thought about

1774

01:17:50,979 --> 01:17:49,159

this issue and that I figured it would

1775

01:17:54,069 --> 01:17:50,989

be buzzed and buzzed and buzzed on the

1776

01:17:56,500 --> 01:17:54,079

news but no politics are still capturing

1777

01:17:58,929 --> 01:17:56,510

the imaginations or at least the media

1778

01:18:00,879 --> 01:17:58,939

is pushing politics and pushing these

1779

01:18:02,469 --> 01:18:00,889

things so we don't think about the

1780

01:18:04,479 --> 01:18:02,479

possibility of life is that the case

1781

01:18:07,199 --> 01:18:04,489

because I'm really surprised that there

1782

01:18:09,579 --> 01:18:07,209

aren't no you know intense or in

1783

01:18:11,799 --> 01:18:09,589

in-depth coverage or three-day coverages

1784

01:18:14,020 --> 01:18:11,809

in the news cycle well you know of

1785

01:18:17,049 --> 01:18:14,030

course the Pope was you know around

1786

01:18:19,449 --> 01:18:17,059

during this period is well but you know

1787

01:18:21,389 --> 01:18:19,459

maybe the media considers it it's like I

1788

01:18:23,589 --> 01:18:21,399

say it's some of this has been done uh

1789

01:18:26,290 --> 01:18:23,599

before maybe they're looking for a

1790

01:18:28,989 --> 01:18:26,300

little bit more hardcore evidence I

1791

01:18:31,509 --> 01:18:28,999

don't know if anybody has anybody taken

1792

01:18:33,879 --> 01:18:31,519

a survey or a poll of the public to see

1793

01:18:37,209 --> 01:18:33,889

what they think of the idea that there

1794

01:18:39,399 --> 01:18:37,219

there baby water on Mars I mean I I

1795

01:18:42,250 --> 01:18:39,409

would think that the it did not get the

1796

01:18:44,679 --> 01:18:42,260

coverage that it deserved I know that's

1797

01:18:49,239 --> 01:18:44,689

that's very short the buzz about it on

1798

01:18:52,179 --> 01:18:49,249

the internet was the hype was bigger

1799

01:18:54,279 --> 01:18:52,189

than the the actual release of the

1800

01:18:55,659 --> 01:18:54,289

information I would have thought that

1801

01:18:59,560 --> 01:18:55,669

they would have had a press conference

1802

01:19:01,389 --> 01:18:59,570

on CNN and they have in the past but i

1803

01:19:03,579 --> 01:19:01,399

don't know maybe there's just too much

1804

01:19:04,989 --> 01:19:03,589

news going on at it you got to space

1805

01:19:07,000 --> 01:19:04,999

these things just at the right moment

1806

01:19:08,409 --> 01:19:07,010

yeah maybe the timing was off but it

1807

01:19:10,479 --> 01:19:08,419

again the Martian opens this friday

1808

01:19:13,000 --> 01:19:10,489

let's go to arnold ohio your own ground

1809

01:19:14,889 --> 01:19:13,010

zero hey I wanted to bring forth a

1810

01:19:17,829 --> 01:19:14,899

couple of things about the human race

1811

01:19:20,529 --> 01:19:17,839

mankind and what we don't do we usually

1812

01:19:23,889 --> 01:19:20,539

jump before we look I'll give you two

1813

01:19:27,250 --> 01:19:23,899

examples the ten can was invented before

1814

01:19:32,889 --> 01:19:27,260

the can opener and the second thing is

1815

01:19:36,669 --> 01:19:32,899

that in the early space space age we set

1816

01:19:38,620 --> 01:19:36,679

a disk on a satellite out into the

1817

01:19:41,950 --> 01:19:38,630

universe they're told

1818

01:19:44,500 --> 01:19:41,960

exactly where we are who we are what

1819

01:19:46,740 --> 01:19:44,510

planet were on and a sample of the

1820

01:19:49,290 --> 01:19:46,750

English language and a few other things

1821

01:19:53,200 --> 01:19:49,300

why would you want to do that and not

1822

01:19:55,560 --> 01:19:53,210

not know what's on the receiving end and

1823

01:19:58,150 --> 01:19:55,570

I want to use those two parables

1824

01:20:00,640 --> 01:19:58,160

anything that they may find of any life

1825

01:20:02,500 --> 01:20:00,650

form anywhere else it needs to be left

1826

01:20:04,330 --> 01:20:02,510

where it is until you can figure out how

1827

01:20:06,040 --> 01:20:04,340

to contain it and control it before you

1828

01:20:08,110 --> 01:20:06,050

even think about bringing it back there

1829

01:20:11,140 --> 01:20:08,120

or watch it and not touch it because I'm

1830

01:20:12,490 --> 01:20:11,150

sure that once again we may even we have

1831

01:20:14,320 --> 01:20:12,500

the directors for extraterrestrial

1832

01:20:16,420 --> 01:20:14,330

contact laws against and come in contact

1833

01:20:18,640 --> 01:20:16,430

and of course we may even invent the

1834

01:20:20,650 --> 01:20:18,650

prime directive the same as what is on

1835

01:20:22,330 --> 01:20:20,660

Star Trek and of course we've actually

1836

01:20:24,760 --> 01:20:22,340

fashioned and modeled a lot of our

1837

01:20:27,550 --> 01:20:24,770

gadgets and things we use today on the

1838

01:20:28,690 --> 01:20:27,560

Star Trek right the idea that Star Trek

1839

01:20:31,150 --> 01:20:28,700

model so who knows what will happen

1840

01:20:32,410 --> 01:20:31,160

Arnold thanks for the call Timothy thank

1841

01:20:34,270 --> 01:20:32,420

you for being on the program that it was

1842

01:20:36,760 --> 01:20:34,280

very interesting conversation well my

1843

01:20:38,650 --> 01:20:36,770

pleasure always to be on ground zero and

1844

01:20:40,420 --> 01:20:38,660

one last reminder if anybody is

1845

01:20:42,880 --> 01:20:40,430

intrigued by the information that I am

1846

01:20:45,640 --> 01:20:42,890

able to supply please subscribe to my

1847

01:20:47,830 --> 01:20:45,650

youtube channel which is mr. UFO secret

1848

01:20:50,080 --> 01:20:47,840

files we have about fifty five

1849

01:20:52,660 --> 01:20:50,090

interviews up there many of which I've

1850

01:20:54,910 --> 01:20:52,670

done my program which is exploring the

1851  
01:20:56,680 --> 01:20:54,920  
bizarre and some while traveling around

1852  
01:20:59,080 --> 01:20:56,690  
the country it's all a mysterious

1853  
01:21:01,930 --> 01:20:59,090  
universe and I'm looking to continue the

1854  
01:21:03,010 --> 01:21:01,940  
forward to it explore it Tim beckley mr.

1855  
01:21:05,530 --> 01:21:03,020  
UFO thank you for being on the program

1856  
01:21:06,820 --> 01:21:05,540  
today we appreciate it take care and as

1857  
01:21:09,760 --> 01:21:06,830  
ground zero for die join us tomorrow

1858  
01:21:11,980 --> 01:21:09,770  
night and we may be exploring a little

1859  
01:21:14,890 --> 01:21:11,990  
bit about what's going on with Syria or

1860  
01:21:16,450 --> 01:21:14,900  
looking into any stories we may have in

1861  
01:21:18,460 --> 01:21:16,460  
the ground sort of an angle to that I

1862  
01:21:19,930 --> 01:21:18,470  
mean that's always been the case when

1863  
01:21:21,820 --> 01:21:19,940

coming breaking stories tonight I

1864

01:21:23,820 --> 01:21:21,830

thought the story broke a little late so

1865

01:21:26,860 --> 01:21:23,830

we went with this story tomorrow we may

1866

01:21:28,840 --> 01:21:26,870

approach this no guarantees but still

1867

01:21:30,310 --> 01:21:28,850

we're doing our best to get you the most

1868

01:21:33,100 --> 01:21:30,320

information we can on this program

1869

01:21:35,200 --> 01:21:33,110

always trying to bring you an honest and

1870

01:21:38,150 --> 01:21:35,210

interesting look into the world right
