00:00:44,400 --> 00:00:42,580

explode the bazaar or e-ticket riders of

3
00:00:47,680 --> 00:00:44,410

the world of the paranoid

4
00:00:51,960 --> 00:00:47,690

strap yourself mean as we traverse the

5
00:00:56,590 --> 00:00:51,970

universe exploring the unexplained UFO s

6
00:01:00,580 --> 00:00:56,600

ghosts lost well cryptozoology ones as

7
00:01:03,570 --> 00:01:00,590

well as other dimensions it's time to

8
00:01:07,210 --> 00:01:03,580

take back the NASA night

9
00:01:10,420 --> 00:01:07,220

now your electrifying hosts of exploring

10
00:01:13,170 --> 00:01:10,430

the bizarre Timothy Beck me and Tim

11
00:01:19,960 --> 00:01:16,719

this is breaking news in exploring the

12
00:01:23,499 --> 00:01:19,970

bizarre exclusive we are celebrating

13
00:01:26,830 --> 00:01:23,509

tonight 7 70th anniversary of the first

14

00:01:29,320 --> 00:01:26,840

modern day flying saucer or UFO sighting

15

00:01:33,790 --> 00:01:29,330

made by Kenneth Arnold over Mothra near

16

00:01:35,889 --> 00:01:33,800

on June 24 1947 the following is a brief

17

00:01:38,980 --> 00:01:35,899

clip from an interview that Arnold did

18

00:01:44,499 --> 00:01:38,990

with legendary news journalist Edward r

19

00:01:47,020 --> 00:01:44,509

murrow the toilet fluttered like they

20

00:01:49,930 --> 00:01:47,030

were all right they folks are very rough

21

00:01:53,859 --> 00:01:49,940

water or a very rough air of some type

22

00:01:55,960 --> 00:01:53,869

and when I described how they grew like

23

00:01:57,820 --> 00:01:55,970

that if they realize we had to stop her

24

00:02:00,130 --> 00:01:57,830

and throw it across the water

25

00:02:03,850 --> 00:02:00,140

of course the newspapers misunderstood

26

00:02:05,740 --> 00:02:03,860

miss quarterback - they said that I said

27

00:02:08,980 --> 00:02:05,750

that they were soft realize I said they

28

00:02:11,890 --> 00:02:08,990

threw in a softer I said that was on

29

00:02:13,510 --> 00:02:11,900

historic misquote well mr. Arnold's

30

00:02:16,090 --> 00:02:13,520

original explanation has been forgotten

31

00:02:18,760 --> 00:02:16,100

the term flying saucer has become a

32

00:02:20,800 --> 00:02:18,770

household word few people realized that

33

00:02:22,960 --> 00:02:20,810

mr. Arnold has reported seeing the same

34

00:02:25,660 --> 00:02:22,970

strange objects in the sky on three

35

00:02:27,580 --> 00:02:25,670

other occasions he says that some pilots

36

00:02:30,070 --> 00:02:27,590

in the Northwest have reported seeing

37

00:02:32,080 --> 00:02:30,080

them on eight separate occasions we

38

00:02:34,089 --> 00:02:32,090

asked for his own personal opinion on

39

00:02:37,089 --> 00:02:34,099

the nature of what he and the others had

40

00:02:40,360 --> 00:02:37,099

seen I don't know how better explain

41

00:02:42,630 --> 00:02:40,370

that I wore leather bro referred to the

42

00:02:45,100 --> 00:02:42,640

prisoner for what I think that means

43

00:02:48,600 --> 00:02:45,110

potential for American

44

00:02:52,140 --> 00:02:48,610

if it's not sent by our science or

45

00:02:53,700 --> 00:02:52,150

our airport I required to believe that

46

00:02:56,790 --> 00:02:53,710

it's of extraterrestrial origin

47

00:02:58,020 --> 00:02:56,800

extraterrestrial origin you mean you

48

00:03:00,180 --> 00:02:58,030

think there's a possibility they may be

49

00:03:02,160 --> 00:03:00,190

coming out of space from other planets

50

00:03:06,060 --> 00:03:02,170

I suppose that's pretty hard for people

51
00:03:09,030 --> 00:03:06,070
to take seriously well I'll go to this

52
00:03:12,240 --> 00:03:09,040
but I'll analyze why none of us have

53
00:03:14,940 --> 00:03:12,250
appreciated laughing prepared our report

54
00:03:16,740 --> 00:03:14,950
sent with the pigeon lift because we

55
00:03:19,050 --> 00:03:16,750
thought that if our government did snow

56
00:03:22,350 --> 00:03:19,060
by the quarter was only our duty to

57
00:03:24,270 --> 00:03:22,360
report it to our artists and to our

58
00:03:27,510 --> 00:03:24,280
airports honor but I think the company

59
00:03:29,940 --> 00:03:27,520
is of concern to every person in the

60
00:03:31,800 --> 00:03:29,950
desert and I don't think if anything for

61
00:03:34,500 --> 00:03:31,810
people to get hysterical about that

62
00:03:36,949 --> 00:03:34,510
reply for a period of it so that's how

63
00:03:39,690 --> 00:03:36,959

it all began that was the trigger action

64

00:03:41,699 --> 00:03:39,700

Kenneth Arnold story when studying over

65

00:03:43,949 --> 00:03:41,709

the news wires radio and newspapers

66

00:03:45,840 --> 00:03:43,959

picked it up and then within days the

67

00:03:48,930 --> 00:03:45,850

country broke out into a flood of flying

68

00:03:51,060 --> 00:03:48,940

saucer observations many of these

69

00:03:54,090 --> 00:03:51,070

reports are great many of them obviously

70

00:03:56,039 --> 00:03:54,100

could be discounted others reports from

71

00:03:58,979 --> 00:03:56,049

perfectly competent sober and reliable

72

00:04:01,890 --> 00:03:58,989

observers and that dear friends is the

73

00:04:05,280 --> 00:04:01,900

first announcement of the first modern

74

00:04:07,259 --> 00:04:05,290

day UFO or flying saucer story Tim

75

00:04:10,110 --> 00:04:07,269

Schwartz how are you out there in Jasper

76

00:04:12,210 --> 00:04:10,120

Indiana now I'm doing fantastic Tim and

77

00:04:15,539 --> 00:04:12,220

I taste I've been it's it's it's

78

00:04:20,670 --> 00:04:15,549

incredible that we still have that

79

00:04:22,530 --> 00:04:20,680

recording of Murrow and Arnold well have

80

00:04:24,240 --> 00:04:22,540

you got your noisemakers and party

81

00:04:27,600 --> 00:04:24,250

favors here tonight because we're going

82

00:04:31,290 --> 00:04:27,610

to celebrate the 70th anniversary of the

83

00:04:33,750 --> 00:04:31,300

first modern day flying saucer sighting

84

00:04:35,520 --> 00:04:33,760

and how are we going to do that Tim why

85

00:04:39,600 --> 00:04:35,530

don't you introduce our guests for the

86

00:04:40,590 --> 00:04:39,610

evening well I definitely Tim we're

87

00:04:43,950 --> 00:04:40,600

celebrating tonight

88

00:04:48,180 --> 00:04:43,960

we've got two fantastic people with us

89

00:04:50,540 --> 00:04:48,190

first of all we have a Chanel shams who

90

00:04:53,700 --> 00:04:50,550

is the granddaughter of Kenneth Arnold

91

00:04:55,950 --> 00:04:53,710

she says that when she was six years old

92

00:04:59,339 --> 00:04:55,960

her grandfather can't set her down and

93

00:05:01,600 --> 00:04:59,349

told her to think for herself and not to

94

00:05:04,390 --> 00:05:01,610

trust the government and

95

00:05:07,179 --> 00:05:04,400

that that resonates even though even

96

00:05:08,890 --> 00:05:07,189

better with us at nowadays she says that

97

00:05:11,290 --> 00:05:08,900

she's been interested in UFOs since she

98

00:05:13,300 --> 00:05:11,300

was a child however her interest really

99

00:05:16,089 --> 00:05:13,310

blossomed as she got more involved on

100

00:05:17,950 --> 00:05:16,099

Facebook in 2009 and she says that she

101
00:05:20,529 --> 00:05:17,960
has met a number of children and

102
00:05:23,740 --> 00:05:20,539
grandchildren of some of the first men

103
00:05:27,790 --> 00:05:23,750
and women to report UFO sightings as

104
00:05:30,429 --> 00:05:27,800
well I'm very happy that we have with us

105
00:05:34,029 --> 00:05:30,439
tonight dr. Bruce Maccabee now dr.

106
00:05:37,540 --> 00:05:34,039
Maccabee has been an active in the UFO

107
00:05:40,089 --> 00:05:37,550
field since the late 1960s when he

108
00:05:41,769 --> 00:05:40,099
joined the match the National

109
00:05:46,719 --> 00:05:41,779
investigation committee on aerial

110
00:05:48,820 --> 00:05:46,729
phenomena better known as NICAP over the

111
00:05:51,399 --> 00:05:48,830
years he's investigated and reported on

112
00:05:54,189 --> 00:05:51,409
numerous sightings including the Gemini

113
00:05:58,749 --> 00:05:54,199

11 and Skylab three astronaut sightings

114

00:06:03,700 --> 00:05:58,759

the famous McMinnville UFO photos of

115

00:06:04,899 --> 00:06:03,710

1950 and his most recent book is what

116

00:06:07,209 --> 00:06:04,909

we're talking about tonight three

117

00:06:10,450 --> 00:06:07,219

minutes in June the UFO sighting that

118

00:06:11,800 --> 00:06:10,460

changed the world so dr. Maccabee said

119

00:06:14,709 --> 00:06:11,810

I'll thank you very much for being with

120

00:06:16,570 --> 00:06:14,719

us tonight on exploring the bizarre well

121

00:06:20,439 --> 00:06:16,580

you know Tim I guess you could consider

122

00:06:24,219 --> 00:06:20,449

me a flying saucer baby you know the

123

00:06:25,629 --> 00:06:24,229

drive is I was born several weeks my

124

00:06:29,379 --> 00:06:25,639

birthday is coming up this week if

125

00:06:33,129 --> 00:06:29,389

anybody wants to send me cash my July

126

00:06:34,749 --> 00:06:33,139

13th so I came in I was probably right

127

00:06:39,159 --> 00:06:34,759

on the tail end of those crescent-shaped

128

00:06:43,209 --> 00:06:39,169

ships probably holding on for for dear

129

00:06:45,269 --> 00:06:43,219

life and I'm happy to celebrate well

130

00:06:48,640 --> 00:06:45,279

that means that I'm 70 years old to

131

00:06:50,140 --> 00:06:48,650

Jesus willikers I didn't realize I

132

00:06:54,999 --> 00:06:50,150

didn't I should have kept my mouth shut

133

00:06:57,490 --> 00:06:55,009

but I I didn't so remember it's a dollar

134

00:07:00,519 --> 00:06:57,500

for every birthday just send it in by

135

00:07:03,360 --> 00:07:00,529

paypal but in this series seriously I

136

00:07:06,459 --> 00:07:03,370

die well I welcome our two guests to the

137

00:07:08,920 --> 00:07:06,469

microphone exploring bizarre this

138

00:07:12,790 --> 00:07:08,930

evening and I think we're going to have

139

00:07:15,129 --> 00:07:12,800

a grand time I want to start out with

140

00:07:17,830 --> 00:07:15,139

the Bruce now Bruce you've been involved

141

00:07:21,640 --> 00:07:17,840

then the UFO research for how many years

142

00:07:24,249 --> 00:07:21,650

now I can't come but it starts way back

143

00:07:28,570 --> 00:07:24,259

in the late 60s and and what got you

144

00:07:31,959 --> 00:07:28,580

involved in this were you a UFO witness

145

00:07:36,100 --> 00:07:31,969

I was are with us I found out later that

146

00:07:37,089 --> 00:07:36,110

my father the late 60s after I become

147

00:07:38,920 --> 00:07:37,099

interested in the subject that

148

00:07:41,890 --> 00:07:38,930

apparently my mother his mother my

149

00:07:43,529 --> 00:07:41,900

grandmother did have a sighting in 1947

150

00:07:46,119 --> 00:07:43,539

but I know nothing about that when I

151
00:07:48,879 --> 00:07:46,129
began to get interested in it like

152
00:07:52,869 --> 00:07:48,889
anybody who grew up in the 50s

153
00:07:55,330 --> 00:07:52,879
ladies forties fifties sixties we saw

154
00:07:58,629 --> 00:07:55,340
movies about flying saucers and things

155
00:08:00,129 --> 00:07:58,639
like that and as a kid you could go and

156
00:08:03,429 --> 00:08:00,139
watch the movie in wonder what was going

157
00:08:06,969 --> 00:08:03,439
on but didn't really connect it up with

158
00:08:09,279 --> 00:08:06,979
any reality of a reality situation then

159
00:08:11,050 --> 00:08:09,289
I read a book called the report on

160
00:08:12,850 --> 00:08:11,060
unidentified flying objects by Captain

161
00:08:14,589 --> 00:08:12,860
Edward J ruppelt who was the first

162
00:08:18,850 --> 00:08:14,599
director of Air Force's Project Blue

163
00:08:21,909 --> 00:08:18,860

Book I read that I guess the 1958-59 and

164

00:08:25,749 --> 00:08:21,919

I thought well Ruffo makes it sound like

165

00:08:26,920 --> 00:08:25,759

he's he if he was sitting on a fence you

166

00:08:28,990 --> 00:08:26,930

could knock him over on to the

167

00:08:32,380 --> 00:08:29,000

extra-terrestrial side of the feather

168

00:08:35,589 --> 00:08:32,390

but he didn't come to that conclusion

169

00:08:37,540 --> 00:08:35,599

directly and wasn't much I could do I so

170

00:08:41,860 --> 00:08:37,550

I forgot about the subject basically for

171

00:08:44,620 --> 00:08:41,870

about 10 years then in 1965 and 66 there

172

00:08:48,460 --> 00:08:44,630

was a swap increase in the number of

173

00:08:50,410 --> 00:08:48,470

sightings in places and occasionally

174

00:08:53,199 --> 00:08:50,420

setting for negative news papers in a 65

175

00:08:57,160 --> 00:08:53,209

or 66 timeframe it became a running

176

00:09:01,900 --> 00:08:57,170

story over months of sightings that

177

00:09:03,160 --> 00:09:01,910

caused the Air Force to Congress to

178

00:09:05,170 --> 00:09:03,170

direct the Air Force to hold an

179

00:09:07,300 --> 00:09:05,180

independent study of UFOs independent of

180

00:09:10,660 --> 00:09:07,310

Project Blue Book which the Air Force

181

00:09:13,840 --> 00:09:10,670

started the so-called Condon study at

182

00:09:17,019 --> 00:09:13,850

the University of Colorado in 1968 and

183

00:09:19,360 --> 00:09:17,029

ran for a year so during that period of

184

00:09:21,790 --> 00:09:19,370

time I was an American University in

185

00:09:25,389 --> 00:09:21,800

Washington DC getting a PhD in physics

186

00:09:27,460 --> 00:09:25,399

and I became aware from reading a couple

187

00:09:30,530 --> 00:09:27,470

of UFO books

188

00:09:33,050 --> 00:09:30,540

the 1998 quarters is not to five

189

00:09:36,080 --> 00:09:33,060

American University in Washington DC in

190

00:09:38,180 --> 00:09:36,090

Dupont Circle for those two of you I

191

00:09:42,560 --> 00:09:38,190

suppose it might be that familiar with

192

00:09:44,720 --> 00:09:42,570

Washington DC hangri huh two guys when I

193

00:09:47,420 --> 00:09:44,730

cap came and talked to the American

194

00:09:49,610 --> 00:09:47,430

University talk about the subject and I

195

00:09:51,380 --> 00:09:49,620

had read about NICAP in books so I

196

00:09:53,780 --> 00:09:51,390

thought well must be a big organization

197

00:09:55,550 --> 00:09:53,790

and they said well we can always use

198

00:09:58,580 --> 00:09:55,560

help you know filing papers and stuff

199

00:10:01,790 --> 00:09:58,590

like that so it involved your help for

200

00:10:05,060 --> 00:10:01,800

your folk studies so I went to the

201
00:10:07,850 --> 00:10:05,070
office which turned out to be a whole

202
00:10:10,130 --> 00:10:07,860
wall type of place it was packed with

203
00:10:13,490 --> 00:10:10,140
all sorts of papers and books and so on

204
00:10:15,020 --> 00:10:13,500
but I hadn't no UFOs and no scientists

205
00:10:17,450 --> 00:10:15,030
running around making measurements and

206
00:10:20,600 --> 00:10:17,460
no secretaries typing out all sorts of

207
00:10:22,940 --> 00:10:20,610
stuff and sending out the stuff that I

208
00:10:25,190 --> 00:10:22,950
expected for a big organizationally

209
00:10:27,800 --> 00:10:25,200
doing they were not doing nevertheless

210
00:10:30,620 --> 00:10:27,810
we gotta [h__\h] it up with them some local

211
00:10:34,330 --> 00:10:30,630
people who are members of non cap and

212
00:10:37,700 --> 00:10:34,340
did case investigations in the DC area

213
00:10:40,010 --> 00:10:37,710

and so I've got me into actually going

214

00:10:43,130 --> 00:10:40,020

with these people and watching how some

215

00:10:46,120 --> 00:10:43,140

investigations were done and then early

216

00:10:48,800 --> 00:10:46,130

seventies I began to do my own stuff

217

00:10:51,020 --> 00:10:48,810

those of you who may remember the

218

00:10:53,150 --> 00:10:51,030

history the settler remember there were

219

00:10:55,100 --> 00:10:53,160

a bunch of sightings in 65 and 66 which

220

00:10:57,920 --> 00:10:55,110

gives a conditional pressure

221

00:11:00,290 --> 00:10:57,930

so all this independent study at

222

00:11:04,850 --> 00:11:00,300

university Colorado during that period

223

00:11:08,000 --> 00:11:04,860

of time secured 66 67 68 69 things

224

00:11:11,150 --> 00:11:08,010

dropped off by 1970 there's hardly

225

00:11:18,140 --> 00:11:11,160

hardly a saying drive the project group

226

00:11:19,850 --> 00:11:18,150

was closed in late 1969 and so most

227

00:11:22,610 --> 00:11:19,860

people fought by that time the UFOs are

228

00:11:25,820 --> 00:11:22,620

dead and then in 1973 our so there's a

229

00:11:28,640 --> 00:11:25,830

huge upswing of sightings in the Midwest

230

00:11:31,550 --> 00:11:28,650

and south and we're back in the news

231

00:11:33,200 --> 00:11:31,560

again with some famous sightings Nixon

232

00:11:36,650 --> 00:11:33,210

Parker abduction and Pascagoula

233

00:11:40,520 --> 00:11:36,660

Mississippi and the coin helicopter case

234

00:11:43,070 --> 00:11:40,530

near in Ohio or two of the ones that

235

00:11:45,470 --> 00:11:43,080

really stuck out in the press there had

236

00:11:48,170 --> 00:11:45,480

convinced me maybe I should start doing

237

00:11:50,120 --> 00:11:48,180

my own stuff and I began doing some case

238

00:11:55,270 --> 00:11:50,130

investigations and I studied at Trent

239

00:11:59,150 --> 00:11:55,280

the tent photo case of a 1950 from a

240

00:12:00,950 --> 00:11:59,160

McMinnville Oregon saying this probably

241

00:12:02,030 --> 00:12:00,960

the mejas most famous UFO photos

242

00:12:04,940 --> 00:12:02,040

because they've been around very long

243

00:12:09,520 --> 00:12:04,950

time in publishing probably almost every

244

00:12:11,870 --> 00:12:09,530

a UFO book and so I say that and

245

00:12:14,150 --> 00:12:11,880

investigations and published paper on it

246

00:12:16,310 --> 00:12:14,160

and I got involved with some other

247

00:12:20,150 --> 00:12:16,320

sightings of the Gemini 11 and Skylab

248

00:12:24,040 --> 00:12:20,160

three new zealand sightings in december

249

00:12:28,250 --> 00:12:24,050

1978 well you know if you remember Bruce

250

00:12:30,200 --> 00:12:28,260

it was myself and Harold Sulkin who

251
00:12:32,690 --> 00:12:30,210
organized a press conference for you

252
00:12:38,000 --> 00:12:32,700
here in New York when those Australian

253
00:12:41,000 --> 00:12:38,010
the photos and the film were first

254
00:12:44,960 --> 00:12:41,010
released we had a press conference here

255
00:12:50,030 --> 00:12:44,970
and get a little newsworthy stories out

256
00:12:52,670 --> 00:12:50,040
on on that now the other amazing thing

257
00:12:54,730 --> 00:12:52,680
is that that was the same day that the

258
00:12:59,840 --> 00:12:54,740
economy of course were signing between

259
00:13:02,930 --> 00:12:59,850
Israel and Egypt and everybody all of

260
00:13:06,710 --> 00:13:02,940
the name reporters were in the

261
00:13:10,940 --> 00:13:06,720
Washington DC area Camp David for the

262
00:13:13,190 --> 00:13:10,950
side signature and lost only the

263
00:13:15,650 --> 00:13:13,200

second-string guys back to here our

264

00:13:18,710 --> 00:13:15,660

press conference which did nevertheless

265

00:13:22,250 --> 00:13:18,720

resolve in about ten essential colleges

266

00:13:24,260 --> 00:13:22,260

in the New York Times and I say well

267

00:13:26,810 --> 00:13:24,270

that's that's more than that's more than

268

00:13:29,540 --> 00:13:26,820

most you have foe cases of everybody's

269

00:13:32,390 --> 00:13:29,550

that's for that were art of shoring 79

270

00:13:34,960 --> 00:13:32,400

all right now why don't you tell the

271

00:13:39,320 --> 00:13:34,970

listeners so a little bit about your

272

00:13:42,050 --> 00:13:39,330

background as an optical specialist you

273

00:13:47,300 --> 00:13:42,060

were employed as a private contractor by

274

00:13:49,570 --> 00:13:47,310

the Navy no I got a PhD in it's 1970 in

275

00:13:52,480 --> 00:13:49,580

physics and then I started working I

276
00:13:57,220 --> 00:13:52,490
became an employee of the Navy other

277
00:13:59,680 --> 00:13:57,230
than blk early 1972 and as a research

278
00:14:01,060 --> 00:13:59,690
scientist I figured I worked for the

279
00:14:04,450 --> 00:14:01,070
Navy for a couple of years and go into

280
00:14:06,630 --> 00:14:04,460
industry but it turned out the things

281
00:14:10,630 --> 00:14:06,640
happen that I never did leave the Navy

282
00:14:13,060 --> 00:14:10,640
until 2008 by that time I didn't been

283
00:14:15,430 --> 00:14:13,070
there for 36 years so I had a long

284
00:14:17,650 --> 00:14:15,440
string of stuff that I did it for the

285
00:14:21,730 --> 00:14:17,660
Navy over that period of time I also

286
00:14:24,070 --> 00:14:21,740
kept up UFO work not only in physics

287
00:14:26,400 --> 00:14:24,080
part of it there's not many cases where

288
00:14:29,550 --> 00:14:26,410

you can actually do real physics but

289

00:14:31,690 --> 00:14:29,560

also the historical part so I became a

290

00:14:33,970 --> 00:14:31,700

physicist interested in the history of

291

00:14:37,810 --> 00:14:33,980

subject I guess you could say the

292

00:14:40,030 --> 00:14:37,820

physical physical training helped me to

293

00:14:42,400 --> 00:14:40,040

decide whether or not explanations that

294

00:14:44,680 --> 00:14:42,410

they offered by the government made any

295

00:14:47,890 --> 00:14:44,690

sense one of the first thing that caught

296

00:14:49,720 --> 00:14:47,900

my interest was the laws the

297

00:14:52,540 --> 00:14:49,730

explanations proposed by the government

298

00:14:56,250 --> 00:14:52,550

forces from sightings which certainly

299

00:14:59,110 --> 00:14:56,260

seem to be unexplicable and things like

300

00:15:01,480 --> 00:14:59,120

there might say that bright light in the

301

00:15:03,430 --> 00:15:01,490

sky oh is the planet Venus and then

302

00:15:05,140 --> 00:15:03,440

somebody will check on how the planet is

303

00:15:08,050 --> 00:15:05,150

on the other side here at the time sorry

304

00:15:10,510 --> 00:15:08,060

about that but there isn't bother the

305

00:15:12,340 --> 00:15:10,520

Air Force there are a number of cases

306

00:15:14,920 --> 00:15:12,350

that I can point to where the

307

00:15:17,920 --> 00:15:14,930

explanations made no sense at all and I

308

00:15:19,720 --> 00:15:17,930

had to ask myself why is that why does

309

00:15:22,470 --> 00:15:19,730

the Air Force get away with publishing

310

00:15:26,440 --> 00:15:22,480

essentially publishing Razi explanations

311

00:15:29,530 --> 00:15:26,450

and the criticism always is the

312

00:15:31,090 --> 00:15:29,540

criticism of you against the ufologist

313

00:15:33,670 --> 00:15:31,100

and not against the government for

314

00:15:34,150 --> 00:15:33,680

coming up with chroming explanations for

315

00:15:38,140 --> 00:15:34,160

sure

316

00:15:39,790 --> 00:15:38,150

now how number of books on the subject

317

00:15:42,520 --> 00:15:39,800

how many books have you done now I know

318

00:15:45,640 --> 00:15:42,530

I read one a couple years ago on the

319

00:15:50,860 --> 00:15:45,650

FBI's investigation into a UFOs

320

00:15:53,050 --> 00:15:50,870

yeah most I have one from back in 98 99

321

00:15:55,600 --> 00:15:53,060

called the euro surreal here's the proof

322

00:16:00,580 --> 00:15:55,610

a book with ed Walters in the Gulf

323

00:16:03,269 --> 00:16:00,590

Breeze oh yeah I then published the UFO

324

00:16:09,259 --> 00:16:03,279

FBI connection into the

325

00:16:13,590 --> 00:16:09,269

in 2000 and abduction in my life in 2001

326

00:16:19,040 --> 00:16:13,600

then I updated these and I published the

327

00:16:22,499 --> 00:16:19,050

FBI CIA UFO connection in the 19 and 20

328

00:16:24,960 --> 00:16:22,509

2014 an updated version of the first

329

00:16:26,670 --> 00:16:24,970

book with whole bunch of stuff oh and

330

00:16:29,400 --> 00:16:26,680

that happened was my my direct

331

00:16:30,869 --> 00:16:29,410

interactions with the CIA I ended up

332

00:16:33,329 --> 00:16:30,879

going to the CIA a number of times

333

00:16:35,850 --> 00:16:33,339

giving some UFO briefings there and so

334

00:16:38,040 --> 00:16:35,860

on and I couldn't talk about that stuff

335

00:16:41,280 --> 00:16:38,050

in the first book that I did the FBI

336

00:16:43,379 --> 00:16:41,290

kill for my connection but I put it into

337

00:16:46,259 --> 00:16:43,389

the UFO the CIA FBI

338

00:16:49,319 --> 00:16:46,269

the most recent one FBI CIA UFO

339

00:16:52,530 --> 00:16:49,329

connection it's basically a history book

340

00:16:55,049 --> 00:16:52,540

showing well if you are to begin with

341

00:16:57,030 --> 00:16:55,059

the most recent book is talking about

342

00:16:59,400 --> 00:16:57,040

Kenneth Arnold yes yes well that's

343

00:17:02,879 --> 00:16:59,410

really what we want to discuss it now

344

00:17:05,039 --> 00:17:02,889

the FBI CIA UFO connection because you

345

00:17:07,829 --> 00:17:05,049

will have afterwards in other words you

346

00:17:10,199 --> 00:17:07,839

read my Harmon book you'll get a short

347

00:17:12,539 --> 00:17:10,209

time what happened over a short time of

348

00:17:15,960 --> 00:17:12,549

a span of minutes

349

00:17:17,549 --> 00:17:15,970

days oh yeah well one over here what why

350

00:17:21,329 --> 00:17:17,559

don't you set the stage for us and tell

351
00:17:24,059 --> 00:17:21,339
us about what Kenneth Arnold saw and and

352
00:17:26,370 --> 00:17:24,069
in where he was that day and what the

353
00:17:31,020 --> 00:17:26,380
attitude of the public was after his

354
00:17:32,820 --> 00:17:31,030
sighting well as a saying sort of

355
00:17:36,450 --> 00:17:32,830
literally out of the blue you might say

356
00:17:39,180 --> 00:17:36,460
certainly nothing he had planned on the

357
00:17:43,440 --> 00:17:39,190
24th of June 1947 was a nice clear day

358
00:17:45,899 --> 00:17:43,450
apparently and he has been doing work he

359
00:17:48,690 --> 00:17:45,909
was a businessman and so fire control

360
00:17:51,870 --> 00:17:48,700
equipment and he owned his own airplane

361
00:17:53,340 --> 00:17:51,880
flying from one place to another there

362
00:17:55,289 --> 00:17:53,350
are long distances over the mountains

363
00:17:57,810 --> 00:17:55,299

and so he had to be a pilot who could

364

00:18:00,470 --> 00:17:57,820

handle Mountain flying and he had a

365

00:18:03,659 --> 00:18:00,480

caller type of airplane which is a

366

00:18:05,250 --> 00:18:03,669

designed to high-performance that you

367

00:18:07,830 --> 00:18:05,260

need at high altitudes and require you

368

00:18:10,680 --> 00:18:07,840

know climbing over mountains so anyway

369

00:18:13,700 --> 00:18:10,690

here it was an afternoon that he left

370

00:18:16,680 --> 00:18:13,710

this place called Chehalis Washington

371

00:18:19,550 --> 00:18:16,690

and headed east

372

00:18:23,220 --> 00:18:19,560

south of all linear Mountaineers in the

373

00:18:26,100 --> 00:18:23,230

sort of south central area of the state

374

00:18:28,230 --> 00:18:26,110

of Washington and he flew flew past

375

00:18:31,830 --> 00:18:28,240

heading east and then made a u-turn in

376

00:18:37,320 --> 00:18:31,840

history way back west past no earlier he

377

00:18:41,670 --> 00:18:37,330

was searching for a crashed transport

378

00:18:43,280 --> 00:18:41,680

aircraft disappeared somewhere on the

379

00:18:47,190 --> 00:18:43,290

vicinity of the Mount Rainier in

380

00:18:48,780 --> 00:18:47,200

December of 46 and there was a \$5,000

381

00:18:51,450 --> 00:18:48,790

reward for anybody who could find the

382

00:18:53,760 --> 00:18:51,460

crash site so he was a looking for the

383

00:18:56,400 --> 00:18:53,770

crash site it was probably buried in the

384

00:18:59,030 --> 00:18:56,410

snow there somewhere they did find the

385

00:19:02,160 --> 00:18:59,040

crash site some months or years later

386

00:19:05,310 --> 00:19:02,170

Arnold didn't find it he drove a flew

387

00:19:08,000 --> 00:19:05,320

past geha flew past Mountaineer the

388

00:19:11,310 --> 00:19:08,010

south side of Mount Ranier heading west

389

00:19:14,910 --> 00:19:11,320

to a place called mineral I made another

390

00:19:17,670 --> 00:19:14,920

u-turn he to head back east and it was

391

00:19:20,600 --> 00:19:17,680

after this you turn the search heading

392

00:19:23,750 --> 00:19:20,610

east that the sighting occurred and

393

00:19:25,920 --> 00:19:23,760

began in a rather startling way that I

394

00:19:30,090 --> 00:19:25,930

guess I'm the first person to have

395

00:19:31,680 --> 00:19:30,100

picked up on it his claim that suddenly

396

00:19:33,690 --> 00:19:31,690

he got a flash of light on his air

397

00:19:35,880 --> 00:19:33,700

secure the surface of his aircraft

398

00:19:38,190 --> 00:19:35,890

lit up like somebody shine a flashlight

399

00:19:42,270 --> 00:19:38,200

or something at the surface of the

400

00:19:45,630 --> 00:19:42,280

aircraft and this startled him his first

401
00:19:48,030 --> 00:19:45,640
thought was that some airplane had

402
00:19:50,070 --> 00:19:48,040
gotten near to me and he got a flash of

403
00:19:52,080 --> 00:19:50,080
sunlight reflected sunlight awesome

404
00:19:55,800 --> 00:19:52,090
airplane was Henry clicker got any ideas

405
00:19:57,990 --> 00:19:55,810
aircraft and he is so really probably a

406
00:20:00,270 --> 00:19:58,000
little bit apprehensive of what it could

407
00:20:00,960 --> 00:20:00,280
be he said looking around for any other

408
00:20:04,020 --> 00:20:00,970
aircraft

409
00:20:09,780 --> 00:20:04,030
there was one north of him north what

410
00:20:13,950 --> 00:20:09,790
north northwest DC for his for Seattle I

411
00:20:16,170 --> 00:20:13,960
guess yesterday today miles away

412
00:20:18,270 --> 00:20:16,180
certainly wasn't what caused the flash

413
00:20:20,190 --> 00:20:18,280

but as he's looking around looking

414

00:20:22,830 --> 00:20:20,200

around all this in another flash and

415

00:20:26,280 --> 00:20:22,840

this time he saw it directly it was

416

00:20:29,919 --> 00:20:26,290

north of him far to his right for more

417

00:20:32,109 --> 00:20:29,929

he was south east south west of long

418

00:20:35,350 --> 00:20:32,119

here this thing appeared to be up of

419

00:20:38,009 --> 00:20:35,360

those near mountain called Baker about

420

00:20:41,049 --> 00:20:38,019

100 and some miles away that's what he

421

00:20:44,619 --> 00:20:41,059

thought in the book I argue that it was

422

00:20:46,930 --> 00:20:44,629

more likely 60 miles away to where these

423

00:20:49,810 --> 00:20:46,940

things were first seen by Arnold but

424

00:20:51,970 --> 00:20:49,820

anyway he looks at this and he realizes

425

00:20:54,399 --> 00:20:51,980

he's seeing a group not not one thing

426

00:20:58,600 --> 00:20:54,409

but a group of objects flying in a sort

427

00:21:00,210 --> 00:20:58,610

of a jiggly line the first object being

428

00:21:03,909 --> 00:21:00,220

the highest one often the others

429

00:21:06,940 --> 00:21:03,919

stepwise going downwards and flying

430

00:21:08,769 --> 00:21:06,950

along zigzag sort of manner but on an

431

00:21:12,399 --> 00:21:08,779

average course was he thought was about

432

00:21:14,409 --> 00:21:12,409

160 170 degrees that is almost due south

433

00:21:17,139 --> 00:21:14,419

and he could see that they were going to

434

00:21:17,799 --> 00:21:17,149

pass go past his side the west side of

435

00:21:21,249 --> 00:21:17,809

Mount Ranier

436

00:21:23,169 --> 00:21:21,259

and he said he stared at these things

437

00:21:26,859 --> 00:21:23,179

the first thing he realized was he

438

00:21:31,989 --> 00:21:26,869

couldn't see anything familiar no wings

439

00:21:34,570 --> 00:21:31,999

no vertical stabilizer no engines not a

440

00:21:36,879 --> 00:21:34,580

t-shape something else you couldn't see

441

00:21:39,570 --> 00:21:36,889

the shape too well but these things were

442

00:21:41,919 --> 00:21:39,580

tilting west and right front back away

443

00:21:44,590 --> 00:21:41,929

here comes the here comes the famous

444

00:21:46,899 --> 00:21:44,600

phrase the way a saucer would have

445

00:21:49,269 --> 00:21:46,909

skipped on the water on evening

446

00:21:51,669 --> 00:21:49,279

initially call it a stone or whatever

447

00:21:56,320 --> 00:21:51,679

the idea of something skipping on the

448

00:21:57,310 --> 00:21:56,330

water it tilts left way down as well as

449

00:21:59,619 --> 00:21:57,320

it bottoms wrong

450

00:22:02,109 --> 00:21:59,629

so these wobbly things were coming along

451
00:22:04,690 --> 00:22:02,119
as they got closer he could as I said

452
00:22:07,299 --> 00:22:04,700
you can see the there weren't any edges

453
00:22:10,480 --> 00:22:07,309
or anything that he was familiar with he

454
00:22:12,220 --> 00:22:10,490
said when they tilted enough there was a

455
00:22:14,139 --> 00:22:12,230
week ago between him and I were near

456
00:22:16,509 --> 00:22:14,149
where they were fly along and they

457
00:22:19,499 --> 00:22:16,519
pulled it up enough he could see a sort

458
00:22:24,330 --> 00:22:19,509
of a semicircular shape with a convex

459
00:22:27,039 --> 00:22:24,340
triangle point like a pointed rear end

460
00:22:29,919 --> 00:22:27,049
for nine of eight of these nine out of

461
00:22:33,249 --> 00:22:29,929
his he counted nine four and five four

462
00:22:33,850 --> 00:22:33,259
in a gap and then five and the next to

463
00:22:36,669 --> 00:22:33,860

the last one

464

00:22:38,489 --> 00:22:36,679

he remembered later was different it was

465

00:22:41,349 --> 00:22:38,499

a head double Crescent

466

00:22:42,970 --> 00:22:41,359

indentation Crescent on the rear end

467

00:22:47,409 --> 00:22:42,980

so somebody circular will

468

00:22:49,930 --> 00:22:47,419

those crista the back I was he thought

469

00:22:52,419 --> 00:22:49,940

that was a special one or something but

470

00:22:55,320 --> 00:22:52,429

the others clearly were different from

471

00:22:58,030 --> 00:22:55,330

any ordinary aircraft the nothing he saw

472

00:22:59,860 --> 00:22:58,040

reminded him of something that he was in

473

00:23:02,590 --> 00:22:59,870

Iowa but also they were growing

474

00:23:04,180 --> 00:23:02,600

extremely rapidly Bruce I'm going to

475

00:23:05,560 --> 00:23:04,190

have to interrupt you here because we're

476

00:23:07,539 --> 00:23:05,570

coming up at our bottom of the hour

477

00:23:09,880 --> 00:23:07,549

break so when we come back we will

478

00:23:12,010 --> 00:23:09,890

continue this conversation you're

479

00:23:24,700 --> 00:23:12,020

listening to exploring the bizarre on

480

00:23:27,310 --> 00:23:24,710

kcal already now back to exploring the

481

00:23:29,590 --> 00:23:27,320

bizarre with two of the most

482

00:23:33,400 --> 00:23:29,600

electrifying researchers were paranoid

483

00:23:37,180 --> 00:23:33,410

your hostess Timothy evacuate and King

484

00:23:39,400 --> 00:23:37,190

Swartz all right welcome back to

485

00:23:42,250 --> 00:23:39,410

exploring the bizarre before we had to

486

00:23:43,480 --> 00:23:42,260

go to our break dr. Maccabee you were

487

00:23:48,000 --> 00:23:43,490

describing

488

00:23:49,120 --> 00:23:48,010

Kenneth Arnold's initial sighting in

489

00:23:54,130 --> 00:23:49,130

1947

490

00:23:58,560 --> 00:23:54,140

now the objects that he witnessed were

491

00:24:01,780 --> 00:23:58,570

not the the flying saucer shape that

492

00:24:04,960 --> 00:24:01,790

became synonymous with the phenomena

493

00:24:07,419 --> 00:24:04,970

what just exactly what was he seen how

494

00:24:10,289 --> 00:24:07,429

are he described these semicircular

495

00:24:14,789 --> 00:24:10,299

objects with surly triangular convex

496

00:24:19,350 --> 00:24:14,799

rear-end for eight of them and one has

497

00:24:23,710 --> 00:24:21,669

there's anything at all he was familiar

498

00:24:25,659 --> 00:24:23,720

with and they're going in a very high

499

00:24:26,860 --> 00:24:25,669

rate of speed so I guess he decided to

500

00:24:28,840 --> 00:24:26,870

take a chance that he might be able to

501
00:24:33,730 --> 00:24:28,850
measure their speed he was flying about

502
00:24:37,900 --> 00:24:33,740
9,500 feet of the food Malini is 14400 I

503
00:24:39,520 --> 00:24:37,910
was about 25 miles northeast of Kenneth

504
00:24:43,030 --> 00:24:39,530
I when he's first when he saw these

505
00:24:44,799 --> 00:24:43,040
others going past alone he thought well

506
00:24:50,380 --> 00:24:44,809
why they keep going straight down past

507
00:24:51,700 --> 00:24:50,390
Mount Adams well 50 miles south he could

508
00:24:54,669 --> 00:24:51,710
see when they went past Mount Adams

509
00:24:56,440 --> 00:24:54,679
because it was a very clear day one of

510
00:24:56,680 --> 00:24:56,450
the things about this particular day was

511
00:25:05,410 --> 00:24:56,690
he

512
00:25:07,600 --> 00:25:05,420
rear and that was really close to him 27

513
00:25:13,660 --> 00:25:07,610

miles now you can see when they went

514

00:25:16,540 --> 00:25:13,670

past Bombay Adams about 50 miles south

515

00:25:18,670 --> 00:25:16,550

of the mantra here and he had a clock on

516

00:25:21,700 --> 00:25:18,680

his dashboard so he looked at the

517

00:25:24,940 --> 00:25:21,710

sweeper secondhand as first was going

518

00:25:28,900 --> 00:25:24,950

past the edge of a mountaineer and it

519

00:25:31,840 --> 00:25:28,910

said keeping time t-taking as time went

520

00:25:34,480 --> 00:25:31,850

on he continued to look at the objects

521

00:25:36,910 --> 00:25:34,490

eaters playing to the right and moved

522

00:25:39,520 --> 00:25:36,920

his window open so he can with any

523

00:25:40,720 --> 00:25:39,530

possible reflections of whatever he was

524

00:25:42,850 --> 00:25:40,730

seeing definitely what he was seeing

525

00:25:47,380 --> 00:25:42,860

another reflections off glass or

526

00:25:49,060 --> 00:25:47,390

something and he was at that point

527

00:25:50,740 --> 00:25:49,070

flying parallel to the path of the

528

00:25:53,080 --> 00:25:50,750

objects but they were of course

529

00:25:57,190 --> 00:25:53,090

outrunning him by a while or ten miles a

530

00:25:59,290 --> 00:25:57,200

hundred miles whatever and he watched

531

00:26:01,060 --> 00:25:59,300

until he saw it by their flashes he

532

00:26:02,740 --> 00:26:01,070

could see a long distance away by the

533

00:26:07,120 --> 00:26:02,750

flashes of light that they were making

534

00:26:12,160 --> 00:26:07,130

and he saw as they went past upon Adams

535

00:26:15,880 --> 00:26:12,170

his Clark showed 102 seconds had passed

536

00:26:18,730 --> 00:26:15,890

and later I found out how far these

537

00:26:21,610 --> 00:26:18,740

mountains were prior about 50 miles and

538

00:26:25,360 --> 00:26:21,620

they did it 102 seconds it comes out

539

00:26:27,310 --> 00:26:25,370

around 1700 miles an hour which he

540

00:26:29,380 --> 00:26:27,320

couldn't believe so when he told people

541

00:26:31,990 --> 00:26:29,390

that he did a calculation he officer

542

00:26:34,900 --> 00:26:32,000

said it was it probably was mistaken or

543

00:26:37,300 --> 00:26:34,910

than 17-hundred was maybe only 1200 but

544

00:26:39,070 --> 00:26:37,310

based on what here is his own report if

545

00:26:42,190 --> 00:26:39,080

you analyze his report carefully there's

546

00:26:45,310 --> 00:26:42,200

no reason why he wasn't accurate enough

547

00:26:46,630 --> 00:26:45,320

to accept that they were doing 1700

548

00:26:48,910 --> 00:26:46,640

miles an hour now to put that in

549

00:26:53,440 --> 00:26:48,920

perspective the first guy to break the

550

00:26:54,790 --> 00:26:53,450

sound barrier is his OA in September of

551
00:26:56,890 --> 00:26:54,800
nineteen forty seven that's seven

552
00:26:58,930 --> 00:26:56,900
hundred and some miles an hour and these

553
00:27:05,050 --> 00:26:58,940
are things by a thousand miles an hour

554
00:27:09,370 --> 00:27:05,060
faster already so it makes it that makes

555
00:27:10,680 --> 00:27:09,380
it an incredible report I mean it really

556
00:27:14,549 --> 00:27:10,690
ups the ante

557
00:27:16,979 --> 00:27:14,559
even when you can consider what what the

558
00:27:19,499 --> 00:27:16,989
speed of the objects were in comparison

559
00:27:23,099 --> 00:27:19,509
to what the speed of ordinary planes

560
00:27:26,310 --> 00:27:23,109
were at that time right there's more

561
00:27:27,960 --> 00:27:26,320
there's a deeper sort of understanding

562
00:27:31,529 --> 00:27:27,970
it must be others that must be

563
00:27:35,430 --> 00:27:31,539

understood here he how many people would

564

00:27:38,219 --> 00:27:35,440

think to try and measure the speed of

565

00:27:39,509 --> 00:27:38,229

some objects that you are familiar with

566

00:27:42,570 --> 00:27:39,519

they're just traveling along at high

567

00:27:44,430 --> 00:27:42,580

speed in a most people would sit there

568

00:27:48,570 --> 00:27:44,440

in the airplane with a chin on the floor

569

00:27:50,580 --> 00:27:48,580

maybe saying wow that was fast I wanna

570

00:27:53,089 --> 00:27:50,590

know I'm brought on all of the speed was

571

00:27:57,450 --> 00:27:53,099

so he took a chance that he could use to

572

00:28:01,609 --> 00:27:57,460

two things sticking up into the sky that

573

00:28:04,019 --> 00:28:01,619

is a mount or their amount of atoms as

574

00:28:05,969 --> 00:28:04,029

geographical points that he could

575

00:28:07,830 --> 00:28:05,979

measure is the time it takes to go from

576

00:28:09,119 --> 00:28:07,840

one to the other find out what the

577

00:28:10,349 --> 00:28:09,129

distance was and then come up with a

578

00:28:13,320 --> 00:28:10,359

speed

579

00:28:15,269 --> 00:28:13,330

he also made a measurement of we would

580

00:28:19,019 --> 00:28:15,279

call angular size of the objects

581

00:28:23,849 --> 00:28:19,029

compared that with a this angular size

582

00:28:25,830 --> 00:28:23,859

of a DC for airplane those he thought

583

00:28:27,089 --> 00:28:25,840

fifteen miles north of them and that

584

00:28:29,129 --> 00:28:27,099

gave him the impression that these

585

00:28:33,659 --> 00:28:29,139

things are maybe 60 feet long for front

586

00:28:38,399 --> 00:28:33,669

the back maybe it was when I myself in

587

00:28:40,499 --> 00:28:38,409

probably 100 but in any case he provided

588

00:28:43,049 --> 00:28:40,509

information from what you could estimate

589

00:28:44,099 --> 00:28:43,059

the size of the object and the

590

00:28:47,690 --> 00:28:44,109

information from which you could

591

00:28:51,629 --> 00:28:47,700

calculate the speed of these things and

592

00:28:55,529 --> 00:28:51,639

that adds a considerable credibility

593

00:28:57,479 --> 00:28:55,539

this to this event he actually got it

594

00:28:58,649 --> 00:28:57,489

right because it was clear that he

595

00:29:01,259 --> 00:28:58,659

wasn't just sort of sitting there

596

00:29:03,180 --> 00:29:01,269

twiddling his thumbs as time went on he

597

00:29:05,729 --> 00:29:03,190

was actually thinking of what was going

598

00:29:08,549 --> 00:29:05,739

on and sort of figured out keeping track

599

00:29:11,369 --> 00:29:08,559

of what these objects did like he says

600

00:29:12,690 --> 00:29:11,379

they went down there as they got soft a

601
00:29:15,330 --> 00:29:12,700
moment here they were going in and out

602
00:29:17,729 --> 00:29:15,340
of the mountain peaks in leaa the chain

603
00:29:21,180 --> 00:29:17,739
of mountains safa vernier on the way to

604
00:29:23,060 --> 00:29:21,190
on towards uh on Adams and then in my

605
00:29:26,260 --> 00:29:23,070
book I include the

606
00:29:29,120 --> 00:29:26,270
exciting which occurred when a

607
00:29:32,150 --> 00:29:29,130
prospector who was on Mount Adams saw

608
00:29:36,860 --> 00:29:32,160
these objects go by and apparently saw

609
00:29:40,010 --> 00:29:36,870
Kenneth arrows objects just as I was

610
00:29:42,380 --> 00:29:40,020
losing sight of them I tell more about

611
00:29:45,230 --> 00:29:42,390
that yeah yeah all right well Bruce

612
00:29:46,760 --> 00:29:45,240
we'll we'll get back to our Arnold's

613
00:29:49,640 --> 00:29:46,770

original sighting just a while but I do

614

00:29:52,780 --> 00:29:49,650

want to bring on his granddaughter

615

00:29:55,160 --> 00:29:52,790

Chanel because she's with us tonight and

616

00:29:58,430 --> 00:29:55,170

she's been on the program with us before

617

00:30:01,270 --> 00:29:58,440

and she's certainly part of this a great

618

00:30:03,980 --> 00:30:01,280

anniversary Chanel how are you doing oh

619

00:30:05,840 --> 00:30:03,990

I'm doing good it's an honor being on

620

00:30:08,150 --> 00:30:05,850

with Bruce he's very knowledgeable about

621

00:30:11,660 --> 00:30:08,160

my grandfather and he obviously knows

622

00:30:14,090 --> 00:30:11,670

more about the the sighting than anyone

623

00:30:16,940 --> 00:30:14,100

that I I know about in fact over the

624

00:30:18,410 --> 00:30:16,950

years not that any of these people would

625

00:30:21,910 --> 00:30:18,420

have even interviewed Kenneth Arnold

626

00:30:24,290 --> 00:30:21,920

probably the the sightings have been

627

00:30:25,370 --> 00:30:24,300

poo-pooed by some researchers saying

628

00:30:29,330 --> 00:30:25,380

that or they were just conventional

629

00:30:32,060 --> 00:30:29,340

objects or geese or whatever explanation

630

00:30:35,330 --> 00:30:32,070

they could come up with the at the time

631

00:30:37,370 --> 00:30:35,340

but Chanel why did you grow up with with

632

00:30:42,740 --> 00:30:37,380

UFOs I mean when did you first know that

633

00:30:45,230 --> 00:30:42,750

your grandfather in essence was the

634

00:30:48,740 --> 00:30:45,240

originator of the modern-day UFO

635

00:30:51,320 --> 00:30:48,750

phenomena oh my gosh our family was just

636

00:30:54,080 --> 00:30:51,330

raised the synchronicity and I mean I

637

00:30:56,270 --> 00:30:54,090

was born on a 30th year of the

638

00:30:58,220 --> 00:30:56,280

anniversary of the signing and I and I

639

00:30:58,580 --> 00:30:58,230

ended up getting married on the sixtieth

640

00:31:01,190 --> 00:30:58,590

year

641

00:31:03,200 --> 00:31:01,200

evander you know I would I included this

642

00:31:06,799 --> 00:31:03,210

in my book on synchronicities that I

643

00:31:09,710 --> 00:31:06,809

just did but I didn't know Jerry and now

644

00:31:11,840 --> 00:31:09,720

I'm he in this he might like they played

645

00:31:14,570 --> 00:31:11,850

a part in in in some of the things that

646

00:31:16,669 --> 00:31:14,580

happen and your grandfather's life over

647

00:31:24,980 --> 00:31:16,679

the years and we'll get into that but I

648

00:31:29,210 --> 00:31:24,990

didn't mean in a reprimand all that well

649

00:31:31,760 --> 00:31:29,220

my my mother definitely has been the one

650

00:31:34,700 --> 00:31:31,770

carrying the torch of my grandfather and

651
00:31:36,529 --> 00:31:34,710
and I grew up with all the documents and

652
00:31:38,930 --> 00:31:36,539
everything that he was um

653
00:31:41,629 --> 00:31:38,940
sense because he was like pretty much

654
00:31:47,149 --> 00:31:41,639
the most famous man in the world in 1947

655
00:31:49,549 --> 00:31:47,159
I knew I mean he he died in 1984 but he

656
00:31:51,379 --> 00:31:49,559
you know told me to think for myself and

657
00:31:52,849 --> 00:31:51,389
not trust the government and just

658
00:31:54,619 --> 00:31:52,859
growing up hearing about all the stories

659
00:31:57,459 --> 00:31:54,629
of what he went through trying to prove

660
00:32:00,109 --> 00:31:57,469
the biggest secret of mankind you know

661
00:32:04,399 --> 00:32:00,119
everyone wants to know if we're not

662
00:32:09,469 --> 00:32:04,409
alone and you know what the big picture

663
00:32:12,859 --> 00:32:09,479

is and he would be so overwhelmed today

664

00:32:14,509 --> 00:32:12,869

to know that he's in books and he's

665

00:32:18,909 --> 00:32:14,519

being preserved for history and that's

666

00:32:22,399 --> 00:32:18,919

like my goal is for him to be recognized

667

00:32:24,259 --> 00:32:22,409

for history for his historic finding

668

00:32:27,199 --> 00:32:24,269

that he had that and he was the first

669

00:32:29,839 --> 00:32:27,209

credible witness and you know definitely

670

00:32:32,239 --> 00:32:29,849

I'm going to school I I want to write a

671

00:32:35,629 --> 00:32:32,249

book my mom's waiting for the right

672

00:32:38,959 --> 00:32:35,639

opportunity to do something historical

673

00:32:40,489 --> 00:32:38,969

and there's some projects that are

674

00:32:43,099 --> 00:32:40,499

taking a little while longer that are

675

00:32:47,029 --> 00:32:43,109

coming out about some of the documents

676
00:32:49,099 --> 00:32:47,039
and my grandfather was just you know he

677
00:32:53,419 --> 00:32:49,109
got sent so much stuff he had friends in

678
00:32:55,549 --> 00:32:53,429
the military you know I just grew up

679
00:32:57,289 --> 00:32:55,559
with around all these documents that

680
00:32:59,509 --> 00:32:57,299
were top secret and I would look through

681
00:33:02,599 --> 00:32:59,519
and read them and see pictures that were

682
00:33:04,279 --> 00:33:02,609
unexplainable and I just I feel like I'm

683
00:33:07,189 --> 00:33:04,289
in the right generation to carry the

684
00:33:10,279 --> 00:33:07,199
torch if my mother you know gets

685
00:33:12,469 --> 00:33:10,289
sleeping done with the information that

686
00:33:14,979 --> 00:33:12,479
she has and and you know we definitely

687
00:33:19,339 --> 00:33:14,989
want him um

688
00:33:21,619 --> 00:33:19,349

historically represented accurately I I

689

00:33:24,430 --> 00:33:21,629

know on Wikipedia it says that he lived

690

00:33:27,169 --> 00:33:24,440

in Bellevue Washington but he actually

691

00:33:30,699 --> 00:33:27,179

died in Bellevue Washington and was

692

00:33:33,469 --> 00:33:30,709

living in Meridian Idaho yes

693

00:33:37,189 --> 00:33:33,479

big-big dad well I know you have

694

00:33:41,269 --> 00:33:37,199

preserved his sighting on your back with

695

00:33:45,019 --> 00:33:41,279

a very beautiful tattoo which oh yeah

696

00:33:47,719 --> 00:33:45,029

which shows the the objects of the

697

00:33:49,880 --> 00:33:47,729

flying in the information very realistic

698

00:33:51,650 --> 00:33:49,890

in indeed would

699

00:33:54,350 --> 00:33:51,660

you get that tat by the way I never did

700

00:33:57,620 --> 00:33:54,360

they ask you that I don't think um I got

701
00:34:00,590 --> 00:33:57,630
it when I was about 33 and my my oldest

702
00:34:02,620 --> 00:34:00,600
daughter sapphire she's getting some

703
00:34:05,480 --> 00:34:02,630
flying saucers done on her back and she

704
00:34:07,520 --> 00:34:05,490
always asked me mom you're gonna have to

705
00:34:09,889 --> 00:34:07,530
tell me about great grandfather so I

706
00:34:11,659 --> 00:34:09,899
know what to tell people because you

707
00:34:14,240 --> 00:34:11,669
know she feels like she is going to be

708
00:34:17,270 --> 00:34:14,250
carrying carrying on his legacy you know

709
00:34:21,020 --> 00:34:17,280
at some point and I'm very proud of what

710
00:34:22,720 --> 00:34:21,030
he did you know he was just the first

711
00:34:24,710 --> 00:34:22,730
credible witness I mean there was just

712
00:34:26,840 --> 00:34:24,720
there's been a lot of things that

713
00:34:30,830 --> 00:34:26,850

happened in history that that were just

714

00:34:33,139 --> 00:34:30,840

put aside because you know he thought

715

00:34:34,880 --> 00:34:33,149

there a Russian Russian military

716

00:34:36,950 --> 00:34:34,890

intelligence he didn't know what they

717

00:34:39,860 --> 00:34:36,960

were and he felt like he needed to

718

00:34:43,159 --> 00:34:39,870

report it well we will get into that a

719

00:34:48,169 --> 00:34:43,169

little bit after the the the next break

720

00:34:50,210 --> 00:34:48,179

I have a whole web report in the chapter

721

00:34:52,850 --> 00:34:50,220

in the book I just sent you did you get

722

00:34:54,620 --> 00:34:52,860

that in the mail yet - Chanelle oh no I

723

00:34:57,500 --> 00:34:54,630

haven't got round looking for it yeah

724

00:34:59,540 --> 00:34:57,510

okay anyway there's a list you of course

725

00:35:02,210 --> 00:34:59,550

we know that your grandfather had

726

00:35:04,120 --> 00:35:02,220

several sightings and he had some very

727

00:35:07,430 --> 00:35:04,130

strange things that did happen to him

728

00:35:12,650 --> 00:35:07,440

later on and probably was the first

729

00:35:14,360 --> 00:35:12,660

person to be a kind of confrontational

730

00:35:16,700 --> 00:35:14,370

with the the men in black or the

731

00:35:18,830 --> 00:35:16,710

silencers or whatever you want to call

732

00:35:22,190 --> 00:35:18,840

that because that deals with the Mori

733

00:35:26,000 --> 00:35:22,200

Island incident which Ray Palmer sent

734

00:35:29,870 --> 00:35:26,010

him out to investigate and apparently

735

00:35:31,280 --> 00:35:29,880

through some very suspicious means we

736

00:35:34,130 --> 00:35:31,290

don't even really know how because

737

00:35:37,940 --> 00:35:34,140

bugging rooms was not I don't think the

738

00:35:40,070 --> 00:35:37,950

way to go in those days right someone

739

00:35:41,750 --> 00:35:40,080

somewhere was overhearing the

740

00:35:43,880 --> 00:35:41,760

conversation that was going on in the

741

00:35:49,790 --> 00:35:43,890

hotel room with the witnesses from that

742

00:35:51,230 --> 00:35:49,800

particular incident but well what what

743

00:35:54,340 --> 00:35:51,240

did you think when you when you first

744

00:35:57,050 --> 00:35:54,350

well have you ever had a UFO sighting oh

745

00:35:58,670 --> 00:35:57,060

yeah I have I want to get to the fact

746

00:36:00,350 --> 00:35:58,680

that when the morning island thing was

747

00:36:02,240 --> 00:36:00,360

going on when he went to investigate a

748

00:36:03,740 --> 00:36:02,250

Ray Palmer it paid him from fate

749

00:36:06,440 --> 00:36:03,750

magazine to investigate

750

00:36:09,880 --> 00:36:06,450

and he swore his hotel was being bugged

751

00:36:14,270 --> 00:36:09,890

but he was going to do some Club

752

00:36:16,070 --> 00:36:14,280

seminars here in locally in Idaho and he

753

00:36:18,410 --> 00:36:16,080

was visited by the men in black that

754

00:36:21,320 --> 00:36:18,420

drove him out to the desert out here in

755

00:36:22,880 --> 00:36:21,330

Idaho and said you know you need do you

756

00:36:26,570 --> 00:36:22,890

care for your family the government

757

00:36:32,089 --> 00:36:26,580

eliminates our own men you need to stop

758

00:36:33,200 --> 00:36:32,099

being public you know and so I I've done

759

00:36:36,680 --> 00:36:33,210

a little bit of reading on the Mauri

760

00:36:38,359 --> 00:36:36,690

Island incident but he was definitely

761

00:36:41,270 --> 00:36:38,369

visited by the men in black here and

762

00:36:44,720 --> 00:36:41,280

locally you know being public with what

763

00:36:48,349 --> 00:36:44,730

he has seen and nowadays you know it's

764

00:36:50,930 --> 00:36:48,359

it's more open and more public and not

765

00:36:54,320 --> 00:36:50,940

so hush-hush but my family went through

766

00:36:57,740 --> 00:36:54,330

a lot of grief back in those days saying

767

00:36:59,990 --> 00:36:57,750

like my grandfather was crazy and and my

768

00:37:02,630 --> 00:37:00,000

aunts were ridiculed in school over it

769

00:37:04,310 --> 00:37:02,640

and you know now nowadays kind of normal

770

00:37:08,000 --> 00:37:04,320

for people to have beautiful experiences

771

00:37:09,829 --> 00:37:08,010

but but back then I mean my my family

772

00:37:11,660 --> 00:37:09,839

was made fun of horribly and my

773

00:37:14,300 --> 00:37:11,670

grandfather was credible he was a pilot

774

00:37:17,720 --> 00:37:14,310

you have to pass test to be a pilot you

775

00:37:22,130 --> 00:37:17,730

know and and he was just treated he died

776

00:37:24,020 --> 00:37:22,140

so disappointed that he felt he felt

777

00:37:27,829 --> 00:37:24,030

like his whole you know cause and life

778

00:37:29,960 --> 00:37:27,839

was to figure out this mystery and he I

779

00:37:33,859 --> 00:37:29,970

know he died really really burned out

780

00:37:35,870 --> 00:37:33,869

and disappointed well but I I'm proud of

781

00:37:38,210 --> 00:37:35,880

how it turned out today and you know

782

00:37:41,390 --> 00:37:38,220

this day and age he's on TV you know

783

00:37:44,150 --> 00:37:41,400

he's been he's being credited by Bruce

784

00:37:46,490 --> 00:37:44,160

Maccabee and Annie there's a new book

785

00:37:48,859 --> 00:37:46,500

for Twin Peaks it's a secret history at

786

00:37:54,440 --> 00:37:48,869

Twin Peaks and they put him in that book

787

00:37:58,099 --> 00:37:54,450

as a character you know as I I do have

788

00:38:01,270 --> 00:37:58,109

the I do know over the years that he did

789

00:38:03,980 --> 00:38:01,280

have sort of an ongoing I don't know a

790

00:38:06,579 --> 00:38:03,990

confrontational attitude towards the

791

00:38:10,310 --> 00:38:06,589

press who he field I guess had

792

00:38:14,030 --> 00:38:10,320

mistreated him to some to some point oh

793

00:38:15,560 --> 00:38:14,040

yeah yeah he he didn't like his last

794

00:38:17,150 --> 00:38:15,570

London interview I don't know if you

795

00:38:17,630 --> 00:38:17,160

guys had ever seen that but he felt like

796

00:38:20,180 --> 00:38:17,640

he was

797

00:38:22,609 --> 00:38:20,190

represented and he turned down \$50,000

798

00:38:24,559 --> 00:38:22,619

from Doubleday books in the 60s because

799

00:38:26,839 --> 00:38:24,569

they wanted to fictionalize historian he

800

00:38:30,319 --> 00:38:26,849

he didn't want to have his story

801
00:38:32,779 --> 00:38:30,329
fictionalized he wanted it true and you

802
00:38:34,940 --> 00:38:32,789
know rightly documented for history he

803
00:38:36,829 --> 00:38:34,950
didn't want it fictionalized and that

804
00:38:39,079 --> 00:38:36,839
caused a huge fight with my grandmother

805
00:38:43,759 --> 00:38:39,089
in him you know fifty thousand dollars

806
00:38:46,190 --> 00:38:43,769
alive in the 1964 bed yeah but yeah he

807
00:38:48,920 --> 00:38:46,200
just he definitely wanted everything you

808
00:38:51,380 --> 00:38:48,930
know correct for history and and I you

809
00:38:53,329 --> 00:38:51,390
know I I wish I wish to god he give you

810
00:38:56,329 --> 00:38:53,339
this you know here in this day and age

811
00:38:57,980 --> 00:38:56,339
and now because you know so many doors

812
00:39:01,430 --> 00:38:57,990
have been opened by it from what he

813
00:39:04,670 --> 00:39:01,440

experienced and reported somehow you

814

00:39:06,829 --> 00:39:04,680

said that he he was disappointed you

815

00:39:09,559 --> 00:39:06,839

know that that he passed away in like

816

00:39:13,160 --> 00:39:09,569

burnout and disappointed did he feel

817

00:39:18,890 --> 00:39:13,170

that the government had you know

818

00:39:20,210 --> 00:39:18,900

deliberately obscured the investigation

819

00:39:20,900 --> 00:39:20,220

I mean not only with him but with

820

00:39:23,690 --> 00:39:20,910

everything

821

00:39:25,190 --> 00:39:23,700

well he got Project Blue Book documents

822

00:39:25,640 --> 00:39:25,200

saying that the government was covering

823

00:39:27,559 --> 00:39:25,650

it up

824

00:39:29,210 --> 00:39:27,569

and I've read those I took him to a

825

00:39:30,859 --> 00:39:29,220

radio station here locally because my

826

00:39:34,370 --> 00:39:30,869

friend worked for the radio station and

827

00:39:37,370 --> 00:39:34,380

we copy them pass tomorrow and he'll but

828

00:39:38,839 --> 00:39:37,380

I mean he he knew it was a huge cover-up

829

00:39:41,809 --> 00:39:38,849

and the government wasn't being truthful

830

00:39:44,839 --> 00:39:41,819

and he always thought that you know the

831

00:39:47,059 --> 00:39:44,849

whole life of John F Kennedy jr. had

832

00:39:49,490 --> 00:39:47,069

serious disease in it and you know we're

833

00:39:52,490 --> 00:39:49,500

here for a bigger picture but but like

834

00:39:55,249 --> 00:39:52,500

he was given the copyright to the coming

835

00:39:56,420 --> 00:39:55,259

of the saucers and he was so burnt out

836

00:39:58,220 --> 00:39:56,430

by the end of his life he didn't even

837

00:40:01,579 --> 00:39:58,230

copyright that book and now everybody's

838

00:40:03,259 --> 00:40:01,589

publishing it because he just he felt

839

00:40:06,950 --> 00:40:03,269

like it was a lost cause and he had

840

00:40:08,720 --> 00:40:06,960

wrote that book with Ray Palmer and it's

841

00:40:10,970 --> 00:40:08,730

a big disappointment because like we

842

00:40:13,400 --> 00:40:10,980

can't do anything to get that copyright

843

00:40:15,289 --> 00:40:13,410

copyright back cept but yeah the popular

844

00:40:18,200 --> 00:40:15,299

copyright would have expired by now

845

00:40:20,420 --> 00:40:18,210

anyway there's a oh yeah going back to

846

00:40:23,029 --> 00:40:20,430

that time but what you what you can do

847

00:40:25,460 --> 00:40:23,039

is take the book and add another fifty

848

00:40:29,930 --> 00:40:25,470

pages and then the book is copyrighted I

849

00:40:31,130 --> 00:40:29,940

mean you know nobody okay the coming of

850

00:40:34,310 --> 00:40:31,140

the saucers updated

851

00:40:38,590 --> 00:40:34,320

yeah very high okay incorporating my

852

00:40:41,270 --> 00:40:38,600

buck with yours expansion here you know

853

00:40:45,460 --> 00:40:41,280

we we do that we do that all the time

854

00:40:48,770 --> 00:40:45,470

with her with her with our books but

855

00:40:50,840 --> 00:40:48,780

okay so that way what was the attitude

856

00:40:53,330 --> 00:40:50,850

okay going to the school and all as a

857

00:40:56,090 --> 00:40:53,340

teenager I mean did you find that people

858

00:40:59,870 --> 00:40:56,100

were kind of sneering it you know at you

859

00:41:01,820 --> 00:40:59,880

or your your granddad or no I I grew up

860

00:41:03,920 --> 00:41:01,830

being more accepted about it and like a

861

00:41:06,080 --> 00:41:03,930

lot of people I went to school at no you

862

00:41:07,550 --> 00:41:06,090

know knew me as a flying saucer girl you

863

00:41:11,390 --> 00:41:07,560

know because they who my grandfather was

864

00:41:12,620 --> 00:41:11,400

and you know boy she's pretty small I've

865

00:41:15,020 --> 00:41:12,630

lived here all my life and this was

866

00:41:17,210 --> 00:41:15,030

where my grandfather lived and you know

867

00:41:20,690 --> 00:41:17,220

it's great that he put Boise Idaho on

868

00:41:22,460 --> 00:41:20,700

the map you know well I'd like people I

869

00:41:25,760 --> 00:41:22,470

don't think many people know or realize

870

00:41:28,010 --> 00:41:25,770

that your grandfather once ran for what

871

00:41:30,890 --> 00:41:28,020

was it lieutenant governor yeah he ran

872

00:41:33,740 --> 00:41:30,900

for governor and he met President

873

00:41:37,640 --> 00:41:33,750

Eisenhower I know this ad would publish

874

00:41:40,220 --> 00:41:37,650

to the to it yeah yeah yeah the 7:01

875

00:41:42,610 --> 00:41:40,230

movie is taking longer than expected but

876
00:41:45,830 --> 00:41:42,620
that picture is going to be in the movie

877
00:41:47,840 --> 00:41:45,840
so hopefully hopefully that gets done

878
00:41:53,390 --> 00:41:47,850
but I would what you now have is that

879
00:41:57,290 --> 00:41:53,400
what movies up the 701 I yeah is by a

880
00:42:00,680 --> 00:41:57,300
James Fox and Tracy Torme okay so movie

881
00:42:02,690 --> 00:42:00,690
that was collaborated yeah and it's just

882
00:42:06,460 --> 00:42:02,700
take it's taken longer than expected but

883
00:42:10,490 --> 00:42:06,470
my mom you know was in the movie so

884
00:42:13,070 --> 00:42:10,500
there is named after the 701 cases of

885
00:42:15,920 --> 00:42:13,080
the FF horse probably will claim they

886
00:42:19,250 --> 00:42:15,930
couldn't explain out of 13,000 yeah

887
00:42:21,950 --> 00:42:19,260
there have been a code AHA the wind

888
00:42:24,440 --> 00:42:21,960

project Bluebook well what was the

889

00:42:26,480 --> 00:42:24,450

Kenneth Arnold story was in his sighting

890

00:42:29,510 --> 00:42:26,490

was in the the project a blue book

891

00:42:30,740 --> 00:42:29,520

report Bruce oh yes I was one of the

892

00:42:34,740 --> 00:42:30,750

many sightings that they collected

893

00:42:42,210 --> 00:42:38,430

he is starting mermaid in national and

894

00:42:46,160 --> 00:42:42,220

international news for a short time and

895

00:42:50,700 --> 00:42:46,170

as Chanel can probably tell you the

896

00:42:53,430 --> 00:42:50,710

number of sightings per day was on the

897

00:42:55,980 --> 00:42:53,440

increase but actually maybe 18 other

898

00:42:58,100 --> 00:42:55,990

sightings on the same day as Kenz but

899

00:43:00,150 --> 00:42:58,110

cal vinyl siding was the one that

900

00:43:03,150 --> 00:43:00,160

attracted the interest because he was a

901
00:43:05,220 --> 00:43:03,160
pilot and he told us told of this

902
00:43:07,470 --> 00:43:05,230
sighting to some pilot friends and they

903
00:43:09,000 --> 00:43:07,480
told some news media people and the news

904
00:43:13,610 --> 00:43:09,010
video people pick up on it because it

905
00:43:16,670 --> 00:43:13,620
was a heck of a story objects flying

906
00:43:20,640 --> 00:43:16,680
extremely high speed could they be new

907
00:43:22,500 --> 00:43:20,650
secret aircraft or something so I might

908
00:43:24,480 --> 00:43:22,510
say under the cover of believing that

909
00:43:27,390 --> 00:43:24,490
are claiming that they were secret

910
00:43:30,810 --> 00:43:27,400
aircraft kind of Kenneth was able to get

911
00:43:32,520 --> 00:43:30,820
the data across to the world more or

912
00:43:35,640 --> 00:43:32,530
less so these things you do 1700 miles

913
00:43:38,340 --> 00:43:35,650

an hour and it was in the days after

914

00:43:40,940 --> 00:43:38,350

that the air force was querying about it

915

00:43:43,080 --> 00:43:40,950

and they said well it's not ours and

916

00:43:45,180 --> 00:43:43,090

people were afraid to a could possibly

917

00:43:46,800 --> 00:43:45,190

be the Russians but the air force didn't

918

00:43:48,780 --> 00:43:46,810

believe that the Russians could have

919

00:43:51,710 --> 00:43:48,790

made any great leaps you have

920

00:43:53,790 --> 00:43:51,720

understand in the time frame of this

921

00:43:55,890 --> 00:43:53,800

1977 was only a couple years after the

922

00:43:57,450 --> 00:43:55,900

Second World War and during a second

923

00:44:02,580 --> 00:43:57,460

world war there were tremendous advances

924

00:44:07,140 --> 00:44:02,590

in types of war type Sciences like radar

925

00:44:10,140 --> 00:44:07,150

and stuff like that and of course the

926

00:44:12,840 --> 00:44:10,150

atomic bomb so people were almost ready

927

00:44:14,220 --> 00:44:12,850

to believe almost anything as possible

928

00:44:15,930 --> 00:44:14,230

with the things that they hadn't heard

929

00:44:18,540 --> 00:44:15,940

of it or secrets going on by the

930

00:44:20,580 --> 00:44:18,550

government and when the final report of

931

00:44:23,670 --> 00:44:20,590

these high-speed objects the first

932

00:44:25,710 --> 00:44:23,680

thought was this by the way his first

933

00:44:27,990 --> 00:44:25,720

thought too was that they were high

934

00:44:29,580 --> 00:44:28,000

speed jet aircraft he couldn't

935

00:44:31,530 --> 00:44:29,590

understand how they could fly with this

936

00:44:33,080 --> 00:44:31,540

wobbling motion and he didn't understand

937

00:44:36,380 --> 00:44:33,090

how I couldn't see engines or anything

938

00:44:38,700 --> 00:44:36,390

but he was trying to see them as

939

00:44:40,770 --> 00:44:38,710
conventional aircraft with some

940

00:44:42,870 --> 00:44:40,780
modification it turned out they were

941

00:44:44,160 --> 00:44:42,880
completely unconventional there was no

942

00:44:45,680 --> 00:44:44,170
wake or modify

943

00:44:49,339 --> 00:44:45,690
[Music]

944

00:44:51,589 --> 00:44:49,349
except of a t-shaped aircraft to turn in

945

00:44:53,060 --> 00:44:51,599
a semi-circle like like these things

946

00:44:55,849 --> 00:44:53,070
were so

947

00:44:58,490 --> 00:44:55,859
but as I said at first he was thinking

948

00:45:01,070 --> 00:44:58,500
that they might be Air Force jets and

949

00:45:03,400 --> 00:45:01,080
that's the way he explained it to his

950

00:45:07,579 --> 00:45:03,410
friends that he saw these new aircraft

951
00:45:09,349 --> 00:45:07,589
Air Force fighter jets and the the

952
00:45:11,420 --> 00:45:09,359
people of the airports where he talked

953
00:45:13,550 --> 00:45:11,430
about it tended to agree with him that

954
00:45:16,430 --> 00:45:13,560
must be what it is they didn't initially

955
00:45:18,050 --> 00:45:16,440
assumed that he was nuts they assumed

956
00:45:21,980 --> 00:45:18,060
that he was telling his act as

957
00:45:26,060 --> 00:45:21,990
accurately as he could and there was you

958
00:45:29,750 --> 00:45:26,070
calculated the results of his

959
00:45:31,490 --> 00:45:29,760
measurements you began to see that this

960
00:45:33,260 --> 00:45:31,500
is why this is impossible there's

961
00:45:37,450 --> 00:45:33,270
nothing there's not 1,700 miles ah

962
00:45:40,430 --> 00:45:37,460
there's a what did the Condon report

963
00:45:42,200 --> 00:45:40,440

conclude on the sighting did they have

964

00:45:45,410 --> 00:45:42,210

enlisted is unidentified or did they

965

00:45:49,579 --> 00:45:45,420

come up with some whacky explanation the

966

00:45:51,320 --> 00:45:49,589

Curan report was in 1968 69 David Muir I

967

00:45:53,839 --> 00:45:51,330

don't think they did more than mention

968

00:45:55,490 --> 00:45:53,849

Kenneth Arnold sorry his name is

969

00:45:57,620 --> 00:45:55,500

mentioned in virtually every year for

970

00:45:59,599 --> 00:45:57,630

both because of the fact that he is

971

00:46:02,150 --> 00:45:59,609

saying of the one attract attention

972

00:46:05,510 --> 00:46:02,160

anyway we get it we get it yeah

973

00:46:08,810 --> 00:46:05,520

we're getting ready for our are a little

974

00:46:11,630 --> 00:46:08,820

bit longer break day here and when we

975

00:46:15,140 --> 00:46:11,640

come back after the break I have some

976

00:46:18,170 --> 00:46:15,150

very interesting fascinating details

977

00:46:21,230 --> 00:46:18,180

about what happened later in Kenneth

978

00:46:24,380 --> 00:46:21,240

Arnold's a life that pushes the the

979

00:46:26,930 --> 00:46:24,390

subject into a little bit more of a

980

00:46:29,120 --> 00:46:26,940

paranormal nature because he didn't have

981

00:46:33,920 --> 00:46:29,130

several UFO sightings and of course

982

00:46:35,210 --> 00:46:33,930

there is the enigma of the ten or so

983

00:46:37,430 --> 00:46:35,220

deaths that took place on the

984

00:46:39,530 --> 00:46:37,440

anniversary of the site 1924 but we'll

985

00:46:46,240 --> 00:46:39,540

be back and stay tuned and tell your

986

00:46:46,250 --> 00:46:51,009

[Music]

987

explode the bazaar your e-ticket ride is

988

00:47:01,249 --> 00:46:57,980

the world of the paranoid

989

00:47:05,529 --> 00:47:01,259

strap yourself e'en as we traverse the

990

00:47:08,650 --> 00:47:05,539

universe exploring the unexplained UFO s

991

00:47:11,059 --> 00:47:08,660

ghosts lost world

992

00:47:14,900 --> 00:47:11,069

cryptozoology as well as other

993

00:47:18,710 --> 00:47:14,910

dimensions it's time to take back the

994

00:47:20,900 --> 00:47:18,720

night last night now you are

995

00:47:28,059 --> 00:47:20,910

electrifying hosts of exploring the

996

00:47:34,130 --> 00:47:31,489

and welcome back to the second hour of

997

00:47:39,259 --> 00:47:34,140

exploring the bizarre and tonight we are

998

00:47:40,999 --> 00:47:39,269

talking about the mother the origin not

999

00:47:43,430 --> 00:47:41,009

really I suppose not really the origin

1000

00:47:45,739 --> 00:47:43,440

but you know one of the the first UFO

1001
00:47:48,200 --> 00:47:45,749
sighting to the modern UFO air mother

1002
00:47:52,729 --> 00:47:48,210
the mother of all UFO sightings there

1003
00:47:54,380 --> 00:47:52,739
you go there you go so so Tim what do

1004
00:47:56,870 --> 00:47:54,390
you have to say about this I mean I know

1005
00:47:58,960 --> 00:47:56,880
that you've been you know investigated

1006
00:48:03,890 --> 00:47:58,970
researching UFOs for years and years and

1007
00:48:07,009 --> 00:48:03,900
you know what say you well you know we

1008
00:48:08,630 --> 00:48:07,019
think of a Ken Arnold as having the you

1009
00:48:10,339 --> 00:48:08,640
know the first UFO sighting and of

1010
00:48:13,309 --> 00:48:10,349
course some of the things that happened

1011
00:48:15,829 --> 00:48:13,319
in association with Morrie island but as

1012
00:48:17,539 --> 00:48:15,839
I started to collect you know I would

1013
00:48:19,759 --> 00:48:17,549

get clippings I'd subscribe to a

1014

00:48:22,579 --> 00:48:19,769

clipping service and and I remember one

1015

00:48:26,150 --> 00:48:22,589

day I got I got a clipping from I guess

1016

00:48:28,519 --> 00:48:26,160

it was the Boise one of the Pipers near

1017

00:48:30,430 --> 00:48:28,529

or in Boise and it talked about some of

1018

00:48:33,979 --> 00:48:30,440

the other things that had happened to

1019

00:48:38,839 --> 00:48:33,989

Ken Arnold and I guess he gave one of

1020

00:48:40,609 --> 00:48:38,849

his very rare rare interviews and this

1021

00:48:46,549 --> 00:48:40,619

was at the point I guess in my youthful

1022

00:48:49,880 --> 00:48:46,559

logical career where I began to kind of

1023

00:48:53,150 --> 00:48:49,890

shed my total belief system that UFOs

1024

00:48:57,319 --> 00:48:53,160

had to necessarily be interplanetary in

1025

00:48:59,239 --> 00:48:57,329

scope and nature and you know recently

1026

00:49:01,039 --> 00:48:59,249

we we did a book you and I worked on it

1027

00:49:03,499 --> 00:49:01,049

together along with other contributors

1028

00:49:04,520 --> 00:49:03,509

called the matrix control system of

1029

00:49:06,740 --> 00:49:04,530

philip k dick

1030

00:49:09,620 --> 00:49:06,750

and the paranormal synchronicities of

1031

00:49:13,970 --> 00:49:09,630

tim Beckley that would be me of course

1032

00:49:18,350 --> 00:49:13,980

and there is a entire chapter in the

1033

00:49:21,980 --> 00:49:18,360

book it's called UFOs a journey to the

1034

00:49:24,980 --> 00:49:21,990

afterlife now I think quite a bit has

1035

00:49:27,410 --> 00:49:24,990

been made about the fact that a number

1036

00:49:31,370 --> 00:49:27,420

of UFO researchers probably about 10 or

1037

00:49:34,070 --> 00:49:31,380

12 have passed away on June 24th which

1038

00:49:38,600 --> 00:49:34,080

would be the anniversary of the sighting

1039

00:49:40,730 --> 00:49:38,610

by Kenneth Arnold now some of those that

1040

00:49:45,110 --> 00:49:40,740

passed away on that date included Jackie

1041

00:49:47,930 --> 00:49:45,120

Gleason who was a a collector of UFO

1042

00:49:50,570 --> 00:49:47,940

books and magazines in fact he was a

1043

00:49:54,680 --> 00:49:50,580

guest several times on the Long John

1044

00:49:56,840 --> 00:49:54,690

Neville Party line and he believed very

1045

00:50:01,400 --> 00:49:56,850

strongly in UFOs and that they were

1046

00:50:03,710 --> 00:50:01,410

intelligent controlled devices of some

1047

00:50:07,850 --> 00:50:03,720

sort probably from another planet

1048

00:50:10,130 --> 00:50:07,860

he was very Pro physical law sorcerer

1049

00:50:11,900 --> 00:50:10,140

and of course there were stories that

1050

00:50:14,000 --> 00:50:11,910

were passed around years later that he

1051
00:50:19,280 --> 00:50:14,010
and Richard that Richard Nixon took him

1052
00:50:22,670 --> 00:50:19,290
to an air Air Base in Florida and showed

1053
00:50:25,940 --> 00:50:22,680
Jackie this freezer and they looked

1054
00:50:29,600 --> 00:50:25,950
inside and there was a body of one of

1055
00:50:32,690 --> 00:50:29,610
these alien beings the strange story

1056
00:50:34,760 --> 00:50:32,700
hard to approve but anyway a Jackie

1057
00:50:37,250 --> 00:50:34,770
Gleason was a big proponent of the UFO

1058
00:50:39,260 --> 00:50:37,260
phenomena in fact when I was growing up

1059
00:50:42,440 --> 00:50:39,270
the first UFO book that I did was called

1060
00:50:44,500 --> 00:50:42,450
UFOs around the world and I got a check

1061
00:50:46,940 --> 00:50:44,510
from Jackie Gleason signed by him

1062
00:50:49,760 --> 00:50:46,950
ordering a copy of the book and I was

1063
00:50:52,310 --> 00:50:49,770

very impressed in fact today his UFO in

1064

00:50:54,130 --> 00:50:52,320

a cult library which is considered one

1065

00:50:57,820 --> 00:50:54,140

of the largest in this country here

1066

00:51:01,730 --> 00:50:57,830

resides in the University of Miami

1067

00:51:04,010 --> 00:51:01,740

anyway on June 24th as I say 10 or 12

1068

00:51:06,620 --> 00:51:04,020

researchers have passed away over the

1069

00:51:09,200 --> 00:51:06,630

years that included Jackie Gleason Frank

1070

00:51:11,420 --> 00:51:09,210

Scully who wrote probably one of the

1071

00:51:15,080 --> 00:51:11,430

first the popular books called behind

1072

00:51:18,420 --> 00:51:15,090

the flying saucers Frank Edwards passed

1073

00:51:20,519 --> 00:51:18,430

away I think the year was 1967

1074

00:51:22,859 --> 00:51:20,529

and of course he wrote the book flying

1075

00:51:26,880 --> 00:51:22,869

saucers serious business and was

1076
00:51:28,519 --> 00:51:26,890
probably the first broadcaster who on a

1077
00:51:31,500 --> 00:51:28,529
regular basis

1078
00:51:34,140 --> 00:51:31,510
discussed UFO sightings that were coming

1079
00:51:36,599 --> 00:51:34,150
to his attention in fact there is some

1080
00:51:38,339 --> 00:51:36,609
belief that he was actually thrown off

1081
00:51:42,660 --> 00:51:38,349
the air or he lost his sponsorship

1082
00:51:44,730 --> 00:51:42,670
because he refused to stop discussing

1083
00:51:49,789 --> 00:51:44,740
the flying saucer sightings that were

1084
00:51:53,819 --> 00:51:49,799
taking place in the I guess mid and late

1085
00:51:56,549 --> 00:51:53,829
1950s then there was actually a frank

1086
00:52:01,950 --> 00:51:56,559
edwardses publisher Lyle Stuart he also

1087
00:52:05,400 --> 00:52:01,960
passed away on June 24th there was a

1088
00:52:09,240 --> 00:52:05,410

congressman Mary obayashi who was one of

1089

00:52:11,970 --> 00:52:09,250

the few politicians who was trying to

1090

00:52:13,380 --> 00:52:11,980

get some disclosure you know happening

1091

00:52:18,329 --> 00:52:13,390

on the subject this would have been back

1092

00:52:20,120 --> 00:52:18,339

in the 1970s unfortunately he got

1093

00:52:22,380 --> 00:52:20,130

dismissed from office for some

1094

00:52:25,380 --> 00:52:22,390

hanky-panky but that's what politicians

1095

00:52:27,329 --> 00:52:25,390

do I guess a lot of them will ela who

1096

00:52:31,049 --> 00:52:27,339

was a german-american science writer and

1097

00:52:34,950 --> 00:52:31,059

space advocate passed away on June 24th

1098

00:52:36,620 --> 00:52:34,960

and any other number of individuals so

1099

00:52:39,269 --> 00:52:36,630

there is something weird

1100

00:52:44,940 --> 00:52:39,279

synchronicity wise I call it the June

1101
00:52:47,940 --> 00:52:44,950
24th enigma now interestingly enough in

1102
00:52:50,549 --> 00:52:47,950
a interview that the Kenneth Arnold did

1103
00:52:53,460 --> 00:52:50,559
later on in life they asked him if he

1104
00:52:55,920 --> 00:52:53,470
where he believed that UFOs originated

1105
00:53:00,000 --> 00:52:55,930
from or what they were and during the

1106
00:53:03,630 --> 00:53:00,010
this interview he stated rather candidly

1107
00:53:07,200 --> 00:53:03,640
that he thought that UFOs were either

1108
00:53:11,339 --> 00:53:07,210
some sort of living beings or that they

1109
00:53:15,720 --> 00:53:11,349
were some sort of device that took Souls

1110
00:53:18,260 --> 00:53:15,730
over from this world to the afterlife

1111
00:53:21,450 --> 00:53:18,270
now I don't think that very many people

1112
00:53:25,349 --> 00:53:21,460
realize that but certainly if he had

1113
00:53:28,049 --> 00:53:25,359

that belief and it would seem that these

1114

00:53:30,000 --> 00:53:28,059

paths the way people passed away on June

1115

00:53:31,920 --> 00:53:30,010

24th there seems to be some

1116

00:53:34,530 --> 00:53:31,930

synchronicity there I I know

1117

00:53:37,500 --> 00:53:34,540

I sweated a little bit less when the the

1118

00:53:40,830 --> 00:53:37,510

clock struck midnight on June 25th I

1119

00:53:44,550 --> 00:53:40,840

made it I made it an another I made it

1120

00:53:46,230 --> 00:53:44,560

another year but there is something and

1121

00:53:47,870 --> 00:53:46,240

I think as you know we'll agree to this

1122

00:53:51,000 --> 00:53:47,880

something

1123

00:53:53,580 --> 00:53:51,010

synchronicity plays a weird role in the

1124

00:53:55,500 --> 00:53:53,590

UFO phenomena and in the paranormal in

1125

00:53:57,150 --> 00:53:55,510

general in fact it just turns out

1126
00:53:59,670 --> 00:53:57,160
recently that we have kind of a minor

1127
00:54:03,240 --> 00:53:59,680
synchronicity it turns out that Chanel

1128
00:54:05,910 --> 00:54:03,250
and I have a mutual friend there is a

1129
00:54:07,380 --> 00:54:05,920
young lady who I knew when she was

1130
00:54:11,240 --> 00:54:07,390
working here in New York by the name is

1131
00:54:13,620 --> 00:54:11,250
star and and and it turns out that the

1132
00:54:17,430 --> 00:54:13,630
star in Chanel know each other now I

1133
00:54:20,190 --> 00:54:17,440
don't know how many people live in Boise

1134
00:54:22,110 --> 00:54:20,200
Idaho but it's kind of like my

1135
00:54:24,510 --> 00:54:22,120
synchronicity with alan vaughn in the

1136
00:54:27,000 --> 00:54:24,520
city of san francisco i run into him

1137
00:54:29,820 --> 00:54:27,010
without it without him even knowing them

1138
00:54:32,850 --> 00:54:29,830

and i'm in town or anything but can it

1139

00:54:35,910 --> 00:54:32,860

can arnold i also have here a list that

1140

00:54:38,490 --> 00:54:35,920

was applied to me by ken thomas who of

1141

00:54:41,250 --> 00:54:38,500

course was the editor and publisher of

1142

00:54:44,220 --> 00:54:41,260

the steam shovel press and he lists the

1143

00:54:46,190 --> 00:54:44,230

list a a number of items that refer to

1144

00:54:51,570 --> 00:54:46,200

Kenneth Arnold some of the things that

1145

00:54:53,570 --> 00:54:51,580

happened to to him later on in life she

1146

00:54:58,320 --> 00:54:53,580

said besides his initial sighting in

1147

00:55:00,630 --> 00:54:58,330

1947 he had several other sightings that

1148

00:55:04,320 --> 00:55:00,640

took place and on at least one perhaps

1149

00:55:06,900 --> 00:55:04,330

two occasions he actually filmed a UFO

1150

00:55:10,500 --> 00:55:06,910

on another occasion he had a sighting of

1151
00:55:14,250 --> 00:55:10,510
25 small crafts another UFO sighting in

1152
00:55:17,850 --> 00:55:14,260
1952 of two objects one solid the other

1153
00:55:20,150 --> 00:55:17,860
jellyfish-like arnold stated that he had

1154
00:55:22,950 --> 00:55:20,160
telepathic communication with some of

1155
00:55:24,810 --> 00:55:22,960
during some of these sightings there

1156
00:55:27,240 --> 00:55:24,820
were floating orbs that were seen around

1157
00:55:30,390 --> 00:55:27,250
the house he was fascinated himself with

1158
00:55:32,310 --> 00:55:30,400
the synchronicities and as we pointed

1159
00:55:36,900 --> 00:55:32,320
out he was convinced that ufos were

1160
00:55:39,150 --> 00:55:36,910
somehow connected to the to the dead now

1161
00:55:41,250 --> 00:55:39,160
shanell did your grandfather ever

1162
00:55:44,400 --> 00:55:41,260
mention any of these other currencies to

1163
00:55:45,210 --> 00:55:44,410

you it's what my mother has taught me

1164

00:55:47,880 --> 00:55:45,220

that

1165

00:55:52,490 --> 00:55:47,890

um but they definitely they definitely

1166

00:55:54,870 --> 00:55:52,500

have something to do with our I guess

1167

00:55:57,660 --> 00:55:54,880

I'm trying to give the right word when

1168

00:56:00,750 --> 00:55:57,670

we pass to the afterlife um you know

1169

00:56:02,339 --> 00:56:00,760

these entities could be like angels or

1170

00:56:05,010 --> 00:56:02,349

you know they could be they could be

1171

00:56:06,540 --> 00:56:05,020

taking us different dimensions and just

1172

00:56:08,580 --> 00:56:06,550

growing up with my mother you know this

1173

00:56:10,770 --> 00:56:08,590

is what she would tell me and this is

1174

00:56:14,670 --> 00:56:10,780

what she was told by my grandfather and

1175

00:56:16,410 --> 00:56:14,680

her mother and you know my grandfather

1176

00:56:18,599 --> 00:56:16,420

every time he had an experience with

1177

00:56:23,040 --> 00:56:18,609

flying saucers it was a spiritual

1178

00:56:25,560 --> 00:56:23,050

experience to him and he felt like there

1179

00:56:27,480 --> 00:56:25,570

was a bigger picture because it happened

1180

00:56:31,970 --> 00:56:27,490

more than once first he had his initial

1181

00:56:34,560 --> 00:56:31,980

sighting and you know he he was just so

1182

00:56:37,230 --> 00:56:34,570

overwhelmed with what he experienced and

1183

00:56:41,460 --> 00:56:37,240

had more sightings he believed there

1184

00:56:43,320 --> 00:56:41,470

from another dimension hmm well I think

1185

00:56:46,770 --> 00:56:43,330

that we've seen over the years would you

1186

00:56:49,980 --> 00:56:46,780

agree Tim that there has been a kind of

1187

00:56:54,000 --> 00:56:49,990

an alteration and belief systems in the

1188

00:56:55,589 --> 00:56:54,010

UFO field you know where these objects

1189

00:56:58,859 --> 00:56:55,599

were considered to be of

1190

00:57:00,540 --> 00:56:58,869

extraterrestrial origin there are a lot

1191

00:57:02,849 --> 00:57:00,550

of researchers now including the late

1192

00:57:04,980 --> 00:57:02,859

dr. J Allen Hynek and we're going to

1193

00:57:07,560 --> 00:57:04,990

have the author of a book that was

1194

00:57:09,599 --> 00:57:07,570

written about him recently on and I have

1195

00:57:13,260 --> 00:57:09,609

some kind of a confidential information

1196

00:57:17,400 --> 00:57:13,270

that dr. Hynek revealed to me at one of

1197

00:57:19,620 --> 00:57:17,410

during one of his last interviews so you

1198

00:57:22,320 --> 00:57:19,630

know a Bruce did you ever have the

1199

00:57:24,930 --> 00:57:22,330

opportunity to speak with the Ken ro not

1200

00:57:29,070 --> 00:57:24,940

to speak without no I I heard him talk

1201
00:57:33,150 --> 00:57:29,080
in 1977 at the Fate symposium in Chicago

1202
00:57:35,810 --> 00:57:33,160
how was the closer I got uh and and did

1203
00:57:38,359 --> 00:57:35,820
he did he talk about any of this strange

1204
00:57:42,420 --> 00:57:38,369
synchronicities or any of this a

1205
00:57:43,950 --> 00:57:42,430
paranormal aspect of this well I I don't

1206
00:57:47,640 --> 00:57:43,960
remember everything that he talked about

1207
00:57:51,990 --> 00:57:47,650
I paid attention to his recitation of

1208
00:57:55,070 --> 00:57:52,000
the first sighting events which he had

1209
00:57:56,960 --> 00:57:55,080
talked about many times in in my book I

1210
00:57:59,870 --> 00:57:56,970
present for

1211
00:58:02,059 --> 00:57:59,880
different accountings that he gave the

1212
00:58:05,030 --> 00:58:02,069
unit the accounting is a foot is a

1213
00:58:08,569 --> 00:58:05,040

follow report of the words of the Air

1214

00:58:11,809 --> 00:58:08,579

Force which has written the four weeks

1215

00:58:14,150 --> 00:58:11,819

until after the event the account that

1216

00:58:18,430 --> 00:58:14,160

comes in the book here coming out of

1217

00:58:21,770 --> 00:58:18,440

saucers is so far the only UFO book to

1218

00:58:23,990 --> 00:58:21,780

basically concentrate on his sighting so

1219

00:58:30,589 --> 00:58:24,000

that was the second one then there was

1220

00:58:33,020 --> 00:58:30,599

also his first radio interview on us on

1221

00:58:35,420 --> 00:58:33,030

the 26th of June two days after the

1222

00:58:38,809 --> 00:58:35,430

sighting this is a one of the appendices

1223

00:58:42,380 --> 00:58:38,819

in the book and another appendix is his

1224

00:58:46,250 --> 00:58:42,390

talk at his discussion of the first

1225

00:58:50,990 --> 00:58:46,260

sighting as we presented at the 1977 for

1226

00:58:54,530 --> 00:58:51,000

face s so there's four four recitations

1227

00:58:57,829 --> 00:58:54,540

by Arnold and the skeptics would argue

1228

00:59:00,260 --> 00:58:57,839

well you'd expect that he was the

1229

00:59:01,730 --> 00:59:00,270

e-library as time went on this you get

1230

00:59:05,000 --> 00:59:01,740

more and more grandiose or something

1231

00:59:07,130 --> 00:59:05,010

like that this is a big hoax instead

1232

00:59:10,280 --> 00:59:07,140

offer basically all same same

1233

00:59:12,920 --> 00:59:10,290

information submitted different wording

1234

00:59:16,550 --> 00:59:12,930

with the same information conveyed with

1235

00:59:19,400 --> 00:59:16,560

no big expansions and stuff Afghanistan

1236

00:59:25,220 --> 00:59:19,410

in my book is not a biography of Kenneth

1237

00:59:28,210 --> 00:59:25,230

Arnold per se I essentially ends at the

1238

00:59:31,040 --> 00:59:28,220

end of his sighting and this is

1239

00:59:35,420 --> 00:59:31,050

historical analysis of what he said and

1240

00:59:38,620 --> 00:59:35,430

the implications for the rest of us my

1241

00:59:42,020 --> 00:59:38,630

argument is overall philosophical

1242

00:59:44,920 --> 00:59:42,030

argument about his sighting is that he

1243

00:59:47,720 --> 00:59:44,930

the fact that he saw these things and

1244

00:59:50,329 --> 00:59:47,730

reported them was essentially a message

1245

00:59:53,780 --> 00:59:50,339

to humanity say the message being here

1246

00:59:58,040 --> 00:59:53,790

you are not alone somebody off of here

1247

01:00:01,520 --> 00:59:58,050

and and I begin the book with that and I

1248

01:00:06,800 --> 01:00:01,530

end the book by saying I have been asked

1249

01:00:09,109 --> 01:00:06,810

why did I write this book I decided to

1250

01:00:11,239 --> 01:00:09,119

try to answer that question

1251

01:00:15,099 --> 01:00:11,249

back in the summers when I decided to

1252

01:00:18,620 --> 01:00:15,109

write a book about Arnold signing and

1253

01:00:20,299 --> 01:00:18,630

people have been saying here we've been

1254

01:00:22,159 --> 01:00:20,309

working at this stuff for years we don't

1255

01:00:24,999 --> 01:00:22,169

really have any good salt answers yet so

1256

01:00:27,140 --> 01:00:25,009

I asked myself what could what

1257

01:00:30,529 --> 01:00:27,150

constitutes a good solid answers for

1258

01:00:33,079 --> 01:00:30,539

this condom of of UFOs or flying saucers

1259

01:00:35,959 --> 01:00:33,089

and how do we find out what it is and I

1260

01:00:37,909 --> 01:00:35,969

said when I go back to the beginning and

1261

01:00:40,489 --> 01:00:37,919

see what we missed to begin with I

1262

01:00:42,589 --> 01:00:40,499

thought what we missed was the sightings

1263

01:00:44,779 --> 01:00:42,599

themselves the the fact that there was

1264

01:00:46,579 --> 01:00:44,789

something there and we spent a lot of

1265

01:00:49,539 --> 01:00:46,589

time trying to figure out explanations

1266

01:00:53,299 --> 01:00:49,549

for them and lose sight of the

1267

01:00:55,549 --> 01:00:53,309

information being provided it's hard

1268

01:00:57,829 --> 01:00:55,559

enough to convince people that flying

1269

01:01:00,319 --> 01:00:57,839

saucers are real or UFOs are real or

1270

01:01:05,259 --> 01:01:00,329

we're going to call iCarly implying

1271

01:01:07,939 --> 01:01:05,269

alien flying craft we have literally

1272

01:01:10,009 --> 01:01:07,949

tens of hundreds of thousands of sayings

1273

01:01:14,149 --> 01:01:10,019

that I myself have looked at a number of

1274

01:01:17,439 --> 01:01:14,159

sightings over the six years if I spent

1275

01:01:20,749 --> 01:01:17,449

some time doing these studies and

1276

01:01:23,779 --> 01:01:20,759

they're not enough to convince anybody I

1277

01:01:25,429 --> 01:01:23,789

guess ascertain if you're severe

1278

01:01:27,859 --> 01:01:25,439

skeptics are not going to be convinced

1279

01:01:29,509 --> 01:01:27,869

by that but they're less than I was

1280

01:01:31,939 --> 01:01:29,519

going over the Arnold's sighting I said

1281

01:01:34,579 --> 01:01:31,949

to myself where come right down to it

1282

01:01:37,069 --> 01:01:34,589

you only need one sighting to prove this

1283

01:01:38,689 --> 01:01:37,079

that this phenomenon is real that

1284

01:01:40,640 --> 01:01:38,699

happens to be karen'll sighting and

1285

01:01:42,890 --> 01:01:40,650

you're talking about synchronicities

1286

01:01:44,870 --> 01:01:42,900

well as a major synchronicity going on

1287

01:01:46,640 --> 01:01:44,880

in his sighting he was the right person

1288

01:01:48,559 --> 01:01:46,650

the right man to be at the right place

1289

01:01:51,919 --> 01:01:48,569

at the right time and with the right

1290

01:01:55,549 --> 01:01:51,929

attitude which is of prime importance

1291

01:01:58,370 --> 01:01:55,559

the attitude of well I see something can

1292

01:01:59,870 --> 01:01:58,380

I do something about it can I make a big

1293

01:02:02,589 --> 01:01:59,880

question was can I measure it in some

1294

01:02:04,370 --> 01:02:02,599

way which he did he did a lot of test

1295

01:02:07,549 --> 01:02:04,380

experiments during that three minutes

1296

01:02:09,859 --> 01:02:07,559

that's why this is a book is called

1297

01:02:14,329 --> 01:02:09,869

three minutes in June because of the

1298

01:02:16,609 --> 01:02:14,339

time of the time it took for deciding to

1299

01:02:18,859 --> 01:02:16,619

occur had he been on the ground

1300

01:02:21,079 --> 01:02:18,869

and these things flown over there's no

1301
01:02:22,370 --> 01:02:21,089
way he could have calculated this out at

1302
01:02:24,470 --> 01:02:22,380
the speed he

1303
01:02:27,220 --> 01:02:24,480
had to have a long-distance or shawl

1304
01:02:30,320 --> 01:02:27,230
over reasonably long time to be able to

1305
01:02:32,300 --> 01:02:30,330
be accurate and measuring the speed of

1306
01:02:34,940 --> 01:02:32,310
these things he could only do that from

1307
01:02:39,290 --> 01:02:34,950
the air so he had to be up in the air

1308
01:02:41,540 --> 01:02:39,300
course he had to be at a location close

1309
01:02:43,790 --> 01:02:41,550
to where they were appearing from and

1310
01:02:45,590 --> 01:02:43,800
they passed right and fatherless gave

1311
01:02:47,690 --> 01:02:45,600
them a good view of these objects as

1312
01:02:50,180 --> 01:02:47,700
they traveled he thought there may be 20

1313
01:02:51,530 --> 01:02:50,190

to 25 miles away at the closest and then

1314

01:02:54,380 --> 01:02:51,540

of course he sees him go past Mount

1315

01:02:58,730 --> 01:02:54,390

Rainier around Adams and is able to

1316

01:03:00,590 --> 01:02:58,740

calculate the speed all this stuff tends

1317

01:03:02,600 --> 01:03:00,600

to lend to the credibility of the report

1318

01:03:07,640 --> 01:03:02,610

and the fact that it didn't change over

1319

01:03:11,510 --> 01:03:07,650

a period of 30 years further further was

1320

01:03:13,160 --> 01:03:11,520

the credibility so my my response is the

1321

01:03:15,500 --> 01:03:13,170

book was written because we don't want

1322

01:03:17,510 --> 01:03:15,510

to find out what we we had missed wholly

1323

01:03:20,870 --> 01:03:17,520

missed with spending time on studying

1324

01:03:24,380 --> 01:03:20,880

the phenomenon itself rather than trying

1325

01:03:27,230 --> 01:03:24,390

to just explain it away now my FBI CIA

1326

01:03:30,140 --> 01:03:27,240

UFO book shows how the government try to

1327

01:03:32,360 --> 01:03:30,150

explain all sorts of stuff away and it's

1328

01:03:35,060 --> 01:03:32,370

really good for a sort of a background

1329

01:03:38,360 --> 01:03:35,070

than the first four or five six years of

1330

01:03:39,620 --> 01:03:38,370

events for somebody who's never read a

1331

01:03:40,850 --> 01:03:39,630

book about the something doesn't know

1332

01:03:43,550 --> 01:03:40,860

anything about the history of the

1333

01:03:45,890 --> 01:03:43,560

subject if you saw if you read my book

1334

01:03:47,510 --> 01:03:45,900

on Arnold you don't really learn about

1335

01:03:50,870 --> 01:03:47,520

what the first what happened in the

1336

01:03:53,480 --> 01:03:50,880

first few days you might say you need

1337

01:03:55,670 --> 01:03:53,490

some other books ago go beyond that what

1338

01:04:00,490 --> 01:03:55,680

did the Air Force respond the Air Force

1339

01:04:03,950 --> 01:04:00,500

investigate why did the Air Force

1340

01:04:06,320 --> 01:04:03,960

explain a while garbage explanations to

1341

01:04:09,260 --> 01:04:06,330

be published as as the explanations and

1342

01:04:13,400 --> 01:04:09,270

by the way Arnold's sighting is not the

1343

01:04:16,520 --> 01:04:13,410

first unexplained sighting it's not a

1344

01:04:16,900 --> 01:04:16,530

member of the 701 that you mentioned

1345

01:04:20,300 --> 01:04:16,910

earlier

1346

01:04:23,540 --> 01:04:20,310

Arnold's saying the first thing was Fred

1347

01:04:25,190 --> 01:04:23,550

Johnson a prospector who was a Makarov

1348

01:04:26,570 --> 01:04:25,200

on the same day as kind of Ferelden

1349

01:04:29,810 --> 01:04:26,580

literally afternoon he saw these things

1350

01:04:32,570 --> 01:04:29,820

fly over he looked at him at a scope he

1351
01:04:35,060 --> 01:04:32,580
saw his compass wobbled as they were

1352
01:04:36,900 --> 01:04:35,070
going going past and it became stable

1353
01:04:39,630 --> 01:04:36,910
after they Donnell

1354
01:04:41,970 --> 01:04:39,640
kind of a kind of town setting they said

1355
01:04:44,130 --> 01:04:41,980
was a mirage but Fred Johnson said he

1356
01:04:46,470 --> 01:04:44,140
couldn't explain Fred Johnson sighting

1357
01:04:50,820 --> 01:04:46,480
is the first unexplained sighting in the

1358
01:04:53,520 --> 01:04:50,830
fuzzy blue look file of 13,000 safe so

1359
01:04:56,040 --> 01:04:53,530
now how does Kenneth Arnold's sighting

1360
01:04:59,730 --> 01:04:56,050
to compare with other reports that

1361
01:05:02,700 --> 01:04:59,740
you've investigated over the years well

1362
01:05:04,170 --> 01:05:02,710
of course is a one person sighting I had

1363
01:05:07,170 --> 01:05:04,180

tend to believe that this one person was

1364

01:05:11,220 --> 01:05:07,180

a at the top of his capability of

1365

01:05:14,840 --> 01:05:11,230

recording memorizing and recording facts

1366

01:05:18,080 --> 01:05:14,850

of these objects that he saw I don't and

1367

01:05:20,220 --> 01:05:18,090

since there's nobody else around to

1368

01:05:22,560 --> 01:05:20,230

confuse the issue or dispute what he

1369

01:05:24,960 --> 01:05:22,570

says it's reasonable reasonable wife

1370

01:05:25,260 --> 01:05:24,970

believed it was assuming he's telling

1371

01:05:27,060 --> 01:05:25,270

the truth

1372

01:05:28,800 --> 01:05:27,070

a lot of the other settings that I've

1373

01:05:36,420 --> 01:05:28,810

analyzed are multiple retina sightings

1374

01:05:40,349 --> 01:05:36,430

and film video photographs I even have

1375

01:05:44,390 --> 01:05:40,359

one magnetic field sighting that I

1376

01:05:47,700 --> 01:05:44,400

polish on and I FBI see a whole book

1377

01:05:49,980 --> 01:05:47,710

well I think one of the things that has

1378

01:05:52,080 --> 01:05:49,990

always fascinated me especially with the

1379

01:05:55,500 --> 01:05:52,090

Arnold sightings is you know his

1380

01:05:58,740 --> 01:05:55,510

description of how these crafts were

1381

01:06:03,140 --> 01:05:58,750

were flying and you know I mean there

1382

01:06:06,540 --> 01:06:03,150

has been so many other reports that

1383

01:06:10,800 --> 01:06:06,550

basically described the same aerial

1384

01:06:13,830 --> 01:06:10,810

dynamic principles of flight well I have

1385

01:06:17,450 --> 01:06:13,840

seen reports exact 11 the so-called

1386

01:06:19,859 --> 01:06:17,460

falling leaf motion of objects with

1387

01:06:22,050 --> 01:06:19,869

glide from side to side left right left

1388

01:06:24,900 --> 01:06:22,060

right as they fall down rise like a leaf

1389

01:06:27,900 --> 01:06:24,910

falling from a tree that's been reported

1390

01:06:29,550 --> 01:06:27,910

a number times mm-hmm well I mean

1391

01:06:31,700 --> 01:06:29,560

there's been there's been other pilots

1392

01:06:34,800 --> 01:06:31,710

who have who have seen these these

1393

01:06:37,230 --> 01:06:34,810

crafts and describe you know how they

1394

01:06:41,460 --> 01:06:37,240

seem to you know like Zelly a wobble

1395

01:06:43,140 --> 01:06:41,470

side side and skip across you know like

1396

01:06:46,550 --> 01:06:43,150

that like a rocks giving across the

1397

01:06:48,960 --> 01:06:46,560

surface of water and

1398

01:06:51,570 --> 01:06:48,970

supposedly non-physical motions like my

1399

01:06:54,150 --> 01:06:51,580

grandmother talked about seeing two

1400

01:06:57,450 --> 01:06:54,160

objects side-by-side round bright dots

1401

01:06:59,820 --> 01:06:57,460

in a clear blue sky traveling westward

1402

01:07:02,280 --> 01:06:59,830

making a right angle turn and traveling

1403

01:07:04,500 --> 01:07:02,290

northward grandma was not an aerodynamic

1404

01:07:09,030 --> 01:07:04,510

aerodynamic physicist or whatever but

1405

01:07:16,580 --> 01:07:12,510

well now the the shape of the crafts

1406

01:07:19,410 --> 01:07:16,590

that Arnold siding saw was there a photo

1407

01:07:22,500 --> 01:07:19,420

taking in I think it was Arizona that

1408

01:07:26,550 --> 01:07:22,510

showed a similar object a week or two

1409

01:07:29,850 --> 01:07:26,560

later almost look like a like a hole a

1410

01:07:32,970 --> 01:07:29,860

shoe heel right here time out the roads

1411

01:07:36,390 --> 01:07:32,980

photo from Phoenix yes Rose Toto was

1412

01:07:39,000 --> 01:07:36,400

believed to be unexplainable except it

1413

01:07:42,090 --> 01:07:39,010

is an unexplained photograph of course

1414

01:07:44,370 --> 01:07:42,100

the skeptics is try to explain it one

1415

01:07:46,010 --> 01:07:44,380

way or another basically they the only

1416

01:07:48,180 --> 01:07:46,020

they're only out is it must be a hoax

1417

01:07:50,250 --> 01:07:48,190

but yes you're right it looks like it

1418

01:07:52,190 --> 01:07:50,260

didn't look like it looks like a

1419

01:07:56,370 --> 01:07:52,200

semicircle in the front end and a

1420

01:07:59,240 --> 01:07:56,380

concave depression in the back end

1421

01:08:03,420 --> 01:07:59,250

unlike the Arnold objects that are

1422

01:08:06,480 --> 01:08:03,430

semicircular in the front half and stuck

1423

01:08:10,770 --> 01:08:06,490

out in the rear end like a triangle

1424

01:08:12,570 --> 01:08:10,780

almost pointed Fred Johnson a prospector

1425

01:08:14,460 --> 01:08:12,580

who saw these things this is the end of

1426

01:08:16,769 --> 01:08:14,470

Arnold sighting as they were going to

1427

01:08:19,289 --> 01:08:16,779

pass on Arabs he said they had a big a

1428

01:08:21,539 --> 01:08:19,299

big thing on the back end like a hand of

1429

01:08:25,920 --> 01:08:21,549

a big magnet swimming back and singing

1430

01:08:29,039 --> 01:08:25,930

back and forth hmm interesting well II D

1431

01:08:32,099 --> 01:08:29,049

I mean you see you know like some of the

1432

01:08:34,530 --> 01:08:32,109

modern-day a stealth aircraft have

1433

01:08:38,910 --> 01:08:34,540

almost the same kind of shapes nowadays

1434

01:08:41,670 --> 01:08:38,920

oh they're more triangular in the front

1435

01:08:43,260 --> 01:08:41,680

of the leading front-end I don't know of

1436

01:08:47,269 --> 01:08:43,270

anything the semicircular at the front

1437

01:08:50,700 --> 01:08:47,279

and convex pointing outwards at the back

1438

01:08:52,740 --> 01:08:50,710

of course there was no he couldn't see

1439

01:08:55,320 --> 01:08:52,750

any engines on typical airplane the

1440

01:08:57,289 --> 01:08:55,330

engines hang down below the wings there

1441

01:08:59,010 --> 01:08:57,299

were no wings there were no engines

1442

01:09:00,249 --> 01:08:59,020

there's nothing that looked familiar

1443

01:09:03,220 --> 01:09:00,259

sorry good

1444

01:09:04,690 --> 01:09:03,230

and by the way the flashes of light

1445

01:09:06,070 --> 01:09:04,700

the initial class of light the

1446

01:09:08,229 --> 01:09:06,080

pregnancy's attention he said with a

1447

01:09:10,990 --> 01:09:08,239

increase in brightness essentially of

1448

01:09:13,840 --> 01:09:11,000

the body of his aircraft I have to ask

1449

01:09:16,390 --> 01:09:13,850

yourself the sun is shining there was a

1450

01:09:18,309 --> 01:09:16,400

clear day under mile visibility the Sun

1451

01:09:21,070 --> 01:09:18,319

was shining down as airplane it was

1452

01:09:25,539 --> 01:09:21,080

already very bright how bright a flash

1453

01:09:27,190 --> 01:09:25,549

I'll break the light be his aircraft for

1454

01:09:28,769 --> 01:09:27,200

him to notice if there's been an

1455

01:09:31,749 --> 01:09:28,779

increase in brilliance of an aircraft

1456

01:09:33,610 --> 01:09:31,759

dr. Maccabee libyan we have to go to our

1457

01:09:45,460 --> 01:09:33,620

bottom of the hour break so we will be

1458

01:09:49,210 --> 01:09:45,470

right back for more exploring design now

1459

01:09:51,370 --> 01:09:49,220

back to exploring the bazaar with two of

1460

01:09:54,850 --> 01:09:51,380

the most electrifying researchers in the

1461

01:09:59,040 --> 01:09:54,860

perineal your hostess Timothy Beck link

1462

01:10:05,710 --> 01:10:02,620

all right welcome back hello and welcome

1463

01:10:09,400 --> 01:10:05,720

back to a final half-hour of exploring

1464

01:10:11,290 --> 01:10:09,410

the bazaar and we're talking tonight

1465

01:10:12,580 --> 01:10:11,300

about the Kenneth Arnold sightings and

1466

01:10:15,160 --> 01:10:12,590

Tim I know you want to talk about

1467

01:10:19,420 --> 01:10:15,170

night-vision goggles a lot of people

1468

01:10:21,729 --> 01:10:19,430

have taken them out cameras you know

1469

01:10:24,640 --> 01:10:21,739

that I think what is it's the the

1470

01:10:27,190 --> 01:10:24,650

infrared the spectrum that they're

1471

01:10:30,130 --> 01:10:27,200

they're looking at with these I'm not

1472

01:10:33,610 --> 01:10:30,140

positive well now yes shanell now you

1473

01:10:36,220 --> 01:10:33,620

mentioned during a break here that you

1474

01:10:40,510 --> 01:10:36,230

were interested in perhaps visiting the

1475

01:10:42,640 --> 01:10:40,520

Gillian ranch in Washington now they've

1476

01:10:45,400 --> 01:10:42,650

taken some photo of videos I guess

1477

01:10:48,640 --> 01:10:45,410

videos through night-vision scope there

1478

01:10:50,140 --> 01:10:48,650

and and I mean from what we can see to

1479

01:10:52,229 --> 01:10:50,150

me it looks rather impressive of course

1480

01:10:55,990 --> 01:10:52,239

I don't know that much about

1481

01:10:58,150 --> 01:10:56,000

night-vision scopes or anything I know I

1482

01:11:00,700 --> 01:10:58,160

kind of hesitate to watch anything and

1483

01:11:02,170 --> 01:11:00,710

on TV like Ghost Hunters that shoots the

1484

01:11:05,020 --> 01:11:02,180

whole thing in night vision because it

1485

01:11:07,960 --> 01:11:05,030

just irritates my eyesight but if you

1486

01:11:11,650 --> 01:11:07,970

can pick up a UFO or something wandering

1487

01:11:14,200 --> 01:11:11,660

through space and in some of these the

1488

01:11:17,590 --> 01:11:14,210

cases I mean they claim that to my

1489

01:11:19,479 --> 01:11:17,600

be some conflict going on between aerial

1490

01:11:22,020 --> 01:11:19,489

devices way up there in the atmosphere

1491

01:11:24,940 --> 01:11:22,030

have you seen any of these videos a

1492

01:11:27,670 --> 01:11:24,950

Chanel or have you seen anything - a

1493

01:11:28,380 --> 01:11:27,680

night-vision scope that you can't

1494

01:11:31,930 --> 01:11:28,390

explain

1495

01:11:33,940 --> 01:11:31,940

no I mean I I would love to go there and

1496

01:11:36,850 --> 01:11:33,950

experience it because I hear that like a

1497

01:11:39,520 --> 01:11:36,860

reporter trying to debunk that Gilliland

1498

01:11:42,790 --> 01:11:39,530

ranch and she saw him through the night

1499

01:11:45,700 --> 01:11:42,800

vision and and my husband I just want to

1500

01:11:48,700 --> 01:11:45,710

go so bad but he's very exclusive to

1501

01:11:50,890 --> 01:11:48,710

whom he lets into the Gillihan ranch so

1502

01:11:54,310 --> 01:11:50,900

well I can't believe that he wouldn't

1503

01:11:56,380 --> 01:11:54,320

let you in I know I know the word the

1504

01:12:00,790 --> 01:11:56,390

word needs to get out that we we want to

1505

01:12:02,650 --> 01:12:00,800

go I just sent him an email I mean he

1506

01:12:05,110 --> 01:12:02,660

seems like the type of fellow who likes

1507

01:12:07,840 --> 01:12:05,120

to get his name out there I mean that

1508

01:12:11,140 --> 01:12:07,850

certainly would be impressive for him to

1509

01:12:13,690 --> 01:12:11,150

have a Ken Arnold's a granddaughter that

1510

01:12:16,030 --> 01:12:13,700

come by in and say that she saw or maybe

1511

01:12:19,030 --> 01:12:16,040

didn't see something strange in the sky

1512

01:12:21,580 --> 01:12:19,040

but how do you come in on this Bruce I

1513

01:12:23,770 --> 01:12:21,590

mean do you think that the night vision

1514

01:12:26,500 --> 01:12:23,780

that the scopes can improve your chance

1515

01:12:28,600 --> 01:12:26,510

of seeing something strange and what are

1516

01:12:36,360 --> 01:12:28,610

these people actually seeing if it's not

1517

01:12:44,130 --> 01:12:40,240

there's image intensifiers but basically

1518

01:12:47,410 --> 01:12:44,140

use starlight star lights folks that

1519

01:12:50,229 --> 01:12:47,420

react to radiation is within the visible

1520

01:12:53,229 --> 01:12:50,239

more or less and then those infrared of

1521

01:12:56,320 --> 01:12:53,239

various types near-infrared when you've

1522

01:13:00,280 --> 01:12:56,330

got a sony camera that does a night

1523

01:13:02,200 --> 01:13:00,290

vision sony typical camera is operating

1524

01:13:04,780 --> 01:13:02,210

in this and it would call the

1525

01:13:06,970 --> 01:13:04,790

near-infrared a little a little bit

1526

01:13:09,760 --> 01:13:06,980

redder than your eyeballs can see and

1527

01:13:11,050 --> 01:13:09,770

then there are more expensive infrared

1528

01:13:13,440 --> 01:13:11,060

cameras that operate at longer

1529

01:13:16,090 --> 01:13:13,450

wavelengths of the infrared and what you

1530

01:13:18,550 --> 01:13:16,100

what you get is going to depend on what

1531

01:13:20,670 --> 01:13:18,560

you look look through if you're looking

1532

01:13:23,620 --> 01:13:20,680

at looking at the world through a

1533

01:13:25,270 --> 01:13:23,630

regular video camera for example you'll

1534

01:13:27,100 --> 01:13:25,280

see what you would see with their naked

1535

01:13:31,440 --> 01:13:27,110

eyes

1536

01:13:35,920 --> 01:13:31,450

here is a video camera set for the

1537

01:13:38,230 --> 01:13:35,930

consumer night vision is using in nearby

1538

01:13:41,040 --> 01:13:38,240

infrared and you can see things of the

1539

01:13:44,770 --> 01:13:41,050

camera that you can't see your eye

1540

01:13:46,360 --> 01:13:44,780

that's sort of so bizarre thing to see

1541

01:13:47,080 --> 01:13:46,370

happen right in your own house but

1542

01:13:51,940 --> 01:13:47,090

that's true

1543

01:13:54,130 --> 01:13:51,950

you can heat up a piece of metal on a

1544

01:13:55,480 --> 01:13:54,140

sole top for example heat up to the

1545

01:13:57,030 --> 01:13:55,490

point where it looks red to your eyeball

1546

01:14:00,640 --> 01:13:57,040

and you look at through one of these

1547

01:14:02,920 --> 01:14:00,650

night vision video cameras and it looks

1548

01:14:04,870 --> 01:14:02,930

bright and then it gets cold as it cools

1549

01:14:06,370 --> 01:14:04,880

down it gets deeper and deeper and red

1550

01:14:08,590 --> 01:14:06,380

then it gets the point where you can't

1551

01:14:11,170 --> 01:14:08,600

see it but you can still see it on a

1552

01:14:13,540 --> 01:14:11,180

camera the camera can pick up the lower

1553

01:14:16,390 --> 01:14:13,550

temperature the redder color color than

1554

01:14:17,890 --> 01:14:16,400

you can see so what you're going to pick

1555

01:14:20,770 --> 01:14:17,900

up out there is going to depend on what

1556

01:14:22,630 --> 01:14:20,780

you're looking through now I wouldn't be

1557

01:14:25,030 --> 01:14:22,640

surprised if you see see stuff that you

1558

01:14:26,830 --> 01:14:25,040

can't see the eye because a lot of these

1559

01:14:28,720 --> 01:14:26,840

cameras are more sensitive than me than

1560

01:14:35,940 --> 01:14:28,730

the human eye especially in certain

1561

01:14:40,420 --> 01:14:35,950

ranges of operation I have not studied

1562

01:14:44,350 --> 01:14:40,430

images which might be UFOs and cameras

1563

01:14:46,860 --> 01:14:44,360

like this so I really can't act like I

1564

01:14:52,060 --> 01:14:46,870

got an expert on what people might see

1565

01:14:55,960 --> 01:14:52,070

but you have to be careful the type of

1566

01:14:58,300 --> 01:14:55,970

camera which sends out a beam there's if

1567

01:15:01,600 --> 01:14:58,310

you're just using passive viewing you

1568

01:15:03,880 --> 01:15:01,610

get what the object is radiating if you

1569

01:15:06,490 --> 01:15:03,890

send a beam out then that beam can

1570

01:15:10,060 --> 01:15:06,500

bounce off with other things like bugs

1571

01:15:12,640 --> 01:15:10,070

nearby and create images that shouldn't

1572

01:15:15,340 --> 01:15:12,650

be there well it should be there because

1573

01:15:16,780 --> 01:15:15,350

the bugs are there you can't see them

1574

01:15:19,150 --> 01:15:16,790

with a naked eye because you can't see

1575

01:15:22,660 --> 01:15:19,160

the infrared beam in illuminating the

1576

01:15:25,060 --> 01:15:22,670

bugs so you have to be careful things

1577

01:15:27,610 --> 01:15:25,070

like that there are some videos

1578

01:15:30,700 --> 01:15:27,620

apparently of stuff that seems to be at

1579

01:15:33,640 --> 01:15:30,710

high altitude which wouldn't be bugs but

1580

01:15:35,830 --> 01:15:33,650

I don't really know I haven't I haven't

1581

01:15:39,430 --> 01:15:35,840

spent a lot of time I'm trying to

1582

01:15:40,930 --> 01:15:39,440

analyze the big vision videos paint by

1583

01:15:43,180 --> 01:15:40,940

the way my website

1584

01:15:49,979 --> 01:15:43,190

a whole bunch of case investigations on

1585

01:15:54,189 --> 01:15:49,989

it as the are UMUC dot my site my si T

1586

01:15:56,800 --> 01:15:54,199

dot-com broom AK mysite.com and there's

1587

01:15:58,170 --> 01:15:56,810

a whole bunch of kind of mega stuff to

1588

01:16:00,970 --> 01:15:58,180

keep you off the streets

1589

01:16:01,420 --> 01:16:00,980

hahaha well we like the streets here in

1590

01:16:03,280 --> 01:16:01,430

New York

1591

01:16:05,650 --> 01:16:03,290

hey so though Bruce whatever the cases

1592

01:16:07,120 --> 01:16:05,660

that you investigated which always

1593

01:16:10,140 --> 01:16:07,130

impressed me and we talked about it just

1594

01:16:14,979 --> 01:16:10,150

mentioned it really was the incident

1595

01:16:16,630 --> 01:16:14,989

over Christ Church what what year was

1596

01:16:20,070 --> 01:16:16,640

that that did that took place for the

1597

01:16:24,220 --> 01:16:20,080

camera mandated a rocket went up and

1598

01:16:26,260 --> 01:16:24,230

December 31st 1978 and I wrote some

1599

01:16:28,360 --> 01:16:26,270

articles about that that appeared in a

1600

01:16:30,970 --> 01:16:28,370

technical journal called applied optics

1601

01:16:34,360 --> 01:16:30,980

and that's still after these thirty

1602

01:16:36,910 --> 01:16:34,370

years is still the only case it's been

1603

01:16:39,459 --> 01:16:36,920

argued out in a reverie literature you

1604

01:16:41,830 --> 01:16:39,469

know we had a UFO conference and I think

1605

01:16:44,050 --> 01:16:41,840

it was Cielo Phoenix or San Diego years

1606

01:16:47,140 --> 01:16:44,060

ago and he showed up at the conference I

1607

01:16:48,820 --> 01:16:47,150

mean you know the of course he's well

1608

01:16:50,890 --> 01:16:48,830

known to people I guess in the UFO field

1609

01:16:54,550 --> 01:16:50,900

or a ufologist sort of followed the

1610

01:16:59,410 --> 01:16:54,560

subject for for many for many years but

1611

01:17:02,320 --> 01:16:59,420

what got out for dave croto oh yeah

1612

01:17:03,939 --> 01:17:02,330

Crockett yeah well now how did you how

1613

01:17:06,970 --> 01:17:03,949

did you first hear about that case that

1614

01:17:10,090 --> 01:17:06,980

it did again lowa you know international

1615

01:17:11,920 --> 01:17:10,100

attention because again there you

1616

01:17:14,410 --> 01:17:11,930

weren't getting a you know a lot of

1617

01:17:17,640 --> 01:17:14,420

press from Australia about UFOs now how

1618

01:17:20,350 --> 01:17:17,650

did that first come our attention

1619

01:17:22,770 --> 01:17:20,360

synchronicities I guess first of all

1620

01:17:28,270 --> 01:17:22,780

could think it happened on December 31st

1621

01:17:33,520 --> 01:17:28,280

1978 and it was all done about between

1622

01:17:37,540 --> 01:17:33,530

midnight and 3:00 a.m. and involved the

1623

01:17:40,300 --> 01:17:37,550

pilot the copilot cameraman and Quentin

1624

01:17:43,570 --> 01:17:40,310

foolery reporter and reporters wife and

1625

01:17:46,090 --> 01:17:43,580

a another reporter all these people were

1626
01:17:47,590 --> 01:17:46,100
bit or visual witnesses and there were

1627
01:17:50,410 --> 01:17:47,600
two people at the Longton an air traffic

1628
01:17:53,350 --> 01:17:50,420
control center who are watching the air

1629
01:17:54,469 --> 01:17:53,360
tossing the radar there's a Tait audio

1630
01:17:56,660 --> 01:17:54,479
tape from the Vega

1631
01:17:58,640 --> 01:17:56,670
and audio tape from Quentin Fogerty in

1632
01:18:00,410 --> 01:17:58,650
the plane so you got one of the average

1633
01:18:01,870 --> 01:18:00,420
amount of information available here you

1634
01:18:07,250 --> 01:18:01,880
got sixteen millimeter color moving

1635
01:18:08,629 --> 01:18:07,260
images as well by David Crockett so when

1636
01:18:13,270 --> 01:18:08,639
this happened

1637
01:18:17,209 --> 01:18:13,280
probably the same morning through to

1638
01:18:20,330 --> 01:18:17,219

Melbourne Australia and commenced to put

1639

01:18:22,100 --> 01:18:20,340

together a half-hour documentary one on

1640

01:18:24,169 --> 01:18:22,110

the sightings and that high hard

1641

01:18:27,560 --> 01:18:24,179

documentary was put together in the day

1642

01:18:29,569 --> 01:18:27,570

and sold to the rights to show it first

1643

01:18:32,359 --> 01:18:29,579

to a number of places throughout the

1644

01:18:34,850 --> 01:18:32,369

world including Walter Cronkite's the

1645

01:18:38,870 --> 01:18:34,860

evening news show on the first of

1646

01:18:45,500 --> 01:18:38,880

January and he showed that some of the

1647

01:18:47,919 --> 01:18:45,510

movie and had a Heineken class Heineken

1648

01:18:51,319 --> 01:18:47,929

insult class on his car

1649

01:18:55,069 --> 01:18:51,329

counterproductive points of your honor

1650

01:18:57,589 --> 01:18:55,079

and I saw the show it heard by

1651

01:18:58,879 --> 01:18:57,599

scuttlebutt that there were some UFO

1652

01:19:00,500 --> 01:18:58,889

stuff that had happened that it was

1653

01:19:03,469 --> 01:19:00,510

going to be on TV and sure enough there

1654

01:19:05,719 --> 01:19:03,479

was a Walter Cronkite trying to keep

1655

01:19:08,060 --> 01:19:05,729

these guys from the pieces other's

1656

01:19:10,189 --> 01:19:08,070

throats apart and the last thing that

1657

01:19:13,850 --> 01:19:10,199

what reconquer always said was and

1658

01:19:16,250 --> 01:19:13,860

that's the way it is there whatever day

1659

01:19:20,839 --> 01:19:16,260

it was this I said and that's the way it

1660

01:19:24,709 --> 01:19:20,849

is or is it on 1st of January 1979 well

1661

01:19:26,209 --> 01:19:24,719

it was Monday night and uh Isis watch it

1662

01:19:28,939 --> 01:19:26,219

on TV and I thought to myself well

1663

01:19:30,410 --> 01:19:28,949

somebody about 12,000 miles away may get

1664

01:19:33,140 --> 01:19:30,420

to look at this stuff and find something

1665

01:19:36,290 --> 01:19:33,150

interesting but it won't be me so I

1666

01:19:38,959 --> 01:19:36,300

really put out my mind went back to

1667

01:19:41,839 --> 01:19:38,969

normal where to work the next day you

1668

01:19:47,870 --> 01:19:41,849

know a couple days later I will have my

1669

01:19:50,239 --> 01:19:47,880

desk I got a phone call from law a cough

1670

01:19:52,370 --> 01:19:50,249

John Jack a cough who was the director

1671

01:19:54,830 --> 01:19:52,380

of NICAP at the time we talked about die

1672

01:19:57,529 --> 01:19:54,840

careful earlier National investigating

1673

01:19:59,149 --> 01:19:57,539

committee aerial phenomena that I have

1674

01:20:01,189 --> 01:19:59,159

been a member of since nineteen late

1675

01:20:03,199 --> 01:20:01,199

sixties I had done a lot of case

1676
01:20:05,089 --> 01:20:03,209
analyses for them so he called me up and

1677
01:20:06,410 --> 01:20:05,099
said he want to see they're bringing

1678
01:20:08,660 --> 01:20:06,420
this movie because

1679
01:20:10,669 --> 01:20:08,670
the Aryan States for analysis you want

1680
01:20:14,000 --> 01:20:10,679
to see it and I guess I thought for as

1681
01:20:16,760 --> 01:20:14,010
long as four microseconds yeah I'll look

1682
01:20:20,600 --> 01:20:16,770
at it and sheriff eight days after this

1683
01:20:23,900 --> 01:20:20,610
film was taken I had it in my house with

1684
01:20:26,180 --> 01:20:23,910
a 16 millimeter stop frame projector and

1685
01:20:28,540 --> 01:20:26,190
was analyzing a film that was the

1686
01:20:31,790 --> 01:20:28,550
beginning of they're not multi year long

1687
01:20:34,130 --> 01:20:31,800
study of what happened in New Zealand

1688
01:20:38,209 --> 01:20:34,140

and I've got most of that stuff written

1689

01:20:42,820 --> 01:20:38,219

up as on my website I interviewed by

1690

01:20:48,709 --> 01:20:42,830

phone the pilot the radar controller and

1691

01:20:51,470 --> 01:20:48,719

Counting and Crockett and then the TV

1692

01:20:54,470 --> 01:20:51,480

station had been accused of hoaxing this

1693

01:20:57,860 --> 01:20:54,480

whole thing for to get a increased

1694

01:21:02,000 --> 01:20:57,870

viewership or New Year's holiday and

1695

01:21:04,720 --> 01:21:02,010

they stung them that badly and they

1696

01:21:07,220 --> 01:21:04,730

vowed to have a independent

1697

01:21:08,810 --> 01:21:07,230

investigation occur and then they were

1698

01:21:10,850 --> 01:21:08,820

handed the problem of well we're gonna

1699

01:21:12,860 --> 01:21:10,860

have to investigate this and just so

1700

01:21:14,450 --> 01:21:12,870

happened that a guy who used to wear the

1701

01:21:16,189 --> 01:21:14,460

United States was a member of nightcap

1702

01:21:20,810 --> 01:21:16,199

that I knew personally Paul Norman

1703

01:21:23,540 --> 01:21:20,820

Norman had moved to Australia and was a

1704

01:21:25,250 --> 01:21:23,550

active in a UFO investigation there so

1705

01:21:27,320 --> 01:21:25,260

they called him up and he recommended

1706

01:21:31,520 --> 01:21:27,330

they take it to the United States and I

1707

01:21:35,689 --> 01:21:31,530

cap were spent me and I ended up going

1708

01:21:38,240 --> 01:21:35,699

to New Zealand and Australia for a total

1709

01:21:41,090 --> 01:21:38,250

of a a month a month long time I had to

1710

01:21:43,700 --> 01:21:41,100

take our work and collected on

1711

01:21:45,590 --> 01:21:43,710

tremendous amount a lot of data a couple

1712

01:21:49,030 --> 01:21:45,600

of tape recordings a sixty millimeter

1713

01:21:52,459 --> 01:21:49,040

car movie and the recorded memories of

1714

01:21:54,050 --> 01:21:52,469

all witnesses a lot of to considerable a

1715

01:21:57,290 --> 01:21:54,060

lot of stuff which I put together in a

1716

01:21:58,490 --> 01:21:57,300

history and then analyzing there are

1717

01:22:02,169 --> 01:21:58,500

some sightings here that can't be

1718

01:22:06,320 --> 01:22:02,179

explained and that's all without various

1719

01:22:12,020 --> 01:22:06,330

papers you might say on my website now

1720

01:22:14,300 --> 01:22:12,030

you you remember you remember the news

1721

01:22:18,500 --> 01:22:14,310

conference we had in New York City well

1722

01:22:19,810 --> 01:22:18,510

yeah I got up yeah but probably on Good

1723

01:22:25,040 --> 01:22:19,820

Morning America

1724

01:22:28,310 --> 01:22:25,050

that morning was Hynek and some lady

1725

01:22:31,700 --> 01:22:28,320

friend of his who arranged the first of

1726

01:22:34,520 --> 01:22:31,710

iana Good Morning America and then we

1727

01:22:39,310 --> 01:22:34,530

afternoon we went to this conference

1728

01:22:42,979 --> 01:22:39,320

this bus briefing and most the press was

1729

01:22:46,220 --> 01:22:42,989

in Maryland that the Camp David summit

1730

01:22:49,430 --> 01:22:46,230

agreement but we got some people there

1731

01:22:53,380 --> 01:22:49,440

one guy asked a question about wasn't

1732

01:22:56,479 --> 01:22:53,390

this uh possible airplanes that has been

1733

01:23:00,640 --> 01:22:56,489

recognized and I made some comment like

1734

01:23:05,780 --> 01:23:02,959

already told me afterwards he said well

1735

01:23:08,900 --> 01:23:05,790

what he heard me say that was a stupid

1736

01:23:11,330 --> 01:23:08,910

question he cringes the fray there halt

1737

01:23:13,820 --> 01:23:11,340

the whole audience of reporters would

1738

01:23:16,670 --> 01:23:13,830

leave because we fight or something I

1739

01:23:19,310 --> 01:23:16,680

can be cautious with it well there's

1740

01:23:24,770 --> 01:23:19,320

other universes they're used to it today

1741

01:23:29,180 --> 01:23:24,780

I think more the day yeah I was an early

1742

01:23:30,770 --> 01:23:29,190

version of truck well I think you can

1743

01:23:35,870 --> 01:23:30,780

compare Bruce we won't put you in that

1744

01:23:38,570 --> 01:23:35,880

category man yeah well Bruce say you

1745

01:23:42,110 --> 01:23:38,580

were also involved with analyzing a lot

1746

01:23:46,910 --> 01:23:42,120

of the photos taken by Ed waters in in

1747

01:23:53,979 --> 01:23:46,920

Florida I mean what what was your take

1748

01:23:57,170 --> 01:23:53,989

on on those pictures was ed Walters and

1749

01:23:58,370 --> 01:23:57,180

he had he had a series of pictures he

1750

01:24:01,520 --> 01:23:58,380

took pictures all the way up into about

1751

01:24:04,630 --> 01:24:01,530

1997 actually kind of sullen which had

1752

01:24:08,330 --> 01:24:04,640

never been published but he started off

1753

01:24:10,640 --> 01:24:08,340

in 19 November 1987 and over a period of

1754

01:24:14,479 --> 01:24:10,650

several years calling it a lot of

1755

01:24:16,220 --> 01:24:14,489

pictures but probably a most important

1756

01:24:18,290 --> 01:24:16,230

thing about that series of cases that

1757

01:24:21,440 --> 01:24:18,300

most people don't realize is all the

1758

01:24:24,140 --> 01:24:21,450

other sightings had occurred in my FBI

1759

01:24:25,640 --> 01:24:24,150

CIA UFO book I in the last section of

1760

01:24:32,030 --> 01:24:25,650

the book where I talk about my

1761

01:24:33,200 --> 01:24:32,040

experiences of the CIA I I was asked to

1762

01:24:36,410 --> 01:24:33,210

give a lecture on those

1763

01:24:39,380 --> 01:24:36,420

leggings and I because of that I put I

1764

01:24:42,229 --> 01:24:39,390

put in my book what I talked about it

1765

01:24:45,970 --> 01:24:42,239

and there were like six or eight

1766

01:24:50,330 --> 01:24:45,980

sightings occurred on that day before

1767

01:24:51,380 --> 01:24:50,340

Walters the people who who had these

1768

01:24:55,430 --> 01:24:51,390

sightings never would have said anything

1769

01:24:56,900 --> 01:24:55,440

is the pill situation for this kind of

1770

01:24:58,820 --> 01:24:56,910

battle had never told anybody about his

1771

01:25:01,100 --> 01:24:58,830

sighting a whole bunch of other settings

1772

01:25:06,620 --> 01:25:01,110

never would have been recorded so in

1773

01:25:08,479 --> 01:25:06,630

this case one author's 11 1987 hit

1774

01:25:09,680 --> 01:25:08,489

nobody else other witness would have

1775

01:25:12,620 --> 01:25:09,690

said anything and it had been for the

1776

01:25:14,450 --> 01:25:12,630

fact that he decided to have his

1777

01:25:16,640 --> 01:25:14,460

pictures published and when they saw

1778

01:25:20,620 --> 01:25:16,650

these pictures they call up the presser

1779

01:25:23,180 --> 01:25:20,630

letters and said we saw the same thing

1780

01:25:26,270 --> 01:25:23,190

it began on that one day and then

1781

01:25:28,390 --> 01:25:26,280

sightings occurred sporadically for the

1782

01:25:31,510 --> 01:25:28,400

next six months or eight months and

1783

01:25:34,520 --> 01:25:31,520

literally were hundreds of witnesses

1784

01:25:37,820 --> 01:25:34,530

became very controversial over the next

1785

01:25:41,510 --> 01:25:37,830

several years take a few hours just to

1786

01:25:43,640 --> 01:25:41,520

describe the history of the subject if I

1787

01:25:46,940 --> 01:25:43,650

get still remember back in the old days

1788

01:25:49,310 --> 01:25:46,950

10 20 years ago I could see a most of

1789

01:25:51,830 --> 01:25:49,320

the events that happen in all this

1790

01:25:54,560 --> 01:25:51,840

series and other people's but there were

1791

01:25:55,790 --> 01:25:54,570

as I said a number of other people he

1792

01:25:58,729 --> 01:25:55,800

said dozen other people saw they saw

1793

01:26:00,380 --> 01:25:58,739

they saw exactly the same things like

1794

01:26:03,260 --> 01:26:00,390

for example the County Coroner and his

1795

01:26:05,780 --> 01:26:03,270

wife say they saw the Saints are the

1796

01:26:08,740 --> 01:26:05,790

same object outside their house hovering

1797

01:26:13,190 --> 01:26:08,750

over a body of water known as a physical

1798

01:26:17,180 --> 01:26:13,200

sound and yeah they call it they call it

1799

01:26:19,610 --> 01:26:17,190

Bubba well I was later on the first

1800

01:26:24,860 --> 01:26:19,620

series of saying these things for 18

1801
01:26:27,470 --> 01:26:24,870
1987 and I July of 1988 then they were

1802
01:26:30,800 --> 01:26:27,480
the first concentration occurred then

1803
01:26:36,320 --> 01:26:30,810
the sliding rate dropped down until

1804
01:26:38,300 --> 01:26:36,330
about 1991 when I started to pick up and

1805
01:26:41,630 --> 01:26:38,310
they were Saudis red light objects

1806
01:26:43,940 --> 01:26:41,640
falling going through the sky very often

1807
01:26:46,729 --> 01:26:43,950
starting off as a red light and bursting

1808
01:26:50,360 --> 01:26:46,739
into a white flashing

1809
01:26:53,270 --> 01:26:50,370
like flash or multiple flashes and they

1810
01:26:55,310 --> 01:26:53,280
couldn't figure out what it was they had

1811
01:26:58,970 --> 01:26:55,320
170 some sightings over a period of

1812
01:27:01,310 --> 01:26:58,980
three years I think these are sayings

1813
01:27:02,479 --> 01:27:01,320

were buying people who got well

1814

01:27:06,290 --> 01:27:02,489

acquainted with the sky because they

1815

01:27:09,590 --> 01:27:06,300

went out almost every night to a whole

1816

01:27:11,479 --> 01:27:09,600

year a couple of years to see if there

1817

01:27:14,209 --> 01:27:11,489

was anything that was up here and yeah

1818

01:27:16,550 --> 01:27:14,219

sure enough they got a lot of a lot of

1819

01:27:19,100 --> 01:27:16,560

these events I myself have a sighting

1820

01:27:22,370 --> 01:27:19,110

when I went out of gull freeze starting

1821

01:27:26,209 --> 01:27:22,380

in the spring of the late summer of 1992

1822

01:27:27,920 --> 01:27:26,219

after there had been literally dozens of

1823

01:27:32,020 --> 01:27:27,930

sightings of this thing going through

1824

01:27:34,490 --> 01:27:32,030

the sky they said they saw had when a

1825

01:27:39,050 --> 01:27:34,500

red light came along and suddenly turned

1826

01:27:41,030 --> 01:27:39,060

into a ring of lights and what it's

1827

01:27:42,620 --> 01:27:41,040

really this this happened I decided I

1828

01:27:44,660 --> 01:27:42,630

didn't have to go down there see for

1829

01:27:46,970 --> 01:27:44,670

myself what was going on on September

1830

01:27:48,920 --> 01:27:46,980

16th so selfish things are right there

1831

01:27:51,229 --> 01:27:48,930

and nothing happened we were out to the

1832

01:27:54,140 --> 01:27:51,239

viewing area nothing was happening the

1833

01:27:56,420 --> 01:27:54,150

next night we went there and everybody

1834

01:27:59,720 --> 01:27:56,430

is wearing their standard binoculars as

1835

01:28:02,720 --> 01:27:59,730

a necklace and everybody had a video

1836

01:28:04,430 --> 01:28:02,730

camera or a lot of people did I have a

1837

01:28:08,900 --> 01:28:04,440

tape recorder and a big ear called

1838

01:28:12,320 --> 01:28:08,910

big a big ear distance microphones and

1839

01:28:15,650 --> 01:28:12,330

parabolic mic because I figured as these

1840

01:28:16,190 --> 01:28:15,660

things move in the sky out there it's a

1841

01:28:19,160 --> 01:28:16,200

hoax

1842

01:28:20,959 --> 01:28:19,170

they've got a little motor a model

1843

01:28:24,700 --> 01:28:20,969

airplane motor something driving it I

1844

01:28:30,860 --> 01:28:26,510

probably microphone that picks up

1845

01:28:32,750 --> 01:28:30,870

whispers at 100 feet so anyway everybody

1846

01:28:34,790 --> 01:28:32,760

was ready for an appearance knowing it

1847

01:28:37,580 --> 01:28:34,800

was going to happen or not I was having

1848

01:28:39,709 --> 01:28:37,590

some lady elves there is I equipped my

1849

01:28:41,930 --> 01:28:39,719

binoculars up I just happened to be

1850

01:28:44,420 --> 01:28:41,940

pointing in the right direction she

1851
01:28:46,370 --> 01:28:44,430
didn't say what left-right up-down North

1852
01:28:49,280 --> 01:28:46,380
East or what she just said there it is I

1853
01:28:51,050 --> 01:28:49,290
put looks ugly but I guys enough there

1854
01:28:52,910 --> 01:28:51,060
was a bright spot in the sky wishing

1855
01:28:55,670 --> 01:28:52,920
where there had been one and it was so

1856
01:28:59,940 --> 01:28:55,680
it against clouds there was a vaporous

1857
01:29:03,570 --> 01:28:59,950
cloud being lit by lights from a

1858
01:29:05,550 --> 01:29:03,580
school playing field provide a backdrop

1859
01:29:08,430 --> 01:29:05,560
the prevented you from seeing easily

1860
01:29:11,040 --> 01:29:08,440
through the cloud cover to the Stars up

1861
01:29:15,000 --> 01:29:11,050
above I could see this light weasely

1862
01:29:16,410 --> 01:29:15,010
with my binoculars and I put the

1863
01:29:19,670 --> 01:29:16,420

binoculars of it resolved in eight

1864

01:29:23,250 --> 01:29:19,680

points of light in a ring trough and

1865

01:29:26,190 --> 01:29:23,260

people have video of it and for still

1866

01:29:27,990 --> 01:29:26,200

photos and there are a couple of devices

1867

01:29:30,690 --> 01:29:28,000

used to measure get a crude

1868

01:29:33,090 --> 01:29:30,700

triangulation the bottom line I thought

1869

01:29:37,080 --> 01:29:33,100

was it shouldn't have been there

1870

01:29:41,040 --> 01:29:37,090

whatever it was and it may have been as

1871

01:29:44,010 --> 01:29:41,050

large as 10 or 15 feet in diameter based

1872

01:29:47,520 --> 01:29:44,020

on the fact I could see it to the cloud

1873

01:29:50,280 --> 01:29:47,530

cover well that was that was in my own

1874

01:29:54,980 --> 01:29:50,290

sighting there in Gulf Breeze now do you

1875

01:29:59,250 --> 01:29:54,990

think he could extraterrestrial craft I

1876
01:30:03,090 --> 01:29:59,260
don't know I couldn't see any main body

1877
01:30:05,160 --> 01:30:03,100
of the object just see the lights so I

1878
01:30:07,320 --> 01:30:05,170
think the reason I couldn't see the main

1879
01:30:09,600 --> 01:30:07,330
body was because it was so it was big

1880
01:30:11,730 --> 01:30:09,610
enough and far enough away to be up

1881
01:30:13,710 --> 01:30:11,740
above the cloud the glow in the clouds I

1882
01:30:15,150 --> 01:30:13,720
can see the lights because the light was

1883
01:30:18,330 --> 01:30:15,160
penetrating through the cloud coming

1884
01:30:22,710 --> 01:30:18,340
down on the camera but I couldn't see

1885
01:30:27,120 --> 01:30:22,720
the craft itself being walked by I said

1886
01:30:30,710 --> 01:30:27,130
well as a model it's a 4 foot for foot

1887
01:30:33,810 --> 01:30:30,720
sized model of a ring of lights somehow

1888
01:30:36,210 --> 01:30:33,820

fixed to turn on after us up at some

1889

01:30:38,640 --> 01:30:36,220

small how the food I should have been it

1890

01:30:41,340 --> 01:30:38,650

was definitely moving and I should have

1891

01:30:42,690 --> 01:30:41,350

been able to hear something oh yeah it

1892

01:30:45,510 --> 01:30:42,700

sounds like it was under intelligent

1893

01:30:47,430 --> 01:30:45,520

control we're running right up against

1894

01:30:49,460 --> 01:30:47,440

the midnight hour here and I do want to

1895

01:30:52,530 --> 01:30:49,470

go around the table one more time

1896

01:30:55,350 --> 01:30:52,540

shanell what's on your docket I mean

1897

01:30:59,010 --> 01:30:55,360

what are have you got any a plans as far

1898

01:31:00,270 --> 01:30:59,020

as your grandfather's a sighting that

1899

01:31:00,870 --> 01:31:00,280

goes I mean where do you take it from

1900

01:31:03,660 --> 01:31:00,880

here

1901

01:31:06,270 --> 01:31:03,670

um well I actually am majoring in

1902

01:31:09,660 --> 01:31:06,280

philosophy at a college here in Idaho

1903

01:31:12,780 --> 01:31:09,670

and and I'm just you know kind of doing

1904

01:31:13,770 --> 01:31:12,790

my own part of what I need for education

1905

01:31:17,460 --> 01:31:13,780

first

1906

01:31:19,290 --> 01:31:17,470

- probably conferences or helping my

1907

01:31:22,410 --> 01:31:19,300

mother with projects so you know I'm

1908

01:31:24,680 --> 01:31:22,420

getting educated well it's it's so

1909

01:31:27,480 --> 01:31:24,690

wonderful to have a

1910

01:31:31,080 --> 01:31:27,490

metru a year or so ago two years I guess

1911

01:31:32,670 --> 01:31:31,090

now and do say hello to star for me and

1912

01:31:34,920 --> 01:31:32,680

you did promise to take a photo when you

1913

01:31:38,550 --> 01:31:34,930

get the book and oh yeah we well yeah

1914

01:31:39,360 --> 01:31:38,560

all right and Bruce what's your next

1915

01:31:49,830 --> 01:31:39,370

project

1916

01:31:52,020 --> 01:31:49,840

book took me a long time while I'll ever

1917

01:31:54,840 --> 01:31:52,030

do get through this it really it really

1918

01:31:58,190 --> 01:31:54,850

began 20 years ago with some papers that

1919

01:32:01,140 --> 01:31:58,200

I wrote on the Kenneth Harold case

1920

01:32:03,600 --> 01:32:01,150

explaining explaining away the debunking

1921

01:32:06,750 --> 01:32:03,610

others my book is the only book this is

1922

01:32:08,580 --> 01:32:06,760

debunks of debunkers is 140 explanations

1923

01:32:11,100 --> 01:32:08,590

they've been offered for his citing and

1924

01:32:12,630 --> 01:32:11,110

I destroyed every one of them and cut by

1925

01:32:14,730 --> 01:32:12,640

the positive reason for why you would

1926

01:32:18,210 --> 01:32:14,740

believe is citing mainly these are

1927

01:32:21,660 --> 01:32:18,220

flashes of light the book contains a

1928

01:32:23,670 --> 01:32:21,670

technical analysis of it and the title

1929

01:32:27,050 --> 01:32:23,680

and the title league and the title again

1930

01:32:32,640 --> 01:32:27,060

is three minutes in June deciding that

1931

01:32:36,930 --> 01:32:32,650

the UFO sighting is in the world you can

1932

01:32:39,030 --> 01:32:36,940

get an Amazon or the public you can

1933

01:32:42,630 --> 01:32:39,040

really read reviews at the publisher

1934

01:32:45,140 --> 01:32:42,640

Richard Dolan press comm publishers

1935

01:32:47,960 --> 01:32:45,150

whatever it is very good very good and

1936

01:32:50,670 --> 01:32:47,970

well anyway we have we have reached the

1937

01:32:51,270 --> 01:32:50,680

stroke of midnight here on the East

1938

01:32:53,970 --> 01:32:51,280

Coast

1939

01:32:55,860 --> 01:32:53,980

and I want to remind people that the

1940

01:32:57,990 --> 01:32:55,870

book that we talked about earlier is the

1941

01:32:59,870 --> 01:32:58,000

matrix control system of philip k dick

1942

01:33:03,290 --> 01:32:59,880

which has the chapter in there about

1943

01:33:05,910 --> 01:33:03,300

kenneth Arnold's synchronicities and his

1944

01:33:08,040 --> 01:33:05,920

paranormal experiences that happened

1945

01:33:10,350 --> 01:33:08,050

later in life and I must say this has

1946

01:33:12,210 --> 01:33:10,360

been a wonderful program what a way to

1947

01:33:14,490 --> 01:33:12,220

celebrate and what a way to celebrate

1948

01:33:17,010 --> 01:33:14,500

with two of the most knowledgeable

1949

01:33:20,190 --> 01:33:17,020

persons on the Kenneth Arnold sighting

1950

01:33:22,050 --> 01:33:20,200

and the early days of UFOs and I want to

1951

01:33:24,370 --> 01:33:22,060

thank our guests for being on tonight

1952

01:33:28,390 --> 01:33:24,380

and Tim I

1953

01:33:30,210 --> 01:33:28,400
