anklebone mm-hmm oh boy

16

00:01:49,630 --> 00:01:45,650

look at all these bones mummified bones

17

00:01:52,450 --> 00:01:49,640

all around me I don't think I'm ever

18

00:01:55,810 --> 00:01:52,460

going to get out of here to make it to

19

00:01:57,550 --> 00:01:55,820

the show in time you know I'm afraid of

20

00:02:00,429 --> 00:01:57,560

tripping over these bones they're such a

21

00:02:06,770 --> 00:02:00,439

pile of bones it's bones and bones and

22

00:02:12,360 --> 00:02:09,930

why thank you very much Tim I appreciate

23

00:02:14,760 --> 00:02:12,370

that well and I'm sorry you're not going

24

00:02:17,760 --> 00:02:14,770

to be with us tonight because we really

25

00:02:21,150 --> 00:02:17,770

do have a fascinating program we've got

26

00:02:24,240 --> 00:02:21,160

two excellent guests we have with us

27

00:02:26,670 --> 00:02:24,250

tonight Barry Fitzgerald and Steve Mehra

28

00:02:30,510 --> 00:02:26,680

and we are going to be talking about

29

00:02:33,000 --> 00:02:30,520

mummies no not the Boris Karloff or the

30

00:02:36,300 --> 00:02:33,010

Abbott and Costello types of mummies but

31

00:02:39,980 --> 00:02:36,310

we're going to be talking about the the

32

00:02:43,290 --> 00:02:39,990

controversial South American mummies and

33

00:02:46,199 --> 00:02:43,300

let me just give you a little bit of

34

00:02:50,310 --> 00:02:46,209

information about our two guests we have

35

00:02:53,000 --> 00:02:50,320

Barry Fitzgerald who has nearly 30 years

36

00:02:55,920 --> 00:02:53,010

of experience in the world of

37

00:02:59,010 --> 00:02:55,930

supernatural investigations he's

38

00:03:01,560 --> 00:02:59,020

appeared in all 56 episodes of Ghost

39

00:03:03,720 --> 00:03:01,570

Hunters International and he headed the

40

00:03:06,240 --> 00:03:03,730

team on the American NBC own sci-fi

41

00:03:09,060 --> 00:03:06,250

Network and explored a Condrey of

42

00:03:13,520 --> 00:03:09,070

paranormal and supernatural phenomena

43

00:03:16,470 --> 00:03:13,530

around the globe he's also the author of

44

00:03:21,030 --> 00:03:16,480

a number of fascinating books including

45

00:03:23,400 --> 00:03:21,040

the trilogy of friction friction fiction

46

00:03:26,040 --> 00:03:23,410

books the Council of three the palace of

47

00:03:29,640 --> 00:03:26,050

darkness and fracture which was released

48

00:03:32,670 --> 00:03:29,650

in March of 2007 now also with us

49

00:03:35,190 --> 00:03:32,680

tonight is Steve Mehra Steve has been on

50

00:03:37,380 --> 00:03:35,200

our show before and he first became

51
00:03:39,930 --> 00:03:37,390
interested in the subject of UFOs and

52
00:03:43,020 --> 00:03:39,940
the paranormal at an early age after

53
00:03:46,130 --> 00:03:43,030
leaving secondary school and he's just

54
00:03:50,190 --> 00:03:46,140
been involved in all kinds of

55
00:03:52,800 --> 00:03:50,200
fascinating investigations and I tell

56
00:03:56,910 --> 00:03:52,810
you Steve your book the the house of

57
00:03:59,990 --> 00:03:56,920
fire and whispers absolutely fantastic

58
00:04:03,600 --> 00:04:00,000
you know you you did I mean the the

59
00:04:09,270 --> 00:04:03,610
investigation that that that you and the

60
00:04:12,809 --> 00:04:09,280
others conducted there I just you came

61
00:04:14,100 --> 00:04:12,819
up with results that you know I don't

62
00:04:16,259 --> 00:04:14,110
think anybody else has ever came up

63
00:04:20,550 --> 00:04:16,269

before especially the

64

00:04:26,790 --> 00:04:20,560

the the EVPs that that weren't like the

65

00:04:28,910 --> 00:04:26,800

the normal EVPs you know most of her

66

00:04:32,280 --> 00:04:28,920

like that but the ones that you got uh

67

00:04:34,710 --> 00:04:32,290

we were just so clear and fascinating so

68

00:04:37,050 --> 00:04:34,720

you know you know congratulation to

69

00:04:39,660 --> 00:04:37,060

really uh it's such a great book it's

70

00:04:41,940 --> 00:04:39,670

such a great investigation thank you

71

00:04:43,770 --> 00:04:41,950

yeah it was it was a difficult it was a

72

00:04:46,530 --> 00:04:43,780

difficult investigation two trips to

73

00:04:49,110 --> 00:04:46,540

Seattle but we've got it we go we've got

74

00:04:52,200 --> 00:04:49,120

it all sorted out in the end and

75

00:04:56,910 --> 00:04:52,210

unfortunately the owner to move as we

76
00:04:59,610 --> 00:04:56,920
know but we believe their house is been

77
00:05:01,530 --> 00:04:59,620
purchased by and of the family now so we

78
00:05:05,850 --> 00:05:01,540
are keeping our eye on things should we

79
00:05:09,360 --> 00:05:05,860
say Oh that'll be interesting yeah it

80
00:05:12,290 --> 00:05:09,370
you know it I would love to see if there

81
00:05:14,220 --> 00:05:12,300
will be a continuation of the phenomena

82
00:05:15,870 --> 00:05:14,230
because I know that you know from the

83
00:05:20,450 --> 00:05:15,880
book that the previous owners of that

84
00:05:28,350 --> 00:05:25,170
okay right right well and and very

85
00:05:30,630 --> 00:05:28,360
welcome to exploring the bizarre so

86
00:05:33,210 --> 00:05:30,640
happy that you could join us tonight now

87
00:05:34,590 --> 00:05:33,220
I need to point out to everyone that you

88
00:05:37,610 --> 00:05:34,600

know since we'll be talking about the

89

00:05:42,690 --> 00:05:37,620

Nazca mummies of Peru

90

00:05:45,590 --> 00:05:42,700

Barry was the director of the film the

91

00:05:49,050 --> 00:05:45,600

mysterious bodies of Peru the beginning

92

00:05:51,450 --> 00:05:49,060

which can be seen on YouTube right now

93

00:05:56,250 --> 00:05:51,460

and I know Tina has a link on our

94

00:05:58,170 --> 00:05:56,260

website for this video and Steve and

95

00:06:02,909 --> 00:05:58,180

Barry both of you I watched this video

96

00:06:04,860 --> 00:06:02,919

and you guys did a fantastic job with

97

00:06:09,500 --> 00:06:04,870

this but you know I don't want to get

98

00:06:13,190 --> 00:06:09,510

too far ahead of myself with this so

99

00:06:16,380 --> 00:06:13,200

since it is just myself Tim Beckley and

100

00:06:18,990 --> 00:06:16,390

is not here and you too

101

00:06:22,110 --> 00:06:19,000

it's just you know it's we'll just keep

102

00:06:24,480 --> 00:06:22,120

this kind of like a you know really just

103

00:06:28,230 --> 00:06:24,490

a roundtable discussion so both of you

104

00:06:31,290 --> 00:06:28,240

feel free you know to jump in and

105

00:06:33,800 --> 00:06:31,300

and answer questions as I asked them you

106

00:06:36,809 --> 00:06:33,810

know don't be afraid to speak out but

107

00:06:41,850 --> 00:06:36,819

whoever wants to answer first why don't

108

00:06:47,189 --> 00:06:41,860

you tell us a little bit about this the

109

00:06:50,240 --> 00:06:47,199

the the Nazca mummies I remember last

110

00:06:54,719 --> 00:06:50,250

year I think as far as what it was seen

111

00:06:56,490 --> 00:06:54,729

a little news report that I was not too

112

00:07:00,270 --> 00:06:56,500

sure whether it was legitimate or not

113

00:07:02,490 --> 00:07:00,280

about somebody finding a number of

114

00:07:05,730 --> 00:07:02,500

mummies in South America that you know

115

00:07:08,700 --> 00:07:05,740

they thought were you know possibly of

116

00:07:12,499 --> 00:07:08,710

extraterrestrial origin and then you

117

00:07:15,779 --> 00:07:12,509

know this year you know Gaia TV came out

118

00:07:19,460 --> 00:07:15,789

with all this and so I figure that this

119

00:07:23,850 --> 00:07:19,470

is probably the same situation so

120

00:07:26,850 --> 00:07:23,860

somebody tell me I mean what what's the

121

00:07:31,860 --> 00:07:26,860

situation here what what are the Nazca

122

00:07:33,659 --> 00:07:31,870

mummies sorry about and well I think

123

00:07:37,379 --> 00:07:33,669

that pretty much came about I mean we we

124

00:07:39,779 --> 00:07:37,389

were aware that Gaia TV had put out the

125

00:07:41,459 --> 00:07:39,789

information in regarding what we refer

126

00:07:43,140 --> 00:07:41,469

to as the body Maria these these are

127

00:07:44,969 --> 00:07:43,150

these are bodies it's the terminology

128

00:07:48,300 --> 00:07:44,979

did use these mummies but they do have

129

00:07:51,740 --> 00:07:48,310

the internal organs so the they actually

130

00:07:54,300 --> 00:07:51,750

are bodies but I first became aware

131

00:07:57,990 --> 00:07:54,310

visual slave should be saying the visual

132

00:08:00,270 --> 00:07:58,000

sense of Gaia's first release this

133

00:08:02,790 --> 00:08:00,280

summer over the internet from their

134

00:08:04,920 --> 00:08:02,800

investigation of Maria when they

135

00:08:08,580 --> 00:08:04,930

traveled to Peru with her me Miss Ann

136

00:08:11,159 --> 00:08:08,590

Mexican journalist and and a number of

137

00:08:14,719 --> 00:08:11,169

photographers and and doctors and so on

138

00:08:18,689 --> 00:08:14,729

and so forth however we were aware of

139

00:08:22,100 --> 00:08:18,699

the discoveries long before long before

140

00:08:25,320 --> 00:08:22,110

that rad beginning of the year we were

141

00:08:27,689 --> 00:08:25,330

working with a number of people one of

142

00:08:30,240 --> 00:08:27,699

which was the French ambassador of the

143

00:08:33,329 --> 00:08:30,250

in Kerry Institute and where these

144

00:08:34,829 --> 00:08:33,339

things were simply turned up and dropped

145

00:08:39,089 --> 00:08:34,839

on the counter in the sense of speaking

146

00:08:40,880 --> 00:08:39,099

and it became out we came to our

147

00:08:43,730 --> 00:08:40,890

attention about that

148

00:08:45,170 --> 00:08:43,740

and we were obviously very curious at

149

00:08:47,210 --> 00:08:45,180

the time but at the same time we've

150

00:08:48,710 --> 00:08:47,220

we've investigated things like this Tim

151
00:08:50,900 --> 00:08:48,720
before you know I mean if it's not

152
00:08:53,900 --> 00:08:50,910
skinless raccoons that washed up on the

153
00:08:56,720 --> 00:08:53,910
shore beaches it's it's Taylor skin

154
00:08:58,850 --> 00:08:56,730
monkeys caught in traps or it's people

155
00:09:00,949 --> 00:08:58,860
have glued food bits and bobs together

156
00:09:03,699 --> 00:09:00,959
to make fairies you know that the

157
00:09:06,139 --> 00:09:03,709
stories go on and on and on you know but

158
00:09:08,269 --> 00:09:06,149
this was curious we will curious about

159
00:09:12,050 --> 00:09:08,279
this because if this wasn't manufactured

160
00:09:14,170 --> 00:09:12,060
it was done extremely well no we have to

161
00:09:16,970 --> 00:09:14,180
admit well it's not impossible

162
00:09:19,069 --> 00:09:16,980
and we thought obviously this the way

163
00:09:21,199 --> 00:09:19,079

this was the story was going it was seen

164

00:09:24,500 --> 00:09:21,209

to be leading straight down the same old

165

00:09:26,269 --> 00:09:24,510

familiar path and with this unusual if

166

00:09:27,590 --> 00:09:26,279

it's the same sort of people tend to be

167

00:09:30,680 --> 00:09:27,600

involved in these sort of keeping

168

00:09:31,940 --> 00:09:30,690

investigations and we really wanted to

169

00:09:33,290 --> 00:09:31,950

know the answers to be honest with you

170

00:09:35,389 --> 00:09:33,300

we just we just wanted to know the

171

00:09:38,420 --> 00:09:35,399

traits I mean when we I'm not just about

172

00:09:40,730 --> 00:09:38,430

me a so-called discovery but what's

173

00:09:45,230 --> 00:09:40,740

behind the scenes who's discovered this

174

00:09:48,110 --> 00:09:45,240

how when and did those people involved

175

00:09:50,590 --> 00:09:48,120

and and of course the whole stance us to

176

00:09:53,389 --> 00:09:50,600

how these things have certainly found

177

00:09:56,090 --> 00:09:53,399

and of course how the Peruvian

178

00:09:58,610 --> 00:09:56,100

government deal with such things and how

179

00:10:00,110 --> 00:09:58,620

they got to do this and so they're

180

00:10:01,910 --> 00:10:00,120

really the only way I mean to do a

181

00:10:03,800 --> 00:10:01,920

listening to thousands of conversations

182

00:10:05,389 --> 00:10:03,810

over the internet going backwards and

183

00:10:07,210 --> 00:10:05,399

forwards every day about this you know

184

00:10:10,370 --> 00:10:07,220

there's a big believers in it these

185

00:10:13,009 --> 00:10:10,380

people dismiss it immediately as a hoax

186

00:10:15,860 --> 00:10:13,019

just like many other things I'm ready to

187

00:10:17,449 --> 00:10:15,870

do so in many cases but really for us

188

00:10:19,160 --> 00:10:17,459

it's it's massive as well you know if we

189

00:10:21,949 --> 00:10:19,170

want the truth we really I literally

190

00:10:23,569 --> 00:10:21,959

have to you know go to the source we

191

00:10:26,030 --> 00:10:23,579

have to talk to the people involved we

192

00:10:28,730 --> 00:10:26,040

have to really dig into this could not

193

00:10:32,389 --> 00:10:28,740

examinations and do as literally as much

194

00:10:36,350 --> 00:10:32,399

as we can so basically we we decided to

195

00:10:39,250 --> 00:10:36,360

get together and and myself and Barry

196

00:10:41,180 --> 00:10:39,260

you've been watching this like a hawk

197

00:10:42,740 --> 00:10:41,190

decided basically was that was that that

198

00:10:44,090 --> 00:10:42,750

was enough we'd have to go over the only

199

00:10:46,819 --> 00:10:44,100

way to get the real truth is to

200

00:10:50,420 --> 00:10:46,829

literally go there River logistic lee we

201
00:10:52,280 --> 00:10:50,430
traveled all the way to Peru and and

202
00:10:54,259 --> 00:10:52,290
well it just walks bottom Berry was very

203
00:10:56,989 --> 00:10:54,269
second trip as well and

204
00:10:59,359 --> 00:10:56,999
and it was just a matter of gathering as

205
00:11:00,859 --> 00:10:59,369
much evidence as we possibly can we

206
00:11:02,449 --> 00:11:00,869
wanted to make sure that we were

207
00:11:04,819 --> 00:11:02,459
completely transparent people are going

208
00:11:08,179 --> 00:11:04,829
to see exactly what what unfolds as it

209
00:11:11,389 --> 00:11:08,189
happens the the whole documentary was

210
00:11:14,840 --> 00:11:11,399
about it being raw allowing me the

211
00:11:17,749 --> 00:11:14,850
viewers to see step by step exactly what

212
00:11:19,579 --> 00:11:17,759
we were facing and just call it as it is

213
00:11:21,619 --> 00:11:19,589

you know we're not gonna we don't have

214

00:11:23,780 --> 00:11:21,629

belief systems in because we just want

215

00:11:26,569 --> 00:11:23,790

to purely get the evidence and base our

216

00:11:29,619 --> 00:11:26,579

our conclusions upon that and that's how

217

00:11:34,429 --> 00:11:29,629

pretty much that how that came about

218

00:11:40,009 --> 00:11:34,439

well do you know where these bodies were

219

00:11:42,949 --> 00:11:40,019

initially discovered Bobby we do we do

220

00:11:44,929 --> 00:11:42,959

and we do have an idea of where they

221

00:11:48,410 --> 00:11:44,939

were discovered it was during an hour

222

00:11:52,269 --> 00:11:48,420

trip there that that we got to speak to

223

00:11:56,660 --> 00:11:52,279

to some of the guys em and and

224

00:12:00,530 --> 00:11:56,670

understand the the geography of the

225

00:12:04,039 --> 00:12:00,540

landscape of Nazca and you see during

226
00:12:06,049 --> 00:12:04,049
during the interview and there are there

227
00:12:10,489 --> 00:12:06,059
are several descriptions that were put

228
00:12:13,999 --> 00:12:10,499
out and that we released and within the

229
00:12:18,889 --> 00:12:14,009
documentary the beginning and it gives

230
00:12:21,139 --> 00:12:18,899
us clues of where this location was now

231
00:12:23,419 --> 00:12:21,149
the problem the problem that we faced on

232
00:12:26,840 --> 00:12:23,429
the ground the both Steve and I faced is

233
00:12:30,259 --> 00:12:26,850
that even though we have we have a

234
00:12:35,569 --> 00:12:30,269
really good idea of where this location

235
00:12:37,429 --> 00:12:35,579
is we couldn't pursue the idea of going

236
00:12:41,239 --> 00:12:37,439
to look for it even if we got the

237
00:12:43,789 --> 00:12:41,249
opportunity because the people the

238
00:12:47,900 --> 00:12:43,799

people that surrounded this case with in

239

00:12:49,249 --> 00:12:47,910

Nazca and the work heroes and we're here

240

00:12:54,919 --> 00:12:49,259

oh by the way I should I should point

241

00:12:57,949 --> 00:12:54,929

out um are these grave robbers and we

242

00:12:59,869 --> 00:12:57,959

were told will be shot even if we went

243

00:13:02,329 --> 00:12:59,879

looking for this we would be shot and we

244

00:13:04,639 --> 00:13:02,339

would be buried in a shallow grave and

245

00:13:05,730 --> 00:13:04,649

in the desert and no one would know

246

00:13:07,890 --> 00:13:05,740

where we

247

00:13:14,160 --> 00:13:07,900

or much like a visit a weekend back to

248

00:13:18,810 --> 00:13:14,170

Vegas but for us for us I gotta say you

249

00:13:21,540 --> 00:13:18,820

know we we were there to track the the

250

00:13:25,040 --> 00:13:21,550

moment the moments per se

251
00:13:29,640 --> 00:13:25,050
and and and for us we how to keep our

252
00:13:32,220 --> 00:13:29,650
our focus very much on the on the

253
00:13:33,930 --> 00:13:32,230
mummies and and the fact that that's

254
00:13:36,840 --> 00:13:33,940
what we were there to do this

255
00:13:40,020 --> 00:13:36,850
distraction of where they come from and

256
00:13:43,140 --> 00:13:40,030
nasca and was a debate that went down a

257
00:13:45,090 --> 00:13:43,150
completely different rabbit hole but we

258
00:13:48,720 --> 00:13:45,100
do have an idea of where they come from

259
00:13:52,800 --> 00:13:48,730
because of certain signatures that are

260
00:13:54,960 --> 00:13:52,810
left within the landscape but we just

261
00:13:59,070 --> 00:13:54,970
physically couldn't go there because of

262
00:14:01,050 --> 00:13:59,080
the threat to our to ourselves and now

263
00:14:04,070 --> 00:14:01,060

that was a really big thing for us to

264

00:14:06,240 --> 00:14:04,080

consider because we were already and

265

00:14:08,280 --> 00:14:06,250

somewhere let's face it we were already

266

00:14:11,250 --> 00:14:08,290

somewhere that was completely out of our

267

00:14:13,460 --> 00:14:11,260

comfort zone and ended up do it and

268

00:14:15,780 --> 00:14:13,470

doing things and getting calls and then

269

00:14:17,970 --> 00:14:15,790

traveling to places that that we'll

270

00:14:21,090 --> 00:14:17,980

discuss further on in the interview and

271

00:14:23,430 --> 00:14:21,100

that really really set aside side of

272

00:14:28,530 --> 00:14:23,440

that comfort zone that we we normally

273

00:14:31,950 --> 00:14:28,540

like to operate in well it just it it it

274

00:14:37,290 --> 00:14:31,960

makes me curious as to you know their

275

00:14:40,470 --> 00:14:37,300

origin considering the the other skulls

276

00:14:42,240 --> 00:14:40,480

that have been discovered in really

277

00:14:45,300 --> 00:14:42,250

generally the you know the same general

278

00:14:45,750 --> 00:14:45,310

area that's in the museum locally and I

279

00:14:48,210 --> 00:14:45,760

can't

280

00:14:50,510 --> 00:14:48,220

offhand remember that what the name of

281

00:14:55,950 --> 00:14:50,520

those skulls are but you know they have

282

00:14:58,560 --> 00:14:55,960

extremely elongated skulls skulls more

283

00:15:03,060 --> 00:14:58,570

so than then you know natives that have

284

00:15:04,740 --> 00:15:03,070

just been you know boarded yeah so I was

285

00:15:06,720 --> 00:15:04,750

just curious of you know possibly there

286

00:15:11,970 --> 00:15:06,730

there could have been a connection you

287

00:15:15,600 --> 00:15:11,980

know between the two yep but yeah I mean

288

00:15:18,040 --> 00:15:15,610

like like you said that that was and you

289

00:15:19,600 --> 00:15:18,050

know it do you think that as

290

00:15:22,840 --> 00:15:19,610

goes on and you continue your

291

00:15:24,820 --> 00:15:22,850

investigation you know you'll try to you

292

00:15:27,730 --> 00:15:24,830

know make an attempt despite the fact

293

00:15:31,360 --> 00:15:27,740

that of the threat of being buried in

294

00:15:33,310 --> 00:15:31,370

the big desert somewhere you know to try

295

00:15:34,860 --> 00:15:33,320

to get a better understanding of you

296

00:15:38,199 --> 00:15:34,870

know where these things were actually

297

00:15:42,040 --> 00:15:38,209

found because I just you know I read

298

00:15:43,300 --> 00:15:42,050

something today and and of course you

299

00:15:46,590 --> 00:15:43,310

know this is just you know third-hand

300

00:15:49,240 --> 00:15:46,600

information you know talking about how

301
00:15:52,810 --> 00:15:49,250
apparently some of the discoverers said

302
00:15:55,240 --> 00:15:52,820
that that they were seeing actually live

303
00:15:56,949 --> 00:15:55,250
versions of these things running around

304
00:16:00,280 --> 00:15:56,959
in the location that they found these

305
00:16:04,269 --> 00:16:00,290
bodies I think so I think I think for us

306
00:16:07,569 --> 00:16:04,279
Tim the the idea that we that we pretty

307
00:16:12,880 --> 00:16:07,579
much sure we know where the location is

308
00:16:14,380 --> 00:16:12,890
and because of certain clues that were

309
00:16:18,579 --> 00:16:14,390
left and these clues are impossible to

310
00:16:20,050 --> 00:16:18,589
hide and the the problem the problem

311
00:16:23,110 --> 00:16:20,060
that we faced is that the work heroes

312
00:16:27,190 --> 00:16:23,120
are certainly tried to keep keep their

313
00:16:29,769 --> 00:16:27,200

their site of discovery and free from

314

00:16:35,350 --> 00:16:29,779

prying eyes and the Peruvian government

315

00:16:38,769 --> 00:16:35,360

they gotta add but but for for us the

316

00:16:42,850 --> 00:16:38,779

the the clues are too big to ignore

317

00:16:45,610 --> 00:16:42,860

and if we get the opportunity irrelevant

318

00:16:48,490 --> 00:16:45,620

of what what heroes are saying as to

319

00:16:52,300 --> 00:16:48,500

where the location of this of these

320

00:16:52,870 --> 00:16:52,310

chambers are and we believe we know

321

00:16:58,930 --> 00:16:52,880

where they are

322

00:17:03,790 --> 00:16:58,940

and and and depending depending on on on

323

00:17:07,090 --> 00:17:03,800

part to that that we that we may be

324

00:17:09,220 --> 00:17:07,100

making our way back to Peru and with the

325

00:17:13,840 --> 00:17:09,230

help of the Peruvian government we will

326

00:17:17,319 --> 00:17:13,850

be going to that location so do do you

327

00:17:20,429 --> 00:17:17,329

have any idea how these bodies then you

328

00:17:24,460 --> 00:17:20,439

know ended up you know in the hands of

329

00:17:27,040 --> 00:17:24,470

Gaia TV or and then and then revealed to

330

00:17:29,290 --> 00:17:27,050

the outside world well it started off

331

00:17:31,870 --> 00:17:29,300

with with them the encounter Institute

332

00:17:34,630 --> 00:17:31,880

which is based in Cusco Peru

333

00:17:38,050 --> 00:17:34,640

there is a small team of people who

334

00:17:40,650 --> 00:17:38,060

dedicate their lives to investigating

335

00:17:42,910 --> 00:17:40,660

and researching archaeological finds and

336

00:17:45,640 --> 00:17:42,920

discoveries they've been doing a lot of

337

00:17:47,290 --> 00:17:45,650

work in the Amazon over the years and

338

00:17:49,150 --> 00:17:47,300

they admit the you know from what from

339

00:17:50,580 --> 00:17:49,160

what we gathered from from visiting that

340

00:17:52,960 --> 00:17:50,590

location and talking with these people

341

00:17:54,640 --> 00:17:52,970

now they have done some very interesting

342

00:17:57,180 --> 00:17:54,650

and they would work

343

00:17:59,950 --> 00:17:57,190

they've also assisted a lot of people

344

00:18:01,900 --> 00:17:59,960

the kind of adopted families in a sense

345

00:18:03,310 --> 00:18:01,910

of speaking from Hindi Amazon area and

346

00:18:05,560 --> 00:18:03,320

they really looked after him so they

347

00:18:07,660 --> 00:18:05,570

have been doing some good work the

348

00:18:10,930 --> 00:18:07,670

president's Kara Hamming who's been

349

00:18:13,090 --> 00:18:10,940

involved a lot in regards to the

350

00:18:17,590 --> 00:18:13,100

surrounding of these the discovery of

351
00:18:19,330 --> 00:18:17,600
these these bodies as publicly announced

352
00:18:22,840 --> 00:18:19,340
on numerous occasions and done

353
00:18:25,450 --> 00:18:22,850
interviews about how this story came to

354
00:18:28,570 --> 00:18:25,460
be and apparently it's as simple as

355
00:18:31,240 --> 00:18:28,580
these these gentlemen walked in to the

356
00:18:34,060 --> 00:18:31,250
encou Institute and basically just

357
00:18:36,580 --> 00:18:34,070
dropped these things on his counter and

358
00:18:39,160 --> 00:18:36,590
said if you like to conduct some

359
00:18:41,140 --> 00:18:39,170
analysis on these you know to find out

360
00:18:42,760 --> 00:18:41,150
the legitimacy of these then the fine

361
00:18:44,980 --> 00:18:42,770
then we're going to leave these with you

362
00:18:48,090 --> 00:18:44,990
but they certainly hammered home the

363
00:18:51,670 --> 00:18:48,100

fact that they do own these bodies and

364

00:18:54,160 --> 00:18:51,680

at any time they can retrieve them take

365

00:18:58,350 --> 00:18:54,170

them away of course there was a lot of

366

00:19:01,150 --> 00:18:58,360

concern at that time for Thierry because

367

00:19:03,130 --> 00:19:01,160

he's done quite considerable amount of

368

00:19:06,990 --> 00:19:03,140

good work the Peruvian government had

369

00:19:09,910 --> 00:19:07,000

recognized that by even releasing a coin

370

00:19:11,740 --> 00:19:09,920

in commemoration of the work that he'd

371

00:19:16,720 --> 00:19:11,750

don't need naturally placed on the back

372

00:19:19,480 --> 00:19:16,730

of the coin and some petroglyphs from a

373

00:19:22,690 --> 00:19:19,490

photo they'd taken and whilst in the

374

00:19:25,030 --> 00:19:22,700

Amazon published in his book about those

375

00:19:27,180 --> 00:19:25,040

discoveries so there was certainly aware

376

00:19:29,920 --> 00:19:27,190

of his work and quite happy with him

377

00:19:33,070 --> 00:19:29,930

breezy and immediately immediately he

378

00:19:35,860 --> 00:19:33,080

was concerned because the question is is

379

00:19:37,120 --> 00:19:35,870

where these come from now if you thought

380

00:19:39,340 --> 00:19:37,130

straightaway obviously these have been

381

00:19:40,780 --> 00:19:39,350

taken from some form of clay resting

382

00:19:42,580 --> 00:19:40,790

place from tomb or something

383

00:19:43,750 --> 00:19:42,590

and if that is the case then the

384

00:19:45,769 --> 00:19:43,760

Peruvian government aren't going to be

385

00:19:47,779 --> 00:19:45,779

all over this because

386

00:19:48,950 --> 00:19:47,789

do consider a Quackers you know a

387

00:19:51,200 --> 00:19:48,960

serious crime

388

00:19:55,609 --> 00:19:51,210

I need former tomb raiding especially

389

00:19:57,769 --> 00:19:55,619

even removing items and of course these

390

00:19:59,629 --> 00:19:57,779

are dripping drops on his counter and he

391

00:20:03,049 --> 00:19:59,639

was left with them left with a huge task

392

00:20:07,070 --> 00:20:03,059

to because that thrill rearing the him

393

00:20:09,560 --> 00:20:07,080

and his team the whole Institute to the

394

00:20:11,389 --> 00:20:09,570

walls basically because of course when

395

00:20:15,139 --> 00:20:11,399

he went public with this information he

396

00:20:16,639 --> 00:20:15,149

got he did do he managed to get some

397

00:20:20,029 --> 00:20:16,649

money together to convert some very

398

00:20:22,009 --> 00:20:20,039

basic forms of analysis early on in the

399

00:20:26,119 --> 00:20:22,019

in year now I don't believe those

400

00:20:31,219 --> 00:20:26,129

results came until just prior to Maria

401
00:20:32,659 --> 00:20:31,229
being discovered however he didn't

402
00:20:34,549 --> 00:20:32,669
really know how to do with this he was

403
00:20:37,310 --> 00:20:34,559
stuck in the middle because trying to

404
00:20:40,399 --> 00:20:37,320
and making sure that he had to keep the

405
00:20:43,669 --> 00:20:40,409
identity of these tomb Raider's or

406
00:20:48,200 --> 00:20:43,679
whoever these people are secret and at

407
00:20:50,209 --> 00:20:48,210
the same time trying to find out the

408
00:20:51,950 --> 00:20:50,219
analysis is Bessey's positively know the

409
00:20:54,320 --> 00:20:51,960
resource of what this what these things

410
00:20:56,749 --> 00:20:54,330
were what we represented they'd heard of

411
00:20:58,969 --> 00:20:56,759
three fingered beings before no stuffs

412
00:21:01,940 --> 00:20:58,979
that's nothing new

413
00:21:05,359 --> 00:21:01,950

very Nazca because even the the

414

00:21:08,599 --> 00:21:05,369

ancestors the day talked Dennis calluses

415

00:21:12,739 --> 00:21:08,609

to say basically they the talk of three

416

00:21:14,570 --> 00:21:12,749

fingered beings and even the sighting of

417

00:21:17,659 --> 00:21:14,580

these things and of course went the

418

00:21:19,879 --> 00:21:17,669

story surrounding the discovery of these

419

00:21:24,019 --> 00:21:19,889

this tomb was purely by accident

420

00:21:26,899 --> 00:21:24,029

apparently and when they managed to

421

00:21:30,859 --> 00:21:26,909

scramble in there and the open document

422

00:21:33,169 --> 00:21:30,869

into the ruin two connecting tunnels but

423

00:21:37,489 --> 00:21:33,179

these do do claim to have seen several

424

00:21:39,440 --> 00:21:37,499

small beings fleeing down these inter

425

00:21:42,200 --> 00:21:39,450

connecting tunnels and also the

426
00:21:46,999 --> 00:21:42,210
sightseeing of a larger being which had

427
00:21:49,430 --> 00:21:47,009
a blue pink color to a skin before

428
00:21:52,549 --> 00:21:49,440
disappearing and they were faced with

429
00:21:55,070 --> 00:21:52,559
two sir coffee carry and one of which

430
00:21:56,749 --> 00:21:55,080
was opened and they found to have a

431
00:21:59,270 --> 00:21:56,759
belief from around about twenty small

432
00:22:02,450 --> 00:21:59,280
bodies in there so the mission school

433
00:22:04,400 --> 00:22:02,460
who did relate to find schools scattered

434
00:22:07,940 --> 00:22:04,410
around apparently on the floor and in

435
00:22:11,120 --> 00:22:07,950
these tunnels and then of course Maria

436
00:22:14,240 --> 00:22:11,130
and a smaller one which is known as

437
00:22:18,680 --> 00:22:14,250
we're with Itza we discovered buried

438
00:22:20,480 --> 00:22:18,690

partially buried in the soil which has

439

00:22:23,660 --> 00:22:20,490

had some unusual properties within the

440

00:22:25,610 --> 00:22:23,670

soil as well so so they were have to

441

00:22:27,020 --> 00:22:25,620

deal with all this and of course the

442

00:22:30,650 --> 00:22:27,030

press went mad with this and of course

443

00:22:34,280 --> 00:22:30,660

Gaia picks up on this information been

444

00:22:37,970 --> 00:22:34,290

in touch with in Kerry Institute and did

445

00:22:39,200 --> 00:22:37,980

residual occasion to examine Maria and

446

00:22:41,690 --> 00:22:39,210

of course that was the first thing that

447

00:22:43,970 --> 00:22:41,700

we actually saw in in the press and

448

00:22:49,220 --> 00:22:43,980

already internet was from their very

449

00:22:52,340 --> 00:22:49,230

first visit it it amazes me that so far

450

00:22:54,890 --> 00:22:52,350

they've been able to keep these bodies

451

00:22:56,720 --> 00:22:54,900

out of the hands of the Peruvian

452

00:23:00,250 --> 00:22:56,730

government because like you said I mean

453

00:23:04,820 --> 00:23:00,260

these are you know these are considered

454

00:23:07,910 --> 00:23:04,830

valuable artifacts and if if the

455

00:23:09,799 --> 00:23:07,920

government can get a hold of them I mean

456

00:23:12,830 --> 00:23:09,809

they'll confiscate them and I and I'm

457

00:23:16,310 --> 00:23:12,840

sure that anybody that that are found

458

00:23:19,490 --> 00:23:16,320

with them would be suffering pretty

459

00:23:22,460 --> 00:23:19,500

large jail time well gentlemen it's it's

460

00:23:25,480 --> 00:23:22,470

time for me to take us into our first

461

00:23:36,430 --> 00:23:25,490

break so we will continue discussion on

462

00:23:43,160 --> 00:23:40,610

now back to exploring the bazaars with

463

00:23:46,490 --> 00:23:43,170

two of the most electrifying researchers

464

00:23:52,820 --> 00:23:46,500

in the Paranoid your hosts Timothy Becca

465

00:23:54,830 --> 00:23:52,830

Lee panting Swartz welcome back to

466

00:23:58,190 --> 00:23:54,840

exploring the bazaar tonight we are

467

00:24:01,160 --> 00:23:58,200

talking about the mysterious Nazca

468

00:24:04,100 --> 00:24:01,170

bodies and we have with us Barry

469

00:24:05,780 --> 00:24:04,110

Fitzgerald and Steve Mehra and I

470

00:24:07,700 --> 00:24:05,790

encourage you that if you have any

471

00:24:10,370 --> 00:24:07,710

questions that you would like our like

472

00:24:13,280 --> 00:24:10,380

to ask our guests please feel free to do

473

00:24:14,870 --> 00:24:13,290

so we'd love to hear from you and we

474

00:24:18,620 --> 00:24:14,880

will try to answer your questions as

475

00:24:21,320 --> 00:24:18,630

best as we possibly can so gentlemen for

476
00:24:25,580 --> 00:24:21,330
those of our audience who may not have

477
00:24:29,590 --> 00:24:25,590
heard about these these strange bodies

478
00:24:31,730 --> 00:24:29,600
so why don't you tell us just exactly

479
00:24:34,070 --> 00:24:31,740
what they're dealing with I mean you

480
00:24:38,890 --> 00:24:34,080
know what what did they find

481
00:24:43,549 --> 00:24:38,900
and you know what makes them so unusual

482
00:24:47,570 --> 00:24:43,559
all right well I you know I gotta say

483
00:24:51,289 --> 00:24:47,580
that when when these bodies were first

484
00:24:54,080 --> 00:24:51,299
presented to us um and you know it came

485
00:25:00,500 --> 00:24:54,090
and came at the end of a very very

486
00:25:04,520 --> 00:25:00,510
unusual day and and we got a phone call

487
00:25:08,690 --> 00:25:04,530
in the middle of the night and Steve

488
00:25:13,510 --> 00:25:08,700

Steve took a call and this call was an

489

00:25:17,030 --> 00:25:13,520

arrangement and to see these particular

490

00:25:18,650 --> 00:25:17,040

these particular bodies initially we

491

00:25:20,960 --> 00:25:18,660

weren't quite sure what we were going to

492

00:25:23,030 --> 00:25:20,970

see and and we were given strict

493

00:25:26,020 --> 00:25:23,040

instructions and what we could film what

494

00:25:28,280 --> 00:25:26,030

we could record and everything else and

495

00:25:30,710 --> 00:25:28,290

under this car picked us up at the hotel

496

00:25:35,330 --> 00:25:30,720

the following morning and and off we

497

00:25:39,770 --> 00:25:35,340

went and we we were already at 11,000

498

00:25:42,919 --> 00:25:39,780

feet and in Cuzco which is the the

499

00:25:44,669 --> 00:25:42,929

capital the former capital of the the

500

00:25:48,320 --> 00:25:44,679

Incan civilization

501
00:25:51,869 --> 00:25:48,330
and a beautiful police but lo and behold

502
00:25:54,419 --> 00:25:51,879
11,000 feet wasn't enough and it started

503
00:25:56,489 --> 00:25:54,429
to climb up into the mountains and I got

504
00:25:59,340 --> 00:25:56,499
to say even Steve and I we could hear

505
00:25:59,879 --> 00:25:59,350
the engine of the car and struggling for

506
00:26:01,499 --> 00:25:59,889
air

507
00:26:03,720 --> 00:26:01,509
never mind ourselves because we're

508
00:26:05,820 --> 00:26:03,730
certainly not used to thee to that type

509
00:26:08,999 --> 00:26:05,830
of altitude but we continued to climb up

510
00:26:12,989 --> 00:26:09,009
into the mountains anyway and finally

511
00:26:15,239 --> 00:26:12,999
finally and we we arrived at this this

512
00:26:20,879 --> 00:26:15,249
location that we we hadn't seen before

513
00:26:23,580 --> 00:26:20,889

and landed at this building and longer

514

00:26:28,830 --> 00:26:23,590

hold and we walked into this room with

515

00:26:31,759 --> 00:26:28,840

men dressed and surgical outfits and and

516

00:26:36,269 --> 00:26:31,769

we were presented with these bodies and

517

00:26:38,039 --> 00:26:36,279

I gotta say that that the first the

518

00:26:41,159 --> 00:26:38,049

first body that was presented to us as

519

00:26:45,060 --> 00:26:41,169

Steve Steve happened to say it before he

520

00:26:48,840 --> 00:26:45,070

felt as if we were being tested because

521

00:26:52,259 --> 00:26:48,850

it was it was quite quite blatant that

522

00:26:54,869 --> 00:26:52,269

that was it was a forgery and but then

523

00:26:58,409 --> 00:26:54,879

this small this small body and must have

524

00:27:04,289 --> 00:26:58,419

been no more than then 20 inches long if

525

00:27:07,139 --> 00:27:04,299

that am very very stick leg and and had

526
00:27:10,590 --> 00:27:07,149
this what seemed to be a type of fish's

527
00:27:12,779 --> 00:27:10,600
head I Steve was already aware that this

528
00:27:14,970 --> 00:27:12,789
this this particular body had surfaced

529
00:27:19,230 --> 00:27:14,980
some time before pardon the pun with him

530
00:27:21,960 --> 00:27:19,240
being a fish and but but he was very

531
00:27:23,789 --> 00:27:21,970
aware that this was a fake and we were

532
00:27:26,220 --> 00:27:23,799
presented with me with the x-rays and

533
00:27:29,489 --> 00:27:26,230
everything else I mean we took her time

534
00:27:32,789 --> 00:27:29,499
and and we recorded what what we could

535
00:27:37,019 --> 00:27:32,799
and an examined that for what it was

536
00:27:41,989 --> 00:27:37,029
worth but I gotta say then things

537
00:27:48,590 --> 00:27:41,999
started to change because then these

538
00:27:55,799 --> 00:27:51,389

underhands themselves that they're there

539

00:27:57,530 --> 00:27:55,809

around maybe and again 20 20 inches long

540

00:28:00,530 --> 00:27:57,540

but there were there

541

00:28:02,720 --> 00:28:00,540

they were chopped off so you had that

542

00:28:05,480 --> 00:28:02,730

you had really that the palm of the hand

543

00:28:08,840 --> 00:28:05,490

with these three fingers extending from

544

00:28:10,490 --> 00:28:08,850

these mummified fingers and the hands

545

00:28:16,340 --> 00:28:10,500

themselves were covered in flesh they

546

00:28:20,270 --> 00:28:16,350

had they had six joints and six parts to

547

00:28:25,160 --> 00:28:20,280

the fingers and whereas we only have we

548

00:28:27,890 --> 00:28:25,170

only have three for epic em and very

549

00:28:30,320 --> 00:28:27,900

very strange very strange and within

550

00:28:32,870 --> 00:28:30,330

within some of the hands there was there

551
00:28:34,820 --> 00:28:32,880
was a there was these pieces of metal

552
00:28:38,810 --> 00:28:34,830
and one of the hands of fact had this

553
00:28:40,790 --> 00:28:38,820
huge big circular plate and which which

554
00:28:47,540 --> 00:28:40,800
looked like was made out of other other

555
00:28:49,370 --> 00:28:47,550
bronze or some type of gold and and it

556
00:28:50,620 --> 00:28:49,380
was attached to the upper side of the

557
00:28:53,060 --> 00:28:50,630
hand

558
00:28:55,960 --> 00:28:53,070
now some samples have been taken from

559
00:29:01,040 --> 00:28:55,970
one of the hands and for analysis

560
00:29:02,990 --> 00:29:01,050
previous to to our seeing them and very

561
00:29:04,580 --> 00:29:03,000
very very strange again the x-rays were

562
00:29:07,190 --> 00:29:04,590
presented we were able to see them but

563
00:29:10,430 --> 00:29:07,200

they were covered both the body before

564

00:29:13,280 --> 00:29:10,440

and these hands were covered on this

565

00:29:16,280 --> 00:29:13,290

that's this type of white white covering

566

00:29:20,270 --> 00:29:16,290

and which was which was very unusual but

567

00:29:23,360 --> 00:29:20,280

and it really started getting very

568

00:29:27,220 --> 00:29:23,370

interesting when they presented then the

569

00:29:30,980 --> 00:29:27,230

complete bodies of these smaller

570

00:29:35,180 --> 00:29:30,990

creatures and I gotta say creature

571

00:29:38,390 --> 00:29:35,190

because although what and and all as

572

00:29:43,490 --> 00:29:38,400

extremities and it was very human-like

573

00:29:45,650 --> 00:29:43,500

and the the the ends of the hands and

574

00:29:47,990 --> 00:29:45,660

the face they had three fingers and

575

00:29:51,020 --> 00:29:48,000

three toes but these these creatures

576

00:29:53,390 --> 00:29:51,030

were only around 25 inches long mmm and

577

00:29:58,510 --> 00:29:53,400

they had the head of what we would

578

00:30:02,540 --> 00:29:58,520

typically identify as being a type of

579

00:30:05,560 --> 00:30:02,550

grey the face the face itself looked

580

00:30:08,300 --> 00:30:05,570

like what we were associate a grey and

581

00:30:10,840 --> 00:30:08,310

and I must I must admit him coming from

582

00:30:12,730 --> 00:30:10,850

Ireland and having worked

583

00:30:14,980 --> 00:30:12,740

and the end of mythology and the

584

00:30:18,010 --> 00:30:14,990

folklore and everything else of not only

585

00:30:20,830 --> 00:30:18,020

our lumber around the world and you know

586

00:30:24,130 --> 00:30:20,840

I I find myself torn between the

587

00:30:25,660 --> 00:30:24,140

fascination of what we were filming and

588

00:30:28,960 --> 00:30:25,670

what we were we were actually in the

589

00:30:32,200 --> 00:30:28,970

presence of but I was also torn with

590

00:30:35,970 --> 00:30:32,210

with with this idea of of looking at

591

00:30:39,430 --> 00:30:35,980

this from my ancestral standpoint and to

592

00:30:42,310 --> 00:30:39,440

think hold on a second are these the

593

00:30:44,800 --> 00:30:42,320

buggers that have terrorized my

594

00:30:48,400 --> 00:30:44,810

ancestors right up to the present day

595

00:30:50,590 --> 00:30:48,410

and are these the creatures that are

596

00:30:54,130 --> 00:30:50,600

responsible for this and so there was a

597

00:30:57,250 --> 00:30:54,140

type of losing almost and that was

598

00:30:58,570 --> 00:30:57,260

developing within myself as I stood in

599

00:31:01,690 --> 00:30:58,580

awe looking at these particular

600

00:31:04,690 --> 00:31:01,700

creatures but Steve and I we got to

601
00:31:08,080 --> 00:31:04,700
investigate them further and and look at

602
00:31:09,760 --> 00:31:08,090
these at these x-rays that were being

603
00:31:12,520 --> 00:31:09,770
presented to us and we were able to see

604
00:31:14,080 --> 00:31:12,530
through the x-rays that that that there

605
00:31:17,290 --> 00:31:14,090
were some things which made us very

606
00:31:21,610 --> 00:31:17,300
curious such as no ball joints and

607
00:31:22,750 --> 00:31:21,620
things like that on their arms and and

608
00:31:24,520 --> 00:31:22,760
there was there's that there seemed to

609
00:31:26,890 --> 00:31:24,530
be then one of them there was there was

610
00:31:29,800 --> 00:31:26,900
a problem with its head and and there

611
00:31:32,920 --> 00:31:29,810
was also a that type of metal that was

612
00:31:37,630 --> 00:31:32,930
attached to the hip and very very

613
00:31:40,360 --> 00:31:37,640

unusual in that and tests

614

00:31:43,060 --> 00:31:40,370

I believe Steve there were no tests that

615

00:31:45,430 --> 00:31:43,070

were carried out on those creatures no

616

00:31:47,980 --> 00:31:45,440

no no there were no tests been carried

617

00:31:50,320 --> 00:31:47,990

out on the smaller creatures we asked

618

00:31:52,090 --> 00:31:50,330

that question at the time especially

619

00:31:54,220 --> 00:31:52,100

when we were overlooking there with two

620

00:31:56,110 --> 00:31:54,230

complete bodies which were brought out

621

00:31:58,180 --> 00:31:56,120

at 25 inches in length

622

00:32:00,100 --> 00:31:58,190

and they believed that it was addressed

623

00:32:03,400 --> 00:32:00,110

to us that one was a female and one was

624

00:32:05,200 --> 00:32:03,410

a male I mean of course we look to each

625

00:32:06,400 --> 00:32:05,210

other myself a Barry because because if

626

00:32:08,410 --> 00:32:06,410

we are dealing with something quite

627

00:32:11,500 --> 00:32:08,420

profound then you know who we to know

628

00:32:13,600 --> 00:32:11,510

which is which is which and but what

629

00:32:15,490 --> 00:32:13,610

they did point out is and it did was

630

00:32:18,810 --> 00:32:15,500

clearly seen on the x-rays as well that

631

00:32:22,310 --> 00:32:18,820

the the one the roof hits was the male

632

00:32:25,370 --> 00:32:22,320

had seemed to have a a longer neck

633

00:32:27,920 --> 00:32:25,380

yeah which they believed was could be

634

00:32:30,050 --> 00:32:27,930

adjusted he could adjust its next length

635

00:32:33,140 --> 00:32:30,060

bit like Steven Spielberg's et in a

636

00:32:35,000 --> 00:32:33,150

sense of speaking the female which have

637

00:32:37,550 --> 00:32:35,010

a shorter neck seem to have some type of

638

00:32:41,680 --> 00:32:37,560

metal the same as basically tight color

639

00:32:44,810 --> 00:32:41,690

metal play across the chest area and

640

00:32:49,010 --> 00:32:44,820

only where can describe what look like

641

00:32:52,310 --> 00:32:49,020

that she had a la an enlarged abdomen

642

00:32:55,870 --> 00:32:52,320

area an under x-ray look like there were

643

00:32:59,240 --> 00:32:55,880

three eggs think of that nature inside

644

00:33:01,400 --> 00:32:59,250

which I looked over at burying

645

00:33:04,730 --> 00:33:01,410

immediately thought well you know if

646

00:33:09,250 --> 00:33:04,740

these things are real then they do seem

647

00:33:14,600 --> 00:33:09,260

to have um a bit of a reptilian nature

648

00:33:18,820 --> 00:33:14,610

or or like birds yep yep reptiles and

649

00:33:22,210 --> 00:33:18,830

birds yeah and plus a lot of reptiles

650

00:33:24,830 --> 00:33:22,220

birds as well have three toes

651
00:33:26,690 --> 00:33:24,840
exactly exactly I mean we lot to be

652
00:33:29,420 --> 00:33:26,700
looked very carefully we've totally

653
00:33:32,050 --> 00:33:29,430
examined the body's reaction over we

654
00:33:34,610 --> 00:33:32,060
took measurements resort sizes

655
00:33:36,920 --> 00:33:34,620
references we went through the x-rays we

656
00:33:38,330 --> 00:33:36,930
documented everything and of course we

657
00:33:40,690 --> 00:33:38,340
big question the fact that they were

658
00:33:45,200 --> 00:33:40,700
seem to be lacking some ball joints and

659
00:33:47,870 --> 00:33:45,210
enlarged certain bones across the across

660
00:33:49,610 --> 00:33:47,880
the chest and they just do some things

661
00:33:52,580 --> 00:33:49,620
that didn't seem to adore but then we

662
00:33:54,500 --> 00:33:52,590
were identifying what look like real

663
00:33:56,780 --> 00:33:54,510

bones the ala Terry didn't have any

664

00:33:59,930 --> 00:33:56,790

lungs don't know how these things could

665

00:34:01,610 --> 00:33:59,940

have even breathed let alone vet

666

00:34:06,920 --> 00:34:01,620

themselves because it doesn't seem to

667

00:34:09,919 --> 00:34:06,930

have jaw bones and anatomically it was

668

00:34:12,320 --> 00:34:09,929

it was a very profound and but they do

669

00:34:15,520 --> 00:34:12,330

seem to be real bones and looks like

670

00:34:18,560 --> 00:34:15,530

there is flesh there and and of course

671

00:34:21,980 --> 00:34:18,570

we presented a third one which was once

672

00:34:25,040 --> 00:34:21,990

in a sitting position this time missing

673

00:34:26,149 --> 00:34:25,050

his head and what sample which was

674

00:34:27,649 --> 00:34:26,159

interesting because apparently some

675

00:34:30,520 --> 00:34:27,659

samples had already previously been

676

00:34:34,250 --> 00:34:30,530

taken from the neck area and looking

677

00:34:35,740 --> 00:34:34,260

closely at that it did seem to show what

678

00:34:39,369 --> 00:34:35,750

looked like

679

00:34:42,280 --> 00:34:39,379

muscles you know and of course the the

680

00:34:43,780 --> 00:34:42,290

connecting of the spine and of course if

681

00:34:45,399 --> 00:34:43,790

this is missing at school but it was in

682

00:34:47,230 --> 00:34:45,409

a sitting position which led us to you

683

00:34:49,180 --> 00:34:47,240

know we have a bit of an idea of

684

00:34:51,340 --> 00:34:49,190

certainly if the if these things were

685

00:34:53,409 --> 00:34:51,350

real then maybe how did they move

686

00:34:55,720 --> 00:34:53,419

because would it be very difficult I

687

00:34:57,550 --> 00:34:55,730

suppose without some ball joints you

688

00:34:59,380 --> 00:34:57,560

know maybe we would have water you know

689

00:35:02,170 --> 00:34:59,390

I can just imagine me I mean if and I

690

00:35:03,730 --> 00:35:02,180

know that these discoveries claims have

691

00:35:05,200 --> 00:35:03,740

seen these things running away but I

692

00:35:07,750 --> 00:35:05,210

would have probably laughter pursue

693

00:35:09,850 --> 00:35:07,760

these things running away because she

694

00:35:11,770 --> 00:35:09,860

had very stiff joints it is certainly

695

00:35:13,930 --> 00:35:11,780

and I probably would have gig of a

696

00:35:16,060 --> 00:35:13,940

little bit but nevertheless though it

697

00:35:18,730 --> 00:35:16,070

was it was absolutely fascinating but

698

00:35:22,210 --> 00:35:18,740

that was when the the whole room seemed

699

00:35:25,900 --> 00:35:22,220

to change them because we were a very

700

00:35:28,000 --> 00:35:25,910

large box was brought out and I think

701
00:35:33,190 --> 00:35:28,010
there was a plastic box very posit that

702
00:35:35,650 --> 00:35:33,200
was yeah your again your mind still

703
00:35:37,900 --> 00:35:35,660
reeling from from what you had just seen

704
00:35:41,170 --> 00:35:37,910
with these these smaller two bodies

705
00:35:44,010 --> 00:35:41,180
which I might also point out that that

706
00:35:47,140 --> 00:35:44,020
the bones themselves were knitted and

707
00:35:51,390 --> 00:35:47,150
which which means they are not child

708
00:35:53,590 --> 00:35:51,400
bones whatever these things were and

709
00:35:57,910 --> 00:35:53,600
there were there were there were fully

710
00:36:00,280 --> 00:35:57,920
grown and so that not left us that left

711
00:36:03,910 --> 00:36:00,290
is very very curious but then then

712
00:36:06,850 --> 00:36:03,920
everything changed because they brought

713
00:36:09,580 --> 00:36:06,860

out this this box and I continue to roll

714

00:36:12,220 --> 00:36:09,590

with the cameras and Steve was very much

715

00:36:14,320 --> 00:36:12,230

and in front of the camera and I was

716

00:36:17,170 --> 00:36:14,330

very careful of it trying to capture

717

00:36:21,160 --> 00:36:17,180

everything that there was and everything

718

00:36:24,190 --> 00:36:21,170

that we were allowed to capture and they

719

00:36:27,040 --> 00:36:24,200

brought her this box and once the lid

720

00:36:30,700 --> 00:36:27,050

was taking off taken off everything

721

00:36:36,310 --> 00:36:30,710

changed because before it it was very

722

00:36:38,170 --> 00:36:36,320

much like like any any examination of a

723

00:36:40,360 --> 00:36:38,180

particular body it was all everything

724

00:36:43,660 --> 00:36:40,370

was grand it was very very I supposed

725

00:36:45,370 --> 00:36:43,670

energetically it was flat and and but

726

00:36:49,120 --> 00:36:45,380

the moment the lid was taken off this

727

00:36:52,750 --> 00:36:49,130

box something changed

728

00:36:58,300 --> 00:36:52,760

and it was very the the atmosphere in

729

00:37:00,790 --> 00:36:58,310

the room was was palatable mmm and and I

730

00:37:04,030 --> 00:37:00,800

looked at Steve and tried to indicate

731

00:37:08,050 --> 00:37:04,040

from behind the camera oh my god there's

732

00:37:10,510 --> 00:37:08,060

something different with this um and it

733

00:37:14,050 --> 00:37:10,520

was it was exceptionally moving and

734

00:37:15,670 --> 00:37:14,060

powerful the the what what seemed to be

735

00:37:18,970 --> 00:37:15,680

emanating from this particular body

736

00:37:21,880 --> 00:37:18,980

which I can't explain I don't know what

737

00:37:25,570 --> 00:37:21,890

this was but there's something different

738

00:37:27,700 --> 00:37:25,580

about this particular one know whenever

739

00:37:32,980 --> 00:37:27,710

we say different this this particular

740

00:37:34,720 --> 00:37:32,990

body was was was or in the size of maybe

741

00:37:36,670 --> 00:37:34,730

five I think was faithful just not right

742

00:37:39,940 --> 00:37:36,680

Steve I think about five five for

743

00:37:43,810 --> 00:37:39,950

everything yes yeah yeah a regular size

744

00:37:46,690 --> 00:37:43,820

four for a human being yeah but that had

745

00:37:50,620 --> 00:37:46,700

three large fingers on each hand and

746

00:37:54,220 --> 00:37:50,630

three toes three large toes and on the

747

00:37:57,670 --> 00:37:54,230

feet no it got really really interesting

748

00:38:00,970 --> 00:37:57,680

because on the feet we were able to see

749

00:38:04,080 --> 00:38:00,980

even the dermal ridges on the toes and

750

00:38:08,860 --> 00:38:04,090

this is a very very hard thing to figure

751
00:38:10,300 --> 00:38:08,870
and we were very we spent a lot of time

752
00:38:13,750 --> 00:38:10,310
with this body which became known as

753
00:38:18,910 --> 00:38:13,760
Maria and we spent a very very long time

754
00:38:22,030 --> 00:38:18,920
with her exploring and taking us as many

755
00:38:26,470 --> 00:38:22,040
detailed shots as we possibly could but

756
00:38:29,770 --> 00:38:26,480
I couldn't shift this sense of this

757
00:38:32,410 --> 00:38:29,780
whatever it was at the time we didn't

758
00:38:36,550 --> 00:38:32,420
know is this real or is this fit we

759
00:38:39,280 --> 00:38:36,560
actually didn't know um and you know I'm

760
00:38:41,860 --> 00:38:39,290
looking upon this thinking myself what

761
00:38:45,840 --> 00:38:41,870
what is going on with his body you know

762
00:38:48,910 --> 00:38:45,850
if the the the main trunk of the body is

763
00:38:51,190 --> 00:38:48,920

definitely real I can't at the time I

764

00:38:53,800 --> 00:38:51,200

couldn't I couldn't pass judgment on the

765

00:38:55,660 --> 00:38:53,810

fingers of the tools and whether they

766

00:38:57,940 --> 00:38:55,670

were real or not but there was something

767

00:39:01,690 --> 00:38:57,950

special about the main trunk of the body

768

00:39:02,220 --> 00:39:01,700

of whoever this person was there must

769

00:39:06,690 --> 00:39:02,230

have been

770

00:39:09,120 --> 00:39:06,700

almost revered em and and I can tell I

771

00:39:11,550 --> 00:39:09,130

can tell you this quite categorically I

772

00:39:15,300 --> 00:39:11,560

can tell you that if that person was

773

00:39:17,580 --> 00:39:15,310

alive today I could not have stood in a

774

00:39:19,020 --> 00:39:17,590

room with this person because they would

775

00:39:23,810 --> 00:39:19,030

have brought me to my knees

776

00:39:27,270 --> 00:39:23,820

that was exceptionally powerful and

777

00:39:29,849 --> 00:39:27,280

something that that if I will never ever

778

00:39:31,920 --> 00:39:29,859

forget no I don't think we anything I

779

00:39:33,900 --> 00:39:31,930

will forget neither Tim Keenan well if

780

00:39:36,330 --> 00:39:33,910

you can just imagine the seeing as this

781

00:39:39,599 --> 00:39:36,340

plastic box lid is taken off and Marie

782

00:39:41,970 --> 00:39:39,609

is taken out very carefully and placed

783

00:39:44,130 --> 00:39:41,980

on an examination table I looked across

784

00:39:46,380 --> 00:39:44,140

at Barry and I saw the tears running

785

00:39:48,870 --> 00:39:46,390

down his eyes and the blood-red face and

786

00:39:51,420 --> 00:39:48,880

now I know I thought you know we were

787

00:39:53,430 --> 00:39:51,430

deep it was difficult as dealing with

788

00:39:55,740 --> 00:39:53,440

the altitude because we were suffering

789

00:39:57,990 --> 00:39:55,750

also from altitude sickness you know

790

00:39:59,460 --> 00:39:58,000

early morning poverty and nausea and

791

00:40:00,960 --> 00:39:59,470

headaches and popping and parenting

792

00:40:03,330 --> 00:40:00,970

because we were you know we're usually

793

00:40:06,150 --> 00:40:03,340

out to do and a lot Soviet Barry and he

794

00:40:08,670 --> 00:40:06,160

just they suddenly went oh my god and

795

00:40:15,780 --> 00:40:08,680

I'm looking over him thinking oh my god

796

00:40:17,970 --> 00:40:15,790

I'm gonna lose me cameraman here and of

797

00:40:20,370 --> 00:40:17,980

course we were totally transfixed on on

798

00:40:22,590 --> 00:40:20,380

the rear and of course as Barry said we

799

00:40:26,270 --> 00:40:22,600

are definitely most definitely dealing

800

00:40:29,280 --> 00:40:26,280

with a body here is absolutely you know

801
00:40:31,260 --> 00:40:29,290
it's very easily to identify that and

802
00:40:34,020 --> 00:40:31,270
ask for the fingers and toes you know

803
00:40:37,080 --> 00:40:34,030
very very strange she was missing she

804
00:40:39,030 --> 00:40:37,090
has a slightly elongated had and which

805
00:40:42,270 --> 00:40:39,040
could be a process of boarding you know

806
00:40:45,210 --> 00:40:42,280
it's not sure it's not as the same as

807
00:40:49,260 --> 00:40:45,220
the hugely elongated skulls I've been

808
00:40:52,710 --> 00:40:49,270
discovered in throughout Cosco Nazca and

809
00:40:54,270 --> 00:40:52,720
our situated in museums it wouldn't seem

810
00:40:56,580 --> 00:40:54,280
that she had would have been increased

811
00:40:58,320 --> 00:40:56,590
brain mass maybe does it maybe could

812
00:41:00,540 --> 00:40:58,330
have been a process of boarding but we

813
00:41:04,770 --> 00:41:00,550

did notice that I socket seemed larger

814

00:41:10,080 --> 00:41:04,780

than average a very small nose and small

815

00:41:13,200 --> 00:41:10,090

mouth with no ears which again you know

816

00:41:15,420 --> 00:41:13,210

it seems to fall in line with some

817

00:41:17,370 --> 00:41:15,430

amphibians and seals

818

00:41:19,230 --> 00:41:17,380

and of course I did pose that question

819

00:41:22,230 --> 00:41:19,240

because we did we were started to think

820

00:41:25,859 --> 00:41:22,240

is this if this Israel is its this some

821

00:41:27,480 --> 00:41:25,869

type of amphibian of some sort yeah I

822

00:41:29,250 --> 00:41:27,490

mean even Bobby would suggest you know

823

00:41:32,760 --> 00:41:29,260

could could they have been any weapon

824

00:41:36,120 --> 00:41:32,770

between the toes or fingers and that's

825

00:41:38,609 --> 00:41:36,130

lost you know as as skin disappears over

826

00:41:40,920 --> 00:41:38,619

long periods of time it was just

827

00:41:42,839 --> 00:41:40,930

completely very strange and but there

828

00:41:46,410 --> 00:41:42,849

was a couple of other things anomalies

829

00:41:49,890 --> 00:41:46,420

there was a larger gap between the two

830

00:41:53,370 --> 00:41:49,900

bones in the arms hmm which was clearly

831

00:41:56,160 --> 00:41:53,380

identical as we was it looked to be a

832

00:41:58,349 --> 00:41:56,170

female or due to the rib count it's only

833

00:42:02,039 --> 00:41:58,359

some you know only surmising that

834

00:42:04,680 --> 00:42:02,049

obviously and but obviously something

835

00:42:06,930 --> 00:42:04,690

was very special about her and of course

836

00:42:11,760 --> 00:42:06,940

she again she was coming all this all

837

00:42:13,950 --> 00:42:11,770

this white now if he is if if from what

838

00:42:16,620 --> 00:42:13,960

we're being told that from this from

839

00:42:18,839 --> 00:42:16,630

some of the previous tests that this

840

00:42:21,359 --> 00:42:18,849

white powder which is in which was

841

00:42:25,200 --> 00:42:21,369

initially thought to be plaster by many

842

00:42:26,549 --> 00:42:25,210

people who had seen the photos and video

843

00:42:28,049 --> 00:42:26,559

footage over the inset he was

844

00:42:29,849 --> 00:42:28,059

immediately jumped on by saying oh she's

845

00:42:32,670 --> 00:42:29,859

covered in plaster Paris and things like

846

00:42:34,970 --> 00:42:32,680

that and however shawnee analysis come

847

00:42:39,180 --> 00:42:34,980

back and it's not just once but twice

848

00:42:42,660 --> 00:42:39,190

referred to the the white as being dye a

849

00:42:44,490 --> 00:42:42,670

Tamiya diatomaceous earth hmm which is

850

00:42:48,140 --> 00:42:44,500

for those listeners are not too sure

851
00:42:52,890 --> 00:42:48,150
what that is and it's kind of fossilized

852
00:42:55,859 --> 00:42:52,900
macro shells his big minerals but

853
00:42:57,390 --> 00:42:55,869
they're very very fine and of course

854
00:43:00,299 --> 00:42:57,400
that is produced from the from the

855
00:43:03,569 --> 00:43:00,309
seabed and but we as many will know

856
00:43:06,240 --> 00:43:03,579
geologically that the the Nazca

857
00:43:07,680 --> 00:43:06,250
Mountains range was probably to seabed

858
00:43:09,839 --> 00:43:07,690
at once have been pushed up through

859
00:43:12,480 --> 00:43:09,849
tectonic plate shifts in lung movement

860
00:43:14,660 --> 00:43:12,490
over millions of years and these areas

861
00:43:19,349 --> 00:43:14,670
of diatomaceous earth

862
00:43:21,870 --> 00:43:19,359
pops up in locations and and apparently

863
00:43:24,569 --> 00:43:21,880

have unique properties and some of those

864

00:43:26,370 --> 00:43:24,579

properties are our preservative they do

865

00:43:30,020 --> 00:43:26,380

preserve

866

00:43:33,200 --> 00:43:30,030

body's extremely well the locking

867

00:43:36,120 --> 00:43:33,210

bacteria so that bacteria cannot

868

00:43:38,220 --> 00:43:36,130

contrive on the on the body plus it also

869

00:43:40,530 --> 00:43:38,230

is a repellent to insects those type of

870

00:43:43,110 --> 00:43:40,540

insects that might feed on on certain

871

00:43:45,120 --> 00:43:43,120

things like that and it would be it

872

00:43:48,090 --> 00:43:45,130

would active it as a wonderful

873

00:43:51,540 --> 00:43:48,100

preservative however it would seem from

874

00:43:53,460 --> 00:43:51,550

our examination that this isn't just

875

00:43:55,710 --> 00:43:53,470

simply as a body who's just been

876

00:43:58,200 --> 00:43:55,720

directing some day a tonight or be even

877

00:44:00,450 --> 00:43:58,210

buried in it it will look to piece it

878

00:44:02,040 --> 00:44:00,460

looks to be purposely applied throughout

879

00:44:04,920 --> 00:44:02,050

the whole body in other words it had

880

00:44:07,980 --> 00:44:04,930

been purposely put on the body as to the

881

00:44:10,280 --> 00:44:07,990

reasons why I can only I can only think

882

00:44:12,420 --> 00:44:10,290

is to act as a preservative of some sort

883

00:44:15,840 --> 00:44:12,430

however we've also got to take into

884

00:44:18,450 --> 00:44:15,850

consideration that the white powder

885

00:44:20,430 --> 00:44:18,460

covering of this deer tomato says is

886

00:44:23,640 --> 00:44:20,440

also something that could hide a

887

00:44:25,560 --> 00:44:23,650

multitude of sins you know so we we have

888

00:44:27,390 --> 00:44:25,570

to sort of we would like we said right

889

00:44:30,510 --> 00:44:27,400

in the beginning we shouldn't call it as

890

00:44:32,100 --> 00:44:30,520

it is and that and keep that middle

891

00:44:35,160 --> 00:44:32,110

ground really because we just want to

892

00:44:37,970 --> 00:44:35,170

make sure what we are looking at is it

893

00:44:40,260 --> 00:44:37,980

authentic or not and it would seem that

894

00:44:42,870 --> 00:44:40,270

these did this has been purposely

895

00:44:44,820 --> 00:44:42,880

applied to the body as to how and when

896

00:44:47,630 --> 00:44:44,830

that stuff's a different story you know

897

00:44:50,850 --> 00:44:47,640

about reveal something through analysis

898

00:44:53,040 --> 00:44:50,860

and of course we've conducted everything

899

00:44:55,890 --> 00:44:53,050

you know that's and all the x-rays that

900

00:44:57,450 --> 00:44:55,900

came out and scans and and you can

901
00:45:01,800 --> 00:44:57,460
clearly see on the x-rays that she's

902
00:45:04,230 --> 00:45:01,810
definitely body absolutely not

903
00:45:06,750 --> 00:45:04,240
manufactured body but what was very

904
00:45:09,690 --> 00:45:06,760
interesting was the and the loads of the

905
00:45:11,670 --> 00:45:09,700
toes which had extra cartridges in their

906
00:45:13,830 --> 00:45:11,680
feet and the total giving its length how

907
00:45:16,140 --> 00:45:13,840
it would have what is very questionable

908
00:45:18,780 --> 00:45:16,150
because as far as I was far as we are

909
00:45:20,880 --> 00:45:18,790
concerned they wouldn't have been made

910
00:45:22,320 --> 00:45:20,890
great walkers you know but it would have

911
00:45:26,040 --> 00:45:22,330
been very steady on the feet and without

912
00:45:28,800 --> 00:45:26,050
the stabilizing of chose the widening

913
00:45:30,420 --> 00:45:28,810

got the thought and it will be very

914

00:45:32,790 --> 00:45:30,430

difficult probably from observed warts

915

00:45:35,610 --> 00:45:32,800

and got a looks of it gave no thumbs

916

00:45:38,730 --> 00:45:35,620

and no thumbs no free long fingers no

917

00:45:40,859 --> 00:45:38,740

thumbs and again this would represent

918

00:45:43,540 --> 00:45:40,869

maybe something that

919

00:45:46,000 --> 00:45:43,550

swimming in water or climbing trees is

920

00:45:47,910 --> 00:45:46,010

this well we tend to see in nature you

921

00:45:52,330 --> 00:45:47,920

know we don't tend to see many ground

922

00:45:55,450 --> 00:45:52,340

dwelling animals without thumbs of some

923

00:45:58,240 --> 00:45:55,460

sort and the demo ridging was very

924

00:46:00,820 --> 00:45:58,250

unusual because as we know from dermal

925

00:46:02,620 --> 00:46:00,830

ridges that there it consists of swirls

926
00:46:03,940 --> 00:46:02,630
and patterns or just like our fingers

927
00:46:06,580 --> 00:46:03,950
and our toes

928
00:46:09,640 --> 00:46:06,590
however the know that she does have

929
00:46:11,320 --> 00:46:09,650
dermal ridges on her toes which are very

930
00:46:13,210 --> 00:46:11,330
clearly visible

931
00:46:15,160 --> 00:46:13,220
they consist a straight more like

932
00:46:18,640 --> 00:46:15,170
straight lines which is very unusual bit

933
00:46:21,910 --> 00:46:18,650
like again like a reptile which seemed

934
00:46:25,240 --> 00:46:21,920
to have their straight straight lines

935
00:46:29,320 --> 00:46:25,250
across the ridging but all in all she

936
00:46:32,950 --> 00:46:29,330
was she was absolutely profound what I

937
00:46:34,990 --> 00:46:32,960
mean may the dermal of the dermal regime

938
00:46:36,099 --> 00:46:35,000

and some of there are some theories out

939

00:46:38,760 --> 00:46:36,109

there because we actually don't really

940

00:46:41,109 --> 00:46:38,770

know what the dermal regimes for and and

941

00:46:42,790 --> 00:46:41,119

there are some theories some schools of

942

00:46:46,680 --> 00:46:42,800

thought out there that that the dermal

943

00:46:50,760 --> 00:46:46,690

ridges used for rat for for grip and

944

00:46:53,680 --> 00:46:50,770

especially if the skin gets wet

945

00:46:56,740 --> 00:46:53,690

alright gentlemen well we have to go to

946

00:47:00,040 --> 00:46:56,750

our top of the hour break here compact

947

00:47:03,010 --> 00:47:00,050

that's a strong conversation about the

948

00:47:05,380 --> 00:47:03,020

mysterious parties of pasta so we're

949

00:47:17,840 --> 00:47:05,390

listening exploring bizarre and Kim

950

00:47:24,800 --> 00:47:22,140

explore the bazaars are your e-ticket

951
00:47:28,080 --> 00:47:24,810
ride into the world of the paranormal

952
00:47:32,390 --> 00:47:28,090
strap yourself in as we traverse the

953
00:47:35,510 --> 00:47:32,400
universe exploring the unexplained UFO s

954
00:47:37,890 --> 00:47:35,520
ghosts Lost Worlds

955
00:47:41,760 --> 00:47:37,900
cryptozoology as well as other

956
00:47:46,140 --> 00:47:41,770
dimensions it's time to take back the

957
00:47:49,410 --> 00:47:46,150
night last night now your electrifying

958
00:47:57,210 --> 00:47:49,420
hosts of exploring the bizarre Timothy

959
00:47:58,980 --> 00:47:57,220
Begley and team sports welcome back to

960
00:48:01,080 --> 00:47:58,990
the second power of exploring the

961
00:48:03,240 --> 00:48:01,090
bizarre I'm Tim Schwartz unfortunately

962
00:48:06,740 --> 00:48:03,250
Tim Beckley could not be with us tonight

963
00:48:09,930 --> 00:48:06,750

and we do miss him but we will try to

964

00:48:12,990 --> 00:48:09,940

carry on without him for the rest of

965

00:48:14,640 --> 00:48:13,000

this show with me is Barry Fitzgerald

966

00:48:19,460 --> 00:48:14,650

and Steve Mehra

967

00:48:22,170 --> 00:48:19,470

and we have been talking about the Nazca

968

00:48:25,100 --> 00:48:22,180

mummies but they're they're more like

969

00:48:30,480 --> 00:48:25,110

bodies as they as they pointed out and

970

00:48:34,320 --> 00:48:30,490

in the first part of this show Steve and

971

00:48:37,590 --> 00:48:34,330

Barry were talking about they're really

972

00:48:42,650 --> 00:48:37,600

fortunate opportunity to to closely

973

00:48:47,510 --> 00:48:42,660

examine these bodies several small

974

00:48:50,190 --> 00:48:47,520

versions and now they got to examine

975

00:48:54,150 --> 00:48:50,200

what was it named Maria is that what

976
00:48:59,250 --> 00:48:54,160
they call Maria who and this body was

977
00:49:00,600 --> 00:48:59,260
larger I mean then I I realized that she

978
00:49:03,360 --> 00:49:00,610
possibly could be just a little bit

979
00:49:06,330 --> 00:49:03,370
shorter just you know due to the you

980
00:49:10,110 --> 00:49:06,340
know drying out a process but she's

981
00:49:12,810 --> 00:49:10,120
definitely much taller than that then

982
00:49:18,300 --> 00:49:12,820
the smaller versions now you mentioned

983
00:49:21,200 --> 00:49:18,310
that Maria had dermal ridges did you see

984
00:49:24,870 --> 00:49:21,210
these on her toes or fingers or both oh

985
00:49:26,550 --> 00:49:24,880
yeah yeah they well did we do his nails

986
00:49:30,030 --> 00:49:26,560
on the finger it's not something that's

987
00:49:31,150 --> 00:49:30,040
unusual and of course we saw the demo

988
00:49:34,390 --> 00:49:31,160

ridging on the

989

00:49:35,800 --> 00:49:34,400

because we didn't want to yes be very

990

00:49:37,180 --> 00:49:35,810

careful in dealing with such things we

991

00:49:39,280 --> 00:49:37,190

didn't want to told you just come off in

992

00:49:42,880 --> 00:49:39,290

your hand you know sure sure

993

00:49:44,470 --> 00:49:42,890

well did did the smaller ones did did

994

00:49:46,360 --> 00:49:44,480

they have normal ridges I mean could you

995

00:49:48,610 --> 00:49:46,370

see that or were they just to dis cated

996

00:49:50,110 --> 00:49:48,620

we didn't see any form of dermal ridges

997

00:49:51,610 --> 00:49:50,120

on anything that unwrapped

998

00:49:53,260 --> 00:49:51,620

there was nothing about the small ones

999

00:49:55,750 --> 00:49:53,270

that represented anything that looked

1000

00:49:57,970 --> 00:49:55,760

like a body body as we know it as we'd

1001
00:49:59,260 --> 00:49:57,980
recognize the body until Maria was

1002
00:50:02,380 --> 00:49:59,270
actually put in front of us we

1003
00:50:06,010 --> 00:50:02,390
immediately recognize me for being in an

1004
00:50:08,680 --> 00:50:06,020
actual body plus for being humid or not

1005
00:50:11,080 --> 00:50:08,690
that's all going to DePaul down to the

1006
00:50:13,720 --> 00:50:11,090
DNA you know and the results at the end

1007
00:50:16,090 --> 00:50:13,730
of the day but we were very surprised

1008
00:50:18,250 --> 00:50:16,100
that they allowed us to to film as as

1009
00:50:20,920 --> 00:50:18,260
much as we could just as Barry said

1010
00:50:22,360 --> 00:50:20,930
earlier about the whole day about being

1011
00:50:23,500 --> 00:50:22,370
picked taught I mean when we got that

1012
00:50:24,820 --> 00:50:23,510
phone call in the early hours and

1013
00:50:27,130 --> 00:50:24,830

morning and said look you know what's

1014

00:50:29,620 --> 00:50:27,140

always going to pick us up from the

1015

00:50:31,300 --> 00:50:29,630

hotel we can't film this person we're

1016

00:50:34,240 --> 00:50:31,310

not allowed to identify the vehicle

1017

00:50:35,590 --> 00:50:34,250

we cannot film the location it was like

1018

00:50:37,090 --> 00:50:35,600

well what schools you know what's the

1019

00:50:39,190 --> 00:50:37,100

point up going what can we film you know

1020

00:50:41,350 --> 00:50:39,200

I mean we're very limited and little

1021

00:50:43,380 --> 00:50:41,360

bits that we could film and even when we

1022

00:50:46,180 --> 00:50:43,390

managed to get some bit still in the car

1023

00:50:47,410 --> 00:50:46,190

as we climbed out of Costco and headed

1024

00:50:48,550 --> 00:50:47,420

towards the mountains because we had no

1025

00:50:50,380 --> 00:50:48,560

idea where we were going

1026
00:50:51,970 --> 00:50:50,390
of course being instructed to leave our

1027
00:50:53,920 --> 00:50:51,980
cell phones behind as well I mean this

1028
00:50:55,780 --> 00:50:53,930
you can well imagine that getting a call

1029
00:50:58,710 --> 00:50:55,790
at 250 minutes past 2:00 in the morning

1030
00:51:01,120 --> 00:50:58,720
waking up going through this and I'm I

1031
00:51:06,070 --> 00:51:01,130
run it could be the way I am I just said

1032
00:51:09,160 --> 00:51:06,080
yes we'll do it and of course after the

1033
00:51:10,930 --> 00:51:09,170
phone call what we've just done and oh

1034
00:51:14,080 --> 00:51:10,940
my god you know we can't take our cell

1035
00:51:16,600 --> 00:51:14,090
phones and it was like hello

1036
00:51:18,640 --> 00:51:16,610
where we had in what's gonna happen we

1037
00:51:20,170 --> 00:51:18,650
didn't we didn't contact our partners

1038
00:51:21,460 --> 00:51:20,180

back home and tell them this you can

1039

00:51:23,860 --> 00:51:21,470

well imagine because they just would

1040

00:51:25,540 --> 00:51:23,870

have said don't do this but we'd

1041

00:51:28,570 --> 00:51:25,550

traveled halfway around the world it was

1042

00:51:30,490 --> 00:51:28,580

no and you know we have a such an

1043

00:51:32,920 --> 00:51:30,500

appetite to find out the truth about

1044

00:51:34,360 --> 00:51:32,930

such things we thought well do you know

1045

00:51:36,700 --> 00:51:34,370

we're just gonna have to go with the

1046

00:51:38,230 --> 00:51:36,710

flow and of course traveling up into

1047

00:51:40,300 --> 00:51:38,240

those mountains getting Stiller and

1048

00:51:41,980 --> 00:51:40,310

spinning in the air to the point where I

1049

00:51:44,290 --> 00:51:41,990

mean oh I thought we were

1050

00:51:46,570 --> 00:51:44,300

how come they're not actually put

1051
00:51:48,040 --> 00:51:46,580
something over our heads or blindfolded

1052
00:51:49,000 --> 00:51:48,050
us because I thought that was the next

1053
00:51:50,740 --> 00:51:49,010
thing gonna become him

1054
00:51:53,290 --> 00:51:50,750
I know that's just let see how that's

1055
00:51:55,300 --> 00:51:53,300
just what I was thinking yes and I

1056
00:51:56,859 --> 00:51:55,310
realized I realized why they didn't

1057
00:51:57,609 --> 00:51:56,869
because as soon as you get out into the

1058
00:52:00,550 --> 00:51:57,619
mountains

1059
00:52:03,940 --> 00:52:00,560
Douce nothing but just dirt past is no

1060
00:52:06,310 --> 00:52:03,950
names on roads the disaster dusty dirt

1061
00:52:08,160 --> 00:52:06,320
paths and the twist and turn and

1062
00:52:10,990 --> 00:52:08,170
separate and take a left run right and

1063
00:52:13,090 --> 00:52:11,000

we had no idea where we were it was

1064

00:52:15,940 --> 00:52:13,100

literally all the mountains and condors

1065

00:52:18,760 --> 00:52:15,950

that was it and and now of course the

1066

00:52:20,800 --> 00:52:18,770

drivers just be designed to cut your

1067

00:52:22,060 --> 00:52:20,810

recordings and of course okay we're

1068

00:52:24,190 --> 00:52:22,070

gonna have to turn the cameras off now

1069

00:52:27,070 --> 00:52:24,200

when it was literally you know on many

1070

00:52:29,440 --> 00:52:27,080

occasions we respect all up to locations

1071

00:52:31,570 --> 00:52:29,450

where you see several people staring at

1072

00:52:33,670 --> 00:52:31,580

you and Wow dog scrap in each other

1073

00:52:36,010 --> 00:52:33,680

outside from these buildings you think

1074

00:52:38,920 --> 00:52:36,020

oh my god what got yourself into and

1075

00:52:41,109 --> 00:52:38,930

bought it or as it all folded into this

1076
00:52:42,580 --> 00:52:41,119
scruffy building just suddenly transform

1077
00:52:46,870 --> 00:52:42,590
this huge he walks into this door where

1078
00:52:48,430 --> 00:52:46,880
was a perfectly cleaned bright look like

1079
00:52:50,170 --> 00:52:48,440
an operation room you know an

1080
00:52:52,420 --> 00:52:50,180
examination room it was just really

1081
00:52:53,440 --> 00:52:52,430
weird and of course we had that

1082
00:52:55,450 --> 00:52:53,450
opportunity to look through all the

1083
00:52:56,530 --> 00:52:55,460
bodies and get a get and video as much

1084
00:52:58,450 --> 00:52:56,540
as we possibly can

1085
00:53:00,430 --> 00:52:58,460
we walked away scratching our heads to

1086
00:53:02,920 --> 00:53:00,440
be honest with you you know we were

1087
00:53:05,320 --> 00:53:02,930
still scratching our heads only just no

1088
00:53:07,930 --> 00:53:05,330

idea we we were just what the hell have

1089

00:53:09,790 --> 00:53:07,940

we just seen and what you know when what

1090

00:53:11,800 --> 00:53:09,800

what what are we dealing with you know

1091

00:53:13,300 --> 00:53:11,810

it was bad enough that fact that you

1092

00:53:15,160 --> 00:53:13,310

know we're having to look over our

1093

00:53:18,040 --> 00:53:15,170

shoulder and we were and that is the

1094

00:53:21,630 --> 00:53:18,050

truth that we were paranoid because even

1095

00:53:25,480 --> 00:53:21,640

in the trip even on the trip to Peru

1096

00:53:28,720 --> 00:53:25,490

when we reached we left we left him you

1097

00:53:31,270 --> 00:53:28,730

cated and traveled to Madrid and then on

1098

00:53:35,740 --> 00:53:31,280

to Lima the capital of Peru and then up

1099

00:53:38,530 --> 00:53:35,750

to Cusco but when we have to Lima and we

1100

00:53:40,660 --> 00:53:38,540

were met by somebody who who basically

1101
00:53:42,310 --> 00:53:40,670
said because we were in conversation

1102
00:53:45,099 --> 00:53:42,320
with self from Barry and we can yeah we

1103
00:53:47,070 --> 00:53:45,109
were just talking openly about what what

1104
00:53:49,660 --> 00:53:47,080
all this stuff is about these bodies

1105
00:53:51,280 --> 00:53:49,670
immediately some somebody came over and

1106
00:53:52,960 --> 00:53:51,290
said you shouldn't be talking about that

1107
00:53:54,370 --> 00:53:52,970
you know you gotta be careful about what

1108
00:53:55,660 --> 00:53:54,380
you're talking because these there are

1109
00:53:57,640 --> 00:53:55,670
people looking

1110
00:53:59,440 --> 00:53:57,650
for those that might know information

1111
00:54:01,750 --> 00:53:59,450
about this apparently the Caribbean

1112
00:54:03,700 --> 00:54:01,760
government was seriously on this case to

1113
00:54:05,980 --> 00:54:03,710

the point where police had already done

1114

00:54:08,560 --> 00:54:05,990

several Raiders that raids of buildings

1115

00:54:11,560 --> 00:54:08,570

trying to find these these bodies and

1116

00:54:13,000 --> 00:54:11,570

also trying to find those that you know

1117

00:54:14,740 --> 00:54:13,010

we're involved with it because we're

1118

00:54:17,680 --> 00:54:14,750

looking at 10 years stretch to begin

1119

00:54:19,870 --> 00:54:17,690

with and and of course they were there a

1120

00:54:23,700 --> 00:54:19,880

mud on this because they've been so much

1121

00:54:27,010 --> 00:54:23,710

hype about this and and of course with

1122

00:54:28,450 --> 00:54:27,020

Mexican journalist Jaime miss um there's

1123

00:54:32,440 --> 00:54:28,460

been a huge amount of controversy

1124

00:54:35,350 --> 00:54:32,450

surrounding this that the the Peruvian

1125

00:54:37,420 --> 00:54:35,360

government actually you know I'd really

1126
00:54:40,300 --> 00:54:37,430
gone to town they've really trying their

1127
00:54:43,570 --> 00:54:40,310
best to find these bodies and find the

1128
00:54:45,130 --> 00:54:43,580
people the perpetrators of this raiding

1129
00:54:48,040 --> 00:54:45,140
of the tombs or whenever and where

1130
00:54:50,920 --> 00:54:48,050
they've got the boobies bodies from so

1131
00:54:53,260 --> 00:54:50,930
yeah we were looking over our shoulders

1132
00:54:55,390 --> 00:54:53,270
there were people around that seemed to

1133
00:54:58,350 --> 00:54:55,400
I don't know if it was just paranoia or

1134
00:55:01,150 --> 00:54:58,360
not but they seemed to be hanging around

1135
00:55:03,430 --> 00:55:01,160
and just just trying to over listen

1136
00:55:05,410 --> 00:55:03,440
conversations and it was it was just it

1137
00:55:06,790 --> 00:55:05,420
was just not a good environment we

1138
00:55:10,690 --> 00:55:06,800

hadn't been faced with that sort of

1139

00:55:14,860 --> 00:55:10,700

thing before um and and as as the

1140

00:55:17,170 --> 00:55:14,870

investigation process continued it we

1141

00:55:20,890 --> 00:55:17,180

were suddenly cast into this murky world

1142

00:55:24,550 --> 00:55:20,900

of the black market oh my god sharks and

1143

00:55:26,590 --> 00:55:24,560

people who want money and and this black

1144

00:55:29,320 --> 00:55:26,600

market I thought no reason you know

1145

00:55:32,020 --> 00:55:29,330

obviously the Peruvian government all

1146

00:55:33,790 --> 00:55:32,030

over this is simply because of the of

1147

00:55:35,710 --> 00:55:33,800

the magnitude how far this actually goes

1148

00:55:37,780 --> 00:55:35,720

with this rabbit hole goes very very

1149

00:55:40,960 --> 00:55:37,790

deep and of course we didn't know that

1150

00:55:43,060 --> 00:55:40,970

when we got involved in this but we

1151
00:55:44,770 --> 00:55:43,070
couldn't we were stayed in this division

1152
00:55:47,320 --> 00:55:44,780
we just couldn't get out of it yeah you

1153
00:55:49,540 --> 00:55:47,330
know and before he knew it we were we

1154
00:55:51,940 --> 00:55:49,550
were sat face-to-face with there with

1155
00:55:54,250 --> 00:55:51,950
with with a lady work for the government

1156
00:55:57,400 --> 00:55:54,260
it was commissioned to look into the

1157
00:55:59,140 --> 00:55:57,410
black market and and they've got a huge

1158
00:56:01,000 --> 00:55:59,150
problem the Peruvian government trying

1159
00:56:02,550 --> 00:56:01,010
to deal with these issues artifacts that

1160
00:56:06,280 --> 00:56:02,560
are being sold on the black market

1161
00:56:09,190 --> 00:56:06,290
illegally now we were told Maria had a

1162
00:56:11,080 --> 00:56:09,200
price tag of a million dollars

1163
00:56:12,910 --> 00:56:11,090

this is by the discoveries that wanted

1164

00:56:16,090 --> 00:56:12,920

this amount of money for its a seller

1165

00:56:19,590 --> 00:56:16,100

the smaller bodies at 25 inches were had

1166

00:56:22,510 --> 00:56:19,600

a price tag of around about \$100,000 and

1167

00:56:25,960 --> 00:56:22,520

and in fact some artifacts had already

1168

00:56:28,360 --> 00:56:25,970

been sold on the black market as little

1169

00:56:31,660 --> 00:56:28,370

as eight thousand dollars to collectors

1170

00:56:34,450 --> 00:56:31,670

in Asia so and it an apparently do

1171

00:56:36,640 --> 00:56:34,460

interest from Russia and all over these

1172

00:56:38,350 --> 00:56:36,650

different countries I thought oh my god

1173

00:56:39,820 --> 00:56:38,360

there really is a black market and of

1174

00:56:42,460 --> 00:56:39,830

course you know I don't know how that

1175

00:56:43,810 --> 00:56:42,470

works I don't know who the contacts he

1176

00:56:45,250 --> 00:56:43,820

sells very espionage and

1177

00:56:47,140 --> 00:56:45,260

cloak-and-dagger to me both sir

1178

00:56:49,510 --> 00:56:47,150

nevertheless though this is what's going

1179

00:56:50,740 --> 00:56:49,520

on and it's a massive problem for

1180

00:56:53,200 --> 00:56:50,750

Peruvian gone which they obviously

1181

00:56:54,790 --> 00:56:53,210

cannot handle there's just so much of

1182

00:56:57,310 --> 00:56:54,800

this they're so worried about losing

1183

00:56:59,080 --> 00:56:57,320

their artifacts it's such a shame but at

1184

00:57:00,940 --> 00:56:59,090

the end of the day there's a huge huge

1185

00:57:03,850 --> 00:57:00,950

amounts of money are involved and of

1186

00:57:05,440 --> 00:57:03,860

course these these discovers you can't

1187

00:57:08,050 --> 00:57:05,450

trust these discovers I mean you know

1188

00:57:10,030 --> 00:57:08,060

like like Barry said you know it you

1189

00:57:12,430 --> 00:57:10,040

know if we started pressing there were

1190

00:57:14,680 --> 00:57:12,440

threats of you know you could be shot

1191

00:57:16,180 --> 00:57:14,690

and basically important to the desert

1192

00:57:17,560 --> 00:57:16,190

and nobody'd ever find you and I

1193

00:57:18,970 --> 00:57:17,570

couldn't believe that I can absolutely

1194

00:57:21,940 --> 00:57:18,980

believe that by being up there in those

1195

00:57:23,710 --> 00:57:21,950

mountains that you feel you feel like

1196

00:57:25,780 --> 00:57:23,720

you're treading ground where no man's

1197

00:57:28,000 --> 00:57:25,790

ever tread before you know because you

1198

00:57:29,710 --> 00:57:28,010

just know civilization that's all you

1199

00:57:31,480 --> 00:57:29,720

could simply just disappear off this

1200

00:57:33,970 --> 00:57:31,490

planet and and of course we had to take

1201
00:57:35,650 --> 00:57:33,980
into consideration the wars that we had

1202
00:57:37,300 --> 00:57:35,660
when conducting this type of

1203
00:57:41,110 --> 00:57:37,310
investigation so we have to tread very

1204
00:57:44,560 --> 00:57:41,120
very carefully but Sir it did become

1205
00:57:47,260 --> 00:57:44,570
more prominent about the the problems

1206
00:57:49,720 --> 00:57:47,270
that the Peruvian government were giving

1207
00:57:52,300 --> 00:57:49,730
me album pressure in regarding these

1208
00:57:57,250 --> 00:57:52,310
discoveries when we reach Lima in the

1209
00:58:00,580 --> 00:57:57,260
capital city in Peru I'm I'm surprised

1210
00:58:02,320 --> 00:58:00,590
that after you were taken up into that

1211
00:58:03,790 --> 00:58:02,330
mountaintop location when you mate when

1212
00:58:04,870 --> 00:58:03,800
you came back that the authorities

1213
00:58:07,090 --> 00:58:04,880

didn't just you know

1214

00:58:09,430 --> 00:58:07,100

haul you in and say okay where were you

1215

00:58:11,140 --> 00:58:09,440

what happened we were at sea we were

1216

00:58:12,670 --> 00:58:11,150

thinking that might happen because we

1217

00:58:14,740 --> 00:58:12,680

thought when maybe we're being watched

1218

00:58:16,750 --> 00:58:14,750

and it sighs the case then we're gonna

1219

00:58:18,370 --> 00:58:16,760

be we're gonna be drunk then you know

1220

00:58:20,350 --> 00:58:18,380

we're gonna get them in trouble with

1221

00:58:22,089 --> 00:58:20,360

this because you know no you know we're

1222

00:58:23,680 --> 00:58:22,099

not even supposed to have

1223

00:58:26,920 --> 00:58:23,690

know where these things are let alone

1224

00:58:30,039 --> 00:58:26,930

handled them you know so and of course

1225

00:58:32,079 --> 00:58:30,049

well we were wish we have two men we

1226
00:58:34,089 --> 00:58:32,089
look alike that we were rolling when we

1227
00:58:36,279 --> 00:58:34,099
came back we were there just for that

1228
00:58:39,069 --> 00:58:36,289
night and then we got outta Dodge we

1229
00:58:41,370 --> 00:58:39,079
went we flew straight out into Lima

1230
00:58:43,930 --> 00:58:41,380
because there was a press announcement

1231
00:58:47,200 --> 00:58:43,940
the first international press

1232
00:58:48,849 --> 00:58:47,210
announcement that taken place now there

1233
00:58:50,259 --> 00:58:48,859
has been a lot of controversy about how

1234
00:58:51,880 --> 00:58:50,269
into some being involved in this

1235
00:58:55,239 --> 00:58:51,890
particular case now I just want to make

1236
00:58:58,059 --> 00:58:55,249
this clear because there's been lots of

1237
00:58:59,890 --> 00:58:58,069
other allocations about sir Jaime's had

1238
00:59:02,979 --> 00:58:59,900

these things made and all sorts of

1239

00:59:05,799 --> 00:59:02,989

things and the situation is is that when

1240

00:59:07,539 --> 00:59:05,809

these were discovered and brought to the

1241

00:59:11,650 --> 00:59:07,549

in Kerry Institute we're aware of that

1242

00:59:14,289 --> 00:59:11,660

action taking place and Gaia it picked

1243

00:59:16,569 --> 00:59:14,299

up some of the information because the

1244

00:59:18,549 --> 00:59:16,579

in Kerry Institute we're putting email

1245

00:59:21,130 --> 00:59:18,559

information about some of the work that

1246

00:59:22,989 --> 00:59:21,140

they've discovered the results some of

1247

00:59:25,749 --> 00:59:22,999

the results from the first lot of

1248

00:59:29,709 --> 00:59:25,759

analysis a guy hits upon that

1249

00:59:31,719 --> 00:59:29,719

information and guy was very interested

1250

00:59:34,170 --> 00:59:31,729

in you know you can be able to film this

1251

00:59:36,999 --> 00:59:34,180

and finding out more about Maria I

1252

00:59:38,440 --> 00:59:37,009

thought to do so they didn't have those

1253

00:59:40,660 --> 00:59:38,450

connections doing obviously some

1254

00:59:42,430 --> 00:59:40,670

language barriers which were in we've

1255

00:59:45,849 --> 00:59:42,440

struggled with language barriers whilst

1256

00:59:47,499 --> 00:59:45,859

we were there and of course that was

1257

00:59:49,690 --> 00:59:47,509

probably a concern for guys so they

1258

00:59:54,430 --> 00:59:49,700

employed the services of of hammy Mossad

1259

00:59:59,709 --> 00:59:54,440

a Jaime ma son with Gaia to being Kari

1260

01:00:02,229 --> 00:59:59,719

Institute and we had the capabilities

1261

01:00:03,880 --> 01:00:02,239

would be able to examine Maria but not

1262

01:00:05,589 --> 01:00:03,890

in the same place where we were so I

1263

01:00:07,719 --> 01:00:05,599

don't know exactly where they were at

1264

01:00:09,489 --> 01:00:07,729

that time I don't recognize where they

1265

01:00:10,900 --> 01:00:09,499

were in the video maybe it was a

1266

01:00:13,539 --> 01:00:10,910

different locations that these

1267

01:00:15,729 --> 01:00:13,549

discoveries went I had the body for them

1268

01:00:19,239 --> 01:00:15,739

to look at well how he went and he

1269

01:00:21,249 --> 01:00:19,249

looked and he's basically though we time

1270

01:00:23,950 --> 01:00:21,259

ease you know it would obviously be

1271

01:00:25,690 --> 01:00:23,960

leaned towards maybe the ETI offices

1272

01:00:27,459 --> 01:00:25,700

because the real deserves that

1273

01:00:32,019 --> 01:00:27,469

possibility of course may be slim

1274

01:00:34,059 --> 01:00:32,029

nevertheless and he would seem that you

1275

01:00:35,740 --> 01:00:34,069

know he's basically being called in to

1276

01:00:39,210 --> 01:00:35,750

just look over the body and give his

1277

01:00:43,600 --> 01:00:39,220

his opinion and of course by doing so

1278

01:00:46,990 --> 01:00:43,610

Jaime has a number of doctors that have

1279

01:00:50,410 --> 01:00:47,000

done work with him before some of these

1280

01:00:52,810 --> 01:00:50,420

are known to us and they have looked

1281

01:00:55,330 --> 01:00:52,820

over the body and pointed out a number

1282

01:00:56,950 --> 01:00:55,340

of the anomalies that we've found now

1283

01:00:59,380 --> 01:00:56,960

that's that's absolutely honest I mean

1284

01:01:02,740 --> 01:00:59,390

the there is some anomaly anatomical

1285

01:01:05,050 --> 01:01:02,750

anomalies in regard Miria absolutely and

1286

01:01:06,940 --> 01:01:05,060

they write to pit that all these doctors

1287

01:01:09,220 --> 01:01:06,950

are you know but the question remains

1288

01:01:11,080 --> 01:01:09,230

the biggest question is you know could

1289

01:01:12,880 --> 01:01:11,090

they have been doctored is there is

1290

01:01:15,790 --> 01:01:12,890

could they have been manufactured in

1291

01:01:18,490 --> 01:01:15,800

work have somebody got hold of a body

1292

01:01:22,000 --> 01:01:18,500

which apparently has been carbon-dated

1293

01:01:25,420 --> 01:01:22,010

by the way guys on to independent

1294

01:01:29,080 --> 01:01:25,430

research facilities have been something

1295

01:01:31,330 --> 01:01:29,090

like 242 490 AD medina we still think

1296

01:01:35,140 --> 01:01:31,340

that could very well possibly be around

1297

01:01:36,730 --> 01:01:35,150

about 1800 years old our body but

1298

01:01:38,770 --> 01:01:36,740

nevertheless though if suddenly has

1299

01:01:41,950 --> 01:01:38,780

located a body like that and conducted

1300

01:01:44,050 --> 01:01:41,960

these anatomical changes i is that what

1301
01:01:47,560 --> 01:01:44,060
we're looking at or is it simply that

1302
01:01:50,080 --> 01:01:47,570
she is what she is a humanoid type

1303
01:01:51,760 --> 01:01:50,090
figure that seems to have these unusual

1304
01:01:54,520 --> 01:01:51,770
anatomical difference especially being

1305
01:01:55,810 --> 01:01:54,530
three toes and three three fingers but

1306
01:01:57,850 --> 01:01:55,820
of course it doesn't help the situation

1307
01:02:00,610 --> 01:01:57,860
when you know certain people like

1308
01:02:03,190 --> 01:02:00,620
Jaime's is he's addressed to this to

1309
01:02:04,720 --> 01:02:03,200
this type of investigation and because

1310
01:02:06,940 --> 01:02:04,730
he has been involved in a number of

1311
01:02:09,850 --> 01:02:06,950
other investigations that are turned out

1312
01:02:11,410 --> 01:02:09,860
to have more mundane explanations and

1313
01:02:13,240 --> 01:02:11,420

there were lots of suspicious people out

1314

01:02:14,430 --> 01:02:13,250

there and I understand the reasons that

1315

01:02:17,290 --> 01:02:14,440

might be

1316

01:02:19,780 --> 01:02:17,300

however from we had the opportunity

1317

01:02:22,210 --> 01:02:19,790

myself and by to interview Jaime at

1318

01:02:23,920 --> 01:02:22,220

great length whilst we were in Lima we

1319

01:02:27,580 --> 01:02:23,930

were met with him at the time because a

1320

01:02:29,650 --> 01:02:27,590

big press announcement and he was quite

1321

01:02:33,190 --> 01:02:29,660

honest and saying you know he'd gone to

1322

01:02:34,600 --> 01:02:33,200

the ministry himself and said look would

1323

01:02:36,340 --> 01:02:34,610

you be interested in trying to find out

1324

01:02:37,480 --> 01:02:36,350

more work with us and of course the

1325

01:02:38,860 --> 01:02:37,490

ministry just step back from it they

1326

01:02:40,180 --> 01:02:38,870

didn't want to get involved you know

1327

01:02:43,150 --> 01:02:40,190

their own oh no no we don't we don't

1328

01:02:46,180 --> 01:02:43,160

even entertain Jaime and his team in

1329

01:02:47,800 --> 01:02:46,190

regarding and going into discussions

1330

01:02:48,980 --> 01:02:47,810

regarding these discoveries they

1331

01:02:51,380 --> 01:02:48,990

wouldn't be just did one honey

1332

01:02:55,010 --> 01:02:51,390

to deal with which is very unusual

1333

01:02:57,500 --> 01:02:55,020

because what happened the night prior to

1334

01:02:58,970 --> 01:02:57,510

the event the press announcement was

1335

01:03:01,849 --> 01:02:58,980

very interesting if you wanna ask black

1336

01:03:03,980 --> 01:03:01,859

what went on there Barry oh my god it

1337

01:03:06,859 --> 01:03:03,990

turned into a complete nightmare for us

1338

01:03:09,500 --> 01:03:06,869

and never mind anyone else who was in

1339

01:03:11,420 --> 01:03:09,510

attendance you see we we ended up

1340

01:03:13,849 --> 01:03:11,430

arriving at this hotel which was a very

1341

01:03:17,960 --> 01:03:13,859

plush hotel whether with the the press

1342

01:03:20,180 --> 01:03:17,970

conference was being held and to film in

1343

01:03:22,220 --> 01:03:20,190

a hotel we had to get permission from

1344

01:03:25,940 --> 01:03:22,230

from the hotel staff from the hotel

1345

01:03:29,329 --> 01:03:25,950

manager um and that's where our problems

1346

01:03:33,230 --> 01:03:29,339

began because it seemed that that to

1347

01:03:35,120 --> 01:03:33,240

gain permission from the hotel we also

1348

01:03:37,910 --> 01:03:35,130

had to have permission from the person

1349

01:03:40,670 --> 01:03:37,920

that organized the event now the event

1350

01:03:42,440 --> 01:03:40,680

we were there to film on behalf on for

1351

01:03:46,460 --> 01:03:42,450

the enquiry Institute who were based

1352

01:03:48,730 --> 01:03:46,470

back in Cusco so the guys arrived we got

1353

01:03:51,920 --> 01:03:48,740

permission from them I frog-marched M

1354

01:03:54,410 --> 01:03:51,930

Tre to the to the front desk ma'am

1355

01:03:57,020 --> 01:03:54,420

and it turned out that that that wasn't

1356

01:03:59,060 --> 01:03:57,030

good enough that we had to have the

1357

01:04:01,460 --> 01:03:59,070

person who footed the bill for the

1358

01:04:04,030 --> 01:04:01,470

entire event I think it was permission

1359

01:04:06,589 --> 01:04:04,040

and before they would sign the paperwork

1360

01:04:08,210 --> 01:04:06,599

now this was an international press

1361

01:04:10,339 --> 01:04:08,220

conference that was going that was

1362

01:04:12,230 --> 01:04:10,349

coming to the hotel and it seemed that

1363

01:04:16,550 --> 01:04:12,240

no one in the hotel seemed to know that

1364

01:04:20,599 --> 01:04:16,560

this was going on hmm and so as as the

1365

01:04:23,540 --> 01:04:20,609

as the the minutes ticked by and we

1366

01:04:26,660 --> 01:04:23,550

managed to find the person who had paid

1367

01:04:29,690 --> 01:04:26,670

for the entire event and told him of the

1368

01:04:32,930 --> 01:04:29,700

situation he was notably furious and

1369

01:04:36,710 --> 01:04:32,940

said of course you can film um and he

1370

01:04:40,579 --> 01:04:36,720

sent an email then to the to the hotel I

1371

01:04:44,390 --> 01:04:40,589

am authorizing us to film that wasn't

1372

01:04:47,570 --> 01:04:44,400

good enough it seems now that the hotel

1373

01:04:50,180 --> 01:04:47,580

then decided that M no you will need to

1374

01:04:52,609 --> 01:04:50,190

send an email directly through this

1375

01:04:56,030 --> 01:04:52,619

particular person our employee who has

1376

01:04:59,060 --> 01:04:56,040

been dealing with the event and the

1377

01:04:59,970 --> 01:04:59,070

secretary of this person who paid for

1378

01:05:02,730 --> 01:04:59,980

everything

1379

01:05:06,000 --> 01:05:02,740

now by this stage we were already in the

1380

01:05:08,400 --> 01:05:06,010

last day it was that morning in fact and

1381

01:05:09,839 --> 01:05:08,410

that this fiasco that this had stretched

1382

01:05:13,050 --> 01:05:09,849

out over over the course of the evening

1383

01:05:14,849 --> 01:05:13,060

um and it just got to a stage then we

1384

01:05:17,250 --> 01:05:14,859

weren't even allowed to see the room

1385

01:05:19,980 --> 01:05:17,260

that this that the function was going

1386

01:05:23,099 --> 01:05:19,990

ahead in yeah well how on earth is

1387

01:05:25,310 --> 01:05:23,109

anyone else going to attend and film in

1388

01:05:30,599 --> 01:05:25,320

an international press conference and

1389

01:05:32,310 --> 01:05:30,609

and in fact I we'd overheard a number

1390

01:05:33,839 --> 01:05:32,320

people being turned away because they

1391

01:05:36,000 --> 01:05:33,849

were coming in and asking the staff

1392

01:05:37,440 --> 01:05:36,010

where's this event and they would be

1393

01:05:38,849 --> 01:05:37,450

said well them we don't we don't know

1394

01:05:42,359 --> 01:05:38,859

what you're talking about living random

1395

01:05:44,430 --> 01:05:42,369

so this was very very suspicious we

1396

01:05:49,980 --> 01:05:44,440

noticed we noticed a stark increase in

1397

01:05:51,900 --> 01:05:49,990

security and and the hotel lobby and and

1398

01:05:54,780 --> 01:05:51,910

one of the stipulations in fact actually

1399

01:05:57,690 --> 01:05:54,790

was that that if we were granted

1400

01:06:01,319 --> 01:05:57,700

permission to film that they wanted to

1401
01:06:03,810 --> 01:06:01,329
know who we were filming and and they

1402
01:06:04,890 --> 01:06:03,820
wanted their names and they know if

1403
01:06:08,370 --> 01:06:04,900
there were going to be staying in the

1404
01:06:10,829 --> 01:06:08,380
hotel as well very very unusual requests

1405
01:06:13,710 --> 01:06:10,839
and complications that were going ahead

1406
01:06:15,329 --> 01:06:13,720
to be honest and bureaucracy was a

1407
01:06:17,069 --> 01:06:15,339
complete nightmare and I'm surprised

1408
01:06:20,670 --> 01:06:17,079
anything could be done in that country

1409
01:06:22,470 --> 01:06:20,680
with the bureaucracy but eventually of

1410
01:06:24,210 --> 01:06:22,480
course the morning came around we still

1411
01:06:27,720 --> 01:06:24,220
couldn't find the person we were told oh

1412
01:06:29,040 --> 01:06:27,730
that person will be in an Aes 7:30 7:30

1413
01:06:32,579 --> 01:06:29,050

I was at the desk

1414

01:06:34,500 --> 01:06:32,589

she didn't arrive until 8:30 8:30 came

1415

01:06:37,770 --> 01:06:34,510

the press conference mind you was

1416

01:06:39,030 --> 01:06:37,780

beginning at 10 o'clock and 8:30 came

1417

01:06:42,059 --> 01:06:39,040

she hadn't arrived

1418

01:06:45,240 --> 01:06:42,069

she'll be there at 9:30 9:30 arrived she

1419

01:06:48,089 --> 01:06:45,250

hadn't come so we just had to say right

1420

01:06:50,460 --> 01:06:48,099

to hell with this and we forced her way

1421

01:06:54,240 --> 01:06:50,470

into the into the room along with the

1422

01:06:56,520 --> 01:06:54,250

other camera man I met at and and and we

1423

01:06:59,630 --> 01:06:56,530

set up and we we filmed the press

1424

01:07:02,880 --> 01:06:59,640

conference he was on with it and there

1425

01:07:04,200 --> 01:07:02,890

it was a bit it was a logistic go back I

1426

01:07:05,970 --> 01:07:04,210

mean apart from that they've gone

1427

01:07:09,120 --> 01:07:05,980

completely locked down on the only

1428

01:07:10,950 --> 01:07:09,130

elevators that day which means that you

1429

01:07:13,180 --> 01:07:10,960

could only travel to the floor you were

1430

01:07:14,770 --> 01:07:13,190

staying on and that was I mean

1431

01:07:17,829 --> 01:07:14,780

we couldn't even go to other people's

1432

01:07:20,680 --> 01:07:17,839

rooms to interview them you know it was

1433

01:07:22,359 --> 01:07:20,690

just every single corner that we turned

1434

01:07:25,089 --> 01:07:22,369

to do his soon to be the brick wall in

1435

01:07:28,450 --> 01:07:25,099

place but Sir and then they eventually

1436

01:07:30,550 --> 01:07:28,460

after all the messing about the press

1437

01:07:32,260 --> 01:07:30,560

conference started and and then they

1438

01:07:35,620 --> 01:07:32,270

were further disturbances weirdly berry

1439

01:07:37,569 --> 01:07:35,630

oh my goodness there as soon as soon as

1440

01:07:39,730 --> 01:07:37,579

they took the podium and began to talk

1441

01:07:41,650 --> 01:07:39,740

and introduce every are welcome everyone

1442

01:07:43,720 --> 01:07:41,660

to to the press conference which was

1443

01:07:45,099 --> 01:07:43,730

packed I gotta say there were cameras

1444

01:07:56,890 --> 01:07:45,109

from everywhere right across South

1445

01:07:58,569 --> 01:07:56,900

America how did they manage to get in as

1446

01:08:01,690 --> 01:07:58,579

soon as soon as there as the press

1447

01:08:04,599 --> 01:08:01,700

conference started them from the floor

1448

01:08:07,839 --> 01:08:04,609

below us and it was like clockwork

1449

01:08:12,400 --> 01:08:07,849

from the floor below us this god-awful

1450

01:08:14,230 --> 01:08:12,410

banging this repetition ER and continued

1451
01:08:16,240 --> 01:08:14,240
through the press conference we thought

1452
01:08:18,099 --> 01:08:16,250
what on earth and actually got to a

1453
01:08:20,349 --> 01:08:18,109
stage where the press conference had to

1454
01:08:25,570 --> 01:08:20,359
be stopped because the noise was too

1455
01:08:28,450 --> 01:08:25,580
loud it was unbelievable it was faced

1456
01:08:30,459 --> 01:08:28,460
right up until the press come on during

1457
01:08:31,059 --> 01:08:30,469
the press conference he was very very

1458
01:08:33,880 --> 01:08:31,069
difficult

1459
01:08:36,309 --> 01:08:33,890
Ill by this time I actually ran off to

1460
01:08:37,900 --> 01:08:36,319
to staff numerous staff and was telling

1461
01:08:39,370 --> 01:08:37,910
him about this noise you know we didn't

1462
01:08:40,720 --> 01:08:39,380
have to deal with something people to

1463
01:08:42,579 --> 01:08:40,730

the turning all the cameras off because

1464

01:08:44,260 --> 01:08:42,589

it's going to come to a stop because we

1465

01:08:47,140 --> 01:08:44,270

can't hear anything was that loud and

1466

01:08:49,180 --> 01:08:47,150

they just looked at me you know I didn't

1467

01:08:51,189 --> 01:08:49,190

just profound looks on the face I said

1468

01:08:52,780 --> 01:08:51,199

we need some help you know and then

1469

01:08:55,570 --> 01:08:52,790

nobody seemed to none of the staff

1470

01:08:57,370 --> 01:08:55,580

seemed to give give any care or concern

1471

01:08:59,680 --> 01:08:57,380

about this so this went on for a

1472

01:09:01,920 --> 01:08:59,690

duration for 20 minutes it was brought

1473

01:09:04,990 --> 01:09:01,930

back about 20 minutes this whole event

1474

01:09:06,729 --> 01:09:05,000

until it ceased and but he was just

1475

01:09:08,849 --> 01:09:06,739

perfectly timed at the time we started

1476

01:09:11,769 --> 01:09:08,859

talking this is when this happened no

1477

01:09:15,010 --> 01:09:11,779

looking back through all this and all

1478

01:09:17,110 --> 01:09:15,020

the complications we had we can only

1479

01:09:18,700 --> 01:09:17,120

assume that they've been a considerable

1480

01:09:21,640 --> 01:09:18,710

amount we do know that that they've been

1481

01:09:23,200 --> 01:09:21,650

considerable now our pressure from the

1482

01:09:25,510 --> 01:09:23,210

Peruvian government they didn't want

1483

01:09:27,019 --> 01:09:25,520

this announcements of no ahead in fact a

1484

01:09:29,240 --> 01:09:27,029

month prior to

1485

01:09:32,240 --> 01:09:29,250

the announcement they put out in the

1486

01:09:35,419 --> 01:09:32,250

papers had a complete discrediting of

1487

01:09:39,049 --> 01:09:35,429

all this information that was all fake

1488

01:09:40,970 --> 01:09:39,059

and it was all doctored and don't

1489

01:09:43,189 --> 01:09:40,980

believe their and this was this went

1490

01:09:46,819 --> 01:09:43,199

across all the national papers in in

1491

01:09:48,769 --> 01:09:46,829

Peru and of course but come the time of

1492

01:09:50,720 --> 01:09:48,779

the event because we went out and talked

1493

01:09:52,579 --> 01:09:50,730

to the people on the streets dead no

1494

01:09:56,240 --> 01:09:52,589

coin this was happening on that I knows

1495

01:09:58,640 --> 01:09:56,250

was a nobody had any idea there been no

1496

01:10:00,439 --> 01:09:58,650

publicizing they'd be had not nobody had

1497

01:10:02,990 --> 01:10:00,449

bothered even trying to publicize this

1498

01:10:04,700 --> 01:10:03,000

event and yet you know local aid would

1499

01:10:05,779 --> 01:10:04,710

be was a massive turnout and I think

1500

01:10:07,370 --> 01:10:05,789

that could only have been through the

1501

01:10:09,410 --> 01:10:07,380

internet the process of the internet

1502

01:10:11,720 --> 01:10:09,420

because there Peru was certainly going

1503

01:10:13,089 --> 01:10:11,730

clamp down on this and it would seem

1504

01:10:15,620 --> 01:10:13,099

that maybe pressure have been applied

1505

01:10:17,930 --> 01:10:15,630

maybe a call had been put forward to me

1506

01:10:19,729 --> 01:10:17,940

to the person who runs the hotel you

1507

01:10:22,479 --> 01:10:19,739

know that we weren't going to get this

1508

01:10:24,740 --> 01:10:22,489

very easy and that was the end of that

1509

01:10:26,629 --> 01:10:24,750

all right gentlemen we need to go to our

1510

01:10:28,970 --> 01:10:26,639

bottom at the hour break so we come back

1511

01:10:31,399 --> 01:10:28,980

with continue this conversation about

1512

01:10:41,839 --> 01:10:31,409

the press conference and you listening

1513

01:10:48,569 --> 01:10:45,989

now back to exploring the bazaars with

1514

01:10:51,569 --> 01:10:48,579

two of the most electrifying researchers

1515

01:10:58,319 --> 01:10:51,579

in the Paranoid your hosts Timothy

1516

01:10:59,759 --> 01:10:58,329

beckoning Anton Swartz welcome back to

1517

01:11:02,520 --> 01:10:59,769

the final segment of exploring the

1518

01:11:06,419 --> 01:11:02,530

bazaar and we were talking about the

1519

01:11:10,169 --> 01:11:06,429

press conference from hell there in Peru

1520

01:11:13,080 --> 01:11:10,179

and so gentlemen why don't you what you

1521

01:11:15,000 --> 01:11:13,090

tell us just exactly what was discussed

1522

01:11:20,189 --> 01:11:15,010

what was this press conference about

1523

01:11:21,540 --> 01:11:20,199

what did they say that was or did they

1524

01:11:26,479 --> 01:11:21,550

say anything that was earth-shattering

1525

01:11:30,000 --> 01:11:26,489

oh let's blame that one well I gotta say

1526

01:11:31,950 --> 01:11:30,010

Tim that that we we went into this with

1527

01:11:34,459 --> 01:11:31,960

high hopes and we were thinking this is

1528

01:11:38,250 --> 01:11:34,469

it know the world is going to know em

1529

01:11:40,919 --> 01:11:38,260

and and as we watched em setting aside

1530

01:11:44,569 --> 01:11:40,929

the fiasco of the the banging from the

1531

01:11:48,089 --> 01:11:44,579

floors below and as we watched and we

1532

01:11:50,850 --> 01:11:48,099

were being shown x-rays after x-ray

1533

01:11:55,649 --> 01:11:50,860

after x-ray an opinion after opinion

1534

01:11:59,489 --> 01:11:55,659

after opinion and from from the from the

1535

01:12:02,339 --> 01:11:59,499

the specialists on the panel but nothing

1536

01:12:03,120 --> 01:12:02,349

was being discussed of DNA results and

1537

01:12:05,609 --> 01:12:03,130

let's face it

1538

01:12:08,669 --> 01:12:05,619

that's what we needed to know the whole

1539

01:12:11,279 --> 01:12:08,679

world was sitting waiting on this huge

1540

01:12:13,680 --> 01:12:11,289

press conference that was that was being

1541

01:12:15,660 --> 01:12:13,690

highlighted as being the most important

1542

01:12:20,189 --> 01:12:15,670

thing since the beginning of time and

1543

01:12:24,299 --> 01:12:20,199

and and all of a sudden it just suddenly

1544

01:12:27,359 --> 01:12:24,309

nosedived a steeper M and crashed and

1545

01:12:31,830 --> 01:12:27,369

burned because they didn't bring their

1546

01:12:34,950 --> 01:12:31,840

DNA results and that was not what we

1547

01:12:37,589 --> 01:12:34,960

thought was was a huge mistake huge

1548

01:12:40,620 --> 01:12:37,599

mistake and because if they were wanting

1549

01:12:44,459 --> 01:12:40,630

to make that impact they certainly

1550

01:12:46,799 --> 01:12:44,469

didn't do it and and and that led to a

1551

01:12:49,220 --> 01:12:46,809

lot more questions from from our side

1552

01:12:50,900 --> 01:12:49,230

because Steve and I let's face it

1553

01:12:52,850 --> 01:12:50,910

we were there we were there to find out

1554

01:12:56,240 --> 01:12:52,860

the truth we wanted to find out what

1555

01:12:58,910 --> 01:12:56,250

really was going on in and and Peru who

1556

01:13:01,760 --> 01:12:58,920

was behind us and what was happening and

1557

01:13:04,010 --> 01:13:01,770

and we we had to walk that metal grind

1558

01:13:05,780 --> 01:13:04,020

and that's something that we that we we

1559

01:13:08,360 --> 01:13:05,790

focused on specifically within the

1560

01:13:11,210 --> 01:13:08,370

documentary even and we walk that middle

1561

01:13:13,490 --> 01:13:11,220

ground and I can I can tell you that we

1562

01:13:15,500 --> 01:13:13,500

understand the situation that the

1563

01:13:18,560 --> 01:13:15,510

Peruvian government finds itself in and

1564

01:13:21,260 --> 01:13:18,570

I can sympathize because having your

1565

01:13:23,570 --> 01:13:21,270

national heritage slip across the

1566

01:13:26,360 --> 01:13:23,580

borders into other areas around the

1567

01:13:31,310 --> 01:13:26,370

world and disappear more times forever

1568

01:13:33,740 --> 01:13:31,320

is a great shame em and and I know from

1569

01:13:35,600 --> 01:13:33,750

my standpoint being Irish and if I

1570

01:13:39,290 --> 01:13:35,610

thought that was happening to our stuff

1571

01:13:40,790 --> 01:13:39,300

I would be livid absolutely furious

1572

01:13:43,460 --> 01:13:40,800

I've been determined to try and stop

1573

01:13:45,200 --> 01:13:43,470

this as well so we could understand the

1574

01:13:47,210 --> 01:13:45,210

other side we can understand that the

1575

01:13:50,270 --> 01:13:47,220

prove the the Peruvian government's need

1576

01:13:52,370 --> 01:13:50,280

to prove these effect and I might add

1577

01:13:55,130 --> 01:13:52,380

that there were that they were doing

1578

01:13:57,500 --> 01:13:55,140

this without having any analysis the

1579

01:13:59,210 --> 01:13:57,510

scientists that came together to MIT to

1580

01:14:01,280 --> 01:13:59,220

claim this was a fraud

1581

01:14:04,640 --> 01:14:01,290

base their opinions on what they could

1582

01:14:07,850 --> 01:14:04,650

scrape together off the internet now

1583

01:14:10,520 --> 01:14:07,860

this is meant to be science how on earth

1584

01:14:13,160 --> 01:14:10,530

can they make science from what they can

1585

01:14:15,710 --> 01:14:13,170

scrape from the internet mmm that's a

1586

01:14:19,520 --> 01:14:15,720

heinous act and a terrible abuse of

1587

01:14:20,750 --> 01:14:19,530

scientific protocol so although we can

1588

01:14:23,750 --> 01:14:20,760

understand the Peruvian government

1589

01:14:27,320 --> 01:14:23,760

standpoint and trying to stop and quash

1590

01:14:30,080 --> 01:14:27,330

this black market the way they did it we

1591

01:14:32,060 --> 01:14:30,090

felt was very wrong no on the other side

1592

01:14:35,030 --> 01:14:32,070

we do not approve of the work here rules

1593

01:14:38,150 --> 01:14:35,040

either em going in and grave robbing and

1594

01:14:39,860 --> 01:14:38,160

everything else but the poverty in Peru

1595

01:14:42,380 --> 01:14:39,870

is immense

1596

01:14:45,470 --> 01:14:42,390

right and this is something that we

1597

01:14:47,590 --> 01:14:45,480

can't state enough within the Western

1598

01:14:50,150 --> 01:14:47,600

society we can be quite comfortable and

1599

01:14:53,180 --> 01:14:50,160

chest as those that are doing things

1600

01:14:55,550 --> 01:14:53,190

that may be illegal and and grave

1601

01:14:59,270 --> 01:14:55,560

robbing and selling off of particular

1602

01:15:00,890 --> 01:14:59,280

items to feed families and whenever

1603

01:15:02,540 --> 01:15:00,900

you're there on the ground you see the

1604

01:15:04,700 --> 01:15:02,550

poverty in Peru

1605

01:15:07,070 --> 01:15:04,710

and it isn't a pleasant thing to see at

1606

01:15:09,560 --> 01:15:07,080

all it makes you appreciate what you

1607

01:15:11,180 --> 01:15:09,570

have at home so we can understand this

1608

01:15:14,630 --> 01:15:11,190

and we wanted to walk this middle ground

1609

01:15:17,770 --> 01:15:14,640

but what we felt the the press

1610

01:15:21,310 --> 01:15:17,780

conference did was let the world down

1611

01:15:24,110 --> 01:15:21,320

because they never brought the proof

1612

01:15:26,270 --> 01:15:24,120

yeah I have a whyever press conference

1613

01:15:28,580 --> 01:15:26,280

if you don't have the DNA evidence it

1614

01:15:30,950 --> 01:15:28,590

was a very commercial act we believe you

1615

01:15:33,010 --> 01:15:30,960

know what it is May provided some of the

1616

01:15:35,840 --> 01:15:33,020

infantry but he left the cannons at home

1617

01:15:37,870 --> 01:15:35,850

and we purpose and we said it as it is

1618

01:15:41,120 --> 01:15:37,880

we did we definitely delivered that and

1619

01:15:42,860 --> 01:15:41,130

we were very surprised we were expecting

1620

01:15:44,720 --> 01:15:42,870

you know the results and it wasn't and

1621

01:15:48,200 --> 01:15:44,730

this is the process of it seemed to have

1622

01:15:50,540 --> 01:15:48,210

been string or strung out you know like

1623

01:15:52,340 --> 01:15:50,550

just like Barry's mentioned to as many a

1624

01:15:54,890 --> 01:15:52,350

times I Dan gleam that carrot just

1625

01:15:57,080 --> 01:15:54,900

influence of everybody so that the you

1626

01:16:00,050 --> 01:15:57,090

know that keeps her interest and and a

1627

01:16:02,210 --> 01:16:00,060

dry behind this however you know we

1628

01:16:05,270 --> 01:16:02,220

might get caught short you know I mean

1629

01:16:08,270 --> 01:16:05,280

at the end of the day we were

1630

01:16:10,070 --> 01:16:08,280

commissioned so our second visit and now

1631

01:16:12,530 --> 01:16:10,080

Susie's was interesting is that we were

1632

01:16:14,060 --> 01:16:12,540

commissioned by the universities the

1633

01:16:16,690 --> 01:16:14,070

universe is that we are dealing with

1634

01:16:19,970 --> 01:16:16,700

proper universities not these back alley

1635

01:16:22,340 --> 01:16:19,980

doctors that we've often find demon with

1636

01:16:24,320 --> 01:16:22,350

many cases like this and these are the

1637

01:16:27,560 --> 01:16:24,330

top world universities and they they

1638

01:16:29,510 --> 01:16:27,570

were interested did not tell the x-rays

1639

01:16:31,910 --> 01:16:29,520

and things and they've been interested

1640

01:16:34,640 --> 01:16:31,920

you know so a second visit had to had to

1641

01:16:37,280 --> 01:16:34,650

take place and and of course what we've

1642

01:16:39,680 --> 01:16:37,290

what we've gleaned from that is an

1643

01:16:41,330 --> 01:16:39,690

amount of information which can be

1644

01:16:44,270 --> 01:16:41,340

provided to university to conduct

1645

01:16:48,350 --> 01:16:44,280

analysis and that analysis has been

1646

01:16:50,330 --> 01:16:48,360

provided by universities the world's

1647

01:16:52,490 --> 01:16:50,340

leading universities the world's leading

1648

01:16:55,400 --> 01:16:52,500

professors in DNA extraction and

1649

01:16:56,840 --> 01:16:55,410

identification and this will put what it

1650

01:16:58,910 --> 01:16:56,850

will put it to rest one way or another

1651
01:17:01,280 --> 01:16:58,920
and we are going to provide the resource

1652
01:17:04,220 --> 01:17:01,290
and just be honest and put it out there

1653
01:17:06,530 --> 01:17:04,230
and of course you know well if if it

1654
01:17:08,770 --> 01:17:06,540
should be that doctors who have been

1655
01:17:11,420 --> 01:17:08,780
involved in this have made false claims

1656
01:17:13,220 --> 01:17:11,430
then the light will be showing upon them

1657
01:17:14,690 --> 01:17:13,230
in regarding what their statements

1658
01:17:16,280 --> 01:17:14,700
because things like this cannot keep

1659
01:17:18,830 --> 01:17:16,290
keep going going going on

1660
01:17:20,510 --> 01:17:18,840
keep continuing especially when there

1661
01:17:22,460 --> 01:17:20,520
are settle crimes being committed here

1662
01:17:25,550 --> 01:17:22,470
and we understand how the Peruvian

1663
01:17:27,350 --> 01:17:25,560

government are very obsess about this

1664

01:17:30,230 --> 01:17:27,360

that we also believe that they've been

1665

01:17:31,910 --> 01:17:30,240

made a number of international calls to

1666

01:17:33,410 --> 01:17:31,920

people who have been involved because

1667

01:17:35,360 --> 01:17:33,420

they really do want to clamp down

1668

01:17:40,280 --> 01:17:35,370

they're looking for you know big they're

1669

01:17:41,960 --> 01:17:40,290

really against the the way that the

1670

01:17:44,450 --> 01:17:41,970

people have been involved in this case

1671

01:17:46,730 --> 01:17:44,460

right from the beginning have trapped

1672

01:17:48,620 --> 01:17:46,740

this and now dealing with this they're

1673

01:17:50,870 --> 01:17:48,630

very upset with them and then of course

1674

01:17:52,910 --> 01:17:50,880

you know they could be they could be

1675

01:17:58,340 --> 01:17:52,920

liable in numerous different ways and

1676

01:18:00,590 --> 01:17:58,350

however as we move into episode 2 this

1677

01:18:02,150 --> 01:18:00,600

we are going to be revealing a huge

1678

01:18:04,640 --> 01:18:02,160

amount of information and yes we've

1679

01:18:06,050 --> 01:18:04,650

already got some of our guns we are

1680

01:18:08,450 --> 01:18:06,060

going to be waiting to get all our

1681

01:18:11,300 --> 01:18:08,460

cannons and we're not unlike Jaime we

1682

01:18:14,780 --> 01:18:11,310

are going to deliver everything in one

1683

01:18:17,870 --> 01:18:14,790

fell swoop and and provide all that data

1684

01:18:19,970 --> 01:18:17,880

in one go of course there is also the

1685

01:18:21,830 --> 01:18:19,980

other side of it is that there is a

1686

01:18:24,290 --> 01:18:21,840

mystery surrounding some of these beings

1687

01:18:26,120 --> 01:18:24,300

ll there is references all around the

1688

01:18:28,340 --> 01:18:26,130

world of some of these things I believe

1689

01:18:29,570 --> 01:18:28,350

bow even Bobby still research around the

1690

01:18:33,590 --> 01:18:29,580

wilt on some of these things I believe

1691

01:18:35,500 --> 01:18:33,600

Eric yeah it's amazing um you know we we

1692

01:18:38,360 --> 01:18:35,510

think of these three fingered beings and

1693

01:18:40,850 --> 01:18:38,370

and we think owned as care Nazca Peru

1694

01:18:42,860 --> 01:18:40,860

and everything else but a lot of these

1695

01:18:46,330 --> 01:18:42,870

things actually appear closer to home

1696

01:18:49,310 --> 01:18:46,340

than what we what we initially suspected

1697

01:18:53,720 --> 01:18:49,320

and when you start going back into

1698

01:18:56,060 --> 01:18:53,730

history and what our ancestors were

1699

01:18:58,700 --> 01:18:56,070

dealing with and that's whenever we

1700

01:19:01,610 --> 01:18:58,710

start coming across these things and

1701

01:19:04,220 --> 01:19:01,620

we've been able to track these things

1702

01:19:06,500 --> 01:19:04,230

back back into back into the prehistory

1703

01:19:08,980 --> 01:19:06,510

and and it's going to be interesting

1704

01:19:11,900 --> 01:19:08,990

that this this Steve has indicated M

1705

01:19:16,010 --> 01:19:11,910

part 2 is coming folks

1706

01:19:18,440 --> 01:19:16,020

and and it's gonna be a doozy and I'm

1707

01:19:22,070 --> 01:19:18,450

absolutely thrilled to be part of it and

1708

01:19:24,250 --> 01:19:22,080

there is stuff coming and my god it's

1709

01:19:27,800 --> 01:19:24,260

going to be explosive

1710

01:19:29,720 --> 01:19:27,810

well now ok did I did I understand you

1711

01:19:33,440 --> 01:19:29,730

correctly to say that you were given

1712

01:19:38,030 --> 01:19:33,450

opportunity to take DNA samples we have

1713

01:19:40,250 --> 01:19:38,040

we have yes we we've got none properly

1714

01:19:42,860 --> 01:19:40,260

taken and documented as well because it

1715

01:19:46,100 --> 01:19:42,870

was instruction as to how and where

1716

01:19:47,720 --> 01:19:46,110

these DNA where samples were taken from

1717

01:19:49,040 --> 01:19:47,730

this is what people don't question you

1718

01:19:50,090 --> 01:19:49,050

look at results and think oh that's

1719

01:19:52,400 --> 01:19:50,100

really interesting but they don't

1720

01:19:54,650 --> 01:19:52,410

question how and where was that taken

1721

01:19:56,780 --> 01:19:54,660

from yes yeah because like like we've

1722

01:19:59,240 --> 01:19:56,790

talks with many people and even in

1723

01:20:00,860 --> 01:19:59,250

episode 2 you'll see that that we've

1724

01:20:03,710 --> 01:20:00,870

taught with specialist in how this

1725

01:20:07,040 --> 01:20:03,720

happens that we just been explained that

1726

01:20:09,410 --> 01:20:07,050

coverings on bodies can be you know can

1727

01:20:11,540 --> 01:20:09,420

be dated you know incorrectly because of

1728

01:20:13,400 --> 01:20:11,550

the covering and not the actual body you

1729

01:20:15,560 --> 01:20:13,410

know and I think just as simple as that

1730

01:20:17,510 --> 01:20:15,570

DNA extraction can take your taken from

1731

01:20:20,180 --> 01:20:17,520

somewhere where this contamination you

1732

01:20:22,520 --> 01:20:20,190

know and we were instructed where these

1733

01:20:25,010 --> 01:20:22,530

things had to be taken from to eliminate

1734

01:20:26,870 --> 01:20:25,020

those those processes where extreme you

1735

01:20:29,060 --> 01:20:26,880

could not have been any form or follow

1736

01:20:32,380 --> 01:20:29,070

them there then we would be having and

1737

01:20:36,200 --> 01:20:32,390

all that all that data is currently

1738

01:20:39,290 --> 01:20:36,210

being analyzed including the metal from

1739

01:20:43,550 --> 01:20:39,300

the hand and everything you would hair

1740

01:20:46,280 --> 01:20:43,560

samples skin samples bone samples you

1741

01:20:48,890 --> 01:20:46,290

name it the whole lot and and done in

1742

01:20:51,560 --> 01:20:48,900

such a way that the professionals about

1743

01:20:53,720 --> 01:20:51,570

the university's wanted it building and

1744

01:20:57,560 --> 01:20:53,730

and because of that reason we were going

1745

01:21:00,920 --> 01:20:57,570

to be able to reveal the the accurate

1746

01:21:02,900 --> 01:21:00,930

the real accurate DNA results on and

1747

01:21:04,460 --> 01:21:02,910

even to the point of microcon dual DNA

1748

01:21:08,150 --> 01:21:04,470

you know we will go rule really are

1749

01:21:11,630 --> 01:21:08,160

going health 11 on this well yeah that

1750

01:21:14,060 --> 01:21:11,640

that was the thing that got me thinking

1751
01:21:18,580 --> 01:21:14,070
about you know the DNA samples is that

1752
01:21:22,610 --> 01:21:18,590
you you really needed to get samples of

1753
01:21:26,450 --> 01:21:22,620
the anomalous areas on the bodies the

1754
01:21:28,520 --> 01:21:26,460
hands the feet you know anything

1755
01:21:31,220 --> 01:21:28,530
anything that is really out of their you

1756
01:21:33,229 --> 01:21:31,230
know a me as well as you know like the

1757
01:21:34,950 --> 01:21:33,239
body itself but you know just you know

1758
01:21:37,530 --> 01:21:34,960
anything that

1759
01:21:39,750 --> 01:21:37,540
appears out of the ordinary that could

1760
01:21:43,110 --> 01:21:39,760
have been you know gorilla glued on or

1761
01:21:45,920 --> 01:21:43,120
whatever you know just just to make sure

1762
01:21:48,510 --> 01:21:45,930
that you know you're dealing with an

1763
01:21:49,860 --> 01:21:48,520

actual body and not just something

1764

01:21:51,680 --> 01:21:49,870

that's just been you know piece together

1765

01:21:53,790 --> 01:21:51,690

and you know in a basement somewhere

1766

01:21:55,470 --> 01:21:53,800

well then oh that was the thing we

1767

01:21:57,630 --> 01:21:55,480

wanted to make we wanted to make sure

1768

01:22:00,630 --> 01:21:57,640

that that the that the fingers must the

1769

01:22:02,340 --> 01:22:00,640

body mm-hmm and and that was very very

1770

01:22:05,990 --> 01:22:02,350

important because these tests were not

1771

01:22:10,979 --> 01:22:06,000

being carried out and much to where our

1772

01:22:13,170 --> 01:22:10,989

disappointment and so so this is this is

1773

01:22:15,450 --> 01:22:13,180

why it's being done we want to find out

1774

01:22:19,080 --> 01:22:15,460

for sure no it's gonna go either of two

1775

01:22:20,580 --> 01:22:19,090

ways even the black market the prices in

1776

01:22:25,590 --> 01:22:20,590

the black market or on a shoot through

1777

01:22:29,370 --> 01:22:25,600

the roof and or this will bring a final

1778

01:22:32,640 --> 01:22:29,380

nail in the coffin to the to this hole

1779

01:22:36,780 --> 01:22:32,650

that this whole fiasco of these mummies

1780

01:22:41,040 --> 01:22:36,790

um and and as Steve was already pointed

1781

01:22:43,260 --> 01:22:41,050

out we're going to tell it as is and and

1782

01:22:46,320 --> 01:22:43,270

it's gonna go either of two ways for the

1783

01:22:48,660 --> 01:22:46,330

Peruvian government and so they'll be

1784

01:22:51,060 --> 01:22:48,670

watching no doubt as as as much as

1785

01:22:52,560 --> 01:22:51,070

anyone else oh yes I mean would seem

1786

01:22:55,800 --> 01:22:52,570

that they've taken a keen interest in

1787

01:22:57,540 --> 01:22:55,810

our work I'm sure there be happy so we

1788

01:23:01,410 --> 01:22:57,550

see and we're quite happy to you know to

1789

01:23:03,330 --> 01:23:01,420

work with them and you know and provide

1790

01:23:06,060 --> 01:23:03,340

them the results they want

1791

01:23:08,850 --> 01:23:06,070

initially the most important thing to

1792

01:23:10,170 --> 01:23:08,860

them is to reclaim these bodies and have

1793

01:23:12,420 --> 01:23:10,180

them being in fact the in fact they want

1794

01:23:14,550 --> 01:23:12,430

to actually you know have a place to put

1795

01:23:16,860 --> 01:23:14,560

these in some sort of Museum in Nazca

1796

01:23:19,320 --> 01:23:16,870

and we're quite happy to work with these

1797

01:23:20,820 --> 01:23:19,330

will crew being gone if we can you're

1798

01:23:22,530 --> 01:23:20,830

fortunate thing is that we don't know

1799

01:23:25,080 --> 01:23:22,540

where those were where these bodies are

1800

01:23:27,600 --> 01:23:25,090

yeah that's the real downside to it and

1801
01:23:29,970 --> 01:23:27,610
we just don't know we have no idea where

1802
01:23:31,260 --> 01:23:29,980
we were to be honest with you and I

1803
01:23:34,200 --> 01:23:31,270
think that was done obviously purposely

1804
01:23:35,940 --> 01:23:34,210
so what we could backtrack because there

1805
01:23:37,350 --> 01:23:35,950
is always that problem of us spilling

1806
01:23:39,600 --> 01:23:37,360
the beans should be taken Korean

1807
01:23:43,709 --> 01:23:39,610
government as we do believe you know

1808
01:23:46,290 --> 01:23:43,719
Maria is degra gating she's she's slowly

1809
01:23:48,569 --> 01:23:46,300
disappearing unfortunately and you know

1810
01:23:51,689 --> 01:23:48,579
from the first time we saw her appear

1811
01:23:53,159 --> 01:23:51,699
the gaia videos - when we last saw her

1812
01:23:56,520 --> 01:23:53,169
or barry was the last probably last

1813
01:23:58,589 --> 01:23:56,530

person to see Maria she was from

1814

01:24:02,189 --> 01:23:58,599

differences weren't Liberec there was

1815

01:24:03,779 --> 01:24:02,199

yeah yeah we can see those on the the

1816

01:24:05,399 --> 01:24:03,789

elbows the shoulders and things like

1817

01:24:07,349 --> 01:24:05,409

that we could see that that's starting

1818

01:24:10,469 --> 01:24:07,359

to slip through the way that she's being

1819

01:24:13,250 --> 01:24:10,479

preserved is it's it's not right mm it

1820

01:24:17,279 --> 01:24:13,260

needs to be dealt with immediately and

1821

01:24:22,739 --> 01:24:17,289

and and there's this this dragging of

1822

01:24:26,579 --> 01:24:22,749

feet um for whatever purpose by by

1823

01:24:29,459 --> 01:24:26,589

others and on the results is not going

1824

01:24:30,869 --> 01:24:29,469

to caught up with us and in fact I gotta

1825

01:24:34,879 --> 01:24:30,879

say we've become exceptionally

1826
01:24:39,629 --> 01:24:34,889
passionate about us and and driven to

1827
01:24:43,259 --> 01:24:39,639
bring the results forward and and get

1828
01:24:48,029 --> 01:24:43,269
that body and placed where it needs to

1829
01:24:51,839 --> 01:24:48,039
be yeah well it I I tell I'm happy that

1830
01:24:54,750 --> 01:24:51,849
you were also able to get samples of the

1831
01:24:58,319 --> 01:24:54,760
metal that was that was on these bodies

1832
01:25:03,409 --> 01:24:58,329
because you know to me that that part's

1833
01:25:05,969 --> 01:25:03,419
really intriguing because especially the

1834
01:25:08,639 --> 01:25:05,979
what looks to be you know like two

1835
01:25:12,419 --> 01:25:08,649
circles you know and then a bar crossed

1836
01:25:14,879 --> 01:25:12,429
on the on the one bodies chest I mean

1837
01:25:16,649 --> 01:25:14,889
they're not really that apparent just

1838
01:25:20,609 --> 01:25:16,659

eyeballing them but you you know you see

1839

01:25:21,929 --> 01:25:20,619

them clearly and in the x-rays so you

1840

01:25:25,199 --> 01:25:21,939

know it's just it's just you know

1841

01:25:29,489 --> 01:25:25,209

another unusual aspect about this and as

1842

01:25:32,279 --> 01:25:29,499

ed as well I'm I'm surprised actually

1843

01:25:34,889 --> 01:25:32,289

that they allowed you to take these

1844

01:25:37,349 --> 01:25:34,899

samples take DNA samples to samples of

1845

01:25:41,189 --> 01:25:37,359

the metal you know because you think

1846

01:25:43,739 --> 01:25:41,199

that if they were if somebody was trying

1847

01:25:44,699 --> 01:25:43,749

to put off a you know a hoax and you

1848

01:25:46,770 --> 01:25:44,709

know I'm gonna stay in the middle

1849

01:25:48,899 --> 01:25:46,780

grounds hear about this you wouldn't

1850

01:25:51,239 --> 01:25:48,909

think that they would have allowed you

1851
01:25:52,829 --> 01:25:51,249
to do that because that you know that

1852
01:25:54,810 --> 01:25:52,839
would quickly just you know apparently

1853
01:25:59,009 --> 01:25:54,820
just reveal you know like oh yeah this

1854
01:26:00,779 --> 01:25:59,019
is no good cross our mind I think we

1855
01:26:02,430 --> 01:26:00,789
managed to get ourselves into a prime

1856
01:26:04,050 --> 01:26:02,440
position of being up

1857
01:26:06,390 --> 01:26:04,060
basically putting their backs up against

1858
01:26:08,070 --> 01:26:06,400
the wall you know we used to say look

1859
01:26:11,100 --> 01:26:08,080
you know this is we are gonna end this

1860
01:26:13,440 --> 01:26:11,110
for you if we don't we don't get DNA

1861
01:26:15,510 --> 01:26:13,450
analysis it's as simple as that you know

1862
01:26:17,610 --> 01:26:15,520
because if we it can't go on if you

1863
01:26:19,650 --> 01:26:17,620

start it will publicize the fact that we

1864

01:26:21,690 --> 01:26:19,660

will will not be allowed to actually

1865

01:26:23,700 --> 01:26:21,700

take samples we'll put it out there and

1866

01:26:25,290 --> 01:26:23,710

that will be the end of it you know

1867

01:26:27,300 --> 01:26:25,300

because I think it'll surely decrease

1868

01:26:29,700 --> 01:26:27,310

the value on the black market if people

1869

01:26:31,500 --> 01:26:29,710

think start to think that oh I'm dealing

1870

01:26:33,930 --> 01:26:31,510

with a fake here you know and of course

1871

01:26:36,690 --> 01:26:33,940

I can understand that you know being

1872

01:26:38,310 --> 01:26:36,700

probably problematic for them and so we

1873

01:26:40,530 --> 01:26:38,320

kind of backed them backed into a corner

1874

01:26:43,770 --> 01:26:40,540

really I think they've gone as far as

1875

01:26:46,320 --> 01:26:43,780

they could at that time and for it to go

1876

01:26:48,660 --> 01:26:46,330

on any further yeah to deliver some new

1877

01:26:50,480 --> 01:26:48,670

information and probably hope that we

1878

01:26:52,530 --> 01:26:50,490

were going to use maybe some back-alley

1879

01:26:54,720 --> 01:26:52,540

doctors somewhere which would probably

1880

01:26:57,210 --> 01:26:54,730

say oh well you know it's inconclusive

1881

01:26:58,920 --> 01:26:57,220

now as far as I'm concerned inconclusive

1882

01:27:00,480 --> 01:26:58,930

means that well you know is just it's

1883

01:27:02,520 --> 01:27:00,490

just not good enough sample it's taken

1884

01:27:04,470 --> 01:27:02,530

but so many other people inconclusive

1885

01:27:05,970 --> 01:27:04,480

means oh my god it's unidentifiable and

1886

01:27:08,460 --> 01:27:05,980

it's an alien mmm

1887

01:27:10,980 --> 01:27:08,470

this is how people think since I'm stone

1888

01:27:12,390 --> 01:27:10,990

and and the problem is is for them is

1889

01:27:14,640 --> 01:27:12,400

that you know they want to make sure

1890

01:27:16,800 --> 01:27:14,650

that Maria house keeps her value because

1891

01:27:19,110 --> 01:27:16,810

they're looking to sell her and to do

1892

01:27:22,200 --> 01:27:19,120

that and now with the pressure that's on

1893

01:27:23,580 --> 01:27:22,210

them it's gone so far is that I think

1894

01:27:25,610 --> 01:27:23,590

they were backed into a corner of having

1895

01:27:27,480 --> 01:27:25,620

to have the hell I was to do that and

1896

01:27:29,040 --> 01:27:27,490

keeping their fingers crossed that

1897

01:27:30,840 --> 01:27:29,050

something you know inconclusive will

1898

01:27:32,970 --> 01:27:30,850

come back probably what we don't realize

1899

01:27:34,620 --> 01:27:32,980

is that we've used the best universities

1900

01:27:37,110 --> 01:27:34,630

in the world and the best professors in

1901

01:27:39,240 --> 01:27:37,120

DNA extraction you know these guys do

1902

01:27:40,860 --> 01:27:39,250

this for a living day in day out and in

1903

01:27:44,790 --> 01:27:40,870

fact some of the people are involved in

1904

01:27:47,820 --> 01:27:44,800

this are being you know involved in the

1905

01:27:49,920 --> 01:27:47,830

the most significant cases which have

1906

01:27:52,350 --> 01:27:49,930

been documented in regarding DNA

1907

01:27:54,540 --> 01:27:52,360

analysis throughout the world so where

1908

01:27:56,760 --> 01:27:54,550

and even to the point of utilizing new

1909

01:27:59,280 --> 01:27:56,770

technology and DNA analysis we were

1910

01:28:01,950 --> 01:27:59,290

blown away the day before yesterday with

1911

01:28:04,350 --> 01:28:01,960

new information of some form of DNA

1912

01:28:07,470 --> 01:28:04,360

growth and extraction that the planning

1913

01:28:09,690 --> 01:28:07,480

on doing which is completely you know it

1914

01:28:12,750 --> 01:28:09,700

is cutting-edge science which not many

1915

01:28:15,180 --> 01:28:12,760

people know even exists and we you know

1916

01:28:16,260 --> 01:28:15,190

whatever they deliver is going to be the

1917

01:28:17,520 --> 01:28:16,270

results I doubting

1918

01:28:20,880 --> 01:28:17,530

very much that they'll come back

1919

01:28:23,760 --> 01:28:20,890

inconclusive because the amount of of

1920

01:28:26,640 --> 01:28:23,770

DNA was obtained and the process of evil

1921

01:28:28,490 --> 01:28:26,650

he was taken from and they guided us the

1922

01:28:32,900 --> 01:28:28,500

whole way through that process so I

1923

01:28:35,910 --> 01:28:32,910

think we'll deliver real concrete

1924

01:28:38,370 --> 01:28:35,920

results when we when we get them

1925

01:28:42,210 --> 01:28:38,380

important make me than public look I

1926

01:28:44,940 --> 01:28:42,220

gotta say that that we do already we do

1927

01:28:48,120 --> 01:28:44,950

know some things and but we're not gonna

1928

01:28:50,550 --> 01:28:48,130

make the same mistake as best conference

1929

01:28:53,960 --> 01:28:50,560

we will hold everything and we release

1930

01:28:55,650 --> 01:28:53,970

we will release it all at the same time

1931

01:28:57,930 --> 01:28:55,660

good for you

1932

01:29:00,270 --> 01:28:57,940

now I know that you know you you can't

1933

01:29:04,890 --> 01:29:00,280

get this from the DNA but I mean did you

1934

01:29:06,750 --> 01:29:04,900

get samples to possibly get a real

1935

01:29:08,400 --> 01:29:06,760

carbon dating you know on these bodies

1936

01:29:10,110 --> 01:29:08,410

tell you you had mentioned before that

1937

01:29:12,990 --> 01:29:10,120

these bodies could be you know like a

1938

01:29:15,150 --> 01:29:13,000

little bit less than 2,000 years old but

1939

01:29:17,370 --> 01:29:15,160

what were the sources you know obvious

1940

01:29:20,940 --> 01:29:17,380

of this carbon dating I mean you know we

1941

01:29:22,860 --> 01:29:20,950

just can't take their the word no the

1942

01:29:25,020 --> 01:29:22,870

first form of analysis was put together

1943

01:29:27,720 --> 01:29:25,030

by the encou Institute trying to gather

1944

01:29:30,240 --> 01:29:27,730

as some evidence it was only minor parts

1945

01:29:32,610 --> 01:29:30,250

of DNA analysis the very basic stuff as

1946

01:29:34,830 --> 01:29:32,620

far as our professors are concerned but

1947

01:29:36,810 --> 01:29:34,840

then we have to question everything it's

1948

01:29:38,850 --> 01:29:36,820

been put out on there so far the other

1949

01:29:41,220 --> 01:29:38,860

doctors statements the analysis has been

1950

01:29:43,410 --> 01:29:41,230

carried out on results we have to

1951

01:29:44,790 --> 01:29:43,420

question everything you know because we

1952

01:29:46,560 --> 01:29:44,800

just don't know the sincerity you

1953

01:29:47,610 --> 01:29:46,570

actually do some research into some of

1954

01:29:49,590 --> 01:29:47,620

the doctors and people have been

1955

01:29:51,180 --> 01:29:49,600

involved in this you know you it becomes

1956

01:29:53,280 --> 01:29:51,190

a little bit questionable you know in

1957

01:29:55,980 --> 01:29:53,290

regarding how credible are these some of

1958

01:29:57,900 --> 01:29:55,990

these people and of course how much sure

1959

01:29:59,640 --> 01:29:57,910

how much knowledge do you really have

1960

01:30:01,800 --> 01:29:59,650

you know another you know positions be

1961

01:30:04,290 --> 01:30:01,810

able to provide concrete evidence you

1962

01:30:06,540 --> 01:30:04,300

know which is legitimate so we wiggle

1963

01:30:08,430 --> 01:30:06,550

even a question we the good thing is is

1964

01:30:10,920 --> 01:30:08,440

that we have all their results as well

1965

01:30:12,630 --> 01:30:10,930

and we are we will cross examine their

1966

01:30:13,890 --> 01:30:12,640

results with our results and of course

1967

01:30:15,690 --> 01:30:13,900

our professors have already stepped

1968

01:30:18,900 --> 01:30:15,700

forward and said we are quite happy to

1969

01:30:20,640 --> 01:30:18,910

tell you exactly you know the difference

1970

01:30:22,560 --> 01:30:20,650

between theirs and ours should there be

1971

01:30:24,930 --> 01:30:22,570

in it you know and we'll certainly pull

1972

01:30:26,730 --> 01:30:24,940

that and and what's that's what's going

1973

01:30:29,610 --> 01:30:26,740

to be really interesting is the fact is

1974

01:30:36,230 --> 01:30:29,620

that there is I believe

1975

01:30:41,550 --> 01:30:38,310

but it is what it is at the under

1976

01:30:44,070 --> 01:30:41,560

debating and what we will and like Bobby

1977

01:30:46,260 --> 01:30:44,080

said we'd become very passionate you

1978

01:30:48,600 --> 01:30:46,270

know it's gone on far too long this you

1979

01:30:51,300 --> 01:30:48,610

know Maria needs to she's a real person

1980

01:30:52,650 --> 01:30:51,310

at some point you know and she needs to

1981

01:30:55,290 --> 01:30:52,660

be looked after she needs to be treated

1982

01:30:57,570 --> 01:30:55,300

accordingly and the Peruvian government

1983

01:30:59,940 --> 01:30:57,580

really do need to have her you know

1984

01:31:01,920 --> 01:30:59,950

exactly even if it's just a phone call

1985

01:31:03,780 --> 01:31:01,930

and say pick up a ax you know how did

1986

01:31:05,310 --> 01:31:03,790

anything you know it just just that

1987

01:31:10,680 --> 01:31:05,320

needs to be resolved as soon as possible

1988

01:31:13,200 --> 01:31:10,690

so now are you are you hoping to present

1989

01:31:15,540 --> 01:31:13,210

these results in a press conference or

1990

01:31:18,770 --> 01:31:15,550

in the second part of your documentary

1991

01:31:22,170 --> 01:31:18,780

you know how are you gonna put this out

1992

01:31:27,470 --> 01:31:22,180

Tommy well and we're working we're

1993

01:31:29,580 --> 01:31:27,480

working and diligently on part two and

1994

01:31:31,980 --> 01:31:29,590

considering how long it took us to get

1995

01:31:34,890 --> 01:31:31,990

part one out and which was record time

1996

01:31:38,700 --> 01:31:34,900

and we intend to be doing the same for

1997

01:31:41,550 --> 01:31:38,710

part two and because we don't want we

1998

01:31:44,700 --> 01:31:41,560

want everyone to have access to this and

1999

01:31:45,900 --> 01:31:44,710

everyone should know it and and and

2000

01:31:48,900 --> 01:31:45,910

we're not holding we're not holding

2001

01:31:50,940 --> 01:31:48,910

anything back so definitely the main the

2002

01:31:55,800 --> 01:31:50,950

main focus for us is going to be part

2003

01:31:59,430 --> 01:31:55,810

two of the documentary and any any rough

2004

01:32:06,810 --> 01:31:59,440

idea of when this when this might be

2005

01:32:08,490 --> 01:32:06,820

completed the second of July I think

2006

01:32:10,320 --> 01:32:08,500

we're probably looking around about the

2007

01:32:13,050 --> 01:32:10,330

turnaround probably around about three

2008

01:32:15,180 --> 01:32:13,060

weeks you know and the real well we

2009

01:32:16,860 --> 01:32:15,190

should we have a very quick turnaround

2010

01:32:19,470 --> 01:32:16,870

because we want this information

2011

01:32:21,810 --> 01:32:19,480

delivered as soon as we possibly can and

2012

01:32:23,040 --> 01:32:21,820

what's good is is that I mean we have

2013

01:32:26,550 --> 01:32:23,050

some wonderful responses regarding

2014

01:32:28,320 --> 01:32:26,560

documents because you know there is no

2015

01:32:30,690 --> 01:32:28,330

storyboard there is no cloning you know

2016

01:32:32,280 --> 01:32:30,700

it was literally berries puts a camera

2017

01:32:33,720 --> 01:32:32,290

on me and I'll just try and explain the

2018

01:32:35,820 --> 01:32:33,730

best that can what the hell's going on

2019

01:32:38,910 --> 01:32:35,830

you know and that's because it's very

2020

01:32:42,060 --> 01:32:38,920

raw and I think people will obviously

2021

01:32:43,260 --> 01:32:42,070

see that we'll get the full picture to

2022

01:32:45,180 --> 01:32:43,270

it's not just about

2023

01:32:47,400 --> 01:32:45,190

investigating things like this it's

2024

01:32:50,280 --> 01:32:47,410

trying to deal with the language

2025

01:32:52,920 --> 01:32:50,290

barriers is trying to deal honestly so

2026

01:32:55,710 --> 01:32:52,930

much corruption which is which is going

2027

01:32:57,990 --> 01:32:55,720

on from surprisingly numerous different

2028

01:33:01,710 --> 01:32:58,000

directions which we were surprised to

2029

01:33:04,350 --> 01:33:01,720

find that you don't trust anybody you

2030

01:33:06,630 --> 01:33:04,360

know and of course the whole point is is

2031

01:33:08,880 --> 01:33:06,640

just to completely eliminate into that

2032

01:33:10,710 --> 01:33:08,890

glass of water that we have knowledge

2033

01:33:13,380 --> 01:33:10,720

that we've gathered so far on this case

2034

01:33:15,660 --> 01:33:13,390

just empty the whole thing go and just

2035

01:33:18,630 --> 01:33:15,670

do this right from scratch in a proper

2036

01:33:20,340 --> 01:33:18,640

manner and get the right results and I

2037

01:33:21,180 --> 01:33:20,350

think we're looking at acquit we're

2038

01:33:22,920 --> 01:33:21,190

going to be looking at a quick

2039

01:33:25,470 --> 01:33:22,930

turnaround we probably what we are

2040

01:33:28,830 --> 01:33:25,480

looking to do a press announcement as

2041

01:33:30,870 --> 01:33:28,840

well with the information and and that

2042

01:33:32,790 --> 01:33:30,880

will actually come just after probably

2043

01:33:35,520 --> 01:33:32,800

after the the second part of the

2044

01:33:37,920 --> 01:33:35,530
