

# EXPLORING THE BIZARRE

# LOST CULTURES

1  
00:00:37,470 --> 00:00:21,840

[Music]

2  
00:00:44,430 --> 00:00:41,770

explode the bazaars are your e-ticket

3  
00:00:47,710 --> 00:00:44,440

ride into the world of the paranoid

4  
00:00:52,020 --> 00:00:47,720

strap yourself in as we traverse the

5  
00:00:55,140 --> 00:00:52,030

universe exploring the unexplained UFO s

6  
00:00:57,520 --> 00:00:55,150

ghosts Lost Worlds

7  
00:01:01,360 --> 00:00:57,530

cryptozoology waters as well as other

8  
00:01:06,400 --> 00:01:01,370

dimensions it's time to take back the

9  
00:01:09,430 --> 00:01:06,410

night night now your electrifying hosts

10  
00:01:17,870 --> 00:01:09,440

of exploring the bizarre Timothy Beckley

11  
00:01:17,880 --> 00:01:21,170

Oh

12  
00:01:29,840 --> 00:01:24,830

oh my oh my god what is that what does

13  
00:01:32,870 --> 00:01:29,850

that sound that also pressure it's it's

14

00:01:35,859 --> 00:01:32,880

pushing into the ground oh my goodness I

15

00:01:39,230 --> 00:01:35,869

can't I can't get up I I can't get I

16

00:01:41,960 --> 00:01:39,240

can't move I'm out here you're

17

00:01:44,510 --> 00:01:41,970

Stonehenge ooh there's a big flap going

18

00:01:47,539 --> 00:01:44,520

on it's that awful thing it's a thing in

19

00:01:51,020 --> 00:01:47,549

the sky over warminster oh my goodness

20

00:01:57,169 --> 00:01:51,030

Tim Jim they're gonna get us yet one of

21

00:02:02,809 --> 00:01:57,179

these days oh hi Tim you're now going to

22

00:02:05,029 --> 00:02:02,819

be made into a crop circle to the

23

00:02:07,399 --> 00:02:05,039

official Tim Beckley crop circle well

24

00:02:10,729 --> 00:02:07,409

you know I just had we're going to be

25

00:02:14,090 --> 00:02:10,739

talking a lot about Stonehenge and ley

26  
00:02:17,020 --> 00:02:14,100  
lines tonight and dowsing and you know

27  
00:02:21,380 --> 00:02:17,030  
and I had a very remarkable experience

28  
00:02:24,710 --> 00:02:21,390  
back in the early 1980s in the town of

29  
00:02:26,630 --> 00:02:24,720  
warminster with well some people called

30  
00:02:31,520 --> 00:02:26,640  
it the thing and it first started on

31  
00:02:34,670 --> 00:02:31,530  
Christmas morning when this gal this

32  
00:02:37,610 --> 00:02:34,680  
lady was on her way to church and she

33  
00:02:40,190 --> 00:02:37,620  
heard this like sound in the sky like a

34  
00:02:42,140 --> 00:02:40,200  
she said a thousand bees and she was

35  
00:02:44,259 --> 00:02:42,150  
thrown to the ground and and she

36  
00:02:46,880 --> 00:02:44,269  
couldn't get it couldn't get up and

37  
00:02:49,970 --> 00:02:46,890  
later that day it turned out that

38  
00:02:52,550 --> 00:02:49,980

several people had seen this UFO in the

39

00:02:55,280 --> 00:02:52,560

sky and they called it the thing now I

40

00:02:58,039 --> 00:02:55,290

was invited by you know my friend the

41

00:03:00,259 --> 00:02:58,049

later Earl of Clan Carney Brinsley the

42

00:03:02,150 --> 00:03:00,269

port wrench to give a little impromptu

43

00:03:06,650 --> 00:03:02,160

off-the-record talk at the House of

44

00:03:09,280 --> 00:03:06,660

Lords unofficial UFO a group and after I

45

00:03:11,930 --> 00:03:09,290

spent the day at the House of Lords and

46

00:03:15,319 --> 00:03:11,940

the evening with the bridging of the

47

00:03:17,660 --> 00:03:15,329

port wrench I decided to take a train

48

00:03:19,970 --> 00:03:17,670

out to Stonehenge because it is a major

49

00:03:24,020 --> 00:03:19,980

attraction of course and anybody who's

50

00:03:26,240 --> 00:03:24,030

into 14 phenomena and metaphysics and

51  
00:03:29,750 --> 00:03:26,250  
UFOs and well certainly has to spend at

52  
00:03:31,550 --> 00:03:29,760  
least one afternoon there and after

53  
00:03:35,479 --> 00:03:31,560  
visiting the Stonehenge

54  
00:03:37,390 --> 00:03:35,489  
decided to check in with my main bud a

55  
00:03:40,339 --> 00:03:37,400  
fella by the name of Arthur shuttle one

56  
00:03:42,620 --> 00:03:40,349  
who's booked a UFO prophecy Tim we had

57  
00:03:45,350 --> 00:03:42,630  
published here in the United States and

58  
00:03:47,660 --> 00:03:45,360  
he was the editor of the local daily

59  
00:03:50,240 --> 00:03:47,670  
newspaper in Warminster journal and he

60  
00:03:53,449 --> 00:03:50,250  
had started out as a skeptic as far as

61  
00:03:56,509 --> 00:03:53,459  
UFOs go but in the short period of time

62  
00:03:58,550 --> 00:03:56,519  
and with all the eyewitness testimony he

63  
00:04:01,130 --> 00:03:58,560

was privy to he began to realize that

64

00:04:05,210 --> 00:04:01,140

people were indeed seeing and hearing

65

00:04:09,770 --> 00:04:05,220

something very strange over this town so

66

00:04:11,720 --> 00:04:09,780

I went out there to visit with him we

67

00:04:17,150 --> 00:04:11,730

had the Indian food for dinner and

68

00:04:21,440 --> 00:04:17,160

joined up with the Arthur uh strong Bob

69

00:04:24,710 --> 00:04:21,450

strong I'm sorry who was the retired RAF

70

00:04:26,719 --> 00:04:24,720

pilot who had taken Oh dozens and dozens

71

00:04:28,940 --> 00:04:26,729

of photographs he had a great scrapbook

72

00:04:31,100 --> 00:04:28,950

full of just pictures of all kinds of

73

00:04:32,629 --> 00:04:31,110

weird things in the sky you talk about

74

00:04:34,580 --> 00:04:32,639

strange phenomena well this was

75

00:04:37,400 --> 00:04:34,590

everything from my giant back to a

76  
00:04:40,850 --> 00:04:37,410  
freight train going by you know he would

77  
00:04:43,700 --> 00:04:40,860  
mount the telescope on the the hood of

78  
00:04:44,990 --> 00:04:43,710  
his car and sit out there till you know

79  
00:04:46,190 --> 00:04:45,000  
after midnight taking all these

80  
00:04:48,590 --> 00:04:46,200  
photographs and some of them were very

81  
00:04:51,260 --> 00:04:48,600  
remarkable unfortunately most of his

82  
00:04:53,690 --> 00:04:51,270  
photographs were borrowed and never

83  
00:04:55,490 --> 00:04:53,700  
returned so when he did show me his

84  
00:04:57,620 --> 00:04:55,500  
scrapbook it was half empty at that

85  
00:04:59,930 --> 00:04:57,630  
point but no we did mat it we did manage

86  
00:05:03,610 --> 00:04:59,940  
to to publish a few of his photographs

87  
00:05:06,950 --> 00:05:03,620  
and this updated edition of a UFO

88  
00:05:10,129 --> 00:05:06,960

prophecy that we just came out with less

89

00:05:12,469 --> 00:05:10,139

than a year ago anyway with our Arthur

90

00:05:15,110 --> 00:05:12,479

shuttle with at my side we saw this

91

00:05:18,350 --> 00:05:15,120

object in the sky that looked kind of

92

00:05:21,230 --> 00:05:18,360

like a well Alea what would you call the

93

00:05:22,909 --> 00:05:21,240

lit globe except it was small I mean it

94

00:05:25,850 --> 00:05:22,919

wasn't that you know it wasn't that

95

00:05:27,650 --> 00:05:25,860

close but Arthur thought that it was one

96

00:05:30,500 --> 00:05:27,660

of them it was one of the these

97

00:05:32,450 --> 00:05:30,510

intelligent objects that had even landed

98

00:05:35,060 --> 00:05:32,460

on several occasions in the field there

99

00:05:38,240 --> 00:05:35,070

so he said let's see what happens if we

100

00:05:40,580 --> 00:05:38,250

flash a a torch light a giant flashlight

101  
00:05:42,740 --> 00:05:40,590  
and see if the object will respond well

102  
00:05:45,590 --> 00:05:42,750  
sure enough he has me the this

103  
00:05:47,180 --> 00:05:45,600  
flashlight and I started blinking no

104  
00:05:49,700 --> 00:05:47,190  
Morse code or anything but blink blink

105  
00:05:52,550 --> 00:05:49,710  
blink and every time I would blink to

106  
00:05:56,030 --> 00:05:52,560  
light at it it would seem to respond in

107  
00:06:00,920 --> 00:05:56,040  
some sort of intelligent manner almost

108  
00:06:04,420 --> 00:06:00,930  
as if it knew what we were doing I mean

109  
00:06:08,060 --> 00:06:04,430  
obviously it had it had seen our

110  
00:06:09,950 --> 00:06:08,070  
signaling so i thats the the one night I

111  
00:06:12,500 --> 00:06:09,960  
do believe that I can actually say in

112  
00:06:16,580 --> 00:06:12,510  
earnest that I did communicate with a

113  
00:06:19,420 --> 00:06:16,590

UFO whatever a UFO might be in fact I

114

00:06:22,100 --> 00:06:19,430

know there are many people of course in

115

00:06:23,990 --> 00:06:22,110

the town of warminster there who thought

116

00:06:27,250 --> 00:06:24,000

that these were they were being visited

117

00:06:30,680 --> 00:06:27,260

by spaceships but there are other

118

00:06:34,790 --> 00:06:30,690

opinions and I know that both the doctor

119

00:06:38,840 --> 00:06:34,800

Greg little and myself don't necessarily

120

00:06:42,430 --> 00:06:38,850

accept the ETH hypothesis we think that

121

00:06:44,810 --> 00:06:42,440

they are more paranormal or psychic in

122

00:06:47,930 --> 00:06:44,820

design and so we're going to get into

123

00:06:49,940 --> 00:06:47,940

that tonight Tim and I I guess you've

124

00:06:52,280 --> 00:06:49,950

been interested in in the ley lines and

125

00:06:54,470 --> 00:06:52,290

dowsing and all these ancient monuments

126

00:06:58,040 --> 00:06:54,480

and all for quite a while yourself

127

00:07:03,290 --> 00:06:58,050

oh yes yes for a long time the the whole

128

00:07:07,730 --> 00:07:03,300

idea of dowsing has has been fascinating

129

00:07:09,110 --> 00:07:07,740

to me and I'll tell you this this quick

130

00:07:12,530 --> 00:07:09,120

story because I know we want to get to

131

00:07:13,700 --> 00:07:12,540

our guests but earlier this year the the

132

00:07:16,970 --> 00:07:13,710

people who live across the street from

133

00:07:20,000 --> 00:07:16,980

me had put in a swimming pool and they

134

00:07:22,910 --> 00:07:20,010

had trouble with with drainage they were

135

00:07:25,040 --> 00:07:22,920

trying to locate an older drainage pipe

136

00:07:28,130 --> 00:07:25,050

that that ran from the back of their

137

00:07:31,190 --> 00:07:28,140

yard and then through their front yard

138

00:07:34,070 --> 00:07:31,200

and then finally into the the water

139

00:07:36,170 --> 00:07:34,080

system under the under the street they

140

00:07:38,660 --> 00:07:36,180

couldn't locate it and so they hired

141

00:07:41,120 --> 00:07:38,670

local contractors to try to find it and

142

00:07:42,770 --> 00:07:41,130

I was sitting in my office one day and I

143

00:07:44,630 --> 00:07:42,780

was watching these guys and they came

144

00:07:47,150 --> 00:07:44,640

out and you know they brought out like

145

00:07:49,040 --> 00:07:47,160

their metal detectors and all that and

146

00:07:51,080 --> 00:07:49,050

they were you know going back and forth

147

00:07:52,310 --> 00:07:51,090

in the art which you know I wouldn't

148

00:07:54,740 --> 00:07:52,320

think they'd be able to find anything

149

00:07:56,870 --> 00:07:54,750

because most of the the pipes around

150

00:07:58,460 --> 00:07:56,880

here are either you know like plastic or

151

00:07:59,780 --> 00:07:58,470

tile not metal

152

00:08:03,110 --> 00:07:59,790

well sure enough they couldn't find

153

00:08:05,510 --> 00:08:03,120

anything well then one of them got into

154

00:08:06,650 --> 00:08:05,520

the back of his truck and he brought out

155

00:08:10,580 --> 00:08:06,660

Elrod's

156

00:08:12,800 --> 00:08:10,590

now if anybody is familiar with with

157

00:08:15,230 --> 00:08:12,810

dowsing Elrod's I mean that's what they

158

00:08:16,880 --> 00:08:15,240

look like they look like two pieces of

159

00:08:19,490 --> 00:08:16,890

metal that are bet in the shape of an L

160

00:08:21,380 --> 00:08:19,500

get yourself a damn damn couple of coat

161

00:08:24,410 --> 00:08:21,390

hangers and it's the same thing yeah

162

00:08:26,210 --> 00:08:24,420

I've done it well these these things I

163

00:08:29,030 --> 00:08:26,220

mean he had them in a really nice box

164

00:08:34,430 --> 00:08:29,040

and I mean he brought them out they had

165

00:08:39,440 --> 00:08:34,440

handles on them and obviously I mean you

166

00:08:41,060 --> 00:08:39,450

know fairly expensive of L rods and he

167

00:08:42,589 --> 00:08:41,070

got them out started walking back and

168

00:08:45,290 --> 00:08:42,599

forth across the yard for these things

169

00:08:48,050 --> 00:08:45,300

and you know they they they crisscross

170

00:08:51,770 --> 00:08:48,060

at various locations he he marked where

171

00:08:53,780 --> 00:08:51,780

they crossed each other and they said to

172

00:08:56,840 --> 00:08:53,790

digging sure enough they found the pipe

173

00:08:58,160 --> 00:08:56,850

in just a matter of 10 minutes when they

174

00:09:00,860 --> 00:08:58,170

had been out there earlier with all

175

00:09:03,140 --> 00:09:00,870

kinds of modern equipment couldn't find

176

00:09:07,220 --> 00:09:03,150

anything for a couple of hours well you

177

00:09:09,470 --> 00:09:07,230

know my my old friend uri geller became

178

00:09:12,590 --> 00:09:09,480

a millionaire by doing a little bit of

179

00:09:16,640 --> 00:09:12,600

dowsing I understand that he was hired

180

00:09:19,370 --> 00:09:16,650

by a company that was looking for oil in

181

00:09:21,380 --> 00:09:19,380

one particular area and he got out a map

182

00:09:23,330 --> 00:09:21,390

and a pendulum and did a little bit of

183

00:09:26,090 --> 00:09:23,340

dowsing and located the place for them

184

00:09:33,640 --> 00:09:26,100

to drill they found the oil and he

185

00:09:36,680 --> 00:09:33,650

became part of the yo get his butt to

186

00:09:38,690 --> 00:09:36,690

attain some money on it and no he's he's

187

00:09:41,720 --> 00:09:38,700

made a lot of money for doing that as

188

00:09:47,030 --> 00:09:41,730

far as I'm from what I hear yeah but but

189

00:09:48,110 --> 00:09:47,040

but let us get into the arghya our guest

190

00:09:50,270 --> 00:09:48,120

of the evening once you tell everybody

191

00:09:52,700 --> 00:09:50,280

who we're going to be talking with oh

192

00:09:53,480 --> 00:09:52,710

sure would be my pleasure well we have

193

00:09:55,730 --> 00:09:53,490

with us tonight

194

00:09:58,160 --> 00:09:55,740

Maria Wheatley Maria is a

195

00:10:00,560 --> 00:09:58,170

second-generation tauzer who is a

196

00:10:02,840 --> 00:10:00,570

leading authority on the geodetic system

197

00:10:05,180 --> 00:10:02,850

of earth energies she's taught how to

198

00:10:07,310 --> 00:10:05,190

decode and divine the lands by her late

199

00:10:09,260 --> 00:10:07,320

father Dennis Wheatley who was

200

00:10:12,140 --> 00:10:09,270

considered to be one of the UK's top

201  
00:10:14,390 --> 00:10:12,150  
master dowsers now maria leads sacred

202  
00:10:16,550 --> 00:10:14,400  
sike tours and dowsing tours small

203  
00:10:18,560 --> 00:10:16,560  
groups privates you know one-to-one or

204  
00:10:21,860 --> 00:10:18,570  
larger groups they're all welcome to

205  
00:10:24,550 --> 00:10:21,870  
sites as stone heads Avebury Glastonbury

206  
00:10:27,140 --> 00:10:24,560  
Ireland Scotland France and Prague now

207  
00:10:30,310 --> 00:10:27,150  
Maria is also an accomplished author of

208  
00:10:33,440 --> 00:10:30,320  
books on sacred sites and dowsing and

209  
00:10:35,930 --> 00:10:33,450  
using dowsing Maria discovered the

210  
00:10:37,910 --> 00:10:35,940  
elongated skulls of stone heads which

211  
00:10:41,180 --> 00:10:37,920  
led to the remark or untold story of

212  
00:10:44,120 --> 00:10:41,190  
stone heads and the Neolithic high Queen

213  
00:10:48,680 --> 00:10:44,130

we got to find out about that oh yeah

214

00:10:51,320 --> 00:10:48,690

definitely why not as well Rhea book

215

00:10:54,680 --> 00:10:51,330

about that the elongated skulls of stone

216

00:10:57,370 --> 00:10:54,690

heads divining ancient sites insights

217

00:11:01,520 --> 00:10:57,380

into their creation and a very a very

218

00:11:04,430 --> 00:11:01,530

sorry Sun Moon and Earth energies now

219

00:11:07,730 --> 00:11:04,440

with us tonight also is dr. Greg little

220

00:11:09,980 --> 00:11:07,740

now mr. little or dr. little sorry is a

221

00:11:12,260 --> 00:11:09,990

psychologist specializing in the

222

00:11:15,470 --> 00:11:12,270

treatment of criminal populations and

223

00:11:18,170 --> 00:11:15,480

his programs are in use in all 50 states

224

00:11:21,230 --> 00:11:18,180

and in nine countries he's also the

225

00:11:24,140 --> 00:11:21,240

author or co-author of over 60 books and

226

00:11:26,360 --> 00:11:24,150

over a thousand articles for nearly 40

227

00:11:29,150 --> 00:11:26,370

years he has investigated UFO theories

228

00:11:31,160 --> 00:11:29,160

ancient mound cultures native-american

229

00:11:32,840 --> 00:11:31,170

rituals and death beliefs and is the

230

00:11:36,140 --> 00:11:32,850

author of the Illustrated encyclopedia

231

00:11:39,260 --> 00:11:36,150

of Native American Indian mounds and

232

00:11:41,480 --> 00:11:39,270

earthworks paths of souls and he's also

233

00:11:42,890 --> 00:11:41,490

been on hundreds of radio shows and has

234

00:11:45,530 --> 00:11:42,900

been been featured numerous

235

00:11:47,870 --> 00:11:45,540

documentaries now I should point out

236

00:11:50,630 --> 00:11:47,880

that him and his wife dr. Loren little

237

00:11:53,600 --> 00:11:50,640

little actively searched the Bahamas for

238

00:11:56,990 --> 00:11:53,610

crashed planes and archaeological ruins

239

00:11:59,420 --> 00:11:57,000

that might be linked to Atlantis and I

240

00:12:01,760 --> 00:11:59,430

should point out that dr. little also

241

00:12:06,820 --> 00:12:01,770

wrote the book people of the web which

242

00:12:10,400 --> 00:12:06,830

is one of my favorite books I've got a

243

00:12:13,340 --> 00:12:10,410

probably a first edition copy in my

244

00:12:15,440 --> 00:12:13,350

library here and I'll tell you that I

245

00:12:17,900 --> 00:12:15,450

think that came out about 1990 and

246

00:12:20,810 --> 00:12:17,910

that's always been one of my go-to books

247

00:12:23,060 --> 00:12:20,820

so Maria dr. little thank you very much

248

00:12:25,790 --> 00:12:23,070

for being with us tonight on exploring

249

00:12:28,790 --> 00:12:25,800

the bizarre well you know Tim my head is

250

00:12:32,000 --> 00:12:28,800

beginning to expand so I think in that

251

00:12:37,850 --> 00:12:32,010

that case we'll begin with the Maria

252

00:12:41,090 --> 00:12:37,860

over the UK research honey elongated

253

00:12:43,880 --> 00:12:41,100

skulls but Maria how are you doing this

254

00:12:46,490 --> 00:12:43,890

evening yeah it's quite early in the

255

00:12:48,110 --> 00:12:46,500

morning here in the UK but I'm doing

256

00:12:50,540 --> 00:12:48,120

just fine thanks for having me on the

257

00:12:52,310 --> 00:12:50,550

show well I love to happy I'd love to

258

00:12:54,680 --> 00:12:52,320

this talk with you here for the next

259

00:12:55,720 --> 00:12:54,690

couple of hours where are you exactly

260

00:13:02,150 --> 00:12:55,730

located

261

00:13:03,790 --> 00:13:02,160

dating back to the 12th century called

262

00:13:05,000 --> 00:13:03,800

Marlborough which is quite close to

263

00:13:07,130 --> 00:13:05,010

Avebury

264

00:13:09,410 --> 00:13:07,140

which is the contains the largest stone

265

00:13:13,220 --> 00:13:09,420

circle in the world and about sort of 15

266

00:13:15,170 --> 00:13:13,230

miles or so from Stonehenge ah so on a

267

00:13:18,530 --> 00:13:15,180

clear night you could almost see the the

268

00:13:22,790 --> 00:13:18,540

tall stones there if I jumps up and down

269

00:13:25,520 --> 00:13:22,800

a bit but so it was your your father who

270

00:13:28,070 --> 00:13:25,530

started investigate now what year would

271

00:13:31,280 --> 00:13:28,080

would that have have been that your dad

272

00:13:35,120 --> 00:13:31,290

got into this that was that was quite

273

00:13:38,030 --> 00:13:35,130

some time ago actually now and what I've

274

00:13:41,420 --> 00:13:38,040

done since since being sort of shown how

275

00:13:44,960 --> 00:13:41,430

to dowse all those years ago it's to try

276

00:13:47,060 --> 00:13:44,970

and look more to use dowsing to find

277

00:13:49,850 --> 00:13:47,070

things like leis and Stonehenge but also

278

00:13:52,490 --> 00:13:49,860

to try and back that up with some kind

279

00:13:55,460 --> 00:13:52,500

of you know scientific observation and

280

00:13:57,710 --> 00:13:55,470

recordings as well so I've teamed up

281

00:13:59,990 --> 00:13:57,720

with people like Rodney Hale and David

282

00:14:03,620 --> 00:14:00,000

Webb to try and you know prove that

283

00:14:06,710 --> 00:14:03,630

these energies exist so I've tried to

284

00:14:09,470 --> 00:14:06,720

kind of take it further and present

285

00:14:10,940 --> 00:14:09,480

findings on the ancient landscape and

286

00:14:13,280 --> 00:14:10,950

places like Stonehenge

287

00:14:15,470 --> 00:14:13,290

well you know there may actually be some

288

00:14:19,520 --> 00:14:15,480

people in our audience who don't know

289

00:14:21,410 --> 00:14:19,530

what a ley line is what did you tell us

290

00:14:24,920 --> 00:14:21,420

a little bit about the history because

291

00:14:27,610 --> 00:14:24,930

as I understand that it all kind of

292

00:14:30,110 --> 00:14:27,620

started what around 1920 or so when a

293

00:14:31,670 --> 00:14:30,120

gentleman with a dowsing rod went out

294

00:14:35,690 --> 00:14:31,680

and realized that there were certain

295

00:14:38,210 --> 00:14:35,700

energies that were abundant in certain

296

00:14:39,350 --> 00:14:38,220

places and they were all on a straight

297

00:14:41,960 --> 00:14:39,360

line

298

00:14:44,869 --> 00:14:41,970

that's right I mean the grandfather of

299

00:14:45,619 --> 00:14:44,879

lays or ley lines as you say in the

300

00:14:49,910 --> 00:14:45,629

States

301  
00:14:54,019 --> 00:14:49,920  
they actually means line here began with

302  
00:14:56,030 --> 00:14:54,029  
Alfred Watkins in about the 1920s but my

303  
00:14:58,759 --> 00:14:56,040  
research has dated it back much much

304  
00:15:01,160 --> 00:14:58,769  
further to a magician over here in the

305  
00:15:05,079 --> 00:15:01,170  
Elizabethan period called dr. John Dee

306  
00:15:08,989 --> 00:15:05,089  
and he was wise yes one of my favorite

307  
00:15:13,059 --> 00:15:08,999  
personalities in the occult certainly is

308  
00:15:17,090 --> 00:15:13,069  
and he reported in one of his

309  
00:15:19,309 --> 00:15:17,100  
publications that there were immortal

310  
00:15:21,079 --> 00:15:19,319  
lines in the landscape he was actually

311  
00:15:24,049 --> 00:15:21,089  
described in lays long long before

312  
00:15:25,850 --> 00:15:24,059  
outfit Watkins and again prior to Alfred

313  
00:15:28,939 --> 00:15:25,860

Watkins you had other antiquarian

314

00:15:30,919 --> 00:15:28,949

authors such as the Reverend Edward Duke

315

00:15:33,229 --> 00:15:30,929

who's also described in straight

316

00:15:37,249 --> 00:15:33,239

alignments in the landscape so so what's

317

00:15:39,919 --> 00:15:37,259

a lay as you said LA is literally a line

318

00:15:42,049 --> 00:15:39,929

of force sometimes they can have energy

319

00:15:44,049 --> 00:15:42,059

these straight lines sometimes they

320

00:15:46,069 --> 00:15:44,059

don't so sometimes they call

321

00:15:48,549 --> 00:15:46,079

topographical lace that's just an

322

00:15:51,889 --> 00:15:48,559

alignment with the minimum of five sites

323

00:15:53,569 --> 00:15:51,899

sited upon it some lace can be really

324

00:15:55,879 --> 00:15:53,579

short they can be just a mile or a

325

00:15:58,429 --> 00:15:55,889

couple of miles long and some lace can

326

00:16:01,999 --> 00:15:58,439

be extraordinary long like 300 miles

327

00:16:03,979 --> 00:16:02,009

long is that quite a long lay in the UK

328

00:16:06,169 --> 00:16:03,989

and some of them go right the way around

329

00:16:08,720 --> 00:16:06,179

the world have become great circles and

330

00:16:12,289 --> 00:16:08,730

some layers can be parts of grid systems

331

00:16:16,400 --> 00:16:12,299

so they're quite complex some layers can

332

00:16:18,889 --> 00:16:16,410

be aligned to an astronomical event for

333

00:16:21,409 --> 00:16:18,899

example like the rise in Sun at Beltane

334

00:16:24,619 --> 00:16:21,419

theis may the first and the ancient

335

00:16:28,249 --> 00:16:24,629

pagan calendar so if that played author

336

00:16:30,019 --> 00:16:28,259

such as John Michell in the 60s to

337

00:16:32,239 --> 00:16:30,029

suggest that some lays were actually

338

00:16:41,889 --> 00:16:32,249

man-made and orientated to face

339

00:16:44,090 --> 00:16:41,899

astronomical events so now I know that

340

00:16:48,169 --> 00:16:44,100

there are all types of different

341

00:16:50,029 --> 00:16:48,179

techniques for dowsing as Tim mint

342

00:16:52,160 --> 00:16:50,039

mentioned you know uri geller using the

343

00:16:54,170 --> 00:16:52,170

pendulum and Elrod's and

344

00:16:58,370 --> 00:16:54,180

you know going as far back as people

345

00:17:02,690 --> 00:16:58,380

using the fork fork stick do you have a

346

00:17:04,370 --> 00:17:02,700

favorite method yeah my favorite method

347

00:17:07,699 --> 00:17:04,380

is actually using the old world I think

348

00:17:10,819 --> 00:17:07,709

it's quite simple very easy to use so I

349

00:17:14,120 --> 00:17:10,829

use a capo and nickel-based L rod with

350

00:17:16,280 --> 00:17:14,130

sleeves hat sort of handles on them it's

351

00:17:18,110 --> 00:17:16,290

it's really easy to use and you can use

352

00:17:20,299 --> 00:17:18,120

just one rod these days a lot of

353

00:17:22,699 --> 00:17:20,309

professional dancers in the UK just have

354

00:17:25,370 --> 00:17:22,709

the wrong rod and you can you can employ

355

00:17:27,590 --> 00:17:25,380

methods like directional Dowson asking

356

00:17:30,320 --> 00:17:27,600

the elrod to show you the direction of a

357

00:17:32,270 --> 00:17:30,330

given object or target so it's really

358

00:17:37,090 --> 00:17:32,280

easy to use and anyone and everyone can

359

00:17:40,640 --> 00:17:37,100

dowse it's it's really easy to apply

360

00:17:43,640 --> 00:17:40,650

when when you were learning to do this I

361

00:17:47,690 --> 00:17:43,650

mean did you find that you are a natural

362

00:17:50,180 --> 00:17:47,700

at it or did it take you some time to

363

00:17:51,789 --> 00:17:50,190

actually it'll find your find your force

364

00:17:55,970 --> 00:17:51,799

so to speak

365

00:17:58,690 --> 00:17:55,980

well it's like anything any skill or art

366

00:18:01,039 --> 00:17:58,700

if you practice it you become our debt

367

00:18:03,289 --> 00:18:01,049

so I think with a little bit of practice

368

00:18:06,320 --> 00:18:03,299

anyone and everyone can do so I think

369

00:18:08,780 --> 00:18:06,330

yes you do have Naturals but you know is

370

00:18:11,090 --> 00:18:08,790

it's a skill that can be taught and

371

00:18:13,850 --> 00:18:11,100

applied so I mean I teach across

372

00:18:16,700 --> 00:18:13,860

sky-byte I teach online courses and

373

00:18:19,250 --> 00:18:16,710

people easily grasp this ancient art not

374

00:18:21,710 --> 00:18:19,260

just to find water or pipes as you were

375

00:18:23,630 --> 00:18:21,720

describing earlier but to decode their

376

00:18:26,419 --> 00:18:23,640

house to see how their houses are

377

00:18:30,890 --> 00:18:26,429

energetically whether they're good or or

378

00:18:36,460 --> 00:18:30,900

negative places to live I know a lady

379

00:18:40,970 --> 00:18:36,470

who is she's a chiropractor by

380

00:18:46,190 --> 00:18:40,980

profession and she has a technique where

381

00:18:50,240 --> 00:18:46,200

she actually will rock back and forth

382

00:18:52,220 --> 00:18:50,250

and I'm not quite sure just exactly you

383

00:18:54,260 --> 00:18:52,230

know how she does this but she says when

384

00:18:56,270 --> 00:18:54,270

she gets some resistance and I'm not

385

00:18:58,010 --> 00:18:56,280

quite sure what she means by resistance

386

00:18:59,750 --> 00:18:58,020

when she rocks back and forth yeah I

387

00:19:02,000 --> 00:18:59,760

mean it's similar to the technique where

388

00:19:04,070 --> 00:19:02,010

I've seen people where they will rub a

389

00:19:05,900 --> 00:19:04,080

surface where they're you know like

390

00:19:09,920 --> 00:19:05,910

dowsing and then when they get a stick

391

00:19:14,570 --> 00:19:09,930

you know that they've hit upon the the

392

00:19:17,000 --> 00:19:14,580

the correct answer so I mean there there

393

00:19:20,810 --> 00:19:17,010

are there there seems to be almost as

394

00:19:27,050 --> 00:19:20,820

many techniques as there are people out

395

00:19:31,280 --> 00:19:27,060

there now when you describe earth

396

00:19:36,280 --> 00:19:31,290

energies and being able to detect them

397

00:19:42,110 --> 00:19:40,850

the ancients did either with techniques

398

00:19:44,240 --> 00:19:42,120

like you know we've been talking about

399

00:19:46,070 --> 00:19:44,250

or maybe just you know with this you

400

00:19:48,560 --> 00:19:46,080

know with a natural ability just to be

401  
00:19:52,570 --> 00:19:48,570  
able to to detect these things I mean do

402  
00:19:56,720 --> 00:19:52,580  
you think that our ancestors knew about

403  
00:20:01,700 --> 00:19:56,730  
these these earth energies and lines of

404  
00:20:04,010 --> 00:20:01,710  
force and made use of them yes I do I

405  
00:20:06,560 --> 00:20:04,020  
think they were fully aware of the

406  
00:20:08,870 --> 00:20:06,570  
energetic ley system I think they were

407  
00:20:11,150 --> 00:20:08,880  
fully aware of different types of earth

408  
00:20:13,280 --> 00:20:11,160  
energies some earth energies are

409  
00:20:15,890 --> 00:20:13,290  
generated by deep underground water

410  
00:20:18,890 --> 00:20:15,900  
produced independently by the earth for

411  
00:20:21,710 --> 00:20:18,900  
example and that produces a huge spiral

412  
00:20:24,470 --> 00:20:21,720  
pattern called a Geo spiral that seems

413  
00:20:26,510 --> 00:20:24,480

to represent like the esoteric center of

414

00:20:28,580 --> 00:20:26,520

an ancient site like Stonehenge so if we

415

00:20:32,710 --> 00:20:28,590

imagine deep deep deep down in the

416

00:20:35,840 --> 00:20:32,720

ground large pools or lakes of water

417

00:20:39,320 --> 00:20:35,850

created by the earth herself rather than

418

00:20:41,240 --> 00:20:39,330

from rainfall then that produces a huge

419

00:20:45,230 --> 00:20:41,250

energy field and this seems to be that's

420

00:20:46,760 --> 00:20:45,240

what the ancients were looking for and

421

00:20:50,230 --> 00:20:46,770

what we've termed the Corden's

422

00:20:52,970 --> 00:20:50,240

use an equipment over these geo spiral

423

00:20:56,330 --> 00:20:52,980

energy places it seems that they're

424

00:20:59,240 --> 00:20:56,340

roundabout sort of 7 to 11 Hertz which

425

00:21:02,210 --> 00:20:59,250

is equivalent to our alpha brain and the

426  
00:21:03,800 --> 00:21:02,220  
Schumann resonance of the earth so yes

427  
00:21:05,600 --> 00:21:03,810  
that's what I think I think they were

428  
00:21:08,120 --> 00:21:05,610  
looking for these highly energetic

429  
00:21:11,240 --> 00:21:08,130  
places and when you place a standing

430  
00:21:14,240 --> 00:21:11,250  
stone into this energy field that stone

431  
00:21:17,240 --> 00:21:14,250  
seems to absorb the energy and starts to

432  
00:21:19,660 --> 00:21:17,250  
transmit it across the land itself and

433  
00:21:22,840 --> 00:21:19,670  
again we've done experiments to prove

434  
00:21:26,710 --> 00:21:22,850  
megalithic energy so it's a huge system

435  
00:21:28,960 --> 00:21:26,720  
that the ancients were tapping into so

436  
00:21:31,210 --> 00:21:28,970  
these megalithic structures their doctor

437  
00:21:32,920 --> 00:21:31,220  
scattered haphazardly across the

438  
00:21:37,960 --> 00:21:32,930

landscape they've been deliberately

439

00:21:41,730 --> 00:21:37,970

placed in specific locations yes they

440

00:21:44,590 --> 00:21:41,740

were marking deep underground aquifers

441

00:21:47,140 --> 00:21:44,600

they were marking also earth earth

442

00:21:50,380 --> 00:21:47,150

energies so earth energies if we

443

00:21:52,870 --> 00:21:50,390

visualize a ley system for example

444

00:21:56,170 --> 00:21:52,880

that's a long straight ley alignment

445

00:21:59,230 --> 00:21:56,180

that sometimes has earth energies a male

446

00:22:01,150 --> 00:21:59,240

and female current entwine in it in a

447

00:22:03,610 --> 00:22:01,160

caduceus style manner

448

00:22:05,680 --> 00:22:03,620

that's a ley system and one of the first

449

00:22:08,320 --> 00:22:05,690

ley systems were discovered by the late

450

00:22:10,930 --> 00:22:08,330

Hamish Miller and Paul Broadhurst a

451  
00:22:14,050 --> 00:22:10,940  
wonderful dowser and Hamish forded one

452  
00:22:15,940 --> 00:22:14,060  
of my books the ancients were looking

453  
00:22:18,610 --> 00:22:15,950  
for those as well and in ancient China

454  
00:22:22,120 --> 00:22:18,620  
these were documented in the system

455  
00:22:23,980 --> 00:22:22,130  
called feng shui as white tiger and and

456  
00:22:26,680 --> 00:22:23,990  
green dragon for example they

457  
00:22:28,840 --> 00:22:26,690  
personified thermus animals so this

458  
00:22:30,880 --> 00:22:28,850  
system has been known to ancient man for

459  
00:22:32,980 --> 00:22:30,890  
form you don't have thousands and

460  
00:22:35,380 --> 00:22:32,990  
thousands of years and I think this is

461  
00:22:38,020 --> 00:22:35,390  
what dr. John Dee became aware of

462  
00:22:41,050 --> 00:22:38,030  
because when he wrote about the ley

463  
00:22:43,720 --> 00:22:41,060

systems he said it gives you it gives a

464

00:22:46,870 --> 00:22:43,730

magician or person a power in both their

465

00:22:48,160 --> 00:22:46,880

words and in their works so John Dee

466

00:22:51,100 --> 00:22:48,170

realized if you're in the right place

467

00:22:54,070 --> 00:22:51,110

you can tap into this energy system

468

00:22:56,200 --> 00:22:54,080

because a lot of people today feel that

469

00:22:58,360 --> 00:22:56,210

it's sentient and conscious and can

470

00:23:04,780 --> 00:22:58,370

interact with your own consciousness

471

00:23:07,660 --> 00:23:04,790

I know author colon Wilson in one of his

472

00:23:12,490 --> 00:23:07,670

books wrote about how he and his wife

473

00:23:14,050 --> 00:23:12,500

had attempted dowsing megalithic

474

00:23:17,500 --> 00:23:14,060

structures and I can't which one

475

00:23:20,530 --> 00:23:17,510

specifically he had referred to but but

476

00:23:22,900 --> 00:23:20,540

he said one of them and he felt that the

477

00:23:25,570 --> 00:23:22,910

energies coming out of it were almost

478

00:23:27,840 --> 00:23:25,580

like he liked spiraling out was was the

479

00:23:30,810 --> 00:23:27,850

perception that he had well and

480

00:23:35,590 --> 00:23:30,820

unfortunately I'm gonna have to

481

00:23:39,190 --> 00:23:35,600

ask finish my question the next segments

482

00:23:41,169 --> 00:23:39,200

because we are coming to the end of this

483

00:23:42,999 --> 00:23:41,179

part of exploring the bazaar when we

484

00:23:45,539 --> 00:23:43,009

come back we'll bring in dr. Gregg

485

00:23:48,100 --> 00:23:45,549

little to the conversation and

486

00:23:50,350 --> 00:23:48,110

continuing to talk about earth energies

487

00:23:54,070 --> 00:23:50,360

and hopefully dr. little will be able to

488

00:23:56,350 --> 00:23:54,080

talk more about Atlantis and possibly

489

00:23:59,110 --> 00:23:56,360

have the connection between the ancient

490

00:24:12,700 --> 00:23:59,120

mountain builders of North America so

491

00:24:15,249 --> 00:24:12,710

stay tuned for now back to exploring the

492

00:24:17,649 --> 00:24:15,259

bazaars with two of the most

493

00:24:24,450 --> 00:24:17,659

electrifying researchers in the Paranoid

494

00:24:29,440 --> 00:24:26,830

and welcome back to exploring the

495

00:24:32,259 --> 00:24:29,450

bizarre and Murray I need to finish our

496

00:24:37,029 --> 00:24:32,269

question real quick about the late

497

00:24:39,009 --> 00:24:37,039

author Colin Wilson who he was said one

498

00:24:41,230 --> 00:24:39,019

of his books that him and his wife had

499

00:24:43,090 --> 00:24:41,240

had tried some dowsing and he wasn't

500

00:24:46,119 --> 00:24:43,100

very good at it but his wife was really

501  
00:24:49,749 --> 00:24:46,129  
good but he said that he tried dowsing

502  
00:24:52,659 --> 00:24:49,759  
one megalith and he he felt almost like

503  
00:24:54,519 --> 00:24:52,669  
an electric shock coming from it and

504  
00:24:56,440 --> 00:24:54,529  
actually felt sick to his stomach and

505  
00:25:00,299 --> 00:24:56,450  
had to get away from it sit down for a

506  
00:25:03,610 --> 00:25:00,309  
little while so are these structures

507  
00:25:05,649 --> 00:25:03,620  
still energetic they're still active

508  
00:25:09,369 --> 00:25:05,659  
after all of these you know thousands of

509  
00:25:12,570 --> 00:25:09,379  
years not more yes they are but as long

510  
00:25:16,019 --> 00:25:12,580  
as they're still rooted into either the

511  
00:25:18,340 --> 00:25:16,029  
lays or the earth energies or the

512  
00:25:19,779 --> 00:25:18,350  
electromagnetic emissions from

513  
00:25:22,299 --> 00:25:19,789

underground water yes they are very

514

00:25:25,119 --> 00:25:22,309

active and they seem to have particular

515

00:25:26,560 --> 00:25:25,129

points on the stone that are more active

516

00:25:29,350 --> 00:25:26,570

and this is what Rodney Hale and my

517

00:25:31,149 --> 00:25:29,360

myself looked into they're like energy

518

00:25:33,369 --> 00:25:31,159

bands if you will that kind of wrap

519

00:25:35,350 --> 00:25:33,379

around the stone spiral around the stone

520

00:25:39,060 --> 00:25:35,360

and it's these points that are really

521

00:25:41,200 --> 00:25:39,070

powerful and very sensitive people can

522

00:25:43,860 --> 00:25:41,210

feel their most like a tingling

523

00:25:47,160 --> 00:25:43,870

sensation or sometimes

524

00:25:49,320 --> 00:25:47,170

Juan del Sur MRSA del Sur called Tom

525

00:25:51,600 --> 00:25:49,330

Lethbridge for example when he was douse

526

00:25:55,049 --> 00:25:51,610

in the Mary made in stone circle in

527

00:25:57,660 --> 00:25:55,059

Cornwall he felt that stone started to

528

00:25:59,880 --> 00:25:57,670

rock and to move and that made him feel

529

00:26:02,280 --> 00:25:59,890

very sort of unbalanced for a while

530

00:26:04,500 --> 00:26:02,290

insensitive some sensitive people can

531

00:26:08,070 --> 00:26:04,510

feel the energies well how big was a

532

00:26:10,049 --> 00:26:08,080

stone the Mary made in stones in

533

00:26:13,020 --> 00:26:10,059

Cornwall are probably their large

534

00:26:16,680 --> 00:26:13,030

granite dress blocks about sort of six

535

00:26:19,169 --> 00:26:16,690

feet high and it was moving

536

00:26:20,790 --> 00:26:19,179

he felt he reported it in one of his

537

00:26:23,520 --> 00:26:20,800

books yes he felt it was kind of like

538

00:26:26,160 --> 00:26:23,530

Rocking that's how he describes any news

539

00:26:28,320 --> 00:26:26,170

he was using a pendulum to dowse over

540

00:26:30,150 --> 00:26:28,330

the top and he was a long cord pendulum

541

00:26:32,940 --> 00:26:30,160

dowsing was the father of long cord

542

00:26:35,610 --> 00:26:32,950

pendulum dowsing which uses the rate of

543

00:26:38,549 --> 00:26:35,620

something like twenty twenty six and a

544

00:26:41,010 --> 00:26:38,559

half inches pendulum chord or harmonic

545

00:26:42,870 --> 00:26:41,020

of that a subdivision of that could find

546

00:26:46,620 --> 00:26:42,880

underground water that's what he was

547

00:26:48,990 --> 00:26:46,630

master dancer of hey how about that

548

00:26:54,390 --> 00:26:49,000

figures on Easter Island are they tied

549

00:26:56,790 --> 00:26:54,400

in with this any stone that is put into

550

00:26:58,799 --> 00:26:56,800

the earth energy system will behave in a

551  
00:27:01,710 --> 00:26:58,809  
particular manner yes it makes them kind

552  
00:27:05,220 --> 00:27:01,720  
of come alive with with I was going to

553  
00:27:08,430 --> 00:27:05,230  
say I was in Tahiti and there was a

554  
00:27:10,620 --> 00:27:08,440  
woman who was doing airbrush like a

555  
00:27:13,200 --> 00:27:10,630  
tapestry and she would have him hanging

556  
00:27:16,320 --> 00:27:13,210  
outside or played by one and I have one

557  
00:27:20,100 --> 00:27:16,330  
here of this I I guess an ancient

558  
00:27:21,780 --> 00:27:20,110  
astronaut saint of the one of the gods

559  
00:27:23,910 --> 00:27:21,790  
from Easter Island the stone figures

560  
00:27:27,450 --> 00:27:23,920  
carting off a very attractive woman I

561  
00:27:29,970 --> 00:27:27,460  
mean it's a kind of a bizarre piece of

562  
00:27:32,310 --> 00:27:29,980  
tapestry but I it's it takes a pair from

563  
00:27:35,160 --> 00:27:32,320

my living room wall I mean it's and was

564

00:27:37,020 --> 00:27:35,170

always intrigued me the the figures

565

00:27:39,840 --> 00:27:37,030

there on Easter Island but that that's

566

00:27:42,780 --> 00:27:39,850

probably a story for another evening but

567

00:27:45,120 --> 00:27:42,790

dr. little how are you I'm good but I

568

00:27:51,150 --> 00:27:45,130

want to hear the rest of this story of

569

00:27:53,610 --> 00:27:51,160

the Easter Island figure well I'll send

570

00:27:55,890 --> 00:27:53,620

you I'll send you a copy of the tapestry

571

00:27:57,570 --> 00:27:55,900

I actually said I actually used it in

572

00:28:00,620 --> 00:27:57,580

one of my horror

573

00:28:02,970 --> 00:28:00,630

films I think it was the skin eating

574

00:28:06,270 --> 00:28:02,980

what was the name of that filter it's

575

00:28:10,290 --> 00:28:06,280

good eating jungle vampires yeah like

576

00:28:14,280 --> 00:28:10,300

that yeah alright but that's you know I

577

00:28:18,000 --> 00:28:14,290

do exploring the bazaar a more stable a

578

00:28:22,440 --> 00:28:18,010

topic so dr. Little's how long have you

579

00:28:25,080 --> 00:28:22,450

been investigating the Indian mounds and

580

00:28:27,510 --> 00:28:25,090

these ancient structures and how did you

581

00:28:28,890 --> 00:28:27,520

get it involved in all of this I you

582

00:28:30,390 --> 00:28:28,900

know I know who you are and of course

583

00:28:34,140 --> 00:28:30,400

I've read your articles and stuff but I

584

00:28:36,690 --> 00:28:34,150

don't really know how you got started in

585

00:28:39,750 --> 00:28:36,700

all of this it's been an entry in

586

00:28:41,730 --> 00:28:39,760

intriguing a career for you I have done

587

00:28:43,680 --> 00:28:41,740

a lot of different things and it's kind

588

00:28:45,750 --> 00:28:43,690

of a long story first of all thank you

589

00:28:47,700 --> 00:28:45,760

for having me on it's always good to

590

00:28:54,840 --> 00:28:47,710

just kind of spread the word and listen

591

00:28:59,010 --> 00:28:54,850

to other people excuse me I got I got

592

00:29:02,370 --> 00:28:59,020

into this actually in the 1960s when my

593

00:29:06,500 --> 00:29:02,380

family moved to Huntsville Alabama my

594

00:29:08,810 --> 00:29:06,510

father went to work for NASA mm-hmm I

595

00:29:11,700 --> 00:29:08,820

was doing fine till just a minute ago

596

00:29:14,160 --> 00:29:11,710

maybe there's a setting but era theaters

597

00:29:16,290 --> 00:29:14,170

want me to talk yes the earth and I

598

00:29:17,910 --> 00:29:16,300

don't I don't talk about this early

599

00:29:21,380 --> 00:29:17,920

history much or how I got into these

600

00:29:24,390 --> 00:29:21,390

things but I got into UFOs back then and

601  
00:29:27,360 --> 00:29:24,400  
of course I wrote quite a bit about UFOs

602  
00:29:30,390 --> 00:29:27,370  
in the 80s and then in the 90s and after

603  
00:29:32,580 --> 00:29:30,400  
I completed writing the first UFO book

604  
00:29:38,430 --> 00:29:32,590  
that I wrote which was a follow-up to

605  
00:29:40,110 --> 00:29:38,440  
Carl Jung's 1959 book that was in 1983 I

606  
00:29:43,050 --> 00:29:40,120  
finished the book and I was looking for

607  
00:29:44,390 --> 00:29:43,060  
a publisher and I began having a

608  
00:29:47,400 --> 00:29:44,400  
out-of-nowhere

609  
00:29:50,130 --> 00:29:47,410  
began having a series of dreams and in

610  
00:29:51,720 --> 00:29:50,140  
the dreams I was standing on Indian

611  
00:29:54,270 --> 00:29:51,730  
mounds now I didn't even know what an

612  
00:29:56,040 --> 00:29:54,280  
Indian Mound was but I would stand on a

613  
00:29:59,130 --> 00:29:56,050

mound in this dream and I'd take a

614

00:30:01,650 --> 00:29:59,140

picture and then I'd be on another round

615

00:30:03,540 --> 00:30:01,660

and I take another picture and another

616

00:30:05,880 --> 00:30:03,550

mound and take a picture and this went

617

00:30:09,000 --> 00:30:05,890

on all through the night it was very

618

00:30:10,799 --> 00:30:09,010

disturbing for a while now I was working

619

00:30:12,539 --> 00:30:10,809

I was running

620

00:30:15,330 --> 00:30:12,549

it's abuse and mental health programs

621

00:30:17,759 --> 00:30:15,340

within within prison systems and where I

622

00:30:20,369 --> 00:30:17,769

live in Memphis Tennessee very

623

00:30:23,279 --> 00:30:20,379

mainstream I did a lot of research

624

00:30:26,369 --> 00:30:23,289

published lots and mainstream journals

625

00:30:28,739 --> 00:30:26,379

and this dream that I had it went on for

626

00:30:31,560 --> 00:30:28,749

10 straight nights it was very

627

00:30:33,450 --> 00:30:31,570

disturbing disturb my wife also and I

628

00:30:36,930 --> 00:30:33,460

had no idea what it was about until I

629

00:30:40,739 --> 00:30:36,940

woke up on really the the morning after

630

00:30:43,230 --> 00:30:40,749

the tenth dream and for some reason that

631

00:30:46,259 --> 00:30:43,240

I cannot explain I decided that I needed

632

00:30:48,899 --> 00:30:46,269

to go to a local Indian man that had

633

00:30:51,239 --> 00:30:48,909

never been to I say all the time and

634

00:30:53,460 --> 00:30:51,249

this is very honest that at the time

635

00:30:54,629 --> 00:30:53,470

everything I knew about Indian mounds I

636

00:30:57,029 --> 00:30:54,639

could have written on the back of a

637

00:31:00,450 --> 00:30:57,039

postage stamp which I know you guys know

638

00:31:04,350 --> 00:31:00,460

what a postage stamp is because you're

639

00:31:06,960 --> 00:31:04,360

old enough to know I still stick them on

640

00:31:10,080 --> 00:31:06,970

to envelopes for catalogs I've been

641

00:31:11,759 --> 00:31:10,090

doing it all day there you go but I

642

00:31:14,279 --> 00:31:11,769

really didn't know anything about him I

643

00:31:17,580 --> 00:31:14,289

mean I had a bachelor's and master's and

644

00:31:19,590 --> 00:31:17,590

a doctorate and in all my coursework and

645

00:31:21,600 --> 00:31:19,600

and the anthropology that I took

646

00:31:23,789 --> 00:31:21,610

everything in high school in history

647

00:31:26,489 --> 00:31:23,799

they never talked about Native American

648

00:31:29,070 --> 00:31:26,499

Indians ever never talked about any of

649

00:31:32,340 --> 00:31:29,080

that history history began in 1492 as

650

00:31:34,259 --> 00:31:32,350

far as school was concerned so I went to

651  
00:31:37,139 --> 00:31:34,269  
the first mounds which was in Memphis

652  
00:31:42,480 --> 00:31:37,149  
there were skeletons on display there

653  
00:31:45,539 --> 00:31:42,490  
but immediately I just I just knew that

654  
00:31:48,869 --> 00:31:45,549  
what I had to do was to visit every

655  
00:31:51,450 --> 00:31:48,879  
known mound site in North America I've

656  
00:31:53,789 --> 00:31:51,460  
since expanded that and started going to

657  
00:31:55,169 --> 00:31:53,799  
ones in Central America bend a lot of

658  
00:31:58,200 --> 00:31:55,179  
places in England bend of the merry

659  
00:32:01,590 --> 00:31:58,210  
maidens well how did how did you find

660  
00:32:03,749 --> 00:32:01,600  
him well at the time it was it got

661  
00:32:07,560 --> 00:32:03,759  
rather difficult and because of the way

662  
00:32:11,779 --> 00:32:07,570  
I was working and because of my position

663  
00:32:15,480 --> 00:32:11,789

I had a very high up administrative

664

00:32:17,999 --> 00:32:15,490

directorial position and I was allowed

665

00:32:20,930 --> 00:32:18,009

to take off anytime I wanted

666

00:32:23,850 --> 00:32:20,940

and I spent week after week after week

667

00:32:24,390 --> 00:32:23,860

four or five days a week I would travel

668

00:32:27,180 --> 00:32:24,400

all over

669

00:32:28,950 --> 00:32:27,190

the country I dug into archeology

670

00:32:32,490 --> 00:32:28,960

textbooks which was something totally

671

00:32:34,470 --> 00:32:32,500

new to me I pulled out old maps I would

672

00:32:36,990 --> 00:32:34,480

go to areas figure out where these were

673

00:32:39,900 --> 00:32:37,000

and go to them there was no GPS then of

674

00:32:41,220 --> 00:32:39,910

course and archaeologists really don't

675

00:32:44,580 --> 00:32:41,230

want you to know where a lot of these

676

00:32:47,010 --> 00:32:44,590

sites are I don't think I don't think

677

00:32:50,790 --> 00:32:47,020

the archaeologists care to know where

678

00:32:52,140 --> 00:32:50,800

they are well that they don't really and

679

00:32:54,450 --> 00:32:52,150

they don't want people to know where

680

00:32:57,180 --> 00:32:54,460

they are today and in a few moments I'll

681

00:32:59,100 --> 00:32:57,190

get to I know a lot of mainstream

682

00:33:02,490 --> 00:32:59,110

archaeologists I'm friends with quite a

683

00:33:05,370 --> 00:33:02,500

few they some of them cannot do it

684

00:33:07,200 --> 00:33:05,380

openly they believe in a lot of things

685

00:33:11,850 --> 00:33:07,210

Maria said a few minutes ago about

686

00:33:14,580 --> 00:33:11,860

energies and subtle energies and water

687

00:33:16,980 --> 00:33:14,590

sources being very important and rituals

688

00:33:19,140 --> 00:33:16,990

that were being done all that relates

689

00:33:22,020 --> 00:33:19,150

but that's how my interest in mountains

690

00:33:24,480 --> 00:33:22,030

started and it really came out of

691

00:33:26,400 --> 00:33:24,490

nowhere I started this project and I

692

00:33:28,550 --> 00:33:26,410

started accumulating thousands and

693

00:33:31,140 --> 00:33:28,560

thousands of pictures of Indian mounds

694

00:33:33,270 --> 00:33:31,150

every archaeologist I've ever talked to

695

00:33:35,070 --> 00:33:33,280

said you guys meeting my wife and I have

696

00:33:36,800 --> 00:33:35,080

been to more Native American Indian

697

00:33:39,300 --> 00:33:36,810

mound sites than any living

698

00:33:41,280 --> 00:33:39,310

archaeologists today or any in the past

699

00:33:43,470 --> 00:33:41,290

and the reason is the ones in the past

700

00:33:45,180 --> 00:33:43,480

couldn't get to that many and the ones

701  
00:33:47,430 --> 00:33:45,190  
today don't have any money they can't

702  
00:33:49,980 --> 00:33:47,440  
afford to do it we've been very

703  
00:33:52,740 --> 00:33:49,990  
fortunate in that we have been able to

704  
00:33:55,790 --> 00:33:52,750  
take off lots of time and spend lots of

705  
00:33:58,530 --> 00:33:55,800  
money traveling to these sites and also

706  
00:34:00,540 --> 00:33:58,540  
the same thing with the so called search

707  
00:34:02,820 --> 00:34:00,550  
for Atlantis and the Bermuda Triangle we

708  
00:34:04,230 --> 00:34:02,830  
did all that on her own was all self

709  
00:34:06,900 --> 00:34:04,240  
funded and we've just been very

710  
00:34:09,149 --> 00:34:06,910  
fortunate in a lot of ways but most

711  
00:34:11,280 --> 00:34:09,159  
people just don't have time to do it but

712  
00:34:14,100 --> 00:34:11,290  
finding them was not easy today it's

713  
00:34:17,190 --> 00:34:14,110

quite a bit easier but it took huge

714

00:34:20,130 --> 00:34:17,200

amounts of time in libraries digging

715

00:34:21,990 --> 00:34:20,140

through old books and it just became a

716

00:34:24,899 --> 00:34:22,000

deeper and deeper project and I'll say

717

00:34:27,630 --> 00:34:24,909

this when I started actually writing the

718

00:34:32,240 --> 00:34:27,640

encyclopedia which it took I didn't

719

00:34:37,050 --> 00:34:32,250

begin writing it until around 2004 and

720

00:34:38,099 --> 00:34:37,060

in 2007 after I got to about two to

721

00:34:40,829 --> 00:34:38,109

three hundred pay

722

00:34:44,460 --> 00:34:40,839

and had like a thousand sites in it I

723

00:34:46,950 --> 00:34:44,470

just in my mind I went oh my god this is

724

00:34:49,589 --> 00:34:46,960

so much work I don't really want to

725

00:34:51,239 --> 00:34:49,599

finish this thing I just don't want to

726

00:34:54,149 --> 00:34:51,249

finish it it's too much work and I'll

727

00:34:56,009 --> 00:34:54,159

never make any money from it I mean I

728

00:35:00,479 --> 00:34:56,019

have other things other books that I can

729

00:35:02,579 --> 00:35:00,489

write that do sell pretty well and I as

730

00:35:04,529 --> 00:35:02,589

soon as I made that decision in my mind

731

00:35:08,519 --> 00:35:04,539

that I wasn't going to do it I started

732

00:35:10,680 --> 00:35:08,529

having dreams of Native Americans some

733

00:35:13,319 --> 00:35:10,690

of whom I've met over the years that

734

00:35:14,880 --> 00:35:13,329

were very angry with me oh and it

735

00:35:16,829 --> 00:35:14,890

disturbed my sleep again they were

736

00:35:18,329 --> 00:35:16,839

telling me you've got to do this and

737

00:35:21,049 --> 00:35:18,339

they said we're going to come back and

738

00:35:24,569 --> 00:35:21,059

bother you until you get this thing done

739

00:35:27,930 --> 00:35:24,579

so I decided then alright I'll do it and

740

00:35:31,739 --> 00:35:27,940

then they that the dream ceased and I

741

00:35:35,759 --> 00:35:31,749

finished that book in 2009 and I updated

742

00:35:38,160 --> 00:35:35,769

it this year well last year 2006 well

743

00:35:42,690 --> 00:35:38,170

Gregg let me let me let me ask you this

744

00:35:44,849 --> 00:35:42,700

now we say Indian burial mounds not all

745

00:35:47,130 --> 00:35:44,859

burial mounds well okay that's that's

746

00:35:49,829 --> 00:35:47,140

the point I wanted to make here where

747

00:35:52,259 --> 00:35:49,839

they I mean some of them have unusual

748

00:35:55,140 --> 00:35:52,269

shape still I am I correct I mean you're

749

00:35:56,549 --> 00:35:55,150

very correct on that I don't I don't

750

00:35:58,380 --> 00:35:56,559

know that much about it but I have

751  
00:36:00,900 --> 00:35:58,390  
looked into some of your research and

752  
00:36:04,109 --> 00:36:00,910  
you know on the the subject because you

753  
00:36:07,620 --> 00:36:04,119  
are the master of the Indian bout well

754  
00:36:11,579 --> 00:36:07,630  
that's that's becoming true in many ways

755  
00:36:15,440 --> 00:36:11,589  
but America North America has the most

756  
00:36:19,499 --> 00:36:15,450  
extensive and complex geometric

757  
00:36:23,039 --> 00:36:19,509  
earthworks found in the world the most

758  
00:36:26,130 --> 00:36:23,049  
extensive site is a 56 mile long site

759  
00:36:30,180 --> 00:36:26,140  
that begins in Newark Ohio and it

760  
00:36:33,059 --> 00:36:30,190  
extends to Chillicothe Ohio a 56 mile

761  
00:36:35,460 --> 00:36:33,069  
line of them those are continuous that

762  
00:36:38,609 --> 00:36:35,470  
they go that 56 miles long in Newark

763  
00:36:40,829 --> 00:36:38,619

Ohio there is a gigantic circle it's

764

00:36:43,259 --> 00:36:40,839

flat ground it's a gigantic circle

765

00:36:46,859 --> 00:36:43,269

formed with walls of earth 15 feet high

766

00:36:50,099 --> 00:36:46,869

it encloses 20 acres and it's attached

767

00:36:51,720 --> 00:36:50,109

to a gigantic octagon formed with outer

768

00:36:56,250 --> 00:36:51,730

walls of earth that Inc

769

00:37:00,180 --> 00:36:56,260

50 acres inside of that octagon r8

770

00:37:03,390 --> 00:37:00,190

truncated pyramid that then connects to

771

00:37:05,660 --> 00:37:03,400

a a circular earthwork that would be

772

00:37:09,839 --> 00:37:05,670

called in England a henge that is

773

00:37:13,500 --> 00:37:09,849

identical to Avery it has an outer wall

774

00:37:15,990 --> 00:37:13,510

and an inner moat the outer wall is nine

775

00:37:19,349 --> 00:37:16,000

feet tall of our perfect circle nine

776

00:37:22,349 --> 00:37:19,359

feet tall and the moat is seven to nine

777

00:37:25,290 --> 00:37:22,359

feet deep inside of it it has one

778

00:37:28,800 --> 00:37:25,300

opening in the very middle it has a huge

779

00:37:31,589 --> 00:37:28,810

bird effigy of an eagle

780

00:37:34,800 --> 00:37:31,599

and that that connects to all of these

781

00:37:37,500 --> 00:37:34,810

parallel lines of earth it's it's an

782

00:37:40,859 --> 00:37:37,510

incredible sight America had probably a

783

00:37:42,359 --> 00:37:40,869

million mounds easily a million now more

784

00:37:45,030 --> 00:37:42,369

than half of those were what you would

785

00:37:47,220 --> 00:37:45,040

call relatively small conical burial

786

00:37:50,310 --> 00:37:47,230

mounds kind of look like the top of an

787

00:37:52,440 --> 00:37:50,320

ice cream cone those can get huge some

788

00:37:54,950 --> 00:37:52,450

of those got up to 70 and 80 feet tall

789

00:37:58,050 --> 00:37:54,960

and some of those had literally

790

00:38:01,020 --> 00:37:58,060

thousands of skeletal remains in them a

791

00:38:03,720 --> 00:38:01,030

lot of them had hundreds but a few had

792

00:38:06,300 --> 00:38:03,730

literally thousands the largest mound in

793

00:38:07,650 --> 00:38:06,310

America is in Cahokia Illinois which is

794

00:38:10,620 --> 00:38:07,660

just on the other side of the river

795

00:38:13,109 --> 00:38:10,630

Mississippi River from st. Louis it is

796

00:38:17,970 --> 00:38:13,119

as tall as a 10 story building it's 100

797

00:38:20,160 --> 00:38:17,980

feet tall it's on a base 14 acres which

798

00:38:23,760 --> 00:38:20,170

is one acre larger than the Great

799

00:38:28,260 --> 00:38:23,770

Pyramid to tell you the size of it back

800

00:38:31,260 --> 00:38:28,270

in 1987 five thousand people got up on

801

00:38:34,109 --> 00:38:31,270

the top of it and held a ceremony at its

802

00:38:36,420 --> 00:38:34,119

base there is some and down inside of it

803

00:38:39,930 --> 00:38:36,430

there is a huge stone structure that's

804

00:38:44,309 --> 00:38:39,940

that is 75 feet long and some 30 feet

805

00:38:47,280 --> 00:38:44,319

high that is now do the do the Native

806

00:38:49,230 --> 00:38:47,290

Americans I mean do I are do they see

807

00:38:51,359 --> 00:38:49,240

some significance in this I mean do they

808

00:38:53,220 --> 00:38:51,369

know actually they a lot of these sites

809

00:38:56,460 --> 00:38:53,230

are still used by Native Americans for

810

00:38:59,460 --> 00:38:56,470

rituals absolutely in fact you will that

811

00:39:02,640 --> 00:38:59,470

has caused the National Park Service and

812

00:39:03,610 --> 00:39:02,650

state parks that some of these sites are

813

00:39:05,560 --> 00:39:03,620

at

814

00:39:08,380 --> 00:39:05,570

a world of trouble because they don't

815

00:39:11,230 --> 00:39:08,390

they try to stop them from doing rituals

816

00:39:13,840 --> 00:39:11,240

there I had that happen not all that

817

00:39:17,230 --> 00:39:13,850

long ago at a site when we were trying

818

00:39:19,030 --> 00:39:17,240

to do something and we were told now you

819

00:39:21,970 --> 00:39:19,040

can't do that here it's illegal it's

820

00:39:24,100 --> 00:39:21,980

against federal law but Native American

821

00:39:26,620 --> 00:39:24,110

what what what is what isn't against

822

00:39:28,630 --> 00:39:26,630

federal law yeah well there you go well

823

00:39:31,480 --> 00:39:28,640

it's really this thing here with the

824

00:39:33,520 --> 00:39:31,490

disaster in in Puerto Rico they can't

825

00:39:36,790 --> 00:39:33,530

land the ships there because of some

826  
00:39:38,650 --> 00:39:36,800  
bogus law I mean yeah yeah pretty good

827  
00:39:40,210 --> 00:39:38,660  
ships from other countries or or

828  
00:39:42,490 --> 00:39:40,220  
something like that that that's that's

829  
00:39:44,890 --> 00:39:42,500  
just insane I mean no matter where you

830  
00:39:47,950 --> 00:39:44,900  
go it's it's the world is insane

831  
00:39:51,250 --> 00:39:47,960  
by the way Puerto Rico has mounds and

832  
00:39:53,920 --> 00:39:51,260  
large cotton large complexes of mounds

833  
00:39:56,680 --> 00:39:53,930  
just like we do here the Puerto Rican

834  
00:40:01,480 --> 00:39:56,690  
government actually would I did work for

835  
00:40:04,780 --> 00:40:01,490  
them back in 1990 for about eight weeks

836  
00:40:07,000 --> 00:40:04,790  
and they took me around all and a limo

837  
00:40:08,710 --> 00:40:07,010  
they took me to all these sites around

838  
00:40:11,770 --> 00:40:08,720

the island where there were Indian

839

00:40:14,470 --> 00:40:11,780

mounds just amazing they were in Cuba

840

00:40:17,080 --> 00:40:14,480

there all over South America actually

841

00:40:18,520 --> 00:40:17,090

has the oldest ones in the world the

842

00:40:22,750 --> 00:40:18,530

oldest mounds in the world are in South

843

00:40:25,600 --> 00:40:22,760

America and they go back to ten thousand

844

00:40:29,800 --> 00:40:25,610

five hundred years ago now here in

845

00:40:31,870 --> 00:40:29,810

Indiana you know we we have mountains

846

00:40:34,930 --> 00:40:31,880

just you know all over the place we have

847

00:40:36,820 --> 00:40:34,940

several several state parks that are

848

00:40:38,320 --> 00:40:36,830

actually you know dedicated to you know

849

00:40:41,280 --> 00:40:38,330

some of the largest ones but we also

850

00:40:45,340 --> 00:40:41,290

have you know just just all kinds of

851  
00:40:47,140 --> 00:40:45,350  
smaller ones that are on private

852  
00:40:52,000 --> 00:40:47,150  
property people really don't know about

853  
00:40:55,420 --> 00:40:52,010  
and I some of the Native Americans you

854  
00:40:58,060 --> 00:40:55,430  
know who trace our ancestry value like

855  
00:41:02,770 --> 00:40:58,070  
the Miami and some of the others you

856  
00:41:06,040 --> 00:41:02,780  
know they they say that we may have used

857  
00:41:08,560 --> 00:41:06,050  
them but we didn't build them well yeah

858  
00:41:10,870 --> 00:41:08,570  
that's that's actually statements that

859  
00:41:13,210 --> 00:41:10,880  
you can find in books from the 1800s and

860  
00:41:16,390 --> 00:41:13,220  
1700s there in the old Smithsonian books

861  
00:41:17,320 --> 00:41:16,400  
too and that really goes to a culture

862  
00:41:19,750 --> 00:41:17,330  
with amnesia

863  
00:41:23,770 --> 00:41:19,760

and that term is not mine I kind of like

864

00:41:25,630 --> 00:41:23,780

it it was coined by felling by the name

865

00:41:29,340 --> 00:41:25,640

of Charles Hudson who was a an

866

00:41:30,820 --> 00:41:29,350

archaeologist Hudson and other

867

00:41:33,220 --> 00:41:30,830

archaeologists have studied very

868

00:41:35,800 --> 00:41:33,230

carefully what happened and I'll throw a

869

00:41:38,800 --> 00:41:35,810

number I've just just that's gonna make

870

00:41:41,710 --> 00:41:38,810

a maze any listeners you have and

871

00:41:45,010 --> 00:41:41,720

probably you guys when Columbus landed

872

00:41:48,070 --> 00:41:45,020

in 1492 which Columbus never sat foot in

873

00:41:50,770 --> 00:41:48,080

North America in his four trips he never

874

00:41:54,880 --> 00:41:50,780

got to North America but when Columbus

875

00:41:58,780 --> 00:41:54,890

got here archaeologists had but really

876

00:42:02,790 --> 00:41:58,790

believe that the basic population of the

877

00:42:06,340 --> 00:42:02,800

Americas was fifty-seven million people

878

00:42:09,790 --> 00:42:06,350

it was not a that most people think of

879

00:42:11,800 --> 00:42:09,800

it as a vast unexplored woodland where

880

00:42:14,050 --> 00:42:11,810

there was almost nobody here but some

881

00:42:17,470 --> 00:42:14,060

hunter-gatherers very primitive people

882

00:42:19,210 --> 00:42:17,480

but it was not that way at all the city

883

00:42:20,950 --> 00:42:19,220

of Cahokia which had a hundred and

884

00:42:22,630 --> 00:42:20,960

twenty mounds they know the minimum

885

00:42:24,490 --> 00:42:22,640

population of it was twenty-five

886

00:42:27,520 --> 00:42:24,500

thousand had probably had up to fifty

887

00:42:28,830 --> 00:42:27,530

thousand people which at the time was

888

00:42:37,180 --> 00:42:28,840

bigger than London

889

00:42:39,370 --> 00:42:37,190

no offense man but there were these

890

00:42:41,800 --> 00:42:39,380

cities all over I mean the Inca Empire

891

00:42:45,250 --> 00:42:41,810

the Incas had an army of a million

892

00:42:49,600 --> 00:42:45,260

people there were 17 million people in

893

00:42:51,670 --> 00:42:49,610

the population of the Inca alone it's

894

00:42:54,490 --> 00:42:51,680

the numbers of people that were in the

895

00:42:56,770 --> 00:42:54,500

Americas it's astonishing and we just

896

00:43:00,130 --> 00:42:56,780

don't recognize that but what happened

897

00:43:03,250 --> 00:43:00,140

was this by the year 1600 so you've got

898

00:43:08,380 --> 00:43:03,260

roughly a hundred years from 1500 to

899

00:43:11,140 --> 00:43:08,390

1600 90 to 95% of the population the

900

00:43:14,650 --> 00:43:11,150

indigenous populations were dead they

901  
00:43:17,200 --> 00:43:14,660  
died and the numbers fell that far all

902  
00:43:18,700 --> 00:43:17,210  
the old people died they died of

903  
00:43:21,520 --> 00:43:18,710  
diseases that were carried over

904  
00:43:23,680 --> 00:43:21,530  
primarily by the Spanish I mean Cuba and

905  
00:43:26,950 --> 00:43:23,690  
there's these stories about Cuba and

906  
00:43:30,610 --> 00:43:26,960  
Hispaniola and how literally every man

907  
00:43:31,190 --> 00:43:30,620  
woman and child died so in the Americas

908  
00:43:38,180 --> 00:43:31,200  
as the

909  
00:43:41,089 --> 00:43:38,190  
the early 1500s they would literally

910  
00:43:42,680 --> 00:43:41,099  
wipe out through disease and actually

911  
00:43:46,280 --> 00:43:42,690  
they killed a lot but they didn't kill

912  
00:43:48,620 --> 00:43:46,290  
50 million people but that what they did

913  
00:43:51,319 --> 00:43:48,630

was leave behind these diseases that the

914

00:43:54,560 --> 00:43:51,329

Native Americans had virtually no

915

00:43:58,280 --> 00:43:54,570

resistance to at all things that the

916

00:43:59,810 --> 00:43:58,290

Spanish had had long had you know they'd

917

00:44:01,849 --> 00:43:59,820

long had these diseases but they had

918

00:44:05,089 --> 00:44:01,859

some resistance to him people didn't die

919

00:44:07,400 --> 00:44:05,099

of chicken pox but the Native Americans

920

00:44:09,589 --> 00:44:07,410

did and they died of all sorts of

921

00:44:12,260 --> 00:44:09,599

diseases that were carried in and so

922

00:44:14,599 --> 00:44:12,270

what was left were people who were

923

00:44:16,430 --> 00:44:14,609

trying to escape the towns in the cities

924

00:44:18,650 --> 00:44:16,440

because everybody there was dead in fact

925

00:44:21,950 --> 00:44:18,660

they the explorers that went up and down

926

00:44:24,859 --> 00:44:21,960

the Mississippi in 1700 found these

927

00:44:27,740 --> 00:44:24,869

large abandoned villages with skeletons

928

00:44:30,920 --> 00:44:27,750

everywhere so the whole village would

929

00:44:33,290 --> 00:44:30,930

die off and then whoever was left they

930

00:44:35,329 --> 00:44:33,300

left because it was seen as an evil

931

00:44:37,220 --> 00:44:35,339

place and they didn't go back so when

932

00:44:39,260 --> 00:44:37,230

the first explorers started finding the

933

00:44:41,420 --> 00:44:39,270

mounds they asked the indigenous people

934

00:44:43,490 --> 00:44:41,430

the few that were there who built these

935

00:44:47,000 --> 00:44:43,500

and they said we don't know we didn't do

936

00:44:49,910 --> 00:44:47,010

it and that that is the amnesia you can

937

00:44:52,220 --> 00:44:49,920

you can when you destroy a culture that

938

00:44:53,829 --> 00:44:52,230

doesn't have things in writing or

939

00:44:57,109 --> 00:44:53,839

doesn't have the cloud to store it in

940

00:44:59,569 --> 00:44:57,119

you destroy all that knowledge and so

941

00:45:01,790 --> 00:44:59,579

they just didn't remember anymore and

942

00:45:05,059 --> 00:45:01,800

all this is is very well documented very

943

00:45:07,670 --> 00:45:05,069

well known the ancestors of the Native

944

00:45:09,559 --> 00:45:07,680

Americans did build the mounds but the

945

00:45:11,329 --> 00:45:09,569

question then becomes who exactly were

946

00:45:13,370 --> 00:45:11,339

the ancestors of the Native Americans

947

00:45:16,880 --> 00:45:13,380

and when did it when did they come over

948

00:45:19,790 --> 00:45:16,890

here and everything in that has changed

949

00:45:22,400 --> 00:45:19,800

since 1997 since a lot of discoveries

950

00:45:25,430 --> 00:45:22,410

then and just recent discoveries have

951  
00:45:27,650 --> 00:45:25,440  
changed that dramatically - that was

952  
00:45:29,240 --> 00:45:27,660  
going to be by my next question is I

953  
00:45:32,800 --> 00:45:29,250  
mean what we've got about three minutes

954  
00:45:36,589 --> 00:45:32,810  
unfortunately dollar Nets break so uh

955  
00:45:38,780 --> 00:45:36,599  
any estimation on when these mound

956  
00:45:41,000 --> 00:45:38,790  
builders to actually flourished

957  
00:45:43,640 --> 00:45:41,010  
well the mound builders in in North

958  
00:45:44,720 --> 00:45:43,650  
America flourished from roughly 4000 BC

959  
00:45:47,600 --> 00:45:44,730  
up to about the year

960  
00:45:49,400 --> 00:45:47,610  
1,400 in South America they start right

961  
00:45:52,960 --> 00:45:49,410  
now the earliest we know that they

962  
00:45:56,030 --> 00:45:52,970  
started as around 8,500 BC where or

963  
00:45:58,220 --> 00:45:56,040

10,500 years ago but South America was

964

00:46:00,110 --> 00:45:58,230

inhabited problem I mean there's there's

965

00:46:01,970 --> 00:46:00,120

no doubt among South American

966

00:46:04,970 --> 00:46:01,980

archaeologist it was inhabited at least

967

00:46:06,640 --> 00:46:04,980

fifty thousand years ago fifty thousand

968

00:46:08,120 --> 00:46:06,650

years and some South American

969

00:46:11,450 --> 00:46:08,130

archaeologists have found strong

970

00:46:15,470 --> 00:46:11,460

evidence that goes back as long as two

971

00:46:17,990 --> 00:46:15,480

hundred and fifty thousand years that's

972

00:46:21,260 --> 00:46:18,000

incredible I mean you look at the core

973

00:46:23,540 --> 00:46:21,270

the less I say exactly a article that

974

00:46:26,930 --> 00:46:23,550

came out today and science magazine said

975

00:46:28,730 --> 00:46:26,940

that in California it's very clear

976  
00:46:30,200 --> 00:46:28,740  
evidence there were people there by one

977  
00:46:32,690 --> 00:46:30,210  
hundred and thirty thousand years ago

978  
00:46:34,760 --> 00:46:32,700  
which which they weren't humans as we

979  
00:46:37,300 --> 00:46:34,770  
know them they actually believe they

980  
00:46:40,910 --> 00:46:37,310  
were either Neanderthal or Denis seven

981  
00:46:43,430 --> 00:46:40,920  
and that's that's the rub because I know

982  
00:46:44,690 --> 00:46:43,440  
for generations archaeologists are you

983  
00:46:47,270 --> 00:46:44,700  
know saying that there was there's no

984  
00:46:49,880 --> 00:46:47,280  
evidence that there was any you know

985  
00:46:52,040 --> 00:46:49,890  
subspecies of humans you know occupation

986  
00:46:53,870 --> 00:46:52,050  
occupying the the North and South

987  
00:46:57,470 --> 00:46:53,880  
American continent and that that's

988  
00:47:00,110 --> 00:46:57,480

actually the true in that that's what

989

00:47:03,020 --> 00:47:00,120

they've written but there are ten twelve

990

00:47:05,870 --> 00:47:03,030

reports Neanderthal remains found in the

991

00:47:07,070 --> 00:47:05,880

Americas archeologists say well they're

992

00:47:10,100 --> 00:47:07,080

not in the Andrew falls and they've

993

00:47:12,410 --> 00:47:10,110

never tested them and now they can

994

00:47:16,190 --> 00:47:12,420

because the laws preclude testing any

995

00:47:17,780 --> 00:47:16,200

Native American remains and then the

996

00:47:19,730 --> 00:47:17,790

loss preclude digging into the mounds

997

00:47:22,250 --> 00:47:19,740

now you can't do the archaeologists

998

00:47:24,530 --> 00:47:22,260

can't even dig into mounds anymore which

999

00:47:27,470 --> 00:47:24,540

which is bizarre if you think about it

1000

00:47:29,950 --> 00:47:27,480

it's just destroyed their field hmm well

1001  
00:47:32,300 --> 00:47:29,960  
I mean considering that so many of them

1002  
00:47:36,650 --> 00:47:32,310  
over the years have been destroyed by

1003  
00:47:39,980 --> 00:47:36,660  
farmers and you know and and the like so

1004  
00:47:42,440 --> 00:47:39,990  
it's unfortunate that nothing further

1005  
00:47:44,600 --> 00:47:42,450  
can be done with them but we're gonna

1006  
00:47:47,300 --> 00:47:44,610  
have to leave it at that because we are

1007  
00:47:48,560 --> 00:47:47,310  
at the top of the hour break so when we

1008  
00:47:51,250 --> 00:47:48,570  
come back we will continue our

1009  
00:47:54,080 --> 00:47:51,260  
conversation with dr. Greg little and

1010  
00:47:56,630 --> 00:47:54,090  
Maria with Wheatley and you are

1011  
00:47:58,400 --> 00:47:56,640  
listening to exploring the bizarre on

1012  
00:48:01,190 --> 00:47:58,410  
the K cor

1013  
00:48:14,880 --> 00:48:01,200

digital radio network so please stay

1014

00:48:21,840 --> 00:48:19,360

explode the bazaars or e-ticket ride

1015

00:48:25,120 --> 00:48:21,850

into the world of the paranoid

1016

00:48:29,430 --> 00:48:25,130

strap yourself in as we traverse the

1017

00:48:32,550 --> 00:48:29,440

universe exploring the unexplained UFO s

1018

00:48:34,930 --> 00:48:32,560

ghosts lost world

1019

00:48:38,770 --> 00:48:34,940

cryptozoology waters as well as other

1020

00:48:43,150 --> 00:48:38,780

dimensions it's time to take back the

1021

00:48:46,420 --> 00:48:43,160

night last night now your electrifying

1022

00:48:51,280 --> 00:48:46,430

hosts of exploring the bizarre Timothy

1023

00:48:53,110 --> 00:48:51,290

Beckley and Tim Schwartz welcome back to

1024

00:48:55,420 --> 00:48:53,120

the second hour of exploring the bizarre

1025

00:48:58,360 --> 00:48:55,430

I'm Tim Schwartz and tonight we are

1026  
00:49:01,750 --> 00:48:58,370  
talking with Maria Whitley and dr. Greg

1027  
00:49:04,390 --> 00:49:01,760  
little and there's just so many subjects

1028  
00:49:06,760 --> 00:49:04,400  
that I know Tim and myself want to want

1029  
00:49:07,630 --> 00:49:06,770  
to cover so let's let's get right back

1030  
00:49:12,670 --> 00:49:07,640  
into it

1031  
00:49:16,150 --> 00:49:12,680  
so Maria I wanted to ask you about the

1032  
00:49:17,320 --> 00:49:16,160  
elongated skulls of Stonehenge now why

1033  
00:49:20,440 --> 00:49:17,330  
don't you tell us a little bit about

1034  
00:49:23,230 --> 00:49:20,450  
that yes I mean Stonehenge has had many

1035  
00:49:27,220 --> 00:49:23,240  
different phases and in what's called

1036  
00:49:29,740 --> 00:49:27,230  
phase one of Stonehenge it was quite a

1037  
00:49:32,350 --> 00:49:29,750  
different monuments that had 56 blue

1038  
00:49:35,800 --> 00:49:32,360

stones in a very large circle surrounded

1039

00:49:37,450 --> 00:49:35,810

by a type of henge it was a ditch on the

1040

00:49:39,520 --> 00:49:37,460

inside a mound and a ditch on the

1041

00:49:41,820 --> 00:49:39,530

outside as well it was very different to

1042

00:49:43,570 --> 00:49:41,830

the henge that Greg was talking about

1043

00:49:46,660 --> 00:49:43,580

all like Avebury

1044

00:49:50,250 --> 00:49:46,670

so that was phase one it's called a

1045

00:49:54,430 --> 00:49:50,260

Neolithic monuments and in that era the

1046

00:49:56,470 --> 00:49:54,440

ancients used to make mounds very long

1047

00:50:00,130 --> 00:49:56,480

mounds we call them over here or long

1048

00:50:02,140 --> 00:50:00,140

barrows some can be very very large and

1049

00:50:04,240 --> 00:50:02,150

one of the largest in the world are

1050

00:50:06,670 --> 00:50:04,250

actually certainly in northwest Europe

1051  
00:50:09,430 --> 00:50:06,680  
is located on the Salisbury Plain which

1052  
00:50:11,710 --> 00:50:09,440  
is situated it's all about five or so

1053  
00:50:15,010 --> 00:50:11,720  
miles from Stonehenge it was a gigantic

1054  
00:50:17,380 --> 00:50:15,020  
a long mound some of the long mounds did

1055  
00:50:19,300 --> 00:50:17,390  
contain burials some didn't contain

1056  
00:50:23,830 --> 00:50:19,310  
burials so you have lots of different

1057  
00:50:25,810 --> 00:50:23,840  
types of mounds in the UK and I in

1058  
00:50:28,300 --> 00:50:25,820  
started to investigate through dowsing

1059  
00:50:31,030 --> 00:50:28,310  
actually the different mound

1060  
00:50:33,250 --> 00:50:31,040  
along the sorcery plane and I kept

1061  
00:50:36,210 --> 00:50:33,260  
coming to one of the largest and I

1062  
00:50:39,490 --> 00:50:36,220  
investigated through antiquarian reports

1063  
00:50:41,190 --> 00:50:39,500

the type of you know interments the

1064

00:50:44,650 --> 00:50:41,200

people that were buried in the mounds

1065

00:50:46,540 --> 00:50:44,660

and I came across the the largest Barrow

1066

00:50:49,450 --> 00:50:46,550

contained just one person there's a

1067

00:50:51,700 --> 00:50:49,460

primary burial and it was a woman so I

1068

00:50:55,230 --> 00:50:51,710

decided to investigate it and that led

1069

00:50:57,550 --> 00:50:55,240

me to Cambridge University and the

1070

00:51:01,540 --> 00:50:57,560

antiquarians were always describing the

1071

00:51:03,550 --> 00:51:01,550

long scold people and when I saw her

1072

00:51:06,790 --> 00:51:03,560

skull at Cambridge University it was

1073

00:51:09,670 --> 00:51:06,800

very very long not like the kind of cone

1074

00:51:13,000 --> 00:51:09,680

heads of Peru but still the long scold

1075

00:51:16,450 --> 00:51:13,010

people of Europe and then after a while

1076

00:51:19,510 --> 00:51:16,460

and much research I found out that the

1077

00:51:22,240 --> 00:51:19,520

barrows the long barrows that surrounded

1078

00:51:25,780 --> 00:51:22,250

Stonehenge they were all murder victims

1079

00:51:27,940 --> 00:51:25,790

in there so the elongated people at some

1080

00:51:29,710 --> 00:51:27,950

point of phrase wand Stonehenge

1081

00:51:33,520 --> 00:51:29,720

roundabout sort of five and a half

1082

00:51:35,440 --> 00:51:33,530

thousand years ago had been murdered so

1083

00:51:38,340 --> 00:51:35,450

their their story is just kind of

1084

00:51:41,230 --> 00:51:38,350

emerging through through my my research

1085

00:51:43,360 --> 00:51:41,240

now what you say would you say murdered

1086

00:51:45,100 --> 00:51:43,370

I mean are we talking about like

1087

00:51:49,180 --> 00:51:45,110

invasion from a you know like a

1088

00:51:53,020 --> 00:51:49,190

neighboring tribe or sacrifice or just

1089

00:51:55,690 --> 00:51:53,030

you know what are you referring to Sodom

1090

00:51:59,050 --> 00:51:55,700

showed defense wounds so they and one

1091

00:52:01,150 --> 00:51:59,060

was beheaded at Stonehenge there was one

1092

00:52:04,060 --> 00:52:01,160

Barrow for example called Bowles burrow

1093

00:52:06,040 --> 00:52:04,070

which is in the military area because we

1094

00:52:08,460 --> 00:52:06,050

must remember Stonehenge is surrounded

1095

00:52:10,900 --> 00:52:08,470

by military establishment after military

1096

00:52:13,780 --> 00:52:10,910

establishment and some areas of the

1097

00:52:17,860 --> 00:52:13,790

Salisbury Plain you can't have access to

1098

00:52:19,990 --> 00:52:17,870

it's just owned run by the military so

1099

00:52:21,640 --> 00:52:20,000

on the the military side of the

1100

00:52:23,860 --> 00:52:21,650

Salisbury Plain you have Bowles Barrow

1101  
00:52:26,740 --> 00:52:23,870  
and that contained round about sort of

1102  
00:52:29,820 --> 00:52:26,750  
25 males of all different ages young

1103  
00:52:33,310 --> 00:52:29,830  
boys to older men men in their prime

1104  
00:52:36,310 --> 00:52:33,320  
predominantly that were all murdered so

1105  
00:52:38,740 --> 00:52:36,320  
it seems that there was not there must

1106  
00:52:41,049 --> 00:52:38,750  
have been some clash at some point and

1107  
00:52:44,140 --> 00:52:41,059  
it's interesting to note

1108  
00:52:46,959 --> 00:52:44,150  
in the research that I did that the long

1109  
00:52:50,890 --> 00:52:46,969  
barrows contained long scold people and

1110  
00:52:54,069 --> 00:52:50,900  
then round about 2500 BC if we use

1111  
00:52:57,429 --> 00:52:54,079  
Orthodox Dayton system the culture

1112  
00:53:00,309 --> 00:52:57,439  
changed it went to creating much more

1113  
00:53:03,880 --> 00:53:00,319

round earth stone circles and round

1114

00:53:06,729 --> 00:53:03,890

barrows akin to the ones in Ohio or very

1115

00:53:09,489 --> 00:53:06,739

similar to those in there in that part

1116

00:53:13,089 --> 00:53:09,499

of America but they only contained

1117

00:53:15,249 --> 00:53:13,099

skulls of a much rounded round skulls

1118

00:53:18,159 --> 00:53:15,259

type of person so I think there maybe

1119

00:53:20,829 --> 00:53:18,169

have been a clash between the long scold

1120

00:53:25,739 --> 00:53:20,839

people of the Salisbury Plain and the

1121

00:53:29,699 --> 00:53:25,749

the round scold people when all we see

1122

00:53:34,469 --> 00:53:29,709

throughout history all across the planet

1123

00:53:42,390 --> 00:53:34,479

the same kind of you know elongating of

1124

00:53:46,269 --> 00:53:42,400

skulls usually by boarding babies and

1125

00:53:48,699 --> 00:53:46,279

were the elongated skulls found in that

1126

00:53:53,579 --> 00:53:48,709

area you know brought about the same way

1127

00:53:55,239 --> 00:53:53,589

or was this a you know a natural

1128

00:53:55,929 --> 00:53:55,249

circumstance they were that they were

1129

00:53:58,839 --> 00:53:55,939

born that way

1130

00:54:00,849 --> 00:53:58,849

or does anybody really know that's a

1131

00:54:04,390 --> 00:54:00,859

really good question and to be truthful

1132

00:54:07,209 --> 00:54:04,400

that hasn't been addressed me look they

1133

00:54:09,039 --> 00:54:07,219

look like they are you know a long scold

1134

00:54:11,229 --> 00:54:09,049

race and if you have look across

1135

00:54:13,509 --> 00:54:11,239

prehistoric Europe to the the French

1136

00:54:15,819 --> 00:54:13,519

monuments and beyond in Sardinia and

1137

00:54:18,519 --> 00:54:15,829

places like that they do seem to be long

1138

00:54:20,799 --> 00:54:18,529

scaled which and Malta was reported to

1139

00:54:22,839 --> 00:54:20,809

have long scold people as well so it's

1140

00:54:24,819 --> 00:54:22,849

probably you know quite a natural race

1141

00:54:27,039 --> 00:54:24,829

but there was evidence from one Long

1142

00:54:30,370 --> 00:54:27,049

Barrow on the source we planed that said

1143

00:54:33,309 --> 00:54:30,380

of boarding which was recorded by an

1144

00:54:35,289 --> 00:54:33,319

antiquarian so it could have been that

1145

00:54:37,299 --> 00:54:35,299

some people were bored in their heads to

1146

00:54:39,429 --> 00:54:37,309

look like these people because not

1147

00:54:41,589 --> 00:54:39,439

everybody in Neolithic Britain around

1148

00:54:45,159 --> 00:54:41,599

Stonehenge or Avery or any of the

1149

00:54:46,630 --> 00:54:45,169

monuments went into these mounds and I

1150

00:54:48,519 --> 00:54:46,640

think that was their secondary use

1151  
00:54:51,309 --> 00:54:48,529  
anyway I think they're much much older

1152  
00:54:53,229 --> 00:54:51,319  
and they were reused by the Neolithic

1153  
00:54:55,320 --> 00:54:53,239  
people five and a half thousand years

1154  
00:54:56,880 --> 00:54:55,330  
ago to place the long skulls in

1155  
00:55:00,330 --> 00:54:56,890  
long bones in I think they actually

1156  
00:55:02,760 --> 00:55:00,340  
predate that personally and go back much

1157  
00:55:04,560 --> 00:55:02,770  
much further but not everybody went into

1158  
00:55:05,130 --> 00:55:04,570  
these mounds there was a lot of flat

1159  
00:55:08,670 --> 00:55:05,140  
graves

1160  
00:55:11,670 --> 00:55:08,680  
so it's presumed that the elite went

1161  
00:55:13,620 --> 00:55:11,680  
into these mounds like the [h\_\_h] her

1162  
00:55:16,860 --> 00:55:13,630  
royalty or high priests or high

1163  
00:55:21,330 --> 00:55:16,870

processes so they just a fraction of the

1164

00:55:26,910 --> 00:55:21,340

the much wider community oh yeah that's

1165

00:55:29,340 --> 00:55:26,920

always the case isn't it that's right

1166

00:55:30,500 --> 00:55:29,350

yeah nothing the more things change the

1167

00:55:34,110 --> 00:55:30,510

more they stay the same

1168

00:55:36,810 --> 00:55:34,120

no something very similar can I jump in

1169

00:55:39,540 --> 00:55:36,820

a sec oh yes please do okay very similar

1170

00:55:43,980 --> 00:55:39,550

in America in the Idina Europe mounds

1171

00:55:47,520 --> 00:55:43,990

the Idina mounds are much older roughly

1172

00:55:50,250 --> 00:55:47,530

a thousand BC to 2000 BC they're almost

1173

00:55:53,760 --> 00:55:50,260

always conical mounds that had a moat

1174

00:55:56,550 --> 00:55:53,770

around them and at the in the base of

1175

00:55:58,920 --> 00:55:56,560

those mounds was almost always a called

1176

00:56:01,680 --> 00:55:58,930

a royal tomb but the truth is they they

1177

00:56:04,110 --> 00:56:01,690

generally were not the chieftains they

1178

00:56:10,040 --> 00:56:04,120

were the priests and the Shaymin and

1179

00:56:13,980 --> 00:56:10,050

they those Adina tombs are the source of

1180

00:56:16,290 --> 00:56:13,990

numerous skeletons that were recovered

1181

00:56:19,170 --> 00:56:16,300

by the Smithsonian archaeologists this

1182

00:56:23,220 --> 00:56:19,180

is mainstream archaeology that were 7 to

1183

00:56:26,360 --> 00:56:23,230

8 feet in height enormous ly tall people

1184

00:56:29,100 --> 00:56:26,370

far too tall

1185

00:56:32,430 --> 00:56:29,110

they just didn't fit people at that time

1186

00:56:33,750 --> 00:56:32,440

average 5 feet 4 inches in height that's

1187

00:56:37,410 --> 00:56:33,760

known that the that's what the

1188

00:56:39,840 --> 00:56:37,420

population measured but in out of these

1189

00:56:42,840 --> 00:56:39,850

Edina mounds for example the Smithsonian

1190

00:56:46,110 --> 00:56:42,850

found 17 of the 7 foot to 8 foot tall

1191

00:56:49,530 --> 00:56:46,120

skeletons from Edina mounds and most of

1192

00:56:53,220 --> 00:56:49,540

these were found in West Virginia along

1193

00:56:54,990 --> 00:56:53,230

the Kanawha River and the Ohio River so

1194

00:56:59,090 --> 00:56:55,000

it's it's something that's very similar

1195

00:57:04,320 --> 00:56:59,100

to what has been found in in England hey

1196

00:57:06,360 --> 00:57:04,330

Maria who was the high Queen well that

1197

00:57:08,290 --> 00:57:06,370

was the the lady that came out of the

1198

00:57:11,060 --> 00:57:08,300

the largest long mound on

1199

00:57:13,880 --> 00:57:11,070

Salisbury Plain and what she could have

1200

00:57:16,580 --> 00:57:13,890

been a high priest ass high queen nobody

1201  
00:57:19,070 --> 00:57:16,590  
really knows that but she she was kind

1202  
00:57:21,050 --> 00:57:19,080  
of ceremonially placed within within

1203  
00:57:24,350 --> 00:57:21,060  
that long man so I think she must have

1204  
00:57:27,890 --> 00:57:24,360  
her generated some very you know respect

1205  
00:57:30,770 --> 00:57:27,900  
and int in the area of her era we have

1206  
00:57:34,580 --> 00:57:30,780  
some of the most intriguing earthworks

1207  
00:57:37,610 --> 00:57:34,590  
in England for example one of which

1208  
00:57:40,310 --> 00:57:37,620  
stood originally in front of stonehenge

1209  
00:57:42,170 --> 00:57:40,320  
called the cursus monument and to him to

1210  
00:57:44,630 --> 00:57:42,180  
visualize what the cursus monument

1211  
00:57:47,240 --> 00:57:44,640  
looked like we imagined some very tall

1212  
00:57:51,650 --> 00:57:47,250  
earthworks made of chalk chalk block

1213  
00:57:53,750 --> 00:57:51,660

going for 1.75 miles long that stood in

1214

00:57:57,260 --> 00:57:53,760

front of Stonehenge with chalk walls

1215

00:57:59,830 --> 00:57:57,270

probably about between six and ten feet

1216

00:58:02,510 --> 00:57:59,840

high and they created these massive

1217

00:58:06,680 --> 00:58:02,520

curtus monuments and one of which in

1218

00:58:08,300 --> 00:58:06,690

Dorset is seven miles long so they could

1219

00:58:12,140 --> 00:58:08,310

they created some of the most very

1220

00:58:16,280 --> 00:58:12,150

sophisticated monuments long before the

1221

00:58:17,900 --> 00:58:16,290

henge monument came into being and Greg

1222

00:58:21,440 --> 00:58:17,910

was just saying about the heights the

1223

00:58:23,630 --> 00:58:21,450

height of this queen or priestess with

1224

00:58:26,270 --> 00:58:23,640

the elongated skull that came from the

1225

00:58:29,360 --> 00:58:26,280

long mound she was about five feet four

1226  
00:58:31,550 --> 00:58:29,370  
inches tall they were quite short but in

1227  
00:58:34,720 --> 00:58:31,560  
my research of looking at antiquarian

1228  
00:58:38,270 --> 00:58:34,730  
reports of Stonehenge from a much later

1229  
00:58:40,130 --> 00:58:38,280  
mound which is we have round barrows

1230  
00:58:42,680 --> 00:58:40,140  
aren't just conical if you look at a

1231  
00:58:44,600 --> 00:58:42,690  
barrow the the ones that are very large

1232  
00:58:47,270 --> 00:58:44,610  
they're called bail barrows over here

1233  
00:58:49,550 --> 00:58:47,280  
they probably contained more males and

1234  
00:58:52,160 --> 00:58:49,560  
the ball barrows which a bit more

1235  
00:58:54,350 --> 00:58:52,170  
rounder contained females than we had

1236  
00:58:59,660 --> 00:58:54,360  
barrows that go into the ground like

1237  
00:59:01,730 --> 00:58:59,670  
pond barrows and from one of the roundel

1238  
00:59:04,970 --> 00:59:01,740

of the later Bronze Age round barrows

1239

00:59:07,640 --> 00:59:04,980

around Stonehenge came a 13-foot

1240

00:59:09,530 --> 00:59:07,650

skeleton so there there what that was

1241

00:59:11,930 --> 00:59:09,540

post was very tall but that was kind of

1242

00:59:14,870 --> 00:59:11,940

and there was some very large skeletons

1243

00:59:19,340 --> 00:59:14,880

found outside of the Salisbury Plain

1244

00:59:22,040 --> 00:59:19,350

well that's a 13 is room 13 I mean it

1245

00:59:24,150 --> 00:59:22,050

defies logic almost

1246

00:59:26,940 --> 00:59:24,160

absolutely it is certainly defied the

1247

00:59:30,839 --> 00:59:26,950

antiquarian that put it on to the dining

1248

00:59:33,900 --> 00:59:30,849

room table at the time to measure is it

1249

00:59:37,620 --> 00:59:33,910

is it on display somewhere know that

1250

00:59:41,160 --> 00:59:37,630

there's only an antiquarian report about

1251

00:59:43,470 --> 00:59:41,170

that skeleton it where it is I've not

1252

00:59:46,140 --> 00:59:43,480

been able to track it down the the

1253

00:59:47,790 --> 00:59:46,150

heights of the other Bronze Age people

1254

00:59:50,700 --> 00:59:47,800

that's about from four and a half

1255

00:59:55,280 --> 00:59:50,710

thousand years ago they were just

1256

00:59:58,620 --> 00:59:55,290

described as very tall or stout by the

1257

01:00:00,780 --> 00:59:58,630

antiquarian such as Sir Richard Hor and

1258

01:00:04,140 --> 01:00:00,790

many many others William Stutely John

1259

01:00:06,270 --> 01:00:04,150

Aubrey who recorded them and where they

1260

01:00:07,950 --> 01:00:06,280

are again you have to try and track them

1261

01:00:10,109 --> 01:00:07,960

down a lot of the skeletons from

1262

01:00:13,620 --> 01:00:10,119

Stonehenge and Avery went see Eva

1263

01:00:15,630 --> 01:00:13,630

Cambridge or Oxford but even then trying

1264

01:00:18,870 --> 01:00:15,640

to track them down is very difficult

1265

01:00:21,810 --> 01:00:18,880

well no when you say Stonehenge how

1266

01:00:25,770 --> 01:00:21,820

close to Stonehenge were they were they

1267

01:00:28,320 --> 01:00:25,780

discovered 13 foot giant was according

1268

01:00:31,710 --> 01:00:28,330

to antiquarian report within two miles

1269

01:00:34,020 --> 01:00:31,720

of Stonehenge the other large people are

1270

01:00:37,560 --> 01:00:34,030

in a place were interned in a place

1271

01:00:40,320 --> 01:00:37,570

called wood Yeates which is probably

1272

01:00:42,859 --> 01:00:40,330

about sort of ten ten fifteen miles

1273

01:00:46,260 --> 01:00:42,869

outside of Stonehenge

1274

01:00:48,480 --> 01:00:46,270

now you know we had a fellow here in the

1275

01:00:51,690 --> 01:00:48,490

States who passed away a couple years

1276

01:00:54,329 --> 01:00:51,700

ago by named Lloyd Pye and he had done a

1277

01:00:57,120 --> 01:00:54,339

research on these elongated skulls and

1278

01:00:59,750 --> 01:00:57,130

he came to the conclusion at least the

1279

01:01:03,180 --> 01:00:59,760

one that he had was an extraterrestrial

1280

01:01:05,210 --> 01:01:03,190

origin and I know they tried to do some

1281

01:01:08,339 --> 01:01:05,220

DNA testing on it but I don't know

1282

01:01:13,470 --> 01:01:08,349

whether before he passed away any of

1283

01:01:15,829 --> 01:01:13,480

that was ever completed has there have

1284

01:01:18,930 --> 01:01:15,839

been any speculation that the this

1285

01:01:22,859 --> 01:01:18,940

elongated skull people may not have been

1286

01:01:24,990 --> 01:01:22,869

of the earth a lot of people do do

1287

01:01:26,520 --> 01:01:25,000

suggest that they could be aliens I mean

1288

01:01:28,589 --> 01:01:26,530

she looked very human to me but I've

1289

01:01:30,690 --> 01:01:28,599

never met an alien to compare with and

1290

01:01:34,890 --> 01:01:30,700

I'm very very open-minded

1291

01:01:35,700 --> 01:01:34,900

yes but across Europe I think that if

1292

01:01:37,530 --> 01:01:35,710

you start

1293

01:01:41,700 --> 01:01:37,540

to do the research there was an or it

1294

01:01:45,599 --> 01:01:41,710

was a lot of long scold people I each of

1295

01:01:49,730 --> 01:01:45,609

Egypt - right absolutely I mean in Egypt

1296

01:01:53,490 --> 01:01:49,740

in Malta in Sardinia in France it was

1297

01:01:56,130 --> 01:01:53,500

common to have long skulls same in

1298

01:01:57,240 --> 01:01:56,140

Americas North and South America ancient

1299

01:01:59,460 --> 01:01:57,250

cultures same thing

1300

01:02:04,290 --> 01:01:59,470

well now what what is the current

1301

01:02:06,440 --> 01:02:04,300

thinking by the the academic community

1302

01:02:09,359 --> 01:02:06,450

on this I mean is this something they

1303

01:02:11,760 --> 01:02:09,369

would like to it just do away with it

1304

01:02:14,339 --> 01:02:11,770

not acknowledge or do they acknowledge

1305

01:02:17,940 --> 01:02:14,349

that there are these elongated skull

1306

01:02:21,180 --> 01:02:17,950

people well I went to Cambridge sorry

1307

01:02:24,060 --> 01:02:21,190

carry on no go ahead please when I went

1308

01:02:26,520 --> 01:02:24,070

to Cambridge University the the skulls

1309

01:02:29,359 --> 01:02:26,530

with the long skulls hadn't been

1310

01:02:32,130 --> 01:02:29,369

actually seen since the 1930s

1311

01:02:33,839 --> 01:02:32,140

nobody had realized until my research

1312

01:02:36,420 --> 01:02:33,849

that though that they these people were

1313

01:02:38,880 --> 01:02:36,430

surrounding Stonehenge so it's almost

1314

01:02:41,700 --> 01:02:38,890

like they had been forgotten about now

1315

01:02:46,170 --> 01:02:41,710

do you have any photographs of the bones

1316

01:02:48,570 --> 01:02:46,180

in the skulls or yes I took several folk

1317

01:02:50,670 --> 01:02:48,580

photographs when I was at Cambridge and

1318

01:02:53,880 --> 01:02:50,680

since then I've tracked down quite a few

1319

01:02:58,560 --> 01:02:53,890

and quite a few giants as well this is a

1320

01:03:01,320 --> 01:02:58,570

this is amazing stuff I I mean it it is

1321

01:03:03,900 --> 01:03:01,330

it's just like I mean I don't expect it

1322

01:03:05,790 --> 01:03:03,910

to be on the the front page well it

1323

01:03:07,560 --> 01:03:05,800

should be in the New York Times I mean I

1324

01:03:11,250 --> 01:03:07,570

don't know if on the front page

1325

01:03:14,270 --> 01:03:11,260

have there been articles written on this

1326

01:03:16,440 --> 01:03:14,280

and the in the mainstream press or in

1327

01:03:20,550 --> 01:03:16,450

archeological journals if there are such

1328

01:03:23,390 --> 01:03:20,560

a thing you know no I I did write

1329

01:03:26,280 --> 01:03:23,400

several for a prestigious British

1330

01:03:30,210 --> 01:03:26,290

archaeological magazine but it got

1331

01:03:32,099 --> 01:03:30,220

rejected Jesus so there's not much

1332

01:03:34,859 --> 01:03:32,109

support but that said when I gave a

1333

01:03:37,260 --> 01:03:34,869

lecture on the long skull people of

1334

01:03:39,870 --> 01:03:37,270

Stonehenge a top archaeologist was in

1335

01:03:42,540 --> 01:03:39,880

the audience taking notes so perhaps

1336

01:03:45,800 --> 01:03:42,550

it'll go a bit more well he'll he'll

1337

01:03:49,620 --> 01:03:45,810

take he'll take credit for the discovery

1338

01:03:52,950 --> 01:03:49,630

no doubt now doctor little you

1339

01:03:54,599 --> 01:03:52,960

investigated all the this what I would

1340

01:03:58,920 --> 01:03:54,609

call alternative our archaeological

1341

01:04:01,319 --> 01:03:58,930

discoveries why is there such an attempt

1342

01:04:03,749 --> 01:04:01,329

to cover this up by the mainstream I

1343

01:04:06,539 --> 01:04:03,759

mean it's not like they're we're dealing

1344

01:04:09,059 --> 01:04:06,549

with aliens or some something so far nor

1345

01:04:11,069 --> 01:04:09,069

bizarre that it I mean with this change

1346

01:04:14,039 --> 01:04:11,079

our way of living or our thinking or

1347

01:04:19,410 --> 01:04:14,049

it's that important to these academic

1348

01:04:21,960 --> 01:04:19,420

types that they keep the status quo it

1349

01:04:24,059 --> 01:04:21,970

is important to them that they maintain

1350

01:04:27,269 --> 01:04:24,069

belief systems and I've written a lot

1351

01:04:29,690 --> 01:04:27,279

about the the underlying belief system

1352

01:04:33,630 --> 01:04:29,700

and the defense mechanisms that drive

1353

01:04:37,109 --> 01:04:33,640

skepticism and the they have an

1354

01:04:39,089 --> 01:04:37,119

inability to really consider that they

1355

01:04:41,099 --> 01:04:39,099

are wrong about something

1356

01:04:44,190 --> 01:04:41,109

do they ever research anything or do

1357

01:04:48,420 --> 01:04:44,200

they just write up a I have had contact

1358

01:04:52,710 --> 01:04:48,430

with most of the big-time skeptics in

1359

01:04:56,400 --> 01:04:52,720

America I have an in England and some of

1360

01:05:00,900 --> 01:04:56,410

them have been cordial to me others have

1361

01:05:03,150 --> 01:05:00,910

not been all that cordial and they don't

1362

01:05:04,950 --> 01:05:03,160

like things pointed out when they're

1363

01:05:08,370 --> 01:05:04,960

wrong let me give you an example there

1364

01:05:12,809 --> 01:05:08,380

is a big-time skeptic who is a professor

1365

01:05:14,759 --> 01:05:12,819

at in Connecticut very well-known has

1366

01:05:17,160 --> 01:05:14,769

written a lot of textbooks and in one of

1367

01:05:19,859 --> 01:05:17,170

his textbooks he said the father the

1368

01:05:21,990 --> 01:05:19,869

father and the of the ancient astronaut

1369

01:05:26,339 --> 01:05:22,000

theory and the very first person to ever

1370

01:05:29,039 --> 01:05:26,349

talk about it was in 1961 and his name

1371

01:05:31,559 --> 01:05:29,049

was Carl Sagan now you know that's not

1372

01:05:34,049 --> 01:05:31,569

true that he's not the father of it

1373

01:05:36,299 --> 01:05:34,059

Sagan did write an article about the sed

1374

01:05:38,430 --> 01:05:36,309

ancient astronaut theory but he's not

1375

01:05:40,349 --> 01:05:38,440

the father of the theory and he's not

1376

01:05:42,900 --> 01:05:40,359

the first person to ever talk about it I

1377

01:05:45,180 --> 01:05:42,910

mean it was it was discussed in a few

1378

01:05:48,660 --> 01:05:45,190

books in the late 40s but loads of books

1379

01:05:50,970 --> 01:05:48,670

in the early 50s oh my goodness yes and

1380

01:05:54,299 --> 01:05:50,980

but the archaeologist doesn't like that

1381

01:05:56,970 --> 01:05:54,309

he in his textbook which is used in

1382

01:05:58,589 --> 01:05:56,980

virtually all masters students in

1383

01:06:00,089 --> 01:05:58,599

archaeology in United States used that

1384

01:06:03,359 --> 01:06:00,099

textbook and they have to use that

1385

01:06:06,420 --> 01:06:03,369

textbook but he

1386

01:06:09,420 --> 01:06:06,430

they do not like to shake up the status

1387

01:06:12,239 --> 01:06:09,430

quo they were American Archaeology was

1388

01:06:14,640 --> 01:06:12,249

shaken to its roots in 1997 when the

1389

01:06:17,640 --> 01:06:14,650

Clovis first Theory collapsed which was

1390

01:06:23,220 --> 01:06:17,650

the idea that no one was in the Americas

1391

01:06:25,920 --> 01:06:23,230

until roughly 9600 BC when the land

1392

01:06:28,739 --> 01:06:25,930

bridge between Siberian Asia and an

1393

01:06:31,559 --> 01:06:28,749

Alaska opened up its called Beringia and

1394

01:06:35,609 --> 01:06:31,569

the very first people came over then and

1395

01:06:37,789 --> 01:06:35,619

they colonized the Americas from Canada

1396

01:06:40,499 --> 01:06:37,799

all the way down to the tip of Tierra

1397

01:06:41,910 --> 01:06:40,509

Tierra del Fuego and South America and

1398

01:06:44,400 --> 01:06:41,920

they did that within a few thousand

1399

01:06:47,789 --> 01:06:44,410

years that has been the theory that

1400

01:06:51,630 --> 01:06:47,799

started in the nineteen 1920s that lasts

1401

01:06:53,970 --> 01:06:51,640

until 1997 and it collapsed and since

1402

01:06:57,509 --> 01:06:53,980

then they have been shown to be wrong

1403

01:07:01,829 --> 01:06:57,519

again and again and again and in the

1404

01:07:04,829 --> 01:07:01,839

1990s archeology was dealt a blow with

1405

01:07:08,960 --> 01:07:04,839

the passage of the law called NAGPRA and

1406

01:07:13,200 --> 01:07:08,970

a GPRA the Native American grave

1407

01:07:16,289 --> 01:07:13,210

repatriation Act repatriation and

1408

01:07:20,630 --> 01:07:16,299

preservation Act and the GPRA and it

1409

01:07:22,769 --> 01:07:20,640

required all of all museums or any

1410

01:07:26,759 --> 01:07:22,779

agencies that have ever gotten any

1411

01:07:30,479 --> 01:07:26,769

government money to send back any

1412

01:07:32,970 --> 01:07:30,489

skeletal or burial remains or burial

1413

01:07:36,089 --> 01:07:32,980

artifacts that had been excavated

1414

01:07:39,720 --> 01:07:36,099

anywhere in the Americas to indigenous

1415

01:07:42,210 --> 01:07:39,730

tribes for reburial or destruction the

1416

01:07:45,059 --> 01:07:42,220

Smithsonian at the time had over 1

1417

01:07:52,049 --> 01:07:45,069

million skeletal remains various pieces

1418

01:07:55,109 --> 01:07:52,059

of skeletons and they as of 2015 is one

1419

01:07:59,279 --> 01:07:55,119

that we contacted them they had less

1420

01:08:00,779 --> 01:07:59,289

than 300 remaining and those 300 all

1421

01:08:02,519 --> 01:08:00,789

came from South America and they

1422

01:08:04,979 --> 01:08:02,529

couldn't find any one in South America

1423

01:08:06,839 --> 01:08:04,989

who would take them but they had sent

1424

01:08:08,970 --> 01:08:06,849

everything back to the Native American

1425

01:08:13,109 --> 01:08:08,980

tribes who either reburied it or burned

1426

01:08:15,180 --> 01:08:13,119

it cremated their remains and so

1427

01:08:16,550 --> 01:08:15,190

archaeologists are not allowed to dig

1428

01:08:19,700 --> 01:08:16,560

into mass

1429

01:08:21,620 --> 01:08:19,710

unless there is a road or a farmer has

1430

01:08:23,630 --> 01:08:21,630

accidentally dug into one and they found

1431

01:08:25,910 --> 01:08:23,640

burial remains but farmers don't report

1432

01:08:27,770 --> 01:08:25,920

that you've already talked about farmers

1433

01:08:30,830 --> 01:08:27,780

destroying them my wife's family has

1434

01:08:33,770 --> 01:08:30,840

loads of land in Missouri and they form

1435

01:08:36,020 --> 01:08:33,780

it and I can't tell you how many mounds

1436

01:08:38,060 --> 01:08:36,030

that their families obliterated in the

1437

01:08:41,330 --> 01:08:38,070

in probably the couple hundred years

1438

01:08:42,860 --> 01:08:41,340

that they owned that land and all up and

1439

01:08:44,510 --> 01:08:42,870

down the Mississippi River there are

1440

01:08:47,240 --> 01:08:44,520

tens of thousands of these mounds that

1441

01:08:49,250 --> 01:08:47,250

were obliterated by farming but you

1442

01:08:53,210 --> 01:08:49,260

never hear anything about it now because

1443

01:08:57,560 --> 01:08:53,220

of the the illegality of finding any

1444

01:08:59,990 --> 01:08:57,570

burial remains so no archeologists

1445

01:09:03,470 --> 01:09:00,000

archeology has been shaken sort of to

1446

01:09:05,540 --> 01:09:03,480

its core and now there are just major

1447

01:09:09,580 --> 01:09:05,550

arguments between North and South

1448

01:09:11,240 --> 01:09:09,590

American archeologists now you have also

1449

01:09:14,300 --> 01:09:11,250

archeologists breaking from the

1450

01:09:17,420 --> 01:09:14,310

mainstream that are claiming that the

1451

01:09:21,020 --> 01:09:17,430

Clovis culture came from Europe roughly

1452

01:09:22,000 --> 01:09:21,030

around 12,000 years ago they were called

1453

01:09:25,430 --> 01:09:22,010

the solutrean

1454

01:09:29,480 --> 01:09:25,440

they were very tall people they were

1455

01:09:32,210 --> 01:09:29,490

centered in France and Spain and parts

1456

01:09:35,030 --> 01:09:32,220

of Portugal the Cilician culture

1457

01:09:37,700 --> 01:09:35,040

disappeared around 16,000 BC and then

1458

01:09:40,880 --> 01:09:37,710

sort of appeared something like it

1459

01:09:42,800 --> 01:09:40,890

appeared in North America there are

1460

01:09:45,790 --> 01:09:42,810

genetics that have been done that has

1461

01:09:49,130 --> 01:09:45,800

shaken American archaeology to the core

1462

01:09:51,500 --> 01:09:49,140

it's mainly mitochondrial DNA studies

1463

01:09:53,300 --> 01:09:51,510

that have been done and it has just

1464

01:09:55,790 --> 01:09:53,310

shown that everything that they believed

1465

01:09:59,300 --> 01:09:55,800

and taught for the past 70 years is

1466

01:10:02,720 --> 01:09:59,310

wrong it's and not even an incomplete

1467

01:10:04,700 --> 01:10:02,730

story it's a wrong story I mean at least

1468

01:10:06,590 --> 01:10:04,710

you could say well we never saw the

1469

01:10:08,690 --> 01:10:06,600

whole story and we believe this and this

1470

01:10:11,330 --> 01:10:08,700

but almost everything we've been told is

1471

01:10:14,360 --> 01:10:11,340

wrong it's astonishing it is true that

1472

01:10:16,550 --> 01:10:14,370

people came from Asia most of the Native

1473

01:10:18,950 --> 01:10:16,560

Americans came from Asia around 10,000

1474

01:10:21,280 --> 01:10:18,960

BC that is absolutely true but that's

1475

01:10:25,130 --> 01:10:21,290

that's just a little piece of the story

1476

01:10:27,260 --> 01:10:25,140

it's it's a remarkable story that

1477

01:10:29,270 --> 01:10:27,270

probably goes back at least a hundred

1478

01:10:30,740 --> 01:10:29,280

thousand years if not two hundred and

1479

01:10:33,709 --> 01:10:30,750

fifty thousand years like the South

1480

01:10:37,490 --> 01:10:33,719

Americans tell us and there were

1481

01:10:39,379 --> 01:10:37,500

probably Neanderthals here and maybe

1482

01:10:42,169 --> 01:10:39,389

there's still there's still a few of

1483

01:10:45,140 --> 01:10:42,179

them yes well a lot of us had in the and

1484

01:10:49,580 --> 01:10:45,150

earth all DNA yeah the thing about the

1485

01:10:51,439 --> 01:10:49,590

the elongated skulls I knew mr. PI and I

1486

01:10:53,810 --> 01:10:51,449

saw his skull and talked to him about it

1487

01:10:55,370 --> 01:10:53,820

met him at a conference and in London as

1488

01:10:59,750 --> 01:10:55,380

a matter of fact that Andrew Collins was

1489

01:11:03,350 --> 01:10:59,760

there and he was he was conducting

1490

01:11:05,120 --> 01:11:03,360

mitochondrial DNA testing and most of it

1491

01:11:09,260 --> 01:11:05,130

most of this DNA you see in ancient

1492

01:11:12,649 --> 01:11:09,270

remains is not using nuclear human DNA

1493

01:11:14,049 --> 01:11:12,659

will be using we're cutting back we're

1494

01:11:17,390 --> 01:11:14,059

getting cut off by that pie-in-the-sky

1495

01:11:19,580 --> 01:11:17,400

so we'll be back in just a few minutes

1496

01:11:21,439 --> 01:11:19,590

with the last segment of exploring the

1497

01:11:30,920 --> 01:11:21,449

bizarre but true the most fascinating

1498

01:11:37,650 --> 01:11:35,070

now back to exploring the bazaar with

1499

01:11:40,950 --> 01:11:37,660

two of the most electrifying researchers

1500

01:11:47,130 --> 01:11:40,960

in the Paranoid your hosts Timothy Becca

1501  
01:11:48,570 --> 01:11:47,140  
Lee and toasts it's a you know I thought

1502  
01:11:51,420 --> 01:11:48,580  
that was lightning but I think it's the

1503  
01:11:58,050 --> 01:11:51,430  
alien shooting us with the ray guns Tim

1504  
01:12:00,930 --> 01:11:58,060  
you know that they missed one of these

1505  
01:12:03,180 --> 01:12:00,940  
I'm going to start saying we're still

1506  
01:12:06,840 --> 01:12:03,190  
here and we're still talking shut us up

1507  
01:12:08,880 --> 01:12:06,850  
and and we've revealed at least half the

1508  
01:12:10,290 --> 01:12:08,890  
secrets of the universe there you go but

1509  
01:12:12,000 --> 01:12:10,300  
we figure we got to keep a couple of

1510  
01:12:14,490 --> 01:12:12,010  
things and there are belt because people

1511  
01:12:18,570 --> 01:12:14,500  
won't tune in again you know if we let

1512  
01:12:22,440 --> 01:12:18,580  
it all out you know I try I try never to

1513  
01:12:25,110 --> 01:12:22,450

let it all well we we have the show has

1514

01:12:27,330 --> 01:12:25,120

flown by this evening Ill swear I you

1515

01:12:29,970 --> 01:12:27,340

know I'm glued to my seat here literally

1516

01:12:32,520 --> 01:12:29,980

and with the headphones on it just

1517

01:12:34,980 --> 01:12:32,530

listening to every word and I I can't

1518

01:12:36,540 --> 01:12:34,990

wait to go back and hear this in archive

1519

01:12:38,670 --> 01:12:36,550

because I always missed something you

1520

01:12:41,370 --> 01:12:38,680

know and and I figure I got to listen to

1521

01:12:43,530 --> 01:12:41,380

it at least once sometimes twice

1522

01:12:46,140 --> 01:12:43,540

sometimes they'll go back you know a

1523

01:12:47,820 --> 01:12:46,150

year later and say well you know I

1524

01:12:50,760 --> 01:12:47,830

didn't even realize we did a show on

1525

01:12:53,340 --> 01:12:50,770

that subject you know it's like we've

1526

01:12:56,160 --> 01:12:53,350

just carried we've done so many shows

1527

01:12:57,510 --> 01:12:56,170

now it's just it bog I mean there are

1528

01:13:00,660 --> 01:12:57,520

some people that have done more shows

1529

01:13:02,850 --> 01:13:00,670

and we have but you know what we we've

1530

01:13:05,820 --> 01:13:02,860

covered a lot of topics here Tim I'm

1531

01:13:09,240 --> 01:13:05,830

sure that's right why am I tell you this

1532

01:13:10,890 --> 01:13:09,250

this nights topic it's just oh I love

1533

01:13:13,590 --> 01:13:10,900

this kind of stuff and it's just I'm

1534

01:13:17,910 --> 01:13:13,600

always just fascinated yes you are an

1535

01:13:20,910 --> 01:13:17,920

ancient man Tim yes I am that's what my

1536

01:13:24,210 --> 01:13:20,920

daughter says at least well we have had

1537

01:13:29,160 --> 01:13:24,220

we have had a life in the UK Maria

1538

01:13:32,340 --> 01:13:29,170

Wheatley and dr. Greg a little who I

1539

01:13:34,890 --> 01:13:32,350

want to turn the topic around to UFOs

1540

01:13:38,850 --> 01:13:34,900

because of course as he has pointed out

1541

01:13:42,000 --> 01:13:38,860

I am mr. UFO and just like he is mister

1542

01:13:44,129 --> 01:13:42,010

mound and i but i do what i you know i

1543

01:13:45,510 --> 01:13:44,139

was intrigued and i didn't realize i

1544

01:13:47,250 --> 01:13:45,520

mean i knew you were in the ufos of

1545

01:13:49,290 --> 01:13:47,260

course and written about the subject but

1546

01:13:51,479 --> 01:13:49,300

you were one of the earlier pioneers

1547

01:13:53,580 --> 01:13:51,489

probably maybe even going back to the

1548

01:13:56,340 --> 01:13:53,590

time of John keel if not before who

1549

01:13:59,760 --> 01:13:56,350

entertained the idea that these may not

1550

01:14:01,470 --> 01:13:59,770

be extraterrestrial crafts yeah I

1551

01:14:05,939 --> 01:14:01,480

actually had a number of conversations

1552

01:14:09,510 --> 01:14:05,949

with keel and tried to fly up I was at

1553

01:14:11,729 --> 01:14:09,520

the time flying and as a pilot had

1554

01:14:14,669 --> 01:14:11,739

recreational but not recreational as a

1555

01:14:17,910 --> 01:14:14,679

private pilot and because he was one too

1556

01:14:19,590 --> 01:14:17,920

and so I was going to fly up where he

1557

01:14:20,729 --> 01:14:19,600

was in New York and take him around try

1558

01:14:23,220 --> 01:14:20,739

and get him to come down and stay a

1559

01:14:25,290 --> 01:14:23,230

couple weeks in Memphis with me but he

1560

01:14:28,320 --> 01:14:25,300

was getting close to the end and and

1561

01:14:31,379 --> 01:14:28,330

just wasn't doing really well but yes I

1562

01:14:34,340 --> 01:14:31,389

don't believe that the the UFO

1563

01:14:37,950 --> 01:14:34,350

phenomenon or the UFO seen today are

1564

01:14:43,160 --> 01:14:37,960

extraterrestrial craft I think they are

1565

01:14:46,140 --> 01:14:43,170

as qu'il said sort of a psychic cycle on

1566

01:14:51,590 --> 01:14:46,150

Benet ssin of psychological things earth

1567

01:14:55,590 --> 01:14:51,600

energies fit into it absolutely and a

1568

01:14:57,689 --> 01:14:55,600

number of kind of paranormal things

1569

01:14:59,780 --> 01:14:57,699

that's probably the best way to put it

1570

01:15:02,220 --> 01:14:59,790

but I don't believe that they are

1571

01:15:04,410 --> 01:15:02,230

extraterrestrial aliens at all

1572

01:15:06,840 --> 01:15:04,420

I still don't I do believe it's possible

1573

01:15:09,180 --> 01:15:06,850

that we were visited in very ancient

1574

01:15:11,939 --> 01:15:09,190

times which Carl Sagan himself said

1575

01:15:13,760 --> 01:15:11,949

Sagan in fact said that we we had to

1576

01:15:16,169 --> 01:15:13,770

have been that we were there's just

1577

01:15:18,689 --> 01:15:16,179

statistically it had to have happened

1578

01:15:24,810 --> 01:15:18,699

Sagan even said they probably made up to

1579

01:15:27,689 --> 01:15:24,820

ten thousand visits to earth in way back

1580

01:15:30,209 --> 01:15:27,699

in time and yet he totally poo-pooed the

1581

01:15:32,669 --> 01:15:30,219

idea of UFOs well he didn't believe they

1582

01:15:35,629 --> 01:15:32,679

were coming now and that the current

1583

01:15:38,040 --> 01:15:35,639

UFOs that were seen were

1584

01:15:39,240 --> 01:15:38,050

extraterrestrial crafts well he didn't

1585

01:15:43,320 --> 01:15:39,250

believe that they were anything he

1586

01:15:45,750 --> 01:15:43,330

thought that they were just a total miss

1587

01:15:47,990 --> 01:15:45,760

objects-- or big misconceived which is

1588

01:15:49,470 --> 01:15:48,000

certainly yeah yeah that

1589

01:15:53,070 --> 01:15:49,480

misidentification theory there's

1590

01:15:55,020 --> 01:15:53,080

somebody sees Venus or whatever

1591

01:15:57,090 --> 01:15:55,030

you know that to me they say oh you know

1592

01:15:58,650 --> 01:15:57,100

it's a 3% of your folks are legitimate

1593

01:16:01,170 --> 01:15:58,660

no I think it's a lot more than that

1594

01:16:02,790 --> 01:16:01,180

because people can tell I mean not every

1595

01:16:05,100 --> 01:16:02,800

time I mean I've even been fooled

1596

01:16:07,860 --> 01:16:05,110

probably by well I don't know if I've

1597

01:16:10,110 --> 01:16:07,870

been fooled by a Venus but you know okay

1598

01:16:12,120 --> 01:16:10,120

you can't be fooled but if people think

1599

01:16:16,740 --> 01:16:12,130

they saw UFO chances are they had some

1600

01:16:18,960 --> 01:16:16,750

sort of experience yeah it doesn't

1601  
01:16:21,630 --> 01:16:18,970  
necessarily have to be on the physical

1602  
01:16:25,020 --> 01:16:21,640  
plane I mean some people go into this

1603  
01:16:26,880 --> 01:16:25,030  
kind of altered state you know they'd

1604  
01:16:29,660 --> 01:16:26,890  
visit the Land of Oz if you want to call

1605  
01:16:31,860 --> 01:16:29,670  
it that and come out of it you know

1606  
01:16:34,740 --> 01:16:31,870  
believing that they've been encountered

1607  
01:16:37,350 --> 01:16:34,750  
by aliens but that's the kind of thing

1608  
01:16:39,330 --> 01:16:37,360  
that intrigues me that why why do people

1609  
01:16:41,760 --> 01:16:39,340  
that have these experiences come up with

1610  
01:16:43,770 --> 01:16:41,770  
pretty much the same stories well that's

1611  
01:16:45,900 --> 01:16:43,780  
an interesting that's a very interesting

1612  
01:16:49,320 --> 01:16:45,910  
question it probably goes into the area

1613  
01:16:51,630 --> 01:16:49,330

of the psychology of it all and the the

1614

01:16:55,710 --> 01:16:51,640

neuro chemistry the brain chemistry

1615

01:16:58,080 --> 01:16:55,720

that's going on and and I could tell you

1616

01:17:00,150 --> 01:16:58,090

what I what I believe about it but there

1617

01:17:02,250 --> 01:17:00,160

is virtually no proof although the the

1618

01:17:04,020 --> 01:17:02,260

government has been doing research on

1619

01:17:05,610 --> 01:17:04,030

this for a long time and when I say the

1620

01:17:08,600 --> 01:17:05,620

government I mean they're paying for it

1621

01:17:12,240 --> 01:17:08,610

it's being done it many many labs around

1622

01:17:14,640 --> 01:17:12,250

the country the people are generally

1623

01:17:17,400 --> 01:17:14,650

given a contract research contract to

1624

01:17:19,500 --> 01:17:17,410

study one little thing a lot of this has

1625

01:17:20,940 --> 01:17:19,510

to do with plasma energy that is

1626

01:17:23,370 --> 01:17:20,950

actually they can produce in

1627

01:17:25,470 --> 01:17:23,380

laboratories a really good example that

1628

01:17:28,830 --> 01:17:25,480

I know you're familiar with the stud the

1629

01:17:32,400 --> 01:17:28,840

Yakima the Yakima Indian Reservation oh

1630

01:17:35,580 --> 01:17:32,410

yes yes or mama foo or brown mountain or

1631

01:17:38,370 --> 01:17:35,590

any of these like that at at Yakima I

1632

01:17:41,550 --> 01:17:38,380

went out there in the in the early in

1633

01:17:43,680 --> 01:17:41,560

the mid-90s and why I went with

1634

01:17:45,630 --> 01:17:43,690

Washington state government officials to

1635

01:17:48,570 --> 01:17:45,640

Toppenish Ridge and we spent a couple

1636

01:17:50,250 --> 01:17:48,580

nights there and I wasn't there for that

1637

01:17:52,020 --> 01:17:50,260

it's just they got really interested in

1638

01:17:56,040 --> 01:17:52,030

what I was doing so they said okay we'll

1639

01:17:58,410 --> 01:17:56,050

set this up and we didn't see anything

1640

01:18:00,600 --> 01:17:58,420

where the earthquake so-called

1641

01:18:02,460 --> 01:18:00,610

earthquake lights were seen but I got to

1642

01:18:04,290 --> 01:18:02,470

talk to some of the local residents and

1643

01:18:04,770 --> 01:18:04,300

I took a lot of photos in the daytime

1644

01:18:06,390 --> 01:18:04,780

and

1645

01:18:09,450 --> 01:18:06,400

I'll be darned a whole bunch of things

1646

01:18:11,160 --> 01:18:09,460

showed up in those photos that if you'd

1647

01:18:14,160 --> 01:18:11,170

seen him at night you would have thought

1648

01:18:16,580 --> 01:18:14,170

they were UFOs but here's what happened

1649

01:18:19,620 --> 01:18:16,590

people would see these blobs of light

1650

01:18:21,840 --> 01:18:19,630

highly energized blobs of light that

1651  
01:18:24,900 --> 01:18:21,850  
would float down the mountain that the

1652  
01:18:26,550 --> 01:18:24,910  
sides of an antenna shred is this

1653  
01:18:28,860 --> 01:18:26,560  
enormous mountain that doesn't have a

1654  
01:18:32,580 --> 01:18:28,870  
single tree on it and it's just covered

1655  
01:18:35,280 --> 01:18:32,590  
with earthquake lines fracture fracture

1656  
01:18:36,930 --> 01:18:35,290  
lines everywhere so these lights would

1657  
01:18:39,450 --> 01:18:36,940  
come out of these fracture lines and

1658  
01:18:42,840 --> 01:18:39,460  
roll down the mountain and and Native

1659  
01:18:45,030 --> 01:18:42,850  
Americans live in small houses at the

1660  
01:18:46,530 --> 01:18:45,040  
base of the mountain some of them would

1661  
01:18:47,940 --> 01:18:46,540  
get out and get close to these lights

1662  
01:18:50,550 --> 01:18:47,950  
and they all reported the same thing

1663  
01:18:52,710 --> 01:18:50,560

they all had UFO experiences when they

1664

01:18:56,400 --> 01:18:52,720

got close to these lights they all saw

1665

01:18:59,550 --> 01:18:56,410

strange beings some of well saw reported

1666

01:19:01,830 --> 01:18:59,560

Bigfoot some of them reported seeing

1667

01:19:04,740 --> 01:19:01,840

little people which is Native American

1668

01:19:07,650 --> 01:19:04,750

lore and some of them reported seeing

1669

01:19:09,570 --> 01:19:07,660

what we would call the greys but but

1670

01:19:10,860 --> 01:19:09,580

they all had experiences when they got

1671

01:19:14,550 --> 01:19:10,870

close to these lights

1672

01:19:16,740 --> 01:19:14,560

well lights do seem to be intelligent

1673

01:19:18,630 --> 01:19:16,750

you know you say you know our earthquake

1674

01:19:20,400 --> 01:19:18,640

a light spook lights whatever you want

1675

01:19:23,190 --> 01:19:20,410

to call them you know just in Mexico

1676

01:19:26,520 --> 01:19:23,200

where they had this earthquake a week or

1677

01:19:28,650 --> 01:19:26,530

so ago on YouTube but there are videos

1678

01:19:31,590 --> 01:19:28,660

that people have posted of the you know

1679

01:19:33,930 --> 01:19:31,600

lights in this of the sky just after the

1680

01:19:35,880 --> 01:19:33,940

earthquake and I know doing my own

1681

01:19:38,580 --> 01:19:35,890

research I used to edit a magazine

1682

01:19:41,240 --> 01:19:38,590

because I edited 30 magazines in my

1683

01:19:44,610 --> 01:19:41,250

career called front-page front-page

1684

01:19:47,070 --> 01:19:44,620

disasters well it only lasted three

1685

01:19:48,960 --> 01:19:47,080

issues because okay I didn't know about

1686

01:19:51,560 --> 01:19:48,970

well it's hard to display on the

1687

01:19:54,330 --> 01:19:51,570

newsstand where do you put it next to

1688

01:19:57,180 --> 01:19:54,340

you know I mean there's no it doesn't go

1689

01:20:00,540 --> 01:19:57,190

next to true romance you know it's not

1690

01:20:03,780 --> 01:20:00,550

in the sports department it would get

1691

01:20:08,190 --> 01:20:03,790

covered up by a playboy god bless you

1692

01:20:10,440 --> 01:20:08,200

Hugh Hefner and you know I mean it but I

1693

01:20:14,550 --> 01:20:10,450

enjoy doing it because every issue I

1694

01:20:16,020 --> 01:20:14,560

snuck in some like strange story I did

1695

01:20:18,000 --> 01:20:16,030

an article in Bermuda Triangle because

1696

01:20:18,509 --> 01:20:18,010

there static that damn disaster I don't

1697

01:20:20,279 --> 01:20:18,519

know what

1698

01:20:24,989 --> 01:20:20,289

with all those people disappearing and

1699

01:20:28,529 --> 01:20:24,999

the the brigade wasn't in Australia that

1700

01:20:31,439 --> 01:20:28,539

the marched into the the mist and never

1701

01:20:35,759 --> 01:20:31,449

was seen again I think about what 5,000

1702

01:20:37,470 --> 01:20:35,769

soldiers or something like that and you

1703

01:20:39,180 --> 01:20:37,480

know we always found an earthquake

1704

01:20:41,549 --> 01:20:39,190

lights that would that was one that I

1705

01:20:44,759 --> 01:20:41,559

did an article on and we found that

1706

01:20:47,310 --> 01:20:44,769

reports of them going back to the 1920s

1707

01:20:50,549 --> 01:20:47,320

in China and you know you talk about

1708

01:20:52,259 --> 01:20:50,559

deaths by disasters and well I mean some

1709

01:20:54,779 --> 01:20:52,269

of some of the disasters like the

1710

01:20:56,669 --> 01:20:54,789

earthquake so they they took their toll

1711

01:21:00,120 --> 01:20:56,679

back in those days they would they would

1712

01:21:02,819 --> 01:21:00,130

kill 30 or 40,000 50,000 people mmm

1713

01:21:05,189 --> 01:21:02,829

I mean it was there's one other little

1714

01:21:08,580 --> 01:21:05,199

story in this and then I'll be quiet let

1715

01:21:10,410 --> 01:21:08,590

Maria get in here but in New Madrid

1716

01:21:12,930 --> 01:21:10,420

Missouri where the New Madrid earthquake

1717

01:21:16,020 --> 01:21:12,940

thought was and the New Madrid

1718

01:21:19,350 --> 01:21:16,030

earthquake fault took place in the 1970s

1719

01:21:21,479 --> 01:21:19,360

a professor who was the chairman of the

1720

01:21:23,520 --> 01:21:21,489

physics department at southeastern

1721

01:21:27,290 --> 01:21:23,530

Missouri State University name was

1722

01:21:29,850 --> 01:21:27,300

Harley Rutledge oh my goodness yes yes

1723

01:21:33,870 --> 01:21:29,860

I'm trying to get a fellow on who has

1724

01:21:35,790 --> 01:21:33,880

done extensive research on his material

1725

01:21:37,739 --> 01:21:35,800

I have a copy of the book here a great I

1726

01:21:40,890 --> 01:21:37,749

just wrote an article about that it's on

1727

01:21:43,109 --> 01:21:40,900

alternate perceptions website oh ma well

1728

01:21:45,479 --> 01:21:43,119

maybe that's the article or I don't know

1729

01:21:48,000 --> 01:21:45,489

but I has been there I have I asked my

1730

01:21:51,180 --> 01:21:48,010

wife is from New Madrid and I knew a lot

1731

01:21:52,950 --> 01:21:51,190

of the witnesses I went I was going to

1732

01:21:55,020 --> 01:21:52,960

that place when Rutledge did his work

1733

01:21:57,899 --> 01:21:55,030

but the bottom line is this Rutledge and

1734

01:21:59,939 --> 01:21:57,909

his crew saw they these were all

1735

01:22:03,120 --> 01:21:59,949

professionals none of them were UFO

1736

01:22:04,950 --> 01:22:03,130

people none he had he had roughly 50

1737

01:22:08,640 --> 01:22:04,960

people that did this research they were

1738

01:22:11,430 --> 01:22:08,650

all astronomers physicists and he had

1739

01:22:13,859 --> 01:22:11,440

some geologists they had top university

1740

01:22:16,229 --> 01:22:13,869

equipment by the way the president of

1741

01:22:18,750 --> 01:22:16,239

the University who signed off on it this

1742

01:22:23,580 --> 01:22:18,760

is going to ring a bell what name was

1743

01:22:25,709 --> 01:22:23,590

dr. Scully scul li can you believe that

1744

01:22:28,049 --> 01:22:25,719

that was the real name of the other

1745

01:22:30,689 --> 01:22:28,059

there's another sing synchronicity you

1746

01:22:32,250 --> 01:22:30,699

know that yes that's my favorite topic

1747

01:22:35,310 --> 01:22:32,260

there you go but he

1748

01:22:38,070 --> 01:22:35,320

what Rutledge found was that these the

1749

01:22:41,750 --> 01:22:38,080

the UFOs they saw which they reported

1750

01:22:43,920 --> 01:22:41,760

them all as lights rounded or globules

1751

01:22:46,230 --> 01:22:43,930

globules of light that would sometimes

1752

01:22:48,750 --> 01:22:46,240

flatten out they said they saw roughly

1753

01:22:51,060 --> 01:22:48,760

250 of them over the years they did this

1754

01:22:53,130 --> 01:22:51,070

and they filmed them they photographed

1755

01:22:55,860 --> 01:22:53,140

them they did all kinds of tests on them

1756

01:22:59,610 --> 01:22:55,870

they responded to light and as I recall

1757

01:23:02,730 --> 01:22:59,620

him is 32 times 32 cases they got an

1758

01:23:05,820 --> 01:23:02,740

interactive effect of them and I had a

1759

01:23:07,650 --> 01:23:05,830

rather pretty close friend who's

1760

01:23:09,840 --> 01:23:07,660

actually a relative who was the Adjutant

1761

01:23:13,260 --> 01:23:09,850

General of Missouri National Guard who

1762

01:23:17,970 --> 01:23:13,270

knew about this in my wife's family he

1763

01:23:20,970 --> 01:23:17,980

knew about the flights of the the

1764

01:23:23,460 --> 01:23:20,980

National Guard's jets that were over the

1765

01:23:26,100 --> 01:23:23,470

area at the time and he said they didn't

1766

01:23:27,960 --> 01:23:26,110

know they were trying to find out what

1767

01:23:30,530 --> 01:23:27,970

it was - they had no idea what it was

1768

01:23:33,150 --> 01:23:30,540

but Rutledge said these were intelligent

1769

01:23:36,330 --> 01:23:33,160

plasmas at the end of his book he will

1770

01:23:38,970 --> 01:23:36,340

explain in his eye in his mind these are

1771

01:23:44,730 --> 01:23:38,980

intelligent plasmas that interact with

1772

01:23:47,600 --> 01:23:44,740

us and they're there they exist in

1773

01:23:50,010 --> 01:23:47,610

another dimension or they're not exactly

1774

01:23:52,500 --> 01:23:50,020

interdimensional they come in to their

1775

01:23:54,870 --> 01:23:52,510

earth energies it goes all the way lines

1776

01:23:57,270 --> 01:23:54,880

everything the Maria discussed fits what

1777

01:23:59,970 --> 01:23:57,280

the Native Americans believed there is

1778

01:24:02,760 --> 01:23:59,980

some sort of an energy and intelligence

1779

01:24:04,350 --> 01:24:02,770

in the in everything Native Americans

1780

01:24:07,290 --> 01:24:04,360

believed that they believed everything

1781

01:24:10,680 --> 01:24:07,300

was part of that spirit well Maria over

1782

01:24:12,570 --> 01:24:10,690

there in the UK have you had any UFO

1783

01:24:16,470 --> 01:24:12,580

sightings along these ley lines or these

1784

01:24:19,560 --> 01:24:16,480

monuments there well yes especially the

1785

01:24:21,810 --> 01:24:19,570

plasma that Greg was just describing

1786

01:24:24,330 --> 01:24:21,820

because it's interesting to note in the

1787

01:24:27,540 --> 01:24:24,340

British Isles that most stone circles on

1788

01:24:30,960 --> 01:24:27,550

stone rows are sited within a mile and a

1789

01:24:33,510 --> 01:24:30,970

half of a fault line there that's a

1790

01:24:35,790 --> 01:24:33,520

design cannon now what we have a look at

1791

01:24:39,300 --> 01:24:35,800

the earth currents that often entwine

1792

01:24:43,770 --> 01:24:39,310

lays or ley lines I have seen on these

1793

01:24:45,600 --> 01:24:43,780

earth currents amber like a size of a UK

1794

01:24:48,330 --> 01:24:45,610

soccer ball you say

1795

01:24:51,899 --> 01:24:48,340

every say football around soccer ball

1796

01:24:54,810 --> 01:24:51,909

come out of these kind of currents close

1797

01:24:57,660 --> 01:24:54,820

to ancient sites and their amber colored

1798

01:24:59,910 --> 01:24:57,670

and they come out and I remember many

1799

01:25:03,209 --> 01:24:59,920

years ago when I witnessed one with my

1800

01:25:05,310 --> 01:25:03,219

daughter who was then ten I asked it to

1801  
01:25:07,050 --> 01:25:05,320  
move slightly to one side and they are

1802  
01:25:09,720 --> 01:25:07,060  
definitely interacting with our

1803  
01:25:11,129 --> 01:25:09,730  
consciousness then it moved over a bit

1804  
01:25:14,399 --> 01:25:11,139  
like you were describing earlier with

1805  
01:25:17,790 --> 01:25:14,409  
blinken at warminster with with lines it

1806  
01:25:19,919 --> 01:25:17,800  
was yes yes I do feel feel that and the

1807  
01:25:23,850 --> 01:25:19,929  
other interesting thing that I noticed

1808  
01:25:26,340 --> 01:25:23,860  
after the experience because I was told

1809  
01:25:28,709 --> 01:25:26,350  
in a dream to go to this place with my

1810  
01:25:31,470 --> 01:25:28,719  
daughter to witness this earth light as

1811  
01:25:34,560 --> 01:25:31,480  
we call them in the in the Union mm-hmm

1812  
01:25:38,550 --> 01:25:34,570  
and after that it seemed to increase my

1813  
01:25:40,770 --> 01:25:38,560

my sense of well-being and intuition so

1814

01:25:43,709 --> 01:25:40,780

I think if they really do can change our

1815

01:25:52,200 --> 01:25:43,719

consciousness and act as like a guiding

1816

01:25:54,120 --> 01:25:52,210

force and what that or what would you

1817

01:25:56,189 --> 01:25:54,130

say are they I mean do you believe that

1818

01:25:58,590 --> 01:25:56,199

they are of extraterrestrial origin or

1819

01:26:00,120 --> 01:25:58,600

some of them are I mean are are the UFOs

1820

01:26:03,990 --> 01:26:00,130

coming around some of these ancient

1821

01:26:05,939 --> 01:26:04,000

sites that draw energy that's so that's

1822

01:26:08,669 --> 01:26:05,949

often being noticed you know I remember

1823

01:26:10,890 --> 01:26:08,679

doing a series with the UFO Hunters that

1824

01:26:15,899 --> 01:26:10,900

came to Stonehenge and were linked and

1825

01:26:18,840 --> 01:26:15,909

you know vortices or vortexes to sites

1826  
01:26:22,020 --> 01:26:18,850  
that had UFO activity but what's being

1827  
01:26:23,820 --> 01:26:22,030  
noticed in this area over the past sort

1828  
01:26:26,550 --> 01:26:23,830  
of five years and bear in mind I'm on

1829  
01:26:28,830 --> 01:26:26,560  
the edge of the Salisbury playing which

1830  
01:26:31,229 --> 01:26:28,840  
is you know whether military are we coin

1831  
01:26:33,990 --> 01:26:31,239  
it are kind of like area 51 is much

1832  
01:26:36,410 --> 01:26:34,000  
smaller than your area 51 but it is

1833  
01:26:39,120 --> 01:26:36,420  
still an analyst run by the military and

1834  
01:26:42,390 --> 01:26:39,130  
there have been I witnesses that have

1835  
01:26:45,120 --> 01:26:42,400  
seen two helicopters escorting what

1836  
01:26:48,390 --> 01:26:45,130  
looked like a kind of classical flying

1837  
01:26:50,459 --> 01:26:48,400  
saucer shape towards the source B plane

1838  
01:26:54,990 --> 01:26:50,469

they weren't chasing this so-called UFO

1839

01:26:59,220 --> 01:26:57,360

this reminds me of and I'm never going

1840

01:27:02,640 --> 01:26:59,230

to be able to pronounce his first name

1841

01:27:06,030 --> 01:27:02,650

but I'll just say the the lights that

1842

01:27:10,380 --> 01:27:06,040

are constantly being seen in Norway that

1843

01:27:13,110 --> 01:27:10,390

have been extensively so those are about

1844

01:27:14,700 --> 01:27:13,120

the best in fact dr. Hynek I remember

1845

01:27:17,000 --> 01:27:14,710

seeing him all dressed up in a polar

1846

01:27:19,880 --> 01:27:17,010

bear outfit or something yeah over there

1847

01:27:23,220 --> 01:27:19,890

to investigate the lights they have some

1848

01:27:25,320 --> 01:27:23,230

actually very tremendous videos of the

1849

01:27:29,190 --> 01:27:25,330

lights streaking across the the heavens

1850

01:27:32,730 --> 01:27:29,200

and apparently the local college set up

1851

01:27:34,800 --> 01:27:32,740

a kind of an observatory with some you

1852

01:27:37,400 --> 01:27:34,810

know cameras that were recording all the

1853

01:27:40,560 --> 01:27:37,410

activity there and it's really quite

1854

01:27:44,250 --> 01:27:40,570

spectacular it kind of looked makes the

1855

01:27:45,840 --> 01:27:44,260

the puts the Marfa lights way down you

1856

01:27:48,030 --> 01:27:45,850

know in the year the totem pole of a

1857

01:27:51,570 --> 01:27:48,040

ghost lights when you see these things

1858

01:27:53,160 --> 01:27:51,580

up in the in the heavens although Brown

1859

01:27:56,220 --> 01:27:53,170

Mountain lights too you know I mean

1860

01:27:58,230 --> 01:27:56,230

joshua p wore and of course he's done

1861

01:28:02,580 --> 01:27:58,240

all sorts of research on the subject

1862

01:28:04,140 --> 01:28:02,590

there and they've been seen for hundreds

1863

01:28:05,490 --> 01:28:04,150

of years you know i mean some people

1864

01:28:07,200 --> 01:28:05,500

sell the cars of the highway in the

1865

01:28:10,100 --> 01:28:07,210

train and blah blah blah but that's not

1866

01:28:13,130 --> 01:28:10,110

the case because they predate that but

1867

01:28:17,550 --> 01:28:13,140

you know i I was down there many many

1868

01:28:20,850 --> 01:28:17,560

years ago and we happen to have actually

1869

01:28:23,130 --> 01:28:20,860

interviewed some of the you know the

1870

01:28:25,620 --> 01:28:23,140

original witnesses like from the 1920s

1871

01:28:27,360 --> 01:28:25,630

and the thirties and so forth and and

1872

01:28:30,920 --> 01:28:27,370

they all told the same story about how

1873

01:28:33,510 --> 01:28:30,930

they'd see this light not too far away

1874

01:28:35,460 --> 01:28:33,520

but then as they tried to walk towards

1875

01:28:37,800 --> 01:28:35,470

it it would disappear and they would

1876

01:28:40,530 --> 01:28:37,810

turn around and it would be behind them

1877

01:28:42,840 --> 01:28:40,540

so I mean you know they didn't see any

1878

01:28:44,760 --> 01:28:42,850

faces and the lights there were no you

1879

01:28:46,950 --> 01:28:44,770

know a alien the creatures per se

1880

01:28:51,830 --> 01:28:46,960

although we did have the story of Ralph

1881

01:28:54,270 --> 01:28:51,840

Alejo this fellow who ran the little

1882

01:28:56,220 --> 01:28:54,280

convenience store I guess you would call

1883

01:28:59,220 --> 01:28:56,230

it up on top of the the mountain you

1884

01:29:02,460 --> 01:28:59,230

know he would sell you a crystals along

1885

01:29:04,980 --> 01:29:02,470

with a bottle of soda pop and he had he

1886

01:29:06,600 --> 01:29:04,990

had a little man under the counter in

1887

01:29:08,860 --> 01:29:06,610

fact I know I took a photograph of it

1888

01:29:11,800 --> 01:29:08,870

which joshua has put out

1889

01:29:15,040 --> 01:29:11,810

Paige but credited to Commander X but

1890

01:29:17,230 --> 01:29:15,050

that's that's okay and it was a little

1891

01:29:19,450 --> 01:29:17,240

man inside a coffin in he swears it was

1892

01:29:21,160 --> 01:29:19,460

you know an alien I think was just one

1893

01:29:23,320 --> 01:29:21,170

of these roadside attractions that

1894

01:29:26,290 --> 01:29:23,330

people used to have around draw people

1895

01:29:28,030 --> 01:29:26,300

into their you know a place but he

1896

01:29:31,720 --> 01:29:28,040

claimed it he actually went inside the

1897

01:29:33,640 --> 01:29:31,730

the mountain and you know had

1898

01:29:35,350 --> 01:29:33,650

conversations with these people from

1899

01:29:37,420 --> 01:29:35,360

some planet I can't remember the name of

1900

01:29:39,820 --> 01:29:37,430

but it was very very silly sounding name

1901

01:29:41,980 --> 01:29:39,830

but then perhaps earth is silly sounding

1902

01:29:45,820 --> 01:29:41,990

to somebody from the other side of the

1903

01:29:49,420 --> 01:29:45,830

solar system as well right well Tim you

1904

01:29:52,000 --> 01:29:49,430

know that in where I grew up there was

1905

01:29:55,930 --> 01:29:52,010

the the mound State Park in Anderson

1906

01:29:58,320 --> 01:29:55,940

Indiana which had it still does you know

1907

01:30:00,280 --> 01:29:58,330

a fairly extensive the earthworks

1908

01:30:02,290 --> 01:30:00,290

ancient earthworks and you know that

1909

01:30:05,890 --> 01:30:02,300

area has been well known through the

1910

01:30:10,660 --> 01:30:05,900

years as being kind of like a UFO hot

1911

01:30:14,080 --> 01:30:10,670

spot site sightings of big birds the

1912

01:30:15,490 --> 01:30:14,090

little people puku geez along the banks

1913

01:30:18,550 --> 01:30:15,500

of the the White River that flows

1914

01:30:21,550 --> 01:30:18,560

through that park so you know it says

1915

01:30:23,830 --> 01:30:21,560

it's just interesting how these types of

1916

01:30:26,890 --> 01:30:23,840

you know unusual activities seem to

1917

01:30:29,200 --> 01:30:26,900

Center upon these areas you know like

1918

01:30:30,670 --> 01:30:29,210

which came first you know did the did

1919

01:30:33,580 --> 01:30:30,680

the mounds come first and the track the

1920

01:30:37,870 --> 01:30:33,590

activity or did they build in of these

1921

01:30:41,170 --> 01:30:37,880

these places on hot spot areas well you

1922

01:30:42,940 --> 01:30:41,180

notice we have just gotten the the

1923

01:30:46,210 --> 01:30:42,950

signal that it's five minutes to

1924

01:30:50,470 --> 01:30:46,220

midnight here on the East Coast and I do

1925

01:30:53,110 --> 01:30:50,480

want to go around the the table at least

1926

01:30:56,050 --> 01:30:53,120

one last time so that our guests can

1927

01:30:59,260 --> 01:30:56,060

tell us how listeners might be able to

1928

01:31:00,790 --> 01:30:59,270

get in touch with them and what they are

1929

01:31:04,210 --> 01:31:00,800

working on currently and what they might

1930

01:31:09,190 --> 01:31:04,220

be working on in the future so why don't

1931

01:31:13,360 --> 01:31:09,200

we start over there in the UK with Maria

1932

01:31:15,700 --> 01:31:13,370

what was it what's on your schedule well

1933

01:31:18,730 --> 01:31:15,710

people can find out what I'm doing on

1934

01:31:22,180 --> 01:31:18,740

but my website the Avebury experience

1935

01:31:22,970 --> 01:31:22,190

dot c-- o UK or find out about my

1936

01:31:25,610 --> 01:31:22,980

dowsing

1937

01:31:27,890 --> 01:31:25,620

horses and my other esoteric courses

1938

01:31:32,090 --> 01:31:27,900

that I teach online and through Skype on

1939

01:31:34,729 --> 01:31:32,100

esoteric college comm and currently I'm

1940

01:31:36,830 --> 01:31:34,739

doing planning tools for next year I go

1941

01:31:39,050 --> 01:31:36,840

to places not just like Stonehenge but

1942

01:31:41,479 --> 01:31:39,060

Malta I'm going to Sardinia with Hugh

1943

01:31:45,140 --> 01:31:41,489

Newman I'm investigating the Bosnian

1944

01:31:48,100 --> 01:31:45,150

pyramids with dr. Sam on a cruise in

1945

01:31:51,160 --> 01:31:48,110

April so lots of things going on there

1946

01:31:54,200 --> 01:31:51,170

about to write a book on Stonehenge and

1947

01:31:56,510 --> 01:31:54,210

Dolores canons American publishing

1948

01:32:00,110 --> 01:31:56,520

company Ozark are publishing a book on

1949

01:32:02,420 --> 01:32:00,120

my Celtic druids astrology system which

1950

01:32:06,290 --> 01:32:02,430

were out in January in the States

1951  
01:32:09,310 --> 01:32:06,300  
you are one busy lady and you know I've

1952  
01:32:11,870 --> 01:32:09,320  
got I've got to catch up on some of your

1953  
01:32:17,390 --> 01:32:11,880  
material when I have a chance to catch

1954  
01:32:20,320 --> 01:32:17,400  
up on that these days but most

1955  
01:32:23,720 --> 01:32:20,330  
interesting most interesting information

1956  
01:32:26,660 --> 01:32:23,730  
indeed and we will have to have you back

1957  
01:32:27,950 --> 01:32:26,670  
on in the future because I'm sure there

1958  
01:32:31,850 --> 01:32:27,960  
are a lot of things we haven't discussed

1959  
01:32:33,950 --> 01:32:31,860  
and dr. Greg little what can I say about

1960  
01:32:36,380 --> 01:32:33,960  
you what what could you say about

1961  
01:32:38,930 --> 01:32:36,390  
yourself what would you work you got

1962  
01:32:43,490 --> 01:32:38,940  
these days well I'm always working on

1963  
01:32:47,840 --> 01:32:43,500

something but AP magazine dot info yes

1964

01:32:49,790 --> 01:32:47,850

we're in trains at it oh yeah yes yeah

1965

01:32:52,790 --> 01:32:49,800

Brent's good guy known him for a long

1966

01:32:55,340 --> 01:32:52,800

time and I if I write in this field

1967

01:32:58,430 --> 01:32:55,350

it'll appear they're usually first ap

1968

01:33:00,729 --> 01:32:58,440

magazine info I am hard to get a hold of

1969

01:33:04,700 --> 01:33:00,739

you got to search around a little bit

1970

01:33:09,440 --> 01:33:04,710

and I am still very active in my

1971

01:33:11,900 --> 01:33:09,450

professional field and travel a great

1972

01:33:13,940 --> 01:33:11,910

deal but I don't generally talk too much

1973

01:33:16,130 --> 01:33:13,950

about it I had just finished a book on

1974

01:33:18,580 --> 01:33:16,140

Alabama mounds with mainstream

1975

01:33:22,580 --> 01:33:18,590

archeologists they're working with

1976

01:33:26,000 --> 01:33:22,590

actually three of the biggest

1977

01:33:27,710 --> 01:33:26,010

archaeologists in that state and they've

1978

01:33:29,810 --> 01:33:27,720

asked me to do another one with them I

1979

01:33:32,060 --> 01:33:29,820

don't know that I want to because those

1980

01:33:34,990 --> 01:33:32,070

things don't I I don't really like

1981

01:33:36,319 --> 01:33:35,000

writing with mainstream archaeologists

1982

01:33:38,120 --> 01:33:36,329

other

1983

01:33:40,010 --> 01:33:38,130

I'm working on a book with Andrew

1984

01:33:41,870 --> 01:33:40,020

Collins he's coming over here this

1985

01:33:42,859 --> 01:33:41,880

coming week as a matter of fact and

1986

01:33:46,669 --> 01:33:42,869

we're gonna spend a couple of weeks

1987

01:33:48,379 --> 01:33:46,679

together we're doing a follow-up book to

1988

01:33:51,819 --> 01:33:48,389

the last one that we did together called

1989

01:33:56,089 --> 01:33:51,829

passive Souls and I'm doing other things

1990

01:33:57,950 --> 01:33:56,099

all right professional work well you do

1991

01:33:59,899 --> 01:33:57,960

you do a great deal of research and

1992

01:34:02,089 --> 01:33:59,909

we've got to get back to you to talk

1993

01:34:05,540 --> 01:34:02,099

about the Bermuda Triangle and I had

1994

01:34:07,790 --> 01:34:05,550

this in the day we found 31 planes you

1995

01:34:10,160 --> 01:34:07,800

found 31 plane my wife and I and our

1996

01:34:12,709 --> 01:34:10,170

trips there we found 31 planes now are

1997

01:34:15,649 --> 01:34:12,719

they are any of these the Avenger

1998

01:34:17,689 --> 01:34:15,659

bombers no I was hoping to find them we

1999

01:34:19,879 --> 01:34:17,699

found two that are on the official list

2000

01:34:22,129 --> 01:34:19,889

including one of the very important ones

2001  
01:34:24,109 --> 01:34:22,139  
the second plane that went down we found

2002  
01:34:25,939 --> 01:34:24,119  
that with National Geographic you can

2003  
01:34:29,600 --> 01:34:25,949  
see that on actually I think it's on

2004  
01:34:32,540 --> 01:34:29,610  
YouTube it's a I show Nat Geo did well I

2005  
01:34:34,669 --> 01:34:32,550  
I want to also I guess put it in a plug

2006  
01:34:36,770 --> 01:34:34,679  
for a couple of our titles we've just

2007  
01:34:39,290 --> 01:34:36,780  
published a book by Reverend Barry

2008  
01:34:41,060 --> 01:34:39,300  
downing who's of course his original

2009  
01:34:44,689 --> 01:34:41,070  
book flying saucers in the Bible was

2010  
01:34:46,700 --> 01:34:44,699  
published 50 years ago and we've just

2011  
01:34:49,270 --> 01:34:46,710  
come out with his second book called

2012  
01:34:52,250 --> 01:34:49,280  
biblical UFO revelations did

2013  
01:34:54,939 --> 01:34:52,260

extraterrestrial powers cause ancient

2014

01:34:58,609 --> 01:34:54,949

miracles like the parting of the Red Sea

2015

01:35:01,010 --> 01:34:58,619

the dropping of manna from the heavens

2016

01:35:02,990 --> 01:35:01,020

Ezekiel's wheel and of course don't

2017

01:35:04,939 --> 01:35:03,000

forget about the matrix control system

2018

01:35:07,459 --> 01:35:04,949

of philip k dick and the paranormal

2019

01:35:11,089 --> 01:35:07,469

synchronicities of timothy Beckley and

2020

01:35:12,979 --> 01:35:11,099

the Bladerunner 2049 or whatever it's

2021

01:35:16,129 --> 01:35:12,989

called that should be out in a couple of

2022

01:35:18,229 --> 01:35:16,139

weeks and thank you all for listening

2023

01:35:21,709 --> 01:35:18,239

and tune in next week don't forget our

2024

01:35:22,399 --> 01:35:21,719

youtube channel mr. UFO secret files and

2025

01:35:27,860 --> 01:35:22,409

Thank You Tina

2026

01:35:34,350 --> 01:35:30,690

you've been listening to exploring the

2027

01:35:37,950 --> 01:35:34,360

bazaar with hosts Timothy bikini panty

2028

01:35:40,830 --> 01:35:37,960

swaps they're taking back the night's by

2029

01:35:43,410 --> 01:35:40,840

jetting non-stop across the cosmos in

2030

01:35:47,030 --> 01:35:43,420

search of the truly bizarre and totally

2031

01:35:49,729 --> 01:35:47,040

unexplained with you as their combines

2032

01:35:54,209 --> 01:35:49,739

Thursday nights at 7:00 p.m. Pacific

2033

01:35:55,400 --> 01:35:54,219

10:00 p.m. Eastern and the K cor digital

2034

01:35:58,010 --> 01:35:55,410

radio

2035

01:36:01,310 --> 01:35:58,020

for more information on exploring the

2036

01:36:04,160 --> 01:36:01,320

bazaar and hosts Timothy Becky and Tim

2037

01:36:07,280 --> 01:36:04,170

Schwartz check out their kco our digital

2038

01:36:13,490 --> 01:36:07,290

radio network follow their YouTube
