00:03:03,570 --> 00:03:00,980

well I got moose right here moose moose

32

00:03:08,530 --> 00:03:03,580

and squirrel

33

00:03:10,990 --> 00:03:08,540

right well now we could get serious for

34

00:03:15,880 --> 00:03:11,000

the rest of the evening right oh yes of

35

00:03:18,190 --> 00:03:15,890

course I'm serious Tim I know I know I

36

00:03:23,500 --> 00:03:18,200

always try to put a monkey wrench into

37

00:03:26,080 --> 00:03:23,510

this note uh any any anything to get to

38

00:03:29,560 --> 00:03:26,090

Hollywood crowd that's what I say are

39

00:03:37,230 --> 00:03:29,570

you I'm goin I'm goin for a Tony Award

40

00:03:41,500 --> 00:03:40,300

what are you what is so what do you what

41

00:03:45,210 --> 00:03:41,510

do you been up to this week you've been

42

00:03:47,980 --> 00:03:45,220

busy working on this book with me on the

43

00:03:51,070 --> 00:03:47,990

cryptozoology the wing weird winged

44

00:03:54,100 --> 00:03:51,080

wonders yes yes that's right well and

45

00:03:55,720 --> 00:03:54,110

and it's just you know it's it's kind of

46

00:03:58,480 --> 00:03:55,730

a little bit of synchronicity there

47

00:04:02,560 --> 00:03:58,490

because I had previously written an

48

00:04:07,750 --> 00:04:02,570

article for an Indiana based magazine

49

00:04:10,930 --> 00:04:07,760

dealing with Oh giant and flying snakes

50

00:04:15,130 --> 00:04:10,940

that have been seen in Indiana in the

51
00:04:18,039 --> 00:04:15,140
past so I had already had some of this

52
00:04:21,130 --> 00:04:18,049
wonderful research right here at my desk

53
00:04:22,510 --> 00:04:21,140
ready to go for the article for this new

54
00:04:25,690 --> 00:04:22,520
book well there you go

55
00:04:28,990 --> 00:04:25,700
hey you know why why do so many weird

56
00:04:31,240 --> 00:04:29,000
things happen in Indiana oh I don't know

57
00:04:33,220 --> 00:04:31,250
I guess it's just a weird place well

58
00:04:37,570 --> 00:04:33,230
what was that there was an old TV show

59
00:04:40,510 --> 00:04:37,580
was an eerie Indiana area so see they

60
00:04:44,410 --> 00:04:40,520
they they realized even back in the

61
00:04:47,200 --> 00:04:44,420
early 80s you know what a strange place

62
00:04:51,270 --> 00:04:47,210
Indiana is well and you know we were

63
00:04:53,860 --> 00:04:51,280

just talking earlier today about the

64

00:04:54,730 --> 00:04:53,870

spiritualist movement and how we were

65

00:04:58,680 --> 00:04:54,740

going to

66

00:05:02,020 --> 00:04:58,690

being submitting some material to the

67

00:05:04,450 --> 00:05:02,030

psychic aid news over there in the UK

68

00:05:07,990 --> 00:05:04,460

which has been published for I think

69

00:05:11,020 --> 00:05:08,000

over 80 years now it started out in the

70

00:05:14,260 --> 00:05:11,030

1930s as a tabloid and that's a very

71

00:05:16,570 --> 00:05:14,270

shiny glossy color magazine available at

72

00:05:18,370 --> 00:05:16,580

your local newsstand

73

00:05:20,050 --> 00:05:18,380

well actually available importance is

74

00:05:22,990 --> 00:05:20,060

knowable let's be honest there are no

75

00:05:24,820 --> 00:05:23,000

newsstands my name what ya and anyways

76

00:05:29,560 --> 00:05:24,830

the spiritualist movement had great

77

00:05:31,420 --> 00:05:29,570

roots in in Indiana in fact near where

78

00:05:33,640 --> 00:05:31,430

you live I understand in fact you told

79

00:05:36,100 --> 00:05:33,650

me that you had visited camped at

80

00:05:37,870 --> 00:05:36,110

Chesterfield yeah I have the cap

81

00:05:41,980 --> 00:05:37,880

Chesterfield was in the same county

82

00:05:45,180 --> 00:05:41,990

where I grew up near I grew up in Elwood

83

00:05:48,640 --> 00:05:45,190

Indiana and camp Chesterfield was in

84

00:05:51,010 --> 00:05:48,650

Chesterfield just in the in the same

85

00:05:53,140 --> 00:05:51,020

County just down the road though I made

86

00:05:56,680 --> 00:05:53,150

it was I didn't realize it was there

87

00:06:04,630 --> 00:05:56,690

till I was a teenager and reading fate

88

00:06:06,880 --> 00:06:04,640

magazine and all those but yeah the

89

00:06:10,150 --> 00:06:06,890

topic tonight is not spiritualism

90

00:06:15,280 --> 00:06:10,160

although one of our guests has written

91

00:06:18,250 --> 00:06:15,290

on the the subject a very good DVD set

92

00:06:22,950 --> 00:06:18,260

in a book but tonight where we're

93

00:06:27,910 --> 00:06:22,960

getting into mind control and LSD and

94

00:06:31,030 --> 00:06:27,920

and not see the secret society is and a

95

00:06:34,120 --> 00:06:31,040

whole different ballgame and I think

96

00:06:37,360 --> 00:06:34,130

it's gonna be a very interesting program

97

00:06:48,370 --> 00:06:37,370

here if we all don't die of the flu by

98

00:06:51,550 --> 00:06:48,380

the time it's over 0:04 go down anyway

99

00:06:53,500 --> 00:06:51,560

Tim tell our audience who we will be

100

00:06:57,580 --> 00:06:53,510

speaking with this evening no definitely

101
00:07:00,610 --> 00:06:57,590
well tonight as as usual you know

102
00:07:03,550 --> 00:07:00,620
exploring the bizarre brings in the the

103
00:07:06,940 --> 00:07:03,560
the best guest of the most fantastic

104
00:07:07,999 --> 00:07:06,950
people for us to talk to and to learn

105
00:07:10,939 --> 00:07:08,009
new things for

106
00:07:14,510 --> 00:07:10,949
and we'll start out with a paul davids

107
00:07:16,579 --> 00:07:14,520
Paul Jeffrey David's we've known Paul

108
00:07:18,559 --> 00:07:16,589
for for quite a while and I'm trying to

109
00:07:22,399 --> 00:07:18,569
remember if we've had him on exploring

110
00:07:26,929 --> 00:07:22,409
the bazaar before he's he's been on some

111
00:07:28,670 --> 00:07:26,939
of our previous incarnations of webcast

112
00:07:32,149 --> 00:07:28,680
but this may be the first time he's been

113
00:07:35,570 --> 00:07:32,159

on with exploring the bazaar well he's

114

00:07:38,420 --> 00:07:35,580

on our YouTube channel mr. UFO secret

115

00:07:40,129 --> 00:07:38,430

files we did an interview with him when

116

00:07:44,029 --> 00:07:40,139

he was in New York a couple of years ago

117

00:07:46,100 --> 00:07:44,039

and about the video that he did about

118

00:07:49,279 --> 00:07:46,110

Forrest J Ackerman and the life on the

119

00:07:53,360 --> 00:07:49,289

other side right right well and that was

120

00:07:56,119 --> 00:07:53,370

absolutely absolutely fantastic program

121

00:08:00,230 --> 00:07:56,129

the life after death project which was

122

00:08:02,749 --> 00:08:00,240

shown on the Sci Fi Channel yeah

123

00:08:06,619 --> 00:08:02,759

but tonight we're going to be talking

124

00:08:11,600 --> 00:08:06,629

about his new book called a blowin

125

00:08:13,760 --> 00:08:11,610

America's mind and it should be just as

126

00:08:16,699 --> 00:08:13,770

always a fascinating conversation and

127

00:08:19,309 --> 00:08:16,709

also joining us tonight is Olaf Phillips

128

00:08:21,469 --> 00:08:19,319

now it's been on the show before and as

129

00:08:23,989 --> 00:08:21,479

you know he's a conspiracy researcher

130

00:08:26,749 --> 00:08:23,999

writer author publisher specializing in

131

00:08:29,170 --> 00:08:26,759

things like the secret space program

132

00:08:32,240 --> 00:08:29,180

exotic aircraft high-technology

133

00:08:34,519 --> 00:08:32,250

mind control all this other fun stuff

134

00:08:36,170 --> 00:08:34,529

that that were really interested in as

135

00:08:40,219 --> 00:08:36,180

well

136

00:08:43,219 --> 00:08:40,229

love is the publisher of paranormal

137

00:08:47,329 --> 00:08:43,229

magazine which has been around for gosh

138

00:08:51,050 --> 00:08:47,339

it seems like for forever and you can

139

00:08:55,670 --> 00:08:51,060

find more about paranormal at paranoia

140

00:08:58,309 --> 00:08:55,680

magazine at paranoia paranoia magazine

141

00:09:00,019 --> 00:08:58,319

calm sorry well I think I think we

142

00:09:02,629 --> 00:09:00,029

should also mention that he has

143

00:09:04,550 --> 00:09:02,639

contributed to this a book that we just

144

00:09:07,280 --> 00:09:04,560

published the week or so ago called

145

00:09:09,800 --> 00:09:07,290

occult secrets of the 3rd right Hitler

146

00:09:11,780 --> 00:09:09,810

and the SS the untold supernatural

147

00:09:14,509 --> 00:09:11,790

connection and I want to get into that a

148

00:09:17,800 --> 00:09:14,519

little bit later on as well well once

149

00:09:21,920 --> 00:09:17,810

you lead the questioning of Tim and

150

00:09:26,389 --> 00:09:21,930

let's find out about the CIA

151
00:09:28,400 --> 00:09:26,399
LSD well yeah well uh Paul uh thank you

152
00:09:29,410 --> 00:09:28,410
for being with us tonight truly a great

153
00:09:32,660 --> 00:09:29,420
having you with us

154
00:09:34,730 --> 00:09:32,670
Tim anybody who can coax me to

155
00:09:37,210 --> 00:09:34,740
participate in the show at late hours is

156
00:09:41,090 --> 00:09:37,220
got a magic gift

157
00:09:43,430 --> 00:09:41,100
I started say seven o'clock there in the

158
00:09:45,710 --> 00:09:43,440
West Coast that's not that's not yeah

159
00:09:49,550 --> 00:09:45,720
yeah that's late for me I've been

160
00:09:51,920 --> 00:09:49,560
keeping some really weird hours but you

161
00:09:55,120 --> 00:09:51,930
mentioned the name of the new book just

162
00:09:58,190 --> 00:09:55,130
out blowing America's mind it has a

163
00:10:01,790 --> 00:09:58,200

subtitle which is a true story of

164

00:10:05,269 --> 00:10:01,800

Princeton CIA mind control LSD and Zen

165

00:10:10,490 --> 00:10:05,279

and why Princeton

166

00:10:13,310 --> 00:10:10,500

well Princeton University is where the

167

00:10:16,940 --> 00:10:13,320

story is set where my co-author John

168

00:10:19,820 --> 00:10:16,950

Selby and I went to school and while

169

00:10:21,949 --> 00:10:19,830

they are majoring in psychology we

170

00:10:23,720 --> 00:10:21,959

discovered the research program at the

171

00:10:27,650 --> 00:10:23,730

nearby New Jersey neuropsychiatric

172

00:10:29,900 --> 00:10:27,660

Institute and our book is it's sort of a

173

00:10:32,630 --> 00:10:29,910

true-life one and Flew Over the Cuckoo's

174

00:10:34,760 --> 00:10:32,640

Nest if what happened to us when we

175

00:10:36,860 --> 00:10:34,770

enrolled as guinea pigs in their

176

00:10:42,680 --> 00:10:36,870

research program in deep hypnosis and

177

00:10:46,130 --> 00:10:42,690

LSD all right well now how did you

178

00:10:49,760 --> 00:10:46,140

enroll I mean did they put up flyers

179

00:10:52,880 --> 00:10:49,770

on campus or you know have a classifier

180

00:10:56,120 --> 00:10:52,890

I had in the classified ad you know you

181

00:10:58,490 --> 00:10:56,130

would think that something like that it

182

00:11:01,519 --> 00:10:58,500

would be a little difficult for a

183

00:11:04,310 --> 00:11:01,529

college student even for Princeton to to

184

00:11:06,040 --> 00:11:04,320

get involved with well they never told

185

00:11:09,740 --> 00:11:06,050

you what the goals of the program was

186

00:11:10,040 --> 00:11:09,750

who was financing it what it was really

187

00:11:12,560 --> 00:11:10,050

about

188

00:11:15,319 --> 00:11:12,570

and you mentioned flyers well at

189

00:11:18,350 --> 00:11:15,329

Princeton on the main thoroughfare it's

190

00:11:22,180 --> 00:11:18,360

called a Nassau Street they have kiosks

191

00:11:25,310 --> 00:11:22,190

where students and professors and

192

00:11:28,579 --> 00:11:25,320

interested parties put up ads for

193

00:11:31,000 --> 00:11:28,589

anything from a rock concert to a party

194

00:11:33,920 --> 00:11:31,010

- in this case they were looking for

195

00:11:35,870 --> 00:11:33,930

subjects to be paid and participate in

196

00:11:42,110 --> 00:11:35,880

deep hypnosis experience

197

00:11:46,130 --> 00:11:42,120

and it sounded interesting to me I asked

198

00:11:48,710 --> 00:11:46,140

around and what I found out that really

199

00:11:52,910 --> 00:11:48,720

fascinated me was that dr. Humphry

200

00:11:55,370 --> 00:11:52,920

Osmond was in charge of the program so

201
00:11:57,470 --> 00:11:55,380
who is Humphry Osmond well if you've

202
00:11:59,750 --> 00:11:57,480
ever in your life used the word

203
00:12:01,940 --> 00:11:59,760
psychedelic in any conversation

204
00:12:05,210 --> 00:12:01,950
that's because Humphry Osmond thought it

205
00:12:07,250 --> 00:12:05,220
up first he's a psychiatrist originally

206
00:12:09,860 --> 00:12:07,260
from England then he went to Canada

207
00:12:12,380 --> 00:12:09,870
where he began experimenting with mind

208
00:12:16,880 --> 00:12:12,390
manifesting drugs like peyote with the

209
00:12:20,120 --> 00:12:16,890
Native American church and then he came

210
00:12:21,500 --> 00:12:20,130
to head up of the Bureau of research at

211
00:12:25,820 --> 00:12:21,510
the New Jersey neuropsychiatric

212
00:12:27,670 --> 00:12:25,830
Institute where he was continuing his

213
00:12:31,760 --> 00:12:27,680

research with the psychedelics

214

00:12:35,120 --> 00:12:31,770

especially LSD and hypnosis for what he

215

00:12:37,220 --> 00:12:35,130

called non drug analogues to the

216

00:12:41,890 --> 00:12:37,230

psychedelic state meaning using deep

217

00:12:46,820 --> 00:12:41,900

hypnosis to mimic what happens on a trip

218

00:12:50,530 --> 00:12:46,830

but also and this was the tough part of

219

00:12:53,270 --> 00:12:50,540

it he was also using hypnosis to mimic

220

00:12:55,370 --> 00:12:53,280

psychosis hmm so you said we're gonna

221

00:12:57,590 --> 00:12:55,380

have a guest on tonight who has paranoia

222

00:13:00,790 --> 00:12:57,600

magazine well they were interested in

223

00:13:05,050 --> 00:13:00,800

using hypnosis to induce paranoia and

224

00:13:10,120 --> 00:13:05,060

schizophrenia split personality

225

00:13:14,300 --> 00:13:10,130

psychological panic they wanted to

226

00:13:20,690 --> 00:13:14,310

figure out the difference between the

227

00:13:23,150 --> 00:13:20,700

symptoms of madness psychosis and what

228

00:13:28,190 --> 00:13:23,160

happens to a person under a psychedelic

229

00:13:29,810 --> 00:13:28,200

drug so that was the heart of that part

230

00:13:32,480 --> 00:13:29,820

of MKULTRA what we can talk more about

231

00:13:34,100 --> 00:13:32,490

MKULTRA which was almost a hundred and

232

00:13:37,310 --> 00:13:34,110

fifty different research projects

233

00:13:39,940 --> 00:13:37,320

topsail appalled well what year was what

234

00:13:44,390 --> 00:13:39,950

a year years are we talking about here

235

00:13:48,770 --> 00:13:44,400

mainly 1967 although John Selby started

236

00:13:53,480 --> 00:13:48,780

in 1966 right that's the year

237

00:13:57,130 --> 00:13:53,490

that LSD was made illegal before that it

238

00:13:59,120 --> 00:13:57,140

was legal and people like Ken Kesey were

239

00:14:01,340 --> 00:13:59,130

passing it out in the cities and

240

00:14:04,730 --> 00:14:01,350

kool-aid the electric kool-aid acid test

241

00:14:07,490 --> 00:14:04,740

you know everywhere they could go and

242

00:14:10,100 --> 00:14:07,500

then things were shut down but they

243

00:14:11,780 --> 00:14:10,110

weren't shut down at the New Jersey

244

00:14:14,600 --> 00:14:11,790

neuropsychiatric Institute which had a

245

00:14:18,260 --> 00:14:14,610

healthy supply of Sandoz acid from

246

00:14:20,570 --> 00:14:18,270

Switzerland courtesy of the CIA this is

247

00:14:22,790 --> 00:14:20,580

what we did not know at the time that

248

00:14:26,120 --> 00:14:22,800

the project we're part of was being

249

00:14:29,600 --> 00:14:26,130

funded by the CIA through a dummy

250

00:14:32,090 --> 00:14:29,610

corporation as part of their CIA mind

251

00:14:33,950 --> 00:14:32,100

control experiments they had a lot of

252

00:14:36,470 --> 00:14:33,960

dummy corporations set up that were

253

00:14:38,120 --> 00:14:36,480

basically the paymaster's so the money

254

00:14:40,030 --> 00:14:38,130

couldn't be traced easily back to the

255

00:14:42,470 --> 00:14:40,040

CIA

256

00:14:45,950 --> 00:14:42,480

one of the paymaster's here was called

257

00:14:48,680 --> 00:14:45,960

the Society for the study of human

258

00:14:50,960 --> 00:14:48,690

ecology which what does that mean I mean

259

00:14:54,020 --> 00:14:50,970

it means I don't think means anything

260

00:14:57,980 --> 00:14:54,030

but that was the name they gave it and

261

00:15:00,890 --> 00:14:57,990

that's whose name was on the checks so

262

00:15:02,540 --> 00:15:00,900

NIH was also involved National

263

00:15:04,160 --> 00:15:02,550

Institutes of Health National Institutes

264

00:15:07,280 --> 00:15:04,170

of mental health there was a lot of

265

00:15:08,870 --> 00:15:07,290

black there was a lot of their funding

266

00:15:12,050 --> 00:15:08,880

that was funneled into black research

267

00:15:14,300 --> 00:15:12,060

projects that were top-secret and how do

268

00:15:16,880 --> 00:15:14,310

I know this well it all came out about

269

00:15:19,910 --> 00:15:16,890

10 years after we were part of the

270

00:15:25,340 --> 00:15:19,920

experiments MKULTRA was exposed

271

00:15:28,970 --> 00:15:25,350

nationally 1977 or so whether there was

272

00:15:31,870 --> 00:15:28,980

then the a Senate committee hearing

273

00:15:36,830 --> 00:15:31,880

about it Ted Kennedy was part of it and

274

00:15:39,580 --> 00:15:36,840

the hearing was kind of a whitewash this

275

00:15:43,190 --> 00:15:39,590

stuff had come in into the public

276

00:15:45,830 --> 00:15:43,200

documents had been exposed that Richard

277

00:15:46,910 --> 00:15:45,840

Helms who had headed the CIA previously

278

00:15:50,060 --> 00:15:46,920

had won a destroyed

279

00:15:52,430 --> 00:15:50,070

they weren't destroyed they went public

280

00:15:54,530 --> 00:15:52,440

and it was a tremendous embarrassment to

281

00:15:56,470 --> 00:15:54,540

the CIA and that's when we began to see

282

00:15:59,210 --> 00:15:56,480

the names of our researchers

283

00:16:01,280 --> 00:15:59,220

neuropsychiatric Institute who the

284

00:16:02,460 --> 00:16:01,290

funding parties were what the real

285

00:16:05,970 --> 00:16:02,470

purposes were of

286

00:16:08,400 --> 00:16:05,980

we were part of and we also John Selby

287

00:16:12,480 --> 00:16:08,410

and I we wrote blowing America's mind

288

00:16:14,040 --> 00:16:12,490

together because we lived it together we

289

00:16:18,690 --> 00:16:14,050

also at that point got to see the

290

00:16:24,480 --> 00:16:18,700

enormous scope of the CIA's mind control

291

00:16:27,990 --> 00:16:24,490

research they used prisons they used

292

00:16:32,100 --> 00:16:28,000

with so prisoners soldiers patients and

293

00:16:32,850 --> 00:16:32,110

hospitals college students colleges and

294

00:16:35,580 --> 00:16:32,860

universities

295

00:16:38,250 --> 00:16:35,590

and people that they enlisted at private

296

00:16:39,390 --> 00:16:38,260

research centers for their studies of

297

00:16:45,270 --> 00:16:39,400

about a hundred and forty different

298

00:16:48,120 --> 00:16:45,280

drugs and then they also experimented on

299

00:16:49,590 --> 00:16:48,130

completely unsuspecting people I mean

300

00:16:54,060 --> 00:16:49,600

and according to one report this

301
00:16:56,130 --> 00:16:54,070
included going into a subway and men

302
00:16:56,910 --> 00:16:56,140
with masks that would protect their

303
00:16:59,010 --> 00:16:56,920
breathing

304
00:17:00,330 --> 00:16:59,020
spraying LSD in the subway in order to

305
00:17:03,630 --> 00:17:00,340
see what would happen to the people that

306
00:17:05,910 --> 00:17:03,640
were passengers the rogue renegade

307
00:17:09,510 --> 00:17:05,920
operation that went on for many many

308
00:17:11,460 --> 00:17:09,520
years and they justified it in cold war

309
00:17:15,270 --> 00:17:11,470
terms because Russia was doing that kind

310
00:17:17,069 --> 00:17:15,280
of research and then there was the brain

311
00:17:18,840 --> 00:17:17,079
could the the might and what it would

312
00:17:23,540 --> 00:17:18,850
think they call it brainwashing they

313
00:17:26,550 --> 00:17:23,550

called it out of North Korea Korean War

314

00:17:28,590 --> 00:17:26,560

so you know they took advantage of the

315

00:17:30,780 --> 00:17:28,600

public and we just walked right into it

316

00:17:34,020 --> 00:17:30,790

John Selby and I as unsuspecting guinea

317

00:17:37,410 --> 00:17:34,030

pigs and the book is our true account

318

00:17:41,370 --> 00:17:37,420

blowing America's mind get you inside

319

00:17:43,500 --> 00:17:41,380

our skin as you live what we lived and

320

00:17:45,330 --> 00:17:43,510

you know we used all the real names

321

00:17:47,820 --> 00:17:45,340

they're all dead now we can use all the

322

00:17:53,280 --> 00:17:47,830

real names we we waited until everybody

323

00:17:56,580 --> 00:17:53,290

was dead well how did they keep track of

324

00:17:58,950 --> 00:17:56,590

your okay so you would go somewhere and

325

00:18:02,640 --> 00:17:58,960

you you knew that you were being given

326

00:18:04,890 --> 00:18:02,650

the drugs correct they didn't always

327

00:18:07,080 --> 00:18:04,900

tell us that we were given a drug and

328

00:18:11,010 --> 00:18:07,090

sometimes it was a placebo because they

329

00:18:12,540 --> 00:18:11,020

had a control group too so you didn't

330

00:18:15,660 --> 00:18:12,550

know or they wouldn't necessarily tell

331

00:18:16,080 --> 00:18:15,670

you that it was hypnosis plus a drug but

332

00:18:19,669 --> 00:18:16,090

it was

333

00:18:22,950 --> 00:18:19,679

always hypnosis that began with training

334

00:18:26,460 --> 00:18:22,960

training to teach you to go under very

335

00:18:30,060 --> 00:18:26,470

very deep hypnosis training to teach you

336

00:18:33,390 --> 00:18:30,070

to be responsive to a trigger word which

337

00:18:37,200 --> 00:18:33,400

would induce the trance once you were

338

00:18:39,960 --> 00:18:37,210

relaxed in a in one of the hypnosis

339

00:18:46,080 --> 00:18:39,970

chairs in these hypnosis rooms they

340

00:18:48,930 --> 00:18:46,090

called cells and they erased memory

341

00:18:51,930 --> 00:18:48,940

they gave hypnotic conditions the

342

00:18:55,950 --> 00:18:51,940

changed perception of reality for hours

343

00:18:58,320 --> 00:18:55,960

at a time they would wake you up when

344

00:19:00,630 --> 00:18:58,330

you are under a condition you'd walk

345

00:19:02,760 --> 00:19:00,640

around that we people taking notes on

346

00:19:04,889 --> 00:19:02,770

your behavior or asking you questions

347

00:19:07,130 --> 00:19:04,899

but they would have changed your reality

348

00:19:10,049 --> 00:19:07,140

in a fundamental way during those hours

349

00:19:11,430 --> 00:19:10,059

then before they would bring you out of

350

00:19:13,289 --> 00:19:11,440

it they would erase your memory of what

351

00:19:17,100 --> 00:19:13,299

had happened or in the previous few

352

00:19:19,889 --> 00:19:17,110

hours so it sounds incredible that they

353

00:19:22,110 --> 00:19:19,899

could really erase your memory of what

354

00:19:25,980 --> 00:19:22,120

had happened during you know the same

355

00:19:28,769 --> 00:19:25,990

afternoon tone but with sufficient

356

00:19:31,620 --> 00:19:28,779

training that happens you have to

357

00:19:35,399 --> 00:19:31,630

appreciate that hypnosis can even be

358

00:19:38,730 --> 00:19:35,409

used as an anaesthetic if it's used by

359

00:19:41,010 --> 00:19:38,740

people who know how to induce the state

360

00:19:44,730 --> 00:19:41,020

in people who are susceptible to going

361

00:19:46,019 --> 00:19:44,740

under it can be very very strong so I

362

00:19:50,190 --> 00:19:46,029

think one of the most interesting things

363

00:19:54,560 --> 00:19:50,200

about our book particularly what

364

00:19:57,389 --> 00:19:54,570

happened to my co-author John Selby who

365

00:19:59,820 --> 00:19:57,399

had been a subject for over a year when

366

00:20:02,240 --> 00:19:59,830

I got into the program he was being

367

00:20:05,279 --> 00:20:02,250

elevated to being a training hypnotist

368

00:20:07,230 --> 00:20:05,289

he was assigned to be my hypnotist at

369

00:20:12,360 --> 00:20:07,240

the beginning to teach me to go under

370

00:20:15,590 --> 00:20:12,370

and during that time he was having an

371

00:20:18,930 --> 00:20:15,600

enormous psychological crisis from

372

00:20:21,600 --> 00:20:18,940

hypnotic conditions from the memory

373

00:20:24,000 --> 00:20:21,610

blockage from some of the things that

374

00:20:29,070 --> 00:20:24,010

they had done to him under conditions

375

00:20:29,970 --> 00:20:29,080

that did involve drugs so listen we've

376

00:20:33,120 --> 00:20:29,980

been at work

377

00:20:36,360 --> 00:20:33,130

on this Tim and Tim for literally

378

00:20:39,810 --> 00:20:36,370

decades we started it a couple of years

379

00:20:43,710 --> 00:20:39,820

after we were at the Institute and had

380

00:20:46,260 --> 00:20:43,720

these experiences and weren't able to

381

00:20:50,130 --> 00:20:46,270

finish it then we tried to finish it

382

00:20:53,640 --> 00:20:50,140

when MKULTRA was exposed and we kept at

383

00:20:56,549 --> 00:20:53,650

it through the years but then without

384

00:20:59,909 --> 00:20:56,559

finishing at John Selby and I went to

385

00:21:03,720 --> 00:20:59,919

different directions he became sort of a

386

00:21:06,900 --> 00:21:03,730

world traveler and writer first of

387

00:21:10,289 --> 00:21:06,910

fiction and later of popular psychology

388

00:21:12,390 --> 00:21:10,299

and I went to the American Film

389

00:21:16,230 --> 00:21:12,400

Institute Center for Advanced Film

390

00:21:18,840 --> 00:21:16,240

Studies and got into the entertainment

391

00:21:21,230 --> 00:21:18,850

business and in Hollywood starting

392

00:21:24,510 --> 00:21:21,240

working with a very famous agent and

393

00:21:27,270 --> 00:21:24,520

then on to the Transformers TV show the

394

00:21:31,440 --> 00:21:27,280

animated cartoons then was involved with

395

00:21:34,380 --> 00:21:31,450

Star Wars intensely with writing six of

396

00:21:37,740 --> 00:21:34,390

the sequel books for Lucasfilm and then

397

00:21:40,440 --> 00:21:37,750

making Roswell then making about ten

398

00:21:45,900 --> 00:21:40,450

other independent films one or one every

399

00:21:48,870 --> 00:21:45,910

year or so so including one Timothy

400

00:21:50,820 --> 00:21:48,880

Leary yes it was one of the first and

401
00:21:53,100 --> 00:21:50,830
that's a very important thing to bring

402
00:21:57,360 --> 00:21:53,110
up the connection because that film

403
00:21:59,370 --> 00:21:57,370
which you can find online I think the

404
00:22:01,020 --> 00:21:59,380
DVD is still out there it may be out

405
00:22:02,610 --> 00:22:01,030
there for streaming too I'm not sure on

406
00:22:07,080 --> 00:22:02,620
that but it's called Timothy Leary's

407
00:22:10,590 --> 00:22:07,090
dead like the moody blue song so yeah

408
00:22:14,820 --> 00:22:10,600
about 20 years after these experiences

409
00:22:19,380 --> 00:22:14,830
at the Institute I got to know Timothy

410
00:22:20,100 --> 00:22:19,390
Leary quite intensely during the last

411
00:22:23,730 --> 00:22:20,110
year of his life

412
00:22:25,169 --> 00:22:23,740
his publisher sent me to him and the

413
00:22:28,950 --> 00:22:25,179

fact that I had worked with Humphry

414

00:22:33,500 --> 00:22:28,960

Osmond who he was associated with you

415

00:22:36,830 --> 00:22:33,510

know was a plus for letting me make a a

416

00:22:39,270 --> 00:22:36,840

biographical feature film about his life

417

00:22:40,630 --> 00:22:39,280

as he was dying the last year of his

418

00:22:46,060 --> 00:22:40,640

life

419

00:22:50,130 --> 00:22:46,070

different dimensions but blowing

420

00:22:52,590 --> 00:22:50,140

America's mind the latest book which I

421

00:22:58,030 --> 00:22:52,600

think your listeners will find

422

00:23:01,780 --> 00:22:58,040

fascinating and very very readable that

423

00:23:04,030 --> 00:23:01,790

waited until the end of 2017 for us to

424

00:23:06,010 --> 00:23:04,040

actually complete and for it to make

425

00:23:07,990 --> 00:23:06,020

print and of course it's both print in

426

00:23:12,280 --> 00:23:08,000

an e-book you can find it in any you

427

00:23:17,350 --> 00:23:12,290

know those any any any chance a video

428

00:23:21,610 --> 00:23:17,360

might spin-off movie a movie yes there

429

00:23:24,220 --> 00:23:21,620

there is I mean we haven't begun to

430

00:23:26,140 --> 00:23:24,230

solicit the interest in LA yet but that

431

00:23:28,900 --> 00:23:26,150

process actually is gonna start next

432

00:23:32,740 --> 00:23:28,910

week we'll see they have to see if

433

00:23:37,419 --> 00:23:32,750

there's somebody who intensely wants to

434

00:23:38,919 --> 00:23:37,429

make it and it will just well see that's

435

00:23:40,270 --> 00:23:38,929

the way it is with every project you

436

00:23:41,789 --> 00:23:40,280

know you put things out there and you

437

00:23:44,020 --> 00:23:41,799

you never know where it's destined

438

00:23:46,360 --> 00:23:44,030

Roswell took like four years of

439

00:23:48,789 --> 00:23:46,370

rejections to finally get made It's

440

00:23:51,880 --> 00:23:48,799

Showtime some of the best well we have

441

00:23:54,580 --> 00:23:51,890

our first break coming up and we'll be

442

00:23:56,260 --> 00:23:54,590

back in a couple of minutes and we'll be

443

00:23:59,169 --> 00:23:56,270

bringing in our next guest and we want

444

00:24:03,280 --> 00:23:59,179

to talk to him about the the not season

445

00:24:06,190 --> 00:24:03,290

in mind control and how this all ties in

446

00:24:13,860 --> 00:24:06,200

with this big schema things to control

447

00:24:20,590 --> 00:24:18,010

now back to exploring the bazaar with

448

00:24:23,890 --> 00:24:20,600

two of the most electrifying researchers

449

00:24:36,490 --> 00:24:23,900

in the Paranoid your hosts Timothy Becca

450

00:24:41,020 --> 00:24:36,500

Lee and 2pac hard drive and this is

451
00:24:43,210 --> 00:24:41,030
Belle WikiLeaks song I am a hack hack

452
00:24:46,090 --> 00:24:43,220
hard drive make that professor - you

453
00:24:49,810 --> 00:24:46,100

455

professor hat hard drive and now I'm all

456
00:24:56,560 --> 00:24:56,120
locked up Julian if they threw me in

457
00:24:59,470 --> 00:24:56,570
jail

458
00:25:02,620 --> 00:24:59,480
they think I'm clean out of luck I

459
00:25:05,770 --> 00:25:02,630
hacked the wrong hard drives and the

460
00:25:09,550 --> 00:25:05,780
files that I took well they're all

461
00:25:12,970 --> 00:25:09,560
filled with secrets come on have a look

462
00:25:16,630 --> 00:25:12,980
hey Julian my friend you're on a very

463
00:25:21,520 --> 00:25:16,640

very tough road but I've got two million

464

00:25:24,540 --> 00:25:21,530

secrets ready for you to upload UFOs and

465

00:25:28,750 --> 00:25:24,550

chemtrails and lots of voter fraud to

466

00:25:30,760 --> 00:25:28,760

Fukushima and plutonium now held Diablo

467

00:25:34,120 --> 00:25:30,770

is through

468

00:25:37,900 --> 00:25:34,130

Ron they've got the bomb do not wait to

469

00:25:41,400 --> 00:25:37,910

detonate CIA controls your mind

470

00:25:45,040 --> 00:25:41,410

Columbine it's not so fine 9/11

471

00:25:48,550 --> 00:25:45,050

implosion nothing is as it seems

472

00:25:52,840 --> 00:25:48,560

and Spira seas are not sad this world is

473

00:25:55,300 --> 00:25:52,850

full of bad dreams alright welcome back

474

00:25:58,300 --> 00:25:55,310

to exploring the bizarre and that was

475

00:26:00,790 --> 00:25:58,310

hack hard drive that's a good friend of

476
00:26:03,610 --> 00:26:00,800
yours I Paul yeah that's one of my alter

477
00:26:07,180 --> 00:26:03,620
egos too you know somewhere along the

478
00:26:09,910 --> 00:26:07,190
way I was in studio with Brian Lambert

479
00:26:14,650 --> 00:26:09,920
who composed the scores for three my

480
00:26:16,750 --> 00:26:14,660
films and we started you know just

481
00:26:18,700 --> 00:26:16,760
fooling around and what came out of

482
00:26:22,060 --> 00:26:18,710
those sessions was the personality of

483
00:26:25,180 --> 00:26:22,070
Professor hack hard drive so I did a

484
00:26:29,860 --> 00:26:25,190
whole bunch of hack hard drive songs and

485
00:26:32,140 --> 00:26:29,870
the WikiLeaks song in that one you you

486
00:26:34,120 --> 00:26:32,150
hear a car drive is in jail and he's

487
00:26:36,130 --> 00:26:34,130
singing to Julian Assange as he's

488
00:26:41,370 --> 00:26:36,140

getting ready to send Julian somehow

489

00:26:50,110 --> 00:26:45,910

and will after each break Tonight Show

490

00:26:53,080 --> 00:26:50,120

will play a different harddrive song oh

491

00:26:56,590 --> 00:26:53,090

great well that one that one is like a

492

00:26:58,800 --> 00:26:56,600

wet dream for conspiracy that's why what

493

00:27:01,600 --> 00:26:58,810

did that one first

494

00:27:04,120 --> 00:27:01,610

well Tim what do we what do we bring

495

00:27:07,470 --> 00:27:04,130

Olaf Phillips into the conversation now

496

00:27:11,230 --> 00:27:07,480

I know he's been patiently waiting for

497

00:27:18,100 --> 00:27:11,240

for his chance for hit for his day in

498

00:27:24,200 --> 00:27:21,470

well we'll get him to reveal all the

499

00:27:26,269 --> 00:27:24,210

secrets well maybe maybe maybe some

500

00:27:30,409 --> 00:27:26,279

psilocybin that's a little easier on the

501
00:27:32,450 --> 00:27:30,419
system well you know I have to say I've

502
00:27:35,659 --> 00:27:32,460
never been much for psychedelics my

503
00:27:39,710 --> 00:27:35,669
myself but the one time that I did do

504
00:27:41,479 --> 00:27:39,720
LSD I saw Jimi Hendrix perform oh you

505
00:27:43,639 --> 00:27:41,489
know what and you know what I said I

506
00:27:47,330 --> 00:27:43,649
said to myself I don't think I need to

507
00:27:49,159 --> 00:27:47,340
go any further with this I mean it was

508
00:27:53,210 --> 00:27:49,169
as far as I'm concerned it was the

509
00:27:57,139 --> 00:27:53,220
ultimate experience it was a good it was

510
00:27:59,119 --> 00:27:57,149
a fairly decent trip and you know the

511
00:28:02,180 --> 00:27:59,129
notes the the colored notes came out of

512
00:28:04,009 --> 00:28:02,190
the speakers and it was the music just

513
00:28:08,320 --> 00:28:04,019

the whaled and it took me to another

514

00:28:11,450 --> 00:28:08,330

dimension and I said well you know like

515

00:28:14,960 --> 00:28:11,460

the this is this is as far as I want to

516

00:28:17,349 --> 00:28:14,970

go with it and so that is the force it's

517

00:28:21,109 --> 00:28:17,359

not going to get any better than this

518

00:28:23,989 --> 00:28:21,119

you know and of course you know we kind

519

00:28:26,090 --> 00:28:23,999

of seen the the full circle here of

520

00:28:28,099 --> 00:28:26,100

course marijuana was big when I was a

521

00:28:30,619 --> 00:28:28,109

kid and then it was outlawed and illegal

522

00:28:34,820 --> 00:28:30,629

and people were thrown in jail and now

523

00:28:37,029 --> 00:28:34,830

it's recreational and medical and and

524

00:28:41,810 --> 00:28:37,039

all that so we we do seem to be

525

00:28:46,820 --> 00:28:41,820

loosening up the tabs somewhat I don't

526
00:28:48,940 --> 00:28:46,830
know do you think Paul that the LSD will

527
00:28:53,539 --> 00:28:48,950
ever be made illegal again they're

528
00:28:58,220 --> 00:28:53,549
tested well yeah you gotta move the

529
00:29:00,139 --> 00:28:58,230
government to get to get a change of any

530
00:29:03,289 --> 00:29:00,149
kind don't you or the federal government

531
00:29:05,840 --> 00:29:03,299
well they don't seem to be able to agree

532
00:29:08,720 --> 00:29:05,850
on funding the country or who's a

533
00:29:12,139 --> 00:29:08,730
citizen or which countries where to go

534
00:29:14,479 --> 00:29:12,149
to war with or what kind or what

535
00:29:16,279 --> 00:29:14,489
bathroom you could use what bathroom Tim

536
00:29:17,960 --> 00:29:16,289
you know there's a little bit a number

537
00:29:21,259 --> 00:29:17,970
of bathrooms you can use Tim given your

538
00:29:23,509 --> 00:29:21,269

state of affairs you know new york new

539

00:29:25,220 --> 00:29:23,519

york we have usually the bathrooms

540

00:29:27,289 --> 00:29:25,230

anybody could use them you know because

541

00:29:29,210 --> 00:29:27,299

nobody's gonna put in nobody's gonna

542

00:29:31,460 --> 00:29:29,220

spend the money to put into it three you

543

00:29:35,120 --> 00:29:31,470

know i mean so it the one

544

00:29:36,470 --> 00:29:35,130

once one fits all so to speak but yeah

545

00:29:38,120 --> 00:29:36,480

alright well that's because it's New

546

00:29:41,690 --> 00:29:38,130

York but you asked a serious question

547

00:29:43,279 --> 00:29:41,700

and my serious answer would be I hope so

548

00:29:45,230 --> 00:29:43,289

I don't think it ever should have been

549

00:29:49,159 --> 00:29:45,240

made illegal in the first place and I

550

00:29:50,630 --> 00:29:49,169

mean they not only took it away from the

551
00:29:53,690 --> 00:29:50,640
public they took it away from the

552
00:29:58,070 --> 00:29:53,700
scientists doctors researchers who were

553
00:30:01,460 --> 00:29:58,080
doing constructive work with it and you

554
00:30:03,860 --> 00:30:01,470
know and Humphrey Osmonds work probably

555
00:30:07,070 --> 00:30:03,870
comes under that category I mean he

556
00:30:08,870 --> 00:30:07,080
wasn't an evil person in the experiments

557
00:30:11,299 --> 00:30:08,880
he was doing he had legitimate purposes

558
00:30:13,760 --> 00:30:11,309
we just didn't know that by being part

559
00:30:18,200 --> 00:30:13,770
of it that there would be the good trips

560
00:30:20,630 --> 00:30:18,210
and the very bad trips well let me let

561
00:30:22,610 --> 00:30:20,640
me ask all of this now you worked on

562
00:30:25,279 --> 00:30:22,620
this a book with us the occult secrets

563
00:30:28,190 --> 00:30:25,289

of the third right which just came out

564

00:30:31,549 --> 00:30:28,200

what what is the history of mind-control

565

00:30:34,279 --> 00:30:31,559

I mean are are you it are you familiar

566

00:30:36,260 --> 00:30:34,289

with how this all got started I mean was

567

00:30:43,419 --> 00:30:36,270

it the Germans that started mind-control

568

00:30:45,190 --> 00:30:43,429

he does it go back before that hola hola

569

00:30:48,080 --> 00:30:45,200

are you there

570

00:30:51,500 --> 00:30:48,090

could we lose him we got him under my

571

00:30:58,720 --> 00:30:51,510

control C that CIA has moved in quickly

572

00:31:04,909 --> 00:31:02,570

mind control in German well yeah when

573

00:31:06,860 --> 00:31:04,919

did my control start I mean who came up

574

00:31:09,919 --> 00:31:06,870

with the concept that we could control

575

00:31:11,419 --> 00:31:09,929

up to other people's minds well I would

576

00:31:13,580 --> 00:31:11,429

argue to you that it probably started in

577

00:31:16,789 --> 00:31:13,590

the 19th century because you know you

578

00:31:19,399 --> 00:31:16,799

had a lot of hypnotist you know in that

579

00:31:22,520 --> 00:31:19,409

time you had a lot of people of sperm

580

00:31:25,610 --> 00:31:22,530

experiment in various kinds of drugs in

581

00:31:29,090 --> 00:31:25,620

the in the earlier part of them you know

582

00:31:31,340 --> 00:31:29,100

it's the 20th century in the late 19th

583

00:31:33,159 --> 00:31:31,350

century so I would say probably then the

584

00:31:35,740 --> 00:31:33,169

Germans did do a lot of experiments

585

00:31:38,510 --> 00:31:35,750

especially at the concentration camps

586

00:31:41,450 --> 00:31:38,520

where they would I mean they did a lot

587

00:31:44,000 --> 00:31:41,460

of experiments across the board there

588

00:31:45,220 --> 00:31:44,010

were you know atrocities but they they

589

00:31:48,220 --> 00:31:45,230

definitely experimented

590

00:31:50,350 --> 00:31:48,230

various kinds of drugs you know in

591

00:31:53,740 --> 00:31:50,360

artificial blood and all kinds of crazy

592

00:31:55,510 --> 00:31:53,750

stuff and what were they through the use

593

00:31:56,190 --> 00:31:55,520

of mind-control what were they trying to

594

00:31:59,260 --> 00:31:56,200

do

595

00:32:01,419 --> 00:31:59,270

where were they using using mind control

596

00:32:04,990 --> 00:32:01,429

on their own troops as well did you to

597

00:32:07,180 --> 00:32:05,000

get them to be superhuman not that I'm

598

00:32:08,620 --> 00:32:07,190

aware of I think for the most part their

599

00:32:11,680 --> 00:32:08,630

own troops are pretty bought into the

600

00:32:14,350 --> 00:32:11,690

ideology they kind of brain what I mean

601
00:32:16,090 --> 00:32:14,360
they did a lot of not so much like mind

602
00:32:18,400 --> 00:32:16,100
control per se like drug-induced mind

603
00:32:22,630 --> 00:32:18,410
control I mean you do see you know

604
00:32:24,669 --> 00:32:22,640
massive propaganda and that kind of you

605
00:32:27,640 --> 00:32:24,679
know mass scale

606
00:32:31,299 --> 00:32:27,650
brainwashing I think they did do a lot

607
00:32:33,250 --> 00:32:31,309
of brainwashing but I wouldn't say like

608
00:32:35,650 --> 00:32:33,260
straight mind-control like an MKULTRA

609
00:32:37,750 --> 00:32:35,660
kind of mind-control not that I'm aware

610
00:32:40,510 --> 00:32:37,760
of that doesn't mean it didn't happen I

611
00:32:43,000 --> 00:32:40,520
mean but you know in the case of their

612
00:32:44,860 --> 00:32:43,010
experimentation they experimented across

613
00:32:46,960 --> 00:32:44,870

the board I mean they used to they used

614

00:32:49,450 --> 00:32:46,970

to taking people from the concentration

615

00:32:51,070 --> 00:32:49,460

camps put them in vests and hang them

616

00:32:52,720 --> 00:32:51,080

from the ceiling like they were in a

617

00:32:54,220 --> 00:32:52,730

parachute and then they would mess

618

00:32:55,990 --> 00:32:54,230

around with air pressure to see when

619

00:32:57,789 --> 00:32:56,000

they would you know there when they

620

00:33:00,130 --> 00:32:57,799

would die so that they could see how

621

00:33:02,049 --> 00:33:00,140

high they could push the loot off of

622

00:33:04,810 --> 00:33:02,059

pilots before they would die so they

623

00:33:06,940 --> 00:33:04,820

were doing on inmates and concentration

624

00:33:08,289 --> 00:33:06,950

camp victims before you know they would

625

00:33:10,560 --> 00:33:08,299

go out to the Luftwaffe and say well

626
00:33:12,870 --> 00:33:10,570
your ceiling is now eleven thousand feet

627
00:33:16,539 --> 00:33:12,880
so they did some pretty horrific stuff

628
00:33:18,250 --> 00:33:16,549
now did did the the mind control we of

629
00:33:20,380 --> 00:33:18,260
course the movie The Manchurian the

630
00:33:24,039 --> 00:33:20,390
candidate was was popular they still

631
00:33:27,600 --> 00:33:24,049
play it on oh yeah on TV and all and of

632
00:33:31,570 --> 00:33:27,610
course I was a guest that many times on

633
00:33:34,390 --> 00:33:31,580
the long genival show and kandi Jones's

634
00:33:36,850 --> 00:33:34,400
fifth wife was the was the hosts that

635
00:33:38,830 --> 00:33:36,860
the you know after he got very ill and

636
00:33:42,130 --> 00:33:38,840
would only occasionally come on the air

637
00:33:47,350 --> 00:33:42,140
and there's a book out about her where

638
00:33:48,490 --> 00:33:47,360

supposedly she was used as a I guess

639

00:33:51,190 --> 00:33:48,500

what what is the word that I'm looking

640

00:33:53,470 --> 00:33:51,200

for spire add she was induced to do

641

00:33:57,039 --> 00:33:53,480

these things on their mind like a

642

00:33:59,169 --> 00:33:57,049

courier you know it's something she

643

00:34:03,269 --> 00:33:59,179

never she never really talked about this

644

00:34:05,469 --> 00:34:03,279

in fact I didn't really know about her

645

00:34:07,659 --> 00:34:05,479

involvement in this and of course some

646

00:34:10,359 --> 00:34:07,669

people say well the whole incident was

647

00:34:12,909 --> 00:34:10,369

you know a made up it was Long John

648

00:34:14,919 --> 00:34:12,919

trying to be a hypnotist and well I

649

00:34:16,599 --> 00:34:14,929

don't know I can't say because we talked

650

00:34:18,609 --> 00:34:16,609

about a lot of other things on the air

651
00:34:20,980 --> 00:34:18,619
but we never discuss we never really

652
00:34:22,269 --> 00:34:20,990
discussed mind control and I guess if I

653
00:34:24,539 --> 00:34:22,279
had known about it I would have brought

654
00:34:27,159 --> 00:34:24,549
it up but it wasn't something that

655
00:34:30,099 --> 00:34:27,169
particularly interested me and I don't

656
00:34:34,210 --> 00:34:30,109
think he got a lot of attention at the

657
00:34:37,240 --> 00:34:34,220
the time but now the Korean War I guess

658
00:34:39,250 --> 00:34:37,250
was more heavily involved in mind

659
00:34:42,240 --> 00:34:39,260
control by both sides is that correct

660
00:34:44,879 --> 00:34:42,250
right that's correct

661
00:34:47,349 --> 00:34:44,889
Walter Bart wrote a book called

662
00:34:49,659 --> 00:34:47,359
Operation mind control you know where he

663
00:34:51,369 --> 00:34:49,669

gets into that kind of stuff about the

664

00:34:56,740 --> 00:34:51,379

trauma-based mind control one house and

665

00:34:59,799 --> 00:34:56,750

those things are done in the toward the

666

00:35:01,720 --> 00:34:59,809

end of that book by beau art he has an

667

00:35:03,190 --> 00:35:01,730

index where he lists a hundred and

668

00:35:05,049 --> 00:35:03,200

thirty-nine different drugs that they

669

00:35:08,019 --> 00:35:05,059

were experimenting with under MKULTRA

670

00:35:09,880 --> 00:35:08,029

and if I could just jump in for just a

671

00:35:13,450 --> 00:35:09,890

second because MKULTRA did sort of take

672

00:35:16,059 --> 00:35:13,460

off in the early 1950s and went deep

673

00:35:19,180 --> 00:35:16,069

into the 1970s but some of their

674

00:35:21,700 --> 00:35:19,190

objectives you know they were very

675

00:35:24,220 --> 00:35:21,710

interested in finding a drug which could

676
00:35:25,210 --> 00:35:24,230
cause enemy soldiers to decide to just

677
00:35:27,670 --> 00:35:25,220
lay down their weapons on the

678
00:35:29,589 --> 00:35:27,680
battlefield and stop fighting and that

679
00:35:32,559 --> 00:35:29,599
was one of the things that they were

680
00:35:34,630 --> 00:35:32,569
thinking about for LSD could it do that

681
00:35:36,849 --> 00:35:34,640
and they they did army experiments and

682
00:35:38,370 --> 00:35:36,859
they found that absolutely soldiers

683
00:35:40,480 --> 00:35:38,380
would disobey orders

684
00:35:44,380 --> 00:35:40,490
they wouldn't even pay any attention to

685
00:35:47,170 --> 00:35:44,390
orders when they were under the

686
00:35:49,480 --> 00:35:47,180
influence there was that and then there

687
00:35:54,059 --> 00:35:49,490
was also their desire to find the magic

688
00:35:58,120 --> 00:35:54,069

bullet let's say that could cause

689

00:36:01,420 --> 00:35:58,130

retiring CIA agents who had a lot of

690

00:36:03,220 --> 00:36:01,430

classified knowledge to have their

691

00:36:07,480 --> 00:36:03,230

memories wiped clean you know like

692

00:36:09,609 --> 00:36:07,490

wiping at a hard drive and so that they

693

00:36:11,079 --> 00:36:09,619

wouldn't remember the information once

694

00:36:12,160 --> 00:36:11,089

they retired that was another of their

695

00:36:15,460 --> 00:36:12,170

goals

696

00:36:18,660 --> 00:36:15,470

well also interrogation you know

697

00:36:21,610 --> 00:36:18,670

something like operation midnight climax

698

00:36:24,280 --> 00:36:21,620

you know they would it was a CIA

699

00:36:26,980 --> 00:36:24,290

operated brothel and they would get to

700

00:36:29,560 --> 00:36:26,990

John's and it kind of devolved later

701
00:36:32,290 --> 00:36:29,570
into more of a sex warfare kind of

702
00:36:35,020 --> 00:36:32,300
situation but you know initially the

703
00:36:37,330 --> 00:36:35,030
logic was unbelievable sprinkles and ran

704
00:36:39,010 --> 00:36:37,340
it but the logic was they bring these

705
00:36:41,650 --> 00:36:39,020
guys in and then they'd offer them water

706
00:36:43,180 --> 00:36:41,660
and the water was spiked with LSD and

707
00:36:44,980 --> 00:36:43,190
then you know they were observing

708
00:36:47,200 --> 00:36:44,990
through a two-way mirror and once the

709
00:36:49,630 --> 00:36:47,210
John was tripping then they would come

710
00:36:51,430 --> 00:36:49,640
in and interrogate him to see if they

711
00:36:54,550 --> 00:36:51,440
could you know get information out of

712
00:36:55,870 --> 00:36:54,560
him and you know how lucid was he you

713
00:36:57,970 --> 00:36:55,880

know from what I've read it didn't work

714

00:36:59,650 --> 00:36:57,980

so good and I you know they also

715

00:37:04,290 --> 00:36:59,660

definitely try to use it as an

716

00:37:09,070 --> 00:37:04,300

interrogation tool oh well uh what about

717

00:37:12,160 --> 00:37:09,080

a project paperclip I mean were any of

718

00:37:16,390 --> 00:37:12,170

the scientists that were brought over at

719

00:37:19,150 --> 00:37:16,400

the end of the war I mean were they and

720

00:37:22,320 --> 00:37:19,160

their their knowledge used by the the

721

00:37:25,030 --> 00:37:22,330

CIA in the early MKULTRA developments

722

00:37:26,800 --> 00:37:25,040

the name the name escape st. Paul

723

00:37:28,570 --> 00:37:26,810

actually probably knows them but the

724

00:37:31,300 --> 00:37:28,580

name escapes me offhand but there were a

725

00:37:32,550 --> 00:37:31,310

couple they were brought in to do that

726

00:37:34,720 --> 00:37:32,560

kind of stuff

727

00:37:37,090 --> 00:37:34,730

you have to remember is that when they

728

00:37:39,730 --> 00:37:37,100

did paperclip you know it was a race to

729

00:37:42,100 --> 00:37:39,740

stop the Soviets from doing the same

730

00:37:44,620 --> 00:37:42,110

thing and you know so they pretty much

731

00:37:46,150 --> 00:37:44,630

just went and got all the you know that

732

00:37:48,160 --> 00:37:46,160

kind of nasty people they could find

733

00:37:49,780 --> 00:37:48,170

that that had the information that they

734

00:37:51,850 --> 00:37:49,790

wanted her the knowledge they pretty

735

00:37:53,770 --> 00:37:51,860

much just scooped them all up so if

736

00:37:55,570 --> 00:37:53,780

there was somebody doing experiments in

737

00:37:57,160 --> 00:37:55,580

the mind-control there was somebody you

738

00:37:58,960 --> 00:37:57,170

know experimenting with various kinds of

739

00:38:00,880 --> 00:37:58,970

drugs and interrogation and other things

740

00:38:03,280 --> 00:38:00,890

they definitely picked him up there

741

00:38:05,170 --> 00:38:03,290

there too that I seem to remember that

742

00:38:08,080 --> 00:38:05,180

they were doing more like interrogation

743

00:38:11,800 --> 00:38:08,090

stuff but their names escape me off him

744

00:38:13,840 --> 00:38:11,810

there was Sidney Gottlieb dr. Gottlieb

745

00:38:15,360 --> 00:38:13,850

yeah he was put in charge of the program

746

00:38:20,440 --> 00:38:15,370

by Richard Helms

747

00:38:23,260 --> 00:38:20,450

Helms became head of the CIA around the

748

00:38:25,799 --> 00:38:23,270

mid 1960s he had resurrected some of the

749

00:38:28,799 --> 00:38:25,809

MKULTRA projects that

750

00:38:32,309 --> 00:38:28,809

that they had begun to let gather dust

751
00:38:35,449 --> 00:38:32,319
and he pointed he appointed dr. Sidney

752
00:38:38,429 --> 00:38:35,459
Gottlieb as head of all the MKULTRA

753
00:38:41,969 --> 00:38:38,439
projects and it becomes a very

754
00:38:44,759 --> 00:38:41,979
interesting story we you know in blowing

755
00:38:47,849 --> 00:38:44,769
America's mind the history of all this

756
00:38:49,319 --> 00:38:47,859
is its peripheral to it because we're

757
00:38:51,599 --> 00:38:49,329
mainly telling our personal story of

758
00:38:53,910 --> 00:38:51,609
what it was like to have been part of it

759
00:38:56,609 --> 00:38:53,920
when we were at Princeton and and

760
00:38:57,959 --> 00:38:56,619
Princeton and Columbia University and a

761
00:38:59,789 --> 00:38:57,969
Harvard University where all

762
00:39:03,420 --> 00:38:59,799
universities that were used for some of

763
00:39:05,160 --> 00:39:03,430

these experiments but you know at the

764

00:39:07,920 --> 00:39:05,170

beginning and then the and then the

765

00:39:10,170 --> 00:39:07,930

epilogue we deal with some of those

766

00:39:13,259 --> 00:39:10,180

facts that came out later that for

767

00:39:15,539 --> 00:39:13,269

example that Richard Helms had ordered

768

00:39:19,650 --> 00:39:15,549

all the documents on MKULTRA to be

769

00:39:22,259 --> 00:39:19,660

destroyed and they weren't and nobody

770

00:39:25,079 --> 00:39:22,269

knows why or who arranged for that but

771

00:39:28,309 --> 00:39:25,089

there were 20 boxes of documents on

772

00:39:32,429 --> 00:39:28,319

MKULTRA which doesn't cover everything

773

00:39:35,099 --> 00:39:32,439

by no means but it gave a huge window

774

00:39:38,939 --> 00:39:35,109

into the whole scope of the project once

775

00:39:41,039 --> 00:39:38,949

those documents were discovered and they

776

00:39:42,870 --> 00:39:41,049

were all in boxes mislabeled as

777

00:39:46,620 --> 00:39:42,880

financial documents for some other

778

00:39:51,689 --> 00:39:46,630

project so it wasn't until Helms was out

779

00:39:55,919 --> 00:39:51,699

at the CIA helm said lied to Congress in

780

00:39:59,219 --> 00:39:55,929

the iran-contra situation he was

781

00:40:06,419 --> 00:39:59,229

severely punished by Congress I mean he

782

00:40:08,849 --> 00:40:06,429

was given a \$1,500 fine oh he was out at

783

00:40:11,910 --> 00:40:08,859

the CIA persona non-grata and then

784

00:40:18,419 --> 00:40:11,920

income Stansfield Turner I think was a

785

00:40:21,359 --> 00:40:18,429

Navy admiral yeah oh and Carter the

786

00:40:30,259 --> 00:40:21,369

President Carter was a Navy man and and

787

00:40:34,799 --> 00:40:30,269

brought him in so Stansfield Turner's

788

00:40:36,539 --> 00:40:34,809

goal was to sort of wash his hands of

789

00:40:39,150 --> 00:40:36,549

all the stuff once it came out and said

790

00:40:39,690 --> 00:40:39,160

look this wasn't our CIA that did this

791

00:40:41,579 --> 00:40:39,700

we

792

00:40:44,460 --> 00:40:41,589

it's stopped it's not happening anymore

793

00:40:48,680 --> 00:40:44,470

we'll try to prove that one do you

794

00:40:51,599 --> 00:40:48,690

believe that oh ha with your research no

795

00:40:54,059 --> 00:40:51,609

no and actually what's interesting when

796

00:40:55,470 --> 00:40:54,069

you were talking about the documents you

797

00:40:58,230 --> 00:40:55,480

know obviously I have some of an

798

00:41:00,120 --> 00:40:58,240

interest my my editor is actually the

799

00:41:04,349 --> 00:41:00,130

one who does most of the mind control

800

00:41:07,589 --> 00:41:04,359

stuff but I came across a Lycan index

801
00:41:10,620 --> 00:41:07,599
word has every single MKULTRA

802
00:41:12,750 --> 00:41:10,630
sub-project I think for the most part a

803
00:41:14,970 --> 00:41:12,760
lot a lot of the people that that ran it

804
00:41:17,190 --> 00:41:14,980
they're redacted but it has the

805
00:41:19,859 --> 00:41:17,200
summaries it has the drugs that they

806
00:41:21,270 --> 00:41:19,869
used I mean has everything and it shows

807
00:41:23,490 --> 00:41:21,280
you you know when you're talking about

808
00:41:25,319 --> 00:41:23,500
these things were mislabeled and never

809
00:41:27,539 --> 00:41:25,329
destroyed you know the fact that

810
00:41:30,750 --> 00:41:27,549
somebody put that summary table I mean

811
00:41:32,370 --> 00:41:30,760
that's like a map to MKULTRA somebody

812
00:41:33,930 --> 00:41:32,380
put this in a box in this label bit I

813
00:41:35,690 --> 00:41:33,940

mean you know you have to wonder that

814

00:41:38,010 --> 00:41:35,700

there's some sort of thought behind that

815

00:41:39,780 --> 00:41:38,020

yeah somebody definitely was thinking

816

00:41:42,720 --> 00:41:39,790

about this because that if you're going

817

00:41:44,460 --> 00:41:42,730

to destroy anything destroy the indexes

818

00:41:46,289 --> 00:41:44,470

destroy the things they tell you what

819

00:41:50,069 --> 00:41:46,299

all the sub projects are you know

820

00:41:52,890 --> 00:41:50,079

destroy the you know the the updates and

821

00:41:54,569 --> 00:41:52,900

the you know the various memos between

822

00:41:56,819 --> 00:41:54,579

the sub projects in the main and they

823

00:42:01,349 --> 00:41:56,829

didn't get destroyed so it's definitely

824

00:42:03,390 --> 00:42:01,359

very weird yeah it was it was intended

825

00:42:05,490 --> 00:42:03,400

to be planted there to eventually be

826

00:42:07,319 --> 00:42:05,500

found you know one of the things to

827

00:42:10,890 --> 00:42:07,329

emphasize is that when this was exposed

828

00:42:12,630 --> 00:42:10,900

and I think that was 1977 it was

829

00:42:16,200 --> 00:42:12,640

headline news in all the newspapers

830

00:42:18,900 --> 00:42:16,210

across the country for you know let's

831

00:42:23,190 --> 00:42:18,910

say for many many days until they kind

832

00:42:25,370 --> 00:42:23,200

of shuffled it aside but the title of

833

00:42:30,960 --> 00:42:25,380

the book that I wrote with John Selby

834

00:42:33,480 --> 00:42:30,970

bellowing America's mind comes from the

835

00:42:35,789 --> 00:42:33,490

headline of an LA Times editorial in

836

00:42:38,700 --> 00:42:35,799

that period they published an editorial

837

00:42:41,970 --> 00:42:38,710

saying the CIA blowing America's mind

838

00:42:44,640 --> 00:42:41,980

and they made the point that the nation

839

00:42:49,559 --> 00:42:44,650

they said the nation's powerful secret

840

00:42:52,410 --> 00:42:49,569

intelligence agencies are how do we stop

841

00:42:53,520 --> 00:42:52,420

them from working to destroy the very

842

00:42:56,280 --> 00:42:53,530

freedoms

843

00:42:58,680 --> 00:42:56,290

they were set up to defend and that is

844

00:43:02,760 --> 00:42:58,690

part of the point what do you do when

845

00:43:06,150 --> 00:43:02,770

you have when you have sort of a lethal

846

00:43:11,090 --> 00:43:06,160

cancer growing in the body politic that

847

00:43:14,940 --> 00:43:11,100

is working its way into civilian

848

00:43:17,100 --> 00:43:14,950

institutions like regular hospitals and

849

00:43:19,560 --> 00:43:17,110

dealing with regular patients and Ivy

850

00:43:24,380 --> 00:43:19,570

League school students I mean when you

851
00:43:26,610 --> 00:43:24,390
think about Columbia Princeton Harvard

852
00:43:28,410 --> 00:43:26,620
the New York Times published an article

853
00:43:30,510 --> 00:43:28,420
we have some of these articles and

854
00:43:32,810 --> 00:43:30,520
blowing America's mind but we on the

855
00:43:39,360 --> 00:43:32,820
back cover we have this headline from

856
00:43:41,640 --> 00:43:39,370
New York Times August 26 1977 the CIA

857
00:43:46,530 --> 00:43:41,650
tells Columbia and Princeton of secret

858
00:43:48,030 --> 00:43:46,540
behavioral research well it's explosive

859
00:43:50,430 --> 00:43:48,040
because I mean what are we to believe

860
00:43:52,200 --> 00:43:50,440
from that that these universities didn't

861
00:43:55,080 --> 00:43:52,210
know that this research was going on at

862
00:43:57,120 --> 00:43:55,090
their own universities that professors

863
00:44:01,770 --> 00:43:57,130

and researchers were taking money for

864

00:44:04,770 --> 00:44:01,780

this I think at a high administrative

865

00:44:06,390 --> 00:44:04,780

level they they did know and this is one

866

00:44:08,010 --> 00:44:06,400

of the interesting things that John

867

00:44:10,620 --> 00:44:08,020

Selby and I addressed because there's a

868

00:44:14,600 --> 00:44:10,630

terrific chapter if you'll permit me in

869

00:44:16,980 --> 00:44:14,610

our book well if John Selby confronting

870

00:44:19,830 --> 00:44:16,990

Robert F gowhen who was then the

871

00:44:22,710 --> 00:44:19,840

president of Princeton University about

872

00:44:28,650 --> 00:44:22,720

all of these issues and about LSD and

873

00:44:30,750 --> 00:44:28,660

its use on campus and John Selby got

874

00:44:34,220 --> 00:44:30,760

into trouble for disclosing information

875

00:44:38,430 --> 00:44:34,230

that he had through the Institute about

876

00:44:42,360 --> 00:44:38,440

LSD use and marijuana use at Princeton

877

00:44:44,280 --> 00:44:42,370

and it got into the New York Times and

878

00:44:45,450 --> 00:44:44,290

you know it's huge embarrassment to the

879

00:44:47,610 --> 00:44:45,460

University at that time and they were

880

00:44:51,120 --> 00:44:47,620

trying to contain all this as a problem

881

00:44:54,120 --> 00:44:51,130

and here was John Selby who they viewed

882

00:44:56,190 --> 00:44:54,130

as kind of a betrayer

883

00:45:01,830 --> 00:44:56,200

while canon couldn't keep his mouth shut

884

00:45:05,400 --> 00:45:01,840

and they sort of isolated him at that

885

00:45:07,470 --> 00:45:05,410

Institute he didn't take classes his

886

00:45:10,500 --> 00:45:07,480

final year it was all at

887

00:45:12,210 --> 00:45:10,510

Institute they gave him a diploma but

888

00:45:15,630 --> 00:45:12,220

they sort of got him out of the way it

889

00:45:19,230 --> 00:45:15,640

was fair and there I was the younger guy

890

00:45:20,790 --> 00:45:19,240

naive about all this what did I know I

891

00:45:23,430 --> 00:45:20,800

just walked right into the middle of it

892

00:45:25,890 --> 00:45:23,440

volunteered to be a subject I was being

893

00:45:29,750 --> 00:45:25,900

used I was enjoying you know being a

894

00:45:33,570 --> 00:45:29,760

part of the Institute to some extent but

895

00:45:35,700 --> 00:45:33,580

but then then came the dark side you

896

00:45:37,410 --> 00:45:35,710

know and I we we both got to see that

897

00:45:40,670 --> 00:45:37,420

too and the book builds to the climax

898

00:45:44,790 --> 00:45:40,680

where Jonathan Selby flees from

899

00:45:46,590 --> 00:45:44,800

Princeton to go to California without

900

00:45:48,840 --> 00:45:46,600

finishing his courses without taking

901
00:45:56,330 --> 00:45:48,850
final exams and yet they give him his

902
00:45:59,310 --> 00:45:56,340
diploma it was a big big spider web of

903
00:46:02,130 --> 00:45:59,320
interconnections spooks men and black

904
00:46:05,760 --> 00:46:02,140
were there looking in on our lives even

905
00:46:09,060 --> 00:46:05,770
after it all happened and you know we

906
00:46:11,940 --> 00:46:09,070
spent years sorting it all out well how

907
00:46:15,150 --> 00:46:11,950
about how about the the rumors that some

908
00:46:17,550 --> 00:46:15,160
people might have even been assassinated

909
00:46:22,109 --> 00:46:17,560
or killed because they knew or were

910
00:46:25,170 --> 00:46:22,119
going to talk about this like adults to

911
00:46:30,180 --> 00:46:25,180
Dulles that fell was it either one that

912
00:46:31,500 --> 00:46:30,190
fell out of the this little oh oh aren't

913
00:46:34,130 --> 00:46:31,510

you thinking of Frank Olson

914

00:46:36,540 --> 00:46:34,140
now that was Forrestal Forrest of

915

00:46:39,060 --> 00:46:36,550
Bethesda Naval Medical Iseman yes and

916

00:46:41,040 --> 00:46:39,070
then Frank Olson later out of window

917

00:46:44,849 --> 00:46:41,050
under the influence of LSD they're doing

918

00:46:47,430 --> 00:46:44,859
a TV series now based on the Frank Olson

919

00:46:49,250 --> 00:46:47,440
story somebody could come up with the

920

00:46:52,080 --> 00:46:49,260
name of the series what is it called

921

00:46:55,099 --> 00:46:52,090
we know we got stranger things which is

922

00:46:57,780 --> 00:46:55,109
a fictional version of all that but

923

00:46:59,700 --> 00:46:57,790
something like that you know it'll come

924

00:47:02,190 --> 00:46:59,710
it'll it'll it'll come to me there's one

925

00:47:05,010 --> 00:47:02,200
about Frank Olson but yeah people killed

926

00:47:10,050 --> 00:47:05,020

over it what was the name of the CIA

927

00:47:13,830 --> 00:47:10,060

agent was a CIA head was it Casey who

928

00:47:16,590 --> 00:47:13,840

had served as head of the CIA and then

929

00:47:20,640 --> 00:47:16,600

he didn't he drown

930

00:47:21,309 --> 00:47:20,650

does anybody know that story Cole basic

931

00:47:23,469 --> 00:47:21,319

cold

932

00:47:26,859 --> 00:47:23,479

he went out he yeah he had gotten out of

933

00:47:29,890 --> 00:47:26,869

the CIA and then he retired and then he

934

00:47:33,239 --> 00:47:29,900

one day he went out for a canoe ride

935

00:47:36,549 --> 00:47:33,249

yeah and then he he just never came back

936

00:47:38,799 --> 00:47:36,559

yeah there's actually a really great

937

00:47:41,289 --> 00:47:38,809

documentary his son made call I think it

938

00:47:43,630 --> 00:47:41,299

was like finding my father where he

939

00:47:49,029 --> 00:47:43,640

tries to figure out exactly what Kobe

940

00:47:51,219 --> 00:47:49,039

did tell you those who want to know why

941

00:47:53,920 --> 00:47:51,229

Johnson Obie and I waited so many years

942

00:47:56,559 --> 00:47:53,930

to complete and publish blowin America's

943

00:47:57,910 --> 00:47:56,569

mind you've just heard some of the

944

00:48:00,549 --> 00:47:57,920

reasons we waited till we thought the

945

00:48:03,789 --> 00:48:00,559

coast was clear you know that you

946

00:48:05,920 --> 00:48:03,799

delimitations is up right maybe not all

947

00:48:08,229 --> 00:48:05,930

right well our statute of limitations

948

00:48:10,150 --> 00:48:08,239

are up for this section of the show so

949

00:48:13,839 --> 00:48:10,160

when we come back we'll continue our

950

00:48:16,779 --> 00:48:13,849

conversation about mind-control MKULTRA

951
00:48:17,970 --> 00:48:16,789
and other devious things on exploring

952
00:48:27,260 --> 00:48:17,980
the bizarre

953
00:48:34,220 --> 00:48:31,770
explode the bazaars your e-ticket ride

954
00:48:37,500 --> 00:48:34,230
into the world of the paranormal

955
00:48:41,809 --> 00:48:37,510
strap yourself in as we traverse the

956
00:48:46,260 --> 00:48:41,819
universe exploring the unexplained UFO s

957
00:48:50,400 --> 00:48:46,270
ghosts Lost Worlds cryptozoology waters

958
00:48:54,900 --> 00:48:50,410
as well as other dimensions it's time to

959
00:48:57,150 --> 00:48:54,910
take back the night now your

960
00:49:07,150 --> 00:48:57,160
electrifying hosts of exploring the

961
00:49:48,000 --> 00:49:18,240
[Music]

962
00:50:04,140 --> 00:49:48,010
did we hurt your feelings don't know we

963
00:50:05,490 --> 00:50:04,150

didn't we need to love you we hate go on

964

00:50:10,530 --> 00:50:05,500

965

00:50:14,099 --> 00:50:10,540

each detest you despise you

966

00:50:16,920 --> 00:50:14,109

[Music]

970

00:50:31,960 --> 00:50:29,510

you love you ill you're so dear be near

971

00:50:35,200 --> 00:50:31,970

[Music]

972

00:50:42,230 --> 00:50:35,210

will you will love you you're grateful

973

00:50:45,859 --> 00:50:42,240

your time that sounds like so my past

974

00:50:49,370 --> 00:50:45,869

relationships it's a little bit inspired

975

00:50:50,870 --> 00:50:49,380

by Charlie Sheen alright okay I was

976
00:50:53,630 --> 00:50:50,880
gonna ask you what the inspiration oh

977
00:50:55,640 --> 00:50:53,640
the whole Hollywood concept of one

978
00:50:57,859 --> 00:50:55,650
minute boy they really need you you're

979
00:51:00,290 --> 00:50:57,869
making money for them and then out the

980
00:51:01,670 --> 00:51:00,300
door you know as soon as they're you're

981
00:51:05,089 --> 00:51:01,680
not doing it for them anymore they get

982
00:51:06,380 --> 00:51:05,099
rid of you until they see how much money

983
00:51:10,339 --> 00:51:06,390
you're making for somebody else and then

984
00:51:12,589 --> 00:51:10,349
they love you again so that that song

985
00:51:15,349 --> 00:51:12,599
was the one take wonder I mean it was

986
00:51:18,200 --> 00:51:15,359
completely improvised in a studio in

987
00:51:22,730 --> 00:51:18,210
Nashville again I was Professor hack

988
00:51:25,780 --> 00:51:22,740

hard drive and I had that concept and we

989

00:51:28,190 --> 00:51:25,790

just rolled with it with that I don't he

990

00:51:31,040 --> 00:51:28,200

rehearsal without the words being

991

00:51:33,980 --> 00:51:31,050

written down it was pure studio

992

00:51:35,359 --> 00:51:33,990

improvisation and dr. Demento loved it

993

00:51:40,370 --> 00:51:35,369

right maybe it was one of the most

994

00:51:41,990 --> 00:51:40,380

demented songs he'd ever heard I have to

995

00:51:45,680 --> 00:51:42,000

admit that's it's that's one of my

996

00:51:47,720 --> 00:51:45,690

favorite and I thought you said that you

997

00:51:49,609 --> 00:51:47,730

know during the break I thought I'd

998

00:51:56,240 --> 00:51:49,619

remembered hearing that on on dr.

999

00:52:02,120 --> 00:51:56,250

Demento well getting back to what we

1000

00:52:04,400 --> 00:52:02,130

were discussing mind control a lot of

1001
00:52:08,660 --> 00:52:04,410
the emphasis that we have been talking

1002
00:52:14,720 --> 00:52:08,670
about has to do with the LSD aspect of

1003
00:52:18,620 --> 00:52:14,730
it but hypnosis as you had said really

1004
00:52:21,500 --> 00:52:18,630
plays a very large part in all of this

1005
00:52:25,760 --> 00:52:21,510
and I think a lot of people really

1006
00:52:28,270 --> 00:52:25,770
underestimate how powerful hypnosis can

1007
00:52:30,370 --> 00:52:28,280
be I mean you know there's

1008
00:52:31,960 --> 00:52:30,380
and I don't know if it's its truth or

1009
00:52:33,730 --> 00:52:31,970
fiction I always suspected it wasn't

1010
00:52:36,130 --> 00:52:33,740
true you know they saying that you know

1011
00:52:37,980 --> 00:52:36,140
you can't get somebody to do something

1012
00:52:42,550 --> 00:52:37,990
that they wouldn't do under normal

1013
00:52:45,400 --> 00:52:42,560

circumstances using hypnosis yet I have

1014

00:52:48,609 --> 00:52:45,410

read a number of and researched a number

1015

00:52:53,230 --> 00:52:48,619

of cases where that has been proven to

1016

00:52:55,000 --> 00:52:53,240

be to be wrong you know it's a question

1017

00:52:56,349 --> 00:52:55,010

of the technique of how you go about

1018

00:52:59,260 --> 00:52:56,359

doing it

1019

00:53:01,960 --> 00:52:59,270

you don't get somebody to do something

1020

00:53:06,160 --> 00:53:01,970

that's against their basic personality

1021

00:53:09,460 --> 00:53:06,170

and will by sort of directly ordering

1022

00:53:12,130 --> 00:53:09,470

them to do that but you do it by

1023

00:53:17,109 --> 00:53:12,140

creating a series of unpleasant symptoms

1024

00:53:19,210 --> 00:53:17,119

for them so that it steers them toward a

1025

00:53:22,510 --> 00:53:19,220

behavior that you want for example in

1026

00:53:24,670 --> 00:53:22,520

Blowing America's mind the head

1027

00:53:29,530 --> 00:53:24,680

hypnotist at neuropsychiatric Institute

1028

00:53:35,050 --> 00:53:29,540

New Jersey dr. Bernard Aronson frowned

1029

00:53:38,440 --> 00:53:35,060

upon the relationship that John Selby my

1030

00:53:42,730 --> 00:53:38,450

co-author got into with a girl that John

1031

00:53:44,620 --> 00:53:42,740

Selby decided he loved and the Institute

1032

00:53:46,750 --> 00:53:44,630

felt that that would diminish their

1033

00:53:48,430 --> 00:53:46,760

control over him mmm

1034

00:53:50,200 --> 00:53:48,440

they were grooming him they wanted him

1035

00:53:53,020 --> 00:53:50,210

there full-time the following year they

1036

00:53:55,900 --> 00:53:53,030

were promising a draft deferment I

1037

00:53:57,010 --> 00:53:55,910

wouldn't be sent to Vietnam the work he

1038

00:53:59,109 --> 00:53:57,020

was doing would be in the national

1039

00:53:59,710 --> 00:53:59,119

interest but they didn't want this woman

1040

00:54:04,240 --> 00:53:59,720

in his life

1041

00:54:06,040 --> 00:54:04,250

so if you give somebody a condition that

1042

00:54:07,839 --> 00:54:06,050

they're gonna get nauseous in the

1043

00:54:09,790 --> 00:54:07,849

presence of somebody else and throw up

1044

00:54:12,130 --> 00:54:09,800

every time they're working third or she

1045

00:54:14,650 --> 00:54:12,140

tries to get intimate with them and you

1046

00:54:19,270 --> 00:54:14,660

know he's going to have a bout of nausea

1047

00:54:20,880 --> 00:54:19,280

it would tend to harm the relationship

1048

00:54:24,339 --> 00:54:20,890

and make him go in the other direction

1049

00:54:26,230 --> 00:54:24,349

even though that isn't what he wants so

1050

00:54:28,589 --> 00:54:26,240

see that's just one example of how to do

1051

00:54:34,180 --> 00:54:28,599

it you can create a whole series of

1052

00:54:36,309 --> 00:54:34,190

symptoms with hypnotic conditions to

1053

00:54:41,110 --> 00:54:36,319

elicit behaviors where you're trying to

1054

00:54:46,120 --> 00:54:44,500

okay dog well I was in say when I used

1055

00:54:47,370 --> 00:54:46,130

to live in England and when I was living

1056

00:54:49,600 --> 00:54:47,380

in England action saw a very interesting

1057

00:54:52,240 --> 00:54:49,610

documentary done by again in Darren

1058

00:54:54,790 --> 00:54:52,250

brown it was called the heist he

1059

00:54:57,340 --> 00:54:54,800

actually brainwashed four people to rob

1060

00:55:00,010 --> 00:54:57,350

an armored car in the way that he did it

1061

00:55:03,550 --> 00:55:00,020

was very subtle and dirty and slow and

1062

00:55:06,580 --> 00:55:03,560

he it was partially hypnosis but

1063

00:55:09,820 --> 00:55:06,590

partially like positive feedback as well

1064

00:55:13,090 --> 00:55:09,830

so they he instructed them to go steal a

1065

00:55:15,340 --> 00:55:13,100

candy bar from a local shop and they did

1066

00:55:17,260 --> 00:55:15,350

it he picked them very carefully you

1067

00:55:18,640 --> 00:55:17,270

know he weeded out a lot of people he

1068

00:55:21,010 --> 00:55:18,650

picked them for their psychological

1069

00:55:22,270 --> 00:55:21,020

characteristics and he got them to do it

1070

00:55:23,950 --> 00:55:22,280

and then he gave them positive

1071

00:55:26,260 --> 00:55:23,960

reinforcement for having done it and

1072

00:55:28,060 --> 00:55:26,270

over over quite a while he actually

1073

00:55:29,590 --> 00:55:28,070

conditioned them that when they heard a

1074

00:55:32,110 --> 00:55:29,600

Jackson 5 song they would get agitated

1075

00:55:33,940 --> 00:55:32,120

and then they would go and rob this

1076
00:55:35,770 --> 00:55:33,950
armored car and he actually simulated it

1077
00:55:40,810 --> 00:55:35,780
then it took him like 3 months to

1078
00:55:44,500 --> 00:55:40,820
deprogram them very interesting that is

1079
00:55:47,320 --> 00:55:44,510
that's that's amazing I saw it was last

1080
00:55:51,700 --> 00:55:47,330
year there it was a security cam footage

1081
00:55:56,790 --> 00:55:51,710
of and I think maybe you know in in

1082
00:56:00,790 --> 00:55:56,800
Europe of this this guy robbing a store

1083
00:56:02,980 --> 00:56:00,800
but he did it through some kind of

1084
00:56:05,680 --> 00:56:02,990
hypnosis and you see this guy he's

1085
00:56:08,050 --> 00:56:05,690
talking to the shopkeeper and he's he

1086
00:56:10,390 --> 00:56:08,060
like repeatedly touches the guy on his

1087
00:56:13,180 --> 00:56:10,400
shoulder you know like maybe touches him

1088
00:56:15,940 --> 00:56:13,190

on the chest are you familiar with that

1089

00:56:17,680 --> 00:56:15,950

all off no but that's that's actually

1090

00:56:20,350 --> 00:56:17,690

apparently one of the ways that you can

1091

00:56:22,600 --> 00:56:20,360

introduce the suggestion is that when

1092

00:56:24,940 --> 00:56:22,610

you say a specific word you touch the

1093

00:56:26,740 --> 00:56:24,950

person so you may say an entire sentence

1094

00:56:28,210 --> 00:56:26,750

but when you say a specific word you

1095

00:56:30,430 --> 00:56:28,220

touch them and over time they become

1096

00:56:32,650 --> 00:56:30,440

conditioned to that that's actually one

1097

00:56:34,450 --> 00:56:32,660

of the methods well yeah well that makes

1098

00:56:36,430 --> 00:56:34,460

sense that because then you know after

1099

00:56:37,810 --> 00:56:36,440

after talking to this you know

1100

00:56:39,700 --> 00:56:37,820

shopkeeper for a little while the

1101
00:56:42,460 --> 00:56:39,710
shopkeeper just went and opened up the

1102
00:56:44,410 --> 00:56:42,470
cash register and gave this guy the

1103
00:56:45,280 --> 00:56:44,420
money and he left you know now I don't

1104
00:56:48,190 --> 00:56:45,290
know it baby

1105
00:56:50,320 --> 00:56:48,200
good that's the whole concept of neural

1106
00:56:52,990 --> 00:56:50,330
linguistic programming as well that you

1107
00:56:53,720 --> 00:56:53,000
can use key words to basically program

1108
00:56:56,720 --> 00:56:53,730
somebody

1109
00:56:59,210 --> 00:56:56,730
they did that they did that in our case

1110
00:57:04,060 --> 00:56:59,220
at the New Jersey neuropsychiatric

1111
00:57:07,760 --> 00:57:04,070
Institute and in Blowing America's mind

1112
00:57:12,500 --> 00:57:07,770
we show you know exactly how they did it

1113
00:57:14,330 --> 00:57:12,510

and the the first step is as I said

1114

00:57:16,849 --> 00:57:14,340

conditioning somebody to go into a

1115

00:57:18,290 --> 00:57:16,859

trance based on hearing a key word

1116

00:57:21,290 --> 00:57:18,300

that's been set up with them and

1117

00:57:25,190 --> 00:57:21,300

established but that their memory of

1118

00:57:27,890 --> 00:57:25,200

that of that word is obliterated so part

1119

00:57:30,500 --> 00:57:27,900

of the training has to do with their

1120

00:57:33,920 --> 00:57:30,510

attempt to instill a word that is a

1121

00:57:35,060 --> 00:57:33,930

trigger word and try to block your

1122

00:57:38,900 --> 00:57:35,070

memory of it and see whether it works

1123

00:57:41,660 --> 00:57:38,910

and and at the beginning you know with

1124

00:57:45,950 --> 00:57:41,670

some subjects you know they may remember

1125

00:57:51,290 --> 00:57:45,960

it or it may come into their mind at a

1126
00:57:52,910 --> 00:57:51,300
later time and then they begin to be

1127
00:57:55,250 --> 00:57:52,920
suspicious about how they've been

1128
00:57:57,200 --> 00:57:55,260
conditioned to that word but the more

1129
00:57:59,450 --> 00:57:57,210
they do the training with people that

1130
00:58:00,950 --> 00:57:59,460
are susceptible to hypnosis they do get

1131
00:58:03,710 --> 00:58:00,960
to a point where the memory is just

1132
00:58:05,780 --> 00:58:03,720
absolutely will wipe out on that and

1133
00:58:09,010 --> 00:58:05,790
then they control you with a series of

1134
00:58:12,320 --> 00:58:09,020
trigger words people have vast about

1135
00:58:14,450 --> 00:58:12,330
training assassins which I think they

1136
00:58:18,500 --> 00:58:14,460
called project artichoke it was an

1137
00:58:20,270 --> 00:58:18,510
offshoot of MKULTRA and they they've

1138
00:58:21,800 --> 00:58:20,280

asked me well you know were they

1139

00:58:23,990 --> 00:58:21,810

training assassins at the New Jersey

1140

00:58:25,849 --> 00:58:24,000

neuropsychiatric Institute was that part

1141

00:58:30,710 --> 00:58:25,859

of the Princeton you know with that

1142

00:58:34,160 --> 00:58:30,720

going on and my answer to that is no

1143

00:58:37,220 --> 00:58:34,170

because for that program they they

1144

00:58:40,010 --> 00:58:37,230

weren't looking for star Ivy League

1145

00:58:42,710 --> 00:58:40,020

students they were looking for

1146

00:58:46,300 --> 00:58:42,720

loners for people without family

1147

00:58:49,880 --> 00:58:46,310

connections people who could sort of be

1148

00:58:51,830 --> 00:58:49,890

made to disappear in society and nobody

1149

00:58:55,849 --> 00:58:51,840

is gonna be nobody's going to be going

1150

00:58:58,340 --> 00:58:55,859

looking for them but it was one of their

1151
00:59:00,560 --> 00:58:58,350
goals they were attempting that and a

1152
00:59:03,310 --> 00:59:00,570
lot of people have asked questions about

1153
00:59:05,859 --> 00:59:03,320
some of the major political

1154
00:59:07,650 --> 00:59:05,869
assassinations of our lifetime

1155
00:59:11,460 --> 00:59:07,660
particularly the Robert Ken

1156
00:59:13,710 --> 00:59:11,470
any case with sirhan sirhan lair he

1157
00:59:17,400 --> 00:59:13,720
claimed not to remember anything after

1158
00:59:18,809 --> 00:59:17,410
he shot Robert Kennedy no yeah there's

1159
00:59:21,329 --> 00:59:18,819
the hole catcher in the right thing they

1160
00:59:22,920 --> 00:59:21,339
look like sirhan sirhan and Mark David

1161
00:59:25,319 --> 00:59:22,930
Chapman and some of the others that when

1162
00:59:27,180 --> 00:59:25,329
they complete the task they have on them

1163
00:59:29,400 --> 00:59:27,190

somewhere I catch her in the Ryan in

1164

00:59:30,779 --> 00:59:29,410

some cases supposedly they sit down and

1165

00:59:32,849 --> 00:59:30,789

actually read Catcher in the Rye until

1166

00:59:35,309 --> 00:59:32,859

the cops get there The Catcher in the

1167

00:59:37,890 --> 00:59:35,319

Rye seems to be you know something

1168

00:59:39,960 --> 00:59:37,900

that's very popular you know in these

1169

00:59:41,510 --> 00:59:39,970

these kind of assassination scenarios

1170

00:59:43,349 --> 00:59:41,520

that they always seem to have some

1171

00:59:45,450 --> 00:59:43,359

connection to catch her in the ride they

1172

00:59:47,099 --> 00:59:45,460

have it on them they had just read it

1173

00:59:49,230 --> 00:59:47,109

it's her favorite book but for some

1174

00:59:52,319 --> 00:59:49,240

reason there's always a linkage to catch

1175

00:59:54,390 --> 00:59:52,329

her in the right poor JD Salinger who

1176

00:59:57,059 --> 00:59:54,400

created such a masterpiece in that book

1177

00:59:59,430 --> 00:59:57,069

but of course it's a book about a loner

1178

01:00:01,500 --> 00:59:59,440

but you know he's kicked out Holden

1179

01:00:05,420 --> 01:00:01,510

Caulfield is kicked out of school he's

1180

01:00:08,609 --> 01:00:05,430

wandering he's trying to find himself he

1181

01:00:11,849 --> 01:00:08,619

he lies all the time and can't stop

1182

01:00:15,089 --> 01:00:11,859

himself from lying he said he's a he's a

1183

01:00:18,599 --> 01:00:15,099

kid out of control and it is a favorite

1184

01:00:23,120 --> 01:00:18,609

book for you know the disaffected before

1185

01:00:29,910 --> 01:00:26,910

yeah yeah you you you make a good point

1186

01:00:33,480 --> 01:00:29,920

and they tried everything with this they

1187

01:00:36,240 --> 01:00:33,490

had a lot of money MKULTRA was top

1188

01:00:37,950 --> 01:00:36,250

secret so ask yourself with all the

1189

01:00:40,109 --> 01:00:37,960

secrecy we have today because it's only

1190

01:00:42,000 --> 01:00:40,119

increased since then right it hasn't

1191

01:00:45,120 --> 01:00:42,010

diminished it's gotten more and more

1192

01:00:46,829 --> 01:00:45,130

sophisticated and now the concept of

1193

01:00:52,319 --> 01:00:46,839

somebody being a leaker you know if you

1194

01:00:58,650 --> 01:00:52,329

leak something you know they're all over

1195

01:01:01,500 --> 01:00:58,660

that leaker you know and so you ask

1196

01:01:03,319 --> 01:01:01,510

yourself how could we ever know what's

1197

01:01:09,150 --> 01:01:03,329

really going on today given how

1198

01:01:12,240 --> 01:01:09,160

everything is classified well you know

1199

01:01:15,450 --> 01:01:12,250

yeah well the thing that occurs to me

1200

01:01:17,490 --> 01:01:15,460

though is you know especially there in

1201

01:01:19,620 --> 01:01:17,500

Princeton and and and some of these

1202

01:01:21,620 --> 01:01:19,630

other Ivy League schools that makes me

1203

01:01:25,830 --> 01:01:21,630

wonder whether or not

1204

01:01:30,390 --> 01:01:25,840

see there you go if they were looking

1205

01:01:35,010 --> 01:01:30,400

for possible influence on future movers

1206

01:01:38,190 --> 01:01:35,020

and shakers in society you know high you

1207

01:01:41,430 --> 01:01:38,200

know high businessman politicians

1208

01:01:43,050 --> 01:01:41,440

things like during candidate yeah what's

1209

01:01:45,150 --> 01:01:43,060

the idea behind the Manchurian Candidate

1210

01:01:47,880 --> 01:01:45,160

right so they they did trauma-based mind

1211

01:01:49,890 --> 01:01:47,890

control and conditioning on the guy and

1212

01:01:52,050 --> 01:01:49,900

they you know they release him back he

1213

01:01:54,420 --> 01:01:52,060

becomes a war hero and then he asked

1214

01:01:56,330 --> 01:01:54,430

elites through the system you know so

1215

01:02:02,670 --> 01:01:56,340

the Manchurian Candidate as a model

1216

01:02:05,640 --> 01:02:02,680

mm-hmm well you know moving in moving it

1217

01:02:07,710 --> 01:02:05,650

one step even further I mean we hear a

1218

01:02:09,600 --> 01:02:07,720

lot of the these people who say that

1219

01:02:13,080 --> 01:02:09,610

they've been abducted or had contact

1220

01:02:14,970 --> 01:02:13,090

with UFOs that's something some keyword

1221

01:02:17,400 --> 01:02:14,980

or some phrase or something has been

1222

01:02:20,700 --> 01:02:17,410

planted in their mind and that they will

1223

01:02:25,290 --> 01:02:20,710

all awaken simultaneously at some time

1224

01:02:29,910 --> 01:02:25,300

in the in the future so a good talk to

1225

01:02:32,790 --> 01:02:29,920

the Owls yeah owls what they say it

1226
01:02:34,740 --> 01:02:32,800
could pop it could possibly be that you

1227
01:02:37,050 --> 01:02:34,750
know this is something wrong it's

1228
01:02:41,820 --> 01:02:37,060
something that it's not just earthly in

1229
01:02:45,540 --> 01:02:41,830
origin let me let me ask you a question

1230
01:02:48,990 --> 01:02:45,550
because I raised the issue of how

1231
01:02:51,980 --> 01:02:49,000
impossible it is to unravel what's

1232
01:02:54,150 --> 01:02:51,990
really going on today in any area of

1233
01:02:57,980 --> 01:02:54,160
these affairs well you know whether

1234
01:03:01,490 --> 01:02:57,990
you're talking about the UFO issue or

1235
01:03:06,120 --> 01:03:01,500
international events and conflict and

1236
01:03:09,660 --> 01:03:06,130
and the dance around approaching having

1237
01:03:14,340 --> 01:03:09,670
wars and to get a handle on what what's

1238
01:03:18,260 --> 01:03:14,350

really going to happen and I want to ask

1239

01:03:22,640 --> 01:03:18,270

you the question what you think on this

1240

01:03:26,070 --> 01:03:22,650

false alarm happened in Hawaii

1241

01:03:28,290 --> 01:03:26,080

announcing that there was a an atomic

1242

01:03:30,870 --> 01:03:28,300

missile headed toward Hawaii and

1243

01:03:32,550 --> 01:03:30,880

panicked everybody in the state for what

1244

01:03:34,690 --> 01:03:32,560

was it 20 minutes or a half an hour

1245

01:03:36,910 --> 01:03:34,700

until they said it's

1246

01:03:39,430 --> 01:03:36,920

day it's a mistake right now somebody

1247

01:03:42,339 --> 01:03:39,440

somebody goofed right somebody goofed

1248

01:03:44,770 --> 01:03:42,349

but then just one or two days later then

1249

01:03:46,900 --> 01:03:44,780

the same thing happens in Japan right

1250

01:03:49,180 --> 01:03:46,910

Oh somebody goofed again I mean these

1251
01:03:50,530 --> 01:03:49,190
are these two mistakes that we haven't

1252
01:03:52,450 --> 01:03:50,540
seen you know the last twenty or thirty

1253
01:03:55,990 --> 01:03:52,460
years so we get two of them in like a

1254
01:04:00,599 --> 01:03:56,000
series of three days right so and the

1255
01:04:03,160 --> 01:04:00,609
first guy in Hawaii who was blamed on oh

1256
01:04:05,650 --> 01:04:03,170
he said I'm sorry I'm sorry I made a

1257
01:04:07,300 --> 01:04:05,660
mistake and they didn't fire him but

1258
01:04:09,700 --> 01:04:07,310
they moved him laterally to some other

1259
01:04:12,640 --> 01:04:09,710
job that's what I read in the paper okay

1260
01:04:14,520 --> 01:04:12,650
yeah how suspicious does this seem how

1261
01:04:19,500 --> 01:04:14,530
many people think that those were really

1262
01:04:22,240 --> 01:04:19,510
accidents as opposed to plan tests

1263
01:04:24,250 --> 01:04:22,250

psychological tests almost like a

1264

01:04:28,950 --> 01:04:24,260

mind-control situation to see how the

1265

01:04:32,410 --> 01:04:28,960

public is going to react because as they

1266

01:04:33,880 --> 01:04:32,420

make approaches toward possible war they

1267

01:04:36,450 --> 01:04:33,890

want that that's information they need

1268

01:04:39,400 --> 01:04:36,460

they absolutely need to know

1269

01:04:43,030 --> 01:04:39,410

if the public is gonna panic what are

1270

01:04:45,040 --> 01:04:43,040

they gonna do right so well they they

1271

01:04:47,859 --> 01:04:45,050

certainly yeah well they've been

1272

01:04:51,790 --> 01:04:47,869

probably doing that to an occasion with

1273

01:04:55,390 --> 01:04:51,800

with the UFOs by creating a false in

1274

01:04:57,190 --> 01:04:55,400

Aereo's well in fact we know where the

1275

01:04:59,309 --> 01:04:57,200

world's because the first one back in

1276

01:05:01,660 --> 01:04:59,319

the night yeah yeah there was also the

1277

01:05:04,690 --> 01:05:01,670

death of Robinson committee but there

1278

01:05:07,690 --> 01:05:04,700

was the the famous think tank tank and

1279

01:05:11,290 --> 01:05:07,700

they did a whole scenario on you know

1280

01:05:14,859 --> 01:05:11,300

onion on UFOs and and what the reaction

1281

01:05:18,910 --> 01:05:14,869

you know would be so obviously some of

1282

01:05:20,260 --> 01:05:18,920

these sightings I don't know the there

1283

01:05:22,540 --> 01:05:20,270

was a couple in mind of course of the

1284

01:05:25,270 --> 01:05:22,550

Phoenix lights and all that we're seen

1285

01:05:27,819 --> 01:05:25,280

by some of the people I mean you know

1286

01:05:29,620 --> 01:05:27,829

you can't say for certain you know

1287

01:05:33,010 --> 01:05:29,630

what's going on here is this some

1288

01:05:34,630 --> 01:05:33,020

scenario where whether the the CIA or

1289

01:05:37,809 --> 01:05:34,640

the secret government or some foreign

1290

01:05:40,020 --> 01:05:37,819

agency is trying to see what reaction

1291

01:05:43,780 --> 01:05:40,030

how people would react ssin if there was

1292

01:05:47,170 --> 01:05:43,790

either a you know an open alien contact

1293

01:05:48,640 --> 01:05:47,180

or whether whether they could use it to

1294

01:05:51,760 --> 01:05:48,650

manipulate that people say

1295

01:05:54,010 --> 01:05:51,770

Kings on a lot of different subjects

1296

01:05:55,500 --> 01:05:54,020

like the recent disclosure in the New

1297

01:05:59,500 --> 01:05:55,510

York Times I mean there are some yeah

1298

01:06:03,220 --> 01:05:59,510

people who think that the whole thing is

1299

01:06:04,900 --> 01:06:03,230

a you know is a setup and that you know

1300

01:06:07,450 --> 01:06:04,910

there's there's more to it than just the

1301

01:06:10,900 --> 01:06:07,460

sighting of a of a strange object that

1302

01:06:12,730 --> 01:06:10,910

nobody can explain I would say the

1303

01:06:15,069 --> 01:06:12,740

missile test I would say with near

1304

01:06:17,170 --> 01:06:15,079

certainty as far as I'm concerned was

1305

01:06:20,289 --> 01:06:17,180

some sort of a mass was a test of mass

1306

01:06:22,240 --> 01:06:20,299

public response exact you know the way

1307

01:06:24,819 --> 01:06:22,250

that they did it you know he selects the

1308

01:06:26,380 --> 01:06:24,829

wrong drop-down box then for 45 minutes

1309

01:06:28,539 --> 01:06:26,390

he when walked around and had some

1310

01:06:30,099 --> 01:06:28,549

coffee and forgot about it even though

1311

01:06:32,230 --> 01:06:30,109

the alert would have gone out to his

1312

01:06:34,750 --> 01:06:32,240

cell phone every member of his family

1313

01:06:36,849 --> 01:06:34,760

cell phone their TVs they'd call him on

1314

01:06:40,839 --> 01:06:36,859

the telephone and he didn't bother to

1315

01:06:43,839 --> 01:06:40,849

fix it for 45 minutes yeah we we we get

1316

01:06:45,549 --> 01:06:43,849

this ridiculous explanation as we always

1317

01:06:47,319 --> 01:06:45,559

do when there's a massive cover-up like

1318

01:06:49,510 --> 01:06:47,329

that it's like the weather balloon

1319

01:06:52,690 --> 01:06:49,520

Roswell was a weather balloon right it's

1320

01:06:54,730 --> 01:06:52,700

like this was a careless mistake I'm

1321

01:06:58,870 --> 01:06:54,740

sorry I'm sorry and we get the same

1322

01:07:01,089 --> 01:06:58,880

careless mistake in Japan and how many

1323

01:07:03,490 --> 01:07:01,099

people do you think believe that it was

1324

01:07:06,460 --> 01:07:03,500

really a mistake our people so

1325

01:07:10,660 --> 01:07:06,470

conditioned and mind-controlled that

1326

01:07:12,370 --> 01:07:10,670

they accept that explanation you know my

1327

01:07:13,720 --> 01:07:12,380

philosophy professor I think he had a

1328

01:07:16,359 --> 01:07:13,730

really good way of putting it that he

1329

01:07:18,370 --> 01:07:16,369

said you know I'm from the Bay Area so

1330

01:07:20,289 --> 01:07:18,380

excuse the sports team but he said that

1331

01:07:22,329 --> 01:07:20,299

the most people you know there are

1332

01:07:23,980 --> 01:07:22,339

content probably eighty and ninety

1333

01:07:26,680 --> 01:07:23,990

percent of population or content with a

1334

01:07:27,880 --> 01:07:26,690

six pack of the 49ers so as long as they

1335

01:07:29,829 --> 01:07:27,890

have their six pack in their football

1336

01:07:31,359 --> 01:07:29,839

game that there's they're fairly contend

1337

01:07:33,279 --> 01:07:31,369

with the existence you know we were

1338

01:07:35,410 --> 01:07:33,289

talking about the the allegory of the

1339

01:07:37,329 --> 01:07:35,420

cave and the notion that you're watching

1340

01:07:38,829 --> 01:07:37,339

the shadows go by and the shadows kind

1341

01:07:39,339 --> 01:07:38,839

of can't figure out how to get out of

1342

01:07:40,870 --> 01:07:39,349

the cave

1343

01:07:42,789 --> 01:07:40,880

they're trapped in there but the doors

1344

01:07:44,920 --> 01:07:42,799

right there and they can't see it so I

1345

01:07:48,670 --> 01:07:44,930

think I think probably most people are

1346

01:07:51,700 --> 01:07:48,680

conditioned to whatever they say face

1347

01:07:53,740 --> 01:07:51,710

value I mean the CIA themselves have put

1348

01:07:56,260 --> 01:07:53,750

quite a bit of effort into you know

1349

01:07:59,830 --> 01:07:56,270

being able to manipulate media around

1350

01:08:02,350 --> 01:07:59,840

the world I forget the name of the

1351

01:08:05,350 --> 01:08:02,360

CIA project off him but they actually

1352

01:08:10,150 --> 01:08:05,360

had a project to co-opt you know

1353

01:08:12,100 --> 01:08:10,160

reporters and you know so I think most

1354

01:08:14,410 --> 01:08:12,110

people are fairly content with that and

1355

01:08:17,140 --> 01:08:14,420

and you can see it in other ways right

1356

01:08:19,450 --> 01:08:17,150

did you know as a society we're fed this

1357

01:08:22,150 --> 01:08:19,460

notion that of the American Dream you

1358

01:08:23,860 --> 01:08:22,160

know go get a new car buy a house you

1359

01:08:26,890 --> 01:08:23,870

know do this do that well we all try to

1360

01:08:28,180 --> 01:08:26,900

pursue it and you know some people it

1361

01:08:31,410 --> 01:08:28,190

causes them to live beyond their means

1362

01:08:34,000 --> 01:08:31,420

but you know we're conditioned

1363

01:08:36,789 --> 01:08:34,010

societally to want that and to desire it

1364

01:08:38,710 --> 01:08:36,799

and to demand it you know we we were

1365

01:08:40,329 --> 01:08:38,720

conditioned that everybody should go to

1366

01:08:42,220 --> 01:08:40,339

college should everybody go to college

1367

01:08:44,050 --> 01:08:42,230

we can debate that well we were

1368

01:08:46,030 --> 01:08:44,060

conditioned that everybody has to and

1369

01:08:48,400 --> 01:08:46,040

now you have people with degrees that

1370

01:08:51,370 --> 01:08:48,410

work at Starbucks because you know their

1371

01:08:54,460 --> 01:08:51,380

particular majors like my own we're not

1372

01:08:56,770 --> 01:08:54,470

very useful you know my major is one of

1373

01:09:00,220 --> 01:08:56,780

those not very useful ones but you know

1374

01:09:01,990 --> 01:09:00,230

I went because I was expected to so I

1375

01:09:05,740 --> 01:09:02,000

think that there's a lot of conditioning

1376

01:09:07,809 --> 01:09:05,750

that goes on and I think that that in a

1377

01:09:09,640 --> 01:09:07,819

lot of ways that you know people general

1378

01:09:16,210 --> 01:09:09,650

for the most part believe what they're

1379

01:09:17,950 --> 01:09:16,220

fed you know when you jump in for a

1380

01:09:19,240 --> 01:09:17,960

minute and journalists you you know you

1381

01:09:21,550 --> 01:09:19,250

make the point of that you know most

1382

01:09:24,220 --> 01:09:21,560

people settle for doing what's expected

1383

01:09:27,579 --> 01:09:24,230

of them which i think is certainly true

1384

01:09:31,210 --> 01:09:27,589

but one of the things that i think that

1385

01:09:35,140 --> 01:09:31,220

our new book does it blowing America's

1386

01:09:38,849 --> 01:09:35,150

mind is it takes you through the process

1387

01:09:42,070 --> 01:09:38,859

where you're going from being

1388

01:09:44,980 --> 01:09:42,080

manipulated and controlled and you're a

1389

01:09:46,300 --> 01:09:44,990

guinea pig in a spiderweb that's much

1390

01:09:49,599 --> 01:09:46,310

larger than you and you can't see all

1391

01:09:54,700 --> 01:09:49,609

the dimensions of it to the awakening of

1392

01:09:57,100 --> 01:09:54,710

a rebellious spirit inside you where you

1393

01:10:01,390 --> 01:09:57,110

have a tremendous urge to break free of

1394

01:10:04,150 --> 01:10:01,400

that and that's where the battle goes on

1395

01:10:06,220 --> 01:10:04,160

between the attempt to reassert the

1396

01:10:09,580 --> 01:10:06,230

hypnotic control over the subject and

1397

01:10:11,040 --> 01:10:09,590

the subjects determination to reject it

1398

01:10:14,330 --> 01:10:11,050

at all

1399

01:10:19,580 --> 01:10:14,340

and to pull out and even be toward

1400

01:10:22,410 --> 01:10:19,590

destructive toward the the controlling

1401

01:10:23,760 --> 01:10:22,420

psychiatrists and that's what you see

1402

01:10:26,609 --> 01:10:23,770

happen in blowing America's mind

1403

01:10:29,760 --> 01:10:26,619

especially with my co-author John Selby

1404

01:10:32,250 --> 01:10:29,770

who reached a point where you know he

1405

01:10:33,780 --> 01:10:32,260

wasn't going to take it anymore and he

1406

01:10:36,660 --> 01:10:33,790

was absolutely determined to get into

1407

01:10:39,350 --> 01:10:36,670

the Institute files even if it meant

1408

01:10:42,209 --> 01:10:39,360

breaking into those file cabinets and

1409

01:10:44,459 --> 01:10:42,219

finding his own file and getting to the

1410

01:10:48,560 --> 01:10:44,469

truth of what was going on and then

1411

01:10:53,339 --> 01:10:48,570

turning against it all and warning me

1412

01:10:56,879 --> 01:10:53,349

warning me who I was completely sold on

1413

01:10:59,850 --> 01:10:56,889

it at that point and warning me to to

1414

01:11:02,280 --> 01:10:59,860

get out of that program get out while I

1415

01:11:04,530 --> 01:11:02,290

could before you know I was so

1416

01:11:06,510 --> 01:11:04,540

manipulated and controlled and weak and

1417

01:11:09,870 --> 01:11:06,520

well that they they have you in their

1418

01:11:11,910 --> 01:11:09,880

pocket at that point so it takes you all

1419

01:11:14,069 --> 01:11:11,920

the way from the beginning of the naive

1420

01:11:17,910 --> 01:11:14,079

introduction and getting sucked in and

1421

01:11:22,049 --> 01:11:17,920

trapped in the spider web to asserting

1422

01:11:24,120 --> 01:11:22,059

your own will and at that point the I

1423

01:11:25,609 --> 01:11:24,130

think that the being a part of the

1424

01:11:29,729 --> 01:11:25,619

project has actually done you some good

1425

01:11:31,919 --> 01:11:29,739

because you've become strong enough to

1426

01:11:35,490 --> 01:11:31,929

get rid of those things that are the

1427

01:11:37,859 --> 01:11:35,500

controls on you and for both John Selby

1428

01:11:40,350 --> 01:11:37,869

and I that's what happened in our own

1429

01:11:43,649 --> 01:11:40,360

lives by breaking free of the Institute

1430

01:11:45,780 --> 01:11:43,659

and finding we were we went after the

1431

01:11:48,270 --> 01:11:45,790

lives that we wanted to live whether it

1432

01:11:50,700 --> 01:11:48,280

was writing all those books or for me

1433

01:11:53,609 --> 01:11:50,710

making all those films wouldn't happen

1434

01:11:55,680 --> 01:11:53,619

if we hadn't had this finally well

1435

01:11:59,280 --> 01:11:55,690

unfortunately we're coming up on an

1436

01:12:02,160 --> 01:11:59,290

institute that we cannot break and so

1437

01:12:08,430 --> 01:12:02,170

when we come back we will continue this

1438

01:12:08,440 --> 01:12:13,300

[Music]

1439

01:12:20,030 --> 01:12:17,450

now back to exploring the bazaar with

1440

01:12:23,330 --> 01:12:20,040

two of the most electrifying researchers

1441

01:12:33,220 --> 01:12:23,340

in the Paranoid your hosts Timothy Becca

1442

01:12:38,030 --> 01:12:35,750

I'm professor hack hard drive of the

1443

01:12:40,220 --> 01:12:38,040

technically kind on a computer a nerd a

1444

01:12:44,440 --> 01:12:40,230

little out of my mind with you I'm

1445

01:12:47,570 --> 01:12:44,450

infatuated and I'm so exasperated

1446

01:12:49,430 --> 01:12:47,580

obsessed to the max pass and you FX cuz

1447

01:12:51,650 --> 01:12:49,440

my email won't work you must think I'm a

1448

01:12:54,610 --> 01:12:51,660

jerk but you're really so dear darling

1449

01:12:57,830 --> 01:12:54,620

1450

01:13:04,880 --> 01:12:57,840

a you sweetheart

1451

01:13:06,950 --> 01:13:04,890

yeah I'm downloading my laptops here you

1452

01:13:09,140 --> 01:13:06,960

have nothing to fear they say it just

1453

01:13:14,050 --> 01:13:09,150

tickles as I download your pixels with

1454

01:13:14,060 --> 01:13:36,850

900

1455

01:13:47,590 --> 01:13:41,230

and I want to be best but with you

1456

01:13:49,510 --> 01:13:47,600

darling in my laptop Hey on Thursdays

1457

01:13:51,490 --> 01:13:49,520

I'll clean up your file on Tuesdays and

1458

01:13:54,280 --> 01:13:51,500

Fridays you'll defrag for a while on

1459

01:13:56,080 --> 01:13:54,290

Sundays when days o debug your hair our

1460

01:14:10,330 --> 01:13:56,090

holidays and Saturdays you'll be my

1461

01:14:12,520 --> 01:14:10,340

software because I'm downloading drive

1462

01:14:14,020 --> 01:14:12,530

here on exploring the bazaar so Paul

1463

01:14:17,370 --> 01:14:14,030

what's the what was the inspiration for

1464

01:14:23,920 --> 01:14:17,380

that one well that's my alter ego of the

1465

01:14:26,190 --> 01:14:23,930

you know the the demonic male motivation

1466

01:14:29,080 --> 01:14:26,200

is kind of taken to the max if you could

1467

01:14:30,940 --> 01:14:29,090

take the object of your erotic desires

1468

01:14:32,290 --> 01:14:30,950

and controller to the extent that you

1469

01:14:36,850 --> 01:14:32,300

could download her into your computer

1470

01:14:39,400 --> 01:14:36,860

and turn her into a series of pixels

1471

01:14:41,470 --> 01:14:39,410

that you completely control so it's kind

1472

01:14:46,240 --> 01:14:41,480

of the ultimate male chauvinist fantasy

1473

01:14:48,550 --> 01:14:46,250

there that's right no I mean how are we

1474

01:14:50,470 --> 01:14:48,560

from that actually happening though well

1475

01:14:55,210 --> 01:14:50,480

we're not far away at all because I mean

1476

01:14:57,130 --> 01:14:55,220

you talk about about beers and and and

1477

01:15:00,750 --> 01:14:57,140

the football games as being all it takes

1478

01:15:04,380 --> 01:15:00,760

to satisfy the male's of America now but

1479

01:15:07,450 --> 01:15:04,390

pornography is so prevalent and so free

1480

01:15:09,510 --> 01:15:07,460

that I'm beginning to think that that's

1481

01:15:10,630 --> 01:15:09,520

part of the mind-control plot too right

1482

01:15:13,330 --> 01:15:10,640

mmm

1483

01:15:16,300 --> 01:15:13,340

money more seven anything you want you

1484

01:15:18,250 --> 01:15:16,310

know what I'm free huh you know what you

1485

01:15:19,900 --> 01:15:18,260

know what's interesting is it a lot when

1486

01:15:23,590 --> 01:15:19,910

you look at pornography that a lot of

1487

01:15:25,690 --> 01:15:23,600

the kind of technological leaps we make

1488

01:15:27,400 --> 01:15:25,700

you know there are either military or

1489

01:15:29,610 --> 01:15:27,410

pornography right you know they rise

1490

01:15:31,870 --> 01:15:29,620

some of the first people to stream video

1491

01:15:33,430 --> 01:15:31,880

you know they were some of the first

1492

01:15:37,150 --> 01:15:33,440

people to get a straight digital the

1493

01:15:39,310 --> 01:15:37,160

digital editing you know so they

1494

01:15:41,170 --> 01:15:39,320

invested a lot of money in it it's a

1495

01:15:43,330 --> 01:15:41,180

multi-billion dollar industry so yeah I

1496

01:15:44,860 --> 01:15:43,340

wouldn't be surprised and actually

1497

01:15:46,870 --> 01:15:44,870

what's interesting is that you played

1498

01:15:48,430 --> 01:15:46,880

that song you know I was watching the

1499

01:15:50,200 --> 01:15:48,440

x-files last night and that was the

1500

01:15:52,450 --> 01:15:50,210

whole thing further than

1501

01:15:53,680 --> 01:15:52,460

not last night but the last week you

1502

01:15:56,290 --> 01:15:53,690

know they had taken one of the lone

1503

01:15:59,890 --> 01:15:56,300

gunmen and loaded them into you know

1504

01:16:01,780 --> 01:15:59,900

kind of matrix kind of thing so you know

1505

01:16:04,750 --> 01:16:01,790

quantum computing is all we really need

1506

01:16:07,870 --> 01:16:04,760

to do it were there well I be

1507

01:16:09,160 --> 01:16:07,880

considering they're trying to go handle

1508

01:16:11,020 --> 01:16:09,170

if I finish your sentence ever I'm sorry

1509

01:16:12,280 --> 01:16:11,030

well I was gonna I was gonna say I

1510

01:16:13,800 --> 01:16:12,290

wouldn't be surprised if they're

1511

01:16:19,150 --> 01:16:13,810

actively trying to do it

1512

01:16:21,790 --> 01:16:19,160

well considering the the great leap that

1513

01:16:24,310 --> 01:16:21,800

has taken place with the internet I mean

1514

01:16:27,459 --> 01:16:24,320

I mean I can I can remember it's not

1515

01:16:31,510 --> 01:16:27,469

that long ago you know the late 1980s

1516

01:16:33,610 --> 01:16:31,520

really most of us had never heard of the

1517

01:16:37,479 --> 01:16:33,620

Internet and and in just this short

1518

01:16:46,180 --> 01:16:37,489

period of time how it has become so

1519

01:16:48,850 --> 01:16:46,190

prevalent and so really our lives it's

1520

01:16:52,390 --> 01:16:48,860

such a control factor in everybody's

1521

01:16:55,060 --> 01:16:52,400

lives now so in the same amount of time

1522

01:16:57,190 --> 01:16:55,070

in the future you know what is going to

1523

01:16:59,110 --> 01:16:57,200

be the next thing that I mean that you

1524

01:17:02,260 --> 01:16:59,120

know we're not even thinking about now

1525

01:17:05,740 --> 01:17:02,270

and yet you know like our kids are gonna

1526

01:17:10,560 --> 01:17:05,750

be like Oh dad you know you're so out of

1527

01:17:14,440 --> 01:17:10,570

it I would say probably a virtual world

1528

01:17:17,050 --> 01:17:14,450

because humans and humans as a species

1529

01:17:20,740 --> 01:17:17,060

you know we have a we definitely have a

1530

01:17:24,310 --> 01:17:20,750

kind of slant toward escapism and if you

1531

01:17:27,970 --> 01:17:24,320

had some sort of a virtual space you

1532

01:17:30,010 --> 01:17:27,980

know now you're no longer you know

1533

01:17:31,600 --> 01:17:30,020

you're no longer ten you're whatever you

1534

01:17:35,560 --> 01:17:31,610

want to be you know you could be a wolf

1535

01:17:39,010 --> 01:17:35,570

or a dragon or whatever a woman or a man

1536

01:17:40,990 --> 01:17:39,020

or whatever you want and now you're

1537

01:17:43,660 --> 01:17:41,000

starting to see VR goggles that can

1538

01:17:45,790 --> 01:17:43,670

attach to cellphones and you know they

1539

01:17:47,140 --> 01:17:45,800

they kind of finally nip that thing they

1540

01:17:49,930 --> 01:17:47,150

thought they were gonna do it back in

1541

01:17:52,360 --> 01:17:49,940

the 90s and you know in the late 90s you

1542

01:17:54,670 --> 01:17:52,370

had this you know these virtual worlds

1543

01:17:57,250 --> 01:17:54,680

have popped up and they kind of didn't

1544

01:17:58,630 --> 01:17:57,260

cut it because you had to you know you

1545

01:18:00,100 --> 01:17:58,640

had still had to sit in front of the

1546

01:18:02,650 --> 01:18:00,110

computer with the mouse and guide the

1547

01:18:03,850 --> 01:18:02,660

avatar around right you know we're fast

1548

01:18:06,100 --> 01:18:03,860

approaching the point where that

1549

01:18:08,169 --> 01:18:06,110

no longer gonna happen and your your

1550

01:18:09,879 --> 01:18:08,179

rapidly heading toward you know the kind

1551
01:18:12,340 --> 01:18:09,889
of cyberpunk kind of scenario where you

1552
01:18:14,709 --> 01:18:12,350
can Jack yourself in you can plug

1553
01:18:17,530 --> 01:18:14,719
yourself into the car plug yourself into

1554
01:18:19,510 --> 01:18:17,540
the TV plug yourself into a you know

1555
01:18:22,000 --> 01:18:19,520
into a computer and then dump yourself

1556
01:18:25,709 --> 01:18:22,010
out onto this virtualized world so I'd

1557
01:18:29,379 --> 01:18:25,719
probably say in the next 10 or 10 years

1558
01:18:30,729 --> 01:18:29,389
yeah now say doubt verily here here

1559
01:18:32,770 --> 01:18:30,739
we've been talking about you know this

1560
01:18:36,160 --> 01:18:32,780
are dis entire evening about you know

1561
01:18:38,080 --> 01:18:36,170
mind manipulation and all that that is

1562
01:18:40,810 --> 01:18:38,090
like the ultimate wet dream I would

1563
01:18:45,040 --> 01:18:40,820

think of a lot of these people who would

1564

01:18:47,109 --> 01:18:45,050

just love to control the population you

1565

01:18:50,890 --> 01:18:47,119

know you have people in a virtual world

1566

01:18:54,070 --> 01:18:50,900

that you know are me you can you can

1567

01:18:57,310 --> 01:18:54,080

control these people it's so easily

1568

01:18:59,080 --> 01:18:57,320

without them ever knowing it well and

1569

01:19:01,990 --> 01:18:59,090

you look at you can see some of the

1570

01:19:04,750 --> 01:19:02,000

outliers now right you have a lot of you

1571

01:19:07,540 --> 01:19:04,760

know quantum mathematicians physicists

1572

01:19:11,050 --> 01:19:07,550

theorists that are arguing are we in a

1573

01:19:14,080 --> 01:19:11,060

matrix now right and we see these

1574

01:19:16,000 --> 01:19:14,090

glitches these ideas that we have you

1575

01:19:17,740 --> 01:19:16,010

know about synchronicity and are those

1576

01:19:20,800 --> 01:19:17,750

indicators that were actually in some

1577

01:19:22,600 --> 01:19:20,810

sort of a virtualized world today so the

1578

01:19:25,629 --> 01:19:22,610

fact that these thinkers who are usually

1579

01:19:28,540 --> 01:19:25,639

out on the on the edge you know they're

1580

01:19:31,330 --> 01:19:28,550

like I'm an engineer right now work on

1581

01:19:34,000 --> 01:19:31,340

this kind of stuff and you know we're

1582

01:19:36,910 --> 01:19:34,010

very rooted in today today trying to

1583

01:19:39,250 --> 01:19:36,920

make our applications do whatever but

1584

01:19:40,450 --> 01:19:39,260

those guys way out on the edge you know

1585

01:19:43,090 --> 01:19:40,460

they're the ones that are kind of the

1586

01:19:46,540 --> 01:19:43,100

prophets of the future you know and

1587

01:19:48,580 --> 01:19:46,550

they're they're seeing that and they're

1588

01:19:50,890 --> 01:19:48,590

starting to argue well maybe we're in a

1589

01:19:54,430 --> 01:19:50,900

virtualized world right now as we speak

1590

01:19:56,280 --> 01:19:54,440

and the fact that they're putting effort

1591

01:19:58,600 --> 01:19:56,290

and time into thinking down that path

1592

01:20:00,450 --> 01:19:58,610

then that indicates that somebody

1593

01:20:03,160 --> 01:20:00,460

somewhere is moving in that direction

1594

01:20:05,200 --> 01:20:03,170

otherwise they wouldn't bother they'd go

1595

01:20:07,840 --> 01:20:05,210

theorize and how soon we'll be able to

1596

01:20:10,180 --> 01:20:07,850

go to Barnard star Alpha Centauri well

1597

01:20:13,240 --> 01:20:10,190

they gave up on that and now it's all

1598

01:20:15,939 --> 01:20:13,250

about the matrix and creating a matrix

1599

01:20:17,470 --> 01:20:15,949

kind of you know kind of set up so I

1600

01:20:18,040 --> 01:20:17,480

would say we're definitely marching

1601

01:20:20,250 --> 01:20:18,050

there

1602

01:20:23,319 --> 01:20:20,260

we already have you know the rudimentary

1603

01:20:24,910 --> 01:20:23,329

elements of quantum computing and that's

1604

01:20:27,040 --> 01:20:24,920

the kind of power that you need to do

1605

01:20:29,080 --> 01:20:27,050

this kind of thing you can't do this on

1606

01:20:31,000 --> 01:20:29,090

on a dual ten core machine with a

1607

01:20:33,189 --> 01:20:31,010

terabyte of RAM it's not going to cut it

1608

01:20:35,830 --> 01:20:33,199

you know you need to push me on that and

1609

01:20:37,810 --> 01:20:35,840

be able to to use like cell processors

1610

01:20:39,850 --> 01:20:37,820

and other things where you know you can

1611

01:20:42,339 --> 01:20:39,860

chain together thousands or millions of

1612

01:20:46,720 --> 01:20:42,349

these processors together to parallel

1613

01:20:49,030 --> 01:20:46,730

parallel compute so but you know we have

1614

01:20:51,609 --> 01:20:49,040

the we have the basic technology to

1615

01:20:55,990 --> 01:20:51,619

achieve some level of it it's just

1616

01:20:58,359 --> 01:20:56,000

polygonal and kind of kind of 1990s ish

1617

01:21:03,750 --> 01:20:58,369

but we're definitely heading down that

1618

01:21:07,899 --> 01:21:03,760

road well at least at least civilian yes

1619

01:21:09,399 --> 01:21:07,909

okay I mean I know we yeah we've talked

1620

01:21:12,459 --> 01:21:09,409

about this before you know when it comes

1621

01:21:14,260 --> 01:21:12,469

to you know like secret aircraft and

1622

01:21:16,990 --> 01:21:14,270

things like that that you know the

1623

01:21:20,049 --> 01:21:17,000

military is probably at least 50 years

1624

01:21:22,390 --> 01:21:20,059

ahead of civilian so when it comes to

1625

01:21:24,760 --> 01:21:22,400

just what we were talking about you know

1626

01:21:28,359 --> 01:21:24,770

what is being used and hiding in the

1627

01:21:30,339 --> 01:21:28,369

wings that that we have no idea it's

1628

01:21:32,319 --> 01:21:30,349

impossible to tell the DARPA you'll

1629

01:21:36,040 --> 01:21:32,329

never figure out it's too

1630

01:21:40,209 --> 01:21:36,050

compartmentalized Ben yeah not only you

1631

01:21:43,510 --> 01:21:40,219

know not only is it compartmentalised

1632

01:21:46,089 --> 01:21:43,520

but this information is a huge industry

1633

01:21:49,600 --> 01:21:46,099

in and of itself too right so they

1634

01:21:51,490 --> 01:21:49,610

protect the compartmentalization by you

1635

01:21:54,669 --> 01:21:51,500

know the expression that's popular fake

1636

01:21:56,740 --> 01:21:54,679

news well the the fake story that has

1637

01:21:58,600 --> 01:21:56,750

the grain of truth in it is something

1638

01:22:01,209 --> 01:21:58,610

that those of us interested in UFOs have

1639

01:22:05,950 --> 01:22:01,219

been suffering with for yeah half a

1640

01:22:09,939 --> 01:22:05,960

century easily right and that

1641

01:22:12,879 --> 01:22:09,949

disinformation industry the number of

1642

01:22:14,799 --> 01:22:12,889

people involved in concocting false

1643

01:22:18,120 --> 01:22:14,809

stories again to manipulate public

1644

01:22:22,299 --> 01:22:18,130

perception why are they so completely

1645

01:22:26,229 --> 01:22:22,309

intent on manipulating what the public

1646

01:22:28,240 --> 01:22:26,239

thinks and believes it's it's fun the

1647

01:22:31,959 --> 01:22:28,250

fundamentals of population control and

1648

01:22:34,989 --> 01:22:31,969

it goes back with its Germany

1649

01:22:37,180 --> 01:22:34,999

the kind of mind-control experimentation

1650

01:22:39,850 --> 01:22:37,190

we're talking about in Blowing America's

1651
01:22:44,529 --> 01:22:39,860
mind back to the most rudimentary days

1652
01:22:47,979 --> 01:22:44,539
of it starting in the 1950s and and the

1653
01:22:50,200 --> 01:22:47,989
use of drugs and the techniques today

1654
01:22:52,689 --> 01:22:50,210
are so much more sophisticated take

1655
01:22:55,629 --> 01:22:52,699
spying for example take this as an

1656
01:22:57,009 --> 01:22:55,639
example wiretapping used to be an

1657
01:22:59,169 --> 01:22:57,019
industry in itself there were

1658
01:23:01,359 --> 01:22:59,179
professional wiretap errs some that

1659
01:23:03,160 --> 01:23:01,369
worked for the mob let's say and they'd

1660
01:23:05,080 --> 01:23:03,170
have a target and they'd have to get

1661
01:23:07,270 --> 01:23:05,090
into a house and they'd have to plant a

1662
01:23:09,009 --> 01:23:07,280
bug and they'd have to do it when they

1663
01:23:10,569 --> 01:23:09,019

could have access when nobody would be

1664

01:23:12,060 --> 01:23:10,579

there they'd have to try to do it in a

1665

01:23:15,549 --> 01:23:12,070

way that it couldn't be detective

1666

01:23:18,219 --> 01:23:15,559

detected you know they had to wire house

1667

01:23:20,919 --> 01:23:18,229

and they had to wire a phone in the

1668

01:23:22,689 --> 01:23:20,929

wireless era we live in today nobody has

1669

01:23:24,819 --> 01:23:22,699

to do that anymore I mean it would be

1670

01:23:27,939 --> 01:23:24,829

absurd to think that you've got to go

1671

01:23:30,069 --> 01:23:27,949

plant a bug on someone when everyone is

1672

01:23:31,180 --> 01:23:30,079

carrying that bug around in their pocket

1673

01:23:34,600 --> 01:23:31,190

and it's their cell phone

1674

01:23:37,359 --> 01:23:34,610

it's the ultimate spy device you know

1675

01:23:41,739 --> 01:23:37,369

you can turn on senator recorder and the

1676

01:23:43,870 --> 01:23:41,749

hammer on it'll be hurt yeah yeah yeah I

1677

01:23:46,899 --> 01:23:43,880

mean how many people have the habit of

1678

01:23:49,390 --> 01:23:46,909

putting a piece of tape over the camera

1679

01:23:53,350 --> 01:23:49,400

lens on their computer you know am I the

1680

01:23:56,500 --> 01:23:53,360

only one you know who know justice

1681

01:23:58,330 --> 01:23:56,510

assumes that they can use it to look

1682

01:24:03,160 --> 01:23:58,340

into your room or spy on you at any time

1683

01:24:05,859 --> 01:24:03,170

and all this myth about they need a

1684

01:24:07,870 --> 01:24:05,869

court order right they need you know

1685

01:24:10,299 --> 01:24:07,880

need to go and get a court order to be

1686

01:24:12,790 --> 01:24:10,309

able to listen in on that conversation

1687

01:24:16,029 --> 01:24:12,800

or read that email it's like you have to

1688

01:24:17,589 --> 01:24:16,039

say well give me a break you know if the

1689

01:24:21,549 --> 01:24:17,599

government isn't doing it the hackers

1690

01:24:23,259 --> 01:24:21,559

are doing it right science there's also

1691

01:24:25,209 --> 01:24:23,269

a funny thing about that is that they

1692

01:24:28,060 --> 01:24:25,219

only need that if the communication

1693

01:24:30,279 --> 01:24:28,070

takes place inside the United States the

1694

01:24:32,229 --> 01:24:30,289

minute that you send an email it goes

1695

01:24:34,569 --> 01:24:32,239

somewhere outside the United States

1696

01:24:36,520 --> 01:24:34,579

you no longer need any of that stuff so

1697

01:24:38,790 --> 01:24:36,530

you can may have it they have the person

1698

01:24:42,700 --> 01:24:38,800

they have the permission by law to

1699

01:24:44,080 --> 01:24:42,710

listen in on any of it you know track

1700

01:24:45,870 --> 01:24:44,090

anyone

1701

01:24:49,030 --> 01:24:45,880

and I mean there's the famous story

1702

01:24:51,580 --> 01:24:49,040

about the ATT facility back in the 90s

1703

01:24:54,550 --> 01:24:51,590

where this guy it was in Wired and this

1704

01:24:56,500 --> 01:24:54,560

network engineer has found this cable

1705

01:24:58,180 --> 01:24:56,510

attached to one of the core switches

1706

01:25:00,580 --> 01:24:58,190

where all the data was passing through

1707

01:25:02,740 --> 01:25:00,590

and he traced this thing at racist and

1708

01:25:05,560 --> 01:25:02,750

racist thing and eventually you know he

1709

01:25:07,570 --> 01:25:05,570

came upon a box that nobody could

1710

01:25:09,730 --> 01:25:07,580

explain those mark property of the US

1711

01:25:11,710 --> 01:25:09,740

government you know and I was basically

1712

01:25:14,830 --> 01:25:11,720

carnivore it was intercepting all the

1713

01:25:16,800 --> 01:25:14,840

all the web traffic and then analyzing

1714

01:25:20,610 --> 01:25:16,810

where it was going and what it was doing

1715

01:25:22,750 --> 01:25:20,620

you know so these things in a show on

1716

01:25:25,180 --> 01:25:22,760

they were some of the cell phone calls

1717

01:25:27,880 --> 01:25:25,190

pick this stuff up off the satellites I

1718

01:25:36,330 --> 01:25:27,890

mean it's it's been pervasive for 20

1719

01:25:40,210 --> 01:25:36,340

years you know it's the black world of

1720

01:25:45,670 --> 01:25:40,220

what they call intelligence well and

1721

01:25:47,680 --> 01:25:45,680

that's politics it's the deep state to

1722

01:25:50,560 --> 01:25:47,690

write that it's not it's not just the

1723

01:25:53,020 --> 01:25:50,570

black world the the black world is the

1724

01:25:55,510 --> 01:25:53,030

intelligence and espionage communities

1725

01:25:57,700 --> 01:25:55,520

are are controlled and managed by the

1726

01:25:59,800 --> 01:25:57,710

deep state so really if you want to

1727

01:26:01,630 --> 01:25:59,810

understand where these things are going

1728

01:26:03,490 --> 01:26:01,640

what they're doing and why you have to

1729

01:26:06,460 --> 01:26:03,500

look at the deep state so you have to

1730

01:26:08,320 --> 01:26:06,470

not look at the director of the CIA is

1731

01:26:10,210 --> 01:26:08,330

an appointee you need to look at the you

1732

01:26:13,270 --> 01:26:10,220

know assistant directors have been there

1733

01:26:15,430 --> 01:26:13,280

for 20 or 30 years and you need to look

1734

01:26:20,290 --> 01:26:15,440

at these guys who are career you know

1735

01:26:22,510 --> 01:26:20,300

clergy deep state operatives you know I

1736

01:26:23,800 --> 01:26:22,520

want to raise an issue about the deep

1737

01:26:27,460 --> 01:26:23,810

state operative because there's a

1738

01:26:30,940 --> 01:26:27,470

perfect example in a film that's out now

1739

01:26:34,020 --> 01:26:30,950

called Mark felt was deep throat of

1740

01:26:37,240 --> 01:26:34,030

Watergate and you know he was a career

1741

01:26:39,850 --> 01:26:37,250

official at the FBI you know he had

1742

01:26:41,590 --> 01:26:39,860

survived for you know decades people

1743

01:26:45,310 --> 01:26:41,600

came and went but mark felt what was

1744

01:26:47,530 --> 01:26:45,320

always there and you know they were they

1745

01:26:49,960 --> 01:26:47,540

couldn't get rid of him they were afraid

1746

01:26:51,490 --> 01:26:49,970

of him you know he knew too much and at

1747

01:26:56,040 --> 01:26:51,500

a certain point he decided to turn

1748

01:26:57,190 --> 01:26:56,050

against Richard Nixon and he contacted

1749

01:26:59,350 --> 01:26:57,200

Woodward

1750

01:27:00,790 --> 01:26:59,360

and Bernstein and he began guiding them

1751
01:27:02,980 --> 01:27:00,800
through everything they needed to know

1752
01:27:04,720 --> 01:27:02,990
in order to unravel the mystery of

1753
01:27:06,970 --> 01:27:04,730
Watergate and bring down the Nixon

1754
01:27:10,060 --> 01:27:06,980
administration it was done by one of

1755
01:27:13,300 --> 01:27:10,070
those career FBI guys from the inside

1756
01:27:16,180 --> 01:27:13,310
and it's a similar thing with some of

1757
01:27:20,440 --> 01:27:16,190
the other whistleblowers where you know

1758
01:27:23,650 --> 01:27:20,450
if somebody you know inside the

1759
01:27:26,050 --> 01:27:23,660
intelligence world that like my

1760
01:27:28,900 --> 01:27:26,060
professor hack harddrive song the

1761
01:27:32,320 --> 01:27:28,910
WikiLeaks song you know one one thumb

1762
01:27:35,680 --> 01:27:32,330
drive into the the hands of somebody

1763
01:27:39,160 --> 01:27:35,690

who's gonna expose it you know can do of

1764

01:27:41,980 --> 01:27:39,170

a lot of damage to those that are trying

1765

01:27:43,780 --> 01:27:41,990

to keep all these things secret but

1766

01:27:47,440 --> 01:27:43,790

sometimes it's the only way that the

1767

01:27:49,030 --> 01:27:47,450

public can even get a glimpse into what

1768

01:27:51,790 --> 01:27:49,040

kinds of things are being manipulated

1769

01:27:54,210 --> 01:27:51,800

and controlled right I mean it was a

1770

01:27:58,750 --> 01:27:54,220

shock to the whole public wasn't it to

1771

01:28:04,660 --> 01:27:58,760

learn that that their their phone calls

1772

01:28:06,550 --> 01:28:04,670

were all being monitored mm-hmm well

1773

01:28:08,230 --> 01:28:06,560

that's that's just it though I mean you

1774

01:28:11,380 --> 01:28:08,240

know right now we kind of we live in an

1775

01:28:13,210 --> 01:28:11,390

age where these kind of revelations the

1776

01:28:15,190 --> 01:28:13,220

the whistleblowers are they're demonized

1777

01:28:17,200 --> 01:28:15,200

and you know it's just like oh my god

1778

01:28:19,450 --> 01:28:17,210

this person is this timey you just might

1779

01:28:21,340 --> 01:28:19,460

as well invite you know Russia to pull

1780

01:28:23,170 --> 01:28:21,350

their tanks up into up to the White

1781

01:28:25,990 --> 01:28:23,180

House you know this guy is just damaged

1782

01:28:35,800 --> 01:28:26,000

our national security to the point where

1783

01:28:39,880 --> 01:28:35,810

of no return hmm so and we only have

1784

01:28:41,350 --> 01:28:39,890

really about less than 10 minutes of the

1785

01:28:47,620 --> 01:28:41,360

show but I want to ask you real quick

1786

01:28:51,580 --> 01:28:47,630

Paul is there any aspect of what

1787

01:28:55,450 --> 01:28:51,590

happened to you you know in Princeton

1788

01:28:56,800 --> 01:28:55,460

that you left with with really no memory

1789

01:29:00,550 --> 01:28:56,810

because you know I'm and I'm referring

1790

01:29:03,640 --> 01:29:00,560

to the press release about your book

1791

01:29:05,770 --> 01:29:03,650

that said then it took the author's 50

1792

01:29:07,750 --> 01:29:05,780

years to decondition their own mind to

1793

01:29:10,750 --> 01:29:07,760

remember what was done to them at the

1794

01:29:13,720 --> 01:29:10,760

Institute in Princeton so I mean

1795

01:29:15,609 --> 01:29:13,730

are you being literal with that that you

1796

01:29:17,770 --> 01:29:15,619

know years later

1797

01:29:20,919 --> 01:29:17,780

yeah that's not that's not so literal

1798

01:29:23,740 --> 01:29:20,929

for me at John Selby has felt through

1799

01:29:26,729 --> 01:29:23,750

the decades that things have come back

1800

01:29:29,830 --> 01:29:26,739

to him and at different times that have

1801
01:29:31,899 --> 01:29:29,840
been buried and then have come to the

1802
01:29:34,720 --> 01:29:31,909
surface and the process of unraveling

1803
01:29:38,799 --> 01:29:34,730
all of those conditions that were

1804
01:29:42,879 --> 01:29:38,809
blocked out was a long and difficult you

1805
01:29:45,580 --> 01:29:42,889
know sort of a spider web I I felt and

1806
01:29:48,069 --> 01:29:45,590
of course he was in the program longer

1807
01:29:51,279 --> 01:29:48,079
than I was he was sucked in deeper he

1808
01:29:54,129 --> 01:29:51,289
suffered more than I did I got out

1809
01:29:59,350 --> 01:29:54,139
sooner you know before the damage was

1810
01:30:01,390 --> 01:29:59,360
done and let's say but I felt in working

1811
01:30:03,279 --> 01:30:01,400
with John Selby during on blowing

1812
01:30:04,990 --> 01:30:03,289
America's mind during those first few

1813
01:30:08,529 --> 01:30:05,000

years after we were free of the

1814

01:30:10,180 --> 01:30:08,539

Institute that we unraveled most of it

1815

01:30:12,790 --> 01:30:10,190

and there was a lot that never needed to

1816

01:30:17,560 --> 01:30:12,800

be unraveled of course because the

1817

01:30:20,649 --> 01:30:17,570

relationships with dr. Bernard Aronson

1818

01:30:24,580 --> 01:30:20,659

the head hypnotist these were conscious

1819

01:30:27,310 --> 01:30:24,590

memories and a lot of what was done to

1820

01:30:30,220 --> 01:30:27,320

us was a conscious or came back in

1821

01:30:32,770 --> 01:30:30,230

flashbacks when we call this the book a

1822

01:30:34,149 --> 01:30:32,780

true story the subtitle of blowing

1823

01:30:38,939 --> 01:30:34,159

America's mind is a true story of

1824

01:30:41,439 --> 01:30:38,949

Princeton CIA mind control LSD and Zen

1825

01:30:44,620 --> 01:30:41,449

the Zen part of it we didn't talk about

1826

01:30:48,490 --> 01:30:44,630

but John Selby who grew up on a cattle

1827

01:30:51,040 --> 01:30:48,500

ranch was it he became you know he was a

1828

01:30:55,209 --> 01:30:51,050

cowboy in Princeton fish-out-of-water

1829

01:30:59,500 --> 01:30:55,219

you know very far from being an Ivy

1830

01:31:01,930 --> 01:30:59,510

League type and he was interested in

1831

01:31:07,390 --> 01:31:01,940

fencing he became a championship

1832

01:31:09,310 --> 01:31:07,400

Ivy League fencer and he sort of adopted

1833

01:31:11,830 --> 01:31:09,320

what he called the Zen technique of

1834

01:31:14,049 --> 01:31:11,840

fencing from hypnosis he had learned

1835

01:31:16,330 --> 01:31:14,059

about concentrating the mind completely

1836

01:31:18,430 --> 01:31:16,340

on the present some of the hypnotic

1837

01:31:21,310 --> 01:31:18,440

conditions would take away the future

1838

01:31:22,209 --> 01:31:21,320

they would take away the past he had his

1839

01:31:24,430 --> 01:31:22,219

own past

1840

01:31:27,850 --> 01:31:24,440

lots of chunks of it just

1841

01:31:30,310 --> 01:31:27,860

locked out and obliterated it would have

1842

01:31:33,310 --> 01:31:30,320

made him a better defense er the whole

1843

01:31:36,640 --> 01:31:33,320

Zen technique of concentrating just on

1844

01:31:39,520 --> 01:31:36,650

the president like a deer in the woods

1845

01:31:43,660 --> 01:31:39,530

that here's a rifle click mm-hmm and

1846

01:31:46,150 --> 01:31:43,670

nose it's threatened but the hypnotic

1847

01:31:50,200 --> 01:31:46,160

conditions came back to haunt him while

1848

01:31:52,360 --> 01:31:50,210

he was fencing in ways that that that

1849

01:31:54,250 --> 01:31:52,370

you know I don't want too many spoilers

1850

01:31:55,959 --> 01:31:54,260

you know to give away too much but you

1851

01:32:00,640 --> 01:31:55,969

know but just to say that these things

1852

01:32:03,220 --> 01:32:00,650

were destructive destructive to him so

1853

01:32:04,600 --> 01:32:03,230

yes there was that unraveling process I

1854

01:32:06,760 --> 01:32:04,610

think most of it happened in the first

1855

01:32:09,040 --> 01:32:06,770

couple of years I wanted to make this as

1856

01:32:12,130 --> 01:32:09,050

my first film when I finished at the

1857

01:32:15,220 --> 01:32:12,140

American Film Institute I had hoped this

1858

01:32:17,890 --> 01:32:15,230

would be my first production it wasn't

1859

01:32:21,850 --> 01:32:17,900

you know it's all these 50 years later

1860

01:32:26,229 --> 01:32:21,860

just about you know I'm 70 now I've made

1861

01:32:27,550 --> 01:32:26,239

you know like 11 films and you know the

1862

01:32:29,740 --> 01:32:27,560

first that there was Timothy Leary's

1863

01:32:34,030 --> 01:32:29,750

dead and starry night the artist and the

1864

01:32:36,070 --> 01:32:34,040

shaman and the sci-fi boys and Jesus and

1865

01:32:38,530 --> 01:32:36,080

India and the life after death project

1866

01:32:40,689 --> 01:32:38,540

and before we say goodbye and Marilyn

1867

01:32:43,780 --> 01:32:40,699

Monroe Declassified there's all these

1868

01:32:46,840 --> 01:32:43,790

different projects and Roswell many of

1869

01:32:50,530 --> 01:32:46,850

them controversial but I I couldn't get

1870

01:32:52,959 --> 01:32:50,540

this finished I couldn't get it made

1871

01:32:56,439 --> 01:32:52,969

why not finished yes there was

1872

01:32:58,209 --> 01:32:56,449

continuing blocking that made it hard to

1873

01:33:01,360 --> 01:32:58,219

tie it all up and make it a finished

1874

01:33:03,640 --> 01:33:01,370

package we finally did that last year it

1875

01:33:05,260 --> 01:33:03,650

was our number one on our bucket list we

1876
01:33:07,900 --> 01:33:05,270
said you know we're not kids anymore

1877
01:33:10,209 --> 01:33:07,910
is this gonna is this gonna die I

1878
01:33:12,610 --> 01:33:10,219
gathering dust in a drawer blowing

1879
01:33:15,400 --> 01:33:12,620
America's mind or are we going to finish

1880
01:33:16,900 --> 01:33:15,410
it and release it to the world so now

1881
01:33:19,510 --> 01:33:16,910
Tim we've released it to the world

1882
01:33:21,550 --> 01:33:19,520
anybody can find it on Amazon you can

1883
01:33:24,390 --> 01:33:21,560
find it as a printed book you can find

1884
01:33:27,520 --> 01:33:24,400
it as a Kindle book you can find it as a

1885
01:33:29,770 --> 01:33:27,530
PDF file or any other kind of ebook

1886
01:33:31,780 --> 01:33:29,780
reader it's out there and it's out in

1887
01:33:33,370 --> 01:33:31,790
other countries maybe not the printed

1888
01:33:35,290 --> 01:33:33,380

book in other countries but I go online

1889

01:33:36,640 --> 01:33:35,300

and I see wow they've got it in Japan

1890

01:33:37,870 --> 01:33:36,650

they've got it in England they've got in

1891

01:33:41,140 --> 01:33:37,880

Australia

1892

01:33:42,850 --> 01:33:41,150

I see websites with talking about

1893

01:33:44,290 --> 01:33:42,860

blowing America's mind and it's all in

1894

01:33:46,810 --> 01:33:44,300

other language and I don't even know

1895

01:33:48,090 --> 01:33:46,820

what the language is so we've done the

1896

01:33:52,209 --> 01:33:48,100

job of putting it out there to the world

1897

01:33:56,080 --> 01:33:52,219

now we need the response from the world

1898

01:33:58,000 --> 01:33:56,090

to take a look you know have the

1899

01:34:00,610 --> 01:33:58,010

experience read it we've worked so hard

1900

01:34:02,979 --> 01:34:00,620

to get it to you you know it's at your

1901

01:34:07,270 --> 01:34:02,989

fingertips so that's my pitch tonight

1902

01:34:09,010 --> 01:34:07,280

that's why I that's a good pitch and I'm

1903

01:34:11,020 --> 01:34:09,020

and I'm glad you got the book out there

1904

01:34:13,800 --> 01:34:11,030

and unfortunately we're almost out of

1905

01:34:16,510 --> 01:34:13,810

time so I want to give you guys just a

1906

01:34:18,910 --> 01:34:16,520

real quick chance to let our listeners

1907

01:34:21,100 --> 01:34:18,920

know a little bit more about you know

1908

01:34:24,520 --> 01:34:21,110

where they can find out about you olav

1909

01:34:28,390 --> 01:34:24,530

I'll start with you pretty much

1910

01:34:30,939 --> 01:34:28,400

everything is a paranoia magazine.com do

1911

01:34:33,899 --> 01:34:30,949

you have any new projects that are

1912

01:34:36,490 --> 01:34:33,909

coming out that we should watch out for

1913

01:34:40,240 --> 01:34:36,500

yeah apparently a publishing just

1914

01:34:42,490 --> 01:34:40,250

released a new geoengineering book it's

1915

01:34:46,180 --> 01:34:42,500

a series of articles written by Clyde

1916

01:34:49,240 --> 01:34:46,190

Lewis we're still going to we have an

1917

01:34:51,160 --> 01:34:49,250

issue that's near complete that we need

1918

01:34:53,669 --> 01:34:51,170

to get out it's been your complete for a

1919

01:34:57,220 --> 01:34:53,679

while we got sidetracked on other stuff

1920

01:34:59,350 --> 01:34:57,230

we're doing some some books that are

1921

01:35:02,260 --> 01:34:59,360

that are kind of collections of articles

1922

01:35:04,300 --> 01:35:02,270

about various topics we released one on

1923

01:35:06,100 --> 01:35:04,310

cover space warfare which was a

1924

01:35:08,649 --> 01:35:06,110

collection of articles written in

1925

01:35:11,050 --> 01:35:08,659

paranoia about you know covert space

1926

01:35:12,879 --> 01:35:11,060

operations and other things so we're

1927

01:35:13,660 --> 01:35:12,889

always kind of you always have a few

1928

01:35:15,959 --> 01:35:13,670

irons in the fire

1929

01:35:19,600 --> 01:35:15,969

we're bringing the podcast back Oh

1930

01:35:23,470 --> 01:35:19,610
