explode the bazaars are your e-ticket

3  
00:00:47,070 --> 00:00:43,800

4  
00:00:51,380 --> 00:00:47,080

strap yourself in as we traverse the

5  
00:00:54,470 --> 00:00:51,390

universe exploring the unexplained UFO s

6  
00:00:56,880 --> 00:00:54,480

ghosts Lost Worlds

7  
00:01:00,720 --> 00:00:56,890

cryptozoology waters as well as other

8  
00:01:05,850 --> 00:01:00,730

dimensions it's time to take back the

9  
00:01:08,969 --> 00:01:05,860

night now your electrifying hosts of

10  
00:01:17,100 --> 00:01:08,979

exploring the bizarre Timothy Begley and

11  
00:01:19,499 --> 00:01:17,110

team sports Wow I'm really running out

12  
00:01:22,710 --> 00:01:19,509

of breath it's hard to keep up with our

13  
00:01:27,540 --> 00:01:22,720

guests running across the desert like

14

00:01:30,650 --> 00:01:27,550

this what's he running from well he he

15

00:01:33,510 --> 00:01:30,660

actually he's running with something

16

00:01:37,460 --> 00:01:33,520

something so odd and unusual he better

17

00:01:42,450 --> 00:01:37,470

hurry before that storm catches up with

18

00:01:45,180 --> 00:01:42,460

him come on slow your ass down and come

19

00:01:48,060 --> 00:01:45,190

and join me in the KC or our studio so

20

00:01:53,490 --> 00:01:48,070

we can talk about this over the air like

21

00:01:56,660 --> 00:01:53,500

sensible human beings but but but then

22

00:02:00,570 --> 00:01:56,670

who's a sensible human being amongst us

23

00:02:03,630 --> 00:02:00,580

anyway I know you're not and I'm

24

00:02:06,560 --> 00:02:03,640

question about whether I am or not but I

25

00:02:09,509 --> 00:02:06,570

think our guests for the evening

26

00:02:12,150 --> 00:02:09,519

probably are well let me let me climb

27

00:02:14,550 --> 00:02:12,160

onto the couch hiren and slow my ass

28

00:02:19,259 --> 00:02:14,560

down and you introduce our guest Tim

29

00:02:22,650 --> 00:02:19,269

well sure he ever have a beer Tim there

30

00:02:25,530 --> 00:02:22,660

you go oh yeah that's nice yeah just

31

00:02:29,850 --> 00:02:25,540

relax relax well I I take care of this

32

00:02:33,539 --> 00:02:29,860

part here well it's it's great that

33

00:02:38,250 --> 00:02:33,549

everyone is with us tonight on exploring

34

00:02:40,800 --> 00:02:38,260

the bizarre so I should say that we have

35

00:02:44,009 --> 00:02:40,810

an interesting show hopefully we'll end

36

00:02:46,050 --> 00:02:44,019

up having an interesting show because

37

00:02:49,949 --> 00:02:46,060

we're going to be talking about a

38

00:02:53,059 --> 00:02:49,959

possible alien artifacts

39

00:02:57,330 --> 00:02:53,069

so I mean that's that's an always

40

00:03:00,990 --> 00:02:57,340

fascinating subject so first off we have

41

00:03:04,740 --> 00:03:01,000

Harry Drew now Harry has has been on our

42

00:03:07,020 --> 00:03:04,750

show before and resides in Arizona and

43

00:03:09,869 --> 00:03:07,030

highly regarded for his professional

44

00:03:12,330 --> 00:03:09,879

ethic impeccable credentials and trusted

45

00:03:14,369 --> 00:03:12,340

results as an old-fashioned Indiana

46

00:03:16,740 --> 00:03:14,379

Jones type of researcher who takes his

47

00:03:19,129 --> 00:03:16,750

field work seriously and well he doesn't

48

00:03:21,780 --> 00:03:19,139

rely on assumptions and has the uncanny

49

00:03:25,740 --> 00:03:21,790

ability to ferret out the truth no

50

00:03:33,500 --> 00:03:25,750

matter how it's been distorted so now

51  
00:03:37,830 --> 00:03:33,510  
Harry he's known for his research in the

52  
00:03:40,920 --> 00:03:37,840  
Kingman UFO incident or actually

53  
00:03:44,369 --> 00:03:40,930  
incidents I think more than more than

54  
00:03:47,699 --> 00:03:44,379  
one and Harry has been associated with

55  
00:03:50,159 --> 00:03:47,709  
UFO community for many years and and

56  
00:03:52,709 --> 00:03:50,169  
worked with a Bob Brown as the official

57  
00:03:54,990 --> 00:03:52,719  
photographer for the International UFO

58  
00:03:58,770 --> 00:03:55,000  
Congress and film festival in Laughlin

59  
00:04:02,430 --> 00:03:58,780  
Nevada as well as with CC Stephens world

60  
00:04:07,229 --> 00:04:02,440  
mystery conference in Tempe Arizona yes

61  
00:04:12,559 --> 00:04:07,239  
yes Wendell Stevens daughter the terrain

62  
00:04:15,929 --> 00:04:12,569  
team very good old time a friend of ours

63  
00:04:19,710 --> 00:04:15,939

that's right well and I think possibly

64  
00:04:22,170 --> 00:04:19,720  
you know more Tim about our other guests

65  
00:04:24,060 --> 00:04:22,180  
so perhaps you should make the

66  
00:04:26,610 --> 00:04:24,070  
introductions well well you know I

67  
00:04:30,930 --> 00:04:26,620  
didn't want to get if you notice in what

68  
00:04:33,629 --> 00:04:30,940  
we wrote up for the K cor bulletin for

69  
00:04:39,300 --> 00:04:33,639  
the week's show I tried not to give the

70  
00:04:42,270 --> 00:04:39,310  
punchline away it's a very strange and

71  
00:04:45,689 --> 00:04:42,280  
odd case one of the the most peculiar

72  
00:04:49,350 --> 00:04:45,699  
that I've been involved in and it

73  
00:04:54,170 --> 00:04:49,360  
includes a meeting mister peeled mr.

74  
00:04:59,070 --> 00:04:54,180  
John Peel and I think it was 1980 in

75  
00:05:01,260 --> 00:04:59,080  
Florida and at the time he owned I think

76

00:05:04,790 --> 00:05:01,270

a health food store or a restaurant and

77

00:05:08,970 --> 00:05:04,800

had a very unusual

78

00:05:13,200 --> 00:05:08,980

artifact that he had located while

79

00:05:15,870 --> 00:05:13,210

jogging across the California desert now

80

00:05:18,930 --> 00:05:15,880

I don't want to ruin it for our

81

00:05:22,290 --> 00:05:18,940

listeners I would like him to tell the

82

00:05:27,210 --> 00:05:22,300

story himself I have not talked to John

83

00:05:32,870 --> 00:05:27,220

since 1980 and it is a really a bizarre

84

00:05:35,310 --> 00:05:32,880

as a story and it is one of the few

85

00:05:38,580 --> 00:05:35,320

alien artifacts that we could actually

86

00:05:42,530 --> 00:05:38,590

point to as existing I mean we hear

87

00:05:46,200 --> 00:05:42,540

about Tim the Roswell UFO a crash and

88

00:05:49,020 --> 00:05:46,210

deceased their alien bodies strewn

89

00:05:52,170 --> 00:05:49,030

across the desert but there's very

90

00:05:55,140 --> 00:05:52,180

little the proof and I know that Roswell

91

00:05:57,810 --> 00:05:55,150

fanatics will go for the jugular on this

92

00:06:01,020 --> 00:05:57,820

one very little proof that any of that

93

00:06:05,250 --> 00:06:01,030

took place or maybe it did but it's

94

00:06:07,380 --> 00:06:05,260

certainly yeah mysterious and we don't

95

00:06:08,940 --> 00:06:07,390

have any of the art of I mean it's been

96

00:06:11,060 --> 00:06:08,950

claimed from time to time that there

97

00:06:12,840 --> 00:06:11,070

might have been an artifact found but

98

00:06:15,930 --> 00:06:12,850

nothing that I know of

99

00:06:17,910 --> 00:06:15,940

now Jacques Vallejo recently I think Tim

100

00:06:20,580 --> 00:06:17,920

has come out and said that he's found or

101  
00:06:21,180 --> 00:06:20,590  
come across some actual artifacts is

102  
00:06:24,810 --> 00:06:21,190  
that not true

103  
00:06:26,490 --> 00:06:24,820  
yeah it's a situation where he was

104  
00:06:29,520 --> 00:06:26,500  
talking about that it was material

105  
00:06:34,020 --> 00:06:29,530  
that's been collected over the years you

106  
00:06:36,900 --> 00:06:34,030  
know that's that's undergone analysis

107  
00:06:41,150 --> 00:06:36,910  
and apparently now he didn't give any

108  
00:06:44,790 --> 00:06:41,160  
direct references to which cases these

109  
00:06:47,850 --> 00:06:44,800  
that's this so-called alien Hallows were

110  
00:06:50,940 --> 00:06:47,860  
found but some of them at least were

111  
00:06:55,200 --> 00:06:50,950  
discovered quite a number of years ago

112  
00:06:58,620 --> 00:06:55,210  
because he did say that considering the

113  
00:07:02,280 --> 00:06:58,630

highly unusual nature of these metals it

114

00:07:05,460 --> 00:07:02,290

would have been possible impossible and

115

00:07:08,850 --> 00:07:05,470

and just downright just way too

116

00:07:13,410 --> 00:07:08,860

expensive to produce that kind of metal

117

00:07:15,300 --> 00:07:13,420

when he did but he did say that all of

118

00:07:17,490 --> 00:07:15,310

the elements could be found here on

119

00:07:21,810 --> 00:07:17,500

earth they just consist

120

00:07:25,380 --> 00:07:21,820

that of what was the word that that he

121

00:07:28,800 --> 00:07:25,390

used more of the element and then has

122

00:07:33,510 --> 00:07:28,810

been utilized in any particular case in

123

00:07:35,310 --> 00:07:33,520

the past now in our book UFO hostilities

124

00:07:37,950 --> 00:07:35,320

that we just came out with we have a

125

00:07:42,990 --> 00:07:37,960

photograph of some metal that fell from

126

00:07:44,910 --> 00:07:43,000

the sky over yooba dooba brazil which

127

00:07:49,530 --> 00:07:44,920

was analyzed at the time and was

128

00:07:51,750 --> 00:07:49,540

reported being very very strange and if

129

00:07:54,330 --> 00:07:51,760

anybody's interested in following up on

130

00:07:56,610 --> 00:07:54,340

that they could of course get the the

131

00:07:58,860 --> 00:07:56,620

book there but I do want to start out

132

00:08:02,190 --> 00:07:58,870

with with Harry this evening and I want

133

00:08:04,800 --> 00:08:02,200

to start out by reading a clipping that

134

00:08:10,440 --> 00:08:04,810

he sent me and the clipping is dated

135

00:08:14,730 --> 00:08:10,450

Thursday June 29th 1950 and it's a very

136

00:08:16,710 --> 00:08:14,740

very peculiar a clipping news story and

137

00:08:19,140 --> 00:08:16,720

he's going to have to explain it there

138

00:08:24,210 --> 00:08:19,150

to us now Harry has been on previously

139

00:08:26,130 --> 00:08:24,220

and he we've talked about the UFO well

140

00:08:29,700 --> 00:08:26,140

he doesn't call him crashes but UFO

141

00:08:33,120 --> 00:08:29,710

incidents hard landings soft landings

142

00:08:35,459 --> 00:08:33,130

there in Kingman Arizona anyway let me

143

00:08:40,050 --> 00:08:35,469

progress by reading this short clipping

144

00:08:43,829 --> 00:08:40,060

it is estimated that 14,000 to 16,000

145

00:08:46,110 --> 00:08:43,839

acres have been burned over six cattle

146

00:08:49,470 --> 00:08:46,120

have been found burned to death and

147

00:08:53,280 --> 00:08:49,480

other cattle with burns which have been

148

00:08:57,390 --> 00:08:53,290

found are now being treated a total of

149

00:08:59,880 --> 00:08:57,400

440 men who helped fight the fire are

150

00:09:03,540 --> 00:08:59,890

recorded on the timesheets and an

151

00:09:06,329 --> 00:09:03,550

estimated 12 to \$14,000 cost to the

152

00:09:08,660 --> 00:09:06,339

government and county has been caused by

153

00:09:12,120 --> 00:09:08,670

the fire the Bureau of Land Management

154

00:09:14,610 --> 00:09:12,130

reports no guesses who the origin of the

155

00:09:16,980 --> 00:09:14,620

fire has been made and it is still too

156

00:09:19,710 --> 00:09:16,990

early to make an investigation into the

157

00:09:23,820 --> 00:09:19,720

cause according to the sheriff's office

158

00:09:26,699 --> 00:09:23,830

no trace has as yet been found of the

159

00:09:29,460 --> 00:09:26,709

three men that Captain John a Warren of

160

00:09:30,700 --> 00:09:29,470

the National Guard reported bringing to

161

00:09:32,950 --> 00:09:30,710

Kingman the

162

00:09:35,590 --> 00:09:32,960

men boarded an ambulance in front of the

163

00:09:39,130 --> 00:09:35,600

hospital according to Warren and that is

164

00:09:42,430 --> 00:09:39,140

the last that has been heard of that now

165

00:09:44,740 --> 00:09:42,440

there's a story there somewhere I would

166

00:09:49,390 --> 00:09:44,750

I would say so

167

00:09:52,680 --> 00:09:49,400

let's bring in Harry and tell us tell us

168

00:09:59,080 --> 00:09:52,690

the story here exactly what happened

169

00:10:02,380 --> 00:09:59,090

before and during this incident before

170

00:10:05,370 --> 00:10:02,390

this incident well it all what's leading

171

00:10:09,400 --> 00:10:05,380

up to this incident of the fire well

172

00:10:12,520 --> 00:10:09,410

some local reports of seeing a disc come

173

00:10:15,970 --> 00:10:12,530

down and it the North Face of the wallet

174

00:10:17,920 --> 00:10:15,980

by mountain which is eight thousand two

175

00:10:21,730 --> 00:10:17,930

hundred and fifty six feet high and it

176

00:10:24,220 --> 00:10:21,740

hit an area lower about 16 miles from a

177

00:10:26,980 --> 00:10:24,230

sawmill because it's covered with timber

178

00:10:30,010 --> 00:10:26,990

and elk and cougars and all of that

179

00:10:34,060 --> 00:10:30,020

stuff stands up off the desert floor of

180

00:10:38,910 --> 00:10:34,070

the Hualapai Valley and about 16 miles

181

00:10:42,240 --> 00:10:38,920

out from Kingman in an easterly

182

00:10:49,240 --> 00:10:42,250

southeast east east southeast direction

183

00:10:54,660 --> 00:10:49,250

and Kingman 1950 is 2,800 people give or

184

00:10:59,920 --> 00:10:54,670

take and definitely a Mayberry sized

185

00:11:06,760 --> 00:10:59,930

establishment and this happened in on

186

00:11:09,790 --> 00:11:06,770

the 18th day of June 1950 and it started

187

00:11:10,720 --> 00:11:09,800

a fire and they actually got the fire

188

00:11:13,560 --> 00:11:10,730

under control

189

00:11:19,630 --> 00:11:13,570

this this whatever it was that fell

190

00:11:22,720 --> 00:11:19,640

started a forest fire and but the

191

00:11:24,880 --> 00:11:22,730

smoldering coals weren't watched well

192

00:11:28,450 --> 00:11:24,890

enough and this thing took off with the

193

00:11:31,570 --> 00:11:28,460

wind it's common coming off the desert

194

00:11:34,449 --> 00:11:31,580

and hits the mountain and where I am

195

00:11:38,800 --> 00:11:34,459

some distance from there and the fire

196

00:11:42,060 --> 00:11:38,810

began to rage enough that the Secretary

197

00:11:46,420 --> 00:11:42,070

of the State for Arizona authorized

198

00:11:50,970 --> 00:11:46,430

emergency State help and the 158

199

00:11:56,860 --> 00:11:50,980

National Guard company H assigned to it

200

00:12:01,720 --> 00:11:56,870

and to help her and a captain Warren who

201  
00:12:05,740 --> 00:12:01,730  
you mentioned was one of the National

202  
00:12:08,400 --> 00:12:05,750  
Guard people at the attending the fire

203  
00:12:10,990 --> 00:12:08,410  
they brought in something important

204  
00:12:14,170 --> 00:12:11,000  
walkie-talkies communications because

205  
00:12:16,509 --> 00:12:14,180  
there weren't any and up in this area

206  
00:12:21,569 --> 00:12:16,519  
other than a few residents up there now

207  
00:12:24,900 --> 00:12:21,579  
there's still nothing to speak of and

208  
00:12:28,210 --> 00:12:24,910  
the captain had been up resupplying

209  
00:12:30,579 --> 00:12:28,220  
things that have to be hand carried by

210  
00:12:33,460 --> 00:12:30,589  
work crews to the fire was moving around

211  
00:12:36,639 --> 00:12:33,470  
into the mountain peaks and so it's all

212  
00:12:40,120 --> 00:12:36,649  
done by hand no helicopters no borate

213  
00:12:42,940 --> 00:12:40,130

bombers flying over dropping water none

214

00:12:45,550 --> 00:12:42,950  
of that this is done with build big

215

00:12:47,710 --> 00:12:45,560  
metal tubs full of water with gunnysacks

216

00:12:51,370 --> 00:12:47,720  
when you get them wet to beat the grass

217

00:12:54,190 --> 00:12:51,380  
fire part out and a little pump tanks

218

00:12:56,769 --> 00:12:54,200  
and and shovels of dirt to try to handle

219

00:13:00,310 --> 00:12:56,779  
a forest fire you get a bulldozer and to

220

00:13:03,550 --> 00:13:00,320  
cut a fire trail so he's coming back

221

00:13:08,260 --> 00:13:03,560  
down the mountain and you pass what was

222

00:13:12,760 --> 00:13:08,270  
a County Park is a county park still as

223

00:13:16,150 --> 00:13:12,770  
it turns out and three men well some men

224

00:13:20,939 --> 00:13:16,160  
turned out to be three flagged him down

225

00:13:23,860 --> 00:13:20,949  
they were burned one of them severely

226

00:13:27,490 --> 00:13:23,870

they loaded him in the car one of them

227

00:13:32,139 --> 00:13:27,500

looked like he was going to expire put

228

00:13:34,870 --> 00:13:32,149

it in the back and the other two burned

229

00:13:36,910 --> 00:13:34,880

individuals set in the front with the

230

00:13:37,689 --> 00:13:36,920

captain do all my take us all the way to

231

00:13:40,920 --> 00:13:37,699

the hospital

232

00:13:44,290 --> 00:13:40,930

oh yeah definitely go for it okay

233

00:13:45,420 --> 00:13:44,300

there's 16 miles away roughly from the

234

00:13:47,820 --> 00:13:45,430

king

235

00:13:50,460 --> 00:13:47,830

General Hospital which was here actually

236

00:13:53,420 --> 00:13:50,470

up until probably about five years ago

237

00:13:56,550 --> 00:13:53,430

and they finally demolished the place

238

00:14:00,680 --> 00:13:56,560

right along old Beale Street and what we

239

00:14:03,390 --> 00:14:00,690

call old town kingman which six blocks

240

00:14:07,080 --> 00:14:03,400

of city six blocks

241

00:14:08,840 --> 00:14:07,090

no TV none of these things 1950 no

242

00:14:12,030 --> 00:14:08,850

hardly anything

243

00:14:14,970 --> 00:14:12,040

two roads by the way I'm gonna make this

244

00:14:19,380 --> 00:14:14,980

clear for all the storytellers out there

245

00:14:29,100 --> 00:14:19,390

who could get it straight route 66 pave

246

00:14:33,510 --> 00:14:29,110

1938 Kingman and highway 93 and one year

247

00:14:36,900 --> 00:14:33,520

before it was paved 1951 and the south

248

00:14:41,250 --> 00:14:36,910

side going to a place called wickiup was

249

00:14:45,900 --> 00:14:41,260

called old AZ 93 and it was a graded

250

00:14:49,260 --> 00:14:45,910

dirt road to Wikia and went from there

251  
00:14:52,950 --> 00:14:49,270  
to Wickenburg towards Phoenix and it was

252  
00:14:57,540 --> 00:14:52,960  
still a wagon road in 1950 so it's like

253  
00:15:00,180 --> 00:14:57,550  
not a highway at all so was that it's

254  
00:15:05,270 --> 00:15:00,190  
important to know how many roads because

255  
00:15:08,910 --> 00:15:05,280  
that figures into this really does so

256  
00:15:12,090 --> 00:15:08,920  
there the captain is going to take these

257  
00:15:15,420 --> 00:15:12,100  
three burned individuals down to the

258  
00:15:18,870 --> 00:15:15,430  
general hospital for medical attention

259  
00:15:23,100 --> 00:15:18,880  
because they're severely burned and just

260  
00:15:26,310 --> 00:15:23,110  
as they approach the hospital sitting

261  
00:15:29,790 --> 00:15:26,320  
out front it's a vehicle and the

262  
00:15:32,010 --> 00:15:29,800  
individual sitting on the extreme

263  
00:15:38,840 --> 00:15:32,020

passenger side by the door and the

264

00:15:44,070 --> 00:15:40,220

okay

265

00:15:46,320 --> 00:15:44,080

well the only place you're going to get

266

00:15:49,830 --> 00:15:46,330

medical treatment for at least 50 miles

267

00:15:52,530 --> 00:15:49,840

is right in front of them and these are

268

00:15:54,760 --> 00:15:52,540

severely burned people or individuals

269

00:15:57,100 --> 00:15:54,770

will say

270

00:15:59,610 --> 00:15:57,110

they pulled up to a stop and these

271

00:16:12,280 --> 00:16:03,430

I'll let loose and my book because it's

272

00:16:14,500 --> 00:16:12,290

this is on today June 21 1950 and the

273

00:16:18,340 --> 00:16:14,510

only newspaper stories that came from

274

00:16:20,769 --> 00:16:18,350

this was on the 22nd and the 29 and each

275

00:16:22,930 --> 00:16:20,779

time there was less information until

276

00:16:24,610 --> 00:16:22,940

there's no information about what I'm

277

00:16:27,190 --> 00:16:24,620

telling you even about what some of the

278

00:16:31,690 --> 00:16:27,200

things they printed there it was gone

279

00:16:33,820 --> 00:16:31,700

taken out the captain pulled up and

280

00:16:36,389 --> 00:16:33,830

obviously he'd be wondering why why is

281

00:16:40,240 --> 00:16:36,399

there an ambulance parked out front and

282

00:16:43,780 --> 00:16:40,250

why would it be connected to three

283

00:16:45,970 --> 00:16:43,790

individuals in its vehicle and he had

284

00:16:47,860 --> 00:16:45,980

them the the two that were cautious

285

00:16:50,680 --> 00:16:47,870

sitting up he had to wait and he got out

286

00:16:53,320 --> 00:16:50,690

of the vehicle and he walked up to what

287

00:16:55,350 --> 00:16:53,330

looked like an ambulance and he leaned

288

00:16:58,480 --> 00:16:55,360

over to the driver and he stood over you

289

00:16:59,500 --> 00:16:58,490

and the driver said well I'm the

290

00:17:01,360 --> 00:16:59,510

ambulance driver

291

00:17:04,569 --> 00:17:01,370

I Drive the ambulance to wherever we

292

00:17:07,120 --> 00:17:04,579

have to go and the captain looked down

293

00:17:08,500 --> 00:17:07,130

through the window to the individual

294

00:17:10,329 --> 00:17:08,510

sitting in the passenger seat and he

295

00:17:12,699 --> 00:17:10,339

said well then who are you and he said

296

00:17:14,679 --> 00:17:12,709

all I'm an intern and I helped treat the

297

00:17:20,829 --> 00:17:14,689

patient while the ambulance is enroute

298

00:17:23,260 --> 00:17:20,839

and the captain you know it's like it's

299

00:17:25,449 --> 00:17:23,270

get a little Spacey at that point he

300

00:17:29,470 --> 00:17:25,459

accepted that and he walked back and he

301  
00:17:33,010 --> 00:17:29,480  
helped load the body of what he decided

302  
00:17:35,260 --> 00:17:33,020  
or determined was this other individual

303  
00:17:38,730 --> 00:17:35,270  
who had died during the transit coming

304  
00:17:42,820 --> 00:17:38,740  
down and then the ambulance pulled away

305  
00:17:46,360 --> 00:17:42,830  
and within a couple of minutes

306  
00:17:49,299 --> 00:17:46,370  
sheriff Porter Mojave County Sheriff

307  
00:17:52,570 --> 00:17:49,309  
come screeching up to a stop in his ford

308  
00:17:55,510 --> 00:17:52,580  
patrol car along with the undersheriff

309  
00:18:00,910 --> 00:17:55,520  
and he said did you spring the three men

310  
00:18:02,470 --> 00:18:00,920  
in to the hospital and the captain

311  
00:18:07,090 --> 00:18:02,480  
acknowledged she did and he said they

312  
00:18:08,259 --> 00:18:07,100  
just left in an ambulance and the

313  
00:18:11,440 --> 00:18:08,269

sheriff looked at him

314

00:18:12,339 --> 00:18:11,450

said they left in an ambulance where

315

00:18:16,089 --> 00:18:12,349

would they go

316

00:18:18,339 --> 00:18:16,099

so whatever the sheriff's motivation was

317

00:18:20,529 --> 00:18:18,349

at that point this was the second time

318

00:18:22,810 --> 00:18:20,539

in his lifetime that I'm aware of from

319

00:18:24,729 --> 00:18:22,820

my research that something a really

320

00:18:27,039 --> 00:18:24,739

screwy had happened to him

321

00:18:30,699 --> 00:18:27,049

it would happen again in 1953 it

322

00:18:33,539 --> 00:18:30,709

happened the first time in 1947 a few

323

00:18:37,539 --> 00:18:33,549

days before Roswell okay

324

00:18:39,129 --> 00:18:37,549

another story now what what what did

325

00:18:44,279 --> 00:18:39,139

these these are was there anything

326

00:18:48,729 --> 00:18:44,289

peculiar about these individuals well

327

00:18:52,560 --> 00:18:48,739

their behavior was the the the two that

328

00:18:56,199 --> 00:18:52,570

were conscious or at least seem to be

329

00:18:58,959 --> 00:18:56,209

were far more alert and more attentive

330

00:19:04,169 --> 00:18:58,969

than they appeared to be when he picked

331

00:19:08,199 --> 00:19:04,179

them up you know his expectation was

332

00:19:09,669 --> 00:19:08,209

suffering a lot of pain and some of the

333

00:19:14,560 --> 00:19:09,679

other things associated with burn

334

00:19:17,889 --> 00:19:14,570

injuries and they were alert the other

335

00:19:19,989 --> 00:19:17,899

the other may individual I can't say man

336

00:19:23,829 --> 00:19:19,999

here have a tenancy because that's

337

00:19:26,919 --> 00:19:23,839

thinking like the captain did he had

338

00:19:33,039 --> 00:19:26,929

nothing to say okay

339

00:19:35,049 --> 00:19:33,049

and he remained silent and so he at that

340

00:19:40,389 --> 00:19:35,059

point in time he was led to believe or

341

00:19:44,190 --> 00:19:40,399

he imagined that he had three men and he

342

00:19:47,589 --> 00:19:44,200

picked him up at a kind of a flat area

343

00:19:51,969 --> 00:19:47,599

that's that sits back into the side of

344

00:19:55,109 --> 00:19:51,979

the mountain which is the park in and he

345

00:19:57,009 --> 00:19:55,119

was transferring people below the fire

346

00:20:01,349 --> 00:19:57,019

how they got there

347

00:20:04,539 --> 00:20:01,359

and remember this there's no telephones

348

00:20:06,549 --> 00:20:04,549

okay you couldn't call an ambulance

349

00:20:09,060 --> 00:20:06,559

we're talking about Kingman what was the

350

00:20:12,930 --> 00:20:09,070

population to Kingman at that time about

351  
00:20:15,669 --> 00:20:12,940  
2,800 people you know maybe on Saturday

352  
00:20:18,849 --> 00:20:15,679  
yeah or at all in town

353  
00:20:21,870 --> 00:20:18,859  
you know yes the six blocks of Kingman

354  
00:20:25,170 --> 00:20:21,880  
that's it and it was called bunch

355  
00:20:29,730 --> 00:20:25,180  
town and there were some isolated little

356  
00:20:32,280 --> 00:20:29,740  
farms and and not really ranches per se

357  
00:20:33,900 --> 00:20:32,290  
but some farms and so that I should go

358  
00:20:37,200 --> 00:20:33,910  
out because this is desert country and

359  
00:20:40,470 --> 00:20:37,210  
that was called string town because it

360  
00:20:44,640 --> 00:20:40,480  
was strung out so that was the

361  
00:20:49,560 --> 00:20:44,650  
designation from the time no phones on

362  
00:20:52,740 --> 00:20:49,570  
the Hualapai mountain okay no phones as

363  
00:20:57,020 --> 00:20:52,750

such outside of Kingman other than

364

00:21:01,110 --> 00:20:57,030

battery-operated hand crank magneto type

365

00:21:03,390 --> 00:21:01,120

with a wire on an insulator nailed to a

366

00:21:05,760 --> 00:21:03,400

tree or whatever that came one of them

367

00:21:08,940 --> 00:21:05,770

came into town they had a real phone and

368

00:21:10,530 --> 00:21:08,950

then they had like a prefix you dial a

369

00:21:12,060 --> 00:21:10,540

prefix you know dial a number like you

370

00:21:15,570 --> 00:21:12,070

do today long number

371

00:21:17,430 --> 00:21:15,580

just a few and so somebody locally would

372

00:21:20,970 --> 00:21:17,440

take a call and then they could call

373

00:21:22,410 --> 00:21:20,980

Sarah out in the country and her ring is

374

00:21:24,540 --> 00:21:22,420

too long so to sort

375

00:21:27,600 --> 00:21:24,550

oh yeah well we kind of had it like a

376

00:21:31,020 --> 00:21:27,610

party line oh yeah everybody yeah yeah

377

00:21:34,080 --> 00:21:31,030

well we had that to grow to growing up

378

00:21:39,360 --> 00:21:34,090

to now you pay extra for for this a

379

00:21:41,700 --> 00:21:39,370

social media thing well hey wouldn't

380

00:21:44,210 --> 00:21:41,710

worry were they wearing I mean were they

381

00:21:46,380 --> 00:21:44,220

wearing any kind of protective you

382

00:21:49,680 --> 00:21:46,390

outfits or uniforms like you're the

383

00:21:51,990 --> 00:21:49,690

firefighters would have well no yeah yes

384

00:21:54,150 --> 00:21:52,000

or no they were wearing and and and

385

00:21:57,080 --> 00:21:54,160

we'll say this again later they're

386

00:21:58,740 --> 00:21:57,090

wearing some kind of coveralls

387

00:22:00,870 --> 00:21:58,750

[Music]

388

00:22:02,430 --> 00:22:00,880

you know coveralls weren't an unusual

389

00:22:05,190 --> 00:22:02,440

thing you know you see a lot of them

390

00:22:06,780 --> 00:22:05,200

were back then and they look like Levi's

391

00:22:08,460 --> 00:22:06,790

or something and they come up and

392

00:22:10,800 --> 00:22:08,470

they've got a strap over the shoulder

393

00:22:14,160 --> 00:22:10,810

with a big button or or something in the

394

00:22:18,300 --> 00:22:14,170

front oh yes yes yeah but it became more

395

00:22:23,540 --> 00:22:18,310

clear to me in 1953 with that and what a

396

00:22:27,240 --> 00:22:23,550

reporter saw these were flight suits and

397

00:22:28,950 --> 00:22:27,250

but from the terminology back then you

398

00:22:30,990 --> 00:22:28,960

know it's like there's some kind of

399

00:22:33,600 --> 00:22:31,000

cover all nothing that could identify I

400

00:22:35,550 --> 00:22:33,610

guess you wouldn't be serious and

401  
00:22:37,290 --> 00:22:35,560  
Roebuck existed then

402  
00:22:39,900 --> 00:22:37,300  
if they happen to have a catalog but

403  
00:22:43,590 --> 00:22:39,910  
it'd be probably something not even

404  
00:22:45,540 --> 00:22:43,600  
another robot so there there would be no

405  
00:22:47,100 --> 00:22:45,550  
reason though why there would be an

406  
00:22:49,440 --> 00:22:47,110  
ambulance waiting for them at the

407  
00:22:52,650 --> 00:22:49,450  
hospital correct that's right that's

408  
00:22:56,670 --> 00:22:52,660  
completely wrong that's completely wrong

409  
00:23:00,950 --> 00:22:56,680  
there are no the nearest town is needles

410  
00:23:04,710 --> 00:23:00,960  
California you know there's there's one

411  
00:23:08,820 --> 00:23:04,720  
individual who's an authority on kingman

412  
00:23:10,620 --> 00:23:08,830  
and he claims that you researched all

413  
00:23:14,910 --> 00:23:10,630

the newspapers and within a hundred

414

00:23:17,730 --> 00:23:14,920

miles that came on even las vegas about

415

00:23:20,820 --> 00:23:17,740

any kind of UFO or anything going on in

416

00:23:23,160 --> 00:23:20,830

1953 he couldn't find anything and i i

417

00:23:24,570 --> 00:23:23,170

thought that's an overwhelming task and

418

00:23:28,620 --> 00:23:24,580

of course i went and did that

419

00:23:30,930 --> 00:23:28,630

it was only two newspapers so was it

420

00:23:33,120 --> 00:23:30,940

nearly as tough and that versus its

421

00:23:33,990 --> 00:23:33,130

front-page story all right let me

422

00:23:35,250 --> 00:23:34,000

lemonade

423

00:23:37,590 --> 00:23:35,260

interrupt you here harry because we have

424

00:23:39,030 --> 00:23:37,600

to go to our bottom of our break when we

425

00:23:41,280 --> 00:23:39,040

come back we'll continue this

426

00:23:49,000 --> 00:23:41,290

interesting conversation on exploring

427

00:23:55,730 --> 00:23:53,150

now back to exploring the bazaar with

428

00:23:59,030 --> 00:23:55,740

two of the most electrifying researchers

429

00:24:03,520 --> 00:23:59,040

in the Paranoid your hosts Timothy Becca

430

00:24:10,070 --> 00:24:07,220

well you know I am or I am all pumped up

431

00:24:13,580 --> 00:24:10,080

Tim you can't believe this is this is a

432

00:24:16,210 --> 00:24:13,590

this is a night night safari ax we have

433

00:24:18,680 --> 00:24:16,220

of course a hairy a druid who tells the

434

00:24:23,510 --> 00:24:18,690

Magnificent experience that took place

435

00:24:28,730 --> 00:24:23,520

in kingman arizona and we have tonight

436

00:24:33,560 --> 00:24:28,740

as a special guest John Peel now I first

437

00:24:36,730 --> 00:24:33,570

met John Peel it was either 1979 or 1980

438

00:24:39,980 --> 00:24:36,740

in Florida I was down there on a

439

00:24:44,720 --> 00:24:39,990

promotional tour at the time I think I

440

00:24:47,120 --> 00:24:44,730

was editing UFO review our newspaper our

441

00:24:49,700 --> 00:24:47,130

tabloid and had a couple of books out

442

00:24:52,040 --> 00:24:49,710

and so I would go around too long before

443

00:24:54,230 --> 00:24:52,050

Budd Hopkins and and Whitney troopers

444

00:24:56,360 --> 00:24:54,240

started you know promoting the in the

445

00:24:58,340 --> 00:24:56,370

field in fact when they got into it I

446

00:25:00,590 --> 00:24:58,350

kind of sort of backed out and let them

447

00:25:03,440 --> 00:25:00,600

take over but I would travel around

448

00:25:06,520 --> 00:25:03,450

collecting information and data and

449

00:25:08,870 --> 00:25:06,530

reports from different locations as I

450

00:25:13,520 --> 00:25:08,880

visited different parts of the country

451  
00:25:16,100 --> 00:25:13,530  
and my friend Karen all I believe now if

452  
00:25:19,250 --> 00:25:16,110  
I get that John will have to correct me

453  
00:25:21,230 --> 00:25:19,260  
a few remembers was a student at one of

454  
00:25:24,650 --> 00:25:21,240  
the school's down there one of the

455  
00:25:28,240 --> 00:25:24,660  
colleges and she had heard that somebody

456  
00:25:31,610 --> 00:25:28,250  
had something very unusual in their

457  
00:25:35,840 --> 00:25:31,620  
possession and somehow I got a hold of

458  
00:25:41,710 --> 00:25:35,850  
John feels a phone number and called him

459  
00:25:45,380 --> 00:25:41,720  
and he invited me over to his house and

460  
00:25:47,540 --> 00:25:45,390  
showed me this well what I call an alien

461  
00:25:50,240 --> 00:25:47,550  
the artifact I don't know what else you

462  
00:25:51,890 --> 00:25:50,250  
would you would call it and it took my

463  
00:25:54,690 --> 00:25:51,900

breath away it was just something

464

00:25:57,960 --> 00:25:54,700

stunning because they're hidden

465

00:26:02,400 --> 00:25:57,970

bydd nothing like this before now I've

466

00:26:05,240 --> 00:26:02,410

told the the incident several times and

467

00:26:08,460 --> 00:26:05,250

a couple people have commented to me oh

468

00:26:11,910 --> 00:26:08,470

you're making it up where's the artifact

469

00:26:15,840 --> 00:26:11,920

and where is the witness because I have

470

00:26:19,200 --> 00:26:15,850

not spoken to John Peel since that time

471

00:26:22,440 --> 00:26:19,210

in 1980 and I finally found him on

472

00:26:27,450 --> 00:26:22,450

Facebook maybe a little over a year ago

473

00:26:29,970 --> 00:26:27,460

so I invited him on the show and so this

474

00:26:32,630 --> 00:26:29,980

is as far as I know maybe the first time

475

00:26:36,450 --> 00:26:32,640

John that you have actually aired your

476

00:26:38,730 --> 00:26:36,460

discovery it is the first time that I've

477

00:26:42,390 --> 00:26:38,740

done that you're right well good enough

478

00:26:45,230 --> 00:26:42,400

well why don't we go back to the I I

479

00:26:48,300 --> 00:26:45,240

tried not even in our little

480

00:26:50,160 --> 00:26:48,310

introduction on the website tried to

481

00:26:52,680 --> 00:26:50,170

have to give too much information I I

482

00:26:55,140 --> 00:26:52,690

presented it as a teaser why don't you

483

00:26:57,660 --> 00:26:55,150

go back to your your travels you were

484

00:27:00,450 --> 00:26:57,670

jogging well you were jogging across the

485

00:27:03,780 --> 00:27:00,460

California desert at that time correct

486

00:27:08,040 --> 00:27:03,790

why don't you say it take us back to was

487

00:27:15,360 --> 00:27:08,050

this 1977 it was 77 and we don't jog we

488

00:27:18,750 --> 00:27:15,370

run never made it but it was actually an

489

00:27:20,880 --> 00:27:18,760

Arizona we are long yeah yeah one of the

490

00:27:23,370 --> 00:27:20,890

many one of the many things we did on

491

00:27:26,120 --> 00:27:23,380

that run and it was from Daytona Beach

492

00:27:29,040 --> 00:27:26,130

to Santa Monica but when we were

493

00:27:31,500 --> 00:27:29,050

approaching the Western and Texas side

494

00:27:33,870 --> 00:27:31,510

we were invited to go to Phoenix for the

495

00:27:37,350 --> 00:27:33,880

fiesta bowl marathon

496

00:27:39,900 --> 00:27:37,360

I was honored and pleased that they

497

00:27:41,790 --> 00:27:39,910

invited us but as I told them I really

498

00:27:44,100 --> 00:27:41,800

can't run in a 26 mile circle I'm

499

00:27:46,950 --> 00:27:44,110

running across the country so I needed

500

00:27:49,020 --> 00:27:46,960

to get you know we were averaging out 48

501  
00:27:52,850 --> 00:27:49,030  
miles a day so it was a little difficult

502  
00:27:56,340 --> 00:27:52,860  
to do it that way however I did go there

503  
00:27:58,860 --> 00:27:56,350  
we were like guest personalities and

504  
00:28:01,170 --> 00:27:58,870  
introduced you know ideas of how to

505  
00:28:02,940 --> 00:28:01,180  
stretch and whatever for health and

506  
00:28:06,120 --> 00:28:02,950  
nutrition that was what our goal was

507  
00:28:07,350 --> 00:28:06,130  
anyway but when we left there we didn't

508  
00:28:09,630 --> 00:28:07,360  
realize

509  
00:28:11,190 --> 00:28:09,640  
because we were running cross country we

510  
00:28:16,080 --> 00:28:11,200  
did not realize that we had actually

511  
00:28:20,220 --> 00:28:16,090  
entered into some areas that were pretty

512  
00:28:24,990 --> 00:28:20,230  
much protected but no no real protection

513  
00:28:27,900 --> 00:28:25,000

shall we say think protected you mean

514

00:28:31,100 --> 00:28:27,910

you mean like restricted area government

515

00:28:36,240 --> 00:28:31,110

land yeah they were restricted area

516

00:28:38,130 --> 00:28:36,250

however it it was not restricted by any

517

00:28:41,909 --> 00:28:38,140

you know it's like the border wall we

518

00:28:45,680 --> 00:28:41,919

don't have we saw that as we were

519

00:28:48,870 --> 00:28:45,690

leaving more than as we entered and so

520

00:28:53,039 --> 00:28:48,880

kind of neat things in Arizona and in

521

00:28:54,840 --> 00:28:53,049

the desert literally running and we kind

522

00:28:56,490 --> 00:28:54,850

of separated Brian went his way and I

523

00:29:00,030 --> 00:28:56,500

went my way which we did many times

524

00:29:01,680 --> 00:29:00,040

because when you run side by side with

525

00:29:03,810 --> 00:29:01,690

someone for that many days you kind of

526

00:29:05,700 --> 00:29:03,820

run out of things to say so you go in

527

00:29:08,310 --> 00:29:05,710

different ways and you discuss it later

528

00:29:08,940 --> 00:29:08,320

well how many miles are you covering in

529

00:29:14,970 --> 00:29:08,950

a day

530

00:29:18,480 --> 00:29:14,980

the average was 48 I mean the longest

531

00:29:22,169 --> 00:29:18,490

day was 68 but the average was 48 miles

532

00:29:24,720 --> 00:29:22,179

a day well that's pretty good I mean I'm

533

00:29:26,610 --> 00:29:24,730

not a runner at all in fact these days I

534

00:29:29,310 --> 00:29:26,620

have a hard time making it to the post

535

00:29:31,020 --> 00:29:29,320

office but I'll be talking about running

536

00:29:33,750 --> 00:29:31,030

across the desert there's a lot of sand

537

00:29:37,680 --> 00:29:33,760

there and usually sand is pretty hard to

538

00:29:40,470 --> 00:29:37,690

run in or even walk in well actually the

539

00:29:43,740 --> 00:29:40,480

deserts when it's dry is pretty easy to

540

00:29:45,510 --> 00:29:43,750

run on the coolest part there were road

541

00:29:50,880 --> 00:29:45,520

runners that would literally run beside

542

00:29:53,539 --> 00:29:50,890

you but you know it was kind of fun but

543

00:29:58,799 --> 00:29:53,549

what happened was I came up on a

544

00:30:02,310 --> 00:29:58,809

railroad track that can look like a

545

00:30:04,740 --> 00:30:02,320

roller coaster ride it was pulled up out

546

00:30:07,350 --> 00:30:04,750

and because the way railroads are

547

00:30:11,789 --> 00:30:07,360

connected to you know one one rail to

548

00:30:14,669 --> 00:30:11,799

the next it literally made loops and it

549

00:30:17,250 --> 00:30:14,679

was quite bizarre and I did not know

550

00:30:19,340 --> 00:30:17,260

what I was seeing at the time and still

551  
00:30:22,549 --> 00:30:19,350  
not 100% sure

552  
00:30:25,549 --> 00:30:22,559  
I went over towards that and started

553  
00:30:29,659 --> 00:30:25,559  
following it and at one point I came up

554  
00:30:32,600 --> 00:30:29,669  
on a large what looked at me and I'm I'm

555  
00:30:36,590 --> 00:30:32,610  
a fighter pilot so I say this with some

556  
00:30:40,940 --> 00:30:36,600  
knowledge I saw what looked like a wing

557  
00:30:43,340 --> 00:30:40,950  
but it was extremely thin and even

558  
00:30:46,340 --> 00:30:43,350  
though it was about eight feet long I

559  
00:30:48,919 --> 00:30:46,350  
could literally use two fingers and from

560  
00:30:51,110 --> 00:30:48,929  
the end hold it horizontally with no

561  
00:30:53,419 --> 00:30:51,120  
problems it was that light but it was

562  
00:30:54,649 --> 00:30:53,429  
that strong I mean I tried to bend it

563  
00:30:56,570 --> 00:30:54,659

you could bend it but you couldn't

564

00:31:00,380 --> 00:30:56,580

really I wasn't trying to break it but I

565

00:31:04,549 --> 00:31:00,390

was just testing it I started to look

566

00:31:07,310 --> 00:31:04,559

around I found other little what I'll

567

00:31:13,340 --> 00:31:07,320

call remnants of what was an obvious

568

00:31:15,850 --> 00:31:13,350

crash and at a certain point looking at

569

00:31:19,460 --> 00:31:15,860

all these things I mean there was

570

00:31:24,110 --> 00:31:19,470

Plexiglas and and it really was more

571

00:31:26,600 --> 00:31:24,120

like probably a carbon glass because you

572

00:31:30,230 --> 00:31:26,610

couldn't break it however it had

573

00:31:34,039 --> 00:31:30,240

shattered from impact into the rocks in

574

00:31:35,930 --> 00:31:34,049

the desert but you could pick up a piece

575

00:31:37,730 --> 00:31:35,940

of it and you could not break it I

576

00:31:39,020 --> 00:31:37,740

didn't bring any of that I was a little

577

00:31:40,789 --> 00:31:39,030

bit concerned that this might be

578

00:31:46,820 --> 00:31:40,799

radioactive I didn't know what I was

579

00:31:51,529 --> 00:31:46,830

dealing with and then I found the gloves

580

00:31:54,260 --> 00:31:51,539

and you have in your book mj-12

581

00:31:57,320 --> 00:31:54,270

and the riddle of hangar 18 you have a

582

00:32:00,110 --> 00:31:57,330

picture of that glove yes I I wish I

583

00:32:02,899 --> 00:32:00,120

could find the hey I took quite a few

584

00:32:04,490 --> 00:32:02,909

photos I think we put the the glove

585

00:32:06,980 --> 00:32:04,500

while we compared the glove to a dollar

586

00:32:10,460 --> 00:32:06,990

bill and then we put it in your your

587

00:32:13,340 --> 00:32:10,470

hand and I know I took other photographs

588

00:32:16,850 --> 00:32:13,350

and they are here somewhere but I have

589

00:32:19,700 --> 00:32:16,860

50 file drawers of data and information

590

00:32:24,649 --> 00:32:19,710

and I know that at some point I will

591

00:32:28,220 --> 00:32:24,659

come in contact with them but okay hey

592

00:32:29,960 --> 00:32:28,230

so you found an artifact I mean the is

593

00:32:32,629 --> 00:32:29,970

there any other word we could use her is

594

00:32:37,639 --> 00:32:35,060

an artifact is good because what that

595

00:32:40,460 --> 00:32:37,649

was and and who had a later time and I

596

00:32:43,690 --> 00:32:40,470

told you this when you met me down here

597

00:32:47,509 --> 00:32:43,700

at the time there were two of them and

598

00:32:49,340 --> 00:32:47,519

so not again not knowing if it was

599

00:32:50,960 --> 00:32:49,350

radioactive and if I was going to have

600

00:32:55,639 --> 00:32:50,970

to at some point just get rid of this

601  
00:32:58,549 --> 00:32:55,649  
thing I took one and put it into I mean

602  
00:33:02,779 --> 00:32:58,559  
it's a desert so it makes I think it

603  
00:33:05,899 --> 00:33:02,789  
would still be there but it was I put it

604  
00:33:10,009 --> 00:33:05,909  
into a little bit of a cavern under some

605  
00:33:13,039 --> 00:33:10,019  
rocks and of course the markings that I

606  
00:33:17,839 --> 00:33:13,049  
did wouldn't be there now but I visually

607  
00:33:19,580 --> 00:33:17,849  
had things that I still remember and I

608  
00:33:21,680 --> 00:33:19,590  
brought the one that was in the worst

609  
00:33:23,389 --> 00:33:21,690  
condition because I thought if I have to

610  
00:33:25,549 --> 00:33:23,399  
get rid of it I would rather have the

611  
00:33:27,589 --> 00:33:25,559  
good condition one back here I probably

612  
00:33:28,639 --> 00:33:27,599  
in retrospect since it worked out and I

613  
00:33:29,539 --> 00:33:28,649

didn't have to throw it away I should

614

00:33:33,830 --> 00:33:29,549

have brought the good one

615

00:33:39,409 --> 00:33:33,840

however the glove was made of some sort

616

00:33:42,469 --> 00:33:39,419

of a hide it had a pressure valve on the

617

00:33:43,089 --> 00:33:42,479

outside on the back above the back side

618

00:33:47,269 --> 00:33:43,099

of the hand

619

00:33:50,479 --> 00:33:47,279

the zipper literally worked from the

620

00:33:53,810 --> 00:33:50,489

inside of the glove it had something

621

00:33:57,469 --> 00:33:53,820

very similar to Nomex which is what we

622

00:34:00,109 --> 00:33:57,479

had as our you know gloves that if there

623

00:34:01,369 --> 00:34:00,119

was a fire of Nomex would not that it

624

00:34:07,039 --> 00:34:01,379

would keep you from burning but it

625

00:34:10,579 --> 00:34:07,049

wouldn't melt on you and the size as you

626

00:34:12,919 --> 00:34:10,589

have pictured there it was so small

627

00:34:17,000 --> 00:34:12,929

there's no way that it could have been a

628

00:34:19,069 --> 00:34:17,010

human hand and the way the thumb was it

629

00:34:21,950 --> 00:34:19,079

was a prehensile thumb but it was quite

630

00:34:24,770 --> 00:34:21,960

separated from the fingers so it was

631

00:34:27,260 --> 00:34:24,780

very interesting that glove I actually

632

00:34:30,409 --> 00:34:27,270

had some people from NASA take a look at

633

00:34:31,909 --> 00:34:30,419

and didn't think I was ever going to get

634

00:34:34,879 --> 00:34:31,919

it back but they did bring it back to me

635

00:34:37,659 --> 00:34:34,889

and they said they could not they could

636

00:34:41,329 --> 00:34:37,669

not determine the origin of the glove

637

00:34:44,539 --> 00:34:41,339

now if I recall it correctly John were

638

00:34:45,770 --> 00:34:44,549

you not set to show that club in a

639

00:34:50,899 --> 00:34:45,780

public

640

00:34:54,409 --> 00:34:50,909

the opening of Close Encounters yes okay

641

00:34:56,119 --> 00:34:54,419

and and what happened there I'm not

642

00:34:58,490 --> 00:34:56,129

really sure what happened you know this

643

00:35:01,670 --> 00:34:58,500

was before the age of cell phones and

644

00:35:05,000 --> 00:35:01,680

internet and all the other things but it

645

00:35:09,950 --> 00:35:05,010

it did not you know there was some some

646

00:35:11,980 --> 00:35:09,960

filming but it didn't happen there were

647

00:35:16,370 --> 00:35:11,990

several things that happen from the run

648

00:35:18,140 --> 00:35:16,380

the story of Forrest Gump they came and

649

00:35:21,040 --> 00:35:18,150

interviewed me in California then they

650

00:35:23,450 --> 00:35:21,050

came to my location here in Florida

651

00:35:27,200 --> 00:35:23,460

interviewed me a quite a few times

652

00:35:29,360 --> 00:35:27,210

promised me the moon never delivered any

653

00:35:31,430 --> 00:35:29,370

of that did make a nice movie and it's

654

00:35:33,230 --> 00:35:31,440

quite popular and in fact in a lot of

655

00:35:37,040 --> 00:35:33,240

places people call me Forrest Gump

656

00:35:40,070 --> 00:35:37,050

because I used the articles from my run

657

00:35:42,050 --> 00:35:40,080

when I give talks on health and

658

00:35:45,110 --> 00:35:42,060

nutrition and motivation and inspiration

659

00:35:47,000 --> 00:35:45,120

so that's kind of a nickname that

660

00:35:51,620 --> 00:35:47,010

they've given me on all kinds of things

661

00:35:54,620 --> 00:35:51,630

but the the beauty of that glove was it

662

00:35:56,960 --> 00:35:54,630

was so unique and I wasn't trying to do

663

00:35:59,090 --> 00:35:56,970

I mean in other words I wasn't trying to

664

00:36:01,820 --> 00:35:59,100

gain anything from it I was trying to

665

00:36:07,160 --> 00:36:01,830

share the glove I mean it wasn't like I

666

00:36:09,560 --> 00:36:07,170

was trying to make a million bucks on

667

00:36:11,150 --> 00:36:09,570

the glove I I was so impressed with it

668

00:36:15,250 --> 00:36:11,160

and it was so shared and what we were

669

00:36:17,870 --> 00:36:15,260

doing was trying to raise money for

670

00:36:20,390 --> 00:36:17,880

health and nutrition companies you know

671

00:36:23,030 --> 00:36:20,400

Linus Pauling and Barclays Health

672

00:36:27,380 --> 00:36:23,040

Institute and a few others so it wasn't

673

00:36:30,020 --> 00:36:27,390

a matter of any of that so I you know in

674

00:36:32,990 --> 00:36:30,030

retrospect I I probably should have

675

00:36:37,670 --> 00:36:33,000

handled it differently but it was not a

676

00:36:40,160 --> 00:36:37,680

part of the plan so it it wasn't and it

677

00:36:42,350 --> 00:36:40,170

it's just an impressive glove I mean

678

00:36:44,450 --> 00:36:42,360

when you hold it it's like you

679

00:36:44,720 --> 00:36:44,460

understand that it is not from Planet

680

00:36:47,750 --> 00:36:44,730

Earth

681

00:36:50,690 --> 00:36:47,760

I mean you can't look at that and see

682

00:36:54,740 --> 00:36:50,700

how it was made and see how detailed

683

00:36:56,990 --> 00:36:54,750

everything is and yet there's no hand

684

00:37:01,520 --> 00:36:57,000

that would fit it that could be used for

685

00:37:04,220 --> 00:37:01,530

any particular reason that we know I

686

00:37:08,450 --> 00:37:04,230

mean well there is there there is a

687

00:37:18,140 --> 00:37:08,460

punch slide for the glove what is

688

00:37:19,460 --> 00:37:18,150

embroidered in the glove yes would you

689

00:37:22,160 --> 00:37:19,470

say embroidered you're not talking about

690

00:37:23,330 --> 00:37:22,170

words right yes words yeah well I don't

691

00:37:24,830 --> 00:37:23,340

know I don't know whether it was written

692

00:37:27,710 --> 00:37:24,840

now you know I don't know how I don't

693

00:37:31,180 --> 00:37:27,720

remember how it was put there but but

694

00:37:36,680 --> 00:37:31,190

yeah it was basically like I heat him

695

00:37:39,950 --> 00:37:36,690

implant in the inside the glove was a

696

00:37:42,320 --> 00:37:39,960

bladder a pressure bladder that was what

697

00:37:44,960 --> 00:37:42,330

that valve on the back of the hand was

698

00:37:47,180 --> 00:37:44,970

so that if someone put that on their

699

00:37:49,850 --> 00:37:47,190

hand they could keep pressure on their

700

00:37:55,570 --> 00:37:49,860

hand in an outer space environment where

701

00:37:59,000 --> 00:37:55,580

there was zero pressure inside that

702

00:38:01,220 --> 00:37:59,010

bladder below them you know between the

703

00:38:04,460 --> 00:38:01,230

bladder the bladder was right below the

704

00:38:07,910 --> 00:38:04,470

leather and then below that was the

705

00:38:09,560 --> 00:38:07,920

Nomex interior lining and there were

706

00:38:11,510 --> 00:38:09,570

several things that were written but

707

00:38:15,620 --> 00:38:11,520

they're not were not letters that I

708

00:38:17,570 --> 00:38:15,630

could actually read it was there were

709

00:38:20,120 --> 00:38:17,580

emblems and I'm sure that someone could

710

00:38:23,660 --> 00:38:20,130

read them at some planetary level but I

711

00:38:28,610 --> 00:38:23,670

don't know exactly what they were but it

712

00:38:30,440 --> 00:38:28,620

was it was just it was a phenomenal find

713

00:38:36,050 --> 00:38:30,450

I mean I don't even know how else to

714

00:38:38,600 --> 00:38:36,060

describe it except to say that well was

715

00:38:41,480 --> 00:38:38,610

what was the word the word that was

716

00:38:44,410 --> 00:38:41,490

imprinted there that you could read the

717

00:38:47,660 --> 00:38:44,420

only one that I could read was secure

718

00:38:50,990 --> 00:38:47,670

that was okay wasn't the word large

719

00:38:54,400 --> 00:38:51,000

there yes it was large you're right that

720

00:38:59,210 --> 00:38:54,410

had that too and if so in other words

721

00:39:02,480 --> 00:38:59,220

whatever race this came from my glove

722

00:39:06,530 --> 00:39:02,490

that would have been one-third the size

723

00:39:08,360 --> 00:39:06,540

of my hand roughly maybe 40% at the most

724

00:39:11,430 --> 00:39:08,370

yeah yeah and and the dollar bill was

725

00:39:14,160 --> 00:39:11,440

bigger than the the glove or just about

726

00:39:18,150 --> 00:39:14,170

longer than it well that boggles that

727

00:39:20,430 --> 00:39:18,160

boggles the mind I mean okay even if it

728

00:39:23,460 --> 00:39:20,440

were possible that a glove could shrink

729

00:39:28,020 --> 00:39:23,470

and I'm asked o j-- a Simpson that

730

00:39:32,940 --> 00:39:28,030

perhaps but what's up or ooj alien maybe

731

00:39:35,370 --> 00:39:32,950

but were yeah well I mean like it can't

732

00:39:38,790 --> 00:39:35,380

shrink that much and and even though

733

00:39:41,190 --> 00:39:38,800

even they first of all you say ballet it

734

00:39:45,450 --> 00:39:41,200

did that fit the description of what a

735

00:39:48,360 --> 00:39:45,460

primate water could have worn but even

736

00:39:50,370 --> 00:39:48,370

if it was how could you unzip it from

737

00:39:53,460 --> 00:39:50,380

the inside

738

00:39:56,850 --> 00:39:53,470

yeah unless you could turn it inside out

739

00:40:01,170 --> 00:39:56,860

or something to that to that effect it

740

00:40:05,210 --> 00:40:01,180

actually owned the only zipper which was

741

00:40:09,360 --> 00:40:05,220

only inside there was a pole lanyard so

742

00:40:12,060 --> 00:40:09,370

you could use that language pull it on

743

00:40:14,280 --> 00:40:12,070

and it kind of had the effect you know

744

00:40:16,470 --> 00:40:14,290

at the time velcro wasn't something we

745

00:40:18,930 --> 00:40:16,480

really had we don't have it I don't know

746

00:40:20,610 --> 00:40:18,940

flightless but it wasn't something that

747

00:40:24,300 --> 00:40:20,620

everybody thought about but it had

748

00:40:26,370 --> 00:40:24,310

something similar to velcro so that for

749

00:40:29,130 --> 00:40:26,380

example you could put a flight suit on

750

00:40:30,720 --> 00:40:29,140

it and velcro it to it but prior to

751

00:40:35,130 --> 00:40:30,730

doing that you could use that pole

752

00:40:39,210 --> 00:40:35,140

lanyard and close it up well now don't

753

00:40:43,440 --> 00:40:39,220

you well Illi agree more than the pretty

754

00:40:46,650 --> 00:40:43,450

impressive darn right in impressive I

755

00:40:49,500 --> 00:40:46,660

would say in in this field you know like

756

00:40:51,210 --> 00:40:49,510

I say you physical evidence a hard

757

00:40:54,270 --> 00:40:51,220

physical evidence is something like an

758

00:40:59,040 --> 00:40:54,280

alien artifact is almost impossible to

759

00:41:01,560 --> 00:40:59,050

to come by and always in dispute I mean

760

00:41:04,140 --> 00:41:01,570

there were something so strange and so

761

00:41:08,400 --> 00:41:04,150

peculiar about this that it almost a

762

00:41:11,700 --> 00:41:08,410

sense the chills up and down one's spine

763

00:41:14,400 --> 00:41:11,710

but okay so here's the here's the glove

764

00:41:16,650 --> 00:41:14,410

we don't know who it belong

765

00:41:18,930 --> 00:41:16,660

belonged to but wouldn't you think that

766

00:41:20,190 --> 00:41:18,940

might indicate since the the words are

767

00:41:22,410 --> 00:41:20,200

at least one of them are two of them

768

00:41:25,230 --> 00:41:22,420

were in English

769

00:41:27,480 --> 00:41:25,240

it had five fingers correct it had five

770

00:41:32,190 --> 00:41:27,490

fingers four fingers and a thumb yeah

771

00:41:34,289 --> 00:41:32,200

okay that I mean what an alien race be

772

00:41:36,930 --> 00:41:34,299

that close to us that they would have a

773

00:41:40,049 --> 00:41:36,940

glove and have four fingers and

774

00:41:42,030 --> 00:41:40,059

something else it would indicate to me

775

00:41:44,190 --> 00:41:42,040

that we might be talking about something

776

00:41:46,190 --> 00:41:44,200

from the future or something from a

777

00:41:49,200 --> 00:41:46,200

parallel universe

778

00:41:49,680 --> 00:41:49,210

you know I've certainly given a parallel

779

00:41:53,010 --> 00:41:49,690

universe

780

00:41:58,920 --> 00:41:53,020

many many many thoughts the idea of an

781

00:42:01,319 --> 00:41:58,930

alien is truly when I was holding this

782

00:42:04,319 --> 00:42:01,329

club then first of all it there were two

783

00:42:06,980 --> 00:42:04,329

of them so one was almost perfect the

784

00:42:10,049 --> 00:42:06,990

other one had gotten a little bit

785

00:42:12,990 --> 00:42:10,059

obviously from the crash it had gotten a

786

00:42:15,839 --> 00:42:13,000

little bit not really burned but it had

787

00:42:18,089 --> 00:42:15,849

been heated and altered and that's the

788

00:42:21,510 --> 00:42:18,099

one that I brought but the other one was

789

00:42:23,520 --> 00:42:21,520

nearly perfect and so they were

790

00:42:26,819 --> 00:42:23,530

basically the same size so it didn't

791

00:42:29,280 --> 00:42:26,829

shrink unless they both shrank at the

792

00:42:31,470 --> 00:42:29,290

same time which I somewhat doubt that

793

00:42:33,120 --> 00:42:31,480

could happen to me maybe maybe a few

794

00:42:36,240 --> 00:42:33,130

percent from the heat but I couldn't

795

00:42:40,640 --> 00:42:36,250

imagine but what it seemed to me you

796

00:42:43,559 --> 00:42:40,650

know when you anytime you see even from

797

00:42:46,260 --> 00:42:43,569

any of the movies where they show the

798

00:42:50,160 --> 00:42:46,270

little alien creatures and whatever back

799

00:42:54,390 --> 00:42:50,170

you know all that it's always like they

800

00:42:56,549 --> 00:42:54,400

show the fingers that are longer and the

801  
00:43:01,770 --> 00:42:56,559  
films are further apart the pencil some

802  
00:43:05,339 --> 00:43:01,780  
is further back and so it it really

803  
00:43:07,859 --> 00:43:05,349  
looked like that sort of a small hand

804  
00:43:11,339 --> 00:43:07,869  
with fingers that were large for the

805  
00:43:16,349 --> 00:43:11,349  
hand although small for the overall it

806  
00:43:18,390 --> 00:43:16,359  
was just even just to hold it and I have

807  
00:43:21,839 --> 00:43:18,400  
been meditating since I was 11 and

808  
00:43:24,599 --> 00:43:21,849  
energy is very critical in meditation

809  
00:43:26,010 --> 00:43:24,609  
you you hold that glove and you could

810  
00:43:28,470 --> 00:43:26,020  
feel it I don't know if you remember

811  
00:43:31,280 --> 00:43:28,480  
that but even after all I it had been

812  
00:43:34,799 --> 00:43:31,290  
through when you held that glove it had

813  
00:43:35,950 --> 00:43:34,809

like an energy of its own it was well

814

00:43:40,480 --> 00:43:35,960

we've got a break

815

00:43:40,900 --> 00:43:40,490

if we have a few minutes here okay now

816

00:43:43,870 --> 00:43:40,910

all right

817

00:43:46,410 --> 00:43:43,880

so this is like I figured this for one

818

00:43:49,870 --> 00:43:46,420

of the strangest things that I've ever

819

00:43:54,970 --> 00:43:49,880

come across and I haven't talked to you

820

00:43:58,600 --> 00:43:54,980

since 1979 or 1990s a heck of a span do

821

00:44:01,420 --> 00:43:58,610

you still have the glove unfortunately I

822

00:44:06,340 --> 00:44:01,430

believe that the glove

823

00:44:08,800 --> 00:44:06,350

I had a divorce and it wasn't a as

824

00:44:09,490 --> 00:44:08,810

divorces aren't they weren't it wasn't

825

00:44:12,220 --> 00:44:09,500

very good

826  
00:44:15,670 --> 00:44:12,230  
and a lot of things disappeared and I'm

827  
00:44:19,270 --> 00:44:15,680  
pretty sure that went with the ex she

828  
00:44:23,320 --> 00:44:19,280  
says not but I'm pretty sure that's

829  
00:44:24,910 --> 00:44:23,330  
where it is I have been wanting to go

830  
00:44:28,800 --> 00:44:24,920  
back I have so many friends who say

831  
00:44:32,410 --> 00:44:28,810  
let's get the other one and I have not

832  
00:44:34,420 --> 00:44:32,420  
but I you know what you know do you know

833  
00:44:35,650 --> 00:44:34,430  
where it is I don't don't tell us the

834  
00:44:38,500 --> 00:44:35,660  
closest town because there'll be a

835  
00:44:41,800 --> 00:44:38,510  
hundred people out there too tomorrow

836  
00:44:43,630 --> 00:44:41,810  
but but do you know what did you ever do

837  
00:44:46,720 --> 00:44:43,640  
any research on that on that railroad

838  
00:44:48,160 --> 00:44:46,730

trestle or whatever that was no because

839

00:44:51,100 --> 00:44:48,170

at the time like I said we had no

840

00:44:53,650 --> 00:44:51,110

internet we had you know nothing that

841

00:44:54,820 --> 00:44:53,660

you could really do a search on however

842

00:45:05,710 --> 00:44:54,830

I

843

00:45:07,510 --> 00:45:05,720

there

844

00:45:10,000 --> 00:45:07,520

well you know we have on the other on

845

00:45:13,990 --> 00:45:10,010

the other line here a man who lives or

846

00:45:15,670 --> 00:45:14,000

our fellow guest who lives in Arizona I

847

00:45:18,550 --> 00:45:15,680

don't know how far that would be a way

848

00:45:22,240 --> 00:45:18,560

he's in the town of Kingman how far that

849

00:45:26,740 --> 00:45:22,250

would be away but maybe we can put out a

850

00:45:29,410 --> 00:45:26,750

message to the universe to collect a few

851

00:45:38,560 --> 00:45:29,420

dollars towards transportation unless

852

00:45:41,950 --> 00:45:38,570

you want to run if we could find a good

853

00:45:45,250 --> 00:45:41,960

charity to do it to give the funds to

854

00:45:47,950 --> 00:45:45,260

but you know I mean we should find the

855

00:45:49,840 --> 00:45:47,960

the other the other glove before it

856

00:45:53,530 --> 00:45:49,850

dissolves with the

857

00:45:56,290 --> 00:45:53,540

you know with the the sand and the the

858

00:45:59,320 --> 00:45:56,300

ages and and so forth

859

00:46:02,050 --> 00:45:59,330

but now was it was the object the crash

860

00:46:06,580 --> 00:46:02,060

whatever it was I mean do you feel that

861

00:46:08,710 --> 00:46:06,590

that was something from outer space well

862

00:46:14,470 --> 00:46:08,720

I can tell you that knowing a lot about

863

00:46:17,200 --> 00:46:14,480

aviation we don't have any the Plexiglas

864

00:46:19,780 --> 00:46:17,210

and I think probably in retrospect it

865

00:46:25,540 --> 00:46:19,790

was wasn't Plexiglas it would probably

866

00:46:28,420 --> 00:46:25,550

be more like like a metal impregnated

867

00:46:30,850 --> 00:46:28,430

plastic but you couldn't break it it was

868

00:46:36,760 --> 00:46:30,860

blue which we don't use in our aircraft

869

00:46:39,550 --> 00:46:36,770

windows it was the the wing portion that

870

00:46:41,800 --> 00:46:39,560

I found like I said it was probably

871

00:46:43,510 --> 00:46:41,810

somewhere around six or seven maybe

872

00:46:46,150 --> 00:46:43,520

eight feet long I don't remember exactly

873

00:46:48,250 --> 00:46:46,160

now because I never had a measuring

874

00:46:53,100 --> 00:46:48,260

device with me but I I know that it was

875

00:46:57,490 --> 00:46:53,110

taller than me and it was so strong that

876

00:47:00,820 --> 00:46:57,500

literally I put it between two rocks and

877

00:47:03,070 --> 00:47:00,830

I sat on it it didn't it would a little

878

00:47:06,610 --> 00:47:03,080

bit but it didn't didn't collapse I

879

00:47:09,340 --> 00:47:06,620

could hold it by using two fingers on

880

00:47:16,090 --> 00:47:09,350

one end I could hold it at a horizontal

881

00:47:19,770 --> 00:47:16,100

position and yet it was that size so you

882

00:47:23,020 --> 00:47:19,780

know we have the our wings are made with

883

00:47:27,340 --> 00:47:23,030

you know we have titanium we have all

884

00:47:30,040 --> 00:47:27,350

sorts of materials that are making it

885

00:47:30,460 --> 00:47:30,050

strong but yet light but nothing like

886

00:47:34,120 --> 00:47:30,470

that

887

00:47:35,830 --> 00:47:34,130

nothing at all inhale now you saw just

888

00:47:38,320 --> 00:47:35,840

the the wind or do you think that was

889

00:47:40,150 --> 00:47:38,330

the entire object oh there was other

890

00:47:42,250 --> 00:47:40,160

pieces there bersama

ghosts Lost Worlds cryptozoology waters

903  
00:48:33,440 --> 00:48:28,980  
as well as other dimensions it's time to

904  
00:48:35,720 --> 00:48:33,450  
take back the night now your

electrifying hosts of exploring the

906  
00:48:47,600 --> 00:48:45,680  
all right welcome back to the second

907  
00:48:50,570 --> 00:48:47,610  
hour of exploring the bizarre I'm Tim

908  
00:48:55,700 --> 00:48:50,580  
Schwarz tonight our guests are Harry

909  
00:48:57,680 --> 00:48:55,710  
Drew and John Peel and Harry in in just

910  
00:49:00,280 --> 00:48:57,690  
a little bit I I know that you probably

911  
00:49:03,830 --> 00:49:00,290  
have some some great questions to ask

912  
00:49:05,780 --> 00:49:03,840  
John or other guests but you know I just

913  
00:49:07,250 --> 00:49:05,790

I wanted to ask you just a couple of

914

00:49:12,170 --> 00:49:07,260

things about the story that you were

915

00:49:19,120 --> 00:49:12,180

saying about the the the burnt men in in

916

00:49:23,960 --> 00:49:19,130

kingman now this was not the first time

917

00:49:28,040 --> 00:49:23,970

that there had been some kind of out of

918

00:49:30,460 --> 00:49:28,050

out of the place men in that area by

919

00:49:33,530 --> 00:49:30,470

correct that's correct

920

00:49:37,430 --> 00:49:33,540

what's uh what was the what was the

921

00:49:43,490 --> 00:49:37,440

story that had happened a few years

922

00:49:45,410 --> 00:49:43,500

earlier was like it was a 1947 yes okay

923

00:49:48,380 --> 00:49:45,420

why don't you tell us about that wood

924

00:49:50,570 --> 00:49:48,390

and and and whether or not you feel that

925

00:49:53,990 --> 00:49:50,580

there's any connection between the two

926

00:49:57,650 --> 00:49:54,000

there's an accident there is it there's a

927

00:50:00,380 --> 00:49:57,660

connection with what the three separate

928

00:50:10,700 --> 00:50:06,400

the 1947 1950 in 1953 and and maybe 54

929

00:50:13,520 --> 00:50:10,710

mm-hmm looks like and I'm interviewing

930

00:50:19,760 --> 00:50:13,530

someone right now a century family

931

00:50:20,360 --> 00:50:19,770

member for 1952 so it's like I can't

932

00:50:24,710 --> 00:50:20,370

keep up

933

00:50:28,280 --> 00:50:24,720

I didn't expect really to find the thing

934

00:50:34,730 --> 00:50:28,290

for 53 but I found more than I could

935

00:50:40,690 --> 00:50:34,740

believe anyway 1947 before Roswell in

936

00:50:45,470 --> 00:50:43,700

two men are coming back from Las Vegas

937

00:50:49,280 --> 00:50:45,480

they've been at a business meeting and

938

00:50:51,740 --> 00:50:49,290

of they're on a private aircraft to

939

00:50:55,610 --> 00:50:51,750

passenger the pilots a businessman and

940

00:50:58,370 --> 00:50:55,620

his partner there are 600 feet above the

941

00:51:00,680 --> 00:50:58,380

ground they're on approached to the

942

00:51:01,880 --> 00:51:00,690

airport at Kingman which is no longer a

943

00:51:07,280 --> 00:51:01,890

military base

944

00:51:10,280 --> 00:51:07,290

it closed forever on August 1945 Army

945

00:51:12,320 --> 00:51:10,290

Air Corps left and it was handed over to

946

00:51:17,390 --> 00:51:12,330

Mojave County so they're coming into the

947

00:51:23,060 --> 00:51:17,400

airport and they're set upon by multiple

948

00:51:26,060 --> 00:51:23,070

UFOs to the point the pilot was flashing

949

00:51:32,080 --> 00:51:26,070

his lights trying to get the craft if

950

00:51:34,040 --> 00:51:32,090

you're off and they didn't and they both

951  
00:51:36,850 --> 00:51:34,050  
expected that they were going to die

952  
00:51:38,980 --> 00:51:36,860  
they were having air to ground

953  
00:51:41,810 --> 00:51:38,990  
communications with the Radio Shack

954  
00:51:45,200 --> 00:51:41,820  
because the tower had been closed since

955  
00:51:46,610 --> 00:51:45,210  
June of 1945 and everything that was in

956  
00:51:49,550 --> 00:51:46,620  
the tower had been removed including

957  
00:51:51,200 --> 00:51:49,560  
that radar p IP screens and the whole

958  
00:51:55,220 --> 00:51:51,210  
thing was just piled in a pile and

959  
00:51:59,540 --> 00:51:55,230  
destroyed and so they had a radio shack

960  
00:52:03,650 --> 00:51:59,550  
and the two guys in the planes heap the

961  
00:52:08,950 --> 00:52:03,660  
the pilot broke off from his approach on

962  
00:52:13,700 --> 00:52:08,960  
landing and two of these discs

963  
00:52:15,410 --> 00:52:13,710

came straight at him and and then and

964

00:52:19,160 --> 00:52:15,420

I'm trying to think of the movie I saw

965

00:52:23,299 --> 00:52:19,170

this and later you have to remember this

966

00:52:25,579 --> 00:52:23,309

is in the 1947 newspaper okay so it

967

00:52:30,640 --> 00:52:25,589

isn't like they saw the movie 30 years

968

00:52:35,299 --> 00:52:30,650

later and and and just before impact

969

00:52:36,859 --> 00:52:35,309

each disc went out away from them and

970

00:52:39,130 --> 00:52:36,869

then closed back up again as they went

971

00:52:45,259 --> 00:52:39,140

by mmm just like that

972

00:52:48,829 --> 00:52:45,269

this is front page and the Sparky or

973

00:52:53,210 --> 00:52:48,839

whoever they're at the Radio Shack got

974

00:52:57,529 --> 00:52:53,220

ahold of a local reporter and it wasn't

975

00:52:59,620 --> 00:52:57,539

that big of a deal to drive out and so

976

00:53:01,549 --> 00:52:59,630

there was a reporter on the ground

977

00:53:04,160 --> 00:53:01,559

trying to talk to these guys when they

978

00:53:05,809 --> 00:53:04,170

finally they finally came around and

979

00:53:08,150 --> 00:53:05,819

made the approach again and landed and

980

00:53:10,519 --> 00:53:08,160

it's almost like kiss the ground then

981

00:53:13,400 --> 00:53:10,529

they started asking did you say that's

982

00:53:18,469 --> 00:53:13,410

that few no it's like oh my god yes but

983

00:53:21,890 --> 00:53:18,479

these things came from for us here they

984

00:53:25,749 --> 00:53:21,900

came from the southeast the east okay

985

00:53:29,299 --> 00:53:25,759

and the significance there is I see

986

00:53:30,979 --> 00:53:29,309

ah-64 helicopters they fly over my my

987

00:53:34,729 --> 00:53:30,989

desert horse property where I am okay

988

00:53:39,589 --> 00:53:34,739

and the single file and they're low and

989

00:53:41,450 --> 00:53:39,599

a loaded big rotor truck okay how do I

990

00:53:44,930 --> 00:53:41,460

know that I've been in I'm lightened and

991

00:53:47,499 --> 00:53:44,940

not and Huey's the same way I think

992

00:53:53,539 --> 00:53:47,509

probably John's been in a few here he's

993

00:53:55,249 --> 00:53:53,549

that and they fly single-file low come

994

00:53:57,799 --> 00:53:55,259

right over my property I've got photos

995

00:54:01,489 --> 00:53:57,809

of all this stuff chute burst shots with

996

00:54:04,729 --> 00:54:01,499

a Nikon and I mean I got photos that I

997

00:54:08,209 --> 00:54:04,739

never expected to get an ax and I've not

998

00:54:13,039 --> 00:54:08,219

shown anyone but there are discs still

999

00:54:16,450 --> 00:54:13,049

okay mm-hmm and not blurry shots these

1000

00:54:19,999 --> 00:54:16,460

are like as clear as the helicopters and

1001  
00:54:21,470 --> 00:54:20,009  
as they fly right straight to where the

1002  
00:54:27,700 --> 00:54:21,480  
base is

1003  
00:54:30,440 --> 00:54:27,710  
okay the old-timers have since told me

1004  
00:54:32,030 --> 00:54:30,450  
pleaded with me and reasoned with me not

1005  
00:54:35,000 --> 00:54:32,040  
to try to go there because of some

1006  
00:54:38,000 --> 00:54:35,010  
problems and disappearances and people

1007  
00:54:39,609 --> 00:54:38,010  
for not dead a lot of things then for

1008  
00:54:45,380 --> 00:54:39,619  
people who try to get to this place

1009  
00:54:48,770 --> 00:54:45,390  
anyway there had already been some

1010  
00:54:51,710 --> 00:54:48,780  
things on the ground where it matched

1011  
00:54:56,480 --> 00:54:51,720  
what was talked about in 1953 and they

1012  
00:54:59,750 --> 00:54:56,490  
were quote strange looking men on

1013  
00:55:04,430 --> 00:54:59,760

quality mm-hmm and you know it's like a

1014

00:55:06,290 --> 00:55:04,440

reporter's description so you know they

1015

00:55:08,510 --> 00:55:06,300

are they aren't out-of-towners they

1016

00:55:10,370 --> 00:55:08,520

would have been mentioned that way along

1017

00:55:13,790 --> 00:55:10,380

with Henry bought himself a new pair of

1018

00:55:15,980 --> 00:55:13,800

shoes that at the local shoe store

1019

00:55:16,670 --> 00:55:15,990

because they talked about a lot of

1020

00:55:19,220 --> 00:55:16,680

different things

1021

00:55:22,640 --> 00:55:19,230

oh yeah small-town newspapers no no yeah

1022

00:55:24,500 --> 00:55:22,650

small - it's like Charlie's cousin came

1023

00:55:26,960 --> 00:55:24,510

to this is it last weekend yeah all

1024

00:55:29,090 --> 00:55:26,970

these things this is Mayberry and and

1025

00:55:32,120 --> 00:55:29,100

for everybody that ever gets involving

1026  
00:55:34,220 --> 00:55:32,130  
history doing research ins and that type

1027  
00:55:35,900 --> 00:55:34,230  
of thing you need to move middly you

1028  
00:55:39,800 --> 00:55:35,910  
need to move yourself back to that time

1029  
00:55:41,720 --> 00:55:39,810  
and stop thinking about using cell

1030  
00:55:43,750 --> 00:55:41,730  
phones and computers and and all of

1031  
00:55:50,630 --> 00:55:43,760  
these other things and these people were

1032  
00:55:53,090 --> 00:55:50,640  
intelligent and they were connected to

1033  
00:55:55,400 --> 00:55:53,100  
the earth more than then most of us are

1034  
00:55:59,690 --> 00:55:55,410  
ranchers and farmers were pretty much

1035  
00:56:02,120 --> 00:55:59,700  
that way still but but they were they

1036  
00:56:04,820 --> 00:56:02,130  
lived a simpler life and they didn't

1037  
00:56:06,620 --> 00:56:04,830  
have all this technology they'd have

1038  
00:56:09,440 --> 00:56:06,630

been overwhelmed with it and and in fact

1039

00:56:13,160 --> 00:56:09,450

this is part of it they were overwhelmed

1040

00:56:16,250 --> 00:56:13,170

by the technology because it was so far

1041

00:56:21,010 --> 00:56:16,260

ahead of where we are now let alone then

1042

00:56:25,359 --> 00:56:21,020

and so here we go it's in the newspaper

1043

00:56:28,430 --> 00:56:25,369

it's in the front page that the pilots

1044

00:56:31,550 --> 00:56:28,440

he refused he only talked he said I'll

1045

00:56:32,690 --> 00:56:31,560

just tell you this I don't need no bromo

1046

00:56:35,269 --> 00:56:32,700

that's a quote

1047

00:56:40,699 --> 00:56:35,279

bromo seltzer is like your

1048

00:56:46,249 --> 00:56:40,709

drinking okay I don't need no bromo you

1049

00:56:50,299 --> 00:56:46,259

know this stuff was like and this is

1050

00:56:55,659 --> 00:56:50,309

barely after Kenneth Arnold claim which

1051  
00:57:01,640 --> 00:56:55,669  
was a day later and the reports made

1052  
00:57:03,620 --> 00:57:01,650  
about the modern day first sighting you

1053  
00:57:07,459 --> 00:57:03,630  
know it just kind of expands and expands

1054  
00:57:10,759 --> 00:57:07,469  
even on that a personal friend of mine

1055  
00:57:13,279 --> 00:57:10,769  
who is now deceased and and business

1056  
00:57:16,399 --> 00:57:13,289  
associate for yours out of Pendleton

1057  
00:57:19,669 --> 00:57:16,409  
Oregon interviewed Kenneth Arnold for

1058  
00:57:27,829 --> 00:57:19,679  
three hours that evening of the 25th of

1059  
00:57:29,839 --> 00:57:27,839  
June 1947 at Arnold's hotel room you

1060  
00:57:32,659 --> 00:57:29,849  
know so and and and he had the radio

1061  
00:57:36,079 --> 00:57:32,669  
station that Arnold was on the next day

1062  
00:57:39,949 --> 00:57:36,089  
so anyway so I've been exposed to a lot

1063  
00:57:42,649 --> 00:57:39,959

of different things because of where I

1064

00:57:45,409 --> 00:57:42,659

was and who my friends were and my

1065

00:57:48,019 --> 00:57:45,419

profession this kind of thing and when I

1066

00:57:49,309 --> 00:57:48,029

do Joe you're your historian more than

1067

00:57:52,329 --> 00:57:49,319

anything else I mean you don't claim to

1068

00:57:54,380 --> 00:57:52,339

be a UFO researcher you've ya

1069

00:57:57,319 --> 00:57:54,390

investigated and doesn't work on other

1070

00:58:00,620 --> 00:57:57,329

historical things besides UFOs right I

1071

00:58:02,239 --> 00:58:00,630

was I made an international newspaper I

1072

00:58:06,969 --> 00:58:02,249

think it was an international it was a

1073

00:58:10,729 --> 00:58:06,979

national anyway newspaper in 1979 after

1074

00:58:12,409 --> 00:58:10,739

it isn't like I haven't seen UFOs they

1075

00:58:16,159 --> 00:58:12,419

said there's a difference you know it's

1076

00:58:18,259 --> 00:58:16,169

like I was a museum director and I don't

1077

00:58:22,999 --> 00:58:18,269

and I'm not going to be talking about

1078

00:58:25,399 --> 00:58:23,009

UFOs and I saw one in 1979 coming up

1079

00:58:29,299 --> 00:58:25,409

from the direction of Mount Shasta in

1080

00:58:30,620 --> 00:58:29,309

the evening and my oldest son was with

1081

00:58:33,499 --> 00:58:30,630

me and we're on the side of a mountain

1082

00:58:36,169 --> 00:58:33,509

with a telescope and this thing is the

1083

00:58:39,169 --> 00:58:36,179

same elevation we are at and it's

1084

00:58:40,880 --> 00:58:39,179

lighting up the ground as it came and I

1085

00:58:43,339 --> 00:58:40,890

and I called the Air Force and

1086

00:58:46,880 --> 00:58:43,349

identified who it was they passionate it

1087

00:58:49,070 --> 00:58:46,890

Seattle I talked to the guy on the p IP

1088

00:58:50,810 --> 00:58:49,080

screen and I said I think this

1089

00:58:53,450 --> 00:58:50,820

it's gonna go down around Diamond Lake

1090

00:58:55,670 --> 00:58:53,460

Oregon I did it do nori and he said no

1091

00:58:58,610 --> 00:58:55,680

it just went right by there you know

1092

00:59:00,890 --> 00:58:58,620

let's say yourself it's flying being far

1093

00:59:05,270 --> 00:59:00,900

and it's gigantic and it flew right by

1094

00:59:08,540 --> 00:59:05,280

us it like I level looking off the side

1095

00:59:10,840 --> 00:59:08,550

of the mountain so it's like I didn't

1096

00:59:15,020 --> 00:59:10,850

need any convincing my father's an

1097

00:59:17,000 --> 00:59:15,030

archaeologist so I kind of have you know

1098

00:59:21,010 --> 00:59:17,010

I was in digs when I was a kid that kind

1099

00:59:25,220 --> 00:59:21,020

of thing so I take everything

1100

00:59:26,720 --> 00:59:25,230

methodically and sometimes too slow for

1101

00:59:29,090 --> 00:59:26,730

some people but there isn't an

1102

00:59:31,130 --> 00:59:29,100

archaeologist I don't know that they can

1103

00:59:34,580 --> 00:59:31,140

walk away from a site without lifting

1104

00:59:39,100 --> 00:59:34,590

that last rock to look under it you know

1105

00:59:42,800 --> 00:59:39,110

and and so we find things that's like

1106

00:59:48,140 --> 00:59:42,810

finding the landing site with everything

1107

00:59:50,450 --> 00:59:48,150

the Air Force left there in situ never

1108

00:59:52,810 --> 00:59:50,460

been touched in over 60 years all the

1109

00:59:55,820 --> 00:59:52,820

substance they left behind including

1110

00:59:58,220 --> 00:59:55,830

identified will rare things that were

1111

01:00:01,400 --> 00:59:58,230

under government contract made one time

1112

01:00:04,070 --> 01:00:01,410

as an experiment oh there there you know

1113

01:00:06,950 --> 01:00:04,080

it's like arrowheads or the Clovis point

1114

01:00:11,000 --> 01:00:06,960

connected to Mastodon hunters or Ramnath

1115

01:00:13,790 --> 01:00:11,010

others actually now so with that I

1116

01:00:17,000 --> 01:00:13,800

listen to what John is saying and my

1117

01:00:20,680 --> 01:00:17,010

uncle Irv I was influenced of things

1118

01:00:24,700 --> 01:00:20,690

that I don't discuss and my uncle Irv

1119

01:00:28,070 --> 01:00:24,710

was involved in the space program and

1120

01:00:30,800 --> 01:00:28,080

and heat shields and a bunch in fact

1121

01:00:33,350 --> 01:00:30,810

developed and got a got a bonus

1122

01:00:39,400 --> 01:00:33,360

internally for developing a heat shield

1123

01:00:42,670 --> 01:00:39,410

that would work for like Germany

1124

01:00:45,519 --> 01:00:42,680

and when John when you described this

1125

01:00:49,200 --> 01:00:45,529

glove to me were you talking about a

1126  
01:00:55,870 --> 01:00:49,210  
zipper on the instep was actually inside

1127  
01:00:59,109 --> 01:00:55,880  
you know yeah actually it was not inside

1128  
01:00:59,829 --> 01:00:59,119  
what what would be very similar to our

1129  
01:01:04,089 --> 01:00:59,839  
Nomex

1130  
01:01:09,700 --> 01:01:04,099  
although it was thicker and I crazily

1131  
01:01:12,009 --> 01:01:09,710  
enough I took a match and tried to burn

1132  
01:01:16,059 --> 01:01:12,019  
a piece of that and it wouldn't burn so

1133  
01:01:19,440 --> 01:01:16,069  
I know it was sort of a no max come on

1134  
01:01:23,259 --> 01:01:19,450  
he the bladder was inside the leather

1135  
01:01:24,910 --> 01:01:23,269  
the leather and it was something and it

1136  
01:01:26,710 --> 01:01:24,920  
could have been something other than

1137  
01:01:29,529 --> 01:01:26,720  
leather I don't know but it felt like

1138  
01:01:33,640 --> 01:01:29,539

leather looked like it it was smooth on

1139

01:01:37,749 --> 01:01:33,650

one side kind of rough grainy on the

1140

01:01:40,509 --> 01:01:37,759

outside so the smooth side was in the

1141

01:01:42,240 --> 01:01:40,519

bladder that had the pressure capability

1142

01:01:45,839 --> 01:01:42,250

of went into all the fingers and some

1143

01:01:51,190 --> 01:01:45,849

and across the back of the palm and then

1144

01:01:53,769 --> 01:01:51,200

inside that was a string that would pull

1145

01:01:55,779 --> 01:01:53,779

and zip it and the that would leave the

1146

01:01:57,249 --> 01:01:55,789

Nomex on your hand the bladder was there

1147

01:02:00,329 --> 01:01:57,259

and it would close it up but it was

1148

01:02:03,039 --> 01:02:00,339

definitely an internal zipper and it was

1149

01:02:07,329 --> 01:02:03,049

pretty interesting I mean it wasn't like

1150

01:02:12,519 --> 01:02:07,339

the zippers we have that it did the same

1151

01:02:15,450 --> 01:02:12,529

thing but it was more today if for

1152

01:02:17,559 --> 01:02:15,460

example if you were to buy some of the

1153

01:02:20,170 --> 01:02:17,569

multicolored Peppers you'll find these

1154

01:02:24,130 --> 01:02:20,180

little zippers that slip across and have

1155

01:02:27,670 --> 01:02:24,140

no teeth but just seal and it was almost

1156

01:02:31,150 --> 01:02:27,680

that sort of a thing although it was

1157

01:02:33,249 --> 01:02:31,160

much stronger but it had no teeth it

1158

01:02:37,569 --> 01:02:33,259

just would feel it you could pull it and

1159

01:02:44,200 --> 01:02:41,589

to push it back of course at that point

1160

01:02:46,660 --> 01:02:44,210

it had been ripped off of someone's hand

1161

01:02:48,670 --> 01:02:46,670

pretty much I'm sure but you could use

1162

01:02:50,890 --> 01:02:48,680

your finger and slide it back down and

1163

01:02:54,579 --> 01:02:50,900

open it up again like as

1164

01:02:58,029 --> 01:02:54,589

like a ziploc bag almost yeah it was

1165

01:03:03,510 --> 01:02:58,039

very it was very different and I mean I

1166

01:03:07,539 --> 01:03:03,520

had people from several of the space

1167

01:03:08,710 --> 01:03:07,549

development teams look at that everybody

1168

01:03:10,420 --> 01:03:08,720

was impressed

1169

01:03:13,089 --> 01:03:10,430

nobody could decide where it came from

1170

01:03:14,950 --> 01:03:13,099

and they all said that it did not appear

1171

01:03:21,779 --> 01:03:14,960

to have been made by anybody in a

1172

01:03:31,990 --> 01:03:27,940

if that was large you can only imagine

1173

01:03:34,480 --> 01:03:32,000

what small would have been yeah where

1174

01:03:36,940 --> 01:03:34,490

did anybody anybody ever approached you

1175

01:03:39,599 --> 01:03:36,950

you know we hear stories of the men in

1176

01:03:42,180 --> 01:03:39,609

black and people to try the silenced UFO

1177

01:03:44,620 --> 01:03:42,190

witnesses and people who have evidence

1178

01:03:49,120 --> 01:03:44,630

anybody ever tried to make a grab for

1179

01:03:51,849 --> 01:03:49,130

this thing or use any type of false ID

1180

01:03:54,760 --> 01:03:51,859

to indicate that they were somebody that

1181

01:03:56,769 --> 01:03:54,770

they really weren't I I did not have

1182

01:03:59,200 --> 01:03:56,779

that experience that I'm aware of

1183

01:04:02,019 --> 01:03:59,210

however you don't know but everybody

1184

01:04:04,390 --> 01:04:02,029

brought it back and I know it was the

1185

01:04:05,079 --> 01:04:04,400

same one that came back because it's

1186

01:04:09,760 --> 01:04:05,089

very unique

1187

01:04:11,740 --> 01:04:09,770

you couldn't duplicate that but when

1188

01:04:13,750 --> 01:04:11,750

they came back they were they came back

1189

01:04:15,609 --> 01:04:13,760

more than any other reasons they didn't

1190

01:04:17,200 --> 01:04:15,619

no one ever brought it back at the time

1191

01:04:19,450 --> 01:04:17,210

they said they would they all kept it

1192

01:04:21,150 --> 01:04:19,460

longer than they said and I expected I

1193

01:04:23,920 --> 01:04:21,160

was not gonna get it back quite frankly

1194

01:04:25,779 --> 01:04:23,930

that's a mess of run that's a rough call

1195

01:04:28,349 --> 01:04:25,789

I don't think I would I don't think I

1196

01:04:32,819 --> 01:04:28,359

would have let that out of my hand yeah

1197

01:04:35,319 --> 01:04:32,829

but you know they had obviously they had

1198

01:04:37,690 --> 01:04:35,329

IDs and identification that made me

1199

01:04:41,609 --> 01:04:37,700

think that they were legit but the the

1200

01:04:44,380 --> 01:04:41,619

real difference was when they came back

1201  
01:04:45,910 --> 01:04:44,390  
more than any other reason they came

1202  
01:04:49,650 --> 01:04:45,920  
back with that glove because they had

1203  
01:04:55,480 --> 01:04:51,910  
anything in writing for many of these

1204  
01:04:58,870 --> 01:04:55,490  
people not a single one I even asked

1205  
01:05:01,450 --> 01:04:58,880  
that I said can you they said no we

1206  
01:05:03,099 --> 01:05:01,460  
can't answer those questions and they

1207  
01:05:04,839 --> 01:05:03,109  
didn't have the answer that's the point

1208  
01:05:07,779 --> 01:05:04,849  
and that's what was

1209  
01:05:10,870 --> 01:05:07,789  
cool about this glove I mean the people

1210  
01:05:12,940 --> 01:05:10,880  
who would hold it he and Tim maybe

1211  
01:05:14,650 --> 01:05:12,950  
remember but people would hold it and

1212  
01:05:19,960 --> 01:05:14,660  
say who it's just like my hands are

1213  
01:05:25,089 --> 01:05:19,970

telling yeah yeah for sure yeah now what

1214

01:05:29,950 --> 01:05:25,099

what year did it disappear that would

1215

01:05:31,749 --> 01:05:29,960

have been about 1980 it was earlier than

1216

01:05:36,219 --> 01:05:31,759

that that you came down it was actually

1217

01:05:39,609 --> 01:05:36,229

I think we came down in 70 late 78 early

1218

01:05:42,930 --> 01:05:39,619

79 well I sure would like to recover the

1219

01:05:46,749 --> 01:05:42,940

the photographs do you have any pictures

1220

01:05:49,479 --> 01:05:46,759

no I don't unfortunately as I say we you

1221

01:05:51,249 --> 01:05:49,489

know I if if that entire run had been

1222

01:05:53,920 --> 01:05:51,259

done in today's world I would have a

1223

01:05:56,670 --> 01:05:53,930

whole lot more I only really I have the

1224

01:06:01,559 --> 01:05:56,680

newspaper ourselves about suddenly the

1225

01:06:06,969 --> 01:06:01,569

newspaper reporters run black over an in

1226

01:06:09,459 --> 01:06:06,979

Tampa collected them for me well today

1227

01:06:12,009 --> 01:06:09,469

you'd have selfies and everything yeah

1228

01:06:14,079 --> 01:06:12,019

we have everything but in that area you

1229

01:06:17,109 --> 01:06:14,089

know they didn't use media would come

1230

01:06:19,059 --> 01:06:17,119

out and interview us and we kept running

1231

01:06:22,599 --> 01:06:19,069

the next day it came out but we didn't

1232

01:06:25,180 --> 01:06:22,609

ever see the newspapers so it was really

1233

01:06:29,829 --> 01:06:25,190

I mean I'm really very fortunate that

1234

01:06:31,660 --> 01:06:29,839

Ron interviewed us before the run and he

1235

01:06:33,400 --> 01:06:31,670

started to collect him I'm sure I could

1236

01:06:36,039 --> 01:06:33,410

probably go online and get some of these

1237

01:06:38,589 --> 01:06:36,049

somebody has said that about that I just

1238

01:06:44,109 --> 01:06:38,599

haven't done it but I can tell you that

1239

01:06:45,910 --> 01:06:44,119

that that glove everybody who saw that I

1240

01:06:48,789 --> 01:06:45,920

don't wanna say they freaked out but

1241

01:06:51,099 --> 01:06:48,799

they were freaked out that's the best

1242

01:06:52,719 --> 01:06:51,109

way to describe it I mean someone would

1243

01:06:56,709 --> 01:06:52,729

hold that in their hand it was like oh

1244

01:06:59,349 --> 01:06:56,719

it's tingling and it was it was very

1245

01:07:01,749 --> 01:06:59,359

interesting and the other components

1246

01:07:03,459 --> 01:07:01,759

from that crash site and it had to be a

1247

01:07:05,489 --> 01:07:03,469

crash site that's the only thing that

1248

01:07:10,529 --> 01:07:05,499

would do that to the railroad tracks and

1249

01:07:13,690 --> 01:07:10,539

everything else the metal the the

1250

01:07:18,730 --> 01:07:13,700

Plexiglas and probably again it was

1251  
01:07:20,650 --> 01:07:18,740  
probably more of a fiberglass with maybe

1252  
01:07:22,960 --> 01:07:20,660  
titanium fiberglass I would imagine

1253  
01:07:25,690 --> 01:07:22,970  
that's probably what it was but you

1254  
01:07:28,540 --> 01:07:25,700  
couldn't break it now it did break on

1255  
01:07:32,010 --> 01:07:28,550  
the impact but the largest piece I found

1256  
01:07:35,740 --> 01:07:32,020  
was roughly about a two-foot square and

1257  
01:07:37,839 --> 01:07:35,750  
it was very dark blue it's not like

1258  
01:07:41,380 --> 01:07:37,849  
anything we use in our aviation world

1259  
01:07:44,380 --> 01:07:41,390  
military or civilian but if you held it

1260  
01:07:50,200 --> 01:07:44,390  
up to the Sun and tried to look through

1261  
01:07:52,300 --> 01:07:50,210  
it it almost became kind of like clear

1262  
01:07:54,910 --> 01:07:52,310  
that you could see the Sun but the Sun

1263  
01:07:57,940 --> 01:07:54,920

didn't impact your eyes in any kind of

1264

01:07:59,920 --> 01:07:57,950

way it was very interesting I mean I

1265

01:08:03,150 --> 01:07:59,930

don't even know what else to say about

1266

01:08:05,710 --> 01:08:03,160

it the guy who ran with me Brian hassel

1267

01:08:07,540 --> 01:08:05,720

got a little freaked out he didn't he

1268

01:08:10,450 --> 01:08:07,550

didn't want to touch it he said that's

1269

01:08:13,990 --> 01:08:10,460

your that could be radioactive your

1270

01:08:18,390 --> 01:08:14,000

hands will fall off of you are you are

1271

01:08:22,530 --> 01:08:18,400

you still in touch with him occasionally

1272

01:08:25,780 --> 01:08:22,540

it's kind of one of those crazy things

1273

01:08:27,610 --> 01:08:25,790

when you run side by side with someone

1274

01:08:29,769 --> 01:08:27,620

for that long we train together we've

1275

01:08:31,630 --> 01:08:29,779

been principal I know everything about

1276

01:08:33,670 --> 01:08:31,640

his life so when we get together it's

1277

01:08:36,099 --> 01:08:33,680

like in 20 minutes I'm caught up again

1278

01:08:38,499 --> 01:08:36,109

we don't do it often but he didn't have

1279

01:08:40,809 --> 01:08:38,509

any part of that he didn't want he

1280

01:08:45,390 --> 01:08:40,819

didn't he didn't he didn't did he see

1281

01:08:49,990 --> 01:08:45,400

you discover the glove no we crossed I

1282

01:08:52,829 --> 01:08:50,000

we were scheduled to meet after that so

1283

01:08:56,320 --> 01:08:52,839

I I brought him back to show it to him

1284

01:08:57,340 --> 01:08:56,330

but he did see it oh he saw it yeah

1285

01:08:59,410 --> 01:08:57,350

absolutely

1286

01:09:01,660 --> 01:08:59,420

oh my goodness well there you go I be

1287

01:09:08,380 --> 01:09:01,670

because I people think over the years

1288

01:09:10,749 --> 01:09:08,390

that I've been hallucinating it I I quit

1289

01:09:14,709 --> 01:09:10,759

smoking the heavy stuff better yet many

1290

01:09:17,620 --> 01:09:14,719

years ago but and of course some people

1291

01:09:19,660 --> 01:09:17,630

think well it's typically so he just he

1292

01:09:21,550 --> 01:09:19,670

just he just made he just made it up

1293

01:09:25,120 --> 01:09:21,560

he's got nothing better to do you know I

1294

01:09:27,579 --> 01:09:25,130

mean I said I said here no real is a

1295

01:09:31,059 --> 01:09:27,589

large number of people that did see it

1296

01:09:34,390 --> 01:09:31,069

because I would show it to people in my

1297

01:09:36,160 --> 01:09:34,400

I my stories in your book you don't

1298

01:09:39,339 --> 01:09:36,170

quite give that entirely but I called it

1299

01:09:41,579 --> 01:09:39,349

21st century foods but everyone else so

1300

01:09:44,859 --> 01:09:41,589

natural it was the first vegetarian

1301

01:09:49,809 --> 01:09:44,869

restaurant and health food store in the

1302

01:09:52,269 --> 01:09:49,819

area and so I would keep it in the

1303

01:09:53,919 --> 01:09:52,279

restaurant there and people would come

1304

01:09:58,540 --> 01:09:53,929

in and they had heard about it because

1305

01:10:02,649 --> 01:09:58,550

it did have some news media and I I came

1306

01:10:05,680 --> 01:10:02,659

not not thinking the way I would today I

1307

01:10:07,080 --> 01:10:05,690

didn't keep those but people would want

1308

01:10:09,459 --> 01:10:07,090

to see it and I'd show it to him and

1309

01:10:12,609 --> 01:10:09,469

literally it would freak people out and

1310

01:10:16,750 --> 01:10:12,619

they would leave the restaurant hmm well

1311

01:10:18,669 --> 01:10:16,760

that's kind of well I don't know I guess

1312

01:10:20,100 --> 01:10:18,679

it's right it's right it's really vacant

1313

01:10:24,280 --> 01:10:20,110

to some people I suppose

1314

01:10:27,390 --> 01:10:24,290

well most people want you know most

1315

01:10:30,209 --> 01:10:27,400

people watch Star Trek and they watch

1316

01:10:35,709 --> 01:10:30,219

you know whatever but they don't really

1317

01:10:37,990 --> 01:10:35,719

want that to be real yeah other people

1318

01:10:41,740 --> 01:10:38,000

wanted to be real I mean I I've always

1319

01:10:44,669 --> 01:10:41,750

thought we we cannot be egotistical

1320

01:10:47,800 --> 01:10:44,679

enough to think that we are the only

1321

01:10:50,109 --> 01:10:47,810

humanoid type beings on the planet I

1322

01:10:52,750 --> 01:10:50,119

mean on in the universe on the planet

1323

01:10:55,089 --> 01:10:52,760

yeah okay but in the universe think

1324

01:11:01,020 --> 01:10:55,099

about the variety of people on our

1325

01:11:05,140 --> 01:11:01,030

planet and then expand that out over a

1326

01:11:09,160 --> 01:11:05,150

few hundred light-years away or a few

1327

01:11:12,040 --> 01:11:09,170

thousand we have to have others that are

1328

01:11:16,750 --> 01:11:12,050

very similar to us more advanced less

1329

01:11:20,050 --> 01:11:16,760

advanced not as nice nicer and they're

1330

01:11:24,640 --> 01:11:20,060

out there well they would have obviously

1331

01:11:28,270 --> 01:11:24,650

this whoever constructed this glove

1332

01:11:30,580 --> 01:11:28,280

would have to be pretty pretty close to

1333

01:11:32,290 --> 01:11:30,590

us all right Tim the interrupter here

1334

01:11:41,900 --> 01:11:32,300

because we have to go to

1335

01:11:48,630 --> 01:11:46,050

now back to exploring the bazaar with

1336

01:11:51,960 --> 01:11:48,640

two of the most electrifying researchers

1337

01:11:59,310 --> 01:11:51,970

in the Paranoid your hosts Timothy Becca

1338

01:12:01,320 --> 01:11:59,320

Lee and Taylor Swift's final segment of

1339

01:12:04,740 --> 01:12:01,330

exploring the bazaar so Harry you've

1340

01:12:09,320 --> 01:12:04,750

heard John's story here

1341

01:12:11,910 --> 01:12:09,330

comets questions well I've thought about

1342

01:12:16,070 --> 01:12:11,920

several different things I didn't know

1343

01:12:19,710 --> 01:12:16,080

if the glove had a cuff or a gauntlet

1344

01:12:24,000 --> 01:12:19,720

the blotter if there was any wires tubes

1345

01:12:26,990 --> 01:12:24,010

or cords internally or if the glove was

1346

01:12:29,310 --> 01:12:27,000

designed to wear if you roll it inside

1347

01:12:35,220 --> 01:12:29,320

slightly inside out it could be attached

1348

01:12:35,580 --> 01:12:35,230

to a sleeve I mean it's like the size of

1349

01:12:38,760 --> 01:12:35,590

hand

1350

01:12:42,890 --> 01:12:38,770

sounds like a large was a small if it

1351

01:12:47,430 --> 01:12:42,900

had a descended thumb or no thumb at all

1352

01:12:52,860 --> 01:12:47,440

would tell me whether it was used for

1353

01:12:56,280 --> 01:12:52,870

like a primate pardon me the different

1354

01:12:58,620 --> 01:12:56,290

things when he talked about the what

1355

01:13:01,410 --> 01:12:58,630

would be perhaps the canopy or a shield

1356

01:13:03,540 --> 01:13:01,420

or a window and it's blue and when you

1357

01:13:08,420 --> 01:13:03,550

hold it to the light it becomes clear

1358

01:13:12,270 --> 01:13:08,430

I've seen that like I've seen the outer

1359

01:13:14,850 --> 01:13:12,280

canopy on an f-35 which isn't like

1360

01:13:17,760 --> 01:13:14,860

anything we've done in recent times

1361

01:13:25,080 --> 01:13:17,770

either if that's the latest thing and it

1362

01:13:35,130 --> 01:13:25,090

increases up well I think we I think

1363

01:13:39,480 --> 01:13:35,140

we've lost silence we'll have to have to

1364

01:13:42,960 --> 01:13:39,490

t know get him back on again but you

1365

01:13:45,120 --> 01:13:42,970

know I've got to go through the files

1366

01:13:48,540 --> 01:13:45,130

here to find the photographs the problem

1367

01:13:51,219 --> 01:13:48,550

is is that some of these folders were

1368

01:13:54,799 --> 01:13:51,229

made out of cardboard you

1369

01:13:57,859 --> 01:13:54,809

and if you've had cardboard files for 40

1370

01:14:01,129 --> 01:13:57,869

or 50 years you try to put there they're

1371

01:14:03,709 --> 01:14:01,139

so weighed down by the cardboard file on

1372

01:14:15,560 --> 01:14:03,719

top of it that when you go to pull it

1373

01:14:18,109 --> 01:14:15,570

open it's talked about she asked those

1374

01:14:20,509 --> 01:14:18,119

questions just before let me see if I

1375

01:14:22,569 --> 01:14:20,519

thought I had clarified that first of

1376

01:14:28,219 --> 01:14:22,579

all there was a thumb

1377

01:14:29,929 --> 01:14:28,229

it was very prehensile I would say by

1378

01:14:33,169 --> 01:14:29,939

comparison it was at least thirty

1379

01:14:34,850 --> 01:14:33,179

percent further up the hand than our own

1380

01:14:40,869 --> 01:14:34,860

thumbs hmm

1381

01:14:43,339 --> 01:14:40,879

the fingers were small but long the the

1382

01:14:47,419 --> 01:14:43,349

bladder that he was talking about did

1383

01:14:49,129 --> 01:14:47,429

have as I had said earlier it had a like

1384

01:14:54,469 --> 01:14:49,139

a valve on the outside that you could

1385

01:14:58,969 --> 01:14:54,479

put a connection into air pressure in it

1386

01:15:02,209 --> 01:14:58,979

did have something similar to velcro so

1387

01:15:05,089 --> 01:15:02,219

a spacesuit connection or flight suit

1388

01:15:09,409 --> 01:15:05,099

connection or whatever but could wrap

1389

01:15:12,189 --> 01:15:09,419

around and and connect to it and you

1390

01:15:15,500 --> 01:15:12,199

know provide some connectivity I

1391

01:15:20,179 --> 01:15:15,510

obviously we don't think you know this

1392

01:15:22,609 --> 01:15:20,189

the velcro that we have would not hold

1393

01:15:25,879 --> 01:15:22,619

up with pressure but this one was much

1394

01:15:29,179 --> 01:15:25,889

different it was way more there are new

1395

01:15:33,350 --> 01:15:29,189

ones today the heavy-duty plastic velcro

1396

01:15:35,719 --> 01:15:33,360

connections are similar to what that was

1397

01:15:38,839 --> 01:15:35,729

only it was more intense I mean I have

1398

01:15:42,049 --> 01:15:38,849

to say this thing was it was far

1399

01:15:43,939 --> 01:15:42,059

advanced to what we even currently have

1400

01:15:49,009 --> 01:15:43,949

now however what we have currently now

1401

01:15:53,299 --> 01:15:49,019

is working towards that it was it was

1402

01:15:56,119 --> 01:15:53,309

very unique I I can't even really say

1403

01:15:58,429 --> 01:15:56,129

that I've I mean I don't there I don't

1404

01:16:00,459 --> 01:15:58,439

dwell on it anymore although I thought

1405

01:16:03,560 --> 01:16:00,469

about it for a long time

1406

01:16:04,850 --> 01:16:03,570

intensely but there's rarely a day that

1407

01:16:07,640 --> 01:16:04,860

goes by that this

1408

01:16:09,290 --> 01:16:07,650

well I'll do anything and all of a

1409

01:16:13,390 --> 01:16:09,300

sudden it just pops into my mind how

1410

01:16:17,479 --> 01:16:13,400

that glove would work and to think about

1411

01:16:22,729 --> 01:16:17,489

the components in that crash site and it

1412

01:16:24,709 --> 01:16:22,739

had to be a crash site nothing and I I

1413

01:16:26,240 --> 01:16:24,719

have I have a Jonna

1414

01:16:30,229 --> 01:16:26,250

I have something to bring up here you

1415

01:16:32,959 --> 01:16:30,239

know I asked you earlier whether anyone

1416

01:16:35,450 --> 01:16:32,969

had tried to grab the glove or whether

1417

01:16:38,479 --> 01:16:35,460

you had ever been approached by somebody

1418

01:16:41,359 --> 01:16:38,489

with the fake credentials but you did

1419

01:16:45,620 --> 01:16:41,369

have an experience traveling with the

1420

01:16:49,569 --> 01:16:45,630

glove going back where there was some

1421

01:16:53,839 --> 01:16:49,579

other activity in the sky in a storm yes

1422

01:16:57,620 --> 01:16:53,849

yeah there was definitely well actually

1423

01:16:59,899 --> 01:16:57,630

I pulled off on the side of i-10 because

1424

01:17:03,049 --> 01:16:59,909

I had made this line up and I knew

1425

01:17:06,950 --> 01:17:03,059

exactly where it was and I was going to

1426

01:17:10,569 --> 01:17:06,960

zip over get some of the components and

1427

01:17:19,129 --> 01:17:15,379

there was a you know how the area out

1428

01:17:21,830 --> 01:17:19,139

and in the book Tim you wrote California

1429

01:17:24,260 --> 01:17:21,840

but it was really Arizona an undergrad

1430

01:17:26,089 --> 01:17:24,270

but California because probably kept

1431

01:17:30,319 --> 01:17:26,099

people from finding what I would love to

1432

01:17:34,000 --> 01:17:30,329

find however looking up into the sky

1433

01:17:36,589 --> 01:17:34,010

there was definitely some things that

1434

01:17:42,410 --> 01:17:36,599

would not be normal under any

1435

01:17:44,750 --> 01:17:42,420

circumstance my former wife so a lot of

1436

01:17:47,180 --> 01:17:44,760

that as well in fact I think Jim you

1437

01:17:50,240 --> 01:17:47,190

even interviewed her about that yeah I

1438

01:17:52,220 --> 01:17:50,250

was running about meeting her yes yeah I

1439

01:17:56,180 --> 01:17:52,230

was running to the site I got really

1440

01:18:03,260 --> 01:17:56,190

close to it I saw these things in the

1441

01:18:08,569 --> 01:18:03,270

sky was really bizarre and the winds

1442

01:18:10,370 --> 01:18:08,579

came up incredibly to the point that it

1443

01:18:13,100 --> 01:18:10,380

had not rained out in that desert in

1444

01:18:15,680 --> 01:18:13,110

quite some time but it didn't actually

1445

01:18:17,980 --> 01:18:15,690

rain although there was water in the air

1446

01:18:22,950 --> 01:18:17,990

it was like swirling water I mean it was

1447

01:18:26,260 --> 01:18:22,960

weird and I turned around and went back

1448

01:18:28,480 --> 01:18:26,270

because it just didn't seem like a safe

1449

01:18:34,930 --> 01:18:28,490

environment to continue it was very

1450

01:18:37,840 --> 01:18:34,940

bizarre now my ex had driven the motor

1451

01:18:40,810 --> 01:18:37,850

home and she would go ahead of us

1452

01:18:44,110 --> 01:18:40,820

in each set then we would meet her there

1453

01:18:46,690 --> 01:18:44,120

so she was so freaked out when I got

1454

01:18:49,150 --> 01:18:46,700

back looking at what was in the sky and

1455

01:18:51,730 --> 01:18:49,160

she looked more in that because she

1456

01:18:53,200 --> 01:18:51,740

wasn't running and avoiding you know

1457

01:18:54,820 --> 01:18:53,210

when you run across the desert there are

1458

01:18:56,410 --> 01:18:54,830

some things that will scratch the heck

1459

01:18:58,330 --> 01:18:56,420

out of you you have to be really careful

1460

01:18:59,950 --> 01:18:58,340

when you're doing that so I was paying

1461

01:19:03,310 --> 01:18:59,960

more attention on the ground level

1462

01:19:05,830 --> 01:19:03,320

she was looking up at the sky level and

1463

01:19:10,050 --> 01:19:05,840

when she pointed it out to me it was it

1464

01:19:15,930 --> 01:19:13,000

you know there have been a lot of people

1465

01:19:20,110 --> 01:19:15,940

over the years even in this past year

1466

01:19:22,450 --> 01:19:20,120

who have said that there was a an alien

1467

01:19:26,950 --> 01:19:22,460

aircraft right outside and they tracked

1468

01:19:30,760 --> 01:19:26,960

it I mean even during this past calendar

1469

01:19:34,690 --> 01:19:30,770

year I've I read some reports on pilots

1470

01:19:37,480 --> 01:19:34,700

who are not weird not messed up and they

1471

01:19:41,410 --> 01:19:37,490

said the same thing so yes there are

1472

01:19:45,790 --> 01:19:41,420

I mean I've I've always thought that we

1473

01:19:48,400 --> 01:19:45,800

had to have space encounters I've always

1474

01:19:50,890 --> 01:19:48,410

thought that well no this would this

1475

01:19:54,700 --> 01:19:50,900

would indicate that there was some

1476

01:19:58,210 --> 01:19:54,710

either some sort of telepathic contact

1477

01:20:00,910 --> 01:19:58,220

with you that that they knew or that

1478

01:20:05,050 --> 01:20:00,920

they at least the unknown and I say they

1479

01:20:07,690 --> 01:20:05,060

whoever they are Ill mean you know it

1480

01:20:10,140 --> 01:20:07,700

had to be it points to a parallel

1481

01:20:12,400 --> 01:20:10,150

universe because if you've got this a

1482

01:20:14,680 --> 01:20:12,410

glove and it's been sitting there in the

1483

01:20:16,930 --> 01:20:14,690

desert we don't know exactly how how

1484

01:20:21,180 --> 01:20:16,940

long they obviously are not going to

1485

01:20:25,330 --> 01:20:21,190

race across the time in space to hover

1486

01:20:28,150 --> 01:20:25,340

above you and perhaps indicate some you

1487

01:20:30,250 --> 01:20:28,160

know like idea that they might not like

1488

01:20:32,479 --> 01:20:30,260

the fact that you have this it would

1489

01:20:35,089 --> 01:20:32,489

seem that they would have to

1490

01:20:36,560 --> 01:20:35,099

from somewhere closer like they're

1491

01:20:40,850 --> 01:20:36,570

reading your thoughts are picking up on

1492

01:20:49,430 --> 01:20:40,860

something it felt that way I can tell

1493

01:20:53,990 --> 01:20:49,440

you that the closer I got to wear the

1494

01:20:58,939 --> 01:20:54,000

glove and the other components were the

1495

01:21:02,330 --> 01:20:58,949

more intense the weather got I can tell

1496

01:21:04,280 --> 01:21:02,340

you that I you know your mind's all

1497

01:21:06,500 --> 01:21:04,290

about 4-thousand things and it's easier

1498

01:21:09,169 --> 01:21:06,510

to sit back 40 years later and think

1499

01:21:12,470 --> 01:21:09,179

about it than it is to experience it at

1500

01:21:15,709 --> 01:21:12,480

the moment but there was no doubt in my

1501

01:21:22,220 --> 01:21:15,719

mind that there was a connection I mean

1502

01:21:24,950 --> 01:21:22,230

it was - it was too clear it wasn't

1503

01:21:26,990 --> 01:21:24,960

frightening by any stretch I don't

1504

01:21:30,979 --> 01:21:27,000

really have fear having flown fighters

1505

01:21:34,339 --> 01:21:30,989

and there was 19 nothing nothing fright

1506

01:21:37,580 --> 01:21:34,349

freaks me out I don't have that thank

1507

01:21:40,790 --> 01:21:37,590

God but at the same time I'm very aware

1508

01:21:44,870 --> 01:21:40,800

of energy having started meditation when

1509

01:21:47,060 --> 01:21:44,880

I was 11 and dealing with energy and

1510

01:21:52,990 --> 01:21:47,070

that sort of thing so when the energy

1511

01:21:55,580 --> 01:21:53,000

would start to build it was a it was an

1512

01:21:58,129 --> 01:21:55,590

interesting and intriguing experience

1513

01:22:02,299 --> 01:21:58,139

but the winds got up to a point where I

1514

01:22:04,100 --> 01:22:02,309

did not feel comfortable being in the

1515

01:22:07,700 --> 01:22:04,110

sand was looking around all kinds of

1516

01:22:10,100 --> 01:22:07,710

things kind of like I mean if a

1517

01:22:13,700 --> 01:22:10,110

helicopter were to fly over you and stir

1518

01:22:17,149 --> 01:22:13,710

the wind that was kind of how it felt on

1519

01:22:21,260 --> 01:22:17,159

a magnitude level although you didn't

1520

01:22:26,510 --> 01:22:21,270

see anything so it was definitely the

1521

01:22:33,560 --> 01:22:26,520

parallel universe idea certainly is

1522

01:22:36,589 --> 01:22:33,570

intriguing and certainly has that as

1523

01:22:38,510 --> 01:22:36,599

well some pop some possibilities there

1524

01:22:43,520 --> 01:22:38,520

you know Harry I don't know if I ever

1525

01:22:45,350 --> 01:22:43,530

told you but my one incident in Kingman

1526

01:22:48,350 --> 01:22:45,360

I mean it wasn't involving a

1527

01:22:51,020 --> 01:22:48,360

a landed or crashed UFO but I I was

1528

01:22:56,360 --> 01:22:51,030

traveling out and happened to be getting

1529

01:23:00,620 --> 01:22:56,370

off the the highway route 66 right and I

1530

01:23:03,800 --> 01:23:00,630

was with my my friend Circe we've been

1531

01:23:06,590 --> 01:23:03,810

on the program and we wanted a shop for

1532

01:23:10,640 --> 01:23:06,600

Indian jewelry and all right so there

1533

01:23:13,160 --> 01:23:10,650

are a few what do you call outposts or

1534

01:23:16,940 --> 01:23:13,170

are places that that sell a Native

1535

01:23:21,260 --> 01:23:16,950

American jewelry and so we we stopped in

1536

01:23:24,380 --> 01:23:21,270

in one it was a very large if I remember

1537

01:23:27,350 --> 01:23:24,390

correctly a building that was painted

1538

01:23:29,390 --> 01:23:27,360

entirely black on the outside and we

1539

01:23:34,910 --> 01:23:29,400

went in and we're looking just casually

1540

01:23:40,370 --> 01:23:34,920

through the oh the the cobblestones and

1541

01:23:44,000 --> 01:23:40,380

they had a back room that had a lot of

1542

01:23:47,720 --> 01:23:44,010

like Shekinah dolls in some other Native

1543

01:23:49,760 --> 01:23:47,730

American artifacts and some saddles and

1544

01:23:52,720 --> 01:23:49,770

things and it was it was quite a variety

1545

01:23:54,980 --> 01:23:52,730

and I think one of the largest that

1546

01:23:57,230 --> 01:23:54,990

outposts that I had ever been to like

1547

01:23:59,450 --> 01:23:57,240

this anyway we didn't really make any

1548

01:24:02,540 --> 01:23:59,460

purchase but we did we got out of the

1549

01:24:04,520 --> 01:24:02,550

heat and we stay there for a little

1550

01:24:06,560 --> 01:24:04,530

while and there was nobody else in the

1551

01:24:10,280 --> 01:24:06,570

place so we happened to get into a

1552

01:24:12,380 --> 01:24:10,290

conversation with the proprietor now I

1553

01:24:15,350 --> 01:24:12,390

don't know whether he was the manager

1554

01:24:17,510 --> 01:24:15,360

the owner or anything else but a little

1555

01:24:22,910 --> 01:24:17,520

by little the conversation that turned

1556

01:24:25,070 --> 01:24:22,920

to the the paranormal and he told us

1557

01:24:29,710 --> 01:24:25,080

this story he said you know this back

1558

01:24:33,200 --> 01:24:29,720

room we just were there are people that

1559

01:24:36,440 --> 01:24:33,210

claim that they have seen the spirits of

1560

01:24:38,540 --> 01:24:36,450

Native Americans and and so forth there

1561

01:24:40,250 --> 01:24:38,550

and and we went in long weather he said

1562

01:24:42,650 --> 01:24:40,260

yeah well that you know that's that's

1563

01:24:44,360 --> 01:24:42,660

possible and then I think at some point

1564

01:24:48,680 --> 01:24:44,370

I happen to mention well my main

1565

01:24:51,710 --> 01:24:48,690

interest was UFOs not so much ghostly

1566

01:24:53,570 --> 01:24:51,720

phenomena and he went I can't say that

1567

01:24:55,640 --> 01:24:53,580

he went into a funk but you could see

1568

01:24:58,340 --> 01:24:55,650

that he was a little bit shaken or take

1569

01:24:59,180 --> 01:24:58,350

him back with it now he told us my

1570

01:25:01,400 --> 01:24:59,190

friend that

1571

01:25:06,439 --> 01:25:01,410

I this the story and of course there's

1572

01:25:08,450 --> 01:25:06,449

no way to verify it and this is 15-20

1573

01:25:11,479 --> 01:25:08,460

years ago so I didn't write down the

1574

01:25:14,479 --> 01:25:11,489

details I I did take his card but it has

1575

01:25:16,820 --> 01:25:14,489

lost been lost even though I've tried to

1576

01:25:21,380 --> 01:25:16,830

find it but he told me this story about

1577

01:25:23,870 --> 01:25:21,390

how he had taken photographs of a of a

1578

01:25:25,970 --> 01:25:23,880

craft or had the photographs of a craft

1579

01:25:32,090 --> 01:25:25,980

I can't remember exactly how they came

1580

01:25:33,740 --> 01:25:32,100

into his into his scans but he had been

1581

01:25:37,070 --> 01:25:33,750

or he thought that he would be a

1582

01:25:43,160 --> 01:25:37,080

threatened or had been threatened and so

1583

01:25:45,470 --> 01:25:43,170

he sent them to his brother or someone

1584

01:25:50,320 --> 01:25:45,480

related to him in some other state

1585

01:25:52,430 --> 01:25:50,330

because he felt that they might be taken

1586

01:25:56,330 --> 01:25:52,440

out of his hands

1587

01:25:59,959 --> 01:25:56,340

now Ill just mentioned this because this

1588

01:26:02,510 --> 01:25:59,969

was on the outskirts of kingman and of

1589

01:26:04,729 --> 01:26:02,520

course even before you and i conversed

1590

01:26:07,790 --> 01:26:04,739

there are we you know we met it on

1591

01:26:10,340 --> 01:26:07,800

facebook or on the on the radio

1592

01:26:13,850 --> 01:26:10,350

Ill was one of the few actually that

1593

01:26:15,920 --> 01:26:13,860

took the kingman incidents serious you

1594

01:26:18,350 --> 01:26:15,930

know i mean i tried to do as much

1595

01:26:21,670 --> 01:26:18,360

research as I could on the subject and

1596

01:26:25,220 --> 01:26:21,680

there really wasn't a great deal of

1597

01:26:27,410 --> 01:26:25,230

available I mean looking on the internet

1598

01:26:30,459 --> 01:26:27,420

or researching in the books and it

1599

01:26:33,650 --> 01:26:30,469

wasn't until I found you or heard you

1600

01:26:36,140 --> 01:26:33,660

that I was kind of dumbfounded that you

1601  
01:26:39,170 --> 01:26:36,150  
were probably the only one who had done

1602  
01:26:40,880 --> 01:26:39,180  
any research on this particular incident

1603  
01:26:45,340 --> 01:26:40,890  
which seemed to be have more

1604  
01:26:52,040 --> 01:26:50,060  
episodes of this type had you ever heard

1605  
01:26:54,860 --> 01:26:52,050  
of anybody in the neighborhood there who

1606  
01:26:57,229 --> 01:26:54,870  
said that they had photographs or

1607  
01:27:04,790 --> 01:26:57,239  
anything along that line even I have

1608  
01:27:10,580 --> 01:27:04,800  
photographs okay oh yeah and from my own

1609  
01:27:12,590 --> 01:27:10,590  
self I moved her in directly out of

1610  
01:27:15,090 --> 01:27:12,600  
Alaska we

1611  
01:27:20,510 --> 01:27:15,100  
thinking of John if you'd ever been an

1612  
01:27:24,990 --> 01:27:20,520  
Ironman I ran one in Alaska worldwide

1613  
01:27:28,500 --> 01:27:25,000

thing but anyway I got down to here to

1614

01:27:30,390 --> 01:27:28,510

get away from the snow and ice and all

1615

01:27:32,550 --> 01:27:30,400

the you of those that I was saying and

1616

01:27:35,780 --> 01:27:32,560

my father had been saying for years and

1617

01:27:40,080 --> 01:27:35,790

never bothered to tell me about and

1618

01:27:44,190 --> 01:27:40,090

until one day and and became friends

1619

01:27:47,930 --> 01:27:44,200

with the old-timers and being that I've

1620

01:27:51,240 --> 01:27:47,940

interviewed people for over 40 years and

1621

01:27:54,510 --> 01:27:51,250

regards the one historical topic after

1622

01:27:57,380 --> 01:27:54,520

another I started doing that and gained

1623

01:28:01,290 --> 01:27:57,390

the confidence and trust for real of

1624

01:28:04,260 --> 01:28:01,300

some century family people who've been

1625

01:28:06,720 --> 01:28:04,270

here since the beforetime before the

1626

01:28:10,770 --> 01:28:06,730

military was there and when the military

1627

01:28:13,020 --> 01:28:10,780

was here on they had blackouts and quasi

1628

01:28:17,520 --> 01:28:13,030

martial law and everything all the way

1629

01:28:20,190 --> 01:28:17,530

through World War two and nobody even

1630

01:28:23,690 --> 01:28:20,200

even today's archaeologist she's related

1631

01:28:27,930 --> 01:28:23,700

to all these people at the BLM nobody

1632

01:28:30,780 --> 01:28:27,940

tells outsiders very much if you do you

1633

01:28:34,380 --> 01:28:30,790

get chastised and basically drummed out

1634

01:28:37,230 --> 01:28:34,390

of the family and it all stems from a

1635

01:28:40,740 --> 01:28:37,240

man a rancher that came up from the Big

1636

01:28:45,960 --> 01:28:40,750

Sandy and 1882 and there's a lot of

1637

01:28:48,960 --> 01:28:45,970

relatives interconnected that way and so

1638

01:28:51,960 --> 01:28:48,970

I started hearing these things in a like

1639

01:28:53,370 --> 01:28:51,970

go to a luncheon to give small kind of

1640

01:28:56,070 --> 01:28:53,380

private luncheon and I started hearing

1641

01:28:59,880 --> 01:28:56,080

these things and so I started asking it

1642

01:29:02,160 --> 01:28:59,890

and they told me a lot of things nobody

1643

01:29:03,930 --> 01:29:02,170

gets to hear like a city attorney said

1644

01:29:05,600 --> 01:29:03,940

why was the City Attorney ins came in

1645

01:29:09,660 --> 01:29:05,610

for ten years nobody ever told me that

1646

01:29:16,080 --> 01:29:09,670

nobody would I wouldn't you know it's

1647

01:29:18,840 --> 01:29:16,090

like for a lot of reasons but I started

1648

01:29:21,780 --> 01:29:18,850

hearing things about you know sometimes

1649

01:29:23,670 --> 01:29:21,790

these are these people because they

1650

01:29:25,920 --> 01:29:23,680

could fit in

1651  
01:29:28,770 --> 01:29:25,930  
on the street with us right now we're on

1652  
01:29:31,740 --> 01:29:28,780  
the street sometimes right then you know

1653  
01:29:38,610 --> 01:29:31,750  
and and I'm talking about the

1654  
01:29:43,320 --> 01:29:38,620  
strange-looking men and one day one

1655  
01:29:46,650 --> 01:29:43,330  
evening out the back back of my property

1656  
01:29:50,610 --> 01:29:46,660  
it's 35 miles of open desert okay and

1657  
01:29:53,220 --> 01:29:50,620  
I've got this thing hovering and I took

1658  
01:29:59,010 --> 01:29:53,230  
a picture of it with a fixed focus

1659  
01:30:02,940 --> 01:29:59,020  
camera and I have a call from a lady

1660  
01:30:04,410 --> 01:30:02,950  
that's into this and and works on a lot

1661  
01:30:07,500 --> 01:30:04,420  
of things there's even a thing at New

1662  
01:30:09,450 --> 01:30:07,510  
York here just happened and from England

1663  
01:30:14,280 --> 01:30:09,460

and she's trying to talk to somebody

1664

01:30:18,480 --> 01:30:14,290

else who's an astronomer here and so

1665

01:30:20,820 --> 01:30:18,490

she's actually in England run patched to

1666

01:30:22,920 --> 01:30:20,830

both of us and as so we're

1667

01:30:25,890 --> 01:30:22,930

intercommunicating through somebody and

1668

01:30:30,510 --> 01:30:25,900

England and the photograph I took at

1669

01:30:32,340 --> 01:30:30,520

this craft and and I didn't know what

1670

01:30:34,890 --> 01:30:32,350

exactly it looked like until I could

1671

01:30:38,510 --> 01:30:34,900

actually look at the photo and blow it

1672

01:30:41,720 --> 01:30:38,520

up monitor to see it it's really spooky

1673

01:30:48,270 --> 01:30:41,730

but the astronomer got it for 20 minutes

1674

01:30:51,630 --> 01:30:48,280

okay and I just took a single shot that

1675

01:30:54,870 --> 01:30:51,640

I have with I've had my security systems

1676

01:30:58,460 --> 01:30:54,880

since finding the landing site oh and

1677

01:31:01,770 --> 01:30:58,470

the the chap who developed the most

1678

01:31:05,670 --> 01:31:01,780

advanced flight control ROV system in

1679

01:31:08,280 --> 01:31:05,680

the world engineer for the Mary Ann for

1680

01:31:10,890 --> 01:31:08,290

James Cameron's Mariana Trench dive he

1681

01:31:14,160 --> 01:31:10,900

stopped his work and came up to fly a

1682

01:31:17,010 --> 01:31:14,170

drone for me with my cameras it at a

1683

01:31:19,410 --> 01:31:17,020

lent at the landing site and at one of

1684

01:31:22,170 --> 01:31:19,420

the two crash sites I found it okay

1685

01:31:24,630 --> 01:31:22,180

they'd been a museum curator spent 20

1686

01:31:28,530 --> 01:31:24,640

years looking for this place and he had

1687

01:31:30,450 --> 01:31:28,540

inside information for real from from a

1688

01:31:33,690 --> 01:31:30,460

man who formed a church and became an

1689

01:31:35,790 --> 01:31:33,700

ordained minister to Council area 51

1690

01:31:37,649 --> 01:31:35,800

workers way back when

1691

01:31:42,299 --> 01:31:37,659

to avoid government

1692

01:31:46,589 --> 01:31:42,309

ferns and so this guy convinced shared

1693

01:31:50,429 --> 01:31:46,599

that with the museum aviation courier

1694

01:31:51,959 --> 01:31:50,439

okay and so here is that all time we

1695

01:31:53,669 --> 01:31:51,969

couldn't find it well I couldn't read

1696

01:31:56,219 --> 01:31:53,679

the ground terrain because in the last

1697

01:31:58,679 --> 01:31:56,229

fifteen or twenty years we've had more

1698

01:32:01,469 --> 01:31:58,689

moisture so you have the the desert

1699

01:32:05,069 --> 01:32:01,479

grows instantly the miniatures rained

1700

01:32:07,949 --> 01:32:05,079

because it can't get it again and so we

1701

01:32:10,919 --> 01:32:07,959

got we got more ground cover and so I

1702

01:32:13,350 --> 01:32:10,929

couldn't see anything well enough to

1703

01:32:14,939 --> 01:32:13,360

determine so doing the over flights so

1704

01:32:18,600 --> 01:32:14,949

the engineer came we did all that stuff

1705

01:32:20,669 --> 01:32:18,610

and I and I immediately found where this

1706

01:32:24,689 --> 01:32:20,679

craft had hit a rocky beaut shades off

1707

01:32:26,640 --> 01:32:24,699

of it went 0.21 miles and augered into

1708

01:32:32,239 --> 01:32:26,650

the desert floor at what's called ridley

1709

01:32:35,069 --> 01:32:32,249

that's a number two one may 22 1953 and

1710

01:32:38,040 --> 01:32:35,079

that's the first time i ever saw

1711

01:32:40,290 --> 01:32:38,050

what people are now calling Matt Heidi

1712

01:32:44,909 --> 01:32:40,300

Hollis by the way I guess I wrote a book

1713

01:32:48,629 --> 01:32:44,919

on it called shadow beings I didn't know

1714

01:32:50,489 --> 01:32:48,639

about that until I saw it and and I was

1715

01:32:52,859 --> 01:32:50,499

worried because I could be cut off to my

1716

01:32:54,239 --> 01:32:52,869

Jeep which was miles away and I was

1717

01:32:55,399 --> 01:32:54,249

loaded with equipment on the side of a

1718

01:33:00,719 --> 01:32:55,409

rocky Butte

1719

01:33:04,859 --> 01:33:00,729

anyway after finding the landed landing

1720

01:33:07,020 --> 01:33:04,869

site both the engineer who went back to

1721

01:33:08,819 --> 01:33:07,030

his job and then later they did the

1722

01:33:13,219 --> 01:33:08,829

mariana trench thing and he's in a ship

1723

01:33:16,919 --> 01:33:13,229

above Cameron went down at all Asif

1724

01:33:19,939 --> 01:33:16,929

after he got a he got a craft over his

1725

01:33:22,879 --> 01:33:19,949

house he doesn't live where I live okay

1726

01:33:28,109 --> 01:33:22,889

and I go out back and I got this thing

1727

01:33:31,049 --> 01:33:28,119

low right at sunset edits and it came

1728

01:33:33,479 --> 01:33:31,059

across the valley floor I have Mountain

1729

01:33:35,850 --> 01:33:33,489

six miles from me and a valiant men nine

1730

01:33:38,969 --> 01:33:35,860

miles to the west six miles to the east

1731

01:33:41,790 --> 01:33:38,979

it's beautiful okay this thing came and

1732

01:33:44,819 --> 01:33:41,800

I ran in I got a camera I watched you

1733

01:33:47,279 --> 01:33:44,829

for five minutes and okay bekata was

1734

01:33:49,949 --> 01:33:47,289

gone but it wasn't dead moved it was

1735

01:33:50,939 --> 01:33:49,959

closed and it made kind of a horseshoe

1736

01:33:53,279 --> 01:33:50,949

cut too

1737

01:33:57,060 --> 01:33:53,289

north and back around and come right

1738

01:33:59,219 --> 01:33:57,070

over what I call my back guard and it

1739

01:34:02,810 --> 01:33:59,229

just stopped there and it's triangular

1740

01:34:07,020 --> 01:34:02,820

and this thing rotated it and it didn't

1741

01:34:11,069 --> 01:34:07,030

for Forge on there it didn't fly it's

1742

01:34:12,449 --> 01:34:11,079

lit like a hockey got ice okay no Harry

1743

01:34:13,739 --> 01:34:12,459

unfortunately I'm gonna have to

1744

01:34:15,870 --> 01:34:13,749

interrupt you here because we're almost

1745

01:34:18,359 --> 01:34:15,880

at the end of the program but one of our

1746

01:34:20,969 --> 01:34:18,369

listeners know just real quick where

1747

01:34:25,350 --> 01:34:20,979

they can find more about you a website

1748

01:34:30,569 --> 01:34:25,360

books things like that ww Kingman UFO

1749

01:34:33,259 --> 01:34:30,579

crashes calm and I'm on Facebook and and

1750

01:34:39,629 --> 01:34:33,269

how about the how about you John

1751

01:34:44,189 --> 01:34:39,639

Facebook yes I am on Facebook just under

1752

01:34:46,259 --> 01:34:44,199

my name John Peel and I don't really

1753

01:34:47,969 --> 01:34:46,269

talk very much about this although as I

1754

01:34:50,009 --> 01:34:47,979

found it very intriguing and it

1755

01:34:53,250 --> 01:34:50,019

certainly is interesting I have a

1756

01:34:54,959 --> 01:34:53,260

certain group of people that ask me

1757

01:34:56,459 --> 01:34:54,969

questions all the time but for the

1758

01:34:58,410 --> 01:34:56,469

general public I don't post it on

1759

01:35:00,449 --> 01:34:58,420

Facebook yeah however well well I be

1760

01:35:04,589 --> 01:35:00,459

right maybe we should because the

1761

01:35:10,739 --> 01:35:04,599

reality is very simple there are others

1762

01:35:14,009 --> 01:35:10,749

around us and we some of us are aware

1763
