

**EXPLORING THE BIZARRE 164**

**LOST IN THE  
BERMUDA  
TRIANGLE**

**WITH**

**BRUCE GERNON \* MACK MALONEY**

1  
00:00:37,520 --> 00:00:21,830

[Music]

2  
00:00:44,440 --> 00:00:41,990

explore the bazaars your e-ticket ride

3  
00:00:47,720 --> 00:00:44,450

into the world of the paranoid

4  
00:00:52,060 --> 00:00:47,730

strap yourself in as we traverse the

5  
00:00:56,750 --> 00:00:52,070

universe exploring the unexplained UFO s

6  
00:01:00,619 --> 00:00:56,760

ghosts Lost Worlds of cryptozoology as

7  
00:01:05,119 --> 00:01:00,629

well as other dimensions it's time to

8  
00:01:07,370 --> 00:01:05,129

take back the night last night now your

9  
00:01:13,690 --> 00:01:07,380

electrifying hosts of exploring the

10  
00:01:21,460 --> 00:01:16,910

Tim you know it's really spooky out here

11  
00:01:25,790 --> 00:01:21,470

I almost feel like singing a couple of

12  
00:01:28,580 --> 00:01:25,800

lines here from old Rolling Stone song

13  
00:01:31,370 --> 00:01:28,590

I'm gonna love you night and day we'll

14

00:01:36,200 --> 00:01:31,380

love is love and not fade away well love

15

00:01:38,540 --> 00:01:36,210

is love and not fade away wow we're out

16

00:01:40,310 --> 00:01:38,550

here in the Bermuda Triangle what in

17

00:01:43,940 --> 00:01:40,320

God's name are we doing here anyway

18

00:01:45,740 --> 00:01:43,950

Tim well Tim we're kind of like scooby

19

00:01:46,429 --> 00:01:45,750

Doo and the gang we're trying to solve a

20

00:01:49,340 --> 00:01:46,439

mystery

21

00:01:52,250 --> 00:01:49,350

you know there's been dozens maybe

22

00:01:54,859 --> 00:01:52,260

hundreds of planes and ships that have

23

00:01:57,980 --> 00:01:54,869

vanished around here and we need to know

24

00:02:00,499 --> 00:01:57,990

if there's an maybe an alien base at the

25

00:02:02,630 --> 00:02:00,509

bottom of the ocean or some sort of

26  
00:02:06,140 --> 00:02:02,640  
freaky weather phenomena causing these

27  
00:02:09,830 --> 00:02:06,150  
disappearances you really take this

28  
00:02:13,220 --> 00:02:09,840  
whole co-hosting job seriously I see

29  
00:02:15,410 --> 00:02:13,230  
well there's a dead yet was a dense fog

30  
00:02:18,979 --> 00:02:15,420  
coming toward us and I see the meters

31  
00:02:23,810 --> 00:02:18,989  
spinning around and around some sort of

32  
00:02:25,370 --> 00:02:23,820  
Oh some sort of medium well I'm afraid

33  
00:02:30,280 --> 00:02:25,380  
we're going to fade away

34  
00:02:32,960 --> 00:02:30,290  
yep well and we both seem to be

35  
00:02:35,210 --> 00:02:32,970  
disappearing I can see through my hands

36  
00:02:38,030 --> 00:02:35,220  
so we better make it back to the KCR

37  
00:02:40,729 --> 00:02:38,040  
studios quick for tonight's show

38  
00:02:42,750 --> 00:02:40,739

come on boo school well of his love and

39

00:02:46,380 --> 00:02:42,760

not fade away

40

00:02:49,470 --> 00:02:46,390

well and you know it's good to be back

41

00:02:52,949 --> 00:02:49,480

on solid ground that Bermuda Triangle

42

00:02:56,640 --> 00:02:52,959

area really spooked me out you know I I

43

00:02:59,400 --> 00:02:56,650

wouldn't want to go out there you know

44

00:03:01,920 --> 00:02:59,410

without the the Coast Guard or or maybe

45

00:03:04,710 --> 00:03:01,930

Mac Monty is kind of sending a couple of

46

00:03:09,180 --> 00:03:04,720

war planes out to the guide us along

47

00:03:12,890 --> 00:03:09,190

it's just the heck of a trip well and

48

00:03:15,839 --> 00:03:12,900

and you know Tim that there are other

49

00:03:19,380 --> 00:03:15,849

mysterious areas all across the planet

50

00:03:22,050 --> 00:03:19,390

that are similar to the Bermuda Triangle

51  
00:03:27,750 --> 00:03:22,060  
I know there's the what was it called

52  
00:03:33,720 --> 00:03:31,080  
I remember I I would my old buddy there

53  
00:03:36,660 --> 00:03:33,730  
Ivan T Sanderson or was it Charles

54  
00:03:40,080 --> 00:03:36,670  
Berlitz I can't remember a wrote about

55  
00:03:43,140 --> 00:03:40,090  
the Dryad dragons a triangle where oh

56  
00:03:48,390 --> 00:03:43,150  
they both did well sure it is sure

57  
00:03:51,509 --> 00:03:48,400  
enough I yes of course and there's even

58  
00:03:55,470 --> 00:03:51,519  
one in New England yes that's right and

59  
00:03:57,629 --> 00:03:55,480  
that's on solid ground no I don't know

60  
00:03:59,729 --> 00:03:57,639  
you know it's it's a spooky the

61  
00:04:02,580 --> 00:03:59,739  
phenomena but of course the Bermuda

62  
00:04:07,409 --> 00:04:02,590  
trying and triangle is the the Big Daddy

63  
00:04:11,159 --> 00:04:07,419

of all danger danger zones on planet

64

00:04:13,470 --> 00:04:11,169

earth I would say anyway I guess we have

65

00:04:17,279 --> 00:04:13,480

already recovered for from Thanksgiving

66

00:04:22,740 --> 00:04:17,289

and we're headed towards the day when a

67

00:04:29,790 --> 00:04:22,750

Santa comes down the chimney or maybe

68

00:04:31,980 --> 00:04:29,800

Krampus leaves we celebrate the arrival

69

00:04:35,279 --> 00:04:31,990

of Krampus in our house of course well

70

00:04:39,180 --> 00:04:35,289

we what we welcome in as well you know

71

00:04:44,100 --> 00:04:39,190

but Tim what the hell let's let's get on

72

00:04:47,300 --> 00:04:44,110

with the the state of affairs at K cor

73

00:04:51,690 --> 00:04:47,310

and exploited a bizarre who do we have

74

00:04:54,510 --> 00:04:51,700

tonight as our guests well Tim I'm

75

00:04:56,310 --> 00:04:54,520

really happy tonight because we have two

76

00:04:59,880 --> 00:04:56,320

fantastic guests we have

77

00:05:03,780 --> 00:04:59,890

so what we have Bruce Gernon and this is

78

00:05:06,450 --> 00:05:03,790

Bruce's first appearance on exploring

79

00:05:08,940 --> 00:05:06,460

the bazaar so I'm really happy to know

80

00:05:14,030 --> 00:05:08,950

what he doesn't know what he's in for

81

00:05:23,850 --> 00:05:19,550

but see now Bruce in on December 4th

82

00:05:27,150 --> 00:05:23,860

1970 Bruce was flying near the island of

83

00:05:32,810 --> 00:05:27,160

Bimini when he encountered something

84

00:05:36,240 --> 00:05:32,820

that that changed his life forever and

85

00:05:40,020 --> 00:05:36,250

you know this what what happened to him

86

00:05:42,000 --> 00:05:40,030

there eventually led to his discovery of

87

00:05:45,030 --> 00:05:42,010

a new theory about why planes and ships

88

00:05:47,760 --> 00:05:45,040

sometime sometimes disappear on calm

89

00:05:50,850 --> 00:05:47,770

sunny days in this notorious region of

90

00:05:53,820 --> 00:05:50,860

the Caribbean now Gernon is a certified

91

00:05:55,920 --> 00:05:53,830

seaplane flight instructor and a master

92

00:05:59,250 --> 00:05:55,930

captain with Coast Guard license he's

93

00:06:01,020 --> 00:05:59,260

appeared in numerous documentaries about

94

00:06:04,440 --> 00:06:01,030

the Bermuda Triangle in which he

95

00:06:06,630 --> 00:06:04,450

describes his space time warp

96

00:06:08,460 --> 00:06:06,640

experiences now Bruce is the author of

97

00:06:11,040 --> 00:06:08,470

the books the fog a never before

98

00:06:13,670 --> 00:06:11,050

published theory of the Bermuda Triangle

99

00:06:16,860 --> 00:06:13,680

phenomena beyond the Bermuda Triangle

100

00:06:20,030 --> 00:06:16,870

true encounters with electronic fog

101

00:06:22,890 --> 00:06:20,040

missing aircraft and time warps and

102

00:06:25,470 --> 00:06:22,900

Bermuda Triangle legacy exploring

103

00:06:28,800 --> 00:06:25,480

electronic fog space time warps and more

104

00:06:33,630 --> 00:06:28,810

and he wrote those books along with Rob

105

00:06:36,840 --> 00:06:33,640

MacGregor who I tried to get on to the

106

00:06:44,520 --> 00:06:36,850

show with Bruce but rod never responded

107

00:06:48,570 --> 00:06:44,530

to any of my emails that would be very

108

00:06:50,670 --> 00:06:48,580

appropriate for tonight okay well now

109

00:06:53,820 --> 00:06:50,680

also with us tonight for his return

110

00:06:56,310 --> 00:06:53,830

visit I think this is his third time on

111

00:06:59,180 --> 00:06:56,320

our show at least at least I would

112

00:07:01,530 --> 00:06:59,190

whistle if I could but third time now

113

00:07:04,930 --> 00:07:01,540

yeah yeah you get a whistle the third

114

00:07:11,090 --> 00:07:08,000

very good no you got it you got to do

115

00:07:13,340 --> 00:07:11,100

the one with the oh the the fog that

116

00:07:20,090 --> 00:07:13,350

blows at midnight what is that famous

117

00:07:23,810 --> 00:07:20,100

movie no gosh the fog wonder no idea all

118

00:07:28,160 --> 00:07:23,820

I can think of is the fog horn the the

119

00:07:30,680 --> 00:07:28,170

story by Ray Bradbury okay well my

120

00:07:33,680 --> 00:07:30,690

favorite my favorite movie or one of

121

00:07:38,150 --> 00:07:33,690

them is the fog oh yeah yeah yeah yeah

122

00:07:41,990 --> 00:07:38,160

yeah carpenters carpenters movie there

123

00:07:43,670 --> 00:07:42,000

you go Oh Mac Modi is with us again

124

00:07:45,260 --> 00:07:43,680

tonight now Mac is the author of

125

00:07:49,610 --> 00:07:45,270

numerous science-fiction series

126  
00:07:51,860 --> 00:07:49,620  
including wig man chopper ops star Hawk

127  
00:07:53,000 --> 00:07:51,870  
and pirate hunters as well as the

128  
00:07:56,210 --> 00:07:53,010  
non-fiction books

129  
00:08:00,080 --> 00:07:56,220  
UFOs in wartime what they didn't want

130  
00:08:01,850 --> 00:08:00,090  
you to know and beyond area 51 and of

131  
00:08:05,150 --> 00:08:01,860  
course we'll be talking about his latest

132  
00:08:07,400 --> 00:08:05,160  
book Mac Maloney's haunted universe now

133  
00:08:09,380 --> 00:08:07,410  
Mac grew up in the Dorchester section of

134  
00:08:12,650 --> 00:08:09,390  
Boston that was taught to read and write

135  
00:08:14,300 --> 00:08:12,660  
by the nuns of st. and school his father

136  
00:08:16,400 --> 00:08:14,310  
was a veteran of World War two and was a

137  
00:08:17,690 --> 00:08:16,410  
fan of military books something that

138  
00:08:21,620 --> 00:08:17,700

Matt grew to love as well

139

00:08:24,590 --> 00:08:21,630

Mac Mac started writing books in 1984

140

00:08:28,610 --> 00:08:24,600

and has been doing that full-time since

141

00:08:30,770 --> 00:08:28,620

1987 pinning over 330 books sorry Ben

142

00:08:34,730 --> 00:08:30,780

and he is the host of a national radio

143

00:08:37,070 --> 00:08:34,740

show Mac Maloney's military x-files so

144

00:08:39,219 --> 00:08:37,080

Mac Bruce thank you very much for being

145

00:08:42,890 --> 00:08:39,229

with us tonight on exploring the bizarre

146

00:08:46,100 --> 00:08:42,900

well I'm looking forward to this one and

147

00:08:49,550 --> 00:08:46,110

I I want to know what happens to all

148

00:08:53,740 --> 00:08:49,560

those planes and ships there and the

149

00:08:56,600 --> 00:08:53,750

Bermuda Triangle Bruce Lewis in here

150

00:08:59,150 --> 00:08:56,610

what was your experience like your first

151  
00:09:01,880 --> 00:08:59,160  
experience and why did you decide I mean

152  
00:09:03,680 --> 00:09:01,890  
were you looking for there's something

153  
00:09:06,520 --> 00:09:03,690  
in particular in a movie a triangular or

154  
00:09:09,710 --> 00:09:06,530  
where you're just flying through there

155  
00:09:12,200 --> 00:09:09,720  
now hey Timmy Tim yeah I was on a

156  
00:09:14,150 --> 00:09:12,210  
business trip coming back but thanks for

157  
00:09:17,610 --> 00:09:14,160  
the introduction and I really enjoyed

158  
00:09:21,160 --> 00:09:17,620  
this to you two guys talking about the

159  
00:09:23,380 --> 00:09:21,170  
that was really an attack yeah well

160  
00:09:26,950 --> 00:09:23,390  
that's a we try to combine two

161  
00:09:30,010 --> 00:09:26,960  
seriousness with the entertaining

162  
00:09:31,420 --> 00:09:30,020  
without without you know like ridiculing

163  
00:09:34,030 --> 00:09:31,430

our guests of the subject they don't

164

00:09:37,540 --> 00:09:34,040

matter we just ridicule ourselves but go

165

00:09:39,040 --> 00:09:37,550

on tell tell us of your experience

166

00:09:42,370 --> 00:09:39,050

because that's more exciting than

167

00:09:45,700 --> 00:09:42,380

anything we could come up with well it

168

00:09:47,590 --> 00:09:45,710

happened back in 1970 so I've been

169

00:09:51,670 --> 00:09:47,600

researching and ever since because it

170

00:09:57,090 --> 00:09:51,680

was such a phenomenal experience and I

171

00:10:01,360 --> 00:09:57,100

have a brand new bonanza Beechcraft a36

172

00:10:05,950 --> 00:10:01,370

single-engine airplane still being made

173

00:10:09,550 --> 00:10:05,960

today in identical shape this is a 1970

174

00:10:13,140 --> 00:10:09,560

version that I had but it was Andros

175

00:10:15,250 --> 00:10:13,150

Island is where we took off from and

176  
00:10:16,960 --> 00:10:15,260  
yeah when I was in your Epiphany like

177  
00:10:23,350 --> 00:10:16,970  
you mentioned but but I never actually

178  
00:10:25,890 --> 00:10:23,360  
even saw blooming it's a time warp type

179  
00:10:33,840 --> 00:10:25,900  
of experience that I had where I

180  
00:10:44,040 --> 00:10:38,080  
I got about 30 minutes ahead of time

181  
00:10:49,330 --> 00:10:44,050  
somehow when I had this experience I

182  
00:10:53,080 --> 00:10:49,340  
realized after I've escaped this unusual

183  
00:10:55,930 --> 00:10:53,090  
storm that I had experienced something

184  
00:11:00,040 --> 00:10:55,940  
incredible so I put it to memory from

185  
00:11:02,950 --> 00:11:00,050  
then on and I still really memorize it

186  
00:11:06,310 --> 00:11:02,960  
just about every day so I have like a

187  
00:11:09,430 --> 00:11:06,320  
mind picture of what I experienced like

188  
00:11:14,650 --> 00:11:09,440

a video well tell us what you say it was

189

00:11:19,420 --> 00:11:14,660

a storm well in it it appeared to turn

190

00:11:22,510 --> 00:11:19,430

into a storm it it started off when I

191

00:11:25,410 --> 00:11:22,520

reached the eastern edge of the Great

192

00:11:29,370 --> 00:11:25,420

Bahama Bank where the shoreline that

193

00:11:32,140 --> 00:11:29,380

Andros Island is

194

00:11:36,190 --> 00:11:32,150

it had been raining over Andros that

195

00:11:38,020 --> 00:11:36,200

whole day and we were able to take off

196

00:11:40,750 --> 00:11:38,030

at 3 o'clock in the afternoon when it

197

00:11:43,710 --> 00:11:40,760

finally started to let up and then it

198

00:11:46,300 --> 00:11:43,720

was just for me light rain now over the

199

00:11:49,840 --> 00:11:46,310

island of Andros which is the biggest

200

00:11:54,160 --> 00:11:49,850

island in the Bahamas and they cleared

201  
00:11:57,370 --> 00:11:54,170  
up when I reached the ocean and that's

202  
00:12:01,990 --> 00:11:57,380  
when I first noticed this unusual cloud

203  
00:12:06,610 --> 00:12:02,000  
that was hovering mile or two offshore

204  
00:12:09,540 --> 00:12:06,620  
and is about 500 feet above the ocean

205  
00:12:14,520 --> 00:12:09,550  
and it was about a a mile long and

206  
00:12:19,560 --> 00:12:14,530  
thousand feet thick half mile wide and

207  
00:12:22,560 --> 00:12:19,570  
it looked like a lenticular cloud and

208  
00:12:25,990 --> 00:12:22,570  
that's kind of like an hourglass shaped

209  
00:12:29,280 --> 00:12:26,000  
cloud that you see sometimes like in a

210  
00:12:32,230 --> 00:12:29,290  
mountain wave lease side of the mountain

211  
00:12:36,010 --> 00:12:32,240  
but it was just hovering right there and

212  
00:12:42,520 --> 00:12:36,020  
at the time I didn't realize it when

213  
00:12:44,530 --> 00:12:42,530

ticular clouds don't normally stay that

214

00:12:49,360 --> 00:12:44,540

low they're usually up around 20,000

215

00:12:51,900 --> 00:12:49,370

feet and it looked harmless and it was

216

00:12:56,110 --> 00:12:51,910

directly in my flight path on

217

00:12:59,410 --> 00:12:56,120

instruments flying direct to Bimini and

218

00:13:01,960 --> 00:12:59,420

that was only had a thousand feet when I

219

00:13:03,550 --> 00:13:01,970

first saw it and then when it cleared up

220

00:13:07,120 --> 00:13:03,560

I was able to start climbing up so I

221

00:13:09,280 --> 00:13:07,130

climbed up over it and started him

222

00:13:14,610 --> 00:13:09,290

aiming direct for Bimini so then when I

223

00:13:18,100 --> 00:13:14,620

got over it I was able to contact Miami

224

00:13:21,430 --> 00:13:18,110

radio great our control center there and

225

00:13:23,260 --> 00:13:21,440

filed a flight plan by air because I

226

00:13:27,750 --> 00:13:23,270

understand you have telephones back then

227

00:13:30,940 --> 00:13:27,760

and after I get through silent night I

228

00:13:32,520 --> 00:13:30,950

look around the plane and then that

229

00:13:35,260 --> 00:13:32,530

something strange started happening

230

00:13:39,820 --> 00:13:35,270

while I was not paying much attention to

231

00:13:42,340 --> 00:13:39,830

this cloud it had spread out and it was

232

00:13:45,220 --> 00:13:42,350

still regulated airplane now and I'm

233

00:13:50,530 --> 00:13:45,230

climbing now I'm over 4,000 feet and

234

00:13:52,960 --> 00:13:50,540

it's still regularly and keep climbing

235

00:13:58,630 --> 00:13:52,970

and it's climbing about the same rate as

236

00:14:00,700 --> 00:13:58,640

me so I'm going up when I higher and

237

00:14:02,740 --> 00:14:00,710

higher I get up to 10,000 my dad was

238

00:14:05,100 --> 00:14:02,750

copilot he was a licensed pilot he said

239

00:14:07,330 --> 00:14:05,110

maybe we better turn back to Honduras I

240

00:14:08,710 --> 00:14:07,340

said well I didn't really want to do

241

00:14:11,790 --> 00:14:08,720

that because then I'd have to penetrate

242

00:14:13,870 --> 00:14:11,800

deep into the storm probably and I

243

00:14:16,450 --> 00:14:13,880

figured it was a chemo members

244

00:14:18,250 --> 00:14:16,460

thunderstorm that was in the birth stage

245

00:14:22,510 --> 00:14:18,260

and I just happen to get caught up in

246

00:14:25,180 --> 00:14:22,520

anything and I got caught up in it

247

00:14:27,520 --> 00:14:25,190

several times it would engulf the

248

00:14:32,080 --> 00:14:27,530

airplane and I'd go inside and it

249

00:14:34,900 --> 00:14:32,090

appeared to be like a regular cloud near

250

00:14:37,180 --> 00:14:34,910

zero visibility but then I'd break free

251  
00:14:38,800 --> 00:14:37,190  
and I can only get a couple hundred feet

252  
00:14:41,470 --> 00:14:38,810  
above it and I catch up to me again and

253  
00:14:43,540 --> 00:14:41,480  
this one in and out of this cloud for

254  
00:14:47,980 --> 00:14:43,550  
about four or five times and then

255  
00:14:52,510 --> 00:14:47,990  
finally I broke free at 11,500 feet and

256  
00:14:56,290 --> 00:14:52,520  
and I was traveling at 110 miles an hour

257  
00:14:59,370 --> 00:14:56,300  
while I'm climbing up and this storm was

258  
00:15:02,200 --> 00:14:59,380  
spreading out faster than I was climbing

259  
00:15:05,650 --> 00:15:02,210  
and didn't which plane was your plane

260  
00:15:07,600 --> 00:15:05,660  
rocket back and forth just a little bit

261  
00:15:09,730 --> 00:15:07,610  
when I get inside it and and then I

262  
00:15:12,610 --> 00:15:09,740  
would beat me out of it just a little

263  
00:15:14,260 --> 00:15:12,620

bit of rock and not too bad and so when

264

00:15:15,970 --> 00:15:14,270

I broke free of it and then I look on

265

00:15:18,520 --> 00:15:15,980

the either side of me and now I could

266

00:15:20,230 --> 00:15:18,530

see this storm had spread out on either

267

00:15:23,080 --> 00:15:20,240

side of me as far as I could see which

268

00:15:25,450 --> 00:15:23,090

was like at least 10 miles or more on

269

00:15:31,860 --> 00:15:25,460

either side and I notice it was

270

00:15:35,080 --> 00:15:31,870

perfectly curved and I leveled off and

271

00:15:38,740 --> 00:15:35,090

started cruising at 200 miles an hour

272

00:15:42,060 --> 00:15:38,750

and tried to forget about this storm

273

00:15:45,070 --> 00:15:42,070

because I thought I was clear now and

274

00:15:46,870 --> 00:15:45,080

then only a few minutes later I look in

275

00:15:50,410 --> 00:15:46,880

front of me and here's the opposite of

276

00:15:54,520 --> 00:15:50,420

what I just seen with that perfectly

277

00:15:56,230 --> 00:15:54,530

curved shape of a semicircle only now it

278

00:16:00,350 --> 00:15:56,240

had built up to

279

00:16:05,450 --> 00:16:00,360

over 40,000 feet so I couldn't climb

280

00:16:08,720 --> 00:16:05,460

over it and I fear both go under and

281

00:16:12,770 --> 00:16:08,730

then I looked under and there was no

282

00:16:14,330 --> 00:16:12,780

base to this dorm it had no ceiling

283

00:16:16,940 --> 00:16:14,340

another words usually there's a gap of

284

00:16:19,540 --> 00:16:16,950

rain where you can fly underneath

285

00:16:23,720 --> 00:16:19,550

through the rain usually a couple

286

00:16:25,160 --> 00:16:23,730

thousand feet is the ceiling and but

287

00:16:26,630 --> 00:16:25,170

there it was laying right on the ocean

288

00:16:29,630 --> 00:16:26,640

so I couldn't fly under it so I

289

00:16:35,390 --> 00:16:29,640

penetrated and I'm still going directed

290

00:16:36,470 --> 00:16:35,400

M&E and when I got inside it there

291

00:16:38,900 --> 00:16:36,480

wasn't any rain but there was these

292

00:16:41,150 --> 00:16:38,910

intense flashes of lightning like I'd

293

00:16:43,430 --> 00:16:41,160

never seen before but I heard that

294

00:16:45,440 --> 00:16:43,440

they're not that much they weren't that

295

00:16:47,600 --> 00:16:45,450

unusual curtain of some meteorologist I

296

00:16:50,240 --> 00:16:47,610

talk to you still a lightning folks they

297

00:16:52,070 --> 00:16:50,250

were like flashes and they got really

298

00:16:55,370 --> 00:16:52,080

intense and it started to get a little

299

00:16:57,710 --> 00:16:55,380

scary so I turned that and went back

300

00:17:01,790 --> 00:16:57,720

into the center where it was clear again

301  
00:17:03,290 --> 00:17:01,800  
and then I contacted Miami radio because

302  
00:17:07,130 --> 00:17:03,300  
they had to tell him I was deviating

303  
00:17:09,860 --> 00:17:07,140  
from my flight path and they said fine

304  
00:17:11,180 --> 00:17:09,870  
called me when I get around this storm I

305  
00:17:13,730 --> 00:17:11,190  
told him it was a storm and it's gonna

306  
00:17:16,750 --> 00:17:13,740  
see if I could fly south and get around

307  
00:17:19,880 --> 00:17:16,760  
it and started I started heading south

308  
00:17:22,610 --> 00:17:19,890  
along the edge of it and as I kept going

309  
00:17:24,500 --> 00:17:22,620  
along the curved edge I keep looking

310  
00:17:26,090 --> 00:17:24,510  
ahead of me and now I see that that

311  
00:17:30,650 --> 00:17:26,100  
curved edge is coming back to where it

312  
00:17:32,570 --> 00:17:30,660  
Andros where I come from so apparently

313  
00:17:37,030 --> 00:17:32,580

it seemed obvious I was luck trapped in

314

00:17:42,530 --> 00:17:37,040

this huge circular doughnut shaped storm

315

00:17:46,060 --> 00:17:42,540

and I was in the clear center of it so

316

00:17:53,030 --> 00:17:46,070

now I'm about a hundred miles east of

317

00:17:55,520 --> 00:17:53,040

Miami and then I see where the two ends

318

00:17:58,960 --> 00:17:55,530

of this storm are meeting it was like

319

00:18:05,210 --> 00:17:58,970

apparently it had spread out from Andros

320

00:18:09,139 --> 00:18:05,220

and it spread out in a circular form it

321

00:18:11,239 --> 00:18:09,149

became like taking gasoline pouring

322

00:18:13,249 --> 00:18:11,249

Circle of gasoline and then United on

323

00:18:16,039 --> 00:18:13,259

one and that's what this thorn did it it

324

00:18:19,789 --> 00:18:16,049

and it ignited it didn't act like

325

00:18:21,589 --> 00:18:19,799

abnormal thunderstorm and so that were

326

00:18:25,039 --> 00:18:21,599

the two ends met they met on the bottom

327

00:18:28,070 --> 00:18:25,049

first and then there was like a big

328

00:18:29,989 --> 00:18:28,080

valley in between so that's where I

329

00:18:36,049 --> 00:18:29,999

would wanted to go through and had

330

00:18:37,729 --> 00:18:36,059

direct to Miami and then the top met

331

00:18:39,709 --> 00:18:37,739

they form like two anvil heads and then

332

00:18:44,629 --> 00:18:39,719

the two of anvil heads met together and

333

00:18:47,539 --> 00:18:44,639

it formed a huge horizontal tunnel that

334

00:18:51,039 --> 00:18:47,549

was at least ten miles long and at first

335

00:18:55,849 --> 00:18:51,049

the tunnel was maybe a mile in diameter

336

00:18:56,709 --> 00:18:55,859

it was slowly with the faster than I

337

00:19:01,579 --> 00:18:56,719

realized

338

00:19:04,369 --> 00:19:01,589

getting smaller and we decided to go

339

00:19:05,899 --> 00:19:04,379

ahead and name through it and we went to

340

00:19:09,169 --> 00:19:05,909

full power because I notice it was

341

00:19:11,479 --> 00:19:09,179

getting smaller and it was right about

342

00:19:14,359 --> 00:19:11,489

at the 10,000 foot level so we dug down

343

00:19:15,619 --> 00:19:14,369

and entered into it then when we entered

344

00:19:18,019 --> 00:19:15,629

into this tunnel the something

345

00:19:22,729 --> 00:19:18,029

incredible happened that the instant the

346

00:19:27,139 --> 00:19:22,739

airplane faded into the tunnel these

347

00:19:29,749 --> 00:19:27,149

strange lines instantly formed and they

348

00:19:32,450 --> 00:19:29,759

weren't there when I was outside of the

349

00:19:34,039 --> 00:19:32,460

tunnel no what did you say straight

350

00:19:36,649 --> 00:19:34,049

straight lines

351  
00:19:38,899 --> 00:19:36,659  
yeah they were like well they formed a

352  
00:19:41,690 --> 00:19:38,909  
line they were like Tufts of clouds

353  
00:19:44,959 --> 00:19:41,700  
hovering just off the walls of the

354  
00:19:49,060 --> 00:19:44,969  
tunnel and each cloud was about the size

355  
00:19:53,269 --> 00:19:49,070  
of say a bus and they were slowly

356  
00:19:58,940 --> 00:19:53,279  
rotating counterclockwise like maybe a

357  
00:20:02,329 --> 00:19:58,950  
few are cams and so that was the

358  
00:20:04,039 --> 00:20:02,339  
beginning of the seeing something I

359  
00:20:08,829 --> 00:20:04,049  
believe that was the like seeing the

360  
00:20:13,779 --> 00:20:08,839  
fabric of time when when I I saw this

361  
00:20:17,479 --> 00:20:13,789  
creation inside this tom and so there a

362  
00:20:18,829 --> 00:20:17,489  
it should have taken me almost three

363  
00:20:21,610 --> 00:20:18,839

minutes to get to the other end of the

364

00:20:23,930 --> 00:20:21,620

tunnel because I

365

00:20:28,220 --> 00:20:23,940

studied these tunnels before in athe

366

00:20:31,669 --> 00:20:28,230

last a few minutes so it was gonna be

367

00:20:35,600 --> 00:20:31,679

pretty close but the thing is that I was

368

00:20:39,019 --> 00:20:35,610

only in town for like 20 seconds because

369

00:20:41,990 --> 00:20:39,029

that's when time started changing while

370

00:20:44,560 --> 00:20:42,000

I was in the tunnel and and when I

371

00:20:46,940 --> 00:20:44,570

reached the other end of it

372

00:20:48,860 --> 00:20:46,950

wingtips scraped the edges of it so it

373

00:20:53,060 --> 00:20:48,870

was like less than 30 feet in diameter

374

00:20:56,149 --> 00:20:53,070

now and and then when I made it out the

375

00:20:58,730 --> 00:20:56,159

tunnel and reached the clear blue sky I

376

00:21:03,200 --> 00:20:58,740

looked behind and I watched the total

377

00:21:06,320 --> 00:21:03,210

collapse behind me like a slip that was

378

00:21:08,720 --> 00:21:06,330

now rotating counterclockwise and well

379

00:21:12,289 --> 00:21:08,730

now looking looking but looking back at

380

00:21:14,330 --> 00:21:12,299

this event I mean what where are you or

381

00:21:16,759 --> 00:21:14,340

were you frightened of the fact that it

382

00:21:18,440 --> 00:21:16,769

might have swallowed you up like some of

383

00:21:21,919 --> 00:21:18,450

these other planes and nobody would ever

384

00:21:24,470 --> 00:21:21,929

see you again well no I never heard of

385

00:21:26,629 --> 00:21:24,480

the Bermuda Triangle oh you did you were

386

00:21:27,769 --> 00:21:26,639

not familiar well well let's pretend

387

00:21:31,250 --> 00:21:27,779

that you were I mean because you've

388

00:21:33,110 --> 00:21:31,260

certainly read and heard about it since

389

00:21:35,450 --> 00:21:33,120

then I mean do you think these planes

390

00:21:38,990 --> 00:21:35,460

and all the and ships that have vanished

391

00:21:42,710 --> 00:21:39,000

have gone into some other dimension or

392

00:21:45,470 --> 00:21:42,720

some other time zone yeah some of them

393

00:21:48,009 --> 00:21:45,480

yeah I'm sure they have because it

394

00:21:51,139 --> 00:21:48,019

definitely affected time with me and

395

00:21:54,620 --> 00:21:51,149

what happens is part of my theory is

396

00:21:59,590 --> 00:21:54,630

that within these tunnels like those

397

00:22:08,000 --> 00:22:03,620

the some sort of the electromagnetic

398

00:22:10,610 --> 00:22:08,010

energy is created in the form of a

399

00:22:12,590 --> 00:22:10,620

dipole a positive charge on one side and

400

00:22:15,889 --> 00:22:12,600

negative on the other and they swirl

401  
00:22:19,370 --> 00:22:15,899  
around inside the tunnel and when the

402  
00:22:22,909 --> 00:22:19,380  
total collapses it emits a sphere of

403  
00:22:25,700 --> 00:22:22,919  
what I call electronic fog and and

404  
00:22:30,200 --> 00:22:25,710  
that's the thing where hundreds of

405  
00:22:33,529 --> 00:22:30,210  
planes and ships have n people on land

406  
00:22:35,460 --> 00:22:33,539  
to even have experienced this electronic

407  
00:22:38,430 --> 00:22:35,470  
fog so that's the main thing

408  
00:22:42,480 --> 00:22:38,440  
trying to get the world to understand

409  
00:22:45,340 --> 00:22:42,490  
what's what's what's creating this

410  
00:22:48,390 --> 00:22:45,350  
phenomena these tunnels that form

411  
00:22:52,930 --> 00:22:48,400  
usually around 10,000 feet in between

412  
00:22:56,950 --> 00:22:52,940  
thunderstorms for this special type of

413  
00:22:59,410 --> 00:22:56,960

storm that actually through and when the

414

00:23:01,990 --> 00:22:59,420

tunnel collapses it emits a sphere of

415

00:23:06,760 --> 00:23:02,000

this electronic fog and similar to other

416

00:23:11,070 --> 00:23:06,770

fogs this fog can last for many hours

417

00:23:13,840 --> 00:23:11,080

and you know maybe it could be a hundred

418

00:23:19,960 --> 00:23:13,850

yards or a couple of hundred yards in

419

00:23:20,980 --> 00:23:19,970

diameter and it can go up if there's

420

00:23:23,530 --> 00:23:20,990

updraft sir

421

00:23:28,000 --> 00:23:23,540

there's no updrafts that can drift down

422

00:23:32,160 --> 00:23:28,010

to sea or even to land and it can last

423

00:23:34,480 --> 00:23:32,170

maybe up to a half a day or so alright

424

00:23:37,990 --> 00:23:34,490

and what makes it different than other

425

00:23:40,060 --> 00:23:38,000

foxes that it it attaches but that's

426

00:23:43,750 --> 00:23:40,070

similar to like st. Elmo's fire that

427

00:23:49,990 --> 00:23:43,760

attaches itself to cracks in vessels

428

00:23:53,530 --> 00:23:50,000

well here here comes the fog in the in

429

00:23:55,780 --> 00:23:53,540

the form of music and this music is

430

00:24:03,649 --> 00:23:55,790

telling us that it's time to go to our

431

00:24:10,380 --> 00:24:07,830

now back to exploring the bazaars with

432

00:24:13,710 --> 00:24:10,390

two of the most electrifying researchers

433

00:24:19,019 --> 00:24:13,720

in the Paranoid your hosts Timothy Becca

434

00:24:20,940 --> 00:24:19,029

Lee panting s'mores all right welcome

435

00:24:24,450 --> 00:24:20,950

back to exploring the bazaar I'm Tim

436

00:24:26,850 --> 00:24:24,460

Swartz tonight we are talking with Bruce

437

00:24:29,850 --> 00:24:26,860

Gernon and in this little bit will bring

438

00:24:36,899 --> 00:24:29,860

Mack Maloney into the conversation but I

439

00:24:40,620 --> 00:24:36,909

want to ask Bruce here Bruce when when

440

00:24:43,340 --> 00:24:40,630

you exited this this unusual weather

441

00:24:45,840 --> 00:24:43,350

phenomena I'm sure at the time that you

442

00:24:49,529 --> 00:24:45,850

thought that you know you had just gone

443

00:24:53,000 --> 00:24:49,539

through you know like a thunderstorm all

444

00:24:57,149 --> 00:24:53,010

being a you know a bizarre one what

445

00:25:00,180 --> 00:24:57,159

happened afterwards that showed you that

446

00:25:02,340 --> 00:25:00,190

this wasn't an ordinary storm that that

447

00:25:04,070 --> 00:25:02,350

something weird had just happened to you

448

00:25:07,560 --> 00:25:04,080

and your father

449

00:25:09,840 --> 00:25:07,570

well after I made it through the end of

450

00:25:13,470 --> 00:25:09,850

the tunnel another incredible thing

451  
00:25:15,600 --> 00:25:13,480  
happened the blue sky that I was

452  
00:25:19,880 --> 00:25:15,610  
planning on flying through immediately

453  
00:25:25,200 --> 00:25:19,890  
turned dark gray kind of a yellowish

454  
00:25:27,060 --> 00:25:25,210  
eggnog type of gray and then I also felt

455  
00:25:31,560 --> 00:25:27,070  
this strange sensation that lasted

456  
00:25:33,450 --> 00:25:31,570  
almost 10 seconds of zero gravity but it

457  
00:25:37,080 --> 00:25:33,460  
wasn't just zero gravity it was also a

458  
00:25:40,409 --> 00:25:37,090  
feeling of skidding forward like I was

459  
00:25:46,490 --> 00:25:40,419  
hydroplaning and I've never felt that

460  
00:25:48,810 --> 00:25:46,500  
feeling before or after and I look at my

461  
00:25:51,779 --> 00:25:48,820  
instruments to see where I'm hitting and

462  
00:25:55,799 --> 00:25:51,789  
it's what's supposed to be straight for

463  
00:25:59,940 --> 00:25:55,809

Miami and my compass is spinning all by

464

00:26:03,840 --> 00:25:59,950

itself and my three electronic

465

00:26:07,529 --> 00:26:03,850

navigational instruments are all

466

00:26:10,830 --> 00:26:07,539

malfunctioning so I couldn't figure out

467

00:26:11,820 --> 00:26:10,840

my exact position I should be 90 miles

468

00:26:13,380 --> 00:26:11,830

east of Miami

469

00:26:19,450 --> 00:26:13,390

and

470

00:26:19,990 --> 00:26:19,460

realized that everything was going

471

00:26:22,540 --> 00:26:20,000

haywire

472

00:26:24,550 --> 00:26:22,550

and now not only that I there was no

473

00:26:27,310 --> 00:26:24,560

more visibility and yet visibility

474

00:26:29,560 --> 00:26:27,320

appeared to be good it was like a I

475

00:26:30,910 --> 00:26:29,570

thought I could kind of make out the

476

00:26:33,000 --> 00:26:30,920

ocean but didn't look like the ocean

477

00:26:37,180 --> 00:26:33,010

I couldn't see the horizon or the sky

478

00:26:41,860 --> 00:26:37,190

and so I got on the radio and I was able

479

00:26:44,910 --> 00:26:41,870

to contact me any radio and they

480

00:26:48,250 --> 00:26:44,920

couldn't find me I wasn't on their radar

481

00:26:53,710 --> 00:26:48,260

and so I you know I told them I was like

482

00:26:55,270 --> 00:26:53,720

90 miles from Miami and they said there

483

00:26:59,050 --> 00:26:55,280

weren't any airplanes anywhere even know

484

00:27:04,060 --> 00:26:59,060

they're Miami hmm or give me anywhere in

485

00:27:05,740 --> 00:27:04,070

that area and so my dad kind of went

486

00:27:07,890 --> 00:27:05,750

into a state of panic at that point I

487

00:27:12,000 --> 00:27:07,900

was able to calm down and in my

488

00:27:14,860 --> 00:27:12,010

passenger or business partner became

489

00:27:17,230 --> 00:27:14,870

nauseous or something like that he was

490

00:27:20,410 --> 00:27:17,240

talking to me and I couldn't understand

491

00:27:22,900 --> 00:27:20,420

a word he was saying that he was kind of

492

00:27:28,030 --> 00:27:22,910

like going that almost out of his mind I

493

00:27:30,520 --> 00:27:28,040

suppose but and then so the radar

494

00:27:32,050 --> 00:27:30,530

controller couldn't help me so I I said

495

00:27:36,930 --> 00:27:32,060

logged we just keep flying see what

496

00:27:39,460 --> 00:27:36,940

happened and then after three minutes

497

00:27:42,100 --> 00:27:39,470

another incredible things happens his

498

00:27:43,780 --> 00:27:42,110

mind's form parallel to the direction of

499

00:27:47,890 --> 00:27:43,790

flight of the airplane at the time I

500

00:27:51,180 --> 00:27:47,900

thought the lines were maybe a few miles

501  
00:27:54,520 --> 00:27:51,190  
long but that was an hallucination

502  
00:27:57,430 --> 00:27:54,530  
because I was in this cocoon of fog and

503  
00:27:59,920 --> 00:27:57,440  
so those lines are actually only a few

504  
00:28:04,110 --> 00:27:59,930  
hundred yards long and then the Lions

505  
00:28:07,180 --> 00:28:04,120  
cracked open and I could see a sky

506  
00:28:08,800 --> 00:28:07,190  
through the cracks and it took about ten

507  
00:28:11,890 --> 00:28:08,810  
seconds for the lines to get wider and

508  
00:28:15,490 --> 00:28:11,900  
wider and the cracks get wider and then

509  
00:28:19,690 --> 00:28:15,500  
they're all gone and I'm in clear blue

510  
00:28:22,210 --> 00:28:19,700  
sky and the radar controller was real

511  
00:28:23,950 --> 00:28:22,220  
excited he gets on the mic and he says I

512  
00:28:27,340 --> 00:28:23,960  
got a plane to it there were Miami Beach

513  
00:28:30,440 --> 00:28:27,350

and I look at my watch

514

00:28:32,330 --> 00:28:30,450

I've only been flying for 33 minutes

515

00:28:34,520 --> 00:28:32,340

I got another 30 minutes before I

516

00:28:35,480 --> 00:28:34,530

reached Miami besides I never saw Bimini

517

00:28:38,740 --> 00:28:35,490

we were supposed to fly right over

518

00:28:41,300 --> 00:28:38,750

Bimini the chain of islands and Bimini

519

00:28:43,250 --> 00:28:41,310

he says are you sure and then I my eyes

520

00:28:45,920 --> 00:28:43,260

focused finding in there it was Miami

521

00:28:48,260 --> 00:28:45,930

Beach right below me so I thanked him

522

00:28:49,670 --> 00:28:48,270

and signed off with him and then I had

523

00:28:51,260 --> 00:28:49,680

to go way out west to fly around another

524

00:28:53,600 --> 00:28:51,270

huge thunderstorm which is kind of

525

00:28:55,220 --> 00:28:53,610

unusual because there was like a bridge

526

00:28:57,740 --> 00:28:55,230

that I had to fly underneath down the

527

00:28:59,770 --> 00:28:57,750

500 feet over the Everglades way out

528

00:29:02,960 --> 00:28:59,780

west to get to Palm Beach International

529

00:29:07,430 --> 00:29:02,970

and so the whole flight was like 250

530

00:29:11,740 --> 00:29:07,440

miles long and it always took me at

531

00:29:14,930 --> 00:29:11,750

least 75 minutes to make that flight and

532

00:29:17,480 --> 00:29:14,940

when I landed it it looked at my watch

533

00:29:20,210 --> 00:29:17,490

and it had only taken 45 minutes so

534

00:29:23,690 --> 00:29:20,220

there was somehow I got there 30 minutes

535

00:29:26,450 --> 00:29:23,700

ahead of time and then I also saved 10

536

00:29:29,060 --> 00:29:26,460

gallons of fuel now if we could just get

537

00:29:30,830 --> 00:29:29,070

the the captain of American Airlines

538

00:29:37,340 --> 00:29:30,840

flight that I take to do the same thing

539

00:29:40,490 --> 00:29:37,350

I'll be okay I'm not sure I'm not sure

540

00:29:42,440 --> 00:29:40,500

about that Tim I think that Bruce Bruce

541

00:29:46,640 --> 00:29:42,450

was lucky that they came out of it

542

00:29:49,910 --> 00:29:46,650

because I mean if if other planes or

543

00:29:51,980 --> 00:29:49,920

ships or just you know I mean there

544

00:29:53,510 --> 00:29:51,990

there may be cases where people went

545

00:29:56,510 --> 00:29:53,520

through this but never came out the

546

00:29:59,540 --> 00:29:56,520

other side well you know even on not

547

00:30:03,140 --> 00:29:59,550

only in the air around you whatever

548

00:30:05,870 --> 00:30:03,150

possibly on land as as well I mean we've

549

00:30:10,970 --> 00:30:05,880

got hundreds of cases where people just

550

00:30:14,420 --> 00:30:10,980

seem to walk into oblivion in fact in

551  
00:30:17,000 --> 00:30:14,430  
our UFO hostilities a book remember we

552  
00:30:19,940 --> 00:30:17,010  
wrote about an incident that took place

553  
00:30:23,780 --> 00:30:19,950  
in World War one where a whole battalion

554  
00:30:25,330 --> 00:30:23,790  
walked into a cloudbank supposedly and

555  
00:30:30,980 --> 00:30:25,340  
was never seen again

556  
00:30:33,190 --> 00:30:30,990  
no so you know it's it seems like

557  
00:30:38,810 --> 00:30:33,200  
throughout history that there have been

558  
00:30:39,769 --> 00:30:38,820  
other cases that are amazingly similar

559  
00:30:42,200 --> 00:30:39,779  
to

560  
00:30:43,999 --> 00:30:42,210  
what what bruce describes which which

561  
00:30:47,690 --> 00:30:44,009  
makes me curious bruce have you talked

562  
00:30:49,459 --> 00:30:47,700  
to anybody who you know after you know

563  
00:30:51,019 --> 00:30:49,469

you went public with your experience

564

00:30:52,729 --> 00:30:51,029

that has anybody come to you and said

565

00:30:54,109 --> 00:30:52,739

you know i went through the same thing

566

00:30:57,680 --> 00:30:54,119

but i wasn't going to tell anybody about

567

00:31:02,779 --> 00:30:57,690

it because it's too weird I've talked to

568

00:31:05,419 --> 00:31:02,789

the dozens of boaters and pilots that

569

00:31:08,810 --> 00:31:05,429

have experienced the electronic fog but

570

00:31:12,469 --> 00:31:08,820

I only communicated with one other

571

00:31:16,849 --> 00:31:12,479

family that their grandfather flew

572

00:31:20,379 --> 00:31:16,859

through a tunnel similar to mine and it

573

00:31:26,269 --> 00:31:20,389

was near the Carolinas and and he had a

574

00:31:28,190 --> 00:31:26,279

space warp of a few hundred miles after

575

00:31:33,349 --> 00:31:28,200

he came out of the tunnel similar bit to

576

00:31:36,789 --> 00:31:33,359

me and not only that he he went backward

577

00:31:41,560 --> 00:31:36,799

in time instead of forward he went back

578

00:31:47,440 --> 00:31:41,570

like a whole day oh wow he was fine a

579

00:31:50,329 --> 00:31:47,450

gypsy moth twin it's a double winger

580

00:31:55,310 --> 00:31:50,339

back in World War two was a flight

581

00:31:57,200 --> 00:31:55,320

trainer thing and it he you should

582

00:31:59,810 --> 00:31:57,210

always tell all this family about it and

583

00:32:01,999 --> 00:31:59,820

the grandkids were thought he would

584

00:32:04,940 --> 00:32:02,009

might have been crazy till they read my

585

00:32:06,409 --> 00:32:04,950

book and then they realized that their

586

00:32:09,409 --> 00:32:06,419

grandfather actually probably

587

00:32:12,229 --> 00:32:09,419

experienced the same thing as me and so

588

00:32:14,810 --> 00:32:12,239

we wanted to write their story in my new

589

00:32:19,369 --> 00:32:14,820

book and because it was a great story

590

00:32:21,169 --> 00:32:19,379

and they wouldn't let us do it I'm

591

00:32:22,339 --> 00:32:21,179

saying well why not and I say this is

592

00:32:27,169 --> 00:32:22,349

because we're gonna write a book about

593

00:32:29,149 --> 00:32:27,179

it and of course they probably never

594

00:32:33,109 --> 00:32:29,159

will probably because it's very

595

00:32:34,539 --> 00:32:33,119

difficult to get it look man that's too

596

00:32:38,869 --> 00:32:34,549

bad

597

00:32:42,919 --> 00:32:38,879

well now okay do you is this phenomena

598

00:32:46,549 --> 00:32:42,929

the electronic fog is it can it happen

599

00:32:49,339 --> 00:32:46,559

anywhere or are there places like say

600

00:32:55,960 --> 00:32:49,349

like the Bermuda Triangle where it can

601  
00:33:03,080 --> 00:33:00,590  
areas not too far from the equator and

602  
00:33:06,460 --> 00:33:03,090  
it can happen even in the edge of the

603  
00:33:10,430 --> 00:33:06,470  
Everglades I experienced it there in

604  
00:33:16,130 --> 00:33:10,440  
1996 I experienced a weaker form of

605  
00:33:17,900 --> 00:33:16,140  
electronic fog withers it is scary to

606  
00:33:22,190 --> 00:33:17,910  
experience and my wife was with me she

607  
00:33:24,730 --> 00:33:22,200  
was really it's freaking out well an

608  
00:33:27,920 --> 00:33:24,740  
interesting part about that was that

609  
00:33:30,140 --> 00:33:27,930  
when I got caught in this fog the

610  
00:33:33,710 --> 00:33:30,150  
electronic fog over the Everglades I was

611  
00:33:36,980 --> 00:33:33,720  
able to contact the weather bureau a

612  
00:33:40,970 --> 00:33:36,990  
fight service station that called to get

613  
00:33:43,030 --> 00:33:40,980

a detailed weather report I told them

614

00:33:47,450 --> 00:33:43,040

because I was a little nervous that I

615

00:33:48,980 --> 00:33:47,460

didn't have a lot of fuel and I didn't

616

00:33:53,000 --> 00:33:48,990

want I didn't know if I'd be able to

617

00:33:54,470 --> 00:33:53,010

land through this fog and then he teach

618

00:33:55,910 --> 00:33:54,480

over there there was no fog reported

619

00:33:58,610 --> 00:33:55,920

anywhere in Florida

620

00:34:01,520 --> 00:33:58,620

wow you got like that could certainly

621

00:34:06,830 --> 00:34:01,530

that could be certainly be a dangerous

622

00:34:09,110 --> 00:34:06,840

now you know I wanted to bring back into

623

00:34:11,540 --> 00:34:09,120

the the conversation here now Mac I

624

00:34:14,260 --> 00:34:11,550

heard a couple of cases and I don't know

625

00:34:17,600 --> 00:34:14,270

if you're familiar with with them where

626  
00:34:19,670 --> 00:34:17,610  
people you know they'll fly up flying in

627  
00:34:23,210 --> 00:34:19,680  
small planes and all would be a going

628  
00:34:25,790 --> 00:34:23,220  
over a of a like an old military base or

629  
00:34:29,080 --> 00:34:25,800  
military base and they would see an

630  
00:34:33,350 --> 00:34:29,090  
event that took place on the ground

631  
00:34:36,860 --> 00:34:33,360  
years and years before the does that

632  
00:34:39,380 --> 00:34:36,870  
ring a bell with you yeah we have a

633  
00:34:42,200 --> 00:34:39,390  
story in the book content universe about

634  
00:34:44,060 --> 00:34:42,210  
just such a thing there was a right well

635  
00:34:49,340 --> 00:34:44,070  
let's say eight years before world war

636  
00:34:52,490 --> 00:34:49,350  
ii broke out this senior pilot in the

637  
00:34:55,400 --> 00:34:52,500  
RAF was flying a just a training flight

638  
00:34:59,090 --> 00:34:55,410

or a shuttle flight heading back to a

639

00:35:00,740 --> 00:34:59,100

base I think outside London and he flew

640

00:35:01,210 --> 00:35:00,750

over into his bad weather and he flew

641

00:35:03,860 --> 00:35:01,220

over

642

00:35:06,050 --> 00:35:03,870

he got lowered to the ground just to try

643

00:35:07,549 --> 00:35:06,060

to pick up some landmarks to make sure

644

00:35:10,729 --> 00:35:07,559

he was going in the right direction

645

00:35:12,410 --> 00:35:10,739

he saw this base below him and he

646

00:35:14,209 --> 00:35:12,420

actually wrote down the number of

647

00:35:16,160 --> 00:35:14,219

details about it you know what kind of

648

00:35:18,049 --> 00:35:16,170

planes were there they didn't look

649

00:35:20,029 --> 00:35:18,059

really right to him and that all the

650

00:35:21,589 --> 00:35:20,039

people on the ground that he could see

651  
00:35:23,289 --> 00:35:21,599  
the yeah and the mechanics and someone

652  
00:35:27,140 --> 00:35:23,299  
there right there wearing bright yellow

653  
00:35:29,689 --> 00:35:27,150  
which was also very odd and so then he

654  
00:35:31,459 --> 00:35:29,699  
you know was able to get home and then

655  
00:35:33,469 --> 00:35:31,469  
yeah eight years later turns out that

656  
00:35:35,809 --> 00:35:33,479  
this base which had been deactivated

657  
00:35:38,209 --> 00:35:35,819  
after World War one I believe it had

658  
00:35:40,999 --> 00:35:38,219  
been reactivated when World War two came

659  
00:35:42,920 --> 00:35:41,009  
along and the planes were newer planes

660  
00:35:45,949 --> 00:35:42,930  
then you know he had ever seen at that

661  
00:35:47,779 --> 00:35:45,959  
time and and the people walking around

662  
00:35:51,079 --> 00:35:47,789  
in the yellow overalls those were rubbed

663  
00:35:53,150 --> 00:35:51,089

the RAF had issued them to trainees to

664

00:35:55,549 --> 00:35:53,160

mechanics who were training they would

665

00:35:57,410 --> 00:35:55,559

wear yellow so people would could kind

666

00:35:59,479 --> 00:35:57,420

of differentiate them from you know the

667

00:36:02,749 --> 00:35:59,489

real mechanics so this guy you know I

668

00:36:05,269 --> 00:36:02,759

mean he was just a solid you know guy

669

00:36:07,309 --> 00:36:05,279

and no-nonsense type guy but he could

670

00:36:09,699 --> 00:36:07,319

only conclude that you know he somehow

671

00:36:14,029 --> 00:36:09,709

was able to have a peek into the future

672

00:36:17,390 --> 00:36:14,039

well you know I've heard of a few cases

673

00:36:19,429 --> 00:36:17,400

over the years that were kind of similar

674

00:36:22,729 --> 00:36:19,439

to that and of course I think Tim now

675

00:36:25,209 --> 00:36:22,739

you've written about incidents and the

676  
00:36:27,949 --> 00:36:25,219  
episodes where people were driving along

677  
00:36:31,099 --> 00:36:27,959  
and they actually got to seem to have

678  
00:36:34,099 --> 00:36:31,109  
gotten sucked into some vortex or some

679  
00:36:39,579 --> 00:36:34,109  
tunnel oh yeah yeah well I mean the the

680  
00:36:42,979 --> 00:36:39,589  
whole time slip phenomena a lot of times

681  
00:36:46,519 --> 00:36:42,989  
begins when a person is you know walking

682  
00:36:49,759 --> 00:36:46,529  
along or driving along and suddenly

683  
00:36:52,999 --> 00:36:49,769  
they'll find themselves you know like in

684  
00:36:54,259 --> 00:36:53,009  
in a fog bank that and then you know

685  
00:36:56,599 --> 00:36:54,269  
they'll they'll have their experience

686  
00:37:00,650 --> 00:36:56,609  
and then when the experience is over the

687  
00:37:02,449 --> 00:37:00,660  
fog dissipates and they're you know back

688  
00:37:05,469 --> 00:37:02,459

to where they started

689

00:37:07,729 --> 00:37:05,479

there are numerous stories where

690

00:37:11,509 --> 00:37:07,739

especially at night where people will be

691

00:37:13,969 --> 00:37:11,519

driving along and it'll get foggy and

692

00:37:15,439 --> 00:37:13,979

it'll be so bad that they feel like you

693

00:37:17,179 --> 00:37:15,449

know that they have to stop for the

694

00:37:20,089 --> 00:37:17,189

night you know they'll stop someplace

695

00:37:21,170 --> 00:37:20,099

they'll find say like like an inn or a

696

00:37:23,030 --> 00:37:21,180

hotel

697

00:37:26,390 --> 00:37:23,040

you know they'll stay there have a great

698

00:37:27,950 --> 00:37:26,400

time and the next morning they'll leave

699

00:37:31,010 --> 00:37:27,960

and then you know maybe on their way

700

00:37:34,760 --> 00:37:31,020

back look for this place and it's not

701

00:37:41,630 --> 00:37:34,770

there I don't think the Eagles are this

702

00:37:44,960 --> 00:37:41,640

thing that they're welcome but the odd

703

00:37:46,280 --> 00:37:44,970

thing is is that a lot of times you know

704

00:37:48,650 --> 00:37:46,290

because you would think oh well you know

705

00:37:49,970 --> 00:37:48,660

if this was say like a time slip or you

706

00:37:52,099 --> 00:37:49,980

know like kind of like what we're

707

00:37:53,839 --> 00:37:52,109

talking about that you know they'd go

708

00:37:55,640 --> 00:37:53,849

back and people will say oh yeah well

709

00:37:57,140 --> 00:37:55,650

you know there used to be a hotel you

710

00:38:00,260 --> 00:37:57,150

know in this location but it burnt down

711

00:38:02,660 --> 00:38:00,270

you know years ago but a lot of times

712

00:38:05,000 --> 00:38:02,670

there'll be nothing you know people were

713

00:38:06,829 --> 00:38:05,010

like no there's never been anything like

714

00:38:10,010 --> 00:38:06,839

that around here which is just really to

715

00:38:14,180 --> 00:38:10,020

me just adds to the mystery well you

716

00:38:16,220 --> 00:38:14,190

know it's a Mac now what in this new

717

00:38:19,099 --> 00:38:16,230

this new book that you have just come

718

00:38:19,760 --> 00:38:19,109

out with a what a couple of weeks ago or

719

00:38:26,240 --> 00:38:19,770

a month ago

720

00:38:28,849 --> 00:38:26,250

what what is the main thrust of the this

721

00:38:30,170 --> 00:38:28,859

particular one title well you know as

722

00:38:32,420 --> 00:38:30,180

you know I had written that to

723

00:38:36,190 --> 00:38:32,430

ufo-related books before you opposed in

724

00:38:39,020 --> 00:38:36,200

a long time and also beyond area 51 and

725

00:38:41,750 --> 00:38:39,030

so I had a lot of research that I had

726

00:38:43,430 --> 00:38:41,760

gathered you know in the course of

727

00:38:44,809 --> 00:38:43,440

researching those books that you just

728

00:38:46,520 --> 00:38:44,819

never got to use it you know it just

729

00:38:48,680 --> 00:38:46,530

didn't fit here or there or whatever and

730

00:38:51,440 --> 00:38:48,690

I've been collecting weird stories you

731

00:38:53,750 --> 00:38:51,450

know almost all my life anyway and then

732

00:38:55,730 --> 00:38:53,760

so I combined that with my works for a

733

00:38:58,730 --> 00:38:55,740

couple years for Turner Broadcasting on

734

00:39:00,319 --> 00:38:58,740

there or a conspiratorial website and we

735

00:39:02,809 --> 00:39:00,329

would come up with 10 strange stories

736

00:39:05,510 --> 00:39:02,819

every month and basically get pictures

737

00:39:07,760 --> 00:39:05,520

of them and caption them and so I had a

738

00:39:10,609 --> 00:39:07,770

lot of material left over from that and

739

00:39:13,579 --> 00:39:10,619

also not that we're in competition but

740

00:39:16,370 --> 00:39:13,589

you know I do my own radio show Mac

741

00:39:19,400 --> 00:39:16,380

Molly's military exile show and we have

742

00:39:24,079 --> 00:39:19,410

usually two UFO cases or strange cases

743

00:39:26,210 --> 00:39:24,089

on there every week and that also piles

744

00:39:28,549 --> 00:39:26,220

up research wise so I just combined it

745

00:39:30,380 --> 00:39:28,559

all together there's about 250 very

746

00:39:33,079 --> 00:39:30,390

strange stories in there and it's yell

747

00:39:34,810 --> 00:39:33,089

ghost planes ghost ships haunted

748

00:39:39,780 --> 00:39:34,820

battlefields

749

00:39:44,290 --> 00:39:39,790

a monster for every state of the union

750

00:39:46,870 --> 00:39:44,300

and just one way I've got what what

751  
00:39:49,300 --> 00:39:46,880  
would we have here in New York yes

752  
00:39:52,750 --> 00:39:49,310  
little noise I'll have to look it up but

753  
00:39:54,850 --> 00:39:52,760  
I know you have one well you know of

754  
00:39:58,440 --> 00:39:54,860  
course the New Jersey we got to Jersey

755  
00:40:01,210 --> 00:39:58,450  
Devil that's the the most popular one

756  
00:40:04,900 --> 00:40:01,220  
there's a lot of Bigfoot sightings and

757  
00:40:07,780 --> 00:40:04,910  
in New York here over the over the years

758  
00:40:09,820 --> 00:40:07,790  
that's for sure what would you say were

759  
00:40:12,420 --> 00:40:09,830  
your top two or three

760  
00:40:15,700 --> 00:40:12,430  
you know cases that you put a lot of

761  
00:40:18,940 --> 00:40:15,710  
mustard in and turn a mustard gas but

762  
00:40:21,670 --> 00:40:18,950  
mustard it's the whole thing I mean well

763  
00:40:24,460 --> 00:40:21,680

the one thing about the book is that for

764

00:40:27,490 --> 00:40:24,470

the most part the story is a very brief

765

00:40:31,210 --> 00:40:27,500

I grew up reading those ripples believe

766

00:40:33,250 --> 00:40:31,220

it or not oh yeah you know and I just

767

00:40:36,100 --> 00:40:33,260

loved that kind of stuff so that was the

768

00:40:37,900 --> 00:40:36,110

format we put this in and with the idea

769

00:40:39,580 --> 00:40:37,910

being that you know there's so many

770

00:40:41,920 --> 00:40:39,590

stories and they're in their own and

771

00:40:44,020 --> 00:40:41,930

then they're also bit strange most of

772

00:40:46,060 --> 00:40:44,030

them are very very strange that by the

773

00:40:47,710 --> 00:40:46,070

time you read the book you know if you

774

00:40:49,390 --> 00:40:47,720

read it cover-to-cover at the end you

775

00:40:52,870 --> 00:40:49,400

have to save you know we really live in

776

00:40:56,230 --> 00:40:52,880

a very weird existence a very strange

777

00:40:57,370 --> 00:40:56,240

reality you know one of the strange

778

00:40:59,860 --> 00:40:57,380

things happen all the time they don't

779

00:41:01,720 --> 00:40:59,870

have to be paranormal necessarily though

780

00:41:03,460 --> 00:41:01,730

a lot of them are but just odd things

781

00:41:05,470 --> 00:41:03,470

like for instance in world war one

782

00:41:07,660 --> 00:41:05,480

talked about mustard gas and we'll go

783

00:41:12,040 --> 00:41:07,670

one there was an enormous battle in

784

00:41:13,900 --> 00:41:12,050

summer of 1917 in there a Belgian

785

00:41:15,850 --> 00:41:13,910

village whose name I'm not even gonna

786

00:41:18,760 --> 00:41:15,860

try to pronounce but you can imagine it

787

00:41:21,580 --> 00:41:18,770

was right on the front lines the the no

788

00:41:23,890 --> 00:41:21,590

man zone and the trenches facing each

789

00:41:26,500 --> 00:41:23,900

other and this son battle was so intense

790

00:41:27,940 --> 00:41:26,510

they actually took aerial photographs

791

00:41:30,810 --> 00:41:27,950

over afterwards and they found out that

792

00:41:33,820 --> 00:41:30,820

there was more than a million Tillery

793

00:41:37,290 --> 00:41:33,830

craters within a square mile and that's

794

00:41:39,940 --> 00:41:37,300

an enormous enormous number of of

795

00:41:42,550 --> 00:41:39,950

artillery being shot back and forth

796

00:41:44,530 --> 00:41:42,560

anyway with all this stuff going on and

797

00:41:47,050 --> 00:41:44,540

this battle going on every day and it

798

00:41:47,980 --> 00:41:47,060

was also the rainiest summit that they

799

00:41:49,660 --> 00:41:47,990

had had in

800

00:41:52,000 --> 00:41:49,670

Europe in a long long time it turned all

801  
00:41:54,910 --> 00:41:52,010  
this trend of birth to mud and in some

802  
00:41:56,350 --> 00:41:54,920  
cases the mud was 15 20 feet thick and

803  
00:41:58,570 --> 00:41:56,360  
so what would happened is soldiers on

804  
00:42:00,100 --> 00:41:58,580  
both side they just take a misstep or

805  
00:42:01,750 --> 00:42:00,110  
whatever and they disappear into the mud

806  
00:42:04,630 --> 00:42:01,760  
and they'd be gone forever literally

807  
00:42:06,100 --> 00:42:04,640  
gone forever at the end of the battle

808  
00:42:08,350 --> 00:42:06,110  
more than a million half a million

809  
00:42:10,330 --> 00:42:08,360  
people have been killed and a hundred

810  
00:42:12,160 --> 00:42:10,340  
thousand of them had just were never

811  
00:42:14,590 --> 00:42:12,170  
identified they had many of them had

812  
00:42:16,840 --> 00:42:14,600  
just disappeared into this into this mud

813  
00:42:19,150 --> 00:42:16,850

we call it the Haunted mud so that's

814

00:42:22,330 --> 00:42:19,160

just a frightening type thing to happen

815

00:42:23,920 --> 00:42:22,340

but also like very weird and the stories

816

00:42:27,730 --> 00:42:23,930

that the book is filled with kind of

817

00:42:30,340 --> 00:42:27,740

stories unusual stories like that yeah

818

00:42:33,310 --> 00:42:30,350

the thing that that I enjoyed about this

819

00:42:34,420 --> 00:42:33,320

book Mac is that it reminded me of well

820

00:42:37,080 --> 00:42:34,430

you know like you said you know when I

821

00:42:39,310 --> 00:42:37,090

was a kid I used to be able to buy these

822

00:42:41,020 --> 00:42:39,320

paperbacks at the drugstore you know

823

00:42:42,550 --> 00:42:41,030

Brad Steiger wrote a lot of them you

824

00:42:45,250 --> 00:42:42,560

know they had titles like you know the

825

00:42:47,920 --> 00:42:45,260

weirdest ghost stories or you know weird

826

00:42:49,720 --> 00:42:47,930

psychic women things like that and the

827

00:42:50,890 --> 00:42:49,730

same kind of format there that you had

828

00:42:53,680 --> 00:42:50,900

you know like maybe just a couple of

829

00:42:55,960 --> 00:42:53,690

pages you know or a page per story right

830

00:42:58,210 --> 00:42:55,970

and boy I just say I'd take those up so

831

00:42:59,820 --> 00:42:58,220

it's nice to see you know that that

832

00:43:02,890 --> 00:42:59,830

you're continuing this kind of format

833

00:43:05,890 --> 00:43:02,900

yeah I just like it because as I said I

834

00:43:08,740 --> 00:43:05,900

liked it as a kid even though I'm a

835

00:43:11,440 --> 00:43:08,750

writer I have I don't like to read long

836

00:43:13,930 --> 00:43:11,450

long long passages of text maybe because

837

00:43:17,020 --> 00:43:13,940

in my bad dreams I'm typing it or

838

00:43:19,030 --> 00:43:17,030

something I don't know yeah you know but

839

00:43:20,950 --> 00:43:19,040

you know just just to kind of get the

840

00:43:23,320 --> 00:43:20,960

gist of you know what the particular

841

00:43:24,760 --> 00:43:23,330

incident what went on and and you know

842

00:43:26,410 --> 00:43:24,770

is you know I think two or three

843

00:43:28,660 --> 00:43:26,420

paragraphs you know kind of says it all

844

00:43:31,060 --> 00:43:28,670

and it's a jumping-off point in a way

845

00:43:32,620 --> 00:43:31,070

for people you know they want to explore

846

00:43:33,940 --> 00:43:32,630

more you know just you know then do a

847

00:43:35,980 --> 00:43:33,950

little more research and you'll see you

848

00:43:38,440 --> 00:43:35,990

destroy behind the story but we also

849

00:43:40,840 --> 00:43:38,450

have strange things in there like you

850

00:43:44,040 --> 00:43:40,850

know 10 were spies ever in the 10 worst

851  
00:43:46,540 --> 00:43:44,050  
military ideas ever at one point in 1958

852  
00:43:49,240 --> 00:43:46,550  
the Pentagon wanted to detonate a

853  
00:43:50,550 --> 00:43:49,250  
nuclear bomb on the moon to show the

854  
00:43:52,750 --> 00:43:50,560  
Russians that you know we weren't

855  
00:43:55,060 --> 00:43:52,760  
lagging behind in the space race after

856  
00:43:56,770 --> 00:43:55,070  
the Sputnik went up in fact Kyle Sagan a

857  
00:43:59,380 --> 00:43:56,780  
young house egg was one of the people

858  
00:44:00,460 --> 00:43:59,390  
who promoted this idea and finally

859  
00:44:03,070 --> 00:44:00,470  
someone in the Pentagon

860  
00:44:04,690 --> 00:44:03,080  
you know had you know cooler heads

861  
00:44:05,950 --> 00:44:04,700  
prevailed I guess less saying it has

862  
00:44:08,290 --> 00:44:05,960  
prevailed they said won't we just take

863  
00:44:09,940 --> 00:44:08,300

the money and and put a man on the moon

864

00:44:12,310 --> 00:44:09,950

and that was like one of the things that

865

00:44:14,170 --> 00:44:12,320

started pushing the de Luna flights but

866

00:44:16,599 --> 00:44:14,180

at one point they were gonna detonate a

867

00:44:18,670 --> 00:44:16,609

nuclear bomb on the moon at night during

868

00:44:21,540 --> 00:44:18,680

a full moon so people in the United

869

00:44:23,859 --> 00:44:21,550

States could actually see the explosion

870

00:44:29,230 --> 00:44:23,869

wow that's a bad idea

871

00:44:33,640 --> 00:44:29,240

yeah it's a very bad idea they need to

872

00:44:36,430 --> 00:44:33,650

do that on the 4th of July yeah well I

873

00:44:38,490 --> 00:44:36,440

mean that's no worse than what they did

874

00:44:42,070 --> 00:44:38,500

they you know exploded nuclear weapons

875

00:44:44,220 --> 00:44:42,080

like over not over Hawaii but over the

876

00:44:48,609 --> 00:44:44,230

Pacific up in the atmosphere

877

00:44:51,670 --> 00:44:48,619

yeah yeah they would have you know

878

00:44:53,230 --> 00:44:51,680

because you never really get rid of that

879

00:44:55,030 --> 00:44:53,240

stuff we know that by now I'm talking

880

00:44:57,849 --> 00:44:55,040

about the radioactivity you know but you

881

00:45:00,960 --> 00:44:57,859

know it does you know we can and so on

882

00:45:03,790 --> 00:45:00,970

and so forth and and it it it doesn't

883

00:45:05,800 --> 00:45:03,800

contaminate the earth really but if they

884

00:45:07,720 --> 00:45:05,810

had you know detonated a nuclear bomb on

885

00:45:09,070 --> 00:45:07,730

the moon there is no atmosphere anything

886

00:45:11,620 --> 00:45:09,080

that happens up there stays forever

887

00:45:12,790 --> 00:45:11,630

though the astronauts moon boots the

888

00:45:14,740 --> 00:45:12,800

footprints are going to stay there for

889

00:45:16,060 --> 00:45:14,750

hundreds of thousands of years and the

890

00:45:17,079 --> 00:45:16,070

whole place would have been cantar over

891

00:45:18,640 --> 00:45:17,089

large part of them would have been

892

00:45:21,370 --> 00:45:18,650

contaminated with radioactivity that

893

00:45:23,910 --> 00:45:21,380

wasn't going to go away so that was I

894

00:45:28,930 --> 00:45:23,920

mean it's it's it's arrogance beyond

895

00:45:30,579 --> 00:45:28,940

mindless thinking in my opinion no what

896

00:45:33,130 --> 00:45:30,589

do they don't want us to lay in there I

897

00:45:35,320 --> 00:45:33,140

mean you know that well I don't know if

898

00:45:37,660 --> 00:45:35,330

well you know we talked about going back

899

00:45:40,540 --> 00:45:37,670

but so far we haven't gone very far back

900

00:45:42,579 --> 00:45:40,550

I don't know it just seems a crazy to me

901  
00:45:44,980 --> 00:45:42,589  
that we could have done it way back when

902  
00:45:47,550 --> 00:45:44,990  
and not be able to do it now

903  
00:45:50,260 --> 00:45:47,560  
okay so you've collected all of these

904  
00:45:52,599 --> 00:45:50,270  
reports military reports and stuff like

905  
00:45:57,160 --> 00:45:52,609  
that well what's your general conclusion

906  
00:46:03,609 --> 00:45:57,170  
as far as the UFOs go are they hostile

907  
00:46:04,990 --> 00:46:03,619  
towards us the first one time we have

908  
00:46:07,780 --> 00:46:05,000  
once again we have like a couple hundred

909  
00:46:09,570 --> 00:46:07,790  
stories in there documenting when UFOs

910  
00:46:12,190 --> 00:46:09,580  
showed up during one time not just

911  
00:46:13,319 --> 00:46:12,200  
recently but over you know the ages you

912  
00:46:14,999 --> 00:46:13,329  
know and

913  
00:46:17,699 --> 00:46:15,009

out of all those stories I think we have

914

00:46:19,799 --> 00:46:17,709

three in which the UFO had any kind of

915

00:46:22,259 --> 00:46:19,809

showed any kind of hostile intent

916

00:46:25,739 --> 00:46:22,269

the vast majority of them they would

917

00:46:27,449 --> 00:46:25,749

just ride alongside the list for

918

00:46:29,099 --> 00:46:27,459

instance British bombers during World

919

00:46:31,380 --> 00:46:29,109

War 2 bombing German cities in the

920

00:46:33,239 --> 00:46:31,390

Millburn night you know with with the

921

00:46:34,829 --> 00:46:33,249

anti-aircraft fire coming up bombs

922

00:46:36,959 --> 00:46:34,839

dropping planes being shot out of the

923

00:46:39,329 --> 00:46:36,969

sky and these these crews would look out

924

00:46:41,969 --> 00:46:39,339

and there'd be a flying saucer or a guy

925

00:46:43,589 --> 00:46:41,979

shaped object flying off their wing now

926

00:46:45,239 --> 00:46:43,599

they wouldn't do anything they didn't

927

00:46:47,190 --> 00:46:45,249

exchange shots or anything like that

928

00:46:48,930 --> 00:46:47,200

they were just kind of observing just

929

00:46:51,620 --> 00:46:48,940

watching and that does the whole idea

930

00:46:55,559 --> 00:46:51,630

behind UFOs one time that we had so many

931

00:46:56,809 --> 00:46:55,569

stories that you know document that

932

00:46:59,729 --> 00:46:56,819

these types of things or at least

933

00:47:01,949 --> 00:46:59,739

eyewitnesses accounts that you just have

934

00:47:03,029 --> 00:47:01,959

to kind of after the when you finish the

935

00:47:04,859 --> 00:47:03,039

book you give a shake your head and say

936

00:47:06,690 --> 00:47:04,869

well they all can't be mistakes or

937

00:47:10,199 --> 00:47:06,700

hoaxes or anything something must be

938

00:47:12,269 --> 00:47:10,209

going on you know so but no but like I

939

00:47:13,949 --> 00:47:12,279

say very few can count on one hand how

940

00:47:18,299 --> 00:47:13,959

many times that UFOs actually showed

941

00:47:21,390 --> 00:47:18,309

some kind of hostile intent well

942

00:47:24,329 --> 00:47:21,400

unfortunately and this isn't any hostile

943

00:47:27,449 --> 00:47:24,339

attempt to him but we are going to have

944

00:47:31,559 --> 00:47:27,459

to go to our top of the hour break in

945

00:47:33,839 --> 00:47:31,569

just a few seconds here so when when we

946

00:47:36,539 --> 00:47:33,849

come back we will continue this

947

00:47:40,680 --> 00:47:36,549

fascinating conversation with Bruce

948

00:47:44,130 --> 00:47:40,690

Gernon and Mack Maloney and we'll find

949

00:47:50,189 --> 00:47:44,140

out more about the mysteries of the

950

00:47:51,979 --> 00:47:50,199

Bermuda Triangle UFOs and other weird

951  
00:47:54,959 --> 00:47:51,989  
things in our haunted universe so

952  
00:47:57,209 --> 00:47:54,969  
actually that and I promise not to get

953  
00:48:09,450 --> 00:47:57,219  
lost in the meantime oh that would be

954  
00:48:16,550 --> 00:48:13,740  
explode the bazaars are your e-ticket

955  
00:48:19,700 --> 00:48:16,560  
riders of the world of the paranoid

956  
00:48:22,720 --> 00:48:19,710  
strap yourself in as we traverse the

957  
00:48:27,130 --> 00:48:22,730  
universe exploring the unexplained UFO

958  
00:48:29,510 --> 00:48:27,140  
of ghosts Lost Worlds

959  
00:48:33,350 --> 00:48:29,520  
cryptozoology waters as well as other

960  
00:48:37,760 --> 00:48:33,360  
dimensions it's time to take back the

961  
00:48:41,000 --> 00:48:37,770  
night last night now your electrifying

962  
00:48:46,700 --> 00:48:41,010  
hosts of exploring the bizarre Timothy

963  
00:48:48,560 --> 00:48:46,710

Beckley and Tim Schwartz alright welcome

964

00:48:50,270 --> 00:48:48,570

back to exploring the bizarre here we

965

00:48:53,510 --> 00:48:50,280

are in the second segment and our guest

966

00:48:59,210 --> 00:48:53,520

tonight we have Bruce Gernon and Matt

967

00:49:03,770 --> 00:48:59,220

Maloney and so Mack I mean what what's

968

00:49:07,010 --> 00:49:03,780

your impression with a Bruce's story and

969

00:49:11,000 --> 00:49:07,020

the whole you know Bermuda Triangle and

970

00:49:13,220 --> 00:49:11,010

you know and really other you know devil

971

00:49:16,030 --> 00:49:13,230

spots around the planets where it seems

972

00:49:19,070 --> 00:49:16,040

like you know especially a aircraft

973

00:49:22,280 --> 00:49:19,080

seemed to have a difficult time

974

00:49:25,790 --> 00:49:22,290

occasionally well you know what's

975

00:49:29,090 --> 00:49:25,800

interesting about about Bruce's story is

976

00:49:32,150 --> 00:49:29,100

that he mentioned the island of Andros

977

00:49:35,780 --> 00:49:32,160

it is the largest island in the in the

978

00:49:38,210 --> 00:49:35,790

Bahamas but there is a Navy base there

979

00:49:41,300 --> 00:49:38,220

that a lot of people refer to as the

980

00:49:46,400 --> 00:49:41,310

name is area 51 it's called Autec and

981

00:49:48,680 --> 00:49:46,410

it's it's right it's right across from

982

00:49:51,560 --> 00:49:48,690

the Florida coast is a deep trench in

983

00:49:53,210 --> 00:49:51,570

between and because the Gulf Stream has

984

00:49:57,200 --> 00:49:53,220

been going through there for millions of

985

00:50:01,610 --> 00:49:57,210

years so they do bring us maybe nuclear

986

00:50:03,140 --> 00:50:01,620

subs there to test things that they can

987

00:50:04,940 --> 00:50:03,150

you know in this kind of in this trench

988

00:50:06,440 --> 00:50:04,950

they can test different electronics see

989

00:50:10,310 --> 00:50:06,450

if the stuff works and so on and so

990

00:50:12,110 --> 00:50:10,320

forth but they also have billions of

991

00:50:16,400 --> 00:50:12,120

dollars worth of sonar equipment there

992

00:50:19,610 --> 00:50:16,410

and radar and in everything else and in

993

00:50:22,340 --> 00:50:19,620

on top of that all as is you've probably

994

00:50:23,840 --> 00:50:22,350

heard before there are many many UFO

995

00:50:27,650 --> 00:50:23,850

what's down in that part of the world

996

00:50:30,080 --> 00:50:27,660

and many many us all reports on

997

00:50:30,800 --> 00:50:30,090

identified summer jobs and people see

998

00:50:32,060 --> 00:50:30,810

this stuff

999

00:50:34,790 --> 00:50:32,070

putting down there all the time so we

1000

00:50:37,310 --> 00:50:34,800

asked a question in the book is the Navy

1001  
00:50:40,220 --> 00:50:37,320  
yells denies that they have anything

1002  
00:50:43,550 --> 00:50:40,230  
down there that's you know not let's say

1003  
00:50:45,050 --> 00:50:43,560  
of public record yet people see this

1004  
00:50:46,430 --> 00:50:45,060  
stuff all the time so you have to ask

1005  
00:50:48,020 --> 00:50:46,440  
the question well you get billions of

1006  
00:50:50,420 --> 00:50:48,030  
dollars of sensor equipment down their

1007  
00:50:51,710 --> 00:50:50,430  
radar Sona and y'all said yeah you're

1008  
00:50:54,560 --> 00:50:51,720  
saying you're not seeing any of this

1009  
00:50:56,540 --> 00:50:54,570  
stuff yet people civilians are seeing it

1010  
00:50:58,310 --> 00:50:56,550  
all the time so either your stuff

1011  
00:51:00,860 --> 00:50:58,320  
doesn't work or you know you're

1012  
00:51:02,330 --> 00:51:00,870  
misleading us but anyway that's right in

1013  
00:51:04,520 --> 00:51:02,340

the middle of the Bermuda Triangle I

1014

00:51:07,070 --> 00:51:04,530

mean it sounds strange but the US Navy

1015

00:51:08,690 --> 00:51:07,080

has their own area 51 in the middle and

1016

00:51:14,630 --> 00:51:08,700

they built it in the middle of you know

1017

00:51:17,750 --> 00:51:14,640

triangle hmm yeah Mac I would say Andros

1018

00:51:20,810 --> 00:51:17,760

is really the heart of the Bermuda

1019

00:51:23,390 --> 00:51:20,820

Triangle in itself and all around it

1020

00:51:25,370 --> 00:51:23,400

right there's a lot of strange stuff

1021

00:51:27,680 --> 00:51:25,380

that goes on right on the island itself

1022

00:51:31,280 --> 00:51:27,690

there's yeah a lot of myths about they

1023

00:51:33,740 --> 00:51:31,290

have these holes you know in in on the

1024

00:51:35,600 --> 00:51:33,750

island and they kind of deep right yeah

1025

00:51:37,940 --> 00:51:35,610

and they say you know people see strange

1026  
00:51:39,950 --> 00:51:37,950  
things coming you know going in matter

1027  
00:51:43,760 --> 00:51:39,960  
these things all the time there's like I

1028  
00:51:46,040 --> 00:51:43,770  
said having to do with the place and you

1029  
00:51:48,440 --> 00:51:46,050  
know just in the middle of all this you

1030  
00:51:52,070 --> 00:51:48,450  
know you have this top-secret Navy base

1031  
00:51:54,170 --> 00:51:52,080  
right I meant one of the executives

1032  
00:51:57,470 --> 00:51:54,180  
there once and he told me a story he had

1033  
00:52:02,180 --> 00:51:57,480  
been we were at a bar so I think he had

1034  
00:52:06,760 --> 00:52:02,190  
a few too many but telling it and he was

1035  
00:52:11,630 --> 00:52:06,770  
actually wearing a nice shirt that had

1036  
00:52:14,180 --> 00:52:11,640  
the words and Autec on it so he was one

1037  
00:52:17,270 --> 00:52:14,190  
of their commanders apparently he told

1038  
00:52:19,160 --> 00:52:17,280

me he was on this in the time of the

1039

00:52:22,760 --> 00:52:19,170

ocean that you just mentioned that goes

1040

00:52:25,790 --> 00:52:22,770

down 6,000 feet and it's it this tongue

1041

00:52:30,110 --> 00:52:25,800

is about 100 miles long and 30 miles

1042

00:52:34,250 --> 00:52:30,120

wide and he was on the south end in

1043

00:52:36,200 --> 00:52:34,260

their submarine and they had this

1044

00:52:38,690 --> 00:52:36,210

strange experience all their electronics

1045

00:52:41,650 --> 00:52:38,700

went out it sounds like

1046

00:52:43,650 --> 00:52:41,660

Levi's chronic fog underwater but anyway

1047

00:52:46,950 --> 00:52:43,660

compasses were spinning

1048

00:52:50,010 --> 00:52:46,960

nothing was working and this lasted for

1049

00:52:53,279 --> 00:52:50,020

like three minutes and that's how long I

1050

00:52:55,950 --> 00:52:53,289

was in that flock dude and and then it

1051  
00:52:58,410 --> 00:52:55,960  
out cleared up immediately just like it

1052  
00:53:01,079 --> 00:52:58,420  
did for me too when the fog dissipated

1053  
00:53:05,670 --> 00:53:01,089  
it electronically dissipated and only

1054  
00:53:07,440 --> 00:53:05,680  
took about ten seconds so then all their

1055  
00:53:09,630 --> 00:53:07,450  
instruments start working again and so

1056  
00:53:13,859 --> 00:53:09,640  
they check their position and they had

1057  
00:53:15,839 --> 00:53:13,869  
travelled a hundred miles north to the

1058  
00:53:20,130 --> 00:53:15,849  
northern end of the tongue of the ocean

1059  
00:53:22,549 --> 00:53:20,140  
in three minutes well you know another

1060  
00:53:25,140 --> 00:53:22,559  
thing people see down in that area is

1061  
00:53:28,289 --> 00:53:25,150  
you're talking about us O's what they

1062  
00:53:31,319 --> 00:53:28,299  
what they see is objects underwater

1063  
00:53:34,140 --> 00:53:31,329

moving faster than they should be able

1064

00:53:36,839 --> 00:53:34,150

to you know physics wise let's say much

1065

00:53:38,640 --> 00:53:36,849

faster than torpedoes they look a lot

1066

00:53:40,980 --> 00:53:38,650

larger you know we have stories about

1067

00:53:42,120 --> 00:53:40,990

how people have been on Navy ships down

1068

00:53:43,890 --> 00:53:42,130

there and these things have gone like

1069

00:53:47,720 --> 00:53:43,900

right underneath the ship and and and

1070

00:53:50,069 --> 00:53:47,730

leaving like a fluorescent wake and

1071

00:53:51,660 --> 00:53:50,079

people lots of people see them no one

1072

00:53:54,120 --> 00:53:51,670

ever wants to really you know get into

1073

00:53:55,319 --> 00:53:54,130

what they might be they could be at they

1074

00:53:57,779 --> 00:53:55,329

could be on top you know

1075

00:53:59,970 --> 00:53:57,789

secret weapons I mean it is the Navy's

1076  
00:54:02,069 --> 00:53:59,980  
area 51 so yeah I guess we could expect

1077  
00:54:04,470 --> 00:54:02,079  
it to be a lot of secret weapons you

1078  
00:54:07,260 --> 00:54:04,480  
know down there and maybe we have us

1079  
00:54:08,609 --> 00:54:07,270  
over those but lots of people see them

1080  
00:54:10,440 --> 00:54:08,619  
what's a civilian see them they've been

1081  
00:54:13,109 --> 00:54:10,450  
seeing them for years in this area and

1082  
00:54:16,380 --> 00:54:13,119  
yet the Navy just you know says that we

1083  
00:54:17,640 --> 00:54:16,390  
don't see anything well yeah a lot of

1084  
00:54:19,140 --> 00:54:17,650  
these stories that you were just you

1085  
00:54:21,660 --> 00:54:19,150  
know that you just talked about with

1086  
00:54:23,849 --> 00:54:21,670  
some of these very fast-moving you owe

1087  
00:54:28,079 --> 00:54:23,859  
us owes right underneath the surface I

1088  
00:54:30,630 --> 00:54:28,089

mean there's been reports for years I

1089

00:54:33,240 --> 00:54:30,640

mean long before supposedly we you know

1090

00:54:35,670 --> 00:54:33,250

we had any kind of technology if it

1091

00:54:38,339 --> 00:54:35,680

would be you know some kind of you know

1092

00:54:39,900 --> 00:54:38,349

manmade top-secret technology

1093

00:54:44,420 --> 00:54:39,910

I mean you know you had people in

1094

00:54:49,140 --> 00:54:44,430

sailing ships who were reporting unusual

1095

00:54:52,260 --> 00:54:49,150

lights going very fast under the surface

1096

00:54:54,170 --> 00:54:52,270

so you know it's you know now you you

1097

00:54:56,790 --> 00:54:54,180

know some of them could be man-made

1098

00:54:57,870 --> 00:54:56,800

top-secret house but

1099

00:55:00,240 --> 00:54:57,880

you know this is something that's been

1100

00:55:02,370 --> 00:55:00,250

going on for quite a long time right and

1101  
00:55:04,860 --> 00:55:02,380  
in there's definitely I mean when you're

1102  
00:55:07,800 --> 00:55:04,870  
talking about airplanes and aircraft and

1103  
00:55:10,170 --> 00:55:07,810  
rocket powered craft is you know there's

1104  
00:55:12,960 --> 00:55:10,180  
some limit is how fast these things can

1105  
00:55:14,610 --> 00:55:12,970  
go in the air but you know it's it's way

1106  
00:55:17,100 --> 00:55:14,620  
up there I mean the the Space Shuttle

1107  
00:55:19,230 --> 00:55:17,110  
had to be going 18,000 miles an hour to

1108  
00:55:21,810 --> 00:55:19,240  
get into orbit but when you're in that

1109  
00:55:23,580 --> 00:55:21,820  
when you're in the ocean you know you

1110  
00:55:25,530 --> 00:55:23,590  
have a lot of factors you know working

1111  
00:55:28,110 --> 00:55:25,540  
against you if you want to go very fast

1112  
00:55:30,450 --> 00:55:28,120  
underwater you have the water you know

1113  
00:55:33,480 --> 00:55:30,460

you have the pressure and so on and so

1114

00:55:36,630 --> 00:55:33,490

forth so to see something traveling very

1115

00:55:42,540 --> 00:55:36,640

quickly under the water anywhere is just

1116

00:55:45,600 --> 00:55:42,550

very unusual and strange Bruce talking

1117

00:55:48,330 --> 00:55:45,610

about your experience with the

1118

00:55:50,940 --> 00:55:48,340

electronic fog it's just and I wish I

1119

00:55:55,370 --> 00:55:50,950

could remember now who had this

1120

00:55:57,720 --> 00:55:55,380

experience but I remember reading a

1121

00:56:01,440 --> 00:55:57,730

similar experience that somebody had

1122

00:56:04,890 --> 00:56:01,450

except that they were on a boat and they

1123

00:56:09,390 --> 00:56:04,900

suddenly found themselves it seemed like

1124

00:56:15,420 --> 00:56:09,400

that they were in a valley in the ocean

1125

00:56:17,640 --> 00:56:15,430

where the the the waves or water or

1126  
00:56:19,890 --> 00:56:17,650  
whatever you had suddenly was towering

1127  
00:56:25,890 --> 00:56:19,900  
above them and they were almost going

1128  
00:56:29,660 --> 00:56:25,900  
through like a an open-topped tunnel in

1129  
00:56:31,950 --> 00:56:29,670  
the water and very similar you know

1130  
00:56:35,820 --> 00:56:31,960  
experience where they were experiencing

1131  
00:56:38,160 --> 00:56:35,830  
some bad weather and a heavy fog and

1132  
00:56:39,660 --> 00:56:38,170  
then the next thing to know they were it

1133  
00:56:41,970 --> 00:56:39,670  
they seemed like almost that they were

1134  
00:56:43,830 --> 00:56:41,980  
on the on the bottom of the ocean or

1135  
00:56:47,130 --> 00:56:43,840  
have you have you heard that story

1136  
00:56:50,310 --> 00:56:47,140  
before well I can't remember that

1137  
00:56:53,070 --> 00:56:50,320  
particular one but I had two friends who

1138  
00:56:57,180 --> 00:56:53,080

I lived in the keys for 15 in 20 years

1139

00:56:59,370 --> 00:56:57,190

and they had experiences that are

1140

00:57:01,920 --> 00:56:59,380

similar to the ones you talking about

1141

00:57:04,650 --> 00:57:01,930

one one was like like he just said it

1142

00:57:10,050 --> 00:57:04,660

they were in a sort of a a channel

1143

00:57:12,300 --> 00:57:10,060

mm-hmm with the ocean water was like ten

1144

00:57:15,270 --> 00:57:12,310

12 feet higher than the boat was on

1145

00:57:17,220 --> 00:57:15,280

either side of them and went out for a

1146

00:57:18,780 --> 00:57:17,230

long ways and then they finally got out

1147

00:57:20,460 --> 00:57:18,790

of it they're just kidding real scare

1148

00:57:22,980 --> 00:57:20,470

even and then they another one was

1149

00:57:26,780 --> 00:57:22,990

crossing the Gulf Stream to Bimini and

1150

00:57:32,520 --> 00:57:26,790

they and they sucked down into like a

1151  
00:57:34,290 --> 00:57:32,530  
large area where they were 25 feet lower

1152  
00:57:38,310 --> 00:57:34,300  
than there's a sea level

1153  
00:57:40,260 --> 00:57:38,320  
hmm around and they were really really

1154  
00:57:42,470 --> 00:57:40,270  
nervous and then minute I guess it

1155  
00:57:45,000 --> 00:57:42,480  
leveled off after a while

1156  
00:57:49,730 --> 00:57:45,010  
yeah with the the rogue waves have been

1157  
00:57:53,010 --> 00:57:49,740  
proven to be a large reason why ships

1158  
00:57:54,840 --> 00:57:53,020  
boats and disappear and they've been

1159  
00:57:57,720 --> 00:57:54,850  
blamed on the Bermuda Triangle

1160  
00:57:59,790 --> 00:57:57,730  
yeah but you know this this phenomena

1161  
00:58:02,160 --> 00:57:59,800  
seems to be more than just just rogue

1162  
00:58:05,670 --> 00:58:02,170  
waves you know and which you know makes

1163  
00:58:09,630 --> 00:58:05,680

me wonder you know our is just something

1164

00:58:13,110 --> 00:58:09,640

that that they are actually seen or is

1165

00:58:15,480 --> 00:58:13,120

it like an optical illusion caused by

1166

00:58:19,170 --> 00:58:15,490

whatever you know this this bizarre

1167

00:58:21,510 --> 00:58:19,180

phenomena is yeah things like that can

1168

00:58:25,950 --> 00:58:21,520

create an optical illusion because

1169

00:58:29,310 --> 00:58:25,960

that's the human mind it's it's like the

1170

00:58:34,470 --> 00:58:29,320

electronic fog attaches to the aircraft

1171

00:58:37,800 --> 00:58:34,480

and flies along with you so you pilots

1172

00:58:39,780 --> 00:58:37,810

that have experienced that don't realize

1173

00:58:44,310 --> 00:58:39,790

that I mean that's the first one to

1174

00:58:46,500 --> 00:58:44,320

realize that it was attached to me both

1175

00:58:50,400 --> 00:58:46,510

times that I experienced that electronic

1176

00:58:53,910 --> 00:58:50,410

clock and but most pilots still even

1177

00:58:55,470 --> 00:58:53,920

today they they don't realize that and

1178

00:58:59,040 --> 00:58:55,480

there's been pockets that have been in

1179

00:59:02,940 --> 00:58:59,050

it that you know there see illusion

1180

00:59:04,290 --> 00:59:02,950

because they don't realize it changes

1181

00:59:08,120 --> 00:59:04,300

your thinking you think you're flying

1182

00:59:10,590 --> 00:59:08,130

through fog but you're not fine with it

1183

00:59:14,100 --> 00:59:10,600

there's a famous writer named Martin

1184

00:59:16,020 --> 00:59:14,110

Caidin that I wrote that 200 books or so

1185

00:59:19,410 --> 00:59:16,030

hate the violin

1186

00:59:22,620 --> 00:59:19,420

oh yes I had you know respondents with

1187

00:59:25,289 --> 00:59:22,630

him yeah yeah well he helped me a lot in

1188

00:59:27,870 --> 00:59:25,299

my research

1189

00:59:29,640 --> 00:59:27,880

figure out how this fog works

1190

00:59:33,989 --> 00:59:29,650

he wrote about it on three different

1191

00:59:37,109 --> 00:59:33,999

occasions in some of his books and one

1192

00:59:39,209 --> 00:59:37,119

time that he was in it there was like a

1193

00:59:41,789 --> 00:59:39,219

hole in the cloud a perfectly round hole

1194

00:59:43,559 --> 00:59:41,799

above and below well the second time I

1195

00:59:46,469 --> 00:59:43,569

was in and over every days there was a

1196

00:59:49,019 --> 00:59:46,479

perfectly round hole right below the our

1197

00:59:50,519 --> 00:59:49,029

aircraft and it was really strange

1198

00:59:52,349 --> 00:59:50,529

because it was traveling with us and I

1199

00:59:55,939 --> 00:59:52,359

just thought I was seeing some strange

1200

00:59:59,609 --> 00:59:55,949

phenomenon me it took me took my theory

1201

01:00:01,949 --> 00:59:59,619

which I created like about four years

1202

01:00:03,900 --> 01:00:01,959

after that to realize that okay it was

1203

01:00:06,539 --> 01:00:03,910

traveling with me but but Martin Caidin

1204

01:00:11,189 --> 01:00:06,549

he said in one of his books he said he

1205

01:00:13,650 --> 01:00:11,199

felt like he was flying inside a milk

1206

01:00:16,979 --> 01:00:13,660

bottle hmm I see

1207

01:00:19,019 --> 01:00:16,989

so he he didn't realize that the milk

1208

01:00:21,420 --> 01:00:19,029

bottle was attached to him but see that

1209

01:00:23,099 --> 01:00:21,430

almost spells it out for you the milk

1210

01:00:25,680 --> 01:00:23,109

bottle he was flying inside the milk

1211

01:00:29,880 --> 01:00:25,690

bottle and you know it bottles flying

1212

01:00:33,239 --> 01:00:29,890

right along with him alright so how how

1213

01:00:35,969 --> 01:00:33,249

does this phenomena attach itself like

1214

01:00:39,390 --> 01:00:35,979

you said to to an aircraft I mean is it

1215

01:00:42,479 --> 01:00:39,400

like like electricity is attracted you

1216

01:00:45,689 --> 01:00:42,489

know to metal but you know anymore and

1217

01:00:48,799 --> 01:00:45,699

not every airplane is made entirely of

1218

01:00:53,870 --> 01:00:48,809

metal well I've worked with several

1219

01:00:57,299 --> 01:00:53,880

scientists on this the latest one is

1220

01:00:59,910 --> 01:00:57,309

Professor David Paris from the

1221

01:01:03,479 --> 01:00:59,920

University of Nebraska he's a physicist

1222

01:01:05,819 --> 01:01:03,489

and a meteorologist both and there's a

1223

01:01:09,479 --> 01:01:05,829

chapter about his research in my book

1224

01:01:12,749 --> 01:01:09,489

but he says that it's ionized energy in

1225

01:01:17,189 --> 01:01:12,759

the clouds embedded in a dipole field

1226

01:01:21,539 --> 01:01:17,199

the forms of cocoon around the airplanes

1227

01:01:24,779 --> 01:01:21,549

or the bows and he's got it all figured

1228

01:01:30,380 --> 01:01:24,789

out calculate it while that how it works

1229

01:01:32,290 --> 01:01:30,390

and how can create a linear displacement

1230

01:01:34,840 --> 01:01:32,300

[Music]

1231

01:01:38,380 --> 01:01:34,850

the vessel became the boat can do it to

1232

01:01:40,680 --> 01:01:38,390

you they could not travel through the

1233

01:01:42,490 --> 01:01:40,690

time I called but most people don't like

1234

01:01:43,810 --> 01:01:42,500

scientists would never save travel

1235

01:01:49,240 --> 01:01:43,820

through time although they're slowly

1236

01:01:51,130 --> 01:01:49,250

starting to change their thinking which

1237

01:01:54,070 --> 01:01:51,140

that's yeah that's that's my next

1238

01:01:59,160 --> 01:01:54,080

question I mean how could a you know a

1239

01:02:03,040 --> 01:01:59,170

natural phenomenon like this displace

1240

01:02:06,370 --> 01:02:03,050

ship a plane people in time and space

1241

01:02:09,130 --> 01:02:06,380

yeah he calls it a natural warping of

1242

01:02:12,310 --> 01:02:09,140

the fabric of space and an external

1243

01:02:16,500 --> 01:02:12,320

ionized confinement field in other words

1244

01:02:21,700 --> 01:02:16,510

electronic fog once around the aircraft

1245

01:02:26,280 --> 01:02:21,710

creating a linear displacement well I

1246

01:02:32,370 --> 01:02:26,290

mean if if that is the case then that

1247

01:02:40,870 --> 01:02:32,380

really would throw physics you know a

1248

01:02:46,030 --> 01:02:40,880

physicist into a tizzy starting to help

1249

01:02:51,670 --> 01:02:46,040

explain it well and it also I mean it

1250

01:02:54,580 --> 01:02:51,680

then leads us to questions about you

1251

01:02:57,670 --> 01:02:54,590

know you know our reality and you know

1252

01:03:01,480 --> 01:02:57,680

cosmology and all of that and you know

1253

01:03:07,900 --> 01:03:01,490

how how time is you know supposed to

1254

01:03:11,770 --> 01:03:07,910

work to to be able to either you know go

1255

01:03:15,970 --> 01:03:11,780

you know into you know slightly you know

1256

01:03:17,920 --> 01:03:15,980

here to the future or into the past you

1257

01:03:22,360 --> 01:03:17,930

know have you come across studies

1258

01:03:24,970 --> 01:03:22,370

stories of people who have you know gone

1259

01:03:27,160 --> 01:03:24,980

a lot further than say just you know

1260

01:03:33,270 --> 01:03:27,170

like a few minutes or you know a day or

1261

01:03:37,930 --> 01:03:33,280

something like that yeah there's a

1262

01:03:40,660 --> 01:03:37,940

famous engineer for Boeing name last

1263

01:03:43,180 --> 01:03:40,670

name is Souter John John Souter David

1264

01:03:51,019 --> 01:03:49,130

he he created the Boeing 747 he was the

1265

01:03:55,279 --> 01:03:51,029

chief engineer over a thousand engineers

1266

01:03:57,410 --> 01:03:55,289

and I met him once in in the Bahamas a

1267

01:04:00,109 --> 01:03:57,420

Long Island a remote place where he had

1268

01:04:03,829 --> 01:04:00,119

a nice mansion with we were at a party

1269

01:04:08,569 --> 01:04:03,839

there at a local hotel and so I told him

1270

01:04:10,749 --> 01:04:08,579

my story my research this was like 20

1271

01:04:13,849 --> 01:04:10,759

years ago understand 30 years in there

1272

01:04:19,150 --> 01:04:13,859

so then so he told me his story he was

1273

01:04:27,170 --> 01:04:19,160

flying the 747 from Boeing Field

1274

01:04:32,779 --> 01:04:27,180

California and direct to China and when

1275

01:04:38,569 --> 01:04:32,789

they land landed in China somehow he

1276

01:04:41,839 --> 01:04:38,579

went backwards in time a whole day but

1277

01:04:44,960 --> 01:04:41,849

as far as he did he didn't run into any

1278

01:04:49,370 --> 01:04:44,970

bizarre weather or anything like that no

1279

01:04:51,859 --> 01:04:49,380

he didn't mention much about whether he

1280

01:04:53,829 --> 01:04:51,869

may have been in the fog though you know

1281

01:04:58,279 --> 01:04:53,839

at night didn't even see it

1282

01:05:00,559 --> 01:04:58,289

hmm well Mac what about what about you I

1283

01:05:02,930 --> 01:05:00,569

mean you know in the all the files that

1284

01:05:05,479 --> 01:05:02,940

you've collected I mean have have you

1285

01:05:09,579 --> 01:05:05,489

read across you know any stories only I

1286

01:05:14,690 --> 01:05:09,589

know you gave the one earlier about the

1287

01:05:16,970 --> 01:05:14,700

pre-world War two pilots but you know

1288

01:05:20,749 --> 01:05:16,980

anything else that that you may have run

1289

01:05:24,499 --> 01:05:20,759

across it's a similar in nature well

1290

01:05:25,849 --> 01:05:24,509

there's um we don't have to say the

1291

01:05:28,190 --> 01:05:25,859

truth now that I think that we don't

1292

01:05:30,769 --> 01:05:28,200

have a whole lot of time-travel stories

1293

01:05:36,200 --> 01:05:30,779

and the stories that we collected in the

1294

01:05:44,660 --> 01:05:36,210

book I'm not sure why but I guess my

1295

01:05:49,069 --> 01:05:44,670

answer would be no American and that one

1296

01:05:51,069 --> 01:05:49,079

for you 10 Beckley - I begged you to

1297

01:05:54,680 --> 01:05:51,079

explain something to me

1298

01:05:59,720 --> 01:05:54,690

all knowledgeable Timothy oh yes yeah

1299

01:06:02,540 --> 01:05:59,730

like that I have seen a lot of flying

1300

01:06:04,910 --> 01:06:02,550

saucers or UFOs and I've even had some

1301  
01:06:08,780 --> 01:06:04,920  
real close encounters within a few yards

1302  
01:06:11,120 --> 01:06:08,790  
but I just had in the last encounter I

1303  
01:06:13,220 --> 01:06:11,130  
had was just over a year ago and it's

1304  
01:06:17,300 --> 01:06:13,230  
like the first one I've ever really seen

1305  
01:06:20,210 --> 01:06:17,310  
in the daytime and maybe Mac answer this

1306  
01:06:22,940 --> 01:06:20,220  
one for me it was it was shaped like a

1307  
01:06:26,300 --> 01:06:22,950  
boomerang it was flying low over the

1308  
01:06:27,710 --> 01:06:26,310  
Everglades and it was only a couple

1309  
01:06:31,880 --> 01:06:27,720  
thousand feet high and I thought maybe

1310  
01:06:33,890 --> 01:06:31,890  
it was a big jumbo jet on final for

1311  
01:06:37,760 --> 01:06:33,900  
Miami International but I kept looking

1312  
01:06:43,190 --> 01:06:37,770  
on this shiny real shiny silver didn't

1313  
01:06:48,020 --> 01:06:43,200

appear to have any windows and have you

1314

01:06:51,650 --> 01:06:48,030

ever seen what the UFOs looked like

1315

01:06:59,450 --> 01:06:51,660

where that famous sighting of a long

1316

01:07:02,690 --> 01:06:59,460

time ago what was his name that spotted

1317

01:07:04,640 --> 01:07:02,700

the first he coined the term Oh will you

1318

01:07:07,030 --> 01:07:04,650

be Kenneth Arnold uh yeah Kenneth oh

1319

01:07:09,950 --> 01:07:07,040

yeah yeah we've had we've had his

1320

01:07:12,020 --> 01:07:09,960

granddaughter on the show two or three

1321

01:07:15,320 --> 01:07:12,030

times so he I don't know if he drew it

1322

01:07:18,910 --> 01:07:15,330

but someone drew it and he was he huh as

1323

01:07:21,770 --> 01:07:18,920

the famous picture is holding the

1324

01:07:24,400 --> 01:07:21,780

crescent shaped crescent shape they were

1325

01:07:28,940 --> 01:07:24,410

actually shaped a lot like a Nazi

1326

01:07:31,940 --> 01:07:28,950

superweapon called the Horton where the

1327

01:07:33,470 --> 01:07:31,950

Nazi scientists you know when a quest to

1328

01:07:36,140 --> 01:07:33,480

try to get one of the weapons to win the

1329

01:07:37,670 --> 01:07:36,150

war and designed basically what it was

1330

01:07:41,090 --> 01:07:37,680

was a small flying wing

1331

01:07:44,660 --> 01:07:41,100

and it wasn't very successful but when

1332

01:07:46,400 --> 01:07:44,670

you see the drawings of Kenneth Donald's

1333

01:07:48,770 --> 01:07:46,410

you know sighting he was the first one

1334

01:07:51,170 --> 01:07:48,780

to claim the term flying saucer because

1335

01:07:52,850 --> 01:07:51,180

the media said the media said he said

1336

01:07:55,910 --> 01:07:52,860

they look like saucers skipping across a

1337

01:07:58,370 --> 01:07:55,920

lake yeah yeah that became flying

1338

01:08:01,420 --> 01:07:58,380

saucers but they they look and he saw

1339

01:08:06,200 --> 01:08:01,430

them go flying in formation and so on

1340

01:08:07,430 --> 01:08:06,210

formation too so so you know shiny and

1341

01:08:11,030 --> 01:08:07,440

it was

1342

01:08:15,020 --> 01:08:11,040

super-streamlined and all of a sudden it

1343

01:08:18,709 --> 01:08:15,030

makes a really sharp u-turn a climbing

1344

01:08:20,630 --> 01:08:18,719

u-turn and a 180 and it heads straight

1345

01:08:24,410 --> 01:08:20,640

back to the Everglades and there was a

1346

01:08:26,269 --> 01:08:24,420

really large isolated thunderstorm over

1347

01:08:28,849 --> 01:08:26,279

the Everglades and it just aims right

1348

01:08:30,950 --> 01:08:28,859

into the heart of the thunderstorm right

1349

01:08:33,410 --> 01:08:30,960

into the 10,000 foot level and then

1350

01:08:37,360 --> 01:08:33,420

disappeared so I was wondering I can't

1351

01:08:41,660 --> 01:08:37,370

decide what was that like an alien

1352

01:08:44,840 --> 01:08:41,670

vessel or a remote secret nestled that

1353

01:08:47,630 --> 01:08:44,850

we have here there's a lot of there's a

1354

01:08:49,340 --> 01:08:47,640

lot of military drones that you know we

1355

01:08:52,340 --> 01:08:49,350

don't know what they look like they've

1356

01:08:53,809 --> 01:08:52,350

the military has been flying drones but

1357

01:08:57,110 --> 01:08:53,819

many many years they had many drones

1358

01:09:00,920 --> 01:08:57,120

over Vietnam it would be big the

1359

01:09:02,720 --> 01:09:00,930

wingspan handed well you know people

1360

01:09:04,550 --> 01:09:02,730

have seen that shape you don't want no I

1361

01:09:08,749 --> 01:09:04,560

mean the Hudson Valley sightings in the

1362

01:09:11,959 --> 01:09:08,759

yeah we have a fella we've have a fella

1363

01:09:18,320 --> 01:09:11,969

what templates is there Richard Surratt

1364

01:09:22,640 --> 01:09:18,330

yeah yeah program and he's made a pretty

1365

01:09:26,209 --> 01:09:22,650

detailed study of these boomerang and

1366

01:09:28,550 --> 01:09:26,219

crescent shaped UFOs and I guess what is

1367

01:09:31,070 --> 01:09:28,560

his conclusion some of them could be

1368

01:09:34,249 --> 01:09:31,080

made here and some of them could be made

1369

01:09:38,300 --> 01:09:34,259

there mmm so I don't know how you

1370

01:09:40,160 --> 01:09:38,310

well now the the I think wasn't the even

1371

01:09:42,380 --> 01:09:40,170

the Phoenix lights the original one I

1372

01:09:44,329 --> 01:09:42,390

mean not the yes the so-called flares

1373

01:09:45,769 --> 01:09:44,339

but the one that went over the highway

1374

01:09:49,700 --> 01:09:45,779

and traveled what two or three hundred

1375

01:09:54,680 --> 01:09:49,710

you know miles and covered a huge span

1376

01:09:56,600 --> 01:09:54,690

of the sky and was totally silent I mean

1377

01:09:58,610 --> 01:09:56,610

how do you know you talk about having

1378

01:10:01,310 --> 01:09:58,620

advanced craft but how do you get

1379

01:10:03,290 --> 01:10:01,320

something that's that advanced all right

1380

01:10:04,970 --> 01:10:03,300

and then Tim I want to ask Tim when

1381

01:10:09,590 --> 01:10:04,980

could we have something in common the

1382

01:10:13,790 --> 01:10:09,600

first UFO that I witnessed I was 10

1383

01:10:15,709 --> 01:10:13,800

years old oh yeah so you want to tell me

1384

01:10:20,110 --> 01:10:15,719

what you witnessed at 10 years old well

1385

01:10:21,530 --> 01:10:20,120

well it would it was too brightly lit

1386

01:10:22,790 --> 01:10:21,540

objects I

1387

01:10:25,670 --> 01:10:22,800

it's eight lights I can't really say

1388

01:10:27,080 --> 01:10:25,680

objects doesn't see any portholes or the

1389

01:10:29,480 --> 01:10:27,090

landing gear or anything like that but

1390

01:10:32,000 --> 01:10:29,490

they circled in the sky for oh maybe

1391

01:10:33,800 --> 01:10:32,010

about 20 minutes or a half an hour one

1392

01:10:35,330 --> 01:10:33,810

was over an abandoned the factory

1393

01:10:38,570 --> 01:10:35,340

building across the street from where we

1394

01:10:41,000 --> 01:10:38,580

were living and one was hovering pretty

1395

01:10:43,340 --> 01:10:41,010

much right over to the house where we

1396

01:10:45,890 --> 01:10:43,350

were seated on the front porch and the

1397

01:10:47,360 --> 01:10:45,900

next day or the day after that there was

1398

01:10:50,030 --> 01:10:47,370

the little item in the newspaper and

1399

01:10:52,490 --> 01:10:50,040

that the authorities they said that you

1400

01:10:54,830 --> 01:10:52,500

know they had tried to investigate it

1401  
01:10:57,740 --> 01:10:54,840  
and it was nothing more unconventional

1402  
01:11:00,110 --> 01:10:57,750  
than a weather balloon but this was it

1403  
01:11:01,430 --> 01:11:00,120  
it couldn't be every thing gets blamed on

1404  
01:11:04,580 --> 01:11:01,440  
a weather balloon I don't care whether

1405  
01:11:06,590 --> 01:11:04,590  
it's the Mogul balloon or or what

1406  
01:11:08,930 --> 01:11:06,600  
there's no possible way it could have

1407  
01:11:11,390 --> 01:11:08,940  
been a weather balloon this thing was

1408  
01:11:15,640 --> 01:11:11,400  
not bobbing and weaving in the air

1409  
01:11:18,710 --> 01:11:15,650  
currents it was circling overhead now

1410  
01:11:21,410 --> 01:11:18,720  
Matt what's your conclusion I guess on

1411  
01:11:24,200 --> 01:11:21,420  
we talked about UFO hostility the

1412  
01:11:26,120 --> 01:11:24,210  
captain Thomas Mantell a case I mean

1413  
01:11:28,700 --> 01:11:26,130

yeah some people think that he was

1414

01:11:31,190 --> 01:11:28,710

actually you know like just shot out of

1415

01:11:33,710 --> 01:11:31,200

the sky or blown out of the sky and all

1416

01:11:35,930 --> 01:11:33,720

right well Tim we'll have to have Mac

1417

01:11:38,480 --> 01:11:35,940

answer this question when we come back

1418

01:11:40,880 --> 01:11:38,490

from our bottom of the hour break so

1419

01:11:50,120 --> 01:11:40,890

stay tuned for that sensor which both

1420

01:11:56,850 --> 01:11:54,270

now back to exploring the bazaars with

1421

01:12:00,149 --> 01:11:56,860

two of the most electrifying researchers

1422

01:12:05,310 --> 01:12:00,159

in the Paranoid your hosts Timothy Becky

1423

01:12:07,770 --> 01:12:05,320

Lee panting Swift's all right welcome

1424

01:12:09,600 --> 01:12:07,780

back to the final segment of exploring

1425

01:12:12,990 --> 01:12:09,610

the bizarre and typically you were

1426

01:12:15,479 --> 01:12:13,000

asking Mack a question before I had to

1427

01:12:18,870 --> 01:12:15,489

so rudely interrupt you for the break so

1428

01:12:20,339 --> 01:12:18,880

go for it oh I forgot what I was asking

1429

01:12:24,810 --> 01:12:20,349

yeah I think you I think you're asking

1430

01:12:28,859 --> 01:12:24,820

about the captain man tell Brian oh yeah

1431

01:12:31,950 --> 01:12:28,869

you know my age memory up yeah we you

1432

01:12:37,200 --> 01:12:31,960

know the story Mack I mean it's well

1433

01:12:40,279 --> 01:12:37,210

known in the annals of UFO history what

1434

01:12:43,740 --> 01:12:40,289

was it that man tell actually chased

1435

01:12:45,779 --> 01:12:43,750

well you know no one really knows you

1436

01:12:48,120 --> 01:12:45,789

know it happened in the early 50s he was

1437

01:12:51,569 --> 01:12:48,130

flying and if he was in a formation of

1438

01:12:53,339 --> 01:12:51,579

war what we used to call p-51 Mustangs

1439

01:12:56,359 --> 01:12:53,349

but now they had been designated f50

1440

01:12:58,709 --> 01:12:56,369

ones and they were asked to their Roman

1441

01:13:00,359 --> 01:12:58,719

the Tennessee Kentucky area and they

1442

01:13:01,709 --> 01:13:00,369

were asked to check out what people

1443

01:13:04,950 --> 01:13:01,719

thought at the time was a weather

1444

01:13:07,770 --> 01:13:04,960

balloon so but but two of the planes had

1445

01:13:09,720 --> 01:13:07,780

to land because of fueled situations two

1446

01:13:11,669 --> 01:13:09,730

of them Mantell and another one started

1447

01:13:15,060 --> 01:13:11,679

climbing and the second guy I believe

1448

01:13:17,759 --> 01:13:15,070

you know pulled off you know when he was

1449

01:13:20,759 --> 01:13:17,769

reaching the ceiling limit of the of the

1450

01:13:22,529 --> 01:13:20,769

p-51 Mustang but man tell just kept on

1451

01:13:24,359 --> 01:13:22,539

flying and he had a running commentary

1452

01:13:26,339 --> 01:13:24,369

you know I could see it it's large it

1453

01:13:28,470 --> 01:13:26,349

looks silver and so on then they lost

1454

01:13:32,160 --> 01:13:28,480

contact with him now they find the

1455

01:13:34,859 --> 01:13:32,170

airplane about an hour later he's he's

1456

01:13:36,569 --> 01:13:34,869

been killed and the airplane is a wreck

1457

01:13:38,790 --> 01:13:36,579

but they've never found anything like

1458

01:13:40,200 --> 01:13:38,800

that it had been hit by a weapon or

1459

01:13:42,029 --> 01:13:40,210

anything like that I mean the chances

1460

01:13:44,580 --> 01:13:42,039

were pretty good that you know he just

1461

01:13:47,100 --> 01:13:44,590

flew too high and didn't have the

1462

01:13:50,310 --> 01:13:47,110

pressurization that Mustang would have

1463

01:13:51,750 --> 01:13:50,320

and in the plane crash you know so but

1464

01:13:53,850 --> 01:13:51,760

then actually changed a lot of people's

1465

01:13:55,620 --> 01:13:53,860

minds because before that people thought

1466

01:13:56,130 --> 01:13:55,630

well hey the UFOs they're aliens are

1467

01:13:57,390 --> 01:13:56,140

gonna be friend

1468

01:13:58,980 --> 01:13:57,400

but that was like the first time like

1469

01:14:01,110 --> 01:13:58,990

you know what about glass actually got

1470

01:14:02,820 --> 01:14:01,120

killed and you know so it kind of got

1471

01:14:03,900 --> 01:14:02,830

people thinking some people thinking you

1472

01:14:07,080 --> 01:14:03,910

know the direction they might not be

1473

01:14:10,350 --> 01:14:07,090

that friendly well you know his I've

1474

01:14:12,840 --> 01:14:10,360

heard his family of members or whoever's

1475

01:14:15,870 --> 01:14:12,850

still survives I discussed the the

1476

01:14:18,390 --> 01:14:15,880

subject and they they're convinced that

1477

01:14:22,080 --> 01:14:18,400

he chased something that was not of this

1478

01:14:23,730 --> 01:14:22,090

earth well there's a good well you know

1479

01:14:26,070 --> 01:14:23,740

we don't know that's the thing you know

1480

01:14:28,140 --> 01:14:26,080

but but just the way he was a here's a

1481

01:14:30,150 --> 01:14:28,150

an experienced pilot he certainly

1482

01:14:32,580 --> 01:14:30,160

shouldn't have flown higher than the

1483

01:14:35,550 --> 01:14:32,590

airplane you know was built for which is

1484

01:14:37,020 --> 01:14:35,560

very unusual because pilots you know are

1485

01:14:39,840 --> 01:14:37,030

the most cautious people in the world

1486

01:14:42,840 --> 01:14:39,850

just by nature so that was his first

1487

01:14:44,700 --> 01:14:42,850

mistake and then you know what happened

1488

01:14:46,260 --> 01:14:44,710

after they lost radio communication with

1489

01:14:48,420 --> 01:14:46,270

them you know who knows you know he did

1490

01:14:50,400 --> 01:14:48,430

say it looked metallic it was huge I

1491

01:14:52,200 --> 01:14:50,410

think later on they said he was chasing

1492

01:14:56,370 --> 01:14:52,210

Venus which was you know the real kind

1493

01:14:58,230 --> 01:14:56,380

of excuse to draw back then yeah so so

1494

01:14:59,760 --> 01:14:58,240

we don't know but it but it really is as

1495

01:15:04,320 --> 01:14:59,770

you say it's kind of a milestone in the

1496

01:15:06,240 --> 01:15:04,330

annals of the UFO early UFO era well you

1497

01:15:09,330 --> 01:15:06,250

know the one case that even gets more

1498

01:15:11,730 --> 01:15:09,340

attention that man tells those today was

1499

01:15:16,770 --> 01:15:11,740

the one that took a place in Australia

1500

01:15:19,770 --> 01:15:16,780

with a pilot Valencia is that his name

1501

01:15:23,490 --> 01:15:19,780

saw something strange and radioed it in

1502

01:15:27,300 --> 01:15:23,500

and he was never the plane disappeared

1503

01:15:29,820 --> 01:15:27,310

and he disappeared well planes disappear

1504

01:15:31,290 --> 01:15:29,830

you know and planes crash and you know

1505

01:15:33,530 --> 01:15:31,300

planes go into the water and you're

1506

01:15:35,310 --> 01:15:33,540

never gonna find them at that point but

1507

01:15:36,360 --> 01:15:35,320

just going back to what were you're

1508

01:15:38,580 --> 01:15:36,370

talking about in the previous segment

1509

01:15:41,190 --> 01:15:38,590

you know this just seems to be a lot of

1510

01:15:42,900 --> 01:15:41,200

this stuff happens around you know these

1511

01:15:46,080 --> 01:15:42,910

hotspots or whatever but a lot of it

1512

01:15:47,730 --> 01:15:46,090

happens around military bases too so you

1513

01:15:49,380 --> 01:15:47,740

know you have to think well what's

1514

01:15:51,390 --> 01:15:49,390

happening here in fact when we did the

1515

01:15:53,190 --> 01:15:51,400

book Beyond area 51 when we talked about

1516

01:15:55,140 --> 01:15:53,200

secret bases around the world not area

1517

01:15:58,140 --> 01:15:55,150

51 but all the others that we could find

1518

01:16:01,080 --> 01:15:58,150

I just about all of them had a UFO

1519

01:16:03,660 --> 01:16:01,090

history to the only tone upon Nevada as

1520

01:16:06,570 --> 01:16:03,670

it turns out had very little of a UFO

1521

01:16:08,640 --> 01:16:06,580

history when compared to other secret

1522

01:16:10,490 --> 01:16:08,650

bases so you you can tend to ask

1523

01:16:13,410 --> 01:16:10,500

yourself what came for

1524

01:16:15,600 --> 01:16:13,420

well I wonder if Tonopah doesn't have a

1525

01:16:17,759 --> 01:16:15,610

lot of reported sightings because

1526

01:16:19,970 --> 01:16:17,769

there's not that many people around

1527

01:16:24,419 --> 01:16:19,980

there to begin with and those who are

1528

01:16:26,459 --> 01:16:24,429

they can't talk about it right but but

1529

01:16:28,589 --> 01:16:26,469

it is it in I would have thought that

1530

01:16:30,830 --> 01:16:28,599

too but it is known as like one of the

1531

01:16:33,209 --> 01:16:30,840

best places in the country to

1532

01:16:35,790 --> 01:16:33,219

astronomers amateur astronomers to go

1533

01:16:37,890 --> 01:16:35,800

and look at the sky you know so they

1534

01:16:39,479 --> 01:16:37,900

actually run tours you know for that

1535

01:16:41,189 --> 01:16:39,489

purpose so you think well you get a lot

1536

01:16:42,569 --> 01:16:41,199

of people out there they're astronomers

1537

01:16:45,149 --> 01:16:42,579

they're looking up at the sky you think

1538

01:16:47,790 --> 01:16:45,159

you'd have more UFO reports from that

1539

01:16:49,979 --> 01:16:47,800

area than you do just the fact that you

1540

01:16:52,410 --> 01:16:49,989

that that that you don't have a lot of

1541

01:16:53,850 --> 01:16:52,420

them you know it's like someone's trying

1542

01:17:00,419 --> 01:16:53,860

to tell us something but I'm not sure

1543

01:17:04,589 --> 01:17:00,429

quite one well talking about UFOs and

1544

01:17:10,350 --> 01:17:04,599

and different modes of propulsion so

1545

01:17:14,750 --> 01:17:10,360

Bruce do you think that the electronic

1546

01:17:21,240 --> 01:17:14,760

fog phenomena is something that is

1547

01:17:25,169 --> 01:17:21,250

currently being studied for you know you

1548

01:17:27,330 --> 01:17:25,179

know for potential use either military

1549

01:17:29,879 --> 01:17:27,340

or what have you because I mean

1550

01:17:32,580 --> 01:17:29,889

guaranteed if there's something to it

1551

01:17:34,500 --> 01:17:32,590

and you're talking about it now then

1552

01:17:37,560 --> 01:17:34,510

probably the military has been looking

1553

01:17:42,350 --> 01:17:37,570

into it for the you know 20 30 years or

1554

01:17:45,000 --> 01:17:42,360

more yeah well there's that famous story

1555

01:17:47,879 --> 01:17:45,010

where was it Virginia where the one of

1556

01:17:49,470 --> 01:17:47,889

their Navy vessels was transported when

1557

01:17:51,169 --> 01:17:49,480

they were experimenting with this type

1558

01:17:53,970 --> 01:17:51,179

of thing

1559

01:17:56,790 --> 01:17:53,980

right the Philadelphia Experiment that's

1560

01:17:58,890 --> 01:17:56,800

right right but you know if I don't want

1561

01:18:00,839 --> 01:17:58,900

to be the bucket of cold water here but

1562

01:18:02,220 --> 01:18:00,849

you know that they actually explain the

1563

01:18:04,470 --> 01:18:02,230

Philadelphia Experiment what they were

1564

01:18:06,839 --> 01:18:04,480

doing was at the time in World War two

1565

01:18:08,640 --> 01:18:06,849

early World War two they they wanted to

1566

01:18:11,549 --> 01:18:08,650

have some kind of a defense against

1567

01:18:13,319 --> 01:18:11,559

German mines and what summoned and there

1568

01:18:14,790 --> 01:18:13,329

were magnetic mines back then and what

1569

01:18:17,370 --> 01:18:14,800

someone found out was that if you

1570

01:18:20,939 --> 01:18:17,380

actually changed the electrical charge

1571

01:18:22,890 --> 01:18:20,949

of the of the hull of a ship it would it

1572

01:18:23,670 --> 01:18:22,900

wouldn't attract the mines it would you

1573

01:18:26,550 --> 01:18:23,680

know actually

1574

01:18:28,110 --> 01:18:26,560

to go away you know it would repel them

1575

01:18:30,240 --> 01:18:28,120

so that's what they're doing it's called

1576

01:18:32,370 --> 01:18:30,250

degaussing and they were actually were

1577

01:18:35,090 --> 01:18:32,380

able to change the the electrical charge

1578

01:18:38,310 --> 01:18:35,100

of an entire ship and as a way of

1579

01:18:39,720 --> 01:18:38,320

preventing mines from sinking it and

1580

01:18:41,580 --> 01:18:39,730

that's that story just kind of you know

1581

01:18:43,920 --> 01:18:41,590

kind of life of its own and you know off

1582

01:18:45,630 --> 01:18:43,930

we went but really that's that's really

1583

01:18:47,370 --> 01:18:45,640

the story behind it once again sorry to

1584

01:18:48,930 --> 01:18:47,380

be the bucket of cold water here yeah

1585

01:18:51,420 --> 01:18:48,940

but there are scientists that are

1586

01:18:54,180 --> 01:18:51,430

studying and I've they've written to me

1587

01:18:56,700 --> 01:18:54,190

and there's one in Ukraine that's done a

1588

01:18:58,440 --> 01:18:56,710

lot of research on it he thinks he if he

1589

01:19:00,930 --> 01:18:58,450

had the funding you know he could create

1590

01:19:06,390 --> 01:19:00,940

the electronic fog he thinks he's like a

1591

01:19:10,860 --> 01:19:06,400

doctor of chemistry but I wanted to tell

1592

01:19:15,840 --> 01:19:10,870

you about more about UFOs and my

1593

01:19:18,570 --> 01:19:15,850

theories please do the there's a chapter

1594

01:19:23,390 --> 01:19:18,580

by about Joe mcmoneagle you guys know

1595

01:19:28,110 --> 01:19:23,400

him he's a well-known remote viewer

1596

01:19:30,480 --> 01:19:28,120

he's written like four books his good

1597

01:19:35,760 --> 01:19:30,490

friends would rob my co-author Rob

1598

01:19:37,410 --> 01:19:35,770

MacGregor yeah we've got a lot of we've

1599

01:19:39,540 --> 01:19:37,420

done a lot of remote viewing we've had a

1600

01:19:41,640 --> 01:19:39,550

lot of rewrote doing guests on our radio

1601  
01:19:45,030 --> 01:19:41,650  
show so um you know we're familiar with

1602  
01:19:47,520 --> 01:19:45,040  
it yeah so yeah so he just did a chapter

1603  
01:19:49,890 --> 01:19:47,530  
on my experience it's fairly interesting

1604  
01:19:53,160 --> 01:19:49,900  
with it I was talking to him not long

1605  
01:19:58,070 --> 01:19:53,170  
ago me and he got me thinking that he

1606  
01:20:00,990 --> 01:19:58,080  
claims that he can he's gone almost

1607  
01:20:07,020 --> 01:20:01,000  
inside but not deep inside some of these

1608  
01:20:13,940 --> 01:20:07,030  
UFOs with his mind and he his latest

1609  
01:20:19,460 --> 01:20:13,950  
thoughts are that some of these UFOs are

1610  
01:20:22,400 --> 01:20:19,470  
alive the vessel itself it's an organism

1611  
01:20:27,330 --> 01:20:22,410  
and

1612  
01:20:31,950 --> 01:20:27,340  
the aliens have learned how to work with

1613  
01:20:36,390 --> 01:20:31,960

this organism and and I've seen several

1614

01:20:42,300 --> 01:20:36,400

UFOs that do remind me that they appear

1615

01:20:44,340 --> 01:20:42,310

to be not like the perfect kind I've

1616

01:20:46,740 --> 01:20:44,350

seen many of them that I almost had

1617

01:20:49,830 --> 01:20:46,750

crashed into one last line once it's a

1618

01:20:52,980 --> 01:20:49,840

classic saucer shape or the dome on the

1619

01:20:54,930 --> 01:20:52,990

top it's like maybe two 300 feet wide

1620

01:20:58,620 --> 01:20:54,940

before deceit thick or something like

1621

01:21:01,560 --> 01:20:58,630

that but I've seen five I'm flying in

1622

01:21:06,990 --> 01:21:01,570

formation once - all in the Bermuda

1623

01:21:09,270 --> 01:21:07,000

Triangle but anyway there's one that's

1624

01:21:12,150 --> 01:21:09,280

well known they call it the Seaguar

1625

01:21:14,940 --> 01:21:12,160

shape one and it's there's been lots of

1626

01:21:18,630 --> 01:21:14,950

photographs of it and it's like first of

1627

01:21:21,690 --> 01:21:18,640

mile long right do some that's that's

1628

01:21:23,730 --> 01:21:21,700

actually the number one reported shape

1629

01:21:26,790 --> 01:21:23,740

of UFOs people think it's flying saucers

1630

01:21:30,480 --> 01:21:26,800

but more people see cigar shaped objects

1631

01:21:33,450 --> 01:21:30,490

then then the saucer shaped sorry when I

1632

01:21:34,560 --> 01:21:33,460

first start doing my research I picked

1633

01:21:36,960 --> 01:21:34,570

up a book

1634

01:21:38,550 --> 01:21:36,970

I didn't I I read all the books on UFOs

1635

01:21:41,250 --> 01:21:38,560

I didn't keep them they stayed in my

1636

01:21:44,070 --> 01:21:41,260

mind so I didn't keep it that there was

1637

01:21:47,070 --> 01:21:44,080

a South American doctor that took photos

1638

01:21:49,950 --> 01:21:47,080

of close-ups of the cigar shape one and

1639

01:21:52,620 --> 01:21:49,960

it has like dimples in it almost like

1640

01:21:57,600 --> 01:21:52,630

golf ball but the dimples are not

1641

01:21:59,700 --> 01:21:57,610

perfect they're different sizes slightly

1642

01:22:02,040 --> 01:21:59,710

different shapes and that's where I get

1643

01:22:03,870 --> 01:22:02,050

the feeling that that thing is a living

1644

01:22:05,880 --> 01:22:03,880

organism and this is where Joe

1645

01:22:07,350 --> 01:22:05,890

mcmoneagle claims that he's been inside

1646

01:22:10,200 --> 01:22:07,360

but they won't let him get way inside

1647

01:22:12,210 --> 01:22:10,210

that's they seem to modify it somehow

1648

01:22:14,400 --> 01:22:12,220

and worked with this living organism

1649

01:22:17,520 --> 01:22:14,410

that has the capability to travel to

1650

01:22:20,730 --> 01:22:17,530

different stars and when actually

1651

01:22:23,970 --> 01:22:20,740

Kenneth Arnold oh we were talking about

1652

01:22:25,530 --> 01:22:23,980

him earlier he he believed he didn't

1653

01:22:27,510 --> 01:22:25,540

believe that these were extraterrestrial

1654

01:22:29,010 --> 01:22:27,520

crafts well maybe maybe he did in the

1655

01:22:31,440 --> 01:22:29,020

beginning but most people don't realize

1656

01:22:33,450 --> 01:22:31,450

that he had a tonal I think of eight or

1657

01:22:36,149 --> 01:22:33,460

nine different sightings and some of

1658

01:22:38,490 --> 01:22:36,159

them he thought were a living beings

1659

01:22:40,860 --> 01:22:38,500

and others he thought others he actually

1660

01:22:44,399 --> 01:22:40,870

thought were vessels that were coming

1661

01:22:48,810 --> 01:22:44,409

from the other side to take the spirits

1662

01:22:51,390 --> 01:22:48,820

of the deceased to some other place

1663

01:22:54,030 --> 01:22:51,400

which actually is very interesting

1664

01:22:58,110 --> 01:22:54,040

because I have something that I call the

1665

01:23:02,010 --> 01:22:58,120

June 24th enigma more people have passed

1666

01:23:05,070 --> 01:23:02,020

away in ufology on the anniversary of

1667

01:23:07,379 --> 01:23:05,080

Kenneth Arnold's UFO sighting June 24th

1668

01:23:10,680 --> 01:23:07,389

then on any other date I mean we're

1669

01:23:15,419 --> 01:23:10,690

talking about 10 or 15 individuals which

1670

01:23:17,790 --> 01:23:15,429

you know certainly is a large number and

1671

01:23:19,860 --> 01:23:17,800

he believed that they were ships to take

1672

01:23:22,040 --> 01:23:19,870

the spirits over I don't know I did I

1673

01:23:25,189 --> 01:23:22,050

just think it's a very strange

1674

01:23:27,930 --> 01:23:25,199

synchronicity in a coincidence and to me

1675

01:23:32,820 --> 01:23:27,940

synchronicities are the very important

1676

01:23:34,830 --> 01:23:32,830

part of the UFO phenomena it's it's just

1677

01:23:36,060 --> 01:23:34,840

the things that have happened to me over

1678

01:23:38,669 --> 01:23:36,070

the year

1679

01:23:40,470 --> 01:23:38,679

a bizarre that's the only way I can

1680

01:23:42,870 --> 01:23:40,480

describe it and I'm not talking about

1681

01:23:44,760 --> 01:23:42,880

you know thinking is somebody and they

1682

01:23:46,590 --> 01:23:44,770

call on the phone two days later or

1683

01:23:51,300 --> 01:23:46,600

something like that well you know

1684

01:23:53,760 --> 01:23:51,310

hardcore yeah you know talking about the

1685

01:23:56,189 --> 01:23:53,770

the idea that these that these ships are

1686

01:23:59,580 --> 01:23:56,199

some of them could be you know some kind

1687

01:24:05,280 --> 01:23:59,590

of you know living organism or you know

1688

01:24:09,419 --> 01:24:05,290

created organism I mean I have seen UFO

1689

01:24:11,280 --> 01:24:09,429

films that that show objects flying

1690

01:24:13,470 --> 01:24:11,290

around in the sky and I mean and these

1691

01:24:15,570 --> 01:24:13,480

were actual films you know not doctored

1692

01:24:19,709 --> 01:24:15,580

you know videotapes like hero across

1693

01:24:21,540 --> 01:24:19,719

anymore that show a number of objects in

1694

01:24:24,300 --> 01:24:21,550

the sky that are flying around each

1695

01:24:26,330 --> 01:24:24,310

other and they behave like you would see

1696

01:24:28,439 --> 01:24:26,340

insects flying around there you know

1697

01:24:31,590 --> 01:24:28,449

zooming back and forth almost like

1698

01:24:33,629 --> 01:24:31,600

playing with each other just you just

1699

01:24:36,229 --> 01:24:33,639

get the impression looking at them that

1700

01:24:41,250 --> 01:24:36,239

you're looking at something that is

1701

01:24:42,990 --> 01:24:41,260

either alive or so responsive that you

1702

01:24:44,790 --> 01:24:43,000

know for all intents and purposes it

1703

01:24:46,649 --> 01:24:44,800

could be they could be alive yeah the

1704

01:24:49,780 --> 01:24:46,659

latest video that the fighter jet

1705

01:24:51,310 --> 01:24:49,790

whatever jet fighter pilots took of the

1706

01:24:54,190 --> 01:24:51,320

object right in front of them there are

1707

01:24:56,650 --> 01:24:54,200

two Jet's if this object was it was

1708

01:24:58,600 --> 01:24:56,660

tumbling when I saw that it looked like

1709

01:25:00,340 --> 01:24:58,610

it was almost showing off or having fun

1710

01:25:03,610 --> 01:25:00,350

in front of the Jets because they

1711

01:25:06,210 --> 01:25:03,620

couldn't keep up with it you know there

1712

01:25:08,530 --> 01:25:06,220

was a one of the few studies that

1713

01:25:12,700 --> 01:25:08,540

project Bluebook tried to get off the

1714

01:25:14,620 --> 01:25:12,710

ground in the early 50s was the captain

1715

01:25:16,750 --> 01:25:14,630

repelled who was in charge of that for a

1716

01:25:19,150 --> 01:25:16,760

while there's a lot of controversy about

1717

01:25:21,160 --> 01:25:19,160

how deeply he actually got into it he

1718

01:25:22,960 --> 01:25:21,170

seems to have like a 50/50 track record

1719

01:25:25,420 --> 01:25:22,970

but one thing he wanted to do and he

1720

01:25:27,550 --> 01:25:25,430

brought this up was that some people

1721

01:25:29,770 --> 01:25:27,560

would see swarms of UFOs and they would

1722

01:25:33,250 --> 01:25:29,780

act just like you said like a swarm of

1723

01:25:35,110 --> 01:25:33,260

bees not really in any kind of an

1724

01:25:38,100 --> 01:25:35,120

organized way they were all just kind of

1725

01:25:40,330 --> 01:25:38,110

swarming and so on and so forth and then

1726

01:25:43,060 --> 01:25:40,340

then other people would see like

1727

01:25:45,280 --> 01:25:43,070

Chevron's full Chevron's of UFOs flying

1728

01:25:47,290 --> 01:25:45,290

overhead flying almost like geese would

1729

01:25:48,970 --> 01:25:47,300

and that's kind of an intelligent way of

1730

01:25:50,560 --> 01:25:48,980

flying because you know they're

1731

01:25:51,880 --> 01:25:50,570

following the leader so what they wanted

1732

01:25:55,330 --> 01:25:51,890

to do they wanted to do a study a

1733

01:25:57,520 --> 01:25:55,340

time-motion study to see if UFOs seemed

1734

01:25:59,200 --> 01:25:57,530

to fly under you know let's say

1735

01:26:02,230 --> 01:25:59,210

intelligent control and that would be

1736

01:26:03,280 --> 01:26:02,240

the goose theory or unintelligent

1737

01:26:06,070 --> 01:26:03,290

control them that would be like the

1738

01:26:08,320 --> 01:26:06,080

flying insects theory and it was a great

1739

01:26:10,870 --> 01:26:08,330

proposal but the Pentagon refused to

1740

01:26:12,310 --> 01:26:10,880

fund it so you had them done that I

1741

01:26:16,300 --> 01:26:12,320

think it would have been some

1742

01:26:19,200 --> 01:26:16,310

interesting results and that UFO that's

1743

01:26:21,550 --> 01:26:19,210

the big one the cigar shape one I've

1744

01:26:23,470 --> 01:26:21,560

heard where they a lot of people have

1745

01:26:26,560 --> 01:26:23,480

seen him and where they're in like a

1746

01:26:29,200 --> 01:26:26,570

cloud during the Shroud shout it by a

1747

01:26:31,810 --> 01:26:29,210

cloud and so you really can't see them

1748

01:26:34,570 --> 01:26:31,820

when they're in this cloud so all right

1749

01:26:37,720 --> 01:26:34,580

one of my theories as far as UFOs goes

1750

01:26:40,240 --> 01:26:37,730

is that remember when I told you how I

1751

01:26:43,960 --> 01:26:40,250

my first encounter was this lenticular

1752

01:26:47,620 --> 01:26:43,970

shaped cloud mm-hmm well inside of that

1753

01:26:51,280 --> 01:26:47,630

men particular cloud they it could have

1754

01:26:54,400 --> 01:26:51,290

been one of the Seaguar shape mother

1755

01:26:56,490 --> 01:26:54,410

ships hidden in there and then I just

1756

01:27:01,810 --> 01:26:56,500

happen to fly right over it when it was

1757

01:27:02,940 --> 01:27:01,820

getting ready to exit earth for another

1758

01:27:07,470 --> 01:27:02,950

star

1759

01:27:13,650 --> 01:27:07,480

and then I got caught up in its wake

1760

01:27:18,560 --> 01:27:13,660

turbulence and part of their engine

1761

01:27:21,240 --> 01:27:18,570

motive system helps to produce this

1762

01:27:24,420 --> 01:27:21,250

electronic fog it's part of their energy

1763

01:27:28,500 --> 01:27:24,430

to can't support themselves through

1764

01:27:32,040 --> 01:27:28,510

space and time well that's it then so

1765

01:27:33,390 --> 01:27:32,050

you know are we talking about you know

1766

01:27:35,250 --> 01:27:33,400

when you in talk about the electronic

1767

01:27:38,070 --> 01:27:35,260

fog you know talking about a natural

1768

01:27:42,240 --> 01:27:38,080

phenomena or a phenomena that is

1769

01:27:46,020 --> 01:27:42,250

produced as an actor after a fact from

1770

01:27:49,260 --> 01:27:46,030

you know the propulsion of some type of

1771

01:27:52,920 --> 01:27:49,270

unknown craft or or maybe both right

1772

01:27:54,450 --> 01:27:52,930

it's like it's like lightning couple of

1773

01:27:56,160 --> 01:27:54,460

hundred years ago we weren't able to

1774

01:27:57,630 --> 01:27:56,170

really use the power of lightning and

1775

01:27:59,640 --> 01:27:57,640

now look what we've done with it so

1776

01:28:02,700 --> 01:27:59,650

that's like this electronic fog it has

1777

01:28:04,730 --> 01:28:02,710

the power that has something to do with

1778

01:28:07,230 --> 01:28:04,740

time mm-hmm

1779

01:28:09,390 --> 01:28:07,240

you know what I was doing research for

1780

01:28:15,360 --> 01:28:09,400

this program I ran across the website

1781

01:28:18,390 --> 01:28:15,370

that had tracked sunspot activity on the

1782

01:28:22,200 --> 01:28:18,400

day when you had your first experience

1783

01:28:26,030 --> 01:28:22,210

you know December 1970 and I guess that

1784

01:28:29,490 --> 01:28:26,040

there was a an extremely high number of

1785

01:28:32,630 --> 01:28:29,500

sunspots going on that day where

1786

01:28:36,300 --> 01:28:32,640

Professor Paris has explored all that

1787

01:28:39,870 --> 01:28:36,310

that the sunspots part of his theories

1788

01:28:42,480 --> 01:28:39,880

that and yes they were very abnormally

1789

01:28:46,260 --> 01:28:42,490

high on that day and then the weather

1790

01:28:49,050 --> 01:28:46,270

was calm - there wasn't hardly any wind

1791

01:28:51,470 --> 01:28:49,060

the winds were variable that day and

1792

01:28:56,130 --> 01:28:51,480

there were large widely scattered

1793

01:29:00,840 --> 01:28:56,140

thunderstorms you know so do you is

1794

01:29:06,020 --> 01:29:00,850

there has anybody attempted to work out

1795

01:29:08,430 --> 01:29:06,030

a theory on how this kind of activity

1796

01:29:10,950 --> 01:29:08,440

could be predicted you know kind of like

1797

01:29:14,040 --> 01:29:10,960

a weather reports you know don't you

1798

01:29:16,680 --> 01:29:14,050

know don't fly off of you know the coast

1799

01:29:21,150 --> 01:29:16,690

of Bimini today because there's a

1800

01:29:22,770 --> 01:29:21,160

a chance of time-space continuum well

1801

01:29:26,790 --> 01:29:22,780

that's that's one of our goals but

1802

01:29:30,290 --> 01:29:26,800

Professor Paris of is to invent an

1803

01:29:33,750 --> 01:29:30,300

instrument or someone needs to then at

1804

01:29:37,290 --> 01:29:33,760

that world detect areas of electronic

1805

01:29:42,840 --> 01:29:37,300

fog it's it's similar to like the storm

1806

01:29:48,510 --> 01:29:42,850

scope that was invented only 20 years

1807

01:29:51,479 --> 01:29:48,520

ago so that can detect lightning the

1808

01:29:54,479 --> 01:29:51,489

first that they created the radar that

1809

01:29:56,370 --> 01:29:54,489

was that me sixty years ago it wasn't

1810

01:29:58,500 --> 01:29:56,380

until like twenty years ago that they

1811

01:30:02,220 --> 01:29:58,510

invented an instrument that detects the

1812

01:30:05,130 --> 01:30:02,230

lightning bolts too so one of the next

1813

01:30:07,800 --> 01:30:05,140

future instruments should be one that

1814

01:30:09,930 --> 01:30:07,810

can detect electronic fog because it'll

1815

01:30:12,900 --> 01:30:09,940

help save lives similar I believe the

1816

01:30:17,240 --> 01:30:12,910

the Malaysian airliner encountered the

1817

01:30:20,250 --> 01:30:17,250

electronic fog there's there's a lot of

1818

01:30:24,689 --> 01:30:20,260

unexplained disappearances throughout

1819

01:30:26,970 --> 01:30:24,699

history that I know a lot of people wish

1820

01:30:28,530 --> 01:30:26,980

that they could come up with a good

1821

01:30:29,820 --> 01:30:28,540

explanation you know the Malaysian

1822

01:30:31,560 --> 01:30:29,830

flight you know like you said do you

1823

01:30:35,370 --> 01:30:31,570

know that's that's a perfect example

1824

01:30:41,370 --> 01:30:35,380

that the Malaysian flight to tell you

1825

01:30:44,820 --> 01:30:41,380

just if I can throw my theory in the

1826

01:30:47,010 --> 01:30:44,830

ground they are able to take away the

1827

01:30:49,410 --> 01:30:47,020

pilots ability to steer the airplane and

1828

01:30:52,170 --> 01:30:49,420

they flew it out over the Indian Ocean

1829

01:30:54,500 --> 01:30:52,180

and they you know and they intentionally

1830

01:30:58,080 --> 01:30:54,510

let it crash and I think that was

1831

01:31:00,240 --> 01:30:58,090

somebody somewhere telling us all that

1832

01:31:01,709 --> 01:31:00,250

we can take over when you're airplanes

1833

01:31:04,310 --> 01:31:01,719

anytime we want there's been some very

1834

01:31:07,680 --> 01:31:04,320

unusual airplane crashes since then and

1835

01:31:09,540 --> 01:31:07,690

you know people can hack into our credit

1836

01:31:12,450 --> 01:31:09,550

cards these days they hack into well you

1837

01:31:14,340 --> 01:31:12,460

know I computers laptops watching us

1838

01:31:15,420 --> 01:31:14,350

through the cameras who said that they

1839

01:31:17,040 --> 01:31:15,430  
wouldn't be able to hack into the

1840

01:31:18,180 --> 01:31:17,050  
controls of an airplane especially when

1841

01:31:18,900 --> 01:31:18,190  
then I don't have a whole lot of

1842

01:31:21,000 --> 01:31:18,910  
security

1843

01:31:24,510 --> 01:31:21,010  
I guess that type of thing they couldn't

1844

01:31:27,439 --> 01:31:24,520  
do that in 1945 when the famous flight

1845

01:31:29,240 --> 01:31:27,449  
19 mysteriously all five of them

1846

01:31:32,150 --> 01:31:29,250  
disappeared and they never

1847

01:31:34,340 --> 01:31:32,160  
found not a trace and that's another

1848

01:31:36,620 --> 01:31:34,350  
thing that kind of bothers me it's like

1849

01:31:39,530 --> 01:31:36,630  
we found pieces of the Malaysian airline

1850

01:31:41,900 --> 01:31:39,540  
today huh they had life rafts they were

1851  
01:31:45,770 --> 01:31:41,910  
wearing my vest they should have found

1852  
01:31:48,830 --> 01:31:45,780  
those floating somewhere LeAnn there

1853  
01:31:50,540 --> 01:31:48,840  
there was also a rescue craft that what

1854  
01:31:53,720 --> 01:31:50,550  
out looking for them as well that one

1855  
01:31:58,340 --> 01:31:53,730  
disappeared as well this is completely

1856  
01:32:00,050 --> 01:31:58,350  
right right 11 men a living men on a on

1857  
01:32:02,480 --> 01:32:00,060  
a flying boat they used to call them the

1858  
01:32:04,700 --> 01:32:02,490  
went out to look for them and you know

1859  
01:32:07,010 --> 01:32:04,710  
that disappeared as well it's true all

1860  
01:32:08,870 --> 01:32:07,020  
right guys we're getting a close to the

1861  
01:32:12,980 --> 01:32:08,880  
top of the hour so I want to give you a

1862  
01:32:14,660 --> 01:32:12,990  
chance to let our audience know where

1863  
01:32:19,040 --> 01:32:14,670

they can find out more about you so Mack

1864

01:32:20,510 --> 01:32:19,050

let's let's start with you well the name

1865

01:32:22,100 --> 01:32:20,520

of the latest book is Mack Molly's

1866

01:32:25,460 --> 01:32:22,110

haunted universe you can get it on

1867

01:32:27,830 --> 01:32:25,470

amazon.com or at any bookstore really

1868

01:32:29,630 --> 01:32:27,840

and Barnes and noble.com the publisher

1869

01:32:31,550 --> 01:32:29,640

wants us to mention and in some

1870

01:32:33,140 --> 01:32:31,560

bookstores if they don't have it in

1871

01:32:34,910 --> 01:32:33,150

stock you can actually have it printed

1872

01:32:38,510 --> 01:32:34,920

up some of them getting machines now

1873

01:32:40,520 --> 01:32:38,520

that you can print up a book in two

1874

01:32:43,010 --> 01:32:40,530

minutes and you have your own book so

1875

01:32:47,030 --> 01:32:43,020

and a lot of people buying of course as

1876

01:32:49,550 --> 01:32:47,040

ebooks anything else you know on my you

1877

01:32:51,940 --> 01:32:49,560

know books previous books and radio show

1878

01:32:54,020 --> 01:32:51,950

people can go to Matt Malone EECOM and

1879

01:32:56,660 --> 01:32:54,030

you know check out all the information

1880

01:32:58,850 --> 01:32:56,670

we have it there all right and Bruce

1881

01:33:02,240 --> 01:32:58,860

what about you yeah where can they find

1882

01:33:05,300 --> 01:33:02,250

your books to website yeah the books are

1883

01:33:09,110 --> 01:33:05,310

at amazon.com and different bookstores

1884

01:33:16,580 --> 01:33:09,120

and it's also available my new books

1885

01:33:19,190 --> 01:33:16,590

available on audio oh really Wow yeah

1886

01:33:23,990 --> 01:33:19,200

what was your original book published by

1887

01:33:28,430 --> 01:33:24,000

Llewellyn yeah well yeah yeah are they

1888

01:33:33,940 --> 01:33:28,440

your current publisher now no it's page

1889

01:33:37,810 --> 01:33:33,950

books oh new page well of course yes and

1890

01:33:41,510 --> 01:33:37,820

then my website is electronic fog calm

1891

01:33:43,420 --> 01:33:41,520

so you can tune into that and then see

1892

01:33:46,310 --> 01:33:43,430

some of the videos

1893

01:33:49,610 --> 01:33:46,320

one of one of the neat beauty videos on

1894

01:33:52,940 --> 01:33:49,620

there is I didn't tell the story but it

1895

01:33:55,700 --> 01:33:52,950

said it took place in Indiana and it's a

1896

01:33:58,550 --> 01:33:55,710

radar image but it shows these rings

1897

01:34:02,390 --> 01:33:58,560

forming which seemed to be identical to

1898

01:34:04,430 --> 01:34:02,400

the storm that I flew through the it

1899

01:34:07,340 --> 01:34:04,440

formed it instantly it spread out almost

1900

01:34:09,200 --> 01:34:07,350

instantly in about a 40 mile diameter

1901

01:34:14,060 --> 01:34:09,210

and they're all like doughnut shaped

1902

01:34:15,890 --> 01:34:14,070

storms at once simultaneously that's

1903

01:34:22,100 --> 01:34:15,900

another story that we're running out of

1904

01:34:24,710 --> 01:34:22,110

time all right well and Tim I just want

1905

01:34:28,310 --> 01:34:24,720

to remind everyone that we also have the

1906

01:34:31,340 --> 01:34:28,320

the trilogy of terror books oh well

1907

01:34:33,350 --> 01:34:31,350

you're absolutely right three of our but

1908

01:34:35,720 --> 01:34:33,360

three of our best books you know we have

1909

01:34:39,680 --> 01:34:35,730

so many great books there are almost up

1910

01:34:42,370 --> 01:34:39,690

that we're almost up to 300 titles just

1911

01:34:45,860 --> 01:34:42,380

hovering hovering right around there but

1912

01:34:48,730 --> 01:34:45,870

you know if if you want the three latest

1913

01:34:52,130 --> 01:34:48,740

books we get a really good Christmas

1914

01:34:56,360 --> 01:34:52,140

surprise for you if you go to the

1915

01:34:58,960 --> 01:34:56,370

website conspiracy journal accom we got

1916

01:35:02,090 --> 01:34:58,970

alien bloodlust UFO hostilities and

1917

01:35:06,050 --> 01:35:02,100

screwed by the aliens at a very special

1918

01:35:09,140 --> 01:35:06,060

price or a drop me an email Mr UFO eight

1919

01:35:11,720 --> 01:35:09,150

at hotmail.com and don't forget the

1920

01:35:14,000 --> 01:35:11,730

archives here at kco are you'll find all

1921

01:35:15,170 --> 01:35:14,010

our shows and don't forget our YouTube

1922

01:35:19,940 --> 01:35:15,180

channel

1923

01:35:21,530 --> 01:35:19,950

mr. UFOs a secret files with geez I

1924

01:35:25,160 --> 01:35:21,540

don't know how many guests we got five

1925

01:35:27,920 --> 01:35:25,170

six seven hundred now altogether that's

1926

01:35:30,440 --> 01:35:27,930

right no okay that's all that's all at

1927

01:35:32,960 --> 01:35:30,450

one program yeah that's right and that's

1928

01:35:36,440 --> 01:35:32,970

all she wrote for tonight there you go

1929

01:35:40,130 --> 01:35:36,450

good night ladies and gentlemen and a

1930

01:35:41,750 --> 01:35:40,140

people from out there and inside the

1931

01:35:44,420 --> 01:35:41,760

earth even what the heck let's don't

1932

01:35:51,970 --> 01:35:44,430

forget about them and in saucer bases

1933

01:35:58,790 --> 01:35:54,920

you've been listening to exploring the

1934

01:36:02,060 --> 01:35:58,800

bazaar with hosts Timothy Beckley aunty

1935

01:36:04,940 --> 01:36:02,070

Swartz they're taking back the night by

1936

01:36:07,460 --> 01:36:04,950

jetting non-stop across the cosmos in

1937

01:36:11,140 --> 01:36:07,470

search of the truly bizarre and totally

1938

01:36:13,840 --> 01:36:11,150

unexplained with you as their combined

1939

01:36:16,220 --> 01:36:13,850

Thursday nights at 7:00 p.m. Pacific

1940

01:36:19,529 --> 01:36:16,230

10:00 p.m.

1941

01:36:22,109 --> 01:36:19,539

on the K cor digital radio

1942

01:36:25,200 --> 01:36:22,119

for more information on exploring the

1943

01:36:27,720 --> 01:36:25,210

bazaars and hosts Timothy Beckley and

1944

01:36:30,899 --> 01:36:27,730

Tim Swartz check out their kco our

1945

01:36:36,959 --> 01:36:30,909

digital radio network follow their
