

EXPLORING THE BIZARRE #173 AMERICA'S STONEHENGE

1
00:00:37,430 --> 00:00:21,830

[Music]

2
00:00:44,380 --> 00:00:41,930

explode the bazaars or e-ticket ride

3
00:00:47,660 --> 00:00:44,390

into the world of the paranoid

4
00:00:51,970 --> 00:00:47,670

strap yourself in as we traverse the

5
00:00:55,090 --> 00:00:51,980

universe exploring the unexplained UFO s

6
00:00:57,470 --> 00:00:55,100

ghosts Lost Worlds

7
00:01:01,310 --> 00:00:57,480

cryptozoology waters as well as other

8
00:01:06,469 --> 00:01:01,320

dimensions it's time to take back the

9
00:01:09,590 --> 00:01:06,479

night now your electrifying hosts of

10
00:01:20,029 --> 00:01:09,600

exploring the bizarre Timothy Begley and

11
00:01:22,639 --> 00:01:20,039

team sports all right I'm just gonna

12
00:01:24,350 --> 00:01:22,649

have to ask it Tim why are you standing

13
00:01:26,480 --> 00:01:24,360

there stiff as a board

14

00:01:30,109 --> 00:01:26,490

I don't think I've seen you move for

15

00:01:33,620 --> 00:01:30,119

more than an hour huh keep your voice

16

00:01:37,010 --> 00:01:33,630

down I'm trying to blend in blend in

17

00:01:39,499 --> 00:01:37,020

blended with what with these standing

18

00:01:43,999 --> 00:01:39,509

stones I'm trying to find out the

19

00:01:49,100 --> 00:01:44,009

secrets of Stonehenge um but we're not

20

00:01:51,740 --> 00:01:49,110

in England were in New England oh I know

21

00:01:53,540 --> 00:01:51,750

I know I'm well aware of that but

22

00:01:55,699 --> 00:01:53,550

there's a stone henge in the United

23

00:01:58,160 --> 00:01:55,709

States and I thought if I look like a

24

00:02:00,980 --> 00:01:58,170

stone they might take me into their

25

00:02:05,540 --> 00:02:00,990

confidence as one of them and maybe pass

26
00:02:07,880 --> 00:02:05,550
along some of the mysteries to me okay

27
00:02:11,449 --> 00:02:07,890
that's probably the strangest thing I've

28
00:02:14,089 --> 00:02:11,459
ever heard but you might be there for a

29
00:02:16,670 --> 00:02:14,099
little while but in the meantime I think

30
00:02:19,729 --> 00:02:16,680
that our guest this evening can fill us

31
00:02:21,589 --> 00:02:19,739
in a little better on some of the some

32
00:02:26,059 --> 00:02:21,599
of the secrets maybe a little better

33
00:02:29,420 --> 00:02:26,069
than you can oh okay well let me move my

34
00:02:31,970 --> 00:02:29,430
arm up a little bit okay I'm headed back

35
00:02:34,430 --> 00:02:31,980
to the studio but very stiffly I don't

36
00:02:40,670 --> 00:02:34,440
want to give my concealed min away I

37
00:02:42,710 --> 00:02:40,680
think I'm very well camouflaged here how

38
00:02:47,240 --> 00:02:42,720

much do I get how much do I get paid for

39

00:02:50,630 --> 00:02:47,250

that you mean from the American

40

00:02:59,630 --> 00:02:57,530

I don't know maybe they pay what would

41

00:03:03,370 --> 00:02:59,640

that be wouldn't be royalties maybe

42

00:03:06,950 --> 00:03:03,380

advertising fee or something like that

43

00:03:10,660 --> 00:03:06,960

promotion there you go the free

44

00:03:16,070 --> 00:03:10,670

promotion well you know I've been to

45

00:03:20,120 --> 00:03:16,080

Stonehenge in the UK in fact I had a

46

00:03:24,110 --> 00:03:20,130

quite a bit of an adventure there a few

47

00:03:26,870 --> 00:03:24,120

years ago I pulled out a book that we

48

00:03:30,710 --> 00:03:26,880

published and you've contributed to it a

49

00:03:34,460 --> 00:03:30,720

UFO prophecy visions of the town haunted

50

00:03:36,170 --> 00:03:34,470

by flying saucers and that warminster is

51
00:03:38,210 --> 00:03:36,180
a little community I think in a

52
00:03:41,750 --> 00:03:38,220
population about nine or ten thousand

53
00:03:46,970 --> 00:03:41,760
when I was over there that was UFO crazy

54
00:03:49,910 --> 00:03:46,980
for a period in the 60s and 70s and very

55
00:03:52,070 --> 00:03:49,920
close as far as the crow flies to the

56
00:03:53,810 --> 00:03:52,080
ancient monument although I don't know

57
00:03:56,449 --> 00:03:53,820
if they necessarily have crows there but

58
00:03:58,940 --> 00:03:56,459
uh as long as the UFOs go they certainly

59
00:04:02,210 --> 00:03:58,950
do have they certainly did have plenty

60
00:04:05,180 --> 00:04:02,220
of those at the time so I'm interested

61
00:04:08,060 --> 00:04:05,190
in standing stones and standing

62
00:04:11,150 --> 00:04:08,070
monuments and why they seem to have such

63
00:04:13,400 --> 00:04:11,160

magical powers so I think that's kind of

64

00:04:17,030 --> 00:04:13,410

the the concept of the show or this

65

00:04:20,570 --> 00:04:17,040

evening Tim yeah that and you know who

66

00:04:22,790 --> 00:04:20,580

who may have been responsible for for

67

00:04:25,330 --> 00:04:22,800

building say like America's Stonehenge

68

00:04:29,330 --> 00:04:25,340

and you know some of the other more

69

00:04:31,909 --> 00:04:29,340

mysterious structures found around the

70

00:04:34,880 --> 00:04:31,919

United States it's you know the the

71

00:04:38,420 --> 00:04:34,890

intro for the show that can be as seen

72

00:04:41,719 --> 00:04:38,430

on the KCR website you know talks about

73

00:04:46,400 --> 00:04:41,729

who may have been the the first people

74

00:04:48,260 --> 00:04:46,410

to discover you know the the Americas

75

00:04:50,900 --> 00:04:48,270

you know of course you know we know the

76
00:04:53,180 --> 00:04:50,910
indigenous people you know we're here

77
00:04:55,490 --> 00:04:53,190
but you know some of the other

78
00:04:57,860 --> 00:04:55,500
contenders well we know the Knights

79
00:04:59,810 --> 00:04:57,870
Templar were up around Newfoundland when

80
00:05:01,850 --> 00:04:59,820
they went to Oak Island yeah all right

81
00:05:04,239 --> 00:05:01,860
right well that's their the contention

82
00:05:06,579 --> 00:05:04,249
you know the Romans Polynesians

83
00:05:10,259 --> 00:05:06,589
Chinese seems like everybody was here

84
00:05:14,949 --> 00:05:10,269
how long before Columbus allegedly

85
00:05:17,229 --> 00:05:14,959
discovered the Bahamas my theory on this

86
00:05:19,889 --> 00:05:17,239
people talk about the the the flat earth

87
00:05:22,479 --> 00:05:19,899
earth and it's only been what how many

88
00:05:25,089 --> 00:05:22,489

centuries and since the people came up

89

00:05:27,309 --> 00:05:25,099

with the concept that the the earth is

90

00:05:30,789 --> 00:05:27,319

round I think that's a bunch of hooley I

91

00:05:32,109 --> 00:05:30,799

believe that these early Explorer and

92

00:05:34,089 --> 00:05:32,119

explorers and the governments that

93

00:05:36,099 --> 00:05:34,099

financed them would like to have had

94

00:05:37,959 --> 00:05:36,109

people think that the earth was flat not

95

00:05:39,519 --> 00:05:37,969

that he would fall off so that they were

96

00:05:42,129 --> 00:05:39,529

keep their carcasses in their own

97

00:05:44,739 --> 00:05:42,139

backyard and not go hunting for a new

98

00:05:49,149 --> 00:05:44,749

world which they I wanted to rape

99

00:05:51,579 --> 00:05:49,159

pillage and plunder for whatever purpose

100

00:05:53,979 --> 00:05:51,589

so I think that that was one of the the

101

00:05:57,339 --> 00:05:53,989

grand hoaxes of all time is that the

102

00:06:00,729 --> 00:05:57,349

earth was flat and you would fall off no

103

00:06:02,619 --> 00:06:00,739

well yeah and in Columbus's day it was

104

00:06:05,349 --> 00:06:02,629

well known that the world was round i

105

00:06:06,789 --> 00:06:05,359

mean they were even selling globes you

106

00:06:08,859 --> 00:06:06,799

know you'd buy a globe of the earth in

107

00:06:13,299 --> 00:06:08,869

the in the market so I mean that was

108

00:06:17,769 --> 00:06:13,309

just I think I'm more of a modern modern

109

00:06:20,529 --> 00:06:17,779

thing that Columbus is sailors you know

110

00:06:24,279 --> 00:06:20,539

we're afraid of falling off the edge of

111

00:06:26,739 --> 00:06:24,289

the earth either for afraid of falling

112

00:06:30,399 --> 00:06:26,749

off of anything except my recliner at

113

00:06:32,979 --> 00:06:30,409

night anyway tell us tell us we're going

114

00:06:36,039 --> 00:06:32,989

to be conversing with this evening in

115

00:06:38,350 --> 00:06:36,049

our little chitchat here and exploring

116

00:06:41,649 --> 00:06:38,360

the bizarre oh sure be my pleasure well

117

00:06:43,479 --> 00:06:41,659

you know we in our introduction we we

118

00:06:45,789 --> 00:06:43,489

mentioned America's Stonehenge so

119

00:06:48,549 --> 00:06:45,799

that'll bring us to our first guest

120

00:06:51,309 --> 00:06:48,559

Dennis stone now Dennis stone is the

121

00:06:53,769 --> 00:06:51,319

president of America's stone hands and

122

00:06:56,079 --> 00:06:53,779

we'll have to ask him what their which

123

00:06:59,259 --> 00:06:56,089

name came first his last name or America

124

00:07:02,589 --> 00:06:59,269

stone Nance well and I'm sure he's heard

125

00:07:04,659 --> 00:07:02,599

that one you know a million times so now

126
00:07:06,850 --> 00:07:04,669
Dennis graduated from Daniel Webster

127
00:07:09,129 --> 00:07:06,860
College in 1977 with a degree in

128
00:07:11,459 --> 00:07:09,139
aviation management was a full-time

129
00:07:14,589 --> 00:07:11,469
commercial pilot for over 35 years

130
00:07:16,869 --> 00:07:14,599
before his retirement in 2016 our

131
00:07:18,040 --> 00:07:16,879
America's Stonehenge was open to the

132
00:07:21,309 --> 00:07:18,050
public in night

133
00:07:23,409 --> 00:07:21,319
18:58 my Dennis's father Robert stone

134
00:07:25,990 --> 00:07:23,419
Dennis has been involved with America

135
00:07:27,300 --> 00:07:26,000
Stonehenge for most of his life and has

136
00:07:31,180 --> 00:07:27,310
always had a fascination with

137
00:07:33,100 --> 00:07:31,190
archaeology and archaeal astronomy since

138
00:07:35,680 --> 00:07:33,110

retiring dennis has found many

139

00:07:38,230 --> 00:07:35,690

serpentine walls and spirit windows

140

00:07:39,969 --> 00:07:38,240

throughout the site among other new

141

00:07:42,100 --> 00:07:39,979

discoveries and he has taken numerous

142

00:07:44,439 --> 00:07:42,110

courses and travelled extensively to

143

00:07:46,659 --> 00:07:44,449

ancient sites both in the United States

144

00:07:49,089 --> 00:07:46,669

and internationally his family includes

145

00:07:50,800 --> 00:07:49,099

his wife Pat his son Kelsey and his

146

00:07:52,619 --> 00:07:50,810

daughter-in-law Catherine and his

147

00:07:55,510 --> 00:07:52,629

hobbies include traveling boating and

148

00:07:58,240 --> 00:07:55,520

classic cars now also with us tonight

149

00:07:59,709 --> 00:07:58,250

I'm making a return visit always happy

150

00:08:02,050 --> 00:07:59,719

to have Jim well this is Jim Willis

151
00:08:04,330 --> 00:08:02,060
after graduated from Eastman School of

152
00:08:07,959 --> 00:08:04,340
Music Jim became a high school band and

153
00:08:10,839 --> 00:08:07,969
orchestra teacher during the week at a

154
00:08:13,029 --> 00:08:10,849
symphony trombonist on the weekends a

155
00:08:15,760 --> 00:08:13,039
jazz musician at night and a choral

156
00:08:18,249 --> 00:08:15,770
conductor on Sunday mornings Wow the

157
00:08:20,619 --> 00:08:18,259
author of nine books on religion and

158
00:08:22,450 --> 00:08:20,629
spirituality he has been in a Dane

159
00:08:25,360 --> 00:08:22,460
Minister for over 40 years while working

160
00:08:28,600 --> 00:08:25,370
part-time as a carpenter and the host of

161
00:08:30,820 --> 00:08:28,610
his own a Drivetime radio show an Arts

162
00:08:33,069 --> 00:08:30,830
Council director and adjunct college

163
00:08:36,909 --> 00:08:33,079

professor in the fields of world

164

00:08:40,120 --> 00:08:36,919

religions and instrumental music now I

165

00:08:43,089 --> 00:08:40,130

should mention that Jim is also the

166

00:08:45,790 --> 00:08:43,099

author of a number of books including

167

00:08:47,829 --> 00:08:45,800

the dragon awakes rediscovering earth

168

00:08:50,650 --> 00:08:47,839

energy in the age of science ancient

169

00:08:52,240 --> 00:08:50,660

gods lost histories hidden truths and

170

00:08:54,940 --> 00:08:52,250

the conspiracy of silence and

171

00:08:58,269 --> 00:08:54,950

supernatural God's spiritual mysteries

172

00:09:01,240 --> 00:08:58,279

psychic experiences and scientific

173

00:09:02,380 --> 00:09:01,250

truths so Jim and Dennis thank you very

174

00:09:06,699 --> 00:09:02,390

much for being with us tonight

175

00:09:09,519 --> 00:09:06,709

on exploring the reserve welcome indeed

176

00:09:11,290 --> 00:09:09,529

gentlemen happy to have you here you

177

00:09:16,060 --> 00:09:11,300

know what I want to find out and I think

178

00:09:19,949 --> 00:09:16,070

maybe we should have Jim come in for

179

00:09:23,050 --> 00:09:19,959

this Jim what is there about these

180

00:09:27,460 --> 00:09:23,060

standing stones and we think of them

181

00:09:29,710 --> 00:09:27,470

mainly as being in on the English

182

00:09:31,840 --> 00:09:29,720

countryside but obviously and now we

183

00:09:35,079 --> 00:09:31,850

know that there's one in New England

184

00:09:38,079 --> 00:09:35,089

and I did visited the side of the US

185

00:09:40,269 --> 00:09:38,089

Stonehenge many many years ago I can't

186

00:09:43,240 --> 00:09:40,279

even remember where it was but I was a

187

00:09:45,550 --> 00:09:43,250

little rock at the time so it's much

188

00:09:48,639 --> 00:09:45,560

different than that today what is it

189

00:09:51,999 --> 00:09:48,649

about these stones that give off this

190

00:09:55,439 --> 00:09:52,009

energy and who discovered this I mean I

191

00:10:00,210 --> 00:09:55,449

believe it was done through dowsing

192

00:10:03,280 --> 00:10:00,220

mystery number one yeah

193

00:10:08,530 --> 00:10:03,290

dowsing came along later I think that we

194

00:10:10,300 --> 00:10:08,540

have we have forgotten how to really

195

00:10:12,970 --> 00:10:10,310

connect with these stones the way our

196

00:10:16,449 --> 00:10:12,980

ancestors did they had to have a

197

00:10:18,759 --> 00:10:16,459

powerful reason for doing it for making

198

00:10:21,160 --> 00:10:18,769

these moving these Megaton boulders in

199

00:10:23,710 --> 00:10:21,170

some cases we couldn't even do it today

200

00:10:26,439 --> 00:10:23,720

without some extensive equipment big

201
00:10:29,980 --> 00:10:26,449
equipment and there are places in the

202
00:10:31,600 --> 00:10:29,990
world in Lebanon for instance where we

203
00:10:34,930 --> 00:10:31,610
couldn't even lift those stones with the

204
00:10:38,040 --> 00:10:34,940
equipment that we have some new brand

205
00:10:40,480 --> 00:10:38,050
new sites in Siberia the same same idea

206
00:10:42,670 --> 00:10:40,490
it's just amazing we don't know how they

207
00:10:44,470 --> 00:10:42,680
did it we don't know why they did it we

208
00:10:47,590 --> 00:10:44,480
don't know who did it we don't know when

209
00:10:50,319 --> 00:10:47,600
they did it all we know is that they did

210
00:10:52,960 --> 00:10:50,329
it and the reason must have been a

211
00:10:55,569 --> 00:10:52,970
powerful powerful reason I have to

212
00:10:59,019 --> 00:10:55,579
believe it has something to do with a

213
00:11:02,139 --> 00:10:59,029

deep down sense of spirituality that we

214

00:11:04,300 --> 00:11:02,149

have allowed to atrophy here in these

215

00:11:06,699 --> 00:11:04,310

days in these modern days of the

216

00:11:09,189 --> 00:11:06,709

industrial age that we live and I think

217

00:11:10,809 --> 00:11:09,199

that it's still within us I know with me

218

00:11:15,660 --> 00:11:10,819

it didn't wake up until I started

219

00:11:20,319 --> 00:11:15,670

dowsing when I was 65 years old so why

220

00:11:23,590 --> 00:11:20,329

yeah yeah and of course I live down here

221

00:11:25,269 --> 00:11:23,600

in South Carolina now where we go back

222

00:11:27,340 --> 00:11:25,279

while I live right near the Savannah

223

00:11:29,769 --> 00:11:27,350

River and about 40 miles downriver from

224

00:11:32,470 --> 00:11:29,779

us is an archaeological site called the

225

00:11:36,340 --> 00:11:32,480

topper site where they have found lithic

226

00:11:38,790 --> 00:11:36,350

debet OSH people who have been chipping

227

00:11:41,259 --> 00:11:38,800

stone tools and things like that going

228

00:11:43,750 --> 00:11:41,269

back it's been tested by a number of

229

00:11:45,410 --> 00:11:43,760

different organizations it's been every

230

00:11:47,180 --> 00:11:45,420

archaeologist in this field

231

00:11:49,280 --> 00:11:47,190

this has come and looked at it it has

232

00:11:53,120 --> 00:11:49,290

been verified over and over and over

233

00:11:56,960 --> 00:11:53,130

again that this this is dated in soil

234

00:11:59,360 --> 00:11:56,970

that goes back at least 35 maybe 40,000

235

00:12:01,550 --> 00:11:59,370

years which is a long time for history

236

00:12:03,230 --> 00:12:01,560

when I lived up in New England it was a

237

00:12:04,940 --> 00:12:03,240

lot easier because when you go back 10

238

00:12:07,790 --> 00:12:04,950

to 12,000 years in New England you run

239

00:12:09,020 --> 00:12:07,800

smack into a mile high glacier and it

240

00:12:12,860 --> 00:12:09,030

gives you a little less at the time

241

00:12:14,900 --> 00:12:12,870

frame but it's it's just amazing to me I

242

00:12:16,790 --> 00:12:14,910

I will never forget the first time I

243

00:12:19,490 --> 00:12:16,800

stood in America Stonehenge back then it

244

00:12:21,260 --> 00:12:19,500

was called mystery Hill and I was

245

00:12:23,300 --> 00:12:21,270

talking to Dennis just before the

246

00:12:26,210 --> 00:12:23,310

program I'm almost positive that it was

247

00:12:28,040 --> 00:12:26,220

his father Robert who took me around he

248

00:12:30,230 --> 00:12:28,050

just happened to be there it was a rainy

249

00:12:33,650 --> 00:12:30,240

afternoon I remember and the rain lifted

250

00:12:36,950 --> 00:12:33,660

and I said I had mentioned my interest

251
00:12:38,390 --> 00:12:36,960
in a lot of these megalithic structures

252
00:12:42,920 --> 00:12:38,400
that we have on western part of

253
00:12:44,720 --> 00:12:42,930
Massachusetts monks caves and and and

254
00:12:47,660 --> 00:12:44,730
and stones and things like this of

255
00:12:51,020 --> 00:12:47,670
course the archeologists out there they

256
00:12:53,360 --> 00:12:51,030
all call them root cellars you know you

257
00:12:58,220 --> 00:12:53,370
crawl you crawl into one of those things

258
00:13:00,170 --> 00:12:58,230
here here's this this this Mound they

259
00:13:03,050 --> 00:13:00,180
sometimes call them beehive huts and

260
00:13:04,490 --> 00:13:03,060
there's a to get in you've got to go

261
00:13:06,350 --> 00:13:04,500
through an opening it's about two feet

262
00:13:08,030 --> 00:13:06,360
square and you got to get down on your

263
00:13:09,320 --> 00:13:08,040

hands and knees and I don't think I

264

00:13:12,020 --> 00:13:09,330

don't know of a single New England

265

00:13:14,690 --> 00:13:12,030

farmer that would even consider putting

266

00:13:16,280 --> 00:13:14,700

roots down there you put a basket of

267

00:13:18,560 --> 00:13:16,290

potatoes down there and they're gonna

268

00:13:22,070 --> 00:13:18,570

rot on you within a very short time and

269

00:13:24,560 --> 00:13:22,080

yet if any of these structures including

270

00:13:27,050 --> 00:13:24,570

I think America's Stonehenge if any of

271

00:13:29,090 --> 00:13:27,060

these structures existed in in England

272

00:13:31,340 --> 00:13:29,100

if they existed in France there'd be no

273

00:13:33,830 --> 00:13:31,350

question what they are the only problem

274

00:13:36,020 --> 00:13:33,840

is that people just simply don't want to

275

00:13:38,270 --> 00:13:36,030

believe that there was pre-columbian

276

00:13:41,270 --> 00:13:38,280

contact with with Western Europe and

277

00:13:43,070 --> 00:13:41,280

it's a it's a shame because to me it's

278

00:13:45,200 --> 00:13:43,080

just exciting I said I stood there

279

00:13:48,020 --> 00:13:45,210

mystery Hill and I just got chills up

280

00:13:49,520 --> 00:13:48,030

and down my spine I wish I'd had a pair

281

00:13:52,280 --> 00:13:49,530

of dowsing rods with me and I wish I

282

00:13:54,050 --> 00:13:52,290

have been more you know they're doing

283

00:13:55,580 --> 00:13:54,060

more dowsing back in those days I didn't

284

00:13:57,910 --> 00:13:55,590

start it until I came down here to South

285

00:13:59,410 --> 00:13:57,920

Carolina but I wish I had

286

00:14:01,329 --> 00:13:59,420

it would have been a wonderful thing and

287

00:14:02,829 --> 00:14:01,339

someday if I can get back here from

288

00:14:04,389 --> 00:14:02,839

South Carolina back up there I'm going

289

00:14:08,769 --> 00:14:04,399

to bring my dowsing rods next time I

290

00:14:12,660 --> 00:14:08,779

visit mystery Hill well you know I it's

291

00:14:19,720 --> 00:14:15,490

root cellars so-called root cellars

292

00:14:22,090 --> 00:14:19,730

throughout New England I've had I'm in

293

00:14:26,139 --> 00:14:22,100

contact maybe you are to would Paul you

294

00:14:27,550 --> 00:14:26,149

know of course and he's done some

295

00:14:30,910 --> 00:14:27,560

investigative work some of his

296

00:14:33,300 --> 00:14:30,920

associates as well and we've had many

297

00:14:37,380 --> 00:14:33,310

reports that have come our way about

298

00:14:41,139 --> 00:14:37,390

strange apparitions inside and around

299

00:14:46,170 --> 00:14:41,149

some of these structures as if they

300

00:14:51,420 --> 00:14:46,180

actually are part of some sort of vortex

301

00:14:53,740 --> 00:14:51,430

field or a gateway to to some other

302

00:14:58,569 --> 00:14:53,750

dimension perhaps and that's getting

303

00:15:00,340 --> 00:14:58,579

pretty wild now I remember I'm not sure

304

00:15:02,350 --> 00:15:00,350

it's it's it's very well when you can

305

00:15:06,100 --> 00:15:02,360

start to consider the strides we've made

306

00:15:09,310 --> 00:15:06,110

in in quantum quantum mechanics quantum

307

00:15:10,960 --> 00:15:09,320

theory now be because when you stop to

308

00:15:14,620 --> 00:15:10,970

think about it I mean everything is a

309

00:15:17,139 --> 00:15:14,630

manifestation of energy even our bodies

310

00:15:20,500 --> 00:15:17,149

are manifestation of energy our bodies

311

00:15:22,389 --> 00:15:20,510

are just simply swirling masses of

312

00:15:25,660 --> 00:15:22,399

energy that have clumped together on

313

00:15:28,230 --> 00:15:25,670

this side of the eggs field and I think

314

00:15:31,360 --> 00:15:28,240

that the day is going to come hopefully

315

00:15:32,680 --> 00:15:31,370

during even my lifetime when we're going

316

00:15:34,870 --> 00:15:32,690

to be able to really look at all of

317

00:15:38,259 --> 00:15:34,880

these things and understand that there's

318

00:15:41,319 --> 00:15:38,269

some serious science behind energy

319

00:15:42,269 --> 00:15:41,329

vortexes and things like that I find it

320

00:15:48,069 --> 00:15:42,279

fascinating

321

00:15:53,380 --> 00:15:48,079

well now quite a few years ago I was up

322

00:15:56,829 --> 00:15:53,390

near Lake Superior and I had some time

323

00:16:00,610 --> 00:15:56,839

to kill on a Sunday afternoon and a

324

00:16:04,090 --> 00:16:00,620

young woman came into the hotel where I

325

00:16:06,460 --> 00:16:04,100

was saying and she was a park ranger and

326

00:16:09,130 --> 00:16:06,470

I guess on Sunday afternoon they take

327

00:16:12,190 --> 00:16:09,140

the the tourists out for a guided tour

328

00:16:14,020 --> 00:16:12,200

of some of the trails and so

329

00:16:16,000 --> 00:16:14,030

but it happened to be raining that the

330

00:16:18,700 --> 00:16:16,010

afternoon and nobody seemed like they

331

00:16:22,270 --> 00:16:18,710

wanted to go out in the the mud so I

332

00:16:25,000 --> 00:16:22,280

just happened to ask her I had anybody

333

00:16:27,010 --> 00:16:25,010

seen anything unusual around there and

334

00:16:30,880 --> 00:16:27,020

she said well you know you've got to

335

00:16:32,260 --> 00:16:30,890

talk to our main park ranger I don't

336

00:16:34,450 --> 00:16:32,270

remember what his name is is probably

337

00:16:37,150 --> 00:16:34,460

written down because I've written about

338

00:16:39,790 --> 00:16:37,160

this probably in a couple of my books

339

00:16:42,220 --> 00:16:39,800

but she took me to the local park ranger

340

00:16:45,460 --> 00:16:42,230

headquarters and he described to me I

341

00:16:47,560 --> 00:16:45,470

believe he even had a file on this about

342

00:16:51,040 --> 00:16:47,570

the people you know a campers and all

343

00:16:53,290 --> 00:16:51,050

who had gone back into the should we say

344

00:16:56,220 --> 00:16:53,300

underbrush some agon wood canoes to find

345

00:17:00,370 --> 00:16:56,230

lost streams and all and they had stayed

346

00:17:02,080 --> 00:17:00,380

overnight in one of these well now I

347

00:17:04,210 --> 00:17:02,090

can't remember the name and I'm sure

348

00:17:06,280 --> 00:17:04,220

you'll come up with it it's not a hut

349

00:17:08,010 --> 00:17:06,290

but it's a thing that looks like a

350

00:17:11,949 --> 00:17:08,020

miniature stone structure with the

351

00:17:14,470 --> 00:17:11,959

overlapping the top on it you know and

352

00:17:18,360 --> 00:17:14,480

you could the I guess camp under there

353

00:17:20,620 --> 00:17:18,370

or meditate on in there or whatever and

354

00:17:21,640 --> 00:17:20,630

apparently the two nights that they were

355

00:17:24,430 --> 00:17:21,650

there

356

00:17:26,620 --> 00:17:24,440

strange balls of light or let's call

357

00:17:29,770 --> 00:17:26,630

them UFOs for lack of a better term I

358

00:17:32,860 --> 00:17:29,780

showed up in in France the overhead and

359

00:17:34,900 --> 00:17:32,870

and that coming from a park arranger I

360

00:17:36,580 --> 00:17:34,910

thought that it was kind of peculiar at

361

00:17:39,610 --> 00:17:36,590

the time but he said no that there had

362

00:17:42,580 --> 00:17:39,620

been other people that had reported this

363

00:17:44,530 --> 00:17:42,590

type of phenomena what would be your

364

00:17:48,220 --> 00:17:44,540

thinking on that have you seen anything

365

00:17:52,450 --> 00:17:48,230

unusual or or or had reports from people

366

00:17:59,110 --> 00:17:52,460

who have had similar experiences can I

367

00:18:01,390 --> 00:17:59,120

can I put in a plug right now I have a

368

00:18:04,540 --> 00:18:01,400

book coming out this fall it's being

369

00:18:06,610 --> 00:18:04,550

published by Finn harness and it's

370

00:18:10,120 --> 00:18:06,620

called it's called the quantum Akashic

371

00:18:13,630 --> 00:18:10,130

field a guide to out-of-body experiences

372

00:18:16,750 --> 00:18:13,640

for the astral traveler and the book is

373

00:18:18,850 --> 00:18:16,760

is full of stories like this and I've

374

00:18:21,610 --> 00:18:18,860

taken for instance from my own OBE

375

00:18:22,840 --> 00:18:21,620

journal and you have to remember you're

376

00:18:24,700 --> 00:18:22,850

talking to a guy I'm almost

377

00:18:25,420 --> 00:18:24,710

seventy-three years old now and until I

378

00:18:28,030 --> 00:18:25,430

was

379

00:18:32,110 --> 00:18:28,040

you're 2 years older than the well until

380

00:18:33,970 --> 00:18:32,120

I was until I was 62 I didn't believe

381

00:18:37,420 --> 00:18:33,980

any of this stuff I thought it was I was

382

00:18:40,750 --> 00:18:37,430

a left brain theologian professor

383

00:18:44,320 --> 00:18:40,760

college professor at worst at best and

384

00:18:46,120 --> 00:18:44,330

once you start to to get into this and

385

00:18:48,000 --> 00:18:46,130

take it seriously and open your mind and

386

00:18:50,710 --> 00:18:48,010

find the piece that you need which is

387

00:18:52,870 --> 00:18:50,720

very difficult to do in this hectic

388

00:18:55,630 --> 00:18:52,880

civilization this hectic culture we live

389

00:18:58,120 --> 00:18:55,640

in but once you begin to to come into

390

00:19:01,630 --> 00:18:58,130

into to touch with these kinds of

391

00:19:03,580 --> 00:19:01,640

activities and we came out here to the

392

00:19:05,110 --> 00:19:03,590

woods in South Carolina deliberately for

393

00:19:08,500 --> 00:19:05,120

that reason we wanted to get in touch

394

00:19:10,120 --> 00:19:08,510

with the divine with the holy we didn't

395

00:19:11,980 --> 00:19:10,130

know what it was we didn't know how it

396

00:19:13,720 --> 00:19:11,990

would do it I've been a minister on my

397

00:19:15,540 --> 00:19:13,730

life I've been preaching about it but it

398

00:19:19,660 --> 00:19:15,550

was all this left brain preaching about

399

00:19:22,150 --> 00:19:19,670

rather than the experience of and I'm

400

00:19:24,790 --> 00:19:22,160

absolutely convinced that the experience

401
00:19:26,470 --> 00:19:24,800
that we found in the last 10 years is

402
00:19:31,350 --> 00:19:26,480
the experience that our ancient

403
00:19:35,230 --> 00:19:31,360
ancestors lived in for many many

404
00:19:38,230 --> 00:19:35,240
generations thousands of years I'm not

405
00:19:40,840 --> 00:19:38,240
even sure that we can well let's put it

406
00:19:43,810 --> 00:19:40,850
this way we can the there's been a lot

407
00:19:47,320 --> 00:19:43,820
of talk lately about the NISS events and

408
00:19:52,930 --> 00:19:47,330
Neanderthal and how we carry their DNA

409
00:19:56,260 --> 00:19:52,940
with us I'm not sure that the the kind

410
00:19:59,050 --> 00:19:56,270
of experience that was theirs that they

411
00:20:01,120 --> 00:19:59,060
passed along to us in our very DNA that

412
00:20:03,010 --> 00:20:01,130
could explain the kind of spirituality

413
00:20:06,540 --> 00:20:03,020

we're talking about

414

00:20:10,150 --> 00:20:06,550

we are predominantly what they call

415

00:20:13,530 --> 00:20:10,160

modern humans so to speak a very left

416

00:20:17,890 --> 00:20:13,540

brain science oriented industrial type

417

00:20:22,870 --> 00:20:17,900

civilization but down deep within we can

418

00:20:24,640 --> 00:20:22,880

still find these these coming these kind

419

00:20:28,360 --> 00:20:24,650

of feelings these kind of actions and

420

00:20:30,970 --> 00:20:28,370

and this kind of energy and I've had

421

00:20:33,220 --> 00:20:30,980

quite a few experiences like this myself

422

00:20:35,380 --> 00:20:33,230

but I have no idea I've no doubt that

423

00:20:37,850 --> 00:20:35,390

the people you talk to really did

424

00:20:39,980 --> 00:20:37,860

experience something that was real

425

00:20:41,930 --> 00:20:39,990

that was important and I think we need

426

00:20:44,389 --> 00:20:41,940

to know more about it I've been in

427

00:20:47,000 --> 00:20:44,399

contact quite recently with Dean Radin

428

00:20:50,570 --> 00:20:47,010

out in California quite advanced and his

429

00:20:52,580 --> 00:20:50,580

new book his new book on magic you know

430

00:20:55,580 --> 00:20:52,590

Dean is about his left brain scientific

431

00:20:57,230 --> 00:20:55,590

as you're gonna get and his new book is

432

00:20:59,120 --> 00:20:57,240

just selling off the church it's being

433

00:21:01,610 --> 00:20:59,130

translated into different languages I

434

00:21:03,440 --> 00:21:01,620

think people are opening for it maybe

435

00:21:06,019 --> 00:21:03,450

that's going to be her salvation after

436

00:21:09,230 --> 00:21:06,029

all of reawakening of this kind of earth

437

00:21:13,580 --> 00:21:09,240

magic of this kind of earth energy well

438

00:21:15,230 --> 00:21:13,590

why would and I call them UFOs because

439

00:21:16,669 --> 00:21:15,240

that doesn't mean there is a planetary

440

00:21:19,220 --> 00:21:16,679

but it means that they're unexplained

441

00:21:25,220 --> 00:21:19,230

why would UFOs seem to attach themselves

442

00:21:27,769 --> 00:21:25,230

to such monuments or structures boy I

443

00:21:29,180 --> 00:21:27,779

wish I could answer that I wish you

444

00:21:31,399 --> 00:21:29,190

could too

445

00:21:34,759 --> 00:21:31,409

I can only look at it as such that there

446

00:21:37,519 --> 00:21:34,769

are places where energy swirls around an

447

00:21:41,149 --> 00:21:37,529

energy to accomplishes some some pretty

448

00:21:44,750 --> 00:21:41,159

fantastic things I have no doubt that

449

00:21:47,389 --> 00:21:44,760

the universe is full of of life but I

450

00:21:51,409 --> 00:21:47,399

don't even think we need necessarily to

451
00:21:53,990 --> 00:21:51,419
hypothesize nuts-and-bolts spaceships to

452
00:21:57,440 --> 00:21:54,000
be visited by aliens because I the whole

453
00:21:59,450 --> 00:21:57,450
idea of the multiverse and many many

454
00:22:01,909 --> 00:21:59,460
different dimensions parallel dimensions

455
00:22:04,669 --> 00:22:01,919
that are being taken very seriously now

456
00:22:06,560 --> 00:22:04,679
by theoretical physicists this is I

457
00:22:09,889 --> 00:22:06,570
think just a wonderful wonderful

458
00:22:12,110 --> 00:22:09,899
exploration when you talk about energies

459
00:22:13,879 --> 00:22:12,120
I'm fascinated and I really want to hear

460
00:22:17,810 --> 00:22:13,889
Denis talking about this energy line

461
00:22:19,970 --> 00:22:17,820
that connects the the I think it's the

462
00:22:23,090 --> 00:22:19,980
equinox the east-west the the equinox

463
00:22:25,370 --> 00:22:23,100

line with not only Stonehenge but also

464

00:22:28,070 --> 00:22:25,380

going all the way to Lebanon because if

465

00:22:28,600 --> 00:22:28,080

you follow that line he followed it of

466

00:22:31,610 --> 00:22:28,610

course

467

00:22:33,769 --> 00:22:31,620

eastward England and then over it cross

468

00:22:37,310 --> 00:22:33,779

the Mediterranean if you follow that

469

00:22:40,310 --> 00:22:37,320

line the other way it comes down here

470

00:22:42,980 --> 00:22:40,320

dangerously near where I have discovered

471

00:22:44,539 --> 00:22:42,990

a ley line and energy and earth energy

472

00:22:48,080 --> 00:22:44,549

line that comes right through our

473

00:22:50,620 --> 00:22:48,090

property and I'm dying to find how if

474

00:22:52,810 --> 00:22:50,630

we're on the same wavelength so does be

475

00:22:57,760 --> 00:22:52,820

with America Stonehenge up in New

476

00:23:00,549 --> 00:22:57,770

Hampshire well Glenn could yeah no no no

477

00:23:02,620 --> 00:23:00,559

no well I was just gonna say that that

478

00:23:04,600 --> 00:23:02,630

was a an interesting point because I

479

00:23:07,360 --> 00:23:04,610

always seems to me that possibly that

480

00:23:09,870 --> 00:23:07,370

you know whoever built these structures

481

00:23:13,750 --> 00:23:09,880

originally had some kind of awareness

482

00:23:16,539 --> 00:23:13,760

you know of of these types of earth

483

00:23:19,000 --> 00:23:16,549

energies I mean yeah that's why they

484

00:23:20,770 --> 00:23:19,010

that's why they built their I think so a

485

00:23:23,710 --> 00:23:20,780

lot of these places that Gobekli Tepe

486

00:23:25,870 --> 00:23:23,720

for instance our built in places you you

487

00:23:27,640 --> 00:23:25,880

just wouldn't go on and build a place

488

00:23:29,409 --> 00:23:27,650

like this if you were just doing it to

489

00:23:31,960 --> 00:23:29,419

be convenient some of them are hard to

490

00:23:33,880 --> 00:23:31,970

get to there's no water there's no

491

00:23:35,919 --> 00:23:33,890

there's no nothing around that would

492

00:23:37,779 --> 00:23:35,929

seem to say this is where it has to be

493

00:23:40,510 --> 00:23:37,789

except the energy and the earth itself

494

00:23:42,370 --> 00:23:40,520

I think our ancestors felt it and that's

495

00:23:45,700 --> 00:23:42,380

why these these megaliths are built

496

00:23:48,820 --> 00:23:45,710

where they are mm-hmm all right well we

497

00:23:50,830 --> 00:23:48,830

are coming up to our first break of the

498

00:23:53,260 --> 00:23:50,840

evening so when we come back we'll bring

499

00:23:55,270 --> 00:23:53,270

Dennis stone into the conversation and

500

00:23:57,340 --> 00:23:55,280

find out and we've been kind of dancing

501
00:24:01,450 --> 00:23:57,350
around this just what america's

502
00:24:03,220 --> 00:24:01,460
stonehenge actually is so stay tuned we

503
00:24:13,470 --> 00:24:03,230
will be right back in just a few minutes

504
00:24:20,200 --> 00:24:17,620
now back to exploring the bazaars with

505
00:24:23,500 --> 00:24:20,210
two of the most electrifying researchers

506
00:24:29,710 --> 00:24:23,510
in the Paranoid your hosts Timothy Becca

507
00:24:31,630 --> 00:24:29,720
Lee and Kings lists you welcome back to

508
00:24:33,760 --> 00:24:31,640
exploring the bazaar tonight we're

509
00:24:36,010 --> 00:24:33,770
talking with Jim Willis and now we're

510
00:24:37,930 --> 00:24:36,020
going to bring Dennis stone into the

511
00:24:39,970 --> 00:24:37,940
conversation Dennis I didn't tonight Oh

512
00:24:41,980 --> 00:24:39,980
fine thank you thank you for having me

513
00:24:44,620 --> 00:24:41,990

on this evening oh it's our pleasure you

514

00:24:49,049 --> 00:24:44,630

know wedding to have you hunt for a

515

00:24:53,440 --> 00:24:49,059

while now so I'm glad we could finally

516

00:24:55,779 --> 00:24:53,450

get get the alignments get the the the

517

00:24:59,080 --> 00:24:55,789

alignment of the planets and star just

518

00:25:00,549 --> 00:24:59,090

rights alright so like I said before

519

00:25:03,750 --> 00:25:00,559

we're on our break would be kind of

520

00:25:06,789 --> 00:25:03,760

dancing around America's stone hands so

521

00:25:09,220 --> 00:25:06,799

why don't you tell our audience who may

522

00:25:12,460 --> 00:25:09,230

not be familiar with it just what

523

00:25:14,830 --> 00:25:12,470

exactly America's Stonehenge is well

524

00:25:16,779 --> 00:25:14,840

it's a complex of stone structures we're

525

00:25:19,210 --> 00:25:16,789

located about 40 miles north of Boston

526
00:25:22,630 --> 00:25:19,220
in southern New Hampshire and about 20

527
00:25:24,669 --> 00:25:22,640
miles from the Atlantic seaboard it's a

528
00:25:26,740 --> 00:25:24,679
hill of about 110 acres and on this

529
00:25:29,889 --> 00:25:26,750
hundred ten acres as stone structures

530
00:25:32,110 --> 00:25:29,899
their chambers as ramps courtyards a

531
00:25:34,810 --> 00:25:32,120
complete set of underground drains that

532
00:25:36,340 --> 00:25:34,820
keep the place dry and it was all

533
00:25:39,370 --> 00:25:36,350
engineered before they actually built

534
00:25:41,230 --> 00:25:39,380
the chambers on top but surrounding the

535
00:25:43,950 --> 00:25:41,240
main site which is about one acre of

536
00:25:46,060 --> 00:25:43,960
most of the stone structures

537
00:25:49,180 --> 00:25:46,070
astronomical alignments and that covers

538
00:25:51,130 --> 00:25:49,190

about almost 20 acres of the 110 acres

539

00:25:53,620 --> 00:25:51,140

with those vertical standing stones we

540

00:25:56,590 --> 00:25:53,630

call monoliths and these are lined with

541

00:25:58,330 --> 00:25:56,600

the Sun Moon and stars we think the

542

00:26:01,060 --> 00:25:58,340

site's not a living place we think it

543

00:26:03,130 --> 00:26:01,070

was a ceremonial Center for many

544

00:26:04,870 --> 00:26:03,140

different reasons but the structures

545

00:26:07,840 --> 00:26:04,880

really are not designed for living

546

00:26:09,220 --> 00:26:07,850

purposes but they do look ceremonial if

547

00:26:11,620 --> 00:26:09,230

you will and I've seen a lot of these

548

00:26:13,210 --> 00:26:11,630

same chambers throughout my visits to

549

00:26:15,220 --> 00:26:13,220

Europe for instance I think this about

550

00:26:17,169 --> 00:26:15,230

50,000 megalithic sites in Western

551

00:26:20,080 --> 00:26:17,179

Europe and I always function is very

552

00:26:21,130 --> 00:26:20,090

similar to Stonehenge however the form

553

00:26:22,960 --> 00:26:21,140

is different it's not

554

00:26:24,610 --> 00:26:22,970

same shape it looks more like some of

555

00:26:26,190 --> 00:26:24,620

the other chambers surrounding that you

556

00:26:30,220 --> 00:26:26,200

know particularly in Ireland and Spain

557

00:26:33,070 --> 00:26:30,230

and Portugal and megalithic sites and

558

00:26:35,290 --> 00:26:33,080

not only a Western European thing

559

00:26:38,290 --> 00:26:35,300

they're actually all over the world they

560

00:26:40,840 --> 00:26:38,300

cover Asia they're into China southern

561

00:26:42,880 --> 00:26:40,850

Africa recently we've become aware that

562

00:26:45,010 --> 00:26:42,890

they're in Australia and South America

563

00:26:47,260 --> 00:26:45,020

so they seem to be on six out of seven

564

00:26:49,360 --> 00:26:47,270

continents they make a lithic basically

565

00:26:51,760 --> 00:26:49,370

means just huge stone sites but there

566

00:26:53,860 --> 00:26:51,770

are the style the construction the

567

00:26:56,530 --> 00:26:53,870

orientation of our site is very very

568

00:26:59,260 --> 00:26:56,540

similar to the ones you'll see not only

569

00:27:00,730 --> 00:26:59,270

in Europe but throughout Russia and it's

570

00:27:03,460 --> 00:27:00,740

really amazing we thought back in the

571

00:27:06,070 --> 00:27:03,470

1950s our site was were unique and that

572

00:27:08,680 --> 00:27:06,080

was it with maybe about 12 other sites

573

00:27:11,050 --> 00:27:08,690

in the Northeast but today we know of

574

00:27:13,420 --> 00:27:11,060

about 800 sites from Canada right down

575

00:27:15,760 --> 00:27:13,430

to the mid-atlantic states so our site

576

00:27:19,450 --> 00:27:15,770

is not the only site it might be one of

577

00:27:22,300 --> 00:27:19,460

the most complex for its area of 110

578

00:27:24,430 --> 00:27:22,310

acres but it's not the the only site so

579

00:27:26,260 --> 00:27:24,440

my dad began you know it's like this is

580

00:27:28,840 --> 00:27:26,270

that with a couple other sites but today

581

00:27:30,520 --> 00:27:28,850

we know that they actually have found

582

00:27:33,130 --> 00:27:30,530

recently the same type of chambers out

583

00:27:35,470 --> 00:27:33,140

in eastern Colorado Alabama and in

584

00:27:37,930 --> 00:27:35,480

Georgia so we're not you know we don't

585

00:27:40,170 --> 00:27:37,940

have you know we don't have the only

586

00:27:42,940 --> 00:27:40,180

stampers for sure you know just up here

587

00:27:44,580 --> 00:27:42,950

so now your father bought the property

588

00:27:48,430 --> 00:27:44,590

in 1958

589

00:27:51,370 --> 00:27:48,440

correct yeah he first visited the site

590

00:27:53,170 --> 00:27:51,380

in 1955 mm-hm and it was a radio talk

591

00:27:54,820 --> 00:27:53,180

show when he heard about it on a show

592

00:27:57,700 --> 00:27:54,830

out of Boston and he looked eight miles

593

00:28:00,220 --> 00:27:57,710

away and on a Friday night his show was

594

00:28:01,840 --> 00:28:00,230

called Yankee yarns in the talk show

595

00:28:03,580 --> 00:28:01,850

host result in halt blacking ttan

596

00:28:05,080 --> 00:28:03,590

there's only one of the biggest stations

597

00:28:06,700 --> 00:28:05,090

in New England right out of Boston and

598

00:28:08,410 --> 00:28:06,710

on this particular Friday night they

599

00:28:10,870 --> 00:28:08,420

were talking about these stone ruins and

600

00:28:12,370 --> 00:28:10,880

it really caught his attention he hit on

601
00:28:13,570 --> 00:28:12,380
the lift eight miles away in had never

602
00:28:15,460 --> 00:28:13,580
heard of this

603
00:28:16,570 --> 00:28:15,470
so really amazed him what you're talking

604
00:28:17,950 --> 00:28:16,580
about he's like how can that be it's

605
00:28:21,370 --> 00:28:17,960
just down the street you know you know

606
00:28:22,900 --> 00:28:21,380
ten minute ride in that same week you is

607
00:28:24,220 --> 00:28:22,910
that a bottle shop waiting to have his

608
00:28:26,560 --> 00:28:24,230
hair cut and he saw her in New Hampshire

609
00:28:27,730 --> 00:28:26,570
profile magazine it was three years old

610
00:28:30,370 --> 00:28:27,740
and he while he was waiting he was

611
00:28:32,050 --> 00:28:30,380
reading it and as he flipped through the

612
00:28:33,580 --> 00:28:32,060
pages as a sight again as a whole

613
00:28:34,540 --> 00:28:33,590

article about it was kind of the feature

614

00:28:36,970 --> 00:28:34,550

of that particular

615

00:28:39,850 --> 00:28:36,980

monthly issue so he asked a barber if he

616

00:28:41,020 --> 00:28:39,860

could keep that and the vibra said well

617

00:28:42,430 --> 00:28:41,030

how old is that he goes well it's three

618

00:28:44,830 --> 00:28:42,440

years old he says yeah sure I'd take it

619

00:28:46,270 --> 00:28:44,840

around my aunt and uncle's house a bunch

620

00:28:47,470 --> 00:28:46,280

of people probably ten people playing

621

00:28:49,960 --> 00:28:47,480

cards and having a good time that

622

00:28:51,490 --> 00:28:49,970

following Saturday he took it out and he

623

00:28:53,500 --> 00:28:51,500

showed it to everybody and everybody

624

00:28:55,180 --> 00:28:53,510

passed around nobody really recognized

625

00:28:57,100 --> 00:28:55,190

it until it got to my aunt and uncle and

626

00:28:58,900 --> 00:28:57,110

they looked at it studied it and said oh

627

00:29:00,220 --> 00:28:58,910

wait a minute we were there in the 1930s

628

00:29:02,650 --> 00:29:00,230

you used to go down there and picnic you

629

00:29:05,620 --> 00:29:02,660

know so it's kind of an informal picnic

630

00:29:07,300 --> 00:29:05,630

area to the local people and my dad says

631

00:29:08,710 --> 00:29:07,310

can you find it and he goes well we have

632

00:29:10,300 --> 00:29:08,720

been there in 20 years but we'll give it

633

00:29:12,610 --> 00:29:10,310

a shot so the next morning they went

634

00:29:14,140 --> 00:29:12,620

came down they drove all over the place

635

00:29:16,690 --> 00:29:14,150

they finally found what looked like the

636

00:29:17,800 --> 00:29:16,700

road and parked the car next to it and

637

00:29:19,630 --> 00:29:17,810

then they walked up the hill about a

638

00:29:21,220 --> 00:29:19,640

half a mile and they actually you know

639

00:29:23,710 --> 00:29:21,230

were able to get into the site they

640

00:29:25,720 --> 00:29:23,720

climbed in the Rabab wide chant offense

641

00:29:28,180 --> 00:29:25,730

that's still later today the fence was

642

00:29:31,090 --> 00:29:28,190

put up in 1938 by the first investigator

643

00:29:32,920 --> 00:29:31,100

mr. Goodwin and after that as they say

644

00:29:35,200 --> 00:29:32,930

it was history my dad just fell in love

645

00:29:37,870 --> 00:29:35,210

with a place and he did open it up in

646

00:29:40,300 --> 00:29:37,880

1958 as mr. Hill caves so we just had

647

00:29:42,300 --> 00:29:40,310

our 60th the anniversary the summer on

648

00:29:47,170 --> 00:29:42,310

the summer solstice as a matter of fact

649

00:29:50,620 --> 00:29:47,180

so okay now you mentioned the 1930s how

650

00:29:56,410 --> 00:29:50,630

how long had people been aware that this

651
00:29:58,600 --> 00:29:56,420
was an unusual location well history of

652
00:30:00,280 --> 00:29:58,610
Salem came out in 1907 by a gentleman

653
00:30:02,290 --> 00:30:00,290
named Edgar Gilbert he was a friend of

654
00:30:05,110 --> 00:30:02,300
Robert Frost these two work together in

655
00:30:08,980 --> 00:30:05,120
the textile mills down in Lawrence

656
00:30:11,920 --> 00:30:08,990
Massachusetts and so Edgar Gilbert wrote

657
00:30:13,900 --> 00:30:11,930
the history came out in 1907 and it said

658
00:30:17,380 --> 00:30:13,910
about these particular chambers that

659
00:30:19,210 --> 00:30:17,390
there he said that some it's a while but

660
00:30:21,040 --> 00:30:19,220
wonderful place among the soft pine and

661
00:30:23,830 --> 00:30:21,050
rough boulders were weird tales may be

662
00:30:25,570 --> 00:30:23,840
woven very poetic I don't know if Robert

663
00:30:29,770 --> 00:30:25,580

Frost helped him on that but this guy

664

00:30:33,280 --> 00:30:29,780

was a poet too and that was 1907 by 1937

665

00:30:35,170 --> 00:30:33,290

mr. Goodwin from - Connecticut got

666

00:30:37,270 --> 00:30:35,180

involved with a site and he was really

667

00:30:39,580 --> 00:30:37,280

the first researcher I mean he wrote

668

00:30:40,740 --> 00:30:39,590

several books one was called the ruins

669

00:30:43,090 --> 00:30:40,750

of great Ireland in New England

670

00:30:45,790 --> 00:30:43,100

primarily about our site but he knew up

671

00:30:47,860 --> 00:30:45,800

about those 12 sites that I mentioned

672

00:30:50,350 --> 00:30:47,870

before throughout New England

673

00:30:52,420 --> 00:30:50,360

then he was here until 1950 when he

674

00:30:55,330 --> 00:30:52,430

passed away his idea was it was a biking

675

00:30:59,020 --> 00:30:55,340

site and he also heard a book called the

676
00:31:01,240 --> 00:30:59,030
truth about Leif Eriksson and it wasn't

677
00:31:02,890 --> 00:31:01,250
too long after they began uncovering the

678
00:31:04,900 --> 00:31:02,900
site with all the brush and debris that

679
00:31:06,910 --> 00:31:04,910
had covered it over the years that he

680
00:31:08,710 --> 00:31:06,920
recognized it wasn't a Viking settlement

681
00:31:11,170 --> 00:31:08,720
it wasn't sod houses it was actually

682
00:31:12,580 --> 00:31:11,180
stone chambers with stone roofs it

683
00:31:13,750 --> 00:31:12,590
looked different than what the Vikings

684
00:31:17,080 --> 00:31:13,760
would have built and they weren't really

685
00:31:19,030 --> 00:31:17,090
livable type structures so he changed

686
00:31:20,740 --> 00:31:19,040
his idea it was the Irish call the monks

687
00:31:23,680 --> 00:31:20,750
coming over over a thousand years ago

688
00:31:26,049 --> 00:31:23,690

kind of for religious freedom and part

689

00:31:28,510 --> 00:31:26,059

of it was to escape the Vikings too and

690

00:31:30,430 --> 00:31:28,520

so he felt when he died that it was

691

00:31:32,440 --> 00:31:30,440

built up just over a thousand years ago

692

00:31:34,600 --> 00:31:32,450

and it was a Viking settlement I mean

693

00:31:36,970 --> 00:31:34,610

Irish called a monk monastery excuse me

694

00:31:38,650 --> 00:31:36,980

and so that kind of that theory was

695

00:31:41,020 --> 00:31:38,660

there for quite a few years so he was

696

00:31:43,060 --> 00:31:41,030

really the first investigator so it was

697

00:31:45,880 --> 00:31:43,070

80 years ago last year that the first

698

00:31:48,549 --> 00:31:45,890

archaeological research began so we kind

699

00:31:50,560 --> 00:31:48,559

of had died anniversary and our 60th

700

00:31:53,020 --> 00:31:50,570

anniversary being open to the public was

701
00:31:55,690 --> 00:31:53,030
last summer so it's been under

702
00:31:57,490 --> 00:31:55,700
investigation it's gonna be pretty soon

703
00:32:00,430 --> 00:31:57,500
we'll be a century it's coming up pretty

704
00:32:03,660 --> 00:32:00,440
quick so now a conventional

705
00:32:06,549 --> 00:32:03,670
archaeologists state that there's

706
00:32:08,500 --> 00:32:06,559
nothing unusual about this site or any

707
00:32:12,130 --> 00:32:08,510
of the other ones that you know people

708
00:32:15,220 --> 00:32:12,140
have pointed out what is their what is

709
00:32:17,470 --> 00:32:15,230
their reasoning you know why would they

710
00:32:20,590 --> 00:32:17,480
look at this and say nothing to see here

711
00:32:22,690 --> 00:32:20,600
folks you know what are they saying

712
00:32:25,450 --> 00:32:22,700
about it that you know I mean that you

713
00:32:31,120 --> 00:32:25,460

know that that doesn't float their boat

714

00:32:34,360 --> 00:32:31,130

so to speak well you know no explorers

715

00:32:36,310 --> 00:32:34,370

before Columbus was a kind of an acronym

716

00:32:38,620 --> 00:32:36,320

that was brought up by Samuel Eliot

717

00:32:39,820 --> 00:32:38,630

Morrison the great naval historian felt

718

00:32:42,760 --> 00:32:39,830

that there were no explorers before

719

00:32:44,950 --> 00:32:42,770

Columbus he died 1976 in the Viking

720

00:32:48,310 --> 00:32:44,960

settlement up in Lonzo meadow Canada was

721

00:32:50,350 --> 00:32:48,320

identified in 1960 so who did say well

722

00:32:51,640 --> 00:32:50,360

maybe the Vikings you know came he kind

723

00:32:52,990 --> 00:32:51,650

of backtracked a little bit he said the

724

00:32:55,390 --> 00:32:53,000

Vikings came but they left really no

725

00:32:57,220 --> 00:32:55,400

impact so it was not of any consequence

726

00:32:59,560 --> 00:32:57,230

and anybody else coming over before that

727

00:33:01,720 --> 00:32:59,570

were not of any consequence either so

728

00:33:04,299 --> 00:33:01,730

basically combis gets all the crap

729

00:33:05,500 --> 00:33:04,309

so these chambers and today like I

730

00:33:06,940 --> 00:33:05,510

mentioned we know hundreds of them in

731

00:33:09,279 --> 00:33:06,950

the Northeast and they actually stretch

732

00:33:11,529 --> 00:33:09,289

out across the landscape should not

733

00:33:13,149 --> 00:33:11,539

really be here because ancient man and

734

00:33:14,950 --> 00:33:13,159

the Northeast weren't supposed to be

735

00:33:17,289 --> 00:33:14,960

building stone ruins like what we have

736

00:33:18,970 --> 00:33:17,299

up on our site so some of the mainstream

737

00:33:20,830 --> 00:33:18,980

think the sites like you mentioned

738

00:33:22,480 --> 00:33:20,840

earlier in your talk about being root

739

00:33:24,789 --> 00:33:22,490

cellars these don't really look like

740

00:33:27,250 --> 00:33:24,799

root cellars and generally root cellars

741

00:33:29,350 --> 00:33:27,260

are in basements not always but inside

742

00:33:31,149 --> 00:33:29,360

of basements clay floors and they have

743

00:33:32,860 --> 00:33:31,159

ventilation and they say 90% of the

744

00:33:35,080 --> 00:33:32,870

chambers in New England do not have

745

00:33:37,960 --> 00:33:35,090

ventilation and they usually built on

746

00:33:41,529 --> 00:33:37,970

bedrock and I worked in a farm back in

747

00:33:43,060 --> 00:33:41,539

1969 and they had a Monday kind of a

748

00:33:44,950 --> 00:33:43,070

root cellar for keeping the vegetables

749

00:33:47,139 --> 00:33:44,960

cold made out of concrete was like a big

750

00:33:49,570 --> 00:33:47,149

bunker and it doesn't look like our site

751

00:33:51,549 --> 00:33:49,580

at all and it was a family that moved

752

00:33:54,190 --> 00:33:51,559

there in the bought a piece of the land

753

00:33:55,779 --> 00:33:54,200

and actually 1734 part of the hill and

754

00:33:57,879 --> 00:33:55,789

ten years later they bought another

755

00:34:00,190 --> 00:33:57,889

piece of the property which included

756

00:34:01,810 --> 00:34:00,200

this part of the stone ruins and so

757

00:34:04,299 --> 00:34:01,820

they're given credit for building this

758

00:34:05,769 --> 00:34:04,309

site the name with the paddy family and

759

00:34:07,240 --> 00:34:05,779

actually there are five generations of

760

00:34:09,550 --> 00:34:07,250

shoemakers they did some domestic

761

00:34:11,559 --> 00:34:09,560

farming on the side but primarily they

762

00:34:13,149 --> 00:34:11,569

were shoemakers and when you look at the

763

00:34:14,379 --> 00:34:13,159

site I lived on the farm in Vermont for

764

00:34:16,149 --> 00:34:14,389

three years when I began my flying

765

00:34:18,040 --> 00:34:16,159

career up near Rutland and North

766

00:34:19,569 --> 00:34:18,050

Clarendon Vermont and I looked at Halle

767

00:34:20,109 --> 00:34:19,579

farms up there and I grew up in Derry

768

00:34:22,210 --> 00:34:20,119

New Hampshire

769

00:34:24,190 --> 00:34:22,220

you know only eight miles away right

770

00:34:26,200 --> 00:34:24,200

next to a farm actually three farms

771

00:34:28,210 --> 00:34:26,210

right around our house and I always said

772

00:34:30,010 --> 00:34:28,220

this place does not look like a farm and

773

00:34:31,480 --> 00:34:30,020

the patties were shoemakers it doesn't

774

00:34:33,159 --> 00:34:31,490

look like a shoe shop I had a couple

775

00:34:35,710 --> 00:34:33,169

grandparents that used to look working

776

00:34:38,169 --> 00:34:35,720

shoe shops and some people say well the

777

00:34:39,550 --> 00:34:38,179

sacrificial table was a site of press it

778

00:34:40,780 --> 00:34:39,560

really doesn't look like a SCYTL mill

779

00:34:43,149 --> 00:34:40,790

and there's no archaeological evidence

780

00:34:45,159 --> 00:34:43,159

supporting that whatsoever the nearest

781

00:34:47,290 --> 00:34:45,169

apple orchard was over half a mile down

782

00:34:49,329 --> 00:34:47,300

the hill but akka logically there's

783

00:34:50,619 --> 00:34:49,339

nothing on the property that was found

784

00:34:52,780 --> 00:34:50,629

that would indicate that the paddy

785

00:34:55,119 --> 00:34:52,790

family had a cider mill operation up

786

00:34:57,280 --> 00:34:55,129

there or that the table was a life stone

787

00:34:59,859 --> 00:34:57,290

for making soap the table is about nine

788

00:35:02,500 --> 00:34:59,869

by six feet away is about four and a

789

00:35:04,059 --> 00:35:02,510

half tons and usually a lie stone I've

790

00:35:06,339 --> 00:35:04,069

seen him in a couple museums I could

791

00:35:08,890 --> 00:35:06,349

pick one out the only about 36 to 40

792

00:35:10,660 --> 00:35:08,900

inches across but an inch thick and have

793

00:35:12,370 --> 00:35:10,670

a very shallow groove where the barrel

794

00:35:14,740 --> 00:35:12,380

would sit above put the ashes in there

795

00:35:15,640 --> 00:35:14,750

pour water take that solution mix it

796

00:35:17,470 --> 00:35:15,650

with with

797

00:35:19,480 --> 00:35:17,480

the animal fat and you make soap out of

798

00:35:21,310 --> 00:35:19,490

it but our table doesn't really look

799

00:35:23,170 --> 00:35:21,320

like that you know but that's what

800

00:35:25,150 --> 00:35:23,180

mainstream is called it a big root

801
00:35:28,810 --> 00:35:25,160
cellar I guess you know you as you were

802
00:35:31,720 --> 00:35:28,820
mentioning earlier mm-hmm okay well tell

803
00:35:35,260 --> 00:35:31,730
us some a do you know what are some of

804
00:35:38,950 --> 00:35:35,270
the weights of some of the largest

805
00:35:42,970 --> 00:35:38,960
stones on the site yeah the rock is

806
00:35:46,300 --> 00:35:42,980
granite and it weighs about 163 pounds

807
00:35:48,970 --> 00:35:46,310
per cubic foot and it is the bedrock is

808
00:35:51,790 --> 00:35:48,980
foliated and this site is actually built

809
00:35:54,070 --> 00:35:51,800
on an earthquake fault line the clinton

810
00:35:56,020 --> 00:35:54,080
newberry fault line which runs out to

811
00:35:57,460 --> 00:35:56,030
the atlantic ocean I think out near Cape

812
00:36:00,880 --> 00:35:57,470
May and then it heads down into

813
00:36:02,140 --> 00:36:00,890

Connecticut eventually but so that's

814

00:36:03,490 --> 00:36:02,150

kind of interesting the whole hill is

815

00:36:04,630 --> 00:36:03,500

actually split right in half and you can

816

00:36:06,850 --> 00:36:04,640

go up there today and see where the

817

00:36:09,310 --> 00:36:06,860

whole the whole thing is cracked right

818

00:36:11,920 --> 00:36:09,320

across the entire you know surface which

819

00:36:13,360 --> 00:36:11,930

is kind of neat but some of the biggest

820

00:36:15,880 --> 00:36:13,370

stuff you can just take the dimensions

821

00:36:18,430 --> 00:36:15,890

you know with the height the width in

822

00:36:19,900 --> 00:36:18,440

the in the length of the stone and then

823

00:36:21,280 --> 00:36:19,910

just multiply it out and you come out

824

00:36:23,740 --> 00:36:21,290

pretty close to what the weight of the

825

00:36:25,390 --> 00:36:23,750

stone is and the chamber in ruins for

826
00:36:27,640 --> 00:36:25,400
instance has a big stone that has fallen

827
00:36:29,830 --> 00:36:27,650
into the chamber with a lintel spell and

828
00:36:31,330 --> 00:36:29,840
the lintel weighs close to a thousand

829
00:36:33,910 --> 00:36:31,340
pounds it was just kind of the header

830
00:36:35,650 --> 00:36:33,920
over the door that collapsed with a with

831
00:36:37,930 --> 00:36:35,660
a big slab on top of it which weighs

832
00:36:40,120 --> 00:36:37,940
between six and seven thousand pounds

833
00:36:42,160 --> 00:36:40,130
you know we estimated and we didn't

834
00:36:43,750 --> 00:36:42,170
actually put it on a scale but so a lot

835
00:36:46,180 --> 00:36:43,760
of the roof slabs weigh you know three

836
00:36:47,770 --> 00:36:46,190
four five tons there's one next to it

837
00:36:50,530 --> 00:36:47,780
actually it's even bigger so that one's

838
00:36:53,080 --> 00:36:50,540

probably about between six and eight

839

00:36:55,140 --> 00:36:53,090

thousand pounds still a pretty good

840

00:36:57,190 --> 00:36:55,150

amount of weight you know to move around

841

00:36:59,560 --> 00:36:57,200

and the thought is they might have used

842

00:37:02,050 --> 00:36:59,570

some simple machinery but that's a

843

00:37:03,400 --> 00:37:02,060

theory you know log rollers levers and

844

00:37:05,110 --> 00:37:03,410

climb planes that were at that kind of

845

00:37:06,100 --> 00:37:05,120

thing that's you know a theory of how

846

00:37:08,170 --> 00:37:06,110

they might have moved them we weren't

847

00:37:10,390 --> 00:37:08,180

there to actually of course watch these

848

00:37:13,660 --> 00:37:10,400

people do this so we don't really know

849

00:37:15,730 --> 00:37:13,670

their their technique well okay well

850

00:37:17,710 --> 00:37:15,740

that's that that was my point wanting to

851

00:37:20,830 --> 00:37:17,720

know you know about the the weight of

852

00:37:23,890 --> 00:37:20,840

some of these stones because if you know

853

00:37:25,570 --> 00:37:23,900

you were farmers you know just you and

854

00:37:29,660 --> 00:37:25,580

your family you know maybe a neighbor or

855

00:37:33,230 --> 00:37:29,670

two you're not gonna go in quarry five

856

00:37:37,450 --> 00:37:33,240

and stones to be used for root cellar or

857

00:37:39,920 --> 00:37:37,460

a live press or what have you

858

00:37:41,839 --> 00:37:39,930

right yeah I mean New England is just

859

00:37:42,980 --> 00:37:41,849

full of rocks and the last thing you

860

00:37:45,589 --> 00:37:42,990

really want to do unless you need a

861

00:37:48,170 --> 00:37:45,599

specific rock a flat rock for a doorstep

862

00:37:50,329 --> 00:37:48,180

or like I say a life stone is to go out

863

00:37:53,089 --> 00:37:50,339

and quarry stone it's kind of foolhardy

864

00:37:54,650 --> 00:37:53,099

to do that rocks are just everywhere in

865

00:37:56,420 --> 00:37:54,660

fact that's one of the reasons they made

866

00:38:00,170 --> 00:37:56,430

walls in New Hampshire I think starting

867

00:38:02,630 --> 00:38:00,180

in the 1700s is to clear fields of rocks

868

00:38:05,059 --> 00:38:02,640

to build stock fences and boundaries and

869

00:38:07,190 --> 00:38:05,069

sometimes all three purposes for the

870

00:38:09,890 --> 00:38:07,200

wall worth what I just mentioned you

871

00:38:11,780 --> 00:38:09,900

know and these a linear walls they're

872

00:38:14,150 --> 00:38:11,790

made out of a lot of round field stones

873

00:38:15,920 --> 00:38:14,160

but the stone walls you see at our site

874

00:38:17,150 --> 00:38:15,930

all around and we're starting to clear

875

00:38:19,220 --> 00:38:17,160

em out so you can actually see the

876

00:38:21,460 --> 00:38:19,230

thousands of feet of walls it contained

877

00:38:23,750 --> 00:38:21,470

very very large flat pieces of stone

878

00:38:26,480 --> 00:38:23,760

they've been referred to as fractured

879

00:38:27,710 --> 00:38:26,490

stone and this is manufactured by man so

880

00:38:30,289 --> 00:38:27,720

somebody went to the trouble of actually

881

00:38:32,210 --> 00:38:30,299

lifting up bedrock and then building

882

00:38:34,520 --> 00:38:32,220

somebody stone walls my dad had noticed

883

00:38:36,140 --> 00:38:34,530

noticed it pretty much back when he

884

00:38:38,000 --> 00:38:36,150

started back in the 50s he goes you know

885

00:38:39,349 --> 00:38:38,010

the wall surrounding the site even

886

00:38:41,240 --> 00:38:39,359

though they hidden by all the forest

887

00:38:43,430 --> 00:38:41,250

trees and brush if you look at them

888

00:38:45,319 --> 00:38:43,440

closely you see there's a lot of flat

889

00:38:46,849 --> 00:38:45,329

slabs in them you know the stood up you

890

00:38:48,950 --> 00:38:46,859

know in their side we call them ortho

891

00:38:50,480 --> 00:38:48,960

stats and some of them are horizontal

892

00:38:52,010 --> 00:38:50,490

and some nurse stood on their end and

893

00:38:54,170 --> 00:38:52,020

the ones that were stood on an upright

894

00:38:56,180 --> 00:38:54,180

turned out to be the alignments of the

895

00:38:59,240 --> 00:38:56,190

Sun women stars which we started working

896

00:39:00,859 --> 00:38:59,250

on in 1967 so before that we knew the

897

00:39:03,260 --> 00:39:00,869

stones were out there mr. glutton back

898

00:39:04,910 --> 00:39:03,270

in the 30s was aware of that too because

899

00:39:06,589 --> 00:39:04,920

we had no idea what their function was

900

00:39:08,390 --> 00:39:06,599

other than there's these odd stones

901
00:39:10,789 --> 00:39:08,400
standing upright that takes a lot of

902
00:39:11,900 --> 00:39:10,799
work you know the quarry ax and again

903
00:39:13,730 --> 00:39:11,910
farmers weren't a waste of their time

904
00:39:16,220 --> 00:39:13,740
you know they're just trying to make a

905
00:39:18,200 --> 00:39:16,230
living and clear their fields of rocks

906
00:39:19,940 --> 00:39:18,210
and usually you like I say their field

907
00:39:21,680 --> 00:39:19,950
stones and so you can really see the

908
00:39:25,039 --> 00:39:21,690
difference between historic walls and

909
00:39:27,589 --> 00:39:25,049
what we call prehistoric walls now now

910
00:39:30,309 --> 00:39:27,599
does your your Stonehenge do you think

911
00:39:33,470 --> 00:39:30,319
that it was constructed by the same

912
00:39:36,470 --> 00:39:33,480
group that built the Stonehenge in

913
00:39:38,990 --> 00:39:36,480

England that question comes up all the

914

00:39:40,640 --> 00:39:39,000

time it's been on I bet it - yeah yeah

915

00:39:42,240 --> 00:39:40,650

yeah it really does you know

916

00:39:44,700 --> 00:39:42,250

functionally it's the same

917

00:39:46,530 --> 00:39:44,710

I would say what a lot of our

918

00:39:48,510 --> 00:39:46,540

researchers feel that the stone

919

00:39:50,970 --> 00:39:48,520

structures in Spain and Portugal and

920

00:39:53,970 --> 00:39:50,980

even Ireland and some in Scotland more

921

00:39:56,280 --> 00:39:53,980

look much more like our stones in our

922

00:39:59,010 --> 00:39:56,290

site and other New England structures

923

00:40:00,710 --> 00:39:59,020

too then Stonehenge itself but

924

00:40:03,120 --> 00:40:00,720

Stonehenge is part of that megalithic

925

00:40:06,090 --> 00:40:03,130

Neolithic going into the Bronze Age and

926

00:40:07,380 --> 00:40:06,100

they come the they have divided into

927

00:40:09,030 --> 00:40:07,390

three different phases of his of

928

00:40:11,370 --> 00:40:09,040

Stonehenge so our site was built we

929

00:40:13,500 --> 00:40:11,380

think about 4000 years ago and that

930

00:40:14,970 --> 00:40:13,510

would have been like at the third stage

931

00:40:17,280 --> 00:40:14,980

of Stonehenge you know towards the end

932

00:40:19,080 --> 00:40:17,290

building not the beginning though the

933

00:40:21,150 --> 00:40:19,090

beginning stats are I believe around

934

00:40:22,740 --> 00:40:21,160

5,000 years ago is the best guess at

935

00:40:25,620 --> 00:40:22,750

this time with the evidence they have

936

00:40:27,300 --> 00:40:25,630

but not directly probably the same

937

00:40:30,330 --> 00:40:27,310

people but that culture that was spread

938

00:40:33,240 --> 00:40:30,340

across Western Europe the structures are

939

00:40:35,610 --> 00:40:33,250

missing or it may be maybe somebody

940

00:40:39,660 --> 00:40:35,620

passing by the Stonehenge in England

941

00:40:41,420 --> 00:40:39,670

said hmm when we go to America let's put

942

00:40:47,520 --> 00:40:41,430

up something guess similar to this

943

00:40:49,320 --> 00:40:47,530

inspired by it perhaps yeah you know

944

00:40:51,450 --> 00:40:49,330

they could have been related and I think

945

00:40:54,050 --> 00:40:51,460

these people traveled a lot further in

946

00:40:59,610 --> 00:40:54,060

you know back in time and also further

947

00:41:03,150 --> 00:40:59,620

geographically you know that is the damn

948

00:41:05,370 --> 00:41:03,160

the truth you talk about as you know as

949

00:41:07,890 --> 00:41:05,380

science in archaeology trying to hide

950

00:41:10,680 --> 00:41:07,900

the fact yeah I mean are they trying to

951
00:41:12,600 --> 00:41:10,690
hide it is it out of ignorance or is it

952
00:41:15,930 --> 00:41:12,610
for some other reason I mean to keep

953
00:41:18,330 --> 00:41:15,940
their jobs or or to show that they know

954
00:41:22,380 --> 00:41:18,340
more than ancient man did I mean why

955
00:41:23,550 --> 00:41:22,390
this is a great concealment boy that's a

956
00:41:24,990 --> 00:41:23,560
that's a that's a million-dollar

957
00:41:29,070 --> 00:41:25,000
question you know we've always wondered

958
00:41:35,900 --> 00:41:29,080
why if their objective scientists 684

959
00:41:38,940 --> 00:41:37,800
that's a great question though I don't

960
00:41:40,770 --> 00:41:38,950
know if they've written you know they've

961
00:41:42,570 --> 00:41:40,780
written the history books and you know

962
00:41:45,120 --> 00:41:42,580
some people stake their whole careers on

963
00:41:46,530 --> 00:41:45,130

a certain you know belief you know the

964

00:41:49,080 --> 00:41:46,540

way things were you know with our

965

00:41:51,030 --> 00:41:49,090

history and and I know history in our

966

00:41:54,830 --> 00:41:51,040

schools you know it's not really being

967

00:41:56,220 --> 00:41:54,840

emphasized you know maybe 1492 1620s

968

00:41:58,380 --> 00:41:56,230

1776

969

00:42:00,150 --> 00:41:58,390

and you get before 1492 and they don't

970

00:42:01,620 --> 00:42:00,160

really discuss it they go back if they

971

00:42:04,560 --> 00:42:01,630

do they go to Western Europe and they

972

00:42:06,210 --> 00:42:04,570

talk about that but we have a we have

973

00:42:07,829 --> 00:42:06,220

these megalithic sites across the

974

00:42:09,510 --> 00:42:07,839

Northeast and some going all the way out

975

00:42:12,630 --> 00:42:09,520

to Colorado as I mentioned and maybe

976

00:42:14,730 --> 00:42:12,640

I'll be Alabama but we had something

977

00:42:16,829 --> 00:42:14,740

like over 200 thousand mounds today

978

00:42:18,750 --> 00:42:16,839

across North America most of them are

979

00:42:21,300 --> 00:42:18,760

pyramid so made geometric as you know

980

00:42:22,859 --> 00:42:21,310

and some are shaped like ant like effigy

981

00:42:25,380 --> 00:42:22,869

mounds like serpent like Serpent Mound

982

00:42:26,970 --> 00:42:25,390

out in Ohio they may have been a million

983

00:42:28,560 --> 00:42:26,980

miles at one time and when I grew up in

984

00:42:30,300 --> 00:42:28,570

school I didn't hear about one of them

985

00:42:32,790 --> 00:42:30,310

you know and I only knew about AA site

986

00:42:34,589 --> 00:42:32,800

because we owned it and I mean this even

987

00:42:38,069 --> 00:42:34,599

those geoglyphs like the ones in Peru

988

00:42:40,710 --> 00:42:38,079

when the Nazca lines out on the Colorado

989

00:42:43,290 --> 00:42:40,720

River out in Blythe California not too

990

00:42:44,910 --> 00:42:43,300

far from Las Vegas this is a hundred and

991

00:42:47,819 --> 00:42:44,920

thirty of them and you know they look

992

00:42:49,290 --> 00:42:47,829

like the ones in Peru but nobody knows

993

00:42:51,150 --> 00:42:49,300

about them and I can I talk to a lot of

994

00:42:52,950 --> 00:42:51,160

our visitors and we talk about this and

995

00:42:54,780 --> 00:42:52,960

like I never heard of that and I said

996

00:42:56,220 --> 00:42:54,790

well if I didn't work here I probably

997

00:42:58,319 --> 00:42:56,230

wouldn't know about these things either

998

00:42:59,730 --> 00:42:58,329

you know that because I'm interested in

999

00:43:01,589 --> 00:42:59,740

it because we meet so many people that

1000

00:43:03,210 --> 00:43:01,599

have seen some of these things but you

1001

00:43:07,740 --> 00:43:03,220

won't get it out to get schoolbooks I

1002

00:43:11,190 --> 00:43:07,750

mean that's kind of sad so there's no

1003

00:43:13,470 --> 00:43:11,200

there's no indication that American

1004

00:43:16,680 --> 00:43:13,480

Stonehenge and some of the other sites

1005

00:43:19,670 --> 00:43:16,690

across New England were built by say the

1006

00:43:22,230 --> 00:43:19,680

Native Americans did they work in stone

1007

00:43:25,470 --> 00:43:22,240

that is another that's another big thing

1008

00:43:27,329 --> 00:43:25,480

too I grew up you know what Iowa's heard

1009

00:43:29,460 --> 00:43:27,339

was Native Americans when they used

1010

00:43:31,170 --> 00:43:29,470

stone it was with tools utensils weapons

1011

00:43:33,510 --> 00:43:31,180

that kind of thing something could hold

1012

00:43:35,130 --> 00:43:33,520

in your hand and our archaeologist has

1013

00:43:36,839 --> 00:43:35,140

been with us since 1989 was the

1014

00:43:38,609 --> 00:43:36,849

president New Hampshire Archaeological

1015

00:43:40,859 --> 00:43:38,619

Society in she thinks outside the box

1016

00:43:43,470 --> 00:43:40,869

you know she's open-minded she looks at

1017

00:43:44,940 --> 00:43:43,480

evidence you know she's not you know her

1018

00:43:47,280 --> 00:43:44,950

mind already made up and closed-minded

1019

00:43:48,569 --> 00:43:47,290

she actually has to twist some of her

1020

00:43:50,609 --> 00:43:48,579

colleagues to get them kind of

1021

00:43:52,349 --> 00:43:50,619

interested in this too but I said your

1022

00:43:54,660 --> 00:43:52,359

colleagues you know to them an artifact

1023

00:43:56,849 --> 00:43:54,670

is something you hold in your hand you

1024

00:43:59,250 --> 00:43:56,859

know pots and Flint's you know it's not

1025

00:44:01,170 --> 00:43:59,260

these stone walls Carm standing stones

1026
00:44:03,150 --> 00:44:01,180
chambers they don't even look at these

1027
00:44:04,680 --> 00:44:03,160
things but these are artifacts and I

1028
00:44:06,870 --> 00:44:04,690
think it's part of the ancient past and

1029
00:44:08,490 --> 00:44:06,880
your question about Native American you

1030
00:44:09,740 --> 00:44:08,500
know they may have had a hand in this we

1031
00:44:11,089 --> 00:44:09,750
just don't know they may

1032
00:44:12,620 --> 00:44:11,099
had you know the question is did they

1033
00:44:15,109 --> 00:44:12,630
have a hundred percent involvement with

1034
00:44:17,210 --> 00:44:15,119
our site and other northeast sites was

1035
00:44:19,310 --> 00:44:17,220
it some you know smaller about like 50

1036
00:44:20,810 --> 00:44:19,320
percent or were they not involved in all

1037
00:44:22,339 --> 00:44:20,820
you know we just don't know it

1038
00:44:23,930 --> 00:44:22,349

back in the 60s most people would say no

1039

00:44:25,670 --> 00:44:23,940

the Native Americans weren't known to do

1040

00:44:28,070 --> 00:44:25,680

this kind of thing so it must be old

1041

00:44:30,620 --> 00:44:28,080

world but when I look at these chambers

1042

00:44:32,450 --> 00:44:30,630

I do see the old world megalithic style

1043

00:44:34,880 --> 00:44:32,460

to them so I think there is an old-world

1044

00:44:36,320 --> 00:44:34,890

connection to these these structures I

1045

00:44:38,000 --> 00:44:36,330

think there's some involvement there you

1046

00:44:40,520 --> 00:44:38,010

know in Native Americans may have given

1047

00:44:41,960 --> 00:44:40,530

you know been part of it but so that's

1048

00:44:43,700 --> 00:44:41,970

changed a little bit you know Native

1049

00:44:46,070 --> 00:44:43,710

Americans we're definitely here maybe

1050

00:44:47,990 --> 00:44:46,080

ten thousand years in new hampshire goes

1051
00:44:49,430 --> 00:44:48,000
back to paleo you know just between ten

1052
00:44:51,950 --> 00:44:49,440
and twelve I guess just at the end of

1053
00:44:52,550 --> 00:44:51,960
the Ice Age so that's something we don't

1054
00:44:55,940 --> 00:44:52,560
know

1055
00:44:58,940 --> 00:44:55,950
we really don't so you gave a possible

1056
00:45:02,720 --> 00:44:58,950
age of your site as bead would you say

1057
00:45:07,310 --> 00:45:02,730
about 4,000 years old how were you able

1058
00:45:12,380 --> 00:45:07,320
to come up with that figure yeah we've

1059
00:45:14,359 --> 00:45:12,390
done 12 carbon dating since 1966 and we

1060
00:45:17,780 --> 00:45:14,369
were dating in one case was a piece of

1061
00:45:19,790 --> 00:45:17,790
Route the others were charcoal and no we

1062
00:45:21,070 --> 00:45:19,800
don't date the stone using carbon dating

1063
00:45:23,240 --> 00:45:21,080

that's you know I don't you know that

1064

00:45:24,829 --> 00:45:23,250

question you know that but a lot of

1065

00:45:26,390 --> 00:45:24,839

people going can you D they use other

1066

00:45:27,710 --> 00:45:26,400

methods I mean when you're dating stone

1067

00:45:29,150 --> 00:45:27,720

you're using other messages and it goes

1068

00:45:30,560 --> 00:45:29,160

back hundreds of millions of years or

1069

00:45:33,710 --> 00:45:30,570

whatever for the age of the stone but

1070

00:45:36,800 --> 00:45:33,720

but the charcoal it was the arrangement

1071

00:45:39,050 --> 00:45:36,810

of the stratigraphic layers next in in

1072

00:45:41,180 --> 00:45:39,060

one case we got three different datings

1073

00:45:43,130 --> 00:45:41,190

out of an area called the North Chamber

1074

00:45:45,560 --> 00:45:43,140

I'm sorry the chamber in ruins the north

1075

00:45:48,260 --> 00:45:45,570

wall of that and it began a nineteen

1076

00:45:49,460 --> 00:45:48,270

that particular date was 1967 when we

1077

00:45:52,370 --> 00:45:49,470

got in there and we found a piece of

1078

00:45:53,990 --> 00:45:52,380

root growing through a wall and we had

1079

00:45:56,930 --> 00:45:54,000

photographs of that stump there in the

1080

00:45:58,460 --> 00:45:56,940

1930s but it was so decayed in the 1930s

1081

00:46:00,829 --> 00:45:58,470

that they couldn't do tree ring dating

1082

00:46:03,650 --> 00:46:00,839

it was just rotted but they did estimate

1083

00:46:05,150 --> 00:46:03,660

its age by looking at the diameter and

1084

00:46:07,880 --> 00:46:05,160

state of decay and they said well it's a

1085

00:46:09,620 --> 00:46:07,890

white pine and it probably was growing

1086

00:46:11,720 --> 00:46:09,630

there in the 1600 so that puts it back

1087

00:46:13,099 --> 00:46:11,730

before the Patti family the important

1088

00:46:14,780 --> 00:46:13,109

thing is the roots had penetrated

1089

00:46:17,120 --> 00:46:14,790

through the structure you don't build a

1090

00:46:20,089 --> 00:46:17,130

chamber around the tree the tree grows

1091

00:46:22,430 --> 00:46:20,099

through the chamber and so by 1967 the

1092

00:46:23,660 --> 00:46:22,440

roots out the stump was pretty much gone

1093

00:46:25,280 --> 00:46:23,670

but the

1094

00:46:26,809 --> 00:46:25,290

they dug into the wall and they were

1095

00:46:28,579 --> 00:46:26,819

hoping to find a piece of root and they

1096

00:46:30,020 --> 00:46:28,589

did they send it to geo chrome

1097

00:46:34,670 --> 00:46:30,030

laboratories in Cambridge Massachusetts

1098

00:46:36,380 --> 00:46:34,680

and the day came back 1690 ad so he knew

1099

00:46:38,089 --> 00:46:36,390

that was before the paddy family so

1100

00:46:39,289 --> 00:46:38,099

everybody all the mainstream see and all

1101

00:46:41,510 --> 00:46:39,299

the patties built the whole thing

1102

00:46:43,280 --> 00:46:41,520

well the chamber was there before the

1103

00:46:45,950 --> 00:46:43,290

paddy family you know and the root had

1104

00:46:47,960 --> 00:46:45,960

grown through it before that time in

1105

00:46:49,490 --> 00:46:47,970

1969 they went down further and they

1106

00:46:50,990 --> 00:46:49,500

found they went quite a ways they didn't

1107

00:46:54,829 --> 00:46:51,000

really find anything for several inches

1108

00:46:56,990 --> 00:46:54,839

and also yet they have layers aid at the

1109

00:46:59,210 --> 00:46:57,000

top and then be a different color strata

1110

00:47:01,160 --> 00:46:59,220

and then see is the lore and it's kind

1111

00:47:02,900 --> 00:47:01,170

of a lighter soil and it was undisturbed

1112

00:47:05,930 --> 00:47:02,910

so nobody had disturb that which is

1113

00:47:09,710 --> 00:47:05,940

great and they found chocol and they

1114

00:47:11,059 --> 00:47:09,720

dated it to 3,000 years old in 71 they

1115

00:47:13,430 --> 00:47:11,069

went down a little bit further and they

1116

00:47:15,410 --> 00:47:13,440

got 4,000 year old charcoal and in that

1117

00:47:17,510 --> 00:47:15,420

mix they found a hammer stone rubbing

1118

00:47:19,549 --> 00:47:17,520

stone stone scraper and stone

1119

00:47:21,109 --> 00:47:19,559

Spaulding's where somebody had been

1120

00:47:23,240 --> 00:47:21,119

doing what we call percussion flaking

1121

00:47:25,490 --> 00:47:23,250

and that's a technique you used to make

1122

00:47:27,740 --> 00:47:25,500

like Arrowhead stone knives stone hoes

1123

00:47:29,359 --> 00:47:27,750

it's a kind of a napping thing we just

1124

00:47:31,309 --> 00:47:29,369

strike the stone and little flakes fall

1125

00:47:33,410 --> 00:47:31,319

off it except they were doing that to

1126

00:47:35,420 --> 00:47:33,420

roof slabs and wall slabs on a very

1127

00:47:36,980 --> 00:47:35,430

grand scale and so all those little

1128

00:47:39,530 --> 00:47:36,990

flakes were left behind when they were

1129

00:47:41,270 --> 00:47:39,540

dressing or shaping the stone below all

1130

00:47:44,059 --> 00:47:41,280

of that the bedrock had been removed and

1131

00:47:46,069 --> 00:47:44,069

that was discovered in 1971 so they

1132

00:47:47,539 --> 00:47:46,079

removed all the bedrock that material is

1133

00:47:50,270 --> 00:47:47,549

used for the building of the structure

1134

00:47:52,430 --> 00:47:50,280

and then they built the wall up and then

1135

00:47:53,599 --> 00:47:52,440

the soil very slowly accumulated next to

1136

00:47:56,870 --> 00:47:53,609

this wall and that's where they get the

1137

00:47:58,730 --> 00:47:56,880

to charcoal dates and they got piece of

1138

00:48:00,049 --> 00:47:58,740

Route things so all right I'm gonna have

1139

00:48:01,910 --> 00:48:00,059

to interrupt you here because we have to

1140

00:48:04,339 --> 00:48:01,920

go to our top of the hour break when we

1141

00:48:10,849 --> 00:48:04,349

come back more exploring the preserves

1142

00:48:18,809 --> 00:48:15,359

explore the bazaars or e-ticket ride

1143

00:48:21,120 --> 00:48:18,819

into the world of the paranoid strap

1144

00:48:25,430 --> 00:48:21,130

yourself England as we traverse the

1145

00:48:29,849 --> 00:48:25,440

universe exploring the unexplained UFO s

1146

00:48:34,020 --> 00:48:29,859

ghosts Lost Worlds cryptozoology waters

1147

00:48:38,520 --> 00:48:34,030

as well as other dimensions it's time to

1148

00:48:40,770 --> 00:48:38,530

take back the night now your

1149

00:48:47,539 --> 00:48:40,780

electrifying hosts of exploring the

1150

00:48:52,230 --> 00:48:49,859

welcome back to the second hour of

1151
00:48:54,980 --> 00:48:52,240
exploring the bizarre our guests tonight

1152
00:48:59,279 --> 00:48:54,990
have been a stone and Jim Willis and a

1153
00:49:02,309 --> 00:48:59,289
Jim I wanted to ask you now we were

1154
00:49:07,109 --> 00:49:02,319
talking a little bit in the last segment

1155
00:49:10,289 --> 00:49:07,119
before the break about you know the

1156
00:49:12,569 --> 00:49:10,299
possibility that the like Native

1157
00:49:15,599 --> 00:49:12,579
Americans could have been responsible

1158
00:49:17,370 --> 00:49:15,609
for building america's stonehenge and

1159
00:49:20,490 --> 00:49:17,380
some of the other you know like stone

1160
00:49:22,319 --> 00:49:20,500
structures found across especially the

1161
00:49:24,960 --> 00:49:22,329
east coast but other places as well

1162
00:49:26,069 --> 00:49:24,970
and so i mean what do you think about

1163
00:49:29,789 --> 00:49:26,079

that i mean you know is that a

1164

00:49:31,200 --> 00:49:29,799

possibility you know I look beyond them

1165

00:49:34,319 --> 00:49:31,210

actually building the site because I'm

1166

00:49:37,319 --> 00:49:34,329

I'm pretty much convinced in my own mind

1167

00:49:41,839 --> 00:49:37,329

that this was built by Europeans um I

1168

00:49:43,260 --> 00:49:41,849

think it was built according to well

1169

00:49:45,930 --> 00:49:43,270

Farley Mowat

1170

00:49:47,940 --> 00:49:45,940

was you know who has written a book

1171

00:49:51,630 --> 00:49:47,950

called the far Ferrars before the

1172

00:49:54,539 --> 00:49:51,640

north's talks about a people who lived

1173

00:49:58,980 --> 00:49:54,549

on the west part of Europe Western

1174

00:50:00,539 --> 00:49:58,990

Europe and and Ireland Scotland Cornwall

1175

00:50:02,970 --> 00:50:00,549

Wales around in that area

1176

00:50:05,549 --> 00:50:02,980

and you find a lot of these kinds of

1177

00:50:07,200 --> 00:50:05,559

stone structures that that look very

1178

00:50:08,910 --> 00:50:07,210

similar to the same kind of building

1179

00:50:12,630 --> 00:50:08,920

techniques used at America's Stonehenge

1180

00:50:14,289 --> 00:50:12,640

and so it's his it was his idea when my

1181

00:50:17,380 --> 00:50:14,299

wife Barb and I were writing

1182

00:50:19,179 --> 00:50:17,390

one of our books Armageddon now we were

1183

00:50:23,279 --> 00:50:19,189

in touch with fairly Moab before he died

1184

00:50:25,449 --> 00:50:23,289

and it was his idea of course that

1185

00:50:26,890 --> 00:50:25,459

centuries before the Norse arrived in

1186

00:50:29,739 --> 00:50:26,900

North America matter of fact he would

1187

00:50:31,870 --> 00:50:29,749

place it about 4000 years ago these

1188

00:50:35,529 --> 00:50:31,880

enterprising hunters from the British

1189

00:50:38,679 --> 00:50:35,539

Isles followed the The Walrus IV trade

1190

00:50:40,660 --> 00:50:38,689

were tracking their prey westward to

1191

00:50:42,789 --> 00:50:40,670

what we now know as a Canadian Arctic in

1192

00:50:44,859 --> 00:50:42,799

Newfoundland and each year when the

1193

00:50:46,870 --> 00:50:44,869

weather closed in what they would do

1194

00:50:48,999 --> 00:50:46,880

they would build stone foundations which

1195

00:50:50,709 --> 00:50:49,009

are still there except they were not

1196

00:50:52,269 --> 00:50:50,719

build as and not seen as house

1197

00:50:53,949 --> 00:50:52,279

foundations because there's no trees

1198

00:50:55,929 --> 00:50:53,959

around there and so they didn't know

1199

00:50:57,039 --> 00:50:55,939

what they were covered with well what

1200

00:50:58,900 --> 00:50:57,049

they did was they would build these

1201
00:51:00,189 --> 00:50:58,910
stone foundations and then roof them

1202
00:51:02,229 --> 00:51:00,199
over with their boats that were

1203
00:51:04,089 --> 00:51:02,239
overturned for the winter the boats

1204
00:51:06,279 --> 00:51:04,099
became the roof and the walls of these

1205
00:51:08,589 --> 00:51:06,289
structures and then with the arrival of

1206
00:51:10,959 --> 00:51:08,599
spring they returned with a full cargo

1207
00:51:13,779 --> 00:51:10,969
of ivory to sell back to the European

1208
00:51:15,219 --> 00:51:13,789
markets well I think you know these

1209
00:51:16,660 --> 00:51:15,229
these were the same kind of people

1210
00:51:18,130 --> 00:51:16,670
living in about the same time than

1211
00:51:20,410 --> 00:51:18,140
America's stonehenge was thing and it

1212
00:51:22,359 --> 00:51:20,420
would once you make your way past

1213
00:51:24,279 --> 00:51:22,369

Ireland and then into Greenland and then

1214

00:51:26,199 --> 00:51:24,289

Newfoundland and and down toward New

1215

00:51:29,620 --> 00:51:26,209

England it would only make sense that

1216

00:51:31,390 --> 00:51:29,630

they would come in and and carry that

1217

00:51:34,809 --> 00:51:31,400

kind of culture with them that kind of

1218

00:51:37,179 --> 00:51:34,819

stone culture but what gets me as the

1219

00:51:38,709 --> 00:51:37,189

Native Americans at the time didn't

1220

00:51:42,609 --> 00:51:38,719

build these kind of structures but they

1221

00:51:47,439 --> 00:51:42,619

must have been close and friendly with

1222

00:51:49,599 --> 00:51:47,449

these Western European settlers i I just

1223

00:51:53,319 --> 00:51:49,609

find it's a fascinating idea that two

1224

00:51:55,769 --> 00:51:53,329

totally different cultures can exist not

1225

00:52:00,519 --> 00:51:55,779

only side-by-side but answer actually

1226

00:52:02,169 --> 00:52:00,529

intermingle and and and get along with

1227

00:52:04,809 --> 00:52:02,179

each other in these days when we're out

1228

00:52:06,609 --> 00:52:04,819

they have all this these you know

1229

00:52:08,769 --> 00:52:06,619

cultural barriers and everything going

1230

00:52:10,479 --> 00:52:08,779

up I just find it's a fantastic thing

1231

00:52:12,699 --> 00:52:10,489

that these two cultures can live in

1232

00:52:14,919 --> 00:52:12,709

peace totally different worldviews

1233

00:52:16,630 --> 00:52:14,929

totally different ways of going on but

1234

00:52:18,759 --> 00:52:16,640

they seem to because there's no evidence

1235

00:52:20,859 --> 00:52:18,769

of that kind of warfare going on between

1236

00:52:23,140 --> 00:52:20,869

the two there's no idea of coming over

1237

00:52:25,660 --> 00:52:23,150

here to conquer I think they probably

1238

00:52:26,700 --> 00:52:25,670

were assimilated and of course that

1239

00:52:28,230 --> 00:52:26,710

raises the whole

1240

00:52:30,360 --> 00:52:28,240

and everybody always brings up they

1241

00:52:32,420 --> 00:52:30,370

think it's the Giant Killer well what

1242

00:52:35,580 --> 00:52:32,430

about DNA evidence welcome there's no

1243

00:52:37,920 --> 00:52:35,590

European DNA evidence found in American

1244

00:52:39,570 --> 00:52:37,930

Indians but what we don't think about is

1245

00:52:41,460 --> 00:52:39,580

that very shortly after the first

1246

00:52:45,360 --> 00:52:41,470

European fishermen started coming over

1247

00:52:47,930 --> 00:52:45,370

here way before the Vikings they brought

1248

00:52:50,400 --> 00:52:47,940

European diseases with them as well and

1249

00:52:52,910 --> 00:52:50,410

before you know when the Pilgrims and

1250

00:52:56,970 --> 00:52:52,920

the Puritans by the time making vast

1251
00:52:59,670 --> 00:52:56,980
amounts of indigenous people had died to

1252
00:53:02,910 --> 00:52:59,680
these diseases and it had been killed in

1253
00:53:06,780 --> 00:53:02,920
across America in some cases fatalities

1254
00:53:10,320 --> 00:53:06,790
numbering 90 percent 95 percent down in

1255
00:53:11,970 --> 00:53:10,330
Florida 98 percent of them died because

1256
00:53:14,250 --> 00:53:11,980
of these diseases that they had no

1257
00:53:15,540 --> 00:53:14,260
natural immunity to and so of course

1258
00:53:19,170 --> 00:53:15,550
that would that would do a number on

1259
00:53:21,990 --> 00:53:19,180
your DNA testing the DNA of the the

1260
00:53:25,740 --> 00:53:22,000
modern indigenous people that we study

1261
00:53:28,050 --> 00:53:25,750
is his DNA that came after the fact so

1262
00:53:29,430 --> 00:53:28,060
to speak when the people started coming

1263
00:53:32,130 --> 00:53:29,440

back into the area after these

1264

00:53:34,920 --> 00:53:32,140

tremendous plagues and devastations so

1265

00:53:37,650 --> 00:53:34,930

I'm I'm just fascinated when I think

1266

00:53:38,970 --> 00:53:37,660

about America Stonehenge what it must

1267

00:53:42,390 --> 00:53:38,980

have been like you put yourself back

1268

00:53:44,370 --> 00:53:42,400

into that area here's a Native American

1269

00:53:46,290 --> 00:53:44,380

standing up there watching these

1270

00:53:48,330 --> 00:53:46,300

Europeans doing their things of what he

1271

00:53:51,360 --> 00:53:48,340

what are you doing and why and I'm

1272

00:53:53,910 --> 00:53:51,370

wondering course as a professor of

1273

00:53:55,950 --> 00:53:53,920

comparative religion how they managed to

1274

00:53:59,010 --> 00:53:55,960

share and inter blend their religious

1275

00:54:01,470 --> 00:53:59,020

outlook their spirituality on life and I

1276
00:54:03,120 --> 00:54:01,480
wonder what they taught each other and

1277
00:54:06,360 --> 00:54:03,130
and this went on for thousands of years

1278
00:54:07,740 --> 00:54:06,370
so I just find it fascinating I think

1279
00:54:09,090 --> 00:54:07,750
it's something that we need to study a

1280
00:54:12,240 --> 00:54:09,100
lot more about because it might give us

1281
00:54:15,180 --> 00:54:12,250
an insight into how different cultures

1282
00:54:19,440 --> 00:54:15,190
can get along today rather than fight

1283
00:54:25,320 --> 00:54:19,450
each other when we look at some of these

1284
00:54:29,250 --> 00:54:25,330
these really massive stones that were

1285
00:54:33,390 --> 00:54:29,260
used at American Stonehenge you know it

1286
00:54:35,960 --> 00:54:33,400
seems to me that this was not you know

1287
00:54:38,160 --> 00:54:35,970
like you had talked about you know the

1288
00:54:40,050 --> 00:54:38,170

when they came you know like up in

1289

00:54:41,730 --> 00:54:40,060

Newfoundland places like that you

1290

00:54:44,160 --> 00:54:41,740

build a stone you know Foundation and

1291

00:54:47,280 --> 00:54:44,170

then put the votes on top this was built

1292

00:54:49,080 --> 00:54:47,290

to last this oh yeah this was built for

1293

00:54:52,110 --> 00:54:49,090

people who were going to be there for a

1294

00:54:55,530 --> 00:54:52,120

while yeah and and you know I have

1295

00:54:59,400 --> 00:54:55,540

another theory that that I have no idea

1296

00:55:01,650 --> 00:54:59,410

I I'm just beginning to set it and kind

1297

00:55:02,790 --> 00:55:01,660

of research it but when people came over

1298

00:55:04,410 --> 00:55:02,800

here

1299

00:55:06,120 --> 00:55:04,420

of course it would have been a hard

1300

00:55:08,910 --> 00:55:06,130

journey across the North Sea and you're

1301
00:55:11,340 --> 00:55:08,920
talking about basically walrus hide

1302
00:55:15,030 --> 00:55:11,350
boats you know which were perfectly

1303
00:55:17,040 --> 00:55:15,040
capable of making the journey as a

1304
00:55:19,890 --> 00:55:17,050
matter of fact in some ways they were

1305
00:55:22,530 --> 00:55:19,900
more seaworthy when the Roman craft when

1306
00:55:24,900 --> 00:55:22,540
when the Romans invaded England and when

1307
00:55:26,340 --> 00:55:24,910
they came to Ireland they they found

1308
00:55:29,190 --> 00:55:26,350
that the old Roman galleys couldn't

1309
00:55:31,650 --> 00:55:29,200
operate nearly as efficiently as these

1310
00:55:35,190 --> 00:55:31,660
high ships that were built by the

1311
00:55:38,880 --> 00:55:35,200
Western Europeans so when they came over

1312
00:55:40,110 --> 00:55:38,890
here I just can easily visualize them

1313
00:55:42,360 --> 00:55:40,120

saying that you know this is a nice

1314

00:55:44,100 --> 00:55:42,370

place to stay and when they start their

1315

00:55:45,660 --> 00:55:44,110

way down the coastline they start making

1316

00:55:48,090 --> 00:55:45,670

their way south and the weather keeps

1317

00:55:50,040 --> 00:55:48,100

getting better and they become this

1318

00:55:53,820 --> 00:55:50,050

first snowbirds to head from New England

1319

00:55:56,700 --> 00:55:53,830

down here toward Florida they built

1320

00:55:59,130 --> 00:55:56,710

these huge shell middens which are built

1321

00:56:01,470 --> 00:55:59,140

along the same design and in some of the

1322

00:56:04,050 --> 00:56:01,480

same areas as the stone structures that

1323

00:56:05,880 --> 00:56:04,060

we find farther north circular shell

1324

00:56:07,530 --> 00:56:05,890

middens nobody knows who built and they

1325

00:56:10,710 --> 00:56:07,540

know they're go back about 4,000 years

1326

00:56:12,000 --> 00:56:10,720

they can carbon data and they know that

1327

00:56:13,530 --> 00:56:12,010

they were built when the sea levels were

1328

00:56:15,660 --> 00:56:13,540

much lower so we're talking about a

1329

00:56:17,190 --> 00:56:15,670

people who came here and came down the

1330

00:56:19,340 --> 00:56:17,200

coastline four to five thousand years

1331

00:56:22,380 --> 00:56:19,350

ago we say well why did they use shells

1332

00:56:24,630 --> 00:56:22,390

well in New England you've got a lot of

1333

00:56:26,700 --> 00:56:24,640

rocks down here in Florida and South

1334

00:56:28,670 --> 00:56:26,710

Carolina we don't have those kind of

1335

00:56:31,200 --> 00:56:28,680

rocks you have to use what you have and

1336

00:56:34,680 --> 00:56:31,210

they would build these these circular

1337

00:56:38,340 --> 00:56:34,690

shape middens not just trash heaps but

1338

00:56:40,500 --> 00:56:38,350

really structurally interesting mittens

1339

00:56:41,910 --> 00:56:40,510

and as they come down here I imagine

1340

00:56:43,740 --> 00:56:41,920

some of the people were sent there you

1341

00:56:45,300 --> 00:56:43,750

know this is a nice place who wants to

1342

00:56:47,730 --> 00:56:45,310

go back up north where it's cold let's

1343

00:56:49,500 --> 00:56:47,740

just stay right here I have no idea that

1344

00:56:50,190 --> 00:56:49,510

I know no doubt that the whole eastern

1345

00:56:52,090 --> 00:56:50,200

seaboard

1346

00:56:54,220 --> 00:56:52,100

was a

1347

00:56:57,460 --> 00:56:54,230

not by some of these people and they

1348

00:56:59,050 --> 00:56:57,470

must have shared with the cultures who

1349

00:57:01,750 --> 00:56:59,060

were here the indigenous people who were

1350

00:57:03,460 --> 00:57:01,760

here and I think it was a totally

1351

00:57:05,710 --> 00:57:03,470

different experience than we had when

1352

00:57:07,450 --> 00:57:05,720

the Europeans came over after Columbus

1353

00:57:09,160 --> 00:57:07,460

and they came over carrying their

1354

00:57:11,230 --> 00:57:09,170

weapons and they came over with the idea

1355

00:57:12,730 --> 00:57:11,240

of destruction I don't think it was that

1356

00:57:15,550 --> 00:57:12,740

way at the beginning I think it was a

1357

00:57:18,880 --> 00:57:15,560

peaceful peaceful migration of people

1358

00:57:22,510 --> 00:57:18,890

just getting along with each other what

1359

00:57:24,850 --> 00:57:22,520

this point then so you have America's

1360

00:57:27,730 --> 00:57:24,860

Stone hands and then you have other

1361

00:57:31,840 --> 00:57:27,740

locations as Dennis alluded to you know

1362

00:57:34,780 --> 00:57:31,850

up and down the East Coast so I mean

1363

00:57:37,750 --> 00:57:34,790

this this would seem to show that there

1364

00:57:41,700 --> 00:57:37,760

was probably I don't want to say an

1365

00:57:44,920 --> 00:57:41,710

extensive population but quite a few

1366

00:57:47,950 --> 00:57:44,930

people coming and going what happened to

1367

00:57:51,040 --> 00:57:47,960

them why is it that then by the time you

1368

00:57:53,140 --> 00:57:51,050

know yeah I know Columbus didn't didn't

1369

00:57:54,760 --> 00:57:53,150

make it up early into you know North

1370

00:57:57,370 --> 00:57:54,770

America but you know the other people

1371

00:57:59,110 --> 00:57:57,380

who who finally made it to the east

1372

00:58:02,200 --> 00:57:59,120

coast from Europe from the first time

1373

00:58:04,990 --> 00:58:02,210

found only a Native Americans what

1374

00:58:08,290 --> 00:58:05,000

happened to these you know original

1375

00:58:12,810 --> 00:58:08,300

Europeans some of it was probably

1376

00:58:16,960 --> 00:58:12,820

climate change the the weather we had a

1377

00:58:19,300 --> 00:58:16,970

the when when the Norse were over in

1378

00:58:21,850 --> 00:58:19,310

iron in Iceland and in Greenland and

1379

00:58:25,240 --> 00:58:21,860

what they call the Little Ice Age began

1380

00:58:28,960 --> 00:58:25,250

and the populations just simply died out

1381

00:58:30,880 --> 00:58:28,970

and and it it just became untenable the

1382

00:58:36,610 --> 00:58:30,890

weather and that probably drove some of

1383

00:58:40,900 --> 00:58:36,620

the MEC others I think there was a great

1384

00:58:42,940 --> 00:58:40,910

deal of Norse activity about a thousand

1385

00:58:44,950 --> 00:58:42,950

years ago that people were fleeing the

1386

00:58:46,720 --> 00:58:44,960

Norse they came over here and they just

1387

00:58:47,550 --> 00:58:46,730

stopped going back because it was just

1388

00:58:49,870 --> 00:58:47,560

too dangerous

1389

00:58:53,080 --> 00:58:49,880

all of the Western Europe and the

1390

00:58:56,530 --> 00:58:53,090

British Isles it was really a tough

1391

00:58:59,410 --> 00:58:56,540

tough time with the Viking the Viking

1392

00:59:01,540 --> 00:58:59,420

score John and I think people came over

1393

00:59:03,190 --> 00:59:01,550

here said why why go back there the the

1394

00:59:05,680 --> 00:59:03,200

market for for

1395

00:59:07,809 --> 00:59:05,690

walrus tusks and ivory which brought

1396

00:59:10,420 --> 00:59:07,819

them over here in the first place the

1397

00:59:12,760 --> 00:59:10,430

market for fishing it the markets dried

1398

00:59:15,130 --> 00:59:12,770

up the the trade routes were so

1399

00:59:17,200 --> 00:59:15,140

disruptive because of the the pirating

1400

00:59:18,849 --> 00:59:17,210

that was going on and I think after a

1401
00:59:19,359 --> 00:59:18,859
generation or two of course you forget a

1402
00:59:21,190 --> 00:59:19,369
lot

1403
00:59:23,559 --> 00:59:21,200
these were cultures that didn't have a

1404
00:59:25,359 --> 00:59:23,569
lot of written language and they just

1405
00:59:26,920 --> 00:59:25,369
passed the thing no but you get two

1406
00:59:28,210 --> 00:59:26,930
generations of people born here in

1407
00:59:29,589 --> 00:59:28,220
America and they say I don't want to go

1408
00:59:31,480 --> 00:59:29,599
back to the old country they just stayed

1409
00:59:33,490 --> 00:59:31,490
here and I think that we entered into

1410
00:59:35,650 --> 00:59:33,500
what kind of the Dark Age and when

1411
00:59:38,260 --> 00:59:35,660
Columbus sailed over here of course he

1412
00:59:40,839 --> 00:59:38,270
had maps we know that he had information

1413
00:59:44,020 --> 00:59:40,849

I know I I don't think there's any

1414

00:59:46,569 --> 00:59:44,030

question that a lot of a lot of what he

1415

00:59:48,640 --> 00:59:46,579

said he was not a discovery of America

1416

00:59:51,960 --> 00:59:48,650

it was a rediscovery of something that

1417

00:59:55,780 --> 00:59:51,970

earlier generations had had neglected

1418

00:59:57,520 --> 00:59:55,790

yeah I had heard I've heard that you

1419

01:00:02,190 --> 00:59:57,530

know Columbus may have been ignorant

1420

01:00:06,309 --> 01:00:02,200

that there was a a landmass in between

1421

01:00:07,780 --> 01:00:06,319

Europe and Asia but that it was like you

1422

01:00:12,130 --> 01:00:07,790

know North and South America was

1423

01:00:14,230 --> 01:00:12,140

probably a what what would the term be

1424

01:00:18,099 --> 01:00:14,240

and not so he'll I'm not so best kept

1425

01:00:20,079 --> 01:00:18,109

secrets well if you'll allow me to put

1426

01:00:22,180 --> 01:00:20,089

you you were nice enough to let me plug

1427

01:00:23,950 --> 01:00:22,190

my one book that's coming out this fall

1428

01:00:25,750 --> 01:00:23,960

I got another one coming out this fall -

1429

01:00:27,910 --> 01:00:25,760

you're a different a different publisher

1430

01:00:30,460 --> 01:00:27,920

this is from visible link and it

1431

01:00:32,530 --> 01:00:30,470

continues along the line of my two books

1432

01:00:33,760 --> 01:00:32,540

that we talked about last couple of

1433

01:00:36,730 --> 01:00:33,770

times I've been with you folks

1434

01:00:39,130 --> 01:00:36,740

my first with them was ancient gods and

1435

01:00:42,940 --> 01:00:39,140

my second was supernatural gods and this

1436

01:00:45,760 --> 01:00:42,950

fall in October it's in the book is in

1437

01:00:47,950 --> 01:00:45,770

production now but it is it's being sold

1438

01:00:50,049 --> 01:00:47,960

advance sales already through Amazon and

1439

01:00:52,650 --> 01:00:50,059

other book dealers it's called lost

1440

01:00:55,420 --> 01:00:52,660

civilizations the secret histories and

1441

01:00:57,819 --> 01:00:55,430

suppressed technologies of the Ancients

1442

01:01:00,539 --> 01:00:57,829

and I talk a lot about these lost

1443

01:01:02,740 --> 01:01:00,549

civilizations all around the world and

1444

01:01:06,910 --> 01:01:02,750

how they built up what how a

1445

01:01:08,740 --> 01:01:06,920

civilization rose how it fell and why

1446

01:01:12,880 --> 01:01:08,750

and the different reasons everything

1447

01:01:15,820 --> 01:01:12,890

from warfare to civil design the

1448

01:01:19,150 --> 01:01:15,830

civilization breaking down internally

1449

01:01:21,810 --> 01:01:19,160

just because of the power politics and

1450

01:01:24,700 --> 01:01:21,820

all that kind of thing and also whether

1451

01:01:26,500 --> 01:01:24,710

climate change and how all this can take

1452

01:01:29,890 --> 01:01:26,510

a civilization and pretty well destroy

1453

01:01:32,020 --> 01:01:29,900

it and it's it's it's really fascinating

1454

01:01:35,950 --> 01:01:32,030

to find out how these things rise and

1455

01:01:38,350 --> 01:01:35,960

fall my bottom line after being involved

1456

01:01:41,560 --> 01:01:38,360

with all this is that we are a much more

1457

01:01:44,800 --> 01:01:41,570

ancient civilization we like to think we

1458

01:01:47,320 --> 01:01:44,810

are we go way way back and much of what

1459

01:01:50,530 --> 01:01:47,330

we have experienced we have just simply

1460

01:01:53,620 --> 01:01:50,540

forgotten and don't want to bring it up

1461

01:01:55,150 --> 01:01:53,630

as Dennis said earlier history books are

1462

01:01:57,250 --> 01:01:55,160

written people don't want to rewrite

1463

01:02:00,430 --> 01:01:57,260

rewrite them and so there is a vast

1464

01:02:03,040 --> 01:02:00,440

conspiracy of silence out there mmm no I

1465

01:02:10,360 --> 01:02:03,050

definitely believe that Dennis let me

1466

01:02:16,870 --> 01:02:10,370

ask you now after hearing what what Jim

1467

01:02:21,460 --> 01:02:16,880

had to say have you the people who have

1468

01:02:25,200 --> 01:02:21,470

worked at America's Stonehenge has

1469

01:02:30,270 --> 01:02:25,210

anybody uncovered anything that may

1470

01:02:32,860 --> 01:02:30,280

point to who may have been you know

1471

01:02:36,880 --> 01:02:32,870

originally the you know the the original

1472

01:02:39,730 --> 01:02:36,890

builders of that site yeah they have

1473

01:02:41,650 --> 01:02:39,740

found some evidence not only at our site

1474

01:02:43,390 --> 01:02:41,660

but sites actually from north down

1475

01:02:45,310 --> 01:02:43,400

through Central and South America their

1476

01:02:48,100 --> 01:02:45,320

inscriptions I'm sure Jim's pretty aware

1477

01:02:51,310 --> 01:02:48,110

of hundreds and hundreds of inscriptions

1478

01:02:54,430 --> 01:02:51,320

have been found at our site dr. berry

1479

01:02:57,610 --> 01:02:54,440

fell quite controversial you know among

1480

01:03:00,670 --> 01:02:57,620

the mainstream but back in 1975 he first

1481

01:03:03,190 --> 01:03:00,680

visited our site and he we had already

1482

01:03:04,870 --> 01:03:03,200

found some stones back in 1964 and put

1483

01:03:06,490 --> 01:03:04,880

him on display as unknown markings

1484

01:03:08,530 --> 01:03:06,500

actually they came out of that structure

1485

01:03:10,750 --> 01:03:08,540

I mentioned called the chamber and ruins

1486

01:03:12,480 --> 01:03:10,760

and there were three different stones

1487

01:03:15,000 --> 01:03:12,490

that came out of that kind of triangular

1488

01:03:17,080 --> 01:03:15,010

he took him back to Eiling ttan

1489

01:03:19,810 --> 01:03:17,090

Massachusetts he was a professor at

1490

01:03:23,080 --> 01:03:19,820

Harvard University for 20 years and he

1491

01:03:24,640 --> 01:03:23,090

examined them there and his um the

1492

01:03:27,970 --> 01:03:24,650

result of his study of them he said well

1493

01:03:29,410 --> 01:03:27,980

one was iberian punic the other one

1494

01:03:32,440 --> 01:03:29,420

was celtic Oh

1495

01:03:34,870 --> 01:03:32,450

and the other one was Libyan and he did

1496

01:03:37,270 --> 01:03:34,880

get a translation off the ogum and the

1497

01:03:39,790 --> 01:03:37,280

Phoenician writing but the Libyan was

1498

01:03:42,550 --> 01:03:39,800

kind of the stone was busted so he can

1499

01:03:44,050 --> 01:03:42,560

really get a full translation off but he

1500

01:03:46,750 --> 01:03:44,060

said the one that was Phoenician was

1501

01:03:48,970 --> 01:03:46,760

Iberian Punic our Phoenicians found in

1502

01:03:50,770 --> 01:03:48,980

Iberia or Spain and Portugal and it said

1503

01:03:53,410 --> 01:03:50,780

that that structure the chamber in ruins

1504

01:03:55,360 --> 01:03:53,420

was a temple some temple dedicated to

1505

01:03:57,190 --> 01:03:55,370

Baal on behalf of the Canaanites because

1506

01:03:59,710 --> 01:03:57,200

the Phoenicians for the Canaanites and

1507

01:04:02,500 --> 01:03:59,720

the other one was a Celtic Ogham and it

1508

01:04:06,040 --> 01:04:02,510

said one line plus two more lines which

1509

01:04:08,230 --> 01:04:06,050

means B and L insert the vowel there was

1510

01:04:10,240 --> 01:04:08,240

no it was all consonants no vowels and

1511

01:04:12,190 --> 01:04:10,250

he said it was bel and as we kind of

1512

01:04:14,950 --> 01:04:12,200

identified that Bell and Bale or Baal

1513

01:04:16,990 --> 01:04:14,960

yeah in the Bible are the same and the

1514

01:04:19,780 --> 01:04:17,000

Celts and the Phoenicians were basically

1515

01:04:22,180 --> 01:04:19,790

the same Sun God and these markings have

1516

01:04:23,710 --> 01:04:22,190

been found all yell to Alberta Canada

1517

01:04:25,900 --> 01:04:23,720

and The Milk River they've been found

1518

01:04:28,600 --> 01:04:25,910

all way down into Brazil and in between

1519

01:04:31,210 --> 01:04:28,610

in Georgia I mean Massachusetts Vermont

1520

01:04:32,950 --> 01:04:31,220

has probably the most inscriptions of

1521

01:04:35,830 --> 01:04:32,960

any of the Northeast sites they're just

1522

01:04:38,170 --> 01:04:35,840

they're just everywhere up there on the

1523

01:04:39,580 --> 01:04:38,180

on the standing stones the monoliths in

1524

01:04:42,220 --> 01:04:39,590

the structures on the roof of the

1525

01:04:44,560 --> 01:04:42,230

structures Vermont has the greatest

1526

01:04:46,120 --> 01:04:44,570

number of inscriptions I guess but

1527

01:04:48,700 --> 01:04:46,130

they're all over New England and New

1528

01:04:49,930 --> 01:04:48,710

York has them and everything so that

1529

01:04:52,180 --> 01:04:49,940

might be something that might identify

1530

01:04:54,130 --> 01:04:52,190

the people but our site would predate

1531

01:04:56,140 --> 01:04:54,140

the what is officially you know the

1532

01:04:58,780 --> 01:04:56,150

Phoenician time period they would go

1533

01:05:00,760 --> 01:04:58,790

back about I think 500 years before that

1534

01:05:02,890 --> 01:05:00,770

and so that creates a little bit of a

1535

01:05:04,060 --> 01:05:02,900

you know a problem who would who were

1536

01:05:06,400 --> 01:05:04,070

these people I think they were just

1537

01:05:08,290 --> 01:05:06,410

Western European people coming over here

1538

01:05:10,090 --> 01:05:08,300

and eventually a later time the

1539

01:05:12,070 --> 01:05:10,100

Phoenicians were coming in that might be

1540

01:05:16,000 --> 01:05:12,080

one of the you know the answers to that

1541

01:05:18,820 --> 01:05:16,010

problem you know that does could could

1542

01:05:22,630 --> 01:05:18,830

you talk about that that sight line the

1543

01:05:24,040 --> 01:05:22,640

the equinox sight line that when you

1544

01:05:26,140 --> 01:05:24,050

carried it through I think your son to

1545

01:05:29,110 --> 01:05:26,150

the work carried it through and and

1546

01:05:31,870 --> 01:05:29,120

bisected the the truth on at Stonehenge

1547

01:05:34,690 --> 01:05:31,880

and went on to Lebanon the place where

1548

01:05:36,790 --> 01:05:34,700

the Phoenicians were sure yeah well he

1549

01:05:39,130 --> 01:05:36,800

that uh was in college at the time in

1550

01:05:41,170 --> 01:05:39,140

2012 and he was just taken wines out

1551

01:05:42,970 --> 01:05:41,180

from our site looking to see if other

1552

01:05:44,200 --> 01:05:42,980

New England sites were aligned with

1553

01:05:46,480 --> 01:05:44,210

and had done some of this work in the

1554

01:05:48,160 --> 01:05:46,490

1970s but with Google Earth it's much

1555

01:05:50,319 --> 01:05:48,170

much easier I mean it's just amazing

1556

01:05:52,359 --> 01:05:50,329

what you can do with it but he took the

1557

01:05:56,289 --> 01:05:52,369

line across the as actually the summer

1558

01:05:57,970 --> 01:05:56,299

solstice sunrise alignment and he starts

1559

01:05:59,710 --> 01:05:57,980

that the astronomical center goes over

1560

01:06:01,660 --> 01:05:59,720

that stone that's asymmetrically shaped

1561

01:06:03,849 --> 01:06:01,670

and the stone is actually shaped to fit

1562

01:06:06,160 --> 01:06:03,859

two Hills that are about five miles

1563

01:06:07,630 --> 01:06:06,170

distance they have kind of a notch it's

1564

01:06:09,609 --> 01:06:07,640

called the horizon feature and he's

1565

01:06:10,780 --> 01:06:09,619

found in some of the European sites like

1566

01:06:12,370 --> 01:06:10,790

up in Scotland there's a site called

1567

01:06:15,339 --> 01:06:12,380

Bella Croix it has the same kind of

1568

01:06:17,530 --> 01:06:15,349

thing Kendra in Scotland but these are

1569

01:06:19,750 --> 01:06:17,540

make beautiful alignments and you're

1570

01:06:22,359 --> 01:06:19,760

looking miles so you have a Forsyte a

1571

01:06:24,010 --> 01:06:22,369

back sight and you have the the hill or

1572

01:06:25,990 --> 01:06:24,020

the notch and then you have the object

1573

01:06:28,200 --> 01:06:26,000

such as a Sun moon or perhaps a stock

1574

01:06:30,430 --> 01:06:28,210

and it makes for a very very long

1575

01:06:31,720 --> 01:06:30,440

alignment much more accurate well he

1576

01:06:33,819 --> 01:06:31,730

just took that alignment and kept

1577

01:06:35,620 --> 01:06:33,829

traveling on that too he crossed when

1578

01:06:38,920 --> 01:06:35,630

right across New England I went across

1579

01:06:40,960 --> 01:06:38,930

Nova Scotia past Newfoundland he ended

1580

01:06:42,880 --> 01:06:40,970

up on the other side over and turns out

1581

01:06:44,440 --> 01:06:42,890

in England and he said gee that looks

1582

01:06:45,700 --> 01:06:44,450

like it goes you know in southern

1583

01:06:46,930 --> 01:06:45,710

England that looks interesting so he

1584

01:06:49,089 --> 01:06:46,940

changed his scale and as he kept

1585

01:06:51,220 --> 01:06:49,099

changing it noticing it was pretty close

1586

01:06:52,780 --> 01:06:51,230

to where he knew Stonehenge was and as

1587

01:06:54,309 --> 01:06:52,790

he kept you know he kept expanding a

1588

01:06:56,140 --> 01:06:54,319

scale else and their Stonehenge and the

1589

01:06:58,329 --> 01:06:56,150

line goes right through the lodge trial

1590

01:07:00,400 --> 01:06:58,339

Athan it was like wow that's that's

1591

01:07:01,780 --> 01:07:00,410

pretty amazing you know it was kind of

1592

01:07:04,480 --> 01:07:01,790

when he told me about it you know I got

1593

01:07:06,130 --> 01:07:04,490

I got the hair stood up on my neck I'm

1594

01:07:07,930 --> 01:07:06,140

like wow that's you know even if it's a

1595

01:07:09,309 --> 01:07:07,940

coincidence that is pretty amazing you

1596

01:07:11,260 --> 01:07:09,319

know they have the right through the

1597

01:07:13,390 --> 01:07:11,270

center of that so the line eventually

1598

01:07:16,329 --> 01:07:13,400

was carried over and it goes go into the

1599

01:07:17,980 --> 01:07:16,339

the Phoenician coast and it goes close

1600

01:07:21,549 --> 01:07:17,990

to Beirut I think that's great near

1601

01:07:24,970 --> 01:07:21,559

Biblos but then it continues into the

1602

01:07:27,730 --> 01:07:24,980

Golan Heights and there's a the Israeli

1603

01:07:29,380 --> 01:07:27,740

Stonehenge the Giants wheel they call it

1604

01:07:32,410 --> 01:07:29,390

that's pretty amazing and it goes right

1605

01:07:34,720 --> 01:07:32,420

through that also but it does go through

1606

01:07:37,569 --> 01:07:34,730

the Phoenician coast and it's just one

1607

01:07:39,789 --> 01:07:37,579

of those really really neat things we

1608

01:07:41,530 --> 01:07:39,799

have looked at other alignments there

1609

01:07:43,750 --> 01:07:41,540

the true-self Lima goes through an

1610

01:07:45,579 --> 01:07:43,760

effigy mound and and OPA Massachusetts a

1611

01:07:47,349 --> 01:07:45,589

great big turtle mound shaped like you

1612

01:07:50,260 --> 01:07:47,359

know it's made out of stone it's

1613

01:07:52,329 --> 01:07:50,270

probably about 50 60 feet across it's

1614

01:07:54,190 --> 01:07:52,339

like a very very large con if you will

1615

01:07:55,599 --> 01:07:54,200

but it's shaped like a turtle that

1616

01:07:56,680 --> 01:07:55,609

alignment goes through that but if you

1617

01:07:58,540 --> 01:07:56,690

travel

1618

01:08:02,230 --> 01:07:58,550

continue and you end up in South America

1619

01:08:04,180 --> 01:08:02,240

it goes right by the Machu Picchu which

1620

01:08:07,089 --> 01:08:04,190

is cool and if the winter solstice

1621

01:08:08,920 --> 01:08:07,099

sunset and you know these should be

1622

01:08:10,510 --> 01:08:08,930

tried by other people we I mean we've

1623

01:08:12,520 --> 01:08:10,520

done it over and over and over again to

1624

01:08:14,680 --> 01:08:12,530

our you know best ability and that

1625

01:08:16,209 --> 01:08:14,690

summer that winter solstice sunset

1626
01:08:18,640 --> 01:08:16,219
actually goes through the moon pyramid

1627
01:08:20,769 --> 01:08:18,650
achieve achieve akan and I took the

1628
01:08:24,340 --> 01:08:20,779
equinox sunset and goes through Chaco

1629
01:08:27,280 --> 01:08:24,350
Canyon and then the equinox sunrise goes

1630
01:08:29,229 --> 01:08:27,290
rises over the Canary Island pyramids so

1631
01:08:31,269 --> 01:08:29,239
there's a lot of kind of neat things

1632
01:08:32,499 --> 01:08:31,279
that were like wow you know and we'll

1633
01:08:33,820 --> 01:08:32,509
out Google Earth I don't know if we

1634
01:08:37,510 --> 01:08:33,830
could have you know have the time to do

1635
01:08:41,170 --> 01:08:37,520
all of that so there are have you had

1636
01:08:42,519 --> 01:08:41,180
any any any dowsers out there to see if

1637
01:08:44,110 --> 01:08:42,529
there's any kind of energy associated

1638
01:08:47,019 --> 01:08:44,120

with these lines rather than just

1639

01:08:51,970 --> 01:08:47,029

geographical sure yeah we had a thousand

1640

01:08:54,160 --> 01:08:51,980

group I think it was 2017 is lady she's

1641

01:08:55,689 --> 01:08:54,170

out of a limb she's out of Westford mass

1642

01:08:57,370 --> 01:08:55,699

with a Westford Knight which is another

1643

01:08:59,019 --> 01:08:57,380

interesting thing Sir Henry Sinclair I

1644

01:09:01,570 --> 01:08:59,029

think you mentioned him Burleigh is that

1645

01:09:03,160 --> 01:09:01,580

with his latest card anyway she's from

1646

01:09:05,200 --> 01:09:03,170

that area and she's from limbs to mass

1647

01:09:07,329 --> 01:09:05,210

originally but she does she has a

1648

01:09:09,189 --> 01:09:07,339

thousand group but back in the 70s we

1649

01:09:13,680 --> 01:09:09,199

had sig longeron I'm not sure if you're

1650

01:09:15,910 --> 01:09:13,690

familiar with sig oh you are oh yeah

1651

01:09:17,979 --> 01:09:15,920

yeah and I think he's in it been in

1652

01:09:20,800 --> 01:09:17,989

England for gosh a couple decades now

1653

01:09:22,990 --> 01:09:20,810

but he came to our site many times in

1654

01:09:24,490 --> 01:09:23,000

the 70s and he brought anyway I guess he

1655

01:09:28,360 --> 01:09:24,500

was a president of the Americas serve

1656

01:09:30,160 --> 01:09:28,370

dowsing Association yes yeah yeah yeah

1657

01:09:33,130 --> 01:09:30,170

we have had these people and Francis

1658

01:09:35,410 --> 01:09:33,140

hitching John Mitchell and then 78 they

1659

01:09:38,439 --> 01:09:35,420

did a map and they show the water lines

1660

01:09:41,380 --> 01:09:38,449

were some of our stone walls overlay the

1661

01:09:43,209 --> 01:09:41,390

water lines that they doused and the

1662

01:09:44,890 --> 01:09:43,219

alignment one of the big alignments is

1663

01:09:47,349 --> 01:09:44,900

the one is a summer solstice that goes

1664

01:09:48,490 --> 01:09:47,359

right over to Stonehenge when we just

1665

01:09:50,530 --> 01:09:48,500

mentioned that's one of the ones that

1666

01:09:52,599 --> 01:09:50,540

they were looking at in 78 and he had it

1667

01:09:54,880 --> 01:09:52,609

highlighted on the map which I I only

1668

01:09:56,770 --> 01:09:54,890

found this hole up it's like a small

1669

01:09:58,060 --> 01:09:56,780

book they put together in 78 and I found

1670

01:09:59,770 --> 01:09:58,070

it like two years ago and my dad's

1671

01:10:01,930 --> 01:09:59,780

archives I'm like wow look at that

1672

01:10:04,959 --> 01:10:01,940

that's just what my son had found you

1673

01:10:06,880 --> 01:10:04,969

know in 2012 so yeah yeah we've had that

1674

01:10:09,760 --> 01:10:06,890

was there my dad found the first well

1675

01:10:10,569 --> 01:10:09,770

for our visitors center back in 1958 by

1676

01:10:13,479 --> 01:10:10,579

dowsing for

1677

01:10:15,010 --> 01:10:13,489

so yeah he didn't know it's dowsing

1678

01:10:17,919 --> 01:10:15,020

worked or not but he tried it and it

1679

01:10:19,510 --> 01:10:17,929

worked you know so it's kind of a couple

1680

01:10:24,700 --> 01:10:19,520

of years ago I was asked to go over to

1681

01:10:26,530 --> 01:10:24,710

the Cornwall and speak to the parallel

1682

01:10:28,689 --> 01:10:26,540

community have put together a group and

1683

01:10:31,330 --> 01:10:28,699

they wanted me to talk about the the

1684

01:10:32,709 --> 01:10:31,340

basis of a lot of world religions and of

1685

01:10:35,109 --> 01:10:32,719

course while I was there I had to go to

1686

01:10:37,030 --> 01:10:35,119

Stonehenge and it was right after I had

1687

01:10:39,100 --> 01:10:37,040

learned about that sight line that you

1688

01:10:40,750 --> 01:10:39,110

were just talking about and so I was

1689

01:10:42,609 --> 01:10:40,760

able to stand right there at stone

1690

01:10:44,830 --> 01:10:42,619

Stonehenge and look right down where

1691

01:10:47,500 --> 01:10:44,840

that sight line would go and realize I

1692

01:10:50,109 --> 01:10:47,510

was looking right at you at the time it

1693

01:10:53,410 --> 01:10:50,119

was quite it up quite an amazing quite

1694

01:10:54,669 --> 01:10:53,420

an amazing thing yeah haha that is

1695

01:10:56,530 --> 01:10:54,679

pretty cool Wow

1696

01:10:59,220 --> 01:10:56,540

I'm sure we're gonna discover more these

1697

01:11:01,120 --> 01:10:59,230

things but that is pretty amazing yeah

1698

01:11:03,399 --> 01:11:01,130

alright gentlemen I'm gonna have to

1699

01:11:06,490 --> 01:11:03,409

interrupt you here because we are coming

1700

01:11:09,129 --> 01:11:06,500

up to our bottom of the hour break and

1701

01:11:13,240 --> 01:11:09,139

when we come back we have a question

1702

01:11:16,240 --> 01:11:13,250

from one of our listeners for Dennis so

1703

01:11:19,689 --> 01:11:16,250

we'll make everybody wait til after our

1704

01:11:22,600 --> 01:11:19,699

breaks over with so I stay tuned tonight

1705

01:11:29,630 --> 01:11:22,610

we're talking with Dennis stone and Jim

1706

01:11:36,360 --> 01:11:33,810

now back to exploring the bazaars with

1707

01:11:39,360 --> 01:11:36,370

two of the most electrifying researchers

1708

01:11:45,900 --> 01:11:39,370

in the Paranoid your hosts Timothy

1709

01:11:48,360 --> 01:11:45,910

Rebecca Lee panting Swift's welcome back

1710

01:11:49,920 --> 01:11:48,370

to the final segment of exploring the

1711

01:11:53,640 --> 01:11:49,930

bazaar our guest tonight and Dennis

1712

01:11:57,000 --> 01:11:53,650

stone and Jim Lois gentlemen we have a

1713

01:11:59,490 --> 01:11:57,010

question from Brian and Brian wants to

1714

01:12:02,610 --> 01:11:59,500

know he says that Stonehenge in England

1715

01:12:04,590 --> 01:12:02,620

had stones that had been moved miles to

1716

01:12:08,760 --> 01:12:04,600

that site referring to the blue stones

1717

01:12:11,160 --> 01:12:08,770

now in America stone heads I said that

1718

01:12:13,680 --> 01:12:11,170

New England has a lot of granite says so

1719

01:12:16,380 --> 01:12:13,690

are the stones in America stone hands

1720

01:12:19,320 --> 01:12:16,390

carved locally or were they moved from

1721

01:12:20,760 --> 01:12:19,330

someplace else I think they are they

1722

01:12:22,590 --> 01:12:20,770

were lucky because they didn't have to

1723

01:12:24,510 --> 01:12:22,600

move them like miles like I think

1724

01:12:26,580 --> 01:12:24,520

assassins at Stonehenge came from about

1725

01:12:28,950 --> 01:12:26,590

20-something miles away at Marlborough

1726

01:12:30,930 --> 01:12:28,960

Downs and others came from Ireland I

1727

01:12:32,760 --> 01:12:30,940

think blue stones came from Ireland but

1728

01:12:34,260 --> 01:12:32,770

yeah they they quarried the top of the

1729

01:12:36,689 --> 01:12:34,270

hill and at the time the hilltop was

1730

01:12:38,550 --> 01:12:36,699

pretty bare mostly just bare bedrock so

1731

01:12:41,610 --> 01:12:38,560

they would send out crews looking for

1732

01:12:43,770 --> 01:12:41,620

ideal places to to actually lift up the

1733

01:12:45,689 --> 01:12:43,780

bedrock it is foliated this bedrock must

1734

01:12:47,370 --> 01:12:45,699

come up like an onion layer and it does

1735

01:12:48,840 --> 01:12:47,380

come up and they would raise a stone

1736

01:12:50,189 --> 01:12:48,850

they would prop it with another stone

1737

01:12:51,780 --> 01:12:50,199

and then they would start hammering it

1738

01:12:54,570 --> 01:12:51,790

to shape it and then they would drag it

1739

01:12:56,250 --> 01:12:54,580

the biggest stones probably one of the

1740

01:12:58,140 --> 01:12:56,260

biggest roof slabs that was never moved

1741

01:13:00,030 --> 01:12:58,150

it was just raised probably would weigh

1742

01:13:01,620 --> 01:13:00,040

something like about five tonnes and

1743

01:13:03,330 --> 01:13:01,630

it's still about a thousand feet from

1744

01:13:05,280 --> 01:13:03,340

the main site it's been raised up

1745

01:13:07,050 --> 01:13:05,290

dropped and you can see where it has a

1746

01:13:08,520 --> 01:13:07,060

serrated edge where they were striking

1747

01:13:10,590 --> 01:13:08,530

it with their percussion flaking and

1748

01:13:12,840 --> 01:13:10,600

they never moved it and we found about

1749

01:13:15,000 --> 01:13:12,850

33 of these stones all over the hilltop

1750

01:13:17,729 --> 01:13:15,010

most of them just in the last two years

1751

01:13:19,680 --> 01:13:17,739

the first one in 1982 but when I retired

1752

01:13:21,420 --> 01:13:19,690

we started finding more of them and I

1753

01:13:24,330 --> 01:13:21,430

think the site was gonna be a much

1754

01:13:25,050 --> 01:13:24,340

bigger construction and they were still

1755

01:13:26,490 --> 01:13:25,060

working on it

1756

01:13:27,930 --> 01:13:26,500

because all these stones were all over

1757

01:13:30,689 --> 01:13:27,940

the landscape and we keep discovering

1758

01:13:32,520 --> 01:13:30,699

more of these big prop stones and they

1759

01:13:34,110 --> 01:13:32,530

just abandon the project which it kind

1760

01:13:35,430 --> 01:13:34,120

of struck me and about two years ago I

1761

01:13:37,320 --> 01:13:35,440

said I think they had a much grander

1762

01:13:38,850 --> 01:13:37,330

plan and they walked away for this and

1763

01:13:39,520 --> 01:13:38,860

then it raised a question why would they

1764

01:13:43,060 --> 01:13:39,530

why would they

1765

01:13:45,190 --> 01:13:43,070

stones are pretty local yeah they didn't

1766

01:13:50,050 --> 01:13:45,200

have to go 20 or 200 miles away to get

1767

01:13:52,990 --> 01:13:50,060

them can you imagine how much more we

1768

01:13:56,230 --> 01:13:53,000

would know if America stonehenge hadn't

1769

01:13:58,480 --> 01:13:56,240

been plundered so much for the last 200

1770

01:14:00,310 --> 01:13:58,490

years by people who were taking out

1771

01:14:03,100 --> 01:14:00,320

stones to build buildings and stones to

1772

01:14:05,530 --> 01:14:03,110

build roads and just kind of raping of

1773

01:14:07,300 --> 01:14:05,540

the place so to speak can you imagine

1774

01:14:11,440 --> 01:14:07,310

how much we would learn if that site was

1775

01:14:15,340 --> 01:14:11,450

pristine Wow well Dennis you make an

1776

01:14:18,940 --> 01:14:15,350

interesting point though that something

1777

01:14:21,580 --> 01:14:18,950

happened that they abandoned the the

1778

01:14:24,790 --> 01:14:21,590

building and you know a group like that

1779

01:14:26,320 --> 01:14:24,800

usually doesn't you know walk just put

1780

01:14:29,350 --> 01:14:26,330

their tools down and walk away for no

1781

01:14:32,980 --> 01:14:29,360

reason so something probably bad had to

1782

01:14:35,140 --> 01:14:32,990

have happened it seems like it came to

1783

01:14:37,750 --> 01:14:35,150

an end yeah cuz originally thought maybe

1784

01:14:40,180 --> 01:14:37,760

the site was completed perhaps and then

1785

01:14:41,470 --> 01:14:40,190

eventually abandoned after like so many

1786

01:14:43,000 --> 01:14:41,480

sites around the world there eventually

1787

01:14:45,340 --> 01:14:43,010

you abandoned you know for whatever

1788

01:14:46,930 --> 01:14:45,350

reason but it looks like they had a like

1789

01:14:49,660 --> 01:14:46,940

I say they were still in the middle of a

1790

01:14:51,340 --> 01:14:49,670

building project and then it it came to

1791

01:14:53,230 --> 01:14:51,350

a stop so that's kind of a kind of

1792

01:14:55,390 --> 01:14:53,240

interesting question you know what

1793

01:14:58,870 --> 01:14:55,400

happened to these people I suppose we

1794

01:15:01,990 --> 01:14:58,880

could we could probably you know

1795

01:15:03,340 --> 01:15:02,000

postulate that the site was a long time

1796

01:15:06,250 --> 01:15:03,350

in the making there wasn't just one

1797

01:15:07,960 --> 01:15:06,260

generation but perhaps many generations

1798

01:15:10,870 --> 01:15:07,970

of people were building and adding on

1799

01:15:13,330 --> 01:15:10,880

and then we just can't discount that

1800

01:15:15,370 --> 01:15:13,340

whole idea of the European diseases

1801

01:15:17,680 --> 01:15:15,380

the Norse would have been coming by all

1802

01:15:20,410 --> 01:15:17,690

it would take me somebody to pick up a

1803

01:15:22,560 --> 01:15:20,420

bug and in in Iceland to travel to

1804

01:15:25,060 --> 01:15:22,570

Greenland and come down to Maine and

1805

01:15:28,000 --> 01:15:25,070

into New Hampshire and spread it around

1806

01:15:32,440 --> 01:15:28,010

and smallpox measles who knows what and

1807

01:15:35,500 --> 01:15:32,450

would know with no natural immunities I

1808

01:15:37,030 --> 01:15:35,510

mean that could really do a number on

1809

01:15:38,980 --> 01:15:37,040

your population and then without the

1810

01:15:41,350 --> 01:15:38,990

population needed to rebuild the stone I

1811

01:15:44,380 --> 01:15:41,360

imagine it could come to an end pretty

1812

01:15:46,930 --> 01:15:44,390

quick it would be terribly demoralizing

1813

01:15:48,189 --> 01:15:46,940

spiritually to it this was a ceremonial

1814

01:15:50,259 --> 01:15:48,199

Center

1815

01:15:52,839 --> 01:15:50,269

and all of a sudden you already have

1816

01:15:54,339 --> 01:15:52,849

some kind of a an outbreak of some kind

1817

01:15:56,290 --> 01:15:54,349

of disease that people must have said

1818

01:15:59,770 --> 01:15:56,300

what you know why are the gods doing

1819

01:16:02,350 --> 01:15:59,780

this to us of course it's all just

1820

01:16:05,529 --> 01:16:02,360

speculation but it certainly raises some

1821

01:16:08,979 --> 01:16:05,539

possibilities well with that yeah

1822

01:16:11,890 --> 01:16:08,989

definitely I mean a disease can decimate

1823

01:16:14,319 --> 01:16:11,900

a population yeah well I mean look at

1824

01:16:18,310 --> 01:16:14,329

the a what was at the the Spanish flu

1825

01:16:22,180 --> 01:16:18,320

you know look how the whole communities

1826

01:16:25,359 --> 01:16:22,190

you know we're just taken out yeah in in

1827

01:16:28,959 --> 01:16:25,369

in in Florida within one generation 10

1828

01:16:31,779 --> 01:16:28,969

20 30 years losing 90% of the population

1829

01:16:34,060 --> 01:16:31,789

can you imagine standing there with 10

1830

01:16:36,910 --> 01:16:34,070

of your friends and 9 of them are gone

1831

01:16:38,979 --> 01:16:36,920

just like that and the terrible thing is

1832

01:16:40,419 --> 01:16:38,989

saying that you know in a situation like

1833

01:16:42,729 --> 01:16:40,429

that it's the young people and the old

1834

01:16:44,199 --> 01:16:42,739

people who die first and it's the young

1835

01:16:45,930 --> 01:16:44,209

people who have the energy but it's the

1836

01:16:49,299 --> 01:16:45,940

old people who have the wisdom and the

1837

01:16:50,949 --> 01:16:49,309

wisdom the knowledge would be gone and

1838

01:16:54,129 --> 01:16:50,959

it wouldn't take long for people to

1839

01:16:56,199 --> 01:16:54,139

forget how to do this it must have been

1840

01:16:57,669 --> 01:16:56,209

just devastating to see that we know

1841

01:17:00,819 --> 01:16:57,679

what happened in Florida we know what

1842

01:17:03,160 --> 01:17:00,829

happened in Massachusetts and in in New

1843

01:17:05,709 --> 01:17:03,170

Hampshire when the the Pilgrims and the

1844

01:17:08,199 --> 01:17:05,719

Puritans came we know that by then the

1845

01:17:11,439 --> 01:17:08,209

devastations that already wreaked havoc

1846

01:17:13,319 --> 01:17:11,449

on the the people there in the alcohol

1847

01:17:15,790 --> 01:17:13,329

came people it must have been just a

1848

01:17:17,589 --> 01:17:15,800

terrible thing now we don't know for

1849

01:17:19,089 --> 01:17:17,599

sure that that was the reason that they

1850

01:17:20,919 --> 01:17:19,099

stopped building it might have been

1851

01:17:24,339 --> 01:17:20,929

warfare it might have been invasion by

1852

01:17:26,589 --> 01:17:24,349

another people who knows might have been

1853

01:17:27,969 --> 01:17:26,599

the weather mmm it's hard to tell you

1854

01:17:31,120 --> 01:17:27,979

might have been a change and changing

1855

01:17:33,459 --> 01:17:31,130

the religion people know me people don't

1856

01:17:35,560 --> 01:17:33,469

take projects like this without having a

1857

01:17:38,319 --> 01:17:35,570

very important reason and usually that

1858

01:17:40,540 --> 01:17:38,329

reason that will motivate people and

1859

01:17:42,459 --> 01:17:40,550

dedicate man cause people to dedicate

1860

01:17:44,049 --> 01:17:42,469

their lives to this kind of building

1861

01:17:45,489 --> 01:17:44,059

project is usually some kind of

1862

01:17:49,000 --> 01:17:45,499

religious reason they believe they're

1863

01:17:51,699 --> 01:17:49,010

doing it for a spiritual purpose and if

1864

01:17:56,679 --> 01:17:51,709

that's if that spiritual purpose is gone

1865

01:17:58,899 --> 01:17:56,689

then that's the project is over Julius

1866

01:18:02,080 --> 01:17:58,909

Caesar used this on purpose against the

1867

01:18:04,990 --> 01:18:02,090

Druids for instance when he when he

1868

01:18:06,430 --> 01:18:05,000

and taking on the conquest of Gaul he

1869

01:18:08,080 --> 01:18:06,440

knew he had to just rip the heart out of

1870

01:18:10,600 --> 01:18:08,090

the people and so when he would do it go

1871

01:18:12,100 --> 01:18:10,610

into the sacred groves they oak Grove's

1872

01:18:15,250 --> 01:18:12,110

where the Druids gathered and he would

1873

01:18:17,080 --> 01:18:15,260

just burn them and cut them down and the

1874

01:18:19,810 --> 01:18:17,090

people just saw their their very

1875

01:18:21,640 --> 01:18:19,820

religion their very the they found

1876

01:18:23,979 --> 01:18:21,650

spiritual foundation upon which they

1877

01:18:25,830 --> 01:18:23,989

stand when it was gone they just melted

1878

01:18:28,870 --> 01:18:25,840

back into the hills they said we can't

1879

01:18:32,200 --> 01:18:28,880

we can't fight people like in like this

1880

01:18:34,300 --> 01:18:32,210

who's who take over and their gods must

1881

01:18:36,520 --> 01:18:34,310

be stronger than our gods and as a

1882

01:18:40,890 --> 01:18:36,530

result that was the end of the Druids

1883

01:18:44,050 --> 01:18:40,900

well Julius Caesar and his ilk are

1884

01:18:47,860 --> 01:18:44,060

demoralizing yeah okay well okay Dennis

1885

01:18:50,410 --> 01:18:47,870

I mean keeping along those lines has

1886

01:18:51,240 --> 01:18:50,420

anybody ever discovered any kind of

1887

01:18:56,080 --> 01:18:51,250

burials

1888

01:18:57,729 --> 01:18:56,090

there and there's your location well we

1889

01:18:59,439 --> 01:18:57,739

do know the soil in the New England area

1890

01:19:01,720 --> 01:18:59,449

is quite acidic it doesn't really

1891

01:19:03,400 --> 01:19:01,730

preserve bones too well and I talked to

1892

01:19:05,380 --> 01:19:03,410

our archaeologist you know the lady I

1893

01:19:07,030 --> 01:19:05,390

mentioned and she said you see a couple

1894

01:19:08,590 --> 01:19:07,040

hundred years you can found some bones

1895

01:19:10,540 --> 01:19:08,600

up to a couple thousand years but

1896

01:19:13,000 --> 01:19:10,550

generally most can be dissolved back

1897

01:19:14,110 --> 01:19:13,010

into the ground because of the acidity

1898

01:19:15,820 --> 01:19:14,120

of the soil and the weathering

1899

01:19:17,709 --> 01:19:15,830

conditions but the chamber is like the

1900

01:19:19,150 --> 01:19:17,719

one chambers called the east-west

1901

01:19:22,030 --> 01:19:19,160

chamber looks like some of the galley or

1902

01:19:24,490 --> 01:19:22,040

Gallery graves the bone and pollen they

1903

01:19:26,140 --> 01:19:24,500

call the Giant's bed there in northwest

1904

01:19:27,370 --> 01:19:26,150

Ireland and I've been Ireland but I

1905

01:19:28,420 --> 01:19:27,380

didn't have a chance to see those but

1906

01:19:30,100 --> 01:19:28,430

they're in France and when I was in

1907

01:19:31,930 --> 01:19:30,110

France I saw a few of them they always

1908

01:19:33,880 --> 01:19:31,940

face true east and west just like our

1909

01:19:36,040 --> 01:19:33,890

chamber they run 20 to 60 feet in length

1910

01:19:37,689 --> 01:19:36,050

just like ours and some of them had

1911

01:19:39,430 --> 01:19:37,699

these orthostats which are the stones

1912

01:19:41,229 --> 01:19:39,440

stood on their end with the stone roofs

1913

01:19:44,229 --> 01:19:41,239

of course and they were used as burial

1914

01:19:46,750 --> 01:19:44,239

chambers the V Hut we have it's looks

1915

01:19:48,430 --> 01:19:46,760

like the letter V looks like a couple of

1916

01:19:50,950 --> 01:19:48,440

the wedge tombs I saw in Ireland they

1917

01:19:52,990 --> 01:19:50,960

also exist in Spain the ones in Ireland

1918

01:19:54,700 --> 01:19:53,000

always face southwest woman I've told

1919

01:19:57,130 --> 01:19:54,710

and the ones I did visit there may be

1920

01:19:58,630 --> 01:19:57,140

some exceptions to that but the size the

1921

01:20:00,580 --> 01:19:58,640

shape and the orientation of evita

1922

01:20:03,310 --> 01:20:00,590

looked like the wedge tombs my dad and I

1923

01:20:05,170 --> 01:20:03,320

had visited back in 1983 oh my god it

1924

01:20:06,580 --> 01:20:05,180

looks just like our chamber and they

1925

01:20:08,620 --> 01:20:06,590

were used as tombs and they're kind of

1926

01:20:10,510 --> 01:20:08,630

empty the ones in Ireland some of them

1927

01:20:13,000 --> 01:20:10,520

being used by farmers to put hay in or

1928

01:20:14,560 --> 01:20:13,010

they were being used for storage and

1929

01:20:15,939 --> 01:20:14,570

stuff like that somewhere just with the

1930

01:20:17,740 --> 01:20:15,949

roofs missing

1931

01:20:19,240 --> 01:20:17,750

we saw a several of them and I said gosh

1932

01:20:22,900 --> 01:20:19,250

but it looks just like our chamber the

1933

01:20:24,370 --> 01:20:22,910

same shape size and orientation and so I

1934

01:20:25,990 --> 01:20:24,380

change some of these chambers could have

1935

01:20:28,000 --> 01:20:26,000

been burial but when mr. Goodwin got

1936

01:20:30,280 --> 01:20:28,010

there 80 years ago they dubbed they

1937

01:20:32,169 --> 01:20:30,290

clean they sifted but they didn't use

1938

01:20:33,729 --> 01:20:32,179

Kemp they didn't send Soylent to have it

1939

01:20:35,890 --> 01:20:33,739

chemically analyzed to see if there are

1940

01:20:37,150 --> 01:20:35,900

some trace elements that might indicate

1941

01:20:39,310 --> 01:20:37,160

it was a burial they just didn't have

1942

01:20:40,840 --> 01:20:39,320

that technology you know it wasn't

1943

01:20:42,669 --> 01:20:40,850

really his fault that he was working

1944

01:20:44,860 --> 01:20:42,679

with the tools he had at the time 80

1945

01:20:46,450 --> 01:20:44,870

years ago but today it would be much

1946

01:20:49,090 --> 01:20:46,460

more carefully of course and we could

1947

01:20:50,830 --> 01:20:49,100

get so much more information from just

1948

01:20:52,510 --> 01:20:50,840

the soil itself you know and that might

1949

01:20:54,520 --> 01:20:52,520

have revealed that in fact it was a

1950

01:20:57,040 --> 01:20:54,530

burial chamber both of those structures

1951

01:20:58,720 --> 01:20:57,050

you know so no we haven't found we have

1952

01:21:00,850 --> 01:20:58,730

found some bones in the site we have

1953

01:21:03,640 --> 01:21:00,860

found human with it was looked at in

1954

01:21:04,930 --> 01:21:03,650

1970 as being a human bone I don't know

1955

01:21:06,939 --> 01:21:04,940

what became of that if we went to a

1956

01:21:08,890 --> 01:21:06,949

museum to have further work on us before

1957

01:21:10,150 --> 01:21:08,900

DNA and everything they said it was

1958

01:21:11,709 --> 01:21:10,160

human so it could have been something

1959

01:21:13,900 --> 01:21:11,719

recent it could have been something old

1960

01:21:15,520 --> 01:21:13,910

and then we found some bones including

1961

01:21:18,340 --> 01:21:15,530

what looked like a bison bone found in

1962

01:21:20,080 --> 01:21:18,350

the what we call the watch house it was

1963

01:21:22,959 --> 01:21:20,090

but they didn't carbon date it was found

1964

01:21:24,820 --> 01:21:22,969

in 1958 it could have been carbon dated

1965

01:21:27,580 --> 01:21:24,830

because that came out in 1950 but we

1966

01:21:29,880 --> 01:21:27,590

didn't do that so a couple of chambers

1967

01:21:34,150 --> 01:21:29,890

could have been burial tombs possibly

1968

01:21:36,430 --> 01:21:34,160

dennis is has there been any evidence of

1969

01:21:37,930 --> 01:21:36,440

the red paint people I guess now that's

1970

01:21:40,930 --> 01:21:37,940

called another they're called the

1971

01:21:42,720 --> 01:21:40,940

maritime RTR k-x civilization coming

1972

01:21:46,209 --> 01:21:42,730

down inland that far into New Hampshire

1973

01:21:47,740 --> 01:21:46,219

well in Massachusetts James Woodall one

1974

01:21:51,160 --> 01:21:47,750

of the researchers that work in our site

1975

01:21:53,650 --> 01:21:51,170

in the 60s he died 1998 and he was

1976

01:21:57,010 --> 01:21:53,660

working on a site I believe it was in

1977

01:21:59,169 --> 01:21:57,020

Massachusetts I try to think what town

1978

01:22:02,470 --> 01:21:59,179

it was one then and they did find red

1979

01:22:05,080 --> 01:22:02,480

ochre mm-hmm and not at our site that I

1980

01:22:07,120 --> 01:22:05,090

recall but it has been found in New

1981

01:22:08,530 --> 01:22:07,130

England yes so that's why it's awfully

1982

01:22:11,229 --> 01:22:08,540

close I know there's a there's a red

1983

01:22:14,110 --> 01:22:11,239

paint people or a maritime archaic

1984

01:22:16,540 --> 01:22:14,120

civilization say on North Haven Island

1985

01:22:19,270 --> 01:22:16,550

up in Penobscot Bay which is not that

1986

01:22:21,280 --> 01:22:19,280

far away from where you are right yeah

1987

01:22:23,530 --> 01:22:21,290

and there's one in Massachusetts may

1988

01:22:25,479 --> 01:22:23,540

have been Amesbury mass I it's in one of

1989

01:22:27,640 --> 01:22:25,489

the books by David Brody he mentioned

1990

01:22:29,260 --> 01:22:27,650

the whole thing it's one of his more

1991

01:22:31,120 --> 01:22:29,270

recent but he actually identifies

1992

01:22:33,040 --> 01:22:31,130

I believe was in Massachusetts and he

1993

01:22:35,530 --> 01:22:33,050

gives the town but James Woodall worked

1994

01:22:38,470 --> 01:22:35,540

on that and he I think in the early 70s

1995

01:22:40,390 --> 01:22:38,480

or perhaps the late sixties yes so that

1996

01:22:43,120 --> 01:22:40,400

has been even close to us the red paint

1997

01:22:45,550 --> 01:22:43,130

that's and now that that culture would

1998

01:22:46,960 --> 01:22:45,560

have gone back would have started 5000

1999

01:22:49,140 --> 01:22:46,970

years ago but it was still flourishing

2000

01:22:52,030 --> 01:22:49,150

4000 years ago when your site was built

2001

01:22:55,330 --> 01:22:52,040

across the mountain lanta yeah yeah now

2002

01:22:58,960 --> 01:22:55,340

I understand that not only the

2003

01:23:02,650 --> 01:22:58,970

carbon-dating but also when you compute

2004

01:23:06,070 --> 01:23:02,660

the site lines that the site lines were

2005

01:23:08,260 --> 01:23:06,080

in line about what three thousand eight

2006

01:23:13,170 --> 01:23:08,270

hundred years ago about the same time as

2007

01:23:18,370 --> 01:23:13,180

the carbon thing so if it is a Astro you

2008

01:23:22,510 --> 01:23:18,380

know archaea archaea RTO astronomy if

2009

01:23:24,160 --> 01:23:22,520

those are figured in then that's another

2010

01:23:25,390 --> 01:23:24,170

another dating that brings you right

2011

01:23:28,180 --> 01:23:25,400

back to that four thousand year period

2012

01:23:29,530 --> 01:23:28,190

right that's a great point yeah and 71

2013

01:23:31,060 --> 01:23:29,540

we get the four thousand you were and

2014

01:23:33,550 --> 01:23:31,070

that's the oldest one in the main site

2015

01:23:35,950 --> 01:23:33,560

we do have one other date out near the

2016

01:23:37,660 --> 01:23:35,960

North Stone alignment and that was about

2017

01:23:39,820 --> 01:23:37,670

seven thousand four hundred years old it

2018

01:23:41,230 --> 01:23:39,830

appears to be a fire pit it didn't date

2019

01:23:43,030 --> 01:23:41,240

the site but it looks like somebody was

2020

01:23:44,830 --> 01:23:43,040

there middle Archaic time period

2021

01:23:46,960 --> 01:23:44,840

building a fire I'll throw that in there

2022

01:23:50,220 --> 01:23:46,970

but back to the main site the 4000 year

2023

01:23:52,450 --> 01:23:50,230

old date in 1977 we had already done

2024

01:23:54,820 --> 01:23:52,460

four years of survey work on the

2025

01:23:56,200 --> 01:23:54,830

astronomical alignments that data was

2026
01:23:58,570 --> 01:23:56,210
sent to the Hobbit Smithsonian Center

2027
01:24:00,640 --> 01:23:58,580
for Astrophysics in Cambridge Mass in

2028
01:24:02,800 --> 01:24:00,650
1978 we get the results back and they

2029
01:24:04,900 --> 01:24:02,810
said if these stones monoliths were used

2030
01:24:06,760 --> 01:24:04,910
for astronomical purposes it would work

2031
01:24:08,890 --> 01:24:06,770
about 1800 BC as you mentioned about

2032
01:24:10,840 --> 01:24:08,900
3,800 years ago plus or minus a couple

2033
01:24:13,450 --> 01:24:10,850
hundred years due to the earth's tilt

2034
01:24:15,460 --> 01:24:13,460
the obligatory that 41,000 years cycle

2035
01:24:17,500 --> 01:24:15,470
and it's interesting that Sir Norman

2036
01:24:19,390 --> 01:24:17,510
Lockyer 100 years ago who worked on

2037
01:24:21,100 --> 01:24:19,400
Stonehenge and other sites said these

2038
01:24:23,320 --> 01:24:21,110

sites seem to be off a little there's an

2039

01:24:24,910 --> 01:24:23,330

error in the solstices the equinoxes do

2040

01:24:27,130 --> 01:24:24,920

works but the lunar alignments and the

2041

01:24:29,590 --> 01:24:27,140

cross-quarter days seem to be off if we

2042

01:24:31,390 --> 01:24:29,600

can identify the time that they work we

2043

01:24:33,100 --> 01:24:31,400

can tell you how old the site is and he

2044

01:24:35,170 --> 01:24:33,110

was already onto that 100 years ago so

2045

01:24:37,120 --> 01:24:35,180

that's the data we use you know so we

2046

01:24:38,830 --> 01:24:37,130

used astronomical and radiocarbon dating

2047

01:24:40,390 --> 01:24:38,840

and then the way the stones are shaped

2048

01:24:42,820 --> 01:24:40,400

using stone tools that percussion

2049

01:24:43,120 --> 01:24:42,830

flaking would put it back into the Stone

2050

01:24:44,620 --> 01:24:43,130

Age

2051

01:24:46,149 --> 01:24:44,630

period - it doesn't really date it

2052

01:24:47,919 --> 01:24:46,159

specifically but it shows you it's

2053

01:24:50,709 --> 01:24:47,929

probably not a colonial a post-colonial

2054

01:24:53,290 --> 01:24:50,719

you know construction you know so you

2055

01:24:56,080 --> 01:24:53,300

have you have different fields of

2056

01:24:59,080 --> 01:24:56,090

evidence all all merging at that 4,000

2057

01:25:01,330 --> 01:24:59,090

year old date that no it does need to be

2058

01:25:04,360 --> 01:25:01,340

that yes absolutely and one of the stars

2059

01:25:07,360 --> 01:25:04,370

eyes are there's a 14-foot monolith that

2060

01:25:09,010 --> 01:25:07,370

was found 20 years ago and dr. Winkler

2061

01:25:11,020 --> 01:25:09,020

from Penn State when he was an IQ

2062

01:25:13,120 --> 01:25:11,030

astronomer for 30 years began working

2063

01:25:15,070 --> 01:25:13,130

towards the end of his career at Penn

2064

01:25:16,629 --> 01:25:15,080

State and he worked on our site for

2065

01:25:17,830 --> 01:25:16,639

about three or four years and even

2066

01:25:20,560 --> 01:25:17,840

published a little bit and then he

2067

01:25:22,660 --> 01:25:20,570

suddenly died unfortunately in 2001 he

2068

01:25:25,540 --> 01:25:22,670

said Isaiah would have lined with his 14

2069

01:25:27,580 --> 01:25:25,550

foot men here or it's a long stone if

2070

01:25:29,080 --> 01:25:27,590

you were like a tall monolith and that

2071

01:25:31,479 --> 01:25:29,090

would be about 100

2072

01:25:33,459 --> 01:25:31,489

about 4,000 years ago it would have been

2073

01:25:37,180 --> 01:25:33,469

about one century that would work there

2074

01:25:39,550 --> 01:25:37,190

was a polar crazing polar what did it

2075

01:25:44,470 --> 01:25:39,560

call a polar circumpolar grazing star

2076

01:25:46,419 --> 01:25:44,480

alignment and yeah and in that data was

2077

01:25:48,820 --> 01:25:46,429

sent over to England about just about

2078

01:25:50,890 --> 01:25:48,830

three years ago a gentleman named Alan

2079

01:25:52,990 --> 01:25:50,900

Butler he's been on a number of TV shows

2080

01:25:54,850 --> 01:25:53,000

he does a lot of research he sent to his

2081

01:25:56,620 --> 01:25:54,860

friend who's an astronomer and he gave

2082

01:25:59,050 --> 01:25:56,630

him the information he goes yeah that's

2083

01:26:00,399 --> 01:25:59,060

right about 100 years period because of

2084

01:26:02,530 --> 01:26:00,409

the precession that you know precession

2085

01:26:03,939 --> 01:26:02,540

of the earth the yellow's the precession

2086

01:26:06,070 --> 01:26:03,949

of the equinoxes zeroes you know how at

2087

01:26:07,660 --> 01:26:06,080

the 26,000 years cycle it would

2088

01:26:09,370 --> 01:26:07,670

eventually throw it out but for about a

2089

01:26:10,750 --> 01:26:09,380

hundred year period about four thousand

2090

01:26:12,399 --> 01:26:10,760

years ago it would work it would

2091

01:26:14,320 --> 01:26:12,409

actually line with that

2092

01:26:16,570 --> 01:26:14,330

so maybe the third way you know that oh

2093

01:26:19,990 --> 01:26:16,580

but it's astronomical so here we have

2094

01:26:22,720 --> 01:26:20,000

these sophisticated people who had a

2095

01:26:27,310 --> 01:26:22,730

knowledge of the night skies far

2096

01:26:29,500 --> 01:26:27,320

superior to anybody that I know or

2097

01:26:33,490 --> 01:26:29,510

probably anybody that any of us know and

2098

01:26:36,850 --> 01:26:33,500

they did it simply with their eye they

2099

01:26:38,860 --> 01:26:36,860

had even modern astronomers would have

2100

01:26:41,110 --> 01:26:38,870

to be using computers they'd have to be

2101
01:26:43,000 --> 01:26:41,120
using telescopes and these people did it

2102
01:26:44,890 --> 01:26:43,010
just by observing the night sky I think

2103
01:26:46,390 --> 01:26:44,900
that's absolutely unbelievable

2104
01:26:50,560 --> 01:26:46,400
these were these were intelligent

2105
01:26:52,300 --> 01:26:50,570
intelligent people Absalom

2106
01:26:53,740 --> 01:26:52,310
yeah well and that that was one of the

2107
01:26:56,260 --> 01:26:53,750
questions that I was going to ask you

2108
01:26:56,770 --> 01:26:56,270
you're talking about the the alignments

2109
01:26:58,720 --> 01:26:56,780
with

2110
01:27:02,560 --> 01:26:58,730
Amerika stone hands and you know in

2111
01:27:04,569 --> 01:27:02,570
places like England stone hands and and

2112
01:27:07,870 --> 01:27:04,579
beyond that you know how could these

2113
01:27:10,629 --> 01:27:07,880

people do that without the knowledge of

2114

01:27:12,729 --> 01:27:10,639

you know like longitude latitude you

2115

01:27:21,430 --> 01:27:12,739

know things or things like that

2116

01:27:24,580 --> 01:27:21,440

yeah yeah that's that's the mystery we

2117

01:27:27,399 --> 01:27:24,590

have other things too like the serpent

2118

01:27:30,040 --> 01:27:27,409

walsim might be as above so below

2119

01:27:33,310 --> 01:27:30,050

you know Draco the constellation of

2120

01:27:38,080 --> 01:27:33,320

Draco you know the dragon in 4000 years

2121

01:27:41,169 --> 01:27:38,090

or one of its stars alpha alpha Draconis

2122

01:27:43,959 --> 01:27:41,179

Subban was the pole star you know so

2123

01:27:45,520 --> 01:27:43,969

yeah the time of 4000 years ago at the

2124

01:27:47,109 --> 01:27:45,530

course of the night Subban would have

2125

01:27:49,000 --> 01:27:47,119

been spinning around that this dragon

2126
01:27:50,500 --> 01:27:49,010
around one of its stars and that would

2127
01:27:51,700 --> 01:27:50,510
have been true north you know and some

2128
01:27:53,439 --> 01:27:51,710
people felt that was the gateway to

2129
01:27:55,180 --> 01:27:53,449
heaven and they may have brought that

2130
01:27:57,069 --> 01:27:55,190
down and built stone walls and maybe the

2131
01:27:59,890 --> 01:27:57,079
Great Serpent Mound in Ohio and others

2132
01:28:02,140 --> 01:27:59,900
you know built maybe you know maybe we

2133
01:28:05,649 --> 01:28:02,150
went when we moved here to uh South

2134
01:28:08,890 --> 01:28:05,659
Carolina we found a number of stone

2135
01:28:10,870 --> 01:28:08,900
piles around in the woods what we kind

2136
01:28:12,669 --> 01:28:10,880
of absolutely stumbled over this idea

2137
01:28:15,430 --> 01:28:12,679
that some archeologists are now calling

2138
01:28:17,049 --> 01:28:15,440

the problem of stone piles they were

2139

01:28:20,290 --> 01:28:17,059

built for many different reasons some of

2140

01:28:23,740 --> 01:28:20,300

them some of them were built to clear

2141

01:28:25,240 --> 01:28:23,750

fields but a lot of them some of them

2142

01:28:27,189 --> 01:28:25,250

right here on our property for instance

2143

01:28:29,410 --> 01:28:27,199

where we live were not that way at all

2144

01:28:32,140 --> 01:28:29,420

and so I got a surveyor friend of mine

2145

01:28:35,919 --> 01:28:32,150

and I spent a day going around and

2146

01:28:38,740 --> 01:28:35,929

looking and marking where all these

2147

01:28:40,180 --> 01:28:38,750

stone piles were and we came back and

2148

01:28:44,350 --> 01:28:40,190

put it on a chart and they looked

2149

01:28:47,529 --> 01:28:44,360

awfully familiar so when I brought up a

2150

01:28:51,549 --> 01:28:47,539

star chart on the ground we had a

2151
01:28:53,439 --> 01:28:51,559
perfect overlay of the stars from the

2152
01:28:56,649 --> 01:28:53,449
northern cross from the constellation of

2153
01:28:59,379 --> 01:28:56,659
Cygnus and when when I discovered this

2154
01:29:00,459 --> 01:28:59,389
as above so below so to speak I realized

2155
01:29:02,620 --> 01:29:00,469
that there's a place right up there

2156
01:29:04,930 --> 01:29:02,630
where I call it my shaman circle now I

2157
01:29:06,350 --> 01:29:04,940
go up there a lot and you can actually

2158
01:29:08,209 --> 01:29:06,360
stand there and look

2159
01:29:10,459 --> 01:29:08,219
the hilltops and on the night of the

2160
01:29:12,530 --> 01:29:10,469
winter solstice if they had fires each

2161
01:29:14,810 --> 01:29:12,540
of these places the fires would be

2162
01:29:18,050 --> 01:29:14,820
burning and you would see on the ground

2163
01:29:19,490 --> 01:29:18,060

an exact representation of what was

2164

01:29:21,800 --> 01:29:19,500

taking place in the heavens at the

2165

01:29:23,479 --> 01:29:21,810

northern cross the Christmas cross as

2166

01:29:25,129 --> 01:29:23,489

soon as as soon as I discovered this and

2167

01:29:28,010 --> 01:29:25,139

then tied it in with Cygnus I got in

2168

01:29:30,379 --> 01:29:28,020

touch with Andrew Collins right away who

2169

01:29:32,419 --> 01:29:30,389

is probably the biggest Cygnus Authority

2170

01:29:35,419 --> 01:29:32,429

and he wrote back with him within an

2171

01:29:36,979 --> 01:29:35,429

hour and he said are there any bird

2172

01:29:38,780 --> 01:29:36,989

cults in your area

2173

01:29:41,270 --> 01:29:38,790

well of course right over the river we

2174

01:29:44,090 --> 01:29:41,280

have the hawk effigy and the eagle

2175

01:29:46,430 --> 01:29:44,100

effigy so obviously this was going on so

2176

01:29:48,229 --> 01:29:46,440

this whole idea of the ancients bringing

2177

01:29:49,209 --> 01:29:48,239

the heavens down to earth as above so

2178

01:29:52,520 --> 01:29:49,219

below

2179

01:29:55,220 --> 01:29:52,530

it's there's an awful lot to that I'm

2180

01:29:58,100 --> 01:29:55,230

just I'm just fascinated by the by the

2181

01:29:59,450 --> 01:29:58,110

whole science of it okay it's not some

2182

01:30:01,520 --> 01:29:59,460

cruciform shapes and some of the

2183

01:30:04,609 --> 01:30:01,530

chambers over in Europe with my dad in

2184

01:30:06,470 --> 01:30:04,619

Ireland also in Mexico and I'm thinking

2185

01:30:07,820 --> 01:30:06,480

you know maybe it's Cygnus because it is

2186

01:30:09,470 --> 01:30:07,830

shaped like a cross that could have

2187

01:30:11,419 --> 01:30:09,480

inspired some of those possibly you know

2188

01:30:13,430 --> 01:30:11,429

again you know yeah I don't think the

2189

01:30:16,189 --> 01:30:13,440

cross when we just associate the cross

2190

01:30:18,439 --> 01:30:16,199

with Christianity but I think the the

2191

01:30:21,020 --> 01:30:18,449

cross is a much more ancient symbol than

2192

01:30:22,520 --> 01:30:21,030

that and of course we see it in the sky

2193

01:30:24,370 --> 01:30:22,530

right up here the Great Northern cross

2194

01:30:27,620 --> 01:30:24,380

which comes out at Christmas time and

2195

01:30:29,720 --> 01:30:27,630

when you when you look at it and you see

2196

01:30:34,070 --> 01:30:29,730

it there you realize it's it's a perfect

2197

01:30:36,800 --> 01:30:34,080

image of above and below and and side to

2198

01:30:39,620 --> 01:30:36,810

side and these lines meet right at the

2199

01:30:40,520 --> 01:30:39,630

heart chakra so to speak the center of

2200

01:30:43,640 --> 01:30:40,530

it all

2201
01:30:45,430 --> 01:30:43,650
and of course Cygnus is you know the the

2202
01:30:47,899 --> 01:30:45,440
Swan although some people call them a--

2203
01:30:50,180 --> 01:30:47,909
some people call it a you know different

2204
01:30:54,919 --> 01:30:50,190
kind of birds from eagles and and hawks

2205
01:30:58,399 --> 01:30:54,929
even to storks but Cygnus bisects the

2206
01:31:00,229 --> 01:30:58,409
Milky Way and it is the place where the

2207
01:31:02,570 --> 01:31:00,239
ancients especially a gobekli tepe

2208
01:31:04,729 --> 01:31:02,580
who know this so much better than we do

2209
01:31:07,010 --> 01:31:04,739
they believed that it was in this

2210
01:31:09,890 --> 01:31:07,020
location that the souls would depart and

2211
01:31:12,080 --> 01:31:09,900
make their journey to the skies it's a

2212
01:31:13,399 --> 01:31:12,090
fascinating thing I really recommend

2213
01:31:16,280 --> 01:31:13,409

anybody sent arrested is I really

2214

01:31:19,700 --> 01:31:16,290

recommend Andrew Collins book the Cygnus

2215

01:31:20,540 --> 01:31:19,710

mystery and it's fascinating it's

2216

01:31:22,820 --> 01:31:20,550

fascinating

2217

01:31:26,050 --> 01:31:22,830

gentlemen were we're unfortunately

2218

01:31:29,270 --> 01:31:26,060

rapidly running out of time and Troy

2219

01:31:31,540 --> 01:31:29,280

wanted to know have there been any a UFO

2220

01:31:35,390 --> 01:31:31,550

or Bigfoot sightings in the area of

2221

01:31:37,250 --> 01:31:35,400

America's a stone hedge I think in

2222

01:31:39,169 --> 01:31:37,260

theory there was a report of a very very

2223

01:31:41,359 --> 01:31:39,179

tall hairy kind of thing it's in one of

2224

01:31:42,709 --> 01:31:41,369

the one of the local books on folklore I

2225

01:31:45,709 --> 01:31:42,719

think it happened quite a few years ago

2226

01:31:48,169 --> 01:31:45,719

and then we had the incident Exeter all

2227

01:31:49,879 --> 01:31:48,179

right 65 and we also had the bonny and

2228

01:31:51,379 --> 01:31:49,889

Betty hill but that was further north

2229

01:31:53,990 --> 01:31:51,389

and actually Betty became a friend of my

2230

01:31:56,180 --> 01:31:54,000

mom's you know and last year we had 7up

2231

01:31:58,580 --> 01:31:56,190

so what kind of into the joy whole thing

2232

01:32:00,740 --> 01:31:58,590

- I find it a fascinating subject but

2233

01:32:03,260 --> 01:32:00,750

not nothing none of the landed on our

2234

01:32:05,089 --> 01:32:03,270

property that I'm aware of but down an

2235

01:32:07,160 --> 01:32:05,099

incident Exeter was a big one and there

2236

01:32:09,109 --> 01:32:07,170

was one the next town over where it was

2237

01:32:11,720 --> 01:32:09,119

reported it's one of those case studies

2238

01:32:13,729 --> 01:32:11,730

- but a Tower Hill not yet that I'm

2239

01:32:16,910 --> 01:32:13,739

aware of you know and you're done you're

2240

01:32:19,339 --> 01:32:16,920

not that far north of the Binga the the

2241

01:32:21,709 --> 01:32:19,349

triangle down in Massachusetts and Rhode

2242

01:32:23,359 --> 01:32:21,719

Island what they call the devil's

2243

01:32:26,109 --> 01:32:23,369

triangle down here and the inside you

2244

01:32:26,119 --> 01:32:31,870

southeast of yeah yes the Boston

2245

01:32:35,810 --> 01:32:33,950

Bridgewater right the Bridgewater did

2246

01:32:38,209 --> 01:32:35,820

that yeah yeah what pretty close to that

2247

01:32:39,859 --> 01:32:38,219

yeah yeah that's that's so that's a

2248

01:32:42,140 --> 01:32:39,869

fascinating thing I've spent some time

2249

01:32:45,169 --> 01:32:42,150

down there really interesting energies

2250

01:32:47,359 --> 01:32:45,179

down there okay guys before we have to

2251

01:32:50,000 --> 01:32:47,369

wrap up here I want to let our audience

2252

01:32:52,729 --> 01:32:50,010

know a little bit more about where they

2253

01:32:54,310 --> 01:32:52,739

can find out more about you so Dennis

2254

01:32:57,350 --> 01:32:54,320

you have a website or anything like that

2255

01:33:00,470 --> 01:32:57,360

yeah we have Instagram Facebook and then

2256

01:33:02,330 --> 01:33:00,480

we have Stonehenge usa.com and it has an

2257

01:33:03,290 --> 01:33:02,340

email address and a phone number so they

2258

01:33:06,320 --> 01:33:03,300

can reach us that way

2259

01:33:08,810 --> 01:33:06,330

mm-hmm and so okay if somebody's in the

2260

01:33:11,479 --> 01:33:08,820

area where can they find you yeah we're

2261

01:33:13,189 --> 01:33:11,489

we're you mean the location is for

2262

01:33:15,530 --> 01:33:13,199

instance a look yeah North Salem New

2263

01:33:17,060 --> 01:33:15,540

Hampshire and under America Stonehenge

2264

01:33:18,290 --> 01:33:17,070

if you go to your google play store they

2265

01:33:19,970 --> 01:33:18,300

have an app and you can actually do a

2266

01:33:21,320 --> 01:33:19,980

virtual tour on us or something new we

2267

01:33:23,390 --> 01:33:21,330

started last summer so they can actually

2268

01:33:23,839 --> 01:33:23,400

do it from their home if they like all

2269

01:33:28,459 --> 01:33:23,849

right cool

2270

01:33:29,970 --> 01:33:28,469

and Jim what about you ww Jim Willis net

2271

01:33:32,010 --> 01:33:29,980

is the web site

2272

01:33:33,510 --> 01:33:32,020

that has all kinds of things that lists

2273

01:33:37,439 --> 01:33:33,520

all the books I've written any articles

2274

01:33:39,300 --> 01:33:37,449

have written and some dowsing videos and

2275

01:33:43,919 --> 01:33:39,310

things like that and on Facebook it's

2276

01:33:46,439 --> 01:33:43,929

Jim Willis dot author all right yeah go

2277

01:33:48,300 --> 01:33:46,449

ahead and and the two new books coming

2278

01:33:51,510 --> 01:33:48,310

out this fall the quantum Akashic field

2279

01:33:54,990 --> 01:33:51,520

and lost civilizations coming out this

2280

01:33:59,370 --> 01:33:55,000

fall all right fantastic and just real

2281

01:34:02,520 --> 01:33:59,380

quick the supernatural gods and what was

2282

01:34:03,870 --> 01:34:02,530

what was the ancient gods lost histories

2283

01:34:07,169 --> 01:34:03,880

hidden truths and the conspiracy of

2284

01:34:09,530 --> 01:34:07,179

silence and supernatural God's spiritual

2285

01:34:13,110 --> 01:34:09,540

mystery psychic experiences and

2286

01:34:15,330 --> 01:34:13,120

scientific truths Wow well and I have to

2287

01:34:17,550 --> 01:34:15,340

tell everyone that both of those books

2288

01:34:19,919 --> 01:34:17,560

are just absolutely fantastic and I

2289

01:34:22,890 --> 01:34:19,929

highly recommend them and I can't wait

2290

01:34:24,689 --> 01:34:22,900

to read your new the ones when they come

2291

01:34:27,090 --> 01:34:24,699

out and we'll have to have you back on I

2292

01:34:29,010 --> 01:34:27,100

love to come love to catch ya battalion

2293

01:34:30,959 --> 01:34:29,020

and and Dennis I hope I can get up to

2294

01:34:32,970 --> 01:34:30,969

American Stonehenge soon I'd love to

2295

01:34:35,580 --> 01:34:32,980

meet you and bring my dowsing rods and

2296

01:34:37,080 --> 01:34:35,590

oh well I hope you both come up they

2297

01:34:42,479 --> 01:34:37,090

would love to meet both you so anytime

2298

01:34:44,610 --> 01:34:42,489

come on up I'll give you a tour oh all

2299

01:34:47,610 --> 01:34:44,620

right well gentlemen thank you very much

2300

01:34:49,620 --> 01:34:47,620

this has been a fantastic show I've

2301
01:34:53,700 --> 01:34:49,630
learned a lot and I think our audience

2302
01:34:55,380 --> 01:34:53,710
has learned a lot of as well and so

2303
01:34:57,510 --> 01:34:55,390
unfortunately we're going to have to

2304
01:35:00,300 --> 01:34:57,520
wrap it up so I want to thank everyone

2305
01:35:02,520 --> 01:35:00,310
for listening thanks to Tim Buckley and

2306
01:35:05,280 --> 01:35:02,530
all of our friends and be sure to go out

2307
01:35:07,740 --> 01:35:05,290
and buy my newest book Jeff the talking

2308
01:35:10,229 --> 01:35:07,750
Mongoose the eighth wonder of the world

2309
01:35:12,380 --> 01:35:10,239
so thanks everyone and we'll see you

2310
01:35:19,129 --> 01:35:12,390
again next week tonight

2311
01:35:25,950 --> 01:35:21,959
