

# EXPLORING THE BIZARRE

BRETT STUART  
REMOTE

LANCE MUNGIA  
VIEWING

1  
00:00:37,580 --> 00:00:21,830

[Music]

2  
00:00:44,530 --> 00:00:42,050

explode the bazaars or e-ticket ride

3  
00:00:47,810 --> 00:00:44,540

into the world of the paranoid

4  
00:00:52,120 --> 00:00:47,820

strap yourself in as we traverse the

5  
00:00:55,240 --> 00:00:52,130

universe exploring the unexplained UFO s

6  
00:00:57,620 --> 00:00:55,250

ghosts Lost Worlds

7  
00:01:01,460 --> 00:00:57,630

cryptozoology waters as well as other

8  
00:01:05,870 --> 00:01:01,470

dimensions it's time to take back the

9  
00:01:09,110 --> 00:01:05,880

night last night now your electrifying

10  
00:01:15,859 --> 00:01:09,120

hosts of exploring the bizarre Timothy

11  
00:01:20,020 --> 00:01:15,869

Begley and team sports let's go let's go

12  
00:01:23,060 --> 00:01:20,030

let's go before they get it slowed down

13  
00:01:26,359 --> 00:01:23,070

where wherever we go Aidan who's trying

14

00:01:29,120 --> 00:01:26,369

to get us wait come in come on come on

15

00:01:31,670 --> 00:01:29,130

jump to the scar gate just ahead so we

16

00:01:34,430 --> 00:01:31,680

can get out of here before the KGB grabs

17

00:01:38,900 --> 00:01:34,440

our asses and ships us off to Siberia Oh

18

00:01:41,690 --> 00:01:38,910

welcome to North Korea huh

19

00:01:44,120 --> 00:01:41,700

you're crazy the KGB there hasn't been a

20

00:01:46,400 --> 00:01:44,130

KGB since the collapse of the Soviet

21

00:01:50,270 --> 00:01:46,410

Union well there is this parallel

22

00:01:51,980 --> 00:01:50,280

universe that's what we get for reveled

23

00:01:54,950 --> 00:01:51,990

viewing so let's jump through the

24

00:01:57,380 --> 00:01:54,960

Stargate now before it's too late all

25

00:02:02,990 --> 00:01:57,390

right Casey our video here we come

26

00:02:05,630 --> 00:02:03,000

look out data oh boy oh boy I guess

27

00:02:06,249 --> 00:02:05,640

we're back on is this solid ground or am

28

00:02:09,290 --> 00:02:06,259

I just

29

00:02:11,930 --> 00:02:09,300

rocking back and forth there sorry Tina

30

00:02:15,260 --> 00:02:11,940

I didn't mean to step on your dog's tail

31

00:02:17,930 --> 00:02:15,270

yeah well I think that was that was a

32

00:02:20,540 --> 00:02:17,940

close that was a close call these the

33

00:02:24,260 --> 00:02:20,550

the the stargates and the Russians and

34

00:02:26,540 --> 00:02:24,270

and all this stuff that's going on you

35

00:02:28,850 --> 00:02:26,550

know we're no viewing I I don't know do

36

00:02:33,949 --> 00:02:28,860

you think it could be a kind of a

37

00:02:39,800 --> 00:02:33,959

dangerous thing to get involved in could

38

00:02:42,740 --> 00:02:39,810

be yeah it all depends on the amount you

39

00:02:45,050 --> 00:02:42,750

know if you believe in the espionage and

40

00:02:47,420 --> 00:02:45,060

and things like that you know a lot of

41

00:02:49,460 --> 00:02:47,430

people if you bring up the subject of

42

00:02:50,660 --> 00:02:49,470

remote viewing you know they'll say oh

43

00:02:53,690 --> 00:02:50,670

well the you know

44

00:02:55,970 --> 00:02:53,700

CIA claimed that it was all fake and

45

00:02:57,970 --> 00:02:55,980

that you know they tried it and it

46

00:03:02,150 --> 00:02:57,980

didn't work so they just gave it up but

47

00:03:05,030 --> 00:03:02,160

you know I mean we've been in this for a

48

00:03:08,059 --> 00:03:05,040

long time and you know if somebody like

49

00:03:09,650 --> 00:03:08,069

CIA claims that they tried something and

50

00:03:12,010 --> 00:03:09,660

didn't work and they gave it up that

51  
00:03:15,920 --> 00:03:12,020  
probably means that it's still active

52  
00:03:19,059 --> 00:03:15,930  
well I I remember my my old friend there

53  
00:03:22,040 --> 00:03:19,069  
uri geller was doing there some remote

54  
00:03:23,990 --> 00:03:22,050  
viewing and maybe even a little spying

55  
00:03:26,840 --> 00:03:24,000  
or or something who knows what was going

56  
00:03:28,940 --> 00:03:26,850  
on there but enough for this here

57  
00:03:31,190 --> 00:03:28,950  
because we have two guests tonight who

58  
00:03:34,509 --> 00:03:31,200  
certainly are better informed than we

59  
00:03:37,759 --> 00:03:34,519  
are when it comes to remote viewing

60  
00:03:40,479 --> 00:03:37,769  
that's right well and I'm so happy that

61  
00:03:43,759 --> 00:03:40,489  
we were able to get these two gentlemen

62  
00:03:47,210 --> 00:03:43,769  
with us tonight we have with us Brett

63  
00:03:49,789 --> 00:03:47,220

Stewart and Lance munguia now Brett

64

00:03:52,190 --> 00:03:49,799

Brett Stewart is the founder of

65

00:03:55,009 --> 00:03:52,200

technical institution and online wrote

66

00:03:57,890 --> 00:03:55,019

viewing an institution video training

67

00:04:00,199 --> 00:03:57,900

platform and Brett's also the author of

68

00:04:02,180 --> 00:04:00,209

the book remote viewing the complete

69

00:04:04,190 --> 00:04:02,190

guide now brett has a background in

70

00:04:06,500 --> 00:04:04,200

digital art and political science and he

71

00:04:09,680 --> 00:04:06,510

began researching the field of remote

72

00:04:12,920 --> 00:04:09,690

viewing ten years ago after experiencing

73

00:04:15,680 --> 00:04:12,930

several as he called it reality breaking

74

00:04:17,920 --> 00:04:15,690

events in his life now this led him to

75

00:04:20,840 --> 00:04:17,930

investigate areas of meditation

76

00:04:24,740 --> 00:04:20,850

manifestation and non-local perception

77

00:04:26,719 --> 00:04:24,750

commonly called revealing and in 2012 he

78

00:04:29,659 --> 00:04:26,729

was invited to train with a renowned

79

00:04:33,110 --> 00:04:29,669

member of the now Declassified remote

80

00:04:36,590 --> 00:04:33,120

viewing military unit now Brett recently

81

00:04:39,260 --> 00:04:36,600

participated in the 2018 international

82

00:04:43,190 --> 00:04:39,270

remote viewing associations conference

83

00:04:45,590 --> 00:04:43,200

outbound err experiment coaches hundreds

84

00:04:48,680 --> 00:04:45,600

of students both in person and online

85

00:04:51,320 --> 00:04:48,690

and regularly UPS loads new videos to

86

00:04:53,450 --> 00:04:51,330

his technical institution YouTube

87

00:04:55,779 --> 00:04:53,460

channel now Brett's currently focused on

88

00:04:57,950 --> 00:04:55,789

sharing practical applications of

89

00:04:59,360 --> 00:04:57,960

institution and remote viewing in

90

00:05:03,399 --> 00:04:59,370

day-to-day life

91

00:05:05,709 --> 00:05:03,409

and let's see I guess in on marts

92

00:05:08,439 --> 00:05:05,719

second he's hosting a full-day online

93

00:05:11,790 --> 00:05:08,449

workshop on how to access deep

94

00:05:14,439 --> 00:05:11,800

institution to harness your intent and

95

00:05:16,779 --> 00:05:14,449

attract positive outcomes in your life

96

00:05:20,139 --> 00:05:16,789

which employs many of the practices used

97

00:05:23,409 --> 00:05:20,149

by successful remote viewers also with

98

00:05:25,839 --> 00:05:23,419

us tonight is Lance Roy yeah now Lance

99

00:05:27,790 --> 00:05:25,849

is an award-winning producer director

100

00:05:30,309 --> 00:05:27,800

feature films and television

101

00:05:33,399 --> 00:05:30,319

he's also the co-creator of waking

102

00:05:35,709 --> 00:05:33,409

universe a multimedia television film

103

00:05:38,619 --> 00:05:35,719

and merchandise company designed to

104

00:05:42,669 --> 00:05:38,629

foster a more conscious planet now his

105

00:05:44,889 --> 00:05:42,679

most recent project is third eye spies a

106

00:05:48,069 --> 00:05:44,899

feature documentary about the CIA funded

107

00:05:50,709 --> 00:05:48,079

psychic spy program spearheaded by

108

00:05:53,319 --> 00:05:50,719

Russell Targ at Stanford University

109

00:05:55,509 --> 00:05:53,329

Institute during the Cold War the

110

00:05:58,719 --> 00:05:55,519

documentary features CIA insider

111

00:06:01,179 --> 00:05:58,729

speaking for the first time since the

112

00:06:04,059 --> 00:06:01,189

program's declassification about how

113

00:06:06,489 --> 00:06:04,069

psychics reached into the one into one

114

00:06:08,980 --> 00:06:06,499

of the most secret facilities of the

115

00:06:11,409 --> 00:06:08,990

world as well Lance is the director of

116

00:06:14,290 --> 00:06:11,419

the film six string Samurai and

117

00:06:16,749 --> 00:06:14,300

co-writer director of the crow wicked

118

00:06:18,309 --> 00:06:16,759

prayer for dimension films so gentlemen

119

00:06:21,489 --> 00:06:18,319

thank you very much for being with us

120

00:06:23,350 --> 00:06:21,499

tonight on exploring the bizarre great

121

00:06:26,759 --> 00:06:23,360

to be here thanks for having us it's a

122

00:06:29,409 --> 00:06:26,769

pleasure to be here well we're we're all

123

00:06:32,939 --> 00:06:29,419

interested in the subject I know have

124

00:06:35,229 --> 00:06:32,949

been for a long time I've even had a few

125

00:06:38,790 --> 00:06:35,239

well I don't know whether you would call

126  
00:06:42,369 --> 00:06:38,800  
them remote viewing or out of the body

127  
00:06:44,799 --> 00:06:42,379  
experiences I I kind of tend to lump the

128  
00:06:47,919 --> 00:06:44,809  
two together but I know remote viewing

129  
00:06:51,159 --> 00:06:47,929  
is probably a lot more structured in

130  
00:06:53,529 --> 00:06:51,169  
other ways would you say a breath that

131  
00:06:59,469 --> 00:06:53,539  
when you use when you're doing remote

132  
00:07:02,219 --> 00:06:59,479  
viewing you you start out to to project

133  
00:07:05,199 --> 00:07:02,229  
and and to get into finding a particular

134  
00:07:07,719 --> 00:07:05,209  
subject yes

135  
00:07:10,359 --> 00:07:07,729  
remote viewing one of the kind of

136  
00:07:16,180 --> 00:07:10,369  
cornerstones for how it works is that

137  
00:07:21,190 --> 00:07:19,660  
exactly and so this is why typically you

138  
00:07:23,650 --> 00:07:21,200

work with a team there's a project

139

00:07:25,990 --> 00:07:23,660

manager who decides what they want to

140

00:07:28,750 --> 00:07:26,000

have the team work with take a look at

141

00:07:30,580 --> 00:07:28,760

and then all the viewers have no idea

142

00:07:33,400 --> 00:07:30,590

what the remote viewing they're totally

143

00:07:36,100 --> 00:07:33,410

blind and they just get into their

144

00:07:37,620 --> 00:07:36,110

session work and it's ultimately really

145

00:07:40,000 --> 00:07:37,630

what it is it's a step-by-step

146

00:07:43,960 --> 00:07:40,010

structured attention management skill

147

00:07:46,180 --> 00:07:43,970

and what it is when you adjust your

148

00:07:46,960 --> 00:07:46,190

perception your attention in a specific

149

00:07:49,960 --> 00:07:46,970

way

150

00:07:52,840 --> 00:07:49,970

through a series of steps there seems to

151  
00:07:54,940 --> 00:07:52,850  
be this uncanny human ability to be able

152  
00:07:58,510 --> 00:07:54,950  
to access information about remote

153  
00:08:00,460 --> 00:07:58,520  
places people events anywhere in time

154  
00:08:03,280 --> 00:08:00,470  
whether that's in the future or in the

155  
00:08:05,560 --> 00:08:03,290  
past so it's this is why it became and

156  
00:08:07,330 --> 00:08:05,570  
this is something that Lance's films

157  
00:08:08,440 --> 00:08:07,340  
it's so great and I love it well you

158  
00:08:10,480 --> 00:08:08,450  
know I watched it just couple days ago

159  
00:08:14,380 --> 00:08:10,490  
it's fantastic it really makes you how

160  
00:08:17,650 --> 00:08:14,390  
it was used I saw the trailer and I must

161  
00:08:20,230 --> 00:08:17,660  
say that I was wasn't impressed by it

162  
00:08:23,650 --> 00:08:20,240  
and I looked forward to to watching the

163  
00:08:25,210 --> 00:08:23,660

entire film is it not being released and

164

00:08:27,580 --> 00:08:25,220

just the day or two

165

00:08:29,230 --> 00:08:27,590

no actually and thank you thank you

166

00:08:31,500 --> 00:08:29,240

Brett for the for the kind words man I

167

00:08:34,659 --> 00:08:31,510

mean that means a lot you know seriously

168

00:08:37,180 --> 00:08:34,669

and both of you actually Tim as well but

169

00:08:39,550 --> 00:08:37,190

but the the the film actually came out a

170

00:08:40,959 --> 00:08:39,560

couple of days ago you know I originally

171

00:08:43,360 --> 00:08:40,969

thought I was coming out March 1st and

172

00:08:46,000 --> 00:08:43,370

the distributor actually released I

173

00:08:48,310 --> 00:08:46,010

guess that's what I saw was March 1st

174

00:08:50,050 --> 00:08:48,320

right yeah yeah it said March 1st on the

175

00:08:51,580 --> 00:08:50,060

website but they decided to move it up a

176  
00:08:53,890 --> 00:08:51,590  
couple of days you know the distributor

177  
00:08:58,390 --> 00:08:53,900  
is the orchard which is a division name

178  
00:09:00,910 --> 00:08:58,400  
and and they it actually on the day that

179  
00:09:03,040 --> 00:09:00,920  
it debuted it debuted at number six on

180  
00:09:05,200 --> 00:09:03,050  
on the top documentary charts on iTunes

181  
00:09:07,780 --> 00:09:05,210  
so I was like blown away by the that's

182  
00:09:09,430 --> 00:09:07,790  
great yeah yeah to me it's like I was

183  
00:09:11,170 --> 00:09:09,440  
stunned that cuz the distributors had

184  
00:09:12,670 --> 00:09:11,180  
told me the week before the film came

185  
00:09:15,160 --> 00:09:12,680  
out you know don't expect it to break

186  
00:09:16,660 --> 00:09:15,170  
the top ten right away because you know

187  
00:09:19,330 --> 00:09:16,670  
there's all these Oscar films on there

188  
00:09:22,420 --> 00:09:19,340

and there's a lot of scream about that

189

00:09:24,160 --> 00:09:22,430

yeah and and you know there was a real

190

00:09:25,600 --> 00:09:24,170

you know a lot of interest in the

191

00:09:27,640 --> 00:09:25,610

subject matter I guess I mean we've

192

00:09:29,140 --> 00:09:27,650

climbed to number four yesterday and

193

00:09:30,010 --> 00:09:29,150

we're kind of vacillating back and forth

194

00:09:32,440 --> 00:09:30,020

between four and five

195

00:09:34,120 --> 00:09:32,450

right now so you know I'm always

196

00:09:36,639 --> 00:09:34,130

checking my phone to see you know where

197

00:09:39,550 --> 00:09:36,649

we're at it's a lot of fun well you know

198

00:09:42,550 --> 00:09:39,560

I I think now I I'm not sure whether

199

00:09:46,540 --> 00:09:42,560

this is a remote viewing or not it's

200

00:09:49,269 --> 00:09:46,550

kind of in that gray basket area but I

201  
00:09:51,639 --> 00:09:49,279  
knew a Stanley a Crippler of course I'm

202  
00:09:56,100 --> 00:09:51,649  
sure you know who he is and he what he

203  
00:09:58,900 --> 00:09:56,110  
was at the Maimonides a dream lab and

204  
00:10:04,110 --> 00:09:58,910  
Jerry Garcia of course of the Grateful

205  
00:10:08,350 --> 00:10:04,120  
Dead they were they were trying to I

206  
00:10:11,620 --> 00:10:08,360  
guess see what was written down or

207  
00:10:14,050 --> 00:10:11,630  
illustrations in the in the next room at

208  
00:10:15,910 --> 00:10:14,060  
night now I don't know whether this was

209  
00:10:17,530 --> 00:10:15,920  
doing the dream a period or remote

210  
00:10:20,910 --> 00:10:17,540  
viewing or how you would classify it but

211  
00:10:24,579 --> 00:10:20,920  
that was kind of my first inkling of of

212  
00:10:27,610 --> 00:10:24,589  
anything along the line of I guess

213  
00:10:30,850 --> 00:10:27,620

remote viewing or add a body

214

00:10:33,010 --> 00:10:30,860

and and then I didn't know I'm kind of

215

00:10:36,310 --> 00:10:33,020

embarrassed to say this I did know Ingo

216

00:10:38,920 --> 00:10:36,320

Swann to the extent that often he said

217

00:10:44,800 --> 00:10:38,930

at the table with me in the little deli

218

00:10:47,170 --> 00:10:44,810

down the down the street you know you

219

00:10:50,170 --> 00:10:47,180

know I never asked any questions I feel

220

00:10:53,310 --> 00:10:50,180

terrible I feel terribly embarrassed

221

00:10:55,949 --> 00:10:53,320

about that he was kind of a quiet

222

00:10:58,900 --> 00:10:55,959

individual and and I guess maybe I was

223

00:11:01,960 --> 00:10:58,910

pretty quiet too but he would come to

224

00:11:05,350 --> 00:11:01,970

our meetings I was on the board of

225

00:11:10,120 --> 00:11:05,360

directors of the New York 14 Society

226

00:11:12,940 --> 00:11:10,130

which John keel was the director of and

227

00:11:14,980 --> 00:11:12,950

we had quite you know quite a few of the

228

00:11:20,069 --> 00:11:14,990

people would show up on a regular basis

229

00:11:24,870 --> 00:11:20,079

I guess maybe 60 70 hardcore members and

230

00:11:27,250 --> 00:11:24,880

Ingo came down pretty pretty often and

231

00:11:29,889 --> 00:11:27,260

maybe I didn't maybe I didn't really

232

00:11:33,490 --> 00:11:29,899

realize who he was at that you know

233

00:11:35,350 --> 00:11:33,500

point I mean I knew he was into remote

234

00:11:39,030 --> 00:11:35,360

viewing and all that but I guess I

235

00:11:43,390 --> 00:11:39,040

wasn't really that familiar with his

236

00:11:50,740 --> 00:11:47,170

abilities yeah tell people who in go was

237

00:11:52,540 --> 00:11:50,750

I mean Ingo Swan it was fun first of all

238

00:11:53,890 --> 00:11:52,550

was a renowned artist you know a lot of

239

00:11:56,410 --> 00:11:53,900

people don't know that Ingo Swan has a

240

00:11:59,380 --> 00:11:56,420

painting at the smithsonian's you know

241

00:12:01,180 --> 00:11:59,390

he you know a ships off Sagittarius is

242

00:12:03,070 --> 00:12:01,190

you know I was actually you know was

243

00:12:06,070 --> 00:12:03,080

displayed at the Smithsonian Institute

244

00:12:08,020 --> 00:12:06,080

but then he also was considered one of

245

00:12:10,920 --> 00:12:08,030

the world's greatest psychics you know

246

00:12:13,150 --> 00:12:10,930

and and the reason for that was because

247

00:12:15,310 --> 00:12:13,160

you know he's often called the father of

248

00:12:17,590 --> 00:12:15,320

remote viewing you know which of course

249

00:12:20,230 --> 00:12:17,600

is as Brett so you know well-well said

250

00:12:22,330 --> 00:12:20,240

is a skill that you can basically use

251  
00:12:24,010 --> 00:12:22,340  
your mind and and only your mind to see

252  
00:12:27,850 --> 00:12:24,020  
things that are hidden outside of space

253  
00:12:30,040 --> 00:12:27,860  
and time you know and and originally he

254  
00:12:32,530 --> 00:12:30,050  
was being tested at Stanford Research

255  
00:12:34,600 --> 00:12:32,540  
Institute by Russell Targ and in help

256  
00:12:37,930 --> 00:12:34,610  
put off Russell being the producer of

257  
00:12:39,850 --> 00:12:37,940  
our film and they were doing the

258  
00:12:41,350 --> 00:12:39,860  
standard kind of card tricks like you

259  
00:12:42,520 --> 00:12:41,360  
would see in ghostbusters you know like

260  
00:12:45,540 --> 00:12:42,530  
guess what's on the back of the card

261  
00:12:48,430 --> 00:12:45,550  
thing and an Ingo being a very sort of

262  
00:12:51,340 --> 00:12:48,440  
ambitious person and and and you know he

263  
00:12:53,110 --> 00:12:51,350

didn't really suffer you know things

264

00:12:55,030 --> 00:12:53,120

lightly he said why are you making me

265

00:12:56,740 --> 00:12:55,040

look at cards this is this is silly

266

00:12:59,080 --> 00:12:56,750

I can see anywhere on the planet give me

267

00:13:00,430 --> 00:12:59,090

something better look at and and you

268

00:13:02,890 --> 00:13:00,440

know Howlin Russell kind of smirked and

269

00:13:04,570 --> 00:13:02,900

went well you know okay well we'll send

270

00:13:07,870 --> 00:13:04,580

the you know the assistant out to go get

271

00:13:09,100 --> 00:13:07,880

coffee on on breaks and if on the break

272

00:13:11,080 --> 00:13:09,110

you want to tell us where he is that's

273

00:13:14,080 --> 00:13:11,090

that's great you know so so Ingo started

274

00:13:16,660 --> 00:13:14,090

basically describing the location where

275

00:13:18,340 --> 00:13:16,670

the assistant was out getting coffee and

276

00:13:20,950 --> 00:13:18,350

they both kind of like went whoa well

277

00:13:22,510 --> 00:13:20,960

how far does this go and and and they

278

00:13:25,530 --> 00:13:22,520

kind of took that thread and run with it

279

00:13:27,700 --> 00:13:25,540

and and at that time you know the the

280

00:13:28,180 --> 00:13:27,710

government and and even in in the public

281

00:13:30,010 --> 00:13:28,190

sphere

282

00:13:33,280 --> 00:13:30,020

you know people knew that the Soviets

283

00:13:35,950 --> 00:13:33,290

were really studying this phenomenon of

284

00:13:37,510 --> 00:13:35,960

psychic abilities and and not even not

285

00:13:38,620 --> 00:13:37,520

even studying it but but the reports

286

00:13:40,690 --> 00:13:38,630

coming back were that there were

287

00:13:43,810 --> 00:13:40,700

probably seventy different laboratories

288

00:13:46,080 --> 00:13:43,820

all over the Soviet Union using psychic

289

00:13:48,820 --> 00:13:46,090

ability psychic abilities and in pique

290

00:13:51,430 --> 00:13:48,830

actively you know as a tool of

291

00:13:55,870 --> 00:13:51,440

intelligence and and so that freaked

292

00:13:57,269 --> 00:13:55,880

them out and an Ingo basically started

293

00:14:00,090 --> 00:13:57,279

SSRI

294

00:14:02,340 --> 00:14:00,100

down this path of using remote viewing

295

00:14:04,800 --> 00:14:02,350

and and it turns out he was really

296

00:14:06,480 --> 00:14:04,810

really good at it you know in fact he

297

00:14:09,929 --> 00:14:06,490

could even see other places in the solar

298

00:14:12,059 --> 00:14:09,939

system he could he did he go to the moon

299

00:14:13,710 --> 00:14:12,069

or something one time I think well he

300

00:14:16,739 --> 00:14:13,720

wrote a book called penetration which

301  
00:14:20,129 --> 00:14:16,749  
which had him remote view stuff on the

302  
00:14:23,369 --> 00:14:20,139  
moon but in in a laboratory setting he

303  
00:14:27,150 --> 00:14:23,379  
actually they tasked him with seeing

304  
00:14:29,220 --> 00:14:27,160  
Jupiter about six months before pioneer

305  
00:14:31,829 --> 00:14:29,230  
got their pioneer being the first probe

306  
00:14:33,840 --> 00:14:31,839  
that ever actually you know went out

307  
00:14:35,639 --> 00:14:33,850  
into that area of space so so nobody on

308  
00:14:38,249 --> 00:14:35,649  
earth knew what they were gonna find on

309  
00:14:41,819 --> 00:14:38,259  
Jupiter and and and Ingo starts

310  
00:14:44,999 --> 00:14:41,829  
describing things like crystal ice rings

311  
00:14:47,460 --> 00:14:45,009  
around you know the planet and and right

312  
00:14:49,139 --> 00:14:47,470  
away Russell and Hal went well you know

313  
00:14:50,549 --> 00:14:49,149

this guy's got it wrong he's looking at

314

00:14:52,049 --> 00:14:50,559

Saturn he's not looking at Jupiter

315

00:14:54,989 --> 00:14:52,059

Saturn's the one with the the big rings

316

00:14:57,629 --> 00:14:54,999

you can see on a telescope and and you

317

00:14:59,340 --> 00:14:57,639

know lingo says no no this is really you

318

00:15:00,900 --> 00:14:59,350

know there's rings around it and he gave

319

00:15:04,230 --> 00:15:00,910

other kind of geographical features of

320

00:15:06,780 --> 00:15:04,240

the planet and about six months later

321

00:15:08,129 --> 00:15:06,790

pioneer got there and one of the first

322

00:15:11,189 --> 00:15:08,139

things they discovered was there were

323

00:15:14,850 --> 00:15:11,199

very faint ice rings around the planet

324

00:15:16,619 --> 00:15:14,860

and and Ingo Swann got that right before

325

00:15:19,980 --> 00:15:16,629

anyone on earth even knew that it was

326

00:15:23,280 --> 00:15:19,990

possible now what what year are we

327

00:15:25,980 --> 00:15:23,290

talking about when there was this kind

328

00:15:29,160 --> 00:15:25,990

of a war between the the Soviets and any

329

00:15:31,009 --> 00:15:29,170

the US as far as remote viewing goes are

330

00:15:33,869 --> 00:15:31,019

we talking about the late 60s early 70s

331

00:15:36,449 --> 00:15:33,879

you know the reports coming out of the

332

00:15:37,650 --> 00:15:36,459

Soviet Union in the 1960s and there was

333

00:15:39,869 --> 00:15:37,660

a really good book written around that

334

00:15:41,189 --> 00:15:39,879

time called psychic discoveries behind

335

00:15:43,980 --> 00:15:41,199

the Iron Curtain

336

00:15:45,780 --> 00:15:43,990

yeah oh yeah and and and that that

337

00:15:47,249 --> 00:15:45,790

actually really shook up the US

338

00:15:49,829 --> 00:15:47,259

intelligence committee I'm sorry

339

00:15:52,079 --> 00:15:49,839

community and and they thought that this

340

00:15:55,470 --> 00:15:52,089

was just sort of Russian propaganda they

341

00:15:57,210 --> 00:15:55,480

didn't believe it you know so so they

342

00:15:59,129 --> 00:15:57,220

basically said well you know we think

343

00:16:00,840 --> 00:15:59,139

this is a bunch of bunk but the reports

344

00:16:04,499 --> 00:16:00,850

coming back over that decade and into

345

00:16:05,939 --> 00:16:04,509

the 70s you know by the time 1974 came

346

00:16:08,069 --> 00:16:05,949

around they were very worried because

347

00:16:10,230 --> 00:16:08,079

there were many many serious people in

348

00:16:11,010 --> 00:16:10,240

the Soviet Union taking this seriously

349

00:16:14,430 --> 00:16:11,020

they were they were

350

00:16:17,280 --> 00:16:14,440

screening every draft age you know in

351

00:16:19,620 --> 00:16:17,290

the visual that came into the Soviet

352

00:16:21,420 --> 00:16:19,630

Army for certain traits to see if they

353

00:16:25,740 --> 00:16:21,430

might be good to use in their in their

354

00:16:28,770 --> 00:16:25,750

sy experiments at one point so so they

355

00:16:31,140 --> 00:16:28,780

trying to find the location of missile

356

00:16:34,250 --> 00:16:31,150

silos and things like that is that part

357

00:16:36,660 --> 00:16:34,260

of what the attempt on both sides were

358

00:16:38,010 --> 00:16:36,670

you know they used it for all kinds of

359

00:16:39,690 --> 00:16:38,020

things I'm sure that Bret could tell you

360

00:16:42,240 --> 00:16:39,700

I mean it you can use remote viewing for

361

00:16:45,570 --> 00:16:42,250

for just about anything you know and you

362

00:16:47,670 --> 00:16:45,580

know but the but immediately they didn't

363

00:16:49,770 --> 00:16:47,680

believe it was real so so the the US

364

00:16:51,390 --> 00:16:49,780

wasn't using it for anything the the the

365

00:16:54,050 --> 00:16:51,400

Soviets you know it's come out in in a

366

00:16:56,160 --> 00:16:54,060

book that Ed May wrote called ESP Wars

367

00:16:57,210 --> 00:16:56,170

that the Soviets were using it for all

368

00:17:00,750 --> 00:16:57,220

kinds of things for instance they would

369

00:17:03,480 --> 00:17:00,760

look at a u.s. satellite and and they

370

00:17:06,420 --> 00:17:03,490

would remotely like you know psychically

371

00:17:08,400 --> 00:17:06,430

have a person go in there and draw the

372

00:17:09,840 --> 00:17:08,410

schematic of what the entire interior of

373

00:17:11,930 --> 00:17:09,850

the satellite looked like so that they

374

00:17:14,820 --> 00:17:11,940

could copy the design things like that

375

00:17:15,840 --> 00:17:14,830

you know just never never a hundred

376

00:17:17,280 --> 00:17:15,850

percent I mean I think the audience

377

00:17:19,079 --> 00:17:17,290

needs to really be aware that remote

378

00:17:20,910 --> 00:17:19,089

viewing is not a sure bet I mean it's

379

00:17:22,980 --> 00:17:20,920

it's it's using your imagination it's

380

00:17:24,720 --> 00:17:22,990

using consciousness and consciousness is

381

00:17:27,390 --> 00:17:24,730

very fickle you know it's not it's not

382

00:17:31,080 --> 00:17:27,400

absolute but it but you know the CIA

383

00:17:33,180 --> 00:17:31,090

calls calls it human intelligence you

384

00:17:35,820 --> 00:17:33,190

know which which is you know full of

385

00:17:37,350 --> 00:17:35,830

errors it's it's a human ability but

386

00:17:39,870 --> 00:17:37,360

they understand that because you know

387

00:17:41,310 --> 00:17:39,880

they can at least glean things and then

388

00:17:42,660 --> 00:17:41,320

use what they glean from the remote

389

00:17:44,100 --> 00:17:42,670

viewers to compare to the rest of the

390

00:17:45,270 --> 00:17:44,110

intelligence that they have and then

391

00:17:48,510 --> 00:17:45,280

determine whether or not there's

392

00:17:49,350 --> 00:17:48,520

validity to it yeah I think one of the

393

00:17:52,200 --> 00:17:49,360

things also

394

00:17:54,540 --> 00:17:52,210

I mean Ingo Swann I mean he was an

395

00:17:57,210 --> 00:17:54,550

absolutely amazing naturally gifted

396

00:17:58,890 --> 00:17:57,220

psychic and you know as far as a little

397

00:18:01,020 --> 00:17:58,900

bit more even about his background I

398

00:18:03,660 --> 00:18:01,030

mean he's definitely every remote viewer

399

00:18:06,720 --> 00:18:03,670

that I don't know who he is considered

400

00:18:08,670 --> 00:18:06,730

the father of remote viewing and and I

401  
00:18:10,710 --> 00:18:08,680  
think it was even in your film lands

402  
00:18:12,450 --> 00:18:10,720  
where you had a little snippet or maybe

403  
00:18:14,490 --> 00:18:12,460  
isn't one of the the other the clips of

404  
00:18:16,650 --> 00:18:14,500  
it but one of the things that really got

405  
00:18:20,400 --> 00:18:16,660  
the intelligence community's attention

406  
00:18:21,420 --> 00:18:20,410  
with Ingo Swann was the Magno meter no

407  
00:18:23,250 --> 00:18:21,430  
no I think that's how you say it

408  
00:18:24,310 --> 00:18:23,260  
the Magno kilometer magnetometer

409  
00:18:28,110 --> 00:18:24,320  
experiment

410  
00:18:30,880 --> 00:18:28,120  
how put off Adam do which was as this

411  
00:18:34,300 --> 00:18:30,890  
magnetometer is this buried in steel and

412  
00:18:36,640 --> 00:18:34,310  
cement device that's not supposed to be

413  
00:18:38,470 --> 00:18:36,650

affected by anything I think except

414

00:18:40,630 --> 00:18:38,480

neutrinos I mean I could be wrong

415

00:18:43,330 --> 00:18:40,640

yeah it's it's measuring like very rare

416

00:18:46,150 --> 00:18:43,340

particles right you know and and it's

417

00:18:48,640 --> 00:18:46,160

it's it was buried you know hundreds of

418

00:18:51,550 --> 00:18:48,650

feet below Stanford University right and

419

00:18:53,050 --> 00:18:51,560

and Ingo claimed that he could move

420

00:18:54,790 --> 00:18:53,060

things with his mind and they you know

421

00:18:57,400 --> 00:18:54,800

this is not remote viewing it's more on

422

00:18:59,350 --> 00:18:57,410

the pique side but right but the you

423

00:19:01,150 --> 00:18:59,360

know he perturbed that magnetometer and

424

00:19:02,470 --> 00:19:01,160

basically broke the experiment and

425

00:19:05,170 --> 00:19:02,480

almost got help put off kicked out of

426

00:19:07,180 --> 00:19:05,180

Stanford right and but the thing that

427

00:19:08,710 --> 00:19:07,190

was interesting that he said when he was

428

00:19:10,330 --> 00:19:08,720

doing this is like you know they said

429

00:19:13,180 --> 00:19:10,340

well it's in the it's in the cement in

430

00:19:15,040 --> 00:19:13,190

Ingo told him he's like well how am I

431

00:19:17,080 --> 00:19:15,050

supposed to affect it if I can't see it

432

00:19:19,330 --> 00:19:17,090

and so they kind of were baffled by that

433

00:19:21,790 --> 00:19:19,340

statement and he's like okay well let me

434

00:19:24,130 --> 00:19:21,800

draw it so he gets a little piece of

435

00:19:26,590 --> 00:19:24,140

paper on the table and he draw as the

436

00:19:29,320 --> 00:19:26,600

schematic of this class highly highly

437

00:19:32,590 --> 00:19:29,330

classified device perfect schematic of

438

00:19:34,930 --> 00:19:32,600

what's in the cement and that I mean the

439

00:19:37,600 --> 00:19:34,940

I believe it was the CI Intelligence

440

00:19:38,770 --> 00:19:37,610

Agency that skill is what they were

441

00:19:40,570 --> 00:19:38,780

interested in they weren't so much

442

00:19:42,550 --> 00:19:40,580

interested as much as in like ooh you

443

00:19:45,280 --> 00:19:42,560

can move a needle through cement they

444

00:19:47,050 --> 00:19:45,290

were interested in information gathering

445

00:19:48,910 --> 00:19:47,060

and ultimately that's what the real

446

00:19:51,670 --> 00:19:48,920

power of remote viewing is that you can

447

00:19:54,640 --> 00:19:51,680

collect information about a distant

448

00:19:56,830 --> 00:19:54,650

target and a lot of that information is

449

00:19:58,960 --> 00:19:56,840

going to be correct mm-hmm

450

00:20:01,900 --> 00:19:58,970

yeah it's gonna it's going to be correct

451  
00:20:03,580 --> 00:20:01,910  
and and the thing too about the CIA was

452  
00:20:05,710 --> 00:20:03,590  
you know Brett you actually actually

453  
00:20:10,090 --> 00:20:05,720  
that's absolutely correct they were

454  
00:20:12,610 --> 00:20:10,100  
interested in the incoming inflow of

455  
00:20:14,410 --> 00:20:12,620  
information while the Soviet Union was

456  
00:20:17,410 --> 00:20:14,420  
far more interested in the sort of

457  
00:20:19,570 --> 00:20:17,420  
outbound use of psychic ability so right

458  
00:20:21,250 --> 00:20:19,580  
right they were much more interested in

459  
00:20:23,500 --> 00:20:21,260  
like sort of the whole sort of typical

460  
00:20:25,150 --> 00:20:23,510  
men who stare at goats type stuff where

461  
00:20:28,660 --> 00:20:25,160  
you know can I actually affect a

462  
00:20:30,610 --> 00:20:28,670  
person's heartbeat can I actually you

463  
00:20:32,560 --> 00:20:30,620

know um implant a thought in someone's

464

00:20:34,420 --> 00:20:32,570

head and make them do something maybe

465

00:20:36,430 --> 00:20:34,430

that they normally wouldn't do you know

466

00:20:37,930 --> 00:20:36,440

so that was there and according to US

467

00:20:39,730 --> 00:20:37,940

intelligence you know just from

468

00:20:41,350 --> 00:20:39,740

people that I spoke with they never

469

00:20:43,560 --> 00:20:41,360

really got very far with that you know

470

00:20:46,840 --> 00:20:43,570

it was much much harder to do something

471

00:20:49,210 --> 00:20:46,850

related to pique and actually affecting

472

00:20:51,369 --> 00:20:49,220

the outside reality than it is to simply

473

00:20:53,860 --> 00:20:51,379

just use your own consciousness to bring

474

00:20:56,169 --> 00:20:53,870

things in to you and sort of observe

475

00:20:58,230 --> 00:20:56,179

them and record them exactly they mean

476

00:21:00,879 --> 00:20:58,240

they were definitely afraid that the

477

00:21:03,490 --> 00:21:00,889

Russians would develop the ability to

478

00:21:05,529 --> 00:21:03,500

stop a heart or you know put a pinch on

479

00:21:07,509 --> 00:21:05,539

a blood vessel and if you do that to a

480

00:21:11,379 --> 00:21:07,519

president you have a big issue right and

481

00:21:13,869 --> 00:21:11,389

so it was like it was too significant

482

00:21:16,509 --> 00:21:13,879

for them to ignore and so as much as

483

00:21:19,269 --> 00:21:16,519

they wanted it to not be real

484

00:21:22,269 --> 00:21:19,279

every time that SR I came back to them

485

00:21:24,009 --> 00:21:22,279

with well it seems to work this next

486

00:21:26,259 --> 00:21:24,019

this next experiment seemed to produce

487

00:21:29,710 --> 00:21:26,269

positive results it's like the unhappier

488

00:21:31,570 --> 00:21:29,720

they got kind of yeah I mean in our in

489

00:21:34,749 --> 00:21:31,580

our film you know there's there's you

490

00:21:36,909 --> 00:21:34,759

know several bonus features and and and

491

00:21:40,720 --> 00:21:36,919

you know on on iTunes and one of them is

492

00:21:44,080 --> 00:21:40,730

about you know eerie Geller and and you

493

00:21:47,009 --> 00:21:44,090

know claimed that he could you know

494

00:21:49,570 --> 00:21:47,019

affect things at a distance and you know

495

00:21:51,820 --> 00:21:49,580

race hard drives you know things like

496

00:21:56,730 --> 00:21:51,830

that and and and but but that's a

497

00:21:59,049 --> 00:21:56,740

different skill than remote viewing yeah

498

00:22:01,779 --> 00:21:59,059

fairly well when he was living here in

499

00:22:05,310 --> 00:22:01,789

New York in fact we took him up one time

500

00:22:09,879 --> 00:22:05,320

to Muhammad Ali's a training camp and

501

00:22:12,279 --> 00:22:09,889

Ali was a very skeptical about any any

502

00:22:14,019 --> 00:22:12,289

of this he was friends with you know

503

00:22:15,399 --> 00:22:14,029

Johnny Carson he had been on the show

504

00:22:18,820 --> 00:22:15,409

and Johnny Carson of course is an

505

00:22:21,039 --> 00:22:18,830

amateur magician and and so forth but he

506

00:22:24,940 --> 00:22:21,049

did one or two things up there i l

507

00:22:27,009 --> 00:22:24,950

remember he was with the alleys of a

508

00:22:29,440 --> 00:22:27,019

sparring partner and it fella had on a

509

00:22:32,919 --> 00:22:29,450

heavy kind of like Christian metal and

510

00:22:36,279 --> 00:22:32,929

he made an imprint with his thumb in the

511

00:22:39,009 --> 00:22:36,289

in the in the metal and also to a ally

512

00:22:42,159 --> 00:22:39,019

was married at the time to a Belinda and

513

00:22:45,430 --> 00:22:42,169

he made the the stone in the setting of

514

00:22:47,740 --> 00:22:45,440

her ring disappear yeah just by home

515

00:22:49,990 --> 00:22:47,750

just by holding his hand over and I was

516

00:22:52,480 --> 00:22:50,000

you know like a two feet away now I

517

00:22:55,779 --> 00:22:52,490

can't say that he wasn't

518

00:22:58,600 --> 00:22:55,789

incapable of trickery and I think he's

519

00:23:01,389 --> 00:22:58,610

even kind of admitted that in recent

520

00:23:05,169 --> 00:23:01,399

years you kind of do the you know the

521

00:23:06,759 --> 00:23:05,179

Hokey Pokey and you turn around and you

522

00:23:10,060 --> 00:23:06,769

you do what you have to do to get a

523

00:23:12,669 --> 00:23:10,070

little bit of an attention but he did do

524

00:23:16,000 --> 00:23:12,679

some obviously fairly incredible things

525

00:23:19,180 --> 00:23:16,010

and and some under a fairly rigid die I

526

00:23:22,149 --> 00:23:19,190

believe scientific conditions

527

00:23:24,549 --> 00:23:22,159

he was Russell Targ was deathly afraid

528

00:23:26,680 --> 00:23:24,559

that Erie Geller was going to bend a

529

00:23:29,500 --> 00:23:26,690

spoon in the lab because he didn't

530

00:23:31,180 --> 00:23:29,510

really want to report that to the

531

00:23:33,970 --> 00:23:31,190

scientific journals because he knew it

532

00:23:36,159 --> 00:23:33,980

really seriously yeah you know and and

533

00:23:37,210 --> 00:23:36,169

so they had early when he came to us all

534

00:23:38,680 --> 00:23:37,220

right he was only there a short time I

535

00:23:39,340 --> 00:23:38,690

mean they just experiments with him for

536

00:23:41,490 --> 00:23:39,350

a few weeks

537

00:23:44,289 --> 00:23:41,500

yeah they had him under extreme you know

538

00:23:46,720 --> 00:23:44,299

conditions and all right let me let me

539

00:23:48,759 --> 00:23:46,730

hold you right there and we will come

540

00:23:50,350 --> 00:23:48,769

back and finish this discussion because

541

00:23:52,960 --> 00:23:50,360

we are at our bottom of the hour break

542

00:23:55,330 --> 00:23:52,970

so stay tuned for more on remote viewing

543

00:24:04,580 --> 00:23:55,340

on exploring the bizarre that's what

544

00:24:11,310 --> 00:24:08,730

now back to exploring the bazaars with

545

00:24:14,610 --> 00:24:11,320

two of the most electrifying researchers

546

00:24:22,260 --> 00:24:14,620

in the Paranoid your hosts Timothy Becky

547

00:24:24,150 --> 00:24:22,270

link and Kings lists and welcome back to

548

00:24:26,250 --> 00:24:24,160

exploring the bazaar tonight we're

549

00:24:26,880 --> 00:24:26,260

talking about remote viewing with our

550

00:24:30,120 --> 00:24:26,890

guest

551

00:24:32,520 --> 00:24:30,130

Lance Mejia and Brett Stewart now

552

00:24:35,130 --> 00:24:32,530

gentlemen before I had to so rudely

553

00:24:38,010 --> 00:24:35,140

interrupt you for our bottom of the hour

554

00:24:41,340 --> 00:24:38,020

break you were talking about uri geller

555

00:24:45,300 --> 00:24:41,350

and how it was feared that he was gonna

556

00:24:47,190 --> 00:24:45,310

go and bend spoons importantly hidden in

557

00:24:48,630 --> 00:24:47,200

the laboratory so you can go ahead and

558

00:24:52,460 --> 00:24:48,640

finish your train of thought there

559

00:24:56,460 --> 00:24:52,470

well you know he was actually accused of

560

00:24:58,110 --> 00:24:56,470

wearing a wire in his tooth you know and

561

00:25:01,170 --> 00:24:58,120

this is something that Russell Targ

562

00:25:03,570 --> 00:25:01,180

actually was suspected because he'd seen

563

00:25:05,070 --> 00:25:03,580

another researcher working on a device

564

00:25:08,100 --> 00:25:05,080

that she could actually implant in your

565

00:25:09,570 --> 00:25:08,110

tooth that would then send a signal you

566

00:25:12,060 --> 00:25:09,580

know you know into your head which you

567

00:25:14,670 --> 00:25:12,070

could actually hear you know audibly and

568

00:25:17,460 --> 00:25:14,680

and and Sr I was incredibly paranoid

569

00:25:19,830 --> 00:25:17,470

that they would be hoaxed you know they

570

00:25:22,290 --> 00:25:19,840

had a Faraday cage that they would put

571

00:25:23,730 --> 00:25:22,300

the remote viewers in where no signals

572

00:25:26,220 --> 00:25:23,740

could get through of any kind you know

573

00:25:28,080 --> 00:25:26,230

that nobody and nobody at all ever knew

574

00:25:29,490 --> 00:25:28,090

the the targets that they would be

575

00:25:32,700 --> 00:25:29,500

remote viewing and we're kept in a walk

576  
00:25:34,410 --> 00:25:32,710  
safe you know so and everything was

577  
00:25:36,180 --> 00:25:34,420  
picked at random you know like they

578  
00:25:37,470 --> 00:25:36,190  
didn't even know what the target even

579  
00:25:39,390 --> 00:25:37,480  
the researchers didn't know what the

580  
00:25:41,880 --> 00:25:39,400  
target was and there's actually a really

581  
00:25:44,400 --> 00:25:41,890  
good reason for that that if they had

582  
00:25:46,440 --> 00:25:44,410  
known then it's possible that that hurry

583  
00:25:49,050 --> 00:25:46,450  
or Ingo or someone else could could have

584  
00:25:50,300 --> 00:25:49,060  
been picking up on visual cues as to

585  
00:25:53,310 --> 00:25:50,310  
what the person was doing or even

586  
00:25:54,840 --> 00:25:53,320  
telepathic cues and they wanted to know

587  
00:25:56,640 --> 00:25:54,850  
for a fact that they were actually

588  
00:25:59,010 --> 00:25:56,650

picking up information at the actual

589

00:26:00,720 --> 00:25:59,020

location that was being looked at so so

590

00:26:02,790 --> 00:26:00,730

they really ran a area through these

591

00:26:06,810 --> 00:26:02,800

tests and he never was able to bend a

592

00:26:09,330 --> 00:26:06,820

spoon in laboratory conditions and when

593

00:26:10,890 --> 00:26:09,340

we decided to make the film you know we

594

00:26:11,430 --> 00:26:10,900

talked a lot about the fact you know

595

00:26:13,230 --> 00:26:11,440

Russell

596

00:26:15,480 --> 00:26:13,240

you know the one of the head researchers

597

00:26:19,500 --> 00:26:15,490

there and myself talks a lot about would

598

00:26:20,610 --> 00:26:19,510

we actually incorporate things like

599

00:26:22,500 --> 00:26:20,620

spoon bending like what were you gonna

600

00:26:24,150 --> 00:26:22,510

concentrate on anything else and and

601  
00:26:26,910 --> 00:26:24,160  
right out of the gate Russell Targ said

602  
00:26:29,460 --> 00:26:26,920  
no you know we can't because you can

603  
00:26:31,380 --> 00:26:29,470  
only do one impossible thing at a time

604  
00:26:33,090 --> 00:26:31,390  
you know because people aren't going to

605  
00:26:34,230 --> 00:26:33,100  
buy you know five different possible

606  
00:26:36,420 --> 00:26:34,240  
things it's all just going to get lost

607  
00:26:38,400 --> 00:26:36,430  
and so so we didn't talk about any of

608  
00:26:41,250 --> 00:26:38,410  
that but but statistically it's much

609  
00:26:43,200 --> 00:26:41,260  
harder to do PK or things like that in a

610  
00:26:44,760 --> 00:26:43,210  
laboratory setting you know it just just

611  
00:26:47,070 --> 00:26:44,770  
doesn't work as well you know but remote

612  
00:26:51,360 --> 00:26:47,080  
viewing on the other hand works great in

613  
00:26:55,200 --> 00:26:51,370

the lab all right now we've been tossing

614

00:26:56,820 --> 00:26:55,210

the term remote viewing around since the

615

00:27:00,890 --> 00:26:56,830

you know the beginning of the program so

616

00:27:06,600 --> 00:27:00,900

Brett why don't you tell our audience

617

00:27:10,080 --> 00:27:06,610

just exactly what remote viewing is and

618

00:27:12,030 --> 00:27:10,090

I guess that it's it's a thoroughly

619

00:27:14,040 --> 00:27:12,040

recent term because I know that people

620

00:27:16,440 --> 00:27:14,050

were doing this kind of you know SCI

621

00:27:18,750 --> 00:27:16,450

research you know back in the 20s and

622

00:27:20,160 --> 00:27:18,760

probably even earlier than that but they

623

00:27:23,450 --> 00:27:20,170

were calling it remote viewing

624

00:27:26,340 --> 00:27:23,460

well you know here's the thing about

625

00:27:27,150 --> 00:27:26,350

terms and labels is that they change

626  
00:27:29,640 --> 00:27:27,160  
over time

627  
00:27:32,190 --> 00:27:29,650  
and remote viewing is really no

628  
00:27:34,710 --> 00:27:32,200  
different if you go back to even before

629  
00:27:36,900 --> 00:27:34,720  
the military program you go back to the

630  
00:27:40,200 --> 00:27:36,910  
original research that Ingo Swann was

631  
00:27:43,050 --> 00:27:40,210  
doing yeah I think not sure if it was

632  
00:27:45,750 --> 00:27:43,060  
Ingo himself that came with term but he

633  
00:27:48,300 --> 00:27:45,760  
was definitely a part it was actually

634  
00:27:49,980 --> 00:27:48,310  
Ingo the coin the phrase and so the

635  
00:27:52,290 --> 00:27:49,990  
thing though is that what he

636  
00:27:54,690 --> 00:27:52,300  
specifically outlined it as is that

637  
00:27:57,660 --> 00:27:54,700  
remote viewing within his mind was a

638  
00:28:00,090 --> 00:27:57,670

scientific experiment to test for size

639

00:28:03,060 --> 00:28:00,100

functioning that's it it's a scientific

640

00:28:04,650 --> 00:28:03,070

experiment and nothing more now and so

641

00:28:06,660 --> 00:28:04,660

that means you need a certain protocol

642

00:28:08,730 --> 00:28:06,670

you need to follow those certain steps a

643

00:28:11,520 --> 00:28:08,740

certain set of steps within that

644

00:28:12,750 --> 00:28:11,530

protocol and then at the end since it's

645

00:28:15,450 --> 00:28:12,760

a scientific experiment

646

00:28:18,150 --> 00:28:15,460

you either have yes a positive there was

647

00:28:21,480 --> 00:28:18,160

psy functioning existed or a negative it

648

00:28:24,330 --> 00:28:21,490

doesn't exist and that's what he felt it

649

00:28:25,130 --> 00:28:24,340

the proper definition for it was and so

650

00:28:28,070 --> 00:28:25,140

believe it or not

651  
00:28:30,020 --> 00:28:28,080  
never called himself a remote viewer he

652  
00:28:32,420 --> 00:28:30,030  
thought it was a misapplication of the

653  
00:28:34,370 --> 00:28:32,430  
word sure he said that he's a psychic he

654  
00:28:35,990 --> 00:28:34,380  
does psychological things but remote viewing

655  
00:28:38,840 --> 00:28:36,000  
he wanted to keep as a science

656  
00:28:40,640 --> 00:28:38,850  
definition now perhaps much to his

657  
00:28:43,130 --> 00:28:40,650  
dismay that's kind of changed over time

658  
00:28:45,950 --> 00:28:43,140  
because today with the internet with

659  
00:28:48,380 --> 00:28:45,960  
changes of the definitions now it's much

660  
00:28:51,710 --> 00:28:48,390  
more broad and you might be you know you

661  
00:28:53,240 --> 00:28:51,720  
wouldn't be it wouldn't be your fault

662  
00:28:54,290 --> 00:28:53,250  
necessarily if you thought or no viewing

663  
00:28:56,870 --> 00:28:54,300

was anything that had to do with

664

00:28:58,580 --> 00:28:56,880

clairvoyance and it's not it's not

665

00:29:01,550 --> 00:28:58,590

anything that's clairvoyant that you see

666

00:29:02,840 --> 00:29:01,560

mystically into the distance is that but

667

00:29:03,800 --> 00:29:02,850

there's definitely a spectrum and it

668

00:29:06,290 --> 00:29:03,810

depends who you ask

669

00:29:07,910 --> 00:29:06,300

you're asking me someone who's spent 10

670

00:29:10,550 --> 00:29:07,920

years researching it studying it

671

00:29:12,080 --> 00:29:10,560

teaching it learning a lot of different

672

00:29:15,350 --> 00:29:12,090

methods that have come out of the remote

673

00:29:17,060 --> 00:29:15,360

viewing program what I the way I view it

674

00:29:19,370 --> 00:29:17,070

is there's two different forms first

675

00:29:21,860 --> 00:29:19,380

there is a freeform method and that's

676

00:29:24,950 --> 00:29:21,870

more the I'm going to actually project

677

00:29:26,660 --> 00:29:24,960

I'm gonna lay down I'm going to put my

678

00:29:28,940 --> 00:29:26,670

body into an altered state

679

00:29:30,800 --> 00:29:28,950

just above sleeping and I'm going to

680

00:29:33,020 --> 00:29:30,810

have an experience that's more like a

681

00:29:35,210 --> 00:29:33,030

freeform version of remote viewing which

682

00:29:36,620 --> 00:29:35,220

exists and can work they stopped doing

683

00:29:38,480 --> 00:29:36,630

it in the military because there were

684

00:29:42,140 --> 00:29:38,490

some pretty significant problems with it

685

00:29:44,630 --> 00:29:42,150

one of them being that oftentimes

686

00:29:47,240 --> 00:29:44,640

distances and orientations got flipped

687

00:29:49,280 --> 00:29:47,250

upside down in that state and so it was

688

00:29:51,500 --> 00:29:49,290

very hard to kind of determine like what

689

00:29:53,480 --> 00:29:51,510

was the ceiling or whether it was 20

690

00:29:55,670 --> 00:29:53,490

miles or a thousand miles as far as what

691

00:29:56,870 --> 00:29:55,680

how far away something is so but there

692

00:29:58,960 --> 00:29:56,880

are no other problems with that so what

693

00:30:02,210 --> 00:29:58,970

they switched over to is a much more

694

00:30:05,390 --> 00:30:02,220

structured method and this is a pen and

695

00:30:07,790 --> 00:30:05,400

paper in a quiet space with high

696

00:30:10,100 --> 00:30:07,800

attention management on whatever the

697

00:30:12,080 --> 00:30:10,110

task is that you're focused on and so

698

00:30:14,390 --> 00:30:12,090

that's what the type of remote viewing

699

00:30:17,180 --> 00:30:14,400

that I practice that I teach which is

700

00:30:18,560 --> 00:30:17,190

there'll be a pre assigned target that

701  
00:30:20,180 --> 00:30:18,570  
it and when you're practicing your

702  
00:30:23,240 --> 00:30:20,190  
training new students use photographs

703  
00:30:25,760 --> 00:30:23,250  
because you need feedback to reinforce

704  
00:30:27,950 --> 00:30:25,770  
the process just like in any skill you

705  
00:30:30,980 --> 00:30:27,960  
need feedback how well did they do right

706  
00:30:33,560 --> 00:30:30,990  
and so I'd usually use a photograph I'll

707  
00:30:35,870 --> 00:30:33,570  
put it in an envelope and then I will

708  
00:30:38,210 --> 00:30:35,880  
give them a set of numbers that's

709  
00:30:38,840 --> 00:30:38,220  
assigned to that photograph so students

710  
00:30:41,090 --> 00:30:38,850  
who are remote

711  
00:30:44,030 --> 00:30:41,100  
to remove you have no idea what they're

712  
00:30:46,070 --> 00:30:44,040  
moving they're completely blind but I

713  
00:30:48,770 --> 00:30:46,080

teach them how to go through a set of

714

00:30:51,380 --> 00:30:48,780

steps which brings them closer and

715

00:30:53,690 --> 00:30:51,390

closer in this at this attention

716

00:30:56,570 --> 00:30:53,700

management space to start beginning to

717

00:30:59,300 --> 00:30:56,580

describe what's in the actual photograph

718

00:31:01,250 --> 00:30:59,310

so they'll start picking up on the

719

00:31:03,590 --> 00:31:01,260

textures of the site you know it's just

720

00:31:05,300 --> 00:31:03,600

like a sandy gritty environment kind of

721

00:31:07,970 --> 00:31:05,310

like a beach and then they'll get the

722

00:31:10,280 --> 00:31:07,980

wet the wavy maybe and then suddenly hey

723

00:31:11,720 --> 00:31:10,290

the actual target photo was a beach with

724

00:31:13,760 --> 00:31:11,730

maybe a boat maybe they missed the boats

725

00:31:15,290 --> 00:31:13,770

because they're just starting out but

726

00:31:18,710 --> 00:31:15,300

it's a it's essentially it's a

727

00:31:20,980 --> 00:31:18,720

structured step-by-step technique to

728

00:31:23,180 --> 00:31:20,990

access information at a distance and

729

00:31:25,100 --> 00:31:23,190

it's just because it's you know this in

730

00:31:26,990 --> 00:31:25,110

the laypersons terms really what the way

731

00:31:29,540 --> 00:31:27,000

you can kind of think about this is that

732

00:31:31,430 --> 00:31:29,550

your brain is has it acts kind of like

733

00:31:32,690 --> 00:31:31,440

an antenna it's kind of it's similar to

734

00:31:35,060 --> 00:31:32,700

your cell phone I think it's maybe a

735

00:31:37,820 --> 00:31:35,070

good analogy where if you have you run

736

00:31:40,580 --> 00:31:37,830

the right app then you can access this

737

00:31:42,650 --> 00:31:40,590

massive library of information and that

738

00:31:45,770 --> 00:31:42,660

would be the remote viewing app right

739

00:31:46,940 --> 00:31:45,780

and in that library it's like the Google

740

00:31:48,920 --> 00:31:46,950

of the unit is the Google of the

741

00:31:51,350 --> 00:31:48,930

universe this in cain't contains

742

00:31:52,820 --> 00:31:51,360

informational patterns about what's

743

00:31:55,550 --> 00:31:52,830

potentially going to occur in the future

744

00:31:58,730 --> 00:31:55,560

what has happened in the past and what's

745

00:32:01,250 --> 00:31:58,740

happening right now anywhere you can

746

00:32:03,560 --> 00:32:01,260

think to put your attention so that's

747

00:32:05,630 --> 00:32:03,570

essentially it you know the nutshell I

748

00:32:08,570 --> 00:32:05,640

guess if you will of what it is in the

749

00:32:10,970 --> 00:32:08,580

spectrum well are you working on a

750

00:32:15,110 --> 00:32:10,980

one-to-one basis or a detour do you

751

00:32:17,630 --> 00:32:15,120

operate with a class of students both

752

00:32:20,420 --> 00:32:17,640

actually so I have a number of different

753

00:32:21,950 --> 00:32:20,430

tiers I actually wrote my remote viewing

754

00:32:24,500 --> 00:32:21,960

the complete guide book a couple years

755

00:32:25,670 --> 00:32:24,510

ago to make it as easily accessible like

756

00:32:28,130 --> 00:32:25,680

when I got into this I was really

757

00:32:29,540 --> 00:32:28,140

passionate about holy smokes this works

758

00:32:31,760 --> 00:32:29,550

I want to get this out to a lot of

759

00:32:33,260 --> 00:32:31,770

people because I can't believe it and so

760

00:32:35,420 --> 00:32:33,270

it's the easiest way to do that I

761

00:32:36,590 --> 00:32:35,430

decided to write a book and so that

762

00:32:38,510 --> 00:32:36,600

means I have that available on a website

763

00:32:40,010 --> 00:32:38,520

and then for teaching for people who

764

00:32:42,350 --> 00:32:40,020

want to take it beyond just the

765

00:32:44,150 --> 00:32:42,360

curiosity level this is what technical

766

00:32:46,190 --> 00:32:44,160

intuition is my website where I have

767

00:32:48,470 --> 00:32:46,200

video training courses that people can

768

00:32:51,440 --> 00:32:48,480

go through to learn the basic

769

00:32:54,049 --> 00:32:51,450

fundamentals and then I do

770

00:32:56,180 --> 00:32:54,059

the online broadcast I'll do webinars

771

00:32:58,310 --> 00:32:56,190

and workshops online that can have

772

00:33:00,379 --> 00:32:58,320

anywhere between 10 to 30 people in them

773

00:33:03,320 --> 00:33:00,389

and then one-on-one instruction as well

774

00:33:05,330 --> 00:33:03,330

it just depends really on how motivated

775

00:33:08,960 --> 00:33:05,340

the student is to learn it the best way

776

00:33:13,129 --> 00:33:08,970

is with coaching but but yeah can you

777

00:33:15,710 --> 00:33:13,139

give us an example or two of let's see

778

00:33:18,919 --> 00:33:15,720

some some students who happen to be a

779

00:33:22,100 --> 00:33:18,929

very well adapted at doing this and what

780

00:33:24,289 --> 00:33:22,110

they might have hit upon sure well

781

00:33:26,330 --> 00:33:24,299

students that we like I mentioned

782

00:33:28,100 --> 00:33:26,340

previously they all start with photo

783

00:33:29,899 --> 00:33:28,110

photo feedback targets it's where you

784

00:33:32,810 --> 00:33:29,909

always want to start and you typically

785

00:33:35,480 --> 00:33:32,820

run a lot of those because you need to

786

00:33:37,759 --> 00:33:35,490

train that part of yourself to adjust

787

00:33:39,860 --> 00:33:37,769

because there's a there's a learning

788

00:33:41,840 --> 00:33:39,870

process not just on the conscious

789

00:33:43,669 --> 00:33:41,850

individual though a waking aware person

790

00:33:44,930 --> 00:33:43,679

that one that's interested in it but

791

00:33:47,210 --> 00:33:44,940

there's also a learning process that

792

00:33:50,029 --> 00:33:47,220

goes in on on the unconscious side and

793

00:33:52,310 --> 00:33:50,039

so what's possible is there's this

794

00:33:54,500 --> 00:33:52,320

effect that's known in the remote

795

00:33:57,200 --> 00:33:54,510

viewing community as the first timer

796

00:34:00,379 --> 00:33:57,210

effect or the very first time someone

797

00:34:01,940 --> 00:34:00,389

does this almost like there's a they may

798

00:34:03,169 --> 00:34:01,950

not even necessarily believe it it

799

00:34:05,060 --> 00:34:03,179

doesn't even matter if they believe

800

00:34:07,549 --> 00:34:05,070

whether or not it's a real thing is that

801  
00:34:09,770 --> 00:34:07,559  
they can have absolutely phenomenal

802  
00:34:11,030 --> 00:34:09,780  
success because they aren't invested in

803  
00:34:13,669 --> 00:34:11,040  
the outcome it's almost like they

804  
00:34:15,440 --> 00:34:13,679  
haven't put up any blocks to say no

805  
00:34:17,210 --> 00:34:15,450  
that's not possible or no this I

806  
00:34:18,800 --> 00:34:17,220  
couldn't do this because they're just

807  
00:34:19,940 --> 00:34:18,810  
kind of ambivalent about it they just

808  
00:34:22,010 --> 00:34:19,950  
listen to the steps and go through it

809  
00:34:23,869 --> 00:34:22,020  
and suddenly what happens is they very

810  
00:34:26,180 --> 00:34:23,879  
accurately describe what's in the photo

811  
00:34:28,819 --> 00:34:26,190  
and I've seen this countless times with

812  
00:34:31,790 --> 00:34:28,829  
beginner students and so this can be

813  
00:34:33,589 --> 00:34:31,800

from I mean beginner photographs can

814

00:34:36,740 --> 00:34:33,599

typically be anything from like a

815

00:34:39,319 --> 00:34:36,750

volcano exploding to a fish in a river

816

00:34:41,149 --> 00:34:39,329

and the type of accuracy you can kind of

817

00:34:44,359 --> 00:34:41,159

see is they'll actually be naming what's

818

00:34:46,339 --> 00:34:44,369

in the the photograph the one thing if I

819

00:34:48,079 --> 00:34:46,349

give you one example that really should

820

00:34:52,609 --> 00:34:48,089

kind of hits at home of what's possible

821

00:34:54,980 --> 00:34:52,619

is I had a student last year had no idea

822

00:34:57,200 --> 00:34:54,990

what remote viewing was I gave him a

823

00:35:00,109 --> 00:34:57,210

basically a 45 minute introduction on

824

00:35:03,230 --> 00:35:00,119

the basics had him run through it I gave

825

00:35:04,430 --> 00:35:03,240

him a blind photograph and he named the

826  
00:35:07,400 --> 00:35:04,440  
location

827  
00:35:08,990 --> 00:35:07,410  
in the session which was machu picchu he

828  
00:35:10,730 --> 00:35:09,000  
had no idea what it was

829  
00:35:12,980 --> 00:35:10,740  
and he's like I just he's describing

830  
00:35:14,779 --> 00:35:12,990  
these mountains these llamas everywhere

831  
00:35:16,609 --> 00:35:14,789  
these kind of ruins like you know I

832  
00:35:19,609 --> 00:35:16,619  
think this is kind of like Machu Picchu

833  
00:35:21,890 --> 00:35:19,619  
is what I'm getting and that was 100%

834  
00:35:25,220 --> 00:35:21,900  
accurate the very first time he had ever

835  
00:35:30,680 --> 00:35:25,230  
done it doesn't happen all the time but

836  
00:35:32,000 --> 00:35:30,690  
it can't happen now did he have a series

837  
00:35:35,270 --> 00:35:32,010  
of hits in other words that he turned

838  
00:35:38,059 --> 00:35:35,280

out to be a really good student or was

839

00:35:45,620 --> 00:35:38,069

it just a one-shot deal he actually

840

00:35:45,799 --> 00:35:45,630

didn't want to continue doing it I did

841

00:35:47,480 --> 00:35:45,809

it

842

00:35:49,640 --> 00:35:47,490

now I'm gonna go on and live my life and

843

00:35:52,039 --> 00:35:49,650

you do so they do something else so you

844

00:35:53,630 --> 00:35:52,049

know it's it is a skill it's like

845

00:35:56,420 --> 00:35:53,640

learning to play the piano

846

00:35:58,370 --> 00:35:56,430

read read music I mean it takes time it

847

00:36:00,049 --> 00:35:58,380

takes effort like any other skill you

848

00:36:02,029 --> 00:36:00,059

want to become a really good artist you

849

00:36:03,890 --> 00:36:02,039

have to spend time you have you know

850

00:36:07,460 --> 00:36:03,900

training is very helpful having coaching

851

00:36:08,720 --> 00:36:07,470

is very helpful right but certainly that

852

00:36:10,339 --> 00:36:08,730

that what happened to me is I had that

853

00:36:10,730 --> 00:36:10,349

first time or experience and I was

854

00:36:13,609 --> 00:36:10,740

hooked

855

00:36:16,430 --> 00:36:13,619

I I couldn't let it go and I just you

856

00:36:19,480 --> 00:36:16,440

know looked for any training opportunity

857

00:36:21,859 --> 00:36:19,490

I could do workshops training DVDs

858

00:36:23,269 --> 00:36:21,869

one-on-one training with people who

859

00:36:26,510 --> 00:36:23,279

actually were part of the remote viewing

860

00:36:27,769 --> 00:36:26,520

program so it was but not everyone's

861

00:36:31,000 --> 00:36:27,779

like that you know people have different

862

00:36:32,990 --> 00:36:31,010

temperaments you know you said something

863

00:36:35,750 --> 00:36:33,000

during the break that I found

864

00:36:38,630 --> 00:36:35,760

interesting the fact that it seems to be

865

00:36:42,230 --> 00:36:38,640

easier now to teach people and for

866

00:36:44,510 --> 00:36:42,240

people to pick up this ability than it

867

00:36:47,029 --> 00:36:44,520

used to be in the past which sounds very

868

00:36:51,819 --> 00:36:47,039

reminiscent of Rupert Sheldrake's

869

00:36:53,839 --> 00:36:51,829

morphic field theory do you want to

870

00:36:56,660 --> 00:36:53,849

elaborate on that just a little bit more

871

00:36:58,400 --> 00:36:56,670

yeah well I think Lance actually brought

872

00:36:59,359 --> 00:36:58,410

it up weren't you talking about when you

873

00:37:02,470 --> 00:36:59,369

were doing the recording with the

874

00:37:06,500 --> 00:37:02,480

students yeah yeah there's there's a a

875

00:37:09,410 --> 00:37:06,510

lot of people have asked I mean I why s

876

00:37:10,789 --> 00:37:09,420

RI got such great results now there's

877

00:37:12,349 --> 00:37:10,799

there's a lot of other labs that got

878

00:37:14,089 --> 00:37:12,359

really good results with remote viewing

879

00:37:16,609 --> 00:37:14,099

too in the early days of studying this

880

00:37:17,620 --> 00:37:16,619

you know Duke and Princeton and several

881

00:37:19,539 --> 00:37:17,630

other really procedures play

882

00:37:21,220 --> 00:37:19,549

is absolutely duplicated what SR I was

883

00:37:25,509 --> 00:37:21,230

doing and even today they're doing way

884

00:37:27,009 --> 00:37:25,519

more but what the original people who

885

00:37:30,430 --> 00:37:27,019

did this contributed to their initial

886

00:37:33,640 --> 00:37:30,440

success was the fact that it was almost

887

00:37:35,640 --> 00:37:33,650

like permission slip to walk into SR I

888

00:37:39,130 --> 00:37:35,650

and see these guys in big lab coats and

889

00:37:40,480 --> 00:37:39,140

you know in beakers and all this like

890

00:37:42,309 --> 00:37:40,490

millions of dollars of scientific

891

00:37:45,009 --> 00:37:42,319

equipment and and Russell would just sit

892

00:37:46,809 --> 00:37:45,019

them down and say okay well today you're

893

00:37:48,339 --> 00:37:46,819

going to be psychic because everybody is

894

00:37:49,870 --> 00:37:48,349

psychic and you know you're so you're

895

00:37:53,259 --> 00:37:49,880

gonna Remote View for us and they would

896

00:37:55,690 --> 00:37:53,269

do this again and again and people just

897

00:37:57,640 --> 00:37:55,700

would be able to do it because so much I

898

00:37:59,890 --> 00:37:57,650

think of the sort of denial of this

899

00:38:02,680 --> 00:37:59,900

ability that I you know that the

900

00:38:04,870 --> 00:38:02,690

evidence suggests we all have is is our

901  
00:38:07,990 --> 00:38:04,880  
own fear at doing it and the more that

902  
00:38:10,269 --> 00:38:08,000  
people do it the the more sort of energy

903  
00:38:11,620 --> 00:38:10,279  
is put into this subject it's kind of

904  
00:38:13,450 --> 00:38:11,630  
like the hundredth monkey effect I don't

905  
00:38:14,859 --> 00:38:13,460  
know if you guys are familiar with you

906  
00:38:16,720 --> 00:38:14,869  
know the hundredth monkey effect where

907  
00:38:19,539 --> 00:38:16,730  
you know you you you teach one monkey

908  
00:38:20,920 --> 00:38:19,549  
how to use a tool in an island when

909  
00:38:22,329 --> 00:38:20,930  
about a hundred monkeys figure out how

910  
00:38:24,700 --> 00:38:22,339  
to use that tool this was an actual

911  
00:38:26,499 --> 00:38:24,710  
scientific study that was done then all

912  
00:38:30,160 --> 00:38:26,509  
of the sudden every monkey in the entire

913  
00:38:31,539 --> 00:38:30,170

species knows how to use that tool and

914

00:38:34,359 --> 00:38:31,549

they've demonstrated this again and

915

00:38:36,579 --> 00:38:34,369

again and again in in in different areas

916

00:38:38,170 --> 00:38:36,589

not just in that one and I think remote

917

00:38:40,539 --> 00:38:38,180

viewing and sort of the use of

918

00:38:42,940 --> 00:38:40,549

consciousness as an ability is the same

919

00:38:45,430 --> 00:38:42,950

thing it's it's like we're we're sort of

920

00:38:48,789 --> 00:38:45,440

like blazing a trail for other people to

921

00:38:51,970 --> 00:38:48,799

follow but the danger in that like like

922

00:38:53,170 --> 00:38:51,980

I loved Bret's analogy about about the

923

00:38:55,569 --> 00:38:53,180

person who did it one time and said

924

00:38:58,140 --> 00:38:55,579

that's enough and left is that you can't

925

00:39:00,430 --> 00:38:58,150

really take away somebody's worldview

926

00:39:02,230 --> 00:39:00,440

without them being sort of grounded

927

00:39:04,269 --> 00:39:02,240

enough to have a different worldview and

928

00:39:06,309 --> 00:39:04,279

be open to that or else people just shut

929

00:39:08,769 --> 00:39:06,319

down and and I and I think that that is

930

00:39:11,200 --> 00:39:08,779

the the danger but at the same time

931

00:39:12,910 --> 00:39:11,210

there really is something I think both

932

00:39:16,450 --> 00:39:12,920

psychologically and maybe even

933

00:39:18,700 --> 00:39:16,460

energetically that suggests that the

934

00:39:21,819 --> 00:39:18,710

more you sort of break through this veil

935

00:39:24,730 --> 00:39:21,829

this kind of barrier of consciousness

936

00:39:26,440 --> 00:39:24,740

that's separating us the the more it is

937

00:39:29,109 --> 00:39:26,450

it is easier to connect it's like your

938

00:39:31,180 --> 00:39:29,119

bandwidth goes up not just my bandwidth

939

00:39:35,440 --> 00:39:31,190

or yours but everybody's

940

00:39:39,880 --> 00:39:35,450

so as we brought up at the beginning of

941

00:39:43,060 --> 00:39:39,890

the program a lot of people when you

942

00:39:44,590 --> 00:39:43,070

talk about remote viewing just will

943

00:39:47,740 --> 00:39:44,600

automatically shut you down

944

00:39:50,320 --> 00:39:47,750

you know said oh well you know it's they

945

00:39:52,060 --> 00:39:50,330

tried that and it didn't work so you

946

00:39:56,530 --> 00:39:52,070

know they they stopped doing it totally

947

00:39:58,750 --> 00:39:56,540

so you know what what's your answer to

948

00:40:00,550 --> 00:39:58,760

somebody who tries to come back at you

949

00:40:04,000 --> 00:40:00,560

with you know that kind of skeptical

950

00:40:05,980 --> 00:40:04,010

attitude well there's a hundred years of

951  
00:40:07,480 --> 00:40:05,990  
data that you can look at and and and

952  
00:40:09,460 --> 00:40:07,490  
I've had this discussion this argument

953  
00:40:11,260 --> 00:40:09,470  
with good friends of mine who are very

954  
00:40:13,840 --> 00:40:11,270  
skeptical and I and I think number one I

955  
00:40:16,240 --> 00:40:13,850  
would I would tell that person good be a

956  
00:40:18,750 --> 00:40:16,250  
skeptic you should be a skeptic you know

957  
00:40:21,640 --> 00:40:18,760  
you don't be a dogmatic skeptic don't be

958  
00:40:23,890 --> 00:40:21,650  
somebody who is not open to the

959  
00:40:27,040 --> 00:40:23,900  
possibilities but be an idea this is

960  
00:40:28,780 --> 00:40:27,050  
Charlie Tarts really quote but who's one

961  
00:40:30,640 --> 00:40:28,790  
of the the pair of psychologists in the

962  
00:40:32,410 --> 00:40:30,650  
movie but you want to be an enlightened

963  
00:40:34,360 --> 00:40:32,420

skeptic you know you want to be open to

964

00:40:35,740 --> 00:40:34,370

the possibility because when you see

965

00:40:38,680 --> 00:40:35,750

something that really is unbelievable

966

00:40:41,170 --> 00:40:38,690

and it doesn't exist within sort of the

967

00:40:42,520 --> 00:40:41,180

confines of the existing science that we

968

00:40:44,830 --> 00:40:42,530

sort of know and understand in the

969

00:40:47,740 --> 00:40:44,840

material world then you have to kind of

970

00:40:50,440 --> 00:40:47,750

go okay wait a minute if this is

971

00:40:52,960 --> 00:40:50,450

happening then there's something about

972

00:40:55,300 --> 00:40:52,970

the model that we have that is broken

973

00:40:57,040 --> 00:40:55,310

you know we're not getting the entire

974

00:40:58,990 --> 00:40:57,050

picture here and and this is the history

975

00:41:00,430 --> 00:40:59,000

of science you know this has been going

976  
00:41:03,430 --> 00:41:00,440  
on since the beginning of time I mean

977  
00:41:05,070 --> 00:41:03,440  
Galileo put a telescope out in the

978  
00:41:07,330 --> 00:41:05,080  
streets of Verona or wherever and

979  
00:41:11,020 --> 00:41:07,340  
invited people to come and look at his

980  
00:41:12,730 --> 00:41:11,030  
telescope and no one would why because

981  
00:41:14,770 --> 00:41:12,740  
they didn't want to upset their apple

982  
00:41:16,900 --> 00:41:14,780  
cart they didn't want to you know ruin

983  
00:41:18,670 --> 00:41:16,910  
their sense of what the world was it

984  
00:41:20,230 --> 00:41:18,680  
might be demons it might be something

985  
00:41:22,630 --> 00:41:20,240  
really bad I might see through there

986  
00:41:25,240 --> 00:41:22,640  
Ill think that our film you know third

987  
00:41:27,100 --> 00:41:25,250  
eye spies is gonna upset the applecart

988  
00:41:29,950 --> 00:41:27,110

in a big way cuz I've seen it happen

989

00:41:32,770 --> 00:41:29,960

again and again I had a three-hour

990

00:41:35,350 --> 00:41:32,780

argument with my friend who's this very

991

00:41:38,980 --> 00:41:35,360

very logical prisoner very well-known

992

00:41:41,080 --> 00:41:38,990

filmmaker you know he he has had films

993

00:41:44,110 --> 00:41:41,090

all over the world and it's festivals

994

00:41:44,890 --> 00:41:44,120

and things and he'd refused to believe

995

00:41:46,840 --> 00:41:44,900

in the reality of

996

00:41:49,780 --> 00:41:46,850

reviewing he was a huge fan of James

997

00:41:51,460 --> 00:41:49,790

Randi you know you know absolutely hated

998

00:41:53,950 --> 00:41:51,470

regular because he thought that you know

999

00:41:56,560 --> 00:41:53,960

area was a magician and all of these

1000

00:41:57,850 --> 00:41:56,570

things and I said well first of all I

1001  
00:42:01,240 --> 00:41:57,860  
said you gotta watch the movie and he

1002  
00:42:02,470 --> 00:42:01,250  
finally did and when he watched the

1003  
00:42:04,600 --> 00:42:02,480  
movie you came out and he said you know

1004  
00:42:07,060 --> 00:42:04,610  
I think you actually changed my mind

1005  
00:42:08,710 --> 00:42:07,070  
about this you know and that to me was

1006  
00:42:10,210 --> 00:42:08,720  
the biggest revelation because I was

1007  
00:42:12,910 --> 00:42:10,220  
like wow I've known this guy for 20

1008  
00:42:15,010 --> 00:42:12,920  
years I mean he if he if his mind can be

1009  
00:42:17,110 --> 00:42:15,020  
changed then then maybe a lot of other

1010  
00:42:18,820 --> 00:42:17,120  
people's can too and you know I think

1011  
00:42:20,170 --> 00:42:18,830  
it's sort of like it's it's you can't

1012  
00:42:22,210 --> 00:42:20,180  
throw out the baby with the bathwater

1013  
00:42:23,800 --> 00:42:22,220

when you look at something you know you

1014

00:42:26,740 --> 00:42:23,810

you know just because there is such a

1015

00:42:29,200 --> 00:42:26,750

thing as you know intuitive ability that

1016

00:42:30,370 --> 00:42:29,210

really exists I mean statistically it

1017

00:42:32,560 --> 00:42:30,380

just does I mean we're not trying to

1018

00:42:33,730 --> 00:42:32,570

prove the phenomenon anymore we've

1019

00:42:37,750 --> 00:42:33,740

already done that you know like that

1020

00:42:40,720 --> 00:42:37,760

that's been shown I mean but it's

1021

00:42:42,940 --> 00:42:40,730

because there's not a mechanism as to

1022

00:42:46,570 --> 00:42:42,950

how something like psychic ability works

1023

00:42:48,580 --> 00:42:46,580

there's not a measure I can't like take

1024

00:42:52,150 --> 00:42:48,590

a meter and put it against Brett's head

1025

00:42:54,100 --> 00:42:52,160

and it reads like 98% that he's really

1026

00:42:55,900 --> 00:42:54,110

good at what he does I mean it's it the

1027

00:42:57,820 --> 00:42:55,910

Soviets tried to do that you know that

1028

00:43:00,010 --> 00:42:57,830

the reason that the Soviet Union was so

1029

00:43:02,200 --> 00:43:00,020

into this stuff was because they were

1030

00:43:05,680 --> 00:43:02,210

communists and they believe that

1031

00:43:07,630 --> 00:43:05,690

everything has a material solution you

1032

00:43:09,670 --> 00:43:07,640

know even and therefore you know

1033

00:43:11,860 --> 00:43:09,680

consciousness exists so it must be

1034

00:43:15,010 --> 00:43:11,870

material and there must be something

1035

00:43:17,020 --> 00:43:15,020

that is a mechanism at work that makes

1036

00:43:18,460 --> 00:43:17,030

it work but you can't nail down

1037

00:43:20,500 --> 00:43:18,470

consciousness and that's what they

1038

00:43:23,040 --> 00:43:20,510

didn't get you know you you can never

1039

00:43:24,640 --> 00:43:23,050

actually create a hypothesis

1040

00:43:26,730 --> 00:43:24,650

scientifically for this kind of

1041

00:43:28,690 --> 00:43:26,740

phenomenon because the observer

1042

00:43:31,960 --> 00:43:28,700

themselves are part of the experiment

1043

00:43:34,120 --> 00:43:31,970

you know and and so it's it's including

1044

00:43:35,890 --> 00:43:34,130

all of us it's like all of humanity is

1045

00:43:38,980 --> 00:43:35,900

this one big like Internet

1046

00:43:41,380 --> 00:43:38,990

interconnected network of like little

1047

00:43:43,180 --> 00:43:41,390

brain cells running around and and and

1048

00:43:45,730 --> 00:43:43,190

that's the way that this works it's like

1049

00:43:48,940 --> 00:43:45,740

it really actually sort of changes your

1050

00:43:51,400 --> 00:43:48,950

entire view of the universe I mean that

1051

00:43:53,410 --> 00:43:51,410

the most shocking thing to me and it

1052

00:43:56,080 --> 00:43:53,420

took me five years to make this film and

1053

00:43:58,250 --> 00:43:56,090

and it changed me personally I mean for

1054

00:44:00,260 --> 00:43:58,260

sure but

1055

00:44:01,880 --> 00:44:00,270

the most amazing thing was going and

1056

00:44:03,890 --> 00:44:01,890

visiting these guys who were you know

1057

00:44:06,740 --> 00:44:03,900

some of them grizzled Vietnam vets like

1058

00:44:08,300 --> 00:44:06,750

Joe mcmoneagle who who won the you know

1059

00:44:12,710 --> 00:44:08,310

the Legion of Merit Award for his

1060

00:44:14,270 --> 00:44:12,720

service you know the highest thing that

1061

00:44:16,880 --> 00:44:14,280

you can possibly get as a noncombatant

1062

00:44:19,310 --> 00:44:16,890

in the military intelligence services he

1063

00:44:22,160 --> 00:44:19,320

won for doing remote viewing but if you

1064

00:44:23,930 --> 00:44:22,170

talk to this guy he starts to sound more

1065

00:44:26,060 --> 00:44:23,940

like a Buddhist monk than a soldier

1066

00:44:28,250 --> 00:44:26,070

because and not because he's airy-fairy

1067

00:44:30,400 --> 00:44:28,260

and he's and he's you know found God or

1068

00:44:32,750 --> 00:44:30,410

something but because he just

1069

00:44:35,150 --> 00:44:32,760

understands a little bit more that the

1070

00:44:37,910 --> 00:44:35,160

universe is more mysterious and more

1071

00:44:38,930 --> 00:44:37,920

connected than than we've sort of been

1072

00:44:46,310 --> 00:44:38,940

led to believe through the scientific

1073

00:44:49,310 --> 00:44:46,320

model that we have is there any research

1074

00:44:52,280 --> 00:44:49,320

into this by the government going on

1075

00:44:55,760 --> 00:44:52,290

perhaps a little hush-hush I know your

1076

00:44:59,480 --> 00:44:55,770

your your or so ago you know of course

1077

00:45:01,099 --> 00:44:59,490

the the the Air Force had stayed the

1078

00:45:03,190 --> 00:45:01,109

project Bluebook he closed that one

1079

00:45:05,630 --> 00:45:03,200

without nineteen seventeen nineteen so I

1080

00:45:07,520 --> 00:45:05,640

and it turned out that the government

1081

00:45:09,290 --> 00:45:07,530

had been spending about twenty eight

1082

00:45:17,800 --> 00:45:09,300

million dollars or something like that

1083

00:45:24,829 --> 00:45:21,349

that's lunch money for a politician you

1084

00:45:26,120 --> 00:45:24,839

know I just I just wonder is there

1085

00:45:28,910 --> 00:45:26,130

anything like that

1086

00:45:31,730 --> 00:45:28,920

under the under the wire so to speak

1087

00:45:34,880 --> 00:45:31,740

that is going on that we should know

1088

00:45:36,440 --> 00:45:34,890

about or not know about well first off

1089

00:45:38,510 --> 00:45:36,450

when you say twenty eight million you

1090

00:45:40,370 --> 00:45:38,520

know that's so much reminded me of what

1091

00:45:42,140 --> 00:45:40,380

was said about SSRI they said oh we

1092

00:45:44,180 --> 00:45:42,150

spent about twenty million dollars on

1093

00:45:46,400 --> 00:45:44,190

this program over a 20-year period and

1094

00:45:49,160 --> 00:45:46,410

and all they were looking at was that

1095

00:45:50,599 --> 00:45:49,170

one contractor in SR I they weren't

1096

00:45:53,930 --> 00:45:50,609

telling you about what was going on in

1097

00:45:56,599 --> 00:45:53,940

the army or you know the Air Force or

1098

00:45:58,880 --> 00:45:56,609

any of the other intelligence services

1099

00:46:00,109 --> 00:45:58,890

like CIA you know they didn't count any

1100

00:46:02,450 --> 00:46:00,119

of that money so it's like they're very

1101  
00:46:06,349 --> 00:46:02,460  
selective like we think of government as

1102  
00:46:08,300 --> 00:46:06,359  
this as this monolithic beast that just

1103  
00:46:10,250 --> 00:46:08,310  
moves with one driving force it's like

1104  
00:46:11,490 --> 00:46:10,260  
the president's behind the wheel and

1105  
00:46:13,170 --> 00:46:11,500  
he's drivin the car to the

1106  
00:46:15,180 --> 00:46:13,180  
left in the right and he's everybody's

1107  
00:46:16,590 --> 00:46:15,190  
just sort of following orders but

1108  
00:46:18,870 --> 00:46:16,600  
intelligence services don't work that

1109  
00:46:20,760 --> 00:46:18,880  
way and by intent you know they're

1110  
00:46:22,670 --> 00:46:20,770  
they're what's called stove-piped you

1111  
00:46:25,560 --> 00:46:22,680  
know everything has its own

1112  
00:46:28,620 --> 00:46:25,570  
infrastructure and and you may be part

1113  
00:46:31,460 --> 00:46:28,630

of a advanced remote viewing program for

1114

00:46:34,110 --> 00:46:31,470

the army and think that's all there is

1115

00:46:35,610 --> 00:46:34,120

there's way more than that you know and

1116

00:46:38,040 --> 00:46:35,620

and you don't know it and even the guys

1117

00:46:40,500 --> 00:46:38,050

involved don't necessarily know it you

1118

00:46:42,420 --> 00:46:40,510

know um we talk a lot about this in in

1119

00:46:45,180 --> 00:46:42,430

in our film you know which which came

1120

00:46:50,910 --> 00:46:45,190

out a couple of days ago but it's it's

1121

00:46:52,380 --> 00:46:50,920

really about using misinformation the

1122

00:46:54,870 --> 00:46:52,390

same way that you would if you were

1123

00:46:56,670 --> 00:46:54,880

gonna go join a rock-and-roll band and

1124

00:46:58,500 --> 00:46:56,680

your mom didn't approve of it you know

1125

00:47:00,030 --> 00:46:58,510

like they don't they don't shut this

1126

00:47:01,710 --> 00:47:00,040

stuff up you know I don't think

1127

00:47:04,020 --> 00:47:01,720

anybody's gonna come after me come after

1128

00:47:05,970 --> 00:47:04,030

bread or anybody that's out talking

1129

00:47:07,830 --> 00:47:05,980

about this because they don't have to

1130

00:47:10,500 --> 00:47:07,840

all they have to do is be quiet about it

1131

00:47:14,040 --> 00:47:10,510

and then let know the cultural biases

1132

00:47:15,420 --> 00:47:14,050

kick in you know and and with more with

1133

00:47:16,860 --> 00:47:15,430

our film that's why I think our film is

1134

00:47:18,210 --> 00:47:16,870

gonna be really groundbreaking for a lot

1135

00:47:20,070 --> 00:47:18,220

of people because a lot of people are

1136

00:47:22,650 --> 00:47:20,080

seeing this movie it's number four on

1137

00:47:24,030 --> 00:47:22,660

iTunes right now you know so there's

1138

00:47:25,710 --> 00:47:24,040

people who don't know anything about

1139

00:47:26,880 --> 00:47:25,720

this and they're looking at this film

1140

00:47:28,730 --> 00:47:26,890

and they're going wow these guys don't

1141

00:47:31,500 --> 00:47:28,740

sound as crazy as I thought they were

1142

00:47:35,280 --> 00:47:31,510

you know this this these guys all have

1143

00:47:37,470 --> 00:47:35,290

PhDs oh my gosh that guy was a nuclear

1144

00:47:40,530 --> 00:47:37,480

physicist what's he do oh my gosh this

1145

00:47:42,210 --> 00:47:40,540

guy was a Nobel Prize winner and yet

1146

00:47:44,550 --> 00:47:42,220

even the Nobel Prize winner Brian

1147

00:47:46,490 --> 00:47:44,560

Josephson who appears in our film you

1148

00:47:48,720 --> 00:47:46,500

know he's cambridge professor emeritus

1149

00:47:50,760 --> 00:47:48,730

he was discriminated against because of

1150

00:47:52,050 --> 00:47:50,770

psy all right I'm gonna have to

1151  
00:47:53,610 --> 00:47:52,060  
interrupt you here because we have to go

1152  
00:47:55,680 --> 00:47:53,620  
to our top of the hour break come back

1153  
00:48:03,880 --> 00:47:55,690  
more remote-viewing on exploring the

1154  
00:48:10,840 --> 00:48:08,359  
explode the bazaars or e-ticket ride

1155  
00:48:14,120 --> 00:48:10,850  
into the world of the paranoid

1156  
00:48:18,430 --> 00:48:14,130  
strap yourself e'en as we traverse the

1157  
00:48:21,550 --> 00:48:18,440  
universe exploring the unexplained UFO s

1158  
00:48:23,930 --> 00:48:21,560  
ghosts Lost Worlds

1159  
00:48:27,770 --> 00:48:23,940  
cryptozoology waters as well as other

1160  
00:48:32,150 --> 00:48:27,780  
dimensions it's time to take back the

1161  
00:48:35,420 --> 00:48:32,160  
night last night now your electrifying

1162  
00:48:41,150 --> 00:48:35,430  
hosts of exploring the bizarre Timothy

1163  
00:48:44,300 --> 00:48:41,160

Begley and team sports alright welcome

1164

00:48:46,120 --> 00:48:44,310

back to the second part of exploring the

1165

00:48:48,590 --> 00:48:46,130

bizarre tonight we're talking about

1166

00:48:51,040 --> 00:48:48,600

remote viewing if you haven't guessed

1167

00:48:55,070 --> 00:48:51,050

that already what with our guest Lance

1168

00:48:59,540 --> 00:48:55,080

munguia and Brett Stewart now Lance has

1169

00:49:02,380 --> 00:48:59,550

a movie that is now out for your viewing

1170

00:49:06,520 --> 00:49:02,390

pleasure called third eye spies and

1171

00:49:12,490 --> 00:49:06,530

Brett is the founder of technical

1172

00:49:18,410 --> 00:49:12,500

intuition so and and we're talking about

1173

00:49:21,890 --> 00:49:18,420

remote viewing and the possibility that

1174

00:49:25,130 --> 00:49:21,900

I don't know what we were discussing

1175

00:49:27,470 --> 00:49:25,140

before he went to the break that had Tim

1176

00:49:31,430 --> 00:49:27,480

asked this whether or not that there

1177

00:49:35,410 --> 00:49:31,440

could actually be you know continuation

1178

00:49:37,970 --> 00:49:35,420

of the CIA and and military projects

1179

00:49:39,800 --> 00:49:37,980

along these lines I mean you know the

1180

00:49:43,490 --> 00:49:39,810

CIA you know said that they stopped

1181

00:49:45,440 --> 00:49:43,500

doing this was like 1995 my fan you know

1182

00:49:47,599 --> 00:49:45,450

because it didn't work and you know you

1183

00:49:50,510 --> 00:49:47,609

know nothing to see here folks which

1184

00:49:52,220 --> 00:49:50,520

just always you know like MKULTRA you

1185

00:49:54,230 --> 00:49:52,230

know it just always you know made me

1186

00:49:58,700 --> 00:49:54,240

think yeah yeah yeah it's it's still

1187

00:50:02,030 --> 00:49:58,710

going on somewhere you know under the

1188

00:50:04,190 --> 00:50:02,040

sheets yeah I mean is that true I mean

1189

00:50:08,350 --> 00:50:04,200

do you think that there is there are

1190

00:50:10,750 --> 00:50:08,360

continued projects going along somewhere

1191

00:50:13,810 --> 00:50:10,760

with remote viewing I think it's all

1192

00:50:21,930 --> 00:50:13,820

Brett I think that I know he's the one

1193

00:50:24,580 --> 00:50:21,940

you know they're going to him there's

1194

00:50:26,980 --> 00:50:24,590

listen like if you could look back at

1195

00:50:28,900 --> 00:50:26,990

the actual reason of why they canceled

1196

00:50:30,280 --> 00:50:28,910

the program in 95 I mean first of all

1197

00:50:32,920 --> 00:50:30,290

all the original researchers had already

1198

00:50:34,660 --> 00:50:32,930

left so that's an aspect to take into

1199

00:50:37,240 --> 00:50:34,670

aspect to take into consideration in

1200

00:50:39,850 --> 00:50:37,250

1995 it's totally different group that's

1201

00:50:41,950 --> 00:50:39,860

involved at that point but if you look

1202

00:50:45,790 --> 00:50:41,960

at the actual report that was generated

1203

00:50:47,950 --> 00:50:45,800

it was the a IR report where it's just

1204

00:50:49,570 --> 00:50:47,960

everyone who tad like who's part of the

1205

00:50:51,250 --> 00:50:49,580

program he looked at at least a lot of

1206

00:50:53,050 --> 00:50:51,260

them they basically said this looked

1207

00:50:54,430 --> 00:50:53,060

like essentially a hit job it's they did

1208

00:50:56,080 --> 00:50:54,440

none of the original scientists were

1209

00:50:57,910 --> 00:50:56,090

contacted they weren't given critical

1210

00:50:59,830 --> 00:50:57,920

knowledge about the program they weren't

1211

00:51:03,220 --> 00:50:59,840

allowed to look at all of the actual

1212

00:51:06,030 --> 00:51:03,230

successful uses of it and the kind of

1213

00:51:08,680 --> 00:51:06,040

the kicker is is that the number one

1214

00:51:10,000 --> 00:51:08,690

Tasker of information in in the

1215

00:51:11,530 --> 00:51:10,010

intelligence agent of all the

1216

00:51:14,230 --> 00:51:11,540

intelligence agencies that went to the

1217

00:51:18,070 --> 00:51:14,240

military program for information was the

1218

00:51:20,110 --> 00:51:18,080

CIA they had more tasks to the program

1219

00:51:22,660 --> 00:51:20,120

than anybody else requesting information

1220

00:51:25,720 --> 00:51:22,670

from them and this was a program that

1221

00:51:28,030 --> 00:51:25,730

lived and died on a yearly basis for

1222

00:51:29,710 --> 00:51:28,040

funding so that means every single year

1223

00:51:32,080 --> 00:51:29,720

they had to prove that what they were

1224

00:51:34,540 --> 00:51:32,090

doing not only worked what would but

1225

00:51:36,880 --> 00:51:34,550

that was providing value intelligence

1226  
00:51:40,120 --> 00:51:36,890  
support for who was requesting it and

1227  
00:51:42,310 --> 00:51:40,130  
people kept showing up agencies kept

1228  
00:51:43,860 --> 00:51:42,320  
showing up asking for more information

1229  
00:51:46,030 --> 00:51:43,870  
so when you look at it through that

1230  
00:51:49,090 --> 00:51:46,040  
context and that understanding of what

1231  
00:51:51,670 --> 00:51:49,100  
happened you it makes you wonder a

1232  
00:51:54,130 --> 00:51:51,680  
little bit about why it played out the

1233  
00:51:56,620 --> 00:51:54,140  
way it did in that if this what there

1234  
00:51:58,660 --> 00:51:56,630  
was a negative say Bend or a negative

1235  
00:52:01,000 --> 00:51:58,670  
bias from the beginning to discredit the

1236  
00:52:02,470 --> 00:52:01,010  
work upfront what would be the reason

1237  
00:52:04,330 --> 00:52:02,480  
for that now obviously now we need to

1238  
00:52:06,790 --> 00:52:04,340

unless you've remote viewed it I haven't

1239

00:52:08,020 --> 00:52:06,800

heard about here this right but maybe

1240

00:52:09,610 --> 00:52:08,030

there are people who have I mean

1241

00:52:11,470 --> 00:52:09,620

actually I think well I won't go there

1242

00:52:12,640 --> 00:52:11,480

but it's you have to kind of look at it

1243

00:52:15,250 --> 00:52:12,650

from their perspective you mentioned the

1244

00:52:17,680 --> 00:52:15,260

MKULTRA right that was a huge like

1245

00:52:19,840 --> 00:52:17,690

disgrace for the CIA when that came out

1246

00:52:22,030 --> 00:52:19,850

the fact they were looking into that the

1247

00:52:24,310 --> 00:52:22,040

fact that it would it ended so horribly

1248

00:52:26,170 --> 00:52:24,320

died and so it's like the fact that this

1249

00:52:27,160 --> 00:52:26,180

was gonna come out like obviously

1250

00:52:28,270 --> 00:52:27,170

they're gonna want to distance

1251  
00:52:30,760 --> 00:52:28,280  
themselves that just to me seems like a

1252  
00:52:33,400 --> 00:52:30,770  
no-brainer based on historical factors

1253  
00:52:34,630 --> 00:52:33,410  
but the other thing that I think you

1254  
00:52:37,600 --> 00:52:34,640  
have to take into consideration is that

1255  
00:52:40,600 --> 00:52:37,610  
the CIA or release an aspect of CIA cats

1256  
00:52:42,700 --> 00:52:40,610  
can probably blanket paint a brush the

1257  
00:52:44,440 --> 00:52:42,710  
CIA right but there are certainly people

1258  
00:52:46,720 --> 00:52:44,450  
within the CIA that knew the program

1259  
00:52:48,820 --> 00:52:46,730  
worked but if you look at it from their

1260  
00:52:50,110 --> 00:52:48,830  
perspective what's gonna be going on

1261  
00:52:51,280 --> 00:52:50,120  
knowing that it's going to become

1262  
00:52:53,740 --> 00:52:51,290  
Declassified that there's an

1263  
00:52:55,780 --> 00:52:53,750

inevitability at that point well they

1264

00:52:58,030 --> 00:52:55,790

know that they have to kind of control

1265

00:52:59,920 --> 00:52:58,040

the release in the perspective on how

1266

00:53:01,990 --> 00:52:59,930

new people come into the information

1267

00:53:05,410 --> 00:53:02,000

about the program because what happens

1268

00:53:06,880 --> 00:53:05,420

when an intelligence agency no longer is

1269

00:53:10,320 --> 00:53:06,890

able to protect its most sensitive

1270

00:53:12,460 --> 00:53:10,330

secrets from everyday ordinary people if

1271

00:53:15,160 --> 00:53:12,470

remote-viewing enters into the public

1272

00:53:17,380 --> 00:53:15,170

domain it's not only recognized as a

1273

00:53:20,110 --> 00:53:17,390

possible real possibility but it's also

1274

00:53:21,640 --> 00:53:20,120

intriguing its stimulating it's all like

1275

00:53:24,600 --> 00:53:21,650

wow this is really cool I want to learn

1276

00:53:27,520 --> 00:53:24,610

how to do this what happens to the world

1277

00:53:29,680 --> 00:53:27,530

after that well you enter into a

1278

00:53:32,140 --> 00:53:29,690

completely new domain where you live

1279

00:53:33,250 --> 00:53:32,150

this as a should not wasn't Sheldrake or

1280

00:53:35,590 --> 00:53:33,260

maybe it is I can't remember where it

1281

00:53:37,000 --> 00:53:35,600

quoted for saying well essentially we

1282

00:53:38,590 --> 00:53:37,010

live in a world without secrets at that

1283

00:53:42,130 --> 00:53:38,600

point and really we're already in that

1284

00:53:43,930 --> 00:53:42,140

world it's just we don't yet I asked how

1285

00:53:45,400 --> 00:53:43,940

put off that question like you know like

1286

00:53:47,830 --> 00:53:45,410

I would I asked him actually did you

1287

00:53:49,240 --> 00:53:47,840

ever really think twice about working

1288

00:53:50,560 --> 00:53:49,250

for the intelligence community like you

1289

00:53:52,570 --> 00:53:50,570

know the information you're providing

1290

00:53:54,730 --> 00:53:52,580

could have been used to kill a terrorist

1291

00:53:56,830 --> 00:53:54,740

or could have been you know used for

1292

00:54:00,610 --> 00:53:56,840

some sort of negative end and and he

1293

00:54:02,410 --> 00:54:00,620

said you know I don't I don't regret

1294

00:54:05,430 --> 00:54:02,420

working for u.s. intelligence in my life

1295

00:54:09,010 --> 00:54:05,440

because intelligence does not start wars

1296

00:54:10,570 --> 00:54:09,020

ignorant starts Wars and and I've always

1297

00:54:13,270 --> 00:54:10,580

thought that was a really great quote

1298

00:54:14,530 --> 00:54:13,280

because it's you know we act as if like

1299

00:54:17,230 --> 00:54:14,540

oh we all have to have all of these

1300

00:54:19,090 --> 00:54:17,240

secrets and it's like well yeah but if

1301  
00:54:21,220 --> 00:54:19,100  
everybody has access to your secrets

1302  
00:54:23,440 --> 00:54:21,230  
then everybody's on an equal playing

1303  
00:54:25,870 --> 00:54:23,450  
field you know and and I think that's

1304  
00:54:27,430 --> 00:54:25,880  
that's really a start to this but but

1305  
00:54:31,180 --> 00:54:27,440  
but I wanted to interject and just say

1306  
00:54:32,650 --> 00:54:31,190  
that you know a lot of people don't know

1307  
00:54:34,630 --> 00:54:32,660  
the exact sort of amount of time that

1308  
00:54:35,859 --> 00:54:34,640  
this went on but you know you know US

1309  
00:54:41,499 --> 00:54:35,869  
intelligence used from

1310  
00:54:43,390 --> 00:54:41,509  
viewing from 1974 through 1995 I mean

1311  
00:54:45,789 --> 00:54:43,400  
really 1975 was the official connect

1312  
00:54:50,370 --> 00:54:45,799  
start of the u.s. from a viewing program

1313  
00:54:52,809 --> 00:54:50,380

that's the official record and my really

1314

00:54:54,400 --> 00:54:52,819

mission when I was going and talking to

1315

00:54:56,140 --> 00:54:54,410

all these people was to find out like

1316

00:54:58,480 --> 00:54:56,150

you know like wait is this something

1317

00:55:00,670 --> 00:54:58,490

that they thought what they were still

1318

00:55:03,069 --> 00:55:00,680

doing and again and again the people who

1319

00:55:04,569 --> 00:55:03,079

were public with this already that you

1320

00:55:06,400 --> 00:55:04,579

know the the main people like Joe

1321

00:55:10,029 --> 00:55:06,410

mcmoneagle and Russell and now put off

1322

00:55:12,039 --> 00:55:10,039

all told me that no they believed that

1323

00:55:15,009 --> 00:55:12,049

this was actually not going on because

1324

00:55:16,769 --> 00:55:15,019

it had been such a huge embarrassment

1325

00:55:21,210 --> 00:55:16,779

like the way that Brett mentioned

1326

00:55:24,190 --> 00:55:21,220

MKULTRA in what happened was in 1995

1327

00:55:26,349 --> 00:55:24,200

President Carter was giving a speech at

1328

00:55:29,109 --> 00:55:26,359

Emory University and this is in our film

1329

00:55:31,120 --> 00:55:29,119

which is top 5 on iTunes just as a

1330

00:55:33,910 --> 00:55:31,130

reminder please go out and order it

1331

00:55:36,999 --> 00:55:33,920

Carter basically came out and said at a

1332

00:55:38,319 --> 00:55:37,009

speech he was giving somebody asked him

1333

00:55:40,539 --> 00:55:38,329

what's the weirdest thing you ever saw

1334

00:55:42,190 --> 00:55:40,549

as president and Carter said well you

1335

00:55:44,319 --> 00:55:42,200

know when I was president we had lost

1336

00:55:46,239 --> 00:55:44,329

this Russian bomber in the jungle in the

1337

00:55:48,460 --> 00:55:46,249

Congo and this thing went down and it

1338

00:55:49,539 --> 00:55:48,470

had kind of a new design and we really

1339

00:55:50,920 --> 00:55:49,549

wanted to get a hold of it but it was

1340

00:55:52,720 --> 00:55:50,930

lost we couldn't nobody could find at

1341

00:55:55,420 --> 00:55:52,730

the KGB couldn't find it CIA couldn't

1342

00:55:56,829 --> 00:55:55,430

find it so the head of the CIA comes to

1343

00:55:58,650 --> 00:55:56,839

me one day and says you know there's

1344

00:56:00,880 --> 00:55:58,660

these psychics out in California and

1345

00:56:02,589 --> 00:56:00,890

maybe they can find your bomber for you

1346

00:56:05,410 --> 00:56:02,599

and I said well can't hurt let him try

1347

00:56:07,359 --> 00:56:05,420

and all I know is they brought back some

1348

00:56:09,279 --> 00:56:07,369

coordinates the coordinates were correct

1349

00:56:11,049 --> 00:56:09,289

we looked there we found the bomber and

1350

00:56:13,180 --> 00:56:11,059

that was the weirdest thing and and what

1351

00:56:17,440 --> 00:56:13,190

Carter didn't realize he was doing is he

1352

00:56:20,410 --> 00:56:17,450

was outing a still ongoing initial

1353

00:56:22,539 --> 00:56:20,420

access project classified top secret you

1354

00:56:24,579 --> 00:56:22,549

know he didn't know that and and and so

1355

00:56:27,039 --> 00:56:24,589

instantly the CIA springs into action

1356

00:56:28,599 --> 00:56:27,049

and the CIA had actually only been

1357

00:56:30,400 --> 00:56:28,609

officially involved the program at the

1358

00:56:32,589 --> 00:56:30,410

inception you know and then they sort of

1359

00:56:34,749 --> 00:56:32,599

backed off and dia defense intelligence

1360

00:56:37,930 --> 00:56:34,759

agency took the project over for many

1361

00:56:40,539 --> 00:56:37,940

years and CIA was asked to take it on

1362

00:56:43,479 --> 00:56:40,549

again and evaluate it and so that same

1363

00:56:44,950 --> 00:56:43,489

year that cartage said that you know CIA

1364

00:56:47,559 --> 00:56:44,960

evaluated it they brought in a very

1365

00:56:49,330 --> 00:56:47,569

well-known skeptic of sigh phenomenon by

1366

00:56:52,540 --> 00:56:49,340

the name of Ray Hyman

1367

00:56:55,090 --> 00:56:52,550

another person was brought in Julia

1368

00:56:57,910 --> 00:56:55,100

Jessica Utz who was the president of the

1369

00:57:01,120 --> 00:56:57,920

American statistical Society and and

1370

00:57:02,950 --> 00:57:01,130

they both looked at the data Jessica

1371

00:57:05,470 --> 00:57:02,960

said look the data says that remote

1372

00:57:07,000 --> 00:57:05,480

viewing is real even Ray Hyman couldn't

1373

00:57:09,310 --> 00:57:07,010

deny that but he said I doubt that you

1374

00:57:12,520 --> 00:57:09,320

could use it for anything but but the

1375

00:57:15,580 --> 00:57:12,530

thing is nobody was allowed to talk to

1376  
00:57:19,270 --> 00:57:15,590  
any remote viewer nobody to talk to any

1377  
00:57:21,850 --> 00:57:19,280  
of the original researchers nobody ever

1378  
00:57:23,260 --> 00:57:21,860  
even opened the boxes in the Pentagon

1379  
00:57:24,970 --> 00:57:23,270  
I've heard this from several different

1380  
00:57:27,760 --> 00:57:24,980  
different people now that were involved

1381  
00:57:29,560 --> 00:57:27,770  
that the boxes remain sealed with all of

1382  
00:57:31,810 --> 00:57:29,570  
the remote viewing data of the last 20

1383  
00:57:35,290 --> 00:57:31,820  
years in it that was operational nobody

1384  
00:57:38,410 --> 00:57:35,300  
bothered to look so why is that because

1385  
00:57:40,960 --> 00:57:38,420  
yeah it was inconvenient truths right

1386  
00:57:43,930 --> 00:57:40,970  
and and but hmm and I think part of it

1387  
00:57:45,670 --> 00:57:43,940  
was a true embarrassment they didn't

1388  
00:57:47,980 --> 00:57:45,680

want to win the Golden Fleece award for

1389

00:57:51,220 --> 00:57:47,990

you know spending money on the dumbest

1390

00:57:53,710 --> 00:57:51,230

you know special access project and they

1391

00:57:55,270 --> 00:57:53,720

also didn't want this to get out

1392

00:57:57,160 --> 00:57:55,280

publicly you know like that there that

1393

00:57:58,810 --> 00:57:57,170

just how effective it had been so very

1394

00:58:04,240 --> 00:57:58,820

quietly they canceled the program in

1395

00:58:06,400 --> 00:58:04,250

1995 and and that was sort of officially

1396

00:58:09,880 --> 00:58:06,410

the the the end of it after they

1397

00:58:11,160 --> 00:58:09,890

released this report but but again we

1398

00:58:13,600 --> 00:58:11,170

have to go back to this idea of

1399

00:58:15,460 --> 00:58:13,610

stovepiping you know if everything is

1400

00:58:18,820 --> 00:58:15,470

sort of compartmentalized when it comes

1401

00:58:21,310 --> 00:58:18,830

to intelligence and like Brett said the

1402

00:58:24,100 --> 00:58:21,320

the entire time of this program's

1403

00:58:27,220 --> 00:58:24,110

existence the CIA was the most active

1404

00:58:28,780 --> 00:58:27,230

user of the information they tasked more

1405

00:58:31,600 --> 00:58:28,790

targets than anybody else but at the

1406

00:58:33,700 --> 00:58:31,610

same time so did so did Secret Service

1407

00:58:34,330 --> 00:58:33,710

use this the Coast Guard used this very

1408

00:58:37,480 --> 00:58:34,340

effectively

1409

00:58:40,210 --> 00:58:37,490

you know NSA you know I mean pretty much

1410

00:58:41,470 --> 00:58:40,220

every branch of US intelligence used

1411

00:58:45,010 --> 00:58:41,480

this very effectively

1412

00:58:47,920 --> 00:58:45,020

so what wasn't there a couple attempts

1413

00:58:52,180 --> 00:58:47,930

to define the submarines that had gotten

1414

00:58:53,920 --> 00:58:52,190

lost there was a this is in the this is

1415

00:58:56,530 --> 00:58:53,930

in our film third eye spies

1416

00:59:02,860 --> 00:58:56,540

you know Joe McManus considered a clever

1417

00:59:04,000 --> 00:59:02,870

of me to know that the army had

1418

00:59:07,020 --> 00:59:04,010

he was probably their most well known

1419

00:59:09,340 --> 00:59:07,030

reviewer you know he's in their film and

1420

00:59:10,690 --> 00:59:09,350

he talks about the fact that he was

1421

00:59:14,170 --> 00:59:10,700

tasked to look at what was going on

1422

00:59:16,600 --> 00:59:14,180

inside a giant building in in Russia

1423

00:59:18,850 --> 00:59:16,610

about three miles from the Seacoast and

1424

00:59:21,130 --> 00:59:18,860

and he starts coming back with all of

1425

00:59:22,390 --> 00:59:21,140

this information about giant submarines

1426

00:59:25,690 --> 00:59:22,400

being built there that were probably

1427

00:59:29,200 --> 00:59:25,700

twice the size of any submarine that was

1428

00:59:31,120 --> 00:59:29,210

in existence at the time and CIA thought

1429

00:59:32,290 --> 00:59:31,130

he was crazy you know in sadhana they

1430

00:59:33,790 --> 00:59:32,300

can't be building and it's not even near

1431

00:59:36,760 --> 00:59:33,800

the water why are they gonna build a you

1432

00:59:38,200 --> 00:59:36,770

know a submarine way out there and he

1433

00:59:39,370 --> 00:59:38,210

goes nope you know here's the design of

1434

00:59:41,230 --> 00:59:39,380

it you know this is what it looks like

1435

00:59:42,760 --> 00:59:41,240

you know it's got twin hulls and it's

1436

00:59:44,920 --> 00:59:42,770

got a certain kind of torpedo that does

1437

00:59:49,960 --> 00:59:44,930

this and blah blah blah all this data

1438

00:59:53,350 --> 00:59:49,970

and the person who tasked that was

1439

00:59:54,910 --> 00:59:53,360

Robert Gates you may be familiar with

1440

00:59:58,830 --> 00:59:54,920

Robert Gates he was Secretary of Defense

1441

01:00:00,610 --> 00:59:58,840

he was head of the CIA at one point and

1442

01:00:02,650 --> 01:00:00,620

Robert Gates said no I don't think

1443

01:00:05,080 --> 01:00:02,660

there's anything there but go ahead I'll

1444

01:00:07,630 --> 01:00:05,090

I'll send us the satellite to look at

1445

01:00:08,800 --> 01:00:07,640

that oh yeah because Joe told him it's

1446

01:00:12,220 --> 01:00:08,810

gonna launch in a hundred and twenty

1447

01:00:14,800 --> 01:00:12,230

days so Gates orders the satellite to

1448

01:00:17,140 --> 01:00:14,810

look at that facility 115 days later and

1449

01:00:20,880 --> 01:00:17,150

lo and behold the Soviets have built

1450

01:00:25,300 --> 01:00:20,890

this trench going three miles out to sea

1451

01:00:28,030 --> 01:00:25,310

and there was a giant submarine called a

1452

01:00:31,240 --> 01:00:28,040

typhoon class I'm sorry what is it the

1453

01:00:33,100 --> 01:00:31,250

yeah TK 109 you know Soviet nuclear

1454

01:00:35,410 --> 01:00:33,110

submarine the biggest submarine ever

1455

01:00:37,420 --> 01:00:35,420

launched in history is sitting there

1456

01:00:38,950 --> 01:00:37,430

with all the bay doors open and the

1457

01:00:41,410 --> 01:00:38,960

satellite is able to just go in there

1458

01:00:44,620 --> 01:00:41,420

and look at everything and according to

1459

01:00:47,350 --> 01:00:44,630

Joe they got more data than they had in

1460

01:00:48,970 --> 01:00:47,360

the entire archives of the CIA about

1461

01:00:54,300 --> 01:00:48,980

what was going on with the Soviet Navy

1462

01:00:56,590 --> 01:00:54,310

in that one task that he did and and so

1463

01:00:58,900 --> 01:00:56,600

you know it to say the remote viewing

1464

01:01:01,420 --> 01:00:58,910

doesn't work you know you may also I

1465

01:01:03,460 --> 01:01:01,430

mean another clip in our film you have

1466

01:01:05,620 --> 01:01:03,470

Robert Gates on Nightline at the time

1467

01:01:07,420 --> 01:01:05,630

that the program closed basically saying

1468

01:01:09,100 --> 01:01:07,430

oh yeah yeah

1469

01:01:10,990 --> 01:01:09,110

remote viewing it was something that you

1470

01:01:13,810 --> 01:01:11,000

know we tried we looked at it but it was

1471

01:01:15,070 --> 01:01:13,820

never useful for operational stuff well

1472

01:01:16,930 --> 01:01:15,080

you know we never actually got anything

1473

01:01:20,770 --> 01:01:16,940

that we actually acted

1474

01:01:24,160 --> 01:01:20,780

on it's not true it's not true you know

1475

01:01:28,120 --> 01:01:24,170

and I think it's even more so than I

1476

01:01:28,990 --> 01:01:28,130

mean one of the big kind of start things

1477

01:01:30,910 --> 01:01:29,000

that they realize that they could

1478

01:01:33,069 --> 01:01:30,920

describe these distant locations but

1479

01:01:36,339 --> 01:01:33,079

it's they took it even a step further

1480

01:01:38,319 --> 01:01:36,349

than that - and this comes with the Air

1481

01:01:41,170 --> 01:01:38,329

Force at the pass of the Air Force they

1482

01:01:44,530 --> 01:01:41,180

tasked s RI with they were interested in

1483

01:01:47,109 --> 01:01:44,540

developing this underground railroad

1484

01:01:49,450 --> 01:01:47,119

system yes to transport yeah to

1485

01:01:51,190 --> 01:01:49,460

transport nuclear warheads back and

1486

01:01:52,599 --> 01:01:51,200

forth the different silos so that

1487

01:01:55,420 --> 01:01:52,609

because in the Cold War they are always

1488

01:01:57,700 --> 01:01:55,430

all about okay if they take out our you

1489

01:01:59,140 --> 01:01:57,710

know first strike capability then we're

1490

01:02:00,700 --> 01:01:59,150

sitting ducks and so how can we

1491

01:02:02,380 --> 01:02:00,710

counteract that so the Air Force had

1492

01:02:05,380 --> 01:02:02,390

this grand idea to build this

1493

01:02:06,700 --> 01:02:05,390

underground railroad system transport

1494

01:02:08,589 --> 01:02:06,710

the nukes back and forth or random

1495

01:02:09,760 --> 01:02:08,599

nobody will know where they are and so

1496

01:02:11,680 --> 01:02:09,770

they're like okay huh

1497

01:02:13,720 --> 01:02:11,690

well let's see if this works let's test

1498

01:02:15,370 --> 01:02:13,730

these psychics out on the they're

1499

01:02:18,609 --> 01:02:15,380

working with these physicists to see if

1500

01:02:22,240 --> 01:02:18,619

they can crack this code and originally

1501

01:02:23,319 --> 01:02:22,250

they set it up to be a test on a monitor

1502

01:02:24,970 --> 01:02:23,329

that you know they did like some

1503

01:02:27,370 --> 01:02:24,980

preliminary testing where they'd have

1504

01:02:29,530 --> 01:02:27,380

ten circles on a monitor representing

1505

01:02:31,210 --> 01:02:29,540

ten different possible places that the

1506

01:02:33,609 --> 01:02:31,220

nuclear missile the warhead could be and

1507

01:02:36,339 --> 01:02:33,619

the viewer was asked to essentially

1508

01:02:38,410 --> 01:02:36,349

press a button to indicate which circle

1509

01:02:40,990 --> 01:02:38,420

they believed that the imaginary war had

1510

01:02:43,450 --> 01:02:41,000

to be located and if you're thinking of

1511

01:02:44,800 --> 01:02:43,460

just random chance I mean it's easy to

1512

01:02:47,140 --> 01:02:44,810

figure out what you would expect right

1513

01:02:49,210 --> 01:02:47,150

it's a one in ten chance every single

1514

01:02:53,170 --> 01:02:49,220

time so you'd expect that in the results

1515

01:02:55,150 --> 01:02:53,180

hella Hammad the controller no viewer

1516

01:02:57,670 --> 01:02:55,160

not one of the professionals like

1517

01:03:00,130 --> 01:02:57,680

naturally gifted psychics the control in

1518

01:03:03,250 --> 01:03:00,140

the study was able to reach an accuracy

1519

01:03:06,099 --> 01:03:03,260

rate of one in four not one in ten and

1520

01:03:08,800 --> 01:03:06,109

so they read they returned these results

1521

01:03:11,500 --> 01:03:08,810

and like oh okay well why don't we why

1522

01:03:14,620 --> 01:03:11,510

do we do alive let's do a hot test so

1523

01:03:17,530 --> 01:03:14,630

they did a live test is what they set up

1524

01:03:19,540 --> 01:03:17,540

against a real-world missile silo and

1525

01:03:22,720 --> 01:03:19,550

there were ten remote viewing trials and

1526  
01:03:26,109 --> 01:03:22,730  
they used the team to determine where

1527  
01:03:30,340 --> 01:03:26,119  
this would be and out of all twelve

1528  
01:03:32,950 --> 01:03:30,350  
trials they achieved a 100% accurate

1529  
01:03:38,260 --> 01:03:32,960  
rating that's that's a probability of

1530  
01:03:40,600 --> 01:03:38,270  
one in a trillion and now that didn't

1531  
01:03:42,870 --> 01:03:40,610  
sit well with the Air Force so there you

1532  
01:03:45,370 --> 01:03:42,880  
know quietly just be ended that project

1533  
01:03:47,470 --> 01:03:45,380  
classified it and we're like okay we're

1534  
01:03:49,390 --> 01:03:47,480  
done we're not going to do that so like

1535  
01:03:51,070 --> 01:03:49,400  
to say that this doesn't work and not

1536  
01:03:53,440 --> 01:03:51,080  
only not work but you can't use it to

1537  
01:03:55,930 --> 01:03:53,450  
strategically solve problems that you

1538  
01:03:58,120 --> 01:03:55,940

otherwise there'd be no possible way to

1539

01:04:00,850 --> 01:03:58,130

actually solve like that's the real

1540

01:04:02,680 --> 01:04:00,860

power of this skill and what it was

1541

01:04:06,840 --> 01:04:02,690

applied to and what people are still

1542

01:04:09,850 --> 01:04:06,850

applying it to today mm-hmm I actually

1543

01:04:12,580 --> 01:04:09,860

I'm sorry to interject go ahead to just

1544

01:04:14,020 --> 01:04:12,590

add to that story because it's great

1545

01:04:16,660 --> 01:04:14,030

that you brought that story up because I

1546

01:04:18,790 --> 01:04:16,670

actually forgot that that story is the

1547

01:04:21,670 --> 01:04:18,800

other reason that the remote viewing

1548

01:04:22,120 --> 01:04:21,680

program was cancelled really I wasn't

1549

01:04:24,610 --> 01:04:22,130

aware of that

1550

01:04:27,640 --> 01:04:24,620

yes I I've talked to at length to

1551

01:04:30,190 --> 01:04:27,650

Charlie tart about this and actually you

1552

01:04:32,280 --> 01:04:30,200

know Charlie tart a parapsychologist you

1553

01:04:34,870 --> 01:04:32,290

know professor at I believe it's

1554

01:04:36,550 --> 01:04:34,880

Berkeley you know a long time SR I

1555

01:04:39,300 --> 01:04:36,560

consultant for this kind of stuff

1556

01:04:42,430 --> 01:04:39,310

written many books is in the movie

1557

01:04:45,270 --> 01:04:42,440

he you may also not know that this all

1558

01:04:49,990 --> 01:04:45,280

started with a group of college students

1559

01:04:52,900 --> 01:04:50,000

Charlie tart had a class at the college

1560

01:04:54,730 --> 01:04:52,910

he was teaching at and decided that he

1561

01:04:56,620 --> 01:04:54,740

wanted to do a remote viewing experiment

1562

01:05:00,400 --> 01:04:56,630

in the psychology class and he was

1563

01:05:02,650 --> 01:05:00,410

teaching so he knew this information

1564

01:05:04,510 --> 01:05:02,660

about this underground you know missile

1565

01:05:06,730 --> 01:05:04,520

silo you know that they were gonna

1566

01:05:08,650 --> 01:05:06,740

basically move these nukes around on on

1567

01:05:12,130 --> 01:05:08,660

boxcars to prevent the Soviets from

1568

01:05:13,750 --> 01:05:12,140

being able to properly target them so he

1569

01:05:14,920 --> 01:05:13,760

built that a machine that was the

1570

01:05:16,480 --> 01:05:14,930

earliest version of what you're talking

1571

01:05:18,100 --> 01:05:16,490

about this like kind of like 10 button

1572

01:05:21,820 --> 01:05:18,110

thing look like a roulette wheel kinda

1573

01:05:23,410 --> 01:05:21,830

and and he found that I I don't know

1574

01:05:24,940 --> 01:05:23,420

exactly what the statistics were but

1575

01:05:26,980 --> 01:05:24,950

something like seven out of nine times

1576

01:05:30,310 --> 01:05:26,990

or something like that that that his

1577

01:05:32,380 --> 01:05:30,320

students could predict where the missile

1578

01:05:33,160 --> 01:05:32,390

was gonna be you know and in this kind

1579

01:05:34,210 --> 01:05:33,170

of shell game

1580

01:05:36,460 --> 01:05:34,220

you know this missile shell game they're

1581

01:05:40,900 --> 01:05:36,470

gonna try to play and and so he sent

1582

01:05:43,270 --> 01:05:40,910

that data to SR I and at the time SR I

1583

01:05:44,120 --> 01:05:43,280

was looking for funding and things like

1584

01:05:45,980 --> 01:05:44,130

that so

1585

01:05:47,840 --> 01:05:45,990

why does some more experiments and they

1586

01:05:49,100 --> 01:05:47,850

sent it to the all the data to the Air

1587

01:05:53,600 --> 01:05:49,110

Force actually to somebody in the

1588

01:05:55,300 --> 01:05:53,610

president's cabinet and and the generals

1589

01:05:58,550 --> 01:05:55,310

who were in charge of this

1590

01:06:01,910 --> 01:05:58,560

multibillion-dollar scheme that they

1591

01:06:06,020 --> 01:06:01,920

were gonna do were furious at SR I high

1592

01:06:07,940 --> 01:06:06,030

by bet yeah this guy like rained on

1593

01:06:09,650 --> 01:06:07,950

their like nuclear parade basically I

1594

01:06:12,500 --> 01:06:09,660

mean they were gonna do this like big

1595

01:06:14,060 --> 01:06:12,510

thing and and so yes they canceled the

1596

01:06:17,540 --> 01:06:14,070

program and that was right around the

1597

01:06:19,370 --> 01:06:17,550

time that they they basically canceled

1598

01:06:21,440 --> 01:06:19,380

the rest as well and and and because the

1599

01:06:22,880 --> 01:06:21,450

generals were advocating for it to be

1600

01:06:24,590 --> 01:06:22,890

cancelled just because simply they were

1601

01:06:26,450 --> 01:06:24,600

pissed off that they lost their their

1602

01:06:28,160 --> 01:06:26,460

multi-billion dollar contract and they

1603

01:06:30,440 --> 01:06:28,170

well they had the rug pulled out from

1604

01:06:32,210 --> 01:06:30,450

under them right now regardless Taplin

1605

01:06:34,840 --> 01:06:32,220

and usefulness of remote viewing they

1606

01:06:38,150 --> 01:06:34,850

had to probably invent Dedham United I

1607

01:06:40,670 --> 01:06:38,160

know it's time until they kill the

1608

01:06:42,290 --> 01:06:40,680

messenger no it's absolutely true there

1609

01:06:44,570 --> 01:06:42,300

were than Dennis like that there was

1610

01:06:47,240 --> 01:06:44,580

tons of infighting they had allies and

1611

01:06:48,770 --> 01:06:47,250

they also had like real enemies yeah you

1612

01:06:51,860 --> 01:06:48,780

know in the intelligence community in it

1613

01:06:55,820 --> 01:06:51,870

and in high places because a lot of it

1614

01:06:57,620 --> 01:06:55,830

was was just sort of dogma you know some

1615

01:06:59,990 --> 01:06:57,630

of it was was actually religious dogma I

1616

01:07:02,840 --> 01:07:00,000

mean when I first brought the idea of

1617

01:07:04,910 --> 01:07:02,850

doing third eye spies up to Russell Targ

1618

01:07:06,410 --> 01:07:04,920

and we were talking about it I said yeah

1619

01:07:07,970 --> 01:07:06,420

he's giving me all this data and all

1620

01:07:11,210 --> 01:07:07,980

this information and I said okay hold on

1621

01:07:12,830 --> 01:07:11,220

I'm a storyteller just just tell me

1622

01:07:14,510 --> 01:07:12,840

who's the villain like you know like

1623

01:07:16,430 --> 01:07:14,520

who's the bad guy in this piece like

1624

01:07:19,160 --> 01:07:16,440

what's the the thing that we can sort of

1625

01:07:22,790 --> 01:07:19,170

root to kind of overcome and and he says

1626

01:07:24,170 --> 01:07:22,800

well it's religious dogma and I said

1627

01:07:25,610 --> 01:07:24,180

religious dogma is that don't you mean

1628

01:07:27,290 --> 01:07:25,620

like science at times so he got me says

1629

01:07:30,440 --> 01:07:27,300

yeah that too but but really it was the

1630

01:07:32,740 --> 01:07:30,450

the hardcore sort of religious

1631

01:07:35,930 --> 01:07:32,750

fundamentalists that were in government

1632

01:07:38,240 --> 01:07:35,940

so much refused to look at the data you

1633

01:07:41,810 --> 01:07:38,250

know and and and they were constantly

1634

01:07:43,310 --> 01:07:41,820

trying to shut that program down and and

1635

01:07:44,840 --> 01:07:43,320

and you know the government and

1636

01:07:46,460 --> 01:07:44,850

especially elected officials overseeing

1637

01:07:48,380 --> 01:07:46,470

this stuff even at top secret levels

1638

01:07:50,630 --> 01:07:48,390

didn't want to deal with the flack from

1639

01:07:53,660 --> 01:07:50,640

the people underneath them so that

1640

01:07:55,070 --> 01:07:53,670

really contributed a great deal to sort

1641

01:07:57,620 --> 01:07:55,080

of it not being used to its fullest

1642

01:07:58,940 --> 01:07:57,630

extent did did

1643

01:08:00,349 --> 01:07:58,950

did they think that they were dealing

1644

01:08:05,319 --> 01:08:00,359

you know like with the devil or

1645

01:08:08,450 --> 01:08:05,329

something like that absolutely yeah well

1646

01:08:11,180 --> 01:08:08,460

believe it or not towards the end of it

1647

01:08:14,450 --> 01:08:11,190

it's like the UFO field the UFO field is

1648

01:08:16,820 --> 01:08:14,460

the same way one of the the elements in

1649

01:08:19,039 --> 01:08:16,830

the that was discouraging I mean the

1650

01:08:22,309 --> 01:08:19,049

serious research was the fact that there

1651

01:08:25,669 --> 01:08:22,319

was a whole group of individuals in the

1652

01:08:27,890 --> 01:08:25,679

Pentagon and in other positions and the

1653

01:08:30,620 --> 01:08:27,900

government who thought that this was all

1654

01:08:33,379 --> 01:08:30,630

demonic and you know the more you

1655

01:08:38,419 --> 01:08:33,389

researched it the more you could open up

1656

01:08:40,519 --> 01:08:38,429

the the portals to hell one of the

1657

01:08:42,590 --> 01:08:40,529

things that is maybe lesser known about

1658

01:08:45,709 --> 01:08:42,600

towards the end of the program there's a

1659

01:08:47,720 --> 01:08:45,719

number of accounts where you know in the

1660

01:08:49,610 --> 01:08:47,730

late 90s that I mean is after all the

1661

01:08:51,140 --> 01:08:49,620

researchers had left all the original

1662

01:08:54,110 --> 01:08:51,150

members had already moved on to other

1663

01:08:56,660 --> 01:08:54,120

things but where they had a little bit

1664

01:08:58,910 --> 01:08:56,670

of a change in direction in management

1665

01:09:00,379 --> 01:08:58,920

of the what was referred to as the

1666

01:09:03,379 --> 01:09:00,389

Stargate program at that point before

1667

01:09:06,860 --> 01:09:03,389

was Declassified 95 and what they

1668

01:09:09,289 --> 01:09:06,870

decided to do was also to fill in their

1669

01:09:12,379 --> 01:09:09,299

ranks was to bring in other people that

1670

01:09:14,689 --> 01:09:12,389

were not necessarily remote viewers they

1671

01:09:17,570 --> 01:09:14,699

were using Ouija boards or other things

1672

01:09:19,309 --> 01:09:17,580

and so that was not that did not

1673

01:09:20,749 --> 01:09:19,319

originate out of the original scientific

1674

01:09:23,419 --> 01:09:20,759

research and regardless of what you

1675

01:09:24,979 --> 01:09:23,429

think about that that I'm sure that play

1676

01:09:27,079 --> 01:09:24,989

must have played some part of it it

1677

01:09:29,809 --> 01:09:27,089

played to people's fears maybe that OSI

1678

01:09:31,729 --> 01:09:29,819

aha now I can now I know for sure that

1679

01:09:33,800 --> 01:09:31,739

this is the act of the devil and you

1680

01:09:36,439 --> 01:09:33,810

know they can glug glaze over

1681

01:09:38,209 --> 01:09:36,449

essentially the 20 years of scientific

1682

01:09:40,039 --> 01:09:38,219

research that was put into developing

1683

01:09:41,780 --> 01:09:40,049

this skill so maybe that even played a

1684

01:09:44,450 --> 01:09:41,790

part as well well I think what what

1685

01:09:46,760 --> 01:09:44,460

you're the the byproduct of what you're

1686

01:09:48,499 --> 01:09:46,770

talking about is that the army at that

1687

01:09:50,930 --> 01:09:48,509

time towards the end of the program like

1688

01:09:52,999 --> 01:09:50,940

in the early 90s was being choked off of

1689

01:09:55,280 --> 01:09:53,009

funding so they probably couldn't really

1690

01:09:57,080 --> 01:09:55,290

find you know they couldn't do any kind

1691

01:09:58,399 --> 01:09:57,090

of real recruitment cuz they were just

1692

01:09:59,330 --> 01:09:58,409

grabbing like whoever they could to come

1693

01:10:00,890 --> 01:09:59,340

in and this was actually a theme

1694

01:10:02,720 --> 01:10:00,900

throughout because they found anybody

1695

01:10:03,709 --> 01:10:02,730

could do this you know anybody could do

1696

01:10:05,120 --> 01:10:03,719

this and they would describe you know

1697

01:10:08,540 --> 01:10:05,130

various people and have them do it and

1698

01:10:10,310 --> 01:10:08,550

and a lot of the the biggest remote

1699

01:10:11,030 --> 01:10:10,320

viewers that we know publicly have said

1700

01:10:13,880 --> 01:10:11,040

they're not doing

1701

01:10:15,920 --> 01:10:13,890

still but but the thing is both Brett

1702

01:10:18,740 --> 01:10:15,930

and you and I know it's not that hard to

1703

01:10:20,840 --> 01:10:18,750

do you know you know so so you don't

1704

01:10:22,790 --> 01:10:20,850

need billions of dollars you don't need

1705

01:10:24,950 --> 01:10:22,800

congressional oversight you could have a

1706

01:10:26,600 --> 01:10:24,960

book club that meets on Wednesdays and

1707

01:10:27,980 --> 01:10:26,610

says okay let's remote view what's going

1708

01:10:29,810 --> 01:10:27,990

on and then you just double-check that

1709

01:10:32,060 --> 01:10:29,820

with the intelligence community see if

1710

01:10:33,710 --> 01:10:32,070

they're right or not and then wallah

1711

01:10:35,540 --> 01:10:33,720

you have your own fair I mean there are

1712

01:10:38,030 --> 01:10:35,550

groups public groups all around the

1713

01:10:40,610 --> 01:10:38,040

world that know learn how to do it like

1714

01:10:42,830 --> 01:10:40,620

with over a thousand people in them that

1715

01:10:44,480 --> 01:10:42,840

use remote viewing on the market they

1716

01:10:46,520 --> 01:10:44,490

predict market trends and there's a lot

1717

01:10:48,260 --> 01:10:46,530

of these groups that have over 70%

1718

01:10:50,330 --> 01:10:48,270

accurate or accuracy rating you know on

1719

01:10:53,030 --> 01:10:50,340

future predictions we have it up we have

1720

01:10:54,380 --> 01:10:53,040

an extra on a night on YouTube on my

1721

01:10:56,150 --> 01:10:54,390

YouTube page right now

1722

01:10:57,920 --> 01:10:56,160

I've spent a week following those guys

1723

01:11:00,040 --> 01:10:57,930

that are doing gambling experiments the

1724

01:11:02,720 --> 01:11:00,050

Applied precognition project in Vegas

1725

01:11:03,140 --> 01:11:02,730

I'm doing a 20-minute mini documentary

1726

01:11:05,390 --> 01:11:03,150

on it

1727

01:11:07,100 --> 01:11:05,400

you know and that's on there so so so

1728

01:11:09,710 --> 01:11:07,110

but but the thing is Brett even you

1729

01:11:11,240 --> 01:11:09,720

could be tasked doing a classified work

1730

01:11:12,380 --> 01:11:11,250

right now and you may not know it you

1731

01:11:14,330 --> 01:11:12,390

may be thinking you're working for a

1732

01:11:15,710 --> 01:11:14,340

corporation or someone else you know but

1733

01:11:17,780 --> 01:11:15,720

somebody from the CIA says yeah these

1734

01:11:19,610 --> 01:11:17,790

guys accuracies pretty good let me just

1735

01:11:21,890 --> 01:11:19,620

feed them this data and then see what

1736

01:11:23,270 --> 01:11:21,900

they come back with and and I like let

1737

01:11:24,920 --> 01:11:23,280

me let me let me interrupt you here

1738

01:11:26,540 --> 01:11:24,930

because unfortunately we have to go to

1739

01:11:28,580 --> 01:11:26,550

our bottom of the hour break when we

1740

01:11:30,980 --> 01:11:28,590

come back I'll let you continue that

1741

01:11:39,920 --> 01:11:30,990

thought on exploring the desires stay

1742

01:11:46,650 --> 01:11:44,070

now back to exploring the bazaars with

1743

01:11:49,950 --> 01:11:46,660

two of the most electrifying researchers

1744

01:11:55,380 --> 01:11:49,960

in the Paranoid your hosts Timothy Becca

1745

01:11:57,900 --> 01:11:55,390

Lee and Kings hosts all right welcome

1746

01:11:59,670 --> 01:11:57,910

back to exploring the bazaar yeah let's

1747

01:12:02,040 --> 01:11:59,680

eat tonight we're talking about remote

1748

01:12:05,550 --> 01:12:02,050

viewing with Lance munguia and Brett

1749

01:12:09,030 --> 01:12:05,560

Stewart and Lance this is this is for

1750

01:12:10,760 --> 01:12:09,040

Tim Beckley I know that he loves this

1751

01:12:14,910 --> 01:12:10,770

kind of stuff

1752

01:12:17,750 --> 01:12:14,920

tell us the story about you talked to in

1753

01:12:21,560 --> 01:12:17,760

the last segment about Jimmy Carter

1754

01:12:24,360 --> 01:12:21,570

accidentally blowing the cover on the

1755

01:12:26,490 --> 01:12:24,370

remote viewing projects tell us a story

1756

01:12:30,870 --> 01:12:26,500

about the little bit of synchronicity

1757

01:12:33,840 --> 01:12:30,880

that you had when trying to dig up the

1758

01:12:36,720 --> 01:12:33,850

information or try to find a source for

1759

01:12:37,890 --> 01:12:36,730

this story well you know somebody must

1760

01:12:39,390 --> 01:12:37,900

have seen something else I've done

1761

01:12:41,040 --> 01:12:39,400

because I hardly ever talk about this

1762

01:12:42,840 --> 01:12:41,050

but but yeah I mean there were a few

1763

01:12:45,060 --> 01:12:42,850

like amazing synchronistic things that

1764

01:12:47,910 --> 01:12:45,070

happened as I was making this film I was

1765

01:12:50,940 --> 01:12:47,920

I had heard this information that um

1766

01:12:52,140 --> 01:12:50,950

that Carter had outed this program again

1767

01:12:53,730 --> 01:12:52,150

and again from different people and

1768

01:12:55,440 --> 01:12:53,740

interviews and and you know I looked

1769

01:12:57,930 --> 01:12:55,450

everywhere for the source information I

1770

01:13:00,510 --> 01:12:57,940

was trying so Russell said came from CNN

1771

01:13:02,100 --> 01:13:00,520

I couldn't find the clip of Carter

1772

01:13:04,710 --> 01:13:02,110

saying it on CNN

1773

01:13:07,430 --> 01:13:04,720

you know I looked in newspapers you know

1774

01:13:12,530 --> 01:13:07,440

all of these different things and and

1775

01:13:14,580 --> 01:13:12,540

the the I even spoke to help put off who

1776

01:13:16,650 --> 01:13:14,590

you know his wife went to Emory

1777

01:13:18,360 --> 01:13:16,660

University and and and his wife actually

1778

01:13:19,530 --> 01:13:18,370

volunteered and said well I'll go back

1779

01:13:21,060 --> 01:13:19,540

to Emory and I'll look through their

1780

01:13:23,310 --> 01:13:21,070

archives I'm gonna send out an email to

1781

01:13:25,560 --> 01:13:23,320

the Alumni Association to see if anybody

1782

01:13:29,160 --> 01:13:25,570

was there or might have a tape recording

1783

01:13:30,660 --> 01:13:29,170

of it or something and and luckily the

1784

01:13:33,240 --> 01:13:30,670

film took like several years to make

1785

01:13:34,620 --> 01:13:33,250

because I would tell even friends this

1786

01:13:36,360 --> 01:13:34,630

story about Carter and they would say oh

1787

01:13:38,460 --> 01:13:36,370

come on Carter didn't say that really

1788

01:13:40,830 --> 01:13:38,470

where's your proof you know and and then

1789

01:13:41,550 --> 01:13:40,840

one day I was walking down the street in

1790

01:13:42,960 --> 01:13:41,560

Pasadena

1791

01:13:45,300 --> 01:13:42,970

you know nearby where I lived at the

1792

01:13:46,410 --> 01:13:45,310

time and and I was thinking about this

1793

01:13:48,090 --> 01:13:46,420

and I was thinking oh man

1794

01:13:50,670 --> 01:13:48,100

I really need to find some way of

1795

01:13:52,740 --> 01:13:50,680

verifying this for the film and I sat

1796

01:13:54,480 --> 01:13:52,750

down in front of Robyn's books there and

1797

01:13:57,150 --> 01:13:54,490

I and I looked up and there's this big

1798

01:13:59,700 --> 01:13:57,160

giant poster of Jimmy Carter's face you

1799

01:14:04,470 --> 01:13:59,710

know his autobiography my life had just

1800

01:14:06,360 --> 01:14:04,480

come out and and and I said you know wow

1801

01:14:08,160 --> 01:14:06,370

that's that's interesting you know like

1802

01:14:10,950 --> 01:14:08,170

what's what's that and so I so I ran

1803

01:14:12,510 --> 01:14:10,960

inside I got the book I opened it up and

1804

01:14:15,600 --> 01:14:12,520

I and I literally almost opened it up to

1805

01:14:18,840 --> 01:14:15,610

the exact page it says you know um

1806

01:14:20,340 --> 01:14:18,850

clairvoyance you know in the CIA and or

1807

01:14:23,190 --> 01:14:20,350

something like that and and and like

1808

01:14:25,470 --> 01:14:23,200

Carter actually wrote a few pages of his

1809

01:14:27,930 --> 01:14:25,480

book about finding the downed Russian

1810

01:14:31,320 --> 01:14:27,940

bomber confirming everything and and

1811

01:14:33,210 --> 01:14:31,330

then Hal sends me this you know clip of

1812

01:14:35,520 --> 01:14:33,220

Jimmy Carter actually saying it you know

1813

01:14:37,020 --> 01:14:35,530

that he got and then I literally am on

1814

01:14:39,390 --> 01:14:37,030

the phone to Russel immediately can you

1815

01:14:41,730 --> 01:14:39,400

come out to LA Jimmy Carter is gonna be

1816

01:14:43,470 --> 01:14:41,740

here signing books in like a week and

1817

01:14:46,410 --> 01:14:43,480

Russell's like absolutely all booked a

1818

01:14:47,880 --> 01:14:46,420

flight you know so we actually like you

1819

01:14:50,070 --> 01:14:47,890

know got to meet Carter and you know

1820

01:14:51,450 --> 01:14:50,080

briefly talk to him and you know just

1821

01:14:53,970 --> 01:14:51,460

kind of shake his hand and stuff but it

1822

01:14:55,350 --> 01:14:53,980

was perfect for the film you know and it

1823

01:14:57,140 --> 01:14:55,360

was completely just a synchronicity that

1824

01:15:00,600 --> 01:14:57,150

happened it was it was amazing

1825

01:15:04,440 --> 01:15:00,610

well you know synchronicities play a

1826

01:15:08,700 --> 01:15:04,450

huge part in in in in the paranormal and

1827

01:15:11,820 --> 01:15:08,710

and in UFOs I I did a book it's 450

1828

01:15:14,550 --> 01:15:11,830

pages it's the mind control matrix of

1829

01:15:17,430 --> 01:15:14,560

philip k dick and the synchronicities of

1830

01:15:20,280 --> 01:15:17,440

tim Beckley i have had so many

1831

01:15:21,810 --> 01:15:20,290

synchronicities and we're not talking

1832

01:15:24,090 --> 01:15:21,820

about thinking is somebody and they call

1833

01:15:26,610 --> 01:15:24,100

on the phone the next day or waking up

1834

01:15:27,840 --> 01:15:26,620

and seeing the Coxes four four four one

1835

01:15:29,610 --> 01:15:27,850

one whatever that means

1836

01:15:32,600 --> 01:15:29,620

yeah I'm not even sure what this Lee I

1837

01:15:34,650 --> 01:15:32,610

mean except that is axel oohed Lee a

1838

01:15:37,410 --> 01:15:34,660

mind-boggling and I don't want to take

1839

01:15:39,870 --> 01:15:37,420

the time here because it's a it's your

1840

01:15:44,040 --> 01:15:39,880

show and we have plenty of programs

1841

01:15:48,060 --> 01:15:44,050

archived kco our radio calm and on our

1842

01:15:50,670 --> 01:15:48,070

youtube channel mr. UFO secret file that

1843

01:15:55,490 --> 01:15:50,680

go into this and it's absolutely amazing

1844

01:15:58,140 --> 01:15:55,500

some of this somewhere someone is

1845

01:15:59,970 --> 01:15:58,150

programming some of this now I don't

1846

01:16:02,250 --> 01:15:59,980

know whether they're pro you

1847

01:16:04,350 --> 01:16:02,260

they're in some spaceship or in some

1848

01:16:09,300 --> 01:16:04,360

other dimension or setting in the on the

1849

01:16:13,050 --> 01:16:09,310

top of a tree somewhere or whether it

1850

01:16:15,780 --> 01:16:13,060

was set up a million years ago or at the

1851  
01:16:18,900 --> 01:16:15,790  
beginning of creation and maybe they

1852  
01:16:21,540 --> 01:16:18,910  
come back every once in a you know like

1853  
01:16:23,820 --> 01:16:21,550  
20 centuries or something to make sure

1854  
01:16:26,550 --> 01:16:23,830  
that the the matrix is still here and

1855  
01:16:29,370 --> 01:16:26,560  
the computer is still working I mean

1856  
01:16:31,440 --> 01:16:29,380  
there's no way to real really explain it

1857  
01:16:34,710 --> 01:16:31,450  
but it also has a lot to do with not

1858  
01:16:36,479 --> 01:16:34,720  
only with UFOs but also with the with

1859  
01:16:38,970 --> 01:16:36,489  
life on the other side if you even

1860  
01:16:41,490 --> 01:16:38,980  
though you know life sure yeah ya know

1861  
01:16:44,420 --> 01:16:41,500  
you mentioned I think that while we were

1862  
01:16:48,420 --> 01:16:44,430  
on a break that you had a UFO experience

1863  
01:16:50,580 --> 01:16:48,430

I I have but I actually had a few you

1864

01:16:52,020 --> 01:16:50,590

know um you know but but it's it's you

1865

01:16:55,890 --> 01:16:52,030

know unexplainable I mean you know

1866

01:16:58,979 --> 01:16:55,900

unidentified flying off yet but the

1867

01:17:01,350 --> 01:16:58,989

thing is I've had many many experiences

1868

01:17:03,390 --> 01:17:01,360

in through consciousness you know I mean

1869

01:17:04,560 --> 01:17:03,400

just just you know odd things will

1870

01:17:06,210 --> 01:17:04,570

happen synchronicity is like you're

1871

01:17:10,950 --> 01:17:06,220

saying you know and the evidence

1872

01:17:13,110 --> 01:17:10,960

suggests that we are not as linear as we

1873

01:17:16,170 --> 01:17:13,120

think you know we are we are not as

1874

01:17:18,450 --> 01:17:16,180

solid as we think you know if I can

1875

01:17:20,970 --> 01:17:18,460

use my mind to go reach out to the rings

1876

01:17:23,250 --> 01:17:20,980

of Jupiter and see them before any human

1877

01:17:26,340 --> 01:17:23,260

being ever has that suggest that there's

1878

01:17:27,810 --> 01:17:26,350

a part of me that's already there you

1879

01:17:30,750 --> 01:17:27,820

know and and if you can wrap your head

1880

01:17:32,760 --> 01:17:30,760

around that then then maybe something

1881

01:17:35,850 --> 01:17:32,770

like the afterlife is real you know

1882

01:17:37,710 --> 01:17:35,860

maybe all it takes to make a connection

1883

01:17:40,620 --> 01:17:37,720

with another culture living on another

1884

01:17:43,140 --> 01:17:40,630

planet is to simply use your imagination

1885

01:17:44,430 --> 01:17:43,150

you know like this is an imaginary tool

1886

01:17:46,920 --> 01:17:44,440

that we're talking about in remote

1887

01:17:48,840 --> 01:17:46,930

viewing it's not real you know I mean I

1888

01:17:50,460 --> 01:17:48,850

could I could sum it up Superman in my

1889

01:17:51,720 --> 01:17:50,470

head and have him go off and do the work

1890

01:17:53,670 --> 01:17:51,730

for me and come back if I really

1891

01:17:55,650 --> 01:17:53,680

believed that you know and my thoughts

1892

01:17:57,810 --> 01:17:55,660

were very coherent and I was grounded

1893

01:18:00,240 --> 01:17:57,820

and I had a sense of reality that was

1894

01:18:02,250 --> 01:18:00,250

not unbalanced it doesn't take much

1895

01:18:05,190 --> 01:18:02,260

Olmec monocle sits there in remote views

1896

01:18:06,810 --> 01:18:05,200

during commercials for Jeopardy you know

1897

01:18:09,630 --> 01:18:06,820

he doesn't need to go into a deep dark

1898

01:18:11,280 --> 01:18:09,640

state and take LSD and really get into

1899

01:18:13,680 --> 01:18:11,290

it you know it's just part of being

1900

01:18:16,860 --> 01:18:13,690

human

1901

01:18:19,220 --> 01:18:16,870

most the best remote viewing data I've

1902

01:18:22,650 --> 01:18:19,230

ever seen has come from completely awake

1903

01:18:25,680 --> 01:18:22,660

completely aware hi attention management

1904

01:18:27,710 --> 01:18:25,690

remote viewers and you can just the that

1905

01:18:32,130 --> 01:18:27,720

those kind of individuals can produce

1906

01:18:34,500 --> 01:18:32,140

incredibly detailed reports on sites

1907

01:18:37,020 --> 01:18:34,510

locations what's going on at those sites

1908

01:18:38,940 --> 01:18:37,030

the purposes the origins I mean you can

1909

01:18:40,890 --> 01:18:38,950

trace it any which way you want to go as

1910

01:18:42,750 --> 01:18:40,900

a project manager what do you you know

1911

01:18:44,430 --> 01:18:42,760

okay go look at this oh what's this

1912

01:18:45,990 --> 01:18:44,440

thing over here oh what's this thing

1913

01:18:48,300 --> 01:18:46,000

over here now and it's like you're

1914

01:18:50,670 --> 01:18:48,310

zooming in with a microscope with the

1915

01:18:51,750 --> 01:18:50,680

worx it to pull out all the information

1916

01:18:54,120 --> 01:18:51,760

you would ever need to be able to

1917

01:18:56,550 --> 01:18:54,130

describe what's going on and now

1918

01:18:58,350 --> 01:18:56,560

obviously there's certain error

1919

01:19:00,660 --> 01:18:58,360

correcting mechanisms that's built into

1920

01:19:02,610 --> 01:19:00,670

the techniques that that takes into

1921

01:19:04,860 --> 01:19:02,620

account for imagination and mental noise

1922

01:19:06,240 --> 01:19:04,870

and all that's part of the process but

1923

01:19:07,770 --> 01:19:06,250

at the same time it's like you know

1924

01:19:09,480 --> 01:19:07,780

what's possible is you can do some

1925

01:19:12,030 --> 01:19:09,490

pretty amazing things and you know you

1926

01:19:14,370 --> 01:19:12,040

mentioned this does kind of a side he

1927

01:19:18,260 --> 01:19:14,380

said you know you saw a UFO you know the

1928

01:19:22,020 --> 01:19:18,270

reason I got in to remote viewing in

1929

01:19:24,120 --> 01:19:22,030

2010 was because I saw a triangle go

1930

01:19:26,580 --> 01:19:24,130

over my head and take off at warp speed

1931

01:19:29,490 --> 01:19:26,590

in San Francisco Bay Area in the middle

1932

01:19:31,860 --> 01:19:29,500

of the night and that was one of the I

1933

01:19:34,710 --> 01:19:31,870

would classify as a reality breaking

1934

01:19:37,710 --> 01:19:34,720

experience that showed me that I really

1935

01:19:40,440 --> 01:19:37,720

had no idea about anything about

1936

01:19:43,140 --> 01:19:40,450

anything and so suddenly you know you

1937

01:19:44,880 --> 01:19:43,150

know when college educated you know or

1938

01:19:48,170 --> 01:19:44,890

art degree whatever it's like okay

1939

01:19:53,880 --> 01:19:48,180

obviously I don't I don't know anything

1940

01:19:55,830 --> 01:19:53,890

that's a good rate philosophy so I just

1941

01:19:57,060 --> 01:19:55,840

started researching I just started

1942

01:19:58,590 --> 01:19:57,070

reading I was open-minded about all

1943

01:20:01,020 --> 01:19:58,600

these things I'd closed off to and I had

1944

01:20:02,940 --> 01:20:01,030

heard on a late-night radio show this

1945

01:20:06,090 --> 01:20:02,950

thing called remote viewing it was like

1946

01:20:07,800 --> 01:20:06,100

I wonder if that thing is real and so

1947

01:20:09,950 --> 01:20:07,810

then that started that journey and I'm

1948

01:20:12,380 --> 01:20:09,960

you know I ended up where I am today and

1949

01:20:15,870 --> 01:20:12,390

you know what things I think about

1950

01:20:17,760 --> 01:20:15,880

Lance's film which is so fantastic is is

1951

01:20:19,620 --> 01:20:17,770

that it's something that's worked well

1952

01:20:21,870 --> 01:20:19,630

for now I'm looking at this thing on my

1953

01:20:24,720 --> 01:20:21,880

phone as we're here it is now top four

1954

01:20:26,920 --> 01:20:24,730

on the iTunes documentary charge Thank

1955

01:20:29,380 --> 01:20:26,930

You audience listeners

1956

01:20:30,940 --> 01:20:29,390

you know you guys are helping yeah and

1957

01:20:32,620 --> 01:20:30,950

and you know it's like one of the things

1958

01:20:34,510 --> 01:20:32,630

I said this and one of the breaks of

1959

01:20:37,420 --> 01:20:34,520

what think about Lance's film that's so

1960

01:20:38,890 --> 01:20:37,430

fantastic is it's if someone came to me

1961

01:20:40,120 --> 01:20:38,900

before about and want to know about

1962

01:20:41,830 --> 01:20:40,130

remote viewing you know I could have a

1963

01:20:43,450 --> 01:20:41,840

discussion I can give my experiences I

1964

01:20:45,580 --> 01:20:43,460

can try and break it down in layman's

1965

01:20:47,200 --> 01:20:45,590

terms to give them an understanding the

1966

01:20:49,030 --> 01:20:47,210

only other way to really get the full

1967

01:20:50,380 --> 01:20:49,040

story though these days would be I'll go

1968

01:20:52,180 --> 01:20:50,390

read a book you know here's that here's

1969

01:20:54,250 --> 01:20:52,190

a 300 page book about the history

1970

01:20:56,230 --> 01:20:54,260

someone who was in the program etc but

1971

01:20:57,970 --> 01:20:56,240

who's gonna do that who has a time for

1972

01:21:00,370 --> 01:20:57,980

that most people unless they're already

1973

01:21:02,440 --> 01:21:00,380

interested in it already but what's cool

1974

01:21:05,410 --> 01:21:02,450

about this film third eye spies is that

1975

01:21:07,360 --> 01:21:05,420

I can now point to his film and I say go

1976

01:21:08,320 --> 01:21:07,370

watch that two-hour documentary it's

1977

01:21:11,080 --> 01:21:08,330

amazing

1978

01:21:13,540 --> 01:21:11,090

it shows the evidence it does it in a

1979

01:21:15,010 --> 01:21:13,550

compelling way and it's gonna you're

1980

01:21:16,990 --> 01:21:15,020

gonna basically be able to get the pulse

1981

01:21:19,000 --> 01:21:17,000

of what this remote viewing thing is by

1982

01:21:20,380 --> 01:21:19,010

going and watching it and as a result of

1983

01:21:21,880 --> 01:21:20,390

this I mean just in the sense it was

1984

01:21:24,400 --> 01:21:21,890

released you know talk about

1985

01:21:25,660 --> 01:21:24,410

synchronicity you know you guys reached

1986

01:21:26,980 --> 01:21:25,670

out to me two months ago I had no idea

1987

01:21:28,960 --> 01:21:26,990

this was even lining up the show with

1988

01:21:30,970 --> 01:21:28,970

this film but one of the things is like

1989

01:21:33,190 --> 01:21:30,980

what's going on on YouTube on my youtube

1990

01:21:35,290 --> 01:21:33,200

channel which is the technical intuition

1991

01:21:37,480 --> 01:21:35,300

YouTube channel is my video on how to

1992

01:21:40,000 --> 01:21:37,490

learn remote viewing in less than 20

1993

01:21:41,980 --> 01:21:40,010

minutes is blowing up I mean there's

1994

01:21:44,770 --> 01:21:41,990

hundreds of people who are posting

1995

01:21:46,840 --> 01:21:44,780

comments tens of thousands of new views

1996

01:21:48,310 --> 01:21:46,850

of people going I tried it and I can't

1997

01:21:50,110 --> 01:21:48,320

believe I did it or then you have people

1998

01:21:51,940 --> 01:21:50,120

I tried it and I missed horribly no I'm

1999

01:21:53,380 --> 01:21:51,950

like well yeah that's that's you know

2000

01:21:55,240 --> 01:21:53,390

not everyone's gonna have the first time

2001

01:21:57,340 --> 01:21:55,250

or experience but it's so cool to kind

2002

01:21:59,080 --> 01:21:57,350

of watch to kind of see this happen all

2003

01:22:02,560 --> 01:21:59,090

at the same time and and hey you know be

2004

01:22:06,460 --> 01:22:02,570

a little part of it yeah and some people

2005

01:22:08,860 --> 01:22:06,470

who are total lemons they're I think

2006

01:22:10,480 --> 01:22:08,870

everybody it's like playing the piano

2007

01:22:12,340 --> 01:22:10,490

that's the way you gotta look at it like

2008

01:22:14,680 --> 01:22:12,350

something might be able to take classes

2009

01:22:16,450 --> 01:22:14,690

for six months you know you can learn

2010

01:22:18,730 --> 01:22:16,460

the keys you can learn sort of how to

2011

01:22:21,340 --> 01:22:18,740

carry a tune but you may never play a

2012

01:22:23,530 --> 01:22:21,350

Carnegie Hall you know but somebody else

2013

01:22:25,210 --> 01:22:23,540

maybe Mozart you know and and maybe

2014

01:22:27,280 --> 01:22:25,220

Mozart's one-in-a-million but but the

2015

01:22:29,890 --> 01:22:27,290

you know the the thing is like you asked

2016

01:22:31,780 --> 01:22:29,900

me about my UFO experiences and and and

2017

01:22:33,610 --> 01:22:31,790

you know I had precognitive experiences

2018

01:22:36,100 --> 01:22:33,620

I had caught a lot of contacts through

2019

01:22:39,300 --> 01:22:36,110

dream state and through meditation and

2020

01:22:41,370 --> 01:22:39,310

in things like that and

2021

01:22:42,870 --> 01:22:41,380

what it taught me is that I mean

2022

01:22:44,820 --> 01:22:42,880

initially I really would reject that

2023

01:22:46,260 --> 01:22:44,830

stuff I would say oh I must be crazy I'm

2024

01:22:47,550 --> 01:22:46,270

just imagining this or that you know

2025

01:22:50,220 --> 01:22:47,560

this can't be right

2026

01:22:54,690 --> 01:22:50,230

but but it's but what I finally came to

2027

01:22:56,520 --> 01:22:54,700

was that you can only sort of accept who

2028

01:22:57,870 --> 01:22:56,530

you are by looking at yourself like you

2029

01:22:59,010 --> 01:22:57,880

you have to like look inside yourself

2030

01:23:02,070 --> 01:22:59,020

and go okay so what do I really think

2031

01:23:04,500 --> 01:23:02,080

about this and it's the guy who says I'm

2032

01:23:06,810 --> 01:23:04,510

not crazy I know everything the world

2033

01:23:08,490 --> 01:23:06,820

will be ending tomorrow that guy you got

2034

01:23:12,060 --> 01:23:08,500

to watch out for because he's crazy you

2035

01:23:14,070 --> 01:23:12,070

know because because so much of this is

2036

01:23:16,320 --> 01:23:14,080

about checking yourself and saying okay

2037

01:23:17,880 --> 01:23:16,330

I'm grounded in my reality yet there is

2038

01:23:19,620 --> 01:23:17,890

this unexplainable thing that has

2039

01:23:21,840 --> 01:23:19,630

happened I'm know I'm I don't think I'm

2040

01:23:23,220 --> 01:23:21,850

crazy I might be well if you if you're

2041

01:23:25,500 --> 01:23:23,230

if you're asking yourself those

2042

01:23:27,480 --> 01:23:25,510

questions that's human that's normal

2043

01:23:29,460 --> 01:23:27,490

that's natural but it's unexplainable

2044

01:23:31,830 --> 01:23:29,470

and unexplainable things happen you know

2045

01:23:33,240 --> 01:23:31,840

and and and so it's the person who can

2046

01:23:35,340 --> 01:23:33,250

kind of get beyond that and go okay I'm

2047

01:23:36,810 --> 01:23:35,350

gonna be very detached about this you

2048

01:23:38,940 --> 01:23:36,820

know Carl Jung did that you know they

2049

01:23:40,950 --> 01:23:38,950

just released the red book like in 2012

2050

01:23:43,920 --> 01:23:40,960

which was all of his sort of musings

2051

01:23:45,720 --> 01:23:43,930

about going crazy you know in predicting

2052

01:23:47,280 --> 01:23:45,730

World War one before it happened you

2053

01:23:49,860 --> 01:23:47,290

know but as a psychiatrist he was able

2054

01:23:53,220 --> 01:23:49,870

to to document all of that and and

2055

01:23:55,680 --> 01:23:53,230

document his precognition and and and we

2056

01:23:56,850 --> 01:23:55,690

have you know Carl Jung as a result you

2057

01:24:00,300 --> 01:23:56,860

know because he had a great career after

2058

01:24:03,900 --> 01:24:00,310

that but in them in the laboratory and

2059

01:24:07,080 --> 01:24:03,910

in our film you know Russell would

2060

01:24:09,120 --> 01:24:07,090

constantly be bombarded by you know

2061

01:24:10,650 --> 01:24:09,130

politicians and generals and all these

2062

01:24:13,020 --> 01:24:10,660

people that would come to the SSRI lab

2063

01:24:14,970 --> 01:24:13,030

and they would say you know I hear we're

2064

01:24:17,040 --> 01:24:14,980

wasting our money on this stuff and I

2065

01:24:20,430 --> 01:24:17,050

want you to prove it to me and then and

2066

01:24:21,690 --> 01:24:20,440

then Russell would say well we're not

2067

01:24:24,240 --> 01:24:21,700

going to show you a remote viewing

2068

01:24:27,540 --> 01:24:24,250

because you won't believe it even if you

2069

01:24:27,990 --> 01:24:27,550

see it you have to experience a remote

2070

01:24:29,970 --> 01:24:28,000

viewing

2071

01:24:31,230 --> 01:24:29,980

so go ahead sit down in the chair we're

2072

01:24:35,700 --> 01:24:31,240

gonna make you the remote viewer today

2073

01:24:37,380 --> 01:24:35,710

and and he told me a story it's in the

2074

01:24:39,000 --> 01:24:37,390

film you know there was there was the

2075

01:24:42,570 --> 01:24:39,010

secretary under secretary of defense

2076  
01:24:45,480 --> 01:24:42,580  
walter Laberge at the time shows up on

2077  
01:24:47,070 --> 01:24:45,490  
SSRIs front lawn in a helicopter you

2078  
01:24:48,420 --> 01:24:47,080  
know completely like blowing their cover

2079  
01:24:51,060 --> 01:24:48,430  
because they shouldn't have been doing

2080  
01:24:51,990 --> 01:24:51,070  
this and and you know he gets out and he

2081  
01:24:53,070 --> 01:24:52,000  
says you know I heard you guys are

2082  
01:24:54,780 --> 01:24:53,080  
wasting our money

2083  
01:24:57,660 --> 01:24:54,790  
I want to see what you're doing they

2084  
01:24:59,490 --> 01:24:57,670  
made him the remote viewer and he says

2085  
01:25:01,050 --> 01:24:59,500  
oh this is ridiculous I can't do this

2086  
01:25:03,900 --> 01:25:01,060  
you know they said just close your eyes

2087  
01:25:06,650 --> 01:25:03,910  
and imagine where you know your your

2088  
01:25:09,480 --> 01:25:06,660

attache is is hiding and the guy

2089

01:25:11,370 --> 01:25:09,490

basically made up a bunch of stuff close

2090

01:25:13,590 --> 01:25:11,380

his eyes and and it turns out that it

2091

01:25:15,300 --> 01:25:13,600

was exactly correct he completely

2092

01:25:17,340 --> 01:25:15,310

correctly predicted where the attache

2093

01:25:20,450 --> 01:25:17,350

would be hiding and and then the guy

2094

01:25:23,640 --> 01:25:20,460

became their biggest booster you know so

2095

01:25:26,220 --> 01:25:23,650

with all of this kind of stuff it all

2096

01:25:28,680 --> 01:25:26,230

boils down to personal experience you

2097

01:25:31,890 --> 01:25:28,690

know it's like I can tell you this again

2098

01:25:34,380 --> 01:25:31,900

and again and again but it doesn't make

2099

01:25:36,720 --> 01:25:34,390

it real for you unless you can

2100

01:25:38,490 --> 01:25:36,730

internalize it yourself through actual

2101  
01:25:40,140 --> 01:25:38,500  
experience you know and and and in a

2102  
01:25:41,970 --> 01:25:40,150  
sense that's kind of what our film does

2103  
01:25:43,530 --> 01:25:41,980  
because even though it's not actual

2104  
01:25:45,710 --> 01:25:43,540  
first-hand experience it's like you

2105  
01:25:48,450 --> 01:25:45,720  
you're it sort of feels like it because

2106  
01:25:50,310 --> 01:25:48,460  
you're with me holding a camera as I'm

2107  
01:25:52,370 --> 01:25:50,320  
looking at somebody actually doing it

2108  
01:25:54,450 --> 01:25:52,380  
and you know we went to irva the

2109  
01:25:56,700 --> 01:25:54,460  
International remote viewers Association

2110  
01:25:58,920 --> 01:25:56,710  
and I had never seen a remote viewing

2111  
01:26:00,150 --> 01:25:58,930  
before at that time and and I was very

2112  
01:26:02,760 --> 01:26:00,160  
nervous about it because I thought oh my

2113  
01:26:04,410 --> 01:26:02,770

gosh what if nobody does anything you

2114

01:26:06,150 --> 01:26:04,420

know and this is here I'm making the

2115

01:26:07,470 --> 01:26:06,160

documentary I'm gonna be unbiased about

2116

01:26:10,830 --> 01:26:07,480

it I'm gonna put it in the documentary

2117

01:26:12,270 --> 01:26:10,840

and I don't want to you know you know

2118

01:26:14,150 --> 01:26:12,280

completely fall flat on my face with

2119

01:26:17,850 --> 01:26:14,160

this but this is what I'm doing and

2120

01:26:18,530 --> 01:26:17,860

literally I think it was 80% of the

2121

01:26:21,870 --> 01:26:18,540

audience

2122

01:26:23,460 --> 01:26:21,880

correctly identified the outbound you

2123

01:26:24,960 --> 01:26:23,470

know target that they were looking at

2124

01:26:27,060 --> 01:26:24,970

you know somebody was hiding somewhere

2125

01:26:30,300 --> 01:26:27,070

in Vegas and probably an audience of

2126  
01:26:31,770 --> 01:26:30,310  
about 150 people and and and I'm sitting

2127  
01:26:33,390 --> 01:26:31,780  
there and I'm watching them do this and

2128  
01:26:35,010 --> 01:26:33,400  
I'm actually literally watching them as

2129  
01:26:36,390 --> 01:26:35,020  
it happens I'm going from person to

2130  
01:26:38,580 --> 01:26:36,400  
person in the audience and I'm holding a

2131  
01:26:42,150 --> 01:26:38,590  
camera and I'm seeing people draw fish

2132  
01:26:43,920 --> 01:26:42,160  
and draw triangles and draw like one

2133  
01:26:46,500 --> 01:26:43,930  
guy's drawing a fountain with coins at

2134  
01:26:48,780 --> 01:26:46,510  
the bottom you know and we're in Vegas

2135  
01:26:52,230 --> 01:26:48,790  
so you think they would be drawing slot

2136  
01:26:53,730 --> 01:26:52,240  
machines but they didn't they they they

2137  
01:26:56,310 --> 01:26:53,740  
were drawing all of this like waterfalls

2138  
01:26:57,960 --> 01:26:56,320

and stuff and then the guy gets back and

2139

01:27:00,060 --> 01:26:57,970

he was I had him wearing a GoPro and

2140

01:27:02,280 --> 01:27:00,070

they play the footage on the big screen

2141

01:27:04,200 --> 01:27:02,290

and for the audience and it was an

2142

01:27:06,250 --> 01:27:04,210

indoor waterfall with a coin mountain

2143

01:27:08,049 --> 01:27:06,260

mountain and triangular

2144

01:27:11,049 --> 01:27:08,059

windows in a glass ceiling and fish

2145

01:27:13,000 --> 01:27:11,059

tanks everywhere and and I was stunned

2146

01:27:15,729 --> 01:27:13,010

that was the first time I had ever seen

2147

01:27:19,270 --> 01:27:15,739

something like that you know and and I

2148

01:27:20,799 --> 01:27:19,280

didn't I cannot fathom how you can fake

2149

01:27:23,649 --> 01:27:20,809

something like that because it's not

2150

01:27:26,379 --> 01:27:23,659

judging it's not you know I'm with I'm

2151  
01:27:27,879 --> 01:27:26,389  
witnessing it in real time and and to me

2152  
01:27:29,709 --> 01:27:27,889  
you know that's that's amazing have you

2153  
01:27:32,529 --> 01:27:29,719  
ever been to earth a breath yeah yeah I

2154  
01:27:34,180 --> 01:27:32,539  
was I had the ability to go last year

2155  
01:27:36,220 --> 01:27:34,190  
and there was really a privilege I was

2156  
01:27:37,720 --> 01:27:36,230  
asked to partake in the outbound er

2157  
01:27:38,950 --> 01:27:37,730  
experiment and if for any of the

2158  
01:27:41,109 --> 01:27:38,960  
listeners that don't know what that is

2159  
01:27:43,270 --> 01:27:41,119  
an outbound or experiment very simply is

2160  
01:27:44,979 --> 01:27:43,280  
you have a person that no one knows

2161  
01:27:46,419 --> 01:27:44,989  
where they get going and even the person

2162  
01:27:49,000 --> 01:27:46,429  
doesn't know where they're going it's

2163  
01:27:51,790 --> 01:27:49,010

just in a sealed envelope hopped in a

2164

01:27:54,189 --> 01:27:51,800

car we went somewhere in Vegas in Vegas

2165

01:27:56,020 --> 01:27:54,199

and the goal of everyone in the audience

2166

01:27:58,899 --> 01:27:56,030

is to describe the location that we're

2167

01:28:02,859 --> 01:27:58,909

at once we arrived and we ended up at

2168

01:28:04,779 --> 01:28:02,869

the it was a roundabout in this rental

2169

01:28:06,669 --> 01:28:04,789

facility for these large trucks like

2170

01:28:10,240 --> 01:28:06,679

bulldozers and things like that

2171

01:28:11,799 --> 01:28:10,250

and so there's definitely a lot we came

2172

01:28:13,479 --> 01:28:11,809

back we described you know I took the

2173

01:28:15,910 --> 01:28:13,489

video for everyone to watch of what was

2174

01:28:17,439 --> 01:28:15,920

there you know the gravel the cement the

2175

01:28:19,540 --> 01:28:17,449

big building and all that kind of stuff

2176

01:28:20,950 --> 01:28:19,550

but the funny story I have actually

2177

01:28:25,089 --> 01:28:20,960

about that particular out pounder

2178

01:28:26,919 --> 01:28:25,099

experiment is my friend and well two of

2179

01:28:28,990 --> 01:28:26,929

my friends had this funny little idea

2180

01:28:30,129 --> 01:28:29,000

where they said during the remote

2181

01:28:32,109 --> 01:28:30,139

viewing they were gonna try what's

2182

01:28:34,689 --> 01:28:32,119

referred to as remote influencing as a

2183

01:28:35,740 --> 01:28:34,699

joke they put it this is something a

2184

01:28:37,689 --> 01:28:35,750

little bit different than mowing but

2185

01:28:39,520 --> 01:28:37,699

it's associated in the remote viewing

2186

01:28:41,080 --> 01:28:39,530

actually outbound her experience they

2187

01:28:43,299 --> 01:28:41,090

decided they're going to repeat this

2188

01:28:45,640 --> 01:28:43,309

idea in their mind of squirrel squirrel

2189

01:28:48,459 --> 01:28:45,650

squirrel squirrel thinking about the

2190

01:28:50,379 --> 01:28:48,469

location the entire time these like you

2191

01:28:54,129 --> 01:28:50,389

know hundreds of people are remote

2192

01:28:55,450 --> 01:28:54,139

viewing where we go and I kid you not

2193

01:28:56,680 --> 01:28:55,460

it's like I don't know if it's not

2194

01:28:58,660 --> 01:28:56,690

actually one of the courting but when

2195

01:29:01,149 --> 01:28:58,670

you get back we're kind of the audience

2196

01:29:03,160 --> 01:29:01,159

is asking it was Pam Coronado who's a

2197

01:29:05,410 --> 01:29:03,170

fantastic remote viewer and psychic I

2198

01:29:07,209 --> 01:29:05,420

was she and I went to the site the

2199

01:29:08,410 --> 01:29:07,219

audience was asking us about it kind of

2200

01:29:09,459 --> 01:29:08,420

trying to describe what was like being

2201

01:29:13,330 --> 01:29:09,469

there to see if it matched their work

2202

01:29:15,310 --> 01:29:13,340

and one lady stood up and said in front

2203

01:29:17,709 --> 01:29:15,320

of everybody you know I just got the

2204

01:29:20,089 --> 01:29:17,719

idea that there might be a squirrel girl

2205

01:29:24,770 --> 01:29:20,099

there did you see any squirrels and I

2206

01:29:26,540 --> 01:29:24,780

I could but to buy both my friends in

2207

01:29:30,020 --> 01:29:26,550

the very back of the room raised their

2208

01:29:32,479 --> 01:29:30,030

hands like yes it was I mean

2209

01:29:34,009 --> 01:29:32,489

consciousness is a funny thing it's it

2210

01:29:36,020 --> 01:29:34,019

can be it can be really fun to play

2211

01:29:37,839 --> 01:29:36,030

around with really can what you just

2212

01:29:40,250 --> 01:29:37,849

stumbled across I think is a

2213

01:29:42,290 --> 01:29:40,260

counterintelligence tool you know

2214

01:29:43,819 --> 01:29:42,300

because you know skip Atwater and Joe

2215

01:29:45,500 --> 01:29:43,829

mcmoneagle and some of these guys that

2216

01:29:46,819 --> 01:29:45,510

were in the army remote viewing program

2217

01:29:49,069 --> 01:29:46,829

a lot of the time what they were doing

2218

01:29:50,540 --> 01:29:49,079

was not outbound remote viewing and

2219

01:29:51,889 --> 01:29:50,550

trying to look at Soviet targets they

2220

01:29:56,029 --> 01:29:51,899

were actually trying to figure out ways

2221

01:30:00,199 --> 01:29:56,039

to protect US intelligence from you know

2222

01:30:01,310 --> 01:30:00,209

remote viewers in Russia and and one of

2223

01:30:02,779 --> 01:30:01,320

the things that they would do was they

2224

01:30:05,149 --> 01:30:02,789

would they would sort of put silly

2225

01:30:06,409 --> 01:30:05,159

things around like I'm a nuclear missile

2226

01:30:07,790 --> 01:30:06,419

silos like you know like let's say

2227

01:30:09,770 --> 01:30:07,800

there's a secret project going on in a

2228

01:30:12,049 --> 01:30:09,780

silos they'll put you know balloons and

2229

01:30:13,819 --> 01:30:12,059

Mickey Mouse posters and all this weird

2230

01:30:15,319 --> 01:30:13,829

stuff around you know but but another

2231

01:30:17,419 --> 01:30:15,329

thing that I heard from another more

2232

01:30:19,669 --> 01:30:17,429

contemporary remote reviewer is that you

2233

01:30:22,939 --> 01:30:19,679

can sort of screw up somebody's remote

2234

01:30:25,279 --> 01:30:22,949

viewing bye-bye if you know the target

2235

01:30:27,529 --> 01:30:25,289

identifier and and you think silly

2236

01:30:29,569 --> 01:30:27,539

thoughts or you you target them on some

2237

01:30:31,129 --> 01:30:29,579

you know scary thing like a volcano or

2238

01:30:32,389 --> 01:30:31,139

something that you know then you start

2239

01:30:35,330 --> 01:30:32,399

getting all these remote viewers coming

2240

01:30:37,879 --> 01:30:35,340

back with both targets you know and

2241

01:30:40,339 --> 01:30:37,889

they're looking at both things and what

2242

01:30:41,929 --> 01:30:40,349

what does that say about us as human

2243

01:30:45,049 --> 01:30:41,939

beings it's like we're we're sort of

2244

01:30:47,000 --> 01:30:45,059

like viral creatures that pick up on

2245

01:30:48,529 --> 01:30:47,010

each other's ideas and thoughts I mean

2246

01:30:50,330 --> 01:30:48,539

it's the reason that you had the radio

2247

01:30:52,759 --> 01:30:50,340

invented on two different continents

2248

01:30:54,709 --> 01:30:52,769

within days you know the airplane was

2249

01:30:57,349 --> 01:30:54,719

being worked on in multiple times you

2250

01:30:59,719 --> 01:30:57,359

know and it's almost like an idea just

2251  
01:31:01,129 --> 01:30:59,729  
goes out into the ethers and if you have

2252  
01:31:02,839 --> 01:31:01,139  
your antennas pointing the right way you

2253  
01:31:05,359 --> 01:31:02,849  
can just pick it up and you can pull it

2254  
01:31:07,609 --> 01:31:05,369  
down into your reality certainly just

2255  
01:31:09,469 --> 01:31:07,619  
like you said it can be used as a like a

2256  
01:31:10,939 --> 01:31:09,479  
misdirect as well and they've learned

2257  
01:31:12,859 --> 01:31:10,949  
that in the remote viewing research as

2258  
01:31:14,779 --> 01:31:12,869  
well this was in there in your film when

2259  
01:31:16,779 --> 01:31:14,789  
you talked about the virginia

2260  
01:31:19,250 --> 01:31:16,789  
underground NSA facility that was

2261  
01:31:21,830 --> 01:31:19,260  
accidentally remove you'd and it caused

2262  
01:31:22,819 --> 01:31:21,840  
just absolute chaos in the intelligence

2263  
01:31:24,409 --> 01:31:22,829

community because they thought there was

2264

01:31:25,849 --> 01:31:24,419

a leak they'll watch the film if you

2265

01:31:28,699 --> 01:31:25,859

wanna learn more about that for sure but

2266

01:31:30,529 --> 01:31:28,709

it's essentially it was this novelty

2267

01:31:32,270 --> 01:31:30,539

factor of something being secret and

2268

01:31:34,040 --> 01:31:32,280

it's like this is something that Ingo

2269

01:31:36,229 --> 01:31:34,050

was really sure

2270

01:31:38,419 --> 01:31:36,239

go for his one the physicists I was like

2271

01:31:39,799 --> 01:31:38,429

there's a personal target I think where

2272

01:31:41,959 --> 01:31:39,809

is that the harder he believed the

2273

01:31:45,169 --> 01:31:41,969

harder you try and hide something to a

2274

01:31:46,430 --> 01:31:45,179

remote viewer the more it stands out and

2275

01:31:49,310 --> 01:31:46,440

so it's like there's something about our

2276

01:31:50,899 --> 01:31:49,320

consciousness wanting to know it's like

2277

01:31:52,220 --> 01:31:50,909

ooh what's what's this thing this is this

2278

01:31:53,810 --> 01:31:52,230

is really interesting over here and

2279

01:31:55,280 --> 01:31:53,820

that's where it goes like a magnet

2280

01:31:58,010 --> 01:31:55,290

if I leave you know it's a chat I'll

2281

01:32:00,439 --> 01:31:58,020

even take that even one step further you

2282

01:32:01,970 --> 01:32:00,449

know it's harder to see in the present

2283

01:32:04,819 --> 01:32:01,980

moment than it is to see either the

2284

01:32:07,819 --> 01:32:04,829

future or the past if something really

2285

01:32:10,700 --> 01:32:07,829

big is is happening but it also suggests

2286

01:32:12,770 --> 01:32:10,710

that like a lot of times anytime you

2287

01:32:14,270 --> 01:32:12,780

hear a psychic give you some massive

2288

01:32:16,010 --> 01:32:14,280

prediction about destruction in the

2289

01:32:18,229 --> 01:32:16,020

future it's been wrong right because

2290

01:32:19,459 --> 01:32:18,239

we're still here right and the comic

2291

01:32:21,319 --> 01:32:19,469

didn't hit the volcano didn't blow up

2292

01:32:23,600 --> 01:32:21,329

the nukes didn't happen we're still here

2293

01:32:26,689 --> 01:32:23,610

and if I can close on something it's

2294

01:32:29,030 --> 01:32:26,699

it's that you don't have to be scared of

2295

01:32:31,069 --> 01:32:29,040

this skill everybody has it it's an

2296

01:32:33,410 --> 01:32:31,079

intuitive ability that we all share and

2297

01:32:36,200 --> 01:32:33,420

and it's just part of being human it's

2298

01:32:38,629 --> 01:32:36,210

not it's not a scary thing and and the

2299

01:32:40,879 --> 01:32:38,639

more the sort of the further out you

2300

01:32:43,790 --> 01:32:40,889

look and and sort of the bigger you get

2301  
01:32:45,200 --> 01:32:43,800  
with the disastrous predictions time and

2302  
01:32:46,970 --> 01:32:45,210  
time again it's proven through history

2303  
01:32:49,580 --> 01:32:46,980  
that that like when the don't Radames

2304  
01:32:51,919 --> 01:32:49,590  
says something or at your KC it's never

2305  
01:32:53,660 --> 01:32:51,929  
as bad as they predicted and I think

2306  
01:32:56,990 --> 01:32:53,670  
that's because your own consciousness

2307  
01:32:58,220 --> 01:32:57,000  
has a say in that outcome you know it's

2308  
01:33:00,649 --> 01:32:58,230  
like we're living in this like

2309  
01:33:03,410 --> 01:33:00,659  
holographic universe and and we're all

2310  
01:33:05,120 --> 01:33:03,420  
sort of like experiencing reality

2311  
01:33:06,979 --> 01:33:05,130  
simultaneously and I get to choose if I

2312  
01:33:09,319 --> 01:33:06,989  
go to the left prediction or the right

2313  
01:33:11,959 --> 01:33:09,329

prediction and and so don't worry about

2314

01:33:14,479 --> 01:33:11,969

this just watch the film third eye spies

2315

01:33:16,069 --> 01:33:14,489

it's it's coming it's actually here it's

2316

01:33:17,959 --> 01:33:16,079

number four eye we need to get this to

2317

01:33:20,060 --> 01:33:17,969

number one so that people will see this

2318

01:33:21,560 --> 01:33:20,070

this movie and they'll and it'll get out

2319

01:33:24,290 --> 01:33:21,570

there and and I really think it will

2320

01:33:26,030 --> 01:33:24,300

open people's minds up to their own

2321

01:33:28,010 --> 01:33:26,040

capabilities and I think that's the

2322

01:33:30,109 --> 01:33:28,020

reason that I made the film all right

2323

01:33:32,629 --> 01:33:30,119

we're almost at the end of the program

2324

01:33:35,149 --> 01:33:32,639

so I want to give our guests a chance to

2325

01:33:36,709 --> 01:33:35,159

let our listeners know more about where

2326

01:33:39,950 --> 01:33:36,719

they can find them online Brett let's

2327

01:33:41,899 --> 01:33:39,960

start with you sure you can find me on

2328

01:33:43,879 --> 01:33:41,909

my website that's technical intuition

2329

01:33:45,649 --> 01:33:43,889

comm that's where I have a number of

2330

01:33:47,180 --> 01:33:45,659

different introductory video remote

2331

01:33:49,850 --> 01:33:47,190

viewing classes you can

2332

01:33:52,160 --> 01:33:49,860

also find me on YouTube my youtube

2333

01:33:54,290 --> 01:33:52,170

channel name is technical intuition as

2334

01:33:56,750 --> 01:33:54,300

well and then just the other social

2335

01:34:00,530 --> 01:33:56,760

media you have at B Stewart RV on

2336

01:34:01,610 --> 01:34:00,540

Twitter Facebook and Instagram so yeah

2337

01:34:03,770 --> 01:34:01,620

and if you're interested in learning

2338

01:34:06,770 --> 01:34:03,780

remote viewing check out my website and

2339

01:34:08,780 --> 01:34:06,780

if you're interested in a coaching I do

2340

01:34:10,540 --> 01:34:08,790

that as well so check me on the website

2341

01:34:13,189 --> 01:34:10,550

yeah you can contact me through there

2342

01:34:15,140 --> 01:34:13,199

alright and Lance what about you well

2343

01:34:17,990 --> 01:34:15,150

first of all the movie is called third

2344

01:34:20,990 --> 01:34:18,000

eye spies and it is available now across

2345

01:34:23,300 --> 01:34:21,000

all digital platforms and cable services

2346

01:34:25,910 --> 01:34:23,310

worldwide we're in over sixty million

2347

01:34:27,709 --> 01:34:25,920

households right now with this film so

2348

01:34:30,410 --> 01:34:27,719

you can turn on your your time warner

2349

01:34:32,689 --> 01:34:30,420

cable's spectrum Verizon you can go to

2350

01:34:34,880 --> 01:34:32,699

amazon.com and type in third eye spies

2351

01:34:36,830 --> 01:34:34,890

you can go to iTunes look on the

2352

01:34:38,660 --> 01:34:36,840

documentary charts or just type in third

2353

01:34:40,240 --> 01:34:38,670

eye spy as it will come up if you buy it

2354

01:34:43,250 --> 01:34:40,250

on iTunes there's eight different

2355

01:34:44,810 --> 01:34:43,260

professionally done extras that are in

2356

01:34:46,310 --> 01:34:44,820

addition to the film you know including

2357

01:34:48,590 --> 01:34:46,320

the 20 minute documentary about the

2358

01:34:50,300 --> 01:34:48,600

gamblers that I was telling you so just

2359

01:34:52,490 --> 01:34:50,310

and if you see the movie please write a

2360

01:34:54,229 --> 01:34:52,500

review because because the reviews are

2361

01:34:56,900 --> 01:34:54,239

so important because they get new people

2362

01:35:01,040 --> 01:34:56,910

to look at this subject my YouTube page

2363

01:35:04,939 --> 01:35:01,050

is Lance Madea or youtube.com waking

2364

01:35:07,490 --> 01:35:04,949

universe the TV waking universe TV on

2365

01:35:09,320 --> 01:35:07,500

YouTube and I have tons and tons of

2366

01:35:11,420 --> 01:35:09,330

extras on there there's a contemporary

2367

01:35:13,850 --> 01:35:11,430

remote viewing that we just did we put

2368

01:35:15,170 --> 01:35:13,860

up there the other day a lot of stuff is

2369

01:35:17,510 --> 01:35:15,180

gonna be coming online on my youtube

2370

01:35:20,330 --> 01:35:17,520

page or you can go to 3rd eye spies comm

2371

01:35:21,620 --> 01:35:20,340

and sign up to get updates about what's

2372

01:35:23,450 --> 01:35:21,630

going on with the film we want to get

2373

01:35:25,459 --> 01:35:23,460

this on broadcast it may have a

2374

01:35:28,010 --> 01:35:25,469

theatrical release in April there's a

2375

01:35:30,800 --> 01:35:28,020

lot coming up what right wonderful

2376

01:35:33,830 --> 01:35:30,810

it's good good to hear any any like

2377

01:35:37,340 --> 01:35:33,840

whenever any project like this makes it

2378

01:35:39,920 --> 01:35:37,350

outside of the local media to get some

2379

01:35:42,170 --> 01:35:39,930

you know a national coverage it's a

2380

01:35:47,870 --> 01:35:42,180

wonderful thing and we support that

2381

01:35:50,510 --> 01:35:47,880

immensely we enjoyed we enjoyed doing

2382

01:35:54,050 --> 01:35:50,520

the the program and and we love the

2383

01:35:56,450 --> 01:35:54,060

subject and also to visit our youtube

2384

01:36:00,650 --> 01:35:56,460

page mr. UFO secret files this will be

2385

01:36:02,570 --> 01:36:00,660

up there Oh in a little while

2386

01:36:05,150 --> 01:36:02,580

Peter's uh I know got some heavy

2387

01:36:08,210 --> 01:36:05,160

projects he's working on our producer

2388

01:36:09,830 --> 01:36:08,220

there on YouTube but you know it'll be

2389

01:36:12,050 --> 01:36:09,840

up to eventually and of course we have

2390

01:36:14,690 --> 01:36:12,060

the archives here at kco our radio.com

2391

01:36:16,700 --> 01:36:14,700

and Kena want to thank you and Tim of

2392

01:36:19,370 --> 01:36:16,710

course thank you and behave well out

2393

01:36:26,310 --> 01:36:19,380

there in Jasper Indiana alright thanks

2394

01:36:33,130 --> 01:36:29,140

you've been listening to exploring the

2395

01:36:36,400 --> 01:36:33,140

bazaar with hosts Timothy Beckley and to

2396

01:36:39,280 --> 01:36:36,410

Swartz they're taking back the night by

2397

01:36:41,860 --> 01:36:39,290

jetting non-stop across the cosmos in

2398

01:36:45,450 --> 01:36:41,870

search of the truly bizarre and totally

2399

01:36:48,180 --> 01:36:45,460

unexplained with you as their combined

2400

01:36:52,630 --> 01:36:48,190

Thursday nights at 7:00 p.m. Pacific

2401

01:36:53,839 --> 01:36:52,640

10:00 p.m. Eastern and the K cor digital

2402

01:36:56,300 --> 01:36:53,849

radio

2403

01:36:59,750 --> 01:36:56,310

for more information on exploring the

2404

01:37:02,600 --> 01:36:59,760

bazaars and hosts Timothy Becca and Tim

2405

01:37:05,720 --> 01:37:02,610

Swartz check out their K cor digital

2406

01:37:11,930 --> 01:37:05,730

radio network follow their YouTube

2407

01:37:22,330 --> 01:37:11,940

channel @m our UFO 1100 explore the
