

# EXPLORING THE BIZARRE

1  
00:00:37,280 --> 00:00:21,830

[Music]

2  
00:00:44,229 --> 00:00:41,569

make slowly the bazaars your e-ticket

3  
00:00:47,510 --> 00:00:44,239

ride into the world of the paranoid

4  
00:00:51,819 --> 00:00:47,520

strap yourself in as we traverse the

5  
00:00:56,270 --> 00:00:51,829

universe exploring the unexplained UFO s

6  
00:01:00,410 --> 00:00:56,280

ghosts Lost Worlds cryptozoology waters

7  
00:01:04,910 --> 00:01:00,420

as well as other dimensions it's time to

8  
00:01:07,160 --> 00:01:04,920

take back the night now your

9  
00:01:13,570 --> 00:01:07,170

electrifying hosts of exploring the

10  
00:01:18,050 --> 00:01:15,980

hallelujah hallelujah

11  
00:01:20,630 --> 00:01:18,060

you should be visited by the Lord of

12  
00:01:23,240 --> 00:01:20,640

hosts with earthquakes thunder and great

13  
00:01:27,200 --> 00:01:23,250

noise with storms and tempest and the

14

00:01:30,440 --> 00:01:27,210

flame of devouring fire hallelujah

15

00:01:32,779 --> 00:01:30,450

ha ha hey Tim now I didn't know you were

16

00:01:34,279 --> 00:01:32,789

such a Holy Roller the way you were

17

00:01:37,609 --> 00:01:34,289

preaching you think the world was coming

18

00:01:40,100 --> 00:01:37,619

to an end well look all around this the

19

00:01:45,230 --> 00:01:40,110

world is on fire the gates have opened

20

00:01:46,550 --> 00:01:45,240

that Satanism oh ok ok calm down I think

21

00:01:50,480 --> 00:01:46,560

you're being just a little overly

22

00:01:52,760 --> 00:01:50,490

dramatic I believe a cow is turned over

23

00:01:55,279 --> 00:01:52,770

a lantern and set a barn on mrs.

24

00:01:57,639 --> 00:01:55,289

O'Leary's property on fire and you know

25

00:02:00,380 --> 00:01:57,649

maybe some people have spontaneously

26  
00:02:03,589 --> 00:02:00,390  
combusted but I don't think it's the end

27  
00:02:05,779 --> 00:02:03,599  
of the world I hear tell from our guest

28  
00:02:08,570 --> 00:02:05,789  
tonight that the fires or widespread

29  
00:02:10,639 --> 00:02:08,580  
that they've sprung up all over the

30  
00:02:14,770 --> 00:02:10,649  
place and are increasing in intensity

31  
00:02:19,010 --> 00:02:14,780  
the earth is on fire Satan has arisen

32  
00:02:20,720 --> 00:02:19,020  
okay okay whatever you say but hey let's

33  
00:02:23,630 --> 00:02:20,730  
go ahead and head back to the KC or our

34  
00:02:26,330 --> 00:02:23,640  
studios in Vegas and find out from our

35  
00:02:28,130 --> 00:02:26,340  
guest Larry Arnold what's really going

36  
00:02:30,920 --> 00:02:28,140  
on I tell you it's the end of the world

37  
00:02:37,910 --> 00:02:30,930  
as we know it it's the end of the world

38  
00:02:42,530 --> 00:02:37,920

and I feel alright we should put you in

39

00:02:45,670 --> 00:02:42,540

I was a lounge singer there Tim well you

40

00:02:49,759 --> 00:02:45,680

could play drums behind me or something

41

00:02:50,610 --> 00:02:49,769

yeah you wouldn't want that we get my

42

00:02:52,979 --> 00:02:50,620

daughters yes

43

00:02:56,850 --> 00:02:52,989

played saxophone for all right whoa

44

00:03:01,649 --> 00:02:56,860

we're getting the band going already you

45

00:03:04,940 --> 00:03:01,659

know I have probably had a band in a

46

00:03:08,699 --> 00:03:04,950

couple of our conferences there and

47

00:03:12,240 --> 00:03:08,709

Phoenix I'm in late Fred Bell helped us

48

00:03:15,720 --> 00:03:12,250

up put together we had that Patrick Mraz

49

00:03:19,259 --> 00:03:15,730

who used to a play with I believe the

50

00:03:22,800 --> 00:03:19,269

the band yes and the Moody Blues and Jim

51  
00:03:27,330 --> 00:03:22,810  
Della Toso was in on it and my buddy a

52  
00:03:30,270 --> 00:03:27,340  
blue ocean and I I sang him a couple

53  
00:03:33,420 --> 00:03:30,280  
songs there and then it's all it's all

54  
00:03:35,729 --> 00:03:33,430  
grand but anyway the night marches on

55  
00:03:39,420 --> 00:03:35,739  
and we've got a great guest tonight in a

56  
00:03:41,970 --> 00:03:39,430  
really fiery subject oh yeah that's

57  
00:03:45,420 --> 00:03:41,980  
right well I'm really I'm really excited

58  
00:03:47,369 --> 00:03:45,430  
that we were able to get Larry Arnold on

59  
00:03:50,180 --> 00:03:47,379  
our show tonight I've been wanting to

60  
00:03:53,720 --> 00:03:50,190  
have Larry on for quite some time so

61  
00:03:57,030 --> 00:03:53,730  
it's just really really pleased that

62  
00:03:59,159 --> 00:03:57,040  
that he's joined us now just a little

63  
00:04:01,319 --> 00:03:59,169

bit of an introduction for anybody

64

00:04:04,589 --> 00:04:01,329

now Larry founded power science

65

00:04:07,110 --> 00:04:04,599

international in 1976 to pursue the

66

00:04:09,449 --> 00:04:07,120

exploration of 40 in anomalies in

67

00:04:12,240 --> 00:04:09,459

consciousness now his controversial

68

00:04:16,740 --> 00:04:12,250

article published in August of 1978

69

00:04:19,949 --> 00:04:16,750

titled meltdown at TMI number two would

70

00:04:22,070 --> 00:04:19,959

eight months later be termed uncannily

71

00:04:24,960 --> 00:04:22,080

accurate by the New York Times in

72

00:04:26,570 --> 00:04:24,970

presage in the future of the nuclear

73

00:04:29,250 --> 00:04:26,580

power plants meltdown near his home

74

00:04:32,040 --> 00:04:29,260

where is the author of three pioneering

75

00:04:34,680 --> 00:04:32,050

books the parapsychological impact of

76

00:04:38,460 --> 00:04:34,690

the accident of Three Mile Island wrote

77

00:04:42,270 --> 00:04:38,470

that 1980 the Ricci handbook which he

78

00:04:45,150 --> 00:04:42,280

wrote in 1982 and ablaze the mysterious

79

00:04:47,640 --> 00:04:45,160

fires of spontaneous human combustion

80

00:04:49,950 --> 00:04:47,650

now he's regarded by some of the world's

81

00:04:53,580 --> 00:04:49,960

experts on spontaneous human combustion

82

00:04:56,430 --> 00:04:53,590

and consequently bothers as Larry puts

83

00:04:58,140 --> 00:04:56,440

it as this is a world-class fool but I

84

00:05:00,270 --> 00:04:58,150

don't think so and after the end of the

85

00:05:02,279 --> 00:05:00,280

show I don't think our audience will

86

00:05:04,230 --> 00:05:02,289

either know Larry has been guest on

87

00:05:06,870 --> 00:05:04,240

hundreds of radio and Internet

88

00:05:08,100 --> 00:05:06,880

radio programs now including exploring

89

00:05:11,550 --> 00:05:08,110

the bazaar

90

00:05:15,350 --> 00:05:11,560

he's also appeared on programs for

91

00:05:17,700 --> 00:05:15,360

numerous television networks and he's

92

00:05:20,939 --> 00:05:17,710

lectured all over the place about the

93

00:05:24,480 --> 00:05:20,949

paranormal and is has been published in

94

00:05:27,749 --> 00:05:24,490

magazines such as fate 14 times info

95

00:05:31,800 --> 00:05:27,759

journal Life Pennsylvania Association of

96

00:05:32,700 --> 00:05:31,810

arson investigators newsletter let's see

97

00:05:36,719 --> 00:05:32,710

what else

98

00:05:41,909 --> 00:05:36,729

UFO annual UFO reports and of course the

99

00:05:44,400 --> 00:05:41,919

infamous UFO universe there you go well

100

00:05:49,710 --> 00:05:44,410

you know I remember the day that I

101  
00:05:52,140 --> 00:05:49,720  
purchased a copy of a blaze and and most

102  
00:05:53,580 --> 00:05:52,150  
people don't remember when it was that

103  
00:05:56,760 --> 00:05:53,590  
they purchased a book or where they

104  
00:05:59,730 --> 00:05:56,770  
purchase it but I remember I was going I

105  
00:06:02,670 --> 00:05:59,740  
was headed down the Jersey Shore and I

106  
00:06:06,990 --> 00:06:02,680  
wanted something to read and there was a

107  
00:06:09,990 --> 00:06:07,000  
used book store that we stopped in and I

108  
00:06:12,899 --> 00:06:10,000  
believe the only book on the paranormal

109  
00:06:16,140 --> 00:06:12,909  
in the whole place was Larry's book and

110  
00:06:20,219 --> 00:06:16,150  
it was huge I mean we put out some

111  
00:06:26,459 --> 00:06:20,229  
pretty thick tones there at Tim but this

112  
00:06:30,959 --> 00:06:26,469  
one was pretty close to 500 pages and it

113  
00:06:34,709 --> 00:06:30,969

was hardcover and the price was right

114

00:06:38,040 --> 00:06:34,719

and so I purchased it and I sat out in

115

00:06:40,159 --> 00:06:38,050

the Sun and read that at least part of

116

00:06:44,339 --> 00:06:40,169

the book certainly couldn't do it in a

117

00:06:49,260 --> 00:06:44,349

couple of days but it's a tremendous

118

00:06:56,249 --> 00:06:49,270

book and probably the the only complete

119

00:06:58,800 --> 00:06:56,259

work on the topic now I want to get into

120

00:07:01,439 --> 00:06:58,810

a couple of discussions here this

121

00:07:04,290 --> 00:07:01,449

evening of course we want to talk about

122

00:07:08,339 --> 00:07:04,300

spontaneous human combustion but I'm

123

00:07:12,750 --> 00:07:08,349

also intrigued by Larry's investigation

124

00:07:16,350 --> 00:07:12,760

of the Chicago of fire back in issue

125

00:07:18,000 --> 00:07:16,360

number two of UFO universe we published

126

00:07:21,420 --> 00:07:18,010

an article that

127

00:07:23,220 --> 00:07:21,430

Larry did on this topic but I think

128

00:07:27,060 --> 00:07:23,230

Larry the first thing I want to know is

129

00:07:32,790 --> 00:07:27,070

how did you become fascinated with the

130

00:07:35,450 --> 00:07:32,800

14 phenomena and in the things related

131

00:07:40,080 --> 00:07:35,460

to two fires I mean it seems to be a

132

00:07:44,160 --> 00:07:40,090

relatively real niche topic here for

133

00:07:46,920 --> 00:07:44,170

somebody to explore hi Timothy and Tim

134

00:07:48,300 --> 00:07:46,930

it's great to be with you guys you

135

00:07:50,400 --> 00:07:48,310

gentlemen certainly have extraordinary

136

00:07:52,230 --> 00:07:50,410

credentials to explore the bizarre and

137

00:07:53,550 --> 00:07:52,240

we are honored with this opportunity to

138

00:07:55,590 --> 00:07:53,560

share with you and your audience died

139

00:07:57,870 --> 00:07:55,600

some of the research that we've done in

140

00:08:00,390 --> 00:07:57,880

this as you say niche area of the truly

141

00:08:02,760 --> 00:08:00,400

bizarre we're going to be embarking on

142

00:08:06,170 --> 00:08:02,770

an examination of an exploration of one

143

00:08:09,030 --> 00:08:06,180

of nature's more extraordinary phenomena

144

00:08:13,010 --> 00:08:09,040

that mainstream science finds utterly

145

00:08:15,810 --> 00:08:13,020

mysterious and inexplicable as well as

146

00:08:18,690 --> 00:08:15,820

unacceptable what does an eccentric

147

00:08:20,790 --> 00:08:18,700

phenomenon what caused is introduced to

148

00:08:22,260 --> 00:08:20,800

the phenomenon and because and become

149

00:08:24,480 --> 00:08:22,270

interested in it was a book that we read

150

00:08:27,090 --> 00:08:24,490

in junior high school called stranger

151  
00:08:29,220 --> 00:08:27,100  
than science by Frank Edwards oh yeah

152  
00:08:31,290 --> 00:08:29,230  
and in that book he had a chapter about

153  
00:08:32,880 --> 00:08:31,300  
incredible considerations and he spoke

154  
00:08:36,030 --> 00:08:32,890  
specifically about a woman named Mary

155  
00:08:39,180 --> 00:08:36,040  
Hardy Reiser and as we took an interest

156  
00:08:41,040 --> 00:08:39,190  
in how she died supposedly mysteriously

157  
00:08:45,630 --> 00:08:41,050  
by this thing called spontaneous human

158  
00:08:48,570 --> 00:08:45,640  
combustion as with you in buying a book

159  
00:08:50,400 --> 00:08:48,580  
when you went to the shore we never

160  
00:08:52,500 --> 00:08:50,410  
forgot about what we read in junior high

161  
00:08:54,480 --> 00:08:52,510  
school and as we went to the academic

162  
00:08:56,250 --> 00:08:54,490  
structure we would ask our teachers and

163  
00:08:58,230 --> 00:08:56,260

later our professors in college you know

164

00:08:59,970 --> 00:08:58,240

had they ever heard about this any ideas

165

00:09:04,140 --> 00:08:59,980

nope never heard about it didn't know a

166

00:09:07,140 --> 00:09:04,150

thing about it so that kept us curious

167

00:09:08,790 --> 00:09:07,150

and when we left College and kind of

168

00:09:10,800 --> 00:09:08,800

changed professions from engineering to

169

00:09:12,600 --> 00:09:10,810

focus more on the paranormal the

170

00:09:15,840 --> 00:09:12,610

fourteen aspects of this amazing world

171

00:09:17,430 --> 00:09:15,850

in which we all cohabit our mind brought

172

00:09:19,530 --> 00:09:17,440

us back to this thing we read in junior

173

00:09:20,820 --> 00:09:19,540

high school about spong calm and we went

174

00:09:22,350 --> 00:09:20,830

to the Library of Congress to see

175

00:09:24,030 --> 00:09:22,360

whether Frank Edwards the author of

176

00:09:27,180 --> 00:09:24,040

stranger than science had made up this

177

00:09:29,100 --> 00:09:27,190

chapter about mrs. Reiser or whether he

178

00:09:31,260 --> 00:09:29,110

based his chapter writing on a real

179

00:09:31,830 --> 00:09:31,270

event and I'm plowing through microfilm

180

00:09:34,350 --> 00:09:31,840

at the

181

00:09:36,240 --> 00:09:34,360

of Congress looking at copies of the st.

182

00:09:39,030 --> 00:09:36,250

Petersburg Times and the Tampa Tribune

183

00:09:41,580 --> 00:09:39,040

from 1951 we discovered that Frank

184

00:09:43,080 --> 00:09:41,590

Edwards didn't make anything up he

185

00:09:46,100 --> 00:09:43,090

reported this amazing story of mrs.

186

00:09:49,920 --> 00:09:46,110

Weezer's phenomenal transition by fire

187

00:09:51,960 --> 00:09:49,930

matter-of-factly and we thought what

188

00:09:53,730 --> 00:09:51,970

would end up being a weekend of of

189

00:09:57,180 --> 00:09:53,740

library work at the Library of Congress

190

00:09:58,950 --> 00:09:57,190

in DC has transformed into a decade's

191

00:10:00,900 --> 00:09:58,960

long career that has spanned the globe

192

00:10:03,090 --> 00:10:00,910

us traveling the world talking to

193

00:10:06,170 --> 00:10:03,100

hundreds of fire investigators first

194

00:10:08,400 --> 00:10:06,180

responders physicians medical examiners

195

00:10:11,670 --> 00:10:08,410

survivors and eyewitnesses to this

196

00:10:13,640 --> 00:10:11,680

amazing yet and extraordinarily McCobb

197

00:10:20,640 --> 00:10:13,650

subject that history has termed

198

00:10:24,050 --> 00:10:20,650

spontaneous human combustion and and

199

00:10:27,180 --> 00:10:24,060

okay so now also too I remember reading

200

00:10:29,280 --> 00:10:27,190

of course Frank Edwards book but also

201  
00:10:32,040 --> 00:10:29,290  
there was another writer Vincent Gatos

202  
00:10:35,970 --> 00:10:32,050  
I'm sure you're probably familiar with

203  
00:10:39,450 --> 00:10:35,980  
his work indeed yeah mysterious fires

204  
00:10:43,260 --> 00:10:39,460  
fires and white lights yeah okay well

205  
00:10:45,720 --> 00:10:43,270  
now did you would actually investigate

206  
00:10:48,300 --> 00:10:45,730  
investigate this case I mean did you

207  
00:10:54,570 --> 00:10:48,310  
call the police department or anything

208  
00:10:56,040 --> 00:10:54,580  
down there to confirm yes we we have

209  
00:10:58,140 --> 00:10:56,050  
investigated the research case

210  
00:11:01,410 --> 00:10:58,150  
extensively our file on the research

211  
00:11:03,060 --> 00:11:01,420  
case is more than an inch thick one of

212  
00:11:05,310 --> 00:11:03,070  
our critics likes to call us a mystery

213  
00:11:07,320 --> 00:11:05,320

monger we don't need the longer the

214

00:11:10,320 --> 00:11:07,330

mystery here the mystery is real it

215

00:11:12,090 --> 00:11:10,330

mongers itself we have communicated with

216

00:11:14,750 --> 00:11:12,100

the st. Pete Police Department over the

217

00:11:17,100 --> 00:11:14,760

years as well as the fire department

218

00:11:18,720 --> 00:11:17,110

we're actually able to track down one of

219

00:11:21,840 --> 00:11:18,730

the two firefighters one of the two

220

00:11:24,150 --> 00:11:21,850

first responders who helped shovel up

221

00:11:26,390 --> 00:11:24,160

mrs. Reese's ashes from her apartment in

222

00:11:31,740 --> 00:11:26,400

Saint Pete back in the morning of July 2

223

00:11:33,840 --> 00:11:31,750

1951 and as Nelson aider told us to the

224

00:11:35,610 --> 00:11:33,850

best of his ability as a as a

225

00:11:38,160 --> 00:11:35,620

firefighter with decades of experience

226

00:11:39,870 --> 00:11:38,170

fighting fatal fires as well as

227

00:11:43,620 --> 00:11:39,880

conventional house blazes he had never

228

00:11:45,600 --> 00:11:43,630

before nor since his his

229

00:11:49,110 --> 00:11:45,610

encounter with the myth with mrs. rhesus

230

00:11:50,820 --> 00:11:49,120

Asian remains Mentos fire bento fire

231

00:11:52,380 --> 00:11:50,830

scene that anywhere came close to

232

00:11:56,790 --> 00:11:52,390

remotely resembling what he encountered

233

00:11:58,800 --> 00:11:56,800

that day in 1951 and in his professional

234

00:12:02,820 --> 00:11:58,810

opinion mrs. Reeser died by none other

235

00:12:04,860 --> 00:12:02,830

than spontaneous human combustion now

236

00:12:11,790 --> 00:12:04,870

what's the only thing that was left of

237

00:12:13,770 --> 00:12:11,800

her that wasn't an ash a foot you're

238

00:12:16,650 --> 00:12:13,780

pretty close the photographs that we

239

00:12:19,140 --> 00:12:16,660

have of her remains consist of one foot

240

00:12:21,060 --> 00:12:19,150

the satin slipper that was encased on

241

00:12:23,520 --> 00:12:21,070

the foot a few pieces of calcined

242

00:12:25,410 --> 00:12:23,530

vertebrae and a skull that was said by

243

00:12:26,730 --> 00:12:25,420

the first responders at the time to have

244

00:12:29,850 --> 00:12:26,740

shrunk to the size of a teacup

245

00:12:34,710 --> 00:12:29,860

grapefruit or baseball everything else

246

00:12:36,240 --> 00:12:34,720

was limited in terms of fire damage to

247

00:12:37,860 --> 00:12:36,250

what was called a circle of death that

248

00:12:40,280 --> 00:12:37,870

was no more than about three feet in

249

00:12:47,610 --> 00:12:44,460

well now okay the the human body if

250

00:12:49,860 --> 00:12:47,620

somebody pours gasoline on a person and

251  
00:12:52,530 --> 00:12:49,870  
sets them ablaze I mean you see this on

252  
00:12:57,920 --> 00:12:52,540  
TV all the time in these you know a

253  
00:13:02,850 --> 00:12:57,930  
crime shows how long does it take for a

254  
00:13:06,840 --> 00:13:02,860  
body to burn and what temperature must

255  
00:13:09,180 --> 00:13:06,850  
the it reach in order for it to turn to

256  
00:13:13,950 --> 00:13:09,190  
ash I mean it sounds like something you

257  
00:13:15,630 --> 00:13:13,960  
would do in a crematorium you certainly

258  
00:13:17,670 --> 00:13:15,640  
can do that in a crematorium and that's

259  
00:13:19,280 --> 00:13:17,680  
an excellent question suppose in the

260  
00:13:22,110 --> 00:13:19,290  
context of the subject under discussion

261  
00:13:23,880 --> 00:13:22,120  
in arson murders were gasoline or

262  
00:13:27,240 --> 00:13:23,890  
somewhat their accelerant is used to

263  
00:13:29,490 --> 00:13:27,250

cover up let's look at the crime scene

264

00:13:33,540 --> 00:13:29,500

so to speak by the perpetrator it can

265

00:13:35,910 --> 00:13:33,550

take several hours to sort of incinerate

266

00:13:37,860 --> 00:13:35,920

the body and yet if you talk to you

267

00:13:40,530 --> 00:13:37,870

someone who's an expert in taphonomy as

268

00:13:42,480 --> 00:13:40,540

is Elaine Pope or you talk to dr. Walton

269

00:13:43,860 --> 00:13:42,490

Marion Krogman as we did who was

270

00:13:46,980 --> 00:13:43,870

involved in the research case back in

271

00:13:50,310 --> 00:13:46,990

1951 he was a renowned internationally

272

00:13:51,930 --> 00:13:50,320

renowned forensic anthropologist who had

273

00:13:54,180 --> 00:13:51,940

conducted a number of experiments on

274

00:13:56,190 --> 00:13:54,190

what what are the effects of fire on the

275

00:13:57,210 --> 00:13:56,200

human body because this is really

276

00:14:00,509 --> 00:13:57,220

important do crimes

277

00:14:02,910 --> 00:14:00,519

investigators Elaine Pope will tell you

278

00:14:04,800 --> 00:14:02,920

that even in the most severe or some

279

00:14:06,319 --> 00:14:04,810

murder cases there are always parts of

280

00:14:09,119 --> 00:14:06,329

the body left that you could identify

281

00:14:11,819 --> 00:14:09,129

and look within for evidence of foul

282

00:14:13,679 --> 00:14:11,829

play stab wounds gunshot wounds you know

283

00:14:16,379 --> 00:14:13,689

severe beatings of the body before the

284

00:14:19,499 --> 00:14:16,389

cadaver was was burned and attempt to

285

00:14:23,040 --> 00:14:19,509

cover up the crime evidence in dr.

286

00:14:24,809 --> 00:14:23,050

Krogman x' case he told us that in his

287

00:14:26,340 --> 00:14:24,819

experiments to replicate the kind of

288

00:14:28,800 --> 00:14:26,350

damage that was found in Mary Reese's

289

00:14:31,319 --> 00:14:28,810

apartment would require him to burn a

290

00:14:33,600 --> 00:14:31,329

cadaver in a retort for 12 hours

291

00:14:36,809 --> 00:14:33,610

uninterrupted temperatures approaching

292

00:14:40,199 --> 00:14:36,819

3000 degrees Fahrenheit in order to

293

00:14:43,230 --> 00:14:40,209

fully ash in a body that is much more

294

00:14:46,860 --> 00:14:43,240

extreme conditions than that a retort

295

00:14:49,410 --> 00:14:46,870

normally fires up the body so to speak

296

00:14:53,189 --> 00:14:49,420

and crematoriums normally the retort

297

00:14:55,679 --> 00:14:53,199

temperature is in the vicinity of 22 to

298

00:14:57,360 --> 00:14:55,689

2,400 degrees for about 90 minutes 60 to

299

00:14:59,550 --> 00:14:57,370

90 minutes depending on the mass of the

300

00:15:02,189 --> 00:14:59,560

body and then the retort temperatures

301  
00:15:03,569 --> 00:15:02,199  
lowered to 17 to 1800 degrees Fahrenheit

302  
00:15:07,319 --> 00:15:03,579  
for another hour and a half to two and a

303  
00:15:11,819 --> 00:15:07,329  
half hours and even at those heightened

304  
00:15:14,429 --> 00:15:11,829  
temperatures and in perspective molten

305  
00:15:16,110 --> 00:15:14,439  
rock coming out of a volcano has a

306  
00:15:17,819 --> 00:15:16,120  
temperature of about 2,000 degrees

307  
00:15:20,009 --> 00:15:17,829  
Fahrenheit so we're talking high heat

308  
00:15:23,400 --> 00:15:20,019  
here and yet what comes out of a normal

309  
00:15:26,970 --> 00:15:23,410  
crematorium retort oven is not just dust

310  
00:15:28,319 --> 00:15:26,980  
and ash but large bone fragments that

311  
00:15:30,689 --> 00:15:28,329  
are not burdened completely not

312  
00:15:32,610 --> 00:15:30,699  
completely cow signs which are put in a

313  
00:15:34,920 --> 00:15:32,620

device called accumulator a fancy name

314

00:15:38,129 --> 00:15:34,930

for a bone grinder can produce the

315

00:15:40,350 --> 00:15:38,139

proverbial ash and dust that is given to

316

00:15:42,210 --> 00:15:40,360

the next of kin in the presentation urn

317

00:15:44,540 --> 00:15:42,220

so we're talking just ordinary

318

00:15:47,340 --> 00:15:44,550

temperatures here even in house fires

319

00:15:49,860 --> 00:15:47,350

rarely do temperatures exceed 17 or

320

00:15:51,780 --> 00:15:49,870

1,800 degrees Fahrenheit but in the

321

00:15:53,210 --> 00:15:51,790

research case as in hundreds of other

322

00:15:57,079 --> 00:15:53,220

cases that we've been able to document

323

00:16:00,960 --> 00:15:57,089

you find these experience of

324

00:16:03,540 --> 00:16:00,970

extraordinary heat but relegated very

325

00:16:05,429 --> 00:16:03,550

isolated ly relegated to the body itself

326

00:16:07,470 --> 00:16:05,439

surrounding combustibles as in the

327

00:16:11,040 --> 00:16:07,480

recent case they were linen on the

328

00:16:13,259 --> 00:16:11,050

daybed near her body stacks of newspaper

329

00:16:15,720 --> 00:16:13,269

nearby that did not incinerate we're not

330

00:16:17,579 --> 00:16:15,730

even singed the fire in the research

331

00:16:20,430 --> 00:16:17,589

case was relegated to about that

332

00:16:22,500 --> 00:16:20,440

three-foot diameter area that consisted

333

00:16:24,329 --> 00:16:22,510

or contained the night before her body

334

00:16:29,220 --> 00:16:24,339

and the chair on which she was known to

335

00:16:32,699 --> 00:16:29,230

be seated now did she live in a an

336

00:16:34,230 --> 00:16:32,709

apartment building or was it a home she

337

00:16:36,030 --> 00:16:34,240

did live in an apartment building in st.

338

00:16:38,280 --> 00:16:36,040

Pete Florida she lived at one end of the

339

00:16:39,630 --> 00:16:38,290

hallway her landlady pnz carpenter at

340

00:16:41,250 --> 00:16:39,640

that time was living at the other end of

341

00:16:43,620 --> 00:16:41,260

the hallway to the best of our knowledge

342

00:16:47,579 --> 00:16:43,630

the other two housing units were empty

343

00:16:49,860 --> 00:16:47,589

at the time there was a telegram that

344

00:16:54,060 --> 00:16:49,870

was delivered to mrs. Reeser the morning

345

00:16:55,620 --> 00:16:54,070

of July 2 the western union delivery

346

00:16:57,660 --> 00:16:55,630

person handed the telegram to mrs.

347

00:16:59,670 --> 00:16:57,670

Reeser she walked down I'm sorry - mrs.

348

00:17:02,280 --> 00:16:59,680

pansy carpenter who walked out in the

349

00:17:05,640 --> 00:17:02,290

hallway - you know rappin mrs. Reser's

350

00:17:08,220 --> 00:17:05,650

door in hand her the telegram pansy

351  
00:17:09,780 --> 00:17:08,230  
found the the door handle to mrs.

352  
00:17:12,030 --> 00:17:09,790  
Reese's apartment too hot to touch she

353  
00:17:14,250 --> 00:17:12,040  
screamed two painters who were working

354  
00:17:16,559 --> 00:17:14,260  
across the street responded to the the

355  
00:17:18,360 --> 00:17:16,569  
screaming and broke the door down to

356  
00:17:21,380 --> 00:17:18,370  
discover this amazing fire scene in

357  
00:17:24,650 --> 00:17:21,390  
which mrs. Ruiz's body was and I am an

358  
00:17:28,260 --> 00:17:24,660  
extraordinarily isolated fire scene

359  
00:17:32,460 --> 00:17:28,270  
there were no signs no signs of smoke no

360  
00:17:35,430 --> 00:17:32,470  
signs of smoke or anything correct also

361  
00:17:37,950 --> 00:17:35,440  
a typical of a normal human fatal fire

362  
00:17:40,020 --> 00:17:37,960  
scene there was no noxious odor present

363  
00:17:43,260 --> 00:17:40,030

at that fire scene in the apartment at

364

00:17:46,049 --> 00:17:43,270

the time normally burning bodies burning

365

00:17:49,650 --> 00:17:46,059

human bodies have a let's say unpleasant

366

00:17:51,120 --> 00:17:49,660

noxious stench to them in cases that fit

367

00:17:54,530 --> 00:17:51,130

the definition of spontaneous human

368

00:17:57,570 --> 00:17:54,540

combustion we find either no such outer

369

00:18:00,120 --> 00:17:57,580

rather we find either the absence of an

370

00:18:01,919 --> 00:18:00,130

odor at all or the presence of what has

371

00:18:05,220 --> 00:18:01,929

been described often to us as a sweet

372

00:18:10,400 --> 00:18:05,230

Wetteland perfume like scent at the burn

373

00:18:13,110 --> 00:18:10,410

scene now how many cases of spontaneous

374

00:18:17,190 --> 00:18:13,120

combustion would you estimate that that

375

00:18:19,380 --> 00:18:17,200

there are when we begin our research the

376

00:18:21,690 --> 00:18:19,390

answer to that question was likely zero

377

00:18:23,669 --> 00:18:21,700

because mainstream fire science and

378

00:18:24,810 --> 00:18:23,679

mainstream medicine absolutely refused

379

00:18:26,910 --> 00:18:24,820

to believe that the phenomena

380

00:18:28,770 --> 00:18:26,920

could occur so therefore there could be

381

00:18:31,560 --> 00:18:28,780

no evidence of it there could be no

382

00:18:33,480 --> 00:18:31,570

cases for it however in the research

383

00:18:35,910 --> 00:18:33,490

that we have conducted over now for

384

00:18:39,420 --> 00:18:35,920

decades and still counting we have found

385

00:18:41,340 --> 00:18:39,430

500 cases approximately they fit the

386

00:18:43,860 --> 00:18:41,350

definition the concept of spontaneous

387

00:18:46,740 --> 00:18:43,870

human combustion some of those cases are

388

00:18:50,220 --> 00:18:46,750

unique to our research and really why

389

00:18:54,030 --> 00:18:50,230

the mainstream Orthodox believe that shc

390

00:18:56,550 --> 00:18:54,040

is impossible the cases such as mrs.

391

00:18:58,890 --> 00:18:56,560

Reeser dr. Bentley here in Pennsylvania

392

00:19:02,330 --> 00:18:58,900

Helen Conway also here in Pennsylvania

393

00:19:05,100 --> 00:19:02,340

and hundreds of cases around the world

394

00:19:08,130 --> 00:19:05,110

fit the definition that the human body

395

00:19:10,980 --> 00:19:08,140

is capable of blistering smoking or

396

00:19:13,290 --> 00:19:10,990

otherwise burning in the absence of a

397

00:19:16,770 --> 00:19:13,300

node I know in nearby

398

00:19:18,150 --> 00:19:16,780

external source of ignition which is our

399

00:19:24,690 --> 00:19:18,160

definition of spontaneous human

400

00:19:27,480 --> 00:19:24,700

combustion now has anybody it seems to

401  
00:19:30,120 --> 00:19:27,490  
me that I heard on the radio many years

402  
00:19:34,290 --> 00:19:30,130  
ago and I don't have all the details in

403  
00:19:38,520 --> 00:19:34,300  
my memory that someone was walking down

404  
00:19:44,150 --> 00:19:38,530  
the street and caught on fire are there

405  
00:19:48,260 --> 00:19:44,160  
cases in your files where people have

406  
00:19:52,470 --> 00:19:48,270  
caught on fire and have been witnessed

407  
00:19:55,290 --> 00:19:52,480  
yes indeed we have many cases we have

408  
00:19:57,660 --> 00:19:55,300  
two chapters and ablaze devoted to

409  
00:20:01,530 --> 00:19:57,670  
witnessed cases of spontaneous human

410  
00:20:02,880 --> 00:20:01,540  
combustion this is a subset of the

411  
00:20:04,680 --> 00:20:02,890  
research that we've done into the

412  
00:20:07,560 --> 00:20:04,690  
phenomenon that really irks the

413  
00:20:08,670 --> 00:20:07,570

debunkers and the naysayers because if

414

00:20:11,220 --> 00:20:08,680

you're going to dismiss the evidence

415

00:20:14,880 --> 00:20:11,230

that we've accumulated from the

416

00:20:16,890 --> 00:20:14,890

eyewitnesses both historical cases in

417

00:20:18,780 --> 00:20:16,900

cases that we've been able to personally

418

00:20:20,730 --> 00:20:18,790

interview the the eyewitnesses you've

419

00:20:24,960 --> 00:20:20,740

got to call all these people liars and

420

00:20:27,540 --> 00:20:24,970

that's really risky to do what the

421

00:20:31,080 --> 00:20:27,550

witnesses report historically or have

422

00:20:34,710 --> 00:20:31,090

told us personally when they see a case

423

00:20:36,720 --> 00:20:34,720

of si si occurring oftentimes the body

424

00:20:37,900 --> 00:20:36,730

is engulfed and what they describe to us

425

00:20:41,350 --> 00:20:37,910

or has been disco

426  
00:20:45,640 --> 00:20:41,360  
historically as a bright electric blue

427  
00:20:46,930 --> 00:20:45,650  
colored flame or light we have a few

428  
00:20:49,180 --> 00:20:46,940  
cases where that light has been

429  
00:20:53,620 --> 00:20:49,190  
described as silver in color golden

430  
00:20:56,320 --> 00:20:53,630  
color bluish green but the predominant

431  
00:20:58,810 --> 00:20:56,330  
number of cases where the event has been

432  
00:21:04,300 --> 00:20:58,820  
witnessed this bright electric blue

433  
00:21:06,850 --> 00:21:04,310  
color is reported in Survivor cases some

434  
00:21:09,370 --> 00:21:06,860  
of us have more extreme cases that have

435  
00:21:13,560 --> 00:21:09,380  
produced severe third even fourth degree

436  
00:21:16,690 --> 00:21:13,570  
burn injuries to the survivors body

437  
00:21:18,550 --> 00:21:16,700  
either the body is not observed during

438  
00:21:21,280 --> 00:21:18,560

the process of burning itself on the

439

00:21:24,250 --> 00:21:21,290

case of Jack angel from 1974 traveling

440

00:21:27,340 --> 00:21:24,260

salesmen who slept through his severely

441

00:21:30,280 --> 00:21:27,350

the severe severe charring that burned

442

00:21:32,860 --> 00:21:30,290

his right forearm he awakens to ghastly

443

00:21:35,730 --> 00:21:32,870

that's ghastly athlete yeah

444

00:21:38,830 --> 00:21:35,740

you're waking with no pain no sensation

445

00:21:43,060 --> 00:21:38,840

yeah what a nightmare to wake wake wake

446

00:21:45,040 --> 00:21:43,070

to a other other survivors and witnesses

447

00:21:49,570 --> 00:21:45,050

tell us that they would see the body

448

00:21:51,930 --> 00:21:49,580

smoking or they were feel a light heat

449

00:21:55,150 --> 00:21:51,940

rising up their spinal column through

450

00:21:57,670 --> 00:21:55,160

their arms or limbs perhaps and smoking

451  
00:21:59,710 --> 00:21:57,680  
and Sue's perhaps producing a first and

452  
00:22:01,810 --> 00:21:59,720  
maybe second-degree burn but they are

453  
00:22:05,320 --> 00:22:01,820  
not standing near any source of known

454  
00:22:07,150 --> 00:22:05,330  
external fire or ignition that can

455  
00:22:11,800 --> 00:22:07,160  
produce the phenomenon that they report

456  
00:22:14,110 --> 00:22:11,810  
to us now okay well it sounds like from

457  
00:22:17,740 --> 00:22:14,120  
what you're describing this is an

458  
00:22:21,760 --> 00:22:17,750  
internal process but is it possible I

459  
00:22:26,290 --> 00:22:21,770  
mean I somebody suggested today a Tesla

460  
00:22:27,910 --> 00:22:26,300  
Tesla's death death right right I might

461  
00:22:30,280 --> 00:22:27,920  
have been involved in some of these

462  
00:22:32,800 --> 00:22:30,290  
cases is it possible that some of these

463  
00:22:37,240 --> 00:22:32,810

people might have been zapped by

464

00:22:39,880 --> 00:22:37,250

external sources we certainly believe

465

00:22:43,420 --> 00:22:39,890

that some of the cases can be explained

466

00:22:45,940 --> 00:22:43,430

or simply we can hypothesize that the

467

00:22:47,860 --> 00:22:45,950

causation for some of the burden cases

468

00:22:49,570 --> 00:22:47,870

that fit the definition of spontaneous

469

00:22:51,430 --> 00:22:49,580

human combustion do result from an

470

00:22:54,340 --> 00:22:51,440

external ignition source one

471

00:22:55,960 --> 00:22:54,350

is not known to the victim certainly not

472

00:22:59,409 --> 00:22:55,970

known to mainstream conventional

473

00:23:02,769 --> 00:22:59,419

Orthodox Western science the US military

474

00:23:06,509 --> 00:23:02,779

does have the technology to internally

475

00:23:08,769 --> 00:23:06,519

heat targeted humans at a distance

476

00:23:10,360 --> 00:23:08,779

weather that can explain any of the more

477

00:23:12,700 --> 00:23:10,370

recent cases of spontaneous human

478

00:23:14,350 --> 00:23:12,710

Western events we're not in a position

479

00:23:16,690 --> 00:23:14,360

to say because we don't have that level

480

00:23:18,490 --> 00:23:16,700

of security clearance but certainly that

481

00:23:21,070 --> 00:23:18,500

technology cannot be applied to the

482

00:23:24,909 --> 00:23:21,080

cases that date from the 15 16 17 and

483

00:23:27,549 --> 00:23:24,919

1800's now what's the most recent case

484

00:23:30,700 --> 00:23:27,559

that you're aware of interesting

485

00:23:32,230 --> 00:23:30,710

question the most recent case that were

486

00:23:34,419 --> 00:23:32,240

willing to stake our research and

487

00:23:38,639 --> 00:23:34,429

reputation on is a case that we

488

00:23:44,499 --> 00:23:38,649

personally investigated in Oklahoma in

489

00:23:46,659 --> 00:23:44,509

2013 victim was Danny Van Zandt the

490

00:23:48,850 --> 00:23:46,669

synopsis of that case very quickly is

491

00:23:50,619 --> 00:23:48,860

that one of his relatives living

492

00:23:54,100 --> 00:23:50,629

next-door noticed some smoke coming out

493

00:23:56,200 --> 00:23:54,110

of the eave of Danny's home the home was

494

00:23:59,619 --> 00:23:56,210

locked up at the time another relative

495

00:24:03,100 --> 00:23:59,629

broke into the home and in the smoky

496

00:24:04,149 --> 00:24:03,110

haze of the time we're gonna Larry we're

497

00:24:05,560 --> 00:24:04,159

gonna have to interrupt you here because

498

00:24:07,269 --> 00:24:05,570

we're coming up to our bottom of the

499

00:24:11,670 --> 00:24:07,279

hour break we'll continue this

500

00:24:27,089 --> 00:24:16,980

[Music]

501  
00:24:33,820 --> 00:24:31,239  
now back to exploring the bazaar with

502  
00:24:36,820 --> 00:24:33,830  
two of the most electrifying researchers

503  
00:24:43,119 --> 00:24:36,830  
in the Paranoid your hosts Timothy

504  
00:24:44,859 --> 00:24:43,129  
effectively Anton Swartz welcome back to

505  
00:24:47,109 --> 00:24:44,869  
exploring the bazaar I'm Tim Schwarz

506  
00:24:49,810 --> 00:24:47,119  
tonight we're talking with Larry Arnold

507  
00:24:53,169 --> 00:24:49,820  
about spontaneous human combustion and

508  
00:24:55,989 --> 00:24:53,179  
other mystery fires okay so Larry you

509  
00:24:59,169 --> 00:24:55,999  
were telling us probably one of the more

510  
00:25:00,820 --> 00:24:59,179  
most recent cases that that you were

511  
00:25:03,070 --> 00:25:00,830  
working on before we had to rudely

512  
00:25:05,249 --> 00:25:03,080  
interrupt you to go to our break so you

513  
00:25:07,719 --> 00:25:05,259

can go ahead and continue

514

00:25:11,339 --> 00:25:07,729

yeah real succinctly the case of Danny

515

00:25:14,769 --> 00:25:11,349

Van Zandt happened on February 18 2013

516

00:25:17,409 --> 00:25:14,779

we made a trip out to Sequoyah County in

517

00:25:20,499 --> 00:25:17,419

eastern Oklahoma to meet with the first

518

00:25:22,419 --> 00:25:20,509

responders the County Sheriff who is

519

00:25:23,950 --> 00:25:22,429

mystified he used the word bizarre when

520

00:25:26,229 --> 00:25:23,960

it came to describing the fires seen in

521

00:25:27,940 --> 00:25:26,239

mr. Van Zant's home as we said at the

522

00:25:31,239 --> 00:25:27,950

bottom of the just before the bottom of

523

00:25:34,359 --> 00:25:31,249

the hour break mr. van zant's relative

524

00:25:36,159 --> 00:25:34,369

broke into Danny's home and confronted

525

00:25:38,109 --> 00:25:36,169

what he first thought was a trash bag

526

00:25:40,839 --> 00:25:38,119

fire in the kitchen he attempted to

527

00:25:43,089 --> 00:25:40,849

shovel up shovel up the trash bag and

528

00:25:45,159 --> 00:25:43,099

get it out of the home when at that

529

00:25:47,519 --> 00:25:45,169

point we believe he realized that what

530

00:25:51,969 --> 00:25:47,529

he was about to shovel up was not a

531

00:25:55,210 --> 00:25:51,979

burning bag of trash but was mr. Van

532

00:25:57,969 --> 00:25:55,220

Zandt himself the first responders

533

00:26:00,159 --> 00:25:57,979

arrived within minutes to a fire scene

534

00:26:01,469 --> 00:26:00,169

where there was no fire for them to put

535

00:26:05,349 --> 00:26:01,479

out

536

00:26:07,479 --> 00:26:05,359

we also saintly the burn damage was

537

00:26:11,830 --> 00:26:07,489

relegated almost wholly to mr. Van Zandt

538

00:26:13,839 --> 00:26:11,840

himself that a Bunker's of spontaneous

539

00:26:15,639 --> 00:26:13,849

human combustion inve the following

540

00:26:19,180 --> 00:26:15,649

arguments in the research case that

541

00:26:20,680 --> 00:26:19,190

involved dr. Krogman where he was had

542

00:26:22,509 --> 00:26:20,690

done experiments burning the body of

543

00:26:25,359 --> 00:26:22,519

2,000 degrees Fahrenheit to completely

544

00:26:27,099 --> 00:26:25,369

ashen it he such as he said such fire

545

00:26:29,229 --> 00:26:27,109

scenes were impossible had he not

546

00:26:30,789 --> 00:26:29,239

personally investigated the the research

547

00:26:31,320 --> 00:26:30,799

case he would have dismissed it as a

548

00:26:34,000 --> 00:26:31,330

hoax

549

00:26:36,040 --> 00:26:34,010

dr. Adelson a medical examiner

550

00:26:39,400 --> 00:26:36,050

claims that all photographs that

551  
00:26:41,680 --> 00:26:39,410  
purportedly depict localized holy ash

552  
00:26:45,790 --> 00:26:41,690  
and fire scenes involving human beings

553  
00:26:47,680 --> 00:26:45,800  
are hoaxes dr. Benecke is like dr.

554  
00:26:50,320 --> 00:26:47,690  
Krogman himself a world-renowned

555  
00:26:53,320 --> 00:26:50,330  
forensic biologist claims emphatically

556  
00:26:56,350 --> 00:26:53,330  
that there was no case ever in history

557  
00:26:58,780 --> 00:26:56,360  
in which internal organs are burned more

558  
00:27:01,930 --> 00:26:58,790  
severely than our external body parts

559  
00:27:04,870 --> 00:27:01,940  
ergo spontaneous human combustion cannot

560  
00:27:06,880 --> 00:27:04,880  
happen and we mentioned earlier Alain

561  
00:27:09,310 --> 00:27:06,890  
Pope who's who's an expert in taphonomy

562  
00:27:11,560 --> 00:27:09,320  
who says that even in the most severe

563  
00:27:14,350 --> 00:27:11,570

human burn cases there's always evidence

564

00:27:16,660 --> 00:27:14,360

left for analysis bone fragments or

565

00:27:18,400 --> 00:27:16,670

organs and so on or left behind so this

566

00:27:20,110 --> 00:27:18,410

brings us back now to the fire scene

567

00:27:22,060 --> 00:27:20,120

that the first responders found in the

568

00:27:25,720 --> 00:27:22,070

home of Danny Van Zandt in eastern

569

00:27:30,610 --> 00:27:25,730

Oklahoma what mr. Van Zandt left him is

570

00:27:37,000 --> 00:27:30,620

very localized fire was his head his

571

00:27:42,520 --> 00:27:37,010

shoulders his hands his feet and his

572

00:27:45,640 --> 00:27:42,530

heart no no there's Morgan that was it

573

00:27:48,700 --> 00:27:45,650

no other organs remained at the fire

574

00:27:50,710 --> 00:27:48,710

scene they were consumed so immediately

575

00:27:53,950 --> 00:27:50,720

the van zant

576

00:27:57,040 --> 00:27:53,960

case alone belies all the opposition

577

00:28:00,330 --> 00:27:57,050

that the debunkers inveigh against the

578

00:28:03,100 --> 00:28:00,340

reality of spontaneous human combustion

579

00:28:04,630 --> 00:28:03,110

the fire at the van zant scene was very

580

00:28:06,280 --> 00:28:04,640

much like the fire that consumed dr.

581

00:28:09,160 --> 00:28:06,290

Bentley here in Pennsylvania back in

582

00:28:11,020 --> 00:28:09,170

1966 one of the classic cases basically

583

00:28:13,650 --> 00:28:11,030

dr. Bentley is the poster child for

584

00:28:17,320 --> 00:28:13,660

spontaneous human combustion fire scenes

585

00:28:19,540 --> 00:28:17,330

mr. Van Zandt fire consumed his body

586

00:28:21,160 --> 00:28:19,550

aside from the parts that that we just

587

00:28:26,010 --> 00:28:21,170

mentioned were left behind to prove that

588

00:28:29,530 --> 00:28:26,020

the ashes once belonged to a human being

589

00:28:31,750 --> 00:28:29,540

the ceiling directly above the fire that

590

00:28:35,710 --> 00:28:31,760

consumed mr. Van Zandt was pristine

591

00:28:37,540 --> 00:28:35,720

there was no flame damage to it the

592

00:28:39,700 --> 00:28:37,550

first responders looked for an external

593

00:28:43,720 --> 00:28:39,710

ignition source they looked for the

594

00:28:47,830 --> 00:28:43,730

nearby stove oven to be turned on it was

595

00:28:49,810 --> 00:28:47,840

not there was just no external ignition

596

00:28:51,970 --> 00:28:49,820

source identifiable that could explain

597

00:28:54,130 --> 00:28:51,980

the tremendous destruction to mr. Van

598

00:28:59,380 --> 00:28:54,140

Zandt in the eyes of the first

599

00:29:01,600 --> 00:28:59,390

responders the sheriff was brave and

600

00:29:03,580 --> 00:29:01,610

bold enough to state that this could be

601  
00:29:05,140 --> 00:29:03,590  
a case of spontaneous human combustion

602  
00:29:07,860 --> 00:29:05,150  
he was not willing to rule out that

603  
00:29:11,769 --> 00:29:07,870  
possibility as a law-enforcement

604  
00:29:13,960 --> 00:29:11,779  
official for which he took a tremendous

605  
00:29:16,419 --> 00:29:13,970  
amount of heat online not surprisingly

606  
00:29:18,010 --> 00:29:16,429  
you know this room sheriff in eastern

607  
00:29:19,870 --> 00:29:18,020  
Oklahoma what the hell would he know

608  
00:29:22,139 --> 00:29:19,880  
well what did a button what what the

609  
00:29:25,419 --> 00:29:22,149  
naysayers and and and those who

610  
00:29:27,279 --> 00:29:25,429  
attempted to insult the sheriff's

611  
00:29:30,220 --> 00:29:27,289  
reputation did not know was that before

612  
00:29:32,080 --> 00:29:30,230  
he became sheriff of Muldrow County he

613  
00:29:35,440 --> 00:29:32,090

had spent 20 years as an arson

614

00:29:37,630 --> 00:29:35,450

investigator he knew what to look for at

615

00:29:40,029 --> 00:29:37,640

a fire scene he knew what to expect to

616

00:29:41,860 --> 00:29:40,039

see at a fire scene and the fire scene

617

00:29:44,590 --> 00:29:41,870

that he and his colleagues encountered

618

00:29:46,269 --> 00:29:44,600

in the vans and home bolide everything

619

00:29:51,750 --> 00:29:46,279

that all of them were trying to

620

00:29:59,919 --> 00:29:57,310

so circling back around to a question

621

00:30:04,060 --> 00:29:59,929

that that Tim Beckley had asked earlier

622

00:30:07,539 --> 00:30:04,070

in the program about people who have

623

00:30:10,690 --> 00:30:07,549

witnessed apparent spontaneous human

624

00:30:17,100 --> 00:30:10,700

combustion at the the reports that I

625

00:30:21,549 --> 00:30:17,110

have I have read state that somebody

626

00:30:24,760 --> 00:30:21,559

will just burst into flames with no

627

00:30:28,570 --> 00:30:24,770

apparent source they'll be covered in

628

00:30:32,080 --> 00:30:28,580

flames almost instantly and the fire is

629

00:30:33,909 --> 00:30:32,090

very resistant to be put out using

630

00:30:36,340 --> 00:30:33,919

conventional methods I know there was

631

00:30:39,700 --> 00:30:36,350

one case where they tried pouring water

632

00:30:42,840 --> 00:30:39,710

on on this woman and it just only it

633

00:30:45,669 --> 00:30:42,850

seemed only to make the fire even hotter

634

00:30:48,340 --> 00:30:45,679

they finally were able to put her out by

635

00:30:54,010 --> 00:30:48,350

smothering her with a blanket but even

636

00:30:57,549 --> 00:30:54,020

at that point it was too late so is this

637

00:31:01,240 --> 00:30:57,559

something that seems to be coming from

638

00:31:02,289 --> 00:31:01,250

inside you know the fire the fire within

639

00:31:03,909 --> 00:31:02,299

I know you were saying that a lot of

640

00:31:08,789 --> 00:31:03,919

these you know reports seem to indicate

641

00:31:10,990 --> 00:31:08,799

that the the internal organs are

642

00:31:13,270 --> 00:31:11,000

completely burnt which is something that

643

00:31:14,289 --> 00:31:13,280

you don't normally see in a conventional

644

00:31:20,830 --> 00:31:14,299

to say like that you know somebody

645

00:31:24,220 --> 00:31:20,840

killed on a house fire that's correct we

646

00:31:26,409 --> 00:31:24,230

we we look at both internal sources for

647

00:31:29,620 --> 00:31:26,419

these incredible human incinerations as

648

00:31:31,539 --> 00:31:29,630

well as external factors internally

649

00:31:33,580 --> 00:31:31,549

we're looking at things like can

650

00:31:35,830 --> 00:31:33,590

biochemistry produce the kind of heat

651  
00:31:38,740 --> 00:31:35,840  
necessary to consume a body to the this

652  
00:31:40,870 --> 00:31:38,750  
extent in our book ablaze we postulate

653  
00:31:43,659 --> 00:31:40,880  
dozens of biochemical means by which

654  
00:31:46,360 --> 00:31:43,669  
this might happen we think many of these

655  
00:31:49,140 --> 00:31:46,370  
fires can best be explained as a bio

656  
00:31:52,360 --> 00:31:49,150  
electrical or quasi electrical

657  
00:31:54,909 --> 00:31:52,370  
phenomenon because so many of the boss

658  
00:31:58,419 --> 00:31:54,919  
bodies and in the in the truly classic

659  
00:32:01,659 --> 00:31:58,429  
cases of shc missus reserve Danny Van

660  
00:32:04,419 --> 00:32:01,669  
Zandt dr. Bentley for example well the

661  
00:32:06,159 --> 00:32:04,429  
body is completely ashen dehydrated it

662  
00:32:08,440 --> 00:32:06,169  
appears to us whatever is the mechanism

663  
00:32:10,299 --> 00:32:08,450

internal to the body or external to the

664

00:32:12,730 --> 00:32:10,309

body but not recognized or known by

665

00:32:14,560 --> 00:32:12,740

mainstream Western science we had to

666

00:32:17,049 --> 00:32:14,570

dissociate the water molecule we had to

667

00:32:23,620 --> 00:32:17,059

break it down into hydrogen and oxygen

668

00:32:28,060 --> 00:32:23,630

and maybe hydroxyl ions the the water

669

00:32:31,299 --> 00:32:28,070

the the water in the body and most human

670

00:32:33,159 --> 00:32:31,309

bodies are about 70 75 percent water to

671

00:32:35,080 --> 00:32:33,169

completely dehydrate the body we have to

672

00:32:37,690 --> 00:32:35,090

break break apart that water molecule by

673

00:32:40,330 --> 00:32:37,700

some means by Offutt alice's

674

00:32:41,919 --> 00:32:40,340

bioelectricity something that happens at

675

00:32:44,919 --> 00:32:41,929

the quantum level at the subcortical

676

00:32:46,600 --> 00:32:44,929

'evil perhaps but that has you know

677

00:32:48,700 --> 00:32:46,610

whatever the mechanism is has to explain

678

00:32:53,440 --> 00:32:48,710

how the water basically evaporates

679

00:32:55,930 --> 00:32:53,450

becomes vapour well we're getting a lot

680

00:32:58,720 --> 00:32:55,940

of questions and I know that that Tim

681

00:33:02,169 --> 00:32:58,730

wants to ask about the Great Chicago

682

00:33:05,289 --> 00:33:02,179

Fire but let me just ask Karen on skype

683

00:33:09,010 --> 00:33:05,299

wants to know are there any countries

684

00:33:12,029 --> 00:33:09,020

that have a larger than normal reported

685

00:33:14,169 --> 00:33:12,039

cases of spontaneous human combustion

686

00:33:15,090 --> 00:33:14,179

wonderful question thank you very

687

00:33:17,279 --> 00:33:15,100

insightful yes

688

00:33:18,870 --> 00:33:17,289

the answer as far as we know is yes we

689

00:33:20,490 --> 00:33:18,880

had the greatest preponderance of cases

690

00:33:22,080 --> 00:33:20,500

that fit the definition of spontaneous

691

00:33:26,070 --> 00:33:22,090

human combustion in the United Kingdom

692

00:33:28,350 --> 00:33:26,080

Wales Scotland England may be a factor

693

00:33:31,260 --> 00:33:28,360

because the British press are more prone

694

00:33:33,570 --> 00:33:31,270

to report the sensational aspects of

695

00:33:36,870 --> 00:33:33,580

such cases which is how we find out

696

00:33:40,169 --> 00:33:36,880

about them it may be also because

697

00:33:42,680 --> 00:33:40,179

there's something telluric ly energetic

698

00:33:47,070 --> 00:33:42,690

about that particular part of the planet

699

00:33:49,649 --> 00:33:47,080

what we have done in our book ablaze is

700

00:33:51,539 --> 00:33:49,659

document the astounding discovery that

701  
00:33:54,270 --> 00:33:51,549  
we made and plotting all the cases that

702  
00:33:56,760 --> 00:33:54,280  
we know about of mysterious fires to

703  
00:33:58,680 --> 00:33:56,770  
property and to people and to animals

704  
00:34:01,830 --> 00:33:58,690  
that have occurred in the United Kingdom

705  
00:34:04,230 --> 00:34:01,840  
on a map and we have discovered that

706  
00:34:08,520 --> 00:34:04,240  
about 83 percent of these cases of

707  
00:34:11,369 --> 00:34:08,530  
extremely rare phenomena fires can be

708  
00:34:13,770 --> 00:34:11,379  
connected by straight alignments which

709  
00:34:15,750 --> 00:34:13,780  
brings immediately to mind the concept

710  
00:34:19,859 --> 00:34:15,760  
of ley lines that connect megalithic and

711  
00:34:21,899 --> 00:34:19,869  
sacred sites these ley lines and what we

712  
00:34:24,240 --> 00:34:21,909  
call the fire lanes the alignments of

713  
00:34:26,070 --> 00:34:24,250

fire phenomena do not superimpose but we

714

00:34:28,409 --> 00:34:26,080

think you were dealing with a similar

715

00:34:31,470 --> 00:34:28,419

concept here different types of energy

716

00:34:33,480 --> 00:34:31,480

flows in them in the planet that if

717

00:34:35,609 --> 00:34:33,490

you're in the right place if you will at

718

00:34:39,690 --> 00:34:35,619

the wrong time on one of these points of

719

00:34:45,030 --> 00:34:39,700

energy discharges your home or your body

720

00:34:49,230 --> 00:34:45,040

can spontaneously combust alright well

721

00:34:52,080 --> 00:34:49,240

so and and there's it real quick here we

722

00:34:54,090 --> 00:34:52,090

have two two questions that are you know

723

00:34:55,740 --> 00:34:54,100

it kinda long the same lines Mike K

724

00:34:57,420 --> 00:34:55,750

wants to know you know could some of

725

00:35:00,660 --> 00:34:57,430

these incidents be biological warfare

726

00:35:03,180 --> 00:35:00,670

such as blistering agents flesh burning

727

00:35:05,310 --> 00:35:03,190

gas and then Troy on Twitter wants to

728

00:35:07,740 --> 00:35:05,320

know did any of these people have maybe

729

00:35:09,390 --> 00:35:07,750

a medical design device such as a

730

00:35:16,740 --> 00:35:09,400

pacemaker or something like that

731

00:35:20,430 --> 00:35:16,750

don't say that let's go to the last one

732

00:35:23,880 --> 00:35:20,440

first medical devices not to our

733

00:35:26,700 --> 00:35:23,890

knowledge we preface that answer with

734

00:35:28,860 --> 00:35:26,710

with the observation that is incredibly

735

00:35:30,780 --> 00:35:28,870

difficult not only to investigate

736

00:35:32,460 --> 00:35:30,790

these cases because many authorities

737

00:35:34,650 --> 00:35:32,470

really want to cover up these fire

738

00:35:36,660 --> 00:35:34,660

scenes rather than discuss them honestly

739

00:35:39,510 --> 00:35:36,670

and openly with an outside investigators

740

00:35:41,010 --> 00:35:39,520

such as ourself so it's very difficult

741

00:35:42,570 --> 00:35:41,020

to get the kind of information that

742

00:35:44,520 --> 00:35:42,580

would even give us the answer to that

743

00:35:46,890 --> 00:35:44,530

question but in the cases that we've

744

00:35:48,690 --> 00:35:46,900

been able to you know get inside the

745

00:35:51,540 --> 00:35:48,700

cases so to speak we don't know of any

746

00:35:55,860 --> 00:35:51,550

instances where a medical device could

747

00:35:58,740 --> 00:35:55,870

be connected to the fire event itself to

748

00:36:02,190 --> 00:35:58,750

the former question burning agent

749

00:36:04,380 --> 00:36:02,200

certainly we you know our military has

750

00:36:07,620 --> 00:36:04,390

access to burn agents that can do this

751  
00:36:10,110 --> 00:36:07,630  
for my distance we mentioned earlier

752  
00:36:13,250 --> 00:36:10,120  
about the US Army having the technology

753  
00:36:15,540 --> 00:36:13,260  
to induce thermal heating in an

754  
00:36:20,580 --> 00:36:15,550  
individual at some distance from the

755  
00:36:23,310 --> 00:36:20,590  
device itself but these are not

756  
00:36:26,250 --> 00:36:23,320  
instances that we have any reason to

757  
00:36:30,060 --> 00:36:26,260  
believe would be associated with with

758  
00:36:32,400 --> 00:36:30,070  
the general historical database of shc

759  
00:36:34,260 --> 00:36:32,410  
we can't imagine those devices being you

760  
00:36:36,810 --> 00:36:34,270  
know present for Danny Van Zant's

761  
00:36:40,080 --> 00:36:36,820  
burning for example and certainly those

762  
00:36:43,470 --> 00:36:40,090  
devices cannot be involved in the cases

763  
00:36:49,320 --> 00:36:43,480

that date back 100 200 years even 50

764

00:36:52,250 --> 00:36:49,330

years ago well you know I did want to

765

00:36:55,860 --> 00:36:52,260

pardon the expression grill you on the

766

00:36:58,920 --> 00:36:55,870

the article that you did back I think it

767

00:37:01,230 --> 00:36:58,930

was in the early 1980s for a beautiful

768

00:37:03,840 --> 00:37:01,240

universe which I was editing that

769

00:37:08,940 --> 00:37:03,850

article has always fascinated me and I

770

00:37:14,610 --> 00:37:08,950

was rereading it today mrs. O'Leary's

771

00:37:20,340 --> 00:37:14,620

cow was a course accused of setting the

772

00:37:23,460 --> 00:37:20,350

entire city of Chicago ablaze at least

773

00:37:26,670 --> 00:37:23,470

that's what history tells us but often

774

00:37:30,840 --> 00:37:26,680

history tells us it gives us incorrect

775

00:37:33,900 --> 00:37:30,850

information now I was startled to learn

776

00:37:38,370 --> 00:37:33,910

and I did not know this before reading

777

00:37:42,779 --> 00:37:38,380

your your article that Chicago was not

778

00:37:47,579 --> 00:37:42,789

the only city in that area of the

779

00:37:49,019 --> 00:37:47,589

country that had caught on fire and you

780

00:37:51,209 --> 00:37:49,029

couldn't blame certainly the other

781

00:37:58,799 --> 00:37:51,219

incidents if you could blame the one in

782

00:38:00,959 --> 00:37:58,809

Chicago on mrs. O'Leary's cow can you

783

00:38:05,789 --> 00:38:00,969

give us a little summation I know it's a

784

00:38:08,069 --> 00:38:05,799

quite a long historical event but can

785

00:38:10,609 --> 00:38:08,079

you clue us in when did the Chicago fire

786

00:38:14,039 --> 00:38:10,619

actually take place and how widespread

787

00:38:16,589 --> 00:38:14,049

wasn't and I was even more shocked to

788

00:38:20,039 --> 00:38:16,599

learn that in one town I believe in

789

00:38:24,359 --> 00:38:20,049

Wisconsin that fifteen hundred people

790

00:38:27,209 --> 00:38:24,369

were incinerated by the fire that broke

791

00:38:30,929 --> 00:38:27,219

out there but you - you tell the tale

792

00:38:33,059 --> 00:38:30,939

because you tell it very well it's a

793

00:38:34,589 --> 00:38:33,069

fascinating tale and it's one that we

794

00:38:36,120 --> 00:38:34,599

don't have time to pull to cover in the

795

00:38:38,789 --> 00:38:36,130

remaining minutes of the show but we'll

796

00:38:41,400 --> 00:38:38,799

give it a shot - your first question the

797

00:38:45,779 --> 00:38:41,410

Chicago Fire occurred on Sunday evening

798

00:38:48,149 --> 00:38:45,789

October 8 1871 and as you correctly

799

00:38:50,459 --> 00:38:48,159

point out it's attributed to mrs.

800

00:38:52,229 --> 00:38:50,469

O'Leary's cow but that is not factual

801  
00:38:55,259 --> 00:38:52,239  
that is the myth that many people

802  
00:38:58,499 --> 00:38:55,269  
believe to this day mrs. O'Leary's cow

803  
00:39:01,589 --> 00:38:58,509  
was exonerated from any culpability of

804  
00:39:03,630 --> 00:39:01,599  
the Greater Chicago fire by none other

805  
00:39:06,659 --> 00:39:03,640  
than the City Fire Marshal mr. Williams

806  
00:39:08,759 --> 00:39:06,669  
himself his men had responded to the

807  
00:39:11,099 --> 00:39:08,769  
O'Leary cowshed they had that fire under

808  
00:39:12,719 --> 00:39:11,109  
control when he said to our surprise we

809  
00:39:15,419 --> 00:39:12,729  
were informed at a church over two

810  
00:39:17,459 --> 00:39:15,429  
blocks to the north was on fire his crew

811  
00:39:19,979 --> 00:39:17,469  
responded to that fire and put it out

812  
00:39:22,799 --> 00:39:19,989  
then there was another than another than

813  
00:39:24,569 --> 00:39:22,809

another clearly they were now being out

814

00:39:26,880 --> 00:39:24,579

manned by these spontaneous

815

00:39:32,819 --> 00:39:26,890

well my fires that broke out in multiple

816

00:39:36,390 --> 00:39:32,829

parts of the city as you correctly

817

00:39:38,609 --> 00:39:36,400

remember Timothy and what is not known

818

00:39:41,819 --> 00:39:38,619

is not part of the mythology of the

819

00:39:43,829 --> 00:39:41,829

Leary kal saga is that two hundred and

820

00:39:46,199 --> 00:39:43,839

twenty miles north of Chicago and a

821

00:39:49,469 --> 00:39:46,209

community called Peshtigo in Wisconsin

822

00:39:51,870 --> 00:39:49,479

at the very same time that Chicago was

823

00:39:54,269 --> 00:39:51,880

beginning to burn Peshtigo was likewise

824

00:39:55,620 --> 00:39:54,279

going up in flames which I'm with a much

825

00:39:59,810 --> 00:39:55,630

larger loss of

826

00:40:02,790 --> 00:39:59,820

1,500 people died in the Peshtigo fire

827

00:40:06,540 --> 00:40:02,800

but the fire wasn't limited to Peshtigo

828

00:40:08,780 --> 00:40:06,550

and to Chicago that night of October 8

829

00:40:10,080 --> 00:40:08,790

there were fires that were erupting

830

00:40:12,510 --> 00:40:10,090

separately

831

00:40:15,360 --> 00:40:12,520

yes simultaneously throughout the Upper

832

00:40:19,520 --> 00:40:15,370

Midwest and the Upper Great Plains from

833

00:40:23,700 --> 00:40:19,530

Minnesota to Wisconsin Illinois Michigan

834

00:40:25,650 --> 00:40:23,710

Indiana the Dakotas even in the Iowa

835

00:40:27,750 --> 00:40:25,660

there were fires that seemed to

836

00:40:30,450 --> 00:40:27,760

spontaneously erupt throughout the

837

00:40:33,060 --> 00:40:30,460

landscape throughout communities causing

838

00:40:37,260 --> 00:40:33,070

tremendous loss of property as well as

839

00:40:40,440 --> 00:40:37,270

of life in terms of today's dollar value

840

00:40:42,330 --> 00:40:40,450

we're probably looking at hundreds tens

841

00:40:44,760 --> 00:40:42,340

of probably hundreds of billions of

842

00:40:47,460 --> 00:40:44,770

dollars worth of damage in what we have

843

00:40:51,200 --> 00:40:47,470

called the great American Fire of 1871

844

00:40:53,640 --> 00:40:51,210

not just the Great Chicago Fire of 1871

845

00:40:55,350 --> 00:40:53,650

there are a number of phenomena

846

00:40:57,600 --> 00:40:55,360

associated with many of these blazes

847

00:41:01,710 --> 00:40:57,610

that we found in the course of our

848

00:41:05,190 --> 00:41:01,720

research to be quite curious fires in

849

00:41:07,380 --> 00:41:05,200

Chicago were erupting in basements

850

00:41:09,480 --> 00:41:07,390

there was a windstorm that night and

851  
00:41:11,600 --> 00:41:09,490  
many of these fires and historically the

852  
00:41:14,850 --> 00:41:11,610  
myth is that all these separate

853  
00:41:16,950 --> 00:41:14,860  
widespread blazes conflagrations even

854  
00:41:20,400 --> 00:41:16,960  
were the cause of wind-borne

855  
00:41:22,440 --> 00:41:20,410  
embers carried from one fire location

856  
00:41:24,600 --> 00:41:22,450  
into another that can certainly be

857  
00:41:27,660 --> 00:41:24,610  
attributed to some of the blazes but

858  
00:41:31,230 --> 00:41:27,670  
over such a huge geographic area we

859  
00:41:34,910 --> 00:41:31,240  
don't believe so the phenomena was found

860  
00:41:37,730 --> 00:41:34,920  
in Peshtigo and in Chicago in elsewhere

861  
00:41:40,680 --> 00:41:37,740  
where fires were not only erupting or

862  
00:41:42,650 --> 00:41:40,690  
the locals at the time claimed even that

863  
00:41:47,790 --> 00:41:42,660

the fires were being transmitted

864

00:41:51,120 --> 00:41:47,800

underground subterraneous Lee victims

865

00:41:55,680 --> 00:41:51,130

were found burned to powder ie

866

00:41:58,380 --> 00:41:55,690

classic sh t type fire scenes other

867

00:42:01,080 --> 00:41:58,390

victims were not burned and yet metal

868

00:42:03,660 --> 00:42:01,090

coins in the pockets were found fused

869

00:42:06,380 --> 00:42:03,670

together we've actually seen examples of

870

00:42:09,120 --> 00:42:06,390

that in the Peshtigo Museum in Wisconsin

871

00:42:11,550 --> 00:42:09,130

we find us to be quite curious

872

00:42:14,580 --> 00:42:11,560

could temperature's be so hot as to fuse

873

00:42:17,510 --> 00:42:14,590

coinage in a person's pocket any not and

874

00:42:22,650 --> 00:42:17,520

yet not you know severely burn the

875

00:42:26,850 --> 00:42:22,660

individual him or herself odd colors of

876

00:42:29,100 --> 00:42:26,860

fire were reported blue green flames

877

00:42:31,950 --> 00:42:29,110

which is certainly not typical of a

878

00:42:35,760 --> 00:42:31,960

woodland conflagration fire will report

879

00:42:37,080 --> 00:42:35,770

it historically just a whole bunch of

880

00:42:39,240 --> 00:42:37,090

odd stuff if you dig into the

881

00:42:41,570 --> 00:42:39,250

contemporaneous reports at the time you

882

00:42:44,670 --> 00:42:41,580

saw it what the heck was going on here

883

00:42:49,560 --> 00:42:44,680

certainly something that was far beyond

884

00:42:53,190 --> 00:42:49,570

mrs. O'Leary's yeah now now we published

885

00:42:56,130 --> 00:42:53,200

a book a number of years ago called

886

00:43:00,990 --> 00:42:56,140

darkness of the Gods which I was hoping

887

00:43:03,030 --> 00:43:01,000

to maybe update and in the book one of

888

00:43:07,200 --> 00:43:03,040

the the author's it's kind of like an

889

00:43:09,030 --> 00:43:07,210

anthology of mysterious fires and things

890

00:43:12,990 --> 00:43:09,040

along this type one of the authors

891

00:43:16,650 --> 00:43:13,000

talked about how the the earth had

892

00:43:19,320 --> 00:43:16,660

passed through the tail of a comet and

893

00:43:24,540 --> 00:43:19,330

was responsible for this and of course

894

00:43:26,100 --> 00:43:24,550

you have other incidences like this I

895

00:43:31,560 --> 00:43:26,110

think in darkness of gods we talked

896

00:43:36,450 --> 00:43:31,570

about that Tunguska explosion what was

897

00:43:37,970 --> 00:43:36,460

that 1908 in Siberia and there have been

898

00:43:40,260 --> 00:43:37,980

other incidences of

899

00:43:43,680 --> 00:43:40,270

mysterious of fires and things along

900

00:43:47,040 --> 00:43:43,690

that line in fact there are places now I

901  
00:43:50,940 --> 00:43:47,050  
understand that still exists where there

902  
00:43:54,690 --> 00:43:50,950  
are entire towns where people cannot

903  
00:43:59,400 --> 00:43:54,700  
inhabit that area because fires are

904  
00:44:01,980 --> 00:43:59,410  
still a place underneath the earth but I

905  
00:44:04,560 --> 00:44:01,990  
think those are caused by mining

906  
00:44:08,750 --> 00:44:04,570  
disasters or fires if I'm correct unless

907  
00:44:11,910 --> 00:44:08,760  
you know some other incidents but what

908  
00:44:14,840 --> 00:44:11,920  
yeah the idea that this might be have

909  
00:44:17,520 --> 00:44:14,850  
been an outside source like a comet or a

910  
00:44:21,690 --> 00:44:17,530  
hell of meteorites or something along

911  
00:44:22,740 --> 00:44:21,700  
that line the the the underground fire

912  
00:44:25,470 --> 00:44:22,750  
that you're

913  
00:44:26,849 --> 00:44:25,480

to most likely as in Centralia fire it

914

00:44:28,260 --> 00:44:26,859

is a mine fire it is here in

915

00:44:29,700 --> 00:44:28,270

Pennsylvania not too far from the

916

00:44:30,960 --> 00:44:29,710

location where we're having this

917

00:44:33,089 --> 00:44:30,970

wonderful conversation with you

918

00:44:34,560 --> 00:44:33,099

gentlemen tonight on that town had to be

919

00:44:36,540 --> 00:44:34,570

abandoned because of the subterranean

920

00:44:38,970 --> 00:44:36,550

fires but that that's that's a normal

921

00:44:41,190 --> 00:44:38,980

cost state of mechanism everybody knows

922

00:44:43,730 --> 00:44:41,200

how it happened and that it can't be put

923

00:44:46,890 --> 00:44:43,740

out getting back to the the

924

00:44:49,800 --> 00:44:46,900

extra-terrestrial if you will source of

925

00:44:52,200 --> 00:44:49,810

these fires Ignatius Donnelly yeah back

926  
00:44:54,990 --> 00:44:52,210  
in 1883 posited that the comet be yellow

927  
00:44:56,630 --> 00:44:55,000  
was the cause of the Chicago fire or in

928  
00:44:59,640 --> 00:44:56,640  
this case the greater American

929  
00:45:02,099 --> 00:44:59,650  
conflagration as we term it the problem

930  
00:45:04,260 --> 00:45:02,109  
with his supposition is that BL's comma

931  
00:45:08,430 --> 00:45:04,270  
didn't collide or pass the earth didn't

932  
00:45:10,620 --> 00:45:08,440  
pass through the Comets path until 1872

933  
00:45:12,599 --> 00:45:10,630  
more than a year after the Chicago Fire

934  
00:45:15,300 --> 00:45:12,609  
so that's kind of problematic for that

935  
00:45:16,890 --> 00:45:15,310  
however you know looking all the

936  
00:45:21,359 --> 00:45:16,900  
evidence that we have a mass for the

937  
00:45:23,720 --> 00:45:21,369  
Greater Chicago Fire of 1871 we do feel

938  
00:45:26,010 --> 00:45:23,730

that the most plausible explanation

939

00:45:26,790 --> 00:45:26,020

other than if you want to accept that

940

00:45:28,950 --> 00:45:26,800

the wind-borne

941

00:45:33,420 --> 00:45:28,960

ember theory is an extraterrestrial

942

00:45:35,160 --> 00:45:33,430

cause some energy source external to the

943

00:45:38,820 --> 00:45:35,170

planet itself that the earth passed

944

00:45:42,930 --> 00:45:38,830

through explains the simultaneous

945

00:45:45,240 --> 00:45:42,940

eruption of major fires throughout the

946

00:45:46,410 --> 00:45:45,250

Upper Midwest that night and when you

947

00:45:48,750 --> 00:45:46,420

open the program with that wonderful

948

00:45:50,760 --> 00:45:48,760

biblical quote from Isaiah we have no

949

00:45:52,710 --> 00:45:50,770

doubt yeah somewhere you could find you

950

00:45:57,210 --> 00:45:52,720

could find some some pastor that morning

951  
00:46:02,250 --> 00:45:57,220  
of October 8 screaming that to his

952  
00:46:08,089 --> 00:46:02,260  
congregation little wood I did trip that

953  
00:46:12,480 --> 00:46:08,099  
from your article I must but okay so

954  
00:46:15,390 --> 00:46:12,490  
extraterrestrial but in what some in via

955  
00:46:17,720 --> 00:46:15,400  
obviously some invisible force then in

956  
00:46:20,130 --> 00:46:17,730  
fact in this darkness of the gods book

957  
00:46:22,920 --> 00:46:20,140  
we have a section in there there's a

958  
00:46:29,880 --> 00:46:22,930  
fellow he's deceased he passed away in

959  
00:46:34,710 --> 00:46:29,890  
his 90s I believe commander Alvin II

960  
00:46:36,570 --> 00:46:34,720  
Moore who wrote a book which a great

961  
00:46:39,720 --> 00:46:36,580  
Barker published many many

962  
00:46:42,270 --> 00:46:39,730  
years ago in about two minutes before

963  
00:46:45,690 --> 00:46:42,280

the show us in which he talked about

964

00:46:48,570 --> 00:46:45,700

invisible islands in the sky and planets

965

00:46:50,160 --> 00:46:48,580

that could not be seen in fact he said

966

00:46:52,530 --> 00:46:50,170

that some of these that Charles Ford

967

00:46:55,800 --> 00:46:52,540

talked about these falls from the sky of

968

00:46:59,670 --> 00:46:55,810

fish and meat and and so forth were

969

00:47:03,300 --> 00:46:59,680

coming from these invisible sky islands

970

00:47:04,800 --> 00:47:03,310

that he discussed but anyway Larry we're

971

00:47:06,510 --> 00:47:04,810

down to the last few minutes and we do

972

00:47:08,970 --> 00:47:06,520

want to give you the opportunity to tell

973

00:47:11,040 --> 00:47:08,980

people where they can obtain your book

974

00:47:13,920 --> 00:47:11,050

and if you have a website and I know

975

00:47:15,450 --> 00:47:13,930

you're on Facebook and you know I could

976  
00:47:19,260 --> 00:47:15,460  
swore that we had been friends for years

977  
00:47:20,850 --> 00:47:19,270  
but I work and so finally we click to

978  
00:47:22,650 --> 00:47:20,860  
each other on but give us a little

979  
00:47:25,320 --> 00:47:22,660  
rundown of what you're you know you're

980  
00:47:28,860 --> 00:47:25,330  
up to in the future plans perhaps oh no

981  
00:47:33,570 --> 00:47:28,870  
did we lose did we lose Larry in the

982  
00:47:35,400 --> 00:47:33,580  
opportune time oh well okay well I guess

983  
00:47:39,300 --> 00:47:35,410  
I'll just say you know Larry's own

984  
00:47:43,170 --> 00:47:39,310  
official web site is Paris science.com

985  
00:47:45,360 --> 00:47:43,180  
and his book is ablaze the mysterious

986  
00:47:49,410 --> 00:47:45,370  
fires of spontaneous human combustion

987  
00:47:51,900 --> 00:47:49,420  
excellent book monthly and it yeah I I

988  
00:47:55,110 --> 00:47:51,910

can imagine the amount of the amount of

989

00:47:58,470 --> 00:47:55,120

research that went into that volumous is

990

00:48:01,340 --> 00:47:58,480

just phenomenal I mean I anybody has

991

00:48:08,190 --> 00:48:01,350

ever put a book or certainly on that

992

00:48:10,680 --> 00:48:08,200

subject together alright anyway visit

993

00:48:14,430 --> 00:48:10,690

our youtube site mr. UFO secret files

994

00:48:16,340 --> 00:48:14,440

and look for us on amazon.com

995

00:48:27,410 --> 00:48:16,350

all right thanks Larry good night all

996

00:48:34,230 --> 00:48:30,240

you've been listening to exploring the

997

00:48:37,470 --> 00:48:34,240

bazaar with hosts Timothy Becky panty

998

00:48:40,380 --> 00:48:37,480

Swartz they're taking back the night by

999

00:48:42,930 --> 00:48:40,390

jetting non-stop across the cosmos in

1000

00:48:46,760 --> 00:48:42,940

search of the truly bizarre and totally

1001

00:48:49,270 --> 00:48:46,770

unexplained with you as their code

1002

00:48:53,750 --> 00:48:49,280

Thursday nights at 7:00 p.m. Pacific

1003

00:48:54,940 --> 00:48:53,760

10:00 p.m. Eastern on the K cor digital

1004

00:48:57,400 --> 00:48:54,950

radio

1005

00:49:00,849 --> 00:48:57,410

for more information on exploring the

1006

00:49:03,700 --> 00:49:00,859

bazaar and hosts Timothy Becca anthem

1007

00:49:06,819 --> 00:49:03,710

Swartz check out their K cor digital

1008

00:49:13,030 --> 00:49:06,829

radio network follow their YouTube
