

EXPLORING THE BIZARRE THE UFO WATCHTOWER

1
00:00:31,910 --> 00:00:21,830

[Music]

2
00:00:38,790 --> 00:00:35,549

now your electrifying hosts of exploring

3
00:00:44,670 --> 00:00:38,800

the bizarre Timothy Begley and team

4
00:00:48,290 --> 00:00:44,680

sports there must be some kind of way

5
00:00:53,329 --> 00:00:48,300

out of here said the Joker to the thief

6
00:00:58,820 --> 00:00:53,339

there's too much confusion I can't get

7
00:01:02,310 --> 00:00:58,830

oh you sound just like Bob Dylan Tim but

8
00:01:05,670 --> 00:01:02,320

why the protest song the Vietnam War has

9
00:01:09,810 --> 00:01:05,680

been over a long time ago I'm not

10
00:01:11,609 --> 00:01:09,820

singing about Vietnam this has to do

11
00:01:14,609 --> 00:01:11,619

with the watch tower in the San Luis

12
00:01:16,140 --> 00:01:14,619

Valley where you office fly nearby and

13
00:01:18,480 --> 00:01:16,150

our guests and I keep track of the

14

00:01:20,880 --> 00:01:18,490

hundreds of animal mutilations that take

15

00:01:23,340 --> 00:01:20,890

place there okay that's that's really

16

00:01:26,760 --> 00:01:23,350

scary now I've heard that aliens sent

17

00:01:30,120 --> 00:01:26,770

down claw-like devices and snatch up

18

00:01:31,770 --> 00:01:30,130

cattle all times of day and night now I

19

00:01:34,379 --> 00:01:31,780

would have to see it to believe it

20

00:01:37,429 --> 00:01:34,389

here take one of these damn burger so we

21

00:01:39,899 --> 00:01:37,439

can get our spirits up to do the show no

22

00:01:42,270 --> 00:01:39,909

I don't think I want one you never know

23

00:01:44,669 --> 00:01:42,280

when one of those bad boys will come

24

00:01:46,469 --> 00:01:44,679

down out of the sky and grab you and the

25

00:01:49,050 --> 00:01:46,479

burger so let's get out of here and get

26

00:01:51,779 --> 00:01:49,060

back to the K cor studios where it's

27

00:01:54,179 --> 00:01:51,789

safe and warm and nothing to be afraid

28

00:01:57,610 --> 00:01:54,189

of I tell you must be some way out of

29

00:02:02,810 --> 00:01:57,620

here said the Joker to the

30

00:02:10,410 --> 00:02:04,469

there you go

31

00:02:13,020 --> 00:02:10,420

pesky animal rustlers they're from the

32

00:02:16,980 --> 00:02:13,030

sky Tim are you there are you back in

33

00:02:21,620 --> 00:02:16,990

the studio no shoo yes I mean made it

34

00:02:27,300 --> 00:02:23,880

did you bring the bird you know they

35

00:02:29,490 --> 00:02:27,310

can't please they they kept those yeah

36

00:02:31,320 --> 00:02:29,500

we got to do something about that our

37

00:02:35,490 --> 00:02:31,330

our guest today you're gonna tell us

38

00:02:37,949 --> 00:02:35,500

what to do about that I'm sure so how

39

00:02:40,410 --> 00:02:37,959

you doing out there in the yeah how you

40

00:02:42,660 --> 00:02:40,420

do it out there and Jasper Indiana hey

41

00:02:45,770 --> 00:02:42,670

we gotta send a shout-out at the

42

00:02:50,640 --> 00:02:45,780

beginning of our show to our associate

43

00:02:53,340 --> 00:02:50,650

Sean Castile who's got has problem there

44

00:02:58,800 --> 00:02:53,350

he's in the hospital I did talk to him

45

00:03:00,300 --> 00:02:58,810

this afternoon and he seemed in high

46

00:03:03,840 --> 00:03:00,310

spirits but that might have been from

47

00:03:06,479 --> 00:03:03,850

the morphine I'm not sure but hopefully

48

00:03:08,729 --> 00:03:06,489

he'll pee hopefully he'll be be home in

49

00:03:12,720 --> 00:03:08,739

a short while he's anxious to get back

50

00:03:14,460 --> 00:03:12,730

to editing our forthcoming their titles

51
00:03:17,039 --> 00:03:14,470
and boy do I have a whole list thought

52
00:03:21,630 --> 00:03:17,049
you know I just can't keep up with all

53
00:03:24,240 --> 00:03:21,640
that this discoveries were making well

54
00:03:28,020 --> 00:03:24,250
okay are you sure that that he's in the

55
00:03:30,330 --> 00:03:28,030
hospital Tim for for medical reasons or

56
00:03:33,300 --> 00:03:30,340
he just needed a break from all the

57
00:03:35,460 --> 00:03:33,310
books that we keep well I don't know

58
00:03:38,789 --> 00:03:35,470
well he I think you said they were

59
00:03:42,270 --> 00:03:38,799
legitimately but hopefully I mean he'll

60
00:03:45,720 --> 00:03:42,280
be back back in a back home in a little

61
00:03:49,440 --> 00:03:45,730
while and fully recovered in and strong

62
00:03:53,000 --> 00:03:49,450
but hey we got a show and a half tonight

63
00:03:55,620 --> 00:03:53,010

from the beginning our our little

64

00:03:57,509 --> 00:03:55,630

introduction I guess you could tell

65

00:04:01,110 --> 00:03:57,519

we're going to be talking about animal

66

00:04:09,290 --> 00:04:01,120

mutilations and some very strange things

67

00:04:17,380 --> 00:04:13,940

yeah we've got two fantastic guests

68

00:04:21,770 --> 00:04:17,390

tonight we have first of all we have

69

00:04:25,610 --> 00:04:21,780

Judy Meza line and and Chris O'Brien now

70

00:04:27,800 --> 00:04:25,620

let's start out with a Judy now have you

71

00:04:31,670 --> 00:04:27,810

ever wondered Tim what a real UFO looks

72

00:04:35,360 --> 00:04:31,680

like if you have water from other

73

00:04:37,370 --> 00:04:35,370

planets well yeah it's kind of its kind

74

00:04:39,950 --> 00:04:37,380

of you know like something I've thought

75

00:04:45,740 --> 00:04:39,960

about once or twice over the last 50

76

00:04:47,830 --> 00:04:45,750

years I guess well now Judy of Hooper

77

00:04:51,200 --> 00:04:47,840

Colorado has wondered the same thing and

78

00:04:54,080 --> 00:04:51,210

her favorite TV shows were sightings we

79

00:04:57,320 --> 00:04:54,090

remember sightings that like that one

80

00:04:59,300 --> 00:04:57,330

and and the x-files of course now after

81

00:05:01,970 --> 00:04:59,310

watching show after show she realized

82

00:05:05,570 --> 00:05:01,980

that she was hearing things like great

83

00:05:08,180 --> 00:05:05,580

sand dunes and San Luis Valley on many

84

00:05:09,950 --> 00:05:08,190

of these episodes so with this in mind

85

00:05:12,500 --> 00:05:09,960

Judy had an idea formerly

86

00:05:14,750 --> 00:05:12,510

she was a cattle rancher but who became

87

00:05:17,840 --> 00:05:14,760

a Colorado wasn't the best location to

88

00:05:19,580 --> 00:05:17,850

raise cattle so considering her interest

89

00:05:23,360 --> 00:05:19,590

in UFOs and the high number of UFO

90

00:05:26,930 --> 00:05:23,370

activity in the area she created the UFO

91

00:05:30,160 --> 00:05:26,940

Watchtower viewing platform dedicated to

92

00:05:33,740 --> 00:05:30,170

the observation of UFOs and all things

93

00:05:36,320 --> 00:05:33,750

unexplained from the stars above now

94

00:05:38,960 --> 00:05:36,330

judy is also author of the book that

95

00:05:41,780 --> 00:05:38,970

crazy lady down the street I love that

96

00:05:43,730 --> 00:05:41,790

title now also with us tonight is Chris

97

00:05:46,040 --> 00:05:43,740

O'Brien Chris is making a return visit

98

00:05:48,980 --> 00:05:46,050

to exploring bizarre always happy to

99

00:05:52,159 --> 00:05:48,990

have him with us now since 1992

100

00:05:54,080 --> 00:05:52,169

Christopher has investigated over 1,000

101
00:05:56,659 --> 00:05:54,090
paranormal events reported in the San

102
00:05:58,370 --> 00:05:56,669
Luis Valley located as you well know in

103
00:06:01,400 --> 00:05:58,380
the south central Colorado north central

104
00:06:03,920 --> 00:06:01,410
New Mexico working with law enforcement

105
00:06:06,490 --> 00:06:03,930
officials ex-military ranchers and an

106
00:06:09,980 --> 00:06:06,500
extensive network of sky watchers from

107
00:06:12,560 --> 00:06:09,990
1992 to 2002 he documented one of the

108
00:06:15,140 --> 00:06:12,570
most intense waves of unexplained

109
00:06:19,250 --> 00:06:15,150
activity ever reported from a single

110
00:06:21,920 --> 00:06:19,260
geographic region of North America now

111
00:06:23,210 --> 00:06:21,930
chris is currently working with a team

112
00:06:25,910 --> 00:06:23,220
of specialists on the

113
00:06:28,460 --> 00:06:25,920

Oh data acquisition project which

114

00:06:30,890 --> 00:06:28,470

involves installing a high-tech video

115

00:06:33,740 --> 00:06:30,900

surveillance and hard data monitoring

116

00:06:35,000 --> 00:06:33,750

system in and around the valley now

117

00:06:36,680 --> 00:06:35,010

Chris is also the author of the

118

00:06:38,720 --> 00:06:36,690

groundbreaking book stalking the herd

119

00:06:41,450 --> 00:06:38,730

it's the first book on the subject that

120

00:06:43,610 --> 00:06:41,460

objectively examines the unexplained

121

00:06:46,460 --> 00:06:43,620

livestock death phenomena one of the

122

00:06:48,320 --> 00:06:46,470

most perplexing mysteries of our time so

123

00:06:51,470 --> 00:06:48,330

Tim let's welcome our guest tonight to

124

00:06:54,680 --> 00:06:51,480

explore in the bazaar yes indeed indeed

125

00:06:58,010 --> 00:06:54,690

did I hear something about Judy where

126

00:07:01,430 --> 00:06:58,020

you are it's the coldest spot in the

127

00:07:04,400 --> 00:07:01,440

states currently that's what they've

128

00:07:12,050 --> 00:07:04,410

been saying we got down to about 30

129

00:07:14,180 --> 00:07:12,060

below here wait you know I often wonder

130

00:07:18,230 --> 00:07:14,190

why is it where some of these UFO hot

131

00:07:22,970 --> 00:07:18,240

spots are that it's that it's so low so

132

00:07:26,210 --> 00:07:22,980

cold we just had a fellow on from Norway

133

00:07:29,780 --> 00:07:26,220

who's describing to us the visits by the

134

00:07:33,920 --> 00:07:29,790

missile in lights and the small little

135

00:07:36,710 --> 00:07:33,930

valley that has a population about 200

136

00:07:40,250 --> 00:07:36,720

and they have these objects passing over

137

00:07:42,740 --> 00:07:40,260

the sky and over the little mountain

138

00:07:45,230 --> 00:07:42,750

peaks and all there and I suppose the

139

00:07:46,850 --> 00:07:45,240

snowdrifts in fact when dr. Hynek was

140

00:07:48,770 --> 00:07:46,860

out there and waiting for the lights to

141

00:07:51,950 --> 00:07:48,780

appear and this was shortly before his

142

00:07:55,370 --> 00:07:51,960

passing it was something like 36 degrees

143

00:07:59,990 --> 00:07:55,380

below zero so and I remember when I

144

00:08:04,430 --> 00:08:00,000

visited Brown Mountain and North

145

00:08:07,190 --> 00:08:04,440

Carolina back in nineteen the late 1960s

146

00:08:10,250 --> 00:08:07,200

of course we were there on Christmas Eve

147

00:08:13,490 --> 00:08:10,260

with Jim Mosely in the Allen green field

148

00:08:16,670 --> 00:08:13,500

and it was I don't know darn darn cold

149

00:08:19,670 --> 00:08:16,680

that's you know that's what I certainly

150

00:08:22,820 --> 00:08:19,680

remember but where did you move from

151
00:08:33,110 --> 00:08:22,830
before you move to this rather isolated

152
00:08:35,540 --> 00:08:33,120
spot those and how far okay now why did

153
00:08:37,230 --> 00:08:35,550
had you heard about the sightings and

154
00:08:40,739 --> 00:08:37,240
mutilations there is that

155
00:08:43,799 --> 00:08:40,749
kind of what provoked you to to move no

156
00:08:47,519 --> 00:08:43,809
I moved here initially to raise cattle

157
00:08:51,059 --> 00:08:47,529
and I could afford the land in the

158
00:08:55,650 --> 00:08:51,069
valley so thought this would be a good

159
00:08:57,509 --> 00:08:55,660
spot but after moving here then I

160
00:08:59,429 --> 00:08:57,519
started talking to the locals and

161
00:09:03,540 --> 00:08:59,439
they're the ones who started talking

162
00:09:09,900 --> 00:09:03,550
about the UFOs and and what year would

163
00:09:12,179 --> 00:09:09,910

what year would that have been 95 I had

164

00:09:14,189 --> 00:09:12,189

a friend in golden who called me shortly

165

00:09:16,590 --> 00:09:14,199

after I had moved here and she said well

166

00:09:21,090 --> 00:09:16,600

have you seen any and I said Annie what

167

00:09:23,639 --> 00:09:21,100

and she said would UFOs I said oh yeah

168

00:09:26,400 --> 00:09:23,649

right you know I'm not I came down here

169

00:09:30,989 --> 00:09:26,410

to raised cattle not to look for dots in

170

00:09:33,600 --> 00:09:30,999

the sky well when did you realize that's

171

00:09:39,210 --> 00:09:33,610

when did you realize something weird was

172

00:09:43,799 --> 00:09:39,220

going on there it was a couple of years

173

00:09:47,160 --> 00:09:43,809

after moving here and and my friend said

174

00:09:50,549 --> 00:09:47,170

to me she said you need to read some

175

00:09:53,939 --> 00:09:50,559

books by Christopher O'Brien she said

176

00:09:57,419 --> 00:09:53,949

this will be an eye-opener and they

177

00:10:00,509 --> 00:09:57,429

really were so I read the mysterious

178

00:10:03,389 --> 00:10:00,519

Valley and enter the valley and then I

179

00:10:07,970 --> 00:10:03,399

thought you didn't come down here to do

180

00:10:11,129 --> 00:10:07,980

this you came down here to raise cattle

181

00:10:14,340 --> 00:10:11,139

so we struggled with cows for four and a

182

00:10:16,559 --> 00:10:14,350

half years and finally had to sell the

183

00:10:20,280 --> 00:10:16,569

herd because they don't eat Sandra well

184

00:10:23,730 --> 00:10:20,290

and one of the farmers is who pushed me

185

00:10:25,559 --> 00:10:23,740

into doing the tower and he said you

186

00:10:28,350 --> 00:10:25,569

need to put that up you'd have a lot of

187

00:10:30,780 --> 00:10:28,360

fun well I've had a lot of fun but then

188

00:10:35,759 --> 00:10:30,790

we've gotten to have the experiences as

189

00:10:38,879 --> 00:10:35,769

well now now in our book that just came

190

00:10:44,819 --> 00:10:38,889

out the UFOs deja vu we have a photo of

191

00:10:47,210 --> 00:10:44,829

the the tower and across quite a sect of

192

00:10:49,470 --> 00:10:47,220

selection of material on the on the

193

00:10:51,150 --> 00:10:49,480

sightings of the valley the UFO

194

00:10:53,970 --> 00:10:51,160

sightings and

195

00:10:57,480 --> 00:10:53,980

the mysterious morphing objects and of

196

00:10:59,460 --> 00:10:57,490

course the animal mutilations when was

197

00:11:01,110 --> 00:10:59,470

the first sighting actually reported to

198

00:11:05,040 --> 00:11:01,120

you was it something that you saw

199

00:11:09,780 --> 00:11:05,050

yourself yeah it was after opening and

200

00:11:12,090 --> 00:11:09,790

that was in 2000 and from that point on

201
00:11:15,660 --> 00:11:12,100
I mean I'm gonna tell you something if

202
00:11:17,220 --> 00:11:15,670
you're out 24 hours a day seven days a

203
00:11:19,980 --> 00:11:17,230
week and there's something up there

204
00:11:22,110 --> 00:11:19,990
you're gonna see it you know well not

205
00:11:24,570 --> 00:11:22,120
not we're not where I am because I'm off

206
00:11:26,970 --> 00:11:24,580
of 50 Avenue in Manhattan you can't see

207
00:11:29,580 --> 00:11:26,980
anything except for tall buildings I'll

208
00:11:33,240 --> 00:11:29,590
I'll swap you I'll swap your places for

209
00:11:35,760 --> 00:11:33,250
a for a week well no I wouldn't have

210
00:11:38,510 --> 00:11:35,770
only in the spring or summer I might say

211
00:11:43,470 --> 00:11:38,520
but okay well what what exactly did you

212
00:11:47,670 --> 00:11:43,480
you see the first one that I saw was

213
00:11:50,250 --> 00:11:47,680

cigar shaped and it was narrow and

214

00:11:55,410 --> 00:11:50,260

really long between the tower and the

215

00:11:58,290 --> 00:11:55,420

mountains and partway down the mountain

216

00:12:01,400 --> 00:11:58,300

it was 11 o'clock at night we had over a

217

00:12:04,740 --> 00:12:01,410

dozen people here everybody saw it

218

00:12:10,070 --> 00:12:04,750

so then you started saying what the heck

219

00:12:14,270 --> 00:12:10,080

was it you know so then we've seen

220

00:12:16,770 --> 00:12:14,280

recently it's been these blue orbs and

221

00:12:18,660 --> 00:12:16,780

everybody is seeing them they're seeing

222

00:12:22,380 --> 00:12:18,670

them with the naked eye they're showing

223

00:12:25,350 --> 00:12:22,390

up in pictures and we have no clue what

224

00:12:29,550 --> 00:12:25,360

those are about now why don't you give

225

00:12:32,310 --> 00:12:29,560

us a little bit of an idea exactly where

226

00:12:36,270 --> 00:12:32,320

you are I mean you're you're in a

227

00:12:39,830 --> 00:12:36,280

location that's very isolated or pretty

228

00:12:42,780 --> 00:12:39,840

isolated I mean I can tell from the the

229

00:12:48,210 --> 00:12:42,790

photograph of the of the tower what do

230

00:12:53,000 --> 00:12:48,220

you look out over exactly well from the

231

00:12:55,800 --> 00:12:53,010

tower you've got a 360 degree view so

232

00:12:59,520 --> 00:12:55,810

mainly people are looking towards the

233

00:13:01,140 --> 00:12:59,530

great sand dunes and what is the great

234

00:13:04,320 --> 00:13:01,150

what is the great sand dude because I

235

00:13:04,950 --> 00:13:04,330

had not heard of that until I started to

236

00:13:07,680 --> 00:13:04,960

do some

237

00:13:12,840 --> 00:13:07,690

search on the valley yeah it's a

238

00:13:15,210 --> 00:13:12,850

national park and we've had all kinds of

239

00:13:21,420 --> 00:13:15,220

reports of people seeing things over

240

00:13:24,330 --> 00:13:21,430

there now is this it yeah no is this

241

00:13:30,660 --> 00:13:24,340

like is this the the largest sand dune

242

00:13:34,890 --> 00:13:30,670

in the United States yeah I think not

243

00:13:37,440 --> 00:13:34,900

the largest sand dune hi Tim hi Tim hi G

244

00:13:43,590 --> 00:13:37,450

yeah yeah yeah yeah it's the highest

245

00:13:47,280 --> 00:13:43,600

sand in desert in the world okay hi yeah

246

00:13:50,220 --> 00:13:47,290

how high is it exactly you need the

247

00:13:52,710 --> 00:13:50,230

average at the base it's about seven

248

00:13:56,610 --> 00:13:52,720

thousand seven hundred feet and it goes

249

00:14:06,660 --> 00:13:56,620

up above 9,000 and can you can you climb

250

00:14:09,090 --> 00:14:06,670

it I mean or recommend it unless you're

251

00:14:15,390 --> 00:14:09,100

pretty fit in the sand the summer gets

252

00:14:17,820 --> 00:14:15,400

150 degrees whoa yeah and then oh so you

253

00:14:20,100 --> 00:14:17,830

got like a window of maybe two months

254

00:14:22,080 --> 00:14:20,110

were you gonna do any real exploring

255

00:14:25,220 --> 00:14:22,090

there I mean it would with save yeah

256

00:14:28,790 --> 00:14:25,230

well kids they surf down it they have

257

00:14:31,070 --> 00:14:28,800

they have these specially designed

258

00:14:37,520 --> 00:14:31,080

surfboards that they use kind of like

259

00:14:40,680 --> 00:14:37,530

yeah I guess almost like a like ski and

260

00:14:42,470 --> 00:14:40,690

they they actually ski down but then it

261

00:14:44,820 --> 00:14:42,480

takes a heck of a long time to hike up

262

00:14:46,230 --> 00:14:44,830

well Tim and I are gonna book a plane

263

00:14:55,310 --> 00:14:46,240

because we've been wanting to do this

264

00:15:04,950 --> 00:14:58,230

santa-san board I have a snowboard I

265

00:15:09,570 --> 00:15:04,960

don't know if it's similar zipping down

266

00:15:13,170 --> 00:15:09,580

there and no time at at all now so do

267

00:15:16,860 --> 00:15:13,180

the UFOs come down over this sand dune

268

00:15:18,960 --> 00:15:16,870

or is it in close proximity yeah give us

269

00:15:21,329 --> 00:15:18,970

a little idea about how

270

00:15:24,269 --> 00:15:21,339

at Chris how far this actually

271

00:15:27,360 --> 00:15:24,279

encompasses this UFO and mutilation

272

00:15:30,389 --> 00:15:27,370

activity well the the actual dune field

273

00:15:34,829 --> 00:15:30,399

is about 50 square miles it's about

274

00:15:37,019 --> 00:15:34,839

seven by seven I think miles and like I

275

00:15:39,720 --> 00:15:37,029

said it does it goes up kind of up the

276

00:15:42,030 --> 00:15:39,730

side of the the mountains about two

277

00:15:46,139 --> 00:15:42,040

thousand feet the actual highest dunes

278

00:15:49,590 --> 00:15:46,149

are about 700 feet and it's one of the

279

00:15:52,829 --> 00:15:49,600

largest piles of pure glass or 98

280

00:15:55,350 --> 00:15:52,839

percent glass on the planet and it's

281

00:15:56,819 --> 00:15:55,360

it's pretty interesting it's only been

282

00:15:59,220 --> 00:15:56,829

there for about eleven thousand years

283

00:16:02,189 --> 00:15:59,230

they and they really don't know how it

284

00:16:04,740 --> 00:16:02,199

got there there's several theories that

285

00:16:07,439 --> 00:16:04,750

have been proposed but none of them

286

00:16:11,280 --> 00:16:07,449

really worked too well it's hard to

287

00:16:14,579 --> 00:16:11,290

imagine piling up billions of tons of

288

00:16:17,129 --> 00:16:14,589

sand and in only 11,000 years they did

289

00:16:20,579 --> 00:16:17,139

an actual survey they went down with a

290

00:16:22,139 --> 00:16:20,589

with a drill at the highest point of

291

00:16:24,269 --> 00:16:22,149

their dune field all the way down to the

292

00:16:25,790 --> 00:16:24,279

bottom and they ran into an ancient

293

00:16:28,439 --> 00:16:25,800

force that had been covered up so

294

00:16:30,929 --> 00:16:28,449

because it was organic material they

295

00:16:32,790 --> 00:16:30,939

were able to you know do the carbon-14

296

00:16:35,579 --> 00:16:32,800

dating and they were amazed when they

297

00:16:36,179 --> 00:16:35,589

found out that the trees are from 11,000

298

00:16:38,639 --> 00:16:36,189

years ago

299

00:16:41,639 --> 00:16:38,649

there's remains of humans that go back

300

00:16:42,929 --> 00:16:41,649

13,000 years so it's like like humans

301
00:16:46,410 --> 00:16:42,939
have been coming to the valley there

302
00:16:49,230 --> 00:16:46,420
before the dunes were even there now the

303
00:16:52,350 --> 00:16:49,240
UFO site the UFO sightings and the

304
00:16:54,929 --> 00:16:52,360
mutilations in the valley how big of an

305
00:16:59,340 --> 00:16:54,939
area are are we talking about that this

306
00:17:01,590 --> 00:16:59,350
activity covers all over the state all

307
00:17:04,470 --> 00:17:01,600
over the state well we've had recent

308
00:17:07,500 --> 00:17:04,480
sightings uh I know it's been on the CNN

309
00:17:10,049 --> 00:17:07,510
and and all and it's not fake news about

310
00:17:12,270 --> 00:17:10,059
these mysterious drones now didn't you

311
00:17:15,899 --> 00:17:12,280
tell me in a recent conversation that

312
00:17:17,909 --> 00:17:15,909
there had been sightings of drones

313
00:17:20,880 --> 00:17:17,919

before and we know that there have been

314

00:17:22,529 --> 00:17:20,890

sightings of black helicopters in

315

00:17:26,189 --> 00:17:22,539

association with some of these

316

00:17:30,330 --> 00:17:26,199

mutilations and the UFO sightings but is

317

00:17:32,340 --> 00:17:30,340

this the first flap of drones yeah to my

318

00:17:34,860 --> 00:17:32,350

knowledge and that again is

319

00:17:39,090 --> 00:17:34,870

way up at the northeast corner of the

320

00:17:42,930 --> 00:17:39,100

state over the border into Nebraska and

321

00:17:44,879 --> 00:17:42,940

around fort Warren this is very

322

00:17:47,159 --> 00:17:44,889

interesting Norio Hayakawa's done a lot

323

00:17:49,560 --> 00:17:47,169

of digging on this and has come up with

324

00:17:52,169 --> 00:17:49,570

a theory that we're dealing with some

325

00:17:55,440 --> 00:17:52,179

sort of espionage that they were some

326

00:17:57,690 --> 00:17:55,450

bad actor was flying drones into the to

327

00:17:59,700 --> 00:17:57,700

the missile fields up there and and we

328

00:18:01,919 --> 00:17:59,710

put our drones after their drones and

329

00:18:04,789 --> 00:18:01,929

there was kind of a drone war the

330

00:18:10,139 --> 00:18:04,799

potential of some sort of 'scrimish with

331

00:18:12,090 --> 00:18:10,149

with you know drone battles so you know

332

00:18:13,799 --> 00:18:12,100

it's the jury's out on that I'm not

333

00:18:15,840 --> 00:18:13,809

really sure what to make of it but I

334

00:18:18,899 --> 00:18:15,850

find it interesting that the area where

335

00:18:21,060 --> 00:18:18,909

all these drones are is probably the the

336

00:18:23,730 --> 00:18:21,070

epicenter of the cattle mutilation waves

337

00:18:25,799 --> 00:18:23,740

in the 70s there were more mutilations

338

00:18:28,529 --> 00:18:25,809

up there in Weld County than probably

339

00:18:31,350 --> 00:18:28,539

any other spot in the country well well

340

00:18:34,619 --> 00:18:31,360

I understand that some of these drones

341

00:18:38,009 --> 00:18:34,629

are as big as automobiles now that's a

342

00:18:39,480 --> 00:18:38,019

pretty darn big a big known I mean I

343

00:18:44,460 --> 00:18:39,490

don't I don't think you could buy that

344

00:18:46,919 --> 00:18:44,470

on Amazon I mean I but yeah maybe I've

345

00:18:49,019 --> 00:18:46,929

even seen them flying a drone said you

346

00:18:51,269 --> 00:18:49,029

know like two blocks from here on Fifth

347

00:18:54,180 --> 00:18:51,279

Avenue I mean with a they weren't

348

00:18:56,850 --> 00:18:54,190

anything particularly spectacular but

349

00:19:01,999 --> 00:18:56,860

now Chris you you were you were a native

350

00:19:04,830 --> 00:19:02,009

New Yorker until you moved out to the to

351

00:19:06,539 --> 00:19:04,840

Colorado and you were involved in the

352

00:19:10,440 --> 00:19:06,549

music business and I guess you you you

353

00:19:12,539 --> 00:19:10,450

certainly still are in fact I met you at

354

00:19:15,629 --> 00:19:12,549

the record plant there are some studio

355

00:19:19,700 --> 00:19:15,639

here in Manhattan before we knew each

356

00:19:27,210 --> 00:19:19,710

other as being involved in UFOs I think

357

00:19:29,789 --> 00:19:27,220

okay yeah let's not push that but okay

358

00:19:32,129 --> 00:19:29,799

why in god's name did you move from

359

00:19:35,159 --> 00:19:32,139

well i don't want to say i'm not exactly

360

00:19:37,169 --> 00:19:35,169

in love with Manhattan anymore either

361

00:19:38,999 --> 00:19:37,179

because I got pounding and drilling

362

00:19:41,879 --> 00:19:39,009

outside my window there's four

363

00:19:43,230 --> 00:19:41,889

skyscrapers going up on the block and if

364

00:19:46,230 --> 00:19:43,240

you want to but if you want to buy a

365

00:19:49,080 --> 00:19:46,240

condominium on the skyscraper on the

366

00:19:51,780 --> 00:19:49,090

corner a one-bedroom starts at 2.2

367

00:19:53,760 --> 00:19:51,790

million so I know but if we combine the

368

00:19:57,570 --> 00:19:53,770

royalty from all our books maybe we can

369

00:20:00,630 --> 00:19:57,580

get a two-bedroom place there I take I'm

370

00:20:02,580 --> 00:20:00,640

sure but what what major I mean it

371

00:20:04,910 --> 00:20:02,590

wasn't for you it wasn't a career move

372

00:20:08,340 --> 00:20:04,920

was that you moved from New York to

373

00:20:11,220 --> 00:20:08,350

Colorado well I actually moved to Boston

374

00:20:14,580 --> 00:20:11,230

for a couple years I was with a real

375

00:20:16,410 --> 00:20:14,590

popular band up there and and that kind

376

00:20:18,840 --> 00:20:16,420

of fell apart after a couple years and I

377

00:20:20,700 --> 00:20:18,850

decided to get back out west I'm

378

00:20:25,380 --> 00:20:20,710

actually a fifth generation Californian

379

00:20:27,630 --> 00:20:25,390

and my girlfriend and I you know we we

380

00:20:30,390 --> 00:20:27,640

checked out Santa Fe and we can only

381

00:20:31,740 --> 00:20:30,400

stand it for about a week and I had

382

00:20:33,360 --> 00:20:31,750

friends that lived up in the valley in

383

00:20:35,610 --> 00:20:33,370

Christ's own and they invited us to come

384

00:20:39,360 --> 00:20:35,620

check it out and it was there for

385

00:20:44,160 --> 00:20:39,370

thirteen years and you you just moved

386

00:20:46,140 --> 00:20:44,170

recently moved back to upstate yeah yeah

387

00:20:50,190 --> 00:20:46,150

but you you still get you you have your

388

00:20:55,770 --> 00:20:50,200

cow cameras mounted in the valley so

389

00:20:58,290 --> 00:20:55,780

there if a morning UFO who's right there

390

00:21:01,560 --> 00:20:58,300

you go it's is that the best observation

391

00:21:03,440 --> 00:21:01,570

spot around you bet if I was gonna have

392

00:21:07,610 --> 00:21:03,450

a UFO Watchtower I'd put it right there

393

00:21:13,590 --> 00:21:11,310

but okay so you you you moved out there

394

00:21:15,299 --> 00:21:13,600

and it wasn't it on like New Year's Eve

395

00:21:17,940 --> 00:21:15,309

that you were at a party and you heard

396

00:21:19,740 --> 00:21:17,950

people talking there were chatting about

397

00:21:20,490 --> 00:21:19,750

this yeah yeah that's a wonderful story

398

00:21:26,700 --> 00:21:20,500

yeah

399

00:21:29,580 --> 00:21:26,710

night I found out that there was on

400

00:21:32,460 --> 00:21:29,590

December 9th 92 there was a an amazing

401
00:21:34,890 --> 00:21:32,470
siding of 200-foot ovals that came down

402
00:21:36,960 --> 00:21:34,900
out of the song graves went out over one

403
00:21:39,570 --> 00:21:36,970
of the creeks and hovered there for a

404
00:21:43,049 --> 00:21:39,580
few few seconds and then and then took

405
00:21:46,110 --> 00:21:43,059
off and he's a sizable percentage of the

406
00:21:48,540 --> 00:21:46,120
little town saw I saw these things and I

407
00:21:50,460 --> 00:21:48,550
didn't I was gigging it somewhere else I

408
00:21:53,340 --> 00:21:50,470
I think I was across in the other side

409
00:21:55,919 --> 00:21:53,350
of the valley playing and I I missed out

410
00:21:57,600 --> 00:21:55,929
but then you know later on just about

411
00:21:59,370 --> 00:21:57,610
two or three weeks later I had the party

412
00:22:00,060 --> 00:21:59,380
and everywhere I went in the party

413
00:22:02,760 --> 00:22:00,070

everybody was

414

00:22:04,860 --> 00:22:02,770

talking about these ovals so I contacted

415

00:22:06,690 --> 00:22:04,870

the local paper or the crest tawny eagle

416

00:22:10,320 --> 00:22:06,700

and said hey I think I have a good a

417

00:22:11,730 --> 00:22:10,330

good story idea and and I started doing

418

00:22:13,290 --> 00:22:11,740

some research because I had a couple

419

00:22:16,650 --> 00:22:13,300

weeks to get you know the article

420

00:22:21,570 --> 00:22:16,660

together and within a week I'd uncovered

421

00:22:23,370 --> 00:22:21,580

enough material to write a book how many

422

00:22:28,410 --> 00:22:23,380

how many books you've written now five

423

00:22:33,900 --> 00:22:28,420

no no six hey I'm missing one in my

424

00:22:37,770 --> 00:22:33,910

collection well that explains it okay

425

00:22:40,200 --> 00:22:37,780

well I call these the the mysterious

426

00:22:45,060 --> 00:22:40,210

valley series but run off a few of the

427

00:22:47,310 --> 00:22:45,070

titles well judy judy round them off

428

00:22:49,590 --> 00:22:47,320

with serious valleys the first one enter

429

00:22:51,690 --> 00:22:49,600

the valley as a second and then secrets

430

00:22:53,130 --> 00:22:51,700

of the mysterious valley picks up with

431

00:22:56,040 --> 00:22:53,140

those two leave off and then I also

432

00:22:59,400 --> 00:22:56,050

include my best cases from the first two

433

00:23:01,170 --> 00:22:59,410

books in there and and then I'm you know

434

00:23:04,860 --> 00:23:01,180

the stocking the herd book of course has

435

00:23:08,040 --> 00:23:04,870

a bit of information about all the

436

00:23:11,880 --> 00:23:08,050

cattle fees oh shoot shoot shoot here

437

00:23:15,110 --> 00:23:11,890

that comes up at time to get our breath

438

00:23:15,120 --> 00:23:24,090

[Music]

439

00:23:30,790 --> 00:23:28,240

now back to exploring the bazaars with

440

00:23:33,790 --> 00:23:30,800

two of the most electrifying researchers

441

00:23:38,770 --> 00:23:33,800

in the Paranoid your hosts Timothy

442

00:23:40,750 --> 00:23:38,780

becklyn and chase lists alright welcome

443

00:23:43,330 --> 00:23:40,760

back to exploring the bazaar I'm Tim

444

00:23:44,380 --> 00:23:43,340

Schwarz tonight our guests are

445

00:23:49,750 --> 00:23:44,390

christopher o'brien

446

00:23:54,660 --> 00:23:49,760

and judy misalign now Judy when when you

447

00:23:59,140 --> 00:23:54,670

first started up the the UFO Watchtower

448

00:24:01,300 --> 00:23:59,150

now was it was it an instant success you

449

00:24:04,720 --> 00:24:01,310

have you know like people beating down

450

00:24:07,990 --> 00:24:04,730

your gate to get in there or was it a

451
00:24:12,670 --> 00:24:08,000
little bit slow to start - word of mouth

452
00:24:16,330 --> 00:24:12,680
got out well and I did over 250 radio

453
00:24:19,720 --> 00:24:16,340
interviews before even opening so I was

454
00:24:23,370 --> 00:24:19,730
assuming they were going to be lined up

455
00:24:25,690 --> 00:24:23,380
to come in well hardly anybody came in

456
00:24:27,760 --> 00:24:25,700
well you were even in the New York Times

457
00:24:32,680 --> 00:24:27,770
you were in the New York Times as well

458
00:24:36,190 --> 00:24:32,690
okay and the LA Times gosh this is gone

459
00:24:40,930 --> 00:24:36,200
all over the world with interviews etc

460
00:24:43,690 --> 00:24:40,940
etc but it's been the last few years

461
00:24:47,530 --> 00:24:43,700
where it has really come into its own

462
00:24:50,230 --> 00:24:47,540
and in the summer we are so busy it just

463
00:24:54,340 --> 00:24:50,240

it takes two or three of us to keep up

464

00:25:00,820 --> 00:24:54,350

over there but but anyway I'm not the

465

00:25:04,210 --> 00:25:00,830

least bit unhappy that I started it what

466

00:25:06,730 --> 00:25:04,220

what was the reaction with your with

467

00:25:08,920 --> 00:25:06,740

your friends and other people around

468

00:25:14,080 --> 00:25:08,930

there when you said hey I'm gonna I'm

469

00:25:15,880 --> 00:25:14,090

gonna build this UFO Watchtower and and

470

00:25:20,440 --> 00:25:15,890

it looks like that you've got a building

471

00:25:23,110 --> 00:25:20,450

attached with it that you have maybe you

472

00:25:25,270 --> 00:25:23,120

know souvenirs and other items of

473

00:25:27,370 --> 00:25:25,280

interest I mean you know did did your

474

00:25:29,020 --> 00:25:27,380

friend say oh yeah that's really a great

475

00:25:32,070 --> 00:25:29,030

Judy and then you know get on the phone

476

00:25:35,320 --> 00:25:32,080

to call the doctors

477

00:25:38,440 --> 00:25:35,330

well the name of my book is that crazy

478

00:25:41,530 --> 00:25:38,450

lady down the road and how I got the

479

00:25:43,570 --> 00:25:41,540

title was from the locals around here

480

00:25:48,640 --> 00:25:43,580

and that's what they would call me is

481

00:25:51,700 --> 00:25:48,650

that crazy lady down the road so but

482

00:25:57,100 --> 00:25:51,710

they don't anymore so many of them down

483

00:25:59,410 --> 00:25:57,110

here have seen something you know I get

484

00:26:02,080 --> 00:25:59,420

calls all the time from folks saying

485

00:26:06,000 --> 00:26:02,090

that they saw something in the sky or I

486

00:26:10,000 --> 00:26:06,010

had a couple who came in and there was

487

00:26:15,490 --> 00:26:10,010

one that landed on their property Oh her

488

00:26:17,440 --> 00:26:15,500

by for Garland and they said they didn't

489

00:26:20,170 --> 00:26:17,450

even go outside they watched it from the

490

00:26:29,520 --> 00:26:20,180

windows inside but it kind of spooked

491

00:26:33,370 --> 00:26:29,530

him so I really I would say Judy and

492

00:26:36,130 --> 00:26:33,380

correct me if I'm wrong but there's so

493

00:26:38,890 --> 00:26:36,140

many different types of things that are

494

00:26:41,490 --> 00:26:38,900

unusual that you can spot there because

495

00:26:45,190 --> 00:26:41,500

you do have such a you know panorama of

496

00:26:47,560 --> 00:26:45,200

360 degree unobstructed view you can

497

00:26:49,990 --> 00:26:47,570

literally see if you're up off the

498

00:26:53,950 --> 00:26:50,000

valley floor in the foothills you can

499

00:26:55,960 --> 00:26:53,960

see almost 300 miles and invariably

500

00:26:58,210 --> 00:26:55,970

people see stuff down there and after

501
00:27:00,490 --> 00:26:58,220
you've seen a few things it almost

502
00:27:03,880 --> 00:27:00,500
starts to become sort of normal

503
00:27:06,070 --> 00:27:03,890
I have people mention this to me all the

504
00:27:07,060 --> 00:27:06,080
time that oh yeah I see those all the

505
00:27:10,480 --> 00:27:07,070
time no big deal

506
00:27:12,940 --> 00:27:10,490
and you know when you hear about places

507
00:27:15,670 --> 00:27:12,950
that are supposedly the you know the the

508
00:27:18,400 --> 00:27:15,680
biggest sighting area in the country but

509
00:27:21,010 --> 00:27:18,410
but only one in ten which is the common

510
00:27:24,040 --> 00:27:21,020
number that's thrown out one in ten the

511
00:27:26,680 --> 00:27:24,050
events are actually reported I would say

512
00:27:31,030 --> 00:27:26,690
in the San Luis Valley that it's upwards

513
00:27:33,640 --> 00:27:31,040

of one in fifty hmm our report and it

514

00:27:36,400 --> 00:27:33,650

may even be higher than that people

515

00:27:38,410 --> 00:27:36,410

don't want to be made fun of you know

516

00:27:41,170 --> 00:27:38,420

yeah and that's what's so great about

517

00:27:43,840 --> 00:27:41,180

the UFO watch towers they come in they

518

00:27:45,490 --> 00:27:43,850

tell us their stories we don't ask them

519

00:27:47,080 --> 00:27:45,500

what they were smoking or what they were

520

00:27:48,640 --> 00:27:47,090

drinking because that's what they get

521

00:27:51,730 --> 00:27:48,650

from their friends

522

00:27:55,330 --> 00:27:51,740

they need a place to vent and talk about

523

00:27:59,380 --> 00:27:55,340

it and not be made fun of and we offer

524

00:28:02,650 --> 00:27:59,390

that what would you say what would you

525

00:28:04,540 --> 00:28:02,660

say is the most spectacular of sighting

526

00:28:10,990 --> 00:28:04,550

duty that's been made from the

527

00:28:13,270 --> 00:28:11,000

watchtower or from the nearby I think

528

00:28:15,850 --> 00:28:13,280

the most amazing one was we had a fella

529

00:28:18,850 --> 00:28:15,860

who parked his camper over by the tower

530

00:28:21,130 --> 00:28:18,860

and he stayed there for a few days while

531

00:28:25,330 --> 00:28:21,140

he was on the phone talking to a friend

532

00:28:29,860 --> 00:28:25,340

of his ship came over and hovered over

533

00:28:32,110 --> 00:28:29,870

the top of his camper and he went

534

00:28:36,130 --> 00:28:32,120

berserk he said he didn't think he'd

535

00:28:40,480 --> 00:28:36,140

ever see anything especially that so

536

00:28:40,840 --> 00:28:40,490

that was a pretty good story I would say

537

00:28:44,800 --> 00:28:40,850

so

538

00:28:49,030 --> 00:28:44,810

now how about as far as the animals

539

00:28:51,700 --> 00:28:49,040

disappearing and mutilations and all do

540

00:28:53,670 --> 00:28:51,710

you still have a channel are you a

541

00:28:57,790 --> 00:28:53,680

grazing cattle there at all

542

00:29:02,590 --> 00:28:57,800

we have for now we got rid of entire

543

00:29:07,090 --> 00:29:02,600

herd and it was we had rented some

544

00:29:10,300 --> 00:29:07,100

property to the west of us from one of

545

00:29:12,940 --> 00:29:10,310

the farmers and he told us to move the

546

00:29:16,690 --> 00:29:12,950

animals it was time for him to put his

547

00:29:20,140 --> 00:29:16,700

animals on it and our animals hadn't

548

00:29:24,550 --> 00:29:20,150

been off of that for a month and he had

549

00:29:29,350 --> 00:29:24,560

a mutilation at his place hmm so um I'm

550

00:29:31,750 --> 00:29:29,360

glad my cows went there hey a crisp why

551
00:29:35,440 --> 00:29:31,760
don't you take us back to the beginning

552
00:29:37,900 --> 00:29:35,450
of the mutilations because you know this

553
00:29:42,010 --> 00:29:37,910
goes back so many years now that people

554
00:29:45,960 --> 00:29:42,020
may not know about our favor that the

555
00:29:50,560 --> 00:29:45,970
very famous horse that started this all

556
00:29:54,580 --> 00:29:50,570
yeah the first real publicized case that

557
00:29:58,230 --> 00:29:54,590
we know of at least a case that became

558
00:30:01,930 --> 00:29:58,240
international news was in the first

559
00:30:04,269 --> 00:30:01,940
September 8th 1967

560
00:30:05,980 --> 00:30:04,279
and south of the Great Sand Dunes on

561
00:30:08,639 --> 00:30:05,990
some of those Meadows I talked about

562
00:30:14,110 --> 00:30:08,649
where the early traces of man are

563
00:30:16,690 --> 00:30:14,120

there's a King Ranch there and the herd

564

00:30:18,879 --> 00:30:16,700

of horses came in for water and feed and

565

00:30:21,159 --> 00:30:18,889

one of them was missing and the horses

566

00:30:25,180 --> 00:30:21,169

seemed seem pretty spooked and so the

567

00:30:27,669 --> 00:30:25,190

the rancher went out who was the the

568

00:30:29,830 --> 00:30:27,679

brother of the the owner of the horse he

569

00:30:31,720 --> 00:30:29,840

went out looking for and he found her in

570

00:30:33,070 --> 00:30:31,730

a meadow and she was about a hundred

571

00:30:38,499 --> 00:30:33,080

feet from her tracks

572

00:30:42,009 --> 00:30:38,509

and her entire skull and neck down to

573

00:30:44,860 --> 00:30:42,019

the shoulders was totally hoovered all

574

00:30:47,230 --> 00:30:44,870

the flesh and tendons and pite and

575

00:30:50,919 --> 00:30:47,240

muscles and everything were were gone

576
00:30:52,330 --> 00:30:50,929
and the bones were this you know ghostly

577
00:30:54,549 --> 00:30:52,340
white color like they've been bleached

578
00:30:57,730 --> 00:30:54,559
in the Sun for years and she'd been

579
00:31:00,039 --> 00:30:57,740
alive the the night before the brain was

580
00:31:02,499 --> 00:31:00,049
gone and no break into the cranium

581
00:31:06,820 --> 00:31:02,509
there was no break into the into the

582
00:31:10,269 --> 00:31:06,830
ribcage or there was no way they could

583
00:31:11,789 --> 00:31:10,279
see the actual heart and lungs had been

584
00:31:13,659 --> 00:31:11,799
taken out and they couldn't really

585
00:31:16,600 --> 00:31:13,669
determine how that was done

586
00:31:20,440 --> 00:31:16,610
a necropsy was done on the animal by

587
00:31:23,649 --> 00:31:20,450
John Altschuler who was a resident was

588
00:31:25,570 --> 00:31:23,659

just getting his medical degree he later

589

00:31:27,879 --> 00:31:25,580

on because of the incident I became

590

00:31:30,909 --> 00:31:27,889

fascinated with the fact that the horse

591

00:31:33,460 --> 00:31:30,919

had no blood and he became II a very

592

00:31:37,119 --> 00:31:33,470

well known hematologist or he studied

593

00:31:39,720 --> 00:31:37,129

study blood and it that like I said that

594

00:31:41,980 --> 00:31:39,730

became an international news story

595

00:31:44,919 --> 00:31:41,990

reporters came from all over the world

596

00:31:49,180 --> 00:31:44,929

there were people lining the the roads

597

00:31:51,970 --> 00:31:49,190

dozens of cars at some points even up to

598

00:31:56,740 --> 00:31:51,980

a hundred cars would would park and wait

599

00:32:00,940 --> 00:31:56,750

for the UFO waves it would come that 66

600

00:32:03,279 --> 00:32:00,950

a fall of 66 the spring of 67 all

601
00:32:06,369 --> 00:32:03,289
through the summer into the fall all the

602
00:32:08,590 --> 00:32:06,379
way till the fall of 69 there was about

603
00:32:10,440 --> 00:32:08,600
a three four year period where there was

604
00:32:13,060 --> 00:32:10,450
just hundreds and hundreds of sightings

605
00:32:14,900 --> 00:32:13,070
including little little objects in broad

606
00:32:18,140 --> 00:32:14,910
daylight that would dive-bomb car

607
00:32:20,690 --> 00:32:18,150
on their way out to the dunes and and

608
00:32:23,360 --> 00:32:20,700
then disappear directly into the

609
00:32:25,310 --> 00:32:23,370
foothills you know right there by Blanca

610
00:32:28,940 --> 00:32:25,320
peak and all the mountains there on the

611
00:32:31,430 --> 00:32:28,950
the Blanca Massif there and it was

612
00:32:34,760 --> 00:32:31,440
really a big deal back in the day and

613
00:32:36,980 --> 00:32:34,770

there were tons of newspaper stories and

614

00:32:39,350 --> 00:32:36,990

articles in the Valley courier and the

615

00:32:42,290 --> 00:32:39,360

Pueblo chieftain and the Kansas City

616

00:32:45,230 --> 00:32:42,300

Star had a big article all of which of

617

00:32:46,370 --> 00:32:45,240

course I was lucky enough to know one of

618

00:32:49,160 --> 00:32:46,380

the researchers that have been

619

00:32:51,350 --> 00:32:49,170

interested in the valley Tom Adams and

620

00:32:54,560 --> 00:32:51,360

he sent me hard copies of all these

621

00:32:57,440 --> 00:32:54,570

wonderful you know documentation of

622

00:32:59,150 --> 00:32:57,450

people sighting claims and we you know I

623

00:33:01,580 --> 00:32:59,160

thought it when I moved there in 89 I

624

00:33:03,140 --> 00:33:01,590

thought it was all ancient history I

625

00:33:05,540 --> 00:33:03,150

didn't think there was still stuff going

626
00:33:07,340 --> 00:33:05,550
going on and and then you know slowly

627
00:33:09,590 --> 00:33:07,350
over the next couple years you know I

628
00:33:11,360 --> 00:33:09,600
started seeing stuff and I started

629
00:33:13,700 --> 00:33:11,370
talking to people that saw stuff and you

630
00:33:15,350 --> 00:33:13,710
know I I would ask around some of the

631
00:33:17,810 --> 00:33:15,360
old-timers and they look at me like I

632
00:33:19,070 --> 00:33:17,820
had two heads and so I kind of figured

633
00:33:21,590 --> 00:33:19,080
pretty quickly that you know I should

634
00:33:23,810 --> 00:33:21,600
just kind of just keep my ears open and

635
00:33:26,050 --> 00:33:23,820
not really do too much digging it's when

636
00:33:30,020 --> 00:33:26,060
we really had the big wave of activity

637
00:33:32,150 --> 00:33:30,030
all through 93 4 & 5 that those three

638
00:33:33,890 --> 00:33:32,160

years or then it kind of went down a

639

00:33:37,340 --> 00:33:33,900

little bit ninety six seven eight was

640

00:33:40,580 --> 00:33:37,350

really really heavy and and by that time

641

00:33:43,970 --> 00:33:40,590

I mean it was a it was a you know the

642

00:33:46,510 --> 00:33:43,980

big time news around the world I had to

643

00:33:48,830 --> 00:33:46,520

get a bigger mailbox because of all the

644

00:33:51,290 --> 00:33:48,840

correspondence it was coming in this is

645

00:33:53,000 --> 00:33:51,300

all pretty much pre-internet so you know

646

00:33:55,880 --> 00:33:53,010

this is all you know to do it at the old

647

00:33:57,380 --> 00:33:55,890

fashioned way as opposed to today where

648

00:34:00,350 --> 00:33:57,390

you can get a lot done just sitting in

649

00:34:03,470 --> 00:34:00,360

your house you know back then I put ten

650

00:34:05,750 --> 00:34:03,480

thousand or ten thousand I wish I put a

651
00:34:10,310 --> 00:34:05,760
hundred thousand miles on my truck in in

652
00:34:12,260 --> 00:34:10,320
less than six years so now you know

653
00:34:16,369 --> 00:34:12,270
there's a photo we published in UFO deja

654
00:34:19,460 --> 00:34:16,379
vu view bending over and I think taking

655
00:34:21,860 --> 00:34:19,470
a picture of one of these mutilated yeah

656
00:34:24,230 --> 00:34:21,870
that was pretty near Judy's place that

657
00:34:27,230 --> 00:34:24,240
was there right there on the edge of

658
00:34:28,370 --> 00:34:27,240
Hooper between Hooper and Center right

659
00:34:32,780 --> 00:34:28,380
off road

660
00:34:35,960 --> 00:34:32,790
1:12 Judy it was a really rare winter

661
00:34:38,840 --> 00:34:35,970
case there'd been a real thick fog that

662
00:34:42,440 --> 00:34:38,850
night and the the rancher heard his dogs

663
00:34:44,660 --> 00:34:42,450

barking about 6:30 in the morning and he

664

00:34:46,970 --> 00:34:44,670

saw this weird powerful blue light

665

00:34:49,790 --> 00:34:46,980

through the fog and he he was so scared

666

00:34:52,360 --> 00:34:49,800

he didn't go out there and he went out

667

00:34:56,450 --> 00:34:52,370

you know as soon as the Sun came up and

668

00:34:59,480 --> 00:34:56,460

about eight o'clock and found found the

669

00:35:01,090 --> 00:34:59,490

animal their mutilated line melting the

670

00:35:03,110 --> 00:35:01,100

snow because it was still warm and

671

00:35:06,200 --> 00:35:03,120

immediately called me and I was there

672

00:35:07,970 --> 00:35:06,210

while it was still warm and that that's

673

00:35:11,630 --> 00:35:07,980

one of the photographs that were taken

674

00:35:14,090 --> 00:35:11,640

out it took a lot of video now tell us

675

00:35:16,370 --> 00:35:14,100

about some of the the photographs I I

676
00:35:22,190 --> 00:35:16,380
know we published this and you've got

677
00:35:25,610 --> 00:35:22,200
some on your amazing website these

678
00:35:28,880 --> 00:35:25,620
things the UFOs have actually been seen

679
00:35:31,220 --> 00:35:28,890
to change a shape I know you have one

680
00:35:33,380 --> 00:35:31,230
picture there where this thing that it

681
00:35:36,350 --> 00:35:33,390
looks like a drone or a probe or or

682
00:35:38,990 --> 00:35:36,360
something or other and we've gotten many

683
00:35:41,480 --> 00:35:39,000
reports recently in fact we put out a

684
00:35:43,760 --> 00:35:41,490
new edition of the book just to add 30

685
00:35:46,790 --> 00:35:43,770
pages to it because we got all this

686
00:35:48,860 --> 00:35:46,800
information coming in about morphing

687
00:35:51,740 --> 00:35:48,870
UFOs we got one case in margin Tina

688
00:35:54,980 --> 00:35:51,750

where the object itself turned into the

689

00:35:59,690 --> 00:35:54,990

alien Wow how's about that how's about

690

00:36:02,510 --> 00:35:59,700

that one yeah tell us something about

691

00:36:03,950 --> 00:36:02,520

the objects themselves now you don't

692

00:36:06,500 --> 00:36:03,960

necessarily think that there are

693

00:36:13,330 --> 00:36:06,510

extraterrestrial they could be any

694

00:36:16,640 --> 00:36:13,340

number of things but you're the fence

695

00:36:19,670 --> 00:36:16,650

I'm not a big believer that aliens are

696

00:36:22,160 --> 00:36:19,680

behind the technology that we're seeing

697

00:36:24,230 --> 00:36:22,170

flying around I think it's not by

698

00:36:27,800 --> 00:36:24,240

accident that they showed up really and

699

00:36:29,660 --> 00:36:27,810

mass large flotillas and large groups of

700

00:36:32,480 --> 00:36:29,670

them showed up in the right after we

701
00:36:37,160 --> 00:36:32,490
started blowing up you know atomic bombs

702
00:36:39,650 --> 00:36:37,170
I think that 47 you know those early

703
00:36:41,900 --> 00:36:39,660
waves in the summer were a show of force

704
00:36:44,510 --> 00:36:41,910
because we were putting

705
00:36:46,670 --> 00:36:44,520
those pilots of those ships in danger by

706
00:36:48,730 --> 00:36:46,680
blowing off nuclear weapons which would

707
00:36:51,109 --> 00:36:48,740
suggest that there is terrestrial

708
00:36:53,450 --> 00:36:51,119
possibly even more terrestrial than we

709
00:36:56,240 --> 00:36:53,460
are I think it's a kind of a homespun

710
00:36:58,819 --> 00:36:56,250
closed system phenomenon other tenants

711
00:37:02,470 --> 00:36:58,829
in the building let's say whether that's

712
00:37:05,270 --> 00:37:02,480
dimensional time based or suboceanic

713
00:37:06,049 --> 00:37:05,280

subterranean I think that you're longer

714

00:37:08,809 --> 00:37:06,059

than we have

715

00:37:13,760 --> 00:37:08,819

we like to not see German Theory

716

00:37:16,880 --> 00:37:13,770

ourselves some of that technology but it

717

00:37:18,740 --> 00:37:16,890

doesn't it doesn't conform to - it only

718

00:37:21,500 --> 00:37:18,750

conforms to a small percentage of the

719

00:37:23,420 --> 00:37:21,510

sighting events you know in the valley I

720

00:37:27,470 --> 00:37:23,430

have one thing and I think Judy will

721

00:37:29,510 --> 00:37:27,480

will kind of echo this sentiment about

722

00:37:31,910 --> 00:37:29,520

any type of craft that's ever been

723

00:37:34,460 --> 00:37:31,920

reported you can see in the valley I've

724

00:37:37,549 --> 00:37:34,470

seen all the different sizes and colors

725

00:37:39,829 --> 00:37:37,559

of orbs on the most common being the

726

00:37:43,750 --> 00:37:39,839

silver orbs which you see almost daily

727

00:37:47,599 --> 00:37:43,760

there and and large rectangular craft

728

00:37:49,750 --> 00:37:47,609

large dozen triangle craft sightings

729

00:37:53,779 --> 00:37:49,760

including - seen by law enforcement

730

00:37:55,789 --> 00:37:53,789

being accompanied by in one case f-16s

731

00:38:00,859 --> 00:37:55,799

in another case accompanied by

732

00:38:02,539 --> 00:38:00,869

helicopters in a third case - smaller

733

00:38:04,940 --> 00:38:02,549

triangles when right in front of a car

734

00:38:07,430 --> 00:38:04,950

she was headed down the road to the sand

735

00:38:09,410 --> 00:38:07,440

dunes and these things went shooting

736

00:38:11,390 --> 00:38:09,420

past her right in front of her car and

737

00:38:16,430 --> 00:38:11,400

then two f-16s were following right

738

00:38:20,480 --> 00:38:16,440

behind in full combat power so pretty

739

00:38:23,599 --> 00:38:20,490

much any type of craft it's described at

740

00:38:26,329 --> 00:38:23,609

some point has been witnessed and

741

00:38:31,130 --> 00:38:26,339

reported in the valley I myself have

742

00:38:34,609 --> 00:38:31,140

seen pretty much every type of craft

743

00:38:36,950 --> 00:38:34,619

imaginable daylight sightings of small

744

00:38:41,539 --> 00:38:36,960

Scout ships going right across the road

745

00:38:43,640 --> 00:38:41,549

a 150 feet away from me it's it's just

746

00:38:46,279 --> 00:38:43,650

it's amazing when there's when there's

747

00:38:50,360 --> 00:38:46,289

activity going on it's it's really

748

00:38:57,320 --> 00:38:53,690

well Judy what about you I mean what

749

00:39:00,960 --> 00:38:57,330

what kind of objects have have you seen

750

00:39:03,480 --> 00:39:00,970

have you seen the picture of Kenneth

751

00:39:06,510 --> 00:39:03,490

Arnold with the ships that he saw

752

00:39:09,990 --> 00:39:06,520

yeah the crescent-shaped right yeah like

753

00:39:12,750 --> 00:39:10,000

a shoe heel yeah we saw that one from

754

00:39:15,480 --> 00:39:12,760

the tower it was over by Mount Blanca

755

00:39:18,570 --> 00:39:15,490

and at first thought it was a bird and

756

00:39:25,290 --> 00:39:18,580

then it dawns on us it's 40 miles away

757

00:39:28,620 --> 00:39:25,300

it couldn't be a perfect was very big so

758

00:39:31,440 --> 00:39:28,630

it was reported again the following week

759

00:39:34,860 --> 00:39:31,450

some folks down by poor Garland saw it

760

00:39:36,750 --> 00:39:34,870

and he said he was really upset because

761

00:39:41,070 --> 00:39:36,760

he didn't have a camera because it was

762

00:39:43,530 --> 00:39:41,080

only like 150 yards from him well and

763

00:39:45,870 --> 00:39:43,540

then there there was another family in

764

00:39:49,830 --> 00:39:45,880

and they had seen four of them on their

765

00:39:52,170 --> 00:39:49,840

property down in the same area so that

766

00:39:55,170 --> 00:39:52,180

one was pretty amazing of course the

767

00:39:59,460 --> 00:39:55,180

cigar-shaped one and then the orbs the

768

00:40:03,420 --> 00:39:59,470

orbs that just do bizarre things and

769

00:40:05,910 --> 00:40:03,430

then the actual saucers and and I had a

770

00:40:09,030 --> 00:40:05,920

guy called me one night and he said are

771

00:40:11,700 --> 00:40:09,040

you watching the triangular one up by

772

00:40:15,120 --> 00:40:11,710

the moon and I said what try and it'll

773

00:40:17,730 --> 00:40:15,130

one you go out tonight with binoculars

774

00:40:19,890 --> 00:40:17,740

and look you didn't need binoculars I

775

00:40:22,590 --> 00:40:19,900

went up and looked and there was a

776
00:40:26,370 --> 00:40:22,600
triangular shaped object up by the moon

777
00:40:29,670 --> 00:40:26,380
and it had to have been huge in order to

778
00:40:31,920 --> 00:40:29,680
see it with your naked eye and it was

779
00:40:33,470 --> 00:40:31,930
there another couple of nights and then

780
00:40:40,890 --> 00:40:33,480
it was just gone

781
00:40:43,830 --> 00:40:40,900
so yeah Chris is right it's just amazing

782
00:40:47,760 --> 00:40:43,840
I mean I've seen the silver the those

783
00:40:50,610 --> 00:40:47,770
you know real silvery kind of white

784
00:40:54,120 --> 00:40:50,620
silver colored ones I don't know how

785
00:40:57,360 --> 00:40:54,130
many times we were seeing them daily at

786
00:41:00,690 --> 00:40:57,370
one point and and those are the ones

787
00:41:02,220 --> 00:41:00,700
that are most commonly reported you also

788
00:41:08,400 --> 00:41:02,230

have the small

789

00:41:12,200 --> 00:41:08,410

ruby red orbs that are did zip around

790

00:41:14,640 --> 00:41:12,210

pretty close to the ground you have

791

00:41:19,340 --> 00:41:14,650

there about baseball size and you have

792

00:41:23,430 --> 00:41:19,350

basketball size orange lights that are

793

00:41:26,180 --> 00:41:23,440

fairly a fair number of them have been

794

00:41:28,770 --> 00:41:26,190

reported in and around mutilation sites

795

00:41:31,170 --> 00:41:28,780

then you have the the blue softball

796

00:41:34,290 --> 00:41:31,180

sized ones and then the large the large

797

00:41:35,910 --> 00:41:34,300

blue ones some of the real reddish

798

00:41:39,450 --> 00:41:35,920

orange when she can get as big as a

799

00:41:42,090 --> 00:41:39,460

small house I've seen a couple of those

800

00:41:44,460 --> 00:41:42,100

go one right after the other all the way

801
00:41:46,800 --> 00:41:44,470
down the valley we had treetop level and

802
00:41:48,660 --> 00:41:46,810
then one split and went to the west one

803
00:41:51,720 --> 00:41:48,670
splitting one to the south and they were

804
00:41:53,580 --> 00:41:51,730
about 500 feet below us in altitude in

805
00:41:55,950 --> 00:41:53,590
about eight minutes after we saw em boom

806
00:41:58,170 --> 00:41:55,960
here come to the fighter jets on full

807
00:42:04,070 --> 00:41:58,180
power chasing after him

808
00:42:06,480 --> 00:42:04,080
so you could almost set your watch well

809
00:42:08,430 --> 00:42:06,490
they have some sort of way of knowing

810
00:42:12,660 --> 00:42:08,440
that they're around because you know

811
00:42:15,420 --> 00:42:12,670
quite a number of times it you know the

812
00:42:19,010 --> 00:42:15,430
conventional Air Force jets would show

813
00:42:21,359 --> 00:42:19,020

up Air National Guard or whomever and

814

00:42:24,240 --> 00:42:21,369

and chase in the direction that these

815

00:42:27,330 --> 00:42:24,250

things seem to disappear and usually to

816

00:42:29,970 --> 00:42:27,340

the southwest or to the west or directly

817

00:42:31,920 --> 00:42:29,980

south that's almost all the time that's

818

00:42:35,370 --> 00:42:31,930

where they go they head down towards New

819

00:42:39,950 --> 00:42:35,380

Mexico of course new border with New

820

00:42:43,200 --> 00:42:39,960

Mexico is about 80 miles south of Judy

821

00:42:47,640 --> 00:42:43,210

and and then the the valley actually

822

00:42:49,800 --> 00:42:47,650

goes about another it's about 140 miles

823

00:42:51,480 --> 00:42:49,810

long in the southern part of it's not

824

00:42:55,140 --> 00:42:51,490

called the San Luis Valley but it's all

825

00:42:57,660 --> 00:42:55,150

part of the the same geology in that the

826

00:43:03,510 --> 00:42:57,670

very bottom of the valley is Taos New

827

00:43:08,040 --> 00:43:03,520

Mexico any reports of abductions or

828

00:43:12,960 --> 00:43:08,050

contacts oh yeah yeah again a ranch a

829

00:43:15,750 --> 00:43:12,970

ranching lady kind of near if you go in

830

00:43:19,620 --> 00:43:15,760

a straight line from Judy's to

831

00:43:22,410 --> 00:43:19,630

- highway 285 she lives here her ranch

832

00:43:23,970 --> 00:43:22,420

is right off of there and and the

833

00:43:25,890 --> 00:43:23,980

Sheriff's Office called me and told me

834

00:43:27,810 --> 00:43:25,900

about her and and said you know I really

835

00:43:28,320 --> 00:43:27,820

think that this woman could use some

836

00:43:30,510 --> 00:43:28,330

help

837

00:43:32,700 --> 00:43:30,520

she doesn't want anybody to know so I

838

00:43:35,310 --> 00:43:32,710

don't know how to you know how you gonna

839

00:43:38,160 --> 00:43:35,320

do it but you know please try to get in

840

00:43:40,370 --> 00:43:38,170

touch with her and and you know then

841

00:43:43,770 --> 00:43:40,380

talk to her and she had the most amazing

842

00:43:45,840 --> 00:43:43,780

story which I put in secrets of the

843

00:43:49,170 --> 00:43:45,850

mysterious valley I mean just amazing

844

00:43:50,970 --> 00:43:49,180

and she had kept a journal and and had

845

00:43:53,250 --> 00:43:50,980

written down nights when she was having

846

00:43:55,800 --> 00:43:53,260

these visitations and her her daughter

847

00:43:57,930 --> 00:43:55,810

and other nights when things were

848

00:44:00,780 --> 00:43:57,940

happening and I would look in my my

849

00:44:05,280 --> 00:44:00,790

database my my event log and sure enough

850

00:44:08,040 --> 00:44:05,290

I would be getting reports you know from

851

00:44:10,250 --> 00:44:08,050

that part of the valley so there was a

852

00:44:13,500 --> 00:44:10,260

lot of interesting correlations there

853

00:44:14,820 --> 00:44:13,510

she claims she lost a baby as she was

854

00:44:17,450 --> 00:44:14,830

entering her third trimester of

855

00:44:20,580 --> 00:44:17,460

pregnancy and when she went to the obg

856

00:44:23,580 --> 00:44:20,590

you know the kind of college astir

857

00:44:25,590 --> 00:44:23,590

you know her doctor they couldn't

858

00:44:26,460 --> 00:44:25,600

believe it they said it's it's like you

859

00:44:30,780 --> 00:44:26,470

were never pregnant

860

00:44:32,820 --> 00:44:30,790

and I guess there was some sort of there

861

00:44:34,980 --> 00:44:32,830

was no indication physically and

862

00:44:38,220 --> 00:44:34,990

hormonal II that she had been pregnant

863

00:44:39,990 --> 00:44:38,230

and but she was obviously had been

864

00:44:41,450 --> 00:44:40,000

pregnant because they had ultrasounds

865

00:44:44,490 --> 00:44:41,460

and everything else with the baby so

866

00:44:46,380 --> 00:44:44,500

it's it's pretty interesting case I I

867

00:44:50,340 --> 00:44:46,390

would have thought that I would have had

868

00:44:52,830 --> 00:44:50,350

more but you know there there's been

869

00:44:55,830 --> 00:44:52,840

some contact type cases my neighbor

870

00:44:57,990 --> 00:44:55,840

actually and increased stone had a group

871

00:44:59,700 --> 00:44:58,000

of of creatures that came through the

872

00:45:04,350 --> 00:44:59,710

wall and and we're really interested in

873

00:45:06,570 --> 00:45:04,360

her little boy who was gifted and other

874

00:45:08,550 --> 00:45:06,580

people have have witnessed similar

875

00:45:10,680 --> 00:45:08,560

things groups of these little gray types

876

00:45:14,280 --> 00:45:10,690

coming through their wall and and

877

00:45:17,700 --> 00:45:14,290

checking them out but very few stories

878

00:45:20,580 --> 00:45:17,710

of people being taken but you you do you

879

00:45:23,960 --> 00:45:20,590

do have Bigfoot sightings galore right

880

00:45:26,130 --> 00:45:23,970

or creature sightings oh yeah yeah yeah

881

00:45:27,900 --> 00:45:26,140

there's a bunch and there's somewhere

882

00:45:29,880 --> 00:45:27,910

around the crest stone area now there's

883

00:45:31,020 --> 00:45:29,890

a I've been told

884

00:45:32,970 --> 00:45:31,030

that the last three or four years

885

00:45:35,460 --> 00:45:32,980

there's been a family that goes through

886

00:45:40,110 --> 00:45:35,470

that had South in the fall and then

887

00:45:45,540 --> 00:45:40,120

heads north in the spring and they've

888

00:45:47,850 --> 00:45:45,550

left some sign behind some what appear

889

00:45:53,640 --> 00:45:47,860

to be you know signs in the forest where

890

00:45:57,570 --> 00:45:53,650

they stack wood together and stuff are

891

00:45:59,460 --> 00:45:57,580

they associated with the the objects no

892

00:46:02,130 --> 00:45:59,470

no not to my knowledge I mean we did

893

00:46:05,850 --> 00:46:02,140

have a wave of of sightings there was

894

00:46:07,980 --> 00:46:05,860

seven sightings in 10 days and then we

895

00:46:10,710 --> 00:46:07,990

had UFO activity occurring in the valley

896

00:46:21,030 --> 00:46:10,720

but not not near where the sightings are

897

00:46:30,240 --> 00:46:21,040

the Bigfoot reports are from when was

898

00:46:33,030 --> 00:46:30,250

this there were two different instances

899

00:46:36,060 --> 00:46:33,040

and the kids were only like four or five

900

00:46:38,730 --> 00:46:36,070

years old and they were lost in the

901
00:46:41,190 --> 00:46:38,740
mountains for a couple of days and when

902
00:46:44,910 --> 00:46:41,200
he found them they each had the same

903
00:46:48,540 --> 00:46:44,920
story they said that this big bear took

904
00:46:51,150 --> 00:46:48,550
care of them I did hear about yeah last

905
00:46:54,360 --> 00:46:51,160
summer yeah and I don't think it was a

906
00:46:56,970 --> 00:46:54,370
bear I think it was big no all right

907
00:46:58,980 --> 00:46:56,980
let's go ahead and we need to take our

908
00:47:01,710 --> 00:46:58,990
top of the hour break so and we come

909
00:47:04,710 --> 00:47:01,720
back we will continue our conversation

910
00:47:06,840 --> 00:47:04,720
about the San Luis Valley and Bigfoot

911
00:47:13,280 --> 00:47:06,850
kidnapped children and more interesting

912
00:47:20,130 --> 00:47:16,920
now your electrifying hosts of exploring

913
00:47:25,030 --> 00:47:20,140

the facade Timothy Beckley and team

914

00:47:29,540 --> 00:47:27,680

welcome back to exploring the bazaar our

915

00:47:33,530 --> 00:47:29,550

guests tonight are christopher o'brien

916

00:47:37,760 --> 00:47:33,540

and judy ms Lane so Judy you were saying

917

00:47:39,880 --> 00:47:37,770

that this year's Memorial Day weekend

918

00:47:42,710 --> 00:47:39,890

you've got something special coming up

919

00:47:45,170 --> 00:47:42,720

yeah we're having a birthday party for

920

00:47:48,470 --> 00:47:45,180

the UFO Watchtower we're going to be

921

00:47:51,530 --> 00:47:48,480

serving food have entertainment bouncy

922

00:47:55,100 --> 00:47:51,540

houses we're just going to go all out to

923

00:48:00,290 --> 00:47:55,110

make this a fun time and everybody is

924

00:48:02,390 --> 00:48:00,300

welcome to come so now what what age is

925

00:48:07,370 --> 00:48:02,400

the UFO Watchtower for our listeners who

926

00:48:10,610 --> 00:48:07,380

don't know 20 years 20 years 20th

927

00:48:12,920 --> 00:48:10,620

anniversary yeah well I hear Kris is

928

00:48:18,320 --> 00:48:12,930

gonna be bringing down Kris is gonna be

929

00:48:20,480 --> 00:48:18,330

bringing down his old band I hope no but

930

00:48:24,110 --> 00:48:20,490

I might be in the valley right during

931

00:48:28,450 --> 00:48:24,120

that time period Judy yeah I'm gonna

932

00:48:33,770 --> 00:48:28,460

come down and pay my internet bill and

933

00:48:35,960 --> 00:48:33,780

and my you know the static IP bill which

934

00:48:37,670 --> 00:48:35,970

we haven't forgotten about that we're

935

00:48:41,360 --> 00:48:37,680

gonna be taking care of that and then

936

00:48:43,400 --> 00:48:41,370

we're putting in a camera right down by

937

00:48:46,160 --> 00:48:43,410

the high school about six miles south of

938

00:48:48,890 --> 00:48:46,170

Judy which will be up about 60 feet on a

939

00:48:53,800 --> 00:48:48,900

cell tower and so we'll finally get our

940

00:48:55,880 --> 00:48:53,810

triangulated system up and running and I

941

00:48:59,570 --> 00:48:55,890

think they're gonna have some sort of

942

00:49:03,590 --> 00:48:59,580

festival to the the sov voices folks

943

00:49:05,510 --> 00:49:03,600

Adam log in his group are gonna have a

944

00:49:08,570 --> 00:49:05,520

festival and they want me to kind of be

945

00:49:10,130 --> 00:49:08,580

the emcee and give a presentation so

946

00:49:16,060 --> 00:49:10,140

it's going to be right around that time

947

00:49:23,330 --> 00:49:19,580

yeah well let's see if we can make

948

00:49:26,090 --> 00:49:23,340

everything dovetail together all right

949

00:49:28,340 --> 00:49:26,100

all right Chris well said since you

950

00:49:31,100 --> 00:49:28,350

brought it up why don't you why don't

951
00:49:34,250 --> 00:49:31,110
you tell our listeners I mean you know

952
00:49:36,920 --> 00:49:34,260
the the current state of affairs with

953
00:49:39,230 --> 00:49:36,930
your whole the camera and

954
00:49:40,489 --> 00:49:39,240
data processing system you know you said

955
00:49:42,950 --> 00:49:40,499
that you're going to be putting up

956
00:49:45,620 --> 00:49:42,960
another one to complete the

957
00:49:48,440 --> 00:49:45,630
triangulation so you know what do you

958
00:49:50,019 --> 00:49:48,450
have so far well we have two cameras up

959
00:49:53,630 --> 00:49:50,029
but only one is running

960
00:49:57,859 --> 00:49:53,640
unfortunately we we had a camera up in

961
00:49:59,779 --> 00:49:57,869
the the the ISP guy that owns part of

962
00:50:03,559 --> 00:49:59,789
the tower he he got cold feet

963
00:50:05,930 --> 00:50:03,569

he he he found out that the Chinese are

964

00:50:09,349 --> 00:50:05,940

really trying to trying to get into our

965

00:50:12,710 --> 00:50:09,359

systems and he said now I'm just I'm too

966

00:50:17,539 --> 00:50:12,720

too nervous about opening up my my trunk

967

00:50:21,529 --> 00:50:17,549

lines to my servers to hackers and we

968

00:50:23,630 --> 00:50:21,539

haven't had any problems but the cameras

969

00:50:25,880 --> 00:50:23,640

just hanging there on the cell tower so

970

00:50:28,339 --> 00:50:25,890

we're gonna go with another location for

971

00:50:32,960 --> 00:50:28,349

the second camera and we're also going

972

00:50:36,289 --> 00:50:32,970

to put in our or our multi sensor data

973

00:50:39,109 --> 00:50:36,299

acquisition unit which is a fancy way of

974

00:50:42,799 --> 00:50:39,119

saying that we have a box that has a

975

00:50:45,259 --> 00:50:42,809

Raspberry Pi based and Python open

976
00:50:47,470 --> 00:50:45,269
source computer language and what we've

977
00:50:48,670 --> 00:50:47,480
done is we put in a magnetometer a

978
00:50:53,390 --> 00:50:48,680
gravimeter

979
00:50:57,799 --> 00:50:53,400
and a complete ISS Space Station

980
00:51:01,849 --> 00:50:57,809
sort of atmospheric monitoring system

981
00:51:05,299 --> 00:51:01,859
with humidity temperature and barometric

982
00:51:08,680 --> 00:51:05,309
pressure and we're also going to be

983
00:51:12,140 --> 00:51:08,690
plugging in a couple of extra scientific

984
00:51:16,069 --> 00:51:12,150
monitoring instruments we can have as

985
00:51:18,440 --> 00:51:16,079
many as six so one of these MSD au units

986
00:51:24,019 --> 00:51:18,450
is going to be going in as well so that

987
00:51:27,739 --> 00:51:24,029
if we have a UFO event automatically the

988
00:51:30,920 --> 00:51:27,749

software and the camera will say whether

989

00:51:34,099 --> 00:51:30,930

it's a plane what type of plane whether

990

00:51:36,890 --> 00:51:34,109

it's an unknown object if it is we'll go

991

00:51:38,809 --> 00:51:36,900

ahead and record the event with two

992

00:51:40,690 --> 00:51:38,819

cameras the closest camera will be

993

00:51:43,640 --> 00:51:40,700

zooming in on it

994

00:51:46,460 --> 00:51:43,650

we have motion tracking so no matter

995

00:51:48,710 --> 00:51:46,470

where the object goes the cameras will

996

00:51:50,230 --> 00:51:48,720

be tracking it keeping it in the center

997

00:51:52,630 --> 00:51:50,240

of the frame

998

00:51:54,910 --> 00:51:52,640

and and then of course we're going to go

999

00:51:57,640 --> 00:51:54,920

into record mode with the with the

1000

00:52:01,900 --> 00:51:57,650

sensing equipment so at the end of the

1001

00:52:05,200 --> 00:52:01,910

event it shoots off an email to you know

1002

00:52:08,350 --> 00:52:05,210

to the admin guys me and and Ronald our

1003

00:52:09,910 --> 00:52:08,360

engineer and we're gonna probably happen

1004

00:52:12,550 --> 00:52:09,920

by that point we're gonna have some some

1005

00:52:14,980 --> 00:52:12,560

more help and then we're going to be

1006

00:52:18,160 --> 00:52:14,990

able to then crunch the numbers and and

1007

00:52:20,950 --> 00:52:18,170

and see what we have and you know

1008

00:52:22,930 --> 00:52:20,960

everything's all based off GPS there'll

1009

00:52:25,390 --> 00:52:22,940

be a map that will show the actual track

1010

00:52:31,290 --> 00:52:25,400

of the the object we'll be able to

1011

00:52:33,970 --> 00:52:31,300

determine size speed altitude luminance

1012

00:52:36,730 --> 00:52:33,980

whether it's making some sort of

1013

00:52:38,109 --> 00:52:36,740

impression into the Earth's magnetic

1014

00:52:41,290 --> 00:52:38,119

field and whether there's some sort of

1015

00:52:44,440 --> 00:52:41,300

gravity waves associated with the event

1016

00:52:48,040 --> 00:52:44,450

we've already sold a number of systems

1017

00:52:50,800 --> 00:52:48,050

we have one in Italy we have a system

1018

00:52:54,070 --> 00:52:50,810

going in next door to the skinwalker

1019

00:52:57,520 --> 00:52:54,080

ranch in Utah we have a system that's

1020

00:52:59,230 --> 00:52:57,530

down in southern LA right on the the

1021

00:53:03,099 --> 00:52:59,240

beach looking out towards Catalina

1022

00:53:05,380 --> 00:53:03,109

Island in San Pedro we have a system

1023

00:53:08,280 --> 00:53:05,390

going in up and near that tower you were

1024

00:53:12,220 --> 00:53:08,290

talking about Tim you know below yack

1025

00:53:15,070 --> 00:53:12,230

Walla Walla down towards the the Aqua

1026
00:53:18,190 --> 00:53:15,080
Indian Reservation and then we have

1027
00:53:19,810 --> 00:53:18,200
another system up in north still

1028
00:53:25,090 --> 00:53:19,820
activity going on around there do you

1029
00:53:27,130 --> 00:53:25,100
know yeah you win a basins like the

1030
00:53:29,260 --> 00:53:27,140
valley there's always stuff burbling

1031
00:53:30,790 --> 00:53:29,270
there's always something going on and

1032
00:53:34,180 --> 00:53:30,800
then when it gets hot and heavy then

1033
00:53:37,570 --> 00:53:34,190
it's really apparent but there's a hot

1034
00:53:39,430 --> 00:53:37,580
spot area will always have a small

1035
00:53:42,010 --> 00:53:39,440
amount of activity going at all times

1036
00:53:46,359 --> 00:53:42,020
and then waves of activity that come in

1037
00:53:49,359 --> 00:53:46,369
and it could be daily or nightly all

1038
00:53:51,310 --> 00:53:49,369

right okay first of all the Chinese why

1039

00:53:53,410 --> 00:53:51,320

would the Chinese be interested in I

1040

00:53:59,080 --> 00:53:53,420

don't know that's that's bizarre

1041

00:54:01,359 --> 00:53:59,090

yeah we had hundreds of what do you call

1042

00:54:04,240 --> 00:54:01,369

it when the fishing attacks or whatever

1043

00:54:06,790 --> 00:54:04,250

whether they're trying to trying to

1044

00:54:11,440 --> 00:54:06,800

find a doorway in I mean it's not only

1045

00:54:14,950 --> 00:54:11,450

the Chinese we they seem to be the the

1046

00:54:16,480 --> 00:54:14,960

most most of the hacker saw are coming

1047

00:54:21,550 --> 00:54:16,490

from China but then we have some from

1048

00:54:24,240 --> 00:54:21,560

Europe and some from the Ukraine yeah

1049

00:54:31,060 --> 00:54:24,250

yeah yeah what's his name

1050

00:54:38,560 --> 00:54:31,070

zero nos he knows Olinsky no I can never

1051
00:54:39,430 --> 00:54:38,570
pronounce Igor its Vladimir zorroski I

1052
00:54:44,320 --> 00:54:39,440
think or something

1053
00:54:50,110 --> 00:54:44,330
he's uh he's uh he's uh we have a little

1054
00:54:51,970 --> 00:54:50,120
note in there go bother Donald Trump so

1055
00:54:53,890 --> 00:54:51,980
anyway it's really exciting

1056
00:54:56,260 --> 00:54:53,900
you know the UFO dot project is the

1057
00:54:58,840 --> 00:54:56,270
first of its kind where you have

1058
00:55:00,910 --> 00:54:58,850
triangulated cameras working in

1059
00:55:04,060 --> 00:55:00,920
conjunction once we get up and rolling

1060
00:55:06,370 --> 00:55:04,070
and you know hasslein was in norway you

1061
00:55:08,650 --> 00:55:06,380
mentioned earlier yeah they've had a

1062
00:55:10,590 --> 00:55:08,660
camera and some scientific here there

1063
00:55:13,360 --> 00:55:10,600

but they haven't been triangulating

1064

00:55:15,460 --> 00:55:13,370

we're gonna be the first system that has

1065

00:55:18,850 --> 00:55:15,470

has actual motion tracking and

1066

00:55:21,580 --> 00:55:18,860

triangulation as well as the the sensing

1067

00:55:24,220 --> 00:55:21,590

equipment so it's it's really exciting

1068

00:55:26,590 --> 00:55:24,230

and you know we might be in on making an

1069

00:55:29,430 --> 00:55:26,600

announcement we're going to be working

1070

00:55:32,980 --> 00:55:29,440

in conjunction with a pretty well-known

1071

00:55:35,530 --> 00:55:32,990

long-established UFO study group and

1072

00:55:39,100 --> 00:55:35,540

scientific group we beat them to the

1073

00:55:40,630 --> 00:55:39,110

punch so they said well since--since you

1074

00:55:42,640 --> 00:55:40,640

you're the first ones there we're not

1075

00:55:44,740 --> 00:55:42,650

gonna you know we're not gonna reinvent

1076

00:55:47,490 --> 00:55:44,750

the wheel so how about if we give you

1077

00:55:49,570 --> 00:55:47,500

some money and help help you guys out so

1078

00:55:51,400 --> 00:55:49,580

that's how I'm gonna be paying for the

1079

00:55:53,800 --> 00:55:51,410

trip going down to the valley again here

1080

00:55:55,390 --> 00:55:53,810

this spring and and I'm also putting a

1081

00:55:57,580 --> 00:55:55,400

camera up on the other side of the

1082

00:55:59,740 --> 00:55:57,590

Sangre de Cristo's over in the where for

1083

00:56:02,290 --> 00:55:59,750

know valley which is right in the La

1084

00:56:05,530 --> 00:56:02,300

Veta military operations area like to

1085

00:56:09,970 --> 00:56:05,540

kind of get some some footage of some of

1086

00:56:13,780 --> 00:56:09,980

our I don't know some of our technology

1087

00:56:15,370 --> 00:56:13,790

flying around now you we published a

1088

00:56:18,160 --> 00:56:15,380

couple of photographs and they're on

1089

00:56:24,100 --> 00:56:18,170

your website

1090

00:56:27,160 --> 00:56:24,110

screens planet our straight fellated

1091

00:56:29,800 --> 00:56:27,170

ok.com of course there are some

1092

00:56:31,810 --> 00:56:29,810

photographs on there that were taken in

1093

00:56:34,330 --> 00:56:31,820

the valley there's one that kind of

1094

00:56:38,920 --> 00:56:34,340

looks like a wispy a cloud or something

1095

00:56:40,630 --> 00:56:38,930

that's moving across the the picture but

1096

00:56:41,950 --> 00:56:40,640

it's not very high up in the air it

1097

00:56:44,500 --> 00:56:41,960

doesn't appear to be and then of course

1098

00:56:47,080 --> 00:56:44,510

there's the morphing UFO

1099

00:56:49,270 --> 00:56:47,090

have you taken pictures of anything

1100

00:56:51,940 --> 00:56:49,280

since you've gotten your one working

1101
00:56:54,520 --> 00:56:51,950
camera installed yeah we have we've had

1102
00:56:57,370 --> 00:56:54,530
some interesting non nighttime stuff we

1103
00:57:00,610 --> 00:56:57,380
had a weird it looked like a swarm of

1104
00:57:03,160 --> 00:57:00,620
some sort of like maybe nanobots or

1105
00:57:05,110 --> 00:57:03,170
something that went by one night we have

1106
00:57:07,960 --> 00:57:05,120
no idea what it is we're still

1107
00:57:09,580 --> 00:57:07,970
scratching our heads it it almost looked

1108
00:57:12,940 --> 00:57:09,590
like some something that was not quite

1109
00:57:14,740 --> 00:57:12,950
manifest it looked like a shadow in the

1110
00:57:18,160 --> 00:57:14,750
air that flew across our camera that's

1111
00:57:21,040 --> 00:57:18,170
the weirdest thing that we've gotten we

1112
00:57:23,440 --> 00:57:21,050
haven't been up in operating as

1113
00:57:26,170 --> 00:57:23,450

effectively as we want because we've

1114

00:57:28,180 --> 00:57:26,180

been training the software to identify

1115

00:57:31,150 --> 00:57:28,190

it when it goes into record mode it'll

1116

00:57:33,700 --> 00:57:31,160

put a box in in a label on everything in

1117

00:57:36,790 --> 00:57:33,710

the frame in other words cars going by

1118

00:57:40,810 --> 00:57:36,800

will say cars bushes will say bushes

1119

00:57:44,050 --> 00:57:40,820

trees will say trees you know how birds

1120

00:57:47,560 --> 00:57:44,060

will say Birds airplanes depending on

1121

00:57:50,100 --> 00:57:47,570

the type of the pattern of the the FAA

1122

00:57:53,910 --> 00:57:50,110

lights there'll be a label on those so

1123

00:57:56,200 --> 00:57:53,920

with deep learning and and you know AI

1124

00:57:58,570 --> 00:57:56,210

techniques where we're training the

1125

00:58:03,490 --> 00:57:58,580

software to be more discriminating to

1126
00:58:05,110 --> 00:58:03,500
eliminate false positives and and so you

1127
00:58:07,360 --> 00:58:05,120
know we we have gotten a few things but

1128
00:58:08,620 --> 00:58:07,370
we really haven't been set up to to

1129
00:58:11,740 --> 00:58:08,630
really have the thing you know in

1130
00:58:14,770 --> 00:58:11,750
fine-tuned and and ready to rock

1131
00:58:16,180 --> 00:58:14,780
we've just let it go for a couple of

1132
00:58:18,550 --> 00:58:16,190
days and then we've gone back and

1133
00:58:20,740 --> 00:58:18,560
reviewed the footage until we get that

1134
00:58:23,680 --> 00:58:20,750
second camera up and we get the the

1135
00:58:26,260 --> 00:58:23,690
magnetometer and gravimeter and get the

1136
00:58:29,140 --> 00:58:26,270
the software we're almost done training

1137
00:58:30,790 --> 00:58:29,150
the software to be discriminating once

1138
00:58:31,599 --> 00:58:30,800

that happens then we'll be up and

1139

00:58:36,099 --> 00:58:31,609

running

1140

00:58:39,640 --> 00:58:36,109

and will supply people with the software

1141

00:58:43,479 --> 00:58:39,650

upgrade so that their software and their

1142

00:58:48,940 --> 00:58:43,489

in their systems will be you know up to

1143

00:58:51,029 --> 00:58:48,950

speed so isn't it amazing though Chris I

1144

00:58:55,739 --> 00:58:51,039

mean from the time that you first

1145

00:58:58,569 --> 00:58:55,749

conceived this this idea how how quickly

1146

00:59:00,849 --> 00:58:58,579

technology has made itself available

1147

00:59:02,319 --> 00:59:00,859

that you know a lot of these things that

1148

00:59:04,329 --> 00:59:02,329

you thought are you know originally

1149

00:59:06,309 --> 00:59:04,339

probably impossible yeah you know you

1150

00:59:09,269 --> 00:59:06,319

can now do I mean just just the

1151
00:59:11,979 --> 00:59:09,279
Raspberry Pi alone you know I mean how

1152
00:59:15,569 --> 00:59:11,989
it's amazing how much you can you know

1153
00:59:18,789 --> 00:59:15,579
get that to do our system started about

1154
00:59:21,309 --> 00:59:18,799
\$450 and go up to about 5,000 and the

1155
00:59:24,910 --> 00:59:21,319
\$5,000 system is state-of-the-art in

1156
00:59:27,089 --> 00:59:24,920
terms of you know having a 30 36 times

1157
00:59:29,829 --> 00:59:27,099
optical zoom and pan tilt zoom camera

1158
00:59:32,650 --> 00:59:29,839
with environmental enclosure that'll

1159
00:59:36,239 --> 00:59:32,660
protect it from 120 degrees down to 50

1160
00:59:40,390 --> 00:59:36,249
below really good optics and our cameras

1161
00:59:43,959 --> 00:59:40,400
our single-shot cameras that don't pan

1162
00:59:46,449 --> 00:59:43,969
tilt and zoom are 90 degree cameras and

1163
00:59:48,279 --> 00:59:46,459

they have a much better quality optics

1164

00:59:52,390 --> 00:59:48,289

in there so you can actually have a

1165

00:59:54,549 --> 00:59:52,400

couple of small cameras and the software

1166

00:59:58,449 --> 00:59:54,559

and you could you could be ready to go

1167

01:00:01,239 --> 00:59:58,459

for about for a little over \$400 so if I

1168

01:00:03,160 --> 01:00:01,249

had tried to do this system 20 years ago

1169

01:00:06,789 --> 01:00:03,170

it would have cost hundreds of thousands

1170

01:00:09,699 --> 01:00:06,799

of dollars I probably have not have deer

1171

01:00:13,239 --> 01:00:09,709

near the quality yeah exactly can get

1172

01:00:16,660 --> 01:00:13,249

now yeah yeah yeah we can go you know

1173

01:00:21,249 --> 01:00:16,670

yeah we can go for a K if we had the

1174

01:00:23,589 --> 01:00:21,259

bandwidth well and and that I can

1175

01:00:25,660 --> 01:00:23,599

imagine would problem is is a problem

1176

01:00:28,449 --> 01:00:25,670

considering some of the you know I mean

1177

01:00:32,949 --> 01:00:28,459

the remote locations you know in the

1178

01:00:35,380 --> 01:00:32,959

valley yeah we can go off cell towers

1179

01:00:38,650 --> 01:00:35,390

you know you can set up a hot spot with

1180

01:00:41,229 --> 01:00:38,660

a phone but you know the places that

1181

01:00:43,059 --> 01:00:41,239

we're looking at or places that have

1182

01:00:45,370 --> 01:00:43,069

high-speed internet because all these

1183

01:00:49,270 --> 01:00:45,380

cameras are talking to each other

1184

01:00:51,490 --> 01:00:49,280

and talking to the software package over

1185

01:00:55,090 --> 01:00:51,500

the internet so we're you know we can

1186

01:00:58,570 --> 01:00:55,100

control the cameras from Leon Van Nuys

1187

01:01:00,730 --> 01:00:58,580

where Ron is he can control cameras all

1188

01:01:02,770 --> 01:01:00,740

over the world and then we're going to

1189

01:01:05,680 --> 01:01:02,780

have a centralized data collection point

1190

01:01:07,720 --> 01:01:05,690

where everybody's systems if they want

1191

01:01:11,290 --> 01:01:07,730

to be involved in the you know the big

1192

01:01:14,650 --> 01:01:11,300

you forgot system then we supply

1193

01:01:17,980 --> 01:01:14,660

analytical services as well for you know

1194

01:01:20,470 --> 01:01:17,990

for unknowns we have a team of very

1195

01:01:23,050 --> 01:01:20,480

qualified individuals it'll be helping

1196

01:01:26,170 --> 01:01:23,060

ID what particular objects are and and

1197

01:01:29,140 --> 01:01:26,180

really you know trying to get that that

1198

01:01:31,570 --> 01:01:29,150

all-important you know repeat set of

1199

01:01:34,750 --> 01:01:31,580

data so that we can start to analyze it

1200

01:01:38,500 --> 01:01:34,760

scientifically amazing just absolutely

1201
01:01:43,510 --> 01:01:38,510
amazing the technology since Roswell

1202
01:01:46,200 --> 01:01:43,520
right yeah 20 20 year dream and I've

1203
01:01:49,300 --> 01:01:46,210
been I've been working actually working

1204
01:01:51,400 --> 01:01:49,310
diligently on this for 12 years well I

1205
01:01:54,940 --> 01:01:51,410
know you I know you have you been at the

1206
01:01:57,760 --> 01:01:54,950
forefront of the of the legitimate

1207
01:01:59,410 --> 01:01:57,770
research you know in the in the states

1208
01:02:01,120 --> 01:01:59,420
here and it's good to see that this is

1209
01:02:05,170 --> 01:02:01,130
finally getting underway you know yeah

1210
01:02:08,920 --> 01:02:05,180
and it is it is a hard core hand-picked

1211
01:02:12,040 --> 01:02:08,930
a group of individuals that are that are

1212
01:02:14,890 --> 01:02:12,050
doing this now and on a global scale you

1213
01:02:17,890 --> 01:02:14,900

know we talked about this for many many

1214

01:02:20,500 --> 01:02:17,900

years and now ignored Norway in

1215

01:02:22,870 --> 01:02:20,510

different places and all their the set

1216

01:02:24,970 --> 01:02:22,880

up is is going up and continuing and

1217

01:02:26,230 --> 01:02:24,980

maybe we'll get some answers I don't

1218

01:02:28,750 --> 01:02:26,240

know what kind of answers we're gonna

1219

01:02:31,060 --> 01:02:28,760

get at me what what do you expect to get

1220

01:02:34,540 --> 01:02:31,070

to what kind of answers do you expect

1221

01:02:38,560 --> 01:02:34,550

again I mean is it possible to tell like

1222

01:02:40,240 --> 01:02:38,570

the the the the material what what makes

1223

01:02:42,250 --> 01:02:40,250

up these crafts are these objects or

1224

01:02:43,720 --> 01:02:42,260

things that are that are going by I mean

1225

01:02:47,560 --> 01:02:43,730

is there any way of doing that to

1226

01:02:50,080 --> 01:02:47,570

determining the content of the of the

1227

01:02:53,470 --> 01:02:50,090

object composition really I think it's

1228

01:02:58,120 --> 01:02:53,480

more of a propulsion diagnostic we'll be

1229

01:02:59,880 --> 01:02:58,130

able to to establish sighs you know the

1230

01:03:02,890 --> 01:02:59,890

actual

1231

01:03:07,089 --> 01:03:02,900

aeronautical abilities of the craft will

1232

01:03:10,150 --> 01:03:07,099

be able to look at energy expenditure

1233

01:03:13,690 --> 01:03:10,160

how much energy they're actually using

1234

01:03:15,790 --> 01:03:13,700

will be able to see whether their

1235

01:03:18,819 --> 01:03:15,800

propulsion systems have an effect on the

1236

01:03:22,089 --> 01:03:18,829

Earth's gravity or the Earth's magnetic

1237

01:03:25,530 --> 01:03:22,099

field and we're also going to be doing I

1238

01:03:28,780 --> 01:03:25,540

want to do these acoustic wave

1239

01:03:31,569 --> 01:03:28,790

monitoring too with these big plate mics

1240

01:03:33,730 --> 01:03:31,579

so that we can record extremely low

1241

01:03:36,220 --> 01:03:33,740

frequency waves when these things do

1242

01:03:39,849 --> 01:03:36,230

right angle turns they they actually

1243

01:03:43,150 --> 01:03:39,859

create subsonic audio waves that you

1244

01:03:44,920 --> 01:03:43,160

know will go for you know maybe even

1245

01:03:48,819 --> 01:03:44,930

hundreds of miles we don't know but

1246

01:03:51,430 --> 01:03:48,829

they're so deep and and and low low

1247

01:03:55,030 --> 01:03:51,440

pitch that you know your ears can't hear

1248

01:03:58,030 --> 01:03:55,040

them but they're there we've had enough

1249

01:03:59,500 --> 01:03:58,040

indication of some you know project

1250

01:04:01,000 --> 01:03:59,510

starlight rays Stanford's group for

1251
01:04:02,380 --> 01:04:01,010
instance they were able to establish

1252
01:04:04,720 --> 01:04:02,390
that there was an extremely low

1253
01:04:08,020 --> 01:04:04,730
frequency waves going on and so if we

1254
01:04:12,370 --> 01:04:08,030
get a pzm mic and record those audio

1255
01:04:15,550 --> 01:04:12,380
signatures you know we'll be able to

1256
01:04:17,140 --> 01:04:15,560
you know optical physics and and some

1257
01:04:20,200 --> 01:04:17,150
other scientific disciplines will be

1258
01:04:21,730 --> 01:04:20,210
able to you know to really determine a

1259
01:04:26,589 --> 01:04:21,740
lot of things how they're able to fly

1260
01:04:29,609 --> 01:04:26,599
without creating sonic booms you know

1261
01:04:33,309 --> 01:04:29,619
size luminance energy expansion

1262
01:04:35,620 --> 01:04:33,319
expenditures you know there's gonna be a

1263
01:04:38,950 --> 01:04:35,630

bunch and if we can duplicate that in a

1264

01:04:40,930 --> 01:04:38,960

second third sighting event then we

1265

01:04:44,140 --> 01:04:40,940

replicated data and that's the holy

1266

01:04:46,960 --> 01:04:44,150

grail of Sciences you know being able to

1267

01:04:50,650 --> 01:04:46,970

look at not just one set of data but two

1268

01:04:53,559 --> 01:04:50,660

three four sets to you know compare and

1269

01:04:56,230 --> 01:04:53,569

and yeah you know just bounce one off

1270

01:04:58,839 --> 01:04:56,240

the other that's how you do good science

1271

01:05:00,579 --> 01:04:58,849

you know you create a hypothesis and

1272

01:05:03,339 --> 01:05:00,589

then you collect the data to support it

1273

01:05:05,859 --> 01:05:03,349

and one one one set of data is not going

1274

01:05:09,960 --> 01:05:05,869

to is going to be equivocal you have to

1275

01:05:21,030 --> 01:05:13,990

all right well Judy so okay from Chris's

1276

01:05:25,750 --> 01:05:21,040

a high tech to the human perspective can

1277

01:05:27,430 --> 01:05:25,760

people come to the UFO Watchtower at at

1278

01:05:31,359 --> 01:05:27,440

any time I mean are you open all year

1279

01:05:35,230 --> 01:05:31,369

round we stay open on weekends in the

1280

01:05:39,609 --> 01:05:35,240

winter and we're only open from 10:00 to

1281

01:05:42,220 --> 01:05:39,619

4:00 because it's so plastic cold but

1282

01:05:44,980 --> 01:05:42,230

anyway and then when we get into spring

1283

01:05:46,960 --> 01:05:44,990

and summer were open daily from 10:00 to

1284

01:05:49,390 --> 01:05:46,970

5:00 if they want to go up on the tower

1285

01:05:54,099 --> 01:05:49,400

at night they let us know and that's no

1286

01:05:57,760 --> 01:05:54,109

problem well I would think that despite

1287

01:06:00,790 --> 01:05:57,770

the cold a lot of times the cold air is

1288

01:06:03,339 --> 01:06:00,800

the clearest and you could probably have

1289

01:06:07,630 --> 01:06:03,349

some of your best sightings on a low

1290

01:06:10,660 --> 01:06:07,640

humidity to the semi-arid hazard yep and

1291

01:06:13,240 --> 01:06:10,670

it is I mean like right now I mean it's

1292

01:06:17,950 --> 01:06:13,250

just the stars are just bright bright

1293

01:06:20,410 --> 01:06:17,960

bright the sky is bright so um I had a

1294

01:06:24,210 --> 01:06:20,420

guy call earlier and he wanted to go up

1295

01:06:31,780 --> 01:06:24,220

on the tower tonight I don't care but I

1296

01:06:32,890 --> 01:06:31,790

worry about them freezing to death you

1297

01:06:40,210 --> 01:06:32,900

know you don't want to get up in the

1298

01:06:42,730 --> 01:06:40,220

morning and find a human sickle we've

1299

01:06:45,819 --> 01:06:42,740

had a lot of people that wanted to go up

1300

01:06:48,460 --> 01:06:45,829

this winter and and I said okay go ahead

1301

01:06:50,620 --> 01:06:48,470

but you better bundle up and you guys

1302

01:06:53,890 --> 01:06:50,630

they're only up there for 10 or 15

1303

01:06:55,750 --> 01:06:53,900

minutes and they're out of there so all

1304

01:06:57,630 --> 01:06:55,760

right well unfortunately we only have

1305

01:07:00,870 --> 01:06:57,640

about four minutes left in the show so

1306

01:07:04,690 --> 01:07:00,880

Judy why don't you let our audience know

1307

01:07:06,280 --> 01:07:04,700

where they can find you not only your

1308

01:07:08,710 --> 01:07:06,290

your physical location the where the

1309

01:07:12,240 --> 01:07:08,720

watch tower is but your online presence

1310

01:07:18,579 --> 01:07:12,250

as well okay yeah it's UFO Watchtower

1311

01:07:21,640 --> 01:07:18,589

dot-com and and then we have UFO

1312

01:07:22,990 --> 01:07:21,650

Watchtower at yahoo.com so if they want

1313

01:07:27,010 --> 01:07:23,000

to send an email that

1314

01:07:27,580 --> 01:07:27,020

fine too and and and where are you

1315

01:07:31,240 --> 01:07:27,590

located

1316

01:07:37,480 --> 01:07:31,250

nor is it north of Hooper we're yeah

1317

01:07:44,380 --> 01:07:37,490

we're 22 miles north of Alamosa two

1318

01:07:47,800 --> 01:07:44,390

miles north of poopers all right and

1319

01:07:52,270 --> 01:07:47,810

your book title again is that crazy lady

1320

01:07:59,560 --> 01:07:52,280

down the road well I I object to that

1321

01:08:01,450 --> 01:07:59,570

title I don't think she's that crazy it

1322

01:08:05,650 --> 01:08:01,460

makes a great title for a book though it

1323

01:08:10,000 --> 01:08:05,660

does indeed yeah and easy to remember

1324

01:08:13,540 --> 01:08:10,010

and Chris tell us about your music and

1325

01:08:16,030 --> 01:08:13,550

your books and your website and you know

1326

01:08:16,930 --> 01:08:16,040

it's our strange planet calm we live in

1327

01:08:21,370 --> 01:08:16,940

a strange planet

1328

01:08:25,660 --> 01:08:21,380

1329

01:08:29,470 --> 01:08:25,670

1330

01:08:33,790 --> 01:08:29,480

all being put together with on a

1334

01:08:46,480 --> 01:08:43,070

shoestring budget so if you want to be

1335

01:08:49,660 --> 01:08:46,490

part of the solution in this wacky field

1336

01:08:52,120 --> 01:08:49,670

this is a good way to to put some of

1337

01:08:56,350 --> 01:08:52,130

your funds at work to help us realize

1338

01:08:59,110 --> 01:08:56,360
