

EXPLORING THE BIZARRE

DIANE
TESSMAN

1
00:00:34,470 --> 00:00:21,830

[Music]

2
00:00:41,160 --> 00:00:37,829

what's that bizarre-looking a golf cart

3
00:00:43,770 --> 00:00:41,170

you're setting in are we gonna go and

4
00:00:45,810 --> 00:00:43,780

play some golf boy like they say you can

5
00:00:50,219 --> 00:00:45,820

lead a horse to water but you can't make

6
00:00:53,640 --> 00:00:50,229

them drink this isn't a golf cart unless

7
00:00:57,030 --> 00:00:53,650

you want to go into the future

8
00:01:01,740 --> 00:00:57,040

it's a bloody ass time machine can't you

9
00:01:04,020 --> 00:01:01,750

tell that okay so are you planning to go

10
00:01:06,510 --> 00:01:04,030

into the past or jump around in the

11
00:01:08,850 --> 00:01:06,520

future and let me think about that I'm

12
00:01:10,469 --> 00:01:08,860

not sure I figure I would coast it

13
00:01:13,499 --> 00:01:10,479

around for a time trying to get my

14

00:01:17,130 --> 00:01:13,509

bearings hope I don't run into t-rex

15

00:01:19,590 --> 00:01:17,140

or some creature out of the Black Lagoon

16

00:01:20,160 --> 00:01:19,600

I thought I would look for our guest

17

00:01:22,530 --> 00:01:20,170

tonight

18

00:01:25,349 --> 00:01:22,540

I'm sure Diane would be really impressed

19

00:01:30,840 --> 00:01:25,359

if I came cruising by in this air baby

20

00:01:34,340 --> 00:01:30,850

oh okay well I I wish you luck and I'm

21

00:01:37,770 --> 00:01:34,350

sure that Diane will be really impressed

22

00:01:39,959 --> 00:01:37,780

why don't you pick her up and bring

23

00:01:42,539 --> 00:01:39,969

everyone back to the case you're our

24

00:01:46,559 --> 00:01:42,549

studio so we can get tonight's show

25

00:01:55,020 --> 00:01:46,569

underway but gosh damn get to sting come

26

00:02:07,379 --> 00:01:55,030

on come on come on come on well did

27

00:02:12,600 --> 00:02:07,389

Diane make it back with us desert of

28

00:02:14,970 --> 00:02:12,610

time but no here we are a protect a

29

00:02:18,270 --> 00:02:14,980

protector we're right here in and and

30

00:02:20,660 --> 00:02:18,280

and and lost in Las Vegas with Tina and

31

00:02:24,330 --> 00:02:20,670

Tim how are you tonight out there in

32

00:02:26,730 --> 00:02:24,340

Jasper Indiana hole doing doing

33

00:02:30,990 --> 00:02:26,740

fantastic Tim like like Diane we're

34

00:02:32,130 --> 00:02:31,000

expecting cold weather tonight not quite

35

00:02:35,130 --> 00:02:32,140

as cold as

36

00:02:38,880 --> 00:02:35,140

says she's having out of her outs but

37

00:02:42,720 --> 00:02:38,890

yeah pretty cold pretty cold it is below

38

00:02:44,880 --> 00:02:42,730

zero out there ah that's I don't know I

39

00:02:50,490 --> 00:02:44,890

don't know how how the yeah well you

40

00:02:55,110 --> 00:02:50,500

have all the animals in the house little

41

00:02:57,600 --> 00:02:55,120

birds and but as many as I can

42

00:03:00,690 --> 00:02:57,610

well yet you do a good job of doing that

43

00:03:02,520 --> 00:03:00,700

Tim give our listeners who don't know

44

00:03:04,979 --> 00:03:02,530

Dianne and there must be five or six of

45

00:03:07,380 --> 00:03:04,989

them out of there out there who don't

46

00:03:09,810 --> 00:03:07,390

know who Dianne test fit is so give us a

47

00:03:13,470 --> 00:03:09,820

rundown sure it's my pleasure Tim well

48

00:03:16,290 --> 00:03:13,480

Dianne is a frequent quest on exploring

49

00:03:18,330 --> 00:03:16,300

the bizarre but in the late 1970s Dianne

50

00:03:21,540 --> 00:03:18,340

was a field investigator with the aerial

51
00:03:23,910 --> 00:03:21,550
phenomena research organization a pro

52
00:03:26,940 --> 00:03:23,920
you know it well Tim and the air Florida

53
00:03:28,500 --> 00:03:26,950
State section director for MUFON but her

54
00:03:30,810 --> 00:03:28,510
work on the UFO puzzle began when she

55
00:03:34,380 --> 00:03:30,820
was just four years old when she was

56
00:03:36,840 --> 00:03:34,390
abducted not once but twice by UFO beans

57
00:03:38,910 --> 00:03:36,850
now Diane taught English as a second

58
00:03:41,460 --> 00:03:38,920
language for 11 years on st. Thomas

59
00:03:44,100 --> 00:03:41,470
Virgin Islands beautiful place by the

60
00:03:47,069 --> 00:03:44,110
way and in Florida now while living in

61
00:03:49,380 --> 00:03:47,079
Ireland she studied kelp Shaymin

62
00:03:51,630 --> 00:03:49,390
shamanism and folklore and she also

63
00:03:53,940 --> 00:03:51,640

lived near giant rock in the Mojave

64

00:03:56,819 --> 00:03:53,950

Desert of California or George Van

65

00:03:59,670 --> 00:03:56,829

Tassel met the ETS with the crowds of

66

00:04:01,160 --> 00:03:59,680

cheering people looking on now Diane has

67

00:04:04,440 --> 00:04:01,170

worked with hundreds of abductees and

68

00:04:07,229 --> 00:04:04,450

experiencers for 38 years and publishes

69

00:04:09,720 --> 00:04:07,239

newsletters for them Diane is also a

70

00:04:13,110 --> 00:04:09,730

director of the star Network cat

71

00:04:15,900 --> 00:04:13,120

sanctuary and Wildlife Refuge in Iowa

72

00:04:18,569 --> 00:04:15,910

established 22 years ago to give a warm

73

00:04:20,069 --> 00:04:18,579

good home to stray cats the sanctuary is

74

00:04:22,140 --> 00:04:20,079

supported by people who enjoy her

75

00:04:24,450 --> 00:04:22,150

writing and donations to the star

76
00:04:27,230 --> 00:04:24,460
Network cat sanctuary are always welcome

77
00:04:31,860 --> 00:04:27,240
now Diane is the author of the new book

78
00:04:35,040 --> 00:04:31,870
future humans and the UFOs time for new

79
00:04:37,469 --> 00:04:35,050
thinking so Diane as always welcome to

80
00:04:41,040 --> 00:04:37,479
exploring the bizarre oh I'm happy to be

81
00:04:44,970 --> 00:04:41,050
here well you know Diane I was just

82
00:04:48,030 --> 00:04:44,980
thinking today first time welcome

83
00:04:51,960 --> 00:04:48,040
all right that we met it must have been

84
00:04:52,650 --> 00:04:51,970
around 1981 or so would you say that's

85
00:05:01,230 --> 00:04:52,660
correct

86
00:05:04,800 --> 00:05:01,240
mists of time I remember it as if it was

87
00:05:07,500 --> 00:05:04,810
yesterday and you were living down in

88
00:05:12,360 --> 00:05:07,510

Florida at the time and I guess I was on

89

00:05:17,160 --> 00:05:12,370

a tour and I had heard heard about your

90

00:05:19,530 --> 00:05:17,170

involvement in the UFO field and so I

91

00:05:22,170 --> 00:05:19,540

came and I visited you and you told me

92

00:05:23,970 --> 00:05:22,180

some very interesting story and

93

00:05:26,670 --> 00:05:23,980

experience that had happened to you

94

00:05:28,710 --> 00:05:26,680

which has just been written up in the

95

00:05:31,860 --> 00:05:28,720

tip Schwartz's big book of incredible

96

00:05:33,510 --> 00:05:31,870

alien encounters but when I met you in

97

00:05:36,990 --> 00:05:33,520

the early eighties

98

00:05:41,070 --> 00:05:37,000

ufology was pretty much all an all-male

99

00:05:43,860 --> 00:05:41,080

ball game I mean if I remember correctly

100

00:05:47,450 --> 00:05:43,870

outside of yeah outside of a coral

101

00:05:51,150 --> 00:05:47,460

Lorenzen I I can't think of any other

102

00:05:54,920 --> 00:05:51,160

ladies that were involved there may have

103

00:05:58,670 --> 00:05:54,930

been some you know contactees in all of

104

00:06:01,620 --> 00:05:58,680

course but as far as hardcore

105

00:06:05,400 --> 00:06:01,630

researchers there were they were few and

106

00:06:08,160 --> 00:06:05,410

far between maybe and ruffle I I would

107

00:06:11,460 --> 00:06:08,170

say let's give an a lot on the in the

108

00:06:15,210 --> 00:06:11,470

back there but very few and you kind of

109

00:06:18,240 --> 00:06:15,220

stood out and they in the the crowd

110

00:06:20,670 --> 00:06:18,250

because of your intelligence your charm

111

00:06:23,850 --> 00:06:20,680

and also you're quite Judy I must say

112

00:06:26,460 --> 00:06:23,860

but it be that is a yeah yeah and be

113

00:06:27,930 --> 00:06:26,470

that is that the is it may I was

114

00:06:29,460 --> 00:06:27,940

impressed by your credentials in the

115

00:06:33,660 --> 00:06:29,470

fact that you were involved with the a

116

00:06:35,640 --> 00:06:33,670

Pro and the mutual UFO network but

117

00:06:39,870 --> 00:06:35,650

before we get into some of these other

118

00:06:42,030 --> 00:06:39,880

things and I know you're one of the few

119

00:06:45,000 --> 00:06:42,040

researchers who actually now have

120

00:06:48,090 --> 00:06:45,010

adapted the time travel hypothesis for

121

00:06:50,700 --> 00:06:48,100

UFOs or at least some of them let's go

122

00:06:52,770 --> 00:06:50,710

back to the the beginning now and that's

123

00:06:54,810 --> 00:06:52,780

a real beginning because we have talked

124

00:06:57,690 --> 00:06:54,820

about your content early contacts with

125

00:06:58,860 --> 00:06:57,700

high bus but let's get into this the the

126
00:07:01,350 --> 00:06:58,870
hardcore

127
00:07:05,280 --> 00:07:01,360
incident that happened revolving around

128
00:07:09,960 --> 00:07:05,290
your apartment where you lived in a very

129
00:07:13,140 --> 00:07:09,970
bad disaster yeah and it was a little

130
00:07:14,850 --> 00:07:13,150
house actually there was my parents and

131
00:07:20,570 --> 00:07:14,860
my daughter when I was teaching school

132
00:07:23,790 --> 00:07:20,580
and I had my best UFO sighting ever

133
00:07:26,969 --> 00:07:23,800
during the year of 1979 I call it my

134
00:07:30,510 --> 00:07:26,979
year of awakening that was I guess just

135
00:07:37,530 --> 00:07:30,520
before I met you

136
00:07:46,290 --> 00:07:37,540
so the Skyway disaster hold on let me

137
00:07:50,250 --> 00:07:46,300
get started properly here for that the

138
00:07:55,020 --> 00:07:50,260

Skyway Bridge got rammed by a barge on

139

00:07:58,500 --> 00:07:55,030

May 9th 1989 was at what st. Petersburg

140

00:08:00,779 --> 00:07:58,510

was it or yeah it was overlooking the I

141

00:08:03,800 --> 00:08:00,789

want to get my hold on just a man I want

142

00:08:06,420 --> 00:08:03,810

to get my notes going so I can do this

143

00:08:08,879 --> 00:08:06,430

smoothly yeah

144

00:08:12,060 --> 00:08:08,889

well going back to the silver bridge

145

00:08:16,820 --> 00:08:12,070

that collapsed in West Virginia with

146

00:08:21,360 --> 00:08:16,830

where the Mothman Prophecies started I

147

00:08:25,050 --> 00:08:21,370

had a sighting of Mothman during the

148

00:08:27,650 --> 00:08:25,060

summer of 1979 but I'll get to that in

149

00:08:34,500 --> 00:08:27,660

just a minute

150

00:08:38,070 --> 00:08:34,510

my house was near Tampa Bay and the the

151
00:08:41,219 --> 00:08:38,080
best UFO sighting was down at the park

152
00:08:43,740 --> 00:08:41,229
overlooking Tampa Bay we were walking

153
00:08:46,650 --> 00:08:43,750
our my daughter and I were walking our

154
00:08:55,560 --> 00:08:46,660
dog Bailey down there and there were two

155
00:08:58,530 --> 00:08:55,570
huge white spheres over Tampa Bay and

156
00:09:00,840 --> 00:08:58,540
there was a small crowd in the part that

157
00:09:06,420 --> 00:09:00,850
we're watching them so we of course

158
00:09:09,470 --> 00:09:06,430
watch them too and they stayed both of

159
00:09:11,569 --> 00:09:09,480
them stayed about an hour so

160
00:09:14,480 --> 00:09:11,579
then I felt I was trying to communicate

161
00:09:17,509 --> 00:09:14,490
with one of them and I looked down just

162
00:09:20,420 --> 00:09:17,519
for a minute and when I looked up it was

163
00:09:24,920 --> 00:09:20,430

gone so that was kind of insulting but

164

00:09:27,379 --> 00:09:24,930

the other one stayed well I gave up at

165

00:09:29,960 --> 00:09:27,389

2:30 in the morning because I had to

166

00:09:36,699 --> 00:09:29,970

teach the next day and it was still

167

00:09:39,290 --> 00:09:36,709

there so it was if you held perhaps a

168

00:09:42,500 --> 00:09:39,300

bigger than now can you describe it in a

169

00:09:45,650 --> 00:09:42,510

little bit more detail it was almost

170

00:09:49,370 --> 00:09:45,660

like they were almost like two full

171

00:09:51,680 --> 00:09:49,380

moons they had a texture to them they

172

00:09:53,540 --> 00:09:51,690

were white they were spheres I used to

173

00:09:56,990 --> 00:09:53,550

call him orbs and people thought I was

174

00:10:00,139 --> 00:09:57,000

talking about you know colorful orbs or

175

00:10:04,670 --> 00:10:00,149

possibly pollen orbs that type of no

176
00:10:12,379 --> 00:10:04,680
they were they were solid sphere spheres

177
00:10:17,030 --> 00:10:12,389
yeah Globes globe you globular yes

178
00:10:22,400 --> 00:10:17,040
exactly yes and so then during the whole

179
00:10:26,269 --> 00:10:22,410
year of 1979 my house had a case of the

180
00:10:29,720 --> 00:10:26,279
beeps it started in a television set at

181
00:10:32,689 --> 00:10:29,730
five before the hour my daughter was I

182
00:10:35,090 --> 00:10:32,699
don't know about ten I guess and we

183
00:10:38,240 --> 00:10:35,100
noticed them together and and my parents

184
00:10:40,790 --> 00:10:38,250
didn't didn't pay you know we were she

185
00:10:43,519 --> 00:10:40,800
and I were just being crazy again but

186
00:10:46,730 --> 00:10:43,529
then they began to notice them the the

187
00:10:49,009 --> 00:10:46,740
beeps I wondered if it was a timekeeping

188
00:10:52,490 --> 00:10:49,019

mechanism or something from MacDill Air

189

00:10:56,329 --> 00:10:52,500

Force Base in Tampa because Tampa was

190

00:10:58,069 --> 00:10:56,339

you know across Tampa Bay there and we

191

00:10:59,889 --> 00:10:58,079

were a block from it our little house

192

00:11:04,540 --> 00:10:59,899

and st. Pete

193

00:11:09,650 --> 00:11:04,550

but then the beeps kind of went renegade

194

00:11:10,490 --> 00:11:09,660

and stuff didn't happen at the same time

195

00:11:13,430 --> 00:11:10,500

anymore

196

00:11:15,290 --> 00:11:13,440

and then before a day just beeped when

197

00:11:19,100 --> 00:11:15,300

they felt like it it would just be a

198

00:11:23,180 --> 00:11:19,110

beep and then it got to be in the lamp

199

00:11:25,550 --> 00:11:23,190

in the wall no way

200

00:11:29,840 --> 00:11:25,560

yeah and huh whoa beat there's no

201
00:11:30,290 --> 00:11:29,850
mechanism internal to beep it was really

202
00:11:33,050 --> 00:11:30,300
weird

203
00:11:36,019 --> 00:11:33,060
I took a cassette back in the day a

204
00:11:41,360 --> 00:11:36,029
cassette recorder bought a block from

205
00:11:43,929 --> 00:11:41,370
the house and we got a beat there but

206
00:11:47,929 --> 00:11:43,939
when my daughter and I played him back

207
00:11:49,189 --> 00:11:47,939
they would be faded it was hard to hear

208
00:11:51,679 --> 00:11:49,199
him on the tape

209
00:11:54,350 --> 00:11:51,689
or else not there which was kind of

210
00:11:55,990 --> 00:11:54,360
annoying and really no explanation for

211
00:11:59,360 --> 00:11:56,000
that

212
00:12:03,710 --> 00:11:59,370
so then I want to get my dates right

213
00:12:05,179 --> 00:12:03,720

here we were getting ready for school I

214

00:12:08,530 --> 00:12:05,189

was trying to get my daughter ready for

215

00:12:15,470 --> 00:12:08,540

school on May 9th

216

00:12:20,119 --> 00:12:15,480

1980 this was the day that 35 people

217

00:12:23,139 --> 00:12:20,129

would plunge to their deaths in into

218

00:12:26,740 --> 00:12:23,149

Tampa Bay when the barge hit the bridge

219

00:12:29,620 --> 00:12:26,750

the barge was called the summit venture

220

00:12:33,920 --> 00:12:29,630

so I was getting her ready for school

221

00:12:37,699 --> 00:12:33,930

when my smoke alarm started to beep well

222

00:12:39,350 --> 00:12:37,709

it hadn't had the beeps so anyway that

223

00:12:41,689 --> 00:12:39,360

was different and of course I raced

224

00:12:44,870 --> 00:12:41,699

around to check for fire and then I

225

00:12:47,809 --> 00:12:44,880

realized it was not the fire warning it

226

00:12:51,379 --> 00:12:47,819

also wasn't the battery low signal it

227

00:12:54,559 --> 00:12:51,389

sounded almost like Morse code and my

228

00:13:00,710 --> 00:12:54,569

dad was trying to remember what he knew

229

00:13:04,280 --> 00:13:00,720

a Morse code but at that point we had

230

00:13:06,740 --> 00:13:04,290

the TV on when a bulletin happened on

231

00:13:09,590 --> 00:13:06,750

the TV that said the barge had just ran

232

00:13:11,840 --> 00:13:09,600

the skyway bridge so thus more smoke

233

00:13:14,090 --> 00:13:11,850

alarm stopped of its own accord and it

234

00:13:19,160 --> 00:13:14,100

never did that particular weird thing

235

00:13:21,829 --> 00:13:19,170

again and all I could figure was this

236

00:13:25,369 --> 00:13:21,839

was maybe the desperate call for help of

237

00:13:27,860 --> 00:13:25,379

the energy bodies of the victims there

238

00:13:32,860 --> 00:13:27,870

would be a few seconds as they ply them

239

00:13:35,460 --> 00:13:32,870

as a very tall bridge as they still is

240

00:13:40,050 --> 00:13:35,470

it was one span of it because

241

00:13:42,240 --> 00:13:40,060

a left-hand Lane and a red Hamlin and so

242

00:13:47,130 --> 00:13:42,250

perhaps as they plunged off the bridge

243

00:13:50,610 --> 00:13:47,140

falling falling the smoke alarm beeped

244

00:13:54,210 --> 00:13:50,620

but then the beeps and the house in the

245

00:13:55,860 --> 00:13:54,220

days after that I I don't remember if

246

00:13:58,380 --> 00:13:55,870

they I don't think they stopped abruptly

247

00:14:02,940 --> 00:13:58,390

but they kind of stopped happening they

248

00:14:05,730 --> 00:14:02,950

dwindled away but then I remembered I

249

00:14:09,810 --> 00:14:05,740

had been out in the yard during the

250

00:14:14,610 --> 00:14:09,820

summer of 79 by myself I watching the

251

00:14:19,140 --> 00:14:14,620

Stars and a big opaque black thing

252

00:14:22,800 --> 00:14:19,150

wish'd overhead fairly low wings weren't

253

00:14:28,050 --> 00:14:22,810

flapping there was no motor sound it had

254

00:14:30,690 --> 00:14:28,060

an outline in blood red dark red around

255

00:14:37,710 --> 00:14:30,700

it almost like a cape would be lined

256

00:14:40,770 --> 00:14:37,720

with with red and big stars disappeared

257

00:14:45,410 --> 00:14:40,780

as it went over head and then reappeared

258

00:14:49,650 --> 00:14:45,420

again and I in this account by saying

259

00:14:54,870 --> 00:14:49,660

Mothman I presume because it really was

260

00:14:59,130 --> 00:14:54,880

and very strange sighting our that you

261

00:15:01,230 --> 00:14:59,140

know was it a bird a huge bird no it was

262

00:15:03,780 --> 00:15:01,240

I don't have a good explanation for it

263

00:15:06,920 --> 00:15:03,790

other than Mothman and that relates to

264

00:15:09,900 --> 00:15:06,930

the Silver Bridge falling so perhaps he

265

00:15:11,420 --> 00:15:09,910

he showed he or she shows up when

266

00:15:15,150 --> 00:15:11,430

bridges are in jeopardy

267

00:15:19,170 --> 00:15:15,160

well not one now okay the the book that

268

00:15:21,870 --> 00:15:19,180

you have just said published by a flying

269

00:15:24,780 --> 00:15:21,880

disc presque over in the UK by our

270

00:15:29,870 --> 00:15:24,790

friend to Philip mantel future humans

271

00:15:33,360 --> 00:15:29,880

and the UFOs time for new thinking now

272

00:15:36,060 --> 00:15:33,370

do you think that these harbingers of

273

00:15:40,440 --> 00:15:36,070

doom I mean could it be that they were

274

00:15:48,420 --> 00:15:40,450

sent back from the future to the present

275

00:15:56,850 --> 00:15:52,139

I do the first question well I think

276

00:16:01,139 --> 00:15:56,860

that okay if if we don't blow ourselves

277

00:16:03,750 --> 00:16:01,149

up or destroy the planet to where we

278

00:16:09,210 --> 00:16:03,760

can't live on it we will go into the

279

00:16:12,750 --> 00:16:09,220

future and what I see is a future okay

280

00:16:17,430 --> 00:16:12,760

we'll keep advancing in science and

281

00:16:19,500 --> 00:16:17,440

technology if we're honest we're not so

282

00:16:23,010 --> 00:16:19,510

good at spirituality we're in the

283

00:16:27,870 --> 00:16:23,020

deficit there but you know I don't claim

284

00:16:30,780 --> 00:16:27,880

that their gods or I don't want to

285

00:16:32,750 --> 00:16:30,790

replace extraterrestrial gods people who

286

00:16:35,970 --> 00:16:32,760

believe that along that line or

287

00:16:38,850 --> 00:16:35,980

transcended masters I'm not replacing

288

00:16:41,190 --> 00:16:38,860

them with future human gods I simply

289

00:16:44,250 --> 00:16:41,200

think that we did go on into the future

290

00:16:46,560 --> 00:16:44,260

we made leaps forward in computer

291

00:16:49,910 --> 00:16:46,570

science astronomy physics we are right

292

00:16:53,730 --> 00:16:49,920

now quantum physics biomedicine

293

00:16:56,220 --> 00:16:53,740

neuroscience genetic science and we are

294

00:16:59,190 --> 00:16:56,230

the forefathers and the for mothers who

295

00:17:02,100 --> 00:16:59,200

opened the windows on advanced knowledge

296

00:17:05,669 --> 00:17:02,110

and discovery which our children's

297

00:17:09,299 --> 00:17:05,679

children's children continued webs and

298

00:17:10,919 --> 00:17:09,309

sooner or later they came up with the

299

00:17:13,559 --> 00:17:10,929

key to time travel

300

00:17:19,169 --> 00:17:13,569

maybe when did they what did they do

301

00:17:23,299 --> 00:17:19,179

this well when I do not know it's it I

302

00:17:27,540 --> 00:17:23,309

think there would be different layers of

303

00:17:29,580 --> 00:17:27,550

units of future humans who come back

304

00:17:32,370 --> 00:17:29,590

here I don't think you know they could

305

00:17:35,549 --> 00:17:32,380

be from 50 years ahead they could be

306

00:17:37,890 --> 00:17:35,559

from 2 million years ahead and once you

307

00:17:41,390 --> 00:17:37,900

step out of time you're really from not

308

00:17:44,640 --> 00:17:41,400

from any time but I think they probably

309

00:17:49,260 --> 00:17:44,650

this may account for what people feel or

310

00:17:51,870 --> 00:17:49,270

different tribes of ETS I think they

311

00:17:55,260 --> 00:17:51,880

very physically if there are a hundred

312

00:17:58,710 --> 00:17:55,270

years ahead compared to the ones that

313

00:18:01,800 --> 00:17:58,720

are two million years ahead so I think

314

00:18:05,130 --> 00:18:01,810

they tend to stick together in

315

00:18:08,520 --> 00:18:05,140

general timeframe and they either come

316

00:18:11,010 --> 00:18:08,530

back as a military unit or a

317

00:18:14,250 --> 00:18:11,020

quasi-military almost like the

318

00:18:15,300 --> 00:18:14,260

Federation but maybe not as as benign

319

00:18:17,220 --> 00:18:15,310

and peaceful

320

00:18:20,400 --> 00:18:17,230

although the Federation wasn't always

321

00:18:23,880 --> 00:18:20,410

from Star Trek it it would defend itself

322

00:18:29,510 --> 00:18:23,890

but I'm not I'm saying they have our

323

00:18:32,220 --> 00:18:29,520

flaws because they're not entirely

324

00:18:35,820 --> 00:18:32,230

peaceful but it's one reason they've

325

00:18:39,290 --> 00:18:35,830

never attacked us it's their planet too

326

00:18:41,820 --> 00:18:39,300

and you wouldn't you know attack grandpa

327

00:18:45,930 --> 00:18:41,830

but there'd be no point in that

328

00:18:48,180 --> 00:18:45,940

but the one the one you know they say

329

00:18:51,110 --> 00:18:48,190

Occam's razor the least number of

330

00:18:54,380 --> 00:18:51,120

assumptions is probably the correct one

331

00:18:57,750 --> 00:18:54,390

when you think about it all we need is

332

00:19:01,500 --> 00:18:57,760

that time travel is possible and

333

00:19:04,680 --> 00:19:01,510

Einstein never said it isn't possible so

334

00:19:08,190 --> 00:19:04,690

if back when Kenneth Arnold saw the

335

00:19:12,300 --> 00:19:08,200

flying saucers we assumed they were ETS

336

00:19:14,790 --> 00:19:12,310

almost a knee-jerk reaction there's a

337

00:19:16,680 --> 00:19:14,800

human fascination regarding alien

338

00:19:19,170 --> 00:19:16,690

life-forms

339

00:19:22,050 --> 00:19:19,180

time travel is used to in science

340

00:19:25,410 --> 00:19:22,060

fiction but it doesn't pack the punch

341

00:19:29,880 --> 00:19:25,420

that aliens do and I think we assume too

342

00:19:33,540 --> 00:19:29,890

much right there and I've got in all the

343

00:19:38,400 --> 00:19:33,550

chapters I can relate or give evidence

344

00:19:44,190 --> 00:19:38,410

as to why I think most not all you know

345

00:19:46,350 --> 00:19:44,200

my first sentences that I do not deny

346

00:19:49,560 --> 00:19:46,360

that there are probably thousands of

347

00:19:52,350 --> 00:19:49,570

advanced ety races in the galaxy some

348

00:19:55,320 --> 00:19:52,360

may visit earth I'm not saying there has

349

00:19:57,470 --> 00:19:55,330

never been an et however I think we've

350

00:20:00,180 --> 00:19:57,480

ignored what is right before our eyes

351
00:20:04,350 --> 00:20:00,190
then it's our descendants who are the

352
00:20:08,460 --> 00:20:04,360
occupants most flying saucers and I

353
00:20:10,500 --> 00:20:08,470
think maybe the Tic Tac thing has kind

354
00:20:15,950 --> 00:20:10,510
of instigated a new interest in time

355
00:20:19,530 --> 00:20:15,960
travel because that seems likely there

356
00:20:21,210 --> 00:20:19,540
now in the and the books that you just

357
00:20:26,420 --> 00:20:21,220
put together that's only been on a

358
00:20:29,490 --> 00:20:26,430
couple of weeks now you did find other

359
00:20:31,890 --> 00:20:29,500
individuals and and in science and and

360
00:20:35,040 --> 00:20:31,900
literature and other walks of life who

361
00:20:38,910 --> 00:20:35,050
have done a simultaneous research on

362
00:20:39,690 --> 00:20:38,920
this and have come up with a similar at

363
00:20:42,150 --> 00:20:39,700

conclusions

364

00:20:44,130 --> 00:20:42,160

now as Yachvili is is one of the

365

00:20:46,350 --> 00:20:44,140

individuals i believe we had some of his

366

00:20:49,560 --> 00:20:46,360

material in the book can you tell us

367

00:20:51,120 --> 00:20:49,570

what good aldershot has to say and tell

368

00:20:55,920 --> 00:20:51,130

us about some of the other people who

369

00:20:59,030 --> 00:20:55,930

have contributed contributed stimulating

370

00:21:02,580 --> 00:20:59,040

ideas that back you up right well

371

00:21:05,790 --> 00:21:02,590

Jacques has actually was persecuted to

372

00:21:07,680 --> 00:21:05,800

some degree at one point because he kept

373

00:21:10,650 --> 00:21:07,690

saying I'm scrolling real fast here

374

00:21:15,240 --> 00:21:10,660

trying to find his exact quote he gave

375

00:21:19,620 --> 00:21:15,250

us permission to use a paper that he did

376

00:21:25,170 --> 00:21:19,630

and he has always felt it's something

377

00:21:27,840 --> 00:21:25,180

closer to Earth than ETS and ETS one

378

00:21:33,210 --> 00:21:27,850

thing he says is that why would they

379

00:21:36,360 --> 00:21:33,220

hang around since 1947 or possibly have

380

00:21:38,400 --> 00:21:36,370

been around first millennia wouldn't

381

00:21:43,140 --> 00:21:38,410

they travel on if they were galactic

382

00:21:45,450 --> 00:21:43,150

explorers are they so wonderful that

383

00:21:48,780 --> 00:21:45,460

they've been protecting earth all this

384

00:21:54,660 --> 00:21:48,790

time or trying to to save us well that

385

00:21:56,840 --> 00:21:54,670

depends on what you think of ETS but you

386

00:22:00,650 --> 00:21:56,850

know he went back and talked about

387

00:22:03,600 --> 00:22:00,660

fairies and leprechauns we've always had

388

00:22:07,410 --> 00:22:03,610

theirs I've got a chapter that's got

389

00:22:10,880 --> 00:22:07,420

history that the Romans saw UFOs and

390

00:22:14,340 --> 00:22:10,890

people in the 1800s

391

00:22:17,940 --> 00:22:14,350

saw something in the air and and the

392

00:22:22,230 --> 00:22:17,950

people they stopped the beings got out

393

00:22:24,570 --> 00:22:22,240

the humanoid humanoid apparently had to

394

00:22:28,470 --> 00:22:24,580

land and the people stoned him to death

395

00:22:29,260 --> 00:22:28,480

but there's so many instances they've

396

00:22:33,670 --> 00:22:29,270

been

397

00:22:39,160 --> 00:22:33,680

here throughout time on earth it's like

398

00:22:40,720 --> 00:22:39,170

they belong on earth I just came got two

399

00:22:43,020 --> 00:22:40,730

Jack fillets

400

00:22:50,170 --> 00:22:43,030

chapter and there was one thing his

401
00:22:52,090 --> 00:22:50,180
conclusion of on the paper he says that

402
00:22:57,550 --> 00:22:52,100
there would you know they might have

403
00:23:01,060 --> 00:22:57,560
five thousand flyovers or landings check

404
00:23:03,490 --> 00:23:01,070
it's a new planet if there are ETS now

405
00:23:05,020 --> 00:23:03,500
they might fly over five thousand times

406
00:23:08,110 --> 00:23:05,030
in a year

407
00:23:10,240 --> 00:23:08,120
check the ocean get to know the land get

408
00:23:13,810 --> 00:23:10,250
to know the people that are beings that

409
00:23:17,980 --> 00:23:13,820
lived on this planet and then he feels

410
00:23:22,720 --> 00:23:17,990
they would travel on where again it's

411
00:23:24,880 --> 00:23:22,730
something that stays close to Earth I'm

412
00:23:26,440 --> 00:23:24,890
coming close to his alright lemme let me

413
00:23:28,240 --> 00:23:26,450

interrupt you Diane because we have to

414

00:23:30,400 --> 00:23:28,250

go to our break right now when we come

415

00:23:39,620 --> 00:23:30,410

back more Diane testimon are exploring

416

00:23:46,320 --> 00:23:43,740

now back to exploring the bazaars with

417

00:23:49,320 --> 00:23:46,330

two of the most electrifying researchers

418

00:23:54,630 --> 00:23:49,330

in the Paranoid your hosts Timothy

419

00:23:56,280 --> 00:23:54,640

immaculate and Taylor Swift's welcome

420

00:24:00,150 --> 00:23:56,290

back to exploring the bizarre I'm Tim

421

00:24:03,720 --> 00:24:00,160

Schwartz Diane Tessman author of the new

422

00:24:07,080 --> 00:24:03,730

book future humans and the UFOs time for

423

00:24:10,680 --> 00:24:07,090

new thinking is our guest tonight Diane

424

00:24:13,050 --> 00:24:10,690

one of the things among thousands and I

425

00:24:16,970 --> 00:24:13,060

found fascinated about the UFO phenomena

426

00:24:20,130 --> 00:24:16,980

is that you know a lot of of

427

00:24:23,580 --> 00:24:20,140

experiencers who have had contacts with

428

00:24:28,830 --> 00:24:23,590

you know the beans that come out of UFOs

429

00:24:31,710 --> 00:24:28,840

is that these UFO occupants seemed to

430

00:24:35,000 --> 00:24:31,720

have an almost intimate knowledge about

431

00:24:37,680 --> 00:24:35,010

not only the history but the future of

432

00:24:41,400 --> 00:24:37,690

the people that they're meeting I mean

433

00:24:44,580 --> 00:24:41,410

I've heard a number of cases where these

434

00:24:47,400 --> 00:24:44,590

people have been given predictions by

435

00:24:49,170 --> 00:24:47,410

the UFO occupants on where they're going

436

00:24:50,790 --> 00:24:49,180

to end up living who they're going to

437

00:24:53,760 --> 00:24:50,800

marry how many kids are going to have

438

00:24:55,830 --> 00:24:53,770

things like that it would seem to me

439

00:24:58,560 --> 00:24:55,840

that you know if you're dealing

440

00:25:00,830 --> 00:24:58,570

exclusively with extraterrestrials from

441

00:25:03,690 --> 00:25:00,840

another planet you know how would the

442

00:25:07,410 --> 00:25:03,700

how would they have any idea of what's

443

00:25:10,470 --> 00:25:07,420

going on in the future so I mean you

444

00:25:13,680 --> 00:25:10,480

know I'll think that your point about

445

00:25:17,280 --> 00:25:13,690

that we could be dealing with with time

446

00:25:22,140 --> 00:25:17,290

travelers is I mean it makes a lot of

447

00:25:26,120 --> 00:25:22,150

sense to me well there's there's so many

448

00:25:29,930 --> 00:25:26,130

reasons physically you know back in the

449

00:25:33,240 --> 00:25:29,940

1950s and 60s there were the the small

450

00:25:38,520 --> 00:25:33,250

aliens that weren't quite as frightening

451
00:25:42,360 --> 00:25:38,530
not quite as gray as the greys seem to

452
00:25:46,680 --> 00:25:42,370
be now with the the large dark eyes they

453
00:25:49,860 --> 00:25:46,690
were I suppose midgets which is a

454
00:25:52,760 --> 00:25:49,870
politically incorrect word though but as

455
00:25:57,690 --> 00:25:52,770
I understand it dwarves probably have

456
00:26:00,330 --> 00:25:57,700
are badly proportion but midgets are

457
00:26:02,340 --> 00:26:00,340
just little people they're proportioned

458
00:26:06,270 --> 00:26:02,350
right at least that's what I had learned

459
00:26:09,620 --> 00:26:06,280
back before [h__\h] became not that

460
00:26:14,810 --> 00:26:09,630
politically correct and that's really

461
00:26:17,850 --> 00:26:14,820
I've got a list one after another of

462
00:26:21,060 --> 00:26:17,860
landings that people witnessed

463
00:26:26,580 --> 00:26:21,070

especially in the 50s and 60s were

464

00:26:29,460 --> 00:26:26,590

simply little people and I think we fail

465

00:26:32,280 --> 00:26:29,470

to realize how different life would be

466

00:26:37,320 --> 00:26:32,290

from another planet-- and how big that

467

00:26:38,880 --> 00:26:37,330

galaxy is out there for it to you know

468

00:26:42,480 --> 00:26:38,890

there's the theory that well there's

469

00:26:43,230 --> 00:26:42,490

this preserver race and they traveled

470

00:26:45,570 --> 00:26:43,240

around

471

00:26:48,270 --> 00:26:45,580

yeah those many years ago and they

472

00:26:50,700 --> 00:26:48,280

spread humanoids around on different

473

00:26:55,800 --> 00:26:50,710

planets well you know that takes a lot

474

00:26:58,920 --> 00:26:55,810

of assumptions Oh from where did they

475

00:27:03,960 --> 00:26:58,930

where were they from how did they become

476
00:27:07,320 --> 00:27:03,970
humanoid and they planted us well maybe

477
00:27:11,040 --> 00:27:07,330
but it's to me it's takes less

478
00:27:13,950 --> 00:27:11,050
assumption to simply say we're not

479
00:27:16,050 --> 00:27:13,960
stupid I mean we have a lot of people

480
00:27:18,870 --> 00:27:16,060
are really disgusted with us I've

481
00:27:22,710 --> 00:27:18,880
discovered as a species because we've

482
00:27:25,560 --> 00:27:22,720
gotten into such a dark a Dark Age a new

483
00:27:30,120 --> 00:27:25,570
Dark Age we're mean to each other

484
00:27:33,770 --> 00:27:30,130
our leadership isn't so great new old

485
00:27:37,800 --> 00:27:33,780
problems are coming back but we will

486
00:27:43,650 --> 00:27:37,810
advance at least scientifically and tech

487
00:27:48,350 --> 00:27:43,660
in technology and why do we think that

488
00:27:51,870 --> 00:27:48,360

we'll never find the key to time travel

489

00:27:57,180 --> 00:27:51,880

jax-ur fadi has has put forth the theory

490

00:28:00,220 --> 00:27:57,190

now involving meta materials which is a

491

00:28:02,100 --> 00:28:00,230

difficult thing it's an exotic

492

00:28:06,250 --> 00:28:02,110

it they have an exotic at

493

00:28:10,270 --> 00:28:06,260

electromagnetism and his this may not be

494

00:28:13,030 --> 00:28:10,280

the formula I'm not saying it is but

495

00:28:16,360 --> 00:28:13,040

he's a maverick he's always been a

496

00:28:19,960 --> 00:28:16,370

maverick physicist and you know it might

497

00:28:23,169 --> 00:28:19,970

take a nonconformist to just make that

498

00:28:26,049 --> 00:28:23,179

leap forward because quite often science

499

00:28:28,600 --> 00:28:26,059

is very dogmatic and just says well time

500

00:28:31,840 --> 00:28:28,610

travel okay it's not impossible but it's

501
00:28:37,510 --> 00:28:31,850
just so so difficult and of course it's

502
00:28:40,090 --> 00:28:37,520
not time travelers and we we've always

503
00:28:44,320 --> 00:28:40,100
you know we invented fire and then the

504
00:28:48,370 --> 00:28:44,330
airplane and we sell ourselves short I

505
00:28:50,620 --> 00:28:48,380
think and in doing so and this is that

506
00:28:53,740 --> 00:28:50,630
my conclusion in the final chapter

507
00:28:58,060 --> 00:28:53,750
we've law we we're not inspired anymore

508
00:29:01,900 --> 00:28:58,070
we don't we we don't reach outward to

509
00:29:04,480 --> 00:29:01,910
explore to discover and for instance if

510
00:29:06,810 --> 00:29:04,490
your grandmother came from her

511
00:29:10,659 --> 00:29:06,820
great-grandmother came from Ireland

512
00:29:14,110 --> 00:29:10,669
survived the fam the the big famine

513
00:29:17,860 --> 00:29:14,120

there landed in Ellis Island and and you

514

00:29:21,370 --> 00:29:17,870

find this out when you do a DNA study as

515

00:29:23,440 --> 00:29:21,380

so many people do that's in sport that

516

00:29:26,980 --> 00:29:23,450

gives you strength you think well I can

517

00:29:28,120 --> 00:29:26,990

be strong like her well what about our

518

00:29:33,460 --> 00:29:28,130

grandchildren and our

519

00:29:36,070 --> 00:29:33,470

grandchildren they'll look back and look

520

00:29:39,460 --> 00:29:36,080

for strengthen us there is a bridge

521

00:29:43,150 --> 00:29:39,470

there and what do we think that they're

522

00:29:45,460 --> 00:29:43,160

doing in the future do we not care I

523

00:29:46,690 --> 00:29:45,470

mean everybody loves your grandchildren

524

00:29:50,409 --> 00:29:46,700

but what about us

525

00:29:54,250 --> 00:29:50,419

as a human race a species are you our

526

00:29:57,220 --> 00:29:54,260

young ones that go on and on why is it

527

00:30:03,400 --> 00:29:57,230

that we just don't consider this and yet

528

00:30:07,110 --> 00:30:03,410

we're willing to you know to just accept

529

00:30:11,649 --> 00:30:07,120

well the ETS yes I believe in loom and

530

00:30:13,639 --> 00:30:11,659

again they may be visiting but I assume

531

00:30:18,389 --> 00:30:13,649

future humans perhaps

532

00:30:21,710 --> 00:30:18,399

patrol disguise of the future maybe they

533

00:30:25,049 --> 00:30:21,720

patrol our skies now maybe they're on on

534

00:30:32,000 --> 00:30:25,059

maneuvers you know quite often when we

535

00:30:35,310 --> 00:30:32,010

see a UFO and the thing is we've always

536

00:30:38,669 --> 00:30:35,320

it's always the eternal now I mean you

537

00:30:41,789 --> 00:30:38,679

can lay out under the stars and you know

538

00:30:42,750 --> 00:30:41,799

you think about things like this the

539

00:30:46,100 --> 00:30:42,760

caveman

540

00:30:51,180 --> 00:30:46,110

it's his eternal and he's in the now

541

00:30:53,880 --> 00:30:51,190

Queen Victoria's in the now where it's

542

00:30:58,680 --> 00:30:53,890

always now and so you see how time is

543

00:31:03,240 --> 00:30:58,690

simultaneous and of course ultimately it

544

00:31:05,060 --> 00:31:03,250

doesn't it's an illusion and why we

545

00:31:08,220 --> 00:31:05,070

think we maybe haven't found a way to

546

00:31:11,070 --> 00:31:08,230

you know some people say that forward

547

00:31:15,899 --> 00:31:11,080

and backward is actually sideways rather

548

00:31:18,120 --> 00:31:15,909

than forward and backward in time but be

549

00:31:20,100 --> 00:31:18,130

that as it may maybe there's a way with

550

00:31:24,139 --> 00:31:20,110

quantum computers that are coming online

551
00:31:27,930 --> 00:31:24,149
to drill down into the quantumness of

552
00:31:30,899 --> 00:31:27,940
each layer of time it may not even

553
00:31:34,110 --> 00:31:30,909
involve creating a wormhole which is a

554
00:31:36,630 --> 00:31:34,120
difficult thing or folding space but

555
00:31:40,110 --> 00:31:36,640
there's there's people including Sarfati

556
00:31:44,130 --> 00:31:40,120
that are working on on folding space a

557
00:31:48,720 --> 00:31:44,140
warping like Star Trek did but even at

558
00:31:54,480 --> 00:31:48,730
that even if you fold space it is such a

559
00:31:58,380 --> 00:31:54,490
huge huge vast distance that you know

560
00:32:02,779 --> 00:31:58,390
how many ETS would even finders out out

561
00:32:06,930 --> 00:32:02,789
there in the end why why would they warn

562
00:32:10,289 --> 00:32:06,940
the nuclear warheads like UFOs turned

563
00:32:13,529 --> 00:32:10,299

him off both at Malstrom Air Force space

564

00:32:16,200 --> 00:32:13,539

and it Minot Air Force Base where they

565

00:32:20,610 --> 00:32:16,210

were actually the missiles were at Minot

566

00:32:24,320 --> 00:32:20,620

and the co the controls were at Malstrom

567

00:32:25,900 --> 00:32:24,330

and both of them had UFOs fly over and

568

00:32:30,390 --> 00:32:25,910

turn

569

00:32:33,490 --> 00:32:30,400

the nuclear codes and and the warheads

570

00:32:34,680 --> 00:32:33,500

there's been UFOs over civilian nuclear

571

00:32:38,580 --> 00:32:34,690

sites

572

00:32:43,150 --> 00:32:38,590

and what about when the oceans rise

573

00:32:46,840 --> 00:32:43,160

torrential rains f4 tornadoes nuclear

574

00:32:48,520 --> 00:32:46,850

sites are always built on water what do

575

00:32:52,990 --> 00:32:48,530

we think is going to happen if the

576

00:32:58,780 --> 00:32:53,000

climate continues to become chaotic and

577

00:33:00,490 --> 00:32:58,790

and also nuclear waste storage you know

578

00:33:02,890 --> 00:33:00,500

we've had this big argument over Yuma

579

00:33:06,750 --> 00:33:02,900

mountain that they want to store nuclear

580

00:33:09,510 --> 00:33:06,760

waste in that stuff laughs lasts a

581

00:33:14,230 --> 00:33:09,520

half-life of a hundred thousand years

582

00:33:17,800 --> 00:33:14,240

give or take more hundred thousands of

583

00:33:23,140 --> 00:33:17,810

years and why are we leaving behind on

584

00:33:26,470 --> 00:33:23,150

our planet for for our progeny and so

585

00:33:29,560 --> 00:33:26,480

maybe they come well there's there's a

586

00:33:32,470 --> 00:33:29,570

number of reasons they might come the

587

00:33:35,980 --> 00:33:32,480

human genome may have been damaged

588

00:33:38,950 --> 00:33:35,990

through nuclear through radiation maybe

589

00:33:41,470 --> 00:33:38,960

a war that hasn't happened or maybe just

590

00:33:45,040 --> 00:33:41,480

what we've already done has contaminated

591

00:33:49,510 --> 00:33:45,050

the planet how bad is the planet going

592

00:33:52,690 --> 00:33:49,520

to get we really don't know Diane we

593

00:33:56,380 --> 00:33:52,700

have a question from a listener Ryan on

594

00:33:59,650 --> 00:33:56,390

skype and Ryan wants to know that do you

595

00:34:01,780 --> 00:33:59,660

think that the Mandela effect I hope

596

00:34:03,910 --> 00:34:01,790

you're familiar with that term could be

597

00:34:06,790 --> 00:34:03,920

could be the result of someone

598

00:34:11,350 --> 00:34:06,800

time-traveling and changing changing our

599

00:34:16,119 --> 00:34:11,360

timeline that's kind of Oh also could be

600

00:34:19,090 --> 00:34:16,129

connected well it's not that easy to to

601
00:34:22,740 --> 00:34:19,100
change a timeline I don't think yeah it

602
00:34:26,200 --> 00:34:22,750
could have something to do with some

603
00:34:30,430 --> 00:34:26,210
disturbance or something connected to

604
00:34:34,419 --> 00:34:30,440
future humans there's I know there's a

605
00:34:36,790 --> 00:34:34,429
Star Trek episode where jet pilot is is

606
00:34:38,760 --> 00:34:36,800
chasing the enterprise has been thrown

607
00:34:43,950 --> 00:34:38,770
back accident

608
00:34:46,500 --> 00:34:43,960
Lee into 1960s airspace earth and they

609
00:34:49,320 --> 00:34:46,510
have to take him aboard because their

610
00:34:51,870 --> 00:34:49,330
tractor beam broke up his jet it

611
00:34:55,380 --> 00:34:51,880
couldn't take the force so they got to

612
00:34:58,200 --> 00:34:55,390
save the pilot but there he is aboard

613
00:35:03,890 --> 00:34:58,210

now what are they gonna do with him he's

614

00:35:07,290 --> 00:35:03,900

from 1960 and they finally decide to

615

00:35:12,720 --> 00:35:07,300

slingshot around the Sun and gain enough

616

00:35:15,990 --> 00:35:12,730

speed to make time go backwards and they

617

00:35:18,990 --> 00:35:16,000

deposit him back in his jet right before

618

00:35:22,830 --> 00:35:19,000

it breaks up so four hits a loop in time

619

00:35:26,070 --> 00:35:22,840

and for him nothing happened he may have

620

00:35:29,250 --> 00:35:26,080

strange dreams but it never happened and

621

00:35:34,170 --> 00:35:29,260

so you know if there's manipulations of

622

00:35:37,670 --> 00:35:34,180

time like causal loops yeah I suppose

623

00:35:41,550 --> 00:35:37,680

there could be the Mandela fact could be

624

00:35:44,160 --> 00:35:41,560

alternate timelines we may throw that

625

00:35:47,250 --> 00:35:44,170

term around a little too easily but I

626
00:35:49,230 --> 00:35:47,260
think Jack Sarfati would say who would

627
00:35:53,070 --> 00:35:49,240
say we throw it around too much but yeah

628
00:35:55,500 --> 00:35:53,080
could be well that's some physicists

629
00:35:57,450 --> 00:35:55,510
have suggested that you know you could

630
00:35:59,700 --> 00:35:57,460
travel back into the past all you want

631
00:36:02,070 --> 00:35:59,710
and do anything that you want to you

632
00:36:04,550 --> 00:36:02,080
know kill kill your grandparents or

633
00:36:08,130 --> 00:36:04,560
whatever because all it will do is

634
00:36:10,560 --> 00:36:08,140
create different timelines that will

635
00:36:13,230 --> 00:36:10,570
shoot off and create different futures

636
00:36:16,590 --> 00:36:13,240
now you may never be able to get back to

637
00:36:19,170 --> 00:36:16,600
the to the original timeline that you

638
00:36:23,010 --> 00:36:19,180

started out from but that's the way that

639

00:36:27,690 --> 00:36:23,020

the universe solves the paradox yes but

640

00:36:30,030 --> 00:36:27,700

I surf ideas give me a little education

641

00:36:34,250 --> 00:36:30,040

in physics there's something called the

642

00:36:39,900 --> 00:36:34,260

Novikov loop a Novikov cell can

643

00:36:42,180 --> 00:36:39,910

self-consistency principle that says you

644

00:36:45,800 --> 00:36:42,190

really cannot kill your grandfather you

645

00:36:49,920 --> 00:36:45,810

really cannot change whatever you did

646

00:36:53,420 --> 00:36:49,930

you can't change the time the line that

647

00:36:59,700 --> 00:36:53,430

you're in because

648

00:37:03,480 --> 00:36:59,710

it'll always be part of your history the

649

00:37:07,320 --> 00:37:03,490

same you can't change the future you're

650

00:37:10,290 --> 00:37:07,330

locked in the Novikov time loop but I

651
00:37:13,320 --> 00:37:10,300
know there is the multi where worlds or

652
00:37:15,780 --> 00:37:13,330
many worlds theory that says well

653
00:37:19,310 --> 00:37:15,790
there's alternate we're always making

654
00:37:22,860 --> 00:37:19,320
alternate realities if we don't meet our

655
00:37:25,320 --> 00:37:22,870
future mate there goes one branch of a

656
00:37:27,930 --> 00:37:25,330
reality we do meet him or her there's a

657
00:37:30,180 --> 00:37:27,940
different branch and even on smaller

658
00:37:34,760 --> 00:37:30,190
things that it's constantly branching

659
00:37:39,600 --> 00:37:34,770
and I think that's string theory too but

660
00:37:41,340 --> 00:37:39,610
you still Novikov can still apply

661
00:37:43,260 --> 00:37:41,350
he was incidentally an old Russian

662
00:37:47,820 --> 00:37:43,270
physicist in the 1800s

663
00:37:49,740 --> 00:37:47,830

that came up with the fact that and this

664

00:37:52,920 --> 00:37:49,750

rule is accepted in physics that you

665

00:37:55,650 --> 00:37:52,930

really can't break out of the reality

666

00:37:59,430 --> 00:37:55,660

you live in if they're if an alternate

667

00:38:03,960 --> 00:37:59,440

is made an alternate you goes into that

668

00:38:08,850 --> 00:38:03,970

other alternate reality you you are

669

00:38:13,470 --> 00:38:08,860

still in your original so so I've got a

670

00:38:16,560 --> 00:38:13,480

whole chapter on crazy physics stuff I

671

00:38:19,710 --> 00:38:16,570

think probably the future humans have a

672

00:38:24,150 --> 00:38:19,720

rulebook that leaves our tax code as a

673

00:38:27,390 --> 00:38:24,160

tiny boy huge book on what you can do

674

00:38:31,650 --> 00:38:27,400

and what you shouldn't do and but you

675

00:38:34,080 --> 00:38:31,660

know there could just be as far as the

676

00:38:38,730 --> 00:38:34,090

military units or maybe college kids

677

00:38:41,430 --> 00:38:38,740

coming back to grandpa's day on a field

678

00:38:45,420 --> 00:38:41,440

study or something I don't think they

679

00:38:47,820 --> 00:38:45,430

have to all of them master the ins and

680

00:38:50,220 --> 00:38:47,830

outs of time travel there they're

681

00:38:52,890 --> 00:38:50,230

functioning as a unit

682

00:38:58,290 --> 00:38:52,900

it's also - also today and there are

683

00:39:02,550 --> 00:38:58,300

people who apparently drift back in time

684

00:39:05,250 --> 00:39:02,560

or maybe forward in time who have no

685

00:39:06,420 --> 00:39:05,260

control over it I mean you're giving us

686

00:39:10,319 --> 00:39:06,430

instances

687

00:39:15,510 --> 00:39:10,329

people who are entities or individuals

688

00:39:16,829 --> 00:39:15,520

who are determined to come back at the

689

00:39:18,450 --> 00:39:16,839

time I mean they seem to know what

690

00:39:18,870 --> 00:39:18,460

they're doing they're coming here for a

691

00:39:23,490 --> 00:39:18,880

reason

692

00:39:27,170 --> 00:39:23,500

believe that there's some people that

693

00:39:29,370 --> 00:39:27,180

are floating around accidentally as well

694

00:39:31,829 --> 00:39:29,380

accidentally step through a window or

695

00:39:34,589 --> 00:39:31,839

you know or a doorway through time or

696

00:39:38,130 --> 00:39:34,599

something like that like an a like a

697

00:39:41,549 --> 00:39:38,140

natural effect I don't know if there is

698

00:39:44,069 --> 00:39:41,559

a natural yeah maybe I know people claim

699

00:39:48,210 --> 00:39:44,079

to be time travelers but my book is

700

00:39:51,510 --> 00:39:48,220

really my answer it's a big thing in

701
00:39:54,390 --> 00:39:51,520
ufology as far as what I'm trying to put

702
00:39:56,220 --> 00:39:54,400
forth I'm not really interested in

703
00:40:00,540 --> 00:39:56,230
somebody that says there a time traveler

704
00:40:02,190 --> 00:40:00,550
I tend to be skeptical but I just I know

705
00:40:03,480 --> 00:40:02,200
we're running short on time but when you

706
00:40:08,790 --> 00:40:03,490
look at abductions

707
00:40:12,390 --> 00:40:08,800
it's a catch-and-release of your of you

708
00:40:15,059 --> 00:40:12,400
know they do it they whoever does it

709
00:40:17,099 --> 00:40:15,069
wants people to be frightened so that

710
00:40:22,710 --> 00:40:17,109
you don't ask too many questions or you

711
00:40:28,370 --> 00:40:22,720
don't take too many notes and they may

712
00:40:32,069 --> 00:40:28,380
need our DNA or enzymes or something

713
00:40:35,400 --> 00:40:32,079

there's no reason for ETS unless you

714

00:40:37,109 --> 00:40:35,410

really believe in hybrid babies and and

715

00:40:41,520 --> 00:40:37,119

all that kind of thing which I've never

716

00:40:45,020 --> 00:40:41,530

quite believed in but the future humans

717

00:40:48,809 --> 00:40:45,030

have a reason for taking tissue samples

718

00:40:51,680 --> 00:40:48,819

ETS don't their tissue would be we have

719

00:40:56,069 --> 00:40:51,690

more in common with an earthworm than

720

00:40:58,470 --> 00:40:56,079

the than the et DNA it would be so

721

00:41:01,230 --> 00:40:58,480

different a planet with a different Sun

722

00:41:05,220 --> 00:41:01,240

different light different chemistry

723

00:41:07,170 --> 00:41:05,230

different it would develop sentient

724

00:41:11,700 --> 00:41:07,180

intelligent life but it wouldn't

725

00:41:14,849 --> 00:41:11,710

couldn't use our DNA it with it if you

726

00:41:17,970 --> 00:41:14,859

look at it scientifically and I don't

727

00:41:20,220 --> 00:41:17,980

know if you follow gee does look at it

728

00:41:25,859 --> 00:41:20,230

scientifically these myths of

729

00:41:29,430 --> 00:41:25,869

hold up and I so to me it's it's an

730

00:41:33,750 --> 00:41:29,440

answer or a possible answer or a partial

731

00:41:36,000 --> 00:41:33,760

answer to the entire puzzle well no your

732

00:41:39,330 --> 00:41:36,010

own split your own space at your own

733

00:41:44,609 --> 00:41:39,340

space contact your own contact at Ibis

734

00:41:46,950 --> 00:41:44,619

does he ever approached this a subject

735

00:41:50,820 --> 00:41:46,960

to time travel or or what does he say

736

00:41:54,540 --> 00:41:50,830

about his orientation well he's always

737

00:41:56,990 --> 00:41:54,550

said he is a future human mom he says

738

00:41:59,280 --> 00:41:57,000

that they're advanced spiritually I

739

00:42:02,550 --> 00:41:59,290

don't claim that because I don't have

740

00:42:06,450 --> 00:42:02,560

improve they're not as advanced as it

741

00:42:12,000 --> 00:42:06,460

could be but they've moved forward which

742

00:42:15,960 --> 00:42:12,010

makes sense with evolution and for years

743

00:42:19,050 --> 00:42:15,970

he's given spiritual mass messages and

744

00:42:22,680 --> 00:42:19,060

I've told the star people as I call them

745

00:42:26,280 --> 00:42:22,690

my readers that Titus is a future human

746

00:42:29,280 --> 00:42:26,290

and so those who follow me are kind of

747

00:42:34,470 --> 00:42:29,290

used to this idea and he says he works

748

00:42:37,859 --> 00:42:34,480

with ETS and whatnot but again that is

749

00:42:41,310 --> 00:42:37,869

subjective and this is an objective book

750

00:42:47,250 --> 00:42:41,320

as close as as I possibly can make it so

751

00:42:50,220 --> 00:42:47,260

I didn't go into that in this book so if

752

00:42:53,300 --> 00:42:50,230

if we are dealing with time travelers

753

00:42:55,320 --> 00:42:53,310

from the future does this mean then that

754

00:42:56,700 --> 00:42:55,330

we'll never have this

755

00:42:58,500 --> 00:42:56,710

you know the landing on the White House

756

00:43:00,420 --> 00:42:58,510

lawn so to speak with them coming out

757

00:43:02,940 --> 00:43:00,430

and saying hey we're not aliens we're

758

00:43:04,890 --> 00:43:02,950

actually you know you're a great great

759

00:43:07,710 --> 00:43:04,900

great grandchildren from the future I

760

00:43:11,400 --> 00:43:07,720

mean if they do that that just may mess

761

00:43:15,480 --> 00:43:11,410

everything up I think that future humans

762

00:43:18,570 --> 00:43:15,490

would pose a huge challenge or threat to

763

00:43:22,410 --> 00:43:18,580

the powers that be because not everybody

764

00:43:24,780 --> 00:43:22,420

would follow ETS if but future humans

765

00:43:27,810 --> 00:43:24,790

they would have the cure for cancer and

766

00:43:30,240 --> 00:43:27,820

other diseases they probably could help

767

00:43:32,580 --> 00:43:30,250

set the planet you know you can send

768

00:43:34,150 --> 00:43:32,590

artificial intelligence into the Amazon

769

00:43:36,999 --> 00:43:34,160

or Australian fire

770

00:43:41,529 --> 00:43:37,009

and put him out a lot faster and not

771

00:43:44,529 --> 00:43:41,539

have any fireman killed they would there

772

00:43:47,529 --> 00:43:44,539

be a certain segment who would follow a

773

00:43:50,109 --> 00:43:47,539

different branch of humans and that's a

774

00:43:53,019 --> 00:43:50,119

real threat to the powers of be but I

775

00:43:58,079 --> 00:43:53,029

think there is a drip drip of disclosure

776

00:44:01,089 --> 00:43:58,089

like with the tic tacs and the Nimitz

777

00:44:04,569 --> 00:44:01,099

the tic tacs didn't make any effort to

778

00:44:08,160 --> 00:44:04,579

hide they were wanted to be seen

779

00:44:11,469 --> 00:44:08,170

apparently they were on radar they

780

00:44:13,960 --> 00:44:11,479

played around with the with the jet

781

00:44:17,410 --> 00:44:13,970

pilots kind of like a Top Gun who's ever

782

00:44:19,710 --> 00:44:17,420

got the most advanced Top Gun psychology

783

00:44:22,359 --> 00:44:19,720

who's ever got the most advanced

784

00:44:24,849 --> 00:44:22,369

technology wins and it was the tic tacs

785

00:44:27,579 --> 00:44:24,859

not the jet pilots but they were

786

00:44:31,479 --> 00:44:27,589

peaceful they didn't do anything to the

787

00:44:36,460 --> 00:44:31,489

Jets and that's all sounds rather human

788

00:44:40,180 --> 00:44:36,470

to me too competitive you know guys

789

00:44:43,839 --> 00:44:40,190

pilots there it could be an artificial

790

00:44:44,380 --> 00:44:43,849

intelligence system running the the Tic

791

00:44:47,019 --> 00:44:44,390

Tacs

792

00:44:51,910 --> 00:44:47,029

or there could have been beings in them

793

00:44:53,499 --> 00:44:51,920

as well all right Diane unfortunately we

794

00:44:55,450 --> 00:44:53,509

only have about three minutes left in

795

00:44:57,700 --> 00:44:55,460

the show so why don't you let our

796

00:45:01,390 --> 00:44:57,710

audience know where they can find your

797

00:45:04,989 --> 00:45:01,400

book your websites you know anything

798

00:45:08,650 --> 00:45:04,999

else that you'd like our audience to

799

00:45:13,479 --> 00:45:08,660

know about you well I I'll send a free

800

00:45:47,830 --> 00:45:13,489

newsletter online to anyone who contacts

801
00:45:57,490 --> 00:45:51,340
see I have a another website I've

802
00:46:00,040 --> 00:45:57,500
started called teen time-travel but I'm

803
00:46:02,680 --> 00:46:00,050
trying to design it so I apologize for

804
00:46:05,020 --> 00:46:02,690
the looks of it but I just wanted people

805
00:46:07,390 --> 00:46:05,030
to have a place to go that we're

806
00:46:09,940 --> 00:46:07,400
interested in this idea where they could

807
00:46:14,410 --> 00:46:09,950
learn a bit more about it and of course

808
00:46:16,810 --> 00:46:14,420
I'm all over Facebook so that that

809
00:46:21,160 --> 00:46:16,820
pretty much covers it all right well

810
00:46:23,740 --> 00:46:21,170
also to uh read Diane's entire story

811
00:46:26,590 --> 00:46:23,750
about her incident that took place at

812
00:46:29,680 --> 00:46:26,600
the near the Tampa Bridge disaster and

813
00:46:32,110 --> 00:46:29,690

that you can find in Tim Schwartz's big

814

00:46:35,710 --> 00:46:32,120

book of incredible alien encounters

815

00:46:39,010 --> 00:46:35,720

that's only been out for a month or so

816

00:46:41,260 --> 00:46:39,020

and it's a five hundred pages of some of

817

00:46:44,710 --> 00:46:41,270

the best documented cases that have ever

818

00:46:48,640 --> 00:46:44,720

transpired and of course our YouTube

819

00:46:52,630 --> 00:46:48,650

channel mister UFOs secret files now has

820

00:46:58,240 --> 00:46:52,640

over 400 interviews and of course the

821

00:47:01,180 --> 00:46:58,250

kco our radio.com archives is there and

822

00:47:04,030 --> 00:47:01,190

it's got some great shows besides our

823

00:47:06,250 --> 00:47:04,040

own and Diane thank you for being on

824

00:47:10,450 --> 00:47:06,260

with us this week it's always a pleasure

825

00:47:17,600 --> 00:47:10,460

to chat with you and Tim we'll see

826
00:47:23,090 --> 00:47:19,940
you've been listening to exploring the

827
00:47:26,600 --> 00:47:23,100
bazaar with hosts Timothy Beckley

828
00:47:28,880 --> 00:47:26,610
panting Swartz they're taking back the

829
00:47:31,430 --> 00:47:28,890
night by jetting non-stop across the

830
00:47:34,730 --> 00:47:31,440
cosmos in search of the truly bizarre

831
00:47:38,090 --> 00:47:34,740
and totally unexplained with you as

832
00:47:41,870 --> 00:47:38,100
their combined Thursday nights at 7:00

833
00:47:44,590 --> 00:47:41,880
p.m. Pacific 10:00 p.m. Eastern and the

834
00:47:47,020 --> 00:47:44,600
K cor digital radio

835
00:47:50,470 --> 00:47:47,030
for more information on exploring the

836
00:47:53,320 --> 00:47:50,480
bazaar and hosts Timothy Becky and Tim

837
00:47:56,410 --> 00:47:53,330
Swartz check out their kco our digital

838
00:48:02,650 --> 00:47:56,420

radio network follow their YouTube

839

00:48:13,040 --> 00:48:02,660

channel @m r UFO 1100 explore the
