

EXPLORING THE BIZARRE

1966 SAUCER NESTS IN OZ!

1
00:00:31,970 --> 00:00:21,830

[Music]

2
00:00:38,819 --> 00:00:35,579

now your electrifying hosts of exploring

3
00:00:40,850 --> 00:00:38,829

the bizarre Timothy Beckley and team

4
00:00:45,360 --> 00:00:40,860

sports

5
00:00:49,049 --> 00:00:45,370

ham ham much really making a racket with

6
00:00:52,280 --> 00:00:49,059

that lawnmower o'clock in the morning or

7
00:00:56,280 --> 00:00:52,290

guest of our friends here in Australia

8
00:00:59,039 --> 00:00:56,290

did they ask you to help them out but no

9
00:01:02,249 --> 00:00:59,049

no I'm trying to see if I can duplicate

10
00:01:04,679 --> 00:01:02,259

one of their softer net the saltiness

11
00:01:07,109 --> 00:01:04,689

board early version of the top their

12
00:01:11,219 --> 00:01:07,119

whole phenomena rather crude once I

13
00:01:13,950 --> 00:01:11,229

would say did did they get their point

14

00:01:16,980 --> 00:01:13,960

across and you really think that they

15

00:01:19,710 --> 00:01:16,990

were made by an alien intelligence I'm

16

00:01:22,050 --> 00:01:19,720

not an expert but our guest tonight from

17

00:01:25,190 --> 00:01:22,060

the other side of the world is it's

18

00:01:28,889 --> 00:01:25,200

something I hope we can get some answers

19

00:01:31,080 --> 00:01:28,899

I would hope so is you're really making

20

00:01:33,090 --> 00:01:31,090

quite a racket here you might you might

21

00:01:33,779 --> 00:01:33,100

wake the kangaroo either they don't want

22

00:01:36,840 --> 00:01:33,789

that to happen

23

00:01:39,300 --> 00:01:36,850

let's get back to K Co our radio studio

24

00:01:42,680 --> 00:01:39,310

well we could do our research and keep

25

00:01:49,190 --> 00:01:46,040

all right this is exploring the bazaar

26

00:01:53,140 --> 00:01:49,200

I'm Tim Schwartz I'm starting the show

27

00:01:57,020 --> 00:01:53,150

right now because Tim Beckley's having a

28

00:02:00,170 --> 00:01:57,030

little problem getting online but we

29

00:02:02,630 --> 00:02:00,180

should have him hopefully later on in

30

00:02:06,290 --> 00:02:02,640

the program but we'll just get right

31

00:02:10,130 --> 00:02:06,300

into it then and introduce our guest

32

00:02:14,270 --> 00:02:10,140

Cheryl gotshall now Cheryl is a return

33

00:02:17,420 --> 00:02:14,280

visitor to our show and just really

34

00:02:20,360 --> 00:02:17,430

absolutely happy to have us have her

35

00:02:23,120 --> 00:02:20,370

with us now Cheryl was born in Brisbane

36

00:02:25,790 --> 00:02:23,130

Australia but at an early lay age lived

37

00:02:28,280 --> 00:02:25,800

on a cattle station in country

38

00:02:30,560 --> 00:02:28,290

Queensland where as a child she often

39

00:02:33,800 --> 00:02:30,570

looked at the stars like a lot of us and

40

00:02:35,450 --> 00:02:33,810

wondered if there was other life out

41

00:02:37,400 --> 00:02:35,460

there in the universe now in her teenage

42

00:02:40,400 --> 00:02:37,410

years she developed an interest in the

43

00:02:43,130 --> 00:02:40,410

paranormal and in 1988 she became an

44

00:02:46,340 --> 00:02:43,140

active UFO investigator for the Brisbane

45

00:02:48,710 --> 00:02:46,350

based organization UFO research

46

00:02:53,000 --> 00:02:48,720

Queensland and has since held two terms

47

00:02:55,970 --> 00:02:53,010

as president for a total of 24 years so

48

00:02:58,040 --> 00:02:55,980

soon after joining the UFO arc you

49

00:03:01,160 --> 00:02:58,050

Cheryl had her own close encounter with

50

00:03:03,860 --> 00:03:01,170

the ax commonly described grey aliens

51
00:03:05,449 --> 00:03:03,870
appearing to her in her home and this

52
00:03:08,120 --> 00:03:05,459
was followed by the development of a

53
00:03:10,070 --> 00:03:08,130
s-serious ten year illness during which

54
00:03:13,640 --> 00:03:10,080
time she experienced a near-death

55
00:03:16,520 --> 00:03:13,650
experience on body experiences and other

56
00:03:18,740 --> 00:03:16,530
mystical paranormal and psychic

57
00:03:20,750 --> 00:03:18,750
phenomena her quest for what was

58
00:03:23,120 --> 00:03:20,760
happening to her litter on the path to

59
00:03:26,000 --> 00:03:23,130
shamanism and the understanding that

60
00:03:28,790 --> 00:03:26,010
these vents were an invitation but more

61
00:03:31,520 --> 00:03:28,800
importantly an initiation into other

62
00:03:34,130 --> 00:03:31,530
realms populated by a variety of beans

63
00:03:36,229 --> 00:03:34,140

her personal experiences catapulted her

64

00:03:39,050 --> 00:03:36,239

into the world of shamanism and she

65

00:03:41,720 --> 00:03:39,060

which you know uses and teaches shamanic

66

00:03:43,880 --> 00:03:41,730

practices now in 1992

67

00:03:45,620 --> 00:03:43,890

Cheryl also established the first close

68

00:03:48,920 --> 00:03:45,630

encounter support group in Brisbane

69

00:03:51,770 --> 00:03:48,930

after Budd Hopkins spoke for the first

70

00:03:53,630 --> 00:03:51,780

time at a conference there so now while

71

00:03:55,850 --> 00:03:53,640

working as the dedicated researcher of

72

00:03:56,450 --> 00:03:55,860

the UFO mystery for 31 years

73

00:03:58,790 --> 00:03:56,460

Cher

74

00:04:01,850 --> 00:03:58,800

organizes and speaks at monthly UFO

75

00:04:03,920 --> 00:04:01,860

meetings for UFO research Queensland and

76

00:04:07,160 --> 00:04:03,930

addition she is a member of the

77

00:04:10,820 --> 00:04:07,170

International Association for near-death

78

00:04:13,760 --> 00:04:10,830

studies and and hosts monthly meetings

79

00:04:15,860 --> 00:04:13,770

and explores the afterlife now Cheryl is

80

00:04:18,830 --> 00:04:15,870

a regular writer for the Australian

81

00:04:22,850 --> 00:04:18,840

bimonthly publication UFO encounter I

82

00:04:25,820 --> 00:04:22,860

think that it's probably the the last

83

00:04:28,460 --> 00:04:25,830

remaining english written UFO magazine

84

00:04:31,270 --> 00:04:28,470

out there and also the UFO truth

85

00:04:33,140 --> 00:04:31,280

magazine published in the UK the

86

00:04:36,350 --> 00:04:33,150

beautiful truth magazines that still

87

00:04:38,870 --> 00:04:36,360

being published oh yes it is yeah but

88

00:04:43,940 --> 00:04:38,880

I'm no longer writing purely because I

89

00:04:47,270 --> 00:04:43,950

just don't have the time basically I can

90

00:04:49,160 --> 00:04:47,280

understand that well so thank you for

91

00:04:51,460 --> 00:04:49,170

being with us it's it's always great to

92

00:04:53,810 --> 00:04:51,470

have you on exploring the bizarre oh

93

00:04:58,250 --> 00:04:53,820

thank you very much I appreciate being

94

00:05:00,590 --> 00:04:58,260

us back yeah no problem well and and I

95

00:05:04,100 --> 00:05:00,600

hope that that you're doing well I mean

96

00:05:06,350 --> 00:05:04,110

I know that the huge fires that they

97

00:05:10,330 --> 00:05:06,360

were having there in Australia were you

98

00:05:13,130 --> 00:05:10,340

know not close to you but you know

99

00:05:15,170 --> 00:05:13,140

people see that in the news and you know

100

00:05:19,010 --> 00:05:15,180

they're like oh my gosh it was you know

101
00:05:20,900 --> 00:05:19,020
is anywhere near you I know what you

102
00:05:24,350 --> 00:05:20,910
made Bentham there was still plenty of

103
00:05:26,330 --> 00:05:24,360
smoke to go around oh yeah I know that's

104
00:05:28,130 --> 00:05:26,340
like you know here in the Midwest

105
00:05:31,130 --> 00:05:28,140
you know we'd a lot of thunderstorms and

106
00:05:33,710 --> 00:05:31,140
and tornadoes and you know I'll have

107
00:05:35,840 --> 00:05:33,720
people who will you know see like oh my

108
00:05:38,180 --> 00:05:35,850
gosh there was I saw there was a tornado

109
00:05:44,150 --> 00:05:38,190
in New Mexico are you all right I live

110
00:05:44,830 --> 00:05:44,160
in Indiana yeah that's that's quite a

111
00:05:49,400 --> 00:05:44,840
ways away

112
00:05:53,510 --> 00:05:49,410
alright so hopefully Tim Beckley he's

113
00:05:56,060 --> 00:05:53,520

he's he's he's writing asking where

114

00:05:59,540 --> 00:05:56,070

everybody is I don't know if I think

115

00:06:02,810 --> 00:05:59,550

that Tina's trying to work it to get him

116

00:06:06,409 --> 00:06:02,820

online but let's let's start Cheryl now

117

00:06:09,350 --> 00:06:06,419

I know that Tim really wanted to talk

118

00:06:10,780 --> 00:06:09,360

about the the famous or possibly the

119

00:06:13,330 --> 00:06:10,790

infamous

120

00:06:17,160 --> 00:06:13,340

Tulley UFO nests that's something that

121

00:06:20,440 --> 00:06:17,170

has fascinated him for a long time so

122

00:06:24,159 --> 00:06:20,450

why don't you let our audience know just

123

00:06:26,740 --> 00:06:24,169

a little bit about what the tele UFO

124

00:06:30,370 --> 00:06:26,750

nests were sure sure

125

00:06:31,960 --> 00:06:30,380

well I guess them there are a whole lot

126
00:06:34,770 --> 00:06:31,970
of incidents that occurred around the

127
00:06:38,710 --> 00:06:34,780
time in 1966 but this was one that

128
00:06:41,740 --> 00:06:38,720
really grabs people's attention it

129
00:06:46,540 --> 00:06:41,750
occurred in Tully on the 19th of January

130
00:06:48,250 --> 00:06:46,550
in 1966 and it was at 9 a.m. and what

131
00:06:50,800 --> 00:06:48,260
happened entirely and let me just

132
00:06:52,420 --> 00:06:50,810
explain Tully is 1,500 kilometers north

133
00:06:54,970 --> 00:06:52,430
of where I am in Brisbane and that's

134
00:06:58,990 --> 00:06:54,980
about you know been 18 Drive 18 hour at

135
00:07:01,840 --> 00:06:59,000
drive on the roads up north so it's in

136
00:07:04,510 --> 00:07:01,850
it's in Far North Queensland and in a

137
00:07:07,719 --> 00:07:04,520
very tropical zone but the actual

138
00:07:10,780 --> 00:07:07,729

incident which by the way I have to say

139

00:07:13,120 --> 00:07:10,790

also I'd like to give some credit to a

140

00:07:15,610 --> 00:07:13,130

UFO researcher he's now passed on and

141

00:07:18,730 --> 00:07:15,620

her name was Claire Noble and Claire was

142

00:07:22,690 --> 00:07:18,740

also went on to help one of the

143

00:07:25,690 --> 00:07:22,700

witnesses collect more information and

144

00:07:28,240 --> 00:07:25,700

document further further source of myths

145

00:07:30,969 --> 00:07:28,250

that were found on his property but this

146

00:07:34,060 --> 00:07:30,979

this actually started with a gentleman

147

00:07:36,880 --> 00:07:34,070

called George Pedley and he was a banana

148

00:07:40,390 --> 00:07:36,890

farmer at a place called urema near the

149

00:07:42,340 --> 00:07:40,400

town of Tully and so at 9:00 a.m. on

150

00:07:44,710 --> 00:07:42,350

that day he was driving his tractor

151

00:07:47,320 --> 00:07:44,720

across the property of his neighbors

152

00:07:51,670 --> 00:07:47,330

cane farm and his neighbor his neighbor

153

00:07:54,250 --> 00:07:51,680

was called Albert penny see anyway the

154

00:07:56,890 --> 00:07:54,260

farm track ran alongside location known

155

00:07:59,100 --> 00:07:56,900

as Horseshoe Lagoon and it was called

156

00:08:01,900 --> 00:07:59,110

that due to the shape of the lagoon

157

00:08:04,150 --> 00:08:01,910

anyway the lagoon covered about a half

158

00:08:08,050 --> 00:08:04,160

an acre I think that's about 2,000

159

00:08:11,710 --> 00:08:08,060

square meters it was almost right three

160

00:08:14,200 --> 00:08:11,720

months of the year on a regular basis it

161

00:08:16,029 --> 00:08:14,210

had little or no bird life around it

162

00:08:18,159 --> 00:08:16,039

maybe an Ibis or two was seeing here or

163

00:08:21,760 --> 00:08:18,169

there but anyway in the December the

164

00:08:23,119 --> 00:08:21,770

months before they'd had good rain so by

165

00:08:25,369 --> 00:08:23,129

January when

166

00:08:30,379 --> 00:08:25,379

main incident occurred little goon was

167

00:08:33,680 --> 00:08:30,389

half-filled maybe 30 meters across at

168

00:08:35,149 --> 00:08:33,690

its widest point anyway the greater part

169

00:08:37,730 --> 00:08:35,159

of the lagoon was covered with a thick

170

00:08:40,939 --> 00:08:37,740

growth of water reeds whose stems were

171

00:08:42,620 --> 00:08:40,949

about half an inch and they protruded

172

00:08:44,710 --> 00:08:42,630

above the water to an average height of

173

00:08:49,120 --> 00:08:44,720

about two feet so you've got this big

174

00:08:51,829 --> 00:08:49,130

open area a watery lagoon and Reed's

175

00:08:54,290 --> 00:08:51,839

protruding out at the top of it and the

176

00:08:57,470 --> 00:08:54,300

entire lagoon with green and lush until

177

00:09:00,620 --> 00:08:57,480

the day of that incident so what

178

00:09:05,840 --> 00:09:00,630

happened was George was driving his

179

00:09:08,990 --> 00:09:05,850

tractor near as he approached the lagoon

180

00:09:12,410 --> 00:09:09,000

and he heard a noise so he leaned

181

00:09:13,939 --> 00:09:12,420

forward in his seat and listened and he

182

00:09:17,420 --> 00:09:13,949

thought that because he thought the

183

00:09:19,460 --> 00:09:17,430

motor was misfiring anyway and he almost

184

00:09:21,340 --> 00:09:19,470

immediately heard a hissing sound so

185

00:09:24,110 --> 00:09:21,350

he's got his head down listening to this

186

00:09:26,480 --> 00:09:24,120

so he initially thought I what I was

187

00:09:30,920 --> 00:09:26,490

punctured and it was leaking air but

188

00:09:34,360 --> 00:09:30,930

then to his astonishment he saw a large

189

00:09:36,980 --> 00:09:34,370

saucer shape rise from the lagoon and

190

00:09:38,960 --> 00:09:36,990

George was facing the object with his

191

00:09:41,179 --> 00:09:38,970

back to the Sun so he had a clear

192

00:09:43,189 --> 00:09:41,189

unimpeded view of it nothing was shown

193

00:09:44,569 --> 00:09:43,199

no Sun like so much on his eyes nothing

194

00:09:47,809 --> 00:09:44,579

was being misinterpreted he was getting

195

00:09:48,319 --> 00:09:47,819

a good close clear view of what he was

196

00:09:50,960 --> 00:09:48,329

seeing

197

00:09:54,590 --> 00:09:50,970

and this saucer shaped object moved

198

00:09:58,639 --> 00:09:54,600

directly upwards for approximately 60

199

00:10:02,059 --> 00:09:58,649

feet it tilted slightly and then it

200

00:10:05,059 --> 00:10:02,069

veered off in the southwest at a really

201
00:10:06,800 --> 00:10:05,069
great speed now the event the entire

202
00:10:08,600 --> 00:10:06,810
event only took about four to five

203
00:10:11,269 --> 00:10:08,610
seconds but if you count out five

204
00:10:13,100 --> 00:10:11,279
seconds and imagine this object rising

205
00:10:14,749 --> 00:10:13,110
up in front of you to about 60 feet

206
00:10:18,110 --> 00:10:14,759
talking slightly and then just taking

207
00:10:19,879 --> 00:10:18,120
off you can still imagine that you can

208
00:10:21,290 --> 00:10:19,889
get a you can really eyeball what you're

209
00:10:22,730 --> 00:10:21,300
seeing in front of you because when

210
00:10:25,819 --> 00:10:22,740
you're seeing something spectacular like

211
00:10:27,829 --> 00:10:25,829
that your your mind is taking a lot more

212
00:10:29,990 --> 00:10:27,839
information that it ordinarily would

213
00:10:34,790 --> 00:10:30,000

because this is something so vastly

214

00:10:36,780 --> 00:10:34,800

unusual you know anyway George estimated

215

00:10:40,230 --> 00:10:36,790

the distance of the object from him

216

00:10:43,110 --> 00:10:40,240

was only about 22 meters so he got a

217

00:10:47,100 --> 00:10:43,120

good look at it and he described it as

218

00:10:50,610 --> 00:10:47,110

about 25 feet in diameter diameter about

219

00:10:54,180 --> 00:10:50,620

nine feet thick in the center silvery

220

00:10:56,160 --> 00:10:54,190

gray and had a really sharp outline so

221

00:10:58,320 --> 00:10:56,170

he jumps from his tractor runs across

222

00:11:00,420 --> 00:10:58,330

the lagoon and pushing his way through

223

00:11:04,110 --> 00:11:00,430

six to seven foot tall sword grass on

224

00:11:06,390 --> 00:11:04,120

the lagoons edge and he immediately sees

225

00:11:10,500 --> 00:11:06,400

in the middle of the reeds a large

226

00:11:12,780 --> 00:11:10,510

circular area devoid of reeds and then

227

00:11:15,750 --> 00:11:12,790

he further saw near the edge of the

228

00:11:19,350 --> 00:11:15,760

still slowly swirling water a patch of

229

00:11:20,760 --> 00:11:19,360

giant water couch grass and people might

230

00:11:23,820 --> 00:11:20,770

not be aware of this it was about a

231

00:11:26,190 --> 00:11:23,830

square yard of which had apparently been

232

00:11:30,240 --> 00:11:26,200

clipped short and the clippings were

233

00:11:33,210 --> 00:11:30,250

removed anyway he returns to his tractor

234

00:11:36,330 --> 00:11:33,220

and he restarts the motor and he goes on

235

00:11:39,210 --> 00:11:36,340

his way then later that morning he came

236

00:11:41,580 --> 00:11:39,220

back past the lagoon and on further

237

00:11:44,340 --> 00:11:41,590

inspection he sees for the first time

238

00:11:48,210 --> 00:11:44,350

the floating mass of reeds now on the

239

00:11:50,370 --> 00:11:48,220

surface of the lagoon and the reeds were

240

00:11:53,910 --> 00:11:50,380

radially distributed in an Otis Lee

241

00:11:55,560 --> 00:11:53,920

anti-clockwise manner like like the crop

242

00:11:59,250 --> 00:11:55,570

circles that you were used to hearing

243

00:12:02,970 --> 00:11:59,260

about in the UK right and the reeds in

244

00:12:04,230 --> 00:12:02,980

the nest and as it had come to be call

245

00:12:06,270 --> 00:12:04,240

which what weight they got called here

246

00:12:08,760 --> 00:12:06,280

in Queensland anyway they were still

247

00:12:11,550 --> 00:12:08,770

green just like the other reeds in the

248

00:12:14,130 --> 00:12:11,560

lagoon and after the object had risen

249

00:12:16,410 --> 00:12:14,140

the reeds were still green but when

250

00:12:19,770 --> 00:12:16,420

George returned in the afternoon they

251
00:12:22,320 --> 00:12:19,780
appeared to be dry and browned off which

252
00:12:24,330 --> 00:12:22,330
is really interesting because it was

253
00:12:29,100 --> 00:12:24,340
only about like twelve hours later and

254
00:12:30,450 --> 00:12:29,110
they've completely died off anyway so by

255
00:12:32,270 --> 00:12:30,460
this time George thinks well I better

256
00:12:34,830 --> 00:12:32,280
tell someone else what's going on here

257
00:12:36,180 --> 00:12:34,840
so I mean I think I would have told him

258
00:12:38,010 --> 00:12:36,190
a bit earlier so you're getting away

259
00:12:42,090 --> 00:12:38,020
goes off to alert the property owner at

260
00:12:44,490 --> 00:12:42,100
Albert Panisse II so mid-afternoon they

261
00:12:46,950 --> 00:12:44,500
both returned to the lagoon which by the

262
00:12:47,970 --> 00:12:46,960
way was about one of the quarter miles

263
00:12:50,910 --> 00:12:47,980

from the penny

264

00:12:53,310 --> 00:12:50,920

see house anyway Albert decides to swim

265

00:12:55,220 --> 00:12:53,320

around Lagoon and he discovers that he

266

00:12:57,990 --> 00:12:55,230

could swim underneath the massive reeds

267

00:13:00,750 --> 00:12:58,000

since they are no longer attached to the

268

00:13:04,800 --> 00:13:00,760

bottom of the lagoon and he finds that

269

00:13:07,650 --> 00:13:04,810

the water is quite clear anyway the man

270

00:13:11,280 --> 00:13:07,660

of reeds is now floating on the water's

271

00:13:15,030 --> 00:13:11,290

surface and that matches about 18 inches

272

00:13:18,270 --> 00:13:15,040

thick now the other thing that some

273

00:13:20,340 --> 00:13:18,280

people may not be aware of is that when

274

00:13:22,890 --> 00:13:20,350

they inspected the surrounding area they

275

00:13:25,200 --> 00:13:22,900

found markings leading from the lagoon

276

00:13:27,600 --> 00:13:25,210

to the loose ploughed soil in the

277

00:13:29,400 --> 00:13:27,610

adjoining paddock and these were

278

00:13:32,880 --> 00:13:29,410

described as being about 3 to 4 inches

279

00:13:35,640 --> 00:13:32,890

long and approximately 2 inches across

280

00:13:39,030 --> 00:13:35,650

at the widest point and they were spaced

281

00:13:41,430 --> 00:13:39,040

about 12 inches apart and in a direct

282

00:13:44,780 --> 00:13:41,440

line as if one one's walking you know

283

00:13:49,170 --> 00:13:44,790

and one immediately behind the other

284

00:13:51,120 --> 00:13:49,180

so anyway samples of the reeds from both

285

00:13:52,800 --> 00:13:51,130

inside and outside of the nests were

286

00:13:54,840 --> 00:13:52,810

taken and they were sent to the

287

00:13:57,870 --> 00:13:54,850

University of Queensland in Brisbane to

288

00:14:01,230 --> 00:13:57,880

check for radiation they all proved

289

00:14:03,630 --> 00:14:01,240

negative except for one exception which

290

00:14:06,030 --> 00:14:03,640

was the sample taken from the center of

291

00:14:09,120 --> 00:14:06,040

the nest that showed a small increase in

292

00:14:11,370 --> 00:14:09,130

the beater range but it was so small it

293

00:14:13,590 --> 00:14:11,380

was only equivalent to one percent of

294

00:14:15,600 --> 00:14:13,600

the readin reading taken from a dial on

295

00:14:17,640 --> 00:14:15,610

a wristwatch sites you know that could

296

00:14:19,830 --> 00:14:17,650

be easily explained by a variation in

297

00:14:21,750 --> 00:14:19,840

the normal background radiation who

298

00:14:24,990 --> 00:14:21,760

knows really but they thought there was

299

00:14:26,880 --> 00:14:25,000

nothing there that was outstanding so

300

00:14:27,900 --> 00:14:26,890

anyway they had further tests and this

301
00:14:31,380 --> 00:14:27,910
is where it gets a bit interesting

302
00:14:33,810 --> 00:14:31,390
because they wanted to determine why the

303
00:14:37,200 --> 00:14:33,820
reads had rapidly browned off within a

304
00:14:39,690 --> 00:14:37,210
12 hour period and the results were that

305
00:14:42,540 --> 00:14:39,700
the reads died from natural processes

306
00:14:44,700 --> 00:14:42,550
probably hastened by submersion due to

307
00:14:48,660 --> 00:14:44,710
flooding but there'd be no flooding

308
00:14:50,460 --> 00:14:48,670
Listeria the so anyway whoever was doing

309
00:14:55,590 --> 00:14:50,470
the the samples they dumped him in the

310
00:14:57,540 --> 00:14:55,600
bin after that and but there was no

311
00:14:59,340 --> 00:14:57,550
explanation given as to why all the

312
00:15:01,440 --> 00:14:59,350
other regions are going remain green and

313
00:15:03,870 --> 00:15:01,450

healthy so

314

00:15:06,480 --> 00:15:03,880

the people invest from my organization

315

00:15:08,670 --> 00:15:06,490

UFO research Queensland which in those

316

00:15:12,900 --> 00:15:08,680

days was called the Queensland Flying

317

00:15:15,660 --> 00:15:12,910

Saucer Research Bureau they decided to

318

00:15:18,060 --> 00:15:15,670

do their own tests and they asked Albert

319

00:15:20,760 --> 00:15:18,070

to take water from alligator add a

320

00:15:22,770 --> 00:15:20,770

quantity of fresh green reeds complete

321

00:15:25,950 --> 00:15:22,780

with roots and completely submerge them

322

00:15:27,450 --> 00:15:25,960

in a large drum and then the drum was

323

00:15:29,670 --> 00:15:27,460

then left standing on the banks of the

324

00:15:33,360 --> 00:15:29,680

lagoon in full sunlight and they

325

00:15:36,150 --> 00:15:33,370

examined it daily it was three full days

326

00:15:38,640 --> 00:15:36,160

before the first signs of browning

327

00:15:40,560 --> 00:15:38,650

became evident and seven days passed

328

00:15:45,180 --> 00:15:40,570

before the decaying process became

329

00:15:49,140 --> 00:15:45,190

obvious so it seems that those reeds

330

00:15:52,950 --> 00:15:49,150

that had browned off so quickly had done

331

00:15:55,020 --> 00:15:52,960

so in response to something even though

332

00:15:56,970 --> 00:15:55,030

the the tests at the University of

333

00:15:59,640 --> 00:15:56,980

Queensland said you know they basically

334

00:16:02,370 --> 00:15:59,650

discarded discard it and said oh it's

335

00:16:04,680 --> 00:16:02,380

just just natural just just died because

336

00:16:06,780 --> 00:16:04,690

I was submersed in flooded water which

337

00:16:10,070 --> 00:16:06,790

there was you know which didn't happen

338

00:16:13,310 --> 00:16:10,080

to the rest of the reeds right so

339

00:16:18,840 --> 00:16:13,320

unfortunately for Albert like they were

340

00:16:21,900 --> 00:16:18,850

his um his farm was completely overrun

341

00:16:26,760 --> 00:16:21,910

by the public and other people wanting

342

00:16:31,380 --> 00:16:26,770

to come and investigate you you could

343

00:16:33,510 --> 00:16:31,390

tell from the newspaper cuttings all

344

00:16:37,380 --> 00:16:33,520

over now you know I miss the first few

345

00:16:39,450 --> 00:16:37,390

bits of the the show whether I remember

346

00:16:43,700 --> 00:16:39,460

when this case broke but were there any

347

00:16:48,020 --> 00:16:43,710

UFO sightings associated with this nest

348

00:16:52,590 --> 00:16:48,030

yes well that's where he where Albert

349

00:16:55,830 --> 00:16:52,600

actually saw a UFO rising from above

350

00:16:57,720 --> 00:16:55,840

where the nest was and and to check

351

00:17:00,630 --> 00:16:57,730

slightly and flying off at a fast speed

352

00:17:01,890 --> 00:17:00,640

but his wasn't the only case but I can

353

00:17:03,930 --> 00:17:01,900

tell you a bit more about that in a

354

00:17:07,620 --> 00:17:03,940

minute but yes the other interesting

355

00:17:09,600 --> 00:17:07,630

part of this was that after the meteor

356

00:17:13,080 --> 00:17:09,610

had published the first lot of botanical

357

00:17:15,170 --> 00:17:13,090

fightings findings the rwf claimed to

358

00:17:18,140 --> 00:17:15,180

have also done testing but and they

359

00:17:20,450 --> 00:17:18,150

found similar results with the addition

360

00:17:22,940 --> 00:17:20,460

that the nest could have been by caused

361

00:17:27,500 --> 00:17:22,950

by so-called whirly winds well you know

362

00:17:29,420 --> 00:17:27,510

it wasn't obviously so the the main

363

00:17:31,880 --> 00:17:29,430

incident happened on the Wednesday

364

00:17:33,590 --> 00:17:31,890

the following Monday the our double AF

365

00:17:36,920 --> 00:17:33,600

makes the statement that the nests was

366

00:17:40,070 --> 00:17:36,930

most possibly caused by a hovering our

367

00:17:42,470 --> 00:17:40,080

double AF helicopter but then the

368

00:17:44,900 --> 00:17:42,480

following day the IAF states there are

369

00:17:46,730 --> 00:17:44,910

no Force Air Force helicopters in the

370

00:17:47,510 --> 00:17:46,740

area so they weren't getting their

371

00:17:52,010 --> 00:17:47,520

stories straight

372

00:17:54,230 --> 00:17:52,020

basically usual cover-up your usual

373

00:17:55,760 --> 00:17:54,240

cover-up but there's much water more

374

00:17:59,120 --> 00:17:55,770

cover-up that went on with this case

375

00:18:01,520 --> 00:17:59,130

because because of the increase in

376

00:18:05,990 --> 00:18:01,530

activity increase and at the time the

377

00:18:08,330 --> 00:18:06,000

UFO research Queensland decided to place

378

00:18:10,550 --> 00:18:08,340

to magnetic monitoring devices fitted

379

00:18:12,650 --> 00:18:10,560

with cameras in two locations in

380

00:18:17,720 --> 00:18:12,660

Queensland and one of them was at Tully

381

00:18:19,610 --> 00:18:17,730

near the lagoon so the apparently what

382

00:18:21,650 --> 00:18:19,620

happened was if that device was

383

00:18:24,380 --> 00:18:21,660

triggered it registered that it had

384

00:18:27,770 --> 00:18:24,390

recorded something it was posted to

385

00:18:29,540 --> 00:18:27,780

Kodak in Melbourne that film 14 days

386

00:18:32,120 --> 00:18:29,550

later the sender received a letter from

387

00:18:36,950 --> 00:18:32,130

Kodak stating that the film case had

388

00:18:41,150 --> 00:18:36,960

arrived but it was empty you know that

389

00:18:43,850 --> 00:18:41,160

before and the other cases many other

390

00:18:46,400 --> 00:18:43,860

cases like that of missing films and

391

00:18:49,910 --> 00:18:46,410

photos and I've just got a couple here

392

00:18:52,550 --> 00:18:49,920

that I've gathered in nineteen nineteen

393

00:18:55,280 --> 00:18:52,560

fifty-three nine photos were taken at

394

00:18:58,730 --> 00:18:55,290

Port Moresby of the UFOs in Papua New

395

00:19:00,440 --> 00:18:58,740

Guinea of a UFO the photographer was mr.

396

00:19:03,560 --> 00:19:00,450

Drury and some people might know this as

397

00:19:04,700 --> 00:19:03,570

the Drury film it was a very senior

398

00:19:07,490 --> 00:19:04,710

official of the Civil Aviation

399

00:19:09,260 --> 00:19:07,500

Department and the five best shots that

400

00:19:14,180 --> 00:19:09,270

he took were lost by the authorities

401
00:19:17,030 --> 00:19:14,190
lost in inverted commas in then in 1954

402
00:19:19,340 --> 00:19:17,040
two hundred photos were taken with both

403
00:19:21,860 --> 00:19:19,350
film and still cameras by three young

404
00:19:23,270 --> 00:19:21,870
men who were driving near the West and

405
00:19:25,940 --> 00:19:23,280
South Australian border and were pasted

406
00:19:28,820 --> 00:19:25,950
for 45 minutes by a UFO they used all

407
00:19:31,460 --> 00:19:28,830
the film they had with five cameras the

408
00:19:34,430 --> 00:19:31,470
film was borrowed by the borrowed again

409
00:19:36,370 --> 00:19:34,440
in inverted commas by the IAF and of

410
00:19:39,860 --> 00:19:36,380
course they were never returned and

411
00:19:42,440 --> 00:19:39,870
there's two two other cases one in 1961

412
00:19:44,889 --> 00:19:42,450
a UFO was observed in brilliant sunshine

413
00:19:47,269 --> 00:19:44,899

by scores of North Queenslanders and

414

00:19:51,909 --> 00:19:47,279

photographed by a journalist from the

415

00:19:55,460 --> 00:19:51,919

Cannes Post newspaper so he said a far

416

00:19:58,279 --> 00:19:55,470

five three five by three negative was

417

00:20:00,350 --> 00:19:58,289

sent to Kodak of Melbourne by a senior

418

00:20:02,149 --> 00:20:00,360

astronomer who he sent it to from the

419

00:20:04,639 --> 00:20:02,159

Mount Stromlo Observatory in Canberra

420

00:20:07,850 --> 00:20:04,649

and not surprisingly they denied every

421

00:20:11,899 --> 00:20:07,860

receiving it - of course yeah and then

422

00:20:13,789 --> 00:20:11,909

in the last case it was in 1965 several

423

00:20:16,070 --> 00:20:13,799

photographs were taken by a pilot from

424

00:20:18,950 --> 00:20:16,080

the onset airline over Bougainville reef

425

00:20:21,409 --> 00:20:18,960

in the solomon sea enroute to Port

426

00:20:24,110 --> 00:20:21,419

Moresby from Townsville which is in

427

00:20:26,899 --> 00:20:24,120

North in Queensland his aircraft was

428

00:20:29,960 --> 00:20:26,909

being pasted by UFO on returning to

429

00:20:32,570 --> 00:20:29,970

Townsville the pilot was met on arrival

430

00:20:36,470 --> 00:20:32,580

and flown directly to Canberra with his

431

00:20:38,539 --> 00:20:36,480

camera and the aircraft's black box the

432

00:20:40,519 --> 00:20:38,549

radio man at the Townsville Airport was

433

00:20:42,860 --> 00:20:40,529

transferred to Darwin the following week

434

00:20:44,360 --> 00:20:42,870

but I can't find any documentation

435

00:20:47,090 --> 00:20:44,370

standing what happened to the pilot

436

00:20:50,120 --> 00:20:47,100

after that but anyway these are some

437

00:20:52,190 --> 00:20:50,130

case some examples of not only the Tully

438

00:20:53,840 --> 00:20:52,200

film but also other you know it was

439

00:20:57,889 --> 00:20:53,850

common practice in those days for

440

00:21:01,909 --> 00:20:57,899

photographs and films to be I guess you

441

00:21:04,669 --> 00:21:01,919

know taken and and not returned so that

442

00:21:06,159 --> 00:21:04,679

the IWF could could analyze you know to

443

00:21:09,620 --> 00:21:06,169

see what was going on for themselves

444

00:21:12,789 --> 00:21:09,630

well we had a famous case here a Rex

445

00:21:15,950 --> 00:21:12,799

Heflin who was a I think a county worker

446

00:21:18,110 --> 00:21:15,960

doing some survey work or doing some

447

00:21:21,590 --> 00:21:18,120

road work and he took a series of

448

00:21:23,930 --> 00:21:21,600

photographs in California and Tim Denton

449

00:21:26,450 --> 00:21:23,940

photographs disappear for about a decade

450

00:21:29,950 --> 00:21:26,460

or more and they finally ended up in and

451
00:21:33,919 --> 00:21:29,960
ruffles I think a mailbox 15 years later

452
00:21:35,090 --> 00:21:33,929
right yeah at least at least 20 years

453
00:21:40,909 --> 00:21:35,100
they disappeared

454
00:21:41,580 --> 00:21:40,919
yeah hmm but there's a bit more store a

455
00:21:43,850 --> 00:21:41,590
bit more

456
00:21:47,250 --> 00:21:43,860
story to the colleague Tully case

457
00:21:48,960 --> 00:21:47,260
because what there was another thing

458
00:21:54,960 --> 00:21:48,970
that happened on the 8th of February

459
00:21:57,930 --> 00:21:54,970
1969 when this device that had been set

460
00:21:59,960 --> 00:21:57,940
up to to be able to monitor you know

461
00:22:02,850 --> 00:21:59,970
anything that was going on in the area

462
00:22:04,919 --> 00:22:02,860
it had be set up in Albert's son's

463
00:22:07,620 --> 00:22:04,929

bedroom I'm guessing it was because it

464

00:22:09,390 --> 00:22:07,630

was the best location to face that

465

00:22:11,269 --> 00:22:09,400

particular area I'm not really sure why

466

00:22:13,769 --> 00:22:11,279

it's not quite clear in our records but

467

00:22:16,620 --> 00:22:13,779

anyway Albert the son Shane he was woken

468

00:22:19,740 --> 00:22:16,630

by the UFO monitoring device which had a

469

00:22:21,360 --> 00:22:19,750

buzzer and he turned it off thinking to

470

00:22:23,250 --> 00:22:21,370

tell his father about it at breakfast

471

00:22:25,649 --> 00:22:23,260

but Albert had already gone out the

472

00:22:29,909 --> 00:22:25,659

house earlier and Shane forgot to tell

473

00:22:32,610 --> 00:22:29,919

him until he came home and anyway so as

474

00:22:34,350 --> 00:22:32,620

soon as he found out he Albert gets you

475

00:22:36,659 --> 00:22:34,360

know gets in his tractor and drives out

476
00:22:40,380 --> 00:22:36,669
to the lagoon and discovers a new source

477
00:22:43,370 --> 00:22:40,390
Ernest now this one was 29 and a half

478
00:22:46,230 --> 00:22:43,380
feet in diameter and perfectly circular

479
00:22:48,230 --> 00:22:46,240
there were also reeds floating on the

480
00:22:52,680 --> 00:22:48,240
surface again in the clockwise direction

481
00:22:54,600 --> 00:22:52,690
and on further inspection another

482
00:22:56,490 --> 00:22:54,610
smaller Ness was discovered at the

483
00:23:00,000 --> 00:22:56,500
extreme north end of the lagoon and that

484
00:23:03,870 --> 00:23:00,010
was 12 feet in diameter and it had all

485
00:23:07,169 --> 00:23:03,880
the characteristics of the larger one so

486
00:23:09,690 --> 00:23:07,179
and then about 25 feet away from the new

487
00:23:13,019 --> 00:23:09,700
nest and about 15 feet above ground

488
00:23:16,019 --> 00:23:13,029

level there's a protruding branch of a

489

00:23:17,940 --> 00:23:16,029

tree and this branch has an area of

490

00:23:20,970 --> 00:23:17,950

leaves about six feet long about two

491

00:23:23,490 --> 00:23:20,980

feet deep and they're scorched and the

492

00:23:25,260 --> 00:23:23,500

leaves are crisp and they're curled up

493

00:23:31,080 --> 00:23:25,270

showing signs of browning there were no

494

00:23:32,760 --> 00:23:31,090

tracks to or from the tree and so more

495

00:23:34,560 --> 00:23:32,770

testing was carried out by the

496

00:23:37,649 --> 00:23:34,570

University of Queensland once again

497

00:23:41,820 --> 00:23:37,659

which concluded that due to the nature

498

00:23:43,889 --> 00:23:41,830

of the specimens tested I'm sorry no

499

00:23:46,440 --> 00:23:43,899

that wasn't carried out on on that tree

500

00:23:49,620 --> 00:23:46,450

was on the samples from the nest the

501
00:23:51,510 --> 00:23:49,630
second nest they said that the nature of

502
00:23:53,190 --> 00:23:51,520
this specimens tested it would have been

503
00:23:54,780 --> 00:23:53,200
expected that they would still be green

504
00:23:57,060 --> 00:23:54,790
alive but

505
00:24:01,740 --> 00:23:57,070
all the specimens were dead and starting

506
00:24:03,180 --> 00:24:01,750
to decompose so yeah it was just a whole

507
00:24:06,150 --> 00:24:03,190
lot of things didn't add up properly

508
00:24:07,230 --> 00:24:06,160
there was you know there was things

509
00:24:09,860 --> 00:24:07,240
going on in the area

510
00:24:13,440 --> 00:24:09,870
it wasn't the only case things went on

511
00:24:16,140 --> 00:24:13,450
just prior and for a while after and I

512
00:24:18,780 --> 00:24:16,150
remember Claire before she passed some

513
00:24:21,000 --> 00:24:18,790

years back actually she told me that you

514

00:24:26,220 --> 00:24:21,010

know she collected well over a hundred

515

00:24:28,290 --> 00:24:26,230

cases from the the Tully area of these

516

00:24:30,840 --> 00:24:28,300

nests that had been found on the ground

517

00:24:32,730 --> 00:24:30,850

and I'm sure Libby let me interrupt you

518

00:24:34,620 --> 00:24:32,740

here because we have to go to our bottom

519

00:24:36,570 --> 00:24:34,630

of the error break when we come back we

520

00:24:39,240 --> 00:24:36,580

will continue our conversation with

521

00:24:48,070 --> 00:24:39,250

Cheryl gotcha on exploring the bizarre

522

00:24:54,799 --> 00:24:52,219

now back to exploring the bazaars with

523

00:24:57,799 --> 00:24:54,809

two of the most electrifying researchers

524

00:25:04,519 --> 00:24:57,809

in the Paranoid your hosts Timothy

525

00:25:06,590 --> 00:25:04,529

Rebecca Lee and Kings was right welcome

526

00:25:09,979 --> 00:25:06,600

back to exploring the bazaar our guest

527

00:25:11,749 --> 00:25:09,989

tonight is Cheryl Gaucho and Tim Beck

528

00:25:18,159 --> 00:25:11,759

Lee I'm glad to see that you were able

529

00:25:21,409 --> 00:25:18,169

to get your internet problems solved and

530

00:25:24,379 --> 00:25:21,419

I tell you it's been a difficult three

531

00:25:28,219 --> 00:25:24,389

or four days I haven't even been able to

532

00:25:31,789 --> 00:25:28,229

to eat much in the way of food actually

533

00:25:35,119 --> 00:25:31,799

answer not too good you don't have you

534

00:25:37,609 --> 00:25:35,129

don't have the coronavirus do you oh you

535

00:25:49,609 --> 00:25:37,619

know I'm so old Tim I think I might have

536

00:25:51,710 --> 00:25:49,619

the swine flu no all right so what Tim

537

00:25:53,109 --> 00:25:51,720

do you want to do you want to carry on

538

00:25:57,669 --> 00:25:53,119

with the conversation

539

00:26:00,619 --> 00:25:57,679

carry on yeah yeah well you know Cheryl

540

00:26:03,789 --> 00:26:00,629

they seem that UFOs they seem to be

541

00:26:06,159 --> 00:26:03,799

interest that in the floral makeup of

542

00:26:08,149 --> 00:26:06,169

earth maybe they're checking for

543

00:26:10,399 --> 00:26:08,159

radioactivity in the atmosphere or

544

00:26:12,560 --> 00:26:10,409

something but you've got cases there in

545

00:26:15,469 --> 00:26:12,570

Australia where these things have come

546

00:26:19,669 --> 00:26:15,479

and apparently even come down and landed

547

00:26:24,889 --> 00:26:19,679

in the tip-top of trees or pretty darn

548

00:26:26,599 --> 00:26:24,899

close to it hmm yeah I do think I do

549

00:26:30,289 --> 00:26:26,609

think that they are definitely

550

00:26:33,379 --> 00:26:30,299

interested in our flora and fauna I have

551
00:26:35,960 --> 00:26:33,389
had people tell me that they've seen in

552
00:26:38,599 --> 00:26:35,970
the distance UFOs and this is up in

553
00:26:40,849 --> 00:26:38,609
North Queensland again one in one case

554
00:26:43,629 --> 00:26:40,859
was where it was on the ground and these

555
00:26:45,979 --> 00:26:43,639
small beings were sort of walking around

556
00:26:50,539 --> 00:26:45,989
he was quite frightened he was off in

557
00:26:52,220 --> 00:26:50,549
the bush I think he was treating noxious

558
00:26:55,070 --> 00:26:52,230
weeds or something at the time and he

559
00:26:56,900 --> 00:26:55,080
was watching them and they did seem to

560
00:26:59,720 --> 00:26:56,910
be

561
00:27:01,460 --> 00:26:59,730
collecting things off the ground and I

562
00:27:03,230 --> 00:27:01,470
mean we've heard that worldwide that's

563
00:27:05,180 --> 00:27:03,240

that's nothing new you know that I

564

00:27:08,360 --> 00:27:05,190

remember there's a case in the United

565

00:27:12,230 --> 00:27:08,370

States in the 19th Canada actually in

566

00:27:15,220 --> 00:27:12,240

the 1930s where they were they were seen

567

00:27:19,550 --> 00:27:15,230

to be doing this sort of thing too so

568

00:27:22,400 --> 00:27:19,560

yes I'm sure they would come here and

569

00:27:24,830 --> 00:27:22,410

just like we would if we were on another

570

00:27:27,860 --> 00:27:24,840

planet we'd be picking up samples to

571

00:27:29,380 --> 00:27:27,870

analyze and test and see what yes we

572

00:27:32,090 --> 00:27:29,390

could make of them too I suppose

573

00:27:34,580 --> 00:27:32,100

well I know one of the first cases that

574

00:27:36,500 --> 00:27:34,590

Budd Hopkins the late abduction

575

00:27:39,470 --> 00:27:36,510

researcher investigated was the case

576

00:27:41,090 --> 00:27:39,480

over in New Jersey where this fellow on

577

00:27:45,320 --> 00:27:41,100

the way home from my work happens to a

578

00:27:46,730 --> 00:27:45,330

UFO in question of Stonehenge behind

579

00:27:49,160 --> 00:27:46,740

apartment building if that is a

580

00:27:51,470 --> 00:27:49,170

synchronicity it was a craft that had

581

00:27:53,930 --> 00:27:51,480

land it had a couple of tribe tripod

582

00:27:55,460 --> 00:27:53,940

landing gear a couple of aliens came out

583

00:27:57,380 --> 00:27:55,470

and seem to be scooping up the soil

584

00:28:01,310 --> 00:27:57,390

before they disappeared and

585

00:28:04,220 --> 00:28:01,320

timin in your incredible alien

586

00:28:05,780 --> 00:28:04,230

encounters book we talk about a case I

587

00:28:08,810 --> 00:28:05,790

think it's right there in your home

588

00:28:12,440 --> 00:28:08,820

state of Indiana where a young fellow so

589

00:28:14,540 --> 00:28:12,450

I saw and photographed a an object that

590

00:28:18,170 --> 00:28:14,550

landed in a tree in his yard or his

591

00:28:19,970 --> 00:28:18,180

neighbor's yard yeah it didn't land of

592

00:28:27,620 --> 00:28:19,980

the trees that were and this was the

593

00:28:32,350 --> 00:28:27,630

1970 67 in Milan Indiana where this UFO

594

00:28:36,800 --> 00:28:32,360

which looked like an old-fashioned cow

595

00:28:41,390 --> 00:28:36,810

milk jug was floating past his his

596

00:28:45,110 --> 00:28:41,400

bedroom window kind of like above and

597

00:28:47,330 --> 00:28:45,120

through the trees and the odd thing

598

00:28:49,970 --> 00:28:47,340

about it and he did manage to take a

599

00:28:52,310 --> 00:28:49,980

couple of color 35 millimeter

600

00:28:57,080 --> 00:28:52,320

photographs the odd thing about it was

601
00:28:59,180 --> 00:28:57,090
that the next day a lot of branches of

602
00:29:02,480 --> 00:28:59,190
these trees that this thing came close

603
00:29:05,420 --> 00:29:02,490
to had withered and died so I mean very

604
00:29:10,400 --> 00:29:05,430
similar to what what had happened to the

605
00:29:13,070 --> 00:29:10,410
reeds there in Tully change

606
00:29:16,270 --> 00:29:13,080
the subject a little bit here what is

607
00:29:19,610 --> 00:29:16,280
with the mysterious pregnancies a

608
00:29:23,660 --> 00:29:19,620
missing pregnancies missing pregnancies

609
00:29:25,580 --> 00:29:23,670
missing pregnancy cases yeah yeah I've

610
00:29:27,620 --> 00:29:25,590
heard a few of those over the years and

611
00:29:31,250 --> 00:29:27,630
and not just in Australia but all around

612
00:29:36,290 --> 00:29:31,260
the world actually and there was a case

613
00:29:40,490 --> 00:29:36,300

here that involved a woman that I've

614

00:29:47,150 --> 00:29:40,500

known for quite a long time and she was

615

00:29:49,040 --> 00:29:47,160

working at on the Gold Coast and they

616

00:29:50,720 --> 00:29:49,050

were sort of like a lead-up to this okay

617

00:29:52,730 --> 00:29:50,730

it's not just like a suddenly you're

618

00:29:54,440 --> 00:29:52,740

pregnant and then you've gotten there's

619

00:29:57,110 --> 00:29:54,450

a whole story around but just to keep it

620

00:29:59,420 --> 00:29:57,120

as brief as I can what happened leading

621

00:30:02,720 --> 00:29:59,430

up to this experience was that she was

622

00:30:04,730 --> 00:30:02,730

driving the same way to and from work

623

00:30:07,400 --> 00:30:04,740

every day and that particular knife she

624

00:30:09,410 --> 00:30:07,410

left work about 7:00 p.m. and she was

625

00:30:11,930 --> 00:30:09,420

walking across the carpark towards a car

626
00:30:14,270 --> 00:30:11,940
when she saw the brightest star she had

627
00:30:15,620 --> 00:30:14,280
ever seen anyway it was so bright

628
00:30:18,230 --> 00:30:15,630
beautiful she couldn't take her eyes off

629
00:30:20,690 --> 00:30:18,240
it and for some really weird reason she

630
00:30:21,760 --> 00:30:20,700
suddenly became very emotional and she

631
00:30:24,290 --> 00:30:21,770
started to cry

632
00:30:25,970 --> 00:30:24,300
anyway she quickly got into a car she

633
00:30:28,010 --> 00:30:25,980
could see about five other people in the

634
00:30:30,830 --> 00:30:28,020
carpark who also saw this bright light

635
00:30:34,310 --> 00:30:30,840
or stoner and they were commenting on

636
00:30:36,380 --> 00:30:34,320
its brightness as well anyway she drove

637
00:30:38,810 --> 00:30:36,390
out of the car park began a journey home

638
00:30:40,160 --> 00:30:38,820

the next thing she remembers is pulling

639

00:30:41,960 --> 00:30:40,170

over to the side of the road feeling

640

00:30:45,440 --> 00:30:41,970

very disoriented and wondering where the

641

00:30:46,940 --> 00:30:45,450

heck she was and how she got there it

642

00:30:49,040 --> 00:30:46,950

took her minutes to get her bearings

643

00:30:52,120 --> 00:30:49,050

then she drove home annoyed with herself

644

00:30:55,100 --> 00:30:52,130

for driving in such a confused and and

645

00:30:56,810 --> 00:30:55,110

irresponsible manner she thought anyway

646

00:30:58,820 --> 00:30:56,820

she arrives home she's still quite

647

00:31:01,150 --> 00:30:58,830

emotional she walks inside

648

00:31:03,290 --> 00:31:01,160

husband wants to know where she was

649

00:31:06,350 --> 00:31:03,300

because she was over an hour and a half

650

00:31:08,150 --> 00:31:06,360

late so she's running around checking

651
00:31:10,190 --> 00:31:08,160
the clocks guy oh my gosh you know like

652
00:31:11,720 --> 00:31:10,200
that can't be right I've only just left

653
00:31:13,280 --> 00:31:11,730
work and he takes me so long to get home

654
00:31:16,010 --> 00:31:13,290
I can't be an hour and a half late but

655
00:31:17,480 --> 00:31:16,020
turns out she was but this was just sort

656
00:31:20,210 --> 00:31:17,490
of like the beginning of what was going

657
00:31:22,520 --> 00:31:20,220
on to her because after that they

658
00:31:24,270 --> 00:31:22,530
decided to go on a holiday and they're

659
00:31:26,860 --> 00:31:24,280
going to go up to

660
00:31:30,940 --> 00:31:26,870
North Queensland or Central North Mason

661
00:31:36,400 --> 00:31:30,950
to do some fossicking anyway before she

662
00:31:38,590 --> 00:31:36,410
went though she she found that she no no

663
00:31:40,060 --> 00:31:38,600

me forget my story straight here she

664

00:31:43,150 --> 00:31:40,070

discovered that she was pregnant that's

665

00:31:45,430 --> 00:31:43,160

right she already had two children and

666

00:31:48,550 --> 00:31:45,440

but she really wanted to have this baby

667

00:31:49,330 --> 00:31:48,560

and but she had concerns that something

668

00:31:50,920 --> 00:31:49,340

didn't feel right

669

00:31:54,850 --> 00:31:50,930

she had a terrible feeling that she was

670

00:31:56,680 --> 00:31:54,860

going to lose this baby but anyway about

671

00:31:58,240 --> 00:31:56,690

two weeks later she developed Sagarika

672

00:32:01,150 --> 00:31:58,250

logical problems thinks she's going to

673

00:32:02,260 --> 00:32:01,160

lose the baby according to the doctor

674

00:32:04,840 --> 00:32:02,270

everything was all right and she was

675

00:32:06,730 --> 00:32:04,850

about six weeks pregnant so they decided

676

00:32:12,910 --> 00:32:06,740

to go off in this this fossicking

677

00:32:14,830 --> 00:32:12,920

holiday and so she started to have some

678

00:32:16,540 --> 00:32:14,840

more problems where she thought she

679

00:32:17,980 --> 00:32:16,550

might you know it she was starting to

680

00:32:19,300 --> 00:32:17,990

have a bit of spotting she thought she

681

00:32:21,190 --> 00:32:19,310

might have a miscarriage or something

682

00:32:23,110 --> 00:32:21,200

anyway but she kept that to herself

683

00:32:24,520 --> 00:32:23,120

because she really wanted to go on this

684

00:32:28,300 --> 00:32:24,530

holiday and if I would have done that

685

00:32:30,730 --> 00:32:28,310

but anyway so they took off staying to

686

00:32:32,950 --> 00:32:30,740

motel they were heading towards Cannes

687

00:32:35,620 --> 00:32:32,960

in North North Queensland Far North

688

00:32:37,630 --> 00:32:35,630

Queensland when a husband strangely

689

00:32:42,370 --> 00:32:37,640

decides to take a detour

690

00:32:44,980 --> 00:32:42,380

west and they arrive at a place called

691

00:32:47,970 --> 00:32:44,990

sapphire it's about 4:30 in the

692

00:32:51,580 --> 00:32:47,980

afternoon now this is in 1988 mind you

693

00:32:53,290 --> 00:32:51,590

so as they're driving around looking for

694

00:32:55,330 --> 00:32:53,300

somewhere to stay the husband turns down

695

00:32:59,260 --> 00:32:55,340

a dirt road near quite suddenly with no

696

00:33:02,320 --> 00:32:59,270

warning the car broke down so it's 5:00

697

00:33:04,120 --> 00:33:02,330

p.m. in miles from nowhere the husband

698

00:33:05,380 --> 00:33:04,130

starts to tinkering with the engine and

699

00:33:08,740 --> 00:33:05,390

she walks over the hill to see if

700

00:33:10,900 --> 00:33:08,750

there's anything in the area but you

701
00:33:14,050 --> 00:33:10,910
know mate basically could help them so

702
00:33:16,750 --> 00:33:14,060
she sees a sign on a tree and it said

703
00:33:20,940 --> 00:33:16,760
with an arrow saying sunrise cabins this

704
00:33:24,130 --> 00:33:20,950
way so she goes up there she finds a

705
00:33:26,500 --> 00:33:24,140
holiday area it's got I think it's got

706
00:33:28,690 --> 00:33:26,510
caravans and a motel or something and

707
00:33:31,270 --> 00:33:28,700
some some tents that have been set up so

708
00:33:33,330 --> 00:33:31,280
she she books a tent they anyway they

709
00:33:36,580 --> 00:33:33,340
camped there for the night basically

710
00:33:37,420 --> 00:33:36,590
she's there laying in the tent looking

711
00:33:38,890 --> 00:33:37,430
at the flap

712
00:33:42,220 --> 00:33:38,900
of the tendons of the night sky thinking

713
00:33:44,020 --> 00:33:42,230

how beautiful was and suddenly she sees

714

00:33:46,120 --> 00:33:44,030

the very bright light and thinks it

715

00:33:49,180 --> 00:33:46,130

looks like the same light or star she

716

00:33:52,180 --> 00:33:49,190

saw previously in the year anyway she's

717

00:33:54,010 --> 00:33:52,190

watching it it's getting closer and then

718

00:33:56,230 --> 00:33:54,020

she sees boomerang-shaped

719

00:33:59,290 --> 00:33:56,240

objects coming out of this slide and her

720

00:34:01,390 --> 00:33:59,300

last thought she said was oh my god if

721

00:34:03,580 --> 00:34:01,400

these know what I think they are then

722

00:34:06,940 --> 00:34:03,590

UFOs are real because I'm wide awake and

723

00:34:08,950 --> 00:34:06,950

I'm really seeing this anyway I mean I

724

00:34:10,900 --> 00:34:08,960

could just put myself in her situation I

725

00:34:13,540 --> 00:34:10,910

could imagine you know what she was

726

00:34:16,120 --> 00:34:13,550

going through but anyway she describes

727

00:34:19,030 --> 00:34:16,130

everything then changing she's suddenly

728

00:34:22,090 --> 00:34:19,040

no longer in the tent she has no idea

729

00:34:24,640 --> 00:34:22,100

where how she got there and she didn't

730

00:34:27,040 --> 00:34:24,650

care either she had absolutely no fear

731

00:34:28,840 --> 00:34:27,050

which is some really odd but that's what

732

00:34:30,670 --> 00:34:28,850

happens in some of these cases his close

733

00:34:33,580 --> 00:34:30,680

encounter cases fear just seems to

734

00:34:36,580 --> 00:34:33,590

disappear she finds herself standing on

735

00:34:37,540 --> 00:34:36,590

a deserted street that appeared to be

736

00:34:38,950 --> 00:34:37,550

l-shaped

737

00:34:41,920 --> 00:34:38,960

there were no people or cars on this

738

00:34:44,440 --> 00:34:41,930

road it was night she's standing under a

739

00:34:47,250 --> 00:34:44,450

lamppost and there's another lamppost on

740

00:34:49,390 --> 00:34:47,260

the site other side of the road anyway

741

00:34:52,240 --> 00:34:49,400

at the corner of the street there

742

00:34:54,550 --> 00:34:52,250

appears to be a country in western

743

00:34:56,680 --> 00:34:54,560

tavern with lots of people and somehow

744

00:34:57,250 --> 00:34:56,690

she knew her husband was in there as

745

00:34:59,470 --> 00:34:57,260

well

746

00:35:01,030 --> 00:34:59,480

so at this stage it seems to me while

747

00:35:03,790 --> 00:35:01,040

she's telling me her story that some

748

00:35:05,230 --> 00:35:03,800

sort of scenario has been set up for her

749

00:35:07,900 --> 00:35:05,240

to be placed there because remember

750

00:35:09,180 --> 00:35:07,910

she's in the outback here okay there's

751

00:35:13,560 --> 00:35:09,190

nothing else around

752

00:35:16,570 --> 00:35:13,570

so anyway except for the women lights

753

00:35:17,680 --> 00:35:16,580

well yes there could be some of them yes

754

00:35:20,380 --> 00:35:17,690

absolutely

755

00:35:22,630 --> 00:35:20,390

anyway the streets totally deserted and

756

00:35:25,030 --> 00:35:22,640

- but she knew that she was waiting for

757

00:35:28,140 --> 00:35:25,040

someone she's feeling very excited or

758

00:35:31,750 --> 00:35:28,150

most ecstatic and then a silver vehicle

759

00:35:34,570 --> 00:35:31,760

like a car comes towards her from the

760

00:35:37,090 --> 00:35:34,580

sky and it lands in front of her and she

761

00:35:40,660 --> 00:35:37,100

describes it as having no wheels doors

762

00:35:43,720 --> 00:35:40,670

or roof it seems to hover just slightly

763

00:35:46,450 --> 00:35:43,730

off the ground and in the vehicle were

764

00:35:49,090 --> 00:35:46,460

very four were four very human-like

765

00:35:51,099 --> 00:35:49,100

beings and they're all male and one of

766

00:35:52,779 --> 00:35:51,109

them was holding a small child

767

00:35:55,870 --> 00:35:52,789

and they're all dressed the same

768

00:35:58,509 --> 00:35:55,880

including the child in silvery skin type

769

00:36:01,200 --> 00:35:58,519

one-piece suits and even the boots they

770

00:36:04,210 --> 00:36:01,210

had on seemed in part of the the suit

771

00:36:07,809 --> 00:36:04,220

anyway so they they've come to reassure

772

00:36:13,420 --> 00:36:07,819

her to show her this child who is they

773

00:36:15,160 --> 00:36:13,430

alleged her unborn son and and she you

774

00:36:16,269 --> 00:36:15,170

know they wanted her to hold it all she

775

00:36:18,789 --> 00:36:16,279

wanted to hold it can't quite remember

776

00:36:21,670 --> 00:36:18,799

now but first she has to undergo this

777

00:36:24,099 --> 00:36:21,680

detoxification process so this one of

778

00:36:26,229 --> 00:36:24,109

them has like a backpack on it and it

779

00:36:29,710 --> 00:36:26,239

has a spray nozzle and it sprays her

780

00:36:32,229 --> 00:36:29,720

down and she's immediately wet and then

781

00:36:34,779 --> 00:36:32,239

she's immediately all dry so there's

782

00:36:37,089 --> 00:36:34,789

some sort of contamination purification

783

00:36:40,319 --> 00:36:37,099

a decontamination purification process

784

00:36:42,789 --> 00:36:40,329

that she's gone through and anyway so

785

00:36:44,589 --> 00:36:42,799

she's holding the child she feels

786

00:36:47,079 --> 00:36:44,599

connected to it

787

00:36:49,900 --> 00:36:47,089

meanwhile her husband walks past and

788

00:36:50,799 --> 00:36:49,910

says look sweetheart this is our son

789

00:36:52,720 --> 00:36:50,809

isn't he beautiful

790

00:36:56,859 --> 00:36:52,730

but he just keeps on walking past her as

791

00:37:00,460 --> 00:36:56,869

if he's in a daze anyway so they bought

792

00:37:02,470 --> 00:37:00,470

the child to hurt it to to reassure her

793

00:37:04,749 --> 00:37:02,480

that the child that she's going to have

794

00:37:08,019 --> 00:37:04,759

is going to be okay not to worry there's

795

00:37:09,519 --> 00:37:08,029

nothing wrong with her and and that goes

796

00:37:11,650 --> 00:37:09,529

on for a bit for a while anyway

797

00:37:15,220 --> 00:37:11,660

eventually the child's given back to the

798

00:37:17,079 --> 00:37:15,230

beings and then she watches the silvery

799

00:37:20,890 --> 00:37:17,089

vehicle go back up into the sky and

800

00:37:23,200 --> 00:37:20,900

disappear over the treetops anyway the

801
00:37:24,940 --> 00:37:23,210
next thing she's back in the tent seeing

802
00:37:28,839 --> 00:37:24,950
all the boomerang shaped objects going

803
00:37:31,329 --> 00:37:28,849
back into this right light when the last

804
00:37:33,700 --> 00:37:31,339
one entered a very loud noise started in

805
00:37:35,079 --> 00:37:33,710
a husband's happen bed and was pulling

806
00:37:38,499 --> 00:37:35,089
at her to get up and have a look at this

807
00:37:42,370 --> 00:37:38,509
herd of wild horses that he's imagined

808
00:37:44,710 --> 00:37:42,380
stampeding through the camping area but

809
00:37:48,819 --> 00:37:44,720
she she just says she feels paralyzed

810
00:37:51,519 --> 00:37:48,829
she couldn't move a muscle and before

811
00:37:54,069 --> 00:37:51,529
the noise but the noise just keeps

812
00:37:55,660 --> 00:37:54,079
getting keeps going until eventually she

813
00:37:57,160 --> 00:37:55,670

drags herself up to see what was going

814

00:37:58,809 --> 00:37:57,170

on I need to hear her husband saying up

815

00:38:01,690 --> 00:37:58,819

too late you missed it go back to sleep

816

00:38:04,180 --> 00:38:01,700

which she instantly did but anyway

817

00:38:06,069 --> 00:38:04,190

finally getting to the missing pregnancy

818

00:38:08,920 --> 00:38:06,079

I just wanted to give you the background

819

00:38:11,349 --> 00:38:08,930

of that particular case the next morning

820

00:38:12,760 --> 00:38:11,359

she has a nagging feeling that something

821

00:38:14,980 --> 00:38:12,770

had happened through the night but she

822

00:38:17,559 --> 00:38:14,990

couldn't remember what so she put it

823

00:38:19,900 --> 00:38:17,569

down to one of those dreams that you

824

00:38:23,370 --> 00:38:19,910

have but you can't remember goes and has

825

00:38:25,900 --> 00:38:23,380

a shower returns to her husband and he

826

00:38:27,430 --> 00:38:25,910

says did you hear the racket those

827

00:38:29,500 --> 00:38:27,440

horses made last night when they came

828

00:38:31,720 --> 00:38:29,510

stampeding through here because that

829

00:38:33,520 --> 00:38:31,730

triggers her memory and she immediately

830

00:38:38,410 --> 00:38:33,530

remembers everything that happened the

831

00:38:42,970 --> 00:38:38,420

night before now five days after that

832

00:38:44,530 --> 00:38:42,980

experience she miscarries has a

833

00:38:47,500 --> 00:38:44,540

miscarriage while she stood on the

834

00:38:49,660 --> 00:38:47,510

holidays but the doctors the doctors

835

00:38:51,400 --> 00:38:49,670

couldn't find a fetus they assumed she

836

00:38:54,609 --> 00:38:51,410

had lost it before arriving at the

837

00:38:56,319 --> 00:38:54,619

hospital now it took nearly four hours

838

00:38:58,240 --> 00:38:56,329

to get to the hospital from where they

839

00:38:59,520 --> 00:38:58,250

were so if she'd lost anything it would

840

00:39:03,309 --> 00:38:59,530

have been in the car which it wasn't

841

00:39:05,829 --> 00:39:03,319

anyway when she told them she was nine

842

00:39:08,069 --> 00:39:05,839

weeks pregnant by then they told her she

843

00:39:10,930 --> 00:39:08,079

must be mistaken because the doctor said

844

00:39:13,890 --> 00:39:10,940

you've gone through an actual labor and

845

00:39:16,900 --> 00:39:13,900

with the amount of afterbirth present

846

00:39:19,000 --> 00:39:16,910

she would have had to be no less than 14

847

00:39:23,410 --> 00:39:19,010

weeks pregnant which she found

848

00:39:24,849 --> 00:39:23,420

impossible to believe so two months

849

00:39:27,190 --> 00:39:24,859

after that miscarriage she falls

850

00:39:29,980 --> 00:39:27,200

pregnant again gives birth to a son and

851

00:39:32,740 --> 00:39:29,990

who is the exact duplicate from her

852

00:39:36,490 --> 00:39:32,750

description of the child that she had

853

00:39:39,670 --> 00:39:36,500

held during that close encounter that's

854

00:39:42,550 --> 00:39:39,680

very strange but not dissimilar to other

855

00:39:46,420 --> 00:39:42,560

areas that we've investigated we have a

856

00:39:49,630 --> 00:39:46,430

lady here Christa Tilton who has had

857

00:39:52,030 --> 00:39:49,640

missing of fetuses we wrote her story up

858

00:39:55,270 --> 00:39:52,040

along with many others in our sexter

859

00:40:01,390 --> 00:39:55,280

terrestrials the book we just got like

860

00:40:04,690 --> 00:40:01,400

now 350 pages of data on similar

861

00:40:08,230 --> 00:40:04,700

episodes like this so something strange

862

00:40:10,180 --> 00:40:08,240

is going on I mean it seemed I you know

863

00:40:11,670 --> 00:40:10,190

I mean it's hard to believe that there

864

00:40:14,380 --> 00:40:11,680

could be crossbreeding

865

00:40:16,780 --> 00:40:14,390

like that I mean they would have to be

866

00:40:17,980 --> 00:40:16,790

very very closely related to us I would

867

00:40:22,390 --> 00:40:17,990

think in order

868

00:40:25,060 --> 00:40:22,400

to produce of their children well to be

869

00:40:28,600 --> 00:40:25,070

honest I could say or a skeptic could

870

00:40:31,390 --> 00:40:28,610

say well that's an assumption because we

871

00:40:33,640 --> 00:40:31,400

actually don't really know what they're

872

00:40:35,440 --> 00:40:33,650

doing I mean we have people who report

873

00:40:38,500 --> 00:40:35,450

Close Encounters who say that they're

874

00:40:40,330 --> 00:40:38,510

part of a breeding program and I get

875

00:40:42,520 --> 00:40:40,340

that and I can see why they would

876

00:40:44,500 --> 00:40:42,530

interpret the information like that and

877

00:40:46,150 --> 00:40:44,510

you've got to remember that when people

878

00:40:50,230 --> 00:40:46,160

have these reports and they and they

879

00:40:52,960 --> 00:40:50,240

tell us if you know I always say that

880

00:40:57,940 --> 00:40:52,970

some of these aliens are master mental

881

00:40:59,950 --> 00:40:57,950

manipulators and they can put yeah they

882

00:41:02,920 --> 00:40:59,960

can put information into our mind and

883

00:41:08,890 --> 00:41:02,930

make us think and feel anything in some

884

00:41:10,930 --> 00:41:08,900

cases so you know it's you know maybe

885

00:41:13,090 --> 00:41:10,940

that's going on maybe there's something

886

00:41:15,480 --> 00:41:13,100

else I really don't know I just I'm just

887

00:41:18,850 --> 00:41:15,490

can't say a hundred percent either way

888

00:41:24,990 --> 00:41:18,860

now you talk about a case of a missing

889

00:41:31,480 --> 00:41:25,000

time of a police trainee yes I do

890

00:41:33,930 --> 00:41:31,490

yes now this was let me see this was

891

00:41:35,710 --> 00:41:33,940

with a gentleman that we interviewed

892

00:41:39,460 --> 00:41:35,720

late last year

893

00:41:43,810 --> 00:41:39,470

and this is again going back some years

894

00:41:46,510 --> 00:41:43,820

all these cases that are really cases

895

00:41:48,849 --> 00:41:46,520

that are full of detail rich with detail

896

00:41:51,970 --> 00:41:48,859

these go back many years we're not

897

00:41:55,630 --> 00:41:51,980

getting those cases these days right but

898

00:41:58,420 --> 00:41:55,640

so this occurred in 1976 and he was a at

899

00:42:00,609 --> 00:41:58,430

the Green Bank military base and that's

900

00:42:03,790 --> 00:42:00,619

not too far from where I am actually

901
00:42:06,820 --> 00:42:03,800
probably about a 15-minute drive anyway

902
00:42:09,520 --> 00:42:06,830
in 1976 he was a trainee police officer

903
00:42:12,550 --> 00:42:09,530
training in bush rescue at the Green

904
00:42:15,510 --> 00:42:12,560
Bank area and it's a live training

905
00:42:18,070 --> 00:42:15,520
facility it's about 46 square kilometres

906
00:42:22,150 --> 00:42:18,080
for the Australian Defence Force okay

907
00:42:25,000 --> 00:42:22,160
and it's located 25 kilometres south of

908
00:42:26,620 --> 00:42:25,010
Brisbane anyway the trainees at the time

909
00:42:29,440 --> 00:42:26,630
they were being trained by an army

910
00:42:30,880 --> 00:42:29,450
reserve officer and they were given a

911
00:42:31,990 --> 00:42:30,890
grid map and

912
00:42:34,870 --> 00:42:32,000
all they had to find their way to

913
00:42:37,539 --> 00:42:34,880

another grid in a certain time the

914

00:42:40,059 --> 00:42:37,549

maximum time was 45 minutes that people

915

00:42:42,250 --> 00:42:40,069

had done it in most people did it in 30

916

00:42:45,130 --> 00:42:42,260

anyway the group was divided into three

917

00:42:48,460 --> 00:42:45,140

squads and this guy I'll call his name

918

00:42:51,309 --> 00:42:48,470

Steve his squad made it in near lot of

919

00:42:53,859 --> 00:42:51,319

time but another squad got completely

920

00:42:55,660 --> 00:42:53,869

lost and even though they had a mapping

921

00:42:58,900 --> 00:42:55,670

compasses they went missing for three

922

00:43:01,930 --> 00:42:58,910

hours long enough to trigger a search

923

00:43:04,029 --> 00:43:01,940

for them now Steve was personally

924

00:43:05,920 --> 00:43:04,039

involved in the search driving in

925

00:43:08,109 --> 00:43:05,930

all-terrain vehicles looking for the

926
00:43:09,940 --> 00:43:08,119
group and when they visually turned up

927
00:43:12,670 --> 00:43:09,950
they were told that they'd been missing

928
00:43:14,710 --> 00:43:12,680
for three hours and the squad said come

929
00:43:16,329 --> 00:43:14,720
on we've been gone for 25 minutes

930
00:43:20,259 --> 00:43:16,339
because they thought they'd actually

931
00:43:23,410 --> 00:43:20,269
beaten everybody anyway when they were

932
00:43:25,329 --> 00:43:23,420
asked what they were doing they replied

933
00:43:26,950 --> 00:43:25,339
nothing out of the ordinary just go from

934
00:43:30,039 --> 00:43:26,960
point A to point B like we were

935
00:43:33,460 --> 00:43:30,049
instructed when they asked what terrain

936
00:43:35,289 --> 00:43:33,470
they covered they pointed it out they

937
00:43:38,440 --> 00:43:35,299
pointed them out but the other squads

938
00:43:40,210 --> 00:43:38,450

had looked for them in those spots but

939

00:43:43,210 --> 00:43:40,220

they couldn't find anyone - they'd

940

00:43:46,410 --> 00:43:43,220

already covered that area anyway as a

941

00:43:49,569 --> 00:43:46,420

result that squad was subsequently

942

00:43:51,099 --> 00:43:49,579

spirited away and the other squad

943

00:43:54,220 --> 00:43:51,109

members weren't allowed to speak to them

944

00:43:57,120 --> 00:43:54,230

for a while and eventually they did but

945

00:43:59,170 --> 00:43:57,130

the missing squad gave what Steve

946

00:44:02,319 --> 00:43:59,180

interpreted he said sounded like

947

00:44:04,210 --> 00:44:02,329

scripted replies keeping to their story

948

00:44:05,470 --> 00:44:04,220

he said you can tell when people have

949

00:44:09,640 --> 00:44:05,480

been telling you something that they've

950

00:44:11,140 --> 00:44:09,650

been told to tell you anyway when the

951
00:44:13,809 --> 00:44:11,150
squad members were leaving the camp

952
00:44:16,630 --> 00:44:13,819
unidentifiable people turned up wearing

953
00:44:19,509 --> 00:44:16,640
suits so they didn't know what that was

954
00:44:23,259 --> 00:44:19,519
about but anyway some years later in

955
00:44:26,109 --> 00:44:23,269
1985 Steve was in the Army Reserve and

956
00:44:29,259 --> 00:44:26,119
again on the same base and they had a

957
00:44:32,829 --> 00:44:29,269
lot of malfunctioning equipment anything

958
00:44:34,150 --> 00:44:32,839
from rifles to radios and his own rifle

959
00:44:36,309 --> 00:44:34,160
would Jam even though he was really

960
00:44:37,900 --> 00:44:36,319
meticulous with it cleaning it stripping

961
00:44:40,390 --> 00:44:37,910
it down all the time as everyone had to

962
00:44:43,650 --> 00:44:40,400
do it was an SLR rifle they all had

963
00:44:46,500 --> 00:44:43,660

those which are an extremely reliable

964

00:44:50,370 --> 00:44:46,510

- a couple of other people had the same

965

00:44:52,740 --> 00:44:50,380

problem with their rifles curiously the

966

00:44:55,260 --> 00:44:52,750

radio operator would report his radio

967

00:44:57,690 --> 00:44:55,270

would just stop working but as soon as

968

00:45:00,240 --> 00:44:57,700

he came out of the upper and the

969

00:45:02,880 --> 00:45:00,250

operation his radio would function fully

970

00:45:06,180 --> 00:45:02,890

the battery wasn't drained its

971

00:45:07,740 --> 00:45:06,190

functionality was just suspended and the

972

00:45:09,990 --> 00:45:07,750

same occurred with vehicles where they

973

00:45:13,859 --> 00:45:10,000

would just die and then they would start

974

00:45:15,299 --> 00:45:13,869

again and at times Stephen said he had

975

00:45:17,220 --> 00:45:15,309

trouble with constant with his own

976
00:45:19,920 --> 00:45:17,230
concentration and other people did too

977
00:45:23,700 --> 00:45:19,930
they were talking about that and there

978
00:45:26,329 --> 00:45:23,710
was a certain no-go area which was deep

979
00:45:28,500 --> 00:45:26,339
in the base where all this would occur

980
00:45:31,380 --> 00:45:28,510
so there are some really strange things

981
00:45:33,630 --> 00:45:31,390
going on there but a group of a group of

982
00:45:38,069 --> 00:45:33,640
people in the earlier part they had that

983
00:45:40,470 --> 00:45:38,079
3 hours of missing time that is that is

984
00:45:42,510 --> 00:45:40,480
bizarre as Cheryl we've only got about

985
00:45:46,260 --> 00:45:42,520
three minutes left in the show but a

986
00:45:48,630 --> 00:45:46,270
really quick Jeremy from the Las Vegas

987
00:45:51,809 --> 00:45:48,640
UFO Hunters wants to know if the the

988
00:45:54,720 --> 00:45:51,819

number or frequency of UFO sightings

989

00:45:58,829 --> 00:45:54,730

have they increased or decreased since

990

00:46:01,440 --> 00:45:58,839

the recent fires in Australia decreased

991

00:46:04,819 --> 00:46:01,450

but they were they were lied before that

992

00:46:07,319 --> 00:46:04,829

there's not been a lot happening here

993

00:46:09,750 --> 00:46:07,329

for quite some years it's been it's just

994

00:46:12,269 --> 00:46:09,760

gone into that cycle that love cycle

995

00:46:16,799 --> 00:46:12,279

which does happen with this phenomenon

996

00:46:18,990 --> 00:46:16,809

from time to time but there has been

997

00:46:20,940 --> 00:46:19,000

something there were a couple of reports

998

00:46:22,529 --> 00:46:20,950

came in with someone had sent some video

999

00:46:24,809 --> 00:46:22,539

footage in where we thought they could

1000

00:46:28,829 --> 00:46:24,819

it could be some sort of genuine UFO

1001
00:46:31,859 --> 00:46:28,839
that was again north of Brisbane but

1002
00:46:33,329 --> 00:46:31,869
generally everything's pretty quiet all

1003
00:46:35,460 --> 00:46:33,339
right well why don't you let our

1004
00:46:38,789 --> 00:46:35,470
audience know really quick where they

1005
00:46:39,779 --> 00:46:38,799
can find out more about - where websites

1006
00:46:44,819 --> 00:46:39,789
