1  
00:00:08,390 --> 00:00:07,349

[Music]

2  
00:00:11,830 --> 00:00:08,400  
exploring

3  
00:00:14,470 --> 00:00:11,840  
the bizarre bazaar your e-ticket ride

4  
00:00:17,109 --> 00:00:14,480  
into the world of the paranormal

5  
00:00:17,990 --> 00:00:17,119  
strap yourself in as we traverse the

6  
00:00:21,910 --> 00:00:18,000  
universe

7  
00:00:26,070 --> 00:00:21,920  
exploring the unexplained ufos

8  
00:00:29,109 --> 00:00:26,080  
ghosts lost world cryptozoology

9  
00:00:33,830 --> 00:00:29,119  
as well as other dimensions

10  
00:00:37,910 --> 00:00:36,549  
now your electrifying hosts of exploring

11  
00:00:41,190 --> 00:00:37,920  
the bazaar

12  
00:00:43,750 --> 00:00:41,200  
timothy beckley and tim schwartz

13  
00:00:47,110 --> 00:00:43,760

i wish this boat would stop rocking back

14

00:00:51,350 --> 00:00:49,990

i'm getting a little seasick tim what

15

00:00:52,470 --> 00:00:51,360

are we doing out here in the middle of

16

00:00:55,750 --> 00:00:52,480

the ocean anyway

17

00:00:59,990 --> 00:00:55,760

it's such a long

18

00:01:01,910 --> 00:01:00,000

long way from land

19

00:01:03,110 --> 00:01:01,920

you mean you don't like the swaying of

20

00:01:05,830 --> 00:01:03,120

the boat

21

00:01:08,149 --> 00:01:05,840

well you know i i've been told that you

22

00:01:09,270 --> 00:01:08,159

usos have been seen under the surface of

23

00:01:10,789 --> 00:01:09,280

the water here

24

00:01:12,789 --> 00:01:10,799

and they've really been scaring the

25

00:01:13,429 --> 00:01:12,799

bejesus out of people living off the

26

00:01:15,510 --> 00:01:13,439

shore

27

00:01:17,190 --> 00:01:15,520

they shoot up out of the water just

28

00:01:18,390 --> 00:01:17,200

after midnight and buzz around at

29

00:01:22,310 --> 00:01:18,400

terrific uh

30

00:01:24,789 --> 00:01:22,320

speed okay well i've heard about uh

31

00:01:26,070 --> 00:01:24,799

about the undersea saucers they've

32

00:01:29,510 --> 00:01:26,080

they've played havoc

33

00:01:32,149 --> 00:01:29,520

on some of our military vessels and

34

00:01:33,270 --> 00:01:32,159

i guess our guest tonight for example

35

00:01:35,590 --> 00:01:33,280

says that

36

00:01:36,710 --> 00:01:35,600

he's seen them while on deck and one

37

00:01:39,670 --> 00:01:36,720

incident

38

00:01:41,429 --> 00:01:39,680

hopefully they don't tell us about

39

00:01:45,749 --> 00:01:41,439

involved the sinking of a russian

40

00:01:47,590 --> 00:01:45,759

submarine boy you don't sound too good

41

00:01:50,550 --> 00:01:47,600

that's interesting but i think we better

42

00:01:52,710 --> 00:01:50,560

get back safely to sure

43

00:01:54,389 --> 00:01:52,720

i see the water beginning to bubble and

44

00:01:56,709 --> 00:01:54,399

there's a strange light

45

00:01:58,950 --> 00:01:56,719

aimed at us which is probably causing

46

00:02:02,310 --> 00:01:58,960

the boat to rock even more and

47

00:02:04,389 --> 00:02:02,320

hey try not to throw up on me will you

48

00:02:06,870 --> 00:02:04,399

okay well let's let's get back to the

49

00:02:09,190 --> 00:02:06,880

kcra studios before i

50

00:02:11,830 --> 00:02:09,200

i head for the railing to get some

51  
00:02:19,190 --> 00:02:15,589  
oh boy what do i have to put up with i

52  
00:02:22,150 --> 00:02:19,200  
tell you well well tim to take some

53  
00:02:24,390 --> 00:02:22,160  
take some pepto-bismol here and uh

54  
00:02:26,229 --> 00:02:24,400  
where's my dramamine

55  
00:02:27,990 --> 00:02:26,239  
get yourself back in shape so we can do

56  
00:02:30,949 --> 00:02:28,000  
this program we've got a

57  
00:02:31,589 --> 00:02:30,959  
most interesting guest uh tonight but

58  
00:02:35,270 --> 00:02:31,599  
before

59  
00:02:38,390 --> 00:02:35,280  
we introduce our guest um

60  
00:02:39,830 --> 00:02:38,400  
i i want to say that um we send out uh

61  
00:02:43,110 --> 00:02:39,840  
our

62  
00:02:46,309 --> 00:02:43,120  
passed away

63  
00:02:48,229 --> 00:02:46,319

angela uh joyner who uh some of you

64

00:02:51,670 --> 00:02:48,239

might have heard of she was um

65

00:02:54,070 --> 00:02:51,680

uh involved in the uh uh stephenville

66

00:02:54,869 --> 00:02:54,080

texas ufo flap how many years ago was

67

00:02:58,229 --> 00:02:54,879

that now tim

68

00:02:59,910 --> 00:02:58,239

oh oh my gosh 10 10 12 years ago right

69

00:03:01,670 --> 00:02:59,920

like that right yeah yeah where the

70

00:03:05,190 --> 00:03:01,680

objects even

71

00:03:08,070 --> 00:03:05,200

was the bush family uh

72

00:03:09,190 --> 00:03:08,080

residents uh out there and picked up on

73

00:03:11,670 --> 00:03:09,200

raider and

74

00:03:12,470 --> 00:03:11,680

radar and uh photographed a very

75

00:03:15,670 --> 00:03:12,480

impressive

76

00:03:18,390 --> 00:03:15,680

uh series of uh sightings and

77

00:03:19,990 --> 00:03:18,400

uh landings i mean it was a what had

78

00:03:24,470 --> 00:03:20,000

happened it got a

79

00:03:27,030 --> 00:03:24,480

a lot of attention in the in the media

80

00:03:28,309 --> 00:03:27,040

oh yeah very much so and uh yeah angela

81

00:03:30,630 --> 00:03:28,319

was like uh

82

00:03:32,149 --> 00:03:30,640

one of the first to to report on it and

83

00:03:35,030 --> 00:03:32,159

wrote a book on it and

84

00:03:36,390 --> 00:03:35,040

uh well i think that she did she get

85

00:03:39,350 --> 00:03:36,400

laid off

86

00:03:40,309 --> 00:03:39,360

or fired from her job because she uh

87

00:03:43,990 --> 00:03:40,319

refused the

88

00:03:47,270 --> 00:03:44,000

the to stop talking about it possibly

89

00:03:48,630 --> 00:03:47,280

you know it's yeah it's it's hard

90

00:03:50,710 --> 00:03:48,640

it's hard to say you know you get you've

91

00:03:51,430 --> 00:03:50,720

got these you know small town newspapers

92

00:03:53,509 --> 00:03:51,440

and uh

93

00:03:54,789 --> 00:03:53,519

you know unfortunately circulation a

94

00:03:57,350 --> 00:03:54,799

couple of thousands

95

00:03:58,550 --> 00:03:57,360

yeah yeah yeah and you know the staff

96

00:04:02,309 --> 00:03:58,560

can come and go but

97

00:04:06,550 --> 00:04:02,319

uh i i sincerely doubt that uh that her

98

00:04:09,110 --> 00:04:06,560

editors uh uh wanted her to continue

99

00:04:10,309 --> 00:04:09,120

the the reporting on the subject like

100

00:04:11,670 --> 00:04:10,319

like she wanted to

101

00:04:13,190 --> 00:04:11,680

so you know that that may have had

102

00:04:14,470 --> 00:04:13,200

something to do you would think that

103

00:04:17,030 --> 00:04:14,480

that would increase the

104

00:04:18,949 --> 00:04:17,040

readership of the paper i mean it said

105

00:04:21,349 --> 00:04:18,959

the paper got mentioned in the media and

106

00:04:22,950 --> 00:04:21,359

on tv in the history chat and all that

107

00:04:24,870 --> 00:04:22,960

nobody would have heard of it uh

108

00:04:26,710 --> 00:04:24,880

otherwise

109

00:04:30,230 --> 00:04:26,720

i think they're probably kicking a dead

110

00:04:32,390 --> 00:04:30,240

horse or a mutilated horse or something

111

00:04:33,990 --> 00:04:32,400

and any anyway i also understand that

112

00:04:35,590 --> 00:04:34,000

her husband was very

113

00:04:37,990 --> 00:04:35,600

ill with the virus and i don't know

114

00:04:41,189 --> 00:04:38,000

whether he uh passed away

115

00:04:43,110 --> 00:04:41,199

or not but if they did they

116

00:04:44,870 --> 00:04:43,120

went pretty much together on the same

117

00:04:48,390 --> 00:04:44,880

day i think and uh

118

00:04:51,189 --> 00:04:48,400

again our sympathy towards to the family

119

00:04:53,270 --> 00:04:51,199

and uh it really puzzles me why a lot of

120

00:04:54,950 --> 00:04:53,280

people still think that the virus is a

121

00:04:58,390 --> 00:04:54,960

hoax

122

00:05:01,830 --> 00:04:58,400

well over the 350 000 mark i believe

123

00:05:05,029 --> 00:05:01,840

um something like that yeah anyway

124

00:05:06,310 --> 00:05:05,039

let us bring some uh enlightenment uh to

125

00:05:09,110 --> 00:05:06,320

our uh

126

00:05:09,830 --> 00:05:09,120

listeners uh this evening uh tim out

127

00:05:12,230 --> 00:05:09,840

there in

128

00:05:13,270 --> 00:05:12,240

jasper indiana where all things are cool

129

00:05:16,710 --> 00:05:13,280

and

130

00:05:19,110 --> 00:05:16,720

a hip why don't you uh tell us who we're

131

00:05:22,469 --> 00:05:19,120

going to be speaking to for the next

132

00:05:24,790 --> 00:05:22,479

25 minutes or so yeah my pleasure tim

133

00:05:26,310 --> 00:05:24,800

uh tonight we have a first time guest on

134

00:05:27,590 --> 00:05:26,320

exploring the bazaar and we're very

135

00:05:30,790 --> 00:05:27,600

happy to have

136

00:05:32,790 --> 00:05:30,800

joe foster now joe spent years working

137

00:05:34,790 --> 00:05:32,800

in diverse positions including

138

00:05:37,110 --> 00:05:34,800

technology program management

139

00:05:38,469 --> 00:05:37,120

i.t project management data center

140

00:05:40,469 --> 00:05:38,479

management et cetera

141

00:05:42,629 --> 00:05:40,479

however this was just the icing on the

142

00:05:45,510 --> 00:05:42,639

cake considering the paranormal events

143

00:05:47,590 --> 00:05:45,520

that he witnessed over the years now joe

144

00:05:50,550 --> 00:05:47,600

says that he's had years of experience

145

00:05:53,430 --> 00:05:50,560

involving the uap ufo phenomena

146

00:05:54,550 --> 00:05:53,440

starting at the tender age of three and

147

00:05:56,870 --> 00:05:54,560

continuing through

148

00:05:59,350 --> 00:05:56,880

to his last ufo sighting which occurred

149

00:06:01,670 --> 00:05:59,360

in may 2015.

150

00:06:02,629 --> 00:06:01,680

these incidents uh both civilian and

151  
00:06:05,350 --> 00:06:02,639  
military

152  
00:06:06,629 --> 00:06:05,360  
left an indelible mark demanding that he

153  
00:06:08,150 --> 00:06:06,639  
explore the phenomena

154  
00:06:10,309 --> 00:06:08,160  
and share with the public whatever

155  
00:06:12,870 --> 00:06:10,319  
knowledge or insights

156  
00:06:13,590 --> 00:06:12,880  
he's gained additionally his background

157  
00:06:15,510 --> 00:06:13,600  
included

158  
00:06:16,870 --> 00:06:15,520  
working for the government as well as

159  
00:06:18,950 --> 00:06:16,880  
private industry

160  
00:06:21,510 --> 00:06:18,960  
including advanced technologies

161  
00:06:23,110 --> 00:06:21,520  
furthered that added fuel to the desire

162  
00:06:25,350 --> 00:06:23,120  
of understanding the world

163  
00:06:27,350 --> 00:06:25,360

both seen and unseen in which we live

164

00:06:30,629 --> 00:06:27,360

along with all the mysteries

165

00:06:34,070 --> 00:06:30,639

that as of yet remain unexplained

166

00:06:37,510 --> 00:06:34,080

now joe also has a chapter in

167

00:06:39,670 --> 00:06:37,520

our upcoming book alien lives matter

168

00:06:40,550 --> 00:06:39,680

which should be coming out but tomorrow

169

00:06:43,909 --> 00:06:40,560

tim

170

00:06:47,189 --> 00:06:43,919

oh you know this thing is oh

171

00:06:48,230 --> 00:06:47,199

it's over 800 pages already you need two

172

00:06:51,670 --> 00:06:48,240

people to

173

00:06:53,029 --> 00:06:51,680

to carry it in from the uh mailbox i

174

00:06:54,629 --> 00:06:53,039

mean at this uh

175

00:06:56,629 --> 00:06:54,639

point it's got everything in there i

176

00:06:59,670 --> 00:06:56,639

mean hundreds of cases where

177

00:07:00,390 --> 00:06:59,680

earthlings have had uh skirmishes with

178

00:07:02,469 --> 00:07:00,400

the

179

00:07:03,749 --> 00:07:02,479

aliens or interdimensional beings or

180

00:07:07,110 --> 00:07:03,759

whoever they are

181

00:07:11,270 --> 00:07:07,120

and in most cases the aliens have sought

182

00:07:14,230 --> 00:07:11,280

revenge anyway you know i i um

183

00:07:14,950 --> 00:07:14,240

joe is a a newfound friend i i should

184

00:07:17,909 --> 00:07:14,960

say

185

00:07:19,830 --> 00:07:17,919

i found him quite by accident through a

186

00:07:21,749 --> 00:07:19,840

mutual acquaintance of ours

187

00:07:23,110 --> 00:07:21,759

mindy gerber who i've known for many

188

00:07:25,110 --> 00:07:23,120

years she's uh

189

00:07:26,150 --> 00:07:25,120

associated with pat martillo's group

190

00:07:29,670 --> 00:07:26,160

down there in the board

191

00:07:31,589 --> 00:07:29,680

of borden town uh trenton new jersey uh

192

00:07:33,749 --> 00:07:31,599

and we wish them all a happy new year

193

00:07:36,790 --> 00:07:33,759

down there too our friends in

194

00:07:38,870 --> 00:07:36,800

bordentown and trenton now the um

195

00:07:40,070 --> 00:07:38,880

the listing that i i got which i think

196

00:07:42,550 --> 00:07:40,080

was in the mufon

197

00:07:44,950 --> 00:07:42,560

journal or or somewhere online i believe

198

00:07:47,749 --> 00:07:44,960

it was about a um a lecture that

199

00:07:49,270 --> 00:07:47,759

joe was going to do on on zoom a couple

200

00:07:50,469 --> 00:07:49,280

of days later and i wanted to get in

201

00:07:53,909 --> 00:07:50,479

touch with him because

202

00:07:57,270 --> 00:07:53,919

there's a section in the alien lives

203

00:07:59,510 --> 00:07:57,280

matter about usos uh undersea

204

00:08:03,430 --> 00:07:59,520

objects thus you are reeling back and

205

00:08:07,110 --> 00:08:06,230

now this is this is what i wrote at the

206

00:08:10,150 --> 00:08:07,120

at the time

207

00:08:12,629 --> 00:08:10,160

while looking for uh joe not realizing

208

00:08:14,710 --> 00:08:12,639

that there was an email in my inbox

209

00:08:16,150 --> 00:08:14,720

from him because i didn't get around to

210

00:08:18,469 --> 00:08:16,160

reading it but anyway

211

00:08:19,749 --> 00:08:18,479

this is what i wrote death at the bottom

212

00:08:22,390 --> 00:08:19,759

of the sea

213

00:08:24,070 --> 00:08:22,400

border master joseph foster was on deck

214

00:08:27,189 --> 00:08:24,080

when he saw three objects

215

00:08:29,749 --> 00:08:27,199

careening at 3 500 miles per hour

216

00:08:31,670 --> 00:08:29,759

over his coast guard cutter the melon

217

00:08:33,190 --> 00:08:31,680

just 10 minutes later he learned of the

218

00:08:35,909 --> 00:08:33,200

sinking of a soviet

219

00:08:38,389 --> 00:08:35,919

submarine carrying three-armed nuclear

220

00:08:41,029 --> 00:08:38,399

ballistic weapons and torpedoes lost

221

00:08:41,909 --> 00:08:41,039

with all hands mysterious objects had

222

00:08:45,030 --> 00:08:41,919

approached from

223

00:08:46,790 --> 00:08:45,040

that same direction 800 miles away the

224

00:08:50,389 --> 00:08:46,800

1968 incident

225

00:08:51,269 --> 00:08:50,399

prompted the cia to investigate the case

226

00:08:54,470 --> 00:08:51,279

of the sub

227

00:08:56,470 --> 00:08:54,480

since it was during the cold war i want

228

00:09:00,870 --> 00:08:56,480

to find out all the details about this

229

00:09:04,870 --> 00:09:03,590

exciting i mean it's just super anyway

230

00:09:08,790 --> 00:09:04,880

uh

231

00:09:11,590 --> 00:09:08,800

joe welcome to exploring the bazaar and

232

00:09:12,470 --> 00:09:11,600

you know i want to start out i mean okay

233

00:09:15,350 --> 00:09:12,480

you say that you

234

00:09:16,310 --> 00:09:15,360

you had experiences at an early age and

235

00:09:18,230 --> 00:09:16,320

uh from what i

236

00:09:19,430 --> 00:09:18,240

i read which is going to be the details

237

00:09:20,230 --> 00:09:19,440

that are in the book that you wrote up

238

00:09:22,230 --> 00:09:20,240

for us

239

00:09:23,990 --> 00:09:22,240

you've had numerous numerous uh

240

00:09:27,110 --> 00:09:24,000

sightings and experiences

241

00:09:28,949 --> 00:09:27,120

um since then most of while you're in

242

00:09:32,230 --> 00:09:28,959

the

243

00:09:35,430 --> 00:09:32,240

coast guard do you think that you were

244

00:09:36,150 --> 00:09:35,440

predestined to have these experiences i

245

00:09:39,030 --> 00:09:36,160

mean

246

00:09:40,470 --> 00:09:39,040

why were you at the right place or the

247

00:09:45,190 --> 00:09:40,480

wrong place at the

248

00:09:53,990 --> 00:09:50,870

that's an excellent question uh

249

00:09:56,710 --> 00:09:54,000

no i i i definitely think that uh

250

00:09:58,389 --> 00:09:56,720

you know life we kind of follow a path

251  
00:10:00,710 --> 00:09:58,399  
that's laid out for us

252  
00:10:02,069 --> 00:10:00,720  
where it takes us we have no clue but

253  
00:10:05,590 --> 00:10:02,079  
you know in hindsight

254  
00:10:08,710 --> 00:10:05,600  
you can see that some things happen

255  
00:10:11,829 --> 00:10:08,720  
more often that you don't plan on

256  
00:10:14,710 --> 00:10:11,839  
you don't look for it's just happen

257  
00:10:16,630 --> 00:10:14,720  
and then like secret life yeah like

258  
00:10:18,230 --> 00:10:16,640  
synchronicities in my life i've done a

259  
00:10:20,150 --> 00:10:18,240  
450 page book

260  
00:10:21,350 --> 00:10:20,160  
on synchronicities and i'm talking about

261  
00:10:24,069 --> 00:10:21,360  
looking at the

262  
00:10:25,910 --> 00:10:24,079  
clock and it's saying you know 11 11 or

263  
00:10:27,269 --> 00:10:25,920

thinking of somebody in the telephone uh

264

00:10:28,790 --> 00:10:27,279

you know rings and it's then the next

265

00:10:31,509 --> 00:10:28,800

day i'm talking about stuff

266

00:10:33,190 --> 00:10:31,519

that is so bizarre that it's worthy of a

267

00:10:35,190 --> 00:10:33,200

450 page book

268

00:10:37,030 --> 00:10:35,200

but anyway don't let me interrupt you

269

00:10:38,710 --> 00:10:37,040

any more than i have to so you just go

270

00:10:40,550 --> 00:10:38,720

ahead with your story

271

00:10:42,069 --> 00:10:40,560

okay well i'm going to give you a quick

272

00:10:45,030 --> 00:10:42,079

a quick um

273

00:10:45,670 --> 00:10:45,040

synchronicity yeah and actually the the

274

00:10:48,790 --> 00:10:45,680

first

275

00:10:53,430 --> 00:10:48,800

aspect of this synchronicity

276

00:10:56,230 --> 00:10:53,440

took place in 1958 july of 1958

277

00:10:57,590 --> 00:10:56,240

now i was in fifth going into sixth

278

00:11:00,790 --> 00:10:57,600

grade at the time

279

00:11:01,829 --> 00:11:00,800

and i lived on a farm in new jersey and

280

00:11:06,310 --> 00:11:01,839

uh

281

00:11:08,069 --> 00:11:06,320

one night it was about 7 30 at night

282

00:11:09,670 --> 00:11:08,079

my family and i were all sitting out

283

00:11:12,150 --> 00:11:09,680

front the house

284

00:11:13,350 --> 00:11:12,160

just enjoying the evening my dad worked

285

00:11:15,750 --> 00:11:13,360

on the farm

286

00:11:18,230 --> 00:11:15,760

and the farm is located a couple hundred

287

00:11:19,990 --> 00:11:18,240

yards from what we call the navy road or

288

00:11:23,350 --> 00:11:20,000

normandy road

289

00:11:26,230 --> 00:11:23,360

and that is a private road that links a

290

00:11:28,550 --> 00:11:26,240

naval weapon naval ammunition depot

291

00:11:30,790 --> 00:11:28,560

located in colts snack new jersey

292

00:11:34,069 --> 00:11:30,800

with its peer facilities in middletown

293

00:11:35,990 --> 00:11:34,079

new jersey about 13.2 miles away

294

00:11:37,269 --> 00:11:36,000

now the interesting thing about this

295

00:11:40,389 --> 00:11:37,279

road they use

296

00:11:41,269 --> 00:11:40,399

the road for they've got a two-track uh

297

00:11:44,790 --> 00:11:41,279

train line

298

00:11:47,509 --> 00:11:44,800

as well as the highway two lane highway

299

00:11:47,990 --> 00:11:47,519

and they carry munitions to and from the

300

00:11:50,470 --> 00:11:48,000

storage

301  
00:11:52,069 --> 00:11:50,480  
facilities to the ships that tie up at

302  
00:11:54,230 --> 00:11:52,079  
the longest finger pier

303  
00:11:57,190 --> 00:11:54,240  
in the world it's a two and a half mile

304  
00:12:00,389 --> 00:11:57,200  
long finger pier that the navy owns

305  
00:12:03,350 --> 00:12:00,399  
and they would be moving munitions

306  
00:12:05,269 --> 00:12:03,360  
back and forth but you always knew when

307  
00:12:05,910 --> 00:12:05,279  
interesting munitions were being moved

308  
00:12:09,750 --> 00:12:05,920  
because they

309  
00:12:11,430 --> 00:12:09,760  
usually had squads of armed marines

310  
00:12:13,590 --> 00:12:11,440  
at the crossroads they'd shut down the

311  
00:12:15,430 --> 00:12:13,600  
crossroad and the train or the truck

312  
00:12:16,870 --> 00:12:15,440  
would pass and then they'd open the road

313  
00:12:19,509 --> 00:12:16,880

back up again

314

00:12:20,790 --> 00:12:19,519

so that kind of sets the stage because

315

00:12:23,829 --> 00:12:20,800

this one evening

316

00:12:25,030 --> 00:12:23,839

in july we're sitting there and we watch

317

00:12:27,190 --> 00:12:25,040

looking across the road

318

00:12:28,550 --> 00:12:27,200

about two or three hundred yards away is

319

00:12:30,150 --> 00:12:28,560

the navy road

320

00:12:31,670 --> 00:12:30,160

and they're flying from the north

321

00:12:35,190 --> 00:12:31,680

heading south

322

00:12:38,949 --> 00:12:35,200

of the silver sphere now this is dusk

323

00:12:41,110 --> 00:12:38,959

okay after sunset but it's like daylight

324

00:12:43,030 --> 00:12:41,120

so you had this shiny silver sphere with

325

00:12:43,590 --> 00:12:43,040

red and white flashing lights all around

326

00:12:47,269 --> 00:12:43,600

it

327

00:12:49,110 --> 00:12:47,279

up and he ran into the house

328

00:12:50,870 --> 00:12:49,120

and he tried calling fort monmouth which

329

00:12:53,750 --> 00:12:50,880

is a couple of miles away

330

00:12:54,629 --> 00:12:53,760

oh yeah and he couldn't get through the

331

00:12:55,829 --> 00:12:54,639

switchboard

332

00:12:58,230 --> 00:12:55,839

for whatever reason he couldn't get

333

00:12:59,829 --> 00:12:58,240

through the switchboard so

334

00:13:02,230 --> 00:12:59,839

nothing more happened about that we

335

00:13:04,069 --> 00:13:02,240

didn't see anything in the paper

336

00:13:06,069 --> 00:13:04,079

my father didn't contact papers or

337

00:13:10,389 --> 00:13:06,079

anything else and apparently nobody

338

00:13:12,230 --> 00:13:10,399

else did but years later

339

00:13:13,350 --> 00:13:12,240

we're starting an arts council in long

340

00:13:14,470 --> 00:13:13,360

branch and there were a number of

341

00:13:19,990 --> 00:13:14,480

volunteers

342

00:13:23,590 --> 00:13:20,000

gentleman that worked over at fort mons

343

00:13:25,829 --> 00:13:23,600

to live when in 1958 he lived

344

00:13:26,710 --> 00:13:25,839

about three or four miles further to the

345

00:13:29,509 --> 00:13:26,720

north

346

00:13:30,470 --> 00:13:29,519

right on the swimming river when i told

347

00:13:32,710 --> 00:13:30,480

him about this

348

00:13:34,470 --> 00:13:32,720

he said oh yeah he said i remember we

349

00:13:38,949 --> 00:13:34,480

had an object land

350

00:13:41,829 --> 00:13:38,959

in the swampy area alongside the parkway

351  
00:13:42,629 --> 00:13:41,839  
going towards where i had seen the thing

352  
00:13:46,629 --> 00:13:42,639  
now that was

353  
00:13:48,310 --> 00:13:46,639  
that was in 1997 that he said that

354  
00:13:50,389 --> 00:13:48,320  
now the last part of the synchronicity

355  
00:13:54,949 --> 00:13:50,399  
for this particular story

356  
00:13:57,990 --> 00:13:54,959  
happened in 2002 the summer of 2002

357  
00:14:00,069 --> 00:13:58,000  
a crop circle showed up about 200 yards

358  
00:14:02,550 --> 00:14:00,079  
behind where my house used to be

359  
00:14:04,870 --> 00:14:02,560  
on the farm the farm is no longer a farm

360  
00:14:07,430 --> 00:14:04,880  
but it's now a county park

361  
00:14:08,949 --> 00:14:07,440  
so it's thor brook park so there was

362  
00:14:12,710 --> 00:14:08,959  
three things but it took

363  
00:14:15,269 --> 00:14:12,720

space from yes 58 to 2002.

364

00:14:16,470 --> 00:14:15,279

so that's what this is what happens yes

365

00:14:20,870 --> 00:14:16,480

indeed

366

00:14:24,310 --> 00:14:20,880

thing is

367

00:14:25,189 --> 00:14:24,320

now this area has been noted for ufo

368

00:14:28,710 --> 00:14:25,199

sightings

369

00:14:32,389 --> 00:14:28,720

probably a lot to do with that navy road

370

00:14:34,230 --> 00:14:32,399

and we even had a landing in 1970

371

00:14:35,750 --> 00:14:34,240

okay about a mile and a half away from

372

00:14:37,910 --> 00:14:35,760

the pier

373

00:14:40,310 --> 00:14:37,920

in a town called port mamas it's

374

00:14:44,069 --> 00:14:40,320

actually a village part of middletown

375

00:14:46,710 --> 00:14:44,079

now that was in 1970 okay

376

00:14:48,230 --> 00:14:46,720

here's another synchronicity i also

377

00:14:50,069 --> 00:14:48,240

volunteer

378

00:14:51,990 --> 00:14:50,079

i'm retired now so i have plenty of time

379

00:14:53,670 --> 00:14:52,000

to volunteer i volunteer

380

00:14:55,910 --> 00:14:53,680

at one of the two remaining nike

381

00:14:59,670 --> 00:14:55,920

hercules sites

382

00:15:02,550 --> 00:14:59,680

in the world we have the if the ifc

383

00:15:04,069 --> 00:15:02,560

integrated fire control totally restored

384

00:15:05,990 --> 00:15:04,079

and we also have the launcher area and

385

00:15:09,189 --> 00:15:06,000

we have several missiles and so we

386

00:15:11,430 --> 00:15:09,199

we give tours and it's on a county path

387

00:15:12,949 --> 00:15:11,440

not a county park but the uh the

388

00:15:14,470 --> 00:15:12,959

national park

389

00:15:16,150 --> 00:15:14,480

i'd like to i'd like to come to i'd like

390

00:15:18,069 --> 00:15:16,160

to come down there sometime and to check

391

00:15:19,509 --> 00:15:18,079

that out it sounds fascinating

392

00:15:21,509 --> 00:15:19,519

absolutely and i'll give you we'll give

393

00:15:23,269 --> 00:15:21,519

you the tour yeah okay

394

00:15:25,590 --> 00:15:23,279

anyway the interesting thing about this

395

00:15:27,590 --> 00:15:25,600

and this again this is another

396

00:15:29,189 --> 00:15:27,600

thread that hangs off of the original

397

00:15:32,550 --> 00:15:29,199

story

398

00:15:35,110 --> 00:15:32,560

in 1970 when that ufo landed and i

399

00:15:36,790 --> 00:15:35,120

i have the the article in the local

400

00:15:38,069 --> 00:15:36,800

newspaper that covered it along with

401

00:15:39,670 --> 00:15:38,079

photographs

402

00:15:42,790 --> 00:15:39,680

of the crop circle where it actually

403

00:15:44,230 --> 00:15:42,800

landed a small area in the swampy area

404

00:15:45,829 --> 00:15:44,240

about a mile and a half away from the

405

00:15:48,949 --> 00:15:45,839

navy pier

406

00:15:50,389 --> 00:15:48,959

now this is this nuke site is about

407

00:15:53,710 --> 00:15:50,399

seven driving miles

408

00:15:56,470 --> 00:15:53,720

away from this site that

409

00:15:59,509 --> 00:15:56,480

1970 according to the head of our

410

00:16:02,870 --> 00:15:59,519

volunteers association was a

411

00:16:03,829 --> 00:16:02,880

he was a launch section chief that was

412

00:16:07,670 --> 00:16:03,839

stationed there

413

00:16:09,509 --> 00:16:07,680

in 1970 and the story that we give we

414

00:16:10,629 --> 00:16:09,519

give the tour and we explain that the

415

00:16:13,350 --> 00:16:10,639

only time

416

00:16:14,870 --> 00:16:13,360

those nikes were ever armed and ready

417

00:16:17,910 --> 00:16:14,880

for flight

418

00:16:21,189 --> 00:16:17,920

was in the summer of 1970.

419

00:16:21,590 --> 00:16:21,199

coincidental i don't think so i think

420

00:16:24,389 --> 00:16:21,600

it's

421

00:16:26,230 --> 00:16:24,399

i think there's a cause and effect here

422

00:16:27,430 --> 00:16:26,240

that nobody's ever talked about even the

423

00:16:29,030 --> 00:16:27,440

nike guys

424

00:16:30,470 --> 00:16:29,040

they were given a different story now

425

00:16:32,550 --> 00:16:30,480

these nikes there were 24

426

00:16:33,749 --> 00:16:32,560

nuclear armed missiles and they were

427

00:16:35,590 --> 00:16:33,759

ready for flight

428

00:16:37,350 --> 00:16:35,600

only once in the six years that this

429

00:16:40,949 --> 00:16:37,360

gentleman was stationed

430

00:16:43,110 --> 00:16:40,959

at that site so that is something that i

431

00:16:46,310 --> 00:16:43,120

think is very significant

432

00:16:47,749 --> 00:16:46,320

seven miles away navy pier fort monmouth

433

00:16:50,470 --> 00:16:47,759

bell labs where

434

00:16:53,269 --> 00:16:50,480

you know the transistor was developed

435

00:16:55,990 --> 00:16:53,279

very interesting area and of itself

436

00:16:57,030 --> 00:16:56,000

so anyway if you have a question i'll be

437

00:16:59,670 --> 00:16:57,040

more than happy to handle

438

00:17:01,189 --> 00:16:59,680

well well okay well now i do want to

439

00:17:03,030 --> 00:17:01,199

since we only have an hour program here

440

00:17:06,150 --> 00:17:03,040

i want to get into your

441

00:17:06,390 --> 00:17:06,160

experiences that took a place while you

442

00:17:09,829 --> 00:17:06,400

were

443

00:17:11,750 --> 00:17:09,839

in the coast guard and okay and let us

444

00:17:12,949 --> 00:17:11,760

let us start with the one that i

445

00:17:15,750 --> 00:17:12,959

described at the

446

00:17:17,750 --> 00:17:15,760

beginning of the show because that would

447

00:17:19,990 --> 00:17:17,760

seem to be the most exciting one

448

00:17:21,750 --> 00:17:20,000

and also if we run out of time time we

449

00:17:23,110 --> 00:17:21,760

want to get to more details on that one

450

00:17:26,069 --> 00:17:23,120

and then we can go

451  
00:17:27,909 --> 00:17:26,079  
and reverse our our steps absolutely

452  
00:17:31,190 --> 00:17:27,919  
okay i'll jump right in then

453  
00:17:34,230 --> 00:17:31,200  
okay 1969 i got out of boot

454  
00:17:37,830 --> 00:17:34,240  
i went into boot camp february of 69

455  
00:17:40,630 --> 00:17:37,840  
i marched in eisenhower's funerals uh

456  
00:17:42,710 --> 00:17:40,640  
parade his funeral and then i was

457  
00:17:44,710 --> 00:17:42,720  
stationed i was sent to hawaii and i was

458  
00:17:49,190 --> 00:17:44,720  
stationed on a coast guard cutter

459  
00:17:52,549 --> 00:17:51,590  
my first ocean station victor my first

460  
00:17:56,070 --> 00:17:52,559  
patrol

461  
00:17:56,870 --> 00:17:56,080  
was july of 1969 now that's an

462  
00:17:58,950 --> 00:17:56,880  
interesting

463  
00:18:00,549 --> 00:17:58,960

period of time obviously for a number of

464

00:18:02,870 --> 00:18:00,559

reasons we're out on

465

00:18:03,669 --> 00:18:02,880

ocean station which is halfway between

466

00:18:06,710 --> 00:18:03,679

hawaii

467

00:18:08,870 --> 00:18:06,720

and japan and we were in age navigation

468

00:18:11,510 --> 00:18:08,880

we had a doctor on board

469

00:18:12,310 --> 00:18:11,520

we had you know rescue capabilities and

470

00:18:15,350 --> 00:18:12,320

so on

471

00:18:17,430 --> 00:18:15,360

we sat on a 10 square mile station for

472

00:18:19,669 --> 00:18:17,440

about 25 days

473

00:18:21,029 --> 00:18:19,679

and during that time we just sat there

474

00:18:23,830 --> 00:18:21,039

and monitored and

475

00:18:26,150 --> 00:18:23,840

provided navigational assistance well

476

00:18:27,590 --> 00:18:26,160

this is also during the apollo 11

477

00:18:30,310 --> 00:18:27,600

mission

478

00:18:31,750 --> 00:18:30,320

okay we would get periodic updates on

479

00:18:34,789 --> 00:18:31,760

the status of

480

00:18:37,110 --> 00:18:34,799

the apollo 11 mission now one night i

481

00:18:39,830 --> 00:18:37,120

was going on to the mid watch i was a

482

00:18:41,350 --> 00:18:39,840

semen apprentice at the time and we're

483

00:18:43,110 --> 00:18:41,360

all up on the bridge there were four of

484

00:18:43,750 --> 00:18:43,120

us that were getting ready to relieve

485

00:18:46,470 --> 00:18:43,760

the four

486

00:18:47,029 --> 00:18:46,480

watch standards that were there coming

487

00:18:49,510 --> 00:18:47,039

off

488

00:18:51,350 --> 00:18:49,520

i was going on to the midwatch and there

489

00:18:52,630 --> 00:18:51,360

were about a total of 14 people on the

490

00:18:54,470 --> 00:18:52,640

bridge at the time

491

00:18:55,830 --> 00:18:54,480

we had the captain and captain was on

492

00:18:57,750 --> 00:18:55,840

board

493

00:18:59,590 --> 00:18:57,760

the officer at deck and his his

494

00:19:01,990 --> 00:18:59,600

counterpart and so on

495

00:19:03,669 --> 00:19:02,000

uh we're up there and we're just getting

496

00:19:06,070 --> 00:19:03,679

ready to do the turnover

497

00:19:07,110 --> 00:19:06,080

and all of a sudden we get a squawk on

498

00:19:10,310 --> 00:19:07,120

the squawk box

499

00:19:13,909 --> 00:19:10,320

the intercom from combat information

500

00:19:15,510 --> 00:19:13,919

center cic and the radar operator

501  
00:19:17,990 --> 00:19:15,520  
reported that they were picking up

502  
00:19:19,270 --> 00:19:18,000  
targets bogeys because they were

503  
00:19:22,549 --> 00:19:19,280  
unidentified

504  
00:19:24,070 --> 00:19:22,559  
um flying out of the northwest heading

505  
00:19:25,190 --> 00:19:24,080  
on a course that would take him directly

506  
00:19:27,590 --> 00:19:25,200  
over the ship

507  
00:19:28,710 --> 00:19:27,600  
heading on a south uh out of the

508  
00:19:31,029 --> 00:19:28,720  
northeast i'm sorry

509  
00:19:32,390 --> 00:19:31,039  
heading on a southwesterly course that

510  
00:19:34,950 --> 00:19:32,400  
would take them directly

511  
00:19:35,830 --> 00:19:34,960  
directly over the ship then the radar

512  
00:19:38,070 --> 00:19:35,840  
operator said

513  
00:19:38,950 --> 00:19:38,080

that we haven't clocked at 3 500 miles

514

00:19:40,870 --> 00:19:38,960

per hour

515

00:19:41,990 --> 00:19:40,880

now this is three objects flying in

516

00:19:45,029 --> 00:19:42,000

formation

517

00:19:46,710 --> 00:19:45,039

in 1969 at 3 500 miles

518

00:19:49,110 --> 00:19:46,720

per hour i don't know of anything that

519

00:19:51,909 --> 00:19:49,120

we had at the time that could do that

520

00:19:53,190 --> 00:19:51,919

okay so anyway we all go running out to

521

00:19:57,750 --> 00:19:53,200

the starboard

522

00:19:59,590 --> 00:19:57,760

right right bridgewink

523

00:20:01,110 --> 00:19:59,600

ship was facing north so we're looking

524

00:20:02,630 --> 00:20:01,120

to the northeast

525

00:20:04,230 --> 00:20:02,640

and sure enough we pick up these three

526

00:20:07,190 --> 00:20:04,240

bright points of light

527

00:20:08,710 --> 00:20:07,200

on the horizon they fly over the ship

528

00:20:09,430 --> 00:20:08,720

everybody goes running through the

529

00:20:13,110 --> 00:20:09,440

bridge

530

00:20:13,990 --> 00:20:13,120

side of the ship and we watch them

531

00:20:16,470 --> 00:20:14,000

disappear

532

00:20:19,110 --> 00:20:16,480

on the horizon on the other side total

533

00:20:21,590 --> 00:20:19,120

time is about six or seven seconds

534

00:20:23,110 --> 00:20:21,600

so we had them clocked on radar by 3 500

535

00:20:26,470 --> 00:20:23,120

miles per hour

536

00:20:28,710 --> 00:20:26,480

and then they did some calculations some

537

00:20:31,190 --> 00:20:28,720

calculations and they came up with a

538

00:20:34,149 --> 00:20:31,200

speed of about 3 200 miles per hour

539

00:20:36,149 --> 00:20:34,159

based upon the visual uh visual visual

540

00:20:39,430 --> 00:20:36,159

sighting in the time it took

541

00:20:41,510 --> 00:20:39,440

so that was the one one my first

542

00:20:42,470 --> 00:20:41,520

instant when i was on on board the

543

00:20:44,950 --> 00:20:42,480

cutter

544

00:20:45,909 --> 00:20:44,960

now we came back and then about five or

545

00:20:49,190 --> 00:20:45,919

six months later

546

00:20:52,630 --> 00:20:49,200

we deployed to vietnam part of westpac

547

00:20:54,789 --> 00:20:52,640

we're down there we're providing gun gun

548

00:20:55,909 --> 00:20:54,799

fire support for a steel base down in

549

00:20:57,750 --> 00:20:55,919

saunadak

550

00:20:58,950 --> 00:20:57,760

area which is the mouth of the sauna

551  
00:21:00,950 --> 00:20:58,960  
dock river

552  
00:21:03,110 --> 00:21:00,960  
and we also went up and down the coast

553  
00:21:05,190 --> 00:21:03,120  
and we were coming back and we were

554  
00:21:06,470 --> 00:21:05,200  
hanking right anchored right at the

555  
00:21:10,310 --> 00:21:06,480  
where the

556  
00:21:13,430 --> 00:21:10,320  
south china sea meets the gulf of siam

557  
00:21:15,510 --> 00:21:13,440  
and we're a couple miles offshore and we

558  
00:21:16,630 --> 00:21:15,520  
were anchored waiting for orders to go

559  
00:21:18,789 --> 00:21:16,640  
and relieve

560  
00:21:19,750 --> 00:21:18,799  
the the ship that we were supposed to be

561  
00:21:21,830 --> 00:21:19,760  
relieving

562  
00:21:24,390 --> 00:21:21,840  
and at that time the captain gave the

563  
00:21:26,470 --> 00:21:24,400

authorization to have swim call

564

00:21:27,990 --> 00:21:26,480

now i'm i was a junior quartermaster of

565

00:21:30,310 --> 00:21:28,000

the watch so i got stuck on

566

00:21:32,149 --> 00:21:30,320

an anchor watch up on the bridge along

567

00:21:33,830 --> 00:21:32,159

with the other watch standards

568

00:21:35,990 --> 00:21:33,840

and so we're watching the whole thing

569

00:21:39,270 --> 00:21:36,000

we're standing on the port bridgewing

570

00:21:41,190 --> 00:21:39,280

looking back down into the water where

571

00:21:42,870 --> 00:21:41,200

the men were swimming off the ship they

572

00:21:45,190 --> 00:21:42,880

would dive off the main deck

573

00:21:47,669 --> 00:21:45,200

swim over to a raft climb back up a

574

00:21:49,510 --> 00:21:47,679

cargo net and do it all over again

575

00:21:51,990 --> 00:21:49,520

well now that you have to picture this

576

00:21:53,830 --> 00:21:52,000

the sky was kind of gray and overcast

577

00:21:56,230 --> 00:21:53,840

there was about a three to five knot

578

00:21:57,350 --> 00:21:56,240

wind and there was a slight chop to the

579

00:22:00,470 --> 00:21:57,360

water

580

00:22:03,909 --> 00:22:00,480

so you don't have the greatest viewing

581

00:22:06,149 --> 00:22:03,919

capability based upon those conditions

582

00:22:07,909 --> 00:22:06,159

but we're 44 feet above the water level

583

00:22:10,710 --> 00:22:07,919

looking basically down

584

00:22:11,430 --> 00:22:10,720

at the aft third of the ship and lo and

585

00:22:13,350 --> 00:22:11,440

behold

586

00:22:14,870 --> 00:22:13,360

all of a sudden coming out from

587

00:22:18,149 --> 00:22:14,880

underneath the ship

588

00:22:19,830 --> 00:22:18,159

was this gigantic black object at first

589

00:22:21,990 --> 00:22:19,840

we thought oh it must be a whale or a

590

00:22:24,310 --> 00:22:22,000

whale shark or something like that

591

00:22:25,990 --> 00:22:24,320

but the problem was it was it was too

592

00:22:28,390 --> 00:22:26,000

big for anything like that the only

593

00:22:29,430 --> 00:22:28,400

type of whale it could have been might

594

00:22:31,990 --> 00:22:29,440

have been a blue whale

595

00:22:33,750 --> 00:22:32,000

maybe but this thing this object was a

596

00:22:35,830 --> 00:22:33,760

hundred foot long

597

00:22:37,510 --> 00:22:35,840

and at its widest part it was tear drop

598

00:22:38,789 --> 00:22:37,520

shaped and at its widest part it was

599

00:22:42,870 --> 00:22:38,799

about 35

600

00:22:45,029 --> 00:22:42,880

35 foot wide that is a gigantic mass

601  
00:22:46,950 --> 00:22:45,039  
and we knew how deep it was because the

602  
00:22:49,830 --> 00:22:46,960  
keel of the ship at that level

603  
00:22:51,750 --> 00:22:49,840  
at that air where it came underneath was

604  
00:22:53,430 --> 00:22:51,760  
about 18 feet down

605  
00:22:55,590 --> 00:22:53,440  
so this thing was 20 feet below the

606  
00:22:58,710 --> 00:22:55,600  
surface big black shape

607  
00:23:01,510 --> 00:22:58,720  
no fin movement no no fluke no fins

608  
00:23:02,230 --> 00:23:01,520  
no nothing just this big black teardrop

609  
00:23:04,549 --> 00:23:02,240  
shape

610  
00:23:06,549 --> 00:23:04,559  
and it went at a right angle and

611  
00:23:09,350 --> 00:23:06,559  
disappeared after about

612  
00:23:10,710 --> 00:23:09,360  
maybe seven or eight ten seconds then

613  
00:23:12,789 --> 00:23:10,720

you couldn't see it anymore

614

00:23:14,710 --> 00:23:12,799

disappeared into the chop of the water

615

00:23:16,630 --> 00:23:14,720

the gray skies and everything

616

00:23:17,750 --> 00:23:16,640

but we all were up there and matter of

617

00:23:20,630 --> 00:23:17,760

fact the

618

00:23:21,669 --> 00:23:20,640

we had a gunners mate on the flying

619

00:23:24,870 --> 00:23:21,679

bridge with the

620

00:23:26,470 --> 00:23:24,880

m16 acting as a shark guard

621

00:23:27,830 --> 00:23:26,480

so we're all looking down we're all

622

00:23:29,510 --> 00:23:27,840

watching this thing and there's four

623

00:23:31,750 --> 00:23:29,520

guys down there

624

00:23:33,029 --> 00:23:31,760

joe joe let me interrupt you here uh

625

00:23:34,870 --> 00:23:33,039

unfortunately we have to go to our

626

00:23:37,510 --> 00:23:34,880

bottom of the hour break but we will

627

00:23:39,990 --> 00:23:37,520

continue your story when we come back

628

00:23:41,269 --> 00:23:40,000

on exploring the bazaar so stay tuned

629

00:23:44,390 --> 00:23:41,279

for more

630

00:23:46,470 --> 00:23:44,400

now back to exploring the bazaar

631

00:23:48,470 --> 00:23:46,480

with two of the most electrifying

632

00:23:51,830 --> 00:23:48,480

researchers in the paranormal

633

00:23:55,430 --> 00:23:51,840

your hosts timothy beckley and tim

634

00:23:57,510 --> 00:23:55,440

schwartz welcome back to exploring the

635

00:23:57,990 --> 00:23:57,520

bizarre i'm tim schwartz tonight our

636

00:24:00,789 --> 00:23:58,000

guest

637

00:24:01,190 --> 00:24:00,799

is joel foster and joe before we had to

638

00:24:03,190 --> 00:24:01,200

uh

639

00:24:04,230 --> 00:24:03,200

so rudely interrupt you to go to our

640

00:24:06,310 --> 00:24:04,240

bottom of the uh

641

00:24:09,029 --> 00:24:06,320

our break you were telling us this

642

00:24:12,390 --> 00:24:09,039

fascinating story about this

643

00:24:12,950 --> 00:24:12,400

massive uso that appeared underneath

644

00:24:15,269 --> 00:24:12,960

your ship

645

00:24:17,510 --> 00:24:15,279

go ahead and continue because i want to

646

00:24:18,789 --> 00:24:17,520

hear what happens

647

00:24:20,870 --> 00:24:18,799

well unfortunately it's almost

648

00:24:23,990 --> 00:24:20,880

anti-climatic um

649

00:24:25,430 --> 00:24:24,000

after the thing swam or glided

650

00:24:26,310 --> 00:24:25,440

underneath the ship and the direction

651  
00:24:28,390 --> 00:24:26,320  
was going

652  
00:24:29,590 --> 00:24:28,400  
we kind of lost it but up on the flying

653  
00:24:32,390 --> 00:24:29,600  
bridge the

654  
00:24:33,110 --> 00:24:32,400  
shock guard it was it was up there you

655  
00:24:34,789 --> 00:24:33,120  
know

656  
00:24:36,230 --> 00:24:34,799  
scare off any sharks that came around

657  
00:24:38,070 --> 00:24:36,240  
the the swimmers

658  
00:24:39,669 --> 00:24:38,080  
uh he also had his camera and he tried

659  
00:24:42,310 --> 00:24:39,679  
taking a picture of it

660  
00:24:43,830 --> 00:24:42,320  
so he's basically shooting almost

661  
00:24:46,870 --> 00:24:43,840  
straight down

662  
00:24:48,710 --> 00:24:46,880  
and in theory he should have gotten if

663  
00:24:50,630 --> 00:24:48,720

the lighting conditions were better he

664

00:24:53,110 --> 00:24:50,640

would have gotten a shot of it

665

00:24:54,549 --> 00:24:53,120

but instead nothing all he got was the

666

00:24:56,950 --> 00:24:54,559

gray of the water and the gray of the

667

00:24:59,350 --> 00:24:56,960

sky and the white of the ship

668

00:24:59,990 --> 00:24:59,360

but in the cruise book they put the

669

00:25:02,310 --> 00:25:00,000

picture that

670

00:25:03,750 --> 00:25:02,320

he took from there of all the men

671

00:25:07,029 --> 00:25:03,760

swimming in the water

672

00:25:09,590 --> 00:25:07,039

and they superimposed a a an image

673

00:25:10,789 --> 00:25:09,600

of the loch ness monster just so that

674

00:25:13,990 --> 00:25:10,799

they chronicled that

675

00:25:16,630 --> 00:25:14,000

we had seen something interesting there

676  
00:25:18,390 --> 00:25:16,640  
um so that was kind of it i mean as far

677  
00:25:20,149 --> 00:25:18,400  
as usos it

678  
00:25:22,710 --> 00:25:20,159  
there was no sparkling lights there were

679  
00:25:25,830 --> 00:25:22,720  
no bubbles of action or anything else

680  
00:25:28,549 --> 00:25:25,840  
it was just this large teardrop shaped

681  
00:25:29,430 --> 00:25:28,559  
dark object and it's gliding with no

682  
00:25:31,990 --> 00:25:29,440  
other

683  
00:25:33,830 --> 00:25:32,000  
means of propulsion and a straight line

684  
00:25:36,470 --> 00:25:33,840  
directly at a right angle

685  
00:25:36,950 --> 00:25:36,480  
underneath from underneath the ship so

686  
00:25:41,110 --> 00:25:36,960  
now

687  
00:25:43,750 --> 00:25:41,120  
have no clue what's

688  
00:25:44,950 --> 00:25:43,760

uh we only know what's down about 5 000

689

00:25:46,549 --> 00:25:44,960

feet other than that

690

00:25:49,510 --> 00:25:46,559

i think we know more about the surface

691

00:25:51,830 --> 00:25:49,520

of mars or the surface of the moon

692

00:25:53,750 --> 00:25:51,840

now what about the what about the

693

00:26:01,350 --> 00:25:53,760

russian sub-incident though how did that

694

00:26:04,630 --> 00:26:02,630

i'll jump into that and there's one

695

00:26:05,909 --> 00:26:04,640

other anecdotal part that i think may be

696

00:26:08,830 --> 00:26:05,919

of interest to you

697

00:26:11,669 --> 00:26:08,840

anyway the submarine that sank was the

698

00:26:14,070 --> 00:26:11,679

k-129 and that was a russian ballistic

699

00:26:16,149 --> 00:26:14,080

missile submarine it was diesel-powered

700

00:26:17,830 --> 00:26:16,159

but it carried three ballistic missiles

701  
00:26:19,990 --> 00:26:17,840  
in its conning tower

702  
00:26:21,750 --> 00:26:20,000  
and it also had a complement of nuclear

703  
00:26:25,830 --> 00:26:21,760  
armed torpedoes

704  
00:26:29,029 --> 00:26:25,840  
so uh the sub had just come back

705  
00:26:30,470 --> 00:26:29,039  
from its uh boomer patrol off the coast

706  
00:26:32,710 --> 00:26:30,480  
of oregon

707  
00:26:34,310 --> 00:26:32,720  
went back to its space and the vladimi

708  
00:26:37,190 --> 00:26:34,320  
it wasn't vladivostok but it's one of

709  
00:26:39,990 --> 00:26:37,200  
the naval bases the russians had

710  
00:26:41,029 --> 00:26:40,000  
and it was only there for about a month

711  
00:26:44,390 --> 00:26:41,039  
and then it set

712  
00:26:47,029 --> 00:26:44,400  
set sail on a mysterious mission

713  
00:26:47,830 --> 00:26:47,039

and this came from the the soviet uh the

714

00:26:50,070 --> 00:26:47,840

old soviet

715

00:26:51,990 --> 00:26:50,080

archives and maybe paul stonehill he

716

00:26:54,630 --> 00:26:52,000

might have some amplifying information

717

00:26:55,190 --> 00:26:54,640

on that aspect of it so if you talk to

718

00:26:58,310 --> 00:26:55,200

him again

719

00:27:00,310 --> 00:26:58,320

ask him about the k-129 but anyway what

720

00:27:03,510 --> 00:27:00,320

happened was the submarine

721

00:27:05,510 --> 00:27:03,520

was making a beeline towards hawaii

722

00:27:06,710 --> 00:27:05,520

and where it ended up sinking was a

723

00:27:09,350 --> 00:27:06,720

thousand miles

724

00:27:11,110 --> 00:27:09,360

northwest of hawaii not too far from

725

00:27:12,950 --> 00:27:11,120

french frigate shoals

726  
00:27:14,630 --> 00:27:12,960  
now my ocean station is a couple hundred

727  
00:27:17,750 --> 00:27:14,640  
miles further to the

728  
00:27:21,590 --> 00:27:17,760  
further to the west now

729  
00:27:22,470 --> 00:27:21,600  
the sub sank in 1968 i didn't find out

730  
00:27:26,310 --> 00:27:22,480  
about it

731  
00:27:29,350 --> 00:27:26,320  
until like 1970

732  
00:27:30,549 --> 00:27:29,360  
75 76 when the story broke in the new

733  
00:27:33,430 --> 00:27:30,559  
york times

734  
00:27:33,990 --> 00:27:33,440  
however my last ocean station victor

735  
00:27:36,710 --> 00:27:34,000  
patrol

736  
00:27:38,549 --> 00:27:36,720  
was an interesting one uh we were out on

737  
00:27:38,950 --> 00:27:38,559  
ocean station which is where i had the

738  
00:27:43,110 --> 00:27:38,960

three

739

00:27:45,350 --> 00:27:43,120

before this one was sitting out there

740

00:27:47,110 --> 00:27:45,360

and we had a very weird day with

741

00:27:49,750 --> 00:27:47,120

cloud cover that when it came from all

742

00:27:51,669 --> 00:27:49,760

the way top of his eye as you can see

743

00:27:53,350 --> 00:27:51,679

straight down like cliffs down to the

744

00:27:56,230 --> 00:27:53,360

water and it was in patches

745

00:27:57,350 --> 00:27:56,240

a very weird day at sea and we were just

746

00:28:00,230 --> 00:27:57,360

sitting there

747

00:28:02,310 --> 00:28:00,240

on on station and all of a sudden our

748

00:28:05,750 --> 00:28:02,320

surface search radar picked up a large

749

00:28:06,870 --> 00:28:05,760

target on the surface and the size of it

750

00:28:09,029 --> 00:28:06,880

said it must have been something the

751  
00:28:09,590 --> 00:28:09,039  
size of a cruise ship or an aircraft

752  
00:28:12,950 --> 00:28:09,600  
carrier

753  
00:28:13,430 --> 00:28:12,960  
it was gigantic anyway so we're sitting

754  
00:28:15,990 --> 00:28:13,440  
there

755  
00:28:17,990 --> 00:28:16,000  
and we're watching the thing and finally

756  
00:28:19,430 --> 00:28:18,000  
out of one of these weird fog banks

757  
00:28:22,630 --> 00:28:19,440  
comes a bow

758  
00:28:23,990 --> 00:28:22,640  
a white bow and then the rest of the

759  
00:28:25,990 --> 00:28:24,000  
ship came out

760  
00:28:27,909 --> 00:28:26,000  
and the first thing that emerged on top

761  
00:28:30,789 --> 00:28:27,919  
of the ship was a big radome

762  
00:28:31,909 --> 00:28:30,799  
and another big radome and then a third

763  
00:28:33,990 --> 00:28:31,919

antenna

764

00:28:35,830 --> 00:28:34,000

and then they stopped 2 000 yards or one

765

00:28:37,830 --> 00:28:35,840

nautical mile from us

766

00:28:39,990 --> 00:28:37,840

and so i'm being a quartermaster i was

767

00:28:42,070 --> 00:28:40,000

navigation and communications

768

00:28:43,190 --> 00:28:42,080

i tried raising the ship i was on i was

769

00:28:45,430 --> 00:28:43,200

on duty on the bridge

770

00:28:46,789 --> 00:28:45,440

at the time i tried raising the ship

771

00:28:49,430 --> 00:28:46,799

with flashing light

772

00:28:50,710 --> 00:28:49,440

we tried radio we were using ship to

773

00:28:53,269 --> 00:28:50,720

ship radio

774

00:28:54,070 --> 00:28:53,279

we tried flashing light they totally

775

00:28:57,269 --> 00:28:54,080

ignored us

776

00:28:59,110 --> 00:28:57,279

it was a russian spy ship missile

777

00:29:00,789 --> 00:28:59,120

tracking spy ship

778

00:29:02,870 --> 00:29:00,799

they shut down all their radiating

779

00:29:04,470 --> 00:29:02,880

equipment and my captain came up and

780

00:29:05,350 --> 00:29:04,480

said okay well we're going to play cat

781

00:29:07,269 --> 00:29:05,360

and mouse

782

00:29:09,510 --> 00:29:07,279

so we shut down all of our radiating

783

00:29:09,990 --> 00:29:09,520

equipment our radar whatever might have

784

00:29:13,750 --> 00:29:10,000

been

785

00:29:15,669 --> 00:29:13,760

couple hours like that

786

00:29:16,789 --> 00:29:15,679

now the problem is when you're not

787

00:29:19,590 --> 00:29:16,799

radiating

788

00:29:20,389 --> 00:29:19,600

you're not sending out your your radio

789

00:29:24,549 --> 00:29:20,399

signals

790

00:29:26,710 --> 00:29:24,559

not see you and you get

791

00:29:28,389 --> 00:29:26,720

run over and they'd never even know they

792

00:29:30,149 --> 00:29:28,399

hit you right

793

00:29:31,430 --> 00:29:30,159

so the captain said well this is crazy

794

00:29:33,669 --> 00:29:31,440

we're not getting any place

795

00:29:35,669 --> 00:29:33,679

they're not communicating with us so we

796

00:29:38,710 --> 00:29:35,679

turned on our radiating equipment

797

00:29:40,710 --> 00:29:38,720

and we started transmitting our location

798

00:29:42,070 --> 00:29:40,720

and our surface search radar now picks

799

00:29:45,590 --> 00:29:42,080

up another object

800

00:29:48,230 --> 00:29:45,600

coming out of another fog bank sternobus

801  
00:29:49,909 --> 00:29:48,240  
much smaller object and i'm up on the

802  
00:29:52,710 --> 00:29:49,919  
bridge now with my chief

803  
00:29:53,590 --> 00:29:52,720  
and we see this submarine come out from

804  
00:29:55,590 --> 00:29:53,600  
from

805  
00:29:57,750 --> 00:29:55,600  
out of the cloud bank so we start

806  
00:30:00,470 --> 00:29:57,760  
flashing alpha alpha

807  
00:30:01,990 --> 00:30:00,480  
invitation to communicate and so it

808  
00:30:03,350 --> 00:30:02,000  
flashed and after about five minutes the

809  
00:30:06,950 --> 00:30:03,360  
submarine came back

810  
00:30:10,149 --> 00:30:06,960  
with a n-y-e-s

811  
00:30:12,870 --> 00:30:10,159  
i said well nyet is russian for no

812  
00:30:13,510 --> 00:30:12,880  
nyes it turns out it was an open call

813  
00:30:15,430 --> 00:30:13,520

sign

814

00:30:17,190 --> 00:30:15,440

for an american submarine so the

815

00:30:19,029 --> 00:30:17,200

submarine was playing cat and mouse with

816

00:30:20,630 --> 00:30:19,039

this russian spy ship

817

00:30:22,310 --> 00:30:20,640

we had no clue what they were doing on

818

00:30:25,190 --> 00:30:22,320

ocean station victor

819

00:30:26,710 --> 00:30:25,200

so years later is when i found out that

820

00:30:27,590 --> 00:30:26,720

they were the russians were trying to

821

00:30:30,549 --> 00:30:27,600

find out

822

00:30:31,190 --> 00:30:30,559

where their submarine went down the u.s

823

00:30:32,870 --> 00:30:31,200

navy knew

824

00:30:35,430 --> 00:30:32,880

where that submarine went down almost

825

00:30:37,430 --> 00:30:35,440

immediately because of the underwater

826

00:30:38,950 --> 00:30:37,440

sonar listening devices that they have

827

00:30:41,510 --> 00:30:38,960

in all the oceans

828

00:30:42,710 --> 00:30:41,520

they were able to triangulate and locate

829

00:30:45,590 --> 00:30:42,720

that submarine

830

00:30:46,149 --> 00:30:45,600

in 16 000 feet of water now the

831

00:30:49,510 --> 00:30:46,159

interesting

832

00:30:52,630 --> 00:30:49,520

thing about this was that back in 1968

833

00:30:53,909 --> 00:30:52,640

later in 68 popular mechanics i think it

834

00:30:57,110 --> 00:30:53,919

was popular mechanics

835

00:30:58,870 --> 00:30:57,120

magazine came up with howard hughes was

836

00:31:02,830 --> 00:30:58,880

going to build a ship

837

00:31:04,070 --> 00:31:02,840

that would mock what happened to our

838

00:31:05,350 --> 00:31:04,080

guests

839

00:31:08,230 --> 00:31:05,360

you know i was just doing a little

840

00:31:12,549 --> 00:31:08,240

research here and uh

841

00:31:15,430 --> 00:31:12,559

in 1968 oh there you go

842

00:31:16,070 --> 00:31:15,440

yeah somehow we dropped i'm not sure how

843

00:31:18,389 --> 00:31:16,080

okay

844

00:31:19,269 --> 00:31:18,399

hey you know i was just doing before you

845

00:31:21,190 --> 00:31:19,279

go on with the story

846

00:31:23,909 --> 00:31:21,200

i was just doing a little research here

847

00:31:26,950 --> 00:31:23,919

and in 1968 there were four

848

00:31:30,470 --> 00:31:26,960

uh other submarines yeah yeah uh the

849

00:31:34,310 --> 00:31:30,480

the scorpion and the uh french submarine

850

00:31:36,710 --> 00:31:34,320

minerva was it and the uh israelis are

851  
00:31:39,029 --> 00:31:36,720  
submarine yeah okay well go ahead then

852  
00:31:40,549 --> 00:31:39,039  
uh yeah

853  
00:31:42,630 --> 00:31:40,559  
it was a very bad year to be on a

854  
00:31:45,029 --> 00:31:42,640  
submarine

855  
00:31:47,350 --> 00:31:45,039  
but anyway uh i'm not sure exactly what

856  
00:31:50,630 --> 00:31:47,360  
what part hello is still there

857  
00:31:53,509 --> 00:31:50,640  
i'm here okay i heard i thought i heard

858  
00:31:55,269 --> 00:31:53,519  
another bounce um anyway i'm not sure

859  
00:31:56,470 --> 00:31:55,279  
exactly what you heard the last of what

860  
00:31:58,789 --> 00:31:56,480  
i had said

861  
00:32:00,149 --> 00:31:58,799  
yeah you had just uh before you dropped

862  
00:32:02,230 --> 00:32:00,159  
out you were talking about how

863  
00:32:03,190 --> 00:32:02,240

howard hughes was uh talking about

864

00:32:05,750 --> 00:32:03,200

building

865

00:32:06,230 --> 00:32:05,760

a ship and then that's where he went off

866

00:32:09,110 --> 00:32:06,240

okay

867

00:32:10,710 --> 00:32:09,120

anyway the ship the cover story was it

868

00:32:12,950 --> 00:32:10,720

was going to be mining

869

00:32:15,029 --> 00:32:12,960

manganese nodules off the ocean floor

870

00:32:17,430 --> 00:32:15,039

and 16 000 feet of water

871

00:32:19,190 --> 00:32:17,440

that was the cover story howard hughes

872

00:32:21,190 --> 00:32:19,200

was commissioned to build this ship

873

00:32:22,470 --> 00:32:21,200

along with i think it was lockheed

874

00:32:24,710 --> 00:32:22,480

martin

875

00:32:27,029 --> 00:32:24,720

and it was a very very expensive but

876

00:32:28,950 --> 00:32:27,039

only howard hughes could pull it off

877

00:32:30,630 --> 00:32:28,960

and of course it turned out that the

878

00:32:31,509 --> 00:32:30,640

according to the story project the

879

00:32:34,789 --> 00:32:31,519

zorian

880

00:32:37,269 --> 00:32:34,799

it was a it was a cia project and

881

00:32:38,789 --> 00:32:37,279

their goal was to raise the submarine or

882

00:32:41,909 --> 00:32:38,799

at least part of the submarine

883

00:32:43,430 --> 00:32:41,919

and recover something okay i don't know

884

00:32:46,310 --> 00:32:43,440

if it's warheads or

885

00:32:47,350 --> 00:32:46,320

code books whatever but anyway that was

886

00:32:50,549 --> 00:32:47,360

a massive

887

00:32:51,350 --> 00:32:50,559

effort back in back in that that time

888

00:32:53,190 --> 00:32:51,360

period

889

00:32:57,350 --> 00:32:53,200

because they didn't have gps they didn't

890

00:32:59,430 --> 00:32:57,360

have the computerization or anything

891

00:33:01,990 --> 00:32:59,440

but anyway they were able to do it now

892

00:33:05,669 --> 00:33:02,000

the interesting part of this story

893

00:33:08,310 --> 00:33:05,679

is in 1970 was when i went on my last

894

00:33:08,950 --> 00:33:08,320

ocean station victor patrol and a week

895

00:33:11,190 --> 00:33:08,960

before

896

00:33:13,269 --> 00:33:11,200

we left on that patrol there was this

897

00:33:14,310 --> 00:33:13,279

very strange ship that tied up in front

898

00:33:16,470 --> 00:33:14,320

of my ship

899

00:33:17,669 --> 00:33:16,480

on sand island which is where my coast

900

00:33:20,470 --> 00:33:17,679

guard base was in

901  
00:33:23,029 --> 00:33:20,480  
honolulu and we were getting ready to

902  
00:33:25,350 --> 00:33:23,039  
take a liberty launch over to honolulu

903  
00:33:26,470 --> 00:33:25,360  
and we got on the boat in the boat

904  
00:33:27,269 --> 00:33:26,480  
and said i'm going to take a little

905  
00:33:29,430 --> 00:33:27,279  
detour

906  
00:33:31,110 --> 00:33:29,440  
i want to look at this really strange

907  
00:33:34,549 --> 00:33:31,120  
ship with these big derrick

908  
00:33:36,630 --> 00:33:34,559  
uh objects on it and we cruise around

909  
00:33:39,430 --> 00:33:36,640  
the back of it i swear to god

910  
00:33:39,990 --> 00:33:39,440  
to this day that the name on that ship

911  
00:33:46,630 --> 00:33:40,000  
was

912  
00:33:49,590 --> 00:33:46,640  
about 700

913  
00:33:50,950 --> 00:33:49,600

700 and some feet long and the

914

00:33:51,990 --> 00:33:50,960

interesting part of the story was

915

00:33:54,870 --> 00:33:52,000

according to the

916

00:33:57,590 --> 00:33:54,880

video that was produced that ship was

917

00:33:59,269 --> 00:33:57,600

not launched until 1972 but i saw it in

918

00:34:02,029 --> 00:33:59,279

1970

919

00:34:03,909 --> 00:34:02,039

and the recovery didn't take place until

920

00:34:06,710 --> 00:34:03,919

1974.

921

00:34:08,230 --> 00:34:06,720

so my whole thing was that i don't know

922

00:34:10,149 --> 00:34:08,240

what that russian ship was

923

00:34:12,470 --> 00:34:10,159

or why they were sitting there spying on

924

00:34:12,950 --> 00:34:12,480

us i'm a coast guard cutter for god's

925

00:34:16,310 --> 00:34:12,960

sake

926  
00:34:18,629 --> 00:34:16,320  
you know we're barely a warship

927  
00:34:20,389 --> 00:34:18,639  
except in time of war so it wasn't that

928  
00:34:21,349 --> 00:34:20,399  
we were doing anything top secret but

929  
00:34:22,950 --> 00:34:21,359  
for some reason

930  
00:34:24,550 --> 00:34:22,960  
they may have thought that we may have

931  
00:34:26,550 --> 00:34:24,560  
known where that sub

932  
00:34:28,869 --> 00:34:26,560  
went down and we didn't we had no clue

933  
00:34:30,389 --> 00:34:28,879  
about it but we were relatively close to

934  
00:34:31,750 --> 00:34:30,399  
where it went it went down

935  
00:34:33,909 --> 00:34:31,760  
now the interesting thing there's been a

936  
00:34:35,109 --> 00:34:33,919  
lot of stories and conjecture about what

937  
00:34:38,869 --> 00:34:35,119  
that submarine

938  
00:34:40,149 --> 00:34:38,879

was doing it was either when a submarine

939

00:34:43,109 --> 00:34:40,159

goes rogue it's either

940

00:34:44,149 --> 00:34:43,119

going rogue to start world war three or

941

00:34:47,669 --> 00:34:44,159

it's going rogue

942

00:34:50,310 --> 00:34:47,679

to you know surrender you know

943

00:34:51,510 --> 00:34:50,320

turn itself into the enemy and i don't

944

00:34:54,550 --> 00:34:51,520

think that was

945

00:34:56,069 --> 00:34:54,560

the case because there were an

946

00:34:57,589 --> 00:34:56,079

additional 10 men

947

00:34:59,589 --> 00:34:57,599

that were on that ship it was designed

948

00:35:02,069 --> 00:34:59,599

to carry i think 85

949

00:35:03,510 --> 00:35:02,079

and when that ship went down according

950

00:35:05,910 --> 00:35:03,520

to the russian

951  
00:35:07,589 --> 00:35:05,920  
what russian information there was there

952  
00:35:09,589 --> 00:35:07,599  
was an additional 10 men

953  
00:35:10,950 --> 00:35:09,599  
they think that it may have been kgb and

954  
00:35:12,790 --> 00:35:10,960  
it was on a mission

955  
00:35:13,990 --> 00:35:12,800  
because three of those three of those

956  
00:35:17,270 --> 00:35:14,000  
subs were already

957  
00:35:19,910 --> 00:35:17,280  
turned over to the chinese communists

958  
00:35:20,870 --> 00:35:19,920  
and remember 1968 russians and the

959  
00:35:22,950 --> 00:35:20,880  
chinese

960  
00:35:24,630 --> 00:35:22,960  
were actually fighting on their own

961  
00:35:26,550 --> 00:35:24,640  
common border

962  
00:35:27,990 --> 00:35:26,560  
so but the russians were still turning

963  
00:35:29,990 --> 00:35:28,000

over these submarines

964

00:35:31,190 --> 00:35:30,000

to the chinese this would have been the

965

00:35:34,230 --> 00:35:31,200

last of the

966

00:35:36,470 --> 00:35:34,240

uh the the this class submarine

967

00:35:37,910 --> 00:35:36,480

that was to go over to the chinese now

968

00:35:39,910 --> 00:35:37,920

if it was carrying three ballistic

969

00:35:42,550 --> 00:35:39,920

missiles with nuclear warheads

970

00:35:44,069 --> 00:35:42,560

and it was now within range of honolulu

971

00:35:46,470 --> 00:35:44,079

could there have been a a

972

00:35:47,190 --> 00:35:46,480

a false flag attack that might have been

973

00:35:50,390 --> 00:35:47,200

launched

974

00:35:51,270 --> 00:35:50,400

to start a battle or war between us and

975

00:35:53,750 --> 00:35:51,280

china

976  
00:35:54,870 --> 00:35:53,760  
it is a very very strange thing a matter

977  
00:35:56,950 --> 00:35:54,880  
of fact

978  
00:35:58,470 --> 00:35:56,960  
according to the stories that have come

979  
00:36:01,109 --> 00:35:58,480  
out since

980  
00:36:02,069 --> 00:36:01,119  
high-level groups got together from the

981  
00:36:06,550 --> 00:36:02,079  
us

982  
00:36:09,349 --> 00:36:06,560  
decided that they would never mention

983  
00:36:11,670 --> 00:36:09,359  
the scorpion or the k-129 again

984  
00:36:13,109 --> 00:36:11,680  
so you can leave that too whatever you

985  
00:36:16,069 --> 00:36:13,119  
want to make of it

986  
00:36:18,230 --> 00:36:16,079  
but that's my tie into that the the

987  
00:36:19,750 --> 00:36:18,240  
synchronicity was not really there

988  
00:36:21,589 --> 00:36:19,760

because i didn't know anything about it

989

00:36:24,230 --> 00:36:21,599

really until years later

990

00:36:25,589 --> 00:36:24,240

but it was looking backwards starting to

991

00:36:29,270 --> 00:36:25,599

be able to stitch together

992

00:36:33,349 --> 00:36:29,280

certain things that seem to have a

993

00:36:35,430 --> 00:36:33,359

a bearing if you will now

994

00:36:37,109 --> 00:36:35,440

there is one other interesting point i

995

00:36:39,589 --> 00:36:37,119

think according to my

996

00:36:40,150 --> 00:36:39,599

coast guard stories we had one more

997

00:36:41,829 --> 00:36:40,160

sighting

998

00:36:43,670 --> 00:36:41,839

during morning stars heading back to

999

00:36:46,470 --> 00:36:43,680

honolulu and that's

1000

00:36:49,190 --> 00:36:46,480

a half hour before sunrise and we were

1001  
00:36:51,349 --> 00:36:49,200  
sailing from guam to honolulu

1002  
00:36:53,589 --> 00:36:51,359  
and i was a navigator so i'm out on the

1003  
00:36:55,750 --> 00:36:53,599  
starboard bridge wing with my chief

1004  
00:36:58,069 --> 00:36:55,760  
my captain and the officer of the deck

1005  
00:36:59,670 --> 00:36:58,079  
and we were shooting the morning stars

1006  
00:37:01,510 --> 00:36:59,680  
beautiful day at sea in the south

1007  
00:37:05,510 --> 00:37:01,520  
pacific blue water

1008  
00:37:07,510 --> 00:37:05,520  
blue skies slight cloud cover no breeze

1009  
00:37:10,310 --> 00:37:07,520  
and all of a sudden this gigantic dead

1010  
00:37:12,950 --> 00:37:10,320  
ahead was this gigantic

1011  
00:37:13,829 --> 00:37:12,960  
mercury colored sphere it was mercury

1012  
00:37:15,430 --> 00:37:13,839  
color

1013  
00:37:17,349 --> 00:37:15,440

i mean you can see the reflection of the

1014

00:37:19,270 --> 00:37:17,359

cloud in the sky on the top of it

1015

00:37:21,589 --> 00:37:19,280

and the ocean and the white caps

1016

00:37:22,870 --> 00:37:21,599

underneath it on the bottom

1017

00:37:25,910 --> 00:37:22,880

and this thing was flying on a

1018

00:37:28,950 --> 00:37:25,920

reciprocal course directly towards us

1019

00:37:30,470 --> 00:37:28,960

in the opposite direction and so i

1020

00:37:31,270 --> 00:37:30,480

figured oh this is great we already

1021

00:37:36,069 --> 00:37:31,280

reported

1022

00:37:37,430 --> 00:37:36,079

objects that we saw on ocean station i'm

1023

00:37:37,990 --> 00:37:37,440

sure we're going to have to report this

1024

00:37:39,430 --> 00:37:38,000

one

1025

00:37:41,270 --> 00:37:39,440

but the captain who was the senior

1026  
00:37:43,349 --> 00:37:41,280  
captain in the coast guard all he did

1027  
00:37:46,310 --> 00:37:43,359  
was shrug his shoulders when the thing

1028  
00:37:47,990 --> 00:37:46,320  
passed this on the port side at about an

1029  
00:37:48,870 --> 00:37:48,000  
altitude about three or four hundred

1030  
00:37:50,950 --> 00:37:48,880  
feet

1031  
00:37:52,710 --> 00:37:50,960  
and then it took off behind us and so we

1032  
00:37:55,670 --> 00:37:52,720  
continued shooting morning stars

1033  
00:37:56,550 --> 00:37:55,680  
now i got back to honolulu after

1034  
00:37:58,710 --> 00:37:56,560  
deployment

1035  
00:38:00,790 --> 00:37:58,720  
they sent me to school at pearl harbor

1036  
00:38:01,670 --> 00:38:00,800  
and i was on ford island for about three

1037  
00:38:04,390 --> 00:38:01,680  
months

1038  
00:38:05,829 --> 00:38:04,400

going to these navy schools and i made

1039

00:38:07,750 --> 00:38:05,839

friends with a navy yeoman

1040

00:38:09,030 --> 00:38:07,760

who worked out there at a place called

1041

00:38:10,790 --> 00:38:09,040

ficktec

1042

00:38:12,550 --> 00:38:10,800

and that stands fleet intelligence

1043

00:38:15,109 --> 00:38:12,560

central pacific

1044

00:38:17,109 --> 00:38:15,119

and it's part of o and i officer of nav

1045

00:38:19,030 --> 00:38:17,119

office of naval intelligence

1046

00:38:21,030 --> 00:38:19,040

and we would play tennis and one day i

1047

00:38:22,630 --> 00:38:21,040

was telling him about my ufo sightings

1048

00:38:24,069 --> 00:38:22,640

in the uso and all this

1049

00:38:26,069 --> 00:38:24,079

all of a sudden he started laughing at

1050

00:38:27,430 --> 00:38:26,079

me i said oh god he just thinks i'm a

1051  
00:38:29,190 --> 00:38:27,440  
ufo nut

1052  
00:38:30,630 --> 00:38:29,200  
and then he stopped me said no that's

1053  
00:38:32,390 --> 00:38:30,640  
not the reason i'm laughing

1054  
00:38:33,910 --> 00:38:32,400  
he said i'm laughing because we get

1055  
00:38:36,950 --> 00:38:33,920  
thousands of those reports

1056  
00:38:39,510 --> 00:38:36,960  
every year just from u.s naval ships and

1057  
00:38:41,910 --> 00:38:39,520  
that's a direct quote what he told me

1058  
00:38:43,030 --> 00:38:41,920  
okay so i'm gonna i'll leave it there if

1059  
00:38:45,910 --> 00:38:43,040  
you have any comments or

1060  
00:38:46,630 --> 00:38:45,920  
questions i'll be more than happy to

1061  
00:38:49,829 --> 00:38:46,640  
well that's

1062  
00:38:52,230 --> 00:38:49,839  
i my question after you know you were

1063  
00:38:55,109 --> 00:38:52,240

finished here was that you know

1064

00:38:55,670 --> 00:38:55,119

there have been you know rumors and and

1065

00:38:59,109 --> 00:38:55,680

just

1066

00:39:02,950 --> 00:38:59,119

downright you know uh reports from

1067

00:39:07,030 --> 00:39:02,960

uh navy officials

1068

00:39:10,870 --> 00:39:07,040

that uh usos

1069

00:39:12,950 --> 00:39:10,880

have been what plain cat and mouse

1070

00:39:13,990 --> 00:39:12,960

using that term that you used earlier

1071

00:39:17,190 --> 00:39:14,000

with the uh the

1072

00:39:20,230 --> 00:39:17,200

russian ship uh with

1073

00:39:21,030 --> 00:39:20,240

navy vessels for a number of years and

1074

00:39:23,510 --> 00:39:21,040

for

1075

00:39:24,230 --> 00:39:23,520

you know a lot of them it's uh it is

1076  
00:39:27,510 --> 00:39:24,240  
it's it's

1077  
00:39:30,950 --> 00:39:27,520  
it's almost a commonplace

1078  
00:39:32,550 --> 00:39:30,960  
situation exactly

1079  
00:39:34,950 --> 00:39:32,560  
and that's the point like all the

1080  
00:39:37,030 --> 00:39:34,960  
disclosures that we've recently had

1081  
00:39:38,150 --> 00:39:37,040  
you know it's kind of a shrug of a

1082  
00:39:39,670 --> 00:39:38,160  
shoulder there because

1083  
00:39:41,190 --> 00:39:39,680  
they're not even scratching the surface

1084  
00:39:43,990 --> 00:39:41,200  
i don't think

1085  
00:39:44,870 --> 00:39:44,000  
in 1970 bobby ray inman was a lieutenant

1086  
00:39:48,069 --> 00:39:44,880  
commander

1087  
00:39:51,190 --> 00:39:48,079  
stationed at pearl harbor

1088  
00:39:53,910 --> 00:39:51,200

so i mean if if what this yeoman told me

1089

00:39:55,589 --> 00:39:53,920

i think it was a computer operator uh

1090

00:39:57,270 --> 00:39:55,599

what he told me was true

1091

00:39:59,109 --> 00:39:57,280

they knew this and it was common

1092

00:40:02,069 --> 00:39:59,119

knowledge up and down

1093

00:40:03,190 --> 00:40:02,079

up and down the chain of command so you

1094

00:40:05,270 --> 00:40:03,200

know

1095

00:40:07,109 --> 00:40:05,280

what we see now is if you get caught

1096

00:40:08,150 --> 00:40:07,119

with your hands in the cookie chart

1097

00:40:10,790 --> 00:40:08,160

you know you're going to be held

1098

00:40:13,109 --> 00:40:10,800

accountable no i

1099

00:40:14,069 --> 00:40:13,119

i think i see it as being more like that

1100

00:40:16,790 --> 00:40:14,079

right now

1101  
00:40:17,349 --> 00:40:16,800  
so hopefully there'll be real disclosure

1102  
00:40:19,750 --> 00:40:17,359  
and more

1103  
00:40:20,550 --> 00:40:19,760  
more of this stuff will formally come

1104  
00:40:24,390 --> 00:40:20,560  
out

1105  
00:40:27,750 --> 00:40:24,400  
not anecdotally you know

1106  
00:40:31,589 --> 00:40:27,760  
now the uh uh you sent me uh the uh

1107  
00:40:35,750 --> 00:40:31,599  
uh a pdf of the slideshow

1108  
00:40:36,390 --> 00:40:35,760  
on uh uh uh a a move a presentation you

1109  
00:40:39,030 --> 00:40:36,400  
made for the

1110  
00:40:40,710 --> 00:40:39,040  
buffon conference about a year ago now

1111  
00:40:43,589 --> 00:40:40,720  
there's a section called

1112  
00:40:44,790 --> 00:40:43,599  
ufos and the u.s navy and you you

1113  
00:40:48,630 --> 00:40:44,800

included some

1114

00:40:52,710 --> 00:40:48,640

some photographs at the very top

1115

00:40:55,670 --> 00:40:52,720

that are have become extremely

1116

00:40:56,710 --> 00:40:55,680

controversial and uh i believe that

1117

00:41:00,150 --> 00:40:56,720

these were taken

1118

00:41:07,910 --> 00:41:00,160

in the uh the was it the north sea

1119

00:41:12,950 --> 00:41:10,550

yeah and uh do you care do you care to

1120

00:41:13,670 --> 00:41:12,960

talk about that uh it was the uss was it

1121

00:41:17,750 --> 00:41:13,680

how do you pronounce

1122

00:41:19,910 --> 00:41:17,760

the the the trey paying the submarine

1123

00:41:21,829 --> 00:41:19,920

um i i don't have any firsthand

1124

00:41:23,910 --> 00:41:21,839

knowledge other than the fact that

1125

00:41:25,349 --> 00:41:23,920

apparently the captain of that submarine

1126

00:41:28,309 --> 00:41:25,359

did not refute the

1127

00:41:30,309 --> 00:41:28,319

the story about the uh the photographs

1128

00:41:33,349 --> 00:41:30,319

again the validity of it i can't

1129

00:41:33,750 --> 00:41:33,359

i personally can't speak to but it

1130

00:41:36,309 --> 00:41:33,760

passed

1131

00:41:36,950 --> 00:41:36,319

sort of a sniff test in this that's that

1132

00:41:40,710 --> 00:41:36,960

yeah

1133

00:41:42,870 --> 00:41:40,720

photos are going to be in the

1134

00:41:44,069 --> 00:41:42,880

book by the way that we happen to cover

1135

00:41:46,710 --> 00:41:44,079

that uh case

1136

00:41:48,710 --> 00:41:46,720

there there's not a lot of detail uh uh

1137

00:41:51,109 --> 00:41:48,720

available on it the objects

1138

00:41:53,109 --> 00:41:51,119

the object looks absolutely tremendous

1139

00:41:55,589 --> 00:41:53,119

and it's shooting up out of the

1140

00:41:57,670 --> 00:41:55,599

the water uh i don't know how you would

1141

00:42:00,550 --> 00:41:57,680

exactly describe it it's certainly not

1142

00:42:01,990 --> 00:42:00,560

disc shaped it's well you could almost

1143

00:42:03,589 --> 00:42:02,000

say it's whale shaped but it's not a

1144

00:42:07,109 --> 00:42:03,599

whale certainly but i mean it's

1145

00:42:10,309 --> 00:42:07,119

it's a very peculiar configuration for

1146

00:42:12,309 --> 00:42:10,319

a uh an object i

1147

00:42:13,829 --> 00:42:12,319

i personally i thought it was more

1148

00:42:18,470 --> 00:42:13,839

triangular

1149

00:42:21,750 --> 00:42:20,150

yeah it's kind of a kind of a strange

1150

00:42:22,950 --> 00:42:21,760

position that it's coming up out of the

1151

00:42:26,309 --> 00:42:22,960

water so you

1152

00:42:27,030 --> 00:42:26,319

can't quite get the overall gist of it

1153

00:42:28,950 --> 00:42:27,040

but

1154

00:42:30,790 --> 00:42:28,960

it's certainly more than one photograph

1155

00:42:33,750 --> 00:42:30,800

i think we published

1156

00:42:34,470 --> 00:42:33,760

three of them in the book and we have

1157

00:42:37,750 --> 00:42:34,480

the

1158

00:42:40,069 --> 00:42:37,760

of him

1159

00:42:40,870 --> 00:42:40,079

it has gotten some attention but not

1160

00:42:43,990 --> 00:42:40,880

really

1161

00:42:46,630 --> 00:42:44,000

investigated as sterily as it should

1162

00:42:47,910 --> 00:42:46,640

be although probably paul stonehill

1163

00:42:51,589 --> 00:42:47,920

knows uh

1164

00:42:52,870 --> 00:42:51,599

more about it than we do go ahead tip

1165

00:42:55,109 --> 00:42:52,880

well no no i was just gonna say these

1166

00:42:58,150 --> 00:42:55,119

photographs were originally released

1167

00:43:01,349 --> 00:42:58,160

in a french magazine and uh but

1168

00:43:04,870 --> 00:43:01,359

uh um like like you said tim the

1169

00:43:07,349 --> 00:43:04,880

uh there really hasn't been

1170

00:43:08,790 --> 00:43:07,359

a lot said about them i think it's i

1171

00:43:10,790 --> 00:43:08,800

think it's a situation because you've

1172

00:43:13,270 --> 00:43:10,800

got these you these really great

1173

00:43:14,790 --> 00:43:13,280

photographs that it must obviously be a

1174

00:43:17,829 --> 00:43:14,800

hoax i think is what

1175

00:43:20,630 --> 00:43:17,839

people are thinking but

1176

00:43:22,710 --> 00:43:20,640

i've heard a number of people you know

1177

00:43:26,069 --> 00:43:22,720

the first blush i think they said

1178

00:43:27,430 --> 00:43:26,079

possibly a hoax but i think somebody

1179

00:43:29,109 --> 00:43:27,440

said that they thought that they were

1180

00:43:31,670 --> 00:43:29,119

the real deal i thought it was somebody

1181

00:43:34,950 --> 00:43:31,680

that was an expert in photographs

1182

00:43:35,990 --> 00:43:34,960

of photographic uh forensics or

1183

00:43:39,349 --> 00:43:36,000

something

1184

00:43:41,990 --> 00:43:39,359

you know i i can't all i know is that

1185

00:43:44,630 --> 00:43:42,000

the story has been out there and nobody

1186

00:43:46,710 --> 00:43:44,640

has come out and actually refuted it

1187

00:43:48,230 --> 00:43:46,720

and you know now taking a picture i'm

1188

00:43:50,309 --> 00:43:48,240

not a submariner so i

1189

00:43:51,349 --> 00:43:50,319

i can't say with how easy it is to take

1190

00:43:53,670 --> 00:43:51,359

a picture out of

1191

00:43:57,109 --> 00:43:53,680

you know a personal photograph through

1192

00:44:02,630 --> 00:44:00,950

right but it's still like

1193

00:44:04,069 --> 00:44:02,640

all the other all the other stories

1194

00:44:08,550 --> 00:44:04,079

about submarines

1195

00:44:11,349 --> 00:44:08,560

and usos and ufos um

1196

00:44:13,190 --> 00:44:11,359

i don't know it sounds like it could it

1197

00:44:15,430 --> 00:44:13,200

could definitely be a

1198

00:44:16,550 --> 00:44:15,440

true story well and that's that's the

1199

00:44:19,349 --> 00:44:16,560

thing i mean the

1200

00:44:20,790 --> 00:44:19,359

i'm happy to see that more and more of

1201

00:44:23,670 --> 00:44:20,800

these types of stories

1202

00:44:25,910 --> 00:44:23,680

involving usos are coming out because

1203

00:44:29,190 --> 00:44:25,920

the emphasis has been for so long

1204

00:44:31,349 --> 00:44:29,200

ufos yeah yep

1205

00:44:33,829 --> 00:44:31,359

well you know the other thing is that

1206

00:44:35,750 --> 00:44:33,839

the majority of ufos take place over the

1207

00:44:36,550 --> 00:44:35,760

ocean or within like 20 miles of the

1208

00:44:38,710 --> 00:44:36,560

ocean

1209

00:44:40,470 --> 00:44:38,720

and lakes and rivers and things like

1210

00:44:43,030 --> 00:44:40,480

that um

1211

00:44:44,630 --> 00:44:43,040

but my three sightings on board that i

1212

00:44:45,750 --> 00:44:44,640

was only on board that ship for 20

1213

00:44:48,150 --> 00:44:45,760

months

1214

00:44:48,950 --> 00:44:48,160

now imagine somebody that spent 30 years

1215

00:44:51,589 --> 00:44:48,960

like my

1216

00:44:52,550 --> 00:44:51,599

skipper but he spent 30 years before the

1217

00:44:54,710 --> 00:44:52,560

mass

1218

00:44:56,550 --> 00:44:54,720

like i said the ufo that was daylight

1219

00:44:58,950 --> 00:44:56,560

and as big as a basketball

1220

00:45:00,870 --> 00:44:58,960

flying right past the ship he didn't

1221

00:45:03,430 --> 00:45:00,880

even battle an eyelash

1222

00:45:04,470 --> 00:45:03,440

that is the solemn truth he was a master

1223

00:45:06,150 --> 00:45:04,480

marrier

1224

00:45:08,870 --> 00:45:06,160

and he could take any ship any place in

1225

00:45:11,430 --> 00:45:08,880

the world and that guy could do

1226

00:45:13,270 --> 00:45:11,440

the navigation he was able to do i

1227

00:45:15,510 --> 00:45:13,280

couldn't even begin to understand

1228

00:45:16,630 --> 00:45:15,520

i mean he did it all without pubs or

1229

00:45:18,150 --> 00:45:16,640

computers

1230

00:45:19,670 --> 00:45:18,160

you know he did it with the old fly

1231

00:45:22,630 --> 00:45:19,680

rules

1232

00:45:24,309 --> 00:45:22,640

so i mean so the point i'm trying to

1233

00:45:25,030 --> 00:45:24,319

make is that if you spend any time at

1234

00:45:26,390 --> 00:45:25,040

sea

1235

00:45:29,589 --> 00:45:26,400

and you keep your head up you're going

1236

00:45:31,190 --> 00:45:29,599

to see things that you can't explain

1237

00:45:32,870 --> 00:45:31,200

all right well unfortunately we have

1238

00:45:33,190 --> 00:45:32,880

less than three minutes left in the show

1239

00:45:34,790 --> 00:45:33,200

so

1240

00:45:36,630 --> 00:45:34,800

i want to uh let you have the

1241

00:45:38,870 --> 00:45:36,640

opportunity to uh

1242

00:45:40,390 --> 00:45:38,880

give our audience more information about

1243

00:45:42,630 --> 00:45:40,400

uh where they can find out uh

1244

00:45:45,349 --> 00:45:42,640

more about you uh online you know

1245

00:45:49,990 --> 00:45:45,359

facebook page or whatever

1246

00:45:54,309 --> 00:45:50,000

well i i do have a a a youtube channel

1247

00:45:56,710 --> 00:45:54,319

we have a monthly uh a zoom session

1248

00:45:57,430 --> 00:45:56,720

uh that we have guests come on and

1249

00:46:00,150 --> 00:45:57,440

everything it's

1250

00:46:00,790 --> 00:46:00,160

it's not real polished and professional

1251  
00:46:03,349 --> 00:46:00,800  
but

1252  
00:46:04,390 --> 00:46:03,359  
uh we've had some interesting guests on

1253  
00:46:07,910 --> 00:46:04,400  
and everything

1254  
00:46:10,790 --> 00:46:07,920  
and um george filer has been on

1255  
00:46:13,270 --> 00:46:10,800  
uh uh bruce bruce cornette i believe you

1256  
00:46:16,069 --> 00:46:13,280  
guys know bruce oh yeah oh sure

1257  
00:46:17,750 --> 00:46:16,079  
yeah so and we have a very hardcore

1258  
00:46:18,710 --> 00:46:17,760  
group that that's growing here bruce

1259  
00:46:20,870 --> 00:46:18,720  
pearson dina

1260  
00:46:21,910 --> 00:46:20,880  
have you ever met bruce bruce i don't

1261  
00:46:23,829 --> 00:46:21,920  
think so no

1262  
00:46:25,510 --> 00:46:23,839  
it doesn't sound pretty gotta got a

1263  
00:46:28,870 --> 00:46:25,520

minute to go here guys

1264

00:46:32,150 --> 00:46:28,880

okay well anyway um i i do have uh

1265

00:46:34,510 --> 00:46:32,160

uh i i'm putting a website up it's not

1266

00:46:37,109 --> 00:46:34,520

up yet yeah but it'll be uh

1267

00:46:38,550 --> 00:46:37,119

millenniumoss.com uh there's one up

1268

00:46:39,990 --> 00:46:38,560

there but it's not quite with all the

1269

00:46:41,349 --> 00:46:40,000

stuff on it

1270

00:46:44,550 --> 00:46:41,359

my phone number if you want to get my

1271

00:46:49,270 --> 00:46:44,560

phone number out i'll be more uh

1272

00:46:54,069 --> 00:46:49,280

my email address is joseph.foster fosder

1273

00:46:58,309 --> 00:46:54,079

at millennium oss and m-i-l-l-e

1274

00:47:01,430 --> 00:46:58,319

and ium.oss.com thank you

1275

00:47:03,270 --> 00:47:01,440

and and thank you mindy gerber and uh

1276

00:47:04,630 --> 00:47:03,280

uh we'll have we'll have we'll have a

1277

00:47:07,190 --> 00:47:04,640

special offer up for

1278

00:47:08,829 --> 00:47:07,200

uh alien lives matter on the conspiracy
