

1

00:00:00,000 --> 00:00:26,000

...

2

00:00:26,000 --> 00:00:28,000

Dude, I think I found it.

3

00:00:30,000 --> 00:00:38,000

...

4

00:00:38,000 --> 00:00:40,000

We happy?

5

00:00:40,000 --> 00:00:45,000

...

6

00:00:45,000 --> 00:00:47,000

Adam, we happy?

7

00:00:47,000 --> 00:00:49,000

Yeah, we happy.

8

00:00:49,000 --> 00:00:59,000

...

9

00:00:59,000 --> 00:01:14,000

...

10

00:01:14,000 --> 00:01:18,000

Dude, it's real. This is it.

11

00:01:18,000 --> 00:01:20,000

What exactly is it?

12

00:01:20,000 --> 00:01:24,000

This is the end of the line. This is our last ever episode of Mythbusters.

13

00:01:24,000 --> 00:01:27,000

So, what do you want to do? Sit around and mope?

14

00:01:27,000 --> 00:01:31,000

No, I do not. We have actually a fantastic episode planned.

15

00:01:31,000 --> 00:01:33,000

And Mayhem is front and center on this.

16

00:01:33,000 --> 00:01:36,000

We've got a rocket sled, Buster.

17

00:01:36,000 --> 00:01:38,000

Get the stuntman of all of our dreams.

18

00:01:38,000 --> 00:01:42,000

Wow! Huge explosion.

19

00:01:42,000 --> 00:01:43,000

Wow!

20

00:01:43,000 --> 00:01:45,000

A truck wedge on steroids.

21

00:01:45,000 --> 00:01:48,000

...

22

00:01:48,000 --> 00:01:50,000

And a whole bunch more.

23

00:01:50,000 --> 00:01:52,000

Well, sounds good. What's first?

24

00:01:52,000 --> 00:01:56,000

One of the things Mythbusters is most famous for is our extensive use of our high-speed camera.

25

00:01:56,000 --> 00:01:57,000

Agreed.

26

00:01:57,000 --> 00:02:01,000

But we have never filmed an explosion at tens of thousands of frames per second.

27

00:02:01,000 --> 00:02:05,000

Well, you know what? If we're going to do that, we should make the last one a monster.

28

00:02:05,000 --> 00:02:12,000

I totally agree. You heard him. Don't touch that dial because the last ever episode of Mythbusters starts right now.

29

00:02:12,000 --> 00:02:14,000

...

30

00:02:14,000 --> 00:02:17,000

They say that all good things must come to an end.

31

00:02:17,000 --> 00:02:19,000

...

32

00:02:19,000 --> 00:02:21,000

And Mythbusters is no exception.

33

00:02:21,000 --> 00:02:23,000

...

34

00:02:23,000 --> 00:02:27,000

Having lived through 14 years of world firsts...

35

00:02:27,000 --> 00:02:29,000

...

36

00:02:29,000 --> 00:02:31,000

...

37

00:02:31,000 --> 00:02:33,000

...

38

00:02:33,000 --> 00:02:35,000

...

39

00:02:35,000 --> 00:02:37,000

...

40

00:02:37,000 --> 00:02:39,000

...

41

00:02:39,000 --> 00:02:41,000

...

42

00:02:41,000 --> 00:02:43,000

...

43

00:02:43,000 --> 00:02:45,000

...

44

00:02:45,000 --> 00:02:47,000

...

45

00:02:47,000 --> 00:02:49,000

...

46

00:02:49,000 --> 00:02:51,000

...

47

00:02:51,000 --> 00:02:52,000

...

48

00:02:54,000 --> 00:02:55,000

...

49

00:02:55,000 --> 00:02:58,000

...

50

00:02:58,000 --> 00:03:01,000

...

51

00:03:01,000 --> 00:03:04,000

...

52

00:03:04,000 --> 00:03:05,740

...

53

00:03:10,000 --> 00:03:13,000

...

54

00:03:13,000 --> 00:03:15,000

...

55

00:03:15,000 --> 00:03:17,000

...

56

00:03:17,000 --> 00:03:24,680

massive explosions. Our target? Why this beautiful RV? RV stands for recreational

57

00:03:24,680 --> 00:03:29,880

vehicle and blowing stuff up is a form of recreation for us.

58

00:03:33,240 --> 00:03:37,960

Now we've chosen this because Mythbusters has a long and illustrious history

59

00:03:37,960 --> 00:03:43,400

messing with these things. We've driven through them.

60

00:03:43,880 --> 00:03:49,760

We've fired rocket propelled grenades at them. Heck, we've even used them for show

61

00:03:49,760 --> 00:03:55,040

openers. Put your pants back on. We've got work to do. Today we're going to continue

62

00:03:55,040 --> 00:03:59,720

that long and illustrious history by turning this into dust beautifully. It's

63

00:03:59,720 --> 00:04:04,760

not just history that makes the RV the perfect pick. That's what I'm talking

64

00:04:04,760 --> 00:04:09,720

about. But being made of materials both hard and soft it should make for a

65

00:04:09,760 --> 00:04:15,480

kaleidoscopic kaboom. A little color for our RV. Especially at a frame rate

66

00:04:15,480 --> 00:04:22,640

that's mind-blowingly fast. There we go. Pop quiz. What is this referring to? The

67

00:04:22,640 --> 00:04:25,120

answer is that that's the frame rate that this camera is going to be

68

00:04:25,120 --> 00:04:29,480

documenting our explosion in. And by the way this will be the fastest frame rate

69

00:04:29,480 --> 00:04:35,200

that we've ever documented an explosion with. Yep, despite conducting over 900

70

00:04:35,240 --> 00:04:42,080

explosions. When it comes to dissecting a detonation their explosive frame rate

71

00:04:42,080 --> 00:04:48,920

has maxed out at 10,000 frames per second. Five times slower than this final

72

00:04:48,920 --> 00:04:53,320

farewell. That was a little more energetic than I thought. And with an

73

00:04:53,320 --> 00:04:59,520

enormous amount of info the guys are going large. That is a lot of boom. But

74

00:04:59,560 --> 00:05:06,600

not before some science. This right here is 855 pounds of info. Now when this

75

00:05:06,600 --> 00:05:12,320

stuff goes off it's going to release 5,355 megajoules. Sounds like a lot of

76

00:05:12,320 --> 00:05:19,960

energy right? Well it is but consider this. The energy contained per pound in a

77

00:05:19,960 --> 00:05:25,560

candy bar is greater than that inside a stick of dynamite. Now that means that

78

00:05:25,560 --> 00:05:29,480

this isn't just about the total energy content it's about the speed of the

79

00:05:29,520 --> 00:05:34,200

release. When that candy bar is consumed it's going to take pretty much a day to

80

00:05:34,200 --> 00:05:38,440

release all its energy. That when we set off this info it's going to be released

81

00:05:38,440 --> 00:05:42,600

in a tiny fraction of a second. And that's a whole different kettle of fish.

82

00:05:42,600 --> 00:05:50,680

With a detonation velocity of 14,000 feet per second. Another day another 850

83

00:05:50,680 --> 00:05:57,560

pounds of explosives. The info will sure pack a punch. Last one. There you go.

84

00:05:57,920 --> 00:06:03,240

That's it. But will it be spectacular enough for Adam and Jamie to hang up

85

00:06:03,240 --> 00:06:07,560

their high-speed camera once and for all?

86

00:06:10,280 --> 00:06:16,280

To find out the guys hunker in the bunker. This is where I want to survive a

87

00:06:16,280 --> 00:06:21,400

zombie apocalypse. And get ready to rock.

88

00:06:21,680 --> 00:06:28,280

Here we go. We're about to detonate our RV with 850 pounds of info on your mark Mr.

89

00:06:28,280 --> 00:06:41,080

Heidemann. Okay detonate in five, four, three, two, one.

90

00:06:51,400 --> 00:06:53,400

Oh!

91

00:07:04,520 --> 00:07:12,520

There's nothing left. No hole, no nothing. It's like it wasn't there.

92

00:07:12,520 --> 00:07:16,520

If Jamie wanted big boon.

93

00:07:17,240 --> 00:07:29,240

Jamie got big boon. Because their RV has gone AWOL. Wow! I can see chunks everywhere.

94

00:07:31,240 --> 00:07:37,800

But this experiment was all about creating a high speed at the bomb. So was it job done?

95

00:07:38,760 --> 00:07:44,840

All right this is the best part watching it on high speed. To find out Adam starts by queuing

96

00:07:44,840 --> 00:07:56,280

the close-up. Oh look at that. You get to look at the inside of our RV lighting up.

97

00:07:56,280 --> 00:08:03,320

That's 850 pounds of info. Expanding at give or take 15 times the speed of a bullet.

98

00:08:03,320 --> 00:08:10,760

Oh look at that. It's so beautiful. If the close-up had you impressed just wait for the wide.

99

00:08:10,760 --> 00:08:19,160

Oh and there comes the shockwave. That might be the most beautiful shockwave we have ever recorded.

100

00:08:19,160 --> 00:08:22,360

Look at it. It's like a lens. It's like a photoshop effect.

101

00:08:27,560 --> 00:08:33,880

Just incredible. Never ever have we gotten this deep view on an explosion.

102

00:08:34,680 --> 00:08:42,040

It's taken 14 years to get this footage. Possible now only because of incredible camera technology.

103

00:08:43,480 --> 00:08:50,600

And the second and unskillset of Adam and Jamie. Wow that's intense. It's just this

104

00:08:51,160 --> 00:08:55,240

incredibly bright light right there. I love that.

105

00:08:55,560 --> 00:09:02,760

For this final farewell it's well and truly first mission accomplished.

106

00:09:03,960 --> 00:09:08,440

Well that was a pretty spectacular way to start out the finale episode. What do you think?

107

00:09:08,440 --> 00:09:12,760

Darn tootin. Love those big blast bubbles. Me too. Let's get out of here. Yeah.

108

00:09:13,960 --> 00:09:18,920

Oh that's not all. If you like that stick around it gets much much better.

109

00:09:19,720 --> 00:09:28,280

Still to come in this epic final episode. That's it. Thank you sir. Busters Goodbye goes super

110

00:09:28,280 --> 00:09:36,600

sunny. Oh whoa. Adam takes a crash course through memory lane. I can't see. And a fan favorite

111

00:09:36,600 --> 00:09:41,720

sees the guy's end with a bang. Three two one.

112

00:09:49,880 --> 00:10:00,680

After 14 unforgettable years. It's scientific. And 3000 eclectic experiments. This is gonna kill you.

113

00:10:02,200 --> 00:10:11,320

This is Adam and Jamie's final farewell. Wow. And the chaos is about to get cranked up to the max.

114

00:10:11,960 --> 00:10:17,400

So what's next? Well I've been trying to think of something that is awesome and spectacular yet

115

00:10:17,480 --> 00:10:24,280

also poignant and pays homage to the totality of our history. That's deep. Well I think I've come

116

00:10:24,280 --> 00:10:37,480

up with something. Do you remember Truck Wedge? Yeah it was great. So what I'm thinking of is

117

00:10:37,480 --> 00:10:43,240

we build a new improved truck wedge. Attach it to a more powerful and bigger truck. And then on a

118

00:10:43,240 --> 00:10:48,280

runway we line up all 14 years of Mythbusters history all the props the wooden cutouts the

119

00:10:48,280 --> 00:10:53,560

busters the cars the planes the boats and we drive right through the center of all of it.

120

00:10:53,560 --> 00:10:58,920

So it's a symbolic kind of a thing. Indeed it is. When it comes to wanting destruction.

121

00:10:59,800 --> 00:11:05,960

That was awesome. And scientific slaughter. The Mythbusters have set the bar high.

122

00:11:05,960 --> 00:11:16,360

But in this grand finale they're raising that bar to infinity and beyond.

123

00:11:22,600 --> 00:11:28,360

No final episode of Mythbusters would be complete unless we came to our favorite and most iconic

124

00:11:28,360 --> 00:11:35,240

location. I am standing on the runway at the Alameda Naval Station. It is a mile and a half of pure

125

00:11:35,320 --> 00:11:40,920

experimental goodness. And it is on this runway that we are going to do the Mythbusters version

126

00:11:40,920 --> 00:11:48,600

of a trip down memory lane. Yep it's here that Adam's setting up the most expansive experiment

127

00:11:48,600 --> 00:12:01,160

the guys have ever done. A truck wedge finale that will test momentum versus Mythbusters history

128

00:12:01,880 --> 00:12:11,400

in a mile long lineup of 60 cars. That is exactly as much fun as it seems. And almost 200 props from

129

00:12:11,400 --> 00:12:20,280

the past. There we go not one but two water heater rocket little red schoolhouses. If the truck makes

130

00:12:20,280 --> 00:12:28,120

it all the way it'll be the ultimate hit and run. Tab A slot B you need planes built in a hurry come

131

00:12:28,120 --> 00:12:34,760

to Savage Plane Reconstruction. But with the course still days away from being ready it's over

132

00:12:34,760 --> 00:12:42,440

to Jamie who's got to contrive and construct the mother of all steel wedges. I've got to build this

133

00:12:42,440 --> 00:12:47,480

massive steel wedge that I'm going to attach to the truck. Now to do that I've designed a number

134

00:12:47,480 --> 00:12:53,880

of triangular steel plates that will weld into this structure. That's not the difficult part. The

135

00:12:53,880 --> 00:12:59,400

difficult part is I need to get things sucked in really close so that I can attach it securely to

136

00:12:59,400 --> 00:13:07,880

the chassis and it'll fit. Slowly but surely the wedge starts to take shape. We mean business.

137

00:13:07,880 --> 00:13:14,760

And it's shape that is critical to this epic experiment. Thanks to its pointed nose and cone

138

00:13:14,760 --> 00:13:20,520

like contours the welded steel wedge should be able to slice through everything in its path.

139

00:13:21,480 --> 00:13:28,840

And then push it to the side provided the truck speed stays high and its driver stays on target.

140

00:13:29,960 --> 00:13:37,320

And with this last ever rig nearly ready Jamie's getting jazzed. This is the kind of stuff that I

141

00:13:37,320 --> 00:13:45,640

really like because this went from a thing in the computer to a thing that's really kind of

142

00:13:45,640 --> 00:13:53,400

impressively nasty and pretty bad ass. Indeed. But before it lets rip for real.

143

00:13:58,600 --> 00:14:05,560

There's another final fling to begin. Pop quiz which myth buster has put their life on the line

144

00:14:05,560 --> 00:14:22,200

more than any other me. No you. Wrong again Tory. Oh actually.

145

00:14:27,960 --> 00:14:32,920

I was thinking of buster. Well he has put himself out there for us indeed and in this

146

00:14:32,920 --> 00:14:39,640

final episode I think that we should say goodbye to buster in a manner properly befitting his

147

00:14:39,640 --> 00:14:50,600

incredible contribution like a superhero. Exactly. Faster than a speeding bullet. Stand by for buster's

148

00:14:50,600 --> 00:14:57,400

last stand. What is it that defines a superhero. I tell you what doesn't it's not a phone booth.

149

00:14:58,360 --> 00:15:07,400

It's not a costume as good as I look in this costume. No. What defines a superhero is that

150

00:15:07,400 --> 00:15:13,400

they sacrifice their own existence for the betterment of humanity and for the world and who on

151

00:15:13,400 --> 00:15:19,000

the myth buster's crew qualifies as a superhero. It's buster for the last 13 and a half years
buster

152

00:15:19,000 --> 00:15:24,840

has repeatedly sacrificed himself thrown himself on the altar of science for your entertainment

153

00:15:24,840 --> 00:15:31,160

but more importantly for your knowledge and in this episode buster is retiring and he has chosen

154

00:15:31,160 --> 00:15:40,200

to go out in a manner that befits his status. In this box right here is the new star of myth
buster's.

155

00:15:40,200 --> 00:15:49,240

It was 2003 when buster first set foot in M5. Oh look at that. Where it was love at first sight.

156

00:15:49,320 --> 00:15:54,600

I think we should call him buster at least until his second day when the abuse began.

157

00:16:00,040 --> 00:16:02,520

In his second week things got worse.

158

00:16:05,720 --> 00:16:13,560

And that set the scene for 14 long years. How are you feeling buddy. In the name of science

159

00:16:13,560 --> 00:16:15,640

buster's been repeatedly blown up.

160

00:16:19,320 --> 00:16:29,240

Crashed that is a headache and hurled to the ground. Without doubt buster's been a true hero

161

00:16:29,800 --> 00:16:36,680

taking one for the team time and time again. So what awaits him in his last ever experiment.

162

00:16:37,480 --> 00:16:38,200

Oh he's ready.

163

00:16:38,840 --> 00:16:48,520

Well to say he's shooting for the moon would be on the right track. Yes this rocket sled is

164

00:16:48,520 --> 00:16:53,000

buster's chosen means of saying goodbye to the series and it's going to get him up to over the

165

00:16:53,000 --> 00:17:00,520

speed of sound for a thousand feet to his final destination being the superhero that he is somewhere

166

00:17:00,520 --> 00:17:07,560

on the other side of this wall. That's right with buster welded into position he's going to go

167

00:17:07,560 --> 00:17:15,800

super sonic for science. I think that's going to do it. But not before he's dressed like the

168

00:17:15,800 --> 00:17:20,840

superhero that he is buster. I'd like to say that it's been an honor and a pleasure working with

169

00:17:20,840 --> 00:17:25,960

you. I have gained much enjoyment and knowledge in our association and I'm going to send you

170

00:17:25,960 --> 00:17:30,920

down with your favorite bottle of myth buster champagne. You ready buddy. Here goes for old time's

171

00:17:30,920 --> 00:17:45,000

sake. That is so appropriate. Sorry this one's real. Oh man. Thank you sir. With buster bruised for the

172

00:17:45,000 --> 00:17:51,240

penultimate time Adam heads down when to paint a suitable target. I think that is fitting.

173

00:17:51,240 --> 00:17:59,080

And next it's time for the Rockets. Rocket motors of this size and type put out five thousand six

174

00:17:59,080 --> 00:18:03,800

hundred and twenty pounds of thrust and we're going to have ten of them on our rocket sled.

175

00:18:03,800 --> 00:18:08,920

That's what's going to propel buster to speeds and access of the speed of sound by the time it hits

176

00:18:08,920 --> 00:18:16,360

the barrier. When the rockets are lit a jet stream of gas will blast out the back and because every

177

00:18:16,360 --> 00:18:22,760

action has an equal and opposite reaction that glass will push the sled forward at almost

178

00:18:22,760 --> 00:18:29,640

eight hundred miles per hour. Buster. It's the stuntman of all of our dreams.

179

00:18:32,840 --> 00:18:38,440

With the goodbyes said the guys go down the tube for the countdown. All right guys I'm going to give

180

00:18:38,440 --> 00:18:44,680

you a ten second count. You ready Mr. Heidemann. I'm ready. Okay this is buster's last stand.

181

00:18:45,320 --> 00:19:00,680

Thousand foot rocket sled ride to the end. In ten. Nine. Eight. Seven. Six. Five. Four. Three. Two. One.

182

00:19:07,480 --> 00:19:13,160

After a decade of destructive dedication. Nice work buster. Nice work.

183

00:19:14,120 --> 00:19:23,320

Buster has literally had a blast. His ass is on fire. And in this his last ever episode

184

00:19:23,880 --> 00:19:30,200

it's time to say goodbye. Buster it's the stuntman of all of our dreams.

185

00:19:32,680 --> 00:19:39,480

In more ways than one it's quite literally doom and gloom as a surely an omen storm has

186

00:19:39,480 --> 00:19:48,280

suddenly let loose. But it's too late to back out now because buster's got a date with destiny.

187

00:19:48,840 --> 00:20:01,560

This is buster's last stand. Thousand foot rocket sled ride to the end. In five. Four. Three. Two. One.

188

00:20:01,720 --> 00:20:05,720

One. Two.

189

00:20:09,720 --> 00:20:17,720

Wow. Boy you can feel that. You're really good. Something broke the speed of sound while we were watching it.

190

00:20:19,720 --> 00:20:27,720

It was a perfectly rocket sled sized hole in the wall that he flew into. Yeah that didn't mess around. Oh no.

191

00:20:28,680 --> 00:20:42,680

Speaking at 780 miles an hour. It's no surprise that their pristine target is now just a trouble of rubble. Yeah that's a hole.

192

00:20:42,680 --> 00:20:52,680

But as for buster he's gone. The myth busters look high and low. I think he's in the hill. Yeah he might be.

193

00:20:53,080 --> 00:20:58,760

But fine not a bit of his body anywhere. I think buster's been totally disintegrated.

194

00:20:59,640 --> 00:21:09,880

And the high speed shows why. As buster hits the wall faster than a speeding bullet there's a mysterious flash of light before he simply vanishes.

195

00:21:10,680 --> 00:21:19,480

The five million jewel impact greater than he had ever experienced before has literally caused him to disappear without a trace.

196

00:21:19,480 --> 00:21:26,280

So buster wherever you are this heroic replay is for you.

197

00:21:49,480 --> 00:21:52,280

Yeah.

198

00:22:10,280 --> 00:22:14,280

Back where it all began. Jamie is a man on a mission.

199

00:22:15,240 --> 00:22:24,680

Perfect. He's making a super reinforced truck wedge for the most destructive experiment in myth busters history.

200

00:22:25,480 --> 00:22:35,880

And stage one is done. Well that was a good hard day's work but it's strong I tell you I think it's going to do the job. Here's hoping.

201

00:22:36,520 --> 00:22:43,720

It's been a beast of a build. But back at Alameda. Adam's also been cooking with gas.

202

00:22:46,280 --> 00:22:53,480

Because his ultimate crash course featuring 200 myth busters mementos is ready to rock.

203

00:22:55,640 --> 00:23:03,960

And here's how this blast through the past is going to go down. Our new improved wedge will be driving through two rows of 10 cars.

204

00:23:04,040 --> 00:23:10,760

We painted numbers on the top 10 through one so it's a countdown all the way to the end and these 20 cars.

205

00:23:12,200 --> 00:23:13,240

Is just the beginning.

206

00:23:15,800 --> 00:23:21,160

Once we made it through all 20 cars and it's time for a walk down memory lane starting out with 2003.

207

00:23:21,160 --> 00:23:26,840

We've got barrel of bricks microwave miss escape from Alcatraz ducks quack won't echo tree cannon and exploding toilet.

208

00:23:27,000 --> 00:23:36,760

Fire in 2004 we've got killer washing machine we've got jet taxi job breaker electrocution in the bathtub and needle in a haystack.

209

00:23:37,320 --> 00:23:45,480

That is what's found needle 2005 salsa prison escape bullets underwater killer tissue box

210

00:23:46,040 --> 00:23:49,720

shark wig and the Christmas trees mean it's the myth busters holiday special.

211

00:23:49,880 --> 00:23:50,440

The next.

212

00:23:55,240 --> 00:24:01,320

2006 means shredded airplane Archimedes death ray great gas conspiracy and mementos and soda.

213

00:24:04,760 --> 00:24:05,720

Don't tell Jamie.

214

00:24:06,840 --> 00:24:19,000

And so it goes on for 14 years. Adams picked the most iconic props from the most famous episodes to stand and deliver in the ultimate truck wedge test.

215

00:24:19,880 --> 00:24:23,960

But seeing memory lane laid out has had an unexpected effect.

216

00:24:25,480 --> 00:24:36,520

Our original goal in creating this destructive drive through myth busters memory lane was to engender a kind of catharsis for you the audience and say goodbye to the show.

217

00:24:36,520 --> 00:24:40,680

The unexpected result is that it's created a catharsis for me.

218

00:24:41,320 --> 00:24:49,320

It demonstrates a tremendous amount of work and love and effort and I have to say taking a walk through it is pretty emotional and it's kind of hard to say goodbye.

219

00:24:50,680 --> 00:24:55,960

It's definitely the end of an era. But before anyone can get too afflicted.

220

00:24:59,800 --> 00:25:05,960

Jamie arrives with a turbocharged truck complete with a now or never knows cone.

221

00:25:09,800 --> 00:25:17,400

Oh look at this thing his last ever bill. Absolutely badass.

222

00:25:20,120 --> 00:25:27,160

The wedge is made of eight pieces of half inch thick steel aligned into a cone.

223

00:25:28,040 --> 00:25:39,000

Behind it tubular steel connects the wedge directly to the truck over the cab two layers of bullet proof glass should ensure there'll be no driver decapitation.

224

00:25:40,680 --> 00:25:45,000

But she's not quite ready to roll yet. All right on.

225

00:25:50,200 --> 00:25:51,080

I think it's about right.

226

00:25:53,160 --> 00:25:55,800

Without a doubt the trucks dressed to kill.

227

00:25:57,960 --> 00:26:01,960

That's better. Let's get this show on the road. It's driver not so much.

228

00:26:04,200 --> 00:26:11,320

Yeah let's do this thing with Jamie watching on. I just hope he doesn't get hurt. No it could happen.

229

00:26:13,240 --> 00:26:18,760

Adam puts the pedal to the metal. Seven gear coming up to 30.

230

00:26:19,240 --> 00:26:27,640

But will the wedge have the strength to give the runway the send off it so dearly deserves. Ladies and gentlemen this is

231

00:26:28,200 --> 00:26:33,640

a destructive wedge through memory lane and three two one.

232

00:26:41,080 --> 00:26:43,160

When it comes to car carnage

233

00:26:43,560 --> 00:26:50,520

Adam and Jamie are as good as it gets. This is why we can't have nice things.

234

00:26:51,160 --> 00:27:00,040

But it was season 12's truck wedge that took their vehicular violence to a whole new level. I think we just solved my traffic problem.

235

00:27:03,560 --> 00:27:07,480

So now they're ramping data with a supersize truck.

236

00:27:08,200 --> 00:27:18,680

A fearsome wedge and the ultimate crash course stand by for some final physics momentum versus myth busters history.

237

00:27:20,280 --> 00:27:23,400

To find out which will win Adams in the hot seat.

238

00:27:26,040 --> 00:27:31,160

Oh seriously the horn doesn't work. All right sound effects give me a horn.

239

00:27:33,000 --> 00:27:34,920

Yeah let's do this thing.

240

00:27:38,040 --> 00:27:45,640

But before any wedge wipeout Adams first going to drive past the crash course. There we go.

241

00:27:46,280 --> 00:27:53,240

25. The double check that the truck and wedge can cope. Eight gear this is my butter gear.

242

00:27:53,800 --> 00:28:01,400

When being driven at speeds that are dangerously fast. Getting into 45. That's about the speed I'll hit the cars.

243

00:28:02,200 --> 00:28:05,240

And it's so far so good.

244

00:28:13,160 --> 00:28:18,840

The truck and wedge are both stable and fast.

245

00:28:18,920 --> 00:28:23,000

Getting to the end. Coming to a complete halt here and...

246

00:28:25,000 --> 00:28:29,000

Which means that Adam can reset. That was a test run.

247

00:28:29,080 --> 00:28:37,000

And get ready for this ultimate blast through the past where the danger is quite literally going to be through the roof.

248

00:28:42,200 --> 00:28:47,080

All right. It is just you and me now. It's you and me.

249

00:28:47,400 --> 00:28:51,320

The sun is setting. It's a beautiful afternoon in San Francisco.

250

00:28:51,320 --> 00:28:55,560

And I'm going to miss this part of the job. This show. This job.

251

00:29:00,360 --> 00:29:06,680

After an epic 14 years. Here we go. It's time for the runway's last run out.

252

00:29:07,720 --> 00:29:11,560

There he goes. Will Jamie's world class wedge.

253

00:29:12,520 --> 00:29:19,160

Seven here coming up to 30. Combined with Adam's second to none drive skills. Eight here.

254

00:29:19,720 --> 00:29:23,320

To make it all the way through their crazy crash course.

255

00:29:24,200 --> 00:29:28,520

Three, five miles per hour. Here we go. Ladies and gentlemen.

256

00:29:29,880 --> 00:29:33,560

This is a destructive wedge from memory lane.

257

00:29:35,080 --> 00:29:37,640

In three, two, one.

258

00:29:42,280 --> 00:29:46,120

Yeah! Right through! Yeah!

259

00:29:49,560 --> 00:29:52,440

Hey! Two, three, five, boom!

260

00:29:55,640 --> 00:29:58,600

Six, boom! Oh, yeah!

261

00:29:59,640 --> 00:30:03,640

Seven, boom! Ha-ha! Eight, boom!

262

00:30:03,640 --> 00:30:13,720

Oh, yeah! Holy crap! This is insane!

263

00:30:21,160 --> 00:30:23,720

Get off my truck, Porsche!

264

00:30:25,720 --> 00:30:29,720

Oh, my God! I can't see! I can't see!

265

00:30:33,720 --> 00:30:35,720

There we go. Ladies and gentlemen.

266

00:30:43,320 --> 00:30:44,600

Oh, yes!

267

00:30:50,920 --> 00:30:54,760

Now that's what I call a demolition derby.

268

00:30:54,760 --> 00:30:55,720

Sir, are you all right?

269

00:30:57,560 --> 00:30:59,960

Yeah! Yeah, I'm all right!

270

00:31:00,120 --> 00:31:01,160

Ha-ha-ha!

271

00:31:02,360 --> 00:31:06,840

Incredibly, Adam's unscathed, but the wedge, not so much.

272

00:31:08,600 --> 00:31:09,640

Well, there's your problem.

273

00:31:13,160 --> 00:31:14,440

Look at what I have wrought!

274

00:31:16,040 --> 00:31:19,240

It held. It took a beating, but it did its job.

275

00:31:21,480 --> 00:31:26,280

The wedge may be battered, but that's nothing compared to the crash course,

276

00:31:26,360 --> 00:31:31,480

which has been completely torn apart. For more than a mile of runway,

277

00:31:31,480 --> 00:31:35,640

there's a level of destruction that is absolutely astonishing.

278

00:31:36,840 --> 00:31:42,120

And it's all thanks to momentum. Because the wedge pushed the props up and out,

279

00:31:42,120 --> 00:31:48,040

the truck never got slowed down, meaning that it could continue its demolition derby

280

00:31:48,040 --> 00:31:51,960

all the way to the end. But what was it like to drive?

281

00:31:52,280 --> 00:32:01,320

That was far more intense than I expected it to be, as evidenced by the fact that

282

00:32:01,960 --> 00:32:05,640

it looks like about 20% of what I drove through stayed with me.

283

00:32:05,640 --> 00:32:13,320

So to recap, I hit about 45 miles an hour at the very moment I got to the first row of 20 cars.

284

00:32:16,200 --> 00:32:20,040

And I started plowing through things. I went through cement wall, I went through fish tanks,

285

00:32:20,040 --> 00:32:22,520

I went through bathtubs, I went through popcorn houses.

286

00:32:24,760 --> 00:32:29,720

But about halfway through, some cardboard and plywood decided to stay on my windshield.

287

00:32:29,720 --> 00:32:37,480

Now, I did see a red car travel all the way up the front, and I noted that it went past my left side.

288

00:32:37,480 --> 00:32:40,920

That made me very happy for this big heavy wall beam right there.

289

00:32:41,960 --> 00:32:45,640

And at a certain point, I realized I hadn't hit something in a while,

290

00:32:45,640 --> 00:32:52,360

and that's when the Tuma-Gyver mail trucks aimed me towards the rocket car and allowed me to finish

291

00:32:52,360 --> 00:32:57,480

this with a perfect smack right into the butt end of that to complete this run.

292

00:33:01,560 --> 00:33:04,120

That, ladies and gentlemen, is catharsis.

293

00:33:06,200 --> 00:33:14,120

Catharsis and catastrophe. A double dose of epic destruction, that's the perfect final physics

294

00:33:14,200 --> 00:33:17,080

farewell for this remarkable runway.

295

00:33:20,120 --> 00:33:24,680

Well, I guess that's it then. I think we got one more thing. Let's get out of here.

296

00:33:26,840 --> 00:33:27,960

Thanks for your hard work, Carr.

297

00:33:30,280 --> 00:33:34,200

Still to come. 5,001 pounds of info.

298

00:33:34,200 --> 00:33:38,200

Adam and Jamie sign off in the only way they can.

299

00:33:38,920 --> 00:33:41,880

Three, two, one.

300

00:33:51,800 --> 00:33:58,920

After a final season full of stunning statistics and 14 years full of spectacular science,

301

00:33:59,560 --> 00:34:03,800

just one question remains. What was the best ever story?

302

00:34:04,520 --> 00:34:09,240

What is my favorite myth? I'm going to have to go with the most astonishing thing I've ever

303

00:34:09,240 --> 00:34:14,280

gotten to do in the history of Mythbusters, and that is put on a full pressurized spacesuit

304

00:34:14,280 --> 00:34:20,920

and fly to the edge of space in a U2 plane. Hands down, best thing I've ever gotten to do.

305

00:34:20,920 --> 00:34:28,040

Yep, U2's trip to the edge of space was a literal highlight, but it's not at the top of Jamie's list.

306

00:34:28,040 --> 00:34:31,720

I don't really have any favorite myths. I have favorite things that I've done during this,

307

00:34:31,720 --> 00:34:35,880

like water skiing behind a rowboat or riding a motorcycle across a lake.

308

00:34:36,760 --> 00:34:41,160

And then there are things that we've built, like the steam machine gun. Those are great.

309

00:34:41,160 --> 00:34:42,120

Nice work, man.

310

00:34:56,040 --> 00:34:58,360

Deep in the heart of the New Mexican desert.

311

00:35:01,880 --> 00:35:07,480

Adam and Jamie are ending their wild ride in the only way they can.

312

00:35:09,240 --> 00:35:09,740

Boom.

313

00:35:13,320 --> 00:35:17,160

This is it. This is the end. Way back in the early days of Mythbusters,

314

00:35:17,160 --> 00:35:23,000

the explosion that put us on the map was the detonation of a cement truck with 850 pounds of explosives.

315

00:35:23,720 --> 00:35:35,480

So when it came time to figure out a way to wrap up this series, this was the only choice.

316

00:35:35,480 --> 00:35:41,160

I'm introducing you now to a soon-to-be former cement truck. This will be Mythbusters' last

317

00:35:41,720 --> 00:35:48,920

ever explosion. Yes, and it'll be our biggest. Yep, for their last ever sequence.

318

00:35:49,640 --> 00:35:58,680

There it is. The guys are going to redo their most famous blast and take it to the max.

319

00:36:01,640 --> 00:36:08,440

Now what's being prepared here, that's beautiful, is the largest explosion in Mythbusters history.

320

00:36:10,280 --> 00:36:16,520

Its predecessor was when Keri Grant and Tori made diamonds with 5,000 pounds of explosives.

321

00:36:19,480 --> 00:36:22,440

In here, we're putting more.

322

00:36:23,720 --> 00:36:31,480

Adam and Jamie are using their 14-year explosive experience to say goodbye with the most epic

323

00:36:31,480 --> 00:36:38,040

explosion they've ever done. Inside this cement truck, 5,000 pounds of info.

324

00:36:38,040 --> 00:36:40,600

And we are putting more than that in here, Mr. Heidemann.

325

00:36:41,560 --> 00:36:44,360

One pound. One pound. 5,000 and one pounds.

326

00:36:45,000 --> 00:36:50,360

The largest explosion in Mythbusters history. And the last one. Yep.

327

00:36:51,720 --> 00:36:58,600

With the cement truck ready for the ultimate clear-out, the guys are going big, then going home.

328

00:37:01,640 --> 00:37:06,120

Before we commence with this final detonation, I have to admit it is an emotional day.

329

00:37:06,120 --> 00:37:11,640

We've been doing this job for 14 years now, and over that time, we have done just an endless

330

00:37:11,640 --> 00:37:13,640

number of the most ludicrous.

331

00:37:26,360 --> 00:37:27,160

Hilarious.

332

00:37:33,000 --> 00:37:33,560

Oh yeah.

333

00:37:34,200 --> 00:37:36,120

Don't I look like silent death?

334

00:37:36,760 --> 00:37:37,400

Bizarre.

335

00:37:42,040 --> 00:37:42,840

Dangerous.

336

00:37:42,840 --> 00:37:45,080

Am I missing a time for help?

337

00:37:45,080 --> 00:37:46,520

Something just hit me!

338

00:37:49,960 --> 00:37:51,160

Wonderful things.

339

00:37:57,160 --> 00:37:59,640

Yeah, it was one of the coolest things I've ever seen.

340

00:38:02,120 --> 00:38:07,240

It is in gentlemen 70,000 feet. This is not a bad way to spend your day.

341

00:38:07,320 --> 00:38:12,680

But more than any of that, what has really fundamentally changed the way I think as a person

342

00:38:12,680 --> 00:38:14,520

is what I've learned on this show.

343

00:38:14,520 --> 00:38:16,680

This is a lead balloon.

344

00:38:16,680 --> 00:38:20,360

What I've encountered and the problems that I've had to solve.

345

00:38:20,360 --> 00:38:24,440

Very pleased and terrified.

346

00:38:24,440 --> 00:38:28,680

And it ends here today.

347

00:38:30,680 --> 00:38:33,720

The greatest learning experience of our entire lives.

348

00:38:34,280 --> 00:38:35,320

See you guys on the other side.

349

00:38:38,280 --> 00:38:44,280

This is it. The final experiment of Adam and Jamie's monumental myth busting.

350

00:38:51,960 --> 00:38:53,320

Take it away boys.

351

00:38:53,320 --> 00:38:58,760

Okay, this is myth busters last ever explosion.

352

00:38:58,760 --> 00:39:02,360

5,001 pounds of amphibes versus a cement truck.

353

00:39:03,240 --> 00:39:10,920

Starting in five, four, three, two, one.

354

00:39:29,720 --> 00:39:30,760

I think it went off.

355

00:39:30,760 --> 00:39:36,920

I'm pretty sure it did. That was magnificent.

356

00:39:38,920 --> 00:39:56,920

After 14 years, 260 episodes, 1100 myths, and over 3000 experiments,

357

00:39:58,920 --> 00:40:00,600

that was worth waiting for.

358

00:40:04,920 --> 00:40:09,000

Ladies and gentlemen, it's been a blast.

359

00:40:12,600 --> 00:40:14,920

Not to mention a pleasure.

360

00:40:29,320 --> 00:40:37,960

Oh, now that's more like it. That's a crater.

361

00:40:38,600 --> 00:40:42,440

Yes, it is. It's 5,001 pounds worth of crater.

362

00:40:49,080 --> 00:40:50,200

Well, I guess that's it then.

363

00:40:50,760 --> 00:40:51,480

I guess it is.

364

00:40:53,400 --> 00:40:54,680

Well, what do we do now?

365

00:40:56,600 --> 00:40:57,560

That's a good question.

366

00:40:58,840 --> 00:40:59,960

Let's get out of here.

367

00:41:08,280 --> 00:41:09,720

So where do we begin? What do we got?

368

00:41:12,200 --> 00:41:13,880

Just a perfect day.

369

00:41:16,520 --> 00:41:18,920

Drink sangria in the park.

370

00:41:21,240 --> 00:41:25,960

And then later, when it gets dark, we go home.

371

00:41:28,920 --> 00:41:34,120

Just a perfect day.

372

00:41:36,600 --> 00:41:39,080

Feed animals in the zoo.

373

00:41:41,640 --> 00:41:45,960

Then later, a movie too, and then home.

374

00:41:46,760 --> 00:41:55,160

Oh, it's such a perfect day.

375

00:41:55,160 --> 00:41:59,160

I'm glad I spent it with you.

376

00:42:01,720 --> 00:42:04,520

Oh, such a perfect day.

377

00:42:04,520 --> 00:42:09,160

You just keep me hanging on.

378

00:42:09,160 --> 00:42:13,160

You just keep me hanging on.

379

00:42:15,960 --> 00:42:18,920

You
