Dark Skies. Created by Bryce Zabel & Brent V. Friedman.

2  
00:00:19,920 --> 00:00:22,720  
John Loengard. Congressional Investigator.

3  
00:00:23,680 --> 00:00:30,160  
My new title was a great Christmas present.  
Unfortunately the reality was something else.

4  
00:00:30,160 --> 00:00:35,520  
Flying saucer evidence could largely be explained  
away as either low-flying planes or faked photos.

5  
00:00:36,240 --> 00:00:39,840  
most of the witnesses i interviewed were  
simply crazy people craving attention

6  
00:00:41,120 --> 00:00:48,480  
then i met betty and barney hill mrs hill yes  
hi i'm john lowengard i just came from peace air

7  
00:00:48,480 --> 00:00:52,880  
force base and no please i really wish you people  
would leave us alone no mrs hill i don't work with

8  
00:00:52,880 --> 00:00:57,760  
the air force remember we talked over the phone  
i'm with congressman charles pratt's office oh oh

9  
00:00:57,760 --> 00:01:05,680  
yes look if you feel like talking uh my girlfriend  
baked this fruitcake for us ah is there a problem

10  
00:01:05,680 --> 00:01:10,000  
here oh no sir i was just telling your wife  
here that there's some new information about the

11  
00:01:10,000 --> 00:01:16,080

sighting you reported if all of this is true then  
why do you need a cake to talk your way in here

12  
00:01:18,400 --> 00:01:27,360  
well sir uh that's a good point probably was  
a pretty dumb idea look i'll be honest with

13  
00:01:27,360 --> 00:01:31,760  
you i was sent out to prove that the air  
force investigation is a waste of money

14  
00:01:32,720 --> 00:01:39,840  
but right now let's just say i've got an open  
mind and the truth is this is a damn good cake

15  
00:01:40,880 --> 00:01:47,840  
we were returning from a vacation in canada down  
us-3 through the white mountains to portsmouth

16  
00:01:48,880 --> 00:01:52,000  
it was after midnight pretty close to a full moon

17  
00:01:53,600 --> 00:01:58,880  
there weren't many cars and any place to stay  
was already closed i saw it first it looked

18  
00:01:58,880 --> 00:02:03,840  
like a big light that was following us and then  
when i looked through the binoculars i saw uh

19  
00:02:04,400 --> 00:02:12,240  
a double row of windows real windows i thought  
she was crazy but she made me stop the car anyway

20  
00:02:12,960 --> 00:02:21,840  
i went out into a field with a binoculars  
when i looked through those windows i saw

21  
00:02:23,520 --> 00:02:37,120  
i saw about a half dozen living beings looking

back at me you mean people i mean living beings\h\h

22

00:02:38,560 --> 00:02:44,320

well what did you do then i panicked i\h  
thought i was going to be captured so i\h\h

23

00:02:44,960 --> 00:02:50,640

ran as fast as i could back to the car were you\h  
actually captured we don't know what happened\h\h

24

00:02:51,600 --> 00:02:55,840

the next thing we know we're back in our\h  
car but it's two hours later wait till the\h\h

25

00:02:55,840 --> 00:03:00,800

congressman hears this i don't see how he can\h  
ignore this well i think he should do one of\h\h

26

00:03:00,800 --> 00:03:05,600

those congressional investigations that's what\h  
i think he should do i i i don't know about that\h\h

27

00:03:06,480 --> 00:03:12,800

you see you'd probably have to testify and well\h  
people might say things i'm a black man married to\h\h
