

Need to Know

with Coulthart and Zabel

1

00:00:10,800 --> 00:00:16,080

g'day and welcome to the show and i hope it's\h
a good one this week in a variety of ways we're\h\h

2

00:00:16,080 --> 00:00:24,080

going to be asking why some big stories on the\h
subject of uap's unidentified aerial phenomena\h\h

3

00:00:24,080 --> 00:00:29,600

don't get the coverage they deserve in the\h
established media right now though let me welcome\h\h

4

00:00:29,600 --> 00:00:36,560

my colleague across the ditch in la bryce zabal\h
good day bryce good day hello rosco can i call you\h\h

5

00:00:36,560 --> 00:00:42,000

roscoe that's okay right yeah well it's been hot\h
and super windy out here in los angeles to tell\h\h

6

00:00:42,000 --> 00:00:47,520

you the truth and that has everyone's attention\h
out here because this week they released a report\h\h

7

00:00:48,080 --> 00:00:52,560

about our so-called mega drought that we're having\h
which was pretty shocking we broke in another\h\h

8

00:00:52,560 --> 00:00:59,680

record it turns out that the last 22 years here\h
in los angeles now rank is the driest year since\h\h

9

00:00:59,680 --> 00:01:06,880

i hope you're ready for this the driest years\h
in 1200 years since 800 a.d and if you need a\h\h

10

00:01:06,880 --> 00:01:11,520

reference on that for those of you that actually\h
paid attention in history class charlemagne was\h\h

11
00:01:11,520 --> 00:01:17,920
getting a crown on his head the last time it was
this dry and hot out here in socal anyway ross uh

12
00:01:17,920 --> 00:01:23,120
i woke up today to the news that uh the beaches
out near where you are are getting shut down over

13
00:01:23,120 --> 00:01:29,120
a fatal shark attack what do you know about that
oh it's a shocker i've actually swum off that very

14
00:01:29,120 --> 00:01:35,920
point where that poor fella simon nellist who's
the first fatal shark attack in sydney in 60 years

15
00:01:35,920 --> 00:01:44,160
i've swum i'm a very keen diver myself i free dive
and snorkel and spearfish and uh that particular

16
00:01:44,160 --> 00:01:49,440
point off little bay in the eastern suburbs of
sydney is one of the most beautiful diving spots

17
00:01:49,440 --> 00:01:54,080
it's such a tragedy and the thing i always
get frightened of is all my american friends

18
00:01:54,080 --> 00:01:58,640
immediately think that australia everything kills
you you know it's so dangerous here don't come

19
00:01:59,200 --> 00:02:04,560
it's actually not as dangerous as people think and
i've swum in the water many many times and i've

20
00:02:04,560 --> 00:02:11,280
seen sharks including once a great white shark in
the water and i did get out very quickly but more

21
00:02:11,280 --> 00:02:16,640
often than not they leave you alone yeah i feel
like i'm doing a podcast with ernest hemingway or

22
00:02:16,640 --> 00:02:22,000
something sometimes i mean that's that's fantastic
i know that when my family was in australia

23
00:02:22,000 --> 00:02:27,920
in december of 2019 we spent most of our time
with family members reading the internet about

24
00:02:27,920 --> 00:02:32,960
the prevalence of sharks at various beaches we
were going to try to swim at but it all turned

25
00:02:32,960 --> 00:02:38,720
out okay but you know the whole shark story does
strike pretty close to home because like australia

26
00:02:38,720 --> 00:02:45,680
out here in california we have plenty of coastal
area and we also have sharks and we actually ended

27
00:02:45,680 --> 00:02:53,440
last year 2021 with a fatal shark attack of our
own up near morro bay where um a surfer died uh

28
00:02:53,440 --> 00:03:00,560
on christmas eve very tragically so you know it's
uh it's life can be dangerous uh but i'm sure

29
00:03:00,560 --> 00:03:05,040
australia isn't that much more dangerous than
anywhere else and we have our own problems here

30
00:03:05,040 --> 00:03:10,160
you know what's interesting to me though about
these attacks are overall they're just extremely

31
00:03:10,160 --> 00:03:13,760
rare i mean that's the one thing you understand\h
from any of the news coverage they just don't\h\h

32
00:03:13,760 --> 00:03:18,400
happen very often when they do happen you know\h
it's shocking to people but what i thought was\h\h

33
00:03:18,400 --> 00:03:23,840
interesting is they do generate maximum news\h
coverage because i literally woke up today\h\h

34
00:03:23,840 --> 00:03:30,480
uh checked my phone and a sydney shark attack was\h
the top of my news for the day uh sort of alerting\h\h

35
00:03:30,480 --> 00:03:35,920
me to this news people like to cover these kind\h
of things of course but it did make me wonder you\h\h

36
00:03:35,920 --> 00:03:43,520
know what's going on with all this news coverage\h
we'll cover shark attacks but we won't cover uap\h\h

37
00:03:43,520 --> 00:03:48,720
and ufos quite the way that we should even though\h
they seem much more prevalent than shark attacks\h\h

38
00:03:48,720 --> 00:03:53,280
what's up with that um i i think it's starting\h
to change bryce and it's interesting because\h\h

39
00:03:53,280 --> 00:03:58,320
there's a tv network that um i used to work for\h
called channel nine here that did a story on\h\h

40
00:03:58,880 --> 00:04:05,520
uaps this week they they they had ryan graves on\h
and avi loeb professor avilob so i think there is\h\h

41
00:04:05,520 --> 00:04:10,640
the beginning of a change but let's just get into\h
the meat of what we want to talk about this week\h\h

42
00:04:11,280 --> 00:04:17,680
the ish the issues behind the uap mystery that are\h
not getting the attention they deserve and i think\h\h

43
00:04:17,680 --> 00:04:24,320
one of the big ones is why is the navy taking\h
the lead on the most recent pentagon disclosures\h\h

44
00:04:24,320 --> 00:04:30,000
where's the air force in all of this and you and i\h
were talking about this a week or so ago and then\h\h

45
00:04:30,000 --> 00:04:36,160
chris mellon came out with an absolute zinger\h
of an article the former uh assistant deputy uh\h\h

46
00:04:36,160 --> 00:04:40,480
secretary of defense for intelligence\h
chris mellon did an article in the debrief\h\h

47
00:04:41,120 --> 00:04:49,600
on the 3rd of february why is the air force awol\h
absent without leave on the uap issue and boy\h\h

48
00:04:49,600 --> 00:04:56,960
it was a real spit in the eye to the pentagon\h
susan goff's assertions that all the military\h\h

49
00:04:56,960 --> 00:05:03,600
departments take any incursion by any unauthorized\h
aircraft very seriously mellon gave them what we\h\h

50
00:05:03,600 --> 00:05:10,800
would call here a complete bollocking he sure\h
did it was a real serious takedown and it was\h\h

51
00:05:10,800 --> 00:05:17,360
extensive it just went on and on in particular
about the assets that the u.s air force actually

52
00:05:17,360 --> 00:05:23,120
has at its disposal if it wants to see things in
our atmosphere and they have significant resources

53
00:05:23,120 --> 00:05:27,120
as you would imagine they would have given
that they've gotten billions of dollars

54
00:05:27,680 --> 00:05:33,200
over a sustained period of time to build all these
systems so they have more eyes on the sky than

55
00:05:33,200 --> 00:05:38,720
even the u.s navy does i'm quite sure and yet they
talk about it less and what's interesting to me

56
00:05:38,720 --> 00:05:46,640
is that um there's a historical piece of this
whole puzzle which is at the beginning in 1947

57
00:05:46,640 --> 00:05:50,560
when the we had that famous summer of saucers
that we talked about a couple episodes ago

58
00:05:51,120 --> 00:05:55,600
there wasn't even an air force there was an army
air force and then they created an air force in

59
00:05:55,600 --> 00:06:03,440
1947 and the whole flying saucer thing kind of got
dumped on the air force's front steps and they did

60
00:06:03,440 --> 00:06:08,800
a lot of reports about it mostly to themselves
and then they went public with project blue book

61
00:06:08,800 --> 00:06:14,000
so they had the even though they weren't being
transparent as they probably should have been

62
00:06:14,000 --> 00:06:20,720
they were at least perceived by the public as
the people in charge of things and now since 2017

63
00:06:20,720 --> 00:06:26,240
since those three navy videos came out uh through
the new york times reporting it's all navy all

64
00:06:26,240 --> 00:06:32,400
the time and and it is curious but let's be clear
about this price for our audience the the us air

65
00:06:32,400 --> 00:06:38,320
force is being accused by mellon who's a former
very senior official of the department of defense

66
00:06:38,320 --> 00:06:44,160
it's essentially accused of being obstructive
to investigations into the uap issue he's he's

67
00:06:44,160 --> 00:06:49,120
basically suggesting that they're not responding
that they're falsely asserting that there is no

68
00:06:49,120 --> 00:06:54,880
data and basically he's put the challenge to them
he said you know are we really meant to believe

69
00:06:54,880 --> 00:07:05,920
the us air force didn't detect any uap from 2004
until 2021 when the us navy reported 144 incidents

70
00:07:05,920 --> 00:07:12,960
of which 143 could not be explained and and i
think you're right his point is that there are

71
00:07:12,960 --> 00:07:19,040
the us air force more than any other arm of the
military has got technology that allows it to see

72
00:07:19,040 --> 00:07:25,440
things that frankly would detect anomalous objects
in either space or the atmosphere or indeed

73
00:07:25,440 --> 00:07:32,000
underwater there's the solid state phased array
radar system the space fence there's some sort of

74
00:07:32,000 --> 00:07:39,600
global infrasound acoustic monitoring and it's
it's amazing because officially the us air force

75
00:07:39,600 --> 00:07:46,000
never talks about this stuff it doesn't fess up
and yet as you and i both know history shows that

76
00:07:46,000 --> 00:07:53,120
the the us army air force before it became the
us air force and in the very early days of the

77
00:07:53,120 --> 00:07:59,040
us air force in the late 40s and the early 50s
there was a willingness by both services the

78
00:07:59,040 --> 00:08:06,240
u.s air force and the u.s navy to actually engage
on this issue but something happened and i wonder

79
00:08:06,800 --> 00:08:13,600
if there was a deliberate decision by the u.s air
force to shut down public awareness on this issue

80
00:08:13,600 --> 00:08:19,040
by essentially just stopping talking about it and
did it have something to do with the washington

81
00:08:19,040 --> 00:08:24,000
flyover and other incidents such as the
one that one of the ones that mellon talked

82
00:08:24,000 --> 00:08:31,440
about which is um norad radars picking up objects
streaming across continental usa i wonder whether

83
00:08:31,440 --> 00:08:38,160
the us air force is actually being deliberately
obstructive which is one hell of an allegation but

84
00:08:38,160 --> 00:08:43,040
i do think there's some substance to it well there
is substance to it we could uh we will probably

85
00:08:43,040 --> 00:08:48,640
jump back to that historical uh issue and that
the historical record of the air force but let

86
00:08:48,640 --> 00:08:54,640
me just underline for our listeners and viewers
uh what what we're talking about remember in 2021

87
00:08:54,640 --> 00:09:00,080
uh the office of the director of national
intelligence had to put out a report to congress

88
00:09:00,080 --> 00:09:08,080
and it was released on june 25th of 2021 and as
you just mentioned ross there were 144 cases they

89
00:09:08,080 --> 00:09:16,480
were directed to look into cases between 2004 and
2021 and they reported back on 144 of which 143

90
00:09:16,480 --> 00:09:23,840
uh fantastically were unexplained and and were
considered legitimate cases but what you get

91
00:09:23,840 --> 00:09:32,560
out of uh chris mellon's article in the debrief\h
is that those 143 cases in his words i believe\h\h

92
00:09:32,560 --> 00:09:39,920
either all came from the u.s navy or almost all\h
of them came from the u.s navy which is outrageous\h\h

93
00:09:39,920 --> 00:09:45,680
obviously the air force has a global grasp on\h
this issue just as the u.s navy i mean granted\h\h

94
00:09:45,680 --> 00:09:53,200
the navy is out sailing the seven seas if you will\h
but the air force has a a stamp on the whole globe\h\h

95
00:09:53,200 --> 00:09:58,640
in this regard and for them to say gosh we really\h
didn't find anything that we should have turned in\h\h

96
00:09:58,640 --> 00:10:05,520
it's what's got the gall uh and of of a lot of\h
people uh and and including christopher mellon\h\h

97
00:10:05,520 --> 00:10:11,600
but it's not just melon by the way it's also he's\h
he's sort of channeling i think the frustration\h\h

98
00:10:11,600 --> 00:10:16,560
of certain key members of our congress which we're\h
going to get to later in this episode who are\h\h

99
00:10:16,560 --> 00:10:24,080
frustrated with it now just to the point of the\h
history though uh it it does look like immediately\h\h

100
00:10:24,080 --> 00:10:29,920
after 1947 whether again there was a crash at\h
roswell or wasn't there were certainly sightings\h\h

101
00:10:29,920 --> 00:10:35,840
all over the world and some really phenomenal ones\h
in the us going forward to 1952 the washington\h\h

102
00:10:35,840 --> 00:10:42,240
over flights many of these things we've covered in\h
our previous episodes and the air force did have a\h\h

103
00:10:42,240 --> 00:10:50,640
public facing front on this thing so for example\h
after the 1952 uh over flights of washington dc\h\h

104
00:10:50,640 --> 00:10:56,560
it was an air force general that had to go out and\h
meet the press and by the way the press conference\h\h

105
00:10:56,560 --> 00:11:04,480
post that 1952 overflight was the largest press\h
conference ever uh seen in washington dc since\h\h

106
00:11:04,480 --> 00:11:11,040
world war ii it was of that uh of that ilk now\h
what was the consequence it was coming up with\h\h

107
00:11:11,040 --> 00:11:18,160
project blue book which many people believe had a\h
public face to try to divert the public's interest\h\h

108
00:11:18,800 --> 00:11:25,360
in this new topic of ufos but they continued\h
to investigate and and report to themselves on\h\h

109
00:11:25,360 --> 00:11:30,800
some of the more serious cases so it is kind of\h
a mixed bag i think we can say and tell me if you\h\h

110
00:11:30,800 --> 00:11:38,000
disagree bryce with some confidence that that all\h
of these investigations from grudge right through\h\h

111

00:11:38,000 --> 00:11:44,000

to project blue book by the air force were the
cover-ups that they basically had the the uh

112

00:11:44,960 --> 00:11:50,240

the uh implicit edict from up high you're not
going to find anything that gets the public

113

00:11:50,240 --> 00:11:56,640

too upset and too excited um and i think the
best evidence of that is the the findings of

114

00:11:56,640 --> 00:12:01,760

the robertson panel which was essentially the
precursor to blue book where essentially it was

115

00:12:01,760 --> 00:12:08,960

made very very clear that the policy of the
investigations into uaps should be to ridicule

116

00:12:08,960 --> 00:12:14,720

and shut down public commentary on the on the
phenomenon and uh right through to condon

117

00:12:14,720 --> 00:12:19,840

remember there was a scientist who was attached
to the condon inquiry and he was caught out

118

00:12:19,840 --> 00:12:24,880

inadvertently admitting just at the very beginning
of the condon inquiry two years before it

119

00:12:24,880 --> 00:12:29,440

handed in its report that the whole thing was
going to be a whitewash that the purpose of

120

00:12:29,440 --> 00:12:38,560

condon was to basically shut down the the public
awareness and public coverage of the issue so the

121

00:12:38,560 --> 00:12:44,080

the question in my mind though bryce is is the\h
explanation that the u.s air force is presiding\h\h

122

00:12:44,080 --> 00:12:49,680

over some dark cover-up have they got a flying\h
saucer hidden in a cave somewhere or could it be\h\h

123

00:12:49,680 --> 00:12:55,440

as simple as and i always work on the assumption\h
that the simplest explanation is always the best\h\h

124

00:12:56,000 --> 00:13:02,400

could it be as simple as the us air force\h
doesn't like admitting that it has no bloody\h\h

125

00:13:02,400 --> 00:13:08,640

idea what's going on and that it's frankly\h
it's it's embarrassed to admit that it can't\h\h

126

00:13:08,640 --> 00:13:13,040

ensure the security of the united states as\h
airspace well i wouldn't want to hold a news\h\h

127

00:13:13,040 --> 00:13:18,160

conference with those with that as my content for\h
sure i just want to put one fine point there was\h\h

128

00:13:18,160 --> 00:13:25,200

a change in air force behavior historically that\h
it is what you're saying about the condon report\h\h

129

00:13:25,200 --> 00:13:32,960

of course is true and but initially after the\h
early days of the saucers if you will we had a\h\h

130

00:13:32,960 --> 00:13:38,640

project grudge that became a project sign which\h
became a project blue book those were not until\h\h

131
00:13:38,640 --> 00:13:45,440
we got to blue book were not for the public grudge\h
and sign were not meant to be published to anybody\h\h

132
00:13:45,440 --> 00:13:50,640
they were internal documents that the air force\h
was putting out trying to figure out to themselves\h\h

133
00:13:50,640 --> 00:13:56,960
what was going on it included the famous twining\h
memo and where he said it's not visionary or\h\h

134
00:13:56,960 --> 00:14:02,720
fictitious but these were circulated inside the\h
pentagon inside the air force offices and it was\h\h

135
00:14:02,720 --> 00:14:08,320
only when the freedom of information act really\h
got uncorked in the 70s that the researchers\h\h

136
00:14:08,320 --> 00:14:13,040
got their hands on a lot of those documents\h
and i think in particular one that is quite\h\h

137
00:14:14,000 --> 00:14:21,280
interesting is before blue book uh there was a uh\h
we can't prove it beyond a shadow of a doubt but\h\h

138
00:14:21,280 --> 00:14:26,880
there was an estimate of the situation prepared\h
where the majority of the people did believe\h\h

139
00:14:26,880 --> 00:14:32,400
that it was an extraterrestrial issue and when it\h
finally got up to the top guy who had to look at\h\h

140
00:14:32,400 --> 00:14:39,680
this thing and say i'm not passing this on and it\h
got uh many people were let go and new teams were\h\h

141

00:14:39,680 --> 00:14:45,520

brought in and they came up with a different uh\h
position on it so i i think that the air force has\h\h

142

00:14:45,520 --> 00:14:51,040

been as you you know if you to follow your logic\h
they've been on a highway if you will where they\h\h

143

00:14:51,040 --> 00:14:55,360

have been thinking to themselves how are we\h
going to deal with it and i don't think they were\h\h

144

00:14:55,360 --> 00:15:01,840

totally prepared if you it doesn't look like for\h
the 2017 glass notes that we're starting to have\h\h

145

00:15:01,840 --> 00:15:07,680

the transparency issues that are happening and i\h
believe they're going to have to be pulled kicking\h\h

146

00:15:07,680 --> 00:15:13,600

and screaming into our present day just coming\h
back to the foi for a moment another thing about\h\h

147

00:15:13,600 --> 00:15:20,000

the foi that i find interesting is as a result\h
largely of declassification provoked by president\h\h

148

00:15:20,000 --> 00:15:26,560

clinton and obama there are files now on the\h
record showing the u.s air force was involved in\h\h

149

00:15:27,120 --> 00:15:32,960

retrievals for a project called moon dust and i\h
think this is important because there was a unit\h\h

150

00:15:32,960 --> 00:15:39,840

that the us air command created in 1953 called\h
the 460 second air intelligence service squadron\h\h

151

00:15:40,640 --> 00:15:47,200

and they were essentially a covert unit\h
to collect ufos from the field i mean it's\h\h

152

00:15:47,200 --> 00:15:52,640

amazing howard blum who's a respected new york\h
times reporter wrote a great book called out\h\h

153

00:15:52,640 --> 00:16:01,120

there where he basically said that the um the moon\h
dust people included craft retrievals of craft of\h\h

154

00:16:01,120 --> 00:16:07,200

extraterrestrial origin so i do think there's a\h
degree of disingenuousness from the u.s air force\h\h

155

00:16:07,200 --> 00:16:11,920

and i do think they're hiding something well we're\h
gonna certainly uh be talking a lot more about\h\h

156

00:16:11,920 --> 00:16:16,160

moon dust and all that in our third segment here\h
today because we're gonna be talking about crash\h\h

157

00:16:16,160 --> 00:16:21,840

retrievals and whether that's a thing or not but\h
to sort of put a pin on our air force navy thing\h\h

158

00:16:22,640 --> 00:16:28,800

we do seem to have an intra service rivalry\h
we're not clear on why exactly it's happening\h\h

159

00:16:28,800 --> 00:16:34,960

but the two services the two service branches\h
do seem to be looking at this issue of ufo uap\h\h

160

00:16:34,960 --> 00:16:42,240

differently and uh obviously the people in the\h
uh in the senate and the house who have demanded\h\h

161

00:16:42,800 --> 00:16:47,200

new reports from the office of the director
of national intelligence have basically run

162

00:16:47,200 --> 00:16:52,720

out of patience with complete stonewalling now
i don't know who wins that fight do you do you

163

00:16:52,720 --> 00:16:59,120

think that fight will be resolved in in 2022 are
we gonna there is going to be a new report issued

164

00:16:59,120 --> 00:17:06,160

on october 31st of 2022 do you think the air
force will be present or will they also be m.i.a

165

00:17:07,200 --> 00:17:12,960

well they're legally obliged to be present bryce
so it'll be very interesting to see whether the

166

00:17:12,960 --> 00:17:18,800

officials who preside over your air force will
be honest with the congress which after all

167

00:17:19,440 --> 00:17:24,480

is your government by the people for the people
so it's going to be very very interesting to see

168

00:17:24,480 --> 00:17:30,560

whether the requirements imposed in the ndia the
legislation for the defence authorization will

169

00:17:30,560 --> 00:17:36,560

actually follow through um i think we've come to
the end of this yeah i mean coming up we're going

170

00:17:36,560 --> 00:17:41,920

to take stock of the the who and the what of this
whole thing if the pentagon folks or at least the

171

00:17:41,920 --> 00:17:47,360

air force is playing whack-a-mole with this whole
shut the story down really what's what's going on

172

00:17:47,360 --> 00:17:52,800

with this conga line of officials that we've got
in washington dc who have been admitting that it

173

00:17:52,800 --> 00:17:59,840

needs to be taken seriously i mean what's
going on we'll talk about it be right back

174

00:18:12,560 --> 00:18:17,200

we're back this week we're talking about all those
uap stories that really don't seem to be getting

175

00:18:17,200 --> 00:18:22,560

the coverage they might actually deserve over the
past few years and and particularly over the last

176

00:18:22,560 --> 00:18:28,320

year we've heard more high officials and i mean
very high officials saying more unheard of things

177

00:18:28,320 --> 00:18:34,400

about the ufo and the uap issue but when you just
hear one comment at a co at a time kind of that

178

00:18:34,400 --> 00:18:39,680

drip drip drip you kind of hear it you're shocked
and you move on but then when you look at them all

179

00:18:39,680 --> 00:18:45,440

at the same time pretty shocking pretty amazing
and if you do if you put them all together bryce

180

00:18:45,440 --> 00:18:50,560

it's quite extraordinary it really does make
a point the sheer number of high-level people

181
00:18:50,560 --> 00:18:56,880
former cia directors the directors of national
intelligence for the united states senators

182
00:18:56,880 --> 00:19:03,840
congresswomen and women it's amazing you've just
got to realize it's it's um not just the us air

183
00:19:03,840 --> 00:19:09,520
force that's been missing in action recently it's
the entire national media establishment that have

184
00:19:09,520 --> 00:19:16,000
failed to pick up on the fact that there are now
people of prominence people of good reputation

185
00:19:16,000 --> 00:19:22,160
in official levels in the u.s government who
are making extraordinary admissions about

186
00:19:22,160 --> 00:19:26,800
extraordinary things yeah you know it's it's it's
very interesting to me because i take your point

187
00:19:26,800 --> 00:19:33,200
there is more coverage and it's less goofy
about the ufo issue than than ever before

188
00:19:33,200 --> 00:19:39,040
but it still tends to be about the uh you do the
quick hit and then you kind of move on i think

189
00:19:39,040 --> 00:19:44,960
the june 25th report from last year was a great
example it did get covered uh people because it

190
00:19:44,960 --> 00:19:50,160
was a short document it wasn't like the kennedy
assassination files that took six weeks to go

191

00:19:50,160 --> 00:19:54,240

through it was a little nine page report and
they could read it and they wrote it wrote a

192

00:19:54,240 --> 00:20:00,240

story and then that was it um but you know for
this segment you and i have been pulling quotes

193

00:20:00,240 --> 00:20:04,880

from some of these people i don't even know where
to start ross to be honest with you i mean this

194

00:20:04,880 --> 00:20:11,440

is like an abundance of riches these are quotes
that we're gonna sort of pull out uh in the next

195

00:20:11,440 --> 00:20:17,600

few minutes folks to sort of just show you that
it it's been just a cacophony of people saying

196

00:20:17,600 --> 00:20:24,560

let's do something about this and i have an open
mind to what they might be um you know it's uh it

197

00:20:24,560 --> 00:20:28,080

do you uh in fact i'll throw it to you ross do you
have a favorite one you want to start with because

198

00:20:28,080 --> 00:20:33,360

i got one yeah there is i really i i enjoyed and
i thought he was great theater when he said it

199

00:20:33,360 --> 00:20:38,480

too john ratcliffe who was trump's director
of national intelligence he went on national

200

00:20:38,480 --> 00:20:43,440

television in the us and he basically said there
are a lot more sightings than have been made

201
00:20:43,440 --> 00:20:49,120
public we're talking about objects that frankly
engage in actions that are different difficult

202
00:20:49,120 --> 00:20:55,600
to explain and then rolling down later in in the
quote that he gave sometimes we wonder whether

203
00:20:55,600 --> 00:21:00,400
our adversaries have technologies that are a
little bit further down the road than we realized

204
00:21:00,400 --> 00:21:06,240
it's not just a pilot or a satellite or some
intelligence collection usually we have multiple

205
00:21:06,240 --> 00:21:12,240
sensors that are picking up these things he's
hinted very very clearly that there's something

206
00:21:12,240 --> 00:21:18,480
real going on and he's seen it he's been briefed
about it he can't talk about it in detail but

207
00:21:18,480 --> 00:21:24,080
he as he's indicated on numerous interviews if
people saw these videos that he's seen and heard

208
00:21:24,080 --> 00:21:30,000
the detail and the briefings he's had they would
be amazed now frankly that's that's a form of dni

209
00:21:30,000 --> 00:21:37,200
that's your intelligence czar in the united states
frankly admitting that there's something here

210
00:21:37,200 --> 00:21:42,320
uh that that is difficult to explain and it's
a little bit of bipartisanship because that was

211

00:21:42,320 --> 00:21:47,920

trump's guy he came in at the end of trump's\h
uh term and he was willing to be upfront about\h\h

212

00:21:47,920 --> 00:21:53,840

it now biden's guy guy is actually a woman it's\h
uh avril haynes and she is the she had the same\h\h

213

00:21:53,840 --> 00:22:01,440

job as ratcliffe and she was uh on a public forum\h
in washington dc a few months ago and she didn't\h\h

214

00:22:01,440 --> 00:22:06,880

say anything quite as extreme as him but she\h
took it to one place that was extreme she said\h\h

215

00:22:06,880 --> 00:22:11,600

the main issues that congress and others have been\h
concerned about is safety of flight concerns and\h\h

216

00:22:11,600 --> 00:22:17,200

counterintelligence issues all right we can buy\h
that then she said always there's the question of\h\h

217

00:22:17,200 --> 00:22:23,680

is there something else that we simply do not\h
understand excuse me which we do not understand\h\h

218

00:22:23,680 --> 00:22:31,200

which might come extra terrestrially whoa okay\h
amazing isn't it incredible to hear a director\h\h

219

00:22:31,200 --> 00:22:36,080

of national intelligence using the et word i\h
was i was shocked now i got to tell you i want\h\h

220

00:22:36,080 --> 00:22:41,520

to put my favorite quote out there because\h
i i just this one i i remember seeing it\h\h

221

00:22:41,520 --> 00:22:45,360

i don't think i saw it live but i think\h

i saw a youtube clip of it the next day\h\h

222

00:22:45,360 --> 00:22:52,560

and i was just like what what are we doing this is\h

former ci director john brennan all right so let's\h\h

223

00:22:52,560 --> 00:23:00,480

let's get everybody's head in this this is a man\h

that ran the cia he knows stuff he's seen reports\h\h

224

00:23:00,480 --> 00:23:06,800

and he's as connected as anybody could be here's\h

what he said in a public forum he said i've seen\h\h

225

00:23:06,800 --> 00:23:12,960

some of those videos from navy pilots and i must\h

tell you that they are quite eyebrow raising life\h\h

226

00:23:12,960 --> 00:23:18,400

is defined in many different ways i think it's a\h

bit presumptuous and arrogant for us to believe\h\h

227

00:23:18,400 --> 00:23:23,360

that there's no other form of life anywhere\h

in the entire universe i think some of the\h\h

228

00:23:23,360 --> 00:23:29,280

phenomena we're going to be seeing is the result\h

of something that we don't yet understand and that\h\h

229

00:23:29,280 --> 00:23:37,600

could involve some type of activity that some\h

might say constitutes a different form of life

230

00:23:39,840 --> 00:23:44,400

whoa come by me again uh mr\h

director a different form of life\h\h

231
00:23:44,960 --> 00:23:50,880
okay yeah you know the thing is okay i know that\h
you know there's some differences between us and\h\h

232
00:23:50,880 --> 00:23:55,840
the russians and the chinese but i don't\h
consider them a different form of life and\h\h

233
00:23:55,840 --> 00:24:00,640
let's face it if you're a cia director you\h
pick your words pretty carefully right so\h\h

234
00:24:01,360 --> 00:24:06,240
he must have known what he was saying there's\h
another one that's one of my favorites and it\h\h

235
00:24:06,240 --> 00:24:11,840
was just recently uh jim cemevan who's\h
a former senior cia official from the\h\h

236
00:24:11,840 --> 00:24:18,160
directorate of clandestine operations for the\h
cia like superspook he went on coast to coast\h\h

237
00:24:18,160 --> 00:24:23,760
and basically talked about an incident that\h
happened to him and his wife in their bedroom\h\h

238
00:24:24,320 --> 00:24:31,280
where he says they were essentially physically\h
assaulted in some way that he's not specific about\h\h

239
00:24:31,280 --> 00:24:38,560
by some kind of non-human entity he said i\h
generally don't like to discuss it there are\h\h

240
00:24:38,560 --> 00:24:43,840
a couple of reasons for it one of them is that my\h
wife and i are still being studied and looked at\h\h

241

00:24:44,400 --> 00:24:48,640

it was an experience that happened to us while
we were in our bedroom the middle of the night

242

00:24:49,200 --> 00:24:58,640

beings showed up it was upsetting now i i don't
know anything about what happened to jim yeah

243

00:24:58,640 --> 00:25:05,120

but the fact that somebody who has been a keeper
a custodian of some of the most intimate secrets

244

00:25:05,680 --> 00:25:11,840

inside the cia you know a guy who's essentially
presided over some of the most sensitive espionage

245

00:25:11,840 --> 00:25:18,480

operations in the united states is claiming
publicly that he's had experiences with alien

246

00:25:18,480 --> 00:25:22,640

entities in his bedroom i don't think we
should dismiss that out of hand i don't

247

00:25:22,640 --> 00:25:28,960

think so we know it's being investigated it is
being investigated because the cia's admitted it

248

00:25:29,600 --> 00:25:32,800

russ you and i have worked in a number
of different newsrooms over the years

249

00:25:32,800 --> 00:25:37,520

and uh you know the things that get the attention
of the assignment desk and get reporters like us

250

00:25:37,520 --> 00:25:42,480

sent out on things don't always rise to that
level of craziness right there you know i've

251

00:25:42,480 --> 00:25:48,960

done my share of cat shows and things like that so\h
i just find it odd that there wasn't an assignment\h\h

252

00:25:48,960 --> 00:25:54,640

desk anywhere that's read that and went holy\h
god let's get somebody over to that guy's house\h\h

253

00:25:54,640 --> 00:25:59,120

and talk to him about i have one more that kind\h
of fits in that category of where you just say\h\h

254

00:26:00,720 --> 00:26:04,400

what is going on that nobody thinks\h
that this should be talked about\h\h

255

00:26:04,400 --> 00:26:08,880

i want to finish up with the cia directors because\h
i think is you know it's one thing to work for\h\h

256

00:26:08,880 --> 00:26:16,080

the cia but it's entirely different if you just\h
run the cia the very first director of the cia\h\h

257

00:26:16,080 --> 00:26:23,120

going back to the beginning was a guy named roscoe\h
hillenkotter who was a an admiral and he said it\h\h

258

00:26:23,120 --> 00:26:29,440

is time for the truth to be brought out behind the\h
scenes high-ranking air force officers are soberly\h\h

259

00:26:29,440 --> 00:26:36,480

concerned about ufos but through official secrecy\h
and ridicule many citizens are led to believe that\h\h

260

00:26:36,480 --> 00:26:42,880

unknown flying objects are nonsense okay that's\h
the first cia director now i want to read you\h\h

261

00:26:42,880 --> 00:26:50,640

one that fits in with your gem semi-van kind of
uh crazy talk this is from a former cia director

262

00:26:50,640 --> 00:26:56,880

james woolsey all right this is what he said again
in public knowing full well what he was saying

263

00:26:56,880 --> 00:27:02,400

was going to be quoted he said there was one case
in which a friend of mine was able to have his

264

00:27:02,400 --> 00:27:10,160

aircraft stopped at 40 000 feet or so and not
continue operating as a normal aircraft what

265

00:27:10,160 --> 00:27:15,680

was going on i don't know does anybody know there
have just been enough things like that that have

266

00:27:15,680 --> 00:27:21,120

occurred that i think that there will be a lot of
examination of what's going on over the course of

267

00:27:21,120 --> 00:27:25,760

several months or several years i'm not
as skeptical as i was a few years i just

268

00:27:26,560 --> 00:27:31,520

no no kidding i'm not as skeptical as
i was a few years to put it mildly but

269

00:27:31,520 --> 00:27:39,120

something is going on that is surprising to a
series of intelligent experienced pilots okay

270

00:27:39,680 --> 00:27:45,600

an aircraft stops at 40 000 feet and that's
not a news story coming from a cia director

271

00:27:45,600 --> 00:27:51,440

tell me about it i wouldn't be the first\h
time a cia director's gone bonkers uh bryce\h\h

272

00:27:51,440 --> 00:27:56,000

but the interesting thing is a lot of them are\h
saying it because there's another one not a cia\h\h

273

00:27:56,000 --> 00:28:03,440

director but a former senior cia analyst in the\h
directorate of science and technology in the cia\h\h

274

00:28:03,440 --> 00:28:10,720

guy called john ramirez and john's been putting\h
quite a high profile in ufology commentary in\h\h

275

00:28:10,720 --> 00:28:16,640

the last few months and i have to admit i was\h
cynical because it just sounded incredible some\h\h

276

00:28:16,640 --> 00:28:22,400

of the things he was saying and i was worried\h
that a lot of what he was saying was just\h\h

277

00:28:22,400 --> 00:28:27,840

him reading a few ufo books in his retirement\h
and shooting his mouth off about things that\h\h

278

00:28:27,840 --> 00:28:36,480

he was speculating on but people i know have told\h
me he was a reputable respected member of the cia\h\h

279

00:28:37,360 --> 00:28:43,120

and that more importantly in one recent interview\h
he's done within the last week or so john ramirez\h\h

280

00:28:43,120 --> 00:28:52,720

actually said that he was told formally inside the\h
cia at a private closed door briefing in a skiff\h\h

281
00:28:52,720 --> 00:29:02,000
a secure compartmentalized information facility he\h
was told that humans are essentially alien hybrids\h\h

282
00:29:02,880 --> 00:29:09,600
that someone in the cia knows about a\h
hybridization program involving humans and aliens\h\h

283
00:29:10,160 --> 00:29:15,680
now i'm not saying this okay i don't know the\h
truth of it but it's just incredible to me\h\h

284
00:29:15,680 --> 00:29:20,800
that a former senior person from within\h
the cia is making assertions like this\h\h

285
00:29:20,800 --> 00:29:27,360
assertions which interestingly enough have been\h
made by other people outside the caa before and\h\h

286
00:29:27,360 --> 00:29:33,040
dismissed his lunatic tin oil tinfoil hat\h
fringe stuff what is going on when you've\h\h

287
00:29:33,040 --> 00:29:40,160
got a former cia director talking about aliens in\h
his bedroom and another former senior cia analyst\h\h

288
00:29:40,160 --> 00:29:46,640
talking about being secretly briefed about an\h
alien hybridization program well you know what i\h\h

289
00:29:46,640 --> 00:29:50,720
when you i heard you reading that and i was\h
just thinking to myself you know i'm not saying\h\h

290
00:29:50,720 --> 00:29:55,920
it any more than you are but if we did say it\h
if we were to like go on this podcast and say\h\h

291

00:29:55,920 --> 00:30:00,080

yeah you know ross last night i was in my
bedroom and my wife and i were terrified when

292

00:30:00,080 --> 00:30:04,560

you know and we just threw that stuff out
think a number of people who were trying to

293

00:30:04,560 --> 00:30:09,440

reach on this podcast by saying that we're trying
to look at this from a sensible and sensitive and

294

00:30:09,440 --> 00:30:14,800

rational point of view would say okay i'm done
with this podcast because that's these guys are

295

00:30:14,800 --> 00:30:22,480

obviously bought the whole ride and they're taking
it so i just think it seems reasonable that if

296

00:30:22,480 --> 00:30:28,000

guys are going to be saying things like that it's
worth looking into this isn't you know your crazy

297

00:30:28,000 --> 00:30:35,040

neighbor down the street who said it at a barbecue
this is somebody who has been in a position of

298

00:30:35,040 --> 00:30:41,520

incredible responsibility and who has incredible
training and background to have that particular

299

00:30:41,520 --> 00:30:46,640

job and they're saying it so i just wish our
friends in the news media would get a little more

300

00:30:46,640 --> 00:30:51,920

you know activated by those kind of things and
say let's dig a little deeper because that's what

301

00:30:51,920 --> 00:30:56,240

the news media is supposed to do now of course\h
if people aren't going to do that then i guess\h\h

302

00:30:56,800 --> 00:31:02,720

my friend you and i are going to have to do it and\h
it's not just inside intelligence services in the\h\h

303

00:31:02,720 --> 00:31:08,480

various arms of the military that these comments\h
are coming from bryce it's also from the congress\h\h

304

00:31:08,480 --> 00:31:15,280

from the senior congressmen and senators who've\h
basically had secret briefings on the phenomenon\h\h

305

00:31:15,280 --> 00:31:20,560

and one of my favorites is the chairman of the\h
house intelligence committee congressman andre\h\h

306

00:31:20,560 --> 00:31:28,400

carson and he said if it is otherworldly we have\h
to take into account our advancements in terms of\h\h

307

00:31:28,400 --> 00:31:33,120

cell phone technology and why these images\h
aren't being captured we have to think about\h\h

308

00:31:33,120 --> 00:31:38,240

the 4 000 satellites that are orbiting the earth\h
right now most of these cameras have got cameras\h\h

309

00:31:38,240 --> 00:31:44,800

attached to them of the report the uap report\h
he says it's inconclusive but what we do know\h\h

310

00:31:44,800 --> 00:31:50,560

is that being nearly 150 sightings 80 of those\h
sightings have been detected with some of the\h\h

311

00:31:50,560 --> 00:31:59,440

best technology the world has ever seen and we
can't rule out something that's otherworldly which

312

00:31:59,440 --> 00:32:05,280

is quite an astonishing admission from a from a
sitting u.s congressman there's a slew of them

313

00:32:05,280 --> 00:32:11,280

uh between the the house of representatives and
the senate where people who were sensible enough

314

00:32:11,280 --> 00:32:16,720

i guess to get elected uh have said things like
that uh one of another i'll match your congressman

315

00:32:16,720 --> 00:32:23,760

and and raise you with timber chet uh who is a uh
republican congressman out of tennessee and he he

316

00:32:23,760 --> 00:32:30,400

literally has gone off on this one a few times but
one of his more direct quotes was if the russians

317

00:32:30,400 --> 00:32:36,800

had ufo technology i mean they would own us right
now they used to say that they've heard people

318

00:32:36,800 --> 00:32:42,080

talk about how the nazis had it in the second
world war that they did they would also have won

319

00:32:42,080 --> 00:32:48,480

that is ridiculous it has to be something that
is out of our galaxy it just has to be if it is

320

00:32:48,480 --> 00:32:54,800

in fact real and yet what does the report of june
25th say it says it is real so there's burchette

321
00:32:54,800 --> 00:33:00,640
there's also you know ruben gallego who's a a\h
texas democratic congressman who talked about it\h\h

322
00:33:00,640 --> 00:33:05,360
and of course let's not forget our friends over on\h
the senate that would involve the two heads of the\h\h

323
00:33:05,360 --> 00:33:10,400
senate intelligence committee who co-sponsored the\h
bill last year that got us to where we're going to\h\h

324
00:33:10,400 --> 00:33:17,600
have these reports every year that's marco rubio\h
and kirsten gillibrand again a democratic new york\h\h

325
00:33:17,600 --> 00:33:24,720
senator and a republican a congress senator from\h
florida and they both have been very out front\h\h

326
00:33:24,720 --> 00:33:31,440
saying look this is a safety issue it's a national\h
security issue i'm not happy with what i've been\h\h

327
00:33:31,440 --> 00:33:36,240
told and i want to get to the bottom of it i mean\h
if we were just going to be reading comments right\h\h

328
00:33:36,240 --> 00:33:41,600
left and center uh we could probably do an entire\h
segment just uh you know we should probably bring\h\h

329
00:33:41,600 --> 00:33:46,400
actress in to read these it would be probably\h
better than you and me but another person who's\h\h

330
00:33:46,400 --> 00:33:53,760
been wildly out front is senator mitt romney who\h
was the republican nominee for president in 2012\h\h

331
00:33:53,760 --> 00:33:59,120
and let me just see if i can find the one that i\h
thought was so incredible from him you know what\h\h

332
00:33:59,120 --> 00:34:04,720
i'm not uh he just is the guy who's been willing\h
to say e.t out loud as well he's not saying\h\h

333
00:34:05,760 --> 00:34:10,560
he categorically he categorically ruled out that\h
it comes from foreign adversaries that whatever\h\h

334
00:34:10,560 --> 00:34:15,760
it is it's russian or chinese right he basically\h
said if they were if they were russian or\h\h

335
00:34:15,760 --> 00:34:20,480
chinese then that would suggest they've got a\h
technology that is in a whole different sphere\h\h

336
00:34:20,480 --> 00:34:27,280
than anything we understand and frankly china\h
and russia just aren't there and he said neither\h\h

337
00:34:27,280 --> 00:34:34,560
are we by the way now that's a good segue for\h
us because mitt romney said neither are we\h\h

338
00:34:34,560 --> 00:34:40,320
and he's one of those senators who's briefed in\h
because of his membership of different committees\h\h

339
00:34:40,320 --> 00:34:46,400
he's very likely had briefings confidential\h
briefings about the waived unacknowledged special\h\h

340
00:34:46,400 --> 00:34:53,280
access programs within the us government that\h
conceal secret defence and intelligence projects\h\h

341

00:34:54,080 --> 00:35:02,960

let's talk about let's dare to raise the story\h
that won't speak its name it's so controversial\h\h

342

00:35:02,960 --> 00:35:09,760

no one dare speak about it but let's just talk\h
about it for a moment bryce shall i say it say\h\h

343

00:35:11,040 --> 00:35:15,840

crash retrievals well now there you've gone\h
and said it it's like voldemort you've said it\h\h

344

00:35:16,480 --> 00:35:22,960

now what do we do i'm not afraid of anything my\h
friend but what i do think is that the bear in the\h\h

345

00:35:22,960 --> 00:35:31,360

room in this whole story is has the us government\h
contrary to the assertions that have been made\h\h

346

00:35:31,360 --> 00:35:38,240

by the white house and different officials has\h
it lied to the public has there in fact been\h\h

347

00:35:38,240 --> 00:35:42,400

crash retrievals i can't let you be the\h
only one that says it so i'll say it\h\h

348

00:35:42,400 --> 00:35:46,640

crash retrievals all right there i'm on\h
the record too and you'll all be on the\h\h

349

00:35:46,640 --> 00:35:57,840

record because we're going to come back in\h
a second and we'll be talking about that

350

00:36:05,840 --> 00:36:10,160

a lot of people listening or watching\h
today probably weren't even born in 1980\h\h

351
00:36:10,160 --> 00:36:15,040
1980 is important because that was the year where
the roswell crash which uh supposedly had happened

352
00:36:15,040 --> 00:36:22,000
in 1947 was first sort of brought again to the
public's attention uh when jesse marcel started

353
00:36:22,000 --> 00:36:27,840
talking about it publicly with researcher stanton
friedman and i remember very clearly at the time

354
00:36:27,840 --> 00:36:32,880
seeing that first little book about roswell in the
grocery store and and picking it up and reading

355
00:36:32,880 --> 00:36:39,520
it and thinking okay guys this is a bridge too
far crash saucers excuse me little green men

356
00:36:39,520 --> 00:36:44,720
you know i was not as evolved i guess as i
as i feel like i might be now but i didn't

357
00:36:44,720 --> 00:36:49,840
buy it i just thought this this is too much
now over the course of the years of course

358
00:36:49,840 --> 00:36:56,080
we have now realized that there are many cases
besides roswell that people are talking about

359
00:36:56,080 --> 00:37:01,360
and over time and distance there are and i know
ross you have been speaking to many people about

360
00:37:01,360 --> 00:37:05,360
this and doing your own original research and
i would like you to bring us up to date on that

361

00:37:06,560 --> 00:37:13,120

bryce i have to admit when i first saw\h
the stories about roswell and aztec and\h\h

362

00:37:13,120 --> 00:37:20,000

chihuahua and all of these other allegations of\h
recovered alien spacecraft in the californian or\h\h

363

00:37:20,000 --> 00:37:26,080

nevada utah desert wherever it just seems spurious\h
to me my instinct as a journalist is to go all\h\h

364

00:37:26,080 --> 00:37:32,000

this is rubbish and i know the the white house\h
has formally denied this they've basically said\h\h

365

00:37:32,000 --> 00:37:42,800

it's not true but the interesting thing is i can't\h
rule it out and my my my slow turn and realization\h\h

366

00:37:42,800 --> 00:37:49,840

is that there's something here that won't go away\h
there's too much smoking gun evidence it's not\h\h

367

00:37:49,840 --> 00:37:55,200

probative i don't believe that there's a beyond\h
reasonable doubt criminal burden of proof or even\h\h

368

00:37:55,200 --> 00:38:00,560

a civil burden of proof to make me satisfied\h
that it's real but what i do believe is that\h\h

369

00:38:00,560 --> 00:38:07,680

there's a phenomenon there that deserves further\h
investigation what about you well i've certainly\h\h

370

00:38:07,680 --> 00:38:12,080

come around on the roswell issue over the years\h
i've done a lot of research on it i've optioned\h\h

371

00:38:12,080 --> 00:38:17,280

a couple of books i've spent many hours many\h
many hours talking with stanton friedman and\h\h

372

00:38:17,280 --> 00:38:22,880

don schmidt about it two of the top researchers on\h
this i'm convinced uh but i did still feel like i\h\h

373

00:38:22,880 --> 00:38:29,360

was a little bit out on the edge of that one but\h
it turns out i got some unique help this week lou\h\h

374

00:38:29,360 --> 00:38:35,600

elizondo apparently has been on the man who's\h
done the podcast circuit as much as anybody has\h\h

375

00:38:35,600 --> 00:38:41,920

said this week somebody asked him about roswell\h
and he said he was a hundred percent on roswell\h\h

376

00:38:42,720 --> 00:38:50,240

now he said that was just 100 on what about\h
roswell he was 100 that it was a crash a crash\h\h

377

00:38:50,240 --> 00:38:57,600

of of an otherworldly craft and uh i believe chris\h
mellon has intimated the same thing and the reason\h\h

378

00:38:57,600 --> 00:39:05,200

i believe uh the crash wreckage may be a thing\h
is that so many people are talking about it as if\h\h

379

00:39:05,200 --> 00:39:11,120

it is a thing people who seem to know a lot and i\h
know that you get a lot of people because of your\h\h

380

00:39:11,120 --> 00:39:16,400

book being out and and it being so well researched\h
and so well received you're probably getting a lot\h\h

381
00:39:16,400 --> 00:39:21,280
of people calling you who are talking sort of off\h
the record what are they saying about these things

382
00:39:23,840 --> 00:39:29,120
so what are people telling me bryce so i'm being\h
told i think the the most memorable conversation\h\h

383
00:39:29,120 --> 00:39:35,840
that i had was with one particular guy who went on\h
the record which was quite extraordinary his name\h\h

384
00:39:35,840 --> 00:39:42,160
as you know was nat kobits former of director\h
of science and technology development for the us\h\h

385
00:39:42,160 --> 00:39:49,920
navy chief geek for the us navy and he admitted\h
to me after a few months of chatting that he was\h\h

386
00:39:49,920 --> 00:39:59,680
briefed in to a ufo retrieval program he flatly\h
asserted to me on the record on audio by the way\h\h

387
00:40:00,240 --> 00:40:07,600
that he was told that the united\h
states had recovered multiple craft\h\h

388
00:40:07,600 --> 00:40:13,440
spacecraft absolutely extraordinary allegation\h
and the the thing about it was as a result of\h\h

389
00:40:13,440 --> 00:40:19,760
speaking to him i was then put on to other\h
people who confirmed their knowledge of\h\h

390
00:40:20,960 --> 00:40:29,440
a program a program which is allegedly back\h
engineering dare i say it alien e.t technology\h\h

391
00:40:29,440 --> 00:40:34,240
that has been recovered by the us government and
i i still wrestle with this because even though

392
00:40:34,240 --> 00:40:39,840
i've got this guy on the record bryce there's a
journalist in me that is innately skeptical and

393
00:40:39,840 --> 00:40:49,520
cynical because the president no less barack obama
in 2011 through his science advisor went on the

394
00:40:49,520 --> 00:40:57,120
record and flatly denied categorically so there's
only one possibility well the two possibilities

395
00:40:57,120 --> 00:41:06,320
one is the president lied which i have to admit
i doubt or maybe the president was lied to maybe

396
00:41:06,320 --> 00:41:12,640
somebody's lied to us presidents i'll take your
number two i'll take door number two on that one

397
00:41:12,640 --> 00:41:17,200
i think that i think that presidents probably
haven't gotten the whole story particularly on

398
00:41:17,200 --> 00:41:21,760
this some maybe have and some maybe haven't but
um i'll tell you something we haven't done it

399
00:41:21,760 --> 00:41:27,120
on this show where we've actually played audio do
you think you might be uh up for playing the net

400
00:41:27,120 --> 00:41:34,320
cobits uh interview or at least parts of it no
i don't think so he was a very very elderly man

401

00:41:34,320 --> 00:41:40,080

he was actually dying when i spoke to him\h
um okay that makes sense i think it would\h\h

402

00:41:40,720 --> 00:41:44,400

the thing i have is it actually causes family\h
quite a bit of distress let's not do that we're\h\h

403

00:41:44,400 --> 00:41:50,240

not here to do that we're here to find some uh\h
truth and information so um we'll call it a day\h\h

404

00:41:50,240 --> 00:41:56,160

at on on on this show i just have one headline\h
i want to throw out to people um i i get i don't\h\h

405

00:41:56,160 --> 00:42:00,880

know why but i guess i become a subject matter\h
expert on the betty and barney hill abduction case\h\h

406

00:42:00,880 --> 00:42:07,520

and discovery plus has a a two-hour documentary\h
coming out on february 18th which may actually\h\h

407

00:42:07,520 --> 00:42:13,040

be the day that this uh podcast is uh hitting the\h
streets so uh you know people might want to check\h\h

408

00:42:13,040 --> 00:42:19,920

that out and um and uh think about that as well\h
these are some esoteric parts to the piece of\h\h

409

00:42:19,920 --> 00:42:24,880

the puzzle and hopefully we can find and put\h
together the puzzle as our episodes continue\h\h

410

00:42:25,920 --> 00:42:33,200

so bryce we can never be 100 sure what to conclude\h
until for example to run back to what we talked\h\h

411

00:42:33,200 --> 00:42:39,120

about at the very beginning until we know exactly\h
what the us air force knows because i think\h\h

412

00:42:39,120 --> 00:42:46,160

the secret here if it goes back anywhere it goes\h
back to the u.s air force and just to underline\h\h

413

00:42:46,160 --> 00:42:52,080

what we were talking about at the beginning of\h
this podcast the us air force is being obstructive\h\h

414

00:42:52,800 --> 00:42:58,640

if it's true there's been crash retrievals\h
it's the u.s air force that knows all about it\h\h

415

00:42:59,280 --> 00:43:04,960

well maybe we'll be hauling some generals and\h
others into congress and asking them about that\h\h

416

00:43:04,960 --> 00:43:09,200

i can't wait if that is what happens may\h
not happen this year maybe next year but\h\h

417

00:43:09,200 --> 00:43:14,720

um you know i think we're we're on the on the\h
road so listen thanks to everybody for for tuning\h\h

418

00:43:14,720 --> 00:43:20,640

in and being part of our little world here at need\h
to know with coldheart and zabel um i'm happy that\h\h

419

00:43:20,640 --> 00:43:25,840

you were here and ross it's been great talking\h
to you again i i will uh i'll see you next time\h\h

420

00:43:26,880 --> 00:43:33,840

youtube rice let's uh let's keep on digging\h
my friend see you next time remember folks\h\h

421
00:43:33,840 --> 00:43:39,840
we can't handle the truth people get ready

422
00:43:48,000 --> 00:43:53,840
it's our time to come of age

423
00:44:00,000 --> 00:44:00,240
tell

424
00:44:00,240 --> 00:44:21,840
me to know

425
00:44:33,360 --> 00:44:35,840
we must wait our turn

426
00:44:38,640 --> 00:44:49,840
too much to learn

427
00:44:57,360 --> 00:45:03,840
it's our time to come of age

428
00:45:09,360 --> 00:45:09,600
tell

429
00:45:17,280 --> 00:45:17,840
to me

430
00:45:34,640 --> 00:45:38,480
you say it will blow my

431
00:45:45,280 --> 00:45:45,840
you mind

432
00:45:47,920 --> 00:45:59,840
things will fall apart no more fears

433
00:46:12,960 --> 00:46:27,840

foe tell me now

434

00:46:38,880 --> 00:46:41,840

we see the future

435

00:46:43,920 --> 00:46:55,840

can we live together

436

00:47:07,680 --> 00:47:11,520

this is the plan we say

437

00:47:13,600 --> 00:47:15,360

we need to know

438

00:47:27,040 --> 00:47:31,120

just a lost weather balloon an air force\h
spokesman confirms tonight that this was\h\h

439

00:47:31,120 --> 00:47:37,840

nose wine saucer sports is next says
