

1
00:00:06,800 --> 00:00:12,560
the calpine ufo yeah it's true so\h
two walkers i i hear on the room\h\h

2
00:00:12,560 --> 00:00:16,960
on the rumor channel that they were actually\h
people poaching or on a property illegally\h\h

3
00:00:16,960 --> 00:00:24,960
but there are two walkers who were in the scottish\h
highlands um and as i understand where they were\h\h

4
00:00:24,960 --> 00:00:31,280
is very close to a a british airbase called\h
mcelrush or mechanrish i've forgotten\h\h

5
00:00:31,280 --> 00:00:36,480
exactly how you say it but it's a very secret\h
aerodrome that the americans have allegedly used\h\h

6
00:00:37,040 --> 00:00:44,560
with the iraf the british royal air force for many\h
decades and these two hikers basically sent in\h\h

7
00:00:44,560 --> 00:00:52,880
to the local scottish newspaper um a photograph\h
and negatives of this image that they captured\h\h

8
00:00:52,880 --> 00:01:00,880
which essentially appears to be and upon their\h
description was a hovering object larger than\h\h

9
00:01:00,880 --> 00:01:08,160
a fighter jet uh being surrounded actually by\h
at least one or two alleged fighter jets and um\h\h

10
00:01:08,800 --> 00:01:13,680
the the thing that's interesting about the whole\h
story is that there's been a david clarke has done\h\h

11
00:01:13,680 --> 00:01:19,280
some phenomenal work into the british archives in
this in the last three decades but basically um

12
00:01:20,160 --> 00:01:27,520
i interviewed chris mellon who is as we know
the former assistant deputy secretary for

13
00:01:27,520 --> 00:01:34,480
defence for intelligence and security and when he
was a staffer on the senate intelligence committee

14
00:01:34,480 --> 00:01:40,240
in this time period in the 1990s there was
an inquiry that went from the british raf

15
00:01:42,080 --> 00:01:47,280
to the american government and contemporaneously
there were inquiries made in the congress

16
00:01:47,280 --> 00:01:54,000
about whether or not this was american technology
and what's significant about this calvin ufo story

17
00:01:54,000 --> 00:02:00,880
whether it is or whether it isn't us tech it's
it's demonstrating what appear to be at least

18
00:02:00,880 --> 00:02:07,040
some of the five observables it's showing positive
lift without any visible means of propulsion

19
00:02:07,040 --> 00:02:12,960
and according to the testimony of the the two
people who allegedly saw it um it took off at

20
00:02:12,960 --> 00:02:20,080
extraordinary high velocities shortly after the
photograph was taken and so if it is something

21
00:02:20,080 --> 00:02:25,040
that's demonstrating at least one or two of the
five observables if it's for example showing

22
00:02:25,040 --> 00:02:33,040
anti-gravity positive lift that is extraordinary
because it begs the question why has the uh uk

23
00:02:33,040 --> 00:02:40,880
and us government collaborated in conspiring
to conceal the fact of this technology for 30

24
00:02:41,520 --> 00:02:49,360
32 years and now that this issue has come out
is it going to be investigated whether congress

25
00:02:49,360 --> 00:02:54,880
was misled because um i know from talking
to mellon when i asked him about this matter

26
00:02:55,520 --> 00:03:02,400
he he specifically made inquiries as to whether he
was and he was cleared to know whether there was

27
00:03:03,280 --> 00:03:07,680
black technology in the possession
or knowledge of the united states

28
00:03:07,680 --> 00:03:13,680
that conformed to what was mythically described
as the aurora aircraft or i think the trtp

29
00:03:14,320 --> 00:03:20,800
and it was specifically denied so has congress
been misled that's the bigger issue that comes

30
00:03:20,800 --> 00:03:27,600
out of this new breaking story from david clarke
and disclosure team whether there has in fact been

31
00:03:27,600 --> 00:03:33,680
an intention to mislead the congress and whether
as well whether the british parliament was misled

32
00:03:33,680 --> 00:03:38,560
uh because there were answers to questions
on notice in the british parliament that were

33
00:03:38,560 --> 00:03:45,680
at best evasive and um it's really interesting i
mean again it's a tribute to good digging citizen

34
00:03:45,680 --> 00:03:52,560
journalism david clarke has basically tracked down
a former ministry of defense public relations uh

35
00:03:53,200 --> 00:03:59,920
uh media official uh who was working in the royal
air force at the time and he's he's basically

36
00:03:59,920 --> 00:04:06,560
kept a copy of the photograph which is absolutely
magnificent and it's a wonderful story because i'm

37
00:04:06,560 --> 00:04:11,920
fascinated by the image because if you remember at
the beginning of the documentary that i did last

38
00:04:11,920 --> 00:04:18,400
year there was a young woman who described
a lenticular but vaguely triangular shaped

39
00:04:19,440 --> 00:04:24,320
that bears some resemblance to the subject and it
does beg the question whether what we're talking

40
00:04:24,320 --> 00:04:30,400
about here is something that in fact is black
american technology that has been specifically

41
00:04:30,400 --> 00:04:36,160
and possibly illegally withheld from the knowledge
of the congress for three decades maybe longer

42
00:04:37,520 --> 00:04:42,000
and it really does raise a new question you
know whether this is technology that is in

43
00:04:42,000 --> 00:04:47,280
possession of either the us or the british or some
other allied government or or whether they were

44
00:04:47,280 --> 00:04:52,960
photographed in inadvertently circling the
object with their fighter jets um it not

45
00:04:52,960 --> 00:04:58,480
being human tech we we just don't know we don't
know enough about this object but hopefully now
