

Need to Know

BEETZ WITH FRIENDS

#NTKBEER22

1
00:00:18,560 --> 00:00:21,600
hey everybody it's uh bryce abel
and ross coldheart here with

2
00:00:22,640 --> 00:00:27,040
i would like to say a very special edition of
need to know but i don't even know if it's an

3
00:00:27,040 --> 00:00:31,360
addition of need to know ross i mean what do
you what's your take on that i think it should

4
00:00:31,360 --> 00:00:37,840
be made i mean you know we're talking about beer
and and that's as people say beer makes men happy

5
00:00:37,840 --> 00:00:42,880
so i think um but let's just say that this
is a very special episode of nick you know

6
00:00:43,840 --> 00:00:49,040
we're celebrating the fact that we've got
two uh colleagues join us from joining us

7
00:00:49,040 --> 00:00:54,880
from the republic of ireland who who have
been absolutely hearty and helping to promote

8
00:00:54,880 --> 00:01:00,160
our new podcast and um we want to say thank
you to them by doing what uh happy people

9
00:01:00,160 --> 00:01:05,520
do and sharing a hearty ale we should explain
two things right now why we're doing this and

10
00:01:06,080 --> 00:01:10,560
and secondly i believe that's rich johnson
our producer just bought them there not united

11
00:01:15,600 --> 00:01:21,680
we are really all over this is great so just so\h
everyone understands we got this crazy idea people\h\h

12
00:01:21,680 --> 00:01:26,880
kept saying you know i'd like to have a beer with\h
uh ross and bryce so we thought well uh we can do\h\h

13
00:01:26,880 --> 00:01:32,720
that virtually um and so we sort of had a little\h
contest uh people would tweet and whoever had\h\h

14
00:01:32,720 --> 00:01:38,960
the most you know retweets and all that well we\h
got a winner and uh we said we would have beer\h\h

15
00:01:38,960 --> 00:01:44,960
uh with these people and the people that we're\h
having beer beers with are as you said in ireland\h\h

16
00:01:44,960 --> 00:01:51,280
and there they are now in the blue shirt is rob\h
sheridan and with the headphones is karen corcoran\h\h

17
00:01:51,280 --> 00:01:57,280
and guys congrats and rob you were the guy\h
that won uh and of course kieran is your plus one\h\h

18
00:01:57,280 --> 00:02:05,840
for tonight so uh congratulations uh thank you\h
thank you it wasn't uh probably the best run\h\h

19
00:02:05,840 --> 00:02:12,240
uh contest in the history of contests uh\h
but but listen uh i think we all need to\h\h

20
00:02:12,240 --> 00:02:21,280
start by declaring uh our drink of the day who\h
wants to go first yep well i'm on the guinness

21
00:02:24,000 --> 00:02:29,200
that makes good sense so rob what about yourself
well i'm a rugby fan so i have to say true so

22
00:02:29,200 --> 00:02:35,200
i'm on the high no behind again oh my goodness
not an irish isn't that very interesting that's

23
00:02:35,200 --> 00:02:40,640
very cool on the west ring don't worry i'll
talk to him later i'll talk to mark and myself

24
00:02:43,600 --> 00:02:51,360
this is a james squire pale ale james squire was
australia's first beer maker he was a convict who

25
00:02:51,360 --> 00:02:57,200
was brought out to the colonies for stealing
and uh he he managed to only believe it or not

26
00:02:57,200 --> 00:03:05,360
only get 150 lashes for stealing because he he
brewed two kegs of beer for the magistrate so um

27
00:03:06,000 --> 00:03:11,520
this is a tribute to what makes australians
happy is that the first beer maker in the colony

28
00:03:11,520 --> 00:03:16,240
you know ross it's your sense your impeccable
sense of history that makes it so memorable to

29
00:03:16,240 --> 00:03:22,720
be partnered with you on this thing so who's the
conflict was the irish um uh well is it squire's

30
00:03:22,720 --> 00:03:27,680
an irish name i don't know if it is actually
don't think he is i think he was english okay

31

00:03:28,640 --> 00:03:35,040

yeah not everybody not everybody who was a convict
in australia it ended up being irish but um you've

32

00:03:35,040 --> 00:03:40,160

heard that from ross ross thank you for saying
that thank you good point rich what are you

33

00:03:40,160 --> 00:03:46,000

drinking in vegas i tragically ran out of beer the
other day when we made a little spicy asian food

34

00:03:46,000 --> 00:03:50,960

so i had to go deep in the thing and i found
something my daughter gave me about 15 years

35

00:03:50,960 --> 00:03:59,920

ago during some study in dublin irish whiskey in a
sock irish whiskey in a sock yeah i have a feeling

36

00:03:59,920 --> 00:04:05,840

it's probably an airport impulse buy on her party
but i'm headed all this time and we're gonna you

37

00:04:05,840 --> 00:04:13,440

know i've poured out a little bit and uh i'll
be here in spirit yes literally you're you're in

38

00:04:13,440 --> 00:04:19,840

the you're in the uh ntk bar anyway and it's it's
good you know um i know i'm going to get made fun

39

00:04:19,840 --> 00:04:24,720

of for my choice so i'm going to preface it before
i reveal it all right because we need we need all

40

00:04:24,720 --> 00:04:32,240

the suspense and drama we can get in this thing um
a few like a month ago i think i wrote an article

41
00:04:32,240 --> 00:04:38,640
for the debrief about what an alien intelligence
ai might know about us and i came to the

42
00:04:38,640 --> 00:04:43,440
conclusion that they could suck up all our digital
signals and they would know everything about us

43
00:04:43,440 --> 00:04:49,120
uh that was known i mean they could have uh
every internet tweet that was ever done and every

44
00:04:49,680 --> 00:04:54,400
text that was ever sent and and every article
that was ever written in every book and they'd

45
00:04:54,400 --> 00:05:01,600
have everything and so they would know that when
it that that people on earth humans like to drink

46
00:05:01,600 --> 00:05:08,240
a beverage that intoxicates them sometimes or just
makes them feel good but they would know the most

47
00:05:08,240 --> 00:05:18,400
popular beer in the entire world is oh my god now
i'm not saying i'm not saying this is my favorite

48
00:05:18,400 --> 00:05:25,840
and only beer but i am saying that bud light in
america has 17 percent of all beer drinking so

49
00:05:26,400 --> 00:05:30,880
if there are any aliens out there
intercepting this signal here's to you guys

50
00:05:31,680 --> 00:05:38,400
surgically not 17 alcohol by volume by like
0.5 right so i think that makes it the top

51
00:05:38,400 --> 00:05:44,720
selling beer in the world i'm not sure but but\h
it's certainly one of them and um okay now you\h\h

52
00:05:44,720 --> 00:05:48,880
can make fun of me okay we have a description\h
in ireland of bud light we call it bud water

53
00:05:53,760 --> 00:06:00,640
i want to raise a toast to rob for being\h
the the best promoter of need to know\h\h

54
00:06:00,640 --> 00:06:06,880
and for for hawking our shingle around the planet\h
on his social media so i switched it to you rob

55
00:06:09,520 --> 00:06:13,520
and we're staying up long\h
past uh irish closing time\h\h

56
00:06:13,520 --> 00:06:18,640
you know 1am where you are it's 5\h
00 p.m for uh bryce and myself and\h\h

57
00:06:18,640 --> 00:06:22,960
what are you drinking that beer at 10 am\h
ross is that it i i am i do a lot of bad\h\h

58
00:06:22,960 --> 00:06:29,040
things which as i understand it is kind of late\h
in the day for you to get started um i know i'm\h\h

59
00:06:29,040 --> 00:06:33,920
conforming to an australian stereotype basically\h
you know drinking here as soon as i wake up yeah\h\h

60
00:06:35,840 --> 00:06:41,120
so we have early houses in ireland so we got an\h
early house so not early house already has well\h\h

61
00:06:41,680 --> 00:06:46,400
lock in so to speak so a locking will be three\h
o'clock in the morning so ross you're not too far\h\h

62
00:06:46,400 --> 00:06:52,080
we're not too far behind you that's not possible\h
that's true yeah you're having a cure this morning\h\h

63
00:06:52,080 --> 00:06:57,360
you know karen a few years ago i went to um\h
ireland with my family and we went to the um\h\h

64
00:06:57,920 --> 00:07:04,560
the um brewery where guinness is made and\h
they were kind enough to give my uh let's see\h\h

65
00:07:04,560 --> 00:07:14,560
um my 12 year old a beer wow which i uh which he\h
appreciated more than i did at the time i i have\h\h

66
00:07:14,560 --> 00:07:20,480
to say uh but it was a great beer it is a great\h
world beer and it's it's uh it's popular as it is\h\h

67
00:07:20,480 --> 00:07:26,240
for very good reason it's it's yeah it's lovely it\h
is lovely yeah and i have to tell you uh i wanted\h\h

68
00:07:26,240 --> 00:07:32,880
to show you something gentlemen um this is what\h
i brought back of course from our ireland trip

69
00:07:35,360 --> 00:07:39,120
the rolling stones literally\h
played at slain castle\h\h

70
00:07:39,120 --> 00:07:46,720
you guys know slain castle yeah absolutely yeah\h
it was it was pretty crazy because we went there\h\h

71

00:07:46,720 --> 00:07:52,880

it was raining and it was muddy and there were
75 000 people there and then when the the concert

72

00:07:52,880 --> 00:07:58,480

was over i felt like i was walking out with
75 000 of my closest drunken irish friends

73

00:07:58,480 --> 00:08:04,560

because we were just as a mass exiting
and um it was a great night and um and

74

00:08:04,560 --> 00:08:11,840

uh no one served my kid a beer so that was
good too um oh my god i have never been oh

75

00:08:23,680 --> 00:08:28,560

absolutely the best coolest place to have a
concert not necessarily the best acoustics

76

00:08:28,560 --> 00:08:34,240

but you know it's not true it's just it's such
a classic venue i suppose just the place laying

77

00:08:34,240 --> 00:08:38,800

it to be it's lane but it's not the easiest
place to get to or get out of it or go after

78

00:08:41,760 --> 00:08:46,720

i'll tell you the story but anyway um rob i'd
love it if you'd kind of introduce yourself to the

79

00:08:46,720 --> 00:08:52,160

the people who are drinking in spirit with us
right now you uh i've been reading your tweets

80

00:08:52,160 --> 00:08:57,120

you're active on twitter uh you seem to know a
lot about the subject uh what's the story how

81
00:08:57,120 --> 00:09:07,040
did you get into the whole context here okay god\h
i'm 44 now and i started back in the 90s i was\h\h

82
00:09:07,040 --> 00:09:13,120
an x-file fan to be honest and i've always been\h
curious about what's out there and a very curious\h\h

83
00:09:13,120 --> 00:09:17,600
scientific mind myself and i kind of went to\h
college and forgot about it and then i just\h\h

84
00:09:17,600 --> 00:09:23,360
fell back into it about six months ago but it\h
started it was ignited talking to kieran one day\h\h

85
00:09:23,360 --> 00:09:27,280
we were just talking about roswell we just brought\h
up the subject again because karen's a roswell\h\h

86
00:09:27,280 --> 00:09:33,200
nut and absolutely loves it i gave me a book\h
started reading it again and ignited my interest\h\h

87
00:09:33,200 --> 00:09:37,600
in the whole theme and then i joined twitter and i\h
realized it was a really good community on twitter\h\h

88
00:09:37,600 --> 00:09:46,320
for sharing information and that's where i am\h
today and uh karen um you're a roswell by the way\h\h

89
00:09:46,320 --> 00:09:51,680
have you read the was the book witnessed roswell\h
by any chance no i'll tell you what the book is\h\h

90
00:09:52,800 --> 00:09:59,920
i have the book here which was this one here ah\h
well that's uh don schmidt and kevin and kevin\h\h

91
00:09:59,920 --> 00:10:05,760
ryan exactly yes yeah and it's one of the first\h
books i i have a witness to roswell under option\h\h

92
00:10:05,760 --> 00:10:11,200
along with friedman's top secret magic so i'm\h
a big roswell nut myself tell us about yourself\h\h

93
00:10:11,200 --> 00:10:18,160
and how you got into this well actually how\h
i got into it was actually for my dad because\h\h

94
00:10:18,720 --> 00:10:24,960
my dad had an experience when he was about seven\h
or eight years old so it would have been 1958\h\h

95
00:10:24,960 --> 00:10:33,440
1959 so my dad had actually witnessed um an object\h
if you want i can tell you a little bit about it\h\h

96
00:10:33,440 --> 00:10:40,000
yeah please of course um yeah so my dad was he\h
was um seven or eight years old so he was living\h\h

97
00:10:40,000 --> 00:10:46,240
in south dublin and what happened him was he was\h
playing with his his brother who was my uncle um\h\h

98
00:10:46,960 --> 00:10:56,080
and my my dad's uncle who um was fixing a bike\h
bicycle in in the back garden um and he heard a\h\h

99
00:10:56,080 --> 00:11:02,960
very loud humming sound it wasn't like an engine\h
it was more like an electrical home and they\h\h

100
00:11:02,960 --> 00:11:10,480
turned around and they saw a large object it was\h
it was still this uh like a cylinder not like a\h\h

101

00:11:10,480 --> 00:11:17,520

saucer but it was as long almost like a needle\h
shaped um it was hovering above the fields now\h\h

102

00:11:18,240 --> 00:11:24,160

my dad's not stupid um wasn't a helicopter\h
wasn't an airplane or anything and they all\h\h

103

00:11:24,160 --> 00:11:30,400

got such a fright my dad's uncle grabbed him and\h
his brother and threw them into the nearest shed\h\h

104

00:11:30,400 --> 00:11:36,400

which was a log shed and kept him there\h
until this team disappeared my dad was\h\h

105

00:11:36,400 --> 00:11:42,080

desperately trying to get another glimpse\h
of it but he said this thing was huge and um\h\h

106

00:11:43,120 --> 00:11:47,920

and around that time he had seen an awful lot\h
of objects in the sky uh he said he used to\h\h

107

00:11:47,920 --> 00:11:52,640

witness about you know a dozen of these objects\h
flying in the sky they were like giant needles\h\h

108

00:11:52,640 --> 00:11:57,680

they weren't like airplanes or helicopters he\h
was familiar with all of those um and he used\h\h

109

00:11:57,680 --> 00:12:02,560

to call his mother out and she used to see them\h
and it'd be really hot it dropped down really low\h\h

110

00:12:04,080 --> 00:12:09,840

and you know and you'd always believe your\h
parents when you when you asked them something\h\h

111
00:12:09,840 --> 00:12:13,600
so i remember having discussion with my dad\h
before you know when i was a kid and this we\h\h

112
00:12:13,600 --> 00:12:19,600
were talking about you know space and everything\h
and i used to say would you ever believe in you\h\h

113
00:12:19,600 --> 00:12:25,920
know extraterrestrials says yeah yeah i do and\h
he told me about this story and i was just like\h\h

114
00:12:25,920 --> 00:12:32,720
wow i was sort of blown away and it just i always\h
had this interest and then as i got older and and\h\h

115
00:12:32,720 --> 00:12:39,600
i heard about roswell um i got really interested\h
in it and it was around 2006 i think was watching\h\h

116
00:12:39,600 --> 00:12:45,360
a documentary or something i think maybe it was\h
discovery or something and i just it just ignited\h\h

117
00:12:45,360 --> 00:12:50,080
my interest again and i was talking to my dad\h
again and then i just start buying books and\h\h

118
00:12:50,080 --> 00:12:56,560
reading it and um you know then things happen in\h
life obviously whatever relationships and life\h\h

119
00:12:56,560 --> 00:13:02,240
story whatever children come along and that and\h
then something would happen and every night again\h\h

120
00:13:02,960 --> 00:13:08,080
and then i got talking to rob and with myself\h
and rob would go for a walk in the evening we'd\h\h

121

00:13:08,080 --> 00:13:13,200

be having these conversations and i would
give rubble on it a book and um rather be

122

00:13:13,200 --> 00:13:17,120

more active on social media now than i would
and he was actually introduced me to you guys

123

00:13:18,480 --> 00:13:25,680

and um so if you've listened to a lot of your
podcasts uh a lot lately and um yeah it's just

124

00:13:25,680 --> 00:13:30,320

receptive robert b chapman and i gave him
a loan to the books and just i've always

125

00:13:30,320 --> 00:13:37,040

been interested it's just it's roswell is
a very it's just such a massive story um

126

00:13:37,840 --> 00:13:40,720

but there's a lot of other stories
out there to be honest with you

127

00:13:42,160 --> 00:13:48,240

but you might what was the year that your father
had that sighting it would have been around 1958

128

00:13:48,240 --> 00:13:54,880

or 1959 he was around seven or eight years
old now if he said to me if he had a camera it

129

00:13:54,880 --> 00:13:58,080

would have been one of the best pictures you'll
ever see it was it would have been that close

130

00:14:00,400 --> 00:14:03,440

there's quite a few people who've
contacted me who've told me about

131
00:14:03,440 --> 00:14:11,120
sightings off the west irish coast and yeah it's\h
interesting because uh i was going back through my\h\h

132
00:14:11,120 --> 00:14:18,400
files this morning because what i'd read about\h
this calvin ufo uh photograph from 1990 and\h\h

133
00:14:18,400 --> 00:14:24,560
i was correlating that some of the sightings\h
on the west coast of ireland uh uh in that time\h\h

134
00:14:24,560 --> 00:14:34,400
period 1989 1990 a lot of them are that classic\h
weird beveled triangular shape and um we live\h\h

135
00:14:34,400 --> 00:14:38,960
in interesting times because you know literally as\h
we're having this broadcast there's just been this\h\h

136
00:14:38,960 --> 00:14:44,400
this very new development this morning where\h
dr david clark and vinnie from disclosure\h\h

137
00:14:44,400 --> 00:14:50,720
team and others have published an image of um a\h
photograph that uh has resided inside the united

138
00:14:57,520 --> 00:15:03,200
it's states because i've got people from\h
ireland and western europe and uh and the uk\h\h

139
00:15:04,080 --> 00:15:09,680
who've got similar sightings of similar if not\h
identical objects in that time period as well\h\h

140
00:15:09,680 --> 00:15:16,160
something's been going on yeah if you compare the\h
amount of sightings in europe excuse me i'm losing\h\h

141

00:15:16,160 --> 00:15:22,960

my voice and the west of ireland actually has the
highest rating of sightings in europe outside of

142

00:15:22,960 --> 00:15:30,160

france and that's interesting on the west coast
so wow really that's interesting yeah yeah

143

00:15:30,160 --> 00:15:38,080

hey ross uh the is calvin is that what it's
called the california ufo yeah it's true two

144

00:15:38,080 --> 00:15:43,440

walkers i hear on the room on the rumor channel
that they were actually people poaching or on

145

00:15:43,440 --> 00:15:49,040

a property illegally but uh there are two
walkers who were in the scottish highlands

146

00:15:49,600 --> 00:15:56,240

um and as i understand where they were is
very close to a a british airbase called

147

00:15:56,960 --> 00:16:01,920

machelrish or mechanrish i've forgotten
exactly how you say it but it's a very secret

148

00:16:01,920 --> 00:16:08,240

aerodrome that the americans have allegedly used
with the iraf the british royal air force for

149

00:16:08,240 --> 00:16:15,280

many decades and these two hikers basically
sent in to the local scottish newspaper

150

00:16:16,800 --> 00:16:23,920

a photograph and negatives of this image that
they captured which essentially appears to be

151

00:16:23,920 --> 00:16:30,880

and upon their description was a hovering\h
object larger than a fighter jet uh being\h\h

152

00:16:30,880 --> 00:16:37,840

surrounded actually by at least one or two\h
alleged fighter jets and um the uh the thing\h\h

153

00:16:37,840 --> 00:16:41,600

that's interesting about the whole story is\h
that there's been a david clarke has done\h\h

154

00:16:41,600 --> 00:16:47,200

some phenomenal work into the british archives in\h
this in the last three decades but basically um\h\h

155

00:16:48,160 --> 00:16:56,560

i interviewed chris mellom who is as we know the\h
former assistant deputy secretary for defence uh\h\h

156

00:16:56,560 --> 00:17:02,400

for intelligence and security and when he was\h
a staffer on the senate intelligence committee\h\h

157

00:17:02,400 --> 00:17:08,160

in this time period in the 1990s there was\h
an inquiry that went from the british raf\h\h

158

00:17:10,000 --> 00:17:15,200

to the american government and contemporaneously\h
there were inquiries made in the congress\h\h

159

00:17:15,200 --> 00:17:21,440

about whether or not this was american technology\h
and what's significant about this calvin ufo\h\h

160

00:17:21,440 --> 00:17:28,800

story whether it is or whether it isn't us tech\h
it's it's demonstrating what appear to be at least\h\h

161

00:17:28,800 --> 00:17:34,960

some of the five observables it's showing positive lift without any visible means of propulsion

162

00:17:34,960 --> 00:17:40,880

and according to the testimony of the two people who allegedly saw it um it took off at

163

00:17:40,880 --> 00:17:48,000

extraordinary high velocities shortly after the photograph was taken and so if it is something

164

00:17:48,000 --> 00:17:52,960

that's demonstrating at least one or two of the five observables if it's for example showing

165

00:17:52,960 --> 00:18:00,320

anti-gravity positive lift that is extraordinary because it begs the question why has the

166

00:18:00,320 --> 00:18:07,760

uk and us government collaborated in conspiring to conceal the fact of this technology for

167

00:18:08,480 --> 00:18:17,280

30 32 years and now that this issue has come out uh is it going to be investigated whether congress

168

00:18:17,280 --> 00:18:22,880

was misled because um i know from talking to mellon when i asked him about this matter

169

00:18:23,440 --> 00:18:30,320

he he specifically made inquiries as to whether he was and he was cleared to know whether there was

170

00:18:31,280 --> 00:18:37,280

black technology in the possession or knowledge of the united states that conformed to what was

171

00:18:37,280 --> 00:18:44,240

mythically described as the aurora aircraft or
i think the trtp and it was specifically denied

172

00:18:44,240 --> 00:18:49,760

so has congress been misled that's the
bigger issue that comes out of this

173

00:18:49,760 --> 00:18:55,520

news breaking story from david clarke and
disclosure team whether there has in fact been

174

00:18:55,520 --> 00:19:01,600

an intention to mislead the congress and whether
as well whether the british parliament was misled

175

00:19:01,600 --> 00:19:07,200

uh because there were answers to questions on
notice in the british parliament that were at best

176

00:19:07,200 --> 00:19:14,560

evasive and it's really interesting i mean again
it's a tribute to good digging citizen journalism

177

00:19:14,560 --> 00:19:22,640

david clarke has basically tracked down a former
ministry of defense public relations uh uh media

178

00:19:22,640 --> 00:19:27,840

official uh who was working with the royal
air force at the time and he's he's basically

179

00:19:27,840 --> 00:19:34,480

kept a copy of the photograph which is absolutely
magnificent and it's a wonderful story because i'm

180

00:19:34,480 --> 00:19:39,840

fascinated by the image because if you remember at
the beginning of the documentary that i did last

181
00:19:39,840 --> 00:19:46,320
year there was a young woman who described
a lenticular but vaguely triangular shape

182
00:19:47,360 --> 00:19:52,240
that bears some resemblance to the subject and it
does beg the question whether what we're talking

183
00:19:52,240 --> 00:19:58,320
about here is something that in fact is black
american technology that has been specifically

184
00:19:58,320 --> 00:20:05,440
and possibly illegally withheld from the knowledge
of the congress for three decades maybe longer um

185
00:20:05,440 --> 00:20:09,760
and uh it really does raise a new question
you know whether this is technology that is

186
00:20:09,760 --> 00:20:14,560
in possession of either the us or the british
or some other allied government or or whether

187
00:20:14,560 --> 00:20:19,840
they were photographed in inadvertently
circling the object with their fighter jets

188
00:20:20,400 --> 00:20:25,440
it not being human tech we we just don't know
we don't know enough about this object but

189
00:20:25,440 --> 00:20:30,960
hopefully now as a result of good citizen
journalism by david clarke and others we'll get

190
00:20:30,960 --> 00:20:36,480
to the bottom of it i'm joining along the dots
at the moment because i'm i'm trying to figure

191

00:20:36,480 --> 00:20:44,240

all this out because gary nolan mentioned um on\h
tucker recently about the events that happened in\h\h

192

00:20:44,240 --> 00:20:51,840

the uk back where the united states air force\h
was in partnership with the british air force\h\h

193

00:20:51,840 --> 00:20:58,640

i think he was talking about rindelsham um i've\h
just done it right yeah what year was that in 1980\h\h

194

00:21:00,240 --> 00:21:07,840

i i i i think carlson got it wrong he's not\h
carlson but um nolan he said 1981 i think is what\h\h

195

00:21:07,840 --> 00:21:14,400

he called her 79 he was wrong it's 1980. it was\h
christmas uh and christmas eve and the day after\h\h

196

00:21:14,400 --> 00:21:19,920

in 1980. i'm pretty sure this 1982 event\h
happened i was surrendered from forest i'm\h\h

197

00:21:19,920 --> 00:21:24,960

pretty sure it was december 1982. i i don't\h
think so i think it's 80 but you know what\h\h

198

00:21:25,760 --> 00:21:30,800

we can figure well this is a good yeah this\h
is a good looking game whoever is wrong

199

00:21:34,240 --> 00:21:39,680

you're right bryce it was 1980 and the reason why\h
it's interesting is because the uh cash landrum\h\h

200

00:21:39,680 --> 00:21:47,040

incident happened within days of that 1980 and\h
that's the fascinating thing is that um the the\h\h

201

00:21:47,040 --> 00:21:51,920

thing that's interesting about the cache landrum\h
incident which took place in the united states\h\h

202

00:21:51,920 --> 00:21:56,960

is that again it also featured the suggestion\h
that there might have been american military\h\h

203

00:21:57,520 --> 00:22:03,440

helicopters uh involved in an attempted\h
recovery or rescue of whatever this object was\h\h

204

00:22:04,080 --> 00:22:10,400

um i think we're it's a really interesting\h
time because um we're getting to the stage now\h\h

205

00:22:10,400 --> 00:22:15,200

and i'd love to know uh rob and kieran what\h
you guys think we're getting to the stage now\h\h

206

00:22:15,200 --> 00:22:24,080

where the volume of interest and the volume of\h
reporting on the phenomenon whatever it is um\h\h

207

00:22:24,080 --> 00:22:30,000

is now getting such a momentum that it's getting\h
into mainstream media i mean the good thing about\h\h

208

00:22:30,000 --> 00:22:36,000

the calvine story today is i've seen it in the\h
london sun a british tabloid newspaper it's in the\h\h

209

00:22:36,000 --> 00:22:42,480

the london daily mail it hasn't made the pages of\h
the august and respectable london times but it may\h\h

210

00:22:42,480 --> 00:22:48,800

well yet but it's enormously significant that this\h
is a breakthrough story that's getting into legacy\h\h

211
00:22:48,800 --> 00:22:54,800
media because this is a story that's largely
tracked as robin kieran i'm sure would agree in

212
00:22:54,800 --> 00:23:01,920
social media twitter facebook you know the various
ufo feeds it's largely been marginalized because

213
00:23:01,920 --> 00:23:09,760
of that but this is an inordinately important
story because what this goes to is a cover-up

214
00:23:10,480 --> 00:23:17,280
and often what happens in in the military that
undoes them is their attempts to conceal something

215
00:23:17,280 --> 00:23:23,040
and i was rereading david clarke's excellent work
this morning he's done a three-part series about

216
00:23:23,040 --> 00:23:28,560
calvin going back to june and i've been aware
for some time that this story was coming and that

217
00:23:28,560 --> 00:23:34,800
this photograph was imminent but what's important
what mustn't be overlooked is that david's pieced

218
00:23:34,800 --> 00:23:40,720
together that there was a british d notice issued
essentially a suppression order issued by the

219
00:23:40,720 --> 00:23:47,280
british government to gag coverage of this issue
and the question is whether this d notice was

220
00:23:47,280 --> 00:23:53,680
directed at the scottish newspaper that was given
a copy of the photographs and if that's the case

221
00:23:54,640 --> 00:24:02,000
why why was there a suppression order issued that
legally gagged a newspaper from showing a piece of

222
00:24:02,000 --> 00:24:08,960
technology which has categorically been denied
by the united states government as being u.s.

223
00:24:08,960 --> 00:24:14,720
technology if this is u.s technology and this
is the bigger story here it's the cover-up not

224
00:24:14,720 --> 00:24:21,920
the actual fact of the photograph if this is
u.s technology congress has been misled it's

225
00:24:21,920 --> 00:24:27,760
been lied to but if there wasn't us technology
congress has still been misled exactly thinking

226
00:24:27,760 --> 00:24:33,120
about congress not being told the truth i mean i
don't think there's any doubt that congress hasn't

227
00:24:33,120 --> 00:24:38,640
been told the truth over the years about some of
this stuff for sure you know i just wanted to ask

228
00:24:38,640 --> 00:24:45,760
kieran and rob what do you guys think is going
on i mean i'm just curious as you look at the big

229
00:24:45,760 --> 00:24:52,720
you know you hear this ross is talking about this
particular case fascinating case breaking today uh

230
00:24:52,720 --> 00:24:57,280
you've been listening to the uh podcast karen and
you said you know we've talked about all kinds of

231

00:24:57,280 --> 00:25:03,200

things you've been reading it's enough to make\h
you go crazy it's enough to make you say i give\h\h

232

00:25:03,200 --> 00:25:09,040

up i'm going home there's no way i can ever figure\h
this thing out and yet we all probably lay a bet\h\h

233

00:25:09,600 --> 00:25:14,560

lay awake in bed at times and think what is really\h
going on so i'm going to throw it to you guys rob\h\h

234

00:25:14,560 --> 00:25:19,840

what's your take what's going on yeah i was down\h
that rabbit hole and i remember listening to\h\h

235

00:25:19,840 --> 00:25:28,480

george knapp on um i was a podcast who was it was\h
joe rogan anyway he was talking about going in the\h\h

236

00:25:28,480 --> 00:25:33,360

rabbit hole and look i i would be very scientific\h
in terms of the way i look at things and\h\h

237

00:25:33,360 --> 00:25:38,240

i'd have an evidence-based point of view i i\h
personally believe there's a back engineering\h\h

238

00:25:38,240 --> 00:25:43,440

project going on i think they have technology\h
i don't know whether they found aircraft from\h\h

239

00:25:43,440 --> 00:25:50,400

another civilization but they definitely have\h
some technology that they're back engineering and\h\h

240

00:25:50,400 --> 00:25:54,880

i think that brings me down to ross i think you'll\h
you'll agree with me on this one the whole wilson\h\h

241

00:25:54,880 --> 00:26:00,320

davis memo and i think you quoted the admiral\h
wilson clause and that seems to be propping\h\h

242

00:26:00,320 --> 00:26:05,920

up more and more and gary nolan seems to be\h
mentioning it as well people seem to be sliding\h\h

243

00:26:05,920 --> 00:26:13,520

it under the under the table but it's the likes of\h
of you know gary nolan and the likes of and jeremy\h\h

244

00:26:13,520 --> 00:26:18,800

corbell that are kind of pushing this out a little\h
bit and this credence behind this and i'm joining\h\h

245

00:26:18,800 --> 00:26:24,080

the dots and for what you're saying there ross i\h
think there's definitely a back engineering um and\h\h

246

00:26:24,080 --> 00:26:29,360

just to emphasize what you're saying there rob\h
the significance of the admiral wilson document\h\h

247

00:26:29,360 --> 00:26:33,920

in the context that you're talking about in the\h
context that professor gary nolan is talking about\h\h

248

00:26:34,560 --> 00:26:42,640

is that there's speculation and there has been for\h
some time in this memo that fundamentally if there\h\h

249

00:26:42,640 --> 00:26:48,160

is recovered non-human technology and that's what\h
we're talking about alien technology i know it's\h\h

250

00:26:48,160 --> 00:26:54,480

brehtaking and its implications but if there is\h
recovered non-human technology the speculation is\h\h

251

00:26:54,480 --> 00:27:00,480

that it was deliberately removed from the control\h
direct control of the us military and intelligence\h\h

252

00:27:00,480 --> 00:27:07,920

services and placed into private aerospace as a\h
way of concealing it and dividing the scrutiny of\h\h

253

00:27:07,920 --> 00:27:13,120

freedom of information laws and government\h
oversight watchdogs such as the government\h\h

254

00:27:13,120 --> 00:27:19,360

accounting office and the various intelligence\h
committees and armed services committees in the in\h\h

255

00:27:19,360 --> 00:27:25,760

the congress and the question has to be asked if\h
that's ca if that's the case clearly crimes have\h\h

256

00:27:25,760 --> 00:27:31,040

been committed unless there's some presidential\h
order executive order that exonerates everybody\h\h

257

00:27:31,040 --> 00:27:37,120

involved but then you have to ask why why would\h
that be the case and i actually i'm beginning to\h\h

258

00:27:37,120 --> 00:27:42,880

think despite my pessimism in recent years i'm\h
beginning to think that this may all soon come\h\h

259

00:27:42,880 --> 00:27:48,960

rolling out what do you think wrong yeah i i think\h
100 and that's i remember i text you recently\h\h

260

00:27:48,960 --> 00:27:53,600

about you know the close hearings and what does\h
that mean you were able to break that down for\h\h

261
00:27:53,600 --> 00:27:58,000
me it made perfect sense if there was crimes to be
committed it would have to be behind closed doors

262
00:27:58,560 --> 00:28:03,520
and whatever evidence they have that is palatable
to the public they release it and they drip feed

263
00:28:03,520 --> 00:28:08,960
us i think there's a to be honest i think there's
a bit of a drip feeding process going on here

264
00:28:08,960 --> 00:28:13,200
there's so many dots at the moment that are coming
together and are joining to create this picture

265
00:28:13,200 --> 00:28:17,360
that there could well be technology from
somewhere else that's been back engineered

266
00:28:17,360 --> 00:28:23,920
and again a lot of people cringe when i
mention his name but the more bob lazar yeah

267
00:28:24,640 --> 00:28:32,240
now i'd love to know what chris mellon said
to joe rogan offline about bob lazar and it

268
00:28:32,240 --> 00:28:37,520
did bubbles are hanging around there the the
infamous bar where people spoke about you know

269
00:28:37,520 --> 00:28:42,080
special access programs yeah we pick up an awful
lot but george knocked down the whole bubble is

270
00:28:42,080 --> 00:28:47,920
our story for many many years ago and everyone
thought he was crazy and and what not like but

271
00:28:47,920 --> 00:28:52,880
i don't know i mean there has to be some sort of
credence given to him you know because he's still

272
00:28:52,880 --> 00:28:57,760
stuck with his story and when he explains his
whole back engineering and everything that he's

273
00:28:57,760 --> 00:29:05,200
seen it's uh it's it's it's hard not to it's
find it hard not to believe sometimes even though

274
00:29:06,400 --> 00:29:11,600
it's sometimes it's just something crazy it's
uh i don't know here's the thing here's sorry

275
00:29:11,600 --> 00:29:17,520
guys my argument would be 30 years ago back
in the 80s we didn't have social media okay so

276
00:29:17,520 --> 00:29:23,280
you know it was it was hard to remember or to
go back and say what you said in a lie because

277
00:29:23,280 --> 00:29:28,480
you can get caught up in the lie it gets big and
big and big bob lazar story has been consistent

278
00:29:28,480 --> 00:29:36,880
throughout yeah consistent throughout and the
fact that he he went on jeremy with jeremy corbell

279
00:29:36,880 --> 00:29:40,640
on a podcast kicking and screaming
and paid his own ticket to fly there

280
00:29:42,800 --> 00:29:47,600
this guy is not a nut he he i don't know
know ross you would probably argue with the

281
00:29:47,600 --> 00:29:53,200
case about you know the credence of his education\h
and what does that mean i i don't know maybe you\h\h

282
00:29:53,200 --> 00:29:56,880
don't need to have an education maybe he's just a\h
genius he put he made a rocket on the back of her\h\h

283
00:29:57,760 --> 00:30:01,200
maybe he wouldn't be he wouldn't be the\h
first bloke that bullshitted about his cv\h\h

284
00:30:01,920 --> 00:30:06,960
yeah exactly you come down here where do you come

285
00:30:10,080 --> 00:30:16,400
but basically i'm agnostic on bob\h
i mean i i i i guess um i find him\h\h

286
00:30:16,400 --> 00:30:23,120
fascinating and compelling and uh you\h
know for the superficial use that it is\h\h

287
00:30:23,840 --> 00:30:30,640
i don't see dissembling or evasion or lies\h
and i'm impressed that he's been able to pass\h\h

288
00:30:31,200 --> 00:30:38,240
multiple uh lie detector tests although they\h
are flawed but i do have an issue with the fact\h\h

289
00:30:38,240 --> 00:30:43,760
that um you know there are aspects of his claimed\h
educational record that don't make a lot of sense\h\h

290
00:30:44,400 --> 00:30:50,640
um he claimed i think one stage to have a masters\h
from caltech and at mit and that's not born out by\h\h

291

00:30:50,640 --> 00:30:58,080

any academic documents but um is it possible that he was just tricking it up and and maybe he had a

292

00:30:58,080 --> 00:31:02,240

chip on his shoulder about the fact that he didn't have a formal qualification when in fact he's

293

00:31:03,040 --> 00:31:08,320

innately gifted with something that the united states military understood was useful to them

294

00:31:08,320 --> 00:31:15,120

don't think that's impossible and i i spoke before he died to a lovely man called dave fruhuff during

295

00:31:15,120 --> 00:31:23,040

my research who at the time was only prepared to speak confidentially but um dave is a former um

296

00:31:23,600 --> 00:31:32,240

sr 71 blackbird pilot and he ended up working at area 51 uh in the period after lazar said he was

297

00:31:32,240 --> 00:31:39,600

working there but dave basically confirmed that he spoke to people who were aware that bob lazar did

298

00:31:39,600 --> 00:31:47,440

travel on the janet airlines plane to area 51 and more importantly dave confirmed to me privately

299

00:31:47,440 --> 00:31:56,960

that um he was aware of the existence at dreamland area 51 of a location called s4 the location of

300

00:31:56,960 --> 00:32:04,560

which has long been in question so there are aspects of bob's story that do check out and

301

00:32:04,560 --> 00:32:09,440

needless to say i mean uh one of the things\h
you watch out for in investigative journalism\h\h

302

00:32:09,440 --> 00:32:17,040

is disinformation designed to discredit someone\h
and it is fascinating to see how they have very\h\h

303

00:32:17,040 --> 00:32:24,080

clearly been efforts by the us to discredit bob\h
lazar over the years um he was dragged through the\h\h

304

00:32:24,080 --> 00:32:30,800

courts on a quite spurious case of um i think\h
he was involved in helping fund a brothel or\h\h

305

00:32:30,800 --> 00:32:37,040

something like that it was a very weird criminal\h
charge that he faced and um frankly it had the\h\h

306

00:32:37,040 --> 00:32:43,760

whiff of something designed to discredit someone\h
uh i like you rob and kieran i watched the whole\h\h

307

00:32:43,760 --> 00:32:48,640

uh bob lazar jeremy corbell exchange with\h
joe rogan and i thought it was compelling\h\h

308

00:32:49,360 --> 00:32:55,520

and um uh whilst i can't vouch for bob lazar i\h
don't have any way of independently being able\h\h

309

00:32:55,520 --> 00:33:01,920

to verify what he says i can say that there\h
are aspects of mr lazar's story that i've\h\h

310

00:33:01,920 --> 00:33:09,520

been able to independently verify with solid\h
sources and indeed more privately people who\h\h

311

00:33:09,520 --> 00:33:14,240

aren't prepared to go on camera or speak on
the record of have said to me that i should

312

00:33:14,240 --> 00:33:20,080

take lazar more seriously and they've had a go at
me about the fact that in the book i um i don't

313

00:33:20,080 --> 00:33:27,360

come down in favor of what he said uh and um yeah
i mean i just don't know but you know ross that's

314

00:33:27,360 --> 00:33:33,920

one of the reason people like your book so much
because you you don't come down on everything all

315

00:33:33,920 --> 00:33:39,200

at once you you take a look at it you know it's
interesting um i have two comments first i'm the

316

00:33:39,200 --> 00:33:46,000

only one on their second beer okay so uh and i'm
the only one who showed their beer get in there um

317

00:33:46,000 --> 00:33:51,040

but that's not what i'm saying oh there's probably
more alcohol than kieran's guinness than about

318

00:33:52,560 --> 00:33:56,400

i think that's probably true i think that's
true here's what i would say about the lazar

319

00:33:56,400 --> 00:34:00,800

thing that i think is kind of an intriguing
thing because we've all commented on it

320

00:34:01,440 --> 00:34:07,200

i remember when i first heard it i wanted to
believe it but i was like well it's kind of hard

321

00:34:07,200 --> 00:34:12,080

to believe it because first of all the government\h
is telling us that there's nothing to see here and\h\h

322

00:34:12,080 --> 00:34:18,080

uh and people that believe in any of this stuff\h
like i did at the time uh were were pretty much\h\h

323

00:34:18,080 --> 00:34:24,400

just discounted but today we live in a time where\h
the government has actually said yeah this stuff\h\h

324

00:34:24,400 --> 00:34:30,400

is real uh they're not saying necessarily who's\h
making it but they're not discounting that exists\h\h

325

00:34:30,400 --> 00:34:36,000

so if it exists then a lot of other things that\h
we've put aside and said well we can't really look\h\h

326

00:34:36,000 --> 00:34:42,560

at those i mean who knows but a lot of that stuff\h
now has to be looked at in a different way because\h\h

327

00:34:42,560 --> 00:34:47,520

the united states government alone has already\h
said you know we're buying into this stuff so\h\h

328

00:34:47,520 --> 00:34:54,960

lazar i i listen i'm a big fan of george knapp\h
he's a tremendous reporter and i take take it\h\h

329

00:34:54,960 --> 00:35:02,160

seriously that he believes so clearly in\h
the lazar story so i give it a lot of uh\h\h

330

00:35:02,160 --> 00:35:08,320

credence and credibility but again we won't know\h
until we know and and i believe it's possible\h\h

331

00:35:08,320 --> 00:35:12,800

that in a disclosure environment we are going to\h
learn something about the bob lazars of the world\h\h

332

00:35:14,720 --> 00:35:19,600

i'd love to know rob and kieran what you guys\h
think i i i don't want to sound like an apologist\h\h

333

00:35:19,600 --> 00:35:25,120

for the military in the intelligence community but\h
i i've tried to sort of put myself in the position\h\h

334

00:35:25,120 --> 00:35:31,840

of a president or a head of the armed forces in\h
the united states who's become aware let's assume\h\h

335

00:35:31,840 --> 00:35:38,320

hypothetically that the us did recover something\h
at roswell and other crashes in in the period from\h\h

336

00:35:38,320 --> 00:35:44,000

1947 and let's assume that there has been a back\h
engineering reverse engineering effort underway\h\h

337

00:35:44,000 --> 00:35:50,880

for you know all of 75 years minimum if that's\h
the case i think i would have kept it secret\h\h

338

00:35:50,880 --> 00:35:56,640

and if necessary as president i would have gone\h
to great efforts to make sure that it did evade\h\h

339

00:35:56,640 --> 00:36:02,240

the scrutiny of much of congress because let's be\h
brutally honest congress leaks you know congress\h\h

340

00:36:02,240 --> 00:36:09,920

can't keep its mouth shut yeah that's true and and\h
i think you know if you look at roswell um america\h\h

341

00:36:09,920 --> 00:36:16,160

had just gone through world war ii and they've
just gone through well roswell had just been

342

00:36:16,880 --> 00:36:23,200

we had been used for testing nuclear we just
dropped bombs on nuclear nuclear bombs on

343

00:36:23,200 --> 00:36:29,920

japan so at that time and america just
just just recovered from world war ii so

344

00:36:30,960 --> 00:36:37,440

i just with your if you would
recover that type of machinery and

345

00:36:39,040 --> 00:36:43,440

you're not going to want to disclose it to your
your enemies or other countries you're going to

346

00:36:43,440 --> 00:36:50,080

want to look at it and analyze it and and see how
you could use it for your benefits so definitely

347

00:36:52,240 --> 00:36:57,280

you know not only would they want to analyze
it to see if they could look find a benefit

348

00:36:57,280 --> 00:37:01,280

for themselves i think there's either some
there's something else that may be the super

349

00:37:02,160 --> 00:37:07,680

explanation which is they weren't sure at
all what it was right and that was true at

350

00:37:07,680 --> 00:37:13,280

the time and they probably figured well we need
to study this stuff we need to figure out what

351

00:37:13,280 --> 00:37:19,120

we're dealing with and eventually this is going to get out i always thought they might think at

352

00:37:19,120 --> 00:37:24,480

roswell will we've got a few years we can probably keep this contained for a few years we kept hitler

353

00:37:24,480 --> 00:37:29,440

from understanding where we were going to have the d-day invasion maybe we can use some of that stuff

354

00:37:29,440 --> 00:37:36,000

and try to keep this but i don't think any of the architects of secrecy from those years would

355

00:37:36,000 --> 00:37:42,000

could even comprehend if they were alive today that this thing had kept on so long but the only

356

00:37:42,000 --> 00:37:48,160

one thing i wanted to just run back to for you two guys it isn't just the united states in fact

357

00:37:48,160 --> 00:37:53,520

the fact that ross and i have this podcast is a an example of what we're trying to say

358

00:37:53,520 --> 00:37:58,560

visually verbally in every way we can it's a global phenomenon all right it's not just the

359

00:37:58,560 --> 00:38:03,840

united states it's not just anybody i mean what we talked about today ross has got this british

360

00:38:04,480 --> 00:38:10,080

case that he was talking about with the with the photo um you know yes the united states has been

361

00:38:10,080 --> 00:38:14,720

deeply in the thick of it but not the only ones\h
so i just wanted to ask you guys do you have\h\h

362

00:38:14,720 --> 00:38:21,760

any specific uh information about how the irish\h
government has looked at this issue over the years

363

00:38:24,080 --> 00:38:27,600

gosh you know well karen do you\h
want to go first you know what\h\h

364

00:38:27,600 --> 00:38:33,040

just say for instance right my dad had reported\h
that case i'd say if he had because he wouldn't\h\h

365

00:38:33,040 --> 00:38:36,320

have even had a phone back then he\h
would have to cycle to the village\h\h

366

00:38:36,320 --> 00:38:39,600

phone the police they'd probably say\h
look we've sent someone down on a bicycle\h\h

367

00:38:40,320 --> 00:38:44,640

there just wouldn't have been anything to\h
be honest with you um no i think back then\h\h

368

00:38:44,640 --> 00:38:48,880

the irish government would be in serious laxatives\h
what does the irish government think today

369

00:38:53,120 --> 00:38:56,560

i don't think they would really that\h
you wouldn't have the capabilities to\h\h

370

00:38:56,560 --> 00:39:02,240

be honest with you we don't have experts in\h
any any field we don't our minister of health\h\h

371

00:39:03,840 --> 00:39:08,400

would not have been an expert in health you\h
know our defense would not be a minister in\h\h

372

00:39:08,400 --> 00:39:11,760

defense we're too small we don't have\h
the expertise everything has to be\h\h

373

00:39:12,880 --> 00:39:20,080

um we need third-party expertise basically i\h
think there's a general fascination with the\h\h

374

00:39:20,080 --> 00:39:24,480

whole subject in itself and i think my my mate\h
gordon who couldn't be here tonight he's been\h\h

375

00:39:24,480 --> 00:39:30,240

in touch with jeremy uh back and forth because\h
they interviewed jeremy on an irish television\h\h

376

00:39:30,240 --> 00:39:35,680

recently just to bring the subject matter to the\h
irish public and kind of to remove that stigma\h\h

377

00:39:35,680 --> 00:39:40,480

and that goes back to what you were saying ross\h
there like the removal of the tin foil hats it's\h\h

378

00:39:40,480 --> 00:39:45,120

beyond the fringe now it's not starting\h
to go into media and talking to friends\h\h

379

00:39:45,120 --> 00:39:48,320

of mine i think there's a bit of a stigma\h
in ireland when it comes to stuff like that

380

00:39:50,400 --> 00:39:54,880

i think that's fading i think that's starting\h
to disappear though it is but back in the day\h\h

381

00:39:54,880 --> 00:39:59,200

it was like you know i mean my my uncle my oh\h
sorry my granddad was a farmer and i'd say to\h\h

382

00:39:59,200 --> 00:40:03,280

him you ever see a ghost in the field or an\h
apparition he said the only thing i saw i've\h\h

383

00:40:03,280 --> 00:40:07,600

never seen anything worse than myself in a field\h
and if you saw something you were reader coming\h\h

384

00:40:07,600 --> 00:40:11,360

back from the poverty in the morning you had too\h
much guinness you know and people just laughed off

385

00:40:14,160 --> 00:40:17,440

can i throw something in the mix\h
here is one of the things that when\h\h

386

00:40:17,440 --> 00:40:22,800

when bryce and i were talking about the ghost\h
rockets in the 1940s you know the ghost rockets\h\h

387

00:40:22,800 --> 00:40:29,120

that were seen across scandinavia yeah i\h
was contacted by a guy from county kildare\h\h

388

00:40:29,120 --> 00:40:34,080

in the republic of ireland called adrian meaney\h
i'm sure he wouldn't mind me using his name\h\h

389

00:40:34,800 --> 00:40:41,680

and he had done some great work where he dug\h
out some old department of defense and ireland\h\h

390

00:40:41,680 --> 00:40:49,600

files that showed that in july 1947 there were\h
sightings of ghost rockets all over ireland\h\h

391

00:40:49,600 --> 00:40:57,600

and uh that's interesting and and basically um\h
wow there was a a story that ended up in the um\h\h

392

00:40:57,600 --> 00:41:03,760

the irish times but but basically there were i\h
think there were priests who'd seen these weird\h\h

393

00:41:03,760 --> 00:41:10,480

ghost rockets they occurred not just in poland and\h
the mediterranean but he let me know that in the\h\h

394

00:41:10,480 --> 00:41:17,760

irish ufo files there were flying disc reports\h
from july 1947 and a rocket article witnessed\h\h

395

00:41:17,760 --> 00:41:24,320

in two locations independently by three irish\h
priests and he sent me some of the reports and\h\h

396

00:41:25,120 --> 00:41:30,640

they included statements from the priests about\h
what they'd seen and the fascinating thing was\h\h

397

00:41:32,080 --> 00:41:37,920

you know it was reported but as often happens a\h
bit like happened in new zealand where i grew up\h\h

398

00:41:37,920 --> 00:41:41,760

these things were just basically ignored and\h
buried because i think everybody found it so\h\h

399

00:41:41,760 --> 00:41:47,200

uncomfortable yeah just like they did the\h
the marines so just like the us military\h\h

400

00:41:47,200 --> 00:41:51,200

i mean they've only just started to develop an\h
infrastructure where you can report it up and and\h\h

401

00:41:51,200 --> 00:41:56,640

collect the data we don't have the infrastructure\h
to collect the data i'm sure we have things flying\h\h

402

00:41:56,640 --> 00:42:01,120

over us i mean they said that the stats out\h
there suggest that we do have the highest\h\h

403

00:42:01,120 --> 00:42:05,520

level of sightings people are talking about them\h
we don't have the infrastructure to capture it\h\h

404

00:42:05,520 --> 00:42:10,880

and take it the way the united states or the\h
larger the five eyes are are capturing the data\h\h

405

00:42:10,880 --> 00:42:16,720

so it's it's like we're caught in the middle\h
you know there's one other connection though\h\h

406

00:42:16,720 --> 00:42:21,920

that we should make to to ireland i mean if you\h
take a look at what jacques valet and people uh\h\h

407

00:42:21,920 --> 00:42:28,240

who have been trying to come at this from another\h
point of view they have said that when you\h\h

408

00:42:28,240 --> 00:42:34,160

specifically about sightings and abductions that\h
a lot of the stuff that is now attributed to the\h\h

409

00:42:34,160 --> 00:42:40,880

sort of the ufo alien explanation has been\h
going on for centuries and thousands of years\h\h

410

00:42:41,440 --> 00:42:47,680

specifically in places like your own country\h
gentlemen where there were reports of fairies\h\h

411

00:42:47,680 --> 00:42:53,520

and gnomes and all kinds of things right so i\h
just wonder if you have any thoughts about that\h\h

412

00:42:53,520 --> 00:43:00,960

because clearly you know people are referencing\h
your country as a place where you know maybe\h\h

413

00:43:00,960 --> 00:43:06,720

these weren't all fairies maybe these weren't all\h
mythical kind of things maybe there was something\h\h

414

00:43:06,720 --> 00:43:12,000

going on have you ever thought about that issue\h
me big time newgrange is a massive thing for me\h\h

415

00:43:12,000 --> 00:43:16,960

newgrange is 2 000 years before christ and they\h
will manage to be able to figure out where the sun\h\h

416

00:43:16,960 --> 00:43:22,000

rose and where it came in at a certain point\h
of day where i was able to open up the chamber\h\h

417

00:43:22,000 --> 00:43:26,880

i mean where did they find the science to be able\h
to figure that out then you look at the pyramids\h\h

418

00:43:28,320 --> 00:43:33,520

where do they get the engineering to do that\h
it's it's crazy it's absolutely crazy so in\h\h

419

00:43:33,520 --> 00:43:38,080

terms of newgrange i'm like maybe like there's so\h
many theories out there there's so many different\h\h

420

00:43:38,080 --> 00:43:44,320

hypothesis like put off ultra terrestrial\h
hypothesis and i find that fascinating you know\h\h

421

00:43:44,880 --> 00:43:50,240

you look at the the ufo crash there in roswell\h
is it a crash is technology that's so good it's\h\h

422

00:43:50,240 --> 00:43:56,640

going to crash or was it left there left there to\h
be discovered but you you mean something else did\h\h

423

00:43:56,640 --> 00:44:02,160

you mean like missing persons or mythology\h
or what was that was that what you meant or\h\h

424

00:44:03,280 --> 00:44:07,040

yeah yeah exactly that's what i\h
was talking about yeah can i just

425

00:44:13,600 --> 00:44:16,240

the thing i find fascinating\h
about newgrange is that it's\h\h

426

00:44:16,240 --> 00:44:21,840

older than the egyptian pyramids and stonehenge

427

00:44:24,720 --> 00:44:28,720

maybe just tell our listeners and\h
our viewers what you know about it\h\h

428

00:44:28,720 --> 00:44:37,920

new grains it's in county mead it's a neolithic\h
tomb and neo meaning new life i think i could\h\h

429

00:44:37,920 --> 00:44:43,120

be wrong and on the there's a capstone on the\h
outside of newgrange and it's a burial tomb\h\h

430

00:44:43,120 --> 00:44:48,480

and it's it's a circle with one chamber\h
going through it and it's where they bury\h\h

431

00:44:48,480 --> 00:44:57,120

their dead to be worshipped kind of like the
um pyramids and during the winter solstice the

432

00:44:57,120 --> 00:45:02,480

the sun would rise and it would beam in through
the chamber and light up the whole chamber

433

00:45:03,440 --> 00:45:09,040

and for something that's 2 000 years older than
the pyramids to know where the sun would rise

434

00:45:09,040 --> 00:45:16,400

at that moment in time to you know illuminate
the chamber is amazing it's one day a year it's

435

00:45:16,400 --> 00:45:24,160

amazing and they have these circles that don't
it doesn't end it's a continuous circle so that

436

00:45:24,160 --> 00:45:30,320

represents life life is ongoing continuous
it's like a trinity design yes uh gentlemen

437

00:45:30,320 --> 00:45:36,720

we um we live in the world of regulations we got
about five minutes here so what i want to do is

438

00:45:36,720 --> 00:45:42,960

i want to throw it to you guys what do you uh is
there something you want to say do you want to ask

439

00:45:42,960 --> 00:45:48,400

ross or myself anything what you know what make it
your own here you got five minutes what do we what

440

00:45:48,400 --> 00:45:53,840

do what do you want to get out here yeah well just
just quickly i mean there's we always talk about

441

00:45:53,840 --> 00:46:00,880

roswell and i know but um there's been reports of\h
so many crash sites and i'm just wondering do you\h\h

442

00:46:00,880 --> 00:46:08,400

guys know of any other details about that and i\h
have specifics because i have also a little book\h\h

443

00:46:08,400 --> 00:46:13,520

called dark object and it's about shag harbor\h
i'm not sure if you've heard about that one\h\h

444

00:46:13,520 --> 00:46:20,880

absolutely shag harbor yeah also i've heard\h
of two crash sites in brazil and another one\h\h

445

00:46:20,880 --> 00:46:25,200

another boat because i said i got a little buzz\h
on the books at one stage another one in brazil\h\h

446

00:46:26,080 --> 00:46:32,960

and it just seems to be so many crash sites but\h
so little detail in the media or social media\h\h

447

00:46:33,520 --> 00:46:39,360

well i'd be i'd be keeping an eye out for james\h
fox our good friend and colleague james fox's\h\h

448

00:46:39,360 --> 00:46:46,640

forthcoming film um because he's been in brazil\h
and we know he's been investigating it's the how\h\h

449

00:46:46,640 --> 00:46:54,560

do you say it bryce i i think vargina i i mean\h
i you and i have probably screwed it up in more\h\h

450

00:46:55,120 --> 00:46:59,200

innovative ways than anyone i know\h
but uh let's go with vargina right now\h\h

451

00:46:59,920 --> 00:47:07,760

and um i got really fascinated with the um aztec\h
uh alleged crash uh with scott and susan ramsey uh\h\h

452

00:47:07,760 --> 00:47:14,240

in new mexico because that that's fascinating\h
and um i mean i think roswell has largely been um\h\h

453

00:47:14,240 --> 00:47:18,960

given a large degree of the prominence and\h
and largely because i think u.s air force\h\h

454

00:47:18,960 --> 00:47:23,280

did its own investigation and i mean i've\h
been no doubt whatsoever that there was a\h\h

455

00:47:23,280 --> 00:47:27,840

cover-up with roswell and that there probably was\h
something other than a weather balloon retrieved\h\h

456

00:47:27,840 --> 00:47:33,600

but just exactly what that was is still to me\h
at least a formal mystery but yeah i mean there\h\h

457

00:47:33,600 --> 00:47:39,840

are there's a there's a cluster of alleged crashes\h
including as i've recently discovered a couple of\h\h

458

00:47:39,840 --> 00:47:43,040

alleged incidents in australia that\h
i'm investigating at the moment\h\h

459

00:47:44,720 --> 00:47:49,760

karen i'd be interested in your your since\h
you've you seem to have dialed in on the\h\h

460

00:47:49,760 --> 00:47:57,680

crash issue my question for you is the question\h
that we get asked a lot people say well if these\h\h

461

00:47:57,680 --> 00:48:02,880

aliens or whoever they are are so smart and so
technically proficient why are they building

462
00:48:02,880 --> 00:48:07,920
things that are crashing what's your take on that
what's your answer when when friends ask you that

463
00:48:08,720 --> 00:48:12,640
well i have never actually even asked that but
yeah but it's an interesting question i mean

464
00:48:13,280 --> 00:48:17,600
if i go back to roswell i've no idea how
or why they would have crashed i've just

465
00:48:17,600 --> 00:48:24,160
i've no take on it to be honest with you
i really don't um and the fact that if

466
00:48:24,720 --> 00:48:30,640
you know just to go off sorry just off
subject but when you talk about um say the

467
00:48:31,440 --> 00:48:38,720
the nimitz the tic tac um ufos where um i can't
remember the name of the guy that was on twitter

468
00:48:41,040 --> 00:48:46,160
he was saying that they were there a long time
okay yeah how are they there a long time like how

469
00:48:46,160 --> 00:48:52,320
are they fueled to be here so such a long time
like he said they could be there like decades

470
00:48:52,320 --> 00:48:56,800
so how are they being fueled and if there's
something inside them how are they surviving that

471
00:48:56,800 --> 00:49:05,120

that'd be my sort of my thinking your your answer\h
to the question is more questions because i know\h\h

472

00:49:05,120 --> 00:49:09,120

i know but i think they're crazy it's hard to\h
know how they're crashing you know it could\h\h

473

00:49:09,120 --> 00:49:14,960

be atmospheric it could be it could be anything\h
to be honest with you related you have a theory

474

00:49:19,760 --> 00:49:24,880

apparently it's element 115 that is that is\h
you know the means of fuel to propose these\h\h

475

00:49:24,880 --> 00:49:30,960

things into negative gravity at 180 degrees but\h
i don't know maybe maybe these guys want us to\h\h

476

00:49:30,960 --> 00:49:35,680

leave us a bit of technology to to work on and\h
it's like there you go it's like what did they\h\h

477

00:49:35,680 --> 00:49:43,360

say what did bob lazar say it's like dropping\h
a uh i don't know a ferrari in in the 1800s and\h\h

478

00:49:43,360 --> 00:49:47,200

saying there you go there's the keys have a go\h
and see if you can work it out yeah but that's\h\h

479

00:49:47,200 --> 00:49:50,960

what it is maybe it's a process of evolution\h
but i have one question for bryce actually\h\h

480

00:49:51,920 --> 00:49:59,840

if you don't mind no please bryce are you familiar\h
with the memo of davis wilson memo yes oh yeah\h\h

481

00:49:59,840 --> 00:50:04,960

so i i for you can you can correct me from\h
wrong but i i believe it was was it wilson\h\h

482

00:50:04,960 --> 00:50:11,280

that mentioned that abductions were just a farce\h
and i don't know but i'm interested in on because\h\h

483

00:50:11,280 --> 00:50:16,560

i know you've done extensive research on on\h
barney yeah burning hills abduction and betty\h\h

484

00:50:17,760 --> 00:50:22,880

what what is your take on that do you think these\h
abductions are real and what for what reason well\h\h

485

00:50:22,880 --> 00:50:29,760

i think i think you have to say that well first\h
of all you have to define real um they're real\h\h

486

00:50:29,760 --> 00:50:37,600

in that some something has happened to somebody\h
that they're reporting in in that way okay so\h\h

487

00:50:39,120 --> 00:50:44,880

on betty and barney specifically it seems pretty\h
clear just from listening to them describe it\h\h

488

00:50:44,880 --> 00:50:49,360

and and what they went through in the immediate\h
aftermath that that night they did see something\h\h

489

00:50:49,360 --> 00:50:55,120

that was pretty extraordinary all right and i'm\h
well now where it came from what it was who knows\h\h

490

00:50:55,120 --> 00:50:59,520

then you get into level two with betty and\h
barney which is the stuff that they said\h\h

491

00:50:59,520 --> 00:51:04,400

uh under hypnosis and you know there's
is division of opinion and certainly

492
00:51:05,120 --> 00:51:11,520
this story they tell is not you know uh consistent
with everything that every other abductee has ever

493
00:51:11,520 --> 00:51:19,120
said um i think abductions are the hardest part of
this thing right now to be honest with you rob we

494
00:51:19,120 --> 00:51:25,600
we have no consensus yet on whether there's
even craft so the idea of abductions but um

495
00:51:26,720 --> 00:51:32,400
if abductions are in fact an authentic
thing that would explain a great amount of

496
00:51:32,400 --> 00:51:37,440
why people are so cautious about wanting
to disclose what's really going on because

497
00:51:37,440 --> 00:51:43,280
uh if abductions are going on in some way
shape or form and the governments of the world

498
00:51:43,280 --> 00:51:49,840
can't stop them well that's not something they
probably want to talk about um i mean i i i

499
00:51:50,960 --> 00:51:57,840
i if i had to bet and ross and i may even disagree
on this i don't i don't know where he comes down

500
00:51:57,840 --> 00:52:04,080
if i had to bet i'd say the betty and
barney case is an authentic case um however

501
00:52:04,800 --> 00:52:10,640

i'm able as a skeptic to come up with alternate uh explanations for betty and barney and i'll uh

502

00:52:10,640 --> 00:52:16,480

just give you one and move on but one of them is they were on vacation in montreal uh

503

00:52:16,480 --> 00:52:22,880

uh on their honeymoon and montreal in 1961 when betty and barney were there was the home of mk uh

504

00:52:22,880 --> 00:52:30,000

ultra the military's mind control program i'm not saying that i know any direct connection but uh

505

00:52:30,000 --> 00:52:36,960

there it is that's a possibility and and if you're trying to pick people uh to experiment on uh who uh

506

00:52:36,960 --> 00:52:42,960

won't go running to the press uh an interracial couple in america in 1961 would be a pretty good uh

507

00:52:42,960 --> 00:52:48,720

couple to pick on so no matter how i come down on that one yeah i agree and i like the fact that uh

508

00:52:48,720 --> 00:52:54,720

you mentioned that they experienced something yeah and i think well i mean it's really i mean uh

509

00:52:54,720 --> 00:53:02,080

to listen to the hypnosis tapes is extraordinary and and powerful but again it was after the fact uh

510

00:53:02,080 --> 00:53:08,240

betty had been having dreams she obviously wanted to believe barney didn't want to believe um you uh

511

00:53:08,240 --> 00:53:14,640

know i'm not saying that married couples can't
transfer impressions about what they think about

512

00:53:14,640 --> 00:53:20,400

things to each other obviously they can i mean at
least i'm married i my wife transfers a lot to me

513

00:53:22,240 --> 00:53:28,400

so i mean who knows i mean uh but but i look
forward to a disclosure environment in the next

514

00:53:28,400 --> 00:53:34,640

few years that takes on the the sort of the
military and the national security and the things

515

00:53:34,640 --> 00:53:41,520

flying in the sky aspect and as disclosure goes
on there are documents that we have not seen there

516

00:53:41,520 --> 00:53:46,320

may be a betty and barney hill document hidden
away someplace that may explain all this someday

517

00:53:46,320 --> 00:53:54,000

can i ask one question yeah for both of
you yeah i'm karen do you think 2023 it's

518

00:53:54,000 --> 00:53:58,480

a two-part question do you think 2023 is going to
be the year for disclosure and if so are we ready

519

00:54:00,720 --> 00:54:06,800

russ you go um i do think that there are
going to be major revelations even before 2023

520

00:54:08,240 --> 00:54:13,840

i think there is i've just come back from the us
and i think there is a momentum in the us congress

521

00:54:13,840 --> 00:54:22,320

where i'm super impressed by the resolution of
key figures in the congress and the senate and the

522

00:54:22,320 --> 00:54:29,840

house of reps to basically get this issue brought
before committees at least in private hearing

523

00:54:30,560 --> 00:54:39,840

where witnesses are deposed and i'm aware of moves
to get key witnesses before the congress i know

524

00:54:39,840 --> 00:54:45,120

just recently of course kevin day has flagged
that he's about to be called to come before

525

00:54:45,120 --> 00:54:51,680

i think the senate armed services committee
but i'm aware also of other key people none

526

00:54:51,680 --> 00:54:57,760

of whom anyone knows the names of who are being
approached to give evidence about things that i

527

00:54:57,760 --> 00:55:03,440

think if they are given an opportunity to testify
even if it's in a preliminary private hearing

528

00:55:04,400 --> 00:55:11,200

will be momentous and um uh i i can't guarantee
that it'll happen in 2022 but i suspect it will

529

00:55:11,200 --> 00:55:18,000

definitely happen in 2023. part of the issue
frankly is that there's been so much time

530

00:55:18,000 --> 00:55:23,680

and resources dedicated to the sixth january
hearings about the insurrection against the

531

00:55:23,680 --> 00:55:30,080

congress that um it's been very hard to to get the media to focus on anything else but i i think

532

00:55:30,080 --> 00:55:35,040

also frankly speaking of somebody who works in the mainstream media i i think also that what

533

00:55:35,040 --> 00:55:42,640

you might see in 2023 is the beginning of the begrudging acknowledgement by the mainstream

534

00:55:42,640 --> 00:55:47,840

media the legacy media that they have completely failed to cover this issue properly up till now

535

00:55:48,560 --> 00:55:53,760

and you're going to see an engagement like this never before especially because the congress will

536

00:55:53,760 --> 00:55:58,960

leak if there are private hearings where witnesses are deposed and we know that there already have

537

00:55:58,960 --> 00:56:03,920

been i i think that eventually that evidence is going to make its way to the national security and

538

00:56:03,920 --> 00:56:10,080

defense reporters in washington in new york in l.a and eventually it'll start getting written about

539

00:56:11,360 --> 00:56:19,360

okay yeah um well you're a lucky man uh rob because uh you've caught me on my second beer

540

00:56:19,360 --> 00:56:25,600

and um i'm i'm probably more willing to be a little here's the thing uh you know i wrote a book

541

00:56:27,520 --> 00:56:33,440

to you my friend even if it's a bud light\h
you know i wrote a book with richard dolan\h\h

542

00:56:33,440 --> 00:56:40,240
about disclosure all right that's right um so i\h
would define big d disclosure as when somebody\h\h

543

00:56:40,240 --> 00:56:46,000
official says something that comes steps up to the\h
line of we're not alone i don't care if it's the\h\h

544

00:56:46,000 --> 00:56:51,840
pope or the president or the prime minister\h
right when somebody official is willing to\h\h

545

00:56:51,840 --> 00:56:57,840
say that out loud that's big d disclosure for\h
me we're clearly in a period of confirmation\h\h

546

00:56:57,840 --> 00:57:05,840
sliding into small d disclosure right now i think\h
we're going to have the twilight period of 2023\h\h

547

00:57:05,840 --> 00:57:14,480
2024 of this small d um an accretion of of things\h
like ross bringing up the calvin thing every day\h\h

548

00:57:14,480 --> 00:57:20,240
every month there's going to be something new and\h
and people that are wired into it as you are and\h\h

549

00:57:20,240 --> 00:57:25,280
probably people who are watching this are going\h
to feel like disclosure has happened but the rest\h\h

550

00:57:25,280 --> 00:57:30,720
of the population will not share this opinion\h
i i think the presidential election is a pretty\h\h

551

00:57:30,720 --> 00:57:37,360

big deal and so therefore um i i think it may\h
come up in presidential debates as a question\h\h

552

00:57:37,360 --> 00:57:44,960

uh which would be groundbreaking um but i think\h
2025 is when i feel like big d disclosure may be\h\h

553

00:57:44,960 --> 00:57:52,160

sort of in in the works um and and and i and but\h
you but i think the second part of your question\h\h

554

00:57:52,160 --> 00:57:58,240

is the interesting one can we handle it and and\h
rich dolan and i spent an entire year thinking\h\h

555

00:57:58,240 --> 00:58:03,920

about that and more people are talking about it\h
now than ever before and and i guess the only\h\h

556

00:58:03,920 --> 00:58:09,360

good answer is what ross and i came up with uh i\h
think just last week on our episode it's like can\h\h

557

00:58:09,360 --> 00:58:15,200

they handle it well i don't know but they're going\h
to have to i mean you know where it's it's coming\h\h

558

00:58:15,200 --> 00:58:20,640

some something is coming and we're we haven't\h
yet figured out exactly how we'll handle it and\h\h

559

00:58:20,640 --> 00:58:27,360

partly the reason is it depends on what disclosure\h
is if you just disclose to me that some friendly\h\h

560

00:58:27,360 --> 00:58:34,160

alien scientists are buzzing around in the skies\h
and and taking some samples of flora and fauna\h\h

561

00:58:34,160 --> 00:58:39,920

i think people would be okay i'm on with my life\h
but if you disclose what your previous question\h\h

562

00:58:39,920 --> 00:58:46,080

was which is human beings have been abducted and\h
experimented on and the government can't do a\h\h

563

00:58:46,080 --> 00:58:54,320

thing about that well that's different as they\h
say so i i but i do think we are in a radical\h\h

564

00:58:54,320 --> 00:59:02,000

uh changing time and and uh if we were to do this\h
thing again in two years it'd be pretty shocking\h\h

565

00:59:02,560 --> 00:59:06,400

can i just add something to that i i think\h
in in light of the culture that we're we're\h\h

566

00:59:06,400 --> 00:59:11,680

living in at the moment the world is smaller\h
we're more materialistic and you know at the\h\h

567

00:59:11,680 --> 00:59:16,400

end of the day i think how we're at comes\h
down to how much is this going to affect us\h\h

568

00:59:16,960 --> 00:59:24,240

you how are you going to react exactly how\h
would your family react are you married yes

569

00:59:26,320 --> 00:59:32,000

she she was down to rabbit hole on this for\h
years and she said to me i i told her everything\h\h

570

00:59:32,000 --> 00:59:35,600

about the nimitz and all the scientific\h
stuff she goes yes so what so what\h\h

571

00:59:35,600 --> 00:59:37,840

is it affecting me no i still have to pay my bills

572

00:59:40,240 --> 00:59:47,200

it's a good answer i think that's uh listen guys\h
this has been uh super fun and uh probably the\h\h

573

00:59:47,200 --> 00:59:52,400

first of others that we'll do and i'll\h
even pick a different beer next time um\h\h

574

00:59:52,400 --> 00:59:55,920

but i didn't want to pick the most\h
popular i thought that was that was a good\h\h

575

00:59:55,920 --> 01:00:00,720

good thing that the aliens might not be\h
not bad and and listen uh uh ross and i\h\h

576

01:00:00,720 --> 01:00:06,160

want to thank rob sheridan and karen corcoran\h
because this was this was really fun and um and\h\h

577

01:00:06,880 --> 01:00:12,560

you know uh obviously we want to thank you rob\h
because you were the guy that actually said\h\h

578

01:00:12,560 --> 01:00:20,480

i'm gonna actually try to to do what this silly\h
contest was all about i'm drinking to you let's\h\h
