

1

00:00:06,160 --> 00:00:13,840

i have to tell you i've been uh looking\h
into this topic for three decades now and\h\h

2

00:00:13,840 --> 00:00:20,560

this makes me a little emotional this one\h
because uh when i read the uh the language\h\h

3

00:00:21,200 --> 00:00:28,000

and i here's the thing for three decades uh i've\h
heard about a lot of these concepts of course\h\h

4

00:00:28,560 --> 00:00:33,680

people talk about them but we kept saying you\h
know things to ourselves it was like talking\h\h

5

00:00:33,680 --> 00:00:40,560

amongst yourselves and and the government was\h
silent and official them in the media was silent\h\h

6

00:00:40,560 --> 00:00:46,640

and now in this language this language addresses\h
some of the very things that we were saying\h\h

7

00:00:46,640 --> 00:00:51,760

in private that are now being said out loud\h
things like you just said technology going to\h\h

8

00:00:51,760 --> 00:00:56,560

private aerospace firms i mean people have been\h
saying that for years but nobody's ever put it in\h\h

9

00:00:56,560 --> 00:01:03,280

writing from the u.s government and talking\h
about crashes and technology and biological\h\h

10

00:01:04,080 --> 00:01:10,800

uh effects and and then witnesses\h
with immunity and whistleblowers and\h\h

11

00:01:11,440 --> 00:01:19,200

it's just a wonderful moment in the history\h
of where this whole thing may be going\h\h

12

00:01:19,200 --> 00:01:25,200

and and i you know like i said i i'm not going to\h
break down and cry right now but i will if they\h\h
