

OUTTAKES

NEED TO KNOW:

THE UFO PHENOMENON

1
00:00:00,660 --> 00:00:09,900

thank you

2
00:00:15,360 --> 00:00:20,760

so Bryce it's been a very interesting few weeks\h
here in the United States so I've since I spoke\h\h

3
00:00:20,760 --> 00:00:27,600

to you well you've been on the last cold part\h
of America Tour summer 22 and I I can say that\h\h

4
00:00:27,600 --> 00:00:32,400

you've been to some very interesting places I've\h
been actually working on a screenplay I've been\h\h

5
00:00:32,400 --> 00:00:37,740

hired to write about how the world will change\h
after we all understand that we're not alone \h\h

6
00:00:37,740 --> 00:00:42,120

have to tell you it sure seems like reality\h
is catching up with my fiction at this point\h\h

7
00:00:42,120 --> 00:00:47,160

you're not wrong I mean I had the most incredible\h
conversation with Professor Gary Nolan yesterday\h\h

8
00:00:47,160 --> 00:00:53,820

at Stanford University and he told me how he\h
is absolutely certain that there is an alien\h\h

9
00:00:53,820 --> 00:00:59,460

presence on planet Earth I mean you can't be more\h
definitive than that and and he also said to me\h\h

10
00:00:59,460 --> 00:01:03,780

categorically that he thinks that the United\h
States government is involved in a cover-up\h\h

11

00:01:03,780 --> 00:01:09,600

well breathtaking as as you've said from the
beginning you've always known about the cover-up

12

00:01:09,600 --> 00:01:13,980

I think I felt the same way the question has
been exactly what are they covering up but

13

00:01:13,980 --> 00:01:18,780

think that the the world is starting to see that
because while you were in DC uh interviewing

14

00:01:18,780 --> 00:01:23,520

Timber Chet which I think was a fascinating
interview and I'm I'm really glad that you got it

15

00:01:24,240 --> 00:01:30,360

um the Senate side of Congress has really made
a lot of waves while you've been running around

16

00:01:30,360 --> 00:01:35,700

I mean it's unbelievable this law I mean to
be able to speak to the Congress people and

17

00:01:35,700 --> 00:01:40,440

and Senators it was just breathtaking to hear
what they're doing the proposed legislation

18

00:01:40,440 --> 00:01:47,280

is mind-blowing in its implications it's it's
potentially going it's going right back to 1947.

19

00:01:47,280 --> 00:01:53,820

well exactly I mean this is the Senate Intel
committee uh which has basically uh criticized

20

00:01:53,820 --> 00:02:00,120

the Pentagon and says that for what they've done
or not done about investigating the phenomena and

21

00:02:00,120 --> 00:02:05,580

has literally said that UFOs are exponentially
increasing while making clear that its new office

22

00:02:05,580 --> 00:02:12,300

is not going to be investigating quote man-made
objects which leaves the big question what exactly

23

00:02:12,300 --> 00:02:17,460

will it be investigating and that that is uh
pretty fascinating the other thing that that

24

00:02:18,180 --> 00:02:22,380

um language see this is the language that
came literally from Senator Mark Warner

25

00:02:22,380 --> 00:02:27,180

who is the head of the committee trying to
explain everything and it just lays out so

26

00:02:27,180 --> 00:02:33,720

many incredible things among them um there is
language about immunity for Witnesses uh it

27

00:02:33,720 --> 00:02:39,240

does ask them to go back to 1947 which you and
I have talked about at length on this podcast

28

00:02:40,380 --> 00:02:45,600

um it says there's a new guy in charge of the
committee it says the committee has a new name

29

00:02:45,600 --> 00:02:50,520

it's the man-made thing we were were talking
about and then there's a few little nuggets in

30

00:02:50,520 --> 00:02:55,920

there Ross that just kind of blow the Mind where
they say they want the investigation to focus on

31

00:02:55,920 --> 00:03:03,780

quote technology surprise and quote unknown\h
unknowns absolutely it can be more clear and\h\h

32

00:03:03,780 --> 00:03:09,180

what I understand is that this has come about\h
because of the classified briefings that have\h\h

33

00:03:09,180 --> 00:03:15,180

already been given to politicians in the Congress\h
and their starters there's something that they've\h\h

34

00:03:15,180 --> 00:03:20,700

seen there's evidence that they've been shown that\h
they're still not allowed to talk about which has\h\h

35

00:03:20,700 --> 00:03:28,440

completely transformed the attitude of politicians\h
I I was really struck by not only just by talking\h\h

36

00:03:28,440 --> 00:03:33,660

to Tim burchett but really struck by talking to\h
people in and around the Congress there's been\h\h

37

00:03:33,660 --> 00:03:40,500

a real change of mood there's an impatience and\h
indeed an anger with the Pentagon and defense and\h\h

38

00:03:40,500 --> 00:03:45,360

intelligence Community because they've basically\h
been dragging the chain they've been too slow\h\h

39

00:03:45,360 --> 00:03:51,660

to respond to the laws that were passed by the\h
Congress in the defense Appropriations late last\h\h

40

00:03:51,660 --> 00:03:56,700

year and frankly they just haven't done their job\h
they haven't responded to what the Congress asked\h\h

41

00:03:56,700 --> 00:04:02,760

and so now they're being hit with this proposed
new legislation which is like a sledgehammer

42

00:04:02,760 --> 00:04:07,980

it's it's quite breathtaking see what they're
proposing you've you've started by talking about

43

00:04:07,980 --> 00:04:14,100

the the sense of a cover-up well for years and
years Congress was part of that cover-up refusing

44

00:04:14,100 --> 00:04:21,000

to have hearings and and poo pooing anybody who
ever stated they had an open mind on the issue

45

00:04:21,000 --> 00:04:26,040

and that all seems to have changed or at least it
has changed among the people in Congress who have

46

00:04:26,040 --> 00:04:31,860

had those briefings and I agree with you uh from
taking a look at the language in this explanatory

47

00:04:31,860 --> 00:04:37,800

report you see people that are pretty irritated
and they're they want some more answers and why

48

00:04:37,800 --> 00:04:42,780

would they want them well not based on the public
hearings that you and I have seen but clearly

49

00:04:42,780 --> 00:04:48,300

these people have gotten the classified hearings
and they have seen and heard and been told things

50

00:04:48,300 --> 00:04:54,480

that have made them impatient to the maximum
and more than a little pissed off that they're

51

00:04:54,480 --> 00:05:01,080

not getting from the Department of Defense what they need in order to basically keep keep things

52

00:05:01,080 --> 00:05:07,020

safe this is all about uh safety of flight and things like that they're they're worried about

53

00:05:07,020 --> 00:05:13,800

National Security and there's also a spit in the eye there for the notion that was pushed

54

00:05:13,800 --> 00:05:19,740

by the two intelligence officials on May 17 and the public hearings in Congress to the idea that

55

00:05:19,740 --> 00:05:26,460

this could plausibly be explained completely as drones I noticed that the um the the terminology

56

00:05:26,460 --> 00:05:33,600

and the proposed new legislation it refers to non-man-made objects as being the focus of the

57

00:05:33,600 --> 00:05:39,540

investigation which is a specific rebuttal to the idea that this might be able to be explained away

58

00:05:39,540 --> 00:05:47,580

as drones that to me is quite extraordinary it is extraordinary and let's face it if you start

59

00:05:47,580 --> 00:05:54,960

breaking out non-man-made objects in language that is coming from a U.S Senate intelligence committee

60

00:05:55,680 --> 00:06:01,200

that raises questions I just don't think there's any way that there's a way to look at this and say

61

00:06:01,200 --> 00:06:06,480

we ought not to be taking this so seriously folks\h
don't worry about it nothing to see here clearly\h\h

62

00:06:06,480 --> 00:06:11,340

there is something to see here I wanted to though\h
be because I know you've been traveling and I've\h\h

63

00:06:11,340 --> 00:06:15,840

been you know while I've been chained to my desk\h
and and uh following all this I know that you've\h\h

64

00:06:15,840 --> 00:06:20,700

been talking to some very interesting people I\h
wanted to ask you most about burchett Burchette\h\h

65

00:06:20,700 --> 00:06:26,460

seems to me to be the most outspoken person\h
in Congress and yet he is not necessarily the\h\h

66

00:06:26,460 --> 00:06:31,500

most influential he's on the house side of things\h
the action seems to be going on in the Senate is\h\h

67

00:06:31,500 --> 00:06:40,800

that is that your read as well four words Bryce\h
it's a cover-up nicely done nicely said it is\h\h

68

00:06:40,800 --> 00:06:47,400

a cover-up uh but it doesn't seem like Burchette\h
has the um it doesn't have the positioning right\h\h

69

00:06:47,400 --> 00:06:52,440

now to make the changes that some of the people\h
in the Senate are saying he he doesn't but he's\h\h

70

00:06:52,440 --> 00:06:59,040

a vote and the interest is he's very close to\h
senior Republicans and what I thought was the\h\h

71

00:06:59,040 --> 00:07:03,000

case was that was this was just coming from the Democrat side but it's really interesting there

72

00:07:03,000 --> 00:07:09,600

is a rump of Republicans Marco Rubio is one of them who are very determined to get answers on

73

00:07:09,600 --> 00:07:14,280

this and frankly the reason why they're determined is because they can see votes in it you know they

74

00:07:14,280 --> 00:07:19,200

know the American public feel that they've been snowed they've had the wall pulled over their

75

00:07:19,200 --> 00:07:25,140

eyes and I think they've realized too that there's been deliberate misinformation to

76

00:07:25,140 --> 00:07:30,060

the Congress uh when you when you're presented as they have been with these classified videos

77

00:07:30,060 --> 00:07:37,080

that show things that are far beyond known human technology and frankly it can't be explained by

78

00:07:37,080 --> 00:07:41,760

it at foreign adversary technology or some secret corporate technology here in America

79

00:07:42,960 --> 00:07:49,200

what's the alternative and the the interesting thing is the alternative is alien the alternative

80

00:07:49,200 --> 00:07:54,900

is that this is a non-human intelligence and that's where Professor Gary Nolan really rocked my

81

00:07:54,900 --> 00:08:00,720

boat he he basically said yes he thinks there is\h
a non-human intelligence operating on this planet\h\h

82

00:08:00,720 --> 00:08:06,960

and he thinks it's only a matter of time before\h
the U.S government admits that so it's not like\h\h

83

00:08:06,960 --> 00:08:12,360

we've been looking out there for the answer to\h
are we alone but the answer May really be down\h\h

84

00:08:12,360 --> 00:08:17,520

here where we are you know you used four words\h
just a couple of minutes ago I got two words for\h\h

85

00:08:17,520 --> 00:08:23,820

you but it may only be one word and that's how\h
I look at Washington DC on the UAP UFO issue and\h\h

86

00:08:23,820 --> 00:08:31,080

that is bipartisan so I don't know one word too\h
not sure but bipartisan seems to be what's going\h\h

87

00:08:31,080 --> 00:08:37,380

on on this issue and isn't it fascinating at a\h
time when the United States of America could not\h\h

88

00:08:37,380 --> 00:08:42,900

be more evenly divided I mean if you took the\h
country and just cut it in half you'd had half\h\h

89

00:08:42,900 --> 00:08:49,680

red half blue but on this issue this incredible\h
issue of whether we are alone in the universe\h\h

90

00:08:49,680 --> 00:08:56,340

and whether there is an alien intelligence here\h
on Earth interfering with us right now there is\h\h

91

00:08:56,340 --> 00:09:02,520

bipartisan agreement coming out of the Senate and
that house that it is time to get these answers

92

00:09:02,520 --> 00:09:08,520

before the American people it's a very very
exciting but also important time to be alive

93

00:09:08,520 --> 00:09:13,260

now let's talk about Jim Malin because I haven't
got much time I've got to go something else but

94

00:09:13,860 --> 00:09:21,720

um Jim's the guy from Texas who has a bull in
his possession a steel sphere of some kind and

95

00:09:21,720 --> 00:09:27,480

he thinks I'm not saying it is but he thinks
it's alien technology you know I saw that Ross

96

00:09:27,480 --> 00:09:32,400

and I have to tell you I mean you and I both
start uh from a skeptical point of view about

97

00:09:32,400 --> 00:09:37,500

specifics on the big picture I think we agree
there is a cover-up and and somebody's covering

98

00:09:37,500 --> 00:09:42,420

up something on this on the specific picture
when you go to Marlin's case it's sort of like

99

00:09:42,420 --> 00:09:47,280

you gotta say they show me just show me the money
on this one and I think that that's exactly what

100

00:09:47,280 --> 00:09:54,780

you're doing I think that's what Gary Nolan is
all about as well and I think we are going to

101

00:09:54,780 --> 00:10:01,020

realize something that is uh I think we have to
deal with and that is there was a quote from a

102

00:10:01,020 --> 00:10:06,360

physicist at the turn of the last century and he
said the universe is not only stranger than we

103

00:10:06,360 --> 00:10:12,480

imagined it is stranger than we can imagine so
if there are little alien balls running around

104

00:10:12,480 --> 00:10:18,840

Texas and in people's homes being picked up by the
government and deactivated or whatever is going on

105

00:10:18,840 --> 00:10:24,660

yeah it's strange but it's not Stranger Than I
can imagine I can imagine even stranger and I

106

00:10:24,660 --> 00:10:29,820

bet that's what the answers are well the good
news mate is that Professor Nolan an eminent

107

00:10:29,820 --> 00:10:34,260

immunologist and an eminent scientist in his own
right he's actually a Nobel nominee by the way

108

00:10:35,280 --> 00:10:41,160

um he is prepared to investigate and uh he's
told us that he'll get his staff to do Mass

109

00:10:41,160 --> 00:10:46,440

spectrometer testing on the scrapings that we've
taken off the side of the sphere and hopefully

110

00:10:46,440 --> 00:10:52,920

eventually we'll be able to get a scan done of
the object to see inside it and as as Jim said

111

00:10:52,920 --> 00:10:57,780

to me he said he'd be happier than everyone else\h
to know just definitively whether it is or it\h\h

112

00:10:57,780 --> 00:11:02,880

isn't because I think that's he's probably been\h
waiting many years for that look I know we're\h\h

113

00:11:02,880 --> 00:11:07,980

running out of time so I just wanted to drive us\h
to the end of this thing you and I started on a\h\h

114

00:11:07,980 --> 00:11:13,500

journey we got in my car we drove up the coast\h
we talked to people we've broken some stories\h\h

115

00:11:13,500 --> 00:11:18,780

you've gone off on your own I've done some\h
investigation on my own it's been a process\h\h

116

00:11:18,780 --> 00:11:25,140

that we have both been involved in and uh it's\h
been a fascinating one my question is is there\h\h

117

00:11:25,140 --> 00:11:30,600

any takeaway for the both of us to what we've\h
been through over the last month there is for me\h\h

118

00:11:31,320 --> 00:11:38,880

I detect a significant change of mood from the\h
leaders on the side of the people pushing for\h\h

119

00:11:38,880 --> 00:11:42,960

transparency they're more optimistic than I've\h
seen before that they're going to get results\h\h

120

00:11:42,960 --> 00:11:48,780

that there really is as you say a bipartisan\h
willingness in the Congress to get to the truth\h\h

121

00:11:49,620 --> 00:11:57,960

and I see a confidence from my off the Record\h
sources and my on record sources that there\h\h

122

00:11:57,960 --> 00:12:03,060

are going to be whistleblowers coming before\h
the Congress very soon certainly in private\h\h

123

00:12:03,060 --> 00:12:11,280

hearings giving evidence of what I'm told\h
are quote Legacy UFO programs end quote\h\h

124

00:12:13,260 --> 00:12:19,140

it's amazing listen here's my takeaway um while\h
you've been doing the last leg of this journey and\h\h

125

00:12:19,140 --> 00:12:23,940

and doing such a fine job with it as I said I've\h
been locked in a struggle with the script about\h\h

126

00:12:23,940 --> 00:12:30,240

how the world will change after we acknowledge\h
that we're not alone and I have to tell you\h\h

127

00:12:30,240 --> 00:12:36,600

um for years people have assumed that the world\h
will just completely freak out and fall apart\h\h

128

00:12:36,600 --> 00:12:42,780

when that day comes and so I've had to try to get\h
my own head wrapped around what you and I have\h\h

129

00:12:42,780 --> 00:12:48,780

been talking about when it's a widely accepted\h
thing how are people going to take it I used to\h\h

130

00:12:48,780 --> 00:12:53,220

be a little more pessimistic I used to believe\h
well it's going to come out of left field and\h\h

131

00:12:53,220 --> 00:12:58,380

people are going to completely freak out now I\h
feel a little less like that I think that if if\h\h

132

00:12:58,380 --> 00:13:03,660

I don't know whether it was by Design or not but\h
the the idea that we're not alone and that that\h\h

133

00:13:03,660 --> 00:13:09,120

some intelligence is here now has been coming\h
out by dribs and drabs and is the spigot has\h\h

134

00:13:09,120 --> 00:13:13,980

been opened up a little bit of of recent time and\h
I think people are kind of ready for it now I'm\h\h

135

00:13:13,980 --> 00:13:18,840

not going to say that people aren't going to run\h
to the nearest Costco and Order toilet paper when\h\h

136

00:13:18,840 --> 00:13:24,780

when some announcement is made they probably will\h
but will we get through it will we be stronger as\h\h

137

00:13:24,780 --> 00:13:30,660

a species I think yes and I also think my final\h
takeaway from this is if the things that you and\h\h

138

00:13:30,660 --> 00:13:37,380

I I have been talking about are true and are\h
revealed to the world public I think we are in\h\h

139

00:13:37,380 --> 00:13:45,120

a time where they will accept it and it may be the\h
only thing out there that can bring these divisive\h\h

140

00:13:45,120 --> 00:13:50,160

parties together not only in the United States\h
but in your country and other countries around\h\h

141

00:13:50,160 --> 00:13:56,100

the world this may be the ultimate Hail Mary for
Humanity and I certainly hope it is I hope you're

142

00:13:56,100 --> 00:14:01,500

right too mate listen I've got a rush I'd like
to talk to you I'll briefly back in Australia

143

00:14:01,500 --> 00:14:08,160

looking forward to it talk to you later we need
to know Bryce we do need to know mate that was
