

Ukraine

April 2022

1

00:00:00,420 --> 00:00:06,180

hello listeners I'm John Chapman and I listen to\h
need to know and I'm going to tell you my story\h\h

2

00:00:06,960 --> 00:00:11,100

about my time in Ukraine and what I saw stay tuned

3

00:00:19,260 --> 00:00:26,040

this is need to know real talk about the\h
reality of unidentified aerial phenomena\h\h

4

00:00:27,540 --> 00:00:32,700

from Australia Ross Colt\h
art from the U.S Bryce zabel

5

00:00:34,740 --> 00:00:41,700

hello and welcome to need to know my name is Ross\h
coulthart from Down Under in a small town near\h\h

6

00:00:41,700 --> 00:00:48,840

Sydney Australia and in Los Angeles my co-host and\h
good buddy Bryce zabel Bryce you're just back from\h\h

7

00:00:48,840 --> 00:00:54,480

a holiday in Italy I hear well I my family had\h
some friends who had a daughter getting married\h\h

8

00:00:54,480 --> 00:00:59,280

and we used that as an opportunity to go to\h
Sorrento and and I was brave enough to drive\h\h

9

00:00:59,280 --> 00:01:04,560

the Amalfi Coast and I survived so I'm feeling\h
pretty good about that feeling confident did you\h\h

10

00:01:04,560 --> 00:01:09,540

see any retrieved flying saucers while you're over\h
there there's that great story about the Mussolini\h\h

11

00:01:09,540 --> 00:01:14,760

Flying Saucer that the Americans allegedly
retrieved during the end of the second world

12

00:01:14,760 --> 00:01:22,440

war well it's it's an interesting story I mean
first of all um it illustrates that if you look

13

00:01:22,440 --> 00:01:28,620

into any particular country you find all the UFO
lore for it so the Italian UFO lore includes uh

14

00:01:28,620 --> 00:01:36,480

that 1933 recovery supposedly of a crash Flying
Saucer Mussolini was in power and the guy he put

15

00:01:36,480 --> 00:01:43,440

in charge of looking into it was Marconi the radio
man so it it kind of an interesting story whether

16

00:01:43,440 --> 00:01:48,000

it was recovered or Not by the Americans after the
war I don't know but I thought there was one other

17

00:01:48,000 --> 00:01:54,960

really interesting story that comes out of Italy
apparently uh 68 years ago this month in October

18

00:01:54,960 --> 00:02:04,740

of 1954 there was a major soccer game being played
and a UFO like a cigar people described it like a

19

00:02:04,740 --> 00:02:10,260

Cuban cigar came over the soccer stadium all
plays stopped there were ten thousand people

20

00:02:10,260 --> 00:02:16,380

in the stadium and there's pictures from the time
and everyone's kind of looking up at the sky and

21

00:02:16,380 --> 00:02:23,760

to this day you know people refer to that incident\h
it happened in Milan and it was a demonstrably big\h\h

22

00:02:23,760 --> 00:02:30,660

deal and then the other final piece of the Italian\h
uh UFO puzzle is contemporary uh there's uh we all\h\h

23

00:02:30,660 --> 00:02:34,980

know the Vatican is an independent country\h
uh basically inside of Italy there there's\h\h

24

00:02:34,980 --> 00:02:40,980

another one called San Marino a little country\h
inside Italy that the United Nations is being\h\h

25

00:02:40,980 --> 00:02:48,660

petitioned to turn into the the sort of home of\h
the United Nations uh UFO UAP investigation so\h\h

26

00:02:48,660 --> 00:02:56,940

that's my Italy report uh for now so while you've\h
been swatting around the fine beaches of Sorrento\h\h

27

00:02:56,940 --> 00:03:03,060

and the Mafi Coast the rest of us have been doing\h
some work mate and in the segments following we've\h\h

28

00:03:03,060 --> 00:03:11,340

got quite dramatic Revelations from the war in\h
Ukraine we have a former British soldier who is\h\h

29

00:03:11,340 --> 00:03:17,040

going to come on the program and he's not talking\h
about what it was that the Ukrainian astronomers\h\h

30

00:03:17,040 --> 00:03:24,900

saw he's talking about what he and his colleagues\h
saw in combat during a battle they looked up and\h\h

31

00:03:24,900 --> 00:03:31,560

they saw what they believe was something highly
anomalous more on that later but I thought we'd

32

00:03:31,560 --> 00:03:36,060

just catch up with the week's news because
there's been a lot happening and my favorite

33

00:03:36,060 --> 00:03:44,580

bit of news from the last few weeks Bryce is
the logo that is the um the aviation manager

34

00:03:44,580 --> 00:03:51,420

the National Intelligence manager for Aviation
for the office defense uh whatever it is odni

35

00:03:52,920 --> 00:03:58,620

National Intelligence intelligence yes and
um very very interestingly one minute they

36

00:03:58,620 --> 00:04:05,460

put a logo up with a brand new logo which has a
flying saucer in it a classic disc shaped Flying

37

00:04:05,460 --> 00:04:11,040

Saucer everybody gets excited the UFO Community
jumps up and down and says this is some sort of

38

00:04:11,040 --> 00:04:15,900

confirmation from an official intelligence
agency in the defense department and then

39

00:04:15,900 --> 00:04:23,640

just as mysteriously it gets taken down and
we are meant to believe that this logo with

40

00:04:23,640 --> 00:04:32,340

the dot mil URL was errantly posted which I think
is a flying ton of [] I just don't believe it

41

00:04:32,340 --> 00:04:37,260

it sure sounds like it I mean here's the thing\h
though uh this thing did happen happened while\h\h

42

00:04:37,260 --> 00:04:43,320

I was off uh running around Italy as you pointed\h
out but uh it was up for a while and it is a logo\h\h

43

00:04:43,320 --> 00:04:49,260

that it literally shows a part of North America\h
and a part of South America and you see three\h\h

44

00:04:49,260 --> 00:04:56,040

things flying over it one of them I believe\h
is a commercial Jed another is a a fighter\h\h

45

00:04:56,040 --> 00:05:03,540

jet but literally out in left field over the\h
ocean uh to the left is what looks like a UFO\h\h

46

00:05:04,440 --> 00:05:12,360

um and uh I mean it is a UFO it's it's a classic\h
UFO and uh you know their their argument was well\h\h

47

00:05:12,360 --> 00:05:17,100

we put it out by accident honestly I've had\h
enough experience and I'm sure you have too\h\h

48

00:05:17,100 --> 00:05:21,660

where those kind of things are something\h
like that coming out by accident would be\h\h

49

00:05:21,660 --> 00:05:29,160

very rare now on the other hand uh we certainly\h
know that logos over the years are often used\h\h

50

00:05:29,760 --> 00:05:35,940

and put some crazy stuff in them uh and so\h
you can't really say well that proves anything\h\h

51

00:05:35,940 --> 00:05:42,720

other than it's kind of it's kind of bogus it just\h
sounds bogus and and people reacted to it that way\h\h

52

00:05:43,620 --> 00:05:48,120

now bro I think you're catching up but you're\h
doing some work next week at the international UFO\h\h

53

00:05:48,120 --> 00:05:52,320

Congress do you want to tell us about that sure I\h
just want to give a shout out to our friends over\h\h

54

00:05:52,320 --> 00:06:00,420

at the iufoc which uh they they throw a yearly\h
uh conference and it's always been fantastic I've\h\h

55

00:06:00,420 --> 00:06:07,080

spoken there uh several times and uh they had to\h
go into pandemic hiding for a couple of years last\h\h

56

00:06:07,080 --> 00:06:12,000

year it was virtual this is a time where people\h
are coming back and there's some really great\h\h

57

00:06:12,000 --> 00:06:19,800

uh people speaking at it it goes from I believe\h
October 12th through the 17th um and I'm speaking\h\h

58

00:06:19,800 --> 00:06:25,620

on October 15th which is a Saturday so I encourage\h
anyone who's near Mesa Arizona who wants to come\h\h

59

00:06:25,620 --> 00:06:31,140

and talk a little need to know to show up and\h
we'll we'll do that uh my the topic of my speech\h\h

60

00:06:31,140 --> 00:06:37,080

is called um estimate of the situation something\h
we've used before and then the question is uh\h\h

61

00:06:37,080 --> 00:06:43,560

will 2023 be Sizzle or fizzle and you and I have
talked about that as well and I'm gonna I guess

62

00:06:43,560 --> 00:06:48,480

now I've set myself up for the standard I have
to take a position on it so I'll be doing that

63

00:06:49,320 --> 00:06:54,240

I said what are you going to say are you going to
say physical Sizzle well I think we made maybe we

64

00:06:54,240 --> 00:07:00,780

disagree on this I think there are sufficient
things in uh motion right now that I look at it

65

00:07:00,780 --> 00:07:07,380

as a Sizzle I think we're going to have a Sizzle
I just think there's too much uh going on but I've

66

00:07:07,380 --> 00:07:13,020

got some you know Nuance to that now I know you
think 2023 is going to be a very big year but at

67

00:07:13,020 --> 00:07:17,940

the same time you're taking the position you think
it might just fizzle out so how do you how do you

68

00:07:17,940 --> 00:07:24,960

square that Circle okay let me explain what I'm
hearing is there is a considerable walk back at

69

00:07:24,960 --> 00:07:30,960

the moment about making any admissions publicly
so I do think that the Congress in private

70

00:07:30,960 --> 00:07:35,700

session is going to hear from whistleblowers
I don't think there's much doubt about that

71

00:07:35,700 --> 00:07:42,180

because what we do know is that the National
Defense authorization act will probably be

72

00:07:42,180 --> 00:07:49,380

passed for 2023 by the end of December and if that
happens and if the UAP whistleblower provisions

73

00:07:49,380 --> 00:07:54,960

survived the scrutiny of both the house and
the Congress then you will have Provisions

74

00:07:54,960 --> 00:08:00,600

in place to protect people who I know are
wanting to come forward and Chris Mellon

75

00:08:00,600 --> 00:08:06,000

has said the same thing and so has Gary Nolan
who said that he's actually spoken he told me

76

00:08:06,000 --> 00:08:11,520

that he'd actually spoken to whistleblowers and
I've spoken to people who've been approached by

77

00:08:12,360 --> 00:08:18,060

individuals in various parts of government asking
them whether they would be willing to testify so

78

00:08:18,060 --> 00:08:25,620

I I do think there is a move on for Testimony to
happen the big question is will this leak and well

79

00:08:25,620 --> 00:08:33,480

yeah I think it will I think let's split uh this
uh let's split this one more time the sizzle part

80

00:08:33,480 --> 00:08:39,000

of it will probably go most effectively to behind
closed door hearings in Congress and will feel

81

00:08:39,000 --> 00:08:44,100

like it's a fizzle because we all might get the
public hearing that we want where some of those

82

00:08:44,100 --> 00:08:48,660

same people come forward I hope that's not the
case I hope there are authentic public hearings

83

00:08:48,660 --> 00:08:54,360

but I'll tell you one thing you mentioned that the
the National Defense authorization act uh which

84

00:08:54,360 --> 00:09:01,080

was passed last it's passed every year and by the
way it has passed 61 years in a row because this

85

00:09:01,080 --> 00:09:06,300

is sort of the Holy Grail you don't let National
Defense Fall by the wayside so it's expected that

86

00:09:06,300 --> 00:09:13,980

it will pass in December remember last year's
uh which was sort of the Rubio agenda brand and

87

00:09:13,980 --> 00:09:22,380

Gallegos Amendment really had some tough language
in it it demanded that yearly unclassified report

88

00:09:22,380 --> 00:09:28,860

that is due this year by October 31st well
this language this year is tougher in many many

89

00:09:28,860 --> 00:09:35,280

respects it's reorganizing things it's demanding
uh people look into the history of this from the

90

00:09:35,280 --> 00:09:41,100

intelligence point of view uh it's uh trying
to address people that have a problem with a

91

00:09:41,100 --> 00:09:51,180

non-disclosure statement that they've had to sign
so I think we're in for a time when at least there's

92

00:09:51,180 --> 00:09:55,740

are some people in Congress who if they don't get
their way are going to be pretty damn pissed about

93

00:09:55,740 --> 00:10:01,980

it and uh so I think things are happening and
also again as we've talked about several times

94

00:10:01,980 --> 00:10:09,420

on this show we're coming up on October 31st of
this month and that is the last possible moment

95

00:10:09,420 --> 00:10:15,180

this year's public report is supposed to be filed
help remember the last public report was on June

96

00:10:15,180 --> 00:10:23,280

25th of 2021 and uh it it kind of knocked some
people aside and said they're real uh we don't

97

00:10:23,280 --> 00:10:28,200

make them and China and Russia probably don't make
them so what the follow-up report will be I don't

98

00:10:28,200 --> 00:10:33,840

know but hold on it's coming and it's coming
eight days before a midterm election yeah we

99

00:10:33,840 --> 00:10:38,760

can butt hype and as you've I think previously
noted whatever happens in the elections we're

100

00:10:38,760 --> 00:10:44,220

going to get a pro-uap senator true yeah well
in Florida we certainly are uh you know with

101

00:10:44,220 --> 00:10:49,260

all the terrible news coming out of Florida about
their weather and everything there's still a very

102

00:10:49,260 --> 00:10:54,960

uh bitter uh campaign going on in Florida for the
senate seat that is currently held by Marco Rubio

103

00:10:54,960 --> 00:11:01,680

and he's being challenged by Democrat Val demings
now what's interesting about that is that Rubio as

104

00:11:01,680 --> 00:11:08,340

as we all know has been very outspoken on the UAP
issue uh go figure but he's been the one who with

105

00:11:08,340 --> 00:11:14,160

the Jilla brand uh reached across the aisle they
had a bipartisan meeting the Minds on last year's

106

00:11:14,160 --> 00:11:21,840

ndaa and he's been very uh open in discussing
his concerns about UAP and National Security in

107

00:11:21,840 --> 00:11:26,940

various interviews well Val demings is a former
prosecutor she was on one of the intelligence

108

00:11:26,940 --> 00:11:34,320

committees and her statements uh after the May
17th uh public hearing that was held in Congress

109

00:11:34,320 --> 00:11:40,680

were very strong she basically said look as a
prosecutor I'm all about protecting uh people

110

00:11:40,680 --> 00:11:48,240

I'm about safety for constituents and certainly
that is how I'm going to approach the UAP issue

111

00:11:48,240 --> 00:11:53,520

we want to know answers since there's obviously
an increasing amount of these reports and we want

112

00:11:53,520 --> 00:11:58,440

to know where they're coming from and what and
if they're a threat to us so I think either way

113

00:11:58,440 --> 00:12:04,980

Florida is going to get a senator that's going to
be big on this topic now while we're talking about

114

00:12:04,980 --> 00:12:09,240

what might happen in Congress and the potential
for public hearings one of the witnesses of

115

00:12:09,240 --> 00:12:14,880

course whom we've all speculated we'd love to
see put under oath and deposed is Admiral Tom

116

00:12:14,880 --> 00:12:21,120

Wilson and there's been a significant development
in the Wilson notes for the listeners and viewers

117

00:12:21,120 --> 00:12:27,660

who aren't familiar with this there is a story
about a leaked or a document that came from the

118

00:12:27,660 --> 00:12:33,720

estate of Edgar Mitchell after Edgar Mitchell
died called the Wilson memo or the Wilson notes

119

00:12:33,720 --> 00:12:39,180

and it's a series of notes which purportedly
represent a conversation between a Department

120

00:12:39,180 --> 00:12:45,120

of Defense astrophysicist called Eric Davis Dr
Eric Davis and a former director of the defense

121

00:12:45,120 --> 00:12:51,720

intelligence agency a man called Admiral Thomas\h
Tom Wilson and the the leaked transcript of their\h\h

122

00:12:51,720 --> 00:12:57,720

conversation basically details how Tom Wilson\h
allegedly discovered and was subsequently denied\h\h

123

00:12:57,720 --> 00:13:04,740

full access to a incredible conspiracy a kind of a\h
black budget reversing engineering program hidden\h\h

124

00:13:04,740 --> 00:13:11,280

deep within the National Security State that\h
claims these documents claim that the Pentagon\h\h

125

00:13:11,280 --> 00:13:15,780

or somewhere under the intelligence Community\h
or more likely private Aerospace company that's\h\h

126

00:13:15,780 --> 00:13:23,640

been gifted this material has in its position an\h
intact craft a vehicle of non-human origin now I'm\h\h

127

00:13:23,640 --> 00:13:29,400

telling you all this in the Preamble because it's\h
important that in those notes there is mention of\h\h

128

00:13:29,400 --> 00:13:37,800

a man called Oak Shannon an oak is a former U.S\h
Navy veteran physicist he used to work at the Los\h\h

129

00:13:37,800 --> 00:13:46,320

Alamos National Laboratories and he's a key part\h
of these allegedly leaked notes which record this\h\h

130

00:13:46,320 --> 00:13:54,720

conversation between uh Tom Wilson and Eric Davis\h
because Tom Wilson to my friend and colleague\h\h

131

00:13:54,720 --> 00:14:02,940

Billy Cox and also to me specifically denied\h
knowing Oak Shannon he said he was unknown to\h\h

132

00:14:02,940 --> 00:14:10,380

Tom Wilson and in an interview with Jay Anderson\h
of Project Unity Oak Shannon has basically put it\h\h

133

00:14:10,380 --> 00:14:18,000

definitively on the record that he he does know\h
Admiral Wilson moreover he's confirmed on the\h\h

134

00:14:18,000 --> 00:14:25,380

record that the um the claims made in the notes\h
about a conversation he had with Tom Wilson to\h\h

135

00:14:25,380 --> 00:14:31,320

set up the meeting with Eric Davis and to find\h
out about Eric Davis and whether or not he was\h\h

136

00:14:31,320 --> 00:14:40,140

a good human being to talk to this happened and\h
Eric Davis allegedly um in the notes they went\h\h

137

00:14:40,140 --> 00:14:46,860

on and discussed the these things and what's\h
really important is Oak says that he really\h\h

138

00:14:46,860 --> 00:14:53,940

did discuss with Tom Wilson the reality that\h
a recovered non-human vehicle is being studied\h\h

139

00:14:53,940 --> 00:15:01,380

in extreme secrecy by this secretive group the\h
program somewhere somewhere inside government or\h\h

140

00:15:01,380 --> 00:15:06,720

somewhere inside Aerospace now that's a long and\h
involved explanation and probably not told very\h\h

141

00:15:06,720 --> 00:15:13,680

well but it's significant because Oak Shannon has
gone on the record and he's a very important Cog

142

00:15:13,680 --> 00:15:20,940

to giving the Wilson memo notes credibility and I
I think it's important I still don't accept that

143

00:15:20,940 --> 00:15:26,100

the notes are a definitive true and accurate
record because of course they are strenuously

144

00:15:26,100 --> 00:15:33,300

denied by Admiral Tom Wilson and conspicuously Dr
Eric Davis has never corroborated or confirmed the

145

00:15:33,300 --> 00:15:39,540

notes but neither has he denied the notes are
a genuine document so we're getting closer

146

00:15:39,540 --> 00:15:45,060

think to a moment in Congress where people will be
able to be deposed and that's when it's going to

147

00:15:45,060 --> 00:15:49,980

start getting interesting it would be great to
see whether Oak Shannon is prepared to testify

148

00:15:49,980 --> 00:15:57,900

and whether Eric Davis and Tom Wilson are willing
to testify and say what they know I listen it's a

149

00:15:57,900 --> 00:16:03,600

it's a story that we need to be covering I kind of
volunteer as to in a future episode do the whole

150

00:16:03,600 --> 00:16:09,360

episode about it and frankly maybe we should do a
dramatic interp and read those notes uh word for

151

00:16:09,360 --> 00:16:14,700

word because I think that would be interesting uh\h
you know just a quick addition to that uh during\h\h

152

00:16:14,700 --> 00:16:20,040

the May 17th public uh hearings in the House of\h
Representatives representative Mike Gallagher out\h\h

153

00:16:20,040 --> 00:16:26,160

of uh Wisconsin actually had the Wilson Davis memo\h
put into the Congressional Record that doesn't\h\h

154

00:16:26,160 --> 00:16:31,920

mean anything per se because you can put anything\h
in the Congressional Record but he put it in and\h\h

155

00:16:31,920 --> 00:16:37,920

um let's face it uh what you suggested happening\h
Ross is would be if Congress had any balls about\h\h

156

00:16:37,920 --> 00:16:43,560

this thing they'd drag the whole lot of them\h
in and they would put them under oath and then\h\h

157

00:16:43,560 --> 00:16:48,480

they would uh ask them to tell the story and they\h
would cross-reference it and we get some answers\h\h

158

00:16:49,380 --> 00:16:54,840

now speaking of answers just last month or in fact\h
in the last few weeks there's been Revelations\h\h

159

00:16:54,840 --> 00:17:01,020

from Ukraine from Ukrainian astronomers who\h
claim they've seen anomalous objects in the sky\h\h

160

00:17:01,560 --> 00:17:06,840

now I know there's been rebuttal and debunking\h
of that notably by Avi Loeb and also by The\h\h

161

00:17:06,840 --> 00:17:11,940

Academy of Sciences in Ukraine but coming\h
up in the next segment we have an interview\h\h

162

00:17:11,940 --> 00:17:17,760

with a former British soldier John Chapman\h
who's going to tell us how he and his team\h\h

163

00:17:17,760 --> 00:17:24,240

a reconnaissance team behind the lines in\h
Russian Hill territory in Ukraine looked\h\h

164

00:17:24,240 --> 00:17:32,520

up during a battle and saw a UAP that's\h
coming up next on need to know can't wait

165

00:17:42,420 --> 00:17:47,280

stay with us we're back in a\h
moment because you need to know

166

00:18:21,780 --> 00:18:21,960

foreign

167

00:18:25,860 --> 00:18:30,900

so welcome back to need to know now we've\h
got something very interesting for you as\h\h

168

00:18:30,900 --> 00:18:35,940

I mentioned in the first segment there has\h
been some controversy about claims made by\h\h

169

00:18:35,940 --> 00:18:41,040

Ukrainian astronomers in the past few weeks\h
that they've seen anomalous objects in the\h\h

170

00:18:41,040 --> 00:18:46,500

Skies over Ukraine not surprising perhaps in\h
light of the fact that there's any number of\h\h

171

00:18:46,500 --> 00:18:53,760

airplanes drones Weaponry flying in and around the skies but I'm going to introduce you now

172

00:18:53,760 --> 00:19:00,780

to a chap called John Chapman he's a former British Army soldier g'day John how are you

173

00:19:00,780 --> 00:19:05,760

I'm good mate I'm good how are you in Australia very well and I'll put you on to Bryce as well

174

00:19:05,760 --> 00:19:12,540

we appreciate you coming on this is a this is an important story and and frankly uh it couldn't be

175

00:19:12,540 --> 00:19:19,440

more timely so take it away can you please give us an account of who you are and your service history

176

00:19:19,440 --> 00:19:26,400

of what you feel comfortable telling us and uh give us an idea of how and when you got to Ukraine

177

00:19:28,440 --> 00:19:34,440

um I'm actually infantry um I was in the Princess of Wales as Royal regiment as a reconnaissance

178

00:19:34,440 --> 00:19:40,260

Soldier so that's what I specialized in um shapes of vehicles airplanes you name

179

00:19:40,260 --> 00:19:46,620

it that was our job to report on to send up a chain to uh our command structure to know

180

00:19:46,620 --> 00:19:52,020

what he's dealing against so that's sort of my main role I also had a job in Yugoslavia

181

00:19:52,020 --> 00:20:00,300

well the Bosnia is now as a again uh close\h
reconnaissance and our sort of role was to

182

00:20:02,460 --> 00:20:07,080

um find pithwicks and they were people who\h
indicted for war crimes during the war so\h\h

183

00:20:07,080 --> 00:20:11,100

that was our sort of job which is quite a\h
important role getting them to The Hague\h\h

184

00:20:11,700 --> 00:20:18,300

and then um done many tours of Northern Ireland\h
during the tour um during the troubles um lots\h\h

185

00:20:18,300 --> 00:20:27,360

of different jobs including um intelligence work\h
um then I got out and become a close Protection\h\h

186

00:20:27,360 --> 00:20:34,980

Officer bodyguard as you might call it and then\h
um from there I sort of give up that sort of uh\h\h

187

00:20:35,760 --> 00:20:39,840

job to become a bit more normal\h
and become a builder but I also\h\h

188

00:20:41,340 --> 00:20:46,860

when I went down that route I kept my eyes on\h
geopolitics and stuff like that and um obviously\h\h

189

00:20:46,860 --> 00:20:53,400

the annexation of Crimea in Ukraine and I thought\h
it was going to end badly and then obviously the\h\h

190

00:20:53,400 --> 00:21:03,060

build up on the border uh in February and then\h
they invaded and um from there I looked at what\h\h

191

00:21:03,060 --> 00:21:08,760

was going on and the Catalyst for me going to the Ukraine was there was a I think it was a BMP

192

00:21:08,760 --> 00:21:17,280

run over a a car and I think it was in car keys I believe and I thought I can't have that I can't

193

00:21:17,280 --> 00:21:22,860

can't sit here and watch bearing in mind I've been to Bosnia and places like that and I know what

194

00:21:22,860 --> 00:21:30,540

ethnic cleansing and how that can be and I thought I've got to do something and um I asked my wife

195

00:21:31,200 --> 00:21:38,460

and uh she wasn't happy for me to go obviously and she said to me um you you've been there for about

196

00:21:38,460 --> 00:21:44,040

two weeks because I thought a week in fact because I said on a Monday and I was gone by the Saturday

197

00:21:44,040 --> 00:21:53,520

so she gave me a sort of um blessings that were with great teeth and I and I went across um

198

00:21:53,520 --> 00:21:59,640

went through Poland and then across the border which is all a range fruit Ukrainian Embassy in

199

00:21:59,640 --> 00:22:07,620

um London so the the network to get across was all arranged and we went to a a sort of a Transit camp

200

00:22:08,400 --> 00:22:16,440

yaref and um that's where we sort of all the people arriving from foreign Nationals John

201

00:22:16,440 --> 00:22:20,760

want to just clarify this because I think some
people probably having the same question I'm

202

00:22:20,760 --> 00:22:28,440

having were you part of any official group
at that time were you part of any nation's

203

00:22:28,440 --> 00:22:37,020

military or were you no no no no no we were um
we was all ex-military however there was a few

204

00:22:37,680 --> 00:22:44,520

um how we say Walter matis who say there was
in things like paintballers and airsofters and

205

00:22:44,520 --> 00:22:48,120

all these type of people trying trying
to get in but they were soon weeded out

206

00:22:48,900 --> 00:22:56,280

got it so you you got in though um with other
people or did you go in by yourself and then

207

00:22:56,280 --> 00:23:01,860

I I I went on my own okay and because of the
migration of people coming from all over the world

208

00:23:03,540 --> 00:23:06,960

um obviously there's only so many
Airheads in Poland and obviously

209

00:23:06,960 --> 00:23:13,680

the groups were meeting at airports and then I
didn't know any any person here I went on my own

210

00:23:13,680 --> 00:23:19,320

and then um because we met at airports going
through the same route through the embassies

211

00:23:20,880 --> 00:23:25,740

the transport is arranged you just got on a bus
you didn't know anybody and then you was taken

212

00:23:25,740 --> 00:23:31,320

to this camp and then you obviously you build
friendships are on the bus or meet people but

213

00:23:31,320 --> 00:23:36,840

didn't know anyone to go with and then we went
to like I said went to yaref and from there we

214

00:23:36,840 --> 00:23:43,140

were sort of divided about our previous military
experience and perhaps people who didn't have any

215

00:23:43,140 --> 00:23:48,780

so the people who didn't have any they were
also going to join the legion but they went

216

00:23:48,780 --> 00:23:54,960

into sort of a a training sort of six weeks of
training so I never saw any of them again John

217

00:23:54,960 --> 00:23:58,560

can I just interrupt for a moment just for the
benefit of our listeners and viewers I just want

218

00:23:58,560 --> 00:24:05,100

to stay John has provided me with documentation
on background which will not be revealing which

219

00:24:05,100 --> 00:24:12,120

more than substantiates the fact of his British
service history which is exemplary and also the

220

00:24:12,120 --> 00:24:19,200

fact that he worked with the Ukrainian Army to
serve in Ukraine now one of the things that

221

00:24:19,200 --> 00:24:26,460

want to get to John is your role you were part of
a team called Bravo Team working I think with a

222

00:24:26,460 --> 00:24:34,740

former uh Republic of Korea special forces guy and
you were behind the lines at different times doing

223

00:24:34,740 --> 00:24:42,180

reconnaissance and targeting Uh Russian Enemy
Inside that area really gutsy stuff just before

224

00:24:42,180 --> 00:24:48,480

we get to the detail of your UAP sighting which
I understand happened in April just give us an

225

00:24:48,480 --> 00:24:54,840

account of we're talking to the video that you've
already sent me that we'll probably cut into the

226

00:24:54,840 --> 00:25:00,960

um we'll probably cut into the story at this stage
but give us a description of the kind of work you

227

00:25:00,960 --> 00:25:06,540

were doing there's a video that you've shown
me that will show some excerpts from here where

228

00:25:06,540 --> 00:25:14,280

you're clearly behind the lines and in one case
the Russians are literally just outside how close

229

00:25:14,280 --> 00:25:25,740

were you well basically a concrete wall we was
um on on that video clip um we were sent out to

230

00:25:27,540 --> 00:25:34,140

basically find the Russians and and get
some information on uh where they're at

231

00:25:34,140 --> 00:25:41,160

and what strengths they are so we uh move\h
through a chosen route to a certain building\h\h

232

00:25:42,060 --> 00:25:48,480

uh that we thought which we deemed would give us\h
a good line of sight uh for the missile systems we\h\h

233

00:25:48,480 --> 00:25:59,040

had and also for our um Small Arms and um on doing\h
that um we got into the building and this is sort\h\h

234

00:25:59,040 --> 00:26:06,600

of a a walk-in reconnaissance we hadn't seen the\h
building only on a map so it was quite you know\h\h

235

00:26:06,600 --> 00:26:13,860

normally we like to wreck everything to make\h
sure it's safe before you use it but it was um

236

00:26:16,380 --> 00:26:20,940

yeah it was a sort of something we wouldn't\h
normally do anyway we entered the building\h\h

237

00:26:20,940 --> 00:26:26,340

we cleared the building and then\h
we found at one side there was a\h\h

238

00:26:28,200 --> 00:26:33,780

um massive hole that a tank could put a hole in a\h
wall and we thought that would be a good position\h\h

239

00:26:33,780 --> 00:26:46,020

to shoot from our um in-laws and then um as one\h
of our operators spotted a BMP with some infantry\h\h

240

00:26:46,020 --> 00:26:55,860

he was going to fire that projectile but they were\h
spotted and uh unfortunately one of our operators\h\h

241

00:26:55,860 --> 00:27:03,720

Otto was shot in the shoulder and we had to
clear that building um you're behind you're

242

00:27:03,720 --> 00:27:09,720

Behind Enemy Lines you've got a wounded operator
I mean this is pretty hairy stuff and you're a

243

00:27:09,720 --> 00:27:13,560

foreign national uh I mean you would have been
under no illusions about what would have happened

244

00:27:13,560 --> 00:27:21,060

to you if the Russians had actually found you well
I had to keep one for myself Ross but um yeah it's

245

00:27:22,800 --> 00:27:31,440

it's hairy stuff and I can honestly say the
adrenaline is going through your body and it keeps

246

00:27:31,440 --> 00:27:38,580

you going and they followed us back basically
to the to the Ukrainian line so he was getting

247

00:27:38,580 --> 00:27:45,720

chased by a BMP which you can hear foreign on the
video you can also hear Small Arms foreigners all

248

00:27:45,720 --> 00:27:52,020

the time we've got Otto to get back and so we had
to farm maneuver back and then when we got back to

249

00:27:52,020 --> 00:27:57,240

the say relatively safely of this Ukrainian
lines which is really just a block of flaps

250

00:27:58,020 --> 00:28:03,420

we had to deal with artillery as well coming
in on us um so it was a bit of a hairy day

251

00:28:04,740 --> 00:28:09,720

um now I only cite that video because it's a very
good example of what you guys were going through

252

00:28:09,720 --> 00:28:15,780

now are you able to share that video right
now Ross yeah I can actually yeah I think we

253

00:28:15,780 --> 00:28:21,240

should share that um and and while he's doing
that uh John let me just ask you a question

254

00:28:21,960 --> 00:28:25,680

um you're part of the Bravo Team
uh what is that I think people are

255

00:28:25,680 --> 00:28:29,580

probably saying well how many people
are on it what different nationalities

256

00:28:30,540 --> 00:28:36,720

um you know where did you catch your mission you
know just how did it so that we can understand

257

00:28:36,720 --> 00:28:43,080

when you tell us the rest of the story what's
going on there well the the beginning of the war

258

00:28:43,800 --> 00:28:49,020

everything was catching up and it was all
sort of all hands to the pump bearing in mind

259

00:28:49,800 --> 00:28:54,660

because of what Kiev was that the Russians
obviously come down from Belarus and I think

260

00:28:54,660 --> 00:29:00,240

what they were thinking of we cut off the head
of Kiev everything else will tumble so that was

261

00:29:00,240 --> 00:29:06,180

their sort of plan and it was like the little
guy in the Dutch dike all fingers to the holes

262

00:29:06,720 --> 00:29:15,720

and um we was just basically I got there I think
it was on the on the Saturday in Kiev and on the

263

00:29:15,720 --> 00:29:24,480

Sunday I was on the front line it was that quick
the situations on the ground was so fluid that

264

00:29:24,480 --> 00:29:29,700

we was just thrust into anywhere and as as your
other question what sort of nationalities you were

265

00:29:31,200 --> 00:29:36,420

um I we had French Foreign Legion Lads
xlads one of them was finished one of them

266

00:29:36,420 --> 00:29:42,840

was actually Ukrainian um we had Americans
we had obviously British who had Koreans

267

00:29:44,280 --> 00:29:51,660

um so and we had a lot of experience in our groups
that's in conflicts all over all over the world

268

00:29:52,860 --> 00:29:58,560

so and we was more than capable to
deal with the threat of the Russians

269

00:30:06,480 --> 00:30:07,560

[h__] six man

270

00:30:12,600 --> 00:30:14,760

yeah idea our missiles

271

00:30:18,900 --> 00:30:22,320

enemy trying to hit missiles okay

272

00:30:26,820 --> 00:30:31,260

so enemy trying to hit our missiles huh

273

00:30:52,620 --> 00:30:57,540

let's get it close man yeah hey

274

00:30:58,440 --> 00:31:05,520

everything is okay yeah yeah we're gonna head\h
back with the uh underpass oh the same route\h\h

275

00:31:05,520 --> 00:31:12,180

same route we came okay with your guys we'll get\h
to the trucks are you coming with us so far away

276

00:31:15,060 --> 00:31:20,400

are you coming with us you know what if\h
you're not lucky you'll get it anyway

277

00:31:22,440 --> 00:31:27,180

if you are lucky you won't get it anyway\h
hey I'll see you next time brother okay\h\h

278

00:31:27,780 --> 00:31:34,740

all right guys settle up settle up let's move out\h
all right [\h__\h] six yeah let's go rock and roll

279

00:31:39,300 --> 00:31:40,080

let's go right yeah

280

00:31:42,300 --> 00:31:46,800

yeah let's go let's go let's go on the night\h
in in question that we're about to get into\h\h

281

00:31:47,880 --> 00:31:57,420

um how many people were part of Bravo Team I'd say\h
was eight guys at the time okay however there was\h\h

282

00:31:57,420 --> 00:32:03,720

another team that was a part of the Legion who\h

we didn't have any association with because we\h\h

283
00:32:03,720 --> 00:32:09,120
work for the uh Ukrainian intelligence they just\h
happened to be on the ground at the Crossing Point\h\h

284
00:32:09,120 --> 00:32:14,340
the Footbridge we wanted to cross outside open\h
so they would have seen it as well but I have no\h\h

285
00:32:15,300 --> 00:32:21,960
um contact within those guys I knew none of them\h
um again they were just you know another Legion\h\h

286
00:32:21,960 --> 00:32:29,820
sort of outfit what I understand happened was\h
that there's a crossing point uh yeah in Kiev\h\h

287
00:32:29,820 --> 00:32:39,000
across the river from the right side in urban and\h
where is it outside yeah Urban's on the western\h\h

288
00:32:39,900 --> 00:32:48,120
um suburbs of Kiev so it's like a little city\h
of its own um and it it's got a uh a river\h\h

289
00:32:48,900 --> 00:32:55,800
on the Eastern edge of urban which we had to cross\h
which were come on to in a minute now there was\h\h

290
00:32:55,800 --> 00:33:02,700
three Crossing points there was a bridge which\h
is blown as in a uh like a saliva for cars and\h\h

291
00:33:02,700 --> 00:33:08,640
truck trucks and so forth a Railway Bridge\h
which is gone and a Footbridge which hasn't\h\h

292
00:33:09,180 --> 00:33:16,440
so um the first op we went on\h

which I sent you a video as well we\h\h

293

00:33:17,880 --> 00:33:22,440

um on our way back from our first stop there\h
was a little garden center bar around about\h\h

294

00:33:22,440 --> 00:33:28,620

well I think it was a garden center that sort\h
of place it was night anyway and um we was\h\h

295

00:33:29,220 --> 00:33:35,400

using that as a holding error waiting for our\h
turn to cross the bridge uh which was blown and\h\h

296

00:33:35,400 --> 00:33:39,540

basically we'd go underneath the bridge that was\h
plates put across the river and we'd crossed it\h\h

297

00:33:40,140 --> 00:33:45,960

but unknown to us we was followed by a drone\h
now we can see here this drone total Pitch Black\h\h

298

00:33:46,560 --> 00:33:52,200

and we're sort of sitting in this sort of garden\h
saying I've pulled up a plastic chair and I'm\h\h

299

00:33:52,200 --> 00:33:57,720

sat on this plastic chair and I'm eating a wafer\h
you know if you're allowed to get a few uh drink\h\h

300

00:33:57,720 --> 00:34:02,100

of water having a fire because we've not been\h
able to for the last you know five or six hours\h\h

301

00:34:03,000 --> 00:34:09,840

and um we're sat there and these rounds start\h
coming in and there's a sort of a little Cops\h\h

302

00:34:09,840 --> 00:34:16,020

adjacent to this uh building complex we're in and\h

these rounds are going off and I'm meeting my wife\h\h

303

00:34:16,020 --> 00:34:24,300

I go hmm this is not oh that's a bit close and oh\h
it's even closer and finally they're right on top\h\h

304

00:34:24,300 --> 00:34:29,880

of us the video shows where you were crossing\h
the night of the UAP sighting a few days later\h\h

305

00:34:30,900 --> 00:34:37,260

a few days before yeah because that's why\h
yeah the UAP because I was worried about\h\h

306

00:34:37,260 --> 00:34:43,620

this guy with drones following us to the\h
Footbridge right if that makes sense so l\h\h

307

00:34:43,620 --> 00:34:49,560

was yeah so roll forward now so basically we've\h
we've described the location it's obviously a\h\h

308

00:34:49,560 --> 00:34:54,480

very hot Zone yeah I mean when you go through\h
there you are worried because of the previous\h\h

309

00:34:54,480 --> 00:34:59,340

day's engagement you're worried about being\h
mortared and targeted with drones and artillery\h\h

310

00:34:59,340 --> 00:35:06,300

that's correct so a few days later you basically\h
come to that same position it's night time and\h\h

311

00:35:06,300 --> 00:35:13,380

you're coming back from the Russian lines back\h
across the bridge into herbal what happens well\h\h

312

00:35:14,820 --> 00:35:20,580

just going to correct you on slightly Ross the it\h

was about we crossed about a mile further up the\h\h

313

00:35:20,580 --> 00:35:29,700

river on the Footbridge and we got we got uh back\h
to that sort of the the earping side of the of of\h\h

314

00:35:29,700 --> 00:35:34,200

the river and we're waiting there for our time\h
to cross and I'm looking at the sky and we're\h\h

315

00:35:34,200 --> 00:35:39,300

all sort of an all-round defense waiting to cross\h
and all of a sudden because I was looking at the\h\h

316

00:35:39,300 --> 00:35:49,740

sky I see three um dimly lit um orange Amber orbs\h
or burnt Amber as I say there's like a brownie\h\h

317

00:35:49,740 --> 00:35:54,480

orange color but there was only in because I\h
had to sort of rub your eyes and thought am I\h\h

318

00:35:54,480 --> 00:36:00,000

seeing things because I thought I was tired and\h
I looked up and I did see these these free orbs\h\h

319

00:36:00,000 --> 00:36:06,600

in a loose triangle shape and they was there for\h
three or four seconds and the next thing there\h\h

320

00:36:06,600 --> 00:36:14,520

was a a bright light that appeared in the sky\h
and it was about I'd say a thousand foot up and\h\h

321

00:36:15,480 --> 00:36:21,480

um probably between 30 and 40 feet long and it was\h
a bright light like a camera flash but constant\h\h

322

00:36:22,140 --> 00:36:28,320

and I'm looking at it and I'm thinking\h

what the hell is that it's not a drone\h\h

323

00:36:29,460 --> 00:36:38,880

it's not a plane it's not a flare it's not nothing\h
associated with a Battlefield and look and the way\h\h

324

00:36:38,880 --> 00:36:47,340

hit it flew across the sky it it maintained its\h
altitude it maintained its speed but its speed\h\h

325

00:36:48,000 --> 00:36:55,200

was only about I'd say AirSpeed about 30 knots so\h
it's quite slow but there's no sound there was no\h\h

326

00:36:55,200 --> 00:37:04,740

characteristics of a plane you know did it hold a\h
hover at any stage no it didn't now I've done uh\h\h

327

00:37:04,740 --> 00:37:12,480

I have done aerial photography from a helicopter\h
and you fly at a certain height a certain speed so\h\h

328

00:37:12,480 --> 00:37:19,740

you maintain so you can get a good uh view for\h
your camera when you're filming and it looked\h\h

329

00:37:19,740 --> 00:37:24,120

like it was doing some sort of reconnaissance\h
it looked like it was following the river and\h\h

330

00:37:24,120 --> 00:37:29,580

it was basically the other side of the river was\h
going to the Home Bank as it were the Kiev side\h\h

331

00:37:30,120 --> 00:37:38,280

there was a defensive line of Ukrainian positions\h
that followed that River all the way across just\h\h

332

00:37:38,280 --> 00:37:44,580

in case the Russians took Urban the next sort of\h

stop line would have been that line of defenses\h\h

333

00:37:45,420 --> 00:37:52,320

and it was absolutely incredible I cannot I had\h
to pinch myself and other people see it as well\h\h

334

00:37:52,320 --> 00:37:58,920

and yeah and nobody reacted to it we didn't\h
fire at it or anything like that we're just\h\h

335

00:37:58,920 --> 00:38:08,400

in awe going what is that let me let me just make\h
sure that I've got this in my head so yeah you're\h\h

336

00:38:08,400 --> 00:38:14,160

out there and you're looking up and you're seeing\h
these three lights originally I I don't know if\h\h

337

00:38:14,160 --> 00:38:20,940

these three lights are moving or do they move into\h
a position no they they I was lit I just happened\h\h

338

00:38:20,940 --> 00:38:26,340

to be looking at a portion of the sky because I\h
was worried about drones and getting mortared from\h\h

339

00:38:26,340 --> 00:38:32,580

what happened to the bridge estate and as I was at\h
the airport portion of the sky free let's say orbs\h\h

340

00:38:33,660 --> 00:38:41,220

come into view from nothing so just work there\h
there and then from there they was there for\h\h

341

00:38:41,220 --> 00:38:48,480

about three or four seconds they disappeared\h
and simultaneously a like I said this craft\h\h

342

00:38:50,460 --> 00:38:59,400

um just appeared just bright light appeared why\h

do you say craft John like give us an idea of the\h\h

343

00:38:59,400 --> 00:39:05,340

form that you saw you're initially described\h
a very bright light why do you say craft yeah\h\h

344

00:39:06,480 --> 00:39:11,820

because the only thing what I know what\h
creates that bright light in the sky is\h\h

345

00:39:11,820 --> 00:39:16,800

a flare now if I know the characteristics\h
of a flare or we'd call them a shimuli or\h\h

346

00:39:16,800 --> 00:39:24,780

parallel or whatever he wants to call them now\h
it wasn't any of those and when you go through\h\h

347

00:39:24,780 --> 00:39:30,600

well my sort of military thinking you go for\h
a process what is that is it this is it that\h\h

348

00:39:32,220 --> 00:39:41,040

and the reason I say craft because it's maintained\h
in altitude it's flew at a constant speed

349

00:39:43,080 --> 00:39:52,380

and I I need some gone did you see structure\h
to it though I mean when you say crap yeah\h\h

350

00:39:52,380 --> 00:40:00,120

I've I'll just elaborate on that the the way\h
the light pattern was obviously when when you\h\h

351

00:40:00,120 --> 00:40:04,560

see any lights you can see if it's a headlight\h
of a car because it's round can't you but you\h\h

352

00:40:04,560 --> 00:40:13,920

can't actually see the car so what I was looking\h

at almost looked not almost it did it did look\h\h

353

00:40:15,180 --> 00:40:22,500

um a long oval shape um so higher in the\h
middle and then tapered off at the ends

354

00:40:25,380 --> 00:40:32,400

possibly even like the um I was thinking about\h
it sort of today like that like the uh I think\h\h

355

00:40:32,400 --> 00:40:37,440

there's a Calvin sighting that sort of diamond\h
shape maybe I don't know but the lights if you\h\h

356

00:40:37,440 --> 00:40:43,680

can imagine that shape but Mega Bright Lights\h
coming from it it would create a sort of\h\h

357

00:40:44,220 --> 00:40:50,280

that sort of shape wouldn't it so I'm only\h
surmising but was the light from within the object\h\h

358

00:40:50,280 --> 00:40:59,580

or was it around the object it was the object you\h
know it was just so bright in the sky I cannot\h\h

359

00:41:01,020 --> 00:41:06,480

say how bright it I can't put it into words\h
it was so bright okay so let me let me just\h\h

360

00:41:06,480 --> 00:41:12,900

again so we've got these three things making\h
what amounts to a triangle would you yeah yeah\h\h

361

00:41:12,900 --> 00:41:19,440

let's try it yeah it looks like a triangle\h
and at the same time they disappear and at\h\h

362

00:41:19,440 --> 00:41:28,080

that same instant as they're disappearing\h

this craft or bright object appears to me\h\h

363

00:41:28,080 --> 00:41:33,480

and I'm you know what do I know it looked\h
like a door it was coming through a door so\h\h

364

00:41:33,480 --> 00:41:40,560

it opened with the orbs and the next minute\h
you've got a crafter or the bright light\h\h

365

00:41:42,120 --> 00:41:48,300

like a door now that's interesting because if\h
you go through UFO literature there have been\h\h

366

00:41:48,300 --> 00:41:53,880

cases where people have described what they the\h
only word they could come up with was there was\h\h

367

00:41:53,880 --> 00:41:59,400

a door in the sky and something came through it\h
so when you use the word door are you are you\h\h

368

00:41:59,400 --> 00:42:04,380

talking in a literal sense that it looked like a\h
door are you saying it was it felt like a doorway

369

00:42:06,660 --> 00:42:16,500

I'm not well I'm that's that's the hard\h
way I can't I can't put my finger on a

370

00:42:19,020 --> 00:42:23,820

a description of it all I can\h
say is when the orbs went out\h\h

371

00:42:25,200 --> 00:42:32,160

the bright light come on and it looked like what\h
you don't mean because it was so instantaneous\h\h

372

00:42:32,160 --> 00:42:39,120

the lights went out on the orbs and then it's\h

no sooner they got out this bright light was

373

00:42:39,120 --> 00:42:44,700

moving across the sky so to me John you've done
it you've done a map that we'll show later and

374

00:42:44,700 --> 00:42:50,760

you've also done a diagram of the object uh
we'll show the diagram of the object and the

375

00:42:50,760 --> 00:42:57,660

map of where this all happened later yeah in
the final edit but can I ask you this do you

376

00:42:57,660 --> 00:43:02,880

think this object you clearly seem to do you
think this object was intelligently controlled

377

00:43:05,160 --> 00:43:15,060

yeah because things like you take anything what
flies in the sky if it flies at a a rate of knots

378

00:43:15,060 --> 00:43:23,520

stays at the same height you know that's amazing
intelligent you know so it wasn't a balloon

379

00:43:23,520 --> 00:43:27,960

an illuminated balloon or a barrage balloon
or something like that no no no no no no

380

00:43:29,040 --> 00:43:31,920

um and not only that you're over a Battlefield

381

00:43:33,660 --> 00:43:37,860

and you don't show your hand you
don't go oh look at me in the sky

382

00:43:38,880 --> 00:43:45,360

come and shoot me and not and the other thing that
I've sort of mauled about because of air defense

383

00:43:45,360 --> 00:43:50,400

systems you don't fly a thousand feet up at 30\h
knots because you won't be there for much longer\h\h

384

00:43:51,000 --> 00:43:55,860

and so why didn't somebody shoot at it I mean\h
either on the Russian side or on your side\h\h

385

00:43:55,860 --> 00:44:03,120

because my jaw was on the floor I didn't\h
know what it was because because of your um\h\h

386

00:44:03,120 --> 00:44:07,980

because your brain your military brain\h
I was going through right is it a drone\h\h

387

00:44:08,520 --> 00:44:16,500

no don't you don't see drones in Russia until\h
it's too late is it a sorry in Ukraine uh is\h\h

388

00:44:16,500 --> 00:44:23,220

it a plane no there's no noise it's moving too\h
slow there's no you know flight characteristics\h\h

389

00:44:24,060 --> 00:44:33,960

there's no sort of trail behind it for you know\h
afterburners or anything like that no noise silent

390

00:44:33,960 --> 00:44:41,340

well I just want to uh clarify one other thing\h
then you said that the uh bravo team had eight\h\h

391

00:44:41,340 --> 00:44:46,740

people on including yourself yeah were all\h
eight of you in this location at the same\h\h

392

00:44:46,740 --> 00:44:52,860

time and did the other seven see what you saw\h
they say it the only thing I'm not sure about\h\h

393

00:44:52,860 --> 00:45:00,780

if I saw the orbs because the orbs were very
very um there one minute and gone you know

394

00:45:00,780 --> 00:45:07,440

a couple seconds later and I believe I'm the
only one to see the orbs because I was looking

395

00:45:07,440 --> 00:45:14,520

in that portion of the sky at that time I've
not questioned everybody but I have when we

396

00:45:14,520 --> 00:45:20,640

come back in off the up I spoke to the people
I was bunking with and we was like that's a UAP

397

00:45:21,960 --> 00:45:27,600

that was an American lad and I think there's
an Australian lad it was an Australian lad and

398

00:45:27,600 --> 00:45:33,900

we just didn't know what it was you know uh
John uh rice had mentioned that Avi Loeb had

399

00:45:33,900 --> 00:45:40,440

written an article recently about the various
things that the Ukrainian report was saying

400

00:45:41,100 --> 00:45:47,640

were unidentified flying objects they were saying
I think they called them some one of them they

401

00:45:47,640 --> 00:45:53,520

called um what is it called Phantoms and what was
the other thing I don't remember but but so they

402

00:45:53,520 --> 00:46:00,900

and modes uh analysis was well the last place
I'd ever want to study UFOs is in a battlefield

403

00:46:00,900 --> 00:46:06,120

condition like in Ukraine because they got all the
manner of [h__h] flying around there how would the

404

00:46:06,120 --> 00:46:11,340

you know what's what but you are a trained
reconnaissance person so I assume that you the

405

00:46:11,340 --> 00:46:17,880

know pretty much the outline of most things that
we find in the sky and I I'd like a description the

406

00:46:17,880 --> 00:46:24,060

of your training to identify things in the sky
so that we can appreciate how you are saying the

407

00:46:24,060 --> 00:46:32,220

this one stands out as not being something that's
supposed to be there um shape is is the main thing the

408

00:46:33,480 --> 00:46:40,320

um I I suppose when you when you look at sorry
because it was quite close you know it was a the

409

00:46:40,320 --> 00:46:49,320

thousand feet up probably less than half a mile
away so is it a threat is going through my head the

410

00:46:50,820 --> 00:46:56,100

and everyone else has said because you
don't know do I need to take cover is the

411

00:46:56,100 --> 00:47:00,660

that an incoming missile that bright light
is it you know the multitude of things the

412

00:47:01,380 --> 00:47:09,600

do you think it was interested in the battlefield
I mean you've obviously yeah yeah I I yes I do the

413

00:47:10,920 --> 00:47:19,980

um because I I need to ration I rationalize\h
everything and um just that's what I would do\h\h

414

00:47:19,980 --> 00:47:25,200

if I was taking pictures or interested in\h
something on the ground from a helicopter\h\h

415

00:47:25,200 --> 00:47:31,320

that's what I would do you know perhaps not in\h
on a battlefield like that but perhaps of a a\h\h

416

00:47:31,320 --> 00:47:36,720

covert or a concert mission in Northern Ireland or\h
something like that if you want to get pitched to\h\h

417

00:47:36,720 --> 00:47:44,880

the Target that's how you would do it but it I can\h
honestly say it was anything that I've ever seen\h\h

418

00:47:46,200 --> 00:47:51,060

what what was the time like that you were\h
observing this from the moment that you\h\h

419

00:47:51,060 --> 00:47:56,940

saw the orbs which you said lasted not long and\h
then suddenly you've got this other thing there\h\h

420

00:47:57,720 --> 00:48:03,780

what what amount of time are we talking about\h
um I reckon because of the speed and the terrain\h\h

421

00:48:03,780 --> 00:48:08,760

obviously it disappeared from our view it didn't\h
go out it just disappeared because that's right\h\h

422

00:48:08,760 --> 00:48:16,140

but I would suggest probably anything between\h
three to five minutes so wow you had eyes on it\h\h

423

00:48:16,140 --> 00:48:21,780

for a while yeah so it just went away and it was\h
like a you know as it disappeared it looked like\h\h

424

00:48:21,780 --> 00:48:27,960

a star or a planet because it just it was\h
that far away obvious question John I mean\h\h

425

00:48:27,960 --> 00:48:33,060

um you've obviously taken videos while you were\h
behind the lines filming next to the Russians\h\h

426

00:48:33,060 --> 00:48:38,100

how come there's no video or photography of what\h
you saw if you were watching it for five minutes\h\h

427

00:48:39,660 --> 00:48:45,660

because we was worried about getting shelled\h
and perhaps being killed was more important\h\h

428

00:48:45,660 --> 00:48:51,060

than the UFO at the time in the sky at the time\h
um obviously you have to you have to remember the\h\h

429

00:48:51,060 --> 00:48:56,940

situation within we wasn't in you know he wasn't\h
in a park in London somewhere looking up the Scott\h\h

430

00:48:56,940 --> 00:49:03,840

stories scargazing we was worried about we had\h
more important things like you know our own safety\h\h

431

00:49:03,840 --> 00:49:09,180

and protection so we're all in an apple around\h
the fence we're looking out for Russians that just\h\h

432

00:49:09,180 --> 00:49:17,220

happened the big turn up that wasn't that wasn't\h
our sort of main point of concern at the time

433

00:49:19,440 --> 00:49:25,020

I could say that makes completely good sense\h
but my question would be after this was over\h\h

434

00:49:25,020 --> 00:49:30,360

and you guys got back to where you came from\h
and now you're you're not going to be shot\h\h

435

00:49:30,360 --> 00:49:34,800

or killed hopefully in that scenario\h
you must have had a time for the the\h\h

436

00:49:34,800 --> 00:49:40,320

group of you said holy crap did you see that\h
thing what what was that conversation like\h\h

437

00:49:41,760 --> 00:49:46,920

it was just like like I said I had a chat with\h
my roommates and I've also had a chat with\h\h

438

00:49:47,700 --> 00:49:52,140

with the team leader um and we just\h
don't know what it was it was just like\h\h

439

00:49:53,460 --> 00:49:57,780

because because of the the\h
speed of the optimum was on\h\h

440

00:49:57,780 --> 00:50:03,180

we didn't have time really to you know like sit\h
down we're having a chat now about it and I'm\h\h

441

00:50:03,180 --> 00:50:09,600

talking about it it was an article it wasn't\h
important at the time it was just something

442

00:50:11,700 --> 00:50:17,880

um it's been like a splinter on my\h
brain ever since I I saw it but it's\h\h

443

00:50:19,020 --> 00:50:23,580

um yeah it's just mentally John\h
I know from your service history\h\h

444

00:50:24,660 --> 00:50:30,420

um which you very kindly shared with me that\h
you've seen in combat zones and in different\h\h

445

00:50:30,420 --> 00:50:35,520

parts of different military installations you've\h
seen a lot of military equipment you're very very\h\h

446

00:50:35,520 --> 00:50:41,580

well briefed as a reconnaissance surveillance\h
person on what the Western indeed our potential\h\h

447

00:50:41,580 --> 00:50:47,340

enemies have is there any technology that you\h
can think of that can explain what you saw\h\h

448

00:50:48,600 --> 00:50:57,060

no um no dude no honestly wasn't there isn't\h
and you know I know that on this phenomena\h\h

449

00:50:57,060 --> 00:51:02,280

people say was it you know military\h
black technology or something like that\h\h

450

00:51:02,880 --> 00:51:13,020

but what would be the purpose of that at that\h
particular time over that area showing itself to\h\h

451

00:51:13,020 --> 00:51:19,740

maybe the Russians as well as the ukrainians what\h
would be the mission of that particular craft if\h\h

452

00:51:19,740 --> 00:51:25,380

it was a black grass no just just so I'm clear\h
one other thing that I think that you've given\h\h

453
00:51:25,380 --> 00:51:33,300
me in a map which we'll show to our audience in
the map it clearly tracks the river which is the

454
00:51:33,300 --> 00:51:41,220
dividing line between the Russians in I think the
South or the East and the Kiev in the in the north

455
00:51:41,220 --> 00:51:51,120
is that correct yeah well it was there was people
in Urban from the ukrainians but that line was the

456
00:51:51,120 --> 00:51:59,220
neck defensive line if the Russians took Urban
so that River would have been a an obstacle for

457
00:51:59,220 --> 00:52:06,000
the Russians to get across that's why the bridges
have gone so that would have been so that UAP flew

458
00:52:06,840 --> 00:52:13,380
a foreigner River with basically the Russians on
the um Eastern side and ukrainians on the western

459
00:52:13,380 --> 00:52:20,760
side so flew yeah and this is this is April this
is around about the time do you have an exact date

460
00:52:20,760 --> 00:52:28,500
of when this occurred no I don't I don't know if
there's a Time dates down on any of that video but

461
00:52:29,520 --> 00:52:36,900
and I thought this was a very important point when
we discussed this off camera this is a key moment

462
00:52:36,900 --> 00:52:43,620
in the battle for key isn't it this is one of the
days where it's a deciding point for whether or

463

00:52:43,620 --> 00:52:53,520

not the Russians are going to take Kiev yeah um\h
if Urban would have fell The Next Step was key\h\h

464

00:52:55,080 --> 00:53:01,380

so this is a very strategically important\h
moment in the battle to help save Ukraine\h\h

465

00:53:01,380 --> 00:53:09,000

yes it was yeah uh John you've done a a pretty\h
good job of of maintaining your professional\h\h

466

00:53:09,000 --> 00:53:15,600

distance and telling us what you know and saying\h
what you don't know about the whole sighting\h\h

467

00:53:16,200 --> 00:53:23,580

my question is let's clearly if this happened in\h
April there's been a number of months where you've\h\h

468

00:53:23,580 --> 00:53:30,720

been living with this moment and I'm wondering\h
in your Quiet Moments inside your own head as\h\h

469

00:53:30,720 --> 00:53:36,420

you try to make sense of it what do you think\h
was going on and again I know that part this\h\h

470

00:53:36,420 --> 00:53:42,600

you've you've laid out yeah what what happened\h
very clearly and journalistically now I'm asking\h\h

471

00:53:42,600 --> 00:53:48,540

you to just tell us what your thought process was\h
what do you think you saw and why was it there

472

00:53:49,380 --> 00:53:57,660

I wish I knew um my thought process as I've\h
already mentioned it definitely wasn't military\h\h

473

00:53:58,620 --> 00:54:05,760

definitely just well it definitely wasn't a\h
military item of equipment that I'd ever seen\h\h

474

00:54:06,960 --> 00:54:11,100

ever was it a solid object do\h
you think it was a solid object\h\h

475

00:54:12,480 --> 00:54:16,500

I'm looking at it it's like going back to the\h
car headlights you're looking into bright lights\h\h

476

00:54:17,640 --> 00:54:24,420

I don't know I can't I'm not going to guess all\h
I can say is like I said earlier the shape of it\h\h

477

00:54:24,420 --> 00:54:31,020

appeared to be you know a long oval with tapered\h
ends you know and there's a very bright light\h\h

478

00:54:32,160 --> 00:54:38,400

and then that's all I can say yeah you\h
certainly know your your share of things\h\h

479

00:54:38,400 --> 00:54:43,860

that are flying around in the sky and I\h
think your case demonstrates something\h\h

480

00:54:43,860 --> 00:54:47,040

that people have talked about for years so\h
I just want to get your thoughts on this\h\h

481

00:54:47,940 --> 00:54:54,540

um clearly anything of the capacity to do some of\h
the things that UAP have been described as doing\h\h

482

00:54:54,540 --> 00:55:01,020

could figure out how not to shine bright lights\h
in the night sky right and yet and yet they do\h\h

483

00:55:01,620 --> 00:55:07,920

quite often in terms of their descriptions why
would somebody shine bright lights in a war zone

484

00:55:08,700 --> 00:55:15,840

they wouldn't and that and that's the thing it's
not you know unless it's a you know a very uh

485

00:55:16,560 --> 00:55:21,240

a deception plan for some for something
but nothing happened it's just a bright

486

00:55:21,240 --> 00:55:28,200

light appeared from like I said the free orbs and
flew across the sky at a set out due to set speed

487

00:55:28,200 --> 00:55:35,280

and went outside there was no reason that I could
possibly think of why it was in that battle space

488

00:55:36,660 --> 00:55:44,400

and did you report this to any of the command
structure upstairs John no no and that was

489

00:55:47,580 --> 00:55:55,260

um One is because I mean uh we were foreigners
and I didn't want to go to Ukrainian

490

00:55:55,800 --> 00:56:00,420

you know and say that I've just seen this bright
light in the sky it'd be like what you've been

491

00:56:00,420 --> 00:56:07,560

smoking dude what's the code first came back um
a lot there was obviously there's a stigma to it

492

00:56:09,120 --> 00:56:14,640

I've I've sat at home since I've
been back and I've been reflecting

493

00:56:15,240 --> 00:56:21,240

quite rightly as you mentioned Bryce what is\h
what I see and uh it just got to the point uh\h\h

494

00:56:21,240 --> 00:56:27,180

you know about a week ago whenever it was I just\h
had to you know just get it off my chest so I sent\h\h

495

00:56:27,180 --> 00:56:34,800

the email to to Ross and say this is what I said\h
and this is how I'm here today um yeah it was a\h\h

496

00:56:36,300 --> 00:56:44,340

it's been a mad experience for me you know I'm I'm\h
coming on this program I I love your program guys\h\h

497

00:56:44,340 --> 00:56:51,900

I've seen it before and everything else but it's\h
my reputation as well but I'm I'm I'm hanging out\h\h

498

00:56:51,900 --> 00:57:00,540

there yeah I'm going to get some Flack for it\h
I'm sure probably mates but um the bottom line\h\h

499

00:57:00,540 --> 00:57:06,060

is the problem is that there is this stigma I\h
mean Bryce and I interviewed Ryan Graves the\h\h

500

00:57:06,060 --> 00:57:11,820

um fighter pilot former fighter pilot a few weeks\h
ago and Ryan talked about that same stigma stigma\h\h

501

00:57:11,820 --> 00:57:19,260

but really ultimately what you're talking about is\h
a potential national security issue I mean you're\h\h

502

00:57:19,260 --> 00:57:24,720

there on a battlefield you're you're literally\h
in a position where days earlier you've come\h\h

503

00:57:24,720 --> 00:57:31,320

under artillery and mortifier for good reason\h
you're very very worried about being detected\h\h

504

00:57:31,320 --> 00:57:37,200

the Russians are trying to kill you and then all\h
of a sudden there's this weird highly illuminated\h\h

505

00:57:37,200 --> 00:57:42,660

object hovering a thousand feet above you by any\h
definition that's a military concern isn't it\h\h

506

00:57:43,260 --> 00:57:49,800

yeah it is and I I don't know what the um\h
ukrainians have on their air defense systems\h\h

507

00:57:49,800 --> 00:57:57,060

or radar which they would have had around\h
here yeah you know was that UAP picked up\h\h

508

00:57:58,380 --> 00:58:03,420

I I have no idea um and that might be\h
something to look into from your end\h\h

509

00:58:04,080 --> 00:58:12,060

um because it was a thousand feet up uh John\h
a personal question just because I I'm always\h\h

510

00:58:12,060 --> 00:58:15,900

intrigued there's always a personal part of\h
this what does your wife think about all this\h\h

511

00:58:15,900 --> 00:58:20,640

what is she what conversations have you had\h
when did you tell her what does she think\h\h

512

00:58:20,640 --> 00:58:28,260

what does she think about you being public you\h
know talk to us um she doesn't know yet okay

513

00:58:31,560 --> 00:58:36,540

we broke some news here we made out of broken news to the world but we've broken to his wife

514

00:58:36,540 --> 00:58:43,380

that's good yeah all right so uh no she doesn't know yet but I'm supposed to um what did she

515

00:58:43,380 --> 00:58:51,600

say you've told her though about it haven't you not yet no no um so this this this this will be it

516

00:58:52,380 --> 00:59:02,640

um I it is quite no not embarrassing but it is quite it's quite a big thing for me to be on here

517

00:59:03,360 --> 00:59:09,420

talking about something that the words are coming out my mouth and I can't believe I'm saying them

518

00:59:09,420 --> 00:59:16,500

but it that's what I saw and I'm not gonna sugarcoat it for anybody I'm you know I'm 49 in

519

00:59:16,500 --> 00:59:22,860

January and to be honest now I'm starting to think I don't care what other people think but more

520

00:59:22,860 --> 00:59:28,680

importantly why should you I mean the bottom line is this is what Military and Commercial Witnesses

521

00:59:28,680 --> 00:59:33,720

you know commercial pilot Witnesses particularly this is what should be happening people should be

522

00:59:33,720 --> 00:59:39,360

coming forward and we need to get rid of this stigma that's quite unnecessarily attached to

523

00:59:39,360 --> 00:59:46,860

this issue don't we yeah I I think I think it's\h
going you know I think it is happening slowly but\h\h

524

00:59:46,860 --> 00:59:54,240

um the mainstream media nearly kick up\h
your ass and they need to get involved\h\h

525

00:59:55,200 --> 01:00:02,880

you know prior to this event happening to you John\h
what what was your thought about the UFO UAP issue\h\h

526

01:00:03,420 --> 01:00:12,540

if any I I've always believed that we're not\h
alone I need because if you do if you're not\h\h

527

01:00:12,540 --> 01:00:16,860

common what the equation is now but if you\h
do the maths or the size of the universe\h\h

528

01:00:17,940 --> 01:00:25,980

you know just that simple equation you know\h
we're not alone so that I've always looked up\h\h

529

01:00:25,980 --> 01:00:30,540

at the sky you know I've seen satellites and\h
stuff like that I think oh is that is that\h\h

530

01:00:30,540 --> 01:00:34,740

something is that something but no it's always\h
been a satellite and this is this site was\h\h

531

01:00:34,740 --> 01:00:39,960

totally totally different but that's the first\h
time you've ever seen anything anomalous John\h\h

532

01:00:39,960 --> 01:00:48,000

I I believe I saw uh something about 10 years ago\h
when I was living up in Lincolnshire and um I did\h\h

533
01:00:48,000 --> 01:00:55,320
report it to a local newspaper um that was a sort of
of an orange orb and that was probably about three

534
01:00:55,320 --> 01:01:01,920
to four thousand feet up and it wasn't it wasn't
an aircraft but I couldn't I couldn't discount it

535
01:01:01,920 --> 01:01:08,820
as one of those um it could have been one of those
Chinese lamp things but again that was it wasn't

536
01:01:10,380 --> 01:01:16,860
um that was a steady height and a steady speed
and that looked like it was following the river

537
01:01:16,860 --> 01:01:25,920
route towards King's Lynn um out to the wash and
out to the North Sea but I couldn't 100 say that

538
01:01:25,920 --> 01:01:32,340
wasn't a Chinese Lancer to be honest but it looked
enormous to me and so John tell me this so the one

539
01:01:32,340 --> 01:01:39,060
thing I'm very happy to hear if you were you were
listening and watching need to know episodes in

540
01:01:39,060 --> 01:01:47,520
urine would you yeah I did yeah um obviously uh in
in the uh in the time we had you know between Ops

541
01:01:48,600 --> 01:01:53,820
um we had one of the um Elma Skye
link fees so we could get internet

542
01:01:55,200 --> 01:02:02,040
um so that yeah I've just interested in
something like uh like Lou and uh Jeremy

543

01:02:02,040 --> 01:02:06,660

you know I've always listened to what\h
they they want to say in it it's it's\h\h

544

01:02:06,660 --> 01:02:11,460

very interesting it's very interesting the\h
guy the work you guys do behind the scenes\h\h

545

01:02:11,460 --> 01:02:19,380

because it's not just you know the sightings\h
it's also the the the mountain of paperwork\h\h

546

01:02:19,380 --> 01:02:24,660

the government being a part where all governments\h
being a pain at the backside to to release stuff\h\h

547

01:02:24,660 --> 01:02:32,040

and trying to link it's like it's like having\h
a jigsaw puzzle and you're nearly completed it\h\h

548

01:02:32,040 --> 01:02:36,900

but your little brother's hid five of the pieces\h
all over the house and you're trying to find them\h\h

549

01:02:37,500 --> 01:02:45,480

to finish a puzzle but I think we're we're close\h
to finishing that puzzle but it's going to take a\h\h

550

01:02:45,480 --> 01:02:51,720

lot of work to do uh John when we started uh the\h
show and you were you were able to listen to what\h\h

551

01:02:51,720 --> 01:02:57,240

we were talking about you know we were talking\h
about the idea that the energy behind Congress\h\h

552

01:02:57,240 --> 01:03:03,480

seems to be National Security that they're they're\h
talking about we need to know this not because\h\h

553

01:03:03,480 --> 01:03:11,100

we're all that interested in are we alone but\h
we're interested in are we safe right so yeah\h\h

554

01:03:11,100 --> 01:03:16,380

people have different responses when they see\h
something anomalous some people are in awe some\h\h

555

01:03:16,380 --> 01:03:21,900

people are afraid some people don't see it at all\h
uh while other people may be looking at the same\h\h

556

01:03:21,900 --> 01:03:28,680

thing and seeing it what was your overriding\h
sense are do you feel we have something to be\h\h

557

01:03:29,220 --> 01:03:35,340

concerned about do you feel that there is a\h
threat behind the kind of thing that you saw

558

01:03:38,400 --> 01:03:40,020

that's a good question um

559

01:03:42,240 --> 01:03:48,600

I don't I I at that time I didn't bear in mind\h
I was in a war zone for that sighting I didn't\h\h

560

01:03:48,600 --> 01:03:53,940

feel threatened at all I was just I was just\h
in awe of it uh to be honest but in general\h\h

561

01:03:54,600 --> 01:04:02,400

I suppose you only sort of safety issue if you've\h
got uncontrolled things flying around in the sky\h\h

562

01:04:02,400 --> 01:04:09,360

you know you've got aircraft helicopters you\h
know you've got Weber balloons you've got drones\h\h

563

01:04:09,360 --> 01:04:18,660

something sometimes going to get hit and fall\h
out the sky so that's the only sort of fret I see\h\h

564

01:04:19,920 --> 01:04:28,260

um well I can perceive with with um anomalies\h
in the sky well I for one John applaud I'm sure\h\h

565

01:04:28,260 --> 01:04:32,820

Bryce does as well I think it's commendable\h
that you've approached it and come forward and\h\h

566

01:04:32,820 --> 01:04:37,800

I think what you've described of what you saw\h
on a battlefield in Ukraine on the outskirts\h\h

567

01:04:37,800 --> 01:04:44,700

of Kiev a peak moment in the war a decisive\h
moment in the battle to save Kiev from Russian\h\h

568

01:04:44,700 --> 01:04:51,240

invasion I think it's very significant and\h
just maybe there was just maybe there was some\h\h

569

01:04:52,200 --> 01:04:59,100

non-human intelligence taking an interest in\h
what is probably going to be remembered as a\h\h

570

01:04:59,100 --> 01:05:04,980

very important moment in history and I I want\h
to thank you very very much for for sharing\h\h

571

01:05:04,980 --> 01:05:14,220

your account with us that's what is my pleasure\h
um yeah it's uh John we are we often people in\h\h

572

01:05:14,220 --> 01:05:18,900

your position often get thanked for their service\h
I want to thank you for your observation I want\h\h

573

01:05:18,900 --> 01:05:25,320

to thank you for coming forward with it and I I\h
hope that the lesson uh that that this very show\h\h

574

01:05:26,100 --> 01:05:32,340

makes and that your appearance makes is that\h
we're going to need more of this not less we\h\h

575

01:05:32,340 --> 01:05:38,400

need more people speaking in the public forum\h
and not behind closed doors and not for reports\h\h

576

01:05:38,400 --> 01:05:43,800

that never get seen by the public so what you've\h
done uh I well I'm just going to speak up for you\h\h

577

01:05:43,800 --> 01:05:49,620

to your wife oh thanks I'm glad that John did\h
this he's a true hero to come forward like this\h\h

578

01:05:49,620 --> 01:05:59,400

and I hope you take her out to dinner and and\h
and give her the bottom line all right now well\h\h

579

01:05:59,400 --> 01:06:04,140

John we're all we're all we can all be accused of\h
that but listen I also do want to thank you for\h\h

580

01:06:04,140 --> 01:06:09,960

your service I mean we all watch on with horror at\h
what's unfolding in Ukraine and we yeah powerless\h\h

581

01:06:09,960 --> 01:06:15,240

and it's wonderful that a person with your skill\h
set was able to go over there and have the courage\h\h

582

01:06:15,240 --> 01:06:21,300

to go and do what you did which was incredibly\h
Brave behind the lines and I do know I'm in touch\h\h

583

01:06:21,300 --> 01:06:27,300

with other members of your team who hopefully
in future episodes of need to know will be able

584

01:06:27,300 --> 01:06:33,660

to corroborate what you saw and really just want
to say thank you thank you very very much for uh

585

01:06:33,660 --> 01:06:38,040

for joining us and I think we actually have to
bring it to an end Bryce that even though this

586

01:06:38,040 --> 01:06:44,040

has been a very compelling episode yeah we're
coming to an end of uh this episode of need to

587

01:06:44,040 --> 01:06:49,380

know but I can assure you we will be covering
this issue we will be approaching the Ukrainian

588

01:06:49,380 --> 01:06:54,900

government and asking them if they had radar we'll
try and get some more details on exactly when this

589

01:06:54,900 --> 01:07:01,680

incident occurred Bryce and I will probably put an
article up on uh the trail of the sources medium

590

01:07:01,680 --> 01:07:07,980

page that we operate that gives more detail of
this account and um I think that brings this

591

01:07:07,980 --> 01:07:13,080

episode of need to know to an end and thank you
very much to you John Chapman and welcome we'll
