

A glowing, oval-shaped light source, possibly a planet or a nebula, is centered in the upper half of the frame. The background is a dark, starry space with some faint, wispy clouds of light.

EPIISODE #23

"CORE SECRET"

1
00:00:00,060 --> 00:00:00,720
foreign

2
00:00:12,720 --> 00:00:18,000
everybody Welcome to a new episode of need\h
to know we're coming to you globally today\h\h

3
00:00:18,000 --> 00:00:23,700
I'm Bryce Abel I'm up north of Los Angeles and\h
let me bring in my partner in crime here Ross\h\h

4
00:00:23,700 --> 00:00:28,740
coldhart who is somewhere south of Sydney how\h
you doing Roscoe g'day from Down Under how are\h\h

5
00:00:28,740 --> 00:00:34,260
you bros I see you've been gallivanting around\h
UFO conferences the last week it's been a busy\h\h

6
00:00:34,260 --> 00:00:41,040
last month for me but you're right yeah last week\h
I was at the international UFO Congress which was\h\h

7
00:00:41,040 --> 00:00:49,680
in Mesa Arizona this week put on by Karen Broad\h
and Alejandro Rojas and lots well there a lot\h\h

8
00:00:49,680 --> 00:00:56,160
of good information uh being exchanged and then I\h
also right after that uh did the Q a here in Los\h\h

9
00:00:56,160 --> 00:01:01,740
Angeles at LA Live with James Fox over his new uh\h
moment of Contact movie so it's been a busy time\h\h

10
00:01:02,520 --> 00:01:07,620
now you gave a speech I understand that the\h
Congress along with a number of other panelists\h\h

11

00:01:07,620 --> 00:01:15,420
on the issue of estimate of the situation\h
will 2023 Sizzle or fizzle what did you decide

12
00:01:23,820 --> 00:01:24,060
foreign

13
00:01:26,760 --> 00:01:33,060
well you know you and I have talked about this\h
enough you probably already know all this uh in\h\h

14
00:01:33,060 --> 00:01:39,540
fact we talked about it in the last episode I\h
feel like uh we're gonna get some Sizzle here I\h\h

15
00:01:39,540 --> 00:01:45,300
just everything I hear from my sources and that\h
you seem to hear from your sources and uh that\h\h

16
00:01:45,300 --> 00:01:51,120
what the way people are talking seems to be that\h
there are some surprises ahead and I'm gonna if I\h\h

17
00:01:51,120 --> 00:01:57,480
had to put my chips on the table and go all in on\h
either either one I'd go in on Sizzle over fizzle\h\h

18
00:01:57,480 --> 00:02:04,500
well we do know my friend that as of late last\h
year the National Defense authorization Act\h\h

19
00:02:04,500 --> 00:02:12,540
of the United States Congress required that no\h
later than the 31st of October 2022 and annually\h\h

20
00:02:12,540 --> 00:02:18,840
for the next four years on the director shell in\h
consultation with the Secretary of Defense submit\h\h

21
00:02:18,840 --> 00:02:25,140

to the approach appropriate Congressional
committee's report on unidentified aerial

22
00:02:25,140 --> 00:02:32,640
phenomena so the big question is what is that
report going to say you are really uh singing

23
00:02:32,640 --> 00:02:37,200
from my prayer book my friend because uh you
know I've been writing this trend since July

24
00:02:37,200 --> 00:02:42,780
when they've when we first were talking about it
we got the calendar out and said October 31st is

25
00:02:42,780 --> 00:02:47,040
when they'll put it out because that's the last
one they had to put out they could put it out on

26
00:02:47,040 --> 00:02:53,280
as late as June 25th 2021 and that's the day they
put it out so I think we can bet for October 31st

27
00:02:53,280 --> 00:02:59,580
and uh I a couple of comments one that's Halloween
so that's kind kind of interesting a nice surprise

28
00:02:59,580 --> 00:03:04,980
there and maybe we'll get candy as well who knows
and then the the second part of that is of course

29
00:03:04,980 --> 00:03:12,240
that it is eight days before the U.S midterms so
if something actually major comes out in that uh

30
00:03:12,240 --> 00:03:18,060
it could be uh it could be political it could get
into various debates I mean certainly some of the

31
00:03:18,060 --> 00:03:24,660

candidates the the October surprise well that's\h
what you wisely speculated that is the train I've\h\h

32

00:03:24,660 --> 00:03:30,060

been riding on my friend so you actually have\h
heard from a few people who uh you know because\h\h

33

00:03:30,060 --> 00:03:36,000

listen up until now whenever I start blathering\h
on about the October surprise I get told by people\h\h

34

00:03:36,000 --> 00:03:41,520

hey settle down settle down you know maybe they'll\h
postpone it it might not be that big a deal and\h\h

35

00:03:41,520 --> 00:03:47,640

Etc and I keep thinking well given where they\h
were in the last one from June 25th of 2021\h\h

36

00:03:47,640 --> 00:03:55,140

the October 31st 2022 is going to have to advance\h
that debate somewhat and I keep thinking it could\h\h

37

00:03:55,140 --> 00:04:00,540

have something that could be kind of memorable in\h
it what are you hearing well Mike frankly a dead\h\h

38

00:04:00,540 --> 00:04:06,300

rat a flaccid dead rat would be better than what\h
was delivered in June 2021 I mean really it wasn't\h\h

39

00:04:06,300 --> 00:04:11,760

much but I I am actually hearing that things could\h
be interesting at the end of this month that there\h\h

40

00:04:11,760 --> 00:04:17,820

may be something coming up but look I have to\h
admit I've been wavering between optimism and\h\h

41

00:04:17,820 --> 00:04:24,540

dark pessimism recently uh I'm I'm very worried\h
that because of the international situation the\h\h

42
00:04:24,540 --> 00:04:29,580
deteriorating economic situation there are\h
so many things coming on the agenda that are\h\h

43
00:04:29,580 --> 00:04:36,180
distracting our opinion leaders in Congress from\h
making a a decision about what to do as far as\h\h

44
00:04:36,180 --> 00:04:45,240
Congressional hearings go and I'm still I suppose\h
optimistic but I urge the belief that there are\h\h

45
00:04:45,240 --> 00:04:50,700
forces that are incredibly powerful who are going\h
to try and yes there will be whistleblowers but\h\h

46
00:04:50,700 --> 00:04:55,320
they're going to try and keep it all in camera\h
in private Committee in the Congress and also\h\h

47
00:04:55,320 --> 00:05:00,600
as our friend Chris sharp as pointed out in an\h
article that he did for his Liberation times and\h\h

48
00:05:00,600 --> 00:05:06,540
the Daily Mail on the last week or so um they've\h
already been hearings you know there are already\h\h

49
00:05:06,540 --> 00:05:12,660
Witnesses who've come forward and Chris is punting\h
in his article basically saying that he thinks uh\h\h

50
00:05:12,660 --> 00:05:18,480
from what he's hearing from his sources that\h
we are talking about Revelations of possible\h\h

51
00:05:18,480 --> 00:05:23,280

crash retrievals and that there might in fact be
admissions being made if not already made about

52

00:05:23,280 --> 00:05:30,360

crash retrievals and back engineering programs
so I'm optimistic cautiously optimistic for the

53

00:05:30,360 --> 00:05:35,220

end of this month that drives with some of what
I'm hearing and I just want to differentiate when

54

00:05:35,220 --> 00:05:42,180

you said you were you thought the June 25th 2021
report that was released was not such a big deal

55

00:05:43,020 --> 00:05:50,520

um I I I want to make clear something there was
a May 17th of 2022 hearing that I for sure uh

56

00:05:50,520 --> 00:05:58,380

agree with you was a complete flaccid piece of
wet lettuce and and not a good uh you know not

57

00:05:58,380 --> 00:06:04,500

a good indicator of where we're going but I really
do want to stand up for the June 25th 2021 report

58

00:06:04,500 --> 00:06:09,180

I've read it again recently and while you know
listen I would have liked it if they would have

59

00:06:09,180 --> 00:06:13,800

just said and we got a wreckage here and this
happened then and they didn't do that but again

60

00:06:13,800 --> 00:06:21,660

that report did something that was Radical for
the U.S government they were real and it said

61

00:06:21,660 --> 00:06:26,520

we don't make them so I'll give you that that is\n significant and more importantly it admitted that\n

62

00:06:26,520 --> 00:06:34,500

it could not prosaically explain the vast majority\n 143 out of 144 events that they were looking at\n

63

00:06:34,500 --> 00:06:39,660

solving mainly military sightings so yeah I'll\n give you that but I'm still I guess in the\n

64

00:06:39,660 --> 00:06:45,420

context of what you and I know about the history\n of the phenomenon it does seem irksome that here\n

65

00:06:45,420 --> 00:06:51,720

we are 77 years on from the end of World War II\n and we're still arguing about some pretty silly\n

66

00:06:51,720 --> 00:06:56,100

things about whether or not the Congress should\n be disclosing it so I'm I'm looking in terms of\n

67

00:06:56,100 --> 00:07:02,940

the last century frankly and what really is known\n on the public record in official documents and in\n

68

00:07:02,940 --> 00:07:08,580

historical records and how there is this cognitive\n dissonance between what we know from the history\n

69

00:07:08,580 --> 00:07:14,400

and and what's being admitted why has it taken\n so long what do they know that they don't want\n

70

00:07:14,400 --> 00:07:19,800

to reveal this is why we're such good friends\n because I love anybody that can drop the the line\n

71

00:07:19,800 --> 00:07:25,560

cognitive dissonance in a sentence and I love that\h
that because it is cognitive dissonance it's where\h\h

72

00:07:25,560 --> 00:07:31,620

you know something to be true but you're actually\h
being told that it's not and and you just can't\h\h

73

00:07:31,620 --> 00:07:37,080

square that thing listen I want to just go back\h
for a moment to the iufoc where I spoke last week\h\h

74

00:07:37,080 --> 00:07:41,820

that you we started talking about there were a\h
lot of people there that were you know kind of\h\h

75

00:07:41,820 --> 00:07:47,220

interesting people Brian Bender from Politico\h
Alejandro Rojas Micah Hanks from the debrief\h\h

76

00:07:47,220 --> 00:07:56,340

uh Michael Masters um was there uh so was uh John\h
Ramirez Travis Walton David Marler James Fox Lynn\h\h

77

00:07:56,340 --> 00:08:01,320

kataya I mean a lot of interesting people and the\h
thing that I took away from it or two things one\h\h

78

00:08:01,320 --> 00:08:07,740

attendance was way down and I think that's because\h
the um the pandemic has just gotten people out\h\h

79

00:08:07,740 --> 00:08:11,280

of the habit of getting out of the house so\h
it's going to take some rebuilding for them\h\h

80

00:08:11,280 --> 00:08:16,260

they've had to be virtual the last two years but\h
I thought there was a lot of energy in the rooms\h\h

81

00:08:16,260 --> 00:08:22,380

that were there because people know that we're on the fifth anniversary uh in two months of that New

82

00:08:22,380 --> 00:08:27,420

York Times times reporting that kind of you know put us all out there and got us going so I found

83

00:08:27,420 --> 00:08:33,900

a lot of energy there and I I think that a lot of people are are very similar to what you and I are

84

00:08:33,900 --> 00:08:41,580

doing we we know enough to feel that there is the possibility of huge change radical change and at

85

00:08:41,580 --> 00:08:47,880

the same time we hear the Rumbings that there is a pushback going on among the people who actually

86

00:08:47,880 --> 00:08:55,080

are you know running uh the situation so yeah it's uh it's a it's a tough choice for everybody

87

00:08:55,080 --> 00:09:02,220

but again there is reason for some optimism and that's kind of what I want to put out here today

88

00:09:02,220 --> 00:09:07,680

there's another anniversary too it's not just the fifth anniversary of the New York Times 2017

89

00:09:07,680 --> 00:09:14,400

Story coming up but it's also coming up to the well actually it's the 20th anniversary of the

90

00:09:14,400 --> 00:09:22,980

Admiral Wilson memo the ewd notes the purported meeting between Admiral Tom Wilson of the DIA

91

00:09:22,980 --> 00:09:30,600

formerly of the DIA and Dr Eric Davis in a car
park outside EG and G's headquarters in Las Vegas

92

00:09:31,740 --> 00:09:36,840

um did it happen we're going to get more into that
a bit later aren't we Bryce it's like a spy novel

93

00:09:36,840 --> 00:09:42,000

The Wilson Davis memo and we keep talking about
it and I have to say I was on a panel that was

94

00:09:42,000 --> 00:09:49,020

moderated by Brian Bender of Politico and it
had Alejandro and Micah Hanks and myself and

95

00:09:49,020 --> 00:09:54,780

Michael Masters on and the most contentious part
of that panel was uh Brian asking everybody what

96

00:09:54,780 --> 00:10:01,620

they thought about the Wilson Davis memo Brian
uh thought it was fake uh Alejandro thought

97

00:10:01,620 --> 00:10:07,680

he was skeptical um so there there was some
difference of opinion on it I think there's

98

00:10:07,680 --> 00:10:12,960

a lot to it and that's why uh folks in in the next
segment we're going to be talking about it in fact

99

00:10:12,960 --> 00:10:17,700

Ross you and I are going to do a dramatic interp
of it because it's been accused of reading like a

100

00:10:17,700 --> 00:10:22,680

screenplay sometimes so we feel like if it reads
like a screenplay maybe a couple of hack actors

101

00:10:22,680 --> 00:10:28,140

like us should try to talk about it listen there's\h
just a little more housekeeping we should do\h\h

102

00:10:28,680 --> 00:10:33,840

um while we're you know while we're in our first\h
uh segment here just because there's so many\h\h

103

00:10:33,840 --> 00:10:41,100

interesting things that are going on right now um\h
our mutual friend Ben Hansen has broken a story\h\h

104

00:10:41,100 --> 00:10:47,640

about the so-called racetrack UFOs and those are\h
UFOs that have been seen by numerous uh commercial\h\h

105

00:10:47,640 --> 00:10:55,500

pilots in August of of this year and he's uh he's\h
done a deep dive into it the debrief just today\h\h

106

00:10:55,500 --> 00:11:01,500

did their own article talking about it and so uh\h
just hats off to Ben for some you know good solid\h\h

107

00:11:02,520 --> 00:11:08,700

um investigative reporting we like to hear that\h
and can I can I also mention well before we go\h\h

108

00:11:08,700 --> 00:11:13,140

on from that one can I also mention it's very\h
significant what Ben's revealed because one\h\h

109

00:11:13,140 --> 00:11:18,060

of the things that I think his investigation\h
highlights is that there's whilst there's now\h\h

110

00:11:18,060 --> 00:11:24,000

a requirement that mandates that military Pilots\h
come forward with their sightings of uaps there's\h\h

111

00:11:24,000 --> 00:11:29,880

no such equivalent with commercial pilots and so
what I thought was really heartening was that Ryan

112
00:11:29,880 --> 00:11:37,320
Graves our mutual friend the ex fa-18 pilot who
we interviewed a few weeks ago um he's part of the

113
00:11:37,320 --> 00:11:43,920
American Institute of Aeronautics and astronautics
and it has established three committees to study

114
00:11:43,920 --> 00:11:50,760
uaps and how these occur incursions are affecting
pilot and passenger safety and to coordinate with

115
00:11:50,760 --> 00:11:55,680
government agencies and international researchers
and so it's actually quite an exciting development

116
00:11:55,680 --> 00:12:03,660
that a reputable International body like the
aiaa which is a peak organizer for Aeronautics

117
00:12:03,660 --> 00:12:09,660
and astronautics is actually engaging and taking
this issue seriously and I I think it's only to

118
00:12:09,660 --> 00:12:16,620
be applauded and Ryan's working with Ravi
koparapu a planetary scientist at Nasa and

119
00:12:17,160 --> 00:12:22,560
um they're damn serious about getting to the
bottom of this and collecting data which I think

120
00:12:22,560 --> 00:12:30,660
is an absolutely key issue it it not only is it
key Ross but what I like about that story and uh

121
00:12:30,660 --> 00:12:36,480

some of the other organizations from the Galileo\h
project to the Enigma folks and to uh you know\h\h

122

00:12:36,480 --> 00:12:40,620

just all of the things that we've been talking\h
about that world that's part of the reason for\h\h

123

00:12:40,620 --> 00:12:47,520

my optimism it is that we are no longer must\h
wait only for the government or any government\h\h

124

00:12:47,520 --> 00:12:53,460

to tell us something about what's real we can do\h
a lot of This research for ourselves and so for\h\h

125

00:12:53,460 --> 00:12:59,640

example these commercial pilots and the racetrack\h
UFO situation some of them are still worried about\h\h

126

00:12:59,640 --> 00:13:06,000

stigma they're still worried that if they could\h
even find somebody to report this to that they\h\h

127

00:13:06,000 --> 00:13:12,840

would be uh made fun of or possibly grounded and\h
you know I think it's 2022. it's a little late in\h\h

128

00:13:12,840 --> 00:13:18,900

the game to be making our commercial pilots afraid\h
to tell people about things that they actually see\h\h

129

00:13:18,900 --> 00:13:23,460

with their own eyes and with their own equipment\h
so hopefully we're going to be able to put those\h\h

130

00:13:23,460 --> 00:13:28,740

kind of things to bed and now we would be we\h
would be remiss Bryce in not acknowledging our\h\h

131

00:13:28,740 --> 00:13:35,820

friend and colleague James Fox's yeah fantastic
premiere of moment of contact which I think you

132

00:13:35,820 --> 00:13:40,440

were the co-host of you actually interviewed James
on stage didn't you can you tell us a bit about

133

00:13:40,440 --> 00:13:47,460

that thank you for bringing that up it's uh James
was not only at the iufoc but then as soon as

134

00:13:47,460 --> 00:13:54,420

left that uh he had the world premiere of his
moment of contact film uh here in Los Angeles

135

00:13:54,420 --> 00:14:02,220

at the LA Live Regal Theater which is a lovely
impressive giant uh theater and it was really

136

00:14:02,220 --> 00:14:09,060

astonishing to watch his film which I had seen as
you had on our computers at home this one was you

137

00:14:09,060 --> 00:14:15,180

know gigantic I mean it was like watching it on
an IMAX really really stellar and um yeah I did

138

00:14:15,180 --> 00:14:19,920

I introduced James who introduced his film and
then the film came on and then afterwards we did

139

00:14:19,920 --> 00:14:27,060

uh the Q a and what I thought was fun about the Q
a is that a lot of times in Hollywood the studios

140

00:14:27,060 --> 00:14:31,620

when they have a movie come out we'll just have
you know somebody who maybe has seen the movie

141

00:14:31,620 --> 00:14:36,240

doesn't really know that much about it certainly\h
isn't there to pull anything really radical out\h\h

142

00:14:36,240 --> 00:14:43,800
of anybody other than some stories from the Set uh\h
instead James got me and I've seen the film twice\h\h

143

00:14:43,800 --> 00:14:48,300
and I know a few things about it and I thought\h
it was very interesting to sit down with them\h\h

144

00:14:48,300 --> 00:14:53,160
and and pull apart some of the the interesting\h
things that are in it for those of you who don't\h\h

145

00:14:53,160 --> 00:15:00,840
know uh moment of contact is James's passion James\h
Fox's passion project it deals with the Virginia\h\h

146

00:15:01,500 --> 00:15:12,660
uh UFO crash and retrieval with bodies and all of\h
that in Virginia Brazil in 1996. two years after\h\h

147

00:15:12,660 --> 00:15:22,020
the uh you know the case in uh is it Rwanda\h
is not Rwanda in Zimbabwe excuse me yeah so\h\h

148

00:15:22,020 --> 00:15:28,080
uh a fascinating case and and James literally\h
went to Brazil and talked to all the witnesses\h\h

149

00:15:28,080 --> 00:15:35,700
and uh it literally is as the film suggests the\h
uh Roswell of Brazil so it was fascinating for\h\h

150

00:15:35,700 --> 00:15:40,680
him to do it because it literally proves the\h
point of why you and I do this podcast okay\h\h

151

00:15:40,680 --> 00:15:45,360

you and I are doing it you're in Australia and
I'm here in the United States and yeah we have

152

00:15:45,360 --> 00:15:50,160

some technical issues from time to time because
we're trying to do a streaming podcast but the

153

00:15:50,160 --> 00:15:55,020

the underlying reality of what we're trying to do
is to say this isn't a United States problem and

154

00:15:55,020 --> 00:16:01,440

the United States is not in charge of it uh the
the world is dealing with this issue right now

155

00:16:01,440 --> 00:16:08,520

and uh that includes your country and it includes
Brazil and um anyway for people that would uh like

156

00:16:08,520 --> 00:16:13,320

to know a little bit more about it's a good
watch it's not in theaters it's streaming

157

00:16:13,320 --> 00:16:19,080

it's called moment of contact it's the James Fox
follow-up To His Brilliant film The phenomenon

158

00:16:20,040 --> 00:16:27,300

now coming up next I'll need to know we
finally delve into the Intriguing mystery

159

00:16:27,300 --> 00:16:36,900

of the so-called ewd notes the Admiral
Wilson memo we go Broadway can't wait

160

00:16:52,500 --> 00:16:57,720

welcome back to need to know now as Bryce
mentioned at the UFO Congress one of the

161

00:16:57,720 --> 00:17:03,900

issues that came up in the panel that he was a
co-panelist on is the Admiral Wilson memo and for

162

00:17:03,900 --> 00:17:09,960

those of us who aren't aware of this document
it's an alleged record of a conversation that

163

00:17:09,960 --> 00:17:18,000

took place between Dr Eric Davis a renowned and
well-respected Aerospace physicist who works for

164

00:17:18,000 --> 00:17:23,940

the Aerospace Corporation now and Admiral Tom
Wilson who was at the time the immediate past

165

00:17:23,940 --> 00:17:28,920

former director of the defense intelligence
agency of the United States defense department

166

00:17:29,640 --> 00:17:36,960

and in that memo there are recorded alleged
transcripts of the most extraordinary conversation

167

00:17:36,960 --> 00:17:43,680

and the big issue that Bryce and I have been
discussing for many many moons is just how

168

00:17:43,680 --> 00:17:49,260

real is that document because a lot of people of
course have suggested haven't they Bryce that this

169

00:17:49,260 --> 00:17:54,720

is just a screenplay and I think even our friend
Brian Bender was skeptical at the conference you

170

00:17:54,720 --> 00:17:59,760

were at last weekend suggesting that it you know
it really does it does read a little bit like a

171

00:17:59,760 --> 00:18:04,620

screenplay you know before we get deeper into
it let me ask a couple of questions here that

172

00:18:04,620 --> 00:18:10,500

maybe you know the answer to and I honestly I in
preparation for this uh episode we're doing not

173

00:18:10,500 --> 00:18:15,660

only did I read your fine book in plain sight and
read your chapter on this but I also read Richard

174

00:18:15,660 --> 00:18:22,020

Dolan's original uh article about it listen to him
talk about it in one of his podcasts and actually

175

00:18:22,020 --> 00:18:27,780

reread the memo so I feel all tuned up if you will
but there were two things that struck me and I

176

00:18:27,780 --> 00:18:36,780

really feel we should get get to them one is this
is these are the notes of uh Dr Eric Davis and

177

00:18:36,780 --> 00:18:43,080

these are the most complete notes I've ever seen
and he obviously didn't take them in real time and

178

00:18:43,080 --> 00:18:50,280

I know that my memory uh being what it is I could
never have done what he did here Ross do we know

179

00:18:50,280 --> 00:18:57,540

if Eric Davis has a photographic memory because
friends of Erica have actually vouched for the

180

00:18:57,540 --> 00:19:02,460

fact that he does have the most extraordinary
memory but as you'll see in the course of our

181

00:19:02,460 --> 00:19:08,580

analysis by reading this document I suspect there\h
was a tape rolling I suspect that there was a\h\h

182

00:19:08,580 --> 00:19:14,520

digital recorder so let me roll back a little bit\h
let me just ask you one before you do though \h\h

183

00:19:14,520 --> 00:19:18,840

just want to ask this other question that I feel\h
you might know because you really researched it\h\h

184

00:19:18,840 --> 00:19:24,480

what's the provenance of the chain of title\h
this thing was found in Apollo 14 astronaut\h\h

185

00:19:24,480 --> 00:19:32,520

Edgar Mitchell's garage how did it get there okay\h
Edgar Mitchell was part of the National Institute\h\h

186

00:19:32,520 --> 00:19:38,820

of Discovery Science which was established by\h
Robert Bigelow the Aerospace entrepreneur and\h\h

187

00:19:38,820 --> 00:19:45,300

he funded Bigelow funded uh Edgar to be part of\h
the scientific advisory panel for nids when it\h\h

188

00:19:45,300 --> 00:19:51,600

was doing its investigations into uaps and frankly\h
the Paranormal that places like Skinwalker Ranch\h\h

189

00:19:52,260 --> 00:20:00,180

but it all goes back a lot earlier to a meeting\h
that took place in 1997 between Dr Stephen Greer\h\h

190

00:20:00,180 --> 00:20:06,780

of the um uh what does he call himself these\h
days the disclosure project a controversial\h\h

191

00:20:06,780 --> 00:20:12,480

figure in ufology but I will credit him that
he absolutely right that this meeting took

192

00:20:12,480 --> 00:20:18,300

place so he turned up at the Pentagon and had
a meeting with the then deputy director of the

193

00:20:18,300 --> 00:20:25,440

DIA Admiral Tom Wilson and attending that
meeting was a woman called Sherry adamiak

194

00:20:25,440 --> 00:20:30,960

who was one of Edgar Mitchell's co-co colleagues
on the disclosure project uh Edgar Mitchell the

195

00:20:30,960 --> 00:20:35,580

Apollo 14 astronaut who probably got them in
the door at the DIA because he's an astronaut

196

00:20:35,580 --> 00:20:39,480

and people led astronauts in the door and
circumstances where they otherwise wouldn't

197

00:20:40,980 --> 00:20:47,340

um and uh there was also Commander Willard Miller
who was a former military colleague of um Admiral

198

00:20:47,340 --> 00:20:54,180

Tom Wilson who facilitated the introduction to
the Admiral and in that meeting it was put by

199

00:20:54,180 --> 00:21:01,020

Greer to the Admiral that there were things being
concealed inside the Department of Defense that he

200

00:21:01,020 --> 00:21:07,140

ought properly to be investigating and if we are
to believe the Admiral Wilson memo what happened

201

00:21:07,140 --> 00:21:13,080

as a result of that meeting was what is detailed
in the transcripts of this so-called Admiral

202

00:21:13,080 --> 00:21:21,540

Wilson memo the ewd notes and they record what
Admiral Tom Wilson told allegedly Dr Eric Davis

203

00:21:21,540 --> 00:21:32,760

in 2002 August 2002 almost 20 years ago to the
day in a car park at E G and G the apocrypha

204

00:21:32,760 --> 00:21:40,140

organization that does a lot of logistics for Area
51 and they allegedly sat in the back of a car

205

00:21:40,140 --> 00:21:48,420

in the EG and G car park in Las Vegas and
had this conversation and and by the way uh

206

00:21:48,420 --> 00:21:55,380

you do an injustice to our anniversary it wasn't
August it was October 16th of oh sorry October

207

00:21:55,380 --> 00:22:01,080

you're absolutely right this literally is the 20th
anniversary week so uh Happy Anniversary Wilson

208

00:22:01,080 --> 00:22:08,100

Davis memo and Ross and I we did not bake a cake
um because neither of us are good at baking cakes

209

00:22:08,100 --> 00:22:17,820

but we did get our respective documents out and
highlight them now admittedly Ross uh last episode

210

00:22:17,820 --> 00:22:23,640

I said maybe we need to do a dramatic interp of
this thing and read it and foolishly we've decided

211

00:22:23,640 --> 00:22:30,060

to do exactly that um not read the entire thing\h
folks but there it it has been accused of reading\h\h

212

00:22:30,060 --> 00:22:37,080

like a screenplay like like we said so um I guess\h
the luck of the draw is that I will be playing\h\h

213

00:22:37,980 --> 00:22:44,640

is so ridiculous I'll be playing Eric Davis uh\h
today and Ross you'll be playing Thomas Wilson\h\h

214

00:22:44,640 --> 00:22:52,500

April Tom Wilson folks just uh if you've got\h
your own we're starting on page eight here\h\h

215

00:22:53,400 --> 00:23:01,320

um there was a lot of stuff that Ross uh you\h
know brought up earlier um that precedes it but\h\h

216

00:23:01,320 --> 00:23:06,000

this is kind of the the tone of the thing and we\h
just thought you know it might be interesting to\h\h

217

00:23:06,000 --> 00:23:11,400

be driving in a car or relaxing watching your\h
YouTube or whatever and just sort of hear it\h\h

218

00:23:11,400 --> 00:23:16,680

read out loud and and ask yourself you know\h
for your own purposes does it sound authentic\h\h

219

00:23:16,680 --> 00:23:25,200

so I'm going to start with Eric Davis on page\h
eight who says so what special access program\h\h

220

00:23:25,200 --> 00:23:34,200

compartment did you find this in core secret\h
won't say code name again won't say core Secret\h\h

221

00:23:35,280 --> 00:23:40,320

who was the project contractor or U.S.\h
government agency that runs the program\h\h

222

00:23:41,520 --> 00:23:49,620

an aerospace technology contractor one\h
of the top ones in the U.S who are secret\h\h

223

00:23:50,280 --> 00:24:00,240

can't tell a defense contractor yes the best of\h
them intelligence too in their corporate portfolio\h\h

224

00:24:01,140 --> 00:24:11,160

give a hint sorry no what happened when you\h
found the contractor I made several calls end\h\h

225

00:24:11,160 --> 00:24:18,720

of May 97 first to Paul Mike and Perry their\h
senior defense Department officials to confirm\h\h

226

00:24:18,720 --> 00:24:25,500

I had the right contractor and program\h
manager to talk to did they confirm yeah\h\h

227

00:24:26,820 --> 00:24:34,260

then made three calls end of May 1997 to the\h
program manager one of them conference call with\h\h

228

00:24:34,260 --> 00:24:40,140

security director and corporate attorney confusion\h
on their part as to why I was looking for them and\h\h

229

00:24:40,140 --> 00:24:46,320

what I wanted from them or wanted to know about\h
very testy tone from all of them what do you mean\h\h

230

00:24:46,320 --> 00:24:55,140

they were agitated about my calling surprised\h
by call what you asked them yeah what was that\h\h

231

00:24:55,140 --> 00:25:03,540

what words I told I read their program record\
in the uzdet the office of the under secretary\

232

00:25:03,540 --> 00:25:09,540
for defense something or other in technology\
special programs record group and wanted to\

233

00:25:09,540 --> 00:25:16,500
know about their crashed UFO program what their\
role in that was what they had also asked if\

234

00:25:16,500 --> 00:25:24,840
they knew of mj-12 or some such organization\
code relating to Crashed recovered UFO craft\

235

00:25:26,220 --> 00:25:33,060
reaction on phone to that yes that's who I\
talked to before I called them so I told them\

236

00:25:33,060 --> 00:25:39,420
and they weren't happy with that answer you mean\
about Perry and Paul Etc oh no I didn't tell him\

237

00:25:39,420 --> 00:25:45,480
I talked to those guys who else do you talk to\
there were the other program managers I called\

238

00:25:46,260 --> 00:25:52,740
you you didn't mention that before I thought\
I said something who were they three programs\

239

00:25:52,740 --> 00:25:57,840
who said they weren't what who I was looking\
for four programs that referred me back to\

240

00:25:57,840 --> 00:26:04,860
the present threesome why the latter because they\
were part of it in different compartments placed\

241

00:26:04,860 --> 00:26:09,720

in different layers of the compartments pyramid\h
split up to do different things or parts of it\h\h

242

00:26:09,720 --> 00:26:14,460

they're all they're all in same records group\h
but their connection to each other is not obvious\h\h

243

00:26:14,460 --> 00:26:23,940

typical thing but unusual in records what then I\h
told threesome I wanted a formal briefing a tour\h\h

244

00:26:23,940 --> 00:26:30,660

Etc it was exploiting my regulatory Authority\h
as deputy director Dia assistant joint Chief of\h\h

245

00:26:30,660 --> 00:26:38,640

Staff J2 told them my not being briefed was\h
oversight they needed to correct I demanded

246

00:26:40,980 --> 00:26:46,500

and by the way I'm enjoying this so much Ross\h
because I've got the easy part all I have to\h\h

247

00:26:46,500 --> 00:26:52,320

do is ask questions but um actually you have\h
still more from Thomas Wilson There sure they\h\h

248

00:26:52,320 --> 00:26:57,660

needed to discuss this his demand so hung\h
up got called two days later and they said\h\h

249

00:26:57,660 --> 00:27:02,520

they don't want to talk on phone and arrange\h
for face-to-face meeting at their facility\h\h

250

00:27:03,420 --> 00:27:11,460

did you go yes ten days later mid-june or\h
so flew out there met in their conference\h\h

251

00:27:11,460 --> 00:27:19,380

room in their secret vault three of them\h
show up the three guys with whom you had\h\h

252

00:27:19,380 --> 00:27:27,540

the telecon yes same three security director\h
NSA retired a CI counterintelligence expert\h\h

253

00:27:27,540 --> 00:27:34,980

program director corporate attorney called\h
themselves the watch committee or Gatekeepers\h\h

254

00:27:35,700 --> 00:27:43,380

why why that phraser name I asked they said they\h
were formed out of necessity to protect themselves\h\h

255

00:27:43,380 --> 00:27:48,540

after a near disaster in the past almost blew\h
their cover something to do with an agreement\h\h

256

00:27:48,540 --> 00:27:55,500

that was reached with a couple of Pentagon sesior\h
executive Services overseeing sap special access\h\h

257

00:27:55,500 --> 00:28:02,760

programs in those days we're vague about when\h
that was well what was this let me finish they\h\h

258

00:28:02,760 --> 00:28:10,380

said years ago in past an audit investigation led\h
to them and it wasn't supposed to nearly outed a\h\h

259

00:28:10,380 --> 00:28:15,960

battle a nasty back and forth between them and\h
the investigator and his Pentagon Chief ensued\h\h

260

00:28:15,960 --> 00:28:22,500

like a tug of war for program transparency they\h
told me money was the issue their hiding out\h\h

261

00:28:22,500 --> 00:28:28,560

became the other issue some kind of threat was
leveled to blow the lid off them so they backed

262
00:28:28,560 --> 00:28:36,180
down and let the investigator in to complete his
job they work very hard to keep the program hidden

263
00:28:37,080 --> 00:28:44,040
so what happened with that he was officially
briefed given a tour and shown their program

264
00:28:45,120 --> 00:28:55,440
did they show them a craft or Hardware they said
was alien or from a UFO didn't say more about

265
00:28:55,440 --> 00:29:00,060
that said that after that episode a formal
agreement was struck with Pentagon people

266
00:29:00,060 --> 00:29:06,180
the special Access program oversight committee
sapoc to prevent this in future didn't want to

267
00:29:06,180 --> 00:29:12,000
repeat special criteria were established in
agreement a special circumstance that must

268
00:29:12,000 --> 00:29:19,140
meet rigorous access criteria set by contractor
committee nowhere no U.S government Personnel to

269
00:29:19,140 --> 00:29:25,080
gain access unless they meet the criteria to be
administered by contractor committee the program

270
00:29:25,080 --> 00:29:31,380
director the attorney the security director
irregardless of the tickets and position U.S

271
00:29:31,380 --> 00:29:39,360

government Personnel possessed literally their way or the highway so what are the criteria

272

00:29:39,360 --> 00:29:46,200

asked for that and they refused to give an answer I was mad implication is now to me they operate

273

00:29:46,200 --> 00:29:53,100

without official oversight or any justification politically dangerous place to be the threesome

274

00:29:53,100 --> 00:29:58,740

we're concerned with whom I'd talk to at the Pentagon or elsewhere by phone fax or email

275

00:29:58,740 --> 00:30:04,620

they wanted an accounting of the conversations concerned about new exposure the purpose of the

276

00:30:04,620 --> 00:30:13,140

meeting was to tell me this what that they weren't going to let me in the door why they

277

00:30:13,140 --> 00:30:20,460

said my tickets were all confirmed and valid but I was not on the bigot list my tickets alone weren't

278

00:30:20,460 --> 00:30:29,460

enough I didn't meet the special criteria so need to know authorization was not being granted

279

00:30:29,460 --> 00:30:35,760

went back and forth with them over these points primarily with security director and attorney

280

00:30:38,520 --> 00:30:44,280

by the way just um I love the fact that need to know makes an appearance in the documents

281

00:30:44,280 --> 00:30:49,980

but enough of them to give us a mention wasn't it\h
on you go Thomas argued more they wouldn't accept\h\h

282

00:30:49,980 --> 00:30:54,840
my arguments that they fell under my statutory\h
oversight and Regulatory Authority as deputy\h\h

283

00:30:54,840 --> 00:31:03,300
director Dia under purview for my right to have\h
need to know oversight audit justification issues\h\h

284

00:31:03,300 --> 00:31:10,080
etc etc Regulatory and statutory Authority is\h
deputy director Dia wasn't relevant or pertinent\h\h

285

00:31:10,080 --> 00:31:15,480
to the nature of their program then they pulled\h
out their bigot list to convince me otherwise\h\h

286

00:31:15,480 --> 00:31:26,760
several pages long dated 1990 updated 1993. who\h
who was on it did you recognize any names that is\h\h

287

00:31:26,760 --> 00:31:35,760
core Secret willing to say that most were program\h
employees names and titles job titles civilians\h\h

288

00:31:35,760 --> 00:31:43,440
didn't recognize any military personnel could be\h
there any politicians no no White House names no\h\h

289

00:31:43,440 --> 00:31:51,720
president no Congressional people no Congressional\h
staffers any of them in the Clinton or bush senior\h\h

290

00:31:51,720 --> 00:31:58,800
administrations no but a handful of names were\h
Pentagon individuals I recognized a few from the\h\h

291

00:31:58,800 --> 00:32:06,480

office of the under secretary defense what's a\h
in Australia do you know uh it's as you said it\h\h

292
00:32:06,480 --> 00:32:11,520
I don't know what the a is but the t is technology\h
uh yeah something in technology one from another\h\h

293
00:32:11,520 --> 00:32:19,440
department another at least NSC who was Pentagon\h
SES employee program managers said they were not\h\h

294
00:32:19,440 --> 00:32:26,160
any weapons program not any intelligence program\h
not any special op or Logistics program doesn't\h\h

295
00:32:26,160 --> 00:32:34,020
fit these categories I asked them what they\h
were then loud grow from program manager\h\h

296
00:32:35,160 --> 00:32:43,560
security director and attorney say it's okay to\h
say it say what drum roll here boys this is big\h\h

297
00:32:43,560 --> 00:32:49,200
I I I I don't have my special effects but in\h
the final edit we can put that down here we go\h\h

298
00:32:51,240 --> 00:32:58,680
they were a reverse engineering program\h
something recovered years ago in the past\h\h

299
00:32:59,460 --> 00:33:06,180
technological Hardware was recovered so I\h
thought they meant recovered Soviet Chinese Etc\h\h

300
00:33:06,180 --> 00:33:12,600
hardware and reverse engineering like a missile or\h
intelligence platform or aircraft actually came to\h\h

301
00:33:12,600 --> 00:33:17,340

the meeting expecting to find a sensitive foreign
collection and reverse engineering operation

302

00:33:17,340 --> 00:33:24,780

thought UFOs was used as a cover for that so I
said that and they said they weren't that either

303

00:33:26,580 --> 00:33:36,900

they had program manager talking a craft an intact
craft they believed could fly space air water

304

00:33:36,900 --> 00:33:44,160

Dimensions was it from overseas or not they said
no could not be not possible why I asked where

305

00:33:44,160 --> 00:33:51,240

did it come from program manager said they didn't
know where it was from they had some ideas on this

306

00:33:51,840 --> 00:34:03,240

it was technology that was not of this Earth not
made by man not made by human hands said they were

307

00:34:03,240 --> 00:34:08,940

trying to understand and exploit technology their
program was going on for years and years with very

308

00:34:08,940 --> 00:34:16,500

slow progress agonizingly slow with little or no
success painful lack of collaboration to get help

309

00:34:16,500 --> 00:34:22,560

from outside community of experts and Facilities
to assist effort must remain isolated and use

310

00:34:22,560 --> 00:34:29,220

own facilities and cleared Personnel tough
environment to work about 400 to 800 bigot

311

00:34:29,220 --> 00:34:37,140

list count workers varying in number with funding
or Personnel changes Miller questions asked these

312

00:34:37,140 --> 00:34:43,800

are the questions from Commander Miller Roswell
craft bodies autopsies Holloman Air Force Base

313

00:34:43,800 --> 00:34:50,280

landing mj-12 and leaked documents Lonnie Zamora
and bent Waters RAF bent Waters in England

314

00:34:52,020 --> 00:34:59,520

this is his answer they were mum declined to
discuss these Tom Wilson I threatened to go to

315

00:34:59,520 --> 00:35:06,540

sapoc to complain gain access to their program
they said go ahead do what you must I was angry

316

00:35:06,540 --> 00:35:12,060

because they defied my authority to be read
in with good logical reason wouldn't budge

317

00:35:12,600 --> 00:35:19,500

their tone was very testy tourists throughout the
conversation now I have a new line here but I just

318

00:35:19,500 --> 00:35:25,380

have to stop us for just a second that was more
than a mouthful uh first of all nice rendition

319

00:35:25,380 --> 00:35:32,040

wanted to just point out one thing to people um
there is one line in this uh document that has

320

00:35:32,040 --> 00:35:40,140

been put in italics by uh Dr will uh Dr Davis
who apparently uh authored this and it is the

321

00:35:40,140 --> 00:35:48,780

line that Ross said earlier it was technology
that was not of this Earth not made by man not

322

00:35:48,780 --> 00:35:55,080
by human hands I mean there it is in black and
white in this document so basically the reason

323

00:35:55,080 --> 00:36:00,900
people are fussing and fighting about whether this
document is real or not real is that if it's real

324

00:36:00,900 --> 00:36:07,740
well there you go there it is in black and white
uh if it's not real then you know whatever also uh

325

00:36:07,740 --> 00:36:15,060
because I'm a kind of an Aficionado of the MJ 12
documents to actually see them mentioned in here

326

00:36:15,060 --> 00:36:21,060
and not a disparaging way but isn't authentic way
really was quite a shock to me so with having said

327

00:36:21,060 --> 00:36:29,700
that let me get to the next line from Eric Davis
who said what was the outcome meeting broke up

328

00:36:29,700 --> 00:36:36,360
I returned to Washington what about corso and by
that we're talking about Philip Corso the author

329

00:36:36,360 --> 00:36:42,060
of The Day After Roswell which frankly I believe
had come out right around the time that 1997

330

00:36:42,060 --> 00:36:50,040
briefing uh was going on in Washington so what
about Corso Greer talked about Corso on April 9th

331

00:36:50,040 --> 00:36:55,620

which was that 1997 meeting Miller showed me the book during two hour private conversation didn't

332

00:36:55,620 --> 00:37:01,200

have time to read it through didn't buy a copy didn't bring Corso up at meeting but comparing

333

00:37:01,200 --> 00:37:07,500

the Corso story to what I learned at meeting is more than enough to believe Corso told truth about

334

00:37:07,500 --> 00:37:18,840

seeing alien Hardware Etc did you complain to sapoc or sap OC yes called the subgroup members

335

00:37:18,840 --> 00:37:24,420

senior review group members to a meeting at Pentagon told them what happened at meeting

336

00:37:25,800 --> 00:37:31,620

they responded that they would sustain the contractor on their access denial so I ended up

337

00:37:31,620 --> 00:37:36,900

arguing with them a while broke up in 20 minutes and they would meet me in two or three days

338

00:37:37,620 --> 00:37:43,920

got the call two days later in the end of June and met again with senior review group members when

339

00:37:44,580 --> 00:37:50,520

before last week of June 97. they told me that they were sustaining the contractor

340

00:37:50,520 --> 00:37:55,260

that I was to immediately drop the matter and Let It Go forget about it as I didn't

341

00:37:55,260 --> 00:37:59,580

have purview over their project\h
it didn't fall within my oversight\h\h

342

00:37:59,580 --> 00:38:04,380

Etc I became very angry started yelling\h
when I should have kept my mouth shut

343

00:38:06,720 --> 00:38:13,140

Miller and Greer said you nearly got busted\h
close to that told Miller Senior review group\h\h

344

00:38:13,140 --> 00:38:19,440

chairman said if I didn't follow their suggestion\h
I would not see director Dia promotion get early\h\h

345

00:38:19,440 --> 00:38:26,400

retirement lose one or two stars along the way\h
really incredibly angry upset over this livid\h\h

346

00:38:26,400 --> 00:38:32,760

why such a big deal over this considering the\h
position of trust I have in the Pentagon I do have\h\h

347

00:38:32,760 --> 00:38:39,360

relevant regulatory statutory authority over their\h
program that's my position is it because funding\h\h

348

00:38:39,360 --> 00:38:47,040

comes from you or through you or the director\h
of the defense intelligence agency core secret\h\h

349

00:38:47,040 --> 00:38:54,720

can't answer okay back to the bigot list can you\h
describe the type of people on it corporate types\h\h

350

00:38:54,720 --> 00:39:01,980

scientists and technicians Engineers scientists\h
managers Etc any military organizations that you\h\h

351

00:39:01,980 --> 00:39:08,460

recognized none just oustat people and two on\h
the special Access program oversight committee\h\h

352

00:39:08,460 --> 00:39:15,840

one other Pentagon office in December 97 Paul\h
was out as the uzdat he left the government\h\h

353

00:39:15,840 --> 00:39:24,960

so was uh Mike K replaced two by whom Jacques\h
counslow was the new used at started December 97\h\h

354

00:39:24,960 --> 00:39:32,460

Mike K was replaced by Brigadier General M Ward\h
from the Air Force where Paul K and Mike K and\h\h

355

00:39:32,460 --> 00:39:38,940

Jacques ganzler and general Ward the ones on the\h
bigot list that you recognized won't answer that\h\h

356

00:39:40,920 --> 00:39:45,780

talked to ganzler in January\h
1998 about my June 97 meetings\h\h

357

00:39:46,560 --> 00:39:56,700

he was briefed by someone surprised me what did\h
he say UFOs are real so-called alien abductions\h\h

358

00:39:56,700 --> 00:40:04,140

not real ganzler said this what else told to\h
drop the matter no more discussion about it

359

00:40:06,300 --> 00:40:09,060

were you willing to talk to\h
Hell put off and kit green\h\h

360

00:40:10,380 --> 00:40:15,720

uh I mean we just and then they went on and\h
discussed who they are and the remote viewing\h\h

361

00:40:15,720 --> 00:40:21,600

program history uh Wilson was not familiar with
the names heard about the remote viewing program

362

00:40:21,600 --> 00:40:28,500

in 90. uh maybe maybe not for Hal would think
about it no response on kit green prefers never

363

00:40:28,500 --> 00:40:35,520

to talk to anyone else about this again risks
exposure better to stop talking cut it off here

364

00:40:37,680 --> 00:40:43,920

what will you do with this now I I actually
think it's important at this moment uh Bryce

365

00:40:43,920 --> 00:40:48,780

to make the point that I think this is
an implicit admission that he's asking

366

00:40:48,780 --> 00:40:53,580

Eric Davis what will you do with this
it sounds to me like he's looking down

367

00:40:53,580 --> 00:40:57,840

at a recorder maybe a digital recorder
sitting on the car seat between them

368

00:40:57,840 --> 00:41:03,600

or at least he's acknowledging that Eric's taking
notes of some kind but there's a reference what

369

00:41:03,600 --> 00:41:09,900

will you do with this I mean you could I guess
make the argument that by this he he's like this

370

00:41:09,900 --> 00:41:15,360

with this talk we've had uh but I do think the
recorder makes more sense particularly based on

371

00:41:15,360 --> 00:41:22,560

how detailed this is anyway this is the last uh
thing that Eric Davis uh says in response to that

372

00:41:24,120 --> 00:41:29,940

I'll keep it for private personal research
data collection to track down the story and

373

00:41:29,940 --> 00:41:37,200

ascertain the signal noise in media and from
government sources will keep Mouse shut etc etc

374

00:41:38,100 --> 00:41:42,840

I think we'll wrap it there to be honest otherwise
we get people bogged down in complications but

375

00:41:42,840 --> 00:41:49,500

just uh I suffice to say Brothers it does read
like a transcript either that or reads like a

376

00:41:49,500 --> 00:41:55,740

screenplay so if it is a fabrication it's a very
very clever fabrication well here's the thing for

377

00:41:55,740 --> 00:42:01,560

people that make fake documents um you usually if
you're making a fake document you try to make it

378

00:42:01,560 --> 00:42:06,660

look like a real document so if you were making
if not to get too convoluted here but if you were

379

00:42:06,660 --> 00:42:10,860

really just trying to make a fake document the
last thing you'd want anybody to say about your

380

00:42:10,860 --> 00:42:16,380

fake document is that it reads like a screenplay
right you'd want it you'd want it to be in a

381

00:42:16,380 --> 00:42:22,380

different format than if you were looking for it
to be accepted this looks to me as I as I've heard

382

00:42:22,380 --> 00:42:29,520

us reading it and read it myself a couple of times
like somebody who is literally just had a really

383

00:42:29,520 --> 00:42:35,100

impressive meeting and is desperately trying
to write it all down and I know because both

384

00:42:35,100 --> 00:42:41,460

of us you know have have worked in the news and
investigation business I've spent my own time in

385

00:42:41,460 --> 00:42:47,640

cars after I've talked to somebody and knowing how
quickly my brain is going to lose the specifics

386

00:42:47,640 --> 00:42:53,640

and just stream it stream of consciousness got
everything down as fast as I could do it I'm

387

00:42:53,640 --> 00:42:58,680

sure you have your own way but I mean if you
were in a situation where you had that long of

388

00:42:58,680 --> 00:43:04,140

a conversation with someone what would you have
done afterwards I would have definitely recorded

389

00:43:04,140 --> 00:43:11,640

it with it yeah with Tom Wilson's permission
but I I assume there's an implicit admission

390

00:43:11,640 --> 00:43:16,740

there that there's something going on that he's
referring to what will you do with that and in

391

00:43:16,740 --> 00:43:21,420

my book I I speculate that he's pointing down
at a digital recorder but it is speculation we

392
00:43:21,420 --> 00:43:28,020
just don't know other friends of Eric have told me
that Eric has a phenomenal memory but um we should

393
00:43:28,020 --> 00:43:33,420
emphasize when I I communicated with Admiral Tom
Wilson for my research and he's adamant that this

394
00:43:33,420 --> 00:43:39,720
meeting with Eric Davis never took place that no
such admissions were made and that the memo is a

395
00:43:39,720 --> 00:43:45,540
hoax that it's a fake but uh the reason why
this is significant is because of course we

396
00:43:45,540 --> 00:43:51,900
know that Congress is about to hold hearings and
if there are going to be people coming forward

397
00:43:52,560 --> 00:43:57,840
one of the people or two of the people that should
be being called maybe Commander Willard Miller

398
00:43:57,840 --> 00:44:03,600
as well should be being called but certainly
Commander Willard Miller Eric Davis and Admiral

399
00:44:03,600 --> 00:44:09,780
Tom Wilson should all be deposed and asked did
this meeting take place what do you know and let's

400
00:44:09,780 --> 00:44:15,900
face it Mike Gallagher the congressman during
the May 17th meeting provided the the hearings

401
00:44:15,900 --> 00:44:21,720

on on Capitol Hill provided I thought some of the
most dramatic stuff by simply demanding that the

402

00:44:21,720 --> 00:44:28,440

Wilson uh Davis memo that we've just read out
loud be put into the Congressional Record so if

403

00:44:28,440 --> 00:44:36,000

it's you know if it's important it wouldn't be
really hard to to find out if this has reality

404

00:44:36,000 --> 00:44:40,920

to it or not you really do just drag the people in
and you put them under oath and you ask them these

405

00:44:40,920 --> 00:44:46,980

questions now I want to emphasize I'm skeptical of
the Wilson memo and I have to be because neither

406

00:44:46,980 --> 00:44:53,640

Eric Davis nor Tom Wilson will publicly vouch
for its ferocity as a record of true events

407

00:44:53,640 --> 00:45:00,900

but at the same time there are a whole series of
circumstantial reasons to take the memo seriously

408

00:45:00,900 --> 00:45:06,240

and that's my position my position is that we
can't rely on anything the memo says it doesn't

409

00:45:06,240 --> 00:45:12,240

prove a thing right now but it should be being
investigated and that's what's heartening about

410

00:45:12,240 --> 00:45:17,280

representative Mike Gallagher's decision to put
the document on the public record in the Congress

411

00:45:17,280 --> 00:45:22,680

because it flags an intention that the Congress is going to take a closer interest in this document

412

00:45:23,280 --> 00:45:28,680

I also temper my understanding of the document with the fact that I have spoken to people who

413

00:45:28,680 --> 00:45:36,420

purport to be knowledgeable about what they refer to as the program and they assert that there is a

414

00:45:36,420 --> 00:45:41,280

back engineering a reverse engineering program going on in the US government which is actually

415

00:45:41,280 --> 00:45:48,300

conducted in part mainly in private Aerospace so it's at least consistent with the drift of the

416

00:45:48,300 --> 00:45:55,380

Admiral Wilson memo that at some stage the whole program was moved out of government probably out

417

00:45:55,380 --> 00:46:00,720

of the Department of energy and into a private Aerospace company where it's remained for much of

418

00:46:00,720 --> 00:46:07,920

the last few decades if it's a fake there would be things within it that I mean there would usually

419

00:46:07,920 --> 00:46:14,280

be things within it that were of questionable efficacy so my question to you is as I look

420

00:46:14,280 --> 00:46:20,520

through it I didn't see anything that I thought was wrong that was a mistake that was clearly uh

421

00:46:21,060 --> 00:46:27,360

invalid did you no I didn't and that's my gripe\
with some of the mj12 documents as some of them\

422

00:46:27,360 --> 00:46:33,480
are very obviously forgeries you know they've used\
uh signatures from former presidential documents\

423

00:46:33,480 --> 00:46:39,060
that are acknowledged as real documents so I I\
have an issue frankly with the mj-12 documents\

424

00:46:39,060 --> 00:46:44,460
you wouldn't hang a mangy dog as we would say\
in Australia now there's a whole collection of\

425

00:46:44,460 --> 00:46:49,500
mj-12 documents and this is not earlier what the\
earlier ones are more interesting but yeah the\

426

00:46:49,500 --> 00:46:55,260
Eisenhower briefing document that was written\
supposedly in November of 1952 as Eisenhower\

427

00:46:55,260 --> 00:47:00,060
had been elected and was being briefed into a\
program he probably already knew things about\

428

00:47:00,060 --> 00:47:05,040
that one reads pretty good to me but again\
there are things that people can take issue\

429

00:47:05,040 --> 00:47:10,080
I'm not sure what you would take issue with in\
this thing factually maybe stylistically and\

430

00:47:10,080 --> 00:47:15,600
again just because I I just I think now it's\
more important than ever tell our listeners\

431

00:47:15,600 --> 00:47:23,880

and viewers one more time how this document
became public how it ended up in an astronaut's

432

00:47:24,540 --> 00:47:32,280

garage after his death okay the document was
given to Edgar Mitchell the lunar module pilot

433

00:47:32,280 --> 00:47:38,820

on the Apollo 14 Mission because Edgar was on
the science advisory panel for the National

434

00:47:38,820 --> 00:47:44,040

Institute of Discovery Science which was funded
by Robert Bigelow the Aerospace entrepreneur

435

00:47:44,580 --> 00:47:50,760

and as part of a bundle of documents that came
out of Edgar Mitchell's estate after he died

436

00:47:50,760 --> 00:47:56,160

I'm very very clear in my mind because I've
spoken to the person who facilitated the release

437

00:47:56,160 --> 00:48:01,560

of those documents from Edgar Mitchell's estate
who was a very close friend of Edgar Mitchell

438

00:48:01,560 --> 00:48:07,140

am absolutely certain that the provenance of this
document is very very clear that Edgar received it

439

00:48:07,140 --> 00:48:14,340

probably soon after the 2002 meeting allegedly
between Eric Davis and Admiral Tom Wilson and

440

00:48:14,340 --> 00:48:19,140

that whether it records an accurate version of a
conversation between Eric Davis and Admiral Tom

441

00:48:19,140 --> 00:48:25,560

Wilson or not it was almost certainly brought into
the fact the files the paperwork of Edgar Mitchell

442

00:48:25,560 --> 00:48:31,740

shortly thereafter faxed probably by Hal put off
from the National Institute of Discovery Science

443

00:48:32,340 --> 00:48:38,400

to Edgar Mitchell and that Edgar Mitchell informed
himself about the contents of that document and

444

00:48:38,400 --> 00:48:43,440

indeed referred to this meeting in numerous
interviews that took place over the following

445

00:48:43,440 --> 00:48:51,000

years and there is indeed mild corroboration
of certain aspects of the conversation that

446

00:48:51,000 --> 00:48:57,300

took place between Eric Davis and Admiral Tom
Wilson which lead me to be more convinced than

447

00:48:57,300 --> 00:49:03,540

not that the conversation did take place and let
me hasten to add as well Bryce that nobody should

448

00:49:03,540 --> 00:49:10,260

reflect adversely on Admiral Tom Wilson if he is
lying about this because as a security official

449

00:49:10,260 --> 00:49:16,140

who's responsible for preserving America's
most important National Secrets if you are

450

00:49:16,140 --> 00:49:21,840

the holder of a security oath and you're banned
by your security oath and if this is a waived

451

00:49:21,840 --> 00:49:28,620

unacknowledged special access program of some kind
as we suspect that it is you are legally obliged

452

00:49:28,620 --> 00:49:36,120

to lie correct and and I I don't think anything
less of them in fact if anything as I first read

453

00:49:36,120 --> 00:49:44,760

this and as I heard it read just now by you I
felt an emotional response to him if this is the

454

00:49:44,760 --> 00:49:50,340

real thing and this really describes what he went
through let's all pause for a moment and think

455

00:49:50,340 --> 00:49:57,420

about that here is the guy who's in charge of the
defense intelligence agency is basically J2 he's

456

00:49:57,420 --> 00:50:03,300

like the uh he's at the top of the Joint Chiefs
of Singapore yeah he's the intelligence briefer

457

00:50:03,300 --> 00:50:09,360

for The Joint Chiefs okay who should be able to
make the argument that you know if you're working

458

00:50:09,360 --> 00:50:16,620

on something I'd like to know about it and who's
received the warm embrace of the US government to

459

00:50:16,620 --> 00:50:23,460

be able to keep a secret it would be Tom Wilson
and so his frustration in in the reading and

460

00:50:23,460 --> 00:50:29,700

and even watching the use of Eric Davis with the
triple exclamation marks on some of these things

461

00:50:30,600 --> 00:50:37,380

um you just really feel how frustrating that would be
be imagine this is your job you are supposed to be

462

00:50:37,380 --> 00:50:43,980

helping brief people about the security challenges
the United States of America is up against and

463

00:50:43,980 --> 00:50:49,440

there is a program you're aware of that they're
confirming and they won't read you into it and

464

00:50:49,440 --> 00:50:53,160

you're more importantly more importantly my
friend I think the thing that leaps out to

465

00:50:53,160 --> 00:50:58,680

me as a lawyer in that document is that the
organization that is meant to be the Sovereign

466

00:50:58,680 --> 00:51:03,900

of America your Congress which is meant to be
government of the people for the People by the

467

00:51:03,900 --> 00:51:10,800

people it's not briefed into this neither is why
Congress is pissed and same with the president the

468

00:51:10,800 --> 00:51:15,840

president is not in on I mean for years uh we've
been playing the game on these UFO podcasts where

469

00:51:15,840 --> 00:51:19,980

people go well what do you think this President
knew or didn't know and it's been an uh you

470

00:51:19,980 --> 00:51:25,140

know item to be bandied about in fact I wrote an
entire television series if you will about what

471

00:51:25,140 --> 00:51:30,480

a president knew or didn't know when I did Dark
Skies for NBC so uh the idea that the president

472

00:51:30,480 --> 00:51:37,380

doesn't get told is not surprising to me but to
see it there in black and white is uh is unnerving

473

00:51:37,380 --> 00:51:44,100

if uh if that's the right word because uh it
does mean that there is another Power structure

474

00:51:44,100 --> 00:51:49,140

uh that is dealing with this besides
the power structure that's supposed to

475

00:51:49,140 --> 00:51:55,800

be dealing with these things as laid out in our
constitution so it's uh more importantly you can

476

00:51:55,800 --> 00:52:00,780

see why the Congress would be worried about
accountability yep I mean let's assume it's

477

00:52:00,780 --> 00:52:05,340

true let's assume that there is a secret back
engineering reverse engineering program going

478

00:52:05,340 --> 00:52:10,800

on inside the US government I can understand
especially during the Cold War the instinct

479

00:52:10,800 --> 00:52:18,840

to keep it secret the need to try to preserve the
secrecy of what after all is a momentous admission

480

00:52:18,840 --> 00:52:24,240

that the United States is in possession of
non-human technology advanced technology

481

00:52:25,020 --> 00:52:29,220

but it's the issue that it hasn't been
brought to the attention of the Congress

482

00:52:29,220 --> 00:52:34,980

that's the key issue and if ever if ever
there was a national security issue that

483

00:52:34,980 --> 00:52:41,220

ought properly to be known by the Congress this is
it you know and here's your Moment of Zen folks if

484

00:52:41,220 --> 00:52:47,640

you're listening or you're watching right now um
let's all take just a second and consider this

485

00:52:48,780 --> 00:52:55,560

um if there is Crash wreckage it goes back to
at least 1947 and according to some cases maybe

486

00:52:55,560 --> 00:53:03,480

even further if it's real and it existed and if
the phenomenon is authentic uh and exists and

487

00:53:03,480 --> 00:53:09,480

is some kind of non-human intelligence that's
interacting with us if those things are true

488

00:53:10,440 --> 00:53:19,500

we've gone eight decades nearly now eight decades
where a basic fact of how the universe operates

489

00:53:19,500 --> 00:53:27,660

has not been opened up and discussed with us and
the US government itself now seems to have become

490

00:53:27,660 --> 00:53:33,780

blinded as the public has been so just to pick up
on what you were saying Ross I've always thought

491

00:53:33,780 --> 00:53:41,280

that probably if I'm a believer that Roswell is
a is true an authentic event uh more or less as

492
00:53:41,280 --> 00:53:49,440
it's described and that I'm quite uh certain that
when Roswell happened it was a military operation

493
00:53:49,440 --> 00:53:54,180
I mean obviously we just won World War II and
the military gets it and who's the president

494
00:53:54,180 --> 00:54:00,000
gonna uh appoint to look into it military and
National Security people but it seems clear

495
00:54:00,720 --> 00:54:06,360
if this memo is true that what has happened
over the years is the government itself has

496
00:54:06,360 --> 00:54:13,200
offshored a great deal of the research and the
work on this topic to private Enterprise mostly

497
00:54:13,200 --> 00:54:19,980
Aerospace firms uh ins here in Southern California
where I am and that's a shocker because what that

498
00:54:19,980 --> 00:54:27,540
means with compartmentation that happens with
security uh we've been over eight decades blinding

499
00:54:27,540 --> 00:54:34,320
our officials more and more and more to the point
where yeah you've now got Senators like gillibrand

500
00:54:34,320 --> 00:54:41,280
and Rubio waking up and going wait a second what's
going on here and who can blame them I mean who

501
00:54:41,280 --> 00:54:47,820

can really blame them well at the very least it\h
poses a question that needs to be answered and we\h\h

502

00:54:47,820 --> 00:54:52,620

shouldn't be frightened of asking the question\h
even if it turns out that the memo is a hoax\h\h

503

00:54:52,620 --> 00:54:58,260

at least it can be resolved I don't think it is\h
a hoax that's my gut instinct we'd better think\h\h

504

00:54:58,260 --> 00:55:02,280

about wrapping up mate because we're getting\h
pretty close to a full hour here and I know\h\h

505

00:55:02,280 --> 00:55:06,540

our audience have got better things to do than\h
to listen to us prattling on about a memo that\h\h

506

00:55:06,540 --> 00:55:12,900

may or may not be real but uh yeah I mean I think\h
it's fair to say that we may get answers to the\h\h

507

00:55:12,900 --> 00:55:20,880

conundrum The Mystery of the Admiral Wilson memo\h
possibly as early as maybe early 2023. man that\h\h

508

00:55:20,880 --> 00:55:26,640

would be just shocking listen um I enjoyed doing\h
that I enjoyed reading that I enjoyed hearing you\h\h

509

00:55:26,640 --> 00:55:36,180

uh read it a secret but nobody does core Secrets\h
as good as you and by the way I freaking love\h\h

510

00:55:36,180 --> 00:55:40,440

that I'm going to put that on it's going to be a\h
movie One Day Bryce called core secrets that's the\h\h

511

00:55:40,440 --> 00:55:45,360

title of my next movie but let's end it with this\h
let's tell people what course Secrets is supposed\h\h

512

00:55:45,360 --> 00:55:53,340

to mean what what is a core secret the biggest\h
secrets of all the secrets so secret that if\h\h

513

00:55:53,340 --> 00:56:01,260

you reveal them they irrevocably compromise United\h
States national security and it we can understand\h\h

514

00:56:01,260 --> 00:56:06,300

why a UFO reality would be a core secret\h
what do you think other core Secrets might be\h\h

515

00:56:07,020 --> 00:56:12,540

oh I can imagine maybe the ingredients to how\h
to make it into making make a nuclear bomb and\h\h

516

00:56:12,540 --> 00:56:18,960

and let's just also say Bryce maybe also what\h
do they really know about the JFK assassination\h\h

517

00:56:19,860 --> 00:56:25,620

well okay now I know we're wrapping up so I'm\h
gonna have to we're gonna have to bring that\h\h

518

00:56:25,620 --> 00:56:31,380

up because that one gets me going I even wrote\h
a book about it so yeah we'll be back anyway\h\h

519

00:56:31,380 --> 00:56:36,720

it's been fun uh I've enjoyed this we'll\h
continue to follow this and uh let's just\h\h

520

00:56:36,720 --> 00:56:43,740

hope that as we get into 2023 uh there'll be more\h
answers than there are questions coming forward\h\h
