

1
00:00:00,300 --> 00:00:04,500
foreign

2
00:00:10,740 --> 00:00:23,760
from Australia and in Los Angeles my co-host and
good buddy Bryce Sable who's in fact drumroll

3
00:00:23,760 --> 00:00:28,620
San Francisco how are you mate I'm fine I was
saying I was thinking to myself well here I go

4
00:00:28,620 --> 00:00:34,800
I have to correct rice on the factor in the very
beginning so I'm glad that didn't happen no I am

5
00:00:34,800 --> 00:00:41,640
in San Francisco uh where uh I met a condo that's
under construction so we've asked everyone to stop

6
00:00:41,640 --> 00:00:46,140
pounding and sawing for a short period of time
so we can get this done and I'm looking forward

7
00:00:46,140 --> 00:00:54,000
to it now this week is a very important week
because we are on the cusp on the threshold of

8
00:00:54,000 --> 00:01:01,620
what is likely to be a very interesting report
to the Congress from the Pentagon reporting as

9
00:01:01,620 --> 00:01:09,420
required under the National Defense authorization
act requirements on uaps so we've decided to make

10
00:01:09,420 --> 00:01:14,400
this a full show a very special show we've got
two very important guests coming on a bit later

11

00:01:14,400 --> 00:01:20,820

Ryan Robbins from post disclosure World and
Christina Gomez from Paradigm shifts we're

12

00:01:20,820 --> 00:01:28,980

going to do an analysis of the implications of
what we believe is in the report to Congress but

13

00:01:28,980 --> 00:01:35,340

before we do that Bryce and I as we always like
to do an analysis of the important news that has

14

00:01:35,340 --> 00:01:40,560

transpired in the weeks since our last podcast
what do you think is the most important thing

15

00:01:40,560 --> 00:01:45,000

that we've had in the last couple of weeks mate
well I think the thing that's gotten a lot of

16

00:01:45,000 --> 00:01:49,740

attention and certainly gotten people writing
articles about it and the mainstream media has

17

00:01:49,740 --> 00:01:57,900

been the fact that NASA finally laid out the 16 I
believe it's 16 individuals that will make up its

18

00:01:57,900 --> 00:02:05,640

study group and people should be aware that NASA
has after years of saying we don't do UFOs only

19

00:02:05,640 --> 00:02:11,340

recently said yeah we'll look into this UAP thing
for about uh for about nine months and we'll get

20

00:02:11,340 --> 00:02:19,140

back to you so NASA has gotten into the UFO slash
UAP game they've given themselves a nine month

21

00:02:19,140 --> 00:02:23,880

time to look into it and I guess the only and so\h
a lot of people have been covering that everyone\h\h

22

00:02:23,880 --> 00:02:32,340

from CNN do uh the the magazines of course but\h
uh they also are only going to be looking into\h\h

23

00:02:32,340 --> 00:02:37,680

as I understand it the unclassified part of\h
this so I think there is a flag on the play\h\h

24

00:02:37,680 --> 00:02:44,460

but I'm glad to see that they're getting involved\h
yeah I don't really expect much from the NASA UAP\h\h

25

00:02:44,460 --> 00:02:50,160

investigations to be honest I don't doubt that\h
the Integrity of the scientists is unchallenged\h\h

26

00:02:50,160 --> 00:02:56,280

but if we're going to limit what NASA is allowed\h
to look at in its research to unclassified data\h\h

27

00:02:56,280 --> 00:03:03,120

you're wasting your time because pretty much all\h
the interesting stuff is classified to me the most\h\h

28

00:03:03,120 --> 00:03:09,180

important article of the last couple of weeks\h
is well the first one for me is of course the\h\h

29

00:03:09,180 --> 00:03:15,900

New York Times Julian bands story that we have to\h
discuss I think it's very very important that the\h\h

30

00:03:15,900 --> 00:03:22,080

New York Times And The Wall Street Journal have\h
both written articles attempting to preempt and\h\h

31

00:03:22,080 --> 00:03:31,500

anticipate the uh findings of what the report to\h
uh Congress will say and frankly I don't think the\h\h

32

00:03:31,500 --> 00:03:38,460

Julian Barnes New York Times story was worthy\h
of the New York Times there's one saying as a\h\h

33

00:03:38,460 --> 00:03:46,440

journalist a journalist is only ever as good as\h
his or her sources I've got stories wrong in my\h\h

34

00:03:46,440 --> 00:03:53,520

time because of dud sources and I suspect that\h
Julian Barnes has been led by the nose by people\h\h

35

00:03:53,520 --> 00:04:00,600

in the intelligence Community who frankly wanted\h
to try and preempt the implications of this report\h\h

36

00:04:00,600 --> 00:04:07,440

don't you agree I I well I do agree with it but\h
I I think I would slant it slightly I'm not sure\h\h

37

00:04:07,440 --> 00:04:13,200

that his sources are bad because he knows where\h
to find sources as well as you and I do uh his\h\h

38

00:04:13,200 --> 00:04:17,760

context is missing he's written he's managed to\h
write an entire article for the New York Times\h\h

39

00:04:17,760 --> 00:04:24,360

that basically says okay the people that have been\h
looking to explain UFOs say that most of them are\h\h

40

00:04:24,360 --> 00:04:29,940

explainable so there's nothing to see here well\h
we know that most of them are explained that's\h\h

41

00:04:29,940 --> 00:04:34,920

not the issue even Congress has said uh we don't\h
care about the ones that are explained we want\h\h

42

00:04:34,920 --> 00:04:39,660

to know about the ones that aren't explained and\h
so I think Julian Barnes when he wrote that for\h\h

43

00:04:39,660 --> 00:04:46,800

the times did a grave disservice to people because\h
let's face it many people see a headline remember\h\h

44

00:04:46,800 --> 00:04:52,140

the headline and that's how they interpret\h
the reality of what the article is about and\h\h

45

00:04:52,140 --> 00:04:57,420

of course if you read this Julian Barnes piece in\h
the New York Times you come away from the uh with\h\h

46

00:04:57,420 --> 00:05:02,520

it with the idea that oh I guess it's all been\h
explained I guess those videos that we saw and\h\h

47

00:05:02,520 --> 00:05:09,000

all that and all this uh Hue and cry about UAP may\h
actually be real I guess I guess that's all been\h\h

48

00:05:09,000 --> 00:05:15,240

explained I guess it must be drones or something\h
on to the next and I think that is a grave grave\h\h

49

00:05:15,240 --> 00:05:20,880

disservice that he did just on that point one of\h
the key allegations that was made in the bands\h\h

50

00:05:20,880 --> 00:05:27,660

New York Times story was that the Pentagon has\h
backtracked on its findings its original findings\h\h

51

00:05:27,660 --> 00:05:34,680

in relation to the three Navy videos the go fast\h
the Gimbal and the flu are one and it was a key\h\h

52

00:05:34,680 --> 00:05:40,920

allegation in that New York Times story that\h
what we're going to see in this UAP report is\h\h

53

00:05:40,920 --> 00:05:44,820

a walking back by the Pentagon that they're\h
going to say that they can explain at least\h\h

54

00:05:44,820 --> 00:05:50,460

two of those videos what I find is very very\h
interesting is that the Pentagon spokesperson\h\h

55

00:05:50,460 --> 00:05:56,100

Susan Goff has taken issue with at least one\h
point in the New York Times article and it's\h\h

56

00:05:56,100 --> 00:06:05,880

on this issue she's told c-a-a-r-i-u news a couple\h
of days ago that the Pentagon has not backtracked\h\h

57

00:06:05,880 --> 00:06:13,560

on its findings in relation to the three Navy\h
videos the findings by the U.S Navy in relation\h\h

58

00:06:13,560 --> 00:06:20,160

to what it could not explain about those videos\h
still stand well I think that's very important it\h\h

59

00:06:20,160 --> 00:06:27,360

needs to go on the record that the New York Times\h
Yes even the old gray lady gets stories wrong I l\h\h

60

00:06:27,360 --> 00:06:32,520

have to say I'm about to say something Ross that\h
I don't think I have ever said on this program and\h\h

61

00:06:32,520 --> 00:06:40,500

and frankly don't anticipate saying again in the future but God bless Susan Goff I mean she's she's

62

00:06:40,500 --> 00:06:46,260

become a controversial character as many people know because she speaks for the Pentagon she's the

63

00:06:46,260 --> 00:06:52,320

spokesperson and so she's been kind of the point person on this and and has sort of fallen short to

64

00:06:52,320 --> 00:06:57,540

most people's uh point of view in terms of doing the job when it comes to UAP so for her to push

65

00:06:57,540 --> 00:07:04,560

back against the times I think shows something and I'm glad that she did it I hope that she'll take

66

00:07:04,560 --> 00:07:09,960

that responsibility more seriously in the future too and and um and help get the facts out because

67

00:07:09,960 --> 00:07:16,320

let's face it there are lots of people involved in this story now and uh we're all chasing facts

68

00:07:16,320 --> 00:07:21,780

uh some of some of us are chasing government that is chasing facts but at the end of the day

69

00:07:22,500 --> 00:07:29,400

people are less concerned about an individual UAP event and there are many and there are many

70

00:07:29,400 --> 00:07:34,440

new ones that we could talk about and we will with our guests that are coming up but at the

71

00:07:34,440 --> 00:07:39,240

end of the day what people yeah yeah sure I just I\h
just there's one point I really want to emphasize\h\h

72

00:07:39,240 --> 00:07:44,520

with the New York Times the implications\h
of that Julian Barnes story are enormous\h\h

73

00:07:45,540 --> 00:07:53,460

because it suggests that possibly deliberately\h
false information was led to one of America's\h\h

74

00:07:53,460 --> 00:07:58,920

one of the world's greatest newspapers and this\h
isn't the first time this has happened as I said\h\h

75

00:07:58,920 --> 00:08:03,900

journalists are only ever as good as their sources\h
and there's a long history in the times of getting\h\h

76

00:08:03,900 --> 00:08:10,140

major stories wrong and people don't need to tie\h
themselves in knots worrying about what the New\h\h

77

00:08:10,140 --> 00:08:16,020

York Times says because even the times gets Yarns\h
wrong back in the Russian Revolution they said the\h\h

78

00:08:16,020 --> 00:08:21,180

Bolsheviks were going to lose they reported\h
fake Bolshevik atrocities and said 91 times\h\h

79

00:08:21,180 --> 00:08:27,300

the regime was on the point of total collapse\h
times suppressed evidence of the genocide of\h\h

80

00:08:27,300 --> 00:08:33,420

European Jews during World War II and who could\h
forget the New York Times falsely suggested\h\h

81

00:08:33,420 --> 00:08:40,020

that Saddam Hussein was obtaining nuclear weapons\h
material and was one of the papers that led us to\h\h

82

00:08:40,020 --> 00:08:46,200

war in the Middle East it also held back on its\h
reporting of the nsa's warrantless surveillance\h\h

83

00:08:46,200 --> 00:08:53,640

program during the bush Kerry 2004 election at\h
the request of the white house so I just think\h\h

84

00:08:53,640 --> 00:09:01,920

people need to understand that we are at a very\h
important point in the history of this UAP issue\h\h

85

00:09:01,920 --> 00:09:07,980

there is a gigantic pushback coming from the\h
Pentagon particularly from the U.S Air Force\h\h

86

00:09:07,980 --> 00:09:15,720

and they've shown their card in a very foolish\h
and Reckless way and let's uh let's use that\h\h

87

00:09:15,720 --> 00:09:21,600

as a transitional moment because the truth is uh\h
the New York Times is a controversial newspaper\h\h

88

00:09:21,600 --> 00:09:25,800

anyway right now uh part of the country doesn't\h
want to hear or anything from them some people\h\h

89

00:09:25,800 --> 00:09:30,900

say they're the newspaper of record okay they're\h
controversial they haven't always gotten it right\h\h

90

00:09:30,900 --> 00:09:35,640

they're not getting this one particularly right\h
although we still give them credit for getting it\h\h

91

00:09:35,640 --> 00:09:40,980

right in December of 2017 when they broke that
original article so it's a mixed bag when you

92

00:09:40,980 --> 00:09:48,780

come to the New York Times but the good news
is uh we don't need only the U.S military or

93

00:09:48,780 --> 00:09:54,600

only the US government or only the New York Times
to tell us what the facts are we have an army of

94

00:09:54,600 --> 00:10:00,900

Civilian researchers looking into things and I
think that's wonderful and that's why I want to

95

00:10:00,900 --> 00:10:06,180

introduce our two guests we've we'd like to
open the conversation up because let's face

96

00:10:06,180 --> 00:10:13,020

it we're all in this together over time all of
us are going to have to wake up and say I guess

97

00:10:13,020 --> 00:10:17,400

there is something going on here maybe I should
be somewhat concerned about it two of the people

98

00:10:17,400 --> 00:10:23,700

I listen to and I know Ross listens to in this
field are with us today we have Christina Gomez

99

00:10:23,700 --> 00:10:30,960

Who uh Christina nice to see you and welcome she
is the host of the Paradigm shifts podcast and

100

00:10:30,960 --> 00:10:37,080

three others frankly you're the hardest working
podcaster in podcasting right now incredible and

101

00:10:37,080 --> 00:10:45,120

our our other guest is Ryan Robbins who is uh the\h
post disclosure world uh man I I almost called you\h\h

102

00:10:45,120 --> 00:10:52,320

a guru or maybe I will uh Ryan you started as\h
UFO Jesus and have evolved into Ryan Robbins so\h\h

103

00:10:52,320 --> 00:10:59,940

uh I I can't let that stand without asking how\h
did you go from UFO Jesus which was kind of a\h\h

104

00:11:01,200 --> 00:11:07,680

just an internet I mean I it was a meme you were\h
a meme almost I guess I loved it I was actually\h\h

105

00:11:07,680 --> 00:11:14,820

really disappointed Ryan stopped being UFO Jesus I\h
loved it yeah sometimes I I still hearken back to\h\h

106

00:11:14,820 --> 00:11:19,260

it but I think when I started out I just I started\h
out as Ryan and then some people in the comment\h\h

107

00:11:19,260 --> 00:11:23,940

section was like hey it's UFO Jesus so it's not\h
like a nickname that I created it was my audience\h\h

108

00:11:23,940 --> 00:11:28,560

that created it so I thought it was creative and I\h
decided to run with it for a while and then later\h\h

109

00:11:28,560 --> 00:11:33,900

I'm like okay I think I've had my fill and I'm\h
kind of kind of slightly maneuver back to my my\h\h

110

00:11:33,900 --> 00:11:38,700

real name Ryan Robbins so every once in a while if\h
I'm feeling in a humorous mood I'll bring it back\h\h

111

00:11:38,700 --> 00:11:44,640

but generally yeah generally these days I go by
Ryan Robbins and Christina I'd like to just hear

112

00:11:44,640 --> 00:11:50,040

from you a little bit because you um you're the
youngest person on this panel which is no surprise

113

00:11:50,040 --> 00:11:56,040

to anybody who's looking at it I guess how does a
person who is you're still in college you're going

114

00:11:56,040 --> 00:12:01,620

to be graduating I believe next year how do you
find the time for ufology and why do you find the

115

00:12:01,620 --> 00:12:10,200

time for ufology I have the time because I have
insomnia and when it comes to the topic of the UFO

116

00:12:10,200 --> 00:12:16,560

phenomenon everything unexplained and mysterious
I have an absolute passion for it and that passion

117

00:12:16,560 --> 00:12:23,220

it gives me that drive it gives me that energy
alongside caffeine of course but producing four

118

00:12:23,220 --> 00:12:29,340

shows a week on my channel it looks at everything
unexplained because I truly believe that there

119

00:12:29,340 --> 00:12:35,280

is a convergence between the UFO phenomenon and
the Paranormal there it's not just one thing to

120

00:12:35,280 --> 00:12:41,340

look at it's all of these different things it
creates this beautiful mural and that we that

121

00:12:41,340 --> 00:12:47,940

we are able to see a little bit better than if we
just look at one Topic in particular and I'm very

122

00:12:47,940 --> 00:12:54,780

specifically bringing this topic to my generation
gen Z to get them involved to get them interested

123

00:12:54,780 --> 00:13:01,020

because they are going to be our future lawyers
politicians and teachers and I truly believe at

124

00:13:01,020 --> 00:13:07,260

this topic this conversation that we're going to
have today is the most important conversation that

125

00:13:07,260 --> 00:13:13,260

humanity is having right now okay well let's
start then let's talk about what we're really

126

00:13:13,260 --> 00:13:21,180

here for which is the forthcoming UAP report
to Congress and we do have some insights I've

127

00:13:21,180 --> 00:13:26,760

been able to verify with intelligence sources
that Josh Boswell's excellent Daily Mail story

128

00:13:26,760 --> 00:13:33,480

is pretty much on the money so the the report to
Congress according to Josh Boswell of the Daily

129

00:13:33,480 --> 00:13:41,220

Mail is that they've been 150 cases of unexplained
UF encounters by military and government officials

130

00:13:41,220 --> 00:13:48,120

in the past year it's a 22-page report
compiled by the odni the office of the

131

00:13:48,120 --> 00:13:55,080

Director of National Intelligence it's analyzed\h
366 cases and it says that only about half of\h\h

132

00:13:55,080 --> 00:14:03,720

them could be explained now I think the simple\h
fact that you have a pentagon report reporting\h\h

133

00:14:03,720 --> 00:14:09,900

to Congress after 12 months and acknowledging\h
that there are genuine unexplained anomalous\h\h

134

00:14:09,900 --> 00:14:16,380

phenomena that they cannot dismiss prosaically\h
is enormously significant what's your take

135

00:14:18,840 --> 00:14:24,120

Ryan I think it's incredibly significant\h
especially when you consider the military\h\h

136

00:14:24,120 --> 00:14:28,500

apparatus that is at the disposal of the United\h
States government I mean if you compare the the\h\h

137

00:14:28,500 --> 00:14:32,940

spending of the military with the United States\h
any other country it's it doesn't even compare\h\h

138

00:14:33,660 --> 00:14:38,880

and um you know even Elizondo said himself\h
and I repeat this over and over again because\h\h

139

00:14:38,880 --> 00:14:44,100

I think it's so important he said that the\h
go fast the FLIR one and the gimbal videos\h\h

140

00:14:44,100 --> 00:14:48,120

are some of the least compelling videos that\h
are out there that are in the possession of\h\h

141

00:14:48,120 --> 00:14:56,160

the US government of captures of UAP and
and so I think if we were to look at this

142

00:14:56,160 --> 00:15:02,160

realistically the Tic Tac event the gimbal event
the go fast event is only the tip of the iceberg

143

00:15:03,120 --> 00:15:07,440

um a lot of these events have remained secret
um Witnesses have not come forward but I think

144

00:15:07,440 --> 00:15:11,820

eventually the other the other UFO event
series of which there almost certainly

145

00:15:11,820 --> 00:15:18,840

it are is going to come to the fore and we're
going to realize that um the corroboration in

146

00:15:19,800 --> 00:15:24,360

technical evidence the military has of
this phenomena is far greater than we

147

00:15:24,360 --> 00:15:30,000

can possibly imagine hey Christina let me frame
this for what you just said in your last answer

148

00:15:31,080 --> 00:15:36,840

um I do want to hear what you think about this
upcoming report but what does gen Z know about

149

00:15:36,840 --> 00:15:42,600

this report do they care about it and I assume
they probably don't why don't they care about it

150

00:15:42,600 --> 00:15:49,020

that's a great question when we are looking
at people in their late 20s and going younger

151

00:15:49,020 --> 00:15:55,320

it's not a question on if alien life exists\h
extraterrestrials and UFOs and things like this\h\h

152

00:15:55,320 --> 00:16:01,500

it's not a question for the most part they think\h
it's just the way of the universe now but when it\h\h

153

00:16:01,500 --> 00:16:08,700

comes to these reports provided by the government\h
that we are beginning to receive now they don't\h\h

154

00:16:08,700 --> 00:16:15,240

care why is that well my generation they already\h
are on the mindset that they don't listen to\h\h

155

00:16:15,240 --> 00:16:19,560

mainstream media they don't really listen to the\h
government they don't really care what they have\h\h

156

00:16:19,560 --> 00:16:25,860

to say because it's not significant in their\h
life what is significant is looking at Maybe\h\h

157

00:16:25,860 --> 00:16:33,480

videos to watch the podcasts that we're doing here\h
watching documentaries to get the the the overview\h\h

158

00:16:33,480 --> 00:16:39,300

of these kind of sometimes very wordy papers\h
that for them because they're not into the field\h\h

159

00:16:39,300 --> 00:16:44,940

they don't really understand the terminology they\h
don't really understand what's going on so they'd\h\h

160

00:16:44,940 --> 00:16:50,640

much rather listen to us speak give them the\h
explanation or watch documentaries and things like\h\h

161

00:16:50,640 --> 00:16:56,880

this and that is more interesting than reading\h
some report where our last one the preliminary\h\h

162

00:16:56,880 --> 00:17:03,960

report was about nine pages this next one is\h
supposed to be 22 pages but out of those 22 Pages\h\h

163

00:17:03,960 --> 00:17:08,460

how much of those are going to be made public they\h
don't they don't ask these questions they don't\h\h

164

00:17:08,460 --> 00:17:13,260

care they want the evidence they want the videos\h
they want the photos they want the conversation\h\h

165

00:17:13,260 --> 00:17:18,960

but they don't care what the government has to say\h
about it do you think that the government do you\h\h

166

00:17:18,960 --> 00:17:27,240

think that the government is holding back for any\h
good reason I mean what's the view amongst your\h\h

167

00:17:27,240 --> 00:17:32,940

generation about why the government is holding\h
back if they accept that there's a reality there\h\h

168

00:17:32,940 --> 00:17:40,680

why is the government restraining the public on\h
knowing what's going on first off we have not seen\h\h

169

00:17:40,680 --> 00:17:47,820

any smoking guns yet it just has just as Ryan had\h
mentioned we haven't seen anything big these these\h\h

170

00:17:47,820 --> 00:17:52,920

other photos such as the Gimbal and the go fast\h
and so on yeah they're intriguing to us people in\h\h

171

00:17:52,920 --> 00:17:58,080

the field but for your average person walking down the street they're like I'm looking at a blob here

172

00:17:58,080 --> 00:18:06,000

there's nothing really interesting going on now as for the fact to your question Ross on why does my

173

00:18:06,000 --> 00:18:12,420

generation think that the government's not coming out with this information it's kind of hard to say

174

00:18:12,420 --> 00:18:18,180

because once again they just don't really care what the government has to say because time and

175

00:18:18,180 --> 00:18:24,660

time again for decades it's just been lie after lie after lie from them and a good example of

176

00:18:24,660 --> 00:18:31,080

this would be Project Blue Book where their whole purpose of it was to debunk UFOs my generation is

177

00:18:31,080 --> 00:18:38,460

is aware of that at least vaguely to wear whatever they have to say uh it doesn't really matter

178

00:18:39,120 --> 00:18:44,460

you know Ryan that's a follow up on that it is kind of an article of faith that the government

179

00:18:44,460 --> 00:18:50,820

has lied to us about UFOs I mean there's been ample opportunity in 75 years since uh the summer

180

00:18:50,820 --> 00:18:56,820

of 47 for example uh where Roswell happened and the Kenneth Arnold siding kind of got things

181

00:18:56,820 --> 00:19:04,080

started they've had ample opportunity to outright
lie about it to create subterfuge around it so if

182

00:19:04,080 --> 00:19:09,600

the government has been lying all this time why
do we care what the government says right now

183

00:19:09,600 --> 00:19:16,380

about it uh well unfortunately as far as I know
there are no smoking guns in the public domain

184

00:19:16,380 --> 00:19:21,540

don't know why that is we we can form all kinds of
weird hypotheses about it I know I do that but for

185

00:19:21,540 --> 00:19:29,280

whatever reason it could be because this phenomena
is attracted to uh military operations or nuclear

186

00:19:29,280 --> 00:19:35,280

uh capabilities but for whatever reason it's the
United States military and other militaries that

187

00:19:35,280 --> 00:19:42,000

have all the good stuff whether it's the alleged
retrieval of materials or biological specimens all

188

00:19:42,000 --> 00:19:49,260

the way to uh High Fidelity gun camera videos
taken by F-18 hornets and so and then so but

189

00:19:49,260 --> 00:19:55,500

we also live in a world where we listen to our
institutions and there there it gives validity

190

00:19:55,500 --> 00:20:02,220

to the subject to the mystery when the government
comes out and says yes this is real and this is

191

00:20:02,220 --> 00:20:08,100

what we know about it especially in an environment
where frankly our world institutions uh

192

00:20:08,940 --> 00:20:14,520

ubiquitously look at this as hogwash and they
have for many decades and I think a lot of that

193

00:20:14,520 --> 00:20:20,880

is due to the stigma that has been propagated by
the US government with their propaganda and now

194

00:20:20,880 --> 00:20:26,340

that's starting to erode and now the government
is starting to be more transparent although not

195

00:20:26,340 --> 00:20:31,080

nearly to the degree that they should and
as a result of their increased transparency

196

00:20:32,460 --> 00:20:38,100

learning about for example atip that that at
the close of Project Blue Book it wasn't the

197

00:20:38,100 --> 00:20:42,900

end of the United States government's interest
in this topic now all of a sudden you see project

198

00:20:42,900 --> 00:20:49,680

Galileo with Dr avilo getting interested in it
and other uh efforts and you see it being covered

199

00:20:49,680 --> 00:20:56,340

by the media almost on a weekly basis why the
phenomena has never gone away it's because the

200

00:20:56,340 --> 00:21:03,600

government's tone on the topic has shifted okay
the government's tone has shifted I agree and I

201

00:21:03,600 --> 00:21:09,600

agree that there has been Revelations from papers\h
like the New York Times but isn't there the risk\h\h

202

00:21:09,600 --> 00:21:14,580

can I put this to you isn't there the risk\h
that this is still just very much a marginal\h\h

203

00:21:14,580 --> 00:21:20,460

area of interest for a fairly small number of\h
people ourselves included isn't there a risk\h\h

204

00:21:20,460 --> 00:21:24,900

that if there isn't momentum for example in the\h
midterm elections with this becoming an election\h\h

205

00:21:24,900 --> 00:21:32,160

issue if there's not major regulations Smoking\h
Gun videos it's all going to die and disappear\h\h

206

00:21:32,160 --> 00:21:37,740

for another 50 years or do you think that\h
your generation is not going to let this go\h\h

207

00:21:38,700 --> 00:21:44,400

well I'll say this I'll say look uh if you look at\h
the Nimitz event if you look at the USS Roosevelt\h\h

208

00:21:44,400 --> 00:21:49,620

event with the Nimitz event they started seeing\h
these things as far as they recollect when they\h\h

209

00:21:49,620 --> 00:21:55,560

started upgrading the radar with the USS Roosevelt\h
event they started seeing these things when they\h\h

210

00:21:55,560 --> 00:21:58,860

upgraded the radar so I think we're in an\h
environment now where the technology is\h\h

211

00:21:58,860 --> 00:22:05,460

just getting way way better and so you know even\h
even the military industrial complex that doesn't\h\h

212

00:22:05,460 --> 00:22:11,280

seem very interested at all and being transparent\h
about this topic their technology their ability\h\h

213

00:22:11,280 --> 00:22:15,900

to track things in our atmosphere and our oceans\h
is getting better and better the military knows\h\h

214

00:22:15,900 --> 00:22:21,540

that the United States Congress knows that it's\h
this common sense so my perspective is even if we\h\h

215

00:22:21,540 --> 00:22:27,720

don't get the Smoking Gun anytime soon we are on\h
an inevitable trajectory where this stuff is just\h\h

216

00:22:27,720 --> 00:22:31,560

going to come to light it's inevitable because\h
it's real and it's in our atmosphere and of course\h\h

217

00:22:31,560 --> 00:22:37,080

I always I always caveat this I could be wrong but\h
this is my analysis and so I think the I think the\h\h

218

00:22:37,080 --> 00:22:42,120

National Security apparatus is playing a really\h
dangerous game because if they keep trying to kick\h\h

219

00:22:42,120 --> 00:22:47,580

the the can down the field and try to delay this\h
as much as possible what what is the inevitable\h\h

220

00:22:47,580 --> 00:22:51,960

outcome of that it's an erosion and Trust in\h
government they they know this is going to come\h\h

221

00:22:51,960 --> 00:22:56,100

out they're smarter than I am I know it's going to come out they know it's going to come out 10

222

00:22:56,100 --> 00:23:02,580

times more and yet they're still playing this game of obfuscation delay trying to downplay the topic

223

00:23:02,580 --> 00:23:07,380

inevitably the whole world is going to realize how incredibly important this topic is and it's going

224

00:23:07,380 --> 00:23:11,640

to be Crystal Clear what the US government did with all their propoganda and all their efforts

225

00:23:11,640 --> 00:23:15,780

and all their stonewalling and all their delaying and it's just going to erode it's going to erode

226

00:23:15,780 --> 00:23:19,920

trust so is that the Patriotic thing for the US government to do is that the Patriotic thing for

227

00:23:19,920 --> 00:23:23,580

the National Security apparatus to do I don't think so and I take and I take offense to it

228

00:23:24,120 --> 00:23:31,860

yeah I nicely said uh I'll just uh uh listen Christina uh I wrote a book with uh Richard

229

00:23:31,860 --> 00:23:36,780

Dolan years ago called uh after disclosure and one of the things that Richard always said when

230

00:23:36,780 --> 00:23:42,120

we were doing interviews is he said that our technology was getting so good that we were

231

00:23:42,120 --> 00:23:47,100

about to be able to LEAP into their world right\h
which is sort of another way of what Ryan was just\h\h

232

00:23:47,100 --> 00:23:53,340

saying our technology for the military has gotten\h
so good that we have better radar we have better\h\h

233

00:23:53,340 --> 00:24:00,240

ways to observe these things do you think uh as\h
our civilian technology improves do you think\h\h

234

00:24:00,240 --> 00:24:06,120

uh your generation any generation is prepared to\h
pick that up and say if the government's going to\h\h

235

00:24:06,120 --> 00:24:13,440

slow walk this we're going to go out and do it\h
ourselves here's the thing kids are head heads\h\h

236

00:24:13,440 --> 00:24:19,020

down in their phones and they're looking for\h
alternative news sources stuff that's you know\h\h

237

00:24:19,020 --> 00:24:26,160

fun and I guess news that's more geared towards\h
this generation honestly most of my peers are not\h\h

238

00:24:26,160 --> 00:24:33,060

interested in what the government has to say there\h
there's a very small percentage of them who are\h\h

239

00:24:33,060 --> 00:24:39,120

like you know politically motivated you know like\h
uh activists but TV shows and documentaries they\h\h

240

00:24:39,120 --> 00:24:46,380

have seen growing up always like are they always\h
pushing up pushing the the cover-up narrative you\h\h

241

00:24:46,380 --> 00:24:53,340

would think so right so whether it's TV sci-fi
drama or documentaries kids are skeptical for

242

00:24:53,340 --> 00:25:01,920

the most part of what the government will say
on the topic so I guess instead they rely on

243

00:25:01,920 --> 00:25:09,180

us people like us to decode that information but
then again we live in a time of distractions and

244

00:25:09,180 --> 00:25:15,720

in entertainment so it's really tough to get young
people talking about these topics Bryce let's talk

245

00:25:15,720 --> 00:25:21,900

activism for a second you mentioned that word Ross
and I are old enough to remember people going out

246

00:25:21,900 --> 00:25:29,760

on the streets for anti-war the Vietnam War for
civil rights Etc do you see this as an issue that

247

00:25:29,760 --> 00:25:36,780

eventually will bring people onto the streets
in an activist way to demand change

248

00:25:37,860 --> 00:25:46,560

I sure do hope so but it seems that currently a
lot of the people holding signs and going out in

249

00:25:46,560 --> 00:25:53,040

the streets there's a lot of hatred involved
now with this topic that we're looking at the

250

00:25:53,040 --> 00:25:59,400

UFO phenomenon it's not really about those kinds
of things it's about getting the truth out there

251

00:25:59,400 --> 00:26:07,260

it's about getting that transparency from the
government very specifically so I don't know

252

00:26:07,260 --> 00:26:14,760

how it will go in the near future I hope people
are on the streets demanding answers because they

253

00:26:14,760 --> 00:26:22,200

are asking we are asking the big questions and
the big question is are we alone and most kids

254

00:26:22,200 --> 00:26:29,040

assume that we're not if the media is as fractured
as you suggest Christina if if and I I've this

255

00:26:29,040 --> 00:26:33,960

with my daughters as well I mean they don't watch
mainstream media I sit with my wife and watch the

256

00:26:33,960 --> 00:26:40,140

TV news and my kids think that's very quaint and
I read newspapers which is absurd to them you know

257

00:26:40,140 --> 00:26:45,900

they've all got their data and their media from
social media but if the media is as fractured

258

00:26:45,900 --> 00:26:51,540

as you suggest it's very hard isn't it to get
momentum on any issue I think it's why you know

259

00:26:51,540 --> 00:26:57,420

there are so many crises and you're in my Society
because it's very hard to Galvanize public opinion

260

00:26:57,420 --> 00:27:03,300

how you know I appreciate that podcasts like
yours and Brian's uh are important and I hope

261

00:27:03,300 --> 00:27:10,080

ours as well but I think isn't the issue that
the there always is going to be needing to be

262

00:27:10,080 --> 00:27:16,500

a momentum in mainstream media to actually get
a push through on this issue because the opinion

263

00:27:16,500 --> 00:27:21,900

leaders the people in the positions of power
in the Congress The Gatekeepers particularly

264

00:27:21,900 --> 00:27:27,180

in the U.S Air Force who are obfuscating and
causing difficulty in terms of disclosure

265

00:27:28,020 --> 00:27:33,660

I don't think they want this art and I'm actually
quite Bleak at the moment I'm very concerned that

266

00:27:33,660 --> 00:27:41,220

essentially what we're going to see is a pushback
which finally shuts down mainstream media coverage

267

00:27:41,220 --> 00:27:48,300

of this issue unless there is a major Smoking
Gun Revelation do you really think that podcasts

268

00:27:48,300 --> 00:27:55,920

social media can cut through and provide momentum
in public opinion absolutely I do because now more

269

00:27:55,920 --> 00:28:01,920

than never young people they're not looking at the
mainstream media they're looking at social media

270

00:28:01,920 --> 00:28:08,040

for all of their news and while for some that can
that can sound a little bit disappointing that's

271

00:28:08,040 --> 00:28:15,420

just the way that we're going so for those that
are really pushing this conversation across social

272

00:28:15,420 --> 00:28:23,640

media they're touching new minds every single day
much faster than what so uh the mainstream media

273

00:28:23,640 --> 00:28:30,360

could do or newspapers could do social media is so
fast these days it's unbelievable you never know

274

00:28:30,360 --> 00:28:36,900

if one of your videos or one of your papers are
going to go viral until after it happens sometimes

275

00:28:36,900 --> 00:28:46,020

you just don't expect that so I think that we have
a bright future when it comes to this topic and it

276

00:28:46,020 --> 00:28:51,540

assisting with social media if you're listening
to need to know right now you're uh you just

277

00:28:51,540 --> 00:28:57,660

heard from Christina Gomez of Paradigm shifts
the podcast and several others we also have

278

00:28:57,660 --> 00:29:06,480

Ryan Robbins of the post disclosure world I look
at you rob Robin Ryan I look at you Ryan as an

279

00:29:06,480 --> 00:29:14,220

analyst as much as anything um and I wonder as an
analyst do you think what Ross said is actually

280

00:29:14,220 --> 00:29:21,000

possible can you put the toothpaste back in the
tube after we've gotten people used up to want to

281

00:29:21,000 --> 00:29:26,460

demand answers here I don't believe you can partly\h
because there's been too many military witnesses\h\h

282

00:29:26,460 --> 00:29:32,220

that have come forward whether that's uh Commander\h
David fraver or former Lieutenant Ryan Graves\h\h

283

00:29:33,300 --> 00:29:39,540

various radar operators radar operators and\h
they've been very transparent about their\h\h

284

00:29:39,540 --> 00:29:46,320

assessment of what they've encountered in in\h
UAP encounters and just as an example if you\h\h

285

00:29:46,320 --> 00:29:52,440

just look at the USS Nimitz UFO event series I've\h
paid very close attention to every single witness\h\h

286

00:29:52,440 --> 00:29:57,300

that has come forward and people can correct\h
me if I'm wrong but there is not one witness\h\h

287

00:29:58,320 --> 00:30:05,460

that has stated that what was encountered that day\h
was not technology surpassing all known technology\h\h

288

00:30:05,460 --> 00:30:11,400

of Unknown Origin some of them may think it's from\h
a black project but none of them thinks it was a\h\h

289

00:30:11,400 --> 00:30:16,980

glitch on the radar or an optical illusion\h
all of them believe and assess that it was\h\h

290

00:30:16,980 --> 00:30:23,760

extraordinary technology and beyond that as far as\h
I understand the United States Congress has seen\h\h

291

00:30:23,760 --> 00:30:28,860

much higher Fidelity data than than we have and\h
I'm going to share with you a quote I just have\h\h

292

00:30:28,860 --> 00:30:35,760

it open this is from um July of 2019 and this\h
was I believe it was something that um Richard\h\h

293

00:30:35,760 --> 00:30:41,100

Hoffman of who was a SCU board member I think\h
that's a scientific Coalition for UAP studies\h\h

294

00:30:41,100 --> 00:30:45,360

he he quoted and he said this he said I'm going\h
to quote I'm gonna do it right now luellizondo\h\h

295

00:30:45,360 --> 00:30:50,400

told me straight out that these clips floor one\h
gimbal go fast are not the whole video that in\h\h

296

00:30:50,400 --> 00:30:54,300

fact there were incredible evidence showing\h
performance beyond our capabilities and the\h\h

297

00:30:54,300 --> 00:30:58,620

remaining portions that are indeed classified\h
the general public is getting just a taste but\h\h

298

00:30:58,620 --> 00:31:03,900

not the full meal the Senators got the full meal\h
in the recent briefings assuming this is correct\h\h

299

00:31:05,640 --> 00:31:11,700

um the the bottom line is the the the members\h
of Congress have just seen way too much data\h\h

300

00:31:11,700 --> 00:31:16,380

at this point as far as I can ascertain and if\h
you just look at what our members of Congress\h\h

301

00:31:16,380 --> 00:31:22,020

have said about the phenomena that that supports the contention that they have seen much better

302

00:31:22,020 --> 00:31:26,880

data than we have so no I don't think you can put the toothpaste back in the in the in the tube and

303

00:31:26,880 --> 00:31:33,840

then you have people like Harvard scientists Dr Avi Loeb who's pursuing it independently

304

00:31:34,800 --> 00:31:41,820

um and even has I think on the board of members to assist with that project is Louis salazando who

305

00:31:41,820 --> 00:31:46,320

knows what to look for knows where to look so now I I don't see the toothpaste going back into the

306

00:31:46,320 --> 00:31:51,540

tube personally uh Ross you and I have talked about something a lot I want to throw it as a

307

00:31:51,540 --> 00:31:57,360

jump ball out there what Russ and I talk about all the time is we hear about briefings with 23 minute

308

00:31:57,360 --> 00:32:03,060

videos we hear that the three videos that were released there's longer versions and higher def

309

00:32:03,060 --> 00:32:09,180

Etc and while we understand classification because you don't want to tell your enemies your sources

310

00:32:09,180 --> 00:32:16,920

and methods what we don't seem to understand is why would that prevent you from confirming a

311

00:32:16,920 --> 00:32:24,300

basic fact we are not alone and showing a piece of video a data as you call it a piece of video

312

00:32:24,300 --> 00:32:31,860

that confirms that why don't we at least confirm the basic reality that we're facing do you know

313

00:32:31,860 --> 00:32:37,020

I actually think I'm increasingly coming to the view that the best explanation for that reluctance

314

00:32:37,020 --> 00:32:42,600

that timidity by the the National Security establishment is as I've said previously they

315

00:32:42,600 --> 00:32:48,540

just don't like admitting that they're confounded by this mystery yes I suspect that the United

316

00:32:48,540 --> 00:32:52,860

States government is in possession of Technology but I don't think they understand a great deal

317

00:32:52,860 --> 00:32:58,740

about it I don't think they actually know a great deal and I think for all of the trillions

318

00:32:58,740 --> 00:33:05,220

of dollars that the United States is and has spent on defense and National Security and intelligence

319

00:33:05,220 --> 00:33:11,820

I don't think that I think there's a type of Personality that controls these budgets controls

320

00:33:11,820 --> 00:33:17,280

the inflammation flow from these entities it just doesn't like admitting they have no bloody idea

321

00:33:18,000 --> 00:33:25,980

I think we should also throw this out there\h
we are because all four of us here uh on a\h\h

322

00:33:25,980 --> 00:33:31,560

daily basis are sampling what people are saying\h
and seeing the trend lines and one of the trend\h\h

323

00:33:31,560 --> 00:33:38,940

lines I see that people talk about is this feeling\h
that somehow uh what has been revealed in the past\h\h

324

00:33:38,940 --> 00:33:44,160

week or so with a couple of these articles\h
is that there must be some kind of war with\h\h

325

00:33:44,160 --> 00:33:49,620

internal War within the Pentagon or within the\h
government some people obviously seem to favor\h\h

326

00:33:49,620 --> 00:33:58,140

coming clean to the extent possible about this\h
and others seem to be uh more in favor of keeping\h\h

327

00:33:58,140 --> 00:34:04,800

it bottled up Christina do you do you take that\h
position and and if so do you how do we resolve it\h\h

328

00:34:05,940 --> 00:34:12,120

for a lot of people it's very difficult for them\h
to admit that they were wrong that they didn't\h\h

329

00:34:12,120 --> 00:34:17,520

understand the information and like Ross had\h
mentioned just a little bit earlier for the most\h\h

330

00:34:17,520 --> 00:34:23,160

part at least to my understanding the majority\h
of people that are looking into this have no idea\h\h

331

00:34:23,160 --> 00:34:29,640

what's going on and that can be very difficult\h
to admit because you're showing weakness first\h\h

332

00:34:29,640 --> 00:34:33,420

off and probably the most dangerous thing that you\h
could ever do when you're a part of the government\h\h

333

00:34:33,420 --> 00:34:41,040

is showing weakness and in this case because it\h
is a full-blown mystery they can't just say no l\h\h

334

00:34:41,040 --> 00:34:46,020

have no idea what's going on sorry guys you you\h
paid me billions of dollars with your taxes but\h\h

335

00:34:46,020 --> 00:34:51,900

uh yeah I don't know what's going on here that's\h
terrible to tell the public right I mean how do\h\h

336

00:34:51,900 --> 00:34:57,480

you think the public would react to something like\h
that sorry I don't know well let's let's use a\h\h

337

00:34:57,480 --> 00:35:02,520

specific example here I mean the the Josh Boswell\h
story in the mail suggests that there are videos\h\h

338

00:35:02,520 --> 00:35:08,460

not released still classified shot by Reaper\h
drones that have been conducting surveillance\h\h

339

00:35:08,460 --> 00:35:14,700

in the Middle East that have caught orbs flying\h
around them and then suddenly bolting off the\h\h

340

00:35:14,700 --> 00:35:21,300

screen Ryan what what do you think would happen if\h
such a video was released I think people would be\h\h

341

00:35:21,300 --> 00:35:27,960

absolutely fascinated I think uh people would be
fascinated people would want to know more I think

342

00:35:27,960 --> 00:35:32,580

the scientific Community would want to know more
I think our greatest innovators such as Jeff Bezos

343

00:35:33,240 --> 00:35:40,680

and others would maybe potentially depending upon
how clear these videos are and and you know how

344

00:35:40,680 --> 00:35:45,120

good the data is they would be curious about
how how are these things moving what kind of

345

00:35:45,120 --> 00:35:49,680

propulsion system do they have and then maybe
it would be a spark of some kind of evolution

346

00:35:49,680 --> 00:35:56,760

within the scientific Community to pursue
other means of of of power getting off oil

347

00:35:58,020 --> 00:36:03,600

um I I think it could begin be the beginning
of that depending upon how good the videos are

348

00:36:03,600 --> 00:36:07,860

but I don't buy the argument that
people would panic in the street

349

00:36:08,520 --> 00:36:15,660

or there'd be unrest if it was dropped on Humanity
that we're not alone I mean there are there are

350

00:36:15,660 --> 00:36:21,180

nuclear missiles in China and Russia pointing at
Los Angeles and Washington DC right now we're just

351

00:36:21,180 --> 00:36:25,380

getting off uh well we're not actually we're
still in the midst of a pandemic that's killed

352

00:36:25,380 --> 00:36:30,660

Untold amount of people made Untold amount
of people sick it is it's wrecked the economy

353

00:36:32,100 --> 00:36:37,680

um I I like I'm gonna just go back to my fear
that the longer the U.S government drags this

354

00:36:37,680 --> 00:36:44,940

out the more conducive the environment is that the
public will lose trust in the U.S government and

355

00:36:44,940 --> 00:36:50,580

um if the U.S government those involved
in the secrecy want to diminished blowback

356

00:36:50,580 --> 00:36:58,260

diminish any kind of disruption ironically within
Society then they need to speed this process up

357

00:36:58,800 --> 00:37:02,700

uh we've been doing the trickle thing for a
long time now and I think the argument for

358

00:37:02,700 --> 00:37:08,520

continuing the trickle thing assuming because
I could be wrong but assuming they have Smoking

359

00:37:08,520 --> 00:37:14,400

Gun data that would seal the deal is a grave
mistake and uh it concerns me very very deeply

360

00:37:15,840 --> 00:37:22,740

me too uh I was kind of curious for the whole
group of us here um does age impact in patients

361

00:37:22,740 --> 00:37:30,120

I know that at I'm at a certain age right now and I'm impatient as hell I've I've I've watched

362

00:37:30,120 --> 00:37:34,800

my entire life this thing and for years I've been thinking well how much longer can this thing

363

00:37:34,800 --> 00:37:41,820

really continue and yet it continues so now I'm just I'm a little pissed off I'm very impatient

364

00:37:41,820 --> 00:37:49,500

uh and I'm just wondering uh to the two of you Ryan and Christina are you impatient or do you

365

00:37:49,500 --> 00:37:56,580

are you willing to take a longer view and say well eventually this is going to get done I'm obviously

366

00:37:56,580 --> 00:38:02,400

impatient I want the information now right now bring it to me I'm ready but because you know

367

00:38:02,400 --> 00:38:08,700

I'm so used to getting everything instantaneously with Google and emails and texting and things like

368

00:38:08,700 --> 00:38:14,760

this but when you bring my generation into this conversation while some of the information can be

369

00:38:14,760 --> 00:38:20,700

incredibly tantalizing looking at UFO encounters and abductions and things like this again when it

370

00:38:20,700 --> 00:38:26,340

comes to the government aspect of it they couldn't care less so if they get this report today or in

371

00:38:26,340 --> 00:38:31,140

a year it's it's not going to be a part of their
daily conversation when they're out for lunch or

372

00:38:31,140 --> 00:38:37,500

something like this but for myself and I know I'm
speaking for hopefully everyone here we want the

373

00:38:37,500 --> 00:38:44,280

information now because this really is the most
important conversation that humanity is having

374

00:38:45,420 --> 00:38:50,100

do you think your generation think that that I
mean you're obviously quite extraordinary and

375

00:38:50,100 --> 00:38:55,860

exceptional in terms of your interest in the
subject matter uh is there not a Latitude an

376

00:38:55,860 --> 00:39:00,060

indifference amongst young people towards the
subject matter or are they engaged are they

377

00:39:00,060 --> 00:39:08,040

interested I believe that they are rather engaged
in the conversation once again looking at the

378

00:39:08,040 --> 00:39:13,260

movies that they grew up with the documentaries
the TV shows are now with social media the only

379

00:39:13,260 --> 00:39:19,860

issue with at the moment is that videos that are
getting millions of views are those that are very

380

00:39:19,860 --> 00:39:25,740

easy to tell that they are CGI now if you were
to post a video of an orb or something kind of

381

00:39:25,740 --> 00:39:32,160

blurry they're like oh man this is so boring they\h
in a sense they do want to be entertained they\h\h

382

00:39:32,160 --> 00:39:40,560

want to find this content tantalizing but if if we\h
don't bring them right what they want they're not\h\h

383

00:39:40,560 --> 00:39:44,820

going to be interested in it but here's the thing\h
I want to turn that around I want to get everyone\h\h

384

00:39:44,820 --> 00:39:51,960

interested in the topic looking at all aspects of\h
it I want young people to start demanding answers\h\h

385

00:39:51,960 --> 00:39:59,160

from the government because they're not doing that\h
right now but they will at some point let's let's\h\h

386

00:39:59,160 --> 00:40:07,800

talk for example about the the simple fact that\h
there is a a an election looming in the United\h\h

387

00:40:07,800 --> 00:40:14,520

States I I think that one of the explanations\h
that is very clearly going to form part of the\h\h

388

00:40:14,520 --> 00:40:19,260

report that's going to come down probably in the\h
next couple of days is the explanation that that\h\h

389

00:40:19,260 --> 00:40:26,220

a lot of these objects that have been thought\h
of as unexplained uaps are in fact allegedly we\h\h

390

00:40:26,220 --> 00:40:33,000

are told Chinese or Russian drones now Bryce and I\h
explored this in a documentary earlier in the year\h\h

391

00:40:33,840 --> 00:40:39,000

it may very well be I mean some of the images\h
that have been posted uh in publicly available\h\h

392

00:40:39,000 --> 00:40:44,700

information by the U.S Navy suggests that some\h
of these might be drones but what do you think\h\h

393

00:40:44,700 --> 00:40:49,200

of that explanation what do you think of the\h
idea that the public are being led to the view\h\h

394

00:40:49,200 --> 00:40:56,460

that these are Chinese drones I mean what concerns\h
me is the idea that implicitly the United States\h\h

395

00:40:56,460 --> 00:41:02,760

government by saying that is admitting it's not\h
in control of its own airspace it's basically\h\h

396

00:41:02,760 --> 00:41:07,620

saying yeah you know what we we see these things\h
hovering over our ships and we don't engage them\h\h

397

00:41:07,620 --> 00:41:12,120

we don't shoot at them there's not much we can do\h
about them because there's hordes of them swarming\h\h

398

00:41:12,120 --> 00:41:19,380

us I I don't get it I just truly think that that\h
explanation raises even more grave concerns of a\h\h

399

00:41:19,380 --> 00:41:24,960

national security nature in many ways they're\h
in danger by using that explanation of drones\h\h

400

00:41:24,960 --> 00:41:30,120

are they in danger of putting themselves on a\h
slippery slope to an admission that undermines\h\h

401

00:41:30,120 --> 00:41:36,300

public confidence in the military in the defense\h
even more than the current intransigent lack of\h\h

402

00:41:36,300 --> 00:41:44,100

transparency that they're showing to the UAP issue\h
well drones are just the new drones are just the\h\h

403

00:41:44,100 --> 00:41:50,400

new Swamp gas and weather balloons that's it and\h
and the and the old excuse for what some of these\h\h

404

00:41:50,400 --> 00:41:57,120

objects are such as weather balloons or Venus\h
they won't wash up they they won't they won't\h\h

405

00:41:57,120 --> 00:42:04,380

they won't Vibe with young people and and I can\h
tell you this so neither will Airborne trash or\h\h

406

00:42:04,380 --> 00:42:12,000

Chinese drones okay that's an insult for all of\h
these Pilots coming forward so when you have these\h\h

407

00:42:12,000 --> 00:42:18,660

Elite government studies study groups pushing\h
those Solutions it just gets laughed off really\h\h

408

00:42:19,680 --> 00:42:27,900

it's silly I want to I want to pull Ryan in on\h
this as a from post-disclosure World Ryan Robbins\h\h

409

00:42:27,900 --> 00:42:34,800

um Ryan if we take for uh as an Article of Faith\h
what we just said at the beginning were Russ uh\h\h

410

00:42:34,800 --> 00:42:40,860

iterated what the daily mail was stating was\h
probably going to be in this report and how\h\h

411

00:42:40,860 --> 00:42:46,680

it seems to check out which is 22 pages\h
that basically come down to we've looked\h\h

412

00:42:46,680 --> 00:42:53,880

at 366 new cases and about half of them we\h
can't explain all right that's that should\h\h

413

00:42:53,880 --> 00:42:59,460

be fairly attention getting to people but do you\h
think that's anything that could have any impact\h\h

414

00:42:59,460 --> 00:43:04,740

whatsoever in the current midterm elections\h
which are a week away I I think so I mean\h\h

415

00:43:04,740 --> 00:43:11,100

it's a it's a huge national security issue\h
I mean if you have uh surveillance vehicles\h\h

416

00:43:12,180 --> 00:43:20,640

um recording military operations and collecting\h
data on strategy of the United States Navy and\h\h

417

00:43:20,640 --> 00:43:26,400

that's all being um transmitted to the Chinese\h
military and intelligence apparatus that's pretty\h\h

418

00:43:26,400 --> 00:43:34,140

disturbing and that needs to be addressed and I\h
think those candidates who put a lot of emphasis\h\h

419

00:43:34,140 --> 00:43:39,720

on that will be well received uh certainly\h
not something to gloss over but regarding\h\h

420

00:43:40,860 --> 00:43:43,620

the idea that a lot of this is coming from China\h\h

421

00:43:44,820 --> 00:43:50,100

um we should learn more about how they're pulling
it off where are these Chinese drones taking off

422

00:43:50,100 --> 00:43:57,900

from because for example Lieutenant Ryan Graves
he was doing operations off the Eastern seaboard

423

00:43:57,900 --> 00:44:06,300

and as I recollect he said almost on a daily basis
him and others in his Squadron were picking these

424

00:44:06,300 --> 00:44:12,600

things up on multiple sensors these are not
objects that are coming off the Chinese Coast

425

00:44:12,600 --> 00:44:17,760

where the United States is encroaching on the
Chinese Coast these are these are happening what

426

00:44:17,760 --> 00:44:23,880

10 20 miles off the United States Coast so where
are these objects taking off from how are they uh

427

00:44:23,880 --> 00:44:29,460

getting in close proximity to our carrier strike
groups and then without being blown out of the sky

428

00:44:29,460 --> 00:44:34,620

how are they returning to where they're taking off
from I think that kind of information is going to

429

00:44:34,620 --> 00:44:38,940

have to be made crystal clear to the American
people because it's not good enough to say oh

430

00:44:38,940 --> 00:44:42,960

they're Chinese well tell us more where where are
they coming from how are they getting here I mean

431

00:44:42,960 --> 00:44:47,340

it's it's pretty startling when you really think about it I want to give you props for the way you

432

00:44:47,340 --> 00:44:54,360

phrase that Ryan because that does seem like an effective way to take on the Chinese drone or

433

00:44:54,360 --> 00:44:59,460

anybody's drone kind of point of view which is to say okay well let's work with that for a minute

434

00:44:59,460 --> 00:45:04,140

if you're going to take that argument then how does that physically work in the real physical

435

00:45:04,140 --> 00:45:09,360

world and and I think your point is well taken you know one thing I wanted to ask you though Ryan is

436

00:45:09,360 --> 00:45:14,040

you've got something called post-disclosure world I wrote a book called after disclosure

437

00:45:14,700 --> 00:45:21,120

uh what's disclosure mean to you these days what do you mean by post disclosure that almost

438

00:45:21,120 --> 00:45:25,680

feels like there is an event and everything is before it and then there's an event and

439

00:45:25,680 --> 00:45:30,480

everything is after that's certainly what I was thinking when Dolan and I wrote after disclosure

440

00:45:30,480 --> 00:45:36,000

what are you thinking with post disclosure well unfortunately the word disclosure is um is highly

441

00:45:36,000 --> 00:45:41,280

ridiculed I'm not I guess I have I guess I kind of understand maybe part of it is because people

442
00:45:41,280 --> 00:45:47,400
have been burned for so long by the United States being transparent about um Coming clean on UAP so

443
00:45:47,400 --> 00:45:51,660
they just like to ridicule the word maybe part of why it's ridiculed is because people have

444
00:45:51,660 --> 00:45:56,460
been saying for so long that disclosure is going to happen I'm sure I've I've been responsible for

445
00:45:56,460 --> 00:46:03,300
that to some extent but ultimately to me and and you know there is no agreed upon Definition of

446
00:46:03,300 --> 00:46:08,880
disclosure so we're allowed to we're allowed to apply whatever destination we want until

447
00:46:08,880 --> 00:46:14,280
there's an official definition to Me Disclosure is very simple all disclosure is is when Smoking

448
00:46:14,280 --> 00:46:21,420
Gun evidence of the phenomena emerges that is so epistemologically scientific that the entire

449
00:46:21,420 --> 00:46:25,440
world and all institutions have to accept that we are not alone in the universe and

450
00:46:25,440 --> 00:46:30,780
we're being engaged by something that does not originate from Human intelligence to me that's

451
00:46:30,780 --> 00:46:35,700

what disclosure is so disclosure does not have to
to come from a government it can come from a

452

00:46:35,700 --> 00:46:41,040

mass sighting where a bunch of people are able to
get adequate footage of it or it could come from

453

00:46:41,040 --> 00:46:47,940

someone like Dr Abby Loeb in his Galileo project
with Harvard getting the evidence as long as it

454

00:46:47,940 --> 00:46:54,000

meets that measure of epistemology then we have
disclosure so to me that is what disclosure is

455

00:46:54,000 --> 00:46:59,400

and of course for my usage of disclosure there is
the assumption that there is a phenomena out there

456

00:47:00,420 --> 00:47:04,140

um I can't prove it unfortunately and I know
I could be wrong but when you look at the

457

00:47:04,140 --> 00:47:08,040

patterns that have emerged over and over again
over decades and decades when you look at foia

458

00:47:08,040 --> 00:47:14,460

documents and how they've treated the phenomena
and what you what what modern day uh Navy aviators

459

00:47:14,460 --> 00:47:20,460

and radar operators are saying uh I feel fairly
confident that this phenomena is real and that it

460

00:47:20,460 --> 00:47:25,500

does not originate from Human intelligence the
way you're defining disclosure in a way sounds

461

00:47:25,500 --> 00:47:31,260

like confirmation you you you would feel pretty\h
good if they would just say here's some tape\h\h

462

00:47:31,860 --> 00:47:39,960

this stuff is real talk to you later yeah and \h
think it's a very I think it's I'm just gonna go\h\h

463

00:47:39,960 --> 00:47:44,640

say it I think it's tragic I think the tragic\h
tragic is the right word I think it's tragic\h\h

464

00:47:44,640 --> 00:47:49,560

if in fact there are compartments within the\h
United States government or American aerospace\h\h

465

00:47:49,560 --> 00:47:53,580

companies or other governments or foreign\h
aerospace companies that have the Smoking\h\h

466

00:47:53,580 --> 00:48:00,060

Gun evidence because what it amounts to is a\h
very small number of humanity uh having access\h\h

467

00:48:00,060 --> 00:48:05,760

to earth-shattering knowledge about our universe\h
keeping it to themselves and letting the rest of\h\h

468

00:48:05,760 --> 00:48:11,400

us seven plus billion people be in the dark about\h
the true nature of our reality and it what it what\h\h

469

00:48:11,400 --> 00:48:16,920

it ultimately inevitably does is it holds back\h
the progression of science because as soon as\h\h

470

00:48:16,920 --> 00:48:21,420

you have disclosure now you're just flooded with\h
a whole bunch of questions for example even even\h\h

471

00:48:21,420 --> 00:48:27,600

questions that seem outlandish for example\h
has this phenomena meddled with human uh DNA\h\h

472

00:48:28,620 --> 00:48:35,460

um has it been trying to manipulate us over the\h
decades why is it here um and on and on it goes\h\h

473

00:48:35,460 --> 00:48:40,080

there's so many questions that that right now\h
would be considered science fiction or ridiculous\h\h

474

00:48:40,800 --> 00:48:47,760

another question is how how are they how are they\h
maneuvering without wings without any um uh clear\h\h

475

00:48:47,760 --> 00:48:52,620

means of propulsion these questions would start\h
flooding in and they would permeate the minds\h\h

476

00:48:52,620 --> 00:48:57,660

of our our greatest scientists and engineers and\h
there is a small number of people on this planet\h\h

477

00:48:57,660 --> 00:49:02,160

that are precluding that and I'm sure they they\h
come up with all kinds of creative justifications\h\h

478

00:49:02,760 --> 00:49:06,300

but you know what I'll say this because \h
know that Ross cult heart and I found this\h\h

479

00:49:06,300 --> 00:49:10,920

really fascinating he once said look I've been a\h
journalist I've kept information from the public\h\h

480

00:49:10,920 --> 00:49:15,120

before knowing that it's in the best interest\h
of the public if the United States government or\h\h

481

00:49:15,120 --> 00:49:19,440

any government would just tell me a good reason
of why they're keeping it secret I would remove

482
00:49:19,440 --> 00:49:24,720
myself from the conversation and up until this
day as far as I know and Ross you can correct me

483
00:49:24,720 --> 00:49:31,440
if I'm wrong nobody from the Pentagon or the DIA
or any aerospace companies said hey Ross this is

484
00:49:31,440 --> 00:49:36,120
why we're keeping the rest of the world in the
dark and here's your chance to realize why

485
00:49:36,120 --> 00:49:41,160
it's Justified that hasn't happened has it Ross oh
boy I've really tried Ryan yeah no that's a very

486
00:49:41,160 --> 00:49:47,340
sharp question no I I have I've had conversations
with many people you know at a senior level in

487
00:49:47,340 --> 00:49:53,460
three letter agencies who would meet that they
are as vexed As You Are by the intransigence

488
00:49:53,460 --> 00:49:59,820
of The Gatekeepers and it's funny because I I used
to think that there was some dark conspiracy to me

489
00:49:59,820 --> 00:50:05,940
the most plausible explanation is and this is what
I hope is the case frankly we are in dangerous

490
00:50:05,940 --> 00:50:11,940
times I think there was a much cleverer and much
more determined rollout happening way back in 2015

491
00:50:11,940 --> 00:50:18,420

2016. I think that we probably got a spanner in
the works because of the pandemic and also because

492

00:50:18,420 --> 00:50:23,940

of the deteriorating International situation I
think there are now people particularly in the U.S.

493

00:50:23,940 --> 00:50:29,880

Air Force I'm told who are basically saying now
is not the time and it's exactly the same stunt

494

00:50:29,880 --> 00:50:37,260

that's been pulled pretty much decade after decade
after over the last 75 years um I I routinely

495

00:50:37,260 --> 00:50:43,380

have conversations with people in intelligence and
defense in the United States and in my own country

496

00:50:43,380 --> 00:50:49,980

and in other countries who are telling me this is
real that there is a genuine anomalous phenomenon

497

00:50:49,980 --> 00:50:57,960

that is a a it is possibly non-human intelligence
more likely than not non-human intelligence and

498

00:50:57,960 --> 00:51:03,480

they are as vexed and as confounded as you and
I are about why the public can't be told this

499

00:51:03,480 --> 00:51:08,220

I suspect the most plausible explanation that
they're holding back is one they don't like

500

00:51:08,220 --> 00:51:12,720

admitting that they don't understand it and
two they're hoping that they can develop the

501

00:51:12,720 --> 00:51:18,480

Technologies and master the technologies that lie behind it and that would give America or whichever

502

00:51:18,480 --> 00:51:24,480

country controls it a strategic advantage but I still don't understand even on that rationale

503

00:51:24,480 --> 00:51:31,200

I don't understand why the public can't be told here's one possibility uh I think it's no surprise

504

00:51:31,200 --> 00:51:36,720

to anybody that our country and in fact the world is a pretty chaotic place right now Ryan touched

505

00:51:36,720 --> 00:51:41,880

upon a little bit about that with the pandemic and all that but also we live in a country right now

506

00:51:41,880 --> 00:51:48,420

in the United States where we're pretty evenly split people have lacked uh lost the ability

507

00:51:48,420 --> 00:51:54,360

to talk to each other in a kind of a reasonable way and uh it's just getting tougher and tougher

508

00:51:54,360 --> 00:52:00,600

to To None to to see things not be politicized so Christina I'm kind of wondering from your point of

509

00:52:00,600 --> 00:52:06,540

view is that a reason why you think they might be holding back on doing this they just don't think

510

00:52:06,540 --> 00:52:13,020

that we can if we can't even handle our current reality how would we handle this enhanced reality

511

00:52:14,340 --> 00:52:21,000

it makes me question well then what time is the
right time there are so many quotes that go the

512

00:52:21,000 --> 00:52:26,880

right time is now because the next moment we don't
even know if it'll ever come it's the same thing

513

00:52:26,880 --> 00:52:31,740

that my father says yeah yeah we'll do it tomorrow
and it's like Dad it's tomorrow tomorrow's

514

00:52:31,740 --> 00:52:37,300

tomorrow it hasn't been tomorrow yet and so
with that I like your dad already [Laughter]

515

00:52:39,300 --> 00:52:46,380

well he raised me uh with Twilight Zone best
TV show on the planet but it's if if you

516

00:52:46,380 --> 00:52:53,880

Harbor that mentality right then there will never
be a right time never ever the right time is now

517

00:52:53,880 --> 00:52:59,460

no matter the situation you know we're getting
toward the end here Ross where you gotta wrap this

518

00:52:59,460 --> 00:53:04,620

up but I wanted to throw one thing out there I was
uh at a you have a conference a couple of weeks

519

00:53:04,620 --> 00:53:09,720

ago and one of the things they did on a panel is
ask people well how did you first tip to this this

520

00:53:09,720 --> 00:53:14,580

thing and I know uh Christina for example I've
listened to a number of your podcasts where you're

521

00:53:14,580 --> 00:53:20,160

asking people that you have on his guess well\h
how did you first get involved or whatever my\h\h

522

00:53:20,160 --> 00:53:26,040

question is let's turn it around on on this group\h
here Christina how did you first say you know this\h\h

523

00:53:26,040 --> 00:53:32,100

interests me enough that I'm actually going to\h
lose sleep over it and uh and and I'm going to\h\h

524

00:53:32,100 --> 00:53:38,280

try to make my own impact in it what what happened\h
how did that happen for you well it originally\h\h

525

00:53:38,280 --> 00:53:44,400

started with my father and we used to binge watch\h
the Twilight Zone every New Year's and it was from\h\h

526

00:53:44,400 --> 00:53:50,760

there because of that TV show looking at all of\h
these mysterious topics that got me interested but\h\h

527

00:53:50,760 --> 00:53:56,580

it wasn't until I moved very far away from home\h
to enter University where at that time I had a\h\h

528

00:53:56,580 --> 00:54:03,120

lot of free time on my hands which is no longer a\h
thing but it was from that moment where I thought\h\h

529

00:54:03,720 --> 00:54:08,640

I want to have this conversation people on my\h
campus I don't want to talk to me about this\h\h

530

00:54:08,640 --> 00:54:14,160

stuff they're like hold on Christina let's let's\h
let's take a few substances and then we can have\h\h

531

00:54:14,160 --> 00:54:18,540

this conversation and I'm just like what do you
mean I want to talk about this now they look at

532

00:54:18,540 --> 00:54:24,540

their clock and they're like it's literally 8
A.M okay no we're not doing this and so then

533

00:54:24,540 --> 00:54:30,660

began to go online and attempt to find like-minded
people to have this conversation because I truly

534

00:54:30,660 --> 00:54:37,680

wanted and I still want to understand what the
heck is going on because even to this day I don't

535

00:54:37,680 --> 00:54:43,440

have the answers if anything I have so many more
questions than answers from when I first started

536

00:54:43,440 --> 00:54:49,740

onward but I'm so passionate about it that I'm
Gonna Keep researching it until I cross over

537

00:54:50,280 --> 00:54:56,400

how about you Ryan what's your uh what's your
initiation story well you know I've always sort

538

00:54:56,400 --> 00:55:04,260

of been interested in UAP but what really uh lit
a fire underneath my behind to engage this subject

539

00:55:04,260 --> 00:55:11,520

on it on a YouTube channel was the October
11 2017 conference with to the Stars Academy

540

00:55:11,520 --> 00:55:17,700

when I saw all these high level people such as
um Jim semivan from the Central Intelligence

541

00:55:17,700 --> 00:55:23,400

Agency and the number three guy from Lockheed
Martin Skunk Works I can't his name slips me

542

00:55:24,180 --> 00:55:30,780

but and then Luella zondo and Lou Elizondo said it
was it was in this experience of being the head of

543

00:55:30,780 --> 00:55:35,880

a UAP program that I recognized the phenomena is
indeed real it was pretty obvious to me that this

544

00:55:35,880 --> 00:55:41,640

was significant even if even if we were to argue
as a psyups it's still significant a Psy amongst

545

00:55:41,640 --> 00:55:46,620

the on on to the American people would still be
significant so right there and then I said this

546

00:55:46,620 --> 00:55:53,340

this is huge man this is huge so I'm like I'm
getting in the game so it was like I was busy

547

00:55:53,340 --> 00:56:00,000

with something I don't remember how far after that
news conference was but I think it was like two or

548

00:56:00,000 --> 00:56:04,800

three weeks and then I just started making video
after video and I haven't stopped since then and

549

00:56:04,800 --> 00:56:09,840

what really drives me to be honest uh some people
may think uh what drives me is I I enjoy being a

550

00:56:09,840 --> 00:56:14,520

d-list UFO celebrity but that's really not what
drives me although I do kind of enjoy it but

551

00:56:14,520 --> 00:56:20,400

it really hasn't done anything for me but what
really drives me quite frankly is I want to be

552

00:56:20,400 --> 00:56:26,280

part of the conversation that's what drives me
I want what I think and my assessment to enter

553

00:56:26,280 --> 00:56:31,380

the conversation and I've I've been blessed to do
that because I have a pretty big Twitter following

554

00:56:31,380 --> 00:56:36,300

I have a pretty big YouTube following so not
to toot my own horn and you know I'm sure I

555

00:56:36,300 --> 00:56:42,480

say stupid things all the time but I do have a
pretty a fairly large audience when all things

556

00:56:42,480 --> 00:56:46,740

are considered and that's what I wanted because
I wanted to have an influence on the conversation

557

00:56:46,740 --> 00:56:50,700

that's what drives me that's what drives me
every single day basically that's about it

558

00:56:51,240 --> 00:56:55,440

yeah I think the point to make here is you're
absolutely right one of the things you guys

559

00:56:55,440 --> 00:57:00,540

have both focused me on today is that whilst
there is an attempt to put this all back in the

560

00:57:00,540 --> 00:57:08,040

bottle as happened probably after Roswell in 1947
mainstream media was very easily controlled I mean

561

00:57:08,040 --> 00:57:13,440

we know for example the the telegraph operators\
were basically told not to re-transmit the story\

562

00:57:13,440 --> 00:57:20,280

on the day it's harder to do that these days\
it's harder to put it back in the bottle and yes\

563

00:57:20,280 --> 00:57:25,320

to address what Christina was talking about the\
media is more fragmented the mainstream media is\

564

00:57:25,320 --> 00:57:30,960

largely Irrelevant in this debate it's making\
itself Irrelevant in the debate but what is\

565

00:57:30,960 --> 00:57:36,720

fascinating and what is really heartening is to\
see people like you guys and hopefully us Bryce\

566

00:57:36,720 --> 00:57:43,380

and I coming forward and talking about this issue\
and entering the conversation and I just want to\

567

00:57:43,380 --> 00:57:49,620

leave people with the observation we don't need\
the Wall Street Journal the New York Times The\

568

00:57:49,620 --> 00:57:56,100

Washington Post the LA time times to tell us\
that this story is real they've made themselves\

569

00:57:56,100 --> 00:58:03,780

irrelevant with their inability to engage with\
it in an objective and sensible way so I think\

570

00:58:04,320 --> 00:58:12,960

the big lesson for me is I come away from talking\
to you guys heartened YouTube Russ I I do I want\

571

00:58:12,960 --> 00:58:19,200

to thank Ryan and Christina for for appearing with
us today and and taking this conversation forward

572

00:58:19,200 --> 00:58:28,080

I I am an optimist about this thing I I don't
know if the toothpaste back in the tube is the

573

00:58:28,080 --> 00:58:36,000

right metaphor but I am profoundly of the opinion
that we've gone too far and that it isn't going to

574

00:58:36,000 --> 00:58:41,700

be possible in today's media environment as you
called it a fragmented one with people like Ryan

575

00:58:41,700 --> 00:58:46,980

and Christina and frankly you and me Ross and
all the other people who are involved in this

576

00:58:46,980 --> 00:58:54,240

for it to just go away it was a lot easier in
1969 when they folded up Blue Book for people

577

00:58:54,240 --> 00:58:58,860

to say I guess they looked into it because that's
where you got your answers I don't think we'll get

578

00:58:58,860 --> 00:59:04,140

the answers from those people as you pointed
out like we used to so I'm very uh optimistic

579

00:59:04,140 --> 00:59:10,020

about it and I just wanted to close out by giving
our two guests here a chance to tell our audience

580

00:59:10,020 --> 00:59:16,080

where they can find them in this fragmented media
environment so Christina will start with you tell

581

00:59:16,080 --> 00:59:19,920

us tell our people where where they can find
you and hear you and listen to your thoughts

582

00:59:20,460 --> 00:59:26,160

well first off thank you so much for having me
on it is such a pleasure to speak with all of you

583

00:59:27,360 --> 00:59:34,860

um your audience can find me on my website at
strangeparadigms.com there you can find all of

584

00:59:34,860 --> 00:59:42,120

my social media from YouTube to the blogs I write
to Twitter Instagram Facebook Tick Tock Discord

585

00:59:42,120 --> 00:59:47,940

and things like this but my yeah but my YouTube
channel is under my name um Christina Gomez there

586

00:59:47,940 --> 00:59:56,040

is no h it's just c-r-i-s-t-i-n-a and there you
can catch four shows a week plus my daily YouTube

587

00:59:56,040 --> 01:00:02,520

shorts as well four shows a week oh come on that's
an overage thanks for making time for us that was

588

01:00:02,520 --> 01:00:08,640

insane uh Ryan where do we find you my friend I'm
Gonna Leave just one place go to YouTube and look

589

01:00:08,640 --> 01:00:16,500

up posts disclosure World these days I'm really
just mostly covering the news because in this

590

01:00:16,500 --> 01:00:21,840

current environment very bizarrely which I think
is a testament to where where how far we've come

591

01:00:21,840 --> 01:00:27,180

is that there's news on the lake on a weekly basis
that is worthy of talking about and exploring so

592

01:00:27,180 --> 01:00:31,260

go to YouTube and go to post disclosure world
and you'll find me and thank you for having me

593

01:00:31,260 --> 01:00:37,860

Bryce and Ross it was a pleasure and I'll say
this by the way about Ryan uh it is true about

594

01:00:37,860 --> 01:00:42,420

your YouTube It's fascinating that's where I
first found you but I love your pithy little

595

01:00:42,420 --> 01:00:49,140

uh tweets I think you've mastered the art of
raising big big ideas in little little amounts

596

01:00:49,140 --> 01:00:54,060

of words and I hope that Elon Musk doesn't ever
get in the way of you being able to do that Ross

597

01:00:54,060 --> 01:01:00,240

I'm going to let you take us out so thank you
to both of you Ryan and Christina for sharing

598

01:01:00,240 --> 01:01:07,200

your thoughts and we'll be back another
time very soon hopefully with a fresh ndaa
