

Need to Know

with Coulthart and Zabel

1
00:00:00,120 --> 00:00:02,580
foreign

2
00:00:07,740 --> 00:00:14,580
this is need to know real talk about the
reality of unidentified aerial phenomenon

3
00:00:16,080 --> 00:00:21,120
from Australia Ross coltart
from the U.S Bryce zabel

4
00:00:24,300 --> 00:00:27,960
well I guess we're going to be talking about
anniversaries today I mean it's been around

5
00:00:27,960 --> 00:00:33,780
a month since October 31st report on UAP was
supposed to come out and we're still waiting

6
00:00:33,780 --> 00:00:40,020
but more than that it's been almost five years
since that classic New York Times reporting

7
00:00:40,020 --> 00:00:46,560
sort of ushered in a new age of UAP I mean happy
anniversary Ross nice to have it it's one hell of

8
00:00:46,560 --> 00:00:52,920
an anniversary Bryce frankly I don't know what to
say I am being besieged with people demanding to

9
00:00:52,920 --> 00:00:58,860
know what I know about why there's been this
delay in the Congress and my best spin on it

10
00:00:58,860 --> 00:01:06,120
mate is that frankly the office that's supposedly
meant to be doing this report is so chronically

11

00:01:06,120 --> 00:01:12,660

under-resourced understaffed under focused on by the Pentagon that it hasn't been able to get the

12

00:01:12,660 --> 00:01:18,420

report completed on time people are telling me there will eventually be a report but they're

13

00:01:18,420 --> 00:01:25,140

saying don't get too worked up about it this isn't unusual in the in the Washington DC scheme

14

00:01:25,140 --> 00:01:31,680

of events but but frankly I'll be honest with you mate it it doesn't send a very good message what

15

00:01:31,680 --> 00:01:36,960

it indicates to me at all I I got to tell you I'm not happy I'm I'm not willing to cut that

16

00:01:36,960 --> 00:01:41,700

slack I mean if you recall there was supposed to be and we'll be talking about this more later but

17

00:01:41,700 --> 00:01:49,500

there was a report that was due on June 25th 2021 and it came out on June 25th 2021. this

18

00:01:49,500 --> 00:01:54,600

one I was saying well if it comes out on October 31st that'll be you know eight days before the

19

00:01:54,600 --> 00:01:58,680

election I thought it would be even a part of the election instead it's just gone away and

20

00:01:58,680 --> 00:02:05,040

there's no accountability I I mean people aren't you know raising their voices and and being upset

21

00:02:05,040 --> 00:02:10,020

about this thing and that I think is a little\h
strange uh to have something this important and\h\h

22

00:02:10,020 --> 00:02:15,840

not have any follow-up I mean I I think about okay\h
there's uh Senators that have been involved uh\h\h

23

00:02:15,840 --> 00:02:21,060

Rubio and gillibrand for example why aren't they\h
saying anything why haven't they called the news\h\h

24

00:02:21,060 --> 00:02:27,540

conference that's what worries me about because\h
at the moment when I'm talking to people I know my\h\h

25

00:02:27,540 --> 00:02:32,640

friend Leslie Keynes talking to people there are\h
people all over America who are debating whether\h\h

26

00:02:32,640 --> 00:02:39,060

or not they should come forward as whistleblowers\h
to talk about what they know and what they want to\h\h

27

00:02:39,060 --> 00:02:46,500

hear most of all is a statement of political will\h
from the from the Congress they know that there is\h\h

28

00:02:46,500 --> 00:02:51,420

legislation in place the gillibrand amendment\h
that was put in place in the National Defense\h\h

29

00:02:51,420 --> 00:02:56,880

authorization act last year and they know that\h
there are more Provisions hopefully coming from\h\h

30

00:02:56,880 --> 00:03:02,820

the house later this year hopefully when the\h
ndaa and the intelligence authorization acts\h\h

31

00:03:02,820 --> 00:03:09,120

are passed by both houses of Congress but what
they're looking for most of all is a statement of

32

00:03:09,120 --> 00:03:16,140

clear intent from the people who have championed
this so publicly and mate it ain't happening we're

33

00:03:16,140 --> 00:03:22,800

not I mean the thing I find most conspicuous is
that despite the fact that a report is late by 1

34

00:03:22,800 --> 00:03:29,220

to the Congress there's not been a peep from any
of the chairpersons or the deputy chairpersons

35

00:03:29,220 --> 00:03:35,820

of any of the congressional committees it's like
nobody gives a hoot or they they do give a hoot

36

00:03:35,820 --> 00:03:41,880

and because of that they're not talking I don't
know it just is irritating because what we are

37

00:03:41,880 --> 00:03:49,020

asking for is pretty simple okay a report is out
due out on October 31st it doesn't show up so you

38

00:03:49,020 --> 00:03:53,100

ought to be able to get a straight answer and
if the straight answer was something as simple

39

00:03:53,100 --> 00:03:59,880

as yeah we we were under resourced we're working
on it now we expect to have it out on you know

40

00:03:59,880 --> 00:04:06,060

December 15th instead that would at least be an
answer it would have some something behind it we

41

00:04:06,060 --> 00:04:11,100

don't get that and it's the same issue I got to
tell you that bothers me over and over about the

42

00:04:11,100 --> 00:04:18,060

whole UAP UFO issue which is I'm not necessarily
expecting the government or anyone else to say

43

00:04:18,060 --> 00:04:22,860

oh by the way here's a briefing here's exactly
what's been going on for the last 80 years or

44

00:04:22,860 --> 00:04:28,440

so but I wouldn't mind if the people in the know
could simply put out a declarative statement that

45

00:04:28,440 --> 00:04:34,080

says yeah these things aren't ours we're not
alone that would be just a great start so the

46

00:04:34,080 --> 00:04:41,400

whole issue of UFO UAP disclosure or investigation
or whatever we want to call it has been plagued

47

00:04:41,400 --> 00:04:49,020

by this sense that if we don't talk about it if we
just ignore it then it'll go away but I think what

48

00:04:49,020 --> 00:04:54,540

you and I have been doing for 25 podcasts now by
the way happy anniversary for our 25th podcast too

49

00:04:55,440 --> 00:05:00,540

um what we've been doing is saying you know if
you're not going to talk about it we're going

50

00:05:00,540 --> 00:05:05,580

to talk about it so I guess we have to talk
about it we have to explain what's going on

51

00:05:06,900 --> 00:05:11,580

and also the only thing that has appeared in
mainstream media and it's coming up for an

52

00:05:11,580 --> 00:05:17,460

anniversary on that story now is Julian Barnes
apologia for the Pentagon where he wrote In The

53

00:05:17,460 --> 00:05:23,880

New York Times how many military UFO reports
are just foreign spying or Airborne trash and

54

00:05:23,880 --> 00:05:29,160

that was the story that I think set the scene for
the growing despondency that we're seeing at the

55

00:05:29,160 --> 00:05:33,120

moment where people are questioning whether
or not there really is a serious commitment

56

00:05:33,120 --> 00:05:40,920

by the Pentagon I mean it was a shameful story
it was just a complete joke a classic piece of

57

00:05:40,920 --> 00:05:46,320

um quiet little briefing in a quiet room to a
reporter who was obviously trusted to do the right

58

00:05:46,320 --> 00:05:54,000

thing and and peddle out the usual lines there
was not one questioning moment in the article

59

00:05:54,000 --> 00:05:59,700

which really put them on the spot basically
American officials supposedly familiar with the

60

00:05:59,700 --> 00:06:06,180

findings of the Pentagon and intelligence agencies
investigations of these incidents reassuringly

61

00:06:06,180 --> 00:06:12,780

stated don't you worry your tiny little heads you\h
little folk out there as great and illustrious\h\h

62

00:06:12,780 --> 00:06:18,480

Pentagon we're going to tell you how most of this\h
stuff is just weather balloons Airborne clutter\h\h

63

00:06:18,480 --> 00:06:25,260

or surveillance operations by other countries\h
don't you worry yourself all's fine and I guess\h\h

64

00:06:25,260 --> 00:06:31,560

what that story did was set the scene for the\h
impression that what we're seeing is a pushback a\h\h

65

00:06:31,560 --> 00:06:40,080

hose done and I am being impressed upon privately\h
by people who are passionately committed to The\h\h

66

00:06:40,080 --> 00:06:45,660

Whistleblower disclosures before Congress I'm\h
being told I'm too negative and that what we're\h\h

67

00:06:45,660 --> 00:06:52,860

seeing uh happening is not a reflection of what's\h
actually happening that behind the scenes there\h\h

68

00:06:52,860 --> 00:06:59,700

are already people giving evidence to Congress but\h
the big question in my mind is Congress might get\h\h

69

00:06:59,700 --> 00:07:05,760

to hear about it some of the provisions in the\h
um in the legislation allow even the individual\h\h

70

00:07:05,760 --> 00:07:11,400

chairperson of the various committees to be\h
briefed about it but will the public get to\h\h

71

00:07:11,400 --> 00:07:19,140

know about it that's the big question I'm sorry\h
I am not appeased I'm just not um because the\h\h

72

00:07:19,140 --> 00:07:23,940

the things that you're telling me that people are\h
willing to speak to you about behind the scenes\h\h

73

00:07:23,940 --> 00:07:29,880

I'm experiencing the same thing myself I'm saying\h
these are not huge Revelations it ought not to\h\h

74

00:07:29,880 --> 00:07:36,540

be a problem to say uh we're having uh behind the\h
scenes we're having closed-door meetings on it and\h\h

75

00:07:36,540 --> 00:07:42,300

we're we're talking to whistleblowers okay well\h
okay that's not briefing you on the the actual\h\h

76

00:07:42,300 --> 00:07:48,480

content it's just acknowledging where we stand\h
in the process if if the people in Washington\h\h

77

00:07:48,480 --> 00:07:55,620

cannot tell us where we stand in the process I am\h
not amused now you were talking about how people\h\h

78

00:07:55,620 --> 00:08:01,140

have talked to you I'm going to read something\h
from an email I got from someone who knows\h\h

79

00:08:01,740 --> 00:08:07,080

things okay I'm not going to tell you who it is\h
because they've asked me not to but I hear from\h\h

80

00:08:07,080 --> 00:08:11,580

that person the process is on track and moving\h
ahead smartly so that's basically what you're\h\h

81

00:08:11,580 --> 00:08:17,760

saying we're being reassured you know don't
worry behind the scenes we got this handled and

82

00:08:17,760 --> 00:08:23,100

again you know I'm not amused the person then said
perhaps we're moving faster than the rate at which

83

00:08:23,100 --> 00:08:29,400

Collective conscious can process and internalize
emerging facts and data well that that probably is

84

00:08:29,400 --> 00:08:35,520

is true I'd have to probably explain that but they
say the great majority seem to love the UAP issue

85

00:08:35,520 --> 00:08:41,760

as a theoretical proposition and flocked alien
and Sci-Fi movies but the prospect of confronting

86

00:08:41,760 --> 00:08:47,700

the reality of another complex and potentially
destabilizing existential issue and on and on

87

00:08:47,700 --> 00:08:52,500

they're saying that's the the reason it's just
too big an issue well for crying out loud Ross

88

00:08:52,500 --> 00:09:00,960

it's been too big an issue since at least 1947. at
some point we have to say I've run out of patience

89

00:09:00,960 --> 00:09:06,300

and and again I don't want to be look I you know
I don't want the government knocking on my door to

90

00:09:06,300 --> 00:09:12,060

shut me up from you know being a activist fire
brand or anything I'm not actively campaigning

91

00:09:12,060 --> 00:09:17,760

for anybody to say things they're not supposed to\h
say that would violate National Security but I am\h\h

92

00:09:17,760 --> 00:09:23,940

actively campaigning that at least let's have we\h
started out with what looked like a transparent\h\h

93

00:09:23,940 --> 00:09:29,460

process and if this pushback means we're trying to\h
put it back in the Box all I can tell you is from\h\h

94

00:09:29,460 --> 00:09:34,440

my perspective it won't wash not only will you\h
and I not accept it I don't think the public will\h\h

95

00:09:35,400 --> 00:09:41,400

call this the I'm as mad as hell and I'm not\h
gonna take this anymore episode what do you reckon\h\h

96

00:09:42,360 --> 00:09:48,780

I like it you know I'd be happy to throw my window\h
open and yell that except I live about a hundred\h\h

97

00:09:48,780 --> 00:09:54,240

yards for my next neighbor so I don't even think\h
they'd hear me uh but but I think we are mad as\h\h

98

00:09:54,240 --> 00:10:01,140

hell but we're not mad as hell about everything\h
we're just mad that the process that we're\h\h

99

00:10:01,140 --> 00:10:09,720

pursuing needs to be one that is transparent and\h
is discussed and and hopefully gets the mainstream\h\h

100

00:10:09,720 --> 00:10:17,700

media to start covering this like a real national\h
security issue which at minimum it is and uh that\h\h

101

00:10:17,700 --> 00:10:22,920

is something that has not happened yet and uh
again when we when we talk about what's happened

102

00:10:22,920 --> 00:10:28,920

in the last five years that's one of the stories
behind it well as you know Bryce I I've given

103

00:10:28,920 --> 00:10:34,020

up having any faith in the mainstream media's
ability to even take an interest in this subjects

104

00:10:36,720 --> 00:10:43,380

and I I've basically decided that the only reason
why shows like us are so important is because

105

00:10:43,380 --> 00:10:48,240

we're filling a gap I mean I know it sounds
pompous and self-important but we really are

106

00:10:48,240 --> 00:10:57,120

we're filling a gap in what should be objective
analytical coverage of the news of uaps this is

107

00:10:57,120 --> 00:11:05,820

potentially the biggest story ever frankly that's
what I think I mean let's just I I think what we

108

00:11:05,820 --> 00:11:12,780

could usefully do today uh seeing it's the
anniversary of what I think is a momentous

109

00:11:12,780 --> 00:11:22,680

moment the October 20 sorry December 2017 um uh
story of the New York Times where essentially it

110

00:11:22,680 --> 00:11:29,040

was essentially admitted that the Pentagon had
been secretly investigating UFOs maybe we should

111

00:11:29,040 --> 00:11:36,660

take stock maybe it's time for us to take stock\h
and consider what has been achieved in the last\h\h

112

00:11:36,660 --> 00:11:42,780

five years because I think it's very easy for\h
us to look now and get despondent about the\h\h

113

00:11:42,780 --> 00:11:47,760

fact that the pentagon's perhaps not responding\h
as quickly as we would like with the report that\h\h

114

00:11:47,760 --> 00:11:55,260

it's obliged to provide to Congress but really\h
if you look back at five years ago when I first\h\h

115

00:11:55,260 --> 00:12:00,060

to be honest started getting very interested in\h
this subject matter as a reporter for Australia\h\h

116

00:12:00,060 --> 00:12:08,280

60 minutes and I saw the New York Times\h
December 2017 story that was a momentous\h\h

117

00:12:08,280 --> 00:12:13,260

moment for many people including myself all\h
over the world not just in America it was\h\h

118

00:12:13,260 --> 00:12:19,980

a moment where I realized that the official\h
narrative is not the correct one that we're\h\h

119

00:12:19,980 --> 00:12:27,420

not being given the full story and indeed even\h
before that date in October of 2017 there was\h\h

120

00:12:27,420 --> 00:12:34,080

an organization launched called the Stars\h
Academy which basically put Jim simivan xcia\h\h

121

00:12:34,080 --> 00:12:40,260

Hal put off X just about every three million\h
agency Steve Justice X Lockheed Martin's Skunk\h\h

122

00:12:40,260 --> 00:12:48,360

Works Chris melon next defense department and\h
Louis zondo ex-odni and National Intelligence\h\h

123

00:12:49,740 --> 00:12:56,520

it was an incredible moment to see those people\h
on stage talking about their willingness to\h\h

124

00:12:56,520 --> 00:13:04,080

discuss something that has been so ridiculed and\h
so stigmatized for much of the last seven decades

125

00:13:09,840 --> 00:13:14,640

well you know Ross all of that is very\h
true and uh just for the record it was\h\h

126

00:13:14,640 --> 00:13:21,060

December 17th of 2017 when the New York Times\h
front page article appeared and it was quite a\h\h

127

00:13:21,060 --> 00:13:26,520

radical thing now I don't know if that's going\h
to stand up as a day that lives on like the JFK\h\h

128

00:13:26,520 --> 00:13:33,540

assassination or 911 I think uh the the it's\h
doubtful um but it was an important time and\h\h

129

00:13:33,540 --> 00:13:39,600

and we all have those memories where we say I\h
remember what I was doing when I heard about\h\h

130

00:13:39,600 --> 00:13:44,760

that and that's usually what is a sign that\h
we're dealing with something now Ross I've\h\h

131

00:13:44,760 --> 00:13:50,580

got an actual story about how I learned about
this on 2017 but before I tell it I want to

132

00:13:50,580 --> 00:13:56,220

know how did you first tip to this story when
did you first lay eyes on that that article

133

00:13:57,660 --> 00:14:03,300

I I got told about it by people in the U.S who
basically said to me you know you need to look

134

00:14:03,300 --> 00:14:08,880

at this story it's amazing and they were some of
the people that I'd been meeting who were Pentagon

135

00:14:08,880 --> 00:14:14,640

people who who told me privately that I should
be taking this seriously and I think they knew

136

00:14:14,640 --> 00:14:20,760

it was coming basically uh as soon as I clicked
onto that website and saw glowing auras and black

137

00:14:20,760 --> 00:14:28,080

money the pentagon's mysterious UFO program Leslie
Kane Ralph Blumenthal Helene Cooper I knew the

138

00:14:28,080 --> 00:14:34,500

world was about to be tipped upside down to see an
admission in black and white on the front page of

139

00:14:34,500 --> 00:14:41,700

the New York Times that the Pentagon had secretly
been investigating UFOs and indeed paranormal

140

00:14:41,700 --> 00:14:47,100

phenomena at Skinwalker Ranch through a program
that they said was called atip but was actually

141

00:14:47,100 --> 00:14:55,920

orsap a a wsap that was an amazing moment and it'h
actually dropped in in terms of what had actually'h'h

142

00:14:55,920 --> 00:15:02,340

dropped it wasn't a huge storm Story I mean merely'h
the fact that the Pentagon was investigating UFOs'h'h

143

00:15:02,340 --> 00:15:09,780

was was the Revelation but there were so many'h
little nuggets in that story that later bore fruit'h'h

144

00:15:09,780 --> 00:15:15,900

the the fact that it mentioned Bob Bigelow who'd'h
previously only very recently at that time told'h'h

145

00:15:15,900 --> 00:15:23,220

60 Minutes in the U.S that he was convinced that'h
aliens were real and it was also back then very'h'h

146

00:15:23,220 --> 00:15:28,980

important that it mentioned James lacatsky A dia'h
official it didn't name him by name but it talked'h'h

147

00:15:28,980 --> 00:15:35,100

about a Dia official who'd gone to the Skinwalker'h
Ranch to investigate phenomena and he he'd done'h'h

148

00:15:35,100 --> 00:15:41,220

this by going through Harry Reid Senator Harry'h
Reid who was at the time the House Majority Leader'h'h

149

00:15:41,220 --> 00:15:47,040

and and significantly I think now in light of what'h
we're seeing with NASA's investigation into UFOs'h'h

150

00:15:47,040 --> 00:15:53,580

it also mentioned how Astronaut John Glenn had'h
told Senator Harry Reid that he thought that there'h'h

151

00:15:53,580 --> 00:16:00,600

should be investigations into uaps particularly\h
interviewing Pilots who'd seen objects and we\h\h

152

00:16:00,600 --> 00:16:06,120

now know five years on that's happening and I\h
think what's significant is that that New York\h\h

153

00:16:06,120 --> 00:16:14,040

Times story was the beginning of five years of\h
rolling Revelations and truly I actually want to\h\h

154

00:16:14,040 --> 00:16:19,980

pay tribute here I I think we should acknowledge\h
the incredible work that's been done by people\h\h

155

00:16:19,980 --> 00:16:28,260

like Chris Mellon Hal put off Louis zondo Eric\h
Davis all these people behind the scenes who've\h\h

156

00:16:28,260 --> 00:16:33,660

been gently pushing and doing a lot more work\h
particularly melon behind the scenes to actually\h\h

157

00:16:33,660 --> 00:16:41,160

get the Congress to be receptive to something that\h
was so stigmatized and so ridiculed I think we've\h\h

158

00:16:41,160 --> 00:16:49,560

achieved a lot in five years well I agree and you\h
just blew past 50 percent of my notes my friends\h\h

159

00:16:49,560 --> 00:16:56,100

so um I was still waiting for Ross to say gee\h
Bryce why don't you tell us your story about what\h\h

160

00:16:56,100 --> 00:17:02,820

happened and how you learned about it so I'll just\h
wait oh okay chief Russ why don't you tell me your\h\h

161

00:17:02,820 --> 00:17:08,340

story about what you learned clearly oh my God\h
Rick Ross I'm so taken aback that you would ask\h\h

162

00:17:09,000 --> 00:17:17,940

um okay well um I'd love to do that on December\h
uh 17th of 2017 I literally was on vacation in\h\h

163

00:17:17,940 --> 00:17:25,140

New Orleans I was doing research at the World War\h
Two Two Museum there beautiful and and substantial\h\h

164

00:17:25,140 --> 00:17:31,440

Museum on the topic um and I was doing research\h
and I came out of uh the film that Tom Hanks\h\h

165

00:17:31,440 --> 00:17:36,780

narrated I believe and my phone said you have\h
a phone message a voice message so I played it\h\h

166

00:17:36,780 --> 00:17:43,080

and uh this is how I found out it was a message\h
from Dan Aykroyd of course the actor who is also\h\h

167

00:17:43,080 --> 00:17:49,080

well known in UFO circles and he and I had been\h
talking about the Betty and Barney Hill movie that\h\h

168

00:17:49,080 --> 00:17:53,640

um that I'm still trying to get produced and\h
this is the message he left I'm not going to read\h\h

169

00:17:53,640 --> 00:18:00,900

all of it but it's a part of it he goes uh yeah\h
front page December 17th New York Times real UFOs\h\h

170

00:18:00,900 --> 00:18:06,660

Pentagon unit tried to know Ralph Blumenthal wrote\h
it he wrote that great piece in Vanity Fair about\h\h

171

00:18:06,660 --> 00:18:11,400

Betty and Barney do you know Ralph he's great\h
just great you should get to know him if you don't\h\h

172

00:18:11,400 --> 00:18:16,440

love seeing the idea of captured don't know why\h
Spielberg wouldn't want to produce that big time\h\h

173

00:18:16,440 --> 00:18:21,720

if you've got the rights you're very wise there\h
and then he ends by going he says it's acroyd\h\h

174

00:18:21,720 --> 00:18:26,520

here of course which of course I knew because I\h
know the guy's uh voice and I loved him talking\h\h

175

00:18:26,520 --> 00:18:31,560

about he wants to be in a movie that I want to do\h
but this is how he ended he goes but here we are\h\h

176

00:18:31,560 --> 00:18:40,920

December 17 2017. it's uh just wait what's coming\h
man just wait what's coming to this planet boy all\h\h

177

00:18:40,920 --> 00:18:46,200

right have fun sir talk to you soon and next time\h
we see each other again I'll tell you about the\h\h

178

00:18:46,200 --> 00:18:55,620

car they made disappear in front of me bye okay\h
well um I'd love to do that on December uh 17th of\h\h

179

00:18:55,620 --> 00:19:02,880

2017 I literally was on vacation in New Orleans\h
um I was doing research at the World War II 2\h\h

180

00:19:02,880 --> 00:19:09,540

Museum there beautiful and and substantial Museum\h
on the topic um and I was doing research and I\h\h

181

00:19:09,540 --> 00:19:14,760

came out of uh the film that Tom Hanks narrated I\h
believe and my phone said you have a phone message\h\h

182

00:19:14,760 --> 00:19:21,240

a voice message so I played it and uh this\h
is how I found out it was a message from Dan\h\h

183

00:19:21,240 --> 00:19:26,880

Aykroyd of course the actor who is also well known\h
in UFO circles and he and I had been talking about\h\h

184

00:19:26,880 --> 00:19:33,060

uh the Betty and Barney Hill movie that um that\h
I'm still trying to get produced and uh this is\h\h

185

00:19:33,060 --> 00:19:37,200

the message he left I'm not going to read all\h
of it but it's a part of it he goes uh yeah\h\h

186

00:19:37,200 --> 00:19:45,060

front page December 17th New York Times real UFOs\h
Pentagon unit tried to know Ralph Blumenthal wrote\h\h

187

00:19:45,060 --> 00:19:49,860

it he wrote that great piece in Vanity Fair about\h
Betty and Barney do you know Ralph he's great just\h\h

188

00:19:49,860 --> 00:19:55,020

is great you should get to know them if you don't\h
love seeing the idea of captured don't know why\h\h

189

00:19:55,020 --> 00:19:59,220

Spielberg wouldn't want to produce that big time\h
if you've got the rights you're very wise there\h\h

190

00:19:59,220 --> 00:20:04,440

and then he ends by going he says it's acroyd\h
here of course which of course I knew because\h\h

191

00:20:04,440 --> 00:20:09,180

I know the guy's voice and I loved him talking\h
about he wants to be in a movie that I want to do\h\h

192

00:20:09,180 --> 00:20:17,460

but this is how he ended he goes but here we are\h
December 17 2017. it's uh just wait what's coming\h\h

193

00:20:17,460 --> 00:20:24,660

man just wait what's coming to this planet boy\h
all right have fun sir talk to you soon and next\h\h

194

00:20:24,660 --> 00:20:29,580

time we see each other again I'll tell you about\h
the car they may disappear in front of me bye

195

00:20:32,940 --> 00:20:38,640

it's about the car that disappeared in front\h
of you I have heard that story uh I I wouldn't\h\h

196

00:20:38,640 --> 00:20:43,620

presume to tell it but uh because it was a\h
first person experience of this but anyway\h\h

197

00:20:43,620 --> 00:20:48,840

so of course the first thing I did is say\h
to my family okay you guys go look at the\h\h

198

00:20:48,840 --> 00:20:54,660

damn Museum I've got to sit down and and read\h
an article so I sat down at the World War II\h\h

199

00:20:54,660 --> 00:20:59,580

Museum in New Orleans and read that article\h
and I will say this I felt like as I read it\h\h

200

00:20:59,580 --> 00:21:04,140

well we're never going to see the world the same\h
way now I don't want to pick up on one thing you\h\h

201

00:21:04,140 --> 00:21:09,960

said though you said that that was almost the
trigger for you saying I'm gonna I'm gonna pay

202

00:21:09,960 --> 00:21:14,460

attention to this which led to your fantastic
book in plain sight that came out last year

203

00:21:15,660 --> 00:21:21,780

for me it was a different experience I'd been
stuck in UFO world for almost three decades

204

00:21:21,780 --> 00:21:28,680

uh two and a half decades I think at that point
so for me I had given up if you will on the

205

00:21:28,680 --> 00:21:34,380

thought that people would sort of start with the
period of transparency and we might actually get

206

00:21:34,380 --> 00:21:38,580

to the place where we were going to be honest
uh with ourselves about this thing because I'd

207

00:21:38,580 --> 00:21:45,060

lived through my entire life where you you hoped
something would break but nothing ever did right

208

00:21:45,060 --> 00:21:50,820

so when I read that it was transformative for
one reason none of us are getting any younger

209

00:21:50,820 --> 00:21:57,060

and that applies to me and when I read it I
was giving up on the Opera opportunity or the

210

00:21:57,060 --> 00:22:04,080

chance that I might see some form of admission
confirmation disclosure in my own Lifetime and

211

00:22:04,080 --> 00:22:10,740

what it did for me is it gave me hope to pursue
this in a more aggressive way such as the podcast

212

00:22:10,740 --> 00:22:15,660

we're doing because I thought you know what
this might just now happen in my lifetime and

213

00:22:15,660 --> 00:22:21,240

and I'm I believe that is absolutely true so
yeah it was a game changer for me for you for

214

00:22:21,240 --> 00:22:26,160

different reasons and I'm sure uh just like if
you went through the JFK assassination and asked

215

00:22:26,160 --> 00:22:30,120

people where were you if you were even alive
of course uh everybody has a different story

216

00:22:30,120 --> 00:22:36,660

and I'm sure a lot of the people listening to us
have their own stories so yeah big big day and

217

00:22:36,660 --> 00:22:44,100

and just as a point of uh uh you know to to lay
the clarity out on this thing the the meeting the

218

00:22:44,100 --> 00:22:48,300

press conference you were talking about with
Tom DeLong and all those that list of great

219

00:22:48,300 --> 00:22:54,120

people that you mentioned uh from the to the Stars
Academy that preceded the New York Times article

220

00:22:54,120 --> 00:23:01,740

when we I remember seeing that and going well I
don't know if this is going I it was interesting

221

00:23:01,740 --> 00:23:06,420

to listen to but I thought what's Tom DeLong going to do you know I don't know how he got these guys

222

00:23:06,420 --> 00:23:14,040

to appear with him but hopefully so I had said that it was a December 2017 New York Times story

223

00:23:14,040 --> 00:23:18,960

that twigged my interest but to be honest with you when I was working for 60 Minutes Australia

224

00:23:18,960 --> 00:23:24,780

I'd already been talking to people in Washington and so I'm sending out the idea of me writing a

225

00:23:24,780 --> 00:23:33,120

book on uaps UFOs and my interest had been drawn to Tom delong's conversations with Alejandro Rojas

226

00:23:33,120 --> 00:23:41,160

right through 2015 2016. and then I saw the foundation press conference of tsa the to the

227

00:23:41,160 --> 00:23:48,540

Stars Academy in October of 2017 which was a few months prior of course to the New York Times story

228

00:23:49,140 --> 00:23:57,060

and that I thought was an incredibly important moment because you had on stage Elizondo a former

229

00:23:57,060 --> 00:24:02,520

counter-intelligence agents for odni Chris melon a former deputy assistant Secretary of Defense

230

00:24:03,600 --> 00:24:10,500

um Jim semivan from the CIA Steve Justice from Lockheed Martin it was extraordinary

231

00:24:10,500 --> 00:24:18,000

and the promise of course was intense but I I think it's also what came out in that period

232

00:24:18,000 --> 00:24:23,820

following the New York Times story that really got me going because not only did you have Louis

233

00:24:23,820 --> 00:24:32,100

Elizondo protesting in the New York Times and also in his tsa interviews about the excessive secrecy

234

00:24:32,100 --> 00:24:40,140

and ridicule and stigma are associated with UFOs he also made that extraordinary statement on

235

00:24:40,140 --> 00:24:47,400

CNN that I think will be regarded in the future as one of the Great Moments in history where Elizondo

236

00:24:47,400 --> 00:24:54,960

leans forward to the mic and tells CNN's reporter my personal belief is that there is very

237

00:24:54,960 --> 00:25:04,500

compelling evidence that we we may not be alone whatever that means I I think I think that is the

238

00:25:04,500 --> 00:25:10,080

boom moment that was when I sort of went holy heck and it was interesting because it was around about

239

00:25:10,080 --> 00:25:16,800

then I put a bid in from Australia's 60 minutes program to get Chris Miller and I approached him

240

00:25:16,800 --> 00:25:22,740

and he very kindly agreed to an interview and this is a reflection of the media stigma my TV program

241

00:25:22,740 --> 00:25:28,440

at the time channel channel nines 60 Minutes\h
it said yep yep we'll let you do the interview\h\h

242

00:25:28,440 --> 00:25:33,480

with Chris Mellon and I was booked on a flight to\h
Washington I think in January the following year\h\h

243

00:25:34,140 --> 00:25:40,380

and then all of a sudden my executive producer\h
pulled the pin citing their concern about the\h\h

244

00:25:40,380 --> 00:25:46,020

ridicule and the stigma associated with UFOs\h
which I thought was very telling that that even\h\h

245

00:25:46,020 --> 00:25:51,960

when you had a front page story in the New York\h
Times basically saying look you know UFOs are\h\h

246

00:25:51,960 --> 00:25:57,540

real they're being investigated by the Pentagon\h
you've got a former deputy assistant Secretary of\h\h

247

00:25:57,540 --> 00:26:02,880

Defense who's basically prepared to talk to you\h
about it and I'd lined up the interview and the\h\h

248

00:26:02,880 --> 00:26:08,220

great frustration for me as a mainstream reporter\h
was that the pin was pulled and I realized I think\h\h

249

00:26:08,220 --> 00:26:14,040

at that point that the only way that we can cover\h
this issue is by acknowledging that the mainstream\h\h

250

00:26:14,040 --> 00:26:21,960

media is hamstrung it's it's so hampered by this\h
stigma this ridicule that that's why shows like\h\h

251

00:26:21,960 --> 00:26:25,980

ours matter yeah you know I just want to point\h
out one thing though when you're talking about\h\h

252

00:26:25,980 --> 00:26:34,260

the boom moment uh when Elizondo said we may not\h
be alone it was a boom moment for you hearing\h\h

253

00:26:34,260 --> 00:26:40,860

Elizondo say it but he wasn't saying it in that\h
widespread uh way that a New York Times front page\h\h

254

00:26:40,860 --> 00:26:46,140

article was which was the you know sort of the\h
boom moment for the average person if they were\h\h

255

00:26:46,140 --> 00:26:52,260

waking up to it and that leads me to want to just\h
uh make one thing clear about our podcast need to\h\h

256

00:26:52,260 --> 00:26:56,460

know we're trying to have our cake and eat it\h
too we're trying to have it both ways we want\h\h

257

00:26:56,460 --> 00:27:02,580

to have a podcast a weekly briefing if you will\h
or not weekly a bi-weekly briefing where people\h\h

258

00:27:02,580 --> 00:27:08,520

can come in and uh if you already know a lot\h
about the topic uh you know some of it may be a\h\h

259

00:27:08,520 --> 00:27:14,640

redundant but we'll try to give it some context\h
and an analysis and even commentary but we also\h\h

260

00:27:14,640 --> 00:27:19,620

want to make it friendly for people who are just\h
now waking up to the fact after these five years\h\h

261

00:27:19,620 --> 00:27:24,420

that wow something real is going on about this\h
and maybe I want to to know a little bit more\h\h

262

00:27:24,420 --> 00:27:30,480

that's also who need to know is for so one of the\h
things if we're going to talk about the five-year\h\h

263

00:27:30,480 --> 00:27:35,100

anniversary of this New York Times article\h
and how things have changed I think that's\h\h

264

00:27:35,100 --> 00:27:40,620

a two-part discussion uh Ross and and part one is\h
I think we should tell people what the world was\h\h

265

00:27:40,620 --> 00:27:45,660

like prior to that and then talk about some of the\h
things that have happened in the world after that\h\h

266

00:27:45,660 --> 00:27:55,440

so let me take a a crack at UFO history prior to\h
2017. for now some most of you already know this\h\h

267

00:27:55,440 --> 00:28:03,000

not everyone does the thing really broke open\h
in the United States over 75 years ago in 1947\h\h

268

00:28:03,000 --> 00:28:09,900

in the summer of 1947. there was a sighting by\h
a pilot Kenneth Arnold in Washington state that\h\h

269

00:28:09,900 --> 00:28:16,860

got the whole world buzzing uh Roswell happened\h
in that same summer in July and was announced\h\h

270

00:28:16,860 --> 00:28:23,400

in a newspaper and then retracted the day later\h
which took us into a period in the 40s and the 50s\h\h

271

00:28:23,400 --> 00:28:30,960

where the government was taking UFO's very very seriously they were looking usually Roswell just

272

00:28:30,960 --> 00:28:36,480

to explain to the novice Roswell was ostensibly even though this is furiously denied by the U.S

273

00:28:36,480 --> 00:28:42,000

Air Force it was ostensibly the crash Believe It or Not of an alien spacecraft absolutely of

274

00:28:42,000 --> 00:28:47,100

course it's something that is adamantly rejected by the U.S Air Force even to this day even though

275

00:28:47,100 --> 00:28:51,240

they've given four completely contradictory explanations for what they said actually

276

00:28:51,240 --> 00:28:56,940

was so you know and we've even done a show on Roswell which I encourage people to listen to

277

00:28:56,940 --> 00:29:02,820

uh and and you know I I think Roswell was I think the government made a Mist you know accidentally

278

00:29:02,820 --> 00:29:07,620

told the truth uh when they when they allowed that uh article to come out on the front page of the

279

00:29:07,620 --> 00:29:15,420

Roswell Daily Record so anyway what what happened though is uh the world of UFOs and the National

280

00:29:15,420 --> 00:29:21,720

Security establishment kind of intermixed in the 40s and 50s when the government was furiously

281

00:29:21,720 --> 00:29:28,140

looking into this and at the same time taking a
posture in public that there was nothing to see

282

00:29:28,140 --> 00:29:33,660

here and frankly going out of their way to make
sure that people who did talk about flying saucers

283

00:29:33,660 --> 00:29:40,140

were marginalized uh and in fact as you point out
it created the stigma so we went into the 60s and

284

00:29:40,140 --> 00:29:47,040

70s where the people who were studying it were
were frankly appalled at what was they thought it

285

00:29:47,040 --> 00:29:51,360

looked like was really happening and yet nobody
was really talking about it when they did talk

286

00:29:51,360 --> 00:29:56,220

about it they made it seem like the something that
you should joke about and yet there are case after

287

00:29:56,220 --> 00:30:03,780

cases going on in the 60s and 70s including some
fantastic cases where they over flew uh nuclear

288

00:30:03,780 --> 00:30:08,580

weapons installations and turned off some missiles
so I think that's the thing I think that's the

289

00:30:08,580 --> 00:30:12,960

thing that sticks out to me the the thing that
sticks out to me is that the disconnect between

290

00:30:12,960 --> 00:30:18,720

the historical record what we now know courtesy
largely of President Clinton the declassification

291

00:30:18,720 --> 00:30:25,020

of a lot of the CIA and defense department files which show that whilst they were ridiculing and

292

00:30:25,020 --> 00:30:32,040

stigmatizing the subject all through the late 50s 60s and early 70s frankly they were taking it

293

00:30:32,040 --> 00:30:37,920

very seriously this is this is a subject that was being investigated and still is being investigated

294

00:30:37,920 --> 00:30:43,200

and the public was fed this line that that we were basically disinterested in government

295

00:30:43,200 --> 00:30:49,920

in the subject of UFO UF UFOs uaps that they were something to be stigmatized and ridiculed

296

00:30:49,920 --> 00:30:58,020

where in fact as you and I both know even though the um the Robertson panel uh ostensibly was a

297

00:30:58,020 --> 00:31:04,920

public investigation set up in 1952 to properly investigate UFOs its sole purpose in its stated

298

00:31:04,920 --> 00:31:10,320

private purpose was to essentially cover up and suppress public awareness of the issue

299

00:31:10,320 --> 00:31:15,900

I think we need to give a tip of the microphone to the Freedom of Information Act uh here in the

300

00:31:15,900 --> 00:31:22,680

United States which uh came about due to certain CIA revelations in the 70s and this legislation

301

00:31:22,680 --> 00:31:29,220

allowed it easier for citizens to get at uh old\h
memos and have them Declassified and or redacted\h\h

302

00:31:29,220 --> 00:31:34,440

and released so what we learned thanks to foia\h
and we are still learning today thanks to foia\h\h

303

00:31:34,440 --> 00:31:40,980

we learned that while the government was saying\h
one thing it was doing another because I encourage\h\h

304

00:31:40,980 --> 00:31:45,240

people who say well we really don't have any\h
evidence or whatever you know some of these\h\h

305

00:31:45,240 --> 00:31:50,880

documents make it very clear that there was lots\h
of evidence and when people say you know uh show\h\h

306

00:31:50,880 --> 00:31:57,000

me a great photo and then maybe I'll come around\h
let's face it Ross coltard and Bryce Abel do not\h\h

307

00:31:57,000 --> 00:32:02,760

have great photos sitting on our computers that\h
we can release or we would the people who have\h\h

308

00:32:02,760 --> 00:32:08,220

the great photos are the have essentially\h
in the past always been the people that\h\h

309

00:32:08,220 --> 00:32:13,260

collect them because they had military interior\h
aircraft in the air so if we're going to bridge\h\h

310

00:32:13,260 --> 00:32:22,080

from history to sort of the world of 2017 what\h
2017 did as a demarcation line is it said okay\h\h

311

00:32:23,040 --> 00:32:29,160

um these things that people have been talking about and that we've said we don't care about

312

00:32:29,160 --> 00:32:34,860

then because in 1969 the Air Force said we're not going to look into UFOs anymore because they're

313

00:32:34,860 --> 00:32:41,940

not a national security threat in 2017 uh that that New York Times article said that wasn't true

314

00:32:41,940 --> 00:32:47,940

that there was a national security aspect to it and that there were excellent cases that came out

315

00:32:47,940 --> 00:32:53,460

of that and in fact the New York Times article introduced an entirely new case to the world

316

00:32:53,460 --> 00:33:01,020

which was the Nimitz case of 2004 which has become almost synonymous with the modern day of ufology

317

00:33:01,020 --> 00:33:06,840

I'll let you take that one Ross you do a great job with Nimitz well actually before we get to

318

00:33:06,840 --> 00:33:11,880

Nimitz if we're doing a timeline from the end of the second world war I'm having a bit of Mischief

319

00:33:11,880 --> 00:33:20,460

here but if we look at the leaked Wikileaks DNC emails that that show the um exchanges between

320

00:33:20,460 --> 00:33:25,680

Tom DeLong and John podesta referring to his alleged conversations with a person he called

321

00:33:25,680 --> 00:33:32,040

the general uh and people from Lockheed Martin\
there's a there's a date at the end of the Cold\

322

00:33:32,040 --> 00:33:40,860

War let's call it say 1989. and the key moment\
is in those emails where irrefutably Tom DeLong\

323

00:33:40,860 --> 00:33:46,860

who's had definitely conversations with two very\
senior generals probably General Neil mccasland\

324

00:33:46,860 --> 00:33:54,420

and general Michael Kerry sometime around 2015\
2016. he tells Tom DeLong in these leaked emails\

325

00:33:55,200 --> 00:34:02,340

a life form was discovered that a general\
told him a life form was discovered\

326

00:34:02,340 --> 00:34:09,120

and it's funny I hack on about these uh leaked\
DNC emails but a lot of people out there often\

327

00:34:09,120 --> 00:34:14,940

criticizes for going just on people who make\
wacky claims on online and and people who come\

328

00:34:14,940 --> 00:34:19,080

out and say they're part of secret space programs\
and stuff like that and you and I don't give that\

329

00:34:19,080 --> 00:34:27,000

any currency what we try and look for is sourced\
material and this is sourced material this is a\

330

00:34:27,000 --> 00:34:33,180

leaked series of emails between Tom DeLong who for\
some incredible reason was having extraordinary\

331

00:34:33,180 --> 00:34:38,640

conversations around about 2015 2016 with a group of people from the Pentagon in the intelligence

332

00:34:38,640 --> 00:34:45,000

Community who were willing to discuss with him the potential for disclosure of things relating to

333

00:34:45,000 --> 00:34:52,800

uaps UFOs and they told him there were recovered craft and there was a recovered life form and for

334

00:34:52,800 --> 00:34:59,520

the life of me that to me is one of the stepping stones in the lead up to the 2017 revelations in

335

00:34:59,520 --> 00:35:06,360

the New York Times the fact that we now know all of this was going on but as we were just

336

00:35:06,360 --> 00:35:11,280

being discussed we were talking about the Tic Tac incident which is the videos that were released

337

00:35:11,280 --> 00:35:18,240

that at the time that the New York Times Did its Story the tsa organization began the progressive

338

00:35:18,240 --> 00:35:25,500

release of three videos the Tic Tac the go fast and the Gimbal and the earliest of those incidents

339

00:35:25,500 --> 00:35:34,320

was the 2004 tick Tech incident involving the USS Nimitz battle carrier battle group just off the

340

00:35:34,320 --> 00:35:40,860

um Baja California Mexico Coast about a hundred and something miles out to sea and basically

341

00:35:40,860 --> 00:35:48,000

they saw crazy things on their spy one Aegis\h
radar system objects doing things that are\h\h

342

00:35:48,000 --> 00:35:55,560

still to this day technically Impossible on known\h
human technology and despite what the debunkers\h\h

343

00:35:55,560 --> 00:36:01,200

say everybody leaps at the videos and does these\h
exhaustive analysis of these videos and basically\h\h

344

00:36:01,200 --> 00:36:07,560

says the gimbal wasn't rotating the Tic Tac wasn't\h
really going very fast the simple fact is they're\h\h

345

00:36:07,560 --> 00:36:13,380

ignoring all the data and what they wrestle with\h
what what was fantastic about the New York Times\h\h

346

00:36:13,380 --> 00:36:21,240

stories that were progressively released from 2017\h
is that they pulled together the data you had a\h\h

347

00:36:21,240 --> 00:36:27,720

data stream you had the the reference from people\h
who'd worked the radar systems on board the USS\h\h

348

00:36:27,720 --> 00:36:33,780

Princeton who said that these objects one in\h
particular was seen to descend from eighty\h\h

349

00:36:33,780 --> 00:36:40,740

thousand feet or twenty thousand feet to the\h
ocean surface in 0.78 of a second and there's a\h\h

350

00:36:40,740 --> 00:36:47,340

study that's done by our friends at the scientific\h
Coalition for the study of UAP that says that on\h\h

351

00:36:47,340 --> 00:36:54,660

that estimate given by the radar operators the
objects were moving at least tens of thousands

352

00:36:54,660 --> 00:37:02,880

of miles an hour possibly a hundred and five
thousand miles an hour an acceleration force of 12

353

00:37:03,900 --> 00:37:12,840

000 G forces and if it really was going from
a stationary position at above 80 000 feet to

354

00:37:12,840 --> 00:37:18,780

essentially out of sight within a second as
I think the Tic Tac was seen at twenty five thousand

355

00:37:18,780 --> 00:37:27,240

feet and then it zoomed off at a peak velocity
they've estimated that that velocity was 453

356

00:37:27,240 --> 00:37:37,380

000 kilometers an hour it's 281 miles an hour
281 000 miles an hour Ross I I of course am an

357

00:37:37,380 --> 00:37:42,120

American who don't understand kilometers but
even an American knows that's pretty damn fast

358

00:37:42,120 --> 00:37:48,960

now that's fast enough in all cases folks
if Ross and I had been inside that Tic Tac we

359

00:37:48,960 --> 00:37:56,340

would have been splattered all over the inside
of it um so yeah that's fast I I think that

360

00:37:57,120 --> 00:38:01,740

I think we've lost sight of the fact I really
think we've lost sight of the fact that those

361

00:38:01,740 --> 00:38:07,320

Revelations to this day despite the noble
efforts of Mick West and Meadowbank and all of

362

00:38:07,320 --> 00:38:14,220

the debunkers and Skeptics I still haven't in My
Views satisfactorily resolved the fact that there

363

00:38:14,220 --> 00:38:20,700

is a data stream that comes from that incident and
all of the other incidents where Witnesses who are

364

00:38:20,700 --> 00:38:27,660

technical experts are saying they saw things
that are known human technology are impossible

365

00:38:27,660 --> 00:38:38,580

craft intelligently controlled doing impossible
things right so so let me try to put in context

366

00:38:38,580 --> 00:38:46,080

the history to the the the sort of the fifth
anniversary thing uh back in 1947 after those

367

00:38:46,080 --> 00:38:53,220

events there was a general Nathan Twining who was
asked to look into this and he wrote a report a

368

00:38:53,220 --> 00:38:58,380

memo that went up the chain of command and it was
not shared with the public in the 40s or 50s but

369

00:38:58,380 --> 00:39:05,880

Twining said in his memo uh the the phenomenon
is not is something real and is not Visionary or

370

00:39:05,880 --> 00:39:13,620

fictitious so we just plain out said it's real now
we didn't learn about that until it was released

371

00:39:13,620 --> 00:39:18,000

I think it was foia but it might have been
another way it came out but that memo came out

372

00:39:18,000 --> 00:39:23,940

decades later all right and so the government was
perfectly happy to be getting reports through the

373

00:39:23,940 --> 00:39:28,080

chain of command in the Pentagon but they weren't
sharing it with anybody what what happened that

374

00:39:28,080 --> 00:39:35,520

is so different the reason that that December 17th
is that dividing line is in those years since the

375

00:39:35,520 --> 00:39:41,880

government itself well let me just back up when
we investigate a Project Blue Book from 1952 to

376

00:39:41,880 --> 00:39:48,540

1969 that was the Air Force investigation and
their their basic premise was okay okay folks

377

00:39:48,540 --> 00:39:53,580

we'll look into this even though don't worry about
it it's not a national security issue and we don't

378

00:39:53,580 --> 00:39:57,960

even know if they're real even though they did
know they were real okay what's happened in that

379

00:39:57,960 --> 00:40:06,360

dividing line is now that July or June 25th 19
2021 report that came out just last year basically

380

00:40:06,360 --> 00:40:16,140

came out and said this is real same thing that
Twining said back in 47 75 years earlier so they

381

00:40:16,140 --> 00:40:22,440

were admitting finally that it's real and that these things are in many cases got to be physical

382

00:40:22,440 --> 00:40:27,780

that they're intelligently controlled and they don't think we make them or that China or Russia

383

00:40:27,780 --> 00:40:33,840

makes them and they're not drones all right so we have made massive progress in that we're at least

384

00:40:33,840 --> 00:40:39,540

admitting uh what the reality of the situation is now I happen to believe that anyone who has

385

00:40:39,540 --> 00:40:45,360

studied this for 75 years like the U.S government and our military with the billions and trillions

386

00:40:45,360 --> 00:40:50,820

of dollars they've had across the board given that this was real they've spent quite a large

387

00:40:50,820 --> 00:40:55,740

amount of money and time investigating they just haven't shared their work with us but that seems

388

00:40:55,740 --> 00:41:03,060

to be the motivating factor for why Congress is upset and passing legislation these days to get

389

00:41:03,060 --> 00:41:10,020

to the answers because I believe it seems like concert Congress has said we're not happy that

390

00:41:10,020 --> 00:41:15,780

we have not been constitutionally briefed on a matter of this uh magnitude and so now they're

391

00:41:15,780 --> 00:41:22,080

demanding it to me that is if I had to say what
is the change that makes the most uh difference

392

00:41:22,080 --> 00:41:29,280

that's it that now we're saying they're real out
loud and the argument isn't about reality it's

393

00:41:29,280 --> 00:41:35,760

about trying to Define what it is and I think
that's a big change there are so many moments

394

00:41:35,760 --> 00:41:42,540

that I think Mark the progress of Admissions
and Stepping Stones uh both before and since

395

00:41:42,540 --> 00:41:50,820

that epocal 2017 New York Times story I think one
for me was the series of intelligence officials

396

00:41:50,820 --> 00:41:55,740

government officials who made and I think these
have kind of been overlooked quite extraordinary

397

00:41:55,740 --> 00:42:03,420

comments James Clapper the former dni Defense
Director of National Intelligence um I think it's

398

00:42:03,420 --> 00:42:08,100

really important he said that whenever we witness
such phenomena that it's recorded and documented

399

00:42:08,640 --> 00:42:15,240

could there be life out there sure um I don't know
why we haven't been more transparent about it in

400

00:42:15,240 --> 00:42:20,700

the past former Director of National Intelligence
John Ratcliffe there are a lot more sightings than

401

00:42:20,700 --> 00:42:26,280

have been made public we're talking about objects that frankly engage in actions that are different

402

00:42:26,280 --> 00:42:32,160

difficult to explain movements that are hard to replicate that we don't have the technology for

403

00:42:32,160 --> 00:42:39,120

traveling at speeds that exceed the sound barrier without a sonic boom sometimes we wonder whether

404

00:42:39,120 --> 00:42:43,200

our adversaries have technologies that are a little bit further down the road than we

405

00:42:43,200 --> 00:42:49,980

realized it's not just a pilot or just a satellite or some intelligence collection we have multiple

406

00:42:49,980 --> 00:42:54,900

sensors that are picking up these things and then one of my personal favorites which I noticed

407

00:42:54,900 --> 00:43:00,000

just recently people are trying to play Down the current director of National Intelligence for the

408

00:43:00,000 --> 00:43:07,800

United States the intelligence tsar of the United States Avril Haynes the main issues she says that

409

00:43:07,800 --> 00:43:12,780

Congress and others have been concerned about is safety of flight concerns and counterintelligence

410

00:43:12,780 --> 00:43:20,820

issues always there's the question of is there something else that we simply do not understand

411

00:43:21,720 --> 00:43:28,860

which might come extra terrestrially yeah\h
now I noticed recently the debunkers have\h\h

412

00:43:28,860 --> 00:43:33,060

basically tried to say oh she was just talking\h
about stuff from outer space not necessarily\h\h

413

00:43:33,060 --> 00:43:39,120

aliens we're not talking about aliens but she's\h
suggesting the Director of National Intelligence\h\h

414

00:43:39,120 --> 00:43:46,800

for the United States is overtly suggesting it\h
might be extraterrestrial and just to round up\h\h

415

00:43:46,800 --> 00:43:53,280

my friend because you quoted from a beautiful\h
quote from 1947 my quote from that era that I\h\h

416

00:43:53,280 --> 00:44:00,120

love he's one of my heroes the first director\h
of the CIA Roscoe hillenkotter Admiral Roscoe\h\h

417

00:44:00,120 --> 00:44:09,180

hillenkotta Roscoe said way back then he said it\h
is time for the truth to be brought out behind\h\h

418

00:44:09,180 --> 00:44:17,220

the scenes high-ranking Air Force officers are\h
soberly concerned about UFOs but through official\h\h

419

00:44:17,220 --> 00:44:25,320

secrecy and ridicule many citizens are led to\h
believe the unknown flying objects are nonsense\h\h

420

00:44:25,980 --> 00:44:32,460

and that was 70 years ago 70 years ago he said\h
that and they've all been saying the same thing\h\h

421

00:44:32,460 --> 00:44:41,460

these people it's time we knew what they knew just\h
I believe Helen Carter said that in 1960 after he\h\h

422

00:44:41,460 --> 00:44:48,540

left office and was working with nycap so I don't\h
know what my math is but it might be right yeah\h\h

423

00:44:49,560 --> 00:44:53,460

um yeah you're right you know because we sort\h
of promised we were going to go down memory\h\h

424

00:44:53,460 --> 00:44:59,580

lane on this uh on what has happened in the last\h
five years I thought also because I'm looking at\h\h

425

00:44:59,580 --> 00:45:04,860

the time and I know we're long and we've got to\h
start thinking about wrapping up so why don't we\h\h

426

00:45:04,860 --> 00:45:11,280

each take a crack at just some of our Memory Lane\h
moments of the last five years I will put 1947 in\h\h

427

00:45:11,280 --> 00:45:19,560

the 50s and 60s aside um I'll go first with just\h
some of the thoughts from from those years the\h\h

428

00:45:19,560 --> 00:45:26,880

to the Stars Academy big deal Tom DeLong turned\h
out to be not just a crazy rock star the report\h\h

429

00:45:26,880 --> 00:45:33,240

of June 25th 2021 called the preliminary\h
report on unidentified aerial phenomena big\h\h

430

00:45:33,240 --> 00:45:41,280

deal a congressional hearing on May 17 2022 this\h
year uh where of course it wasn't the greatest\h\h

431

00:45:41,280 --> 00:45:46,380

Congressional hearing but it was the first in
some 50 years the fact that we're supposed to

432

00:45:46,380 --> 00:45:52,200

get another one coming up and they're supposed to
be delivering a report to US every year on October

433

00:45:52,200 --> 00:45:59,400

31st here's some other just moments that happened
uh in those five years 60 Minutes broke its own

434

00:45:59,400 --> 00:46:06,540

self-imposed embargo on covering the UFO story and
did a major story on UAP where Elizondo and melon

435

00:46:06,540 --> 00:46:13,680

and others were interviewed Harry Reid after the
article came out and was more outspoken than ever

436

00:46:13,680 --> 00:46:19,620

before but in addition to a Senator Harry Reid
talking about that he gave way to other Senators

437

00:46:19,620 --> 00:46:24,900

like Jola Brandon and Rubio who have talked
about it and even Romney who is very specific

438

00:46:24,900 --> 00:46:33,000

we've heard from a pilot uh David fraver Alex
Dietrich um and and many others uh an incredible

439

00:46:33,000 --> 00:46:37,860

film came out the phenomenon by James Fox which
I recommend for anyone who wants to tell their

440

00:46:37,860 --> 00:46:43,380

friends just watch this give it two hours and then
we'll talk um all the people that you talked about

441

00:46:43,380 --> 00:46:51,300

Ross uh that that have spoken who are uh in the
Intel Community a personal uh one for me is I'm

442

00:46:51,300 --> 00:46:56,700

so glad to see that NASA NASA has actually said
they're going to look into this and they're going

443

00:46:56,700 --> 00:47:01,140

to get back to us in nine months now I don't know
whether they're going to write the most revealing

444

00:47:01,140 --> 00:47:08,460

report ever written or not but for years and years
NASA has said we don't do UFOs we don't do that we

445

00:47:08,460 --> 00:47:13,380

don't talk about that and now of course they've
got a leader who is saying that we do talk about

446

00:47:13,380 --> 00:47:18,960

it so these things are happening there's there's
meetings all over the world going on they just had

447

00:47:18,960 --> 00:47:26,820

a meeting in France uh they they've had a big one
in in Italy recently I mean let's face it um this

448

00:47:26,820 --> 00:47:32,640

is not a a slow-moving train anymore it's a faster
moving train and I know some people are frustrated

449

00:47:32,640 --> 00:47:38,160

like myself that it hasn't got to its destination
yet but there's no question to me that that train

450

00:47:38,160 --> 00:47:42,960

is moving and it seems to be moving in the right
direction the fact that they're going to throw a

451

00:47:42,960 --> 00:47:48,240

few things on the tracks to stop it or slow it\h
down well I expect that but I I think the train\h\h

452

00:47:48,240 --> 00:47:54,420

will still make it to the state there you go Bryce\h
you're like my therapist you've cheered me up\h\h

453

00:47:54,420 --> 00:47:58,680

there I was getting all despondent about whether\h
or not we're actually going to see anything from\h\h

454

00:47:58,680 --> 00:48:03,960

the Congress and you've you've made me optimistic\h
again now there's a few I agreed I agreed with\h\h

455

00:48:03,960 --> 00:48:08,880

your summary there of the key moments there's\h
a few more I'd like to add because they're just\h\h

456

00:48:08,880 --> 00:48:17,100

fun my favorite that I think we're going to see a\h
lot more of is slide nine this is the slide that\h\h

457

00:48:17,100 --> 00:48:22,320

a lot of people have overlooked but I I think it's\h
incredibly important which was obtained from Chris\h\h

458

00:48:22,320 --> 00:48:27,180

melon's website it was essentially a document that\h
I suspect he'd put on his website for somebody to\h\h

459

00:48:27,180 --> 00:48:33,180

download and he'd forgotten to take it down and\h
it basically says the science exists for an enemy\h\h

460

00:48:33,180 --> 00:48:38,820

of the United States to manipulate both physical\h
and cognitive environments in order to penetrate\h\h

461

00:48:38,820 --> 00:48:45,900

U.S facilities influence decision makers and\h
compromise National Security it talked about\h\h

462

00:48:45,900 --> 00:48:52,380

psychotronic Weaponry penetration of Solid\h
Surfaces instantaneous sensor disassembly\h\h

463

00:48:52,380 --> 00:48:58,560

alteration and manipulation of biological\h
organisms anomalies in the space-time construct\h\h

464

00:49:00,180 --> 00:49:05,700

whatever it is slide 9 is referring to something\h
that the defense department of the United States\h\h

465

00:49:05,700 --> 00:49:13,740

is taking extremely seriously indeed and the\h
government's Silence about the implications\h\h

466

00:49:13,740 --> 00:49:19,980

of this document is deafening the other\h
thing that I wanted to point to my friend is\h\h

467

00:49:20,580 --> 00:49:26,460

one of my favorite quotes from one of your former\h
presidents Barrack Obama and Barack Obama actually\h\h

468

00:49:26,460 --> 00:49:32,220

admitted on television what is true and I'm\h
actually being serious here is that there are\h\h

469

00:49:32,220 --> 00:49:38,940

there's footage and records of objects in the\h
skies that we don't know exactly what they are\h\h

470

00:49:38,940 --> 00:49:45,660

we can't explain how they moved their trajectory\h
they did not have an easily explainable pattern\h\h

471

00:49:45,660 --> 00:49:52,140

and so you know I think that people still
take seriously trying to investigate what

472

00:49:52,140 --> 00:49:58,320

that is it's very very important concession from
a former president who as you know gets briefed

473

00:49:58,320 --> 00:50:04,500

private briefings he's entitled to be given the
very very secret top secret SCI briefings that

474

00:50:04,500 --> 00:50:10,560

a president gets and he's getting them and so
is Bill Clinton and as Bill Clinton said if we

475

00:50:10,560 --> 00:50:16,500

were visited one day I wouldn't be surprised
I just hope it's not like Independence Day

476

00:50:16,500 --> 00:50:25,440

well as I think we can all uh agree with the
Clinton I mean a lot there are half the people in

477

00:50:25,440 --> 00:50:29,640

the country that don't like Bill Clinton but you
got to agree he's right we all hope at a hundred

478

00:50:29,640 --> 00:50:33,840

percent that it's not like Independence Day uh
yeah but the Barack Obama thing is fascinating

479

00:50:33,840 --> 00:50:41,040

because you know in every other instance he'd ever
been asked about it he seemed to make light of it

480

00:50:41,040 --> 00:50:46,980

he he was dismissed particularly when he was in
office but even after he got out of office and

481

00:50:46,980 --> 00:50:53,280

something changed this year this year is when
Barack Obama said I'm going to start talking

482

00:50:53,280 --> 00:50:59,040

about the real thing um I got something I just
want to float here it's so out of left field

483

00:50:59,040 --> 00:51:04,500

are we sort of done with our summation can I throw
something out yeah yeah okay I reckon we've given

484

00:51:04,500 --> 00:51:09,180

ourselves enough room for optimism my friend I
think so um and by the way I just want to point

485

00:51:09,180 --> 00:51:13,260

one other thing out I was reading some of the
comments on some of our past shows and because

486

00:51:13,260 --> 00:51:17,820

our last one was like two and a half weeks ago
some people were saying uh you know where are

487

00:51:17,820 --> 00:51:23,520

these guys did somebody shut them down and a
couple of people were saying you know uh we've

488

00:51:23,520 --> 00:51:29,520

been silenced because we were speaking too openly
no we're we haven't been silenced we're just busy

489

00:51:29,520 --> 00:51:36,300

and and we we you know we we're we're committed
to every two weeks kind of podcast occasionally

490

00:51:36,300 --> 00:51:41,880

it slips a few days but we have not I've not
been silenced have you been silenced no sir I'm

491

00:51:41,880 --> 00:51:46,200

still waiting for those Men In Black to come in\h
and tell me not to do it but uh no look frankly\h\h

492

00:51:46,200 --> 00:51:51,780

both you and I to be honest we were waiting for\h
the 31st of October report and the report that\h\h

493

00:51:51,780 --> 00:51:57,600

never came that I suspect may never come oh it's\h
got it correctly it's gonna come it's gonna come\h\h

494

00:51:57,600 --> 00:52:04,980

and I I absolutely think it's coming and I also\h
um I have the October 31st report is what leads\h\h

495

00:52:04,980 --> 00:52:10,200

me to my crazy idea I'm just going to float it\h
out there and see if anybody uh can respond to it\h\h

496

00:52:11,160 --> 00:52:16,500

um what I thought was going to happen is that they\h
were going to deliver the October 31st report on\h\h

497

00:52:16,500 --> 00:52:21,300

the day that they said they would and and that\h
that was eight days before the election and \h\h

498

00:52:21,300 --> 00:52:25,680

thought if you put out a report about National\h
Security that says there are the things flying\h\h

499

00:52:25,680 --> 00:52:30,480

around and put a little more meat on the bones\h
than the previous report that might actually get\h\h

500

00:52:30,480 --> 00:52:35,160

into the election uh because let's face it the\h
one thing that hasn't really happened is UFOs\h\h

501

00:52:35,160 --> 00:52:42,840

don't get talked about in a political sense so\h
here's my idea somebody should in the next year\h\h

502

00:52:42,840 --> 00:52:49,500

decide they're going to run for president and they\h
it'd be great if gillibrand or Rubio did on this\h\h

503

00:52:49,500 --> 00:52:56,340

topic but they probably won't but somebody should\h
go to New Hampshire and Iowa when these are going\h\h

504

00:52:56,340 --> 00:53:03,360

to be the states that are the first voting States\h
and all you have to do if I'm not mistaken in New\h\h

505

00:53:03,360 --> 00:53:09,300

Hampshire is get five percent in the polls uh\h
in order to be included in the debates I think\h\h

506

00:53:09,300 --> 00:53:14,280

someone of some credibility they don't have to\h
be you know they're not going to get elected\h\h

507

00:53:14,280 --> 00:53:19,740

president but they could get five percent in the\h
polls in New Hampshire and they could get included\h\h

508

00:53:19,740 --> 00:53:26,520

in those presidential debates and they could\h
talk about this topic with other candidates and\h\h

509

00:53:26,520 --> 00:53:32,880

forced the election to start talking about this so\h
that's my idea whoever's out there listening to us\h\h

510

00:53:32,880 --> 00:53:38,160

who's got the wherewithal to run for president\h
moved to New Hampshire in the next six months\h\h

511

00:53:38,160 --> 00:53:43,080
and start campaigning and then we'll get this\h
into debates and we'll move this topic ahead\h\h

512
00:53:43,920 --> 00:53:50,880
oh my God I I want to conclude my\h
friend with what I am hearing which is\h\h

513
00:53:51,960 --> 00:53:57,300
there are hearings already happening on the\h
hill there are congressional briefings that\h\h

514
00:53:57,300 --> 00:54:01,200
are happening that have been happening for\h
some of these very sensitive committees in\h\h

515
00:54:01,200 --> 00:54:06,840
Skiffs uh you know secure compartmentalized\h
information facilities where people can give\h\h

516
00:54:06,840 --> 00:54:12,780
evidence knowing that they're not being bugged\h
monitored and also I think we need to acknowledge\h\h

517
00:54:12,780 --> 00:54:18,540
that there is momentous legislation coming\h
in both the National Defense authorization\h\h

518
00:54:18,540 --> 00:54:24,360
act bill that's before the Congress and also\h
the intelligence authorization act and it put\h\h

519
00:54:24,360 --> 00:54:28,920
together if these two pieces of legislation\h
go through the house as does appear likely\h\h

520
00:54:29,520 --> 00:54:37,260
I think the revelations about uaps are almost\h
inevitable my one concern about the legislation\h\h

521

00:54:37,260 --> 00:54:43,380

is it's very focused on briefing Congress quite\h
properly it's very focused on making sure that\h\h

522

00:54:43,380 --> 00:54:49,980

the proper form the proper transparency has been\h
shown to those congressional oversight committees\h\h

523

00:54:49,980 --> 00:54:55,800

like the house intelligence committee or the\h
in the armed services committee but it's not\h\h

524

00:54:55,800 --> 00:55:03,540

stipulating categorically that the public will be\h
informed now that's one of the reasons why we call\h\h

525

00:55:03,540 --> 00:55:10,020

this show need to know because the public needs\h
to know and I hope Congress doesn't forget that\h\h

526

00:55:10,920 --> 00:55:18,600

I listen here's the thing Congress um I have I\h
don't begrudge Congress having secret meetings\h\h

527

00:55:18,600 --> 00:55:25,380

to talk about National Security issues right um\h
I think that what the body politic would like to\h\h

528

00:55:25,380 --> 00:55:32,400

see happen though is an acknowledgment that they\h
are doing that and and for us to at least be told\h\h

529

00:55:32,400 --> 00:55:39,480

imagine this disclosure as I've often said is not\h
like we're going to give a gigabyte Drive full\h\h

530

00:55:39,480 --> 00:55:45,660

of photos and videos to every reporter that's not\h
going to happen that disclosure but I don't think\h\h

531

00:55:45,660 --> 00:55:51,480

it's wrong to on an issue of this magnitude that
needs to come out because it's been buried for so

532

00:55:51,480 --> 00:55:56,640

long to Simply acknowledge the reality of it
and say they're not ours and uh it's another

533

00:55:56,640 --> 00:56:02,880

intelligence that's that we're not 100 sure
where it's from and we're looking into it that's

534

00:56:02,880 --> 00:56:08,220

what I expect my government to do I expect your
government to do the same thing I expect World

535

00:56:08,220 --> 00:56:15,900

governments if we are being visited or there is
a non-human intelligence that's operating in our

536

00:56:15,900 --> 00:56:22,980

skies and seas I expect the governments of the
world to look into it to do prudent things and I

537

00:56:22,980 --> 00:56:28,800

don't necessarily expect to be briefed on every
single aspect of what planes are seeing what at

538

00:56:28,800 --> 00:56:35,880

what time but I'd like a couple of things I would
like you to admit that that this is real and you

539

00:56:35,880 --> 00:56:42,720

are looking into it and I would like a couple
of good photos and a video that would make me

540

00:56:42,720 --> 00:56:47,820

happy I would call that the Christmas present of
all time and I would have a wonderful holiday I

541

00:56:47,820 --> 00:56:55,080

don't think it's going to happen but it ought to\h
happen oh look I've got faith in the capacity of\h\h

542

00:56:55,080 --> 00:57:01,500

Congress to leak I mean even the incredible Church\h
committee hearings that took place a lot of them\h\h

543

00:57:01,500 --> 00:57:08,460

in secret in the 1970s investigating the alleged\h
Crimes of the CIA after Watergate a lot of that\h\h

544

00:57:08,460 --> 00:57:12,960

information eventually leaked even though it was\h
disclosed in confidence in some of the Committees\h\h

545

00:57:12,960 --> 00:57:16,800

a lot of it was done in public but there were\h
some really embarrassing stuff that finally made\h\h

546

00:57:16,800 --> 00:57:26,100

it out into the public Arena what I understand is\h
happening is if there is recovered technology if\h\h

547

00:57:26,100 --> 00:57:31,200

it really is the case that the United States as\h
we've been led to believe is sitting on recovered\h\h

548

00:57:31,200 --> 00:57:37,200

technology as by the way the New York Times\h
reported in 2020 the world's you know the the\h\h

549

00:57:37,200 --> 00:57:43,800

nation's most illustrious newspaper has put it on\h
record that there are people saying that the U.S\h\h

550

00:57:43,800 --> 00:57:49,860

has recovered alien craft which was another big\h
event in the in the history that we overlooked\h\h

551

00:57:49,860 --> 00:57:55,980

if that's the case I can understand why there's\h
a willingness to suppress that knowledge because\h\h

552

00:57:55,980 --> 00:58:03,360

frankly if you can Master the technology behind\h
those craft if you can if you can find out how to\h\h

553

00:58:03,360 --> 00:58:09,960

derive awesome energy if you can find out how to\h
develop extraordinary propulsion systems weapons\h\h

554

00:58:10,560 --> 00:58:16,740

you would want to keep that secret but I don't\h
think that the American government is being honest\h\h

555

00:58:16,740 --> 00:58:24,960

with the people if it continues to try to suppress\h
its knowledge of what it does know about the UAP\h\h

556

00:58:24,960 --> 00:58:30,840

mystery so let's wrap up with it one thought you\h
brought it up just now crash wreckage when I was\h\h

557

00:58:30,840 --> 00:58:38,880

a kid I I read stories about crashed saucers and I\h
remember uh thinking well that's insane but that's\h\h

558

00:58:38,880 --> 00:58:44,700

sure fun to read about but it couldn't possibly\h
be happening right uh now we're hearing from very\h\h

559

00:58:44,700 --> 00:58:50,400

credible people uh both you and I and many other\h
people have heard it that crash and luellizondo\h\h

560

00:58:50,400 --> 00:58:55,860

has said it that crash wreckage is definitely on\h
the table so probably in the next year or two or\h\h

561

00:58:55,860 --> 00:59:02,460

three uh crash wreckages out there we're going to
be looking into it and uh let's face it that's not

562

00:59:02,460 --> 00:59:08,460

a Smoking Gun that's a smoking Howitzer and uh
it'll be fascinating when that happens but like

563

00:59:08,460 --> 00:59:13,140

I said hasn't happened yet it's going to happen in
the future which is why Ross you and I are going

564

00:59:13,140 --> 00:59:19,320

to have to keep doing the show absolutely well I
don't want to stop it's fun I mean the thing that

565

00:59:19,320 --> 00:59:24,780

really astonishes me about this is here I am I'm a
mainstream news reporter television public affairs

566

00:59:24,780 --> 00:59:29,400

reporter and it just amazes me because I've been
given the privilege by the network I do work for

567

00:59:29,400 --> 00:59:34,380

in Australia to be able to do some digging into
the UAP issue and I just look over my shoulder

568

00:59:34,380 --> 00:59:39,000

all the time and go where's the rest of the media
why aren't they chasing the story it's the biggest

569

00:59:39,000 --> 00:59:45,600

story ever as I said at the head of the program
and we are looking at momentous legislation coming

570

00:59:45,600 --> 00:59:52,080

down the track with the defense authorization act
I mean we are we are seeing an accounting of all

571

00:59:52,080 --> 01:00:01,740

UAP activity the legislation wants information on\h
all UAP logged outside the last year as well they\h\h

572

01:00:01,740 --> 01:00:07,560

want a full accounting to the Congress formal\h
analyzes of those account of those encounters\h\h

573

01:00:07,560 --> 01:00:14,160

signals intelligence geospatial intelligence\h
human intelligence signals intelligence it's\h\h

574

01:00:14,160 --> 01:00:20,760

actually quite quite amazing as Billy Cox wrote\h
in a brilliant column recently you know The\h\h

575

01:00:20,760 --> 01:00:25,980

Gatekeepers might start vomiting in their Skiffs\h
over the next provision which is that Congress\h\h

576

01:00:25,980 --> 01:00:34,440

is demanding an enumeration of any instances in\h
which data relating to UFOs was not provided to\h\h

577

01:00:34,440 --> 01:00:42,480

the odni because of classification restrictions\h
on that data this is on the record if it goes\h\h

578

01:00:42,480 --> 01:00:48,900

through this legislation is momentous and there\h
are grounds for optimism and full credit frankly\h\h

579

01:00:48,900 --> 01:00:54,720

to the people who've pushed for this legislation\h
to come through like Louis zondo Chris Mellon no\h\h

580

01:00:54,720 --> 01:00:59,520

matter what people choose to say about them and\h
disparage them online they're following through\h\h

581

01:00:59,520 --> 01:01:04,320

with what they pledged they were going to do\h
you know Ross I think a good place to leave this\h\h

582

01:01:04,320 --> 01:01:09,540

is with the Moment of Zen that you have just\h
laid out for us so folks if you're listening\h\h

583

01:01:09,540 --> 01:01:14,340

Ross just said it here's your Moment of Zen\h
I want you to think about this for a moment\h\h

584

01:01:15,480 --> 01:01:24,600

Gatekeepers vomiting in their Skiffs I mean\h
wow Gatekeepers vomit that's the title of my\h\h

585

01:01:24,600 --> 01:01:28,800

next screenplay by the way Ross it's going to\h
be called Gatekeepers vomiting in their skips\h\h

586

01:01:28,800 --> 01:01:35,940

I think it'll be a big hit uh listen folks uh if\h
it's been always fun to do this Ross uh you're my\h\h

587

01:01:35,940 --> 01:01:42,000

you're my uh furthest away best friend I really\h
love doing this and for you folks at home I l\h\h
