

NEED TO KNOW WITH COULTHART & ZABEL

# GRADING THE NEW UAP REPORT

---

January 13, 2023

1  
00:00:00,060 --> 00:00:00,780  
foreign

2  
00:00:07,680 --> 00:00:14,580  
this is need to know real talk about the  
reality of unidentified aerial phenomenon

3  
00:00:15,960 --> 00:00:21,000  
from Australia Ross Colt  
art from the U.S Bryce zabel

4  
00:00:23,760 --> 00:00:31,020  
hello and welcome to this special edition of  
need to know we're literally doing this within

5  
00:00:31,020 --> 00:00:40,500  
24 hours of the release to Congress of the UAP  
the unidentified anomalous phenomena report to

6  
00:00:40,500 --> 00:00:47,220  
Congress which was tabled in the Congress finally  
I think either on the evening of Friday the

7  
00:00:47,220 --> 00:00:51,960  
12th or the morning of Friday the 13th I can't  
figure it out where I am in Australia but it's

8  
00:00:51,960 --> 00:00:59,460  
an auspicious moment because this is the the one  
of the very first reports from the UAP task forces

9  
00:00:59,460 --> 00:01:09,240  
known as Arrow aaro the all domain anomalous  
Christ Bryce help me here I've forgotten I keep on

10  
00:01:09,240 --> 00:01:17,820  
forgetting what is it is the all domain anomalous  
resolution anomaly resolution office all domain

11

00:01:17,820 --> 00:01:24,960

anomaly resolution such a simple acronym it's  
fantastic I just wanted Point as you were saying

12

00:01:24,960 --> 00:01:31,560

that though let's let's be clear this thing was  
mandated by law to be delivered on October 31st

13

00:01:31,560 --> 00:01:35,340

and so we thought when it was late well it'll be  
a few days they'll come up with it it actually

14

00:01:35,340 --> 00:01:41,280

took them 73 days um to come up with this and  
by the way what a difference a week makes Ross

15

00:01:41,280 --> 00:01:46,380

we were on here last week apologizing that we've  
been off for too long because we were on holiday

16

00:01:46,380 --> 00:01:53,880

and and since we've been back now we're we're  
on within less than a week but this thing man uh

17

00:01:54,420 --> 00:02:01,080

okay I wanted more I didn't get what I wanted  
exactly but as we break this down I think there

18

00:02:01,080 --> 00:02:06,000

are some things that are probably worth mentioning  
from it now listen I thought quite an auspicious

19

00:02:06,000 --> 00:02:11,100

time to start way to start this would be to  
talk about the fact that it's Friday the 13th in

20

00:02:11,100 --> 00:02:19,080

America isn't it yes wow do you know the origins  
of Friday the 13th I I don't but be and you're

21

00:02:19,080 --> 00:02:24,300

going to tell us but one quick question do they  
have it do you guys in Australia have a Friday the

22

00:02:24,300 --> 00:02:29,640

13th kind of yeah we do yeah it's recognized all  
over the world and the reason people talk about

23

00:02:29,640 --> 00:02:38,820

Friday the 13th being a day of bad luck is because  
on this day in 1307 Pope Clement and King Philip

24

00:02:38,820 --> 00:02:44,580

had the leader of the Knights Templar arrested  
and along with other Knights burned at the stake

25

00:02:45,120 --> 00:02:52,320

and as he was dying the lead Knight cursed them  
from the stake and both were dead within a year

26

00:02:52,320 --> 00:02:59,160

hence the origins of Friday the 13th being a day  
of bad luck and it reminded me it's a good way of

27

00:02:59,160 --> 00:03:05,880

kicking off this episode it reminded me of the  
notorious debunker the skeptic Philip class you

28

00:03:05,880 --> 00:03:13,860

know his UFO curse this is what he said after his  
death he cursed ufologists and he said no matter

29

00:03:13,860 --> 00:03:20,760

how long you live you will never know any more  
about UFOs than you know today you will never

30

00:03:20,760 --> 00:03:27,720

know any more about what UFOs really are or where  
they come from you will never know any more about

31

00:03:27,720 --> 00:03:35,340

what the US government really knows about UFOs\h  
than you know today as you lie on your own death\h\h

32

00:03:35,340 --> 00:03:45,060

bid you will be as mystified about UFOs as you\h  
are today and you will remember this curse said\h\h

33

00:03:45,060 --> 00:03:51,720

the world class that is a great rendition of what\h  
Philip Glass said I didn't like it when he said it\h\h

34

00:03:51,720 --> 00:03:57,900

I don't like to hear it anymore uh now because the\h  
truth of the matter is there are a lot of people\h\h

35

00:03:57,900 --> 00:04:02,640

that know a lot about this topic now uh they just\h  
haven't shared their work over the years and I\h\h

36

00:04:02,640 --> 00:04:07,980

think that part of the concern here was were\h  
we actually going to get a report that began\h\h

37

00:04:07,980 --> 00:04:13,080

to peel back the onion a little bit and lets the\h  
government show some of the work it's been going\h\h

38

00:04:13,080 --> 00:04:19,140

through for the past 80 years I don't think this\h  
particularly does it but if I could just sort of\h\h

39

00:04:19,140 --> 00:04:25,440

do the hits runs and errors for a moment um it\h  
is a I forget how many pages I guess with the 11\h\h

40

00:04:25,440 --> 00:04:34,080

pages with the appendix but there apparently have\h  
been 366 new cases since that preliminary report\h\h

41

00:04:34,080 --> 00:04:43,680

that had come out uh in in June of 2021 of those\h  
366 as they break it down 26 were what they would\h\h

42

00:04:43,680 --> 00:04:53,520

call drones 100 163 were balloons or balloon-like\h  
entities I guess six were clutter in the air like\h\h

43

00:04:53,520 --> 00:04:59,580

birds or weather or debris and you know what\h  
that sounds a little depressing 47 percent\h\h

44

00:05:00,360 --> 00:05:05,040

47 percent of the new cases were the so-called un\h\h

45

00:05:06,180 --> 00:05:12,480

characterized and unaffiliated cases which\h  
we'll have to say are unknown and that means\h\h

46

00:05:12,480 --> 00:05:18,300

half the cases that are breaking that they're\h  
finding with their sensors and the radar and\h\h

47

00:05:18,300 --> 00:05:24,120

all of these things that we have to go look for\h  
these things 47 percent of them half of them are\h\h

48

00:05:24,120 --> 00:05:30,300

unidentified so that is significant and I think\h  
what's also significant before we even get into\h\h

49

00:05:30,300 --> 00:05:38,160

the nitty-gritty of this report is the mere fact\h  
that the Congress is receiving reports on uaps\h\h

50

00:05:38,160 --> 00:05:44,520

unidentified and anomalous phenomena the mere fact\h  
that this is a public document that there are now\h\h

51

00:05:44,520 --> 00:05:53,040

reports on CNN the New York Times Politico CBS IBC\h  
and BC the fact that this is being engaged with by\h\h

52

00:05:53,040 --> 00:05:59,580

mainstream media and even being talked about is a\h  
light year Paradigm leap it's very very important\h\h

53

00:05:59,580 --> 00:06:06,120

and I I know I'm guilty of it myself the one\h  
thing that we often feel is a sense of despondency\h\h

54

00:06:06,120 --> 00:06:12,240

knowing what we believe we know about what's\h  
really going on inside the US government a\h\h

55

00:06:12,240 --> 00:06:17,400

sense of despondency often hits a lot of us that\h  
you know really not much is happening you know\h\h

56

00:06:17,400 --> 00:06:22,380

it's all going to be put back in the Box uh\h  
whatever disclosure will happen is going to\h\h

57

00:06:22,380 --> 00:06:28,320

be underwhelming but really this is significant\h  
we should stop and take stock of the faculture\h\h

58

00:06:28,320 --> 00:06:35,760

that that the mere fact that there is a public\h  
document tabled in the Congress that is actually\h\h

59

00:06:35,760 --> 00:06:43,500

investigating this issue tabulating Europe\h  
UAP reports UFO reports and actually taking\h\h

60

00:06:43,500 --> 00:06:51,180

the issue seriously this is a big moment that this\h  
is important and frankly okay it's a dog turd of\h\h

61

00:06:51,180 --> 00:06:55,920

a report frankly I think it was written it was  
written in the It Was Written in the technical

62

00:06:55,920 --> 00:07:04,620

Congress report it was I I literally think whoever  
wrote this report basically wrote it on his lap

63

00:07:04,620 --> 00:07:09,540

sitting in the loo in Congress before he bolted  
into the intelligence committee you know it's it

64

00:07:09,540 --> 00:07:15,360

really is it could have been written on the on the  
world lie sitting on the steps of the Congress uh

65

00:07:15,360 --> 00:07:20,160

before you bolted in well the office as you've  
pointed out in some of our previous shows has

66

00:07:20,160 --> 00:07:25,680

not been well staffed and is Staffing up even  
as we speak you know the other thing is I agree

67

00:07:25,680 --> 00:07:30,600

with you there's some media things we should talk  
about let's table those for a moment and focus on

68

00:07:30,600 --> 00:07:37,140

explaining what the report is or says or whatever  
and then talk about how it was covered but

69

00:07:37,140 --> 00:07:43,500

okay yeah I guess uh there are there's an argument  
to be made for the dog turd theory of this report

70

00:07:43,500 --> 00:07:50,580

the truth is it is a little bit like uh paint  
drying it is not exciting given what the topic

71

00:07:50,580 --> 00:07:55,800

is it ought to be a lot more exciting I found a\h  
couple of uh things as I read it the the first\h\h

72  
00:07:55,800 --> 00:08:02,820  
thing was that by reducing it only to the numbers\h  
and throwing in a whole lot of bureaucratic kind\h\h

73  
00:08:02,820 --> 00:08:09,300  
of uh language in in terms of their descriptions\h  
it does make it a lot more boring read you have to\h\h

74  
00:08:09,300 --> 00:08:13,920  
really go in and pull out things to get excited\h  
about one of the things I thought for future\h\h

75  
00:08:13,920 --> 00:08:21,780  
reports or maybe they didn't do it for a reason\h  
but if you're going to say that uh 171 new cases\h\h

76  
00:08:21,780 --> 00:08:28,320  
that are unidentified have occurred since the last\h  
report can't we get a little taste of what some of\h\h

77  
00:08:28,320 --> 00:08:34,200  
those were why not tell us some of the examples\h  
why not lay that out because I guarantee I have\h\h

78  
00:08:34,200 --> 00:08:39,420  
a lot of friends who if I start talking about a\h  
report uh they're like well okay whatever you know\h\h

79  
00:08:39,420 --> 00:08:43,680  
and and if I give them some numbers then that's\h  
interesting maybe you got something there but\h\h

80  
00:08:43,680 --> 00:08:49,620  
if you start telling people the actual cases they\h  
start to freak out because these are unusual cases\h\h

81  
00:08:50,400 --> 00:08:55,800

I agree I mean there's no explanation here of the methodology and that's important particularly

82

00:08:55,800 --> 00:09:04,560

with these 171 unexplained sightings quote some of which appear to have demonstrated unusual flight

83

00:09:04,560 --> 00:09:11,280

characteristics or performance capabilities it's very very important because in the methodology

84

00:09:11,280 --> 00:09:16,380

I'm sure there's a methodology or at least I hope there is a methodology that the UAP task

85

00:09:16,380 --> 00:09:21,060

force is using there's some good people on that task force there's some very dedicated people

86

00:09:21,060 --> 00:09:27,120

who are genuinely trying to get to the answers and the thing that for example really irritated

87

00:09:27,120 --> 00:09:37,440

me is that 163 of the investigated sightings were labeled balloons or balloon-like entities

88

00:09:39,060 --> 00:09:46,740

I mean what does it belong empathy okay first of all balloons have been part of the ufology for

89

00:09:46,740 --> 00:09:54,240

years going back uh really to the the Roswell case where uh first it was a flying disc and then the

90

00:09:54,240 --> 00:09:59,520

government said no it's a it's a weather balloon so weather balloons balloons uh are certainly

91

00:09:59,520 --> 00:10:06,180

loaded words but another loaded word is entity\h  
what a weird choice of of a way to describe it\h\h

92  
00:10:06,180 --> 00:10:13,560  
balloon-like entities when I think of it yeah what\h  
that tells me Bryce is they don't know what it is\h\h

93  
00:10:14,100 --> 00:10:20,280  
and unless they explain unless they explain their\h  
methodology I mean to me bloom-like entities is\h\h

94  
00:10:20,280 --> 00:10:25,200  
a bit like saying oh it's a it's a something\h  
something you know it's kind of like a loony\h\h

95  
00:10:25,200 --> 00:10:30,000  
sort of thingy Bobby but that I've explained it\h  
now so go away and leave me alone and let me get\h\h

96  
00:10:30,000 --> 00:10:35,340  
on with doing what I've been doing for the last\h  
70 years which is covering this issue up well I\h\h

97  
00:10:35,340 --> 00:10:42,540  
really think we have to call it I mean I'm not\h  
questioning the motives of the individuals that\h\h

98  
00:10:42,540 --> 00:10:48,720  
run the aaro because I'm I'm hearing good things\h  
about them I'm hearing that they are dedicated\h\h

99  
00:10:48,720 --> 00:10:54,780  
people who are doing good work but you can't\h  
do anything about the Dead Hand of the Pentagon\h\h

100  
00:10:54,780 --> 00:11:01,500  
PR machine that wants to dampen this down and\h  
that's my concern and Chris Mellon the the former\h\h

101  
00:11:01,500 --> 00:11:07,440

um Deputy assistant um secretary of defense for\h  
intelligence and security he he made this comment\h\h

102

00:11:07,440 --> 00:11:13,500

about the report he said the government has again\h  
demonstrated its unique and uncanny ability to\h\h

103

00:11:13,500 --> 00:11:20,880

transform an inherently fascinating topic into\h  
vexing bureaucratic jargon if the intent was to\h\h

104

00:11:20,880 --> 00:11:28,260

make the reporters Anodyne unremarkable and boring\h  
as possible the authors did exceptionally well \h\h

105

00:11:28,260 --> 00:11:34,800

say this partly in jest but in truth it appears\h  
efforts were made to minimize the impact of the\h\h

106

00:11:34,800 --> 00:11:41,340

data for example there's an incredibly stark\h  
contrast between the stunning testimony of UAP\h\h

107

00:11:41,340 --> 00:11:49,020

capabilities reported by Navy Pilots for example\h  
something not from this earth and the flaccid\h\h

108

00:11:49,020 --> 00:11:57,360

lovely language flaccid UAP report language which\h  
by contrast asserts some of these uncharacterized\h\h

109

00:11:57,360 --> 00:12:02,700

UAP appear to have demonstrated unusual flight\h  
characteristics or performance capabilities and\h\h

110

00:12:02,700 --> 00:12:08,820

require further analysis pretty boring stuff it's\h  
like one of those AI computer voices reading a\h\h

111

00:12:08,820 --> 00:12:15,960

book or something nicely done listen I talked to  
Chris Mellon today before we went on and uh you

112

00:12:15,960 --> 00:12:23,280

know that is pretty much his point of view however  
I I also sense that he reads the thing as some of

113

00:12:23,280 --> 00:12:28,200

some a lot of people do and say there's some  
buried things that are and I want to reference

114

00:12:28,200 --> 00:12:32,520

what you had talked about earlier where you said  
well it is kind of interesting that they're even

115

00:12:32,520 --> 00:12:36,720

doing this when you get to the summary of this  
thing and we'll go back into the details but at

116

00:12:36,720 --> 00:12:42,060

the summary actually bolds three different things  
that that they're talking about which actually are

117

00:12:42,060 --> 00:12:48,540

the change that you were talking about the first  
was UAP continue to represent a hazard to flight

118

00:12:48,540 --> 00:12:55,500

safety and pose a possible adversary collection  
threat well that's that's pretty stunning for the

119

00:12:55,500 --> 00:12:59,460

government to say okay we they're still not  
saying what it is but they're saying it's a

120

00:12:59,460 --> 00:13:04,860

hazard of flight safety that's interesting then  
the second was Arrow has been established as

121

00:13:04,860 --> 00:13:10,680

the dod focal point for UAP now we are getting to\h  
the place where in that simple sentence there are\h\h

122

00:13:10,680 --> 00:13:16,980

three things people could go what is that arrow\h  
is the all domain anomaly resolution office which\h\h

123

00:13:16,980 --> 00:13:25,020

at this point is sort of the uh Wellhead if you\h  
will of all things euphological in the government\h\h

124

00:13:25,020 --> 00:13:31,380

or at least they say DOD of course Department\h  
of Defense UAP used to be unidentified aerial\h\h

125

00:13:31,380 --> 00:13:36,420

phenomena now they're calling it unidentified\h  
anomalous phenomena okay that was number two\h\h

126

00:13:36,420 --> 00:13:42,420

number three coordinated efforts between the\h  
dod the IC that's the intelligence community and\h\h

127

00:13:42,420 --> 00:13:48,060

other government agencies to collect and Report\h  
UAP events have resulted in increased data sets\h\h

128

00:13:48,060 --> 00:13:54,360

spanning multiple security domains so let me break\h  
that down into English first they're saying these\h\h

129

00:13:54,360 --> 00:14:01,320

things could potentially be scary and dangerous\h  
one two um we've got a place where we're trying\h\h

130

00:14:01,320 --> 00:14:07,440

to get everybody to talk to at the same time so\h  
that we can draw some conclusions and three we are\h\h

131

00:14:07,440 --> 00:14:12,840

coordinating efforts uh between all these people\h  
so that we can get more data you know we can put\h\h

132

00:14:12,840 --> 00:14:18,720

more data in so that can we get more conclusions\h  
out if all of that is true you know that's nice l\h\h

133

00:14:18,720 --> 00:14:24,300

don't know that it's an update because we've sort\h  
of known that's been happening but again it's not\h\h

134

00:14:24,300 --> 00:14:29,400

the worst news in the world it's it's good to see\h  
the government instead of saying nothing to see\h\h

135

00:14:29,400 --> 00:14:36,840

here which they've done for since like 1969. it's\h  
it's nice to see them admitting there is indeed\h\h

136

00:14:36,840 --> 00:14:41,760

something to see there and it's a threat and\h  
it's a flight safety threat and it's a national\h\h

137

00:14:41,760 --> 00:14:46,440

security threaten there's a couple of things that\h  
are buried in here and I think you you also have\h\h

138

00:14:46,440 --> 00:14:51,360

to add the weights of Granny New York Times to\h  
this because they've had background briefings from\h\h

139

00:14:51,360 --> 00:14:56,340

Ron Moultrie for that special breast proof press\h  
briefing that happened back late late last year\h\h

140

00:14:56,940 --> 00:15:03,300

the New York Times and indeed this report make\h  
much of the fact that a lot of the prosaically\h\h

141

00:15:03,300 --> 00:15:10,500

explained sightings by after investigation have  
come out to be Chinese drones now that's really

142

00:15:10,500 --> 00:15:14,880

interesting and I'm waiting to see what our  
friend and colleague Jeremy Corbill comes

143

00:15:14,880 --> 00:15:20,880

up with in response to that because whatever the  
hell those drones are yes I I do think that some

144

00:15:20,880 --> 00:15:26,460

of the objects that were seen by the U.S Navy  
off the California coast especially in that uh

145

00:15:26,460 --> 00:15:35,460

2018-2019 period that Jeremy featured in some  
of his uh exposes they they are clearly drone

146

00:15:35,460 --> 00:15:43,080

objects you can see them in the photographs but  
there are clear bits of evidence that um have come

147

00:15:43,080 --> 00:15:48,180

up not just from Jeremy but from other sources  
in those sightings which suggests that whatever

148

00:15:48,180 --> 00:15:57,000

these drones were or are they're doing things that  
just aren't normal drones they're they're moving

149

00:15:57,000 --> 00:16:02,820

doing Maneuvers that are quite extraordinary  
they're operating far out in the ocean with

150

00:16:02,820 --> 00:16:09,300

no apparent base from whence they come whatever  
the hell this is the implications of this report

151

00:16:09,300 --> 00:16:17,580

in terms of just simple analog human technology  
are awesome because it does mean that what this

152

00:16:17,580 --> 00:16:25,680

uaap report has exposed is that the Pentagon is  
leading us to the line that there is some kind

153

00:16:25,680 --> 00:16:34,800

of unknown Chinese technology which is capable of  
buzzing U.S Navy vessels with impunity and that in

154

00:16:34,800 --> 00:16:41,400

and of itself is an enormous national security  
threat that we now only know about because of

155

00:16:41,400 --> 00:16:50,400

this UAP report investigation and so in that alone  
Arrow has proved its worth and and this is where

156

00:16:50,400 --> 00:16:56,940

even though we gave them an F last week I give  
them a pass mark on doing things that are crazy

157

00:16:56,940 --> 00:17:03,840

editorable in in terms of alerting the Pentagon  
to threats that think frankly I think was sitting

158

00:17:03,840 --> 00:17:09,060

under the radar I'm going to so stipulate  
everything you just said and still tell you

159

00:17:09,060 --> 00:17:15,840

why I'm I'm angry I'm angry about the context we  
cannot keep laying okay there are Chinese drones

160

00:17:15,840 --> 00:17:23,280

uh they're an adversary uh they're messing around  
in our protected airspace quite probably it's good

161

00:17:23,280 --> 00:17:29,760

that we know that but that doesn't explain the  
phenomena because folks there were no Chinese

162

00:17:29,760 --> 00:17:37,740

drones in 1947 and in the 1950s and if there were  
drones and there weren't they weren't doing these

163

00:17:37,740 --> 00:17:44,700

improbable and impossible Maneuvers out there  
so again with the report has as its essential

164

00:17:44,700 --> 00:17:52,200

flaw that hopefully will be fixed going forward  
is a sense of context you know how would Chinese

165

00:17:52,200 --> 00:18:01,500

drones explain the thousands and thousands of  
cases in the 40s 50s 60s 70s 80s 90s odds what

166

00:18:01,500 --> 00:18:07,500

about all those cases what about them so I will  
just say okay that's me that's my rant for the

167

00:18:07,500 --> 00:18:12,420

day here's here's the lighter moment uh our you  
were talking about our friend uh here's another

168

00:18:12,420 --> 00:18:18,060

friend of ours Gary Nolan and I I thought I saw  
his tweet and I thought it was really funny and at

169

00:18:18,060 --> 00:18:24,480

the same time incredibly insightful his tweet was  
chat GPT prompt and of course he's talking about

170

00:18:24,480 --> 00:18:29,820

artificial intelligence an AI that can write  
things in any way this is what the prompt was

171

00:18:30,540 --> 00:18:38,280

write a 2022 UAP Report with as few specifics as you can and hide the anomalous findings in

172

00:18:38,280 --> 00:18:45,660

a paragraph as an obtuse reference deep in the output well that's kind of what it looks like to

173

00:18:45,660 --> 00:18:52,320

me I mean it almost has that to be honest with you Russ an AI would have written a livelier report

174

00:18:53,400 --> 00:18:57,240

I I completely agree with you I completely agree with you now listen one of the things

175

00:18:57,240 --> 00:19:02,160

last week that we were lamenting was that all of the politicians in Congress who'd previously

176

00:19:02,160 --> 00:19:08,280

espoused a great interest in uaps had suddenly gone quiet for the last six months and I would

177

00:19:08,280 --> 00:19:12,540

have put it on record that there's been some really interesting comments from a lot of the

178

00:19:12,540 --> 00:19:17,940

major players in the last day or so Mike Gallagher the the person who actually put the representative

179

00:19:17,940 --> 00:19:25,020

who put the UAP Clauses the the new Clauses into the National Defense authorization Act passed in

180

00:19:25,020 --> 00:19:32,700

December he put a statement down after the release of the UAP report he said the dni's most recent

181

00:19:32,700 --> 00:19:39,600

UAP report reinforces what we already know that  
we must figure out what our military aviators

182

00:19:39,600 --> 00:19:44,880

are observing in our airspace The Whistleblower  
protections and he's talking about these new laws

183

00:19:44,880 --> 00:19:50,340

that have been put into the defense authorization  
act recently passed into law are an essential step

184

00:19:50,340 --> 00:19:57,060

forward to solving this decades-long mystery and  
will ensure that those entrusted with defending

185

00:19:57,060 --> 00:20:02,640

America from potential threats have all the  
required information historical context and

186

00:20:02,640 --> 00:20:09,240

scientific resources to do so now that that's  
a very positive thing the mere fact that Mike

187

00:20:09,240 --> 00:20:16,200

Gallagher is still prepared to speak out publicly  
and espouse support for probing investigations

188

00:20:16,200 --> 00:20:25,020

into the UAP issue that really matters I also want  
to put on the record that Senator Mark Warner the

189

00:20:25,020 --> 00:20:31,920

Senate intelligence chair he's also said today's  
report reflects a step forward in understanding

190

00:20:31,920 --> 00:20:37,920

and addressing risks to aviators overall I'm  
encouraged to see an increase in UAP reporting

191

00:20:37,920 --> 00:20:43,620

a sign of decreased stigma among pilots who are  
aware of the Potential Threat that uaps can pose

192

00:20:43,620 --> 00:20:50,340

I'm proud to have passed language in the financial  
year 23 intelligence authorization act that will

193

00:20:50,340 --> 00:20:56,400

empower the all domain anomaly resolution  
office Arrow to rigorously investigate and

194

00:20:56,400 --> 00:21:01,860

bring resources to bear on this challenge I look  
forward to seeing continued cooperation between

195

00:21:01,860 --> 00:21:06,780

the Department of Defense the intelligence  
community and other key government Partners

196

00:21:06,780 --> 00:21:13,740

as we work to focus resources on UAP reports  
that remain uncharacterized and unattributed

197

00:21:14,280 --> 00:21:21,240

they've still got their teeth in the game Bryce  
they're not dropping this it sounds lovely uh

198

00:21:21,240 --> 00:21:27,420

and and I I take no exception with that I'm  
glad that that kind of dialogue is out there

199

00:21:27,420 --> 00:21:32,520

just have a question and it's it's a hypothetical  
but it kind of goes to the essence of what we're

200

00:21:32,520 --> 00:21:37,140

we're living through with these reports of which  
we're supposed to get one every year from now on

201

00:21:37,980 --> 00:21:47,520

let's say that last month an Air Force pilot or  
or a Navy pilot going about their business had an

202

00:21:47,520 --> 00:21:54,720

up close encounter with some kind of anomalous  
craft and the craft clearly was not a Chinese

203

00:21:54,720 --> 00:22:02,820

drone it was huge it was uh doing incredible  
Maneuvers and in fact uh he got this pilot he

204

00:22:02,820 --> 00:22:08,940

or she got images of it that were crystal clear  
and in fact when you looked at those images you

205

00:22:08,940 --> 00:22:14,280

saw somebody inside this craft an occupant  
that certainly didn't look like a human being

206

00:22:15,780 --> 00:22:20,640

would it be in this report no  
it wouldn't be in this report so

207

00:22:21,540 --> 00:22:29,100

how do we ever get to the bottom of the more  
esoteric Parts if whenever we encounter them

208

00:22:29,100 --> 00:22:37,020

those are called classified there's not even a  
attempt to describe that they exist they just go

209

00:22:37,020 --> 00:22:43,020

into the classified report the Congress looks  
at them how are the people to hear about the

210

00:22:43,020 --> 00:22:48,960

really good cases uh do we have to do all of this  
ourselves uh can we not count on the government

211

00:22:48,960 --> 00:22:55,260

with all its sensors and data to to help us out\h  
a little bit why why does it have to be this way\h\h

212

00:22:55,920 --> 00:23:02,940

brush I actually think what you're raising here\h  
is fundamentally important I think frankly I'm\h\h

213

00:23:02,940 --> 00:23:08,100

increasingly coming to the view that the\h  
naive idea that we're going to be spoon-fed\h\h

214

00:23:08,100 --> 00:23:15,000

some kind of disclosure on uaps by the political\h  
representatives of the US people in the Congress\h\h

215

00:23:15,000 --> 00:23:21,000

is utterly naive the idea that the intelligence\h  
community and the defense department is somehow\h\h

216

00:23:21,000 --> 00:23:27,120

going to fess up and admit that there's been a\h  
massive cover-up going back decades it ain't going\h\h

217

00:23:27,120 --> 00:23:33,780

to happen and more importantly even the National\h  
Defense authorization act and intelligence acts\h\h

218

00:23:33,780 --> 00:23:40,500

requirements for uaps that have now been passed\h  
into law all they're really mandating is that\h\h

219

00:23:40,500 --> 00:23:48,300

Congress be informed about secret programs that\h  
may or may not exist in relation to recovered\h\h

220

00:23:48,300 --> 00:23:54,360

technology UAP crashes which in and of itself is\h  
amazing I still every now and then I just pull out\h\h

221

00:23:54,360 --> 00:24:00,300

the I pull out the Congressional Record and look  
at the wording of the legislation that has been

222

00:24:00,300 --> 00:24:07,560  
passed by the U.S Congress referring to recovered  
technology back engineered technology relating

223

00:24:07,560 --> 00:24:16,140  
to uaps you have the the U.S Congress making  
specific written references in-laws to their

224

00:24:16,140 --> 00:24:22,080  
suspicion that somewhere inside the intelligence  
or defense community of the United States there

225

00:24:22,080 --> 00:24:27,600  
are people holding secrets that have been  
illegally and properly withheld from the public

226

00:24:28,200 --> 00:24:34,320  
that's just extraordinary and I I think we do  
owe it to ourselves to remind ourselves of just

227

00:24:34,320 --> 00:24:40,260  
how momentous that is but I do think the notion  
that this is somehow you're going to get some

228

00:24:40,260 --> 00:24:45,300  
intelligence officials sitting down in a church  
committee style hearing and going oh yeah you

229

00:24:45,300 --> 00:24:52,020  
know we've been lying to you guys for 30 40 years  
70 years actually um you know I just don't think

230

00:24:52,020 --> 00:24:57,960  
that's ever going to happen and I think frankly  
what is going to make a difference is a slow

231

00:24:57,960 --> 00:25:06,300

waking up by the public a slow realization that  
that you know at the same time we can move now

232

00:25:06,300 --> 00:25:11,880

think from the very limited amount of detail that  
we've got in the UAP report to the media coverage

233

00:25:11,880 --> 00:25:17,760

thereof because let me just let me just throw one  
thought in I agree we should but I just to build

234

00:25:17,760 --> 00:25:22,740

on what you just said what we are really seeing  
and what you're calling for and what you're saying

235

00:25:22,740 --> 00:25:29,880

is the potential solution is uh if I can borrow  
from my Hollywood days here um you're thinking

236

00:25:29,880 --> 00:25:36,780

that we're living through a slow dissolve uh and  
and what a lot of people would prefer is we had a

237

00:25:36,780 --> 00:25:42,660

hard cut right I know I would I would like it  
if somebody could just say okay yeah uh just

238

00:25:42,660 --> 00:25:46,800

confirming this stuff is real we're not going to  
tell you all the details yet but yeah you're not

239

00:25:46,800 --> 00:25:50,940

crazy if you know about it but we're not getting  
that that would be the hard cut so instead we're

240

00:25:50,940 --> 00:25:55,200

getting the slow dissolve where we have to think  
about it and you know just so people are clear

241

00:25:55,200 --> 00:25:59,460

there are a lot of different things that work  
here there's this report that Ross and I have

242

00:25:59,460 --> 00:26:05,640  
been talking about that was due on October 31st  
finally 73 days later has come out and it's not

243

00:26:05,640 --> 00:26:10,200  
all that impressive it's not telling us a lot  
of things we don't know but as Ross and I were

244

00:26:10,200 --> 00:26:16,260  
talking about last week there is also the National  
Defense authorization act that just passed uh this

245

00:26:16,260 --> 00:26:20,820  
last month and was signed by the president and  
that one is the one that calls for the protections

246

00:26:20,820 --> 00:26:28,980  
for whistleblowers Etc and we had quoted um excuse  
me Chris Mellon earlier this is what he was saying

247

00:26:28,980 --> 00:26:34,860  
about the ndaa as opposed to the report he said  
the American public can reasonably expect to get

248

00:26:34,860 --> 00:26:39,900  
some answers to questions that have been burning  
in the minds of millions of Americans for many

249

00:26:39,900 --> 00:26:45,540  
years if nothing else this should either clear up  
something that's been a cloud hanging over the Air

250

00:26:45,540 --> 00:26:51,660  
Force and Department of Defense for decades or  
it might lead in another Direction which could

251

00:26:51,660 --> 00:26:58,320

be truly incredible his words not mine and he ends\h  
with there's a lot at stake and I say Amen brother\h\h

252  
00:26:58,320 --> 00:27:06,360  
amen you know it's funny when I when I read Chris\h  
mellon's comments his key takeaways from the odni\h\h

253  
00:27:06,360 --> 00:27:10,080  
report I kind of read it and I thought oh yeah\h  
that's the sort of thing Chris would say and\h\h

254  
00:27:10,080 --> 00:27:15,840  
then I I made that journalist's mistake of not\h  
going to the final paragraph you should always\h\h

255  
00:27:15,840 --> 00:27:21,300  
read the last line first in any press release\h  
because it's where the politicians always hide\h\h

256  
00:27:21,300 --> 00:27:27,060  
stuff that they're a little bit sensitive about so\h  
I went to the very last line in Chris's statement\h\h

257  
00:27:27,060 --> 00:27:35,220  
and this is what he said having participated in\h  
debriefs of military aviators and radar operators\h\h

258  
00:27:36,240 --> 00:27:43,320  
um I believe this is a genuine possibility\h  
and he's talking in terms of um uh National\h\h

259  
00:27:43,320 --> 00:27:52,680  
Security benefiting indeed I've spoken to several\h  
credible people who claim the U.S has evidence\h\h

260  
00:27:52,680 --> 00:28:01,020  
of alien technology in its possession and he\h  
finishes with these are indeed exciting times\h\h

261  
00:28:01,980 --> 00:28:08,160

no you know that's a hell of a clanger that is\h  
a hell of a clanger from a guy who used to be l\h\h

262

00:28:08,160 --> 00:28:14,160

think the number three person in the Pentagon\h  
cleared to know the secrets of the Pentagon\h\h

263

00:28:14,820 --> 00:28:20,820

it's pretty amazing that that somebody with\h  
that level of seniority is describing that\h\h

264

00:28:20,820 --> 00:28:27,120

he's spoken to Credible people who claim the\h  
U.S has evidence of alien technology in its\h\h

265

00:28:27,120 --> 00:28:34,020

possession because remember Ron Moultrie and Scott\h  
Bray when they gave evidence in May last year in\h\h

266

00:28:34,020 --> 00:28:43,200

2022 specifically denied categorically that the\h  
United States is in possession of any non-human\h\h

267

00:28:43,200 --> 00:28:50,700

technology so we now have a dichotomy you have\h  
a member of the defense intelligence industry\h\h

268

00:28:50,700 --> 00:28:56,640

uh the government government agency basically\h  
categorically denying that we have such things\h\h

269

00:28:56,640 --> 00:29:02,160

and you have Chris Miller asserting that he's\h  
spoken to Credible Witnesses who say they have\h\h

270

00:29:02,700 --> 00:29:08,640

we now have legislation in the Congress which\h  
is mandating that the intelligence and defense\h\h

271

00:29:08,640 --> 00:29:15,300

Community tell the truth about this it's really  
quite an extraordinary time to be honest with you

272  
00:29:15,300 --> 00:29:22,560  
I mean it's momentous what we're seeing here it is  
a momentous time and and you know um I just want

273  
00:29:22,560 --> 00:29:28,080  
to go back to that report for a moment we started  
out and of course I you came up with the famous

274  
00:29:28,080 --> 00:29:36,360  
dog what what do you call it dog food yeah a dog  
we had the famous dog turd analysis I forgive him

275  
00:29:36,360 --> 00:29:42,060  
I know a lot of you Americans get offended  
by our Australian tendency for vulgarity and

276  
00:29:42,060 --> 00:29:46,860  
swearing and I've we've been spanked a few times  
by people on our YouTube channel who say that

277  
00:29:46,860 --> 00:29:52,080  
should just shut up and stop swearing so much but  
frankly it's the way Australians talk and I'm not

278  
00:29:52,080 --> 00:29:59,400  
going to apologize for the vernacular itself  
love your vulgarity and swearing and that's why

279  
00:29:59,400 --> 00:30:04,860  
we're good friends so don't uh don't apologize to  
me I think it's uh it's what sets us apart what

280  
00:30:04,860 --> 00:30:10,140  
was just going to say though is there's a danger  
here too I know a lot of people are turning on

281  
00:30:10,140 --> 00:30:15,240

to this topic and you're you're starting to go  
wow there's really something going on here and

282

00:30:15,240 --> 00:30:22,140

I I just want to tell people that not just to  
watch podcasts our podcast somebody else's or

283

00:30:22,140 --> 00:30:28,620

read coverage of reports you know this report  
is available you can get it online you can read

284

00:30:28,620 --> 00:30:32,700

it with your own eyes and I guess I would  
say the same thing it's the equivalent of

285

00:30:33,480 --> 00:30:39,360

read for yourself if you can if you got the time  
take your your own knowledge up a level and it's

286

00:30:39,360 --> 00:30:46,200

like um you know a review of a book is interesting  
but the book itself is where you're really going

287

00:30:46,200 --> 00:30:52,440

to learn more so I just think all of us since  
we can't really count on the government to do

288

00:30:52,440 --> 00:30:58,140

all the work for us we've got to do it ourselves  
it is good that the government has set up some

289

00:30:58,140 --> 00:31:03,360

of these institutions and God bless the ndaa  
language and everything and I hope what that

290

00:31:03,360 --> 00:31:09,060

means is that as these institutions sort of have  
changed and are are being more open to pulling

291

00:31:09,060 --> 00:31:14,880

in data I hope people will now say okay let's\h  
push those institutions let's do our own work\h\h

292

00:31:14,880 --> 00:31:22,860

let's bring our own game up because eventually uh\h  
when that happens uh a report of this level won't\h\h

293

00:31:22,860 --> 00:31:28,260

cut it for the majority of people but instead\h  
and I'll transition to our media thing instead\h\h

294

00:31:29,040 --> 00:31:35,280

a lot of the articles that got written about it\h  
focused on those drones and the Chinese drone\h\h

295

00:31:35,280 --> 00:31:41,340

stuff and and made it sound like yeah nothing\h  
to see here so I I I feel like uh there's a\h\h

296

00:31:41,340 --> 00:31:45,840

lot of room for improvement it's not just in\h  
the government it's in the media and it's even\h\h

297

00:31:45,840 --> 00:31:50,160

in US those of us who are paying attention to\h  
it we can all bring the game up a little bit\h\h

298

00:31:51,000 --> 00:31:58,620

now around about I think it's datelined 7 53\h  
a.m eastern time in the U.S January Friday 13th\h\h

299

00:31:58,620 --> 00:32:04,920

the New York Times wrote this story by a general\h  
feature reporter called Remy tooman and the the\h\h

300

00:32:04,920 --> 00:32:12,840

headline it's probably backwards on YouTube is\h  
did aliens land on Earth in 1945 a defense Bill\h\h

301

00:32:12,840 --> 00:32:22,260

seeks answers and frankly it's a very even-handed  
straight report of the enormous implications of

302

00:32:22,260 --> 00:32:27,240

the issues we're talking about Bryce and  
I think it needs to be put on record that

303

00:32:27,240 --> 00:32:32,700

um The New York Times has finally since the great  
work done by Leslie Kane and Ralph Blumenthal

304

00:32:32,700 --> 00:32:39,300

it's it's actually reversed at a propensity  
to basically play down the phenomenon and

305

00:32:39,300 --> 00:32:45,300

acknowledge what we all know which is that there  
is now a reality here that cannot be ignored that

306

00:32:45,300 --> 00:32:51,300

in legislation in black and white the Congress  
is clearly suspicious that the United States

307

00:32:51,300 --> 00:32:57,780

defense and intelligence Community is hiding  
something it's lying and so you know this is

308

00:32:57,780 --> 00:33:05,880

this is the gray lady this is the New York Times  
basically saying we are reporting a valid story

309

00:33:05,880 --> 00:33:13,380

that Congress now wants answers that's why this  
whole year is going to be very very interesting

310

00:33:13,380 --> 00:33:21,540

because there are reporting requirements on the  
aaro the pentagon's UAP investigation office and

311

00:33:21,540 --> 00:33:27,480

they are going to have to fess up if they are  
hiding something okay um Ross uh you know a lot

312

00:33:27,480 --> 00:33:31,860

of people who probably watch us think well these  
guys work it all out ahead of time they know who's

313

00:33:31,860 --> 00:33:36,540

going to say what and it's all scripted no because  
I'm going to disagree with you right now about

314

00:33:36,540 --> 00:33:45,360

that New York Times article I went ballistic over  
this thing I freaking hated it and here's why in

315

00:33:45,360 --> 00:33:53,880

the first few sentences in the uh the blurb they  
put under the photo and in the second paragraph

316

00:33:53,880 --> 00:34:00,000

of the article itself they call people who are  
interested in this topic that is you me the people

317

00:34:00,000 --> 00:34:06,120

who are listening if you're listening right now  
to this podcast I want you to know that the New

318

00:34:06,120 --> 00:34:15,960

York Times thinks you are a quote Flying Saucer  
fan or a conspiracy theorist or a UFO enthusiast

319

00:34:16,500 --> 00:34:24,540

it is so freaking insulting and it reminds me that  
George Carlin the famous uh comedian did an entire

320

00:34:24,540 --> 00:34:32,280

riff uh in his career on the UFO topic and among  
the things that he took them to tasks for was he

321

00:34:32,280 --> 00:34:36,720

was tired of being called the UFO buff like it\h  
wasn't something serious this New York Times\h\h

322

00:34:36,720 --> 00:34:43,020  
article doesn't even mention the word UAP there\h  
it says Flying Saucer fans conspiracy theorists\h\h

323

00:34:43,020 --> 00:34:52,380  
UFO enthusiasts and in addition to that did aliens\h  
land on Earth in 1945 blah blah blah they State as\h\h

324

00:34:52,380 --> 00:35:00,660  
fact as fact that the Roswell object turned out to\h  
be a top secret U.S military balloon that is not a\h\h

325

00:35:00,660 --> 00:35:07,260  
fact uh there's nothing factual about that that is\h  
one uh explanation that the government has offered\h\h

326

00:35:07,260 --> 00:35:14,160  
out of four explanations over the years and\h  
obviously the writer of this article uh Remy tumla\h\h

327

00:35:14,160 --> 00:35:21,180  
didn't know that she's new to the topic I guess\h  
didn't know that and they say again in that very\h\h

328

00:35:21,180 --> 00:35:27,960  
first paragraph that Roswell you know was just a\h  
balloon so you were hearing about Crash wreckage\h\h

329

00:35:27,960 --> 00:35:33,300  
and the New York Times is parroting that back\h  
now okay I said my last one can I can I just\h\h

330

00:35:33,300 --> 00:35:37,260  
respond to what you just said then Bryce I mean\h  
I I actually do agree with you and in fact I was\h\h

331

00:35:37,260 --> 00:35:42,240

going to make some of the points you've just made\h  
myself what I want to add to what you've just said\h\h

332  
00:35:42,240 --> 00:35:49,980  
is that continuing the tradition of the apologia\h  
for the Pentagon PR people Julian Barnes the New\h\h

333  
00:35:49,980 --> 00:35:55,380  
York Times National Security reporter on the 12th\h  
of January on I think it was on the evening before\h\h

334  
00:35:55,380 --> 00:36:04,740  
this Remy tooman story ran he did his own report\h  
uh curtain raising the coming UAP report and he he\h\h

335  
00:36:04,740 --> 00:36:09,660  
said things like the failure to categorize many\h  
incidents has frustrated intelligence officials\h\h

336  
00:36:09,660 --> 00:36:15,180  
and fueled conspiracy theories but Pentagon\h  
officials say the income complete findings\h\h

337  
00:36:15,180 --> 00:36:21,000  
are a result of inadequate sensor collection not\h  
evidence of advanced technology or any sort of\h\h

338  
00:36:21,000 --> 00:36:27,240  
government cover-up he's doing his very best on\h  
behalf of the Pentagon to dampen down speculation\h\h

339  
00:36:27,240 --> 00:36:33,120  
and I'm really sorry I I think we have to call\h  
the New York Times ad on this the gray lady is\h\h

340  
00:36:33,120 --> 00:36:39,060  
being disingenuous he also said things like\h  
with the release of any government report on\h\h

341  
00:36:39,060 --> 00:36:45,360

UFOs officials hope the information will quell  
speculation Around The Unexplained incidents

342

00:36:45,360 --> 00:36:52,440

but such hopes are inevitably dashed because  
incidents that cannot be categorized fuel new

343

00:36:52,440 --> 00:37:00,480

rounds of speculation and conspiracy so the Deep  
implication of course is that all of this UFO UAP

344

00:37:00,480 --> 00:37:07,620

nonsense is just that a baseless conspiracy  
right who needs Pentagon PR when you've got

345

00:37:07,620 --> 00:37:15,120

Julian Barnes of the New York Times to do the lick  
spittle work of the intelligence Community yeah

346

00:37:15,120 --> 00:37:22,500

mean what he conceded was in the UAP report those  
unexplained incidents here then goes on to Dan

347

00:37:22,500 --> 00:37:29,460

play them as wacky speculation essentially  
by us tin foil hat Nutters he says a portion

348

00:37:29,460 --> 00:37:34,980

of those unexplained incidents that demonstrate  
unusual flight characteristics but what they will

349

00:37:34,980 --> 00:37:40,860

get further study according to the report but the  
report doesn't outline he says how many incidents

350

00:37:40,860 --> 00:37:47,400

fall under that category and a mission likely  
to stoke further speculation by people who have

351

00:37:47,400 --> 00:37:54,000

embraced explanations such as other worldly\h  
visitors or Advanced unknown technology by\h\h

352

00:37:54,000 --> 00:38:00,780

adversarial Powers the whole thing is a dead hand\h  
and this is what the gray lady does all the time\h\h

353

00:38:00,780 --> 00:38:06,480

the New York Times you know it's allowed Leslie\h  
Kane and Ralph Blumenthal because it was a very\h\h

354

00:38:06,480 --> 00:38:13,020

legitimate series of stories to report the fact\h  
that the Pentagon was secretly investigating UFOs\h\h

355

00:38:13,020 --> 00:38:21,960

uaps but ever since then ever since 2017 under the\h  
Dead Hand influence of the Pentagon the public has\h\h

356

00:38:21,960 --> 00:38:28,980

been told in the Remy tooman article and also in\h  
the Julian Barnes article and also in the Holman\h\h

357

00:38:28,980 --> 00:38:35,040

Jenkins article in the Wall Street Journal\h  
there's been this very clear directorial line\h\h

358

00:38:35,040 --> 00:38:42,000

where National Security correspondence for the two\h  
major newspapers in Washington they made it's made\h\h

359

00:38:42,000 --> 00:38:46,140

very very clear to them I've been on the receiving\h  
end of these client of briefings if you don't toe\h\h

360

00:38:46,140 --> 00:38:52,200

the line if you don't parrot what you're told by\h  
your defense intelligence sources you don't get\h\h

361

00:38:52,200 --> 00:38:57,480

fed in the future so they're doing what they're  
being told they're essentially participating in

362

00:38:57,480 --> 00:39:03,000

a dampening down of this idea preparing the  
public for the idea that this is all just

363

00:39:03,000 --> 00:39:08,160

conspiracy nonsense don't you worry eventually  
we're going to be able to prosaically explain

364

00:39:08,160 --> 00:39:14,100

all of these objects these people who are making  
these wacky claims of other worldly visitors which

365

00:39:14,100 --> 00:39:18,540

were not by the way we're just saying it's a  
mystery these people who are suggesting that

366

00:39:18,540 --> 00:39:24,240

there's a real mystery there tell them to go away  
because ultimately it's just a wacky conspiracy

367

00:39:24,240 --> 00:39:31,560

trust us we're the military yeah well listen just  
to follow up on that and and what I was saying the

368

00:39:31,560 --> 00:39:38,340

article I put my glasses on and it's Remy tooman  
t-u-m-i-n who actually uh wrote this article and

369

00:39:38,340 --> 00:39:43,140

here's what's interesting about the article it's  
it's a bifurcated article the first part of it is

370

00:39:43,140 --> 00:39:47,220

insulting as I already told you the fair you  
know the the blurb that was written for the

371

00:39:47,220 --> 00:39:52,620

photo in those first two sentences or paragraphs\h  
but then it gets into a little more even-handed\h\h

372

00:39:52,620 --> 00:39:59,520

and and kind of interesting stuff and it made me\h  
wonder if this is an example of where uh possibly\h\h

373

00:39:59,520 --> 00:40:07,200

this uh author Remy tooman wrote a good article\h  
and then the editors uh put their own spin on\h\h

374

00:40:07,200 --> 00:40:12,300

top of it that does happen and uh frankly I may\h  
call her up and ask about that but I just want\h\h

375

00:40:12,300 --> 00:40:19,200

to say one thing to the New York Times editors\h  
reporters everybody else at the New York Times\h\h

376

00:40:20,940 --> 00:40:25,740

the sometimes we've had as many as a million\h  
people watching one of these things we have a\h\h

377

00:40:25,740 --> 00:40:30,960

lot of people that watch they leave comments\h  
hundreds sometimes thousands of comments on\h\h

378

00:40:30,960 --> 00:40:38,340

these these uh need to know uh podcasts and\h  
and videos that we've made those people and\h\h

379

00:40:38,340 --> 00:40:47,220

Ross and I are definitively not flying saucer\h  
fans we are not conspiracy theorists we are not\h\h

380

00:40:47,220 --> 00:40:55,980

UFO enthusiasts what we are are UAP researchers\h  
and investigators and there is a big difference\h\h

381

00:40:55,980 --> 00:41:02,820

and if you want your credibility to continue New York Times you have to figure out how to get away

382

00:41:02,820 --> 00:41:09,600

from those stereotypes that used to exist and you have to start treating the people who care about

383

00:41:09,600 --> 00:41:15,720

this issue with some more respect because if you don't respect us we are not going to respect you

384

00:41:17,160 --> 00:41:22,800

I think you're right I think as we've observed in previous podcast Bryce this is a lamentable

385

00:41:22,800 --> 00:41:29,340

failure by much of the mainstream media they've allowed themselves to be led by the nose and

386

00:41:29,340 --> 00:41:34,680

the thing that I find fascinating and I really do feel this very strongly is that citizen journalism

387

00:41:35,460 --> 00:41:41,280

citizen activism is going to be what eventually reveals this issue I don't think we're going to

388

00:41:41,280 --> 00:41:48,600

get to hear a lot of what's revealed in camera in confidence in Secure compartmentalized information

389

00:41:48,600 --> 00:41:53,820

facilities inside the Congress I don't think those Skiffs are going to release the information

390

00:41:53,820 --> 00:41:59,880

willingly I think it will eventually leak I think this stuff's going to start dribbling out

391

00:41:59,880 --> 00:42:06,000

you know I'm hearing stories that people have come  
forward to congressional committees with amazing

392

00:42:06,000 --> 00:42:13,380

allegations claims that should now be properly  
investigated by the aaro but it's incumbent on

393

00:42:13,380 --> 00:42:18,120

people watching this and listening this to  
tell the Congressional Representatives but

394

00:42:18,120 --> 00:42:23,460

more importantly maybe the mainstream media  
the Legacy Media that they need to wake up

395

00:42:23,460 --> 00:42:29,580

to the fact that they can belittle and Mock and  
ridicule this subject matter as much as they like

396

00:42:30,540 --> 00:42:36,540

but we're not going away well that's a good  
place for us to end Ross we're not going

397

00:42:36,540 --> 00:42:41,640

to go away we're going to keep doing this  
as regularly as we can and we're going to

398

00:42:41,640 --> 00:42:45,420

hold people accountable when people do good  
work we're going to praise it when they do
