

1
00:00:00,060 --> 00:00:00,780
foreign

2
00:00:07,680 --> 00:00:14,580
this is need to know real talk about the
reality of unidentified aerial phenomenon

3
00:00:15,960 --> 00:00:21,000
from Australia Ross Colt
art from the U.S Bryce zabel

4
00:00:23,400 --> 00:00:31,020
well what a momentous two weeks it's been since
the release of the UAP report to Congress I'm

5
00:00:31,020 --> 00:00:37,440
so excited about this week's show because we've
got so much to cover enter Bryce Sable how are

6
00:00:37,440 --> 00:00:43,380
you mate I'm very good Roscoe great to see you
again it has been too long you know the big story

7
00:00:43,380 --> 00:00:47,940
though that everybody's been talking about for the
last week has been this Chinese balloon story and

8
00:00:47,940 --> 00:00:52,320
we're gonna dig into that in a moment but you
know there's also that story of the continuing

9
00:00:52,320 --> 00:00:58,440
Legacy Media that sort of refuses to take this
thing seriously and do the real investigation

10
00:00:58,440 --> 00:01:02,760
work that they ought to be doing so I guess that's
why we have to do it although it does seem odd the

11

00:01:02,760 --> 00:01:06,960

Department of Defense still keeps trying to
put the toothpaste back in the tube and and

12

00:01:06,960 --> 00:01:11,640

some of the media keeps eating that up we also
have a new book from Jacques valet that really

13

00:01:11,640 --> 00:01:16,020

has some explosive comments on it particularly
dealing with the Wilson Davis memo so I'm looking

14

00:01:16,020 --> 00:01:21,720

forward to that one too and we've also got a new
case from a nuclear plant to talk about and we've

15

00:01:21,720 --> 00:01:28,200

got reports of those metal balls that's right the
ones that fly that Gary Nolan is testing that are

16

00:01:28,200 --> 00:01:33,960

up there at 25 000 feet in a lot of videos we're
going to talk about that so it's a lot Ross it

17

00:01:33,960 --> 00:01:41,940

really is over to you take it away okay let's
deal with it Holman Jenkins at the Wall Street

18

00:01:41,940 --> 00:01:47,700

Journal has been at it again my friend just this
morning on the Wall Street Journal he's basically

19

00:01:47,700 --> 00:01:56,280

suggested that the entire UAP UFO story has all
been an attempt at misdirection at some kind of

20

00:01:56,280 --> 00:02:01,920

disinformation by the United States to distract
attention from the fact that they've known all

21

00:02:01,920 --> 00:02:08,460

along about these Chinese balloons flying across
us Aerospace it's just the kind of comfortable

22

00:02:08,460 --> 00:02:14,400

story that you would expect a pentagon National
Security correspondent to publish in an imminent

23

00:02:14,400 --> 00:02:20,220

newspaper to allow public concern and he says
quite pompously in his article this morning

24

00:02:20,220 --> 00:02:25,800

for those who couldn't figure out why I devoted
four columns to the Pentagon UFO debate this is

25

00:02:25,800 --> 00:02:32,940

why it became clear that whether from Serendipity
or design national security agencies were using

26

00:02:32,940 --> 00:02:39,600

UFOs to hide something they didn't want us to see
that's some something it has slowly dribbled out

27

00:02:39,600 --> 00:02:46,200

since last May was Chinese surveillance in U.S
airspace this is a real Reds under the bed one

28

00:02:46,200 --> 00:02:52,620

Bryce it was all the Chinese let's pack up and go
home and forget about uaps what do you reckon oh

29

00:02:52,620 --> 00:02:56,880

you know I reckon that I resent this story on a
couple levels the first is when you told me hey

30

00:02:56,880 --> 00:03:01,320

you got to read this this thing I went to read it
on the Wall Street Journal site and of course I

31

00:03:01,320 --> 00:03:06,660

had to join them to read their you know go through\h
their paywall to read it then when I read it I see\h\h

32

00:03:06,660 --> 00:03:12,360

this story that's just you know it's full of\h
those loaded words like I mean here's a phrase\h\h

33

00:03:12,360 --> 00:03:19,440

the fluffing of the UFO misdirection boy that's\h
a loaded phrase the UFO snow job I mean it's just\h\h

34

00:03:19,440 --> 00:03:25,860

bit after a bit like this in this thing and you\h
know he's just wrong he's he's literally either\h\h

35

00:03:25,860 --> 00:03:31,800

taking direction from somebody or he's not as\h
smart as he thinks he is but this is really not\h\h

36

00:03:31,800 --> 00:03:38,040

a very accurate way to take a look at this uh this\h
Chinese balloon story which we we need to get into\h\h

37

00:03:38,040 --> 00:03:44,880

I mean it's been amazing hasn't it to be following\h
a balloon that at best I know started in Montana\h\h

38

00:03:44,880 --> 00:03:50,760

slowly drifted across the United States well\h
everyone talked about it ended up off the coast of\h\h

39

00:03:50,760 --> 00:03:57,540

South Carolina where we finally shot it down and\h
have done our our sea rescue of it and confirmed\h\h

40

00:03:57,540 --> 00:04:02,340

as I understand it that it isn't the little\h
weather balloon that they were talking about in\h\h

41

00:04:02,340 --> 00:04:08,100

the Chinese media but and the government but it's
is actually a surveillance balloon of some kind

42

00:04:08,640 --> 00:04:14,460

you know the real story behind all of this Bryce
the media has gone into a frenzy about a Chinese

43

00:04:14,460 --> 00:04:19,920

surveillance balloon that's clearly some kind of
spy balloon and everybody's you know rattling the

44

00:04:19,920 --> 00:04:24,480

saber about it you've got all the right-wing
politicians having a good old go at Biden for

45

00:04:24,480 --> 00:04:30,060

failing to protect National Security and yet
the real issue well there's two big issues here

46

00:04:30,780 --> 00:04:40,140

one is we've still got unresolved mystery of
incursions by objects detected on radar and other

47

00:04:40,140 --> 00:04:47,580

sensor systems which are doing crazy things with
U.S military in different military zones off the

48

00:04:47,580 --> 00:04:53,460

Western east coast of America and more importantly
in war zones in the Middle East these are serious

49

00:04:53,460 --> 00:05:00,600

incursions which have gone largely unacknowledged
by the mainstream media almost a willful blindness

50

00:05:00,600 --> 00:05:05,820

to the fact that you know we're not going to give
attention to the fact that the military itself

51

00:05:05,820 --> 00:05:12,420

Pilots are going on the record saying that they're seeing these objects that's the first issue and

52

00:05:12,420 --> 00:05:17,460

then the second issue that's come out of this and Chris Mellon the former deputy assistant under

53

00:05:17,460 --> 00:05:26,040

secretary for defense he's talked about how the filter systems that the American NORAD monitoring

54

00:05:26,040 --> 00:05:33,180

systems have in place until very recently have not been looking for anything else other than

55

00:05:33,180 --> 00:05:42,840

icbms and cruise missiles so the US is so focused on worrying quite importantly of course about the

56

00:05:42,840 --> 00:05:51,120

risk of foreign enemy attack from say North Korea China or Russia it's not looking it's not focusing

57

00:05:51,120 --> 00:05:56,940

on the anomalies that are being picked up by their system and I think it's been overlooked

58

00:05:56,940 --> 00:06:01,680

that Chris Mellon has actually pointed out that their filters that have been in operation in NORAD

59

00:06:02,460 --> 00:06:10,020

failed to pick these up at the first point of call and it's only because we've now got UAP anomaly

60

00:06:10,020 --> 00:06:17,100

detection systems being put in place as a result of congress's intercession that we're now picking

61

00:06:17,100 --> 00:06:24,240

up these things so this is actually the story of
the Chinese balloon story is more about the huge

62

00:06:24,240 --> 00:06:30,900

Chasm of ignorance about the fact that we've got
these ongoing incursions in military airspace but

63

00:06:30,900 --> 00:06:36,960

more importantly the only reason these Chinese
balloons are being picked up is because of the

64

00:06:36,960 --> 00:06:42,600

Mandate that Congress has demanded to start
identifying unidentified anomalous phenomena

65

00:06:43,320 --> 00:06:48,480

you know just to pick up on the Christopher Mellon
thing for a moment he also said that if these uh

66

00:06:48,480 --> 00:06:52,980

balloons and so forth he was talking about he said
if these are Chinese Tech then we're in serious

67

00:06:52,980 --> 00:06:58,500

trouble because you know let's face it these giant
uh satellite I mean these giant surveillance and

68

00:06:58,500 --> 00:07:03,480

or weather balloons drift kind of with the
tide there they're in the air and they're drifting

69

00:07:03,480 --> 00:07:09,480

along they they can move but not not a 10 000
miles an hour and they don't go from 80 000

70

00:07:09,480 --> 00:07:14,700

feet to sea level and they don't do a lot of the
so-called impossible kind of physics things that

71

00:07:14,700 --> 00:07:21,660

some of these uh UAP objects have done so it is\h
kind of a weird thing to say we're gonna explain\h\h

72

00:07:21,660 --> 00:07:27,540

it all as balloons but it's not unusual I mean\h
uh one of the things I like to do on this show\h\h

73

00:07:27,540 --> 00:07:34,140

Ross is to talk a little bit about like well we've\h
seen this show before and let's face it folks the\h\h

74

00:07:34,140 --> 00:07:42,120

balloon show started in 1947 uh when uh the the\h
US government admitted that they had possession\h\h

75

00:07:42,120 --> 00:07:48,660

of a flying disc in Roswell and then within hours\h
said no no nothing to see here it was a weather\h\h

76

00:07:48,660 --> 00:07:54,300

balloon so listen we've been doing the weather\h
balloon dance for as long well longer than I've\h\h

77

00:07:54,300 --> 00:07:59,040

been alive it's been happening and and I think\h
that what's strange is that we're going back to\h\h

78

00:07:59,040 --> 00:08:06,240

that Playbook again and for me the Playbook just\h
doesn't wash it's not uh it's not good physics to\h\h

79

00:08:06,240 --> 00:08:11,640

think that these things that were supposed to\h
that can all be explained is oh yeah well it's\h\h

80

00:08:11,640 --> 00:08:17,460

just a balloon it's not just a balloon and frankly\h
it isn't just a Chinese drone because again the\h\h

81

00:08:17,460 --> 00:08:23,160

Chinese didn't have drones in 1947 and in the 50s\h
when we saw these things so okay I'm done I say\h\h

82

00:08:23,160 --> 00:08:29,280

this every episode but I feel like I have to it's\h
just too crazy what they're trying to run past us\h\h

83

00:08:29,280 --> 00:08:33,960

now look as well as putting home and Jenkins from\h
The Wall Street Journal in the naughty corner with\h\h

84

00:08:33,960 --> 00:08:39,780

a dunce cap for his absurd attempts to describe\h
all these uaps as Chinese balloons we've had a\h\h

85

00:08:39,780 --> 00:08:46,380

plague of you of UFO Chinese balloons for the last\h
70 years I also want to give disulmerable mention\h\h

86

00:08:46,380 --> 00:08:53,460

to Julian Barnes yet again from the New York Times\h
and he did a story where he's basically I think\h\h

87

00:08:53,460 --> 00:09:00,600

left readers of the New York Times with the very\h
clear impression that the uaps on the west and\h\h

88

00:09:00,600 --> 00:09:06,000

east coast of the US that have been the subject\h
of many military sightings quite disturbing\h\h

89

00:09:06,000 --> 00:09:12,240

incursions by objects doing very very weird things\h
he's trying to suggest or leave his readers with\h\h

90

00:09:12,240 --> 00:09:18,060

the impression that these can now be explained\h
as Chinese incursions as well so he's doing the\h\h

91

00:09:18,060 --> 00:09:23,340

same thing as the Wall Street Journal what an
astonishing coincidence Bryce that the National

92

00:09:23,340 --> 00:09:29,400

Security correspondent for the New York Times and
oh God just down the road the Wall Street Journal

93

00:09:29,400 --> 00:09:35,760

how could they possibly be saying the same thing
do you think perhaps they're talking to the same

94

00:09:35,760 --> 00:09:41,760

people who are desperate to try and hose down
the UAP issue it sure seems to me they're being

95

00:09:41,760 --> 00:09:47,760

spoon-fed something and you know I I think we
need to make clear to our listeners and viewers

96

00:09:47,760 --> 00:09:53,640

we're not saying there aren't Chinese drones out
there and there certainly are Chinese surveillance

97

00:09:53,640 --> 00:10:01,380

balloons those things exist they do not however
explain the actual UAP Phenom that we're actually

98

00:10:01,380 --> 00:10:07,140

seeing so for example that uh report that was
supposed to come out in 2022 but came out last

99

00:10:07,140 --> 00:10:11,460

month in our last and we talked about in our
last show to the best of my knowledge I think

100

00:10:11,460 --> 00:10:18,840

they said there were 171 uh sightings since the
last report that were in The Unexplained category

101

00:10:18,840 --> 00:10:25,200

and uh they had already come up with a weather\h
balloon and weather balloon like entities or a\h\h

102

00:10:25,200 --> 00:10:32,160

balloon-like entities as a category so those 171\h
are still unexplained and I guess uh just to kind\h\h

103

00:10:32,160 --> 00:10:39,780

of talk about that report in with one look at the\h
hindsight of the whole thing it is kind of strange\h\h

104

00:10:39,780 --> 00:10:47,940

that a report has come out that lists only the\h
statistics but none of the details we don't know\h\h

105

00:10:47,940 --> 00:10:53,580

anything about these 171 because the people that\h
collect the data the US government haven't shared\h\h

106

00:10:53,580 --> 00:10:59,520

it we don't know whether these were in the air in\h
space underwater we don't know how fast they went\h\h

107

00:10:59,520 --> 00:11:05,640

we don't know if they went transmedium we're\h
not being shared any of that so I think uh my\h\h

108

00:11:05,640 --> 00:11:12,840

position on the uh the the government report that\h
came out last month is the more I sit with it the\h\h

109

00:11:12,840 --> 00:11:19,560

the more I think it's just insufficient again\h
nobody is expecting any government to sort of\h\h

110

00:11:19,560 --> 00:11:25,680

lay everything they know out without classifying\h
some of it or creating a national security reason\h\h

111

00:11:25,680 --> 00:11:33,960

not to do it on the other hand what we're getting\h
is barely not even minimally acceptable and and\h\h

112

00:11:33,960 --> 00:11:40,500

and hopefully in future reports we're going to\h
hear a little more detail now I want to drill\h\h

113

00:11:40,500 --> 00:11:47,100

down just a little bit into what's going on\h
here Bryce because I I think the public either\h\h

114

00:11:48,000 --> 00:11:54,060

by mistake by the Pentagon or I suspect I dread\h
to suggest this intentionally are being misled\h\h

115

00:11:54,660 --> 00:12:01,740

let's go back to what was being said to Congress\h
uh pretty much this time last year when the two\h\h

116

00:12:01,740 --> 00:12:07,800

intelligence officials Ron Moultrie and Scott Bray\h
suggested that the objects that were being seen\h\h

117

00:12:07,800 --> 00:12:13,740

off the coast to the West Coast of America were\h
drones do you remember that drones line that they\h\h

118

00:12:13,740 --> 00:12:19,620

came up with and they suggested that these objects\h
were possibly Chinese foreign drones that were\h\h

119

00:12:19,620 --> 00:12:27,480

pestering U.S Navy ships 30 to 50 miles out to sea\h
multiple ships being buzzed by dozens of drones at\h\h

120

00:12:27,480 --> 00:12:33,360

one time in an area that had a radius of I think\h
about 100 square miles now there's been some\h\h

121

00:12:33,360 --> 00:12:39,300

interesting response rejoinders from our friends\h
Jeremy Corbell and George Knapp in recent weeks\h\h

122

00:12:39,960 --> 00:12:47,700

some of the Witnesses are Anonymous but one of\h
them is a guy called John guts guterres who's\h\h

123

00:12:47,700 --> 00:12:52,860

a serving active duty Navy commander and I\h
think we should give credit where credit's\h\h

124

00:12:52,860 --> 00:12:58,620

due here Corbell and Nat have got quite a good\h
Scoop here because not only did gut scooters\h\h

125

00:12:58,620 --> 00:13:04,200

acknowledge that there is a genuine concern by\h
pilots about these anomalous objects that are\h\h

126

00:13:04,200 --> 00:13:11,460

being seen he then went into some of the detail\h
of what he's personally aware of himself and also\h\h

127

00:13:11,460 --> 00:13:18,300

from Witnesses and he basically revealed that\h
um Sailors from the USS Russell for example\h\h

128

00:13:18,300 --> 00:13:24,840

were following one of these UFOs as it traveled\h
around the ship before it dramatically shot up\h\h

129

00:13:24,840 --> 00:13:30,720

straight up into the air without making any\h
sound there was also an anonymous eyewitness\h\h

130

00:13:30,720 --> 00:13:38,040

from the USS Paul Hamilton who described how\h
one object shot down a bright white beam of\h\h

131

00:13:38,040 --> 00:13:45,780

light illuminating the ship for two seconds quote\h
it went from Pitch Black to very illuminated very\h\h

132

00:13:45,780 --> 00:13:54,120

quickly it was lsh a jarring and shocking event\h
guts gutaris who's spoken with Sailors from the\h\h

133

00:13:54,120 --> 00:14:01,740

USS Paul Hamilton explained how crew members told\h
him it was as bright as day due to the strength of\h\h

134

00:14:01,740 --> 00:14:09,840

the beam now my friend that doesn't sound like\h
any conceivable drone technology or let's deal\h\h

135

00:14:09,840 --> 00:14:17,160

with it balloon technology that's within current\h
technology seriously and frankly if it we thought\h\h

136

00:14:17,160 --> 00:14:22,860

it was actually Chinese balloon or surveillance\h
technology you'd have to wonder why we didn't try\h\h

137

00:14:22,860 --> 00:14:27,720

to shoot it down overseas if it's interfering\h
with our own stuff which this is this thing\h\h

138

00:14:27,720 --> 00:14:33,720

this is the this is the thing that is I think\h
the glaring lapse by the Congress is that they\h\h

139

00:14:33,720 --> 00:14:38,100

had the opportunity to cross-examine these two\h
intelligence officials and frankly I think they\h\h

140

00:14:38,100 --> 00:14:44,880

were so cowed by the explanation of drones and\h
now the latest one is balloons they're so easily\h\h

141

00:14:44,880 --> 00:14:50,820

confused and I think a good politician a good
questioner should have rejoined it and based he\h\h

142

00:14:50,820 --> 00:14:56,280

said hang on a moment these are objects that\h
are doing things that are completely outside\h\h

143

00:14:56,280 --> 00:15:03,360

known technology of drones they're 50 miles out to\h
sea dozens of them buzzing a ship and I think the\h\h

144

00:15:03,360 --> 00:15:09,000

other thing that came through in the Corbell nap\h
analysis was the explanation that the Congress\h\h

145

00:15:09,000 --> 00:15:15,540

and the public were led to believe was that it\h
was a passing cargo vessel the USS best Strait\h\h

146

00:15:15,540 --> 00:15:23,160

from which these supposed drones were deployed\h
well it turns out that the witnesses interviewed\h\h

147

00:15:23,160 --> 00:15:32,280

by Corbell and nap on their weaponized podcast say\h
they saw no such deployment of drones either to or\h\h

148

00:15:32,280 --> 00:15:40,080

from the best Strait towards the U.S vessels this\h
is still a genuine mystery so the big question\h\h

149

00:15:40,080 --> 00:15:46,560

in my mind is why why is the U.S military and\h
intelligence Services trying to lead the public\h\h

150

00:15:46,560 --> 00:15:52,860

by the nose with tame stories in the Wall Street\h
Journal the New York Times and other Publications\h\h

151

00:15:52,860 --> 00:15:59,160

to lead them to the completely false impression\h
that these objects can be explained as Chinese\h\h

152

00:15:59,160 --> 00:16:06,000

drones or Chinese balloons this is where\h
Congress needs to start drilling down\h\h

153

00:16:06,600 --> 00:16:12,000

it not only do they need to do well first of\h
all I'm very skeptical I can't speculate too\h\h

154

00:16:12,000 --> 00:16:16,920

much about why they're doing that other than the\h
fact I don't think it'll work that I do want to\h\h

155

00:16:16,920 --> 00:16:21,120

do a shout out uh because you brought them up\h
and they've done such good work to our friends\h\h

156

00:16:21,120 --> 00:16:26,400

uh George Knapp and Jeremy Corbell who have a\h
new uh since we were last on I guess they have\h\h

157

00:16:26,400 --> 00:16:30,900

a new podcast of their own called weaponized it's\h
very good they've been doing a lot of great work\h\h

158

00:16:30,900 --> 00:16:35,880

and it's funny I was watching it Ross and one of\h
the things is they at least to get get to sit on\h\h

159

00:16:35,880 --> 00:16:40,980

a set together we're still doing this uh between\h
Australia and the us so that was interesting and\h\h

160

00:16:40,980 --> 00:16:45,540

it's funny as I was watching them one of my family\h
members came through I'm watching on this this\h\h

161

00:16:45,540 --> 00:16:50,760
screen here and I said what do you think and my
family member said that they were looked at Jeremy

162
00:16:50,760 --> 00:16:55,380
and they said he looks like a character from
Sons of Anarchy which I thought was very funny

163
00:16:55,380 --> 00:17:02,220
and they said George Knapp looked like the
silver-haired Johnny Cash and white sneakers

164
00:17:02,220 --> 00:17:08,160
which I also enjoyed and I say this not to make
fun of them because our own fans tell us that you

165
00:17:08,160 --> 00:17:14,040
look like Vladimir Putin and I look like Edward
Norton after a very tough year so we're all we

166
00:17:14,040 --> 00:17:19,800
all get it I'm very happy that they've got this
podcast I'm also uh doing a shout out to Ryan

167
00:17:19,800 --> 00:17:27,540
Graves uh the F-18 pilot who now has a podcast
called um merged I think it's called merged and

168
00:17:27,540 --> 00:17:32,220
they're both good and he's talking to Pilots about
this so there's a lot of good information one of

169
00:17:32,220 --> 00:17:38,400
the things we want to do with new need to know
of course is to uh actually discuss what's out

170
00:17:38,400 --> 00:17:42,660
there and and to track what other people are
saying and and to sort of raise the level so

171

00:17:42,660 --> 00:17:48,060

we're happy to acknowledge them uh they're friends\h
and and we've put them and we've actually in the\h\h

172

00:17:48,060 --> 00:17:54,420

documentary we did last year both Jeremy Corbell\h
and Ryan Graves were on that show okay with the\h\h

173

00:17:54,420 --> 00:17:58,860

Wall Street Journal the New York Times and the\h
Pentagon and intelligence Services eviscerated\h\h

174

00:17:58,860 --> 00:18:06,120

gutted and disemboweled let's move on my friend\h
yeah let's talk about Jacques valet's incredible\h\h

175

00:18:06,120 --> 00:18:14,640

new diary it released the Forbidden silent Silent\h
start again Forbidden Science volume 5. Jacques\h\h

176

00:18:14,640 --> 00:18:22,260

valet is like The Godfather the grandfather of\h
UFO UAP research one of the most respected guys\h\h

177

00:18:22,260 --> 00:18:28,740

in the field he's a Frenchman emigrated to the\h
United States became a Silicon Valley entrepreneur\h\h

178

00:18:29,760 --> 00:18:36,060

um just a brilliant man and has written many\h
many books on the UAP subject and his one of\h\h

179

00:18:36,060 --> 00:18:42,360

his most coveted books is is the ongoing release\h
of his Diaries and all of his it's like waiting\h\h

180

00:18:42,360 --> 00:18:47,820

for the entrails of the the Hades you know you're\h
sitting there trying to read the entrails reading\h\h

181

00:18:47,820 --> 00:18:53,520

what it was that Jacques was talking about 20 years ago and this is this is the latest version

182

00:18:53,520 --> 00:19:02,880

volume Five of his Forbidden Science is just extraordinary because even half of it is true it

183

00:19:02,880 --> 00:19:11,460

not only validates the legitimacy of the Admiral Tom Wilson memo the Wilson Davis notes it suggests

184

00:19:11,460 --> 00:19:18,480

very very strongly that Jacques valet Hal put off Eric Davis all the old favorites were 20 years

185

00:19:18,480 --> 00:19:25,500

ago definitely investigating a crash retrieval mystery inside the US government and that they

186

00:19:25,500 --> 00:19:33,600

had confirmation provided to them by sources that there were hidden in corporate Aerospace projects

187

00:19:33,600 --> 00:19:42,240

involving the retrieval and back engineering of drumroll recovered alien technology incredible

188

00:19:42,240 --> 00:19:49,860

stuff it is incredible stuff and the sourcing is very interesting I mean we obviously the uh

189

00:19:49,860 --> 00:19:56,580

Wilson Davis memo such as it's been called uh has people that have criticized it as people that are

190

00:19:56,580 --> 00:20:01,440

strong Believers of it but I think uh we both agree that as time has gone on there seem to be

191

00:20:01,440 --> 00:20:06,480

more and more pieces that seem to fall into place
about people who corroborate one part or another

192

00:20:06,480 --> 00:20:13,200

and certainly Jacques valet in his uh his fifth
installment of his Forbidden Science has really

193

00:20:13,200 --> 00:20:19,500

uh gone further down that uh you know into that
area where he's talked about the people who told

194

00:20:19,500 --> 00:20:25,800

him things and what they specifically said it's
really quite a read and again here we are talking

195

00:20:26,460 --> 00:20:31,980

about Chinese balloons and whether they're
weather balloons or surveillance balloons

196

00:20:31,980 --> 00:20:39,180

and here's a guy 20 years ago who is being told by
insiders with with important government positions

197

00:20:39,180 --> 00:20:46,560

who are incredible scientists and or military
people all talking about Crash retrievals so

198

00:20:46,560 --> 00:20:53,640

still think we may come this year and next year
to the ultimate uh pot of gold at the end of the

199

00:20:53,640 --> 00:20:59,160

rainbow which is some kind of confirmation that
we in fact do have some kind of exotic technology

200

00:20:59,160 --> 00:21:03,600

I wanted to ask you a question though about
that go ahead sounds like you've got something

201

00:21:03,600 --> 00:21:08,160

to throw in there go ahead well I I thought\h
for the the people in our audience who aren't\h\h

202

00:21:08,160 --> 00:21:12,600

familiar with the Wilson Davis notes I'll just do\h
a quick price yes and the reason why they matter\h\h

203

00:21:13,200 --> 00:21:22,260

so it's part of UAP mythology that a physicist by\h
the name of Dr Eric Davis who now works for the\h\h

204

00:21:22,260 --> 00:21:28,860

federally funded research Development Corporation\h
the Aerospace Corporation before he was working\h\h

205

00:21:28,860 --> 00:21:35,340

there he was working for um Bigelow Robert\h
Bigelow and working in collusion with Howell\h\h

206

00:21:35,340 --> 00:21:41,520

putoff from the National Institute of Discovery\h
Science and back 20 years ago they were looking\h\h

207

00:21:41,520 --> 00:21:48,360

very very seriously at rumors that the United\h
States government had indeed recovered non-human\h\h

208

00:21:48,360 --> 00:21:55,800

technology craft alien spaceships unbelievable\h
stuff and there was a guy called Admiral Tom\h\h

209

00:21:55,800 --> 00:22:01,800

Wilson who was the immediate past boss of the\h
defense intelligence agency who categorically\h\h

210

00:22:01,800 --> 00:22:07,320

denies that this conversation ever took place\h
but these notes from from Jacques valet's\h\h

211

00:22:07,320 --> 00:22:12,480

Diaries make it very very clear that Jacques's
ballet believes that the meeting did take place

212

00:22:13,200 --> 00:22:18,240

basically there's a memo of a conversation that
took place between Eric Davis and Admiral Tom

213

00:22:18,240 --> 00:22:26,400

Wilson where Tom Wilson allegedly described to
Eric Davis in astonishing detail his efforts to

214

00:22:26,400 --> 00:22:33,600

get to the bottom of a hidden UFO crash retrieval
program being reverse engineered inside private

215

00:22:33,600 --> 00:22:38,640

Aerospace with the connivance and knowledge
of only a few select people in the defense

216

00:22:38,640 --> 00:22:45,540

and intelligence services in the U.S government it
all seemed like a wacky conspiracy theory the kind

217

00:22:45,540 --> 00:22:52,860

of deluded tin foil hat nonsense that ufologists
often get taken to pieces on but when you read The

218

00:22:52,860 --> 00:23:00,480

Forbidden Science Diaries by golly brass you know
there's 8th of May 2000 Jacques writes about the

219

00:23:00,480 --> 00:23:07,980

revelations of a former TRW employee an attorney's
friend of hers has gathered her testimony she was

220

00:23:07,980 --> 00:23:14,520

part of a secret reverse engineering project
called zodiac I mean this is amazing because

221

00:23:14,520 --> 00:23:21,360

it's a zodiac it's amazing and it kind of hits\h
home for me um I have a brother I have just one\h\h

222

00:23:21,360 --> 00:23:28,440

sibling a brother who was a TRW employee for many\h
years and has retired now and when I was doing\h\h

223

00:23:28,440 --> 00:23:33,720

Dark Skies I remember uh kidding him and saying\h
hey I know what you're up to you're doing that\h\h

224

00:23:33,720 --> 00:23:39,300

reverse engineering project on on the saucers and\h
I was just kidding because it was the show I was\h\h

225

00:23:39,300 --> 00:23:43,800

working on and he shut me down pretty quickly he\h
said please don't ever talk to me that way again

226

00:23:44,460 --> 00:23:52,080

the other thing I liked about reading all these\h
things because this literally is like reading\h\h

227

00:23:52,080 --> 00:23:57,180

somebody's diary except it's about UFO crash\h
retrievals and so forth so crazy stuff to read\h\h

228

00:23:57,840 --> 00:24:03,300

but one one of the things he said is um Eric\h
and he's talking about Eric Davis has been told\h\h

229

00:24:03,300 --> 00:24:10,140

there are 10 velo-bound volumes at Wright-Patt\h
with Roswell data concerning two crashed quote\h\h

230

00:24:10,140 --> 00:24:20,220

manta ray shaped craft recovered bodies foil type\h
material and a special study by TRW and wow I mean\h\h

231

00:24:20,220 --> 00:24:27,780

you know Jacques valet is a guy that's trying to\h
maintain a very circumspect rational approach to\h\h

232

00:24:27,780 --> 00:24:32,760

this whole topic over his career and he's done\h
a terrific job with that he he doesn't jump to\h\h

233

00:24:32,760 --> 00:24:39,780

conclusions lightly he doesn't uh suffer fools\h
easily and he he tries to tell it like it is so\h\h

234

00:24:40,500 --> 00:24:44,220

for him to be putting out\h
this uh it's it it gets to you\h\h

235

00:24:44,760 --> 00:24:52,320

one of my favorite lines is when John Alexander\h
Colonel John Alexander talks to um uh uh Jacques\h\h

236

00:24:52,320 --> 00:24:59,220

valet about a form of secret access called\h
blue border which can get people killed\h\h

237

00:24:59,820 --> 00:25:06,000

I love this stuff you know it's amazing you know\h
are there really people in private Aerospace or in\h\h

238

00:25:06,000 --> 00:25:11,640

dark Corners in the U.S intelligence and defense\h
Services who are going around whacking people with\h\h

239

00:25:11,640 --> 00:25:19,920

knowledge of the UFO crash retrieval program\h
yeah I mean it's amazing but then it's the the\h\h

240

00:25:19,920 --> 00:25:25,680

really good detail in the diary is the names for\h
example a lot of the names Pete Aldridge who's\h\h

241

00:25:25,680 --> 00:25:34,140

got responsibility for matters relating to DOD\h
acquisition r d Logistics advanced technology um

242

00:25:36,180 --> 00:25:42,300

he uh there's a guy called Bernard hash who's\h
a researcher and he cites how Pete Aldridge\h\h

243

00:25:42,300 --> 00:25:47,760

had responsibility presumably for the crash\h
retrieval program and but he now thinks there\h\h

244

00:25:47,760 --> 00:25:54,660

are four projects not just one distributed among\h
contractor facilities they have the hardware from\h\h

245

00:25:54,660 --> 00:26:01,080

Roswell one of his sources is NASA engineer\h
Larry Lemke so there's all these names coming\h\h

246

00:26:01,080 --> 00:26:09,180

forward and basically there's a description from\h
a general Sheehan when he's shown Sheen when he's\h\h

247

00:26:09,180 --> 00:26:16,140

shown the mj-12 documents which I'm sure you'll\h
love Bryce and he says that he told the story of\h\h

248

00:26:16,140 --> 00:26:23,700

his boss instructing him to take a flight to a\h
certain facility where he quote touched a craft\h\h

249

00:26:23,700 --> 00:26:30,600

I mean this is cool stuff you know it it's funny\h
that you you say well this you'll appreciate the\h\h

250

00:26:30,600 --> 00:26:36,120

Majestic thing uh I think where people should\h
know what Ross is referring to is that in the\h\h

251

00:26:36,120 --> 00:26:42,180

the 80s there were documents released or
leaked if you will somehow that purported

252

00:26:42,180 --> 00:26:48,240

to be a briefing memo created for president Dwight
Eisenhower when he was coming into office and this

253

00:26:48,240 --> 00:26:53,460

so-called briefing memo detailed uh basically
the Roswell crash and a few other things

254

00:26:54,240 --> 00:26:59,280

and what was interesting about it is I took
that and ran with it in the 90s and made this

255

00:26:59,280 --> 00:27:06,240

television series Dark Skies where the the main
set was the Majestic 12 set now of course over

256

00:27:06,240 --> 00:27:10,920

the years people have said well those Majestic
12 documents they can't be real the FBI called

257

00:27:10,920 --> 00:27:18,720

them bogus um and and people have said they they
had to be disinformation uh the thing is here's

258

00:27:18,720 --> 00:27:24,360

people in writing taking Majestic 12 seriously
so Ross the question I have is what are we to

259

00:27:24,360 --> 00:27:30,240

believe here is is it possible that Majestic
12 mj-12 magic at whatever you want to call it

260

00:27:31,020 --> 00:27:35,820

um isn't just a giant disinformation
thing but it might actually have existed

261

00:27:36,720 --> 00:27:41,940

well let's just look at what this what could be
done let's let's just proactively think about

262

00:27:41,940 --> 00:27:48,120

what could be done here to investigate this and
this is where Congress and arrow the pentagon's

263

00:27:48,120 --> 00:27:56,580

UFO investigation body this is where the inquiries
could start so Jacques diary names Jack Sheen John

264

00:27:56,580 --> 00:28:04,260

Joseph Jackson born 1940 is still alive he's 82
years old he's a retired U.S Marine Corps General

265

00:28:04,920 --> 00:28:11,460

he's the former Supreme Allied Commander Atlantic
for NATO and he was commander-in-chief of the U.S

266

00:28:11,460 --> 00:28:20,220

Atlantic command this is the bee's knees a top
Pentagon General who is describing allegedly

267

00:28:20,220 --> 00:28:27,060

he was he was told to take a flight to a certain
facility Jacques valet says presumably a Lockheed

268

00:28:27,060 --> 00:28:35,940

site where he saw and touched a craft now frankly
Bryce if Congress does not call under subpoena

269

00:28:35,940 --> 00:28:44,160

John Jack Sheehan and demand that he answer
truthfully under oath they are not doing their job

270

00:28:44,820 --> 00:28:52,020

well yes and Rush you've made a point that we've
made before and I think it Bears making again

271

00:28:52,020 --> 00:29:00,000

which is there is a way to get these answers\h
you start bringing people in and making them\h\h

272

00:29:00,000 --> 00:29:05,100

testify and then you check their testimony out\h
against the facts as you know them and you start\h\h

273

00:29:05,100 --> 00:29:09,780

getting documents and if we really really wanted\h
to get to the bottom of this we could we could\h\h

274

00:29:09,780 --> 00:29:16,800

do it and the question I have is since we're only\h
getting that little bit of this data currently in\h\h

275

00:29:16,800 --> 00:29:22,620

these reports we're getting because we are only\h
getting the unclassified report do you think\h\h

276

00:29:22,620 --> 00:29:27,840

these classified reports that they're getting in\h
Congress have more of that kind of stuff do you\h\h

277

00:29:27,840 --> 00:29:34,440

think shin and other people actually are being\h
um talked to and I and and hold that thought for\h\h

278

00:29:34,440 --> 00:29:38,820

one second I just want one thing clear to people\h
you may have heard the name Danny she in before\h\h

279

00:29:38,820 --> 00:29:44,460

not the same person Danny Sheehan is someone who's\h
been involved in the political scene in Washington\h\h

280

00:29:44,460 --> 00:29:51,060

and he's also involved in the UFO scene he is\h
not related and is not the General Jackson that\h\h

281

00:29:51,060 --> 00:29:57,480

we're talking about here okay what do I think\h
well okay I I am told that there are people\h\h

282

00:29:57,480 --> 00:30:06,120

who purport to have knowledge of the program who\h
have given and will be giving evidence to Congress\h\h

283

00:30:06,840 --> 00:30:12,780

I don't think Jack Sheehan's been approached um\h
I don't think Bobby inman's been approached l\h\h

284

00:30:12,780 --> 00:30:19,140

see no evidence that the Congress has yet I mean\h
are they do they have the balls to bring senior\h\h

285

00:30:19,140 --> 00:30:24,840

Pentagon officials that might have been involved\h
in a essentially a criminal cover-up do they have\h\h

286

00:30:24,840 --> 00:30:29,640

the balls to bring these people to Washington\h
and put them under oath that's the big question\h\h

287

00:30:29,640 --> 00:30:38,100

but here we have in a diary exactly 20 years\h
ago Jacques filet saying quote Sheehan seemed\h\h

288

00:30:38,100 --> 00:30:44,100

Disturbed at the absence of oversight presumably\h
of the reverse engineering program Private\h\h

289

00:30:44,100 --> 00:30:50,220

Industry is completely in charge he reportedly\h
said which raises the question could the\h\h

290

00:30:50,220 --> 00:30:56,040

projects in question be using defense intelligence\h
agency money without oversight or even knowledge\h\h

291

00:30:56,700 --> 00:31:02,760

he also said he would honor his secrecy oath and
not reveal more but he did acknowledge that he

292

00:31:02,760 --> 00:31:10,620

found a nine billion dollar discrepancy in some
budgets which led him to uncover the project so

293

00:31:10,620 --> 00:31:17,220

this is a separate defense official from Admiral
Tom Wilson saying that he investigated and he

294

00:31:17,220 --> 00:31:24,360

tells either Jacques valet or Bernard hash that he
found a secret program inside the Pentagon inside

295

00:31:24,360 --> 00:31:30,540

the intelligence Services which is recovering
alien technology now you can call us tinfoil had

296

00:31:30,540 --> 00:31:35,760

crazies as much as you like Bryce but when
you have evidence like this this is called

297

00:31:35,760 --> 00:31:41,160

evidence this is admissible in a court of law I'm
an attorney I'm a trained attorney I know what I'm

298

00:31:41,160 --> 00:31:46,860

talking about this is not hearsay this is somebody
who's told a witness this and it's been passed on

299

00:31:46,860 --> 00:31:52,800

to Jacques filet this would be tenderable in
a court if the Congress is not asking for this

300

00:31:52,800 --> 00:31:58,260

evidence and demanding that these Witnesses be
deposed under oath they're not doing their job

301

00:31:58,260 --> 00:32:04,320

you know and and misplacing nine billion dollars\h
I don't know about you Ross but when my wife and\h\h

302

00:32:04,320 --> 00:32:10,740

I try to balance the checkbook at the end of the\h
month and we're off by 3.72 cents we spend hours\h\h

303

00:32:10,740 --> 00:32:16,080

trying to figure that out so when you misplace\h
nine billion dollars uh I think you got to\h\h

304

00:32:16,080 --> 00:32:20,940

look into that and figure out what's going on the\h
other thing I noticed about the the book and I do\h\h

305

00:32:20,940 --> 00:32:25,980

encourage people uh you know we can only touch the\h
highlights but the book is is fascinating because\h\h

306

00:32:25,980 --> 00:32:30,120

it's a different kind of thing from Jacques but\h
what I thought was interesting is Jacques has\h\h

307

00:32:30,120 --> 00:32:35,700

distinguished himself with his research and and\h
opinions and conclusions and books over the years\h\h

308

00:32:35,700 --> 00:32:41,220

for being the guy that wasn't going to go into\h
the nuts and bolts that he thought that there\h\h

309

00:32:41,220 --> 00:32:46,440

was something a little more paranormal going on\h
that could explain this that it couldn't just\h\h

310

00:32:46,440 --> 00:32:52,080

simply be somebody from another planetary system\h
is shown up here and and and is flying spacecraft\h\h

311

00:32:52,080 --> 00:32:58,260

around so for him to actually be talking about the craft and uh going to touch a craft and and

312

00:32:58,260 --> 00:33:04,320

reverse engineering is kind of a departure in some respects but it does show what he was being told

313

00:33:04,320 --> 00:33:11,400

and um you know recently uh just this last week I've been re-reading John keel's wonderful book

314

00:33:11,400 --> 00:33:18,120

um operation Trojan Horse and um I think it is kind of intriguing because he is sort of the

315

00:33:18,120 --> 00:33:25,080

the the the ancestor if you will of the Jacques valet uh take that there's got to be something

316

00:33:25,080 --> 00:33:33,540

else going on that may be far weirder than we can even imagine and um so I just feel like we

317

00:33:33,540 --> 00:33:40,020

are still circling an answer because every once in a while we go oh my God it's got to be nuts and

318

00:33:40,020 --> 00:33:46,320

bolts and then other times we hear things and we say well wow nuts and bolts wouldn't explain that

319

00:33:46,320 --> 00:33:52,320

one what exactly are we talking about so I feel like we're just starting to get this onion peeled

320

00:33:52,320 --> 00:33:57,840

a little bit and when we finally get a few more layers off uh you know literally strap yourself

321

00:33:57,840 --> 00:34:02,820

in put your seat belt on and and we're going to\h
go on a rocket ship ride it's going to be crazy\h\h

322

00:34:02,820 --> 00:34:07,260

I think we should keep on moving on but I think\h
we should put it on record here for this program\h\h

323

00:34:07,260 --> 00:34:15,660

that that the validity of the Admiral Wilson memo\h
the Eric Davis Wilson memo notes is now Beyond\h\h

324

00:34:15,660 --> 00:34:22,140

question because Jacques valet actually reports\h
in his diary that he's aware that Tom Wilson\h\h

325

00:34:22,140 --> 00:34:28,080

the Admiral went to the special Access program\h
oversight committee and raised Hill he was livid\h\h

326

00:34:28,080 --> 00:34:33,840

about the lack of oversight and he told Eric Davis\h
but he was told that if he didn't drop it he Blues\h\h

327

00:34:33,840 --> 00:34:40,440

two stars and would never be the DIA director and\h
it's really interesting because I've seen the the\h\h

328

00:34:40,440 --> 00:34:48,360

Admiral Wilson memo and that is exactly what the\h
memo says and then Eric Admiral Wilson told me\h\h

329

00:34:48,360 --> 00:34:55,800

that he went on and became an executive at ATK\h
missiles in Minnesota and this is what the diary\h\h

330

00:34:55,800 --> 00:35:02,040

records it says that Eric's been told by Admiral\h
Wilson that he's taking over as president of atq\h\h

331

00:35:02,040 --> 00:35:09,180

missiles at Edina Minnesota he's being polygraphed\h
and may be concerned to be accused of unknowingly\h\h

332

00:35:09,180 --> 00:35:15,900

leaking privileged information so it basically\h
underlines that Admiral Tom Wilson is a decent\h\h

333

00:35:15,900 --> 00:35:20,820

man that he's doing his level best to try and\h
get this story out to good people somebody like\h\h

334

00:35:20,820 --> 00:35:25,680

Eric Davis with a security classification he's\h
not leaking this outside the National Security\h\h

335

00:35:25,680 --> 00:35:32,100

infrastructure he's raising concerns that this is\h
a program which is possibly operating illegally\h\h

336

00:35:32,100 --> 00:35:38,880

possibly criminal without congressional oversight\h
20 years ago this was being raised and here we are\h\h

337

00:35:38,880 --> 00:35:45,720

20 years later and Congress is now just starting\h
to get the momentum to start asking questions\h\h

338

00:35:45,720 --> 00:35:51,840

about this this really matters because one of\h
the things that comes through in Jack's Diaries\h\h

339

00:35:51,840 --> 00:35:59,040

is the allegation that the program was inside\h
the government at some point but under Nixon\h\h

340

00:35:59,040 --> 00:36:06,660

president Nixon it got transferred to a private\h
contractor in order to secure it now this is what\h\h

341

00:36:06,660 --> 00:36:12,180

Congress is investigating this is why the New York Times The Wall Street Journal shouldn't be

342

00:36:12,180 --> 00:36:17,580

deluding themselves with the red herrings that are being fed their way about Chinese balloons

343

00:36:18,600 --> 00:36:24,780

they need to start engaging with this issue because this is what this is is the story of a

344

00:36:24,780 --> 00:36:31,740

chronic failure of Legacy Media mainstream media in America have completely dropped the ball on

345

00:36:31,740 --> 00:36:37,740

investigating this issue and frankly it's because the National Security defense correspondents are

346

00:36:37,740 --> 00:36:44,220

skills to the Pentagon PR people that they're far too supplicant far too obedient because

347

00:36:44,220 --> 00:36:48,720

they know that if they rock the boat by asking questions about this stuff they're going to

348

00:36:48,720 --> 00:36:54,540

get smacked they're going to get cut off from the information flows and this is where Congress needs

349

00:36:54,540 --> 00:37:00,840

to cut through and this is where aggressive media questioning needs to begin it's absolutely vital

350

00:37:01,680 --> 00:37:06,540

someday and probably it won't be you and I riding this but someday historians are going to be

351

00:37:06,540 --> 00:37:12,240

looking back on this period in fact the whole last
80 years but in particular this area and they're

352

00:37:12,240 --> 00:37:19,140

going to be trying to make sense of this how is it
a secret of this magnitude was possibly kept all

353

00:37:19,140 --> 00:37:25,980

these years who were the people that that didn't
do their jobs was it just it was it could include

354

00:37:25,980 --> 00:37:34,560

suspects like Academia it could include uh the
the Legacy Media it includes the I mean let's face

355

00:37:34,560 --> 00:37:39,840

it we've got the same argument going on right now
20 years ago uh Jacques valet is being told about

356

00:37:39,840 --> 00:37:45,600

Crash wreckage and here we are 20 years later and
we're still trotting out the balloon stories so

357

00:37:46,200 --> 00:37:52,500

um it's going to be a story just about not just
what the truth is but how the truth was prevented

358

00:37:52,500 --> 00:37:58,740

from being widely circulated among the population
of this planet something that is just uh it's not

359

00:37:58,740 --> 00:38:04,320

good it's not been a it's not been our finest
chapter now speaking about issues that continue

360

00:38:04,320 --> 00:38:10,620

to Bubble along and consistently get ignored by
the mainstream media I recently tweeted about

361

00:38:10,620 --> 00:38:17,940

an incident that allegedly happened in December\h
last year involving a a triangular UAP that was\h\h

362

00:38:17,940 --> 00:38:25,200

seen over a Pennsylvania nuclear power station at\h
a place called Limerick and we basically reported\h\h

363

00:38:25,200 --> 00:38:31,980

that a witness at Pottstown the nearby Village\h
reported seeing a silent triangle-shaped object\h\h

364

00:38:31,980 --> 00:38:39,840

with three dim orange lights slowly moving towards\h
the Limerick Generating Station at late at night\h\h

365

00:38:39,840 --> 00:38:45,840

about 9 40 pm on December the 9th last year now\h
this is a very typical Story I mean our friend\h\h

366

00:38:45,840 --> 00:38:53,160

Robert Hastings the author of that fantastic\h
book UFOs and nukes has reported how ICBM sites\h\h

367

00:38:53,160 --> 00:38:59,520

all over the United States nuclear power stations\h
nuclear processing centers bomb making centers all\h\h

368

00:38:59,520 --> 00:39:05,580

over the U.S and indeed places around the world\h
have been visited by Craft so I thought this was\h\h

369

00:39:05,580 --> 00:39:10,560

interesting because yet again apart from a little\h
report in the local newspaper not picked up by\h\h

370

00:39:10,560 --> 00:39:17,760

mainstream media and I got a very very interesting\h
letter a lovely man called Nick Shaw contacted\h\h

371

00:39:17,760 --> 00:39:23,460

me and he told me that he had seen an identical
object and I think we've got a photograph

372

00:39:23,460 --> 00:39:29,340

here Bry so while I'm talking about this sighting
we can put it up on screen he told me that in late

373

00:39:29,340 --> 00:39:35,220

January 2019 his wife Anna and his daughter Olivia
were heading out for dinner at a local restaurant

374

00:39:35,220 --> 00:39:42,780

uh in Pennsylvania um they they noticed about
a mile away three very bright white lights on

375

00:39:42,780 --> 00:39:48,720

the horizon way too low to be a plane wasn't
moving particularly fast as he got closer the

376

00:39:48,720 --> 00:39:54,420

light started to dim became an orange glow he was
right underneath it driving it was approximately

377

00:39:54,420 --> 00:40:00,840

100 feet in the air it was a triangle Boomerang
shape it had three lights at the points of the

378

00:40:00,840 --> 00:40:06,540

triangle approximately 80 feet in length he put
his window down as he's driving underneath it

379

00:40:06,540 --> 00:40:12,180

and there's no sound whatsoever at this point
the lights go from Orange to light blue and it

380

00:40:12,180 --> 00:40:17,700

starts moving backwards like it's following us
Nick's wife is so freaked out she starts yelling

381

00:40:17,700 --> 00:40:22,260

at him to get away from it he's fascinated but he\h
didn't want to scare his eight-year-old daughter\h\h

382

00:40:22,260 --> 00:40:29,460

and then as he's driving away he noticed in the\h
different distance two more exact triangles in\h\h

383

00:40:29,460 --> 00:40:34,680

the sky approximately half a mile from each\h
other now I spoke to Nick and I said do you\h\h

384

00:40:34,680 --> 00:40:39,420

mind if I name you because it does help give\h
credibility to your sighting and he said yes\h\h

385

00:40:39,420 --> 00:40:44,700

and and like a lot of people he said why should\h
people feel embarrassed or ashamed about talking\h\h

386

00:40:44,700 --> 00:40:50,100

about this stuff it's important that people come\h
forward with this evidence so that's just one\h\h

387

00:40:50,100 --> 00:40:55,440

sighting over a nuclear facility that frankly\h
is another mystery but it's got corroboration\h\h

388

00:40:56,340 --> 00:41:00,720

one mystery after another by the way I'm not I\h
don't think we have a photo I think we have some\h\h

389

00:41:00,720 --> 00:41:06,180

artwork on this thing and I'll make sure that uh\h
the the those will be in the video version of this\h\h

390

00:41:06,180 --> 00:41:10,860

thing for those of you who are listening um also\h
something that I thought was really interesting\h\h

391

00:41:10,860 --> 00:41:16,260

you're talking about the connection between UFOs\h
and nukes and Hastings book well the most famous\h\h

392

00:41:16,260 --> 00:41:21,120

case the one that has been talked about over and\h
over is the one that happened at Malmstrom Air\h\h

393

00:41:21,120 --> 00:41:27,480

Force Base I believe in 1967 and that's the one\h
that uh Robert Salas has testified about and it's\h\h

394

00:41:27,480 --> 00:41:33,480

a really good case uh and I won't belabor it here\h
you can look it up frankly Malmstrom Air Force Base\h\h

395

00:41:33,480 --> 00:41:40,560

Russ correct me if I'm wrong but I think that\h
the Chinese balloon that was picked up in Montana\h\h

396

00:41:41,400 --> 00:41:47,100

was in the vicinity of the Malmstrom Air Force\h
Base it certainly flew over that area and I don't\h\h

397

00:41:47,100 --> 00:41:52,320

think it's any coincidence because apparently\h
this Chinese balloon was maneuverable there's\h\h

398

00:41:52,320 --> 00:41:57,720

claims now that it had propellers or some kind\h
of propulsion system isn't it funny though \h\h

399

00:41:57,720 --> 00:42:02,580

mean isn't it hilarious that that so much\h
media energy and attention in the last week\h\h

400

00:42:02,580 --> 00:42:07,440

has been directed at these balloons that frankly\h
it's quite obvious now the Pentagon was caught\h\h

401

00:42:07,440 --> 00:42:13,080

napping on the only reason now belatedly that
they've acknowledged they've come from China is

402

00:42:13,080 --> 00:42:18,540

I think and this is what melon suggests as well
they've retroactively gone back through their

403

00:42:18,540 --> 00:42:24,480

data and realized that their filtering system
excluded these from Warning Systems and when

404

00:42:24,480 --> 00:42:28,680

they've looked they've seen that their systems
have picked up this anomalous balloon coming

405

00:42:28,680 --> 00:42:34,800

through their airspace and because they're
so focused on icbms and cruise missiles for

406

00:42:34,800 --> 00:42:41,880

good reason for good reason they're not picking up
these uaps and if only the same level of attention

407

00:42:41,880 --> 00:42:48,660

was given to the Spheres that are being seen by
military Pilots off the West and East Coast and

408

00:42:48,660 --> 00:42:54,060

also my friend let's mention our friends corbel
and nap again because they've had a splendid month

409

00:42:54,600 --> 00:43:00,420

they had incredible Vision in one of the earlier
episodes of their podcast about the so-called

410

00:43:00,420 --> 00:43:09,360

mosul orb which is a stunning photograph of what
looks like a metallic orb hovering over a war zone

411

00:43:09,360 --> 00:43:18,540

the city of mosul in Northern Iraq in 2016 taken\h
by an American spy plane and part of the original\h\h

412

00:43:18,540 --> 00:43:24,900

classified briefing given two congressmen and\h
U.S government officials by the UAP task force\h\h

413

00:43:24,900 --> 00:43:32,160

it's only a still frame but what it shows is\h
quite significant it shows a metallic sphere\h\h

414

00:43:32,160 --> 00:43:39,300

that oh gosh my friend seems to Bear a resemblance\h
to something else we've shown I think for a minute\h\h

415

00:43:39,300 --> 00:43:46,860

here wait a minute is that the thing that you\h
reported on in your channel 7 documentary funny\h\h

416

00:43:46,860 --> 00:43:53,460

you should say my friend I have been overwhelmed\h
one with critics giving me a hard time for telling\h\h

417

00:43:53,460 --> 00:43:59,640

that story and and then because I've known things\h
like this are coming and there's more to come\h\h

418

00:44:00,240 --> 00:44:07,680

I'm taking the spher's story very very seriously\h
indeed I I do think that there is a phenomena\h\h

419

00:44:07,680 --> 00:44:13,440

which is being recorded on video and on still\h
photography by military all over the world\h\h

420

00:44:13,440 --> 00:44:20,100

including in my country where metallic spherical\h
orbs are coming up right close to military craft\h\h

421

00:44:20,100 --> 00:44:25,500

and literally manifesting themselves allowing
themselves to be photographed and seen in

422

00:44:25,500 --> 00:44:32,820

increasing frequency and the fascinating thing
in great analysis done by our friend Christopher

423

00:44:32,820 --> 00:44:39,480

sharp from Liberation times is he pointed out that
um from his sources the object had no apparent

424

00:44:39,480 --> 00:44:46,020

Flight Services no discernible propulsion uh an
intelligence source with operational knowledge of

425

00:44:46,020 --> 00:44:51,960

the footage he says said it was filmed using
a full motion video meaning it also captured

426

00:44:51,960 --> 00:44:58,560

infrared and other data and so they can't see any
visible heat Source that's driving this object

427

00:44:59,160 --> 00:45:06,600

and more importantly um both Chris and others have
told me I'm aware of sources in the intelligence

428

00:45:06,600 --> 00:45:11,760

Community as well who've got in my ear that
these spheres these metallic objects have

429

00:45:11,760 --> 00:45:18,900

been reported many times by U.S military and
Australian military Pilots over the Middle East

430

00:45:18,900 --> 00:45:26,340

it's a very interesting thing that as Chris has
reported previously drones might be operating 25

431

00:45:26,340 --> 00:45:31,560

000 feet up in the air and all of a sudden
an operator will see a little orb go flying

432

00:45:31,560 --> 00:45:38,100

through the viewfinder now this is the sort of
stuff that frankly the mainstream media is being

433

00:45:38,100 --> 00:45:43,800

willfully blind to and allowing the public to be
completely misled with the notion that they're

434

00:45:43,800 --> 00:45:51,060

either Chinese drones or Chinese balloons believe
me mate if the Chinese had technology such as that

435

00:45:51,060 --> 00:45:55,980

which is being described by military pilots
who are speaking to people like Ryan Graves

436

00:45:55,980 --> 00:46:04,140

Jeremy Corbell George Knepp and on a more guided
basis to me because I'm a foreigner if this was

437

00:46:04,140 --> 00:46:09,540

really Chinese technology don't you think China
or Russia would have used this technology by now

438

00:46:09,540 --> 00:46:15,360

this is the ridiculous thing behind all of this
you use it we'd be in a world of trouble listen

439

00:46:15,360 --> 00:46:20,520

I just want to ask you you have laid eyes
on one of something that may be what that is

440

00:46:21,480 --> 00:46:26,460

um the so-called bets balls that you looked at
were they about the size of a basketball would

441

00:46:26,460 --> 00:46:32,640

you say well there's different sizes I mean\h
we know from I mean I I'm now aware of seven\h\h

442

00:46:32,640 --> 00:46:37,980

people around the world who've got possession of\h
these metallic balls and we're not saying they're\h\h

443

00:46:37,980 --> 00:46:42,780

alien I know I can just hear the Skeptics going\h
oh gosh they're not saying they're alien they're\h\h

444

00:46:42,780 --> 00:46:48,480

now saying they're ET we are not always saying\h
is that this is a mystery and that these objects\h\h

445

00:46:48,480 --> 00:46:58,020

require investigation let's think about something\h
okay here is a metallic sphere you know not so big\h\h

446

00:46:58,860 --> 00:47:07,200

it's round it's metallic and it's out there at\h
25 000 feet flying around very fast how does that\h\h

447

00:47:07,200 --> 00:47:12,240

happen does anybody know anything currently\h
that's doing anything like that I don't know\h\h

448

00:47:12,240 --> 00:47:16,620

but don't look over there look at the Chinese\h
balloons no no don't look at the Spheres look at\h\h

449

00:47:16,620 --> 00:47:21,060

the Chinese balloons bro seriously I'm sorry if\h
I made it clear we should not be looking at the\h\h

450

00:47:21,060 --> 00:47:26,880

Spheres Bryce we should be looking at the Chinese\h
balloons or the Chinese drones yeah listen it's a\h\h

451

00:47:26,880 --> 00:47:32,280

magician's trick and they're still trying it but\h
I want to know what those fears are they're very\h\h

452

00:47:32,280 --> 00:47:37,680

they're obviously physical objects you've seen\h
them at least some of them yeah we've heard about\h\h

453

00:47:37,680 --> 00:47:42,900

others and now we've got photographs of them\h
actually in Flight uh I think it's time that\h\h

454

00:47:42,900 --> 00:47:47,460

we focus a little bit of our attention on that\h
and that's where I kind of Wonder all right if\h\h

455

00:47:47,460 --> 00:47:51,900

I'm on the Senate intelligence committee and\h
I'm getting classified briefings and all that\h\h

456

00:47:51,900 --> 00:47:56,640

don't you think they'd want to know what those\h
things are too and maybe they do maybe they're so\h\h

457

00:47:56,640 --> 00:48:01,260

highly classified we don't know Chinese balloons\h
brush Chinese balloons seriously who gives the\h\h

458

00:48:01,260 --> 00:48:06,840

[h__\h] about Buddy what are they chest fears\h
seriously I mean Chinese balloons China China

459

00:48:06,840 --> 00:48:16,800

the name of the witness uh uh that saw the um\h
the overflight at the nuke near the nuclear plant\h\h

460

00:48:16,800 --> 00:48:22,620

what was that man's name again Nick sure Nick\h
sure I want to thank Nick Shore for letting us\h\h

461

00:48:22,620 --> 00:48:27,960

use his name I think that's an important thing\h
uh I do believe that transparency is something\h\h

462

00:48:27,960 --> 00:48:34,140

we all aspire to uh clearly when you're doing\h
investigative journalism there are times where\h\h

463

00:48:34,140 --> 00:48:39,240

you have to protect sources and that seems to\h
be semi-different I think what we have to do\h\h

464

00:48:39,240 --> 00:48:45,780

here is when people are willing to step forward\h
and put aside the the potential stigma that has\h\h

465

00:48:45,780 --> 00:48:50,280

always covered the subject we need to give them\h
a big round of applause and I say to Nick thank\h\h

466

00:48:50,280 --> 00:48:55,320

you and I hope that other people when they\h
come forward will in fact use their names uh\h\h

467

00:48:55,320 --> 00:49:01,380

do the best they can to record uh what they\h
have seen uh and do it contemporaneously and\h\h

468

00:49:01,380 --> 00:49:08,760

do it in detail and and write it down and share it\h
because that's how we get data and the more data\h\h

469

00:49:08,760 --> 00:49:14,460

you get the more you start to see the outlines of\h
what this mystery really is and again as Ross said\h\h

470

00:49:14,460 --> 00:49:21,000

we're not saying that we know exactly what this\h
is we are saying however that it is a mystery\h\h

471

00:49:21,000 --> 00:49:27,840

it's a big mystery and some of the things that are
coming uh from the Department of Defense currently

472

00:49:27,840 --> 00:49:34,920

don't seem like they're taking it very seriously
and I'm not sure why and I think they should the

473

00:49:34,920 --> 00:49:41,400

other big deal in the last couple of weeks Bryce
has been the fact that Jay Stratton the former

474

00:49:41,400 --> 00:49:48,060

headers the pentagon's UFO program essentially
Louis zondo's boss at one stage uh has come

475

00:49:48,060 --> 00:49:54,780

out of the shadows and he's spoken uh publicly
about his work basically uh he's the only guy

476

00:49:54,780 --> 00:50:02,520

who's worked across both the advanced Aerospace
weapon systems application program warsap atip

477

00:50:02,520 --> 00:50:10,980

the advanced aerial threats identification program
the uaptf and also an arrow the existing Pentagon

478

00:50:10,980 --> 00:50:18,780

body investigating uaps and this is a guy who's
a very very senior career intelligence agent

479

00:50:18,780 --> 00:50:24,600

basically telling and now working in private
Aerospace with a company called Radiance

480

00:50:24,600 --> 00:50:31,860

Technologies in Huntsville Alabama he's basically
saying the mere fact and he didn't actually say a

481

00:50:31,860 --> 00:50:37,080

huge amount in his interview with George Knepp but
basically what he did say was significant for the

482

00:50:37,080 --> 00:50:42,540

simple fact that he was basically acknowledging
that there is a reality there to the UAP mystery

483

00:50:42,540 --> 00:50:47,580

that is worthy of investigation and just to
underline what you were just saying he was really

484

00:50:47,580 --> 00:50:55,080

emphasizing the importance of data the importance
of collecting good reliable data on the phenomenon

485

00:50:55,080 --> 00:51:01,320

and you know it really does behoove the Congress
now to start putting pressure on the Pentagon

486

00:51:01,320 --> 00:51:06,420

now that we've seen this appalling National
Security Labs where they were caught napping

487

00:51:06,420 --> 00:51:12,720

with a balloon flying over their Aerospace it
really does emphasize the importance of looking at

488

00:51:12,720 --> 00:51:18,600

anomalous aerial phenomena and this is what Jade
Stratton was telling you know he was basically

489

00:51:18,600 --> 00:51:24,300

saying that there has been a Pentagon problem
where there were people of extreme religious

490

00:51:24,300 --> 00:51:30,900

beliefs inside the Pentagon who felt that the
study of APS was satanic or demonic and and

491

00:51:30,900 --> 00:51:36,360

basically he knows that this attitude still exists\h
among some but he basically says they're the Old\h\h

492

00:51:36,360 --> 00:51:41,880

Guard and He suggests that things are changing\h
in the Pentagon I was actually really heartened\h\h

493

00:51:41,880 --> 00:51:46,800

by Jay's interview he didn't say a huge amount\h
in this first appearance but I suspect there's\h\h

494

00:51:46,800 --> 00:51:53,880

more to come but the mere fact of his appearing is\h
momentous it's quite significant to see somebody\h\h

495

00:51:53,880 --> 00:52:00,360

like him coming forward and acknowledging the\h
reality and poo pooing the explanations of drones\h\h

496

00:52:00,360 --> 00:52:05,700

or balloons is a sufficient explanation for what's\h
being seen off the Western east coast of America\h\h

497

00:52:06,420 --> 00:52:13,140

I I really enjoyed hearing from him although\h
I have to say he was he was guarded uh I think\h\h

498

00:52:13,140 --> 00:52:18,120

that would be a fair way to describe what he was\h
saying uh because clearly there's some things he\h\h

499

00:52:18,120 --> 00:52:25,920

can't say but what what really got to me is he\h
was Lou Elizondo's boss right and I just would\h\h

500

00:52:25,920 --> 00:52:31,860

ask people who are familiar with this subject and\h
I've heard Lou Elizondo uh in his many interviews\h\h

501

00:52:32,940 --> 00:52:39,780

okay Lou Elizondo has sent said some things that
you may think are shocking or crazy or way out

502

00:52:39,780 --> 00:52:45,600

there but he said him repeatedly uh talking about
Crash wreckage and his belief in it and things

503

00:52:45,600 --> 00:52:52,620

like that so if this guy was his boss he knows
all that and even more and uh I I hope that you

504

00:52:52,620 --> 00:52:58,140

are right I hope that he will be talking more and
if he's not talking more to us I hope he's telling

505

00:52:58,140 --> 00:53:04,740

Senators what he knows and and uh and moving this
uh closer down the field so we can we can get some

506

00:53:04,740 --> 00:53:09,600

real answers but yeah a lot of things going on
and I just wanted I we're getting to the end so

507

00:53:09,600 --> 00:53:16,560

I just want to put one thing out there in our
uh two uh podcasts ago we said we each read a

508

00:53:16,560 --> 00:53:20,520

letter Ross read a letter that someone had written
him and I read a letter that I had gotten during

509

00:53:20,520 --> 00:53:27,900

the Dark Skies series and we were gonna explain
them more uh We've run out of time we are going

510

00:53:27,900 --> 00:53:32,400

to get to that in a future episode but this
time we just thought we had to get back on the

511

00:53:32,400 --> 00:53:37,380

um on the playing field and and try to get some
stuff out there so yeah we'll be back with all

512

00:53:37,380 --> 00:53:44,040

of that in the future yeah I have to say if if the
current pace of interesting news on the UAP issued

513

00:53:44,040 --> 00:53:50,520

in 2023 continues this is going to be a momentous
year I mean just last weekend I was a guest at the

514

00:53:50,520 --> 00:53:58,020

limiter inaugural Symposium on uaps that was run
by the society for UAP studies and it was a very

515

00:53:58,020 --> 00:54:03,420

interesting event because it was attended by so
many high-powered academics from all around the

516

00:54:03,420 --> 00:54:11,400

world who refreshingly were engaging with the
UAP topic with seriousness and not ridicule and

517

00:54:11,400 --> 00:54:15,900

the other thing that I want to put on record as
well is full marks to Scientific American one of

518

00:54:15,900 --> 00:54:22,140

the greatest scientific journals in the world they
made a half decent stab this week at the UAP issue

519

00:54:22,140 --> 00:54:28,980

acknowledging the importance in an article of
proper data collection things are changing Bryce

520

00:54:28,980 --> 00:54:35,220

there's a real mood change going on and I think
we're all waiting to see now what comes up in

521

00:54:35,220 --> 00:54:41,460

Congress you know I like data as much as the next person but I also like history I like the history

522

00:54:41,460 --> 00:54:48,060

that shows that this so-called data that we're getting right now has happened before and

523

00:54:48,060 --> 00:54:54,960

continually has happened over now eight decades uh final thing to close on you talked about the

524

00:54:54,960 --> 00:55:01,200

Symposium you were at just so people uh know I'm going to be speaking at the con uh the contact in

525

00:55:01,200 --> 00:55:09,000

the desert um Conference in June and also at the Roswell Festival in July and uh I'll try to bring

526

00:55:09,000 --> 00:55:15,000

something fresh and original to both of those speeches so we'll uh look forward to that so hang

527

00:55:15,000 --> 00:55:21,120

on everybody I think 2023 is going to be a very momentous and Rocky ride but it's an exciting time

528

00:55:21,120 --> 00:55:28,200

in covering the UAP issue because frankly nobody else is the Legacy Media as we've recorded here

529

00:55:28,200 --> 00:55:35,400

are completely failing to do their job and I think as we've explained today you the public need to be
