

NEED TO KNOW WITH COULTHART & ZABEL

NEED TO KNOW LIVE!
"99 CHINESE BALLOONS?"

WEDNESDAY, FEBRUARY 15, 3:00PM PT

1
00:00:00,000 --> 00:00:05,520

or if you will but the other was the last show\h
that we did which was about the first Chinese\h\h

2
00:00:05,520 --> 00:00:11,340

balloon the one that got shot down over South\h
Carolina was posted for no more than two hours\h\h

3
00:00:11,340 --> 00:00:17,520

before we shot another one down in Alaska and\h
the next day we shot another one down in in\h\h

4
00:00:17,520 --> 00:00:22,980

Canada and the next day we shot one down over Lake\h
Huron so basically we thought this seems to be a\h\h

5
00:00:22,980 --> 00:00:28,140

fluid situation and maybe it would be good for\h
us to be ready to talk to people and to ourselves\h\h

6
00:00:28,140 --> 00:00:35,160

so right now um I'm hearing something else this\h
is live I don't know where it's coming from but\h\h

7
00:00:35,160 --> 00:00:42,540

I'm going to stop it I'm getting rid of it okay\h
let me bring in Ross Colt art out of Sydney Ross\h\h

8
00:00:43,200 --> 00:00:48,840

I hope you are suffering fewer technical issues\h
than I am right now how you doing mate I'm good\h\h

9
00:00:48,840 --> 00:00:55,380

I'm very good and boy what a couple of weeks\h
brush this has been absolutely extraordinary\h\h

10
00:00:55,380 --> 00:01:03,060

okay so let's let's quickly explain what's going\h
on yes we know that on the 4th of February a\h\h

11
00:01:03,060 --> 00:01:09,660
Chinese spy balloon was done at sixty thousand feet we know that a car-sized object was downed

12
00:01:09,660 --> 00:01:16,020
near Dead Horse Alaska on the 10th of February at forty thousand feet we know that a cylindrical

13
00:01:16,020 --> 00:01:23,100
object was down in the Yukon on in Alaska on the 11th of February also at 40 000 feet there's talk

14
00:01:23,100 --> 00:01:30,540
of a metal payload seen hanging from that object and then fourth we've we're told that an octagon

15
00:01:30,540 --> 00:01:36,900
shaped object was downed over Lake Huron in the United States near the great lakes on the 13th

16
00:01:36,900 --> 00:01:47,280
of February at 20 000 feet this is the first time in norad's 65-year history that the United States

17
00:01:47,280 --> 00:01:55,680
has ever brought down an object over U.S airspace with military weaponry it's it's a historic moment

18
00:01:55,680 --> 00:02:02,460
it's also the first time frankly price that I've heard the White House Press Secretary using the

19
00:02:02,460 --> 00:02:10,320
word alien responding to an absolute Avalanche of media questions about what this is and I

20
00:02:10,320 --> 00:02:15,600
have to say the general theme of my comments today are going to be that the Pentagon and

21
00:02:15,600 --> 00:02:23,400
the White House's response to this whole issue uh
illogical nonsensical and catastrophic in terms

22
00:02:23,400 --> 00:02:29,940
of media messaging there is something seriously
wrong with what's going on at the moment I don't

23
00:02:29,940 --> 00:02:35,280
disagree with you at all and actually when I
saw the White House Press Secretary using the

24
00:02:35,280 --> 00:02:41,280
word alien and extraterrestrial I thought you know
how did I get onto HBO it looks like I'm watching

25
00:02:41,280 --> 00:02:46,560
Independence Day or something uh it was shocking
to say the least and I think the interesting thing

26
00:02:46,560 --> 00:02:52,860
that I want to just point out where we stand
today as we do this live is that the media in

27
00:02:52,860 --> 00:02:59,100
some respects has just moved on I was looking at
NPR and they had 21 stories that were laid out on

28
00:02:59,100 --> 00:03:04,320
their home page and not one of them not one of
them had anything to do when I looked at it uh

29
00:03:04,320 --> 00:03:10,680
with uh the shoot Downs the other thing I'll just
respond to that quickly it may be that the media

30
00:03:10,680 --> 00:03:16,380
are trying to take this off the agenda but boy I
can tell you just from the volume of interest and

31
00:03:16,380 --> 00:03:21,780
the comments that we're already getting on site\h
here I just the I've never ever in my career in\h\h

32
00:03:21,780 --> 00:03:26,760
journalism have had a response such as what we're\h
having at the moment every morning for the last\h\h

33
00:03:26,760 --> 00:03:33,180
week I've been waking up to hundreds of new emails\h
literally in some cases thousands of new messages\h\h

34
00:03:33,180 --> 00:03:40,980
it is absolutely extraordinary because the public\h
clearly do not buy the Legacy Media line and for\h\h

35
00:03:40,980 --> 00:03:47,580
good reason it's really important that that we\h
keep the pressure up price because frankly there's\h\h

36
00:03:47,580 --> 00:03:52,320
something that doesn't make sense about all of\h
this I'll let you finish the point you were about\h\h

37
00:03:52,320 --> 00:03:56,580
to make I was just going to say so then I started\h
you know looking at some of the other stuff and\h\h

38
00:03:56,580 --> 00:04:02,160
we can come back to our media hits and errors\h
later and we should but I it was interesting\h\h

39
00:04:02,160 --> 00:04:08,520
that as the government more and more said well\h
doesn't look like anything maybe it's Chinese\h\h

40
00:04:08,520 --> 00:04:14,340
might be something else but you know nothing to\h
see here folks the coverage seemed to think that\h\h

41
00:04:14,340 --> 00:04:21,060
everybody who was interested in UAP accuracy or
Revelation or anything would be disconsolate oh my

42
00:04:21,060 --> 00:04:26,280
God they're not ETS but I don't think I knew very
many people who actually thought that these that

43
00:04:26,280 --> 00:04:32,520
we were shooting down were ETS I think the bigger
problem and the one I want to highlight today is

44
00:04:32,520 --> 00:04:38,760
if you look at the number of UAP that have been
looked at by our own government in the past years

45
00:04:38,760 --> 00:04:46,980
as we put out these reports uh those UAP were not
slow high flying objects they were actually craft

46
00:04:46,980 --> 00:04:53,940
that were flying at much higher speeds and at
much lower elevation and in close proximity to our

47
00:04:53,940 --> 00:05:00,180
military Maneuvers so we're not we're these are
apples and oranges so having said that let's go

48
00:05:00,180 --> 00:05:06,180
back into these these Chinese balloons and and or
whatever else they are and and try to dissect that

49
00:05:06,180 --> 00:05:11,700
okay let's get one thing off the top first there
is a very deliberate strategy I think coming from

50
00:05:11,700 --> 00:05:19,260
the PIN ended on to try to conflate what these
probable balloons or drones were or are that was

51
00:05:19,260 --> 00:05:25,500
shot down with the broader issue of unidentified
aerial phenomena that have been recorded by

52
00:05:25,500 --> 00:05:31,440
military Pilots civilian pilots and other
sightings Witnesses for many many years going back

53
00:05:31,440 --> 00:05:36,360
decades it's a deliberate conflation and I think
what they're doing is they're opportunistically

54
00:05:36,360 --> 00:05:43,380
trying to muddy the waters to leave the general
public that's sadly not so well informed with the

55
00:05:43,380 --> 00:05:48,780
impression that yes in the long run the general
explanation for all of these things is going to

56
00:05:48,780 --> 00:05:54,120
be that these are foreign incursions probably by
state actors sending balloons or maybe they're a

57
00:05:54,120 --> 00:05:58,500
stray with a balloon but don't you worry your
tiny little heads we've got this thing under

58
00:05:58,500 --> 00:06:06,660
control now the big thing from this whole week is
that the White House is not in control any more

59
00:06:06,660 --> 00:06:13,740
of the narrative and neither is the Pentagon the
public want answers the in not buying the official

60
00:06:13,740 --> 00:06:19,380
explanation I've just been watching a video
earlier on this morning from a guy who purports

61

00:06:19,380 --> 00:06:26,280

to be near one of the Alaska sightings areas he\h
says he's as close as he can possibly get to where\h\h

62

00:06:26,280 --> 00:06:33,780

the object must have been downed and what you see\h
is a featureless expanse of white ice and snow and\h\h

63

00:06:33,780 --> 00:06:39,900

he says there's been no aerial activity over that\h
area for the past few days if someone's doing a\h\h

64

00:06:39,900 --> 00:06:44,520

search they're not doing it over the area where\h
the fighter jets were known to bring this object\h\h

65

00:06:44,520 --> 00:06:52,920

down I think there does need to be a very rigorous\h
questioning of the White House and of the Pentagon\h\h

66

00:06:52,920 --> 00:06:57,540

the other thing that's happened Bryce is that\h
there was an announcement that I think has largely\h\h

67

00:06:57,540 --> 00:07:03,300

been overlooked by a lot of people that the Biden\h
Administration the executive arm of government has\h\h

68

00:07:03,300 --> 00:07:08,640

announced from the White House the creation of\h
an interagency team including officials from the\h\h

69

00:07:08,640 --> 00:07:14,760

Pentagon the Federal Aviation Administration the\h
Department of Homeland Security and other parts\h\h

70

00:07:14,760 --> 00:07:20,340

of the executive branch and it's to be headed\h
by the National Security adviser Jake Sullivan\h\h

71
00:07:20,340 --> 00:07:27,540
now this is significant this matters and it\h
matters for reasons I don't think people yet\h\h

72
00:07:27,540 --> 00:07:34,380
understand I am told and I can't go into a lot\h
of detail but I am told that there is significant\h\h

73
00:07:34,380 --> 00:07:41,340
difference between the White House and sections\h
of the military command in the Pentagon notably\h\h

74
00:07:41,340 --> 00:07:50,160
the U.S Air Force and NORAD over what the position\h
is to be about this issue everybody I notice a lot\h\h

75
00:07:50,160 --> 00:07:58,380
of the congressmen and Senators have been saying\h
that Arrow um the pentagon's UFO UAP investigation\h\h

76
00:07:58,380 --> 00:08:04,680
organization headed by Sean Kirkpatrick or\h
properly to be running investigations into\h\h

77
00:08:04,680 --> 00:08:11,880
this issue but people are missing the point the\h
White House has appointed its political National\h\h

78
00:08:11,880 --> 00:08:20,160
Security representative Jake Sullivan to look at\h
this issue why ask yourselves why has it done that\h\h

79
00:08:20,700 --> 00:08:27,540
why for example did the National Security\h
Council spokesman uh Jake Kirby earlier in the\h\h

80
00:08:27,540 --> 00:08:35,700
week directly contradict the Pentagon and NORAD\h
when NORAD far too quickly jumped up and down and\h\h

81

00:08:35,700 --> 00:08:42,300

said we know what these things are major Olivier
Gallant from NORAD pompously announced that we

82

00:08:42,300 --> 00:08:46,200

know what these things are and then he clamped up
and said we're not going to tell you what they are

83

00:08:46,200 --> 00:08:52,440

but it's quite clear from the background briefings
given to cozy little chats with the Legacy Media

84

00:08:52,440 --> 00:08:58,620

such as the New York Times And The Wall Street
Journal it's quite clear that the Pentagon wants

85

00:08:58,620 --> 00:09:04,560

this issue to go away they've definitively said
yes these are balloons more importantly the Press

86

00:09:04,560 --> 00:09:11,040

is now being briefed that most and in fact in a
briefing to the governors yesterday the governors

87

00:09:11,040 --> 00:09:17,340

around America were told that the vast majority of
these unidentified aerial phenomena that have been

88

00:09:17,340 --> 00:09:24,360

detected in our air space going back years will
turn to be clutter such as balloons such as the

89

00:09:24,360 --> 00:09:32,100

ones that have been shot down over the U.S this is
a massive red herring I'm told and I don't think

90

00:09:32,100 --> 00:09:39,180

the White House is buying this narrative Joe Biden
is under pressure like a president has never been

91

00:09:39,180 --> 00:09:47,220

before to tell the truth about what the government
knows not just about these balloon shootdowns but

92

00:09:47,220 --> 00:09:53,640

more importantly about what the Pentagon and the
government knows what the government has been

93

00:09:53,640 --> 00:10:00,000

briefed about these unidentified aerial phenomena
that we now know from Senators walking out of a

94

00:10:00,000 --> 00:10:08,940

briefing yesterday has been seen for decades
as that colorful that colorful character John

95

00:10:08,940 --> 00:10:14,280

Kennedy from I think he's uh come out of one
of the briefings and he said uh senator from

96

00:10:14,280 --> 00:10:22,140

Louisiana right yeah he came he said the cow is
out of the barn no Bryce Where I Come From A lot

97

00:10:22,140 --> 00:10:28,380

of people think cow is out of the barn means that
your zipper is halfway undone so I I took a bit

98

00:10:28,380 --> 00:10:32,280

of I had to do a bit of Googling to figure out
what the honorable Senator was referring to but

99

00:10:32,280 --> 00:10:39,060

I presume he means that the story is out and can't
be put back in the box and uh that's interesting

100

00:10:39,060 --> 00:10:45,720

the kangaroo is out on the road uh who knows uh
listen you you raise a lot of great questions

101

00:10:45,720 --> 00:10:50,160

and you're a great reporter to be thinking of
all of them and I look forward to the day when

102

00:10:50,160 --> 00:10:54,900

people who are in those White House briefings
and Congressional briefings have the stones to

103

00:10:54,900 --> 00:11:01,020

ask some of them out loud I also look forward to
the time when uh we can get our need to know chops

104

00:11:01,020 --> 00:11:05,580

into those media meetings and start asking them
because they obviously need to be talked about

105

00:11:05,580 --> 00:11:10,800

it is interesting I'm hearing the same thing that
you are hearing I mean let's face it to be caught

106

00:11:10,800 --> 00:11:17,640

unawares by this is really kind of a bizarre uh
attitude to have because first of all there's been

107

00:11:17,640 --> 00:11:23,760

80 years of this stuff so there was ample time
to get a response together but also uh this this

108

00:11:23,760 --> 00:11:28,920

has been happening in in such a time frame that
over the last five years people have been talking

109

00:11:28,920 --> 00:11:35,400

about UAP as we have documented in 2028 previous
episodes to this so I don't know why they would be

110

00:11:35,400 --> 00:11:42,000

necessarily uh caught you know out of out of that
and in fact you're right the White House has kind

111

00:11:42,000 --> 00:11:46,380

of lost control of the narrative but partly\h
because they never got out front of it they\h\h

112

00:11:46,380 --> 00:11:52,080

sent uh they sent press secretaries out and some\h
generals but clearly the nation wanted to hear\h\h

113

00:11:52,080 --> 00:11:56,880

from the president and I think it will probably\h
go down in history as a mistake on Biden's part\h\h

114

00:11:56,880 --> 00:12:02,940

not to have gotten out in front of it I understand\h
though that he is expected to speak they were a\h\h

115

00:12:02,940 --> 00:12:07,620

little unclear about what date that would be but\h
no later than the 20th they said but I'm thinking\h\h

116

00:12:07,620 --> 00:12:14,580

to myself the 20th come on how about three days\h
ago at the very least but I will say this um I'm\h\h

117

00:12:14,580 --> 00:12:20,220

in favor of Biden being as honest as he possibly\h
can um I wrote a bunch of articles for this Trail\h\h

118

00:12:20,220 --> 00:12:25,260

of the saucer's publication on medium last year\h
one of them was a speech that I had written for\h\h

119

00:12:25,260 --> 00:12:29,940

Biden that he should give when the first report\h
came out now of course he didn't give that speech\h\h

120

00:12:30,660 --> 00:12:37,620

um because it it talked about UAP and and and the\h
reality of UAP I think he should do it this time\h\h

121

00:12:37,620 --> 00:12:43,140

I mean I think he's got the perfect opportunity\h
I don't think he'll he'll do that now uh final\h\h

122

00:12:43,140 --> 00:12:50,520

uh conclusion about that um a lot of people are\h
preparing to be disappointed they're preparing\h\h

123

00:12:50,520 --> 00:12:56,580

to say well if they're going to dismiss the whole\h
thing as Chinese satellites or or rather balloons\h\h

124

00:12:56,580 --> 00:13:02,940

or uh other surveillance equipment then I guess\h
that's the end of it we don't have to to look\h\h

125

00:13:02,940 --> 00:13:08,460

any further but I think what's interesting is\h
I heard over the weekend Chuck Schumer uh who\h\h

126

00:13:08,460 --> 00:13:11,820

is the majority leader of the Senate saying\h
that he thought there should be some kind\h\h

127

00:13:11,820 --> 00:13:17,040

of bipartisan commission you were just talking\h
about what they are doing and here's the thing\h\h

128

00:13:18,180 --> 00:13:24,120

you can't contain the truth once you start\h
looking for it so if you do have Congressional\h\h

129

00:13:24,120 --> 00:13:28,740

hearings of any kind uh the first thing you're\h
going to start looking for is well what's the\h\h

130

00:13:28,740 --> 00:13:33,900

China angle what's the Russia angle what who's\h
doing this but the more you look for that the\h\h

131

00:13:33,900 --> 00:13:39,660

more you're going to find exotic technology\h
out there and so this might be the path that\h\h

132

00:13:39,660 --> 00:13:44,340

people have been wondering about for years how\h
we get to disclosure of of some kind of Truth\h\h

133

00:13:44,880 --> 00:13:51,000

now I think we need to just go\h
back retrospectively and look and\h\h

134

00:13:51,000 --> 00:13:56,520

listen to what has been said officially by the\h
defense department this isn't idle speculation\h\h

135

00:13:57,180 --> 00:14:03,420

the thing that sticks out to me is that very\h
early on in this Sagar of the shutdown of\h\h

136

00:14:03,420 --> 00:14:10,560

these thrill three still unidentified objects it\h
was the U.S military commander for North America\h\h

137

00:14:10,560 --> 00:14:19,440

General Glenn van hurk who said I am not able to\h
categorize how these objects stay aloft it could\h\h

138

00:14:19,440 --> 00:14:26,580

be a gaseous type of balloon inside a structure\h
or it could be some type of propulsion system\h\h

139

00:14:27,420 --> 00:14:32,820

and then he was asked by a journalist whether he'd\h
ruled out isn't it so nice of the media to suggest\h\h

140

00:14:32,820 --> 00:14:37,500

that it can't possibly be extraterrestrials\h
whether he'd ruled out the UFOs were operated\h\h

141

00:14:37,500 --> 00:14:44,580

by extraterrestrials and Van der Hurk quite correctly
responded I haven't ruled out anything at this

142

00:14:44,580 --> 00:14:51,720

point now what's interesting is at this point
newspapers started reporting that it wasn't

143

00:14:52,380 --> 00:14:57,060

aliens it wasn't extraterrestrials and nobody
I'm not suggesting that it is aliens or

144

00:14:57,060 --> 00:15:03,360

extraterrestrials but what's fascinating is that
somebody was pumping The Narrative Bryce I've

145

00:15:03,360 --> 00:15:10,980

spoken to two journalists on major newspaper or
television organizations in the United States who

146

00:15:10,980 --> 00:15:16,740

tell me that the briefings to Media suggesting
that there was something anomalous about these

147

00:15:16,740 --> 00:15:24,360

objects came from senior defense sources they
won't tell me who those sources are but there

148

00:15:24,360 --> 00:15:28,860

were defense sources suggesting that there
was something anomalous about these objects

149

00:15:28,860 --> 00:15:35,700

and if you remember there was an article that
was featured in a lot of media quite early on

150

00:15:35,700 --> 00:15:42,360

suggesting that one of these objects had meddled
with the weapons sensor systems of one of these

151

00:15:42,360 --> 00:15:48,420

jet aircraft and I've noticed that Chris Mellon
in his statement that was published 23 hours

152

00:15:48,420 --> 00:15:55,380

ago he's actually picked up on this issue and he
attaches significance to it He suggests that it

153

00:15:55,380 --> 00:16:01,800

is concerning that the object that reportedly
interfered with U.S Fighters over Alaska is

154

00:16:01,800 --> 00:16:07,860

highly unusual and may prove to be a Chinese
or Russian electronic warfare or spy platform

155

00:16:08,400 --> 00:16:15,780

and then he goes on to say well perhaps albeit
highly unlikely a probe placed by an alien species

156

00:16:15,780 --> 00:16:23,280

almost although most UAP likely have conventional
explanations some demonstrate capabilities that

157

00:16:23,280 --> 00:16:27,720

seem inexplicable without reference to
a more advanced Nation or civilization

158

00:16:28,320 --> 00:16:34,980

now again we're not suggesting that these balloons
that showed allegedly according to unnamed defense

159

00:16:34,980 --> 00:16:41,580

officials are alien but they certainly displayed
anomalous features and now the Pentagon and the

160

00:16:41,580 --> 00:16:46,740

White House are walking back at a hundred miles
an hour from those comments about which they were

161

00:16:46,740 --> 00:16:52,620

briefing the media and I think we have to ask we\h
shouldn't just let this go like the mainstream\h\h

162

00:16:52,620 --> 00:16:59,520

media so regularly does we shouldn't let go of\h
the fact that it wasn't the the tin foil hat\h\h

163

00:16:59,520 --> 00:17:06,900

UFO Fringe sections of the UFO social media that\h
were making these claims it was senior defense\h\h

164

00:17:06,900 --> 00:17:12,120

officials that were suggesting that these objects\h
were anomalous and that somehow they were able\h\h

165

00:17:12,120 --> 00:17:18,420

to remotely interfere with the weapons sensor\h
systems of a highly sophisticated fighter jet\h\h

166

00:17:18,420 --> 00:17:25,680

don't let go of that why on Earth was somebody\h
in the defense department promoting such an idea\h\h

167

00:17:26,700 --> 00:17:32,220

I'd like to know what your take on that is\h
and uh I mean let's face it they shouldn't\h\h

168

00:17:32,220 --> 00:17:37,980

be briefing something they don't believe in so if\h
they're even opening that door a little bit there\h\h

169

00:17:37,980 --> 00:17:42,960

must be motive or motivation for that what's your\h
take what why well I mean the thing I find amusing\h\h

170

00:17:42,960 --> 00:17:47,460

about all of this is I'm learning I'm worried that\h
we're all being set up I'm worried that this is\h\h

171
00:17:47,460 --> 00:17:53,700
almost like they've basically gone it's all about\h
aliens you know they've basically had General van\h\h

172
00:17:53,700 --> 00:17:59,460
um General Glenn van hurk basically saying look\h
I can't rule out aliens there's been private\h\h

173
00:17:59,460 --> 00:18:04,860
briefings suggesting that it might be in some\h
way anomalous that it represents a technology\h\h

174
00:18:04,860 --> 00:18:10,260
that's able to do things to Modern fighter jets\h
that that is concerning to National Security\h\h

175
00:18:10,260 --> 00:18:15,960
officials and then all of a sudden once they've\h
promoted that idea they start walking back from it\h\h

176
00:18:16,500 --> 00:18:22,380
I I don't think what I'm very very sure of Bryce\h
is we are not getting the full story and there's a\h\h

177
00:18:22,380 --> 00:18:27,900
few things that we need to drill in on because\h
in my line of work what you do is you try and\h\h

178
00:18:27,900 --> 00:18:34,500
avoid the Clutter and you stick to what you know\h
now what we know is that there is Vision there\h\h

179
00:18:34,500 --> 00:18:40,140
is Fleur forward looking infrared vision there is\h
probably gun camera vision from the deployment of\h\h

180
00:18:40,140 --> 00:18:45,660
The Sidewinder missile and there may indeed be\h
other Optics that we don't know about on those\h\h

181
00:18:45,660 --> 00:18:52,620
aircraft that Vision needs to be released now we know because uh Senator Marco Rubio talked about

182
00:18:52,620 --> 00:18:58,080
this yesterday there is palpable anger among a lot of the Senators and congressmen that have

183
00:18:58,080 --> 00:19:04,260
been briefed on this issue that they're not being given the full story and it's frankly incumbent on

184
00:19:04,260 --> 00:19:09,360
people who are concerned about this issue because it's not going to happen in Legacy Media to press

185
00:19:09,360 --> 00:19:15,300
for the Congressional representatives to keep on asking questions you the citizen are more

186
00:19:15,300 --> 00:19:21,480
powerful than you realize it's worth your while to get on the blower get on the phone and ring your

187
00:19:21,480 --> 00:19:27,300
Senator or your Congress person and basically let them know that you want these questions asked the

188
00:19:27,300 --> 00:19:32,340
video material did you see that buck pass when there was a question asked at the White House

189
00:19:32,340 --> 00:19:37,380
Press Conference or maybe it was General I can't remember who it was but I think it was Jake Kirby

190
00:19:37,380 --> 00:19:43,680
the National Security Council spokesperson was asked about video and he implicitly acknowledged

191

00:19:43,680 --> 00:19:49,680

that there is video but said you'll have to ask\h
the Department of Defense about that that is a\h\h

192

00:19:49,680 --> 00:19:57,840

buck pass the White House needs to release this\h
Vision no if it's just balloons if the Pentagon\h\h

193

00:19:57,840 --> 00:20:02,940

has as it has smugly been asserting to the\h
New York Times The Wall Street Journal Fox\h\h

194

00:20:02,940 --> 00:20:09,900

News ABC CNN if it's been telling all these media\h
on background so that it's not attributed to them\h\h

195

00:20:09,900 --> 00:20:14,940

directly that these are balloons don't you worry\h
your tiny little heads were on top of this issue\h\h

196

00:20:14,940 --> 00:20:20,820

they need to release the evidence and the only\h
evidence we have thus far is what the pilots\h\h

197

00:20:20,820 --> 00:20:27,780

have said and frankly what the pilots have said\h
is very very inconclusive the audio has leaked\h\h

198

00:20:28,320 --> 00:20:34,680

and in one of the incidents the pilots are saying\h
in the targeting pod I can't tell if it's metallic\h\h

199

00:20:34,680 --> 00:20:40,920

or what but I can see like lines coming down\h
below it I can't see anything below it you can\h\h

200

00:20:40,920 --> 00:20:45,900

definitely see strings below but I don't see\h
anything hanging below so this is essentially\h\h

201

00:20:45,900 --> 00:20:50,520

painting a picture of perhaps something\h
balloon-like in the sense that there's a\h\h

202

00:20:50,520 --> 00:20:56,100

larger structure with strings hanging down there's\h
a suggestion that the object was metallic black\h\h

203

00:20:56,100 --> 00:21:01,680

in the radio call and that it was shiny enough\h
to reflect the Sun so perhaps metallic and then\h\h

204

00:21:01,680 --> 00:21:06,960

one of the pilots says looking it's it's like\h
blackish I'm going to call it like a container\h\h

205

00:21:06,960 --> 00:21:14,220

can't really tell though what the shape is I've\h
got a tone he says indicating that the missiles\h\h

206

00:21:14,220 --> 00:21:19,320

locked on and he has a good track but he can't\h
see through the glare of the cockpit it looks dark\h\h

207

00:21:20,400 --> 00:21:30,300

does it sound like a container not really what's\h
this just to finish the point General then uh hook\h\h

208

00:21:30,300 --> 00:21:37,200

also said at one stage that if it was a balloon it\h
was a balloon with some kind of structure inside\h\h

209

00:21:37,200 --> 00:21:45,780

of it right not I I all of these inconsistencies\h
and apparent contradictions do we just meekly go\h\h

210

00:21:45,780 --> 00:21:54,720

oh it's the Pentagon they wouldn't lie to us we\h
wouldn't get misled I look frankly if people don't\h\h

211

00:21:54,720 --> 00:22:00,480

want to know if they really can't be bothered just\h
go back to your lives just get on with your lives\h\h

212

00:22:00,480 --> 00:22:04,980

and meekly accept the fact that the mainstream\h
media isn't going to ask more questions about\h\h

213

00:22:04,980 --> 00:22:10,800

this but you guys who are listening you you've got\h
to rock the boat and ask get your Congressional\h\h

214

00:22:10,800 --> 00:22:16,320

Representatives wound up about this because they\h
already are wound up about this they're very very\h\h

215

00:22:16,320 --> 00:22:23,160

concerned that this is a national security threat\h
these incursions of these objects as John Kennedy\h\h

216

00:22:23,160 --> 00:22:30,600

said these objects have been flying over us for\h
years many years we've known about these objects\h\h

217

00:22:30,600 --> 00:22:37,020

for years we're not sure what we've known about\h
that we've known about all of them except for\h\h

218

00:22:37,020 --> 00:22:43,680

the Chinese spy balloon we don't know what they\h
are that's what Senator John Kennedy said after\h\h

219

00:22:43,680 --> 00:22:50,040

he walked out of the briefing to Senators on\h
Tuesday the 14th yesterday America time now\h\h

220

00:22:50,040 --> 00:22:56,580

why is it that you've got pompous unnamed people\h
from the Pentagon talking to their tame friends\h\h

221
00:22:56,580 --> 00:23:02,460
in mainstream media saying yes we know what these\h
are don't you worry they're just balloons you know\h\h

222
00:23:02,460 --> 00:23:09,000
we're on top of things guys and then you've got\h
Senators being told in a private briefing we don't\h\h

223
00:23:09,000 --> 00:23:17,940
know what they are think guys ask questions yes\h
sir well first of all I was alive during Vietnam\h\h

224
00:23:17,940 --> 00:23:23,940
so um I know better than to trust the Pentagon\h
when it tells us things without questions uh\h\h

225
00:23:23,940 --> 00:23:28,740
just a couple of quick things for people who are\h
watching us in real time here uh Ross I think you\h\h

226
00:23:28,740 --> 00:23:36,300
meant instead of a a structure inside a balloon\h
it's a balloon inside a structure maybe yeah and\h\h

227
00:23:36,300 --> 00:23:41,820
the the other thing for folks who don't live in\h
Australia where you guys call videotape Vision\h\h

228
00:23:42,720 --> 00:23:48,900
um I don't think correct we would call it I guess\h
videotape or or whatever but I don't think a lot\h\h

229
00:23:48,900 --> 00:23:54,420
of people know that's what you mean so by Vision\h
what Ross is talking about is that all of these\h\h

230
00:23:54,420 --> 00:24:00,000
intercepts to go look and see what was there\h
they don't exist out of nowhere they're on\h\h

231
00:24:00,000 --> 00:24:05,820
tape and those can be allowed to be seen what's
interesting is whether they'll let us see the

232
00:24:05,820 --> 00:24:13,320
whole thing remember those uh first three videos
that were released back in 2017 20 uh in 2017 were

233
00:24:13,320 --> 00:24:20,280
just little clips and we still never have seen the
entire uh the entire thing and we probably should

234
00:24:20,280 --> 00:24:26,220
get a chance to look at what everyone's talking
about I think a picture is worth a thousand words

235
00:24:26,220 --> 00:24:31,980
and it would be nice to to do that when we talk
about lines coming off things by the way in a way

236
00:24:31,980 --> 00:24:36,960
that is reminiscent of the Tic Tac where they had
the people who described it up close thought there

237
00:24:36,960 --> 00:24:42,540
were things trailing off it so you know I don't
know exactly what that means I don't know exactly

238
00:24:42,540 --> 00:24:48,960
what those are but um I think the thing that has
Disturbed me most about sort of just following the

239
00:24:48,960 --> 00:24:53,580
story because like a lot of you I've sort of let
this thing just wash over me you know okay I'll

240
00:24:53,580 --> 00:24:58,200
go on the internet I'll read their stories then
I'll go downstairs and watch the TV and I'll go

241
00:24:58,200 --> 00:25:04,800
between Fox and MSNBC and CNN and all these other
places and listen to how people are covering it

242
00:25:04,800 --> 00:25:11,940
and you know I got to tell you it hasn't been the
media's finest moment some of their reporting has

243
00:25:11,940 --> 00:25:17,520
been good but I think the big mistake here
has been that the sense that if these not

244
00:25:17,520 --> 00:25:23,820
are not exotic or uh otherwise anomalous then
the media feels like well the story's over now

245
00:25:23,820 --> 00:25:29,400
it's just looking into what China's doing and
that's the real story what they're ignoring is

246
00:25:29,400 --> 00:25:35,220
the literal hundreds and thousands of things
far more advanced technologically that we have

247
00:25:35,220 --> 00:25:40,320
encountered through our own pilots and through
our own eyes um I just want to follow up on what

248
00:25:40,320 --> 00:25:47,220
you were talking about Ross about uh I you know
look we're both in the media we're not here just

249
00:25:47,220 --> 00:25:52,980
to trash the media every episode but I do think
there are this is a time when it wouldn't be bad

250
00:25:52,980 --> 00:25:57,420
for the media have some kind of memory I mean I
just wrote down a few things there were so many

251

00:25:57,420 --> 00:26:02,400

there were so many things where I had to tear my
fists out of the ceiling of watching it uh one

252

00:26:02,400 --> 00:26:08,880

of them was I read an article by Jackie Waddles
of CNN and she began the article by saying many

253

00:26:08,880 --> 00:26:14,580

people have questioned whether extraterrestrial
activity is afoot the short answer no there is not

254

00:26:15,120 --> 00:26:21,660

so the whole point is to to say it
doesn't explain these four and therefore

255

00:26:22,920 --> 00:26:28,380

there's no other issue if she knew anything
about the UAP issue she would know that that

256

00:26:28,380 --> 00:26:36,600

is a very facetious way to begin Aaron Burnett
also on CNN uh one of the anchors she said just

257

00:26:36,600 --> 00:26:42,480

casually in one of uh her interviews Congress
held UAP hearings a couple of years ago she

258

00:26:42,480 --> 00:26:46,980

just tossed that off well as most of the people
who are listening to this know those hearings

259

00:26:46,980 --> 00:26:55,440

were last year in May uh that's like 10 months
ago so you know if Aaron Burnett knew anything

260

00:26:55,440 --> 00:27:00,420

about this topic she'd know when that happened
and she'd also be able to put this UAP issue into

261
00:27:00,420 --> 00:27:07,680
context that it's not just about that so I'd ask\h
her do you know what happened uh you know uh 10 in\h\h

262
00:27:07,680 --> 00:27:12,960
that hearing uh do you know who testified do you\h
know why the hearing only went one day I bet she\h\h

263
00:27:12,960 --> 00:27:17,940
doesn't then I read another article and I didn't\h
write down who wrote this because I really wish\h\h

264
00:27:17,940 --> 00:27:22,920
I had because it really infuriated me the first\h
sentence started you can put away your tin foil\h\h

265
00:27:22,920 --> 00:27:30,240
thoughts okay I'm sorry we could have retired that\h
50 years ago and you know people are not running\h\h

266
00:27:30,240 --> 00:27:35,880
around in tin foil hats and the people that Ross\h
and I know through our program here are by and\h\h

267
00:27:35,880 --> 00:27:40,800
large very very intelligent well-informed people\h
like those of you who are watching and listening\h\h

268
00:27:40,800 --> 00:27:48,300
right now so I I don't think that's reasonable\h
the LA Times uh clearly made the Assumption uh\h\h

269
00:27:48,300 --> 00:27:54,780
uh Corinne pertil of the LA Times made the false\h
assumption that an exotic or anomalous piece of\h\h

270
00:27:54,780 --> 00:27:59,820
technology automatically means alien so I will\h
explain it to you people in the media one more\h\h

271
00:27:59,820 --> 00:28:06,360
time nobody is saying that we're not saying\h
we know exactly who is responsible for it but\h\h

272
00:28:06,360 --> 00:28:13,260
Chinese balloons and weather balloons does\h
not explain all these anomalous reports and\h\h

273
00:28:13,260 --> 00:28:18,960
um okay that's my soapbox uh for the media Hall\h
in Sanford right now I give I get so frustrated\h\h

274
00:28:18,960 --> 00:28:24,360
and I'm sure you do too but my question is do you\h
think the Australian media has covered the this\h\h

275
00:28:24,360 --> 00:28:31,080
any differently than our U.S media it's funny\h
I do detect a turn uh there is the beginning\h\h

276
00:28:31,080 --> 00:28:36,120
of an impatience in the Australian media with\h
the way that the government in my country has\h\h

277
00:28:36,120 --> 00:28:40,800
its head in the sand because whilst in America\h
your government has acknowledged that there is a\h\h

278
00:28:40,800 --> 00:28:46,800
reality that there is a genuine mystery involving\h
unidentified anomalous phenomena in my country\h\h

279
00:28:46,800 --> 00:28:51,120
they really truly just try and ignore it and I've\h
got this ridiculous situation I went on National\h\h

280
00:28:51,120 --> 00:28:58,200
Television here yesterday and did an interview on\h
Sky News uh which is one of the big news networks\h\h

281

00:28:58,200 --> 00:29:03,300

here in Australia and I said look I I know for a\h
fact because I'm talking to Pilots all the time\h\h

282

00:29:03,300 --> 00:29:07,980

who tell me that they're seeing these objects\h
and they're getting the messaging from the Air\h\h

283

00:29:07,980 --> 00:29:12,840

Force and the Defense Force of this country\h
that they don't want to know about it and so\h\h

284

00:29:12,840 --> 00:29:17,580

they're actually coming to me they're talking to\h
me privately and indeed in some cases some of them\h\h

285

00:29:17,580 --> 00:29:22,260

have reported them onto American organizations\h
like mufon because they they don't know where to\h\h

286

00:29:22,260 --> 00:29:27,000

go and the messaging is don't talk to us about\h
it we don't want to know about it now Bryce\h\h

287

00:29:27,000 --> 00:29:33,240

the the thing that I want to emphasize I'm going\h
to drop a massive hint here there's something \h\h

288

00:29:33,240 --> 00:29:39,660

know there is Major dissent I'm going to say it\h
again there is Major dissent between the Biden\h\h

289

00:29:39,660 --> 00:29:47,280

White House and the Pentagon right now about the\h
failure by different agencies in the military to\h\h

290

00:29:47,280 --> 00:29:54,180

tell the truth and I just want to point you all\h
to some statements that Christopher melon in his\h\h

291

00:29:54,180 --> 00:30:00,900

recent statement released 24 hours ago Chris Mellon basically says that um at the time of

292

00:30:00,900 --> 00:30:08,340

the 2004 Nimitz incident U.S Air Force f-22s were operating in the same training areas as the Navy

293

00:30:08,340 --> 00:30:16,080

Navy aviators who were seeing and Reporting these objects yet despite having Superior sensor systems

294

00:30:16,080 --> 00:30:24,120

these U.S Air Force pilots did not report the UAP that must have been detected by their radars

295

00:30:24,120 --> 00:30:28,800

and he actually goes on to say the preliminary assessment to provided to Congress was almost

296

00:30:28,800 --> 00:30:35,340

completely devoid of information from the U.S Air Force despite the fact that the Air Force has far

297

00:30:35,340 --> 00:30:42,360

more aircraft and sensor systems than the Navy as well as the responsibility for supporting NORAD

298

00:30:43,140 --> 00:30:51,780

it is my understanding that Norad did not include in the odni report any of the thousands

299

00:30:51,780 --> 00:30:58,920

of uncorrelated targets that its Radars identify each year over North America and he goes on to

300

00:30:58,920 --> 00:31:03,960

make the point that yeah sure a lot of those are in correlated targets might be clutter but the

301
00:31:03,960 --> 00:31:09,120
point is there's two issues that come out of what
we now know one you have a former deputy assistant

302
00:31:09,120 --> 00:31:16,560
under Secretary of Defense Chris Millen saying
flatly accusing the air force of essentially being

303
00:31:16,560 --> 00:31:23,520
uncooperative and he actually goes on to say there
are more serious cases that the Air Force did not

304
00:31:23,520 --> 00:31:30,840
report including it now seems cases where U.S
and or Canadian Air Forces scrambled fighter jet

305
00:31:31,380 --> 00:31:39,420
to intercept UAP this is an allegation from
a former very senior defense official who is

306
00:31:39,420 --> 00:31:45,540
saying the U.S Air Force is being uncooperative
now roll forward from the context of what he's

307
00:31:45,540 --> 00:31:51,780
talking about there which is a broad range of
incidents over the roughly 20 years since 2004.

308
00:31:52,860 --> 00:31:59,880
the clear messaging that is coming through
the contradictions are coming from drumroll

309
00:31:59,880 --> 00:32:07,500
largely the U.S Air Force yes nor had you had
major Olivier Gallant the spokesman for NORAD

310
00:32:07,500 --> 00:32:14,100
saying declaring on Sunday very shortly after
the shutdown we know what these objects are

311

00:32:14,820 --> 00:32:22,740

the arrogance of NORAD the arrogance of the U.S\h
Air Force that subsequently the public were told\h\h

312

00:32:22,740 --> 00:32:30,840

they're not allowed to know why the U.S Air Force\h
knows what it knows now if it's as simple as they\h\h

313

00:32:30,840 --> 00:32:36,960

have sensor systems that they don't want to reveal\h
the capacities of then they can explain that\h\h

314

00:32:36,960 --> 00:32:43,140

if the reason why they don't want to show the\h
videos the Gun Site videos is purely and simply\h\h

315

00:32:43,140 --> 00:32:49,620

because they don't want to reveal capabilities\h
they must explain that but the thing that strikes\h\h

316

00:32:49,620 --> 00:32:54,600

me as interesting here is there is a regular\h
theme running through all of this messaging\h\h

317

00:32:54,600 --> 00:33:00,900

including from good people like Chris mellum\h
the U.S Air Force is deliberately subverting\h\h

318

00:33:00,900 --> 00:33:08,160

the Public's right to know he's calling out\h
the U.S Air Force in his article and it's\h\h

319

00:33:08,160 --> 00:33:12,780

interesting because the same thing's happening\h
with my Air Force here in Australia you have the\h\h

320

00:33:12,780 --> 00:33:19,140

chief of air stuff for the Royal Australian\h
Air Force telling the parliament things that\h\h

321
00:33:19,140 --> 00:33:25,260
um I think might be coming into question in
coming weeks but I'll just leave it at there

322
00:33:26,160 --> 00:33:33,600
listen um I heard your uh interview on sky and
um I thought it was excellent uh I I'd expect

323
00:33:33,600 --> 00:33:38,700
nothing less but what I thought was particularly
excellent is that Sky would have somebody on like

324
00:33:38,700 --> 00:33:46,380
yourself who actually understands something about
this issue of UAP and I did notice over much of

325
00:33:46,380 --> 00:33:51,300
my television viewing over the weekend that many
of the people who kept break getting brought onto

326
00:33:51,300 --> 00:33:55,320
these panels they knew something about China
maybe they knew something about the military

327
00:33:55,320 --> 00:34:02,820
but they seemed to be incredibly ignorant about
the connection that UAP might have to the overall

328
00:34:02,820 --> 00:34:07,380
picture because you know you talked about Chris
Mellon who's a big friend of the show and we're

329
00:34:07,380 --> 00:34:16,260
we're really uh happy to have him talking uh to
us uh you know he and Lieutenant Ryan Graves who

330
00:34:16,260 --> 00:34:22,200
was one of the pilots you know they have made it
clear that Pilots are sometimes encountering these

331

00:34:22,200 --> 00:34:27,780

things every single day um in fact on one Navy\h
ship I believe leave the aviator's ready room\h\h

332

00:34:27,780 --> 00:34:34,080

literally had some kind of sign that said there\h
was a potential for mid-air collisions and the\h\h

333

00:34:34,080 --> 00:34:39,360

government's own reports have shown about 11\h
cases of potential mid-air collisions so yeah\h\h

334

00:34:39,360 --> 00:34:45,360

they need to get experts on who can probably talk\h
about some of that the other thing is though you\h\h

335

00:34:45,360 --> 00:34:52,080

make a great point the army versus the excuse me\h
the Air Force versus the Navy is not a football\h\h

336

00:34:52,080 --> 00:34:58,500

game in the United States or Australia but it is\h
something that seems to be going on historically\h\h

337

00:34:58,500 --> 00:35:05,220

and has picked up in Steam uh obviously at the\h
beginning of the UFO issue when it began in the\h\h

338

00:35:05,220 --> 00:35:10,440

40s 50s and 60s it all fell to the Air Force I\h
think the thinking was well if they're up there\h\h

339

00:35:10,440 --> 00:35:16,500

then the Air Force should take a look at it and\h
the Air Force had very mixed results on that they\h\h

340

00:35:16,500 --> 00:35:21,360

they were not given a lot of credit for really\h
digging into it and they were given some of the\h\h

341
00:35:21,360 --> 00:35:26,760
blame for diverting some of the better cases not
to a Project Blue Book but somewhere else up the

342
00:35:26,760 --> 00:35:32,820
chain of command so the truth of the matter is we
even covered it we did an entire show a few people

343
00:35:32,820 --> 00:35:37,500
want to go to the YouTube page you'll see that
show where we talked about uh the Air Force versus

344
00:35:37,500 --> 00:35:44,340
the Navy and why historically they may be behaving
that way but clearly now is the time for the Air

345
00:35:44,340 --> 00:35:49,620
Force to get with the program because Congress
is pissed off and or at least some influential

346
00:35:49,620 --> 00:35:55,140
people in Congress are and they want answers
and they want this uh detail before them so

347
00:35:55,680 --> 00:36:00,360
um they're going to get them I think one way or
the other uh whether those answers will be gotten

348
00:36:00,360 --> 00:36:07,740
in classified meetings or in an unclassified
public Arena to be worked out but I guess Ross

349
00:36:07,740 --> 00:36:16,320
as I sat there and and again let this wash over
me it was so strange as a news story I say this

350
00:36:16,320 --> 00:36:21,720
as an observer of the news and also someone who
spent a lot of his career covering news it was so

351
00:36:21,720 --> 00:36:28,140
bizarre we did an episode where we thought we were
as current as we could be with the Chinese balloon

352
00:36:28,140 --> 00:36:36,180
and then boom boom boom one per day for three
days we shoot down another UAP now whether they're

353
00:36:36,180 --> 00:36:42,840
Chinese Russian or a player to be named later or
exotic and anomalous that's still being sorted out

354
00:36:42,840 --> 00:36:49,260
but my question uh that I think we might want to
ask because I see people who are making comments

355
00:36:49,260 --> 00:36:57,600
on on this show uh seem to have this on their
mind why why if you go 80 some years and don't

356
00:36:57,600 --> 00:37:03,360
actually talk about shooting anything down why
now why do you think it was now why did they do it

357
00:37:04,920 --> 00:37:08,880
that's a very good question can
I just quickly emphasize a point

358
00:37:10,500 --> 00:37:16,500
you've talked about the clash between the Navy the
U.S Navy and the U.S Air Force I've made the point

359
00:37:16,500 --> 00:37:22,560
that the US Air Force is Accused flatly by a form
of very senior defense official in an article 24

360
00:37:22,560 --> 00:37:29,220
hours ago of essentially obstructing the Public's
right to know of hindering UFO UAP transparency

361

00:37:30,120 --> 00:37:37,860

I'll go further is the White
House interagency panel a response

362

00:37:37,860 --> 00:37:44,760

to something that the U.S Navy at a very high
level has come to the White House about is the

363

00:37:44,760 --> 00:37:53,220

dissent between the U.S Air Force and the U.S Navy
at a very high command level such that possibly

364

00:37:53,220 --> 00:38:00,600

a senior commander of the U.S Navy has gone to
the Biden White House and told them something

365

00:38:01,500 --> 00:38:09,540

you have to touch that in a very specific and
credible way as a question are you hearing are you

366

00:38:09,540 --> 00:38:14,460

telling you you are what would you do if you were
the White House and you learned that the Pentagon

367

00:38:14,460 --> 00:38:19,980

is being obstructive not just on this whole
balloon Saga which I think is a big red herring

368

00:38:19,980 --> 00:38:27,180

but on the broader issue of proper investigation
into an unidentified aerial phenomenon if you were

369

00:38:27,180 --> 00:38:34,080

to learn as now is official This Is the Scandal
behind all of this if you're Jake Sullivan the

370

00:38:34,080 --> 00:38:39,900

um the National Security advisor in the White
House and you learn that the U.S Air Force has

371
00:38:39,900 --> 00:38:46,260
not been telling the president about these objects\h
over U.S airspace so supposedly because and I say\h\h

372
00:38:46,260 --> 00:38:51,240
supposedly because I'm not sure I quite believe\h
it they turned down the sensitivity of their\h\h

373
00:38:51,240 --> 00:38:57,960
radar systems so much that they weren't seeing\h
these objects you would be furious that your Air\h\h

374
00:38:57,960 --> 00:39:04,980
Force which is tasked with the protection of the\h
airspace of North America would would be doing\h\h

375
00:39:04,980 --> 00:39:11,520
such a thing to effectively make America blind\h
to threats and and I read somewhere earlier in\h\h

376
00:39:11,520 --> 00:39:19,080
the week that somebody said this is a 9 11 moment\h
it is if you go back to the 911 Commission what\h\h

377
00:39:19,080 --> 00:39:24,900
did it reveal it revealed that there were sections\h
of the U.S intelligence and defense Community who\h\h

378
00:39:24,900 --> 00:39:30,540
were compartmentalizing information that needed\h
to be shared in order to protect Americans from\h\h

379
00:39:30,540 --> 00:39:37,080
a national security threat of global islamist\h
terrorism in this case what is it some 22 years\h\h

380
00:39:37,080 --> 00:39:43,440
later we have a situation where it turns out\h
the Air Force has probably known for years\h\h

381
00:39:43,440 --> 00:39:50,760
about these incursions across American airspace\h
but it hasn't been telling its president and if\h\h

382
00:39:50,760 --> 00:40:00,780
you were the president you would be pissed yeah\h
just imagine what if the U.S Navy has also become\h\h

383
00:40:00,780 --> 00:40:07,680
aware of something about the U.S Air Force and\h
what if the U.S Navy was to go to the Biden White\h\h

384
00:40:07,680 --> 00:40:13,320
House and say we don't believe the U.S Air Force\h
has been properly candid with you Mr President\h\h

385
00:40:14,700 --> 00:40:20,520
that is where I think we're at at the moment \h
don't care if you're from Australia or the United\h\h

386
00:40:20,520 --> 00:40:26,220
States that is still what is called The Game\h
Changer if that happens that is a shocking thing\h\h

387
00:40:26,220 --> 00:40:32,040
and by way by the way it was our friend Chris\h
Mellon who mentioned that uh what you were talking\h\h

388
00:40:32,040 --> 00:40:38,820
about about 9 11. in that article he posted up\h
a day ago he thought that the this the obvious\h\h

389
00:40:39,720 --> 00:40:48,120
lack of getting this right in the last week uh\h
we'll probably go down in history like 9 11 as\h\h

390
00:40:48,120 --> 00:40:53,700
you mentioned but also Pearl Harbor in other words\h
there's a security threat some of us know about it\h\h

391
00:40:53,700 --> 00:41:00,300
but we don't respond to it uh that is literally\h
uh not doing your job now one of the things that\h\h

392
00:41:00,300 --> 00:41:05,820
I thought uh as I was listening to you talk is\h
that yeah well it's not impossible what you're\h\h

393
00:41:05,820 --> 00:41:11,940
suggesting and that that you're hearing because\h
uh remember the ndaa which is the National Defense\h\h

394
00:41:11,940 --> 00:41:17,880
authorization act which uh you know people on the\h
show understand was passed last year by the house\h\h

395
00:41:17,880 --> 00:41:23,940
and the Senate and signed by Biden on December\h
23rd a couple of days before Christmas that makes\h\h

396
00:41:23,940 --> 00:41:29,280
it so much easier to start getting the truth out\h
give you a quick highlight of some of the things\h\h

397
00:41:29,280 --> 00:41:35,400
that NDA does and you'll ndaa does and you'll\h
understand among the things it does it provides\h\h

398
00:41:35,400 --> 00:41:40,260
greatly enhanced authorities and resources for\h
this program they've set up arrow with which is\h\h

399
00:41:40,260 --> 00:41:46,260
the all domain anomaly office anomaly resolution\h
office the second thing it does it mandates\h\h

400
00:41:46,260 --> 00:41:53,040
a review of all intelligence documents involving\h
UAP from 1945 to the present uh the third thing it\h\h

401
00:41:53,040 --> 00:42:01,380
does is it asks to be uh looked into to identify\h
any non-disclosure agreements related to UAP and\h\h

402
00:42:01,380 --> 00:42:07,440
then the Whopper is it directs uh well no then\h
it also directs the new Arrow office to develop\h\h

403
00:42:07,440 --> 00:42:13,260
a science plan the Whopper though for what you're\h
saying is it provides a secure process for anyone\h\h

404
00:42:13,260 --> 00:42:19,500
who has signed an official U.S government secrecy\h
agreement related to UAP to come forward and\h\h

405
00:42:19,500 --> 00:42:25,920
reveal that information to arrow and to Congress\h
regardless of the level of classification and\h\h

406
00:42:25,920 --> 00:42:32,340
without fear of Retribution and prosecution so\h
yeah if people are up in arms about what they've\h\h

407
00:42:32,340 --> 00:42:37,020
been seeing in the last week how it's been handled\h
and want to know what the truth is there's a whole\h\h

408
00:42:37,020 --> 00:42:43,320
Army of whistleblowers that are being talked to\h
right right now in our in our country so I think\h\h

409
00:42:43,320 --> 00:42:50,520
it is possible um it's more than possible it's\h
it's probable that something like what you just\h\h

410
00:42:50,520 --> 00:42:55,320
described is happening whether they've got in to\h
talk to the White House I doubt they got into the\h\h

411
00:42:55,320 --> 00:43:00,120
president but he certainly must know about it no\h
yeah so I mean I just re-emphasize to our audience\h\h

412
00:43:00,120 --> 00:43:05,580
I think the key takeaway for me on this is the\h
U.S Air Force has been caught tricking down the\h\h

413
00:43:05,580 --> 00:43:11,160
radar sensitivity in a way that Chris Mellon and\h
others were warning about I mean Louis zondo went\h\h

414
00:43:11,160 --> 00:43:16,500
public about this and resigned from his role\h
in The Pentagon because he said that certain\h\h

415
00:43:16,500 --> 00:43:22,320
individuals in the Pentagon remain staunchly\h
opposed to further research on what he said\h\h

416
00:43:22,320 --> 00:43:30,060
years ago could be a tactical threat to our Pilots\h
Sailors soldiers and perhaps even an existential\h\h

417
00:43:30,060 --> 00:43:36,000
threat to our national security that was a warning\h
that Louis zondo wrote when he left the Pentagon\h\h

418
00:43:36,000 --> 00:43:44,160
in November of 2017. and here we are what is it\h
six years later six years later and it's come\h\h

419
00:43:44,160 --> 00:43:50,400
true Chris Mellon saying the same thing these\h
guys it's five and change let's not be too hard\h\h

420
00:43:50,400 --> 00:43:56,940
on them okay cool five and change yeah but yeah I\h
mean the thing that fascinates me is I think and\h\h

421
00:43:56,940 --> 00:44:04,440
I'm hearing this things are starting to crack\h
there has been a unanimity presented publicly\h\h

422
00:44:04,440 --> 00:44:10,680
from the Pentagon that both the U.S Air Force\h
and the U.S Navy are in lockstep on this issue\h\h

423
00:44:11,220 --> 00:44:16,920
but what if you are a senior U.S Navy\h
commander and you become aware of things that\h\h

424
00:44:16,920 --> 00:44:26,340
the U.S Air Force is concealing criminally\h
improperly illegally I'll say that again\h\h

425
00:44:27,000 --> 00:44:35,400
what if you become aware as a senior commander in\h
the U.S Navy that crimes are being committed now \h\h

426
00:44:35,400 --> 00:44:40,680
personally think that anybody that is responsible\h
for such crimes should be publicly excoriated\h\h

427
00:44:40,680 --> 00:44:47,040
named and shamed but maybe the political arm of\h
your government might take a more cautious view\h\h

428
00:44:47,040 --> 00:44:54,780
maybe they might announce oh an inter-agency task\h
force to review what is known about this issue\h\h

429
00:44:55,440 --> 00:45:01,800
a political body because they no longer trust the\h
Pentagon to do the research and the investigations\h\h

430
00:45:01,800 --> 00:45:08,100
that they think are necessary that is what I think\h
is significant out of Monday's announcement from\h\h

431

00:45:08,100 --> 00:45:14,100

the White House you're you're what if does have I\h
mean you answered your own what if but I'll take\h\h

432

00:45:14,100 --> 00:45:21,300

a one step further if that is true as you said\h
what are your options well option one is heads are\h\h

433

00:45:21,300 --> 00:45:28,140

going to roll and there may be prosecutions I mean\h
that's what happens if you do illegal acts and uh\h\h

434

00:45:28,140 --> 00:45:32,340

you are found to have done it you're supposed\h
to be prosecuted the only other option would be\h\h

435

00:45:32,340 --> 00:45:38,460

the president could step in and offer a pardon\h
to people uh perhaps in exchange for Testimony\h\h

436

00:45:38,460 --> 00:45:45,180

perhaps not those are really the the basic options\h
you know but as I was I just have to say that is\h\h

437

00:45:45,180 --> 00:45:52,440

a good solid piece of information you've heard um\h
it doesn't sound out of the realm of possibility\h\h

438

00:45:52,440 --> 00:45:58,440

but I think there are so many moving parts right\h
now that this thing is so fluid that it could go\h\h

439

00:45:58,440 --> 00:46:05,400

any direction now I get more or at least better\h
emails and phone calls since we've started doing\h\h

440

00:46:05,400 --> 00:46:11,580

this show and I got the sense from a couple of\h
them that there's a sense also that the United\h\h

441
00:46:11,580 --> 00:46:16,740
States is almost in a truth race with a couple
of other countries that there are other countries

442
00:46:16,740 --> 00:46:24,120
that are supposedly thinking about being a little
more forthcoming than they have been I don't have

443
00:46:24,120 --> 00:46:29,400
the names of them or uh you know right now but
I hear that that is being talked about by some

444
00:46:29,400 --> 00:46:36,720
of these same people so we are in a place where
it it's you you could not be blamed for thinking

445
00:46:36,720 --> 00:46:42,480
it's a little confusing because on one hand you
are being told hey looks like we have a problem

446
00:46:42,480 --> 00:46:48,240
with Chinese surveillance we better get that taken
care of so that's the one thing but the other is

447
00:46:48,240 --> 00:46:54,900
you say well wait a minute you can't use Chinese
balloons or intelligence and surveillance uh from

448
00:46:54,900 --> 00:47:03,780
any country to explain all of the UAP that we
have been getting since 1947 forward so we are

449
00:47:03,780 --> 00:47:09,420
in a period where uh I I wouldn't have predicted
this you know I wrote a book with Richard Dolan

450
00:47:09,420 --> 00:47:14,340
called A.D after disclosure where we tried to
come up with every scenario imaginable about

451
00:47:14,340 --> 00:47:20,880
how this whole uh what Steve Bassett calls is the
truth embargo could could break down and I got to

452
00:47:20,880 --> 00:47:27,120
tell you the idea that we would shoot down four uh
UAP in a single week that and that didn't actually

453
00:47:27,120 --> 00:47:33,480
make it into our book because it seemed kind
of improbable and yet here we are so uh I guess

454
00:47:34,320 --> 00:47:41,220
my takeaway from this week is there's way more
here than meets the eye right now uh I don't

455
00:47:41,220 --> 00:47:47,580
need them to be alien craft to think that we are
going to start getting uh some exciting times

456
00:47:47,580 --> 00:47:52,380
where people are looking for the truth in a more
aggressive way than they have in the past and

457
00:47:52,380 --> 00:47:58,020
kind of look forward to it because uh this is an
issue that has long been kicked down the road by

458
00:47:58,020 --> 00:48:06,780
the Pentagon by the Congress by the People by the
media and this last week has proved one thing

459
00:48:06,780 --> 00:48:14,820
there is an interest in the topic but more than
that there is a demand for answers and I know

460
00:48:14,820 --> 00:48:19,140
you want them Ross and I want them too and I'm
assuming everybody who's listening to us wants

461

00:48:19,140 --> 00:48:27,900

them so now as they say let the games begin now\h
let's remind people before we go that there's a\h\h

462

00:48:27,900 --> 00:48:33,540

separate issue from these three balloons which\h
I I do emphasize will probably turn out to be\h\h

463

00:48:33,540 --> 00:48:38,520

benign it's quite clear that the US Air Force\h
knows quite a lot about them even though they\h\h

464

00:48:38,520 --> 00:48:42,900

haven't been able to recover them and I don't\h
think they're looking too hard for them I suspect\h\h

465

00:48:42,900 --> 00:48:46,800

that it's it's going to turn out that they're\h
quite benign I think what they're worried about\h\h

466

00:48:46,800 --> 00:48:51,900

is being embarrassed in that if they reveal\h
that the debris is just some weather balloon\h\h

467

00:48:51,900 --> 00:48:56,280

or something like that then they're going to\h
be accused by their opposition of of having\h\h

468

00:48:56,280 --> 00:49:02,100

overreacted and of having deployed missiles over\h
USS space in a way that was completely unwarranted\h\h

469

00:49:02,100 --> 00:49:07,020

and I think what they're all hoping is to be able\h
to dampen this issue down and let it all go away\h\h

470

00:49:07,020 --> 00:49:11,700

and they're playing the media at the moment giving\h
them the impression especially in the briefings to\h\h

471
00:49:11,700 --> 00:49:18,120
Governors that all of these uaps are going to be
explained away as such clutter now we know from

472
00:49:18,120 --> 00:49:26,820
the preliminary report to for to the dni from the
dni on the UAP issue that was tended in June of

473
00:49:26,820 --> 00:49:36,660
2021 to the Congress there were 143 military UAP
incidents since 2004 validated by multiple sources

474
00:49:36,660 --> 00:49:42,600
and more importantly in the more recent report
that's come down when the house intelligence

475
00:49:42,600 --> 00:49:48,720
committee held a public hearing on the UAP issue
last May the number of official UAP reports had

476
00:49:48,720 --> 00:49:54,600
climbed to 400 and then more recently the office
of the Director of National Intelligence submitted

477
00:49:54,600 --> 00:50:04,380
a new unclassified report that shows a hundred
and that it had classified 195 out of a 510 UAP

478
00:50:04,380 --> 00:50:12,780
incidents so the residual number of unexplained
uaps remains in excess of 300 and that doesn't

479
00:50:12,780 --> 00:50:19,800
include NORAD and frankly Ross you and I both
know and so is everyone listening that the

480
00:50:19,800 --> 00:50:28,260
actual reporting of UFOs slash UAP is is always
has always been far lower than than what people

481

00:50:28,260 --> 00:50:34,260

see in other words the average person if they\h
see a UFO often don't even tell their family\h\h

482

00:50:34,260 --> 00:50:38,700

they certainly don't tell their friends they don't\h
go to school or work and and tell everybody about\h\h

483

00:50:38,700 --> 00:50:45,000

it that may be changing a little bit but more than\h
that our military over the years has not been very\h\h

484

00:50:45,000 --> 00:50:51,600

good at encouraging people to come forward and\h
that is starting to to change a a little bit so\h\h

485

00:50:51,600 --> 00:50:58,260

um you know I just wanted to go back as we close\h
up here and remind people of what a a couple of\h\h

486

00:50:58,260 --> 00:51:04,140

points that Chris melon had made he concluded that\h
article by saying the good news is that awareness\h\h

487

00:51:04,140 --> 00:51:10,140

is rising regarding the UAP issue and we have\h
not yet suffered any acts of kinetic aggression\h\h

488

00:51:10,140 --> 00:51:16,260

or hostility from UAP the public should be more\h
relieved than alarmed as we are finally taking the\h\h

489

00:51:16,260 --> 00:51:24,120

steps to more effectively defend and control U.S\h
airspace if one or more of these UAP ultimate do\h\h

490

00:51:24,120 --> 00:51:28,920

prove to be alien the Revelation could actually\h
work to the advantage of our species I think\h\h

491
00:51:28,920 --> 00:51:38,460
that's probably true although we're about to test\h
it um I guess um if if we look forward I would put\h\h

492
00:51:38,460 --> 00:51:45,360
one little projection out there I guess if I had\h
to just uh project the future I would say we are\h\h

493
00:51:45,360 --> 00:51:50,880
entering a period people where this is going\h
to sneak into the 2024 presidential election\h\h

494
00:51:50,880 --> 00:51:58,800
I wouldn't have said that prior but now we've\h
got official reasons to be looking into UAP and\h\h

495
00:51:58,800 --> 00:52:03,780
I don't think any responsible candidate could\h
avoid being asked about it anymore so I think\h\h

496
00:52:03,780 --> 00:52:08,340
things are going to change in the next couple of\h
years yep absolutely and I think as Senator Marco\h\h

497
00:52:08,340 --> 00:52:13,680
Rubio has said um he actually said at his dual\h
stop that they they have information that is not\h\h

498
00:52:13,680 --> 00:52:20,280
currently publicly publicly available either to\h
congressmen senators or the general public and he\h\h

499
00:52:20,280 --> 00:52:27,060
said he originally said 95 and then he corrected\h
it and said 99 of the information that he was told\h\h

500
00:52:27,060 --> 00:52:32,940
in his classified briefing yesterday in the in the\h
Congress could be made public without compromising\h\h

501
00:52:32,940 --> 00:52:40,020
the security of America now it's quite clear we
are at an absolute turning point because For the

502
00:52:40,020 --> 00:52:48,600
First Time there is unanimity bipartisan unanimity
that uaps are a real life safety absolute flight

503
00:52:48,600 --> 00:52:56,700
safety and national security threat and the
Congress is not going to let this issue go as

504
00:52:56,700 --> 00:53:01,920
I really can't predict what's going to happen
in coming months but it's a very exciting time

505
00:53:01,920 --> 00:53:07,320
especially because of what I know is going on
behind the scenes because while all this has

506
00:53:07,320 --> 00:53:12,900
been happening great work is being done by the
oversight Committees of Congress the um Services

507
00:53:12,900 --> 00:53:21,900
committee the Senate intelligence committee key
people are coming forward to give evidence there

508
00:53:21,900 --> 00:53:28,560
is a Schism now there is a Schism between the
U.S Air Force and the U.S Navy and guess what

509
00:53:29,100 --> 00:53:38,040
the White House knows it as we wrap up let me
just ask you um because we've talked about well

510
00:53:38,040 --> 00:53:45,120
I'll just ask you if you had to BET right now
what do you think the four objects represent

511

00:53:46,140 --> 00:53:51,360

I think the four objects well firstly the
balloon the Spy balloon was definitely a

512

00:53:51,360 --> 00:53:56,820

Chinese the success of three objects that were
shut down that officially still unidentified

513

00:53:56,820 --> 00:54:02,580

think they'll turn out to be either some aerospace
companies mislaid experiment or maybe a balloon

514

00:54:02,580 --> 00:54:07,320

sent across from Russia or China I really don't
think they're going to turn out to be anything at

515

00:54:07,320 --> 00:54:14,520

all anomalous what is interesting though is that
as a result of the Biden government's overreaction

516

00:54:14,520 --> 00:54:19,980

to the Chinese spyballoon incursion where the
president was getting an absolute bollocksing

517

00:54:19,980 --> 00:54:25,260

for not acting quickly enough on responding
to that balloon I think he gave a shoot down

518

00:54:25,260 --> 00:54:29,820

order he told the air force that he was sick
of their nonsense and he demanded that they

519

00:54:29,820 --> 00:54:35,220

start shooting down these objects which is why we
had this crazy situation where for the first time

520

00:54:35,220 --> 00:54:40,980

in history norad's shooting down objects over
American soil that's never happened before no

521

00:54:40,980 --> 00:54:49,380

now that's a big red herring though the big issue\h
is that the Congress the arrow the aaro the all\h\h

522

00:54:49,380 --> 00:54:56,100

domain all domain anomaly resolution office and\h
now the interagency the political panel appointed\h\h

523

00:54:56,100 --> 00:55:01,380

by the White House they are putting the Pentagon\h
and the intelligence Services Under scrutiny that\h\h

524

00:55:01,380 --> 00:55:07,980

they've never done before and I can tell you guys\h
for the people watching this at command level and\h\h

525

00:55:07,980 --> 00:55:12,540

they are there we know you're watching for the\h
people who are watching in the Pentagon and the\h\h

526

00:55:12,540 --> 00:55:18,840

intelligence Community if you think that we don't\h
know what's going on we do we know a lot more than\h\h

527

00:55:18,840 --> 00:55:24,540

you realize and we're far more coordinated than\h
you realize and if you are toying with the idea\h\h

528

00:55:24,540 --> 00:55:29,820

of coming forward and giving evidence this\h
is your time you can either be an honorable\h\h

529

00:55:29,820 --> 00:55:37,140

servant of America or you can be responsible for\h
a criminal cover-up it's your call yeah it is\h\h

530

00:55:37,140 --> 00:55:41,040

um listen a couple of parting thoughts\h
then we really do have to get out of here\h\h

531
00:55:41,040 --> 00:55:45,900
um here's the thing um we're working on a show\h
where we're going to review some of the history\h\h

532
00:55:45,900 --> 00:55:51,540
because in the history all kinds of fun things\h
can be found historically there have been shoot\h\h

533
00:55:51,540 --> 00:55:58,500
down orders for what were UFOs back then in fact\h
in 1952 there were multiple shoot down orders and\h\h

534
00:55:58,500 --> 00:56:05,100
attempts and there were lots of planes that were\h
lost in the uh in the 50s by both the U.S and by\h\h

535
00:56:05,100 --> 00:56:10,020
the Soviet Union so that historical show should be\h
an eye-opener but we're doing our research on that\h\h

536
00:56:10,020 --> 00:56:16,140
I just want to end with this Ross I think we are\h
going to look back on this week and I I agree with\h\h

537
00:56:16,140 --> 00:56:22,980
you they're probably not exotic or or uh anomalous\h
as there there's probably surveillance platforms\h\h

538
00:56:22,980 --> 00:56:28,920
but I think we are going to look back on this week\h
when we sort of woke up and got a little alarmed\h\h

539
00:56:28,920 --> 00:56:34,800
and then a little pissed off and we're going to\h
look at this week as the gateway drug to the truth\h\h

540
00:56:35,460 --> 00:56:39,720
this is the thing that's going to get people\h
started and they're going to start looking\h\h

541

00:56:39,720 --> 00:56:46,320

for China and Russia and maybe Iran and they're
going to look for other places but if you start

542

00:56:47,220 --> 00:56:52,920

pushing those rocks over you're going to push one
over and it's going to be one that is non-human

543

00:56:52,920 --> 00:56:59,760

and that's my prediction we'll see if I'm
right because you all of you out there you

544

00:56:59,760 --> 00:57:05,940

have the right to know as well as the need to
know catch you on the next show everybody more
